(15)

From the Agent to the Governor in Ganjam, Reports on the affairs of the Haughtghur and Bramanchayee Zemindaries

Sir,

Para 1. I have the honor to request that you will lay before the Board of Revenue the enclosed Accounts containing an abstract of the affairs of the ancient Zemindaries of Haughtghur and Bramanchayee in this District -

2. - The amount of the Peshcush annually payable to the Government on the Haughtghur Estate is Rupees 52,000 - - - and on Bramanchayee Rupees 3200 or together Rupees 55,200 - - - the late Zemin- =dar having fallen deeply into arrears, the Management of these Zemindaries was under the Board's in- =structions assumed by the Acting Agent on the 30th October 1844, the arrears then outstanding includ- =ing first List of Fasly 1254 amounting to the large sum of Rupees 1,27,854-14-6. The subsequent demands of Peshcush up to the end of Fasly 1257 as shewn in the accompanying Abstract No 1 was in the aggregate Rupees 2,13,900 giving a total demand of Rupees 3,41,754-14-6 The Collections of revenue since annually brought to account after dedu- =tion of all charges, had gradually almost effected the liquidation

Board's Proceedings dated 14th October 1844

liquidation of all demands for Peshcush by the close of Fusly 1257- when the young Zemindar, in order to obtain the release of the Estates and enter upon the Management at a convenient season, paid up in cash, the small balance of Rupees 10775-5- and I have this day issued the usual proclamation notifying his being placed in possession.-

3 The Statement No. 2 will shew the annual rental of the Estates, the Collections realized, and charges incurred- the details of which do not appear to require any particular illustration, with the exception of the item of Rupees 9992-13-6 which consists of that amount of Interest charged upon arrears under Section VIII Regulation XXVII of 1802 and previously carried to credit under that head which under the authority to exempt from the charge of Interest the arrears outstanding against this and other Zemindaries in this District, was adjusted as a payment on account of principal to the credit of the young Zemindar.-

Minutes of Consultation of Govt. dated 20th June 1845 No. 789-

4- I beg to state for the information of the Board that the late Zemindar Sree Balun= =kaswara Hurrischendana Jaggud Deo died on the 27th March 1848, and has been succeeded by his only son Sree Ramachendra Hurrischendana Jaggud Deo, who is now about 36 years of age.- I have had several

several interviews with him, and he appears to me to be an intelligent well disposed young Man, I took occasion strongly to impress upon him the importance of giving his personal attention to his own affairs and avoiding all tendency to ex= =travagance in his expences, and as he seems to be fully sensible of the necessity for conforming to this advice, I trust that his future management of the Country may be satisfactory. The late Ze= =mindar had been totally blind for a number of years, and altho' plundered on all hands by his servants, was extremely jealous of any interference on the part of his son- He would allow him no insight into his affairs, and owing to the greatly embarrassed state in which his finances had long been, and to the unkindly feelings that were in= =stilled into his father's mind relative to his son, the young man remains unmarried, a most unusual and objectionable thing at his age, according to Orriah notions of such matters- The young Rajah is of course anxious to have his cause of reproach removed, and he will necessarily be put to considerable expense in celebrating his Marriage, which happens rather unfortunately on his first entering upon the Management of his affairs.-

Board of Revenue
Fort St. George

Sir,

From the Coll.r of Ganjam ----------

24

In compliance with the instructions contained in the Extracts from the Proceedings of the Board of Revenue dated the 12th. June and 31st. July last I have the honor to submit a Statement in Triplicate of the Demand and Collections of Land Revenue in the Ganjam District, with the amount disbursed on account of Public Works from the year 1835/36 to 1844/45 inclusive. —

I regret that this return will be found to be incomplete as regards the first division of the printed form of Statement the system of Revenue Settlement here obtaining and the imperfect record kept of Statistical details even in the Government Talooks during a part of the period embraced in the Statement, rendering it impracticable now to furnish trust-worthy information in respect to the

12787 Fort St. George 11th September 1848

the extent and nature of the different descriptions of Cultivation, at stated former periods. The Collections shewn in the second compartment of the Statement are taken from the annual Jusly Statements and may be received as correct. The annual results do not exhibit any marked variation; that is not immediately referrible to the vicissitudes of season, and the fluctuation of the prices of produce. In the Table of disbursements, under the head of "Other works" has been included the expenditure annually incurred on account of the construction and repair of Revenue Buildings. —

From the Actg. Collr. of North Arcot. Forwards two Statements showing the production of Salt and its distribution prepared as per form with explanations.

Recd 9th and 12th July 1848.

Sir,

Para 1. As directed in an Extract from the Proceedings of the Board of Revenue of the date noted in the margin, I have the honor to forward two Statements showing the production of Salt in this District and its distribution, agreeably to the form therewith received. There is only one place in this District where Salt is manufactured; and it was first formed in Fasly 1231. Other pans which formerly belonged to this district, were transferred to Nellore in Fasly 1218 with the Zemindary of Venkatagherry within which they are situated

2. I regret that it is quite out of my power to furnish any trustworthy information as to the extent of the consumption of Salt in this district, as I have no data at all to go upon. If the Rowanah System had been rigidly enforced, the Rowanahs and Registers would have afforded the data required. But the Rowanah Rules which were always

always I believe only partially observed, appear to have been altogether a dead letter since the abolition of the Sayer duties, so far as regards any check on the Salt department and any useful statistical information. Rowanahs are issued indeed on the sale of Salt, but no Register is sent to other districts; and no Registers are received from other Salt districts nor are the Rowannahs issued there for Salt coming into this district, collected or examined. As regards the population of the district this was stated by Mr. Lowell in his letter of the 9th. December 1817 at 890,000. The basis of that computation was the Summaul bundy Returns for the Ricotwar Talooks, and similar Returns for some of the Zemindaries and estimates for the other Zemindaries. I do not consider that these were very trustworthy data but they were the best available. It is necessary however to make some addition for the Vellore Talook, in consequence of the late more accurate census of the Town of Vellore. The Return gives the population of the Talook at 80,000, but the Town alone is found to contain 130,000 (besides 15,000 in

Vide letter to Board May. 30th 1818 Para 2.

in the Military limits) Canveripauk Talook also is set down at 53000, but the three Towns of Wallajahpett, Ranipett, and Canverypauk; probably exceed that number considerably, I should judge that the population of the District is certainly not less than a million.

3. Of the Salt manufactured in this District about three fourths appears from the Statement to be taken for consumption out of it. But this part of the Statement is prepared from the Register of Rowannahs issued; and it cannot be relied on because Salt taken on Rowanah for a distant market is often disposed of on the way. The greater part of the District however is certainly supplied from the pans of the adjoining districts of Chingleput and South Arcot, and from Madras Bullock Carts going down to Madras with Grain, Sugar, or other Country produce frequently return with Salt, sometimes even going to the Ennore pans to load.

4. As to illicit sources of supply there can be no doubt that smuggling takes place to a certain extent at every pan and the practice

practice referred to in Para 3 regarding Row:
:nahs probably cloaks some smuggling. —
Earth Salt is I believe unknown in this —
District; a fact owing chiefly to the scar:
:city of the Salt Earth from which it is made;
and partly no doubt to the cheapness of Sea
Salt compared with Districts at a greater
distance from the Sea. In his letter above
referred to Mr. Lovell States the price of Salt
at Wallajahpett at 210 or 220 Rupees a Garce.
This is taken from the Monthly Nirakanamahs
but some allowance is to be made for the
difference of measure, as the Measure or
"puddy" of this District is one fourth larger
than that of Madras. Making this correction,
the selling price at Wallajahpett will be 178 to 186.
Rupees the Garce. At present the price there is 155
Rupees; it is always lower in the dry Season than
in the wet. I mention the difference of Measures
lest the Board should be led into any errone
:ous calculations or inferences. —

5. In the absence of statistical or details as to the consumption, it is impossible to say to what extent the high Monopoly price interferes with the use of Sea Salt by the poorer classes, but it would be contrary to all

experience

experience to suppose that it has not a powerful effect in that direction. The diminution of this evil is to be attained by lowering the price to the consumer, and for this object it is obvious that the first requisite is a reduction of the Government Monopoly price. But in addition to this it is apparent from what is said in the last Para that traders profit and the cost of transport must increase the ultimate price of the Article. Improved means of communi:cation would directly diminish the latter; and the indirect effect both of such improvement and of a lower Government price would certainly reduce the former. They would produce this effect in two ways, 1st. by the competition of additional capital attracted into the trade, and 2d. because the greater Amount of transactions and the consequent quicker returns would enable the trader to be content with a smaller rate of profit.

6. It appears to me then that the gradual improvement of the Roads, in addition to the other great advantages which it holds out, would enable the Government with no loss of Revenue, or with far less than other:wise to relieve the public from a part of the burden of the Salt Monopoly. If it is

objected

objected that the outlay on Roads would itself be equivalent to a sacrifice of revenue, it is answered that this outlay is called for by various other considerations, and that the controlling Authorities have already shown a disposition to incur it to some esctent.—

7. These then are the two measures, reduction of the Government price and an improvement of the Roads, which I would recommend with the view of relieving the consumer; and in this district I would not recommend any others. I do not think it would be advisable here at least, to interfere with the employment of private capital in the trade. It has been proposed by some, with the view of lessening to the consumer, the cost of transport inland, that Government should establish depots in various parts of the country, at which Salt should be sold at the regular Government price. It appears at first sight only fair thus approximately to equalize the tax; but it would be done at great cost. I think it may be considered certain that the actual transit and storing of the Salt would cost the Government far more than they would cost individuals; the excess would be so much capital wasted. And in addition to this, the peculations now practised at the ports would no doubt be carried on in this new and wider field, thus involving great loss to Government.

In

In both these ways as well as in the benefit given to the Inland consumer the productiveness of the tax would be diminished; or in other words the lowering of the Government price would pro tanto be rendered impossible.—

8. In a natural state of things, that is if there were no monopoly the inland consumer would pay more for Sea Salt than the coast consumer. The coast possesses this advantage over the interior; but the inland districts have other advantages wanting on the coast, a milder and more productive climate, and an aptitude for raising some valuable exportable products such as Cotton and Indigo, and it appears to me that the wisest part of Government is not to interfere with this natural state of things; and that whatever sacrifice of Revenue can be made will be applied more economically and more judiciously in a reduction of the first cost, rather than in any attempt to perform the functions of a trader; and that the subsequent distribution of the commodity should be left to the ordinary operations of trade. For the foregoing reasons I think the establishment of local Salt depots inadvisable; and I am of opinion at all events that they ought to be confined to tracts more distant from the coast than any part of this District.— I have

Noted. The poorer classes would relieve themselves in part by using an inferior article Earth Salt. This they do even now in spite of prohibitions; and in consideration of the pressure of the Monopoly Government (in a manner permit its use it is believed, in Bellary.

9. I have already said that I believe smuggling to be carried on in Salt to a considerable extent. A rigid enforcement of the Rowanah check might to some degree diminish this, but this would be an expensive means, much more so than formerly when the machinery of the Sayer duties was in existence for its' enforcement. It is also in itself very objectionable from the interference with the regular and speedy course of trade, and the hindrances and inconveniences to traders, which it involves; its' establishment might indeed be made the means of preventing many of the abuses of the Sayer Chowkies. But the natural effect of any considerable reduction in the Government price would be to diminish illicit trade. Smuggling is necessarily expensive. Both the dangers of discovery, loss, and punishment, and the somewhat discreditable character of the calling everywhere, render it necessary that the smuggler should have considerably higher profits than the fair trader; added to which some expense is required to conciliate public Officers. The Honorable Court have observed that an increase of the monopoly price by 50 per Cent only produced an addition to the Salt Revenue of 30 per Cent; this result may be owing

owing in part to diminished consumption of Salt; but I should judge that it is chiefly due to more extensive smuggling, and a larger use of earth Salt.

10. What the cost of smuggling is and what reduction of price would suffice to put a stop to it by destroying the inducement; I am unable to say, but I think it may safely be assumed that a reduction of the Government price to 45 or 50 Rupees the Garce would largely diminish the illicit trade of both descriptions, and would also largely stimulate consumption so that the loss of Revenue would be very far less than may at first sight seem probable. Nor can it be doubted that the actual loss would partly be compensated indirectly even to the Government. For any considerable increase of the trade in so bulky a commodity must necessarily furnish employment for a great number of labourers of different grades; and so increase very materially the consumption both of the produce of the soil which pays land Revenue, and of imported commodities which pay Customs duties.

Note. If Salt were cheap many classes who now use it in its original dirty state would purify it; an operation not thought of now because so wasteful. Salt would also be used more largely for other purposes than as a condiment.

From the Collector of Tanjore— Sir,

Reporting on the Lapse of certain grants and submitting documents & explanation of delay in making the original reports.— I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue, under date the 8th May, accompanied by Copy of Extract from the Minutes of Consultation of the 2d May, and in reply to submit the information required, as per form prescribed by the Board's Circular of the 3d April 1846.

It will be seen on reference to the Statement, that all the grants originated with the Rajah's Government prior to the Assumption of the Tanjore Province by the British, and having been duly registered were continued up to this time, the only difference being in the mode of payment, the original grant

grant in grain being commuted into money.
All the original documents procurable are
submitted with translations as directed. In
calling for explanation of the delay in report-
ing the occurrence of these lapses, the Govern-
ment remark that in 3 cases four years,
and in one five years have elapsed, since
the payments were suspended.—

It is true that a considerable
period has elapsed since the death of the
late Shanmudaru, and the report of the lapses
to Government; but, not to such an extent in
this Office as the dates would infer;
the 3 first cases alluded to tho the par-
ties died in 1253 and 1254, no intimation
was made by the Palace authorities
to this effect, until after the com-
mencement of July 1256, and the
death of the party which occurred
in 1252 was in like manner reported
in 1256. I regret that a further delay
has been occasioned in replying
to the Board's instructions for the

the want of punctuality on the part
of the Fort authorities, in forwarding
the parties and papers to enable me
to fill up the Statement.—

Ordered

12828. Fort St. George 11th September 1848.

Ordered that the foregoing letter be submitted with the following address.—

To The Chief Secretary to Government.—

(43.46)

Sir,

To the Chief Secy to Government

With reference to Extract Minutes of Consultation dated the 2d May last, calling for information on certain points respecting 4 Yeomiahs reported by the Collector of Tanjore to have lapsed, I am directed by the Board of Revenue to submit the accompanying letter from that Officer enclosing a revised statement of these Casualities, together with the necessary documents and furnishing the information desired by Government.—

2. From this communication it is observed that all the Yeomiahs were originally conferred for service during the Rajah's Government and that they were duly registered on the assumption of the Country by the British and continued up to the death of the last incumbents, the original grant in grain having been commuted into money payments. The services would appear to be continued to be performed by the present claimants who are the Grand children of the original Grantees, and it is stated that the Sirkele of His Highness the Rajah urges the continuance of the Three pr. Grants as the services of the claimants in calculating Eclipses, casting Horoscopes and compiling Almanacs are

Submitting letter from the Collector of Tanjore enclosing a revised report of the lapsed in the Yeomiah department and the necessary documents and explanations called for in Extract Minutes of Consultation 2d May last, and recommending payment of the arrears and the continuance of the allowances to the present claimants.

are evidently to be attributed to the native community. The Board therefore beg to support the Collectors recommendation for the renewal of these Three grants in the names of their sons and for payment to them of the arrears due since the death of the last incumbent.

3. Adverting to the last Yeomiah specified in his Statement, the Collector remarks that the property pertaining it, is doubtful as the service of singer is performed in another district and the Pagoda at Trichinopoly is able to bear the expence. The Board do not consider this a valid reason against the renewal of the Grant. Endowments have at various times been afforded by native princes and continued by the British Government for the performance of services at spots at a distance from the chief place of residence of the Grantor and in religious institutions already well endowed. The Board would recommend the continuance of the Yeomiah with payment of arrears in these as in the other cases.

4. With regard to the delay which has occurred in reporting on these cases it will be perceived that no intimation of any one of them was made to the Collector by the Revenue authorities until after the commencement of Fusly 1256. and that a further delay has occurred from want of punctuality on their part.

To the Pl Coll[r] of Coimbatore —

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 22d Ultimo forwarding the Statement called for in the Board's Circular of 12th June 1848, and requesting to be informed whether the mode of preparing it is correct to enable you to fill up the printed

printed forms transmitted from this Office on the 31st July last. —

2. In Para 2 of your letter you state, that the local designation of Bullahs and Cawnies with reference to dry garden and Punjah lands have been maintained in the preparation of the Statement, but that in the column exhibiting the aggregate cultivation of all descriptions of land the extent is inserted in Cawnies. On referring to your Statement however the Board find that the Grand Total extent of cultivation, Col: 12, is the exact sum of the several totals of wet, dry, and Garden cultivation, Col[s] 4 — 8 — & 11 hence it would seem that all the entries of land in the Statement are of the same denomination the Board presume the whole to be Cawnies, but if not they direct that the extent be entered in Cawnies in every case throughout the Statement —

3. Under the head of Collection the collections on account of each Fusly within the Fusly and subsequently to 11th July 1848 appear to be entered instead of which the actual amount collected within each Fusly both on account of Current demand

demand and arrears of former years should be inserted opposite the year in which the collections were made—

4 In reference to para 3 of your letter it is observed that Col 3 of the Statement of disbursements on account of Public works is expressly confined to road not trunk road— Any expence which may have been incurred on account of Trunk road should therefore appear in Col: 4—

With these modifications the Board think that the Statement will answer they therefore desire me to return it with a request that you will fill up the printed forms and transmit them to this Office as early as practicable—

From the Coll.r of Madras.

Sir,

Submitting the necessary explanations as to the mode pursued in the disposal of the Arrack and Toddy Shops of the Madras Collectorate which are situated beyond the limits of the Supreme Court.

1 I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated 10th instant, calling upon me to explain as to the mode pursued in the disposal of these Arrack and Toddy Shops of the Madras Collectorate which are situated beyond the limits of the Supreme Court.

2 I beg leave, in reply, to observe that as regards the Arrack Shops Paras 9 to 13 of my letter to the Board dated 4th November 1844 N.115 relate to the manner in which the annual Settlement is formed; and Paras 14 to 20 advert to the circumstances under which the transfer of the extended limits in 1816 was authorized; whilst Paras 21 to 24 refer to the financial results of the arrangement, and to the advantages accruing thereupon to the people. The fixed number of Shops is 50, but the number for several years past has not exceeded 37. The Shops attached to each of the 5 Godowns alluded to in Para 10 of the last mentioned letter are put up in one separate lot, that is they are sold at auction in 5 subdivisions as follows.

12845. Fort St. George. 11th September 1848.

The 7 Shops attached to the Godown at Trivamore are put up as 1 Lot.

Vide concluding part of Para 16 of letter dated 14th August 1848. N.55.

3 As regards the Toddy Shops they are let on the terms stated in my letter dated 13th Ultimo. N.46. but instead of the Police Peons referred to in Para 2, Pahdarries such as are described in Paras 5 and 24 of my letter dated 14th instant. N.55 are issued. The number of Shops fluctuates more particularly between February and June, both months inclusive in each year, as it is during that period that many of the Cocoanut Toddy Shops are given up and Palmira Toddy Shops are established. In order that the Board may be enabled to form some idea as to the variations between one month and another, I submit a Memorandum of the number of Shops as they stood on the 1st of every month for each of the 5 years ending on the 31st December 1847.

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 24th Ultimo forwarding explanation as to the mode pursued in the disposal of those Arrack and Toddy Shops of your Collectorate which are situated beyond the limits of the Supreme Court.

In Para 2 of your letter it is stated that "the number of Toddy Shops "fluctuates more particularly between February and June as it is during that period "that many of the Cocoanut Toddy Shops "are given up and Palmyra Toddy Shops are "established" and on referring to the Memorandum submitted in illustration, the Board find that some of the Shops entered in it are held for very short periods in several cases of not more than a Month's duration. The Board are at a loss to understand how this practice of leasing out shops for such short terms has originated. It can scarcely be argued by

by any corresponding variation in the public consumption. It does not, as far as they can gather from your letter of 13th July last, prevail in regard to those Toddy Shops which are held within the limits of the Supreme Court and it is obviously open to great abuse. I have therefore to request that for the future no Toddy Shops Cocoanut or Palmira be licensed for a less period than four months and that wherever it be practicable you will require the dealers to take licenses for still longer terms.

Para.s 1. The Right Honorable the Governor in Council, cannot accede to the prayer of the Petitioners, to be permitted to draw their Yeomiah (as Khateebs of the Mosque at Pulicat) from the Treasury of the Collector of Madras, within the limits of which District they neither reside, nor perform the prescribed service. Such transfers are deemed objectionable, as being attended with inconvenience in the adjustment of accounts between the two Districts; and where, as in a recent instance, the Yeomiah has remained undrawn for a considerable period, there is little probability of the actual cause of the delay being ascertained, except by the Authorities of the District, in which the Institution is situated, and the parties reside and do duty.-

Mins.s of Cons.s 30th.e June 1848. No.694.-

2. Adverting however, to the inconvenience and

and expense to which the Petitioners allege they would be subjected, by their detention at the Tahsildar's and Collector's Cutcherries, which attending there to draw their Yeomiah, the Governor in Council resolves to forward their Petition, through the Board of Revenue, to the Acting Collector of North Arcot, who will state, whether arrangements cannot be made, for the payment of the allowance, by the Police Auneen of Pulicat, the chief resident authority at that isolated Station.-

Extract from the Minutes of Consultation, under date the 4th. September, 1848. No. 955.-

Read the following letter from the Secretary to the Board of Revenue.-

(Here enter 7th. August 1848 No. 409)

Para 1- The Right Honorable the Governor

Governor in Council, entirely concurs in opinion with the Board of Revenue that Nursinga Row, the adopted son, should be considered as the first of the two next heirs, of the late Kristna Row and he accordingly directs, that the reduced pension of Three Thousand /3000/ Rupees per annum authorized by the Honorable the Court of Directors be continued to him as the second Life from the 15th. April 1848, the date of his adoptive Father's demise.-

In paras 20 and 21 of their Revd. Dispatch 12th. January 1848. No. 1.

2. The Governor in Council is also of opinion with the Board, that the management of Nursinga Row's inheritance, for which he is incapacitated by minority should be placed under the control and orders of the Civil Court, to whom the circumstances of the case should be reported, and he desires that the Collector of Canara may be instructed accordingly.- In the meantime, he grants sanction for the disbursement of the arrears of Kristna Row's pension, from the 18th. January 1847 the date of his retirement, to that of his decease amounting to Rupees /5,606-13-8/ Five Thousand Six Hundred and Six, Annas Thirteen, and Pice Eight, which Sum, as well as the Pension now authorized will be held at the disposal of the Civil Court.-

5. The 7 Estates in the second class owe on Current Peishcush Rs. 1130-2 of which Rupees 21-1-11 due from Koondaswa-rapoorum, Buntoomilly Salekicherla and Goondapilly will be realized by the end of this month. The Estate of Dowlaiswarum is under attachment for a balance of Rupees 810-10-1 The late Proprietress Chinta-putta Ramamah addressed an Arzee on her death requesting that this Estate might be put in possession of her grand daughter Cotagerry Venkiamy and her son, but Row Lutchmy Venkiah having moved the Civil Court, the Civil Judge sent a letter requiring me to make over the Estate to the deceased Ramamiah's daughter Sooranamy Venkataramaniah receiving security from her for one years produce. An order was issued thirty days ago informing her that the Estate will be released on payment of the balance and the result of

of her answer when received shall be made known to the Board. The Estate Nadavapully is also under attachment for a balance of Rupees 248-4-2 which it is expected will be realized in all this month. There is a balance of Rupees 50 against Vegayenmapetta. It has been usual to allow this Zemindar a like sum from the Collections of the Cotta Estate on account of that of lands cut up by a channel dug by a former Zemindar of Cotta to supply his Villages with water, but as Cotta has reverted to Government the allowance in question cannot be paid for this fusly for want of special sanction from Government. Orders have been issued to the Zemindar and to the Amildar of the Cota Ramachendra-poorum Talook for the documents connected with this case and the subject shall be treated of in a separate report.

		13,637-2-5

3 These Estates with the exception of those marked from 1 to 4, 7 and 8 are under attachment for the arrears outstanding against them.—

4. The balances due from the Estates Nos. 1. 2. 3. 4. 6. and 8. were expected to be recovered by the end of last Month.—

5. With respect to the balance of Rupees 60 on against the Estate No. 7 the Collector represents that the Zemindar is entitled to its remission and as that he will apply for sanction in a separate report on the subject

6 The arrears of Peishcush amounted to Rupees

J.G.

Rupees 10,3748-7-3 of which Rupees 4690-12-4 were collected up to the 15th August last, leaving a balance of Rupees 5684 2-10-11 against Ritta poor Zemindary 5000 on

Gootella	1,9190-15-10
Yellamanchelly	1651-11-1
	5684 2-10-11

7 The proprietors of these Estates have been permitted to discharge the above arrears under the arrangement sanctioned by Government.—

Dated 2d Dec. 1846 and 11th Jan. and 19th Oct. 1847.

8. It is satisfactory to observe that the 42 Estates comprised in the 1st Class have paid the Peishcush both current and arrears in full.—

9. As the Proprietors of the Estates from Nos. 9 to 13 inclusive have not entered into any arrangement for discharging the arrears against their Estates for Fusly 1257 notwithstanding the large collections A.D. 1847-48 realized by them, remunerating prices of produce, and favorable circumstances of the season the Board approve of the proposed sale of these Estates and have ordered the advertisement forwarded by the Collector to be fixed up in their Office— the day of sale being changed to Wednesday the 1st of November next— The Collector will be pleased to make a corresponding alteration in the advertisement published in his District, and will bid for the Estates on behalf of Government to the extent of the arrears outstanding respectively against each if necessary— otherwise will buy them in at such prices as shall leave a balance of Peishcush still due by several Proprietors to be written off hereafter on their relinquishing all demands upon their former subtenants.—

Ordered that a copy of the foregoing Extract from the Board's Proceedings be submitted to Government and a transcript of the same be forwarded to the Collector of Rajahmundry for his information and guidance.—

Additional Goomastahs for preparing Summahbundy accounts.										These servants are required to assist the fixed establishment in repairing and examining with expedition the accounts during the Summahbundy Settlement. This increase is owing to the charge for preparing accounts of some Villages which have come from rent to Amanie and the accounts &c. of sharing wet lands which have been brought under fixed assessment this year being estimated. —

From

to. From the above it will be seen
that on the date of the first attachment there
was a balance of Rupees 12313-5-1 due
on account of Peishcush and that Rupees
317868-14-5 accrued during a period of 11
years under Circar Management Viz. from
1826 to 1836, when the estates were made
over to the Management of Ramanada Ban-
=boo, under orders from the Court of Sudr Udal-
=but and the Board dated 27th July and
18th August respectively - During the 8 years
subsequent to 1836 an additional balance
of Rupees 64,141-15-5 accumulated under
the Management of Ramanada Banboo,
and a further balance of Rupees 9224-1-9
has accrued during the 3 last years of Circar
Management, the Estates having been again
attached on the 25th December 1817 under
orders of the Board dated the 7th November
of that year, making the total balance due
up to this date amount to the large sum
of Rupees 10,63,808-4-8.—
5- The Estate of Mundegamah. No. 1 is com-
=prosed of 3 Purganahs, Viz. two portions of
Mundegamah, and the Purgunahs of Davro-
=gunche prole and Batanole, in which the
extent

extent of wet in proportion to that of dry
lands is but small. The Assets entered in the
accounts of the Circuit Committee on which
the permanent Assessment of this Zemindary
was fixed embrace a period in which there
was not only an abundant produce, but
prices were also high and consequently the
amount of Sist was very much in excess of
that of the subsequent years in which lands
had become impoverished. Moreover the dry
Crops during the first 3 or 4 years after the
Estates were attached having failed from
the effects of drought and excess falls of rain
when they were about to come to maturity
and a gradual falling off having occurred
in the prices of Grain, the result up to
Fusly 1239 / A.D. 1829-30 exhibited a diminution of
revenue below that derived in former years
as will be seen from the annual Jamabundy
+ Reports forwarded to the Board.—

+ Jamabundy report dated 28th April 1828. for Fusly 1236. D: dated 8th July 1829 for Fusly 1237-

6. In the year 1830, the then Collector
Mr. Dent introduced a triennial rent and
=ing with Fusly 1242 / A.D. 1832-33 having in view the im-
=provement of revenue which might be expect-
=ed from the adoption of this system in lieu
of

of that of a division of produce which pre=
=ceded it. But the arrangement was unsuc=
=cessful in consequence of the unfavorableness
of the season for the Dry Crop, the principal
produce of the country in the two first years
and the dreadful famine and pestilence
which immediately followed in Fusly 1242
A.D. 1832
most which was followed by an awful mor=
=tality among the cultivating Classes and
compelled those who survived. the Cala=
=mity to emigrate into the neighbouring
Nizam's territory the Villages of which
having equally suffered from the same ca=
cause the Emigrants had an opportunity
of taking up lands there for reduced Assess=
=ment. This has led to almost entire de=
=sertion of the Villages. the lands lay
waste from the paucity of cultivators and
the face of the country exhibited a scene of
desolation, a considerable tract of land
even in the immediate vicinity of Nundi=
=gamah having become over grown with
Jungle so that in Fusly 1235
A.D. 1835/36
as low as to Rupees 13391. 4. 8.

7. In this state of things Mr. Goldingham
the then Acting Collector proceeded to
Nundegamah

Nundegamah with the view of alleviating the
distress and holding inducements to the Emigrants
to return to their homes and resume Cultivation
of the lands from Fusly 1246. An adverti=
Fusly 1246 A.D. 1836-37
=ment was issued offering to let lands on fa=
=vorable rates of assessment with reference
to their several Classes. The measures
adopted by that Gentleman induced
several of the Ryots to return with their
ploughs and resume cultivation as will
be seen by a perusal of the reports
noted in the Margin in which the re=
=sults of the arrangements then made
and the benefits to be expected therefrom
are fully detailed.

To the Board dated 31st May 1836.
Do. Do. Dated 10th August 1836.

8. In 1836 as above noticed the
Court of Sudr Adalut directed that
pending the decision of the Queen in
Council in the Suit in Appeal be=
=tween Ramanadaboo and
Atchamah widow of Suggum=
=na tha Banboo the whole of the
Disputed Estates should be
placed under the Management of Ramanada
Banboo as the person interested in
their

their improvement on condition that he should render a faithful account of his charge, and should pay to Government the whole of the collections, deducting only expenses of Ma= =nagement subject to the supervision of the Collector. Pursuant to these orders, the Estates were put in possession of Ramanadabaubo and the circumstance was reported to the Board of Revenue and the Court of Sudr Adalut.

To the Board 4th November 1836.

9- From the Jamabundy reports

Jamabundy report dated 11th April 1839. for Fuslies 1246 and 1247. Do. Do. dated 26th October 1841 for Fuslies 1248 and 1249.

for Fuslies 1246- A.D. 1836-37- 1247- 1837-38 1248- 1838-39 and 1249 1839-40 will be observed the irregularities committed by Ram= =nadabaubo during his Management, the de= =tails of which were therein reported at full length.-

10- Tapsereddy Ste Ramah the Op= =ponent of Ramanadabaubo having re= =presented to the Sudr Adalut complaining of misappropriations on the part of Rama= =nadabaubo that Court by Precept dated 2d May 1842, directed an enquiry into the same, the result of which as stated in my communication to the late Northern Provincial Court dated 7th June 1843 Copy of

of which was submitted to the Board, & showed that the misappropriations imputed to Ramanadabaubo during his Management up to Fusly 1251- 1841-42 were not satisfactorily es= =tablished. The Jamabundy report of Fusly A.D. 1254- 1844-45 will exhibit the result of the Manage= =ment of Ramanadabaubo which closed with Fusly 1253 1843-44 and under the Board's orders & dated 5th December 1844. the Estates were attached and still continue under Management.

To B. dated 7th July 1846 relative to the Jamabundy reports of Fuslies 1250. 1251. 1252. & 1253.

Having submitted the forego-ing 11. preliminary observations, I now proceed to notice the result of the Management of each of the several portions since they came under attachment.—

12- The Marginal Statement will exhi= =bit the demand and Collection of the three Purganahs of Sundega= =mah Panoagmechepole and Batavole from Fusly 1235 1825-26 when they first fell under Circar Management. The Sick here shewn is not that determined upon by reference to

to the actual resources of each year, but the amount of rent for which Villages were leased out. The Villages of this Estate being scattered over the Jungle and hilly part of this District bordering on the Nizam's territory, the dry lands thereof have long since been rented along the wet lands being retained under Amany or sometimes including wet lands which bear a small proportion to the former for a term of years, or on annual leases concluded with the Villagers or others at the discretion of the officers for the time being, and this course was followed both during the Management of the Circar and Ramanadababoo's reference being had to the nature of the season. The term of the rent of the Villages composing the Estates having as above stated expired with Fusly 1240. A.D. 1830/31 and a dreadful famine having ensued before the rents were renewed and which carried its desolation to an extent unparalleled, these three Purganahs were retained under Amany Management in Fuslies 1243. A.D. 1833-34. 1244. 1834-35 and 1245. 1835-36. It may be

be observed with reference to the large demand of Rupees 1,15,636-9-8- for Fusly 1242 A.D. 1832-33-

that this is not the result of a settlement founded on the actual collections but had reference to the progressively increasing rent originally settled. As the propriety of comparing the demand in which the rented Bariz above described is included appears questionable, I thought it proper to contrast the average actual collections during different periods of Management as shewn in the Margin.

Collections of the four years commencing with Fusly 1212 (1832-33 A.D.) the famine year, to fusly 1215 which closed temporarily the Circar's direct management shows a considerable falling off but it would appear that the first series of diminy management amounted to Rupees 63,402-14-11 which nearly corresponds with the result of the second series viz. three years from fusly 1254 (1844-45 A.D.) to 1256 (1846-47) Rupees 62,164-15-3 while those during the management of Ramanadahauboo for 8 years from Fusly 1216 (1836) to 1253 (1843) did not exceed Rupees 33,983-7-9, and exhibited a decrease of Rs. 29,197-1-9 below that of 8 years Zufty management. Further on comparing the average Collections during the 3 last out of 8 years of Ramanada-bauboo's management with those of the 2d. Series of the Circar management, a material decrease of Rupees 19,504-12-1 will be found during the management of Ramanadabauboo.

This decrease is traced chiefly to the falling off in Prices of Grain as will appear on reference to the Marginal Statement-

14. It does not appear that the Collections in any one year since

Since Fasly 1235 / A.D. 1825/26 have reached the average Collections assumed in the Circuit Committee accounts, in reference to which in the course of ascertaining in what particular item this defalcation has occurred, an instance was found in which the Khurch Pumpany or allotment of Charges in one of the Principal Cusba Villages in the Rundegamah Estate entered in the Margin has now ceased to be an item of Collection, and in the absence of the detailed Village accounts, it seems next to impossible to get any information whether this item was Collected, and to what extent in each Village.

At the period when these Estates fell under attachment, the entire Purgana of Anekoolamunnaud and some Villages in Innoogoodroo Purganah were under leases Concluded by Sagunnadahaboo for the following periods. The whole of Anekoolamunnaud to Fusly 1244 (A.D. 1834-35) Six Villages of Innoogoodroo to Fusly 1241 (A.D. 1831-32) and 7 to Fusly (A.D.) 1242 (1832-33) - These rents were confirmed during the Zufty Management - Hence there was no variation in the Amount of Demands But subsequently owing to the famine in Fuslies 1242 & 1243 the Resources of the Villages fell off - There was a deficiency in the Number of Ploughs and a reduction in the value of Chayroot and other Grains Consequent on the decline of trade, the Manufactures of Chintz being affected by the importation of Europe printed piece goods - Moreover, part of the land became impregnated with saltish earth by which it became impoverished and the returns were scanty - These Combined Causes occasioned a material decrease

19 The decrease in the current demand below that of the first series of Management as shewn in the Margin is attributable to the limited Cultivation of Chayroot as well as to the small sum received on account of the tase on Palmira trees, many of the Toddy drawers having died or emigrated during the famine, as also to the deterioration in the receipts from Indigo pot farm, consequent on the declining state of the Manufacture in Chintz. In the said demand are included the amount of rent as also the cist of Mucta lands which owing to the deteriorated Condition of the Villages from the disastrous effects

appears that the average Collections during the Management of Ramanad =nadaboo fell Considerably below the other averages, but

but this may fairly be attributed in a great measure to the low prices of grain at that period. As I have entered at great length in the subject of Ramanada =nadaboo's administration in the return made by me to the Precept of the Court of Sudr Udalut, a Copy of which has already been laid before the Board of Revenue recapitulation thereof in this place does not appear to be necessary.

To Board 25th Novr 1844.

As regards the decrease in the 21 Collections below the average assumed by the Circuit Committee, it will be seen that in those accounts

a limited extent of dry with a large portion of wet land. The Estate was leased out by the late Zemindar Jaggunnathabauboo to Ruttapanty Nursingaraydoo for a terms of 9 years from Fusly 1233 / 1823/24 to 1241 / 1831-32 for an annual sum of Rupees 3,200 for the first year, at Rupees 3,600 for the next 4 years, and at Rupees 4,000 for the remaining period of 4 years. In Fusly 1235 / 1825/26 when the Estate came under attachment, the Collector Confirmed the said Rent and Continued it accordingly up to Fusly 1241 and the whole of the demand was duly realized.

25 The withdrawal of the attachment was succeeded by a disastrous famine. The Tanks and water Courses fell

fell into complete decay, while the season proved unfavorable to the wet lands. These causes conspired together to deteriorate the resources. Although such was the case, yet the Estate being chiefly composed of wet lands the Out-turn in years which the season was at all favorable was tolerably good as will be seen from the demands and Collections of Fusles 1244 to 1246, 47, and 49 entered in the Madras State-ment.

land in the Villages appertaining to the Purgunah is dry land the extent of wet being but small in proportion. The late Zemindar Rajah Vasireddy Jagganathabauboo having at different periods received loans of money from Rajah Sooranany Venkata putty row Zemindar of Mylavaram, had leased out to him the Condapilly Purgunah in the name of his Dewan Gollapoody Shasheah for the Annual Baaiz of Rupees 20,000 on condition of Appropriating Rupees 15,750 on account of Peishcush and the remainder Rupees 4,250 in discharge of the said debt the rent continued up to Fusly 1245 1835/36 when the renter having failed to pay the Peishcush, the Estate was attached, and the Arrears which had accrued were recovered. Venkatapatty row was desired by the Collector to resume the Management of this Purgunah, but this he declined on the plea of his inability to undertake the rent, and expressed his intention of recovering the debt due to him by Vasireddy by a regular process in the Courts. Ramanadabauboo on his part stated his willingness to assume management of the Purgunah should he be placed in possession of it, and to defend the suit which may

may be instituted against him by Venkatapatty Naick for the recovery of the balance of the Original debt.

from Fusly 1246 is to be ascribed to the disastrous effects of famine Fusly 1242 and the continued drought of season and the subsequent falling off in the prices of grain Ramanadabauboo settled this Estate afterwards on a decennial lease from Fusly 1254 1845-46 to 1263 1853-54 Proody Abliah at a progressively increasing rent specified in the Margin.

33. In Fusly 1254 the Management of the Valoiereddy Estates were resumed from Ramanadabauboo and the rent of Condapilly Purgunnah was considered under rent for that year, but having since found that the rent settled by Ramanadabauboo and the security tendered by the renter were inadequate, and the renter having been unable to render Complete security the rent was cancelled under the orders of the Board.

34. The Settlement of Fusly 1255 1845-46 under Circar Management was very favorable owing to the enhanced prices of grain. In Fusly 1256 1846-47 owing to the falling off in the price

prices, the resources this nearly equal to those of previous years Exhibited a diminution in the — resources.

35. The average actual Collections of this Purgunah during the different periods of Management are shewn in the Margin. It will be observed that there was a considerable decrease during the Management of Ramanadabamboo - which is to be attributable in some degree to the very deteriorated condition to which the Villages had been reduced by the effects of the late famines and a succession of adverse seasons attended with a depression in the prices of grain.

36. From the Marginal Statement the Board will observe that the average Collection assumed by the Circuit Committee are less than those in the subsequent years in which the revenues rose considerably owing to

to the extension of Cultivation in those lands which were lying waste at the time and the Peishcush of Rupees 15750 was determined with reference to the general averages and in Ordinary years it is not more than the Estate can pay.

This Estate as well as others were originally situated in Jamulvoy and Madoor Ghutts, and the proportionate Peishcush determined with reference to the average Collections assumed by the Circuit Committee amounted to Rupees 661-8-"

41. It will be observed that the Collections taken by the Circuit Committee are less than the subsequent ones the Lands having undergone much improvement. They suffered

suffered however from the effects of the famine but have since that period recovered, and the Peishcush has been therefore Collected in full without leaving any balance.

Sea Islands 42. This Estate was attached on the 8th February 1822, agreeably to a Precept received from the late Northern Provincial Court at the instance of Ramanadasaukra Bauboo who obtained a Decree against the Defendant Jagganada Bauboo in the Suit No. 27 of 1820, the latter having been unable to tender Security.

43. These Islands are situated in the Kistna and consist of rich dry lands, except a small portion of wet land in Pittaulunka. These lands have been under Assamy during the administration of both the Zemindar and Circar, the Settlement and Collection of which are shewn in the Margin. These Villages had not suffered from the famine but the deterioration in the Revenue is rather to be attributed to the unfavorableness of Seasons and failure of freshes on which the wet land is dependant for irrigation. 48. With reference to Para 7 of the
Minutes of Consultation dated 13th Fe-
bruary 1846 in which the Government wished
to know whether the interests of Govern-
ment and Ryots will be secured by the
continuance of the Vaseereddy Estates
under Management, or whether their
object might be gained by bringing them
at once to sale. I beg to state that altho'
in the Course of the foregoing review it has
been more than once noticed that the
considerable decrease in the Collections
during the time that Ramanadabauboo
had the charge of the Estates may be in
some degree attributed to the unfavorable
nature of season and to depressed prices
of grain yet I cannot but consider that
this result may have been brought about
in no less a degree by the Mismanage-
ment of that individual, the existence
of which has long been but too palpa-
ble, tho' the result of the enquiries
which have already been laid before the
Court of Sudr Udalut and the Board was
not considered to amount to a Judicial
conviction

conviction of the same. The heavy Public
incumbrances with which these
Estates are loaded preclude in my
opinion all hope that any good
will ensue from their continu-
ance under Management or their
restoration to Ramanadabauboo.
He is hardly able to fulfil his
own private engagements, and it
is out of the question to hope that
he can ever relieve himself from
the pressure of the public demands
against him. The continuance of
the Estates under attachment will
therefore rather impede the Ma-
nagement than be productive of
any good, as it would only afford the pro-
prietor a pretext to interfere with the Ma-
nagement and make extortions from the Ryots
who would not dare to withstand his demands
so long as he was known to hold a direct
interest in the lands. It is high time
that these Estates should at once be
brought to sale, and that strenuous
measures

measures should be taken for the improvement of these sources of irrigation which have for a long time been utterly neglected, by which and by the introduction of a better System of Management, — there can be no doubt that emancipated from Zemindary control they may in course of time be brought back to their pristine flourishing condition.

With reference to the correspondence noted in the Margin, I have the honor to request the instructions of the Board as to whether the Palmira and other trees claimed to be held as private property which have hitherto been usually included in the Abkarry Farm, should be so in the Current year. If the gardens are to be toped as proposed in my letter of the 26th April last, this need not be done - If, however, there should not appear any probability of a new arrangement being brought into effect early in the Current Fasly, it will be proper to add to the renters engagement the sum of Rupees 2,000 - - - which was deducted from his offer conditionally on private Gardens being excluded from his rent -

The Collector is informed that the arrangements submitted in his letter of the 26th April last have been laid before Government with the Board's recommendation that the measures therein suggested regarding Palmira and Cocoa trees and plantation might with some modifications be carried into effect. The orders of Government upon the subject shall be communicated as soon as received. From G.A. Smith Esqre
Collector of Nellore

I have the honor to state for the information of the Board of Revenue that at the time of the Jamabundy Settlement of Fusly 1257 just expired a Ryot named Cautumreddy Ankereddy complained of the concealment of certain lands in the Village of Cooroogondah in Cottah Talook. On an examination of the lands it was proved that land assessed at Rupees 21-14-2. was concealed from the Circar accounts which sum has been collected and carried to account with the exception of Rupees 5-7-6 (being 25 per Cent of the amount proved) which has been credited to the Head of Deposits. This concealment was an excess found by measurement in certain cultivated fields and the quantity ultimately found was much less than that suspected and charged. twenty five per cent therefore appears an equitable award and I beg therefore to

to recommend for the sanction of the Board that the above sum of Rupees 5-7-6 be allowed to the informant Cautumreddy Ankereddy with reference to the orders of the Board dated the 23rd September last.

to the Presidency by sea. The usual sum available for remittance on one occasion from this District is 3 Lacs of Rupees, which requires 50 Boxes each box holding 6000 Rupees, and it is further necessary that a like number of spare boxes should be on hand for the alternate voyages of the Steamer. Thus a hundred Boxes is the lowest number required though the transmission of uncurrent Copper Coins and occasionally a small increase of remittance may render rather more desirable.

2. Besides the fifty boxes sanctioned under date the 13th July 1847 I was obliged to make Twenty two additional boxes to meet two remittances already made by sea of which total number Forty two are here and thirty at Madras, but the whole have not exceeded the former Estimate as no proper wood having been obtainable here, I was obliged to make use of some Mangoe trees and the actual charges have been included in the Bills for charges on remittances.

that I have not yet replied to certain enquiries contained in the Board's letter dated 18th March 1847- In reply I beg to state that although there was a great delay on the part of the Trustees of the Conderg Pagoda in making their appearance before me yet the property had been made over to them before the receipt of your letter.-

2- In regard to the enquiry which the Board remarked I have not yet replied to.- I beg leave to state that the Board in the letter above alluded to referred to Condreges or lands the sum payable on which to the Government might fluctuate in each year but on the other hand it was stated "if the amount payable to Government does not vary but is a fixed sum payable under all circumstances. these Condreges also may be made over immediately."

3- In my letter to the Board dated the 1st October 1847 I informed the Board that the landed Estates of three institutions had been made over to the Trustees and those of the only remaining one would be disposed of in the same way as soon as practicable.

4 The Condreges included in these Pagoda Estates all pay a fixed sum under all circumstances and in cases in which the amount payable does not vary in each year the Board's orders above alluded to appeared to direct in plain terms that they might be made over immediately, the Condreges were put in posfession of the Trustees and no communication to the Board was considered necessary- I now regret however that I was not aware that the Board expected a communication from me on this point otherwise it would have been submitted earlier.-

× From the Coll.r to the Board dated 4th Sept.r 1845. From Board to the Coll.r dated 20th October 1845.

3 The Enam in question being "Khyratee" is as the term itself implies a charitable grant, conferred by the former Government and continued under the same designation when the District was ceded to the British Government. The origin of the Enam has been fully treated on in the correspondence noted in the margin.

4 The Defendant Assud Saheb uncle to the Petitioner has filed two Summuds - one dated 15th Rajab Fuzlee 1112 granted by Nujeebood Khan on behalf of the Nabob Arlungeer on Badshaw to Hafeez Shaik mohadeen confirming a former Summud granted by Khan Koosarozjung, in which 1 Rupee in ready money and 1 Chunar of land had been bestowed as charity for the purpose of performing the Office of Enam also Ceremonies attendant on the Festival called "Khoodba". The other document was granted by Abdool Kalee Khan, Nabob of Cuddapah dated 16th Rubbie Awel Fuzlee 1122 A.D. 1806 continuing the Enam agreeably to the former Summud.

The two former live undividedly in their own Village the latter at Seringapatam.

6 It appears from the investigation now personally instituted that the claimants Father died 5 years previous to his (Petitioners) Grandfather, and that on the death of the latter the Enam reverted to his uncle Assud Saheb the younger Brother of his Father all Parties being at the time an undivided Family - The claimant as eldest son of the elder surviving branch of the Family is in my opinion equally entitled to succeed hereditarily to the Enam notwithstanding his Father not having had possession

posession in consequence of his not having survived his Claimants Grand father. My Revenue Moonshee previously misled me in respect to the son having survived the Father but as carelessness can only be attributed to him he has been admonished and cautioned for the future. The circumstances attendant on the Defendant retaining posession for so long a period, are detailed in my Endorsement to the Petition No. 6 of 1848. Dated 30th May last. The period intervening the death of Petitioner's Grand Father and the date on which Petitioner 22 years ago enlisted as a Sepoy was 3 years, during which he and all the other members of the Family resided with his Uncle Asud Sahib.

The Board of Revenue beg to express their opinion that under the circumstances represented by the Collector the Petitioner is entitled to participate in the Enams in question. It is observed that in his Endorsement (Para 3) upon Petition No. 260 of 1848. Mr. Cochrane states that in his judgment Sheik Mahomed has a right to the whole of the Enam although he only claims a half of it - as however there would seem to be several individuals entitled to share in the proceeds of the lands the Board would recommend that their respective shares be determined by Arbitration through referees chosen or approved by the parties themselves.

It would further be remarked that the English dates given by the Collector as equivalent to the two Mahomedan years mentioned in Para 4 of his letter are incorrect Hejrah 1112 answers to A.D. 1700-1 and Hejrah 1122 to 1710-11 of the Christian - The "Nabob Aulumgeer Padshah" must be the Emperor Aulumgee or Aurungzebe.

Affording further information called for in the Board's Proceedings of 13th July 1848 on the subject of Petition No. 1907 of 1847.

2. The records of the Office do not shew by whom the Jaghire Enam in question was conferred upon Vengappa Naidoo nor can it be ascertained who the original Grantee was.

3 The Tahsildar reports that the said Vengappa Naidoo being in possession when the survey of the District was made, the Enam which then amounted to Rupees 106-11-5 was held under attachment and entered in the Survey accounts some doubts it appears then existing as to the validity of the grant. The Enamdar having on this preferred his complaint to Colonel Munro, an enquiry was instituted and a portion of the Enam was continued in Jaghire in the name of Vengappa Naidoo and entered

entered accordingly in the Enamity Accounts prepared in Fusly 1220. The original order of Colonel Munro is however not forthcoming.

Ramakka has never had any participation in the Enam since her husband's death, and returned from Bellary as it has now been discovered about 15 years ago the Tahsildar having been misinformed by the Village officers on this latter point and consequently having represented what was at variance to the fact. The misconduct on the part of these Officers will meet with the notice it deserves.

is shewn by an Original Summud to have been granted by Panjyah Pillay Dewan of the French Government, on Shrotriumm tenure for 60 S. Pagodas annually to Devasecanmony Pundaram residing in the Mutt: situm situated at the Cusbah Village of Siruculcheecoonum. This summud is dated the 20th of Rujul in the fifth year of the reign of Mohomed Shaye. The equivalent English date to this as to that of the Purwanah under which Audumcoopum is held are not known but if as appears probable the Mohommed Shah mentioned in both documents to mahomed Shah Emperor of Delhi grandson of Shah Aulum and contemporary with the Nawaub Anaverdeen Khan as that prince died in A. D. 1750 both grants must have been anterior to that date. In neither grants are the terms on which it was made stated nor is the object particularized unless the circumstance of the grantee in the Reddycoopum summud being designated as a Pundarum and as residing in the Muttum can be considered to imply that it was given for the support of that institution.

From

4. From an original Jarce Summud issued by Mr. Dighton Superintendent of the Daghire farms on the 10th. September 1785 it appears that on that date the Village of Reddycoopum was enjoyed by one Devase cannany Pundarum on Shrotriem tenure at a Rist of 70 Pagodas. From an original Takeed and receipts granted by the same Officer in 1789 and 1790 Andumbankum also is shewn to have been in possession of the same individual and on similar tenure. In the Register of the alienated Villages prepared by Mr. Sullivan the Collector in 1815 both Villages are stated to be hereditary. The annual Jodee payable on Andumbankum being 62 Pagodas. ₹ 15 8 ℄ that on Reddycoopum 105 ₱ ₹ 31 50 ℄. The gunt rent of this last Village is still the same that of Andumbankum was reduced under orders of Government 24th. June 1817. to Rupees 108 15 2 in consequence of some of the lands attached to it having been taken up for public purposes connected with the cantonment of St. Thomas Mount.

In Cons. 1st July 1817.

5. In his reply to a reference made to him by the Board upon the point the

the Collector states that grants obtained from the former Mahomedan Government do not generally specify the terms and purpose of the endowment. It seems however that the proceeds of the Villages now in question are applied to the support of certain Matum and to purposes connected with those institutions. The party to whom the grant was first made and those by whom it has since been enjoyed are all Pundarums or of that order of men of whom such establishments as Mutturns are usually composed. They have all borne the same name Devasega cannany Pundarum the name of the original grantee having been assumed by each of his successors.

6. Under these circumstances the Board are induced to recommend that the Villages may be continued to the present applicant and registry made of them in his name.

Sir

With reference to Para 3 of Extract

12957 Fort St. George 14th. September 1848

Extract from the Boards' Proceedings under date the 9th. June 1848. requiring me to afford explanation respecting the differences in the Beriz of the Yalagherry and Savady Hills and to state whether the Statement No. 1 forwarded with my letter of the 8th. April last was intended to apply to all the lands on these Hills, and if not to what portion and why a complete Return has not been furnished; I have the honor to state that the Statement submitted with my letter of the 8th. April last, exhibiting the Number of Ploughs and Hoes employed by each of them, and the respective extent of cultivation classified according to the different descriptions of soil, and the produce of each put out for Fusly 1256 A. D. 1846-47 compared with Fusly 1252, comprises only 80 cultivating Ryots, of whom 27 till their ground with Hoes. These Ryots were selected from only 50 of the Hill Villages (perhaps one or two in a Village) merely to exhibit the greatest and the least quantity of land cultivated by one plough and one hoe by one individual. This was taken from the Accounts

Accounts of the Carkoon and Curnum who were sent to the Hills for the purpose. To prepare similar accounts to shew all the lands under cultivation on these Hills - a sufficient number of Sibbendies should be entertained and it would take up about 6 months.

Proceedings thereon.— In their Proceedings of 7th December 1846 the Board of Revenue directed that the mode of Settlement for the Javadi and Yalagherry Hills in the Salem District which had obtained prior to Fusly 1253 co should be reverted to. They did not approve the Collectors' suggestion for a survey and classification of the lands upon those Hills, but they requested him to report more fully on the quality of the land there, to what extent it varied and how many rates would provide for the different descriptions of soil. Under date 22d September 1847 the Collector was also desired to report upon the subjects referred to in Para 14—15—16 of a communication from Captain Best on the Yalagherry Hills. The Collectors of Chingleput and North Arcot were likewise called upon on the same date and in reference to the same communication to state whether Teak and other valuable timber trees grew on any of the Hills of their Districts and if so to submit a report

report upon their extent and present condition and upon the measures required for their Conservancy. The papers above recorded are the replies to those requisitions.

On the subject of the Javady and Yalagherry Hills, the Collector has submitted two reports from his Head Assistant Mr. Dykes as also a "Statement exhibiting the number of Malialies carrying on cultivation, the number of Ploughs, and Hoes employed by each of them, and their respective extent of cultivation classified according to the different descriptions of soil, and the produce of each patent, for Fusly 1256. 1846-47. compared with Fusly 1252." This Statement it however appears from Mr. Lockhart's letter of 15th August 1848 does not include all the Hill cultivators but comprises only 80 Ryots, 29 of whom till their grounds with hoes, selected from 50 of the Hill Villages.

The soils are classed as

extent of land cultivated by one plough are given at acres 21. 1. and 4. 25 respectively that by one Hoe acres 4/2 and Goontahs 18, but these rest entirely upon the assertion of

Instns 14th Sept. 1848.

of the Hill people and obviously cannot be depended upon. The Collector remarks that no Ryot could cultivate with one plough or one hoe to the extent here stated, and that the actual number of the ploughs and hoes must therefore be concealed by the Malialies. "Considering however the very unhealthy nature of "the Hills, so feverish that for many months "only those acclimatized to them can possibly live, he is not inclined to recommend any interference with them in regard to surveying or fixing any regular "assessment". In the justice of the conclusion the Board quite concur. From the nature both of the country and climate a survey must be a work of time and difficulty and would have to be made at an expense altogether disproportioned to the revenue of the lands to be surveyed, the amount of which it is observed

For Fasly 1256 (1840/47) was for — —

5. Even the Statement furnished by the Collector on the 8th. April last is imperfect being as already noticed confirmed to 80 rupees which

with a cultivation of 768. 14. 14. acres but it is represented that "to prepare similar accounts to shew all the lands under cultivation on the Hills, a sufficient number of "Sibbendies should be entertained and it "would take up about 6 months". This however the Board are not prepared to recommend. With the concurrence of Government they have already directed that the mode of settlement which obtained prior to Fasly 1253. (1843/44) be reverted to. Under that system the demand was regulated according to the circumstances of the ryot, that is generally in reference to the extent and nature of his cultivation. A mode sufficiently well suited to the condition of such wild and insalubrious tracts of country. The information gained during the late examination will it is hoped, prove of some use as a check upon the accounts to be henceforth furnished by the hill people.

6. From the report furnished by the Head Assistant Collector it appears that wheat is grown upon the Jawadi Hills to some extent. The quantity raised upon the Yalagherries is not considerable. It is supposed by Mr. Dykes that the cultivation in both tracts is checked by

by the high assessment. He has submitted a statement shewing the revenue derived from each of the wheat growing villages since Fusly 1231, the average assessment per plough in each Village and the proportion of wheat grown in it. Whence it will be seen that the increase in the revenue up to Fusly 1253. has been greatest in Beemacollum where the assessment is lightest, while in the other Villages it has been nearly stationary or shewn only a slight increase. On this however it is to be remarked that as the returns of the number of ploughs on the hills cannot be depended upon and the Settlement as already shewn is made upon the extent of land in each ryot's holding and not upon his ploughs. the average teerwah falling nominally on the plough furnishes no accurate Criterion of the actual pressure of the assessment. Again it is admitted by Mr. Dykes that in Beemacollum where there is a far greater proportion of wheat grown than in the other villages, the land is much higher with good soil naturally better suited for that crop. that the village is comparatively healthy

and

and the low country people are able to live there. He elsewhere allows that from the want of either main or cross roads. the ravages of wild animals in a salubrious nature of the climate and consequently slow increase of population, the cultivation could not be expected to extend rapidly tho' the land tax were lowered. It seems to the Board doubtful how far the Station: ary condition of the cultivation is attributable to the various causes enumerated and how far the weight of the land assessment.

Para 6. at the same time the fact noticed by the Head Assistant Collector that in the Galagherries "many ryots are obliged to take a crop of "Punny Varagoo out of the land before the "Wheat is put down by which the quality of "the latter cop must be deteriorated:" does appear to indicate a high rate of circar demand and the Board under all these circumstances will not object to the Collector making such reductions in the teerwah on the lands of the Savadi or Galagherries whether appropriated to raising Wheat or other grains as may seem to him to be called for, and likely to promote extended Cultivation.

Mr.

7th. Mr. Dykes recommendation for the repair of the Pongavarre Tank on the Galagherries at the trifling expense of Rupees 18-2. should be carried out, and generally, the measures requisite to provide a supply of water in any part of the Hills for the use of the inhabitants and their cattle should receive attention. Arrangement should also be made thro' the Heads of Villages to preserve the Teak and other valuable forest trees, and prevent their being felled below the proper size, or without due authority.

8th. In reply to the references made to him on the subject of the Teak and Timber Trees of his District, the Collector of Chingleput has stated that there are none in it of much value. From the report from the late Acting Collector of North Arcot it appears that there are but few Teak trees in the Jungles of that District, and that the supply of other timber is but scanty. Great waste has been committed in the felling of such trees and Mr. Lovell has made arrangements for placing them under the conservancy of the Village Officers, which are approved, and the Board doubt not will be followed up by his successor. It is hoped that the rules recently sanctioned for the encouragement of planting will be productive of benefit in this as in other Districts, but the Board see no reason at present to recommend any outlay on the part of the Government either for raising plantations or for carrying out measures of conservancy in North Arcot.

Ordered that copy of the foregoing proceedings with the exception of the last paragraph be furnished to the Collector of Salem in reference to his letters of 8th. April and 15th. August last, and that the concluding Para be communicated to the Acting Collector of North Arcot in reference to his predecessor's letter of 15th. March 1848.

Sir,

I have the honor to submit a Statement shewing the extent and particulars of land applied for by individuals for cultivating Coffee and for building on the Shevaroy Hills, agreeably to the orders of the Board dated 1st. December 1842; in conformity to the Sulyar published, the Native Inhabitants of the Hills were made acquainted with the offers made and have signified their consent for its being given to the Applicants.

The 24 and odd Acres applied for and included in the Statement are immemorial waste lands, but the applicants for Acres 3 and 1-1-4 respectively have agreed to pay full Teerwah from the date the lands are granted to them, the remaining 20 acres being waste beyond 20 years are to be given free of assessment for five years. This being in accordance with the instructions of the Board under date the 5th. September 1842, I solicit an early sanction.

Proceedings thereon.—

Requesting the Collector to send for the Revenue defaulters whose lands he has recommended for sale, and inquire into the cause which have led to the default in each Case, and report the result of the investigation in each separate Case accompanied with the information required on the points noticed by the Board

This number of Revenue Defaulters in the Talooks of Salem, Sunkierry droog Trichen=gode, Razepoor, Woomaloor, Dhurmapoory and Krist=nagherry as reported by the several Tahsildars is 19. and the amount of arrears of Revenue due from them for Fuslies 1254-55. and 56 are respectively Rupees 24-14-4-157-" 4. and 305-8-4, making in all a balance of Rupees 487-7-"- This amount is proposed to be recovered by the Sale of their lands bearing in the aggregate an assessment of Rupees 430-11-7 and of an estimated value of Rupees 370-2-0 which falls short of the whole amount of the outstand=ing balances in question by Rupees 117-5-"

No explanation is given in the Statements, nor in the letter, as to the Circumstances under which the balances have arisen, or the necessity for a Sale, except that it is represented generally that the Tahsildars report that they are unable to recover the balances due by the Defaulters, who have sold and otherwise made away with the produce of their lands, and con=cealed all their moveable property, and pre=tend to possess no other than the said lands.—

Referring to the Statement of particulars, it appears from that marked No. 2. that of the 3 defaulting Ryots on the

12988

Fort St. George 14th September 1848.—

the Sheroroyes, No. 1. has paid no assessment for two, and No. 2 for three Fuslies Statement No. 5. also exhibits the Case of the whole Puttah Beriz of a Ryot during the successive Fuslies 1255 and 56 out=standing against him— Mr. Lockhart will state under what circumstances these balances arose, why earlier measures were not taken against these individuals, and why they were allowed to hold for another year land for which they had paid no kist whatever in the preceding. Against Ryot No. 3, Statement No. 2 there is a balance of Rupees 13-13-2 due of Fusly 1254. out of a Puttah to Govern=ment in Fusly 1254. out of a Puttah Beriz of Rupees 49-12-1 It is not stated whe=ther this man has paid the public dues in full for Fusly 1255. and 56, nor why the balance of Fusly 1254 was allowed so long to lie over— The Board wish for information on this point.—

The balance outstanding against Soobbiah, Ryot No. 2 in Statement 11 amounts to Rupees 26-1-10. and his holding measuring Acres 11-6-3 bears and assessment of Rupees 32-5-6 the estimated value of which is the trifling sum of Rupees 1½— If such be the Case, it does not seem how these lands could have been held till Fusly 1256. or what they could be expected to realize at a sale.—

The

12989 Fort St. George 14th September 1848.

The Puttah Beriz for Fusly 1256 of the holdings of Ryot No. 51 in Statement No. 14 is Rupees 74-5-9 and the assets against it consist among other items of a remission for Shavy to the extent of Rupees 11-9-8 This item should be explained.—.

Remarks similar to the foregoing occur to the Board in reference to several of the other Cases entered in the advertisements Before sanctioning the sales, therefore they require that the Collector will send for the defaulters and inquire into the causes which have led to the default in each instance, reporting the result of his investigation in each separate Case, and stating whether in some, arrangements might not be made for the liquidation of the balances by instalments, whether in others, the arrears or a part of them might not be recommended for remission, and whether in some the course indicated in Para 47 of the Hookoommanah might not be followed, and the parties be continued in the possession of the lands cultivating them under the surveillance of the local Native Revenue Officers, till the public demand is discharged.—.

From the Coll.r of South Arcot

Requesting Sanction for removing Baboo Row from his Situation of Tahsildar of Villapooram for repeated neglect in the discharge of his Police duties.

Sir,

I have the honor to report for the information of the Board that I have been obliged to remove Baboo Row from his Situation of Tahsildar of Villapooram for great

great neglect in the discharge of his Police duties under the following circumstances.—

2 A case of murder was perpetrated in the village of Annangoor in August 1847 within a few miles of the Cusbah. Had the Tahsildar not neglected to repair forthwith to the Village, and institute a strict enquiry into the case from what came out in evidence at an investigation into the matter lately held by the Acting Head Assistant Magistrate there is little doubt of the parties concerned in the case being brought to justice He further omitted to bring the circumstances to my knowledge until the 32d Ultimo. or nearly a year after its occurrence when he reported it without assigning any satisfactory cause for the extraordinary delay.—

3 In addition to the above; I have also had much cause to be dissatisfied with Baboo Row's administration of his Revenue duties.— He has allowed large outstanding balances to accumulate in his Talook; and on one occasion when certain property distrained by a Writ of the Civil Court, had been sold, the

the claim of a private Creditor was allowed a
a preference to the Government demand, a
which could not have occurred, had the Tahsildar
exercised common promptitude and activity
on the occasion.—

4. It may not be out of place to re
notice here that Baboo Row while Tahsildar
of Trinomallie was suspended for the space of
3 months by order of the Foujdaree Udalut,
he having on that occasion been guilty of
neglect in the discharge of his duty which
called forth the strongest censure of the
then Session Judge.—

5 Under the above circumstances
I request the Board will authorize Baboo Row's
removal from Office from the 29th July last, the
date on which he was relieved from his duties,
and which I refrained from reporting to the
Board until the investigation held by my Head
Assistant was brought to a conclusion—

Resolution thereon.—

55-56

Under the circumstances represented by the Collector, the Board authorize the removal from Office of Baboo Row Tahsildar of Villapooram to have effect from 29th July last. They observe however that the reasons assigned by the Collector for his neglect of the orders dated 9th May 1835 are insufficient. The face of the Tahsildar having been relieved from the performance of his duties should have been notified to the Board within 15 days after the circumstance occurred. The result of the enquiry held by the Head Assistant Magistrate might have been reported afterwards.—

In compliance with the endorsement of the Board I have the honor to report on Petitions Nos. 1307 of 1847 & 1147 of 1848 from Mullammaul, widow of Mootoo Linga Naick, the last Zemindar but one of Nattum praying that the Zemindary which was incorporated in the Jeyn lands in Fusly 1209 as an escheat, may be given to the Zemindar of Ettiapooram.-

Reporting on Petitions Nos. 1307 of 1847 & 1147 of 1848 and forwarding copy of a letter from Mr. Fischer on behalf of the Zemindar of Ettiapooram claiming succession to the Nattum Pollipet.

2

The last Zemindar of Nattum died in 1799 without issue and it will be seen from the correspondence noted in the Margin, that the succession was contested by Shotrien an illegitimate son of his father and Mootoo Lingama Naick the brother of a person alleged to have held the Zemindary by the appointment of Yoosuf Khan an Officer of the Nabob. On the 1st December 1799 Mr. H Curdis made a full report on the claims of these persons, which were pronounced invalid, the Zemindary assumed and 700 Gopauls Chuckrums per annum granted to the family of the

the last Zemindar, and 500 Chuckrams to Shokien. At the same time the Government observed, that if any person remotely connected with the family should be disposed to receive the lands on the intended terms of zemindary tenure they would think the arrangement preferable to the retention of the zemindary in the hands of the Company.

3. From hopes founded on these observations of the Government, the Ettiapooram zemindar preferred a claim successively to Messrs. Parish, Vieyash and Wroughton. His application to the first Gentleman received no answer. Mr. Vieyash rejected the claim as inadmissable with reference to the fact of the zemindary having been incorporated in the Ayen Lands; and Mr. Wroughton stated that he would consider the case if directed to do so by Superior Authority.-

4. The grounds of the claim of this Zemindar are set forth in the accompanying Petition to Government* illustrated by a Pidigree. It is asserted that the Ettiapooram and Nuttom Zemindars were

*With letter from Mr. Fisher dated the 17th Feb.y 1848.

were descended from a Common Ancestor, and that failures in the line of the Nuttom Zemindar have been supplied by younger Sons of the Zemindar of Ettiapooram. The verification of these assertions relating as they do to periods considerably antecedent to the Company's rule, and to facts of a private nature, would be I imagine a task very difficulty and unsatisfactory if not impracticable, and I do not think it necessary to attempt it without the Board's orders.-

5. I beg however to point out a difficulty which occurs at the bottom of the Pedigree. In the Tree given on behalf of Sokhien† the name of the father of the husband of the Petitioner Mullammal is stated to have been Coomara Lingama Naik, the son of an illegitimate son of Pondee Lingama Naik. In that enclosed in the Petition of the Zemindar of Ettiapooram, Mullammal's fatherinlaw is stated to have been Emoody Lingama Naik son of a Zemindar of Ettiapooram, and Coomara Lingama Naik's name is not mentioned among the Zemindar's of Nuttom. On reference however to

†Enclosure in Mr. Hardis letter dated 1st Dec.r 1799

Fort St. George 14th September 1848.-

to Mr. Hurdis' notes to the declaration of Veneatachallum enclosed in his letter of the 1st. December 1799, it will be seen that he treats Coomara Lingama Naick as a real Zemindar who held the Polliem 35 years and died in 1788/9.

6. Adverting to the Superior means of ascertaining the truth which existed in the time of Mr. Hurdis and Mr. Parish, and the apparent neglect of the Ettiapooram Zemindars to petition superior authority on receiving Mr. Broughton's endorsement, I am not disposed to attach credit to the pedigree he has presented, and, if true, I do not think that it would confer a valid title to the Zemindary. The preference of Zemindary tenure over Ryotwar no longer, I apprehend, exists, and I am sure that the Ryots would feel the change as a great hardship.-

7. In conclusion I beg to draw the attention of the Board to a fact important as evidence in regard to the mode of succession to Zemindars of the Cambalum Caste

Fort St. George 14th September 1848.-

Caste Viz.t that Mootoo Lingama Naick having a Widow was succeeded by his Brother, and that on that Brother's death, no claim appears to have been then put in on behalf of the Widow of Mootoo Lingama Naick. Throughout the correspondence Mr. Hurdis' does not appear to have supposed that there could be such a claim

8. The Pensions now drawn by the Families of the Nuttum Poligar are as follows.-

Sir,

I have the honor, as his Agent under Power of Attorney, which accompanies, to hand you a Memorial to the address of Government from the Zemindar of Yettiapooram in person renewing and repeating his claim to the Zemindary of Nattum in this District, and to request you to transmit the same, with such remarks as you may deem necessary. I shall be prepared, whenever permitted to submit the needful evidence to substantiate the claim.

Governor in Council
Fort St. George

The humble Memorial of Jaggamera Rowa
Coomara Yettappa Naicker, Zemindar of
Yettiapooram in Tinnevelly.

Sheweth,

1. That your Memorialist is the present

present and 23d Zemindar or Polligaur of Yettiapooram. -

2. That the Zemindary or Pollicem of Nattum in the Neighbouring District of Madura was long held and enjoyed by a line of Zemindars descended from the same Common Ancestor as your Memorialist and his predecessors, and the rights of Consanguinity were so well and publicly known, recognized and observed in and between the two families; in when Emmoody Lingama Naicke the 7th Zemindar of Nattum died without issue, and his line thereby became extinct, the 3d Son of the then living Zemindar of Yettiapooram, the 16th Zemindar, succeeded as of right to the Nattum Zemindary. -

3. That this 3d Son's Name was also Emmody Lingama Naicke, and that he left two sons Moottoolingama Naicke and Emmoody lingama Naicke, neither of whom left lawful issue, whereby their line became extinct in 1799. -

4 That various claims were set up by illegitimate descendants and persons pretending to relationship, but the that their claims being investigated by the then Collector Mr. Hurdis were found utterly unfounded; and that he so reported to the Board of Revenue, and the Board to Government who

who therefore declared the Zemindary escheated to Government, and assigned various allowances to the female and illegitimate relatives of the deceased Zemindar, which with various alterations, have been continued down to the present time.-

5. That the Government, tho' it thus declared the Zemindary escheated, for want of a legitimate descendant of it's last immediate possessors, was not desirous of retaining the Zemindary in it's own possession, but rather of transferring it to any, however remote, relative of it's possessors, who would hold it on Zemindary tenure, as appears from their letter of the 16th March 1800.-

"He concurs in your recommendation and accordingly desires that the Poliem of Nuttum be declared to have escheated, in default of regular issue, but if any person remotely connected even, with the late Poligar's family should be found disposed to receive the Estate on Zemindary tenure, it would be preferable to give them up the Poliput to retaining it by Government."-

6- That this declaration of the intention of Government is still on record, and has never been cancelled- that it has been always appealed to by the Numerous claimants, chiefly the illegitimate descendants of the last Poligar of Nuttum, who died in 1799, who have made repeated efforts to make themselves out fit persons to be put in possession of the zemindary and

and has never been questioned by any Collector or other Officer of Government or denied to be in force.-

7. That your Memorialist himself solicits to be informed whether the existing Government recognizes and wishes to adhere to the sentiments there expressed, as he labors under great uncertainty on this point from the fact that this his Grandfather, while actual Zemindar of Yettiapooram, preferred his claim on the 5th June 1807, and his father also while actual Zemindar of Yettiapooram preferred the Collector to the Governor in declaring their ability to prove that they satisfied and came under the description given in the letter of Government of 1st March 1800, and requesting the benefit of that declaration of Government. No attention what ever was paid, nor any enquiry made whether they were well founded.-

8- That it is possible that this result may in no small degree have arisen from the incessant trouble given and clamour raised by the illegitimate Claimants above alluded to, each successive generation of whom reiterated the assertion of their legitimacy and obtained Official enquiries on the point without

without at all altering the facts reported in 1799 by Mr. Collector Hurdis, on which Government pronounced the decision above quoted / and failing in their first object began over again on the subject of allowances and of the Sub Division thereof.-

9. That your Memorialist at present is chiefly desirous to be informed, whether in the event of his fully satisfying Government that he fulfils and satisfies the description of person alluded to in the Government letter of March 1800, Government is still willing to act on the intention there expressed, and to grant him the succession to the Zemindary.-

10. That while in doubt on this point your Memorialist feels it would be misplaced to fatigue the attention of Government with the Mass of evidence, chiefly Official Documents, which he is ready to produce, should an enquiry be granted him, but will simply add a short Statement of the outline of his Case.-

11. Your Memorialist being and his father and Grand Father / the first who preferred a claim, on the 5th June 1807 under these Government letter of March 1800 / having been before him the actual possessors of the Yettiapooram Zemindary, and repeatedly acknowledged as such

such by Government and its Officers, he imagines that no doubt can exist, or evidence be required on this point, or as to their legitimacy-

12. As to their Connection with the Nattum family he can prove a Genealogy that would satisfy any English Court of Justice. The relationship is at present distant, no doubt, owing to the Numerous descents cast since their first common Ancestors settled in Southern India, the last Poligar of Nattum who died in 1799 having been the 10th holder of that Pollicem, and your Memorialist being the 23d. professor of the Yettiapooram, and the 24th. descent from Common Ancestor, but tho' the Connection is thus remote Your Memorialist submits that if clearly made out it nevertheless fully satisfies the terms of the Government letter of March 1800, which expressly says that "if any person remotedly connected even with the family shall be disposed to receive the lands on Zemindary tenure, &c." and tho' your Memorialist's connexion be remote, it is clear and distinct, and the only one in existence.-

13. Your Memorialist's Ancestors have been invariably faithful to the Honorable Company since its establishment in that part of Southern India, and your Memorialist

Sir

I am directed by the Board of Revenue to submit for the Orders of the Right Honorable the Governor in Council the accompanying letter dated 17th Ulto from the Collector of Madura reporting upon certain Petitions relative to the claim advanced by the Yettiapooram Zemindar in the Tinnevelly District to the escheated Estates of Nattum in Madura.—

The circumstances of the case are fully explained in Mr Parker's communication. It seems therefore only necessary to observe that the present claimant on his own shewing is very remotely connected with the late Nattum Family, being by his own account the 24th in descent from the common ancestor, that the pedigree which he has brought forward extending as it does over more than twenty generations is scarcely susceptible of verification in one important particular that

Submitting letter from the Collector of Madura reporting on certain petitions relative to the claim advanced by the Yettiapooram Zemindar in the Tinnevelly District to the escheated Estates of Nattum in Madura suggesting that he be informed that his pretensions to the Nattum Estates are totally inadmissible and that the request of Nullemaul for the payment of her pension to the Zemindar be not acceded to

if the father of Mootloo Lingamah Nachiar's husband of Nullumaul, it is at variance with the accounts given in the enquiry before Mr Burdis in 1799 that in reply to a reference from this Office 19th December 1799 on that particular point Mr Burdis (30th January 1800) expressly stated that there were "no legitimate relations whatever of the late Zemindar of Nattum" and that the result of any fresh investigation made after the lapse of so many years is not likely to be more satisfactory- and lastly that whatever might have been the opinion of Government in respect to the merits of the Zemindary System, and whatever their views in regard to the disposal of the Nattum property in the year 1800 had any applicant with such claims then presented himself, the case is altogether altered now that the estate has for nearly half a century been incorporated with the Government lands, and the ryots from their experience during that period of the advantages of direct Sircar superintendence would (as represented by

by the Collector) consider their transfer to the management of a Zemindar as a great hardship.—

Under these circumstances the Board of Revenue would suggest that the Yettiapooram Proprietor be informed that his pretensions to the Nullum estates are totally inadmissible. They would also advise that the request of Nullumaul for the payment of her pension to the Zemindar be not acceded to.—

Sir,

Reporting on Petition No 770 of 1848.

1. In accordance with the Board's Endorsement, I have the honor to report on Petition No 770 of 1848.

2. The Petitioner who is Village Tolly, prays that his opponent may be made to give him the Melwaram of 1256 and not to interfere in the possession of his Enam for the future.—

In

3. In this District, the Enamdar and the possessor of the Enam land are frequently different persons, the Enamdar in such cases being considered to have a right only either to the Melwaram or the Government Teerwa on the lands.—

4. How this has happened in all cases I am not prepared to say. In some, the Enam has been granted when the land was already in cultivation, and consequently in the undoubted legal possession of another person and here it is clear that all that the state intended to give was its own right to the Teerwa. In others the cause of the separation of property in the particular land is not at all clear, but being of long duration, has been held to be legally Established.—

5. In the present instance the Petitioner's Defendant states that the Petitioner Mortgaged his land to him, Mr Blackburne enquired into the case several times and passed several orders on it.— By the first he referred

referred both Parties to the Civil Court but subsequently on 21st August 1845 he decided, that, altho' the Defendant and present Petitioner is hereditarily entitled to the disputed Maniem land. Yet as his adversary had enjoyed for a long time the Coodywaram Share in virtue of a Mortgage he should pay the Petitioner either the Melwaram or Teerwa. On 26th July 1846 he directed that Petitioner should obtain the Teerwa for Fasly 1255 and the Melwaram for subsequent Faslies. The Complaints being renewed to me I have decided in like manner that the Petitioner shall receive the Melwaram, but as the Tahsildar reports that in a bad season the Petitioner demands Teerwa and in a good one Melwaram, I have directed him to call upon the Petitioner to make his election once for all and to abide by it.—

Sir,

I have the honor to acknowledge the receipt of your letter of the 24th ultimo requiring me to explain why if Mahomed Omar is still in existence and received his Allowance, his name is not entered in my Statement of the 5th December last as one of the sharers of the grant.

2. In reply I beg to inform the Board, that the Statement in question was copied from a List furnished in Mr. Blackburn's letter of the 1st May 1835, which contains the name of Gholam Nauce paternal uncle of Mahomed Omar. The substitution of the latter on the death of the former under the sanction of Government of the 10th May 1844, was not brought to my notice; I have the honor, now to furnish a corrected Statement.

3. It appears that all Jeomiahs whether granted for religious Institutions or simple Charity, have in this District been always included in the list of charitable allowances furnished to the Civil Auditor. I will enter into correspondence with that Officer for the purpose of rectifying the accounts in this respect.

a sufficient Number of Pensioned Sepoys resident in the Madura District from whom an efficient force might be enrolled, and if not what measures I would propose to adopt for levying the required force.

2. In reply I beg to state that the present strength of Regular Troops in Madura is 2 Companies at the Town of Madura, one Company at Ramnad, and one Company at Dindigul, to replace which not less than 4 Companys of Pensioners at 100 Men each or 400 altogether, including Native Officers would be required. This number at Rs. a. p. 2-12-9 each would involve a charge of 1,118-12-0 per Mensem or 13,425-0-0 per annum. but I should suppose that some addition must be allowed for Officers.

5. I think it very essential that the Company Stationed at Ramnad should be commanded by a European Officer and distinguished from the people by a uniform. In any conjuncture requiring the interference of Troops, and the want of Troops might give rise to such a Conjuncture, their fidelity would be exposed to trial from sympathy with the people and bribery. all means taken to keep them distinct would serve to Counteract these temptations, and no one accustomed to the Natives will doubt the moral effect of the dress of the Soldiery as a check on the populace.

6. In the towns of Madura and Dindigul these points are of less consequence I should be glad however of one or more European officers if they can be conveniently spared. If not, it might be permitted to me perhaps to move a portion of the Pensioners to aid the ordinary Police in various parts of the District on emergent occasions; and the great convenience that would arise from this permission almost induces me to refrain from pressing the appointment of European Officers. Native or European non-commissioned officers could not be dispensed with and I would recommend the

the dress of the Pensioners being assimilated as nearly as possible to that of the Native troops.

7. In regard to discipline I would wish to be informed whether Pensioners would be subject to the articles of War or to any special Rules. The mere fear of dismissal would I should fear prove a very insufficient restraint to so large a body of Comparatively idle men.

8. I beg to remind the Board that lines are nearly completed at Madura at a large expense for 2 Companys of Sepoys and that a Magazine, Hospital and Shelicine Barracks are under Construction at Ramnad.

From the Principal Collector of Coimbatore ... Sir

I have the honor to acknowledge the receipt of your letter of the 14th Ultimo relating to the proposal to substitute Invalids as guards for revenue purpose in lieu of the Troops of the line now employed generally on that duty throughout the Provinces.

2. Regular Sepoys are employed in this District at the Huzzoor Treasury Jail of the Session Court, and at the out posts of Walliar, Nadooponey and Mullagoundenpoodoor on the Malabar Frontier, the numerical strength of each guard is noted in the margin. The services of these Sepoys, in my opinion, ought not be dispensed with, with due regard to the security of the respective duties on which they are employed.

3. In the Talook Treasuries, or for other purposes, no Sepoys either regular or invalid are employed, and the measure proposed by Government would therefore involve a new charge of 377-9-3 Rupees per Mensem which seems to me questionable on the score of expence.

135 Pensioners for 15 Talooks at 2-12-9 each is Rupees 377-9-3 per Mensem or 4530-15- per Annum.

4. At present the duty of guarding the Talook Treasuries and escorting remittances thence to the Huzzoor, devolves on the Peons of the Talook whose removal from service in consequence of the introduction of the proposed measure, should such be determined upon, will prove a very great Public inconvenience from the fact that their services like Sepoys, are not

not particular, but general viz. in Revenue Police and other Miscellaneous duties, nor is it possible to exercise a prompt and efficient control over the Pensioners, all that can be done by the Collector being the Stoppage of the Exctra allowance.

5. The Pensioners under my Charge are 22 in number of whom 19 are in Charge of Travellers Bungalows, almost all of them are unfit for any other service from advanced age or infirmity. 14 Sepoys draw through the Officer Commanding Co: imbatore and it appears from a Communication from that Officer, that all, with one exception, are unwilling to take employment of the description proposed.

Memorandum dg.d 16th Feb.y 1848 No. 54 Despatched from the Honorable the Board of Revenue No. 75.

What is the price of Cotton (read Cotton Seed) at the Principal Mart in your District?

The average price of a Maund of Indigenous Cotton in the Town of Coimbatore, which from its proximity to the Malabar Coast, may be considered the mart of first importance is Rupees 2—4—8 or £5—13—10 per Candy of 500 lbs this has been calculated upon the selling prices of the last five years as shewn in the subjoined Memorandum the Cotton is brought to the Market Chiefly in the Months of October, November and December, and the prices of these Months are therefore taken into calculation

The average expences of cleaning cotton by the Churka or as it is called in the country "Rutnum" is one Anna and two and half price per Maund or 1 R. 8 a. Candy of 500 lbs

The nearest port for Shipment is Ponaney on the Malabar coast, about 100 Miles from Coimbatore and the expences of carriage, as far as they can be ascertained, amount to 5 Annas and 2½ price per Maund, or 6 Rupees 8 Annas a Candy the memorandum in the Margin will afford detailed information on this point—

It is difficult to afford a satisfactory reply to this question, some of the lands appropriated by me for purposes of Experiment in the previous year yielded as much as 1200 lbs of Seed cotton per Coawnie, but the contrast as regards Country plants is most unfavorable the produce, a most scanty crop under the best circumstances, and that depending entirely on the description of the soil, the fact of its being a single or combined crop, and the quantity of labour bestowed— In order however to

From the Collr of Malabar — Furnishing with reference to the Board's Proceedings dated 24th Ultimo his opinion on the suggestion contained in the 11th para of the Sub Collector's Report on the Settlement of Fusly 1256.

Sir,

With reference to the Board's Proceedings dated the 24th Ultimo, calling my attention to the 11th Para. of the Sub Collector's Report on the Settlement of Fusly 1256, and desiring me to furnish my opinion on the suggestion therein contained, I beg to observe that the "Balances" treated of in the said Paragraph are not old Balances of Revenue outstanding in the Northern Division, but part of Remissions, from time to time given, the re-annexation of which to the reclaimable Demand appearing from

13039. Fort St. George 11th September 1848

from various causes, hopeless, Mr. Chatfield recommends their amount to be struck off the accounts—

Rs. 2979-10

Mr. Chatfield, I apprehend, has not been sufficiently explicit but applying as his suggestion does to unresumed Remissions, it is at variance with the directions issued by the Board in the 23d Para of their Proceedings dated the 22d August 1844, wherein they impress upon me the necessity of upholding the integrity of the Survey accounts: and that when abatements of the Assessment are made, they should be granted as remissions for the year, to be continued annually as long as required, but the full amount invariably shewn in the Accounts—

Approved by Government Vide Para 5 Minutes of Cons dated 8th October 1844

The items enumerated by Mr. Chatfield are included (except the portion appertaining to Fusly 1256) in the Statement No. 20, which accompanied my Report for that year—

Proceedings thereon— observing that Mr. Conolly is correct

From the explanation furnished in the above letter it appears that the

correct in stating that his Sub Collector's suggestion to strike out certain remissions from the Accounts would be at variance with the Board's orders of the 22d August 1814 and calling for explanation upon certain points Connected with these remissions

Fort St. George 14th September 1818.

the "balances" spoken of by Mr Chatfield are not old Balances in the usual sense of the word outstanding in the Northern Division of Malabar, but a part of remissions given from time to time temporarily and subject to eventual recovery and which have therefore been always annexed to the reclaimable Demand, Mr Conolly is consequently correct in stating that the Sub Collector's suggestions to strike these remissions out of the Accounts would be at variance with the Board's orders of

P. 23 — 22d August 1814 —

2. The Board observe that the particulars of the remissions given by the Sub Collector in his report differ from those entered in the Jamabundi Accounts of Fusly 1256 Nos 20 and 21 as shown in the following Statement —

It is also remarked that one of the items specified by Mr. Chatfield Vizt. on account of lands assessed with reference to the produce Rupees 109–5–9 would seem to be of the same nature as that shown in Coll.r 11 Statement 21 of the settlement accounts for Fusly 1256 and if so should be classed among the "Remissions the future resumption of which appears to be doubtful" The item of Rupees 11–0–3 on account of the negligence of Kinshoni Menon would seem referrible to the same head. From the Captain Ouchterlony Superintendent Neilgherry Survey

In intimating that he has not been able to collect any positive facts regarding the Cultivation of the Hop in 1840, but submitting hearsay evidence which if correct would not argue materially against future success.

Adverting to Para. 3 of your letter of the 30th. June last, I have the honor to state for the information of the Board that I have done my utmost to ascertain the result of the experiment in the Cultivation of the Hop which was made in 1840, but without being able to collect any positive facts regarding it.-

Mr. S. James who was recently in charge of the estates of Mr. Sullivan, including "Kulhutty and "Stonehouse," informs me that "he was not in charge "of "Stonehouse Garden" at the time alluded to and "is not therefore able to give me any information as "regarding the trial which was made by Mr. Sullivan "to grow Hops in it. Some plants were sent to "Mr. Davis then residing at Kulhutty; but as "he left it shortly afterwards the plants died as from

"from neglect."-

From another party I learn that Mr. Sullivan's Hop Plants grew up to a considerable height and were then either destroyed by the chill easterly winds, or rotted off by excessive dampness in the soil.-

This is only hearsay evidence, but even if correct I would submit that it does not argue materially against future success. The Hop requires a warm climate, and a calcareous open soil, naturally well drained; and hence I anticipate that the temperature prevailing at Kotagherry, where the effects of frost are not very extreme, and where shelter from the S. E. Winds is readily attainable, will render this part of the Hills a far more suitable locality for Hop grounds than Ootacamund and the land to the Northward and Westward.-

Secretary to the Board of Revenue
Fort St. George.

From the Collector of Madura ... Sir, Para 1. I have the honor to acknowledge the receipt of your letter dated the 24th. August informing me, that the Strength of the Veteran Battalions does not admit of their relieving the Detachments of Regular Troops, and that reliefs of Pensioned Sepoys embodied for the purpose in the Districts, have been suggested as a substitute, and requiring me to state what will be the annual charge incurred by this measure at Rs. 2-12-9 per Mensem the rate paid in Salem, whether these are

a sufficient Number of Pensioned Sepoys resident in the Madura District from whom an efficient force might be enrolled, and if not what measures I would propose to adopt for levying the required force.

2. In reply I beg to state that the present strength of Regular Troops in Madura is 2 Companies at the Town of Madura, one Company at Ramnad, and one Company at Dindigul, to replace which not less than 4 Companys of Pensioners at 100 Men each or 400 altogether, including Native Officers would be required. This number at Rs. a. p. 2-12-9 each would involve a charge of 1,118-12-0 per Mensem or 13,425-0-0 per annum. but I should suppose that some addition must be allowed for Officers.

3. The Number of Pensioners in the Madura District at present are 538 of which

26 Subidars
5 Jemidars
53 Havildars
28 Colaigues
4 Drummers
3 Puckallies
374 Privates.

14. are employed as Peons, or at the Bungalows. I do not think that a Sufficient Number of able bodied men can be selected from these, but I am informed that there is a large body in Tanjore from which the deficiency can be supplied.

4. It is to be considered how they are to be Commanded, Maintained in discipline and dressed.

Fort St. George 14th. September 1848.

5. I think it very essential that the Company Stationed at Ramnad should be commanded by a European Officer and distinguished from the people by a uniform. In any conjuncture requiring the interference of Troops, and the want of Troops might give rise to such a Conjuncture, their fidelity would be exposed to trial from sympathy with the people and bribery. all means taken to keep them distinct would serve to Counteract these temptations, and no one accustomed to the Natives will doubt the moral effect of the dress of the Soldiery as a check on the populace.

6. In the towns of Madura and Dindigul these points are of less consequence I should be glad however of one or more European officers if they can be conveniently spared. If not, it might be permitted to me perhaps to move a portion of the Pensioners to aid the ordinary Police in various parts of the District on emergent occasions; and the great convenience that would arise from this permission almost induces me to refrain from pressing the appointment of European Officers. Native or European non-commissioned officers could not be dispensed with and I would recommend the

the dress of the Pensioners being assimilated as nearly as possible to that of the Native troops.

7. In regard to discipline I would wish to be informed whether Pensioners would be subject to the articles of War or to any special Rules. The mere fear of dismissal would I should fear prove a very insufficient restraint to so large a body of Comparatively idle men.

8. I beg to remind the Board that lines are nearly completed at Madura at a large expense for 2 Companys of Sepoys and that a Magazine, Hospital and Shelicine Barracks are under Construction at Ramnad.
