Deputy Secretary to the Government
of Fort St. George

Sir,

With reference to your letter No. 398 dated the 11th September last, with enclosures, relative to the consideration of Teak Forests in Canara, I am directed by the Honorable the Governor in Council to transmit for the information of the Most Noble the Governor in Council, Copies of a letter from the Military Board, No. 3785 dated the 28th June last, and its accompaniment, from the Conservator of Forests, containing his observations on the subject:-

To

The Honorable George Russell Clerk

Governor and President in Council

Honored Sir,

With reference to Mr. Chief Secretary Pringle's letter No. 1387 of the 4th ultimo, we have the honor to report, that we forwarded a copy of the correspondence therewith furnished us relative to the conservation of Teak Forests in Canara to the conservator of Forests and we now beg to submit for the information of your Honorable Board, a communication from that officer (No. 295 dated 3rd Instant) containing his observations on the subject in question in which we beg to express our concurrence.-

2nd. The arrangement referred to in the 5th Paragraph was submitted to your Honorable Board with our letter No. 5874 of the 18th December last, and was that a Gang of convicts from October to February, under a native Officer appointed by a Forest Muccadum should be employed in clearing the grass from

Fort St. George 13th January 1848

from the young Trees.-

To

The Secretary Military Board

Bombay.

I have the honor to offer the following remarks on the papers relating to Canara Forests Viz.

As to the Justice of the Collectors' statements of the great inconvenience resulting from the occupation of the Sub-Conservator in the Timber Department. I also had an opportunity of remarking and if I mistake not, I had the honor in one of my letters of last season, to bring this matter to the notice of Government.

2nd. I agree with the Collector in thinking that the Sub-Conservator is from age unqualified to perform the duties required in a Forest

Forest tract so extensive, and that it were now important that a person of active habits possessing some acquaintance with arboriculture should be employ-

3. The Collector suggestion as to extending the duties of the present assistant Timber agent, is important and might I think be acted in some manner such as the following Viz. by retaining that officer to select, and send Timber from the Bala Ghaut Forest; and at the same time, attend to the preservation and increase of Timber in this Forest. For this purpose he ought to reside in some place comparatively healthy.

I had before the honor to suggest the Hill of Sidh which bounds the Madras territory to the North as being the most eligible place within 25 Miles of Gond, 15 of Lambance, 14 of Bicholim of Nugger Galee Vca. it is also within 36 Miles of Darwar, and it is so situated, that the assistant agent could also overlook the part of the Forest in the Belgaum Collectorate, which is just under the hill and contains fine young timber. From hence also is a road to Belgaum I would prefer either this place or Kulukul to Juggalpait as the latter has not a very good reputation for salubrity, though it

it is situated on an open park like slope.

4. I do not think that considering the privations and solitude incident to such a residence, an Officer of Mr. Poulton's qualifications ought to have less salary than Rupees Three hundred and fifty / Rupees 350 / per Mensem. He might be subjected to the control of the Bombay Conservator and under their united directions the plans for the increase of young trees might be carried on. Rs. 350.

At the present moment I believe that if the price of timber as delivered to Government at Sadasheoghur be considered it will be found that the annual saving to Government is more than sufficient to cover the charge of this Officer's salary, and the prospective returns from growing timber may be safely calculated on as very large.

In case of Mr. Poulton being thus employed, the present sub Conservator might, residing at Sadasheoghur during a part of the year, perform the Bunder duties at present carried on by the assistant timber agent and during the season when these duties are in abeyance he might, as at present attend to the forest below the ghauts. The latter does not-

not now contain more than eighteen thousand (18,000) Teak trees, but much valuable jungle timber.

5. In case that circumstances did not admit of Mr. Poulton undertaking the above duties, the suggestions offered by me in Memo: to Military Board under date 7th December last might (if) there be acted on. They are in principle much the same as the above; supposing these to be deemed advisable, I would undertake to provide and (if) instruct a relative of mine in the duties, giving him only a portion of the salary until he were qualified (for)

The Collectors' views as to the raising of young trees appear to be sound and practical, (if) I must still however hold to the opinion I have formerly expressed Viz^t that many thousands of young trees might be annually saved by removing the Grass for several feet around them.-

The question is capable of an easy determination - a determination involving a very trifling expenditure. Hold and I will state my experience of the assertion that young trees thus treated though the stems and leaves may be scorched in the annual conflagrations, yet will remain fresh at the lower (&) part above the root; and where that is the case (&) the

the stem soon recovers its vegetative powers.-

Even two men employed during four Months in one year might easily clear one thousand (1000) trees each.- This would be the extent of the expenditure incurred by the experiment.-

7. From my report of last year it will be seen that it was my intention that it should be applied to the seedlings of natural growth as well as to those which may be raised.-

From the same report it will also be seen that I found the natural seedlings to exist in great numbers in some of the best parts of the Forest.- That I found them rare at Birchee nulla, and other places near Dandelee in my visit of 1844 must have arisen from their having been trodden down and otherwise destroyed by the extensive wood cutting operations then going on in that quarter.-

Mr. Blane's proposal to act on the suggestions of Lieutenant Munro as to leaving large trees here and there for seed is practically acted on thus. In a Forest numbers of the large trees are left as not affording timber calculated to pay the expense of cutting and thinning by reason of their stems being hollow. These however bear seed in abundance.-

The

8. The restrictions proposed by the Collector as to firing the jungle for Koomry Cultivation do seem to be most necessary. It is doubtful however how far they can be practically carried out without the presence of an officer vested with the functions proposed in Para. 7, an approach to the system of preserving for cultivation only the former spots on which Koomry has been grown should as far as possible be made. I have in many cases seen the places containing the largest and straightest trees thus cleared by burning.

What the Collector states as to the desirableness of clearing superabundant vegetation in many parts of the Forest is also worthy of attention. In the ground to the eastern confines of the Forest on the road from Woalore to Soopie on the left, there have formerly been large tracts under Garden Cultivation, and there seems, except insalubrity, no reason why this might not again be the case. The jungle there also is of that crooked sort which is of no value for timber. The desertion of these tracts arise partly from the Causes mentioned in my report of 1846.

10. As to the cutting of firewood this must always be a product of the lower jungles for

for from the upper, unless with the aid of good roads it could never pay to export it from the Bala ghaut Forests.

11. The assistant Collector's suggestions as to the restrictions in cutting the better class of trees could be with advantage enforced. The quantity of crooked and otherwise useless timber is so very great that no practical inconvenience could be felt from restricting the firewood Cutting to this class of Trees.

12. With regard to the Collectors' proposal to restrict the cutting of the more valuable kinds of timber, I think it deserves every attention. In the upper Forest however it could not be well carried out without the presence of a Local Conservator. Below where the chief export is necessarily seaward, restriction is easier.

The kinds of wood which most to Teak Soorhunee Hebulsoo and Ebony (at present reserved) it might be advisable to protect as likely to be of importance hereafter. In ship building are.

Schluchera Sapoogee
2 Assana Badelia Mertana
Canarese name not known to me

3d Acew Sadura Maurtee
Penaptera Coriacia ---
4th Keegul Keedul
Penlaptera alata.

as

As Nos. 1 and 2 of these woods are greatly in request for Sugar Mills, Rice Mills, and Cart wheels, Ryots living in the Forest should be allowed to have them for their own use on the same terms as formerly, but those at distance desiring to cut them should be permitted to do so only at a rate of duty considerably higher than that charged on other Jungle Timber. At present the chief exports made by the Belgaum Sahookars from the upper Forest seems to consist of these woods of the value of which they are well aware.

As to Nos. 3 and 4 much of the crooked woods of these species will always be available for firewood, the straight and good trees should be subject to enhanced duty.

13. The observations of the Collector as to the importance of constructing a road from the Gond Forest Piece to the Coast previous to attempting any export therefrom entirely tally with my views of the subject. If this road could with permission of the Portuguese Government be led by the Teeroy Ghaut into

into the Goa Backwaters much distance and much of a leeward coast carriage might be saved. The same road would open the Birchee mulla Sambrance and other valuable parts of the Forest to direct intercourse with the coast.

14. The suspicions of the Collector as to the privilege required by the Belgaum Contractor of appropriating Teak Logs branched &c. to his own purposes being liable to abuse are well founded. In case that any contract of the kind should be hereafter given, no such permission should be on any account allowed. It will if allowed most surely lead to extensive Malversation. At present the waste arising from the upper part of logs being left to rot in the Forest is very great. Of these I have seen many hundreds which could have been formed into valuable knees for ships and boats. With a good road all these will become available as well as the larger branches.

15. The assistant Collector proposes that in the first instance the Tracts adjacent to the rivers below the Ghauts should be devoted to Teak cultivation. It appears

to me however that this line of country is not so favorable to the Teak Tree as that of the Bala Ghaut. I would therefore recommend that attention continue to be directed to the former.

It will be seen that in the foregoing remarks I have dealt with the several Paras rather in the order of the importance of the matter contained in each than in that of the order in which they appear in the Collector's letter.

It must be satisfactory to all parties to know that attention has been directed to this subject in time sufficient to save a most valuable forest line for the provision of Timber for the public service and for a regulated supply for private purposes.

My Lord,

1. It has been our duty on several occasions to bring to the notice of your Lordship our want of success in obtaining adequate supplies of Sawl Timber for the construction of Gun Carriages for the service of this Presidency. We have now the honor to submit Copy of a Communication from the Commissary General from which we learn that only a very partial supply can be obtained and that of too small a scantling for Howitzer or heavy field Carriages.

2. About 3 years ago we received a sample of very fine timber from Mooseryen

Fort St. George 13th January 1848.

Mooseryen called Pedouke which we were in hopes would have answered for Gun Carriages, but it season so extremely dry that we have not been able to form judgment of it, but fear it will prove too heavy.

3. We have addressed Major General Cullen who has devoted much attention to the subject of timber and requested his opinion if there are any suited for Gun Carriage purposes in those extensive forests and we beg to suggest that we may be furnished with any Information on this Subject that may be on the records of Government or the Revenue Department.

To The Military Board

Gentlemen, Fort St. George

1. I have the honor to acknowledge your Secretary's letter calling for statements and for further information respecting the supply of Sawl and Teak Timber.

25th Sept. 1847

2. The statement required in the

Fort St. George 13th January 1818

the 1st Paragraph is herewith forwarded.

3 As regards the prospect Shaw of being able to furnish annually 15,000 Cubic Feet of Sawl wood of the dimensions required by Captain Maitland I regret to be obliged to report unfavourably.

4 The utmost that can be brought to the Coast from the Forests in the Neighbourhood of Cuttack, would be about 300 Logs of 20 or 22 inches in diameter and 16 feet in length annually.

5 Even for this limited supply there would be no positive certainty in respect to procuring Freight's from Dhanna to Madras. though I should hope by the temptation of high prices at first, Owners of Vessels might be induced to enter in to the Trade with regularity in time.

6 Mr. Mills the late superintendent of the Tributary Mahals at Cuttack was so obliging as to take much positive interest in the Sawl Timber supply he gave the Overseers employed in this business under my orders all the assistance he possibly Could

Fort St. George 13th January 1818

could by constant purwanahs upon the Forest Rajahs and by allowing the whole weight of his office to be employed in endeavouring to make them perform their part in the supply Mr. Mills even personally urged the Rajahs upon the Subject.

7 About a year ago however Mr. Mills was obliged to confess that no portion of the Forests within 20 Miles of the Streams was capable of furnishing Logs of the dimensions required, and that the Rajahs were unable to drag the Logs from so great a distance that the expense was ruinous, and for what this Department did obtain it must in future employ its own means.

8 Determined not to give up the point while there was any hopes of success I authorised 30 pairs of Buffaloes and lately 20 more pairs to be purchased and employed in dragging the Logs to the Streams but the last reports are as I have stated in the 4th Paragraph above.

9 I am confident that all is that could have been done has been done to insure the realization of your Board's wishes in respect to the supply of Sawl wood of the dimensions required by

From the Collr of Masulipatam

Sir

I have the honor to submit my Report on the Extra Sources of Revenue in this District for Fasly 1256 A.D. 1846/47 accompanied by the usual Statements.

Submitting report on the Extra Sources of revenue for Fasly 1256 in the District of Masulipatam.

2. The following Abstract exhibiting a Comparative view of each item of revenue for Fasslies 1255/56 1845/46 will shew that there was an increase of Rupees 8,687-3-1 in the Frontier duties Abkarry, Sundry small farms and Licenses and Moturpha, but a decrease of Rupees 130148-14-7 under the heads of Salt, Sea Customs and Stamps, the net decrease in the demand of the year under review being Rupees 12,14,61-11-6.

Items.

Fort St. George 13th January 1848.

3- On reference to Statement No 1, of which the following is an Abstract it will be observed that the salt sold during the last Fusly in the Pondraca and Sunnagoodroo Cotaurs for Home and Inland Consumption including the smuggled Salt amounted in value at 1 Rupees per Maund to Rupees 27,769-2-9. exhibiting a decrease of Rupees 12,478-5-9.-

4- It will be observed that a considerable portion of the large decrease exhibited above, has arisen from the falling off in the Inland sales in consequence of a much smaller number of Timbadies having resorted to the pans this year, than in the preceding one for the purchase of the Article in the two Colours- In the Home consumption sales in the two Colours, a decrease of Rupees 17,651 as per 8- " has resulted from the retail sales to the Home dealers having been to remise contracted not from Actual want of stock on hand, but from the circumstance of there being a less demand for the Article- The causes which attended this decrease appear to be general as explained by the Acting Collector in his letter dated 22d. May last- Further enquiries have confirmed what he then stated- On that date the decrease was Rupees 29,502- but it has since been reduced to Rupees 12,778- 5— 9- by subsequent sales in the Innoongoodroo Colour on account of Home consumption- Notwithstanding this

Export- 16. In the duty collected on sundry items composing the Export trade, there was a small increase of Rupees 159-14-5. but a decrease of Rupees 2192-3-10, arising principally from the non exportation by the Commissariat Department of White and Blue Long Cloths to Madras, as in the preceding year, and partly from small Collections on sundry articles.-

Fort St. George 13th January 1848.-

there remains a sum of Rupees 338-5-4 regarding which the remarks appended to Enclosure No. 3 will give the necessary explanation.-

30. Of the arrears due on account of Moturpha for 18 years up to Fusly 1248 A.D. 1838/39 amounting to Rupees 2448-2-1. not included in the Demand under the Board's orders dated 14th May 1840, the sum of Rupees 174-4-3 was collected within the Fusly and Sincs and Rupees 1079-14-10 were remitted under the sanction of Government dated 25th March last. Of the remainder, it is now proposed to make a further remission of Rupees 1004-5-4, the recovery of which from the enquiry made, appears desperate, leaving a balance of Rupees 129-9-8, the particulars of which will be seen from Enclosure No. 4 where explanation is afforded as to the cause of non realization.-

the first which from their complicated nature has been attended with some difficulty and delay in consequence of the absence of the parties concerned, is now brought to a close, and after collecting from available means a portion of the Arrear, the remainder will at once be recommended for remission in a Special report, which I hope to submit within a short period. Of the two last comprise balances for not more than 7 years, except in the case of the Motupalla in which is included a small arrear of

up to fasly 1248 / A.D. 1838-39 and which will be finally disposed of as further enquiries shall satisfy me as to the prospect which exists of its recovery—

Dated 11th February 1842

Para 1- With reference to Para 26 of my predecessor's Report on the Settlement of the Chilkaloorpad Estate for Fusly 1250 and to the present circumstances of the Guntoor Circar, I have the honor to request the instructions of the Board which do not hitherto appear to have been received, as to whether the Enam of 1/2 Cootchel of land in the Village of Morumpoody granted by the widow of the late Manoot Venkanah now on the occasion of her husbands demise, is to be continued and in that case whether it may not be better to resume the Manium and grant an equivalent allowance to the party during his life, in Money-

2. I should further be glad to be furnished with the Boards sentiments as to whether other grants which have been made by the Exzemindars subsequent to the Permanent Settlement are liable to immediate resumption. It appears to me that the grants made by the Zemindars subsequent to the Permanent Settlement and up to the sequestration of the Estates in Fusly 1244 may be reserved for disposal together with the other Enams of the District. Grants made by the Zemindars subsequent to the default of the Estates are not entitled to any consideration, but should be resumed at once-

Proceedings thereon. From the Summut dated 14th 1809
23 1793
and the Register furnished to the Board in 1809
and 1812, it appears that one Mahomud Hoosein
was, on those dates, in the enjoyment of the grant
referred to in the foregoing Statement, but it does not
shew when, and under what authority it was grant-
ed in the name of his Grandson Mahomed Yoosoof
whose death is now reported. The Collector will
have the goodness to furnish information on the
points, and he will state at the same time
whether any correspondence has passed between
this Office and the Revenue Authorities of the
District since the year 1812 regarding this Yeamut
either on the occurrence of a lapse or when the allow
fell in arrear, or was under retrenchment.

It is also observed that the Per-
wannah does not confer the Yeamiah in Per-
petuity. Mr. Smith will therefore state, after
minute and careful enquiry, whether in his
opinion, the services of the ancestor Mahomed
are of such a nature, as to render it necessary
to continue the grant in perpetuity.

Proceedings thereon

(36-37)

The remarks of the Board in their Proceedings of this date on the subject of the Yeoonah of the late Mahomed Yoosee equally apply to this case. Mr Smith is therefore requested to furnish similar information in regard to it. He will observe that the points on which information is required are —

1. When and under what authority the Yeoonah was continued to Abdool Majeed

2. Whether any correspondence has passed between this Office and the Revenue authorities of Nellore since the year 1812 regarding this Yeoonah either on the occurrence of a lapse, or when the allowance fell in arrear or was under retrenchment

3. Whether the services of the Durgah referred to by the Collector are of such a nature as to render it necessary to continue the Grant in perpetuity —

4. It appears from the Purwanah that the subsistence Yeoonah of one Shaw Surwar was after the death continued to his Woo=taliquan for their maintenance but no mention is made of the grant being a perpetual one. In the Register of 1804 it is also entered as a life grant. In that of 1812 however it is stated to be a Joint Service Yeoonah. Mr Smith will have the goodness in his reply to notice these points and he will explain in what manner or under what circum=stances the allowance has been reduced from the original sum of 2 Rupees per day to Rs 11-11-5 per mensem.

Sir,

From the Collr of Nellore.

I request to have to report the death of Rajah Velgotee Bungaru yachum Nardo Zemindar of Venkatagerry which event occured early on the Morning of the 25th Instant. Velgotee Bungaru yachum Nardo had been unwell and a swelling of his legs had been the consequence of his complaint during the last year and more but no danger was apprehended and his end was unexpected the disease having extended to his stomach suddenly

4 This Individual was born on the 22nd January 1832 and will consequently be sixteen years of age on the 22nd of next Month.

5 There is not a Rupee due to Government by this Zemindary in this District at the present moment the first Kist of July 1847 having been paid Indeed there is a surplus in my Treasury of Rupees 3584 in favor of the Zemindary

6 Before his death the Zemindar addressed to me a letter of which the accompanying is a copy and translation stating that he had made over charge of his whole Estate to his son and if the management can be continued to him without the intervention of the Court of Wards and without such cause being considered illegal with reference to Section III Regulation V of 1804 Inam of opinion that it will be for the best

for the interests both of the Zemindar and Government.

7 I have had so much experience of the difficulties attending the management of Estates brought under attachment temporarily that I consider it my duty to state my opinion frankly in a case where so much property is at= stake, and I think the Board will find on their Records precedents to justify my recom= =mendation, I think the father of the present Zemindar of Pittapore in the Rajah= =mundry Zillah was allowed the Management of his Estate at thirteen and the late Zemindar of this very Zemin= =dary of Venkatagherry succeeded to his Zemindary at fourteen as will be seen by the letters noted in the Margin.

From Mr Fells acting Collr Northern Division of Salem to the Board of Revenue dated 20th April 1814
From the Secretary to the Court of Wards to the Collector Northern Division of Salem dated 19th December 1806

8 As soon as the funeral Ceremonies are over I shall proceed to have an interview with Velugotee Comara Yachia Nanaidoo who I have every reason to believe is physically equal to the charge contemplated and in the mean time I shall be glad to receive any suggestions which in a case of so much im= =portance the Board may wish to offer.

of Veneatagherry, and soliciting instructions in regard to the future management of the estate.

2

It will be observed that the amount of Pushcush annually payable to Government by Veneatagherry Zemindary in Nellore, is Rupees 39469-4-9 besides a sum of Rupees 17367-0 payable to the Collectors of Cuddapah and Guntoor for the portions of the estate situated in those provinces

3.

The Collector reports that the day before the death of the late Zemindar he appointed his son a youth nearly 8 years of age named Surrayiah Yachum Naidoo his successor under the name of Valoogalee Comara Yachum Naidoo. The estate is not in arrear to Government And all Mr Smith strongly recommends that the young Zemindar be continued in possession

4

The Board observe that the late Zemindar succeeded to the estate at an age even earlier than that at which his son has already attained and under the further circumstances stated by the Collector they consider it unexpedient for them in their Capacity of Court of Wards to interfere with the management of this property they therefore request the sanction of Government for registering it in the name of Valoogalee Comara Yachum Naidoo the young Zemindar, and for continuing him in undisturbed possession of the Zemindary

Jan. Cons. 13th Jany 1848

Sir,

With reference to the correspondence noted in the margin I am directed by the Board of Revenue to submit, for the consideration and orders of the Most Noble the Governor in Council the accompanying letter from the Collector of Cuddapah dated 27th September last reporting the demise on the 10th June 1847 of Chinna Ramuchummah to whom a pension of Rupees 2/6-1-8 per mensem being 6/16th share of the allowance originally granted, to the family of the Chitwail Polygars, was continued under the orders of the Supreme Government dated 28th April 1845.

explained, on the correspondence quoted above. It will be observed that she has left an only daughter, aged 28 years, who is married to one Terovangadatharaze, the Nephew / Sisters son / of the late Polygar Venkatagavarayer Seringalanatharaze is reported to have separate share of the allowance granted for the support of the family, and Mr Cochrane consequently recommends that the pension of the deceased be continued from the date of her death in the name of her son.

3. It is observed that the last incumbent did not succeed to the allowance enjoyed by her, but that it was conferred upon her under peculiar circumstances, the Board are therefore not unanimous in thinking that this is a case in which the pension might be properly reduced on its continuance, and as the Collector has recommended its continuance in full we respectfully solicit the orders of Government on this point.

4. The Board observe that Mr Cochrane has not submitted his report on this case in the prescribed form. As his letter however contains all the information which is required they do not deemed it necessary to return it but they will desire him in future to report all cases in the prescribed form.

Para 1. I have the honor to forward for submission to the Court of Wards the accompanying Statements shewing the Cultivation Beriz Collections and Charges of the Shrotriem of Ootcaud for Fusly 1256 from which it will be seen that the result of the settlement of that year has been an increase above that of the preceding Fusly of Rupees 1831-14-4 or 77 per cent.

2 This result has arisen from an extended cultivation of the lands in which there was an increase of 104 Candies notwithstanding the damage done to the Tanks by the gales in October and November and which was immediately repaired, the season having been generally favorable. The amount of remissions granted was also much less than in the preceding year and consisted of ordinary items, which

which require no particular remarks.

The net settlement amounted to Rupees 4219-13-11 as per the multabs of which has been collected.

3 The usual Sibbundy charges for maintenance of the Irrigation Wks amounted to Rupees 618-0-0 and the expense of repairs to the Tanks including the emergent work executed on the occurrence of the gales to Rupees 397-9-0 Adding to these the Peishcush of 1750 Rupees the total amount of charges comes to Rupees 2795-9-0 which being deducted from the gross Basis the profit for the year under review is Rupees 1424-4-11 as per which together with the balance of Fusly 1255 being Rupees 898-6-7 leaves a surplus at the close of

45-46 Proceedings thereon.

Relative to the management of the Extra Sources of Revenue in the Salem Dist: for Fusly 1256 of the Ship: Trustees of Act: 4 in the Chingleput districts under charge of the Court of Wards.

1 The Court observe that the anticipations expressed in their review of the Settlement of the Fusly 1255 have been realized by the favorable returns for Fusly 1256 there being a Net increase Shewn for Fusly 1256 of Rupees 2387-15-7 while that of the comparative Settlement amounting to 77% of the Settlement of Fusly 1255 / 1845/46 amounted to Rupees 4219-13-11 or Rupees 1831-14-4 above the preceding year. This increase is stated to have arisen owing to extended Cultivation. The demand on the wet lands in the present year the above Net Cultivation Fusly 1256-672-12½ Cawn as under Fusly 1255-660-8¼ Shewn - 11-4¼ that in the preceding exhibits a decrease as compared with the Fusly 1254, as marginally noted. There is also a trifling increase in the extent of garden Cultivation while a decrease of 1-1½ Pgs as is observed in the amount - Shewn to have been satisfactory if these differences had been explained.

3 The amount of remission was also much less than in the preceding year and consisted of ordinary items - But as it appears Remission 1254-207-5-3 1256-319-9-8 112-4-5 that they exceeded the amount remitted in Fusly 1254 in the sum of Rupees 112-4-5 they should have been particularized - The Collector will be pleased to afford the necessary explanations on future occasions.

4 After deducting all the expenses of

of Current Fusly Charges of Management Maintenance of Minor Vc. inclusive of Rx 397-9-- disbursed for the Repairs of Tanks which the Court resolve to sanction, there remained at the close of the Fusly a surplus including the balance of Fusly 1255 of Rupees 2322-11-6 in favor of the Estate - Of this sum the Collector proposes to invest 2000 Rupees in Government securities reserving the remainder for the expenses of the current Fusly

5 The Collector will be pleased to furnish with the ensuing settlement accounts a separate Statement exhibiting the total ayacut and cultivation of each description of wet and dry land with the rates of Assessment and instead of State- ment marked B three separate accounts should be submitted in the form obtaining in other Inam Estates.

Abkarry Decrease 1265

2 The decrease under this head is attributed by the Collector to diminished Competition among the bidders for the Rent owing to the losses sustained in the preceding year from the adverse circumstances of the season. The falling off in the Demand however was somewhat reduced from the realization of the arrears outstanding at the close of Fasly 1255 the total Gross Collections amounted to 1255 = 8 7 8 9 2 6 = 5 Rupees 77,295 — 10 — 5 and fell below those of the preceding year by Rupees 1059 — 12 which sum also constituted in the absence of any charges the net decrease in the Revenue of the Abkarry Branch of the Excha Source.

Small Farms and Licenses. Decrease - 497 = 11 = 4

3 . The decrease entered in the above Statement under this head resulted from an Increase

Net Revenue-
1255 = 7 8 0 5 = 0 = 8
1256 = 8 4 4 9 = 8 = 3
644 — 2 = 7.

Increase of Rupees 1893 — 5. Caused almost entirely by the rent of the Sandalwood Commencing from the year under review, and from a total decrease of Rupees 2391 — " — 4 from other items the particulars of which are detailed in the Report.

4 The total collections realized within the year, which were enhanced by the balance of the Fasly year being brought to account exceeded the Gross receipts of Fasly 1255 by Rupees 644 = 2 = 7 which was also the Net increase from the absence of any deductions on account of charges. The Board express a hope that the balance of current Demand remaining uncollected at the date of the Report will be realized as soon as practicable.

Motursphia Decrease 12631 = 7 = 2

Motursphia. Decrease 5284 = 7 = 7

5 The decrease entered in the Abstract Statement under this head arose from a falling off in the receipts from the Ann Motursphia — from causes which are fully explained in the Report and from a still larger deficiency from the Loom Tax caused by the death, emigration or poverty of parties liable to this demand —

Loom tax Decrease 7346 = 15 = 7
12631 = 7 = 2

6 At the close of the Fasly there was an outstanding current balance of Rupees 8373 = 15 = " which was subsequently reduced to the end of August to 6246 = 7 = 9 great part of which the Collector states to be withheld "from contumacy" on the part of the defaulters and not

From

from inability to pay. Should the recoverable amount not be cultivated as expected the Board will be glad to receive the proposed report on the balance that may remain after due exertion have been resorted to for the liquidation of the Demand.

7 The Gross collections made within the Fusly were Rupees 76923-14-3 which included a large amount of old balance, exclusive of which the collector states that of the arrear still due for past year viz^t Rupees 2129-12-0 the greater portion is capable of ultimate realization but that the remainder amounting to Rupees 9767-2 is totally irrecoverable from the decrease and reduced condition of the defaulters. The Board therefore beg to recommend as requested by the Collector the remission of this amount.

8 The charges incidental to the Mutarpha reduced the Net Revenue to Rupees 66171-9-9 which exceeded the Net Revenue of Fusly 1255 by Rupees 8490-14-0.

9 The Stamp revenue after deducting Charges stood at Rupees 2297-0-9 in excess of the collections from this source in the preceding year.

10 Under the head of Sayer a small entry of Rupees 321-12 has been entered being the net proceeds realized by the Sale of certain old Sayer Chowltries sold by Public auction.

within the Fusly under consideration the amount was Rs 17,2990-9-5 exhibiting a decrease compared with Fusly 1255 of Rupees 3984-2-6 but owing to the diminished expenditure under the head of Charges the Net Revenue from the several items comparing the Exha sources in the district stood at Rs 16212-2-11 and exceeded the Net Revenue of 1255 which was 16,955-1-7 in the sum of Rupees 1157-1-4

12 Adverting to the observations of Government quoted in the Concluding para of the report in regard to certain items of Mutarpha the circumstances relating to which it was directed should be noticed in the present report and also to the Remarks of the Collector on the subject the Board observe that they have not deemed it desirable to modify in detail any particular item of Mutarpha receipts as the whole question connected will more properly come under consideration in the general review of this source of revenue now in progress.

Ordered that a copy of the foregoing Extract from the Boards Proceedings with the annexed Comparative statement of the Collections Charges and Net Revenue be submitted to Government and a transcript of the same be forwarded to the Collector of Salem for his information and guidance.

To D. White Esqre
Acting Secretary to the
Board of Revenue.
Fort St. George.

Sir,

With reference to your predeces-
sor's letter of the 6th April 1846, as also the
endorsement of the Board of Revenue on ca
Petition No. 269 of 1847 herewith returned, I have
the honor to state that, on a further enquiry
made respecting the family of the late ca
Jagheredars of Reshevendum, I find that, of
the total number of the 204, Souls, which
compose the
four branches
of the family,
70 individuals
are now found
not dependant for
support on the
bounty of Govern-
ment as shewn
in the Margin, which
reduces the number
to 134, of whom 25
are stated to be
destitute of all means of support and 109 ca
individuals

From the Collr of South Arcot

Returning Petition No. 269 of 1847 from Meer Imadally Shaw Son of the late Meer Ghoolam Hoossain Khan Jaghiredar of Reshevendum, with reference to Board's letter of 6th April 1846 reporting thereon & recommending the same to the favorable consideration of the Board.

Number of individuals shewn in the list sent to the Board 6th March 1846	204	
Number of individuals since died	2	
Number of Ds erroneously twice entered in the former list	5	
Number of Ds who have other means for subsistence	27	
Number of Ds left the Village and subsist by seeking charitable gifts in other quarters	36	
	70	
Nett individuals	134	

individuals possess some land under cultivation in the resumed Jaghire Villages, the Estimated annual value of which is Rupees 399—11—0. The heads of the family state that they being descendants of a respectable Jaghiredar, they are obliged to make over the lands for cultivation to other Ryots, and that the whole of the lands being resumed by Government they can hardly obtain any profit from such cultivation for their support, which circumstance appears worthy of consideration.

2 The Board stated that I should understand that any relief proposed to be granted should be confined within the narrowest limit, and should be restricted to such parties only who are bonafide objects of the charity. This seems to be the case with the whole family, I am unable to state exactly the limit of the sums to be given consistently with the liberal intentions of Government and the comfort of the Jaghiredars' family, However from the enclosed Statement drawn out by me, it will be seen that the deductions made from the sums formerly proposed

proposed are account of 70 individuals not requiring support, as well as the amount of annual value of Cultivation of the land, reduce the amount to Rupees 651—1—10 a sum hardly sufficient to find bare subsistence to the numerous members of the family and should the Board concur, I think 1050 Rupees may be given, but it remains with them to decide what sum may be allotted on due consideration of all the circumstances connected with their case.

Sum formerly proposed	1600—0—0	
Deduct portion of 70 individuals	549—3—2	
	1050—12—10	
Do. Value of cultivation	399—11—0	
Net Rupees	651—1—10

From Collr 25th Novr 1847. Reshvendum in his District.-
in Cons 13th January — 1848.- This Jaghire appears to have
been originally conferred in A.D. 1775 on one
Shere Andaz Khan "as a mean of main-
tenance and mark of favor," and
to have continued in possession of
the family until the country was
assumed by the British Government. In 1804,
it was renewed by the Governor in Council
of Fort St. George under a Sunnud
bearing

bearing date the 9th November of that year as a life grant, in the names of Meer Villayet Khan, Meer Groolam Hussen and Meer Ghoolam Hussein.- These parties having since died, the estate has, agreeably to the terms of the grant been resumed, and incorporated with the ayen lands of the district.-

3. In reporting the death of the last Sagheirdar, which occurred on the 4th November 1845 Mr. Davis brought to the notice of the Board the distressed circumstances of the family, and recommended that a pension of not less then 1600 Rupees per annum should be conferred upon them for their support:- The Board however considered this sum too high, as it was nearly equal to the revenues of the Saghire, which were shewn to have averaged Rupees 1639-0-10 for the 5 years preceding:- they accordingly requested him to ascertain whether

whether there were any Members of the family who by reason of age, infirmity, or other causes were unable to maintain themselves, and were totally destitute, and to bring such cases, with the necessary explanation, to the notice of the Board who would submit them for the favorable consideration of Government.

4. In reply, Mr. Davis states that the family consists of 134 persons, 25 of whom are destitute of all means of support, and the remaining 109 posses lands the estimated value of which is Rupees 399-11-0- per annum, but as these individuals cannot cultivate their own lands, and are obliged to make them over to other Ryots, he states that they scarcely derive any benefit from them. he therefore thinks that the whole family may be considered objects of charity, and suggests that the reduced sum of Rupees 1050-12-10- per annum be granted to them.

5. Under the further explanation of

Fort St. George 13th January 1848.-

of the Collector the Board beg to support his recommendation that the sum of Rupees 1050-12-10 per annum be continued in the names of the representatives of the four branches of the family, in proportion to the number of souls dependant upon each, with the distinct understanding that the provision is for life. In the mean time the Collector will be instructed to impress upon the other Members of the family, the necessity of exerting themselves in finding means to earn their own livelihood, as they cannot expect any further assistance from the Government.

6. Should the Board's recommendation be approved they would suggest that the proposed allowance be distributed as follows.-

Sir

Para 1.— I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of the 18th November accompanied by Extract from the Minutes of Consultation under date the 23d October 47 calling for certain information relative to the Salt Revenue.—

No. 1.— 2. The enclosed Statement shows the balance of Salt at the commencement of each year from 1251 to 1256, the quantity stored and sold, and the financial results as required by the Extract under reply.—

3. It will be observed that the Salt sales during the last six years have steadily advanced both for Home and Inland Consumption as exhibited in Statement No. 2. submitted for reference, the form forwarded by the Board containing the total quantity only sold,

No. 2. 4. It will be remarked in

in 1253 and 1254, tho' the amount realized on the sales of salt is greater than that of the preceding two Fuslies the quantity sold is less, attributable to the sudden rise in the price of 60 Rupees per Garce, which was in operation during a part of these Fuslies. The subsequent fuslies 1255 and 1256 exhibit very satisfactory results A marked improvement will be observed also in the sales for inland Consumption which may in a great measure be attribut= =ed, I am inclined to think to a stricter Supervision over the Poodoocottah Territory from whence formerly large quantities of earth salt were conveyed mixed = with the Sea Salt purchased from the adjacent pans. This traffic still exists and will, to a certain extent con= =tinue so long as the free manufacture of earth salt is allowed in the Tonda= =man's Country, as it is next to impos= =sible to guard so large a boundary line, the nature of the country also adding to the facility of Smuggling being both = jungly and thinly inhabited. The late capture of a large quantity of earth salt in the Madura District will doubtless have

have a very beneficial effect, more par= =ticularly if the sellers be discovered and punished. A strict surveillance kept over the manufacturers will strike at the root of the trade, and is the only effectual check which can be applied for its prevention.-

5. The sales for Home Consump= =tion in Tanjore are as elsewhere affected by the Seasons, a larger quantity being consumed when the ryots profits are increased, both in his usual house= =hold expenditure and in the celebra= =tion of Marriages and festivals, which notoriously take place in greater numbers when a bountiful season has blessed the labors of the cultivating class and Meerasidars who form so large a portion of the Tanjore popula= =tion.-

6. As regards the "operation "of the tax on the population generally" of this District, my opinion is that it is not severely felt in Tanjore except by the very poorest of the poor.- The cry which is up in England regarding the hardships endured by the people

under

Fort St. George 13th January 1848.-

under the Monopoly price cetainly in sea Coast Districts, is of no great weight, the revenue from salt is one easily realized and with very few exceptions I have hardly ever heard it objected to by Natives of the Country tho the remarks probably will not be applicable to inland Districts where the price of salt must be considerably increased to cover the charges of carriage &c. and being a necessary of life those unable to afford the cost of sea salt must be driven to the cheaper and less wholesome manufacture from the salt earth.- It would be scarcely possible to ensure salt purchased for inland sale being entirely consumed inland, if such could be done a reduction of the wholesale price at the pans would benefit the inland consumers and by increased Sales the Government would not be great losers. One method of protecting the Government from loss by inland salt purchased at a cheaper rate being sold in the Home market to the detriment of the salt revenue, would be to charge the

Fort St. George 13th January 1848.-

the wholesale purchasers the usual rate at the pans, allowing them a certain drawback on the presentation of their rowannahs to the authorities of the District to which it was consigned or that in which they purposed the disposal of their salt. I have mentioned this suggestion as one method of relieving the inland consumers without the risk of curtailing the receipts in the Home sales, tho the plan is open to objections in as much as the trader must necessarily be much interfered with in ascertaining whether the quantity of salt on which drawback is claimed corresponds with that entered in his rowannah.-

7. In support of my opinion that the present price is not an oppressive one to the people generally in this District I have appended a Memo: shewing the average quantity and cost of salt consumed per head in Fusly 1256 calculating the population at 1,200,000 tho this is within the mark and a considerable quantity of the salt consumed must have been purchased by travellers and strangers, so that the average on the

quantity

quantity consumed by the people of the District would give about 7 Annas a head per annum

+ selling price Rs. 165. 10. 7 Pr. Garce.

+ including children. No greater item of expenditure to by far the larger portion of the inhabitants of Tanjore, tho' as before remarked the very poor man may be pinched in procuring a sufficient quantity for the consumption of his family.-

Acting Secretary to the
Board of Revenue
Fort St. George

Sir,

60

From the Collr. of Madras } I have the honor to bring to the notice of the Board of Revenue the death of Syed Abdool Cauder, the Yeomiadar whose name occurs in entry No. 72 of the Register furnished to this Office in their Secretary's letter dated 25th January 1813. as that individual alone, under the Authority vested in him by the Purwannah, drew the whole amount of the allowance up to the period of his demise. I now submit, for orders a Statement in the prescribed form, shewing the particulars of the case of his Mother and Sister, Badee Beebee, and Fatmah Beebee, who have applied to me for the continuance of their shares together with the Purwannah in question, on which their claim is founded, and a translation thereof.-

Members of the family of the late Syed Abdul Cauder and who have

from the Board of Revenue dated 3d September 1846.-

Case.	Recommendation and grounds thereof.-	Further Remarks.
12	It appears by the Register forwarded to this Office by the Board of Revenue on the 25th January 1813 that Syed Abdool Cauder & co No. 72 were entitled to an annual allowance of Pagodas 50-25-52- but Syed Abdul Cauder alone received the Yeomiah upto 11th April 1844 and died on the 13th June following- The Original Purwanah in Persian which is submitted herewith accompanied by a translation shews that the Yeomiah was granted for the support of the said Syed Abdal Cauder, Badee Beebee and Fautmah Beebee for life- as there is not any description Yeomiahdars Viz. Syed Amen aged 66 years (whose allowance was also transferred in 1813 with those of the Applicants) as No. 3 in the Register referred to above) and Abdal Cauder aged 59 years whose allowance is paid by order of the Board dated 11th November 1806 have stated in writing on the 23d November 1847 that they have known the Applicants for the last 30 Years that they are respectively the Mother and Sister of the deceased Syed Abdul Cauder, with whom they lived and from whose Yeomiah they derived their support, and that they agree to forfeit their own allowances in the event of their Statement being found to be incorrect- Under these circumstances, it would appear that the claim preferred by the Applicants is entitled to favorable consideration- The Collector would accordingly beg leave to recommend that Badee Beebee and Fautmah Beebee be allowed to draw one third of the original Allowance, or Rupees 58-15-11- each per Annum from the date of the death of Syed Abdul Cauder Viz. 13th June 1844.-	13

To enable the Board to submit the foregoing letter, and the papers which accompany it, for the orders of Government, they request the Collector will make further enquiries respecting the two claimants referred to. Persons of this description are not usually Goshaa Women, it may therefore be easily ascertained whether their appearance corresponds with their ages, which are stated to be 93 and 72 years respectively. Some further evidence is also necessary as to whether they are the relations of the last Ycomiahdar, and the identical parties named in the Purwannah.-

2. Mr. Hudleston will at the same time explain the cause of the delay which

Read Endorsement from the Collector of Guntoor dated 8th ult. No 1095 of 1847 complaining of the order of the Collector in transferring to the Zemindar certain Enam land enjoyed by the ancestors of Petitioners.

Under the circumstances

stated in the foregoing report the Board of Revenue approve of the course recommended by the Collector Viz. to continue the Petitioner in the possession of the Enam land in consideration of the purchase and long enjoyment of it by that individual, but as both by Regulation and usage such grants are inalienable from the objects for which they were originally conferred, the question should again be brought under consideration on the death of the present holder and it can then be determined whether the land should be resumed to the Official management of the Reddy's Office or shall be fully assessed to the Revenue.

Fort St George the 17th December 1847.

Sir,

Having obtained your permission to send to you in an official form my application for an advance, I have to beg that you will do me the favor to submit to Government my request that an advance of Rupees 30,000. being Six Months allowance may be authorized. So that I may be enabled

enabled to remit a sum of Money for my Brothers maintenance at Benares, and have sufficient funds to defray my travelling expences to Vizianagram. This advance can be adjusted with Mr Smollett who has in his Treasury a larger balance at my credit.

In making this request I would beg to be permitted to explain that I arrived at Calcutta in September last and obtained from the Collector of Vizagapatam through the Accountant General Rupees 12,000. Of this sum I paid to the boatmen who brought me from Benares on account Rupees 3500. and Rupees 4000 to my servants being a Months salary including Bazar expenses viz. The purchase of two horses a Poney and a few other necessaries exhausted the balance and I have been since the end of October without funds.

The Mahajuns of the Bazar promised to lend me the sum I required, but owing to the state of the Money market they find themselves now unable to do so. Having spent a much longer time in Calcutta than I anticipated or wished and being apprehensive that Government may conclude I am

Fort St. George, 17th January 1848.

With the Minutes of Consultation above recorded are forwarded an Extract from the Proceedings of the Board of Revenue under date the 29th July 1847 from the Collector of Madura and a letter from dated the 10th July 1847 in which is referred the question "whether the complaint of Ryots on Zemindaries in possession of their owners against Village Officers for levying an Extra cess can be examined by a Collector under Regulation IX of 1822."

The Court of Sudder Udalut

2. are of opinion that Collectors cannot under Regulation IX of 1822 take cognizance of the complaints of Ryots of Zemindaries in possession of their owners against Village Officers.

The Regulation in question

3. includes only those persons who may be charged

cies discovered in the Immanabundy accounts prepared and presented by him for some years that not having had in his possession the Accounts of former years he had compiled these Accounts from others prepared by another man who was the 3d Curnum of this Village since deceased but that himself had been guilty of no fault at all

3. The Return submitted to the Board under Regulation IX of 1822 for November 1847 contains a succinct account of the Offence with which the Petitioner was charged & the punishment inflicted on him- in elucidation of which however I beg to explain that in the Goodewadah Talook a system of receiving a per Centage at a certain rate per Candy of produce yielded in the Enam lands had been established in Fusly 1234 as will appear on reference to a letter from the Collector of this District to the Board of Revenue, that in the Petitioner's Village in which he was used to conduct the Curnum duties on behalf of his father there are Enam lands of the kind alluded to that in the Immanabundy Accounts of Fusslies 1247—48—49, some of which bear the signature of the Petitioner the rate of per Centage was found to have been entered

Mr. Grant's letter dated 16th March 1840.

entered different from that formerly established and the calculation made accordingly which in others altho the rate was correctly exhibited yet the amount was calculated wrong thus in some cases the Circar and in others the Enamdars sustained loss to a certain extent.

The same inaccuracies likewise appeared to have prevailed during the whole period in which the Estate had been under the Zemindar's management as well as under the Renters that is to say from fasly 1241 to 1246 The Petitioner pleads that he committed no offence and that he furnished accounts precisely such as those given by the 3d. Curnum. The accounts however were undoubtedly incorrect and the plea set up by the Petitioner could not be admitted as he had rendered himself responsible for their accuracy by signing and presenting them as substitute for his Father who held the responsible office of the Village Curnum. Moreover, he had himself confessed to having performed the Curnum's duties of this Village prior to the year for which the incorrect Accounts had been made out.

The

4. The Accounts given by the Petitioner contain many more discrepancies than those contained in the Accounts alleged by him to have been prepared by the 3d. Curnum but no proof was adduced as to the misappropriation of money in question by the Petitioner and the amount of the items thus increased in the accounts in favor of the Circar was duly included in the Circar Demand so that the only crime imputed to the Petitioner appears to have been the presentation of accounts containing incorrect entries which might entail loss both on the Circar and the Enamdars.

5. The offence in question was considered of the nature of those entered in Class 4 clause II Section II Regulation IX of 1822 and this individual was arraigned under Class 2d. Clause III of this Section and Regulation Mr. Ward the late Head Assistant Collector under whose immediate control the management of the Goodewadah Talook was then placed, sentenced the Petitioner under Clause 4 Section 5 of the aforesaid Regulation to pay a fine of 30 Rupees and in default of payment to be imprisoned for a period of 6 Months

months. The Petitioner in the first instance de-
=clained to pay the fine and was kept in im=
=prisonment for sometime, and after a certain
perrod paid the fine and got released from
the confinement. The late Head Assistant
Collector considered that the individual
after being convicted of the misdemeanour
in the aforesaid manner was not a
person who could be trusted to conduct the
duties of the Cummis Office and some other
Members of the same family have since been
employed to conduct the duties of that Office.

From the Collr. of Salem.

Requests sanction to give effect to Plaintiffs claim in Suit No. 15 of 1846 certain Geddaigaval lands, and to recover from them the Arrears of Baiz from Fasly 1246 to 1255.-

Sir,

I have the honor to state for the information of the Board, that with reference to Para 3 of their Proceedings dated the 15th of July 1847 I intimated to the Plaintiffs in Suit No. 15 of 1846 on the file of the Subordinate Court of Salem, that authority will be obtained to restore the Geddoogaval lands which they claim if the Suit be withdrawn, the Plaintiffs agreed to do so in the event of the Giddoogaval lands together with the Baiz collected on them by the Circar being given up to them - An original deposition taken from them to this effect is herewith submitted.-

2. Of Acres 218—26—14 mentioned in their deposition, Acres 45—00—7, the Board state in the 6th Para of their Proceedings quoted above are entered as Poramboke to which according to the Decree passed by Mr. Ashfere in 1807 they can have no title, I do not think that the decision of Mr. Ashfere is applicable

applicable to the land in question, the whole extent entered under the 3d head of the Schedule as cor Aunady tarisoo belonging to the Village of Swaily in the Mootah of Sankerry droog was Acres 839- 22- 8, of which Acres 610—27—14- are in the enjoy= ment of the Mootahdars, and the remaining Acres 228—34—10 was taken to the Circar by Mr. Hargrave in Fusly 1217, but when measured in Fusly 1243 by the orders of Mr. Orr was found to consist only of Acres 218—26—14 when the term Porumbok was applied in the accounts to a portion of this land consisting of Acres 45—a—7 which was proved unfit for cultivation. This portion Acres 45—a—7 was not at the time of Survey entered as Porumbok, consequently the Plaintiffs have a legal claim to the whole extent Acres 218— 26—14—

Fit for Cultivation 173-26-7-
Unfit for Cultivation 45-a-7-
218-26-14-

3- The whole of the extent noted in the margin as fit for cultivation was not brought under cultivation. In Fusly 1255, Acres 154—37—7 were cultivated, and the remaining Acres 18—29— left waste. Statement No. 3 forwarded with my letter of the 23d June last will exhibit the particulars of this Cultivation.

4- If the land lie put in possession of the Plaintiffs without refunding the past

past Collections it will form a subject for a fresh Suit and they will not I think be inclined to withdraw this Suit to avoid future litigation, I solicit the sanction of the Board and Government to refund the Collections made on the lands in question- The amount of Collections, made as shewn in the 30th Para of my letter dated the 23d June last is Rupees 1901—10. 2. Of this sum, Rupees 364—5—11 should be paid to the heirs of the previous Mootahdars Streerung achary &ca in whose enjoyment the Mootah was for four years from Fusly 1217 to Fusly 1220, should they prefer any claim, and the remainder Rupees 1537—4—3 to the Plaintiffs, being the Collections of 20 years during which the Mootah was in the possession of the 2d Plaintiff, his father, and the 1st Plaintiff after it was subdivided as follows-

	Rs. A. P.
From Fusly 1221 to Fusly 1229 — 9 years	747—1—2.
For Fusly 1242	62—4—9.
From Fusly 1246 to Fusly 1255 — 10 years	727—14—4.
	1537—4—3.

For

Fort St. George 17th January 1848.

5-

The Plaintiffs are not entitled to the Baiz of Rupees 966-13-3 collected during the period in which the Mootah was under the management of the Court of Wards and under Sumany Vizt.

From Fusly 1230 to Fusly 1241 inclusive under the management of the Court of Wards	}	12 years
From Fusly 1243 to 1245 inclusive under Sumany	}	3
		15

6-

The Plaintiffs request in their deposition that the Collection of Fusly 1256 should also be refunded to them, the exact amount of Collection of the Geddooyaul for the said year is not known yet, but as they are entitled to this amount, I think it should be paid to them.

When the Mootah of Sankerydrooy was in Fusly 1246 subdivided into three Estates, and the Peishcush fixed upon the Collections of the preceding Seven years, the Baiz of the Geddooyaul lands was not taken into consideration, as the Board observe in the 6th Para, owing to the lands being in the possession of the Circar,

Fort St. George 17th January 1848.

Circar consequently there is a decrease of Rupees 52-7-0- in the amount of Baiz payable by the Sankerydrooy Estate, and an increase in 2 others - As the Plaintiffs now agree to pay this difference (Rupees 527-0-0) the Baiz of 2 Estates should be altered as follows-

Present Baiz of the Sankerydrooy Estate is	3481-6-10-
Add	52-7-0-
	3533-13-10-
Do. Baiz of Collaveradum putty Estate is	1737-12-6-
Deduct	11-4-9-
	1726-7-9-

As the Estate of Cumacpooram is under Sumany management a reduction of Rupees 41-2-3 in the amount of its present Baiz is not necessary; Vide Statement No. 2 forwarded with my letter quoted above.

8-

When the above alteration takes place the arrears of Baiz which at Rupees 52-7-0- per Annum from Fusly 1246 to Fusly 1255 for 10 years amounts to Rupees 524-6-0- should be recovered from the Mootahdars of Sankerydrooy, from which sum Rupees 112-15-6 being the amount of over Collection made for 10 years from the

Proprietor

Fort St. George 17th January 1848.

Proprietor of the Cattavaradumpully Estate at Rupees 11-4-9 per annum should be refunded to him; of the remaining Rupees 411-6-6, Rupees 41-2-3 should be refunded to the former proprietor of the sub-lauded Estate of Curmapoorum for one year, in the event of his preferring any claim. Vide Statement No. 1 forwarded with my letter quoted above.

9. I therefore solicit the sanction of the Board and Government, to give up the whole extent of the Geddoog and lands consisting of Acres 218-26 to the Plaintiff, and also to refund the amount of the past collection Rupees 1537-4-3, and recover from them at the same time the arrears shewn in the preceding Para amounting to Rupees 524-6-11

Sir,

I am directed by the Board of Revenue to request you will submit for the information and orders of the Most Noble the Governor in Council the accompanying correspondence with the Collector of Salem on the subject of a Suit filed against him in the Subordinate Court at that Station by the Joint Proprietors of the Sen Kerry droog Moatah.—

2. From these papers it will be observed that the action preferred by the Plaintiffs has for its object the recovery of certain Giddacawel lands now in the possession of Government, but forming a portion of the Ayacut of the Anady Bunjer / immemorial waste / lands of certain Villages appertaining to their Moatah.— The nature of these Giddacawel lands has been explained by the Board in their letters of the dates noted in the Margin, and it will be perceived that the case of the Plaintiffs is exactly analogous to that of

of the Mootahdars of Vaticoorchey and Sandaima-
-ning alum reported in the communications referred
to. It appears that the lands at present claimed by
the Plaintiffs, measuring in extent Acres 218-26-11.
as ascertained by a measurement made in Fusly
1243, and assessed at Rupees 166-2-11. were resumed
so far back as Fusly 1217/1807/8 by Mr. Hargrave in
common with certain Porumpoke lands. They are
stated to be entered in the Ayacut accounts of
Fusly 1211/1801/2, and to be moreover comprehended among
the lands under Column 3 of the Sale Schedule of
-tion of Mootahs. Both the Collector, and his Sub
Collector, in whose Divisions the Mootah is situ-
-ated, have given it as their opinion that the right
of the Plaintiffs to the lands to which they lay
claim is indisputable, as being founded on the
principle recognized by Government in 1835 in
respect to these Giddacannel lands, Viz.t, their
inclusion in the sale schedule, which was
intended to exhibit the actual extent of the
lands comprised in the respective Mootahs, and
to be conveyed to the purchasers. and they have
accordingly recommended that the Suit may be compromised.

Fort St. George 17th January 1848.

In Con.n 15th July 1847.

Under the circumstances of the case the claim
of the Plaintiffs appeared likewise to the
Board incontrovertible, and coinciding in
opinion with the Collector, they desired him
in their Proceedings of the 15th July last to
place himself in communication with the parties
with a view to effect the suggested compromise;
at the same time, they pointed out to him
that of the A 218 26 11 sought to be recovered
by the Plaintiffs, they can have no title,
according to the Decree passed by Mr.
Sullivan in 1807, to that portion (A 45-7)
entered as Porumbokke in Enc.e 41, which
accompanied the Collectors letter of the 23d
June 1847. They further drew his attention
to the existence of an error in the Sub-
Division Accounts of the Sunkerry Droog
Mootah by which the Peishcush fixed on
the Plaintiffs division of the Estate in
Fusly 1246 was Rupees 52-7 — less
than the amount properly chargeable
to them in consequence of the Giddacannel
lands now claimed having been excluded
from the Assets on which the demand
was apportioned. From the counter-
claims which could thus be urged against
the Plaintiffs, the Board had hoped that they
would be content to receive the lands for the recovery

of which alone the Suit was instituted, and would renounce their title to the Collections made thereon by the Government Officers from the time of their resumption. But from Mr. Lockhart's letter last received, it will be perceived that the Plaintiffs insist on the restitution of both the lands and the sums collected therefrom. It will, however, be seen that in consequence of a large balance of Rupees 30307 8–10 having been remitted by Government whilst the Plaintiffs Mootah was under the Management of the Court of Wards during the Minority of the 2d. Plaintiff, the parties have agreed to forego so much of the gross amount of the Collections as was brought to account during that period, as also to make good the deficit of Rupees 52–7–11 in their Peishcush above adverted to which for the 10 years from Fusly 1246 to Fusly 1255 amounts to Rupees 524–6–11. After deducting these items from the gross collections made during the entire period from Fusly 1217 when the lands were resumed to

to Fusly 1253 the residue which has to be refunded; ed amounts to Rupees 1377 4 2 as indicated in the margin. It appears that of this sum again, Rupees 364-5-11 is liable to be refunded in the event of her preferring a claim to it to the heirs of the former proprietors of the Mootah who held possession from Fusly 1217 to Fusly 1220 thus reducing the amount to be disbursed to the Plaintiffs to Rupees 1012–14–3.

3. As regards that portion (Rs 1.5——7) of the entire extent of the Giddacauvel lands claimed, to which, as being Poramboke, the Board disallowed the Plaintiffs right, Mr. Lockhart explains that the portion

in

in question is not Pommbeike, and was not so entered at the time of the Survey, but that the term having been subsequently applied to it in Fusly 1243 when it was found to be unfit for cultivation, the Plaintiffs have a legal claim to the whole extent.

4. Under the foregoing circumstances, the Board deem it advisable that the whole extent of the Giddacauvel lands consisting of Acres 218-26-14 should be given up to the Plaintiffs, as also the amount of the collections, Rupees 1012-14-3, to which they are entitled as shewn in the concluding portion of this letter, and they beg accordingly to recommend that the Collector may receive authority for this purpose. It will be seen that the restoration of these lands will subject the Plaintiffs to the payment of their present Peishcush, increased by Rupees 52-7-" or Rupees 38'33+-13-10, whilst a corresponding reduction will have to be made in the demand on the two other subdivided Estates Cottavardumputty and Cirmapoorum as shewn in para 7 of the Collectors letter; but as the latter

Estate has since become the property of Government, the alterations will not affect it. These several adjustments will be made in the Accounts, and the Board request that the above arrangements may be allowed to have effect from the commencement of the past Fusly 1256.

5. Besides a reduction in their Peishcush the proprietors of the two lattermentioned Estates are entitled to a refund of Rupees 112-15-6 and Rupees 41-2-3 respectively, being the amounts of over collection made from them as explained by the Collector. These sums together with the amount (Rupees 364-5-11) referred to in Para 2 as being liable to be refunded to the former Moatahdars of Cunkerry droog make a total of Rupees 518-7-8. In regard to these disbursements, however, the Board are of opinion that the Collector might apply for sanction, when the parties concerned advance their claims to their respective dues.

Sir,

I have the honor to report for the information of the Board that Sunjeevee ammance the 1st widow of Timmaroya Goudah the late Poligar of Ancoostagherry in whose name the Estate was registered agreeably to the sanction of the Board dated the 9th October 1843 died on the night of the 14th November 1847.-

Fort St. George 17th January 1848.-

Urzee to me and a letter to the Tahsildar of Osoor requesting that the Estate should be registered in the name of Veerummanee the 2d Widow of the Poligar Timmaroya Gouda to whom she delivered over the seal of the Poliaput and all her property. Veeram=manee also submitted an Urzee on the 15th Ultimo requesting that the Estate should be registered in her name and that the usual Peishcush be collected from her, there being no male issue in the family as reported by me to the Board on the 28th September 1843, the succession to the Estate descended to the 1st Widow and after her death to the 2d.-

3d The Tahsildar of Cossoor in whose Talook the Polion is situated proceeded to the Village of Bairyghy where the widow died, and instituted an enquiry and reported the result in his Urzee of the 17th Ultimo submitting 2 Mauzermanahs obtained from those that were present during the illness of the 1st widow Sunjeevee ammance, from which it appears that the Urzee sent by the deceased on the 14th November is genuine; that the 1st and 2d Widows

were living together and jointly conducted the affairs of the Estate; and that the 2d. widow Veeramanee is aged 35 and is competent to conduct the affairs of the Poliem.

The Members of the family of the original Poligar Hempay Goudah who had 5 wives are as hereunder-

1- Pedda Moottaweera=manee 1st. widow.

After the death of the 1st. wife Bupava ammanee, her son Shookya Goudah succeeded to the Estate who afterwards died without any issue leaving 2 widows.

The 2d. wife Venguttamma=nee died without issue.

The 3d. died leaving 2 Sons Sadanally Goudah (1st. Son) and Timmaraya Goudah (2d. Son) The 1st. died leaving a widow and the 2d. died leaving 2 widows.-

The 4th. wife is Surviving but has no issue.

When Timmaraya Goudah succeeded

succeeded to the Estate he supported these Members of the family, but after his death, these widows with the exception of Veerammanee, brought a complaint to me against Sungeevee ammanee in whose name the Estate was registered on account of their support. Summonses were issued to the Vakeels of the respective parties when the disputes were amicably settled among themselves, and each of the widows except Veerammanee, received lands or Villages which produce Rupees 360 per annum for her support. Their complaints were therefore withdrawn, Seven widows are now living separately enjoying their respective portions with exception of Veerammanee who always lived with the deceased Sungeevee ammanee altho' certain Villages were allotted to her also.

6-

Two of the widows Viz. Pedda=mooddooveerammanee 1st. wife of the deceased Shokyagoudah Son by the 1st. wife of Hempay Goudah, and Chickanoodooveerammanee wife of the deceased Suddanally Goudah 1st. Son by the 3d. wife of Hempay Goudah presented an Arzee to me stating; that in the event of the Estate being

being registered in the names of females, it should be entered in their names as they have greater right and claim than the others, being the wives of the eldest Sons, but if the succession to the Estate does not follow with reference to their Seniority, they wish that the Polliem should be taken under the Circar management allowing each of the Members a certain sum for their support. Their plea is untenable because the succession to the Estate in question after the death of Chokya Goudah descended to his younger brother Timmaroya Goudah on whose death it descended to his 1st wife Sunjeevee ammanee, and at her death the management of the Estate devolves on Veeram=manee the 2d wife of Timmaroya Goudah who will allow the other 7 widows to enjoy the Villages now allotted to them for their sup=port as Veerammanee appears to have every right of succession to the Estate and competent to conduct its affairs. I beg to recommend the registry of the Polleput

accompanied it, directing me to give general publicity to the views of the Honorable Court of Directors regarding the cultivation of Wheat and the exemption of the duty leviable under the provisions of Act VI of 1844 on all Shipments of Wheat made to the United Kingdom, I have the honor to state for the information of the Board that agreeably to the above instructions the necessary publicity has been given throughout the District.-

Wheat is generally sown on the Hills in the 4 Talooks of Salem, Namcul, Akloor and Tripatoor in Soil chiefly composed of red earth yet its fertility and moisture admits of its cultivation. The Cultivators of this grain are Malialies and the quantity produced for fusly 1256 on the Hills in the above 4 Talooks amounted to Company's Cundagums* 1046, and odd or Garce 52 Mercalls 132 and Measures 5½ The Bazar price per Garce is Rupees 25-8-0 or Rupees 12-14-0 per Cundagum in the Talooks in which it is produced, but the average rate of the District is Rupees 310-15-0 per Garce or Rupees 15-8-9 per Cundagum.-

There are 2 descriptions of

of Wheat called Potty Codoomby and Savey Codoomby - The Maliales on the Hills above alluded to cultivate only Savey Codoomby - A certain portion of the quantity produced has always been exported to Madras, Trichinopoly and Coimbatore, and the rest consumed in the District. The cultivation of this description of grain being limitted and the Merchants of the localities not being opulent enough to carry on this trade, none appears to have been exported to England up to this time -

4. The cost of conveyance to Madras is calculated as follows -

	Rs.	as.	P.
One Bandy containing 2½ Company's Cundagums at an average price of Rupees 14 per Cundagum is	35	—	—
Bandy hire for 220 Miles from Salem to Madras at 8 annas per 10 Miles	11	—	—
	46	—	—

At this rate the price and hire per Cundagum on reaching Madras exclusive of the profit of the Seller amounts to Rupees 18 -

5 - The publicity now given

may

may perhaps encourage the Merchants to make advances to the Maliales to Cultivate Wheat extensively in order to export it to Madras but considering the expense of the land carriage it is doubtful whether it would turn out a profitable speculation and as far as I can ascertain I do not think it likely that any of the present Settlers on the Shevaroy Hills, unless assisted by some Mercantile firm, are likely to embark in it from not having sufficient capital to stand the risk of loss from injuring during the voyage and the variable prices in the English Markets now that the ports are all open to imports of wheat free of duty -

The accompanying Statement will exhibit the quantity produced for fusly 1256 in each of the above 4 Talooks together with the cost of conveyance to Madras

6. In this District Wheat is sown in the Month of November as a 2d. Crop after Raugy is reaped, and cut in the end of March It does not thrive well when sown on ground on which any other grain except Raugy was previously cultivated as the Raugy stubble serves as manure and the ground immediately after the removal of the Raugy crops is ploughed and sown with Wheat; if that rotation of cropping is not attended to, it does not compensate the cultivator The land for cultivating Wheat requires the retention of moisture and dew consequently the lands on the Hills are preferred to those in the low country but I should think it could be extensively produced in the Talooks of Denkenecottah and Oossoor were encouragement offered -

Returning Petition No. 1146 of 1817 from Bowaghenny Narrain Shetty residing at Chellumbrum with further information required by the Board

Sir,

1. With reference to the Extract from the Proceedings of the Board of Revenue, I have the honor to submit the further information required obtained from the perusal of the papers produced by the Petitioner Narrainsastry.

2 The five Cawnies of Punjee land mentioned in my letter to the Board were, it appears originally given by the Nabob to Government to two persons named Venkatachanny and Vencanachanny as per Copies of two receipts granted them by the late Mr. Wallace, Collector of Trichinopoly under dates 21st & 29th January 1803. The original title deeds having been taken by that Gentleman, the terms as well as the period and by whom the grants were given cannot at present be accurately ascertained One Narasimma channy the Son of the said Venkatachanny after having sold on the 25th September 1814,

these and some other Enam lands to the Petitioner and two others jointly for Pagodas 66 he refused to put them in profession of the property, when the purchasers brought an action for its recovery before the District Moonsiff of Chellumbrum in No. 25 of 1814, who confirmed the sale by a Decree, and delivered over the land to the purchasers. In accordance with this Decree the lands have been since entered in the annual Enam Fernabundy Account in the names of the three purchasers.

On a division of the property made by these three individuals, the said five Cawnies in the Village of Punjee, fell to the lot of the Petitioner, he enjoys the proceeds thereof annually.

the improvement made of late years in the irrigation works in the Talook of Chellum: & from the increase of produce which the Petitioner would obtain affords him no doubt a full compensation.

Total 1288

The aggregate demand on Petitioners lands for Fuslies 1254 & 1255, including Nunjey Poonjey, Bagayet, and is Jopa was 2986 of which 1882, were collected, leaving the above balance of 1107 on Poonjey and Bagayet waste 740 and on Nunjey and Topes 367.

The Poonjey and Bagayet dittum in Petitioners Villages is 144 Valies and 14 Mows, of which he only cultivated 4 Valies and 9 Mows in 1254, and 4 Valies and 16 Mows in 1255, claiming remission on the Remainder which has been disallowed according to the usage hitherto observed in the Oloor, 900 Villages, under which system Petitioners lands are assessed; and hitherto the revenue on Poonjee and Bagayet waste collected, as is customary in the Neerunnbaum Villages, Petitioners Nunjee lands

From the Collector of Madura -

With reference to the Proceedings of the Board of Revenue of the 14th October last, calling for more exact information relative to the cost and profit of the cultivation of cotton, I beg to state that I find it improbable to obtain the accurate details required by the Board at the present time -

2 The Cotton Crop is backward owing to the sowing being impeded by heavy rains, and the harvest will not commence till the middle of February nor finish till May - The result of the several pickings cannot therefore be ascertained by actual observation until the latter period and that to be gained by questioning the

I had prepared a letter therefore to enquire whether Board could wait for the Report until after the Picking season which will close early in May but a further letter from the Board requesting an immediate answer being received as it was about to be despatched, I now beg to forward a Statement containing the result of the best information I could obtain -

conceded as appears by the fact of the Shanars having since enjoyed the lands this year with the consent of Vencata Row as plainly shewn by the Moonsiff and Curnams Depositions. The Head Assistant Magistrate seems not to have been then aware of the provision of the law securing the rights of under Cultivators and therefore very naturally supposed that the owner had a right to give the lands to whom he pleased. Mr Jevings (who tells me this was the case) also informs me that Vencata Row told him on that occasion that the Shanars did not pay him (an additional) proof that they had had the lands, but if this even were the case it is plain that it is not so now, nor is any such plea brought forward or should have attended to. I beg to add that Hook care to secure the Meerasdar Vencata Rows right by ordering that the Shanars should execute Cowles engagements (Muchalgas) to him for the land they hold of him a point considered of great importance by land holders in this District.

3. As regards the precedence of security alluded to by Vencata Row the Village Moonsiff having after his Deposition was

read over to him mentioned verbally that on violent conduct of the said person sent him (the Moonsiff) to the Head Assistant Magistrate in charge of the Taluk with a view after examination of the case to have security to keep the peace taken from him without which it was very doubtful if the peaceable occupation of the lands could be secured to the Shanars even under the Collectors order. Security on 80 Rupees has accordingly been demanded from Vencata Row by Mr Jevings in his Magisterial Capacity under Clause 1 Section V Regulation VI of 1827 which on appeal Shall now confirmed and if the said Goomastah has any cause of complaint against that measure, he should appeal to the Sessions Judge here against it.

4. The case seems one marked by extraordinarily capricious and oppressive conduct by the strange and reckless assertion that the under tenants never had the lands and was contrary to the provisions of the Regulation which characterizes the Government of this country so manifestly to deserve severe censure.

Translation of a Deposition given on the 23d October 1847 by Palavasempillay son of Saundra-Tongumpillay residing in the Village of Maroodacolum in the Mangoonary Talook of the Pallata cauta Shivah sed a Cultivator and aged 30 years -

Q. State what you know regarding the land dispute between the Christian Shanars residing in the said Village and Vencata Row the Meerasidar of that Village -

A. In the Village in question, the Meerasidar Vencata Row possesses 6 shares Ramachariar one share, and Vencatarengachariar another share. Of these 8 shares the nunjah lands are thus devided and occupied separately while the Poonjah and Palmyrahs are under joint enjoyment. The Christian Shanars continue to enjoy the Poonjah and Palmyrahs from a period of 10 years and are also in the habits of cultivating and enjoying the Nunjah lands from 10 years. In the last year Vencata Row on account of the Shanars going over to Christianity, resumed the Poonjah and Nunjah lands which they used to cultivate and rented them to other Ryots who cultivated them - Salvo obtained Poonjah Cultivation thereon on irrevocable tenure (a share of the produce, as agreed on

Fort St. George 17th January 1848

payable to the landlord, who is to pay the Government revenue) The Christian Shanars and Vencata Row entered into a compromise, and thereupon the latter ordered the former to reap the produce of the Poonjah lands cultivated by myself and some of the Poonjah lands cultivated by other Ryots - Accordingly the said Shanars enjoyed them and paid the teeroah and Swamybogum - Subsequently Vencata row gave the Nunjah land to the said Shanars who cultivated it for a 2nd Crop and enjoyed the produce thereof - The aforesaid Christian Shanars have raised cultivation to some extent in the Poonjah lands for fasly 1257, as also have plunged and prepared some Nunjah lands but Vencata row is obstructing them from carrying on the cultivation on the lands prepared by them -

Q. You have heard the Deposition read over to you is it correct -

A. Heard it is correct -

Sir,

Submitting a Plan of the Choultry proposed to be built by Rannier Mudaly & other information as requested in the Board's Proceedings of the 22d Ultimo.

47

With reference to the Proceedings of the Board of Revenue dated the 22d Ultimo I have the honor to submit as therein required a plan of the Choultry proposed to be built by Rannier Revenue Read Javalnemsy and to state that it is the intention of the founder to provide Travellers of all classes with accommodation at his Choultry for Brahmens he thinks of erecting a Stone Mundapum for Sivasoodras a tiled building connected with the same and for the lower Caste a thatched Mussafur Khanah as shewn in the Plan. He also states in his Urzee that he intends to employ a Brahmin a Cavilgar, a Gardener and a sweepingwoman to accommodate the Travellers with firewood and Vegetables and to feed a limited number not exceeding 10

Paradasies

Fort St. George 17th January 1848.

Paradasies persons who may come to the Choultry in the night without any means to feed themselves and that of the Grant which the Board would be pleased to give is found to be less than that required to defray the expences that he proposes to supply the deficiency from his own funds.

Forwarding a Copy of a letter from Messrs Richmond & Co offering remarks on the Deed of Lease for Land at Tennet.-

With reference to your letter of the 27th September last, I have the honor to forward Copy of a letter from Messrs Richmond & Co offering remarks on the Deed of Lease for Land at Tennet.-

The Lease itself was returned to my Office to be kept till Mr Grant / Messrs Richmond & Co Agent in Malabar / returned to Calicut. But Mr Grant informs me that he is unable to come here at present and begs I will open the Deed and if in my power have it altered. I have opened it accordingly, and now forward it in the state in which I found it. It is for the Board to determine how far Mr Richmond's objections can be listened to. They appear to me to be generally reasonable. Those first brought to Notice entirely so.

H. V. Conolly Esqre
Collector of Malabar

Dear Sir,

We are led to address you regarding the Deed of Lease of Land at Terryoot made out in favor of Mr. J. R. Richmond, and Mr. H. B. Herrick, and it is to be regretted that illness has forced Mr. Herrick to go to England, so that we are without his aid in the matter and must do our best unassisted.

In the first place we demur to the power given to Government to send workmen to dig and search for mines, as such a power if not qualified by a proviso as to doing no injury or damage to our plantings, would enable any Officer of Government so inclined to do us great and almost irreparable damage, and the power of making roads should be accompanied by a clause as to compensation if any planted Land is taken, any roads not going thro our plantations but over the Land merely we will gladly agree to receive no recompense for, as such would be an advantage instead of any loss, and we will be delighted to see your people at work on them.

The

Fort St. George 17th January 1848.

The term is all correct as to duration, but what we agreed for was, the Land to be given during the term to clear and cultivate for Coffee or other produce, free of land tax, but the produce to pay the usual tax or duty on shipment, and such Land as we or other parties we might sublet to under your clauses, did not cultivate or clear allowing for reasonable belts and pieces of Forest Land to remain as protection to the Land as Customary in Coffee estates defining it if you please to 2/3ds of cleared Land to 1/3rd of Forest should revert to Government at the end of the period named, or a clause might be put in that if no clearing or planting was carried on within two years the land should revert to Government, or do away with the Clause as to the Court of Directors not approving during one year, and you may make it one in place of two years, but this last is a bar to our proceedings for one year, unless all our outlay to be proved by the Managers Books &c. on oath be not repaid to us and even that would leave a serious loss as a season in Coffee planting is of value.

The

The Clause as to bankruptcy is also a very harsh one and it appears unnecessary if we fail in our conditions as to cultivating the land, you get it back with the consideration Money whilst if a part is sublet to parties carrying out the agreement it may by this Clause be taken from them should either Mr. R: or Mr. H: commit an act of Insolvency and prove a bar to our going into works for clearing and improving the Land.-

This letter goes to Mr. Grant who will see you about it, and the Deed is returned to your Office to be kept until Mr. Grant returns to Calicut and gives it you with this letter, and trusting thro' your good Offices to get this matter arranged.-

Proceedings thereon.

The Board observe from the Returns recorded above that the practice of charging interest on arrears of Revenue due by Proprietors of Land described in Clause 1 Sec II Regulation XXVII of 1802, as at present obtaining in many Districts is different from the course contemplated by Cl. 2 of Sec II of the above enactment and is generally marked by a want of uniformity to ensure the observance of one legal and definite System throughout the Provinces, they request that in all cases in which interest may be demanded under the Regulation quoted, the course prescribed therein Viz. that it shall be charged from the 1st of the Month following that in which the Rists fall due, be invariably pursued.

The Board further remark that in the Districts of Ganjam and Vizagapatam, it has not been usual of late years to charge interest, and the practice is stated to have been discontinued under the authority of Government. They would however, point out to the Collectors of these Provinces that the orders quoted by them respectively refer to individual cases in which the remission of interest was granted on special grounds to enable the parties concerned to extricate themselves from their embarrassments, and were not intended to which has thus been allowed to fall in abeyance may due notice be given to all concerned, and the practice be revived.
