Read the following Petition forwarded in triplicate from Manally Apparaw Moodeliar, Heir and representative of Manally Lutchoomana Moodeliar deceased.

(Here enter 12th March 1849)

The Right Honorable the Governor in Council Resolves to forward through the Board of Revenue one copy of the Petition with its Enclosures to the Acting Collector of Tanjore. The Board will instruct that Officer to obtain from Ammi Ummall the opposite party a specific answer to the claim of Mr. Apparaw and a Statement of the grounds on which She resists her own claim against

against his as regards the shrotriem of Manjagoody. The Acting Collector will at the same time obtain from Apparaw on the other hand a Statement of the grounds on which he claims the succession to the Poattoor shrotriem with reference especially to the original title deeds in the name of Chinnaiah Moodeliar. how he makes himself out as heir to Chinnia and on what provable grounds he avers that the property really belonged to his grandfather Mastoo Sreestna tho' it stood in the name of his uncle Chinnia. The Acting Collector should then test the Statements of the opposite parties by such investigation as appears to him to be requisite and thereupon report his opinion for the consideration and final determination of Government.

From the Sect to Government Communicating letter from the Agent at Kurnool reporting on certain Petitions addressed to Government by Lutuf Ally Khan one of the sons of Moozuffer

No 419.

Extract from the Minutes of Consultation under date the 25th April 1849.

Read the following letter

From J. F. Thomas Esqr. Chief Secretary to Government, Fort St George

To

Sir

As required in the order of Government dated 1st February

6254 — Fort St George 3 May 1849

Moozuffer Ool Moolk complaining against the Proceedings of the late and present Nawaub of Bunganpelly with the views of Government thereon

last No 112. I have the honor to report for the information of the Right Honorable the Governor in Council, respecting the position of Taher Ali Khan in the Banganapelly family and the claims on it which he puts forward.

2. In the address transmitted to Government by Taher Ali Khan on the 1st September 1848 or about six weeks before the demise of the late Nawab Boosain ali Khan, it is erroneously asserted that the Banganapelly Jaghees should continue in the name of Moozuffer-Ool-Moolk and his family.

3. It will be observed on reference to a letter from the Nizam to the address of the then Resident at Hyderabad, received on the 25th September 1806, that it was the wish of the Nizam that as the Jagheer of Banganapelly is in truth the sole means of subsistence of the numerous family

in

family" of the two Chieftains Munsoor-ood-Dowla and Moozuffer ool-Moolk, the depriving them of it was rendered impossible.

4. The Resident yielded to the desire of the Nizam and the Jaghеer has since been enjoyed by the descendants of those chieftains. In lieu of money payments to the subordinate Members of their families it is found that after the demise of both Munoor-ood-Dowla and Moozuffer-ool-Moolk, arrangements were made for assigning to the several individuals entitled to maintenance, a more or less number of entire villages, which have been held by them up to the present date without interference on the part of the Senior and acknowledged representative of the two families Viz.t the late Doosain ali Khan.

5. The distribution of these Villages does not appear to have been made on any fixed principles

It would seem to have had reference as much to the extent of affection as the degree of affinity existing between the deceased chiefs and the parties receiving such assignments.

6. By a grant of the above description the Petitioner Taher Ali Khan obtained and still holds possession of Tungaitoor, a rich village in Bungan-pilly but as mentioned in Para.a 4 my communication of the 9.th November last to the Board of Revenue, Moozuffer-ool-Moolk's issue was by concubines, of whose sons the Petitioner is one. He is consequently illegitimate and therefore not entitled to the consideration claimed, even if he had correctly described the tenure of the Jaghеer.

7. The distinct recognition as Jaghеerdar of the late Doosain ali Khan, was a measure which the Honorable Court

of Directors approved and ordered to be adopted. It did not affect such Revenue arrangements as the several Members of the Banganpilly family had personally concluded with the cultivators residing in their respective Villages. It, however, went to impose on the Nawab himself the discharge of certain police and Judicial duties which, whilst the territory was under management by Government Officers, were performed by them and which previous to the Jaghee coming under Amany had been badly performed by the Village authorities or had not been performed at all.

8. The expenses of administration whilst under Amanee, were deducted from the net proceeds of the Talook, each of the Minor Jaghcerdars paying in proportion to the Revenue of his own village or Villages, the residue only being afterwards disbursed from the Surnoolee Treasury.

9. After his investiture

the late Nawab proceeded to organize a Sibbundy for the general police of the Talook and took steps towards establishing a Cazee's Court for the adjustment of litigation arising within the limits of the Jaghcer, all such having previously been disposed of by one of the Courts under my jurisdiction. He consulted me regarding the source whence funds were to be drawn to meet the expenditure thus devoluing would be felt generally by all the Jaghcerdars. I had no hesitation in pointing out that he should require each Jaghcerdar to subscribe towards the outlay in question in proportion to the sum total of his separate revenues; as such a requisition would be but a continuance of the old arrangement.

10. I am aware that the Petitioner offered much factious opposition to the praiseworthy endeavours

endeavours of the late Nawab — and that he refused at first to contribute his quota. It is possible the discussion which then arose may have induced the late Nawab to require Petitioner to produce his Village accounts and if so, I submit the requisition was proper and justifiable. I further submit that in the event of Petitioner's continued refusal to subscribe to the expenses of the Police of the Jaygheer, the Nawab would have done no more than vindicate his position and authority had he sequestered the Petitioner's Villages.

11. No complaints of oppression on the part of the late Hoosain ali Khan ever reached me. He was notoriously an easy over kind landlord and a most unlikely person to direct or sanction the slightest ill treatment of a Ryot. Were it otherwise, Petitioner would, I feel

satisfied,

satisfied, have been the first to send the aggrieved party over to me to obtain redress.

12. One of Petitioner's step brothers, Ghoolam Mahomed Khan, a man of extremely irascible and excitable temperament, has a claim of long standing — against Petitioner which under the orders quoted marginally neither my predecessors nor myself felt at liberty to investigate and decide. It has always formed a — bone of serious contention between the two brothers: but it would — have been settled by the late Nawab, as arbetrator, just before the restoration of the Jaygheer, had not Petitioner resolutely set his face — against inquiry and settlement of every kind. I personally explained to him the possible dangers of his continuing to irritate Ghoolam Mahomed Khan by refusing to submit the matter to arbitration or otherwise show that the — claim was unfounded; but I failed

Extract Minutes of Cons.y 4th March 1840 No 329 para 10.

in persuading him to yield. The late Nawab was alive to the disagreeables likely to result from such a state of things but did not succeed in bringing Petitioner to terms. I believe the real difficulty was caused by the wives of Petitioner and the late Nawab, who being sisters and having in common with several others of the family a strong feeling of dislike towards Goolam Mahomed Khan, are not inclined to see Petitioner under the necessity of paying a considerable sum to that individual.

13. After the investiture of the late Nawab, Goolam Mahomed Khan was loud in his calls for justice and as I found my personal advice to the Petitioner remained wholly unheeded, I replied to the Nawab's question of how I thought he should act, by advising him if after a period he found Petitioner was still obstinate in opposing enquiry into the merits of the claim

O.G.

firmly to intimate to him that as the recognized Nawab of Banganapilly and the Jaghirdar solely responsible to Government for the peace and well being of the Taluk, he must take up the case as one between man and man, decide it to the best of his judgment and ability and by virtue of his position enforce the decision, if against Petitioner, by the adoption of such means as were within his power. In

14. I consider it likely the above matter is adverted mention made by Petitioner said to have been held under the late Nawab of the villages to Ghoolam

to Fakir Ali Khan that if he will not allow it to be enquired into, I shall deem it necessary to insist on the present Nawab as the head of the family investigating it, and proposing a decision one way or the other.

16. The above remarks embrace such parts of Petitioners first address to Government as appear to me to require notice. His second address is dated the 5th January of the present year and was written after the demise of Hoosain Ali Khan.

17. It does not contain any points unconnected with the subject of the former communication beyond a claim on behalf of his wife to a share of the Banagampilly Aberry Renters deposit which was received into my Treasury before the commencement of the current Fusly and which on the restoration of the Jaghеer was paid by me to the Nawab for distribution to the several

several minor Jaghеerdars in proportionate sums.

18. The retention in the Nawab's hands of such part of the deposit as fell to the shares of Petitioner and his wife, (who has some separate Jaghеer villages of her own) was solely consequent on Petitioners and his lady's refusal to contribute to the general sibbundy of the Talook as economically settled by the Nawab at about half the amount of expenditure incurred when the Jaghеer was under Amany Management.

19. The complaint that Merchants residing in the Petitioner's wife's Jaghеer have been defrauded by non-payment of money lent to the late Nawab, is I submit, a matter which should be brought if true, to my notice here by the sufferers rather than by the Petitioner in an address to a distant authority. I have not however been as yet applied to by any one.

Para 1. The Right Honorable the Governor in Council is satisfied from the foregoing report of the Agent at Kurnool that Tahir Ali Khan who he learns is one of six illegitimate Sons of the late Mooz uffer-oob-Moolk has no real grounds of complaint against the late or present Sagheerdar of Bunganapilly-

2. The Governor in Council recognizes the justice of the arrangements made by the Sagheerdar with the concurrence of the Agent for the maintenance of the Police establishment and the Cazees as explained in Para 9 and he approves of the proceedings of the Agent as reported in the 15th Para of his letter and desires that Tahir Ali Khan may be informed by the Agent in reply to his Petitions of the 1st September 1848 No. 145 and 6th January 1849 No. 116.

the Village of Mangaud in the names of the four Sons, daughter and widow of the late Subidar Major Mahomed Surwar Khan Bahadar to be enjoyed by them in equal shares, the shares of the Widow being on her death divided equally among the others.

2. The Board will further instruct the Acting Collector to see that the claimants are paid the arrears of their shares of the proceeds of the Village which have been so unjustly withheld by Goolam Moortooza, and to intimate to this person that unless he comes to an amicable adjustment with his relations in one Month, his share of the accruing revenue of the Village will be sequestrated and appropriated to the discharge of the sums withheld by him.

Sir,

From the Collector of Nellore — Para 1 I have the honor to acknowledge the receipt of your letter dated the 20th November 1848 requiring some information regarding the mode and rates of assessment obtaining in the Government lands for the taxation of Palmyra and Cocoanut Trees and in reply beg to submit the following explanation on the subject.

Submitting information regarding the mode and rates of assessment obtaining in the Government lands for the taxation of Palmyra and Cocoanut Trees.

Palmyra Trees. 2 Palmyra Topes are never planted on lands classed and assessed but on immemorial waste and Sirkar other Rejected lands. Single Trees even are rarely planted in such lands except in the Divisions of fields. No assessment is charged on Palmyra Tope and Trees during the growth of the Trees which usually do not come into bearing until between the twentieth and thirtieth year

year. When these trees have come to maturity and Toddy can be drawn from them, applications for annual rents are received, and the highest bidders put in possession of the topes or trees for the purpose of converting the toddy into Jaggery. It has not been customary for parties desirous of planting Palmyra Trees to present proposals and take possession of the land for planting them, but as the trees are considered under Government, the cutting of them is only allowed under the express order of the Collector and the rule is that ten seeds are to be planted for each tree cut down, a rule to which the attention of the Native local officers is constantly drawn. In these Palmyra tope Rents the date trees are also included. Grass being used in this District for thatching more than Palamyra leaves and the arrack used in this District being distilled from Jaggery and Red Wood the care is not bestowed on these trees which I have been accustomed to see to the Northward. That the subject has attracted my attention the

From Dr. 1st Fasly. a-

the Board have already been made aware of by my proposition to include the Rent of the sales of Toddy with the arrack Farms which I hope may eventually lead to the introduction of arrack distilled from the Toddy which is generally allowed to be a more wholesale beverage than the mixtures used in this District-

Cocoanut Trees. 3 With respect to the cocoanut trees it is to be observed that no single trees appear ever to have been assessed, but in cases of Topes they are treated as Jarrah Cultivation generally and assessed at Rupees 58 per Garden in Muckta. Villages the difference being levied as Fasly Jasty when other lands are brought under this species of Cultivation, though in one Village (Cowshak Canaly) they are only assessed at half of that sum Viz. 29 Rupees -

4 In Surveyed Villages the dist being regulated not according to the nature of the Crops raised but of the soil the original Bagayet assessment whatever it may be according to local circumstances is levied, and when these

trees are planted on Metta land the difference between the Bagayet assessment of the adjoining land and the dry assessment is brought to account under the Head of Fasly Jasty- District applications are not made for leave to plant Cocoanut trees but when planted they are assessed according to the Rules established

5 Cocoanut trees appear from the Reports received from the local officers to come into full bearing after a growth of a period varying from 8 to 20 years according to local circumstances.

6 Having thus explained the existing practice it is necessary for me to notice a point on which Complaints are made Viz. that no provision has ever been made for a modification of the assessment on these trees between the time of their being planted and coming to maturity- It is certainly

certainly true that this species of cultivation is in its infancy, often combined with other Garden Cultivation and it is probable that this point had force in the framing of the Rule that Cocoanut tree Gardens should pay full assessment from the commencement bearing or not. My own opinion is in favor of the general wishes of the Ryots which appear moderate and are that in Cocoanut plantations the Turrums first of the lands whatever it may be only should be taken until the Trees arrive at maturity, except in Cases where these trees are cultivated in dry lands with Cavery Water when they would be liable to a Charge of five and a quarter rupees per Garden for such water.

Sir,

From the Acting Collector of Bellary.

Reporting that an Enjumdar Ramachendrapah Curnum of Yarrur in Goollem Jalack died without male issue and recommending that Hanoomaka his widow be allowed the enjoyment of her husband's portion during her life time in preference to Narrasapah the elder and unmarried brother of deceased.—

I have the honor to bring the following case of Khyratee Enam to the notice of the Board for their orders.—

2. Ramachendrapah Curnum of Yarrur in the Goollem Talook of this District died without male issue on the 9th February 1847, but left behind him an elder brother named Narrasapah, his widow Hanoomakah, and three little unmarried Girls. He possessed two portions of Khyratee Enam and called Shaye Enam bearing an assessment of ₹2-9-10, and the other Chuttree Enam bearing an assessment of ₹3-11-9, the two amounting to ₹6-5-7. These Enams appear to have been personal grants for the benefit of the Grantee. The names of Curnum Timmapah and Mullarapah are entered in the Pymashee and Tarrar accounts and of these two, the former Timmapah died without issue, and the latter the last holder, was a near relative of the former. There are no original Summuds or other documents in the possession of the deceased, to show when by whom and

Fort St. George 3d. May 1849.

and on what account these Enams were granted. The deceased was a Village Curnum, he enjoyed for his service a Jodee Enam assessed at 573 Rs 10 as 2 p and paid to the Circar a Quit rent of 72 Rs 4 as 2 p and this property is in the enjoyment of the widow of the deceased and of Narasapah the elder brother who both claim the abovementioned Kyrawtee Enam, assessed at 86 Rs 5 as 7 p and the said Narasapah is still unmarried and about 50 years of age the family will become extinct with these two Persons.

3 Narasapah and Hanoomakka are on bad terms. The former has not the character of being a respectable person but he has managed to entice the young Girls from their mother to live with him as the husband of Hanoomakka enjoyed the enam during his life time and Narasapah had no share in it, and for the circumstances above stated I am inclined to recommend that Hanoomaka be allowed the enjoyment of her husband's portion during her life time. This is by no means an

Ordered that the letter above recorded and its enclosure be forwarded to the Right Honorable the Governor in Council for his orders. Under the circumstances stated by the Acting Collector, Viz.t, that the widow and brother of the deceased are on bad terms, that the latter bears an indifferent character and has hitherto had no participation in the lapsed share, and that it is by no means an uncommon practice in the Bellary for the widow to succeed to her husband's rights although there may be brothers alive, the Board would recommend that the portion of the Enam C. Rupees 86–5–7 enjoyed by the late Ramachendrapah be continued to his widow Hanoomakah for her life and be resumed upon her death.–

the receipt of your letter of the 19.th Inst.t forwarding a Petition No. 705 of 1849 from Veerasawmy Naickan & Soogavasy Ryot of Velambakum attached to the Peddapollium Talook of this District; and to state, for the information of the Board, that in consequence of the Petitioner and others having in fusly 1254 cut the Bank of the Aipsa Channel alluded to in the Petition on the east side of a Pagoda situated on the Bund, in lieu of as usual to the west of it, which gave rise to an affray between them and the Villagers of Vishnoovankum, the Tahsildar after an enquiry fined them and also warned them against repeating the offence.– The Petitioners taking advantage of there being a new Tahsildar, having again in fusly 1257 cut the Bund in the same spot, in spite of the opposition of the other Villagers a complaint was preferred to the Tahsildar by the Vishnoovankum people, on which the Tahsildar instituted

instituted an enquiry and submitted a full report on the subject. On a consideration of the whole circumstances, and the voluminous records forwarded with his report, I deemed it inexpedient to levy a fine on the parties for their improper conduct, and instructed the Tahsildar to prohibit the parties cutting the Bund in the objectionable spot. No objection exists to their irrigating their fields by the usual water course of the Channels.

2. The Statement of the Petitioner that a decision was passed in 1250 by Cunkajee Row, the then Tahsildar of his Talook, permitting them to cut the Bund in that particular place is not borne out by the records of the Office, nor could it be permitted for the reason given.

3. My decision was given on the report of the Tahsildar with the evidence and documents that accompanied it, and I see no sufficient reason for doubting the

Proceedings thereon;

Relative to the Management of the Extra Sources of Revenue in the District of North Arcot for Fusly 1257.

It will be seen on referring to the Abstract Comparative Statement annexed to the 2d. Para of the above report that there was an increase in each branch of the Extra Sources of Revenue in the North Arcot District during the Fusly under review, the aggregate Amount of which exceeds

Demand.

1257	1,08,682	2	2

exceeded

exceeded the demand of Fusly 1256 by Rupees 43,545 11 3.

Salt

2. The enhancement in the Salt Revenue appears to have arisen from the circumstances of the supply at the Chinglaput pans which are usually resorted to by the traders from Bellary and Cuddapah having been exhausted during the year, which — forced these parties to complete their purchases at the less conveniently situated pans in North Arcot.

3. The Acting Collector adverts to the large quantity of salt which remained unmeasured even up to the date of his report, the close of the month of October, arising he — observes, from neglect of duty on the part of the local Officers. The Board confide in Mr. Bourdillon's vigilant supervision of this branch of the Public Revenues, and hope to learn from his next Annual report that he has enforced a rigid observance of the standing rules laid down for the

the guidance of the Salt transactions and Native Officials, and introduced a greater degree of regularity in the — department.

Abkarry

4. The improved Revenue under this head was owing to the higher rates at which the rents were settled in Fusly 1257. It is satisfactory to observe that although the rents were consider = ably above those obtained during the previous year, there was only a small balance due at the close of the Fusly which was liquidated in full at the date of the report. The accounts fur: nished also shew that there were no old arrears outstanding under this head as in the Fusly preceding.

5. The increase under this general branch which includes the Fish rent was in part — owing to the proceeds from certain taxes levied within the recently resumed Polliem of Mun: rundoor which were during the year under report collected agreeably

to existing usage and brought to account after an adjustment for broken periods in reference to the dates of resumption of the Polliem and deductions of the customary per: centage to the Curnums.—

On Wood cut in Jungles.
" Honey and Wax
" Hides.
" Sand mine
" Grass tax.

6. The rents in question consists of six items, yielding an ag: gregate Revenue of 353. 14—3, but which was reduced after the above adjustment to Rupees 268—14—3, of which the Acting Collector recommends that those specified in the margin should be abolished.

7. The largest item is the tax paid for the privilege of Cut: ting Jungle Wood being Rupees 153— —3, a nearly equal Amount is raised by the rent of a Sandal wood Stone mine, but there seems no suffici: ent reason for the Remission of this rent as the Collector observes that it is not of a vexatious character tho' trifling in Amount, the Board therefore have not included it.

From Collector 23d. inst. 28th. April 1849.

The

Fort St. George 3d. May 1849.

The next item is the rent of Honey and Wax, the remaining three items are tri: fling, being respectively 6—5—4 and 2—10 per Annum. In the 11th. para. of his report Mr. Bourdillon enters upon the grounds on which he rests his recommendation that these petty taxes should be annulled. He observes in reference to the tax on cutting Jungle Wood and collecting Jungle products, that the collection of these items is unknown in the Go: vernment Villages, and is opposed to the custom of the District, being confined to this Polliem in which only they now exist. As regards the other four items he advocates their discon: tinuance on the general ground of their petty nature and vexatious character. The Board coincide in this opinion, and for the reasons stated they beg to support the re: commendation of the Collector that the above five items specified in the margin should be abolished.

On the outturn of the sales of Stamp Paper there was an excess resulting from the ordinary fluctuation in the demand. The diminished manufacture of Sugar would however appear to have depressed the sale of stamps used in these transactions; the falling off under this latter head as observed is entered at Rupees 287.

The Abstract Statement given in para (illegible) 13 presents an increase in the outturn under this branch but it is explained as resulting from bringing to account the moturpha from Dehat Enam Villages in full under the orders of Government noted aside - had this Amount Viz. Rupees 214 10 - been deducted for the demand agreeably to former practice the result would have been a small decrease

decrease of Rupees 73 8 8 arising chiefly from the decrease of the house tax collections and tax on Sugar Warehouse for the reason above noticed, namely diminished trade in this product.

12. It will appear from the above that there was an increase of — 22,028—11—7 in the Gross Collections of Fusly 1257 and an excess in the charges of that year to the Amount of 604—9—6 owing to larger disbursements to Salt Manufacturers and return of Stamp duty under the orders of the Sudder Udalut, deducting these charges the Net Revenue of the year under report was Rupees 193,746—3—1, which exceeded the Net Revenue of Fusly 1256 by 21,142 4—5—1.

13. The Balance of Current Demand at the termination of the Fusly was Rupees 2,377—11—1 which was however reduced to Rupees — 15. 5—1 at the date of the Report, portion of which it appears is irrecoverable.—

From the Collector of North Arcot.. } Sir,

Referring to an Extract from the Proceedings of the Board of Revenue under date April 19th. 1849, calling for a Statement regarding Estates reverted to Government, I have the honor to request to be informed what extent is intended to be given to the term Estate. The Phrase appears to me to refer to the properties large or small which were constituted in carrying into effect the permanent settlement; and if such is the meaning intended in the present case, there are no properties in this District to which the term applies - I would beg to be informed therefore; whether or not it is to be understood to include 1st.

Fort St. George 3d. May 1849.

the Ancient Zemindaries of Calastry and Cavetnugger, 2nd. the Polliums of Congoondy, Bunganty, Goodipauty, 4th or 3d. Jaghires - None of these, as above said seem to me to come within the term; but I make the present reference as it is possible I may have misunderstood the Board's intention.

From the Acting Collector of Tanjore -- } Sir,

Adverting to Mr. Bishop's Endorsement dated 15th. July 1848 on Petition

8th. August 1848. No. 2047 of 1847 and to the Board's Subsequent orders thereon, I have the honor to report that, the Petitioners offer for the waste land has not been accepted, the Inerafsidars of the Village having undertaken the land, though not on the high terms proposed by the Petitioner.

He is a man without capital or means of cultivation and his offers are mere indications of ill-will towards the Inerafsidars of the Village. The Petition is herewith returned.

Order thereon;

Ordered that the following Endorsement be passed on Petition No. 2647 of 1847.

"From the report upon the subject furnished by the Acting Collector the Board of Revenue learn that the land applied for by the Petitioner has been given to the Inerafsidars of the Village. There seem to them to be no grounds for disturbing the orders passed by the local Authorities in the matter."

Sir,

From the Acting Collector of Tanjore -- } As directed in the Extract from the Proceedings of the Board of Revenue under date the 5th. Ultimo. I have the honor to submit the Return of the Negapatam Lungerkhanah drawn up in the same form as that of Combaconum which is herewith retransmitted, and to inform you that the cause of the excess of charge at Negapatam arises from the better description of Food provided. The wages of the servants are pretty nearly equal at both establishments that is Combaconum and Negapatam. At the former the salary of the Native doctor is omitted in the Statements, while in the latter it is included.

sum set apart from the surplus Dawnstanum Funds for Native Education and for Works of Public utility, there is now an accumulation of about 23,000 Rupees of which a rather more than 13,000 Rupees belong to the Kuttays of the Meenatchee Pagoda at Madura.-

2- Such being the case I have the honor to solicit the sanction of the Board for making over to the Manager of the Madura Pagoda, the amount of the accompanying Estimate Viz. 3296-3-6 for the purpose of cleaning out the large Tippacolum, 1/2 Mile from Madura on the Rammad Road, which has now become so foul as to be likely to occasion sickness in the Neighbourhood.-

3- I shall be glad of early sanction to enable me to choose a time for the very offensive operation when the family

4 The general question of the disposal of the accumulations subsequent to the Return of the Accountant General of the 25th April 1846; on which the order of Government of the 14th July 1846 were founded, will soon require to be determined. It is probable that the Board have already settled the principle in respect to other Districts in which case I shall be obliged by information of its nature.

No. 1

Extract Para. 12 of a report from the Superintendent Revenue Survey Southern Mahratta Country, No. 235 dated 21st December, 1848.

Para. 12. Lieutenant Anderson's report contains some important suggestions in reference to Mirsirkote, but also bearing on the general interests of the Collectorate. He points out the great inconvenience to trade occasioned by the intervention of the Madras territory between Kalgutgi and Goa by which, owing to the different duties levied on Salt in the former the whole trade in this Article instead of coming by the direct route of the Digger Ghaut from Goa, is diverted to the Tullwadee Ghaut which entails an additional 150 or seven days journey on the traders. and this is not merely the case with the small quantity of Salt required for the

Fort St. George 7th May 1849.

the supply of the Mirsirkote district itself but equally applies to most parts of this Collectorate, for which the Digger Ghaut offers the most direct Communication to Goa. Lieutenant Anderson estimates the loss thus occasioned to the community at one anna per maund in the price of Salt. The trade of Goa with the interior must be nearly limited to the Bombay Presidency, and the inconveniences to this trade arising from the narrow strip of the Madras Presidency running up between this Collectorate and the former State, is a strong argument among many others that might be brought forward in favor of transferring to the Bombay Presidency the tract in question, which is likewise mostly comprised in the small district of Hullechal, now attached to the Madras Collectorate of Canara.

Extract from Para 12 of a report from the Assistant Superintendent, Revenue Survey, Southern Mahratta Country, dated 1st Sept.r 1848.

There is a good deal of traffic between

between Goa and Hulgutgee, Cocoanut Oil, Cocoanuts, Coir, Rashem nuts, Kateche and a large quantity of Suparee are imported thence, the greater part is consumed in the neighbourhood but some is exported to Hoo=bley. The principal article imported from Goa is Salt, of which yearly about two thousand bullock loads, containing five thousand Maunds and exports about Six thousand Rupees are imported, the Maund is of 80 rates (a Goa weight of 80 tolas) the direct road to Goa is by the Diggee Ghaut, but that being on the frontier of the Madras Presidency, and the duty on Goa Salt there being much higher than that exacted on the Bombay frontier all the Goa Salt is taken round by the Tulles=maddee Ghaut at the expense of Six or Se=ven days longer spent on the journey from Goa to Hulgutgee, by the Diggee Ghaut is about ten days journey for a loaded bullock and about Sixteen or Seventeen days by Tullecmadee. 1 Maund of Salt in

in Goa costs 1 Anna; the Portuguese exact 3 annas per Maund duty on it's leaving their territory, 12 annas duty is taken on entering the Bombay territories at Tullecma=dee; 4 annas for Carriage and profit makes up 1-4 Rs. As. the average price in Hulgutgee, the present duty at the Diggee and other Ghats on the Canara frontier is 3 Rupees per Maund, 5 years ago the duty there was only 9 An=nas per Maund - Salt was then sold in Hulgutgee at 1 Rupee per Maund, the 3 Annas less than the present 12 anna duty at Tullemadee, and 1 Anna less for carriage on account of the shorter journey, making up the difference 4 annas, between that and the present price; it is difficult to see what can be the motive of the Madras authorities for imposing a duty the pay=ment of which is so easily evaded=

Sir,

I am directed by the Board of Revenue to Convey to you the sanction of Government under date the 19th ult. relating for the Charges incurred in your District in fusly 1257 Amounting to Company's Rupees four thousand six hundred and twenty one, exclusive of Rupees twenty paid for laced belts, which the Government has disallowed-

Conveying to the Agent at Hurnool sanction of Government for the charges amounting to Rs 4621 incurred in 1257 with various other instructions recalling upon him also to furnish certain explanations.-

1 Statement of Charges incurred without Estimate.
2 Do. in the Magisterial Department

2 I am further instructed to call your attention to the following remarks of the Board on your Statement of Charges incurred without Estimate for fusly 1257- In the account Particular No. 6 which accompanied it, the sum of Rupees

Fort St. George 7th May 1819.

Rupees 7 is entered as paid to a Puckally. It is to be observed that this item does not fall under the head of Sadermaared Charges It should be included in the List of Extra establishment hereafter, and as it is not usual in other Districts, full explanation should be afforded as to it's necessity if absolutely required, or the Board will not be able to admit it.

3 Nos. 10 and 11 Right Cumblies and Mats being purely Sadermaard Charges should have been entered in the account Particular No. 6 in order that the aggregate Amount expended under that head might have been exhibited at one view.

Cash Chests 70-14-
Brass lamps 55-6-

4. As the Charges noted in the Margin admit of an estimate they should have been included in the Statement of extra Charges under Estimate and should not have been incurred without previous sanction.

5. The Sadermaard Charges incurred

From the Secretary to Government

Recording observations on the Petition presented by Parsoramah Moodelly who had entered into a contract with the Collector of Madras for landing covering in and measuring Salt and directing that the Salt Department of the Collector be placed under the immediate management of Mr. Taylor the Assistant Collector. —

Extract from the Minutes of Consultation, under date the 1st May, 1849. —

Read the following papers. —

From the Secretary to the Board of Revenue. —

(Here enter 19th March 1849 No. 121)

+ + +

Para 1. The Right Honorable the Governor in Council having given his particular attention to the correspondence as laid before Government consequent on the Petition presented by Parsoorama Moodelly proceeds to record the following observations and Orders. —

2 On the 8th March 1848 ... Parsoorama Moodely entered into a contract with the Collector of Madras "for landing covering and measuring Salt", and on the 25 of April following he was relieved of it, in consequence as it is represented, of his Agent having collected fees from parties resorting to the pans; the Agent was handed over to the Police Authorities who

who dismissed the complaint because, as reported by the Chief Magistrate to the Collector of Madras, it appeared "that "the fee levied was a customary one and "had been for years exacted with the "knowledge and sanction of the Superin- "tendent and all the Officers of your "Department employed at the Salt heaps, "who together with the Contractor and his "servants shared the proceeds amongst them "them daily."

3. The Governor in Council entertains no doubt that the Petitioner undertook the Contract under the persua- -sion that the Fees which he is charged with having exacted formed a part of the legitimate profits he was to derive from it. He know that those fees had been paid before he undertook the contract and it is not shewn that he was forbid- den to demand them; the Board of Revenue writing on this point say "that it seemed far more probable that "the new Coolly Contractor and his Security "should have continued a system already in "existence than that they should have originated it themselves" and that "the "circumstances attending the seizure of the Agent "in the act of receiving the money from the "purchasers of Salt wore the appearance of an "intrigue on the part of the parties formerly "employed to oust the Petitioner from his contract."

4. The Board did not deem it desirable to interfere with the Collector's arrangements but the Governor in Council looking to all the circumstances of the case is of opinion that Parsoorama Moodelly should be permitted to resume his Contract, though it would obviously be improper to restore it to him on the undefined terms he first held it. He however sees no valid objection to the renewal of the Contract provided Parsoorama Moodelly binds himself to receive no fees of any description and is willing to take it on these terms; the Board of Revenue will therefore be pleased to offer the Contract to Parsoora- -ma Moodelly on these conditions and if he agrees they will cause it to be im- -mediately carried into effect.—

5. The circumstances brought to notice in the investigation of Parsoorama Moodelly's

Fort St George 7th May 1849.

Modelly's Agent as bearing upon the conduct of the servants of the Salt department are of so grave a nature that the Governor in Council would be justified in ordering simultaneously with the above arrangement the dismissal if not the removal to other places of the present Superintendent, Peishcar, and all the other Servants attached to the Salt department of the Collector's Establishment, as the best means of obtaining an insight into the frauds and speculations which evidently pervade that department, and of which he entertains little doubt notwithstanding the Collector's denial of them and his attempts to bolster up the conduct of his Subordinates. Indeed the steps which Mr Hudleston adopted to refute the result of the investigation made by the Chief Magistrate seem to have been altogether supererogatory and under the circumstances in which the inland Salt Merchants were asked for a declaration it could hardly be expected they would admit the truth, but the Governor in Council is quite satisfied that

D.F.

Fort St. George 7th May 1849.

that fees had been paid by them and that a plot was laid to entrap the new Contractor in receiving the same as the means of divesting him of his contract.

6. The Governor in Council has however refrained from resorting to the extreme measures just mentioned, hoping to secure a thorough reform in the arrangements contemplated by the recent appointment of an Assistant to the Madras Collectorate. He has directed therefore that the Collector's Salt Establishment be revised and that W. Taylor be placed in the immediate Management of that department with power to suspend of his own authority any of the executive servants and to recommend to the Collector the dismissal and removal of any should such be necessary. He will be further instructed to investigate at his leisure the charges which the contractor states he is ready to prove, taking care to conduct all his proceedings in an open manner agreeably to the Regulations and guarding to the utmost possible extent against any

any thing like subborned evidence. It is not the intention of Government that Mr. Taylor should be altogether independent of the Collector while in immediate management of the Salt department; but that he should have as free a discretion as is allowed to a Sub Collector in the Management of the revenue of his sub division. It will be the duty of the Assistant to report his proceedings to the Collector, but the Collector must distinctly understand that he is not unnecessarily to interfere and that when he thinks it requisite to overrule any order of the Assistant or to refuse his consent to any arrangement proposed by him for the better ordering of the department, it will be his duty to report it to the Board of Revenue. On the other hand no change of system should be introduced by the Assistant without a previous reference to the Collector, but the Assistant is authorized to institute any investigation he may think proper of his own motion, and all the servants of the Collector's Establishment will on his application to the Collector attend him when required for the purpose

of being personally examined or to give him information. The Governor in Council expects that the suggestions which the Assistant Collector may offer for the reform or alteration of the Salt Establishment placed under his orders will be favorably considered by the Collector.

Proceedings thereon, /

Ordered that a Copy of the foregoing Extract from Minutes Consultation be forwarded to the Collector of Madras who will furnish a Copy to his Assistant Mr. Taylor.

Under the orders of Government herewith communicated the Collector will place his Assistant Mr. Taylor in the immediate Management of the Salt Department of his District. The particular attention of both Officers is called to the instructions conveyed in the last Para of the Extract respecting the mode in which the duties of that branch of the Madras revenue are to be carried on;

and to their relative position as re-

3. Mr. Taylor will be pleased
to offer to Parsoorama Moodelly a
renewal of his Contract for landing,
covering and Measuring Salt; pro-
=vided the latter will execute an
engagement binding himself to
receive no fees of any description. The
Assistant will also investigate at his
leisure the charges against the Salt
servants which Parsoorama Moodelly
has offered to prove; but he will be
careful to conduct all his proceed-

to guard to the utmost possible

When I†joined this District Mr. Haggard had been in it as an assistant for about two years and he was subsequently appointed Acting Head Assistant and of the aid I received from him when I had neither Sub Collector nor other Assistant I made favorable notice in my report of 8th November 1847 which was noticed by Government in Para 7 of their Minutes of Consultation of 6th June 1848. Mr. Sutherland †joined this District as Head Assistant Mr. Haggard had been in this District nearly three years, and having done his duty well I did not like to alter his charge. I therefore gave

gave Mr. Sutherland the charge he now holds and made both assistants independent of me except in regard to Summabundy for which I shall not have means of furnishing two separate efficient Establishments. They had therefore each in turn the assistance of my Establishment; but since Mr. Haggard's removal, Mr. Southerland's Establishment has been made equal to the discharge of his duties independent of me as will be seen by my Summabundy Report for Fasly 1258. I have given this explanation without delay as both Mr. Sutherland and Mr. Haggard have always enjoyed my full confidence, and it was only the force of circumstances which gave rise to an arrangement which has already ceased.

whereas it is observed that in 6 Talooks as shewn in the Margin is an Increase in the Cultivation of Indigo and the decrease in Cotton in the two Talooks, where it is principally grown, is inconsiderable. adverting to the results thus exhibited the Board would rather attribute the decrease noticed mainly to the state of the market for these articles.

Sir,

With reference to the Board's Endorsement on Petition No. 539 of 1849- I have the honor to submit the original records of the trial of Pitchamaiga Pillay late Sumpratty of the Sydapet Talook as well as abstracts of the evidence prepared by Mr. Cotton who tried the cases, and his sentences.

2- With regard to the Petitioner's Statements that he was prevented appealing to the Board in due time by the non-receipt of a reply to his Petitions to me, I have to state that after perusing the documents I not only personally told him that I considered the charges fully established but the very English Petition which he has handed into the Board in Petition No. 504 of 1849 was entered in my Petition book as No. 78 of 1848 and was endorsed on the 22d November last, but the endorsement being unfavorable to the Petitioner, and expressing my opinion of his

his dishonesty, he seems to have torn it off and submitted it as a proof of his not being able to obtain a hearing.

Abstract of Evidence.

Arnee Arnachella Moodelly Prosecutor

Versus.

Pitchenaiga pillay. Defendant.

Prosecutor A. Arnachella Moodelly.

Presented 3 Petitions to the Extra Assistant Collector, 2 of which being written in English she appended to the 3rd in tamil. he complained against the manner in which the investigation of the case was being carried on before the Sydapet Tahsildar and requested that the case might be called up and examined by the Extra Assistant Collector.

In his deposition he stated. I have worked 3 looms in Fusly 1256, but the then Zilladar Poonappa Moodelly gave me a Puttah in which 3 looms were entered charged with 6 Rupees teerwah. on looking at the Puttah I discovered that the original entry was for two looms and 4 Rupees teerwah and that it had been altered

altered to 3 looms and 6 Rupees. I asked the Zilladar the cause of this and he referred me to Defendant. who promised to remit 1 Rupee on account of the alteration desiring me to pay 5 Rupees which I accordingly did and for which I hold the Zilladar's receipt. In Fusly 1257 I worked two looms about 6 months ago. the defendant came to my house and asked me how many looms I worked. I told him 2 he then said he would only enter one in the accounts if I paid him a Rupee for the other one which I did. Sometime afterwards I received from the Puttamanagar a Puttah for one loom for fusly 1267. in which I was therein represented to be living in Erruppen Poonnappa Moodelly's house. on this account I refused to receive it as I was not on good terms with Ponappa Moodelly on which the Defendant sent me another Puttah for 2 looms. I told him I would take the 2 Puttahs to the Collector and pay the balance due. Defendant said he would get off by saying one of the Puttahs belonged to another man of my name. Innoneyappa Moodelly and Tirovengada Naik were present at that time. The Defendant has also taken a bribe of one Rupee

for

for each of the looms of the following individuals and omitted to enter them in the accounts-

Abstract of Evidence-

Nursimachary Jamalmaniss- Prosecutor
Versus-
Pechanaikapillay Sumpridi- Defendant

Prosecutor Nursimachary states that during the examination of the case of one Arnachalla Moodely Versus Defendant the Records and puttahs filed were kept in his duftar in the Cutcherry, and that on the 9th of September he discovered that the puttah for one loom 1218 filed by Arnachalla Moodely had been abstracted and another puttah for 2 looms also No. 18 and in Arconachalla Moodly's name substituted for it and that as the Defendant was the interested party he charges him with having stolen the 1 loom puttah and substituted another puttah for 2 looms which is in the handwriting of his Defendant's son Chinniah Pillay. That he can only account for it's bearing the Assistant Collector's stamp by supposing that the Defendant who is both Curnum of the Village and Sumpradi obtained the Assistant Collector's stamps at the time of Jamalundy and Extra Cudjans- That the

the one loom puttah subsequently found is not the one that was in his duftar but a new one though to the same effect as the one stolen from his Duftar-

The abstracted puttah for one loom the puttah for 2 looms substituted for it, and the 2 loom puttah filed by Arna: =chella Moodely, are all in his name and bear the same No. namely No. 18 as also does the one loom puttah subsequently found.

(43-44)

(Here enter Petition No 189 of 1849)

Proceedings thereon-1:

Sanctioning the dismissal of Pitchenaiga Pillay Sumpratty of Sedapet Taluk in Chingleput.

From the papers furnished by the Collector it appears that the appellant Pitchenaiga Pillay was charged with having omitted to bring to account 17 Looms assessed at 34 Rupees and receiving 1 Rupee per loom from the weavers for so doing, and also for abstracting from the records certain Loom Puttahs, destroying some, and substituting others in their stead, with

with a view to falsify the accounts, and conceal his own irregularities. These charges were taken up for investigation by the Extra Assistant Collector by whom the Appellant was found guilty of both offences and sentenced to pay a fine of double the Amount viz.s 34 unlawfully received for the first count under Clause 1 Section V of the above Regulations and for the second count he was ordered to pay a fine of 70 Rs. agreeably to the provisions of the V Section of the IX Clause of the same Law, subject to imprisonment until the sum was discharged, the total fine awarded to be paid being Rupees 104 which is reported to have been recovered in full.

2 These proceedings of the Extra Assistant are stated in the letter above recorded to have been Confirmed by the Collector on appeal from the Defendant, and on a perusal of the documents now before them, the Board concur in the propriety of the Sentences passed by the local authorities, the offences imputed to the Appellant being fully established

established against him.

3 The Board observe that the first Petition presented to them by the Defendant in appeal was submitted after the period of 3 Months has elapsed and was rejected accordingly, but on his stating that procrastination on the part of the Collector together with sickness had caused the delay in question his case was subsequently received. It now appears from the Collector's letter that an endorsement was given to Petitioner on the 22d November 1848 or about 5 weeks before the expiration of the authorized period of appeal, which being adverse to Petitioner appears to have been suppressed by him when addressing this office, it is also observed that his appeal Petition to the Board was antidated nearly one Month. Ordered accordingly that the following Endorsement be Recorded.

'The Board of Revenue have satisfied themselves by a reference to the original Records in the case of the Petitioner Pitchanaiga Pillay that he was guilty of the offences for which he was tried and Convicted by the local authorities and sentenced to pay

a

a fine of 10/4 Rupees - The Board observe that the Petitioners statement that delay on the part of the Collector prevented his appeal in due time is untrue. It is also observed that the Petitioner appears to have attempted to deceive the Board by suppressing the Endorsement passed by the Collector on the 22d November 1848 and further that he anticipated his appeal to them No 189 of 1849 His dismissal is therefore sanctioned -

From the Coll. of Salem Reporting on Petition No. 1873 of 1848 addressed to the Board by Mooneappah Naidoo complaining of the attachment of his dombaly Enam by the Poligar of Shoolagherry.

With reference to your letter of the 30th November 1848 forwarding a Petition No. 1873 of 1848 from Mooneasipah Naidoo complaining of the attachment of his dombaly Enam by the Shoolagherry Poligar, and requesting me to explain the nature of the service for which the Enam was granted, when the grant was made and whether it is for service to be rendered to the Circar and comes under the provisions of Regulation VII of 1831, I have the honor to report for the Board's information, that the Petitioner was a servant under Chokaya Gounden the Father of the present Poligar of Shoolagherry in the Ossoor Talook, but instead of money payment a Village called

called Moonyacal was granted to him as dombalay in the year Vacoorovdy, on which he continued paying a Jodigy of Rupees 44—12—. to the Poligar. After some time the Petitioner became careless in the performance of the duties entrusted to him, and disobedient to the Poligar, who attached the Village in question. The Petitioner after a few years begged the present Poligar to take him into his service; he was then (in the year Veecaudy) permitted to enjoy the Village on the above tenure of dombaly, paying the Poligar a Jodigy of Rupees 45 per annum. The Petitioner some time after became disobedient and careless as formerly, and the Village in question was therefore again attached. Upon this the Petitioner preferred a complaint to me, which was referred to the Tahsildar for enquiry and report. From the Tahsildar's Arzee, dated 29th April 1848, it appears that the Village was resumed by the Poligar on account of the Petitioner's non-attendance to the duties for which the Village was granted. As the Village was originally

originally granted by the Poligar for the performance of certain duties, and resumed owing to the Petitioner's misconduct, I did not consider it proper to interfere in the matter, and consequently an Endorsement was granted to this effect to the Petitioner on the 6th June 1848, advising him at the same time to go to the Civil Court in the event of his having any claim to the Village.

2. This dombaly Enam was originally designed for private duties to be rendered, but not for any public services, consequently it does not come under the provisions of Regulation VI. of 1831. The Poligars usually make such grants to their private Servants in lieu of money payment. As the Petitioner was found disobedient and negligent in the performance of the duties for which the above grant was made the Village was attached, and he removed from his employ. It appears from the report of the Poligar's Vakeel given to the Circar in fusly 1229 that this Village was enjoyed by the Father of the Petitioner, that it was at the time of Ayder Ally Khan attached

attached and released by Tippoo, that at the time of the present Poligar's grand-father the Village was enjoyed as Surwah Maniem, that from the year Siddardy, after the assumption of the Country, to fusly 1227, a Jodigy of Rupees 32—15—8 was paid on it, and that it was attached with the Polliem in fusly 1228. The Petitioner professes no Sunnud, with the exception of a Copy of the Sunnud given by the deceased Poligar and the original Takeed granted by the present incumbent. From these documents it is quite clear that the dombaly Enam was granted for private services to be rendered to the Poligar. The Bariz of the Village in question amounts to Rupees 70, more than half of which (Rupees 45) was paid as Jodigy to the Poligar by the Petitioner.—The Circar Authorities therefore in my opinion have no control whatever over the case.—

Sir,

From the Coll^r of South Arcot
Returning Petition No. 1128 of 1848 from Sadaseva Pundaram adopted son of Armoogum Pundaram of Ervoor-putteroopoo-Agore and reporting thereon.—

In transmitting the Petition No. 1128 of 1848 returned by Government for the endorsement of the Collector and Board of Revenue, I have the honor to forward an Extract from the List of Enams prepared by the late Chief and Council of Fort St. David in the year 1772. From this it will be

be seen that the land was originally given to one Danase Ramany and enjoyed at that time by his son Sooreyamoorthy. Since the demise of the latter individual it appears that the Enam was entered in the Dummakbundy Accounts in the name of his son Nagalingapundarum until the year 1841. The Petitioner now states that he is the adopted son of this Nagalinga pundarum but it appears that when a similar enquiry was made by the late Auxiliary Court of Chingleput in the year 1832, it was shewn that he was the adopted son of Armooga† pundarum as set forth in the Petition to Government this contradiction throws considerable doubt on the adoption in question.

† Grand daughters son to the Original Grantee.

The Board will observe by the Correspondence noted in the Margin, that the Enam agreeably to a Rajeenamah made in favor of one Chinnappa Mordeby was permitted to be registered in the public accounts in his name, and he states that

Lr to Bd 9th July 1841
From Dr 22d Inst Dr Do

he sold it about 5 years ago to one Ven Kettaghery Naick for Rs. 800 in whose possession and enjoyment it has since continued.

The Petitioner wishing an order of Government to prosecute his claim in the Court for the recovery of the Enam proceeds of former years I am not aware of any objection to comply with his request, but his name cannot be registered as the legal owner

Submitting letter from the Collector of South Arcot reporting on Petition 1128 of 1848 which was returned by Government for the Endorsement of the Collector and the Board of Revenue and suggesting that Petitioner Suddasiva Pundarum be informed that he must make good his title to the Manien and its profits in the Civil Courts.-

I am directed by the Board of Revenue to forward for the orders of the Right Honorable the Governor in Council the accompanying letter from the Collector of South Arcot dated 28th March last reporting upon Petition No.1128 of 1848 which was returned by Government for the Endorsement of the Collector, and of the Board of Revenue.

2. From this it will be seen, that the land which forms the subject of the Petition is entered in the list of Enams for the year 1772 prepared by the Chief and Council of Fort Saint David. The granter and the number of years that the land had been granted were not known at the time, 1772, when the registry was drawn up, no title deeds where then forthcoming and no mention is made of the purpose for which the grant was conferred. The land was at the date of the registry in

in the enjoyment of one Sooryа Moorty who is said by the Collector to have been the Son of the Original grantee Davasicamenery; but the Board are not aware what authority there is for this statement. After the decease of Sooryа Moorty the Enam is said by Mr Davis to have been entered in the Jums-mahbundy Accounts until the year 1841 in the name of his son Nagalinga Pundarum. In a letter from the Commissioner Mr. Dent to the Board under date 9th July 1844 it is however represented that the land with a house which stood upon it was bestowed by Sooryа Moorty during his life time as a marriage dowry upon his daughter Pereyа Naigary Ammaul who by a deed of gift dated 31st January 1831 gave it with all her property to Ramalingа Moodely. However this may be, Ramalingа Moodely in 1841 transferred the land by Rayeeramal to one Chinnapah Moodely. This last named individual states that he sold it about 5 years ago for Rupees 800 to one Vencatagherry Naick, in whose possession it has since remained. The Petitioner

Suddasheвah Pundarum now requests that the Maniem may be made over to him and that the permission of Government under Regulation VI 1831 be granted to enable him to bring a suit against the parties hitherto in enjoyment for the recovery of the proceeds. In his Petition 1128 of 1848, he describes himself as being the adopted son of Armooga Pundarum maternal Grandson of the Original Grantee Davasicamene - but before the Collector he seems to have stated himself to be the adopted son of Nagalinga Pundarum.

3. The duffer Maniem of the Farm of Fort Saint David of which that under consideration is one of the Maniems entered in the registry drawn up by the Chief and Council seem to have differed from the Enam Gardens within the same farm, in as much as the former were not distinctly recognized as liable to sale. 11- I regret to have to report to your Court that the second wife of the late Moopen, Neeliyadatchy by name, and the Mother and Gaardian of the boy, is not conducting herself with propriety, she is constantly intriguing and causing ill feeling in the family and towards the Government management. She does not reside at the family house, but has removed with her Son to near Tanjore, and has from the first declined to receive the allowance allotted for her support, averring as her reason, that she ought to be placed in the sole Management of the Estates, that the Government Management is not satisfactory, and that the first wife and other Members of the late Moopen's family receive too much. I have had an interview with her, and seen the young Minor, and I used my best endeavours to persuade her to return to the family residence and live at peace with the rest.-

As.

12. As the assets to the credit of the Minor amount to a considerable sum, I would respectfully suggest that a portion, say Rupees 20,000- be invested in the 5 p.c. Cent Loan now open for the benefit of the young boy.-

Proceedings thereon.- From the foregoing letter it appears that the Minor's Estate contains eighty two Villages, of which seventy two are Tarufff under annual Settlement- one is under fixed grain rent, and nine are on Survamanium, consisting altogether of 596 valies Nunjah and Poonjah, yielding a return of about Rupees 38,007 per Annum, and chargeable with an average Bariz of Rupees 23,590- In his communication of 2d November 1846 the Sub-Collector in charge of Tanjore stated the landed Property of the late Appoo Moopen to consist of +582 valies of Tarufff land assessed at

at Rupees 23,590- A difference of 14 valies is thus observable, respecting which the acting Collector will be so good as to afford explanation.-

2. The Statement annexed to Para 3 of the Report exhibits the actual demand due from the Estate in favor of the Minor during the two Fuslies 1256 & 1257 as follows.-

On Nunjah land Rupees 59,013
On Poonjah Do. ——— 11,205
Other Sources ——— 5,266
75,484

Mr. Bird will be pleased to specify what are the other sources which form the last item in the above abstract Statement.-

Of the entire demand, the Court of Wards are glad to observe that Rupees 68,020 were realized up to the close of Fusly 1257 leaving a balance of Rupees 7,464 which was further reduced by the end of January last to Rupees 772.-

It

3. It appears that prior to the Estate coming under Circar management there was a demand of Rent against the Ryots amounting to Rupees 4,255 which had accrued from Fusly 1247 to 1255. Of this sum Rupees 1,204 have been recovered, leaving a Nt balance due of Rupees 3051 of which Rupees 2,979 are considered irrecoverable-

4. The entire receipts on account of the Estate during the period of management amounted to Rupees 75,916- Viz.

Thus the aggregate receipts from the

Estate up to the Settlement of last Fusly amounted to Rupees 91,093 which the Court consider to be satisfactory.-

5. The necessary disbursements on account of Government Kists, Family maintenance, Charitable Institutions, and charges of Management, amounted to Rupees 65,685 as exhibited in the Statement appended to Para 5 of the Report, leaving a surplus of Rupees 25,408 to the credit of the Minor in the Government Treasury.-

10. The Court of Wards regret to learn so unfavorable an account of the conduct of Neelayetachee, Mother and Guardian of the Minor Proprietor as that given in Para 11 of the Report. The Acting Collector will no doubt use his best exertions to induce her to return with

with her Son to the family residence and to live on good terms with the other Members. He should at the same time apprize her that the guardianship of her child has been confided to her only in the hope that she would be faithful to her trust and that if she does not do justice to the charge it will be necessary to appoint some other Guardian- all parties should also be cautioned against lending her Money and warned that as an ample provision for all the wants of the Minor and those connected with him has been made from the funds of the Estates, any Sums which they may advance will be at their own risk, and will not be recoverable from the proceeds of the property- It is observed that the Minor must now be between 5 and 6 years of age, and it is therefore time that his education should be attended to. The Acting Collector will be so good as to report what means have been taken or are proposed to be taken for that end.-

From the Coll.r of Malabar— } I have the honor to forward a letter from my Sub.r Collector dated 13.th Instant, with reference to the Board's Proceedings under date the 29.th January last regarding the Estate of Ryri Mangalathe Manikeb.—

I think with Mr. Chatfield that the most simple and effectual way of proceeding in this case is as suggested by the Board in their 3.d para to declare the Estate an escheat and then make it over to the niece of the ameen.—

I may remark with reference to the observation of Government in the 4.th para of the Minutes of Consultation dated 8.th January last, that the present ameen is not the person originally appointed to

To H. V. Conolly Esqre
Collector of Malabar.

Sir,

I have the honor, after making all the enquiries in my power, to reply to your Memorandum of the 6th Febraary last, regarding the Estate "which originally belonged to the family of Ryre Mangalatha Manickel."

On receipt of your Memorandum I directed a proclamation to be issued calling upon all parties (besides those already named) having the most distant claim on the Ryri mangalatha Estate, to come forward and prove them, none have appeared.

It seems to me that the first proposition of the Board that the claim should be established by a Court

Fort St. George 7th May 1849.

Court of Law "would entail unnecessary expense, delay and trouble to every body concerned, but that the second proposition of escheating the Estate and, after the lapse of a month or so, making it over in full to the present claimants would save the Government from any eventual embarrassment and the Candidates from any loss or trouble. Security might be taken for a year (as it would be willingly granted) from the partty obtaining possession to defend his rights and defray any expenses that could be supposed to arise from any new Candidate or opponent.

In regard to the 3d Para of the Chief Secretary's letter, it has merely to be observed that the property has no peculiar privileges but pays the full and ordinary amount of assessment.

for the renewal of the Certificate in his own name having obtained an assignment from his brother C. Chinnasawmy Pillay now residing at Trichinopoly (and which the latter executed before a Magistrate) making over his right and title to the Applicant.—

Sir

From the Collector of Madras

Reporting upon some Petitions from Nynah Pillay late Togum Conicopillay on the subject of certain alleged frauds & irregularities in the Quit Rent Department.

1. I have the honor to acknowledge the receipt of your letter under date the 22d Instant, transmitting, by order of the Board of Revenue, further Petitions from Nynah Pillay late Togum Conicopillay, on the subject of certain alleged frauds and irregularities, and calling upon me adverting to their Endorsement on Petition No. 53 of 1848 to furnish, without delay, the report and accounts referred to.—

2. As the charges are entered separately in the last mentioned Petition, I have embodied them all in the accompanying abstract Statement, and appended the necessary explanation to each item of those charges, in order to render thereby, both the one and the other more distinct and clear than can be done by a report in

the ordinary form.—

3 Whilst the abstract has reference to the whole of the charges preferred in Petition No. 53 of 1848 it is requisite to add that, as regards the representation in the Petition of 1849, I instituted a recent enquiry, and that the papers noted in the margin, of which Copies are submitted herewith are explanatory of the result.—

The Quit Rent erroneously recommended to be written off in entry No. 45 of Statement No. 3, which accompanied my letter to the Board dated 18th September 1848, Viz. Rupees 18-8-0 has now been recovered and credited in account.— The land was originally the property of Seravanapermall Moodelly, and he it appears transferred it to one Coopatta Ummall so long ago as the year 1843.

4. It will be seen that I have not failed to furnish the Officers, whose conduct rendered it necessary that I should do so, as a warning to the rest of the Establishment.—

Sir,

In obedience to the orders contained in your Memorandum of the 1st Instant, we respectfully beg leave to inform you that we have inspected the Spot of land mentioned therein, which is situated in the Village of Porsewaukum in andeappen Moodelly Street there are three houses built upon the front part, having some Cocoanut trees in the back yard, from the whole of which an annual Rent of about 21¼ Rupees is derivable.— This Spot of land is held under Certificate No. 3261, in the

the name of Servanaperumal Moodely

We regret indeed to state that, owing to some unaccountable confusion at the time of the inspection of lands, we have erroneously had entered in the list the S. 3261 for S. 9737 which is also in the name of Servanaperumal Moodelly for the waste land situated under the Parasawaukum Tank.—

This discrepancy we humbly beg your leniency will forgive us as it did not occur intentionally but from mere oversight on our part.—

Memorandum

5th March 1849

The joint report from the Surveyor and Amildar, Mr. Gantz and Jugganadhum Naik, is by no means satisfactory.— They have had the Comicopillay's detailed list of lands on which the Government dues were stated to be irrecoverable, and it was their duty, as they know, to inspect every spot; but they now

Fort St. George 7th May 1849.—

they now say simply that through oversight they entered S. 3261 for S. 9737, both being in the name of Saravanaperumal Moodelly. It is not only the erroneous entry of one S. No. so far another that the present enquiry has brought to light, but also the fact of their not having actually visited the spot referred to in S. 3261.— It was my intention, at first, to bring this gross neglect of duty on their part to the notice of the Board of Revenue, but as the act, however reprehensible, is not to be traced to any corrupt motive, and as both the Surveyor and Amildar are old public servants, and have not hitherto been found fault with for misleading the Office with regard to their examination of the items of irrecoverable Land Revenue, I shall, on this occasion, fine them each in the sum of (10) Ten Rupees and the Comicopillay, Veerasawmy Moodelly, in (3½) Three and half Rupees, for not having taken pains to ascertain where the land was situated in the hope that they will all be more careful for the future; for they may be assured of my not treating hereafter so lightly any remissness of duty on their part such as the one now under notice.—

The

Fort St. George 7th May 1849.

† Vide his report 5th March 1849.

The Sheristadar is also to blame to a certain extent, for instead of so great an irregularity as the one under consideration being brought to my notice by him, he would seem to have known nothing of it until a man perfectly unconnected with the Office presented a Petition to me on the subject. This is at once, the most palpable evidence of his not having at his command those facilities which are indispensable, for one in his position to obtain information of every thing that passes around him as to the acts of the subordinates. I trust however, that this is the last time that I shall have to comment on the conduct of the several Officers named above, and more particularly of the Sheristadar. —

In the present case, I am led to attribute the mistake, if so it may be called, to a misapprehension of the order sent to the Native Register of Certificates on the 26th June 1843 which would appear to have been considered applicable to Houses and lands within the Black Town Walls only. I now direct that it be made equally applicable to Houses and lands beyond those Walls also, with this difference that as regards the last mentioned properties, the valuation thereof is

Fort St. George 7th May 1849.

unnecessary, the Canicopillay's initials to the Sketch plan made on the old title Deeds being sufficient for all purposes.

In conclusion I have only further to direct that the whole of the arrears of quit rent on the premises referred to in Certificate No. 3261. due retrospectively from 1843 be recovered and brought to the Credit of Government within five days from this date.

No. 2

Abstract Statement of Certain Charges preferred in a petition to Government No. 2090 of 1848. by Ayna Pillay late Togum Comcopillay, against Moodoo Kistnah Pillay quit rent Comcopillay and others, and the explanation on each of those Charges submitted by the Collector of Madras.

Paras of the Petition	Nature of the Charges as stated in the petition	Collectors Explanation
1st	There is a large tract of land held under Certificate No. 3688 Viz. 32 Cs — Gs — Sqft. 2390 The former quit rent Rupees 5/2 per Cawney, was reduced to Rupees 3/2 on the recommendation of Comcopillay Moodoo Kistna Pillay who received a bribe	This land was originally held under Grant No. 1014 and is now held under Certificate No. 3688 In 1837 Mr. Morris the then acting Deputy Collector inspected the land and recommended that the arrears upon it from 1806 to 1837 might be remitted it having been only partly cultivated for many years - The remission was sanctioned by Government and the bills were cancelled. Between the years

The Subsequent owner Rakeh Beebee has since 1843 laid out large sums for its improvement and is paying quit rent regularly upon the whole at the reduced rate of 3/2 Rupees per Cawney. The reduction is to be continued for 5 years only as will be seen by entry No. 73 in the Statement Submitted to the Board on the 30th September 1843 and also by the Collectors additional Remarks of 8th October 1845. The petitioner Ayna Pillay, was employed in this Office as Togum Comcopillay for the first time in 1843 the Year in which the arrangement referred to above was recommended - The Orginal rate of quit rent was 5/4 Rupees not 5/2 as Stated in this Petition

Collectors Explanations

2d. There is a piece of land held under Grant No. 1012 Dist. — 9 — 19 — 148 in the name of Soobroya Moodelly. The quit rent is Rupees 51— 6— 8 per Annum. The Produce was estimated but the Amount realized on account of arrears was not credited in full although the Malwaram share was sufficient to meet them. The quit rent Concopillay has a share in the Cultivation a fact which was brought to the notice of the Collector by petition, but no notice was taken of it. The ground will be proved by the Togum Accounts from 1842 to 1847 —

The owner having neglected Cultivation for many years, the Circar took the land under Zuft and allowed a Poyacarry inhabitant to Cultivate it under a Cowle. On a verbal complaint, by the petitioner that the quit rent Concopillay had a share with the Cultivator named Tandon. an enquiry was made at the Aroogoor Cutcherry in 1846 but the petitioner was unable to bring the Charge home to the accused party. The following Statement will shew the Togum and actual produce as well as the Circar share thereof. It will be seen that the Malewaram share was scarcely sufficient to meet the Current demand and the arrears could not in Consequence have been recovered. The balance up to 1846 was thus written off under the Sanction. The Togum Accounts relating to this land are sent herewith marked No. 1 to 6.

Paras of the Petition	Nature of the Charges as stated in the petition.	Collectors Explanation:
4th	There is a Garden belonging to the Son of Sungalinga Moodelly who enjoys an Excess of 3 Cawnies beyond the Extent of Land Specified in his Certificate. The Conicopillay without getting it registered and afterwards enjoys the produce fraudulently, as can be proved by the Inhabitants of the Village.	This Garden is held under 5 Cerificates issued in 1806 it having been enclosed about that time. The extent is 6.4 — 1146 and the quit rent thereon is regularly paid in full. The alleged Excess was never brought to the notice of this Office on any former occasion, nor does the Collector consider himself authorized to cause the land to be measured now in reference to the petitioners representation from his right to interfere with private property under similar Circumstances being questionable
5th	A large spot of Ground registered in the name of Soobroya Moodelly had a Bungalow in ruins available for the recovery of the arrears of Quit rent, but the Conicopillay, one Comaraswamy Moodelly and two others combined, and proposed to purchase the Bungalow and they accordingly pulled down the building and sold the materials in 1844, when the Conicopillay enjoyed his share from the sale proceeds thereof. There were a great number of Curroovalum Trees which were sold by the Conicopilly, but the proceeds were not brought to account, which fraud will be proved by the proprietors of the Village. One Cundappa Moodelly presented a petition on the Subject in 1844 or 1845.	This land is held under Grants No. 911 and 1093 and a Bill of Sale No. 911 the full Amount of Quit Rent due on No. 911 and 911 was recovered by distraint up to 1838. In 1839, the building referred to was found to be in ruins — a warrant of distraint was issued on the 16th June 1840, and the Materials sold on the 14th December following for Rupees 23 — 8 — the amount having been Credited in Account on the 24th idem. There was a brick kiln in No. 1093 and the sale proceeds thereof Rupees 29 — 12 — 5 were also Credited on the 5th July 1842. The quit rent Conicopillay reported that same Valum Trees were available for distraint and on their being attached the owner paid the Estimated value Rupees 10, which sum was likewise credited on the 21st January 1843. The land is now perfectly waste, and the issue of Bills has in consequence been suspended since 1842. A petition was presented by the petitioner on the 22nd February 1847 stating that Cows brought to Madras were kept for Sale upon this land, and that the dung gathered there was taken away by the Quit Rent Conicopillay's people. The Amildar was sent to Enquire in the presence of petitioner, but he could not prove the Charge, Cows are occasionally kept upon the land for sale when brought from the interior, and the dung found in Small quantities, is removed by the Sepoys families and others in that locality. The Statement that a petition had been presented by one Cundappa Moodelly is untrue.

Paras. of the petition	Nature of the Charges as stated in the petition.	Collectors Explanation -
6th	The land held under Certificate No. 832 was cultivated with wet Crops - The Crops were estimated and the quit rent collected, but the whole Collection was not brought to account in 1842 and 1843 - Only Rupees 8 and odd have been credited - The quit rent for 1844 and 1845 also was fully collected but not brought to account - In 1846 and 1847, there was produce upon the land, and the Conicopillay was desired to give an account of arrears which he refused - The Circumstance was reported to the Collector, who sent a Takeed to the Conicopillay on the 8th April 1846 which was answered on the 8th May 1847 - Vencatachella Moodelly attachment, as he was prepared to pay all arrears - The whole of the different Sums entered in Column 8 of the annexed Statement having accordingly been paid in full Rupees 130 — 2 — 0	This land belonged to B Venkatachella Moodelly, who paid quit rent up to 1840 though the produce was scanty and he afterwards discontinued the Cultivation - In 1841 it was let by the Circar to a Payacarry, the Malewarum share of the produce was Mercalls 15 7/2 and the value thereof Rupees 21 — 2 — 8 was credited in part of the demand, whilst the balance Rupees 9 — 4 — 10, was remitted under due Sanction. In 1846 the Petitioner complained that the Conicopillay had not brought to account the Malewarum Shard in the Years 1842 and 1843 and that in 1844 only a portion was accounted for. This led to an enquiry when it was ascertained that the produce in 1842 was abandoned by the Cultivator, because it was not sufficient to meet even the Labourers hire for reaping it - In 1843 the produce was very trifling and in 1844 part of the value of the Circar Share according to the Accounts was Credited to Government, and before the Remainder could have been recovered from the Conicopilly who was held personally responsible C. Soobas Moodelly as Receiver of the Estate of the said Vencatachella Moodelly requested that the land might be released from he was immediately put in Professsion of the land - The Togum Accounts are sent herewith marked No. 9 to 13. —

There was no demand on this land in the Books of this Office since that year. The Petitioner stated, in a petition under date the 22d February 1847, that he had heard that one Cawney of this Land was cultivated with Calvarogoo in the above year, and that the Mailwarum was taken away by the Conicopillay, but on the contrary, the Mailwarum share which was very small, and unrealized. Rupee-1-2-u- was actually credited in account.- About one Cawney of land was also Cultivated with Paddy, but the Crop did not come to perfection as was reported in the Petitioner's own Togum account. The produce was only 6 Mercals, and the value of the Malewaram share Annas 8, which was credited in account on the 17th May 1847. The fact of the Petitioner not having given any Togum account for this Land in any other year is a proof that this land was not cultivated excepting in the abovementioned year.- The original Togum account marked No. 14 is herewith sent.-

With the letter above recorded the Collector has submitted an Abstract Statement A. exhibiting the several Charges preferred by Agnah Pillay in his Petition 2090 of 1848 (Government No.) and the explanation of which each of these Charges is susceptible. in a further enclosure he has also forwarded Copy of the joint report furnished by the Surveyor and Amildar upon the case brought to notice by the Petitioner in his Petition 486 (Government No.) of 1848 and of the Official Memorandum recorded by himself in the matter. The Board have carefully perused these papers but before laying them with their own report before Government they require some further information upon the points undermentioned.

outturn of the year 1842 - 157/4 is scarcely a fourth of the estimate 600. It should be explained whence this large difference arose - what notice was taken of it at the time when it occurred, and what means employed to ascertain that the outturn of the land was really no more than reported.-

3. In case No. 4 it should be stated whether the garden in question has continued of the same extent as when it was enclosed in 1836 and whether it has not been usual for the Collector's establishment to remeasure gardens which may be supposed to contain more land than is entered in the Certificates, whether such excess may appear to have proceeded from encroachment or otherwise.-

4. The answer in cases No. 8 and 12 is insufficient, the land in both those cases may be waste, but this circumstance does not of itself disprove the charge of the Conicopillay having cut down the Trees growing upon one of the parcels of land, or of his having

raised money by allowing parties to remove earth from the other - It should be stated whether he did or did not commit these acts - and if he did under what circumstances. the witnesses named in support of the last of these charges should also be examined.-

5. In case No. 11 it should be explained whether the three Cawnies of land said to have been given up to the Dancing Girls is Maniam and so entered in the Village accounts if otherwise what title they have to it.-

6. In the case to which Mr. Audeston's Official Memorandum relates the Board desire to be informed who is Sarvanaperumal Moodelly, the owner of No. 9737 and former owner of No. 3261; whether as asserted by Petitioner he is or has been in the private employment of Mr. D'Vaz and one of the Quit Rent Conicopolies when he acquired the land entered in Certificate No. 3261, whether it's alleged transfer in 1843 to Coopathee Ummal is registered in the public accounts. if so, why the land stands in the name

name of Suvvana permal Moodelly in Column 4 of Statement 3 submitted with the Collector's letter of 18th September last - who Coopatha Ummaul is and whether she is related to Suvvanapermaul Moodely - The Board would likewise wish to know whether Assessment has been regularly paid upon No. 9737, where the piece of land really belonging to that Number is situated, what is its condition, whether it is near No. 3261, what are the contents of the two parcels of land respectively - how the mistake of No. 3261 for 9737 could have occurred, not in one year only, but in four years, or from 1842 to 1846 both inclusive, by whom the accounts were kept during those years, and who is responsible for the wrong entries made in them, and for the non-collection of Quit Rent upon No. 3261 from 1842 to 1846 -

7- The Collector is likewise requested to furnish the original Register of the Pursewankum Village referred to in his letter of 18th September, as also a Copy of the Shenistadar's report of 5th March 1849, and of the orders sent to the Native Register of Certificates in the 25th June 1839 and to show what bearing these latter have upon the case above commented on. -

this Department to allow of no additions whatever
being made to buildings located within the 600

cases when repairs are emergently required
from houses being in a dilapidated state, it has
been sanctioned by this Department, on the
understanding, that it is in no way superior to
that which it is to replace. the object of these orders

The object of acting in this way is to prevent the value of property situated in the aforementioned place being enhanced by additions &c.a, and thereby causing the owners to be much more averse to selling to Government their property situated in the Esplanades than they are under the present system.

I am directed by the Board of Revenue to forward the accompanying letter of the 13th ultimo from the Collector of Madras, reporting upon Petition* No. 2135 of 1848, which was referred to the Board, with reference to Extract Minutes of Consultation 16th August 1839. for enquiry and disposal, but upon which it seems necessary that they should receive the orders of Government.-

the Board cannot but think that
they might be allowed to complete it -

Sir,

From the Collr of Chingleput } Para 1. Adverting to your letter of the 26th Ultimo forwarding transcript of a letter from C. V. Cunniah Chetty I have the honor to submit a Statement A. exhibiting the Ayacut, extent of cultivation, and revenue of the Village of Parumbaidoo including the dependant hamlets of Coopum and Commara polliem but exclusive of the hamlet of Khundega during a series of 22 years together with a similar Statement B for the excluded hamlet of Khundega and an abstract C. for the whole Village including all hamlets

2. The Board will observe from the former of these Statements that the

Fort St. George — May 1849.

the Ayacut of lands of Parumbadoo and the two hamlets, exclusive of the Porumpoke and Enam lands, comprizes Co. 1,418- as. 4 of land, assessed at Rupees 9,247- as. 14 - P. 5 per annum or.

	Co.	as.	Rs	a	p
Wet land —	1,312 -	11 3/8 -	8,897 -	4 -	10
Dry land —	103 -	5 3/8 -	319 -	12 -	1
Garden —	2 -	3/4 -	30 -	13 -	6

3. The average amount of Revenue derived from the above lands during the last 22 years is Rupees 3,753-13-8, but with reference to this average, it must be observed that from Fusly 1236 to 1247 this Village and the two hamlets were under a many management or division of Produce, during which period the revenue realized amounted only on the average to Rupees 3001 per annum whilst from Fusly 1248, the year in which I introduced the same assessment to Fusly 1257, a period of ten years, the average collections have been Rupees 4,616 per Annum. The lands of

Fort St. George 10th May 1849

these Villages and the hamlets are irrigated from a fine Tank capable of holding four months supply of water and a River channel. The cultivation may with care and attention, be still further extended: the value of the Village and the 2 hamlets cannot therefore be considered overrated at the average collections of the last ten years. and on these grounds, I would suggest that should they be made over to C. V. Cunniah Chetty in exchange for the land forming the lines at Vepary, they be burdened with a Quit Rent amounting to Rupees 1000 per annum. The lands in the hamlet of Kandega are with the exception of one Cawney watered from the River channel Manavary or dependent on the falling Rains alone, the average revenue derived therefrom based on the Collections of the same years is as follows. —

	Fs.	Rs	a	p
Average of 22 years or from	1236 to 1257 -	197 -	13 -	10
Average of 10 years or from	1248 to 1257 -	199 -	1 -	-

Should the Government resolve on transferring the Village, and two hamlets to C. V. Cunniah Chetty no objection will be offered by the Merapsidars.

From C. V. Comniah Chetty

Offering his views on the proposal of the Collector of Chingleput to assess a quit rent of 1000 Rupees on the Village of Perambadoo when transferred to him for his property in Vepery.

Sir,

I am given to understand that the Collector of Chingleput has suggested that in case of the Board being disposed to recommend to Government to transfer to me the entire Village of Parambadoo with its dependant hamlets in exchange for the Vepary Lines in pursuance of the arrangement proposed in my letter to the Board of 16th March last I should pay an annual Bariz of One thousand Rupees to Government.

2. I have reason to think that the Collector of Chingleput has recommended this upon the average revenue of the Village for the last 10 Years for the greater portion of which period it has been under the new Jaram settlement.

3. I hope the Board of Revenue and the Government in taking the case into consideration will

will allow all other circumstances connected with the proposed arrangement to have their due weight and will permit me to draw attention to the following facts.

1st. That in the proposed arrangement I am surrendering a certain source of income of a much larger Amount from the Vespary Lines for one that is fluctuating and uncertain, dependant on the Seasons and other circumstances beyond control.—

2d. That the seasons during the last ten years have been very favorable, as the Board will be aware from the very low ex prices of grain all over the country and other circumstances such as extensive tank repairs yea may have contributed of late years to swell the Revenue of the Village beyond what it will remain at for a permanency.

3. That as the Village is to be made over to me permanently it is more reasonable that it should be valued according to

to its Revenue for a longer period than 10 years and during different systems of ma: nagement.—

4. The Ryots of Perambadoo have informed me that according to the account furnished by them to the Collector the following have been the actual average Collections of the Village for the last 22 years.—

Cusba Parembadoo including Tank Mara	C. Rs.	2255
Hamlet Coopum including	Do.	809
Do. Commaravpollum	Do.	670
Do. Kundiga	Do.	197
	C. Rupees	3932

It will be observed that the gross average collections of the entire Village and Hamlets for a period of 22 Years have been C.R. 3,932 from which have to be deducted charges of collection and the amount received for tank Marahs, which cannot be considered a source of income as they are paid to make good in part the expense which I shall have to incur for tank repairs.

The tank Marahs are collected at the rate of 4 3/4 annas per Pagodas of 3½ Rupees and

Fort St. George 10th. May 1849.

and average annually Rs. 332 leaving the net average collections of the last 22 Years 6 Rs. 3,600 from which have to be defrayed the charges collection, — and if the collection of the Kundiga hamlet which I proposed that the Government should reserve in its own hands be also deducted Viz. Rupees 197 it will leave only Rs. 3,403 being 6 Rupees 97 below the sum it was fixed that I should receive as net income Viz. @ Rs. 3,500. Out of the Rs. 3,403 I should have to defray the charges of management amounting annually to about Rs. 300 reducing the net income to 6 Rs. 3,103.

5. I have also been given to understand that the Collector has noticed particularly the large amount of the Ayacut Bariz of the Village, but the Board from their practical knowledge and experience will be fully aware that the Ayacut Bariz is no criterion on the present value of a Village and that the average Collections of past years for a long period has been

Fort St. George 10th. May 1849.

been the rule usually adopted in such cases. The Board will be satisfied of this if they compared the actual collections with the Ayacut Bariz in any Village in Chingleput or other Districts. The Board will be aware that the Ayacut Bariz includes the sites of tanks, the Cattle pasture lands the immemorial — waste and in short all lands not actually Purumpoke. It would of course be my — endeavor to increase cultivation but there is little prospect of its being done to any extent, it is the exception of some augmentation which induced me to accept an annual sum so far below the income I derive from my property at Vepary.

6. I furnished the Board in my last letter which a Statement of the average annual income derived by me from the property at Vepary Viz. upwards of Rs. 5000 but the Board will be aware that the Revenue from land will always fluctuate and depending as it does upon the seasons will be very uncertain. I can never calculate with certainty upon realizing the

Fort St. George 10th. May 1849.

the amount of Revenue at which the Village will be transferred to me, to say nothing of the trouble with which that Revenue has to be collected from a large body of Ryots from which the receipt of my income from my Vesary property is free.

7. I trust the Board will therefore take all these circumstances into consideration and deem it reasonable to fix a valuation on the Village to be transferred to me on the actual average Collections of the last 22 years instead of upon only 10 years, as sug: gested by the Collector of Chingleput. I cannot undertake the risk and responsibilty of paying an annual Bariz to Govern: ment. The average Collections of the last 22 years do not shew the Revenue of the Village to be in excess of the Sum which I am to receive Viz.t Rs. 3500 but if the Board and Government should think proper to adopt the average Collections of the last 10 Years only

Fort St. George 10th. May 1849.

only and require me to pay the difference between them and the Sum of Rupees 3500 I shall have no alternative but to endeavour to select some other Village or Villages not open to the objection of my having to make an annual payment of Bariz to the Government.

I am directed by the Board of Revenue to acknowledge the receipt of your letter of this date upon the subject of the Parambadoo Village and in reply to inform you that they regret that they cannot recommend to Govern: ment that the Valuation of that Village be fixed upon the actual average Collections of the last 22 Years in place of 10 years as suggested by the Collector and they therefore think preferable

preferable that you should as you have proposed select some other Village or Villages of a lower Bariz. The Board trust that the selection will be made with all convenient despatch as the Government are anxious that the Arrangement relative to your premises at Veppery should be concluded as soon as possible.

The Right Honorable the Governor in Council has had under his consideration the subject of the letter recorded above, and the manual accompanying, relative to the occupation of Land on the Neilgherries for Building and for Agricultural purposes, and is of opinion that sufficient reasons have been shewn by the Board of Revenue in Paras 3, 4 and 5 against the allotment of the cultivable land of the Hills in subdivision of equal extent as originally proposed under

under the views expressed by the Honorable Court in respect of the lands of the Dheyra Dhoon.-

2. For the reasons given in Paras 5 and 6 the Governor in Council thinks that as the land for Agricultural undertakings hitherto taken up and likely to be in demand lies on the slopes or in the lower Villages of the Ghauts to which the demands of the Todas do not extend, it is unnecessary to adopt any general measures for determining the extent of the Hill Table land upon which Goodoo is claimable-compensation on this account being limited to the extent of pasture ground lost to the Todas by Cultivation, will under any circumstances, be of small amount- considering that the sum paid for the lands included within the Cantonment of Ootacamund averaged only one anna a Cawny, and the Governor in Council is of opinion that the rights of the Todas in this respect will be sufficiently protected- by the stipulation which the Board propose to insert in the Leases.

3. The Governor in Council approves

of the proposition of the Board to furnish the Collector of Salem with such parts of the Manual as may be applicable to the Shevaroy Hills, and desires that the Collector of Madura in whose limits are the Palney Hills be also similarly instructed.-

To the Honorable Company's Solicitor

Requesting that a form of lease may be drawn up to be adopted hence-forth for lands upon the Neilgherry Hills and pointing out the special stipulations which it is desired should be introduced.—

I am directed by the Board of Revenue to inform you that they have been instructed by Government to place themselves in communication with you in view to the preparation of the forms of Lease which are henceforth to be adopted for lands upon the Neilgherry Hills.—

2 For the more full elucidation of the subject I have been desired to furnish you with Copies of the letter from this Office to Government bearing date 22d January last, Containing a Manual of instructions for the guidance of the local authorities in the disposal of applications for land upon the Hills, and of the Extract Minutes Consultation in reply to it,

From those papers you will perceive that

Fort St George 10th. May 1849.

that the Leases required are of two kinds. One for land to be occupied for building purposes, and one for land to be taken up for agricultural operations. The former are to be granted for 99 years renewable every 33 years of that period at the option of the Lessee and without payment of fine or enhancement of assessment; the latter will be granted for periods not exceeding thirty years, at the expiration of the term for which either Lease may have been granted the land to which it refers will be liable to reassessment or to the imposition of any revised assessment which may have been introduced upon the Hills during the currency of the lease.—

3 The special stipulations which it is desired to introduce into Leases for building are those specified in Paras 9-12-13 first part 14-17 of the Manual; those to be inserted in the Leases of land taken up for agricultural operations are shewn in Paras 9-10-11-12-13-14-15-16-17 of the same paper.—

+i.e. The Lessee shall respect all roads, footpaths, and rights of way.

4 The Lease will be issued by and in the name of the Collector of Coimbatore for the time being on behalf of the Government of Fort St George.—

5. It is desirable that the form of Lease should be as simple and concise as possible, consistently with the due introduction of the stipulations to be inserted in it, and it should be accompanied with a form of Counterpart.—

6. Should there be any other points connected with the preparation of the forms of Lease on which you may require information the Board of Revenue will be most happy to afford it.—

2. The supply of Salt was insufficient and to this is attributed the decrease in salt sales amounting to Rupees 29,416. more than half of the total decrease of the year - The Governor in Council observes that the manufacture of Salt in the last season has been extended and he trusts there is in the Current year an ample stock to meet the wants of the District - The cause of the deficiency in Fusly 1257 is not explicitly stated, but the Governor in Council observes that the Salt sales of Fusly 1256 are declared the highest on record and it was reported in the 4th Para of the Boards Proceedings of the 9th December 1847 that the manufacture of Fusly 1256 "was limited owing to the character of the season".—

3 The Sea Custom Revenues were affected by the abolition of Export duty

duty on Cotton Wool. The small farms by the low price of Chanks, and the Maturpha by the emigration in the preceding year in consequence of draught. Consequence of the decision of the Privy Council's relative to the Vassreddy Estates in Guntoor and the allowances to be granted to Lutchmeepaty Naidoo—

the Governor in Council to be questionable whether under the order of Her Majesty in Council, any portion of the allowance of Rupees 1,000 per Mensem assigned by Government to Ramanadha Baboo can now be withheld from his successful opponent in the Suit, Lutchmeepaty Naidoo—

2. The sum proposed by Mr. Stokes to be granted to Lutchmeepaty Naidoo Viz^t. 625 Rupees per Mensem would seem to be ample to meet all his legitimate expenses, but the Governor in Council is unwilling to adopt any arrangement that might possibly be looked upon as contravening the final award that has now been pronounced by the Queen in Council—

From the Special Agent Vizagapatam Zemindary.

Sir.

1 With reference to my letter of the 9th April, I have the honor not only with the full concurrence, but at the particular desire, of the Rajah, to ask permission to

to alter and extend, my application for the appointment of a Dresser to that, of an able and efficient Apothecary, on a salary of 60 Rupees per mensem.

2- Taking into consideration, the great and beneficial results from the constant presence of such an Officer, not only to the very extensive, private as well as Public Establishments attached to the Rajah, but to the numerous inhabitants of the large Town of Vizianagrum itself and also, to the vast Population throughout the Zemindary, during our Periodical Tours.-

3- Moreover, and very especially, reflecting on the increased popularity, and affection these humane intentions, and efforts for good, will undoubtedly bring to the Rajah himself. I cannot too strongly support his wishes on the subject.-

4- And as an instance of the necessity, so early as practicable, of the appointment of some such Officer to my Establishment. I would beg to mention, that at the present

moment the Rajah himself is under the care and treatment of an apothecary, on the Establishment of John Mackenzie Esqr. in consequence of a severe wound occasioned by a sword blade accidentally snapping in his hand.-

5- Several of my Cutcherry are also now, on necessary leave of absence, from various slight ailments, which the presence of a Medical Officer in the Establishment would have effectually prevented.-

6- I trust therefore I may be excused a second time bringing the subject to the notice of the Board of Revenue and urging sanction to the above proposition.-

Furnishing as requested in the Board's Proceedings of the 10th Instant- further explanation relative to the pay of Somayajoola Soobiah-

Sir,

I have the honor to acknowledge the receipt of the Extract from the Board's Proceedings dated the 18th Instant requesting with reference to my letter of the 15th Ultimo, further explanation relative to the pay of Somayajoolla Soobiah-

2- The circumstances of this case are somewhat complicated, and I have to regret that while citing the previous correspondence in the margin of my last letter, I did not fully detail them - as far as I can learn they are as follows-

3- After the Commissioners arrival

arrival in the District, such arrangements were made as appeared likely to facilitate his enquiries, by sending some Ameens to act in other than their own Tannahs, and S. Soobiah Ameen of Poloor, was sent to act at Rajah Petta- While there the Commissioner brought to the notice of

26th June 1845- Mr White some instances in which he, Soobiah, appeared to be using his influence to obstruct the investigations carrying on under the Commissioner's Orders. In consequence apparently of this intimation Mr White on the 5th July issued an order requiring Soobiah to attend at the Huzoor where he remained till the 5th October- During this time his full pay was drawn, but held in deposit; the duties of the Poloor Tannah being discharged by the Peishcar without additional pay, and some similar arrangement being made at Rajahpett- In the beginning of October Soobiah was ordered to proceed to take charge of the Tannah of Coorapaud, still drawing the pay of Poloor. Vetcha Bashcarloo Ameen of Coorapaud being at this time under suspension, and the pay of

of his appointment not being drawn - On the 20th January 1846 Soobiah was suspended by Mr. Newell and finally dismissed. In reporting on his appeal Petition I expressed in Para 6 of my letter dated 2nd July 1846 an opinion favorable to his claim to his pay which was still in deposit, for the three months during which he had been detained in the Huzoor.

4. In the beginning of October 1845 Kistnarow Bashcarlo was appointed to act as Ameen of Poloor, receiving no pay till the 9th November, from which time till the end of December he drew 40 Rupees out of the pay of the ameen of Cheybrole, after which he drew the pay of the Coorapad Tannah until confirmed in Poloor.

5. In my letter of the 27th *August 1846- I recommended that Kistnarow Bashcar should draw the full pay for the time in which he had acted at Poloor, and on receiving Pro: 15th October 1846- the Board's instructions to this effect, the difference so due to him was paid out of the 236 Rupees of Soobiah's pay in

in deposit. In these instructions the Board appear to have supposed that the pay in deposit was that for the period during which Soobiah was under suspension which was not the case, and it would perhaps have been more proper to remunerate Kistnarow out of the undrawn salary of the Ameen of Coorapad. The balance of Soobiah's deposited pay after disbursing Rupees 159-1-6 to Kistnarow was carried to the Public account under the head of "Refunds of Revenue and Judicial charges" as explained in the subjoined Memorandum, and this is what I meant by being "refunded."

Pro: to Coll[r] 16th April -"-
From Coll[r] 27th April in Cons 10th May 1849.

2. From this it will be seen that this person was ameen of the Poloor Talook and that upon the Commissioner's arrival in the District among other arrangements which were deemed advisable for the purpose of facilitating his inquiries Soobiah was sent to act at Rajahpettah whilst there employed the Commissioner had reason to suspect him of exerting his

his influence to obstruct the investigations then in progress, and in consequence apparently of an intimation to this effect he was ordered by the Acting Collector to attend at the Kovzoor where he remained from the 5th. July to 5th. October 1845. his full pay for Poloor being drawn but held in deposit and the duties of the Sannah being discharged by the Peshcar without additional remuneration. At the begining of October Soobiah was ordered to proceed to take charge of the Sannah of Corapad upon his Poloor allowances in place of the Corapad ameen who was at that time under suspension and whose pay was not drawn. On the 20th. January 1846 Soobyah was suspended by the Head Assistant Collector Mr. Newill upon charges of malversation and was ultimately dismissed, his dismissal being ordered to have effect from

the date of suspension.—

3. About the same time that Soobiah was sent to act at Corapad or in the begining of October 1845 one Kistnarow Bashcarlo was appointed to officiate in his substantive office at Poloor. Kristnarow Bashcarlo received no remuneration until the 9th. November and from that time to the end of December drew 40 Rupees out of the pay of the Ameen of Chaybrole. after December he was allowed to draw the pay of the Corapad Sannah until confirmed at Poloor.—

Trim Coll. 27 Augt. 4.
in Cons. 15 Oct. 6 1846
V. Coll. 15 Oct. 15

In October 1846 the Board at the Collector's recommendation sanctioned the disbursement to Kistnarow Bashcarlo of the full pay of the Office for the time he had acted at Poloor. and the sum due to him for that period. or rather from the date of his employment at Poloor to his being allowed to draw the pay of the Corapad Sannah. or from October to December 1845 Rupees 139—1—6 instead of being paid to him from the salary of the suspended Ameen of Corapad, for whom S. Soobiah had been acting was disbursed from the amount of S. Soobyah's pay which had accumulated during

the

Fort St. George 10th. May 1849.

the three Months-or from July to October 1845, that he was in attendance at the Kozzoor and which had been kept in deposit. The remainder of that sum Rupees 76. 14. 6 was carried to account.

5. S. Soobyah has lately preferred a claim to the arrears of his salary and as during the time that he was, by order of the Acting Collector, in attendance at the Kozzoor he was not under suspension the Board think that he has a reasonable title to at least as much of it as has not been otherwise appropriated. They therefore beg to recommend that sanction be granted for the payment to him of the amount in question Rupees 76 14 6.

From the Collector of Nellore- } Para 1. Adverting to the Circular letter dated 24th August 1848 requiring some information relative to taxing the improvements in land effected at the expense and labor of the Ryots, and with reference to your letter dated the 22d Ultimo, whereby my early attention and reply to the subject was requested; I have the honor in the first instance to furnish the following abstract Memorandum which contains the information generally called for, reserving my own opinion for the concluding para of this letter.-

Submitting information relative to taxing the improvements in Land effected at the expense and labor of the Ryots-

Queries of the Board.	Replies of the Collector-
1. To inform the Board what periods of total or partial exemption from the additional demand usually imposed on land converted from Poonjah to Runjah or Totacal by Well irrigation, will be sufficient to enable the constructors of new Wells in Nellore	1- There are three descriptions of Wells in this District.- First- Temporary Wells called "Bollabhavooloo" which are used where the water is close to the surface and these involve no expense and no reimbursement has been ever granted in cases of these Wells. The water being so

Nellore not only amply to reimburse themselves but to gain a handsome profit upon their outlay and thus to hold out a powerful incentive to the execution of such works without at the same time trenching upon the just interests of the state.?

so near the surface makes such lands valuable and the assessment is high in proportion.-

Second. Ordinary Wells with stone revetment which usually take five years to repay the cost.-

Third. Large Stone Wells which if not cut through rock require about fifteen years to repay themselves; but if cut through rock, twenty.-

In cases of Wells sunk previously to Fusly 1248 the original Turrum Sist of the land has not been exceeded, but since then the Sinkers of Wells have been reimbursed their outlay by means of the Remission of Fasaljasty or Extra assessment until their whole expenses have been repaid. A degree of uncertainty however has evidently prevailed with respect to the larger description of these Wells as to the Collector's power to make any promises which would be sure to be adhered to.

2- What is the Estimated escpence

2. The escpense of digging each

escpense of sinking in the various parts of Nellore the several Classes of Wells ordinarily in use.?-

each class Well varies according to the local circumstances such as the nature of Soil as undermentioned.-

Description of Wells.	In Sandy Soil.	In clay Soil.	In gravelly Soil or Rocky Soil
1. Temporary Wells.	Within 5 Rupees	Within 10 Rs.	Within 20 Rs.
2. Wells with Stone Revetment.	30 to 40 Rs.	40 to 50 Rs.	50 to 60 Rs.
3. Large Stone Wells.	60 to 100 Rs.	100 to 200 Rs.	200 to 300 Rs.
2 In places where rock is to be cut partly.			400 to 800 Rs.
3. In Do. where rock is to be cut or blasted.			800 to 1500 Rs.

3. What is the estimated extent of land capable of being irrigated from each class Well, the assessment borne by such extent of land as Poonjah, the additional Teerwah chargeable upon it when converted into Nunjah or Totacal respectively and any particulars which may have entered into calculations.?

3. Extent of land capable of being irrigated from each class Well is shewn below.-

If Mooloom or Garden crops are cultivated on lands irrigated by Temporary Wells the assessment chargeable is 42 Rupees per Goorloo Vizt. 14 Rupees for 1st. Crop Suggu and 28 Rupees for 2d. Crop Natchany. Incases where the lands are dependent on the other descrip=tions of Wells the assessment is levied at 21 Rupees per 1 Goorloo Vizt. 7 Rupees for 1st. Crop and 14 Rupees for 2d. Crop.

The Ryots generally take choice of cultivating most of their lands with Raggy Crops but when cultivated with other sorts of Crops the lands are liable to the payment of Sist according to the following Scale.

1. Chillies. 2. Cocoanuts. 3. Ganjah.	58. Rupees	4. Tobacco 5. Garlick 6. Turmeric	116 Rupees	7. Betle Gardens if exchangeable Rs. 232 8. Do. — Do. if not exchangeable 116 Rs. 9. Vegetables 29 Rs.

4. To state whether the Circar Wells in this District are commonly kept in repair at the public expense and in such cases under what (if any) Regulations and whether such Rules would be equally applicable to the repair of Wells hereafter to be constructed by individuals.

4. The trifling repairs the amount of executing which does not exceed 10 Rupees, and have been usually performed by the Ryots themselves without any assistance from the Government. But where large sums are expended in repairs performed by the Ryots such sums are gradually reimbursed

to them from the Revenue derivable under the irrigation of such Wells. Respecting Wells the usage observed in this District consists as follows.—

First. If a Well is newly sunk with the previous permission from the Collector the Fusul Jasty Sist derivable under it's irrigation is wholly remitted to the Ryot until he shall have been reimbursed the actual amount he may have laid out on that account, the original Turrum Sist of the land being only levied by the Circar orders of Government dated 25th June 1846 communicated with the Board's Proceedings dated the 16th of the following month, authorizing the making of advances for sinking new Wells on condition of being repaid within 3 years, but it appears that there has not been any instance of advances having been made to Ryots for new Wells in this District up to this time.—

Secondly. In cases where newly constructed Wells are repaired half of the fusul Jasty or additional Sist is remitted to the Ryot until the amount he may have expended on the occasion is reimbursed till which period of exemption the remaining

portion

portion of the Fusul Sasty Sist, and the whole of the original Turrum assessment is levied for the Government.

3rd. Where old Wells have been repaired at the own cost of the Ryot, the Rule sanctioned by the Board in 1846 at the suggestion of Mr. Bishop to levy the highest dry assessment of the land until the amount of the expenses incurred by him is reimbursed, is acted up to in cases where applicable, but as the rule in force previous to that time was to remit to the party half of the Turrum Sist fixed on the land of course when Wells have been dug on that understanding the former rules are adhered to Viz. of remitting half of the Turrum assessment.

4th. Incases where old Wells stand in need of repairs the performance of which does not lie within the abilities of the Ryot without assistance from the Circar, it has been a practice in this District (Vide orders of Government above alluded to) of making Tuccavy advances on the occasion to the Party on sufficient security being previously obtained from him to secure the proper use of the money under condition of repaying the same within a period not exceeding 3 years but without interest. From the Revenue derivable on account of the Cultivation that may be carried on under the irrigation of such Wells, the highest Netta

Sist of the Village is only collected by the Circar, the remaining revenue is remitted to the Party concerned until he should have been duly re-imbursed his outlay.

5. To state whether it would be desirable to make Tuccavy advances to the Ryots to assist them in the construction of new Wells, and if so to what extent, and under what limitations, at what periods the advances should be repaid whether with or without interest.

5. Respecting the propriety of making timely advances to Ryots to enable them to revive Garden Cultivation (by the formation of new and repair of old Wells) which would otherwise remain waste, my Predecessor Mr. Bishop submitted a proposal to the Board under date the 17th March 1846 which having been duly supported by the Board of Revenue in Para 3 of their letter to Government dated 23d April 1846, was ultimately sanctioned by Government in Extract Minutes of Consultation of 25th June 1846. The amount which may be thus advanced to the Ryots on these occasions is to be recovered (without interest) by instalments not exceeding a period of 3 years with reference to their Cultivation and Sist. My own opinion of the advances of Tuccavy is given in the concluding part of this letter, but as regards new Wells this rule has never been taken advantage of.

6. To state whether there are any other Works of improvement.

6. If permanent advantage is secured to the Ryots there

improvement in the Dis=
=trict which could be car=
=ried out by the Ryots them=
=selves and which it might
be desirable to encourage=
the nature of such Works
and the conditions to be
held out to those desirous
of undertaking them.2

there are numbers of small=
Tanks capable of being brought
into use, but no good will=
ever be done either as regards
Wells or Tanks unless the=
interests of the Ryots in them
is made sufficient both to secure
construction and continual=
repairs.2

2. Having thus recorded the information obtained by me from the District generally, I shall proceed to record my own opinion. I do not think the Ryots generally require any excessive advantage to induce them to sink Wells to improve their agricultural resources, what they require is confidence that the promises of the Circar will be= strictly adhered to. I am further of opinion that the= advancing of Tuccavy for Wells would be better dispensed with. These Works must be treated in the= light of speculations, and if the Ryots cannot carry them out with their own means they had better be= left alone. I record this opinion after much observation on the subject. Under the ancient Native Government it was customary to allow the Ryots a permanent= remission of from ten to thirty per Cent under the=

Head of Dasabundums for sinking and repairing= Tanks and Wells, and I think the following pro=visions would tend equally to the advantage of Government and the Ryots.

1st No Government interference to take place with= respect to Wells under fifty Rupees.

2d In all outlays on Wells between fifty and three hundred Rupees the Ryot to be allowed total exemption from enhanced Assessment for five years and a= remission of one fourth of the enhanced Assessment in perpetuity.

3d In all outlays on Wells exceeding three hundred Rupees the Ryot to be allowed total exemption from= enhanced Assessment for ten years and a remission of one third of the enhanced Assessment in perpetuity.

4th Every Well dug under these circumstances if abandoned and the abandonment persisted in after one years notice to be at the disposal of Government, and the Ryot= engaging to carry on the Cultivation and continue the repairs to receive the one fourth or one third remission as the case may be.

5th The same principle of Rules to hold good with respect to Goontahs or small Tanks numbers of which are in disuse in this District but a further provision appears here necessary as in many of these cases the repair will not

not tend to enhance the assessment but only to bring the land under cultivation, I am of opinion that in such cases both as regards Goontahs and even Wells the Remission should be according to the amount of outlay, half of the assessment for five or ten years and the fourth or third in perpetuity as in the other cases.—

6th That in all cases of Wells already sunk the Parties shall be free to take advantage of these rules as regards the one fourth and one third remission on agreeing to keep the lands under Cultivation and the Wells in repair.—

To complete the subject one more remark only appears necessary which is that no interference take place with old Wells already only paying their original assessment, but in the event of the Circar interference being called for in regard to any of these Wells then only these Rules to be made applicable to them.—

Sir,

From the Agent to the Governor of Fort St. George at Kurnool

Submitting a report of the terms calculated to encourage in Kurnool the extension of cultivation and submitting Indent for Seed wheat-

Para 1. Adverting to your Board's Proceedings dated the 14th December last calling for the submission of an Indent for such quantity of Seed Wheat as may be required for experimental purposes and a report of the terms which appear calculated to encourage the Cultivation in Kurnool of Wheat of better quality and to a greater extent than at present.-

2- I have the honor to state that there will be little or no disposition on the part of the Wheat growing Ryots of this District to avail themselves of Seed Wheat furnished gratuitously by Government, unless they be assured that in the event of its failure to yield an average Crop, a proportionate remission will be made at the annual

D.F.

Settlement

6564 Fort St. George 10th May 1849.

Settlement. If it yields no produce at all I consider it will be necessary to forego altogether the revenue demand the land may be liable to, which has been sown with the Wheat in question.-

3. On the supposition that these terms will receive your Board's sanction I beg to forward an Indent for 616 Madras Measures of Seed Wheat which received I intend to have it sown at the proper season in 22 fields of 131 different Villages to ascertain each field assuming that the Measure is the quantity required for sowing a single acre.-

4. I propose stipulating that the Ryots to whom this grain may be distributed shall hold at my disposal half of the crop raised from it, in order if a demand arises to its being sold on their account at a Moiety of the Bazar rate then prevailing to such of their cultivators as may be desirous of using the new, instead of the old kind of Wheat. I think the stipulation

stipulation should hold good for the second years crop also, including in it those Ryots who may be furnished with Wheat the produce of the seed originally supplied at the cost of Government.

5. Should the result of the experiment be satisfactory I am sanguine that the Wheat cultivating Ryots will of their own accord relinquish the use of the native grain for that which it is in view to introduce; my expectation in this respect is founded on the almost entire abandonment in this province of the inferior Indian Sugar cane for the better kind lately procured from the Mauritius the latter description of cane being at the present time almost the only sort grown.

6. Little if any Wheat is now exported from Kurnool, the small quantity grown in the province being it is calculated expended for home consumption. As a means of extending its cultivation I would therefore suggest a reduction for a term of five

Note
In the Lak Bunjer of the Wheat growing Talooks there is no ground on which Wheat could at once be sown.

suggest a reduction for a term of five (5) years of 20 per cent in the goottah of lands on which wheat has hitherto been and may in that period be raised. If during the existence of the above indulgence a moderately remunerative market should be found for the produce, it seems fair to conclude that both the Ryots immediately concerned in raising the Wheat crops and their fellow Villagers generally, will have become alive to the advantages of that kind of Cultivation and be thus disposed to increase it. The expediency of their attempting to introduce the Special Cowles adverted to at the close of your Boards Proceedings might then be matter for consideration. But adverting to the present condition of the agricultural classes in Kurnool, I do not believe it will now be practicable to enter into arrangements with them for the cultivation of a specific quantity of land with Wheat unless by the concession

Para 1. I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue, noted in the Margin, calling for information relative to the introduction of half bred Merino Rams into this District.

2. The experiment for the improvement of the wool of this Country having been tried and abandoned previous to my taking Charge of the District, I can only imperfectly meet the orders of the Board.-

3 I find from a draft of report which Mr Wroughton contemplated forwarding to the Board and which bears his own Corrections, and the matter of which I think best therefore to follow, "that he had ample and varied opportunities of "testing the disadvantages of this experiment and "that he was decidedly of opinion that the "importation of any more Rams into Coimbatore "and the continuance of the experiment to any "further period will be productive of no advantage, and

"and merely prove an unnecessary expenditure
"of Public Money."—

Extract. Minute Con. 16th July 1839 conveyed with the Board's Pro. 25th of Dec.

4. It would appear with reference to the Correspondence noted in the Margin, that this attempt had its origin for the first time, in 1839, and 30 half bred Rams were received from the Sheep Farm at Oojoor— These were distributed, it appears amongst certain influential Inhabitants of the place but with very little Success and it is difficult to ascertain at this late period who the parties were that received them and what has been the cause of the failure.—

3 5 were sent 5 died on the Road Vide Letter to the Board 18th March 1841

Extract. Min. Con. 12th Sept. 1842 No. 1086 do. do. 16th Dec. 1843. No. 1009

5. In the years 1842 and 1843, Twenty Half bred and two Pure Merino Rams were also furnished— and Mr. Wroughton States he
"purchased 141 Ewes from his private Funds to
"improve the breed, and adopted all possible
"measures to ensure Success: but the experiment
"seems to have progressed most unsatisfactorily
"The Casualties among the Ewes and the lambs
"proved very great, and what appeared a fur-
"ther drawback to it was that nearly all the
"lambs brought forth were particoloured and
"wanting in fleece and this defect continued

"in Some instances to three descents."

6. "The Farm was fixed on
"the Neilgherries for Some Months on a Sup-
"position that the climate of that part
"of the District might prove favorable but
"no discernable advantage was gained thereby,
"the Casualties Still proving the Same,
"especially among the Ewes and lambs."—

7 Some of the half bred Ewes and lambs, were disposed of and the rest of them died— The Merino Rams are likewise no longer in existence.—

8. The expences incurred on this account amount to Rupees 1,385—13—7 as exhibited in the accompanying Statement and the receipts by the sale of the lambs viz. Viz. 83—12—7, reduce the net charges to Rupees 1302—1—.

9 I request that the Special Sanction of Government may be obtained for the amount disbursed in Fasly 1258 / 1848/49 Viz., Rupees 26, of which an account Particular is enclosed.—

10 I can only add that if Government still

To The Chief Secretary to Government.—

Sir,

With reference to the intimation conveyed in para 3 of Extract Minutes of Consultation 15th November 1847 that 100 or 150 Half bred Merino Rams can be spared from the Honorable Company's sheep Farm at Mysore for distribution in the Districts, and to the requisition contained therein, desiring the Board to name the Districts to which, and the proportion in which, this number may be distributed with advantage, I am directed by the Board of Revenue to state in reply that Salem and Coimbatore having been considered the Districts in which such an experiment were most likely to be attended with success, a reference was made on the subject to the Collectors of those Districts, and the Board now desire me to submit from those Officers, for the

Submitting replies of the Coll. of Salem and Actg Coll. of Coimbatore to a reference made to them on the subject of the Half bred Merino rams stated by Govt to be available for distribution in the districts—Recommending that 50 Rams be sent to each of these districts and that sanction be granted for Rs. 26— the actual charges incurred in the Coimbatore district on account of the sheep farms for Fusly 1258, also accounting for the delay in answering the reference from Government.—

In Cons. 5th Dec. 1849

Extract Proceedings 6th December 1849.

the consideration and orders of the Government.

From Coll.r 7th June in Cons.s 16th March 1848.

The Collector of Salem states that his predecessor Mr. Gleig had a flock of Half bred Merino Sheep which he distributed among some of the Ryots, who continue to rear them with success, and that Major Will at Cossor has been equally fortunate in the introduction of Half bred Merino Sheep from Mysore. Mr. Lockhart states that he has no doubt that Half bred Merino Rams might be introduced into the Salem district with advantage, especially in the Talooks noted in the Margin, and on being furnished with them, he proposes to keep them under his own charge, and after due notice given, to allot them to such respectable Ryots as may apply for them.

Denkenkottah
Tripatoor
Tengracottah
Darampoory
Trichengode
Namkul.

Under these circumstances the Board would beg to recommend that Fifty of the Half bred Merino Rams, stated to be available, be made over to the Collector of Salem for disposal in the manner suggested by

by that Officer.

From the Coll.r 27th April in Cons.s 10th May 1849.

From the reply of the Acting Principal Collector of Coimbatore it will be seen that, in draft of a report which Mr. Wroughton intended to have forwarded to the Board on this subject it was stated that he "had ample and varied opportunities of testing the disadvantages of this experiment," and that he "was decidedly of opinion that its continuance of any further period would be productive of no advantage" It would also appear that when the original attempt was made in 1839. to introduce Half bred Merino Rams into the Coimbatore District by means of 30 Rams received from Cossor and distributed among influential Ryots, the measure was attended with very little success; while the experiment made by Mr. Wroughton in 1842 and 1843 of introducing 20 Half bred and 2. Pure Merino Rams was not more fortunate, altho' the Farm was fixed on the Neilgherries for some months on a supposition that the climate might prove favorable

favorable.—

The Acting Principal Collector further intimates that some of the Half bred Ewes and Lambs were disposed of, and that the remainder with the two pure Merino rams died, and he forwards a Statement of the expenses incurred on account of the Sheep Farm from Fusly 1252 to 1258 inclusive, amounting to Rupees 1,385—13—7 but reduced to Rupees 1,302—1—" after deducting Rupees 83—12—7 received by the sale of some of the Ewes and Lambs. He also encloses an Account Particular for the actual charges of Fusly 1258 amounting to Rupees 25—"—", which the Board beg may be sanctioned.—

Mr. Thomas however adds that if Government still wish the experiment to be further tried with the Half bred Rams now available from Mysore, he will be happy to give his best attention to it, and he considers that, with a careful use of past experience, a further trial is desirable.—

Under these circumstances the Board of Revenue are of opinion that a further experiment may be made in Coimbatore before

before the project be entirely abandoned.— They would therefore recommend that Mr. Thomas be furnished with Fifty Rams from Mysore, and instructed to communicate with the Collector of Salem and Major Hill at Ossoor for any particulars he may require to know relative to the treatment of the animals, and that both he and Mr. Lockhart be directed to report the result of the measure in their respective Districts at the close of the approaching Fusly 1259.—

The Board desire me to explain that they have been prevented from replying sooner by the Extract Minutes of Consultation of the 15th December 1847 at an earlier date, in consequence of the delay experienced in obtaining the requisite information from the Principal Collector of Coimbatore.—

Sir,

Adverting to Extract from the Proceedings of the Board under date the 4th May 1848. conveying sanction of Government for the defence in the first instance, at the public expense of the Suit brought against Mr. Bishop and others in the Sub. Court of Coombaconum by Krisnayen, I have the honor to submit copy of the decree passed which is in favor of Plaintiff, and for reasons set forth, 4th Defendant as is the party considered directly responsible to the Plaintiff for the amount value of produce claimed, while the 1st Defendant, (the Collector) is adjudged to

to pay his Costs, amounting to Rupees 4—5—7, including Vakeel's fee.—

For the Debiting of this sum in the public accounts, I trust sanction will be granted.—

The Plaintiff states that he owns 2/3rds of the Village of Cottungoody in the Trivalore Talook; that the Village was under — Amany.

annany from 1231 to 1250 Fuszly; that he held it under the Board rent from 1251-1256 Fuzly paying the value of the Mailwarum grain at the market prices: that he was prepared to renew the rent on the same terms for fusly 1257; but that the 3rd Defendant allowed his Brother (4th Defendant) to undertake the rent, not at the current market prices of the year, but at those of the previous year and that notwithstanding all his remonstrances the Collector, the 1st Defendant, sanctioned this proceeding, which as he is the registered proprietor, he declares to be irregular and improper; and he sues consequently to recover the value of the Meraes share of the Cuddapoo Car harvest which he values at Rupees-62.-

The 1st Defendant in his answer urges that the 4th Defendant is the Plaintiff's undivided brother, and has constantly signed Moochilkas and other documents connected with the Estate which have been binding upon and unquestioned by the Plaintiff; that the Meraes could only be entered in the name

of one of the brothers; that under these circumstances he considered himself perfectly justified in taking the 4th Defendant's signature to the Board rent for 1257 Fuzly and that the 4th Defendant has deposed that the produce of this has been lumped together with that of the other Villages and is in store.

The Plaintiff in his reply contends that tho' it is usual even for co Peraccodees to sign cultivation Moochilkas the signatures of the registered owners are invariably required to the rent bonds, that supposing the 4th Defendant to be his undivided brother yet he has no right to saddle the Plaintiff's share of the property with liabilities which he was unwilling to incur, and that the 3rd Defendants' statements touching the produce are false.

The 1st Defendant in his rejoinder states that the 4th Defendant signed rent or Deeds for the other two Villages in which the ancestral estate lies in 1252-54 and 55 Fuzlies, and that this fact and his signing cultivation Moochilkas appeared grounds sufficient to authorize the acceptance of his signature for

Forb 1st George 10th May 1849

for the Village in question, that the Meraps right has been in no way affected thereby; that if 4th Defendant has appropriated more of the Meraps Warum than he is entitled to, the Plaintiff had his remedy without including the other Defendants in the action, and that if the Plaintiff thought that the 4th Defendant had usurped his lands, he might have applied to the Collector under Regulation V of 1822. instead of making him a defendant.

The other Defendants were tried exparte.

Judgment.

It appears that the Plaintiff is the registered proprietor of the lands in

Forb 1st George 10th May 1849.

question, that he executed all the rent bonds &c connected with this Village up to Fasly 1256. inclusive, and that upon his hesitating to undertake the rent of Fasly 1257 at the market rates of Fasly 1256 his brother came forward and contrary to the Plaintiffs' objections and remonstrances, was allowed to sign the Ezara Moochilka.

It appears to the Court that the 4th Defendant ought not to have been allowed to contract for any thing beyond his own share of the lands. It is to be observed that the extent of that share is still undetermined - a Suit before the Ludr Ameen having been razeed and the share of these brothers being therein undefined and with reference to the terms on which the brothers at the time were, the propriety of entering into engagements the effect of which would necessarily be to take the management of the lands for the time being out of the hands of the elder and registered brother and place them in those of the younger and unregistered brother is open to question,

and

and that on this score the Court is compelled to refuse the 1st Defendant his costs.

The 4th Defendant is the party directly responsible to the Plaintiff for the produce which fell into his possession.

The Plaintiff has based the estimate of his losses upon the rent undertaken by his brother, and yet this rent he objects to as excessive. He has further failed to prove satisfactorily what the actual outturn of Fuzly 1257 was. But as the terms of the rent were adjusted with reference to an ascertained average of 5 years it may safely be depended upon especially as the harvest of 1257 was a favorable one, and the manurum of the land in question may be fairly estimated, as the 62 Rupees will represent at the rated of 1256 Fuzly Viz. 3¾ Sanam 106 Cullums, at 49-15-4 the value of 106 Cullums at 3 Sanams, and a Moiety of this sum is decreed hereby to him together with proportionate Costs as co against the 4th Defendant.

And

And the Court further declares that no private adjustment of this award by these parties will be valid unless the terms of such adjustment shall have been declared and made a record of the Court.

Proceedings thereon!

Submitting letter from the Acting Collector of Tanjore forwarding the decree of the Subr. Court of Combaconum in O. S. No. 20 of 1848 and giving a summary of the case and the judgment passed.

In Consn. dt. 4th March 1842

Resolved that the foregoing letter and its accompaniments be submitted for the information of the Right Honorable the Governor in Council in reference to Extract from Minutes of Consultation dated 4th March 1842.

2. The institution of the above suit was reported to Government in the Board's letter of 13th April 1848. From the papers then laid before Government, and those now forwarded, it will be seen, that the Plaintiff in this suit is the registered proprietor of 7/8 shares of the Village of Cottangoody in the Trivalore Talook of the Tanjore District. It would appear that Plaintiff and the other Meerasidars held the Village under "Board Rent" from Fusly 1251 to 1256. but that Plaintiff objected to the renewal of the rent for Fusly 1257 on the terms stipulated by the Revenue Authorities, and therefore refused to sign the Moochilka his undivided brothers however / the 4th Defendant / who had frequently signed Moochilkas and other documents connected with the family property came forward, accepted the terms, and put his name to the rent bond in common with those of the other Meerasidars. Plaintiff consequently

consequently brought this action to recover the Meras share of certain Car lands the Crops of which had been removed by the 4th defendant, and engaged to bring a distinct suit if he should in like manner cut and take away the sumbalo and Ponjah crops.

3. The Court although admitting the fact that the Plaintiff and fourth Defendant are Members of an undivided family, yet considered the propriety of entering into engagements, the effect of which would necessarily be to take the Management of the property out of the hands of the elder and registered brother and place them in those of the younger and unregistered Brother, open to question. and as the extent of the share of each Brother in the Village had never been determined the Subordinate Judge decided that the 4th Defendant should pay to Plaintiff one half share of the value of the produce claimed. and adjudged the 1st Defendant the Collector, to pay his own costs, amounting to Rupees 4-5-7.

Mr. Bird requests sanction for debiting the abovementioned sum

of Rupees 4-5-7 in the Public accounts, and the Board recommend that he may be authorized to do so.

5. In para 2 of Extract Minutes Consultation dated 27th April 1848 the Board were desired to forward to Government copy of the answer put in by the 4th Defendant; but it will be observed that the case against the 2d, 3d and 4th Defendants was tried Exparte.

In Cons. 4th May 1848.

Read the following report on the Management of the Extra Sources of Revenue in the District of Madura during Fusley 1257 submitted by the Collector under date the 21st October 1848.—

Proceedings thereon—

Relative to the Management of the Extra Sources of Revenue in the District of Madura for Fusly 1257.

In the Second para of this report the Collector has inserted an abstract Statement exhibiting the demand on each item of the Extra Sources of Revenue in his District together with the fluctuations during the year under consideration as compared with the preceding Fusley an a reference to which it will be seen that there was a falling off in the Demand of Fusley 1257 of Rupees 69,431-15-2, resulting from an increase under the items of Sea Customs and Sundry Small Farms and Licences of Rupees 6892-3-6 and a decrease of 76,324-2-8 in the remaining branches of Extra Sources.

2. This large deficiency in the Revenue is explained by the Collector to be to great extent nominal in consequence of the system now adopted by him of bringing to account such sums only as

Fort St. George 10th May 1849.

as the actual collections which were paid into the Hoozoor Treasury before the 11th of July excluding the payments at the subordinate Treasuries tho' made within the Fusli but not credited within that date at the Principal Treasury, an alteration in the former System which has received the approbation of Government as being the more regular and correct mode of adjustment, and which has been directed by the Board under instructions from Government to be acted upon in future generally throughout the Provinces.—

From Govt. 20th Feb. with Cons. 12th March 49 Circular 15th Do.

Salt.

3. According to the mode of computing the Salt Sales of which exhibit the receipts of only 11 months of the year, the decrease is made to appear as high as Rupees 74,800—12—11 in the Statement quoted above, but if the gross receipts within the 11th of July paid into the Taluk Treasuries tho' not transferred to the Books of the Hoozoor Treasury, are included the Statement given in

Fort St. George 10th May 1849.

the 3d para of Mr. Parkers report shews that the Net decrease of Fusli 1257 below Fusli 1256 was only 41,740—12—11.

Home Sales decrease in Fusly 1257. Rs. 64,446. 9. 8 Island Do. decrease Rs. 10,354. 3. 3.

4 The greater portion of this latter deficit is shown to have occurred in the Home Sales and to have been chiefly confined to the Dindigul Division which exported its staple produce largely to those parts of the district which were exposed to the temporary scarcity partially prevailing in Fusli 1256. The excess imported by the return cattle into Dindigul is represented by the Collector as being no less than 180 Garces beyond the usual Demand of that Division which has naturally depressed the Sales for the year now reported on which were below those of Fusly 1256 by 288 Garce.— It is to be presumed however that much of this salt found its way to other places and it is to be hoped that the supply thus thrown into the market may have

The Collections properly so called within the Fusly being Rupees 4,10,861-7-9 and the amount realized = ed in the Talooks up to that date being Rupees 40,866-3-5 giving a total of receipts under both heads of Rupees 4,51,727-11-2 against Rs 4,85,711-11-8 Collected in Fusly 1256. —

represed for a time at least the use
and manufacture of Earth Salt.—
5 It is highly important
that when this illicit article is con=
=sumed to some extent that no check
or impediments should be placed on
the trade in Sea Salt by allowing
the supply to the Depots to become
prematurely exhausted. as is stated to have
been the case at some of the Pans in
the District during part of Fusly 1257
and the Board are therefore glad to observe
that Mr. Parker has largely increased the
quantity manufactured in view to
prevent a recurrence of this circum=
=stance in the current year. This inter=
=ruption in the sales coupled with a
restriction of the time hitherto allow=
=ed to be covered by Salt Rowanahs which
was considered to have given an opening
to fraud, depressed the gross sales which
would otherwise have been more extensive
they however ranked next to those of the preced=
=ing year. Fusly 1256 quoted as the highest of the
previous 9 years in the table given in para 5.—

7. This branch was affected
favourably by the increased exports to Ceylon
of Piece Goods and larger imports of
Nuts and Cheyaroots.—
8. These rents were disposed of
at a lower value owing to the adverse
nature of the preceding season it is
satisfactory however to observe that
at the date of the report the entire

exception of a trifling account which
was also in course of adjustment.—

due by the Abkarry Renters of the Taude

Order thereon.

59-60

Ordered to be communicated to the Department of Public Works with reference to the Board's Proceedings dated 1st February 1849.-

Resolved that the following Proceedings be despatched.

Read Return of Fines imposed and stoppages made from the Pay of Public servants in the District of Cuddapah during the Quarter ending 31st March 1849.-

(Here enter No.)

61

Proceedings thereon.-

The Board observe that 4 Tahsildars were fined 10 Rupees each, during the quarter embraced in the above Return, for neglecting to furnish certain Enamaty Accounts within a given time. The amount of fine in these cases appear heavy, the Board would therefore call the attention of Mr. Cochrane to their circular of the 28th July 1825.

instruction communicated by the Honorable Court) a copy of this despatch will be furnished for the information and guidance of the Board of Revenue with directions to convey through the Collector to the Ex Zemindars of Guntoor the determination of the Honorable Court against the restoration of the Estates formerly possessed by them, which on their being exposed to sale according to law for the arrears standing against them were bought in on account of Government, and against any augmentation of the allowances which have been already assigned to them, and to make fully known to the Ex-Zemindars the reasons which have influenced the Honorable Court in arriving at this decision.-

3. The Government think it of importance that the Collectors and Agents of the remaining Districts in the Northern Circars should be made generally acquainted with the views of the Honorable Court and for this purpose the Board will be instructed

to cause a Copy of the despatch to be furnished to each of those Officers and to direct them as opportunities offer to give effect to the desire expressed at the conclusion of para 14.-

4. The Governor in Council resolves to adopt the suggestion of the Honorable Court in para 32 "to place the Northern Circars for the present under the immediate charge of one of the Members of the Board of Revenue, to be deputed into the Country as Commissioner, exercising the full powers of the Board, and corresponding directly with the Government" and concurring in the opinion expressed by the Honorable Court as to the peculiar fitness of Mr. Walter Elliot for the duties to be performed by the Commissioner, he proposes that he shall be appointed to that Office as soon as the requisite authority for constituting it shall be obtained by means of a legislative enactment, for which an application will

will be made immediately to the Government of India.-

5. Pending the passing of the required enactment, the Governor in Council directs that under Section XXIII Regulation I of 1803, the charge of the Northern Circars shall be committed by the Board to Mr. Walter Elliot, and in order that his attention may be peculiarly given to these Districts, he desires that after he shall have disposed of any work of a general nature which he has undertaken and commenced, he shall be relieved of the ordinary business connected with the other Districts.-

6. The Maramut Department will continue as hitherto with the Board of Revenue in the Department of Public Works.-

7. During Mr. Elliot's absence on deputation, the ordinary duties of the Board in relation to the other Districts will be discharged by the Members remaining at the Presidency under Section VII Regulation I of 1803 and they will proceed intermediately in the same manner.-

Under

8. Under the orders of the Honorable Court Mr. Walter Elliot during his employment as Commissioner will be authorized to draw in addition to his Salary as second Member of the Board of Revenue a deputation allowance at the rate of Rupees 1,000 per mensem.-

9. Mr. Elliot will report to Government the Establishment he will require to aid him in the efficient discharge of the duties with which he will be invested as Commissioner, and the Collective Board will consider and report to what extent he can be supplied with servants from their Establishment, the labors of which must necessarily be reduced to some extent by the contemplated arrangement.-

10.- When the time shall come for the appointment of the Commissioner, the Governor in Council will furnish him with such particular instructions as shall appear to be necessary for his guidance. In the meantime

Fort St. George 14th May 1849.-

meantime in superintending the management of the Northern Circars Mr. Elliot will pay attention to the points embraced in the Reports of the former Commissioners of Guntoor and Rajahmundry, and to the views expressed on review of them both by the Government and the Honorable Court of Directors.-

11- The subject of the survey will be taken into consideration with a view to the passing of definite orders upon it as early as possible.-

12. The Government will address the Government of Bengal on the points indicated in paras 10 and 19 regarding the means adopted in the Survey of Cuttack and Chittagong for defining the individual holdings of land and the process by which the very numerous rent-free tenures in Cuttack were investigated and disposed of during the measurement and reassessment of that Province, and the information which shall be received will be communicated to the Commissioner.-

From the Secretary to Government.-

Containing the observations and orders of Government on the Board's Proceedings relative to the Devastanum Sadarwared and ready Money allowances for the performance of ceremonies and for the maintenance of religious institutions in the Province of Kurnool.-

Extract from the Minutes of Consultation, under date the 12th April, 1849.- No. 369.-

Read the following Extract from the Proceedings of the Board of Revenue:-

(Here enter 18th January 1849 No. 38)

Para 1.- In the foregoing report the Board of Revenue review the former proceedings and the further correspondence which has since passed between them and the Agent in Kurnool on the Subject of the Devastanum Sadarwared and ready money allowances paid in that Province during the late Patan dynasty and continued by this Government since the Assumption of the Country, subject to investigation by the local Officers.-

2. The Right Honorable the Governor in Council has given his careful consideration to the papers submitted by the Board and to the previous correspondence recorded on

the

Fort St. George 14th May 1849.-

In Cons 28th March 1843 No. 15-16- the Consultations noted

" " 14th January 1845 " - 53-54- =ceeds to dispose of the two
" " 17th June " - " - 17-18 questions discussed in
" " 17th April 1846 " - 1-2. their report, Viz.t The
amount fixed in commutation of the
deductions or remissions from the
Annual Settlement under the terms
Saderwared, and the allowances in
Money disbursed direct from the Public
Treasury.-

3- In regard to the items of Dra=
=vastanum Saderwared which is par=
=ticularly adverted to in para 4th of the
Proceedings under consideration and
on which the Board seem to entertain
some doubt as to the general applica=
=tion of the orders of the Supreme Govern
=ment for the substitution of money
payments from the Treasury it is ob=
=served that in para 7th of their Proceed=
=ings dated 2d December 1844 No. 576
the Board submitted in reference to the
suggestion of Government respecting the
Collection of the Saderwared, that it
would in their opinion be far preferable
that

Fort St. George 14th May 1849.-

that the whole Summa should be col=
=lected, and brought to account in full
without deduction on the score of Sader
=wared, and that the fixed allowances
to be granted in commutation of this
latter source of revenue be made a direct
charge upon the Treasury and disbursed to the several
Trustees in such times of the year as would be
most acceptable to them." In this opinion
the Government of India concurred, and
directed "that the Separate collection
of the Saderwared allowances should cease
and that the parties entitled to participate
in them should receive a fixed sum
in lieu in an annual payment cal=
=culated to equal the average amount
of the last ten years of the Saderwared
itself." It moreover appears that the
Saderwared is not strictly an item of
Sircar revenue, and that it originated
in a subscription raised by the Villagers
themselves for religious and municipal
purposes. an opinion which seems to
have been entertained by the several
+ Officers who had the subject under
their consideration.-

Vide letter dated 20th September 1845 No. 951 para 23-

+ Major Blane Bayley and Scott.

Under

Fort St. George 14th May 1849.-

4. Under these circumstances, and as the whole amount of Saderwaree is now collected and carried to Public Account it would be manifestly unjust to withhold any portion of it from the objects for which it was contributed. The Governor in Council is therefore of opinion that the substitution of money payments from the Treasury forwarded as authorized by the Government of India, should have effect in all cases in which that allowance had hitherto been made, and has accordingly sanctions the disbursement in full of the commuted allowance fixed for the several Institutions entered in Statement No. 1 Submitted with the late Commissioner's letter of the 30th September 1844 amounting to Rupees 7,983-10-7 per annum being equal to the average of 10 years, or from Fusly 1242 to 1251 as shewn in para 2 of the Board's Proceedings. The Board will be pleased to instruct the agent to furnish for the guidance of the Audit Office an Extract from the above detailed Statement.

Statement exhibiting only the payments on account of Saderwaree to those Institutions receiving such allowance, and it will be the duty of the Civil Auditor to exercise no further control over these charges than to see that the annual allowance in each case as now Sanctioned is not exceeded.

5. The other subject considered in the Board's Proceedings is the ready money allowances paid from the Mussoolah Treasury for the maintenance of religious Institutions and for the performance of rites and ceremonies. In Mr. Scott's Statements Nos. 2 and 3 dated 30th September 1844 the sums disbursed for these purposes are shewn to amount to Rupees 3,332-1-2 for Mahomedan and Rupees 447-12-7 per annum for Hindoo Institutions, the aggregate being Rupees 3,779-13-9 which is the amount given in para 5 of the Board's Proceedings. In Mr. Scott's later Statements furnished to the Board on the 7th June 1847 and on which their present report is founded, the total amount is given at Rupees 3762-9-6

or

or Rupees 17-4-3 below the former sum. the difference occurring in the payments to Mahomedan Institutions. In the absence of any explanation of this and other discrepancies observable between the Statement No. 2 dated 30th. September 1844 and that dated 7th. June 1847, the Governor in Council will adopt the latter one as prepared after further investigation and under a revised classification.

6. The Governor in Council considers it unnecessary to notice in detail the several cases submitted for his orders with few exceptions he concurs generally in the recommendation of the Board which appear to him to meet fully the merits of each claim. He proposes however to classify the allowance under three heads as exhibited in the Statements appended, and to communicate his instructions thereon in the order in which they are arranged.

7. These allowances are sanctioned as permanent grants

grants for the support of religious Institutions, and will be continued without interference, but subject to such check as similar payments in other Districts receive in the Audit Office.

8. The annual allowance of Rupees 3-14-" to the Mool Kuttum has been included under the above head, as this appears to be an ancient place of sepulture for a class of religious devotees, and it would not be proper to discontinue eventually a payment so long made for the reasons assigned by the late Agent in para 6 of his letter, dated 6th. August 1847.

9. The allowances comprised under this head are grants for the performance of religious rites and ceremonies and amount to Rupees 1,545-2-7 per annum, the greater portion of which is for the expences of lighting and keeping in repair and making annual offerings at the tombs of persons

Statement

persons of note or of reputed sanctity.
As the Government have on several
occasions declared that grants like
these are not of a character that should
be renewed in perpetuity, the Governor
in Council is unwilling that any
pledge should now be given for the
continuance of the allowances to the
descendants of the present grantees
as recommended by the Board
in some cases, and is of opinion
that the preferable course would
be that suggested by them in regard
to No. 12 the first item in this State-
ment, by which a uniform mode of
procedure would apply to all those
cases that are proposed to be trans-
ferred to the Yeomiah List. He ac-
cordingly directs that the Agent be
instructed to report each lapse for
orders stating at the same time
whether the Tombs and other Shrines
are kept in decent repair, whether
the prescribed service is kept up,
and whether any importance is at-
tached to its observance by the
community

community interested in it, and also
the condition of the family of the last
incumbent.

10. The Board will require
the Agent to furnish for the guid-
ance of the Audit Office a State-
ment similar in form to No. 2,
supplying the omissions noted
in it of the means of the present
incumbents, and the Civil Auditor
will be instructed not to admit
payments, on the occurrence of
lapses without the authority of Gov-
ernment for the renewal of the
allowance.

11. The allowances No. 40 to
46 have been entered under the head
of "Services, Yeomiahs," as with one
exception, the ceremonies for
which they provide appear to have
especial reference to the deceased
Members of the late Nawab's
family, and the Government would
not therefore wish to interfere
with those observances at present,
superintended as they are by

These allowances amounting to Rupees 646-3-10 per annum are sanctioned as life grants, as most of them are of recent date or were originally conferred for subsistence or for purposes for which the Community interested should properly provide and not the State. Under this head have also been included the Grants Nos. 21 and 23, both of which appear to be of recent date. A revised Statement of these allowances will be furnished by the Agent for transmission to the Audit Office.

From the Collector of Masulipatam

Sir,

Para 1. With reference to the concluding Para of an Extract from the Board's Proceedings dated the 13th November last; I have the honor to state that I have agreeably to the Board's desire given my best consideration to the papers therein alluded to viz Pl, the report by the Head Assistant Collector of Guntoor upon the subject of the boundary line between the Guntoor and Masulipatam Districts addressed to the Board under date the 9th October last; and his explanatory letter of the 24th of the following month also addressed to the Board.

2. Mr. Nevill has I think clearly shewn the feasibility of tracing out the boundary line between the two Zillahs, as laid down at the time of the original survey in 1819, and if this line were distinctly marked out

6640 Fort St. George, 14th May 1849.

I have no doubt that the adjustment of many disputes between Villages, where the extent of land claimed by either party is not very considerable would be much facilitated, but I conceive that it would be hardly fair, and it certainly would not be generally satisfactory to the Ryots to apply the data obtained by this second survey to the determining of Village boundaries, in the manner, and in the cases proposed by Mr. Nevill.

3. In Para 8 of Mr. Nevill's letter of the 24th November last he mentions two classes of cases, in which he proposes that the boundary of the Zillahs as ascertained by survey should be disregarded and instead thereof the boundaries between the Villages should be recognized as dividing the Zillahs also. In these cases therefore, if the plan suggested be approved, it would seem unnecessary to proceed to retrace the old survey lines. "In the remaining cases" which appear to me to differ from the rest merely in the circumstances of their being undecided ones,

Fort St. George, 14th May 1849.

ones, it is proposed that the survey boundary should be adopted. Now altho', as I have before observed, there appears little reason to doubt the possibility of tracing out the old boundary line between the two districts, yet a glance at the map will show that the lands on either side of this line is by no means the same, either in extent, or figure, that existed at the time when the line was first traced out. It follows therefore that to make the Village boundaries in disputed cases hitherto unadjusted dependant on the line between the Zillahs now to be retraced by a fresh Survey would be in many cases to apportion to one Village more, and to another less than belonged to it at the time when this line formed the boundary both of the Villages and of the Zillahs. I can see no reason why these unadjusted disputes between Villages should, merely because they are unadjusted, be settled by such arbitrary data as will be afforded by the survey boundary between the Zillahs,

Fort St. George, 14th May 1849.

or why they should not be settled by means similar to those which have been adopted in the cases already disposed of, and the boundaries thus obtained be considered as it is proposed to do in the last mentioned cases, the boundaries of the two Zillahs also.

4. The plan and sketches which were forwarded to me with the Board's Proceedings under acknowledgement are returned herewith as requested.

is quite unable to furnish the information required by Mr. Newill and the very limited Establishment retained for the duties of the late Deputy Surveyor General's Office are merely for keeping the Plains in deposit in a state of preservation by receiving from time to time such as become destroyed from age—

The Condapelly survey was executed under the immediate orders of the Surveyor General of India, and I have not the least doubt on a reference to that Officer every information required by Mr. Newill will be afforded to him—

To The Chief Secretary to Government.

Sir,

I am directed by the Board of Revenue to forwaard for the orders of the Right Honorable the Governor in Council the accompanying letter dated the 10th October from the Collector of Guntoor submitting a Report from his Head Assistant Collector Mr. Newill, relative to the progress made in laying down the boundary line between the Guntoor and Masulipatam Districts along the course of the Kistnah, and the principle by which he proposes to be guided in the conduct of the inquiry— I have also to forward the subsequent correspondence upon the same subject which has passed between this Office, the Collectors of Guntoor and of Masulipatam, and the Chief Engineer—

From Chief Engineer 31st January in Cons. 14th May 1849.

To

Fort St. George. 14th May 1849.

2. From his Report it will be perceived that Mr. Newill having been joined by an Assistant Surveyor from the 1st Division on the 8th June last, commenced his operations from Seetanagaram and Bezwarah down the River, and was enabled to visit many of the Kistnah Islands between that point and Holloor, a distance of about 28 Miles down the stream, before the freshes put a stop for a time to his further proceedings. He has submitted a sketch of his survey as far as it had then advanced which tho' not complete will, it is hoped, be sufficient to convey some idea of the present state of things, as also to illustrate his views regarding the principle upon which the Survey should be conducted.

3. In the Extract Minutes of Consultation 28th March 1848, the Government suggested certain geneal rules for the guidance of the Survey Officer, of which the chief were that the partition of

In Cons 6th April 1848.

one Island between the two Districts should as far as possible be avoided, and that all Islands below a certain point should be attached to one, and all above it to the other Province. In Paras 5 to 11 of his letter Mr. Newill has entered into details with a view to shew that the adoption of these principles would not be attended with the results expected by Government, that in many instances it would be productive of inconvenience both to Government and to individuals; that it would fail to secure a permanent line of boundary, and that at best it could only serve to determine the question of Jurisdiction, leaving all points affecting proprietary right undecided. Under these circumstances, the Head Assistant Collector has been induced to propose as the basis of his proceedings the boundary line between the Guntoor and Masulipatam Districts laid down at the time of the survey of the Guntoor District which was made by the Officers of the Survey

Department.

6647. Fort St George, 14th May 1849.

Department in the years 1815-19. a work which there seems reason to believe was conducted with care and accuracy. In his report and in his subsequent letter of 24th November in explanation of it, he has, the Board think, shown satisfactorily that this boundary line can without difficulty be retraced. He has recommended that it be renewed accordingly and be adopted as the foundation of the settlement of the existing disputes, and generally as the frontier line of the two Districts. It's application will however be subject to exception in two cases.

First. In cases where the boundary is undisputed or where a long undisturbed possession has existed up to a very recent period, this boundary is to be confirmed altho' it may differ from the boundary in the former Survey.

Secondly. In cases when the boundary has subsequently to the survey been satisfactorily settled by competent authority, and the same been recorded so as to admit of

it's

Enclosure from Guntoor 25th November 1848 In Cons: 8th January 1849.

6648. Fort St George, 14th May 1849.

it's present application, this latter settlement is to be preferred to the survey line.

Besides retracing the boundary line as laid down at the Survey, it will however further be desirable to take measures for fixing and recording it in such a manner that it may be readily ascertained at any time even by the Villagers themselves. For this purpose it is suggested that points be taken up on the Northern and Southern boundaries of the Villages upon each side of the Kistna, either upon the bank or at such a distance from the bank as to prevent their being washed away, and when natural objects are wanting, that blocks of masonry one or two as may be required be constructed at each point. The distances from these points to the boundary line along the river, and the direction in which those distances should be measured, will then be duly recorded, and the river boundary line may at any time be traced,

simply

simply by carrying out measurements from the Northern and Southern Village points into the bed of the river in the direction and for the distance recorded and by connecting the points at which these measurements terminate. The more fully to enable the Villagers to do this it is however proposed to furnish each Village with a sketch in Telugoo in a simple form shewing the course of the river boundary line, and its length with the distance and angular direction of its extremities from the several Village points.

5. The Board have referred Mr. Newill's Plan for the opinion of the Collector of Masulipatam. From that Officer's reply it will be seen that although he deems the feasibility of tracing out the original boundary line to have been clearly established and thinks that were that line marked out the adjustment of many disputes between Villages where the extent of land claimed

by either party is not very considerable would be much facilitated. We yet question the practicability of carrying out that principle where the extent of land under dispute is large and when the extent and configuration of the land on either side of the survey boundary have undergone great changes since the survey was made.

6. The Board of Revenue do not consider that all cases of boundary disputes between the Masulipatam and Guntoor ryots will admit of adjustment by the application of the survey boundary line, more especially when the extent of land on either side of that boundary has undergone great changes since 1819. It however appears to them that the principle itself is equitable and that it should be acted upon as far as possible, those cases wherein its adoption seems open to objection, and may be opposed by the Villagers upon reasonable grounds being left to be adjusted upon their own Merits. They would therefore beg to recommend that Mr. Newill be

directed

directed to proceed with the renewal of the survey boundary lines and to make it the basis of the settlement of the existing disputes wherein such course be feasible, laying down points upon the river banks and preparing Village Maps as suggested in his report. where the adoption of the old boundary line would not ensure a satisfactory adjustment. the Head Assistant Collector must endeavour to effect some other arrangement the details of which he should communicate to the Board. The Board concur with Mr. Newill that in the two classes of cases which he has mentioned in Para 8 of his letter of 24th November last it will not be desirable to disturb the existing, in favor of the survey boundary line, but both in these cases as also

in those above adverted to wherein a fresh line is to be laid down the line should be carefully traced out, and the same measures employed for fixing and recording it by means of points and Village Maps as are to be resorted to in the case of the survey lines.

7. From the correspondence herewith submitted it will be seen that Mr. Newill has had occasion to solicit information upon certain points connected both with the Guntoor and Masulipatam surveys as also with the Condapilly survey. The Board have referred to the Chief Engineer upon the subject but they

they learn from him that the required explanation cannot be supplied from his Office. It seems however that the Cadastral survey was executed under the immediate orders of the Surveyor General of India and that there is reason to believe that the information required regarding this work at least, may be obtained by application to that Officer. The Board would therefore beg to request that a communication may be made to the Surveyor General upon the subject. it is not improbable that the information solicited by the Head Assistant Collector relative to the other survey may also be supplied from the same source.

Sir,

From the Collector of Guntoor- Para 1- I have the honor to report on the

Reporting on the accompanying Petitions Nos 1321. and 1736 from certain Cuttoobady Enamdars of Woopatoor as requested by the Board's Endorsement

No 1321 of 1848

Petitions noted in the Margin from certain Cuttoobady Enamdars of Woopatoor of the late Suttenapilly Estate. as required by the Board's endorsement-

2- The subject of the Cuttoobady Enams in the Guntoor Zemindary Villages was discussed in my letter of the 2d October 1847, answered on the 20th January 1848- The petitioners' lands were among those, which as stated in Para 5 of my letter, had been previously resumed by me in consideration of the non-performance of service, and as I then thought of their recent origin- I find however that the Enams newly granted by the Suttenapilly Zemindar in Woopatoor, as noticed by the Commissioner did not include these, and if the Board are of opinion that Petitioners should

have the benefit of the instructions contained in Para: 17 of their letter of the 3d April 1848, their petition must be complied with.-

3. They were in the enjoyment of rent free land as follows-

	Cootchuls
3. Naiks each 1 Cootchul short measure-	3-
20. Peons. at 1/2 each	10-
Total	13.-

equal to about 6 11/16 Cootchul of the Village Sirca measure, assessable at about 380 Rupees.

4. The Board in their orders of the 20th January not having noticed specially the case of Enams already resumed, no steps were taken regarding them.

5. The above explanation is also applicable to the accompanying petition No 2272 of 1848 from the Cuttoobadydars of Attata, except that they positively refused to perform any service, though they now profess their willingness to do so. Should the Board direct the restoration of the Enams to the Petitioners, in these two cases I conclude the assessm

which may have been levied, since their resumption, should be paid to the petitioners.-

Proceedings thereon.- (14-15)

The Enams to which the Petitions above reported on have reference, are stated to have been resumed by the Collector in consideration of the non performance of service, and, as it was at the time thought of their recent origin.- This last supposition seems however to have been erroneous.- as these Enams are not included among those noticed by the Commissioner as having been newly granted by the Suttanapilly Zemindar.- and there appears to be no reason why these Enams should be attached on default of service more than many others for which no service is rendered.- Under all these circumstances the Board are of opinion that these Enams together with any

assessment

Assessment which may have been levied upon them since their resumption should be given up to the Petitioners, to be held by them pending

Petitioner is referred to the Collector of Guntoor to whom instructions have been sent on the subject of this Petition.

× No. 36

Fort St. George 14th. May 1849.

Sanction of Government dated 10th. September 1813, conferred on Bagoondaicoolou Naidoo Poligar of Ghuttoo, in the District of Cuddapah, on the resumption of his Pollium, consisting of 11. Villages, yielding, at that period, a revenue of Pagodas 6649-42-62; and that on his demise in November 1827, his pension was, under the authority of Government dated 14th. May 1830 divided into four equal shares of Rupees 1458-5-4 one of which was assigned to each of the four sons left by the deceased by four different wives.

In Cons 20th May 1830.

3. Venkatappa Naidoo one of the Sons of the Poligar, died in June 1839; and his share of the allowance was continued in various proportions, to his family under the ordeal of the Supreme Government communicated in the Extract from the Minutes of Consultation bearing date 27th December 1839.

In Cons 23. January 1840.

4. Rammachummah, wife of the Original Grantee and mother of Venkatappa Naidoo

Fort St. George 14th. May 1849.

Chl a P

Naidoo was in receipt of 186-1-10 of her Sons allowance. She died on the 14th. July 1848. and the Collector proposes the continuance of her stipend, in equal proportions, to the remaining five recipients of her son's pension, Vizt. his 3 widows Venkatamah, Caderammah, and Thistnummah daughter Venkatamah and Sister in law Seetamah and Sister in law Seetamah The Board of Revenue see no reason why the share enjoyed by the deceased should not lapse, the other members of the family being sufficiently well provided for.

From Coll. 31. January In Cons 12th. March 1846 To Govt 12th March From Do. 3d. In Cons 16th. April.

5. The Collector further reports that on the demise of Ramappa Naidoo, another son of the Poligar Ragoonaicoolou Chl a P his allowance, Vizt. 1458-5-4, was, as in the former case, continued under the sanction of Government, dated 3d. April 1846, in equal proportions, to his four sons Bungaroo Naidoo Narasimha Naidoo, Woluk Naidoo and Ragoocoolou Naidoo. To the latter, an additional Sum of Company's Rupees 168 per Annum was allowed for the support of his mother and Sister so long as they lived with him.

Bungaroo

6- Bungaroo Naidoo, one of the sons of the deceased Ramappa Naidoo, who had been in the enjoyment of 322-10 per Annum of his father's allowance died on the 20th August 1848, and the Collector recommends the continuance of a moiety of the lapsed allowance, from the above date, to Atchummah, the widow of the deceased, who is reported to have no other means of subsistence.

7- The Board beg to support the Collector's recommendation with the understanding that the share in the lapsed allowance so continued to Atchummah is to cease with her life.

From the Agent to the Govt. at Hurnool,
Sir,

I have the honor to reply to the order by your Board appended to the Petition noted marginally 8th June last.

Reporting on the Petition No. 2224 of 1848 presented by Syed Colnee Broom, Son of the late Syed Mahomed Buxoo inhabitant of Hurnool.

Petition No. 2224 of 1848
"The Commissioner is "required to report on this "case with reference to "his Endorsement of the "8th June last."

Bhodoor Khan
Rummust Khan
Alif Khan
Meenwar Khan
Ghoolam Russool Khan

2- The Petitioners grand father is believed to have held a Jagheer in the days of Bahadoor Khan, a former Nawab of Hurnool, from whom the late Ex. Nawab was the fourth in descent. It met with the fate of all such possessions in this province, was changed, changed again and finally resumed. As a sort of compensation, Alif Khan used, I am informed, to allow the Petitioners or his father, a Taharir of two Rupees per Annum payable on and in each Village in Hurnool. This amount was reduced by Alif Khan's successor to one Rupee, which sum the Petitioner appears to have continued to injoy during that reign and later also during the reign of the late Nawab. About two years prior to the resumption of Hurnool the late Nawab directed the entire cessation and collection on account of the state, of all sums paid as Taharir, bestowing of the amount thus realized on those who had previously been drawing the allowance, only such small

small sums as he thought fit occasionally to grant. The Petitioner was one of the many who suffered by the arrangement and at the time of the annexation of Kurnool. his name was not found in the Pathan Dufters as a party then in receipt of a stipend from the Nawab's Government.

3. It is the renewal in his favor of the former allowance of one Rupee on each Village in Kurnool which Petitioner now seeks to secure.

4. I do not consider him entitled to such an indulgence. Jagheers were given and resumed at the will of the Pathan rulers of Kurnool and the money disbursements made to Petitioner as Taharir by Alif Khan and his two Successors must, I apprehend, be regarded as a personal Charitable allowance which either of them was just as competent to withhold

withhold altogether as originally to grant. It carried no duty of any kind with it and was in no wise connected with the religious institutions of the Country. It had simply the effect of enroling Petitioner among the crowd of idlers who used to hang about the late Nawabs palaces and who were fed at the expense of those.

From A. Freese Esqre
Coll. of Chungleput
Affording the information called for in the Proceedings of the Board of Revenue dated 24th August 1848. regarding the taxation of improvements effected at the expense of the Ryots-

Para 1

A.B.&C.

Sir,

Adverting to Extract from Proceedings of the Board of Revenue under date the 24th August last with accompaniments, regarding the taxation of improvements effected at the expense of the Ryots, I have the honor to submit three Statements shewing the number and description of wells constructed by them since the Survey, or during a period of about 20 years at their own Cost for the Conversion of dry into wet or Garden land- In these Accounts is exhibited the Cost of the wells as stated by the owners, the extent of land watered from them, the original Assessment with the Teerwa Jastee or additional Assessment based on the Assessment borne by the Corresponding classes of wet or garden lands of the Village, as well as the period within which the Original outlay might

might be recovered were the Extra Assess-
=ment remitted - I do not conceive, however
that any great dependence can be placed
upon the stated cost of a great number of
these works, as no regular accounts have
been kept by the proprietors of the wells -
they therefore do not furnish any suffi-
=cient data on which general rules
could be founded; and it should also be
brought to notice that in most of the
instances where large sums have been
expended, the cost has been incurred
more from a deficiency in the supply
of water for the Consumption of the Village
than with a view to irrigation or the
raising of garden and wet produce
on dry land; and this would in-
vitiate any averages taken from the
Accounts furnished -

2 Many parts of this District
afford great facilities for well irrigation
from water being found at short distance
from the surface; and the very small
number of New wells constructed during
the period* embraced in the Statements
may, I think be fairly traced to the in-
=creased Assessment having been at
once

* in fact Every Year

once levied on lands watered from them,
and to the want of Capital, and altho
due care must be taken in adopting a
different system, to prevent the cultivation
of the highly assessed lands under the old
wells being relinquished thro' the superior
advantages held out to those constructing
new ones, it appears to me that a
middle course may be adopted, by which
enterprise may be encouraged, and the
State and the ryots be mutually
benefited -

3 From the enquiries I have
made in many quarters, and from the
Accounts submitted, I gather that the
average Cost of a well substantially con-
=structed with brick and of about nine
feet diameter is 100 Rupees; and as this
is an average size, I will adopt it as the
basis of my proposals - The quantity of
land that may be cultivated by means
of such a well is 2½ Cawnies, and Calcu-
=lating the average Teerwa and Dry
land at 1 - 8 Cawny and the average
Teerwa Jastee or additional Assessment
at 4 Rupees per Cawney, the entire cost
of such a well would be paid by a
remission

remission of Extra Assessment for a period of ten years; and the ryot would also enjoy during that term the additional profit from the produce raised, but if that period for remission were made the general rule, large portions of old well cultivation would be abandoned, and there would also be the objection of there being no fund or remission to meet the contingency of repairs. If, however, that point also is to be taken into consideration, it is but fair that the proprietors of lands under old wells should benefit by the rules to be promulgated; and some distinction should likewise be made between wells substantially built up and those merely excavated; and under these impressions, I would suggest the following as the general guide to be adopted in forming the proposed rules

1st. That in all cases where dry lands may be brought under wet, or garden cultivation by means of wells newly excavated, and substantially built up by ryots at their own expense, no additional Assessment shall be levied for seven years; but that from that per-

an additional assessment equivalent to the assessment on similar lands in the same Village, minus a remission of 15 per Cent to meet the expenses of future repairs, be levied. The same remission, I would also propose to allow to the proprietors of old wells now in good order who may engage to keep them in repair, and to maintain the Cultivation under them. In cases of old wells that have fallen into disrepair, I would propose that corresponding remissions, according to the estimated cost of putting them in order, be granted with similar deductions for future Contingencies. These general rules would, I think, not only cause the extension of such cultivation, but would prevent the abandonment of the lands under old wells. In cases, however, where the lands are watered from wells not built up substantially, the remissions should, I think be restricted to three or five years, without the subsequent deductions, until the well might be substantially constructed.

4. As the extension of cultivation of the description above alluded to, not only adds materially to the Comforts of

of the ryots, and the wealth of the Country, but is a great stand by in seasons of drought, and as from the numerous applications I have from time to time received for advances for the purpose of Constructing and rebuilding wells, I am satisfied the advancing of sums without interest to ryots of such purposes would be attended with advantage I would suggest that Authority be given to advance each year, during the next five years, sums not exceeding 1000 Pags. per Annum to persons desirous to rebuild old or Construct new wells. These Advances should be repayable by 5 Annual instalments; and should be given only in cases where the parties could shew that they had the means of meeting their engagements, and were able to give satisfactory Security for the Money

Sir,

Fort St. George.

From the Collector of North Arcot

Reports on the accompanying four Petitions charging the Tahsildar of Palmanair with extortion; and recommends that Board's orders upon them should be modified.-

The four Petitions Specified in the Margin bear the Board's indorsement directing me to investigate and dispose of them: but I beg to submit a few particulars connected with them for the Board's consideration.

2. In the latter part of January last, several Petitions were presented to me separately but all on one day by different parties and the present Petitioners I believe among them charging the Tahsildar of Palmanair with extorting large sums of money from the Petitioners. I put a number of questions to the parties and as I felt persuaded from their replies that the charges were false and fabricated I declined to

Fort St. George 14th May 1849

receive the Petitions. I understood afterwards that several other persons were in attendance with petitions ready prepared.-

3. On this rejection the petitioners went to the Sessions Court and seven petitions were there presented Viz. by the present Petitioners and three others, a Police complexion being given to the charges so as to bring them within the jurisdiction of the Court. I was required by the Court to explain why I had declined to receive the complaints presented to me, and that having been done the Petitions were I believe rejected by the Court. The present Petitions seem to have been sent off to the Board about the same time that those were filed in the Court.-

4. The foregoing circumstances and the fact that all the present Petitions are written by the same hand shew decidedly that the charges are made in concert.

It will be observed that all four are from a few Villages of the Vencatagherecottah Talook

Fort St. George 14th May 1849

Talooks: and I had been but a short time in charge of this district before I was taught that it was necessary to receive very cautiously any Complaints coming from that quarter. Several of the Petitioners also have already come under my notice in various ways in a very unfavorable point of view and two of them (326 and 329) have recently been dismissed from the Offices of Curnum and Monegar which they respectively held for malversation, oppression and fraud. The very circumstances stated in the Petitions respectively as the causes of the bribes being given are absurd and incredible in such view; and I may add that I know enough of the position and character of the chief of complaining parties to state positively that they are not the least likely to be intimidated as they assert they were into giving a bribe; they are far more likely to act the intimidator or bully themselves.

5. These are the considerations which led me to reject the petitions at first

Fort St. George 14th May 1849.

and which induce me now to solicit the Board to modify their orders upon them. It is not at all my practice to close my ears to complaints against either my Tahsildars or any other of the Subordinates of my establishment. I consider it quite necessary to be always ready to receive a consistent and probable charge against any of them. But I consider it both competent to me, and incumbent on me, to discriminate, to protect public Officers from being harassed by even the investigation of obviously malicious and fabricated Charges, and to abstain from putting on their defence persons holding the important and responsible Office of Tahsildar in particular, for every trivial or false complaint that may be made. A different course would place these Officers at the mercy of all the ill disposed and unprincipled people in their talooks, and give impunity to the latter, as has been sometimes the case in this district in former times, in defrauding the Government and

Fort St. George. 14th May 1849.

and oppressing their neighbours. I return the four Petitions under notice, and I venture to request that whatever orders the Board may think proper to pass upon them, they may not be such as to give encouragement to the Petitioners, or to require to make these Charges the subject of enquiry, such an order would in my opinion have a very prejudicial effect on the interests of the public service.

Proceedings thereon.

31-32

The Board of Revenue consider the explanation submitted in the above letter to be perfectly satisfactory and they resolve to pass the following Endorsement upon Petitions Nos. 326-327-328 and 329 of 1849.

From the information furnished by the Collector of North Arcot, the Board of Revenue learn that the matter to which this Petition relates has already received

From the Collector of North Arcot.—

Sir,

Para 1. I have had the honor to receive Petition No. 322 of 1849 bearing the Board's Endorsement directing me to report upon it. This Petition is from Perreal Saunden late Monigar of Tarapaudy in Vellore Talook, who Complains that he was unjustly fined 50 Rupees and dismissed from his Office.

Petitioner was one of
2. the Monigars of Tarapaudy, as he states; in examining into the heavy balances outstanding in that Village near the close of Fasly 1257, the Tahsildar found by the Village accounts that Rs 150 a/ 14 P had been called by the Petitioner

3. The foregoing Statement exhibits the increase and decrease in the number of each class of Surruff Villages, resulting from the settlement made for the fusly under review, as compared with that of the preceding fusly 1255 1256/147.

4. In the Olungoo rents an increase of 4 Villages is shewn, resulting from the accession of 7 from, and the reversion of 3 to — amany.

5. In the number of Board rented Villages, a decrease is shown of 3, by reason of 6 being carried to amany, and 3 brought from the latter head, while the number of Villages "Olungoo rented not affected by Price has received an addition of 1 Village and 1 garden, 2 Villages and 1 garden, being received into this class from, and one Village only reverting to amany.—

6. With respect to Villages strictly amany, wherein a division of produce is resorted to, a decrease is exhibited in the statement, of 2 Villages and 1 garden, from the reversion of 3 Villages from Olungoo, 6 from the Board's rents, and one from —

Fort St. George 14th. May 1849.

Cadarumbum and the accession of 7 Villages to the Olungoo, and 3 to the Board's rent, besides 2 Villages and one garden carried to the head of Cadarumbum.—

7. Pondjey and Bagayet lands in the Villages of Tranquebar, which were enjoyed rent free up to the last fusly, have been this year assessed at the rates respectively of 4, and 10 Rupees per Daily. The assessment of these lands is alluded to in the report of the Commissioners on Tranquebar affairs, and is not entirely a novel proceeding, as I find in the years 1819 and 1827 a tax was put on the Pondjey and Bagayet by the Danish authorities. The extent of land thus brought to account is small, and considering the light assessment on the Nunjey lands, this further tax cannot justly be complained of.

8. An ordinary Pondjey tax amounting to Rupees 22-3-7 has been substituted for the quit rent of 105 Rupees, hitherto demandable on certain land in the Village of Manttoor, granted for the erection of Indigo works; the orders of the Board authorizing this change being dated 10th January 1848.—

9. The foregoing Statement relating to the extent of cultivation, exhibits a small falling off (35 Velies) in the quantity of Nunjey land as compared with last year, and a considerable increase in Poonjey cultivation. The excessive rains of the North East Monsoons before alluded to, having inundated the low lands to so late a period, many were of necessity left waste, tho' the energy of the local officers prevented the abandonment of Lands, to a much larger extent, every assistance and encouragement having been given the ryot to run the chance of a crop tho' the usual sowing time had been somewhat deferred.

10. The marginal abstract Statement shews a decrease in the outturn of Amany Villages for 1257 of 7 1/2 % below that of the preceding year the over abundant supply of local rain falling, at a time when the Car crops were nearly ready for cutting, having

having materially destroyed the produce.

11. Prices during the fusly under review as exhibited in the margin have fallen considerably below those of the previous year, in consequence of a reduced demand for the supply of the Columbo market, as well as those of the neighbouring Districts, who draw largely from Tanjore only in seasons of drought and distress. The demand for grain in Columbo has been very much reduced in consequence of the unsettled state of Commercial affairs the reduction of the establishments, and the supply of paddy last year exported, still remaining unsold. Political disturbances also have tended still further to unsettle the trade, and Tanjore depending almost entirely on Columbo for the consumption of its surplus produce, has suffered in proportion to the decreased demand.

12. In consequence of inundation, remission to a considerable amount has been absolutely called for and altho' compared with the amount granted last year, it appears large, a comparison with the 4 years previous to 56/46/47. gives the amount remitted in 57/47/48 as much below the average of former years.—

In granting remission on damaged crops, every care was taken to prevent undue indulgence being given, and, in many instances where remission according to the actual condition of the crops was justly demandable the ryot cut them, rather than run the risk of further loss while waiting the scrutiny and deferred cutting under the Circar. My Letter of 7th February will have prepared the Board for considerable remission in Tranquebar, tho' the amount actually remitted is less than I had expected from the condition to which the lands were reduced by the floods.

Of the gross decrease in the amount of Land revenue as compared with that of last year, Rupees 292391 has been caused by the deterioration of the prices with a proportionate decrease of 11351 in the amount of Canil Fees,— the remainder 18527 having been caused by decrease in the annany produce, and cultivation, as before alluded to. From the gross decrease, deducting an increase of 10319, the net decrease stands at Rupees 311950, the Peiz of the year being as per actual Collections Rupees 38,90,884, which is more favorable than that of Fusliee 1240 at 46 & 53, the latter being 36,27,099 tho' the selling prices were higher by 8½ per % than in the year under report.

14. The total Peiz derived from all sources of Revenue for fusly $\frac{1257}{1847/48}$ is as per Statement annexed Rupees 48,28,637. an amount falling short of that for $\frac{1256}{1846/47}$ by Rupees 32,103.—

15 Collections on account of Land Revenue during the fusly under report- ure to the amount of Rupees 38,90,884, and of the Remainder, Rupees 16,421 have been since realized, and the balance left on the 30th September last is Rupees 8,738, the greater portion of which will be collected.—

16. Collections of arrears for fusly $\frac{1256}{1845/46}$ during 1257 have been Rupees 15,963 which together with 19,702 realized on account of the old balances, gives a total Collection in $\frac{1257}{1847/48}$ on account of arrears Revenue, of Rupees 35,665.—

17. Advances made for Tuccavy for 1257 were Rupees 20,200, of these Rupees 19,088 were recovered within the fusly, and the Remainder 574 will be collected in due course.—

18 Three different Statements Nos. 9 10 and 11 are appended, the one shewing the annual Collections from fusly 1246

and the yearly Demand Collection and Balance from 1232, and the third the extent of Land and Peiz of the Field assessed Villages for 14 years from 1203.—

19 In reference to Para 12 of the Proceedings of the Board on the Settlement of fusly $\frac{1256}{1845/46}$ dated the 28th February last, I have annexed a Memorandum to this Para, shewing the rates of Coodewarum and the way in which it is calculated both in the Talook of Shunnargoody and Trangambar. In the former a higher rate of Warum is allowed to the Ryots, the Talook consisting of many Cadaram- bum Villages in which, as a general rule a higher rate of Warum is allowed than that given on Neerambum Lands, as is shewn below. This higher rate of Warum is given in consequence of the Lands being under uncertain irrigation and liable to great variation in their producting powers.—

Coody Warum in Cadarambum Villages	Coody Warum in Neerambum Villages
Under Awany 50	45.
Under Rents 55	50.

The

6716 Dated St. George 11th May 1819

20- The rates of Warum in the Tranquebar Talook are those originally taken by the Danes, and are much lighter than those fixed by the British Government on their lands. The Danish ryots are generally very trifling land-holders, and the produce of their small patches unless they enjoyed increased Warum would be insufficient for their maintenance. The land being very poor, some of it running down near to the sea shore and very inefficiently irrigated, this must have been the reason for the light and varying Warum imposed by the Danes, whose rule was in general very lenient tow ards their subjects.
