Sir, Saint Thomas's Mount-

Para. 1 I have the honor to acknowledge your letter of the 1st Instant, and to offer the following remarks on the 1st case therein referred to that of Sippoo Saheb-

2 I find on referring to the papers that the Order upon which the Tahsildar acted was passed by the Assistant Magistrate and Collector in charge of the Sydapett Talook, and Peg to point out that the ground in question is not at the disposal of the Military authorities, as it is strictly private property and does not belong to the Government- The interference therefore of the Military authorities would render them liable to a Civil action, if it disturbed or prevented the possession of any party claiming a right to the land-

3 In the present instance Sippoo Saheb first obtained a grant of some ground from the Meerasidars and Shrotriemdar of the Village- The dispute subsequently arose from his commencing to enclose some unoccupied ground belonging to another party, and disputes

of this nature are disposable in the Collectors office, where the particulars of the land can be ascertained by reference to the Survey and other accounts-

4 In the case now under remark it appears that Sippoo Saheb obtained a document from the Villagers for a piece of ground between the properties of Ramasawmy Naick on the North and Narayanasawmy Naick on the South, the Cummuns testimony and the Survey Accounts shew that this ground is limited to a frontage of ten feet towards the street, and I have therefore passed orders that Sippoo Saheb is to confine himself to this space-

To The Quarter Master General of the Army
Fort St. George

Sir

I. I have the honor to request of you to lay the following before His Excellency the Right Noble the Commander in Chief with a view to the submission of the question to Government —

II. Many years ago the Military limits of the Cantonment of Saint Thomas Mount were established by the placing of boundary Stones, and in the General order by Government No. 139 dated 1st June 1832 the Cantonment was constituted a Military Bazar Station, the administration of Regulation VIII of 1832 being thereby vested in the Station Staff officer under the orders of the Officer Commanding —

W. Hill

III Within these Military limits are situate certain lands belonging to the circumjacent Villages portions of the Bazar itself being built on such ground.

IV With reference to section XXXV of Regulation VIII of 1832 it has been customary to grant or to withhold permission to build within these Military limits, with a view to the general good and the maintenance of order and regularity, and this is effected as follows: on the application being made the locality is inspected and competent persons deputed to enquire from the neighbouring house holders and by every other means whether any objection exists, and whenever objection is raised the permission is withheld and the parties referred to the Civil Court for the settlement of their several claims.

V It appears that in a late instance permission was in this manner granted to a Registered Bazar man to build a house and that when near completion the Tahsildar of Sydapett was sent into the Cantonment by the Collector and Magistrate of Chingleput to make a Proclamation annulling the act to the great loss of the person who had built the house.

VI It appears to me that the only competent authority to decide such claims, is that

that of the District Civil Courts, and that the summary proceedings of the Collector and Magistrate is open to objection. I have however no desire to assume any authority beyond that allowed by the Regulations, but if it be decided that I am in error in this matter, I shall experience difficulties in carrying out what appears my duty under the clause of the Act above referred to, for it does not appear fitting that my orders should be summarily set aside except by the Civil Court of the District to which, as I have before stated, all disputants are invariably referred.

VII I have annexed copies of correspondence on this subject for the better understanding of the question, and trust to be favored with a decision whether the Collector and Magistrate has the right to pass orders of this nature within the Military limits of the Cantonment, or whether the removal of nuisances, the prevention of encroachments on the streets, and the general regularity of the Pettah, by whomsoever inhabited, should not be under my own control, subject only to the Civil Court of the District.

G. O. by Government. Fort St. George 1st June 1832.

With reference to the 3d Section of Regulation VII of 1832 the Right Honorable the Governor in Council is pleased to declare Vellore, Masulipatam, Bellary, Cannanore, Trichinopoly and Octacamund General Military Bazar Stations and to confirm the limits already established within which Police authority is to be exercised by Military Officers at those stations respectively.

The Right Honorable the Governor in Council is further pleased in accordance with the provisions of the 38 Section of Regulation VII of 1832 to declare such parts of that ordinance as specially apply to Commanding officers at Military Bazar stations only to be equally applicable to the officers Commanding St. Thomas's Mount and Palamcottah. There being no Commissariat officer at those stations, the Cantonment Adjutants are respectively appointed to the immediate charge of the Police under the orders of their Commanding officers within the limits of those Cantonments already fixed by Government, and will exercise the powers specified in Sections 43 to 47 for the prevention of smuggling within four Miles from the Main Guard Houses, provided such boundary is not within the limits of the Jurisdiction of the Supreme Court

Sir,

Para. 1 In reference to my letter of yesterday

Fort St. George 1st November 1847

Yesterday I had the honor to inform you that the 2d case alluded to in your letter of the 1st Instant also relates to a piece of ground with buildings upon it, belonging to private individuals and not to the Government.

2 The dispute arose from the brother of your Cutwall having purchased the property from a party who it is alledged was not competent to sell it and as the case is not one of a strictly police nature, nor connected with the prevention of crime within the Cantonment but relates to a piece of private land, it is in my opinion properly cognizable in the Collectors and Magistrates Department where an enquiry has been commenced.

To

Collector and Magistrate
Chingleput District.

Sir,

Para 1 I have the honor to acknowledge the receipt of your several Communications as per margin (a) but as the last para of letter from

(a) No. 137/138 dated 3rd and 5th July 1847
No. 171 dated 31st Ult.

Fort St. George 1st November 1847

from this Office does not appear to have received your attention, I am reluctantly compelled to trouble you with this further Communication on the subject.

2d. Regulation VII of 1832 and the Rule sanctioned by the Minute of Consultation in the Margin, permit, for general Convenience a certain jurisdiction to the Military authorities in the erection of houses and the transfer of property within the limits assigned to Military Bazars, and if the Military authorities are held responsible by Government for the due preservation of order and regularity in the streets of Bazars and Pettahs, it appears reasonable to desire that any Orders affecting the interior arrangement of the Cantonment, should be made known to them, and not published without reference to them.

No. 198 dated 5th March 1833. Para 7, Requiring that all transfers and mortgages of Property should be registered in the Police Cutchery.

Section XXXV Clause I Regulation VII of 1832.

3d. It is requested that this subject may receive your Consideration as it is probable the Officer Commanding the station may deem it requisite to refer the matter to superior authority.

4th. Regarding the second para of your letter No. 137 I beg to state that such interference

interference of the Military authorities as would "render them liable to a Civil action" was never contemplated, it being the invariable practice to refer all such disputants to the regular Judicial Tribunal, and as questions of this nature are not such as involve the public Revenue, this appears to be the correct course with reference more particularly to the several acts granting special Civil powers to Collectors.

5th. Though truly desirous not to travel beyond my province, I cannot but revert to the case of Senagapigamah, whose name has been borne on the Register as owner of the house (d) in question since the year 1841 and who has been in receipt of the rent unquestioned for many years previous to that registry, and this may be considered to confer a title not to be disturbed except by regular proceedings before the Civil Court of the Zillah.

6 I have enclosed two Depositions (e) regarding the purchase of ground by Sipsion Saib and others which will shew to you that due enquiry was made and opportunity afforded to the parties objecting, before permission to build was given, but any objection then been raised, the permission would have been withheld

(d) Section V of Regulation VII of 1832.

withheld until an opportunity had been afforded for appeal to the Judicial Tribunals and thus no loss would have fallen on the Petitioners.—

To
Captain G. Jno. Gumm.
Acting Superintendent of Police
St. Thomas's Mount.

Sir,

Para 1 I have the honor to acknowledge the two depositions your letter of the 16th Instant, and to state that are returned. the views which I expressed in my former letters regarding the present state of the law remain unaltered.—

2 The Regulation quoted by me [Regulation VII of 1832 Section XXXV Clause II] seems to shew conclusively that lands belonging to Villagers and other private individuals within the limits of a Military Cantonment do not come under the cognizance of the Military authorities, further than to prevent nuisances upon them, and in Campbell's edition of the Regulations a Note is appended to the above Regulation to

Fort St. George 1st November 1847

to the following effect "It was ruled by the Sudr Adawlut in 30th November 1838 that a Commanding Officer can establish, under the Orders of Government Regulations for the maintenance of good order and fair dealing in the Bazar, but he has no authority to interfere in respect to the mortgage and sale of houses the property of individuals" Vide Vol. I. Sum. Cases. I am therefore of opinion that as the disputes which you brought to my notice relate to private lands the property of the Villagers of Adamparkum, they are Cognizable by the District authorities pending an ultimate appeal to the Courts, in the same manner as if they did not happen to be within the limits of the Cantonment.

3 If this opinion is unsatisfactory to the Commanding Officer I should not regret his deeming it fit to make a reference on the point to superior authority since it is only a sense of the duty imposed on me by the Regulations which makes me interfere in such Cases, and I can have no wish to undertake their Settlement.

4 You remark that the concluding Para of your former letter† does not appear to have received

† dated 1st July.

Fort St. George 1st November 1847

received attention, and I therefore beg to point out that I did not particularly allude to it because I thought my letter would have shewn you that I had neither interfered with your duties nor passed any orders which made a communication with you necessary. The case was simply this. Tippoo Saib permitted a piece of ground from the Villagers and had your permission to erect a house or Shop on it. In doing so he was accused of encroaching on the ground of another Villager, and this point was settled by me after an examination of the Village Surveys and the Survey accounts in this Office. My decision therefore related to no points affecting the maintenance of Order within the Cantonment.

5. Should you wish on future similar occasions to have Copies of the Orders passed by the Magistrate or Collector they will be sent to you, but in this event I should be glad if you would furnish me with a Copy of your Map shewing the local limits of the Cantonment, as this Office does not contain one on a Scale large enough to shew how far the lands of Adamparkum and other Villages are

Proceedings thereon.

Submitting report on the correspondence referred with Extract Minutes Consultation 4th October 1847 relative to the granting to Native not in the service permission to build &c within the Military limits at St Thomas Mount.

The question involved in the foregoing correspondence is the right or otherwise on the part of the Collector and Magistrate of Chingleput of interference with lands Comprized within the limits of the Military Cantonment at St Thomas Mount, but belonging to the Circumjacent Villages.

2. In his letter dated 8th September 1847 to the Quarter Master General of the Army the Brigadier Commanding the Mount states that with reference to Section XXXV of Regulation

Fort St George 1st November 1847

Regulation VII of 1832 it has been Customary to grant or to withhold permission to build within these Military limits with a view to the general good and the maintenance of order and regularity and this is effected as follows "On the Application being made the locality is inspected and Competent persons deputed to enquire from the neighbouring householders and by every other means whether any objection exists and whenever objection is raised the permission is withheld and the parties referred to the Civil Court for the Settlement of their several claims" The Brigadier further states that if it be decided that he is in error in this matter he will experience difficulties in carrying out what appears his duty under the Clause of the Act above referred to.

3. The Board do not perceive how the withholding from the Military Authorities the power to grant or refuse permission to build within the Military limits can involve difficulties as apprehended by the Brigadier in carrying out his duty under Clause I Section XXXIV Regulation VII of 1832. By the Clause quoted Officers Commanding at Military Bazar Stations are vested, within the limits

limits of their authority with power to remove nuisances and to prevent all future encroachments upon the streets of the Bazars and Pettahs within their jurisdiction by Houses pandals and other buildings." The Board observe that the question of the removal of nuisances and the prevention of encroachments on streets is not mooted in the Correspondence now under consideration and they are of opinion therefore that the provision of the Law quoted by the Brigadier cannot be held applicable on the present occasion. It being admitted that in the first of the Cases now under reference, the land is strictly private property and not the property of Government and that in the second the buildings belong to private individuals, the Board are not aware of any Authority under which the Officer commanding has power as in the first instance "to grant permission to build and to purchase" or, as in the second, to allow the Brother of the Cutwal to purchase property from a party who it is alleged, was not competent to sell it. The only cases as regards either Natives not registered as Camp Followers or private property not belonging to Government, which can come under the Cognizance of the Superintendent of Police are those of a police nature, and the Board observe that

Vide C 2 Sec: XXXV Regulation VII of 1832.

To Coll.r 7th July 1847
From Coll.r 5th July 1847.

that in these instances the Military Authority must necessarily act in his Capacity of Joint Magistrate and an appeal from his decision would be open to the Magistrate of the District.

Under the foregoing circumstances the Board concur with Mr Maltby in opinion that disputes, such as the present, which are not of a strictly Police nature nor connected with the peace and good Order of the Cantonment, should be disposed of by the Magistrate, in whose Office as Collector the particulars of the land can be ascertained by reference to the Survey and other Accounts.

of 56 Estates bearing a Peishcush of Rupees 60,814-6-2, 44 Yielding Rupees 27,607 have paid in full both Current and Arrears & have paid Current but a balance of Rupees 90,136 stands against them for arrears, and of these three have discharged a portion of the

Fort St. George 1st November 1847

arrears in addition to the Current demand during the past Fusly. Three Estates owe Current balance but of these the balance against Doulestwaram is almost nominal Veeravelly & Pollam is under attachment and it is observed that the payments made by the Proprietor during the Fusly of which 1432 Rupees have been credited to arrears is nearly equal to the Annual Peshcush. Vencatagapolliam is also attached and under litigation. The Board rightly object to this latter circumstance being assigned as a reason for the non liquidation of the Government demand. Arrangements have already been sanctioned for the recovery of Arrears outstanding against Pittapore Vagayammapettah and Yellamanchely and the Most Noble the Governor in Council now sanctions the adoption of the measures proposed by the Collector and approved by the Board for the payment of the Balances due by the Proprietors of Goodaloor Hoindeewarapoorum, Mullavaram and Panuggal. the Subordinate Court at Rajahmundry where the Prisoner was required to find "two Securities in 20 Rupees each for his good behaviour for Six Months or to be imprisoned for that period under clause I Section IV Regulation II of 1822." On review of the Sentence of the Court the Sessions Judge remarked that the evidence sufficed for the full conviction of the Prisoner and ordered the Rupees 4-6-. to be restored to me. The remaining sum of annas 15-6 pice, could not be found. Under these circumstances I request that the sanction of Government may be obtained for writing off in my Accounts the sum of annas fifteen and Pice Six under the Head of "Profit and Loss."

To the Coll[r] of Rajahmundry

I am directed by the Board of Revenue to return the Estimate of Contingent and Extra Charges proposed to be incurred in your District during Fasly 1257 and to point out that charges of the nature of item No 4 are not admissible and should not be incurred at the cost of Government.-

2 Adverting to the want of explanation for the necessity of incurring the other charges proposed to be made. I am desired to inform you that the circumstance of a charge being usual is not considered a sufficient reason for its admission without full explanation.-

3- You will be pleased therefore to submit a revised Estimate prepared with reference to the foregoing remark and intimate in the proper Column when the articles enumerated in items No 2-6- and 7 wise cast supplied.-

the custom of charging interest on the arrears due by Proprietors from the dates the Kists fall due or from the first of the following month had not existed prior to Decr 1835 in his District nor is it since generally or permanently observed the interest was charged in Mr Stonhouse, the former Principal Collectors time on the arrears due by some Parties on occasions and that its introduction at the present time would not well be considered a great hardship by the parties.-

the receipt of your letter dated the 2nd ultimo requesting me to report whether it is usual to charge interest from the dates the Kists fall due or from the 1st of the following Month and in reply to state that it had not been customary in this District to charge interest on arrears of Revenue due by Proprietors of land prior to December 1835, when it appears that the then Principal Collector Mr Stonhouse gave orders that it should be charged at the rate of 1 per Cent on the arrears due by the Proprietors of land from the 1st of the Month following that in which the Kists fell due. The several Proprietors on however having complained of the novelty of the measure, it was neither generally nor permanently carried into effect either during the Management of that Gentleman or his Successor Mr Bishop or since, though in Mr Stonhouses time interest was charged on the arrears due by some Shrotriemdars and on one occasion by the Zemindar of Venkatagherry in the year 1843.-

I t

Fort St George 1st November 1847

2. It appears also that during the time of Mr Fraser a former Collector of this District the subject attracted his attention and he gave orders to charge interest on the arrears due for Fusly 1235 by the Zemindars of Vencatagherry and Sydapoor who having complained of the measure, the subject was referred for the consideration of the Board who gave orders to remit charging it for that year on a consideration of the reasons then stated as will be seen from the correspondence noted in the Margin. But the measure it appears was not afterwards enforced as directed by the Board except on the occasion above mentioned.

+Letter to the Bd from Mr Fraser dated 22nd Decr 1814
2 from Do to Do dated 2nd Sept 1815.

3. As the measure of charging interest though according to the Regulations and Board's orders has never been enforced in this District its introduction at the present time would no doubt be considered a great hardship by the Ryots. I have therefore thought it proper to state the circumstances as they now stand for the information of the Board.

From the Collr of Bellary.
Submitting his report on the settlement of Land Revenue for Fusly 1256 & D 1846/47.

Sir

I have the honor to submit my Report on the settlement of the Land Revenue of the Bellary Division of the ceded Districts for Fusly 1256 & D 1846-47 and to forward the undermentioned statements.

1256 / 1 Jummah and Kistbundy of Fusly 1256.
No 1

2 Comparison between the settlement of Fusles 1253 and 1256.

3 Abstract of the Collections of Land Revenue since Fusly 1216 compared with the settlement for Fusly 1256.

4 Abstract comparative statement of the Collection and Net settlement for Fusly 1256 According to the Boards form of the 27th January 1823.

5 General Revenue statement for Fusly 1256

6 Statement of the Gouchee cultivation for Fusly 1256 compared with Fusly 1255.

7 & 8 Registers of Land held on Hayem Cowle and Chedaly Cowle

No. Marked A dated 18th March 1841.

10 Comparative statement of Cowle lands for Fusly 1256.

11 Comparative statement of Enam Cultivation for Fusly 1256.

12 General Abstract comparative statement of the whole Revenue from the land and from Extra sources for Fusly 1256.

13 Statement of Trees in the Crean Plantations

2. The settlement of the several Talooks comprising the Bellary Division of the Ceded Districts for Fusly 1256 was made as follows. The 12 Talooks under my immediate management were settled by myself at four different stations or meanpments, and the other 5 composing the sub Division were settled by my Sub Collector Mr. Daniell at three stations.

3. The season of Fusly 1256 was favorable in all respects rain fell seasonably. The Inhabitants were not tormented with sickness of which was prevalent last year had not however entirely ceased until late in the present year 366 souls fell victims to its ravages, since the beginning of september the year has been altogether free from sickness.

4. The last season of the year has been blessed by a regular fall of rain the Atmosphere

Fort St. George 1st November 1847.

Crop was soon more abundantly than in many of the last 5 and arrived at its full maturity. The subsequent rain was deficient in August and September the Cultivators did not reap so much grain as they expected. For the second or Hungary season, the whole Jowary & Cotton sown in Black Land did not yield an ample return in consequence of rain falling in February which was unseasonable but on the whole this season was favorable to the Ryots.

5 The Tanks received water both for the 1st and 2nd Crops, yet below the number which filled in Fusly 1253 as exhibited below.

cultivation of the year is Rupees 735.947. of which the established remission being Rupees 695.813: the remainder Rupees 40.134 is the usual discretionary remission, being Kayem Moonasib Cummee always allowed to lands highly assessed, as well as to Cocoanut trees Rupees 27.198, and the rest Rupees 12.936. is composed of the following items. Moonasib Cummee or temporary abatement allowed to poor Ryots Rupees 1.169. loss of Crops Rupees 2.385. Pannyboo daty or Crops unmerged Rupees 799. Seerwah Cummee Rupees 3.419 — Pymash Cummee or short of Survey measurement Rupees 4.170. sevar Takarar or disputed boundary Rupees 501 and Enamaty Vazah or deductions allowed to those who look after the Government Plantations Rupees 493.—

24. The Survey assessment on land Cultivated both in the last and the present year amounts to Rupees 29.1855. of which Rupees 60.640 is what changed hands, the rest being retained in the holding of the same occupants. The Revenue in that year amounted to Rupees 17.43.706 and the Demand for the present year is Rupees 19.10.581 making a Net increase of Rupees ——— 166,875. the cause of this increase being the seasonable fall of rain which filled many of the Tanks and rendered unnecessary the remission given last year for failure of Crops.—

I am directed in Para 11. of the Proceedings under reference; that in the room of the present I should furnish an Enamty Statement in form of the one transmitted by Mr. Robert with his Jummabundy Report for Fasly 1235 account was prepared with some difficul being a very laborious production. I shall hav prepare a similar one for the Current Fasly The Statement called for in Para 11. will no prove of much use for this District, the ri and fall of Boriz fluctuating with the sup of water to the Tanks.

I have great pleasure in bear testimony to the good conduct and usefulne of my Subordinates. The Sub Collector Mr. Dan Report is herewith submitted. Mr. Arbuthn now confirmed as Head Assistant has separate charge both Revenue and Police in consequence of the great extent of the Dis I find it advantageous to detach him to a distance. Mr. Tweedie my Second Assistant has also a separate charge having now co considerable experience in the District he has been very useful to me generally in the Magist Department.

3 I am glad to have it in my power to report that the season has been favourable to cultivation and to the ryots. The rains commenced in the early part of the Fusly, and were very favourable to the dry crops and they ultimately yielded a moderate return but owing to a failure of rain in the month of August and September the produce was less than their promising appearance in the early part of the season led the ryots to anticipate — The rains which had been so favourable to the dry crops in the early part of the season likewise afforded to the tanks and Coontahs a good supply of water which was subsequently replenished

replenished by a fall of rain thro

During the month of February or in the season of the Fysak crops there was an unusual and unseasonable fall of rain which was the cause of injury to some crops under tanks and nullahs.

In addition to the cause above
5, mentioned as having led to a more prosperous season I am likewise thankful to be able to report that the Cholera which raged with great virulence in 1255 disappeared from the Sub division in August 1846. and that the number of deaths from this disease during the Fusly did not there: fore exceed 317. The Cattle also, with the

exception

Fort St. George 1st November 1847

exception of a few which died at the commencement of the fusly were free from epidemic.

6 The prices of grain continued nearly on a par with the prices obtainable at the close of the previous fusly and it will be seen from the undermentioned Statement were considerably in advance of the five fuslies preceding 1255.

This rise in the price of the grain yielded good remuneration to the ryots especially to that portion of them who had not sought advances from the merchants in anticipation of their crops, and the revenue was collected without difficulty.-

Fort St. George 1st November 1847

It will be seen from the foregoing Statem
that the Cabooleat Junjee Vou is less than
previous year by Rupees 63.994 and exceeds
remissions allowed on the lands actually culti
by Rupees 32.972 leaving a net increase of la
revenue amounting to Rupees 102826. The Inam
ghee or Rent of water on dry Enam convert
into wet including quit rent derived under
head of Enam cultivation by means of
water amounts to Rupees 1450 and the ready
allowances having been reduced to the extr
of Rupees 201 — these two latter sums bei
added make the net Revenue amount
Rupees 104477 in excess of the preceding fasl

9. The actual increase and dec
of revenue are exhibited in the comparative
ement No. 2 The Gross increase will thus
appear to be Rupees ——— 148.9
from which the decrease ——— 44.9
being deducted the net increase of ——— 104.0
is the result.

10. The different articles produc
the increase of revenue are thus explained
first item "Increase of Cultivation" amounts to Rs
80158. Of which the proportion taken up by Ryots
hold no separate individual Puttahs in

Fort St. George 1st November 1847.

same village last year was Rupees 30,974 and
the amount taken up by other Ryots was
Rupees 49.184. The increase is to be attributed
to the more favorable state of the season
previously alluded to, and to Ryots occupying
lands in exchange for others they had thrown
up in the previous year in consequence of the
land having become impoverished by continued
cultivation. The next item is increase of rent
upon lands occupied in both years amounting to
Rupees 66429 and arises from the following
causes.

| | | |
|---|---|---|
| Land left unsown during the last but produce in the year Rupees | | 64,356 |
| Land cultivated in both years viz: | | |
| Difference between the 1/3 Remission hitherto granted but now altered to 1/4 and from the Shrotriam Villages whose cultivation was decreased | 248 | |
| Difference between the quit and full rent of Cowles expired . . | 20 | |
| Increase upon lands allowed an abatement of rent last year for failure of Crops | 1661 | |
| Miscellaneous or Remissions granted last year for watching young Topes now withdrawn as because no longer necessary | 144 | 2073 |
| Total increase of Rent | | 66429 |

The

The increase of Quit rent in Column 7 amounting to Rupees 517 owing to Jo Enam lands which were waste last ye having been productive in this. The item of increase in Column 72 amount to Rupees 1282 is composed of 3 arti Viz: the first item of which Rupees 8 for dry Enam land converted into wet by means of tank water. the second Rupee 450 is for fees received from certain wet E when cultivated. and the third Rupe is for extra tax on Enam assessed at the very as one crop land which this year ed two crops. The sum of Rupees 360 in Col 73 is the Extra assessment imposed on "Ryots vating Enam but no circar land" and on "Ryot tivating more enam than circar land" and sum of Rupees 257 in Column 76 is the amo saved under the head of Ready money ad ances. Total increase therefore from Enam tivation Fm Rupees 2410.

11. The increase of Ryots for Column 54 to 59 is as follows.

Ryots who were left out of account last year owing to their farms not having been cultivated from failure of rain ____ 1331

Ryots who threw up their lands last year from poverty or other causes. ____ 23

Submitting report upon the Petition of Mecnatchey Unnamall the heir and personal representative of Y. Veeraswamy Iyer

Sir,

I have the honor to acknowledge the receipt of your letter of the 14th Instant

† No 1721 of 1847 herewith returned.

accompanied by a Petition from Mecnatchey Unnamall, the heir and personal representative of Y. Veeraswamy Iyer deceased, and to state for the information of the Board, that the Garden belonging to that individual was for the first time assessed in Fasly 1216 at the rates noted in the † Margin, which were confirmed in the survey, but the Executor to the Estate of the deceased having objected to the assessment, the Board expressed an opinion⊗ that the enforcement of the demand should be suspended until the Confirmation of the Survey assessment. It was afterwards decided on a reference to Government that the arrears should be recovered by the sale of the Garden, for which authority was given in the Board's Proceedings of the 7th September 1846.

2.

In consequence, however, of the suspension of the demands as to Fs 1248 under the orders of the Board above mentioned, the assessment of the Salaries years was not brought to account annually explained in Mr. Maltby's letter of the 18th August 1846, but this can be no reason for a party to evade the demand.

3.

The amount of arrears standing in the public accounts from July 1844 as per 1248 is Rupees 218-2-11 and the portion brought to account from July 1845 to 1850 Rupees 34-8 making together Rupees 252-10-11 for which sum the Garden is proposed advertized for sale.

4.

The assessment on the ground does not appear to me to be high.

Fort St. George, 1st November 184[illegible]

2 The whole of the Wells appear to be bonâfide the property of the Ryots claiming remission and to have been used for the cultivation of their lands for some years without the Sayiltgastes being demanded of them. It has been hitherto always usual to allow the remission in such cases. On the demand being made in the present occasion the ryots preferred their appeal direct to the Board. In the mean time the accounts for the year were closed and it was no longer in my power to allow them remission.

The total Amount of the Original balance was Rupees 15-13-7 of which Rupees 12-8-4 have been collected as noticed in my Jamabundy.

The father of the claimant dug a well in his Puttah Poonjah land, the total teerwah appears to be charged for no other reason except that the well is not found in the Pymash Account

The claimant and another ryot Ameyappiah Nynar dug a well and carry on their cultivation jointly, but hold separate puttahs for their respective portions of land. The well is situated in the puttah land of Ameyappah Nynar but is their joint property

The claimant and another ryot Sashagiry Iyer dug two wells and carried on their cultivation jointly but the whole land remained in the puttah of the latter till Fusly 1254 when the former obtained a portion of the land by Rajenamah with one of the wells situated therein. The Nunjah teerwah was charged on the grounds that the well is not mentioned in the Rajenamah and was supposed therefore to be the property of the other party, which is not the case

These two Ryots holding a joint puttah, under a private arrangement made a division of their lands and cultivated on their portions separately. The 1st dug a well on his portion and raised a 2d Crop for which a moiety of the remission was only allowed on the unfounded supposition that the other party professed a joint interest in the well and the land cultivated from it.

The claimant was charged the Fuzulgastee teerwah on the grounds that he had dug his well on Poramboke land adjoining his Poonjah lands but not within the limits of his own land.

The land was irrigated partly from tank waters and partly from well waters, but the teerwah has been charged on the whole as irrigated from the Tank. The parties are therefore entitled to remission of the above sums on the land cultivated from their wells.

The claimants father and another partly jointly dug a well in the Inamdar land of the former at the time of the Pymash account being prepared.

Fort St. George

(35)

From E. C. Lovell Esqre Acting Collector of North Arcot. } Sir, Para 1. I have the honor to acknow-

Transmits 3 Statements shewing the annual Cultivation and the demand in each year on the Nunjahs Poruah and Bagayet lands &c &c &c of the Paupum Coopum Village in the Talook. (10th June 1817.)

: ledge the receipt of the Proceedings of the Board of Revenue regarding the petition of the late Renter of Paupum Coopum for a renewal of his lease of the Village.

2. The Petitioner's Gomastah who attended for him at my Cutcherry would not state distinctly whether he desires an extension of the lease on the terms proposed by the Board namely of paying "the full demand "on all the land which have been brought "under cultivation during the last 25 years and "also the usual Teerwah on all such waste "lands as may hereafter be reclaimed" but he requested that the rent might be fixed on the average of the cultivation of the last 25 years according to the Teerwah assessed by Mr. Hepburn in the year 1806 without any additional demand on account of the waste land.

3. Under the above Settlement of the Village

Fort St. George 1st. November 1817

Village by Mr. Hepburn there was no classification of the lands, but he merely fixed an average or estimation of the lands at Pagoda per Cawney upon all Poonjah, and 3/4 Pagoda on all Nunjah land but in the Year 1816 the lands were classified and assessed by Mr. Graeme in pursuance of orders from the Board of Revenue

13th. June 1803 Para 5

4. According to the terms proposed by the Board the sum which the petitioner would have to pay under Mr. Graemes Assessment is Rupees 1186—12—7 per Annum, besides the Teerwah on any additional land which may hereafter be brought under cultivation. But the rent offered by the Petitioner being the teerwah of the lands cultivated during the last 25 Years according to Mr. Hepburnes Teerwah is Rupees 992—6—

Proceedings thereon. 1.

In the foregoing letter the Acting Collector reports that in the settlement of the Village of Paupum Coopum by Mr. Hepburn in 1806, no classification of the lands was made, that an average Teerwah was merely fixed at the rate of ½ Pagoda per Cawny upon all Poonjah, and 1 Pagoda per Cawny upon all Nunjah lands. He states however that in 1816 the lands were classified and assessed by Mr. Graeme in pursuance of orders from the and he accordingly forwards two Statements, one exhibiting the annual cultivation and the demand in each year on the Nunjah, Poonjah and Bagayet lands for the period the Village was under Lease, agreeably to Mr. Hepburn's settlement of 1806, and the other embracing the same particulars according to Mr. Graeme's assessment of 1816 accompanied by a third Statement shewing the rates of Teerwah upon each description of land.

Requesting the Actg. Collector of North Arcot to furnish further particulars respecting the rates of Assessment of the prevailing in Paupum Coopum and the neighbouring Villages in the Sutwaid Talook of his District.

2. Before submitting the foregoing papers for the orders of Government, the Board are desirous of being furnished with some further information in regard to the rates of assessment now prevailing in the Talook of Sutwaid, in which the Village of Paupum Coopum is situated. From Mr. Hutt's letter†

† Vide Statement A.

In Cons: 21st. January 1820

21st. January 1820. It appears that this Village was assessed in Fusly 1227 not according to Mr. Graeme's rates of 1816 but agreeably to those fixed by Mr. Hepburn in 1806. Mr. Lovell will be pleased to state whether Mr. Graeme's settlement was ever introduced into Paupum Coopum, either before the Village was made over to the late Rungiah in Fusly 1231, or since the expiration of the lease in Fusly 1255. He will also furnish an account of the collections made by the Renter for the 25 years the property was under his management, as far as they can be ascertained as well as of those made by the Collector since its resumption.

3. The Board also wish to be informed of the rates of assessment obtaining generally in the Sutwaid Talook, and of those prevailing especially in the Villages adjoining Paupum Coopum. In a recent petition from Veerealakrishnama Naick, he represents that the settlement introduced in the District by Mr. Graeme in 1816, was never enforced in Paupum Coopum or in the neighbouring Villages, and he therefore claims the renewal of the Lease with a fixed assessment equal to the average of the actual Collections of the 25 years the Village was under his management

From W. E. Lockhart Esqre. Collector of Salem . . . . .

Sir,

I have the honor to forward for publication in the Board's Office an advertisement* for the sale of certain lands belonging to Revenue Defaulters in the Talook of Salem, in consequence of the Tahsildar having reported that he is unable to recover the balance due by the Defaulters who have absconded or otherwise made away with the produce of their lands, and concealed all their moveable property and pretend to possess no other property than the lands

A Statement is also forwarded shewing the particulars of the lands sequestered and the balance due by the Defaulters, whenever the Board approve of the sale taking place

* in English and Tamil

ORIGINAL RECORD DESTROYED

I request that the date may be fixed by them, and the same made known to me in sufficient time for the necessary Advertisements to be published in the Talooks.

Proceedings thereon.

Calling for further information respecting the lands of certain revenue Defaulters which are recommended to be sold by the Collector of Salem.

37-38

1. The information before the Board is not sufficiently explicit to enable them at present to sanction the sale of the land of the defaulters referred to in the foregoing letter.

It is observed that the defaulters

2. Nos. 1. 2. and 3 belong to the same Village, and that the balances against the first two are for Fuslies 1254-55. and 56, and those against the third for Fuslies 1255 and 1256. Mr. Lockhart is requested to explain why the arrears for the two former Fuslies were not enquired into and settled at the subsequent settlements, and whether any and what grounds have been urged by the defaulters for failing in their payments. The Board will also remark that the estimated sale proceeds of the lands and property of these individuals bear but a small proportion to the Amount of Arrears

ORIGINAL RECORD DESTROYED

The

Fort St. George 1st November 1847.

3. The arrears against the defaulters Nos. 4 5 and 6 are stated to be for Fusly 1255. The Collector will explain whether they have paid in full for Fusly 1256. From the extent and value of their several holdings these parties appear to be substantial ryots, and no reason is given why such large sums should have been suffered to remain so long unadjusted. A small portion only of the holding of these defaulters appears to have been attached but from the Estimated value of the lands this seems to consist of the best numbers in the lot. If the Board are correct they would observe that the principle of selecting the best fields for sale is opposed to the provisions of the Regulations, and is likely to bear heavily on the future resources of the Ryots retaining the inferior fields only.

4. The figures in the Tamil & English Advertisements do not correspond in some places, and they do not agree with the list of property &c in the case of the first defaulter. The several discrepancies are marked in red Ink. Mr. Lockhart is requested to forward a perusal

Proceedings thereon,

(39-40)

In the foregoing letter the Collector states that the amount mentioned in the sale of proceeds was not brought to account before July, and will be accounted for in the next Account Current.

2. The Board observed that the Account Current for June is dated the 23d August and that the difference in the Money Account of Rupees 9,765-15-8 might thus have been included to make the two accounts correspond.

3. The Collector is requested in future to adopt this course in all practicable cases, and when it cannot be done to annex an explanatory note at the foot of the Abstract.

Submitting the claim of Mr Chenot for the sale proceeds of his horse for the favorable consideration of the Board & Government.

Sir

Para 1 In forwarding Copy of a letter addressed to me by Mr Chenot a Resident Killeanoor on the Tindivanum Talook claiming the amount proceeds of a horse sold by the Collector to submit for the consideration and orders of Board to Government the following circumstances connected with the claim in question.

2 In the year 1840 the Tahsildar of Tindivanum reported that a horse had been delivered to the Village Moonsiff of Yalavalapaukum by Mr. Chenot in consequence of a dispute between him and one Velloor Appanda Nainar. It appears from the result of enquiry that the said horse was sold by the latter to Mr. Chenot for Rupees 160 and Rupees 71 were received in part payment Mr. Chenot afterwards left it in the possession of the said Nainar during his absence to Pondicherry and on his return to the Village of Yalavalapaukum the Horse was sent back to him which he declined to receive on the plea that the Animal had sustained some injury when the said Nainar tied the horse during the night time to a Tree in the compound of the Indigo factory of Mr. Chenot who the next morning reported to the Village Moonsiff the circumstances of his dispute with the said Nainar and made over the horse to his charge which was subsequently forwarded to the Head of Police of Tindivanum.

3 On the receipt of a report on the subject the late Head Assistant Magistrate Mr. Cunliffe after enquiry passed an order the substance of which will be found in the enclosed Original notice addressed to Mr. Chenot both parties having declined to receive the horse it was as thereon mentioned sold by public auction in November 1840 for Rupees 70 and the net proceeds Viz. Rupees 59 4 7 deduction being made for the maintenance of the Animal during the intervening period was held in Deposit until 11th July 1846.

None

Fort St. George 1st. November 1847.

None of the parties having claimed it for a length of time I carried the amount in that month to the credit of Government in common with similar sums of unclaimed property.

4. The Applicant now pleads ignorance of the prescribed time within which he should have preferred the claim for the Amount in Deposit, and as he is known to be the owner of the horse I have no hesitation in submitting the peculiar nature of his claim for the favorable consideration of the Board, and accordingly beg to recommend that as a special case the sanction of Government be obtained for refunding the sum of Rupees 59-1-7 to Mr. Chenot.

Sir, 7th. 7th. 9th.

I beg leave to bring to your notice that a discussion which arose in the year 1840 between our Mr. Naynar and myself regarding a horse which I had left in his charge and which was returned to me in a bad condition I submitted to the Tahsildar of Tindevanum and orders of the late Collector Mr. Cunliffe informed me by a letter herewith enclosed of the decision taken by him regarding it.

I now beg to inform you that the horse in question was sold by public Auction and the Amount Rupees 59 ordered to be paid on my demand without the deduction prescribed by the Regulations in force, but the loss of fortune which I have incurred by a series of untoward events, and the constant illness which I have been subjected to, joined to the distress

Proceedings thereon.

43-44

By the foregoing letter it appears that the horse in question having been sold under circumstances which are explained, as unclaimed property and the sale proceeds carried to account, Mr. [illegible] the owner has now applied for a refund of the proceeds amounting to Rupees 59—1—7.

2. The Collector explains that Mr. Chenot did not make earlier application as he was ignorant of the prescribed period within which he should have preferred his claim.

3. Under these circumstances the Board beg to support the Collector's recommendation that he be authorized to refund to Mr. Chenot the amount Rs. 59—1—7.

The supply of water from tals shows was sufficient for the 2d or Joughs crops the hurricane which occurred in April ju before the setting in of the present Mons was in some places very injurious to the 3d or Colhay crops on lands situated on the banks of rivers over which the Sall water was forced and considerable damag sustained particularly in the sugar plan tations, which species of cultivation is pre cipally carried on in the low lands on the backwaters. This however is partial and on the whole it may be considered to have been a most favorable Monsoon.

15. The several items of addition and reduction made in the course of the Settlement are shewn with the amount under each in the following Statement.

| Additions | Rs | a | p | Reductions | Rs | a | p |

| | 10854 | 3 | 11 | | 5370 | 3 | 8 |

The amount of remissions granted in the past Fusly has been by far greater than in any of the last four years as shewn in the Margin. The failure of crops which the ryots obtained in consequence of the abundant fall of rain rendered it unnecessary to admit claims for a larger Amount than is above shewn.

| Remission granted in | Rs | a | p |
|---|---|---|---|
| Fusly 1252 | 10034 | 13 | 10 |
| Ditto Ditto 1253 | 7466 | 13 | 5 |

| Ditto Ditto 1255 | 7007 | 10 | 7 |
| Ditto Ditto 1256 | 5302 | 5 | 8 |

15. The first and last items of remission are not of sufficient importance to require particular explanation. The cases

losses by fire were more numerous, but remissions were in none granted in which the crops had not been destroyed. The remission for waste is the largest that swells the sum under the head of reductions. Of this more than half consists of Cumeri the Cultivation of which is liable to constant change and the remainder in estates subject to yearly examination wherein a portion of the land has fallen out of Cultivation. The remissions granted under the fourth item, have reference to losses sustained by the Ryots from the crops being injured by inundations of rain and salt water. In some cases the crops were entirely lost and in many others the out turn was unequal to the demand on them. The next item is an abatement which has been explained by Mr. Hall in his report para. 13.

16. The amount of Paydahs or instalments as previously settled, to be brought up on the year under review was Rupees 3087-7-0 of which Rupees 3218-7-3 were brought to account, leaving a balance of Rupees 469-0-3 which it was considered inexpedient to enforce in reference to the particular case of each estate on which it was due. The destruction of crops and losses by fire have led to the suspension of the greater part of this sum and the distress of the ryots was the occasion of the remainder.

17. The particulars of this part of the settlement are given in the subjoined table from which it will be seen that the number of estates on which the instalments were entirely suspended amounted to 56 the partial failure occurred in 20 cases.

19. The foregoing statement shews an increase under the head of Bhurty of 549 Vargs, the assessments on which amounts to Rupees 17357-9-8. The sum brought to account during the last Fasly on these Vargs to make up the maximum was Rupees 2023-14-5, the remainder Rupees 15333-11-3 being the amount of settlement on them during the previous year. The Amount of Bhurty on Vargs on which were Bhurty in the preceding year has been reduced by Rupees 7-13-5 as specified in the Margin. The Jurisdictions will be entered under the head of permanent reductions. The circumstances under which the amount of the other item has been remitted are stated in Mr. Hall's report.

20. The number of entirely waste Vargs has been reduced during the year and reported at 58 and the Assessment by Rupees 954-3-5. The particulars "Talukwar" are stated

31st May 1847.

27- I shall now proceed to advert to
some of the points referred to in the Board's Pro-
ceedings upon the Settlement of Fasly 1255 and
offer such explanation as they are capable of.
It was not my intention to have entered at
present upon some of these subjects which
volve questions lately under discussion be-
tween the Board and the late Principal
Collector, as they would perhaps have come
more conveniently under consideration when
I was enabled to furnish the report on the gene-
ral state of the Assessment to which my at-
has been particularly directed by the Minute
Consultation of Government dated 2d Janry
last, and which I hope to be able to transm
before the lapse of many Months, but the Bo
having reverted to these questions in its last
ceedings, it becomes necessary for me to ex
my intentions in this respect by a reference
those particular subjects upon which it
demands explanation.-

28- The discrepancy noticed by
Para 4- the Board in the Statement of Remissions
for loss of fire is owing to some mistake

which have occurred in the Accounts
from which Statements F and I are
compiled. Where remissions under more
than one head had been allowed to the
same person sufficient pains have not
been taken to enter them at the Summa-
ry under the distinct head to which
they properly belonged, and thus some
inaccuracy has occurred in again se-
parating them. More pains however have
been taken in the current year to ensure
correctness and each item will I believe
be found to be entered under its proper
head.-

29- In Para 5 the Board again
refers to the failure to realize the full
instalments due upon the Vaidahs
estates or those which were to be brought up
to

Fort St. George 1st November 18[illegible]

to the full assessment by a certain number of instalments. Thus out of the sum proportion due in the year under review Rupees 4[illegible]

8. it remarks that the sum of Rupees 3[illegible]

11 only was brought to account leaving a balance of Rupees 714-13-9 uncollected, owing to the poverty or misfortune of the Ryots - The Board strongly objects to the transfer from the head of Vaidavoor or Cowle to that of Shunkeys or requires a yearly examination of their actual state. - It refers to its proceedings on the settlement of 1253 as pointing out the ill effects which it considers to arise from this Course and observes that where deductions are absolutely necessary, they ought to be given as discretionary annual remissions for that year only and that these ought to be regulated by a consideration of the circumstances of the Ryots by those of the particular Wurg and that by this mode of proceeding a better idea

Fort St. George 1st November 1847.

be formed of the necessity for granting the indulgence.

30- "Whilst I have little hesitation in admitting the conclusion which the Board seems disposed to adopt that the loss appears to be attributable not so much to the circumstances of the particular years under review as to the defective character of the original classification when the Wurgs were admitted to the indulgence of Cowls. I am not I must confess disposed to attach the same importance to the change in the present system as the Board does. — A defect in the original classification being admitted it would rather imply that the causes for which remissions are requisite are more of a permanent than of a temporary nature and as such require something more than an annual indulgence. To make all these remissions therefore discretionary and temporary would in no way tend to correct those inherent defects, while there are objections which I shall endeavour

endeavour to point out which I fear will be found more than sufficient to counterbalance any advantage which may be expected from the change.-

31. It would scarcely have been otherwise than that the original classifications made by Mr. Vincash should have been defective in a great many cases considering the little information that existed at the time it was made of the resources of the Estates but it may be also observed that however well founded it might have been the data upon which the boundaries were originally granted, there are many causes which may operate in the lapse of years to alter the circumstances of particular estates and prevent the fulfilment of the original stipulations, and it is now that those estates in which the terms have been adhered to have passed out of that class into Bhurty, leaving only the unfulfilled Cowles in view, that the defects of the system come more prominently into notice. I have no doubt that the general effects of Mr Vincash's arrangements has been on the whole productive of advantage, but the term which he assigned to it in his original plan has passed away, and it may be said to have already

in a great measure performed its Office. What now remains of it is its application as an expedient to estates which it is exceedingly difficult to know how to deal with, and nothing more can be claimed for it than that it is doing the best which under difficult circumstances the case admits of.-

32- The estates now referred to are as a general rule the most worthless and unprofitable in the district - There are a great number of them which no one cares to hold and which they are ready to give up, and they require every kind of fostering to prevent their being abandoned, and falling out of cultivation. The only means of preventing this is to give the ryot sufficient assurances of indulgence if it can be properly so called, to induce him to exert himself, and the only assurance which he will accept is a suspension of a portion of the full demand for a given period. The circumstances of these estates are as various as the estates themselves, but those which have come under my notice during the Summabundy are mostly something of the following nature. - A man has agreed to take an estate on Cowl paying up the full Jarow by instalments, say of 10 years. Circumstances may not have permitted him to incur the necessary outlay for two or

or three years which would alone render it a pay=
=ing estate. Perhaps he has found it less fertile
than he expected or he may have planted it with
cocoanuts which have not yet come into bearing=
In the mean time his Cowle expires. It is notor=
=ous that the estate cannot as yet pay the full
assessment and that he has no other means
except what he derives from the estate. He
comes to the Annual Settlement and asks for
further time. If it be not granted he must aban=
=don it, there is no alternative. There would
be no advantage in resorting to the bare pos=
=sibility of selling his property and what
then remains to be done. The Board's sugge=
=tion that a discretionary remission for one
year shall be granted to him will not in most
cases answer the purpose. If he is certain of
three or four years further indulgence or until
his trees come into bearing and begin to pay
takes heart and may be able on the Strength
of his extended Cowle to borrow a small sum
to enable him to keep up the farm. To con=
=fine the indulgence to one year when he is
certain that the estate will not be able to
pay the next year, will defeat the object de=
=sired and the public revenue loses nothing

for

fact by giving him three or four years grace at
once instead of from year to year. In such a case
as this the practice is to extend the Vaidah. Where
the ryot has found by experience that he will never
be able to pay the Sarow, and it is satisfactorily
shewn that it is actually too highly assessed,
and that it will be abandoned if the full de=
=mand be insisted on, the only course left in
many cases is to make some concession to him with=
=out the stipulation that it must be eventually
brought to the full standard, and according to the sys=
=tem now in practice this is done by the Agreement
that he shall pay in proportion to the actual
produce to be ascertained each year by exami=
=nation or "Tunky" and the Ryot is enrolled in
that class. I have had numerous cases of this
nature brought to my notice in which the only
means of saving a portion of the revenue derived
from it was by consenting to this course. The state
of such a ryot is always sufficiently impoverished
and the terms too hard, little or no land-lords'
rent is allowed him, and he is often as badly
off in every respect as the most highly taxed
ryot in the Carnatic.

33. The points of real importance
therefore for consideration seems to me to be
whether the remissions under whatever form

they

they may be granted are unnecessarily given and could in practice be avoided, and whether it would be possible with the means available in this district for framing the accounts to furnish the Board with such information as would enable it to form an opinion of the necessity for the remission in each case. With respect to the first I do not desire to over state the case and am ready to admit that abuses may occasionally occur and ryots obtain remission where it is not strictly a matter of absolute necessity but upon the whole I am satisfied that there no class of Estates in Canara in which the abuses is so small, and that with the existing absence of foundation for correct accounts it is impossible to furnish the Board with information in any form which will enable it to detect these abuses where they have escaped the notice of the Collector.

34. In saying this I would not wish to be understood as expressing a desire to retain the present form of obtaining the sanction of the Settlement which has been so strongly objected to by the Board. I feel strongly the embarrassment

embarrassment which is occasioned by adherence to a system which is open to the suspicion and disapproval of that authority, and the desirableness of bringing to a termination the discussions which have been carried on with the Board by my predecessor in advocacy of its continuance, but I would wish to guard against any impression that it will be possible by a change of the system to diminish the amount of remission now allowed to these classes of estates and to state my firm conviction that if it be attempted it will lead to no inconsiderable loss of Revenue by the entire abandonment of many of them which notwithstanding all the indulgence now allowed are held on a precarious footing.

35. The resignation of the late Head Sheristadar at the commencement of this year which threw the whole of the work of that department for some months during the busiest time of the year upon the hands of one man has rendered it impossible to attempt any revision of the Accounts during the past season but the present Sheristadar is most anxious to exert himself in carrying out the views of the Board and he will be ably seconded by the new Deputy who has now been for some months in the district and has already acquired a good insight

insight into the very complicated Revenue Sys-
= tem here prevailing:

36. In noticing the Statement I also was furnished with the Report for last year for the purpose of showing the different heads under which the Amount of Beriz suspended on 7 Wet Turghs classed as Inuky and having a Jarow Beriz of 2,64,816-11-11 Ps a p the Board has remarked that of 1,38,546-5-5 as p the Amount suspended is about 75 per Cent is on account of Waste lands distinguished as immemorial and recent Waste, and it wishes to be informed of the manner in which the investigation of this item is conducted and what proportion of it may be considered to be on account of lands no longer distinguishable.

Para 5-

37. The present appears to be a fit opportunity of stating what I conceive fund has been sufficiently brought to the Board's notice, that all the Statements of waste lands furnished for this object are at the best only approximations to the real state of the cultivation which can have little pretension to accuracy are, if I may be allowed the expression, inferential accounts. I would explain by reminding the Board that the only

which we have bonâ fide accounts of the settlement in Canara is in relation to the Money Assessment. There is no regular account of the extent of Laid not apportionment of the Assessment on par= ticular fields or parts of the estate, so much so that it is necessary as the Board is aware in all Sub divisions of Estates to apportion the Beriz of the Wurg upon each portion of it by a minute process of examination and Assessment. When the Amount of Waste in a Wurg therefore is set down at a certain sum it is in fact nothing more than the Amount of Beriz uncollected which is not attributable to any of the other specific causes entered in Statement I. thus if the Jarow Be= = riz on a Inuky Estate be 10 Pagodahs and it is ascertained on an examination of the actual cultivation according to the Village or Neighbouring rates by which the produce is calculated, that it only produces 5 Pago= = dahs the remaining 5 is inferred to be and is set down as waste, and the distinction be= = tween immemorial or recent waste is only founded upon whether any portion of the ordinary cultivation of recent years has been

been abandoned or whether it remains as it be-
=fore stood. This however is but a very loose
and uncertain process for it thus comes to be
=pen that what is actual over assessment
in many cases set down to the head of
waste - It is founded upon the assumpt-
that there must be land equivalent to
the payment of the Sarrow heiz. The
Sarrow was in no case fixed at a lower
sum than the shist which seems always
to have had too much faith placed in it
as an authentic record. It is in fact owing
to the frauds of the Shanbogues in former
times as unduly high on some Estates
it is low on others, and I have even
within my short experience had
=ny instances before me of Estates
which the shist amounted to the w
produce - In such cases therefore the
=tual Amount really attributable to
Waste land would be very different fr
what would be arrived at by the proc
of calculating it that I have describ
In the case above stated of an Estate
assessed at 10 Pagodas paying only 5 Rs

ought really to be waste land capable of
paying 5 more, but it may actually be the
fact that three fourths of the whole may be
under cultivation, but only able after taking
the whole of the landlords rent, to pay half
the assessment owing to this being actually
out of all proportion to its real capability -

38- I am not aware of any other means by
which a more accurate result could be arrived at
without some kind of measurement and field =
assessment - It is the same process upon which the
Statements of Waste given by Sir T. Munro was
founded and seems the best or only one which
could be resorted to in the absence of all record
of the extent or value of the lands but it is right
that the Board should be distinctly aware
of its real value and it is to be regretted that
this was not fully explained when the first
attempt to furnish an account of waste lands
was made in Fasly $\frac{1235}{1825/26}$ and I wish to take this
occasion to say that these remarks are applic-
=cable to other accounts besides those of waste
lands which though they are the best that can be
furnished are as the Board will plainly see
necessarily very imperfect from having no fixed
basis on which to construct them nor any but very
imperfect means of checking them or ascertaining
their validity, which can only be afforded by a
trustworthy record of the extent of land and its
value. Much misapprehension it appears to me
has arisen from the want of a distinct under-
=standing upon this point - There seems to have been
a reluctance ever to avow that any account which

might

might be called for, could not be furnished. It has always been attempted and performed perhaps in the best manner that the means admitted of, but this is a qualification which should have been explained to the Board. From the omission of such explanation I am inclined to think that the Board has been led to view these Accounts in the same light as those from other districts where there exists the means of furnishing them accurately, and that it has hence been led to scrutinize them with a minuteness which they were from their very nature incapable of bearing. Entertaining this impression and thinking the right understanding upon this point may have in no inconsiderable degree tended to prolong the causes of discussion with my predecessor, I am anxious myself to avoid it by the avowal at the outset of my case in this district, that upon most points except those referring to the actual collections the Accounts of this district from the absence of a correct basis on which to construct them can only be received as approximations more or less imperfect which they are intended to afford information. I may perhaps be considered to be borne out in this remark by the observation of Mr. Babington quoted by the Board in Para. 6 of its proceedings of the 16th November 1815 "it would be impossible for the Officer at the head of the revenue of the Province to transmit any accounts of the Summabundy which would meet the views or expectations of the Board."

39. No particulars therefore with respect to the proportion of waste land which is distinguishable can be supplied. With respect to the manner in which the investigation of this item is conducted, it does not constitute a separate point of enquiry but is one of those embraced in the examination of the Tenkey estates, and this is conducted mainly by the Mogany Shanbogues and the Potails superviseed where necessary by the Monegars. The particulars of their examination are recorded in a book kept for the purpose which is produced for examination and comparison with the result of the previous year during the Tasildars' and Collectors' settlement. I am nevertheless inclined to agree in that opinion expressed by Mr. Ward the late Acting Sub Collector which the Board has quoted in the 17th Para of its Proceedings. The uncertain data on which the Revenue Officers have to go no doubt render the Tenky unsatisfactory, because the Huzoor accounts furnish no certain or ready means of checking it. If any such existed the power of the Shanbogues would be much more limited, but this is a point which would more properly

Come

correct under review in considering this general p
of the Revenue System of the district.

40. In the 6th Paragraph of its Proceed
the Board notices the fact of 273 Vaidah Este
which are also included under the head of
Board the fasli. and observes that these Es
are recommended not only for a perpetual
=duction of 26 per Cent on the old Standa
but are at the same time in the enjoym
of annual relief under the head of Vaidah.
Board will not expect me to enter on this
=sion upon the ground upon which the perma
reduction here shewn was originally made. A re
=duction to this amount is not more than the
permanent general remission granted to all th
lands in the Ceded districts and does not appea
to me excessive, if the Estates in question be
admitted to be too highly assessed. The intend
of this recommendation was to place the
on a fair and equitable footing when brou
into full cultivation. But the Court pe
=porary remission allowed is for the pur
=pose of enabling the ryots to bring the
into this state, and may be considered a
have

having for its object to limit the permanent remission
as much as possible, for if the amount of this
remission had been regulated by the ability of
these estates at the time the recommendation
was made, it would have been necessary to
have included the whole of the amount Rupees
8673 instead of endeavouring to provide for
a portion of it being subsequently brought up,
and realized in future years when the im-
=proved state of their cultivation admitted of it.

Para 7. 41. The Board observes that the dis-
=tinction between Bharty and Kumbhurty
Estates are still preserved although the dis
=use of them had on former occasions been re-
=commended. It was not however understood
to have been finally determined upon and has,
as will be seen, been retained in the accounts
submitted with this report, but an endeavour
will be made during the ensuing Settlement to
remodel the statements in compliance with the
Boards views and the accounts in their
altered form then submitted for their approval.
The directions of the Board respecting the
reentry in the accounts of certain items of
permanent remission which had been struck
out by mistake will be found to have been
attended

attended to in the accounts now forwarded.

42. In reference to the remarks of the Paras. Board respecting the number of Estates left entirely waste. I have the honor to state that the number therein shewn viz 27 is as supposed a part of the entire number of 56,014. It is however the net result of increase and decrease in cultivated Estates which was as follows.—

Estates entirely waste in Fusly 1254 —— 2153

Deduct.

Cultivated in Fusly 1245 —— 210

Add

Cultivated in 1246 but left waste in 1245. } 183.

1943.

2126

Net difference— 27

There is no means however of shewing the distribution of the estates amongst the different classes of Estates.

43. The omission noticed by the Board in Para 9 in the form of Pattas submitted with the report in which the clause hitherto inserted that the amount of assessment therein was to be paid until the Turrums should be altered explained as follows. In Fusly 1249 when it was

by a former Principal Collector unnecessary that the Bhurty Wargadars should receive annual Pattahs it was thought advisable to insert this clause as the Pattah then issued would be a general one having operation in future years as well as in that in which it was given. But as long as a Pattah is considered as a document only holding good for the year in which it was granted. it appeared necessary only to enter the Beriz payable in that year. as had been done in the Pattahs issued up to Fusly 1249 which contain no such clause. Upon the Board again directing the Pattahs to be issued annually the previous form was reverted to. but there is no objection to the insertion of the clause which will be done in future.

44. The orders of the Board for the issue of Pattahs to all the land holders whether Bhurty or otherwise have been attended to but I take this opportunity to observe that the preparation of these documents for so many estates. and their comparison, occupies a considerable portion of the time and attention of the Cutcherry which I think might be more profitably employed. Some misapprehension appears to have existed upon this point for I observe that

that the Board in its proceedings of the 29th May 1845 remarks that "every ryot paying tax to Govern-ment is entitled to receive a separate Puttah" from which it would seem that the Board was under the impression that they had been withheld notwithstanding the desire of the ryots to have them given. The fact however is that by the majority of Bhurty Estates holders these agree-ments are not in the least regarded or respected. They do not care to be at the troubles of coming to the Sunnabundy to receive them, and by a great many they are left in the hands of the Shanbogues as useless. they consider their right to their lands to rest upon other grounds than the receipt of an annual Puttah and although they are aware from the Puttahs before given them that the present demand is dependent on the Jarroo being sanctioned. they know that it will not be increased or lessened without some special order to that effect. There are changes in the holding of a Bhurty ryot to be recorded nor any variation in the amount of Beriz due by him as in other districts. and it may be said generally that holders of these Estates in Canara have advanced beyond the necessity for this annual written assurance

or agreement on the part of Government. How Mr. Blair could consider that the non distribution of Puttahs to the Bhurty land holders could have the effect of im-pressing on them the idea that the Beriz on Bhurty estates was considered "permanent" when the special clause of which the Board now remarks the omission had been inserted in the last Puttah issued to them declaratory of the very reverse, I do not understand.

Para 10. 45. The remark made by the Board in Para 10 respecting the difference observable between the number of Puttahs "issued in $\frac{1249}{1839/40}$ and $\frac{1255}{1845/46}$ to the two classes of estates Mooli and Gueny has received my attention. The greatest difference occurs in the Gueny Wargs. and ap-pears to have arisen from the practice of entering the entire number of Estates as the number of puttahs which has since been corrected, and the actual number of puttahs issued to those Gueny estates which are under cultivation, being now only inserted in the accounts, has occasioned the decrease in the number shown last Fusly - There is a mistake, probably a clerical error, in the number of Mulé Puttahs for $\frac{1255}{1845/46}$ as given in the Board's Proceedings where they are entered at 43,505 which does

not

not correspond with the Copy of the accounts in my Office in which the number is correctly given at 43,035 making a difference of 470. The actual increase in the number since Fusly $\frac{1249}{1839/40}$ is 312 and is occasioned principally by the subdivision of Estates.-

46. The uniform entry of the same number of ploughs is as the Board justly observes an indication of a want of sufficient care. At the same time it may be observed that it is partly attributable to the attempt to furnish minute statistical details without possessing sufficient means of obtaining accurate information. The Board is aware that all interference and scrutiny into the affairs of the Thirty land holders was discontinued by order of Mr. Viveash. Hence it becomes necessary to trust the statements which they themselves furnish: and they are not disposed to take any pains to show the variations which take place from year to year: and even with regard to the Gueny Estates although more pains ought undoubtedly to be taken by the Shumbogues, it must be admitted that the same accuracy can scarcely be expected from men who have to furnish such particulars for 15 or 20 villages, as in other districts where each village has its separate Curnum. I fear

that the statistical accounts hitherto furnished from Canara have been very busily prepared and I have taken considerable pains in issuing detailed instructions with a view to obviate this defect in the preparation of the accounts of population and other items of information to be shown in the Current Fusly when the Census is to be taken.-

Para 11812 47. The Board has desired me to afford explanation respecting the difference of Rupees $9-7-11$ which appears in the amount of permanent remission allowed on Circar Gueni Wuzzy for which Mool puttahs have been granted from which it has been led to infer that these escheat Estates are still conferred on Mooli tenure notwithstanding the Board's prohibition of the practice. This however has not been the case, the difference now shown being only the correction of an error in the accounts of previous years. The above sum had been actually remitted on Mooli Puttahs given before the practice of granting them was put a stop to, but it had been improperly entered under other heads of remission and on the error being discovered in revising the accounts in Fusly $\frac{1255}{1845/46}$ the sum was transferred to its proper head. The difference of 1 pice between the

the sums Rupees 9-7-10 and 9-7-11 occurs in the
Mangalore talook from an error in converting the
Bahandry Pagodahs into the present currency
remaining sum being as noticed by the Board
in the Oodipy talook.

Para 13. 48. In referring to the increase deriv
from Hosagannee lands added to the differe
estates the Board states its opinion that the
"plan of including such newly found lands a
"the old Wurgs appears to be objectionable as the
"latter having been registered in the Tarrow and
"other standard accounts have acquired a fixed
"and definite character and consequently
"the additions subsequently made to
"them from such sources will tend to pro
"duce confusion" With reference to this remark
I would beg permission to observe that as the
additions are always distinctly noted in the
Tahs they are readily distinguished from
heritz on the old lands: and that I am
inclined to anticipate any confusion from
practice. Wherever the new lands are of any
considerable extent such as will at all
answer to the term of an "Estate" or destina
holding the practice of registering them
separate Wurgs would I think be advisable
but these additions for the most par

Cons

consist of very small spots often not amounting
to half a Moodah of land and which have
been incorporated within some old field or
cocoanut plantation. and it seems to me a
strong objection to registering every such
minute spot as a separate Estate or holding
that it would give rise to much additional
labor and increase the general mass of
records for it would then be necessary to keep a
separate Chitta and issue a separate Puttah
at the Summabandy for every such estate.
Another object which has been had in view
in incorporating these additions with the
Wurgs to which they have in fact become attached
has been to insure their continued cultivation
for an attempt is otherwise often made to
procure the lowering of the assessment at
first fixed on them, by giving them up
and then making a fresh offer in the
course of a year or two when it becomes ne-
cessary again to examine and assess them.
If once registered as separate Estates they
would always be borne on the accounts
as such, and when thrown up or again
occupied they would help to swell the
amount of apparent changes as estates en-
tirely waste, or newly brought under
cultivation

cultivation and thus assume an undue importance in a general view of the Summabandy settlement, whereas if they are incorporated with another estate they are paid for whether cultivated or not and the changes which take place in this respect do not need to be made the subject of distinct record.

49. The whole accounts of a Village showing the Hoosayanni additions have been forwarded with the Statements of the present year in obedience to the Board's orders. They consist of 27 Chittahs and although a smaller number might have been selected containing a less number of entries I have not considered it requisite to delay the transmission of the accounts for the purpose of allowing a smaller number of these Chittahs to be copied at a time when there is a considerable pressure of business falling on the hands of the Gomastahs in the preparation of the Summabandy and other Statements. I hope to be enabled to enter more fully on the subject of Hoosayanni in the General report which I am preparing but in the mean time I may observe that I am not aware in what the improvements in the forms of preparing these accounts consisted which Mr. Blair had in contemplation

and which refers to an item of no great amount as shown in the Board's Proceedings of the 4th November 1843

Para 32.

50 In its review of the Board's Proceedings upon the Settlement of Fusly $\frac{1246}{1836/37}$ the

Minutes of Consultation 28th July 1847

notice of Government has been attracted to the large number of tanks which appear from the accounts of the district to be out of repair and it desires that "the attention of the local and Revenue Officers should be directed to the works of irrigation in this Province" I shall accordingly take measures for ascertaining the exact state of the case with respect to these tanks but I may observe in the mean time that there are few if any tanks of much importance except in the Balaghaute What appear as tanks in the Accounts are in Lower Canara for the most part only small ponds of water which serve for watering the Cattle and occasionally as a relief to a few fields immediately under them when an unusually long break in the Monsoon takes place and the security of the Crops might be temporarily endangered. The greater part of them also are situated within the limits of private Estates and the

the repair of these would not directly benefit the revenue while there are very few Jaffnapatnam which would furnish by their repair such a return as would authorize their being recommended for repair under the standing orders of the Board in the Department of Public Works.

51 The subject of the tanks in Jaffnapatnam and Tondah has more than once been brought forward and a proposition was made in Dec. 1845 by the Sub Collector to make advances to the Ryots to enable them to repair them but the circumstance above referred to of the tanks under them being private property seems to throw considerable difficulty in the way of the repairs being undertaken by Government owing to the inability of the Revenue Officers to enforce a repayment of the outlay incurred. The few which have been so repaired were shown in a Statement forwarded by the Principal Collector with his letter of 8th July 1845 but the general custom of the Country is that the ryots are to keep their tanks in repair.

52 The embankments along some of the rivers are of great importance and my attention has been directed to

their being kept in repair but this is attended with great difficulty owing to the lands under them being often included in Bhurty Estates assessed with a fixed levy which cannot be increased to meet the outlay for repairs. The ryots whose lands are irrigated by these embankments are according to the Custom of the Country bound in almost every instance to maintain them in repair and indeed it is their direct interest to do so, but quarrels with regard to the proportion of the outlay to be borne or the refusal of those who are the least interested in their preservation to bear their fair share, sometimes lead to their neglect and a loss ensues to the Revenue as in a case noticed by Mr Hall in the 17th Para of his report now submitted. It may sometimes be advisable to take these cases into special consideration, but as a general rule it is undesirable rather to discourage the Mungdan from an impression that they will be able to throw the burden of the repairs upon the Government by omitting a duty which they have so direct an interest in, and are bound by Custom to perform themselves.

+Q 5 I have the honor to enclose the report of Mr Hall the Sub Collector on the settlement of

of the Division under his Charge, that from
Mr. Reade the additional Sub Collector who
has Charge of the Sirey Division has not yet be
received = To both these Gentlemen I am mu
indebted for the valuable assistance I was co
tinued to receive from them; Mr. Hall alth
he only joined his present appointment in Ma
last was enabled by his previous experience in
district to enter at once in the most effici
manner upon the duties of his Office an
to relieve me of a part of the additional
labor thrown upon my hands by the Sub
removal of my two Assistants Messrs. Ba
and Innes. His zeal and ability of the for
Gentleman is too well known to the Board
to render it necessary for me to remark
his promotion in another District has been
as a great loss to the Revenue Department
Canara and Mr. Innes had after his arri
with great assiduity and zeal to learning
language of the District and to qualify
himself for the duties of the Office &c. was
daily becoming more efficient as an assist
when the state of his health rendered it
necessary to apply to be removed. Mr. Bab
Head Assistant has separate Charge of
two Talooks of Anekal and Sarjapoor
are

and is entitled to my favorable notice for the
efficiency with which he has conducted the
duties devolving upon him.

54. There are two subjects noticed in
Mr. Hall's report of considerable importance. The
Para 6 first is the high rates of assessment imposed
under the existing rules upon Hasagane
land taken up for Cocoanut plantation
which is at present in most cases so much
greater than the land can really pay
except under very favorable circumstances that
the Ryots are deterred from occupying such land
or are driven to resort to some under
hand proceeding by which they apply
for it for rice Cultivation on which
the rates are lower and after the
lapse of a few years convert it into Cocoanut
gardens. The subject was brought to the notice
of the Board by Mr. Blair in a letter dated
4th April 1842 in which he transmitted a
revised scale of assessment for the Board's
approval but its orders upon the subject
have not as yet been Communicated.

55. The other subject referred to by
Mr. Hall in the Concluding Paragraph of
his report is the present most inconvenient
and injurious arrangement for the management
of

Fort St. George 1st. November 1847

of the Porto Novo Division of the Buntwal taluk. The Board is aware that this Division comprises the chief part of lower Coorg which was ceded in August 1834. The motive which induced Mr. Viveash to annex these districts to the Carnatic taluk which even at that time was an unmanageable size and extent, and place them under a Peishcar instead of erecting them into a separate taluk are not known to us, but there can be no doubt that it was a measure which has been very prejudicial to the interests of Government, and the welfare of the people. The following Statement will show the extent of this Division as compared with three other taluks from which it will be seen that it is more than twice as large and contains villages and Estates than any of them and that while the assessment is nearly double that of Bilghy it falls little short of either of the other two

Fort St. George 1st. November 1847

For the Revenue and Police management of this large tract of Country a Peishcar on 1200 Rupees was alone appointed with an establishment and Salendy proportionally small. It is an unhealthy and wild part of the Country in which the native Revenue Servants have a particular dislike to Reside, and is so laborious and responsible a situation that it is difficult to get any Servant of respectability and standing to accept it, and it is seldom only looked upon as affording a Claim to promotion to the first vacant Sail daree which indeed it has been usual to promise as an inducement to undertake it. The present Peishcar after having served in the appointment for nearly three years in the hope of promotion has expressed his intention of resigning the appointment altogether rather than continue to hold it on its present footing

56 The Consequence of this has been that while it was a new Country inhabited by a people unaccustomed to our mode of Government and notoriously difficult to manage and it was particularly desirable there fore to have a man of experience stationed there, who should become well acquainted with

Fort St. George 1st November 1847

with them and gain their confidence it has been subject to incessant Changes, and the Collr has no sooner acquired some experience of the Dist than he is sent away to some other place and another has to be appointed equally unskilled to Remain and expecting to be relieved. I would strongly Recommend that it should now be made a Separate Collectorate as it ought to have been at first and an adequate Salary granted to the Collr with the necessary additions to his establishment.

P.S.

Since the above report was prepared and copied - I have received the enclosed reports from Mr Reade the additional Sub Collr upon the Settlement of the Balaghaut Taluks of the district now under his charge. These reports of the time at which this report has been transmitted prevents my submitting any observations upon the great variety of subjects which Mr Reade has reported on, and on which his views respecting the latter I have but seldom any reason to alter

of a general nature which have been the subject of discussion between the Board and the late Principal Collector are given. With a full appreciation and acknowledgement of the Zeal which has prompted Mr Reade in thinking it necessary to discuss these subjects it appears to me that most of them are but little connected with the annual settlement and there are some which have been already fully disposed of and set at rest and which it can answer no useful end again to re-open

5. The stipulated instalments on Estates which would have been discharged amounted to Rupees 284-1-5 but in consequence of four instances of total and two of partial default on the part of the landlords occasioned by unforeseen and unavoidable circumstances Rupees 272-1-1 could only be brought to account.

6. With reference to the item of Forfeiture I am led to bring to your notice that there is a good deal of waste land in different parts of the Talooks, especially in Bekal which is capable of being converted into cocoanut gardens, but which is situated so disadvantageously, or is of such indifferent quality that it cannot possibly yield a fair return for the expense and labor of reclaiming it for the purpose under the terms and rates of the Cowlenamah in force. I would suggest that a modification of the scale of assessment or an extension of the term for the payment of the Tarrow should be allowed in peculiar circumstances

Fort St. George 1st November 1847.

circumstances of such land and to enable the Ryots or others to take it up with a reasonable prospect of advantage and profit to themselves, of which I have reason to believe that many would avail themselves.

7. The other items of the additions do not seem to demand any particular remark from me.

8. I was unable to make the settlement of the Mangalore Talook till after the disastrous hurricane of last April. The rice crop which was at the time of its occurrence standing on the lands situated along the banks of the rivers and within reach of the salt water inundations caused by the force of the gale from seaward were very seriously damaged and in many patches of considerable extent totally spoilt. The loss was also aggravated by the circumstance of the crop which suffered being the only one which is produced on these fields during the year.

9. The peculiar circumstances of this visitation will, it is hoped, be considered sufficient to justify the small temporary remissions I made in consequence on five Estates paying the maximum Shanbarty and on one not paying the maximum Beriz Shanbarty as follows.

10. The Sugar cane crops also gener-
ally in the same vicinity, were injured a good
deal by the storm but this will not be brought
particularly to your notice as affecting the Revenue
till after the settlement of the current fairly-

11. The Crops are earlier in the Be-
Pul Talook so that there was no damage
worth mentioning sustained in it.

12. I granted remissions in two cases
of accidental loss by fire, but in both as
well as in the others which came before
Mr. Robinson, it was first clearly ascertained
that actual produce had been destroyed
and that the condition of the sufferer
was such as entitled him to same in-
indulgence.

under the head of Blurty and the settlement made accordingly. It was on the point of being put up to auction in July 1855 but the sale was stayed in order that further enquiries might be made.

19. There is a joint obligation upon the holders of the subjacent Estates to keep the dam referred to in proper order and repair, which they have neglected for some time to do. Many however adopted measures to insure its reconstruction this year; in the mean time I think that the old arrears should be remitted as irrecoverable. I subjoin the following Statement of the two Estates.

20. The collections on account of the balance of Fasly 1255 Amounted to Rupees 2422-13-4 and after due enquiry I beg to recommend that Rupees 28-15-1 should be struck off from the accounts as irrecoverable which would leave a balance of Rupees 200-8-4 for future enquiry.

21. In conclusion I deem this a fitting opportunity to state that I think it very expedient that the Poolore Pedgaul division of Buntwal should be constituted into a separate Talook & placed under a Tahseildar with a suitable establishment. It comprizes the whole of Lower Coorg annexed to this District in 1834 and four Magunes of the original Talook of Buntwal where the services of an experienced active and meddling officer are particularly requisite and the present arrangement is but ill calculated to secure.

22. The revenue which it yields considerably exceeds that realized in any other Pedgaul division throughout the Zillah and the Police duties is very heavy and arduous. The climate is also uncongenial to persons from other parts and the Villages in general so dispersed in the jungles with which the country abounds that a faithful discharge of the duties which devolve on the head of the Office must necessarily be attended with much

much personal discomfort and risk for which I consider that sufficient remuneration has not been provided, I do not see any means by which the proposed change could be effected without involving an additional charge to the State which may be advanced as an objection against it but I think that it should nevertheless be made, as it appears to me that it is urgently called for, and that it could not fail to be beneficial both to the interests of Government and of the people.
