Para 1.- The Most Noble the Governor

8322. Fort St. George 14th June 1847.

In Council regrets to observe from the Return furnished by the Board of Revenue with the foregoing letter the great increase in the number of persons brought to trial in 1846 for offences punishable under the provisions of Regulation IX of 1822. There were altogether 643 persons charged being 199 more than in the previous year of whom 65 were parties on the Collectors' Establishment and 578 Village Officers. Of the former 38 were in the Guntoor Collectorate alone, and of the latter 108 belonged to the Guntoor and 222 to the Cuddalapah Districts. In North and South Arcot, Madura and Coimbatore the number of Village Officers brought to trial was also very great while the aggregate of the ten remaining Districts where the Regulation was brought into operation presented only 57.

Ordered that the following letter be sent in consequence.

To The Collector of Cuddalapah.

Sir,

I am directed by the Board of Revenue to call your attention to the Memorandum entered in the Margin exhibiting the number of persons charged with offences under Regulation IX of 1822 for the last five years in your District and in Bellary & Adverting to the similarity of the circumstances of the two Districts they are at a loss to understand to what the remarkable discrepancy observable in the number of persons charged may be justly attributed, and they request therefore that you will in communication with the Collector of Bellary institute an enquiry into the causes of it and afford them all the explanation it may be in your power to furnish.

Relative to the Settlement of the Government Estates in the District of Masulipatam for Fusly 1255.- A.D. 1845-46.

(Here enter 22d April 18 No. 204-

Para 1- In consequence of the failure of Rain in the Season of Fusly 1255 the Cultivation of wet lands in that part of the District of Masulipatam not dependant on River Channels fell off 1/3 compared with the preceding Fusly. The loss of Revenue which would have occurred by this considerable failure of Cultivation was made good by the high prices that prevailed where the Settlement was dependant on Current rates.-

2. The Report of the Collector though noticing at its termination the general result of the Revenue of the District has especial reference to the 10 Government Estates. The settlement of them for the year amounted to Rupees 1,17,695- or Rupees 24,453 more than that of Fusly 1254- Of 159 Villages composing these Estates 94 were rented for one or more years- the Rents of

Pa 496-

some including only the wet lands in others both wet and dry- In the formation of these Rents it was stipulated that an estimation of the Crops should be made and proportionate Collections enforced in the event of excess being discovered. The Board rightly reprobate this System as checking improvement and affording opportunity for fraud as remarked by the Board- "The amount "of Rent should represent what the Government "is fairly entitled to under the circumstances "in each case and being once fixed all "interference should afterwards cease." On this principle which is in accordance with the views of Government communicated to the Board in the Extract Minutes of Consultation dated 20th April 1847 all future engagements for Rents will it is expected, be formed.-

3 Of the demand in the Government Estates amounting to Rupees 1,17,695, the large sum of Rupees 6426 remained uncollected at the date of the Collectors' Report.-

Para 1. The Season of Fusly 1255 was
throughout unfavorable and is reported by the
Collector to have been the most disastrous since
his appointment to the District of Bellary in
Fusly 1249- 18,364 Persons are stated to have
fallen victims to Cholera which raging to so great
an extent interfered with the Assembling of
the Ryots at the time of Settlement- The loss

of

of Agricultural Stock from want of forag
was also very great.-

failure of rain exhibits a decrease of 6,19

the Most Noble the Governor in Council to
as far as they extend unobjectionable and to

allowed falls far short of the Total loss which it would appear from the Statement attached to the 25th Para of the Collectors' Report was actually ascertained to have occurred, and His Lordship in Council only doubts whether the remissions on this account have been granted as liberally as the extreme adversity of the season and the permanent welfare of the Ryots demanded.-

4. The Collector has satisfactorily explained the existing practice regarding the disposal of Enam lands deserted and the remission for Enam land temporarily left waste from want of rain- with reference to the subject of the Enam lands in Korponhally Koodleghee and Kovenhadagaly His Lordship in Council, though not adverse to the con=sideration of this particular case is of opinion that as a General rule where Jodee is excessive the incorporation of the Enam with Ayen lands is preferable to Reduction of demand which if given in one instance would probably tend to encourage neglect of cultivation in other Jodee Enams with the view of obtaining similar Reduction.-

5. Of the demand for Fusly 1255- amounting to Rupees 19,70,543- Rupees 19,58,745- were

were collected within September leaving a Balance then outstanding of Rupees 11798 of which the Collector expects only a small portion will be recoverable.-

Mr. Newill subsequently made the Jummabundy of Pachoor, Yedlapully and Baupetlah. The remainder of Guntoor proper and the Palmaud were settled by Mr. Stokes. The Zemindaries of Guntoor were put up to auction for arrears on the 1st April 1846 and purchased on account of Government for Rupees 5,000 each. From the 1st May, being the commencement of the Official year the accounts were drawn up as for an unsettled District, but agreeably to the orders of the Honorable the Court of Directors, separate Accounts are to be kept for each Zemindary in which the entire Collections in each year and proportion of charges to be borne by each Estate will be exhibited. Separate Accounts of this description are required for the adjustment of arrears and in order that the actual condition of each Estate may be exhibited in comparison with what it was at the date of reversion to Government. The detached portion of the component Villages of the several Zemindaries partly in consequence of transfers and acquisitions under various circumstances and their situation in many instances in remote parts of the District, rendered a fresh distribution into Talooks of compact and convenient limits necessary. The measure was not finally

2. Mr. Stokes notices has having furnished each Ryot with a small receipt Book rudely bound, in which the Demand against him and several payments made during the year will be entered by the Curnums, also his requiring the Tahsildars and Curnums to keep their Accounts Current in Books each leaf bearing the Collectors seal, instead of loose slips of Paper as before. These improvements are judicious and are approved. A change in the renting of Pasture land is also adverted to. The Board desire that further explanation may be afforded with the Report on the Settlement of the current Fusly in regard to the former and present Systems of renting this item their comparative advantages and the modifications necessary in order to secure the double object of Check against Fraud and restriction against oppression. The increase it is thus seen arose for the most part in the sharing Villages and was occasioned by the enhanced commutation rates of the year. The Mulrauze Estate (Para 32) bears comparatively a small proportion of this increase from containing less of the sharing tenure.

8. In examining the details as furnished in the Statements forming the appendix it is seen that in some cases more than one mode of Settlement obtains in the same Village as "Mucktahs not included in the Rent" "Mucktahs in sharing Villages" "sharing land in Mucktah Villages" "and sharing land in Rented Villages." The principal items are extracted and shewn in the Margin.

It is desirable as a general rule that one uniform mode of Settlement should be adopted in the same Village and where a deviation exists the necessary explanation should be afforded. In sharing Villages where a portion only of a Village consents to a fixed Money payment, the retention of the remainder under the sharing tenure till an arrangement for a fixed payment can be made, is probably unavoidable but the sharing tenure should give place to the more approved System as soon as circumstances will admit.—

9 With the exception of Repilly, the settlement of the year falls below the permanent Peshcush in each Estate. The difference appears to be proportionately greater in the Mulraauze than in the other Estates, arising as has been already observed from a less proportion of the sharing tenure there. Hitherto the Mulraauze Bds Pro: 21st May 1846. Para 9. Estate has maintained a comparatively high standard.— A comparative view of the Peshcush and settlement is shewn in the following Statement—

The total settlement was Rupees 164139-4-11 or Rupees 23455-0-2 above the result of the preceding year. The principal items composing the increase are, as observed by the Collector, land held on Pottahs Rupees 15642-3-6 Wetland including Dasabhogum 5692-15-6 and Grazing Tax Rupees 1117-2-5. The increase is gratifying and so far as it proceeds from a more healthy state of the management it is hoped that a cause of permanent influence has been introduced, and that the Revenue will progressively attain its former standard.

15 With the exception of Rupees 1.9-14-5 the Balance in the Palmaud is entirely on Enam lands left uncultivated - The result is considered very satisfactory - The Balances against the Zemindary villages are distributed as follows -

Village rents	18697-1-7
Muckatah Villages	25877-7-6
Wet lands on share	26832-13-9
Dry lands Do.	11.005-0-0

Government and of the Board - The topics embraced are -

1st The Assessment of Wet lands and condition of the Boundary marks -
2d The want of Boundary stones in the dry lands -
3d The defective character of the survey Accounts
4th The expediency of requiring good and bad land to be given up together in cases of relinquishment of lands -
5th The operation of the Coulemamah in the Palmaud -

Assessment of Wet lands.

18. On the first of these points the Collector has submitted Statements shewing the settlement made in each village, 5 villages excepted, the Tanks of these being out of repair - The amount of settlement is obtained by multiplying the total Wet Ayacut of the village by an uniform rate per Acre. The latter is the mean of two averages of 10 years each, one from Fusly $\frac{1232}{1822-23}$ to Fusly $\frac{1241}{1831-32}$ and the other from Fusly $\frac{1246}{1835-36}$ to Fusly $\frac{1254}{1844-45}$ - The mean rate per Acre varies in the different villages and ranges from Rupees 11-4 to Rupees 5-8 - Proposals for the amount of settlement have been given by the Ryots which have been accepted for one year - The rates will undergo revision if necessary during the year -

From Coll.r 5th June In Cons.s 3d Sept.r 1846.

year. The work is still incomplete and it is not necessary to enter into any discussion in this place of what has been done. When the rates have been finally fixed a full report upon the subject in a separate Communication should be submitted accompanied by Statements in the Native language, and information should be afforded shewing the varying circumstances of each village under which its specific rate has been fixed; the suitableness of one uniform rate for all the lands of a village should also be explained. It is not supposed Mr. Stokes observes, that the boundaries of the Fields originally marked off are obliterated where they are they will be restored.

The want of Boundary Stones in Dry lands

19. The next point noticed is the want of Boundary stones in Dry lands. From a recent communication from the Collector dated 16th April 1847. it appears that this want has been supplied and that Boundary stones have been placed "to all the Fields". It is equally satisfactory to observe from the same communication that the measures adopted by the Collector for the compilation of a complete Field Register, numbered according to the site of the Fields have been brought to a successful issue without extra expense. This important document will

In Corr 13th May 1847

Defective Character of the Survey Accounts

enable

enable the Talook Authorities to check more effectually the Curnums Accounts presented to the Sumriabundy.

20. The suggestion of the Collector Para 13 to inscribe on a stone in each Field its number in the Register, was again brought under the consideration of the Board in the letter dated 16th April 1847. noticed in the preceding para, with a proposition to insert the initial letter of the Teloogoo words "sery" or "Enam" as the case may be, but adverting to the probability at no distant period of a survey of the whole District the Board considered the introduction of such a measure premature.

In Corr 13th May 1847

Prec 13th May 1847

The expediency of requiring good and bad land to be given up together and the operation of the Cowlenamah

21. The remaining subjects relate to the practice of giving up good and bad land together and to the operation of the Cowlenamah. On both points Mr. Stokes has furnished the necessary explanation and thinks it better to adhere to the existing usage than to introduce change. In the case of relinquishment of land, the relinquishment is by entire fields and it

does

does not appear that in the Palnaud "a single case could occur where a field "thrown up by one Ryot could not be cultivat- "ed by another" The term good and bad land has reference not only to the quality of the land but to the position of the Fields to be relinquished relatively with other fields. A Field may be intrinsically good but so situ- -ated that if relinquished by its ordi- -nary occupant it cannot be readily occupied by another person. In this- case it would not be proper to allow the original Holder to throw it up unless accompanied by other land which together would form a convenient Holding for a new occupant. It does not appear from Mr. Stokes' explanation that the usage of the Palnaud is opposed to the intention of the rule and such being the case the Board have no objection to it's being continued.

22. The parcelling out of the entire fields of a village according to shares with due proportions of good and bad land to which Mr. Stokes refers, is Veesabady and is

is distinct from the rule of good and bad which has just been considered, except where the Veesabady appertainment descends to indi- -vidual Holdings to be enjoyed separately and here again it is not the intrinsic quality alone of the soil, but other considerations also which determine the exact holding of each in- -dividual. In these cases the principle on which the individual Holding is regulated and the rule of good and bad in cases of relinquishment may be said to be essen- -tially the same. The portion relinquished where a Farm is contracted must be such that it may be readily incorporated with another Holding or be held as a separate Put-cut.

23. In regard to the occupation of Coule lands it is explained that much land has been relinquished during the last 4 years and until Reoccupied it is a gratuitous indulgence

indulgence to grant Remission on old Waste in the same village which there is no necessity for taking up. The Board concur in the view that recent Waste in the cases stated should be occupied before old waste is allowed to be broken up and do not object to the rule as regards the Palmand under the explanation which has been afforded.

24 The usage of the Palmands noticed in Para 19 by which Remission for land taken up but not cropped is restricted to entire fields and not to portions of fields is founded on the difficulty of checking the indulgence if given on a more liberal scale. As it does not appear to be attended with hardship the Board do not wish to enforce a change.

18th april 1846 In Cons. 9th July.

25 The last letter recorded at the head of these Proceedings affords information in regard to certain results included

included in the Land Revenue which the Collector is of opinion may be transferred to small Farms and Licences. These are:

		Average Revenue		
13	Chayroot	5	11	6
14	Tax on Spuds for digging Chayroot	6	11	6

26. The Board are of opinion that the 1st 2d 9th 10th 11th 12th and 13th items should be continued under the present head of Land Revenue. In regard to the Condaveed Rent (Item No 2) they think that the Cultivating Ryots & Labourers of that locality may be relieved from all demand for wood cut for fuel and other purposes but all other classes and persons from other Villages they are of opinion, should be required to pay as at present for the wood they take away. They accordingly beg to recommend that the demand against the Ryots and Labourers as above defined may be given up as well as the items No. 3, 4, 5, 6, 7 & 8. They would also beg to include in this recommendation the prayers of the Tax on Spuds for digging Chayroot which appears to be confined to the Talook of Bellumcondah and the Village of Coorapand provided these persons are already assessed to the Moturpha. If otherwise they are of opinion that the tax may with propriety be continued.

Ordered that a copy of the foregoing Extract from the Board's Proceedings be submitted to Government and a transcript of the same be transmitted to the Collector of Guntoor for his information and guidance.

From the Collr of Guntoor, Sir,

Stating that the arrears of Duit Rent on services Enams in Palnad may be remitted and the Enams resumed with a Money payment to those whose services are required by Government and Setting forth as doubt as to what Enams are to be considered Charitable Grants as defined in Regulation IV of 1831.

Dated 12th February 1847.

I have the honor to acknowledge the receipt of the Board's Proceedings dated 14th January last conveying their observations on my letter of the 6th August, which furnished the explanation they had called for relative to my Jumabundy Report for Fusly 1254.

2. The balances outstanding in the Palnad on lands liable to full Assessment, have been reported on in para 68 of my report on the Settlement of Fusly 1255. With respect to the balance of Duit Rent on Enams the Board suggest the proper course in case of default with respect to such Enams as fall under the denomination of Charitable Grants as defined in Regulation IV of 1831 will be their resumption. With respect to Service Enams the Board desire my opinion with reference to the Collector's Report on the Settlement for Fusly 1249.

3. On consideration I see I was in error

error in suggesting the sale of Quit Rent lands generally because under Regulation VI of 1831 I suppose no Service Enams are saleable. There appears therefore no alternative but to resume the Enam, if the Arrears be not paid, and then to remit them. The Enamdars might be informed that all lands on which the arrears are not liquidated within the next Fasly should be liable to be resumed, and in all cases where they are resumed the balances should be remitted.-

With respect to the remuneration to be allowed in lieu of resumed service Enams, it is to be observed that of the so called Village servants, many perform no service to Government, and seem not entitled to any remuneration. The Kurnum the head of the Village, the Mohtand, the Cotty men or watchers, are all useful in the public service. But it is not so clear why the Village barber, the Washerman, the Potter, the Smith, the Poraiet, and the Shroff, should be statedly remunerated by Government. They should receive full wages when employed on the Public service, and their remuneration, for

for the rest should be left to the Payets whom they serve. I think it far better that those who are strictly Government Servants and especially Kurnums and Mohtands, should be paid in money, and restricted from helping themselves to any additional emoluments as they do at present. I propose to lay before the Board a plan for effecting this, if the principle be approved of.

5. If the Board are satisfied that the Enams usually called Battawoorty, and Agrahaarums come under the definition given in Regulation IV of 1831, as grants of land revenue as a charitable allowance, it would seem that these also are precluded from sale, and in this case the same course must be adopted with respect to them. As far however as I can learn to be the practice of the Courts Buttawoorty Maniems are continually disposed of without reference to Regulation IV of 1831, in fact there seem scarcely any Enams in the District which would not come under the

8343. Fort St. George 14th June 1847.—

the description either of charitable Grants or service Grants and consequently scarcely any which form legitimate subjects for litigation in the courts, or hereas suits in Court respecting Enams are of constant occurrence.—

6— It seems therefore of the first importance that the Board should circulate an authoritative exposition of the Law, so as clearly to define what description of alienated lands come under Regulation IV and VI of 1831, and are resumable by Government, and excluded from the jurisdiction of the Courts, and to what lands Regulation XXXI of 1802 especialy Section VII is applicable.—

To the Coll.r of Guntoor—

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter dated 30th April 1847 relative to the disposal of the Enams in the Palnad in cases of default. The Board are of opinion that with the exception of the Enams attached to "Village and other officers in the Revenue and Police Departments" of the arrears are not discharged, after due notice, to the party in each case, the lands should be resumed the sanction of Government having been previously obtained and incorporated with those paying full assessment as pointed out in their Proceedings dated 4th January 1847.

Para 4— With respect to Enams falling within the provisions of Regulation VI of 1831 the Board will be prepared to take into consideration such suggestions as you may offer on the subject with reference to Para 4 of your letter under reply.

Submitting a report for the consideration of Government having temporarily assumed certain lands the property of Anunta Sonnayajee a Bramin deceased of Herponhully with a view to obtain orders regarding the continuing the same to his family stating that the adoption herein alluded to took place before the death of the last incumbent and prior to the orders on that point-

No 1
& No 2.

Sir,

Para 1 I have the honor to report as my having temporarily assumed certain land the property of a Bramin (deceased) of Herponhully with a view to obtain the orders of Government regarding the continuing the same to his family and Accordingly enclose for the consideration of the Board and Government a Table of Genealogy exhibiting in one view, the several Individuals in the lineage, the Original Grantees as well as those who compose the present family, together with a Statement shewing the amount of the Inam lands in each of the Villages, the authority who granted the several Summuds and for what purpose, with the names of the Original Grantees and tenure of the Grants-

2- The last incumbent No 22 in the lineage named Anuntasonnayajee died on the 9th of the Month Asweeja in the year Prodhi (corresponding with

8347. Fort St. George. 14th June 1847.

with the day of October 1844) in the 45th year of his age. His Father left two other sons who died without issue during the life time of the late Ananta Somayajee thus the three widows of the three Brothers together with another of the late Sashapah No 19 in the direct line are present namely Chinnavah under. No 19 Sashavah No 20 Mahalachmavah No 21 and Sawtravah No 22.

3. The deceased Ananta Somayajee 1st Wife having died he married the 2d and having no issue he and the 2d Wife Bagavah adopted Soobramania No 25 (or the Offspring of Kenunneapah No 8 in the collateral or distant male line) under the Ceremonies authorized by law, on the 24th March 1836. and maintained him at his own expence. One year afterwards the 2d Wife having died and the incumbent Anantasomayajee at an early age married to the 3d Sawtravah in the year 1840 (this widow has not arrived at the age of puberty being now 14 years old). In the fourth year of their marriage her husband Ananta Somayajee died his funeral rites were performed by the adopted son Soobramania in conformity to the Hindoo law. The Eldest Brother

8348. Fort St. George. 14th June 1847.

Brother of the last incumbent by name Soobramania Somayajee No 20 left an only Daughter Bagavah No 23 her son Krayamana No 24 having the title Dawhittramana was adopted by Sashavah the Grand Mother by the permission of her deceased husband the said Soobramania Somayajee, on the 10th of the Month Aswveeja of the year of Swvadary corresponding to 1840. This adoption was celebrated with the consent of the late Ananta Somayajee who took him into his family by performing the sacred right of Poonanayanum, or wearing the thread of oblation in the name of his own race. The four widows heretofore named have unanimously made the usual acknowledgment to the Circar that these two young lads possess all rights to the Enam Lands (corresponding the Statement No 2) and that they are willing to remain under their protection.

4. I instructed the Amildar of Kurpoorhully to enquire and ascertain the truth of these two young Persons adoption and from the documents given in by respectable Inhabitants of Kurpoorhully it appears that they were bonafide adopted.

adopted, and every necessary rite was performed according to law, and that they have no doubts as to their identity.

5. According to Accounts furnished by the Tahsildar the enjoyment of the family stands thus. The annual revenue for the share they have in the 5 Shrotriem Villages amounting to Rupees 285-7-11

Do. from the Enam lands dry Garden and wet being Acres 353-37-4 assessed at Rupees 490-7-6 the revenue derived therefrom at Estimated Rupees ——— 172-4-0

Total per year- 457-11-6

The accompanying Statement No. 2 contains all particulars, Gozavar and Numberwar of the said Enams. The Original Grants of Gift (11 in number) produced by the parties as what are forthcoming are hereunto annexed with translations. The parties state that for some lands the Grants are missing. A practice has hitherto prevailed universally in these Districts that when names are stated in the Survey Accounts the claim is considered established if otherwise sufficiently corroborated. Hence, in the present instance for those lands for which no Summud is forthcoming the names either of Khayimana Sornayajee

Fort St. George. 14th June 1847.

Sornayjee or of Soobramania Sornayjee being inserted in the Survey and Assessment Accounts and they having long enjoyed them without question they would be presumed to belong to this family. There are two Villages wherein the family could neither produce a Document nor do the Survey Accounts exhibit the name of any one of this family. They are Viz. In Annavaty No. 130 Acres 5-24-0 assessed at Rupees 73-7-0 and Revenue Rupees — 6-11-0.

1. The land is entered in the Survey Accounts in the name of Singary Somavadhany and in the Assessment account in the joint names of the said person and Nirsimma Bhat. It is now stated that these two men are of the collateral or female line of this lineage and that they presented this land to the family many years back.

2. In the Village Algapooram No. 111 are Acres 2-26-11 assessed at Rupees 4-10-8 and Revenue Rupees — 0-8-11

This land is entered in the name of Annuta Narrania Sornayjee and the present claimants family are unable to assign any good reason for their possessing it. Thus the right to these two

two tracts of land yielding Rupees 6-8- seems not to be established. For two out of the 5 Shrotriam Villages (Tirmalapoor No. 9 and Karunaichenthully No. 176) the family have no Summuds to produce, and they assert that the Summuds are in the possession of other Shares, our Records support their claims to them-

6- One of these two adopted sons or claimants is an Offspring of the collateral male line, whilst the other claims through the title of Dowhetra (which term means that a Daughter is to be viewed in the light of a son and her son is to be considered as the son of the brother) and likewise they both are proved to have been adopted according to Hindu law- The Government order dated 10th March 1840 takes effect on and after the 1st January 1847. The adoptions here alluded to took place a few years before the death of the last incumbent, and appear to have been celebrated in conformity to Hindu law the case is therefore submitted for the consideration of Government.

7- In conclusion, I beg to refer to the accompanying copy of a letter from the Collector of Dharwar in which the Board will observe that the Collector waits

waits the result of the claim in this District in order to issue the necessary orders for the Enams this family have in that Province-

8- The report has been delayed from time to time by a variety of causes and with the object of eliciting more satisfactory information, but the Parties themselves give no information or Assistance and being women and unwilling to follow the movements of the Cutcherry the Statement has been delayed and is now submitted as all that has appeared-

Bellary

Sir,

I have the honor to request you will inform me whether the adoption of Soobrum Muniapah son of Hereneapah by Anunta Somayajee, which is said to have taken place about 10 years ago has ever been recognized by the Madras Government and whether he has in consequence succeeded to the Enam property of his adoptive father who died on the 4th November last, at Hurponhully in your Collectorate, and if so. I shall feel obliged by your favouring me with copies of any documents relative thereto in order that I may decide on his claim to succeed to the Enam Village and Lands held by the deceased in this Collectorate.

Meerasidars of the Village of Vologaru gained possession of some of the lands previously held by the Petitioners consists of a set of Cadjan tickets termed "Coorchits" which it is the practice of all Villages to prepare and give to each shareholder when an amicable division of lands is made. Those tickets were signed in the case under report by all the parties concerned and by the Village Curnum, and they were partly acted upon before the dissatisfied parties objected to the arrangement in the following year. Under such circumstances the Meerasidars could not be dispossessed by the Collector of the lands which had been voluntarily made over to them, and they were therefore included in their Puttahs. The extent of land thus transferred is only 5 Cawnies and the arrangement has been in force for the last four years.

From the Ag. Collector of Chingleput
Returning a Petition & containing certain allegations against the Nattu Meerasidars of this District with remarks thereon.

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue under date 3d Instant, and to return the Petition by which it was accompanied with the following remarks.

2 The Petition purports to be from certain inhabitants of this District, but as the names only of the subscribing parties are attached and not their Villages it is impossible to ascertain whether the Petition is a genuine one, or whether it originated in a single person. The care which has been thus taken to avoid having the Petition traced, the apparent similarity

similarity of the signatures and the allu-
sion which the Petition contains to the
personal appearance of the Naib Sheris-
tadar as disqualifying him for the situation
of Head Sheristadar leads to the supposition
that the Petition has been sent by some
person whose object was to injure the Naib
Sheristadar rather than to advance the
public interests.

3 The only portion of the contents of the
Petition to which it is necessary for me to
allude is the assertion that soon after I
came to the District complaints of embezzlem
in the Salt pans were made and pro-
-ved against Shreenevasa Iyengar.
* Dated 16th Octr. 1845. My reports* to the Board show what
transpired on this occasion and I need
now only add that as irregularities
came to light on the part of some
subordinate district servants I thought
it advisable to place the Depart-
-ment in the hands of the Head
Sheristadar. This arrangement and
the enquiry which I held exhibited
my wish to obtain information

4 The situation which this office
has hitherto held in the district and
the favorable opinion entertained
of him by the Collector Mr. Greeve
made him appear to me the best
qualified person in the District to
succeed to the vacant Head-
Sheristadarship. He shewed his

Recd 24th April 1847 -

I have the honor to submit a letter from the Acting Sub Collector Mr. R. R. Cotton complaining of the inefficiency of Gungadara Row, the Thasildar of Trivatoor and recommending that he may be removed from the situation. -

2. It seems right to state that the Trivatoor Palook is one of the most laborious charges in the District and Mr. Cotton observes "requiring a "person at its head possessed of more than "ordinary energy and ability" indeed he goes so far as to say that he "does "not think that any of the Thasildars "in the Sub Division could perform "the whole duties of Thasildar "and Head of Police" unless "some "of the Police duty could be transfer- "red to a Police Ameen". -

3. Adverting to the former correspondence regarding Gungadara Row's conduct as Shasildar of Wundiwash and Poloor there seems little reason to doubt that he is not equal to the charge of such a Talook as Trivattoor, but considering the length of his services extending altogether to above twenty three years I am unwilling to recommend his removal until some easier Office such as that of Head of Police without a revenue charge or Talook Sheristidar can be offered him, as it does not appear that he was found deficient when he was employed in the latter capacity.—

To

DUPLICATE DESTROYED

Fort St. George 14th June 1847.—

To

E. C. Lovell Esq.re
Acting Collector of
North Arcot—

Sir,

Para 1. I feel myself necessitated again to bring to your notice, the conduct of Gungadara Row, the Shasildar of Trivatoor, and request you will be good enough to lay the same before the Board of Revenue, with a view to his being removed with as little delay as possible.—

2. In the 2d. para of my letter of the 21st November 1846, forwarding to you an account of the Settlement of the Subdivision, I brought to your notice his Police arrears, and that no orders of mine appeared of any effect, in making him more active.—

3. Nearly six Months more have elapsed, and he still maintains the same indifference to my orders, though many of them have necessarily been very stringent.—

4. I have abstained from fining him, as much as possible, as I do not approve of that mode of inflicting punishment on persons who are <u>incapable</u> of performing their duties, preferring if possible to remove them, as their retention in Office is not only an act

act of injustice to the Natives, but inimical to the interests of Government.—

5. During the settlement of the Trivatoor Talook I had repeated occasions to find fault with him for his neglect in the Azmayesh &c.a and after giving the put=
=tahs to about one hundred Villages, I was=
obliged to proceed to Poloor, having been brought to a stand still in the Trivatoor Talook, although the Shasildar had had long previous notice, and with a little ener=
=gy might have managed, so that I might have settled that Talook at once.—

6. From the fact of his having so many Police Cases on his file undecided, it was my intention while the different inhabitants of the Villages were at the Cusbah, and their attendance could have been secured without trouble, to have assisted him by disposing of as many Cases as I=
could, and with this view ordered him to send his file book, and the different par=
=ties to me, which he could easily have=
done, he however neglected to do so and his file therefore remains as before, on=
my questioning him about several Cases=
on his file, he exhibited a total ignorance regarding

regarding them, indeed he appears unconscious of very much that is going on in his Talook, and I cannot but most fully concur, with the late=
Sub Collector Mr. Bourdillon, in his opinion of him, expressed in his letters of the 21st August 1838, and 28th October 1840, to which I would solicit yours and the Board's attention, "that being him=
"self quite unequal to the duties of Shasildar, "he entrusts every thing to a Subordinate, and that "he will never be any thing but a most inefficient, "and incapable Shasildar, in every department "of his duty".—

7. I would state that he was suspend=
=ed by Mr. Bourdillon, when Shasildar of Poloor, and was subsequently made Sheristidar of Arcot, from which appointment he was transferred to the situation he now holds in Trivatoor, the largest Talook in the Subdivision, and one re=
=quiring a person at its head, possessed of more than ordinary energy and ability.—

8. I sincerely trust that this my second requisition for his removal, may be forwarded to the Board of Revenue with your recommendation that it may be complied with=

9. From what I have seen of Gun=
=gadra Row I cannot even recommend that he should be transferred to any other appointment of

Fort St. George 14th June 1847.—

of consequence, as I consider he is totally unfit to carry on the duties of any, but an ordinary nature, and his period of service would I fear be deemed insufficient to warrant his being pensioned—

* See Memo. enclosed

10. I beg to enclose a Memorandum shewing the arrears of work in the Trivatoor Talook, which is drawn up from his Monthly reports for March, and by which you will see the very heavy arrears in all departments— His inefficiency as a judicial Officer, either in the Revenue or Police Department, cannot I think for a moment be questioned, and I am not surprized that the Natives on being referred to the Shasildar, complain, that it is no use preferring complaints to him as he does not examine them.—.

11. The enclosed Memorandum will shew that there are no less than 308 Revenue Cases undecided before him, and 27 Police Cases, some of the former preferred so long ago as 1842. The examination of some of which now, would be a little better than a farce, as the evidence, if it was still forthcoming could hardly be credited, or persons expected to speak correctly to matters of fact, of every day occurence, after such a lapse of time— The above remark may

Fort St. George 14th June 1847.—

may also serve in a great measure for some of the Police Cases— There are also 30 Takeeds, Revenue and Police, to which no answers have yet been received.—

12. In the Months of January, February and March, there appear to have been 50 Police complaints preferred, and 71 Revenue, out of which he has disposed of 37, 31 on their merits, and 6 on Razinamah leaving 84 Cases undecided, shewing a total of Police and Revenue Cases undecided on his files on the 1st of April of 335. Of these I may say that 300 might have been disposed of at once, being trivial Cases— there are now pending before him some Revenue Cases of importance which I have been urging him to decide since August last, and which still Remained undisposed of.—

13. In conclusion I would state that should the Board be pleased to accede to my request, I should feel obliged by your appointing some person to succeed him, as I do not think that any of the Shasildars in the Sub division could perform the whole duties of Shasildar and Head of Police, although if some of the Police duty could be transferred from the Shasildar to a Police Ameen, I think either of the Shasildars of Arcot or Wundawash might be appointed with advantage— My suggestion of investing the Peishkar with additional powers as Police Ameen, I must leave you to dispose of as you may think fit, the arrangement would involve a slight extra expense, as the Peishkar's Salary of 27 Rupees would have to be raised to 35 Rupees.—

Proceedings thereon.—

The Acting Collector states that there seems little reason to doubt that Gungadara Row is not equal to the management of such a Talook as Trivatoor which he observes is one of the most laborious Charges in the District—but considering the length of his services extending altogether to above 23 years he is unwilling to recommend his removal until some easier office such as that of Head of Police without revenue duty or Talook Sheristadar can be offered him, as it does not appear that he was found deficient when he was employed in the latter capacity.—

The Board approve of the arrangement proposed by Mr. Lovell who will take the first opportunity to employ Gungadara Row in a situation of less labor and responsibility than that which he now holds.—

37 From the Actg Coll. of Trichinopoly Reports with reference to the Extract from the Boards Proceedings dated 26th Ultimo on the matter of Inam to the enjoyment of half of which the Petitioner Zainab Saiba alias Zainab Beebee lays claim.

Sir,

Para 1. I have the honor with reference to the Extract from the Proceedings of the Board of Revenue dated the 26th Ultimo, and my communications to your address of the 9th April and 1st Instant on the matter of the Inam, to the enjoyment of half of which the Petitioner Zainab Saiba (alias Zainab Beebee) lays claim, to submit copy of an Extract from Mr. Wallaces Register, the Orginal Mahazernamah therein referred to, together with an English translation of the same, and translate of a receipt granted by Mr. Wallace on taking possession of the said Mahazirnamah.

2. In consequence of the last casualty having taken place prior to the receipt of the instructions of the Board of Revenue dated 22d May 1845, the Enam was made over to Chand Beebee the eldest Widow of the deceased Inamdar without any special reference to higher authority For a more perfect comprehension of the state and nature of this case I have prepared a Tabular Form in the manner directed for

for subsequent lapses, although the matter immediately under consideration is not so much the continuance or otherwise of the Inam itself, as of the right of Petitioner Zainab Saiba to participate in its benefits.

3. At the beginning of the Mazirnamah, above alluded to, the quantity of land is stated to be 1 Cawney of Nunjah in the Village of Perioor; and a quantity of Poonjah land sufficient to sow one cullum of seed, in the Village of Toongani; at the end thereof it is stated as follows.

1. Cawney of Nunjah (Tabe, irrigated land) in the village of Periour.

8. Do. Poonjah (Khuski, dry land) in the Village of Toongani.

Total 9 Cawnies.

In the receipt granted by Mr. Wallace the land is so stated to consist of 9 Cawnies but only in the Village of Periour. — whilst the entry in Mr. Wallace's Register plainly states the whole Inam land to be only 1 Cawney of Nunjah in the Village of Paroor* and the Inamdar's residence to be Toongani, no Poonjah, high or dry land is referred to.

* Pariore Periour or Periur

4. After thus stating the Amount

of land entered or omitted in the scanty documentary evidence procurable touching the authenticity of the grant (if a Mahazarnamah can with any propriety be called a document) I beg to bring to your notice that the actual amount of land in the enjoyment of the Grantee or late Inamdar Syed Boodden, and that of his widow Mehand Beebee, is 11½/16 Cawney of Nunjah and 6 12/16 Cawnies of Poonjah Total 6 13/16 being 2 3/16 Cawnies less than stated in the Mazirnamah. This was discovered apparently at the Bymash time in the Fusly 1216 A.D. 1806/7.

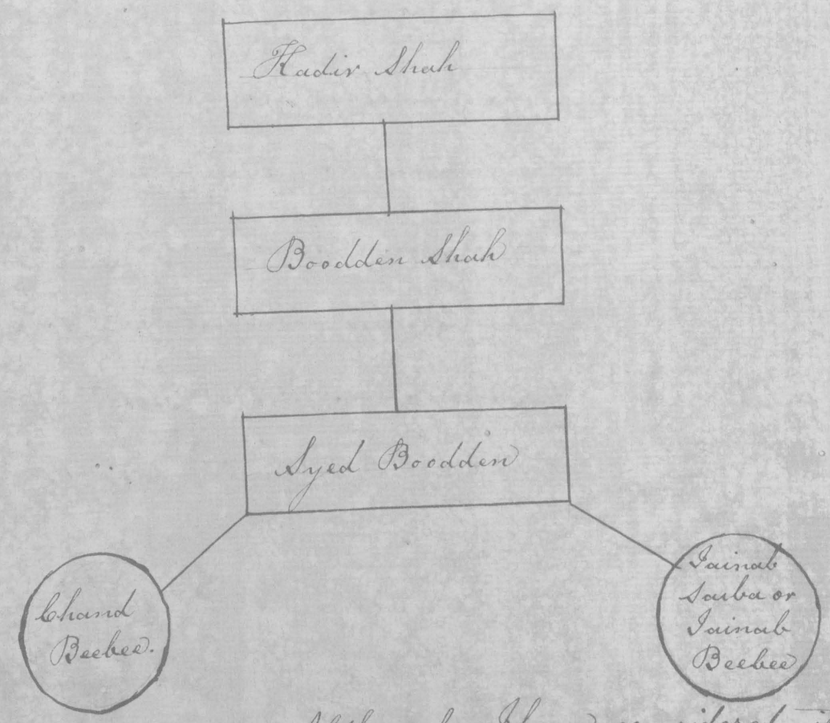

5. In the Original Mahazirnamah there appears to be two names and two seals, the same person who wrote Mudden Tinnireddy evidently wrote the other name Mudden Vijia Machireddy, but left out the letter u which has been subsequently added. neither Syed Boodden's nor his father's signatures appear. The name of the writer whether Mussalman or Hindu is not given; If a Mussalman he would in all probability have written the names

of

of the witnesses in the same language as the document and the seals, and if a Hindu the chances are he would have known how to spell the word he wished to write, and not have omitted a letter in Tamulu or have twice spelt Reddy with an nn or n (o) There is no satisfactory evidence then that any witnesses were present or signed it, knowing the contents; whilst there is an uniformity or regularity in the position of the seals and Signatures not very usual in an original or genuine document. and the term used as an entreaty for any one to sign in support of the claim, or fact of possession, (Hasba-tanbillah) is more strong than the case appeared to demand; for the Village Officers could easily have borne testimony to the stated enjoyment if called upon I believe however that every Inam enjoyed in the Talook of Valacondapoorum is held on similar Mahazernamahs. With respect to the object of the Inam, it does not appear whether it was granted for Charity or Service, to be held merely during life or hereditary

hereditary, whether for a limited period or in perpetuity.

6. The original grant is stated in the Mahazirnamah to have been made to one Kadir Shah the father of the Boodden Shah who therein petetions for its renewal or continuance. The land however appears still to be entered in Kadir Shah's name in the village accounts. The deceased Syed Boodden was son of Boodden Shah as here under shewn.

7. Although I have considered it proper to lay these particulars before the Board the point at issue as above stated, is the right of the Petitioner to participate in

8382. Fort St. George 14th. June 1847.

the benefits of her husbands inam land and on a reconsideration of the whole case, I beg permission to withdraw my acquiescence in the former order, given in my letter of the 9th. Ultimo, to the effect that Petitioner should refer her case to a Civil Tribunal. Both the widows of the deceased Boodden Shah are childless, and each without any other ostensible means of support. Jainab Beebee was beyond doubt the lawful wife of the deceased, whether by Nikah or otherwise, matters little; as no ceremony cannot be more binding or proper and can in no way bar her right to possession or inheritance. Should the Board therefore be pleased to sanction or recommend for sanction, the continuance of the present holding, consisting, as above shewn of $6\frac{13}{16}$ Cawnies in both Kunjah and Poonjah included, I beg to suggest that the same be equally divided between the two widows during their life time, the lands being resumed on the death of their respective possessors.

that had induced. your decision so injurious to him, and which was referred to you, on the 24th Idem. On the 12th August you favored me with your opinion that the dam "should "at least have an opening sufficient to "let the water flow, even if it should not "altogether be removed:" and adding "that a "Moderate dam would not act as any obstruc:tion till the supply of water become very small." On the 22d of the same Month you acquit the Tasildar of partiality and inform me. "The bank is stated in evidence to the detriment of cultivation lower down the river and as such, in consideration of its only having been placed there a few Months, it should be removed as soon a posible." On the 25th August I prefsed you to pafs your decision in the matter, and on the 6th September you ifsued an order to the Tahsildar directing its removal.-

2. On the 13th January of the Current year you directed that Nello Bogen should be allowed to take water for the present, and then you would pafs a decision in the Matter at the Settlement.- On the 1st June you took a deposition from a Curnam's Goomasta,

to effect that he had heard there had been a dam in the place inquestion 20 yearse ago, and on the 9th You passed a deci:sion, empowering Nulla Bogin to complete his dam because there had been one there before.-

3- The evidence of the Curnam's Goomasta, independent of its marked looseneſs, when in fact there has been no Runjah Cultivation since the survey, cannot be admitted as proof that there ever was a dam in the place inquestion, and if there had been its rebuilding ought not to have been undertaken with:out permiſsion of the revenue authority, nor such a permiſsion accorded without reference to the profeſsional opinion of the Engineer, and in this view I take the liberty to request your Originale order of the 8th July 1845, for removal of the dam, whilst under instruction may be inforced and request the accompa:nying appeal Petition bearing my endorse:ment of this date, may be given to the appellant.-

Not being included in the Razeenamah, they belong to the Zemindar, and under the impression that no objection exists to their being held at her disposal, I have very recently complied with her request to Credit Rupees 3,000-- not included in the above in part payment of her Peshkush.-

of Jaggery per annum Amounts to 125,920 Maunds of 32 lbs each and 22 5/16 lbs of which 92,051 - 5 - 3/16 is consumed here, leaving the surplus available for exportation to the neighbouring Districts, especially to Malabar.-

3. In likemanner the Talooks bordering Salem and Trichinopoly and the province of Mysore are furnished with Jaggery from those places, but these importations have not been included in the calculation, neither is it possible to ascertain with any degree of accuracy the probable quantity imported.-

4 It would appear that the estimated consumption per head is assumed at 9 lbs and 13 3/16 Rs weight in the year with reference to the ascertained population of the whole district - but when the Talooks of Collegal and the Neilgherries, which receive their supplies from Mysore are excluded, the average consumption advances to 10 lbs and 3 - 7 7/16 Rupees weight a head.-

Chief Secretary to Government

Sir.

As required by the 3rd Para of the Extract from the Minutes of Consultation in the Public Department No. 194. dated the 11th November last, I have the honor to submit a draft of a Notification to be published in the Official Gazette, directing the discontinuance of the Returns of Civil Pensions hitherto made to Government, and their being furnished, in the same form, to the Civil Auditor, instead of the Returns now made to him, and declaring that the

Fort St. George 17th June 1847.

the terms of the Notification of the 2d November 1841 shall be applicable to the earliest communication, in the same manner, of the occurrence of Marriage, or entertainment in the Public Service, which may not have been reported, as the occurrence of such event might affect the stipend of a Pensioner.-

Officer - which will be now discontinued and that the Returns shall contain a specific statement, from the paying Officer, of the following particulars, in respect of each incumbent on such Return viz.-

"That the Pensioner is
alive, and upon careful
muster and due enquiry
has been identified."-

and in respect of those incumbents whose stipends are granted conditionally until marriage, or the attainment of a specified age, or attainment of employment in the Public service or other condition, it shall also be certified.-

"That the Circumstances
still exist under which
the pension was origin-
ally granted."

Fort St. George 28th May 1847.

The Most Noble the Governor in Council hereby resolves that the terms of the Notification under date the 2d November 1841, published in the Fort St. George Gazette of the 5th November 1841 offering certain rewards for the earliest communication of the occurrence of Casualties among Civil Pensioners

Pensioners which may not have been reported within three Months from the date of occurrence shall be applicable to the communication in the same manner of the occurrence of Marriage, or entertainment in the Public service, which may not have been duly reported, of parties whose stipend would be affected by the occurrence of such events.

Resolved that each part of the Draft Notification received with the foregoing letter, form a distinct notice, and that the same be published in the Official Gazette, with the alterations in red ink made in the one offering rewards for the communication of the occurrences of Marriage &c.a of pensioners.

Resolved further that translation in the Vernacular languages of the last mentioned notice be also published in the Official Gazette, and that the several Collectors be requested through the Board of Revenue to promulgate it in their respective Collectorates.

The Honorable Board of Revenue Fort St. George

In Appeal Petition from Palevalah Soobanah late Shroff of Coringa Division

The Head Revenue Officer of the Division and the Peshcar Sukoo= =noory Ramasawmy having disputed ad= =dressed Petitions against each other to Mr. Knox Head Assistant Collector who came to Coringa examined the Cirkar ac= =counts in my posession and found nothing wrong. The Head Assistant Collector at the suggestion of the Peshcar directed me to bring the Private accounts which I kept for the just

just division among the Volunteers who have assisted in the Office for a long time past of the Money collected from the Merchants for writing Manifestos and other official Papers for them as these accounts were written by order of the Head Revenue Officer merely to prevent disputes between the Volunteers in dividing their emoluments, and were not connected with the public records. I told the Head Assistant Collector that I would go and bring them from my House. When I thus went home the Head Assistant Collector sent a Deloyet after me to bring the accounts together with my private Jum= =mabundi Accounts shewing the sums I have received from certain persons for a long time as loans and presents ac= =cording to the Maamool prevailing among us for domestic affairs, and for the per= =formance of the Ceremonies, and the sums discharged by me under my debts also some of my own Papers. He thereupon without instituting any enquiry into the truth of the case considered that I received as bribe the sum of Rs. 592- 13- 8 which I had as Cutmanu or present from some respectable persons for the marriage of my

my Children according to the custom which has prevailed since the creation of the world, and pronounced a sentence imposing upon me a fine of One thousand (1000) Rupees under Regulation 9 of 1822 Section 5. and Clause 1st aggrieved with this de= =cision I appealed against it to Mr. Prendergast the Collector on 8th December 1846 shewing that the decision was inconsist= =ent with justice. He also did not fully examine the case fabricated against me, but confirmed the decision of the Head Assistant Collector and granted me on the 4th Instant copy of his decision dated 20th Ultimo. As I could not obtain justice I am induced to make the present Appeal to your Board and beg to state I have not committed the offences prescribed by Section 2 Regulation 9. of 1822 nor does my situation permit me to levy Collections which is the reason I should not be so charged with similar offences I was only limited to shroff the Collections coming into the Office, keep an account of them, put the same immediately in the Cash chest and deliver the Key to the Head revenue Officer and I have no other Circar business to perform my duties= neither give assistance nor trouble to the Merchants and

and no one gives a bribe except on such grounds My situation does not give me such indepen= =ence I have therefore demanded no bribes from any one nor has any body ever given any to me. The Settlement of duties is entrusted to the Peish= =car I only inspect and credit in the Chittah accounts the money paid according to the Settlement of the Peishcar. The amount of each person does not exceed two or three hundred Rupees so that I cannot postpone the shroff= =ing of the Money so paid moreover I have not much to shroff as I seldom had more than two or three sums of the above kind consequently I had not an opportunity of affording assistance to the Merchants and procuring money from them. Besides had I ever put off the immediate inspection of the money paid by any Merchant or refused good coins in order to occasion them trouble and exact money from them, any one of them would= have personally represented it to the Authorities. at all events they would have complained on the subject when the Circar published a Notifica= =tion for that purpose. As they have not done so you may believe my declaration that owing to my poverty they willingly and out of compassion gave me something now

and then for the marriage of my children. Had I committed irregularity my superiors would have of course immediately discovered it and offered no pardon. you will perceive by the records that there was no Kind of complaint against me Since I was employed in the public service. The Appeal decision of the Collector states that though the charity is inculcated it is not practiced and that without excpecting self advantage benevolence is not often shewn to others. The rich people among Natives always make charity themselves and when time occur all of them unanimously give money on contribution. Consequently if you would fully enquire into the Customs of the Natives you will understand that the Money exhibited by my accounts was given to me as charity for the Celebration of my daughters Marriages &c. by several persons through their benign consideration. I am not rich enough to lend money to the Natives nor is there reason to suspect that I have lent from the Circar's Treasury for my Superior used to put the daily collections &c in the Cash Chest and keep the key himself. There are no grounds also to suspect that I have assumed any irregular authority of the kind and this fact would have been very plain

Fort St. George 17th June 1847.-

plain if the Merchants were sent for before the Collector according to the prevailing custom among Natives. my friends and other virtuous persons presented me with Money for the performance of the Marriages of my daughters and other Celebrations which was the reason I freely admitted the Receipt of the charity and entered the sums in the Accounts. In this state of affairs it is unfair to treat me as if I had received bribes. The decision of the Collector further states that the money being collected in several cases for a period of Seven years it cannot be believed that it was paid to me as present for the Marriages of my daughters. During these Seven years as I have performed Celebrations in my house several persons gave me presents at various times for those purposes according to our Custom, but these presents were not given at one time solely for the Marriage of my daughter. Consequently there is no reason whatever not to believe what I have stated. I have served the Circar in order to earn livelihood and it is very plain from the above circumstances that the principles of our Castle have been observed and that it is not just to levy from me as a fine a large sum of Money exceeding my means and circumstances in life as if I had taken bribes.

Many

8438. Fort St. George 17th June 1847.

Many persons who serve the Circar are in the habit of receiving and giving presents through the Custom of the Caste, relationship, friendship and generosity. This usage prevails everywhere and it is not just to convict me as an offender since I followed the same course. I have not embezzled the Circar's Collections nor have I been concerned in such acts nor have I received bribes to injure the interests of the Circar or Government. No body attended to make complaints when the Circar published a notification requiring the attendance of all the persons in order to receive the money paid by them. By this it is evident that they gave me the money as a present for the performance of Celebrations. It is also unjust to dismiss me from my service without any proof owing to the mere discovery of private accounts of that description in my house kept as Memorandum

I therefore pray your Board will be pleased to shew favor towards me who am an inferior servant subsisting upon the Monthly salary of 6 Rupees; take the above circumstances into kind consideration reverse the accompanying decisions and remit the fine in question—

Dated 26th March 1847— /Signed/ Palenalah Soobanah late Shroff.

I further beg to state that of the amount of fine above stated they received a part of it in ready cash from my Security and attached my property for the remainder

I therefore pray you will be pleased to issue immediate orders to suspend the sale of the said attached property Dated above at Aulanoor—

To the Coll.r of Rajahmundry— Sir,

Requesting him to furnish some detailed particulars respecting the several sums of Money received by S. Soobarow late shroff of Coringa for his own use and benefit and for the collection of which he was fined 1000 Rupees under Regulation IX of 1822—

With reference to the Proceedings connected with the trial of P. Soobana under Regulation IX of 1822, which accompanied your letter dated the 8th April last, I am directed by the Board of Revenue to request that you will furnish some detailed particulars respecting the several sums of Money received by the late Shroff of Coringa for his own use and benefit and for the collection of which he was fined in the sum of Rs. 1000—2—0

The items in question are stated, as per his own Account to have been received from the parties named in the Margin, but when, and under what circumstances these sums were paid to Soobana does not clearly appear. It is alleged by him that the greater portion were presents to himself by the donors or customary fees paid by the

In order to enable the Board to dispose finally of the Appeal now before them they request that you will be good enough to ascertain more fully the nature of the items in question, the connection subsisting between the Shroff and the individuals from whom the contribution have been made, and what degree of improper influence may seem to have been exerted, and with what object by the Appellant, in his capacity of Shroff to the Sea Custom House at Coringa.-

Sir,

I have the honor to acknow-

-ceedings of the Board of Revenue under date
3d Instant in reply to my letter of 27th ult
May requesting Sanction for the Employ-
-ment of S. Ramanoojarow as Head
Sheristadar of this District.-

2. In these Proceedings the Board
refer to theirs of the 1st April 1841 and re-
-mark on the circumstances which induced
them to permit Mr. Stonhouse to remove
this Individual from Office in the Nellore
District, at the same time that they
permitted him to be employed in other
Districts, and adverting to these they
remark

remark that they think it desirable that
I should nominate some other person
whom I may consider qualified for the Office.-

3. In reply I beg leave to observe
that the Proceedings of the Board of Revenue
of 1st April 1841 do not appear to have been
passed in a spirit which contemplated
the perpetual exclusion of S. Ramanoojarow
-now from Employment in this District
though the circumstances rendered his remov-
-al at the time desirable, I trust therefore
that the Board will withdraw the slight
objection they have raised and sanction
my Employment of this individual, as
I do really consider him the person best
adapted for this District at present, and
one with whose aid I feel confident I shall
be able to afford satisfaction to the Govern-
-ment and the Board, as well as to every
-interest connected with this District.-

Proceedings thereon.- In the foregoing letter the

(15-16.) Collector observes that the Proceedings of the
Board of Revenue of 1st April 1841 does not
appear to have been passed in a spirit which
contemplated the perpetual exclusion of
S. Ramanoojarow

8445. Fort St. George 17th June 1847.

S. Ramanoojarow from employment in the Nellore District though the circumstances render=ed his removal at the time desirable and he trusts therefore that the Board will withdraw the slight objection they have raised and sanction his employment of this Individual. The Board observe that as they do not consider their objection to Rama=noojarow's employment in Nellore to be so slight as Mr. Smith appears to think. The Board would not have sanctioned the removal from Office and forbidden the re-employment in the same district of an old Servant holding so high and respon=sible an Office unless they had been de=sirous of visiting his conduct with the severest marks of their displeasure, and they regret therefore that they are still unable to sanction the proposed ap=pointment.

2. In reference to the vacancy of the Head Sheristadarship of Madura the Board are of opinion that Mr. Smith should direct Ram Row to proceed thither at an early period or if unwilling to dispense with his ser=vices that he should intimate the same to the Acting Principal Collector of that district.

If the other lands were in the possession of the Family when these Summuds were granted it is probable they concealed the circumstance from the Nawab for fear their having land in so many Villages should be the object of the Nawab in calling in the old Summuds and issuing fresh ones, was to reduce the quantity of land said to have been held without any valid documents. As the deceased has left behind him a direct descendant, and the lands are in possession, I think that the Summuds should be confirmed and in the other Villages the lands should revert to the Government.

Extract from the Bd's Proceedings dated 29th March 1847.
Extract from the Minutes Consultation dated 20th March 1847.

One of the objects which Mr. Groves had in view in his application was that he might be permitted to avail himself of the water of his Channel in any manner that he might find most advantageous paying for any additional land which he might be able to bring under irrigation by a different distribution of the water the present Poonjah assessment only. Although in your letter to Government the Board observe that "the water brought down by the "new Channel can be made available for watering "lands on a higher level than those which "were irrigated by the old one," - Yet their recommendation

recommendation and the orders of Government thereon appear to me to apply to the latter lands only, consisting of the 10-3 of Nunjah specially mentioned. as at present instructed I do not understand that I am authorized to make any concession in regard to the assessment of any Poonjah land that may be newly brought under irrigation from the Channel and I have therefore to request the Boards further orders on this point.-

Sir,

I have the honor to acknowledge the receipt of your letter of the 19th April enclosing a Copy of the Boards letter to Government and the reply of the Most Noble the Governor in Council to my application.

It does not however appear quite clear that my request is granted espressly though it may be intentionally-

Am I to consider

1st That as the additional water thrown

into the tank by the Anicut and Channel renders the water of the channel useless as applied to that 10. 3 Cawnies on the low level, I am at liberty to apply my tank water to this land on the same terms as I have been permitted to apply it to other lands supplied by the water of my tank and 2ndly to apply the Channel water to the ground it now Commands on a higher level as the equivalent for which I pay the 190 Rupees, the amount the Nallah water realized to Government when it ran on the old ground.

I believe I stated that this water was incapable of increase being only the drainage water of the River and that it is rated at the highest Assessment, Viz.t 8½ and 9 Pagodas a Cawnie so that whatever use I make of this water I pay already the highest rental for its use and in addition the Poonjah price of the land over which it runs, raising the Teerwah 1@ 1½ Pagodas more. If I use it for Paddy I pay 9½ and 10 Pagodas for it, and for Indigo the Poonjah price of the land and for any water it may take at the proportion of 8½ or 9 Pagodas for so much as would water a Cawnie of Paddy- Exorbitant as this taxation must seem it is better for me than having to pay 8 and 9 Pagodas for its appropriation to land on which it is of no use therefore to charge me Nunjah price

From W. Ed. Lockhart Esqre
Collector of Salem.

With reference to Extract from the Minutes of Consultation dated 30th April 1847 requiring me to report if any bad effects are really produced in my District by the inducements to emigrate which are now held out to the Ryots I have the honor to state for the information of the Board that the cultivating Ryots of this District are not in the habit of emigrating to any distant country or to the west Indies for employment. Those only who subsist on daily labour as well as those who came and settle in the District for a short time from other Countries emigrate but their quitting the District would not in my opinion produce any bad effect. From the Sub Collector's report

Reports that no bad effects are produced in the Salem District from the inducements held out to the Ryots to emigrate.

Fort St George 17th June 1847.

copy of which accompanies it appears that some of the labourers from the Nanneal Talook had for 2 or 3 years past resorted for employment to Ceylon and many of whom have returned to their Villages. The number so emigrated is small. No such emigration has taken place in any of the other Talooks.-

2. The old cultivating Community of the District are not desirous of quitting their native soil for employment in other distant countries, nor will any encouragement held out to them induce them to do so, they are averse to emigration and are satisfied with a moderate income in their own Villages but when depressed by unfavorable seasons some of them proceed with their families generally to the neighbouring Districts and return to their own Village after a short time this of course proves detrimental to the interests of Government but the removal of the daily labourers and temporary settlers from the District would not at all produce any bad effect. To hold out any inducement of granting waste lands for cultivation to these labourers &c as suggested by the Sub Collector would not

not prove successful as they are only accustomed to labour on daily or Monthly hire.-

Collector of Salem

Sir,

Para 1. I have the honor to acknowledge a copy of an Extract from the Proceedings of the Board of Revenue forwarding Copy of an Extract from the Minutes of Consultation under date the 30th April 1847 on the subject of Coolie emigration.-

2 That emigration takes place to a considerable extent from some of the Southern portions of this District I had occasion to observe during my late Settlement tour- It was in the Nameul Talook that the fact came to my notice and I ascertained that a considerable number of Ryot had for 2 or 3 years past resorted for employment to Ceylon, proceeding there through the Madura and Tinnevelly Districts

3 As far as I could ascertain the high remuneration afforded to labourers in the island was the only, and the legitimate, temptation

temptation held out to them I had no reason to believe that any other means were resorted to, many labourers had returned to their Villages and the report they brought of the value of labour was then inducing others to resort there- One man was present in my own Cutcherry. He was a common labourer and in answer to my questions stated that he had proceeded there in company with a large party- that the wages they received varied from 9 Rupees upwards he himself received 9 Rupees some of the superiors 10 and 15 Rupees and some were even appointed superintendents on 25 Rupees a Month. He received as above stated 9 Rupees a Month He lived on it and after staying 20 Months returned home with 100 Rupees. This was the statement of a simple Ryot and written down directly afterwards. He added that few of them remained there long and that he had no intention of returning there as the climate did not suit him.-

4 It is deeply to be regretted that persons so attached to their own soil should be compelled to resort to a distant Country and certainly an uncongenial climate for subsist-ence which thousands of acres around their own Villages are lying waste, but further than

than by offering every encouragement possible to agriculture in our own territories and removing as far as can possibly be done the heavy burdens which depressed it I cannot imagine that any prohibitory measures can be advisable

5. The last two or even three years have been seasons of scarcity and severe suffering in the Southern Talooks of the District but even under these circumstances I do not think that emigration has as yet proceeded to any great extent nor have I perceived any serious ill effects A few small balances were written off under the head of "Zeraee" or "absconded." and in some instances the parties were alleged to have proceeded to Ceylon. The balances were not larger than the pressure of the season led me to expect. —

6. I am not aware of any parties from this District having proceeded to the West Indies. —

7. In conclusion I would beg to add that there are in the Nanical Taluk of which I have been speaking about 20,088 acres of Dry arable land now lying waste; this is land which has been at one time or other under the plough and independent of wast tracts still in a state of nature. The emigration cannot

cannot therefore certainly be attributed to an excess of population, but must arise I think both from the pressure of the present unfavorable seasons and from more permanent causes in the heavy assessment which depresses the agriculture of this District in its Southern Talooks. The habits of the natives are so averse from emigration that I believe in very few instances would a high rate of remuneration at a distance prove any inducement to a Ryot to quit a state of moderate comfort in his own Village where such can be obtained. —

Cutcherry 9th June 1847 E. E. Jun. [Signed] W. E. Lockhart
Collector

8468 Fort St George 17th June 1847

Mr Ashtons letter does not contain as supposed by the Board, any suggestion on Inamiem land in Cuddalore Talook but on the following points 1st Taxing all Backyards. 2d Garden Culture and 3d Fruit Trees. As regards to the first suggestion the Government having since finally determined that the custom of holding the backyard land rent free should not be infringed I think it ought to remain undisturbed.

† M. dated 20 August 1839 Para 11

2. With regard to the propositions on the other two points the Board having recorded their opinion that it would be inexpedient to make any partial change in respect to the system long since prevailing in the Cuddalore Talook until the remission of the Hooloo assessment can be generally introduced, it was Considered by my Predecessor as well as myself that the preparation of any statement required by the Board would unnecessarily entail a considerable labour to my Establishment besides creating great annoyance in the minds of the people when they see that the prevailing system is about to be disturbed.—

† Board's Ord dated 9th March 1840

3. Should the Board however on a further Consideration of the subject still deem it necessary, I shall

8469 Fort St. George 17th June 1847.

prepare and submit the Statements required on their favouring me with their instructions to that effect.

Proceedings thereon, 1. The annexed abstract statement exhibits the general results of the Settlement of the several items comprised in the Extra Sources of Revenue in the Province of Malabar during the period embraced in the report and shews that there was a decrease of Rupees 7/1169—10-2. in the outturn of the Settlement of Fusly 1255 Compared with the Settlement of the year preceding resulting from a gross increase of Rupees 40,451-11-9. and a gross decrease of Rupees 1,11,621—5—11.-

Fo

2. The principal fluctuation observ=
=able in the above Statement occurred under
the head of Salt the Sales of which
fell short of those effected in Fusly
1254 by Rupees 88,189—14—2. when however
it should be noted that the largest
sum ever realized in the District
from this particular branch of Revenue was
attained, but as contrasted with the
receipts of Fusly 1253 the falling off
is stated to be only Rupees 5,197—4—10.
This large deficit in the gross collec=
=tion is attributed by the Collector
to the effects of price and the preva=
=lence of endemic disease which deterred
the Mysore dealers from frequenting the
Coast for their annual supply. As an
effect of enhanced price created by the
operation of Act VI of 1844 the Collector
attributes the Chief portion of the de=
=crease observable in the Home sales
to an illicit traffic in Salt carried
on in the Talooks adjoining the Cochin
Rajahs Territories from whence he states
that the article can be procured at prices
considerably below that of the Monopoly

The

The falling off in the Home Consumption
amounted in round numbers to about
47,700 and the Majority of this deficiency
is attributed by Mr. Conolly to smuggling.
The Consideration of the remarks recorded
on this subject and the modes suggested
for its suppression will be discussed
below, the Board will however now
proceed to advert to the several items
of increase and decrease in the different
branches of the Extra Revenue which may
appear to call for notice.—

Charges— 3.— Although the deficiency from
the actual Sales of Salt as already
stated amounted to Rupees 88,385—15—6.
there was a set off in the diminished
Charges of the year which were less
than in Fusly 1254 by Rupees 29,627—
13—3 arising principally from the
average purchase price being less in
the former than in the latter year,
thus reducing the Net falling off from
this branch as Compared with the year
preceding to Rupees 58,562—0—11.—

F. 1254-110648-7-10
" 1255-81020-10-7
29,627-13-3

Tobacco— 4.— The receipts from this Consi=
=derable item of Extra Revenue amounted

to

to the sum of Rupees 5,80,417-1-9 being Rupees 38774-2-4 in advance of the Demand of Fasly 1254, in the Charges there was also a decreased expenditure of Rupees 14,910-9-11- thus raising the Net Revenue from the Tobacco Monopoly to Rupees 53,519-4-1 in excess of the past year, a result which the Board are happy to observe is attributable in the Collectors opinion Chiefly to the article supplied from Coimbatore being of a superior quality and also to the Contraband trade having by increased vigilance been materially checked. With regard to the diminished amount of "Charges of purchase" it may be observed that the decrease in question Viz.t Rupees 13061-1-6 resulted from the present mode of estimating the price of Tobacco in the accounts of the two districts of Coimbatore and Malabar. It appears from a Correspondence with the Office of the Accountant General submitted with the report that the system in practice goes to regulate the price of the Tobacco supplied during one quarter by the transactions of the preceding 3 Months by Calculating the quantity and value of the supply in store at the Commencement of and during one quarter

quarter and at its close estimating the average price of the whole which average regulates the price of Tobacco for the ensuing quarter the object being to facilitate the adjustment of the accounts by substituting a quarterly in lieu of a Monthly Estimate.-

5.- In the Extract Minutes of Consultation dated 29th March last the Most Noble the Governor in Council adverting to the working of this new rule in the District of Coimbatore desired to be informed whether the arrangements of the Accountant General met with the Boards approval and what effect they were Calculated to have in the future Revenue derivable from the Tobacco sales- The necessary information on these points have been called for, and when the Board have the required explanation before them, they will communicate their opinion more at large on the Subject to Government.-

In Cons.n 15th April 1847.

Sayer-

6.- The Frontier Duty was an unproductive source of Revenue during the year under report owing to the abolition of the Mysore Frontier Chowkies- the actual receipts were Rupees 4,599-7-4 and the Charges including Superintendence and the payment of drawback amounted

Conjointly

Conjointly to Rupees 5,122-7-4- thus shewing a deficit of 523 on the outturn of the year.-

Sea Customs. 7- The fluctuations under this head were comparatively unimportant resulting from the general state of trade affecting the various staples of the District. It is stated that there was a decrease from certain articles to the extent of Rupees 1,9064-7-9- and an increase of Rupees 16,754—13-7- of which nearly half the excess arose from the larger Exports of Pepper. The Gross Collections were upon the whole below those of the previous year by Rupees 3,089-6-11 which was however also Considerably less than the receipts of Fusly 1253 when the immediate effect of Act VI of 1844 was experienced. The Charges were swelled during the year under report by the additional Establishment having been debited in full- but the payment of drawback on the other hand was less by Rupees 14,322-10-6 thus raising the Net Revenue to Rupees 1,44,382-4-4 which exceeded the Net Revenue of Fusly 1254 by Rupees 10,548—3—11.-

8. The Collector has furnished three Statements exhibiting the particulars of the Exports of the several items liable to duty in

in future these may be dispensed with, it being sufficient to bring to notice any remarkable fluctuation which may be apparent and the Causes which may have conduced to influence the demand- at the same time the Collector will bear in mind the observation of Government Conveyed in Para 3 of the Extract Minutes of Consultation dated 2nd April 1846 in view to ascertaining the actual effects produced in the Exports of the District by the reduction of the Cawlut as well as the general rate of the export duty.-

Instns 16th April 1846-

9. Of the remaining branches of the Exptg Sources of Revenue Vizt. Abkarry, Small Farms Vcs Stamps and Moturpha it may be sufficient to remark that the Net Revenue derived from the three first named items presents a falling off Compared with the Net results of the previous year in the respective amounts noted in the Margin- The Collections from Moturpha however present an increase of Rupees 1,196—1—7.-

Abkarry	2,278	12	5
Farms Vcs	222	7	2
Stamps	10,635	2	4
	13,136	5	11

10 The Gross Collections Realized from the whole of the several items enumerated above

above amounted to Rupees 1,32,369-1-5 being less than the total receipts of Fusly 1254 by Rupees 7,380-11-5. The amount of disburse= =ments under the General head of Charges shows a reduction on that account for Fusly 1255 of Rupees 60,324-12-10 thus reducing the Net deficiency of the year as contrasted with the preceding to Rupees 13,055-14-7.-

11.- At the close of the Fusly under review the sum outstanding on account of "Old arrears was Rupees 720-7-7 but which by subsequent collections was re= =duced to Rupees 561-15-7. Of this latter sum the Collector states that Rupees 431-15-10 are irrecoverable and solicits permission for their final remission which the Board beg to recom= =mend may be granted.-

12.- The Board will now revert to Mr. Conolly's remarks in Para 4 & 6 rela= =tive to the subject of the decrease in the Domestic Salt Sales in his District already noticed, and to the consideration of the means suggested to check the illicit prac= =tices which in his opinion have produced the depression in question.-

13.- Mr. Conolly prefaces his observations by

by a reference to a former Correspondence which had passed between himself and the Board in which he brought to notice that the decrease in the Home sales were in his view ascribable in part at least to an extensive and organized system of Smuggling which was carried on between the Southern Districts of Malabar and the adjoining Territory of the Cochin Rajah consequent upon the disparity of price pre= =vailing in the two Countries to check which two propositions were suggested by him for the consideration of the Board, Viz. the entertainment of a strong preventive Estab= =blishment on the enhancement of the price of Foreign Salt at present obtaining in the Cochin State. The evidence upon which Mr. Conolly mainly based his conviction that Salt was extensively conveyed from the adjacent Territory was the Statements made by the Salt Merchants of Malabar and the Government Servants Connected with the Salt department as well as also on the fact of seizures having been made in transit across the Frontier. On the other hand however a reference made to the Resident of Cochin and Travancore went to show that the sales at the Depôts

of

of Cochin had also undergone a decrease being below the Sales of the previous 10 years a circumstance which tended to the supposition that the Supply which found its way into Malabar was not obtained from that source. Independently of this illicit trade Mr. Conolly also reported that other Causes were in operation within his own limits depressing the Government Sales, he remarked that "Crowds of the "lower orders resort to the wild and desolate marshes to be found in many "parts of the Coast and there make a "Salt which tho' far inferior to the article "which comes from the Government Depôts "has yet a certain value and can be sold "for a Remunerating price." In their reply to this Communication the Board pointed out the questionable Character of the Statements advanced by the Salt servants as parties prepared to avail themselves of any plausible explanation of the Causes for a diminished Sale at the depôts. the actual quantity of illicit Salt seized was also adverted to as important evidence, but no mention was made of extensive Seizures; and upon the whole it

it appeared to the Board that from the facts noticed it was not altogether conclusive that the great bulk of the decrease arose from the Contraband trade with Cochin especially as the illicit manufacture of the Country Salt was represented as on the increase. but how much of the loss of Revenue was to be attributed to this cause and how much to the trade with Cochin there were no data to form a judgment. It however was evident that the two Remedial methods proposed by Mr. Conolly irrespectively of the general objections incident to them Could if adopted be but partially effective without indeed the force was so extensive as to put down both Foreign and Home Smuggling which the local nature of the Country appeared to renders impracticable the frontier line extending to a distance of 100 Miles, at any point on which Salt might be Clandestinely coveyed into Malabar.-

14 The Collector however seems to have fully satisfied himself that the marked decrease which has attended the sales of Salt in the Southern Talooks

id

is attributable to illicit practices and since the dispatch of the report under review has furnished the Board with an Extract from a communication from his 2d Assistant detached on general duty to the Southern Talooks who states that the Cochin Salt is extensively transported over the Frontier by Subjects of both Governments large numbers of whom are said to be engaged in the trade who in the first instance conceal the Salt in the Jungles and remove it thence as opportunities offer and of this illicit Salt he states that seizures have been made by the Talook authorities both previous and subsequent to that time.-

15. As the best means of checking the free trade Mr. Conolly again adverts in his report to his former suggestion and observed that on consideration he thinks no better plan can be devised than to make arrangements with the Cochin Circar to put their Salt Monopoly on the same "footing as ours with regard "to the price at which they sell it. "This will be adds at once remove all difficulties."

This

Fort St.t George 17th June 1847

16 This measure though it would doubtless remove the Chief cause of the evil cannot be expected to prove wholly effectual for upon Mr. Conolly's own showing the extensive trade in the Swamp Salt would still remain in force if however Mr. Conolly is of opinion that a reasonable addition to the present Police Establishment would enable him to suppress this traffic the Board will be prepared to entertain such proposal.-

17. The price of Salt in the Cochin State is represented to be 7 annas a maund whereas the Monopoly rate in the Malabar Depots is one Rupee a disparity which as long as it exists especially with an unprotected Frontier line over which facilities exist for Conveying the Cheaper Article, holds out temptations for smuggling which nothing short of an overwhelming preventive force could suppress- In addition to the higher rate obtaining in Malabar Mr. Conolly observed in the Correspondence above adverted to that the price of Salt in Malabar was still 40 per Cent in excess of what it was previous to passing Act VI of 1844- In explanation

explanation of this point it will be seen from the remarks in Para 9 that previous to the operation of the Act in question, an excess of Salt was obtained by the mode of Computing the Amount of the Garce in use in the District by which the Garce was made to be equivalent to 146 Indian Maunds instead of the true measurement of 120 J.M but that by the substitution under the provisions of the Act of the latter standard the effect has virtually been to raise the price upon the consumers who now receive their supplies at the latter rate whereas formerly they obtained them at the enhanced estimate 146 Indian Maunds per Garce, the result therefore being that the price of Salt has been raised by the introduction of the Act nearly to the extent mentioned by Mr. Conolly, or in other words the present price in Malabar has been enhanced between 21 and 22 per Cent above the rate which followed the Application of the Act in other Districts when the value of the Salt was increased by the enactment in question only between 14 and 15 per Cent.-

18. The Board however do not consider that there is any occasion to discuss this point further the Act has provided an uniform standard and price at which Salt is to be disposed of throughout the Presidency and they see no grounds for any modification in the established rates to suit the hitherto favoured circumstances of Malabar. The question at present for consideration is the best mode of securing the revenue from illicit depression and it appears to the Board that an approximation between the selling prices of the Cochin and British Ports and a strict supervision by the Police authorities subject if necessary to an increase to some extent of the present force will probably have the effect of materially checking the evil. In the meantime they would however suggest

8496 Fort St George 17th June 1847.

suggest to Mr. Conolly that Depots for the sale of Salt might be established in such localities as are now at a remote distance from the Government Gollahs a suggestion originated by the 2nd Sheristadar in his report adverted to above and which would seem is deserving of his consideration - That Officer observes that "the Gollahs belonging to Government are at a great distance and from this reason, even were the price of Salt at both places the same, the inhabitants of this part of the District feeling that they could with less difficulty supply their wants from the Cochin Sirkari Country would seize every opportunity of bringing in as much Salt as they require to save the expence of Carriage.

Ordered that a Copy of the

foregoing Extract from the Board's Proceedings with the annexed Comparative Statement of the Collections Charges and Net Revenue be submitted to Government and a transcript of the same be forwarded to the Collector of Malabar for his information and guidance. ——

From the Collr of Madras —

Sir,

I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated 10th Ultimo and to report that there is no authority for the transfer of the Salt Compensation Certificate No 3 in the name of Veerasawmy Moodelly, payment thereon having been made to him under the circumstances stated in Para 2 of my letter of the 17th April last, but it is proper to state at the same time that it is the practice of this Office to apply for such authority only when fresh Certificates are to be issued whilst transfers from the original Holders or their Heirs to others are registered on the genuineness of the transaction being ascertained under the rules communicated by the Board on the 18 July 1836.

Read the following letter

To D. White Esqre

Acting Secretary to the
Board of Revenue
Fort St. George

Sir,

(43)

From Mr. J. B. Pharoah

I beg to acknowledge the receipt of your letter of the 31st Ultimo, an answer to my requests of the 21st April last—

I note the observation of the Board in respect to my request to be furnished with the Revenue Annually derived from the Villages in the several Collectorates, but trust I will be pardoned for soliciting instead, the names of the Talooks comprising each Collectorate, with the amount of Revenue realized from each Talook taken on an average of 5 or 10 years, or for the past Year, and as the period of my stay at Madras is limited to the day of the arrival of the Steamer from Calcutta, I will feel thankful to be informed 'ere then, if my request can be met—

I have received the Map of Nellore and avail myself of this opportunity to tender my grateful acknowledgments to yourself and the Members of the Board of Revenue for the kind indulgences allowed me—

To M. J. B. Pharoah

Sir,

(43-44)

To M. J. B. Pharoah

Forwarding a Statement Shewing the Land Revenue realized in each Talook of the Several Districts in the Madras Presidency.

In reference to your letter dated 5th June 1847 I am directed by the Board of Revenue to forward you the accompanying Statement Shewing the land Revenue realized in each Talook of the several districts in the Madras Presidency. You will observe that it has for the most part been prepared on an average of the last 5 years, but when this has been found impracticable the Collections for the past Fusly only have been inserted. In the Zemindary Districts the amount of Peishcush has been entered in one sum.
