Pd43 Fort St. George 4th May 1848.—

Read the following letter

To T. Pycroft Esqre

Secretary to the
Board of Revenue.—

(25)

From the Ag. Collr of North arcot ——— Para 1

Sir, Fort St. George

I have the honor to acknow-

Proposes that the rent of Paupumcoopum Village may be now fixed for ten years commencing with the present Fasly at Rs 9-7-2 under the circumstances set forth and submits there Statements with Petition No 1713 of 847.—

No 1713 of 1847 Inclosed petition

-ledge the receipt of the Board's Proceedings requiring further information regarding the revenues of the Villages of Paupumcoopum in the Satwaid Talook with reference to the petition of the late renter for a renewal of his lease.—

2. The Board observe when the Village was granted in 1820 it was assessed not according to Mr. Grames rates of 1816 but agreeably to those fixed by Mr. Hepburn in 1806 and require therefore to be informed whether Mr. Grames settlement was ever introduced and to be furnished with an account of the Collections made by the renter and those made since its resumption and also to be informed of the rates of assessment obtaining generally in Satwaid Talook and especially in the Villages adjoining Pau-
-pumcoopum.—

3. Mr. Grames would appear to have made his assessment with a view to the introduction of the individual settlement but

when

Fort St. George 4th May 1848.—

when it was proposed to grant the Villag
on lease to have referred to the Cowle s
-tlement of Mr. Hepburn as that und
which the Village had before been held
and as the Village from the time of M
Groanies settlement has always continue
under rent his rates were not introduced
until it became necessary to settle with
the ryots individually on the expiratio
of the lease on Fusly 1255.—

4. The Jearnams of the Villag
having been called upon for an accoun
of the Collections of the renter during th
last 25 years has prepared it according
to Mr. Hepburn's settlement supposing
therefore this account to be correct the
worst land would appear to have been
to the ryots at the same average rent a
the best which appears altogether improba
and the account thus corresponds exactly w
the Statement /No. 2/ of lands cultivat
submitted in my former letter.—

5. A Statement shewing
rates of assessment prevailing in the
-lages adjoining Paapancoopum and
another shewing those prevailing in
other Villages of the Sutwaid Talo
enclosed.—

No. 1

*24th September 1847.

No. 2.

No. 3

Fort St. George 4th May 1848.—

6. The Demand Collection and
Balance for the only fusly 1256 since the expira
-tion of the lease, is shewn below.—

	Demand	Collection	Balance
	Rs A P	Rs A P	Rs A P
Fusly 1256.———	1658 . 8	1372 15	285 1 8

The Petitioner now begs for a renewal of
the lease on a rent of Rupees 919-7-2 — is
the average of his Collections during the 25
years of his lease. This would be an increase
of Rupees 234-2-7- on his former rent and
would at the same time leave him a liberal
profit exclusively of the Mongars Maniem
and Meras of which he is in the enjoyment
If therefore the Board are disposed to favor
the Petitioners claim to a renewal of the
lease on more indulgent terms than those
formerly stipulated I would beg to propose that
the rent may be not fixed for ten years
commencing with the present fusly or
for such further period as the Board
may think proper at the above amount.—

North Arcot,———
Coll.rs Circuit Cutcherry,
Pulicat 13th March 1848.

/Signed/ E. C. Lovell
Acting Collector.

Statement.—

Fort St. George 4th May 1848.-

To
T. Pycroft Esqre
Secretary to the
Board of Revenue
Fort St. George.

(26)

From the Actg Collr of North Arcot - Reports on an application made by Salapatty Moodelly for a renewal of his lease of the Villages of Tairvoy &c 4 Villages in the Sutwaid Taloork and proposes that if the Board are pleased to allow the Petitioner a renewal of the grant that the rent may now be fixed for ten years commencing with the present Fusly at Rupees 2316- 4as 11ps per annum -

Sir,

Para 1. I have the honor to report that an application has been made by Salapatty Moodelly for a renewal of his lease of the Villages of Tairvoy, Candegay, Carnumcotaiyan & Caradeepootoor in the Sutwaid Taloork.-

The lease expires

2. with Fusly 1255 and the Case is nearly similar with that of the lease of the Paupuncoopum Village referred to in the Correspondence in the Margin. The rent paid for the Villages was Rupees 1820- - - per Annum

From Bd 19th Novr 1846-	
From Do 15th April 1847-	
To Do 19th April 1847-	
To Do 8th May 1847-	
From Do 10th May 1847	
To Do 12th May 1847-	
From Do 10th June 1847-	
To Do 24th September 1847-	

and the applicant now requests that he may be allowed an extension of the lease on the average of

Fort St. George 4th May 1848

average beriz of the 25 years of his lease being Rupees 2316-4-11- per Annum as taken from the Curnum's Account. Statements are Enclosed similar to those required by the Board regarding the Village of Paupuncoopum.-

3- The accounts it may be feared are not entirely to be relied on. In many of the most favorable years, I observe the entry under the head of Fuzulzastee in little or nothing which is very unlikely to have been the case considering the nature of the tenure. I see no means of obtaining information more to be depended on and it will be observed that the Offer of the renter exceeds by Rupees 496-4-10- the rent before paid for the Villages.- If therefore the Board are disposed to allow the petitioners a renewal of the grant, conceeding something from the terms stipulated in their expired lease, I would beg to propose that the rent may be

Fort St. George 4th May 1848.-

be now fixed for ten years commencing with the present fusly or for such further period as the Board may think fit at the above Amount.-

+ No 245 of 1847- 4- + A petition from another party praying for a renewal of the rent in his Name was reported on by Endorsement dated 1st May last.-

North Arcot,---

6519. Fort St. George 4th May 1848.

Proceedings thereon. Observation and orders of the Board on the proposal of the Acting Collector of North Arcot to fix the rent of the Paupmcoopsum Village for ten years from the present Fusly at Rupees 919-7-2.

5/28-27

The Village of Paupmcoopsum and the four Villages of Tarivoy, Cundegay, Curmmcotay, and Carodeepootoor - all in the Sutwaid Talook of the District of North Arcot were granted in the year 1820 on a favorable Cowle for 21 years, the first Village to one C. Rungiah Naick at 685 - 4 - 0 the last four to Candapah Modely brother and heir of Ormooga Modely Dead, late Manager of Court of Sudr Udalut at Rupees 1820 per annum. The lease in each case expired in Fusly 1255/1845/46 and the representatives of the original lessees now pray for a renewal. It was stipulated in each Cowle that on the expiration of its term the village or Villages "shall be "assessed with the full and due share of the "Government in its produce in the same manner "and at the same rate as other lands of the "same description contiguous thereto, and that if the "lessee or his representatives shall then consent to pay "the said full Bariz he or they shall be allowed "to keep the lease of the said village, and to re: "tain the same as long as they shall duly pay "the said rent and conform to the Regulations of "Government."

2 The rates of assessment which obtain: ed in these Villages at the time when the leases were granted were those fixed by Mr. Hepburn in Fusly 1213/1803 and 1215/1805/6. The assessment made by Mr.

6518 Fort St. George 4th May 1848

Read a Statement shewing the rates of assessment on each description of land in the Talook of Sattaved Taluk

stated when or by whom they were fixed but the rates obtaining in the Sutwaid Talook generally are said to be lighter than those of the other Talooks of North Arcot - The Settlement of Paupuncoopum at Mr. Groome's Assessment for Fusly 1256, was.

Bariz	Collection	Balance
1,658-0-8	1,372-15-11	285-1-8

The late renter, son of the party in whose favor the Cowle was originally given prays that the lease be renewed on a rental of Rupees 919-7-2 being, as alleged the average of his Collections during the 25 years of his lease and an increase of Rupees 234-2-7 on his former rent - The Acting Collector seems to support the proposal.

5 The total ayacut of the four Villages Tariwoy-Caradeepostoor Curumcottay and Cundegay is 7,143-10/16 the assessment at Mr. Hepburn's rates Rupees 8,682-11-10 - The average cultivation of the 25 years composing the lease was 636-1/16 with an assessment of Rupees 1948-15-7 The addition of Bogajasties and ready money payments would raise the average bariz to Rupees 2,080-10-6 The average actual Collections for the same series as given in by the renter were however Rupees 2,314-4-11 and the renter requests that the lease may be continued to him at that sum

Fort St. George 4th May 1848

sum- No information is supplied by the Acting Collector as to the rates of assessment obtaining in the adjacent villages-

6 The course to be pursued on the expiration of the leases for determining the public demand in both the cases now under consideration is as above stated, laid down in the respective cowles- namely, that the villages be assessed with full teerwah in the same manner and at the same rates as now obtain in respect to land of the same quality in the adjacent villages-

7 It will therefore first be necessary that the five villages in question be assessed on the above principle as required by the Board in their Proceedings dated 10th June 1847 and on this having been done the conditions in regard to the renewal of the leases may perhaps best be fulfilled if a literal enforcement of the terms of renewal are not insisted on, by allowing the late renters to hold their villages for a further term of (say twelve) years from the expiration of the last lease on such rents as shall result from the application of the new rates of teerwah to the average extent of cultivation carried on within the villages for the last ten Fuslies or from

Fusly

Fort St. George 4th May 1848

Fusly 1248 to 1257 inclusive- The sums offered by the renters, and stated to correspond with the average collections made during their leases cannot be accepted, as no confidence can be placed on the returns which have been given in- Indeed in the case of Paupuncoopum not only the average revenue as stated by the renter, but that for the highest year of the lease falls below the amount actually realized under Amanie for Fusly 1256- The Board are of course aware that the renter's cultivation accounts also are not to be depended upon, but it is desirable that the present Acting Collector should cause them to be carefully examined in his Cutcherry, and after checking them as far as possible and comparing them with the accounts of the two years 1256-7 that the villages have been set tled under Amany should state the amount of rent which in his opinion may fairly be demanded, in conformity with the provisions of the Cowle in each case on a renewal of the late leases for twelve years commencing with Fusly 1256- In the case of Paupuncoopum it appears that the Ryots as a body surrendered their rights to the Renter- The Acting Collector will be pleased to report whether a similar surrender was made in the other Villages mentioned and

a Rupees 919-7-2
b Rupees 1311-5-4
c Rupees 1372-15-4

and if not, whether the propriety of renewing the lease is affected thereby.

8- On the rents being fixed, and the sanction of Government obtained, accounts will be adjusted with the renters for the two fushes during which the Villages have been under Sircar management, and it is to be understood that the leases to be now renewed will on their expiration be open to renewal for a further period on such term as may then be agreed on.-

9- With reference to the Statement made in Enclosure No. 1 of Petition No. 860 of 1847 herewith forwarded the acting Collector is requested to state whether there is any Pagoda in Paupuncoopum endowed by Government and if so by whom its affairs and endowments are now managed and whether Petitioner Madavarayy Naick has any title to the management of them.-

Ordered that the following Endorsement be passed on Petition No. 1713 of 1847.-

"Petitioner is referred to the Acting Collector of North Arcot to whom instructions have been sent in his case."

To
T. Pycroft Esq.
Secretary to the Board of Revenue
Fort St. George

From the Collr. of South Arcot
Dated 29th March 1848
Received 2nd April 1848

Affording further explanation respecting the charges levied on stamping the Weights and Measures.

Sir,

With reference to the concluding para. of the Board's Proceedings, calling upon me for certain information respecting the charges levied on stamping the Weights and Measures of the Merchants I have the honor to state, that on referring to the records I am unable to find any authority for the rates of charges, it appears however that the practice of imposing this fee, existed previous to the year 1803, the enclosed translation of a Memorandum shewing the several rates of fee charge, is stated to have been given at the time Major Macleod was Collector, the Establishment which was kept prior to this period was sanctioned on the application of Mr. Falsfield when Collector of Cuddalore and Pondicherry as will be seen in the correspondence here noted.-

2.- The collection of this fee as well as the charges (the) properly belonging to the head of "Inam small Farms and Licences" have been carried to the head of "Sayer Revenue," as remarked on by me in my letter to the Board with a proposition to carry it to a different head.-

3. This Establishment has always been kept distinct and separate, and as the order requiring the abolition of the Inland and Town Sayer Chowkies did not apply in any way to this, it was retained as necessary. This Establishment is in the habit of visiting the principal Markets in the interior with a view of ascertaining whether the weights and measures correspond with the Standards.-

Proceedings thereon Before submitting to Govern=
=ment the foregoing letter the Board wish
to be informed of the grounds for restrict=
=ing the levy of fees payable by Merchants for
stamping their weights and measures to
the Talook of Cuddalore when it appears
that the Establishment retained for the
purpose "attached to the Clerk of the Market
at Cuddalore" is represented to be in the habit
of visiting the principal Markets in the Inte=
=rior for the purpose of ascertaining whether
the weights and measures in use correspond
with the standard -

Calling upon the Collr of South Arcot to furnish fur=
=ther information on the practice of levying fees from Merchants for stamping weights & measures before sub=
=mitting to Government his request for restricting it to the Cuddalore contained in his letter dated 29th March last.-

2.- The Collector should
also explain the circumstances which
led to the amount of fees due in Fusly
1253 being allowed to stand over as a
balance until the following year when
the sum brought to account for the Town
of Cuddalore was Rupees 708-5-3 where=
=as in Fusly 1255 the annual Collections
only amounted to Rupees 173-10-- --

3. The Board apprehend
that since the services of the Establish=
=ment now under retrenchment in=
=volves the supervision of the weights
and measures throughout the large
market

From the Acting Collr. of Trichinopoly Reporting the Death of Neidalore Inamdar

Agreeably to the order= of Government dated the 26th April 1845 I have the honor to report that Sahib Reran one of the 5 Members of the family of the late Inamdar of the Village of Neyidalore in this District died on the 29th Ultimo, and beg to bring to the notice of the= Board that out of the seven Rupees forming the amount of Pensions enjoyed by him under the sanction of Government dated 6th April 1844 four rupees were recommended in the 4th Para of Mr. Onslow's letter dated 4th December of that year to be devided amongst the 4 Surviving females of that family at one rupee each on such demise occurring but the said four survivors being

poor

6531 Fort St. George 4th May 1848.

poor and having no ostensible means of livelihood except this Pension they request in their Petition dated 31st ult. stating, that the whole of the 7 Rupees lately enjoyed by the late Sahib Peeran should be continued to them 1¾ Rupees each per Month, as they appear to be of the Peer caste and held by their country men in great repute for sanctity and respectability. I beg to recommend that the said 7 Rupees may be divided equally and continued to the surviving females during their life time only: one quarter of the said 7 Rupees lapsing to Government together with the females share on the death of any of those to whom it is recommended to continue the same.

Trichinopoly Collectrs Office 26th April 1848

Translate of a Petition addressed to W. Elliot Esqre acting Collector of Trichinopoly by Paudshah Sahibah Widow of Sahib Peeran Sahib Inamdar of the Village of Negidalore in the Vittcutty Talook.

In consequence of the death of Huzarut Cawdry the original Inamdar the Village was attached and a Monthly Pension of 19 Rupees was granted to the surviving Members of the family which amount was insufficient for the maintenance consisting of about 14 or 15 individuals and we experienced much distress; whilst so my husband Sahib Peeran Sahib one of the number died of Cholera, on the 29th March last and we four remaining females are now living. There are no Males. As you are a benevolent Gentleman and protect many persons. we beg to state that the amount of Pension allotted to us is barely sufficient to maintain us. We therefore humbly beg you will kindly be

be pleased to recommend our deplorable case to Government and obtain for us the whole of the Amount enjoyed by the deceased.—

31st March 1848.

/ A true Translate /
/ Signed / H. Elliot
acting Collector.

Ordered that the foregoing letter be submitted with the following addrs

(30-31)

To The Chief Secretary to Government.

To the Chief Secy to Government
Submitting letter from the Acting Collector of Trichinopoly reporting the death of Sahib Peran one of the 5 members of the family of the late Chandras of Nayedaloor & proposing in consequence of the distressed circumstances of the family their respectability and the regard in which they are held that the whole of the allowance enjoyed by deceased be added in equal portions to the pensions of the surviving females but recommending that one Rupee only be added to each of their stipends as originally contemplated.

Sir,

I am directed by the Board of Revenue to forward, for the information and orders of the Right Honorable the Governor in Council, the accompanying letter from the Acting Collector of Trichinopoly dated 26th Ultimo, reporting the death on the 29th March last, of Sahib Peran, one of the 5 members of the family of the late Chandar of Nayedaloor.

2.— The pensions drawn by this family under the sanction of the Supreme Government dated 9th March 1844, are as follows

Sahib Peran (lately deceased)	7	—	per Mensem
Butcha Bebee	3	—	Do.
Dutchamah Sahibah Bebee	3	—	Do.
Capeah Sahibah Bebee	3	—	Do.
Joram Sahiba Bebee	3	—	Do.
Total	19	Rs.	per Mensem

In Cons. 18th Dec. 1843

3.— In para 4 of the Collector's letter of 4th December 1843 in which he recommended the grant of the above pensions he suggested that in the event of Sahib Peran dying first, one Rupee should be added to the allowance of each of the survivors. The Board in laying the subject before Government supported the application of the Collector generally but without adverting particularly to this point. It will however be observed that the sanction of the Supreme Government contains no provision for the addition to the pensions of the females on the death of Sahib Peran.—

4.— In consequence of the distressed circumstances of the family their respectability and the regards in which they are held, the acting Collector proposed, in the letter under transmission, that the whole of the allowance enjoyed by the deceased should be added in equal portions, to the pensions of the surviving females.— The Board are however of opinion that it would be sufficient if one Rupee be added to each of their stipends, as originally contemplated, referring more particularly to the strong terms in which the family were mentioned by Mr. Arbuthnot in his letter of 4th December 1843, they therefore beg to recommend that the pensions of those parties be increased from 3 to 4 Rupees each per Mensem from the date of Sahib Peran's death.—

(34)

Sir

From the Coll. of Madura — } I have the honor to submit my Report on the settlement of 1256 A.D. 1846/47 Fusly with the following Statements

On the settlement of Land Revenue for Fusly 1256.

No. 1. Village Population &c.
2. Aayacut account
3. Abstract of Settlement
4. Detail of do.
5. Statement comparative of Increase and Decrease on each Sheep of the Taloks between Fusles 1256 1845-46 and 1256 1846-47
6. Statement Particular of gross Increase and Decrease of Cultivation.
7. Register of Lands held on Sanctioned Cowle.
8. Special Cowle.
9. Lands granted to the Mannead Sibbendy Peons.
10. Statement Comparative of Increase and Decrease in Cowle lands of each Taloke.
11. Statement rates of per centage of Remission to Ryots for co withered produce of Nanjah Sugar

No. 12. Sugar Cane Cultivation in the Dindigul District.

13. Histbundy of the Land Revenue

14. Do. of settled and unsettled Zemindaries.

15. A Village population &c. of the Pulney hills.

B Abstract of Hill Settlements each Taluk with the detail of each item.

C Statement of rates of the for the Hill Poyalwary Settlements.

16. Marriers Land and its Cultivation.

17. Land Revenue and Exctras Collection in Comparison with the preceding Fusly.

18. Comparative Statement of Demands Collection and Balances of the Land Revenue.

19. Abstract Settlement of Calastry Pattahs.

20. Account of Gross Sales Computed Cultivation in the resumed Inams forming the Ramaghery Settlements.

1. This report has been delayed considerably beyond the prescribed period, in consequence of the late date to which the Settlement was prolonged, and the obstacles to a final closing of accounts arising from protracted enquiries relative to the Shavee remissions owing to the drought which prevailed in the Madura Division of the District.

3. Stock charge of the Collectorate on the 1st April last when the Seasons both of Cultivation and harvest had nearly expired. All preliminary arrangements for the Settlement had been made by my Predecessor, but from the cause stated in the preceding Para the Caste Puttahs were not distributed till the end of July.

4. The Head Assistant Mr. Robinson was deputed to Shevaroy Mallay, and the Assistant Mr. Cator to Meylcon at the commencement of the Settlement to forward the preparation of accounts and to investigate claims to remission for Shavee. The latter part of their duty was effectually performed, but Mr. Robinson's appointment to act as Subordinate Judge and the consequent additions to Mr. Cators Police duties prevented their proceeding with the general operations.

operation of the Summahbundy. The examination of accounts took place at Madura for Madacolum and Peroomungalum, at Meyloor for Meyloor Talook and at Tovruneourchee for the Ramagherry Talook. The Puttahs were distributed at several places in each Talook, selected with a view to the convenience of the Ryots, the greater part by myself but a very few which owing to delay in the preparation of accounts were not ready at the period of my visit, by my Assistant Mr. Edgeon.-

5. The opportunity was taken to urge the Ryots to resort to the Village Mooniffs for the adjudication of such suits as are within their Cognizance, and to avail themselves of the means of vaccination provided by the Government.-

6. The unfavorable nature of the season in the Madura Division was reported to the Board by Mr. Blackburne on the 19th January last. I recapitulate the principal circumstances however for convenience of reference.-

7. The falls of rain in April and May before the Commencement of the Fusly are stated to have been

partial and unequal in different places. In June there was no rain nor is a Considerable quantity expected in that Month. In July, August, and September the rains in the Principal Division were described in Mr. Blackburne's letter of the 19th January as partial and light. They were sufficient however to induce the Ryots to Cultivate Poonjah to a greater extent than in the previous Fusly, and in the sub Division the Sub Collector reports, there were seasonable falls of rain in August and September whereby the Cultivation of dry grain was carried on with some vigour. The early rains of the North east Monsoon seem to have been abundant throughout the District, but the subsequent supplies in November and December and January required to bring Poonjah to maturity and to afford the means of irrigation to the Nunjah Completely failed in the Madura Division and appear to have been deficient, though not to so great an extent, in the Dindigul Talooks. In February there were slight showers which were of some service. In March rain was altogether wanting. In April and May 1847 there

were

were unusually heavy and continued falls of rain bringing down high freshes in the Vegay, and causing extensive cultivation of the Kodai or first crop of the year a portion which being reaped in the Fasly under report, is included in its Summabundy. On the other hand it destroyed the Cholum Crops in the beds of Tanks, necessitating the grant of remission on that account to the extent of 3,615-13-2.-

8. On the whole, the Season was tolerably favorable in the sub Division, which lying under the western Ghauts, enjoys both a more moderate climate and more moisture than the extensive plains lying between it and the Sea Coast. The Manjah Crops are stated to have been deficient but the loss thence accruing to shave been made up to the Ryot by the very high prices. Remission for shance or withered Crops was therefore required only to a moderate extent.

9. In the Principal Division however the result of the Season was a Considerable loss to the Government and still more to the Ryot. The outturn of the Manjah Crops raised as has been already stated to a larger extent, was very indifferent. There was an excess of 376 Canies 6¾ at in the Cultivation of Manjah

Manjah above Fasly 1253, produced by the not unpromising state of the Season till the end of October, but a large proportion of this withered entirely, and generally, the Crop was greatly deficient. The advantage of high prices could not have been enjoyed by the majority of Ryots as they had little to dispose of and often much to purchase. The drought was most felt in the Meyloor Taloob where the sources of irrigation consist almost entirely of small rain fed Tanks called Yendalls requiring to be replenished once or twice to bring the Crops under them to maturity

10. The subjoined Statement shewing the progress of Cultivation will perhaps throw more light on the state of the Season at different stages than any other mode of illustration.-

Tho

11. The prices of the years in Comparison with those of several years preceding are shewn in the following Abstract. They will be observed to have been very high, the natural consequence of a succession of unfavorable Seasons, and the prevalence of a drought in the neighbouring Districts of Tinnevelly and Coimbatore. There was some import of grain into the District, but not, as far as

as I can understand, to any Considerable amount. An observation in Para 4 of the Board's Proceedings on the Settlement Report for 1255 leads me to explain, that, in this Province Districts, however important to the interests of the Ryot, do not affect the Settlement of the Government Revenue of the year, as the assessment is fixed on each Cawney of Land.

Price

6549

Fort St. George 4th May 1848.

Prices Current of the chief kinds of Grain and Pulse produced in the Madura Town per Mullum of 72 Measures, each of 20 Pollams.

No

Health.

12. No sickness worthy of remark has prevailed either among men or cattle. There was a slight murrain among Sheep in Meyloor.

Village and Hamlets.

13. The annexed Comparative Abstract of Villages and hamlets in 1738 and 1256 exhibits an Increase of 12 Hamlets in the latter. With reference to the remarks of the Board in Para 5 of the Proceedings on the Report of July 1755. I beg to state, that the creation of Hamlets does not involve the preparation of separate accounts. Where there are several Nattamgars / Heads of Villages / they distribute the Supervision of the hamlets between them. but no such division takes place in the accounts.

Tanks ——— 5
Channels — 10
Dams ——— 11
Wells ——— 425.

14. In Tanks, Channels, Dams and Wells will be observed the increase noted in the Margin. The preponderance of the excess in Wells in the Sub Division is accounted for by the greater extent of Garden Cultivation irrigated from this description of reservoir.

15. The increase shewn in population is so small as to lead to the conclusion that the returns of the Village Officers

Officers on which the numbers are given cannot be correct. I am more inclined to attribute the circumstance to this cause than to the drain by emigration or to small number of births.

Hamlets — 1331 — 1256.
Villages — 371 — 359.
Houses — 273 — 267.

16. The Increase and Decrease in Cattle and Sheep is too inconsiderable to require remark.

17. There was a nett increase of 880½ in Ploughs or rather in pairs of Cattle used for the purpose of ploughing, I annex an abstract Statement shewing the export of Cattle to Ceylon.

18. In the Number of Resident Ryots the increase amounted to 1873 and in that of non — Resident 1443. In the Puttahs the increase was 3,316.

19. It seems to be here the place to explain that a Kookoonnamale framed on the Plan of those of Conjeveram and Salem which were furnished for the purpose by the Board in their Proceedings of the 27th October 1846 has not yet been issued. None had been prepared by my Predecessor and the nature of the season made the duty of the Summabandy more than usually laborious at the time of my receiving charge in April and was also

also very unfavorable for any thing like change. Added to these causes, the death of the Head Sheristadar had thrown the whole weight of the duty of that office on the Naib, while I myself at such a time had no leisure or to search the records for the wishes of the Board on the subject or to learn fully the circumstances of the District to which the rules were to apply, I must therefore that I shall be considered to have acted prudently in deferring the preparation of this important Order till the proper period before the commencement of next year's Cultivation or about April 1848. The delay will afford me the benifit of the aid of the new Head Sheristadar, who has recently quitted a Ceded District in the administration of which a Pettah Settlement is a prominent feature.

70. On this subject some valuable observations will be found in the Acting Sub Collector's report Paras 80 & 85. and I beg more particularly to request the Boards attention to his remarks on the rule requiring Ryots to throw up good land with bad, a rule which I believe to be only partially followed in any District under the Presidency and, in truth, very little understood.—

21 If it implies that a Ryot should not be allowed to throw up unproductive land without leaving any good land, what is but to throw an obstacle in the way of the profitable employment of labour on which the aggregate wealth of a Country evidently depends and to prevent enterprize.— A given quantity of labour applied to bad soil might yield less than sufficient to support the labourers, and then, evidently, Capital of the Country must decrease. There would be no surplus to support Artizans, Merchants or any of the Trades by which a Country is raised to opulence. If all the labour of a Country were employed on such soils the whole population in course of time would perish; and in proportion as labour is diverted from good to bad soils it is equally clear that the wealth of a Country is diminished or prevented from increasing according to its natural advantages.

22 But if the application of the Principle is intended to be confined to the prevention of the surrender of land in such lots or detached pieces as cannot from their situation be occupied by other Ryots, it seems to me that it can and ought to be followed, though with watchful care

A

A Ryot should not be allowed to resign a piece of land in the midst of his holding which is not acceptable to other Ryots, or from a moderate sized field to choose out the particular spots which he fancies.

23 I trust that the Board will permit me in the new Pookumma=mah to lay down the Rule in this restricted sense, and with such provisions also, as will enable the Ryot to allow such Poonjah lands as require it, to lie fallow occasionally without the owner running the risk of losing them.

24 As regards the waste lands near Palamcoy required for pasturage there seems to be no objection to this being accepted as in the Ramaghery Talook with the Sheristah.

25 It will be observed that the Columns in Statement 3 and 4 Containing lands cultivated without engagement have been omitted in the account of this Fusly. This has been done in obedience to the orders contained in Para 8 of the Board's Proceedings in the Summabundy of Fusly 1255. The entry in those Columns in Fusly 1255 Comprizes the land of

of such Ryots as would not sign the Pottahs or Puttadapoo accounts together with the lands of others taken up subsequant to the above mentioned accounts being closed. Both Items have been included in the previous Columns on the present occasion. If this is not the intention of the Board I beg to be favored with further instructions.

26 The subjoined Abstract exhibits the extent of Land taken up for Cultivation in Fusly 1250, including both what was entered in the Puttapoo, and that taken later in the year, with the portion thereof left waste and excluded from the settlement according to the usage of the District, and the remainder on which the settlement was formed, Compared with Fusly 1255. The accounts prepared in Fusly 1255 do not enable me to exhibit the same details for that Fusly as in the year under Review.

27 It will be observed that there was an increase both in the extent and value of Land taken up, and in the extent and value of that actually Cultivated; but the very large deductions required on account of withered Crops converted the year from one of Profit to the Revenue to one of comparative Loss.

28 The assessment of the Land entered in the settlement account of the year is shown above to have been 19,39,048 13 — The total amount of the remissions was 18,791 13 9 exceeding those granted in Fusly 1255 by 7,80,011 11 4 as exhibited below

31 Under the ordinary Rules of the District, no remission is allowed for short produce, or in cases where the alleged withered Crop is not present at the time of examination, whether from having been destroyed by Cattle or from other causes. Also if one Crop on Nunjah land should come to maturity, no remission is allowable for any other crop on the same land that may wither.

32. In consideration of the very adverse nature of the season under report, the Board permitted a Suspension of these Rules, on the understanding that the relaxation was to be enjoyed for the occasion only. The extent of withered Crops was so great that a speedy examination in all cases by the Public Servants was impossible, and the Ryots were too poor to fence and protect their fields against the cattle, for which little other food than the stubble was available. Remission for short produce was limited to cases in which the Crop yielded less than ¾ Callum per Cawny. In the principal Division where more than one crop was raised, the tax on the particular

Crop

Crop which withered / whether a full taped first Crop, a half taped second crop or a half taped Nunjamail Poonjah crop / was remitted, subject however to the general deduction of 10 per Cent.

In cases where a 3 Crop came to maturity no remission was granted for one of the other 2 Crops which might have withered. The case of 2 Crops withering and one coming to maturity did not occur. In the Sub Division where no additional tax is levied for a 2d Crop, no Shavy remission was granted where a second crop had been raised.

33. Every care was taken to secure a proper examination of the withered Crops. As already stated the Head Assistant Mr. Robinson was deputed to the Peroomungalum Talook and the Assistant Mr. Cator to the Mayaveram Talook, each aided by experienced Hoozoor Servants, to supervise the investigations of the Talook Authorities, and the Tahseldars and Moozoomdars took as large a share of the examination as was practicable under the circumstances.

34. The comparatively small amount of

of remission for Shavy required in the Dindigul Division and the large proportion allowed in the Mayaveram Talook of the Principal Division are explained in my remarks on the Season I mentioned in the last Para of my letter to the Board dated the 4th June last, that Many : pedy / short produce / and the crops eaten by cattle / Mattalenoo / had been entirely excluded from remission in the Sub Division - Subsequently Mr. Clarke allowed a deduction under the latter Head in the instance of one Village, a full explanation of which will be found in his Report, and appear to me to be quite satisfactory.

Para 36

35. No remission was granted for Poonjah Shavy.

36. In granting Shavy remission the Ryot's Cultivation of every description was taken into consideration and 10 per Cent on the whole in every case deducted from the Shavy remission claimed. I stated in my letter of the 4th June last that I had been unable to ascertain the

Fort St. George 4th May 1848.-

the origin of the Rule for deducting 10 per Cent but imagined that it might have been adopted as an equivalent for the profit to the Ryot from high prices - The Acting Sub Collector subsequently referring back as to the Records of 1832 has discovered from the 9th Para of the Proceedings of the Board under date the 18th October of that year, that the Rule was adopted in order to cover supposed losses arising from exaggerated demands and frauds and was then objected to by the Board and eventually directed to be discontinued under orders from Government, dated 8th February 1833.-

3/ How the practice came to be resumed I have not yet been able to obtain an explanation which is entirely satisfactory - The annexed account shews that for some years it was in a great measure discontinued, being made in a few Villages only; but subsequently I am told Mr. Blackburne directed that uniformly no remission should be granted unless the withered Crop might exceed 10 per Cent -

Statement

Fort St. George 4th May 1848.-

Statement of Shavy remission granted from Fasly - 1238 to 1256 -

In

38. In their Proceedings on the Jummabundy of Fusly 1253, Para 11, the Board observed that "the non-allowance of remission for Shany under 10 per Cent of the Ryott Beriz did not appear to be properly acted upon, for it was stated to be the Custom to remit the whole Shany where it exceeded 10 per Cent of the Beriz instead of only remitting all above 10 per Cent" - Under this opinion the Rule enforced in Fusly 1255 and the year under report, was to deduct 10 per Cent in all cases. —

39. I have entered into this detail in consequence of the remarks in the late Sub Collector's report which the Board would expect me to notice, but as the instructions contained in the Proceedings of the 17th July last would appear to afford as clear a general Rule as the Nature of the Subject will admit, and allow departure from the practice of deducting 10 per Cent in emergent cases - I should not otherwise have not thought it necessary to have discussed the question at so great a length.

The

Inundation
Fusly 1255 — Rs 30-14-4
1256 — 3615-13-2
Increase 3575-14-10

40. The cause of the increase under this Head was the sudden heavy rains in April which destroyed the crops, principally Cholum, raised in the beds of Tanks. —

41. The Cowle remission granted on the established Rules requires no remark. —

42. The Amount of Booloos Moff — and Mr. Peters discretionary remission which are granted in the Sub Division only varies with the extent of land enjoying the same which may be cultivated -

Remission Nunjed Cultivated with Poonjah
Fusly 1255 — Rs 4620-9-7
1256 — 4164-15-2
Decrease 455-10-5

43. Statement No. 5 contains remissions under this Head as regards the Sub Division only, but it equally exists in the Principal Division, not distinctly appearing in that account because it is deducted in Statement No. 3 as Teerva Cummee, before the Net assessment is entered. -

44. It would be more simple to pursue one practice for both Divisions and I am led here to remark that I doubt whether the course followed in this District in regard to Survey Poonjah Cultivated subsequently with Nunjah and again with Poonjah is consonant with the Board's intentions. -

In

45. In such a case, whilst cultivated with Nunjah, the Survey Poonjah pays Teeruvajastee in addition to the Poonjah tax, the two being shewn separately - When cultivated again with Poonjah it is charged with Nunjah mail Poonjah tax / ½ Nunjah / and the accounts detail first the Poonjah tax, then the Teeruvajastee, then the aggregate, and afterwards the Teeruvaçunnee, and the Net assessment, which is considerably above the Survey assessment, although the Survey Crop only is raised. —

46. In directing that the Survey denomination of each class of land should be preserved however cultivated, I am inclined to think that the Board intended, that when the land might revert to its original cultivation it should revert to its original assessment also, a contrary practice having a tendency to check improvement At present if a man succeeds in cultivating Nunjah produce for one year, his land is for ever afterwards subjected to a higher tax, though the experiment might prove a failure and never be repeated - It would seem a simple

simple and just Rule that if cultivated with Nunjah Survey Poonjah should pay Teeruvajastee, and when with Poonjah, the assessment for Poonjah only; and in the latter case, be entered in the accounts simply as Poonjah; an exception being made where Maramut repairs had been effected under the promise of the Ryots to cultivate additional Nunjah when the present System might be continued. —

47. The only other Item which requires remark is that of the remission for Sugar Cane Cultivation in the Sub Division. —

48. The assessment on this produce was fixed in the same manner as in Fusly 1254 and 1255 which is described in Para 20 of the Sub Collector Mr Elliot's Jummabundy Report for Fusly 1254 in the following terms - "I took upon myself "therefore to carry out the orders of the Board by fixing "20 Fanams as highest tax on the simple Crop land, "and added 80 per Cent, deducting however "the amount in excess of the highest tax on "double or treble Crop land"

49. Mr Clarke the Acting Sub Collector has gone into considerable detail to

to shew.-

First.- That the above Rule acts with partiality, the highest rate of simple Crop land and the lowest rate of double Crop in Pullagoontah one of the 2 Villages in which only he could find a distinction in the accounts being the same, Viz.t, 20 Fanams.-

Secondly.- The danger of relying upon averages and the necessity of using the only safe Criterion the Fysul accounts.-

Thirdly.- The probability from the example given in Mr. Hurdis's Report for 1803, that 50 and not 80 per Cent was the Extra tax fixed by him for the cultivation of a Second Crop.-

Lastly.- He remarks, that as a second Crop of Nunjah Produce on lands however lowly assessed, does not subject the Ryot to an Extra tax, it is inconsistent with the Principle laid down, of taxing Sugar Cane and Nunjah Produce equally, to charge an Extra assessment on the former.-

50. The two last arguments appear to me to be undeniable, but I cannot

offer

offer a decided opinion on the two former without further information and an inspection of accounts for which I have written.-

51. The observations in Para 48. do not appear to me easily reconcileable with Mr. Elliotts explanation of his mode of assessment quoted above from which I should infer, that he imposed the Extra tax on all lands the assessment of which did not exceed 20 Fanams, and the Native Cutcherry have been under the same impression

52. Every exertion will be made to obtain accounts for the purpose of determining what lands were assessed as one and two Crop lands respectively on more trustworthy Data than have yet been discovered, as directed in Para 11 of the Board's Proceedings under date the 22d October 1845 on the Gunnabundy Report for Fasly 1256.-

53. The annexed Statement shews in one view, the money result of the Settlement of the year.-

Grand Total	1,746,597	6 11	1,692,368	12 ..	.. .. ..		54,228	10 11

54 In the Ryotwary land Revenue there was a decrease of Rupees 54,767-12-.. —

55. In the total ready Money Collections A & C an Increase of Rupees 519-9-1 resulting from various Items of Increase and Decrease.— The Decrease in Jodee on Enams arises from the extent left fallow owing to the Drought— The Poroopoo on whole Enamee Villages is exacted in all seasons, but a variation in the extent of Cultivation of some Canul and Paddee Canul lands included in them, which have been effected by the Drought— the Revenue of the year.— The Increase under the Head of Topes and Trees is the consequence of stricter scrutiny.—

56 There is a small Increase of 444 in the Coltursee or land taken up for Pasturage.—

57. In obedience to the directions in Para 10 of the Board's Proceedings on the Summabundy Report for Fasly 1254 — dated the 22d October 1846 a Statement is herewith furnished, shewing the extent of

Nayat

Nunjah and Poonjah Land allotted for cultivation on the payment of full assessment and that retained for pasturage, distinguishing those retained by Resident Cultivators from those in the possession of Pyearies— It will be seen, that the principle of a Gross Tax has been extended to Veeramalay, Thogamalay and Coomaravady, but that it is in imperfect operation— My attention will be particularly directed to this branch of Revenue.—

58. In Para 101 of the Subcollector's Report the Board will find such observations as occur to him at present in regard to the Dawestanums and Sibbondy charges on the Tyluey Hills— In the course of the present year Mr. Clarke will no doubt make such further enquiries as are necessary to enable him to afford an explanation on these points in his usual satisfactory manner— The other Deductions require no remark.—

59. Including the Peishcush on the Zemindaries the total Land Revenue of the Year was 16,92,368-12-0 being less than that of

of the preceding year by 54,228-10-11— There was also a Decrease of 15,495-6-9- in various branches of the Extra Revenue, but the whole of this was with the exception of 8,576-11-11- was made up by the Increase in the Collections from the Salt, arising very much from the same Cause as the falling off in the Revenue from Land— The Drought which caused the Crops to wither rendered the Roads to the Salt Pans traversable throughout the year and set the Cattle at liberty in the latter part of the Season to be employed in this Service.—

60. The amount of Collection and Balance is shewn hereunder.—

Total Settlement of Land Revenue for Fasly. 1256 ——— 16,92,368 12 0

Collections	Within the Fasly.	Up to 31st December 1847.
Peishcush ———	7,49,121 8-7	28,439-6-6
Ryotwar Madura —	4,36,137-9-8	32,372-13-10
Do Dindigul —	1,37,825-7-11	2,960-12-8
	16,23,384-10-2	63,773 1 0
		16,87,157-11-2
Balance ———		5,211 0 10

Of

Of which Rupees 4954 - 13 - 3 are outstanding against the Ammianaiknoor Zemindary 6 of Villages of which have been sequestered for its liquidation as stated in a special report dated the 12th November 1847 - The Remainder Rupees 256 - 3 - 7 are due by the Ryots of Madura and Dindigul. Viz.

Madura	Mandacolum	118 - 14 - 4	
	Theroomungalum	126 - 10 - 9	
	Meyloor	3 - " - 4	
			248 - 9 - 5
Dindigul	Nellacotay	4 - 14 - 1	
	Ramagherry	2 - 12 - 1	
			7 - 10 - 2
			256 - 3 - 7

These small balances will soon I expect be collected -

61. The old Balances are confined to a trifling arrear of Fusly 1255 amounting to Rupees - 19 - 13 - 2 and due by an individual in the Tyompully Talook which will probably be realized -

62. The Settlement of the Pyliey Hills occupies from Para. 88 to 101 of the Report of

of the Acting Sub Collector to whose valuable observations I have nothing to add except that I fully concur with him in recommending the improvement of the Roads to these Hills and propose to Consult the Civil Engineer who has lately been near the Hills on the subject - Mr. Clarke states the Increase above last year Rs. a. p. at 1117 - 2 - 10. but from the accounts the Increase Para. 17. in the Gross Revenue is but Rupees - 448 - 9 - 1 and in the Net Revenue Rupees - 419 - 2 - 10 -

To shew the state of Cultivation in 63. the 55 Villages in which St. Peter's Divertionary remission has been reassessed, I beg to furnish 2 Statements X and Y It will be seen, that the gross Settlement was 1,15,982 - 9 - 11 less than that of Fusly 1255 by Rupees 13,246 - 8 - 8, but that the decrease was entirely owing to the large remissions required for withered, and inundated Crops, amounting together to 16,034 - 6 - 1. There was an Increase in the Cultivation, and the assessment would also have been in excess, but for this contingency. Compared with Fusly 1254, however, the year before the assessment was reimposed, there was still a decrease of about 1/6 in the total Cultivation, tho'

as

Fort St. George 4th May 1848.

an Increase in 2 Items.—

64. The Nature of the season under review was such as to present the formation of a fair Judgment of the effect of the re-assessment of Mr. Peter's deductions, but I will pay particular attention to the injunctions of the Board in the course of the present Fasly.—

65 It only remains for me to acknowledge the assistance afforded by the Gentlemen associated with me in the care of the District.

66. The excellent report of the Acting Sub-Collector Mr. Clarke renders it quite unnecessary for me to say any thing in praise of his talents and research.— I have only to assure the Board that in all the affairs of his Division he displays the same ability and industry, and that his devotion to his duty is only too little limited by consideration for his own Strength.

67. I have already mentioned Mr Cator's services in the investigation of the claims to remissions for withered Crops in the Mayloor, the large amount of which the Board will have observed.— He transacts a large share of the Business of the District and I have recently at his own urgent request made over to him the details of the Seroonmangalum Talook.

S.E.B.

Fort St. George 4th May 1848.—

Talook I have met with no one more Zealous, and I trust that he is acquiring the experience and Coolness which will complete his efficiency as a Public servant.—

68. Mr. Hodgson who joined the District in April, applied himself with assiduity to perfect his knowledge of Tamil which was considerable when he arrived.— He has now a very good Command of the language and to the extent allowed by the Circular Orders of the Fouzdaree Adalut superintends the Police of the Madaycolum and Ramagherry Talooks.—

69. The exertions of the Sub Sheristadar Trimalarow during the Jummabundy, the entire labor of which fell upon him owing to the death of the late Head Sheristadar and the arrival of his successor were unremitting.— He is a valuable servant from his knowledge of the interior management of Talooks.—

Madura,
17th January
1848.

[Signed] R. D. Parker
Collector

Land taken for cultivation by Ryots in writing

1	2 Extent of Land		3 Amount of Assessment			4 Extent of Lands	
	Cawnies	A.	CRs.	a	P.	Cawnies	A.

Deductions on Cultivation

- Shares or Crop deed up
- Cowle remission
- Betel Garden &c. exhausted
- Mr. Peters discretionary reduction of Mr. Hunter's
- 1/4 tax of Poonjah Lands cultivated by Brahmins
- Silbondy Charges of Palapatta &c. Collections
- Tobacco Garden cultivated with Cooday and dry
- Paddy and Paddy Land with
- Shamelat Bunger or waste land
- Hoolava Staff or Mr. Hunter's reduction
- Lost by inundation
- Differences between usual and Current Taxes of
- Usual Cumry by one Crop Cultivation in
- Raising roads on cultivated land

Remainder

- Net Revenue
- Mr. Peters Moonasib Pastas or deserted

Particulars of the Net Revenue

- Land actually cultivated
- Do. uncultivated
  - Land left uncultivated out of
  - Seerwah Collected for
  - Land left uncultivated with
