Fort St. George 10th July 1848

To E C Lovell Esqr.
Acting Collector of
North Arcot

Sir,

Para 1. I have the honor to submit the usual annual Report on the Settlement of the Revenue of the Sub Division of this District for Fusly 1256, with the necessary explanatory accounts as noted in the Margin. I bring forward the following remarks with some degree of diffidence on account of my brief experience in this Office of which I have but recently taken charge, and is previous to my arrival, the entire Settlement of the Sub division had been conducted and completed by my predecessor Mr Cotton.-

I. Comparison of Cultivation between Fusles 1255 & 1256 / 1845/46 - 1846/47
II. Do of Revenues and of Remission between Do Do
III. Do of the Malayalum or Hill Villages.
IV. Do of Motupha
V. Statement of land cultivated with Sugar Cane.

2. The Settlement of the Jamabundy was commenced by Mr Cotton on the 1st February in Trivattoor Talook and concluded on the 18th of May at Arcot. The total amount of Puttahs included 31,737 - of which all were destributed with the exception of 105 which were

The Rs Should be 31837.

were refused upon various trifling and inadmiss-
-ble grounds and were then left with the Thasil
to be distributed, which has subsequently been
done.-

3 The Season of Fusly 1256 when compared with the two preceding Fusles is in some respects favorable. In the months of May much rain fell and in consequence a greater extent of Poonjah or Dry Lands was brought under cultivation than had been in the preceding Fusly, and at the same time encouragement was held forth for the Kar Cultivation in Punjah or wet Lands. The rain was very partial in June and July but nevertheless the Kar Cultivation carried on during these Months exceeded that of the former Fusly. From the copious fall of rain in August, it was expected that the Sumbah Cultivation would be extensive but through the untimely failure of rains in September this cultivation was not carried on to the extent that had been anticipated. On the contrary, in the Polore and Wandewash Tal-

there was considerable decrease of Sumbah. The rain in November was very favorable and thereby Navaray Cultivation was conducted on an augmented scale but from the entire failure of rain in December and the succeeding Months, these Navary Crops did not yield their usual produce; and for this reason likewise the Madungal Cultivation was not much extended. Upon the whole there is an increase of Revenue to the amount of Rupees 10,774-6-2 over Fusly 1255 and of Rupees 41599-6-4 over Fusly 1254, but a decrease of Rupees 6570-15-3 below that of Fusly 1253.-

4 Conformably with the Cutcherry acting Sub Collectors letter to you of the 12th February 1847 the Dittum Accounts were prepared, and this measure put in force throughout the Sub Division.-

5 As regards the healthiness of the Sub Division, this Season appears to have been unusually salubrious. Comparatively speaking very few cases of Cholera have occurred in the town of Arcot and

Ranipett

Ranipett and the Villages in the Ghaibut have providentially been in general free from this scourge - No instances of any other malignant epidemic disease have been reported - The number of deaths from Cholera reported during the Fusly includes thirty four, a very small ratio when compared with many of the preceding year. Namely - In the Talook of Arcot 13 fatal cases which occurred during the Month of July - In the town of Ranepett 2 deaths in July and 1 in December. In the Talook of Poloor, 9 in the Month of July and 9 in April - Total 34 -

6 Enclosure N: 1 is a comparative Statement of Cultivation of all the Crops according to their classification. The Cuddee (or Dry white Crops which ripens in the ear) exhibit an increase over Fusly 1255 of Cawnies 10,726 $\frac{31}{64}$ or Rupees 29,817-10-9 The Coyee (or Dry green Crops which ripens in the pod) shew an increase of Cawnies 2,491 $\frac{58}{64}$ or Rupees 6,802-8-. The item of

Indigo shews an Increase of Cawnies 181 $\frac{63}{64}$ or Rupees 539-6-2. This increase extends to all the four Talooks of the Sub division - The total amount of increase of Cultivation on Poonjah or Dry land comprises Cawnies 13,400 $\frac{24}{64}$ or Teerwah Rupees 37,159-8-11. In Arcot Talook the Indigo having been cultivated during this Fusly on lands of an inferior class paying low Teerwah, a decrease of Rupees 72-14-5 has occurred - There is a net increase in Poonjah Cultivation in Fusly 1256 above that of Fusly 1255 to the Amount of Rupees 37,086-10-6 The failure of timely rain in some few places considerably injured the proper growth and produce of Cuddee or white Crops and the unseasonable abundance of rain, and particularly the hurricane of the 25th of November, contributed greatly to damage the Koyee or green Crops -

7. Of the principal wet Crops of Car and Sumbah, the first of these exhibits in every Talook an increase, altogether amounting to Cawnies 5,147 $\frac{35}{64}$ or Rupees 54,810-14-6. This increase is owing to the heavy fall of

of rain in May and also to the over flowing of the Palar River and its adjoining Nullahs or water Chann The harvest of Har has been favorable but owing the harricane in November a few Crops chiefly in the and Tirruttoor Talooks that were then left unreape were slightly injured.-

8. The item of Sumbah shews an increase in the Arcot and Tirruttoor Talooks, owing to the plentiful supply of water afforded to the dif-ferent tanks in those Talooks by the tributary nulls of the Palar River. The total increase in these two Talooks amounts to Cawnies 820 47/64 or Rupees 8298-6-1. Namely Cawnies 120 16/64 or Rupees 831-2-3 in Arcot and Cawnies 700 31/64 or Rupees 7468-3-3 in Tirruttoor. In the Poloor and Wandiwash Talooks through the general insufficiency of rain as has been already stated there is a decrease in Sumbah in the former Talook of Cawnies 1336 2/64 or Rupees 10958-11-7 and in the latter of Cawnies 99 55/64 or Rupees 925-8-6. The total de-crease in these two Talooks amounts to Cawnies 1435 57/64 or Rupees 11884-4-1. The net decrease for the whole Sumbah Cultivation in Comparison with that of the

the preceding Fusly amounts to Cawnies 615 10/64 or Rupees 3585-14-...

The Naveray shews an increase of Cawnies 2670 25/64 or Rupees 28675-11-... This in-crease exists in all four Talooks. In the Betle leaf and Plantain Cultivation, there is a Net decrease in all four Talooks of Cawnies 18 39/64 or Rupees 187-1-7 owing to the bad weather in November above referred to.-

10. The inferior Crops of Madungal which are sown in March and April are com-paratively few in consequence of the deficiency of water during those Months. Nevertheless this branch of the Revenue shows an increase (except in Tirruttoor Talook) of Cawnies 111 54/64 or Rupees 1243-13-6.- The decrease in Tirruttoor consists of Cawnies 39 11/64 or Rupees 390-13-8.-

11 The purchase of Sugar hav-ing been discontinued by many of the Mer-chants trading for exportation, and the price of it fallen in inconsequence the Culture of Sugar Cane has not been in any way encouraged; and many of the Ryots have abandoned this description of Cultivation and consequently there is a decrease of

of Cawnies 296 $\frac{52}{64}$ or Rupees 4313-10-8 in Great Talook of Cawnies 145 $\frac{28}{64}$ or Rupees 2435-15-6 in Tirvattur of Cawnies 68 $\frac{34}{64}$ or Rupees 892-10-8 in Polore and of Cawnies 33 $\frac{16}{64}$ or Rupees 497-5-3 in Wandiwash. The total decrease in four Talooks amounts to Cawnies 544 $\frac{1}{2}$ or Rupees 8139-10-1. Conformable with the direc-tions conveyed in Para 18 of Extract of Proceed-ings of Board of Revenue under date July 15th 1847, I have endeavoured as far as possible to obtain from the different Talooks accounts re-garding the Culture, price &c of Sugar but as the Extract of proceedings above al-luded to, did not reach me until the 30th Ultimo together with your Memorandum of the 28th I have not been able, in so short a space of time, to gain as much information on this Subject as I could wish. The enclosed Statement No V will shew the particulars of the extent of land Cultivated with Sugarcane, and the Assessment thereon, the different ways in which these lands are irrigated, whether by tanks Nullahs or Wells, the price of Sugar, raw and refined treacle or Jagery &c with

regard to the Number of Crops raised on the same land. I am informed that only one Crop of Cane is raised annualy on land of every des-cription and after it has been cut no attempt is made to cultivate any other Crop of any kind upon that land, but they allow it to lie fallow for two Months or there abouts. The Cane is planted in April and May and Cut in February and March next year. When the ground is exhausted by the Cul-ture of Cane, which will happen every second or third year, according to the quality of the soil, they sow it for the next year with rice raggy or other grain in order to restore its strength, and on the succeeding year it is again fit for planting with Sugar Cane. The attempts lately made to introduce the Mauritius cane have been entirely unsuccessful. None of the Cultivators choos-ing to take any of this description of the plant. What the reason of this may be whether they con-sider it an inferior kind of Cane, or whether its Cul-tivation is more difficult or less understood, I have not yet been able to ascertain. The above accounts are meagre and unsatisfactory, but I must plead brevity of time as my excuse. The exportation of

The following is the Statement regarding Cowle lands (namely waste lands given over for cultivation on certain conditions paying a very small or no rent the first year and gradually increasing until the fifth year when full Teerwah is levied) where it will be seen that the Revenue derivable from Cowle lands in Fusly 1255 was Rupees 427–4–4. Out of which amount after deducting Rupees 278–15–4 in consequence of lands that have been brought to full Teerwah by the termination of the Cowle Contract, and besides a sum of Rupees 75–1–2 for the lands resumed in Poloor Talook from the Cowledars on account of their inability to cultivate, agreeably to your Memorandum under date the 7th August 1847, there remains a balance of Rupees 72–3–10 to be demanded in this Fusly. To this balance will be added Rupees 41–8–1, the extra demand on Cowle lands for Fusly 1256, the total amount of which namely Rupees 113–11–11 is demandable on these lands for this Fusly.

Of the sum of Rupees 5,20,051—13—10 admitted under the head of land Revenue, Rupees 5.02.428—12—11 are derived from the cultivation of Circar lands. Rupees 15,090—9—2 from Swernandayem (or miscellaneous Collections from certain Enam lands, Topes of productive trees, peimmed fees, brick kilns, Grazing Cattle &c. &c., Rupees 763—9—" from the Maliyalums or Hill villages and Rupees 1168—14—9 from Topes penked out to farmers.—

20. In the Maliyaulum Villages from deficiency of rain there is a decreate of Rupees 2—8—" on the preceding Fusly—

I may here observe that of late, numerous complaints have been made by certain individuals trading in the produce of the Maliyaulum Hills against the Monigar of these Hill Villages (for it seems there is but one monigar to 22 villages) accusing him of monopolizing the product of these Hills consisting of bamboos, Sandalwood, tamarinds, honey, dye stuffs &c., and of levying a tax of 4 annas per bandy load and a few pice per cooly load on all such articles taken away by the purchasers. This monopoly and Extortion, according to their showing have been in force during the last five years. The Monigar has stated in his defence before the Thasildar of Poloor, who investigated some of these charges, that the tax levied

as abovementioned is for the behoof of the Hill Villagers to whom the amount is always paid over, and he denies having established any Monopoly of the Articles brought by them for sale, maintaining that the Villagers sell the produce to him of their own free will, to be afterwards disposed of to the traders:— The Thasildar of Poloor has hereupon recorded his opinion that the excuse of the Monigar is admissible, and his acts justifiable - a decision which does not appear to me, as far as I can judge to be based on any equitable grounds as I purpose visiting the Maliyalum Hills after the termination of the ensuing monsoon, I shall defer for the present time, all interference in this matter until I shall be better able to judge regarding it, as it is difficult at present to come to any just conclusion on the subject.—

21 Under the head of Moturpha there is a decrease of Rs. 78—1—10 below Fusly 1255. as will be seen in the following extract. The decrease is under the head of looms inconsequence of many of the Weavers having left off their occupations finding that their labours were not adequately repaid

22. Under the head of Tank fishery in consequence of the Mammondoor Tank in Tiruttoor talook having been so well filled with water that it could not be fished, there is a decrease of Rupees 1610 - - In sundry other Tanks there is an increase of Rs 11-4 - The Net decrease amounts to Pz 1598-12 - -

23. According to the instructions conveyed by the Extract from the Minutes of Consultation dated 2d January 1847 and in your Sedingee Memorandum dated 26th July last the grounds occupied by Private individuals within the Fortification of Arnee have been duly assessed and orders issued that pattahs be given for the same. The ground assessed consists of Cawnies $\frac{37}{64}$ or Rs 3-4-11 at the rate of Rupees 5-11 - per Cawny being Poonjah teervah.

24. The annexed Statement shews the whole revenue of the subdivision, the Collections made within the end of the Fusly and up to the present date, September 15th 1847, and the outstanding balance yet to be realized.

Order thereon.- Ordered to be brought forward at a future meeting.-

Board of Revenue.-

From the Actg Collr of North Arcot ——— Sir, Para 1. An Enam Village in the Longoondy Zemindary has been attached under the orders of the Subordinate Court of Chittoor in satisfaction of a decree, and the question arises whether it is liable.- This Village which is named Chauna goottapully is included in Mr Grame's Register of Enams in this district dated June 13 1845, where it is entered in No 384.- It is there stated to have been granted by the Poligar of Longoondy to a Sowcar with whom he had money dealings.-

2. The object would certainly appear to bring this Village among the Enams referred to in Section III Regulation IV of 1831; but it appears doubtful whether Act XXXI of 1836 applies to it.- For though it may be said in a limited sense that the Village has been "confirmed and continued by the British Gavernment," I am

Fort St. George 10th July 1848.-

am not clear that it has been so in the sense intended by the Act.- For that appears to me to contemplate grants made by some native power to whose dominion and authority the British Government has now succeeded, so that the Enam at first held of that power is now held of the British Government.- If this view of the intention of the Act is correct, I apprehend that the Enam in question is not within its protection; and I solicit the instructions of the Board on the case.-

Proceedings thereon.- The Board of Revenue concur in the opinion expressed by the Acting Collector that the Enam Village in question cannot be said to have been "confirmed or continued by the British Government" in the sense intended by act XXXI 1836; and that there is consequently no bar to its attachment under process of the Subordinate Court.-

29-30

Ordered that a copy of the above Proceedings be forwarded to the Acting Collector of North Arcot for his information.

From the Acting Collector of North Arcot — Para 1

Sir,

Petitions 520 and 760 of 1848 were sent down to me for disposal by endorsement; but I think it necessary to address the Board regarding them by letter.-

Stating the necessity which renders reporting by letter instead of disposing of by endorsement on Petitions Nos 520 & 760 of 1848.-

2. The subject of the Petitions is a claim to a share in a Mushrooly Enam, and the claim is one of long standing.- From the records of this Office I find that the Enam in question is situated in three Talooks, and comprising 10 Cawnies 6 3/4 as of Nunjah and Poonjah, of which the Survey assessment amounts to Ps 70 - 4 - 8 was granted in Fusly 1146 (A.D. 1736) by Nabob Dost ali khan to Gholam Hoosain, for the service of a Mosque at Arawpaukum in Arcot Talook.-

Note- The Enam was originally 20 Cawnies of which 10 were afterwards resumed-

3.- From the Enam Register for Fusly 1219 it appears that this Enam was then held by Coorbaun ali 70 years old, / son of the first grantee / jointly with several others of his descendants male and female.- All these seem to be now dead without issue, and the only claimants are the members of the

the two branches of the family of the Coorbaun ali. This latter left one daughter—who left a son Mahomed Ismail, and a daughter Rahemun Beebee. The present Petitioner is daughter of Rahemun Beebee; and there are also a son and a grandson of Rahemun Beebee living—Mahomed Ismail left a daughter Asha Bee, whose husband Kareem Oodeen now enjoys the Enam and performs the service.

4th. The last surviving registered holder seems to have been Coorbaun Ali, who died in 1827.—In 1831 the two branches of his descendants disputed about the succession; the guardian of Asha Bee on one side and Mahomed Yoosoof brother of the present Petitioner on the other; and the suit has been continued by Petitions and proceedings from time to time, up to the present period.—No order however has ever been passed in this Office; but the partizans of Asha Bee appear to have retained possession of the Enam in Arcot up to the present time; and her husband as already mentioned now performs the service.—But the Enams in Vellore and Trivellum Talooks were held by the Talook authorities to be unclaimed and their proceeds have

have hitherto been brought to account as Sevoy Jummas. The question of inheritance was in January 1840 referred by the Principal Collector to the Cauzie of Arcot; who reported in favor that the two branches of the family should inherit by law in two equal shares; but that under the Nababs, the custom was to allow two thirds to the party performing the service, and one third to all other heirs.—

5th. On looking into the history of the case, it is apparent that right has not been done, since the male members of the family had a better right to be chosen to perform the service than the husband of a female member.—But as Kareem Oodeen has held the Office and a portion of the Enam for so many years, I would recommend that he should not be disturbed in its possession during his life.—Considering too that the land in Vellore and Trivellum Talooks has been withheld from the Enamdars by mistake, and from no default on their part, for the service for which it was granted has been duly performed; I would further recommend that this land should now be released—and I would propose that

10165 Fort St. George 10th July 1848.—

that the Enams in Arcot Vellore, yielding Rs a p 42-8-0 annually, should be assigned to Kareem Coddeen for his life, and the Enam in Trivellum, yielding Rs a-p 27-12-6 annually to Petitioner's brother Shaik Adam, for the benefit of that branch of the family.— After the death of Kareem Coddeen, a man to perform the Mosque service, to be selected from Shaick Adam's branch of the family.— I subjoin an exact description of the Enam in the three Talooks.

The Board of Revenue approve the suggestion of the Acting Collector in Para 5 of the above letter in respect to the Mushrooty Enam (C. 10-6 3/4) under report and direct that it be carried out from the commencement of the approaching Fusly 1258, and have effect during the life time of Hareem-u-din. Sir,

Referring to the Extract from the Board's Proceedings noted in the Margin, I have the honor to forward Copy of a letter from the Collector of Chingleput—

ORIGINAL DESTROYED

two mercals of the Standard pattern were made in 1843, and were in use at the Salt pans in this district up to a late period— But last year on the representation of the local Officers that these mercals were worn and become [illegible] were ordered to be made; and the pattern taken was a mercal made in the arsenal of Vellore some years ago, as mentioned in Para 2 of my letter of the 6th May.—On examining this pattern mercal I find it to measure internally 9/2 inches in depth by 10/2 in diameter, which measurments vary greatly from those of the Standard Salt mercal, as given in the Proceedings above quoted.

The mercals referred to in Mr. Freese's letter were made from the pattern of

2

of one of the mercals in use at the Salt pans of Chingleput district. But as it is desirable that there should be a standard mercal in this District, I have the honor to request that the Board will furnish me with one, as has been done to other Salt districts; and I will then lose no time in furnishing the Salt Officers of my Establishment with mercals of the proper forms. I may add that on one of the new mercals now in use being Compared with one of the old ones, none of the deficient Capacity alleged was found in the latter, but the two exactly corresponded. Both the old mercals were however destroyed; having been melted up one after the other to make the new ones.

Sir,

I have the honor to forward a report on the subject of Petition 1779 of 1847 as directed in the Board's endorsement upon it, and at the same time I return the two Petitions 1607 and 1760 of 1846, which proceeded from the same party, and had reference to the same matter.

Aramungalum in Arcot Talook, but only three miles from Naggrum. The durghast was accepted, and the land put in the Durghastdar's possession; on the terms of the District Hookummanah, as shewn in the Margin. The teerwah, however being left to be settled at the Summabundy. The teerwah as fixed not being satisfactory to the Petitioner he addressed the Board and the Correspondence noted in the Margin, passed—the result of which was that the rates fixed on the land by me when Sub Collector were confirmed. 3 In reply the Board have received from Mr. Thomas the accompanying letter dated 29th May last, which, with its enclosures, they desire me to submit for the information and orders of the Right Honorable the Governor in Council.

In Fons 10th July 1848.

4 It will be seen that Mr. Thomas has forwarded Nine depositions from sharers in the Enam in question, and others, which in his opinion prove that the Purwannah under which the Enam was originally conferred having been lost or destroyed, a fresh one had been fabricated, which was subsequently destroyed by Soondraniem, the principal sharer, when he found that it was of no service to him, or was likely to occasion embarrassment, and further that the Enamdars had combined to deceive the authorities when enquiry and search were being made on a former occasion for the missing Purwannah. These transactions have since been brought to light in consequence of the Enamdars quarrelling among themselves, and to this circumstance alone may be attributed the readiness with which some of them have now come forward to give their evidence in the case. It is however fortunate that the truth has been elicited

elicited before the orders directing the payment to the Enamdars of the large sum in deposit had been carried into effect by the Collector.

5 The document thus proved to have been destroyed is supposed by the Collector to have been an entire fabrication, or if not, only a copy of the original Purwannah under which the Enam was conferred. The anxiety shewn by the parties to prevent the discovery of the instrument coupled with the conflicting accounts which had from time to time been given respecting the original summud, renders it however in the opinion of the Board far more probable that it was the original itself and that it was destroyed only because if detected as had nearly been the case, on the occasion of the late search by the peons, it would at once have shown the grant to be a life grant, and the title of the existing holders to be altogether invalid. However this may be, whether the paper destroyed be an original, a fabrication, or a copy, the circumstances attendant on its destruction place the conduct of the parties concerned and their claims to consideration in a very different light from that in which they have hitherto been viewed by Government, and the Board, in submitting the whole case for further orders, feel bound to state their opinion that the Enam should be

be resumed and the amount now in deposit carried to the public Account.

From the Collector of Tinnevelly — Sir

Submitting for sanction a revised list of Establishment and additional information regarding a Mummadi cottah Gemindary in this District.

Para 1. With reference to the 4th Para of your letter of the 18th May last objecting to the Entertainment of a Thundulgar and Gomastah and observing that the Cost of the proposed Establishment for the management of this Estate* exceeds 6½ per Cent of the Gross Revenues, I have the honor to forward a revised list of Establishment, in which Rupees 21 allowed for a Thundulgar and objected to by the Board, is taken off, the services of a Gomastah is absolutely necessary and has been of necessity retained.

2. A revised Statement of Expenditure required for the support of the Minor and his Family amounting to Rupees 1341-12-3 is also forwarded, as required in the 5th Para of your letter, the items alluded to in Para 2 of the

* Minutes

L. C. B.

* dated 8th May 1848

Minutes of Consultation require explanation, after which they will be retained or struck off as the Board may direct. The Tutor is of course not intended for the young Zemindar at his present age, but for another Member of the family, whom it did not seem advisable to let grow up in ignorance, the Uncle aged 8 years, for whose education no arrangement will be made, unless out of the Estate as proposed. The small charge for feeding dogs, relates to Shepherds Dogs, an indispensible appendage to all flocks in Tinnevelly, and for the maintenance of which, a small allowance is always thus provided, as a Custom of the Country.

3. In regard to the 7th Para of your letter calling for a reply to your communication of 25th April last regarding the debts of the deceased Zemindar, I have the honor to submit herewith a list of debts for the Board's information. An order having been issued to the Tahsildar on the subject, three parties appeared, of whom, the first Nattocottay Chetty produced a Loan Bond on Stamp paper executed to him by the deceased Zemindar, from which it appears that out of the sum of Rupees 10500 borrowed from him, Rupees 4900 are outstanding against the Zemindar, this appears a bonafide loan, and the Bond genuine; the 2d party, consisting of 2 persons Viz. Venkatapathy Naiken of Thathampatty and Ramasawmy Naiken of Kayatoory, produced

Fort. St. George 10th July 1848.

produced a Bond on Cadjan for Rupees 700 which appears to be valid, and attested by respectable Witnesses, and this Creditor appears to have lent the Zemindar the above sum after taking some lands in Mortgage, which are now in his enjoyment, the 3d party, by name Teroovengadamien of Coondalum coatoo, filed a Bond executed on Cadjan for Rupees 1300 which appears doubtful, it is not attested by Witnesses, but appears to have been executed by the Father of the deceased Zemindar, who and his Son appear to have lived a long time after it was executed, and if it were genuine, would have probably settled it or admitted the claim as beyond doubt, during their life time, but neither appears to have been land - Under these circumstances the document produced by him is retained for the present to prevent its being altered or added to, and he is referred to Court for his claim - It appears on enquiry that another person by name Seenee Chetty of Madura has lent the Zemindar Rupees 1050 - Of which Rupees 700 were repaid by the Zemindar under a decission of the Madura Court, and the remaining Rupees 350 are now due to the party according to the instalment mentioned in the decree this appears a true claim - No other Creditors can have come forward - If such make their appearance, I will institute an enquiry into their claims and report the result - I request the orders of

of the Board in regard to the payment of Rupees 4,900, 700, and 350; the 1st 2d and 4th Items abovementioned. I beg to inform the Board that the Mother of the Minor Zemindar is appointed his Guardian and an Ameenah as Manager of the Estate -

4 - With reference to the observation contained in the 6th Para of your letter that the Expenditure required for the support of the Minor and for the Management of the Estate exceeds 27 per Cent of the gross Revenue, I have the honor to observe that from the Marginal Statement it will appear that the charges now proposed for Dannacottah are about those sanctioned for Attengaray and Gailamaday Polipuls -

of Tottacal or Garden lands, and 57 13/32 chains of Poonjah, of which the total Bariz of lands brought under Cultivation during Fusly 1256 is Rupees 348-11-9.

6. In conclusion I request the Board will be pleased to obtain the sanction of Government for the entertainment of the Gomastah, included in the list, required for the preparation of the accounts of this Zemindary as on a former occasion the Government has sanctioned the entertainment of a Gomastah on a Salary of 15 1/2 Rupees per Month, for preparing the accounts of Yailoonaday and Singumpatty Zemindaries.

Proceedings thereon. The explanation now furnished by the

(46-47)

Collector on the points referred to him in the Proceedings of this Office of 18th May last is considered to be satisfactory, and the Board of Revenue therefore sanction the revised Statement of expenditure for the support of the Minor Zemindar of Munnarcottah and his family at an amount of Rupees 341-12-3 as also the revised list of establishment for the management of the Estate being inclusive of the Goomastah, Rupees 576. total Rupees 1,917-12-3.

The claims against the late Zemindar preferred by Nattoocottay Vellyum Chetty for Rupees 4900 by Tencatapathy Naiken of Nathumpatty and Ramasawmy Naiken of Alagapoory for Rupees 700 and by Seenee Chetty of Madura for Rupees 350 in all Rupees 5,930 seem well founded, and the Board under the Section XVII Regulation V of 1804, authorize the Collector to discharge them by instalments from the surplus revenue of the Estate;

which it is observed may be expected to exceed Rupees 2,000 per annum. They agree with Mr. Thomas that the demand made by Terowengadamien should not be recognized until more satisfactory evidence be produced in support of it.

From the Principal Collector of Coimbatore } Sir,

I have the honor to forward for the consideration and orders of the Board translated copy of Urzee and Mahazur annexed from the Tahsildar of Suttimungalum dated the 4th Ultimo.

2. The losses by alligators communicated by the Tahsildar I have no reason to think are exaggerated - In fact I have myself seen them on several occasions basking in the Sun whilst proceeding down the River Bhowany and also in the channels Sudapully and Arcuncotah, and the Ryots of several Villages have brought to my notice the injury and inconvenience adverted to by the Tahsildar - If it is considered expedient to pay rewards for destroying wild Beasts and also Snakes, I think that similar inducements should be held out for the destruction of alligators, but as their capture would be attended with little or no risk, I would limit the reward to the scale recommended by the Tahsildar, which I think is a sufficient encouragement to engage many Parties to undertake their

destruction, and if a few Hooks could be supplied by Government I have no doubt that the object would be gradually and effectually accomplished.

No. 1.

Translated Copy of Urzee addressed to J. C. Stroughton Esqre Principal Collector of Coimbatore by Sookiah Tahsildar of Suttimungalum, dated 1st April 1848, No. 500.

I respectfully beg leave to state that the Ryots of the Villages bordering the River Bhowany which runs through this Talook appeared before me and represented the annoyance they are subjected to from the occasional loss of Cattle caused by the attacks of alligators which abound in different portions of the River and Channels. When Cattle proceed to drink water, the above Animals take hold of and destroy them, and in dry seasons when the water in the River is low, the people are afraid to cross the River or channels singly. They also requested that in order to remedy this evil the liberality of Government authorizing the payment of reward for the destruction of wild Animals should be extended to alligators also. The Offer of reward for killing Elephants, Bears, Tigers &c. has worked so well to the convenience

of

of the community who are relieved from the ap
caused by those animals in the countries both abo
and below the Ghauts, and the Government have re
cently extended their bounty for the destructio
of venemous Snakes. The Ryots state that by
granting this boon the Dombers and others inde
by the offer of the reward will destroy the alligat
which will give great confidence to the people
To this effect they (the Ryots) also presented a
Mahazarnamah which I beg leave to enclos
for your honor's inspection.

Since I took charge of this Talu
and during the last 2½ years, I am given to und
stand that no less than 8 or 10 head of Cattle ann
destroyed by alligators in each Village on the bord
of the Bhowany River and the Cadwasilly Dam,
and three persons who went to the River lost their
lives, it is supposed, from a similar cause their
dead bodies not having been found. These deaths
have been reported in the list of accidental deaths
I am further informed by a large number of
persons that in former years the loss of Cattle
and human life by alligators was very great.

During my tour on the Villages bord
ing the River and Channels, I have personally seen
or twenty alligators in each pool, and in the absen
of all efforts for their destruction, their numbers
have and are considerably increasing to the great

loss and insecurity of the Ryots Stock. Under these
circumstances I respectfully request that the Govern
ment may be pleased to authorize the payment of
rewards at the following rates for the destruction
of these animals in the same manner as they
do for the destruction of wild beasts in general, Viz.,

3 Rupees for a full sized alligator
2 Rupees for a Middling one.
1 Rupee for each young one.

By sanctioning this incentive the people desirous
of obtaining the reward will be encouraged to destroy
the alligators which will be a boon and convenience
to the Community.

We beg leave to State that Alligators

River which runs within the limits of this Talook and also in the large Channels destroy our Cattle &c. when they drink at these Streams - Consequently we not only suffer a considerable loss, but also the increase of Cattle is checked If a Single Individual proceeds either to the River or the Channel, particularly - when the water is low, he is lost - Formerly the People were subject to the ravages of wild &c. Elephants, Bears, Tigers &c. but since arrangements were made by the Honorable Government to give a reward to the Individuals killing them, Sportsmen and other Individuals to obtain the reward kill them and thereby the havoc committed by the said animals has ceased and the Community are relieved of anxiety on this head —

We have further to remark that the People have subsequently been relieved from fear of poisonous Snakes also the Government having recently sanctioned the payment of reward for their destruction —

With the view therefore of removing the evil caused by the unchecked increase of the Alligator and of forwarding the safety of man and Beast, we respectfully solicit, that the Government will be pleased still further to extend their bounty, and encourage the destruction of the Alligators, the rate of reward which will be acceptable

Resolution thereon The Board of Revenue are unable to recommend to Government the proposal contained in the above letter. It appears to them that, as the capture of the Alligators is represented to be attended with little or no risk, the measures requisite for the protection of themselves and their Cattle might be taken by the Ryots from a regard to their own interests and safety, and that the offer of rewards cannot be necessary. The hooks referred to might the Board think, be made by the Village Smiths, and if likely to be of use, the Principal Collector might cause a few to be made up at Combatore at the Public expense to be entered in the Statement of charges incurred without Estimate and forward them to the Villages as patterns.

From the Collr. of Canara — Submits Observations

Sir,

I have the honor to acknowledge the receipt

ORIGINAL DESTROYED

observations on Mr Robinson's report to the Collector of Malabar upon the Islands subject to the Cannanore Beebee and forwards for sanction a Bill of the charges incurred in afforting the destitute inhabitants of the Island under the general sanction dated the 25th August 1847

Fort St George 10th July 1848

receipt of an Extract from the Proceedings of the Board dated 11th instant in which it is desired that I should submit any observations which may occur to me on Mr Robinson's report to the Collector of Malabar upon the Islands subject to the Beebee of Cannanore

Para 2

2 A copy of this report was furnished to me by Mr Conolly and I have carefully perused it, but it will be observed that Mr Robinson intended to confine this report principally to the effect of the hurricane of last year, and the means of affording immediate relief to the distressed inhabitants, and that he purposed to furnish a further report, which I understand that he is now preparing, upon the extent, resources and population, the social and fiscal condition, and general administration of these Islands.

3 I have already in my letter of the 27th March last expressed the high opinion which I entertain of the judicious measures taken by Mr Robinson for the relief of the inhabitants, and what has been done by him in the Beebee's Islands for this purpose, appears to me

Fort St George 10th July 1848

me to be equally deserving of approbation. The success or otherwise of these measures must however, so far as they relate to the Beebee's Islands, greatly depend upon further and ulterior steps to be taken in regard to the administration of those Islands. The questions of most importance which now demand attention appear to be with regard to the more extended aid to be granted to the Inhabitants as referred to in the 7th and succeeding Paras of Mr Robinson's report to the Collector of Malabar, by whom the expences which must be incurred for this end shall be borne, and what, if any, latitude shall be allowed to the Beebee as to rendering such assistance as may be absolutely necessary for the restoration of the Islands to their former state of prosperity. But the future administration of the Government seems to be so intimately connected with these considerations that it appears almost impossible to separate them, or to adopt any efficient and practicable plan of relief without taking such measures as will alone afford reasonable prospect of success.

4 It is sufficiently evident from the latter part of Mr Robinson's report and I may add from the statements of Mahomed Zeeaoodeen that the Beebee's Islands have been subject to gross mismanagement and oppression, so much so as to threaten a rising of the inhabitants against her authority. The harassing system of exaction often found in petty native states appear to have been carried almost beyond the endurance of the people and to have greatly increased since the Government fell

10228 Fort St. George 10th July 1848

fell into the hands of the Company, which may be partly attributable to the remote and secluded situation of these Islands preventing any knowledge of what is going on from reaching the European Officers, and partly to the State of political security in which the Country now is which has enabled the Beebee and her Officers to stretch their authority beyond what they would probably have ventured to do in former times, when as was the case of the Islands now under Canara such abuses would probably have led to a rebellion of the inhabitants and the transfer of their allegiance to any neighbouring power which was ready to receive them under its protection - Such a resource is not now open to them, but they have addressed petitions of complaint to the Government and both Mr. Robinson and Mahumed Zeeaoodeen concur in stating that they look with extreme anxiety and impatience to be taken under the direct Government of the Company

5 It is particularly with reference to this subject that I feel the difficulty of offering any specific opinion because all affairs relating the Beebee of Cannanore have been conducted through the medium of the Collector of Malabar. I have not the means of knowing the circumstances under which these Islands were

42

10229 Fort St. George 10th July 1848.-

originally conformed to the Beebee, the tenures under which she now holds them or the particulars of any engagement in the nature of a treaty which may have been entered into on either part - Without such information I do not feel Competent to offer any Suggestion; but would hope that there exists no impediment of this Kind which can be held to restrict the Government in the adoption of measures necessary for extending to the inhabitants of these Islands that protection and redress which they seem so confidently to look for from the Paramount authority -

6 It will probably be advisable to defer the consideration of this important question until Mr. Robinson shall have submitted his promised Report - In the mean time I would only observe that the present juncture appears to me to offer a very favourable opportunity for carrying into effect such reforms as may appear advisable -

Para 81 Mr. Robinson states that "it is an admitted fact that the Rajah is unable to assist the people of these distressed Islands and is anxious that the Government should come forward with assistance" - He further observes that he "believes that it is not the intention of the Rajah to apply for direct assistance, but there

Para 93 can be no doubt that a claim for the reduction of at least one half of his Peshcush will be preferred"

Rs.

10230 Fort St. George 10th July 1848.

Mr. Robinson's promised report will probably throw more light upon this subject - at present the wishes or expectations of the Rajah or Beebee do not clearly appear - The doctrine of property having its duties as well as its rights may not perhaps yet have extended to Laccadives - but the Rajah can scarcely expect that the Government will undertake at its own expence to support and foster the inhabitants of his Islands for some years only that they may be again made over to be plundered by his people when they have recovered from their present distress. I am very far from being one of those who take it for granted that a Native Government must necessarily be a bad one, and that the direct assumption of it by the Company furnishes a remedy for all evils, but there are peculiar circumstances connected with these Islands, governed as they appear to be by needy Moplah dependents of the Beebee, who purchase by a Nuzzur the right of extorting what can be got from the inhabitants which seem to render them peculiarly open to such abuses as the late attention which has been directed to the subject has brought to notice.

I Any Remission of Peshcush should therefore I think only be conceded as the price of such concessions for the benefit of the inhabitants and good Government of the Islands as the circumstances of the case may seem to demand.

For

10231 Fort St. George 10th July 1848.

The twofold loss involved in a remission of Peshcush to the Beebee and advances to be made to the Islanders is not one which the Government seems called on to incur for the benefit of the Beebee herself and to enable her to retain her hold on the Islands, although it is one which I have no doubt that the Government would readily submit to for the humane object of restoring the prosperity of the Islands and for securing to the Inhabitants a moderate and just Government for the future - This latter object however do far as I have at present the means of forming an opinion, appears absolutely incompatible with the continuance of that irresponsible and arbitrary power which has hitherto been exercised over these Islands by the Beebee, and unless I am misinformed there will be no other practicable alternative than to deprive her of this either by resuming the Islands and placing them under the direct management of the officers of Government - or if such a direct course be not open to adoption by making the remission of the Peshcush, and relieving her from the obligation of assisting the inhabitants, conditional upon her voluntarily agreeing to such measures for the better Government of the Islands as may be considered necessary -

8 With regard to the advances recommended by Mr. Robinson to be made to the Inhabitants of

Para 85

Androt

Fort St. George 10th July 1848.

Indrot and Kulpeny they do not appear to me to be large when compared with the importance of the objects in view and their eventual recovery seems certain. I should rather be disposed to make them to the full extent petitioned for by the Islands than to lower the amount as proposed by Mr. Robinson in the 85th Para of his report. The difference in the sums proposed would be of little importance to Government whilst it might probably restrict the means of restoring the prosperity in a manner which would not be desired.

9 I avail myself of this opportunity to forward a Statement of the sums expended by me in assisting the destitute Inhabitants, and other necessary charges incurred under the general Sanction of Government dated 20th August last, and for which I request that the Board will be pleased to obtain the Special Sanction of Government. Resolution thereon — The Board will await the receipt
50-51 of the further report promised by Mr. Robinson in
para 2 of his letter to the Collector of Malabar
dated 7th February last before disposing of the
foregoing letter —

Read the following letter.

52 To T. Pycroft Esqre
Secretary to the Board of Revenue
Fort St. George.

Sir,

From the Coll.r of Malabar — I have the honor to acknowledge
Stating with reference to the Board's Proceedings of the 1st Instant that their instructions to cancel the order prohibiting the exportation of small sized Teak timber will be at once obeyed and that as Government have but one or two Forests in the Ernaad & Palghaut Taloks no extra expense for Conservancy is therefore necessary —

the Extract from the Proceedings of the Board of Revenue under date the 1st Instant desiring me to cancel the order prohibiting the exportation of small sized Teak timber and to adopt such Conservancy arrangements as I may consider best adapted to the preservation of the young trees in all forests of which the Government may be the owners or renters reporting for sanction the expense to be thereby incurred —

The first order will be at once obeyed.

With regard to the second I beg to observe that the Government have no forests either rented or their own property with the exception of two, two in the Ernaad Taloks under the immediate charge of the Government Conservator and one in Palghaut a forest too far removed from the

the River and Coast to make it worth while for any one to steal its young trees for the purpose of exportation.

No extra expense for conservancy is therefore necessary in Malabar. But with regard to the vast importance as justly observed by the Government of the preservation of the Teak timber of Malabar and the certain destruction of it which experience has shewn us will arise from a return to the system of unlimited cutting, I do earnestly trust that the wisdom of Government will devise some plan which will prevent the recurrence of a system alike hurtful to the Proprietor and the public, as fully explained in my letter of the 16th July 1841, which was only put a stop to, by the orders of the Court of Directors after an unceasing representation of its evils by the Authorities of this District for 15 years.

(Signed) H. V. Conolly
Collector

Calicut ... 9
17th June 1848.

Proceedings thereon — Para 1. Resolved that the foregoing
52-53 letter be submitted for the information of the Right Honorable the Governor in Council in reference to Extract from Minutes of Consultation dated 23rd May last.

In

2. In reference to the concluding Para of Mr Conolly's letter respecting the importance of preventing the destruction of the wood lands in his District. the Board observe that as the forest in Malabar in which Government have an interest and in which they could consequently adopt conservancy arrangements are so few the only measure available for checking the evil anticipated as regards that District would seem to be that of a recurrence to the late system of levying a high duty upon the export of under sized timber.
