From the Collr of Madura

Sir,

With reference to Board's Endorsement on the Petition noted in the margin, herewith returned, I have the honor to [illegible] on other points involving principles

Fort St. George 8th November 1847

to state, that while the Ramnad Zemindary was under the Court of Wards, the Petitioners preferred a Complaint that the Amuneer had demanded payment of Kists which had already been delivered to the Curnum and Sotagar each my Predecessor made an enquiry thro' the Manager, but the Zemindary being delivered into the hands of the present Zemindar before a decision had been passed, the papers in the case were made over to the Zemindar—

When the Petitioners Complaint was referred to me, I considered that the only manner in which the case could be legally brought before me for decision was by an appeal against a distraint. The Petitioners state that a demand had been made for Peeshcush previously paid & not that a second payment had actually been made. Their best course under such circumstances was to refuse payment and then, if distraint were made, to appeal. The Construction put by the Board on Regulation VII of 1822 leaves it very doubtful whether I could punish the Village Officers for misappropriating the money paid on account of Kist, or the Amuen for demanding Kist a second time

To

D White Esqre

Acting Secretary to the

Board of Revenue

Fort St George

(46)

From Collector of Canara — Submits his observations about the conservancy of Teak Forests in upper Canara with reference to Boards Proceedings dated 19th July accompanied by a Communication from the Bombay Government and Doctor Gibsons last Report on the same.

Sir.

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board dated 19th July forwarding copy of a communication from the Government of Bombay together with Dr Gibsons last report on the Teak forests of upper Canara and the Remarks of the military Board at Bombay on the same.

2. The Board has desired me to communicate my opinion upon the various points adverted to by Dr Gibson at my early convenience but I believe that it will be found on reference to my letter of the 20th June 1846 that many of that Officers observations have been in a manner anticipated, and that his suggestions have in several essential points been already carried out. Thus the felling of the more valuable Kinds of Timber has for some time been prohibited as also has the burning of the jungle where the better kinds of timber prevail. The practice of letting the

Forest

forest land to a contractor to cut on his private account has also been discontinued Dr Gibson I observe has noticed another point which was referred to by me and bears out the observation which I there made as to the propriety of confining the employment of the Sub Conservator solely to the duty of protecting the forests in place of employing him, as I remarked had lately been too much the case in apposing the naval department in measuring the timber after it has been brought down and delivered at Sedasheger and in other duties which necessarily divert his attention from its proper sphere.

Para 7 to Board 20th June 1846.

3 The operations of the Goa traders is also noticed by Dr Gibson but the prohibition to cutting timber extends of course to these as well as to others who have been hitherto engaged in this employment. The information which Dr Gibson received that these people were preparing to push their operations into the remote parts of the forest when what they supposed might only be a temporary restriction had been withdrawn has probably some foundation for I have received many applications from Goa people to be allowed to fell timber as formerly, for the purpose

purpose, as alleged by them of fulfilling contracts which they stated they had before entered into and both they as well as others from the Darwar District have at interwals made offers for felling and bringing down timber on account of Government but coupled with conditions and proposals which afforded strong grounds for supposing that their object was less to obtain a bona fide contract for this purpose than as a means of continuing their private operations clandestinely under the colour and sanction which such a contract would afford to them.

4 On referring to the dates of the several communications now forwarded to me I observe that Dr Gibson's report had been submitted to the Bombay Government shortly before my letter of the 20th June last year was written and this letter was directed by the Resolution of Government dated 11th September 1846 to be forwarded to the Government of Bombay. The several communications which have taken place have thus croped as it were, and the proposal which was made for an increase in the establishments does not appear to have come under the consideration of the Bombay Government at the time its letter of the 7th May last was forwarded

as

as far as relates to that portion of the establish-
ment intended exclusively for the preservation
of the Jungles my proposal was approved by
Government and I was directed to forward an
application for an increase to the Sub Conservator
establishment in the regular form for transmission
to the Government of India which was accordingly
submitted with my letter to the Board of the
17th October last.

5. The subject of European super-
intendence referred to in the 8th Para of my
letter and to which it was resolved to direct the
special notice of the Bombay Government
remains to be considered and determined on
and it is probable that it may since have come
under review by that authority. The views expressed
by Doctor Gibson and the Military Board at
Bombay appear generally to bear out the
opinion I ventured to offer as to the necessity
of entertaining an efficient establishment for
the management of these forests and for carry-
-ing on the several duties connected with the
annual supply required by the dockyard. I may
here add that increased experience has
more fully confirmed me in the view I then
took of this subject and that I do not think
that the duty of controlling and directing

native Conservators and contractors can be efficiently
performed except by an Officer whose special duty
it should be frequently to visit the forests
personally. Some recent transactions which have
occupied much of the time and attention of myself
and my Head Assistant Mr Forbes have shown
how impossible it is for us to know with any
certainty, or to control what is going on in these
remote Jungles and the facility with which
frauds might be practised in the operations
connected with felling and marking the timber
where implicit trust must necessarily be placed
in the Sub Conservator in regard to the quantity
of work performed and the disbursements made
on account of it have been brought prominently
to view.

6. As it is now nearly a year ago
that the application for an increase to the Sub
Conservators establishment was forwarded, it is
probable that the sanction of the Government
of India may shortly be received. Until this takes
place no measures can safely be undertaken
for working the Goaud or other forests above
the Ghauts, and I was obliged to state this in
reply to the Assistant timber agent, in reference to arrangements
which Captain Williams was desirous of making last year

for

Fort St George 8th November 1847

for obtaining a supply of Teak for H. M. dockyard in England

7. Pending the decision of points which are now under reference to Bombay, all the more important measures which are capable of adoption by this department have already been attended to. The destruction of the Jungles and the felling of timber by private speculators has been prohibited and what may hereafter be necessary to be done will depend, as observed by the Military Board at Bombay, upon the decision which may be arrived at upon the general principles upon which these Forests shall be fostered and conserved. But the first and most necessary measure is the appointment of servants by whom the working of the forests in the mean time may be carried into effect.

8. With respect to the two roads which Doctor Gibson has referred to as best adapted for the conveyance of timber to the Coast one of them takes a direction principally through the Bombay Presidency and the practicability of constructing it would depend upon the reports of the Engineer Officers under that Government. The other route is with the view of connecting the Goaud forest with the Port of Sedasheegur at the mouth of the Cala nuddi. I find some reference to this point in the diary of Lieut. Thomas

Fort St George 8th November 1847

lately the Head Assistant Civil Engineer in this division for the month of January 1846 He had been informed of the enquiries on the subject which had about that time been made by Doctor Gibson and has entered into some detail on the subject. The result however appears to be that he could give no decided opinion at that time regarding the facility of constructing a road but observes "my own idea is that the Ganesgoody "road will be almost useless except for timber and "therefore the best thing will be to have an "investigation solely with regard to timber, so as "to make the Elephant paths exactly where most "convenient for dragging the logs, and Calculations "be made of the quantity delivered and deliverable, to see how they will repay the outlay" He adds "I have no doubt it will answer to make "such roads on each side of the river as the forest "is said to extend four miles on each side" and recommends that Mr. Poulton the Assistant timber agent at Sedasheegur whose duties have led him frequently to visit the Jungles should be directed to examine them with a view to determine the most eligible direction for carrying the roads and that he should have small trees made through them by which the Civil Engineer or any one deputed by him might be able to examine and survey the

proposed lines. Until something of this kind be done no definite opinion as to the means of facilitating the transport of timber to the coast can be given.

9. There is a subject of much interest and importance touched upon by Doctor Gibson in his Report now under review, and which is deserving of the attentive consideration of Government not so much perhaps with reference to the immediate or future supply of timber for public purposes as in the general bearing which it cannot fail to have at no distant period upon the welfare and condition of this Province. I allude to the rapid destruction which is going on amongst the forests along the whole length of the district by the process of "Coomeri cultivation. The effect which the extensive clearing of forests has upon the general climate and fertility of a country has been pointed out by Dr. Gibson in forcible terms, and his views are supported by the concurring testimony of many scientific persons who have written on the subject. To the instances adduced by Dr. Gibson I might add one which has lately come to my notice in a recent publication by the superintendent of the Royal Botanic Gardens of Ceylon. He observes - "The climate of Rhode Janeiro "has

Gardners Travels in Brazil

"has been very much modified by the clearing away "of the forests in the neighbourhood - Previous to "this the seasons could scarcely be divided into "wet and dry as they are at present - Then "rain fell nearly all the year round, and "thunder storms were not only more frequent "but more violent - so much has the moisture "been reduced that the supply of water for "the City has been considerably diminished "and the Government has in consequence "forbidden the further destruction of the "forests" - The opinion is universally prevalent amongst the people in Canara that much less rain now falls during the year than was the case formerly, although they have no idea of its being owing to any such cause as the destruction of the jungles. It is not perhaps unreasonable to suppose that the gradual filling up of the mouths of the large Rivers which is observed along the whole length of the Coast, may be in some measure attributable to the decreasing body of water which flows from the upper Country by the force of which the silt was formerly carried into the sea and the channels of the rivers kept deep.

10. The orders which have been hitherto issued

issued prohibiting the destruction of the forests have been confined to those parts of the Balaghaut and ankola where the teak is found, and as far as the supply of timber for public purposes is affected this may perhaps be sufficient for the present, but I am strongly of opinion that some arrangement for checking it in other parts of the country is loudly called for, and that if no measures be adopted with this view it will at no distant period and when too late to rectify the error be found to have had a most prejudicial effect upon the interests and welfare of the country --

14 It is difficult to form an adequate idea of the rapidity with which the woodland of a country may be destroyed. In Canara even within the space of 30 or 40 years, it has receded to within a few miles of the Ghauts, and large tracts of country are pointed out which were within no distant time covered with wood which now scarcely yield a stick large enough for firewood - So much has this been the case within reach of Mangalore that the article

one of the chief items of expence to the poorer classes of people, and is a deprivation severely felt by them - many causes have conduced to bring about this scarcity - It is not so much attributable to the increase in the population as to the improvidence with which the wood is treated; every tree and bush being felled at first and the shoots and saplings which would have grown up and supplied their places being cut down every year until the roots die off leaving nothing but the bare laterite hills which will remain for ever afterwards utterly sterile and useless --

12 More influential causes however have been the large quantities of fire-wood exported to Bombay and other places and more especially the increase in the Coomery cultivation - This latter is now confined to the neighbourhood of the Ghauts, because it is there alone that any forest now remains, and it is carried on with increasing activity every year so as to bid fair to destroy the whole of the large virgin forests within a short time - It may be observed even on travelling up the coast road

Fort St. George 8th November 1847

road whence at the distance of 20 or 30 miles its progress can be marked along the western sides of the Ghauts by the large patches of bare mountain which are traced up to their very summits.

13 Sufficient attention I am satisfied has never been given to the value of these forests which if preserved might hereafter become a source of wealth to the people which they now do not dream of. To say nothing of the value of an abundant supply of timber and the comfort which the people must derive from the means which it affords them of erecting comfortable houses, and for many other purposes, these forests which are now recklessly felled and burned for the purpose of obtaining one or two scanty crops of dry grain are capable of producing many valuable articles of commerce. The tree producing the gum-Rind is found in these forests, as is also the genuine Gam=boge tree in considerable abundance, and this latter valuable drug might be gathered to almost any extent in the forests which still remain. These are only two articles which have lately been brought to my notice

Fort St. George 8th November 1847

but it seems to be the opinion of those better informed than myself that the whole forests abound in valuable gums of different kinds. amongst the trees named in the list appended to Dr Gibson's letter I observe one which he thinks to be that producing the Gutta Percha and if so likely to be of considerable value at no distant time.

14 The practice of Coomeri cultiva=tion is one of so wasteful and improvident a nature that it appears to me it ought not to be tolerated except in a very wild and unpeopled country and the time seems to have arrived when it would be most advisable to place it under considerable check and regulation, if not entirely to prohibit it. This latter course I must observe the author=ities in Mysore have only within this last year thought it necessary to adopt. It was never permitted under the Rajah's Government and can only be said therefore to have been in operation for 12 or 15 years at most, yet so rapidly has it increased that the superintendent of the Nuggur division with whom I have had much conversation on the subject has deter=mined on putting a stop to it with a view

to

Fort St. George 8th November 1817

to the preservation of the woods which still remain.

15. I am not disposed at present to recommend its entire prohibition but I think it would be well to do so in all places accessible to the Sea Ports whence timber and firewood could be brought down, and to place it under regulation in every other part of the District. The revenue paid upon this destructive kind of cultivation is very trifling, and if the woods were preserved in accessible spots the duty upon the Export of timber and firewood would under proper regulation exceed it tenfold. I have particularly noticed the destruction which has taken place of forest on the hills immediately above the fine Port of the Tuddri, where it would have been very valuable from its vicinity to the Coast.

Fort St. George 8th November 1817

The forests which have been here felled and burned and the magnificent trees which have been left to rot on the ground would have supplied the market at Bombay with firewood for years. The same fact has been noticed by Mr. Forbes my Head Assistant in a 23d March 1816. letter copy of which was enclosed in my letter to the Board of the 20th June 1816.

16 I have referred above to the manner in which the practice of Coomery Cultivation has increased of late years. It was formerly confined entirely to the race of wild and uncivilized people who dwelt habitually in the jungles but others have since taken it up and many of the Ryots from the plains, and others who have come from the Mysore and Mahratta Country have adopted it as a means of livelihood. There is little doubt also that the prohibition of this practice in the Mysore Country will drive a great many of those who have carried on their operations in the forests of that Country into Canara, and the destruction will thus be carried on more rapidly than ever until the woods are finally exhausted. Independent of these considerations it is not a pursuit which it is at all desirable to encourage the people generally to engage in. It has no doubt some attraction for those who are impatient of control, and are fond of a wild roving life, but it leads to unsettled habits, and takes many away from the regular cultivation of

Fort St. George 8th. November 1847

of a fixed Spot.

17. The great difficulty of controlling the destruction of the forests in lower Canara is the absence of all definition of the rights of the private individuals and the facility which this has afforded to the people of puting forward claims to a private property in these jungles which on enquiry will I am persuaded shew that they have no real title to. There is nothing scarcely which the people of Canara will not claim as a right if they think there is any chance of its being conceded, or that the claim itself will cause the settlement of it to remain in abeyance which answers their end equally well. As far as regards the right of Government to preserve the timber in Canara, whatever may be the case in Malabar, I have no hesitation in saying that it is at the fullest liberty to do so. Under the Bednore Government the five most valuable kinds of timber Viz: Teak Poon. Blackwood. Jack and Sandalwood were strictly preserved as the sole right of the Government. Permission was subsequently given to the people to cut these kinds of timber on their own Estates under the plea that it interfered with the cultivation, but as there is no public record of the extent or boundaries of Estates

Fort St. George 8th. November 1847

there was no limit to the tracts of jungle which might not be claimed, or rather appropriated without any claim being brought to the notice of the revenue authorities, wherever it was found that they might be turned to profitable account.

18. A remarkable exemplification of this species of encroachment on the right of Government is afforded in what has taken place in the lower Coorg Inaganies since they again came under the company's Government. Mr. Blair in a letter to the Board dated 18th. August 1838 speaking of the forests situated in this part of the country observes that they had been for the most part claimed as private property and adds that this "claim is founded more on prescriptive right established by previous enjoyment" than on the possession of summuds &c. but my own enquiries have given me the strongest reason for believing that the supposed existence of any such prescriptive right was an error and that the Coorg Ryots neither had nor ever pretended to have any right to these forests before the tatoo became under the authority of the company's Government. Up to this time the right to all the valuable kinds of timber was exclusively reserved by the Rajahs Government in the same manner as it had been in the rest of Canara previous

to

to our aquisition of it. The forests were carefully preserved and were in many places full of the finest timber. They soon attracted the notice of the timber merchants in Mangalore and a set of speculators proceeded into these vicinities and offered to purchase the right to fell the timber from the neighbouring Ryots, who as may readily be imagined had no objection to sell what they knew was not their own. No check was placed upon their proceedings by the Circar, and they were not slow to adopt the convenient Canarese theory of larger Wurgs including within their limits all the waste and Woodland in the vicinity. The consequence has been that within the space of little more than 12 years the greater part of these forests have been cleared of their valuable timber and thousands of the finest Teak and Poon trees brought down to the coast and exported by private individuals.

A proclamation was issued by Mr. Blair in December 1843 directing the preservation of the 5 kinds of timber above referred to in the Government forests but this had practically no effect for the timber Merchants continued to fell the timber wherever they found it on the plea that they got it from private jungles and had obtained the permission of the owners to do so. The operations were still going on with full

full activity when I joined the District and having shortly afterwards a dispute before me respecting the right to the teak timber upon a fine tract of forest which one of the timber merchants had commenced working having purchased the right as he alleged from the neighbouring Ryots, but which was also claimed by the Rajah of Comblah in virtue of his Office of trustee to the Pagodah Pagodah to which he alleged it to belong. I thought it advisable to obtain the opinion of the old servants of the Coorg Rajah and wrote accordingly to the Superintendent of Coorg for this purpose. a written opinion was accordingly drawn up both by the late Dewan and Soobedar of Padinal Nad Talook from which it clearly appeared that neither the Ryots or the trustees of the Pagodah had ever any such right as they had thought proper to set up. It was stated that the ryots had been allowed to cut jungle wood for their own use upon application to the Amildars but that the teak had always been preserved and that the felling this and other timbers for whole sale Export by Sea had never been heard of - and such I have no doubt was the true state of the case judging both, from the former custom in Canara and from the fine preservation in which the forests were when the country came into our possession.

The subterfuge here used has hitherto caused the orders to be eluded and I have in consequence

Seeing

seeing no other means of making them effectual directed that where jungle is claimed as private property the right must be established before the timber is allowed to be cut, and I have lately detained some timber which had been cut in defiance of Mr. Blair's order, issued in 1843. A mere order of the Collector however does not now meet with the ready obedience which it did formerly, and so accustomed are the Mangalore people to dispute every act of authority, and so profitable is the timber trade that I do not expect the order to be obeyed until some effectual means have been adopted for vindicating the right of Government either by prosecuting these people for damages, or punishing them criminally for the destruction of Government property. If it be of importance effectually to preserve what remains of the teak forests it is desirable that there should be a distinct declaration from Government in assertion of its right to all such forests as cannot be clearly established to be private property.

21 The only part of the District in which the felling of teak is still permitted is in the Southern taluk of Bekul where there are large tracts of forest claimed under the designation of Coomeri Estates. My impression is that there was originally no proprietary right in these further than the permission to cut and cultivate Coomeri in the Government forests which was let to particular persons

persons in the same manner as is the Poolem or privilege of grazing cattle on Government land in other parts of the country, and this item of revenue entered in their puttahs, but however this may be, the tax having been entered in the Ryot's puttah has come to be considered as having conferred the absolute proprietary right to the soil and every thing on it including the timber, and this is now transferred by sale the same as a spot of cultivated land on which a regular assessment has been fixed. The question is one of considerable importance when it is observed that, if recognized, the proprietary right to tracts of country of from 10 to 30 or 40 square miles has been alienated for the payment of a few Pagodahs of public revenue and that however profitable it might hereafter become for Coffee cultivation or for other purposes which may not at present be contemplated it would be out of the power of Government to let portions of such lands to parties desirous of occupying it on a fixed revenue or to derive benefit from it in any other shape. The tenure however, whether well founded or otherwise is one which has been recognized both by Revenue authorities and the Courts and I have not therefore considered it right to interfere with it either by prohibiting the cutting of timber or in any other manner.

22. In conclusion I would venture to express an opinion that the preservation of timber not only in this but in other parts of the country is a measure which has not

Fort St. George 8th November 1847

not perhaps met with sufficient attention. The
rapidity with which it becomes destroyed if no in-
terference on the part of Government is exercised for
its protection satisfies me that the old native System
of retaining the right to timber growing on waste
lands in the hands of Government was a sound and
beneficial one, and that setting aside any consider
-ation of advantage to the Government itself from
being able at all times to command a supply of
good timber for public purposes it is in its genie-
-ral operation advantageous to the people themselves,
because it is the sole means by which this valuable
natural product can be preserved until it reaches
maturity, and a constant supply is thus ensured
which under proper restrictions the people can always be
allowed to participate in. The growth of timber is so
slow, that it can scarcely be expected that even in
where recognized as private property a native of this
Country will allow it to stand perhaps half a century
that his descendants may reap the advantage, but
in Government jungles there is not even this chance for a
restraining motive, and the young saplings are recklessly
destroyed either for firewood or to be used as mere
poles which if left to stand would in a few years
afford valuable timber serviceable either for pub-
-lic or private purposes. At the same time it should
not be concealed in discussing the advantages or disad-
-vantages of such a measure that the clearance of the

Jungle

Fort St. George 8th November 1847

jungle has according to all reports diminished the
prevalence of fever. This is stated to be remark-
-ably the case in the Buntwal taluck where the Coomer
cultivation has been carried on with great activity for
the past few years and where the large forests in which
Pepper and Cardamums were grown have by this proces
been wholly or partially destroyed. On this account
principally my recommendation would not go further
than the renewal of the former rule prohibiting the
cutting of the five superior kinds of timber, and the entire
preservation of the jungle in spots near the rivers or the
Sea Coast where from its position the timber would
be easily made available, and the inferior kinds of
wood might be allowed under proper Regulation to be
cut as firewood for Export.

last and last its accompaniments a report from the Collr. of Canara on the subject of the Forests in his District as well as on the several matters noticed by Doctor Gibson with the opinion of the Board on the principal points discussed by Mr Blane.

To Coll. 19th July 1847

May last, forwarding for their consideration, copy of a letter from the Government of Bombay of 7th idem, with its accompaniments, being a report from Doctor Gibson, on the Canara Forests, and a letter from the Military Board of Bombay, to the Government of that Presidency on the same subject.-

2. In reply the Board instruct me to state that on receipt of the papers under acknowledgment, they furnished Copies of the same to the Collector of Canara, with a view of obtaining his opinion on the various points adverted to by Doctor Gibson- they at the same time forwarded copy of the correspondence for the information of the Collector of Malabar.-

From Canara 31st August inclosg 8th Novr 1847.

3. Mr Blane has in reply favored the Board with a lengthened and interesting report on the subject generally of the Forests in his District, as well as on the several matters noticed by Doctor Gibson, which the Board desire me to request you will lay before the most noble the Governor in Council.-

4. The letter from Mr Blane contains, in the opinion of the Board many valuable

Fort St. George 8th November 1847

valuable suggestions, which are deserving of much consideration. It will be observed that the principal points discussed by him are.

1. The conservancy of the Forests.
2. The effect which the extensive clearance of Woodland has upon the general climate and fertility of a Country.
3. The proposed restriction on the commerce cultivation, and
4. The right of Government to all such Forests as cannot be clearly established to be private property.-

5. The first point has already received the attention of the Board and of Government in the correspondence noted in the margin, and the application for an increase to the present Establishment, for the better conservancy of the Canara Forests was submitted from this Office on the 2d November 1846, to which no reply has yet been received. and the second will more properly come under the Board's consideration, with the reports expected from the Collectors of the several Districts under this Presidency, in reply to the reference made to them by the Board, in consequence of the recent despatch from the Honorable

To Govt 20th Augt 1846 Para 3.

From Govt 11th & ans 29th Sept.

7th July 1847

the

the Court of Directors on this subject.

6 In regard to the third point the Board would recommend that the Collr or be authorized to restrict the Cultivation of Coomeri at such places, and to such an extent as may in his opinion, be expedient, for the preservation of the Forests, and the general welfare of the province; and with respect to the proprietary claims of private parties to the extensive Forests in Canara, they would support Mr. Blane's suggestions that the Government should at once assert their right to all Forest lands which cannot be clearly established to be private property.

Resolved that the following letters be dispatched.

57

Proceedings thereon.

Read Endorsement paged by the Collector of Cuddapah on Petition No. 729 of 47 Petitioners complain of the encroachment on their lands by the the Shareholders of the Redde Merassi which they enjoy and of the transfer of their share of 1/4 of that Merassi to those nominated to do the duty of the Office.-

2. From the explanation afforded by the Collector it appears that Petitioners voluntarily surrendered their lands at different periods and in this account are not entitled to any consideration on this point.

3. As regards that portion of the Complaint that refers to the transfer of part of the Meraji to those actually in office the Board of Revenue do not deem it expedient to disturb the arrangement that has been effected under the orders of Mr. Arbuthnot in this particular case.-

Ordered that the following Endorsement be passed on Petition No. 729 of 1847.

The Board of Revenue having received a report from the Collector of the said

Communicating the observations of Government on the subject of the Yeomiah of Rs. 154-13-7 per annum enjoyed by Allavoodeen Shisty from the Madura Treasury and the Enam of the Village of Cully goody in the Madacolum Talook of the District of which it was recommended he should be recognized as the legal Enamdar and requesting the Board to submit their view whether the Yeomiah allowance can be re-

Extract from the Minutes of Consultation under date the 23d October 1847.

Read again Extract from the Proceedings of the Board of Revenue 29th July 1847 No. 348 recorded in Consultation 24th August last Nos. 9 and 10.

Para 1 Referring to the observations recorded in para 10 of the Minutes of Consultation of the 23d March 1847 No. 389 on the case of Allavoodeen Shisty, who is in the receipt of a Yeomiah of 2 Cully fanams per diem or Rupees 154-13-7 per annum from the Madura Treasury, and to the Sanction subsequently granted in para 5 of the Minutes of Consultation dated 31st August last No. 970 for the continuance of this

recognized and continued as a service Grant.

this allowance until further orders, the Most Noble the Governor in Council now proceeds to notice the following points which have come under the consideration of Government in the Boards Proceedings of the 29th July 1847 in connection with the Enam Village of Cully goody which is in the possession of the same individual who enjoys the Yeomiah.-

2. In the Proceedings above referred to the Board, it is observed, have not expressed any opinion on the question of the money allowance, deeming that to have been already disposed of as indicated in para 2 by a reference to the correspondence which has passed on the subject. They have however in reviewing the correspondence and documents connected with the grant of the Enam Village admitted in the concluding para of their Proceedings the right of the present holder to succeed to the Yeomiah on the ground of its having been enjoyed jointly with the Enam by his predecessor, but without entering into the question whether the Yeamiah was a service grant also or not. His Lordship in Council is therefore desirous before granting final sanction for its being continued as such to have this point definitely

definitely settled by a further reference to the Board for their view of the case.

3. His Lordship in Council would in the first place observe that no mention whatever is made of the Yeomiah in the Original Purwanah of Mahomed Mafooz Khan dated 25th Ramjan Hegira 1169 / A.D. 1753 / granting the Village of Cullygoody in endowment of and contribution for the expense of building a Mosque though the other documents termed Enoyetnamahs which are mere renewals of this Sunnud allude to the Yeomiah as being also in the enjoyment of his Grantee.

4. It must also be remarked that by the terms and conditions of the Purwanah the Grantee is required to provide from the produce of the Village for "the expense of Keeping lights, its Establishments "and his own maintenance;" and thus all that is requisite for the support of the Mosque seems to be amply provided for by the grant of the Village rent free.

5. In the Warisnamah of the Cazee of Madura at first submitted by the Principal Collector in support of the payment, the Yeomiah is stated to have been granted from the Sayer revenue "for Keeping lights in a Mosque" but this

item of expense, it is observed, is expressly provided for by the grant of the Village and the necessity of a separate money allowance for that purpose is therefore not apparent to his Lordship in Council.

6. Much weight seems to be attached to the enoyetnamahs of the Nawab Wallajah, on the authority of which the Yeomiah would appear to have been continued in 1821 to the present incumbent without the sanction of Government or of the Board. The first of these documents dated 7th Rubesani Hegira 1179 or 10 years after the date of the original Purwanah, is silent as to the object of the grant of the Yeomiah, which is there simply described, upon the Statement of the Grantee, as having been continued to him from the time of Abdul Rahiman. The other document of a later date distinctly shews that the Yeomiah was renewed, apart from the Enam granted in endowment of the Mosque in the name of Peyo Ali Sisty / the same mentioned in the Cazee's Warisnamah / in consideration of his father having enjoyed it; and the terms applied to it in the Enoyetnamah are evidently those contained in the claimants application for renewed authority, which make no allusion to the Yeomiah as

11th Rujjul Hegira 1190

× In his address to me Peyza Ali Sisty states "that a Yeomiah of 2 "fanams per diem "was also granted "long ago and continu- "ed to his said father "as descendant of Haz- "rut Khujah Nasser "roodeen Chishta "Thailuee from the "Sayer funds of "Cusbah Madura.

To D. White Esqre
Secretary to the
Board of Revenue
Fort St. George

Sir.

10

From the Coll.s and Agents to the Governor of Vizagapatam Reports on the Management of the Land Revenue of the Vizagapatam District in Fusly 1256 = 1846/47 A.D. and submits the usual accounts in illustration

1. I have the honor to forward herewith the usual Report with Accounts of the management of the Land Revenue of this District for Fusly 1256 = 1846/47 A.D.

2 - The season generally speaking, was very favorable in Vizagapatam, more especially through the Northern and Central portions of the District - But in the Southern parts which border on the Rajahmundry District and where the Government Estates of Surrasiddy, Golgondah &c. are situated, there was a very considerable deficiency of rain throughout the Season - In consequence much of the lands distributed for Cultivation in these localities could not be brought under the plough - In the closing Months of the Monsoon the rains though partial were more abundant, and upon the whole the Government Lands may be considered to have experienced an average Season Surrasiddy and Rajavarum Koondahs, which depend much on a large supply of water from rivers, suffered considerably from a deficiency of rain -

3. The Prices of all sorts of grain were remunerating although they exhibit a small decline from the rates prevailing in the preceding fusly, as shewn in the following table of prices during the last ten years -

Fusly

1446?. Fort St. George 11th November 1847

No.	Grain	Fasly 1246	Fasly 1247	Fasly 1248	Fasly 1249	Fasly 1250	Fasly 1251	Fasly 1252	Fasly 1253	Fasly 1254	Fasly 1255	Total	Average	Fasly 1256
1	Paddy	112	88	127	109	106	64	48	49	64	86	863	86¼	71

7	Green Gram	117	120	182	230	226	100	70	68	152	140	1385	138½	130
8	Black Gram	99	130	200	210	189	103	79	82	126	152	1370	137	134
9	Horse Gram	73	94	117	147	121	56	49	50	99	87	893	89¼	84

4- There are but three Government Talloks in this District, Viz.t, Palcondah Golgondah and Sunnasiddy - Of these Palcondah was rented out to Majr. Arbuthnot & Co.y for a term of five years at Rupees 110908 per annum, a sum considerably less than the average Net Collections under Aumanie. The two other Talooks were under the direct administration of the Officers of Government constituting a portion of the Principal Assistants charge -

5- The settlement in them was therefore first commenced by Mr. Matheson, but that Gentleman having been removed to other employment in the middle of the season the charge devolved upon myself, no additional Officer having been nominated to the District.

6 The subjoined Statement exhibits at one view the settled demands on all sources of Revenue in this District for the fusly under notice, in comparison with the demands of the preceding season. —

Net Increase			46904 " 7	

7.- There is no variation in the demand for the lands permanently Settled, no Estates having been acquired by Government during the season under reference. The increase under the head of Quinquennial Rent was occasioned by the Estates of Palcondah having been leased out on that tenure and the decrease under the Heads of Ryotwar was caused from the exclusion of that Talook, from this Head of the Accounts.-

8.- In my Report of the 27th February last it was stated that measures would be adopted in the present year for ensuring a more correct distribution of the lands taken up for cultivation, and for dispensing with the system heretofore pursued of fixing the settlement on Estimates of produce framed in the Villages. No pains were spared to give effect to this determination, and notwithstanding the opposition, active and passive, offered by the Native Revenue servants who benefitted by the former lax administration, a great progress was made

made in reverting to a sound Revenue system. It is not my desire that the Board should infer that the Attrocity or Dittum was made in this year with the care and precision of which it was capable, for the Officer in charge of the Surnaddy Talook was so little disposed to favor the change of system that it was found in the end necessary to remove him, but much was gained and the foundation at least was laid for a permanent reform in future years.

9.- Omitting Palcondah which is rented, I beg leave to annex a Comparative Statement of the Attrocity of the Government Lands during the two last seasons shewing a Net decrease in the present year of Rupees 7,688- 6- 3. Talooks.

Fort St. George 11th November 1847.

10- This decrease is not attributable to any falling off in the resources of the people for in fact the distribution of the lands during the year does not admit of any fair comparison - In the first year the Accounts were compiled at the caprice of the local authority while in the second there was at least an approximation to accuracy in the distribution of the Cultivation -

11- The decrease of the Current Mirasy is composed of a gross decrease of Rupees 12,680-4-7 met by an enhanced demand of Rupees 4,996-14-4 the sist of lands newly taken up, and of sundry other small items of Revenue - The Net decrease therefore amounted to Rupees 7,683-6-3 - Out of the gross decrease, Rupees 11,524-15-6 was the sist of lands under nominal occupation in Fusly 1255, but omitted from the distribution in the season, and Rupees 811-13-9 an enhanced sist imposed by the late Head Assistant Mr. Mason on certain lands of Golgondah Jemindary since remitted - After sundry small items amounting in the aggregate to Rupees 343-7-4 complete the amount -

12- The sist of Rupees 811-13-9 noted above, besides having been fixed without Authority was found on a series of years, to prove greatly detrimental to the Revenues of the villages on which it had been imposed - Much of land on which the increase was laid was left waste and uncultivated and a decline of Revenue instead of increased Collections took place - Under these circumstances, after full enquiry the enhanced sists were ordered to be brought to the former standard a measure which gave much satisfaction to the people, and, I doubt not will in the end, prove profitable to the Government -

13- From the distribution of lands in these two Talooks shewn in para 9, and Amounting to Rupees 1,68,042-7-4, ramifications at the settlement were given to the extent of Rupees 24,620- -2, leaving the net Current Settlement Rupees 1,41,421-7-2, as will be seen in the subjoined figured Statement -

Annexed -

Fort St. George 11th November 1847.

Fort St. George 11th November 1847.

14- It will be seen that Rupees 17,912 of the remission was for lands left uncultivated. The necessity for this large deduction was in great measure caused by the failure and partial character of the rains which was severely felt in many of the Government Mootahs more particularly in the Estates of Royavaram and Surrasiddy. In a slight degree it was also caused by the carelessness of the Amildar originally in charge in the distribution of the fields to the Ryots beyond their means of cultivation.

15- The other principal remissions were Rupees 4,573-1-4 for crops destroyed by drought, Rupees 749-1-1 for lands inundated and Rupees 3,201-6-7 admitted for loss of produce. These remissions and deductions were allowed at the Settlement after a strict examination conducted under my immediate orders by the principal servants of my Establishment in the Talooks. I have no doubt that they were necessary and very correctly made.

16- In these same Talooks in the preceding season Rupees 69,982-5-4 had been struck out of the Assessment, nearly a moiety whereof was for short produce. A Comparative Statement of the deductions during the two last years is given below

After

17- After deducting the various items of remission, the Current Jeroyetty Land Settlement of the Talooks of Golgondah and Surwasiddy amounted, as already explained to Rupees 141417-7-2. The settlement of the previous year was Rupees 105743-8-3 there was a net increase therefore in the season under review of Rupees 35673-14-11. The figured Statement subjoined shews that there was a considerable increase in every Estate.-

Fort St. George 11th November 1847

21.- The rented demand of Palcondah was Rupees 110908, the whole of which was paid within the Fusly- the increase over the collection under Aumanie in the previous year was Rupees 5,647: 4: 3- If this be added to the enhanced collections of Surnasiddy and Golgondah Talloohs the total increased current collections in the year will be Rupees 43308: 15: 2.-

22.- I beg now to subjoin a statement shewing the collections, current and arrears, in all three Talooks during the two last years,- shewing an increase in the present season of Rupees 52,662: 7: 2 But that Palcondah was rented out in such a season the increase, with tolerable management would have been considerably more.-

The

23. The Balance outstanding at the end of September has already been stated at Rupees 3416 : 15 : 6, of which the sum of Rupees 2214-5-8 alone appertains to the Small Golgondah Zemindary. Rupees 1410 : 9 : - of this is due by renters in the Hills, who are either themselves in insurrection against the Government, or are insolvent by reasons of the Villages in being destroyed by the insurgent marauders, against whom Government had not been in a position to permit the advance, in the season of 1846, of a sufficient Military force to effect their subjugation and restore order.

24. A Balance of Rupees 174-4- is due on Cuttoobady of Macajahs in Golgondah, accruing under similar circumstances. It is not known in the present unsettled state of affairs whether any portions of these sums can yet be realized. The remaining Balances Rupees 629-8-8 in Golgondah are due by indigent Ryots &c. and they do not seem to require remark.

25. In Surrusiddy Talluk the Balances of seven Mootahs of which it is composed are only Rs. 1068-8-11 and of this sum Rupees 868-14-11 is due by Cumdars whose lands were left waste and who have [illegible]

means of paying. If these lands were incorporated with Serajetty they would still be uncultivated, as the sist generally exceeds the Cuttoobady. I see no advantage therefore in doing so, but the reverse. In point of fact there is little difference between Cuttoobady and Sist, both words represent the Government land tax mostly a very high one and in which can only be levied from the produce of the fields if cultivated. As the Cuttoobady is generally somewhat less exorbitant than the sist, it follows, as a matter of Course, that there is more likelihood of the lands being taken up for cultivation on as a matter of Course, that there is more likelihood under the former than under the latter impost, and consequently a greater chance of the Government demand being paid. It would however seem proper to enquire strictly into the circumstances of each holding, and to strike out of the demand the Cuttoobady of lands where the holders have abandoned them and left the Country for some years.

26. The Balance due by Serajetty Ryots in the Talluk in Fusly 1256 is only Rupees 199 : 10 : - it is not expected that they will be recovered.

27. In para 29 of my Report of the 27th February it was stated that under ordinarily careful management it would be found that with one or two exceptions, all the Government Estates would yield a Net surplus over and above the former permanent settled demand. That I did not speak without book in this matter, as might be perhaps inferred from para 12 of the Board's Proceedings dated the 28th June last, is shewn by the accompanying figured Statement which exhibits a Net decrease of Rs. 48076-2- in the aggregate collections over the permanent Peishcush of an actual surplus in seven out of eleven Estates in the first year of my management.

Net increase 48,076 2 5

28. In fact the only great deficit of settlement over Peishcush is found in Survasiddy Hoondah which has long been in a declining condition from defects in its Channels irrigation. The objects contemplated by Mr. Arbuthnot in his Report of the 9th March 1844 and 18th January 1845, have not been realized, for no Civil Engineer has visited this District for a long period, nor does there seem any probability of one doing so. The sums too estimated and expended in the year 1845 amounting to Rupees 4831-3-" have been wasted, in my judgment. But if an inconvenient Assistant was given to each District instead of the present cumbrous Establishment of Civil Engineers, educated as a Revenue Surveyor, whose services could be always available, not only to frame Estimates of works, but to see them actually executed, much advantage might be expected from his labors. The present system of Maramut and of the Maramut Superintendence calls loudly, in my judgment, for Reform.

29. The Government demand in this District on the permanently settled Estates is Rupees 97,684-0-0. of this demand Rupees 87,325-8-" were brought to account within the Fusly and Rupees 77,458-8-9 in addition were realized up to the 30th September, at which date the Balance of Current Revenue outstanding on permanently settled Estates was Rupees 2006-15-3.

30 In the thirty three Zemindaries and Estates noted below the Peishcush was either paid in full within the Fusly, or realized a few days after its close.

Estates

*Note Since the foregoing was written an intimation has been notified of appointing an Assistant Civil Engineer to Vizagapatam and Ganjam but this makes no difference in my Statements. The System, in my judgment, requires a thorough change.

31. In nine Zemindaries marginally noted, the Peishcush was not recovered in full and some were included in a sale advertisement for default. It was not found necessary however to proceed to sale in any case. The arrears in some having been paid in full, and in others considerably reduced in amount

The Chemoodoo Balance arose

32. from litigation between the family of the ancient Zemindar and certain Sowcars, to whom it had been transferred by the former incumbent under Mr George Russell's authority many years since. The Sowcars, who were in possession withheld the Peishcush for Fasly 1255, fearing the ultimate loss of the Zemindary through legal proceedings pending in the Court of Sudr Adalut. Ultimately through mys mediation, a compromise was made, the family of the ancient Zemindar undertaking to pay the arrears and some money to the Sowcars. The arrears were paid, but the Current Revenue has not been liquidated in full. There is no doubt however of its recovery in the present Fasly as the family, though not in affluent circumstances, are intent upon the redemption of their ancient possessions.

The

33. The owner of the Hill Zemindary of Panchepentah died a short time since. He is succeeded by his Son, who is making arrangements for the discharge of the Balances accruing partly through the unproductiveness of the Estate, and partly from the imbecility and mismanagement of his deceased Parent.—

34. The Mandigole and Woruttah Balances are under recovery. The Waltair arrear has been recovered in full at the date of writing. Peddagoomloor belonging to the Waltair Proprietor is under sequestration, and a large collection is anticipated under management in the present season. Litigation and dissensions in the family have led to the defalcation on these Estates.—

35. The arrears of Revenue on the other Estates is trifling and does not seem to require remark.—

36. The amount of Tuccavy advanced for cultivation in the Government Estates in the year 1846/47 was Rupees 6700. Rupees 6539 of this were recovered within the Fasly and Rupees 159 subsequently. The Balance Rupees 2 will be realized shortly.

37. The Receipts from all sources including arrears in the past year are shown in the figured Statement below. They amounted to Rupees 16,69,269-10-11 exceeding the Collections of the preceding year by Rupees 19,132-1-8 and of Fasly 1254 by Rupees 4,87,820-11-3. The Receipts exceeded those of any season during the last twenty years.— Fasly.

Order thereon. Ordered to be sent again in Circulation.

Read the following letter

To

D. Whish Esqr.

Acting Secretary to the

Board of Revenue

Fort St. George

12

From the Collector of Rajamundry. } Sir,

With reference to para 4 of the Extract from the Proceedings of the Board of Revenue under date the 4th Instant I have the honor to report that the Ryotwar of Veeravelly pollam has up to this time made no satisfactory arrangement for the payment of the balance outstanding against that Estate I therefore herewith submit for the approval of the Board of Revenue an advertisement for the sale thereof by public Auction

DESTROYED

* Nos 1 both in English and Telugoo.

Rajamundry District } (Signed) T. Prendergast.
Rajamundry 22nd October 1847. } Collector

Advertisement.

[illegible]

[illegible] Act 1847

4379

Act It George IV. Cap. 1847.

Assessment

[illegible] the Table to be framed and the Cattle specified.

6. [illegible] Assessors or deputy persons who have been duly sworn at the Meeting of the Commissioners [illegible] Assessment [illegible] Cattle [illegible] Assessment [illegible] Cattle [illegible] Assessment [illegible] Cattle

Resolution thereon.

12-13

Under the circumstances stated in the foregoing letter the Board authorize the sale of the Veeravilly pollium Estate, but they hope that the Zemindar will be able to make arrangement for the payment of the balance before the day fixed.

Resolved that the advertisement which accompanies the foregoing letter be published in the Board's Office, the date of sale being fixed for Monday the 20th of December next.

14

From the Collector of Rajamundry, forwarding Read list of letters addressed to the Board and remaining unanswered up to 30th September last.

14-15

Proceedings thereon.

The Board observe that it is unnecessary to enter on the foregoing return letters which have been already answered as appears to be the case with those dated respectively 20th May 27th July 31st July 1st & and 31st August 1847.

ORIGINAL DESTROYED

3. From the above Statement it will be observed that there has been a Net Increase in the demand amounting to Rupees 1014-12- in the past compared with the preceding Fusly.

4- The following comparative Statement exhibits at one view the Settlements of Aldharry Rents during the Fusly under review -

Aldharry

		Fusly 1255	Fusly 1256	Comparison Increase	Comparison Decrease
1	Cumbum	7098 " "	8058 " "	960 " "	" " "
2	Doopaud	1200 " "	1440 " "	240 " "	" " "
3	Budwail	2790 " "	2700 " "	" " "	90 " "
4	Jummulmudgoo	6120 " "	7250 " "	1130 " "	" " "
5	Doovoor	7610	7950 " "	340 " "	" " "
6	Coilcontlah	6440 " "	6440 " "	" " "	" " "
7	Chitwail	6800 " "	7410 " "	610 " "	" " "
8	Sidhout	3420 " "	3730 " "	310 " "	" " "
9	Chenaves	20520 " "	22050 " "	1530 " "	" " "
10	Camalapoor	3225 " "	4085 " "	860 " "	" " "
11	Goorrumeondah	10620 " "	8710 " "	" " "	1910 " "
12	Muddenpully	11500 " "	10030 " "	" " "	1470 " "
13	Poolwandalah	11490 " "	11700 " "	210 " "	" " "
14	Roychooty	4830 " "	5510 " "	680 " "	" " "
15	Poonganoor	5870 " "	6010 " "	" " "	860 " "
	Total	109525 " "	112065 " "	6870 " "	4330 " "

5- The demand under this head amounted to Rupees 11206 5 being Rupees 2540 in excess of that for the preceding Fusly. This increase has arisen from there having been more competition among the Renters for most of the Talooks those of Budwail, Goorrumeondah and Poonganoor being excepted. The offers made for which in the preceding Fusly did not admit of a sufficiently profitable return to the renters. Of the above sum Rupees 10961-8-5-10- were collected within the Fusly leaving a balance of Rupees 244-10-2 of which Rupees 2216-10-2 have been since realized and the remainder, Viz. Rupees 200 " " being the amount of deposit made by the Renters and kept in the Treasury of the Coilcontlah Talook) is irrecoverable as it forms part of the sum plundered by the Rebels on the occasion of the attack made on the Talook Treasury during the late outbreak -

Sundry Small farms and Licences

6. The following Statement exhibits the particulars of the net decrease of

Fort St. George 11th November 1847.

of Rupees 1172 – 4 – 4 resulting from Revenue derivable from Sundry Small Farms and Licences. –

		Fusly 1255			Fusly 1256			Comparison Increase			Decrease		
1	Orchard	12573	8	6	12301	12	6	"	"	"	271	12	"
2	Jalagadagoo	1430	"	"	1402	12	"	"	"	"	27	4	"
3	Honey rent	893	6	"	897	6	"	4	"	"	"	"	"
4	Palmira Trees	228	"	"	334	"	"	106	"	"	"	"	"
5	Redwood & Teak	1585	8	"	602	3	8	"	"	"	983	4	4
	Total	16710	6	6	15538	2	2	110	"	"	1282	4	4
	Net Decrease										1172	4	4

7 – The decrease in the amount of Rents of Orchards and Topes is owing to the year having been generally an unfavorable one in regard to Produce of Tamarinds chiefly in all the Talooks particularly in those of Coilcondla Chitawail and Sidhout. The nett decrease of Rupees 27 – 4 – " in Jalagadoogoo rent for the privilege of

Fort St. George 11th November 1847.

of sifting the ashes of Goldsmiths furnaces has arisen from the low Offers that were made by the renters in the present year in the Talooks of Cumbum, Budwail, Sidhout and Poolevendla for in consequence of the Renters for the preceding Fusly not having, it is supposed realized a sufficient profit. The slight increase under the head of Honey rent does not call for any Remarks. The net increase in the Sale of Palmira Trees amounting to Rupees 106 is attributable to a greater number of these Trees having been purchased in Cumbum and 4 other Talooks while from the net decrease of Rupees 983 – 4 – 4 in that of Redwood and Teak Trees it would appear that the demand for these descriptions of Timber has been inconsiderable during the Fusly under review in comparison with the preceding years. The late disturbance has no doubt in a great measure been the cause of this decrease confined as it was to the neighbourhood of the Nullamalah Hills, where the greater proportion of Teak is usually Cut.

8 – The following is a comparative Talooks Statement shewing the settlement of each Item under the general heads of Small farms and licences. –

Cumbum.

ORIGINAL RECORD DESTROYED

11 The demands under these sources of Revenue amounted to Rupees 147161-3-9 exceeding that for the preceding Fusly by Rupees 690-"-4

12 The details of the Increase under both Items are as follows-

In Veesabudy Rupees 243-10-6

In Bagur Veesabudy Rupees 446-5-10

Total Rupees 690-"-4

13 The increase under the head of Veesabudy or the Tax on the profits of Trade is the result of the increased rating fixed on Merchants by themselves individually according to the extent of Traffic they are respectively engaged in, and that in Bagur Veesabudy is owing to the increase in the No. of looms and of sheep in the several Talooks-

Stamps 14 The amount of Revenue collected from the sale of stamps in the past Fusly amounted to Rupees

Rupees 10779-4- falling short of Rupees 1043 of that realized in the preceding Fusly-

15 Of the above demand Rupees 10700-4-" were collected within the Fusly and of the Balance of Rupees 39-"-" Rupees 38-12-" has been subsequently collected- and the remainder 4 Annas is irrecoverable having been plundered by the Rebels from the Talook Treasury of Coilcoontlah during the late outbreak-

16 The following Statement exhibits the particulars of the old Balances outstanding in the District

A.B. Ravey-

14533 Fort St. George 11th November 1847

	Balance at the end of Fasly 1255	Collections in Fasly 1256	Remaining Balance	Amount remitted under direction of Government	Remaining Amount of Fasly 1256	Amount Collected upto the close of Sept. 1847	Remaining Balance	Particulars of the Balance Doubtful	Particulars of the Balance Irrecoverable	Particulars Fasly 1254	Particulars Fasly 1256

Order thereon.

16-17

18

From the Acting Collr of North Arcot

Suggesting whether the Village of Cherlapully might not be made chargeable with the whole of the expenses in the Pagoda under the Management of the Ca-lastry Zemindar.

A dated 18th Janr. 1844 to Collr of Cudd. Copy of an Order dated 17th/185

Built transl. to date

Ordered to be sent again in Circulation

Read the following letters

To, D. White Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

Sir,

Para 1. I have the honor to for-
=ward a Copy furnished by the Zemm.
=dar of Calastry of the Summud re-
=garding the Grant of the Village of
Poolumbaid with translation as requis-
=red in your letter dated 26th July last. The
Original Summud which ought to have been
in the possession of the Enamdar Cooppoo
Chetty as noticed in Para 3 of Mr. Goldingham's
letter dated 9th October 1844 is not forthcoming but
a Copy which was registered in the Office in the year
1810 is enclosed. The two documents it will be
seen do not correspond and the date of that
now furnished by the Zemmdar does not appear re-
=conciliable with an order of the Zemmidar's Dewan
which is dated a few days earlier and refers to
the Summud as then already granted.

A petition has been received from
2. Soobaroya Chetty the son of the late incumbent
and other descendants of the original Grantee
praying that the grant may be renewed in their
favor

C with transl. dated 15th Jayalasa the Pournama- my year Crody A.D. 1784/5

Fort St. George 11th November 1847.

favor. I find in a Kyfeatnamah which was given by the Vakeel of the late Enamdar in the year 1810 that the following sums are stated to be chargeable on the revenue of the Village under the above Grant.

For Certain Ceremonies in the Pagodas	124-"-"
For expence of the Choultry and Sibbeny as Revesindah Vcm	208-7-3
Total-	332-7-3

3.

Another Village Cherlapully appears to have been originally granted for the same objects to the same party but was resumed many years since by the Zemindar on similar grounds, that the objects of the grant had not been sufficiently attended to. I would beg therefore to suggest for the consideration of the Board whether under all the circumstances this Village might not be made chargeable with the whole of the expenses of the ceremonies in the Pagoda under the management of the Zemindar and be relieved from those of the Choultry and the Village of Polumbaid be granted to the Son of the late incumbent subject either to a Jodee of 2/3D of the Ayacut Bariz or the above sum of 5 Pagodas 332-7-3 to be appropriated

See Mr Lowes Kyfeat No 4 and the document therein referred to No 5 with translation.

Fort St. George 11th November 1847.

not as before for the Subsistence of a few Brahmins in the Calasty choultry but for the construction and support of suitable buildings for the accommodation of Travellers of all classes under the control and Superintendence of the Officers of Government and any Surplus that may remain after that object shall be accomplished to be appropriated for similar purposes elsewhere or for such other works for the comfort and convenience of Travellers as may be considered most desirable.

I have the honor to be
Sir
Your most obedient Servant
(Signed) C. C. Lovell
Acting Collector

North Arcot
Collector's Circuit Cutcherry

From the Actg Coll.r of North Arcot -

Board's Ltr 19 of 1847
Govt. Ltr 1198 of 1847
Henvorth returned

Sir

Para 1 I have the honor to acknowledge the receipt of your letter dated 7th Instant, with a Petition from the Zemindar of Calastry praying that he may be placed in possession of the Village of Poolumbailoo in accordance with a decree of the Civil Court and to state that there has been no interference with the Zemindar's possession of the Village since the date of the decree, and it is understood that he is in quiet enjoyment of its Revenues. As regards his right to claim them I beg to refer to my letters dated 30th April and 23rd Instant.-

2. The Extract from the Minutes of Consultation referred to in your above letter was

10 July 1847. not received.

Palmanair 25th October 1847.

/ Signed / E. C. Lowell.
Acting Collector

Ordered that the following address be submitted with the foregoing letters.-

So

To

The Chief Secretary to

Government

Sir,

18-20

To the Chief Secy. to Government

In reply to Minutes of Consultation dated 10th July last reporting on Petition No 1198 of 1847 from Annasawmy Chetty and others regarding the Village of Poolumbaid in the District of North Arcot and under the circumstances stated repeating the Board's former recommendation that the Village be made over unconditionally to the Zemindar of Calastry

In Cons 26th July 1847 No 19

Para 1- I am directed by the Board of Revenue to acknowledge the receipt of Extract from Minutes of Consultation dated 10th July last transmitting Petition No 1198 of 1847 from Annasawmy Chetty and others, and desiring them, in reporting upon it, to state, whether the Village of Poolumbaid in the District of North Arcot is under the Acting Collector's attachment or in the management of the Zemindar of Calastry and whether the property, if viewed as a Sarva Enam, as is contended by the Petitioners, does not properly come under the operation of Regulation XXXI of 1802, which reserves to the Ruling Power the actual proprietary right of lands of every description," or if conseded as a charitable grant, as urged by the Zemindar himself, whether it does not fall within the provisions of Regulation VII of 1817, under which the local Officers are required "to provide for "the due appropriation of lands or other endowments granted for public purposes, agreeably "to the intent of the grantor."-

2- In reply

25th October
In Cons 11th Novr 1847

to state that in a letter recently received from the Acting Collector of North Arcot, he reports that there has been no interference with the Zemindar's possession of the Village since the date of the decree of the Civil Court of Chittoor, and that it is understood he is in quiet enjoyment of its revenues-

In regard to the second point, 3.

as to whether the property does not properly come under the operation of Regulation XXXI of 1802 the Board are of opinion that the Preamble of this Regulation, from which the quotation contained in the Extract under reply, is taken refers to alienated lands excluded from the Permanent settlement, and that it is not applicable to this case, as explained in the last para of my letter of 24th June last where in it is stated, that as the Peishcush of the Calastry Zemindary was not fixed with reference to specific assets, as was done in the Northern Circars the Zemindar could not claim remission on account of Villages taken from him by decrees of Court, but that at the same time he was entitled to benefit by resumptions-

With respect to the third point

as to whether the Village does not fall within the provisions

provision of Regulation VII of 1817 the Board would observe that as the terms of the grant refer to the maintenance of certain religious Ceremonies in a Pagoda at Calastry they would not deem it advisable in the present state of the Davastanums question, that the Officers of Government should interfere either in the management of the property, or in the appropriation of its revenues. The Zemindar in the absence of any party having a more direct title would seem to be the most proper person to hold the Office of Trustee and his right to exercise a control over the endowment has been fully recognized by the Decree of the Civil Court of Chittoor.

5 Under these circumstances and with reference to the terms of the abovementioned Decree already laid before Government, the Board desire me to state that they adhere to the opinion contained in their letter of 21st June last and accordingly beg to repeat their recommendation that the Village of Poolumpaid be made over unconditionally to the Zemindar of Calastry.

Revenue Board Office
Fort St. George
11th November 1847

(Signed) D. White
Acting Secretary

Read the following letter.

To D. White Esqre.
Acting Secretary to the
Board of Revenue.
Fort St George.

Sir,

(21)

From the Asst Collr of North Arcot.

With reference to your letter dated 2nd September last requiring me to report whether it is the practice in this District to charge interest on proprietors of land under Clause 1st Section II Regulation XXVII of 1802 from the dates on which the Kists fall due or from the 1st of the following month, I have the honor to state that the interest has been calculated from the day following that on which the Kists fell due. The Shrestadar having consulted me on the subject I instructed him not to charge interest for any period less than a Months I had understood that no interest had been hitherto charged in this District but it appears on further enquiry that before Fasly 1214 / 1804-05 interest had been charged for several years successively and was calculated for every day after that on which the Kist was due.

(42) From the Ag. Collector of Tinnevelly - Read Register of Endorsements passed by him on Petitions referred by the Board for disposal during the month of September last.

(42-43) Order thereon

Ordered to be lodged in the Office.

Resolved that the following letter be dispatched together with the several papers therein referred to -

Reply to Rev. Ltr. to No 53 dated 16 Jany '48.

To The Chief Secretary to Government.

Sir,

(44) To the Chief Secy to Government. Submitting in reference to Minutes of Consultation 2d January 1846. replies of the Collectors containing their views on the applicability of the proposed Rules for encouraging the plantation of Topes and Trees in the Provinces of the Madras Presidency with Precis of the same A - and the opinion of the Board on the several points indicated embodied in accompanying amended set of Rules B.

I am directed by the Board of Revenue to acknowledge the receipt of an Extract from the Minutes of Consultation dated 2d January 1846. recording observations on the Rules framed by them for encouraging the plantation of Topes and Trees in the Provinces of the Madras Presidency and laid before Government in their Acting Secretary's letter of the 11th July 1844. and requesting them to call for the opinions of the Collectors and to report whether any greater indulgence than that recommended by the Board or any modification of the Rules is necessary in those Districts where it is of most importance to encourage general planting.

2. Pursuant to this requisition, Circular instructions were addressed to the Local authorities calling for an exposition of their views as regards the applicability of the proposed rules to the circumstances of the Districts under

under their respective charge, and a precis of the replies which have been received is herewith submitted for facility of reference.

3 It will be seen that the general opinion of the local Officers is that the rules circulated by the Board do not offer sufficient inducement to the Planters. They are, with few exceptions, of opinion that the encouragement held out in Rule 2. as regards the plantation of Topes for general accommodation and convenience, is insufficient and is by no means commensurate with the labour and expense attendant on such undertakings. The provisions of Rule 3 likewise which has for its object the encouragement of private planting, are considered to be hardly remunerative. It is argued that so long as the planter is shut out from all participation in the produce of the Trees he has reared, and is thus deprived of any ultimate interest in their preservation, few will be found willing to raise

plantations for the mere benefit of cultivating the land rent free until they become productive, especially when the difficulties which have to be encountered in rearing and preserving them are taken into account. It is added that in many situations, the Soil is of such a nature as to afford but a very scanty return from the cultivation of dry grains, and that as the Trees grow up, the space between them will become unfitted for cultivation. Under these considerations, and adverting to the scarcity of water in many localities, and the excessive heat of the Land Winds and the consequent expense and labour to which the planter will be subjected, particularly where the Villages are scattered, and the difficulty of watching and preserving the trees is increased in proportion, the Board are of opinion that unless more indulgence than was at first contemplated is afforded, the important object in view will not be attained. The fact also that the ancient Plantations of the Country are often more or less in a State of decay suggests that the rules under which new Plantations are to be formed, should be framed on as extended a basis as circumstances will admit. On a review therefore

therefore of all the information before them, they consider it expedient as regards Public Topes, to leave them entirely free from all demand allowing the planter to enjoy the produce not only of the Trees when they have reached maturity, but also any inferior product which he may be enabled to raise before the Trees become productive— and in the case of private Topes they would recommend the concession of the full extent of the indulgence proposed by the Collector of Bellary Viz. to give the planter a rent-free right in his plantation for 20 years. It has also appeared to the Board essential that, in places unfavorable to the growth of Trees such as the Ceded Districts, Kurnool Guntoor &c. where the heat is great and water is scarce, advances of Tuccavie for the formation of wells should be made on the special recommendation of the local authorities, and a provision has been added to that effect.—

4 Considering the liberal encouragement which has now been proposed it has occurred to the Board that a penalty should be attached to the non fulfilment of the terms of the Cowle and Rule which has been inserted with this view.—

5 The opinions offered in the foregoing paras have been embodied in the amended set of rules which are herewith forwarded for the approval of Government.

B

6 It should be remarked that the Collectors of Tanjore and Trichinopoly, in consequence of the extensive plantations already existing in those Provinces, and from the nature of the rules at present in force in regard to the formation of Topes &c. deprecate even the measure of encouragement offered in the Rules originally framed, as likely to have an injurious tendency on the Revenue derived from this source. Whilst the former apprehends that "the adoption of rules 3 and 4 will affect the bringing of Waste Land "into cultivation in river irrigated Villages, "obstruct the planting of Tope lands on the "terms hitherto allowed, and encourage the re"linquishment of Topes now paying Revenue to "Government", the latter gives it as his opinion "that the 6th Rule seems "to grant an indulgence "which is not called for" as "most of the single "Trees are of spontaneous growth, and the rule "will operate to induce the Cultivators to neglect "and destroy the Trees which at present yield fruit"

The

The Board do not, however, consider it necessary to recommend any alteration in the proposed rule to adopt them to the circumstances of these Districts. They would leave it to the authorities of these two Districts to restrict the operation of the proposed rules so as to suit the local peculiarities and local usages.

7 It will be seen that the Collectors of Nellore and North Arcot and the Sub Collector of Coimbatore advocate special encouragement in certain cases, but special cases, the Board are of opinion might be dealt with, separately and no general rule beyond a declaration to that effect is considered necessary.-

8 It is observed that no encouragement is required in Malabar and Canara.

9 In conclusion, I am instructed to add that the Board have attentively reconsidered the rule of the Agra Presidency to which their attention was directed in Para 7 of the Extract from the Minutes of Consultation under acknowledgement, as possessing the advantage of making the Planters take care of the Trees, and promote their growth

as much as possible, and are led to doubt if it will have the beneficial effect which is expected to result from it. On the contrary, they apprehend that it will deter parties from embarking in an undertaking which at the outset will subject them to the payment of an assessment on land which they plant solely for the public benefit or with a remote ultimate advantage to themselves.-

Revenue Board Office
Fort St. George
11th November 1847.

(Signed) D. White.
Acting Secretary.

A

Abstract of the Replies from the Collectors respecting the Tope Rules.

Ganjam — The Agent at Ganjam states that, as regards his District, he is not aware that there are any special circumstances rendering a greater degree of encouragement necessary for the plantation of Topes, than is held out in the proposed rules. but he is of opinion that they do not offer sufficient inducement to the planter. He adds that in many situations the soil is of such a nature as to afford but a very scanty return from the cultivation of dry grains

grains, and as the Trees grow up, the space between them becomes contracted. He suggests therefore that the Planter of a public Tope should be allowed to enjoy the produce tax free, after the Trees shall begin to bear, for a limited number of years in addition to the advantage of cultivating the land free of demand up to that time as respects Rule 3, he suggests that if the land proposed to be given to the planter has never at any former period been assessed to the Revenue, half only of the Musul Teerwah shall be fixed in perpetuity.

Vizagapatam. Mr. Smollett is of opinion that the rules afford no boon whatever to the Planter. In order to carry out the object in view, he proposes that, in accordance with the policy set forth in Section XV Regulation XXX. 1802, it would be necessary, as regards waste, to grant land to parties desiring to plant rent free, for a long term of years or in perpetuity for a peper corn rent.

Rajahmundry. The Collector of Rajahmundry states that it does not appear to him necessary to afford any additional inducements to the people in his

District to form Topes, the rules circulated being deemed satisfactory. He considers that Rule 3 should provide that if the party who plants a Tope should be unable to pay the Cist or relinquish it, it should be rented out on behalf of Government, and the amount of rent carried to the public account.

Masulipatam. The Collector states that there are few Estates in his District in which good soil and sites, suited for planting Topes, are situated, and that there are few individuals able or willing to engage in the undertaking. The modification he proposes is the extension of Rule 2 to the Topes planted for public convenience in lands usually under cultivation in cases where there may be no waste in the vicinity, of Choultries or other public buildings. He also suggests that the management of the Topes should be left to the parties themselves subject to the supervision of the Government authorities.

Guntoor The Collector of Guntoor states that encouragement for plantations is especially needed in his District, and adverts to the difficulty of bringing them to maturity from the

the extreme heat of the Land winds and the scarcity of water. He suggests that rule 2 should be so far relaxed as to allow the produce of the Tope to be left free for the poor or public as a "Dhurma Tope" as this would have a stronger attraction in the eyes of the Hindoos than if the produce were sold even for a public object. Mr. Stokes is also of opinion that Rule 3 should be modified so as to allow the waste land to be held, when planted, one half the ordinary assessment even after the Trees have been classed as productive.

Nellore. The Collector of Nellore states that the individual planting Banian, Beepaul or other unprofitable Trees, which are much more hardy and shady than the generality of fruit Trees, should be allowed the same privilege of cultivating the land rent free, as he who plants the latter description of Trees. He also suggests that in the event of a well being small for watering a newly planted tope the planter should be allowed to grow Garden produce. The Collector thinks that Rule 5 does offer sufficient encouragement. and proposes that a portion of Waste

should be allowed rent free for 5 years conveniently situated, as regards the land or Village of any person who will undertake to plant and protect avenue Trees for a certain distance, the extent of land to be regulated by the number of Trees planted. This is considered essential in a District like Nellore where the Villages are widely scattered, and are often many miles apart.

Bellary. Mr. Mellor observes that there will be no Topes planted under Rule 2 as persons desirous of planting will never consent to give them over to the Circar. He proposes therefore that the planter should have the management of the Topes and the Circar servants merely see that the proceeds are applied to charitable purposes, it being understood that in cases where they are not such Topes shall be subjected to the payment of Teerwah. He adds that the Rules circulated although sufficiently liberal for other Districts, will be a dead letter in his; and believes that no rule would be of any use that did not give the cultivator a rent-free right in his plantation for 20 years, with the understanding that

that after the lapse of that period the tax would only be levied at the Survey rate.

Cuddapah. The Collector of Cuddapah is of opinion that Rule 2 does not hold out sufficient inducement. He suggests therefore that in addition to the terms therein offered the Planters may be allowed to participate in 1/3 of the produce of the Tope they may have planted on a Dasawundrum Tenure.

Kurnool. The Commissioner in Kurnool observes that, in general, the rules are sufficiently liberal but that in his District there is no inclination on the part of the People to incur the expense of planting for the benefit chiefly of future generations, and he doubts very much whether the prospect of any advantages short of such as would entail a certain loss to the Government would effect the object sought. Mr Scott recommends as a general rule; that the 3d. of the proposed rules should be so modified as to allow the waste Land to be cultivated free of all Demand, until the Trees become productive, instead of being charged with one half, the assessment.

Chingleput. The Acting Collector considers it highly desirable to encourage plantations of Trees

in his District but he is of opinion that more favorable rules are required. He proposes that the planter should be allowed to enjoy the produce when the trees reach maturity the land remaining rent free. With regard to Rule 3 Mr Maltby gives it as his opinion that the lands should be exempted from all demand whether cultivated or not, until sufficient time has elapsed for the trees to obtain to maturity. He adds that the rule respecting the planting of avenues appears likely to be attended with beneficial results.

North Arcot. The Acting Collector remarks that the rule in regard to the planting of avenues on the road side, does not offer sufficient stimulus to the planter. He proposes therefore that a small sum should be allowed per 100 Trees per Annum for a limited time and thinks that some encouragement of the same kind is desirable for the renewal of the charity and public Village Topes where the Trees have perished or are going to decay. Mr Lovell adverts to a proposal which Captain Best intended to make for establishing nurseries at convenient stations to keep up a supply of seedling Trees to plant by the road side for gratuitous distribution. He adds that Rule 6 should

should be applied to all trees, particularly to those mentioned in Rule 7 as the produce of all of them except the Areca Palm contributes to the Abkarry Revenue.

South Arcot — The Collector states that the formation of Topes is much desired in his District but that Rule 2 does not afford sufficient encouragement. He adds that as the Trees grow up the value of the land for cultivation diminishes, and that if the Planter has no ultimate interest in the Trees, he will not be anxious for their preservation. He therefore proposes that the produce should be left in the hands of the Planter on the understanding that he is to apply the proceeds solely for the public benefit as the Government Officers may direct, i.e. that they should be made "Dhurma Topes".

Salem — Mr. Lockhart is of opinion that Rule 2 does not hold out inducement commensurate with the labour and expense attending the rearing of plantations. He points out that in the first place parties wishing to plant Topes will have to dig Wells, and that after a short time, the growth of the Trees will prevent cultivation. He suggests therefore that the planters should be allowed half the produce when they come into bearing for a certain period.

Tanjore. — The Collector states that in the greater

greater part of Tanjore no encouragement is required for the planting of Topes, as they abound in most parts of the District. He adds, however, that there may be some parts to the South of the District where they may be beneficially planted, and Rules 1 and 2 are considered to provide sufficient encouragement for this purpose. The Revenue from Trees is shewn to have amounted last year to Rupees 87,917 of which Rupees 44,528 was, it is stated, derived from Trees to which these rules would apply. The Collector apprehends that the adoption of Rules 3 and 6 by encouraging the planting of new Topes under the proposed advantages, will effect the bringing of waste land into cultivation in river irrigated Villages, obstruct the planting of Tope land on the terms hitherto allowed and encourage the relinquishment of Topes now paying Revenue to Government. The Collector is therefore of opinion that Rules of this nature should be acted on with great caution if ever they are introduced into Tanjore.

Trichinopoly. — Mr. Onslow observes that the rules are well calculated to effect the object in view. He suggests however with reference to Rule 4 that as it will be impossible to determine a period at which the Trees may be

be expected to bear the Teerwah should be demanded as soon as the Trees acutally yield fruit. He further observes that Rule 6 appears to him to grant an indulgence which is not called for, as most of the single Trees are of spontaneous growth and the rule would operate to induce the cultivator to neglect and destroy them.

Madura. The Principal Collector of Madura is of opinion that the rules circulated are sufficient and unexceptionable as regards his District. He suggests, however, certain modifications in the wording of the 2nd and 3rd Rules and proposes as respects the 5th that Cocoanut, Palmyra and Date Trees if planted in avenues by the road sides should be declared as any other Trees, to be exempt from Tax as the rule exists so at present in his Collectorate.

Tinnevelly The Collector states that Rule 2 does not offer sufficient inducement. He is of opinion that unless the prospect of enjoying ultimately at least ½ of the Produce of the Topes were held out to the planter none would go to the trouble and expense of rearing them. The Collector appends Table

shewing the periods usually required in ordinary land for Trees to reach maturity.

Coimbatore The Principal Collector observes that Rule 2 does not appear to him to be sufficiently remunerative as regards his District, and that the Planter should be allowed to enjoy the produce in perpetuity. The Topes being considered the property of Government. Mr Wroughton submits a report from his Sub Collector in which that Officer gives the same opinion regarding rule 2. and suggests that upon Topes coming into bearing, the Coodewaram or ryots share be given to the Planter, while the Government reserve to themselves the Maiwaram or value of the usual tax. In respect to Rule 5 he proposes that a small extent of land according to the number of Trees planted and the distance of the Village from the plantation should be allowed to be held rent free by the Planters.

Mr

Canara.

Mr. Blane states that his Dis-
trict is so well wooded, and there are
so many Trees already existing that there
is no necessity for encouraging Plantations
In respect to the rule regarding the plant-
ing of avenues, he states that they al-
ready exist in many parts of the Dis-
trict, and that in others where the Vil-
lages are scattered and the Soil not
well adapted for Trees, he does not
think that the permission to enjoy
the produce rent free would be con-
sidered a sufficient recompence.

Malabar.

Mr. Conolly states that
Malabar does not require any encou-
ragement of the nature proposed,
as avenues and gardens are gene-
rally abundant.

[Signed] D. White
Acting Secretary.

B

Rules for regulating the planting of Topes and Trees.-

Public Topes

1. Every person desirous of planting a Tope for public utility and conve-
nience shall first communicated with the Local European Revenue Authorities, and ob-
tain their sanction If he neglect to do so, his plantation shall be liable to be taxed at the rate chargeable for private Topes. A register shall be kept of such applications

2. Parties who, after sanction as in Rule 1. may plant Topes, either of Fruit or Timber Trees or other Trees affording shade, in situations approved by the Collector on the road side, near a Choultry, or near any place of public resort for general accommodation and convenience or other beneficial purpose, shall be allowed to cultivate the ground rent-free until the Tope becomes productive as a compensation for the trouble and expense incurred in forming the plantation. When the Trees if Fruit Trees, shall have reached maturity the Tope shall be entered

Fort St. George 11th November 1847

entered in the accounts as a Public Tope free of all tax, and the produce left to the Planter to be appropriated for the support of the Choultry, repair of the road or other municipal purpose contemplated.-

3 The Produce of Trees or avenues planted by the Road-side in such a manner as the District authorities shall approve shall be enjoyed free of tax by the individuals or Village communities who may have planted them.-

Private Topes. 4 Parties wishing to plant Topes for their private benefit in waste land, including plantations for Firewood, shall be allowed land for that purpose and it shall be exempt from assessment for 20 years whether cultivated or not. After the lapse of that period, the full Teerwah of the land only shall be charged. If the Tope be planted in sheical land or

Fort St. George 11th November 1847.

or land usually under cultivation, ground so appropriated shall as a general rule be assessed with full teerwah from the time the Trees are planted whether it be cultivated or not, unless there should be special reasons for grant or indulgence, which the Collector shall be at liberty to represent should he see fit.-

5. The produce of single Trees to be hereafter planted in cultivable land, shall be enjoyed free of tax by the party by whom the land is cultivated such Trees shall be taxed only when the land is left waste.

6. In places where water is scarce, and where Trees grow with difficulty

Fort St. George 11th. November 1847

difficulty as in the black or regular soils, an advance of Tukkavee will be given for the construction of a well on the special recommendation of the Collector, and on such terms as the case may seem to require.

7. Parties who after obtaining land under the above rules may fail to fulfil the terms of their engagement shall forfeit their Cowle.

N. B. The foregoing rules shall not apply to the Cocoanut or Areca Palms, or to Palmyra and Date Trees.

(Signed) D. White

Acting Secretary
