To D. White Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

(40)

Sir

From the Dy. Coll.r of Coimbatore

1. I have the honor to submit the usual Statements connected with the Land Revenue Settlement of this District for Fusly 1256. A.D. 1846/47.

Submits the statements of the Land Revenue Settlement of the Coimbatore District for 1256. 1846/47

2. Previous to entering into an explanation of the details of the Settlement, I consider it necessary to state that the season in this year was singularly adverse. For this reason not only the realization of the remissions granted in the previous year became impracticable, but it was also absolutely necessary to allow still further indulgence for failure of crops, and for uncultivated lands Vea. and this has been regulated with strict reference to the orders of the Board conveyed in their Secretary's letter of the 21st. December 1846, and to para 7 of their Rookenamah, sanctioned on the 1st. April 1841. The decrease in the Summa of the Fusly under consideration amounts to Rupees 62244-11-6, below that of the preceding one. It is, however, satisfactory to observe that the above settlement, imperatively rendered necessary

Describes the state of the season & which has been adverse throughout the year. Shews the increase and decrease under the various heads of settlement which exhibits a net deficiency of Rupees 62244-11-6. b. shews the Demand Collection and Balance, as well as the arrears of former years recommended for remission amounting to Rs. 172779-2-5.

necessary under such unfavorable circumstances, still maintains an advance of Rupees 131,068-1-0 and of 106206-5-3 over the averages of ten and five years respectively and the demand has been realized without the necessity of a single extreme measure.-

3. The usual rains entirely failed in April and May, in consequence of which, the Punjah Crops failed except in a very few Villages in Dulachey Chackraghirry, Pulladum, and Coimbatore and even here, the produce was unusually short, in many instances, the lands remained fallow.-

4. The second sowing was not more successful, there were partial rains in July, but none in August, and consequently, in places where the land had been cultivated, the plants began to show every Symptoms of withering, a slight rain, however, in September and October proved advantageous, but from the complete drought in November and December, and the appearance of Cumbly Puttee Caterpillars, the plants could not bear this second and unexpected attack, and the loss to the Ryots would have been immense, had it not been for a few subsequent showers by which a portion of the crop was thus providentially saved.-

The

5. The same causes affected the garden lands also. Some of these were kept untilled, while on others, a Punjah crop had, with difficulty, been raised and under these circumstances remission was allowed on this class of land to some extent for the present year only.-

6. The Punjah cultivation dependent upon the rivers Cavery Bhowany and Amravutty proved successful. In a few instances, however, under the river Noyel (which never received even a moderate supply) and under Tanks scarcity of water was experienced, and the cultivation suffered proportionately, for which also remissions were granted of necessity. It is as well to notice here that the rainguage kept by the Assistant Surgeon of Coimbatore gives less than 7 inches of rain for the entire year.-

7. These causes, and the less important of grain from the neighbouring Districts greatly enhanced the market price, and the difference between the merick of $\frac{1255}{1845/46}$ and $\frac{1256}{1846/47}$ rated as high as 70-10-6 per cent in excess as exhibited in the following comparative Memorandum- a circumstance without precedent within the last 20 years, and sufficient of itself to speak to the difficulties to be contended with.-

In the item of Cowle lands of every description will be found a Net decrease of Rupees 5068-1-2 all Cowles of a permanent Character having been abrogated in this year without any exception whatever.— Col. 57 Extract Minute Hon. 14. Under the head of Garden lands paying Punjah rent there is an increase of Rs 3400-11-7, which has been occasioned from many of the Garden lands having been charged with Punjah rate, and entered as such in the accounts of the Tuhsildars under report, in consequence of their unfitness for garden culture; the water in a vast number of wells having failed owing to the unusual drought which prevailed throughout the year.— Vide Stat. No. 4 Column 60.

Vide Stat. No. 4 Col. 7.

15. The Nunjah Zurum Punjah lands shew an increase of Rupees 213-12-5 which as would seem to require no particulars explanation.

16. The remissions in this year have been allowed to the amount of Rupees 123906-14-3 as shewn in the following Memorandum, and more detailed information in this point will be found in the Statement No. 17 and its enclosures—these reductions were granted under the orders of the Board, as previously remarked, conveyed in their Secretary's letter of the 21st December 1846-1st On Punjah and Nunjah lands left uncultivated, on those ploughed but not sown, and also on those on which the crops failed- 2ndly on wet lands partially cultivated with Punjah produce, and 3rdly on Gardens which were never cultivated or on which a Punjah Crop was raised.—

17 The Garden lands on which remissions were granted in the Sub Division, either by the levy of Punjah rate, or one fourth or one half of the fixed assessment with reference to the amount paid by Ryots previous to the date of the Settlement are entered under the head of "remission," whilst the lands in other Talooks on which Punjah assessment has been demanded are entered under the head of "Bagayet Turm Punjah." Vide para 7 of the Hookoommah.—

* A nominal distinction with a trifling difference in the Settlement.

18. The Settlement of the Fusly under consideration was attended with unusual difficulties, especially in disposing of the several claims for remission. In November 1846, the Tahsildars generally were directed to submit correct returns of fields which were entirely unfruitful; but these returns appearing unsatisfactory and being viewed with doubt, as a precautionary measure, it became necessary to depute Separate Parties from the Huzoor Establishment for re-examination and Corroboration of the first Estimates sent in by the Tahsildars which produced results most materially advantageous to the interests of Government.—

19 The Tahsildars Estimated Returns exhibited Rupees 2,65,284-5-9 as the

the amount to be relinquished by Government.— Of this Rupees 27,346-4-11 were on lands fictitiously entered as requiring remission, and also on lands which although at the time of examination promised no return, subsequently did yield produce, and Rupees 42,714-11-11 were from lands brought under Cultivation in February and March 1847, making the aggregate Rs. 70,060-4-11. which when added to Rupees 71,317-2-7 charged at the time of Settlement or in all 1,41,377-7-6. reduces the remission to Rupees 1,23,906-14-3. a sum far below the amount estimated in the accounts originally submitted by the Tahsildars.—

20 The prompt measures which were adopted to meet the cases of Concealment and attempted fraud, by Suspension and dismissal, discouraged any further similar efforts on the part of the Village Officers- the labour of this Office was considerably enhanced by the different methods and examinations which became necessary to check the evil, and I am happy to think the result has most satisfactorily produced the desired end.—

21. Under the head of Grass lands &c will be found a net decrease of &c Rupees

Vide Statement No. 4 Col. 121.

Rupees 2097-2-8 produced chiefly by the transfer of lands to the heads of waste, Full rent, and Remission.—

23 Adverting to para 9 of Extract from the Board's Proceedings dated the 27th May 1847 requesting to be informed whether and what instructions were issued at the time of the survey for the adjustment of inaccuracies in the Survey measurement, I would refer them to paras: 4 and 5 of Rules forwarded in a letter from this Office bearing date the 18th September 1801 and originated with Major Macleod, from which it would appear that "when an excess of measurement in favor of the Farmer is discovered, the first Para 4 "register is to be considered as a true and permanent one provided such excess may be within "2/16th in Punjee, and 1/10th in Nunjee- and when the Para 5 "difference against the Ryot exceeds 1/16th Punjee "and 1/20th in Nunjee, the farmer register is to be "altered"— but the practice which has obtained in this District is that any difference exceeding

exceeding 6¼ per cent should be taken to account either in favor of the Government or the Ryot as the case may be — And if differences of this trifling character are adjusted with reference to the observations contained in the Board's Proceedings of the 2d July 1846 /Para 8/ it would be productive of very great confusion in the accounts — It was with the view of remedying this evil that I proposed in my Jumabundy report for Fusly 1255 that the System prevailing in Madura or Trichinopoly of allowing credit to the Government or the Ryot for differences above 12½ per cent should be extended to this District also — and I now request that this measure may be either Sanctioned or modified to the required ecstent, if unobjectionable, on the understanding that this rule is to be held applicable to all lands whether Punjah, Garden, or Nunjah

Dated 21st March 1846 Para 31.

24 With reference to Para 10 of the Boards proceedings, I would explain that the discrepancy therein pointed out has been occasioned from incorrect entries made in the accounts of previous years — In last year, an increase of 34 hamlets, and in this of 15 — were discovered and credited in the Poliput accounts, whilst in the Cirkar hamlets, a deficiency of

of two occurred in Consequence of their transfer to some other side within the limits of the Mouja — this omission did not in any way affect the revenue derivable from them and therefore escaped notice —

25 In para 8 of the Proceedings the Board direct the re examination of the arable and waste lands in the Villages of Ettemaday and Poodoor in the Coimbatore Talook — I have not been able to carry out the order in the year under review in Consequence of the many difficulties which we had to overcome in Concluding the Settlement — My attention will be given to this subject, and the result of the second examination Communicated in due Course —

26 The usual accommodation furnished to the poorer classes of the Ryots in this year in the Shape of advances for Cultivation amounted to Rupees 7148 — of which Rupees 7141 — 13 — ″ were recovered within the fusly leaving a balance of 6 — 4 — ″ Subsequently collected in full —

Under an Estimate Sanctioned by Government for Rupees 8022.

27. The increase under the head of Poicid Sounnaday em amounts to Rupees 517 — 5 — 11 Viz. Rupees 503 — 9 — 7 by the augmentation of rent on Enam Lands of the Village Sibbendy, as laid down in Para 34

of

of the Hoo Kooninamah and 13-12-4 by higher offers having been received for Hill rent. The deficiency however, from various causes has increased, exhibiting a Net decrease of Rupees 3,607-4-6.

28 There is a decrease of 2,407 in the number of Puttahs distributed this year below those of the last, caused chiefly by Casualties among the Ryots. The Marginal Statement, will however, exhibit the satisfactory progressive increase in the number of Puttahdars which has worked up gradually since I came to the District.—

30 It is highly satisfactory to me to lay before the Board the subjoined Tabular Statement of the Collections, the promptitude and punctuality in which they have been realized is unequalled on the records of this Office.

Fort St. George 29th May 1848.

33. The chief causes of decrease in the Extra Sources of Revenue are the abolition of the Custom stations on the Cochin Frontier, short supply of Tobacco to that state, and diminished sales of Sandalwood.

200 Candies also to Travancore

34 The aggregate collections from all sources (exclusive of deposits and other receipts not being revenue) amount to Rupees 21,052,63 — 7 — 9 and the charges of management are Rupees 2,59,890 — 2 — 8 or 10 — 12 — 11 — per cent, which is more than the percentage of the preceding year by 7 Annas, 7 pice, caused principally by diminished collections with reference to the Amount of remission granted this Year, and partly by an increased expenditure for Extra or Hungamah sibbendy.

35. The report of the Sub Collector on the Settlement of the Talooks under his charge is transmitted herewith which is so explanatory of his management and in every way so satisfactory in the success which has attended it as to require no comment in commendation. I have found Mr. Bird an Able Coadjutor in the trying year under review.

36. I would take this opportunity of bringing favorably to the notice of the Board the names of my Assistants Messrs. Wallhouse and Chanier with whom I have had every reason to be fully satisfied.

37. The Board are aware that the latter

latter Gentleman has been removed to officiate in Acting Appointments since July. These Young Men possess first rate business habits to which they add consideration patience and have become deservedly very popular with the people, and I have no hesitation in predicting that they will be found more than common by well qualified to hold, with efficiency and advantage to the Public interests, any situation they may be called upon to fill by Government.

38. Again I have to introduce the name of the Head Sheristadar Ramakristna Pundit in terms of undiminished applause. His untiring labour and searching scrutiny of the Village Accounts in the late trying season have never been surpassed and I lament to think that a most severe illness was the consequence, by which his constitution has been much shaken. His anxiety at all times (and more particularly in the late Settlement) is out of proportion to his bodily strength. He is getting old, and drawing on to the period when he becomes entitled to a pension under the rules. I however trust that he may be long spared to the service, for his relinquishment of office would prove a great Public loss and indeed most difficult would it be to discover, combined in one person, so many valuable traits of character. Public as well

well as private.

39. The sum of this report is that in a year of unexampled severity like the present in which the total of all of rain was below 7 inches, the demand was merely less by Rupees 62,244-11-6 than that of the one preceding, on the whole a District maintaining an increase of 1,34,068- 1 " above the average Settlement of the last ten years, the balances remaining uncollected do not exceed 1741-2-9. The remissions amounted to 1,23,906-14-3. and had the season been of an ordinary character the Settlement of

of my Division would have exceeded the highest standard by Rupees 36,013 — 2 — 5 — in support of which the Statement No. 20 is forwarded herewith which will display the gradual, and profitable increase in the revenues of my Division of the District which has taken place during the last seven Years.

Principal Collector of

Coimbatore

Sir

Para 1 I have the honor to submit the usual Statements and Accounts in English and Canarese connected with the Annual Statement of the Land Revenue in the four Talooks — Comprising the Sub Division of the Coimbatore District for Fusly 1256/1848/47.

2 The season was a very unfavorable one. Rain was scarce both in the early and late months in which it usually falls and the holders of Poonjah lands particularly in the Coughiem and Darapooram Talooks were great sufferers. There were some Villages in which it is asserted that not a grain of Poonjah produce was reaped, Nunjah lands under channels from the rivers, with the exception of those near the termination of Ambraounty, were sufficiently watered, and lands under wells in the great majority of cases yielded Crops, though not always good ones. But the four tanks in the Division produced little or nothing. The total Beriz of the tank Ayacut of the division is Rupees 72863 11 3, the revenue this Fusly

After

after remissions was only 9272 11 0. The

Statement No. 1 purports to show in how many Villages rain fell during each Month of the year. Very little dry land could be taken up in any part of the Division till late in September when showers were tolerably general. Cultivation then proceeded with much spirit and as will be afterwards shown in Statement No. 10 the Dittum exceeded the settlement of the preceding Fusly by more than 24,000 rupees, but the absence of rain subsequently made it necessary to give remissions for unproductive lands to so great an extent that the Settlement, vide Statement No. 12, fell below that of the former year by upwards of 24,000 Rupees. Want of grass was nearly excessive during the last Fusly and considerable loss of Cattle ensued while those who had the means were obliged to send their herds to distant places for pasture. But the heavy fall of rain which occurred in

mitigated this Calamity very materially.

3 Cholera prevailed occasionally in different parts of the Division but happily there was no general violent out break of the disorder. Nor of any destructive epidemic.

4 The prices of grains are given in the annexed Statement No. 2. It was to be expected in such a season that they should have risen as much as they did.

5 In Poonjah including Garden Poonjah Cultivation there was a Decrease compared with Fusly 1255 amounting in money to Rupees 20892 11 3 The number of Bullahs of land occupied was greater than in the preceding year by 1718 11/4 the deficit of Revenue is due principally to remissions granted under orders of the Board of Revenue

Fort St. George 29th May 1818.

Revenue, Garden lands yielded 2128-3 more than in Fusly 1255 (A.D. 1845/46) For the abstract of those Items vide annexed Statement No. 3

7 There was no failure of water in the Cavery during the Fusly under review, there was nevertheless a decrease of extent of Cultivation as shown in the last quoted Statement in lands watered from that river of Cawnies 59¼, the greatest part of this occurred, vide Statement No. 5, in the Villages of Nunjah Tolacoreby, Cadumbacoreby, Nunnyoor and Pogaloor, which are dependent upon one main channel which the ryots had neglected at the proper time to clear out. Care has been taken that this shall not occur again. In Vangul there was a decrease of Cawnies 11-15½, part of which were Yeripoo Maidon lands which were relinquished in consequence of being assessed this year with full teerwah in conformity with the orders of the Board of Revenue dated 20th October 1815 under sanction of Government dated 20th September 1815. The effect of bringing this Yeripoo Maidon land, part of which is situated in Nerroor and part in Vangul, under full assessment was (Vide Statement No. 6) that Cawnies 11-6 assessed at Rupees 121-8-1 were abandoned and the Cawnies 258 4¾ which were not relinquished paid Rupees 995-2-7 more than they would had they been charged as heretofore. This increase together with Rupees 141-6-9 levied on waste lands brought under

under its Cultivation gave an increase of Pagodas 116. 9. 4 from which deducting 123. 9. 11 the total amount of decrease in Villages under channel from the Cavey there results the increase shown in Statement No. 4 of 692. 15. 5

The Ambraavitty was well supplied with water for the most part, though there was an occasional deficiency, especially in the months of August, November and December and March in consequence of which a good deal more land than in the previous Fusly (Vide Statement No. 4) in the Villages near the end of its course was left uncultivated, and a good deal of shaves occurred which will be noticed in its proper place.

Notwithstanding the decrease of Cultivation just noticed there was a total increase of Cultivation under the Ambraavitty as shown in Statement No. 4 of Cawnies 304 13/20 paying Rupees 891 11 3.

Cultivation

9 Cultivation under tank was undertaken to a greater extent than in the preceding Fusly by Cawnies 177 - 13¼ but the best tank lands Viz: those under the Boodeamuttum Tanks having been left waste the average being was much below that of the former years tank Cultivation, and partly in consequence Remissions for shares which will be noticed hereafter the Settlement was less, vide Statement No. 6, than in Fusly 1225 / 1815/16 by Pagodas 12 - 13 - 9 and the Settlement of that Fusly was less than of the preceding by Pags 1142 - 7 - as I had occasion to show in my last Jummabundy report on this Division.

10 The Jummabundy of Darapooram and Chekraghurry Talooks was commenced in the Month of December which was too soon, as the success of much of the growing grain then depended upon one more fall of rain which appearances indicated but which did not occur. I was pressing to ask for leave of absence for two months and wished if possible to make the Settlement before quitting the District. Anticipating the arrival of orders for extensive remissions the Puttahs of such ryots as had left considerable portions of their Puttah lands were not prepared. The rest were distributed but the failure of Crops for want of the hoped for rain rendered

necessary afterwards to alter many of the Puttahs in both the above named Talooks. Conghiem was settled in January after the receipt of the orders about remissions, and Carore after my return from absence in the Month of April.

11 Remissions were given as nearly as circumstances permitted in conformity with the orders of the Board of Revenue dated 21st December last, and the instructions conveyed in the Tindivee official memorandum from the Principal Collector addressed to the Sub Collectors Seristadars dated 2d February, excepting that in general they were refused in cases where land out of Cultivation having been applied for by independent parties the former holders under the rules in force prevented this being given, and bound themselves either to Cultivate or pay the tax for them. There was little difficulty about settling the Conghiem Talook. Some Villagers were examined and the returns made by the Cummums and Head members being found correct the returns were assumed to be faithful, and remissions calculated accordingly. The whole of the Chekraghurry Talook the majority of the Villages in Carore and a few also in Darapooram were inspected by Gomgoor and Talook Servants deputed for the purpose

purpose to that I trust upon the whole the settlement has been as fair as could be expected to both Government and the Ryots. A few cases occurred in which from the removal of the Stubble from the field it was not possible to ascertain correctly whether a Crop had been reaped or cattle set into graze the fields and some times conflicting accounts given by the Cummums and the ryots made it doubtful whether remissions were rightfully demanded, and in such cases the claims of Government were asserted.—

12 The total amount of remissions given for failure of Crops and land not Cultivated for want of rain was Rupees 4509 1 8 the detail of which is contained in Statement No. 8.

Besides the above remissions Rupees 1172 2 11 were given for uncultivated lands which heretofore the occupants have always left untilled but retained and paid tax for on account of the value of the Grass for other reasons, other than as per aforesaid Statement No. 10 were lost to Government by the death, absconding &c. of holders of lands which were not cultivated, and of Motarpha ryots, so that the total amount to be deducted from the Cittum was Rupees

11 Statement No. 12 exhibits the amount of Dittums (Ayen and Motursha) and Remissions and Compares the Dittum and the Settlement after deducting remissions with the Settlement of the preceding Fusly. It will be seen that though the Dittum exceeded the former Fusly's Settlement by Rupees 24,119 14 8 the actual demand fell below it by Rupees 26,372 11

10 The total demand for Fusly 1250 (1840-41) in this Division (exclusive of Poligar Peishcush amounting to Rupees 9160-4-11 which was punctually paid) (was Rupees 666855-10-11 of which, vide Statement No. 14, Rupees 66566-15-0 were realized before the end of the Fusly - Subsequent Collections up to September 30th it will be seen amounted to Rupees 4112-7-1 leaving an outstanding balance of Rupees 1177-4-4, a result I think very creditable to the exertions of the Tahsildars. The whole revenue of Davaroom was collected before the end of the Fusly. Of the arrears due in Coughiem Talook the portion due by Motupharyots will most likely never be entirely realized. The greatest part of the arrears of land revenue due in the same Talook Viz. Rupees 201-11-10 is from the Village of Cuttanoor which suffered more than most for want of rain. It depends for its Nunjah on a tank whose water failed before the ears filled and although remissions were made upon all the shares which was left for inspection, the people complained and probably with truth that much of the paddy which came into ear did not produce grain enough to pay the tirwah. In this however no remission was allowed. The Balance in Cavoor Talook is principally in four Nunjah and one Poonjah Villages*

And ancoil and Lutchmeenarayenapooram are at the close of a long channel which irrigates two other Villages before reaching them. The supply of water is uncertain so that the better kinds of grain cannot be ventured. It is always difficult

ryots to cultivate to any great extent in these villages and always difficult to realize the kists when they have been induced to cultivate. In Nerioor nearly all the balance + is due from one ryot whose land it has been necessary to attach. In Pogaloor the difficulty of collecting the revenue is connected with the failure of the channel which as noticed above in Para 7 the ryots were negligent in having cleared out at the proper season. With respect to the large balance in Cavitrum there is reason to believe that most of the money has been collected from the ryots by the Village officers and not remitted to the Talook treasury. The subject is under enquiry. In Chekaray Talook the balance is entirely due from two Villages in the proportions noted in the Margin. The ryots owning balances in Amandacadavoo in number ten or twelve are said to have concealed themselves and it is acknowledged that the Crops in that Village were very unproductive. The only defaulter in Goodimungalum is an unsuccessful party in a suit in the Talook Moonsiffs Court whose property is under attachment to satisfy the Courts decree. The Government demand will be recovered in whole or in part from the proceeds of that sale. The whole of the Tuccavy advanced to the ryots on Fusly 1250 amounting to Rupees 2587 was recovered before its termination

17 The balance for Fusly 1255 amounted at its termination to Rupees 889 12 8. It is now reduced to Rupees 87 9 5

18 The arrears outstanding for preceding Faslies (vide Statement No. 15) have been but little diminished. They are mostly irrecoverable as I observed in Para 11 of my last Jumma Bundy report to which I beg to recall attention.

a contract to supply Timber to the Bombay Govern-
ment annually offers 11 Rupees for a Tree of superior
size, nine Rupees for a medium, and 8 Rupees for
that of an inferior description.—

4. The fee hitherto paid and still under
payment in Malabar, under the designation of
"Coottecanum" is a Rupee or Rupee and half a
Tree without reference to size, and the Board will
therefore perceive that by patience and great efforts
the profitable results above alluded to, have been
arrived at, and which I need not add are highly
advantageous to Government.—

5. The Board will not also fail to
observe that from the tenor of the agreement en-
tered into by the Parties, that the enhanced
rate of payment of "Coottecanum" or Tree tax,
will not in any way augment the price to be
paid by Captain Williams for Timber purchased
for the Bombay Presidency which will remain
the same as at present.—

6. The Annimalli Forests are estimated
to contain 210,000 Two lacs and Ten thousand
Teak Trees. This is merely a rough calculation
and I have no doubt, at least, I am informed
by Parties who are well acquainted with the character
of the said Forests that when a correct compilation is

is made the number of Trees will far exceed the
present approximation to an Estimate. This, however,
is a matter for future consideration, and will be set
at rest, by the examination and report required by
Government in Extract from Minutes of Consultation
on the Marine Department bearing date the
24th January Cast. No. 34. Calculating therefore,
the lowest number of Trees with reference to the aver-
age rate of Mr Tomlinson's offer, the profit to Go-
vernment amounts to about 19,00,000 Nineteen
lacs and Sixty thousand Rupees, an advance on
the Malabar System of Rupees 10,45,000, prospectively
realizable from Forests from which no profit of
whatever has hitherto been derived either directly
or indirectly, and in fact the existence of which
was very imperfectly known during late years.— This
amount will be the produce solely of the Teak
whilst at the same time, it is proper to remark
that the Forest is swarming with Blackwood Trees of
immense size, and arrangements will be made for
rendering them proportionately profitable to Govern-
ment and it will be more satisfactory to the Board
to learn that this has been effected without the
necessity of a Lawsuit or other expensive pro-
ceeding on the part of Government.—

Vide para 2. of my letter to the Board 12th September 1842. No. 57.

7. I do not apprehend that under this
system of working the Forests, that there will
be

be any means of defrauding Government, for the attention of the conservator, and his establishment will be particularly directed in the conduct of operations, and no other Trees than those selected and marked by him will be cut down.—

8. The objections urged in my communication to the Board dated 14th September 1844 against the renting system, and which the Honorable the Court of Directors have recognized in their General letter of the 22nd October 1845, Ltr 12 para, would not seem to apply with equal force to the Offers now received, in as much as the enhanced rate of payment proposed, and the local arrangements to be made by the Conservator will be the means of preventing the exhaustion of the Forests.

9. Under these circumstances, if the proposed measure is viewed with favor, I request the Board of Revenue will be good enough to obtain the Sanction of Government for the acceptance either of the offer No III or IV as the Board will consider most calculated to further the interests of Government.— The former is from a body of Natives who have acquired sufficient ex[illegible]

Trade, and are capable of acting up to their agreement for many years to come, and the latter is from a single Individual whose life is uncertain. I am however of opinion that Mr Tomlinson's Offer is advantageous to Government for, independent of the benefits of European Superintendence in the working of the Jungle, he proposes to pay more than what the Natives have agreed to do.—

10. Should the Government sanction the proposed measure it will be necessary to allow the Party to commence operations so soon as the rains on the Hills set in, and this may be expected in the Month of May or June next.—

11. The arrangement now proposed by me will not interfere in any way with the survey of the Forests ordered by Government but, on the contrary, it will be the means of facilitating the execution thereof.—

12. I beg leave to request that I may be favored with the early instructions of the Board on this subject for the information of the Parties concerned.—

13. The monthly allowance of £100/ one hundred Rupees sanctioned by Government for the Office of the conservation of Forests is paid to

Fort St. George 29th May 1848.

now holds that appointment and I cannot but record in terms of commendation the active and instrumental part he has taken throughout by superintending and obtaining the offers now submitted.

No. 5.

14. Since drafting the above I have received a further Durkhast from Venecatachellam Moodely and Sashiem Butler of Paulghaut, the Parties who tendered the Proposals No. 1 and 4 agreeing to pay ½ of a Rupee more than the amount alluded to by Mr Tomlinson, but with reference to the explanation offered above I leave the Board to determine and fix upon that which they may think, in every point of view to be the most desirable.

No. 1.

Translated copy of a proposition submitted to J. C. Wroughton Esqre Principal Collector of Coimbatore by Venecataswaren, Son of Annavien of Kollengode and Kistna Chetty, Son of Annial Chetty of Paulghaut in the Malabar Province.

Fort St. George 29th May 1848.

Captain Williams, the agent of the Bombay Government for the supply of Teak Planks, and Beams for the use of that Government, and finding many places of Teak Trees in the limits of Annimalli and Coloor Villages in the Pulachey Talook within the Coimbatore District, we have proposed "Cootteecanum" or Tree tax as shewn below for every Tree fit for supply to the Bombay Presidency viz.—

For every Tree measuring in circumference more than 30 English feet Rupees — 10 — —

For every Tree from 25 to 30 feet Rupees — 9 — —

For every Tree below 25 feet in Circumference which may be converted into Planks for Building Ships going and unserviceable Trees excluded — Rupees — 8 — —

Having thus determined upon the rates of "Cootteecanum" with our own will and consent, we agree to pay the amount due for such number of Trees as we select so soon as they are inspected, measured, and numbered, by Venecatachella Moodelear of Annimalli the Conservator of the Government Forests, and after having obtained a Chit from him, we will cut down the number of Trees therein specified, convert them into Planks and Beams,

and

and transport them to Ponnaney where they will be delivered by us to Captain Williams the Government agent with whom we will settle our accounts. In working the Jungle, we will confine ourselves to the number of Trees for which we have paid the fee, and obtained a document, and no more, taking care at the same time that the Trees which we cut down may not fall on those nearest one and thus injure the Jungle. We will not cut down a single Tree without paying the Coolleecanum or obtaining the Chit.—

2. Independent of the Trees which will be converted into planks &c. for the construction of Ships, any other Trees which may be found defective after felling, and during the process of squaring either by the existence of internal cracks or other injury as well as those which may be broken when falling on the ground, and also the branches of those which we convert into planks, all these are the Property of Government to be disposed of at their discretion, with which we have nothing to do, and to which we prefer no claim notwithstanding the payment of Coolleecanum on our part.—

3. We bind ourselves to furnish the Planks which we have contracted to supply to Bombay exclusively to that Government, and not to sell them to any Merchants, nor appropriate them for our use, nor for the use of others as presents.—

4. But when any of the Beams or Planks are rejected by the Government agent as unfit, we will, with the permission of that Officer, sell them to any Private Merchants according to our pleasure.—

5. Notwithstanding our exertions, it will not be practicable for us to fell more than 2,000 Trees a year, and convert them into Planks, and therefore in order to cut down the Timber as above specified, we will pay beforehand the amount of "Coolleecanum," and prepare Planks to the extent of about 6,000 a year which we will supply to the Bombay Government under the same conditions as above set forth.—

6. Although we are capable of supplying a number of 6,000 Planks or more a year, yet the Officials of the Bombay Government by protract the measurement, and reception of the Planks, and therefore if a communication is

is addressed from this Department to superior authority, and arrangements are made to ensure immediate reception of the Timber, and prompt payment of money, we will add more persons to our member from amongst our people in Malabar and be prepared to cut down about 10,000 Trees per Annum, and supply 30,000 Planks paying the regulated Coottee canum thereon.—

7. We have hitherto been working the Jungle in the limits of Vengana and Numbidy on payment of Coottee canum, and as we have now to carry on our operations in this District, the Numbidy actuated by feelings of malevolence, will molest us, and prevent the transport of the Timber within his limits either directly or indirectly.— We therefore request that the Collector of Malabar may be written to, to the effect that he may send instructions to the Police authorities in his District to afford us the requisite assistance in the conveyance of the Timber to Ponnany.—

8. For our correct and good behaviour in the supply of Timber to the Bombay Government according to the above conditions, we will give security to the amount of one lac of Rupees, or to tender our own Landed Property to

to that amount in lieu of security.

9. By sanctioning this proposition, it will not only produce a great advantage to Government, but also facilitate the supply of Timber to the Bombay Presidency to the required extent.— We therefore request that our prayer may meet with your favorable consideration & orders.—

10. In the transport of Planks alluded to, in para 7 should the Numbidy molest us, or have recourse to acts of irregularity, we hope that a direct line of road may be selected, and put in proper order in the Government Limits to enable us to convey the Timber by that road to the Cunnadey Palay River, whence the Planks will as usual be floated down to Ponnany by that River.—

11. In working the Jungle upon this contract should at any future time, the Government consider it necessary upon any grounds whatever to order the discontinuance of our contract, it is necessary that a period of one year should be allowed to us previous to the suspension of operations in which case we will cut down within that time such number of Trees as we are entitled to

to fell upon the average cutting of the last fo
preceding the period of the notification of so
hibition after which, we will relieve our
from all responsibilities without claim
tinuance of our contract.—

12. We have tendered this proposal
ence to the rates at which the Bombay
ment Agent has now agreed to pay us, and
reductions are made in those rates of pa
we are not willing to supply Timber.

13. Should we, our Partners or Ser
act contrary to the tenor of this Durkhast
agree to make good any loss which the Gov
may sustain thereby, by the sale of such
of our real and personal Property, and of the
of our Securities as may be sufficient to
good the loss according to the provisions
Regulations as are enacted for revenue
faulters, and also to forfeit this contract
every minor offence, we are to pay to Gov
a penalty of 35 Rupees. Thus do we make
Durkhast in the Kuzzoor with our own
and consent.—

To,

J. C. Wroughton Esqre
Principal Collector of
Coimbatore.—

My Most Respected Sir,

I respectfully beg leave to request that the Privilege of cutting Teak Trees in the Annemalli Jungle may be rented to me. I propose to pay for each Tree of a Marketable size that will be cut down at the rate of 10½ Rupees for the 1st Sort, 8½ Rupees for the 2nd Sort, and 7½ Rupees for the 3rd Sort, and ½ or ¾ or 1 Rupee over and above the Durkhast of Venkataswarien Kistna Chetty &c if permitted. I will cut down the Trees with reference to the Demand Annually for the Timber in different Sorts Alike, not falling short however of 100 trees a year. The Trees thus cut down should be taken to account, with reference to which I will pay the amount into the Kuzzoor Treasury immediately. if it is necessary that I should enter into any Condition, I will be ready to do so, so soon as I am furnished with a Form. The Nemboly Jungles, which adjoin the Circar Forest of Coimbatore, are rented at 1½ Rupees a Tree and

and my object in Offering this Durkhast to the large amount above alluded to, is to obtain the entire Jungle upon Contract with the specification of the limits in order that no other people of Malabar may interfere in the Jungle, and to prove troublesome to me, as otherwise I will be subjected to a very severe loss, and consequently the interests of Government also will suffer. Under these circumstances I request that my offer may be taken into consideration and favorable order granted to me, and that I may be protected.—

Translated Copy of Durkhast submitted to J. C. Wroughton Esqre Principal Collector of Coimbatore by Sowcar Goorroobux Ramsing Iyer of Coss in the Paulghaut Talook, Venkatasw Son of Annavamien of the Village of Mo in the said Talook, and Sashum Butter, Choodawoney Butter of Nooranee in the Talook of the Malabar District.—

We are willing to cut down about the Teak Tree

and Coloor in the Pulachy Talook fit for the construction of Ships, and to supply the same to the Bombay Government annually.—

On the 9th of this month one of us & Venkatasawarien and Kistna Chetty presented a Durkhast offering a fee of Ten Rupees for a Tree of the 1st Sort, 8 Rupees for the 2nd and Seven Rupees for the 3rd Sort.— On the same date another Durkhast was preferred by Goorroobux Ramsing Iyer proposing to pay 10½ – 8½ and 7½ Rupees respectively.— We now jointly offer 10¾ Rupees for a tree of the 1st Sort, 8¾ for a tree of the 2nd Sort, and 7¾ Rupees for a tree of the 3rd Sort, the conditions as regards the felling and transport of the Timber to be the same as that entered into in the previous Durkhast of Venkatasawarien and Kistna Chetty.—

Mr. Tomlinson is our Partner, but in consequence of his absence we are precluded from associating his name in this Durkhast in case of his expressing his willingness to be a Party in this transaction, we are willing to admit him, and should we eventually request your honor to include his name in the Durkhast, permission should be granted accordingly.—

As already stated, we are willing to pay the rates of Cottee canum now offered and

and to abide by the agreement setforth in the document executed by Vencataswarien and Kistna Chetty, but if it is necessary to enter into a fresh agreement to that effect, we will be prepared to do so.— We respectfully solicit that our Prayer may be granted.—

To,

The Principal Collector
Coimbatore.—

Sir,

I very respectfully beg to submit through you to the Members of the Board of Revenue, the following proposition and to solicit your recommendation that should such meet their views, the Honorable Board would have the goodness to forward the same for the sanction of Government with the influence of their support and countenance.—

The Father of the late Mr Gardner of Paulghaut in South Malabar held for a series of years under the Agent of the Government

of Bombay, a Contract for the supply of Teak Timber, and after his decease, his son continued to fulfill the Contract to the satisfaction of that Goviernment, and of their Agent Captain Williams of the Indian Navy.—

Mr H. Gardner died in June 1845 and since his death, I entered into a Contract on my own respensibility with Captain Williams, a Copy of the Contract is herewith annexed for your information and that of the Board of Revenue.—

The Forests from which I now supply Timber for the Government of Bombay, are those of the Numbidy of Colungode which produces Timber of Sufficient dimensions to enable me to fulfill my Contract, but not of that superior description that I would wish to furnish, and as such is to be found in the Government Forests, and as the same is really intended Bonafide for the use of the Bombay Government, I beg most respectfully to make the following proposition, and to solicit that Government be pleased to grant me their Sanction to fell Timber (Teak) in their Forests of the Coimbatore District agreeably to the tenor of my Contract with the Agent

Agent of the Bombay Government. The Govern-
ment of Madras reserving to themselves the right
of Felling and removing from Forests whatever
quantity may be required for use in Public
Buildings.—

The following are the rates I am willing
to pay for each Tree of Teak that I may fell:

For every Tree measuring in Girth 30 English Feet and upwards } Rupees Eleven.

For every Tree measuring in Girth 25 English feet and upwards to 30 Feet } Nine.

For every Tree under 25 Feet in Girth, and for all such Trees, as may be found after being felled so far de-
fective as not to produce more than two Planks — — Rupees Eight

or with a view of simplifying accounts I am pre-
pared to pay for every Teak Tree felled, without re-
ference to measurement the sum of Rupees Ten
with the exception of those found defective
for which I pay as already stated.

I have served the Honorable Compa-
ny Since I may be permitted to say faithfully
for a period of Twenty two years. Fifteen of
which were employed in the Ordnance De-
partment. Should Government be pleased

to accede to my request, there will exist the
advantage of having European Supervision
in preparing for the use of Government any
particular description of Timber for the
Construction of Gun Carriages or other
Ordnance purposes, respecting which I pre-
sume to say, I have some knowledge, and I shall
always be ready on your requisition and that
of Government, to proceed to the Forests, and
select and superintend the felling of such
Timber as the particular purpose of Govern-
ment may require— but as the present mode
of Transit will not allow of Timber of
heavier weights than that stated in the Mar-
gin. Special measures would be necessary for the Transit of the same.

Malabar or English Rolls.	Barrels.	Feet.	Inches.
Length— 10 —	" —	30.	"
Breadth— " —	10 —	1 —	"
Thick— " —	8 —	" —	10.

I therefore now very respectfully
solicit that I be allowed under the authori-
ty of Government to fell any quantity of Teak
Timber I may require from time to time du-
ring the period of my present Contract, with the
Bombay Government, and for any longer
period agreeably to the renewal of my Contract

not

not exceeding twelve years, and that no other private Individual shall be allowed the same privilege in the same Forests during the period of such Contract, unless in connection with myself, and as I am bound by the 6th Para of my agreement with the Bombay Government to deliver every Plank of Teak Timber I cut into their Depôt at Ponnany.— I agree to bind myself under a heavy Penalty that I will not directly or indirectly dispose of a single Plank or Log of Teak Timber by private sale, until the whole shall have been lodged in the said Depôt at Ponnany, and that only when any are finally rejected by Captain Williams of the Indian Navy and Agent of the Government of Bombay and pronounced totally unfit for Government purposes.— I shall consider myself at liberty to dispose of by private sale and I would here beg to observe that it is not my intention to demand from the Bombay Government any increase to the present price I receive nor the prices formerly prevailing under the plea of furnishing superior Timber.

Should Government be pleased to

accede to my wishes I propose by degrees to introduce a more economical System in the felling of Trees and converting them into Planks than the mode at present adopted— and should I fail in fulfilling the agreement I may enter into, unless by any unforeseen event over which it may be proved to your satisfaction and that of Government that I had no Control, I shall be prepared to submit to any Penalty that Government may consider proper to impose upon me.—

I would very respectfully solicit in the event of Government being pleased to accept of my proposition, that instructions may be given for the transit of the Timber en route to the Depôt at Ponnany, it being Government property, without any molestation on the part of the Numbidy of Colungode, through the very small track it would have to pass his Country.—

As the cutting season commences in May or latest in June, may I very respectfully solicit you will be pleased to favour me with the decision of Government at your earliest convenience.—

Having resigned the service of the Honorable Company after a period of service extending

extending to upwards of 22 years, without any provision; and as my resignation took place & under very peculiar Circumstances in connexion with the Estate of the late Mr. Gardner to which I was appointed Executor, may I beg you will kindly extend to me your valuable support and recommendation in this my application.—

Provinces continue to present satisfactory results. The excess in the Current sales of this Article amounted in Fusly 1256 to Rupees 13,229—11—6 over the preceious year and were above the average of the five years of comparison by Rupees 75,632—5—10. Both in the Inland consumption and Home sales there was an advance on the past years Revenue and it is matter of satisfaction to the Board to learn that the improvements lately effected in the internal means of communication conduced to the former excess and that the latter enhanced Revenue in great measure arose from the absence of endemic disease which in Fusly 1255 deterred Traders from resorting to their district.

results hitherto not disappointed the expectations entertained of their public convenience although it is stated that the abundant nature of the season in Mysore limited the demand for inland consumption which under ordinary circumstances would have enhanced the sales from these Depots.

4— The large decrease in the annual Charges is explained by the Collector to have arisen from the quantity of Salt manufactured within the district having been considerable in the preceding year, thereby restricting the outlay from the purchase of the imported Article, the Board hope that every exertion will be made to promote the local manufacture so as to make the resources of the District supply as far as practicable its own demands, they regret however to find that owing to the Hurricane which visited the W. Coast in April 1847 the quantity of Salt manufactured was reduced to Garce 911 it having amounted in Fusly 1255 to 3,651 Garce.

Para 8 — 6 — There was a falling off in the Sayer or Land Custom receipts both in exports and imports, which is considered to have arisen partly from the derangement which the ordinary trade across the frontier experienced consequent upon the operation of Act VII of 1846 by which a prohibitory rate of duty was fixed on the importation of Goa Salt into Canara thereby diverting the traffic thro other channels to the prejudice of the Frontier Collections which appear also to have been affected by the less demands for rice in Goa and it is apprehended also by the increase of contraband trade for which the local circumstances of the Country afford facilities

8 — The principal decrease of this branch of Revenue occurred in the item "Cotton" consequent upon the late orders of Government exempting from duty unobserved Cotton Wool exported from the Ports of Canara to Bombay. It is gratifying to observe that the quantity of this staple product exported from Canara in Fusly 1256 exceeded the exports of the preceding year by 7897 it is not however explained whether this circumstance arose from the more extended cultivation of the article or from the previous suppression of exports on the part of the Merchants pending the application of Act II of 1846.

The Collections under this head of Amendive Island present a large decrease and fall short of the charges incident thereto by Rupees 2,77-13-9 the storm which produced such disastrous consequences in the Coast and especially in these adjacent islands interrupted the imports of their staple article Coir which however exceeded that received in Fusly 1255 by 50 Candies

Net Revenue
Fusly 1255 — 750324 — 11 — 7

The grosp Collections of Revenue under all the foregoing heads amounted to Rupees 10,23,365 — 14 — 4 subject to a charge of Rupees 2,64,382 — 4 — 11 thus reducing the Net Revenue to Rupees 7,58,983 — 9 — 5 but which nevertheless exceeded the Net Revenue of Fusly 1255 by Rupees 8,638 — 13 — 10. It is satisfactory to find that of this large amount of Revenue collected from such various sources the whole was realized within the Fusly except a small balance of Rupees 1,912 — 4 — 8 which was also reduced by the close of the Month of September to Rupees 117 — 15 — 9.

Ordered that a copy of the foregoing Extract from the Board's Proceedings with the annexed Comparative Statement of the Collections charges and Net Revenue be submitted to Government and a transcript of the same be forwarded to the Collector of Canara for his information and guidance.

Enclosure No.ⁿ 1 Plan.

Order thereon. Ordered that the following Endorsement be passed on Petitions Nos.ˢ 573 and 820 of 1848 respectively.

The Board having received a Report from the Collector on the subject of this Petition together with a plan of the ground in Petitioners occupation, observe that besides the land belonging to Government held by them they also occupy some private property. Petitioners are directed to attend at the Cutcherry when the Collector will point out to them the extent of Sircar and private property held by them respectively.

From the Collector of Madras.

Sir,

With reference to the order of the Board of Revenue under date the 30.th April

Fort St.ⁿ George 29.th May 1848.

last on the enclosed petition from Chennooga Jumberoo, No.ⁿ 564 of 1848, which accompanied Mr.ᵉ Roupell's letter dated 3.d Ultimo, I have the honor to subjoin Copy of my endorsement of date the 12.th February shewing the grounds upon which I considered the petitioner's objection to the issue of the Certificate requested by Chennacolunda and her son Seyala Modely inadmissable. This Endorsement the petitioner did not think proper to submit with his petition to the Board.

2 On the receipt, however of the said petition at this Office, I required the attendance of the petitioner to enable me to institute an enquiry into his allegations against Vurdarajooloo Naick the Native Register of Grants and Certificates, which he offered to prove by respectable Witnesses, but I could not get him to make his appearance before me; A special notice in writing addressed to him afterwards, to appear on the 5.th Instant has been equally unsuccessful. I subsequently called upon Chinnacolunda to state whether there was any truth in the petitioners assertion. In her examination, as taken before me on the 6.th Instant, she denies that she gave any money to Vurdarajooloo Naick or any body else to obtain the Certificate

adding that she is herself very poor, and therefore unable to make any disbursement of the kind.-

Copy of Endorsement given on a Petition from Shunmooga Tumberam dated 23d July 1847- No. 3058-

Petitioner produces a Mortgage Bond dated 13 Vyasee of the year Pelavunga corresponding with the 25th June 1847, whereas on an application from Chinnacolunda and Segala Moodely, who produced the original Title Deeds duly assigned over to them, and are in possession of the property herein referred to, a notice was affixed on the premises on the 11th February 1847 that is 4½ months before the execution of the alleged Mortgage Bond - The Collector cannot therefore attend to the Petitioner's objection.-

Order thereon (48-49) Ordered that the following Endorsement be passed on Petition No. 564 of 1848.-

From the Statement of the Collector to whom this Petition was sent for report, it appears that an application for

a Certificate supported by the requisite vouchers was preferred by the party in whose name the land is now entered in the public accounts - 4½ Months prior to the date of the Mortgage Bond under which the Petitioner claims Under these circumstances the Board of Revenue cannot interfere.-

Sir

In reply to your letter No. 103. of 19th April 1848. I have the honor to state that Mr. Herrick therein mentioned died on his way to England.

2nd I have submitted the substance of your communication with the form of Lease to Mr. Richmond and I annex a Copy of that Gentlemans reply.-

To Wm. Acland Esqre.

Sir, Honorable Company's Solicitor Bombay

I have the honor to inform you in answer to your No. 246, that in consequence of late occurrences, the death of Mr. Herrick being one, it is not my intention now to take up the land from the Madras Government formerly applied for, and which the Lease you allude to refers to.

Under these circumstances it is needless entering upon the terms of lease, which when formerly submitted were of a nature I could not agree to, and have the honor to remain, Sir.
