unobjectionable.

8. The Board are of opinion that the measures proposed in paras 7-8-and 9 for the payment in money of the Village servants may be sanctioned subject to reconsideration hereafter on the general revision of the allowances of the Village servants throughout the District, in which arrangement that for Juddunghy will be incorporated.

7. The Talook of Tapapully containing 61 Villages will form part of the Police charges of the Juddunghy Amildar - It is now in the enjoyment of Wooddunda Jaggapa Dara another Monsifdar who held under the Zemundar of Peddapoor - That Zemundary having lately reverted to Government by sale for arrears of Revenue the service due to the former Proprietors by the Moonsifdar, Viz. that of attending with his followers in the event of disturbances on the frontier, must henceforth be rendered at the requesition of the Sirkar - It is presumed that it is not intended to interfere with the possession of the moonsifdar except in Police matters - It is

is observed that no Peishcush is now payable by that individual, some of the best Villages of the Talook having some years ago in consequence of the irregularity of the Moonsifdars payments been seized and annexed to the Peddapore Estate, all demands of Peishcush were relinquished from that time.

8. It remains lastly to notice the state of the communications in the Talook. There are it is stated "no roads deserving the "name in Juddunghy - but there are two "thoroughfares which are available for Bullocks carrying burdens and which may be "easily traversed by horsemen - One leading "from Linguimpurroo in the Peddapoor Talook "to the North west through yaloor - and Volungly to yellarum the frontier Village a distance "of 14 miles - The other line passing from Yaiswerum through Unnarum and Goontevaneypolliem to the Cusbah Juddunghy when a "smaller roadway leads into the Golgoonda "Zemindary" - If these two roads be cleared of Jungle leading "a tract 80 or 100 yards in "width, and if 5 wells be dug at regular "intervals

"intervals it will tend greatly to the benefit of
"the people. The opening of the Communication
"from Golgoondah through Juddunghy to Ped:
"dapoor and Rajahmundry will save travel:
"lers a great Circuit, will promote trade &
"and will give the hill people the benefit of the
"products of the plain in abundance. To clear
"these roads the services of a party of Pioneers
"will be required and to them the work will
"be easy. but whatever may be the amount of
"labor and expence incurred it will be more
"than comprehensated by the security and
"tranquillity that will be ensured. The open:
"ing of the line of road from Rajahmundry
"to Soory skirting the hills, had the imme:
"diate effect of checking the hill robbers and
"of bringing a large tract to the Eastward
"under cultivation, and in like manner a
"Military road through Juddunghy and Gol:
"goonda cannot fail to secure the peace of
"that Country, while it may be expected to
"add greatly to its resources." The importance
of opening out lines of Communication through
such tracts of wild and difficult Country as
that under notice is unquestionable, and should the

the Government concur in the expediency
of the measures for this purpose, suggested
by the Collector, the Board will be prepared
to take his proposals into consideration
in the Department of Public Works.

With the few modifications

G.
pointed out in the preceding para as the Board
approve the arrangements recommended
by the Collector for the management of the
Juddunghy Talook and they resolve to sub:
:mit them for the sanction of the Right
Honble the Governor in Council. They
notice with much satisfaction the general
tranquility, and the decrease of crime
which now prevail in that part of the Coun:
:try, and the attention paid to its administra:
:tion by the Collector and Magistrate Mr.
Crendergaste.

From the Collector of Rajahmundry. Read letter
submitting an application from his Assistant
Mr. W. Hodgson for leave to remain at the
Presidency till the 31st August on medical certi:
:ficate.

12

Order thereon.

Ordered that under the explanation offered
by Mr. Hodgson his application be submitted
through the Channel of the Civil Auditor for the
favorable consideration of Government.

12-13.

Fort St. George.

(14)

Reporting on the accompanying Petition No 503 of 1848 presented to the Board of Revenue by P. Davacariah and also forwarding a Genealogical Tree.

No 503 of 1848

From the Collector of Cuddapah — Sir,

Para 1 Agreeably to the instructions contained in your letter of the 3d Ultimo, I have the honor to report on the case with reference to the accompanying Petition from P. Davacariah complaining of the intention on the part of the widow of the late Incumbent to dispose of her share of certain Iron smith Inerafsy annexed to certain Villages in the Talook of Chitwail contrary to the Provisions of Regulation VI of 1831. The Inerafsy in question amounting to Rupees 145-11-8 together with the Inarah / which is Rupees -14-13-9 / has hitherto been enjoyed by the descendants in the female line of Petitioners grand uncle, the same having been entered in the name of Gungabuthoodoo / Petitioners grand uncles son in law / in the Pymash accounts and in the Enamty accounts in that of Siddoojah the Eldest son of the said Gungabuthoodoo

as in the accompanying Genealogical Tree.

There

There is no dispute regarding the Carpenters Enam, the Petitioner being in the Enjoyment of the whole attached to the said Villages. It would appear that Petitioners Grandfather / the adoptive father of his father / and his grand uncle (Brothers) enjoyed separately these two descriptions of Enam and carried on the Vocations of their respective Trades, their descendants performing also these separate duties for which the Enam was bestowed.

The widow of the last Incumbent has nominated a Goomastah for the performance of the duties required, and in the exclusion of the disposing of the Merafsee in question any transfer which may be made shall be considered null and void, any any document executed consequent thereon shall be cancelled according to the Regulation and Rules in force.

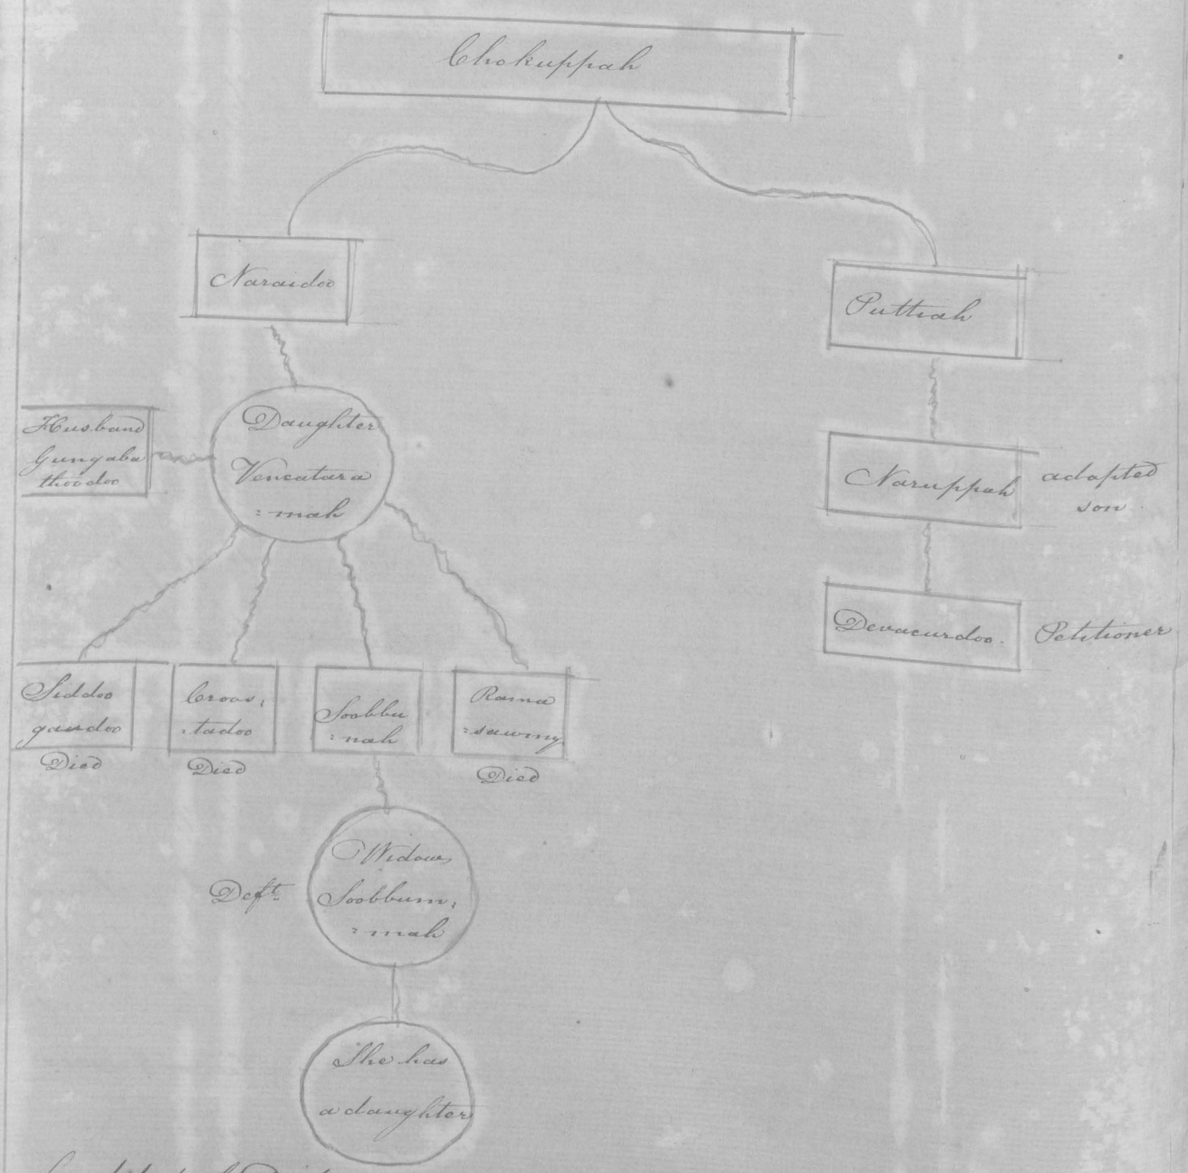

Cuddapah District Collrs Office on Circuit Muddenpully 20th May 1848.

/Signed/ J. H. Cochrane
Collector

Proceedings thereon:- Ordered that the following Endorsement be passed on Petition No. 503 of 1848.

14-15

Endorsement:- From the report of the Collector on the subject of this Petition it appears that the Defendant has nominated a Gomastah for the performance of the duties of the Office - any measures which she may take for the disposal of the meraseey by sale or transfer will not be recognized nor will any claims founded on such proceedings be admitted as valid in the event of her death.

16

Sir,

From the Actg Collr of North Arcot. — Reports on the accompanying Petition No. 1909 of 1847 and states that under the circumstances set forth the prayer of the Petitioners cannot be granted. —

No. 1909 of 1847 with Petition returned

Para 1 The Petition noted in the Margin was presented to the Board by the Arrack renters of this District for Fusly 1253, claiming compensation for loss occasioned to them by the existence of a Number of Military Arrack Pea Shops within the limits of their Contract —

The Board are aware that

2. Mr. Turner the Renter for Fusslies 1251 and 1252 put forward the same claim in the latter fusly, and was ultimately allowed compensation, this it is which led to the present petition — I will not trouble the Board with a recapitulation of the circumstances of the former renters claim, which are all recorded in their Office — On looking over the papers it appears to me questionable whether in strictness Mr. Turner could claim compensation, since he was put in possession of the farm in precisely the same condition as it had been in during all previous

previous years - In ultimately allowing him only one year's compensation, though he held the rent for two years the Board and Govern=ment denied his absolute right and seem to have admitted his claim only from the time when he himself discovered and offici=ally complained of the error in the limits.

3. If Turners claim had been ad=mitted as good absolutely, I should have no difficulty in at once recommending that the same compensation should be made to the present petitioners - as I should feel that the point involved in the Case had been conceded. But, as it is, I think there claim is not so clear - In the first place the question as to the limits of the Vellore Military Arrack contract had been openly mooted and was under dis=cussion when Petitioners took their contract - They cannot plead, therefore, that they took it ignorantly; and the point having been raised, they were bound to make a formal stipulation as to the limits of their contract, if they required them to be different from what they had always been - and 2ndly and Chiefly it is well known that the bidders for these contracts determine their offers with reference to the receipts of past Years, compared with any temporary circumstances that may seem likely to affect the current income; - and with reference to the number of Shops actually licensed and opened under the renter, but without regarding the precise geographical limits of the Farm - I think therefore that Petitioners actually received

received and enjoyed all that they intended and bid for, and consequently I am not prepared to recommend that the prayer of their petition should be granted. —

Rough sketch Copy of a Map which bears the Official signature of Captain Ouchterlony and is in the Principal Collectors office.

and ultimately falls in the Bowany River. the Channel which I have cut is entirely over the mountains of waste Land not one inch of which, I understand has ever been cultivated during the Memory of man; the work was undertaken with a full knowledge of the Native Civil Authorities at Koterghherry and with a full consent of the Koters whose Land I supposed it to be. if I have been deficient in Official form it has arisen entirely from ignorance.-

4 If this waste Land be the Property of Government. I humbly hope that the privilege over this stream, which has been brought to Koterghherry by the skill and Industry of Captain Killyard, and with a vast outlay of money from myself will be granted to me by Government.-

5 Captain Ouchterlony has in a Plan of the Ground over which this course is cut affixed his Official signature and therein states that this water runs through a course 22 Inches broad by

by 3½ Inches deep. and does with considerable industry and elaborate shew of Figures endeavour to prove that this stream contains a great extent of water, but his whole calculations fall to the ground, as he commences with a false Data he premises this stream to be 22 inches broad, now there is an apperture of masonry through which this stream runs, and ever has run from the time the water was brought to Bishopstoke, and which runs during the wet season, 3½ inches deep, and during the dry season something less, and during local Rains the water rushes down the Mountains, and of course increases the stream- this apperture of Masonry, is on the opposite side of the Road fronting my Gate, and which Captain Ouchterlony must see every time he passes that way to the water course, I apprehend Brick and Chunam will neither expend or contract to suit any mans argument, but there is the fact of a water course, having a Channel of 11 Inches broad and there is Captain Ouchterlony's Map wherein it is stated that this stream is 22 inches broad thus giving an opinion on a point where his private interest, and his public duty are opposed to each other. these are the facts

to

to speak for themselves. In the same Map Captain Ouchterlony takes no notice of the situation of my Cottage, which is material to the question he notices however the tank in my Grounds, but no where mentions that this water runs from this tank in a small stream round the Mountain in my Grounds passes my stables and the Ground where all my servants live and then goes on to irrigate the two best Vegetable Gardens, on my Property, and terminates in a Ditch where it runs on and joins a small Nullah which passes at the foot of Captain Ouchterlony's Garden and descends the Mountains and runs down to the Bowany River. In the same Plan, Captain Ouchterlony states the water here runs to waste whereas it irrigates the face of three extensive Hills on the South East view of my House, and has enabled me to dig eight extensive terraces, which are thereby brought under Cultivation, and on some of which Clover is now growing very luxuriently. Captain Ouchterlony states this surplus water to be running to waste from my Grounds, he not where states, that the same result would not be the case, if it were allowed to run through his Grounds.

6 The Map above referred to was produced in evidence before the Joint Magistrate of Ootacamund and is now in the Principal Collectors Office. The receipt of the Hoters referred to in my letter to the Principal Collector, is also in that Office, and I have not kept a copy of it.

7. Captain Ouchterlony in his official Plan, states a Plank is here laid down, over the water course, where, as he well knows, there are many Planks of heavy wood put over this drain on the high road to my House entering from the Ootacamund side and where the road is 9 feet wide.

8. Captain Ouchterlony has put up an enclosed fence of about 100 yards, taking in about 10 yards above and about 10 yards below the stream, and warned my two People who are in charge of the water course, not to trespass on his Ground.

9 I have this morning learnt that Mr Allport has taken exception to my having crossed the foot of a Mountain of uncultivated land as being within the limits of his Ground, if this be the fact it was unknown, by any person here, - Mr Allports Agent was ignorant of that circumstance, as well as myself. this part of the water course

Fort St George 15th June 1848

course is about 200 yards from the head of the stream, and I am quite prepared to make to Mr Allport any compensation he may require for this accidental crossing of the foot of one of his Mountains.-

Gentlemen,

It may perhaps be thought I have encumbered this communication with useless Documents, but I have been desirous to put the whole case before you as far as I have been able. I do feel that I had a right to be heard when I appealed against the Joint Magistrate's Exparte investigation.

Kotergherry.
2nd May 1848.

No 1

To

J. C. Wroughton Esqr
Principal Collector and Magistrate of
Coimbatore.-

Sir,

It is with extreme regret that I find myself compelled to bring to your notice an attempt that is being made by Captain Ouchterlony to interrupt the stream of Water which it is well known I have brought at a considerable cost

Fort St George 15th June 1848

cost of Money for nearly three Miles circulating round some certain Hills of uncultivated Ground belonging to the Kotars in this neighbourhood; from the very commencement of cutting this Channel it was done with the consent of the Kotars, I herewith have the honor to forward to you the Paper granted to me by these People as the Lords of the Soil. Captain Ouchterlony has during my absence through the medium of the Paschars Brother induced certain of these Kotars I understand to sell a small part of this waste land upwards of a Mile from his own Residence taking in about 100 yards on each side of this Channel, and he yesterday sent to the two Burghers whom I have had on Monthly pay from the time this water course was commenced to see it kept clear from accident or injury, and they were told that he Captain Ouchterlony purposed making a Garden on the lower side of the water course, it is proverbial here even amongst the natives that Captain Ouchterlony has purchased this Ground for the sole purpose of giving him, as he fancies a right to control the water in its course to my place and I understand that Captain Ouchterlony has

has applied to you to have this purchase registered in your Cutcherry and requesting that you would forward to him a Puttay for this Ground. I beg respectfully but most seriously to object to Captain Ouchterlony having any public Voucher granted to him that shall enable him hereafter to cause me any inconvenience or annoyance in the intercourse of this water, as far as I can learn from the Natives they objected to any thought or consideration on the part of Captain Ouchterlony being construed as having on their part sold to him any portion of this water course. I can prove that this whole arrangement on the part of Captain Ouchterlony has been effected covertly during my absence and after the stream had been running for several Months, and he Captain Ouchterlony never has in any way whatsoever communicated to me his intention of making this purchase and I now therefore throw myself on your protection to prevent my being obstructed by Captain Ouchterlony in the free passage of this water to my Place I declare most sincerely that I would most willingly have met Captain Ouchterlony's wishes

wishes in any way in my power, but as he has thought fit to act in this extraordinary manner towards me, I will yield to Captain Ouchterlony nothing as an act of courtesy, as he has by his conduct in this matter deprived himself of all desire on my part to concede any thing to him and as I am apprehensive of some obstruction from the intimation which he yesterday sent to the People employed by me that he intended to make a Garden on the lower side of this water course. I trust you will have the kindness to authorize the Paschar of this place, to prevent my being annoyed by Captain Ouchterlony cutting off the channel which runs through this hasty purchase Ground. I do not think it will read well, that Captain Ouchterlony should have taken advantage of his public situation and proceed with the writer of his Establishment to mark out this Ground, and thus enable him to insert it in the Plan of the Hills as being Captain Ouchterlony's Property - If the enclosed Paper is in accordance with form, and meets with your approbation I shall be particularly obliged to you if you will have the kindness to have it recorded in your Office, and grant me such

such Voucher or Puttay as you may deem right and proper I am sorry to have been obliged to make this appeal to you, but I am under such apprehension of being annoyed by Captain Ouchterlony in this matter that I confidently hope you will have the kindness to instruct the People in authority here to protect me from any aggression that Captain Ouchterlony may contemplate, I have no talent or desire for controversy, but in a matter in which I am so much interested, and wherein, there has been an endeavour to circumvent me in this extraordinary manner, I hold it due to myself to request the intervention of the Civil power, for I really do not know, how I should proceed, in the event of Captain Ouchterlony creating a disturbance by sending People to overpower my two men and cut the Channel, to water his own Ground which he has purchased so quietly during my absence without ever having in any way communicated to me his intention of doing so.-

Sir

It has occurred to me since my letter of the 26th Instant that it would be right in me to endeavour to move the Board of Revenue to interdict the Officer who may be surveying these Hills and who may be drawing out the Plans to exhibit the various localities shewing the different Proprietors of Ground not in any way to be concerned in any prospectary right to any Ground whatever over which he may now be surveying as it is manifestly placing himself in a wrong position, by taking advantage of his public situation, to purchase Ground, the locality of which, may come to suit his own convenience to possess it is wrong in principle that an Officers duty, and his private interest should be at variance with each other. I am compelled to take this step in furtherance of my letter to you above referred to, I do not myself know

know how this subject should be brought to the consideration of the Board of Revenue but if it would not be irregular, I do myself the honor to hope you might be disposed to oblige me by allowing this letter to be forwarded to the Board of Revenue it is very painful to me to have to do so, but the circumstance has been forced upon me.-

Statement

No 6

Statement regarding the water Channel running into
the Grounds known by the name of Bishopstoke
the property of Major General Gibson—

In April 1847 it was determined
to try and bring water from some neighbouring
Course into the property called Bishopstoke
Search was made for a convenient site as the
head of the course and at the suggestion of
Mr Cockburn a spot selected and superiority
of elevation ascertained by a Theodolite, the pro:
=perty of Government then in the possession of
Captain Auchterlony. This site was afterwards
changed for one selected by Captain Auchterlony
and myself, but this was also abandoned on
Mr Cockburn's suggestion of a scarcity of water
at certain seasons of the year. The spot
finally selected as the head of the course was
chosen chiefly by Captain Allan and Dr Fuller,
and so approved of that the construction of
the Channel was immediately Commenced,
about the first two hundred yards was excava:
=ated under the superintendence of Captain
Auchterlony as I was absent at Cotacamund.
The remainder of the Channel was executed
wholly and solely by me by whom all the
levels were taken, bridges built and embankments
made

made. I am indebted to Captain Auchterlony for the first use of the Theodolite to ascertain the relative heights between the Kotagherry Saddle and the head of the water course - but fearing there might be a mistake in the adjustment of the Instrument, or from any other cause I was at the trouble of taking the levels with a 10 foot rod from Bishopstoke over the Hill on which Mr. Cockburns House is situated. The expences of the Channel were borne by General Gibson - It was understood that Captain Auchterlony was to have a share of the water if I succeeded in bringing it to Bishopstoke but no agreement, as long as I was at Kotagherry had been made as to the quantity to be allowed to run through the Grounds of Bishopstoke to the adjoining estate of Captain Auchterlony.

From Major R. Hall
Joint Magistrate

To L. C. Wroughton Esqre
Principal Collector of Coimbatore

Sir,

Adverting to your Communication No. 45 and in continuation of my letter No. 183 I have the honor to state my opinion that Captain Ouchterlony has established his title to participate in the benefits derived from the water course which has been cut to Major General Gibson's Estate at Hotergherry, for tho' Captains Allan and Hillyard declare that the work was commenced with this understanding, and the water was permitted by Major General Gibson to follow on to Captain Ouchterlony's garden, until a dispute arose as to the right of the former to restrict the supply: it is moreover acknowledged by Captain Hillyard that without the assistance of Captain Ouchterlony the work would not have been commenced. The quantity to be permitted to follow on depends, I conceive, upon the existing necessities of Captain Ouchterlony's permission at the period the work was undertaken, and Captain Ouchterlony

Fort St. George 15th June 1848.

Ouchterlony in a private Note to my address, accompanying the Statements, depositions &c. herewith retransmitted, has described that to be an apparently very moderate portion of the water conveyed into Bishops tank, Viz. a Stream of 4 Inches by 2 Inches, and it seems but equitable, that he should possess a right to this free from control or obstruction throughout the day and night.

2 I am also of opinion that Captain Ouchterlony has established his right to the plot of ground marked A in the Plan, for he has produced incontrovertible evidence to the fact of the purchase in October 1847 from Mr. Shellen, the acknowledged lawful Pottiem Proprietor, while the deed of transfer of the property sold by Rammaten and Shellen to Major General Gibson, was not prepared until February 1848, although it bears date 1st April 1847, for in the before mentioned Month these very parties and others, having a joint right in the land complained to the Tahsildar of Rotacamund, that the water course had been cut through their property unauthorizedly and they acknowledge that the balance of purchase money Viz. Rupees 20 was not paid

Fort St. George 15th June 1848.

paid by General Gibson to them - until after the deed was signed in February 1848, when the plot A was the property of Captain Ouchterlony - Captain Ouchterlony has however in his note consented to transfer the purchase to Major General Gibson on the conditions of his requirements being conceded -

3 It is not I believe necessary in this place to recapitulate the subject of the first portion of Para 5 of my Communication Nº 183 -

Potacamund
1st April 1848

[Signed] R. Hall Major
Joint Magistrate

Nº 9

To
J. C. Wroughton Esqre
Principal Collector of
Coimbatore

Sir

I have the honor to acknowledge the receipt of your letter of the 3d Instant, with its enclosure Copy of Major Halls decision on the right of Captain Ouchterlony to receive water from the Channel which I had brought to Bishopstoke; against this decision I am compelled to appeal for the following reasons.

First - The investigation before Major Hall has been entirely Ex parte, I never received any

Fort St. George 15th June 1848.

any intimation that this enquiry was going on further than the letter I had the honor to receive from you informing me that you had directed the Joint Magistrate at Potacamund to enquire into the matter, and this is all the information I ever officially received from the Joint Magistrate of Potacamund; Captain Ouchterlony I understand attended in Court every day whilst the enquiry was going on -

2d The Joint Magistrate of Potacamund has I maintain put a forced construction on every thing which Captain Hillyard may have stated, I have already sent to you on the 17th ultimo, Captain Hillyards statement of the matter which he forwarded to me -

3d I have no recollection of ever having made the subject of this water course a matter of discussion with Captain Allan, when Captain Ouchterlony was at the time present any observation I may have made to Captain Allan, not in Captain Ouchterlony's presence, was a mere matter of Conversation, and can be no evidence of the fact of any arrangements between me and Captain Ouchterlony - I do not know, what questions may have been put, or what answers were given by either Captain Allan or by Captain Hillyard -

At

4th It is clearly proved by Captain Hillyard's statement that Captain Auchterlony was not the originator of the source from whence this water is drawn, the only merit that Captain Auchterlony has, is that he lent the use of the Government Instruments, and did himself take the levels from the spot pointed out by Captain Hillyard as suggested by Doctor Fuller, Captain Allan and Captain Hillyard, as the site which Captain Auchterlony had suggested was found not to answer, he can have no merit in establishing a claim to this water as being brought to Bishopstake either by his industry or talent.

5th This water course has cost me more than a thousand Rupees and the Joint Magistrate has decided that I must allow this water to run through my Grounds to the injury of my own Property for the convenience of Captain Auchterlony. Captain Auchterlony did, whilst the work was going on, give his assistance for 200 yards, whilst Captain Hillyard was away at Ootacamund, and he did say to me that he would give Rupees fifty (50) towards its completion, but I refused to allow him to do any thing of the Kind, saying

that it should be my own work, and my own Property, but when once the water had been allowed by me to run towards his place he defied me and demanded it as a right, saying the Collector would fine me heavily if I ever interrupted that water from running to his place, now that I had once allowed it.

6 The water cannot under any possibility be allowed to run past the front of my House during the night, which it now does during the day and Captain Auchterlony saw himself, it had flooded the whole of the road in front of my door, from which the water Course at present is only 13 feet from the steps of the House and 2 from the side of the road, and Consequently is never allowed to run in that direction for my own convenience during the night. Has the Joint Magistrate a right to force this inconvenience upon me? to suit Captain Auchterlony's unreasonable demand, I have been Compelled to run out of my House during a storm, and run to the Boat which crosses a deep ditch before it reaches my House, and turn the Boat over to conduct the water into the Ditch, to prevent the road from being flooded, and I therefore to be Compelled by

the

the Joint Magistrate to set up all night
watch the State of the weather, so as
to be at hand to remove the Boat, whe
Crosses the Ditch, and enables the wate
runs past my House.2—

7th This water is brought to a reservoi
18 feet above the level of my House, to which
is conducted by hollow Trees and then pass
round my House in the direction of Captain
Auchterlony.- Has the Joint Magistrate a rig
by law to Compel me to keep up these Boa
/as they are termed/ 15 in number for Cap
Auchterlony's Convenience.-

8th A Channel has been cut by me so close to
on my Property as to make it damp.- Has th
Joint Magistrate a right to compel me to all
this water to run through my Grounds to
injury of my Property?- it is to be Remarke
that this water Course no where runs on
a Public Road, the only Public Road it
crosses is at my own Gate where I have
a substantial Channel, the water Conveyed
runs under the Road and not over it
this water is never allowed to run
Channel near to the Cottage during the

9th The Joint Magistrate has by his decisi
on passed a judgement that I am to allow a stream
to run past this Cottage of four inches broad and
two inches deep, thereby depriving me of more co
than half of a Channel of water, which I have co
brought for a distance upwards of two miles
and at a cost of more than a thousand Rupees
for Captain Auchterlony's convenience.- Thus
much I state against Captain Auchterlony's
Claim to participate in any way in this water
beyond what my own free will might be disposed
to spare to him.-

I beg to offer the following remarks in re=
ference to the offensive purchase made by Captain
Auchterlony of one Cawny and a half of Ground on
the Sloap of a Mountain where his purchase cross=
es the water course, I have every right to infer co
that Captain Auchterlony is ashamed of this
transaction by the offer made in the Joint Ma=
gistrate's letter of giving up this piece of co
Ground provided I gave him the water at his own
discretion to run to his Grounds, both night and
day, thus proving my assertion that he had pur=
chased this Ground in my absence secretly, and
in Known to me for the avowed purpose of Control=
ing me in the supply of water from this Channel.-
I Know that he did state to a Native of great
respectability

respectability that this was his sole object in purchasing this to him, useless Ground. It is more than a mile from his door, not visible from it and he has to cross two Mountains to get to it, and I am assured by the Native who negotiated this nefariously purchased piece of Ground, was done with the distinct understanding from the Kotaru that they did not sell any right over the water Course which they had already let to General Gibson have, and which had been running for Months before Captain Cuchterlony made the purchase, Captain Cuchterlony went to this spot accompanied by one of his Writers with a link chain, and then, and there measured out this Ground, and after the Assistant Surveyor had filled up the Plan, I understand Captain Cuchterlony desired the Young man to take the Plan back, and fill in the portion which he had marked out as being Captain Cuchterlony's Property, if this he not taking advantage of his Public Situation to his own personal convenience. - I do not know what it, and I therefore asserted in my letter of the 20th Ultimo that Captain Cuchterlony ought not to be allowed to hold land, wherein his Person dicit would show the proprietory right to any Ground, as placing his duty and interest

interest at variance. -

The Joint Magistrate in his letter states that Captain Cuchterlony will give over to me, this piece of Ground on condition of his requirements being conceded, thus threatening me with the consequences of annoyance from Captain Cuchterlony in his possession of this piece of waste land, which as I have stated he purchased after the stream had been running for several Months over that piece of waste Ground - this Ground can be of no possible value to me, I have no neighbour to annoy by possessing it, and it is as far from my House, as it is from Captain Cuchterlony's, and is not within sight from my Property. -

When I was first about cutting this Channel the Kotaru did come to me and asked for some remuneration for the privilege for cutting through their Ground, I gave them some trifle and promised them any remuneration that might be equitable if I succeeded in bringing the water to Bishopstoke, and they left me perfectly satisfied, and when I returned, I settled with them the Amount I was to give them and took their

receipt

receipt which I forwarded in my letter of the 26th Ultimo.-

I have had this Channel measured this morning at the Mouth where it enters my Ground and it is exactly eleven Inches by three but the quantity of water depends entirely on the season of the year and whether rain has, or has not been falling in the Neighbourhood.-

It has been suggested to me that I can at some little expense carry the water round the piece of Ground which Captain Auchterlony has so offensively purchased, and the Kolars inform me that it is quite feasable and I have directed my People to have it done.-

Kolergherry
7th April 1848

/Signed/ Jno: Gibson
Major General.-

N. B. I have just been informed that my arrangements with the Kolars of not paying them the full Amount till I fully succeeded in bringing the water to Bishopstoke is in accordance with the usage on these Hills. J. Cockburn, has been in possession of several Cawnies of Ground for upwards of a year, and has not yet settled with them for the Amounts to be paid by him, the agreement being that he was to pay for the Ground so soon as it

it was found to answer his purposes, but the final adjustment is delayed until some Papers are signed, but when they are, they will of course, be dated, from the time of his first making the bargain with them- and paying them whatever may be due- the same with me, and the Kolars with regard to their receipt for my money, for the water Course, the bargain being made experimentally in April last year and concluded on my return to the Hills this year, when the water was found to be running to my Place.-

/Signed/ Jno: Gibson
Major General.-

J. C. Wroughton Esqre
Principal Collector of Coimbatore.

To,

Major General J. Gibson.—

Sir,

With reference to your letter dated 7th Instant, I have the honor to forward you my Proceedings on your appeal against the decision of the Joint Magistrate of Cotacamund relative to the Watercourse in dispute between yourself and Captain Auchterlony.—

Conoor — 3
17th April 1848 3

/Signed/ J. C. Wroughton
Principal Collector.—

1. The Principal Collector having carefully perused the Proceedings of the Joint Magistrate of Cotacamund, cannot discover grounds as far as his investigation goes, when judged in an equitable point of view, to disturb it.—

2. It is however incumbent on the Principal Collector to remark that neither General Gibson nor Captain Auchterlony have any right whatever to the water which has given rise to the matter under contest.—

Vide Colonel Carew's letter dated 7th Nov. 1835.

3. The diversion of the Stream was in

in direct disobedience of a local order, and the purchase of the piece of land through which the stream was conducted was also unauthorized, being opposed to the orders of Government.—

4. Captain Ouchterlony would seem to have observed in some degree the requisite formalities in the purchase of the ground which is proved to have been Puttah land, whilst such has not been the case with reference to the purchase made by General Gibson. the details on these points however, do not require to be entered into at present.—

5. As the Principal Collector is not prepared to recognize the right upon which the matter in dispute solely rests, the circumstance will be laid before the Board of Revenue in order to prove that the Minutes of Consultation as well as the local orders have been directly disregarded in the present instance, and their instructions will govern the disposal of the question which will be communicated in due course to Major General Gibson, and Captain Ouchterlony.—

Conoor ---
17th April 1848

/Signed/ J. C. Wroughton
Principal Collector.

Be

No. 13.

Be it known to all persons, that I the undersigned John Gibson, Major General in the Madras Army, being now in possession of the property called Bishopstoke at Kotagherry, have of my own free will, given to Captain Ouchterlony, his Heirs Executors, or Assigns, permission to receive a small water channel, connected with the channel, which runs past the Cottage, which Channel is always to be open from Six O'Clock in the Morning till Six O'clock in the Evening every day, so long as the Bund and water course from whence this water has been brought by me, to my property, may continue to be in good repair, but should this water course, or Bund from any unforeseen event, come to be injured, it will be, as much the interest of the owner of Bishopstoke, as the Tenant of Captain Ouchterlony's House to keep it in repair, but should any circumstance ever occur to interrupt the approach of this water to Bishopstoke neither I, my Heirs Executors or Assigns shall be liable to any processes in

in law, for not having Kept this Bund, or Water course in repair.—

Kotagherry Bishopstoke 25th October 1847

/Signed/ Jno. Gibson
Major General.

This water has been brought to Bishopstoke by me, at my sole charge, and expense unaided by Funds or labour from any other person whatever.—

/Signed/ Jno Gibson
Major General.—

To, J. C. Wroughton Esqre
Principal Collector of
Coimbatore

Sir,

It occurs to me that I should have done right when, I made my appeal to you against the Joint Magistrate's decision in my letter of the 7th Instant to have sent to you the enclosed Extract of a letter from Captain Billyard to when he sent to me the statement which I had forwarded to you, under my cover of the 17th Ultimo and I think it will satisfy you that the inference drawn by the

the Joint Magistrate from any thing Captain Billyard may have written must have been erroneous.—

Kotagherry 15th April 1848

/Signed/ Jno Gibson
Major General.—

Extract from a letter from Captain Billyard dated Madras the 23d March 1848.

+Captain Auchterlony.

"I wonder he+ can claim any "right to the water course on account of "his share of the labour, when he was so "continually suggesting that Chantry "ought to empowered to make a bust of "me to be erected on the Channel in com- "memoration of my skill, and labour".—

Proceedings thereon.—

Communicating to the Principal Collector's Comparative observations of the subject of the difference existing between Major General Gibson & Capt. Ouchterlony respecting a water course on the Neilgherry Hills.—

(24)

In the course of the past year 1847 Major General Gibson requiring a supply of water for his property called Bishop Stoke at Kotagherry on the Neilgherry Hills, brought a channel to his premises from a swamp about two miles distant from his house. The channel is stated to have been commenced with the "full knowledge of the native civil authorities at Kotagherry" and "with the full consent of the Kotars" to whom the land thro' which it passed was supposed by General Gibson to belong. but no communication seems to have been made upon the subject to the Principal Collector of the District. The land traversed by the channel is said to be waste land "not one inch of which had been cultivated in the memory of man" The site for the channel head "was chosen chiefly by Captain Allan and Dr. Fuller" the levels were taken by Captain Ouchterlony who likewise superintended the excavation of the first 200 yards of the work. the remainder being executed solely by Captain Hilliard, Aide de Camp to General Gibson.

"It was understood that if Captain Ouchterlony succeeded in bringing the water to Bishop Stoke he was to have a share of it for the benefit of his own property which adjoins that of General Gibson. but no agreement seems to have been made, at least while the work was in progress, as to the quantity which was to be allowed him. Captain Ouchterlony further offered to

Contribute

Contribute 50 Rupees towards the expense of the channel, but this proposal was declined. After a while, differences seem to have arisen between General Gibson and Captain Ouchterlony in regard to the quantity of water which should be permitted to flow through the grounds of Bishop Stake to the Estate of the latter Officer, and Captain Ouchterlony in October 1847 having purchased from a Roter a small piece of land, ostensibly for a Garden, on both sides of the channel and about a mile above General Gibson's property, turned the Stream into this ground and thus cut off the water from Bishop Stake altogether. General Gibson complained to the Principal Collector by whom the matter was referred for enquiry to Major Hall the Joint Magistrate at Ootacamund. The investigation made by that Officer was not confined to the diversion of the Stream above Bishop Stake, which had formed the subject of General Gibson's Complaint but embraced the whole matter in dispute between the parties, and a decision was passed awarding to Captain Ouchterlony a branch channel from that passing thro Bishopstake, of 4 Inches by 2 to run "free from control or obstruction throughout the day and night." The Joint Magistrate also determined that Captain Ouchterlony had established his right to the plot of ground upon

the channel above Bishopstake. General Gibson has appealed to the Principal Collector against this decision, alleging first that the enquiry was altogether exparte, and secondly that if the decision of the Joint Magistrate be enforced it would be productive of much injury to his property; because the water of the channel, if allowed to run throughout the night would, in the event of sudden rain, overflow and inundate his premises. The Principal Collector has intimated his intention of submitting the whole matter for the orders of the Board of Revenue.

2. The Board have in the first place to remark that the cutting of the channel by General Gibson was altogether irregular and unauthorized, and, as appears from the Proceedings of the Principal Collector (dated 17th April 1848 Para 3) in infringement of a local order issued as far back as 7th November 1838. The assent of the native civil authorities of Kotagherry could give no sanction to the measure, which should not have been undertaken without the permission of the Officer in charge of the District. Neither could the purchase from the Rotters of the ground traversed by the channel convey such authority. These parties possessed no title to the land, which, if, as represented by General Gibson, immemorial waste, was solely the property of Government. There seems however reason to doubt whether the whole land was of that description, as that portion bought

Encl. in a letter from Major Genl. Gibson dated 2d May in Cons. 13th June 48.

bought by Captain Ouchterlony is stated by the Princi=pal Collector to be, "Puttah land" If it were so however its purchase by Captain Ouchterlony gave him no right to stop the course of the Streams which passed through it, and his proceedings in this respect are as unauthorized as the original excavation of the channel by General Gibson.—

3 The Board are in the next place at a loss to understand how the water dispute between General Gibson and Captain Ouchterlony could fall within the jurisdiction of Major Hall who, it is observed from his proceedings, acted in the matter in his capacity, not of Principal Sudder ameen but as Joint Magistrate - In the latter character his powers of interference could extend only to the preservation of the public peace and prevention of any acts of forcible aggression.—

4 It is further to be noticed that the investigation is represented by General Gibson to have been altogether exparte, and this statement derives corroboration from the fact that no notice is taken in the Joint Magistrate's proceedings of the agreement entered into by General Gibson on the 25th October 1847 which, if acquiesced in at the time by Captain Ouchterlony would seem to go far towards the settlement of the whole matter at issue.—

Under

5 Under all the circumstances of the case the Board are of opinion that the award of the Joint Magistrate must not be allowed to hold good - They request that the Principal Collector will in the first instance Communi=cate with General Gibson and Captain Ouchter=lony and endeavour to induce them to settle their difference between themselves or by recourse to arbitration - If this cannot be effected, as the unauthorized appropriation of the water by either of those Gentlemen cannot be held to confer upon him any valid title to it - The Principal Collector, as the agent of the Circar, to whom the water belongs, must assert the rights of Government, take the control of the water into his own hands and make such arrangements for its distribution between the parties, as on due Consideration of all the Circum=stances of the case shall appear to be fair and equitable.—

Ordered that the foregoing Extract from the Board's Proceedings be communicated for the information and guidance of the Principal Collector of Coimbatore

Ordered also that the following letter be addressed to Major General Gibson

&c

(22-25)

To

Major General Gibson
Lotaghherry

Sir

To Major General Gibson Lotaghherry } I am directed by the Board of Revenue

Both in Cons. 15th June 1848. to acknowledge the receipt of your letters of the 22d ult. & April and 2d May last, with their enclosures respecting the Stoppage of the channel cut for the supply of your property at Lotaghherry, and in reply to refer you to the Principal Collector of Coimbatore to whom the Board have Communicated their views upon the subject.—

The papers which accompanied your letter of the 2d May are herewith returned

Revenue Board's office Fort St. George 15th June 1848. } (Signed) I. Pycroft Secretary

Order on the 2 abovementioned Registers - - - } Ordered to be recorded.—

(26-29)

Resolved that the following letters be dispatched.—

(30)

To

The Chief Secretary to Government.—

To the Chief Secy to Government— } Under date 26th July 1842 the Board of Revenue recommended to Government that Mr. F. Rencontre should be appointed manager of this Office in Conjunction with the situation of Senior Uncovenanted assistant which he then held. The pay of the former appointment was Rupees 210, that of the latter 300 Rupees per mensem. Of the joint amount Rupees 510 it was proposed that Mr. Rencontre should receive Rupees 410 monthly and that the remaining Rupees 100 should be appropriated to the Employment of an Esctra Examiner "to assist in the dispatch of such portion of Mr. Rencontre's former duties as his additional duties in the Manager's Department would unavoidably preclude him from attending to." The Government were pleased to Sanction this arrangement on the 16th August 1842.—

In Cons 18th aug. 1842

Mr. F. Rencontre has lately retired from the public Service and the Board are now desirous of reverting to the arrangement which obtained prior to 1842 and separating the Offices of Manager and Senior Uncovenanted assistant.—

The Salary of Manager will, as before, be that sanctioned

Fort St. George 15th June 1848

In Cons 28th Sept. 1835

Sanctioned by Government 18th September 1835 Viz. Rupees 210 Monthly to increase with length of Service according to the graduated Scale which regulates the pay of Sheristadars in Settled Districts. The Salary of the Senior Uncovenanted Assistant the Board propose to fix for the present at Rupees 200 but to be increased to the former rate of Rs 300 when the occurrence of a vacancy in the Examiner's Department shall afford an opportunity of replacing it on its old footing without any additional charge.—

The Board beg to recommend that this measure may receive the Sanction of Government and have effect from the 1st Instant. It will be observed that it involves no increase of expense and is in fact simply a return to the arrangement which subsisted priar to the union of the two offices in the person of Mr. F. Rencontre in 1842.

/Signed/ J. F. Thomas
Chief Secretary.-

(1-2.)

Order thereon.—

Ordered to be recorded.—

17th Sent the following letters

To W. A. Serle Esqre
Registrar H. M. Supreme Court
Madras.-

(3.)

To the Registrar Supreme Court } Sir,

I have the honor to transmit the Oath of office taken by me in the Supreme Court yesterday to be registered in conformity with the Notification of Government dated 19th May 1835. published in the Fort St. George Gazette of May 23d 1835. Page 318. The Oath is required by Section II Regulation

I

Fort St. George — June 1848.

I of 1803 of the Madras Code.—

Revenue Board Office,
Fort St. George,
17th June, 1847 — — —

/Signed/ J. Goldingham

A

In the Supreme Court
Madras —

I John Goldingham do promise and swear that I will to the utmost of my endeavours, well and faithfully execute and discharge the duties of an Officer of Revenue, reposed in and committed to me, by the East India Company, and that I will not demand, take, or accept directly or indirectly, by myself for, by any other person, for my use, or on my behalf, of or from any Rajah, Zemindar, Talookdar, Poligar, Farmer, Renter, or Ryot, or from any person paying or liable to pay any tribute, Rent or Tax, to or for the use of the said Company, any sum of money or other valuable thing, by way of Gift, Present, or otherwise, over and above, or besides and except, the actual tribute, rent or tax authorized to be taken by and for the use of the said Company and that I will justly and truly account for

Fort St. George — June 1848.

for, answer and pay, all the rents, duties, and other revenues, and sums of Money, which shall come to my hands or to the hands of any person, or persons in trust for or employed by me, as an Officer of the Revenues of the said Company unto the said Company.—

Sworn to before me

Secretary to the
Board of Revenue,
Fort St. George.

Sir,

(6)

From the Actg. Collr. of North Arcot— } Para 1. of Government of the 26th April 1845.

Forwards Statement of a lapsed Enam with some remarks as to the observation of the Order of Government Dated 26th April 1845.

In obedience to the order of Government of the 26th April 1845 received with an Extract Proceedings of the Board dated May 22d. 1845. I have the honor to forward a Statement of a lapsed Enam, together with my recommendation for its continuance to the family of the last holder deceased. The documents, five in Number, produced by the parties in support of this Enam, will be forwarded in a few days, as soon as translations of them can be completed.—

2 I beg to take this opportunity to offer a few Remarks as to the operation of the order of Government quoted above. There are now in this office, to be reported as soon as the necessary Statements can be prepared and documents translated, thirty six Cases of lapsed Enams agreeably to the enclosed list. They are of various kinds, but the Majority are comprised under the denominations given in the Margin. All these are, such as I am persuaded the Government would never think of resuming, except on escheat from total failure of heirs. The denominations are well known terms needing no explanation except the last

Fort St. George 19th June 1848.—

from Bd. 24th Feby 1834 Para 40—
Board 16th April 1834 Para 22—
Board 7th October 1834—
from Bd. 21st Sept. 1835 Para 21.

last, Ozhavadah land: in regard to which they to refer the Board to the correspondence noted in the Margin. These Ozhavadah or Bilmiata lands appear to be such as were originally granted on Cowle when covered with jungle, at permanent easy rates of teerwahs. They are thus not properly of the nature of Enam, but of Cowle—

3. The special report on lapse appears therefore superfluous in such Cases. but the inconvenience it causes to many parties is very great. First, the Enam is attached by the Talook Officers on decease of the holder, and his heirs are not allowed to meddle with it, after a time (and an excuse for delay is never wanting) and probably after long attendance and importu—nity on the part of the heirs, and after the Monigar and Curnum of the Village, and other witnesses too perhaps, have been brought up and examined at the Talook Cutcherry, a report is made to the Collector's Office— There too, delay occurs, in the examination of the Case, the preparation of the Statement, and the translation of the documents: but at last the subject is ready and is sent up to the Board of Revenue; and by the Board in course of time to Government. The time

necessarily

Fort St. George 19th June 1848.—

necessarily occupied by all those Official operations and formalities is such that it may be said to be impossible that the heir to an Enam can be put in possession, under six Months from the death of his predecessor, while the more ordinary length of time will probably be found to be a year or a year and a half, or even two years; in many of the Cases in the enclosed list the last holder died in 1846. and in several in 1845.—

and a greater evil still is the effect of this interference and enquiry on the part of Government in unsettling the minds of the public, especially of the holders of this species of property and leading them to doubt the good faith and honest intentions of Government—

4. This delay is in itself no slight hardship, involving in the first place positive and heavy loss and often actual distress to the proprietor, who is not allowed to interfere in the Management of the lands, or to touch a grain of the produce, that being ostensibly kept in deposit pending the decision of Govern—ment. and besides this direct loss there is the delay, the hanging about the Talook Cutcherry, and other attendant inconveniences which need not be specified.—

5 Added to this inconvenience to individuals there is the large consumption of the time of the servants of Government to the hindrance of other business, from the Talook Cutcherry to the Government Secreta—riat. a part of the delay in the Talook may

be

Fort St. George 19th June 1848.—

be wilful, and may have a sinister object, but a large part both there and in the other Offices is unavoidable, and is caused by the pressure of other business and by the office forms. It is calculated that in this office the preparation of the Statement in each Case will occupy one man the greater part of a day, and that the translation of the documents in each Case will on an average occupy two men a full day, and the Board who know what the Ordinary works of a Collectors' Office is, will not wonder that under these circumstances delay should occur.

These observations have run to a much greater length than I intended. my object is to express my conviction that the effect of the order of April 26/45 as now acted on is mischievous, and to submit that a great good would be effected if Government would qualify it, by specifying what Enams, being irresumable under ordinary circumstances, need not be reported on lapse, and what should continue to be so. The terms of the order indeed seem to me to be of less extensive application than they have been considered by some to have, and had I nothing else to guide my construction than the order itself, I should at

6

once

Fort St. George 19th June 1848.—

once dispose of many of the Cases now preparing for report, as not coming within it. But I know that Cases of the same nature have been reported under this order both from this district and from others, and the reports not been sent back as needless, and therefore I deem it my duty to follow the same course. I beg to be favoured with instructions for my guidance at as early a period as may be convenient, meanwhile I shall proceed as fast as possible with the submission of such cases among those before me as seem most properly the subjects of special report.—

North Arcot Collectors Cutchery 15th May 1848.

Signed J. D. Bourdillon
Acting Collector

Fort St. George 19th June 1848.-

From the Acting Collector of North Arcot ---

(7.)

Read letter forwarding 5 Original Documents referred to in Para 1 of the letter of the 15th Instant together with translations.---

Read

Fort St. George 19th June 1848.-

Read Extract Minutes Consultation dated 9th May 1848 containing observations and orders on the Board's letters of the 14th & 24th February last.-

(Here enter No. 481)

Read also Extract Minutes Consultation dated 11th May 1848 sanctioning the continuance of 18 out of the 20 Enams reported by the Collector of Cudda-pah to have lapsed in his District.-

(6-8.)

(Here Enter No. 489)

Proceedings thereon.- In the Extract Minutes Consultation above recorded the Government have passed orders upon certain cases of Enams submitted by the Board of Revenue for their instructions, and have at the same time laid down the principles which should be followed in dealing with such grants for the future.-

Issuing instructions to the Collrs of the several Districts relative to the description of Enams whose lapses should be reported to the Board and submitting Copy of the same for the approval and Confirmation of Government.-

2.- The first of the Enams referred to, was in the Cusbah Village of Tripatty of the Talook of the same name in North Arcot,- and held by one Carroombore Rajah Gopaula Chetty lately deceased. The whole Enam was of the extent of 300 Goontahs. Of these fifty were originally conferred under Sunnud A.D. 1724 by the Ameen and Fouzdar

Foujdar of the Triputty Purgunnah on one Veeatramana Charloo as Manu=em to be enjoyed by him and his lineal descendants and to be subject to sale and gift. The remaining 250 were also granted under Sunnud in A.D. 1747 by the Naib Foujdar of Triputty to one Govinda Charloo on the same terms. The entire Enam passed by purchases made in 1814. and 1819 to the father of the last holder. The deceased left a widow two Children and other fe=male relatives. and the Gouernment have continued the Enam to the widow leaning the claims of the remaining members of the family to be considered on the next lapse.-

3. The next case is that of Soluppa Chaurlah Gopaula charry in North Arcot. who held shares in four Enams. Of these Enams two were a aggraharums granted under Saunud to Communities of Braminsin A.D. 1763 and 1779 by the Havildar of the Triputty Purgannah and by Rajah Beerbur Soobadar of the Carnatic respectively. to be enjoyed by the grantees and their lineal descendants and

and to be subject to sale or transfer In the case of the two other Enams the grantor and date of grant were both unknown and there were no sunnuds or other Vouchers forthcoming but they were said to have come into the possession of the late holder by hereditary descent and to have been conferred for services to be rendered in the great Triputty Pagoda which services were still performed. The Government have authorized the Continuance of all these grants to the son of the last incumbent.-

4. The next claim that of the late Poorasee Kristnama charry refers to another share in one of the aggra=harums alluded to in the preceding case the last incumbent having been the grandson of the original grantee, Government have authorized the con=tinuance of the share to the son of the deceased.-

5. The last case from North Arcot is of the same description the deceased being in this also a descendant of the last grantee. He left no

no sons. but only a Daughter, Uncle and Cousin. & Government have continued the Enam to the family

6.- By the death of the Pundaram of a Muttum in Tanjore the question as to the disposal of two Shrotriem villages in Trichinopoly Charged with a quit rent to the Sirkar came before Government. The party by whom and the date at which these grants were made are both unknown; but they appeared to have been conferred for support of a Muttum to the maintenance of which their proceeds were still devoted. Succession was in this case sanctioned by Government to the party succeeding to the management of the institution.-

7. In their letter of 25th April 1848 the Board of Revenue reported to Government the lapses in the case of 20 Enams in the Cuddapah District. These Enams were of the undermentioned classes.-

1 Bhutwurtie or Enams granted to Brahmins in Charity

2. Pullecuttoo and Stulla or Enams granted for founding Villages.- Pellayettoo

3. Pollayattoo or Enams granted for Constructing Tanks.-

4.- Guddaterroo or Enams granted for bringing waste land under cultivation.- These Enams appear usually to have been regarded as hereditary the greater part of them had been in the enjoyment of the families of the claimants for several generations. In Extract Minutes Consultation 11th May 1848 the Government authorized the continuance of the whole to the next of kin of the last holders except in two cases. in one of which there was a default of heirs in the other the claim rested on an alleged adoption of very doubtful validity and the case was reserved for further examination.-

In Cons 22 May 1848

8.- In his letter of 9th February 1847 the Collector of Canara reported the lapses of four Shares in certain aggraharums of his District. These aggraharums were held under Sunnuds of old date and burdened with the obligation to discharge certain religious services which were

In Cons 31st May 1847

Still

were still rendered. In only one of the four was the Claimant to the succession of Kin to the last holder, in the others the claim was made on the strength of purchase or on agreements for transfer executed by the late incumbents. The Government have sanctioned the continuance of these shares to the several Claimants.

9. In disposing of the various cases above noticed the Right Honorable the Governor in Council has at the same time enunciated certain principles on which these or similar grants should be treated in future, after commenting upon the provisions of Regulation XXXI. 1802 and the effect of its strict application to all lapses of Enams, the Government advert to the course of procedure laid down in the recent despatches from the Honorable the Court of Directors. In para 12 of their General letter 13th October 1847 No. 19. Judicial Department the Court instruct the Government that "in dealing with questions connected with the right to property it ought "to be borne in mind that long undisturbed possession

Extract Minutes Consultation 9th May 1848 P 3-4-5.

"possession not only affords evidence of the exist-
"ence of the right but moreover with respect especially to landed property and to
"tenures affecting whole classes of persons
"creates on consideration equally of policy
"and justice, a powerful motive with Government
"for not wishing the possession to be disturbed"
and in a subsequent Despatch of the 19th January 1848 No. 2 they desire that these instructions may be duly attended to, not merely as regards the Enams granted in the Province of Cuddapah but in all the Districts under this Residency.

Para 7. 10. Acting upon this principle the Government have decided that as "in all the cases above considered there has been long undisturbed possession of such duration as to bring them within the scope of the Honorable Courts instructions, the Enams ought to be continued for this reason were there no other". The Government have likewise recorded their opinion

Para 8 that by the term "present incumbent" Employed in Section II Regulation XXXI 1802 is to be understood the party actually in possession at the time such Enactment was passed and that the

"the term is not referible to any sub=
="sequent period." It was meant," they
"conceive, to be declared that all rent free
"lands held on grant at the date of the
"British assumption and not subsequently
"Escheated, assessed or resumed should con=
"tinue free, provided they were still at
"the time of passing the Regulation held
"by the same family, and if so held at
"that time the lands were not thence forward
"to be subject to interference or resumption;"=

Para 18 11. The Government have further ex=
=pressed their concurrence in the opinion
entertained by the Board that the transfer
of Enams such as the Canara aggraharums
held under tenure of service is un=
=objectionable so long as the transfer
carries with it the obligation of service
Para 20 and they have explained for the informa=
=tion of the Board & for communication to the
Several Collectors that the orders of
In Cons. 22d May 1845. Government of the 26th April 1845 No. 533
did not contemplate interference with
aggraharum Enams and others of a
permanent nature or with grants recog=
=nized & confirmed / ie to their then
In Cons. 22d May 1848. holders / by Section II Regulation XXXI of
1802

Para 4 1802 In the extract Minutes Consultation 11th
May last the Collector of Cuddapah in reference
to certain lapses of Bhutwattee and similar
Enams was moreover instructed "not to interfere
"with those cases in which there may
"be clear and undoubted evidence of
"long undisturbed possession and a
"valid title to succession on the part of
"the claimants; and to refer for orders
"only those grants which he may be of
"opinion ought to be resumed on the
"ground of possession having been obtained
"surreptitiously or any other circumstances
"affecting the title of the holder as well
"as in default of heirs or near relatives
"of the deceased incumbents" These in=
=structions were issued in accordance
with a communication received from
the Honorable Court, & as the orders of
the Court therein conveyed have in a
passage already quoted, been shown to
be applicable not only "to Enam grants
"in the Province of Cuddapah, but
"in all the Districts under this Presi=
"dency" the instructions of Government
must be regarded as addressed to all
Collectors.-

The Board resolve to circulate
copies

12.-

Fort St. George 19th June 1848.

Vide Boards Circular 22d May 1845

Copies of the Extract Minutes of Consultation of 9th & 11th May last to all Collectors. It will be observed that under the views therein expressed by Government the cases of Enams of which the lapse is to be reported to Government under the orders of 26th April 1845 are greatly limited - In all cases wherein the title of Enam rests upon long and undisputed possession, whether supported by sunnud or otherwise in all cases of Shutwarti and similar grants of Shrotriums or Enams held for religious purposes or attached to native religious or charitable institutions and of aggrahams, it will on the occurrence of lapses, be necessary for the Collector to institute such enquiry only as shall suffice to ascertain whether the Enams are of the description above particularized and whether they have been fairly and legitimately obtained and have not escheated to Government for want of heirs. Where these particulars are established to his satisfaction the Enam will be allowed to pass in the case of personal grants to the next lineal male heir, and in those of a special or collective description as when conferred on a service tenure

Fort St. George 19th June 1848.

tenure, muttums &c to the party who may appear to possess the preferable claim, and those cases only will be reserved for report wherein it may appear that the Enam was a life or time expired grant, that the succession is of doubtful validity, as when conveyed thro' an adoption not duly authorized by transmission thro' a female or a collateral branch, or any other channel contrary to Hindoo Law or local usage that the Enam was surreptitiously or unduly obtained that it had been alienated from the family of the party in possession on the passing of Regulation XXXI of 1802 that failure had occurred in the condition of the grant as by the cessation of the prescribed service or duty or that the Enam had lapsed on default of heirs. In no case however will the Enam be attached until the receipt of the orders of Government to

* Note July 27 1848.

This requires modification. It should have run thus, that if an Enam held on grant, it was alienated from the family of the original grantee prior to the passing of Regulation XXXI 1802 if an Enam held without grant, that there has been an alienation from the family of the first grantee either prior or subsequent to the passing of that Enactment.

Read the following letter from the Secretary to the Board of Revenue -

/Here enter 25th May 1848 No. 208./

The Right Honorable the

Para.

Governor in Council resolves on the recommendation of the Board of Revenue to authorize the Acting Collector of North Arcot to make over to the Cranadars from the commencement of the ensuing

Fasly

× C 11-7¾ value Pags 21¼ per annum.

Tusly the lands proposed to be assigned to them in lieu of those taken up for the formation of the Western road in the Cauvery pauk and Vellore Talooks. — Amounting to Cawnies 12—2/4 assessed at — Pagodas 19—13½ and he also sanctions an abatement in the Jodie payable by the Shrotriendar of Dochery to the extent of Pagodas 4—13¾ being the value of Cawnies 3—9/4 of land in that Village appropriated to the same purpose.

Amount claimed in lands from the period they were taken up to Tusly 1257-
Rupees 590-4-2.
On 2 houses — " — 75-6-"
and 8 Trees —
Rupees 671-10-2

2- The Board also request sanction for the disbursement of Rupees 671-10-2 in satisfaction of claims to compensation preferred by the proprietors of the lands, and of certain Houses and trees removed on the construction of the road. In authorizing the payment of this amount, His Honor in Council has to remark that the delay which has occurred in disposing of these claims since 1839 when the subject was first brought under the consideration of the Board is apparently inexplicable. Nearly 7 years elapsed

elapsed before a reply was received from the Acting Collector to the first reference of the Board in December 1839 and to the second and third references on this subject the Acting Collector did not furnish the required information until 10 and 14 months after their dates. This neglect which the Board would appear to have quite overlooked has now rendered it necessary to grant compensation to the parties for the long period their claims have been needlessly kept in abeyance. Had the waste land applied for been given to the parties in 1839, or soon after, the Government would have been saved the chief part of the compensation viz. Rupees 505—11—3 now demanded in adjustment of these claims.

From the Coll.r of Rajahmundry Submitting an appeal petition from the late Frontier Goomasta of Ingeram together with the original Proceedings held in his case.—

Original with its translation No.1

+No.2 as per List accompanying

Sir,

With reference to Mr.r White acting Secretary's letter of the 27.th September and the Board's endorsement of the 17.th November 1847, on Petition No.2 1942 of 1847, I have the honor to submit for the consideration and disposal of the Board of Revenue an appeal petition addressed to them by Singoomantry Soobaroydoo late Frontier Goomasta of Ingeram in this District together with the original proceedings held in his case at first by the Sub Officer of Police at Neelapilly and by the Superintendent of Sea Customs at Coringa and afterwards by myself together with my decision on the case under Section ~~XIV~~ Act No.e VI. of 1844.—+

The reasons for which I convicted him are recorded in detail and no further report appears to be necessary.—

No. 1

To

The Board of Revenue

Fort St. George.—

An arzee from Singoomuntry Soobaroydoo late frontier Goomastha of Ingeram and at present residing at Caupoolapollem.—

On the 5th December 1845

I addressed an arzee to the Head Assistant Collector stating that the late frontier &c Goomastahs of Ingeram and Nellapilly were in the habit of crediting to the Circar, a part of the amount of duties collected on Salampores viz taken into Yanam and of embezzling the other part, &c and requesting that he would in consequence inspect the passes issued by the Chief of Yanam to the Superintendent of Customs of Coringa Division regarding the Shipment from Yanam to Pondicherry of the Salampores which were brought into Yanam, on payment of the duties to the said Goomastahs, as well as the accounts kept by them. The said Gentleman accordingly compared the passes issued by the French Chief for the 11 past months with the Frontier Accounts of

of the two Chowkies for the same period, and found that the said two Goomastahs had embezzled Rupees 11846 being the amount of duty at 6 per Cent on the lowest value of the tariff viz Rupees 40 per Corge, for 98700 pieces of Salampores, which were shewn in excess (as per passes from the French Chief) of the quantity for which duty was actually credited in their accounts.— He in consequence dismissed the Establishment of the two Chowkies and appointed me on the 19th January 1846 as Frontier Goomastah of Ingeram, adopting at the same time some new rules for my guidance. Ever since that period, I have not only shewn an increase of four, five, or Six thousand Rupees in the Collection beyond what was levied by the late Goomastah, &c but reported of the Seizure of Smuggled goods in 40 or 50 cases, as I knew too well the frauds which have been committed &c in this Chowkey, and I had a large number of my own people through whom I &c was enabled to keep a proper watch day and night, in the roads whence the Merchants used to smuggle their goods, and &c to

to make the seizures in question. The Management thus carried on by me having proved detrimental to the self advantage of the Pygusty and peons under my control, the Merchants and the Village Moonsiff of Ingeram, they all bore enmity towards me.- In proof of this, I beg to observe that the Moonsiff and Curnum, as well as certain Ryots of Ingeram had been in the habit of receiving loans from certain Merchants, and discharging the same by means of their assistance (accompanied by their cultivating Servants) to those Merchants in smuggling their goods through the Chowky. I have seized such smuggled goods and reported the same. The Head Assistant Collector thereupon published notifications and issued same severe orders that persons who assisted in such smuggling will be severely punished. The Peons named Curruh Ramaswamy Cokeramatla Sauliah &c. having combined with some Merchants and allowed them to smuggle their goods on the 20th May 1847 I addressed an arzee to the Collector requesting him

him to change the said peons. The Pygusty and a Peon Curruh Ramaswamy having allowed the Smuggling of 6 Cowdies of honey, jaggery &c. articles of some Merchants into Yanam, through unauthorized roads, I on the night of the 2d November 1846 accompanied by my brother-in-law, appre-hended the same, and reported it to the Head assistant Collector on the 6th of that month.-

The acts of the above kind on my part induced the said persons to bear such enmity towards me, that they were inclined to do me an injury by any intrigue.- On the 16th June 1847 a Doney containing tobacco purchased by three mer-chants named Soonkara Anderaya &c. Cocanada Kalakanchanah and Colah Ven-kanah was brought by one of them Colah Venkanah for the purpose of its being taken to Nellapilly and he the said Venkanah came into my Cutcherry at Ingeram, and asked me for a "Chapah Chittee" or Rahdary note for 15 Candies of Tobacco which he was taking to Nellapilly- I issued the Rahadary note ac-cording to usage and sent on the Doney which contained the Tobacco, the Peon named Cokeramatla

Cokeramatta Soutiah and others as far as the Ghaut at Vadsoorlunkah subject to Ingeram Cowkey thinking that the Merchants would smuggle the cargo into Yaniam lying between this place and Nelapilly. The said Peon &c. accordingly went to the Ghaut at Vadsoorlunkah and delivered the Dhoney to the peons Stationed there with a request that as it was then 6 o'clock in the evening and it would be Contrary to the rules to carry the Doney at that unusual hour, they would on the next morning pass Yaniam and arrive at Nellapilly. The Collector having warned the Village Moonsiff of Ingeram that he was informed by the Ingeram Frontier Goomastah, that he (the Village Moonsiff) was abetting the smuggling of goods in the frontier, and that he would be dismissed from his situation if he did not stop a smuggling within two months, and having taken a Mochilkah from him to the latter effect, he the Village Moonsiff through fear that he would be deprived of his Situation, and finding that the terms of his Mochilkah would expire within five or six days, instigated my enemies the said Pygusty and the Peons named Curruk Ramaswamy &c. to make a

a report as if smuggled goods passed by me had been stopped, as that I might thereupon be deceived. My said enemies Consented to this deceitful proposal, in the meantime, as the said Doney arrived, the Peons at Vadsoor-lunkah Ghaut required a bribe from the Merchant saying that they would cause the Confiscation of the tobacco if he did not Comply with their request. As the Merchant refused it, my enemy Curruk Ramaswamy (the Peon at the said Ghaut) stopped the Doney and sent word to the Pygusty and the Village Moonsiff of Ingeram on the 17th June on the Subject. They came there accompanied by the Duffadar under the Sub Officer of Nellapilly who came for the Moturpha Collection of Ingeram. They all combined together and informed the Sub Officer of Nellapilly that they had apprehended the Dhoney with tobacco, as she passed the Chowkey and was going by an unauthorized way. The Sub Officer examined the Doney owners and peons and wrote me a letter that there was a Rahadary note issued by one for the said Doney of tobacco and that I should inform him on the Subject. I answered the Sub Officer that if the matter Complained of were true it

it would have been reported either to me who had proper jurisdiction to institute the enquiry or to the Superintendent of Coringa Division— If the Peons at Vadoorlunkah had any dislike to report me on the subject, they should have at least reported the same to the Superintendent of Coringa Division, but why should they inform Sub Officer of Neelapilly of it who had no authority in the matter— By this only it will be very clear that the said Pyguaty and Peons &c fraudulently behaved themselves believing that I should be thereby injured— The 3 owners of the Doney &c upon being examined by the Sub Officer of Neelapilly declared that the tobacco was laden on her, for the purpose of being imported at Neelapilly but they did not give different accounts— The said Merchant Colah Venkana deposed before the Superintendent of Coringa Division that the peons &c at Vadoorlunka &c thought Conselessly stopped their tobacco, while it was being taken to Neelapilly. The Buffadar of the Sub Officer of Neelapilly and the Pyguaty &c under me, through apprehension that they would get into trouble

trouble from the said depositions, having misrepresented something to the Collector, the present case was sent to that authority for investigation. In the meantime the said Pyguaty and the Village Moonsiff of Ingeram have ill-persuaded the said Merchant and the owners of the Doney, and as the Merchant was also a relative to the Village Moonsiff he might have told him that the term of his Moochilkah was to expire, and that he would be removed from his duty, that if he declared that I had proposed to smuggle his tobacco into Yanam on condition of his praying me at the rate of 2 Rupees per bandy, his tobacco would be released and I would get into danger and that if the tobacco was confiscated, the value of his portion thereof amounting to Rupees 50 would be made good to him by means of the shares expected for the seizure of the smuggled goods— In consequence of these persuasions the said Merchant deposed before the Collector that I offered him assistance to smuggle the tobacco into Yanam on condition of his praying me at the rate of 2 Rupees per bandy that he paid me 30 Rupees for the same— One

said bribe from the above Merchant. If I had intended to get the said tobacco smuggled into Yanam, why would I send a Peon along with the Doney as far as the Ghaut at Vadoorlunkah with instruc=tions to deliver the Doney over to the Peons Sta=tioned there.— It is further to be remarked that while Peons were stationed at Vadoorlunka Ghaut lying behind Yanam and Bygusty and others were remaining beyond it, how could I who remained only in the office adopt means, to get the Doney with tobacco into Yanam.— If the Collector had taken all these circumstances into his Consideration, I would not have met with the present injustice: as there were partners for the said Merchant he should defray any ex==pences regarding the tobacco at their Consent, Consequently if the Collector had sent for and examined those partners, the deceitful behaviour of the said Merchant would have been brought to light.— If the Collector had moreover sent for and examined the person from whom the tobacco was purchased, & the two partners of the said Merchant and the persons who were present when the said

said Merchant asked me in the public Cutcherry for a Rahadary note, he & would have obtained sufficient proof, for what place the tobacco was pur=-chased, and for what place the Rahadary note was taken.— I also heard that the said tobacco upon being subsequently weighed was found to be 22 and odd bandies.— The said Byguety and others stated in their depositions that when I heard that they stopped the Doney, I combined with the Merchant and issued the Rahdary note on the next day, if this were true, I would have issued the Rahadary note for 22 and odd bandies in lieu of 15 bandies. By this very point, the Board will per=-ceive that the present case was fabricated against me through grudge.— The said & Merchant kept the Doney in the river and told me that it contained 15 bandies of tobacco and I issued a Rahadary note for the same but it was not & my own fault.— The late Goomastahs as well as myself for some time used & to issue Rahadary notes to the address of the Peons of the Ghaut at Vadoorlunkah mentioning

paying duty to the Circar and the Comastahs at the places where such articles are imported are only to examine them. The Collector has already enquired into this fact, and the said Merchant and the owner of the Doney should be severely punished for having deffened in their depositions before the Collector and before the Superintendent of Canniga Diveesion, also the Pyguaty, the Duffadar under the Sub Officer of Seelapilly, the Village Moonsiff of Ingeram and the Peons at Vadoorlunkaghaut for having instigated the said persons and for having attempted to throw blame upon me. But to my great misfortune all these persons were considered innocent, while I who am innocent under the foregoing circumstances was charged with crime in the investigation of the Collector. I therefore sincerely trust that all the unfounded accusations of my enemies in the present case will be removed by your Boards investigation and that I shall be afforded full justice upon an appeal made by my father on 2d August 1847, the Session Court of Rajahmundry issued a Precept to the Collector to transmit the

the record, but the Collector having made a return that the record could not be sent in consequence of the matter having been decided in the Revenue Department, the Session Court directed that an appeal should be made to your Board. My father accordingly addressed an appeal arzee to your Board on 21st August 1847 but the Muduligar of the Head of Pargana of Rajahmundry returned that Arzee on 29th October last (with an enclosure in English saying that the Collector issued an order that it was not admitted by your Board that if an appeal arzee sent in my name to him (the Collector) he would hand it to your Board. My father further on arzee to your Board in English on 2d November 1847 stating that the prohibit prisoners from addressing or speaking to their relatives, authorities have always admitted petitions from the relatives of the that the Session Court of this mitted many appeal petitions heirs of the prisoners without an objection as was communicated Collector, that the Jailer has him (my father) even to spe

Proceedings thereon.

(31-32)

The Petitioner Sungoomuntry Soobaroydoo whose appeal to the Board is forwarded with the letter above recorded was lately a Frontier Goomastah at Injeeram and was dismissed from his situation by the Collector after having been tried and convicted under section XIV Act VI of 1844 for conniving at an attempt to smuggle 2½ Pooties and 9 Maunds of Tobacco.

The Board observe that an appeal does not lie to them against the Proceedings held by the Collector of Customs under the Act above mentioned.

They resolve therefore to pass the following Endorsement on the Appeal of the Petitioner and to return it to the Collector together with the original Proceedings held on the case.

Endorsement on Appeal.

Petition No. addressed to the Board by S. Soobaroydoo late Frontier Goomastah at Injeeram.

"The Petitioner has been tried and convicted under Act VI of 1844 and as an appeal does not lie to this Officer against Proceedings held by the Collector under that Act the Board of Revenue cannot interfere.

To

No. 1.

To The Subordinate Court of Rajahmundry.-

A Complaint filed by Boolooso Venkarasa dhauty Enamdar of Iyanavilly Plaintiff against Defendants 1 H. Forbes Esqre. Sub Collector incharge of Rajahmundry and 2 Yellapragadah Setumah son of Veerangoo of Iyanavilly.

The Enam land at Iyanavilly inherited from the ancestors of my maternal grand father Rachacondah Venkata Dechatoolo, was partly washed away by the Godavery leaving at the time of the permanent assessment was made 1/4 Pooty of land in four portions, one situated Bandoovapolum field, and three in Pallapoo polum field in all four. The above 1/4 Pooty was entered as enam in the Permanent accounts, and as such was enjoyed by me up to the year 1846. This being the case, the 2nd Defendant in furnishing to the Head revenue Sheristadar, the Accounts of Enams subsequently granted to certain persons through the instigation of my enemies entered in the accounts that in addition to the said 1/4 Pooty of Enam I had encroached upon 6 Toomms of land

my

my right to which had not been established by any accounts- an annual cist of Rs. 6- 2a- 0 was in consequence levied upon the said 6 Toomms of land on the ground that I held it in excess, although it formed part of the said 1/4 Pooty of enam situated in Bandoovapolum which was enjoyed by me / while the enams subsequently granted were examined by the Circar / and a puttah was issued in the name of the ryot, who has been cultivating the land on my account.- On the 28th June and 5th and 18th July 1847. I presented petitions to the 1st Defendant stating that I never enjoyed more land than the said 1/4 pooty, and requesting that the whole of my land might be measured, and the quantity found in excess be resumed by the Circar, and that I should be relieved from the payment of the said Rupees 6 - 2a - 0 and stating that the 2d Defendant entered the said land as not established by any accounts through enmity. He / the 1st Defendant / has not ordered the measurement of my land nor instituted an enquiry and I have been further compelled to pay 4 Rupees for the Current Fusly.-

filed by Boolaosoo Senkara Siddauty Enamdar of Inavilly Plaintiff in Suit No. 53 of 1848.

Plaintiff states in his complaint, that he enjoyed up to the year 1846 1¼ Pooty of Enam land, which remained after what had been washed away by the Godavery, and which descended to him from his maternal grand father Rachacondah Venkata Deechatoolos as per permanent accounts, that at the misrepresentation of Yellapregada Seetamah the 2d. Defendant an annual tax of 6-2 Rs. a was imposed upon 6 toomms of his said land from the past Fusly on the ground that it was an excess, his right thereto not being established by any accounts and requests that the Enam land held by him may be measured and that should the result shew an excess he will pay such shist, as the Circar may fix. He therefore prays the Court would pass a Decree adjudging the repayment of the money collected from him with costs of Suit and instructing the Collector not to demand from him for the future the annual Shist of 6-2- Rs. as.

In reply to the above the Collector has the honor to state that on the

I therefore pray the Court will be pleased to pass a Decree ordering that the 1¼ pooty of land held by me at Syanavilly Village as per permanent account, should be measured, that if the result of the measurement shews any excess such assessment as may be fixed by the Circar should be levied from me, and that if no excess should be shewn the Defendants should repay me (with costs of Suit) Rupees 9 as 14 — " — after deducting 4 annas which I exceed according to the Order of the Sudr Adalut out of Rupees 10-2 as ... Collected from me up to this time and also that they should not demand from me in future the sum of Rupees 6-2 as ... Please peruse Dated 10th February 1848. This was written by Coorakah Sooria Narayanah.

No. 2.

To The Subordinate Court of Rajahmundry.

Proposed answer from F. Prendergast Esqr. Collector of Rajahmundry to the complaint

Filed

the facts mentioned by the Plaintiff are not true - Certain persons named Toorgah Lakshmanrauze &ca presented a Complaint that the late Proprietor, the village Curnums, the Plaintiff and others had encroached upon 24¼ pootties of Jeroyettee land and were enjoying them as Enams - Upon this complaint being referred to the then amildar Baudeda Bhoojungarow, he sent for the Plaintiff and examined him - Plaintiff gave two depositions one on the 16th May 1845 stating that in the Year Chetrabahaunds or A.D. 1822 he had 7 toons of land from the Proprietor in lieu of ½ Pootty of his Enam which was washed away by the Godavery and another on the 19th April 846 stating that he could not prove that his land was washed away by the Godavery - The land said to have been so given to him by the Proprietor was measured by the Head Shuddur par of Anulapoor Taluk and found to be 6 toons and 2/8 Manikahs as the Proprietor was prohibited by Regulation XXVI of 1802 from alienating Jeroyettee lands as Enams and as the Government in their minutes of

of Consultation dated 14th April 1846 in review of the General report upon this District by Sir H. L. Montgomery late Commissioner, direct that similar Jeroyettee lands fraudulently enjoyed free of tax should be assessed an adequate Assist of 6 – 2 Rs a Cawnie has been fixed upon the said land - The Court will therefore perceive that the Plaintiff has illegally enjoyed Jeroyettee land and being detected has brought the present groundless complaint pretending that the land in dispute forms part of his Enam, whereas he admitted in his deposition that it was given to him by the Proprietor in lieu of a portion of his Enam washed away by the Godavery - If it be true that a portion of his lands was thus washed away it is obvious that there is no Enam the land now under litigation can be use in measuring what remains. Under this admission it must be wholly unnecessary to measure it as whatever be the extent of Plaintiff's original Enam the land now under litigation can be Allowed from no part of it.

The Collector therefore requests the Court will be pleased to examine the facts of this case and nonsuit the Plaintiff with costs of Suit.

(Signed) T. Prendergast

Collector.

Ordered

Ordered that the following letters be sent in consequence.

To the Collr. of Rajahmundry

To The Collector of Rajahmundry.

Sir,

1. I am directed by the Board of Revenue to acknowledge the receipt of your letter dated 6th Instant, reporting the institution of Suit No. 53 of 1848, in the Subordinate Court of Rajahmundry, against the Sub Collector, late in charge of the district, and another defendant and requesting authority to defend the same at the public Expense.

2. In reply I am instructed to inform you that the case will be duly submitted for the orders of Government, but as the answer of the authority cannot reach you, by the 27th Instant, you will be pleased to move the Court to grant an extension of time for one Month from that date to enable you to put in your answer.

3. It is observed that your letter under acknowledgment was received at this office on the 12th Instant or only 15 days before the expiration of the time allowed for filing your reply - the Board request you will explain the cause of the delay which has occurred in reporting upon this case.—

Revenue Board's Office, Fort St. George, 19th June 1848.

/Signed/ T. Pycroft
Secretary.

33-35

To the Chief Secy to Government.

Sir,

1. I am directed by the Board of Revenue to submit for the consideration and orders of the Right Honorable the Governor in Council the accompanying letter from the Collector of Rajahmundry dated 6th Instant, forwarding copy and translation of a plaint filed in the Subordinate Court at that station, in Suit No. 53 of 1848 brought by one Boolooroo Venkara Siddhanty Enamdar of Iyanavilly against Mr. H. Forbes the Sub Collector late in charge of the District, and another, together with draft of the answer which it is proposed to put in, and requesting authority to defend the Suit at the public expense.

To the Chief Secy to Government - Submitting letter from the Collector of Rajahmundry with copy and translation of a plaint filed in the Sub Court in Suit No. 53 of 1848 with Draft of the proposed answer & recommending that authority be granted for filing the answer which has been slightly modified in one passage & for conducting the Suit at the public expense.

2. In his plaint the Complainant states that his maternal ancestors held certain Enam lands at Iyanavilly which were partly washed away by the Godavery - At the time of the permanent settlement however 1/4 Pooty remained - This portion was entered as Enam in the permanent accounts and continued in Plaintiff's enjoyment until the year 1846, when the second defendant represented to the

the revenue authorities that he had encroached upon 6 Toomes of land in excess of his Enam, in consequence of which an annual cist of Rupees 6-2- was fixed on the said 6 Toomes although they formed part of his Maneum.- Plaintiff asserts that he petitioned the 1st Defendant requesting that his Enam might be measured the quantity found in excess of his 1/2 Pooty resumed and that he might be relieved from payment of any cist- No attention having been paid to his application, he now prays that the Court will cause his land to be measured and should there appear to be any excess, he agrees to pay the proper tax upon it, but if not, he requests that the defendants may be called upon to refund, with costs of Suit, the amount collected from him, and prohibited from levying any assessment on his Enam for the future.

3. In his reply the Collector denies the correctness of the Plaintiffs Statement, he states that on a representation being made that certain parties, of whom the Plaintiff was one, had appropriated peroyettee lands and were enjoying them as Enam, the Plaintiff was examined by the Amildar- He gave two depositions, one on the 16th May 1845, stating

that in A. D. 1822 he had obtained 7 Toomes of land from the late Proprietor of the Village in lieu of 1/2 Pooty of his Enams washed away by the Godavery, and the other on the 19th April 1846, acknowledging that he could not prove that any part of his land had been washed away by the River- The land admitted by the Plaintiff himself to have been granted to him by the late Proprietor was accordingly measured and found to be 6 Toomes and 2/8 Manikals and as its alienation by the proprietor was in contravention of Section XII Regulation XXV 1802 and invalid, an adequate Cist of Rupees 6-2- per annum was fixed upon it- Under such circumstances any measurement of the Plaintiffs enam is unnecessary as whatever be its exctent the land lately assessed can by his own admission prove no part of it.- Upon these grounds he prays that the Plaintiff may be non suited with costs.

4. The defence above stated which it is presumed the revenue authorities of the District are in a condition to substantiate is in the opinion of the Board good and sufficient, and they beg to recommend that the Collector may be authorized to file his answer, one passage of which they have modified, and to conduct the Suit at the public expense-

Mr

5.

Mr. Prendergast has been called to move the Court for an extension of time for one Month from the 27th Instant to file his reply and to explain the cause of the delay which has occurred in reporting this case for orders.

letters. To

4

9140 Fort St. George 19th June 1848.

38

To,

T. Pycroft Esqre
Secretary to the
Board of Revenue,
Fort St. George.

From the Acting Collr. of North Arcot.

Sir,

Para 1. With your letter of the 20th March 1848 to the address of the late Acting Collector, was received a Petition presented to the Board by the Zemindar of Colastry, Rajah Damarla Coomara Venkatapah Naidoo Bahadoor, urging reasons against the charge of interest on certain arrears which he was permitted to pay by instalments, and which have been discharged in full; and the Board called for Mr. Lowell's report upon that petition, and his opinion whether there were any special grounds for acceding to its prayer.

Returns Petition No. 420 of 1848 from the Zemindar of Calastry with a report on the subject of interest on Peishcush therein alluded to.

Answered 29th June 1848

2. In answering this letter, I will in the first place detail the pleas urged by the Zemindar against the demand of interest.

1 He urges that it is expressly stated in the permanent Sunnud given in 1802, that the Peishcush shall form the total demand against the Zemindary, and that the additional demand of interest is thereby excluded - and further that the levy of interest does not

O.G.

9140. Fort St. George 19th June 1848.

appear among the means therein laid down for the recovery of arrears.—

2. That the Ryots do not pay interest on arrears either those in the Zemindary or those paying direct to Government.—

3. That the Board are empowered by section 50 Regulation I of 1803 to dispense with the punctual payment of the Kists when a necessity shall exist from bad seasons or other causes.—

4. That no mention of interest is found in Regulation 25 of 1802.—

5. That his Peishcush is not, like those of other Zemindaries, founded on a computation of the produce of the estate, but formed by commuting obligations of Military services into Money.—

6. That on former occasions he has been in like manner allowed time for the payment of arrears but without the charge of interest, and that he could have borrowed money to pay up according to the Kist at lower interest than that demanded on the arrears.

3 The Zemindary Regulations (Regulations 25 to 30) of 1802 came into operation on the 13th July of that year, while the

the permanent Summad for the Zemindary is dated August 4th: it appears prima facie therefore that it must be regarded as subject to the provisions of those Regulations, one of which is Section 8 Regulation 27, 93 that interest shall be paid on arrears of Peishcush. With the view of seeing if there were any thing in the Summad on which a claim to special exemption could be founded, I have examined it carefully and compared it with the Summad of the Raizapoor Zemindary in Salem District, not having an opportunity of seeing the form of Summad used in the case of the Northern Zemindaries, which I believe, however, much resembles that last mentioned. I find in both the same general features. Both commence, as Regulation 25 of 1802 also does, with alluding to the former insecure tenure of Zemindars and notices of the wish of the British Government to put an end to such uncertainty, both specify the amount of Peishcush fixed, and provide that the demand is to be enforced if necessary by sale of the estate, and neither contains any mention of interest on arrears.

The

Note "all persons being or to be constituted Zemindars or proprietors of land &c."

The Coincidence leads to the supposition that it was designed by Government that Calastry should be on the same footing as other Zemindaries, and the wording of Section 3. Regulation 25 of 1802 further seems to show that this Regulation, and therefore the others of the same batch, were intended to apply to existing or ancient Zemindaries, and not merely to those then newly constituted. Nor does the omission to notice the demand of interest in the Summad afford any presumption in the Zemindars favour, for that document does not, as he urges professs to lay down the modes of recovering arrears, but only notices the fact, that the whole Estate is liable for their liquidation. While it is obvious that the fixing of a Sum as the "permanent annual demand" relates only to "annual" and usual circumstances, and does not preclude the demand of interest, which arises from a breach of the conditions of the covenant on the part of the land holder.

4.

On the foregoing considerations

5. I am of opinion that the Calastry Zemindar cannot establish his claim to exemption, on the wording of his Summad or of Regulation 25 of 1802. Neither are his 3d and 5th pleas

more

more valid. For as to the former, Regulation 28 of 1802 provides them with prompt means of enforcing his demands against his Ryots; and as to the latter, the amount of Paishcush was fixed on the same principles in his case as in others, and all rents being fixed, and the Sunnud given, the prior objection cannot be.

6. But though disallowing the Zemindars claim as of right it appears to me that his appeal is entitled to some consideration on other grounds. In the first place it has not been the practice in this district for the last fifteen years to charge interest on arrears however accruing due by Zemindars or Poligars. 2nd when in 1838 the Calastry Zemindar himself obtained the Board's permission to discharge by instalments a former balance, much larger than the late arrear, no demand of interest was made. I may add that the Calastry Paishcush has always been paid with much regularity, and the instance just quoted appears to be the only one in which any indulgence has ever been solicited by the Zemindar; and 3. I think there is truth in the distinction taken by the

the Zemindar in his present address that the demand of interest was intended to apply to the case of wilful and fraudulent balances, not to arrears occasioned by circumstance of season, and through no fault of the land holder: and especially not to those in which, in consideration of such inevitable receipt of a lengthened term for payment had been granted. It may also be remarked that the Board have on various occasions, in the case of the Northern Zemindaries, had under their notice heavy arrears outstanding on estates; and I believe a claim right in staying that instead of insisting on the payment of interest in such cases, it has been rather the practice of the Board to recommend to

9140 Fort St. George 19th June 1848.

to Government the exercise
of liberality even to the extent
of relinquishing the claim to a
part of the principal: and this
even in Cases where the arrear
has accrued as much from esc:
-travagance and mismanagement,
as from unfavourable seasons. On
these consideration I beg to recom:
:mend that the demand for interest
in the present case may be given up.

Resolution

9141 Fort St. George 19th June 1848.

Resolution thereon. The Board of Revenue con-
(38-39) cur in the opinion expressed by the acting
Collector, that for the reasons which he has
given the Calastry Zemindar has not established
any right to exemption from the charge
of interest upon his arrears. They regret
however that they cannot accede to Mr. Boudillons
recommendation that this demand be as a
matter of favor foregone. It is true that
for some years past it has not been
usual to charge interest on arrears of
land revenue in North Arcot and in some
other districts. but it was the object of the
Circular issued from this Office, under
date 17th January last, to correct the omissi-
The grand principle of the permanent settlement
is punctual and regular payment of
Revenue, to be enforced in all cases in
which a clear title to indulgence cannot
be made out. It has not been shown
that the circumstances of the Calastry
Zemindary in Fusly 1255 were similar
to those in Fusly 1247 - or such as to
demand any particular consideration,
and

Fort St. George 19th June 1848.

and the Estate is understood to be favorably assessed. The Board therefore are precluded from acceding to the Proprietor's request for the remission of the interest due by him.

Ordered that the following Endorsement be passed on petition No. 420 of 1848.

"Petitioner is referred to the Endorsement passed on his Petition No. 128 of 1847 which the Board see no reason to modify."

To

Fort St. George 19th June 1848.

To

J. Pycroft Esqre
Secretary to the
Board of Revenue
Fort St. George

40

Sir,

From the Actg. Coll. of North Arcot — Paral

Respecting the accompanying Petition No. 1727 of 1847 — from Sakeena Beebee widow of the late Soobadar Majr. Mahomed Surwur Khan Shrestriemdar of Mangaud.

In accordance with the order of the Board in their endorsement on the Petition noted in the margin, I have now the honor to report on the complaint of Sakeena Beebee widow of the late Soobadar Majr. Mahomed Surwur Khan, Shrestriemdar of Mongaud.

Board's Proceedings May 15/25

1727 of 1847 — herewith returned

2- Mahomed Surwur died in 1815, leaving besides this Village a Military pension of 10 Rs 8 as Monthly continued to his family. The name of his eldest son, and the pension also was paid at first to him alone. The family soon began to complain however that this income on himself and his own amusements and pleasures, and defrauded them of their proper shares, and these complaints being brought to the notice of the Military Authorities and Government through the Brigade Major of Arcot, the pension was divided into shares, Viz. 4 Pagodas each to Petitioner and the four Sons of deceased, 2 Pagodas to his daughter, and 7 Pagodas for certain specified common expences. Petitioners object is to have the proceeds of the Village apportioned in some similar way.

The

3. The Petition was sent for enquiry to the Arcot Tahsildar, and he examined all the parties concerned. From his report it appears that in the lifetime of the Father he allowed ten Pagodas Monthly to each of his four Sons, and to the Petitioner, and that they all lived in separate apartments in the house. Since his death the eldest Son made the rest no allowance as above said, till the Pension was decided, and he claims for himself the sole title to the Shrotrium Village. The ground which he puts forward for this claim, is that his father designed it for him, and in proof of this intention he deposes that his father did not allot him a portion with the rest, but kept him with himself. This fact however is denied both by the parties themselves and by the brother of the deceased, another pensioned Subadar Majdr, and a man of much respectability. On a former occasion Gholam Moortoza a Pentiah deposed that his Father had left a Will in his favour, but he did not produce any such documents, and now says nothing about it.

4. On the whole I am clearly of opinion that the eldest son cannot make good any claim to a larger share of the Village than his brothers, founded on any intention of his Father

Father - And it is for the Government to decide what advantage, if any, shall be given him in virtue of his seniority. I am further of opinion that it is not to be expected that he will provide suitably for the rest of the family unless compelled to do so; and I would recommend that the example afforded in the case of this Pension should be followed, and that fixed allowances should be determined by the authority of Government to be paid by him to the other Members of the family. When favoured with the views of the Board as to this question of division, and as to the advantage to be given to the eldest Son, I shall be prepared if called on, to submit a scheme of allowances.

5. I may add in conclusion that the Jodegay of the Village is in arrear for Fusly 1256, in the sum of 210 Rupees, and this not from any failure of produce, but from his dissipation of the proceeds realized. It is also stated, and with some circumstances to corroborate it that he has Mortgaged the Village.

Signed W. Fisher Asst. Collr. and Magistrate

(44)

Recommended accordingly.-

North Arcot Collr's Cutcherry Palmanair 13th June 1848 } Signed J. D. Bourdillon Collector.

Resolution thereon.- The Board observe that it was notified in the Fort St. George Gazette of 1847 Page 875 that the resumption of the duties of Office at a date previous to that to which leave of absence is extended virtually cancels the

(44-45)

DESPATCHED

the unexpired portion of leave. An application for cancelling the remainder of Mr. Fisher's leave is therefore unnecessary.-

The Board believe that all that is required in the present case is that the Civil Auditor should be advised of the date of Mr. Fisher's return to his duty.-

To. T. Pycroft Esqre Secretary to the Board of Revenue Fort St. George.

(46.)

From the Ag. Collr. of North Arcot } Sir Para 1.

I beg to submit for the orders of the Board a tender which I have received for the Abkarry Farm of this District from Mr. Norman Morison, a Gentleman extensively concerned in the manufacture of Sugar and Rum, who offers 115,000 Rupees annually for the Farm for the next five years.-

From the subjoined Statement it will be seen that Mr. Morison's offer is nearly equal to the average of the last ten Fusleis, while it much exceeds that of the ten next preceding, and is considerably in excess of the annual average of the whole twenty.- The same Statement shews likewise that the fluctuations in the amount of the rent from year to year are very great and very-

2.

very sudden. The Amount depends indeed entirely on the competition, and, as that is greater or less, the rent may vary from 80,000 to 115,000 Rupees. If Mr. Morison were to come forward among the bidders in the usual way, the rent would probably be run up to a very high figure this year. But there would be no security against a heavy falling off in the following year, besides which Mr. Morison seems to intimate that an engagement for a single year would not suit him.

3. Under these circumstances I have been induced to submit this proposal for the orders of the Board, although I shall thereby be obliged to suspend the publick auction of the Farm, which was fixed for the 21st Instant, and notwithstanding the general opinion in favor of publick competition at auction, expressed by the Board and Government last year as already observed, Mr. Morison's offer is somewhat below the average of the last ten Fusilies. But this period includes several years in which the Rent was bid up to an exorbitant and losing amount, as the Board are aware, through the competition of Mr. Turner, and the anxiety of the family who had held the rent for many years to get rid of him at any cost. I consider the high average

To Board's Proceedings Sept 12 1847.

average of the latter period to be owing to this competition and not to any increased productiveness or profitableness in the business. On the contrary during the whole of this period there has been no European Regiment at Arnee, and the the highest year of all was subsequent to the abolition of a number of very profitable shops near Vellore, on their being found to be within the proper limits of the Military Abkarry Rent. Independently, therefore, of any weight that the Board may be disposed to allow to the considerations regarding himself urged by Mr. Morison, I think his offer a fair one to say the least, as regards the interests of Government, and I beg to recommend its acceptance.

4. I hope I may be permitted in conclusion to solicit an early reply to this letter; for, whether my recommendation is approved or otherwise, time is valuable now that the end of the Fusly is so near.

North Arcot
Palmanair

Sir I beg leave to tender to you the sum of one Lac and fifteen Thousand Rupees yearly, for the Abkarry contract of North Arcot, if granted to me for the period of Five years next ensuing commencing at the expiration of the present contract.

In making this offer for the contract I deem it requisite for me to explain that I have a Distillery at Tinary near Arcot, and one at this station in connexion with Messrs Parry and Co. Madras and that I have been unable to work the former for the past three Months for want of Molasses, caused principally by the servants of the Abkarry Renter, and my own coming in collision, in the purchase of them, which would be avoided by my having the contract.

The sum now offered by me for the contract is as near as may be the average obtained for it by Government the past eleven years during many of which high Rents were paid and the average of them may therefore be considered an extreme one.

I.

9155. Fort St. George 19th June 1848.

I make this tender to you with the hope that what I shall now state may induce you to postpone for a few days the usual Auction sale of the contract until you have submitted this tender to the Board of Revenue, and received their decision on the same.

It would be useless my appearing as a bidder for the contract at Auction, the Natives who have hitherto held it are so combined that they would outbid me at any sacrifice for one year as they have invariably done, when Europeans appeared as competitors.

I solicit the contract being granted me for five years, on the before-mentioned terms, not with the view of being enriched by its means, but in a more particular manner to assist and extend the trades in which I am, and have been engaged in this district the past seven years Viz. The manufacture and purchase of Sugar as well as the distillation of Rum for Exportation.

I commenced making the Raw or Muscovado Sugar at Timery near Arcot in 1841 and was the first individual who exported Sugar from Madras. Having to overcome many

9156. Fort St. George 19th June 1848.

many prejudices of the Natives, and other obstacles, I only made about 120 Bags that year. In 1842 I increased it to 1,300 Bags, in 1843 to about 8,000, and so on gradually increasing till in 1846 it reached 46,000 Bags. Since that period several parties, both European and Native, purchase as well as myself in the District to a considerable extent, and the Ryots are now reaping the fruits of their industry, encouraged as they have been by my exertions, and the large sums of Money, amounting latterly to some Lacs of Rupees which was advanced to enable them to extend their cultivation.

I allude to the above circumstance as it is not generally known, and trust that it will give me a claim to some consideration on the part of Government and the Board of Revenue in what I now solicit, more particularly when I say my object in asking the contract is with the view of having the several agents who will manage it for me in the different Villages, as Agents for me, in the Collection and Manufacture of Sugar also.

Feeling assured you will at once perceive the good result to be likely to ensue by the contract being in my hands, I have now only to beg you will support this application with your recommendation to the Board of Revenue, who will not I should

hope

Fort St. George 19th June 1848.

1 Plough is acres 21-1 and the smallest 4-25 and
with a Hoe the greatest 4-20 and smallest
Goontas 18- These Statements were made by
the Talook authorities deputed for the purpose,
but it is quite evident they can not be relied
on- no man could cultivate with one plough
or one hoe to that extent- It is well known
that a ryot cannot cultivate more than from
5 to 7 at the utmost with one plough and 2
with one hoe, so that the Malialies must
Conceal the number of ploughs in their pos-
= session and the Hills being unhealthy the
Curnums and Carkoons from the low Country
seldom visit them, and are easily deceived by
the Malialies who must continue to Conceal
the number of their implements actually employed-

3 The produce of the lands
Cultivated by each individual was taken
according to the Statement of the Malialies
themselves, but several seasons previous to
fusly 1256 having been very unfavorable, the
the produce of fusly 1252 has been placed
in contrast with that of fusly 1256 from
which the Board will observe that the value
of the produce of the individual said to
have cultivated Acres 21 with 1 plough in
fusly

Fort St. George 19th June 1848.

fusly 1256 amounted to Rupees 34-8-- and
that for fusly 1252 to Rupees 29 the Circar share
on which, after deducting the cultivators, is

For Fusly 1256 - - Rupees 17-14-"
Do 1252 - - - - " - 14-8-"

and the assessment paid by him on one
plough was Rupees 12- The Statement given
in this case must be evidently incorrect- as
the lowest produce of 21 acres of land at 1
Cundagum per acre is 21 Cundagums of dry
grain of any description, of which the Sircar
Share comes to Rupees 10½ which calculated
at 3½ per Cundagum amounts to to Rs. 36-12--
On the other hand the lowest extent cultivated
by one plough was acres 4-25, and the value of this
produce according to his own Statement was for
fusly 1256 Rupees 16-4--, and for fusly 1252
Rupees 18, and assessment paid by him on 1
plough was Rupees 14, so that by these shewing
21 acres produced Rupees 34-8-- and 4 and odd
acres Rupees 16-4--

4 The same discrepancy exists in
the Cultivation with Hoes- One individual with
1 Hoe is shewn to have cultivated acres 4½
which in fusly 1256 produced Rupees 10 and

Rupees

Fort St. George 19th June 1848.

Rupees 14 for fusly 1252, and another with 1 Hoe cultivated Goomtahs 18 - produce for fusslies 1256 and 52 amounted respectively to Rupees 4 and 6 and the assessment paid by them on their Hoes was Rupees 3½ so it is evident the information furnished is not correct, but considering the very unhealthy nature of the Hills, so fenerish, that for many months only those acclimatized to them can possibly live - I am not inclined to recommend any interference with them in regard to Surveying or fixing any regular assessment. The price obtained for wheat is at present remunerative and the supply appears scarcely equivalent to the demand, but there appears under existing circumstances little chance of its cultivation being much extended, unless the assessment is reduced and an extra demand created perhaps by Merchants finding it remunerative to export it now that the duty is taken off - It appears that with the expense of land carriage to Madras, it might be brought to the Market there at about 14 Rupees per Pooty, but I can not calculate if at that rate it would bear of a Market able value for exportation, and as stated by Mr. Dykes from the unhealthy

Fort St. George 19th June 1848.

Climate an increase of Cultivation must be preceded by an increase in the population, a great extent of cultivation could not be rapid, even if the assessment was materially lowered, and the demand increased -

5 I think all the other information required by the Board is supplied in the enclosed papers -

To W. E. Lockhart Esqre
Collector of
Salem -

Sir,

I have the honor to inform you that I took the opportunity of my being in the Taluk of Tripatore last Month to visit the Jowaddy Mallies in accordance to the instructions contained in your letter of the 17th September 1847 directing me to visit and report on those Hills -

2 The Jowaddy Mallies are of a considerable extent and attain an average height of perhaps a little more than three thousand feet - The two peaks of Permal Mullay on

on the South and Cumbagoody at the Northern extremity are somewhat higher. There is little table land to be found any where and the ridges of the Hills which run chiefly from North to South are clothed to the top with the densest Jungle. To the North of Cumbagoodie is a lower range forming the Bheemacollum Raud, which is tolerably level and free from Jungle.

3 To judge from the luxuriance of vegetation and the thick growth of the Jungle, the land generally must be very rich and where the land had been cleared, the Crops which were nearly ripe when I visited the Hills and consisted chiefly of Ragee were far finer than any thing that I ever saw in the low country.

4 There are many natural Causes which retard any increase in the extent of land under cultivation on these Hills. The difficulty of carrying their surplus produce to market is very great. If the cultivated lands lay together, this might perhaps be remedied but on the contrary, the patches of cultivation are scattered widely apart and separated by deep ravines. The Common road so far as it extended might be improved but the separate paths must,

I am afraid remain as they are, and that is in such a state as to render it requisite that every thing should be carried by Coolies, again the Crops suffer most severely from the wild Animals and the greater the distance from the Village the more carefully do they require to be watched and extra labour cannot be obtained from the low Country from the unhealthy nature of the climate, nothing well could be more deadly to strangers than the fever which infests these Hills and from which the Malayalies themselves suffer most severely. For this reason lands on these Hills are never taken up by the inhabitants of the plains and for any considerable increase in the extent of Cultivation there must be a proportionate increase in the Malayaley population. They are also a most superstitious race and much fine land is deserted on that account.

5 The wheat Crop was just coming up when I was on the Hills and as directed by you I made what enquiries I could on the subject, taking care not to alarm the Malayalies.

6. For wheat the richest soil is required and it is only grown by such of the Malayalies as are tolerably well off, probably

probably because it is so long in coming to the sickle and is not used for their own consumption The price per pootty on the Hills is Rupees 3-0 and when cleaned it sells below at an average of Rupees 10 per pootty- accounts were given me of the cost of cultivation and probable profits to the cultivator and Merchant but much credence cannot be placed on such calculations and I would rather form an opinion from the records of past years how the growth of wheat may most surely be increased in future-

From the accompanying State= =ment shewing the Revenue derived from each of the wheat growing Villages since Fusly 1231, the average assessment per plough on each Village and the proportion of wheat grown in each Village- it will be seen that the increase in the Revenue upto Fusly 1253 has been greatest in Beemacolum where the assessment is lightest, while in the other Villages it has been nearly stationary or shows only a very slight increase- similarly in Beemacolum there is a far greater proportion of wheat grown, than on the lands of the other Villages which grow

from being much higher and good soil are naturally better suited for that crop. I must mention however that the climate of Beemacolum is comparatively healthy and the low country people are able to live there.

8 The accompanying list of prices of wheat as sold in Tripatore since Fusly 1232 and taken from the Nirricks for each year, will in some measure account for the fluctuations in the Revenue during the last twenty three years. For the last seven years with one exception wheat has sold for about Rupees 10 per pootty in Tripatore, and unless we should have a return of the late bad seasons, the price will probably fall.-

9 The fact of the Merchants pro= =ceeding up the Hills from the low country to purchase the grain, may be considered a proof that the supply does not equal the demand and from what I have stated above and a careful Comparison of the accompanying documents. I can only conclude that the assessment is too high to permit any increase in the growth of wheat and that the Cultivation of that grain would be most surely extended by a reduction of

of the assessment—

10 In Fusly 1254 there was a considerable decrease in the Revenues owing partly to bad seasons and partly to the Malayalees having thrown up their lands to a great extent rather than submit to a proposed increase in the rate of assessment which, as I have mentioned in my report on the Yelagerries is now I was given to understand considerably higher than on the high lands in the neighbouring Districts Five acres of land is perhaps more than one plough can cultivate, and this at the present rate would make the average assessment more than Rupees 2½ per acre on these Hills—

11 Teak is still to be found on the Sowaddy Mullay and is most abundant towards the South in the neighbourhood of Singarpet—all those to whom I spoke on the subject appeared certain that a large supply of this valuable wood might be obtained from the Sowaddy Mullay were similar instructions, to those issued regarding Sandalwood, given to the Head of Villages for the preservation of the Teak trees.—

JK

No. 2

To W. E. Lockhart Esqre.
Collector of Salem.

Sir, In accordance to the instructions contained in your letter of the 17th September 1847 and the accompanying Extract from the Minutes of Consultation with the orders of the Board of Revenue thereon, calling for further information with regard to paras 14. 15 and 16 of Captain Beets "Report on the Yailagerry Hills," published in the Fort St. George Gazette of the 3d August 1847 I have the honor to inform you that I visited those Hills on the 8th ult.o

The Yailagerry Hills are completely isolated, and rising abruptly from the plains every where present a precipitous rocky front on which there is therefore no dense Jungle any where to be found of any extent, of an oval shape, at the top their extreme length is perhaps four and breadth at the widest part between two and three Miles—An ascending Sawmy Mullay which is the highest point—I was much surprized to find that there were many large patches of

Fort St. George 19th June 1848.

of Jungle scattered over the table land below me; for passing from Village to Village, the Hills had appeared singularly free from Jungle. These patches consisted chiefly of bamboo, which I found growing even on the top of Sammy Mallay. It is generally believed admitted that no Hills can be considered safe where there is Bamboo Jungle, at any time and decidedly not during the hot weather, and I am therefore of opinion that the Yailgerry Hills would not in their present state be a safe residence for Europeans.

2 Were these portions of Jungle cleared away, which from the limited size of the Hills would not be a matter of much expense, and good wells sunk, there is every reason to believe that the Hills would then be as healthy throughout the year. The sinking of wells is found to be almost as important for the preservation of health, as clearing away the Jungle, for they act as natural filters, and give a supply of wholesome water whereas every stream and pool is impregnated with the poison of dying vegetation.

Fort St. George 19th June 1848.

vegetation. With regard to the capabilities for improvement of the road up the Hills, as you will doubtless hear on that subject from the Civil Engineer, I made no particular enquiries.

3. There is no wet Cultivation on the Yailagherries and it would not therefore be the wish of Government I presume, to go to any great expense in the construction of tanks, but from the Estimate made by the Maramut Gomastah of the Irepatore Talook (herewith forwarded) the tank at Poonganaree, which is the principal one, might be made capable of holding a sufficient supply of water for the cattle during the whole year at an outlay of Rupees 18-2-0 and as the people suffer much from want of water during the hot weather, I would respectfully beg to suggest that this should be done.

4 There is not much wheat grown at present on the Yailagherries. The estimated produce last year was only about 56 pootties but little confidence can be placed on such accounts, as the Mallayalies are

are most unwilling to give any information on the subject and their wishes are favoured by the localities. It is not used by the Mallyalies themselves unless their other Crops prove insufficient, and then the difficulty of bringing grain from the low Country obliges them to live on what they have at hand, otherwise the wheat is brought by Merchants from below, where for several years the price per pooty has averaged Rupees 10 save the last year when the price rose like all other grains.

5 The average assessment per plough on the Yailgerries is Rupees 16-11-4, and there has been but a slight increase in the Revenue since Fusly 1231 up to Fusly 1253 after which the Revenues of both the Jamady Mallies and Yailagerry fell off, while on the Jamady Mallie, as will be seen in the accompanying report on those Hills, the revenue from the one Village of Beemacolum, where the average assessment per plough is only Rupees 4/28, rose in Fusly 1253 to Rupees 3147 being an increase

increase of Rupees 11.79 above that of Fusly 1231. In this Village moreover it will be observed there is a greater proportion of wheat cultivated than in the other Villages of that range, where the assessment is higher, as the Yailagerries, and that the Revenue from those Villages also shows but little, if any increase above that of Fusly 1231. From this it appears that the only sure way of increasing the growth of wheat would be to lower the assessment, when there can be little doubt but that much rich good land would be brought under cultivation which is at present covered with jungle. It may however be contended that the supply now equals the demand, but the wheat is invariably brought on the Hills by the low Country Merchants, who go thither for the purpose, and this they would not do if that were the case. The fact also that many are obliged to take a crop of Punny Varragoo out of the same land before putting the wheat down by which the quality of the crop must be deteriorated, proves that the assessment is too high for a free Cultivation of wheat, which requires the richest soil and is comparatively of slow growth.

At

Fort St. George 19th June 1848.

6 At the same time it must be remembered that the increase should the assessment be lowered, would not be so rapid as the low Country under similar Circumstances. From the Climate, none but Mallayalies inhabit the Hills, and the increase of Cultivation must be preceded by an increase in the population even though they otherwise have the means, the difficulty of guarding the Crops from the wild beasts of the surrounding Jungles will often deter Mullayalies from taking up lands at a distance from their Villages. For any great increase of Cultivation fresh Villages must rise.

7th By the accompanying Statement it would appear that wheat from these Hills might be landed in Madras at the Rate of 13¼ per pooty. If the assessment should be lowered a large quantity would be grown and the price would of course fall.—

8th From what I heard the assessment on the high lands in the neighbouring Districts of North and South Arcot is much lower.—

9 Though the soil and climate would be very favorable for the growth of fruit and vegetables, the difficulties of

Fort St. George 19th June 1848.

carriage would, I should be afraid, effectually prevent their finding a Market so far off as Vellore, and this would be also the chief abstacle to any great supply of wheat being ever received from either range of Hills. The road up may be excellent but the Villages are scattered and connected by paths which even a bullock if laden cannot travel over.

10th Teak was formerly to be found on the Yallagerries, and might be obtained hereafter if instructions were given to the Heads of Villages similar to those issued regarding Sandalwood, &c but, from the description which I have given above of these Hills, it would be seen that a large supply could never be expected from the Yailgerries.

11th With reference to the instructions contained in the latter part of your letter I have the honor to inform, that I took particular care not to give the Mullayalies reason to think that any change in the existing System of assessment was contemplated.

In

9186

Fort St. George 19th. June 1848

Proceedings thereon. In para 8 of their Proceed-
-ings of 7th December 1846 the Board re-
(48:49) -quested the Collector to report more fu-
-lly on the quantity of the land of the Jawadi
and Yalagherry Hills to what extent it
varied and how many rates would provide
for the different descriptions of Soil-
With the letter above recorded Mr. Lockhart
has submitted "a Statement exhibiting
"the number of Maliales carrying on
"cultivation the number of ploughs
"and hoes employed by each of them,
"and their respective extent of culti-
-"vation classified according to the diffe-
-"rent descriptions of soil and the produce
"of each putcut for Fusly 1256 compared
"with Fusly 1252". The results given in
that statement are shown in the annexed
abistract:-

Jawadi

9187

Fort St. George

19th June 1848.

As per settlement of Fusly 1256

Cultivation ascertained by late measurement.

| 1 | No. of Rayets 2 | No. of Ploughs 3 | No. of Hoes 4 | Teerwa 5 Rupees a/s P | Nunjah 6 Acres G a | Poonjah 7 Acres G a | Garden 8 Acres G a | Total 9 Acres G a |
|---|---|---|---|---|---|---|---|---|
| Jawadi Hills | 57 | 52 | 23 | 748 12 | 21 19 4 | 512 39 8 | " 6 " | 534 24 12 |
| Yalagherry Do. | 23 | 19 | 6 | 325 " | " " " | 233 30 2 | " " " | 233 30 2 |
| Total | 80 | 71 | 29 | 1073 12 " | 21 19 4 | 746 29 10 | " 6 " | 768 14 14 |

From

9188

Fort St. George 19th June 1848.

From this it would appear that the total estent of cultivation on these Wills as ascertained by the late measurement was only 768-14-11 acres, and their Settlement for Fusly 1256 only Rupees 1073-12 .. whereas it seems from enclosure No. 1 in the Collector's letter of 2nd October 1846 that the Bariz of these Wills for Fusly 1255 was Rupees 8972-1-7 and the Bariz for Fusly 1256 of the wheat growing Villages of the Jawadi Wills only is given by the Head Assistant Collector at Rupees 4539-12 ..

| | |

From the Collector of Salem

Sir,

With reference to my letter of the 17th Ultimo, submitting the answer proposed to be filed in Suit No. 57 of 1847 of the file of the Subordinate Court of Salem, instituted by the Proprietor of the Inoolah of Pariapullumpauay in the Namacul Talook, I have the honor to forward Copy of Mr Aufrere's Decree, which did not accompany the papers sent with the above letter.—

Salem
Collr's Cutcherry
22nd May 1848.

[Signed] W. E. Lockhart
Collector.—

Salem Zillah

Ramanada Pilly, Kylasa Pilly, Samballa Aulla Gounden Zemindars of the Estate of Senkerry droog Complainants thro their Vakeel Sya Annamala Pilly.—

The Collector of the Zillah of Salem Defendant thro the Government Vakeel Zillody Venkattasawmy Naidoo.—

The Complainants state that in the year Doondooby or Fusly 1212 an annual cess permanent

permanent rent of Star Pagodas 3300 was fixed to be paid annually for the above Estate comprehending twenty Villages Mouza and Mujzara and the Complainants purchased of Mr. Cockburn Collector the said Mootah for a Sunyranah of Star Pagodas 520 and enjoyed the same until this time, while the case was thus, the Collector without having any right collected from the lands included in the Cuvbah Village for the year Doondooby 1212 up to the year Crodanah 1215 the sum of 2016 Rupees or Star Pagodas 570 from the following sources that is Annually 70 Rupees from 1000 Tamarind trees that are in the waste ground of Cuvbah Senkerrydroog their Mootah and 17 Rupees for 270 Trees in two Tamarind Topes which are in the Jungle 50 Rupees Honey rent 14 Rupees from 22 Trees including wild Apple trees 117 Rupees from a fixed wood Cutting Tax in the said waste land average produce of a year Rupees 504 these Items are not mentioned in Para 4. 25, of Regulation A. D. 1802, these lands are included in the Accounts of their Mootah. Therefore on the 26th August 1806 they prefer a Suit against the Collector for the recovery of the sum of Star Pagodas 570 and the interest due thereon according to the Regulations and

and also to deliver up to them the Grafs Ground, Trees &c. &c. which are in the lands of their Estate. The Defendant in his answer states that whenhe came as Collector to the Zillah he found some lands called Giddoogavel in the District of Senkerrydroog had been rented by his predecessor for the term of 4 years, at the rate of Star Pagodas 215 per year, after the expiration of that time he also rented them for three years at the rate of Star Pagodas 205 per year which is carried to the Company's account. The said Giddoogavel and Tamarind Trees were not included in the permanent Jummah of the Estate and the Complainants have no manner of claim to the said rent. The Court on perusal and examination of the answer Reply Rejoinder and a representation on the 31st March 1807 with No. 1 Extract of a letter from the Special Commissioner to the Collector.—

No. 2. Extract of a letter from the Collector to the Secretary to the Special Commissioner 17th January 1803.—

No. 3. Extract of a letter from the Secretary to the Special Commission to the Collector 3rd March 1803 on perusal & examination

of

Fort St. George 19th June 1848.

of the foregoing case and papers it appears that the Complainants demanded to receive the Amount of the Giddoogavel rent as well as the amount of the rent of the Tamarind Trees &c. &c. and the letters Extracts &c. having clearly shewn that the Ground and Trees &c. &c. and every thing belonging to the Giddoogavel are the property of the Honorable Company and that the Complainants have no manner of concern whatever with the Giddoogavel or Tamarind Trees, The Court therefore dismiss the Complainants cause/ The Complainants demanded to receive 2016 Rupees and the interest due thereon/ the Rent of the said Giddoogavel from year to Doondooby to the year Croidanah four years according to the Bariz of such and such year also the lands of the said Giddoogavel and Topes. It is decreed that the Complainants are to Lay according to their Complaint the rent of four years Rupees 504-10-..24, Total Principal and Interest Rupees 2020-10-24 the annual Bariz of the said Giddoogavel is Rupees 504 Grand Total Rupees 3124-10-24. The fees to the Complainants Vakeel Sinnamaley Pilly and to the Defendants Vakeel

Fort St. George 19th June 1848.

Vakeel Zillooby Vencattacawmy Naidoo is Rupees 269-11-77.

In witness whereof is given the signature of T. N. Aufrere Esquire Judge of the Zillah of Salem with Court Seal this 22nd day of Poongoony Tchiah year answering 2nd April 1807.—

To
J. F. Thomas Esqre
Chief Secretary to Government.

To the Chief Secy to Government

Sir

I am directed by the Board of Revenue to submit for the orders of the Right Honorable the Governor in Council the accompanying letter dated

In Cons 15th May 1848

dated 17th April 1848, with its enclosures, from the Collector of Salem reporting the institution of a Suit No. 57 of 1847 against himself in the Subordinate Court of Salem by the Proprietor of the Peraya pollium Pauray Mootah in his District and submitting draft of the answer which he proposes to file in the case

From the Collectors communication and the papers which accompanied it it will be perceived that the present action has been brought to obtain possession of a quantity of land bearing an assessment of Rupees 352-9 together with the sum of Rupees 9,219-10- being the teerwah collected thereon during past years. Of the above land Acres 113-34-5 is assessed land. The remainder Acres 269-23-8 is Geddagarie.

The Geddagarie lands in Salem are tracts of Jungle, which in former times of insecurity were kept up by the Polygars around their forts for purposes of defence. After the assumption of the Province by the Honorable Company the privilege of collecting Bamboos and other wild produce in these Jungles was rented out on

on the formation and sale of the Salem Mootahs in 1801. these lands were in some instances included in the Schedules published for general information and intended to apprize competitors of the extent of the lands belonging to the several Mootahs, and to be conveyed to their purchasers. In the case of Pereyapollium Pauray the Geddagarie lands were excluded from the Schedules.—

Of the Pareyapollium Pauray Geddagarie land to the extent of Acres 1030—10—5 has been cleared and cultivated by the Mootahdars. Of this quantity Acres 760-27-7 are still in their possession, the remaining 269—23—8 were attached by the revenue Authorities some years ago, and have since been held by them. It is the object of the present Suit to recover the land with a further quantity of acres 113—34—5 which is assessed land, but was improperly included by the Circar Servants in the attachment.— As respects this latter quantity it may at once be stated that the Mootahdar title to it is clear, and that the land with the teerwah Rupees 1309—6—5 collected upon it whilst under Circar Management should be given up to him.— It will be necessary to consider only his demands for the Geddagarie lands.—

For

For the support of his claim the Proprietor has in his plaint relied principally upon a decree /No. 381 of 1821/ passed by Mr. Birdyllah Judge of Salem in an action brought by the Mootahdar of Valacoorchy for the recovery of the Geddagavil land of his estate under circumstances which it is contended are analogous to those of the case now at issue. In that Suit the Judge found in favor of the Plaintiff on the ground that the lands sought to be recovered were situated within the limits of his Mootah and were not among the reservations specified in Section III Regulation XXV 1802, or in the Mootahdars Summud i. Milkeit Ishmar.

In regard to this decision it is to be remarked that the circumstances of the Vaylacoorchy Geddagavil lands differ from those of Pereyapollium Puray Mootah in this important particular, Viz.t. that the former lands were entered in the sale schedules of the estate and consequently obviously formed part of the property acquired by the purchaser. It was this consideration tho' apparently not brought to notice in the trial, and not alluded to by the Judge, which induced the Board of Revenue in their

9196 Fort St. George 19th June 1848

From Salem 22d. May in Cons. 19th June 1848

their Proceedings of 20th July 1835 to acquiesce in the Judgement of the Court, and to recommend to Government that the Valacoorchy Geddagavil lands and those of other Mootahs similarly circumstanced should be given up to the proprietors. The claim now under discussion is however of a different character and nearly resembles that preferred by the Mootahdar of Sankendroog and rejected by Mr. Dupree Judge of Salem in 1807. On that occasion it was held that as the Sankendroog Geddagavil had when the Mootah was formed been specially reserved by Government. the proprietor had no title either to the rent or to the land itself. The Pereyapollium puraay Geddagavil lands were in like manner reserved to the State as may be proved by the fact first that they were excluded from the Sale schedules of the estate, and secondly that the Collector of the District at the time when the Mootah Darry system was introduced, tho' empowered by the special Commission to include the rents of the Jungles in the assets of the Mootah did not avail himself of that discretion but retained the rents for Government by whom it has

Fort St. George 19th June 1848

has continued to be collected subsequently to the Permanent Settlement, as well as before: In the answer submitted by the Collector this line of argument has been adopted, and as it seems to the Board that it constitutes a valid defence and that it is desirable that the question should be legally determined in reference to claims of a similar nature likely to be preferred by others

From Coll. 17th & Fort in Cons. 15th May 1848

Mootahdars, they beg to recommend that the answer with the modifications and additions which they have proposed may be put in and the suit carried on as regards the Defendants at the public esepense.

It will observed that the Collector has suggested that a Counter Suit be instituted against the Mootahdars for the recovery of the Geddagavil lands - Acres 760-27-7 which through an over-sight on the part of the Revenue authorities, he has been allowed to retain. The Board would not however advise that such a measure be taken for the present. The question as to the right to the Geddagavil lands generally will be brought to issue in the present Suit, and its decision will regulate the course to be adopted in respect to the other lands of a similar discription still held by the Proprietor.

Secretary to the
Board of Revenue
Fort St. George

(52.)

From the Collector of Salem Reporting the sale of the Abkarry Rent of his District for Fusley 1258: 59 and 60.

Sir,

With reference to Paras 2 and 3 of your letter of the 1st Ultimo requesting that the names of the Military Stations and places frequented by Troops referred to in para 11 of the Advertisement, may be specified in that para, and with this modification authorizing me to publish the Advertisement and to put up the rent of the Abkarry of this District for the ensuing fusly at Daramporry on the 5th Instant, I have the honor to inform you that there no Military Stations in this Zillah; the Remount Depot in the Ooscoor Taloork is excluded from the farm in the Advertisement and which is also entered in the Puttah granted to, and Moochilka received from the Renters; consequently no modification being necessary the Advertisement forwarded to the Board with my letter of the 19th April last, was published. The insertion of Military Stations and places frequented by Troops in the Advertisement, is according to the usual form hitherto published with the sanction of the Board, and intended to prevent disputes should Troops be hereafter stationed, in this District, as in that of North Arcot, Trichinopoly, &c.

When

Fort St. George 19th. June 1848.

When the parties were assembled at Darampoory on the 5th. Instant, the Istyar was read to them, and on being asked if they had any tenders to submit they stated they had none, but requested that the farm might be put up to public sale for the whole Zillah at once and for a period of three Years, accordingly the Abkarry Rent was put up to public Sale at 12 O'clock A.M.

I beg to submit the accompanying Statement shewing the offers made for this branch of Revenue for the ensuing three Fuslies Viz.t. 1258. 59. and 60, exhibiting a net increase of Rupees 8195 each fusly compared with the amount for which it was rented in the Current fusly, as will be seen by the following Abstract.- The particulars of the Increase and Decrease in each Talook is not inserted in the Statement herewith submitted, in consequence of the whole Zillah having been put up for sale in one lot, but the purchasers have been directed to furnish a Statement of the amount of each Talook, which will be duly entered in the Accounts of my Cutcherry for the term the rent has been purchased.

| No.s of Talooks & Co.s | Particulars | Average of Fuslies 1254. 55. and 1256 | Rent of Fusly 1257 | Offer for each Fusly of 1258-59 & 60. | Comparison between Col.s 4 and 5. Increased | Decreased |

Statement

9202. Fort St. George 19th June 1848.

Proceedings thereon. The Board of Revenue sanctions
the acceptance of the offers for the Abkarry Farms
(52-53.) of the District of Salem for three Fuslies 1258-59. to
reported in the foregoing letter amounting to Rupees
86,500 per Annum or for the three years to Rupees —
2,59,500 and authorize the renters being placed in
possession of their Farms. It is observed that these
parties have deposited the sum of Rupees 21625 or
25 per Cent of one years rent. The Collector will
be careful that all the Kists are regularly paid
and that the deposit money is not trenched upon —
and that the deposit money is not trenched upon.

From the Collector of South Arcot. Read Statement of Charges
incurred without Estimate for Fusly 1256.

(54) Before submitting the Statement
Proceedings thereon; above recorded for the orders of Government,
Observations on the Statement of Charges incurred without Estimate in the District of South Arcot in Fusly 1256. the Board resolved to call the Collector's attention to the following observations and to request explanation on the several points noticed.

From Account Particulars No. 3 which
accompanies the Statement above adverted to it is observed
(54-55) that the hire for measuring Salt at Merkanum was
½ Anna per Garce in two instances in two other in-
stances the rate was 1 6¾ per Garce while 2 Annas
per Garce was the rate paid at Cuddalore. —

It is also observed from Account Parti-
culars No. 4 that the disbursement for covering Salt —
at the former pans consisting of 1540 Garce amounted
to Rupees 1540 while at an expense of Rupees 77
no less than 634 Garce of Salt to other pans would
appear to have been covered. —

Some

Statement Shewing the Charges of 3 Years Collections of the Abkarry Rents.

Under Report Dy.

| Fuslee | Pans | | |

9203. Fort St. George 19th. June 1848.

Some explanation of the cause of these very different results should be afforded.—

In future Annual Statements of charges the expenditure in the Salt Department should form a distinct item and be entered under a separate head.— A single Account Particulars will hereafter suffice detailing the several Sums disbursed in this Department at the foot of which the proportion of charge per Garce on the entire manufacture of Salt in the fusly should be exhibited agreeably to the practice prevailing in other Districts.

By Account Particulars No. 7 the Board perceive that the rewards paid during Fusly 1258 for the destruction of Wild beasts amount to so large a Sum as Rupees 5,080 exceeding the charge of the previous year by Rupees 694.— It is however found that the charge for Fusly 1256 is more than double the amount of disbursement in Fusly 1251 or 1252 and that from these fusles to the one under review there has been a very great increase in the Annual expenditure on this Account.—

| | | | |
|---|---|---|---|
| Fusly | 1251 | Rupees | 2167 — 8 — " |
| " | 1252 | " | 2487 — " — " |
| " | 1253 | " | 4928 — 8 — " |
| " | 1254 | " | 5192 — " — " |
| " | 1255 | " | 4980 — " — " |

It is observed that the number of Animals for whose destruction rewards were paid during Fusly 1256 was 83 Royal Tigers 315 Cheetahs and 97 Bears. The attention of the Collector is called to the necessity of preventing frauds in this class of disbursements and he is requested to report

9204 Fort St. George 19th. June 1848.

report whether the checks, adverted to in the Board's circular instructions of the 10th. August 1815 and 13th. July 1836, are duly enforced.—

Referring to the Sum of Rupees 4-14-9 entered in Account Particulars No. 10 being the compensation for fusly 1256 paid under the orders of Government dated the 28th. November 1828 para 2, to a Ryot who was deprived of the use of his land by a former Principal Collector Mr. Hyde the Board observe that as the Sum is a fixed charge it should be omitted from the Statement submitted Annually by the Collector for the sanction of Government.—

From the Collector of Madura

To
F. I. Pycroft Esqre.
Secretary to the
Board of Revenue
Fort St. George

Sir

In reply to the Proceedings of the Board of Revenue dated the 20th March last I have the honor to express my opinion that when ground that had been tolled out was required for a Public Road Compensation should where should have been offered to the individual dispossessed, and that it was not necessary or fair to give him the adjoining lot, and the occupant of that the one next in succession and so on, thus disturbing several parties instead of one.

Suit No. 140 of 1844

This is the view taken of the question by the Subordinate Court and as I consider it probable that the Civil Court will come to a different conclusion, I am disinclined to advise the incurrence of further expense at the same time being sent to the parties

Fort St. George 19th June 1848

great inconvenience by the uncertainty as to the possession of each lot of ground.

Madura
11th May 1848.

(Signed) R. D. Parker
Collector

Read again also letter from the Collector of Madura dated 6th and entered in Consultation 20th March last.

Ordered that the foregoing letters be submitted with the following address.

(60-61)

To the Chief Secretary to Government

Sir

The Chief Secretary to Government

Submitting letters from the Collector of Madura reporting that the Sub Court have awarded the decree in Suit No. 140 of 1844 instituted against the Principal Collector in considering it inexpedient to carry the case further under the explanation afforded

With reference to the correspondence noted in the margin I am directed by the Board of Revenue to submit for the consideration and orders of the Right Honorable the Governor in Council the accompanying letters from the Collector of Madura, reporting the result of Suit No. 140 of 1844, on the file of the Subordinate Court at that Station, instituted against the late Principal Collector of the District.

The case of action and the line of defence adopted by Mr. Blackburne are fully explained in my letter of 27th March 1845.

From

afforded and requesting that sanction be granted for payment of the costs awarded against that officer amounting to Rupees 58-10-0 and for placing the ground which formed the subject of dispute in the possession of the Plaintiffs

Fort St. George 19th June 1848

From the papers now under submission it will be seen that the Subordinate Court has awarded to the Plaintiffs the ground in dispute and directed that the 1st Defendant the late Principal Collector, should bear all the costs of the suit.

The present Collector having stated that upon a repeated consideration of the case with a view to appeal he reluctantly came to the conclusion, that the proceeding would not be attended with success, the Board called upon him to state his opinion on the merits of the question, and the reasons which had led him to the above conclusion. In reply Mr. Parker explains that when the ground that had been lotted out was required for a public road, compensation elsewhere should in his opinion have been offered to the individual dispossessed, and that it was not necessary or fair to give him the adjoining lot, and the occupant of that the one next to succession and so on, thus disturbing two parties instead of one. He adds that this is the view taken of the question by the

Fort St. George 19th June 1848

Court, and that it is likely to be concurred in by the Civil Court.

This argument will, in the opinion of the Board, hold good, if the Plaintiffs had been for some time in possession of the ground and the arrangement had been regarded as final. The parties, as shewn by the Plaint and Answer in the original suit, are altogether at issue on this point, but it has been decided by the Subordinate Judge that the possession of the ground by the Plaintiffs was full and complete and such as the Collector was not authorized in disturbing. It seems questionable whether the Zillah Court would not take the same view, and as further delay in the decision of the cases would, as pointed out by Mr. Parker be productive of annoyance to others besides the Plaintiffs, the Board are inclined to concur with him in thinking that it would not be expedient to carry the case further.

In the event of the Government adopting this view, the Board beg that sanction may be granted for payment of the Costs awarded against the late Principal Collector Viz. Rupees 58-10-0, and for placing the ground

ground in possession of the Plaintiff accord-
-ing to the decree.

From the Collector of Canara -- } I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated 17th Instant, communicating for my information Copy of a letter from the Secretary to the Government of India dated the 8th January last. The Board desires me to report with reference to the recent order of the Honorable Court adverted to in the 2d Para of Mr Bushby's letter whether the Establishment applied for by me in 1840 for the conservancy of the entire Forests of Canara may not now wholly or in part be dispensed with, especially if the existing Establishment is relieved from all duties except those of conservancy - and further whether it may not be advisable as suggested by the Government of India to defer entertaining an extra Establishment until after Dr Gibsons proposed examination of the Forests is completed, and the precise duties and rules of proceeding can be laid down

Offers his observations with reference to the Board's Proceedings of the 17 February 1848 on the necessity of the Establishment entertained & recommended for the protection & conservancy of Teak forests in Canara -

down for the guidance of the Establish-
ment.-

2. It is necessary in the first
instance for me to observe that the Esta-
blishment applied for by me in 1846 was
not as remarked in Mr. Bunbury's
letter "intended for the conservancy of
all the Forests in Canara," but only
of those in the Northern portion of it.
The Board is aware that the forests
of Canara extend over a tract of Country
little short of 300 Miles long and it is
unnecessary for me to observe that so
limited an establishment could exe-
rcise no control over such an extent
of Country. The original establishment
as it now exists was intended to
conserve the Teak forests in the Ankola
Taluk viz. at the northern extremity of
the district below the Ghauts where alone
operations were at that time going on or
contemplated.-

3. Subsequently upon Dr. Gibsons
report - and my subsequent recommendation on
it

it was decided to preserve for the use
of the Government other extensive
and valuable Teak forests in the upper
Country lying between the Crest of the
Mountains and the borders of the Dar War
District, and in 1846 it was proposed by
Captain Williams in communication
with the Bombay Government to work these
upper forests for the use of H.M. Dock-
Dockyard.- It was, as explained in my
+ 17 Oct. 1846 letter forwarding the application, for the
purpose of carrying on the proposed
felling and transport of timber from
that part of the Country as well as
with a view of providing some kind
of Superintendance and protection for
the upper forests, that I applied for the
increase to the Establishment.- The
opportunity was at the same time
taken to suggest a slight increase
in the Establishment for the lower
Country by which its efficiency would
be much improved - The one Sub-
Conservator was then intended to be
stationed in the Ankola Taluk, to

to

to superintend the Teak forests there which are situated in spots widely separated from each other and extend over a tract of from 40 to 50 Miles of very intricate Country, the other was to be stationed in the Country above the Ghauts and to have charge of the Teak forests selected by Dr. Gibson which are dispersed over a still larger tract lying between the Ghauts, and the Villages of Soopah and Kullick, and including within its limits the forests of Gound and Don Lolly. No provision was intended to be made by these arrangements for the other teak forests in Lower Coorg and Bekul in the Southern part of the District situated at the distance of from 150 to 200 Miles from the last named, and if it were contemplated to work these forests simultaneously with those in North Canara it would be necessary to provide further superintendance for that purpose.

4 The Government of India has referred to the arrangement which I had the honor to propose in my letter of

Paras 7 & 8 20th June 1846 and seems to have anticipated that this had been carried into effect, or was about to be so, but it will be observed that this proposal has not as yet come under consideration, owing, apparently, to some oversight. It was made, with a view to separating the duties of supplying the Dockyard at Bombay with timber, from those of merely conserving, and protecting the forests as more fully explained in paras 7 & 8 of my letter of the 20th June, to which the special attention of the Bombay Government was requested by the Madras Government by its Minutes of Consultation of the 11th September 1846.

There was however another plan alluded to in the 11th Para of my same letter merely by way of suggestion and as a measure of economy, which was that arrangements might possibly be practicable for combining the Office of Assistant Timber Agent and Conservator. It was to this alone that reference was made by the Bombay Government in

Fort St. George 19th June 1848

in Mr. Secretary Lumsden's letter of the 17th November 1847 in which objections were stated to the measure of uniting the two Offices abovementioned, but no reference was made to my proposal that the Assistant Timber agent should undertake all the duties which appeared to me to be "in his immediate and proper sphere" and which he seems to think he could perform without difficulty. It was added however that there must at all events be a separate Establishment.—

3d June 1847

Dr Gibson in the interim had expressed his opinion that any latter suggestion might have been acted upon and the Military Board at

28th June 1847

Bombay concurred in his views but by neither of these authorities was any opinion given on the proposal to which the Madras Government had called attention, and which is now apparently referred to by the Supreme Government.— In forwarding the papers containing these views of Dr Gibson and the Military Board

Fort St. George 19th June 1848.

Board it will be observed that they were inaccompanied by any remarks on the part of the Bombay Government.—

6. In the meantime the chief duty connected with the supply of teak timber and all the arrangements for its felling and conveyance to the Coast has continued to devolve upon me, the contracts for its transport have to be made by me, and there is such a continued effort on the part of the Contractors to obtain undue advantages and to evade the fulfilment of their Contracts that they require most constant supervision and watching. The English correspondence upon this one subject alone, viz of the teak forest, during the past year fills one thick Volume, that in the native department is much more voluminous, and it occupies my time and attention in a manner that must of necessity interfere with the other duties I have to perform in the various departments of Revenue, Police, Sea Customs, Post Office and

and other miscellaneous duties in one of the most extensive Provinces of the Madras Presidency. It is not in short a duty which I think can fairly be expected from the Collector, but I have hitherto endeavoured to fulfil it to the best of my power. I am nevertheless still of opinion that the proposal which I formerly made that the above duties should be performed by the Assistant Timber Agent, should be carried into effect.

7. It will be seen then that the duties of the Sub Conservator, are not at present confined to the protection of the forests, and I shall here shortly state the manner in which he has been employed during the past year, and will be during the following year.

8. He has before the Monsoon to traverse the forests and select the trees to the number of a thousand in each year, and to have these "girdled" that

that they may be killed and become partially dry and ready for felling after the Monsoon. This latter operation is commenced before the termination of the rains, and large number of people are employed in it. He has to be constantly in the jungles directing the workmen and has to keep the accounts of these, to pay them regularly, and to see that they do not neglect their work, and fell the wrong trees. The logs have then to be trimmed, measured, and marked, and a list made of them. When the time for transporting them comes he has to deliver the logs over to the Contractor, and it is at this period and during their removal that the most incessant vigilance is required from him for the purpose of checking and reporting the frauds and tricks which are now attempted by the people of the Contractor's Establishment. These consist in various means adopted to lighten their own

own trouble at the expense of the Govern-
ment. A large teak tree takes more la-
bour to remove than ten smaller ones, but
it is also when brought down out of all
proportion more valuable. This last con-
sideration however is not one affecting
the Contractor. his only object being to bring
down the quantity agreed upon at the
least trouble and expense to himself.
With this view all kinds of manoeuvres
are resorted to. The large trees are set
on fire as is pretended by accident. or
they are cut in half or concealed and
left behind altogether and smaller trees
secretly cut down to make up the number
and transported in their place. and
this cannot be checked as I have before
stated except by the constant attention
and vigilance of the Sub conservator.

9.— The Board will be able to
judge from what I have stated whether
it is possible that the same man can

exercise

exercise the necessary control over work go-
ing on at two places at a distance of 50. or
60. miles from each other divided by a
Country as wild mountainous, and difficult
as in any part of South India. I can only
state that the Office of Sub Conservator
is one of incessant labor and responsibility
and that he is further constantly expos-
ed to the risk of fever contracted in
the forests and to be thereby incapacitat-
ed from the performance of his duty at
the time when his services are the most required.

10. With respect then to deferring
the appointment of the Extra Establishment
it can be done if thought proper, but in
that case the working of the upper forests.
under the existing arrangements, must necessa-
rily continue to be deferred also. Whether this
will be a matter of inconvenience or
loss it is not in my power to give
any adequate opinion on, because it
will depend upon whether the Marine
Department at Bombay can conveniently

wait

wait for the supply of Timber which is expected from the upper forests for its own use and that of H. M. Dockyard, and whether it has the means of replacing this from any other source of supply. I would only remark that if it should have been found necessary, as I understand it has been to purchase teak in the market to replace that which might have been got from the Government forests, the early sanction of the small additional Establishment which would have enabled me to work the forests during the last two seasons would have been no source of expense to Government but on the contrary a saving of about half a lac of Rupees. The annual supply now furnished from the lower forests is between 3,000 and 4,000 Candies and the same quantity might have been brought from the upper forests. Timber so procured can be delivered on the Coast at a Cost including all charges of Establishment, of 9½ Rupees per Candy, whereas it cannot be purchased from private Merchants at a lower average than 18 Rupees per Candy, the difference therefore in the

lowest.

lowest quantity annually supplied, Viz. 3,000 Candies, would be Rupees 24,800-0-0 for two Seasons 49,680. From this might be deducted the charge of the extra Establishment applied for Viz. Rupees 2,190 per annum or 4,380-0-0 Rupees in two years though in reality this would have been more than covered by the excess quantity supplied above 3,000 Candies.—

11. The only other points upon which my report is called for are, whether the extra Establishment applied for for the conservancy of the forests as may not with reference to the recent orders of the Honorable Court of Directors be wholly or in part be dispensed with, especially if, as intended by me, the existing establishment is relieved from all duties except those of conservancy, and if it still be deemed necessary whether it may not be advisable to defer entertaining it until after Dr. Gibson's proposed examination of the forests is completed, and precise duties and rules of proceeding can be laid down for the guidance of the Establishment.

12. I did not understand the orders of the Honorable Court to apply to the Teak forests, the necessity of protecting which has been so forcibly urged by Dr. Gibson, and for the conservancy of which the Establishment was mainly intended, but only to the other Jungles which it had been pointed out

out were being so rapidly destroyed. — Should the conservancy Establishment be hereafter relieved from the duties of felling and superintending the transport of the timber as above described which it now performs, the propriety of dispensing with any portion of it will still in a great measure depend upon whether Doctor Gibson's plan for planting and for clearing the young trees are to be carried into effect or whether the duties of the Conservator are to be confined merely to protecting the forests as they now stand. — In the latter event I am of opinion that some reduction might be made though I must observe that as the duties involve a residence in a wild jungly Country a constant exposure to fever, and considerable labour in moving about, they are so distasteful that it is with difficulty that any respectable man can be engaged to undertake them and it appears therefore to me to be injudicious to attempt to keep the Establishment down to a very low scale. — .

13. If in the mean time it be desired to work the upper forests I can see no use in deferring the appointment of an Extra establishment "until the precise duties and rules of procedure can be laid down" for whatever these rules may be it is sufficiently evident that the extensive operations connected with the supplying of timber cannot be carried on without

some native Superintendence and assistance. — The establishment therefore will under any circumstances be required, and it will be easy to transfer part of it to whichever Department it may eventually be determined that they shall serve under. — Judging from what has hitherto taken place there does not appear to be any immediate prospect of such arrangements being completed. — The establishment now in existence was appointed as far back as 1841, avowedly as a temporary measure, pending the provision of more efficient superintendence, and although a very voluminous correspondence has since taken place I cannot ascertain that there is at present any distinct or definite arrangement under consideration, and it seems not improbable therefore that a further delay of some time will occur before the final settlement of the question can take place. —

(65)

From the Collector of Canara — Sir, In acknowledging the receipt of an Extract from the Proceedings of the Board of Revenue under date the 13th Instant in which I am desired to communicate as early as possible my

Offers his remarks on the proposition of

of the Bombay Government for the transfer of the Canara and Soondah Forests to that Presidency.

my sentiments regarding the proposition of the Government of Bombay for the transfer of the Canara and Soondah Forests to that Presidency, I have the honor to observe that I should have been better able to do so had the exact nature of the transfer been more fully explained.—

2. Although the transfer of the forests is alone referred to, I am led to infer from the letter of Mr Secretary Erskine that the measure was intended also to comprise the entire transfer of the tract of Country in which the forests are situated, together with the Revenue Judicial, and Police Management of it, and upon the general question of such a transfer I have already so fully explained my sentiments in a letter to the Board under date 9th March 1847 that I am not able to add any thing to what I then stated.

3. In the 16th Para of that letter to which I would beg to refer, I made more particular reference to the question as it related especially to the management and conservancy of the Teak forests and I have not seen any reason for since altering the opinion which I then expressed. The nature of the practical inconveniences which is anticipated by the Bombay Government does not clearly appear. None such has hitherto to my knowledge arisen nor am I aware that it was experienced under the former conservancy which was managed by Colonel Gilbert a Bombay Officer. It would at all events be desirable, I think, to give due weight to the other objections to such a transfer which I ventured to suggest in my letter as above quoted that a fair judgement may be formed as to the side on which they would preponderate. These considerations, whatever weight may be attached to them, would equally apply to the transfer now proposed which is of the same nature, differing only in degree, as to that which was advocated by Mr Shaw the Collector of Dharwar.—

4. I have not as I have above stated

been able clearly to ascertain the extent of the transfer desired. Dr Gibson's proposal is confined to the cession of the Yellapoor (i.e. the Soopah) Talook, and does not include any portion of the Country below the Ghauts. He states also that the Arbyle Ghaut would be the fitting boundary.— This Ghaut is to the South of the Gungawallee river, which the Bombay Government proposes as the boundary, and would not therefore be comprised in the transfer.— But from the 3rd Para of Mr Erskine's letter it would appear that the Bombay Government desire the transfer of a much larger tract including portions of the lower as well as upper talook as far as the Coast, for such I infer from the expression "Canara and Soondah (+Soopah) Forests North of the Gungawallee Creek". This would embrace nearly the whole of the two talooks of Soopah and Ankola, but I am not positive that I rightly apprehend the intention of the Bombay Government in this respect.

5. The transfer of the Country North of the Kala Nuddi would be much less extensive, but would include the whole of the Goand and Dandilli forests as well as those on the right bank of that river as far as the Sea.

If

6. If I be wrong in supposing that the entire transfer of the Civil Government of these districts is intended, and that the transfer of the forests only as expressed in the present communication, be contemplated, I have the honor to observe that I can see no great objection to the arrangements for conservancy, being placed entirely under Dr. Gibson's orders, although I think that every necessary object would be gained by a ready cooperation with him on the part of the Authorities in Canara, and by a strict attention to his suggestions in regard to the preservation of the Jungles and the rearing of Young trees.—

7. Upon other points connected with the conservancy a letter to the Board's address was only yesterday despatched.—

Collector's Cutcherry

To.
The Chief Secretary to
Government.

To the Chief Secretary to Government
Submitting correspondence with Board of Revenue

Sir,

I am directed by the Board

with the Collector of Canara relative to the establishment proposed to be entertained for the conservancy and management of the Forests in North Canara and for strengthening the Sibbundi in the lower forests with the Board's opinion thereon and referring to previous papers on the objections raised against the proposal of the Bombay Government for the transfer of the Canara and Soondah forests to that Presidency.—

Jr Con. 19th June 1848.
Jr Con. 14th Feby 1848.
Jr Con. 13th March 1848.

Extract Minutes Consultation 10th February 1848, communicating to them with reference to the resolution of Government of the 3rd December last copy of a letter from the Secretary to the Government of India under date 6th January 1848, on the subject of the establishment proposed to be maintained for the conservancy of the Canara Forests.—

2. I am also directed to acknowledge the receipt of an order of Government bearing date 29th February 1848 forwarding to them copy of a letter with its enclosures of the 14th idem from the Deputy Secretary to the Bombay Government and requesting them in communication with the Collector of Canara to give their opinion upon the proposition for the transfer of the Canara and Soondah Forests to the Bombay Presidency.—

3. The communications above referred to from the Government of India and of Bombay have been forwarded to the Collector of Canara for his observations and the accompanying letters from that Officer contain his views on both questions.—

From the Collr of Canara 21st March in Con. 19th June 1848.—
From Collr of Canara 23rd March in Con. 19th June 1848.—

4. In his letter of 8th January 1848 Mr. Secretary Bushby observes "The establishment

"establishment proposed in 1846 by the Revenue
"Board at Madras was intended for the conser-
"vancy of all the Forests in Canara, both above
"and below the Ghauts, but as the Honorable
"Court of Directors in their Despatch to the
"Government of Fort St. George in the Marine
"Department No. 12 of 1847 dated the 13th October
"para 10, suggest the advisability of reserving only
"some of these Forests to meet the requirements of
"Government, and as it is further observed that when
"those best adapted for the purpose have been
"selected and placed under proper management
"there appears no sufficient reason for
"excluding the Natives from the others or for
"subjecting them to new restrictions in felling
"trees in them with the exception of Teak
"and Sissoo, the Governor General in Council
"is not sure that the Establishment applied
"for in 1846 for the conservancy of the entire
"Forests of the Province may not now wholly
"or in part be dispensed with, especially
"if, as intended by the Collector, the exist-
"ing establishment is relieved from all
"duties except those of Conservancy.

It is further stated "As Dr. Gibson is
"at present employed in examining the

"the wood land countries in the Malabar &
"Coast and in the Districts under Bombay,
"and in devising means for the introduction
"of reforms most conveniently and with the
"smallest outlay for the conservancy of Fo-
"rests, the Governor General in Council is
"desirous of being informed, in the event of an
"increased Establishment for Canara being
"still deemed necessary, whether it may not be
"the opinion of the Most Noble the Governor in
"Council to defer entertaining any larger es-
"tablishment until precise duties and rules
"of proceeding can be laid down for the
"guidance of the Establishment."

5. On the first of the above points it is remarked by Mr. Blane that the Esta-blishment for which he applied in 1846 was not as supposed in Mr. Bushby's letter, intended for all the Forests of Canara, but only for those in the Northern portion of it. The entire forest lands in Canara extend along a tract of Country nearly 300 Miles in length over which the limited Establishment proposed by the Collector could obviously exercise no effectual control. The teak forests in the North of Canara are divided

with

with those in the Anköla Salook below the Ghauts and those above the mountains and between them and the borders of the Dharwar District.—The first of these tracts only has been hitherto worked & preserved under an Establishment of 100 Rupees per Mensem of which Rupees 80 were sanctioned by Government 27th April 1841 and the remaining 20 Rupees are disbursed as a temporary charge.— No measures have yet been taken for the working or conservancy of those above the Ghauts, but upon a report and urgent recommendation made by Dr. Gibson it was decided that they should be preserved for the use of Government, and it was proposed in 1846 by Captain Williams in communication with the Government of Bombay that they should be worked for the supply of H. M. Dockyards. The arrangement proposed by the Collector on the 20th June 1846 was intended to provide an establishment for the conservation and working of these upper jungles at a monthly Cost as noted in the Margin of Rupees 130 — it was at the same time recommended

In Corr. 20th August 1846.

A For the upper.

| | |
|---|---|
| 1 Conservator | 40 |
| 1 Mootsuddi | 20 |
| 12 Peons 5 Rs each | 60 |
| 1 Goomastah | 10 |
| | 130 |

B For the lower

| | |
|---|---|
| 1 Mootsuddi hitherto temporary to be made permanent | 20 |
| 6 Peons at 5 Rs each | 30 |
| | 180 |

recommended that a small addition B at an expense of 50 Rupees per Month should be made to the Establishment already entertained for the charge of the lower forests. Suggestions were also made for the separation of the duties of supplying the Dockyards at Bombay with timber, from those of merely conserving and protecting the forests, or for combining the Offices of Assistant Timber Agent and Conservator in the same individual, tho' with separate establishments. On neither of these proposals however have any orders been passed, and the chief duty connected with the supply of teak timber, its felling and transport to the Coast to continue to be discharged by the Collector, involving an amount of labour and interference with his other avocations fully shewn in para 9 of his letter.—

In respect to deferring the C. appointment of the Extra Establishment it is pointed out by the Collector that if this be done, the working of the upper forests must of necessity be deferred also as the Establishment now maintained

para

(para. 7. 8. 9) is altogether unequal to conduct operations both below and above the Ghauts.— Whether the working of these forests can be delayed will of course depend upon whether the Marine Department at Bombay can conveniently wait for the supply of timber which is expected from the upper forests for its own use and that of H. M. Dockyards, and whether it has the means of replacing this from any other source of supply. It should not however be overlooked that the cost including all charges at which timber from above the Ghauts can be delivered on the Coast is only about half that at which it can be purchased from private Merchants to whom it is understood the Bombay Government have of late been indebted for a part of their supply. Taking the quantity of timber which could have been furnished from the upper forests at 3000 Candies the saving on this supply for two seasons would have been 49 680. for deducting the charge (Rupees 4,380) for two years at Rupees 2,160 per annum) of the Extra Establishment applied for Rupees 45,300.—

9½ Rs per Candy.

18 Rs per Do

The

7. The other points referred to by the Government of India are whether the Extra Establishment "may not with reference to the "recent orders of the Honorable Court of Di- "rectors be wholly or in part dispensed "with, especially if the existing Establish- "ment is relieved from all duties except "those of conservancy, and if it still be deem- "ed necessary, whether it may not be advis- "able to defer entertaining it until after "Dr. Gibson's proposed examination of the "forests is completed, and precise duties "of rules of proceeding can be laid down "for the guidance of the Establishment."—

8. On the first of these the Collector observes that the orders of the Honorable Court did not appear to him "to apply to the "Teak forests, the necessity of protecting "which has been so forcibly urged "by Dr. Gibson and for the conservancy "of which the Establishment was mainly "intended, but only to the other Jungles "which it has been pointed out were "being so rapidly destroyed.— Should "the Conservancy Establishment hereafter

relieved

"relieved from the duties of felling and superintending the transport of the timber, which it now performs, the propriety of dispensing with any portion of it will still in a great measure depend upon whether Dr. Gibson's plans for planting and for clearing the young trees are to be carried into effect, or whether the duties of the Conservator are to be confined merely to protecting the forests as they now stand. In the latter event some reduction might be made, though as the duties involve a residence in a wild Jungle Country, a constant exposure to fever and considerable labour in moving about, they are so distasteful that it is with difficulty that any respectable man can be engaged to undertake them, and it appears to be injudicious to attempt to keep the establishment down to a very low scale." On the second point alluded to by the Supreme Government he remarks. "If in the meantime it be desired to work the upper forests I can see no use in deferring the appointment of an Extra Establishment until precise duties and rules of procedure can be laid down for whatever these rules may be. it is sufficiently evident

"evident that the extensive operations connected with the supplying of timber cannot be carried on without some native superintendence and assistance. The establishment therefore will under any circumstances be required, and it will be easy to transfer part of it to which ever department it may eventually be determined that they shall serve under."—

The Board beg to express their concurrence in the arguments urged by the Collector.— The value of the Forests in North Canara has been so frequently pointed out that they think it only necessary to remark that the establishment now proposed to be maintained for their conservancy and management amounting inclusive of that on Rupees 100 now entertained only to Rupees 260 a Month or 3120 Rupees per Annum must be regarded as very moderate in reference to the importance of the object to be attained by it.— They would therefore again recommend the application of the Collector contained in his letters of 20th June and 17th October 1846 to the consideration of Government.— Of the additional Establishment therein submitted that at 50 Rs per

per Mensem for strengthening the Sibbundi in the lower Forests is obviously necessary and the entertainment of that proposed for the upper Forests seems very desirable in view to their conservancy even tho' the proposals for working them should not immediately be carried out. The zeal and interest shewn by the present Collector in all that regards these tracts assures the Board that any arrangements which may hereafter be requisite either for reducing the establishment if found beyond the necessary strength, or for revising it on Dr. Gibson's examination of the Forests being completed, may safely be left to his judgement and discretion.—

10. With reference to the proposal made by the Bombay Government for the transfer of the Canara and Soondah Forests to that Presidency the Collector has remarked that he does not exactly comprehend the precise nature of the transfer contemplated. If the measure be intended to comprise the cession of the tract of Country in which the Forests are situated with the revenue, judicial and police management of

it, the objections to such proposal have been already fully explained in his letter to this Office of 9th March 1847. If the transfer of the Forests only be intended

In Con. 15th April 1847

Mr. Blane states that he can "see no great objection to the arrangements for conservancy being placed entirely under Dr. Gibson's orders although he thinks that every necessary object would

Fort St. George 19th June 1848.

"would be gained by a ready
"co operation with him on the
"part of the Authorities in
"Canara and by a strict
"attention to his suggestions
"in regard to the preservation
"of the Jungles and the rear-
"ing of young trees." In these
observations the Board of
Revenue concur.

From Supt. of Cotton Farms. —

Sir,

Adverting to my letter of the 9th May regarding some supposed specimens of the Malabar Poon tree I have the honor to state that I here- with send you specimens of another tree selected from 3 sets recently received from Mr. Conolly. — They all evidently belong to the same species and certainly appertaining to the family of plants to which the Poon is said to belong. — With this evidence so far as it goes I think we may safely rest satisfied. — But an interesting question yet remains to be solved and that, the specimens do not quite enable me to dispose of; Viz. has this tree been described Botanically or in other words has it a place in the Botanical system. — My own impression is that it has not. — I have specimens of other allied species of the same genus (Calophyllum) but they are not the same, nor can I make out that it quadrates with any yet

yet described species; but then the specimens
want flowers and without them I cannot advance
a step further as the species of the genus are
grouped according to the number of its parts:
one set having 12, another 8, and a third 4 petals:
judging from a worn eaten fragment I found
attached to a specimen it belongs to the first
and most interesting division, but of this I cannot
be sure. Flowering specimens with full grown
mature fruit are therefore much wanted to
enable me either to trace the history of the tree
or to name and adequately describe it if still
undescribed. On this point I shall address Mr Cooke

Sir,

To the Chief Secy. to Govt.

Submitting communication from the Acting Collector of Nellore on a Representation complaining of certain malversations practised by the Curtle to a Native religious Institution and in reference to the previous papers on the general subject requesting to be furnished with the sentiments of Govt. as to the course to be adopted for the future disposal of such complaints

24th Read in Cons. 30th March 1846

In their letter to Government under date the 16th of March 1846, the Board of Revenue on submitting a communication from the Collector of Sincerely relative to certain malversations connected with the Native Religious Institutions of that District, took occasion to advert to the repeated complaints that were preferred by parties interested in these Institutions throughout the Country, regarding the frauds practised by those entrusted with their management.—

2 In view to provide a check for such proceedings, and also in reference to the question raised by Mr Thomas as to the course to be taken by the local revenue Officers when complaints of the nature were preferred before them, it was proposed by the Board that the Provisions of Regulation VII which have

have never been rescinded, should continue to be employed in the investigation and disposal of such cases, pending the introduction of a fresh Enactment.

Extract Minutes Consultation 8th ins. Cons. 23rd April 1846.

Government in reply to this communication informed the Board that the subject was under the consideration of the Government of India and as the modification of the regulation in question which was then engaging the attention of the Legislature would probably provide for the inconvenience brought to notice, the local Officers should be instructed to refrain from all interference as far as practicable.

3. Agreeably to these instructions the Board enjoined the pursuance of the course laid down by Government, but as a considerable time has now elapsed since the receipt of these orders and as the question has been again prominently

Petition 1865-47 with Collr's endorsement

brought before them in the accompanying communication received from the Acting Collector of North Arcot, the Board are desirous of soliciting the further consideration of Government to the subject and request that they may be furnished with the sentiments of the Right Honble the Governor in Council as to the orders they should issue for the future disposal of such complaints.—

Revenue Board Office, Fort St. George, 19th June 1848. } /Signed/ J. Pycroft Secretary

To The Chief Secretary to Government.—

To the Chief Secy. to Government.

Sir,

With reference to the Order of Government under date 18th April last recorded on Petition No. 260 of 1848. calling upon the Board of Revenue to state whether the case of the Petitioners fell within the provisions of Regulation IV of 1831, I am directed by the Board of Revenue in reply to transmit the accompanying Endorsement from the Collector of Cuddapah furnishing dated 30th May 1848. full information relative to the circumstances of the case, and stating his opinion that the Enam being of a charitable nature is embraced by the provision of that Enactment, a view in which the Board desire me to state that they concur.

It will be observed that Mr. Cochrane considers that the right of the Petitioners extends to the whole of the Enam in dispute and not merely to the moiety of the lands of which he has been so long deprived.

Revenue Board Office, Fort St. George, } /Signed/ J. Pycroft Secretary

Resolved

Resolved that the following letters and Proceedings be dispatched.—

To

82 The Collector of Nellore.

Sir,

To the Collector of Nellore. I am directed by the Board of Revenue to forward to you the accompanying Petition from A. Veneatapatty Naidoo. No. 924 of 1848. and P. Narasoo of Nawabpettah in your district representing that your decision on their case was based on the report of the Tahsildar whose representations of the facts they impugn, should these statements be correct the Board request you will be pleased to refer the matter again to one of your Assistants for more particular investigation communicating the result for their information.—

Revenue Board Office, Fort St. George 19th June 1848. } [Signed] T. Pycroft Secretary.

To
The Collector of
Tanjore.

Sir,

To the Collr of Tanjore.

From your Demand Collection and Balance Statement to 30th April 1848, the Board of Revenue observe a decrease in the amount of Current Collections of Land Revenue in your District to the extent of Rupees 3,81,262-6-10. No explanation has been afforded of this great falling off, the Board therefore request that you will report, as early as possible, in a separate communication, the cause which have led to it.

You will also be pleased, in forwarding future Demand Collection and Balance Statements, to afford full explanation of the cause of any considerable fluctuations which may be observable in such Returns.—

Revenue Board Office
Fort St. George
19th June 1848.

/Signed/ J. Pycroft
Secretary.

/Read

Read Register of Petitions for the Month of January received from the Principal Collector of Coimbatore.—

3d January in Cons. 12th June 1848.

/Here enter No./

Proceedings thereon. The Board observe that the Register above recorded and the several other documents which accompanied it, refer to the Month of January 1848 and none would appear to have been furnished for subsequent Months while similar Returns from other districts for April and May have already been received.—

87

2 They resolve therefore to call Mr Boughton's attention again to their repeated requisitions for the punctual transmission of all periodical documents.—

Received the Undermentioned Miscellaneous letters and Statements.—

From the Collr of Guntoor — Return of persons convicted and in confinement under Regulation IX of 1822 for the Month of April last.—

88

From the Collr of Guntoor. — Return of persons convicted and in Confinement under Regulation IX of 1822 for the Month of May last.—

89
