Para 1 It is evident to the Most Noble the Governor in Council from their several despatches and orders that it is the desire of the Honorable Court of Directors and of the Government of India that the Presidency of Fort St. George should be placed upon the same footing as the other Presidencies as regards the connection of the Government with native religious institutions and their funds and endowments; provided this can

can be done with justice to the Ryot and to all parties concerned, and that if the protection of the ryot can be duly secured, it is not in accordance with their wishes that this Government should perpetuate this connection, but the contrary.

2 In the 12th and 13th paras of their letter dated 20th September 1845 the Supreme Government observe "the Government of India with the view "of securing protection and justice to the ryots "conveyed their sanction in August 1840. to the Madras "Government for continuing under the Charge of "the Revenue Officers the temple lands in "that Presidency. The Honorable Court in their "Despatch of the 25th of August 1841 has enjoined "a different mode of proceeding and have directed "that where the revenue demandable from entire "Villages or portions has been clearly defined "and a pottah or lease issued to each Ryot "specifying the extent of land, the amount of "Revenue and the periods at which it becomes "due, the collection of such revenue shall be trans- "ferred to agents to be appointed by the parties in "whom the management of the affairs of the institution "may be vested. I am instructed to observe that "the Honorable Courts orders have been carried into "facility in the instance to which they had "been applied in Bengal. Except that of the "Jaggernauth

Letter from the Government of India dated 19th June 1840

3 The proceedings of the Board of Revenue now laid before the Government with the several reports from the Collectors which accompany them appear to His Lordship in Council to shew that these instructions can be carried out immediately at the Presidency, and that it is manifest from them that no greater difficulty has been nor will be generally experienced here than in Bombay or in the case of the Jaggernauth Pagoda in transferring the lands or property of the Temples to the Trustees and relieving the Government Officers from all further interference with them.

4 The observations of the Collector of Trichinopoly on this head in whose District are the large Temples of Seringham are important. He states the fact that extensive properties of this nature are now and have been for a long series of years held by Pagoda Trustees, and that a complaint

Letter from the Collector of Tanjore dated 9th August 1815 — Submitted with the Board's Letter of 4th November 1817 No. 506.

complaint is unknown. His remark is "nor "is experience wanting to shew that large possessions "embracing entire Villages may be entrusted to "the management of Trustees of Pagodas without "the risk of oppression to the Cultivator, for there "is an Institution in this District the Pagoda "Soymanswamy which is endowed with 13 entire "Villages rent free, and lands and Topes of considerable "value in all other Villages, the affairs of which "are conducted under the orders of the individual "who presides at the Pagoda without the "intervention of the Officers of Government, and I do "not recollect ever to have received or heard of a "complaint by the Ryots against the "management."

5 It is apparent also from the papers before the Government that the Collectors generally and especially those in the Districts where there are large Pagoda Estates, do not consider the transfer to involve any peculiar difficulty nor any hardship on the ryot, and His Lordship in Council believes that there is no reason to suppose that a Pagoda Ryot is not ordinarily as well and even better off, than a Government ryot. This may be easily accounted for, as the Pagoda Trustee is entrusted with the

with such power as the Government Officer, and his ability to oppress the ryot is consequently much inferior.

6 The same Collector remarks and it is a remark applicable to all Pagoda ryots, "the fact is that the ryot does indeed possess "many safe guards against oppression. He can refuse "to cultivate, he can withhold his kists" (instalments of rent) "and in various ways vex the party to whom he has to pay his annual quantum (rent) and who if he be not blind to his own interests, generally sees how greatly to his advantage it is to keep on good terms with those on whom his revenues depend."

7 Looking therefore to these returns, and to the circumstances brought to notice in the report from Tanjore, the Most Noble the Collectors letter dated 28th May 1817. Governor in Council sees nothing in them which should induce the Government to depart from the views of the Honorable Court, and he wishes to instruct the Board of Revenue to carry out the measures reported in their proceedings throughout the Presidency, till the disconnection of the Government has been as completely effected here as it has been in Bombay and Bengal.

8 His Lordship in Council does not concur in the view taken in the Minute* dated 4th November 1817 of the Acting 1st Member of the Board who observes that "the land has justly been considered to be "the main source of the public revenue; and "it"

*

"its permanent alienation from its legitimate
"purpose has of late years been carefully guarded
"against. Its value is now at the very lowest ebb.
"any change must necessarily raise it. The
"improvement of the internal means of
"communication (and as a natural consequence)
"the increase of improved and more varied articles
"of produce with the extension of the foreign market
"and the removal of restrictions on trade, must
"tend, and that at no very distant period, to give
"it a value far above the present scale. It appears
"to me that Government should not lose sight
"of these very obvious considerations in carrying out
"such an extensive measure as the present".

9 The Most Noble the Governor in
Council is rather disposed to consider it to be
the duty of the Government on the ground here
advanced to restore their lands to the Institutions.
The Government hold the Lands virtually in
Trust for the Institutions, and if they divest
themselves of the duties of Trustee, they must
in the opinion of the Governor in Council in
good faith also give up the lands, for if they
do not, there will be in all future times a
just ground of complaint that these
institutions have been defrauded. His Lord-
ship in Council would deprecate a course
especially

especially in such matters which might be
open to an objection of this character.

10 He is also fully satisfied, that
the entire and final separation of the State
from all connection with the religious Establish-
ments of the people, can only be effected by restoring
their properties to them as far as possible in all
their entirety, and that this question will not
be permanently and satisfactorily settled by
any half measure by which the Government
shall retain the lands in their possession and
pay to the Trustees of the Institutions a sum
in the form of Rent. The withdrawal of the
Government from all interest in these lands —
excepting as Sovereigns of the Country should it appear
to His Lordship in Council, be full and absolute
since by nothing less can it be said that the
Government will be altogether cease to be —
connected with the Religious Institutions of the —
country, and complete effect be given to the —
principles laid down in the Honorable Courts
Despatches, and which it is their desire should
be enforced to the utmost extent practicable.

11 The proceedings of the Board
of Revenue as now reported, are approved,
and the Board will be guided in their future
course

cause by the orders of Government recorded above. Should peculiar circumstances exist in any case which precludes the carrying out the views of Government fully, the Board will be pleased to report the case for further instructions.

12 Ordered that a copy of the foregoing Resolutions and of the Proceedings of the Board of Revenue and the papers submitted with them, as well as of the Minutes recorded by the Members of Government be forwarded to the Government of India and their attention drawn to the expediency of an early enactment rescinding Regulation XII of 1817 as proposed in the letters from this Government of the 25th April 1816 No. 21 and 13th March 1817 No. 313. In the mean time the Board of Revenue will be directed to withhold their final sanction from the measures taken by the Local Officers, which may affect the large Devastanums, till this Government shall be apprized of the views of the Government of India on the proceedings of this Government, and of the Boards now submitted, and if convenient they would beg to be favored with those orders on or early date.

Para 1 The Honorable the Governor in Council

Council does not perceive from the Board's letter above recorded or from their previous communication of the 15th October 1813 that the Summa Mosque in the Town of Wandiaghurry was ever formally endowed by the Jaghiredar. The monthly payment stated to have been made by the late Jaghiredar towards its support seems to have been a grant of a private character, and cannot be regarded in the light of a permanent endowment like other similar Institutions possessing Sunnud Grants.

2 It is observed moreover that the Mosque has since the resumption of the Jaghire been maintained in order and light provided for its own resources without the aid of Government, and since 1813 when the first application for allowance was submitted no representation appears to have been made on the subject by the Mussulmaun population of the town, the question of Endowing the Mosque having been lately revived by the Board themselves without any fresh application for it.

3 Under these circumstances the Governor in Council is of opinion that there are not sufficient grounds for recommending to the Government of India the grant of the allowance which the Board propose

to be made from the Public Treasury for the support of the Institution.

Officiating Chief Secretary to Government
Fort St George

Sir

I have the honor to acknowledge the order of Government upon Extract from Minutes of Consultation in the Revenue Department respecting the confiscation of Arrack at Masulipatam

2 By the permission of the Honorable the Governor in Council I would wish the suggestion contained in the 3d Paragraph of Mr

Mr Secretary Tyerofts letter to be carried out, namely that the actual quantity originally purchased by Juggapatty Roidoo in the Rajahmundry District should be ascertained

Sir Charles Lettow to Mr White 17th August 1814 Vide Rides of Govt No 55 Vol 24 of 20th Nov 1817

Mr Mathisons 3d Para and the Civil Contractors Statement of wastage

From Mr Mathisons Statement it would appear that the quantity taken by the Contractors Agent from the Villages had been ascertained, and that the excess over the Permits of Arrack actually carried away when compared with the Masulipatam measures amounted to 892 7/10 Viss: allowing for the bursting of two Casks and Road wastage the excess found and confiscated, Viz[t] 365 3/4 would scarcely leave any for illicit Sale on the road.

But Mr Mathisons Statement

4 may not be correct as the Revenue Board simply this point I think should be cleared in order that it may be ascertained whether Juggapatty Roidoo was guilty of a transaction against which Regulation I of 1820 was intended chiefly to provide. If he was not guilty of illicit sales on the road, I am naturally led to suppose that his motive lay somewhere else, and that it would be hard to punish him for a crime of which he was not guilty, even in intent.

I confess that I think his

5 conduct has been calculated throughout to create a suspicion of some improper motives

motive, I think it may fairly have been the, at the last sale of the Contract he raised the, of it considerably, and in order to make it answer intended probably to carry on a System of forcing sales and introducing more arrack than would on enquiry be allowed, his Permits would chiefly to screen him, But the Ad Civil Contractor was able and from disappointment very willing to expose him.

I respectfully leave Government however to give what weight is due to this last suggestion, and I trust that I may be favored with the decision of the Governor in Council upon the whole subject at an early period.

I beg to say in conclusion that I am making enquiries as to the propriety of forbidding any further importations of Arrack from the Rajahmundry District by the Sitting Abkarry contractor at Masulipatam.

The

The Honorable the Governor in Council observes that in this case the Board of Revenue acting on a power conferred on them by Regulation levied on the Military Arrack Contractor of Masulipatam a penalty sanctioned by Law, to which the Commissary General himself is of opinion that he had "strictly speaking" rendered himself liable. He believes that Colonel Sutlock is in error in understanding the Board to intimate an opinion that further enquiry is desirable, their judgment was final and the subsequent correspondence contains nothing to lead to the supposition that they have become dissatisfied with it. It is competent to them however to reconsider their Judgement should they see sufficient cause; and if the Contractor has anything further to offer he can petition the Board. The Honorable the Governor in Council sees no occasion for any order of Government in the matter, or so to the further continuance of the present correspondence.

4. It will be observed that in a many of the Estates, there was a consider-able increase amounting in the aggre-gate to Rupees 75591-12-11 whilst in others Viz.ts Goodewadah Bezoarah, Sood-joor and Corocolloo there was a falling off to the extent of Rupees 27683-2-7 This result is attributable to the circum-stance of the season having been favora-ble for the wet Crops and the reverse for the cultivation of Jonna, the prin-cipal produce of dry lands and the con-sequence in Estates composed almost entirely of wet lands, was an abundant harvest, and an increase in the settlement while those in which the Dry Crops con-stituted the chief source of Revenue exhibit a corresponding falling off, but it is satisfactory to observe that there was a Net increase in the set-tlement to the Amount of Rupees 47908-10-4 above that of the preced-ing year, and this increase would as have been still greater had it not been for the falling off in the prices

Season. 5. The season of the year under review was of an indifferent character- its commencement was marked by a fail-lure of periodical rains till the end of September; but, the abundant supply of water furnished from the Kistna and Godawary rivers as well as from the Tam-melair and other sources induced the Ryots to exert themselves in extending wet Cultivation, which they did with much suc-cess owing to the heavy and incessant falls of rain in the Month of October 1846; and subsequently thereto. These same rains however proved very detrimental to the cul-tivation of Jonna, which up to the above quoted period had been carried on so briskly, by arresting its progress and rendering its returns scanty. The Poonasa Crop likewise shared a similar fate

fate. The nature of the Season, tho on the whole of the character above described was not uniform in all parts of the District and the out turn of the different Estates was of course differently affected in consequence.

6. The number of Villages belonging to the Estates under report which were settled in Fasly 1256, for the year was 244; of which 206 were settled for both Wet and Dry lands, and 38 for wet lands only. the Dry lands of the latter having been previously rented. In the whole of these the settlement was effected on the estimated resources of the year.

10. From the above it will be observed that tho' there was an increase in the Dry Cultivation in the Estates of Bezwarah and Goodjoor to the extent of 51 — 11 — 15¾ there was a deficiency in the out-turn from these Estates of 14701 — 3 — 1 — 1. The principal portion of the lands situated in these Estates consists of Dry lands suited for the cultivation of Jonna. The commencement of the season was particularly favorable for this cultivation which was accordingly carried on to a great extent but just when the Crop was coming to maturity, it suffered from the heavy fall of rain about the middle of October. The lands were moreover inundated by the over-flow of Boodemair Channel by which the Jonna Crop sustained serious damage.

11. The cultivation of Dry land in the Goodewadah Purgannah tho' not carried on to quite the same extent as in the preceding Year was attended with a more favorable result, the out-turn being slightly in excess of that of Fusly 1255.

S.D. - 1845/46.

In

12. In the Ellore Mootah there was a decrease both in extent of Dry Cultivation and produce therefrom owing to the lands situated within the Tanks of Chatarparroo and Saulepoody having been cultivated with wet Crops in the Fusly under review in consequence of a large supply of water having been received into those Tanks which in Fusly 1255 owing to the supply not having been so plentiful were cultivated with dry Crops. The decrease in the Dry land cultivation in this Mootah has been, it will be seen, more than made up by the increase from the wet produce. In Walawadum and Chintalapoody also there was an increase in Dry cultivation both as regards extent and produce, as shewn in the Margin.

13. As regards the decrease of wet cultivation and the return therefrom, it is to be observed that in Goodewadah Purganah tho' the cultivation

Cultivation commenced equally well as in Fusly 1255, and was carried to nearly the same extent, yet its return was less by 19055-2-5-3 O. M. P. O. this deficiency occurred chiefly in the Villages of Tameresa, Toomm alapully, Dundegurnepoody, Chena Kerevandah, Yelapurroo, &c. appertaining to that Estate, in consequence of the failure of rain and the prevalence of Cholera, and the consequent mortality among the Ryots. In the Vennacottah portion of the Estate it will be seen that there was an increase both in extent and produce in the former of Cullies 144-8-0- and in the latter of Purrahs 16861-1-6-6.

14- The extent of wet land in the Coroocalloo Mootah, tho equal to that of the preceding year has exhibited a decrease in the produce of Purrahs 5,826-4-0 The wet lands in this Estate are in the absence of any other sources of irrigation only dependant on rains but owing to the drought which continued till the Month of October the cultivation was up to that time very limited. It was however subsequently extended

extended from the rains which fell in the latter part of that Month, so that it reached the extent of land cultivated in last year. but the out-turn was scanty owing to the advanced period of the season at which the Crop was raised.

There was a decrease in wet cultivation in the Valawadum Mootah of Cat-
15- ties 8-4-0 but an increase in the produce of about 3,237-3-0-7 O. M. P. O. the cause of which is traced to the circumstance of the Tanks in this Estate not having received their usual supplies till the latter end of October in consequence of which a smaller extent of land was brought under cultivation, but the subsequent heavy falls of rain and the store of water thus collected in the Tanks afforded sufficient means of irrigation to the Crops already on the ground which yielded a tolerably good return, shewing an increase above that of last year.

The nature of the settlements on

an annual lease formed for Fusly 1256 in the 214 Villages indicated above in Parah, the extent of Cultivation of Dry and Wet land, the amount of Sist on the estimated Circar share of the produce with reference to the current prices including that on Teeroovaput and Bagayet lands, and ready money Collections, is shewn in Statement No. 1.

17. It may be as well here to mention that of the above Villages 9 composing the Soodjoor Purgunah were carried out at the commencement of the

year for Rupees 11462 a sum exceeding the average demand of the several years and series of years shewn in the Margin, except Fusly 1255, in which the settlement was enhanced in consequence of the exorbitant price for grain in that year, but the effects of the season were subsequently so adverse, and the injury sustained by the Fasma, which formed the principal

Crop

Crop, was so severe, that the actual resources did not exceed on a careful estimate the sum of Rupees 7349-2-5 this accounts for the non-realization of the full amount of the demand.

18. In the Villages of the remaining Estates, the produce in both Dry and Wet lands was estimated by Zillahdars, Tahsildars and other Circar servants, and the settlement was accordingly determined with the consent of the Villagers, reference being had to the above estimates, extent of Cultivation and produce in the Current and former years, as also to the diminution if any in the Cultivation of Teeroovaput and Bagayet lands below that engaged by the Ryots owing to the negligence on their part. Cowles and Caboolents have also been exchanged for the above rents, the amount of which exhibited an increase of Rupees 4687-1-3 above the Jalook Estimates.

19. It has of Course been my object to obtain before hand as correct Estimates of the resources

resources of the Villages thus settled on annual leases as possible, with the view of obtaining proper offers for the rents of them, and it has heretofore been usual as an additional security to the Government against loss by oversight in estimating the produce or other cause to insert a clause stipulated in the Cowle and Mocheilkas exchanged between the Circar and the head inhabitants to the effect, that any excess which may be found by further examination will be given up to Government. The excess found accordingly in some instances has been brought to account as however the system of "after scrutiny" is pronounced in Para 5 of the Board's Proceedings dated 22d April and Para 2 of the Minutes of Consultation dated 5th June last to be objectionable, it will be discontinued accordingly from Fusly 1257.

a total settlement for the year under review to Rupees 75—15—1 shewing a decrease of only Rs A P —14—4 below the preceding year.—

23. The subjoined abstract exhibits the amount of leases sanctioned by the Board as well as the rent of certain Villages in Bezwarah, Joodjoor, Corrocollon, and Valadinna Estates, leased out by the Zemindar during his management, inclusive of the items not included in the said rents for Fusleis 1255 and 1256 respectively.—

24. It will be observed from the above statement that except in the Estates of Padapandoo and Toommedy which shew a decrease of Rs. 348 6 3, there was an increase in all the other rents to the amount of Rupees 1154 7 8

The principal portion of the above decrease Viz.t Rs. 341 8 9 on Padapaud arises from the discontinuance of Extra Items under the orders of Government dated 3d June 1847.

To Bd. 17 Dec.r 1846. Bd's Rec. 22d April 1847 Para 11.

25. The decrease in the Toommedy Mootah, Viz.t 6 13 6 is owing to the reduction in the rent of the Villages of avanoor the result of the survey of the lands thereof agreeably to the terms of the Cowle having been a diminution in the extent entered in the accounts.

26. Referring to Para 23 of this report it is to be observed that the rent of four, out of six Villages in the Padapaud Mootah having been cancelled under the Board's instructions in consequence of the incompetency of the security tendered by the renters, they have reverted to Ummany Management for

for Fusly 1257 the term of the lease of the remaining two Villages will expire with Fusly 1258 F. D. 1848-49

27. The term of the rent of 11 out of 13 Villages in the Bryoarah, Doodjoor and Coroocolloo Mootahs leased out by the Zemindar during her management as stated in Para 92 and 96 of my report for Fusly 1255, having expired with Fusly 1256. they have reverted to Ummany in Fusly 1257, and the Revenue thereof is included in the settlement. The Extra items not included in the rent have been added to the settlement of Fusly 1256. The term of the lease of the two remaining Villages, Viz.t, Lingalunka and Dooddepuddy will expire with Fusles 1257 and 1258 respectively.

To Bd. 9 Dec.r 1846.

28. In reference to the concluding part of Para 7 of the Board's Proceedings dated 27th September last, remarking on the rent of the Village of Lingalunka for Fusles 1256 and 1257 being low, instead of shewing a

a gradual improvement it is to be observed that the Village was originally let on a quinquennial lease from Fusly 1253 (1843-44) by the then Zemindar at the annual rent of Rs 116-4 but in consequence of the falling off in the actual resources of the Village for Fusly 1253 (1843-44) an abatement of Rupees 41-4 was allowed from the rent of the said year, and the same added to that of the next two years by which the rent of Fusly 1253 was reduced to Rupees 75- while that of Fusties 1254 (1844-45) and 1255 (1845-46) amounted to Rupees 141-4 and 132-8 respectively, and under this circumstance the rent for Fusties 1256 and 1257 stood at Rs 116-4 according to the original agreement made by the Zemindar as this amount does not appear to me to be particularly low in comparison with the amount which has been derived from the Village in former years, I see no objection to the continuance of the lease for Fusly 1257. The term of lease for 10 Villages in Chowdapondracca and Valavadinaiken Mootahs granted by the

the Zemindar having expired with Fusly 1256 they reverted to Annamy in Fusly 1257

Referring to Para 5 of the 29 Board's Proceedings dated 22d April recommending that, in lieu of the condition of paying excess exist "after scrutiny," it would be preferable to stipulate the payment of increased sist as in the case of Contarums, and that this ought with propriety be attended to in all cases; I beg to observe that I do not see how this is to be done if we are to dispense with the "after scrutiny" clause altogether as the Board appear inclined to do. It was only for the purpose of avoiding the operation of this clause that the Contarum people made their advanced offer, the clause having been ordered to be discontinued, of course the inducement to make an increased offer "in lieu of it" is removed. The better plan I think would be to allow the Collector to give the renters the option

option of one arrangment or the other.

				Net Increase	60154 12 5	

55 From the above Statement the Board will observe that the Settlement of the fusly under review exhibits an increase in some Estates of Rupees 75131-4-6 above the Peishcush demand, while in others there was a decrease of Rupees 11976-4-1 The decrease is chiefly attributable to the great falling off in the resources of the Villages of Padapatam, Chena Pondrace, Toommedy, Ellore, Inoolah &c., the out turn from which was consequently below the amount of Peishcush during the fusly under report-The Padapaud Inoolah is under rent, the amount of which, tho' below the amount of Peishcush, was nevertheless greater than that derived under cumiany before the rent- In the year, there was an abundance of produce which was quite sufficient not only to pay the rent of the year, but also for the payment of the arrears.-

The

56 The Settlement of the Padawah Inoolah and the Village of Cuppaladdy shews a decrease, not only in consequence of the scantiness of produce, but also from the rent of the Sudjo Farm having in conformity to the Board's instructions discontinued and included under the Head of Inoturpha. The aggregate amount however derived from the Government Estates exceeded the Peishcush by Rupees 60154-12-5-

Accounts Current Nos. 3 to 17

57 will shew the total receipts, arrears & Current, the disbursements, and the Surplus Revenue carried to account amounting to Rupees 259563-11-4, the particulars of which are shewn below- The balance of Cash remaining in favor of each Estate has subsequently been credited to the Peishcush of each respectively-
