" 17 Statement of Land Revenue and Extra Sources in Comparison with fusly 1256.—
" 18 Statement Comparative of Demand Collection and Balance of Land Revenue
" 19 Abstract Statement of Kully mun thee for Fusly 1257.—

2. The Ayen Settlement of the year including Peishush amounted to Rupees 18,59,279—1—6 exceeding that of Fusly 1256 by Rupees 166910—5—6 the average of 10 years by Rupees 115158—9—2 and that of Fusly 1251 which was previously the highest year on Record by Rupees 38,812—15—8.—

3. This favorable result was the consequence of a season peculiarly suited

suited to wet cultivation tho' not so propitious to that of Poonjah. In April there fell heavier rain than had been experienced for many years bringing down freshes in the Vigney and filling the Tanks. With this aid early Cultivation was carried on to a considerable extent part of which was carried to account in Fusly 1256 and a part which was reaped later in the year under report—In May there was also rain and much land was prepared for Poonjah—But in June July and August which is the chief season for that species of cultivation the rains failed. There was partial rain in September. In October and November the supply was large causing extensive cultivation of Nunjah which was so well brought to maturity by moderate showers in the succeeding months that while in the preceding year remission for withered Crops was granted to the amount of 76,839—5—9 no deduction whatever was required on that account in the year under review. The rains of the North East monsoon however were too heavy for the Poonjah standing Crops which received considerable injury. The Cotton Crop was informed was much discoloured.—

Cholera

10626 Fort St. George 18th July 1849.

4. Cholera of a mild description prevailed in the Town of Madura and more or less throughout the District during the months of November and December. Subsequently there was fever in many places and Cattle and Sheep suffered from a variety of diseases. The year however was not upon the whole very unhealthy.—

5. The Prices of Rice and grain in the year under review are shewn in the annexed Statement, and will be seen to have been lower than in Fusly 1256, but still higher than the average.—

6- On the whole the year was favorable both to the Government and to the Ryots of all the Talooks except perhaps those of the large Poonjah Talook of Thiroomungalum. The Kunjah Crops were generally good and these being extensively cultivated and the prices high, a corresponding profit must have been derived by the Cultivators- I have no reason to believe that the Thiroomungalom Ryots suffered considerably tho' the year could not have been profitable for them.

The

8. There was a decrease in the Cultivation of Poonjah to the extent of Cawns As Rs 14,541 — 4½ and 26,964 " 5 in assessment owing to the unfavorable nature of the season for Poonjah.—

Fusties	Extent		Assessment		
	Cawnies	as	Rs	a	p
1256	61,635	14/4	302223	3	10
1257	73,541	6/4	483135	7	7
Increase	11,905	8½	180912	3	7

9. The increase in Kunjah Cultivation was Cawns as 11,905 — 8½ only in land but 180912-3-9 in assessment.—

10. The reason of the apparent disproportion was the extensive Cultivation of two Crops owing to the unusual supply of water in April 1849. In Fusly 1256 the number of Cawnies in the Principal Division cultivated with two Crops was Cawns 4,915 — 10, and the assessment thereon for both Crops 43919—11—9 and referring to the account of Fusties 1253 1254 and 1255 I do not find the extent much larger, but in the present Fusly the number of Cawnies was no less than Cawns as 17,424 — 15¼ and the assessment 158054—13—3. The tax on the Second Crop being ½ of that on the first, the Revenue derived therefrom was

was 52,684—15—1 exceeding that obtained from the same source in Fusly 1256 by 38,945—6. In the Sub Division the profit from second Crops was enjoyed exclusively by the Ryots as the Survey assessment was a consolidated rate fixed with reference to the capability or otherwise of the land to bear a second Crop.—

11. I would here observe that the amount of Revenue derived from the Cultivation of a second crop is no where to be gathered from the accounts submitted to the Board according to the Forms received from them. Statement No 4 contains entries of two Crop land cultivated in the year under review to the extent of 623—2¼ but this is not land which bore a second Crop in that Fusly but in Fusly 1212 and altho it is now entered in account as two Crop land the assessment thereon is calculated for one Crop only and Fussul Jastee is exacted if a second Crop be raised. It is therefore in effect as is all the land in the Principal Division single

crop

crop land. In the Sub Division on the contrary the Columns in the detailed Statement No. 4 for two Crop land are empty, tho' there as respects the Revenue all the land is double Crop land since when two Crops are raised no extra assessment is exacted. I am not prepared to state whether this obscurity has arisen from the instructions received as to the preparation of the accounts or a misapprehension of them; but I shall be prepared to enter into the subject in a separate communication if the Board desire it, after the conclusion of the ensuing Summabundy. It appears to me that to make the accounts exhibit the information intended as regards this District several Columns which are now filled should be left vacant, and that the Teerwa Sastee should be distinguished from Fussul Sastee. In the Column 14 of Statement No. 3 which bears these two Headings combined is included with other Items the extra half assessment derived from the second Crop of rice in the Principal Division

The

12. The increase of 1,998-11-4 in Poonjah Garden belongs to the Sub Division and is a satisfactory proof of the steady progress of that part of the District in improvement.—

Rupees 656-10-13. The decrease in Kunjah Garden is owing to a large extent of land of this description situated in the water spread of the Kellayeor Tank of the Madacolum Talook being submerged by the unusually full supply of water.—

14. On the whole there was a decrease of 1476-7½ in the extent of land retained in the Settlement, but an augmentation of Revenue to the amount of 80,323—11—4 from the larger Cultivation of a second Crop and the higher rate of assessment of the land cultivated as compared with the preceding year.—

15. The Settlement includes 3,483-9- exacted for the land left waste for unsatisfactory reasons.

1,232-9-6 for the waste of Ryots who cultivated a 3d Crop on other land / a 3d Crop paying no tax whatever /—

1,079-9-4 for land left waste without due cause

718-14-3 for waste portion of Sturts—

452-7-11 for waste which the holders prevented other Ryots from occupying.

3183-9-.

16. In Fusly 1256 the amount collected on this account was 369-12-9 only.

17 I do not understand the Board to intend that a Ryot shall pay for all the land entered in his Cabooleyet whether cultivated or not. This will be entirely opposed to the immemorial practice of this District as well I believe as to that of several others. But it has been my care to explain to the Ryots that they are not at liberty to take up land to the exclusion of other Ryots and to leave it waste without good reason with the full confidence that it will as a matter of course be struck out of

the

the Settlement, and the taxation of waste in several instances in the present Fusly will have the effect of rendering the Cabooliat a more bonâ fide transaction than it had hitherto been

18. The remissions granted in Fusly 1257 are shewn in the subjoined Statement. They amount altogether to 79,300-2-4 falling short of those allowed in the preceding Fusly by the large sum of 82,401-11-5. The chief Items of decrease are Shower and Inundation. The absence of all remission under the former Head affords a proof of the favorable nature of the season. The amount granted under the latter in Fusly 1256 was required chiefly from the effects of the heavy rains of April 1847 on Crops raised in the bed of Tanks.

22. The Board will observe that progress has been made in the assessment of pasture land in the Pangherry Taloak, the Revenue from this Source being nearly 1/3 more than in the preceding Fusly. The same system will be introduced in the Tyempully and Tandi: =coulam Taloaks of the Sub Division in the current Fusly 1258 -

too late to correct any mistakes that may have been made in the Taluk accounts. As each person received his Puttah within a few hours of his arrival at the Cutcherry the journey thither from his Village was little felt. In the year now Current the Head Assistant and myself will spend the Cool weather in Circuit thro' the Chief Villages of the Principal Division to enable us to check the Jummabundy Accounts, the preparation of which will commence immediately afterwards.

28. There was an increase of 27 in the number of Hamlets, 16 in the Principal Division and 11 in the Sub Division. The Causes which lead to a Separation from the parent Village are by no means always the same. As remarked by the Sub Collector the desire of giving a name to a location, on the death of relations or Cattle or other misfortunes in the former place of residence will sometimes induce a change; but the chief object of the formation of a fresh Hamlet is to be near Cultivation, and more additions will be found in dry Talooks, where the extent of holdings is large in proportion to their value

value than in wet Talooks where the farms are more compact. The multiplication of Hamlets may generally be taken as regards dry Talooks as an index of permanent improvement. A considerable increase will be observed in the dry Talooks of Pungherry in which all the new Hamlets of the Principal Division are contained - It is agreeable to an English mind to observe an approach to something like the system of separate Farm houses instead of the compression of large numbers in close Villages and where, as in Pungherry Cattle constitute a considerable portion of the Ryots property, space and separation are absolutely necessary.

29. There is a large increase of Tanks and Wells, chiefly in the Sub Division, which is no doubt improving very much - The spirit of enterprize that exists in that part of the District and in Pungherry is remarkable except in Madacolum where the room for improvements is not great, the Ryots of the other Talooks of the Principal Division are not equally rich. Those of the large

I have released to the Renter all but two, from which the speedy realization of the Remainder of the Balances with interest is expected. With reference to former Correspondence regarding this Zemindary it may be useful to remark that the expression of a very decided opinion in more than one order of the Civil Courts, in favor of the Renter secured to me to render the Surrender of the Villages to him a proceeding as safe as it certainly is expedient and equitable.

Deducting the above balance belonging to the permanent settlement, the Remainder 818-6-10 is due on the Government lands and may be classed as follows.

Collections suspended temporarily on account of loss by fire ——— 122-15-1

Do pending enquiry into pleas for remission ——— 163-3-8

Recoverable by Distraints ——— 366-1-3

Due by Absentees ——— 2-6-8

the end of the Fusly was owing to the distribution of Puttahs in the Principal Division being delayed to a late period. I was detained longer than I expected at Poodoocottah and Pambavi and miscalculated the period required in this District for the preparation of the Summahbundy accounts which is unusually long. Care will be taken to avoid the same mistake in the present Year.

27. The Summahbundy of the Sub Division was entirely conducted by Mr Clarke. The details of the Ramgherry and Meyloor Talooks were superintended by the Head Assistant Mr Ratcliff subject to references and those of Madacolum and Thirooningalom by myself. Instead of going to a great many Villages at the time of delivering Puttahs, the plan usual in other Districts was adopted of proceeding to each Talook before their preparation, and then examining disputes and claims to remission in lieu of having them referred to the Kuzzoor. This I believe to afford much more relief to the Ryots than to visit their Villages on the day of distribution when it is generally too

Taloak of Wallajah which however is improving are notoriously poor, and Tiroomungalom has suffered considerably from a series of unfavorable years—

30 The decrease in the number of Ploughs and Ryots in some Taloaks as chiefly owing to the unfavorableness of the season for Poonjah cultivation, the number of Ryots being calculated by that of Puttahs. The Sub Collector it will be observed states death and emigration among the census in his Taloak, but the decrease from these is not very considerable—

31 The exportation of Cattle by Sea is shewn by the annexed abstract—

it was still not so extensive as in Fusly 1252 and the three previous years, tho' under the new arrangement the assessment was somewhat higher. I have been unable to discover accounts to set at rest the question of one and two Crops lands in the Sub Division, and must make this the subject of a separate Communication. It seems desirable that a separation of Class should be made, not with reference to Sugar cane only, but also to second Crops of rice, as the expenditure in the improvement of Tanks, irrigating low based lands in many instances, unduly benefits the Ryots without being productive of advantage to Government—

Hill Villages

34. The settlement of the Hill Villages amounted to 7823—1—7 exceeding that of Fusly 1256 by 1042—14—6 and by that of 1250 which was previously the highest year. In exploring the Passes to the higher ranges in company with the Civil Engineer I visited the Villages of Poombarary and Vilputty and was much struck by their apparent prosperity. The present system of Ryotwar management seems to me far preferable

of the arrangements.

36. Mr Parke has informed me that extensive enquiry into the Claim of the Villages to a Devastanom allowance has convinced him that it posses no foundation. I have received no report from him on the subject, and am not at present at liberty to examine the materials he has collected for forming a Judgment.

37. The opinion of the Civil Engineer as to the modes of improving the Passes to the higher range comprizing Poombaray, Yettoor, and Vilputty, will be found in his diary of general observations from the 25th to 30th September 1848.

38. I was with him during his inspection and as far as I am competent to form an opinion I fully concur in his views. I have not seen Viroopatchee and Tandikoody but the access to them is represented to me as much easier.

39. With reference to the observations of the Board in Paras 647 in their Proceedings dated the 26th October 1846 I beg to inform them that the new forms of accounts have been introduced into all the Talooks of the District though some few Columns are not filled up in the Sub-Division. The deficiency will be supplied in future years. The Corrections of the Classification & Assessment of Lands and adjustment of Ayn and Inamium were continued in Fuslies 1255 and 1256 as will be seen from the following Abstract.

Advertising

40 Adverting to the Boards desire to be informed of the Course of proceeding pursued by the late Principal Collector in making these alterations it is to be observed, that neither in Mr. Hurdis nor Mr. Parish' Survey Accounts are the lands numbered nor their Decisions defined by boundary stones or other marks. The fields or Stullums, as they are called are distinguished by names and their situation is described by stating the position they bear to the fields Contiguous to them together with their dimensions. The most important object to the Examiner under these circumstances, is to ascertain the spot where the Survey measurements commenced. This is laid down pretty clearly in both Surveys, and Mr. Hurdis proceeds, as far as my information goes, in as direct line as the nature of the lands would admit to the limits of the Village, and then doubles back, taking in both cultivated and Waste. Mr. Parish recorded the Cultivated lands in one Book and the waste in another

Consequently

consequently, in his accounts, there are frequent interruptions to the direct line. For instance Two cultivated stulls are named, then Waste is stated to intervene, for the particulars of which it is necessary to refer to the other book, then follows another tract of cultivation whose position is only defined by stating that it lies to the East, West, North or South of the Waste, a description which is evidently very vague in cases where the intervening Waste was extensive as compared to the following cultivation. With these accounts in their hands and assisted by Curnums and Inhabitants of the Villages to whom the Stullums were known by their names, the Examiners compared the lands with the yearly accounts and are supposed to have ascertained where diviations from the Surveys existed with tolerable exactness. I must confess that with the aid of Mr. Parish's accounts only I should think this very difficult. After the intervention of a large tract of Waste a very exact description of the position of the nexct cultivated field would appear necessary and this is not given; but wherever any of Mr. Hurdis' accounts existed they

were

were used in addition as well as any other
subsequent accounts, and considerable aid was
desirable from oral testimony-

41. In numbering the fields, I find,
that the Curnoms have in some instances com-
menced not from the original Ufsuv Mal, or
point of starting but from some new point
which they deemed preferable and which is laid
down in their Accounts without any degree of
precision whatever- In an account I have just
now seen No. 1 is entered as the Punchangum
Manieum without reference to its bearing to the
Village or any natural marks- Any person
examining the Village therefore would be de-
-pendant on the Villagers for the purpose of
learning the position of the Punchangum Enam-

42- Considerable enquiry is necessary in
regard to the notation of Stulls, the existence of
Village Accounts and other questions regarding the
Surveys, and it would be useless for me to dwell
further on the subject here. I have only to add
that stullom appears to me to be no other than the
Tamil or rather Sanscrit name for a field.
Several of them are sometimes held by one Ryot.

In

In the Sub Division and occasionally in the
Principal Division there are stulls of vast size
comprising besides waste the holdings of several
Ryots- These in general were tracts of waste at the
Survey which it was not then thought worth while
to subdivide- To ascertain whether the fields into
which these have been subsequently broken up
are recorded in the accounts so as to be readily
distinguished is another point requiring
examination.-

Ramnad Zemindary-

43- I passed through a considerable
portion of this Zemindary in March and April and
obtained as much information as was in my power
of the Zemindar's management. I regret to say
that it was not satisfactory- The Ryots are in-
-jured by delay in forming the Settlement and other
vexations, and the Servants are paid partly in
grain, and even this greatly in arrear- On my
return to Madura I addressed a strong remonstrance
to the Zemindar against the irregularities which
had been observed- Subsequently some improvement
has apparently taken place, but there is much
still to complain of- The Zemindar frequently
dismisses Curnums without application to

the

the Courts of Law, and resumes Enams excluded from the assets of the permanent Settlement, and much of my time is wasted in enquiring into such cases. I shall visit the Zemindary again in a short time and endeavour to enforce a better system.-

Shevagunga Zemindary - 44- The affairs of the Shevagunga Zemindary appear to be far better administered and very few complaints are received from the Ryots-

Ammainaikanoor Zemindary - 45- With the exception of two Villages the whole of this Zemindary is now in the hands of the Renter Mr. De Fondclaire, and the balance to Government on account of Principal has been reduced to Rupees 646-0-5. A further sum is due on account of Interest to the amount of Rupees 528-8-6, which will be realized at an early period.

46- The other Zemindaries do not require particular remark.-

47- I beg to bring to the particular notice of the Board, the great exertions of the

the Acting Sub Collector Mr. Clarke to which the improvement in the Revenue of the Sub Division is in some degree attributable. An amount of application which few would be willing or able to bestow had placed him in possession of very minute information regarding the resources of his Division, which he turned to the best account in promoting the welfare of the Ryots and the improvement of the Public Revenue. In making the Circuit of his Division I had much satisfaction in observing the confidence with which his patience and impartiality in enquiry had inspired all Classes of people.

Mr.

48. Mr. Battiss's standing enabled me to make over to him the Revenue details of Ramgherry and Meyloor in addition to the Police of those Talooks and Shevagunga, and these duties have been attentively discharged by him.-

49. Mr. Hodgson has no Revenue charge, but superintends the Police of Ramnad, Shiroomungalum and Madacolum. His improvement has kept pace with his experience. I had particular reason to be pleased with the Zeal he manifested in forwarding the repairs of the Pereanah and Chittanah Anicuts in the Madacolum

D.G.

Talook

Talook which were a subject of anxiety on account of the early period of the year at which the freshes of the Vyghey often occur. They were satisfactorily completed and have stood the Monsoon floods without damage.-

50. The head Sheristadar Ram Row who joined the District in September 1847 has fully answered the expectations I had formed of him from the character he received by the Collectors of Nellore, Messrs. Bishop and Smith, and the reputation in which he was held in Tinnevelly. He has of course much to learn in details in a new District, but his application will speedily acquire all necessary information

To,

R. D. Parker Esqre
Collector of Madura.

Sir,

Para 1. I have the honor to submit, with the usual accounts a report on the annual Settlement of the 4 Talooks forming the Sub Division of the Madura District.

2. The following Statement shews the Settlement of Fusly 1257 compared with that of the preceding year.

Description.	Amount of Fusly 1256.	Amount of Fusly 1257.	Increase.	Decrease.

Grand Total of Land Revenue	378,129 14 1	406,956 "	1028,826 2 9	" " "

3. It will be seen from the subsequent part of this Report, that tho' the Punjai Cultivation was not so extensive as in Fusly 1256, in Consequence of the failure of the necessary rains in July, August & September, the Punjai Cultivation exceeded that of the previous year, by Cawnies 3,721–1¾ and Rupees 25,892–5–

Season

4. The opening of the Cultivating Season of the Fusly, was full of promise. The heavy and continued rains which fell in April and May, led to the extensive sowing of Garden and Punjai lands; and the repeated Showers in June also induced some Ryots to sow their dry grain seed on lands already prepared during the rains of April and May. But the hopes of the latter were soon damped. The rains of July and August were barely sufficient to save the Crops; and in September the showers were light and partial. During this period Several Cultivators, especially in Nellakottai and Tenkarai, empoverished by former years of scarcity, and disheartened by the unfavorable apparance of the season, deserted their Villages and emigrated to other apparently more favored

parts of the country.

5. On the 6th of October, the N. E. Monsoon set in with unusual force, and the rains were most abundant; for three Months they fell almost without ceasing; the Tanks and Channels were filled; and Cultivation which had been almost abandoned, was renewed with great activity especially the Punjai.

6. Soon after the setting in of the rains, a most destructive Caterpillar appeared, which did great injury to the young Crops of Grain and pulse, in some places entirely destroying them. But as this happened in the early part of the Monsoon the Cultivators generally only lost their seed. the lands in most cases being resown with Grain and other grain. The excess of rain, however, prevented much Punjai land being Cultivated.

7. In January and February the

Diseases.

Cholera broke out in Dindigul and its vicinity, and afterwards extended to the Villages to the West and South as far as Cumbum. In the months of April & May, Fever prevailed in the Villages near the Mountains forming the

the Dindigul valley, as well as in those at the foot of the Hills in the Tadikombu and Ayempully Talooks, and also in the Villages on the lower ranges of Hills; great drought succeeded by excessive moisture, apparently was the exciting cause of this disease, which doubtless was aggravated by the habits and poverty of the people and want of Medical aid - The Cattle also suffered from the Constant rain, being attacked by blains in the feet and a severe scouring, which proved fatal in many Cases; Notwithstanding however, all these unfavorable circumstances, the season taken

taken as a whole, both as it respects the profits of the Cultivator and the revenue of the Government, was above the average - The Kunjai and late Punjai Crops were abundant and the price high: and though it has fallen considerably below the average of last year, it stands even now above the Commutation rate.

Prices of Grain.

8. A List of the prices of Grain, during each quarter of the last Fusly, Compared with the preceding one, is given below; together with a Comparison of the price of Grain during the last five years.

11. The extent of land included in the Settlement of Fasly 1257, is cawnies 140,126—8. the Survey assessment of which is Rupees 472088—6—" falling short by Cawnies 4,041—6 in extent, but exceeding by Rupees 19,296—11—9 the Survey value of Land Cultivated during Fasly 1256. The extension of Cultivation took place chiefly in Ayempully and Tadi Komboo.

12. In the Talook of Ayempully there was an increase of cultivation under the general head of Punjai - including Garden land of Cawnies 979—1¼, and of Nunjah of Cawnies 4924—13¾—

13. In Tadi Komboo there was a Decrease under the head of Punjah, of Cawnies 393 6/4 and an increase under that of Nunjah of Cawnies 663—8¾—

14. In Nellakottai there was a Decrease under the head of Punjai of Cawnies 3773—¾ but an Increase under that of Nunjai, of Cawnies 155—12½—

15. In Sankarai also there was a Decrease in Punjai of Cawnies 4755—15 and an Increase in Nunjai of Cawnies 957—13¾—

Fort St. George 16th July 1849

16 In Tenkara, though there are several wealthy and substantial Ryots as will be seen by the Statement of Puttahs given above, yet from the low assessment and fruitful nature of the soil at the foot of the Hills in Cumbum and neighbouring Villages, many men of straw are induced to Speculate in agriculture— In the Village of Cumbum alone there are 104 Ryots holding Puttahs of less than one Rupee value, and 285 Ryots of above 1, but below 5 Rs; 56 Ryots of above 5 but below 10 Rupees.—

17 Such men are more easily affected by any unfavorable change in the Season than the more wealthy Ryots. It was chiefly owing to the failure of this class of Cultivators as well as of the several non-resident Ryots from Tinnevelly Madura and Tirnongalum, to take up Lands in the present year that the quantity of Punjai land Cultivated in Tenkarai contrasts in Comparison with Ayempully and Tadikomboo, so unfavorably with that Cultivated last year but in addition to this cause in Ayempully and Tadikomboo, the number of wells and the quantity of Garden land is much

much greater than in Tenkarai. In Ayempully there are 2974 wells, in Tadekomboo 3889, while in Tenkarai there are only 847.

The quantity of Garden land Cultivated in 1257. in Ayempully was Cawnies 1737-15/20 yielding a rent of Rupees 8219-9-2. In Tadi-komboo the Baghoyet Cultivation is entered at Cawnies 1364-6/20 paying Rupees 14,660-4-7; in Tenkarai only Cawnies 321-14/20 assessed at Rupees 2704-14-3 were Cultivated as Garden in 1257.-

18.- Another cause which helped to produce the difference above adverted to is that in Ayempully the Cattle are of a superior kind, being of a better breed and finding finer pasture than in Tenkarai.- Also in Ayempully and Tadekomboo, the number of exclusively Punjai Villages, is much larger than in Tenkarai, so that at the season of Cultivation the Ryots of these Villages were enabled, by employing their Stock exclusively in

in Punjai, to bring under Cultivation a larger quantity of Punjai land than where it was divided in both Nunjai and Punjai lands.-

19 The difference in the increase under the head of Nunjai between the Talooks of Ayempully & Tenkarai, is attributed to the fact that many of the Sources of Irrigation in the former Talook which had fallen into disrepair, had lately been put into order, and enabled the Ryots to bring large quantities of waste land under Cultivation. The Villages mentioned in the subjoined Statement, are most remarkable for the increase-

21. The Cultivators of Sellakottai are generally poor, the land is of an inferior kind the Tanks small and fed by rain and the return for the labor and Capital expended scanty & precarious. Many of the poorer Cultivators of this Taluk, sought a livelihood by hiring themselves out as day Laborers and by cutting and selling wood.—

22. The Statement in the margin shews only 115965-2/4 Cawnies of Perambake land in the 4 Talooks. This Statement prepared from the Village Accounts is incorrect as understating the real amount of immemorial waste. Another survey is necessary to ascertain the true extent of land in each village. At the original survey, large tracts of land were so overgrown with jungle and infested with wild beasts, that it was impossible to measure them. They were therefore entered in the accounts at a rough guess, which, in very many cases, was far from the truth. Orders have been issued to rectify this defect as far as possible but it appears to

to me that it can only be effectually done by a new Survey.—

23. I have called for Statements of the condition of all the accounts in the several Villages. In many Villages they are very imperfect. Measures will be taken to supply the defects as far as the State of the records will allow. but both the State of the accounts and the State of the boundary marks between the several fields and Villages, require much attention. From the very defective state of the accounts, much time is wasted in Examining the Cultivation, both at the time of Cultivation, and afterwards. I myself visited several Villages and am able personally to speak to the very great difficulties which must be Experienced under this head. In addition to the foregoing difficulties in some Villages the fields are not numbered, in others they are so large as to render it utterly impossible that one person can Cultivate a whole field. A single field sometimes Contains thousands of Kulies and is divided among many Ryots. Many of these defects are doubtless attributable to the want of efficient control

Control in the department of accounts which falls immediately under the Supervision of the Sheristadar whose usefulness and efficiency in this branch of this duties are not so great as could be desired.—

24. Some cases of fraud have been detected and brought to light during this Fusly, and the parties concerned in them punished— others are at present under enquiry. In one Village / Velvarkottai / the revenue has been raised from Rupees 1668—6—10 to Rupees 2,720—10—9 and in others a considerable increase was the result of the Examinations made. These frauds seem in a great measure owing to the want of efficiency and activity on the part of the Zillahdars who pay but little attention to the proper duties of their office, their time being occupied in examining Cases of disputed possession or other Police matters. Measures have been taken to prevent this as much as possible and to require the Tahsildar and Mooty undar to dispose of as many of these cases as they can— but the very large number of Complaints of this description, required that some should be referred to the Sub Officers of Police.—

Many—

Many of these cases would perhaps not have arisen under a more perfect observance of the Pittum rules or if they had would at once have been disposed of on the spot by the Officer recovering the agreements of the people; and it is to be hoped that as more attention is now paid to this particular, that the Complaints will decrease—

Deductions & Remissions

25. The deductions from the 36. full Survey assessment allowed at the settlement under review, amounted in the aggregate to Rs. 77,107—12—1, of which Rupees 25,801—13— were remitted in Tadakomboo, Rs. 8,925—9—9 in Ayempully, Rupees 15,816—14—1 in Nellakottai and Rupees 26563—7—3 in Tenkarai, being Rs. 6,919—4—6 less than in were remitted in Fusly 1256.—

27. The total Remission falls short of the Remission allowed in Fusly 1256 by Rs. 132—10—3.

28. The Hoolcas may and Discretionary Remission are considerably less this year than in the preceding Fusly; from less land bearing these indulgences having been Cultivated in Fusly 1257—

29. There is also a reduction of Rs. 9—10—3 under

10831

Fort St George 16th July 1849

under the head of Remission for Betel and Plantain gardens destroyed. These gardens only exist for 3 years, after which the vines & plants become unproductive. Fewer number of gardens having been relinquished in 1257 than in the previous Fusly accounts for the decrease.

30. Owing to the extreme moisture of the Season it was found impossible to Cultivate Tobacco, Chillies and other more highly assessed products this year. The land reverting therefore to Cultivation of an inferior Kind, has occasioned a Remission of Rupees 832-8-6 in excess of that allowed in Fusly 1256.

Sugar Cane— 31 There is a small increase in the Remission granted on Sugarcane Cultivation owing to the increased Cultivation of this article during the year under review. The tax on Sugarcane is levied under the same rules which obtained last year. The following account shews the quantity of land cultivated with this product, and the rates of Teeruai leviable under the former and present rules. It is satisfactory to observe that this species of Cultivation still Continues to increase, though this increase is but slight.

Dittam

32 The decrease of Rupees 7-11-11 on account of Grass tax is owing to the Grass lays having been this year Cultivated with Grain and to no new land in lieu of the land brought under the plough having been taken up for grazing.—

33. The subjoined Table shews that of the 1,37,558-8¼ Cawnies of land agreed for by the Ryots at the time of making the Dittam 1,15,028-9¾ Cawnies were brought under Cultivation, and 22,529-14¾ Cawnies left waste: of the land left waste Cawnies 298-4¾ were brought to account and the remaining 22231-9¾ remitted.—

The Tahsildars were put in possession of the wishes and views of the Board and Government on this subject at the Commencement of the Fusly year but finding that in taking the agreement from the people they had not objected the instructions issued to them so fully as was desirable, and considering that it might prove of advantage to bring the matter practically before the people detailed accounts were prepared of the Dittam lands left waste

and

Fort St. George 16th July 1849

and each Ryot was called on to State the cause of his failure to fulfill his agreement— The general plea was that they had cultivated an equal extent of land instead of the land left waste, and as long as this was done they Conceived the agreement had been fully acted up to;- Pains were taken to set them right, and it is hoped that this year no lands agreed for by the Ryots will be left as waste except from circumstances which could not have been foreseen and for which they cannot be deemed responsible. I fear it will prove more difficult to prevent lands being taken up at will, though repeated instructions continue to be given to the head Ryots and the Public Officers to prevent this irregularity. The extent of land cultivated after the completion of the Dittam, it will be seen exceeds the quantity of Dittam land left waste.—

36 This Statement shews a continued improvement in the wealth and condition of the Cultivators generally—

37 There is a small increase in the number of the people, Amounting to 3,638, and also a small Increase among Cattle, Amounting to 3,594. Disease, death and emigration, have doubtless operated in Checking population—

38 There is a decrease in the number of Cultivating and Polkoody Ryots, to the extent of 1497. This was occasioned by emigration and death, Chiefly in Tenkarai & Vellakottai. In the former Talook, the number of Polkoodies was, in 1257—787 less than in the previous year, and in Vellakottai 171 less. 778 fewer Porakoodies Cultivated lands in Tenkarai in 1257 than in 1256 and 307 fewer in Vellakottai. There was also a diminution of 84 Ploughs in Tenkarai and 168 in Vellakottai. In Tadikombo and Iyempully there was an Increase under each head, as shewn in the Margin—

	Tadikombo	Iyempully
Ploughs	583.	294½
Polkoodies	11	186.
Porakoodies	134	215.

39. There is an increase of 11 Hamlets, over the number shewn in

Fort St. George 16th July 1849.

in the last Report. The following Table will shew this more fully. Six of these are old Hamlets attached to the hill Village of Tadikoody, which should have been brought to account on the Survey of the Hills in 1253, and 1 was omitted on the Talook of Tadikombo in the Accounts of last Fusly. These places designated Hamlets generally Consist of a few houses, seldom exceeding ten, very often one or two. They owe their rise either to the prejudices, vanity or quarrelsome disposition of their founders, who, either considering the place of their former abode haunted by some evil spirit or that the water is unwholesome, or anxious to perpetuate a name, or unable to live in harmony with their neighbours seek another abode; but the more general Cause assigned for this transfer is the distance of their lands from their homesteads, or the want of good pasture for their Cattle. The Hamlets are usually not far removed from the Original Village, & the founders of them receive no privilege and are in no way encouraged by the authorities to leave their old abodes. In the Village of Audiputty, there are no less than 21 Hamlets, and these Hamlets again have attached to them 63 such hamlets—

The increase in the sources of Irrigation, chiefly in the Wells, as detailed in the Margin, seems to indicate that Land is considered a valuable property, and that the assessment is generally speaking, not oppressive affording the cultivator a profit which is deemed by him best laid out in the Soil from which he derives it.

The Hills

41 During this year, I visited most of the Hill Villages. In some of them Fever had been raging to a great extent. The Dresser of the Establishment afforded them his Assistance, and was generally of great use to them. With this exception, the people seemed, on the whole to be improving and satisfied, and the Cultivation, as will be seen by the following Statements, is increasing. I cannot but again urge here the desirableness of improving the means of Communication both with the low Country and with the several Villages.

From the collr of Madura

With reference to Para 11 of my Report on the Summary of Fusly 1257, I have the honor to state that I have ascertained that the assertions contained

Altho' it is now entered in Account as two Crop land, the assessment thereon is calculated for one Crop only and Fussul Jastee is exacted of a second crop be raised. It is therefore in effect (as is all the land in the Principal Division) single crop land.—

From the Collr of Madura

Reporting that no grants or Puttahs have hitherto been issued on the Pulney Hills to Europeans but that some houses have been erected and soliciting Instructions relative to the allotment of lands on those Hills.—

Sir,

With reference to the concluding Para of their Proceedings dated 10th May last I have the honor to inform the Board that no land of defined extent has hitherto been allotted to European or other Settlers on the Pulney Hills either for Building and Compounds or for agricultural purposes.

2 Previously to my appointment to this District 2 Houses had been erected by the American Mission in that part of the Hills which is situated on the highest table land approached directly by the Pillar Doottor Pass opposite Pariacolum but then Sites have never, that I am aware of, been measured or made over to the house-holders in a formal manner. There is no Village whatever on the same level comprising a large tract of Country and the only cultivation for many Miles is at Shimlaganoor which lies on the first terrest of the Pass and is about a ½ or 2 Miles distant

distant - Under the circumstances as there are no pastoral tribes on the Palaneys the tract in question was claimed and cared for by no one and no Public Servant having business in the neighbourhood, Measurements leases or Puttahs were never thought of - The location is termed Hoda Harnel from a neighbouring wood.

3 Mr Blackburne also constructed a Bungalow at a distance of about 5 Miles near the top of the Davadonapatty and close to the steep Adaken Pass - But the House was burnt down by the first fire sighted in it and the Godowns which remained after long disuse were given by that Gentleman to the American Missionaries and have now I believe been transferred to Mr Woodgate the subordinate Judge - No enclosure has ever been made round the house nor the exact extent occupied by the buildings measured.

4 Within the last year Mr. Clarke the Sub Collector and Mr. Baynes the Sessions Judge have commenced houses on a Plateau above the

Hoda Harnel which are now nearly completed and I myself have within the last 6 weeks laid or commenced to lay foundations of another in the immediate neighbourhood - I proposed as soon as the + Sub Collector had obtained a residence and could find leisure to spend sufficient time on the spot that he should settle the extent and assessment of the sites and compounds of these Bungalows, but the climate and circumstances of the place prevented a Talook servant being deputed to make the measurements in the ordinary manner. The cultivation on the Palaneys is situated either on distant and lower ranges or at the top and down the sides of the Sombarray and Silputty Passes leading down to Palaney which are distant the one about 9 and the other about 3½ Miles from the Hodahanel, and though I cannot speak decidedly, I am inclined to think that the upper Plateaus are not included in the Anjacents of any Villages. Village servants therefore were not naturally available for the duty -

+ Note In whose Talooks the Hills are situated.

Under

5.

Under the circumstances above detailed it appears to me fair that before the lots of land in the immediate neighbourhood of the houses mentioned are left for Public competition the owners should be allowed the opportunity of securing moderate sized Compounds on the payment of a fixed sum per Cawny as premium together of course with the annual assessment. The Premium might be made 15 years purchase of the Government assessment.

6.

On this point I beg to submit the accompanying Copy of a letter from Mr. Haynes. The application to which he alludes I have not seen nor do I know its exact scope; but I understand it to have been made to the Acting Sub Collector whom I have requested to forward it to me. It was preferred in ignorance of the Rules which have been subsequently furnished to the Sub Collector and a Notice of their purport as far as they affect the Salaries circulated to the Community at Madura

7.

In Para 4 of the Manual it is stated that Compounds Pen will be

assessed

assessed at Rupees 5-4 for one Cawney in each lot the rest being subject to an assessment 1-2-4 per Cawney. I beg to be informed whether the lots are to be limited and if so to what extent. If they are not limited an individual by making an application for a large extent of land may obtain a Monopoly of all the sites eligible for building at an infant location used chiefly by the families of Public servants resident on the Plains where proximity is more desirable than space, and Government will obtain the rate of assessment of a building site for one Cawney only instead of several

8

Eventually a Peishcar will be absolutely necessary for the Palaney Hills but at present I would solicit the sanction of the Board for permission to employ a temporary Gomastah on Rs. 15 a Mo. to make the Measurements required for the Grants which will have to be issued. The Tenkurray Talook to which this part belongs is very large in proportion to its Establishment and cannot spare a person for this duty without prejudice to

to the Public revenue -

Sir,

1 On the Pulney or Poombarray Hills above Pareacollum and running along a small wood called Thelicne "the Hodel=earnel" is an undulating Plateau of Grass land measuring I should imagine about 1,200 or 1,300 yards in length from east to west and varying in its breadth North and South from one to five or six hundred. At the eastern extremity Mr Clarke the Sub Collector has erected a house as I have done at the western and my object in now addressing you is to request that a Grant or Puttah may be issued to me for the ground on which my house stands and also for so much of the said Plateau or space intervening between it and Mr Clarke's as extends for about 325 or 350 Yards† measured along the path which traverses the Plateau

† From the crest of the Little Hill at the foot of which my house is situated

from East to West and where it is bisected by a Ravine running North and South at a breadth of about 500 yards -

2 I have in course of preparation a Map of the spot in question which will embrace my own and Mr Clarke's houses as well as that now in course of erection by yourself and two houses belonging to the American Mission in the Valley below the Plantean to which I refer and the Missionaries have furnished me with the measurement of the land for which they also are desirous of obtaining Grant. so that I should have deferred an application on my own part and theirs till I could make it more formally and give the exact measurements had I not been given to understand that another party had sent in an application for a grant of the whole of the Plantean, which if complied with would leave me without a Compound to my house or at least any land for the purpose of Garden or pasture.

I therefore take this opportunity of

apprizing

apprizing you of the state of matters and of the intention of myself and the american Mission in the hope that you will not finally accept any proposal for a Grant in the vicinities alluded to until the claims and wishes of all parties shall have had due consideration.

Proceedings thereon

Informing the Collector of Madura of the Board's views on the course and condition to be observed in the grant of lands on the Pulney Hills for building and for agricultural purposes.

The Collector is informed that the Board of Revenue entirely concur with him that under the circumstances which he has stated the owners of the Houses referred to in Paras 2-3-4 of his letter as also those of any other houses which have been built or commenced upon the Pulney Hills should before the land in the vicinity be granted to other parties be allowed the opportunity of securing moderate sized Compounds on the payment of a fixed sum per Cawny as premium in addition to the annual assessment. They think further that 15 years purchase of the Government assessment.

Assessment will be a sufficient amount of Premium. Mr. Parker will be pleased to take measures accordingly reporting the arrangements which he may make hereafter. The form of Lease referred to in the Board's Proceedings of 10th May 1849 is under preparation by the Company's Solicitor, when completed it will be forwarded to the Collector in view to its being employed with such modifications as may seem requisite, in all cases of lands taken up for building or Agricultural purposes upon the Pulney Hills.

2 Referring to Para 7 of his letter, the Collector is informed that it is intended that the lots to be granted should be limited, but no uniform limit can be laid down as applicable to all cases. It must vary according to local circumstances and peculiarities, Lots for building should be restricted to as much land as may be required for houses and out premises and for a reasonable extent for Garden and Compound - which must in some degree be regulated by the nature of the

the ground - The quantity of land to be allotted for Agricultural operations will of course be governed by other consider=ations - The Board must however remark that the contingency to which Mr Parker has alluded, Viz., that of "an "individual by making an application "for a large extent of land obtaining a "Monopoly of all the sites eligible for "building" is one against which they are particularly anxious to guard - He will therefore consider himself at liberty at once to reject an application preferred with such views, and for more land than is required by the applicant for his personal use and enjoyment. —

3. The rates of assessment refer=red to by the Collector in the same para=graph are those which obtain upon the Neil=gherries - Rupees 5 - 4 for one Coawney in each lot may properly be adopted upon the Pulneys - The lower rate — Rupees 1 - 2 - 4 per Coawney is that of the Average assessment of land up=on the Neilgherris - If the land upon the Pulneys be assessed or admit of assessment according to the returns

of the nearest Villages, or according to the revenue usage of the District, the assessment so obtained may be substituted for Rupees 1 - 2 - 4 for all the land in=each lot beyond one Coauney - Otherwise the rate of Rupee 1 - 2 - 4 may be taken -

From the Collr of Madura — Reporting upon Bonds Petition No 346 of 1827.

Sir,

1. I have only this month=received the Sub Collector's report and numerous documents relative to the ac=companying Petition No 346 of 1827 on which my report is called for by the Board. —

2. The Petition itself narrates the different changes made in the appoint=ments to the Office of Nattamgars of the large Village of Coumbum in the Sub Division so clearly and correctly, that it is unnecessary that I should recapitulate them. —

3. It appears undeniable, that the Petitioners are descendants of the Original Merasidars of the Village and that the persons now holding the Office are

are not so, and the question is whether the Meerassee right should prevail or whether, first the circumstance of the Relations of the Petitioners having been dismissed for fraud in Fusly 1259, and 2ndly the long enjoyment by the present Incumbents subsequently should confirm the latter.—

4. The only ground for the first reason for exclusion is the probability, that the Petitioners would be compelled or drawn into following corrupt practices by the influence of their relations, but the Petitioners oppose a satisfactory argument to this, Viz^o, that the greater part of the former dismissed Incumbents are dead and they themselves are cousins and separate from the others.—

5. To the second reason they object that the present Incumbents have been proved guilty of fraud in Fusslies 1252 & 54.

6. This accusation was enquired into some time back by the Talook Authorities, but no decision had been come, by the Sub Collector till M^r. Elliots recent report to me. In this he

he states his opinion, that the present Incumbents were guilty of Collecting upwards of 300 Rupees in excess from some Ryots and leaving an equal Balance or nearly so against others. And that land cultivated in Fusly 1254, was only brought to account in Fusly 1255.—

7 I do not think the delinquency is satisfactorily established in the second Item, because the land was confessedly sown quite at the end of Fusly 1254, and Cultivation after a certain date is properly brought to account in the ensuing Fusly. In this Case, however, it is alleged, that the sowing took place a few days before the date of demarcation, a matter of no great consequence.—

8 The other irregularity is of more importance and is proved by accounts and Receipts.—

9 But whether these faults would of themselves justify the dismissal of the present Incumbents if entitled to the Office of inheretance or would be considered insufficient to do so, I think, that while there are Merasidars, of competent ability unstained by corruption themselves, and not under the Control of convicted delinquents persons

persons having no claim by inheritance ought not to be introduced into the Office. Hereditary Offices are highly valued in this District, and it is not expedient to weaken the appreciation of them, nor is it found that strangers prove at all more honest or more competent.

10 I therefore propose, with the Board's permission, to remove the present incumbents (with the exception of one a Meerasdar) and appoint the Petitioners in lieu.

From the Collr of Madura } Sir,

I regret to report that on the 18th Ultimo Dodeppa Naiken Poligar of Dodeppa Naikneor was murdered by a band of robbers, from one of the small Zemindaries of the Tinnevelly District.

The Zemindar left the family noted in the Margin. The eldest son being the undoubted heir, I recommend that he may be acknowledged.

The widow strongly urges that the Zemindary may be left to the management of herself assisted by the Kurbar Mootyal Pillay; and as it is small, paying a Peishcush of only 2179-2-8 per Annum I see no objection to compliance with her request particularly as the heir will soon be of age.

The Board will be glad to hear that 2 of the robbers, apparently leaders, have been apprehended, and have informed against their associates.

I am directed by the Board of

of Revenue to submit for the orders of the Right Honorable the Governor in Council the accompanying letter from the Collector of Madura, reporting that Dodappah Naiken Poligar of Dodappa Naikanoor was murdered on the 18th Ultimo by a band of robbers from one of the small Zemindaries of the Tinnevelly District.—

2. It will be seen that the deceased Zemindar has left a family consisting of a widow and two sons, The Collector recommends that the eldest son Dodappa Naiker be recognized as heir, and states that he sees no objection to a compliance with the urgent request of the widow that she may during the Minority of her son be entrusted with the Management of the Zemindary, as it is small, paying a Peishcush of only Rs. 2179 – 2 8 per Annum and as the Minor will be of age two years hence—

3 The Board think that under the circumstances stated by the Collector it is unnecessary that the estate should be taken under the charge of

of the Court of Wards, and they therefore beg to advise that it may be left with the Widow until her Son attain his majority.—

From the Collector of Canara ... Forwards a list of the Servants in Canara from whom Security is taken.

Sir,

With reference to the Board's circular letter dated 2d October last I have the honor to submit, as therein required, a list of the servants in the Canara district from whom security has been taken in conformity with the principles laid down by the Board in its Circular dated 17th September 1812 as explained in the 2nd Para of your letter now under reply. The original circular is not now on the records of my office.

2. In my letter of the 16th September 1847 I explained that the security hitherto taken had been of a general nature, no specific sum being named, nor particular property pledged, and the information required by the Board on this head cannot therefore be furnished. A Copy of the Security Bond as hitherto taken was transmitted with my letter

above

above referred to.

3. The Board desire to be informed what alterations I would suggest for adoption in future with a view to a revision, but I am at a loss to offer any suggestion upon this point unless it be that the former practice which has been found to answer sufficiently well should be adhered to. In my letter of the 16th September 1847. I explained the difficulties which were anticipated in complying with the rules laid down in the Board's Proceedings dated 17th May 1847. particularly with reference to the forms of security bonds therein proposed. The people here have the strongest objection to pledging their real property in the way therein required, principally for the reason I before explained, that it prevented them raising money by mortgage on their property if they wished to do so, and also because they dislike the trouble of proceeding to the Court to register the Security deeds which would in

in many cases involve a journey from a long distance. There is in other cases a difficulty in pledging landed property where although the surety is fully able to meet his engagement, his property consists of a share in an undivided family Estate. I have not, on this account found it practicable in a single instance to obtain security in the form proposed by the Board, and in several instances our Tahsildars and others who have been recently appointed, although persons of the first respectability in the district have reported to me that they have been unable to find any one willing to stand security for them in the manner required, and I have therefore been obliged to allow them to give it in the forms which has hitherto prevailed in the district.

4. Should the Board be of opinion that the taking of security from the public servants should be hereafter strictly confined to those classes named in

Fort St. George 16th. July 1849.

in Para 2 of your letter, it would be desirable that some distinct explanation should be given of the persons besides Cash Keepers and Shroffs, who it was intended to include under the term "generally all persons in any way connected with the treasure," because it would appear to embrace not only all those classes of servants enumerated in the enclosed list, from many of whom it would never the less appear that the Board does not contemplate or taking security, but also nearly every servant of every description in the Revenue department inclusive of peons by whom the Revenue collections are made.

Sir

Para 1. I trust to be excused from the charge of undue importunity in again repeating a request for a reply to my letter of 5th December 1843, on the subject of the Betutnaad Raja's escheated Estates which lapsed to Government in 1792 for want of heirs.—

2. It seems to me very desirable for the Government interests that some order or other should be passed— what that should be of course rests with the judgment of the Board— I have expressed my own opinion in the letter under question. Every years delay will I fear make the matter more difficult of adjustment.—

From the Collr. of Madras ..

Sir,

From Board 7th May 1849

With reference to Para. 2 of the Order of Government dated 1st May last No. 439, I have the honor to report for the information of the Board of Revenue, that Syed Mahomed Saib, who is entitled to receive a pension of Rupees 7-6-- per Onensem has applied to me for permission to proceed to Mecca for 3 years and for the allowance being paid to his authorized Vakeel during his absence from Madras.—

From Do. 5th Feby 1846

2. As compliance with Syed Mahomed Saib's application appears to be unobjectionable I beg leave to recommend that the necessary sanction of Government may be obtained for communication to him when I shall require—

The President and Members
of the
Board of Revenue

Gentlemen,

90

From the Accountant General. In compliance with the request contained in your Secretary's letter of the 2d Instant, I have the honor to transmit, as noted in the Margin, Copy of the instructions issued from this Department to the Collector of Masulipatam relative to the adjustment in his accounts, of Broad cloth supplied to him from the Clothing Board of the value of Rupees 134—7—3.

Endorsement on an Indent for Broad Cloth.
Forwarded to the Collector of Masulipatam for acknowledgment and adjustment to the Credit of "Military Books" in his next accounts.

From the Superintendent of Stamps —

With reference to your letter of the 12th February last, I have the honor to annex copy of a letter from the Collector of Canara to my address dated 31st March last, together with the specimens of the Portuguese paper procured from Goa marked A and B, from which it will be observed that the paper which passes under the name of Goa paper and is much in use on the Western Coast is all imported from Portugal — The paper marked C is the specimen of the French paper alluded to in Para 4 of Mr. Blane's letter —

I beg also to forward specimens of paper Marked D and E — Manufactured from Hemp by the Contractor of the Office, although they are not in quality or texture equal to any of the paper forwarded by the Collector of Canara, yet he assures me that he has used certain ingredients in their manufacture which will prevent it being affected by the climate of the Western Coast, and which he requests may

Superintendent of Stamps
Fort St. George

Sir,

I have the honor to acknowledge the receipt of your letter of the 15th ult. February forwarding copy of one from the Board of Revenue of the 12th Idem, and to state in reply that no paper is manufactured in Goa. The paper which passes under the name of Goa paper and is much used in this district is all imported from Portugal. It resists the climate better than any paper known, and is much superior in that respect to English paper, which owing probably to something in the chemical process used in its manufacture becomes in a short time damaged and will not take the ink properly.

2. I beg to enclose specimens of the Portuguese paper procured from Goa which is used in my Cutcherry, some of it is slightly thicker in substance than the other. The price is Rs. 1 per

per ream of 400 sheets which appears sufficiently moderate, and in my opinion it would be better adapted for stamps on this coast than any other kind. The size however appears somewhat too small to allow of two stamped papers of the ordinary size being made from one sheet.

3. No Country made paper will I am satisfied resist the climate of the Western Coast.

4. I beg also to enclose a specimen of French paper which is largely used in this district though it is not so strong and lasting as the Portuguese paper. The price of it is Rupees 3-9-0 per ream.

Sir,

Submitting correspondence with

Para 1. I am directed by the Board of Revenue to acknowledge the

with the Superintendent of Stamps on the subject of the paper proposed to be used for Stamps in the Districts of Malabar and Canara instead of the country Stampt paper now used and conveying the Board's views on the subject of the Samples forwarded by that Officer—

the receipt of the orders of Government dated the 28th November 1848 which referred for the report of the Superintendent of Stamps a letter from the Acting Senior Deputy Register of the Court of Sudr Adalut stating that the Civil Judge of Calicut had suggested that in consequence of the destructive effects of the climate at Calicut on Stampt Country paper Europe or China paper should be substituted — conveying the opinion of the Judges that more durable paper than country paper should be provided for Official purposes in the Districts of Malabar and Canara, and recommending that these districts be supplied with Portuguese Stampt paper—

3— In his letter of the 16th January 1849 the Superintendent of Stamps pointed out that Clause 2 Section V Regulation XIII of 1816 prescribes that in ordinary cases Stamps shall be impressed on Paper of the manufacture of the

Territories subject to this Presidency and that this Clause would perhaps require to be rescinded in the event of paper being used which had been manufactured in a foreign Territory— He was of opinion that if Goa paper were to be substituted it would be necessary to manufacture it with the usual Water mark G.S.G and to have it of the same dimensions as the Stamp paper now in use that a contract must be entered into for its supply in the same manner as has hitherto been customary and that this would be attended with increased expense, inconvenience and risk of receiving a short supply from a Contractor in a Foreign Settlement. He also noticed the absence of all means to enforce the contractors adherence to his engagements and the impurity with which he might surreptitiously supply the same papers to other parties who might require it for improper uses—

Mr Bruce, at the same time enclosed 2 samples of other country paper which had been supplied by his Contractor as

2 In reply the Board of Revenue instruct me to inform you, that Standard Mercals for the measurement of Salt, were prepared by Major De Havilland Inspector General of Civil Estimates and supplied to the several Salt Districts under this Presidency in 1820, and that these Mercals have been employed to regulate the measures used at the different Salt pans and places of Sale from that time. The vessel forwarded from this Office to the Ordnance Department in August last as a Pattern, is one of the Mercals prepared by Major De Havilland on that occasion, and as the Measures recently made up at the arsenal fall below it in Capacity, in a degree which would be of importance in extensive Salt transactions, they will not answer the purpose.

purpose for which they are intended. The Board must at the same time remark that on a careful examination they perceive that the Pattern Mercal sent by them to the Arsenal, either from its ruin being worn or from some other cause, is of somewhat less depth than that assigned by Major De Havilland to his Standard. Instead therefore of again sending this pattern to the Ordnance Department, the Board think it preferable to state the precise dimensions according to which Major De Havilland's Mercals appear from his report to have been constructed. Viz^t. that each was a Cylinder of 8 inches in breadth by 16.791 or nearly 16½ inches in depth, with a Capacity of 828⅓ Cubic inches. The Board beg to request that the measures lately prepared may be altered so as to conform as nearly as practicable to the dimensions above given, or if this cannot be effected that other measures may be made up.

3. The Board direct me to add that the new Mercals which had been forwarded to this Office by the Acting Principal

Governor in Council of Fort St. George.

Most humbly Sheweth

The Humble address of Intezamuddowlah Roostumjah Bahadar Nawaub of Masulipatam

Most Honorable Sir,

With profound submission I beg leave to intrude on your Excellency's most valuable hours with this representation, which I am, under the following circumstances unavoidably obliged to submit for your Excellency's indulgent consideration, and beg forgiveness for the same —

As I was given to understand on the 26th June Instant, that my brother Hootoo Muddowlah Hussainally Khan has applied to the Collector of Masulipatam for the payment of the pension allotted to him which was according to the Minute of Consultation dated 12th October 1832

Ordered.

Fort St. George 19th July 1819.

Ordered by Government to be stopped until he should enter into a written engagement to abstain from all further proceedings against me on account of his supposed claim or grievance, I addressed a letter to the Collector of Masulipatam on the same date, stating the antecedent circumstances regarding the said pension; a Copy of which marked **A** is herein enclosed. I did not as yet, receive an answer from the Collector, but as I have this day learnt that the application of my said brother Roottoobuddowlah was already submitted by the Collector to Government on the 20th Instant with his recommendation; and as nothing is communicated to me by the Collector on the subject, and as I am particularly interested in this matter, I beg leave to represent the following circumstances for your Excellency's Kind Consideration.

In the year 1825, the said Roottoobuddowlah having instituted an unjust lawsuit against me in the Supreme Court of Judicature and subjected me to heavy Cost amounting to upwards of one Lac of Rupees

and

Fort St. George 19th July 1819.

and occasioned much annoyance to me and the family contrary to the decisions of the Honorable Government and Court of Directors by which I was in accordance with the Will left by my father, recognized as his successor and the head of the family, and he having contumaciously persevered in his litigation disregarding their orders; the Government were then pleased to stop his pension until further orders.

This protracted and very expensive trial, being found altogether unjust and unfounded, was dismissed by the Supreme Court in the year 1830 and the Costs incurred by me were adjudged to be paid by Roottoobuddowlah. From the beginning to the Conclusion of this suit the Government were pleased to afford me a great assistance and see justice done me. A kind reference to the Correspondence between the Government and Advocate-General in the Supreme Court during the said litigation will prove in what exorbitant expences and embarrassment I was involved by his litigation and how kindly the Honorable Government were

pleased

Fort St. George 19th June 1849.

pleased to maintain and protect me during these proceedings.

In the year 1832, my above named brother had applied to Government for the payment of his pension and form the strong conviction of the embarrassment and expences occasioned to me by his proceedings in the Supreme Court and of his wonted incessant inclination to institute further proceedings against me and thereby subject me to further expence and annoyance, the Government were pleased to order his pension to be paid upon his entering into a written engagement to abstain from all further proceedings against me on account of his supposed claims or grievances, with a stipulation that any departure from such engagement will involve the forfeiture of his pension. This order had not the approbation of the Honorable Court of Directors - The object in requiring him to enter into the above said engagement is - to renounce all his pretended claims on me and prevent all his further vexatious proceedings against me, under any pretence whatever

* Vide letter to the Board of Revenue from the Secretary to Government dated 23d October 1832.

Fort St. George 19th July 1849.

whatever and save me from further trouble and expence on account of his litigation as well as to secure the tranquillity of the family from being disturbed by him.

Mr. Wroughton the late Collector, to whom Kootoobuddowlah applied on the 30th September 1835 for the payment of his pension, wrote to him on the 30th October 1835 requiring him to relinquish the engagement according to the orders of Government, with stipulations agreeably to my wishes and forward it through me, a translation and Copy of Mr. Wroughtons letter is herein enclosed

Marked **B**-

The said Kootoobuddowlah without entering into the engagement above referred to had again instituted a further illegal Suit in the late Provincial Court in the year 1840 Contrary to the decisions and orders of Government and to the decree of the Supreme Court of Judicature, with an evil intention to subject me to further expence and embarrassment; consequently, the Government were pleased to send orders to warn him that, if he

* Vide Minute of Consultation dated 10th January 1842.

Fort St. George 19th July 1849.

he perseveres in his litigation to Government may find it necessary to declare not only the arrears of the pension, but the pension also – Even after this warning he did not abstain from, but perseverred in his proceedings against me until his pretended claim was, after a protracted litigation, dismissed by the Provincial Court and the Court of Sudr Udalut. Inconsequence of this Suit also I was subjected to considerable Costs and much trouble.

I beg to offer my grateful thanks to the Honorable Government for the paternal aid and support which they were pleased to afford me occasionally situated as I have been under the protection of Government from the beginning. I solicit that Your Excellency will be pleased to continue the same favor and support towards me as I had met with from your Excellency's Predecessors.

I have no any objection to the payment of his pension and the arrears being made to him, but as he, regardless of the decisions and orders of Government and in opposition to the will of my father had

Fort St. George 19th July 1849.

had hitherto perseverred in his proceedings against me and occasioned considerable expence and much trouble to me and also troubled the Government and their Officers as above stated, and as he is always apparently inclined to endevour to trouble me with his litigation under any pretence whatever and thereby subject me to further expences, I am afraid that after he will receive his pension and the arrears he will still again proceed against me under any pretence and subject me to further expences and trouble; it therefore being necessary that the engagement to be entered into by him according to the orders of Government above referred to should be so well worded as to renounce all his supposed claims on me and prevent the possibility of all his further proceedings against me on account of his supposed claims or under any pretence whatever; I had a draft of the engagement made out accordingly, which I beg to enclose herein marked C

I therefore very humbly beg that your Excellency may be graciously pleased to take the foregoing facts into an indulgent

indulgent consideration and issue instructions that his pension and its arrears may be ordered paid upon his entering into an engagement according to the enclosed draft and upon his apprizing the Court of this final adjustment by a motion conformably to the Circular order of the Court of Sudr Udalut dated 15th August 1837. No. 48 For which favor I shall be under ever lasting obligation —

As I consider that the transmission of this address if forwarded through the Collector who is now on Circuit, will perhaps be delayed on account of the pressure of public business and that it will not in consequence reach your Excellency at that time when the application of Rootaa buddowlah already is submitted, will be brought under consideration, I have taken the liberty to submit the address direct, for which I beg pardon —

To R. T. Porter Esqre
Collector in the Zillah of
Masulipatam.

Sir

Being given to understand that my brother Rootaa buddowlah Hoosainally Khan Bahader has submitted a petition to you requesting payment of the arrears of his pension, I beg to take this opportunity to state the following circumstances to you on the subject —

You are aware that an order was issued by Government in the year 1832 to withhold payment of the pension of the said Rootaa buddowlah Hoosainally Khan and its arrears until he should enter into an engagement to abstain from all further proceedings against me on account of his supposed claims —

The said Rootaa buddowlah had applied to Mr. Wroughton Collector, on the 30th September 1835, for the payment of his pension and received an answer from that Gentleman under date the 30th October 1835 stating that under the orders of the Board of Revenue he should execute an engagement with the conditions

conditions agreeable to my wishes and transmit it through me a Translation of which is herewith forwarded together with a Copy of it.

Subsequently my said brother having contrary to the decisions and orders of Government and to the Decree of the Supreme Court of Judicature brought forward a suit in forma pauperis against me in the late Provincial Court in No. 10 of 1840, and greatly annoyed me the Government were pleased to pass a Minute of Consultation under date the 10th January 1842 warning Rootoo Buddoolah that if he perseveres in his litigation the Government may find it necessary to declare not only the arrears of the pension which have accumulated in deposit forfeited, but the pension also of which also you are well aware—

I know not in what manner my said brother has now applied to you for his pension, because the engagement required of him under the orders of Government is not forwarded by him through me as required in Mr. Woughton's letter to him—

As he has persevered in his litigation against the repeated orders of Government as he is always willing to annoy me by his illegal proceedings, and as the Government ordered the said engagement to be taken from him in order that he may abstain forever from his litigation against me and as it is essential to take the engagement from him under the said orders of Government with strong stipulations to prevent all his further litigation against me after he receives the arrears of his pension and as the final adjustment thus to be effected should be made known to the Court under the Circular order of the Court of Sudr Uddalut dated 15th August 1837 No. 48, I request that before making a reference to the Board and Government on the subject of his application you will furnish me with a Copy of his engagement if presented to you and also take into Consideration what I will communicate on the subject—

If perhaps you have already made a reference to Government and Board on the subject of his application I request that

Fort St. George 19th July 1849

that you will have the goodness to forward this letter to Government for their consideration.

Further if he has made no application to you for the payment of his pension, I request that I may be excused for the trouble hereby given.

Draft

Engagement executed by Roostumuddowlah Hussanally Khan Bahadur to the Circar of the Honorable Company.

Whereas the Honorable Government and Court of Directors on the death of my father the late Nawaub Roostunjah Bahadur recognized my brother Nawaub Intezam Uddowlah Roostunjah Bahdur as the successor of my father and head of the family and granted him the allowance of my father in accordance with his will, and whereas the Madras Supreme Court, Northern Provincial Court and the Court of Sudr Udalut also awarded him as the sole successor of my father to the whole of his Estate both real and personal, I agreeing to all the aforesaid decisions hereby engage with own free will and Consent that I my heirs and successors shall never make any Claims or demands whatever on my brother Intezam Uddowlah Roostunjah, or his heirs and successors, for the whole or any part of

Fort St George 19th July 1849

of my father's allowance and estate both real and personal to which, he, Intezam Uddowlah Roostumjah, succeeded, or for any other thing with the exception of the pension of Company's Rupees 150 — one hundred and fifty per month which was allotted to me — If I, contrary to the conditions of this engagement, will never bring forward any claims or demands whatever against Intezam Uddowlah Roostumjah or his heirs and succesors before any Courts or authorities under any pretence or supposition, Thereby agree with my own will that those claims should be immediately dismissed without any trial and my pension be forfeited to Government.

As a litigation took place in the Courts about the foregoing matters and as this is the final settlement, I further engage to make this settlement known to Court by a Motion according to the Circular order of the Court of Sudr Udalut — dated 15th August 1837 No. 48.

Ordered, that the foregoing

Para 1 The rates of Batta which are recommended by the Agent in Ganjam to be fixed for the Paicks of Goomsoor appear to the Right Honorable the Governor in Council to provide a reasonable and sufficient remuneration to

to this class of retainers when employed upon public duty out of their own Mootahs, and he resolves accordingly to confirm them, and to direct that the following scale be adopted in future for the payment of Batta to the three grades of which the Packs consist Viz.t-

Sirdar Seven (7) Rupees per Mensem
Nack Three (3.) — " — " — "
Packs Two (2) — " — " — "

2 The Batta will be granted to these men at the above rates wherever they may be required to serve out of their Mootahs beyond three days, and then it will be paid to them for the whole period of their employment; but when their absence on duty may not exceed three days, it will be left to the Agent to grant the allowance or not as he may think proper - In such cases, the Audit Office will admit the payment to the extent of the rates now fixed without reference to Government for special Sanction -

From the Actg Collector of Ganjam

Sir

I have had the honor of receiving Extract from the Board's Proceedings of the 11th June transmitting Extract from the Minutes of Consultation under date the 31st May No. 539 on which the Government refer to the considerable falling off in the sales of Salt amounting in the month of March to Rupees 74,934—

In explanation I beg to state that this falling off was but momentary and that the sales effected in the succeeding Months

Fort St George 19th July 1849

Months of April and May together with Rupees 47,992-5-10 belonging to March but not brought to account when the Statement for that Month was despatched and which in the aggregate amount to Rupees 135,163-13-2 reduced it by the end of May to only Rupees 17,766-12-11.

Besides the reasons for the diminished sales in the Nawpadah Talaurs afforded in my letter No. 38 of the 7th June 1849 I may perhaps here be permitted to add that the disturbances prevailing in the early part of the year in the Jaypore Malahs arising out of differences between the Rajah and his Son and which have not yet subsided may possibly also have affected them

Sir,

With reference to the late order of the Board of Revenue dated 11th December 1848 on the subject of Extra Tent allowance, I have the honor to request you will be so good enough / if you think it necessary / to obtain their instructions as to whether I am entitled under the following explanation

to

Fort St. George 19th July 1849.

to draw Extra Tentage from 1st April to 5th June last while I was residing at Condaveed in my Revenue Charge.—

I have already drawn Extra Tentage from 19th February to 31st March while transacting at Condaveed the Jamabundy business of that and of a portion of the Nursarowpett Talooks. and while my residence at the same place for the further period above noticed will it is presumed be considered advantageous for the connected with my charge. I was at the same time induced to avoid the excessive heat of Guntoor at that season by considerations of facility of transacting my business and the preservation of health during the severity of the weather at that period of the year.—

Proceedings thereon.—

29. 30

It is observed that Mr. Newill has drawn Extra Tent allowance at Condaveed from the 19th February to 31st March whilst engaged in the settlement of that and part of the Nursarowpett Talook. If his continued residence at that place to the 5th June was merely for his own comfort and to avoid the heat at Guntoor the Board do not consider him entitled to Extra Tentage for the further period. but if he was detained there upon business which he could not have equally well performed at his ordinary Head Quarters, the charge may be allowed. provided Mr. Newill has during the whole time conformed to Rules 8—9 of the rules for the regulation of Tent allowance sanctioned by Government on the 20th March 1849. The Collector will be so good as to arrange with Mr. Newill accordingly.—

The names of Nulla Surragary Venkatapatty Conjah Bauhah and Conaleddy are entered in the Pymash Accounts and the Enamaty Account shews the names of Conjah and Venkatapatty. The deceased Nulla Surragary Mooniapah died at the age of 9 years and was the grandson of one Dausoo the Brother of Venkatapatty one of the above named individuals. The deceased held a share of 6-10-10¾ in the Enam valued at Rupees 14-11-3 besides a Dusvundum Enam of Rupees 9-5-9 and a Reddy Enam of Rupees 3-5-8 and is reported to have had a Cota Enam in Bengalore. The family is said to be in tolerable Circumstances.—

3. The resumption of the deceased's share in the Shala Enam is proposed by the Collector but as the deceased was a descendant (grand nephew) of one of the parties entered in the Enamaty Accounts the Board would recommend its being left to his Mother for her life.—

4 This is a Bhutwurtee or charitable grant. The entire Enam consists of 121-1-7½ ac of Dry land in +Nine Villages valued at Rupees 214-9-6 of half of the amount of the Collections in the Shrotriem of Bullakeewarepully valued at Rupees 118-5-11 and of 23-13 cs ds of Wet lands in Panta Cuddapah Chennoor Talook valued at Rupees 17-5-11. The name of the original grantee is not known but

but the Enams in Valavaly Cheyapaud Madherapully Jillah Camanoor and Bullakeewarepully were entered in the name of Hayagreeva Charloo both in the Pymash and Enamity Accounts and the Enams in Goodepaud Nalatoor and Amany Gollapully in the name of Cheyashacharry the Enam in Panta Cuddapah is also entered in both accounts in the name of Munnacharry.—

5. The deceased Bhullakey Gereyammah was the Widow of Hayagreeva Charloo one of the above named parties daughter to one of the others and distantly related to the third and was in possession of 95-38-15½ of the Enam lands valued at Rupees 186-14-6 besides being in the enjoyment of a share of Rupees 73-15-9 in the Shotriam and of a Dasawandum Enam of Rupees 12-14-4.—

Note. It is observed that there is some discrepancy in the value of the deceased's share in the Enam and Shotriam which amounts to Rupees 260-14-3 and not Rs. 255-14-3 as entered in Col: 9 of the Statement.—

6. The last incumbent left Two daughters in law named Rinnummah and Venkummah who it is reported earn their livelihood tolerably well and an adopted son Kristna Charloo whose adoption seem however to be disputed. The Collector recommends that the deceased's share be continued to her two daughters in law named above, their husbands not having survived her.—

7. The Board beg to recommend the continuance to the daughters in law of the deceased's share in the Enam and Shotriam in equal portions to be resumed at the death of the respective parties.—

8. This Enam is called Pella yettoo or Enam granted for levelling lands and making them fit for Cultivation. It is not known who was the original grantee but the Enam is entered in the Pymash and Enamity Accounts in the name of Reddy Mullos Mulreddy. The deceased yerra Candereddy was not related to this individual but was in possession of a share of 7-4/4 in the Enam valued at Rupees 27-9- besides being in the enjoyment of Dasavundum Enam of Rupees 2-14-- and certain Putta lands. He has left a Married daughter and a son of 10 years of age who it is stated are poor.—

9. The Collector proposes to continue the deceased's share to his son Woobulreddy during his life in consideration of the alienation having taken place 44 years ago, and the Board beg to recommend his proposal for the favorable consideration of Government.—

Proceedings thereon.- 1. It is not known when or by whom this grant was made and no Sunnud is forthcoming in support of it, but there is a deed of sale from one Sashachar=loo in favor of Sen Karamurchy Gooroombhut=loo of a date corresponding with Fusly 1239 A.D. 1829/30 The Pymash accounts do not shew the names of the Original Grantees and in the Enamity Accounts the names of Vacoo=lacharry and Sashacharry are shewn= Vacoolacharry's name being entered also in the Pymash Accounts.- But these parties bore no relationship to the deceased Sen Karamunchy Gooroombhuttoo.- The deceased was in enjoyment of the whole Enam= which he had purchased from Sasha=charry whose name is entered in the Enamity Accounts and the Collector proposes to continue the Enam for life to the Widow Boochemmah who is reported to be poor as the deceased obtained the land by purchase 18 years ago, and the brother and nephew being a divided family.- The Board concur in the= Collector's suggestion.—

Submitting 2 Statements received from the Collector of Cuddapah reporting upon two Enams which have lapsed in his District and supporting that Officer's application for the continuance of both Enams also proposing that Collectors be directed to add in future in the form of Statements reporting Lapses of Enams 2 other Columns with the view to expedite the business.-

In the absence however of any summunds these Statements cannot of course be relied upon.- Gopaula Bhuttoo is said to have been the original Grantee for all the Enam lands with the Exception of the Grant in the Village of Aukoomullah which is stated to have been first held by his Grandfather Appazoosooloo. The deceased incumbent Vijava varum Soobah Bhuttoo was the Grand Son of the above mentioned Gopaula Bhuttoo and was in the enjoyment of the whole Enam, and has left a Widow and Grand Son in

3. The Board may here take occasion to bring to notice that the mode which they have hitherto followed in submitting Statements of lapsed Enams Viz.t that of appending a detailed report upon each case appears to them to involve much unnecessary recapitulation. They would therefore propose with the approval of Government that the Collectors be directed to add to their present form of Statements two Columns Nos. 13. and 14. headed respectively "Recommendation of the Board of Revenue and grounds on which it is founded" and "Decision of Government" In transmitting the Statement to Government the Board will state their views of the case in the former of these Columns and on the Statement being returned to this Office with the pleasure of Government signified in the latter Column copy of the Government order will be communicated to the Collector for his guidance.

4. This method will be similar to that now followed in disposing of the various Estimates and Statements of charges and will it is presumed tend to expedite business.

Proceedings thereon:- 1. This would seem to have been an alienation by the Reddies and Curnums of the Village, but at what period or to whom granted is unknown, and no Sunnuds is forth coming in support of the grant. It is entered in the late Nawaub's Register and is subject to a Jodi of Rupees 1-- and has been long in professon of the family who formerly cultivated the land themselves but have latterly rented it to the Ryots. The deceased Bellum Conda Soobiah enjoyed the entire Enam which is now claimed by Payrummah the widow of the deceased's uncle, and the only surviving member of the family. The agent considers it may be continued to her for life and the Board recommend that sanction be granted accordingly.

Submitting Statement received from the Agent in Kurnool reporting on the Enams which have lapsed in his District in the 4th Quarter of 1847 and conveying the Board's views on each case of lapse.

is unknown. The original grantee is named Dathary a Sastry and the deceased incumbent Sreeramoodoo is 6th in descent from him. The grant appears in the Land Register and bears a perinnanent Jodi of Rupees 12-- and the lands are clearly shown to have been in profession of the family for a long series of years having been occasionally cultivated by themselves and at times given on rent. The Agent considers that the Enam should be continued to the family, but the Board would recommend that it should be continued in the name of the deceased's son Venkataramoodoo and that its enjoyment be limitted to his life.

3. This Enam is likewise entered in the Land Register and pays a Jodi of Rupees 5-5-4 and the remarks respecting the alienation of the last Enam applies to this one also. This Enam consists of land in two different Villages - It is unknown when and by whom it was granted or to what party The deceased Junggum Doogganee Iyerpa enjoyed half share in both lands, the other half being in the possession of Unpia son of his paternal Uncle. The land in the Village of Oolschalla appears in the Land Register in the name of the deceased's father and has been cultivated so far back as the Villagers remember, but nothing is known of its origin. The land in the Village of Purlay is not entered in the Land Register but appears as the deceased's in the Kattwar list prepared in Fusly 1251 and is known to have been cultivated by the deceased The Agent conceives that as the deceased and his father were worshippiers at the Village Pagoda the lands were assigned probably by the Villagers for their support independant of the Pagoda endowments, and he states that he has been under the necessity of resuming very many Enams held by the deceased indifferent other

In consideration of the Enam having been in possession for a number of years the Board recommend that the share held by deceased in both enams be continued to the family until the youngest child is 18 years old. They would not interfere with the moiety of the lands held by Upsiah during the life of that party.

It pays the Enam tax and was cultivated by the deceased Vencatachariar for 15 years prior to his death. The Agent suggests that the Enam be continued to the deceased's Widow or the Enam be continued to the deceased's Widow or if she dies previously until the Dungummah son now 6 years old has attained his 18th year, and the Board beg to support his proposal as regards both this and the next number.

The Register read the undermentioned Letter

for the Boards' information include trans-
lations of the plaint, the investigation
held in the Revenue Department, and
the order of Mr. Onslow directing the
grain to be sold by a certain date unless
the arrear was meantime discharged.
* Enclosure No. 15 a Copy of the * answer proposed to be
filed is also enclosed for the Boards
approval, and as these papers contain
all the facts of the case it is only ne-
cessary for me to allude shortly in
this address to the principal Points at issue.
3. When Narayana Pillay,
the owner of the estate lately died, he
left a widow Meenatchy Ammaul, and
a Sister in law Perwatty Ammaul as
his immediate heirs. These women employ-
ed their brother Soobaramania Pillay as
their agent and he managed the affairs of the
estate, securing the produce and paying
the Government assessment. The
Suit is brought against these es
three persons, as well as the ex
Government

Government Servants.
To discharge the first Kists
of the Current Year, money was borrowed on
from the Plaintiff to whom it is asserted
that deeds were given by Soobaramania Pillay
and his two Sisters on Stamp Cadjans mort-
gaging some property for the amount though
this is denied by the Plaintiff-afterwards
in March some new arrangements were
discussed between parties, and a deed was
prepared/ Enclosure 14 for selling the
produce of the Estate to Plaintiff at a
fixed price in satisfaction of the money
which he had advanced. This deed however
was not signed by Soobramania Pillay the
manager of the estate avowedly because
the Plaintiff did not deliver up the
deeds, which he had previously received
on account of the same debt. The deed
bears only the marks of the two women
and they state that when they
signed it it was understood that
Plaintiff

Plaintiff was to take the grain for the purpose of discharging the remaining Rists due for the current fasly. This he has not done and the women have therefore made no objection to the attachment of the grain on account of the Government arrears.

5. It remains to be explained that the grain was clearly in the hands of Soobramania Pillay the manager of the Estate who denies having ever made it over to Plaintiff. It was attached on the 19th April on the granaries and threshing floors of the land from which the arrear is due, and was pointed out by Soobramania Pillay as property which was in his profession and was available for satisfying the Government arrear. Under these circumstances it seems clear to me that all grounds of action is barred against the Servants of Government by the last part of Section XVII Regulation XXVIII of 1802 and also by Section VI Regulation XXVII of 1802 in which the expression "landed estate" has been construed by the Sudr Adalut to mean the land and its produce.

6. In order however that the Board

may be unfettered in giving a decision in the case it has seemed to me proper to delay the sale of the grain until their orders are received, and I request to be favored with early instructions regarding the course which I am to pursue respecting the suit.

7. I will only add that the arrears might I believe be realized by the sale of the land, but it would be a dangerous precedent to waive the right of the Government to the produce as the security of the public revenue, and the Plaintiff has no special title to consideration in this case. It is asserted and appears probable that he had previously received bonds mortgaging other property for the Money which he advanced for the first Rists and in the conflicting Statements which are made on this point; it is for the Civil Courts to administer justice between the private litigant parties.

Pillay the Meerasidar of Pottiem vga. not having paid the Circar's Kist Rupees 1,375 8/4 due by Naraina Pillay up to april and attached his produce 3800 Cullams of Paddy, and submitted accounts to Hoozoor. On this subject a petition was presented at Hoozoor by one Nagen Chetty of Ageelandom. Putta complaining that the Paddy attached was purchased by him for the sum he had lent to meet the Circar demand and raising objections thereto which petition was forwarded to me with your Sunned No. 149 dated 25th April directing me to enquire into it. and Submit a report.—

I herein enclose 10 documents which were taken in my investigation, Viz. 1 Deposition taken from the Petitioner Nagen Chitty. 1 Deposition taken from Soobramania Pillay the brother in-law and agent of the deceased Naraina

Soobramania Pillay deposed that he executed some other bonds for the sum of Rupees 1,900 which he borrowed from the Petitioner to discharge the three first

first Circar Kists.- He admits having executed an agreement to sell paddy at a rate to be fixed by him afterwards - but denies having done this and further states that in the agreement executed by him the Sum of 300 Rupees was added on account of an old debt.-

Meenatchee ammal and Parvathee ammal admit that they agreed to sell paddy at a given price to the Petitioner on his promising to pay the remaining Circar Kist due by them for the present fusly which the petitioner failed to do. and that they executed some other bonds for the amount which they had borrowed to discharge the Current Circar Kists.-

The witnesses and the Curnam State that Meenatchee ammal and Parvathee ammal sold the Paddy to the Petitioner and executed a Document called Carraikeroopoo and that Soobramania pillay

The petitioner States that he did not obtain any bonds from the Defendants for the amount paid by him on account of Circar Kist. but only certain bonds for some other sums paid by him for the particulars of which he must refer to his accounts.-

On taking the whole matter into consideration it appears that the abovementioned two females independent of the consent of their brother and agent Soobramania Pillay sold the Paddy to the Petitioner at a given price on his promising to pay for them the whole Circar Kist for the present fusly and as the petitioner failed to make good his promise Soobramania Pillay pointed out to the Peshkar the produce which is said to have been sold and stated that it belonged to him previous to its being attached upon

Translate of a Deposition taken from Soobramania Pillay brother-in-law and agent of Narraina Pillay the deceased Meerasidar of Pottiem before Egambram Pillay the Tahsildar of Mooseery on the 28th April 1849.

2. As you have failed to pay the balance of Circar Kist Rupees 1,375 3/4 due by Narraina Pillay up to april according to an order received from the Hoozoor an order was issued to the Peshcar of the Pottum to attach the produce of Narraina Pillay and other moveable property and send an account. The Peshkar accordingly attached and sent accounts for 3,800 Cullums of Paddy which were in 12 Ricks and in one Pattaray and were pointed out by you as your property - afterwards one Nagan Chetty of Agheelandom Puttee presented a Petition at the Hoozoor stating that 3,623 Cullums and 8 Mercals of Paddy out of the attached produce was sold to him by Meenatchee Ammaul and Parvathee Ammaul the Heirs of Narraina Pillay, what say you to this?

A. For the amount of Rupees 1,900 which was received at 3 different times from Nagan Chetty on account of the Kist of the present fusly I caused

Meenatchee

Meenatchee Ammaul and Parvattee Ammaul to execute 3 bonds on stampt leadjans. I did not sell the Paddy now under attachment to Nagen Chetty for the amount he paid to us, and I do not know whether Paurvathee Ammaul and Meenatchee Ammaul did so or not.

Q. Is any mention made in the said Bonds pledging the Paddy now Zufted for the amount?

A. No mention is made in the bonds to the effect that the Paddy is pledged for the amount.

Q. State whether you said to the Peishcar that the produce now under Zuft is yours and desired him to attach it?

A. Yes I told the Peishkar to that effect.

Q. Nagunchetty residing at agheland=putty has presented a Petition at the Hoozoor stating that the Paddy now attached by the Cirkar for the arrears due by you belongs to him, and that 3,666 Kalums were sold to him by you and your sister Parwady Ammaul, did you so sell to him?

A. On account of the Kist of the present year the said Nagun chetty gave money for three instalments the Amount of which I do not know, my brother Soobra=money apillay went and brought the money and said that Paddy is to be given for that money and he and Nagan Chetty brought me a written Cadjan to sign and I affixed my mark on it. I do not know what the sum due was or what quantity of Paddy was to be given that is known to my Brother.

Q. Did you only sign that Cadjan or did any one else sign it with you?

I.

Fort St. George 19th July 1849

A. I and my sister Parwady Ammaul put our marks on it.

Q. When was it written?

A. I recollect it to have been written in the Month of Maavey (February or March)

Q. Did any persons attest the account which was given by you to the said Nagan chetty after you had placed your mark on it?

A. No body signed it as a witness in my presence, I do not know who signed it afterwards.

Q. Ragan chetty residing at Agelandum Putty has preferred a complaint at Hoozoor stating that the 3,666 Cullums and 8 Mercals of Paddy now attached by the Circarwa account of the Balance due by Narayna Pillay was sold to him by yourself and Meenachy Ammal the wife of Narayna Pillay and

and that the Paddy therefore is his own, state whether you have sold them to him-

A. The above Ragan chetty lent to us 2,000 Rupees on account of Kist of this July and I sold to him Paddy at the rate of one Cullum and 8 Merkals per Rupee. I dont recollect the amount of the Paddy. It is entered in the accounts.

Q. Have you given any Document for having sold Paddy to Ragan Chetty.?

A. I have given a writ called Canacheerpoo with my signature.

Q. Does it bear your signature alone or that of other persons?

A. I and Meenachy Ammal my younger sister the wife of Narayna pillay have affixed our signatures to that account.

Q. When was the money paid and the Paddy sold.

A. The said Paddy was sold in January last and the Money paid partly in the same month and the remainder in two instalments prior to the above period.

Q. Is it the same Paddy you sold which is now distrained?

A. It is the same distrained Paddy which has been sold to Ragan chetty.

2. Your brother Soobramania Pillay states that you and Meenachy Amaul executed to Nagen chetty 3 Bonds for the loan of 1,000 Rupees borrowed for the Teircar Kist for the present Fusly Is it so?

A. I and Meenachy Amaul have given three Bonds for the sum we borrowed in order to pay the Kist for the present Fusly-I do not recollect the Amount inserted in them-As my brother soobramonia pillay and Nagen Chetty wrote them and requested me to sign them I did so-

2. If you had executed bonds for the Amount you borrowed why did you write and give a conaceerpoo promising to give price and make over Paddy to that Amount?

A. As Nagen chetty promised to pay the whole remainder Kist and desired us to pledge the Paddy we believed him and complied with his request; but he failed to act on his engagement.

Translation of a deposition of Seenevas Iyen son of Veneatsoobien of Maha:draungalum Village given before Akam:baram Pillay Tahsildar of Moosery on the 17th May 1849.

2 It appears that you at:tested the account of grain sold by Meenachy Amaul wife of Narayena Pillay and by her sister Parvathy Amaul to Nagen chetty of Agelandum-putty. Is this so?

A. The said Nagen chetty paid 2,000 Rupees in 3 different instal:ments for the kists of this Fusly besides which 200 Rupees were due to him on account of an old debt. For this Total sum or 2,200 Rupees the said Chetty re:quested Meenachy Ammaul Parvathy Amaul and Soobramania Pillay to settle the price of the Paddy pledged for his debt but Soobramania Pillay refused to do so. The two females Mee:nachy and Parvathy agreed to the pro:posal and directed the Thottiem Curnum Letch:mana Pillay to prepare accounts for the sale of the Paddy

Fort St. George 19th July 1819

Paddy and he accordingly prepared a Statement of sale after referring to the punnay Accounts for the grain stored in different places to the quantity of 3,666 Cullums. The above two females affixed their marks to the paper of their free will and consent and I attested it with my signature as a witness. The above heaps of Paddy have been delivered to the charge of Nagen chetty thro the means of their servants.

2 Q. Why did the Manager Soobramania Pillay refuse to sell the grain.?

A. When Nagenchetty desired Soobramanea Pillay to affix his signature to the account his answer was in the negative and then Meenachy and Parvathy both affixed their marks I am ignorant of the cause of Soobramania Pillays refusal to sign the account.

2 Q. How do you know that Nagen chetty advanced 2,000 Rupees for the kists due to the Cirkar.

A. I was a private Conikapillay ~~of~~ of Noroyna Pillay and Soobramania Pillay caused me to enter the amount in my accounts therefore I am aware of it.

Nagum Chetty of Agelan-

2 Q. dum Pillay has named you as a Witness regarding the Paddy sold to him by Paurvathy Ammaul and her sister Meenachy Ammaul wife of Narroina Pillay of Thottiem what do you know on that subject.

A. The said Paurvathy Ammaul and Meenachy Ammaul desired Letchmana Pillay the Village Curnum to write an account of the Paddy, Cullums 3,666 at one Cullum and 8 Mereallo per Rupee

Rupee sold to the said Nagun Chetty for the Money Rupees 2,200 due to him by the said Parvathy Ammaul and Meenachy Ammal &c. He wrote the amount accordingly and on Nagun Chetty desiring their superintendent Soobramania Pillay to affise his signature to it he objected and refused to do so after which the said Meenachy Ammal and Parvathy Ammaul put their marks in that sale account and I attested it with my signature as a Witness.

2. Do you know that Nagun Chetty paid the said sum of Rupees 2200?

A. The Money was not given at the time the Paddy was sold but a sum of Rupees 2000 had been received prior to that for the Kisto of the present July on account of which and a former balance of Rupees 200 making a total of 2200 Rs the Paddy was sold as I was doing duty on that estate (Punnay) and was present when the said account was written I know the affair.

Q. Look at the documents now presented by the said Nagun Chetty and state who wrote it and if you attested it &c

I

I have looked at the document. It is the deed of sale written by Letchmana Pillay Village Curnum of Thottiem and after the said Meenatchy Ammaul and Parvathy Ammaul put their marks to it I attested it. The signature of Arnachellum as an attesting witness which it bears is mine and it is the same account which I saw prepared.

A.

Q. Did Nagen Chetty take away the Paddy thus said to be purchased by him?

A. He did not, the Paddy is still in the granaries (Puttiers) and other places.

The said Meenatchy Ammaul and Paurvady Ammaul put their marks to the Cadjan and gave it to the said Hagun Chetty

2. What quantity of Paddy did they give and for what sum?

For

Fort St. George 19th July 1849

For 2,200 Rupees 3,666

A. Coullums of Paddy was entered as sold in the accounts and I also supplied Hagun Chetty with a Memorandum of the Paddy which he received and went away in Company with Soobbramaneya pillay and the Punnay people

I was not present when the Paddy was made over to Hagun Chetty but Seene: vasa Iyen the Punnay Curnum and Arnachellum pillay the witness told me that the Paddy was made over to Hagun Chetty and that Memorandums were put on the heaps.

2. Did the said Hagun Chetty take away the Paddy which was sold to him or not?

A. He did not take it away, and it is in the same place as when cut and stored

2 Look at the account produced by the said Hagun Chetty is it the same that was then written?

A. I have looked at it, it is the

the same which was written by the desire of Meenatchy Ammaul and Sourvady Ammaul and given to Nagan Chetty.

2. Is the Paddy that has been attached at Gowtroyanelloor and Pottiem on account of the said Narayana pillay (deceased husband of Meenatchy Ammal) the same which was previously sold to Nagan Chetty or is it separate?

A. It is the same Paddy that was sold to the said Nagan Chetty but as Soobbramania pillay said at the time of the attachment that it belonged to him it has been so put down in the account of attachment.

Translation of a Deposition taken before E. Maltby Esqre Collector of Trichinopoly from Luchoomana pilly son of Coopayapilly Caste Vellalen. Siva Sect. Village Curnum aged 62 years and residing at Thottiem of the Moosery Talook.

2. Your deposition given before the Tahsildar on the subject of the paddy claimed by Ragan Chetty has been now read to you is it correctly written?

A. Yes, I gave that deposition.

2. When did Narrainapilly Meerasidar of

of the Thottiem Village dec.d after his death who superintended his lands, and who paid the Circar kists:

A. Narrainapilly died in the Month of Tye / January / year Pelaviga date not remembered-after his death his brother-in-law Soobramaniapilly has managed his lands paying the Circar kist and making every arrangement for their Cultivation.

2. Did Meenatchy Ammaul Wife of Narraina Pilly and Paurvady Ammaul execute any Mooktearnamah to Soobramaniapilly aforesaid for him to manage the estate, and has Soobramaniapilly any share in the Punnay (or estate).

A. Meenatchy Ammaul and Paurvady Ammaul after Narainapillay's death executed a Mooktearnamah to Soobramaneapillay giving him the Management and the said Mooktearnamah is now in his / Soobramaneapillay's / possession. He has no share in this estate. but holds some other landed property in the name of his Father and pays annually to Government a kist of 130 Rupees.

2. In the deposition you gave before

before the Tahsildar you stated that Meenatchy Ammaul and Paurvady Ammaul executed to Ragan Chetty a Memorandum of sale of 3.66 fullums and 8 Meracals of Paddy, that the Memorandum was drawn out by you and that Soobramaniapilly the Punnay Superintendent refused to sign it. What objections did he then make, and why did he not sign it?

A. On account of the Kist of November 1848 Soobramaneapilly mortgaged some lands to Ragan Chetty and borrowed from him 700 Rupees for the Kists of December and January. Meenatchy Ammaul and Paurvady Ammaul executed 3 Bonds and borrowed from Ragan Chetty 1500 Rupees. Soobramaneapilly said that unless these 4 documents together with 2 agreements were given back to him and Money paid for the three remaining kists he would not sign the Memorandum of the sale of paddy. Ragan Chetty said that those documents were not then present and that he would send for and give them afterwards, but that he would not give any more money to which Soobramaneapilly replied that as Money was due to the Circar he would not sign the Memo: of sale and did not do so.-

Was

2. Was Soobramaniapilly present at the time when Meenatchy ammaul and Paurvady ammaul put their marks to the Memo: of Sale?

A. He was present at the time.

2 Why did you draw out that account without the consent of Soobramaniapilly who superintends all the Punnay affairs under the Mookteearnamah executed to him and why were the marks of the said two Women obtained to that account.

A. I wrote that Memo: of sale of Paddy by the desire of Soobramaniapilly who was then present and Ragan Chetty obtained the mark from Women but as he did not return the previous bonds according to the demand of Soobramaniapilly and objected to pay Money for the three remaining kists. Soobramaneapilly did not consent to sign the Cadjan.

2. Were you present when the Circar Servants attached the Paddy?

A. I was not then present being at the Jamalundy Cutcherry.

2. Did you see Soobramaniapilly open his lack or Seal and give the Paddy

Paddy over to Ragan Chetty?

A. I did not.

2 How then did you state before the Tahsildar that the Paddy was made over to Ragan Chetty and what information had you on the point?

A. I only heard what Meenatchy ammaul and Paurvady ammaul said to Ragan Chetty and stated the same to Ragan Chetty before the Tahsildar.

2 When did they speak to Ragan Chetty?

A. At the time of drawing out the Memo: of Sale of Paddy.

2 Did Ragan Chetty afterwards remove the Paddy or what became of it?

A. The Paddy is in the threshing floors where it was stacked by Soobramaneapillay, and Ragan Chetty did not take away any portion of it.

2. It appears by the investigation that 1,900 Rupees were borrowed in Cash and that the amount of Rupees 2,200 included a former debt of 300 Rupees. Why did you then say that 2,200 Rupees were borrowed in Cash from Ragan Chetty to pay the Kists.

Fort St. George 19th July 1849.

A. I stated the total amount of the account but was not present at the time on when the money was received.

Q. You have heard this deposition read to you, is it correct?

A. It is — correct.

The produce of the land should according to the provisions of the Regulation be first taken to satisfy the demand of the Circar. and as it is considered as a pledge so long as the payment of Cirkar kist is not made, you will if the Balance is not paid within the 15th issue a proclamation on the 16th June and sell the produce by auction according to the Regulation and realize the arrear.

Draft of Proposed Answer.

1. In reply to the Suit D.C. No. 374 of 1849 which has been brought by Nagum chetty, the Collector of Trichinopoly has the honor to make the following answer on behalf of himself and the 2d. and 3d. Defendants for whose proceedings as his subordinate servants he declares himself responsible in the present instance.

2. The 1st Defendant will commence by observing that he considers the Suit inadmissible in its present form, as the Plaintiff does not sue for the value of property illegally or wrongly attached and sold, but prays that the Court will order certain produce attached for arrears of revenue to be released from attachment and given to him. Plaintiff has therefore requested the Court to exercise an authority which it does not possess.

3. The 1st Defendant might claim the immediate dismissal of the Suit on the above ground but if the Court on instead of taking this step and ordering the

Fort St. George 19th July 1849.

the Plaintiff to file a new Suit for any damages which he considers he has sustained allows him to amend his present plaint the 1st Defendant is prepared to show that the action is not tenable against himself and his subordinates, the 2nd and 3d Defendants.

4. In the plaint, Plaintiff claims 3,666 Collams of paddy alledging that it was sold to him by Meenatchee ammaul 4th Defendant, and Parwatee ammaul 5th Defendant, the proprietors of the estate where it was grown by a Sale agreement dated the 4th March last in satisfaction of a prior debt. It is however to be observed that the document was not signed by Soobramanea Pillay 6th Defendant the Manager of the Estate in question who deposes that he would not affix his signature because Plaintiff failed to deliver up certain other documents which he had previously received in satisfaction of the same debt. The two women Meenatchee ammaul and Parwatee ammaul moreover aver that in placing their marks to the deed in question they did so on an understanding that

that if the Plaintiff received the grain this was to be on account of his engaging to discharge the remaining Kists of the current Fusly, which he has not done. The Statements in the Plaint are therefore contradicted by the Defendants more immediately concerned, but the 1st Defendant leaves the Court to decide between those parties as he is not concerned in the matter thus at issue between them and only alludes to it to shew that the grain was attached for arrears of revenue with the consent of the owners of the land.

5. When the attachment took place the grain was in the granaries and threshing floors of the Estate upon which the balance of revenue was due. Soobramania Pillay who is the Manager of the Estate, as shewn in the Plaint itself, and who had charge of the produce and paid the Circar Kists declares that he had neither sold nor made over the grain to Plaintiff. It was pointed out by him to the public Servants who made the attachment as in his possession and available for satisfying the arrear due

upon the estate. It has been already observed that the grain was actually still on the Estate when attached and the 1st Defendant therefore maintains that under the concluding part of Section XXII Regulation XXVIII of 1802 it was undoubtedly liable to be attached in satisfaction of the arrear due to Government upon the land, notwithstanding any claims which might be made by private parties to it. The 1st Defendant would further observe that the landed estate alluded to as answerable for the public revenue in Section VI Regulation XXVII of 1802 has been ruled to include the land and its produce and the Courts have invariably released such produce when attached in execution of decrees on a representation being made by the Collector that a Government arrear upon the land, which has preference over all other even prior claims, remained to be satisfied.

6. The 1st Defendant therefore urges that the Plaintiff has no ground of action against himself and the 2d and 3d Defendants, whose names he requests may be struck out of the Suit and the Plaintiff be adjudged to pay their costs for wrongfully including them in the action.

Sir,

I am directed by the Board of Revenue to submit for the orders of the Right Honorable the Governor in Council the accompanying letter with its enclosures from the Collector of Trichinopoly, reporting the institution of a suit against himself and some of his servants, for wardiness Copies of the plaint of the answer which he proposes to file, and of other papers connected with the case, and requesting permission to conduct the defence of the action at the public expense.

2. It will be perceived that the suit in question has been brought to recover possession of certain grain alleged to have been sold to the Plaintiff but seized by the Collector in satisfaction of arrear of Revenue due by the parties in whose land it was produced. In his proposed answer

Fort St. George 19th July 1849.

answer the Collector has shewn that the deed under which the grain is asserted to have been sold was not signed by the Manager of the Estate - that the conditions upon which it was executed by the two women, the actual owners of the land was stated by themselves not to have been made good by the Plaintiff, that the grain was attached in the granaries and threshing floors of the land on which the arrear was due - and that it was pointed out by the Manager, who denied having ever made it over to the Plaintiff, as property in his own possession available for satisfying the Government demand, a course to which the females owning the land made no objection - Under these circumstances it is contended that the attachment of the grain was warranted by the concluding part of Section XXVIII Regulation XXVIII and Section VI Regulation XXVII 1802 and that the Plaintiff has no ground of action against the Collector or his servants the 2nd and 3rd Defendants whose names should be struck out of the Suit, the

Plaintiff

Plaintiff bearing their costs.

3. This defence appears to the Board of Revenue to be insufficient and they therefore recommend that the proposed answer may be put in and the action as regards the three first Defendants carried on at the public expense.

4. It will be remarked from Para 6 of the Collector's letter that the grain, which forms the subject of the Suit, is still unsold. but the Board see no reason why the sale should not be proceeded with.

From the Asst. Collr. of Coimbatore — Reports that at several times made full enquiry into Mrs. Ryan's various claims on portions of the public Garden as well as water supplying it under requests the sanction of Government for the purchase of 18-76 281 at 50 Rupees each Cawny lower portion of Garden belonging to Mrs. Ryan the boundaries thereof has been accurately laid down by Captain Cuttenlony

I have the honor to acknowledge the receipt of your letter of the 11th August 1848. and to report for the information of the Board, that I have several times made full enquiry on the spot into Mrs. Ryan's various claims on portions of the Public Garden, as well as the water supplying it. Mrs. Ryan's Agent. Mr. Fletcher, the Surveyor. Mr. Williams (who made the original Survey plan). Mr. Mc Ivor the Gardner the "Todas" with other witnesses, as well as some Members of the Garden Committee with Major Hall, the Commanding Officer, were each time present.

2- To the upper part of the Garden, Mrs. Ryan's claim is very vague and indefinite resting mainly on an alleged deed of the Todas about 12 years ago, in which no boundaries are given and which the Todas disclaim in fact, the Boundaries of "Washington Hall" (Mrs. Ryan's Property) were originally very indefinite, as all the early limits on these Hills, before land was so valuable and any systematic enquiry or surveillance existed.

About

Fort St. George 19th July 1849.

3. About 6 Gds 4ft 10 - 16 281 of the lower portion of the Gardens appear to belong to Mrs Ryan the boundary has now been accurately laid down by Captain Ouchterlony whom I requested to resurvey it, this portion was originally a worthless swamp it has now been drained and redeemed at considerable expense of Public funds (rather prematurely, while belonging to Mrs Ryan), the Garden Committee have now offered to purchase it of Mrs Ryan at 50 Rupees per Cawny an ample offer considering its former useless conditions Mrs Ryan who said little about her claims while the improvements were in progress now asks more, the Committee holds it to use free (as given by the late Mr Ryan) for 20 years, and unless Mrs Ryan accedes to their reasonable and fair offer, they propose so to hold it taking care to erect no buildings upon it.

4. As regards the supply of water the quantity now found flowing to Lushington Hall and amply sufficient, when twice inspected by the Garden Committee Mr. Mr Ivor and myself, was directed to be continued, and allotted to Mrs Ryan's Property, all surplus to go to the Public Gardens the quantity flowing was measured by Surveyor Williams and Mr. Mr Ivor and I have requested the Garden

Fort St. George 19th July 1849.

Garden Committee to build a small cistern with measured apertures of supply on the spot where the two channels Mrs Ryan's and the Public Gardens separate The spring and channel rise as do all others on the Hills in waste and Circar lands and cannot be claimed as a Monopoly by Mrs Ryan or any other private party whatever tho' she has for a considerable time usurped and appropriated it.

5. I should have left the waters to be settled by the Committee proposed in my letter to Government dated 28th May 1849 but that it seemed important for the interests of the Public Gardens, and the Committee was desirous, that some decision should be made on this water without delay.

6. I would add in conclusion, that both on account of the Public Gardens, and the fact of Mrs Ryan and her agent Mr Fletcher being amongst the most litigious and unreasonable of the Proprietors, I have been at considerable pains and trouble to give the matter a full and patient enquiry, and to bring it to a satisfactory conclusion. Mr Mr Ivors exertions being greatly paralized till both the disputed land and waters were settled.

7. I would finally at the instance of the Committee request the sanction of Government

under the Boards recommendation to purchase the lower portion now adjudged to Mrs. Ryan should she be inclined hereafter to accede to the fair offer of the Committee, and thus preclude all future discussion or interference on her part. the amount would be Rupees 533-9-3.

as belonging to the Estate of the late Mr Ryan -

2 -

From the letter of the Acting Principal Collector of Coimbatore it will be perceived, that he has several times and with much care inspected the localities and made investigations on the spot in company with all parties interested or likely to be informed upon the subject and the result of his inquiries has been to show that about 10 - 16 - 281 S.F. of the lower portion of the Gardens belong to Mrs Ryan. The boundary has now been accurately laid down by Captain Ouchterlony - The Garden Committee have offered to purchase the land at 50 Rupees per Cawny, but Mrs Ryan asks a higher price - The Committee however hold its use free (as given by the late Mr Ryan) for 20 years and unless Mrs Ryan accedes to their reasonable and fair offer, they propose to hold it, taking care to erect no buildings upon it -

Note: See Agreement appended to letter from Garden Committee to Government 30th May 1848 &c - & 50 in Extract Minutes Consultation 27 June 1848 -

This course seems to the Board to be proper - The arrangements respecting the distribution of water between the Gardens and Lushington Wall, as explained in

11047. Fort St. George 19th July 1849.

in Para 6 of Mr. Thomas's letter, appear also to be equitable. and they would beg to support the measure proposed at the conclusion of that communication, Viz. to "purchase the lower portion of the Garden "now adjudged to Mrs. Ryan, should she "be inclined hereafter to accede to the "fair offer of the Committee, and thus "preclude all future discussion or interference on her part". The price, it is stated would be Rupees 533- 9- 3-

On the letter from the Board to the Principal Collector of Coimbatore dated 14th August last, they desired that if the space taken up or required for the Gardens contained any further quantity of land i.e. beyond that claimed by Mrs. Ryan, it should be explained to whom the land belonged and whatwere the titles of its proprietors. Mr. Thomas has not afforded any information upon this point from which the Board infer that all the land occupied by the Gardens except that belonging to Mrs. Ryan's estate.

2 - The nature and purpose of these investigations are shewn in Mr. Conolly's letter of 12th. May last and in the Memo from his Head Assistant which accompanies it. It will be seen that the properties in question, situated in the Palghaut and Trimalpooram Talooks, belonged to one Chemat Nair and lapsed to Government upon his death without heirs in 1790. The larger portion were found to be in the hands of Mortgagees.

the remainder in those of mere tenants. With the exception of the renewal of grants made by Mr. Sub Collector Drummond in 1808, which is stated to have been done in a very loose manner and without any exact survey or account, little appears to have been effected for asserting or securing the rights of Government since the time of the escheat and as a necessary consequence many frauds have taken place, and the public interests to have suffered. The Collector now proposes to have a correct survey made of the whole tract, and a detailed inquiry made into all such abuses as it is reasonable, with reference to the lapse of time, to investigate. When matters are made as clear as they can be, it is intended to have a renewal of Deeds with each holder of an escheated Estate according to what is stated to be the usual procedure in Malabar - and the Estate will at the same time be so clearly mapped and laid down as to prevent any irregularity or doubt for the future -

3 - The inquiry will be conducted under the immediate superintendence of the Head Assistant Mr. Robinson, and to aid him in

Fort St. George 19th July 1849.

in his researches the Collector has placed under his orders a Cutcheray consisting of the most practical and experienced servants in the District. To prevent the accumulation of arrears of business it is however desirable, that persons, thro' on much smaller rates of Salary, be employed temporarily to officiate in the situations whence the servants deputed to assist Mr. Robinson have been withdrawn and for this purpose the Collector has solicited sanction for the entertainment of a small additional Establishment consisting of 8 Goomastahs upon Salaries varying from 25 to 6 Rupees per Mensem, to be employed for the period of 6 Months at an aggregate charge of Rupees 498 -

4- The full benefit which will accrue to Government from the inquiry cannot be determined until it has made further progress - The profit from the renewal fines alone is estimated at from Rs. 15,000 to 16,000 Rupees though it may not be advisable to exact the whole Amount due in all cases adverting however to the circumstances explained by Mr. Conolly and in the belief that the investigations is in the hands of those from whom it will receive all justice the Board of Revenue beg to submit this application for the additional Establishment required for the favorable consideration of Government.

5- It is observed that Mr. Conolly has not forwarded his application in the mode prescribed by the orders of Government of 4th March 1844 - He has been called upon to supply the proper form of application which will be forwarded to Government as soon as received

Sir,

In acknowledgement of the

Fort St. George 19th July 1849.

receipt of your letter of the 26th April last with enclosures relative to the amount subscribed to "Wardens Official Fund" by the late Jattier of Surratum Row, I have the honor to inform you that the name of Ram Row as a Gomaistah in the Hoozoor Cutcherry of this Collectorate, is not traceable on the records of my Office, I shall therefore be obliged by your affording me more particulars on the subject.

There were two Ram Rows in this Collectorate. One died without heirs. The other became a Manletdar and was dismissed before the Fund was established as I understand.

To the Chief Secretary to Government.. Sir,

1. I am directed by the Board of Revenue to acknowledge the receipt of an Extract from Minutes of Consultation under date the 1st of May last, in which Government, after recording their approval generally of the arrangements in force in the District of Vizagapatam for regulating the Salt department as explained in the communication from the Collector forwarded with the Board's letter on the 10th of April previous, remark, that they learn "that a considerable period "elapsed between the date of manufacture and "that of receiving the Salt in store, and that during "that period it is secured by the Ryots in "temporary heaps, the amount of each being "estimated and recorded." "This part of the Salt arrangement" it is added "is open to much "abuse inasmuch as it affords facilities "for placing on the heaps a large quantity "than that estimated which by the "connivance of the Public servants

Submitting in reply to the orders of Government letters from the Collector of Ganjam, Rajahmundry, Masulipatam, & Guntoor on the subject of storing Salt in their Districts, and conveying the Board's views on the period within which it should be stored in the Districts of Ganjam and Vizagapatam.

may never be brought to account. Before permitting the continuance of this deviation from the Salt rules, and practice obtaining in other Districts of regularly receiving into Store the manufacture of the year before the Monsoon sets in, the Right Honorable the Governor in Council "desired to know what is the practice regarding the "storing of Salt in the neighbouring Districts of "Ganjam and Rajahmundry, also in Masulipatam "and Guntoor".

In reply I am directed to submit

2. for the information of Government the accompanying reports which have been received from these several Collectors, in answer to the reference made to them in compliance with the requisition of Government.

1570. From Ganjam 11th In Cons: 21st June 1849.
1631. From Rajahmundry 19th in Cons: 28th June 1849.
1462. From Masulipatam 31st May in Cons: 7th June —
1457. From Guntoor 30th May in Cons: 7th June —

From these it will be seen that

3. as regards the adjoining district of Rajahmundry the practice obtains of collecting the Salt when first manufactured into temporary heaps which is then "estimated by the Chief native servants at "the Salt pans and a report of the quantity "produced is made to the Head Assistant

Collector

"Collector who thereupon issues orders for the proper
"storing and securing of the Salt- Which operation"
the Collector adds "is invariably concluded before
"the setting in of the rains, whether the whole
"amount contracted for has been manufactured
"or not"-

4. The system in Masulipatam is nearly similar- the Article when ready "being removed to the Platforms where it is allowed to lie "for more than a month for evaporation, and "then it is stored into heaps which is completed "before the setting in of the Monsoon"- The Collector of Guntoor reports "that the instructions of the "Board that the Salt should be brought to "account within two months of its' manufacture "have been adhered to as far as practicable"-

5. In the District of Ganjam, on the other hand, it appears that the Salt "when manufactured" is packed up in heaps "under thatch on the Plant forms with due "precautions for its security and allowed to "remain in that state till May or June, when it will

"will be found to have lost its moisture and become
"sufficiently dry for storing which is then immediately
"performed and completed by the beginning of August"

6. The period during which the Salt is permitted to remain in temporary heaps would appear to be between three and four months in the district of Ganjam and which it is stated in the report received from the district "cannot will be shortened or avoided;" the Board however do not see the necessity for thus postponing the final storing for the ostensible object of effecting the required evaporation, which is found to be sufficiently attained in a much shorter period in the three more Southern districts of Rajahmundry, Masulipatam and Guntoor- The climate of Ganjam may possibly be more humid than those more Southern Districts- but they nevertheless consider that it would be more expedient that the Article should be brought to account within two months of its' manufacture or as soon after that interval as may be found practicable-

And

And under no circumstances do they think that it should be postponed either in this District or in that of Vizagapatam until after the setting in of the Monsoon—
