4454 Fort St. George 3 March 1848.

Diary.

28th Feby in Cons 25th March 1848.

Read Register of Petitions for disposal by the Collector of Rajahmundry for January 1848.

Here enter No. 1

Proceedings thereon.

1

From the remarks of the Collector on Petition No. 772 of 1845 presented by M. Ramboopathy Davoo Munsifdar of the Rumpah Talook, entered in the Register above recorded it would appear that the Principal Chiefs of Rumpah have signed an agreement specifying the terms on which the Country will be put in possession of the young Zemindar but that the arrangement has not been carried out for want of the signatures of the other Chiefs who have been summoned to appear.

ORIGINAL DESTROYED

2. The Board observe that considerable time has elapsed since any progress has been made beyond that stated in the foregoing Register. Mr. Prendergast will therefore be pleased to take such further steps in the matter as may be found to be necessary towards the Settlement of the question and submit his arrangments before they are finally adopted for the confirmation of the Board.

Received

4455. Fort St. George — March 1848.

2

From the Collector of Tinnevelly. Received letter forwarding application from F. B. Elton Esqre Sub Collector of Tinnevelly dated 13th March last requesting leave of absence on Medical Certificate to the Neilgherry Hills, till 1st — January 1849.

2-3

Order thereon.

Ordered to be submitted through the Channel of the Civil Auditor for the favorable consideration of Government.

Read the following letter.

4

From the Collr of Bellary.

To. T. Pycroft Esqre Secretary to the Board of Revenue Fort St. George.

Sir,

Informing that Mr Daniell having proceeded on Sick leave and Mr Arbuthnot ordered to take charge of the Sub Division on the 3d Feby. he has done so on the 10th ultimo from which date he claims deputation allowance & requesting to obtain sanction of Government to permit Mr Arbuthnot to draw the allowance accordingly

My Sub Collector Mr L. D. Daniell having proceeded on Sick leave and temporarily vacated his Office towards the latter end of December last, I took charge of it under my own management, but as the duties of the Settlement of the Talooks comprizing the Sub Division urgently required the services of a European Functionary to conduct them; I waited for a month anticipating the appointment of a successor to Mr Daniell, finding however, that no one was nominated, I desired my Head Assistant Mr D. Arbuthnott on the 3d February to take charge of the

ORIGINALS DESTROYED DEC 31

4456 Fort St. George — March 1848.

Sub Division. He accordingly proceeded and took charge of the Office on the 10th ultimo, and settled one or two Talooks previous to his appointment as acting Sub Collector and Joint Magistrate of Bellary which took place on the 7th instant. Vide Page 205 of the Official Gazette of the current year.

Deputed as he is to a different Station from his own, under special circumstances, Mr Arbuthnott now claims Deputation allowance from the 10th February the Date on which he took charge of the Sub Collectors Office at Ammtapoor, and entered upon the discharge of its duties, and I consider him entitled to the benefit (in point of allowance) accorded by the provisions of the latter part of Section 21 amended of the standing Rules.

3. Under these circumstances, I have the honor to request that the Board will obtain the sanction of Government to permit Mr Arbuthnott to draw Deputation allowance accordingly.

Bellary District, Collectors Office on Circuit, Ramandroog, 17th March 1848.

From the Board to Government —

Extract from the Minutes of Consultation dated 13th. March 1848.

(From Board 24th. February)

Under the explanation furnished by the Collector of Madura and the opinion now submitted by the Board after a review of all the circumstances of the case, the Honorable the Governor in Council resolves to confirm the yeomiah of Rupees 154— 13—7 (one hundred and fifty four, annas thirteen, and Pice seven

Seven

Seven per annum held by Allavoo Leen Shisty to be enjoyed together with the Enam of Cully goody as a grant for the support of the Mosque situated at that Village.

(Signed) J. D. Bourdillon
Offg. Secretary to Government

8-9

Order thereon. Ordered to be communicated, with copy of the Board's letter dated 24th. Ultimo, for the information and guidance of the Col. lector of Madura, with reference to his letter dated 22d. December last.

Read the following letters—

To J. B. Ronpell Esqre.
Acting Secretary to the
Board of Revenue
Fort St. George

10

Sir,

From the Sub Collr. in Charge of Rajah'y } Paral

On Petition No. 1843 of 1847, the Board have made the following Endorsement, "referred to the Collector for disposal, and report if necessary."

2. The petition contains an appeal against my decision as Sub Collector, adjudging Petitioners to pay each a fine of 20 Rupees, commutable to one months imprisonment, for certain fraudulent

fraudulent omission from their accounts, as Cummums of the Village of Moottalapil. ly in the Talook of Mogultoor.

3. The case is clear and simple, and under the Boards' Endorsement would not need report, but from the fact, that if disposed of by me in my present position, I should be confirming in appeal, a decision passed by myself, and the parties might justly complain, that their appeal had not received an impartial hearing.—

4. I have therefore the honor to transmit the whole of the original records with my decision in English, and the petition of appeal, for the final disposal of the Board.

No. 1 with Lisb.

Rajahmundry District
Pandemulla 3d. February
1848

(Signed) H. Forbes
Sub Collector in charge

Read also appeal Petition returned in the above letter presented by Kristniah and two others, Cummums of Moottalapilly and other Villages in the Mogultoor Talook against the decision of the Sub Collector by whom a fine of 20 Rupees each commutable to

to one months imprisonment was awarded under the above quoted Regulation.

/Here enter No. 1843 of 1847/

Proceedings thereon.

(10-11)

The appellants were charged with having omitted from their Accounts certain items of Motarpha Revenue amounting in the aggregate to Rupees 19. which offence appears from the documentary evidence taken on the trial to have been fully substantiated.

2. The Board having perused the proceedings now laid before them and taken into consideration the defence set forth in appeal by the Defendants, approve and confirm the decision recorded by the Sub-Collector adjudging the levy of a fine of Rupees 20. from each defendant commutable to a term of one months imprisonment in default of payment agreeably to the provision of Regulation IX of 1822.

Endorsement on above appeal Petition.

The Board of Revenue having had before them the original proceedings held by the Sub-Collector in the matter of this appeal do have confirmed the sentence passed by that Officer awarding a fine of Rupees 20. or one Months imprisonment.

A. J. B.

on each of the three Appellants conformably to the provision of Regulation IX of 1822.

To, J. Pycroft Esqre
Secretary to the
Board of Revenue
Fort St. George,

(12)

From the Sub Collector in Charge of Rajahmundry

Sir,

I have the honor to acknowledge the receipt of an Extract from the Boards proceedings of the 13th January transmitting a Copy of a letter from the Commissary General to the Military Board, and an Extract from the Minutes of Consultation, requiring a report on the present state of the forests on the borders of Rajahmundry; and on the extent to which Saul and Teak timber, is now procurable from them, with any suggestions that may occur in connection with the subject and the navigation of the Godavery.

Affording information on the present state of the forests on the borders of Rajahmundry in reply to the Boards Proceedings of the 13th January 1848.

2. The Saul tree is utterly unknown in any part of Rajahmundry, and I believe I am correct in saying that it has never been met with south of Ganjam. The timber is to be found not very far from Chicacole, my information is however not personal, but derived from those, who have lately seen it there of a large scantling used for building purposes.

3. My letter to the Board of the 6th

of

of January contained all the information I had been able to collect on the subject of the Teak forests, and although I have since continued my enquiries in all directions, I have not gathered any further particulars. To that letter I beg leave to refer the Board, and with reference to our present ignorance of the state of the forests on the borders of the Provinces, and the pressing demand for timber for the service of Government. I would again urge upon the Board the necessity for a careful and scientific survey of the forests.

From all I have seen myself, and from the better information I have received from others, I do not believe, that the least trouble has ever been bestowed, or the least expense ever incurred by the Native timber Merchants to open out communications from the forests to the river, the timber they have required has been found upon, or very near the bank, and although now that what is little less than a systematic destruction of the forests has been going on for years, they find more difficulty than formerly in procuring wood, that

difficulty

difficulty consists only in having farther to go for it. the same wanton destruction of timber that commenced at Palavaram, where the Godavery issues from the jungles has been gradually running, its course along both banks of the river, and now extends for 40 miles. and all the time the forests on the sides of the river, are unexplored, unexamined and unknown, because the Natives are wanting in energy, in science and in skill, and are unwilling to expend money, and unable to adopt means, to bring the produce of these forests to the river.

4. On a late occasion, when the Civil Engineer Major Cotton was examining the country on the East bank of the river, near the Village of Mantoor, which is about 10 miles above Palaveram, he suddenly came upon a magnificent and almost boundless forest of the finest black Muddee wood, containing not less probably than fifteen thousand trees. This forest had been left entirely untouched by the Natives, because to bring the wood to the water edge, it was necessary to make a timber road, at an expense probably of five hundred rupees.

5. We do not know the state of the

forests

forests off the river bank, but there is every reason to believe, that they contain large quantities of very valuable timber. The black Mudlee wood abovementioned, would this year fetch at Cornja at least 8 Rupees a log making that forest alone worth upwards of a lac of rupees. That single fact gives great promise of success, but even were nothing known but that we are not at present ignorant of the state of the interior of the Godavery forests, it would be sufficient reason for having them explored.

6. If it should be determined to take steps for ascertaining their present state and the facilities for forming rough roads for the conveyance of the timber to the river, the services of Mr. Barton, who is so highly spoken of in the Commissary Generals' letter might probably be very advantageously made use of, but as various questions would arise which could be properly determined only by a scientific Officer, the Board would probably place at the head of the survey an Officer of Engineers, to whom Mr. Barton would be a valuable assistant. The chief difficulty connected with any examination of the forests, has hitherto consisted in the unhealthiness

unhealthiness of the climate, but there are now means at disposal such as have not heretofore been available, which could very materially tend to remove this difficulty. The Civil Engineer has a small steam vessel drawing from 2 feet to 2½ feet water, in which the river might be ascended to any required distance, in which the Surveying Officer might live instead of remaining on the shore, and which would afford the means of rapidly conveying the Officers from Rajahmundry their head quarters to any point it might be considered desirable to visit, and to bring them back before their residence in the [illegible] hills had been sufficiently long to produce injurious effects.

7. After a survey shall have made known what the state of the forests is, it will then be subject for consideration, what measures shall be adopted for their future preservation. In my former letter to which I have already referred has shown that at present the conservation of the forests, is not even attempted, and that every one is at liberty to cut wood when, and where, and of what sort and description and age and in what quantities he pleases. I also shewed that European Countries had found the necessity for attending to this question, and that India would do well to take timely warning by their example before the

the necessity was forced upon her.

8. The question of the navigation of the Godavery, is one, on which I am not at present prepared to report, but I am endeavouring to collect information as to its' state in its upper course and the result, I shall have the honor of bringing before the Board on a future occasion. The river at its lowest state offers no hinderance to timber rafts, and the subject may therefore be considered independent of the present question.

Rajahmundry District

Read the following letter.

To J. B. Ronpell Esqre
Acting Secretary to the
Board of Revenue
Fort St. George,

16

From the Collr of Masulipatam } Para 1.

Submitting report relative to the condition of the Vinnacottah and Goodewadah Estates as well as for the remission of allowance to the Ex Zemindar.

Sir,

The following instructions were conveyed in an Extract from the Board's Proceedings dated the 18th May 1846, which were accompanied by a Copy of a previous Extract from their Proceedings, and of an Extract from the Minutes of Consultation of Government bearing Dates as noted in the Margin, and have reference to a report on the condition and resources of the Vinnacottah and Goodewadah Estates, furnished by me to the Board under date the 21st July 1845.

Board's Proceedings 30th October 1845 Minutes of Cons. 28th April 1846.

Board's Proceedings 18th May 1846 Para 2.

1st It was ordered that the resolution of Government to retain possession of the above mentioned Estates, which have reverted to them by purchase on account of arrears should be communicated to the Ex Zemindar C. Pauparow, and that a renunciation should be obtained from him, in writing of all claims to outstanding balances against the Ryots of those Estates to enable the Board to recommend that

that he may be relieved from the unadjusted balance of Peishcush amounting to Pagodas 17,997½.—

Boards Proceedings 18th May 1846 Para 3.

2d. A further full report on the condition and resources of the two Estates, was called for, to be made in communication with the Civil Engineer in regard to their irrigation.

Proceedings 18th May Para 4 Extract Minutes of Consultation 28th April 1846. Para 8.

3d. The express object and prayer of the Petition addressed to Government by Vissoo Gungaranzo on the subject of these Estates was to be ascertained and reported on.

Do. Do.

4th. A liberal allowance was to be proposed by the Board, in communication with the Collector, for the family of the Co-Zemindar, which the Government stated that they were prepared to sanction, subject to the approval of the Court of Directors.

No. 1

2. In conformity with the first portion of the above instructions, I have the honor to forward herewith, Copy and translation of the renunciation which Paupiah now has presented to me, on being informed of the orders of Government in regard to the disposal of the Estates lately his property by which it will been seen that he agrees to forego all claims to outstanding balances due to him by the Ryots previously to the sale

of

of the Estates for arrears of revenue. Thus there exists no further obstacles to an adjustment in the accounts of the arrears of Peishcush outstanding against him.

3. In reference to the 2d. point, the Board in Para 10 of their Proceedings dated the 30th October 1845, observed, that "circumstances as the partial failure of the Kistna freshes, and a depressed state of the market for agricultural produce may have operated to disturb the realization in full of what was expected, "but are not sufficient to account for the great difference noticed, particularly the decrease during the last 4 years of the 2d. series of management." and a statement is called for to shew with reference to the Civil Engineers' Diary for the month of February 1836, what Tanks have been put into complete repair to receive the supplies from the Kistna, with the extent of land under each Tank fit for cultivation, and the extent actually cultivated. also what Tanks remain to be repaired with the extent of land under them." It is further desired that the Board should be furnished with a report on the state of the Poollaroo and Boodemaroo.

4. The information called for above on regard to the Tanks in this Estate dependent

on

on the Poolleroo and Brodemarra is contained in Statement A herewith furnished which exhibits the state of affairs as regards these Tanks from Fusly 1247 (1837-38) and 1249 (1839-40) when the supplies through these channels were first received from the Kistna, to Fusly 1254 (1844-45). It would appear from this that a sum of little less than Rupees 11470-15-7 was laid out in repairs to the Tanks during the period of 8 years from Fusly 1247 to 1254 - a sum of Rupees 36,428-1 was also expended in the same period in effecting the Poolleroo and the Jagammadala Colaw which supplies water to the Brodemarra and the dependant channels - yet it would appear from the Statement that the average cultivation in the period embraced, did not exceed one third of the land fit for cultivation. Nor did the

Estates	Estimated Account	Actual Cost

the revenue derived therefrom reach the maximum shown in that account in any one year.

5 In further illustration of the subject and with reference to the Civil Engineer's Diary for February 1836, I beg to submit another Statement B, shewing the revenue derived under the particular Tanks therein alluded to, subsequent to the opening of the Poolleroo and its dependant channels, compared with that of the period preceding, which shews that in three out of 10 instances, instead of there having been an improvement in the resources of the Villages, a considerable falling off has occurred. The only Tanks which would appear to have been much benefited by the Poolleroo are those situated as in Cowtaram. Do Repurroo, Vinnacottah &c. which are large and near the mouth of the channels by which they are supplied.

6 I would here take permission to observe that much benefit may be expected to result from the introduction of a large supply of water into the Poolleroo than has hitherto been obtained from its head near Vulloor pollem. Opposite to which, and a very short distance, an island is forming and a great accumulation of soil takes place every

every year which it has been attempted to prevent by means of fascine work which has however failed to produce the effect anticipated. I proposed therefore this year to have the old head of the Poolleiroo cleared out from the point where it leaves the Kistna Yanamadala Coduroo to its junction with the aga Coloo or present head near Yalamoor, and I have accordingly requested the present Civil Engineer of the Division with reference to the observations contained in his predecessors Diary for the Month of January 1846. to have an Estimate formed for the repair of this Channel and entered in the ordinary list for the ensuing year.

7- That these Estates should as shewn by the Statement now furnished have derived so much less benefit than might at first sight have been expected from the large sums which have been expended for their irrigation, may in my opinion be mainly attributed to two causes which I have already in several instances had occasion to notice to the Board in reporting on these and other Estates in this District. 1st. the want of Tanks of sufficient magnitude to contain

contain like those in the Southern Districts, water sufficient for many Months irrigation, and 2d the want of rain at the particular season of the year when it is most required to carry to perfection the Cultivation, which previous supplies from the Rivers had induced the Ryots to commence. The Jamabundy and other reports submitted by my Predecessors and myself during the period embraced in the Statement now submitted contain information regarding the seasons sources of irrigation, and prices of Grain by which these Estates have been affected which would appear to render a recapitulation on the present occasion almost unnecessary. I would however beg attention to the annexed brief Statement which exhibits the nature of those reasons and their effects

Fusly 1247 The Jowlah and Black Pad dry Crop had suffered from heavy rains in October and November.

Fusly 1248. There was an entire failure of periodical rains and freshes from the Kistna thro' the Poolleiroo and Boodemair Channels

Fusly 1249. There was a considerable increase in the revenue from wet lands consequent on abundant freshes by the re-opening of Poolleiroo and Boodemair Channels the Cultivation was favored by rains in October and November

Fusly 1250. Thro' the subordinate Channels of Poolleiroo and Boodemair, the Tanks received full supplies of water from the early freshes by which a

a large extent of wet land was cultivated, but the produce failed by drought in October and November 1848.

Fusly 1251. This was on the whole a good year for the Dry and wet lands. The tanks were well supplied from the freshes of Kistna.

Fusly 1252. The season was tolerably good the wet and dry lands were cultivated to a considerable extent & yielded an adequate return with the exception of Jonnain which there was a deficiency.

Fusly 1253. From the partial rains which fell in July and August Crop was raised for transplantation, but by the unexpected rise of Godavery nearly the whole was destroyed.

Fusly 1254. In August, September & October the rains were heavy. The North East Monsoon set in in the month of December and it was very favorable for wet lands.

effects on the out turn of these Estates. The sources of irrigation would appear to have been invariably turned to account so far as they could be made available, at the commencement of the season for the sowing off the seed and raising Crops for transplantation, but unless backed by a subsequent supply of rain at intervals, and particularly during the North East Monsoon, their advantages have generally turned out to be comparative ly trifling - a good beginning has in many instances

been succeeded by an indifferent ending; as the results of fusles 1248, 1250 (A.D. 1838-39, 1840-41) and 1253 (1843-44) sufficiently testify. In these years the freshes came down in abundance, in consequence of which cultivation was carried on to the utmost limit but the out-turn was but indifferent after all, in consequence of the failure of rain in October and November, the average rate of produce per Cutty being only 6 — 13 — 17 3/41, whereas that of fusles 1251 and 1254 (1842-43, 1844-45) was 15 — — 32/4 as noted in the Margin.

	Rate of produce per Cutty	C.	J.	S.
Fusly 1248		2	7	2
1250		4	18	21
1253		12	14	27/41
Total		6	13	17 3/41
Average		15	15	13
Fusly 1251		14	4	47
1252		14	11	37
1254		45	2	1
Total		45	2	1
Average		15		32/4

This unfavorable result was of course aggravated by the circumstance above alluded to viz: the tanks and reservoirs not being of sufficient magnitude to retain a supply from the freshes sufficient to come into play during the latter part of the cultivating season - but this deficiency it is to be hoped will be amply supplied by the contemplated works in the two great rivers by which this District is bounded, which are calculated to ensure a constant supply of water

as water, thereby obviating the necessity for the Tanks and reservoirs, the want of which has been hitherto so much felt. That the settlement of a year fluctuates according to the goodness or badness of season and prices is evident from the effects of the seasons of Fusles $\frac{1255}{A.D.\ 1845\text{-}46}$ and $\frac{1256}{1846\text{-}47}$ in which the settlement amounted to Rupees 98,061-14-12. and Rupees 93,063-7-- respectively, owing to the abundant freshes from Kistna thro Poolla-roo and Boodemair, as also to the highness of prices.

9. I would briefly advert to one other circumstance which has also operated to the declension of revenue in these Estates. Viz.t the fact that in seasons of less abundance it has frequently happened that prices have fallen considerably; owing to large supplies received from without, and other causes a result not usually experienced in seasons of drought and consequent scarcity of produce are usually attended with a rise in the price of grain.

10. As regards the 3.d point upon which information is required. Viz.t the express object and prayer of Dawsoo Gungaranze the Petitioner in

No

x herewith returned

No. x 423 of 1846 and his connexion with the family of the Ex-Zemindar, I have to state that I have ascertained that this individual was formerly employed by the Ex-Zemindar in his service, and was once concerned in the management of his property but removed in consequence of his having abused the confidence reposed in him by his employer.

The Petition itself is not very intelligible, but its object plainly appears to be, to throw every possible obstacle in the way of the Zemindars obtaining any assistance in extricating himself from his difficulties. This person has presented in times past several Petitions to the Board and Government, containing misrepresentations against the Officers of Government which have been rejected as unworthy of notice, and his conduct has on several occasions been animadverted upon by the late Collectors. He is also at issue with the Zemindar and the Collector in two suits brought forward by him in the Courts for the recovery of the Agraharum Village of Ullore, and 4 Cultivs of Enam land in Tonneresa and Cummanapoody; referred to in the correspondence noted in the margin.

Board's Proceedings 24th Decr "

Margin: Under these circumstances, and considering the motives by which the Petitioner is actuated, I should hardly think that any further notice need be taken of his representations on the present occasion.

12 It only remains to notice the subject adverted to in the concluding Para of the Minutes of Consultation under acknowledgment, wherein the Board are instructed "to propose to Government in communication with the Collector a liberal provision for this ancient family, which the Government will be prepared to sanction, subject to the approval of the Court of Directors."

28th April 1846 Para 8.

13. The wishes of the ex-Zemindar in regard to the restoration of his Estates, or the provision to be made for him in the event of their being permanently retained by Government, are set forth in the accompanying Petition addressed to the Board which at the request of C. Canpiah Row, is herewith forwarded for their perusal. It does not seem necessary to notice the arguments adduced with the view of obtaining the restoration of the Estates on a reduced Peishcush, as these have been already disposed of by

by the Board and Government. But in regard to the proposed Provision, the ex-Zemindar, it will be seen prays that it may be made in the shape of a Grant in land from which he may derive an income of not less than twenty thousand Rupees per annum. I am not in possession of the sentiments of Government in regard to the mode in which it is considered best that provision should be granted in cases such as the present - but from the observations of the Board in this particular case, it would appear that it would be considered inexpedient to continue

Board's Proceedings 1st October 1845 Para 12.

the family of the ex-Zemindar in possession of landed property - and in this view, I am inclined to coincide. The Zemindar and his brothers have been in the receipt of an allowance of Rupees 6,000 per annum since the Estate has been under the management of the Government authorities, or for the last 10 years, and I think that a Money allowance double that amount or 12,000 Rupees per annum, would be ample for the support of the family and sufficient evidence of the liberality of Government and their wish to preserve the family from the utter ruin to which

for

cut

under

under the strict administration of the Laws as regards their Estates, they would long since have been consigned.

No. 1

Translation of an Agreement executed to the Honorable Company by Rajah Camanah Pauptiah row Zemindar of Vinnacottah and Goodewadah Purganahs.

While I was Zemindar of the said Vinnacottah and Goodewadah Purganahs arrears accrued up to 30th June 1843 to the Amount of Rupees 479.974-3-10 being the principal and interest on account of Peishcush, consequently the Purganahs in question were put up to sale in the Month of November 1843, when the Circar purchased them on the highest bidding for Rupees 3.00.000, after deducting which there remained a balance of Rupees 479.974-3-10, to which is to be added a balance of Rupees 36.963-15-7 due on account of subsequent Kists including interest up to 9th March 1844, when the sale in question was confirmed by the Government, making total Rupees 2,16,978-3-5 which is due by and

me to the Circar.

I do therefore hereby engage that I will forego all the claims I had on account of the balance of Kist &ca outstanding on the Ryots, Mokassadars, Aggrahaarundars &ca when I was Zemindar of the said Purganahs, I do agree that for my heirs altogether cease for ever to make any demand from the said Ryots, Mokassadars &ca or their heirs or any others on that account. In consideration of which I most humbly pray the Circar will be pleased to grant to me remission of the balance due by me to the Circar over the said Estates, and cause it to be accordingly written off in the accounts. This agreement is executed by me with my free will and consent.

/ Signed / Rajah Pauptiahrow

11th September 1846.

In Petition presented 11th September 1846. at Goodewadah

15th February 1848. (Signed) R. S. Porter. Collector

16-17

Proceedings Submitting letter from the Coll.r of Masulipatam relative to the Vinnacotah and Goodewadah Estates and forwarding a Document from Paupiah Row the late Zemindar renouncing all claims of balances against the Pyots of these Estates with a Petition from him. Recommending that he be relieved from the demand of Peishcush outstanding; requesting that the whole subject of the irrigation receive the best attention of the Civil Engineer and the Collector concurring in the opinion of that Officer that the Petition from Dasoo Gungaraze is undeserving of notice and in preference to the Petition of Paupiah Row that an allowance of Rupees 1200 per Annum would be suitable in every respect as affording a provision for the Family.-

thereon.-

From Gov.t 8th April in Cons.s 18th May 1816

To Masulipatam 18th May 1816.-

Mr. Porter was required under the orders noted in the Margin to inform Paupiah Row the late Zemindar that the Government had declined to comply in the his request for the restoration of the Estates in question, and to assure him that ample provision would be for the Family. A renunciation in writing of all claims to outstanding balances against the Pyots of these Purgunnahs was to be obtained from Paupiah Row to enable the Government to relieve him from the outstanding Balance of Peishcush. Mr. Porter was also required to report fully on the condition and resources of these Estates and to place himself in communication with the Civil Engineer on points connected with the irrigations. A Petition from Dasoo Gungaraze on the subject of these Estates was at the same time forwarded for report and the Collector was instructed to propose a liberal allowance for the support of the family.-

2. Mr. Porter has submitted the renunciation required and the Board according by beg to recommend that the Ex Zemindar

Zemindar may be relieved from the outstanding

Arrears of Peishcush - - - 170974- 3- 10. demand on account of

Interest - - - - - - - - - - - - 36953- 15- 7 Peishcush amount-

2,16,928- 3- 5. ing to Rupees

2,16,928- 3- 5.

3- In illustration of the condition of these Estates both previous to the improvements to the irrigation by means of a channel from the Kistnah and subsequently, Mr. Porter has furnished Statement A and B as noticed in Paras 8 and 9 of the Boards Proceedings dated 30th October 1815, the Revenue from the entire Estate has been less since the execution of the Repairs. The

Repairs of Tanks. Rs 11470-

River Channels - 36425.

47895.

outlay for repairs has amounted to Rupees 47,895. but the actual cultivation has been about ⅓ only of the extent of land fit for cultivation, and the only Tanks which may be said to have drawn ample supplies from the Kistnah Channel are

Stat.t B. Contaveram, Dakeparroo, and Vinnacottah. These Villages are stated to have large Tanks and are situated near the source of supply. The Chief causes of the declension of Revenue which has been noticed-

noticed are stated to be 1st. Inadequate supply of water from the River, 2d. The want of reservoirs for storing the Kistnah supplies, 3d. The failure of the local rains, timely and ample showers concurrently with the River freshes, being necessary to bring the Crops to maturity. The low prices of Grain which have prevailed for some time past are also mentioned as having affected the Revenue. The Board though disposed to think that the last mentioned cause has operated to a certain extent are of opinion that it is not sufficient to account for the decline noticed. It is important that the irrigation should be maintained in an efficient state, with this view it is proposed the Collector states, to thrown an additional quantity of water from the Kistnah into the Paulairoo by opening a new head to that Channel, but no mention is made as to what improvements are projected to the reservoirs intended to store the supplies thus obtained. The projected anicut across the Kistnah will not in any material degree supersede the necessity for reservoirs as Mr. Porter supposes, particularly in places so far distant as these Estates. The whole subject

subject of the irrigation demands the best attention of the Collector and of the Civil Engineer.

4. In regard to the Petition from Dasoo Jungiarauze it is seen that this individual was formerly in the service of the Ex Zemindar but removed in consequence of his having abused the confidence reposed in him. The Petitioner's main object is to shew that Punjiah Row has no particular claims on the bounty of Government and that his Brothers have equal rights with himself in regard to the Family Property. The petitioner is apparently moved by feelings of hostility against his late Employer and a desire to throw every obstacle in his way. For these reasons the Board concur with the Collector in opinion that the Petition is undeserving of notice.

5. Mr. Porter has forwarded a Petition from the late Zemindar to the address of the Board in which a request for the restoration of the property on a suitable Peshcush is reiterated and in the event of this request not being complied with, Punjiah Row solicits

solicits that land forming a part of the Vin:
=nacottah and Goodewadah Estates and
capable of yielding an Income of 20000 Rupees
per annum may be granted to him free of
Assessment. The grounds for retaining the
Estates permanently in the hands of Govern:
=ment have been already fully set forth. The
arguments adduced on that occasion apply as
equally to the request for an extensive Grant
of land free of Assessment. The amount of Income
Viz.t Rupees 20000 which the Ex Zemindar
seeks to obtain is also unreasonably large.
The Board think with the Collector that
an allowance in money of Rupees 10000 per
Annum, which is double the Amount the Ex
Zemindar and his Brothers have received
since the Estate has been under the manage:
=ment of the Officers of Government or for the
last 10 years, would be suitable in every respect
both as affording a provision for the Family on
the most liberal scale as well as testifying the
desire of Government to shew every consideration
towards it. They accordingly beg to recommend
that the allowance be fixed at this Amount.

Order

Ordered that a copy of the foregoing
Extract from the Board's Proceedings be submitted
to Government and a transcript of the same be
forwarded to the Collector of Masulipatam for
his information and guidance.

Read again letter from
the Agent in Kurnool dated 28th. October
1817.

Sec. Govt 16th Nov. 1817.

(18)

Here Enter No. 58.

Proceedings thereon.- 1- The Settlement was made
by the late Commissioner Mr. Scott but
the task of drawing up the report devolved
on his successor the present Agent.-

Relative to the Settlement of the Land Revenue in the Province of Kurnool for Fasly 1256.-

2- The season appears to have
been highly favorable, the rains abundant, as
their distribution regular and the facilities
for cultivation uninterrupted.-

3- Prices generally fell some:
=what below those of the preceding Fasly,
particularly in the staple Grains of Rice
and Jowaree, but there was a considerable
rise in those of wheat and Bengal
Grain. It is observed that the usual
monthly Statements of prices required by the

Standing

standing orders to accompany the Demand Collection and Balance Sheet are not forwarded from Kurnool, an omission which Mr. Phillips is requested in future to supply.—

4. No mention is made of the Sanitary Character of the season, but judging from the return of the Population and Cattle, the district appears to have been free from unusual disease. The comparison indeed between Fasly 1255 and 1256 suggests the idea that some inaccuracy exists between the two returns.—

	Fasly 1255.	Fasly 1256.	Increase
Houses	50,676.	59,915.	9239.
People	188,697	223,581	34,884.
Cattle	235510	271,186	35,676.

5. In his next report the Agent is requested to state whether any change has taken place in the mode of taking the Census or whether the difference now exhibited is considered to be a bona fide improvement in the resources of the District.—

6. In correspondence with the above favorable state of things the demands rose to 680,046. 6.— from which remissions were granted at the Summahkundy to the extent of 810–12–6. leaving

leaving after the further deduction of the ready Money payments a Net Settlement of 673,940. 14. 4 being an increase of 46377. 11. 10. on the Beriz of the preceding year. A portion of this increase it will be seen is owing to the greatly reduced amount of remissions required in the year under review, but a larger proportion is due to the increase of Cultivation encouraged by the favorable nature of the season.—

Remission of 1255 ... 19736.
1256 ... 60.

Increase of Dry.

Cultivation	13,028.
Do wet	9548.
Do Dry but under irrigation	861.
Total Increase	23437.

7. The items of the small amount of deduction above mentioned call for little remark. Under the head of Peerwah Cummee Mr. Phillips observes that Rupees 188–11. 4 were granted with reference to the Board's orders of the 28th January 1846. The substance of these was that land cultivated with Sugar Cane should not be assessed higher on account to that more valuable description of produce but should be taxed on the same principle as all other wet lands—i.e. shall pay 1/2 the original tax for a second Crop raised by means

Para 29.

of

means of an additional supply of water or for a more valuable description of single Crop, whatever it may be, requiring the same additional supply of water which a second crop of Rice would do...

8. On examination however of Statement, No. 9, giving the details of the Sugar Cane Assessment seems to show if the details of the various figured Statements are correct that these instructions have not been fully understood. In the first place Para 23. the Ayeen Seerwah of the land in the Circar Villages in the fine Talooks of Chitpulmurry, Sundeal, Pannieny, Dond and Sundicottoor on which canes have been raised is stated to be 1338 5 -- The former usual additional assessment was 943-2-5 making a total of 2281-7-5 but as regulated by the Board's orders for a second crop it amounted only to Pagodas 428-8-2 making a total of 766-13-2 so that the remission granted with reference to the Board's orders would seem to be 874-10-3 instead of 188-11-4.

9 Neither does it appear from the said Statement that any uniform system is observed but

but rather that a different practice is followed in different Villages and likewise in Government and Enam Villages. Thus the practice of imposing an Extra cess on Sugar prevailed formerly in only two out of the 11 Villages and in the rest no distinction was observed between the common and superior descriptions of produce. The addition imposed on the former had the effect of raising the demand considerably above the amount required by the Board's rule. an explanation of which is given in the Column of remarks. That relating to the first Village Cadwal Calwa states that formerly the Sugar lands were arranged under three classes assessed at 40. 42 and 44 Rupees the phylee respectively, but that (as is more clearly explained in the Hindee) the usual rates for the ordinary Village land being far too low, the 2d. Crop assessment if imposed with reference to them would have been very inadequate and it had therefore been considered right to assess all lands so employed at a uniform.

uniform Ayen rate of 40 Rupees which was the highest of the Customary Villages rates. This however is very far from being in accordance with the Board's views. The fact of the former Government having adopted three rates shews that there must be considerable difference in the land. To class all the various sorts therefore under a uniform rate of 40 Rupees must be unfair and unequal. The proper course would appear to be to retain the former Ayen demand whatever it may be, and add half for the 2d. crop when that or Sugar Cane may be cultivated. If such an assessment is inadequate for a Sugar Crop compared with the same description of produce elsewhere, it must be inadequate likewise in the case of the ordinary Cultivation. In the next instance - that of Calivai it is stated in the remark that as the full amount if imposed according to the Board's orders would have been excessive a portion only had been brought to account and the remainder remitted - In this case the ordinary Ayen

Assessment

Assessment (13 Rupees per Pykee) appears to be proportionably as much too heavy as in the preceding case it was too light and farther examination seems to be required. It may perhaps be found to be explained by the circumstance of the usual Teerwa being a consolidated assessment on permanent two crop land or some other local cause rendering the exaction of any additional cess for a 2d. Crop unnecessary - It is further to be observed that the Villagewar Statement (No. 9) compared with the general Talook war Statement (No. 5) does not correspond as regards the Sugar remissions. In the 23d. para of the report as abovementioned the amount of Teerwa Cummee under this head is given at 188-11-4. In Column 99 of Statement 5 the Talook war distribution is arranged under the three first Talooks, viz. Nagulmurry, Semel and Sundial only; whereas Statement No. 9 shows a considerable amount of the reduction to have been made in the Paniew Talook likewise.

Considerable

Fort St. George 23d. March 1848

Considerable difficulty has been experienced in reconciling the various figures quoted in the Agents' Report with the corresponding entries in the Statements, from the omission of the usual references to the latter which ought invariably to be made in the Margin..

10. Whilst noticing the Tabular Statement No. 5 the Board desire to call attention to the necessity of making it correspond in all respects with No. 3. This is not the case under the Head of "Deductions," Cols. 95 @ 105 in which the remission required by the season have been mixed up with the permanent reductions on account of subsistence Charges Vizt.. The former ought as in No. 3 to have been first subtracted from the sum Total and then last of all, at the end of the Statement, the other items comprehended in Columns 95. 96. 97. 100 and 104 forming the aggregate of 542-12-2. the concluding entry of No. 3.—

Para 24

11. A permanent remission of Rupees 109. 2. " is stated to have been allowed in three Villages of Chagulmurry Taluk because the usual assessment was considered

Fort St. George 23d. March 1848.—

considered to be high, but the particulars of which are not detailed. The Board approve of the Agent's determination to retain the old Beriz when thus produced in all future accounts with a separate entry for the remission. This rule should invariably be observed in all similar cases, such details being likely to prove useful hereafter on the prosecution of the survey..

Para 25.

12. The total Ayacut exhibited in Statement No. 2 is observed to fall short of that of the preceding year by Acres 22. 21. the reason of which should have been explained.—

13. Of the total amount of the Settlement Rupees 66,646. 13- ½ were collected within the Fusly and a further sum of 8881. 1. 6 up to the 31st. January last leaving a balance of Rupees 3,412. 15— 9½ still due which Mr. Phillips promises to adjust during the following Summah Bundy on which occasion the few small items outstanding from former Fuslies should also be disposed

and guidance.

Read

1548 Fort St. George 23d March 1848

Dec. in Cons. 7th March 1848

Read letter from the Agent to the Governor of Fort St. George in Kurnool reporting on the Settlement of the Bunganapully Jaghier for Fusly 1256 the fourth year of the quinquennial rent, and the progress made in the adjustment of the debts of the Jaghierdars

[Here enter No. 73]

Cons 20th March 1848

Read also letter from the Agent dated 25th February 1848 suggesting the expediency of his being furnished with early instructions on the subject of his proposal to transfer the Jaghire to the Nawab.

[Here Enter No. 19]

19

Proceedings thereon. Para 1

Relative to the Settlement of the Bunganapully Jaghire in the District of Kurnool for Fusly 1256 and the proposed transfer of the Jaghire at the termination of the present lease to the Jaghiredar

Of the 64 Villages which with 8 dependant hamlets compose the Bunganapully Jaghier 51 were rented and 13 Settled under Aumany on the Fusly under review. With the exception of a partial failure in the yellow Jowary crop caused by a superabundant fall of rain, the season is reported to have been of a decidedly favorable character. The extent of land cultivated with the early Poovalsa Crops consequently exceeded that of the previous Fusly whilst the later crops proved also very favorable.

P 10. 11 & 12

2 As was to be expected the prices of nearly all sorts of Grain fell greatly below that of Fusly 1255, and the difference is the more marked as the latter was almost a year of famine as respected Bunganapully

Fort St. George 23d. March 184

P 849

Bunganapully

3 The cultivation in the arnany Vi
in Fusly 1256 was below that of the preceding ye
by Rupees 2131-6-8 This decrease however is only a
=parent, having been occasioned by the transfer of
Rents in the year under notice of a highly as
arnany Village, which was compensated only in
D 15-16-17 by the reversion to the latter mode of management of a
rented Village highly assessed. The Net arnany
Settlement of the year it will be seen is nevertheless a
=tually in excess of that of the preceding a result to be
ascribed entirely to the favorable character of the
son which rendered the grant of remissions beyond the
usual deductions, unnecessary, whilst abatements
to the extent of Rupees 3561-11-6. were allowed in
Fusly 1255

4 There was an increase of Rupees 2120 C
also in the rented Beriz.

D 18-19-20 5 The aggregate demand on account of the
Land Revenue for Fusly 1256 amounted to Rupees
95842-3-6, of which Rupees 91744-5-5 having been
realized within the Fusly there remained Rupees
4097-14-1 outstanding at its close, which at the
end of September last was reduced by subsequent
Collections to Rupees 3916-7-10. Of this the Agent
anticipates no difficulty in the recovery of the
portion due by renters Viz.: Rs. 1633-7-5 and
as regards the remainder he proposes instituting
an

10

Fort St. George 23d. March 1848

an enquiry at the Summabundy of the Current year.
From the abstract Table appprended to Para 19 of
the Report it will be observed, that the collections
of the year reported on exceeded those of the previous
year by no less than Rupees 23,480-13-10: out of
the old outstanding balances also Rupees 108,825-6-10
the Sum of Rupees 16,870-2-0 is Stated to have been
brought to account, leaving Rupees 91,955-4-10 for
future adjustment.-

D 2.24.23

Fusly 1255-15628-6-
1256-14519-6-
1109-"-"

6. In the Extra Sources of Revenue there
was a decrease to the extent of Rupees 1109 in the
demand of Fusly 1256 as compared with the antece=
=dent Fusly- The chief item of this decrease is
Rupees 1030 in the Abkarry occasioned by diminished
Competition, the result of the losses Sustained in the rent
of the previous year- Out of the total demand of
Rupees 14,519-6-" there was a trifling balance of
Rupees 17 outstanding at the end of September,
which, together with a balance of Rupees 93-4-"
on account of Fusly 1255, the Agent expects
to realize at an early date.

P 25-26 7 It will be seen from the particulars
given in Para 25 of the Report that the aggregate
Collections from the Jaghire in Fusly 1256 from
all Sources, current and arrears, amounted to Rupees
134,220-3-8- which added to the Sum of Rupees 84,034
14-5- in deposit in the Treasury at the end of

September

September last raised the total available proceeds to Rupees 2,18,255-2-1. Deducting from this the charges of Management and the allowances to the Sagheridars and Yearmahdars on their remain= =ed Rupees 35,913-1-7 in hand at the close of Sep= September, of which Rupees 38,101-- -- 11 constitutes the amount payable to the Creditors now held in dispo= =sal and in course of payment.-

Paras 28 to 48

In these paras the Agent reports the progress which has been made in the adjustment of the debts of Hoossain Alikhan, the Nabob of the Jagheer, and the several inferior Jagheer= =dars and Members of his family. Of the nine individuals whose debts at the commencement of Fusly 1255 were s= still partially unpaid, those of four were fully cleared off at the close of that year, leaving five Members of the family whose names with the amounts respectively due by them are shown in the Margin. It should be remarked however, that the Nawab Hoossain Alikhan, and the Amutoolla Begum have discharged their original liabilities in full and that the Sums now due by them are the balances of certain debts contracted by them in 1843 with the knowledge and concurrence of the late Agent for the purpose of defraying the expences of a

Hoossain Alikhan	Rupees	4511-2-3
Afsud Alikhan	Rs.	138,260-3-8
Syed Mahomedkhan	Rs.	8325-14-9
Goolam Mahomedkhan	Rs.	6318-6-11
Amutoolla Begum	Rs.	2000-- --

a Marriage in their family.- The Sums against the three remaining individuals are the unliquidated portions of the Claims formerly registered by Mr. Commissioner Blane. Of these, it will be observed, that due by Afsud Alikhan, the Son and heir of the late Fattah ali khan, is the only one of importance, or requiring Special remark.

9 The gross amount of Debts admitted against the late Fattah ali khan was no less than Rupees 2,62,311-5-6. Of this Sum Rs. 124,051-1-10 have been paid off, leaving for future liquidation Rs. 138,260-3-8- for which at the rate of payment hitherto observed, Viz Rupees 10337-10-3 per annum, a period of nearly 14 years will be required. It will be seen, however, that in Conformity to a promise first made to Mr. Blane and recently renewed to Mr. Scott, the Nawab is prepared to Contribute from his own now almost unincumbered revenues Such an amount annu= =ally as added to Afsud Alikhans own payments will clear off in the course of 3 years all those Claims brought against the late Fattah Ali= =khan, from which the Creditors voluntarily made a reduction of half the Original debt. The Sum to which the Nawab has restricted the application of his generosity is Rupees 72,600-9-

If-

If however in accordance with his supposition he be called upon to contribute at the rate of 3/4 of his income, that part of Assad Khans debt which he has undertaken to pay would be cleared off in little more than 2 years, but on this point the Board agree with Mr. Phillips that, considering that the offer of the Nawab is altogether voluntary, it would be harsh and impolitic to require of him so large a sacrifice of revenue annually and they are therefore of opinion that it will be sufficient to intimate to the Nawab that the Government expect that Rupees 72600 of the claims still outstanding against Assad Khan will be discharged in 3 years at the rate of Rupees 24,200 per annum - after deducting this amount there will remain Rupees 65,689-10-8 payable according to the terms of the agreement originally concluded with Fattah Ali Khan.

10. The amount due by the next indebted, Syed Mahomed Khan, is Rupees 8,026-14-8 which at the rate of payment hitherto made, Rs 1326 per annum, will be liquidated in 7 years.

11. As respects Ghoolam Mahomed Khans debts Rupees 15702-6-1 have been paid by average annual instalments of Rupees 1308-8-6 do

the continuance of which for an additional period of 6 years will clear this Jagheerdar from his present incumbrances

12 It will thus be seen that in the three cases above noticed Rupees 152,905, remains for future payment out of the amount of the Original liabilities - Adverting however to the fact that the principal Creditors of the Jagheerdars have been satisfied, and that out of a mass of debt amounting originally to more than 7 1/2 Lacs of Rupees 609287 Rupees have been discharged, the agent submits whether the Jagheer should not be restored to the Nawab in Conformity with his wish expressed to the late Agent Mr. Scott - He adds that in the event of the transfer being determined upon, the Nawab should be called upon to enter into the Stipulations specified in paras 49 to 55 of his Report, of which the principal are intended to ensure the punctual discharge, according to the Stated instalments and at the prescribed periods, of the Sums still due by himself and the Begum as the balance payable on the Loan contracted with the late Agents consent, and the portion of the unliquidated debt due by Assad Ali Khan and Syed Mahomed Khan, and the Agent feels

satisfied

satisfied that the high character and prin-
=ciple of the Nawab furnish a safe Guarantee for
the due fulfilment of his engagements. From
the testimony thus borne by Mr Phillips to the good
faith and character of the Jaghiredar and from the
circumstance that the amount of the debt remaining
unliquidated is on account of one of the Minor
Jaghiredars whose embarrassments furnish no ground
for withholding the Management of his Estate
from the Nawab, the Board feel disposed to accede to
the Agents recommendation that it should be made
over to the Nawab at the termination of the current
Fusly on the terms and conditions
appear to them well calculated to secure the interests
of all concerned. —

D 57 13 As regards the debts of Syed Goolam
Mahomed Khan for whom the Nawab has declined
to became Security and whose case is not therefore
Comprised in the arrangements above referred to, the
Agent suggests that in the event of the proposed
restoration of the Jaghire being approved such of
the Villages as were in possession of this inferior
Jaghiredar, when the Jaghier was assumed, might
be retained under the Management of the
Tahsildar of the Jernaid Taluk under aumanie
or under a fresh lease — or otherwise that the
Villages

Villages be given over to the charge of the Ja-
=ghiredar himself on production of such security
as may satisfy the agent. The first of these Sug-
=gestions appears to the Board to be the preferable
course and they would accordingly recommend
that the Agent may be authorized to adopt it. —

D 594. 61 14 In proposing the Sunnud granted in
1841 to the Soondoor Jaghiredar as the model of
that which should be issued to Hoosseini Ale-
=bahan on his reinstatement, Mr Phillips alludes
to the great inconvenience arising from the im-
=mense extent of land which is found to have been
alienated as Enam by the late Nabob and his Prede-
=cessors, and he gives it as his opinion that in order
to check the practice, a clause should be inserted in
this Sunnud — first prohibiting the future grant of
Enams by the Jaghiredar unless with the authority
of Government previously obtained, and secondly
stipulating that no such grants be made without
a written document distinctly specifying that each
alienation shall hold good during such period
only as the Jaghier remains in the enjoyment of
the Grantee — In the expediency of the last of
these two provisions the Board quite Coincide with
the Agent — but the first seems to them to be
unnecessary and likely to be productive of needless
trouble

Fort St. George 23d. March 1848

trouble both to the Jaghierdar and Government.—

15 The Jaghierdar should of course be left in accordance with the wishes of the Honorable Court of Directors, to resume the power of maintaining the Police, and of administering Civil and Criminal Justice without any interference on the part of the Government Officers, except in cases involving Capital punishment. In regard to his desire however to be relieved from having any concern in the disposal of cases of Highway and Gang Robbery, it does not fall within the province of the Board to offer an opinion and it will therefore be for Government to decide whether his wishes shall be acceded to.—

Para 64.

16 In respect to the consolidated allowance of 7000 Rs per annum at present paid to the Jaghierdar on account of the Sayer Revenue, regarding the future payment or discontinuance of which the Agent requests instructions, the Board are of opinion with reference to the correspondence entered in the Margin, that on the restoration of the Jaghire the allowance in question should cease and that he should be left to collect the Sayer duties on his own account.—

Para - 83

17 In conclusion the Board beg to recommend that authority may be granted for the presentation to the Nawab of a Khilut of investiture on the occasion of the restoration of the Jaghire, and in reference to a late Communication from the Agent of 25th Feb.y last, herewith forwarded, they would solicit an early intimation of the pleasure of Government on the general subject of the transfer as the present lease of the Jaghire terminates with the current Fasly, and the disadvantages attendant on a annual Management will render it necessary to continue the renting system and to make arrangements for that purpose without delay in the event of the property being still retained under the administration of the Officers of Government.—

Fort St. George 23d. March 1848.

Read the following letter.

To J. F. Pycroft Esqre
Secretary to the
Board of Revenue.

Fort St. George

From the Agent to the Governor of Fort St. George at Kurnool } Sir

I have the honor to acknowledge the receipt of your proceedings dated 22d December last requesting certain Collectors will offer such observations as may occur to them in regard to the discrepancies noticed in the Returns furnished by them in respect of land cultivated with Sugar Cane, in comparison with those received from other provinces.

Submitting certain observations regarding the discrepancy noticed in the returns furnished by this Office in respect to land cultivated with Sugar Cane.

2 I beg to state that I have carefully considered the data on which the late Agent Mr. Scott based his report, and feel satisfied that he has correctly calculated that the average produce of Jaggery per acre in this province, is 120 Maunds. When Mr. Bayley had charge of the District in 1843 and was most laboriously employed in ascertaining the productive capabilities of the different sorts of garden and other land, he caused the Sugar cane grown on an acre of middling Bagayet to be cut and brought to the Sugar

Fort St. George 23d March 1848.

Sugar press, and the result of the enquiry thus instituted was with a very trifling difference the same as the which has been specified by Mr. Scott who adopted similar means in a different locality, for submitting the information laid before the Board.

3 The Board will observe that only a very limited extent of land 181 acres has been cultivated with sugar cane in the entire district, a circumstance, which necessarily tended to simplify the task of arriving at the conclusion reported by Mr. Scott, while at the same time I think it may reasonably be considered, that that conclusion should be regarded as more approximating to correctness than the results supposed to have attained in collectorates where sugar cane cultivation has been far more extensive and general.

	Mands	4
Ganjam	125	
Rajahmundry	99	
Bellary	120	
South Arcot	103	
North Arcot	119	
Madura	99	
Kurnool	120	
	785	
average	112⅛	

I am the more impressed with the opinion on reference to the produce specified in the reports from the Districts noted marginally, which gives an average per acre of 112⅛ Mands.

Respecting

Fort St. George 23d March 1848

Respecting the consumption of Jaggery per head, I felt desirous of ascertaining on what data the account forwarded to the Board from the neighbouring Districts of Cuddapah and Bellary had been calculated, and availing myself of the Boards permission, I applied to Messrs Cockburn and Mellor for information. In reply, I received copies of the report which they had submitted to your Board and whereon your Boards Proceedings of 23d December last have been recorded.

5 The report from Cuddapah fixing the average consumption per head in that District at Mds 7 2.4 is calculated, I observe, on the three rates shown marginally, the quantity which the Collector Estimates is consumed in the District varying, as appears from the more detailed of his two returns, with reference to locality. I submit, however, in regard to these rates that they are excessive and I offer for the Boards consideration the remark that the fact of a larger quantity of

	Mds	1/4 th
1	9	15
2	7	1¼
3	4	24½

Fort St. George 23d March 1848.

of Jaggery, being manufactured in a few Talooks is no sufficient reason, as assumed by the Collector of Tanjore, why the local annual consumption should be taken at a higher figure than in those Talooks where its manufacture is less. It is probable that the larger quantity now made arises from a more remunerative demand and a better market being found for the article, its more or less manufacture being, I submit, in no wise affected by local partiality for Sweets or the increased means of indulging it.

7 The rate per head given in the return from Bellary Viz. Rs. 4 As. 8 Ps. 1 seems to me also open to observation, because I do not believe it was necessary to add to the data fixed in July 1845 by Colonel Munro on the ground that since that period there has been an extension of cane cultivation.

8 If the additions of 4/10 and 1/10 made by the Collectors of Bellary on this account, be deducted, it will be seen that there is no difference whatever between the rate laid down by

Fort St. George 23d March 1848

by Mr. Scott in his report and that arrived at by Colonel Munro Viz. 3 Rs. per head, which again does not greatly differ from that given in the returns from several other Collectorates as shown in the Margin

21

From the Collector of Canara. 31

Sir

With reference to the 11th Para of the Board's proceedings dated 23d December last, I have the honor to State that I have endeavoured to revise the return of Sugar produced in this district as forwarded with my letter of the 27th April last, but not with any material alteration in the result.

Offers further observations on the returns of sugar produced in his district with reference to Board's Proceedings under date the 23d December 1847.

2 The average produce per acre as given in that return was 15 Maunds, and in Para 1 of its proceedings the Board notices this as one of

4503 Fort St. George 23d March 1848.

of the lowest returns which had been furnished, but I would beg to notice that the return furnished by me was made out in Indian Maunds of 80 lbs each, 15 of which would be equivalent to 45 Madras Maunds of 28 lbs each, which though still very low as compared with the produce said to be yielded in other districts, I cannot ascertain to be incorrect

3 The mode of calculating the extent of land in Canara by a Beej: warree measurement is so uncertain and varies so much in almost every taluk and Village, that it furnishes no correct data from which to estimate the produce of an acre, except in the Balaghaut taluks where a further enquiry which I have since made of the produce of land belonging to several individual cultivators gives a result varying from 80 Madras Maunds down to 20 per Acre, and an average of about 40 which is somewhat below the average Return previously furnished

4 The Estimated consumption was given at 4 Indian Maunds per 100 persons which makes about 3 3/5 lbs per head per annum and does not appear to differ materially from that estimated in the Majority of the Talooks of this District

Read the following letter.

To T. Pycroft Esqre.
Secretary to the
Board of Revenue
Fort St. George

Sir,

26

From W. E. Lockhart Esqre. Collector of Salem

I have the honor to state for the information of the Board that one Vencatarama=nien Moodaliar of Tandavully in the Tirpatore Talook presented a compliant to me in the Month of November 1843, stating that Pettah lands belonging to the Village of Tandavully attached to his Mootah, Viz.t Poonjah and Kunjah inclusive, coolies 1123 5/8 bearing Peeruah Rupees 5-8 and Porumboke Poonjah agreeably to Ayacut coolies 1500 have been covered by the water from the Tank of Mandapatty Village under Aumany and requesting an equal quantity of Peeruah land may be given him in lieu, or a reduction equal to the amount of their Peeruah may be made from the Permanent Beriz of his Mootah and further that the produce of the Porumboke land in question may also be given him.

2nd An Order was on the 2nd December 1843 issued to the Tahsildar of Tirpatore directing him to inquire into the subject of the compliant and report the result, but from his report dated 23d June 1844 it appeared that of the lands bearing Peeruah Rupees 94-5-8 belonging

Fort St George 23d March 1818

belonging to the Taudavelly Village attached to the com=plainants Mootah Coolies 697 9/16 Noted in the Map

Coolies- Teerwah bearing Teerwah Rupees 497

Annamalay Poonjah 562 9/16 32-15-11 have from Fusly 1207 on year

Rungum Runjah 135 - 16-7-4. Pingala prior to the formation

697 9/16 - 497-3 of Mootahs been covered with

the water of the Tank of the Annamy Mudda=pully Village; that they have been entered as Bunger in the accounts and not included in the permanent Beriz of the Mootah that the undermentioned spots are only the Extent lands that have been injured by the water of the Tank in question—

Collies 238 1/2 out of the comin Poonjah Coolies 346 3/8 bearing Teerwah Rupees 24-12-1—	17 1 —	Teerwah
D° 40 out of th Yetty puttadu Kunjah Malum coolies 102 bearing Teerwah Rs 11-10-8	7 15 —	
D° 57 1/2 out of the addacolum Poonjah karum Kunjah coolies 82 1/2 bearing Teerwah Rupees 13-3-6	8 8 10

	44 14 7	Teerwah

of the land covered with water.

3. The above 4 spots the Tahsildar report

Fort St George 23d March 1818.

report were entirely under cultivation up to Fusly 1230 that in consequence of the Bank and Calingala of the Mundapully Tank having been raised the water of the Tank covered the cultivation and caused a loss to the cultivators who relinquished them in Fusly 1253, that the lands are ever since lying waste-

4. Regarding the Porumboke land mentioned in the complaint the Tahsildar reports that in the Ayacut accounts of the Village of Taudavully attached to the complain=ants Estate and Mundapully under Aumany prepared in the Year Doormady Coolies 1500 have been entered in each of them (making in all 3,000) as Porumboke belonging to the bed of the Tank of Mundapully, that the rent of Fishery of the Tank Viz- Star Pagodas 1— fanams 23 and Cash 16 per Annum was added to the Beriz of the Aumany Mundapully Village in the years Doormady Doondoobi Koodrakanny that subsequently at the formation of Mootahs this item of Revenue was— included in the Beriz of Mundapully Village and collected by the former Mootahdars— accordingly that it was continued to be— collected by the Circar even after the Vil=lage was taken under Aumany up to the promulgation

4579

Fort St George 23d March 1848

promulgation of orders allowing the Villagers to enjoy the benefit of the Fish in the Tanks whose produce does not exceed Rupees 20 that according to these orders the Fish of the Tank in question is enjoyed by the Ryots of the Aumany Mandapully Village, that the produce of the Cucumber and Melons cultivated in the bed of the Tank comprizing the Porumboke lands of the Tandavully and Mandavully Village has from Fusly 1230 been included in the Bawy of the latter Village, that the Porumboke Coolies 1500/ converted into a part of the Tank/ belonging to the Village of Tandavully has not been defined.

5. I directed the Head Assistant Mr Dykes on the 17th April 1847 to enquire into this case at the time of the Settlement of that Talook for Fusly 1256. In the Yadaust dated 21st May 1847 he states that on personal inspection of the Tank and the land mentioned in the complaint of the Moottahdar, it was found that the bank of the Tank of the Aumany Mandapully Village was raised and extended in 1846 beyond its usual height and length, that the water of the first supply covers acres 10-21-8 bearing Teerwah Rupees 46-11-5 of the Yellum Kunjah, coonen Poonjah &c 4 spots of Puttah lands as shewn above, consisting of

4580

Fort St George 23d March 1847

of Acres 16-1-8 bearing Teerwah Rupees 70-9-11 but they can be brought under cultivation when the water is low but in the event of the Tank receiving a second supply the cultivation on the land will be destroyed, that he questioned the complainants whether he would be satisfied if the Bank was lowered so as to keep his lands free from injury, that the complainant acceded to this proposal that the two spots of land, Veyt. Annamalay Poonjah and Rungum Kunjah shewn in the 2d Para, bearing Teerwah Rupees 49-7-3 have tho' left uncultivated and covered with the water of the Tank from Fusly 1207/ been entered in the Pymash accounts as belonging to the Ayacut of the Village of Tandavully attached to the complainants Estate, but not included in the 3 years average Baviz on which the permanent assessment of the Moottah was calculated, that the Porumboke Coolies 1,500 are deducted from the Pymash accounts of the Tandavully Village as "Mandapully Yarry new Mooloojunddy Porumboke" or Porumboke land Covered with the water of the Mandapully Tank and that this land together with its produce unquestionably belongs to the Circar owing to its being originally deducted in the Pymash accounts-

6 An order upon this was sent to the Tahsildar of Tripatore on the 12th June 1847 directing

Fort St George 23d March 1818

directing him to proceed to the Village of Manda=pully and inspect the Tank when it was full in the presence of the complainant and the Canadoo Curnum and the respectable Ryots of the said Village and lower the newly raised end of the bank as far as it may be necessary so as to prevent the land of the Complainant being inundated and to inform the complainant at the same time that the case of the land bearing Teerwah Rupees 49 7 ½ which has long since been covered with the water of the Tank in question would be submitted for the Board's consideration and orders and that he has no claim whatever to the Poromboke land and its produce it being the property of Govern=ment - This was further made known to the Mootahdar / the complainant / by an Endorsement

7 The Tahsildar in his Urzee to the acting Head Assistant Collector dated 2d August 1817 reported that altho' he reduced the dimensions of the Calingalah of the Tank 1½ Yard in length by Yards in breadth and half a Yard in height yet the water of the Tank covered the land of the complainant and he was unable therefore to ascertain how far it was necessary to diminish the Calin=galah to prevent the land in question being inun=dated the Tank being full -

8 The Ryots of the Mandapully Village presented to me an Urzee on the 14th September last stating that altho' the Calingalah of the Tank in

Fort St George 23d March 1818

in question was raised yet it did not contain a sufficient quantity of water so as to bring the whole extent of the Nunjah land depending on it under cultivation owing to its bed being choked up with earth consequently the lowering of the Calingalah agreeably to the request of the Mootah=dar has caused a waste of water, and requesting that the Calingalah may be raised as before, and that in the event of the Government becoming liable to the payment of the Cundayem of the land which has been thereby injured to the Mootahdar, they would willingly take up the land in their own names and pay the assessment to the Circar annually to prevent any inconvenience - An order was upon this also sent to the Tahsildar before whom the Ryots agreed to take up the land in question bearing Teerwah Rupees 44 and odd as shown above, and pay up the Cundayem to the Circar and gave a Moochilkah and Security to this effect - They, the Ryots, further stated that they were subjected to a loss in consequence of the Calingalah of the Tank having been lowered thro' which a great quantity of water escaped -

9 In order to prevent this loss to the Ryots I caused the Calingalah to be rebuilt and informed the Complainant that the case would be submitted to the Board and sanction obtain=ed to pay him Rupees 44 and odd the Cundayem of the land that has been occasionally inundated by the water of the Tank - The Complainant again

Fort St George 23d March 1848

again presented an Urzee to me on the 27th October last requesting, that the raised Calingalah may be removed in order to enable him to bring under cultivation the above land bearing teerwah Rupees 44 and odd, as also the land bearing Teerwah Rupees 49 and odd, which has been long since Covered by the water of the Tank—

10. Under the above circumstances I beg to observe that by lowering the Calingalah which was raised in 1844 agreeably to the request of the Complainant a great portion of the land under the Tank bearing Teerwah Rupees 1550 will be left waste for want of water so as to Cause much loss both to Government and the Ryots of the Maudapully Village. It would appear that the long existing ill feeling of the Complainant / the Mootahdar of Taudavully / towards the Ryots of the Aumanny Village of Maudapully prompts him to desire that the Calingalah in question may be lowered to the detriment of the Ryots, tho' the land bearing Teerwah Rupees 44 and odd is Capable of being brought under cultivation when the water is low and that he has left it uncultivated since fusly 1253. To avoid any litigation and Annoyance the Ryots have agreed to take the land, being Teerwah Rupees

Fort St George 23d March 1848

Rupees 44 and odd / and pay the Cundayem to the Circar, consequently I trust the Board will Sanction that this land should be taken under the Circar Management and its Teerwah paid to the Mootadar—

11 Besides this, the land shown in Para 2 Consisting of acres 17–17–9 bearing Teerwah Rupees 49–7–3 which have long since been Covered with the water of the Tank are the lands on which teerwah has been fixed at the time of the Pymash settlement, and which have been included in the Anjacut of the Taudavully Village as also entered under the 2nd head of the Tooloochittoo, granted to the Mootahdar, the Complainant has every right to the teerwah I therefore request the Board's Sanction to pay the Complainant the teerwah of these lands Rupees 49–7–3 together with the teerwah of the land shewn in the preceding para Rupees 44–14–5. in all Rupees 94–5–8 per annum. At this rate Rupees 377–6–8 is due to him from fusly 1253 in which he the Complainant preferred his Claim, to fusly 1256, for the payment of these arrears also, I request the Sanction of the Board, that after paying these arrears, the payment of the above sum of Rupees 94–5–8 be continued annually

Annamalay Pongal and Rungum Kumpah consisting of acres 17–17–9

Annually to the Moolahdar, the Complainant.

12. As the Perumbokie land bodies 1500 has been at the time of survey distinctly entered in the accounts as belonging to the Tank of the Annamy Village of Maudapully and accordingly deducted in the Ayacut Accounts of the Tandavelly Village attached to the Complainants Estate, he has no claim whatever either to the land in question or to its produce, and as the fish of the Tank has long since been allowed for the benefit of the Ryots of the Maudapully Village, and the fish rent as I stated above, prior to the grant of this indulgence was annexed to the Bandy of the Maudapully Village and accordingly collected both by the former Moolahdars of the Maudapully Estate and by the Circar after the Moolah of Maudapully reverted to Government the Complainants Claim is totally groundless

Salem Hillah
Rauzepoor
Collrs Cutcherry
25th February 1848.

Signed W. E. Lockhart
Collector

Order thereon. 1. Ordered that the letter above recorded be laid before the Honorable the Governor in Council for his consideration and orders.-

27-27

2. The Board of Revenue beg to submit it as their opinion that the Moolahdar has no title to compensation for or to the enjoyment of the 1500 bodies of Perumboke land claimed by him, such land having at the time of the survey been especially deducted from the Ayacut of the Tandavelly village on the ground of its forming part of the bed of the tank of the adjoining Village Maudapully. They however think that the complainant has a right to compensation on account of the two parcels of land in extent Acres 17-17-9 and 10-24-8 and in Jeerwah Rupees 49-7-3 and Rupees 44-14-5 respectively of which the former long has been and the latter was lately become included in the water flow of the Maudapully Tank, the land in both cases being assessed land and entered in the Ayacut accounts of Tandavelly. They would therefore recommend that the assessment on these lands at the rate of Rup: 94-5-8 per

per annum be paid to the Mootahdar
arrear for four years or from Fusly 125
the year in which the complaint was p
=ferred the total being Rupees 377-6-8 an
that a remission equivalent to such assd.
=ment (Rupees 94-5-) be made annually
from the Peishcush payable by the
Mootahdar commencing with the curre
Fusly. The Collector should also be requ
to take measures to prevent the cultiva
of any part of the land for which thi
remission is granted.

3. The Board [illegible]
=cur in the propriety of proposal ma
by Mr Lockhart in Para 10. of his let
that the Ryots of Mandapully shou
be called upon to make good the reven
Rupees 44-14-5 upon the land dere
10-24-8 recently laid under water by
raising of the Bulingole. They are al
of opinion that this charge should b
borne by Government, and its reim
=bursement looked for in the incr
extent of cultivation and general
benefit to the Sircar Village of
Mandapully which may be expected t
result from the improved means

of irrigation lately provided for it.

To J. Pycroft Esqre
Secretary to the
Board of Revenue.
Fort St. George.

28

From the Collr of Salem. Sir

With reference to the Circular letter from the Board of Revenue dated 24th June 1847, I have the honor to forward the State=ment therein required, shewing the number of Estates which have been sold for arrears of Revenue and pur=chased on account of Government since the permanent settlement, the Beriz of each Estate, the arrears due at the time of sale and the amount of pur=chase money &c.

Salem, Collrs Cutcherry, 13th March 1848.

(Signed) W. E. Lockhart
Collector.

Salem Collector's Cutcherry 13th March 1848.

C. E. S. (Signed) H. Lockhart
Collector

Ordered

4596.

28-29

Fort St. George, 23rd March 1848.

Order thereon.

30

Ordered to be sent to the Collr of S. Arcot, and [illegible] Statement of Extra Establishment drawn himself and Subordinates during Feby 1848.

Proceedings thereon.

The Board sanction the Extra Establishment drawn by each of the Collectors for the number of days noted in the Statements.

The Collector is requested to comprize the details in a single Statement hereafter instead of sending four separate Statements.

When an Officer may have occasion to remain at any Station for a longer period than one Month, full explanation should be afforded in the Statement of Extra Establishment allowance, shewing the necessity for the protracted residence at such Station.

Ordered also that a Copy of the foregoing Proceedings be forwarded to the Land Customs Sudr.

To

J. Pycroft Esqre

Secretary to the Board of Revenue

Fort St. George

31

32

From the Collr of South Arcot

Sir,

I am returning Petitions Nos. 2 of 1847 which accompanied the Board's Endorsement of the 9th December last [illegible]

4597.

Fort St. George, 23rd March 1848.

I have the honor to state that on my sending for and enquiring from the persons whose names were inserted in the petition as to the real nature of their complaint, they entirely denied all knowledge of the subject therein alluded to, and said that the names were fictitious.

As to the causes which induced me to disallow the Establishment of a Tobacco Store House near the French limits, I beg to forward Extract from a letter addressed by me to His Excellency the Governor of the French Establishment in India in reply to a representation made to me on the subject, from which I trust the Board will perceive that the order in question was absolutely necessary to protect the Revenues of Government.

South Arcot,
Collector's Cutcherry,
Cuddalore, 9th March 1848

/Signed/ W. D. Davis
Collector

No. 1.

Extract from a letter addressed by the Collector of South Arcot in charge of the Special Agents Department to the French Government at Pondicherry, dated 10th November 1845.

With regard to disallowing the Establishment of a Tobacco Store House near the French limits, I beg to state, it appears from

4598 Fort St. George, 23d March 1848.

promenging that formerly no indulg
"of the kind was ever granted but of
* only 3 per Cent "considering the trifling rates of duty col
& being levied "at the plains at the frontier and the enormous bribe
of Europe. "that every Invoice would be faithfully
"and duty paid. It was suggested to be
"at Ellore pass, but immediately on
"of abuses having taken place, parcel
"when deposited in thatched houses, whic
"generally the case, and great quantities
"ed by climbing over the roofs, and convey
"this power of the right to Pandaram
"the keys of the gates of the
"possession of the Annamalai, and the
"every reason to conclude that the high
"of duty now imposed would be a great
"inducement to smuggling. I have ordered
"once that it should be lodged at
"stance so as to ensure the collection of
"revenues of Government, and I thereby
"trust that your Excellency will see cause
"approve of the precaution I have been
"pelled to adopt.

I have Etcd

(Signed) H. D. Dawes

the subject of this petition see no reason to
interfere with the arrangements made by that Officer"

34
From the Coll.r of South Arcot, Read Comparative State-
ment of Contingent Charges incurred during
the year 1847.

34-35
Order thereon, Ordered to lie over

Read the following Letter

To,

J. Bycroft Esq.re
Secretary to the
Board of Revenue
Fort St. George

36
From the Coll.r of Tanjore— Sir

Reporting measures for carrying out the views expressed by the Board in Extract Proceedings 28th February— Par.a 1 I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue under date the 28th February on the Settlement of Tusly 1256. Fasly 1846/47

2 : In par.a 2 it is remarked that the
Collector has been furnished with instruction
"of the Board and Government for the introduction
"of an uniform System of Money assessment
"founded on a fixed & gram demand & regulated
"with reference to Real Capabilities of the
"Village" and the Board trust that it will be
in the power of the Collector at an early date
to-

Fort St. George, 23rd March 18

"to report the progress he has made in carry
"out the object in view.-

19th Augt 1847 3.- In Paras 4 and 6 of the Proceedings
of the Board of Revenue on the settlement of
the previous Fasly 1255 [A.D. 1845/46] the Board suggest a
modification of the Oolung demand in such a
Village now Amany wherein it is excessive
either from the large extent of waste land
included in the dittum, or from grain dem
being too high.-

4.- In Para 8 of Extract from the
Minutes of Consultation under date the 9th
October 1847 on the settlement of Fasly 1255
Government" agree with the Board in the
"expediency of such modifications being
"made as may be necessary to place the
"Villages now under Amanny and which are
"retained in consequence of the high Stand
"at which the Oolung dittum was fixed or the
"waste upon a par with other Oolung
"Villages, and the Board will accordingly detail
"their views on this point, as stated in Para
"4 & 6 of their Proceedings, to be carried out
"without delay."-

5.- From the Extract above quoted
and from the opinion expressed in Para 5th
the same Proceedings, I was led to suppose

that

Fort St. George, 23rd March 1848.

that the views of the Board as regarded the
modification of the Oolung in favor of particularly
circumstanced Amany Villages only were agreed
to by the Government, and consequently no steps
have yet been taken for fixing on existing Oolung
lands a "uniform system of money settlement
"founded on a fixed grain demand regulated
"with reference to the real capabilities of the
"Villages" as recommended by the Board. Should
I have mistaken my instructions, immediate
effect will be given to the orders of the Board
if reiterated - at the same time I beg I may
be informed, whether the Board by the pro=
=posed conversion of the Oolung Villages from a
varying to a fixed demand contemplate any
deviation from the mode in which what are
termed "Motta Tysel" Villages are settled
in this District.-

Tanjore
Myaveram
14th March 1848

/Signed/ J. F. Bidhop
Collector.

Ordered that the following letter
be sent in reply.-

(36-37)

To The Collector of Tanjore.

To the Collr of Tanjore
In Cons 23rd March 1848.

Sir,

I am directed by the Board of Revenue
to acknowledge the receipt of your letter dated 14th
March

4602. Fort St. George. 23rd March 1848.

March 848 requesting instructions in regard to the orders furnished to you for the introduction of an uniform system of money settlement in Tanjore, and in reply to state that the orders of the Board embrace all the Amany Villages in the District. By this measure the settlement in future will be of two kinds 1st Villages in which a fixed money assessment obtains and 2dly those in which the money assessment fluctuates with the Prices. The former includes the "Jaram" and "Motta Fyasl" Villages, the latter the Colungoo Villages and all the Amany Villages which are to be settled on the Colungoo principle and brought under that head - you will be pleased to act accordingly.

The Board contemplated the further step of bringing the present Colungoo and Amany Villages to the head of "fixed" money assessment by giving up according to the orders of Government formerly expressed the Colungoo condition of rise and fall with a provision for a suitable remission when prices continued for lengthened periods below the standard rates, but as Government in Extract Minutes Consultation dated 9th October 1847

30th December 1847 in Cons. 5th January 1848

Para

4603. Fort St. George. 23rd March 1848.

Para 3 were not prepared to adopt without limitation this measure, you will not till further instructions carry out this measure.

Revenue Board Office, Fort St. George, 23rd March 1848.

(Signed) J. Pycroft, Secretary.

Read again letter from the Acting Collector of Trichinopoly dated 27th October and entered in Consultation 8th December 1847.

Ordered that the above-mentioned letter together with the previous correspondence on the subject be submitted with the following address.

To,

The Officiating Chief Secretary to Government.

38

Sir,

To the Offg. Chief Secy. to Government

I am directed by the Board of Revenue to acknowledge the receipt of the orders of Government under date noted in the margin, calling for a report on a Petition from Sjagatier Mohadoor Deetchatoor of Jemboo Casaverum praying for permission to institute a suit for the

6th May 1847
31st July "
1st March 1848

1804 Fort St. George, 23rd March 1818

the recovery of certain Pecuniary Demands.

2. In reply to the instructions

From Collr of Tinnevelly 12th July 1817. From Ld. 27th Oct. Cons. 6th Dec. 1817. submit the accompanying correspondence with the Acting Collector of Tinnevelly on the subject, from which it will be observed that that Officer has been debarred from furnishing the Board full information regarding the landed questions owing to the Petitioner absenting himself from the district in consequence of his having been authorized by the Board to retain an attachment the Grant in dispute until the Petitioner should appear at his Office to establish his rights on the receipt of the required information from the Collector the Board will then address Government on the subject.

Revenue Board Office, Fort St. George, 23rd March 1818.

From the Collector of Tinnevelly— Sir

Submitting Translation of an application from Kristnasspier Sahsildar of Brummadasum Taloob and requesting the sanction of Government for his making improvements to the Choultry Erected by him at Panagoody

Part 1

I have the honor to forward herewith Translation of an application from Kristnasspier the late Revenue Head Javabnavis in the Sub Collectors Office here and now Sahsildar of the Brummadasum Taloob in this District, stating that he has erected a Choultry according to the enclosed Plan at Panagoody on the High road from Tinnevelly to Travancore and Quilon and that with a view to make provision for the support of the Choultry, it is now his intention to improve it by making additions there to for the accommodation of Travellers of inferior Classes and requesting me to recommend the usual grant of waste land for the support of the same.

2 The small Stone Mantapumut Panagoody not being available to Native Travellers and others halting at Panagoody the Chattrum in question in this line of Road is very desirable. It appears from the enclosed Copy,

Fort St. George 23d March 1818

Copy of a letter from the Sangerabu
received in answer to a Communication
from this Office made by Mr Ellis that C
Choultry in question was originally bu
with the verbal permission of Mr Bishop
then Sub Collector of this District. Under that
Circumstances I request you will be good
Enough to obtain the sanction of Government
for the applicant making improvements to the
Choultry and for the usual grant of waste
land on the completion of the proposed ad
-tions to this Choultry as laid down in the
general Rules which accompanied the
Board's letter of the 20th August 1819.

No 1

Translation of an Arzee addressed by
Kristnappier the Revenue Head Jamabundy
in the Sub Collectors Office under date the 2d November 1818

Having been given to understand
as well as knowing myself from a long time
that Travellers are put to great inconvenience
for want of a halting place on the high
Road leading from the Countries the Hill to Tinnevelly
and

Fort St. George 23d March 1818

and Quilon, I was induced to select a
Panagoody in the Valley as the most
eligible spot and accordingly erected a Choultry to
obviate the inconvenience But as it provides accommo
dation only to Travellers of superior Classes & I feel
desirous of constructing an additional building
for the reception of lower Classes at my own
expence provided I am permitted to do so.
For the support of the Charity in question
which is intended for public utility or to
enable me to meet the annual expense of
100 Rupees required for sprinkling water Pandal,
lighting lamps and for the entertainment of
2 Servants, I beg you will be pleased to recommend to
higher authorities for the usual grant of waste
land or any other endowment and obtain
their sanction for the same.

(41.)
From the Dy. Collector of Coimbatore 31/3/18

To
J. Pycroft Esqre.
Sec. to the Board of Revenue

Acknowledged. Have the honor to

4009 Fort St. George 23d. March 1818.

to forward the accompanying Copy of letter from Major General Gibson bearing date the 28th. Ultimo for the consideration of the Board, and I have only to add that the circumstances which have led to General Gibsons remarks are now under investigation by the Joint Magistrate of Ootacamund; suffice it for me to explain at present that General Gibson by purchase, and on great outlay of money succeeded in bringing water from a great distance to his place of residence at Kotagherry, and that Captain Ouchterlony has or threatens to interrupt the flow of the water by intermediately letting it off at a lower level. The case is so simple that I have no doubt that the Joint Magistrate on the Neilgherries will find the matter easy of adjustment, the result of which, if considered of sufficient importance will be communicated to the Board.

2 The question raised by General Gibson it will be observed is beyond me and my Office

To

J. C. Wroughton Esqre

Principal Collector of Coimbatore

Sir

It has occurred to me since my letter of the 28th Instant that it would be right in me to endeavour to move the Board of Revenue to instruct the Officer who may be surveying those Hills and who may be engaged in drawing out the Plans to exhibit the various localities shewing the different Proprietors of Ground who in any way to be concerned be in any Proprietary right to any Ground whatever over which he may now be surveying, as it is more fitting that himself in a wrong position to purchase Ground the locality of which may come to suit his own convenience to purchase, it is wrong in Principle that an Officer's duty and his private interest should be at variance with each other; I am compelled to take this step in furtherance of my letter to you above quoted not myself know how this subject should be brought to the consideration of the Board of Revenue, but it would not be irregular I dare say of the honor to hope you might be disposed to oblige me by allowing the letter to be forwarded to the Board of Revenue, it is very painful to me to have to do so but the circumstance has been forced upon me.

Ratnagherry

Salt

2.

The large increase in the
proceeds derived from the Salt Sales would
appear to have resulted from the permissions
accorded under the orders of Government
indicated in the margin for the unrestricted
Sale of Salt for Inland Exportation from
the Madras Coturs. The effect of this
Modification in the previous existing practice
is considered by the Collector to have been
highly beneficial to the Inland Trade of
the Presidency, he observes that Mer-
chants have availed themselves fully of the
indulgence by Conveying larger quantities of
to the Provinces as an article of trade and
that all the entries in the accounts the
nominal depression in the Home Consump-
tion as Compared with the previous year
Sales credited to the new heads of Inland
Consumption augmented the total receipts
to the extent of Rupees 134,188-8-7—
3

Including the Exports by Sea
and other items the Salt Revenue of the
Madras Collectorate amounted to Rupees 27,15,27,[illegible]
from which being deducted the annual Charges
which fall below the aggregate disbursements
of 1263 were in some degree augmented

by

Extract Minutes Consultation 9th inst 15th April 1847

Charges 1256-4,69,49-4-11.

Fort St. George 23rd March 1848.

Cost of transport Rs. 3,4,15 4-8

by the Cost of Conveying Salt from Ennore
to Supply the newly Created demands for
Inland Consumption, the Net Revenue stood
to Rupees 230,578-3-4 or Rupees 1,68,164-1-
in advance of the Net Salt Receipts of
Fusly 1255.—

4

The Circumstances under which
the modified System above adverted to
was Submitted to and ultimately Sanctioned

From Coll. 7th inst Cons 21st Dec. 1846
To Government 21st Dec.
From Coll. 18 inst Cons 29 March 1847
To Government 29th March
Extract Minutes Cons 9th inst Cons 15th Apl.

by Government are Explained in
the Correspondence entered on the
margin, in Submitting their Recommendation
for the future unrestricted Sales of Salt
from Madras to the Interior, the Board re-
marked that the proposed measure would
in their opinion "not only prove beneficial
"to the Inland Trade carried on with Madras
"but would also be productive of an increase
"of Revenue" as they observed "that the Sale of
Salt at Madras in January and February"
(in the former of which Months the practice
was introduced) had not affected the Salt
Revenue of Chingleput. In the report
from the Collector of that District relative
to the Extra Revenues for the past Fusly
now before the Board certain objections have been

urged

Fort St. George 23rd March 18

urged against the Continuance of the Inland
from Madras as prejudicing the interest
this District. The Consideration of this
will soon enable more appropriately
discussion in their review of that Report
the Board will therefore postpone any
tion they desire to make on it the duty
as presented by Mr Spence shall be more
directly under review.

5

The Sayer or Frontier duty has
during the year under review presented no points
calling for particular notice, the net proceeds
is exhibited in the Margin

Sayer
Net Revenue
1253-316-9-11
1254-268-8-2
Decrease 48-1-9

The abkarry Revenue has on the
other hand undergone considerable fluctuation
Compared with the Corresponding Revenues of the
preceding year, arising from Causes which do not
appear requisite to enter in some detail
in the abkarry amounted to Rupees 1,61,229-2
which is was below the demand of July 1253 by
the large sum of Rupees 1,87,769-15-5 exclusive
Current Collections and Extra Items credited
to this head the falling off was Rupees 1,16,982-3-
and after deducting the annual Charges about
more Somewhat Reduced from the Corresponding
State

Fort St. George 23rd March 1848.

State of the Revenue, the Net Revenue
Net Rev 1253 stood at Rupees 3,82,777-4-1 or Rupees 49,370-1-
49,209-7-5-1 below the Net Revenue derived from this branch
during July 1235.-

In particularizing the items of
decrease from this branch, the Collector shows
that in the Arrack Revenue the gross falling
off was Rupees 28,678-4-8 Viz. on the Puttah
arrack the loss was 7,779-1-10 and on the
Batavia arrack Rupees 20,899-2-10, the residue being
confined to the Toddy Collections which were
less than those of 1235 by Rupees 82,988-12-3.-

The explanation furnished by
the Collector in elucidation of the decrease in
the abkarry is detailed in para 18 to 20 of
his Report. He observes in respect of the
arrack deficiency that the loss sustained in Con-
sequence of the Storm which visited the
Presidency towards the close of the year 1846.
by the bulk of that class of the Community who
indulge principally in the use of this article,
influenced the receipts from this branch he also
attributes the deficiency of the year in part to the
existence of illicit sales, and as far as the Batavia
arrack Shops were Concerned to the inferiority
of the liquor furnished to the traders in

that

that article from the Commissariat Depart-
-ment.

10 The Board doubt not that much
of the diminution in the Revenue may be
fairly attributable to the effects of the
Storm which produced such disastrous con-
-sequences during the past year, especially
among the lower classes of the people. How
far the alleged clandestine sale of illicitly
imported Arrack may have prejudiced the
Revenue, they have no direct data before
them to judge, but they hope that the disbursement not exceeding
fifty Rupees per annum in rewards to parties
detecting frauds in the Abkary Department
which was authorized by Government at
the Solicitation of the Collector, has been
attended with the advantages anticipated
from that measure.

11 The pecuniary rewards which
the Board have sanctioned & the distribution
of agreeably to the above order of Govern-
-ment have amounted hitherto only to
Rupees 33-8-0 = The quantity of Spirits seized
being 4-28
12

With respect to the decrease observable

observable in the Sales of Batavia Arrack
the Collector has submitted with his Report
Copies of a Correspondence which he has
interchanged with the Commissary General
on the Subject, from which it appears that
in Consequence of the issue from that Depart-
-ment of a description of Spirit to which
the Consumers were unaccustomed that strong
objections were raised by the venders which
tended to produce the loss of Revenue in
question. On a perusal of this Correspondence
it appears to the Board merely necessary in
order to obviate a similar occurrence and
grounds of Complaint in future that the
Commissariat Department should be instructed
to make such arrangements as will enable
them to Confine the issues hereafter to pure
Columbo Arrack, avoiding any deviation
either in respect of quantity or Colour of the
Spirit from that usually supplied for the
Consumption of the Public by the authorized
venders

13 As regards the large decrease
in the Toddy Revenue of the year the Board
desire to state that their attention has been
particularly directed to this Department of
the

Extract Minutes
Consultation
14th in Cons 25th
October 1847.

the abkarry, and as observed in their letter
to Government under date the 9th Instant
they have recently entered into a review
of the whole question with the Collectors
of Madras and have pointed out to that Govt
the amendments in its administration which
appeared to be called for, and at the same
time issued Special Instructions from the
operation of which they are led to anticipate
highly beneficial Results in the future
management of this branch of Revenue
14. In Connection with the Causes
has submitted a further Correspondence
with the Military Authorities at the Mount
by which he shews that in consequence
of the reduction made during the year in the
Number of Toddy Shops within the Canton-
ment limits a considerable deficiency of
Revenue has been sustained and he suggests
that instructions should be issued to the Offr
Commanding at that Station to allow hence
forth the Customary number of Shops
to be re-established within the prescribed
Military Area of 4 Miles from the Main Guard
as the means of preserving the Government

In 1846 No of Shops 22
In 1847 — 7
Decrease of Shops — 15
+ Rupees 6000 —

Revenue

Revenue and at the same time imposing
a check upon illicit importation of Spirits
within the Cantonment limits. In refer-
ence to those remarks it does not appear
to the Board necessary to agitate the point
further than to observe, that the Subject
seems to them to be one rather of general
expediency in a Military point of view
than as a Simple question of an increase
or decrease in any item of Revenue.
15 The Officer Commanding the
Mount in his letter to Mr Hudleston dated
23rd March 1847 observes that to reduce the
"Liquor Shops to a number as small as
"possible without holding out any undue
"encouragement to Smuggling is a matter
"of much importance to the well being of the
"Troops" and he adds "that any increase in
the number of Toddy Shops is not at present
"desirable."
16 The Subject would appear from
these remarks to have received the mature
Consideration of the Military Authorities
who express themselves strongly opposed
on grounds of discipline to any extension of
the Capabilities for procuring Liquor by

the

Fort St. George 23rd March 1848.

the Troops under their Command and as this Consideration would doubtless frustrate any mere question of increase of Revenue, the Board deem it unnecessary to suggest any Modification in the present System which appears to have given Satisfaction to the several Officers Commanding Corps at that Station.

17. Care however should be taken in thus limiting the places of Sale to avoid occasion for a Clandestine Trade, to supply the demand which will still exist, an apprehension which the Collector of Madras enters at appears on good grounds should Such an abuse be found to result from the present System, it will be incumbent upon the Authorities to adopt such Measures as will not only insure the proper interests of Government but at the same time protect the Troops from the means of undue access to Spirituous Liquors

18. Under the Heads of Sundry or Small Farms and Licenses and Stamps there is nothing to call for remarks from the Board The Net Revenue from the former item amounted to Rupees 9312-14-5 which differed immaterially from the like Revenue of July 1255 and from the latter to Rupees 6643-3-6 being Rupees 795-8 in excess of the antecedent year

Small Farms 88: 9,523-10-4

Stamps 6849-11-4

The

Fort St. George 23rd March 1848.

19. The Collectors from Cochranie Canal present an increase during the year under Report of Rupees 8137-4-3 owing to the Channel being navigable during a longer period than in the previous year. In the net Revenue the excess amounted to Rupees 22,581-10-2 from the absence of the usual disbursements to the Sepoys of the Canal which has now reverted to Government

20. The Gross Collections from the Several Items composing the Extra Sources during July 1256 amounted to Rupees 784,344-6-7 or Rupees 30739-11 above the preceding July. The Charges incurred during the same periods were Rupees 129230-11-1 showing a decrease of Rupees 48,093-10-11 thus leaving the Net Revenue of the year reported on at Rupees 6,52,313-11-6, which Sum surpaped the Net Revenue of 1255 to the extent of Rupees 9826-11-10

Ordered that a Copy of the foregoing Extract from the Board's Proceedings with the annexed Comparative Statement of the Collections, Charges and Net Revenue be Submitted to Government and Transcript of the Same be forwarded to the Collector of Madras for his information and guidance—

Order thereon

Ordered to be recorded

48

To The Hon'ble Court of Directors
&c &c &c

Through the Secretary to the
Board of Revenue

Sir,

I have the honor to report for the information of the Honble Board of Revenue that I have received charge of the Office of Collector of Madras from Mr. Fox, and of the Office of Agent for the Management of the Estates attached to the Pagoda of Tripetty from Mr. Ravenshaw.

2. I have filled many responsible Offices in the Service of Government, and it is a source of extreme gratification to myself as well as to my friends that I have been selected by the Supreme Government to fill the highest Office in the Revenue Department in this Presidency.

3. I shall endeavour to discharge the duties of my new appointment to the best of my ability, and I trust that my conduct will meet with the approbation of the Honble Board.

4. I have the honor to be Sir, your most obedient humble Servant

(signed) J. A. Huddleston
Collector

which I have been placed and with every Public &c
Officer under whom I have served during this long period,
I have had the good fortune of invariably giving &c
satisfaction.—

I have now had the pleasure of serving
under the present Members of the Board and yourself
for some years and I trust that my exertions and &c
labors have met with their and your approbation.— &c
Advanced age, a shattered constitution, impaired &c
vision and a defective memory have however imperceptibly crept upon me, the latter infirmities being &c
partly at least the result of the long and continued &c
labour to which I have necessarily been subject and &c
I am therefore anxious to retire from public life and to
pass the remainder of my days, few though they are &c
likely to be, in quietness and comfort.—

I entered the public service on the
22d. April 1815 as a Clerk in the Office of the &c
Collector of North Arcot.— I was soon afterwards
Vide Enclosure No. 1 promoted to the situation of Record Keeper and &c
placed at the head of the correspondence department,
I continued in that district up to 14th May 1818
when at the particular desire of Mr. Groeme &c
Enclosure No. 2 the Collector and with the sanction of the Board

of

of Revenue, I accompanied him, as his Head Clerk
and Translator, to Malabar and Canara, to which
Provinces he had been deputed by Government, as &c
Commissioner, to carry on certain enquiries, and to &c
introduce certain reforms in the assessment of the
land revenue &c&c. It is needless for me to detail the
services which I had to perform whilst under Mr. &c
Groeme in Malabar, suffice it to say that the pre=
=paration of the Accounts of the Commission and
the translation of all the papers connected with it, &c
were performed by me; and to shew the extent of &c
the confidence which that Gentleman placed in me,
I may mention, that, on one occasion, when he visited
Madras, in January 1822, to left me in charge of &c
the Office Establishment and entrusted to me the &c
Enclosure No. 3. transmission to Government of his report, which was not &c
at that time altogether in readiness for despatch; and on
his departure from India, Mr. Groeme presented me with
a valuable Gold Watch, as a mark of his approbation of
my services under him.—

Mr. Groeme having been subsequently
appointed a Member of Council, he, in May 1823, was &c
obliged to return to Madras.— The Survey Establishment
was consequently transferred to the Collector of Malabar,
but I preferred accompanying Mr. Groeme to Madras,
as I could not, after a lapse of 5 years, return to the

situation

situation Held in North Arcot, which, after having been kept open for me for a long time, was, at Mr. Groome's request filled up, as he was unwilling to part with my services so long as he continued on the business of the Commission. I may here mention that Kulfully Runagara Menon, who was Shereistadar of Mr. Groome's Survey Establishment, was pensioned on his full pay under the orders of Government dated 2d. December 1834, and which were subsequently approved by the Honorable Court. Soon after my arrival at the Presidency, Mr. Groome did me the honor to introduce me to Mr. R. Clarke, then Secretary to the Board of Revenue, and I was immediately employed by that Gentleman in the public duties of the Office. Although I entered this Office in September 1823, yet I received no public pay until the beginning of December 1824, the date on which the Government sanctioned my entertainment. But in the mean time, Mr. Groome allowed me a private Salary, and on account of this when my appointment was confirmed, no application was made for the arrears to which I was fully entitled, as that Gentleman thought it might be said his object was to recover the private pay he allowed me, for the public duties I performed. A reference to his Certificate, which forms Enclosure No. 16, will bear me out in

the above particulars.

Enclosure No. 4. In their letter to Government, dated the 25th. November 1824, recommending the appointment, on their Establishment, of a person in the capacity of Abstractor of correspondence, on a Salary of Rupees 175 per Mensem, the Board detailed fully the arduous and responsible nature of the duties which it was intended to entrust to him, and stated that the Servants on the establishment were fully employed in the ordinary business of the Office, and that to expect such work from them, would be impossible, even if any among them were competent to the task in other ways: and they added, that an undertaking like the one in question, required a person of education superior to the ordinary writers of an Office. The sanction of Government for the

Enclosure No. 5. appointment was granted on the 3d. December 1824 and I was selected by the Board to fill it. I devoted my best exertions to meet their wishes, and they were pleased, on

Enclosure No. 6. the 21st. September 1826, to recommend to Government that my Salary should be increased from 175 to 245 Rupees per Mensem. On that occasion, the Board observed that "they had so much reason to be satisfied with the assiduity and talents displayed by me as Abstractor of correspondence that they considered my Salary very inadequate

Enclosure No. 7. to my services." Government accordingly Sanctioned

Fort St. George 23d. March 1848.

the proposed increase on the 29th. September 1826. The Board again favorably noticed my services in their letter to the Revision Committee dated 7th. February 1828. In December of that year, under orders of the Board, I accompanied Mr. G. Russell, who had been appointed a Member for the Madras Presidency, of the Finance Committee which sat at Calcutta, but the sudden and unexpected death of my wife and two Children left my family here without any protector, and I was therefore compelled to request permission to return, after a residence in that City of 4 Months, and on that occasion, Mr. Russell, in applying to the Board for another person duly qualified to succeed me, observed, "It is due to Mr. Rencontre to state that I have had every reason to be satisfied with him, since he has been with me and that I greatly regret the loss of his useful services". I resumed my duties in the Board's Office in May 1829.

Enclosure No. 8.

Enclosure No. 9.

+ Note. During my stay at Calcutta I drew the full pay of my situation in the Board's Office, Viz. 245 Monthly with an addition of 150 Rs. per Mensem as Batta.

Enclosure No. 10.

On the 28th. December 1835 the Board again brought my services prominently to the notice of Government. On that occasion they stated as follows: "Mr. F. Rencontre, who in addition to his proper duties as Abstractor of correspondence which have been most ably performed, has, for a long time, acted as Assistant to the Secretary, particularly in the Department of Audit, and in examining periodical Returns and Statements,

Enclosure No. 11.

in

Fort St. George 23d. March 1848.

in which his long experience of the practice, and his thorough acquaintance with the standing Rules and orders of the Board, combined with great assiduity, attention and accuracy render him very useful. Mr. Recontre has been attached to the Office in his present situation since 1824, his pay is 245 Rupees per Mensem, and the Board earnestly recommend that he be now promoted to the rank of an Uncovenanted Assistant, with the salary of 300 Rupees per Mensem, which is allowed to the 1st. Class of that rank in the Government Office. In submitting this recommendation, it is due to Mr. Rencontre to state that the late + R. M. Wheatly Esq. Secretary to Government in the Revenue Department, had it in contemplation to appoint him to the situation of 1st. Uncovenanted Assistant in his Office and only relinquished his purpose from unwillingness to deprive the Board of his useful services" and they concluded by stating that they considered it of much importance to secure permanently the services of a subordinate Assistant, whose experience of the business of the Office and knowledge of the records would be always available.

Enclosure No. 12.

The Government, in sanctioning the increase of pay, stated that they observed with much satisfaction the favorable testimony borne by the Board to my merits.

In

In July 1842, the situation of Manager on this establishment having became vacant by the death of the then incumbent, I was selected by the Secretary Mr. R. T. Porter to fill that Office, on a Salary of Rupees 400 per Mensem - In requesting the Sanction of Government for the arrangements consequent on my nomination to the situation of Manager, the Board recorded the following observations - "The individual whom the Board consider best calculated of those who constitute their present Office establishment, to exercise with efficiency the responsible and important duties of Manager, is Mr. F. Rencontre, one of their Uncovenanted Assistants Mr. Rencontre has been employed in this Office since 1824, a period of 18 years, during which the zeal, assiduity and intelligence, which he has uniformly displayed, in the discharge of the various descriptions of business which have been at different times allotted to him, have been such as to entitle him to a very high degree of consideration from the Board -

Enclosure No. 13.

On relinquishing charge of this Office in February 1844, Mr. Bourdillon recorded his favorable opinion of my services, and you are aware that I have since that time exerted myself to the best of my power to give the Members of

Enclosure No. 14.

of the Board and yourself, every possible satisfaction - I have thus endeavoured to detail the services which I have rendered to the Government throughout a long series of years, embracing nearly the third of a Century (vide Margin) from which you will have observed that I was employed upwards of 8 years in the Provinces, and have passed the remaining 24 in the Office of the Board - The nature of the duties which I performed during the first eleven years of my service in this Office, as abstractor of correspondence &c., are fully explained in the Board's letters to Government dated 25th November 1824, 21st September 1826 and 28th December 1835. For seven years subsequently I held the appointment of Senior Uncovenanted Assistant, the duties of which important Office in a large establishment like that of the Board, are too well known to the Members and yourself, to need any explanation from me - I may however here quote the + words of the Board, in their report to the Finance Committee, wherein they state that I performed

	Y.	M.	D.
In the Collector's Cutcherry in North Arcot from 12th April 1815 to 11th May 1818	3	"	23

+ Vide Enclosure BB. and CC in a letter from Mr. Graeme to Government dated 20th May 1823 forwarded by Government to the Board on the 17th June 1828.

+ Vide Para 6 of the Board's letter to the Finance Committee dated 22d Dec. 1842.

Fort St. George 23d March 1848.

performed a large part of the duties formerly falling to the share of the Assistant Secretary, since the abolition of that appointment in 1831 — and I would also beg to refer particularly to the 15 Minute recorded in my favor by D. Elliot Esqre on relinquishing the Office of 2d Member of the Board, in December 1838, for his appointment as Member of the Law Commission in Calcutta — The nature and extent of the duties of the Manager, which Office I have filled for the last six years (® in addition to that of an Uncovenanted Assistant) are succinctly given in the following Extract from the Board's letter to Government, dated 2d February 1835 Para 5. "The duties of the Manager of the Board of Revenue, do not admit of comparison with those of any other Office at the Presidency — They are of a nature in which are blended, in part, the duties of a Collector's or Sheristadar in the provinces as well as those of Manager of an Office at the Presidency — The voluminous records of the Board, comprising as they do the variety of matters directly and indirectly connected with the Revenue and Police of the Country, and with which the Manager is expected to possess a ready and intimate acquaintance imposes upon him an extensive and laborious research, and renders his situation one of great trouble and responsibility."

Enclosure No. 15.

® Vide letter from Board to Government 26th July 1842.

Independently of the testimonials to which I have already referred, I beg leave to enclose certificates

Fort St. George 23d March 1848.

certificates which have been granted to me by several distinguished Officers who have at various times been connected with the Board a perusal of which will exhibit the opinion which they respectively entertained of my services and character.—

H. T. Graeme Esqre	Enclosure No. 16	
D. Elliot Esqre	" No. 17	
R. A. Bannerman Esqre	" No. 18	
T. V. Stonhouse Esqre	" No. 19	
G. E. Russell Esqre	" No. 20	

Under the pension rules any public servant of 30 years standing is entitled to one half of his salary on retirement — but I trust that my long and faithful services in so many responsible situations will be considered as giving me a claim to be specially distinguished by the favor of the Board and Government — I have already adverted to my infirmities bodily and mental and to the probability of my enjoying the bounty of Government but for a short time — I have a very large family consisting of a Wife and eight Children besides numerous dependants and my health has also become so much impaired

Fort St. George 23d. March 1848

impaired that if I am compelled to retire on a retrenched allowance, I shall have to pass the evening of my days in reduced circumstances.—

I have often witnessed the liberality of Government in granting full retiring pensions, in reward for long faithful, and zealous services, and the Honorable the Court of Directors have also observed, in their despatch dated 27th May 1829, that "to assure to an Officer who has faithfully served the Government for a length of time, an income during his life of equal amount with the salary he can no longer earn, may often be expedient" I sincerly trust therefore that the Board will take my case into their gracious consideration, and recommend me for such a retiring pension as will enable me to spend the remainder of my days in ease and comfort.—

2. Surroothama Row Peshcar of Triputty Talook—
3. Sooba Row Goomastah
4. Govind Row Police Ameen
5. P. Rencontre Record Keeper
6. F. Magry—Writer—

In reply to your communication of the 30th Ultimo, I am directed by the President and Members of the Board of Revenue to inform you that the Board approve your having complied with Mr. Grame's application for the assistance of certain public servants, and sanction the temporary employment of the persons mentioned in the Enclosure to your letter.

No. 3.

Mr. F. Rencontre,

If I should happen to die between this and the period at which the Reports that I have given you to Copy may be ready, I beg that you will forward them as soon as copied to the Chief Secretary to Government with this Note as your authority for so doing.—

Tellicherry, January 1822

(Signed) H. S. Grame

No. 4.

From the Board of Revenue to Government, dated 25th November, 1824. No. 553.—

The Honorable the Governor in Council was pleased under date the 8th June 1819 to sanction an

Fort St. George 23d. March 1818

an additional number of Writers to the Establishment of the Board of Revenue this addition has been sufficient, with great exertion to carry on the Current business without the necessity of entertaining any additional hands—

2. The Board direct me to state that there is in their Office no abstract of former correspondence to which reference can be made for the purpose of ascertaining precedents or even of seeing what has before passed in regard to many important cases still undecided. among these may be instanced that of the succession to the Estate of the late Vasareddy which only lately has again originated a correspondence with the Collector involving points of much importance.—

3. The inconvenience arising from a condensed view of the most material facts connected with questions before agitated of the various Orders and Rules which have from time to time taken place in the system of revenue administration and of their effects in each year and District, was little felt till of late, because there were Gentlemen in the Board whose whole career of service had been passed in the Office, and who were consequently acquainted with every thing that had occurred for a very long series of years.—

4. It will be obvious to the Honorable the Governor in Council that a record of this nature would

would be attended with the greatest advantage to future Boards, but the same cause which has prevented its compilation hitherto must prevent it hereafter also unless some further addition be specially for that purpose made to the present Establishment. The servants heretofore employed have never been equal to more than the business of the year. To expect such a work from them therefore would be impossible even if any among them were competent to the task in other ways but an undertaking like that here in question requires a person of education superior to the ordinary Writers of an Office.—

5 The Civil Servants attached to the Board have at all times sufficient employment of a more pressing nature to occupy them, and in this case could not do more than superintend and revise the labors of others. It is moreover extremely desirable that one person at least of those engaged in a duty of this kind should be permanently fixed in the Office.—

6. I am likewise directed to observe that a considerable increase in the correspondence has taken place within the last 4 years, in particular since the enactment of Regulation IX of 1822 and III of 1823, by which Collectors and their Sub Collectors and Assistants are required to furnish to the Board Monthly and Quarterly Returns of the cases decided by

by them, of fines imposed, &c. &c. and at this moment a still further call on the labor and time of the Establishment is likely to be occasioned by printing selections from the Report of the Special Commission as directed in Mr. Secretary Wills' letter of 8th August 1823, a work which is now in course of arrangement, and which will render it necessary that some person should be available to correct the press- at present there is no one who could be spared for the purpose.—

7 Under all the circumstances of the case the Board feel assured that the Honorable the Governor in Council will concur in their views and that he will not hesitate to authorize such additional aid as may be necessary- They have made every enquiry and find that no person duly qualified would be willing to engage himself under a salary of 175 Rupees per mensem, they accordingly solicit the sanction of Government for entertaining an additional person upon this salary to be called "Abstractor of Correspondence"— and to form part of the regular Establishment under the control of the Head of the Office.—

8. The Board are by no means confident that an individual of this description will be sufficient for the purposes required, but they are unwilling to press any addition beyond the immediate urgency-

exigency of the case.—

9. In submitting this request the Board consider it unnecessary to refer to the extent of their present Establishment further than to state that no addition to it has been made since 1819, and that in their letter of 3d July 1823 it was shewn that a saving to the extent of Rupees 10,533-7-8— had been effected in the years 1820-21 and 22 in the Charges for Extra Writers &ca compared with the three preceding years.—

No 5.

From Government to the Board of Revenue, dated 3d December, 1824—No 789.—

I am directed to acknowledge the receipt of your Secretary's letter No 558 of the 25th Ultimo. The Honorable the Governor in Council is satisfied that an abstract of the more important correspondence in your Office if carefully drawn up would be a very useful work and accordingly authorizes the employment of a person to prepare it on a Salary of 175 Rupees per mensem.—

No 6.

Extract from a letter from the Board of Revenue to Government, dated 21st September, 1826—

"Under the authority communicated in Mr Secretary Stokes's letter of the 3d December 1824—

the

the Board appointed Mr F. Rencontre to the situation of Abstractor of Correspondence upon a Salary of 175 Rupees per mensem, and they have had so much reason to be satisfied with the assiduity and talent which he has on all occasions displayed in this capacity that they consider the salary he at present enjoys very inadequate to his services, they beg therefore to recommend that the high pay of 245 Rupees per mensem at present drawn by the Senior Examiner may for the future be given to the more responsible situation of "Abstractor of Correspondence".—

No 7.

Extract from a letter from Government to the Board of Revenue, dated 29th September, 1826.—

"The Governor in Council sanctions the arrangement proposed to be adopted on Mr Grants' removal from your Office".—

No 8.—

Extract from the Remarks of the Board regarding their servants transmitted to the Revision Committee on the 7th February 1828.—

Mr F. Rencontre.— "This person is most usefully employed in preparing abstracts or abridgments of the old Correspondence on the Boards' records upon the various subjects coming under consideration in the course of business. He also abstracts the Current correspondence for entry in the Diary and

Fort St George 23d March 1848

and is employed with great advantage in many miscellaneous duties requiring a more than ordinary degree of intelligence— His pay was first fixed at 175 Rupees, and on the 29th September 1826 it was raised to 245 Rupees on the recommendation of the Board, who stated that they had much reason to be pleased with the assiduity and talent displayed by him on all occasions, and that they considered the former allowance an inadequate remuneration for his services."—

No 9.

To Mr F. Rencontre
Abstractor Board of Revenue
Office—

You are hereby directed to put yourself under the orders of Mr Rupell and to prepare to proceed to Calcutta in charge of the records which he may commit to you.—

Your situation in the Office of the Board of Revenue will be kept open for you to return to when you shall be relieved from attendance on Mr Russell.—

Your salary will be paid here to your order.—

Fort St George,

Extract from a letter from G. E. Russell Esq re to the Board of Revenue dated Calcutta 3d March 1829.—

"I regret to state that severe domestic calamity makes it necessary for Mr Rencontre whom the Board were so good as to send with me to this place to return to Madras. He will sail in the Bucephalus two days hence and will probably reach Madras as soon as this letter. I beg therefore that you will submit to the Board my requist that another person duly qualified may be sent to supply his place as soon as possible. It is due to him to state that I have had every reason to be satisfied with him since he has been with me and that I greatly regret the loss of his useful services."—

No 11.—

Extract from a letter from the Board of Revenue to Government dated 28th December, 1835.—

"The Board beg leave to take this opportunity to bring to the notice of Government the valuable services of Mr F. Rencontre who in addition to his proper duties as abstractor of Correspondence which have been most ably performed has for a long time acted as Assistant to the Secretary particularly in the Department of Audit, and in examining periodical returns and Statements in which his long experience

of

Fort St. George 23d March 1848.

of the practice and his thorough acquaintance with the Standing Rules and Orders of the Board, combined with great assiduity, attention, and accuracy, render him very useful. Mr. Rencontre has been attached to the Office in his present situation since 1824, his pay is Rupees 245 per mensem, and the Board earnestly recommend that he be now promoted to the rank of an Uncovenanted Assistant with the salary of 300 Rupees per mensem, which is allowed to the 1st class of that rank in the Government Office. In submitting this recommendation it is due to Mr. Rencontre to state, that the late Secretary to Government in the Revenue Department had it in contemplation to appoint him to the situation of 1st Uncovenanted Assistant in his Office, and only relinquished his purpose from unwillingness to deprive the Board of his useful services.

The Board respectfully submit to the consideration of Government that when in 1831 they proposed to dispense with their Assistant Secretary it was in the expectation that the Department would be rendered more efficient on the whole by the situations of Secretary and Senior Deputy being so improved in respect to emolument as to induce Gentlemen to remain in them for protracted periods instead of seeking promotion elsewhere. To secure the services of

Fort St. George 23d March 1848

of Gentlemen of experience as Secretary and Senior Deputy Secretary, it was proposed to bestow upon them the Salary of Assistant. It was thought that the business of the Board would be better done by a Secretary and two Deputies of whom only the Junior Deputy would generally be below the standing of a Sub Collector, than by a Secretary two Deputies and an Assistant of whom all but the Secretary would generally be below that standing and the Secretary himself below the standing of a Collector. The Board greatly regret that the arrangement proposed by them which was approved by Government has not been sanctioned by the Honorable Court of Directors, and as under the present arrangement it is to be expected that there will be frequent changes in the Secretary's Office, they consider it of much importance to secure permanently the services of a Subordinate Assistant whose experience in the business of the Office and knowledge of the Records will be always available. The Salary of Assistant Secretary now saved was Rupees 690 per Mensem the proposed increase to the pay of Mr. Rencontre is Rupees 53 per mensem deducting this sum from Rupees 205 the proposed reduction in consequence of the new arrangement to take effect from the 1st January, there remains a net saving of Rs 145 per Mensem or Rupees

Rupees 1740 per annum."—

No. 12.

Extract from the Resolution of Government, dated 7th January 1836.—

"The Governor in Council has observed with much satisfaction the favorable testimony borne by the Board of Revenue to the merits of Mr. Rencontre, and agreeably to their recommendation is pleased to sanction an addition of 55 Fifty five Rupees to his monthly salary."—

No. 13.

From the Board of Revenue to Government, dated 26th July 1842.—

The situation of Manager on the Establishment of the Board of Revenue having become vacant by the death of the late Manager, K. Vencatachellum Naidoo, I am directed to request that you will submit for the consideration and orders of the Right Honorable the Governor in Council the following arrangement which the Board are desirous of making upon the occasion; and for which as it involves an alteration in the allotment of the pay of this situation it is necessary that the sanction of Government should be obtained before it can be carried into effect.—

2.

The individual whom the Board considers best calculated of those who constitute their

present

present Office Establishment to exercise with efficiency the responsibles and important duties of Manager is Mr. P. Rencontre one of their Uncovenanted Assistants— Mr. Rencontre has been employed in the Office since 1824 a period of 18 years, during which the zeal and assiduity and intelligence which he has uniformly displayed in the discharge of the various descriptions of business which have been at different times allotted to him have been such as entitle him to a very high degree of consideration from the Board. It is within the knowledge of the present Board moreover that Mr. Rencontre has on a former occasion forgone an opportunity of promotion in the Government Office in consequence of it's being considered at the time that his services on the Establishment could but ill be dispensed with.—

Under these circumstances the

3.

Board in consideration of the increased labor and responsibility which will devolve upon Mr. Rencontre as Manager of their Office Establishment propose to allot to him so long as he remains in charge of the Department in addition to his present pay the sum of Rupees 110 per Mensem out of the Salary drawn by the late Manager, and to appropriate the remainder Rupees 100/ for the employment of an Examiner to assist in the despatch of such portion of Mr. P. Rencontre's

present

[t] Rupees 300 per Mensem

[d] Rs. 210 per Mensem

Fort St. George 23d March 1848

present business as his additional duties in the Managers' Department will unavoidably preclude him from attending to.—

4. It will be seen that the above arrangement involves no increase in the total expense of their Establishment, the efficiency of which the Board feel convinced will be materially improved by its adoption, and they accordingly direct me to request that the Sanction of Government may be granted for carrying it into effect from the commencement of the ensuing month."—

No. 14.

"During all the time that I was Secretary to the Board of Revenue Mr. Francis Rencontre was Manager of the Office, and his extensive acquaintance with the Records and past transations of the Board, his general intelligence and his great assiduity and attention to Business made his Services eminently valuable in that Capacity— Being now about to quit the Post of Secretary I have much pleasure in giving Mr. Rencontre this testimonial of my high opinion of his merits and value as a public Servant—

No. 15.

Extract from a Minute recorded by Mr. D. Elliot Second Member of the Board of Revenue dated 18th December 1838.—

"The valuable Services of Mr. F. Rencontre were brought to the notice of Government in the letter dated the 28th December 1835. addressed to the Chief Secretary and he has not failed to maintain the character then given of him by his assiduous exertions in the discharge of the duties ordinarily committed to him which he performs most satisfactorily and by his general usefulness in aid of the Secretaries. I feel personally very much indebted to him for the assistance he has afforded me more particularly in searching the records and abstracting and digesting the information contained in them in which his ability diligence and accuracy are most highly deserving of commendation.—

The considerable proficiency attained by

Fort St. George 23d March 1848

by Mr. F. Rencontre in the English and Tamil languages, the tolerable knowledge he possesses of the Hindoostanee, his quickness in business and great attention to it, and the style of his translations render him a particularly useful man as a Translator or as a Head English Accountant in any public Office — He is also very temperate and correct in his private conduct. —

/ Signed / H. S. Grame —
Collector —

It is also within my knowledge as President of the Revenue Board that Mr. Rencontre was employed in the public duties of the Revenue Board Office by the Secretary Mr. Richard Clarke and myself from September 1823 to the end of November 1824 but as his employment was not recognized by the Government and as he received from me a private pay, which it might have been said it was the object to recover, no application was made for arrears of Salary or any compensation more adequate than the private pay to the public duties he performed. —

Madras 17th March 1833.

On quitting the Board of Revenue where I have been Officiating as Member for upwards of a year and a half I feel it due to Mr. Rencontre to bear testimony to the very high opinion I entertain of him and of his useful and valuable services. I have seen none in the course of my service in India to surpass Mr. Rencontre in talent, in intelligence and assiduous application to business.—

His duties in the Board of Revenue are highly laborious and responsible, and during the period I have been in the Board they could not have been done better. His conduct during this period has entirely merited my good opinion and esteem, and if this testimony to his worth should ever be of assistance in furthering his future prospects it will be a source of sincere gratification to me.

Ordered that the foregoing letter be submitted with the following address-

To The Officiating Chief Secretary to Government

Sir,

49.

To the Offg. Chief Secy. to Govt. Para 1.

Forwarding a Memorial from Mr. F. Rencontre Manager and Head Uncovenanted Assistant in the Board's Office praying he may be placed on the Supernumerary Pension list on such a retiring Allowance as the Board deems him from the length & nature of his services & the testimony borne to his character strongly support ing his application considering his claims to be of no common order and although aware of the unexpediency of departing from the Rules established for the guidance of Govt. in the consideration of Pensions cannot but be influenced in a case of faithful & meritorious servant stating that the Members of the Bd. have recorded Minutes expressive of their opinion of his character & services & in transmitting the usual form and medical Certificate adding that the period of his services does

I am directed by the Board of Revenue to forward, for the purpose of it's being laid before the Honorable the Governor in Council, the accompanying Memorial of Mr. Francis Rencontre, Manager and Head uncovenanted assistant in this Office, stating his wish on account of his age and infirmities to retire from the public service and to be placed on the Supernumeration List, and submitting for the consideration of the Board and Government his claims, founded on the length and character of his services, to a higher rate of Pension, than would be granted to him under the ordinary Rules.

2 The various situations in the Public Service held by Mr. Rencontre, and the nature of the duties attached to them are clearly shown in his Memorial. It will be seen, that having entered the Service of Government in 1815. he was soon afterwards employed in

Fort St. George 23d March 1848

has been verified in this Office

in an Office of considerable trust and importance in the investigation into the affairs of Malabar and Canara conducted by the Commissioner Grame. Having subsequently been introduced by that Gentleman into this Office in 1823 he has become successively abstractor of Correspondence and Head Uncovenanted assistant and lastly in 1842 on account of his peculiar qualifications he was selected to fill the ordinary post of Manager in conjunction with his previous appointments as Uncovenanted assistant.

During the course of his service his merits have been frequently brought to the notice of Government, and there can be no doubt as that the infirmities under which he now labors, and which have led to his retirement, have been in a great measure occasioned by his close and unremitting attention to his onerous duties, more especially during the years that he has held his last situation of Manager, a period during which, for reasons which it is not necessary

Vide
To Govt 21st September 1826
To Govt 28th December 1835
To Govt 26th July — 1842

Fort St. George 23d March 1848

necessary here to detail, the calls upon his exertions have been more than usually constant and pressing.

3 The amount of Superannuation Pension to which Mr Pencontro will be entitled under the Rules of 22d Dec. 1835 is the moiety of his average allowances (Rupees 410) for the last 5 years or Rs. 205 per mensem, but he has expressed his hope that under the peculiar nature of his services his case may be considered as deserving the special consideration of Government.

4 The Board of Revenue beg strongly to support his application. They feel it to be due to him to state that they consider his claims to be of no common order, and although they are aware of the inexpediency of departing from the fixed general Rules established in such cases, they may perhaps be allowed to state that parties whose

Fort St. George 23d March 1848

whose claims cannot be regarded as superior to those of Mr. Rencontre have not unfrequently been pensioned on their full salaries and the Board feel assured that the bounty of Government volunteer may be its extent could not be bestowed on a more faithful and meritorious public Servant.

5 I am further directed to state that the members of the Board whose official acquaintance with Mr. Rencontre commenced, in the case of the Acting Senior and 2d Member in 1837 and 1838 respectively, and in that of the Acting 3d Member at a still earlier date have thought it due to him generally to place upon record minutes, which shall be laid before Government if required, expressive of their high opinion of his character and services.—

The

Fort St. George 23d March 1848

6 The usual tabular form of application accompanied by a Medical Certificate, as prescribed by the Rules, is forwarded herewith, and I am instructed to add that the period of Mr. Rencontre's service as entered in the former has been verified in this office.

B

I do hereby certify that I have examined Mr. F. Rencontre Manager of the Revenue Board Office and find that he is labouring under Considerable impairment of general health Evidenced by frequent derangement of Stomach & Bowels, Nervous irritability, Hydrocele, occasional attacks of Rheumatism which appear to me to be entirely arising from his constitution being debilitated from close attention to his ardnous duties, duties as are ill as age advancing, and not occasioned by Intemperance or other irregular habits, and that consequently he is no longer fit for duty.—

Ordered that the following Minutes be recorded in consequence—

50

Minute of the Acting Senior Member—

Expressive of his opinion of the Character and services of Mr. F. Rencontre Manager and Senior Uncovenanted Assistant.

Minute—

The period having arrived when declining health compels Mr. F. Rencontre to retire from the Offices of Uncovenanted Assistant and Manager of the Board of Revenue, I feel it due to him to place on Record the sense I entertain of his valuable services during the last 11 years that I have been connected with the Office.—

When I first became acquainted with him he held the situation of Uncovenanted Assistant only, but the difficulty of finding a properly qualified person to supply the great knowledge of the Records and the General acquaintance with the business of the Department possessed by the late Manager Mr. Blagwant Row induced the Board in 1842 to propose a union of the two Offices in Mr. Rencontre's person. The result justified the experiment. He has since that period performed the duties of both with an assiduity and success that demand my unqualified acknowledgement. Tho his health has been visibly failing for many Months past he has never slackened

slackened his exertions now sought to be relieved from his responsibility, and now that his retirement is one of longer a matter of choice I trust that these qualities, combined with the high and unblemished Character for integrity - he has always borne, may be considered as entitling his request, for a special consideration of his claims to the favorable notice of Government -

For myself I feel bound to acknowledge the constant and ready aid I have derived from his knowledge of past transactions and of clearity with every branch of the correspondence in all matters that formed the subject of my investigation -

Minute of the Mr.
Third Member -

Minute -

Mr. F. Rencontre being obliged to retire from Office in consequence of declining health, I have much pleasure in placing on record the sense I entertain of his merits. He has served the Government during a long series of years - His valuable services came under my notice formerly when I was Deputy Secretary and again latterly for the last 3 years during which I have been attached to the Board - Mr. Rencontre has always borne a high Character for usefulness and diligent application to the duties of his Office. His exertions to the last have been unremitting and his punctual attendance at the Office, notwithstanding the declining state of his health, has particularly attracted my attention - It gives me much satisfaction to bear my testimony to his Character and to acknowledge the ready aid I have always received from him -

Minute of the Actg. Third Member.

Minute.

Mr. F. Rencontre being obliged to retire from Office in consequence of declining health, I have much pleasure in placing on record the sense I entertain of his merits. He has served the Government during a long series of years. His valuable services came under my notice formerly when I was Deputy Secretary and again latterly for the last 3 years during which I have been attached to the Board. Mr. Recontre has always borne a high Character for usefulness and diligent application to the duties of his Office. His exertions to the last have been unremitting and his punctual attendance at the Office, notwithstanding the declining state of his health, has particularly attracted my attention. It gives me much satisfaction to bear my testimony to his character and to acknowledge the ready aid I have always received from him.

50

Minute of the Acting Senior Member — declining Expressive of his opinion of the Character and services of Mr. F. Rencontre as Manager and Senior Uncovenanted Assistant.

Minute.-

The period having arrived when ill health compels Mr. F. Rencontre to retire from the Offices of Uncovenanted Assistant and Manager of the Board of Revenue, I feel it due to him to place on Record the sense I entertain of his valuable services during the last 11 years that I have been connected with the Office.-

When I first became acquainted with him he held the situations of Uncovenanted Assistant only, but the difficulty of finding a properly qualified person to supply the great knowledge of the Records and the General acquaintance with the business of the Department possessed by the late Manager Mr. Bhugwant Row induced the Board in 1842 to propose a union of the two Offices in Mr. Rencontre's person. The result justified the experiment. He has since that period performed the duties of both with an assiduity and success that demand my unqualified acknowledgement. While his health has been visibly failing for many Months past he has never slackened
