(1) Proceedings thereon. Read Abstract of Demand Collection and balance submitted by the Acting Collector of North Arcot from 1st to 11th July 1827

In the memoral the Fool of the above Abstract it is stated that balances which have accumulated from Fusly 1231 to 1256 inclusive under the head of Sevoy Jummah have been hitherto unaccountably omitted in the State=ments of Demand Collection and balance.

The Acting Collector is re=quested to endeavour to ascertain the cause of this omission and to report the circumstances under which it was discovered.

The Board observe that this Abstract under reference did not reach their Office until the 17th Instant and that the abstracts of demand Collection and balance for the 31st July and August have been long due.

Mr. Lovell's attention is called to the requisition contained in the Board's Circular dated the 16th August last regarding the transmission of all Periodical Statements and returns at the periods prescribed in the Board's standing orders of the 13th July 1826 and he is requested to adopt measures to ensure the immediate trans=mission of the several Statements and re=turns now due and to cause all future returns to be forwarded punctually at the appointed period

To

J. F. Thomas Esqre

Chief Secretary to Government

Marine Department

Fort St. George

Sir,

To Govt dated 12th augt 1847 from Cap. Do.

With reference to the papers marked in the margin on the subject of the distress prevailing on the Laccadive Islands, I have the honor to forward Copy of a journal which has been sent me by Captain Young of the H.C. Steam Frigate "Auckland," who arrived here on saturday after visiting each and every one of the Islands in the group Captain Young's intention had been to make his tour from Calicut, as a starting point, but communicating with the Collector of Canara on his way down from Bombay he was led to think that it would be more advisable to commence from Mangalore

It will be seen from Captain Young's journal that all the Company's Islands four in number, and three of those belonging to the Beebee of Cannanore have escaped with very little injury from the gale of April last and that the

jury was chiefly felt by her other two Islands Kulpenni and Androt the destruction at which has indeed been fearful. All the Trees, chiefly fruit-bearing ones, and all the houses were destroyed and the wretched inhabitants to have had to contend during the whole of the Monsoon with the evils of exposure famine and sickness. The Government are already aware that these were so grievous as to induce a large body of the Islanders to put themselves into their frail boats in a tempestuous season and put to sea for the Coast at all hazard.

The marginal Statement shews the number of those who were reduced to this extremity. On their state and prospects I shall address the Government again. The great body of them are at present obtaining a precarious livelihood among their (Coast) fellow religionists the moplahs. others are aided by the Beebee and the remainder a few sick and weakly subjects are for the present under our care.

Captain Young left a sufficiency of rice at Kulpenni and Androt to support the people still remaining there

Memorandum of Boats which arrived from Androt and Kulpenni between the 6th August & 7th September 1847	No. of Boats	No. of Males	Females	Children	Total	Remarks
	16	120	555	141	246	Conclusive of 19 Men & Women with 5 Children who died on the road

there for a month; but I thought it desirable to increase these supplies and despatched 500 Mds more of grain and various condiments under the charge of Mr. Robinson, who is to be put down by the Steamer at Androt, from whence he will proceed on Island boats to Hulpenni the other Island. I thought it will also to send a Native Dresser with a quantity of such simple medicines as the Civil Surgeon thought would be suitable for the present distress.-

Mr. Robinson with reference to the instructions contained in the Minutes of Consultation of Government dated 20th ultimo will make a detailed report of all he sees or hears and the whole question relating to the Laccadive Islands can then be discussed. I mention this in advertence, partly, to the complaint preferred by some of her subjects, those of the Islands of Acautti, of various descriptions of ill usage. a Complaint on which I was addressed under date the 21st august last to report in full.-

P.S.

At the risk of its being superfluous I send Copy of the letter written by me

of 2d Sept. 1847. to

to Mr. Blane on the receipt of the Government orders of the 20th ultimo.-

My Dear Sir,

I have much pleasure in sending you a Copy of my Journal as also a list of losses said to be sustained at the different Islands by which you will see that the Islands Androt and Kalpeni are in a dreadful state, every thing destroyed, and at the time we arrived there the natives were dying fast of utter starvation.-

I have left about a months provision at each of those Islands. The other Viz. Kiltan, Chittat, Kaudmut, Amini, Kakatee, Conratee and Minicoy have suffered proportionally nothing. At each of the latter Islands I left a small supply of rice. Baba said the man you kindly sent me was of the greatest service indeed, I dont know what I should have done without him. I beg to recommend him to you for some reward. I leave this again tomorrow for Androt with Mr. Robinson and a further supply of Rice and other necessaries no doubt you will hear of his proceedings.-

Septr 1st	S.E.	6 m R.	Mr Blane the Collector of Canara kindly came on board as I was not able to leave the Vessel and gave me what information he possessed regarding the Islands and assured me the man he was sending on old Moneega was a trusty and influential man with the Islands recommending me to be guided by him in a great measure in any dealing with them- Received 992 Moorahs of Rice stowed them away in Fore and after Orlops fore hold and steerage, it being too late to have any chance of our reaching the Island before sunset tomorrow, resolved to remain here till early tomorrow morning so as to reach Kilton the nearest one early in the following day. We have now for the Islands 1323 moorahs and 150 Bags of Rice the latter we received in Bombay.-

			several boats came off as did the Sepoy in charge, from him we learnt that though the Island had suffered considerably in the Gale of April they were not at all in distress to look at them you would say they were in Capital condition some of their Boats with rice having missed, allowed them to take 50 Bags from our stock, they paying for the same at Mangalore the annexed List will show the loss the natives say they sustained by the Gale. Having relieved their wants at 11- 30 a.m. set on and stood for Chiltae found them in the same state as Kiltan and like them in want of a little rice supplied them with 42 bags on the same terms as at Kiltan having no anchorage hauled the fires up and lay too, to Leeward of the Island for the night.-
Sept 22	Westerly	D. C.	At Day light Chiltae Island bore N. 37° W. about 7 Miles at 5-10 set on and stood towards Hardmut or Cardamum as it is called in the Chart at 9-30 stopped close to East side of Hardmut this is a large Island but Natives killed two turtle and brought them along side, but would not dispose of them on account of the shell which they sell by weight their luck has been great to day at 11-45 set on and stood for Ameni a boat came off from the Island while we were close to Hardmut from the crew I learnt there was anchorage under Ameni stood for it 1-30 P.M: anchored in 15 fms with the centre of the Island west distance about 40 yards. This is the Principal Island belonging to the Honorable Company and has a population of 2000 is under the care of a Monegar who has the 3 Islands we have visited viz Kiltan Chiltae and Hardamut also under his superintendance- a Sepoy or Peon only is kept at the other Islands- The Islands appear to have suffered less in proportion to its size than the others, I walked nearly over it and was glad to find it in a highly cultivated state- it seemed to me scarcely possible the Number of Trees can have blown down that they state they are still so dense- The natives are in want of Rice from the same cause as at the other Islands, determined to leave 500 Bags of Rice at this place in charge of the Monegar to be issued by him as required at the Islands Kiltan Chiltae Hardmut- nothing had been heard or seen

At 5 A.M. weighed and stood towards Cowruttee at 11— 15, stopped off the Northern end— this is the 2nd of Her Highness the Beebee's Islands we have visited, it is in much the same state as the others, supplied them with 102 Bags of Rice and at 6:30 P.M. set on and stood for Minicoy—
Dr 8th	Westerly	D.b.P.	At 3-30 P.M. stopped close to Leeward of the Island having no anchorage, a Native came off and offered to take us into the Lagoon, but as he had only 2 fms of water on the bar, I was obliged to decline his kind Offer at which he was much surprised could not believe it possible a Vessel required so much Not being able to communicate with the Island to night, banked the fires up and lay too, to Leeward of it—
Dr 9th	Westerly	D.b.P.	Day light stood in for the Island and at 10 anchored off the North end of it in 12 fms about ½ a Mile from the place and abreast the entrance to the Lagoon no native boats coming off sent the 1st Cutter in Charge of Mr Walker Master with the Interpreter, to gain information observed in going in that she got nearly swamped, rather alarmed me and she was scarcely in when

Sir,

1. With reference to your letter of the 20th Ultimo and to my letter to your address of the 30th Ultimo and its enclosure, I have the honor to forward, for the information of Government, copy of a demi Official letter which I have this day received through the Collector of Malabar from Captain Young Commanding H. C. S. Auckland with the original Copy of his Abstract Journal in which his proceedings since leaving Mangalore on the 2d Instant are clearly detailed. There is also appended a Statement of the loss suffered on each of the Islands

13411 Fort St. George 20 October 1847.

Islands which he visited as furnished by the Islands.

2. From these Statements it will be observed that the destruction occassioned by the hurricane in April last has fallen principally upon the two Islands Kalpenne and Audrot belonging to the Beebee of Cannanore which appear indeed to have been entirely desolated. Mr. Robinson has now proceeded in the Steamer to Audrot, and will no doubt in due time furnish the fullest particulars.

In the mean time it cannot fail

3. to be most satisfactory to the Most Noble the Governor in Council to observe that the supply of Rice which I was encouraged by the instructions conveyed in your letter of the 20th ultimo to furnish, has been the means of relieving the most severe distress and famine and that it has probably saved the lives of a considerable number of the destitute inhabitants of those two Islands, for it will be seen from the enclosed list of losses that, independent of deaths from other causes, no less than 262 persons had already perished from actual starvation.

I think it right to draw

4. particular

particular attention to the observation contained in Captain Young's diary for the 15th Instant that the authorities on the Island of Audrot had refused to permit the departure of such of the inhabitants as were desirous of being conveyed to Kadamut. I cannot doubt that Mr. Robinson will without difficulty succeed in satisfying the Beebee's Officers, of the futility and cruelty of attempting to detain the inhabitants on an Island now rendered so incapable of supporting them, and on which even the fresh water appears to have been rendered brackish. The best means adapted for their permanent relief, Viz.t that of establishing them upon the Island of Kadamut which suggested itself to Mr. Robinson are, it will be seen, the very same as have occurred to the people themselves such a measure cannot, it will be obvious, be carried out without some considerable expense, but I think it right to suggest, with reference to the limited time during which the Season is open, the delay which occurs in communicating with the Islands by sailing Vessels, and the necessity which will exist for Mr. Robinson's return to the Coast, that the Most Noble the Governor in Council

should

should be prepared to furnish him with some instructions respecting the plan generally, and that it will be desirable with a view to obviate the necessity of multiplying references that the details by which the views of Government may be carried out should in a considerable measure be left to the discretion of Mr. Robinson by whom I feel confident it would be exercised with prudence and economy.

Read — The Most Noble the Governor-in-Council approves of the proceedings of the Collector of Canara as reported in his letter of the 22nd September last.

The proposition of Mr. Robinson to establish the Inhabitants of Audrait on the Island of Kadamut appears highly judicious, but with reference to Mr. Blane's request to be furnished with instructions respecting the plan generally to be pursued, his Lordship in Council observes that

that Mr. Robinson is so well acquainted with all connected with the Laccadive Islands and will so fully be enabled by his personal enquiries to acquire an accurate Knowledge of their present wants that he is willing to leave it to that Gentleman to adopt such measures for the benefit of the Inhabitants as his judgement and discretion may suggest. His Lordship in Council desires to be kept informed from time to time of Mr. Robinson's proceedings.

3. Ordered that the foregoing resolution be communicated to the Collector of Canara through the Board of Revenue and that the Board be at the same time furnished with the reports of both the Collectors of Canara and Malabar for their information.

"for lengthened periods."

2. His Lordship in Council also approves of the proposition of the Collector of Malabar communicated in the Board's Proceedings of the 16th September to let for five years on competition, the building yard No. 10 the Government reserving the power of occupying the yard for its own purposes at any time before the expiration of the lease, should occasion arise.

3. Captain Cotton's proposal to open a road across the Annamalay Hills appears to be a work of great importance but as a separate report on the subject of these Hills generally and of the Forests on them, is before Government in the Public Department, no further notice is here required.

4. The Board of Revenue will instruct the Collector of Malabar to communicate with Captain Williams, the Bombay Timber Agent, and obtain a report from him on the quality of the Teak growing on the above Hills and particularly on the line which Captain Cotton proposes for a road, by which the produce of Coimbatore might be transported to the Coast.

Resolved

more fully the circumstances which have
caused the decrease of Rupees 1781-11-2
entered in the Statement annexed to
para 12 under the head of "Frontier Duty
on Piece Goods exported to yanam."

It appears that by the
measure adopted to check the smuggling of
Piece Goods into that Settlement a considerable
increase in the Sea Customs Duty was realized
at Coringa, but it is not apparent from
your report why so great a declension
should have occurred in the collections of
Frontier Duty on Piece Goods which in
Fasly 1255 amounted to Rupees 1979-11-4 but
fell in the ensuing year, namely that
under report to Rupees 198-0-2 showing a
decrease above noticed of Rupees 1781-11-2.
It would appear from this large falling off
that a sudden check had been experienced
by the trade to the French Settlement in
this particular description of Goods, the
cause of which the Board request that you
will be good enough to explain at your
earliest convenience.

Sir,

From G.A. Smith Esqre } Collector of Nellore — } Requesting instructions for the disposal of the money in deposit on account of the Religious Institutions in his District since 2nd March 1846 beyond the sum alluded to in the Minutes Consultation 14th July 1846 -

With reference to the Extract from the Minutes of Consultation dated 14th July 1846 directing that the sum of Rupees 4310-1-9 in deposit on account of Religious Institutions in this District should be held at the absolute disposal of the Government and applied to purposes of public benefit, the above sum of Rupees 4310-1-9 being the surplus upto the end of March 1846 has since been retained in deposit -

The subsequent receipts on account of the Institutions from Lands and Pagodas have also been as usual credited to deposit and the amount required by the Trustees for the disbursements of Pagodas debited to that head and paid to them - The result is a Net Increase of Rupees 767-15-10 above the sum alluded to in the Minutes of

134 32 Fort St. George 21st October 1847

of Consultation above alluded to although there is a decrease in Pandurty in the sums of Rupees 86-11-9 as will be seen from the accompanying Statement exhibiting the sums outstanding up to March 1846 and that in deposit up to the end of August last after deducting the charges from the subsequent Collections - According to the orders contained in the Boards letter dated the 18th March last the landed Estates of three Inste Institutions have been made over to the Trustees and those of the only remaining one will be disposed of in the same way as soon as practicable - As the Trustees of the Pagodas noted in the Margin have been applied for the sums held in deposit and accumulated since March 1846 I have thought it advisable to bring the subject to the notice of the Board and to request their instructions regarding the disposal of these funds which have accumulated beyond Rupees 4310-1-9 since March 1846 -

whilst

Fort St. George 21st October 1847

4 Whilst there is an increase of 10562 Puccas it is remarkable that there should be a decrease of 2198 Cowcas but no explanation can be given further than that it having been suspected that the accounts of such items were not very carefully kept strict orders were sent in December last to examine the present states and carefully enter the results the discrepancies are therefore more the result of a careful investigation than of any real increase or decrease. The same remarks are applicable to the other items in the same Statement.

Season. 5. The season was very favorable at the commencement of the dry cultivation and the rains which fell in June and July enabled the Ryots to cultivate their Dry crops satisfactorily throughout the District. The North East Monsoon set in towards the end of September but although the rain was heavy for a time it ceased till the middle of October and then continued till December. It was generally favorable to the Punjah Cultivation in all the dry Talooks. there were however a few exceptions in the southern portions of the District. The freshes in the Cavery River appeared in June and continued during the cultivation season but not to the full extent required. the unusual freshs and fall of rain were received during the months of April but being unseasonable it could be turned to little or no account for purposes of cultivation. The district has been generally free from disease both amongst the inhabitants and their cattle. Indeed the season must be considered as having been favorable throughout the entire Province.

Prices 6 The Price of grain continued at a favorable rate during the whole Harvest year. There was an increase on an average of 24 per Cent above the selling price of the preceding year for Samba Paddy the principal article of food in the District.

Detailed Explanation of the Increase and Decrease

Increase by Cultivation and Decrease by Waste or fallow Lands.

12 The extent of land newly taken up by Ryots for cultivation in Fasly 1255 in exchange of those held by them in the preceding Fasly and that cultivated above their last years holdings have amounted to Cawnies 4.3016-58-7 bearing an assessment to of Rupees 12109-13-1 The deductions made on the account of lands laid waste were Cawnies 2.0158-19 9/12 or Rupees 6248-2-9 This deduction consists of Odoo Tars or Lands left waste by taking other parcels in lieu of them, and those thrown out of cultivation by indigent Ryots both amounting to Cawnies 2.4982-13-11½ or Rupees 6204-2-4 The lands remaining waste belonging to those who were deceased is Cawnies 11-20-5 or Rupees 5-5-11 10- and those of the absconded Ryots Cawnies 65-15-10 or Rupees 288-4-7 making a total of Rupees 6248-2-9 as shewn above. The Net Increase of cultivation therefore amounts to Rupees 6145-10-4

Porumpoke

13. The increase from Porumpoke Viz. Rupees 1347-12-3 arises from lands entered in the accounts of last year as unfit for cultivation having been brought this year under the Plough. The deductions made under this head are as follows.

	Rs	A	P
Lands destroyed by the River amounting to	43	5	9

Tarapadi Fasly

14 Land situated between the boundaries of the Villages of Porur and Pondamungalum consisting of 5 Cawnies and 80 Kulies was not hitherto entered in the accounts of the aforesaid Villages but being discovered this Fasly the assessment thereon was fixed at Rupees — 12-7-7

Three persons in the Village of Valegum Padaveram appear to have enjoyed 3 Cawnies and 32 Kulies of land free of assessment, as they possess no authority in support of their holding it has been incorporated with the aforesaid lands and entered under this head. The teerwa thereon amounts to Rupees — 19-12-8

Certain high ground not included in the Original Survey, having been this year cultivated in the Village of Polegaram attached to the Talook of Saulgoody is brought to account amounting to Rupees — 13-3

In the Village of Nattum of the same Talook a portion of the old bed of the Coleroon being brought under cultivation, but not included in the Original Survey has been assessed this year at Rupees — 91-9-6

The

The thick jungle situated in the Village of Silnacherry in the Woodiarpalliam Talook, and not included in the original Survey having been this year cultivated, it is entered under this head the assessment amounting to Rupees ——— 43-3-1

Total Tarapady Increase is Rs. 167-14-1

Mana Totam (Increase) 15 Certain parcels of ground adjoining Peyots houses, which spots were enjoyed free of rent, having been cultivated this year, have been incorporated with the Ain lands. The assessment on them amounted to Rupees ——— 8-14-8

Some unclaimed ground, intended for building being cultivated has been assessed and brought to account under this head. Its teermah being Rupees ——— 1-5-0

Total Increase 10-3-8

Mana Totam (Decrease) A spot of Punjah land which was already included in the settlement, having been erroneously brought again to the account in the last fusly, as if newly cultivated, The error was corrected and the assessment remitted to the amount of Rs. ——— 1-2-10

The net increase is Rupees ——— 9-2-10

Naval Pa: =dooray. 16 The lands situated on the borders of the Cauvery River and overgrown with reeds and long grass, having been this year cleared and cultivated being assessed at Rupees 45-11-8 is an increase under this item.

Inams. 17. The assessment upon the Inam lands, lately held by Kistnasastry in 5 Villages of the Arrealore Talook, which had been resumed and incorporated with the Ain lands (under the orders of Government dated 19th January 1847) is Rs. 74-15-3.

The Inam lately held by one Sa= =mien bearing an assessment of Rupees 22-8-6, in the Village of Keelanattam, of the above Talook, having been resumed at his death, has also been in= =corporated with the Ain. On resuming an Inam Village of the Talook of Vitticutty, it was discovered that the Inamdar had recently himself allowed 5 Cawnies and 52 Kulies of land to a Mahajanum under Pungoovaley Inam tenure. This alienation being unauthorized the land has been resumed and assessed at Rupees ——— 13-8-6.

A parcel consisting of 1 Cawny and 89/96 Kulies being entered in the original Survey account as Flower Garden, free of rent, but now discovered to be cultivated with Paddy by the Puttahdars of the Village, the same has been incorporated with the Ain lands and assessed at Rupees ——— 12-1-5.

The Pattyvaly Maniam enjoyed by the Putta= =dar of Papakapatty in the Talook of Vitticutty, is added to the Settlement, as the holder of that Inam is dead. The exctent of land thus brought to account is Punjah Cawnies 14 and Kulies 40 of which 10 Cawnies and 94 Kulies were actually under cultivation bearing an assessment of Rupees 22-13-1, which appears as an increase under this head.

An

An Ināmdar in the Village of Sammandanyoody - Arrealore Talook, having encroached on the Ain land and cultivated 2 Cawnies and 34 3/8 Kulies, the same was discovered this year and assessed at Rupees 7-3-11 One Cawny and 82 13/16 Kulies of land which is entered as Inām in the Survey Account, but erroneously included in the Summabundy was deducted to the amount of Rupees. _____ 5-14-11.

*Remaining under Cultivation - 3-16-6.

Certain Porsopoo Inam, held by an Individual in the Village of Sevoyem, Vitticulty Talook, who absconded several years ago; was ordered by the Government to be incorporated with the Ain Lands. This is assessed* at Rupees. _____ 1-1-7

A Cultivator holding Porsopoo Inam in the Village of Papakapatty of the above Talook, had fraudulently cultivated a large Tract of Ain land amounting to Cawnies 79-49-3, in excess of his Inam. This being discovered from an examination made this year is brought to Account and assessed* at Rupees _____ 184-15-7

Total increase as above _____ 234-[illegible]

Quit Rent.

19- The ground for which the Government Grant No. 1463 was issued, was in the year 1839 in the possession of one Vydelingum Pillay as entered in the Statement forwarded to the Board with a letter dated 21st June 1839. There being no vestige of any House, and the Ground having become a common thoroughfare, the Government, in the Minutes of Consultation under date 13th August 1839, granted authority for writing off the amount of Quit Rent due on that Grant. It happened however that the ground was inadvertently entered in the name of Thota Vencatachella Chetty, an extensive Householder, and the Quit rent was collected from him. This individual repeatedly complained that he was not in possession of any such House; Upon examining all the accounts the error was discovered, and the Quit rent, incorrectly demanded, has this year been fully remitted Rupees _____ 3-4-6.

The dwelling House V.C.A. on the ground for which the Government Grant No. 1457 was issued, having fallen down, and the ground itself used only as a public thoroughfare - The holder of it objected to continue the payment of the Quit Rent, hitherto levied upon the same - It was therefore considered reasonable to deduct the amount from the Settlement, subject to the approval of the Board of Revenue Amounting to Rupees. 9-14-11.

Total Quit Rent _____ 13-3-5.

Mistakes.

20. The errors in the calculations made by the Village Curnums in the Accounts of former years have been discovered and corrected this Fusly. The increase under this head Amounts to Rupees 15-11-4, and the decrease to Rupees 8-11-10, the net Increase is Rupees 6-4-6.

Alteration of Crops.

21. The total Increase from alteration of Crops amounts to Rupees 6,104-9-5. and is made up of the following particulars.—

Assessment on the 3d Crop Cultivation made in the Nunjah and Bayhayah lands as shewn in the Statement No. 11 Rupees —— 478-4-3.

Amount of increase from 2d Crop Cultivation raised upon one Crop Bāyhayah lands Rupees —— 849-10-1.

Increase from the Cultivation of superior kinds of Crops (in the dry Villages) on lands which were sown in the preceding Fusly 1255 with inferior kinds.—

On Nunjah	372-15-11
On Bāyhayah	231-12-1
On Punjah	4171-15-1
Total Rupees	4,776-11-1

The Decrease under this head is hereunder particularized.

1st. The amount of decrease in the Cultivation of the 3d Crop is Rupees —— 138-8-5.

Decrease

Fort St. George 21st October 1847.

2nd. Decrease in the 2d crop of Baghayat lands is Rupees —— 34-12-1.

This is attributable to the supply of water having been insufficient in some of the wells.

3rd. Decrease from the cultivation of inferior descriptions of produce on lands which were last year assessed with superior Kinds amounts to Rs. 869-7-9.

4th. In the Village of Tapai in the Fortress Taluk it is customary to assess with a trifling addition to the single crop assessment, all Punjah on which a 2d crop is raised. This practice exists only in 3 Villages and not in any other part of the District although the land may be a second time cultivated. The deduction or rather the decrease during the present year amounts to Rupees —— 1-14-3.

Total Fasul Lamme —— 1044-11-4

exhibiting a net Increase under this head of Rupees —— 5059-11-5

Vampire Rusty and Lamme

22 The increase from the cultivation of Betel, Plantain, Turmerick &c. occupying Nunjah Garden amounted to Rupees 1390-15-9 while the decrease made on account of lands cultivated last year with those species, but which had reverted to Nunjah (Paddy) this year, amounted to Rupees 1,759-10-8, shewing a net decrease of Rupees 368-10-11.— This decrease may be attributable to an insufficiency of water in the Tanks of a few Dry Villages.—

The

Salaries

23 The Increased cultivation of the 2d Crop upon land cultivated last year with only one crop in the Wet Villages amounted to Rs. 12,930--11 and in the Dry Villages to Rupees ——— 5,609-3-0

Total Increase Rupees ——— 18539-3-11

Some of the Ryots from convenience or neglect did not fully cultivate their Two Crop Lands. Remission of the Assessment on the 2d crop thus left uncultivated was with-held except where the fields were unavoidably left fallow from insufficiency of water and other similar urgent reasons. a Statement (No 12) is herewith submitted as appears to be required by the Board and called for in the 2d Paragraph of the Extract from the Proceedings dated 25th March 1847. The amount thus remitted in the Wet Villages amounts to Rupees ——— 6,646--10: and in the Dry Villages to Rupees ——— 2,862-7-4

Total Decrease Rupees ——— 9,508-8-2

The Net increase under this head amounts to Rupees 6,284--1- in the Wet, and Rupees 2,746-11-8, in the Dry Villages, making a total of Rupees 9,030-11-9.

Conversion of one description of land to another.

24 The increase and decrease under this head are detailed in the following Statement.

	Total	342 35 9½	1203 12 1	2491 4 6	1029 4 5	41 12 "

It appears only necessary to offer some explanation on the decrease under this head. In the Village of Carpur, in the Saloor of Arrealore, 57 13/16 Kulies of Punjah were last year cultivated with Paddy, the water being taken from the Circar Tank, and the Curnum of the Village included it under the head of Nunjah. The Ryot complained that the land in question had always hitherto been cultivated with Punjah, and not fit for regular Nunjah, he therefore requested that it should be assessed as usual. It is accordingly entered as Punjah and the increase of assessment brought to account last year being Rupees -.-.11-.6. is remitted in the accounts of this Fusly:—

25 The Village of Sirgamboor in the Lalgoody Talook was previous to Fusly 1223 held as Inam; the Tope, occupying 2 bawnies and 23 3/16 Kulies of land was usually rented to the highest bidder. When the Village was assumed by Government, the amount of the tax on the Trees was fixed upon the land, the average assessment being Chuckrums - 12-.-.- per bawny. The Trees (Cocoanut) in due course, became unproductive, and were cut down. The Ryots now cultivate Nunjah and Baghayat on the ground they previously occupied. The Assessment therefore for the Current Fusly, was regulated according to the

the Survey rate prevailing in the Village - and the excess of Tope Assessment was remitted to the amount of Rupees 23-15-11-

26. In the Cantonment of Trichinopolly, the land appertaining to a dwelling was, in Fusly 1251; assessed as Baghayat land, but it is unfit even for Punjah, the land is now however assessed as such and the difference between this and the Baghayat amounting to Rupees-15-13-1, has been remitted.

27- A Ryot in the Village of Satanore, in the Valcondapooram Saloor, having used a well for irrigating his Punjah land, the Curnum assessed it as Baghayat last year,- but the land not being fit for such cultivation it has this year been transferred again to Punjah, and the additional assessment imposed last year 10 3/4 Rupees 1-.-.6 has been remitted.

Coole lands. 28 The increase under this item amounts to Rupees 207-12-.- and the decrease to Rupees 93-10-10- exhibiting a net increase from Coole lands of Rupees 114-1-2, as shewn in the detailed Statement No 10 prepared according to the Form furnished by the Board. The decrease above shewn, is not an actual one, but merely a remission of Teerwa according to the terms of the Coules, as entered in Column 55 of the Statement for Coole lands.

In

Turrm Fasly and Cammi. + Nagawelly and Cannalapoorum in Mooroy Coorungepaudy or Attoolore. Number correcty in Valcondapoorum

29. In the 4 Villages noted in the Margin, the Curnums have, in former years improperly entered in an inferior class certain lands which should have been otherwise entered. They have been after proper enquiry placed this year in their proper Classes. The increase on that account is Rupees 40-10-5.

In the Village of Sengandy of the Lanl-goody Talook, it is customary to class all lands cultivated with Madras horse grass as Manal Sarm. or / inferior / Sandy Soil, but when sown with other grass to class the same as Sheval Sarm or Superior / red soil. The increase under this head is Rupees 1-2-6.

30 On lands newly brought under the Plough last Fusly, the Curnums of the respective Villages have through negligence or ignorance fixed a higher rate than the lands can bear. Upon learning such matters from the cultivators, each case has been minutely enquired into, and a fair and proper rate fixed. The amount thus remitted being Rupees 5, has been entered under this head.

Coody Seerwal Jasty & Cammi

31 The lands occupied in Fusly 1255 by Mahajanams, Natars, Paraicoodies, and as Sookavasy and praying a low or favorable assessment, were in Fusly 1256 cultivated by Oolcoodies, or resident Ryots. They are accordingly assessed with full Seerwal and the increase on that account amounts to Rupees 73-7-9

In the Village of Sreekattoor in the Woodiarpolliam Talook, the lands belonging to Mahajanams were rented to certain Paraicoodies or non resident Ryots and the assessment fixed accordingly. The Mahajanams themselves have now taken up those lands again and the assessment fixed accordingly. The difference was therefore remitted, amounting to Rupees 1-12 - Certain Natars land in the Volcondapoorum Talook having been assessed with full Seerwal when taken by the ryots has reverted to the Natars during the present Fusly - and the Seerwal remitted on that account according to the custom of the District is Rupees 1-10-3

Seerwal Jasty and Cammi

32 A Perpetual Lease was granted in Fusly 1223 A.D. 1813/14 to certain Ryots for the cultivation of 200 Cawnies of land in the limits of Pulambadi attached to the Talook of Valcondapoorum. The Ryots instead of confining their cultivation with the extent allowed, encroached on the surrounding lands, and enjoyed it under the same reduced rate of Seerwal. This fraud being discovered the assessment was raised to the proper rate. The increase thus brought to account is Rupees 170-5-7

33 In the Village of Allandoor, a certain extent of land was held under Pottapoo - Manyam Tenure, and was ordered by the Board of Revenue to be incorporated with the Ryotwar lands.

It was accordingly assessed like ground similarly situated in that Village and included in the Settlement of last fusly. At the commencement of the present Fusly (1256) the former Cultivators refused to take up these lands complaining that the new assessment was too high, and that unless reduced, they would be unable to hold them. Exertions were used to find other parties who might be willing to occupy, but no one came forward. The tax leviable on similar land of the surrounding Villages was then taken, and an average struck, on which the land was taken up for Cultivation. The difference between the double rate of Fusly 1255 A.D. 1845/46 and that now fixed amounting to Rupees 19-- -11 has been entered under the head of Seerwah Cammie.

Increase 1736-4-8.
Decrease 910-14-10.

A tax levable on account of exchange of Coins in the Talook of Sevaroy and

and in the Village of Dēvimangalam in the Talook of Lālgoody, at 6¼ per Cent in the former, and at 7½ per Cent in the latter, on the Gross Land Revenue.

Saderwared- 37
Increase-537-3-1
Decrease-295-10-7

This tax is levied in 20 Villages of the Ranganagaddi Mahānam of the Valcondapooram Talook at 6¼ per Cent on the Land Revenue including Rufeum.

Talab Merah & Tank repair levy. 38

9 Villages in the Talook of Arrealore being formerly under Amani the Sirkar received its share in Kind. It was then customary to levy a fee on account of repairs of Tanks at 1 Callam of Paddy for every "Parichey" (a full chey of land) supposed to produce 40 Callams, and to enter it in the Jummah accounts as Talab Merah. Although a money rent has since been introduced this fee is still levied in Kind, and brought to account at the Jummahundy commutation Price. The increase under this head during the present year amounts to Rupees 33-1--

Carnam's Merahs. 39.

In the above mentioned 9 Villages of Arrealore the Carnams were in the receipt of a fee corresponding in amount to that levied for Tank Repairs. The increase under this head amounts to Rupees 4-11-- and the decrease Rupees-1-1--

Kadamerwary and Peircoly. 40.

Kadamerwary is the tax imposed upon

upon Garden lands irrigated from Tanks and Channels in addition to the usual supply received from their several Wells.

Deercooly is the tax collected upon Punjah lands watered from Circar Tanks and other Government Sources of artificial irrigation. The increase of these items amounts to Rupees 670-8-8. and the decrease to Rupees 432-4-9.

Grafs Tax

41. The Grafs tax is in some places fixed upon the land, whilst in others it is placed upon the cattle grazing in waste or fallow lands. In the Talook of Vitticatty, the whole of the tax is upon the land, at rates varying from ½ to 3 fanams per Cawny. The whole extent of the land after deducting Porampoke or immemorial waste, Inam, and cultivated lands, has been assessed with Grafs Tax. In the remaining wet Talooks the existence of the Grafs tax is very trifling. No grafs tax has ever yet been imposed in the Dry Talooks. The increase and Decrease proceed chiefly from the remission of the Grafs Tax leviable on waste lands when brought under the Plough, and its imposition on the Arable lands when left fallow: Thus the increase amounts to Rupees 667-5-2, and the decrease to Rupees 472-13-6. as follows, Viz:

	Increase	Decrease
Increase of Tax on lands — 585-3-10 — Rupees		387-3-2.
Dr. on cattle per head — 49-4-1 — Rupees		44-11-2.
Difference of Grafs tax deducted last year	32-13-3.	
During the present year	10-15-2.	
Total increase — 667-5-2	Total Decrease	472-13-6.

It

It appears necessary to explain the last item. In the Villages of Saingal in the Vitticutty Talook, the Grafs tax amounts to 3 Gopally fanams per Cawney. If, however, the same field be cultivated with Kānam or horse gram, the assessment per Cawney is only 2 3/8 fanams. The rate of Grafs tax being therefore higher than that levied on cultivated land, it has been thought just generally (in former, as well as the present year) to remit the difference between the rate of Grafs Tax and that of the said Kanam. The amount remitted on that account is annually adjusted in the accounts. The amount remitted last year on this account was Rupees 32-13-3. which is entered as an Increase and the sum remitted this year is Rupees 10-15-2 entered as a decrease.

Mane Wari

42 The Assessment on a certain parcel of dwelling ground was remitted some years ago in consequence of the proprietor having tendered a Razeenāmah for the same. The ground being cultivated this year, the usual Mane wary being Rupees -:-4-7 is brought to account.

Some of these building spots having been cultivated this year with Nanjah, assessed with regular Tax the Mane wary fixed thereon, is remitted amounting to Rs. 9-11-2

Mane wary, leviable on Ryots dead and deserted, and therefore, deducted 4-:-5.

a

A remission was also granted on 12½ Vacant spots occupied by certain Ryots in the Village of Ealloy in the Talook of Vittiealty who are perfectly destitute of means of payment Rupees ——— 15-15-2

Total Decrease Rupees ——— 29-10-9

Ardamania Poroopoo

43 The Poroopoo, or the amount of light assessment demandable upon the Ardamaniam lands held by Brahmin cultivators in the Villages of Neindaloor in the Vittiealty Talook, which were lying waste last year, but cultivated this year, being Rupees 7-5-4, appears as an increase under this head. The deduction of Poroopoo on the same description of lands laid waste this year is Rupees ——— 10-4-

Shrotriam Sodegay

44 The amount of Sodegay, due on the portion of Shrotriam held by Vencatachurry and Vencataroyer in the Village of Athacoorchy in the Woodiarpolliam Talook and which had lapsed to Government on their decease, is therefore deducted to the amount of Rupees ——— 27-11-9

The amount of Poruppu due on Inam held by Moothoo Pillay of the Sewagenn Village in the Vittiealty Talook, who absconded about 10 years ago, his Inam was ordered by Government to be incorporated with the main lands, is deducted, Rupees ——— 17-8-"

Total Deduction Rupees ——— 40-3-9

The

Topes.

45 The Topes tax is, in some parts of the District, imposed upon the number and description of Trees, in some places the Topes are rented, while in other parts it is calculated upon the probable produce of the Trees as estimated annually by the Talook Servants. The increase under these three Items are here shewn.

		Increase	Decrease
1	Tax imposed upon Trees	47-15-1	32-4-7
2	Rented Topes	325-10-10	258-4-"
3	Estimation of Produce	349-3-8	769-2-11
	Total	722-13-7	1059-11-6

This decrease is chiefly attributable to the scanty produce in some of the dry Villages during the present Fusly.

Malayalapatty & Hillcultivation.

46 The Assessment on the cultivation of the Hills is regulated upon the number of Ploughs and other implements of husbandry. A plough will probably cultivate 8 Cawnies of land and bear an assessment varying from Rupees 5 to Rupees 8 and other instruments in proportion. The increase during the current fusly amounted to Rupees 257-1-8, and the decrease to Rupees 93-6-2 excluding a net increase of Rupees 163-11-6. The rains on the Hills were probably more favorable than in the preceding fusly.

Shavy and Molapaul

47 The amount of Molapaul and Shavy remitted last year, amounting to Rupees 10,201-10-10, is brought to the Jummah as usual, and appears therefore as an increase.

The

Fort St. George 21st October 1847.

The Season was very unfavorable in the Eleapore Mahānam of the Conaad Taluk. The Tanks receiving a very scanty supply of water. The Nat vaikal of the Utticcatty Taluk was under repair at the Valān cultivation season. The crops perished, and in some parts of the District, the blade withered as soon as it was Sprung up. The amount of remission granted on account of Shavy and Melepal amounts to Rupees 10508-12-3. In the Taluk of Woodiarpolliam, it is customary to grant remission on account of withered paddy crops cultivated upon dry land, because the same rate of Assessment is fixed as if on Nanjah. The remission allowed on that account is Rupees 5-12-9, making a total remission of Rupees 10514-9-, as particularized in the Statement No 5. The returns of Shavy received from the Talookes were carefully examined by the Hoozoor Servants, and the remission granted accordingly, to such an extent as appeared necessary, withholding such as might be within 5 per cent on the Gross Revenue of each Ryot-

Allegal.- 48 The increase is comprised of remission granted last year amounting to Rupees 549-6-2-

The crops on certain Nanjah lands situated on a lower level were damaged during the freshes, and the remissions granted on account of such amounts to Rupees 1036-11-7-

The

Fort St. George 21st October 1847.

General Remissions- 4-7

The amount of remissions granted on account of lands occupied by the Horticultural Society at Teinampoly agreeably to the orders of Government appears under this head-

Rupees 81-4-6-

5-

Although there is a satisfactory increase in each of the dry Taluks the greatest is observable in Valcondapooram and is worthy of notice inasmuch as the Collections are 2021 Rupees above the highest amount realized since that Taluk was under the management of the Circar and Rupees 19486- above the average of the last 25 years, as may be seen from the Statement entered in the Margin.

The total Demand on account of the Land Revenue for Fusly 1256-4-8 Rupees 13788734- 12-1- Of these Rupees 13771683-3-8- were collected within

within the Fusly, leaving a small balance of Rupees 1051-8-5, which has since been fully realized. Of this balance most part remained uncollected in two Villages in the Talook of Mowery in consequence of certain requisite alterations in the Puttahs of those cultivators in consequence of some concealment by the Carnam otherwise the whole balance would have been collected within the expiration of the Fusly.—

52 The facility with which the settlement was made at this commenced at a much later period than usual, the large increase in the Berij and the entire collection of the amount of demand will I trust, be deemed satisfactory to the Board of Revenue and the Government.—

53 For the purpose of comparing the collections of the present Fusly and the arrears of former years realised, with those of the past Fusly the following account has been prepared.—

Current year's Collections —— 13,77,683-3-8.

Sir

From the Collr of Canara - - - - } I have the honor to report for
the information of the Board that in consequence
of the effects of the hurricane in April last, and
early rains in the Month of May last in the current
year the Manufacture of Salt as before explained
in my letter of the 20th April 1847 No 36 was stopped
before the quantity required for the Monopoly had
been prepared. Of 3558 Garce and 367 Mercals for
the Manufacture of which orders were issued 911 and
110 Mercals only were produced leaving a deficiency
of 2647 Garce and 257 Mercals.

I have therefore published a pro-
2 -clamation inviting tenders for the supply of 3070
Garce

3070
Garce of Bombay, Goa and Karrachee Salt, which
will be required for the consumption of the Current
year, and I request the Board's Sanction for the pur-
-chase of that quantity as also to make the necessary
advances to the Contractors to the extent of Rupees
9,712-8-4

3 The accompanying Statement
will shew the rates at which the Contractors have en-
-gaged to supply the Salt at the usual depots in this

From the Collector of Madras...

Sir

I have the honor to transmit herewith, for submission to the Board of Revenue, the Statements A to G of the settlement and Collections of the Land Revenue of the Madras Collectorate for Fusly 1255 / 1845/47.

Submitting the Statements of the settlement and Collection of the Land Revenue of the Madras Collectorate for Fusly 1255 / 1845/47.

Demands of Current Revenue.	
Fusly 1255 -----	63609. 15- 1
" — 1256 —	63982. - -8.
Increase —	372 - 1 - 7.

2. Statement A having reference to the Current Revenue, exhibits in the demands, an Increase of Rupees 372 - 1 - 7 in consequence of bills having been made out in 1255 on certain property in the Fort for several years or from the date at which the demand was discontinued through oversight, as well as on some lands which were cultivated only lately, for the Current demand, as the particulars in Statements B and G will shew.-

Collections of the Current Revenue.	
Fusly 1255 - Rs.	55961- 9- 4
" — 1256 — " —	56114- 2- 9
Increase —	152- 9- 5

3. The Increase in the Collections of the Current Revenue is Rupees 152 - 9 - 5 - which is attributable to the arrangements made some years ago for the recovery

of

Fort St. George 21st October 1847.

of the Demand, from all available sources within the Fusly.

4. Statement E shews that the current demand on Houses and Garden Houses occupied and Gardens and Paddy fields in a State of productiveness was Rupees 52,617-1-6- of which Rupees 49346-4-6- were recovered within the Fusly, and the balance remaining unpaid at its close was Rupees 3270-12-11. This could not have been recovered within the year from causes similar to those stated in Para 16 of my letter dated 30th June 1845 No 54. For there are always many Houses, or which being occupied by persons in reduced or embarrassed circumstances are shut for a time, so that the Quit Rent thereon can be obtained only when the occupants come forward to pay it of their own accord, or when a warrant of Distraint can be of any avail- again, there are some lands customarily brought under the plough but which, from the want of facilities for their irrigation, do not always yield sufficient produce for the realization of the full amount of the public demand

11716-9-10.
52617-1-6.

39156-15-2.
10189-5-4.
49346-4-6.
3270-12-11.

Fort St. George 21st October 1847.

5. Of the current demand, Rupees 3,773-10-9, on Houses and Garden Houses remaining unoccupied, and on Gardens and Paddy fields uncultivated, Rupees 254-9-3- have been recovered, and the balance at the termination of the Fusly was Rupees 3,519-1-6- As regards the demand under the two heads just alluded to, the realization of any part of it is always doubtful- a good number of warrants prepared and issued within the year, were accordingly returned, there being no property liable to distraint found on the premises.

1787-8-4.
1986-2-5.
3773-10-9.
254-9-3.
3519-1-6.

6. Statement D shews that the extent of land cultivated in Fusly 1255 was Cs 2248-"-"-2350,- on which Rupees 10,189-5-4 of the Current demand were collected within the year. The average is Rupees 4-14-10½ per Cawney- The revenue of 1255 was Rupees 10442-3-8 on Cs 2375-9-"-1919 giving an average of Rupees 4-5-4. per Cawney.

7. Of the demand on account of the Monthly Ground rent assessed on

on Government land occupied by Boutiques and Bazars, Rupees 7,381 - 4 - 6, the collections amount to Rupees 6,303 — 5 — " — and the balance remaining uncollected at the close of the year was Rupees 1,077 - 15 - 6. a portion of this will be recovered in due course, but with every exertion on the part of my Establishment, it will not be practicable to recover the whole, from many of the parties being constantly in the habit of removing their shops from one spot to another so soon as the ground in their occupancy is measured or before the bills are made out.

7381 - 4 - 6
6,303 - 5 - "
1,077 - 15 - 6.

8. Thus of the whole demand Rupees 63,982 — " — 8 — of the Current revenue Rupees 56,114 — 2 — 9 were collected, leaving at the close of the year, an outstanding balance of Rupees 7,867 - 13 - 11 - 9.

63,982 - " — 8.
56,114 — 2 — 9.
7867 — 13 — 11.

It will be observed that a considerable portion of the balance of Current revenue Rupees 3,519 — 1 — 6, is composed of items not recoverable immediately.

Houses unoccupied Rupees ..... } 1532 - 15 - 1.
Paddy fields uncultivated ..... } 1986 - 2 - 6.

Collections of arrears:

628 - 5 - 11.
8 - 7 - 10.
636 - 13 - 9.
3481 - 9 - 11.

10. In the Collection of arrears in 1256 Fasly (1846/47) compared with that of the previous year as per Statement C, there is a decrease of Rupees 1288 — 4 — 3 -

11. The amount of arrears collected on Houses and Garden Houses occupied and Gardens and Paddy fields in a state of productiveness, was besides the Current Revenue Rupees 2844 - 12 - 2 - and that on account of Ground Rent Rupees 636 — 13 — 9 — making an aggregate of Rupees 3,481 — 9 — 11 - This sum includes Rupees 898 — 8 — 3 — recovered on part of the lands referred to in Para 6 above besides the Current demands.

Total of Current Revenue & arrears.
Fasly 1255 Rs 61,731 - 7 - 6.
" — 1256 — " 59,595 - 12 - 8.
Decrease — 1,135 - 10 - 10.

59,595 - 12 - 8.
56,287 - 6 - 2.
3308 - 6 - 6.

12. The total amount collected in Fasly 1256 (1846/47) of both Current and arrears, Rupees 59,595 - 12 - 8 - falls short of the total Collection of Fasly 1255 (1845/46) by Rupees 1135 - 10 - 10 - but it exceeds the average of ten years, or from 1244 to 1253, referred to in Para 14 of my report dated 8th October 1845 No 79 by Rupees 3308 - 6 - 6 -

13. The Collections of 1256 would have been equal to those of the previous year and perhaps more, if the two storms in October and November last did not put many of

Fort St. George 21st. October 1847.

of the proprietors of Houses to great inconvenience from the necessity of incurring a Comparatively heavy expense in repairs whilst the Bursting of several Tanks and the inundations which followed it injured the Cultivation of Paddy &c. so materially as to occasion a serious loss to the Owners the produce being scarcely sufficient to cover the outlay - and thus were the Majority of them deprived of the means of meeting the public demand to the full extent of their liability.

14. The following abstract shews the various sources from which the Land Revenue of Fuslies 1255 and 1256 respectively was realized -

Fusly 1255	6274 - 7 - 8	
Decrease	314 - 14 - 8	

Fort St. George 21st. October 1847.

15. The total demand of Current revenue and arrears at the commencement of the Fusly was Rupees 9,644 - 12 - 4, of which Rupees 5,959 - 12 - 8 having been collected, the balance at the close of the year was Rupees 3,684 - 15 - 8. This includes the sum of Rupees 8151 - 2 - 7 - authorized to be written off to profit and loss, which will be deducted from the public Books on the whole of the Bills being cancelled - I shall in a few days submit Statements of such other portions of the outstanding arrears as are found to be irrecoverable, the enquiry in progress being nearly brought to a close -

From B. of R. 15th Sept. 1847

To B. of R. 9th April 47. P. 2.

16. I submit as usual a Statement marked F. shewing the Collection of Land Revenue and the charges against it, under the heads of Ordinary and Extraordinary respectively, for Fusly 1256. The Collections, as per Summabandy Statements amount to

Rupees 5,959 - 12 - 8	
and the Extraordinary Collections to	4758 - " - "
	64,353 - 12 - 8
Charges	20,917 - 6 - 1
Net Revenue	43,436 - 6 - 7
The Net Collections of 1255 were	48,872 - 5 - 4
Decrease	5435 - 14 - 9

17. The Decrease is chiefly owing to the Tanks having been repaired at an expense of Rupees 4682 - 7 - 8. consequent on the Storms in Fusly 1256 whereas, in the previous year the charge on that account amounted to Rupees 85 - 5 - 5 - only -

18. I beg leave to subjoin an Abstract of the revenues derived from Land & from the Extra sources for the two Fuslies under review - On the latter, I shall have to submit, at an early date, a separate report accompanied by the annual printed Statements.

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of Co
Extract from Minutes of Consultation, dated 28th May last calling for certain information regarding the Cultivation &c. of Cotton in those districts under this Presidency in which it is most extensively produced.-

In reply I am instructed to co
state that on receipt of the abovementioned Extract the Board called upon the Revenue Authorities in the provinces where Cotton is chiefly cultivated to furnish them with the information required by Government. Their replies have all been received, but on comparing the Returns furnished they exhibit results both with regard to production and price which are quite irreconcileable. The Board have accordingly made a further reference to the several Collectors in which they have pointed out the discrepancies which are most glaring and have requested that fresh Returns may be furnished, they have also explained the object of Government in calling for these
