From the Secy to Government

Communicating Correspondence between the Collector of Canara and the Government of Bombay on the subject of the difficulties experienced in obtaining a sufficient supply of Bombay Salt for the District of Canara and complying with an application from the Collector requesting him to [illegible] Salt [illegible] from Hurr: [illegible]

Read the following Extract from the Minutes of Consultation, dated 10th April 1849, No. 360.

To
T. F. Thomas Esqre
Chief Secretary to the Government of Madras.

Sir,

I have been directed by the Right Honorable the Governor in Council to transmit to you, for the information of the Right Honorable the Governor in Council at Madras, the accompanying Copies of Correspondence as

made Salt exported to the Madras Presidency, desiring the Board to issue such instructions to the Collectors as may appear to be required-

Petition from Saley Poolchoo dated 15th July 1849
Letter from the Collector of Canara dated 5th March -
Govt reply to the Petn No 2085 dated 24th Do -
Letter to the Collector of Canara No 2088 dated 24th March 1849

} as noted in the margin relative to the

Supply of Salt from this Presidency to the Ports on the Malabar Coast-

Bombay Castle, 24th March 1849.

[Signed] W Courtney
Acting Secy to Govt

To
The Right Honorable Sir H. Viscount Falkland
Governor in Council, Bombay-

My Lord,

On the 20th January last, I took the liberty of submitting to your Lordship an address, praying for orders to be issued for selling to me Salt from the Government Stores at Bombay in consequence of the difficulty experienced in procuring it elsewhere for causes well known to your Lordship, and my Son Ignacio Brito whom I have deputed to Bombay, for the purpose of making purchases of Salt appears to have at the same time applied to the Collector of Revenue there for a similar

But from a reply which that Officer gave to my Son I am fully persuaded of there being no Government or private Salt at present available for my purpose I am thus sadly placed in the most unsurmountable difficulties-

Attending to the impossibility of my being able to fulfil with my Contract to its full extent the Collector of this District was kind enough to allow me to deliver a portion of the Contracted Salt out of the produce of Kurrachee or Muscat and hearing that this description of Salt was brought to the Port of Bombay by the Vessels resorting to it as Ballast and was thrown over board there in consequence of the duties which it had to pay upon its importation I applied to the Collector of Customs at Bombay for permission to have such Salt transhipped or landed for exportation to this Port free of duty, as it was intended for no other than the Government purposes at this place, and that Officer has

I avoved

favored me with a reply under date the 7th Instant / Copy of which is herewith forwarded / informing me that he is precluded from granting the indulgence without special authority from your Lordship. I beg therefore most respectfully to solicit that your Lordship will, attending to the present total want of Salt allow me to secure any quantity of it that may reach Bombay as above stated, and to have it brought down to the Canara District free of duty, an indulgence which I humbly hope may be granted to me, as I have no other view in soliciting it than to promote the public proposes of Government.

With the view of securing the Salt which may be brought down by any Kurrachee or Muscat Vessels at Bombay without loss of time I have informed my Son J. Brito of this my application and Required him to wait at the Government Office for the orders which may be passed upon it. Therefore respectfully beg that they may be communicated to him there that

he may be able to use them immediately to the best advantage possible.

Mangalore, 15th February 1849

Mangalore,
15th February, 1849.

(Signed) Salich Brulchos.

To,

A. Malet Esquire.
Chief Secy to Government
Bombay.

Sir,

Salich Brulchos the Contractor for the supply of Bombay Salt for the Government Monopoly in this District has forwarded to me Copy of a reply from Mr Secretary Courtney to a Petition of his, praying that he might be allowed to purchase Salt from the Government Works in which it is stated that the produce of the present season will be offered for sale in July next, after due notice in the Government Gazette, and that he can then bid for the same if desirous of becoming a purchaser.

No 939 of 1849
Territorial Depatt
Revenue
Dated 12th Feby 1849

2 The demand for Salt for immediate consumption in Canara is so urgent that I trust I shall be excused for bringing the Subject

subject more directly to the notice of the Government of Bombay and in expressing a hope that if there be not very serious objections to a compliance with the Petition of the Contractor he may be allowed to purchase a sufficient quantity of this Years produce at such price as the Government may think proper to fix—

3. The present demand for Bombay Salt in Canara has been owing to the nearly total failure of the local manufacture for two successive years and the Stock has been reduced so low that I am under very serious apprehension that the supply may prove altogether insufficient to meet the demands and a very serious loss of Revenue as well as much inconvenience to the people be occasioned unless the quantity which it was calculated could be obtained from Bombay can be supplied by the Contractor without delay—

4. To defer the purchase of the Salt until July next would entirely defeat the object in view which is to obtain immediate supply for the consumption [illegible]

District during the Months intervening between the present time and November next. The means of importing it by Sea is effectually closed on the setting in of the Monsoon about the middle of May or June, and is not again opened until November—so that it is necessary that whatever Stock is required during that period should be delivered not later than May—

I have the honor to state

5.

that the present derangement in the supply of Salt in Canara has formed the subject of my special report to Madras in which not being aware of the existence of any objection to the purchase of this years produce, I stated it as one of the chief and only resources which I could look to meet the impending failure in the Stock now on hand and trust that under these Circumstances the Bombay Government will, if possible, modify the order communicated to the Contractor as above referred to—

I have &c

Sir,
I have been directed by the

5953. Fort St. George 30th April 1849.

Right Honorable the Governor in Council to acknowledge the receipt of your letter dated the 5th Instant, pointing out the difficulty in which Saley Prubhoo the Contractor for the supply of Bombay Salt for the Government Monopoly in the District of Canara is placed, and requesting some modification in the orders issued on the subject.

2d. In reply, I have been desired to inform you, that there is no Salt, at present at the Government Pans from which the Contractor could be supplied and that the produce to be sold in July next has only just been commenced to be manufactured -

3d. In order, however, to enable Saley Prubhoo to make good his Contract to the Madras Government, I have been desired to acquaint you that His Lordship in Council has complied with his application (as contained in his Petition dated 15th Ultimo, Copy of which is appended) to be allowed to tranship Salt coming to Bombay from Kurrachee & Muscat,

Read the following Extracts

(5)

From the Sect. to Government. } Extract from the Minutes of Consultation under date the 17th April, 1849. No. 390.

Stating that Government see no grounds for admitting the Claims of Soonja Woodyan Eldest Son of the late Sungar of Sehorda-mangalum in the Pudavasel Talook of the Tanjore District or for disturbing at so late a period the decision of the Committee in this case in 1819.

Read the following letter from the Secretary to the Board of Revenue. (Here enter 5th March 1849. No. 98)

The Right Honorable the Governor in Council has already in a recent case expressed his reluctance to entertain claims revived after a lapse of many years, and he observes that in the Report of the Collector of Tanjore laid before Government with the Board's letter of the 16th October 1845 one main objection to the admission of the present claim was the probable effect of encouraging the revival of many others of the rejected claims which might be of a similar character.

Petitioner

2. Petitioners claims were rejected by the Committee Specially appointed to investigate claims to pensions by the Cavilgars of Tanjore, on the ground that he possessed Meerassy lands to the value of 202 Rupees and though from the report of the present Acting Collector of Tanjore it now appears that these lands were under Guft (probably only nominally so) for arrears of Revenue at this period they still stood in his father's name and remained so till 1822 when as stated by the Collector of Tanjore in October 1845, they were publicly sold in default of payment of arrears - There seems no reason to suppose that the actual state of Petitioner's lands was unknown to the Committee who in 1819 decided against the claim of his father to pension and Petitioner's acquiescence in that decision for 22 years strengthens

this opinion and the Governor in Council thinks there are not sufficient grounds in the circumstances now addduced by the Acting Collector for disturbing at this distant period the decision in this case of the Committee whose awards have, except in very special cases, been hitherto considered final - The Proceedings of the Board of Revenue and these orders will be however brought to the notice of the Honorable Court to whom Petitioner has addressed a Memorial under date 15th October 1847 -

3 - Ordered that the following Endorsement be made on Petition No 1261 of 1847 -

"The Governor in Council does not see sufficient grounds for admitting Petitioner's claim to a Pension, this claim having been investigated and rejected by the Tanjore Cavil Committee in 1819" -

To The President and Members of the Board of Revenue

From the Collr of Guntoor — Sir,

Reporting on Petition No 2111 from Rajah Vassereddy Lutchmeputty Naidoo that the prayer of the Petitioner for discontinuing the allowance

1. I have the honor to report on the accompanying petition No 2111 of 1848 from Rajah Vassereddy Lutchmeputty Naidoo &c.

ORIGINAL DESTROYED

5965 Fort St George 30th April 1849.

allowance of Naidamah is unreasonable,

2. The petitioner submits that a Vassereddy Naidama has set up a claim of succession to the Estate of Vassereddy Atchemmah deceased, on the ground of having been adopted by her; he ought to relinquish the allowance now enjoyed by him, as the Son of the late Pudmanaba Ramanah-

3. The circumstances under which Vassereddy Naidama has from the year 1829 enjoyed an allowance as a dependant Zemindar, are detailed in the Correspondence noted in the Margin- It has been granted in Consideration of his rank as a near Relation of the Vassereddy Zemindar and could by no means be affected by the question of right to inherit Pudamanaba Ramanah's property Even admitting that the allowance ought to go strictly by the Law of inheritence, Naidama would, if adopted by Atchemmah, have a claim to her allowance of Rupees 157-8-a Monthly, which has lapsed: The prayer of the

From the Coll[r] of Cuddapah submitting the annual Report on the Settlement of Land Revenue in the District of Cuddapah for Fasly 1257 / 1847-48 & forwarding these annexed Statements

Sir,

Para 1. I have the honor to forward herewith the accompanying Statements relative to the Settlement of Land Revenue in the Cuddapah District for Fasly 1257 / 1847-48

1. Detailed Jummabundy Statement of Fasly 1257 / 1847-48
2. General Revenue Statement Talookwar
3. Register shewing the extent & [qa] of land held under Cowle.-
4. Register exhibiting the particulars of land held under progressive Cowle.
5. Comparative Statement of the land held under Cowle during the Faslies 1236 and 1257 / 1826-27 1847-48.
6. Statement exhibiting the survey Jowt & [qa] of the Enam lands.
7. Jumma and Resbundy Statement.
8. Statement of the Demand Collection and balance
9. Statement of Outstanding balances.
10. Statement shewing the particulars of the outstanding balance from Fasly 1254 to 1256 / 1844-48 1826-27

Comparative

Fort St. George 30th April 1849

10. Comparative Statement of all sources of Revenue.

11. Statement of Remissions granted for failure of wet Crops.

12. Abstract Comparative Statement between the charges of Fasli 1256 & 1257

13. A Statement of the extent and Survey assessment of each description of land cultivated and left waste

13. B. Detailed Statement of the Survey assessment of each description of land and the Remission allowed for

14. Statement of average prices of grain

15. Statement of the particulars of Tarva Canini

2. I personally superintended the Settlement of the following 6 Talooks Viz. Summundrgoo, Hailcondah, Goorumcondah, Mudderpully, Polevandalah, and Royelooy in making the Samabundy of which latter Talook I was assisted by Mr. Smith. The greater portion of the Settlement of the Talooks of Chinnoor Camalapoor, and Dewoor was Conducted by Mr. Murray the Sub Collector

Fort St. George 30th April 1849

charge of the District during my absence on leave at Madras, and that of the remaining two Talooks in the Principal Division was entrusted to Mr. A. J. Arbuthnot the late Acting Head assistant Collector

+ Chitwail & Sidhout

3. The Settlement of the three Talooks forming the Sub Division Viz. Cumbum, Doopandu, and Budwail, was made by Mr. Murray

4. The season may be considered to have been a favorable one during the months of June and July, a tolerable supply of Rain was received throughout the District and the Tanks in some places were replenished while in other localities the supplies varied from 1/4 to 3/4 of a full one. Moderate showers of rain were experienced in various parts of the District during the months of August and September, but in the two following months the Monsoon was general and may be considered on the whole a favorable one.

Some of the Tanks in the Talooks of Chitwail, Sidhout, Chennoor, Goorumcondah, Poolevandalah, and Royelooy received additional supplies of water during December —

The

7. The Monsoon was not so plentiful in the Talooks of Inuddanpully Dorpand, and Budwail, and there has consequently been a deficiency in the Cultivation of Wet and Fruntgisty lands generally in these Talooks causing a Comparative decrease of Revenue. In the remaining Talooks the partial want of the means of irrigation for the 1st Wet or Cartee kuin Crops was Counterbalanced by a full harvest for the 2nd or Vyasam Crops Consequent on the Subsequent abundant supply of Rain and the Result of the past season has been an increase of Revenue Compared with the preceding Fusly.

8. The failure of seasonable Rain prevented the Ryots from Cultivating their black lands with Chittu Jonna and Cottaloy as early as desirable, such lands as were subsequently Cultivated suffered in some measure from blight occasioned by heavy Rain experienced at a period these Crops would have thrived better without additional moisture. They however yielded fully in some places while in others from ¼ to ½ a full harvest.

9. The Crops of [illegible] Consisting of Suppa, Areca, Cocoa & Cultivated in Red and

and mixed Lands failed to some extent in a few Localities owing to the partial supply of Rain experienced during the months of August and September, while the different kinds of Pulse Cultivated in the above description of Lands were somewhat injured from blight Consequent on the heavy Rain Subsequently received. These Crops yield fully in some places and in others from ¼ to ¾ of a full harvest.

10. The harvest Result of 1st Wet Crops under Tanks averaged from ¼ to ½ of a full one while the 2d Crops have yielded a full harvest generally.

11. Land dependant under Channels and wells yielded in full in several Localities and those under Jungle Streams &c yielded on the average from ¼ to ½ of a full harvest.

12. The season has been decidedly a healthy one. In none of the Talooks with the exception of Chittoor have there been any Cases of Cholera, and in that Talook the Casualties from this epidemic [illegible] very few. Fever Ague and small Pox were prevalent throughout the District, and the mortality occasioned by these diseases is Computed [illegible] per Cent.

13 The loss of Cattle and sheep by diseases [illegible] to them has been very inconsiderable in the year under Review in all the Talooks.

14. The following Statement exhibits the average prices of the principal kinds of grain &c and Cotton and Sundry during the last 10 years with a Comparative [illegible] between the last two years.

Fusly.

15. Although there has been a trifling declension during the last two Faslies in the price of all descriptions of grain with the exception of Aurecaloo as compared with Fasly 1255/1845/46 which contrasts favorable enough with the years preceding the 5 years of depression Viz^z from Fasly 1250/1840/41 to 1254/1844/45 inclusive they stood at Rates Considerably higher than those which prevailed during the 5 years referred to. The abundant harvest cannot be considered to have so depressed prices as to have rendered them unfavorable to Ryots as far as their just Remuneration for Labor and Capital is Concerned.

The following Statement shews the extent and descriptions of Lands which the Ryots have taken up at the Commencement of the Season and also the assessment thereon—

Fasly.

As

17. As above exhibited — there has been an increase in the distribution of four descriptions of land viz. Dry, Garden, Wet and Poonasa, the assessment of which amounted to Rupees 28,358-7-

18. The increase amounting to Rupees 1,622-4- under the heads of Dry land is attributable to Ryots having taken up for cultivation a greater portion of dry land than in the preceding July from the Ayacut Bunjer, the Circumstances of the Season having been favorable at the Commencement of the July

D.G.

19. There has been also an increase in the distribution of Land for wet cultivation amounting in the total to Rupees 12,336 3-4. arising from the favorable supply of water in Tanks principally for the Oyrakarn or 2d Crops.

The subjoined Statement exhibits the extent of land actually cultivated and the assessment thereon for July 1849 compared with the preceding one —

Nett Increase 11154 14 7

The

24. The remissions exceeded the sums granted on the same account in the preceding Fusly in the net amount of Rupees 11157-11-7. The increase occurs chiefly under the Heads of Established remissions 7303-11-11 and Cabooleaty Bunjer Rupees 5290-4-11 and loss of Crops Rupees 298-3-9. The increase in the first of these items is to be ascribed to the favorable circumstances of the season by which a greater extent of land liable to these remissions was brought under cultivation.

25. The increase under the two last Items arises principally in Tusuljasty from those crop lands not having been cultivated to the same extent for the 1st. crop as in the preceding Fusly, and to the cultivation of lands of this description having proportionately failed for that crop.

26. The remissions granted under the Items of Cabooleaty Bunjer and loss of Crops are however trifling compared with those allowed in Fusly $\frac{1255}{1845/46}$ the favorable nature of the season for the last two Fuslies operating on these heads under which indulgence

is shown. It will be perceived from the Marginal Statement that there was a decrease under these Items in the preceding Fusly compared with Fusly $\frac{1255}{1845/46}$ of Rupees 2,24,199-1-5 and Rupees 17,914-12-2 respectively.

Fusly 1255	17,974-"-0	
" 1250	59-4-4	
Net decrease	17,914-12-2	°

27. There has been a decrease under the head of usual remissions, Seerva Commi, and Pymash Commi which has arisen from the deficiency of water in Tanks in certain localities, that under the head of Pannebaddy for lands which have been overflooded in consequence of a smaller portion of lands in the beds of Tanks having been left waste this year.

28. The following Statement exhibits the gross assessment the remissions and the net Beriz for Fusly $\frac{1257}{1847/48}$ in Comparison with the preceding one.

29. There has been an increase of Revenue in the amount of land actually cultivated notwithstanding 47 the increased remissions under the heads of Cabooliaty Bunjer &c. which is attributable to the greater extent of land having been agreed for cultivation in the year under review.

30. The amount brought to account for waste land staying taxe is Rupees 56690-14-3 exceeding that levied under the same Head in the preceding Fusly by Rupees 859-3-9 The circumstances under which Pyots were held responsible for the assessment of such portions of lands which having

agreed for they left uncultivated were such as brought them fairly under the rules in force. Deducting from the Gross assessment the remissions and adding thereto the Extra Items of charge there results inclusive of Peishcush of Poonganoor and Voncatagherry, 47 a net land revenue for the year under review of Rupees 27,18,072-11-9 being Rupees 255-14-10-5 in excess of the net Peiss for the preceding Fusly which exceeded the Revenue of Fusly 1755 (1845/46) by Rupees 79,2207-14-5 and the average of the 10 preceding years by Rupees 2,20,110-14-11 and that of any year since Fusly 1731 (1824/25)

31. The following Talookwar Statement exhibits the different Items of increase in each Talook compared with the preceding Fusly and the centage of the same

Comparison

Increase Decrease

| | | |

Fort St. George 30th April 1819

39. The Demand Collection and balance of Revenue of the District of Cuddapah for Fusly 1227 / 1817/18 are as follows—

Demand	22,180	7 —
Collections within the Fusly	21,336	15 — 10 — 1
Balance at the close of Do.	844	5 — 6 — 6
Collections up to 30th November 1818	792	10 — 13 — 3
Remaining balance Rupees	52	39 — 9 — 3

40. About one half of the above outstanding balance is considered recoverable, the remainder being doubtful for reasons hereunder explained.—

41. At the time of the annual Settlement of the Cherroor Talook for the Fusly under Review the supply of water in the large Tank of Punta Cuddapah was considered sufficient to admit of a portion of the land under it being cultivated with a second Crop also as it was intended that Rupees 2790 would be realized upon this account, this amount was entered

Fort St. George 30th April 1819.

in the Jamabundy accounts. This sum appears to have been overestimated by Pt. 139 / 8 to which extent it has been necessary to grant remissions according to the Rules in force for that portion of land which was not cultivated with a second Crop, as also for such 2nd Crops as perished from insufficiency of water.

42. Adverting to the 15th Para. of my report on the settlement of the preceding Fusly and to the separate Report therein referred to on the subject of the Veeravaly System that has hitherto prevailed in the Village of Ramareddy in the Poolevandala Talook, and on the consequent difficulty that has of late years been experienced in Collecting the dues of Government from the Ryots of this Village, I beg to state that they have for the Fusly under review pursued the same objectionable course of Proceeding of leaving waste without cause or just grounds portions of their lands which form their ordinary Ryoot and to such extent as rendered it necessary to adopt the same measures as in Fusly 1228 / 1818/19 of deviation from the existing rules in force

Fort St. George 30th April 1819

The Demand Collection and

39. balance of Revenue of the District of

Cuddapah for Fusly 1757 / 1817 / 48 are as follows—

Demand	22,180 72	
Collections within the Fusly	21,338 13 10 1	
Balance at the close of Do.	84,450 0 0	
Collections up to 30th November 1818	79,210 13 3	
Remaining balance Rupees	5239 9 31	

40. About one half of the above outstanding balances is considered recoverable, the remainder being doubtful for reasons hereunder explained.—

41. At the time of the annual settlement of the Cheruppa Tahsil for the Fusly under review the supply of water in the large Tank of Punta Cuddapah was considered sufficient to admit of a portion of the land under it being cultivated with a second Crop adds as it was estimated that Rupees 2790 would be realized for this account, this amount was enter-

Fort St. George 30th April 1819

in the Jamabundy accounts. The sum appears to have been overestimated by Rs. 439 7 8 to which extent it has been necessary to grant remissions according to the Rules in force for that portion of land which was not cultivated with a second Crop, as also for such 2nd Crops as perished from insufficiency of water.

42. Adverting to the 15th Para of my report on the settlement of the preceding Fusly and to the separate Report therein referred to on the subject of the Veevabady System that has hitherto prevailed in the Village of Ramreddy in the Poolivandala Talook, and on the consequent difficulty that has of late years been experienced in Collecting the dues of Government from the Ryots of this Village, I beg to state that they have for the Fusly under review pursued the same objectionable course of Proceeding of leaving waste without cause or just grounds portions of their lands which form their ordinary Ryoot and to such extent as rendered it necessary to adopt the same measures as in Fusly 1750 / 1840 / 41 of deviating from the existing rules in force

force, for the due protection of Government, and of granting remissions for waste entirely and levying additional assessment on lands under new Wells which in anticipation of their affording them the most commensurate returns on the dry assessment, they have freely Cultivated —

The Kamil assessment of this Village is Rupees 2609 4 9 while the leviable amount of Settlement for the Fusly under review is Rupees 1,020 2 10, of which the demand now Standing against the Ryots is 611 4 11 Viz^t Rupees 451 11 a/c for their own Village and Rupees 159 5 11 on account of lands taken up by them in the neighbouring Village of Nagoor —

4th A portion of this outstanding balance it is expected will be realized from the wealthier Ryots by the sequestration of their Property, a harsh measure of which nature shall however be sparingly enforced

5th The necessary arrangements have been made agreeably to the Sanction of the Board of Revenue dated 9th March 1848 for bringing into operation in this Village for the Current Fusly the System which otherwise prevails throughout the D

6th The amount of irrecoverable balance consists also of sums due by Ryots who are in indigent Circumstances and of Sums remitted to Ryots whose lands were erroneously entered in the Jumma Sunday accounts as Cultivated, when on subsequent enquiry they were satisfactorily ascertained to have been actually left as waste, also of sums due by Ryots who on complaints subsequently preferred have established their title to remissions of additional assessment.

8th The particulars of several Items of arrears shall be duly enquired into at the time of the revenue Settlement of the Current Fusly and such sums only as are ascertained to be desperate shall be recommended to be Struck out of the accounts.

9th The following Statement exhibits the details of the arrears outstanding on this District from Fusly

1252 to 1256

Fusly 1246/47

Sundries

City & County of San Francisco ss. April 18 1849

On this [illegible] day of April A.D. 1849 before me [illegible] Recorder in and for the City & County aforesaid personally appeared [illegible] Alcalde of the District of Portsmouth in said City & County and [illegible] Alcalde of the District of San Francisco in said City & County and [illegible] Alcalde of the District of Sonoma in said City & County and [illegible] Alcalde of the District of Sutter in said City & County and [illegible] Alcalde of the District of Benicia in said City & County and [illegible] Alcalde of the District of Mission Dolores in said City & County and [illegible] Alcalde of the District of Yerba Buena in said City & County and [illegible] Alcalde of the District of Stockton in said City & County and [illegible] Alcalde of the District of Sacramento in said City & County and [illegible] Alcalde of the District of Monterey in said City & County and [illegible] Alcalde of the District of Pueblo de San Jose in said City & County and [illegible] Alcalde of the District of Pueblo de Los Angeles in said City & County and [illegible] Alcalde of the District of Santa Barbara in said City & County and [illegible] Alcalde of the District of San Diego in said City & County and [illegible] Alcalde of the District of San Luis Obispo in said City & County and [illegible] Alcalde of the District of Santa Cruz in said City & County and [illegible] Alcalde of the District of Santa Clara in said City & County and [illegible] Alcalde of the District of San Joaquin

Fort St. George 30th April 1849

irrecoverable Rs. 447 6 3 is on account of the Village of Ramareddy =pully.

50. With reference to my separate Report on the system hitherto prevalent in this Village and to the Extract from the Proceedings of the Board of Revenue dated 9th March last, I beg to solicit that the sanction of Government be obtained for the remission of the arrears in question as also for the remainder which is composed of sums due by persons who are reduced in circumstances, dead and emigrated, & for lands entered in the accounts as liable to additional assessment while the supply of water for 2nd Crops partially failed under Government Tanks and also for sums remitted for lands

D.G.

Fort St. George 30th April 1849.

having been left waste, but which were entered in the Jamabundy Accounts as having been Cultivated &c. &c. The total sum of Rupees 1562-7-6. for Fasly 1254 (1844/45) 55 (1845/46) and 1256 (1846/47) being considered desperate, I solicit permission to strike the same out of the Accounts.

51. The accompanying Statement No. 9 B will exhibit the particulars of the recoverable and irrecoverable Balances.

52. The subjoined Statement exhibits in detail the extent and Assessment of land applied to Indigo and Cotton and the Centage of the same.

53- It will be perceived that for the Fusly under review also as compared with the preceding, there has been a decrease in the cultivation of both these descriptions of produce, the existing prices of Grain combined with the want of improved means of Transport for the produce of the District for exportation having induced Ryots to give a preference to grain Cultivation. It is satisfactory to be able to state that the accounts received from the Cotton growing Talooks are favorable in respect to the experiment that has been made during this Fusly in the introduction of the new Orleans Cotton from Seed forwarded by Doctor Wight. The exotic plant seems in a fair way of superceding the indigenous -

54. The annexed Statement exhibits the extent of land Cultivated with Sugar in the past and the preceding Fuslies and affords particulars of the different descriptions of lands that have been Cultivated with this produce during the Fusly under review, the portions of each whether Circar or Enam and all other information required by the Board of Revenue in Para 11 of Extract from the Proceedings under date 10th April 1848 -

extent and these altered circumstances attending the Sugar Trade cannot fail to depress the Home market by rendering prices almost approximate to the export value except for qualities highly appreciated, and to affect materially the prospects of the Ryots as concerns the benefit they have hitherto derived from the cultivation of this description of produce.—

57. The number of Sugar Manufactories in the several Talooks in the District is hereunder particularized.—

In Goorrumcondah Talook	—	36
Do. Muddenpully	— Do. —	16
Do. Poonganoor	— Do. —	97
Total		149

58. From the Register of Sugar Certificates granted to applicants during the Fusly 1257 it appears that the quality of Rapoo Sugar exported to Madras is 244540 Maunds being 34394 1/4 Maunds short of the quantity exported during the preceding Fusly.

59. The Report of the Sub Collector on the Revenue Settlement of his Division is herewith submitted, I beg to state I have no remarks to offer thereon.—

DG

Fort St. George 30th April 1849.—

60. I beg to acknowledge the assistance I have derived from Mr. Murray the Sub Collector and from Mr. A. J. Arbuthnot my late acting Head assistant and Mr. Smith the assistant Collector towards conducting the Revenue Settlement for the Fusly now reported on, and to express my satisfaction at the zeal displayed by Mr. Wedderburn and the last mentioned officer in the performance of the duties delegated to them.—

61. The Head Sheristadar Appoo Row by his unremitting zeal and industry continues to afford me the highest satisfaction and I have every reason to be pleased with the conduct of the Nair Sheristadar Vencoba Row.—

6146

Fort St. George 31th April 1849.

To

J. M. Cochrane Esqre.

Collector of Cuddapah.

Sir,

The settlement for Fusly 1257 having been completed in the Talooks attached to the Sub Division the accounts prepared and forwarded by you - I have the honor to transmit the annual report of the settlement as concise as possible, which was conducted according to the rules in force.

The actual number of Hamlets and Villages continue to be the same as last year though there is a difference in the heads under which they are placed. In the former fusly the Village of Iravapully in the Talook of Budwail was entered under the head of Ranyemjedee Shotrieems, in the present year on account of being attached, it is entered under the head of Circar hamlets which makes a decrease of one under the head of Shotrieems and a corresponding increase under the head of Circar hamlets. There is an increase of one Hamlet from which no revenue was derived - above last year the number of Villages remain

Sd/ J. M. Cochrane
Collector

remain the same—

In the early part of the season the rains were favorable, commencing in May of the previous fusly and continued during the whole of the seed time, which enabled the Ryots to cultivate their lands with the different kinds of grain. In Cumbum and Budwail though the rains were considerable none of the Tanks received a sufficient supply for the irrigation of 2 Crops, some received sufficient for one and others received only a moderate supply—of the large Tanks situated at Cumbum, Peroomaumilla, and Budwail none of these receive a full supply, yet from the surplus water remaining from the former season together with the supply received the usual quantities of land were brought under cultivation with a 1st and 2d Crop. In Doopaud talook there was a considerable deficiency in the supply of rain.—

The following table will shew the number of Tanks which received a full and partial supply

Cumbum

	Cumbum.		Doopaud.		Budwail.	
	Fusly 1230.	Fusly 1287.	Fusly 1230.	Fusly 1287.	Fusly 1236.	Fusly 1287.

Above 3/4	11	4	6	0	5	0
Above 1/2	8	15	10	15	3	11
Above 1/4	7	13	9	9	10	3
Within 1/4	7	3	7	7	3	1
Total	65	60	77	57	141	133
Received no water whatever	23	25	24	45	0	10

Of the Tanks included in the above Statement it was found on enquiry that under three belonging to Cauyenjodee Villages in Cumbum Talook there was no cultivation—they are therefore entered under the head "Bagur Anya Cuttoo"

In Doopaud and Budwail three new Tanks have been constructed and the land under them brought into cultivation, one in the former and two in the latter—these three in addition to those under the head Anya Cuttoo make up the

Fort St. George 30th April 1849

the number of Tanks the same as last year.

In the early part of the season on the Coosthley lands Jonna, Suzza, &c. were sown and at a later period Corra, Aurika &c. Cotton, Chennah, Rundy, Oil Seeds, and Wheat were sown to a greater extent than last year owing to the favorable appearance of the weather but in some places the cultivators were disappointed in their hopes of the remuneration they expected, owing to the scarcity of rain at the time the grain came into ear and by the unseasonable rain which caused a blight and injured the produce, but with the exception of a few places the harvest may be considered a good one and may be averaged at 11/10 of a full Crop. The season has been favorable for Indigo.

The following Statement will shew the average prices of the different kinds of produce in the four previous years.

The

The decrease in the value of Dyra Crops may be attributed to the abundance of the crop, and of Indigo and Cotton to the small demand for exportation to Europe and other foreign Markets. For Paddy to the small demand last year - the demand for this grain was very considerable by the Merchants in Palnaud for exportation to Hyderabad which kept the price high - this demand for the present season has been limited, the price has therefore fallen considerably and the harvest has been abundant

The

The following Statement will show the number of ploughs and puttahs compared with the former —

6160

Fort St. George 30th April 1859

The above will show an increase in Coothkey Bagayet, and Seerwajasty Rupees 7,515-4-7 while there is a decrease in Sary Poonawa, and Tuljasty Rupees 11090-1-4. There is a net increase of land Acres 7,724 and a decrease in assessment Rupees 3574-12-9 owing to the diminution in the cultivation of the higher classes of land on account of the deficiency of rain and an increase in Koothkey and Bagayet. In Cumbum and Budwail there is a decrease in Tuljasty and Sary and in Doapaud of Sary and Poonawa 8ca.

Statement showing the Jaskoomrazee of Enomaty lands in comparison with the preceding fasly.

		Fasly 1250.				Fasly 1267.				Increase.				Decrease.				Centage.

	Nett									7,070	"	2	"							

There

There is an increase of Rupees 9,104-13-10 in Diggur Sagoo lands or land cultivated by other than the Enamdars, and a decrease of Rs. 2,034-13-8 in Khoddoo Sagoo or lands cultivated by the Enamdars themselves which leaves a net increase of Rupees 7,070 " 2. The cause of this increase is that the Enamdar rent their lands to ryots at a smaller rent than that laid down in the survey assessment; consequently the renters are enabled to cultivate any species of crop which may appear to them most advantageous on any land, the Enamdars being too glad to have their lands cultivated and yield any revenue. Kaarkkey crops are grown on Tary lands when there is not sufficient water in the Tanks to enable them to grow Tary.

Statement shewing the remission given on all descriptions of land in comparison with that of the preceding year.

There

Fort St George 30th April 1849

There is a decrease of Rupees 269-9-9 owing to certain Ryots in Doopaud being unable to cultivate their Sary lands &c from the deficiency in the supply of water a greater portion of Cooshkey was remitted for Bunjur on account of the cultivators being in indigent circumstances, the greater portion of the Bunjur was unremitted in Cumbum & Budwail in consideration of the state of the Cultivators-

On the whole there is an increase of Rupees 411- 14-10

Statement showing the Bersiy of each Taloak-

The

The reasons for the increase & decrease of the Extra sources of revenue will be given in separate report.

On all branches there is a net increase of Rupees 1116—1—7

The season has been a healthy one. No cases of Cholera have been reported, only a few of small pox the greater portion of the mortality is to be attributed to accidents and natural causes.

Among the Sheep & Goats in some places the diseases called "Masara" and Goondamookkee" have carried off a considerable portion while in others there is a considerable increase among the flocks.

Order thereon. Ordered to be brought forward at a future day.—

J. C. B.

To, T. Pycroft Esqre
Secretary to the
Board of Revenue,
Fort St George.—

(23)

From the Collector of Cuddapah. — — —

Sir,

Para 1. I have the honor to furnish the information called for on the several points referred to in your circular letter of the 24th August 1848 together with which was transmitted Extract from the Minutes of Consultation, 18th December 1846, Communicating Copy of a Despatch from the Honorable Court of Directors dated 22d September 1846 No. 14 on the Subject of taxing Improvements in land effected at the expense of Ryots.—

Furnishing the information called for on the several points referred to in the Circular letter of the 24th August 1848 on the subject of taxing Improvements in land effected at the expence of Ryots.

2.— The Honorable Court are of the same opinion with Government in respect to the Compensation that should be allowed to Ryots for their labour and expenditure they may have applied in effecting such improvements Viz: that as a general rule 14 years exemption from any additional demand upon the land brought under well irrigation with a half or other favorable assessment for a further period of 7 years will

Fort St. George 30th April 1849

will hold out ample inducement to the investment of Capital in the con=struction of new wells and prove fully sufficient to secure the land holder a lib=eral return for his expenditure".-

3. I beg with every deference to state that the local circumstances of this District render it in my opinion necessary that the application of the prin=ciple based on any Rules framed for carrying out the object in view should vary and be so regulated as not to give the In=habitants in some parts of the District where for the purposes required, facili=ties attend the construction of a well under which in consequence of a plentiful spring and abundant supply of water the extent of land brought under irrigation and made to yield a su=perior description of produce is in ex=cess of the average, an undue advantage over their neighbours, who in other parts are at a far greater expense in effecting an improve=ment of the nature owing to the soil being less easy of excavation and to the greater depth from the surface

Fort St. George 30th April 1849.-

surface at which water is to be reached and who would not be reimbursed so speedily owing to the supply of water thus reached ab being less abundant, and the extent of land liable to be brought un=der well irrigation being also pro=portionately less.-

4. The principle of the Rule should be also so regulated as to af=ford an encouragement to land hold=ers to lay out their Capital on works of the greater importance which they would be in proportion to the Costs being ex=cessive rendering them more durable and permanent instead of undertaking such works on a Minor outlay, which under a general Rule framed for co=mpensating them the expenditure they may have applied would yield the Speediest return Combined with the greatest profit Comparatively. The period of exemption from Additional=al Assessment usually imposed on land converted from dry to wet under works of the nature referred to, and the enhanced assessment

after

Fort St. George 30th April 1849.

after such prescribed period should be so fixed on data ascertained from every local enquiry in respect to the varying circumstances as affecting the point above-mentioned, as by the liberality of the measure to guard against any possible check to the construction of works of the greater outlay works so conducive to the best Interest of the State. So tending to alleviate the disastrous effects of a year of drought and scarcity.—

5. The period within which Parties would be reimbursed their outlay in the construction of the various description of wells in this District by the profits they would derive by exemption from Peervajasty averages from 7 to 30 years dependant on the local Circumstances above referred to. The term of exemption for 14 years with half assessment as Peervajasty leviable for a further period of 7 years though consequently amply remunerative to a Ryot who reimbursed himself in two years or greatly within the period for which the Extra Cess is remitted, would however hold out no encouragement to Parties to invest their Capital in the Construction of works which at the rate they would otherwise be

Fort St. George 30th April 1849.

be reimbursed by the profits they derived in exemption from additional assessment might not be repaid to them within the said period or perhaps not under the lapse of 30 years.—

6. It appears obvious that the introduction of a general Rule allotting the term of exemption for any specified period as applicable to all wells would give to some Ryots considerable advantage over others, and would otherwise be an objectionable measure as it would put a stop to all improvements in the construction of works of the greater importance the outlay of which might be excessive in Comparison with the annual return it would yield on the calculation framed, and would have the tendency of inducing Ryots to lay out their Capital on works the Costs of which are trifling and yielded them the greatest profit by the speedy reimbursement of their out-lay so expended.—

7. I beg to offer the following suggestions with a view to the preparation of Rules based on principles which for the regulation of the question at issue I consider applicable to this District and

after such prescribed period should be so fixed on data ascertained from every local enquiry in respect to the varying circumstances as affecting the point above-mentioned, as by the liberality of the measure to guard against any possible check to the construction of works of the greater outlay works so conducive to the best Interest of the State, so tending to alleviate the disastrous effects of a year of drought and scarcity.—

5. The period within which Parties would be reimbursed their outlay in the construction of the various description of wells in this District by the profits they would derive by exemption from Tiervajasty averages from 2 to 30 years dependant on the local Circumstances above referred to. The term of exemption for 14 years with half assessment as Tiervajasty leviable for a further period of 7 years though consequently amply remunerative to a Ryot who reimbursed himself in two years or greatly within the period for which the Extra Cess is remitted, would however hold out no encouragement to Parties to invest their Capital in the Construction of works which at the rate they would otherwise be

be reimbursed by the profits they derived in exemption from additional Assessment might not be repaid to them within the said period or perhaps not under the lapse of 30 years.—

6. It appears obvious that the introduction of a general Rule allotting the term of exemption for any specified period as applicable to all wells would give to Some Ryots considerable advantage over others, and would otherwise be an objectionable measure as it would put a stop to all improvements in the construction of works of the greater importance the outlay of which might be excessive in Comparison with the annual return it would yield on the calculation framed, and would have the tendency of inducing Ryots to lay out their Capital on works the Costs of which are trifling and yielded them the greatest profit by the speedy reimbursement of their out-lay so expended.—

7. I beg to offer the few following Suggestions with a view to the preparation of Rules based on principles which for the regulation of the question as I see I consider applicable to this District

and

and best calculated to ensure the Interests of the State- and to submit the accompanying Statements which have been prepaired on Correct data affording information in respect to the local Circumstances attendant on various descriptions of wells at present in existence in the several Talooks of the District, and to all matters in elucidation of points connected with the important question under discussion. The wells have been classified into 6 different descriptions and such the costs of which are above Rupees 100 have been entered in the Statements. Viz.t.

Statement No. 1. Exhibiting the Costs and other particulars of 18 wells constructed and faced entirely with Stone.

Statement No. 2. Exhibiting the Costs and other particulars of wells that have been faced partly with Stone and sunk partly in rocky ground and partly in soil affording greater facility of excavation.

Statement No. 3. Exhibiting the costs and other particulars of wells sunk in soil of a rocky description throughout

Statement

Statement No. 4 Exhibiting the Costs and other particulars of wells sunk in Sandy and soft Soils and faced on all sides with flat Stones.—

Statement No. 5 Exhibiting the costs and other particulars of wells constructed in Sandy Soils faced with wood and with Parapet walls also built with Stones

Statement No. 6.- Exhibiting the Costs and other particulars of wells constructed with wooden facing alone.—

8. On Examining these statements the same disproportionate results are apparent in respect to the amount of outlay for these wells respectively of various description in Comparison with the period required to reimburse the Constructors of them, the extent of land yearly brought under new well irrigation and the period the Ryots would be reimbursed their outlay under the exemption of Teervajasty is very disproportionate in Comparison with the Costs of these works respectively, and too frequently in favor of such as are of Minor importance—the Costs of which

which are Comparatively inconsiderable while the profits are the reverse all which Circumstances are dependant on the following causes

1st Facility or otherwise of Excavating the soil.

2d. Depth at which water is procurable.—

3d. Abundance or otherwise of the water.—

4th Extent of land liable to be brought under irrigation.—

9. In Statement No 1 the Cost of one work which reimburses the Ryot in 2 years is Rupees 399-15-. the extent of land annually irrigated under it is acres. 26-39-14-. The Ryot in this case has derived a profit on his outlay exclusively for the last 36 years. The Cost of another / taking the extremes in the same Statement / it will be perceived is Rupees 135. The Extent of land made to yield a superior description of produce is .-21-15. The period of exemption to admit of the Ryot being compensated for the labour and expenditure he may have applied is in this case 32 years, of which 30 have elapsed.—

10. I would beg to suggest that the

constructor of works of this discription should in all instances be allowed exemption from Extra Assessment for the period it would take to reimburse him his Outlay, and that half assessment should then only be leviable for half that period further. The principle on which the Rule now proposed is to levy the increased demand after a longer or shorter period as of total and partial Exemption with reference to the following points to be ascertained from correct data. 1st Outlay of the work.—

2d. Amount of Teervajasty per acre leviable with reference to the quality of the soil.—

3d. The Number of Acres capable of being brought under irrigation

11. But as the period within which Parties would be reimbursed on a Calculation made with reference to the above points varies from 2 to 30 years and might lead to a Complexity of accounts the matter might be Simplified by restricting the period of exemption to 10. 20 and 30 years according to the following Scale

Fort St. George 30th April 1849.

Scale unless it be considered the better arrangement to give all parties the benefit of 14 years exemption although reimbursed within any period short of it and to settle other Cases individually with reference to circumstances bearing on the points above referred to.

Parties to whom outlay is reimbursed in 10 years to be allowed . . . . . 10 years Exemption and half assessment to be levied for a further period of . . . 5 years.

Parties to whom outlay is reimbursed in 20 years to be allowed exemption for 20 years. and half additional assessment for a further period of . . . . . 10 years

Parties to whom outlay is reimbursed in 30 years to be allowed Exemption for 30 years and half additional assessment for a further period of . . . . . 15 years.

12. And with a view to encourage the construction of works of a superior description and effected at expenditure more than ordinary I would propose that for works the Cost of which Exceed Rs. 5000 a period of ½ in excess of that Calculated as reimbursing the land-holder should be allowed in exemption from any additional demand and half assessment for a further period of one half of the Combined number of years and that for works of the same description the outlay of which Exceeded 1000 Rs. a period of one half in Excess of that which would secure the Ryot be allowed in Exemption & half assessment for the further period of one half of the total number of years as exemplified in the annexed Statement

6184

Fort St. George 30th April 1849.

Description of Wells	Number of Wells	Number of years during which Ryots are to be exempted from the Assessment with reference to the amount of outlay according to the Scale annexed to the Proposal	Number of years which the Ryots are to be exempted from the Assessment with reference to the amount of outlay according to the Scale annexed to the Proposal	Total Number of years during which Ryots are to be exempted	Number of years which the Ryots are to be exempted from the Assessment with reference to the amount of outlay according to the Scale annexed to the Proposal	Total Number of years during which Ryots are to be exempted	Number of years which the Ryots are to be exempted from the Assessment with reference to the amount of outlay according to the Scale annexed to the Proposal	Total Number of years during which Ryots are to be exempted
Wells the Cost of which is above 100 & to 500 Rupees	3	30	15	45	22½	67½	6	6
Wells the Cost of each	1	10	5	15	7½	22½	2½	5
Ditto of each	2	20	10	30	15	45	5	10
Ditto above 500 to 1000 Rupees	3	30	15	45	22½	67½	7½	15
Wells the Cost of each	1	10	5	15	7½	22½	5	10
Ditto of each	2	20	10	30	15	45	10	20
Ditto above 1000 Rupees	3	30	15	45	22½	67½	15	30

13. By the above measures as pro-
=posed a liberal term has been allowed to en-
=able Constructors of Wells to derive an am-
=ple profit upon the labour and expen-
=diture they may have applied while it
will at the same time guard against encou-
=ragement to improvement being withheld and
afford some stimulus to Parties to construct
superior works of this description.—

14. To such works however the cost
of which may be within Rupees 100 and in
which are not faced with stone or sunk
in rocky ground where the advantages are
not likely to be permanent the exemption
from an increased demand might be limited
to such period as not to deter improvements
even on a minor scale. In such cases Ex-
=emption for two years the levy of ¼ ad-
=ditional assessment for the 3d ½ for the
4th and the whole for the 5th year would per-
=haps be an ample Compensation

15. In respect to such Wells as
are sunk in sandy places where water is
may be procured by digging a whole and
supporting the surrounding Earth by
Twigs or with a frame of Bamboo work it
would be inadvisable to extend the

D.G.

application

application of the Rule to lands under
Wells of this description / Garsa Bhawee /
where there has been no expenditure of
money or Labour.—

16. In all cases in which exemp-
=tion is allowed for improvements effected
at the personal Costs of Ryots, it should be
stipulated that Ryots should not
abandon their usual holdings and a
Rule should be introduced to guard
against such a proceeding.—

17. The accompanying State-
=ments will afford the necessary infor-
=mation on the several points adverted to
in Para 3 of the Proceedings of the Board
of Revenue irrespective of that called
for in the Concluding part thereof, and
having reference to Para 8 of the Honorable
Court's Dispatch on which the subject moted,
I beg to state that Sirkar wells are
not kept in repair at the expense of
Government.—

18. In Fasly 1231 / 1821/22 when all
Lands participated in the general re-
=mission 1/3d of the assessment was remitted
on Lands irrigated by means of Wells 9½ on
all other Lands. The distinction thus made in favor of the

former

former description was in consideration of the expense attendant on the repairs of wells which devolved on the Ryots. The measure now proposed might be easily adopted if thought preferable to the plan hitherto in force and if Ryots are consequently exempted from the responsibility of keeping these works in repair remission of 1/4th on their lands as on other lands should be only allowed. As the Honorable Court have alluded to the principal generally of taxing after a prescribed period, improvements effected at the expense of Ryots, it may not be out of place to offer a few remarks on the subject of Dasavandum Enams with reference to the minutes of Consultation 13th June 1844 under which order the application of the Dasavandum Rules to new works was prohibited. Without entering into any discussion on the advantages or disadvantages attendant on the operation of the Rules in question by which Cultivation under Tanks and Channels was extended, I shall confine myself to expressing my opinion that if from whatever cause arising the system which prevailed with respect to granting

of Dasavandum Enams as an inducement for Parties to invest their Capital in the construction of Tanks and Channels were not found to be conducive also to the Interests of the State, it seems highly desirable that some new Rule should be introduced which may apply to all Districts in order that encouragement to improvements of this nature may not be entirely withheld as at present.

19. I would beg to propose for the Consideration of the Board of Revenue and Government the following suggestions.

20. That total exemption from additional Assessment usually imposed on Dry land being converted into wet should be allowed for 4 years on lands irrigated by Tanks or Channels newly constructed at the expense of Ryots, the Costs of which may be within 25 Rupees.

21. That in respect to other works of this nature constructed by

by Ryots at an outlay in excess of the above amount and within Rupees 1,000 — " — " no demand for Seervajaoty should be made until the lapse of such period as shall have enabled the Ryot to reimburse himself the expenditure he may have incurred, and that a partial exemption for such further period be allowed in order that he may also obtain a liberal profit on the Calculation effected in the same manner as in respect to lands under wells. Viz. on the accumulated amount of Seervajaoty which would otherwise be leviable according to the quality of the Soil on the Number of Acres actually brought

brought under irrigation being placed to the debit side of the account as Counter to the ascertained Outlay as regards total exemption, and according to which period the half Assessment for a further half period would be fixed.

22. The additional profit for works of Considerable Outlay I would propose should be regulated according to the following Scale.

Thanks.

Sort St. u

In

23. In all instances the sites selected for the construction of a new Bell should be ascertained to be such as would not interfere with and divert the supply of water from Channels leading to other Tanks, and the Collector should satisfy himself from every enquiry that the Revenue derivable to the State according to the proposed measure from lands which would be irrigated by its means would be sufficiently in excess of that which the same land including the portion occupied by the Bed of the new Tank already yielded.-

24- While treating on the subject of Dusvandum Enams it may be proper in this place to state that the feelings of the Ryots are decidedly in favor of Tenure of this description as Compensation in all descriptions of improvements effected at their expences. They consider grants of this nature of far more importance than any Rules that may be introduced however favorable and if I may be allowed to express an opinion on the matter I beg

to state that I should feel inclined to yield to their feelings in respect to wells as after the period that has elapsed during which they have been allowed to consider the Profit they derived by constructing wells at their own expence to be exclusively their own and which has never been followed up except in particular Cases agreeably to Rules sanctioned by the Board of Revenue) by an increase of their land Tax the measures at present in Contemplation cannot but tend to weaken their confidence in the stability of Rules hereafter introduced by the usual remission of 1/4th on the additional assessment (the remission for 1/3rd being discontinued when Dusvandum Enams are granted) the granting the still further reduction of 1/4th on the balance as Dusvandum Enams be considered too favorable for the Ryot with reference to the share of the respective benefit Government would have to forego (though in most cases

Cowcar.

cases their
share of such would
average 6 times the Dry
assessment on the
land assessments
of the Sort might
be made on terms
less favorable for the
Ryots and the reduction
as Dusvendum may be
allowed at 1/5th or 1/6th.

The result of this
arrangement is shown
in the Memorandum as
per margin in which
Rs. P. c.
" 4 " has been as
sumed as the average
Dry Assessment and
Pagodas the averaged
additional Assessment
per acre.

25. I am certainly of opinion
that some Modification of the Rule now in
force in the District in respect to the rating
of Seerwajasty is highly desirable if not ne-
cessary. In Fusly $\frac{1243}{1833\text{-}34}$ Mr. Lacon the then
Collector introduced a Rule by which the
Minimum rate of Seerwajasty on dry lands ir-
rigated under several sources should be fixed
at 3 Pagodas per acre under the impression I
am informed that the exaction of the additiona
al demand on terms more favorable for the
Ryots had the tendency of inducing them to
abandon their highly assessed lands under
Tanks and Channels for the Cultivation of
lightly assessed lands on which Seerwajasty
was leviable according to the Rules in force.

26 The rate of 3 Pagodas per acre as
additional assessment for Dry converted into
wet is I think in many instances with re-
ference to the Quality of the soil too high to
admit of lands being thus improved by being
made to yield a Superior discription of produce,
and it is my firm conviction that it would
greatly tend to the Interest of Government
the improvement of the District and of the
Condition of its Inhabitants generally if

Fort St. George 30th April 1849

generally if this rate was reduced to 1/2 Pagoda as the lowest leviable, and made to fluctuate with reference to the assessment, the nature and capabilities of the soil required to be improved under the various sources of irrigation for which leviable—

27. The restriction as at present imposed cannot but be attended with considerable loss of Revenue and other concomitant disadvantages consequent on the check to improvement occasioned thereby as regards the lighter description of soils and it appears to me quite unnecessary when the simple introduction of a Rule would effectually check any abuses of the nature—The withholding of any remissions for any old wet-lands which may have been thus purposely left waste on the exacting any prescribed amount as Peervajasty say double the amount fixed on the extent of land Cultivated and liable to this additional demand would prove an effectual check on the desertion of the former for the latter lands—

DG.

From W. E. Lockhart Esqre Collr of Salem

Sir,

I have the honor to transmit as called for in the Extract from the Proceedings of the Board of Revenue under Date the 12th Instant a Medical Certificate in the prescribed form procured and

ORIGINAL DISTRICT

6219. Fort St. George 30th April 1849.

The Purchasers of the Estate will not be suffered to enter on possession till the sale has been confirmed by the Board of Revenue, but in the mean time 15 per Cent of the purchase money will be required to be deposited immediately and on default thereof the Estate will be resumed and sold again on the Proceeds of the Collector's Security given for the payment of the Remainder.

In the event of the sale not being confirmed by the Board of Revenue, the deposit money will be returned from all responsibility with regard to the Estate.

For further particulars enquire of the Collector's Cutchery.

By Order of the Board of Revenue
(Signed) J. Pycroft
Secretary.

Cutchery on Sunday the 6th May 1849.

Fort St. George 30th April 1849

and furnished to me by Mr Innes.

Salem
Collrs Cutcherry,
24th April 1849.

Signed W. E. Lockhart
Collector.

Proceedings thereon

29-30

The Board observe that the Medical Certificate forwarded with the foregoing letter does not bear the countersignature of a Member of the Medical Board as prescribed by the orders of Government dated 5th April 1841, they resolve accordingly to return it to the Collector, with a request that he will retransmit it to them after it has passed thro' the Medical Board Office.

Read the following letter.

To J. Pycroft Esqre
Secretary to the
Board of Revenue
Fort St. George.

31

From
W. B. Davis Esqre
Collector of South Arcot

Reporting that only 3 Distilleries are in operation in his District and the measures taken for protecting the Abkarry Revenue.

Sir,

Para 1. I have the honor to address the Board in reference to Extracts Minutes Consultation 25th and 30th January last enjoining the exercise of a strict vigilance over the Distilleries in South Arcot.

DECD
ORIGINAL

Fort St. George 30th April 1849

2. The only Licensed Distilleries manufacturing spirits after the European process of distillation now working are those at Bandipollium Nellicoopum and Cullacoorchy belonging to the House of Messrs Parry & Co at Madras and superintended by Mr J. Pugh who resides on the spot. A regular License has been taken out for the first two places and an application made for Cullacoorchy. The most effectual supervision is also maintained for protecting the Abkarry Revenue of the District and for preventing the illicit disposal of the produce of the Distilleries.

3. In para 3 of the Minutes of Consultation 30th January the Government, after requiring the adoption of every means for suppressing smuggling between parties at Cuddalore and Madras, observe, that "the absence of all traces of the 80 Barrels of Rum and 100 Dozens of spirits of wine which were offered for sale to Mr Potter, induced the belief that the spirits have already clandestinely found their way out of this District without detection"

Fort St. George 30th April 1849.

detection".-

4 In order therefore to satisfy myself how far they might be borne out in this conclusion, I communicated with the Government of Pondicherry and procured the answers of Mr. Allix to certain queries proposed by me, which were taken on a solemn oath, and I have now the satisfaction of shewing on what appears to me the strongest and most indubitable grounds that the said quantity of spirits were never in existence; but was only offered as the probable quantity capable of being manufactured and supplied, if Mr. Allix had succeeded in effecting his contract for the same.-

5 From the face of the transaction, there is positive evidence to remove the doubt altogether, for of 20 Casks of Brandy demanded by Mr. Potter if only 20 Barrels were consigned, it is clear that the larger quantity was not available. Besides, if so large a quantity had actually been stored in any place in this District it could not have escaped detection particularly

† Copies of correspondence enclosed.-

Fort St. George 30th April 1849

particularly as I placed a strict watch over the Godowns immediately after the receipt of Board's Proceedings 8th May 1848. I beg to state for the Board's information that I have considered it necessary to recall the license granted to Mr. Bullivant on the 11th November 1842 and renewed on the 11th August 1847.-

6. My best exertions shall however be continued towards carrying out the requirements of the Board and Government, and the necessary report will also be made annually. I further beg that this letter may be laid before Government in the hope that it may lead to the removal of the impression now existing in their minds as to the clandestine importation into Madras of the Spirits above mentioned.-

Examined

6216

Fort St. George 30th April 1849.

Examination held of Mr. I L Allix at Pondicherry by the Commissary of Police.

2. Do you remember having lately conveyed a certain quantity of Spirits to Madras from Cuddalore?

A. Yes, I perfectly recollect it.

2. How much was it and to whom did it belong?

A I conveyed it in 4 Bandies 22 barrels of Brandy belonging to myself which were purchased from a Merchant of Tranquebar, that came over to Pondicherry and offered it to me, and I made this purchase after having ascertained at the Sea Custom house, as will be proved by the annexed certificates, that this Brandy had actually been conveyed by sea from Pondicherry to Tranquebar which settlement belonged to the Danes. afterwards I communicated all these circumstances by letter to the Collector of Cuddalore, and with the Permission he granted me, I conveyed it to Madras.

2. How much more had you remaining in store and where is it now for Mr. Lafolie in writing to a Mr. Potter at Arcot offered to supply 100 Casks of that liquor.

A I repeat that I never had in my possession but these 22 barrels, besides some dozens of case Brandy in capsuled bottles which I purchased from Mr. Collendyt and sold immediately at Cuddalore not knowing the English language I had requested my

Fort St. George 30th April 1849.

Examination held of Mr. I L Allis at Pondicherry by the Commissary of Police.

2. Do you remember having lately conveyed a certain quantity of Spirits to Madras from Cuddalore?

A. Yes, I perfectly recollect it.

2. How much was it and to whom did it belong?

A I conveyed it in 4 Bandies 22 barrels of Brandy belonging to myself which were purchased from a Merchant of Tranquebar, that came over to Pondicherry and offered it to me, and I made this purchase after having ascertained at the Sea Custom house, as will be proved by the annexed certificates, that this Brandy had actually been conveyed by sea from Pondicherry to Tranquebar which last settlement belonged to the Danes. Afterwards I communicated all these circumstances by letter to the Collector of Cuddalore, and with this Permission he granted me, I conveyed it to Madras.

2 How much more had you remaining in store and where is it now for Mr. Lafolie in writing to a Mr. Potter at Arcot offred to supply 100 Casks of that liquor?

A I repeat that I never had in my posession but these 22 barrels, besides some dozens of case Brandy in capsuled bottles which I purchased from Mr. Collendant and sold immediately at Cuddalore not knowing the English language I had requested my

my relation Mr. Lafolie to offer for me and on my account that liquor for sale to Mr. Potter. as to the number "100 Casks" it was only an imaginary quantity that I desired Mr. Lafolie to assign, in order to make the transaction appear of great importance and the proof of my having only that quantity on hand, is, that I could not fulfil entirely the command received from Mr. Potter who had written to be supplied with 20 Casks instead of which I took him only 22 barrels being equivalent to a third part of his demand. It is therefore clear and evident that if I could not supply Mr. Potter with the 20 casks he wished to have, it was because I did not possess them.-

2. If it did belong to you, why did Mr. Lafolie offer it for sale.?

A. As I did not know the English language, I requested my relative Mr. Lafolie to be good enough to write to Mr. Potter and offer him for sale the liquor in question, and Mr. Lafolie having communicated to me at Pondichery the reply made by Mr. Potter with the price offered by him, I wrote back to say to accept it. It is a friendly office he did to me and I now learn with regret that he is suffering the consequence.-

2 From whom did you get the liquor conveyed to Madras.-

A I bought that liquor from a Merchant of

Tranquebar

Tranquebar named Appavoopillay who came over to Pondicherry and offered it to me, and I am ready to give satisfactory proofs of the said purchase and payment made by me in ready money.-

2. What else did you carry with you at the time.?

A. Nothing else

2. How often did you convey Rum or any other spirits to Madras.?

A. It is the first and only time that I conveyed any liquor to Madras, and having risked every thing I possessed in this business, I am now entirely ruined, and left destitute with a large family.-

2. Do you know what has become of the 100 Lozens of Spirits of Wine promised by Mr. Lafolie to be supplied to Mr. Potter and from whence did he obtain the sample sent to that person.?

A When I sent the master of Brandy from Pondicherry to Cuddalore to Mr. Lafolie for the purpose of its being transmitted to Mr. Potter, I also sent him a sample of Spirits of wine, which I obtained at Pondicherry, and as I know the process of distillation, having been employed for several years in the factories of Cuddalore, I wished to ascertain if I could realize any profit by working on my own account, what induced me to it was that I learnt of a person having applied to the Government of Madras for permission to distill and sell Alcohol in India I naturally thought if the privilege was allowed to

Fort St. George 30th. April 1849.

to one person, that I would also obtain the same favor, but the price offered by Mr. Potter not having suited me, I have entirely abandoned the project - as like the 100 Casks of Brandy, I desired Mr. Lafolie to assign the number of 100 Dozens, only for form sake, but I had never had in my posession a drop more than the samples.

2. What share had Mr. Lafolie in the concern?

A. I positively declare that Mr. Lafolie had no interest whatever in this transaction, and that he had the misfortune to offer this liquor for sale only to oblige me, believing as I did, that it was genuine.

2. Was he cognizant of the nature and origin of the liquor in question?

A. Mr. Lafolie never saw nor tasted this liquor, because the key of my godown of Cuddalore was with me at Pondicherry, and every thing he wrote to Mr. Potter on this subject, was derived from information which I gave him from time to time by Post from Pondicherry.

2. How long is it since you left Cuddalore and have been residing at Pondicherry.

A. It is three years since I left Cuddalore and came to live at Pondicherry which is the place of my birth and residence.

Proceedings Conveying to the Collector of South Arcot observations and instructions on the subject of the Distillery in his District and more particularly on the transactions between Mr. Allin & Lafolie & Co.

Fort St. George 30th. April 1849.

In the letter above recorded thereon the Collector of South Arcot states that the only "licensed Distilleries for manufacturing spirits after the European process of distillation now working in his District are those at Bandipollam Nellicoopum and Cullacoorchy belonging to the House of Messrs. Parry & Co at Madras, and superintended by Mr. J Pugh who resides on the spot. Regular License has been taken out for the first two places and an application made for Cullacoorchy. The most effectual supervision is maintained for protecting the Abkarry Revenue of the District and for preventing the illicit disposal of the produce of the Distilleries."

In reference to the remarks made in para 3 Extract Minutes Consultation 30th January last upon the absence of all traces of the 80 barrels of Rum and 100 dozens of Spirits of Wine which were offered for sale to Mr. Potter and the consequent presumption that those spirits had clandestinely found their way out of the District without detection; Mr. Davis next proceeds to submit the answers given on oath by Mr. Allin to certain interrogatories put to him thro' the authorities at Pondicherry and

Fort St George 30th April 1849.

and to shew on what appears to him (the Collector) the strongest and most indubitable grounds that the said quantity of spirits was never in existence, but was only offered as the probable quantity capable of being manufactured and supplied, if Mr. Allis had succeed in effecting his contract for the same. The Collector further requests that his letter may be laid before Government in the hope that it may lead to the removal of the impression now existing in their minds as to the clandestine importation into Madras of the Spirits above mentioned.—

3 In consequence of this application the Board have attentively considered the deposition given by Mr. Allis.—

4 Mr. Allis setout by repeating the account previously given of the origin of the Spirits brought by him to Madras. Viz. that they had been conveyed by Sea from Pondicherry to Tranquebar whilst that Settlement belonged to the Danes and had been removed to Cuddalore subsiquent to the cession of Tranquebar to the English. This statement has already been disproved by the letter from the Collector of Tanjore to the Collector of Madras

Fort St George 30th April 1849.

Madras of the 1st April 1848, which shews that there is no reason to believe that any such quantity of brandy was in Store at Tranquebar at the time of its transfer, and that none such had been removed under due permit since.

5 In substantiation of his assertions Mr. Allis however appeals to the Sea Custom House Certificates granted by Mr. A. Hoxton Master attendant of Pondicherry under dates 10th and 11th July 1848 which are appended to his deposition. One of these states that 21 Casks and 12 Barrels of Brandy containing altogether 675 Veltes or 1050 Gallons was exported from Pondicherry to Tranquebar in the years 1839 & 1841 or 9 & 7 years respectively prior to the transaction in which Mr. Allis was engaged and it is not probable that any considerable quantity of this liquor would have remained unconsumed for so many years afterwards. The other Certificate shews the quantity exported during 1845 to have been 6 barrels or 80 veltes or 128 gallons. It may be presumed that these Certificates exhibit the total exports of brandy from Pondicherry to Tranquebar from the year 1839 to 1845 had there been more it would of course have been so stated Thus the entire quantity introduced into Tranquebar

* Note at 1.6 gallons to the Velte see Stuart's almanac Page. 165.

N.B. Tranquebar ceded to the Company in 1845. Vide Fort St George Gazette 1845. Page 4th

and to shew on what appears to him (the Collector) the strongest and most indubitable grounds that the said quantity of spirits was never in existence, but was only offered as the probable quantity capable of being manufactured and supplied, if Mr. Allis had succeed in effecting his contract for the same.

The Collector further requests that his letter may be laid before Government in the hope that it may lead to the removal of the impression now existing in their minds as to the clandestine importation into Madras of the Spirits above mentioned.—

3. In consequence of this application the Board have attentively considered the deposition given by Mr. Allis.—

4. Mr. Allis setout by repeating the account previously given of the origin of the Spirits brought by him to Madras. Viz. that they had been conveyed by Sea from Pondicherry to Tranquebar whilst that Settlement belonged to the Danes and had been removed to Cuddalore subsequent to the cession of Tranquebar to the English. This statement has already been disproved by the letter from the Collector of Tanjore to the Collector of Madras

Madras of the 1st April 1848, which shews that there is no reason to believe that any such quantity of brandy was in Store at Tranquebar at the time of its transfer, and that none such had been removed under due permit since.

5. In substantiation of his assertions Mr. Allis however appeals to the Sea Custom House Certificates granted by Mr. A. Hoxtin Master attendant of Pondicherry under dates 10th and 11th July 1848 which are appended to his deposition. One of these states that 21 Casks and 12 Barrels of Brandy containing altogether 675 Vettes or 1930 + Gallons was exported from Pondicherry to Tranquebar in the years 1839 & 1841 or 9 & 7 years respectively prior to the transaction in which Mr. Allis was engaged and it is not probable that any considerable quantity of this liquor would have remained unconsumed for so many years afterwards. The other Certificate shews the quantity exported during 1845 to have been 6 barrels or 80 vettes or 128 gallons. It may be presumed that these Certificates exhibit the total exports of brandy from Pondicherry to Tranquebar from the year 1839 to 1845 had there been more it would of course have been so stated Thus the entire quantity introduced into Tranquebar

+ Note at 1.6 Gallon to the Vette see Stevel's Almanac Page. 165

N.B. Tranquebar ceded to the Company in 1845 Vide Fort St George Gazette 1845 Page the

Tranquebar from Pondicherry during the six years preceding the cession of the former settlement to the Company was only 1178 Gallons whereas the quantity offered by Mr La Folie to Mr Potter was 100 Casks at 21 Gallons to the Cask or 2100 Gallons or more than had been imported into Tranquebar during 6 years and the quantity actually seized in Mr Allis's possession was between 5 & 600 Gallons or from 4 or 5 times as much as had been imported into Tranquebar the last occasion mentioned, or in 1845. Even tho' a much larger quantity of Brandy had been imported from Pondicherry into Tranquebar during the 6 years referred to it proves nothing in support of Mr Allis's statement in as much as it has been sufficiently shewn that this liquor was not brandy at all, but Rum or some other Country spirit prepared in imitation of Brandy.

From Coll[r] of Madras 8th April 1848 Para 1 in Cons. 8th May 1848.

6. Mr Potter answer in the next answer in his deposition avers that he never had more than 22 Barrels of Brandy & that the 100 Casks offered by Mr La Folie for sale to Mr Potter was only

"an imaginary quantity which he desired Mr La Folie to assign in order to make the transaction appear of great importance" But this statement is not only highly improbable in the abstract, but is altogether irreconcileable with the expressions used by Mr Potter and particularly in his letter to Messrs Miller & Sons of the 29th February 1848, wherein he speaks of having closed the bargain for the 100 casks of Brandy. Mr Allis urges in proof of his having only 22 Barrels on hand that he could not fulfil entirely the order received from Mr Potter who had written to be supplied with 20 Casks instead of which he took him only 22 Barrels the equivalent to a third part of his demand and the Collector of South Arcot dwells upon this part of Mr Allis deposition as removing all doubt and leaving it clear that no larger quantity than these 22 Barrels were ever in existence - As far however as they can judge from the correspondence between Mr La Folie, Mr Potter, and Messrs Miller & Sons which has been submitted to them, the Board see no reason to recognize the distinction here taken between Casks and Barrels. Thus in his letter of the 11th February

February 1848 Mr Potter tells Messrs Miller and sons that he expects to get 100 Casks of brandy of 21 Gallons each, and in his letter of 18th March 1848 Mr La Fobe states that the Casks he is about to send do not contain the same number of Gallons, there being some of 21 and others of 31 - Now the total quantity actually sent, as would appear on seizure at Madras, was 22 Barrels containing between five and six hundred Gallons, or at the rate of 25 Gallons to the Barrel, thus shewing that the Barrels sent were actually larger than the Casks mentioned in Mr Potter's letter of 14th February 1848, and that they were of the same measure capacity or and in doubt identical with the Casks spoken of in Mr La Fobes letter of 18th March. The Board do not question that Mr Allis did really send as much as Mr Potter had applied for, but had it been otherwise, a sufficient reason for sending a smaller quantity is given in Mr La Fobes letter already quoted Viz^t, not that there was no more to send, but that barrels were scarce, and in

in consequence of the bad state of the Roads only a small number of Casks could be loaded on each bandy —

Mr Allis next states that he had no more than the single bottle of the spirits of Wine sent to Mr Potter as a sample and that the hundred dozens spoken of by Mr La Fobé was like the hundred Casks of Brandy merely introduced "for forms sake" but besides the improbability of Mr Allis distillery operations being limited to the production of a single bottle, this assertion is altogether incompatible with the words used by Mr La Fobe in his letter of the 26th February 1848 Viz^t "I have an hundred dozens of spirits of Wine of the same quality as the sample" —

The Board of Revenue cannot but regard the statements made by Mr Allis to be utterly unworthy of credit, and as neither his deposition nor the remarks made upon it by the Collector have in the least altered the opinion formed by them of the transaction, nor are in any way likely to

to dispel the impression entertained of it by Government they do not feel themselves warranted in submitting Mr. Davis' letter to that Authority—

9— In Para 2 of the letter now under reply the Collector mentions among the Distilleries "now working" in his District and belonging to the House of Messrs Parry & Co that at Callicarchey the Board however have but very recently authorized the issue of a License for the Callicarchey Distillery and if they are to understand by the Collector's expressions that the Distillery at that place has been allowed to be worked in anticipation of the License, such a proceeding is very irregular—

10 In Para 5 of his letter Mr. Davis likewise reports that he has considered it necessary to withdraw the License granted to Mr. Ballard. He will observe on looking to clause 3 Section IV Regulation I of 1820 that before taking such a step he should have referred for the orders of the Board.—

In Cons: 15th March 1849.

No. 33

Proceedings thereon Consisting of the Collector of Tanjore's observations on the Board on the proposed modification of the Woolungoo Standard in certain Nunjah Villages & regulating him to fixed certain exemptions

Read again letter from the Collector of Tanjore dated 27th September 1848 reporting his Proceedings relative to the modification of the Woolungoo Standard in certain Nunjah Villages in the Taluk of Trivalore—

/Here enter No. 90/

The Collector is engaged in revising the grain Demand in Nunjah Villages in obedience to the instructions of the Board and Government. In fixing the Demand for the future the Produce for a series of years has constituted the chief guide, but the irrigation and situation as well as the assessment relatively with that of other contiguous Villages have also been taken into consideration. The demand for 47 years has been divided into 3 periods of 22. 15 and 10 years respectively, and the

* Board's Proceedings 28th February 1848 Mins: Cons: 16th May in Cons: 27th July 1848

and the 3 highest years under Cumany in each series considered conjointly with prospective improvements to the irrigation form the data of adjustment.—

To have adopted past averages as a standard of future demand would have involved it is stated too large a reduction of the present grain demand. the highest produce realized under Cumany would therefore preferred. The letter under consideration embraces the Cumany Villages in the Trivalore Taluk only, but a similar principle of revision has been pursued in the other Taluks where there are Cumany Villages, and the parties bind themselves to the arrangement until some other system is substituted. Mr. Bishop is of opinion that the standard as now fixed is as high as can be demanded without trenching too heavily on profits.—

2 According to the Settlement accounts of Fusly $\frac{1256}{1846/47}$ there are 69 Cumany Villages in Trivalore Right 49 Board rented and 2 under Cumy but in the Statements which accompany the letter under consideration 48 Villages

DG

are exhibited, in 9 Villages the original Oolungoo Berry has been confirmed, in 24 a final Settlement has not yet been made and in 15 Vuzt- 13 entered in a Separate Statement and Nos 1 and 2 of the rough Note Book a reduction has been allowed.—

3. The particulars of the Settlement effected in the 13 Villages entered in the Separate Statement are shewn in the following Abstract.—

4 From the foregoing details it appears that with the exception of Nos. 26-37 and 13 the original Oolungo Beriy does not exceed that of the neighbouring Villages.- In 5 cases Viz.t Nos. 26 30-36-48 & 16 the reduction which has been allowed exceeds 10 percent; in the remainder it ranges from 5 to 10 per cent.— So far as the Board have the means of judging the deduction appears to have been allowed on too liberal a scale, particularly as regards Melmonaly No. 26. apparently a Ekbhogum Village in which a remission of 8 per cent has been given, although as the Collector observes at the foot of No. 22 in the note Book "the land is good and no maramut required and the money rent for the last 3 years is equal to and above the standard." This Village it is true has never been Oolungo rented and the money rent being fixed with reference to the Prices of the year does not afford a criterion for regulating the grain assessment, that

the necessity for a reduction of 8 per cent under circumstances apparently favorable should have been more clearly shewn- Also when land is deducted from the Pittum as unfit and waste land is given in lieu as in the case of Melmonaly explanation should have been given to shew from what cause the land was rendered unfit, and whether it can be again brought under cultivation, and why the waste has hitherto remained uncultivated; similar remarks apply to the Village of Shikkar No. 42 and to Purtalungoody No. 46 as regards the last mentioned Village, it should have been explained under what circumstances it is proposed to cultivate a certain portion of the land with a second Crop while there are no two crop lands in the Village, and whether it is likely that a sufficiency of water will be found at all times for the additional cultivation now proposed.—

5. The Collector will be pleased to furnish the explanation noticed above and

Fort St. George 30th April 1849

and if after further consideration it appears to him that the scale of remission is too liberal and that it may occasion embarrassment by existing unreasonable exportations, he will be pleased to make such modifications as may appear required; meanwhile it is not the wish of the Board that the arrangements which have been made should be disturbed.

To,
