V Statement of land cultivated with Sugar Cane

Para 1. The duty of submitting the usual report on the Revenue of the Sub Division for Fusly 1257 with the requisite explanatory accounts having devolved upon me, I do myself the honor of forwarding it. I trust I may be permitted to express my regret that it has not fallen to the province of the Gentleman, who was for so long a time in Charge of the Division and whom I only relieved when half the settlement was completed to prepare this report. His acquaintance with the details comprised in it, would I feel assured, have enabled him to do so with credit to himself and more satisfaction to the Government than is likely to result from my brief experience in these matters.

2. It is however a source of some gratification that I am called upon to report on one of the most salubrious and favorable seasons that the District has for many years experienced, your own perfect knowledge of the Sub Division

Division will moreover enable you to supply any material points in which the Report may be deficient.

3. The Division has providentially been altogether free from Cholera nor has any epidemic visited it, causing the rate of mortality to exceed the average, which is incidental to the classes of people constituting the Population.

4. The Settlement was commenced in the Poloor talooke on the 12 February & Completed in the Arcot talooke on the 23rd June. The total number of Puttahs was 33,731, out of these 33,574 were distributed, the remaining 157 were refused upon various grounds, none of any great importance and were left with the different Shanbogs to be given when the disputes connected with them had been decided.

5. I have observed that the Fusly under report was one of the most favourable ones known in the Division for many years although, in some particular Items of Cultivation there is a decrease when compared with other Fuslies, yet upon the whole it is surpassed by none since Fusly 1250.

6. The fall of rain in the months

months of May and June was much less than that in the corresponding months of Fusly 1256, and although in the Months of July and August the same quantity fell as in the preceding year, yet the Punjah Cultivation was, when compared with it, somewhat diminished. From the copious fall of rain in the months of September and October the Sumbah Cultivation was greatly extended. In November and December also, much rain having fallen, the Navaray Cultivation was conducted on a greater scale and was, from the abundance of water in the tanks, continued up to March the quantity required for this having however nearly exhausted the supply the Madungul Cultivation was only slightly in excess of Fusly 1256.

7. The Enclosure No. 1 is a comparative Statement of the Cultivation of all the Crops according to their classification. In the Poonjah Cultivation, the land laid out in Cudder Crops, was in the three talookes of Tirruttoor, Arcot and Poloor in excess of that in Fusly 1256, by Cawnies 3,517 $\frac{58}{64}$ or Rupees 9,003 — A. 13 — P. 3, but in the Wundiwash talooke was less by Cawnies 796 $\frac{7}{64}$ or Rupees 2,230 - A. 7 — P. 4. In the Cayee there was a decrease of Cawnies 1763 $\frac{2}{64}$ or Rupees 5,056 — A. 11 — P. 11. In Indigo there was also a decrease of Cawnies 1310 $\frac{52}{64}$ or

or Rupees 3,712 — 1 — 3. It will thus be seen that upon the aggregate of the four talooks there is a decrease in the cultivation of Poonjah lands to the extent of Cawnies 3869 $\frac{57}{64}$ or Seerwah Rupees 10,999 — 4 — 6, the total Cultivation being Cawnies 54,810 $\frac{35}{64}$ or Rupees 14,3825 — 7 — 0 Making a nett decrease under this head of 352 $\frac{3}{64}$ Cawnies or Rupees 1973-7-3

8. In the Cultivation of Crops on Punjah lands the want of sufficient rain in the months of May and June caused a decrease in Kar, in the talooks of Arcot and Wundiwash, when Compared with last Fusly of 854 $\frac{33}{64}$ Cawnies or Rupees 9,295 [illegible] and whilst in Tirouttoor though the land employed in this cultivation was in decrease yet owing to the portions cultivated bearing a high rate of assessment, there was an increase of Seerwah Rupees 2076-9-6; on the other hand though the land cultivated in Poloor was increased by Cawnies 13 $\frac{38}{64}$ the Seerwah was decreased by Rupees 1047 — Consequent on the land being of an inferior description, the nett decrease is 840 $\frac{29}{64}$ Cawnies or Rupees 8,316 — 15 — 7.

9. In the item of Sunnah, there is a large increase in all four Talooks as attributable

attributable to the plentiful supply of water, as amounting to Cawnies 3,740 $\frac{27}{64}$ or Rupees 40,802-7-2 more than last Fusly.

10. The Naveray in the Arcot talook exhibits a slight decrease of 90 $\frac{2}{64}$ Cawnies or Rupees 1,278-8-11, but in the other three talooks the cultivation was augmented to Cawnies 4536 $\frac{33}{64}$ or Rupees 44,187 — 10 — 2, Making a nett increase over last Fusly of Cawnies 4436 $\frac{31}{64}$ or Rupees 42,959 — 1 — 3.

11. In the Madungul there is a decrease in the talooks of Arcot & Poloor of Cawnies 58 $\frac{25}{64}$ or Rupees 704 — 13 — 0 consequent upon the scanty supply of water, as before stated. In the talook of Trivattoor there is however an increase of Cawnies 148 $\frac{32}{64}$ or Rupees 1,481 — 11 — 4, there was no cultivation of this description in on Wundiwash The nett increase in the item of Madungul over last Fusly is 90 $\frac{7}{64}$ Cawnies or Rupees 776 — 14 — 4 & the nett excess in the three items of Sunnah, Naveray, and Madungul is 8,267 $\frac{1}{64}$ Cawnies or Rupees 84,538 — 6 — 9.

12. The cultivation of the Sugar Cane continues to decrease in all four talooks and is less in this Fusly, than last, by Cawnies 120 $\frac{41}{64}$ or Rupees 1,355 — 3 — 7. nor is it likely that

that this description of cultivation will improve the very low rate at which the growers are now enabled to dispose of their produce, yielding them scarcely any remuneration for their labour. The number of Maunds of Sugar transmitted to Madras was 39,768, being less by Maunds 51,535 than the quantity sent last Fusly.

13. It will be observed that the cultivation in the Beetle and Plantain Gardens is also decreased, but this is ascribable to the severe weather at the close of last year, by which the greater part of these were destroyed and have not yet been replaced the nett decrease in these items including also Turmeric is 24 33/64 Cawnies or Rupees 296 — 6 — 5.

14. The entire Punjah Cultivation comprised 47,193 33/64 Cawnies, assessed at Rupees 4,69,080 — 10 — 3, giving an increase over last Fusly of 7,280 59/64 Cawnies or Fecunah Rupees 74,569 — 13 — 2.

To the same causes which operated in producing an excess in the Punjah Cultivation must be attributed the increase in this item.

16. The following Statement shews the quantity of land assessed as Fusle Zasty Viz.te 874 2/64 Cawnies or Rupees 4,284—2-2 and exhibiting a net increase over last year of 167 56/64 Cawnies or Rupees 1423—1—7. It will be observed that the principal increase is in one item and has arisen from the abundant supply of water.

The remission allowed for Shauvy consequent on the failure of water in the tanks of four small Villages was Rupees 31—2-9 A-P.

The total remission amounted to Rupees 32,323—0—9 A—P which is less than Fusly 1256 by Rupees 2097—14—0-

The remission granted upon Landers taken up agreeably to the Dittum accounts but left uncultivated was less by Rupees 19,981—14—0 P. than the preceding Fusly.

It will thus be seen that the total net remission allowed this Fusly falls short of that granted in last year by Rupees 17079—12—0 A. P.

Rupees-11—6—0 making, according to the particulars exhibited in the following Statement, the total amount collected this Fusly Rupees 34—2—10 A. P.

It will appear from the annexed Statement that the grain market has not been so favourable as one for the Ryots been as it was last Fusly, there being an average decrease in the Four talooks in the price of grain of Rupees 38-9-4 per Garce, but as the price is somewhat in excess of the commutation rate the Ryots cannot be considered to have experienced any loss and the community have benefitted.

36 of the 5th Instant enclosing an appeal Petition No 258 of 1849 from Vencatasoyen Curnum of Streerungarayapooram and directing me to furnish the Original proceedings held in his case and to afford information on the subject.

2. In obedience to these orders I have the honor to forward the proceedings as noted in the Margin, from which it will be seen that the Curnum was convicted of having knowingly and wilfully entered in the Puttah the names of certain Proprietors of land as if they were Vakeels. his object being to make it appear that they had not purchased the land from the

Proceedings thereon.-

The Board of Revenue are satisfied from the evidence laid before them that the defendant Venkataroyen was guilty of the charge brought against him. The plea put forward in his appeal Petition and defence, that he altered the names inserted in the Puttah by order of the Tahsildar is contradicted by that Officer himself and appears altogether improbable- as it has therefore been shewn that the Petitioner upon his own responsibility thought fit to insert the name of one party to the exclusive of those who had previously been named in the Puttah.
