Variation of Charges from Fuslies 57/58

Increase Decrease

No. 1 The increase under this head is occasioned by the Salaries of the Superintendant of Goldingal from May to July 1848 having been omitted in the Salaries of the two Aboly Collectors also a Superannumerary allowance and no Charges on account of the same having been made this year that being more than the year that

No. 2. The Decrease under this head is occasioned by the Inspecteur Sibbendy having been transferred to the head of Magistracy of Tanjore and Tinjengalletah Sanctioned by the Board of Revenue in their Proceedings of 20th January 1849 consequent on a Consultation under date the 15th December 1848 during the Currency of the Fusly

No. 3. The Decrease under this head is occasioned by the Abolition of three Cutwaly Establishments from March 1849 to the end of the Fusly per General Regulation of the Government of India under the 20th December 1848. The reason of the Decrease in certain Villages Sibbendy Talooks being proportionately less than the Talooks for Fusly 1257

No. 5. The Increase under this head is occasioned by the amount disbursed on account of Oil & Cotton articles being more than the preceding one.

me may in some measure plead my excuse.-

2. The Settlement of the Jummabundy was commenced by Mr Birch in the Talook of Poloor in the middle of February, and this Gentleman having quitted the Sub Division on the 31st of March after having completed the distribution of the Puttahs of Poloor and nearly finished that of Trivatoor, I came down to Trivatoor and Wundawash for the purpose of commencing the settlement, and was soon afterwards superseded by Mr Bayley who completed the Jummabundy at Arcot on the 12th of June. The total amount of Puttahs given out comprises 33,304, of which all were distributed and received by the Ryots with the exception of 166 which were at first refused upon various trifling pleas, and were left with the Tahsildars to be given out subsequent to the adjustment of the petty disputes connected therewith, which had led to their being rejected.-

3. In regard to the healthiness of the

season, in comparison with the two Fusslies immediately preceding, I regret that it is not in my power to record a more favorable report. The Cholera made its appearance as a sporadic disease among the poorer classes in the Month of February, and in some parts of the Sub Division assumed the form of an Epidemic. It prevailed to a certain extent until the termination of the Fusly, decreasing in general, but somewhat on the increase in a few places, particularly on the eastern border of the Sub Division. The annexed Statement exhibits the number of deaths reported as having been occasioned by cholera during Fusly 1258.-

No.

No other Malignant disease has visited the sub division, nor has the amount of fever incidental to the people, been greater than usual.-

4. The season of Fusly 1258 which is now under report, when compared with the preceding Fusly, has been decidedly unfavorable, but it has proved in many respects more favorable than those of several years, preceding the fortunate season above mentioned particularly Fusslies 1252 to 1256 inclusive. The decrease in the Revenue of Fusly 1258 amounts to Rupees 25,562—2—6 below the entire Beriz of Fusly 1257 but amounts to Rupees 43,800—11—7 above that of Fusly 1256 and Rupees 15,546—1—9 in excess of the Beriz of 1255. In Fusly 1251 the Beriz exceeded that of the present season by Rupees 20,068—2—8 and in Fusly 1250, by Rupees 33,091—4—8. This decrease in the Revenue of the Fusly now under discussion is attributable entirely to the partiality, scantiness, and untimely falling of the rain.—

5. In the Months of May and June

June, the rain fell in nearly the same quantity as in those Months in Fusly 1257 but in July and August the fall of rain was considerably less than in the corresponding Months of the preceding year and was moreover very partial as many places were not visited by rain at all during these two months. Consequently a great diminution has taken place in the cultivation of the Cuddee (or dry white crops ripening in the ear) comparatively with the former season. The Cultivation of Kar and yadama (rice, and of Coyee (or dry grain crops, ripening in the pod) has also fallen off to a considerable extent. In the month of September the rain fell copiously in most parts of the Sub Division, and in the succeeding month there were several heavy showers the Sumbah or principal rice cultivation was in consequence carried on with spirit. The November rains proved favorable, and in December and January there was likewise a fair average fall of rain; The cultivation of Navaray and Madungul rice was however very inconsiderable, as it

it appears that the marketable value of this description of rice has fallen greatly in the present year— The Dowl-mirkh or commutation rate is Rupees 87—8a—0p per Garee. In the preceding Fusly of 1257 rice was sold at an average of 89rs—12a—0p in all four Talooks thereby affording a profit of Rupees 2—4rs per Garee. In the Fusly under report, Rice sold at an average of Rupees 63—5—0p being Rupees 24—3rs below the commutation rate— The ryots therefore preferred leaving their lands uncultivated in the winter months.—

6. Enclosure No. 1 exhibits a comparative Statement of the Cultivation of the various Crops according to their classification— The Poojah or dry land appropriated to the cultivation of Cudder Crops in all four Talooks was less than that of Fusly 1257 by Cawnies 3,672 62/16 or Rupees 10782—15a—8p In the land occupied by Coyee Crops there was an increase in the talook of Arcot of Cawnies 95 47/64 or Rupees 205—14a—10p in excess of the foregoing Fusly, but the other three Talooks exhibit a decrease in this portion lar

lar to the extent of cawnies 701—24/64 or Rupees 1807—3a—8p In the item of Indigo, there was an increase in the three talooks of Arcot, Triuttoor and Polour, to the amount of cawnies 260 55/64 or Rupees 839—8as—2p, and in Wandiwash talook there is a decrease of cawnies 2 17/64 or Rupees 1—2—5. The total increase in Poonjah cultivation (including Coyee crops and indigo) amounts to cawnies 356—38/64 of Rupees 1045—7a—0p and the decrease in Poonjah land (including Cudder Coyee and Indigo) amounts to Cawnies 4376 39/64 or Rupees 12,591—5a—9p. The entire Poonjah Cultivation in the four talooks of the Sub Division, amounting to Cawnies 47,790—34/64 or Rupees 132,279—8a—3p exhibiting a net decrease under this head of Cawnies 4,020 of Rupees 11,545—14a—9p.—

7. In the rice cultivation of Nunjah or wet lands, there is a decrease in the Kar Crop in all four Talooks to the amount of 1,824 35/64 Cawnies or Rupees 17,052. 5a—0p below the preceding Fusly— This is owing entirely to the want of sufficient rain between the Months of May and August inclusive

inclusive.—

8. In the item of Sumbah or principal rice Crop, there is a considerable increase in all four talooks, amounting to Cawnies 5,445 58/64 or 56,146—14—a 0—1 in excess of the preceding Fusly. This is mainly to be attributed to the abundant fall of rain in the months of September and October.—

9 The Averay or inferior rice crop in all four talooks exhibiting a decrease of 4620 17/64 Cawnies or 49,562—8—8.— below the preceding Fusly, owing to the cause already mentioned in Para 5, namely, the cheapness of rice in the Market at the time, which precluded all hope of an adequate remuneration for labour and consequently deterred the ryots from cultivating their lands.—

10. In the item of Madungul, or rice of the most inferior kind, there is a decrease in the cultivation, in the three talooks of Arcot, Trivuttoor and Poloor, amounting to Cawnies 116 10/64 or Rupees 1,139—12—9 below last Fusly, for the reason adduced in the foregoing Paragraph.— The market price

price of rice was at the time so small that the cultivation of this article promised to entail a certain loss on the Ryot.— In the talook of Wundivash, Madungul rice is never cultivated

11. During the last three years, there has been a gradual and steady decrease in the culture of Sugar cane throughout the Sub Division.— This is not to be attributed to any unfavorable circumstances attendant on the soil, climate or supply of rain, but to the diminished value of the article and comparatively small demand for it, among the merchants trading for exportation.— The culture of this Cane in all four Talooks is less in this Fusly than the preceding, by Cawnies 287 57/64 or 4147—5—1. The numbers of Maunds of Sugar, transmitted to Madras, during the Fusly amounted to 40,000 as per certificates granted, being in excess of the quantity sent last Fusly, by Maunds 232.— The entire quantity of this sugar appears to

outstanding for Fusly 1255, the sum of Rupees 533–3–4 has been struck off having been remitted to the ryots agreeably to the instructions conveyed in the Minutes of Consultation of 28th September 1848, referred to in your Memorandum of the 10th Instant and the remainder, namely. 9–15–3 has been struck off on account of the Saghiredar of Calaway as was done last year. The balance from Fusly 1240 to Fusly 1254 amounts to 388–0–10, the accounts connected with these, have been previously transmitted to the Hoozoor.

28. The Statement No 1 in which the details of different species of cultivation &c are shown, has been drawn up for the Fusly under report in the usual manner hitherto observed; as it had been prepared and the greater part of this report already framed previous to the receipt of the Extract from the Proceedings of the Board of Revenue dated 16th of August 1849. The instructions conveyed in para 4 of that Extract will be carried into effect in future.

From the Collr of Madras ... 20th Oct. 1849.

To
T. Pycroft Esqre
Secretary to the
Board of Revenue.

Sir,

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated 15th Instant, and to submit herewith a letter from my Assistant, Mr Taylor, containing the explanation called for by the Board.

Madras ..... 22d October 1849.

(Signed) I. A. Hudleston
Collector.

A.

To
I. A. Hudleston Esqre
Collector of Madras.

Sir,

I have the honor to state for the information of the Board of Revenue with reference to their Proceedings of the 15th Instant, that the Salt heap referred to in Para 4 of my letter of the 27th September, did actually, on remeasurement exhibit a deficiency of about 10% and that I consider it to be the same alluded to in

in Petition No. 1805, because it is the only heap remeasured by the Contractor of which the outturn is so unfavorable.

Stores 11th May remeasured 20th Sept. and 21st

2. Little more than 3 months elapsed between the storing of the heap in question and its remeasurement for sale, and I employed the Hoozoor Head Sumpretty V. Ramakistna, to be present, with the Salt Superintendent, on the latter occasion, with instructions to see the Salt delivered to the Wholesale merchants in the usual manner, and to furnish a particular account of the outturn.—

3. I have no reason whatever to suspect unfairness in the transaction, indeed the circumstance of this particular heap having been stored in my presence, added to the risk to the Contractor of being held responsible according to the terms of his Contract for any unusual wastage caused by himself or his people, appears to me sufficient to negative the supposition that he would contrive a false return of its remeasurement for the purpose of throwing discredit upon the

Petitioners,

Petitioners, who were then out of employment.—

4. It is possible that this wastage may have arisen partly from excessive moisture in the new Salt, of which the heap was formed and partly from the fact of its being stored with greater rapidity than on ordinary occasions, but I am inclined to attribute it chiefly, if not entirely, to the cause explained in my former letter.—

5. It will have been seen that the heap was formed by way of experiment and with a strictness of measurement which is not usual in receiving Manufacturers Salt into store. Had the same rule been enforced in the formation of all subsequent heaps, I am persuaded they would, on remeasurement, have exhibited a similar result, but, if the Board still consider this explanation insufficient to account for a wastage so much above the usual average of 5 per Cent, I will make a reference by way of further experiment of personally superintending both the receipt into store and the subsequent sale, at an interval of one month or thereabouts, of one heap of 20.

6. both measurements being conducted in

the

the same manner and will report the result for their information.

of Madras dated 28th September 1849 submitting a report from Mr Assistant Collector Taylor on two petitions from Sashoo Maistry and others former Cooly Maistries of the Salt Department relating to certain alleged irregularities

29-30

Proceedings thereon. Para.

Ordered that the following endorsement be passed upon Petitions Nos 1647 and 1805 of 1849.

Disposing of letters from the Collector of Madras submitting reports from his Assistant on Petitions 1649 & 1805 and passing Endorsement on them refusing to interfere.

"From the report made by the Assistant Collector upon the subject of these Petitions, it appears, that the assertions contained in them are unfounded. The Petitioners tho' holding no contract whatever, were not suddenly deprived of their employment in the Madras Salt Pans, but, every opportunity was given them by making arrangements with the Contractor Purroorama Mooddally. The Petitioners, however, instead of profiting by the consideration shown them, exerted themselves to the utmost to embarrass the Contractor and the result of their opposition was a loss to Government. It further seems

that the present rates of charge for storing and measuring Salt are not as asserted by Petitioners in excess, but below those formerly charged by them. Under these circumstances the Board of Revenue cannot interfere in the Petitioners behalf."

2. With reference to Para 4 of the Assistant Collector's letter of the 27th September and to his letter of 20th October the Board of Revenue observe, that the heap of Salt referred to, though stored was not also sold in his presence. The sale was conducted by the principal Servants who, it is possible, did not closely adhere to the rigorous system of measurement followed in the storing of the heap, though there is no reason to suspect them of having given overmeasurement for the purpose of throwing discredit upon the Petitioners. It is stated also that the heap was formed of new Salt and stored with greater rapidity than upon ordinary occasions. Instances will occur in which the loss on single heaps will be in excess of the average but the Board find it difficult to conceive that so large

Fort St. George 15th. November 1849.

large a wastage as 10% in three Months could have resulted solely from strictness in measurement. It is, however remarked that inclusive of the heap in question, the wastage on the whole amount of Salt measured by the Cooties of the present Contractor was below the average of 5 per Cent.

From the Collr. of Madras.

Sir.

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated 17th Ultimo relative to certain lands claimed by Poorshotum Naik or Veera budra Moodelly, and to submit herewith the required report from my Assistant, Mr. Taylor, together with the plan therein referred to.

No. 1.

Fort St. George 15th. November 1849.

No. 1.

To. I. A. Hudleston Esqre.
Collector of Madras.

Sir,

1. With reference to their Proceedings of the 17th. Ultimo, I have now the honor to report, for submission to the Board of Revenue, the result of my inquiry respecting the claim advanced by Poorooshotum Naik or Veerabadra Moodelly to the spot of ground situated in the Village of Mylapoor or St. Thome.

2 Having personally inspected the locality, I caused one of the Cutcherry Peons to draw out the accompanying plan which shews the exact situation and extent of the piece of land in question, as well as of the surrounding houses and plots of Ground, the spot in dispute being coloured yellow and its limits defined by broad red lines.

Enclosure No. 1.

3. Veerabadra Moodelly's claim to the ground is founded solely on a Cadjan bill of sale alleged to have been executed by Poorooshottum Naik and Yeteraujooloo Naik

No. 2.

The

The former is now understood to be in
sane, and the execution of this document
is spoken to, by the other party and by
several witnesses who are stated to have
been present, and to have attested the
bill of sale. I do not consider the as
statements of these parties to be very de-
serving of credit, but granting this to be
a bonâ fide and not a fictitious do-
cument, it was for Veerabadra to shew
Pooroshotum's title to the ground and to
prove that it had ever been
forefather's enjoyment.

4. The evidence to this point
is not at all to the purpose, and the
gists rent bill bearing the signature of
Mr. Ellis, to which Veerabadra attaches great
importance, purports to be nothing more
than the usual acknowledgment of the
payment of rent for the period of two
years on a piece of ground situated
in Pinpos Naik's street, Mylapore,
containing 1 G. — 54 1/2 sq. —

5. This cannot certainly be
identified

identified with the spot in dispute, which
contains more than 3 Grounds nor do the
records furnish any information regard-
ing the bill in question Two Peons
were called by him to prove that rent
had actually been collected one of
whom is dead and the other imbecile

6. As might have been expected
in a question of this nature, where a claim
is advanced by an individual to a
piece of land that has long been con-
sidered public property. there was no
lack of witnesses on either side
Veerabadra woodelly was supported by
a host of his friends and connexions,
many of whom I interrogated verbally,
contenting myself with taking writer depo-
sitions from his most material witnesses.

7. In opposition to their evidence
which I have noticed above, we have
the testimony of the most respectable por-
tion of the inhabitants of St. Thome who
were represented, during the inquiry by S.
Veerasawmy Naik, Tamil Moonshee in the
College

College; and who prove that the grounds in question has been in the enjoyment of the community from time immemorial.

8. In support of their Statement the two principal witnesses, viz the present owner of Rungapah Naiks house and the manager of the Copauleeseram Mauium, have produced, the one his Certificate No. 1005, and the other the bill of sale under which the land became the property of the Pagoda. The actual measurement of their respective premises corresponds with the entries in their title deeds and in each document it is expressly mentioned that the ground to which it refers is bounded on the South by Mundevelly street clearly proving that no private property intervened between these two premises and the public highway.

9. Under these circumstances, I am of opinion that Veerabadra Moodelly has entirely failed to prove his claim to the spot of ground in question, and that

that the evidence adduced by the opposite parties, added to the admitted fact that no resistance was made to the erection on part of the ground stated to have belonged to Pooroshotum, of a Police Tannah and of a public Waterpandal and resting place for Coolies, is quite conclusive as to its being the property of Government, and hitherto in the enjoyment of the community at large.

Madras 26th October 1849.

/Signed/ G. N. Taylor
Asst. Collector

P.S. The transmission of this report was delayed in consequence of a reference made to the Military Board at the instance of Veerabadra Moodelly the reply to which, however, throws no further light on the subject.

Translation of a Deposition given before G. N. Taylor Esqre Assistant Collector of Madras by Veerabadra moodely dated 20th September 1849.-

Q. You have applied for a Certificate for certain land in Mylapore having presented an arzee, and submitted a Bill of Sale from Pooroshothama Naick and a mahazernamah. Have you any other Documents or Witnesses to prove your claim?-

A. Quit rent was collected upon the land for 10 years from 1801 to 1810 upon one bill under the signature of Mr. Ellis and afterwards upon two separate bills for 1811 & and 1812. In 1812 a notice was put upon the same land in the name of Lutchmma Ummal, wife of Narrain Naick, and the fee paid by her. In 1843 I bought it from Pooroshothama Naik and Etyranzoolo Naick and was enjoying it, when the Police Authorities having objected, made a representation to the Cutchery. The Witnesses who signed the Bill of sale, and those who signed the mahazernamah, which I have produced

will give sufficient proff. Also some proceedings have passed in the Assessment Department in this case, which will prove the case, if called for. I have no other proof.-

2. Who are Narain Naick and Lutchmee Ummall. Why was not a Certificate issued in the name of Lutchamee Ummal for the land in 1812 when the fee was paid by her and a Notice affixed thereon.

A. Narain Naicken is the uncle of Etyrajooloo Naicken and Poorooshothema Naiken Lutchmee Ummal is the wife of Narain Naicken. When she applied for a Certificate, in 1812, on payment of fee, Kistnama Naick, her brother in law made no objection and a Certificate was not therefore issued.-

If a reference is made to the number of the Notice and to the Bill therein mentioned it will be proved that the Notice was put up on the same land. I do not know whether any quit rent bill was made out for it, after the year 1812. It is 6 or 7 years since I bought it.-

and pointing out that the contemplated measure of substituting Pensioners in place of the Regular Troops can be adopted wholly or in part in those Districts with a Statement of the number of the force of Pensioners required in each District and the rates of pay calculated at those Established in the Salem District but exclusive of Arms and Accoutrements.-

the Detachments of regular Troops employed in the Provinces for Revenue purposes by Substituting Pensioned Sepoys to be embodied by the several Collectors, and remunerated on the same scale as in Salem, where the system was considered to have been satisfactorily carried out.-

2. When reporting to Government on the Original proposition to substitute Invalids for the Troops of the Line engaged on duties connected with the Revenue Administration of the Provinces, the Board of Revenue stated, in reference to the opinions expressed by the Civil Authorities, that in some few Districts under this Presidency the presence of effective Troops to afford adequate protection to Treasuries &ca appeared highly necessary owing to peculiar local circumstances, and that they were not prepared to recommend any change in the quality of the Force so employed as regarded some few other Districts, it was also observed that the scope of the

Instructions conveyed in Extract Minutes Consultation dated 11th September 1847 appeared to render any alteration in the arrangements existing in them unnecessary. for Government were pleased to state that "at Stations where there were "large Detachments guarding Treasuries "and where the Troops are under the "immediate notice of a European "Officer, the substitution of Invalids "for regular Troops is unnecessary."-

3. Excepting of the Districts to which the above remarks are applicable the Board stated that there were six Districts in which the effective Troops had already been withdrawn and their duties transferred to Detachments of Invalids. as regards these Districts, the Board presume in reference to the remarks contained in the 2nd para of the communication from the Adjutant General of the Army copy of which accompanied the Extracts from the Minutes of Consultation under reply, that

that no alteration in the system of so employing the Invalids is contemplated.-

of pay sanctioned in Salem viz 2. 12. 9 p. a. p.
per Mensem for all grades in excess of
Pensions, but exclusive of the requisite
Arms and Accoutrements.-

6. On reference to this State-
=ment it will be seen that excluding Malabar
the total number of Pensioners to be en-
=rolled amounts to 652 Men, involving
a Monthly charge of Rupees 1,823-9- a. p.
an annual expense of Rupees 21,882-12-
Including the Province of Malabar
the total yearly charge is shown
to amount to Rupees 23,940-12- a.

From Collector 16th June in Cons. 12th Nov. 1849

7. As regards Malabar Mr. Conolly
States in his letter that the Troops at
present stationed at Tellicherry viz also in
Wynaad might be withdrawn as the people
of that Province are by no means a turba-
=lent race, being mostly Hindoos, and in case
of any disturbance, which he does not
consider under existing circumstances
likely to occur, Military aid could be
obtained with but little delay from
Cannanore, or other Military Stations.

But

Fort St. George 15th November 1849.-

But he apprehends that it would
not be practicable to enroll a body of
Pensioners in Malabar, and that objections
would be raised by any body of Pensioners
wherever raised, to serve in the Wynaad,
the clamate of which is unfavorable to
persons not habituated to it's peculiarities.
He therefore suggests, if Government resolve
to withdraw the regular Troops from Wynaad
that the local Police force should be aug-
=mented by the addition of 30 Peons at 5¼
Rupees, and two Duffadars at 7 Rupees
each per Month. To render the augmented
body of Police proposed to be entertained
at Manantady efficient throughout the
year, he considers it indispensable that
they should be periodically supplied in
addition to their pay with warm clothing
to the extent of a Lascar's Cloth Jacket
and a Cumbly.-

8. The Board are not aware
whether the late outbreak in Malabar
would have caused any modification in
the sentiments of the Collector on the
subject of withdrawing any portion of
the

the Military Force now employed in his District. but they desire to notice that his communication was made prior to that event. They also think it desirable to direct attention to the remark in the postscript of his letter of the 30th Septem-ber 1848, pointing out that there are extensive Military buildings at Mainantady which would be of little value in the event of the Troops now occupying them being withdrawn from that Post.-

In Cons: 30th Oct. 1848.

9. In the District of Madura it will be observed, that the force entered in the Statement amounts to 400 Men inclusive of all grades involving an annual charge of Rupees 13425. With this force it is proposed to relieve the four Companies of Sepoys now stationed at the Town of Madura, at Ramnad and at Dindigul. Mr. Parker considers it essential that the Company posted at Ramnad should be under the Command of an European Officer and that the other Companies should be commanded by European

or

or Native Non Commissioned Officers; the dress of the privates, he moreover thinks, should be assimilated to the Troops of the Line. In this district also it should be observed that there are extensive lines barracks and other Public buildings provided for the accommodation of the regular Troops stationed at Madura and Ramnad.-

10. The force proposed to be raised in Tanjore to relieve the regular Troops at the outstations in that District is numerically the same as that recommended in the concluding paras of the Board's report dated 16th December 1847 and conditionally sanctioned in

In Cons 24th Feb. 1848.- Extract Minutes Consultation dated 2nd February 1848 the rate of payment however has been reduced in the present Statement to the scale in Salem, that entered in the Collector's list being considerably higher as shewn in the Margin.-

Havildar 5 Rs. per Mensem.-
Naigue 4 Rs. Do.
Private 3: 8: Do.

11. The Pensioners to be enrolled for Service in Bellary are to take the duty at Gooty now performed by a detachment of regular Troops. and

the

the force required in Combatore will relieve the Sepoy Detachments at present employed at the outpost stations on the Malabar Frontier as approved by Government in the Extract Minutes Consultation noted in the Margin.-

12. In Salem each detachment of Pensioners is numerically small and no distiction or augmentation of pay is observed towards Havildars or Naigues. When the force however is considerable as in the instance of Madura and Tanjore especially, the Board apprehend that some modification in this respect will be considered necessary. It will be observed that the Collectors of these two Districts as also the Collector of Rajahmundry contemplate the issue of a higher rate of pay to the Native Officers in Command. The estimate given in Para 6 of this letter and in the Statement has been framed by taking the same rate Rupees 2-12-9 for each grade.-
