From the Offg chief Secty to Govt containing observations on the Board's letter detailing the system pursued in the Northern Circars in forming the annual Settlement of Land Revenue and leaving it to the Board to modify their own instructions to the Collectors in the manner explained in their letter to Government.

Read the following Extract from the Minutes of Consultation, under date the 10th February 1848.

Read the following letter from the Acting Secretary to the Board of Revenue.—

(Here enter 11th October 1847 (No. 31)

Para 1. In the foregoing letter the Board of Revenue enter into considerable detail of the system pursued in the Northern Circars in forming the annual Settlement of the Land Revenue, with the view apparently, of obtaining such a modification of the Orders of Government directing the introduction of Joint Village rents, as would substitute in their stead a system of conducting the Settlements, based as they observe, on joint ryotwar principles.

2.- The subject has already been

Fort St. George 30th March 1848.

been under consideration in the correspond-
ence entered in the Margin
The system which the Board had in view and the adoption of which they recommended in their Pro-
ceedings on the Settlement of the Rajahmundry District for Fusly 1250 was explained in their letter of the 7th September 1846, and recapitulated in Extract Minutes of Consultation dated 20th April 1847 No. 496; but, the Government in partial modification of it, directed that Joint Village money rents should be encouraged generally in the Northern Circars "that they be concluded with the ryots," requiring each to be a party to them, "that all be jointly "and severally answerable for the Rent by "a written document that the further "internal arrangements be left to the "Villagers themselves, except when from any "particular circumstances all the Ryots "of a Village may themselves desire to have "their several liabilities duly defined in "Puttahs, when the Collector may be left at liberty "to grant them." Permission was also given for the extension of the period of rent to 2 or 3 years if desired by the Ryots.

Extract Minutes Cons.
2nd April 1846 No. 432 P. 6.
From Board of Revenue
7th September 1846 No. 420
From Do. 8th October 1846 No. 475
Ex Minutes Consultation
20th April 1847 No. 496 P. 4 & 12

Fort St. George 30th March 1848.

3. In their communication now before Government, the Board explain that by Joint Village rents they meant, "that description of Ryotwar Settlement in "which the first proces is the determination "of the total demand on the whole Village, and "the last its distribution upon individuals in "contradistinction to the more perfect system "of individual Settlement in which each "person has only to agree for his own portion "of farm without reference to others, and "the Village Beriz depends on the aggregate "amount of what all the Ryots have this "previously undertaken in detail."

4. The difference in the two plans which is perceptible to His Lordship in Council under the details given by the Board is the period of rent extended from 1 to 3 years, and the definition of the liabilities and holdings of each individual ryot by an annual Puttah which the Board would seem to desire being made imperative on the Collector instead of discretional only on all the ryots of the Village desiring it. With reference to the former, His Lordship in Council would remark that from the well known fact of the ryots being frequently unwilling to undertake the responsibility of a rent for the

the limited term of one year, the permission to extend it to two or even three years was conceded to enable them to take up the longer when they preferred it or would not consent to the shorter lease, but it was inferred that when rents for one year only could be obtained, they would be accepted by the local Officers in preference. There can however be no objection to the Board of Revenue restricting the Collectors, if they consider necessary, in the exercise of this permission to cases reported and approved by them.-

5 The superiority of a ryotwar Settlement where the assessment on each field is moderate and well defined, has never been disputed. The Village rent was proposed only as an expedient until this desideratum could be accomplished. Rents of any other description have always been deprecated.

6 With regard to the second point, which would seem to constitute the only real difference between the proposition of the Board as made in their former Proceedings and the orders of Government, His Lordship in Council would observe that the objection to it does not seem to him to be overcome by any thing that has now been stated by them - where the holdings and demand

demand on a ryot are liable to augmentation, a Puttah (the object of which is to define exactly what each ryot holds and what he should pay) which does not provide for such augmentation, defines neither the one nor the other and is therefore useless or worse for it gives the pledge of the Collector for keeping the Government demand at a stated Amount which the Collector himself may have to exceed - The Puttah limits too, the holding of the ryot, and is thus a bar to his making up any loss he may sustain or profiting by extending his cultivation as opportunity may offer during the year, under fear of being charged extra and it relieves the richer Ryots from responsibility for the collective demand - In Ryotwary Districts, Puttahs are given to the Ryot after it has been clearly ascertained what land he has cultivated by which means it includes the utmost demand against him - Whereas the Collective Village rent is undertaken before the cultivating season commences when the actual cultivation of the Ryot cannot be known, and the rent may be for two years. In the Ryotwar Settlement the ryot is not answerable for the default of his fellows He is so under the Village rent.

7 Although His Lordship in Council seems

seems collective Village rents and individual Puttahs under what the Board term the "Joint Ryotwar system" somewhat incompatible, and does not agree with them in the necessity of the scrutiny of details on which so much stress is laid, after the rent has been entered on and the arrangements of the Ryots have been finally made among themselves with the full consent of all parties which it was ever intended should be satisfactorily ascertained by the Collector before approving of the terms of rent, and though he sees some objection to the Collector's being made by such Puttah a party to an agreement effected with the ryots which circumstances may force him to be the first to break; yet, as the Board so strongly urge this point and it is presumed are satisfied their plans can be carried out, His Lordship in Council will be content to leave it to them to modify their orders to the Collectors in the manner they desire, and have explained in their proceedings. recorded at the Head of this extract.-

observations in Paras 3 and 5 of their Proceedings and hopes they will have the effect of stimulating the Collector and his Establishment to greater vigilance. The Board's suggestions in Para 4 likewise are approved by Government and the Collector is required to attend to it as far as may be practicable.

3 The total Demand for the year from all Sources was 8982 — 8 of which 6194 — 9 was realized within the Fasly, leaving a balance of 2787 — 13 — 11. Of this latter Sum, 3519 — was the arrear on Houses and 9 gardens mortgaged out of a total demand of 3773 — 10 — 9. And this it appears is not capable of immediate realization. It is expected that the Collector will proceed with the Collections of the remainder.

Proceedings relating to a purchase of British salt authorized by the Government (5)

A quantity of British salt amounting to 614 Tons or 155 Garces having

having been imported on private account into Madras apparently in ignorance of the law, you authorized its purchase on account of Government at the rate of Rupees 28 per Garce with the view of disposing of it for consumption within the Presidency. The prejudice which existed against this description of Salt in the minds of the native population was commended to you that it was found impossible to effect a sale even at a reduction of 50 per cent below the price of Madras Salt and you have been accordingly compelled to authorize its sale for exportation by Sea at a price equal to or little exceeding that at which it was purchased by you &c.

We fully agree in the opinion expressed by you that not only on account of the prejudice against the use of foreign Salt but also for the very low rate at which Salt

Salt can be produced it is quite impossible that Salt of foreign origin can under any circumstances compete with the home manufactures so far as your Presidency is concerned

Forwarding a report by Mr. W. Robinson assistant to the Collector of Canara on that portion of the Laccadive Islands which is attached to the Canara Collectorate.

" The report furnished by Mr. Robinson the first European who has officially visited these Islands, is highly interesting and displays a degree of industry and research which is very creditable to that Gentleman.

A Copy of the paras will be furnished to the Board of Revenue for communication to the Officers concerned

We fully agree with you that the present circumstances of these islanders is not such as to justify any attempt to introduce an assessment on the land or trees in lieu of the present mode of realizing a revenue from the Coir which is sold by them at a fixed price to Government and that their known aversion to any change would render it undesirable to alter the present system. There appears from

from Mr. Robinsons Report to be a needless degree of intricacy in the mode of settling the price to be paid by Government for the Coir, the effect of which is to reduce the real value given by the Government much below the nominal rate, but as this appears to arise out of long established custom, and is probably well understood by the people themselves it may be unwise to interfere with it.

12 We entirely approve of your having excepted these Islands from the operation of the Salt and Tobacco Monopolies neither of which have in fact ever been practically introduced into them although they appear to have occasionally given a colour to interference on the part of the Native Officers

We approve this rule

We accordingly authorize you to grant a Shrotrium or a Money pension, of the annual value of Rupees 4,500 to Kristna Row and his two next heirs on condition which will reduce the value on the accession of the next heir to two thirds of the original amount and during the life time of the last to one third.

Sir

In reply to your letter of the Instant and referring to the Board's Proceedings of the 10th June 1847 I have the honor to state that there are no officers called Karkoons in this District —

2 There is a class of Assistants to the Ameen called Samut Lars who perform duties somewhat analogous.

3 Neither has any Summumalundy Hookoommamah been issued in this District for many years. The details introduced into that of Salem are not suitable to Vizagapatam —

4 Moreover the extreme minuteness of detail attempted to be enforced in these instructions are deemed useless by all practical men —

After the Dittum of the cultivation of the

Fort St. George 30th March 1848.

Soil is thus inspected and confirmed by the Tahasildar, you will, in Communication with the Village Curnums prepare the accounts thereof, and forward them to the Tahasildar's Cutcherry, affixing thereto your Signature as well as the Signatures of the Village Curnums &c.

6 During the Cultivating season, you will frequently visit each Village, inspect and enquire into the Cultivation, whether all the land has been brought under Culture by the Ryots according to the Dittum Settled by the Tahasildar, and if any of the Ryots wilfully neglect to Cultivate the land, or if the Ryot has been prevented from Cultivating the land by any adverse season, or other unavoidable — Cause whatever, you will immediately report the same to the Tahasildar — As in some Villages, the Teeravut Sists are used to be assessed with reference to the Crops raised by the Ryots, you will take Care to have the land Cultivated with such valuable Crops as may yield large Sists.

7 As the Ryots, with a view to gain some favorable share of the —

produce

produce will perhaps give false reports saying that the Ryots of other Villages who are relations or friends to them, have entered into a joint Cultivation with them, you will ascertain the truth of their assertion and whether the Cultivation is going on with the Bullocks belonging to themselves or not.

8 Ryots who may desire to have waste lands for Cultivation at a favorable rate of shares according to the existing rules, or any Ryots Ryots who may wish to Cultivate lands at a favorable share should either by themselves or through your medium, represent this Circumstance to the Tahasildar and obtain his sanction. If they do not attend to these rules in the first instance they Can never be entitled to gain the favorable share on any other pretexts. You will therefore Continue to make this known now and then to all the Ryots.

9 In order to know what extent of land in the Village has been brought under Cultivation; to what extent the plantation or transplantation of the Paddy

Paddy has been carried on in the wet lands in ansara tenure; to what extent the Dry lands have been tilled and sown, and to what extent the Teeravut, Bagayet &c. lands have been cultivated, you will cause to be prepared by the village Curnums a statement shewing the extent of cultivation of wet and Dry, Teeravut and Bagayet &c. lands for every 10 days and a statement shewing the detail of all descriptions of crops for every Month, and furnish an abstract thereof to the Tahasildars Cutcherry so as to reach it within 3 Days after the stipulated periods, and Copy thereof, shewing in it only the extent of cultivation in each Village should be forwarded to my Huzzoor.

10. you will also furnish once every ten days to the Tahasildar's Cutcherry a report of the quantity of rain fallen and the extent of the water received into the Tanks of each Village, as well as the state of the season and the progress of the Crops.

11. you will also be careful to ensure such quantity only of water being taken from the Tanks to the fields as may be necessary for them; and if there exist any

any dissensions regarding the irrigation, or the ryots right of cultivating of the soil, or on any other account, you will at the same time, exert measures to bring them to a settlement by yourself, so far as it may be possible for you, and if it should not be in your power to do so you will immediately inform the same to the Tahasildar without the least delay on your part.-

12. Each field or the land of each individual in each village ought to have been regularly surveyed; but if they should not have as yet had a correct survey, you are hereby directed to enter in the Cultivation accounts, the extent of Varavut, Nazurmuktah &c. lands brought under plough in as correct and accurate a manner as it may render practicable for you to do.

13. So soon as the seed is sown in the Lands on which the sist was used to be collected by a Mashat in Teeravut tenure, you will take a correct survy of those lands with the measuring Puggums or rods, furnished to

to you by the Tahasildar, which were regulated by those kept at the Huzzoor, and forward to the Tahasildar the Mashat Jabithas as well as the Lists of the spots taken from the village Curnums, and another set thereof to my Huzzoor

14 You will continue to make correctly and accurately the estimate of the cussarah crops of each place while standing in the field some time before it may become ready for being reaped, and prepare the anchanah Jabithas, particularizing the names of the individuals, and each field, describing in it the particulars of the produces, and forward immediately one list thereof with the stalavary Jabithas, to the Tahasildar; and a Duplicate thereof to my Huzzoor - you will after doing so continue to take every precautionary measure / until such time as the sist thereon many be settled and collected / to guard the produce against being smuggled or misappropriated by any means whatever, in time of reaping in raising heaps, and threshing the produce or at any other times.-

As.

15. As regards the rented villages the renters and their undertenants being responsible for the payment of the Circar sists due by them, there can be no necessity for taking a survey of the Seeravant Lands, or estimating the Ansarah produce of those villages; yet however, as it will be absolutely necessary to find out the progress and improvement of the villages, you will prepare the cultivation accounts of the rented lands, as well as the accounts of the resources of those villages respectively, examining yourself the precise quantity on thereof, and forward the former once for every Month and the latter in proper time, and at the juncture when it may become due, one to the Tahasildar and the other set to my Huzzoor with your own signature and that of the renter and village Curnums. &c.

16. You are required to be present either before the Tahasildar, or before the Huzzoor to report every circumstance of the villages, at times when the Ansarah produces are about to be settled in Newadah, or in settling rents on the estimate of the crops.

17. You will in time of taking

a survey of the Seeravat Lands or making estimates of the Crops or produces Cause the attendance with you of the Village Moonsiff, Curnums, Head Caupoos, or other respectable Ryots or Caupoos as well as the owner or Cultivator of the field and Cause the Jabithas to be signed by them also as far as posible.

18. Should the Villagers have nothing to object against the Correctness of the said Mashat or anchanah Jabithas, you will Cause them to affix their signatures on them also. In the event of any objections being raised by the Villagers, you will Cause them to prepare Separate sets of Jabithas under their own signatures and forward them, one Set to the Tahasildar and another Set to my Huzzoor, together with the Jabithas which you will take from the neighbouring Villagers under their Signature on the subject.

19 As regards the items of Ready Money Collections in amanny lands, which are to be settled in rent in a profitable manner, or those which may appear liable to be retained under amanny, you will immediately report to the Tahasildar in

Fort St. George 30th March 1848.

in due time and obtain his permission for your guidance on the subject.

20 In places where Poollay tax was about to be usually Collected from the Cattle resorting there for forage, you will take a Correct account of the numbers of those Cattle &c. at such times as they may come, fix the amount of the Poollay tax thereon, report the same to the Tahasildar and act yourself according to his directions. In some places where there was no Mamool of Collecting Poollay tax on the Cattle belonging to the individuals of the same Country or Village, the Ryots thereof will for their own benefit admit the Cattle of some strange people into their own Herds and pass them as belonging to their own. You are therefore strictly to ascertain and find out the true state of the case for the benefit of the Circar

21 you are required to be very careful in cases of fraudulent or illicit exemptions of produce, to detect the offenders and to procure good evidence to prove their having smuggled the articles and

Fort St. George 30th March 1848.

and to establish the crime against the offenders, and you will cause those robbers to be apprehended and forwarded for punishment to the Magisterial department.

22. The amount of the Circar dues, both in the ausarah villages as well as in lands of Aggraharums, Mokassahs &c. Kundreekaloo &c. as well as the revenue on Teeramb or Varamb lands, should be collected by you from the villagers in full without any balance before the produce of the village may be allowed to be taken possession of by the Ryots &c.

23. For the amount of collections on account of any items of revenue which may be paid by the Ryots in any village, the Moonsiff and Curnum should insert the said money on the chopped Papers furnished by the Tahasildar for that purpose regularly, with particulars of the payment and a description of Coins, and give the said Paper to the Ryots, duly signed both by yourself and by the said Moonsiff, Curnum &c. you will continue to insert the said items of collections, describing all the particulars thereof.

thereof in the chopped Books furnished to you with my seals. The amount of Collections so received, you will cause to be kept in charge of one of the village Pettanadars, who may be competent and trustworthy, and on the next day you will remit the amount of collections so received, to the Treasury of the Taluk Cutcherry with a regular Irsalnamah drawn out by you, particularizing in it the Fusly, and the source of Revenue to which the items may belong, affixing thereon the signatures of yours, and those of the Monsiff, Pettanadar, and Curnums.

14. Should there exist any difference between the entry of the sums mentioned in the receipts remaining in possession of the Ryots, and those entered in the chittah in the hands of the village Curnums as well as those containing in the chopped Books under your charge, and those inserted in the Chittah in the Tahsildar's Cutcherry, you will ascertain the causes of these discrepancies and report them immediately to

to the Tahsildar.

The Head Caupoos and Curnums in the villages will be in the habit of making an allotment amongst the Ryots, and Collecting money under the denomination of Bauzakurch - you will adopt measures to prevent any charge of such descriptions against the villagers. In the villages wherein there was the Maumool of the villagers themselves paying the salaries to Mahasooldars &c. village servants by an allotment, the Head Caupoos, Curnums &c. should in such case prepare an account, fixing an allotment only for the same amount as may be required to pay the salaries in question according to Maumool of that village, and a Copy thereof should be forwarded to the Tahsildar every Month - you will explain more expressly to the Head Caupoos, Curnums &c. Villagers that they should not charge any thing beyond that amount, and you will yourself take measures to prevent any unusual charges. you will also take great care to prevent any

any disbursements from the Circar Collections under the Head of village charges. If it should come to your notice that any such disbursements have been made by any one in the Circar Collections, you will immediately report the same to the Tahsildar to bring to punishment such individuals as may have committed such acts. As in some villages there was the Maamool of the Circar duly reimbursing the village charges, you should take more precaution in cases of similar kind in such villages

26. As regards the Motarpalaise you will count and take a correct list of the number of the Motarpa Pyrs, forward a report thereof to the Tahsildar and act yourself according to the instructions that may be received from him on the subject.

27. As regards the Maramut or repairs &c. that may appear requisite for the Tanks &c. situated in the villages under your range, you will submit immediately to the Tahsildar a report of the repairs &c. required for them and

and continue to act correctly and attentively in respect of the repairs according to the instructions that may be given by him to you. In instances of a sudden or unexpected breaking of the Tanks, you should be very attentive to assemble the people at the same moment with all the necessary materials for preventing the running off of the water, and use prompt measures to repair the damage which may have occurred.

28. You will not fail to be very attentive, and to attend to the instructions that may be given from the Huzzoor for supplying provisions and other necessaries to the Regiments or Detachments &c. that may pass through the villages under your range.

29. You will attend with much alacrity and diligence to all such instructions as may be given from the Huzzoor in respect of any affairs of the village to communicate any circumstances to the villagers, or to prepare any accounts or obtain any informations from them.

30. You will keep a Diary of your visits to the villages, with the dates respectively, noting in the same the village affairs managed by you in each village and forward one Copy thereof to the Tahsildar, and a Duplicate thereof to my Huzzoor after the close of every Month.

Besides

5074 — Fort St. George 30th March 1848.

31. Besides the accounts already directed above to be forwarded to the Huzzoor and to the Tahasildar, you will continue to prepare every 15 Days an abstract shewing the Jumzeib or Demand collection, and balance of all sources of revenue in each village under your Mootah and forward it so as to reach the Huzzoor Cutcherry within 3 days after the said periods and another copy to the Tahasildars' Cutcherry.

32. You will also continue to report to Huzzoor by means of an arzee, once for every 10 Days within that period if necessary on the state of seasons, the progress of cultivation, and other circumstances relative to the Demand collection, and Balance of Revenue, as well as other affairs of the villages under your range.

33. In the event of any instructions furnished to you by the Tahasildar being found objectionable in any respect, you are directed to forward those instructions to my Huzzoor immediately, enclosing in your arzee, with such observations and remarks as you may have to make on the same.

Polavarapoo Bheemalingum
Petitioner

Read again Extra Petition No. 166 of 1846. presented by Polavarapoo Bheemalingum 2nd and undivided brother to the 1st Appellant

Fort St. George 30th March 1848.—

Appellant in No. 3 of 1842 late Provincial Courts file as recorded in the Courts proceedings dated 18th March last.—

Read return dated 22nd April last, from the Collector of Rajahmundry to the Courts precept dated 18th March last No. 44.—

1 The Collector in reply to a requisition for information concerning a certain claim preferred by the special appellant in No. 3 of 1842 late Northern Provincial Courts file states that the land has been resumed as Jeroyettee and has paid sist at 83 Rupees per Annum regularly ever since.—

2. The Court observe that when Special Respondent was sued in the Provincial Court she had no interest in the matter litigated as the Village of Moomedavarum reverted to Government in 1841. At the same time the Collector who succeeded as representative of Government in place of the Zemindar seems to have taken no step to stay judgment or to defend the question in which Government has became interested.

3 - Among the papers filed in the suit is a copy attested by Mr. Collector Smith of the Doombalah document for

Fort St. George 30th March 1848.

for fusly 1203 in which the posession of 3 vissums of land by Veerasum- ancestor of special appellant is duly entered. this is adverted to as a basis of the decree of the Provincial Court.-

4. Under these circumstances the Court resolve to forward the copy of the Northern Provincial Courts Decree in Special appeal suit No. 3 of 1846 to

Fort St. George 30th March 1848.-

to the Collector who is requested to return it, shewing cause if he can why the land should not be put in posession of special appellant according to the Decree.-

Ordered that an extract from these proceedings with copy of the above Decree be forwarded to the Collector of Rajahmundry by precept requiring conformity thereto and returnable in 28 days from and after its receipt.-

Civil Judge

The Collector has the honor to acknowledge the foregoing precept and Extract from the proceedings of the Civil Court of Rajahmundry dated the 3rd June 1846 forwarding copy of the Northern Provincial Courts decree in special appeal suit No. 3 of 1842 and requiring him to shew cause why the land alluded to should not be put in posession of the special appellant.-

Special appellant states that the land was conferred on Veerasa one of his progenitors as a reward for the labour performed by him in making ornaments for the Zemindar and it is ascertained that the land is entered in the Bhoomd account as a maniem - The Collector has

Fort St. George 30th March 1848

has no cause to shew why the decree should not be executed but whereas the lands were originally granted on service tenure and the special appellant is by profession competent to perform the duty of a shroff it seems equitable that he should receive an injunction from the Court to perform that duty to the Government which the zemindar might lawfully have exacted from him

The decree of the Court is herewith returned.-

Extract from the Proceedings of the Civil Court of Rajahmundry dated 4th March 1847

Read Extract of the proceedings of the late Northern Provincial Court dated 4th July 1842 forwarded by the special Commissioner Northern division with his letter dated 2nd instant received this day.-

This Court on 1st December 1846 refused to execute a Decree of the late Northern Provincial Court in special appeal suit No. 3 of 1842 on the ground that the property

Fort St. George 30th March 1848

property litigated had before the filing of the special appeal passed away from the party in whose possession it had been by its attachment for arrears of Revenue in July and by its final sale to Government on 20th September 1841.-

2. The special appellant moved this Court again by extra petition No. 77 of 1847 dated 11th February 1847 stating that he had informed the late Northern Provincial Court that the estate had been sold and had become the property of Government, praying their leave to include the Collector as special respondent. application was made to the special Commissioner and he has sent the Proceedings in question.-

3. But it appears now more than ever impossible to execute the Decree.-

4. On 15th November 1839 the Acting Zillah Judge of Masulipatam (Rajahmundry) in appeal suit No. 448 of 1838 decided against the claim of special appellants- on 2nd September 1840 the special appeal was presented and on 16th August 1841 rejected.-

5.- In July 1841 the estate of Mooramilla Lavarum was attached and on 20th September 1841 was finally purchased by Government for

for arrears of revenue at which time the land sued for by petitioner had been declared by the appeal Decree to belong to the Zemindar from which a special appeal having been presented had been rejected.—

6 Upwards of 4 months after the Zemindar had finally ceased to have any thing to do with the Zemindary the special appeal was readmitted on 28th January 1842.—

7 On 4th July 1842 the Special appellant asked leave to include the Collector as Special respondent, as the Zemindary had become the property of Government. The order of the Northern Provincial Court is "The Vakeel states the "Village was purchased by the Circar after "the Special appeal was filed. There seems "to be no use in making the Collector "a supplemental respondent as he bought "the Village with all the claims on it."

8 The Statement of the Vakeel that the village was purchased by the Circar after the special appeal was filed was a misstatement the special appeal having been presented and rejected, and being only re-admitted as above shewn 4 months after the Government

Government became owners

9 In consequence of this misstatement, the late Northern Provincial Court refused to permit the Special appellant to sue the Collector as Special respondent "as he had bought the Village with all the claims on it.

10 As at the time of his purchase the claim had been rejected, and a Special appeal had been rejected (although such rejection was not upon the merits but only in default of security) it appears to the Civil Judge that the Decree in the Special suit in question No. 3 of 1842 is absolutely null and void, and the Civil Judge resolves to submit the whole case for the consideration and orders of the Court of Sudr and Adalut.—

11 When first application was made to this Court for execution of this Decree the Collector was required to shew objections if any existed, he stated that the land had been resumed as Zeroty in the time of the Proprietor, and had paid revenue ever since.— a 2d precept was sent to the Collector adverting to certain accounts filed in the Special appeal suit shewing the land to be

Doombala

Dombala ramu, to which the Collector replied that he had no objection to offer to the execution of the Decree, only that as the land was originally granted on service tenure, service should be exacted by injunction of Court.

12 The Original Plaintiff, the Zemindar sued Defendant saying that the former propietor had allowed Defendant's grandfather some land in consideration of service manufactured and to be manufactured, and that the Defendant had ceased to perform the service, and without any lawful title enjoyed the land since. Defendant pleaded that the gift of the land was absolute and denied that any service was due. Decree was in favour of Defendant. On appeal this was reversed

13 But in the special appeal the appeal Decree was reversed, and the original Decree was thereby restored. The land was therefore decreed absolutely to belong to Defendant, specially appellant. The Collector now denies that the gift was absolute, alleging that it was conditional on performance of service, which condition the special appellant avows he never fulfilled, denying it to be due. If the gift be

absolute, the Collector has no right to assert a title to demand service from the holder; if conditional, the holder admits he has never performed the condition.

14 Under the above circumstances it seems to the Civil Judge to be requisite for the ends of justice, that the Court of Sudr Adalut should either direct the revival of the special appeal suit calling it up to their own Court for disposal (the Northern Provincial Court being the authority who decided the case in special appeal) or pass such orders as they may think proper.

Petitioner prays for an order from this Court for him to be put in possession of the land decreed to him in Special appeal Suit No. 3 of 1842 on the file of the late Provincial Court of Appeal for the Northern Division. He has petitioned the Civil Judge of Rajahmundry on the Subject but the Civil Judge has declared it "impossible to execute the Decree"

2 The Court of Sudr Udalut are of opinion that it is necessary that the Civil Judge's order of the 4th March 1847 should be set aside and that he should be directed to carry out the decree in Special appeal No. 3 of 1842 on the file of the late Provincial Court in the Northern Division. To require the institution of a fresh Special appeal on the plea maintained by the Civil Judge appears to the Court to be useless and to be quite uncalled for. The special appellant's title to the land has been declared good. The Collector himself in his return dated 3d June 1848 does not dispute it he merely puts forward a claim for certain Services to which the Government as now holding the place of the Zemindar is in his opinion entitled. The Court however has decided that to these Services the Zemindar had no

no right, therefore the Collectors plea is of no weight

3 For these reasons the Court sudr to do not deem it proper to set aside the order of the Civil Judge under date the 18th Feby the arguments used in which they consider untenable, and they therefore direct the Civil Judge to carry at once into execution the said Decree by placing the in possession of the land to which he has clearly obtained a legal right by the institution of the original suit.

Ordered that Extract from these proceedings be sent to the Civil Judge of Rajahmundry by post to be returnable within seven days from the receipt.

Sir,

(15-16)

To the Offg. Chief Secy to Government. } 1.

I am directed by the Board of Revenue to submit for the consideration and orders of the Honorable the Governor in Council, the accompanying letter from the Collector of Rajahmundry, dated 20th Ultimo, forwarding copy of a correspondence which has passed between his Office and the Civil Court at that Station, and requesting the sanction of Government for restoring to one Palanarapoo Badralingum, 2nd appellant in special appeal Suit No. 3 of 1842 on the file of the late Provincial Court of appeal for the Northern Division, of 3½ Pottics of Enam lands, situated in the Village of Moomedenarum, and for repaying to him Rupees 595, being the value of the produce of the lands in question, collected by the Circar from Fusly 1251 to 1257 inclusive, at the rate of 85 Rupees per Annum.—

Submitting letter from the Collector of Rajahmundry on the subject of the claims of Polavarapoo or Badralingum, to 3½ Pottics of Enam lands in the Village of Moomedenarum and requesting the repayment to him of Rupees 595 the value of the produce of the same, which was collected by the Circar, and recommending that the transfer and repayment may receive the sanction of Government.—

2. From these papers it will be seen that the Enam lands which form the subject of this correspondence were originally granted by a former Zemindar of Moomedenarum to an Ancestor of Appellant. The late Proprietor of the Village

appears

Fort St. George 30th March 1848

appears however to have presumed the Enam to
that the holder had ceased to perform the service
which the grant had been made. The question
on the part of the one to hold, and of the other to
time was thus brought under litigation
the Courts. In the mean time the Village
in arrears. was sold by public Auction, a
purchased on account of Government. The
duce of the Enam being carried to the
of the Circar since the date of purchase
the 20th September 1841.-

3. The Decree in the Original
Suit brought by the Zemindar to establ
his title to the lands in dispute, seem
have been in favor of the defendant
Enamdar; this decision was however
over-ruled, in appeal, by the Zillah Co
of Masulipatam, but was finally confir
in special appeal, by the Southern Sp
cial Court, who declared the title of
special appellant to be good. but the
having presented themselves to the Bo
of Rajahmundry in carrying out the Sp

ferred for the opinion of the Sudder
who, in their proceedings dated 27th Sept

Fort St. George 30th March 1848-

last pronounced the objections of Mr. Austruther
to be untenable, and directed him to carry out the
Decree of the Provincial Court, by placing the ap:
pellant in possession of the land.-

4. The right of Polanarapoo Baora=
limpum to the Enam in question without obligation
of service having been established by the Ori:
ginal, and confirmed in the Special decree- and
the land itself having been admitted by the
Collector to be entered as Inamium in the per:
manent Account of Fusly 1208. the Board are
aware of no reason why, according to the original
decree, the land and its entire profits from Fusly
1257, Amounting to Rupees 595, should not be
made over to that individual- and they there:

Submitting report on the Settlement of Minor Estates for Fusly 1256 in the Zillah of Masulipatam.

I have the honor to submit my report on the Settlement of the Estates belonging to the Minor Zemindars of Deevy and Moonegal for Fusly 1256. A.D. 1845/47. The usual Statements exhibiting the details of the Settlement, enumerated below, are also submitted Viz.t—

No.s 1. Abstract Jummabundy Settlement of Deevy Pooganah for Fusly 1256.

2. Comparative Statement for Fuslies 1255 and 1256.—

3. Account Current.—

2. From the annexed abstract which exhibits the total Settlement of Deeny Talute for Fusly 1256 as compared with that of Fusly 1255, it will be seen that the Settlement of Fusly 1256 exceeded that of Fusly 1255 by Rupees 14,118—8—1 in consequence of the season having been favorable for the cultivation of the Wet lands

3. In July and August in which the Wet Cultivation generally commences there were frequent showers of rain, which being aided by abundant and timely freshes from the Kistna caused an augmentation both in the extent of Cultivation and produce the former being greater by Cullies 139-12-11½, and in the latter by Parras 27,099-2-6-4 than in the preceding year.

Increase	139-12-11½	27,009-2-6-4

4. The demand for Fusly 1256 exclusive of the dry land rents, comprizes the amount of the estimated Circar share of the produce exclusive of ready money Collections, and the tax on land used for making Breaks, as well as that of Sist on certain land, situated within the Tanks of Chowaraum and Cadaor which

was assessed independently of the Dry rents, and amounts to Rupees 37,510 being Rupees 1092—1—7 above the demand determined with reference to the resources estimated by the Tahsildar. In forming this Settlement reference was had independently of the estimated resources, to the capability of the land, the effects of the season of the year on the extent of Cultivation, and the out-turn in the current, compared with that of former years. To the demand above mentioned is to be added the sum of Rupees 285—8—0 on account of excess resources found after Scrutiny, which made the aggregate demand on wet land amount to Rupees 37,795—8—0, exhibiting a Net increase of Rupees 13,668—1—2 above that of the preceding year. This increase would have been still greater had it not been for the falling off in the prices of the year under review

As the term of the present lease will expire with Fusly 1265 it will be necessary to make a fresh arrangement for the Settlement of these lands from that date.

8. The aggregate demand on the Dry and Wet lands of

including the above items amounted to Rupees 72533-11-5 of which Rupees 66820-10-11 were collected before the end of October last, leaving a balance of Rupees 5713-1-5 the particulars of which are shewn in the margin. Subsequent Collections amounting to Rs. 4077-15-11 have reduced the balance to Rupees 1635-2-5, which will be realized in due course.—

The Settlement of fusly 1256 exceeds the Peishcush by Rupees 24646-11-5 as shewn in the Margin, which is attributable to the increased resources derived from wet lands as noticed above-

14 Account Current No 3 will shew the receipts and disbursements of the year - Of the balance on hand Rupees 8347-8-7 up to the end of October last, as per account current, a sum of Rupees 1600 has been appropriated for the payment of Peishcush for fusslies 1243 and 1255 up to the months of January as stated above in Para 12, and Rupees 5000 advanced for the Minor Zemindars Marriage as per sanction from the Board dated the 14th September last, making the total Rupees 6600-

15 Adverting to the remarks of the Board in Para 3 of their Proceedings of the 23d September last, in which the stipulation of "after Scrutiny" is pronounced to be unnecessary, in as much as it affords an opportunity to the Circar Servants to combine with the Ryots, I beg to state that the object of the condition was only to prevent loss to Government by errors occurring in estimating the resources- That such errors did happen is evident

evident from the excess quantity of [illegible] found by "after scrutiny" and brought to account - But as the system is considered objectionable by the Board it has accordingly discontinued from [illegible]

16 In Para 3 of their Proceedings noted in the Margin the Board in adverting to my explanations in [illegible] my Report on the Settlements for [illegible] that the settlement is concluded with reference to the several Estimates of [illegible] and present capabilities of the Villages as well as the Current Season" that the [illegible] ation is still incomplete, and as the [illegible] ment is framed on Estimates of the Crops, explanation should have been [illegible] to shew how the past and present capabilities of the Villages are brought to bear on final adjustment -

17 In further elucidation of this subject, I beg to state that in the settlement, reference is had, not to the several Estimates framed, either of standing Crops or after their being cut and put into stacks, but rather to the capability of the Villages, past and present

with the view of ascertaining whether the rate of produce with reference to the nature of season is commensurate to the present capability and the extent of land cultivated in the same proportion as the total produce in former years bore to the actual cultivation of that period; and in the event of there being a material difference, the cause thereof is enquired into, and such further sum as may appear reasonable is added to the settlement with the Consent of the Renters -

18 The suggestions of the Board as regards the introduction of a fair assessment on the Dry and wet lands will be attended to on the receipt of the Board's instructions to the reference made to them under date 9th December last -

19 Adverting to Para 8 of the Proceedings above alluded to in which an explanation is required as to the non-appropriation of the balance of Cash on hand as per account Current Viz. Rs. 9108-12-9 in payment of Peishcush, I have to state, that hitherto the Collections from the Commencement of each fusly up to the end of October in the succeeding one are brought to account as Receipts

as to whether there was any necessity for
employing Inamdooldars to watch the

might be performed by Headmen and Sirkar
Inhabitants, and pending a protracted
reference to the Guardian and Tahsildar
on the subject, the wages of the Inamdool=

which accounts for the absence of the

From the Coll[r] of Masulipatam, Sir,

Para 1. With reference to the correspondence noted in the margin, I have the honor to submit the accompanying Copy and translation of an Arzee addressed to me by Rajah Simhadry Apparow and Venkatadry Apparow, together with copy and translation of a Sama Kya or Deed of acquittal executed between themselves for the division of their landed property, by which they agree that the Mootah of Tangella = moody situated in this District together with a Village in the Rajahmundry District shall be held by Rajah Simhadry Apparow; and the Chavendra = Mootah as well as the Villages of Ponnecherlah = and Streeramavaram by Rajah Venkatadry Apparow, and requesting that the same may be registered in their respective names, and that the Peishcush of each may be received from them separately.

Requesting Authority for registering the property of Simhadry and Venkadry Apparow in their respective names

(Copy to the Board 29th April 1846. Do. 29th June Do.)

2. The Village of Streeramavaram which has fallen to the share of Venkatadry Apparow, has since been sold in public auction on account of arrears of Peishcush and purchased by Government as reported to the Board under date 5th February last

last..

3. The arrear of Peishcush outstanding on Chavendra Mootah upto fusly $\frac{1254}{1844/45}$ included in the demand due by the Nozeed Zemindar on the Pentapandro and Goondagoolanoo Estates has been paid by him in full and the Mootah is now free from public liability, and as I see no objection to a compliance with the reques of the Petitioners, I request the Board's authority for registering the property as solicited by them.—

Translation of an Arzee addressed to P. S. Porter Esq[re] Collector in the Zillah of Masulipatam by Rajah Simhadry Apparow Bahader Zemindar and Rajah Venkatadry apparow Bahader Zemindar of Ellore &c[a].

Dated 7th August 1841 corresponding to Friday the 15th Sravana Soodhum of the year Parabhava

With due respect we beg leave to represent that it is well known to your honor that pursuant to the Sanad Kyath Paper or Deed of Assent presented before the Honorable Governor on 4th February 1835 by both the Zemindars of Nedadavole and

and of Nozeed Rajah Mariah Apparow Zemindar of Nedadavole had in lieu of the amount of monthly allowance at 400 Rupees as well as the Rupees due by him for marriages given up to us 8 Villages Viz[t] Tungellamoody &c appertaining to the Mootah of Amberpett in his Zemindary, that Rajah Soobanadry apparow Zemindar of Nozeed had in lieu of the monthly allowance of 200 Rupees and the Money due by him on account of Marriages alienated to us 6 Villages of Chavendra Mootah in the Pentapand Purgunah appertaining to his Zemindary to continue for ever under our enjoyment so long as our Posterity extend, that the both Zemindars have then presented Arzees to your honor to the same effect and the circumstances of the Honorable Government having out of regard been pleased to grant to us the Village Raveecherla in the Gollapully Purgunah as Surva Jaghire and the Sheeramava-rum Village in the Malacacherla Mootah as Zemindary village to continue under our enjoyment in perpetuity so long as our generation continue is also well understood to your honor

The Villages of the aforesaid Mootahs of Tungellamoody and Chavandra as well as the Villages of Streeramavarum Raveecherla

Shane

have ever since been continued under our enjoyment. Now we set this aside & entered into a Samakyah or Deed of agreement on this date & agreeing between ourselves to divide our proprietary right of the aforesaid Villages & including the Village called Cantavarium which had been purchased by Rajah Simhadry Apparow in the Rajahmundry Zillah into two portions, one to each of us to continue under the peaceful enjoyment of each of us respectively without any sort of claims with each other for ever as long as our Posterity & to discharge the Circar annual Peishcush of our respective shares separately every year in a regular manner according to Kisthundy & so stipulated some more conditions in it to the same effect, a copy of the said Samakyah Patta is herewith submitted - On perusal of it the contents can be understood to your Honor.

We therefore humbly represent that your honor will be pleased to submit this Cowlestance with your favorable recommendation to the Honorable Board of Revenue & Government to obtain their sanction so that in conformity to the conditions laid down in the said Deed & put the portion composed of the 8 Villages of Tungellamoody Mootah appertaining to the Zillah inclusive of the other Village called Cattaveram

making in all 9 Villages may hereafterwards continue under Rajah Simhadry Apparow & the other portion consisting of the 8 Villages of Chandra Mootah appertaining to Pentapaud as well as the Surva Jaghire Village Raveecherla and the Zemindary Village Streeramavarum which were granted to us by the Honorable Government, making in all 8 Villages to continue under Venkatadry Apparow so long as our respective generations may extend & the annual Peishcush due on each of the divided ends may be discharged to Circar by him to whom it belongs and the villages of the respective divisions may be registered separately in respective names.-

We further beg to entreat your honor will be pleased to order the Enjoyetnamahs to be written hereafter regarding the affairs of Tungellamoody Mootah in the name of Rajah Simhadry Apparow & that of Raveecherlah & the Villages in the name of Venkatadry Apparow

dizes to the Collector to that effect, the Honorable Government were pleased to approve and confirm the same accordingly. The said two Mootahs and the 2 Villages Viz. Raveecherlah appertaining to Gollapully Purgunah which had with great regard been granted to us by the Government as Surva Jagheire and Streeramavaram in the Malacacherla Mootah which is our Zemindary Village are heretofore continued under our joint engoyment. As we now are desirous of dividing our right of the said Villages as well as that of the Village Cataveram in the Rajahmundry Zillah which had been purchased by Rajah Simhadry Apparow and to fix our shares distinct from each other to continue separately under our respective enjoyments and agreed that in presence or with the consent of Rajah Narrah Apparow, these Villages may be divided into 2 Division by Rajah Simhadry Apparow, and that Venkatadry Apparow may to be one division which he may prefer for him best in them. The divisions formed by the said Simhadry Apparow are the following Viz.

Villages.

Fort St. George 30th March 1848.

Gunnavaram	1
Tandevadapah	1
Pantamakoor	1
Villages	8

1. The aforesaid Divisions having thus been determined and Venkatadry Apparow having been required to select one Division he may prefer in them, he Venkatadry Apparow has with his free consent taken the Division composed of Rauvecherla Vca. 8 Villages.

2. I Rajah Simhadry Apparow with my free will hold the other division for myself consisting of the Tungellamoody Vca. 9 Villages.

3. As we have thus held our respective divisions in the above manner and received the Documents connected with the Villages of our respective lots, we should (as we are to reap hereafter the benefit or loss that may accrue to each of us) continue

Fort St. George 30th March 1848.

to improve the cultivation of our respective Mootahs in a proper manner and discharge the annual Peishcush of our respective divisions separately according to Kistbundy and enjoy the product of our respective Mootahs as long as our posterity continue and we should have no claims whatsoever to advance hereafter for ever that there are variations in the said division or that any documents belonging to the Villages of one of us are in possession of the other.

4. As we are uterine brothers the Villages of our respective lots should for ever in future continue under the enjoyment of our descendants in our generation, but are not to be allowed to go to others.

5. As the aforesaid Landed property belonging to us is very limitted, should the Honorable Government be hereafter pleased to indulge us by granting any further means of subsistence either in money or land, the same should also be enjoyed by both of us in equal manner

6 As we have submitted to the Collector of Masulipatam an Arzee accompanied with a Copy of this Deed of Assent, requesting, in it that the Villages of our respective Mootahs should according to the foregoing

Affording information respecting the effect of Trees on the Climate and productive= =ness of a Country or District and the results of extensive clearan= =ces of Timber &c. and also forwarding a Memo shewing the extensive Tracts of Jungles on the Hills and Plains

Para. 1. I have the honor to reply to the Circular letter from your Office dated 15th Novem= =ber last respecting the effect of Trees on the Cli= =mate and productiveness of a Country or District and the results of extensive clearances of Timber, and to furnish every information I have been able to Collect from every enquiry made on personal Com= =munication with intelligent Persons most Capable of making known any facts which may have fall= =en within their observation on this important Subject as applicable to this District-

2 No restriction is placed on the Cutting of Firewood for Sale or economical purposes, but Persons wishing to Cut Timber are required previ= =ously to obtain permission from the local authorities and they are made liable to the following Charges.

Jettagee or black wood 5 Rupees pr. Do. Do.
Teak 2 Rupees per Ditto Ditto Palmira

No Circumstances or facts bearing upon the question in regard to the mode in which the presence or absence of Trees influences the climate of a Country by increasing its moisture or promoting its aridity appear to have come under observation in this District, by which light can be thrown on the subject of the present enquiry

6 Although no extensive or ill. judged clearings of natural Wood has been effected in this District, and although no prejudicial results have as far as I have been able to learn, been experienced, it appears nevertheless to be established beyond all question of doubt, from results of observations arrived at, that the effect, produced by the abundant presence of Trees is beneficial as being Conducive to moisture. The Rules which accompanied the Circular letter from the Board dated 26.th January 1846 will doubtless by greatly tend towards improvement as affording a liberal encouragement towards arboriculture generally throughout the District, Several Talooks of which are Sadly bare and devoid of all presence of Topes, and the Board may rely upon my

no Rules are in force to check their wasteful ex- destruction for the sake of present advantage. - From all I can learn branches of Trees are generally lopped for this purpose, and the vegetation of the Country is so rapid that it keeps pace with the Consumption and so ensures the growth of successive supplies being adequate to future wants.

6 Although no extensive or ill. judged clearings of natural Wood has been effected in this District, and although no prejudicial results have as far as I have been able to learn, been experienced, it appears nevertheless to be established beyond all question of doubt, from results of observations arrived at, that the effect, produced by the abun- dant presence of Trees is beneficial as being Conducive to moisture. The Rules which accompa- nied the Circular letter from the Board dated 26th January 1846 will doubtless by greatly tend towards improvement as affording a liberal encouragement towards arboriculture generally throughout the District, Several Talooks of which are sadly bare and devoid of all presence of Topes, and the Board may rely upon ing

my unceasing endeavours to promote in every way the culture of Trees generally as also on the principal lines of Communication in this Province

The "Nullamala" range of Hill Forest extends about 60 Miles in length from North to South Commencing from Mahadavapooram in the Cudgoontlah Talook and terminating near Pussedialumpetta in the Boosoor Talook, and about 25 Miles in breadth from East to West, Comprising extensive Teak Jungle and other natural Timber.

There is also another Hill Forest which takes its rise from Kistnumchetty Pully in the Cumbum Talook, and extends to Yagovapalium and Dugoovapalium in the Boojpaud Talook. The distance from North to South is Computed at 65 Miles, and breadth 20 Miles. The People residing in the Villages westward of the above hilly Country call this range under the designation of

of "Nullamala", and those of the Villages situated on the eastren side of the said Hills have applied to it the name of "Velgotee Mala," several descriptions of Forest Trees, Teak, Black Wood, Yeppi, Red-Wood are thickly interspersed throughout this range.

There is also another range of Hilly Country called "Lunkamala" Commencing due North, from Nundialumpett in the Doovoor Talook and Rakoolcoontah in the Budwail Talook and terminating near Barecutta near the Village of Chendooray in the Sidhout Talook, the length of the same is 35 Miles from North to South, and breadth on the average 12 Miles from east to west. This Hill also contains several descriptions of natural Timber.

1. There is also thick Jungle on the plains Viz.t from Yerragoontah Cotta in the Sitwail Talook on the east to Bavloopully on the west, the distance of the same being 25 Miles, and from the Village of Aununtarauzpett Codoor in the North, to Paulacondah in the South, the distance of the same being 20 Miles.

2. Another Jungle on the plains from Madecherooo

Madecheroovoo to Toorpootalacona Siddaswaroony Davaliem or Pagoda in the Goosrumcondah Talook extends from east to west 20 Miles and about the same distance from North to South.—

There is also a third Jungle in the plains commencing from Nundeemindalum to Madecharoovoo, the distance of the same being 25 Miles, and from Paulacondah in the South to Gunganapully in the North, the distance of which is 10 Miles.—

Order thereon-

Ordered to lie over.-

10th Novr in Covs: 2d Decr 1847

Read the following report from the Collector of Chingleput relative to the management of the Exctra sources of Revenue in that District for Fusly 1256.-

Proceedings thereon-

Relative to the Management of the Exctra Sources of Revenue in the District of Chingleput for fusly 1256-

(Here enter No 39)

1- Annexed to the opening para of the Collector's report an Abstract Comparative Statement exhibits the fluctuation in the demand on each item composing the Exctra sources of Revenue in Chingleput during Fusslies 1255 and 1256; on a reference to which it will be observed that there was an increase under each head, with the

31

the exception of the two principal branches of Revenue Salt and Arrack, the falling off from which reduced the Demand to Rs. 521,820-11-6 or Rupees 7,175-5-4 below the Demand from the same sources in Fusly 1255.—

Sales
1255 4,63,378-8
1256 397,942-8-
65,436—

2 The total value of the sales of Salt during the period reported on amounted to Rupees 65,436 below the Sales of 1255 as shown in the marginal entry. Of this decrease Rs. 3990 was owing to the discontinuance of the usual Exports to Bengal, and the residue Viz. Rupees 61,446 is attributed by the Collector "chiefly to the permission given to the Collector "of Madras to issue Salt from his Cotaurs for "inland consumption".—

3 Mr. Freese observes that the effect of this measure upon his district during the past Fusly of 1256, was to depress the sales of Salt to an extent nearly corresponding with the excess derived in the Madras Collectorate. He explains that on the introduction of the present practice, Viz. the 10th of January 1847, there was an increase in his District of Rs. 83,667 over the Corresponding period of the previous year, which excess was gradually absorbed until the close of the Fusly- exhibited an

END 5144 4X

an actual decrease of Rs. 115,113 - but this it will be observed was met on the other hand by an increase in Madras of Rupees 186720 the difference or the loss sustained in one District, and the excess derived during the same period in the other, being only Rupees 1160 exclusive of the additional cost

Rs. 148-9-2 of Carriage for conveying the Salt to the Cotaurs -

4 Mr. Freese has extended his comparison up to the Month of September last, and shows in para 4 that the outturn of the Sales for Inland trade in the two districts was an increase of 63,860-13-9 in Madras and a deficiency of Rupees 72,883-8 in Chingleput, and concludes from these facts that in a financial point of view the scheme will be productive of an annual loss to Government -

5 Irrespective of this objection Mr. Freese adverts in his report to the consequences of the existing arrangement as regards the welfare of the numerous body of Salt Manufacturers whose interests will be materially affected thereby: upon this point however the Board beg to submit the subsequent correspondence which has passed on the subject noted in the margin, as detailing at length

From Coll: 13th Dec. in Cons 24th January 1848.
To Coll: 24th June 7.

Mr.

Mr. Freese's views and the remedial measures he would suggest, together with the instructions which they have deemed it desirable to adopt for the present administration of the department -

6. Without entering into the details of the objections raised by Mr. Freese it may be briefly stated that the main points of objection urged by him against the continuance of the present unrestricted sales in Madras are based on the necessity that will exist for reimbursing the manufacturers by the payment of Compensation at the several Pans in his district; which he apprehends will be thrown out of work by the trade being diverted from its former Channel, and which he considers will also be deprived thereby entailing additional loss on Government -

7. The Board would observe that the question should be viewed not with reference to comparatively local interests but on the broad principle of Public benefit and convenience, and that it has been productive of such results is apparent from the very facts quoted by the Collector of Chingleput as an argument against its continuance. As far as the measure

5145 Fort St. George 30th March 1848.-

measure has yet been tested the increase in the Madras Sales have nearly met the decrease in the Chingleput District, and the Board are led to anticipate that the Presidency Sales will increase as the facility with which return Carts can now procure salt for back carriage into the interior, in the immediate neighbourhood of the spot where there goods are unloaded, become more generally known. To withdraw this arrangement which is already largely taken advantage of, would they consider be impolitic and objectionable, especially as they do not apprehend that any material loss will be entailed upon Government by an adherence to the present practice.-

Mr. Freese has expressed his belief that the sales in the past Fusly were chiefly depressed owing to the arrangement in Madras, but it is worthy of remark that during that Fusly the Inland trade in Salt, in many of the neighbouring and Northern dis=tricts, was subjected to some general depressing cause which may have also affected those transactions in Chingleput. It has already been shewn that no important loss is apprehended by the Board in the future aggregate sales of both Districts, and should it be found necessary to

Compensate

5145 Fort St. George 30th March 1848.-

compensate the manufacturers of any particular pans, where the production of Salt may be dis=continued, it will be observed from the correspondence above quoted that the Board have taken e= steps to limit it as much as possible by di=recting the Collector to provide the Madras Cotaurs with salt from the pans conveniently situated in regard to distance and facilities of water Carriage, and have also directed him to ascertain at what rates, and in what quantity salt could be delivered at Madras by the Manufacturers of those more distant pans which he considers will be prejudiced by the present System.-

Ab Karry
1255- 85,310
1250- 76,500
8810

9 The next item of importance ad=verted to in the report under review, is the outturn of the Ab Karry Revenue, which presents a falling off, as compared with the demand in Fusly 1255 of Rs 8810, the result of diminished competition for the Farm. Comparatively low as was the e= triennial rent engaged for in Fusly 1256 the Collector states that claims to remission have been urged by the renters on the grounds of the injury entailed upon them by the storms of October and November 1847, and

also

also on the less valid plea of the injurious consequences of the drought with which they had to contend during the more early portion of the Fasly. Mr. Freese deems it will be sufficient to take into consideration the claims for indulgence based on the former grounds, towards the termination of the lease, and in which opinion the Board quite concur with him and consider any present agitation of the question unnecessary.-

10 The other items of Revenue viz Small Farms and Licenses, Sea Customs, Stamps and Moturpha exhibit under their respective heads a small increase over the demand of the preceding year, consequent upon the ordinary fluctuations to which such sources are annually liable.-

Small Farms 828-2-5 Moturpha 608-5-2.

11. In the former and latter of these items there was a small amount of Current Revenue uncollected at the close of the report as shewn in statement annexed to para 10 which however is reported as likely to be realized at an early period.-

Balance 38549-8-0.12. Of the Balance due on account of Fusly 1255 the Collection made up to the end of October last amounted to Rupees

5145 Fort St. George 30th March 1848.

Rupees 15976-5-1 leaving an arrear for future adjustment of Rupees 22573-3-5 regarding which the Collector has furnished no details, but has forwarded an account particular of the old arrears remaining on the books from Fusly 1249 to Fusly 1254 both inclusive, which shows a debit against the Small Farms and Moturpha branches of Revenue of Rupees 968-3-11. of this Rupees 888-6-10 are pronounced on enquiry to be totally irrecoverable,

and

and the Board beg therefore to support the Collectors recommendation for the remission of that amount.

Total 13 Including the Collections of Current Revenue, Extra items and Arrears the Gross receipts for the Extra sources of Revenue in Fasly 1256 amounted to Rupees 523421—14—9, being less than

xx 1255 Gross receipts 589496—4—11
Charges 66819—15—5
522876—5—6
1256 468279—3—8
54597—1—10.

the Gross receipts of the preceding year xx by Rupees 66,074—6—2, the charges amounted to Rupees 55142—11—1 being below these incurred during the past year by Rupees 11477—4—4 consequent upon the ordinary fluctuations of

of the year the net Revenue therefore after deducting disbursements stood at Rupees 468279—3—8 which presents a deficiency as contrasted with the net receipts of 1255 of Rupees 54,597—1—10.—

Ordered that a Copy of the foregoing Extract from the Board's Proceedings with the annexed Comparative Statement of the Collections Charges and net Revenue be submitted to Government and a transcript of the same be forwarded to the Collector of Chingleput for his information and guidance.

(32)

Sir,

From the Collr of Chingleput } I have the honor to transmit an original letter received from Mr Nailer, the Renter of Andarmutum, requesting to hold that Village on a Permanent lease in lieu of for a term of 14 years, and which request I beg may be laid before the Board

5147. Fort St. George 30th March 1848.

Board. It appears to me that the Board would not feel authorized to recommend the extension of the lease as requested; but at the termination of the lease, a dasawundum might be promised for any increase of Revenue arising from Permanent works executed and kept in repair by Mr. Nailer.

Chingleput District,
Collr's Circuit Cutchery,
Tirooporoor, 4th March, 1848. } (Signed) A. Freese
Collector.

To, The Collector of
Chingleput.

Sir,

I beg to bring to your notice the following circumstances connected with the Village of Andarnatum now leased to me, which I hope will under the urgency of the case, receive your early consideration, and induce you to represent the matter to Government and obtain their sanction to a compliance with my request.

2. It was only during the late heavy rains I was enabled to discover that with the exception of a very very small portion scarce worth mentioning the whole of the lands of the Village, is liable to inundation from the swelling of the Pulicat lake adjacent to it, and on the last occasion I had an opportunity of observing

observing the esctent of the floods, and the injury caused
to the cultivation of the lands-

3= These floods combined with the salt
water of the lake must ever injuriously affect the productive
powers of the soil and check the prosperity of the Cultivator
for after the floods subside, a saline crust is deposited
on the surface of the soil, similar to that so commonly
seen on the nemerous swamps and marshes near the
Pulicat and bordering on the lake, which is generally
destructive not only to the standing corn, but also
to the growth of the succeeding ones.-

4- The only effectual measure that can be
adopted to remedy this great evil, is to construct a
substantial embankments of a permanent character
termed Dikes to keep out the Salt water during exces-
=sive floods - and sluices to drain off the superflu-
=fluous water when flooded by the swelling of the
River that runs through the whole esctent of the Village
and which overflows during the heavy rains-

5- These works which appear to me to be
indispensably necessary to the success of the undertaking
in which I am engaged for the improvement of the
lands and the re-establishment of the Village, will ne-
cessitate a considerable outlay; while the advantages
I may expect to derive from them during a period of
only fourteen years would not be at all commensurate

with the cost. I should also add that it will
be necessary to throw an Anicut across the river
at the lower extremity of the lands to shut out
the Salt water of the Pulicat river and lakes,
as the water in the river, within the boundary
of the village, becomes thereby saltish and unfit
for the purposes of irrigation, as is the case now,
even at this very early period of the season; but
by the construction of a low dam, I shall be enabled
to secure a supply of fresh water for the greater
part if not throughout the year.

6th Under these circumstances and consider-
-ing the great improvement that would be effected
in the village, from which I cannot hope to de-
-rive a permanent or even adequate benefit under
the present terms of my lease which extends to
only fourteen years, I beg you will do me the
favor to recommend to the favorable consider-
-ation of Government my application for the
grant of the village to me on a permanent lease
subject to the annual rent of Rupees One hun-
-dred and ten (Rupees 110-0-0) which I now pay,
and which it must be observed is more than
double the amount of the permanent Beriz,
and very considerably more than what Govern-
-ment has realised in any one year under Aus-
-many management.

I need-

7th. I need scarcely add that the value of the property would also be considerably enhanced by the grant of a permanent lease, and induce speculators in Sugar and others products to come forwards readily and make liberal advances for the carrying out the measures of the improvements I propose to adopt.

Trusting that this application will receive your early attention and favorable support.

Madras 23d. February 1848. } Signed T. W. Nailer

32

Proceedings thereon 1. The Board of Revenue are not at liberty to advise compliance with Mr. Nailer's request for a permanent Cowle of the village of Aundaramatam, but on the expiration of the present lease they will be prepared to recommend it's renewal on such terms as shall afford adequate due remuneration for any works of irrigation of a permanent character which he may have constructed or for any improvements which he may have effected in the Village.

From the Sd. Collr. of North Arcot. } Sir

With reference to your Circular Letter dated 26th. August last, I have the honor to state that the practices in this District to take real security from the Servants connected in any way with the charge of Cash and such securities are held liable without limitation for all deficiencies. The securities for the other Servants are bound merely to produce them in the event of their absconding, and failing so to do, to make good any liabilities to Government which such Servants at the time of their disappearance may lie under.

Reports respecting the practice prevailing in the District regarding taking security from public Servants

Sea Customs List

3. It is understood that the higher Classes of the public Servants such as the Tasildars, Cash Keeper and Talook Sheristidars &c. have generally sufficient influence to obtain the requisite Securities without payment, the Deloyets, Peons, and others inferior Servants to appear also to find little difficulty in procuring Securities, but the Talook and Koozoor Shroffs, their responsibility being great in proportion to their Salaries and Standing in Native Society, are, it is understood, under the necessity of incurring a charge Annually equal to at least One Months pay and sometimes to two Months pay in Order to comply with the requisition. It has not been the practice for the parties becoming security to empledge their property on behalf of the public Servants but in those Cases in which real security is given it has been considered the duty of the Sheristidar yearly at the Jamabundy to make enquiry regarding the circumstances of the Securities and bring to notice any case in which they may be considered insufficient.

4. It does not appear that in any instances forfeiture has been claimed from parties thus becoming security for public Servants and I think that the demand in the great majority of cases might without inconvenience be dispensed with. It appears to me that the means of punishment afforded by the Regulations and dismissal are sufficient for the restraint and punishment of delinquencies. I think it may be advisable to continue the demands for security from the Cash keeper, his Deputy, the Talook Nuggee Goomastahs and Koozoor and Talook Shroffs, and that it might be dispensed with in regard to all the other public Servants.

From the Actg. Collr. of Trichinopoly

Sir,

I have the honor to inform you that the Tahsildar of Auraloore brought to my notice last November that the Wuedars and others of the Permal Goddy situated in the Villages of Candeyteetam - instead of Cultivating the parcel allotted to them had relinquished them for 8 Cawnies of the Circar Punjah lands for the past fusly which they had accordingly Cultivated. On the 10th of the same month I directed the Tahsildar to report when and by what order as well as for the object the Enam had been granted, but, in the meantime as he had reported that no order for the enjoyment of the Enam was forthcoming I directed the land to be kept under sequestration till further orders the tax on the occupied Circar land to be levied and further particulars to be reported. The Tahsildar in his Arzy of the

Forth St. George 30th March 1848.

the 6th Instant states, that he has discovered one of the orders for 8 Cawnies Punjah Dated 6th October 1827. It appears that 5 Cawnies were made over by Mr. Lushington in Fusly 1226 A.D. 1816-17. but no order to that effect has been discovered 8 Cawnies for the same pagoda appear to have been given by Mr. Dickinson in Fusly 1237 A.D. 1827/28 the then Collector. The amount of Tax on these lands is Rupees 45 1/2. In the survey accounts of Fusly 1216 A.D. 1816-17 no such Enam is entered. I therefore request the instructions of the Board as to whether the Enam should be continued or assumed as there appear no grants or any authority from the Board or Government to hold the same free of rent.

Trichinopoly Collector's Office 18th February 1848.

Actg. Collector

Resolution thereon -

36-37

The Acting Collector is requested to call upon the Wuedars of the Pagoda to give all the explanation they may be able to afford respecting the Enam, to state at what time and by what means it came into the possession of themselves or their predecessors, and to produce all Sunnuds, Takeeds &c. in support of their title. He will be so good as to transmit the depositions which he may take from them with any

any vouchers which they may bring forth and to the Board. He will also institute a further search among his records for any papers bearing upon the subject and state whether the Enam is to be found in any of the Enam Registers and how it is entered in the Village accounts.

I am directed by the Board of Revenue to call your attention to the letter from this Office dated the 10th February last, requesting early transmission of certain Periodical Returns and Statements from your District to the 30th Jan. 1847 and to observe that most of them are still

2. The Board now instruct me to annex a Memorandum of future Returns and Statements due from your district up to the 31st December 1847 and in adverting to the large number of returns in arrear, to express on your necessity for their early despatch and for the punctual transmission of all such papers for the future. It is obvious that periodical Returns are of little value unless duly despatched, and that the simultaneous transmission of several at once which have fallen in arrears defeats a principal object for which such Returns are required.

You will be pleased to answer this letter within three days from its receipt and to state the period within which the Board may expect to receive the Returns &c. in arrears noted in the annexed Memorandum as well as those called for in their previous letter.

Para 1. C. 8

1. The early part of the season was of much promise a long interval, from the middle of August to the end of September, in which no Rain fell followed October was very wet particularly towards the latter end of the Month, when a gale of wind occured which breached several Tanks, those Tanks supplied by the Kistnah Channels however escaped, but the banks of the Channels were extensively swept away— The early Crops / Bonasa and Jonna of the Palnaud and western Talooks / suffered from the Six weeks drought, and the staple / Jonna / of the central and Eastern parts of the District was injured by the excessive wet and storm of October. The outturn of Grain was thus deficient, but the abundance of Straw has seldom been exceeded and in the vicinity of large Towns, the Ryots paid their rent by its Sale. The late Crops, with the exception of Bengal Gram yielded well. The Cotton Crops and Vellavadom or red Paddy were also good. The advantages of Channel irrigation were remarkably apparent. The freshes of the Kistnah filled the Tanks depending on it, this early supply was followed

followed by a timely monsoon and the Rice
Crop is Stated to have been the best since
the Famine and probably before it. The Tanks
in the Talooks of Nortoor and Sinnacondah,
which are dependent on the failing rains also
were inadequately supplied.

The rates were somewhat below those of the preceding year, but
considerably above the Standard to which Prices had fallen previous to the late
rise.—

Para 2 & 10

3 The new distributions of the Zemindary
Villages into 12 Compact Taluks has been carried
into effect this year and the beneficial effects of
this arrangement are prominently noticed. As
By this measure the management in every respect is
greatly facilitated, the deterring influence of the Zemindar
in resisting Reform has been Counteracted and
the Curnums and Head Ryots evince a greater
willingness to Consent to beneficial Changes.
Greater time is also Secured for the Zemindary with a closer Scrutiny of the Village
accounts. "There is now no difficulty the Collector
observes" in making an early and thorough individual
Settlement, the benefits of which are felt in every

department

department of the Collector's duties."

In conformity with the orders of the Board

4 From Sett.t for F. 1254. 1844-45
12th May 1846 Para 3. 17

considerable progress has been made in carrying

	F. 1255	F. 1256

Share	77	29
Partly Muctah and partly Share	29	27
Agraharams	129	129

Total	882	882

out an uniform System of Ryotwar,
such as obtains in the Palnaud.
467 entire Villages are now Settled
on this Principle. Forty Six Villages
hitherto under Share were Settled
individually on the average of past
Collections under engagements to
apportion the Share of each
individual, and eventually to measure and Classify
the lands. Regarding some of these Villages it is
more fully explained in Para 27 of the Report
"The Ryots have agreed to bring the whole lands
of the Village under occupation, to measure and
classify the lands and to attain the maximum
Settlement in 3 years." In 6 other Sharing Villages
which were formerly under Muctah, the old rates
were restored or modified. The renting System
Still obtains in 226 villages, but as the Rents
fall in, the individual principle will be carried
out. The Rents expired mostly with Fasly 1256 / 1846-47
such as have been renewed are for one and
two years and were given to the Villagers them-
-selves. The Statements Submitted with his letter

dated

In Cons 2d August 1847.

dated 28th April 1847 recorded at the head of these Proceedings exhibit further details, but do not call for particular remark. As a General rule it must be observed, the rent should not extend beyond one year and the Ryots should be allowed to determine among themselves the proportion which each individual is to pay the Cumdu and aid of neighbouring Ryots being called in in cases of difficulty or dispute. It is also to be understood that the Ryotwar arrangements now in progress are temporary only pending a regular Survey

Para 11812

5 The new method of keeping the Talook and Village accounts and of furnishing Receipts to the Ryots has come into general operation and has led to the detection of several cases of malversation. This important change it is stated is much appreciated. The important object of regulating the Emoluments to Village Officers on a sound and uniform Principle has not been lost sight of. The Board approve of the allowance not exceeding 12 Rupees having been permitted in the Puttahs of Heads of Villages as a temporary measure

The

The Subject has been separately noticed and will it is hoped be arranged on a permanent basis, meanwhile it may be remarked that a decided Change for the better is apparent in the Village Establishments

6 Time and the extension of right principles are necessary for a full development of the resources of the District. The results already obtained are highly satisfactory and the total Settlement of the year in the Villages in which the Zemindary System prevailed now exceeds the permanent Peishcush. The total Settlement including the Palmanam amounted to Rupees 14,18761—12—4 being Rupees 141,680—2—8 above the Settlement of the preceding year. The particulars are shewn in the following Abstract

7 The extension of the Ryotwar mode of Settlement occasions the increase under the head of individual Money assessment exhibited above which is accompained by a Corresponding decrease from Rents and Division of the produce. The financial Results of the individual Settlements Compared with Fusly 1255 (1845-46) are set forth in Para 21 and 22 of the Report as there shewn the increase in 154 Villages which reverted from rents to Ryotwar is Rupees 31759-1-2 and the increase in 261 Villages settled Ryotwar in both the year is 38773-7-9. The discontinuance of certain unauthorized Remissions allowed by Renters and Zemindars enter to a certain extent into the above increase but extended Cultivation forms the main item. Villagers partly under Share in the preceding Fusly have yielded an increase of Rupees 16581-9-4, but in the bulk of the 261 Villages hitherto Settled on Share there is a decrease as Shewn in Para 26, to be ascribed to the advantages which accrued to the Revenue under a division of the produce in the preceding year, in Consequence of the then prevailing high price of Grain. Some of these Villages are Settled for 3 Years as already noticed in these Proceedings ma progressively increasing assessment. Regarding

these

these the Collector observes "at the end of 3 years the rates will be open to revision. In the mean time unquestionably a higher Revenue will be secured to Government than under share and great ease afforded to the Ryots. The lands here referred to are very rich but low and open to damage from floods by excessive rain. The Concurrences of a favorable season and high prices would be requisite to secure the financial Result of Fusly 1255 / 1845-46."

Para 33

8 The advantages of a Settlement on Pottah is shewn by the diminution of Revenue in certain Dry lands exhibited in Para 29 of the Report from Rupees 23,679-5-5. The decrease would have been much greater but for the favorable results of Villavadum or Red Paddy.

9 The Wet lands throughout the two purchased Remundaries of Guntoor were let on Share. The improvements lately made to the same has been accompanied by increased Cultivation and the Revenue from this Source has increased from Rupees 56,674 in Fusly 1251 to Rupees 1,34,542 / 1850-51 the year under review. It is now desirable that the Government should be relieved from the detail of a Settlement on Share, and the Board will be glad to hear that a Money Assessment has been introduced

the present System as has been done in the Palnaud

Wpara 44 & 51

10 The Revenue from the Palnaud shews an increase of Rupees 19748-12-9 above the preceding year, arising Chiefly from extended Cultivation. A money assessment has been fixed for the wet lands and was in operation in the year under Report. The rates as the Government are aware have not been finally confirmed by the Board. Three villages Viz.t Soolakanl, Macharavanum and Bramarapilly belonging to the Guntoor Estate recently purchased but included within the natural limits of the Palnaud have been incorporated with other Palnaud Villages and settled on the same System as obtains in that portion of the District. The mode in which the assimilation has been effected is reported in the letter dated 30.th September 1847, recorded at the head of these Proceedings. The Rates of assessment had not been verified by personal enquiry this the Collector proposed to do in his next visit to the Palnaud, when the Subject should be again brought under the Consideration of the Board in a separate Communication.

Commissioners Report Para 97.

The Commissioner it will be remembered was of opinion that the sum of Rupees 206553 was recoverable. He was averse however to a rigid enforcement of the demand in every case. The amount actually received, including items not examined by the Commissioner, has been Rupees 161308-3-6. The Balances accumulated chiefly under the irregular and vicious system of management pursued in Zemindaries, and the Board concur with the Collector in opinion that the interests of both the Ryots and of Government would not be consulted by enforcing the demand any further. With this impression they beg to recommend that the Balances on account of Ryotwar and village Rents to the close of Fusly 1253 / 1843-44 amounting to Rupees 18871-3-1/2 may be written off.

14 The Board approve of the Collections made on account of certain Parumbokke lands not included in the assets of the Zemindaries forming a part of the Demand for the future. This item should also be kept separate from the Inst Revenue of the Estates.

15 The abstract Statements in Para 43 of the Report shew the Settlement Collections, Charges and Net Revenue for each Estate as well as the Demands and Collection of Peishcush-

16 The following results are observable-

The Settlements exceeded the Peishcush in all the Estates except Mulrauze- The exception is not fully accounted for- It probably arises in part from the deficient supply of water in the Tanks in the Marlton and Innacondah Talooks- The advance made on the Wajsereddy Estate appears to be owing partly to the improvements in the irrigation-

The Net Revenue however fell short of the Peishcush in all the Estates except Chilkaloorpaud-

The Peishcush Current and arrears at the commencement of Fusly 1256 (1846-47) amounted to Rupees 8,96,503-1-1, at its close the Balance stood at Rupees 7,49,907-1-5 Composed of Rupees 98888-0-0 Current and Rupees 7,00,183-0-5 arrears-

Para 30 of the Report it has been usual to assess the Garden Productions such as Tobacco, Chillies &c at rates varying both with the Crop and the person cultivating- Certain influential classes, as Curnums, have enjoyed favorable terms but with these exceptions, the rates are "vexatiously high"- The Board desire that for the future the land and not the article may be assessed- They would call attention to the Circular on this subject dated 13th November 1837 enclosing copies of the Correspondence noted in the Margin-

19 Mr. Stokes is of opinion (Para 32) that the practice of Collecting Tank meras in Guntoor except in the case of Enams is of questionable propriety, and in the Palnaud it appears (Para 45) the Collections of this item, there called Dasalhoguna, has not been enforced in the year reported on- The Board disapprove of the remission of usual items of Revenue without previous sanction, and desire that the Demand under this Head may be brought to account again- According to the custom of the Country the Ryots are required to

Proceedings thereon.

The Revision of the Village Police in Guntoor and the expediency of increasing their efficiency, by raising their allowances, and placing them on a proper footing, appear to have engaged the attention of the District authorities and of the Board of Revenue on several occasions for some years past: the subject was first brought to notice by Mr. Thosh. in 1823. His observations had reference to the Heads of Villages in Paulnaud only, but as has been since shown were equally applicable to the Zemindary portion of the District. He pointed out that the authority of these Village servants was next to nominal

that they took no part in revenue business and had no Enams, and he proposed to remedy the evil by granting a small Enam to each of them. Some further correspondence took place between the Collector and the Board on the details of the plan, which were ultimately fully explained by the former in his settlement report for Fasly 1238 / 1828-29. The number of Moonsiffs recommended for the Palnaud was 117 and the total annual value of the Enams to be granted them Rupees 5964 to be apportioned according to the following scale viz.

For all Villages yielding a smaller Revenue than Rupees 100 — Rs. 50

D°.— yielding a revenue between Rs. 100 & Rs. 2,000 — 12

D°.— whose revenue exceeded Rupees 2,000 — 8

The principle above stated on which Mr. Stokes's scale of remuneration has been framed, and being altogether satisfactory to the Board, that Officer was called upon for an amended Statement drawn up on the principle on which these allowances were regulated in the ceded Districts, which it was observed calculated to proportion the emoluments to the labor and responsibility of the

The Board likewise, at the same time, suggested the possibility of Manneums originally assigned to the persons who collected the revenues being still in existence, altho' in the course of years their primary object might have been lost sight of.— The information on both the above subjects and for Guntoor proper as well as Palnaud was supplied by Mr. Acting Collector Orr in a letter of 18th October 1827 in which after shewing that it did not appear that any Enams or Pensions had ever been allotted to the Heads of Villages in the Palnaud, and that their emoluments in the Zemindaries were very inconsiderable, he gave the following as the result of the application of the rates obtaining in the ceded Provinces to the Moonsiffs allowances of Palnaud and Guntoor Sircar—

In Cons. 29th October 1827.

For the Palnaud 113 Village Moonsiffs whose remuneration would amount to Rupees 3,367—3—4 per annum calculated on the average settlement of Rupees 2,16,953—12—5—

For Guntoor proper 197 Moonsiffs whose allowances would equal Rupees 24,959—1—4 involving, after the deduction of existing Enams Rupees* 653—11—8. a net additional expenditure of Rupees 24,305—5—4 upon an

average

average revenue of Rupees 18,53,070. The grain in the Palnaud were to be in rent for land, but it would be necessary to have recourse to money payments in the permanently settled estates. The total value of the allowances in land or money to be granted under this plan to the Guntoor and Palnaud Moonsiffs would have been Rupees 27,672

To Coll.r 7th July 1846- the Board in consequence called upon the Collector for a full report upon the subject; "exhibiting at one view the whole state of "the case, past and present, as regarded "the number and emoluments of these "functionaries, with his opinion as to the "best means of reviving their efficiency; "and desired that in proposing any plan "of general amendment he would state "the additional expence involved in it; "and the present available resources "for the remuneration of Village Servants".

The first of the papers recorded at the head of these Proceedings is the reply furnished by Mr Stokes to the Board's requisition, and affords full information on all the points referred to him. The report does not include Curnums. The condition of these Village servants, in Palnaud only, is discussed in a second letter from the Collector bearing date the 18th of August last which the Board have also recorded and propose to review in the course of these Proceedings.

which may be expected to result from such
an arrangement are amply shewn in
other Zillahs, and the measure is more
especially required in Guntoor where, as
already observed, the uncontrolled power
and influence monopolized by the
Curnums has hitherto been productive
of much embarrassment to the Officer
charged with the Management of the
District.

1. The expediency of placing the
Office of Moonsiff and Head of a Village
in Guntoor on a proper footing being
admitted, the next questions for consider-
ation are the means whereby this object may
be attained, and the expense attendant
upon it. Two plans have already been
adverted to. The first, that proposed by
Mr. Whish of dividing the Villages into three
classes, and establishing three rates of salary
for the Heads of Villages, being severally
Rupees 21 Rs 42 and Rs 84 per Annum, the
total yearly expense of which for the Palnaud
only and calculated on the revenue as it was
in Fasly $\frac{1235}{1825\text{-}26}$ would amount to Rupees 3964.
The second, that suggested by the Board, being the
adoption of the rates obtaining in the Ceded Districts
to

to be determined on an average of 7 years settlement including Motumpha, the entire annual cost of which as given by Mr. Acting Collector Orr on a revenue (Rupees 20,70,000/-) third more than that now yielded by the

Statement 1. Col. 9-10. P. 21. District would have been Rupees 28,32,[illegible]

Of these two scales Mr. Stokes states a decided preference for the latter, but he observes, that to carry out the principle on which it is based, Viz.t that of apportioning the remuneration to the labour, the amount of salary in each case should not be fixed but fluctuating, and calculated for each year on the amount of collection of the year preceding. In this the Board concur. The expense which would be occasioned by the application of the rates of the Ceded Districts to the payment of the Curnums or Heads of Villages in the present state of that Province, calculated on the Basis of Fasly 1254 is Rupees 11,963—3—8, but this will of course increase with the improved condition of the District. It is proposed that there shall be a Moonsiff to each Village, this in a very few cases where the Village is very large more than one Moonsiff may be necessary, and the emoluments will

Statement No 1. Col. 16.

be shared among the several holders.

P. 24. 8. Mr. Stokes has however suggested a modification of the arrangements obtaining in the Ceded Districts which he regards as an improvement, namely "to allow the Moonsiffs a fixed sum say 12 Rupees annually and in addition to this a commission of say one per Cent on the Collections of the Village for each preceding year." This" he thinks, "would give him a direct "interest in the prosperity of his Village, "as well as an independent remuneration "for his Police duties, which might be "heaviest when seasons were unfavorable "to the revenue". The yearly charge involved in this plan would be Rupees 20,787—

Statement No 1 Col: 20. 3—4. and the Maximum and Minimum rates of remuneration would be respectively Rupees 216—4—3 and Rupees 12—0—7 per annum.

9. The Board of Revenue observe that the plan above proposed by the Collector involves a departure from the practice of all other Districts. The total charge to be incurred under it would considerably exceed that

that resulting from the application of the Ceded Districts scale, and the rate of remuneration in the large Villages would be unnecessarily high. They perceive no advantages attending upon the scheme to compensate for drawbacks, at the same time the low rates of salary to be granted under the scale of the Cuddapah and Bellary Districts, falling as low as 4 Rupees per annum, or indeed in the present case of Guntoor still lower, do seem to them to be inadequate and they would therefore propose in the adaptation of that scale, to fix a minimum remuneration, to be paid under all circumstances, whatever might be the condition of the Village. This minimum they would fix at 12 Rupees per annum or one Rupee per mensem. The Remunerum taken by Mr. Orr in his plan, and they request that he will furnish them with a Statement accompanying Person, shewing the fixing of the application

scale of the Ceded Districts calculated on the Baruj of the past Fusly 1256. With a view to the reduction as far as possible of the expense which will be caused by the adoption of a minimum, the Collector will also be pleased to reconsider the suggestion contained in the letter from this office of 17th February 1825. as to the propriety of placing two or more Villages, if of small extent, under the same head. the objections urged against this measure by Mr. Whish in P. 32. 33. and 34. of his letter of 26th December 1826, and which were confined to Palnaud, not appearing conclusive.–

10. In the Board's letter of 29th February 1844, the Collector was requested to state "the present available resources for the remunera-"tion of the Village servants". From Para 13 of the report now under consideration it appears that the remuneration to be given, under Mr. Orr's tables to the Heads of Villages in Guntoor proper was "Rupees 24,959-1- minus "the value of existing Enams, leaving Rupees "24,305-5-4- to be newly sanctioned" which would make the amount of the then existing Enams Rupees 653-11-8. emoluments

emoluments as per the statement furnished by Mr Orr on 18th October 1827 are entered for 36 Villages in the Guntoor Circar at 922-6-8. In Mr Whish's report of 28th June 1833 the extent of the Enams of the head Inhabitants is given at Coorchells 48-3-7 Peerwah not shewn for 81 Villages, and it is expressly stated [Ps] that

Col. 10-11. "they enjoy no other emoluments" again in Para 8 of Mr Commissioner Elliots report the emoluments enjoyed by the Head men of 46 Villages of the Zemindaries are stated at.—

The Board do not find that Mr Stokes has taken these emoluments into account, either in the adoption of the Ceded District scale to the present revenue of Guntoor - or in the modification of it proposed by himself - He will be so good as to supply this omission, and inform the Board what is the amount of the emoluments now enjoyed by the Heads of Villages in the District which could be rendered available in diminution of the charge to be incurred

in revision of their allowances, exclusive of those items of which the realization would be doubtful feasibility or expediency.—

12. The principle on which the rates of remuneration should be adjusted, having been discussed, it remains to notice the mode in which such remuneration should be given - Three methods present themselves 1st by the grant of Enams in land 2d by payments from the public Treasury 3d by remissions of Shist - The Board

P. 21 agree with Mr Stokes in his objections to the grant of remuneration in lands but it is unnecessary to notice this part of the subject in detail, as the Government in Para 36-37. of the Extract Minutes Consultation of 6th December 1847 in review of the Commissioners report

In Cons: 10th Jany 1848. have already recognized the propriety of remunerating Village officers either by direct money payment, or by deduction from the Summabundy. Of these two Methods last named the Board concur with the Collector in preferring that of the annual deduction from the

The Collector is of opinion that all this class
Village officers should be paid in money and

by a monthly salary so as to relieve them from
the necessity of cultivating land for their support,
and enable them to give all their time to the
public service- in most cases two Rupees a
Month will be sufficient, but where the Village
is large and the number of Mohtands not increased
it may be as much as three rupees. If one Mohtand
for each of the 193 Villages in which that office
does not at present exist, be added to the 863
already mentioned, the total establishment
for Guntoor proper will be 1056- their aggregate

the resources in Money or land now available,
the remainder or the additional cost involved
in the arrangement will be Rupees 7347-11-11
Statement No 2. Col. 8-15-20 Mr Stokes does not think it advisable to

at only Rupees 823-11-4-

14. It does not appear to the Board
that there can be any objection to the Cultivation
of land by the Mohtands- Their holdings will
probably be small, and the time spent upon
them need not interfere materially with that
demanded for the discharge of their official
duties- on the other hand the possession of
land

land may have the effect of strengthening their local attachment, and make them more respected by their fellow villagers. In place therefore of monthly money payments the Board would propose to remunerate them in the same manner as the Heads of Villages by deduction from the Immanabundy Beriz the difference only between the beriz and the fixed amount of remuneration being paid in money. The present Enams should be resumed charge without [illegible] but left in the occupation of their present holders, if willing to retain them. In cases where the Village be large, it would be preferable to entertain an additional Mohtand rather than increase the allowances of the existing incumbent. It is observed however that Mr. Stokes's plan provides for 690 Villages of the Guntoor Sircar 863 Mohtands each of whom is to receive 2 Rupees per mensem. The necessity for the entertainment of so large a number is not apparent, and the Collector will be pleased to state whether it could not be reduced. It may be remarked that [illegible]

say 750 Mohtands be assigned for the service of the 690 Villages above mentioned, these added
Col. 25 Statt. 2. to the 193 required for the Villages where the office does not now exist, would give a total of 943 whose allowances at Rs. 2 per mensem would amount in the aggregate to Rupees 22,632, being Rupees 2,712 below the cost of the establishment as calculated by the Collector and reducing the additional charge to be borne by Government from Rupees 7,347-11-11 to Rupees 4,635-11-11. If such reduction were likely to be productive of hardship in individual cases, it might be obviated by confining it principally to those whose emoluments are now small, and might be permitted to retain their present allowances for life.

15. In the Commissioner's report on Guntoor P 78 he states "The Mohtand a "functionary peculiar to the District appears "at first sight to answer in some respects "to the Taliars, but his employment is confined "exclusively to revenue duties. This Office is of "recent origin and is principally filled by "Mahomedans." It is of course intended that

that on the revision of the office now proposed the Moktauds shall be required to discharge Police duties as well as revenue, and the office in fact to be assimilated as closely as possible to that of Talliars in other Zillahs - From the recent origin of the institution, and the lax system respecting it in the Zemindaries where the renters it is stated have been accustomed to discharge the Moktauds and alter their pay at pleasure, the same strict attention to the claims to hereditary succession which is observed in the case of other Village offices may not perhaps be necessary, and a more efficient order of men may thus be gradually introduced -

18. The Board next proceed to review
the

the Collectors' report of 18th August last on the Village Curnums - which as already stated is confined to the Curnums of Palnaud. There are at present 201 Curnums in Palnaud, the value of whose emoluments in Enam lands, fees &c.a is given at Rupees 12,349. 13-3- per annum, being on the average Rupees 61-7-1 to each. The Maximum and Minimum rates of remuneration differ however very widely - the former being Rupees 21-7-5. per mensem or Rupees 257-9-" per annum, the latter "-2-8 a p monthly or Rupees 2 yearly - Of the aggregate as above given Rs 12,349-13-3. Rs 6,341. 6-7. is the net value, less Quit rent, of the Curnums' Maw=neums now under Cultivation - Rupees 4,020-14-8- are derived from Sulligalos or fees in grain collected in some cases at so much per Pooty of grain as per estimated crop, but in others at a fixed rate per acre and Rupees 1,987-8-0- are realized from Vuntanah or Commission from Moturpha ryots at half a rupee per loom, presents at marriages and some other sources -

19. Mr. Stokes repeats the arguments already urged in his report on the Guntoor Police, against

against the remuneration of Village Officers by grants of Enam of land, and submits that these objections, for obvious reasons, are more cogent in the case of Curnums than in that of any other servants on the Village establishment He represents that the levy of fees in kind from the ryots is also a fertile source of disputes and mutual annoyance - Under these considerations it is proposed that the Enams be resumed, and incorporated with the Sary Lands - that the demand from the ryots of fees, Collections or presents of any kind be prohibited - and that these fees &c.a be given up to the people - The Collectors' plan for the revision of the Curnum Establish=ment next follows - There are to be 173. Curnums for the whole of Palnaud or 28. below the present number - Each Village is to have at least two Curnums, because in the event of there being only one, inconvenience might frequently result from his death, sickness, absence or other causes, and because while one may be required to attend at the Tahsildars' Cutcherry, one will be needed in the Village to assist the Moonsiff and for other purposes - In some few Villages (17 in all) three Curnums are to be allowed.

It is proposed that the Carnums be paid in money, and that their remuneration be partly fixed, and partly fluctuating - each Carnum is to have 3 Rs. per month, and a Commission of 2 per Cent calculated upon the revenue of the preceding Fusly. is to be shared equally by all the Curnams and to be disbursed to them Monthly with their fixed pay - The highest rate of Remuneration under this scheme will be Rs. 6-1-4- per Mensem or Rs. 73. per annum, the lowest Rupees 3-6-2. 20. The Board observe that the orders of Government Extract Minutes Consultation 6th December 1847. Para 36 which, tho' in strictness referring only to Guntoor proper, were it is presumed intended to apply to the whole District, and which prohibit the receipt of fees by the Village officers for the future would alone necessitate a revision of the allowances of the Paluad Curnums as so large a proportion - one half - of the emoluments of those servants is derived from fees - They concur generally with the Collector in the arrangements advanced by him against the remuneration of Village servants by assignments of land, but they do not recognize the force of his last objection that the Management of Mannium lands requires part of that time and attention which should be wholly at the command of Government -

Government" especially as respect the higher Village officers, Potails and Curnams- Such parties usually carry on their agricultural operations by means of their servants and dependents, and the time given by them to their Superintendence need not trench materially on their official pursuits- The holding of land by the higher Village Subbendy as elsewhere observed has its advantages, and even were their emoluments to be restricted to payments in ready money, the proceeds would in almost all cases be invested in land- Under these considerations the Board are of opinion that the salaries of the Palnaud Curnums should like those of the Heads of Villages throughout the District be paid not in money but by deduction from their Puttah Baraz- which besides that it seems to be more popular, has this further advantage over cash payments that it leaves less room for Misappropriation or embezzlement on the part of the Hoozoor and Palook Servants- The Board were at first inclined to advocate the application of the Ceded District scale with a Minimum to the allowances of the Curnums as

as they have already recommended in the case of Heads of Villages, but they find this to be impracticable- In proof of this assertion they would refer to the accompanying Statement* prepared in their Cutcherry from data furnished by the Collector which shows for each Village of the Palnaud the amount of emolument in land or fees at present enjoyed by the Curnums- that to be assigned to them by the Collector's plan and that which they would receive on the scale of the Ceded Districts- with a minimum rate of remuneration of 36 Rs. per annum- It will be seen that in many instances the Ceded District rates would fall below the existing emoluments by 50 per Cent- and in some in a much greater ratio- and further that the aggregate allowances according to these rates for the whole of Palnaud would be only Rupees 5,298-8-0 being little more than two fifths of the present emoluments- and not much in excess of one half of those to be granted under Mr. Stokes's scheme- So large a reduction would of course be productive of general and not unreasonable dissatisfaction.—

The 28 Curnums whose services will not

From H. Stokes Esqre. Collector in the Zillah of Guntoor ----- Pcs. Paral. I have the hono

to acknowledge the receipt of the Extract from the Boards Proceedings dated 20th Ultimo directing me with reference to the Minutes of Consulta=tion dated 17th December to await further instructions with regard to the Cuttoobady Enams reported upon in my letter of the 2d. October last.-

2. As it appears from the above Extract that Government has disposed

disposed of the general subject of the Enams in the recently purchased Zemindaries and as some time may elapse before the Commissioner's Report and the orders of Government thereon can be communicated to this Office, I beg the Board will be pleased as early as may be convenient to furnish me with the views of the Government on this particular Subject. The matter is one of much importance and Measures are already in progress for resuming the Enams granted since the permanent Settlement as also for assessing such Cuttoobady Enams as

Requesting instructions regarding the disposal of the Chanoobundah village & recommending an allowance of 30 Rupees to &c. I. Pagavarow the Ex zemindar of Chintalapoody

passed by the Court of Sudr Udalut in special appeal suit No. 66 of 1844 preferred by late Soopully Venkata Narsimharow against the Collector of Masulipatam and Rajah Soopully Venkata Pagavarow for the recovery of the Village of Chanoobundah in this District; by which it will be seen that the Decree of the late Northern Provincial Court in favor of the Collector has been confirmed.

The Village in question was
2.
attached as reported to the Board under date 10th July 1835 and still continues under Management- No balance of Peishcush is due to Government for the Village, on the contrary there is an available surplus in

in the Treasury up to this date of Rupees 2726-14-11.

3. The appellant Venkata Narsimharow died about 7 or 3 years ago, leaving a widow, and Joopally Venkatragavarow the 2d. Defendant and Ex-zemindar of Chintalapoody is a cripple, having lost the use of his legs, and is in extreme distress. This individual addressed to me a Petition, Copy of which with translation is herewith submitted, in which he solicits that a provision may be made for his maintenance by allowing him the same sum he received during his Minority till he recovers from his present illness, or that as heir to his deceased aunt Paupamah row the village in question now under attachment might be restored to him.

No. 2.

4. It will therefore be for the Board to decide under the circumstances already before them whether the Petitioner has any claim to this Village, which according to the original intention of the special commission must be considered as having become part and parcel of the Chintalapoody Estate, lately purchased by Government, or whether it is to be considered as having become the property of Government by virtue of the purchase; in the latter case, I beg to recommend that a small provision of 30 Rupees per Mensem should

be made to the Petitioner for his life. This amount he has received from the Mylaveram Zemindar during the time that the Estate was in his (the Mylaveram Zemindars') possession, but since the purchase of the property by Government the allowance has been discontinued, and J. Venkatragavarow is in consequence, as has been already observed, reduced to extreme distress.

5. I think it necessary to state for the Board's information that Precepts, now in abeyance, were received from the late auxiliary Court, & the Principal Sudr ameens Court of Masulipatam for the payment of Rupees 1,266-1-7 in satisfaction of a Decree passed in No. 167 of 1832 of the late Auxiliary Court's file wherein A. Seetiah was Plaintiff and J. Paupanah row the late Proprietor Defendant by whom the debt was incurred. Copies of which are herewith submitted.

Opinion of the Acting 3d. Judge.

The points on which the claim

claim of Special Appellants turn are.

1st. The validity and force of the permanent Cowle granted by Government to Joopully Papamah.

2ndly. Her right to dispose of the village conferred on her according to her own will and pleasure.

3rdly. Her adoption of Petitioner, and the actual necessity there existed for this ceremonial to enable her to constitute him, her legal "Heir, successor or Assign."

By an act of the Legislature (viz. Regulation XXV of 1807) it is declared that Government or the Ruling power having vested to itself the Proprietary right of all Lands whatever, as well as the actual exercise of the proprietary possession thereof, had been pleased to vest certain Individual persons with the said right; and the better to define the rights of all such persons, a Summud Milkeit Istemerar, or deed of permanent property was given to each.

The powers of these newly created Proprietors over the property thus conferred on them, is defined in Section VIII of the same Regulation. It is therein declared that they

are at free liberty to transfer to whomsoever they please without reference to any authority whatsoever by sale, gift or otherwise the whole or part of the Proprietary Right; that such transfers shall be valid and respected by all Courts of Judicature and by the Officers of Government provided they are not repugnant to Hindoo or Mahomedan law or the Regulations of the British Government.

It has moreover been decided by the Court of Suder Udalut in their Proceedings of the 17th April 1837 that property conferred by a Summud i Milkeit Istemerar must be regarded as selfacquired and not ancestral and the Decree of the same Court in Appeal No. 44 of 1817 even goes the length of declaring that where no Summud exists the succession shall depend upon the ruling power.

Paupamah's right to Chanoobundah during her life time is not questioned. she died in 1836 having enjoyed and held possession of the Village under the Summud i Milkeit Istemeran aforesaid and otherwise before the institution of the Courts upwards of 30 years, but it is urged that the grant was only for life; and that the Deed of permanent property was obtained either by

by fraud or through the oversight of the Govern-
-ment Officers who prepared and issued it in Pauparnah's favor without any reservation whatsoever, and in opposition to the original intention of the Commissioners who recommended that the Village should revert to Pauparnah's deceased husband's undivided family on her death.

Now there was certainly no fraud in the matter, whatever oversight there might have been on the part of the Government Officers. It is not clear, why the recommendation of the Commissioners was lost sight of by those who prepared the Draft of the Deed, if it was intended that it should only be of a temporary nature it behoved them as well as the Government to have been more careful and so soon as the error, if such it may was discovered, measures should have been sought for its correction, whilst those interested in its revulsion should at some period of her enjoyment have entered a protest against the absolute terms in which it was issued in Pauparnah's favor, but it does not appear that either the Officers of Government or the representatives of the family ever objected thereto, or called her independant right in question.

The public or Official acts of its

Functionaries must in general be held to be the acts of the Government itself, and in such case, it is to the Government that a Court of Judicature must look, as the party on whom the responsibility rests. But it is not so in this case. The deed of permanent property bears the signature of the Governor in Council and of his colleagues. Their act of settlement in Pauparnah's favor must therefore be held to be the final and conclusive act of the Government itself, and all question as between the Government and the servants of Government necessarily falls to the ground.

The preamble of the Regulation cited above shews that Government was in a position to make the grant in question, and the doing so must in addition to other consequences be held to be a decided severance of the Village of Chanoobundah from any other landed property in the possession of the family.

Under the terms of the sunnud i Milkeut Istemerar, or deed of permanent property was expressed in the 15th or final clause.

Pauparnah was authorized and empowered to select any one she pleased and constitute him her Heir, successor, or Assign, and her appointment of him as such, must be held to be binding in all times to come, and in all Courts of Justice.

There is nothing repugnant to Hindoolaw in the selection and nomination of the

the special Appellant by Paupamah 13 years before her death as her heir and succeſsor, naturally he stands in the same degree of relationship to the family of her deceased husband, as does the 2d. Defendant his uterine brother and adopted son of her husband's deceased brother. If the one was a fit subject to be selected, so was the other.

That she frequently from time to time did represent Petitioner as her heir to the public authorities is not disputed. Her last public act was to inform the Collector that she had delivered the sunnud & Milkeut Istemerar into his hands. It is not denied that he performed her funeral obsequies and paid certain Gifts to the Colls. in 1836.

It was in consequence of a quarrel between Petitioner and 2d. Defendant that the Collector 1st. Defendant, attached the Village without enquiry it is said on the solicitation of his Brother 2d. Defendant.

The Proceedings of the Collector appear to have been hasty and fraught with injury to Petitioner, if found in posſesion, he should have been left in undisturbed enjoyment; and 2d. Defendant should have been left to seek his remedy in the Courts of Justice.

As regards the question of adoption It is urged that Petitioner never was adopted, and that if the ceremony was gone through, it was illegal

illegal. It is not denied, however, that Paupamah before her death in 1816, if not before, declared and made known to the Public authorities, her adoption of Petitioner alleging that the adoption took place in 1814.

It is by no means clear that there was any thing irregular in the adoption or that it did not take place in 1814 in accordance with the instructions of Narasimharow the husband of Paupamah, and with the arzee of the latter to the Collector dated 4th. June of that year. This arzee does not appear to be open to suspicion. It is hardly worth while arguing the fact of Narasimmarows' permiſsion whether he did or did not give it. Paupamah's act after the grant of the Deed of the permanent property placing the Village at her absolute disposal as the only surviving relative of the deceased Proprietor / her husband / must be looked upon as an act of supererogation at least so far as the Petitioner's rightful succeſsion to the Village was dependant thereon.

The Hindoo Law Officer of the auxiliary Court admits that if Paupamah had not alleged the adoption, as the basis of the Petitioners' rights, her simple nomination of him would have been complete and Valid under the conditions of the Deed.

It.

It seems therefore contrary to common as well as reason and Justice, to suppose that Punpamah had not legal authority to appoint him heir and it unreasonable to denude Petitioner of his vested right succession derived from her on the supposition of incomplete or irrelevant adoption.-

It is quite possible that Punpamah may have been ignorant of the full extent of the p conferred on her by the Deed, but it would be foreign to the practice of a Court of Justice not make reasonable allowance, in favour of an illiterate female, who could only interpret the Law thro information or advice derived from others.

In short the question of adoption is of secondary importance and immaterial to the rightful claims of Petitioner, so fully Punpam died in the full possession of certain rights of own, based on the Deed of the permanent property granted by the Governor in Council sup ported by 30 years undisturbed enjoyment which Court of Justice can set aside, much less dictate the deliberate disposal of her property arrang ed, and publickly made known previous to her de

For the foregoing reasons I am of Opinion that the special appellant Joapully V. Narasumharow is entitled to the Village in dis pute with profits during the years of his dispossession and that he should be exonerated from all costs, the latter to be borne by special Respondents.

Opinion

Opinion of the Acting 2d. Judge.

The Plaintiff sued for the recovery of a Village called Chanoobundah, being part of the Chintalapoody Zemindary, also for the profits in fuslies 1236 and 1237. The original suit was heard before the Assistant Judge of Masulipatam, who nonsuited the Plaintiff. The suit was afterwards heard in appeal before the Provincial Court in the Northern Division who confirmed the original Decree. The Court of Sudr Udalut on an application for special Appeal admitted a third hearing on the grounds that they are "unable assuming the facts as stated in their Decrees to concur in the conclusions arrived at by the lower Courts and are of opinion as well on the grounds of error of Judgment as on account of certain legal and techenical objections to which they are open, this case merits the further deliberate consider= ation which this Court can give it."

"It is admitted on all hands that Pun= =pamah's right to Chanoobundah during her life time is not to be questioned. She died in 1836 having enjoyed and held possession of the Village in question by grant from the ruling authority from upwards of 30 years.-

To enable this Court then to decide whether the

the condition of the Cowle given to Pauparnah &c
without reservation intentionally or otherwise as &c
regards the reversion of the Village at her death &c
can be now contested, or whether it must not be held
as vesting her with absolute authority over its disposal
by gift or otherwise, and if so, whether the nomination
of the Petitioner as her heir can be legally disputed, &c
whether adopted or not adopted - The Court are of
opinion that it is their duty to admit a special &c
appeal 28th Ca. The 3d. Judge of this Court who ad=
=mitted the special appeal has recorded at length
in a Minute dated the 12th August, his reasons for
the opinion that the special appellant Joopully &c
Vencata Narasimmarow is entitled to the Village in
dispute with profits during the years of his dispos=
=session 26th Ca."-

In the Minute referred to, the 3d. Judge
states his opinion that "the question of adoption is one of &c
secondary importance and immaterial to the rightful claims
of the Petitioner - Joopully Pauparnah died in the full
possession of certain rights of her own based on the
deed of permanent property granted by the Governor in
Council, supported by 30 years undisturbed enjoyment &c
which no Court of Justice can set aside much less &c
disturb the deliberate disposal of her property, arranged
settled, and publickly made known previous &c to

to her death."-

In the Decree of the Assistant Judge, &c
which seems drawn up with considerable ability it is &c
observed, "The 1st. Dependant (the Collector) proceeds to shew
that the Village of Shanabundah was on the examin=
=nation of the Commissioners for fixing the permanent &c
Assessment found to be in the life enjoyment of the &c
Mother and widow of Narasimmarow at a reduced &c
rent and on their recommendation granted by permanent
Sunnud with this express reservation and understanding
that it was granted for life only at this reduced rent, &c
but, that the Mother dying, the widow received the &c
grant on the same understanding by order of Govern=
=ment - The answer goes on to shew the Plaintiff's &c
alleged adoption to have been illegal as not having
been made under the husband's directions and as &c
contrary to the Regulations and not having been &c
reported at the time to the Collector. The Arzee purport=
=ing to have been the report to the Collector being a spal=
=pable forgery introduced fraudulently into the Records.

Regarding the point of adoption, &c
after arguing against its having taken place the
Assistant Judge remarks. "It must also be
remarked that had there been any instructions
to pauparnah to adopt, the Statement in the

committee

Committee of Circuit and their final decision to re-
grant to Pauparnak and another female of their
family the life interest only in the Village of re-
Shanoolundah would hardly have been come to, a-
these conditions on which it was intended to make
the grant to these females and lastly to Paupa-
-mah only were repeatedly expressed during a period
of some years, and the omission of the Government
Officers to enter this stipulation in the Cowle may be
referred to this cause that the grant would of re-
necessity revert to the Estate of Chintalapoody on the
death of the grantee," again - In a place where false
evidence is adduced in almost every disputed case,"
evidence such as that adduced by the Plaintiff to
the point of Narsimmarow's having directed his re-
wife to adopt, is hardly worthy of much credit when
opposed to probability founded on the facts above
stated, "it is the opinion of the Acting Assistant
"Judge that the value of the probability exceeds the
"value of the testimony and that the latter re-
"must be set aside as false" on the subject of the
adoption the Appeal Court remarks - "The adop-
"tion of the Plaintiff is evidently a re-
"business got up between the Plaintiffs
"father and Pauparnah, and that from

"done by the desire of the deceased Narasimmarow, is re-
"evidently false or not one word of this (the adoption)
"was ever mentioned till 1814, 16 years after Narasimma-
"-row's death, had the order been given would this have
"been the case - decidedly not - Had that order to adopt
"existed would this Arzee of 1799 praying for the pos-
"-session of the Village ever have been written." This the
Plaintiff says was done against the will of the widow
and Mother from grief, this argument is a bare re-
faced falsehood, for nearly 12 Months had gone past
since the death of Narasimmarow - Had this adopt-
-ing order existed would the Plaintiff not when
they knew perfectly well that the Special Commissioners
had recommended their case to the Government and
that a life interest was all they were to have in the
Village, have then applied to the said Commissioners to
state to Government the order of Narasimmarow? There
is not the least appearance of truth that Narasimmarow
should have ordered his wives to adopt, for at the time
of his death they were only 20 years of age, and he a
Young man, his death a Sudder one of Jungle fever,
and it would be likely that he would adopt any
one's son when he had every prospect of a family of his
own &c. &c. "Therefore in my opinion the adoption by the widow

of

"of Narasimmarow was evidently her own act and ligis
"Hindoo Law illegal which of itself renders the whole co
"claim of appellant null and void, and on that alon
"I confirm the Assistant Judge's Decree". The questio
of adoption appears to me most satisfactorily dispos
of by the Decrees of the lower Courts - It remains t
consider the argument used by the 3d Judge of the
Court relating to the power of Panpamah to alienate
the Village to the Plaintiff under the Summud receive
by her - On this point I concur entirely in the reasoning
and in the fact found by the Provincial Court - "There is
"not the slightest doubt that P[illegible] had no co
"right to dispose of the Village, for it was only grante
"by the Zemindars to the Mother and widow of Nara
"simmarow as a life hold and to revert and be co
"annexed to their Zemindary at the death of the 2 co
"females so holding it, this was not only their agreement
"but the request of the females themselves; which request
"was recommended to the Board of Revenue and co
"Government, and their orders to that effect are as plain
"as can be that they confirmed the Zemindars grant and
"would give a Cowle to the effect - It is evident
"there was a Mistake in not entering for life only in
"the Cowle, but this appears to have been from an co
"oversight on the part of some of the Offices of Government - I

"I cannot see that the Village should be last to the co
"Zemindar after the death of Narasimma Row's widow
"by an oversight of any one &c&c." The documents which co
support these opinions are most of them recorded in the
Decree - It remains for me to express my opinion that co
the Plaintiff should be nonsuited with Costs - Having
given this opinion, I would observe that another co
objection would appear to exist to this suit, the object co
of it would seem to be to Establish the Plaintiff co
in all the right which belonged to the individual
by whose orders, it is alleged, he was adopted - It
is needless as to the full extent of these rights, but co
as they would seem to go beyond the property involved
in the present suit - It is a question whether a suit
if filed at all should not be filed for all the co
rights of an adopted son -

Opinion of the 1st Judge.

I concur most fully in the view taken by the co
lower Court of this case - The Decree of the Provincial co
Court must be affirmed -

With reference to the foregoing opinions the Court
of Sudder Udalut resolve to affirm the Decree of the co
Provincial Court, and they adjudge that the appellant do
pay all costs according to the foregoing Statement.

Translation of an Arzee Addressed to R. T. Porter Esqr. Collector in the Zillah of Masulipatam by Rajah Sooputty Vencata Raghavarow of Chanoobundah Wea. appertaining to Zummulvoy Purganah.

Notwithstanding the Eager and earnest desire of mine of submitting the circumstances of the injustice I had suffered from Rajah Sooranary Venkatapulty, now's having to the utmost prejudice of my interests taken possession of the Chintalapoody Estate which had been my hereditary property discended from long time from my ancestors to the favorable notice of the Circar and thereby to procure means of livelihood, I have hitherto been disappointed in so doing from the effects of the very adverse days from which I am destined to suffer, and which had never yet relieved me from the force of their influence, as well as from the severe illness with which I was laid up, not having left me upto this time. As all the people in general are enjoying a happy support under the judicious administration of the Honorable Government who is the Omniscient. I very respectfully beg leave to represent with the servant hope that you who are the supreme authority will, with a benevolent view of rescuing me from the present impending

impending Calamity, and the very keen distress I have been led to suffer, be graciously pleased to favour me with some means of sustenance.-

I therefore beg to solicit that you will be so kind as to recommend the circumstance of my present adversity to the favorable notice of the Honorable the Board of Revenue and obtain sanction for continuing to me either of the two following points - That the Honorable Government may until such time as I may be restored to perfect health and strength to conduct the Management of my affairs, be pleased to support me by ordering the continuance of the Monthly allowance to the extent at which it was formerly fixed to me by the Circar which I was under Minority, or by granting me the posession of my hereditary right of Chanoobundah Village including of the hamlets appertaining to it (now under Circar attachment) and which had lately been granted to and continued under the enjoyment of my aunt Paupunnatrow for her sustenance.

The Collector of Masulipatam has the honor in return to this Precept, to state that a Permanent Cowle was granted to Soopully Paupanahnow the Defendant in this suit for the Village of Chanoolendah, which was filed in the Auxiliary Court in Said A°. 29 of 1839 wherein Soopully Venkatanarsimhaw was Plaintiff and the late Collector of Masulipatam and Soopully Vencataraghavarow were Defendants

Regarding the 2d point, Verifying any reference was made to the Board of Revenue as alluded to in the late Collectors Petition to the Auxiliary Court dated 29th March 1819, the Collector has to state that it appears that the tenor of the Court's reply to the said Petition had then rendered it unnecessary

unnecessary for the late Collector to make the proposed reference to the Board—

Read Extra Petition N°. 123 of 1843 presented by Atmoory Seetiah Plaintiff in Suit N°. 167 of 1832 Auxiliary Court file—

The Petitioner refers to the Decree passed in his favor by the Pundit Sudr Ameen under date 30th October 1833 which adjudges the sum of Rupees 1328 3 1 as & to be made good to him by the Defendant, and States that the Court on his application by Miscellaneous Petition N°. 15 of 1834 issued a warrant against the Defendant, Collected the Sum of Rupees 205 1 1 from the Defendant

Defendant personal property and paid to him the balance being Rupees 197-1-0 as prayed for in his petition No 265 of 1835 after deducting the sum of Rupees 8-0-0 to be paid to the peons on Account of their bat that the Defendants Zemindary Estate, calle Chanoobundah having been attached his proposal for realizing the residue as the Defendant entered into Compromise w him and they both presented petitions in No 93 and 94 of 1836 in the former of whic the Defendant was Conditioned to make g the balance due being Rupees 1,266-1-7 a three instalments and solicited the releas of her said Zemindary Estate from sequestra that the Court thereupon was pleased to issue a Precept to that effect, that the Defendant shortly after this died, that one Joopilly Vencatanursimha Row alledging himself to be the adopted son of the decease instituted a regular suit in No 224 of 1839 to gain the possession of the deceased Esta that the (petitioner) having found no per son entitled to satisfy his debt moved the Court by Miscellaneous petition No 2 of 1839 to address the Collector to remit the

the funds which may remain in his treasury on account of the said Estate for its being paid to petitioner under his debt, and to sell the Zemindary for realizing the balance, that the Court Consequent on the above petition called upon the Collector by a notice to state if there are any objections against the Zemindary Estate being made available under his claim that the Collector in answer to it put in a Miscellaneous Petition No 282 of 1839 Expressing his doubts in causing that Village to be sold under the loans contracted by the deceased Defendant since it seems from the former records that the deceased had only a life interest to that estate, and that the legal heirs to the deceased have not been yet recognized because the Suit No 224 of 1839 claiming the succession of inheritance to the Estate is not decided, that the Court held proceedings thereupon observing that the Village cannot be sold unless the Petitioner shall adduce proof to the Estate in question being made available under his claim that he could not have advanced proof because the suit instituted for determining the lawful heir was decided by the Provincial

To the Offg Chief Secy to Government

Submitting letter from the Collector of Masulipatam requesting instructions for the disposal of the Village of Chanoobundah & recommending the grant of a pension to I Rugava Row Ex Zemindar of Chintalapoody of which the last of the Villages was a dependency on the circumstances under which the rights to the Village were disputed observing that the effect of the judgment of the Sudr Udalut establishes the right of Govt to the Village & supporting the Collectors recommendation to allow the Ex Zemindar of Chintalapoody Rs. 30 per mensem being the pension to which he was entitled

Sir

I am directed by the Board of Revenue to submit for the orders of the Hon'ble the Governor in Council the accompanying letter dated 17th February 1848 from the Collector of Masulipatam requesting instructions in regard to the disposal of the Village of Chanoobundah, and recommending the grant of a Pension to I Rugava Row Ex Zemindar of Chintalapoody

2 The Chanoobundah Village has already formed the subject of the correspondence with Government noted in the Margin. It was a dependency of the Chintalapoody estate and at the time of the Permanent settlement was conferred on favorable tenure upon some female relatives of a former Zemindar for their lives. Paupamah the last of these parties died towards the close of 1836 and the Village at the time of her decease was under the management of the Officers of Government (in whose charge it has since remained) having been attached by order of Court on the 17th June 1838. about two years

withdrawn from him by the zemindar of Mylaveram in the purchase of Chintalapoody by Govt for arrears of Revenue considering that all the surplus revenues which may have accumulated since the death of Runpamah in 1830 should be carried to the credit of Government.

years previous to the demise of Runpamah, the estate of Chintalapoody had also fallen under award of Court, from its proprietor Rajah Sooputty Venkatarazu to Sooputty Row the Mylaveram Zemindar. It however the Chanoobundah Village formed part of the Chintalapoody property as purchased by Venkatapatty Row, it was considered by the Board in their Proceedings of 3d April 1837 that the death of the last life grantee Runpamah had become a lapse to Government, but under all the circumstances they were induced to recommend its being conferred on full assessment on the Exe Zemindar of Chintalapoody Rajah Sooputty Venkatarazu Row. Whilst the question was however under consideration, Sooputty Venkata Narsimma Row, nephew of Runpamah and brother of the Exe Zemindar, brought an action against his brother and the Collector of the District for the recovery of Chanoobundah which he asserted had been granted to his aunt in perpetuity and had descended from her to himself as her adopted heir. The question after becoming successively the subject of an original suit, an appeal and a Special appeal, has lately been decided by the Court of Sudder Dewanny Adawlut, who have confirmed the Decrees of the lower Courts in rejection of the Plaintiffs claim. The effect of this judgment is to establish the right of Government to the Village as against all parties claiming thro Runpamah, and their title would be equally valid tho Chanoobundah be considered to have lapsed with the rest of the Chintalapoody estate to Venkatapatty Row the Zemindar of Mylaveram, inasmuch as that estate was sold for arrears of revenue and purchased on account of Government on the 10th March 1848.

Vide from Coll Nr 5 in Cons 15 February 1849 & 13 April in Cons 21 May 1849

3 The Collector of Masulipatam now represents that the Exe Zemindar of Chintalapoody is a cripple, having lost the use of his legs and is in extreme distress, the small allowance of 30 Rupees per Mensem made to him by the Mylaveram zemindar during the latter's late possession of Chintalapoody having been withdrawn since the sale of that estate and Mr Porter recommends that if it be not thought advisable to admit his claim to Chanoobundah, the provision granted to him by the Mylaveram zemindar be continued to him for his life. The Board are not, under all the circumstances, disposed to adhere to their former recommendation in favor of Sooputty Venkatarazu as contained in their Proceedings of 3d April 1837, but they beg to support

support the Collectors proposal respecting the allowance to be granted to him, and that a Pension of 30 Rupees per mensem be settled upon him for life, and be paid to him in arrears from the sale of the Chintalapody Estate.

P 5 4 The Collector has further stated copies of precepts addressed to the Officer in charge of the Masulipatam District Court of that Station, requiring the payment of Rupees 1366-1-7 in satisfaction of Decree passed against the late Pursuma

P 2 from the proceeds of the chanchundah Villages it appears now amount to Rupees 2725-11-0. There would seem to be no objection to the payment into the Court on behalf of Pursumah Cudah of any surplus which may have accrued since the date of the attachment of the Villages on the 17th June 1835 and the death of the grantee in 1837, but it is very doubtful whether there can have been any surplus within that period, as at the time when Chanchundah was sequestrated there were arrears of Public revenue outstanding against it to the amount of Rupees 1.51-11-6 all of which may have accumulated since the Decease of Pursumah is the property of Government and will be carried to the Public account.

Proceedings Reviewing the report of the Collector of Cuddapah on the management of the Extra Sources of Revenue in that District in Fasly 1256

The gross Demand for the year under report on the four items composing the Extra Sources of Revenue in the District of Cuddapah amounted to Rupees 285543-9-4 which exceeded by Rupees 1814-12-4 the demand of the preceedings Fasly, the result of an increase from the Abkarry and Motunpha branches of Rupees 3230-4-4 and a decrease from the remaining items of Sundry Small Farms and Licenses and Stamps of Rupees 2215-4-4.

2 The excess obtained from the Abkarry amounted to Rupees 2541-

Excess — 2541-0

1256 Fasly 25-2-48 to 24-2-49

owing to the advanced rate at which the rents were concluded compared with the previous year. The whole of the demand is represented as having been collected within or shortly after the close of the Fasly with the exception of Rupees 200, the amount of deposit made by the renter which was plundered by the rebels in their attack on the Coiltontla Treasury. The Board beg to recommend that the sanction of Government may, under this explanation, be granted for the remission of that sum.

Sundry Small Farms & Licenses Demand —
1255 1870-6-6
56 1538-2-2
1172-4-4

There was a decrease of Rupees 3 1172-4-4 under this head which appears to have been in great measure caused by the recent disturbances in certain parts of the district as well as by the unfavourable character of the season for certain products subject to this tax. The Board observe that with a trifling exception the whole of the Current Demand has been realized.

Motunpha Demand
1255 — 1164-1-3-5
56 — 1471-0-1-3-9

In the Veesabady or tax on profits of trade there appears an increase of 4 Rs. 3-10-6. and in the Bagur Veesabady or tax on Looms &c.a the excess was Rupees 446-5-10 giving a net increase of 690-4-4 for the year under report, which is considered satisfactory as indicative of improvement in the trade and.

and manufactures of the Districts

5 The Stamp Revenue was less productive than in the previous Fasly by Rupees 1043-4-4 There appears under this head an item of 4 annas which the Collector requests may be written off as also having been plundered from the local Treasury in the late outbreak.

6 Exclusive of this item and the sum of Rupees 200 on account of which the Collector has submitted his recommendation for the remission of Rupees 284-12-9 being the aggregate amount of arrears due since Fasly 1254, and under the full explanation furnished by him in paras 17 and 18 of the report the Board beg that the usual sanction of Government may be granted for clearing the amount of those irrecoverable items. The total remission for which the Board now request the sanction of Government amount to Rupees 485-9-

Total.

7 Including current Extra Collections and arrears the total receipts realized within the year amounted to Rupees 283/62-12-4 from which being deducted the annual charges Viz 1012-4-8 which are usual and nearly corresponding in amount with those of the preceding year, the Net Revenue was fixed at Rupees

Rupees 282/50-7-4 which thus presented a falling off of Rupees 1,082-9-1 below the Net Revenue of 1235 which in that year reached the sum of Rupees 286/13-1-5.

Ordered that a Copy of the foregoing Extract from the Board's Proceedings with the annexed Comparative Statement of the Collectors charges and the Net Revenue be submitted to Government and a transcript of the same be forwarded to the Collector of Cuddapah for his information and guidance.

This includes all lands which as being under the influence of his works it is understood to be his intention to bring under irrigation more or less perfectly. The extent of his Actual Cultivation either wet or dry must depend of course on the ultimate success of his works the Seasons and other contingencies. It is understood that in average years his supply of water would not be nearly sufficient for the Cultivation of the whole as Nujjah.

6. As regards the lands to be effected by Mr. Graves prospective plans, from a letter herewith transmitted it appears that he has no general plan for extending the irrigation to other lands than those above referred to. He states that there are not more than 15 or 20 Cawnies of land in his farm which he could expect to add to the above by cancelling you much of which is uncertain depending on the sufficiency of his supply of water yet. He has "no intention of cultivating more land than he now holds

7. Mr. Groves has explained that by the lands alluded to as likely to derive benefit from his tank he refers not only to those between his lands and the Adekarry yaree where the Kunjah cultivation has been extended from the increased supply of water escaping from his tank but also to the lands under the Adekarry tank and the Gunganary and Cuttamunjy tanks to which a branch channel has been almost completed, but has been delayed in consequence of the reduction in the Number and withdrawal of the convicts employed on it, from their services being required elsewhere. The work has been inspected by the Engineer of the Division and there is no doubt of its perfectly succeeding. The land under these three tanks is Cs. 200 - 7 as assessed at Pags. of which on the average of the last ten years

up to Fasly 1256 Cs. 153 - 7 5/8 have been Cultivated paying a Teerwah of Pagodas 652 - 14 3/8 so that by improving the supply of water additional land may be brought under Cultivation besides the increase which may be obtained from the Cultivation of a Second Crop - I concur also with Mr. Groves in thinking the irrigation might be still further extended in the same direction by raising the bund of the Gunganary tank and other works which he has referred to -

8. It will be observed that by the Orders under which Mr. Groves has hitherto held his lands, though something has been conceded from the usual teerwah, the actual demand has been considerably increased above what the land had ever yielded before - The water has been procured at an outlay of above 38,000 Rupees and he now claims therefore that the teerwah may be settled on such terms as may allow him some remuneration from his improvements -

Mr. Groves claimed to be permitted to hold his lands subject to the teerwah as settled in the order noted in the Margin for the lands therein referred to but without any additional charge on account of his future improvements thereon and with liberty also to distribute the water "differently" that is to other lands forming part of his present Estate on payment of the present Poonjah Assessment only 10- It is not in my power to shew the exact Amount which would be paid on the land under this arrangement as it must fluctuate in part, according to the supply of water and the extent of land which the season may enable him to Cultivate either under irrigation or otherwise. The average of the Collections for the 10 years preceding Mr. Groves's improvements will be observed from the statement now submitted amounted to the

To

Acting Collector of
North Arcot.

Sir,

I have the honor to acknowledge the receipt of your communication of the 27th December and beg to return the following replies.

Para. 1. The Map required shall be at your disposal. In

Para. 2. reply to the request to have pointed out, the lands to be affected by my prospective plans I would observe that I have no general plans of extension, beyond what is now in the accompanying map marked Noonjah. The utmost I expect to add to this class does not exceed from 15 to 20 Cawnies in different parts of the farm, by lowering some land, and raising the water yet farther, but much even of this is uncertain, depending on whether the water can will be adequate or the ground pay for levelling. In the completion of my present system of irrigation, and increasing my command of water, I have no intention of cultivating more land than I now hold, indeed the river, high rocky land, and Marnoob Nooniya, supplied by Circan water, now enclose me on every side.

All my future plans have reference to the

more effectual cultivation of what I already hold, but to which the water is very inadequate in ordinary years.

2nd[ly].

With reference to my last application to the Board to be allowed to remove the Nullah water from that portion of the land in the accompanying Map marked green, it will be perhaps generally applied to those portions marked red, lying either along the Nullah, or commanded by it; but with the clear understanding that should I find it as desirable differently to distribute it, I should be allowed to do it.

3rd[ly].

As to the land that is likely to be benefitted by my tanks and Nullah but not in my profession, I would say generally that annual Nanja cultivation has been greatly extended between my grounds and the top of the Athecarayaree tank, from the quantity of drainage water that escapes from my tank. But I had special reference to the immense supply of water, made available to circar use, and which I have put at its disposal after having brought it from the river nearly 2 Miles at my own expense, as soon as my tanks are filled; which

which is generally after 5 or 6 days water on in the river. To appropriate this water and render it available to get further distribution, you have cut the new Nullah into the Genganary Tank, marked in the large Map. By this the certainty of annual adequate supplies of water for the cultivation under this Tank will be quadrupled, and the actual cubic contents of the Tank itself by raising the bund can at a very small expense be doubled, the fall into it from the new Nullah being upwards of 10 feet; the site of the present bund is one of immense strength naturally, being situated between two hills of rock, and built upon a rocky ledge running across and connecting those hills together and being close to the Jail might be done by the convicts at little expense to Government. Besides this tank the athecariary tanks and Cutmunchee receive the surplus water, and the level will allow of it being carried as far as the Velcoor Tank, and I believe one or two others, that Mr Goldingham once contemplated improving from the cutmunchee water which escapes over the calingula.

As to the annual accounts

of expenditure I am sorry it is not in my power to furnish them. When Mr. Babington received from me a general Statement of what it had then cost me, I found it above 30,000 Rupees, this sum I had expended on my large tank and two small ones, cutting my Nullah and levelling my farm, so that it might be adapted to irrigation, and dividing it into beds of which 10 made a cawnie, since I have widened my Nullah from 10 to 15 feet, raised and strengthened the banks, built my pannicul, raised the Tank bank 2 feet, and levelled a large quantity more land for irrigation, these with a multitude of [illegible] expences that I could neither remember or enumerate have cost me more than 8000 Rupees more. Besides these past expenses, as from the effect of the annicut I can bring in my water one yard higher into the Tank, to take advantage of this, one yard more must be

be added to the height, with proportionate increase of width, and stoning, raising my Nullah banks and levelling other remaining ground to meet the increased elevation of the water. The whole of these will not be accomplished at less than 8 or 10,000 Rupees more, so that when the whole is complete it will have cost me between 45 and 50,000 Rupees irrespective of interest and last year was the first year the current expences of working the farm and Rists, were covered by the grounds of the farm, leaving all profit out of the question. I may also add that I have purchased a very large proportion of all the land I now hold, from the ryots at the rate of 12 Rupees a Cawnie for Poonja, and 16 Rupees for Neenja, which though they never cultivated above once in 3 or 4 years, they still held the puttah right over, this also I have not charged in my estimate of expenses. In the course of this large expenditure I have received, (as I have asked) nothing from Government, neither in any case have I asked Government, to submit to a temporary diminution of its revenue, for an eventual advantage, their present Rists from the

Memorandum Requiring explanation regarding the lands held by Mr. Groves in the Chittoor District.

Explanation

1. Sketch of Mr. Groves land must be prepared specifying the boundaries of the Six Villages distinguishing the cultivation of Mr. Groves as well as other Ryots and the waste lands. The number, the extent of the land, the Assessment of each field of Poonjah Nunjah, Totacal Lands cultivated by Mr. Groves and other Ryots as well as waste lands, the former means of irrigation for the Nunjah and Totacal lands, whether Tank or Nullah, those newly constructed by Mr. Groves as well as the improvements made by Mr. Groves, distinguishing the land applied for by him in 1840. and those applied for in 1847 as well as those now applied for and those to be

be applied for hereafter should be specified in the Sketch.

2. On a perusal of the Statement forwarded by the Collector it appears that Mr. Groves had cultivated Poovashee on the Poonjah lands by the irrigation of private Wells, Circar Nullah, Jadayen Tank Jadayen channel and his Dasavendum Hijsah Channel and paid Teerwah in the same terms as other Ryots, and also for the cultivation of Nunjah on Poonjah lands by the above irrigation, he appears to have paid for a portion of it, the usual full teerwah, and for a portion he paid Poonjah and Poonapsee Teerwah and the sanction for the same has not been exhibited which should be explained.

2. This information will be found in Column 15 of the Statement.

3. In the Dymash Nunjah lands Mr. Groves appears to have cultivated Nunjah Crops by the irrigation of private

private wells, Pully Channel and Jadayen Channel, and paid full Teerwah in the same terms as other ryots, and for a portion of Nunjah land about 8c 11½as cultivated as Nunjah by the irrigation of Jadayen Channel he paid Poonjah teerwah for which the Sanction of 17th. December 1840 is quoted.- The extent of land then applied for, the terms upon which it was sanctioned, whether the same has been carried into force in full or not. should be explained.- In the 4th. para of Mr. Babington's letter to the Board dated 14th. June 1844 it is stated that Mr. Groves had Cultivated Nunjah lands in Fusly 1253 under the Jadayen Tank to the extent of Cawnies 16—2d— and from the same irrigation about 27c—11as— of Poonjah lands as Nunjah &ca. The highest Cultivation in the last 10 Years before Fusly 1250 was 8c—12½as for which the usual Nunjah teerwah was

3. This information will be found in the Statement in Column 13 The quantity of land is 10 C. 3 2/2 As. of which Mr. Groves pays the Poonjah teerwah and on so much only as may be cultivated according to the terms granted him.

4 The total quantity of land entered in Mr. Babington's statement was as here stated, Cs. 10. 3. There was afterwards found to be some other land yielding nothing, there being no other means of bringing it under

was to be paid and for the remainder of the land Cultivated the Poonjah & Poonjah Poovaysee teerwah should be paid. In the Statement now submitted the Cultivation does not correspond with that in the Statement sent by Mr. Babington in Fusly 1253. and does not appear to be in accordance with the proposal.- In the above Nunjah lands Mr. Groves appears to have Cultivated by means of private Wells Nunjah Crops in Fuslies 1251. 52. and 53 and paid Poonjah teerwah and since the Cultivation appears to have been discontinued, this should be explained.

under Cultivation, to which therefore the Boards orders appeared equally applicable and Mr. Groves was permitted to hold it on the same terms as shewn in the Statement submitted with the Tannah Cundy report for Fuslies 1255 and 1256. Para 2d. Do. 28

5. That is the lands held under sanction dated 17th. December 1840. See remark No. 3.

4 In the Bymash Nunjah lands Mr. Groves Cultivated Nunjah Crops by the irrigation of Jadien Tank and Channel and paid

but Mr. Groves obtained actual possession of b. 15¼ only, & 3¾ being still held by the Ryots.

paid Poonjah and Poonjah Poonasee teerwah. For the lands cultivated by means of the channel the sanction of Government dated 29th. March 1847 is quoted. In the sanction it is stated that for the 2c — 8as 3/4 of land whether cultivated or not the Poonjah and Poonjah Poonasee teerwah should be paid and in the Statement 1c — 10 1/2 is only exhibited, this should be explained. Under the Sadayen Tank 13cs — 5 1/2 Rds is Cultivated, this should be explained.

5. It appears Mr. Groves from fusly 1253 had Cultivated Nunjah &c. Crops by the irrigation of the Tank and Channel and paid teerwah in the same terms as other Ryots according to the practice of the District, but for the private wells he paid Poonjah teerwah; from Fusly 1253. he abandoned the Cultivation by means of private wells but — Cultivated

For some of them the Sanction is — quoted and for others it is not. A Memorandum in Marratta and English should be sent in detail of the points, together — with a sketch as well as Statement. The

8. The Poonjah — Teerwah is charged under the orders of the 17th. Dec. 1840. The Poonjah Poonasee under the orders of the 25th. July 1844 and 29 March 1847. See the foregoing remarks 3—4 and 6. and Column 11—13—and 15 of the Statement No. 1.

Proceedings thereon- In Bd. 29 March 1847.

Relative to previous grant to Mr. N. N. Groves certain land in Chittoor in North Arcot for a number of years on favorable terms and to his request to solicitation to hold a larger esctent than Cawnies at present his occupation at fixed annual rent of 70 Pagodas with liberty to employ resources of farm in the way he may consider most conducive to his own interest and recommending a grant of a sunnud for the same on the same terms specified to continue in force for 30 years

On the 20th March 1847 Government were pleased on the recommendation of the Board of Revenue to sanction the grant of a favorable lease for 30 years of certain land at Chittoor to Mr. N. N. Groves of that place.-

2. Mr. Groves is in the occupation of a large esctent of land at Chittoor, a portion only of which was included in the lease above mentioned, and in consequence of a want of precision in specifying the nature and esctent of his undertaking, the Amount of the indulgence for which authority was granted fell short of the objects which he had in view in making the application.-

Accordingly a farther correspondence took place with the Collector in the course of which the Board directed an accurate plans of the whole area of his Farm to be prepared in accordance with the Survey Accounts. During the enquiries which were thus rendered necessary Mr. Groves was led to modify the form of his original proposal with reference to which and to the more correct information now before them the Board desire

4. About the year 1837 Mr. Groves occupied a small portion of old double Crop Nunjah land in the immediate neighbourhood of his residence, for the due cultivation of which the means of irrigation no longer existed and it had long been used partly as a brick field, partly for dry cultivation. This he levelled and irrigated by means of Wells and other new works which led to the re-imposition of the old wet rates. In 1840 he appealed to the Board for relief from this demand, following up his application by a second offering to take all the land under a neighbouring Tank called the Jedandiry, part of which was likewise old Nunjah and had been thrown out of cultivation owing to the deteriorated condition of the Tank. The Board on the 17th December 1840 agreed to his proposition in both cases which provided that he should pay the usual wet assessment for all the land which had previously been supplied with water from the existing sources of irrigation and that the remaining dry land or such portion of it as was brought under the influence of irrigation at his expence should only pay the usual dry rates with the small additional demand which under the term Poonjey Poovasee is levied on

on dry Crops to which water may be occasionally supplied. These orders were not however carried out during the 3 years following, tho' Mr. Groves believed that he had been admitted to the benefit of them in being charged at single Crop rates for his Mulberry plantations which by the Dookumnamah were not liable to more, until he came to plant Mauritius Sugar Cane which like the Country Cane was looked upon as a double Crop and was charged accordingly. In the meantime however trusting to the principle recognized in the Board's orders of 17th December 1840 he had proceeded with his improvements, buying up the Puttahs of all the Ryots round about, raising the bund of the Tank, forming a new head to the supplying Channel which gave a level 6 feet higher than the former one, and forming a new series of Minor Channels for carrying the water to all parts of the farm.-

5. Mr. Groves's object in these improvements was to employ the water in the manner most advantageous to himself without observing the old arrangement of Wet and dry Cultivation by directing his exertions rather to the cultivation of products which tho' benefitted by partial irrigation yet would not suffer from its occasional suspension. With these views he again protested

=sideration of Government.-

4- About the year 1837, Mr. Groves occupied a small portion of old double Crop Nunjah land in the immediate neighbourhood of his residence, for the due cultivation of which the means of irrigation no longer existed and it had long been used partly as a brick field, partly for dry cultivation. This he levelled and irrigated by means of Wells and other new works which led to the re-imposition of the old wet rates. In 1840 he appealed to the Board for relief from this demand, following up his application by a second, offering to take all the land under a neighbouring Tank called the Jedandairy, part of which was likewise old Nunjah and had been thrown out of cultivation owing to the deteriorated condition of the Tank. The Board on the 17th December 1840 agreed to his proposition in both cases which provided that he should pay the usual wet assessment for all the land which had previously been supplied with water from the existing sources of irrigation and that the remaining dry land or such portion of it as was brought under the influence of irrigation at his expence should only pay the usual dry rates with the small additional demand which under the term Poonjey Poovasee is levied on

on dry Crops to which water may be occasionally supplied. These orders were not however carried out during the 3 years following, tho' Mr. Groves believed that he had been admitted to the benefit of them in being charged at single crop rates for his Mulberry plantations which by the Dookumnamah were not liable to more, until he came to plant Mauritius Sugar Cane which like the Country Cane was looked upon as a double Crop and was charged accordingly. In the meantime however trusting to the principle recognized in the Board's orders of 17th December 1840 he had proceeded with his improvements, buying up the Puttahs of all the Ryots round about, raising the bund of the Tank, forming a new head to the supplying Channel which gave a level 6 feet higher than the former one, and forming a new series of Minor Channels for carrying the water to all parts of the farm.-

5- Mr. Groves's object in these improve=
=ments was to employ the water in the manner most advantageous to himself without observing the old arrangement of Wet and dry Cultivation by directing his exertions rather to the cultivation of products which tho' benefitted by partial irrigation yet would not suffer from its occa=
=sional suspension. With these views, he again protested

Against

against the enhancement of the rates on his improved Sugar land, but he engaged to pay the largest amount of Net Tax that had been collected on any part of the land during the previous 10 years and the usual dry assessment for all the rest, a great part of which had hitherto been waste. The Board considering these terms to be fair and advantageous both to the individual and the Government acceded to them under date 25th July 1846 as a temporary arrangement for that year only, but desired the Collector to bring them to notice in his Settlement report that they might receive the Sanction of Government. This however was overlooked and they have been enjoyed on the same footing ever since till attention was again called to the subject by Mr. Grove's third application for an extension of similar terms to the land under the influence of the improved supplying Channel of the Jedandiky tank.

Vide from Jt. Coll. 14th June in con. 4th July 1846.

Vide from Jt. Coll. 22d September in con. 8th Oct. 1846.

The latter request as above stated received the sanction of Government on the 20th March 1847 but in terms which restricted the privilege of employing the water to a small portion of the land only and thus rendered nugatory his main object of distributing it without restriction to all the land within its reach.—

In Con. 29th March 1847

b. The particulars of the land now in the occupation of Mr. Grove as held under the several

several orders of the 17th December 1840, 25th July 1844, and 29th March 1847 are exhibited in the following Abstract Statement and in the plan received from the Collector, from which a Statement of the different Nos. according to the survey Accounts has been prepared, forming the Inclosure marked A, an examination of which will explain clearly all the details of Mr. Grove's past and present proposals.—

7- From the above it will be seen that Mr. Groves has undertaken the cultivation of 24 Cawnies of land situated in Six Villages and irrigated by means of three tanks and a river Channel in which he has effected improvements that consiederably increase the supply of available water.- Mr. Groves states that he has laid out about 30,000 Rupees on this speculation, but this would seem to refer to the undertakings in which he has engaged generally, comprising the expenditure on a Silk manufactory since discontinued and other items, not referrible to the project immediately under consideration. The improvements of the irrigation alone have, it is understood, entailed an outlay of about 8000 Rupees.- To admit of his obtaining a return from these, Mr. Groves now prays for the grant of a favorable lease for a term of years which instead of being founded on the detailed considerations embraced by his former propositions, he begs may be confined to a general lease of the whole extent at present in his occupation, on a fixed annual rent of 250 Pagodas, with liberty to employ the resources of the farm in the way he may consider most conducive to his own interests.- The

Fort St. George 3d. April 1848.-

8- The Board are of opinion that these terms are reasonable and accordingly beg to recommend the grant of a Cowle for the lands in the Six Villages detailed in the above Statement to continue in force for 30 years on the payment of 250 Pagodas per Annum. This Amount it will be seen falls short of the last years Settlement of the lands in question by 12½ Pagodas - and only slightly exceeds the average of the last four years, but considering that before their occupation by Mr. Groves they yielded a revenue of as Rs 122 - 5 14/16 only and that they have been raised to their present value by the improvements already effected by him, the indulgence proposed to be granted seems by no means excessive.-

Ordered that a Copy of the foregoing Extract from the Board's Proceedings be submitted to Government and a transcript of the same be forwarded to the Acting Collector of North Arcot for his information and guidance.-

Mr. Enslow sent orders on the 5th of september 1846 to dismiss him and an endorsement to that effect was given on his petition which accompanied the Board's Endorsement No. 720 of 1847 — as however the man has been deprived of employ for 18 months I see no objection to re-employ the man, warning him against any repetition of his custom of getting intoxicated.

you will bring to the notice of the Board that Avadyah Pillay alias Appoo Pillay one of the late Trustees of the Sembuswarum Pagoda has filed a suit on the equity side of the Supreme Court at Madras against me, supposed to be for my having deprived him of that duty. It not being probably deemed advisable to record at the same time that such could only be the act of the community and as such I had no authority to refuse to prevent it. It is not my purpose nor indeed in my power to lay before the Board the precise nature of the Proceedings I intend to adopt until at least I have received a Copy of the Plaint which I have taken means to procure and on its receipt will again address you on the subject. The object of my present communication is to solicit the permission of the Board to make use of such documents or papers on the records of this Office bearing on the subject as I may deem necessary for defending the suit above referred to, but which without their knowledge or permission I should not consider myself at liberty to copy or make generally public Though there is not a single paper which may not be so treated.

Ordered that the following letter be sent in consequence.

To The Officiating Chief Secretary to Government.

Sir, I am directed by the Board of Revenue to forward for the purpose of its being laid before the Honorable the Governor in Council the accompanying letter dated the 30th ultimo from the acting Collector of Trichinopoly reporting the institution of a Suit on the Equity side of the Supreme Court against himself by Avadya Pillay alias Appoo Pillay one of the late Trustees of the Sembooswaram Pagoda at Trichinopoly.

2. As the acting Collector has not yet been furnished with Copy of the Plaint which has been filed in the case, the cause of action can only be conjectured. There can be little doubt however that the Suit has been brought on account of the alleged interference of the acting Collector in the affairs of the Pagoda of which Appoo Pillay was formerly Trustee, and of the removal of that party from his Trusteeship. a complaint against the acting Collector on these grounds was presented to the Board by Appoo Pillay in October last, but as

From actg Coll.r 30th Dec.r 1847 to Coll.r 27th Janry 1848.

as it appeared from the report of that Office that the removal of the complainant from his Trusteeship had been the act of the community interested in the Pagoda, in which the acting Collector had taken no part, having confined himself in his capacity of Magistrate to such measures as seemed to be required for the preservation of the public peace, the Board did not consider their interposition to be called for and they therefore passed an endorsement upon appas Pillay's Petition declining to interfere.

3. The Board have directed the acting Collector to transmit to them copy of the Plaint as soon as he may receive it, accompanying it with such explanation as the allegations made in it may seem to require, and they have desired him not to take any steps in the case, nor to make use of any public papers pending the receipt of their instructions. They will forward to Government the further communication expected from him as soon as it shall have reached this Office, meanwhile they think it proper at once to submit his letter now before them with the report already referred to in view to the adoption of such measures as may appear to be necessary.

With reference to your letter under

under date the 24th April last, I have the honor to acquaint you that I submitted to the Board of Revenue the whole of the correspondence relative to the non-execution of the assessment in question by Vullearnah, I beg leave to subjoin Copy of their reply under date the 17th Ultimo, and to state that, having made further enquiry, and exerted my best endeavours to ascertain where Vullearnah could be found, I have been unable to discover any trace of her. I am, therefore, now induced to apply to you for a fresh Conveyance for the the transfer of 2/3ds of the property, or such portions of it as the parties who have already signed the Deed are entitled to make over to Government.

2. It will be seen by Para 3 of their present letter, that the Board observe that it does not appear to them how the share of Vullearnah is equal to one third of the whole Estate. The original Deed prepared by you and signed by the other parties is returned herewith.

Sir,

With reference to Para 2 of your letter to my address noted in the margin, and the letter from the Board of Revenue there referred to, I am requested by Mr. Advocate General to state that he treated the share of Vellee Ummah as equal to one third of the whole Estate, from understanding that Chinna Pounapah Moodelly the Intestate left no son, but one widow and two daughters, of whom Vellee Ummah is one; and he conceived that, on the death of Chinna Pounapah Moodelly, the widow and two daughters took the whole Estate in equal shares and proportions. He would, however, feel much obliged by the Board stating, for his guidance & consideration, their opinion as to the parties who became entitled to the Estate on the death of Chinna Pounapah Moodelly, and to what share or proportion of the Estate each of those parties were entitled.

2. In reply I have to inform that if, as would appear, Chinna Pounapah Moodely dying intestate left no son, but one widow and two daughters, the Board presume that the Advocate General is correct in supposing that those three parties would take the whole Estate of the deceased in equal proportions, and that the share of Vellee Ummal would consequently be one third. The Board request that you will satisfy yourself in respect to the family left by C. Pounapah Moodely and if it be as stated, that you will obtain from the Law Officers of Government a Conveyance of two thirds of the property tendered in security from the Quit rent Canoopilly, and will have it executed by the Widow and daughter
