Notice

Fort St. George the March 1848.

Notice is hereby given that the undermentioned lands will be sold at Public auction to the highest bidder by the Collector of Cuddapah at Podadoorty in Camalapoor Talook in liquidation of the arrears of Revenue due by the Defaulter hereunder named. The sale will commence on the 1st day of April 1848, and will continue until the whole of the lands shall have been sold. The purchasers will not be put in possession of the lands till the sale has been sanctioned by the Board of Revenue; but in the mean time a deposit of 15 per cent of the purchase money should be paid into the Hoozoor or Talook Treasury within 20 days after the day of sale. In failure whereof the land will be sold at the risk of the first Purchaser.

From the Collr of Guntoor

Sir,

I have the honor to acknowledge the receipt of the Extract from the Board's Proceedings of the 24th ult. communicating the orders of Government dated 21st Ultimo on the application of Manoor Vencata Ramummah submitted with my letters of the 10th and 30th of December. The Government sanction an advance of Rupees 1.000 — but desire explicit information as to the sum actually drawn at present by the chilKaloorpad family.

Reporting with reference to the Board's Proceedings of the 24th Ultimo that the sum actually drawn at present by the Chilleas Koorpaud Family is monthly Rupees 450.

2d. As the Government have observed, the Monthly allowance of Rupees 150 was authorized for the support of the adopted son of Manoor Bharatyamah on the 2d of August 1842. In reporting on the allowances in my opinion requisite for the adequate Maintenance of the Zemindars under the dates noted in the Margin, I recommended that the ChilKaloorpad widows should receive the same Amount as they were then enjoying namely Rs 150 each

each without specially adverting to the fact that what was paid to Bharatyamah was sanctioned in the name of her adopted Son. This proposition was sanctioned by Government.

24th October 1843
18th November "

The application now made is merely to continue to the Minor Exr. Zemindar the same allowance as was enjoyed during the life time of his adoptive Mother. In addition to the allowances of these two individuals, Manoor Venkata Bharatyamah widow of M. Narsianah Row receives Rupees 150 Monthly under the authority of Government dated 8th June 1837 making the total Monthly charge for this family Rupees 450.

From Board 19th June 1837.

(Signed) H. Stokes.
Collector.

Ordered that the foregoing letter be submitted with the following address.

(13-14)

To the Officiating Chief Secretary to Government.

To the Offg Chief Sect. to Govt.

Sir,

I am directed by the Board of Revenue to request that you will submit to the Honorable the Governor in Council, the accompanying letter from the Collector of Guntoor, dated 3d Ultimo, furnishing the information called

Submitting letter from the Collr of Guntoor furnishing the information called for in Mins Cons 21st Inst. regarding the allowances paid to the ChilKaloorpaud Family presuming that it is intended to recover the sum of 1000 Rs. sanctioned to meet the funeral expenses of the late Bharatyamah, by instalments from the pension of the Minor & annexing a Genl

called for by Government in Extract from Minutes of Consultation dated 21st January last, regarding the allowances paid to the Chilkaloorpaud family.

Inl. 24th Jany 1848.

2. From this it will be seen that the monthly pension of 150 Rupees, sanctioned under date 1st August 1842, for the support of the Minor Proprietor of the Tolloor Division of the Chilkaloorpaud Estate, was paid to his adoptive Mother, the late Manoor Bharatey=amah, whose death was reported in the letter from this Office dated 13th January last and who has never been in the receipt of any other allowance from Government. The ap=plication of the Collector was merely for the continuance to the Minor of the pension enjoyed during the life time of his adop=tive Mother.

3. The actual sum now payable to the Chilkaloorpaud family is Rupees 450 per Mensem, or 5,400 Rupees Annum, and is distributed as follows.

To Manoor Vencata Bhara=teyamah widow of Manoor Nursana Row a former Zemindar of Chilkaloorpaud	Rs. 150 — "

To Manoor Vencata Hanu=majamah, widow of Ven=cata Nursinha Row, pro=prietor of the Palapurthy division of the Chilkaloor=paud Estate	150 " "
To Manoor Vencata Kristna=Nursimah Row adopted Son of the late Manoor Ven=canarow proprietor of the Tolloor Division of the Chil=kaloorpaud Estate paid hitherto on his behalf to his adoptive Mother Manoor Bharatyemmah lately deceased	150 " "
Total per Mensem Rupees	450 " "

4. The Board observe that, in para 4 of the Extract from Minutes of Consultation under reply, it is directed that the advance of 1000 Rupees, sanctioned to meet the funeral expenses of the late Baratyamah, be recovered from the allowances now re=ceived by the family, they presume how=ever that it is intended that this amount should be deducted by instalments from the pension of the Minor only, as the exs=pense of defraying the funeral ceremonies

Fort St. George 6th March 1848

of his adoptive Mother would not seem to be properly chargeable against any other member of the family.

5. The Board beg to annex a genealogical Table of the Chilkaloorpaud family.

From A. Freese Esqre
Collector of Chingleput. } Para 1. I have the honor to submit for the sanction of Board the accompanying State-
ments of a proposed Sub Division of the Moo-
tah of Ponnary comprizing 9 Villages and bearing a permanent Beriz of Rs. 2,243. 10. 8 per annum.

Submitting for the sanction of the Board Statements of a proposed Sub division of the Mootah of Ponnary.

+Enclosures from No. 1 to 6 with 13 Mahatta Statements.

2. This Mootah was subdivided from the Zemindary of Ponnary in 1836 and pur-
chased by the present Proprietor P. Vengoo Moo-
delly 1838. He divided the Estate into 7 divisions and having sold 6 of them to other parties retained the other / Teroovoypaudy / for himself.

3. Accounts of the actual pro-
duce of each Village for 7 Years from Fusly 1249 to 1255 were produced by the Curnums and carefully examined in this Office and from which the accompanying Statements have been framed and the Beriz apportioned to each division. It will be observed that there has been a material decrease in the Beriz of the Ponnary and Vanebauckum Divisions

and

and an increase in that of Sevapoorum. This decrease is attributable to the great difference in the price of Grain between the rates which prevailed in former Years and during the 7 Fuslies on the result of which the present apportionment is founded, but in the case of Sevapoorum the Cultivation has been extended more than in the other divisions, so as to have made up the decrease caused by the low price, and produced an increase on the whole.

4. The purchasers of the several divisions have been in possession for the last 4 Years and being unconnected with the Moo= tahdar, there is no reason to doubt the correct= ness of the proposed apportionement to which they have severally assented, and which with reference to the lands and condition of the different Villages, does not appear to be preju= dicial to the interest of Government.

5. The division of Peroovoy paudy reserved by the Mootahdar contains no cultivated lands, but its Berij consists of certain incomes derived from Topes &c. which are in the &c. enjoyment of the Pagoda situated in that Village, and on account of which the fixed

fixed sum of Rupees 103. 13. 7 is annua[lly] paid out of the funds of that Pagoda-

From the accompanying Statement No. 1, it will be observed, that the number of Mootahs in the profession of the Proprietors is, in this Year 112, instead of 111, in consequence of the Mootah of Atchamungalum having been subdivided into two, Viz.t Atchamungalum and Pooroisottoomapooram, agreeably to the Board's sanction under date the 4th June 1846.

Population.

4.

The underwritten Abstracts exhibit the number of population, Cattle &c. in the District; the number of Houses in last year was 29,2360 instead of 2,82,360 mentioned in my report of Fusly 1255; the error had crept up in the calculation which in this year was rectified.

There appears a decrease in the Houses and Population, owing to the severity of the season, scarcity of food, and consequent mortality and emigration.

The decrease in the cattle is owing to the failure of rain and scarcity of pasture. There appears an increase in Sheep and Goats to the number of 6,106 owing to their not being subjected to the severity of the season, as their pasture is principally composed of variety of leaves.

From the above it will be seen that there is an increase of one Tank and 132 Wells - The Tank has been constructed during the year under review in the Village of Cudary Chetty in the Jaury Mootah of Curkulvady in the Talook of Salem - Of the 132 Wells shewn above, 84 have been constructed without permission near the Circar Sources of irrigation, consequently the lands cultivated by them have been subjected to Fusl Jausty - The remaining 48 being built with permission on spots where there are no Circar Sources of irrigation at hand, such as Rivers, Tanks, Wells &c. the lands cultivated by their means, have been exempted from Fusl Jausty - The particulars of these Sources of Irrigation, the extent of land cultivated under them, and the amount of remission granted are stated in Paras 55 and 56.

the Ryots to commence preparing their
Nunjah lands. Their Poonjah lands were
also ploughed and sown in some parts
of the Talooks. In the Month of June
there was partial rain in the Salem,
Trichengode, and Denkencottah Talooks,
it however proved beneficial to the
Poonjah grain sown in the preceding
Month, such as Bajeera, Till &ca. as there
was no rain in other Talooks, the Poonjah
crops partially failed: but the Savaury
cultivation under Wells; sustained no
injury. Partial showers fell in
July in Athoor &ca. 8 Talooks, while
none fell in the Talooks of Kamakul:
Paramutty, Salem, Senkerrydroog, &
Tengaracottah, and Wanalore, where
Poonjah crops suffered: the Savaury
crops irrigated by Wells, were par:
=tially reaped; the Nunjah Crops
under the river Channels and Tanks
were thriving.

In

August there was no rain in the Wom:

Kaveul, Paramutty and Senkerry:
=droog Talooks; but in others only par:
=tial showers fell, which did not prove
beneficial to the Poonjah crops, which in
some Villages were withered. The
Nunjah crops under Tanks also failed for
want of rain. The showers of September
and October throughout the District were
taken advantage of by sowing. Woodith,
Moong, Till, Coolty, and Codroo, &
and proved favorable to the early
Poonjah crops Viz. Raggy, Bajeera
&ca. Most of the Tanks received &

a portion of Nunjah cultivation
under Tanks, which received a

a scanty supply of water, failed..

10. No. rain fell in December, the pulse crops. Viz.ts. Woodith, Moong, Dholl, Coolty, and Oil Seed were destroyed by insects: the cultivation in Bagayet lands, and the second crop Nunjah crops failed in some places. In January there was no rain. Poonjah crops which suffered both by insects, and the failure of rain, were reaped.. Raggy &c.a. were sown in the Bagayet lands, that had the advantage of water; part of the Nunjah crops had been reaped. A few showers of rain which fell only in Namacul, Trichengode and Denkencottah in February was of no use to the cultivation owing to the scantiness.. Poonjah crops were reaped. January and Bajeera were sown in Bagayet lands dependent on Wells.. Nunjah crops were also reaped in most part of the District, but some failed for want of water. In March a few showers fell in the Talook of Salem alone, which contributed to

to the sowing of Poonjah grain; Nunjah crops were reaped in all the Talooks; but in some places, where there was sufficient water in Wells, a second crop cultivation in Nunjah was carried on.. From the above it will be observed that rain in some Talooks fell copiously, and in others scantily; but the season of the present year was not so severe as that of the past..

Produce. 11. The following Statement will shew the effects of the season to have been less favorable to the Poonjah crops, which suffered from a scantiness of the periodical rains, and the quantity of produce to have been on an average 8/16.-

The produce of Nunjah on an average amounts to 13/16.-

13. From the Marginal Statement it will be seen, that there is an increase in Poonjah Nunjah and Gardens Viz.t Rupees 41692-13-8 the causes of such increase are explained in the following Paras.—

14 The gross increase in Poonjah in 7 Talooks Viz.t Ahtoor, Namacul, Paramutty Salem, Tengaracottah Kistna-gherry and Tripatoor amounted to Rupees 18642-11-9, from which deducting the decrease Rupees 16427-10-9- in the Talooks of Sent Kerrydroog Razipoor, Womaloor Trichengode, Darumpoory Denkencot-tah and Ossoor, occasioned by the failure of rain, there is a net increase of Rupees 2215-1-" Though the two

two Talooks of Ossoor and Denkencottah received a good supply of rain in the prece= year, the severity of the preceding season, which reduced the condition of the cultiva= Ryots, many of whom died and emigrated, has also contracted their cultivation. The Ryo= of the Talooks of Ahtoor and Namacul alone, reaped a benefit in the year under review.-

15. The gross increase in the Poonjah Bagayet in the Namacul &ca 9 Talooks Rupees 2173-6-8, was reduced to Rupees 1025-9-4, by a decrease occasioned in the Talooks of Rajipoor, Trichengode, Paramutty, Darumpoory and Tengaracottah from the relinquishment of lands also from the deduction made in the Inam= =mabundy on account of the reduced state of the Ryots, whose cultivation failed owing to their Wells having been dried up.-

16. The gross increase in the nunjah cultivation in the Ahtoor &ca 12 Talooks amounted to Rupees 39604-13-8, from which deducting the decrease occasioned in the 2 Talooks of Sankerry droog and Womaloor

Womaloor from the scantiness of rain, there remains a net increase of Rupees 38,325-3-4. The Ryots in many places have reaped a good crop, which was sold at advantageous prices.-

17. The cause of increase in Nunjah Garden cultivation Viz^t Rupees 127-0-0, is in consequence of the highest Nunjah teerwah in the Talooks of Ossoor, and Denkencottah, and double Nunjah teerwah in the Talooks of Tripatoor &ca having been imposed on the Nunjah Gardens which this year arrived at maturity, and which up to last year were entered under the head of Nunjah Culti= =vation.- The particulars of which will be seen in Statement No. 2 accompanying.-

The

20. The gross increase in Poonjah, Poonjah Garden, Nunjah, Nunjah Garden, as shewn in the Statement B. Column 3, amounted to Rupees 117148-12-7. from which deducting the gross decrease Rupees 82,103-5-9 in the same Items, there remains a net Increase of Rupees 35,045-6-10 This decrease was occasioned from lands relinquished on account of failure of rain and from those left waste by Emigrants, or deceased and indigent Ryots.

The particulars of Increase in the Progressive Cowle are as follows:-

Three Quarter Cowle.

arrived at full assessment	849-15-6
Progressive Cowle	1,374-3-8
Full teerwah of Cowle lands, imposed when the Ryot left his Patent waste	114-2-3
Moonasib and 3/4 Cowle, brought to full assessment by death &ca of the Original Puttahdars	123-15-8
	2,462-5-1

21. After deducting the gross decrease Rupees 6998-8-8 from the gross increase Rupees 8572-9-"

in the lands of one description converted into another, there remains a Net Increase of Rupees 1,574-"-4; the Increase is occasioned from Poonjah lands converted into Poonjah Garden, and Nunjah, from Poonjah Garden into Nunjah, and from Nunjah into Nunjah Garden which / the latter description / pays the highest Nunjah teerwah in Ossoor and Denkencottah Talooks, and double Nunjah Teerwah in all other Talooks. The decrease above shewn, is on account of lands which were in last year converted from Poonjah into Poonjah Garden, and from Garden into Nunjah reverted to their original state.

22. The Net Increase under the Head of "Excess above 10 per Cent brought to account &ca" is Rupees 9-1-9 after deducting the gross decrease Rupees 61-3-", from the gross increase Rupees 70-4-9. The increase Rupees 2,329 is the amount of Cundayem of the lands in the Teeroomulnamaxamoodrum Village brought under cultivation this year, In the preceding year, in which the Agrar Village was taken under

the

the Circar Management agreeably to the sanction of the Board dated 2nd December 1845, the Aggrar: -dars became liable to pay the origin: -al Pymaish assessment of Rs 21-8-4 per acre and left the whole Village fallow; but finding that the lands of the said Village in this year were ordered to be given to the Ryots of the neighbouring Villages for cultiva: -tion, they / the aggrardars / them: -selves undertook to cultivate them, to prevent their lands passing into the hands of strangers to cul: -tivate, and probably in exc: -pectation of a reduction of the assessment. The accompanying ex: Statement No 19, and Para 57, will exhibit the particulars of the same.

23.

The sum of Rupees 280-7-7, increase under the Head of "Lands occupied on low assess: -ment coming to full assessment Fasl" is composed of the following Items

Items, Viz:-

Land occupied on low assessment coming to full assessment	139-5-7
Lands relinquished by Bramins being taken up by others for cultivation	27-8-5
One Crop land Yielding two Crops in the Draveedoor Village in the Ramnad Talook	113-4-"
Punjah Assessment fixed on Erraposunjah lands in consequence of having received their supply from the Circar channel.	5-6
	280-7-7

From this sum Rupees 280-7-7, the decrease under the same head Rupees 8-1-10 being deducted / there remains a Net increase of Rupees 272-5-9. The particulars of the decrease are as follows.

Land occupied on high assessment reduced to its proper teerwah	1-1-10
Reduction on teerwah granted to Bramins who have taken up lands thrown up by Ryots for cultivation	7-"-"
	8-1-10

Tax on Trees.

24. There is an increase in the ready Money collections on Tax on Trees as will appear in Statement A, of Rupees 178-9-7, after deducting the gross decrease Rupees 2,282-6-2 from the gross increase Rupees 2,460-15-9, as hereunto particularized.

41. The Gross Collections of the year on account of Land Revenue as shewn above amounts to 1804,457—2—1, deducting the Charges which amount to Rupees 271,302—7—4 the Net Collection is Rupees 1533,154—10—9 or Rupees 266,703—11—4 above that of the preceding year. The difference has arisen partly from an increase in the Collections on account of increased cultivation and partly

Fort St. George 6th. March 1848.

partly from a large balance of last year being realized in the present fusly.

42. The increase of Rupees 11,664—11—11 shewn in the Charges of Collection has been occasioned from the construction of a new Channel at Moganoor, from the repairs made to tanks that were breached in this season, from the increased salary granted to my Head Sharestadar Annajee Row, and from the Arrears of Salary from 8th. May 1841 to 5th. January 1842 paid to Beema Row late Tahsildar of Senkerry droog. Statements Nos. 14 and 15 exhibit the particulars of the collection and charges.

44. This increase in the number of cultivating Ryots is attributed to the tolerable Season under review, in which the Agrardars of the Tirmulnaicansamoodrum Village and the Moturpha Ryots and others have been engaged in cultivation. The increase in the number of Ryots has necessarily caused an increased in the number of Puttahs distributed to them.

45. The Number of Ploughs employed by Ryots in Cultivation was 34,863 or below that of Fusly 1255 / A D 1845/46/ by 638, this decrease is attributed to the severity of the preceding Fusly in which mortality among Cattle was great and the pasture destroyed.

tenure this year. The decrease in the land took place on account of the Cowle which arrived to its full assessment, being deducted from this head. There is also in the Moonasib and 3/4 Cowle granted by Mr. M. D. Cockburn, a decrease of Acres 577-00 in consequence of some of these Cowle lands having come to full teerwah when transferred to the heirs of the original holders after their death and some having been left waste by the deceased emigrated and indigent Ryots.-

51. The remission granted on Cowle Nunjah this year, being below that granted in the preceding Fusly, there appears a decrease of Rupees 36-4-11 under that head.-

52 The particulars of the above are exhibited in the following Statement.-

56. These Ryots are not in the habit of contracting or relinquishing any portion of the cultivation of their patent lands. In the event of their doing so, they are subjected to Fusl Jausty teerwah on the lands cultivated under their private Wells, agreeably to the provisions contained in the Hookuminamah and Cowlenamah. The particulars are exhibited in Statement No. 21 accompanying.

57. In para 8 of the Board's Proceedings under date the 15th February 1847 it is stated that I omitted to explain why there was no cultivation in the reverted Jodigy Village of Tirmulnamasamoodrum in Fusly 1255, that the revenue for fusly 1255 of Canala: Poorum the other reverted Village was little more than one half of the Jodigy assessed upon it, and that I should in my report on the settlement for-

Fort St. George 6th March 1848.

for the current year mention their present condition and the probable revenue to be expected in future. One of these reverted Villages, Vizt. Sirmalmaramasamoodrum I beg to state was totally left uncultivated by the contumacious conduct of the Aggrardars who prevented the Ryots of the Village from engaging in the cultivation to counteract this, I issued orders to the Tahsildar to use his exertions in stimulating the Ryots of the neighbouring Villages to take up lands in the Village in question for cultivation; when the Aggrardars came forward, and begged that they should be allowed to cultivate the lands in question in preference to strangers. The extent of lands cultivated by them, fusly 1256 is Acres 133-35-15, bearing teervah Rupees 2,329-9-11- which is above the Jodigy fixed upon it by Rupees 918-6-11.-

* Land teervah 2,329-9-11
Tax on trees- 5-4-0
2,334-13-11

58 The Revenue of Comalapooram Agrar Village for Fusly 1255 was below the amount of Jodigy assessed upon it in consequence of its Nunjah and Poonjah cultivations having been contracted from the scantiness of Rain. In the current year the

Fort St. George 6th March 1848.

the tank of the Village in question received its full supply; and the periodical rain favoured the Poonjah cultivation. The Nunjah and Poonjah lands brought under cultivation amounted to Acres 349-7-1, bearing teervah Rupees 1773-14-9, which exceeds the Jodigy by Rupees 177-10-3. The particulars of which are shewn in the accompanying Statement No. 19

* Land teervah-1,773-14-9
Tax on trees 14-4-0
1,788-2-9

The future improvement of these Villages depends on favorable season and there is no doubt, if the assessment is reduced, of the whole extent of land being permanently cultivated.-

59 In para 16 of my Report on the Settlement for Fusly 1255 the rate for Cholum was erroneously mentioned as that of Cumboo and vice versa as remarked by the Board in Para 4 of their Proceedings quoted above, though the Statement No. 12 which accompanied it exhibited the rates correctly.-

60 The Board observe in Para 6 that the items Vizt. "Increase on Fusl Jausty Rupees 9-10-9, and Decrease on Fusl Cumme Rupees 104-11-6" are not exhibited in the Mindoonee Statement. These are entered in the

cultivation consequently a decrease of
Rupees 24-8-0 is shewn in the Village of
Orravendoor and an increase of that sum in the
Village of Noganoor Vide Colm 76 of the accompa-
:ing Statement No. 2.-

62 The total amount of Neercooly
including the above sum of Rupees 24-8-0 is
Rupees 233-7-10, as shewn in Colm 86 of the
above Statement No. 2 Neercooly is agreeably
to the practice of the District, generally received
when water from a many Villages is carried
to the Jaury Mootahs and aggrar Villages.
Neercooly is paid from the Village of Bikka-
:vally in the Talook of Annicut in the
territories of Mysore to the Village of Baggan-
:hully in the Hoozoor Talook in this District
in consequence of water being carried from
the latter Village to the former - Neercooly
is also received from the Ryots in the Talook
of Athoor, in the event of their carrying
water from the Circar Sources to their Poonjah
Cultivation on account of the failure of rain-
payments made for carrying water
as

Fort St. George 6th March 1848.

the Hindoonee Statements Nos. 7 and 8 Fusl
Jausty and Fusl Cumme are in the Orravendoor
Village termed 2 Crops Eroobagum and 1st Crop Orroobogum, the
increased Assessment is fixed on land, which
actually produced 2 Crops, and the decreased
teervah on land that produced one Crop; the
increase or decrease in the Assessment depends
on the crops of the lands which are frequently
subjected to fluctuation, agreeable to usage
in the District of Trichinopoly to which the
Village of Orravendoor was attached. In the
current year there is a fusl Jausty of Rupees
113-4-0 in the Village in question in conse-
:quence of some of the lands having produced 2 Crop-
61- With reference to Para 11 of the
Extract from the Minutes of Consultation dated
20th April 1847, I beg to explain the term Neercooly.
Neercooly is the payment made by Ryots on
account of taking water for their cultivation from
other Villages. For instance, a sum of Rupees 24-8-0
under the denomination of Neercooly has been
always paid from the Bariz of the Village of
Orravendoor to the Village of Noganoor in conse-
:quence of the Ryots of Orravendoor carrying
water from the Noganoor Channel for their
cultiv

as above stated are termed Neercooly, and carried to account under the same head.

63. The errors pointed out in the 2nd Para of the Minutes of consultation dated the 20th April 1847 in the number of Houses entered in my Report of the preceding Fusly have been rectified; Vide para 4.

64. The Report promised in Para 69 of my Jummabundy Report for Fusly 1255, regarding the relinquishment and retaking of lands by Ryots is under preparation, and will be despatched as early as possible.

65. The Board in their proceedings, which conveyed the Minutes of consultation under date the 14th August 1847 direct me to state, in my report on the settlement of the year under review, as to how the assessment bears on the cultivation. His information, I beg to say cannot be supplied in the report, in consequence of my not being able to obtain the required accounts from the Talooks in so short a time. A separate Report therefore will be submitted on the subject hereafter.

Dated 7th October 1847.

I have

Salem Zillah Office
Collector's Cutcherry
15th November 1847

E: E: Fs. / Signed / W. E. Lockhart

3500. From St. George 6th March 1848.

To W. E. Lockhart Esqre
Collector of Salem.

Sir I have the honor to report upon the Settlement of the land Revenue for Fasly 1256 of the Talooks of Shenkerrydroog, Pachingode, Paramuttee and Namoal, which form the Sub division.

2. The following Accounts have been prepared in the form adopted in the past and previous Fasles Viz.

No. 1. Revenue from Estates.

2. Settlement of Government lands.

3. Statement Comparative of the Revenue of the present and previous years.

4. Detailed Statement of Cultivation with explanation of the causes of Increase and Decrease.

5. Statement of waste lands included in the Settlement.

6. Abstract Statement of lands held on Cowle.

7. Statement of the average prices of Grain.

The

Note

Settlement &c. 3. The Ryots were assembled in the Pamanel Taluk at the Cutcherry at Tangarpetta and at Mogunoor. In the Paramakoil Taluk at Kaveripatnam. In the Shankerydroog Taluk at the Cutcherry and at Comara pollium and in the Trichingode Taluk at the Cutcherry station.-

Season. 4. The season I regret to say was again extremely unfavorable and near=ly all with increased severity from the following upon three previous seasons of scarcity- The dry lands of Paramakoil and almost the whole of the Taluks of Trichingode and Shankerydroog have suffered from dearth, and the only portion of the District which can be described as prosperous is that watered by the Cauvery Channels and by the larger Tanks which ensure a constant supply of water. In these localities the enhanced price of grain has compensated any deficiency of produce. In all other portions of my Division the depressed state of the Ryots rendered it necessary that the settlement and collections should be

made with as much indulgence as was consistent with the maintenance of the general rules.-

Prices of Grain. 5. In my report of last year I observed that "In Fusly 1253 there was a "rise in the general price of grain of Rupees 7-1- "10. p.c Cent above the Average of 12-52 -a "In Fusly 1254 there was a farther rise of "Rupees 6- 15- " above the price of 1253. In "the Fusly under review there was a farther "rise of no less than 36- 15- " p.c Cent upon this "already high price. Nor does even this Ade=quately represent the pressure upon the lower "classes. Cumboo and Cholum are the Chief "subsistence of the working population in "this District, the rise in the price of these "is still greater"- I regret to state that the high price has been still farther advanced to a price which indicates severe scarcity). To ex=hibit this I have annexed the following Abstract.-

With

Fort St. George 6th March 1848.

With the very small holding of [illegible] Districts these high prices prove that a considerable [illegible] spring must have ensued more early among the laboring population, but among the body of proprietors also for the latter could only profit by the high prices where they had any superfluous produce to bring to Market and this Spring has seldom been the case.

Villages and Hamlets.

6. The following Abstract shows the number of Villages and hamlets under Government and the landed proprietors.

There is a decrease under the head of Nunjah land of Acres 302. 17. 5. in extent and Rupees 598. 15. 2. in Assessment. The Garden land shews a slight Increase and the Nunjah land a very satisfactory one. These are generally speaking the result of the season and the natural effect of the failure of rain, which enhances the usually great advantages of permanent Cultivation. The Cultivation of the lands of Tiruvalangaud: moodrum has added greatly to the favorable Amount of Nunjah Cultivation in Comparing this year with the last— As the Circumstances connected with this Village have been explained in a former report I shall not advert to it further than to repeat that I believe a reduction

of the Assessment is necessary to ensure its permanent Cultivation.

Revenue. The following Abstract shews the general result of the year on the revenue of the Sheik Jemeen. The land revenue Amounts to Rupees 598. 95. 4. being a decrease of Rupees 152. 11. 5 below that of 1255. The Extra revenue Amounts to Rupees 39. 12. 8. shewing a decrease of Rupees 6. 6. 4. 7. The whole revenue thus Amounts to Rupees 628. 9. 7. 1. 4 being Rupees 80. 34. 4 — 11 below that of last year.

The decrease in land revenue is owing entirely to the pressure of the season, and the same cause is still more apparent in the decrease of Coolie revenue. The general poverty of the people has diminished the Kistary Contract. The failure of the Tamarind Crop has been one of the causes of the diminution of the value of small farms and the high prices of all provisions has driven many of the weavers to emigrate, while the poverty of the Ryots has compelled others to contract the number of their looms. The falling off in the Sheturpha is almost entirely owing to this Cause.—

Fallow land included in the Settlement.

10.— The next Abstract exhibits the particulars of waste lands which have from certain Causes been included in the Settlement. They amount to an Acres 876-28-15- bearing an assessment of — Rupees 260-5-3.—

Of these lands some were entered with the consent of the proprietors, who were unwilling to resign their pro= =prietary right, some were Tanjah lands with the state of which I was not sufficiently acquainted to feel justified in relaxing the rules, others were the lands of those whose holdings were insuf= =ficiently extensive to enable them to bear the fluctuations of the Season so in the past year the lands so entered formed a small exception to the rule upon which I acted of striking off all the lands which the want of rain and the general de= =pression of the people had compelled the Cultiva= =tors to leave waste - With the Tanjah lands which I do not think proper to strike off I have endeavoured during the Collections to make myself acquainted with their real state to enable me to apply for remission where the lands is not of such value as to enable the owners to pay the Assessment without serious loss -

General result. 11- The general result is shewn in the following table, and I believe I need not add any farther remarks as I do not think that any fluctuations appear which are not fully accounted for by the season -

Collections 27- The Revenue of lands under Government management amounts to Rupees 335,328 11 8 of which Rupees 284,436 12 6 were collected within the Fasly, leaving a balance of Rupees 50,891 11 11. Of this the sum of Rupees 32,738 3 2 was collected in the Months of August and September. The balance is Rupees 18,153 11 9 of which 7,405 9 2 was reported as irrecovable, and the sum of Rupees 181 11 10 awaits the orders of the Board regarding the assessment of the Cadaiaray lands, and the remainder Rupees 10,540 3 9 was reported as recovable. Of this the sum of Rupees 3,941 11 10 was collected within the Month of October. Of the sum of Rupees 7,405 9 2 reported as irrecovable the Collection of

Rupees 502 9 4 was suspended by my orders during the progress of the settlement. The sum of Rupees 903 15 — was the amount of pasturage assessment in 22 Villages of the Pycauty Taloob. the Collection of which I was satisfied could not be enforced without serious hardship as the want of rain had almost entirely destroyed the pasturage and seriously injured the Cattle. The small remaining amount consisted of various sums which it was necessary to state in the accounts but which from various reasons could not be collected. The balance of Rupees 6,958 15 10 will form the subject of enquiry during the present year.

Motumpha. 28 The Motumpha revenue amounted to Rupees 7,907 8 11 of which 1,070 13 6 were collected within the Fasly. the balance being Rupees 6,836 11 7. Of this balance 731 12 3 were collected in August and September, leaving the sum of Rupees 1004 15 4 still due. Of this Rupees 390 15 5 are reported irrecovable the sum of Rupees 613 15 11 was under Collection at the end of September, and Rupees 10 — was collected in the Month of October. Of the sum of Rupees 390 15 5 reported irrecovable Rupees 50 15 7 were suspended by

by my orders on investigation held during the settlement (Pp 27 & 9) on the same grounds as stated in my last report para 34 and Reports 23 9 & for other reasons proving the inability of the parties liable to the tax. The remaining sum will form the subject of investigation during the ensuing settlement.

Small farms 29. The amount of this revenue is Rupees 3118 — 9 of which 1864 — 11 — 2 were collected during the Fusly. Of the balance Rs 1250 — 5 — 7. Rs 575 — 1 — 4 have been since collected and the remainder 575 — 1 — 3 is under Collection.

Revenue from Mootahs. 30. The Revenue from Mootahs amounts to Rupees 2,03,625 — 12 — 3 of which the sum of Rupees 4,077 — 12 — 4 is credited on account of Moturpha. The amount Collected during the Fusly was Rupees 2,47,481 — 4 — 1. Total Rupees 2,51,562 — 11 — 4. Of the balance Rupees 1203 — 11 — 11 the sum of Rupees 1,083 — 9 — 11 was Collected in August and September. The balance 7420 — 2 — 11 is due from 1 Mootah in Shenkurrygherry and 2 in Trichengode with the circumstances of these Mootahs you are fully acquainted.

Reporting on Petitions Nos 43 and 60 of 1848. -

Sir, Fort St George

I have the honor to return=two Petitions Nos 43 and 60 of 1848 forwarded=to me for report. The first Petition is from=Iyavoo Noopen, adopted Son of the late=Appavoo Noopen of Cubbistellum, and the=second from a relation of his backing his=request that the management of the deceased=Noopen's estate should be taken from the=

Fort St George. 8th March 1848.

Court of Wards, and given over to him. In my=letter of the 1st June 1847 mention was made=of the misunderstanding existing between the=younger widow and Iyavoo Noopen, who sided=with the elder; and this quarrel far from=having in any way abated, has increased in=virulence to such an extent as at times to=threaten a breach of the peace between the=parties, there is therefore not the smallest=prospect of their mutually agreeing to a joint=management, and the claim of Iyavoo=Noopen to take charge of the estate as a=right. I look upon as quite untenable and=the grant of his request inexpedient as=regards the interests of the minor, which will=be alone efficiently protected by retaining the=estate under circar management. - Petitioner has=been informed that the opinion of the Law=Officer awarding one fourth of the estate=to an adopted Son, in cases where a regular=heir is subsequently born, cannot be acted on=unless by decree of Court, and that until such=decree is obtained, he will be only entitled to=the maintenance formerly awarded - In con=clusion I beg to request the Board will enable=me finally to settle the matter under reference=in accordance with the decision of Govern=ment conveyed in Extract from the Minutes of=Consultation

3528 — Fort St. George. 8th March 1848.

Consultation under date 29th July, as both parties are the dupes of interested agents who under false pretences are obtaining money to forward their views: at least such is the impression, as the younger widow has already borrowed upwards of 3000 Rupees, a sum which for legitimate purposes could not have been required.

Sir,

From the Coll.r of Tanjore

Reporting on Petition No. 2200 of 1847.

I have the honor to return Petition No. 2200 of 1847, on which I am called on for report. In my letter of yesterday's date, I reported on petition from Iyavoo Inoopen, not at the time, being aware of the presentation of the one now under reference, from the younger widow of the late Appavoo Inoopen, it being included in a large bundle of petitions a part of which only I had read.

From Para 1. to 11 Petitioner comments on the claim set forth by Iyavoo Inoopen to the management of the estate, as adopted son of the late

3529 — Fort St. George. 8th March 1847.

Appavoo Inoopen, and the settlement of this point appears to me to rest with the Civil Court. Maintenance at the rate of 24 Rupees per month was granted him on a suit against his adoptive Father, as referred to in the Petition, and further claim than the payment of this has never been recognised by me. Iyavoo Inoopen having been repeatedly told that nothing short of a decree of Court in his favor could give him any right whatever to the property. A remark is made against para 12 of the Petition to the effect, that Iyavoo Inoopen should be allowed to have nothing to do with either the Minor or the property, in consequence of his having sued his adoptive Father for maintenance. The adoptive Father, for years prior to his death, was in such a maudlin condition from excessive and constant indulgence in liquor, as I myself have witnessed, that he not only denied the adoption of Iyavoo Inoopen, but, as I have heard, also, openly disclaimed being the Father of the present child. Iyavoo Inoopen, under these circumstances might be excused prosecuting such a Father, and the Petitioner charges me with unjust favoritism

protection of the interests of the estate,
which under management requires
every care and attention: both of which
I can conscientiously declare have been
bestowed upon it by myself in the face
of numerous impediments offered by both
parties. The Petitioner however, gives
me credit for nothing but a determina-
-tion to ruin the minor's interests,
present and future, an assertion which
I need hardly say is entirely without
foundation. In my letter of yesterday's
date, the claim of Iyavoo Inoopen to the
Management of the estate by right of
his adoption, or for any other reason, was
not advocated; on the contrary the contin-
-uance of the Circar Superintendence
was recommended; and thankless and
troublesome as the charge is, and one
which I would gladly be relieved of, as
still my opinion is, that, in justice to
the child, the management could not
with safety be entrusted to the Mother,
as in all human probability its resources
to a great extent would be squandered away
by her, and her admirers, with little regard
to the future interests of the heir, as
Money-

Money having already been raised by the younger widow in spite of notifications to the effect that the land would not be answerable for debts contracted without sanction. The interference with the estate hitherto allowed to Iyavoo Inoopen has been very trifling as permitted by the Board, in extract from their Proceedings dated 23 June 1847; but being a cause of contention I shall in future put a stop to it; and I must request that the Board in reviewing petitions like the present (probably to be repeated) will take into consideration the motives by which the complainants are actuated in making their charges of mismanagement.

From the Asst Collr of Trichinopoly

Sir,

I have the honor with reference to the 5th Paragraph of the Proceedings dated 25th of March and 4th Para. of the Minute of consultation of the 29th May last to offer explanation respecting the introduction of a specific levy on lands cultivated with or yielding a third Crop in the District of Trichinopoly.

Offers explanation respecting the introduction of a Specific levy on lands Cultivated with or yielding a third Crop in the District of Trichinopoly.

2- The points required to be reported upon are 1st. The extent to which the said 3rd Crop prevails 2ndly How irrigation under which it is raised and 3rdly at what period and under what circumstances the additional tax was imposed.

3- With reference to the extent I beg to forward a Statement

3535. Fort St George. 8th March 1848.

which will exhibit the amount of the said said cultivation and the tax levied thereon. The item it will be observed is very trifling not exceeding on an average Rupees 4-8 per annum.

4- The 1st crop (say Maricar) in the Wet Taloks is cultivated at the beginning of July or latter end of June and will be cut in November; the 2nd crop cultivation, which may be called Codey kar will be from seedlings transplanted immediately the soil has been moistened or prepared for its reception, and will be off the ground before the 15th of March when cucumbers, black or green grain and Brinjal &c may be cultivated and cut in June. Some plant vālan (bearded paddy) in March and cut it in July. They then use Semba, the best sort of that grain and cut the same in January. Pulse or Vegetables will then tend to fill up the year.

5- In the Dry Taloks the 3rd crop is chiefly raised on the garden lands, the 1st crop being Ragi and reaped in 6 Months. the transplanting from the nurseries

3530 Fort St. George, 8th March 18

Nurseries of any species of paddy tha
take place, and the Crop cut in 5 Mo
when if the water in the Wells be s
-ed to prove sufficient, some coarse
of Paddy, Bringal, Chillies or other ve
-table will be cultivated to full up
full period of the year.

6- Wells form the chief im
-provement in the dry Talooks to attempt
third Crop, and although the supply may
not be great it can be depended on when
labor is forthcoming to work them; com
-paratively little water is required for the
nurseries which are however very thickly
planted. In favored spots near large
rivers, wells are scarcely necessary as a small
stream, a pucottah, or spring from the
same, will be found sufficient for the
purpose. By a careful arrangement it is
seen that a third Crop can be raised
in some if not most lands within
the year, although each crop might require
5 Months to bring it to perfection from
the first sowing of the seed.

7- The tax on the third Crop
in the wet Talooks of this district
appears to have been first levied in

3537 Fort St. George, 8th March 1848.

July 1231 and in the Dry talooks has
been assessed whenever the cultivation
has been reported by the Cumnums at
the period of the Settlement. The tax is
in some cases ¼ of the rate fixed for
the 1st crop, in others it is ½ of that
for the 3rd crop and in some it is
fixed according to the rate demanded for
a similar crop in the neighbouring Villages
but I consider the tax may be abolished
without any injury to the revenue but
advantage to the ryots, for it preserves
their regard for their land, keeps
them employed whilst it is not
very unlikely that although the labor
is great the return is but small.
I should wish to see them enjoy
the full benefit of their ingenuity
and labor, and shall have much
pleasure in communicating the
Orders of the Board to a similar
effect to the whole body of the
ryots in the District of Trichi-
-nopoly.
