From the Secy. to Government containing observations and orders on the Board's Proceedings relative to the Settlement of Land Revenue in the District of Trichinopoly for Fusly 1256.-

Read the following Extracts.

No. 1001.

Extract from the Minutes of Consultation under date the 14th September 1848.-

Read the following Extract from the Proceedings of the Board of Revenue

/Here enter 10th August 1848 No. 414/

Para 1.- The season of Fusly 1256 in the District of Trichinopoly is reported to have been favorable throughout the "entire District," and the price of grain to have continued at a favorable rate during the whole harvest- "Except in the items of Black and Green Grain in which by the Statement added to the 6th Para of the Acting Collector's report, a slight decrease below the prices of

of 1225 is observable, the price of all grains in Fusly 1256 exceeded that in the year preceding: As a natural consequence of these advantageous circumstances, the settlement of Fusly 1256 exhibits an increase over that of Fusly 1255.-

2- The demand, inclusive of the revenue from Shotriums, Quit Rents on Enams, and other sources appertaining to the land was fixed at Rupees 1,37,8734 12-1 or Rupees 80,464-7-5 above that of Fusly 1255. The Collections within the Fusly amounted to Rupees 1,37,683-3-8 and the small balance of Rupees 1,051-8-5 outstanding at its close is reported to have been since realized in full.-

3- The Government observe that though the arrangements for the Jumabundy must have been commenced previous to the date of Mr. Elliot's assuming charge of the District, the actual Settlement and distribution of Puttahs devolved on him, and were completed shortly after the expiration of the Fusly.-

4- In the 3rd para of their proceedings the Board point out a serious

serious departure from the Hoakoom=
=namah of the District which requires
explanation, and in paras 7 and 8
notice a remission on Cowle land properly
subject to full assessment, and the
reduction of the fixed demand on certain
Maniems incorporated with the Govern=
=ment lands.-

5-. They also have occasion
in the 9th para to notice a departure
from the established rules for the grant
of remissions for withered produce, ir=
=regularities which the Government hope
the acting Collector will avoid in future
and which to some extent have affected
the demand.-

6. The Governor in Council
though not fully satisfied with the
adjustment of the demand in this
season of general prosperity, recognizes
the exertions of the Acting Collector
in the realization of the Revenue
which as in 1255 under Mr. Onslow's
management was collected by
Mr. Elliot with exemplary punctuality
in Fusly 1256.-

7.- The Government observe
that

that during Fusly 1256 arrears of
previous years to the extent of Rupees
21361-8-1 were brought to account making
the total collections Rupees 1397044-11-9
or Rupees 93192-3-7 above those of
Fusly 1255.-

8.- In the 4th para of the
Extract Minutes of Consultation 22d
May 1847, the assessment of a 3d
Crop on wet and Garden lands
was noticed. The Board too
called for some explanation of this
additional Tax which has not
yet been furnished. In the 21st
Para of the Collectors report and
in Statement No. 11 accompanying
it, this item again appears.-

From the Secy. to Government Requesting the Board to ascertain and report who performs the duty of Curnum of Yerragoontta in Kamalapoor Taluk of Cuddapah District and whether Petitioner Chedumbaraporr Eramessul claiming the Enam is prepared to discharge the duties of Curnum-

Read the following Petition

from Chendumbararow Eramsoul Curnum of Yerragoontta Vga. in Kamalapoor Taluk in Cuddapah-

/Here enter August 1848 No. 1/

The Petitioner Chedumbarar= =poor states that on the death of Rungiah a Curnum of certain Villages in the Kamalapoor Taluk of the Cuddapah District, he as Cousin performed the funeral ceremonies of the deceased and claimed the Enam lands left by him, which however, were resumed by the local Officers-

It appears from the

2. Endorsement of the Collector dated 22nd May 1847, that his order for the resumption of the Enam lands was grounded on two circumstances, Viz:, the separation which had taken place in the families and interests of Petitioners and the deceased, and the fact of the latter having died without heirs-

The Right Honorable the Governor in Council does not see why a service

service Cranm should be resumed or afeefed to the Revenue on the death of the last holder without heirs, nor can he discover any reason why it should not be afsigned to the party performing the duties. The separation of family and the devision of property, do not, in his opinion, prevent the representative of one branch being the heir to the other branch of the family, in failure of descendants in the direct line, and in the present case he would wish to be informed who performs the duty of Curnum in the Gerragoontla Vea Villages, and why the Cranm is not afsigned to him. The Governor in Council requests the Board of Revenue in replying to the foregoing enquiries, will also be so pleased to ascertain and report whether Petitioner is prepared to discharge the duties of the abovd Curnumship on condition of obtaining the Cranm.

In the Margin is inserted a Memorandum of the quantity of Salt remaining in Store at the commencement of the Fasly, the quantity manufactured and the quantity sold during Faslies 1256 and 1257 respectively, shewing an increase in the sales in the year under review to the extent of Garces 124—195—" Ms " Ps. The increase occured chiefly at the Rowpadah Salt Cotaurs where the increased Sales for Inland Consumption consigned to Chulacoghar and Lembulpore, two of the principal marts in the Nagpore Territory, amounted to

to Rupees 46504—8—" The routes to which from this Coast had been for some time closed by the restrictions imposed by the late Meeriah Agent as was alluded to in my Report dated 29th July 1848.—

Para 6.

Sea Customs. 6.

In the Sea Customs Collections a falling off to the extent of Rupees 25955—11—8 compared with the previous year will be observed which has resulted from the exemption from the demand of duty upon produce (Rice and Paddy) carried Coastwise under the operation of Act No. VI of 1848. The Amount of the Net Collections realized was Rupees 29560—7—2.—

From the Agent to the Governor of Vizagapatam — Replies to the proposal of the Board and Government to appoint a special Assistant for the adjustment of the Vizianagrum Rajah's affairs

Sir,

1. I have had the honor to receive Extract from the Board's Proceedings of the 4th September with transcript of the Minutes of Consultation of the 26th ultimo, relative to the Vizianagrum Zemindary. — The first and last Para of which had previously been sent to me direct. —

2. A copy of the Government resolution will be sent to the Rajah for his information as desired and his reply will be submitted to the Board of Revenue when received, but from the Rajah's known habits of procrastination, I fear an answer will not be given as soon as the Board anticipate. —

3. In Para 4 of the Government Resolution it is stated that "the Governor in "Council is disposed to think it might "be desirable to appoint, in some measure at the expense of the Estate, a "Special Assistant to the Agent, whose time "and attention should be entirely devoted "to the Zemindar's affairs". — This which is suggested

suggested by Government as a possible arrangement if a necessity existed, and on which a report was called, is seemingly treated by the Board as a fact accomplished which requires no consideration.—

4. I respectfully venture to submit my opinion that the arrangement in question is wholly uncalled for, either in a financial or in a political point of view, I shall be prepared to shew at a fitting time that the present compliment of a Principal, and a Senior and a Junior Assistant, is amply, and more than sufficient for all Revenue and Judicial work arising in the Vizagapatam District.—

5. I trust therefore, that this proposal will not be hastily adopted until at least an opportunity is afforded me of submitting my Sentiments upon the scheme. I believe it is not calculated to benefit the Zemindar nor likely to prove satisfactory in any way.—

6. Government have expressed much surprise that the debts of the Zemindary have been roundly calculated at 11 lacs of Rupees in July last, and have desired full explanation in

in detail of the circumstances under which they have risen to the magnitude, the names of the creditors, and when, where, and how they were incurred, "deeming a scrutinous enquiry "indispensible" and the Board of Revenue endorsing these sentiments have ordered a full and immediate Report thereon.— As the Records of my Office contain every information which the Government desire, I beg to submit a Statement marked A, exhibiting all the debts of the Zemindary as aforesaid without a single days delay.— This Statement was not sent sooner, because it was not known that the Government would farther interest themselves officially in the Zemindar of Vizianagrum's private affairs.—

7. I read with some astonishment, in Para 3 of the Minutes of Consultation under acknowledgement, that the Government understood the "debts of the late Zemindar "were only Rupees 2,85,825- on the 31st December "1845 and should not amount up "to July 1848 to more than 3,70,000". This must mean the floating debt at Benares independent of the Bonded or Bond debts.—

In

8. In the late Agent, Mr Arbuthnot's letter dated the 20th May 1845, a loan of Six lacs and fifty thousand Rupees was shewn to have been then sent to Benares for the liquidation of debts, also that there was a further old Bonded debt of Rupees 18,000 due to Narrain Row, then, as now unliquidated.—

9. Part of the said Lacs were advanced from the Treasury by Mr Arbuthnot in anticipation of the Revenue Collections, and also in expectation of a further loan of 150,000 Rupees from Narrain Row in the receipt of which the Agent was disappointed. In lieu thereof a loan of a Lac of Rupees was received by Mr Arbuthnot from the Rajah of Bobilly, Rs 5, in the Statement of debts now forwarded.—

10. In the letter quoted above Mr Arbuthnot estimated in Para 13 the acknowledged Bonne debts in July 1845 at Rupees 7,50,000, and in Para 17 he shewed that there were still debts unprovided for in Benares of two lacs more. Now the debts in July 1845 were estimated by that Office at about 9 lacs and a half at the least, but they were really much more as will be

be shortly shewn.—

11. The old Rajah died in August 1845 and Mr Arbuthnot, on the 20th December of that year forwarded direct to the Chief Secretary to Government a communication from Lieutenant Colonel Carpenter shewing that 2,50,000 Rupees were then required to pay the unsettled claims in Benares, independant of 30,000 Rupees expended at the deceased Rajah's funeral.—

12. No funds were ever provided to meet these debts, consequently they went on increasing daily.—

13. In the annual Report of the Zemindary for the year ending July 1845, sent 18th June 1846, the Bonne debt of the Zemindar was shewn to be 10,000 Rupees on bonds, or on the Agent's acknowledgements.— Para 15 and 16.— The balance of Peishcush was 2,11,210 Rupees, and the Benares debt as shewn above to have been then, say 2,50,000, making a total liability of nearly 11 lacs on the 11th July 1845 and not 9,50,000 only, Mr Arbuthnot had Estimated.—

14. In July 1846, as per the Account current

Letter 7th May 1847 Para 23 to 27 —

Note
Commission for two years was besides unpaid say 25,000 Rupees

Current cent, the Home debt was still Rupees 70,000. The deficit of Peishcush after deducing balance on hand was 1,88,000 Rupees, and assuming the Benares debt with interest accumulating to be Rupees 3,00,000 only, the debt again stood at eleven lacs in July 1840, and possibly more.—

15. The young Rajah continued to reside at Benares till July 1847, utterly receiving no stipend whatever.— His father's debts unadjusted and his Establishments unpaid. To enable him to remove thence and to pay his road expences with his family and Suite, a lac and ten thousand Rupees, being his allowance in arrears, was sent under the sanction of Government of date the 27th January 1847.

16. But he never could have left the place without some adjustment of his Father's debts there, and accordingly as I reported to Government in Paragraph 4 of my letter to the Chief Secretary to Government of the 7th November 1846, the Rajah negociated a loan from Narrain Row in Vizagapatam of two lacs of Rupees, sent thro' Lieutenant Colonel Carpenter upon the 10th February 1847, by whom

whom acknowledgements were sent from the Rajah for the receipt of the Cash.— The Money was sent in Government securities of the 8 per Cent Loan-Copies of the letters that passed are herewith sent.—

B

Note.
Colonel Carpenter states a large sum was spent on a marriage Ceremony of the late Rajah's niece.—

C

17. In July 1847 when the Zemindar did leave Benares, the debts unliquidated, after the application of Narrain Row's new private two lacs loan, still exceeded two lacs as shewn in Lieutenant Colonel Carpenter's Letter of the 30th October last, Copy of which is sent.— Without the assistance of that Officer indeed the Rajah could never have left Benares.—

18. Independent of this the Rajah loitered on the river, detained his fleet of Boats at the Ghaut, and incurred heavy demurrage, borrowing money for these and other purposes to the extent of Rupees 52,500 more.—

See Lieutenant Colonel Carpenter's Letter Para 5.—

19. From this it would appear that the debts which at the end of 1845, were about 3 lacs had swelled with fresh liabilities to four lacs and Sixty thousand Rupees in round numbers by July 1847. Copies of all the Bonds in Persian Character, sent by Lieutenant Colonel Carpenter, are upon the records of the Agency.—

In

20. In July 1247 then, the Account Current shewed Six lacs and ten thousand old debt.— Narrain Rowis new private loan Rupees 2,00,000- Benares debts as arranged by Lieutenant Colonel Carpenter two lacs and fifty nine thousand more, or ten lacs and seventy thousand in round numbers.—

21. In 1848 July, I roughly stated the debts, without interest, in round numbers at eleven lacs, to meet which there was, for the first time, nearly three lacs in hand exclusive of the sum required for payment of interest on the Home debt.— Deducting this surplus the debts and liabilities may be set down at eight lacs and a quarter of Rupees.—

To Chief Secretary to Government 22nd July Para 8.—

22. I have stated these circumstances at length to shew that no scrutinous enquiry into the debts is apparently needed, as much as every transaction was publicly known and has been carried out thro' the Officers of Government. Viz. Mr. Arbuthnot and Lieutenant Colonel Carpenter, and every debt is acknowledged by the Rajah. The actual and possible debt was also; it is clear from this Statement

Statement, pretty accurately known for last four years in all quarters.— The Estimate in the Government Office, therefore, of the entire liabilities at 3,70,000 Rupees must have arisen from some misapprehension.—

23. This Report also goes to shew that the Rajah's finances are in a much more prosperous state in July 1848 than they have ever been since 1844.— The Estate is in fine and improved order, and the debts fallen from eleven lacs to eight lacs and a quarter in one year

24. In the present season the Collections may be calculated at Rupees 95,0,000, and the surplus will be between two and three lacs of Rupees after paying all demands.— In July 1849 then the debts will not much, if at all, exceed Six lacs of Rupees.—

25. This calculation is made on the supposition that matters are left as they now stand.— But if the management be committed to a stranger, whether a Special Assistant or otherwise, then the results cannot well be Estimated nor foretold.—

26. A Statement of the Zemindary

Fort St. George 28th September 1848.

Zemindary liabilities was given by me to the Rajah in April last, shortly aft his arrival.— He perfectly apprehends th state of his own affairs, but he looks to th Agent for the adoption of measures calcu for his good, and for the proper settlement of his debts.— He can give no personal assista whatever in this matter, and the Agent does not look to him for any aid.—

27. Removed from the field of his Gath extravagances, and the importunities of th Creditors at Benares, and separated from his Mother's society, who seems to have exer cised a baneful influence over him, the Rajah at the head of a moderate Esta blishment at Vizianagrum lives in a very quiet way.— He has the reputation of saving largely from his stipend of Rupe 9,000 Monthly, and he is esteemed very parsimonious.—

28. I beg to recommend that the Government be solicited to permit, thro' the channel of the Goverment treasury, the payment of the Benares debts shewn in Statement A to be with interest calculated up to the 11th July last Rupees 2,99,234—9—11 ½

D.G.

Fort St. George 28th September 1848.

If it is not convenient that money should be remitted in that way, I would solicit permission to subscribe money to the extent noted above in the 5 per Cent Loan from the present surplus funds on hand, and to send the Government Securities to Benares for sale, and for the payment of the proceeds to the Bond Holders, thro' Major McGregor the Governor General's Agent.—

The payment of the Benares

29. Loan presses most because it bears interest at 12 per Cent whereas the Home Debt and Narrain Row's loans bear only, at present, 6. per Cent interest.—

Narrain Row is the only large Cre-

30. ditor, I have written to him officially to know if he objects to the payment of the Benares debts of the Rajah in preference to his own, my application and Narrain Row's reply will be found in the accompaniments to this letter.—

D

I beg that this letter may be submitted

31. to Government and orders obtained about the payment of the Benares debt with the least practicable delay, because the interest of these Benares debts is running on at rum ous rates and moreover the attainment of permission to draw on the Benares Treasury, or the alteration of a sub. cription to the Loan will, of itself, occupy a considerable period before payment can be made.—

Since writing the above I have receiv

32. ed the accompanying letter from Major McGregor C.B. copy of which and my reply thereto, is also herewith sent.—

Sir,

I have the honor to acknowledge the
receipt of your letter No. 16 dated 18th February 1847

giving

Fort St. George 28th September 1848

giving cover to 23 Government Promissory
Notes, amounting with interest to the 31st
December 1846 to Co.s Rs. 2,00812-8-10 the
property of Gooday Sooriah Narrain row,
endorsed to me for the use of, and as a loan
to the young Rajah of Vizeanagrum.

The foregoing sum will be in
cluded in the Statement of the Rajahs pe
cuniary affairs now under preparation for
transmission to you, but in the meantime
I have the pleasure to enclose 2 Bonds for
the amount, duly executed in favor of Nar
rain row and in strict conformity with his
instructions.

The reason there are 2 Bonds ins
tead of one is because a Stamp of 150 Rupees
would not cover any sum in excess of two Lacs,
and there was no Stamp procurable for a high
er amount.—

2. The balance remaining unpaid of the debts of the late Rajah including his funeral charges could, I think have been settled for about 2 lacs and a half of Rupees, as reported in the 8th. Paragraph of my letter No. 248 of the 28th. November 1845, provided amount had been then forth-coming. but unfortunately the accumulation of interest, the stoppage for many months of the young Rajahs stipend, and the expences incurred for the marriage of his cousin, especially the last mentioned cause, incurred the Rajahs' liabilities to a serious extent, as shewn in the General Statement alluded to.—

Fort St. George 28th. September 1848.

3rd. Of the debts included in the original schedule, one alone remains unpaid, on which a balance of Rupees 81,832 is still due, and it was stipulated with the Creditors Mudhoonun Das and Dwarka Das, on the departure of the Rajah that the same should be liquidated in 9 months, with interest thereon at the rate of 12. per Cent per Annum.—

4th. A new debt was incurred with Baboo Boonooman Pershad to the extent of Rupees 1,25,000 to enable the Rajah to quit Benares, also bearing interest at 12 per Cent per annum and to be liquidated one half on or before the 28th. December 1847 one fourth on the 28th. March 1848 and the remaining fourth on the following 28th. June.—

5th. Independent of the foregoing sums and subsequent to my adjustment of

of the Rajahs' affairs during 2 or 3 months delay in his departure already explained to you, he borrowed without my knowledge or consent, the further sums of 40,000 Rupees on the 28th June 1847 from Baboo Haree Das promising to pay it from his monthly income in arrears from January 1847 and 12500 Rs. on the 9th July 1847 from Narain Das, to be repaid within 6 months, both items bearing interest at 12 per Cent per annum.

6th As I had nothing whatever to say to the foregoing transactions they are not of course included in any of my statements, but I am informed these loans were the consequence of the vexatious delay above alluded to, which involved the Rajah in constant demands from Bramins, and a variety of expenses on account of his mother and others entirely beyond my controul, even if I had been cognizant of the circumstances which I was not indeed at one time, I almost doubted whether the young Rajah would ever leave Benares, although I had finally

settled his affairs, and another 2 or 3 months delay would, in my opinion, have rendered his departure as difficult as it was before the adjustment of his debts, if not altogether impracticable.—

7th The Rajah has settled a monthly pension of 100 Rupees on his former tutor Mr. John Davis, I enclose a copy of his note to me on the subject, and trust the arrangement will meet with your approbation as it did mine, for Mr. Davis claim far exceeded the amount for which it was compromised, and he acted reasonably and to my satisfaction on its final adjustment.—

9th An account current signed by the Rajah, a memo of debts furnished by him, and a receipt of the cash amount paid to his Highness accompany this dispatch, the transmission of which has been much delayed by the illness of the Head Baboo in the Agency, my own indisposition, and lastly by the recent Hindoo holidays.—

The Mohajuns alluded to are very apprehensive that the Rajah is not disposed to act up faithfully to his engagements and are repeatedly coming to me to ascertain what arrangements have been effected by the Rajah, for the payment of their respective claims against him, the terms for which the Debts were contracted having already transpired.

Proceedings thereon

Relative to the liabilities of the Rajah of Vezianagrum reported upon by the agent to the Government of Fort St. George at Vizagapatam and containing the Boards observations and orders to the agent on the subject

In the Extract Minutes Con
of 26th August last the Government desired
that information might be obtained in detail
of the circumstances and manner in which the
debts outstanding against the Vezianagrum Zemin
dary had arisen when and by whom they were
incurred of their accurate extent and of the
names of the creditors to whom they were due. In
the letter above recorded the Agent at Viza
gapatam has traced the history of these
incumbrances and referred to the various re
ports made to Government respecting them. He
has submitted a schedule A shewing at one
view all particulars connected with these lia
bilities, the dates on which and persons through
whose Agency they were contracted, the parties to
whom due, the sums originally borrowed the
rate of interest, the period to which it has
been discharged and proportion still unpaid
with the total amount of both principal
and interest now outstanding calculated
to the 11th July 1848. The Board have
referred to several reports quoted by Mr
Smollett which bear out the statements con
tained in his letter, from the schedule
furnished.

furnished by the Agent it will be seen that the Home debt or that due to creditors in the Vizagapatam District amounts to Rupees 8,29,248-12-7. of which by far the larger portion or Rupees 6,84,248-12-7 is owing to Gorla Lorria Narrain Row. Of the remainder 100,000 is to the Zemindar of Bobily and Rupees 45,000 to the Maringy Proprietor.

2. Of the Benares debts Rupees 2,93,234-9- " the first in the Statement Rupees 81,832. is on a Bond given in Settlement of the balance due by the late Zemindar The remainder were contracted. the first thro' Colonel Carpenter, the rest by the present Rajah himself- to enable him to quit Benares and to defray sundry expences incurred in his passage down the River- an account current signed by the Rajah and a Memorandum of debts due by him were transmitted to the Government Agent at Vizagapatam by Lieutenant Colonel Carpenter in his letter of the 30th. October 1847- Copies of all the Bonds in Persian characters were also sent, and every debt has been acknowledged by the Rajah As more than a year has elapsed since he left.

From Lt. Col. Carpenter 30th. Oct. 1847.

left Benares it may be supposed that had there been any further demands against him at that place besides those entered in the Schedule they would by this time have been preferred- It may therefore be presumed that the account contains all the Benares debts- The Board, however observe in the Margin of Major Mc. Gregor's letter of 28th. August last the name of one party Gridhur Lal, Thakoor who does not appear in the schedule Mr. Smollett is requested to explain who this person is and if his claim be distinct from those of the other Mahajuns what is its nature and extent, Esc: exclusive of Rupees 29,000 due to parties in the Rajahs suite and who have accompanied him to Vizagapatam, for which it is understood that he intends to make or has already made provision from his own funds; the total amount of debt from all quarters, principal and interest to the 11th. July 1848, is given at Rupees 11,22,483-5-7- To meet this there is at present in hand nearly three lacs of Rupees from the surplus revenue of the Fusly just expired, which will reduce it to about 8/4 lacs- a surplus of from two to three lacs is also anticipated in

in the current Fisly. so that at its close or by 11th. July 1849. the Debts. Mr. Smollett expects will not much if at all exceed Six lacs of Rupees.

3. The Agent has requested that he may be empowered to remit to Benares the amount Rupees 2,93,234-9- requisite to satisfy the demands there outstanding. He has consulted the principal home creditor Narrain Row upon the subject who has acquiesced in the arrangement. As the early discharge of these Debts is very desirable both on account of the high interest which they bear, and in order to enable the Rajah to withdraw as far as possible from all connection with that place and to devote himself entirely to the management of his Vizianagarum property. The Board beg to support Mr. Smolletts request and to recommend that he may be authorized to make the necessary remittance thro' the Governor General agent Major Mc. Gregor by means either of bills upon the Collectors treasury or of Notes of the 5 per Cent Loan now open as may seem most convenient.

4. The letter now under

comment

comment would seem to have been written immediately on receipt of the Boards' Proceedings of the 4th. Instant and before the Agent had communicated to the Rajah the views of Government in respect to his application of 12th. July last as contained in Extract Minutes Consultation of the 26th. August. It is however stated that copy of that Extract will be sent to the Rajah as for his information and the reply forwarded thro' this Office when received, but from his known habits of procrastination it is feared that an answer will not be given as soon as the Board anticipate. The Agent has also expressed his hope that the proposal of Government for the appointment of a Special Assistant for the charge of the Vizianagrum Estates will not be adopted until he has had an opportunity of submitting his Sentiments upon the scheme as he considers it not calculated to benefit the Zemindar nor likely to prove satisfactory in any away.

Dr. Cons. 4th. Sept. 1848.

4 Pending the receipt of the reply from the Rajah to the reference made to him, the Board think

think it would be premature to enter upon any discussion of the arrangements to be effected if the Estate is to continue under Government management. The early settlement of the question is however of much importance and no delay can be allowed to occur in its adjustment. If therefore by the time the Agent shall have received a copy of these proceedings the Rajah has not sent in his answer Mr. Smollett will be pleased to call upon him to furnish it at an early date. In transmitting it to this Office the Agent will be at liberty to offer such observation upon the subject as may appear to him to be called for.

Submits report on the Extra Sources of Revenue in his District for Fusly 1257 - 1847-48.

Sir,
Para 1.

I do myself the honor to submit herewith the annual accounts connected with the settlement of the Extra Sources of Revenue in the Vizagapatam District for the year ending on the 11th July last, accompanied with such remarks as seem requisite for their elucidation.

2. The following Statement exhibits at one view the demand of the past Fusly in comparison with that of the preceding year.

Salt

3 There is a decreade in the demands on this branch of Revenue of Rupees 10,098 8 a upon the year This deficit has arisen chiefly in the Pans of Carafsah and Nellimoo Boo, and is accounted for by the non-resort of the traders from Golgondah in the past year owing to the great prevalence of disturbance and outrage on the Golgondah District. The spread of Cholera and small pox in the cold months is also stated to have diminished the sales at these Pans. These causes may and no doubt did operate unfavorably nevertheless it is clear that the Salt revenues of this District have greatly declined during the last five years, and I am led to believe that clandestine manufacture is more largely followed than heretofore.

4. This may be owing to two causes Viz, to the recent enhanced price of the article, and to the new regulated system of selling introduced in Fusly 1252 - Previous to that date it was the habitual practice in this Dist

District to receive three Garces and three quarter at least in excess in every fifteen Garce heap - This allowed the issue of considerable overmeasurement to the Salt Merchant when he bought - while at the same time it permitted a good margin for illicit practices to the Salt servants by which they were enriched - This large measurement of course brought many customers and I was warned, when in Fusly 1253 the practice was put down, that the sales would decline in consequence - This has actually been the case, but whether the traders have since resorted in greater numbers to Ganjam my position does not enable me to say -

5. I am of opinion that when the temptation to dishonesty from the small intrinsic cost of the article and its high Monopoly price is considered, it would be very desirable to raise the pay of the Salt Tanadars and to make the situations

Fort St. George. 28th September 1818

situations more lucrative and more so sought after, thus securing a better description of servants than that by which the place is now coveted. Possibly this might be done successfully by a small centage upon the sales - There can be no doubt that smuggling does prevail extensively in Salt, that it is clandestinely manufactured in many places to the detriment of the Government revenues, and that some measures should be taken to stop these practices - My attention will be more particularly directed to this department in the present year, with a view to the prevention of smuggling and the enhancement of the revenue from this source -

6. It will be observed that there is a sum shewn in the Accounts now submitted of Rupees 1397—13—1 outstanding in the Salt demands. This is the actual loss occasioned by the frauds brought to notice in the correspondence marginally noted* practised by the public servants in the Carassah

* From Coll.r 29th May 1818 - From Coll.r 12th July 1818.

Fort St. George. 28th September 1818

Carassah Pans during the past year less the amount of money recovered from the late Tanadars Estate, and the sums levied from the other servants of the Pans - The Board have been fully informed of the measures taken thereupon which have been upon the whole approved - The entire sum embezzled according to the accounts of Salt sold was Rupees 3,843-4-- in part payment of which Rupees 2445-6-- were received by the sale of the Tanadars property and by fine and recoveries from the other servants - The Board have objected to the replacement of the deficiency by these recoveries, which should they observe, have been carried to account under a different head - and this perhaps is technically correct - Nevertheless as the money was carried to account as "ordinary revenue," and as Accounts so framed have been sent to the Accountant General, and like results have been inserted in the collection and Balance

Statements

Fort St. George, 28th September 18

Statements it is not now practicable to alter them at this distant date.

7. Possibly the more correct method would have exhibited the whole deficiency in the demands, and to have carried the recoveries to account as so much Extra Revenue.

8. If upon enquiry not yet completed a further sum can be recovered from the real property of the deceased Sanadar, the amount will be carried to the public account and a report thereof made. The deficit of Salt itself will be shewn under the head of wastage when the Annual Accounts are submitted. The Board have asked whether any of the other servants lately at the Pans, could be held responsible for the defalcation. I beg to reply that there are no other servants in the Pans except Peons that those from whom Rupees 2250 are recovered and that these have no extensible property forthcoming beyond what has been thus realized. The marginal figured statement shews the cash embezzled and

and the sums recovered from the various parties.

9. The advances for manufacture during the two last seasons are marginally noted, the amount outstanding will be recovered in full when the whole is received into store.

10. The charges of management exhibit a small increase in the year under review, from the purchases of Salt being greater than in the previous year. In fine then, after deducting charges the Net revenue brought to account in the Fasly just expired was Rupees 97737-7-2 being Rupees 12362-8-6 below the receipts of the previous year.

Sea Customs. 11. Under the head of Sea Customs the Gross collections in this year were Rupees 31809-11-10 and the Net Collections, after deducting charges of Establishment were Rupees 28708-11-10. The Net Revenue exceeded that of the preceding

preceding year by Rupees 7203-15-7, a result which is the more satisfactory when it is borne in mind that the collections extend only over eight months. The port and port duties which comprise almost all the Sea Custom receipts in this District, having been abolished in March last.

12. There will of course be a great deficit of revenue under this head in future years. Nevertheless their abolition was loudly called for, and was urgently demanded by the present state of Indian commerce.

13. With reference to the Board's letter of the 27th January 1848 and Extract Minutes of Consultation 4th December 1847, it is proper to report that there is but one Establishment in this District for the manufacture and refining of Sugar for exportation to Great Britain. The quantity of Sugar exported during the year 1847 was 2066-18-3 Tons Cwt Qrs.

14. No Molasses were exported from this District.

There

Abkarry 15. was an increase in the Abkarry revenues Rupees 4295 in the current demand which in the year under review amounted to Rupees 57,085-8-0. Pains having been taken to procure substantial renters these revenues were punctually realized. The current Balance at the close of the year was only Rupees 239-10-10, the whole of which has been subsequently brought to account.

16. The Net amount collected under this head, current and arrears was Rupees 60,799-10-8, and the net increase in the year was Rupees 4,945-10-11.

Stamps 17. Under the head of Stamps the collections were Rupees 14,925, and the charges Rupees 1,251-14-6, the Net revenue was therefore Rupees 13,663-1-8, exceeding the Net receipts under this head in the preceding season by Rupees 757-15-3, chiefly owing to smaller refunds to suitors filing adjustments.

Moturpha 18. Lastly in Moturpha the demand was Rupees 6,612-13-2 shewing a

Fort St. George, 28th September 18

a small decrease in the current demand of Rupees 227–7–11. The collections, however being made with greater punctuality exceeded those of the preceding season by Rupees 122–7–10; and the total collection current and arrears was Rupees 6311–6–11 being Rupees 138–2–1, in excess of the receipts from the same source in Fusly 1255.

19. The current Balance of Rupees 24–5–11 distrusted will shortly be realized in full.

20. In conclusion, I beg to submit a figured statement shewing the Net revenue derived from each source of Extra revenue in the District during the two last seasons.

1256	203 623 - 8 - "
1257	2,02,229 - 6 - 5

It thus appears that the trifling decrease of Rupees 1,221-12-1 in the Home sales arises out of a decrease of Rupees 10,109-1-6 in four divisions and an increase of Rupees 8,887-5-5- in two, the causes arising out of incidental trifling local circumstances - The greatest decrease in Padah arose out of a deficiency of Salt and the supply was furnished by the neighbouring pans of Doogarazepatam where there was the greatest increase - The Receipts from the Home sales of the last ten years are shewn in the Margin.—

The Quantity of Sandal Wood sold at the Sales held on the 12th Instant is 83,9 9 9 - 2 - 4 Candies more than the Quantity sold at the Sales held on the 12th September 1847 Fusly.

The Value of the Sandal Wood sold at the Sales held on the 12th Instant is Rupees 2,0 8 6 1 - 13 - 6 more than the Value of the Sandal Wood sold at the Sales held on the 12th September 1847 Fusly.

The Quantity of Sandal Wood sold at the Sales held on the 12th Instant is 42,1 7 0 - 5 - 10 Candies less than the Quantity sold at the Sales held on the 12th March 1848.

The Value of the Sandal Wood sold at the Sales held on the 12th Instant is Rupees 5,0 2 6 - 14 - 4 less than the Value of the Sandal Wood sold at the Sales held on the 12th March 1848.

The Quantity of Sandal Wood sold at the Sales held on the 12th Instant is 2,5 5 7 — Candies less than the Quantity sold at the Sales held on the 12th September 1847 Fusly.

The Value of the Sandal Wood sold at the Sales held on the 12th Instant exceeded the average Value of the Sales held on the 12th September 1847 Fusly 12,5 7 — Candies in my Opinion. The Sandal Wood sold at the Sales held on the 12th Instant was of a superior description to that sold at the Sales held on the 12th September 1847 Fusly and 12,5 7 — Candies more than the Quantity sold at the Sales held on the 12th September 1847 Fusly.

The following Statement exhibits the Quantity and Value of the Sandal Wood sold at the Sales held on the 12th March 1848 and 12th Instant.—

12. The quantity of Salt exported to Chittagong and that shipped by private individuals for Calcutta must be dependant on the demand for the article existing in those places of destination— The export to the west Coast of Sumatra from this District is unusual and took place only in the year under review under the Board's orders dated 3rd April 1848.—

13 The Board are already aware from the correspondence noted in the

23 The trifling decrease of Rupees 5-14-4 in the Maunnool Sanderwared arises from a difference in the price of purchase of some articles-

24. The increase of Rupees 760-7-11 in the shipping charges is caused by an increased exportation of Salt to Chittagong and the west Coast of Sumatra-

32. The increase of Rupees 1233-6-1 in exports is in the articles of Horse Gram, Green Gram, Black pulse, Red Gram, Gingily oil seed, Coriander seed and Salt Petre Vizt and is attributed partly to the increased and expected increased demand particularly at Madras and partly to the favorable prices prevailing in this District which have tended to encourage speculation-

33 The increase of Rupees 2872-6-2 in Imports has arisen in consequence of certain Vessels freighted with paddy and Rice at Arracan for the Madras Market having put in at the ports of this District some from stress of weather and contrary winds and some to learn the state of the different Markets- These increases occurred chiefly before the coming into operation of Acts 6 and 7 of 1848-

34. The decrease of Rupees 140-5-2 in the Extra Collections arose from the small quantity of wood which drifted ashore during the year under review-

No. 7

51. As required in the Boards Proceedings dated the 13th November 1847 I beg leave to forward herewith a Statement shewing the balance of Salt at the beginning of the year, the quantity Manufactured and sold during the year and the balance in store at its close with the Financial results of this source of Revenue for fusly 1257.

52 In Paras 10 and 14 of their Proceedings on the Extra Revenue Report of this District for fusly 1256 the Board required a report on the recoverable and irrecoverable Moturpha balances. On the 31st May 1848, I submitted a Report on the Arrears outstanding against all Heads of Revenue and in Paras from 23 to 28 stated all particulars regarding the Moturpha Balances and with reference to Para 28 of the Report, I called upon the Acting Sub Collector to give me his opinion in regard to the future disposal of the several items where parties disputed their liability to the Tax imposed upon them. Mr. Purvis in his communication to me under date the 29th June 1848 has expressed his opinion recommending the propriety of enforcing the full demand in some cases and of partial and entire reduction in others with reference to the present state of Trade &c. As the subject is now under consideration I hope I shall soon be able to lay the result of the same before the Board in a separate communication.

From the Collector of Cuddapah ---

Sir,

Furnishing information as to the causes of remarkable discrepancy observable in the number of Persons charged with Offences under Regulation IX of 1822 for the last 5 years in Cuddapah and Bellary Districts and forwarding Copies of replies from the Collector of the latter District to certain Queries submitted to him on that Subject-

I have the honor to reply to your letter dated 4th June 1847 in which my attention is called to the remarkable discrepancy as Marginally shewn, in the number of Persons charged with offences under Regulation IX of 1822 for the late 5 years in this District and in Bellary, and in which I am directed in communication with the Collector of the latter Province to institute an enquiry and furnish the Board of Revenue with every information as to the causes of such discrepancy-

	Cuddapah	Bellary
1842	145	1
1843	42	5
1844	59	2
1845	145	7
1846	222	6
Total	613	21

2 I beg to forward for the Board's information the accompanying Paper containing Copies of replies from the Collector of Bellary to certain queries submitted to him with a view to the elucidation of the subject.-

3 On giving the matter under discussion my best consideration from every enquiry I have been able to make, I cannot attribute the almost total absence of the detection of Frauds connected with offences falling under Regulation IX of 1822 in Bellary, in comparison with what has been brought to light annually in Cuddapah to any preponderating honesty of character of the local Officers

Officers employed in the former over that of their neighbours employed in the latter District, but principally to the system prevalent in Bellary Parties being nominated by rotation to the mirsulship as Reddies and Leaumums of their respective Villages a practice the tendency of which in my opinion fully accounts for the apparent want of competition among Parties (unemployed Cosharers of the Meerasee) for office, by bringing to light any malversation that are committed by those in office with a view to supplant them. while from the practice also in force by which forfeiture of Meerasee is never entailed by dismissal or suspension from service of such officers as are punished for offences under the said Regulations I am led to the conclusion that little or no inducement is held out on the occurrence of dissensions to prefer complaints against each other when and that frauds are being practiced, that in fact as regards the question generally all Parties are too well satisfied with the existing state of affairs as regards the Rules in force and with the Prospect they have in their turn of defrauding Government of a certain portion of the Revenues of the District, to compete with each other for employment or to allow any disagreements to interfere with their common Interest.

4th. The causes of the discrepancy observable can only be accounted for by the operation of the Rules by which they are effected. We have the facts before us of a great number of Examens being brought

brought to trial for embezzlement in rendering false accounts of the Cultivation (the great number of trials chiefly having reference to this description of offence) not only by Parties coming forward and satisfactorily proving their charges made against their Cosharers in office, but by Karkoons in their Tour thro' their respective Divisions detecting these Frauds and bringing the same to notice, and these cases occur, (though somewhat less frequently of late) notwithstanding the examples that have been made, while in the Bellary District a case of the nature seems of rare occurrence. Under these circumstances and taking into consideration the non-existence of the detection of Frauds in Bellary, I can only account for cause in respect to the existing want of competition on the part of the Ryot in full Meerasee dars of Bellary by drawing inference from the rules in force, and in respect to the conduct of the other class of servants alluded to by presuming that they obtain their share of the profits attendant on the duties they perform and do not wish to disturb the existing unanimity of feeling and mutual understanding in matters concerning their own Interest, otherwise the unavoidable conclusion to be arrived at is that both classes of servants in that District are unimpeachable, that dishonesty is unheard of.

Question

1st Court That the Provisions of Regulation IX of 1822 having been extended also to Tahsildars by Regulation VII of 1828 cases which have been decided on Roundings held by Tahsildars are of Course included in the report to the Board of Revenue.

2d The accounts are usually rendered by Karnums and it is incumbent upon Karkoons to examine the cultivation in their respective Division previous to the Immabundy settlement of the Talook and they accordingly prevent this duty

3d Does the monthly account of Cultivation rendered by Karnums consist of Public accounts or of Lands the cultivation of the Cultivated Lands on them and the Village Servants or Pyakarees or not to punishment.

for the Taluk the Karnums to the Village have examined previous to the Immabundy of that Taluk being commenced

when it was discovered that the Karnums had omitted to enter in their accounts Cultivated including Wasty Lands which had then previously come under cultivation, would the Village Officers be liable to be punished or not if not what is the latitude afforded to them both in regard to the Karnums accounts and to the Pyakarees

Answer

3d and 4th It is impracticable for a Karnum to go through every field in every Month. The Regulation was not framed to inflict punishment on a Village writer for mistakes. The Curnum examines the fields in the same Month during which they are sown and the latitude allowed is of course not a defined amount which would be ridiculous, but depends upon its amounting to Fraud or not, which can only be decided by the merits of the case.

5th The Immabundy settlement of a Talook is entered into after the cultivated fields of the several Villages are duly examined by Karkoons or others deputed to that important duty.

6th Yes, these Lands are examined before the Peyakum Crops is reaped.

7th Are the Mufsul Tumma
ficcars to be held their
Offices permanently or
long as they are not unfit
for service from age infirmity
&c and are not re-
moveable at the authority
or the Revenue Chowtahs
at their every year in
the nomination of these
Village officers by the
employment by Ryots
Ghyre Mufsulmen

8 Does dismissal or
suspension from service
of Tumma for Offences
under Regulation VI of
1831 entail Elution there
the forfeiture of their
respective shares of the
Inam or are they in the
case ever allowed to hold
the possession of their Inam

7th The Village Offic
take their duty by
rotation in succession
to their respective
Cowharers - where
no objection exists
to their so doing

9th Is there is no compe
tition on the part of
the Ghyre Mufsuls or
employed Inamdars
with a view to their
getting installed in the
Mufsul and to obtaining
the concomitant advan-
tages of Office Viz -
authority Inams &
Canas and fees by
bringing to notice

9th There are instances
of competitors of
the kind and their
assertions are some-
times proved - The
corruption of Village
Officers may often
be traced to the
connivance of those
who ought to be a
check upon them -

8th There appears no
instance in which
forfeiture of Inam
have ever been entailed
by dismissal or
suspension from
Service of Village
Officers provided
for by the above
said Regulation

of the Mutteahs after the Taxes of the Villages have been examined by the Peishkar or Karnam it has been detected by subsequent examination that the Returns rendered by the Village Officers were incorrect and that they had compromised matters with the Village Officers, out of so large a number of Villages such detections of malversation has occurred within the period of 5 years it is the practice to remove surveying Officers from time to time to different parts of the District in order that they may be sent to separate divisions during the period of 5 years alluded to.

11th What is the number of Villages in your District the emoluments of Office of which attached as Merasee are in excess of the scale of remuneration framed by Colonel Munro and what on the average is the Centage of the Merassee in comparison with the total Beriz of such Villages.

12th How many Villages are there the Merassee attached to which are below the above Standard and what is the average Centage of Merassee of these Villages compared with the total Beriz.

10 A few Villages are occasionally examined by Moggy Goomastahs deputed if the cases described occurred they would be found among those punished under Regulation IX. It has been found of use to change the surveying Officers occasionally but not by a rule.

11th and 12th The scale framed generally by Colonel Munro is the remuneration for Potail Kurnums only where Kurnums Inam was found to exceed the said rate a Hoyadah Jody is established on such Kurnums in order only to rule whilst Potails are liable to the appraisement Lands.

Resolved that the foregoing letter and its Enclosure be submitted to Government with reference to the correspondence noted in the margin —

The Board observe that the revised Moyen Zabitah now sent by the Acting Collector contains all the arrangements proposed in Statement No. 4 which accompanied his letter of the 30th May 1848 —

Read the following letter.

To,

T. Pycroft Esqre.

Secretary to the
Board of Revenue
Fort St. George

Sir,

50

From the Collector of Salem ..... submitting his opinion of the Rules sanctioned by Government for regulating the planting of Topes and soliciting further instructions.

With reference to your letter of the 6th April relative to the rules sanctioned by Government for regulating the planting of Topes, and requiring me to report whether I have any reason to apprehend that the encouragement afforded by the rules in question will have an injurious effect upon the Revenues derived from existing plantations, or if there be any cases in which greater encouragement than is afforded by the rules may be called for, I have the honor to state that in my opinion no greater encouragement than held out by

by the rules in question is necessary but I am appre-
-hensive, by strictly adhering to these rules, the
Government may perhaps sustain loss hereafter
more than anticipated

2. For instance para first of the 4[th] Rule
parties wishing to plant topes &c[a] for their private
benefit in waste land shall be allowed land for that
purpose exempt from assessment for 20 years whe-
-ther cultivated or not appears to me too indefinite.—
Lands that have been under cultivation but subse-
-quently left waste for some time generally called
Podigal lands, and which do not come under the deno-
-mination of Anady Bunjer, are often of a superior
quality, on which fruit trees such as Mango, Jack,
Tamarind Eloopa &c[a], will become productive in
the course of ten years, so if such a description of
Podigal lands are given up parties will enjoy the
produce of the land for 20 years, and of the trees for
ten without paying any assessment such an indulgence,
I apprehend, may induce ryots to throw up many topes
and trees of the above description on which they now
pay tase, to the prejudice of the interests of Govern-
-ment. I would therefore suggest that only Anady
Bunjer, or immemorial waste lands which have
not been classified or assessed, should be allotted

for

for being planted with topes under that rule,
the benefit which may be derived from cultivating
it with grain for the period of 20 years exempt
from teerwah, will I think be an adequate in-
-ducement and return for the labour of forming
topes, and not below one acre should, I conceive
be granted to parties for planting private topes and
after the lapse of 20 years a full Mofsal teerwah should
be charged on it.—

3. I think when Podigal lands are ap-
-plied for, only such as have been left waste above
5 years should be granted with exemption of teerwah
only for 10 years, and that applicants should
take up an entire spot, but not select the best
portion and leave the rest to the detriment of the
Circar.—

4. It appears to me that these restrictions
I have suggested as to Rule 4 are advisable for the
interests of Government, and that it will still hold
out sufficient inducement to parties to plant topes-

After the publication of the Rules in question in the District several applications for Podigal lands have been received for planting private topes, but with these doubts in my mind to the propriety of accepting them, I solicit the Board's further instructions.

Resolution thereon.

50-51

The Board of Revenue are not at present disposed to adopt the restrictions suggested by the Collector in Paras 2 and 3 of the above letter in respect to the lands to be granted for the plantation of Topes under the Rules. In the course of the next two or three years, the practical operation of these Rules will be more fully developed and if, after the experience of that time, the privileges held out by them should prove to be more liberal than are required, and to be likely to prejudice the interests of Government, the subject may be again brought under the notice of the Board for their further consideration.

Vide Board's Circular 6th April 1848.

2. In reference to the latter part of Para 3, the Board observe that parties cannot be allowed to select only the best portions of fields. If the entire field cannot be taken up for planting, it should be so limited that the portion which is left may be conveniently occupied by other Ryots.

Sir

From the Collector of Trichinopoly. } Para 1. I have the honor to submit for the purpose of being laid before the Board of Revenue the result of my enquiries into the case of excess of land stated to have been included in the Zemindary of Torriore respecting which the Particular information required is contained in the Extract from the Proceedings of the Board dated 21st of December 1846, and the delay in replying to which communication may appear to require some short explanation.

Submits the result of the Acting Collectors enquiries into the case of excess of land stated to have been included in the Zemindary of Torriore as contained in the Extract from the Proceedings of the Board dated 21st December 1846.

2. I arrived in the District on the last day of March 1847 and had the Settlement of a new Province immediately to undertake and complete. This demanded all my energies as the surrounding districts promised unfavorably, so that till the submission of my Settlement report I was unable from the pressure of other anxious or arduous duties which need not be enumerated here, to obtain all the information, peruse all the correspondence

correspondence, and discover all the documents, absolutely necessary to a right understanding of this rather intricate case; and to enable me to put them in a form sufficiently concise and intelligible for submission to the Board of Revenue.

3. The Board will doubtless readily perceive that the Officer entrusted with the examination of, and report upon, a matter wherein the Circar takes the place of complainant on the information of one who himself perhaps stands alone in his desire to bring the subject to light, has no very easy or satisfactory task to perform. For it militates against the interest of those who alone are cognizant of the facts, to divulge any portion of the same; whilst the case itself is of about 32 years standing and would seem to argue certain discreditable proceedings or collusion on the part of the Head native Revenue Officers of the District during that period.

4. A Temporary vacancy having occurred in Conaud, I considered it a desirable opportunity for removing the Tahsildar of Torriore, who had apparently been in the Taluk during a prior scrutiny to Conaud whilst I proceeded to the former place to examine and

and measure during the cool weather, the land in dispute by the (to me) unintelligible account made by the Deputy Sheristadar in 1834. But the Tahsildar himself being averse to the change, and as such arrangement was supposed to be at variance with the interests of those who had cases to bring forward in the matter of the Bridge, The Tahsildar was directed to return to Torriore and the project of re-examination abandoned without further remark; contenting myself with gleaning from the record Office what I should have preferred discovering on the land itself. Hence the delay and possible insufficiency of the information now afforded, though it will be sufficient to determine two points, Viz. 1st. that the Manium land for the Dharbas-ayanum Chattram is still in the name of Shashaghery Row and that the 1100 Cawnies have been, without any authority, handed over to the Zemindar; whilst there would appear by account No. 4 to have been an annually accumulating sum due to the Circar by the Prospector being the excess above the Istimrer amount, for Fusly 1226.

5. A short out line of the principle on

on which the 13 Villages were handed over to the Zemindar of Torriore may not be unacceptable as the same appears to contain a point not hitherto finally settled. From the amount collections of the entire Land Revenue of the Torriore Talook the charges for collection were deducted and from the remainder one tenth was fixed as an allowance to the Proprietor of that Estate. The average of 13 years proving to be Rupees 2391-5-8. 13 Villages the Beriz of which about equalled that that amount were handed over to the Zemindar.

6 The Beriz of those 13 Villages however for Fusly 1225 (1815/16) was Rupees 24,689-9-9 from which deducting the above said fixed amount of allowance, there was a surplus of Rupees 774-1-9; of this amount, to give a round number, the sum of Rupees 774-1-9 was deducted i.e. Rupees 700 was determined to be carried to the account of Government and to be made by the Zemindar under the title of Shrotteem or Cowlpa-

7 A Statement of the net Beriz for Fusly 1225 was prepared and sent to the Board on the 26th December 1816; and in October 1817 orders were received from the Board of Revenue to make over to the Zemindar the said 13 Villages named

named..

1 Torriore	8 Vencatasapooram
2 Veeramboor	9 Madarapoory
3 Maravatoor	10 Sooratoor
4 Govindapooram	11 Singalandapooram
5 Siranattam	12 Amapatty and
6 Sikkatamboo	13 Killakawady.
7 Moovoogoor.	

8. On the 30th of November 1817 a copy of the list sent to the Board was furnished to the Tahsildar of Torriore with instructions to make over those Villages to the Zemindar and collect from him annually the sum of Rupees 700.

9. In the list which mentioned the Beriz the Extent is not given, and the Collections for Fusly 1226 (whilst those Villages were still in possession of the Circar) was Rupees 27,966; from which if the beriz of 1225 be deducted the sum of Rupees 2,406-11-3 appears in excess, and should probably on a similar principle to that which fixed the amount at 700 Rupees, have been brought to the account of Government in addition to the said sum of Rupees 700 instead of being handed to the Zemindar; This alone would have made a difference to the Circar up to this time 31 years (from Fusly 1227 to 1257) of Rupees 74,607-12-9.

A

Fort St. George 28th. September 1818.

Statement * No. 2 Statement † No. 3.

A translate of the Beriz Zamilitah and of the Tabeed sent to the Tahsildar are herewith submitted..

10. On the 15th. of July 1821 a Statement was prepared; upon whose order or for what particular purpose is not exactly known; but it shews the increase in each item in the said 13 Villages from Fusly 1226 (A.D. 1818-19) to 1231. (1821-22) and was placed on record - The said Statement-/No. 4/ shewed the total increase of the aforesaid 5 years /which should have been carried to the account of the Circar/ to be Rupees 27,913-3-3.-

11. With reference to the 2d Para of the Board's Proceedings under reply - It is the case, that after the strictest scruting no entry of transfer of the said Lands is to be found in the Pymash or original Settlement accounts but only in the Marattah Dowle accounts for "the two fusslies immidiately preceding that in which the transfer "was made under the authority of the Board". It is however worthy of remark that only the sum of 650 Cawnies was entered as transferred when Mr. Lushington dispatched his letter to the Board Dated 26th. December 1816. and which was 3 Months prior to the Settlement of the Keerambaor Village for Fusly 1226, and prior therefore to the entry

Fort St. George 28th. September 1818

entry of the 450 Cawnies. The entry alone appears, the land itself has been never added, for the subject having been at various times mooted, as there has been no suitable opportunity for such appropriation, or arrangement..

12. In the 4th. Para of the Board's Proceedings Dated 21st. December 1816 it is required, in order to ascertain whether the whole Beriz of the Keerambaor Village for Fusly 1225 amounting to Star Pagodas 1366-36-78 or Rupees 4783. 14. a/included the additional extent of lands in dispute, that a Statement should be furnished shewing the Cultivation of the land in the said Village by fields and individuals, as also of those Villages from which the additional lands are stated to have been taken, for three consecutive years, from Fusly 1223-

13. In reply the Acting Collector has the honor to state for the information of the Board, that such accounts and documents are not to be found on the Records of this Office, they do not excist in the Talook and the Village Curnum declares that his accounts were burnt when the Village Choultry caught fire in Fusly 1238 (A.D. 1828-29) and 1249 (1839-40) This

This is a very common Statement, whenever a fraud of this description is committed, no such vestiges of the truth, or chances of detection are allowed to remain, and should any fire happen in the Village it forms a ready excuse for the disappearance of the required records. There appears to be a peculiar affinity between the cadjan accounts of the Villages bordering on any Zemindary, and a Village fire. But although such excuse might avail the Curnum, the officers of the Tallook cannot refer to any conflagration in their Cutcherry. Nor can the Record Keepers in the Huzzoor quote any similar cause for the documents missing in the Principal Office. Still they are not to be found, and it may be very true that they do not actually exist. and the only date to be fixed for the disappearance, that on which the fraud itself occurred. For nothing of the kind could take place without extensive collusion between the persons connected with the Zemindary and the Circar Servants.

14. In consequence of the inability to procure any of the accounts or documents which, if produced, would have settled the matter at once, I adopted the next best course of ascertaining the facts, as far as they could by any possibility be learnt, by sending for the Curnum

Curnum of Keeramboor and the Talook nat Curnum Soobbah Pillay.

15. As the Chief Curnum of Keeramboor Chellandy Pillay, translate of whose deposition + No. 5. is herein enclosed, had not the accounts required, it was endeavoured to ascertain the quantity of land out of the 650 Cawnies brought to account from the thick jungle of Poonachee and the amount, if any, which was on that account added to the beriz of Keeramboor in Fusly 1225. A.D. 1815-16.

16. For this purpose Extracts from the Dowle accounts of those Villages for Fusslies 1224 and 1225 shewing the extent of lands cultivated in each fusly are herewith forwarded / No. 6 and 7 Statements /

17. From the said Statement No. 6 for Fusly 1224 it will be seen that deducting from the thick Jungle the quantity of land which was cultivated, the remainder appears Cawnies 145-60-15 Jungle waste for 1224.

18. Whilst in the Statement No. 7, it is mentioned that 650 Cawnies have been transferred from the forest land of Poonachee. If to this be added the above Cawnies 145-60-15 the total of Jungle land is 795-60-15: out of this Cawnies 305-26-9 were Cultivated

and

and the remainder of forest waste will be
Cawnies 490. 34. 6.

19. The Village Curnum stated in his deposi-
tion of the 29th. December last to the same
effect (see No. 5) Out of the 650 Cawnies
brought to the account of Keerambaor in
Fusly 1225, Cawnies 159. 70. 5 appear to have
been cultivated and added to Cawnies 145. 60
15. the extent of Cultivation in the 2 Fusliss
was 305. 21. 14. the teerwah on which (under
full and Cowle) on 1/8 tax (tenure) was Rupees
154. 8. This sum was included in the beriz
of Keerambaor for Fusly 1225. But the
297 1/2 Cawnies have long since come to full
tax: to the remainder then the Zemindar
would appear to have no right. Out of
the 650 Cawnies in dispute, as appears
above, only Cawnies 159. 70. 5. were Cul-
tivated: the amount of Tax on which at
only 1/8 or forest land waste rate would
be about Rupees 70. to which amount
alone the Zemindar could lay claim. but
the lands having long since reached the
full amount of assessment, the remainder
should have been carried to the account
of Government. (Vide accounts herewith submit-
ted Nos. 6 and 7.)

20. The Curnom has stated in his deposition

* This differs trifl-
lingly from the
above—
+8 Cawnies were
fully assessed
at 1/2 — 26. 4. 0
and 297. 21. 14 as
1/8 tax — 128. 4. 0
Total Rs. 154. 8. 0

deposition given before me on solemn affirmation
on the 29th. of December 1847. that the 1100 Cawnies in dis-
pute were never measured nor were the bounda-
ries of the same ever marked, and that they were
not brought to account under any orders from the
Huzzoor. Whilst the Tahsildar has also addressed
an Arzy in reply to my Takeed of the 28th. December
1847. that no orders were ever received from the Huzzoor
to bring the 1100 Cawnies to account.—

21. The Board of Revenue in the Extract
from their Proceedings under reply, call for
a Statement shewing the Cultivation of the
lands of those Villages from which the ad-
ditional lands are stated to have been
taken, for 3 consecutive years from Fusly 1223.
But I beg to state that the cultivation in
these hill Villages is carried on by hatchets,
spades, hoes, and such like hand instruments
besides ploughs: and not according to the
extent of land used. there are probably
no such Villages, the quantity of land
cultivated, and number of inhabitants
cultivating are not known; not being
ever brought to account, the tax being
settled on the means or method of cul-
tivation, therefore the required information
cannot be obtained from the Dowle accounts
of

* No 5

* No 8

of the Pachamallies nor from the inhabitants themselves.-

22- In obedience to the instructions contained in the 5th Para of the said Extract, the Dowle accounts of Poonachee, a hamlet of Combay, on the Pachamalies, have been examined, and the transfer of the 1100 Cawnies which if truly made would most certainly have been in the accounts of the Villages from which the transfer was pretended to be made, is not to be found there, or in plainer words there is no such entry in the Dowle accounts of Poonachy.-

23- Both Keerambore, which is supposed to have received accession, and Kombey with it's numerous hamlets of which Poonachy, which is supposed to have lost the land, is one, were all under Amane in the Fuslies 1225. and 1226.

24- With reference to the requisition contained at the end of the 6th Para, to explain the circumstance under which certain discrepancies have occurred in the Pymash accounts of the Istimrar Villages, I beg to state that the extent of Tarapady or ayakat of the 13 Villages for 5 fuslies; Viz. 1218- 1223- 1224- 1225- and 1226 is mentioned in the Statement + which accompanied Mr. Onslow's letter of the

+ No 9.

(Therein No 7) the 22nd August 1845, by which it appears that the extent of land made over to the Zemindar in Fusly 1227 was according to the Tarapady of the previous Fusly. In the Statement sent with Mr. Lushington's letter dated 26th December

* No 2. to the Board in the year 1816 (* copy of which is also now submitted) the amount of the Beriz of Fusly 1225 is above said in 1845 (and which was then numbered 7) the extent of land is alone entered. This appears to account for the discrepancies noticed by the Board. But the omission of the Tarapady for 3 Villages on account of Fusly 1216 with explanations of the increase and decrease subsequently brought to account, is rectified by the present Statements No 9.-

25 With reference to the information required by the Board in the 8th Para of their proceedings, the Acting Collector can only refer to the deposition of the Carnam of Keerambore, Chellandi Pillay. wherein it will be observed, that he states, that in Kevelambi or Fusly 1247 A.D 1837/38 (10 years back) a Suvamaniem of Cawnies 111-82-13 of Panjah assessed at Rupees 350 was bestowed upon Shashagherry Row, the Head Sheristadar of this District, on account of the Darbasayanem Chatram

Chatram, and that there is no Maniem entered in the name of Vardacharry for the said purpose; as mentioned by the Zemindar and the said Sheristadar. But the land is not (according to the Curnams Statement) included in the 1100 Cawnies above adverted to, but is allowed to be in the Village where the said land dispute has occurred, Viz.t Keeramboor. There being no individual accounts, it cannot be proved whether the land belongs to that portion which was calculated in Fusly 1225 or 1815/16 or not.-

26 The account for 10 years of the Cultivation and tax of the Darbasayanum lands granted in Shashaghetty Rows name is herewith submitted (No. 10) shewing the amount realized during that period to be Rupees 3,170-3-..

27- The Sheristadar and Zemindar seem both to state that since the former came to this District the land had ceased to be in his name and that the Money was with the Zemindar. But it is singular the Curnam knows nothing of this alteration, otherwise it is doubtful if he would still continue the Maniem in the name of Shashaghetty Row. The Zemindars Atty as above quoted. Dated 13th January 1847 No. 11 is herewith submitted. The Zemindar therein further states the Maniem to be in the name of Vardacharry: but the Curnam declares that man has no Maniem at all, nor does he know even who he is.-

I

2- I send a rough draft (No. 12) with its accompaniments A B & C prepared in the Office by the Sheristadar, which as it seems to differ from the Curnams Statements I beg to enclose. It is stated therein that of the 1100 Cawnies in question, 650 Cawnies were transferred to Keerambor and added to the fixed Beriz of Fusly 1225 by Mr. Ludlington; and the remaining 450 which were added to it in Fusly 1226 &c. the Government may claim of the 650 Cawnies, 159-7-5. only appear by the Statement No. 7, to have been given for ⅛ Teerwah, not 650 as the Sheristadar appears to state in the rough draft.-

29 The Statements hitherto submitted to the Board appear to be somewhat at variance with each other and with the rough draft above referred to which latter observes that Cawnies 458-73-7 could fairly be claimed by the Circar. whilst the Statement* which accompanied the Collectors letter of the 22nd August 1845 would tend to shew that the whole of the Tarapady or Ayacut, as it existed in Fusly 1226, was made over to the Zemindar in Fusly 1227. In an account No. 13 Dated 29th June 1842 drawn up by the Naibs Sheristadar it is acknowledged that there were

Cawnies

*Vide Statements C.

*No. 7

Cawnies 458-70- which had been transferred from the Circar to the Zemindar since 1225, and is therefore it is to be supposed the same was consi-dered recoverable on the part of Government, but 3 years later, in 1845, as above stated the said amount of land appears to be entered as belong-ing to the Zemindar all which is not very reconcilable.-

30 Even in the measurement there appears great difference, for the the Naib Sheristadar Vencata Row in his arzy submitted in 1821, stated that out of 1,100 Cawnies in dispute there were only 470 discoverable, that is only that amount of land in excess had been included:- 630 Cawnies were no where to be found in Veerambeor. But the pre-sent Deputy Sheristadar in year 1837 ap-pears to have measured Cs. 461-60 more making a total out of the Cs. 1100/ of 931-60- which appears to have been accordingly handed over to the Zemindar in that year: Where the said Cawnies 461-60- came from is not particularly made known for the Curnam states that prior to that year there was no cultivation of any portion of the said increased land. But what authority the land was then transferred

transferred does not appear, indeed does not appear to be even known, for Mr. Onslow in 1842, called upon the Naib Sheristadar to explain his proceedings in 1834, and on the 30th* June 1842 the Naib reported that he had not handed over any thing or made any settlement in the matter.-

* The date of the account or Statement is 29th June.-

The measurement in the case of the said 931-60 is herewith submitted No. 14.-

31. A Translation of the

No. 4 in Mr. Onslow's letter dated 22d August 1845.

Tahsildar Arogiam Pillay's Arzy in the matter of the Torrione Lands is herewith submitted No. 15.-

32. In examining this case thus far and answering the points desired by the Board I have received assistance from the Petitioner

† No. 1. Kristneengar whose † deposition is enclosed and who appears a willing and able Servant and certainly deserves well of the Government for endeavouring to bring out what he consider-ed fraud on the Revenue, and I doubt not the Board of revenue, in consideration of the long period he has been kept out of employ chiefly through his own awkwardness and unpreparedness to substantiate the charges

charges he had brought, will see no objection to his restoration to the same office, with any arrears of pay, or other remuneration, which it may be in their power to bestow.—

33. I have not asked for any explanation from the Shenistadar as such did not appear to be required from the Board of Revenue.—

No. 1.

Translate of a deposition taken on solemn affirmation before W. Elliot Esqre Acting Collector of Trichinopoly from Kistnien[illegible]gar late Tamil record keeper residing at Seeru[illegible]gum aged 40 Years on the 15th December 1847.—

Q. Orders have been received from the Board of Revenue to enquire into your complaint stating that in the Talooks of Torriore Land belonging to circar have been added to the lands of Zemindar, will you prove the same by accounts or by the measurement, if you can prove by accounts state by what accounts.

A. I will prove it by the 4 Doul Jamabundy accounts of Fuslies 1223. 1224. 1225. and 1226. of Torriore Islimeerah Keerambore Village the arzee addressed by Vencata Row. Hoozoor late Naib Seristadar in October 1821 to the effect that the lands now added to the Zemindary should not be made over. I do not recollect the date. the Doul accounts of two fuslies of the Combay Village to prove that out of the land added to Zemindar 93 Cawnies in fusly 1239 and 27 Cawnies in fusly 1240 Total 120. Cawnies lands were brought on to the circar lands the English Register of fusly 1239 written by Mr. Cameron &. the then Collector, the Cadjan accounts signed by Chellapah Moodliar naib Sheristadar for having in fusly 1243. measured the said extent said to have been added to the Zemindar and stated that it was 931 Cawnies. instead of 1100 Cawnies. The Puttah issued to the Talooldar in 1840 to allow the Zemindar to enjoy the lands mentioned in the said olay accounts. also the statement forwarded with the said cunnied allowing the Zemindar to enjoy more land than existed in the 13 Villages made

made over to him in the beginning 2 accounts furnished in June 1812 by Chellapah Moodliar Naib Siristadar stating that 450 of the 1100 Cawnies were newly included in fusly 1226.—

/Signed/ Ristnengar

S. R. keeper

Taken again on solemn affirmation on the 16th December 1817.—

Q. State have you any other document besides the above said accounts.—

A. I have viz. 1 Arzee addressed by Aurkeen Pillay the Tahsildar of Torriore in July 1810 stating that the above 1100 Cawnies of land should be added to the Circar. 1 Statement forwarded by him with an arzee in the month of August about the said Land 1 arzee addressed by Chellapah Moodliar Naib Siristadar in June 1812 stating that he had done nothing concerning the above said Land 1 arzee addressed by the Zemindar in the Month of February or March of 1810 claiming the remaining lands besides the 1100 Cawnies which was found to consist 931 Cawnies during the measurement of Chellapah Modaliar in fusly 1213. by these documents I will afford proof

proof besides these as it is very important that the Board should be informed that in fusly 1255- 650 Cawnies from the Devungad or thick jungle Poonachee Puchamalay belonging to the Circar were included in the Istimrar lands and that they were during that fusly cultivated and added to the Beriz of the Keeramboor Village. Chillanda Pillay the Curnum of Keeramboor Soobbramanier Pillay his Goomastah and the Curnum of Sengadoo hamlet should be sent for with annual Doul accounts Individual Pymash accounts, Account of Demand Collection Tandul koorooshoo accounts of fuslies from fusly 1223 to 1226 and examined for the purpose of ascertaining how many cawnies out of the 1100 Cawnies were Cultivated yearly and finding their precise tax also Naut Curnum of Torriore Talook must be sent for with Doul accounts and individual cultivation accounts of fuslies from fusly 1223 to 1226 of Keeramboor Village now in the Talook Cutcherry and examined. By these accounts and those individuals I will prove that the lands belong to circar after you have caused these documents to be translated and perused I will give further information I have also something more to state after the Curnums have been examined.—

2. Have you brought here the above related accounts.—

A. I have brought with me all the abovementioned accounts and they are all now ready.

2. It appears that you have not any accounts for certain fusles where are they.—

A. The accounts which are not forthcoming are consumed by fire.—

2. What accounts and in what fusles were they destroyed.—

A. The accounts were consumed in fusles 1238 and 1249. I do not know exactly what accounts were consumed

consumed but the whole of them were destroyed except those which are now forthcoming.

2 In what place were they kept when so burnt.

A. Part of them were consumed in fusly 1238. when kept in the Village Choultry, part of them in fusly 1249 when in my own house and part of them in fusly 1238 when in the house of Chellamoottoo Counden Puttadar.—

2. Where were the Accounts now forthcoming kept when the other accounts were consumed

A. They were kept in the places abovementioned but I took them away carefully.—

2 What was the extent of the whole land of the Keerambooor Village in fusly 1224 and what was the extent in fusslies 1225 and 1226.—

A. In fusly 1224 the whole extent of land of the Village was Cawnies 2240 7/16 including Runjah and Poonjah in fusly 1225. the extent was Cawnies 2890 7/16 and in fusly 1226 Cawnies 3314 7/16 including Runjah and Poonjah.—

2. What is the reason of an increase in fusslies 1225 and 1226 more than in fusly 1224.

A. 650 Cawnies from Poonachee Pichamalay having been brought to account in fusly 1225 and 450 Cawnies from the same source having been brought to account in fusly 1226.

Attested

H. G. B.

there was an increase of land in each of the fusslies 1225 and 1226

2 Why were 1100 Cawnies of land from Putchamalay Poonachy was brought to the accounts of Keerambooor Village.

A. I do not Know the cause: I was not employed as Curnom at that time.

2. Have you any Orders for bringing the same to the accounts of Keerambooor

A No.

2. Have you any account shewing the measurement of the land in two fusslies when it was brought to the accounts of Keerambooor.

A. I have no accounts shewing the measurement which was made in the abovementioned 2 fusslies.

2. Is there any entry in the accounts shewing the Measurement of the lands, and the formation of a chuck bandy made when those lands were brought to accounts.

A. I have no such entry in my accounts

2. Were you present when Venkata Row the late Naib Sherestadar surveyed the lands and examined the boundary of the Village.

A. I was not even employed as Curnom when he came to survey the said boundary. one Chellacootty Cocondeu was then Curnom.

2. See the accounts which accompanied the

the arzee of Vencata Row dated 28th October 182 wherein the signature of Curnom Chellandy Pillay is affixed, state whose signature is it.

A. I have seen it, it is not mine, I was not Curnom at the time, and I do not Know who signed it.

2. How many Cawnies out of the 650 Cawnies of land which were brought to the accounts in fusly 1225 were cultivated during that fusly?

A. I do not Know how many Cawnies out of 650 were Cultivated in fusly 1225, but 305 Cawnies 3 1/4 of thick jungle were cultivated during that fusly.

2. What was the extent of thick Jungle in fusly 1224 and what the extent of the sand in fusly 1225?

A. In fusly 1224 the extent of thick Jungle was Cawnies 145 60 15/16 in fusly 1225 the extent was Cawnies 795 60 15/16 Goolies including the extent of fusly 1224. out of which Cawnies 305 3 1/4 Goolies of land are entered to have been Cultivated during that fusly.

2 Is the above said land Cawnies 305 3/4 which was Cultivated in fusly 1225 included in the extent of the thick jungle fixed in fusly 1224 or is it included in the 650 Cawnies of the thick

thick jungle which were brought to account in fusly 1225.

A. I do not Know as there were in fusly 1224 net Cawnies 145 60 5/16 of thick jungle and as 300 and odd Cawnies of land were Cultivated in fusly 1225. altho the whole extent of land was brought to Cultivation during the fusly 1224 the remaining 159 Cawnies 3 1/2 Goolies of land should have been Cultivated out of the 650 Cawnies.

2 Were the abovesaid Cawnies 305 5/16 Cultivated for full Teerwah or given at a Cowl rate

A. I must refer the accounts to answer that.

(Signed) Chellandy Pillay

Deposition taken on solemn affirmation Continued on the 7th January 1848.

2. You state that you will see the accounts and answer my last questions as you have seen them, state the particulars.

A. As I have not at present with me the individual Puttah accounts of fusly 1226 I have seen the accounts of fusly 1226. where I find the lands of the thick jungle which were Cultivated for 1/8 Teerwah were in fusly 1226 Cultivated for 1/4 Teerwah I calculated the

the total according to Individual Cultivation and found it to be Cawnies 105-40/8. the grant teerwah upon which amount to Rupees 19-13-4½ the half of which being the amount reckoned during the preceding fusly for the same land it amounts to Rupees 53-14-8¼ these 105 3/8 Cawnies of land are included in the aboved said 385 5/16 It does not appear from the accounts to what sort of Teerwah the remaining Cawnies of 199 16/16 land was subjected to-

2. Were the Cawnies of 105 and 40 3/8 Goolies of land included in the 850 Cawnies which were brought to accounts in fusly 1225 if not, what sort of land was it.

A. Of the above said 105 Cawnies and 40 3/8 Goolies of land Cawnies 68-23 8/16 was entered in the Pymash Area accounts of fusly 1216 as for the remaining Cawnies 37-17 I do not understand from the accounts whether they are included in the Pymash Accounts of fusly 1216 or in the 650 Cawnies which were brought to accounts in fusly 1225.

2. Are there any Ryots in existence who cultivated 385 3/8 Cawnies of land in fusly 1225.

A None of them are forthcoming

2. Are the 1100 Cawnies of Land which are brought

brought to account in 2 fusles at present Cultivated and if Cultivated, what is the teerwah thereof?

A. In fusly 1224 the net Cawnies of land of thick jungle is 145. Cawnies 60 10/16 goolies. In fusly 1225-1226-1100 Cawnies were brought to accounts from Poonachee malay.- Total Cawnies 1245 60 10/16 out of which Cawnies 385-26 1/16 were Cultivated in fusly 1225 Cawnies 754-6 3/16 in fusly 1226. Cawnies 70-79 7/16 in fusly 1227 Cawnies 9-76 9/16 in fusly 1228 Cawnies 89-32 13/16 in fusly 1244. Cawnies 159-89 1/16 in fusly 1245 Cawnies 00 in fusly 1246 Cawnies 94-62½ in fusly 1249 Cawnies 16-98 7/16 of land in 1250. Total Cawnies 952-32 9/16 were Cultivated the remaining Cawnies 293-29 11/16 are entered as thick Jungle- or uncultivated, but in reality there were no such lands of the aboveaid. Total Cultivated Cawnies 952-32 13/16 Cawnies 120-10 7/16 were brought to the Accounts of Combay Great Village in fusly 1246- the teerwah of the remaining land Cawnies 832-23 7/16 amounts to Rupees 2883-11-a. which the Zemindar is now enjoying-

Q. Did the Tahsildar Chennasswamy Pillay examine you in the Month of January of 1843- about the said 1100 Cawnies of land-

A. I do not recollect.

Q. Look at the accounts in the head of which

which you will see measurement of the lands belonging to Puchamalay brought to the Dawl accounts of Keerambaor in fushes 1225. 1226. Measured by Chellappa Moodeliar in fushy 1243.

A. I have read the whole.

Q. Where is the land therein mentioned?

A. The extent of land is Cawnies 931 Gooly 29/16 it is bounded by Carppana Covil of Vurda pajapooram on the North, by Poonachy in the South, by Venkadathan Kootty and the road to Poonachy on the east, by the Combay limits on the west.

Q. Whose signature is affixed in that account?

A. The signature of Chellappah Moodaliyar Nail Sheristadar.

Q. By whom were the accounts written?

A. I do not know.

Q. Is the whole land mentioned in the accounts said to have been measured by Chellappa Moodeliar Cultivated or waste.

A. Some of them were Cultivated and some laid waste.

Q. Is the whole land now Cultivated?

A. Some of them are Cultivated but some fallow.

Q. What is the account of Teerwah for the

the Cawnies 931.

A. I do not know the amount of assessment.

Q. You have stated that Cawnies 832-23/16 of land were annexed to the Village and enjoyed by the Zemmindar but from the above said accounts it appears that Cawnies 931 and odd have been measured what do you say to this.

A. The lands were measured by Chellappa Moodeliar, and by the Servants of the Zemmindar, consequently I do not know the particulars.

Q. Are the said 931 Cawnies annexed to the abovementioned Village.

A. It has been annexed to the Village Keerambaor and the hamlet Vundarajapooram.

Q. It appears from the complaint of Pistiengar that a tract of land bounded by Pippen Caradoo in the limits of Keerambaor on the north, by the supplying stream of Nulla Coumden Cottay on the South by the area (annexed) to the Village during the Measurement of fushy 1216 in the east by the lands cultivated by Combay Ryots on the west, is Cultivated and added to the above Village and the Teerwah of which is enjoyed by Zemmindar state what is the extent of that tract

A. The extent of that area will be about

about 25 Cawnies of Poonjah land and the prod
amount of Teerwah of which will be Rupees 31
2. To what Village does that land belong
A. As the lands are Cultivated by the Ry
of Keeramboor Estate that they belong to Keeramb
2. Is it included in the Pymash accoun
of fusly 1216.
A. As I did not survey the Lands with
the Pymash accounts I cannot tell whether they
are included or not but the Teerwah of the Land
is annexed to the Zemindary.
2. How many Cawnies of land out of that
Village have been granted as Maniem by the present
Zemindar and to whom were they given.
A. The present Zemindar Durmaseve
at any annual bestowed in fusly 1240 to Sodiave
Coil and Permaul Coil a Survamaniem
consisting of 15½ Cawnies of Poonjah land subject
to a teerwah of Rupees 47-8-9 and 1 Cawny
52 9/16 Goolies of Bagayet land subject to teerwah
Rupees 24½ Total Cawnies 17 3/8 the Teerwah
of which is Rupees 72-9-0 and in fusly 1241
Hevilambe a Survamaniem of Cawnies 111-82 3/16 of
Poonjah Land assessed at Rupees 800 is bestowed
on Sashagherry Row on account of Dharbaragam
Chatram and in fusly 1247 8 Cawnies and 4 3/16
Goolies of Poonjah land subject to Teerwah

of Rupees 13-15-3 is bestowed on Calingadiamaya-
ger and in fusly 1250 Sarvareeyear a Survama-
niem of Cawnies 14-17 3/16 subject to a Teerwah
of Rupees 44-8-3 is bestowed on Jemboolinga
Iyer and in the above year a Survamaniem
of 13 Cawnies of Poonjah land subject to a
Teerwah of Rupees 39-4-0 were bestowed on
Seethamaul and in the above year a survama-
niem Cawnies of 14-8 1/4 including Nanjah and
Poonjah subject to a Teerwah of Rupees 03-7-6
bestowed on Navaneedom Kistna Roger In the
same fusly 4 Cawnies and Goolies 8 7/12 including
Nunjah and Garden land subject to a tax of
53-12-3 was bestowed upon Samboorodee
seevasedamberam Pillay and Cawnies 2-33 4/16
of Nanjah Land subject to a Teerwah Rupees
03 1/4 was bestowed upon Chellappa Reddy
in the same fusly.
2. Since the time the Istimrar or present
estate was made over to the Zemmdar were
any Lands out of the said Village bestowed as
maniem upon Vardacharee, if so far what purpose
and how many Cawnies of Land were so given.
A. Vardacharee has no maniem in the above
said Keeramboor Village, nor I do not know who
Vardacharee is.
2. Read the arzee submitted by the

the Zemmdar Durmadavadamy Ammaul to A.P. Onslow Esqr. Collector dated 13th January 1847.

A. I have read it.

2. Therein it is mentioned that a Certain gift of land has been bestowed upon Verdacharee for the purpose of giving alms to Byragies at the place called andee setti Durbaseyanum; you have stated that no maniem has been bestowed on, or in the name of Verdacharee in that Village what say you to this.

A. In my accounts there is no maniem entered in the name of Verdacharee but there is an entry in my accounts of a suvanamaniem on the name of Lachagerry Royer on account of the Chattaram of Durbaseyanam.

2. Is the said grant of land Cawnies 111-82-13/18 mentioned in the abovesaid Arzee the very same which is granted to Lachaghery Row on account of Choultry of Durbaseyanum or otherwise

A. The land mentioned in the abovesaid Arzee is the same which I mentioned to have been bestowed for the Choultry of Durbaseyanum and not any other.

2. You stated that the maniem on account of Durbaseyanum Chetteram is entered in the name of Lachaghery Row and that is the same land which the Zemmdar mentions in his Arzee-if so why should the

the Zemmdar write that the land was bestowed upon Verdacharee.

A. I do not know.

2. To whom does the Choultry Durbaseya-num belong and who is the said Lachaghery Row-num belong

A. I do not Know to whom the Chetteram belongs but I Know Lachaghery Row is the present Head Shirestadar of this District.

2. In the lists given by you and your Goomastah Loobramanie Pillay just now, you entered only Durbaseyanum Chatteram, omitting the name of the person, why did you not write it, as it is in your accounts

A. I have written as it was entered in the accounts of fasly 1206 I will now prepare another and give it in.

2. You stated that the maneem was bestowed for the Choultry of Durbaseyanum; ys. it included in the 1100 Cawnies in dispute, or to what land does it belong.

A. It is not included in the 1100 Cawnies but out of the land measured in fasly 1216.

2. Are the accounts correct which were given by you and Loobramaniem another Curnom regarding the Maniem land and its Cultivation.

A

Fort St. George 28th September 1848.

A. They are perfectly correct accounts.

Q. In the bundle of accounts there is a receipt forthcoming passed in July 1247 to Chellamaottoo cowonden Puttadar by yeragoody Coobbaroyen for having received Rupees 181-14 on account of Durbasayamum who is he and where is he?

A. The Zemindar having appointed Coobroyen as Maniem for the purpose of collecting the Money on account of Durbasayamum a this receipt has been passed by him for the money, he then received, he is now at yaragoody

Q. Have you any orders from Zemindar for granting the maniem.

A. I have no orders from Zemindar regarding it I have entered the Maniem in the account as I was personally ordered by Sevaraedumboo yrum Pillay the Coombathi of Zemindar.

Q. What is the Beriz of Keerumboor in July 1225. and what is the Beriz of July 1257

A. The Beriz of Keerumboor in July 1225 was Rupees 4559-6-3. and the Beriz of July 1257 Rupees 8,527-1-3 the Beriz of Vurdaraja poorum of Keerumboor Rupees 1,948-13-8, Total present Beriz 8475-14-9. In July 1258. there is therefore a net increase of Rupees 3916-8-6.

Q. Give a statement with your opinion thereon.

Translate of an arzee submitted to W. Elliot Esqre Acting Collector of Trichinopoly by E. Chinnasamy Pillay Tahsildar of Torriore.—

As it appeared from the Dowl Jammahbundy accounts of Keeramboor on Istimrar village in the Torriore Talook in fusly 1225 (1815/16) Cawnies 650 and in fusly 1226 460 Cawnies Total 1100 Cawnies were brought from Poonachee Pachamalay to the accounts of the Keeramboor Village I was ordered by your sunnud dated 28th December 1847 No. 653 to forward any sunnud in the Talook Cutcherry which might have been issued from the Hoozoor authorizing the abovementioned transfer.—

I caused search to be made in the records of this Talook for the document but could not find any such issued from the Hoozoor during those fuslies for the purpose of bringing or transferring the lands appertaining to Pachamalay to the accounts of Keerambor and therefore have written the above for your information.—

Having received a Pakeed from you dated the 2d January directing me to prepare and furnish to the Tahsildar an account Particular showing the extent of lands cultivated in Fusly 1223 and in the two subsequent fuslies together with their assessment and the Number of Individuals holding them, and also the number of Shalums &c. in the Keerambore Village &c attached to our Zemindary as those particulars are required by the Board of Revenue and calling upon me to state that out of certain extent of lands said to have been granted as Maniem for the support of the Charity at Ramasooram what quantity of land is in each village and whether those lands have been included in the 1,100 Cawnies said to have been brought as an increase to the village of Keeram-boor, or whether they are quite separate from the lands of that village - I beg to state that agreeably to your orders I sent for the Curnum of Keeramboor and directed

directed him to produce accounts accordingly for 3 fuslies from fusly 1223, but he stated that the accounts for those 3 years and for some subsequent years were burnt at the time the village took fire and that he had with him only the abstract cudjan of the settlement of the aforesaid fuslies, but during the examination - which took place before the Tasildar Chinnasawmy Pillay, he left in the Talook Cutcherry the abstract Cudjan of the - Settlement of fusly 1224 - 1225 - and 1226 but he having now produced before me the abstract Cudjan only for fusly 1223. I have forwarded it and the Curnam to the said Tasildar. -

After my Husband Prasumna Venecatachala Reddyar had bathed in the Sea called Satoo (Adams Bridge) he granted annually Rupees 350 to me named Verda- -chary, for the purpose of keeping up an almsgiving establishment. -

For all Byraghees at - Durbasayanem and in lieu of that sum he granted 111 13/16 Cawnies of Poonjah lands as Survamaniem in the South west part of the Keeramboor Village those lands are not included in the

the 1100 Cawnies of land brought to the account of the Kerramboor Village from the village of Combay they are on separate lands— an account Particular shewing the extent of lands and teerwah, which has been furnished to me by the Village Curnum is herewith sent, having affixed my signature to it.—

The Charity aforesaid on being continued in the Madura District, thinking that by sending the money to any body direct the Charity cannot be kept up well I continued sending the money to the Head Sheristadar Sasha=ghierry Row on account of the said Charity, as long as he was at Madura— after he came away to this place, as the Charity was not kept up properly, I have retained the amount collected during these 3 years.—

To The Secretary to the
Board of Revenue

Sir,

I have the honor to acknow=ledge the receipt of the Extract from the Proceedings of the Board of Revenue— under date the 21st December 1846 regarding the 1100 Cawnies of land property belonging to the Circar having been possessed of by the Zemindar of Porriore, and calling for infor=mation on several other points therein enumerated.—

In Para 1 the Board— observe that the land Revenue of the Kurum=boor Village including Topes amounted to Rupees 479 8 3— 11 —0 and whether this amount of Baney included the said additional extent of land and to ascertain this— point, and also directed to furnish a Statement shewing the cultivation of the Lands of Kurumboor by fields and Indi=viduals and also of those Villages from which the additional lands are stated to have been taken in the three consecutive years from Fuely 1223.

Both the Zemindar and the Tahsildar of the Taluke reported to the Hoozoor that

Fort St. George 28th September 1848

that the detailed accounts of the Village of Keerumboor were consumed by fire, but that the abstract of the above details are forthcoming and consequently they are unable to supply the accounts from their records. I beg to enclose an Abstract Statement for the Keerumboor and other Villages shewing the lands transferred from one Village to another. No ayacut account for the Hill Villages of Pachay Malay, Poonachy and Coombay were prepared nor were they ever surveyed. of the 1100 Cawnies in question 650 was transferred to Keerumboor in fusly 1225. and included in the Bareez fixed by Mr. Lushington. and the remaining 450 which were added to it in fusly 1226 together with 8 cawnies and 93/4 Goolies in 2 other Villages as exhibited in Statement No. 3 the Government may claim.

+ No. 1-2-3.

In para 5 the Board observe that the 1100 Cawnies added to the Village of Keerumboor for cultivation from Pitchay Malay 9 ca Villages ought to have been specified in the Dowl accounts of such of the Villages from which the transfer took place. No such entries have been made in the accounts because the lands attached to the Hills were not surveyed nor the Tarapady or Gross

Fort St. George 28th September 1848.

Gross extent of land ever ascertained.

The enclosed Statements from No. 1 to 3 will fully explain the discrepancies in the land between the extent entered in the Dowle of Fusly 1227 and that of the survey of Fusly 1216. The transfer of land from one Village to another was usually made when ever they were needed for cultivation and which transfers remained unaltered until the Villages were made over to the Zemindar as is generally the case in several other Circar Villages.

With regard to the alienation of certain lands for Choultry purpose the Board direct me to ascertain the extent and assessment and particulars whether they form a portion of the lands which are declared to have been annexed to the Zemindary. I beg to state that the alienation is in the Village of Keerumboor from a part of the tract included in the Original survey of the Village but certainly it is not a portion of the 1100 Cawnies in question.

The Boards observation regarding the Management of the Charity contained in the concluding Para of the Proceedings under reply has been communicated to my Head Sheristadar Shashageery Row, he in reply declared that he has already renounced his Agency since his transfer to this district.

No. 15.

Translate of an arzee submitted to A.
P. Onslow Esquire Collector of Trichinopoly
by Auroktiem pillay Tahsildar of Torriore,
Render date the 30th July 1840 No. 321.

The Order No. 261 dated 20th
has been received on the 21st Instant &
directing me to send the Statement &
referred to in a former order about
the Circar lands taken possession of
by the Istimira Ryots.-

I learnt by a reference
to the Pymash account, and by per=
=sonal examination, that 1,100 Cawnies
from the Circar Village Kombay
were transferred to the Istimira
Village Keerumboor, and a report
on the subject was submitted to
the Hoozoor on the 20th March No. 83
for which, an order was received that
a Pymash account be made after
the receipt of another &
Order.-

I afterwards received &
another Order that one Condasawmy
pillay has been deputed for the pur=
=pose, and with his assistance to pro=
=ceed on with the pymash.-

Condasawmy

Fort St. George 28th September 1848.-

Condasawmy Pillay accordingly came and only remained here 8 days and being appointed to another office, left this place and since his departure no order about Pymash has been received neither was it made.-

On inspecting the Dowle of Keerumboor of Fuslies 1255 and 1226 I find that there is an entry of 1,100 Cawnies in the Jammahbundy Dowle of that Village as having been transferred to it from Rombay on two separate occasions Viz.t 650 Cawnies in fusly 1225 and 450 Cawnies in fusly 1226, but it does not mention that the land so transferred was Cultivated.-

For the transfer of 650 Cawnies mentioned in the Dowle of fusly 1225. 444 15/16 Cawnies are mentioned as being Cultivated, and the Cowle Teerwah fixed thereon is a Rupees 282-9-1/2 at the average rate of Rs. 0-10-2 1/2 per Cawny the remainder 205 1/8 Cawnies is said to be waste.-

For the transfer of 450 Cawnies Mentioned in the Dowle of fusly 1226 - Laws 171 - Cs. 75 - Chs. 1 - are mentioned as

Fort St. George 28th September 1848.-

as being Cultivated and the Teerwah fixed amounts to Rs. A. P. 88-1-0 at the average rate of Rs. A. P. 0-8-2 1/2 per Cawny the remainder 278 1/8 Cawnies is said to be waste.-

It is moreover entered in the accounts of Keerumboor that from the aggregate extent of 1,100 Cawnies transferred 616 11/16 Cawnies are Cultivated, and 483 5/16 Cawnies remaining as waste.-

Tho' it is so entered in the accounts yet the extent Cultivated in those two fuslies was not known or during my examination, if this extent had been actually Cultivated it will be easely known by a reference to the Sagoobady Cloogoo account of these two Fuslies now in the possession of the Istimira Ryots, until this account is produced and proved, it seems proper to include in the Circar Village the said 1,100 Cawnies now under Cultivation, and attached to Keerumboor.-

Therefore the said 1,100 Cawnies stated to have been transferred from Rombay is so entered in the Dowle accounts of the Istimira

Village

13904

Fort St. George 28th September 1848.

Village Keerumboor, but it does not appear to have been deducted from the Dowle of the former Village, and it is besides understood that the said 1100 Cawnies was over-grown with thick Jungle up to Fusly 1234 whilst so, how could it be transferred to Keerumboor as Cultivated lands in Fuslies 1225 and 1226 - this is certainly very ridiculous.-

This my statement will more-over be clearly understood by a reference to the Maratah Dowle of the said 2 fuslies now in the Hoozoor as no pymash has been made, the requisite account has not been sent.-

From the Agt. Collr of Trichinopoly - Reports on the consumption of Salt -

Para 1

I have the honor to acknowledge the receipt of the Proceedings of the Board of Revenue dated the 17th July together with Copy of Para 27 to 30 of the Esctract from the Honorable Court's Despatch regarding the Consumption of salt in the Provinces under the Madras Presidency

In my letter to your address of the 26th of January last I enclosed a Statement shewing the quantity of Salt which had been brought into this District for Consumption during the last 3 years (from 1845 to 1847) as learnt from the Rowanahs Recovered from the Merchants - By that Statement although I confess it is not particularly trustworthy, for the Reasons given it appeared that about $\frac{1}{3}$ only of the probable Consumption was covered by due and legal permits, from which it was to be suspected that $\frac{2}{3}$ of the Consumption was either supplied from illicit sources, that is, smuggled, or consisted of earth Salt or possibly of both together - As it is the Method to be adopted

adopted in the supply of this deficit in the Consump-
=tion of Sea Salt, that the Board require opinion
and information, I will add a few words to my former Rep.

3 The illicit trade to which the above
has reference may be considered two fold. one a
direct Smuggling of the genuine article by
Collusion between the Merchant and the Govern.t
Officers at the Salt Depots, and the other the in-
=troduction of a spurious Article which by its
supposed or Comparative advantages supersedes
the genuine article in the Market.

4 The manner in which it is
probable that Smuggling is generally effected
is thus. A Merchant purchases 5 Garce of
Culinary Salt from the regular authorized
depositories. He will pass through places
where earth Salt is procurable and mix one
Garce with the five which is not subsequently
distinguishable. One Garce of this mixture
he will sell at different villages on the
road arriving at his destination with the
original quantity viz.t 5 Garce, thus he
escapes detection and practises the game proba-
=bly once every two or three Months, again the
said Merchant having once obtained a Romanah
for

for 5 Garces, unless discovered may dispose often times
that amount on as many trips protected by the same
permit. An ostensible diminution of Salt Consumption
and a real deficit in the Salt Revenue cannot
fail to be the result of such practices.

5 To obviate this, the number of days required
for the Conveyance arriving at its destination as
well as route itself should be mentioned in the
Romanah, and for any delay suspecious, or not
satisfactorily accounted for a fine should be
imposed or the Goods liable to partial or full
Confiscation. Under similar penalty none of the
Salt should be sold till some officer of Govern-
=ment has received the Romanah.

6 It is doubtless fully known
to the Board that the manufacture of earth
Salt is carried on to a great extent in the
Country of His Excellency the Rajah Tondiman,
and this forms an excuse doubtless for zemindars
and others to make, or rent the facture of
earth Salt on their own account, which Salt
when detected is of course invariably declared
by such parties to have come from the above-
=mentioned independent Territory. One
of the best remedies for the discontinuance
of

of this deleterious article of food, would be the offering to His Excellency a Consideration for the discontinuance of such Rented Monopoly, sufficient to amount to his present receipts on the said account, when His Excellency would doubtless add the weight of his authority to the prohibition, even if he did not allow more direct interference on the part of our Government.

7 The above prohibition would have the advantage of tending greatly to encourage the Consumption of Sea Salt, for by Comparatively annihilating the production and therefore Consumption of earth Salt, the Consumers must of necessity look for their supplies from the Coast.

8 In thus cutting off the supply of their cheap saline earths or deleterious salts, it will be but fair to reduce the price of the more costly article so as to bring it within their means of purchase. If the price were fixed at 100 Rupees the Garce for all the kinds which usually find their way into the interior there would be I think a great increase in the Consumption and greater Remuneration to the trader that superior kind which requires no refining and which is therefore denoted

denoted solely to exportation might bear the present price of 120 Rupees for the Company's Monopoly rich alone would use it, and would be no losers by the high price, since the red, black and yellow Salts now sold in the market cannot be used by respectable Natives or Europeans without previous washing or refining by which from 20 to 25 per Cent is sacrificed.

9 Although the produce of these saline earths is generally unwholesome it is not probably so to the very poor people who have been accustomed to it from their Childhood to the same extent that it is to those of a higher grade, and all the poor purchase, exchange for grain, or manufacture the earth Salt, this must not be attributed to the high price of Sea Salt, for they preferred the cheaper article both for Consumption and traffic when the price of the other stood at 70 Rupees, though it is most probable that the manufacture of the spurious kind has been increased by the augmentation of the price of the real Salt.

10 The places where earth Salt is manufactured will be generally found to be the same as those where Salt petre is made

made, the earth is the same, but the process different. To make Salt petre the saline earth after being soaked and drained is received into a trench or well and the brown or deep yellow liquor boiled 2 or 3 times according to the fineness required - earth Salt is made in the hot dry weather somewhat like sea Salt, except that in the pans on the Coast Salt water is introduced and the produce is the Crystaline deposit, whilst for earth Salt fresh water is sufficient and the pro=duce a saline or Crystallic efflorescence.

11. The above alluded to villages should be watched for under the pretence of making Salt-petre there is little to prevent the manufacture of earth Salt, although of a much smaller or inferior kind to that made in the Pondicherry Territory.

12 A presentative to the Manufac=ture of earth salt and stimulus to extra vigilance on the part of the Police might be found in giving them the value of the quantity seized, or half of any fine paid to the informers or discoveries according to the discretion of the sentencing officer. The value being estimated at half the price of the same quantity of Sea Salt in any of

of the adjoining Markets.

13 Although a point to which I am not called upon or expected to offer an opinion I would observe that it might be worthy consider=ation whether the Collection of spontaneously produced Sea Salt might not with advantage be farmed out, for the produce is not un=wholesome and differs in no respect I believe from that manufactured for Government - the legalizing such traffic would be sheer profit to the Cercar for no prohibition can prevent its abduction as long as the price obtained for the same by smuggling is remunerative.

14 Within the last 12 months 42 persons in 14 cases have been punished by the Magistracy for being found in possession of 861¼ Measures of earth Salt, the parties were of the poorest description with one exception, when 2 Puttah=dars were concerned and were severally fined, the others were more leniently dealt with, and the illegality of the traffic fully explained to them.

From the Collr. of Canara.

Forwards a Statement of the sales of Salt in the District of Canara and affords information upon the several points referred to by the Board in their Proceedings of the 7th July last.

Sir,

I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated 17th July last, and now forward a Statement of sales of Salt in the Canara District prepared in the form furnished by the Board with such information upon the several points referred to by the Board as I am able to supply-

2 The quantities of salt sold in Canara for Home and Inland Consumption are not distinguished in the accounts of this District until Fusly 1231 and for the four first years from Fusly 1216 to Fusly 1219 the quantity sold cannot be ascertained, the aggregate price only being given- In the column of rates (Col. 3) the price of salt at the places of manufacture in the District is alone entered, but there were a great variety of rates up to Fusly 1238 owing to the practice which prevailed of adding the Extra charges incurred in transporting salt by sea from one part of the District to another to the regular wholesale price as these rates differed in different parts of the District in proportion to their distance from the place at which the Salt was manufactured- they cannot be given in

Fort St. George 28th September 1848

in detail nor do they appear materially to affect the General question-

3 The result as given in this Statement appears strongly to bear out the conclusion which the Honorable Court of Directors appear disposed to entertain, that the gradual increase in the Monopoly price of Salt "has either rendered it impossible for the people to obtain a sufficient supply of this necessary of life or that they have been supplied through illicit Channels."

4 As the particulars of Home Consumption are not obtainable for the earlier period I have for the purpose of Comparison taken the last year in which the price was at 70 Rupees, the last at which it was at 105, and the present time or the year just concluded when it is at 120 Rupees- The following table gives the Population in each of these years, the average Consumption per head, and the sum expended in Salt by each person in the District- But as the Consumption in the Balaghaut Talooks has till recently been entered as Inland Consumption a separate statement is given for Lower Canara which may be considered as more correct-

From the Returns of the Collectors of the several Districts, that under the increase in the Population, the whole, Entire District, during the 12 years 1237 to 1248 Fasly, the actual quantity of Salt sold was 32,9000 Garces, and the Consumption per Head was decreased from 1531 Garces to 1470. The increase in the Population of Lower Canara by which the Consumption of Salt was increased from 1237 only 8 Years 21 to 1248 Fasly was 1,74,618 Souls, but the Sale of Salt during the same period was increased in the proportion of 12 — 38 Rs Sale Lead 2,53,000 Garces, the Rate of Commutation was lead 87½ Rs a Garce, but in 1257 Fasly it was reduced to 120 Rs a Garce, and the Consumption per Head was reduced from 1505 to 1486 Garces, and the Population 99,4656 souls to 1,74,618 souls entered as for Home Consumption in the Quantity entered as for Home Consumption in the Lower Canara column, eight Garces in each Head, and the Value Rs 21,32,000 to be an increase of 1,74,618 Souls.

6 The decrease in the sales of Salt here shewn may I think reasonably be attributed to the increased price, but not altogether so I doubt for example whether if the price were again lowered to Rupees 70 per Garce the quantity purchased from the Government stores would rise to 12 Seers per person - The people are now essentially less afraid to commit a breach of the revenue laws which protect the Salt Monopoly, and the habit of smuggling or rather of consuming Salt which has not been purchased at the Government depots, is one which having been once acquired is not easily to be over-come by any means which are now available, or without a resort to restrictive measures more severe than the Government would consent to adopt - That large quantities of Salt are consumed by the population living near the Coast which have not been purchased from the Government stores cannot be doubted. It is shewn indeed by the fact that in those years which are most favorable for the manufacture of Salt, and when it is spontaneously produced in many places, and can be easily gathered, the sales at the Government stores always fall off thus in Fusly 1255 which was a good Manufacturing year the sales for Home consumption fell off from 1359 Garce to 1323

and

and rose again in the following year which was an unfavorable one to 1394 – In 1757 / last year / which was one of the most unfavorable years known owing to the hurricane which took place in April and swamped all the Salt pans, the sales for Home consumption rose to 1470 Garce. The indulgence which has for the few past years been conceded to the fishermen on the Coast to use earth Salt or the earth or Sand impregnated with Salt for the purpose of curing fish has perhaps to some extent contributed to lower the quantities sold, by affording an excuse to the poorer classes of inhabitants to collect and consume this impure article, but I do not Conceive that this cause has operated to any great extent – There is no Salt of that description which is understood by "Earth Salt" produced in this District, what is here alluded to is the Mixture of Sand and Salt gathered on the Sea Shore

7. The above observations have reference exclusively to the Home Sales or consumption within the District – The result as regards the Salt exported by lands into the interior and which is entered as going to Mysore, is much more favorable – The quantity sold within the periods of comparison above given is in

Sales for Inland Consumption in Fusly 1237-1373 Garce
Do. Do. in Fusly 1257-2698 Garce

Fusly 1237 and 1257 has just doubled in the course of 20 years –

The

The effect however of raising the price is very apparent in its influence on these sales also – Between Fuslies 1231 and 1237 when the price was 70 Rupees per Garce, the Inland sales varied from 1358 to 1929 Garces but they immediately fell on the price being raised to 105 in Fusly 1238 to 1197 and continued to decrease for a few years until they got as low as 823 Garce in Fusly 1241 – They then began again to rise and continued steadily to increase until Fusly 1252 when they were 1620 Garce – In the following year the price was again increased to 120 Rupees and the sales immediately fell to 1159 Garce – They have since however rapidly increased notwithstanding the high prices to a quantity larger than had ever before been sold, and the increase in the last year alone has been 433 Garce – This great increase in the sales of Salt for inland consumption must be mainly attributed to the improvement of the roads which has taken place about the same time, and to the Establishment of Inland Depots by which the facilities for obtaining it, have been greatly increased to the Inland traders – Some of it however is no doubt owing to the Inland Import Duty charged upon Goa Salt since Fusly 1253 which is quite prohibitory, and has drawn the purchasers to our own depots who formerly resorted to Goa for the purchase of their supplies –

Ordered that the foregoing letter be submitted with the following address

To The Chief Secretary to Government.

Sir

I am directed by the Board of Revenue to submit for the orders of the Right Honorable the Governor in Council the accompanying letter 23d. June 1848 from the Principal Collector of Coimbatore reporting the death on the 14th. of May last of Sanopacara Curtah Sashachella Moodelly Jaghiredar of Sevasamoodrum and Shrotriemdar of Mooloor and Oganah in the Collegal Talook of his District.

From

To the Chief Sect. to Government

Submitting letter from the Principal Collector of Coimbatore reporting the death of the Jaghiredar of Sevasamoodrum and Shrotriemdar of Mooloor and Oganah in the Collegal Talook of his District and recommending that Ramasawmy Moodely be recognized as Jaghiredar of Sattigal and Sivasamoodrum and last holder of the Shrotriem of Mooloor & Oganah and

and that the Estate will be taken under Management of the Court of Wards if Circumstances should render it necessary.

× Pro Coll.r 15th. July 1848. F. Coll.r 24th July & 21st Augt. To Coll.r 24th Do. F. Coll.r 22d in Con. 28th Sept.r 2632.

2. From the correspondence noted in the Margin it will be perceived that the Village of Suttegal, in the Collegal Talook of Coimbatore together with the Island of Sivasamoodrum and a tract of Jungle land on the South or right bank of the River Cauvery was granted on Jaghire in perpetuity to Ramasawmy Moodely Grand father of the individual whose death is now reported and that the Village of Moolloor and Doguah in the same Talook were conferred upon the same person on Shotriem tenure for three lives

3. In his letter now under submission, the Principal Collector of Coimbatore communicates the death on the 4th of May last of Shashachella Moodely Grandson to the first grantee and his successor in the Jaghire and the Shrotriem. The Estate now devolves upon Ramasawmy Moodely the son of the deceased, a boy of eight years of age after whom the Shrotriem will revert to Government.

4. The Board beg to recommend that Ramasawmy Moodely be recognized as Jaghiredar of Suttigal and Sivasamoodrum, and as the third and last holder of the Shrotriem of Moolloor and Doganah. They have referred to the Principal Collector as to the propriety of taking the

Fort St. George 28th. September 1848.

the property under the Charge of the Court of Wards, but Mr. Wroughton states that such a measure would be inconvenient and is not necessary, inasmuch as Tulleyamah the widow of Ramasawmy Moodely the first Jaghiredar is still alive and being the head of the family is in every way competent to conduct the affairs of the Estate. A similar course has been pursued in the case of some of the small Poligats in Coimbatore, the Board would therefore advise that the charge of the Minor and the property be left to Tulleyamah on the understanding that the Board will take the Estate under their Management in their capacity of Court of Wards should circumstances occur to render it necessary.

5. In his letter of 24th. July last the Principal Collector stated that although it was generally reported that Yadanarainah Moodelly son of the original Jaghiredar had died during the life time of his father yet that he had no official cognizance of the fact. The Board directed that this point should be clearly ascertained and application for that purpose has in consequence been made to the Superintendent of the Ashtagram Division in Mysore. From the Collector of Madras ... Sir,

With reference to the correspondence noted in the Margin I have the honor to bring to the notice of the Board of Revenue that Ponnambala Moodely the party named in the letter from this Office dated 6th September 1833 presented a Petition to me on the 6th July 1846, stating that, having proceeded to the interior and returned just then he was informed of

Requesting sanction for the issue of a fresh Salt Compensation Certificate to Ponnambala Moodaly in lieu of No. 32 held by Ghereapah Moodely - and for the payment of the arrears remaining undrawn for 15 years Rupees 677-1-9.

To Do. 4th Feb. 1834
From Do. 20th March ...

of orders having been passed to allow of transfers of Salt compensation Certificates according to the practice observed before the receipt of the Extract Minutes of Consultation dated 25th October 1833 and soliciting, in consequence, that a fresh Certificate might be issued to him, in lieu of No. 32, for the annual allowance of Rupees 45. 2. 3. The petition was referred to the Amildar, in order to ascertain whether Ghereapah Moodely, the Original grantee, was entitled to claim an interest in the allowance in question under any arrangement which may have been effected since the year 1833, but it is not found practicable

From Board 15th June 1848.

to prevail upon that individual to appear before the Amildar, as at this Office, with a view to an enquiry being made into the matter.

2. Ghereapah Moodelys Petition to the Board, No 875 of 1848, referred to me by Endorsement, has been here for some time past but all exertions to procure his attendance even subsequently to its receipt, have been unsuccessful - The Arzees referred to in Para 3 of the Petition have never reached me.

3. As the Original Certificate No 32 and Ghereapah Moodely's Bill of sale dated 27th August 1833 have been produced by Ponnambala Moodelly, I beg leave to recommend that,

that, under the circumstances stated in Para 2 of the letter to the Board dated 5th. September 1833, the necessary sanction may be procured for the issue of a fresh Certificate to him.- Ghereapah Moodelly cannot be expected to make an Endorsement in his favor on the principle laid down in the orders of Government dated 23d. February last. and for the payment of the arrears of compensation remaining undrawn from the 12th. July 1833 to 11th. July 1848 for 15 years, Rupees 677-1-9.

From Board 2d. March 1848.

4 Petition No. 875 of 1848 is returned herewith.

Madras, 12th. September 1848. } (Signed) J. A. Huddleston
Collector.

Resolution thereon.

61-62

The Board of Revenue observe that in his Petitions 875 and 1654 of 1848 Ghereapah Moodelly has represented that in consequence of the transfer of his Salt compensation Certificates not having been allowed in the year 1833, the purchase Money of the Certificate was not paid him, and the Bill of sale should therefore be considered as cancelled. He moreover objects to the registry being made in the name of Ponnambala Moodelly and requests that the arrears now in deposit may be retained until he and his opponent can come to an amicable settlement upon the subject. Under all

all the circumstances the Board do not think it would be proper to register the certificate in the name of Ponnambala Moodelly and disburse the arrears to him in the face of Ghereapah Moodelly's protest. They direct therefore that the registry and arrears remain as at present, and that the Collector will attempt to effect some arrangement between the parties. They also resolve to return to him Petition No. 875 of 1848 with Petition No. 1654 of 1848 lately presented to this Office. Mr. Huddleston should send for the Vydeyanatha Moodelly therein mentioned who may perhaps procure the attendance of Ghereapah Moodelly at the Cutcherry.

Ordered that the following Endorsement be given on Petition No. 1654 of 1848.

"Referred to the Collector for disposal, with reference to the Board's Proceedings of this date."

103 From the Collector of Tanjore. Informing that no persons have been Charged or confined in the Zillah

Fort St. George 28th September 1848.-

Condasawmy Pillay accordingly came and only remained here 8 days and being appointed to another office, left this place and since his departure no order about Pymash has been received neither was it made.-

On inspecting the Dowle of Keerumboor of Fuslies 1255 and 1226 I find that there is an entry of 1,100 Cawnies in the Jammahbundy Dowle of that Village as having been transferred to it from Rombay on two separate occasions Viz.t 650 Cawnies in fusly 1225 and 450 Cawnies in fusly 1226, but it does not mention that the land so transferred was Cultivated.-

For the transfer of 650 Cawnies mentioned in the Dowle of fusly 1225. 444 15/16 Cawnies are mentioned as being Cultivated, and the Cowle Teerwah fixed thereon is a Rupees 282-9-1/2 at the average rate of Rs. 0-10-2 1/2 per Cawny the remainder 205 1/8 Cawnies is said to be waste.-

For the transfer of 450 Cawnies Mentioned in the Dowle of fusly 1226 - Laws 171 - Cs. 75 - Chs. 1 - are mentioned as

Fort St. George 28th September 1848.-

as being Cultivated and the Teerwah fixed amounts to Rs. A. P. 88-1-0 at the average rate of Rs. A. P. 0-8-2 1/2 per Cawny the remainder 278 1/8 Cawnies is said to be waste.-

It is moreover entered in the accounts of Keerumboor that from the aggregate extent of 1,100 Cawnies transferred 616 11/16 Cawnies are Cultivated, and 483 5/16 Cawnies remaining as waste.-

Tho' it is so entered in the accounts yet the extent Cultivated in those two fuslies was not known or during my examination, if this extent had been actually Cultivated it will be easely known by a reference to the Sagoobady Cloogoo account of these two Fuslies now in the possession of the Istimira Ryots, until this account is produced and proved, it seems proper to include in the Circar Village the said 1,100 Cawnies now under Cultivation, and attached to Keerumboor.-

Therefore the said 1,100 Cawnies stated to have been transferred from Rombay is so entered in the Dowle accounts of the Istimira

Village

13904

Fort St. George 28th September 1848.

Village Keerumboor, but it does not appear to have been deducted from the Dowle of the former Village, and it is besides understood that the said 1100 Cawnies was over-grown with thick Jungle up to Fusly 1234 whilst so, how could it be transferred to Keerumboor as Cultivated lands in Fuslies 1225 and 1226 - this is certainly very ridiculous.-

This my statement will more-over be clearly understood by a reference to the Maratah Dowle of the said 2 fuslies now in the Hoozoor as no pymash has been made, the requisite account has not been sent.-

To, T Pycroft Esqre.
Secretary to the
Board of Revenue
Fort St. George -

Sir,

54

From the Agt. Collr of Trichinopoly - Reports on the consumption of Salt -

Para 1

I have the honor to acknowledge the receipt of the Proceedings of the Board of Revenue dated the 17th July together with Copy of Para 27 to 30 of the Esctract from the Honorable Court's Despatch regarding the Consumption of salt in the Provinces under the Madras Presidency

In my letter to your address of the 26th of January last I enclosed a Statement shewing the quantity of Salt which had been brought into this District for Consumption during the last 3 years (from 1845 to 1847) as learnt from the Rowanahs Recovered from the Merchants - By that Statement although I confess it is not particularly trustworthy, for the Reasons given it appeared that about $\frac{1}{3}$ only of the probable Consumption was covered by due and legal permits, from which it was to be suspected that $\frac{2}{3}$ of the Consumption was either supplied from illicit sources, that is, smuggled, or consisted of earth Salt or possibly of both together - As it is the Method to be adopted

by the rules in question is necessary but I am appre-
-hensive, by strictly adhering to these rules, the
Government may perhaps sustain loss hereafter
more than anticipated

2. For instance para first of the 4[th] Rule
parties wishing to plant topes &c[a] for their private
benefit in waste land shall be allowed land for that
purpose exempt from assessment for 20 years whe-
-ther cultivated or not appears to me too indefinite.—
Lands that have been under cultivation but subse-
-quently left waste for some time generally called
Podigal lands, and which do not come under the deno-
-mination of Anady Bunjer, are often of a superior
quality, on which fruit trees such as Mango, Jack,
Tamarind Eloopa &c[a], will become productive in
the course of ten years, so if such a description of
Podigal lands are given up parties will enjoy the
produce of the land for 20 years, and of the trees for
ten without paying any assessment such an indulgence,
I apprehend, may induce ryots to throw up many topes
and trees of the above description on which they now
pay tase, to the prejudice of the interests of Govern-
-ment. I would therefore suggest that only Anady
Bunjer, or immemorial waste lands which have
not been classified or assessed, should be allotted

for

for being planted with topes under that rule,
the benefit which may be derived from cultivating
it with grain for the period of 20 years exempt
from teerwah, will I think be an adequate in-
-ducement and return for the labour of forming
topes, and not below one acre should, I conceive
be granted to parties for planting private topes and
after the lapse of 20 years a full Mofsal teerwah should
be charged on it.—

3. I think when Podigal lands are ap-
-plied for, only such as have been left waste above
5 years should be granted with exemption of teerwah
only for 10 years, and that applicants should
take up an entire spot, but not select the best
portion and leave the rest to the detriment of the
Circar.—

4. It appears to me that these restrictions
I have suggested as to Rule 4 are advisable for the
interests of Government, and that it will still hold
out sufficient inducement to parties to plant topes-

Sir,

50

From the Collector of Salem ..... submitting his opinion of the Rules sanctioned by Government for regulating the planting of Topes and soliciting further instructions.

With reference to your letter of the 6th April relative to the rules sanctioned by Government for regulating the planting of Topes, and requiring me to report whether I have any reason to apprehend that the encouragement afforded by the rules in question will have an injurious effect upon the Revenues derived from existing plantations, or if there be any cases in which greater encouragement than is afforded by the rules may be called for, I have the honor to state that in my opinion no greater encouragement than held out by
