letter from the Commissioner for the

Northern Circars.—

To.

J. F. Thomas Esqre.

Chief Secretary to

Government.

Sir,

Para 1. I have the honor to submit Copy of an application from the Collectors of Vizagapatam for permission to write off a balance

balance of Rupees 15,504. 7—2 standing in his accounts against the Exc. proprietor of Condakerlah, Velchoor, Edoor and Cotoor Estates, since Fusly 1253.— A.D. 1843/44.

2. The Mootahs in question were attached at the instance of a Creditor, by the Northern Provincial Court, in 1249 Fusly, and were subsequently brought to sale for arrears of Peishcush and purchased by Government in 1844. It was understood by the Collector's management that the arrears accumulated — a considerable sum (2,14,145—10—5) which had accrued from Fusly 1248 to 1252 was written off under the sanction granted on the 1st October 1844.— The amount now under consideration is the balance of 1253 Fusly being the difference between the Collections of that year and the Peishcush. The Board of Revenue, in their Proceedings on the Settlement, recommended that it should be written off, on the proprietor executing an engagement to relinquish all future claims on the ryots; and the Government recorded their approval

From Collector of Vizagapatam 22d January in Cons.s 3d February 1845. Encl.e No. IV.

approval of this course. The Ex. Zemindar being overwhelmed with debt had in the meantime fled the district, and has never returned. The bond, therefore, remains unexecuted. Mr. Smollett urges that it is not required, because the alleged arrears did not accrue under his management. Pudmanabha Ranz the Exc. Zemindar has been residing in Madras. He called on me at the Board of Revenue in July last, and stated that he intended returning to Vizagapatam, and would meet me there. I have delayed to forward this application on the chance of his fulfilling his intention, but of this, there appears no chance, for several of his numerous creditors are much displeased with him, and would inevitably proceed against him, if he should venture back. Under these circumstances, I beg to support the Collector's proposition, and to recommend that sanction be given for writing off to profit and loss, the whole of the balance outstanding, Rupees 15,504–7–2. If Pudmanabha Ranz is still, as

as appears likely, at the Presidency he might easily be required to grant a release to the Ryots before being relieved from his own liability.–

No. 2.

To. W. Elliot Esqre
Commissioner Northern Circars
Vizagapatam.

Sir,

Para 1. In the List of outstanding Balances in Vizagapatam District, there is an entry, so far back as Fusly 1253, of Rupees 15,504–7–2. the Balance of Peishcush due by S. Pudmanaba ranze on the Condakerlah, Velchoor, Cotoor, and Cottoor Estates, sold and purchased by Government in 1844.

2. Application was made to write off this sum to Profit and Loss by the late Collector Mr. Arbuthnot, on the ground that the Exproprietor had

no

no means whatever to make good the amount. The Board of Revenue in their Proceedings of 25th August 1845, supported this suggestion and the Government was pleased to sanction the remission (Minutes of Consultation 10th November 1845,) upon the Proprietor executing a Bond, relinquishing all claims to arrears from the Ryots in the Estates.

3. This proviso has not been fulfilled, for the Ex. proprietor had left the District in 1844, and has never returned. The demand therefore is still entered in the Government Accounts.—

4.— The demand of a Bond from S. Pudmanabharauze of the tenor indicated seems quite unnecessary. The Proprietor had never claimed arrears from the Ryots, and the arrears outstanding were Balances, due, or said to be due, under Attached management. The Collector, under the orders of Superior Authority, was, therefore competent to write them off. The late

owner had nothing to do with them.

5. As the continued entry of this item in the Books of the Collectorate is useless, sanction is requested for writing off the above sum Rupees 15,304-7-2 unconditionally to Profit and Loss.—

Para 1. The Right Honorable the Governor in Council considers it expedient as the best means of obviating all chance of future dispute to adhere to the Orders of Government communicated in Extract Minutes of Consultation dated 10th November 1845 No. 1314. He resolves however to transmit the Commissioner's letter to the Board of Revenue with a request that if the Ex. Zemindar of the Condakerlah Pvte Estates be still at Madras, they will as suggested by the Commissioner communicate with him for the purpose of obtaining the necessary release to the ryots of these Estates.—

2. Ordered that the foregoing resolution be communicated to the Commissioner of the Northern Circars.

To the Commissioners Northern Circars.

To. The Commissioner Northern Circars.

Sir,

With reference to your letter to the Chief Secretary to Government dated 3d. Ultimo and to the Minutes of Consultation of 1st Instant I am directed by the Board of Revenue to inform you that they have ascertained on enquiry that S. Padmanabha rauze late Proprietor of the Condaherlah Vzw Estates left Madras some time since for the Southward. I have therefore to suggest that on his return to the Vizagapatam District you will obtain from him yourself or through the Collector, the necessary document making over to Government all arrears which may be due to him from his former sub tenants.—

of the letter recorded above, that a reduction of 50 per Cent should be allowed for a period of three years in the assessment of Lands which may be taken up and applied to the Cultivation of English Wheat, and is of opinion that the reasons which influenced the Honorable Court of Directors in negativing a similar proposal brought forward by Dr. Wight with respect to American Cotton apply with equal force to the present proposition.—

The Governor in Council thinks that if seed which is intended to be obtained from England, be furnished gratis to the ryots with an assurance that in the event of failure from whatever cause the fullest consideration as to remissions will be accorded to them; they will gladly close with such favorable terms, and carry out the experiment, so far at least as to enable a judgment being formed of the capability of the soil of the different Districts for producing good wheat.—

Para 1. The Right Honorable the Governor in Council sanctions the Sum of Rupees (1,885-3-10) One thousand Eight hundred and Eighty five, Annas three and Pice ten disbursed for Fusly 1255 to the

the Village Sibbendies in North Arcot as per Statement No. 2 furnished by the Collector.

2. It is desirable however, in order to avoid retrenchment of the charge and annual reference for the sanction of Government for the actual disbursements on this account to adopt the same course as authorized under date 11th. April 1849 for checking and adjusting the allowances to the Potails employed in the Tanjore District. The Board of Revenue will therefore report for the sanction of Government as proposed and for communication as proposed to the Civil Audit Office the maximum amount at which the remuneration to the Village Sibbendies in North Arcot has been fixed, specifying the sums annually payable to each description, and for each Talook, as in the Statement No. 2 now submitted.

From the Sec. to Govt. Containing the views of Government as to the Course to be pursued by the Collector of Canara upon the passing of the Decree alluded to by him as affecting the tenure of Land and interests of Govt. in those Estates in Canara termed Circar Gueny Wurgo.

Fort St. George 19th November 1819

Esctract from the Minutes of Consultation under date the 10th Instant No. 1077.

Read the following letter from the Secretary to the Board of Revenue.

(Here enter 18th October 1819 No. 150)

Para 1 The Right Honorable the Governor in Council concurs in opinion with the Collector and Board of Revenue that the Decree of the Sudder Court referred to in the above proceedings should, as far as the principle of it militates against the right of Government as Landlord, be disputed, but doubts whether it can be done in the manner proposed by the Board, or even by moving for a review of Judgment as Government is not a party in the case.

2 It does not appear evident that the Decree goes to the length of recognizing a transferable right of occupancy independent of the Landlords right, but it is highly desirable that there should be no misunderstanding on the subject, and the Right Honorable the Governor in Council conceives that the proper course for

Fort St. George 19th November 1849

for the Collector to pursue is to act with regard to the murg in question as if the Decree had not been passed and to take no notice of it in any way unless called upon to give effect to it by subdividing the Estate or apportioning the assessment or any other requisition made to him which if carried out would directly infringe the rights of Government - In such case he should make a Return to the Precept intimating that he is precluded from Acting because the Circar, as Landlord objects to the transfer of the Murg, and because a Decree in a Cause in which the Circar was not a party cannot interfere with its prescriptive right based on the Customs and usage of the Country - and the Collector should follow this up by instructing the Government Vakeel in the Sudder adalut Court to present a Motion protesting against the execution of the Decree as prejudicing the interest of Government in its Capacity as Landlord which the Court was not competent to decide upon in a Suit in which it was not a party.

In

Fort St. George 19th November 1849

In presenting this motion the arguments adduced in the Collector's letter to prove the peculiar Landlords right of the Circar in Canara and the Decrees already passed by the Civil Judge Mr. Anderson might in the opinion of the Right Honorable the Governor in Council, be brought forward with effect.

observes that Muspadoo was one of three Estates the sale of which was reported in the Proceedings of the Board of Revenue dated 23d October 1848 No. 541, but which sale would appear to have been Cancelled under their Conditional orders issued at the time. On that occasion the Estate was brought to sale for a balance of Rupees 196-3-6 but as the Collector did not think proper to purchase it, though he purchased on account of Government the two others, the Estate was finally knocked down to one Nagojee Row for Rupees 3,150- The late proprietor appealing against the proceedings of the Collector pleaded that he purchased the property only three years previous for Rupees 6,225-

3 In January 1849 the Collector in reporting the attachments of the Muspadoo Mootah, and his intention of advertizing its sale under instructions from the Civil Court states that the Estate "will probably fetch between 3,500 and 4,000 Rupees." and Recommends and requests instructions for its purchase provided it "does not realize

Fort St. George 19th November 1819.

Realize more than the latter sum." The instructions of the Board dated 17th January 1819 authorize the Collector "to bid for the Estate on account of Government to such extent as he may think necessary provided it does not greatly exceed the value of the property."

4 Under orders of the Civil Court the sale of this Estate was from time to time postponed and eventually put up on the 17th October 1819 or 9 months from the date of the above order, and purchased on account of Government for Rupees 4,605- which amount the Board observe exceeds the Permanent Jamma by Rupees 4,21.-5-10 and the average revenue during the past 10 years by Rupees 794.-4-2 The Collector however feels satisfied that when the reservoirs have been Repaired the purchase will prove highly advantageous

5 Adverting to the details above quoted the Governor in Council cannot but yield to the impression that the

Fort St. George 19th November 1819

Circumstance of the instructions issued to the Collector on the 17th January 1819 must have been well known in the District, and tended indirectly if not unduly to enhance competition at the expense of Government. As matters at present stand it is only to be hoped that the expectations of the Collector will be realized and that the Governor in Council may know this to be the case, he desires that the repair of the Reservoirs be executed with the least practicable delay and that until further orders a Statement be furnished in the annual Settlement Reports shewing the Revenue realized from all sources in this particular Estate.

6 In conclusion the Right Honorable the Governor in Council must request that the Board of Revenue will take care that no such extravagant purchases be made in future, and give more defined limits in their "instructions."

Sir.

In reply to your letter of 18th Instant. I have the honor to inform you that the distances noted in the Statement which accompanied my letter of 15th May were not accurately calculated from any particular part of the Cantonment-

On receipt of your letter I ordered that distance to be measured by Chains to each of the 18 Villages in the said Statement which appeared to be not more than 8 miles distant from Bellary- and I now beg to send a Statement of these Villages which will show the distance of each from the nearest point of the Cantonment Boundary and also from the new European Barracks-

Ordered that the foregoing letter and the previous correspondence on the subject be submitted with the following address

To the Chief Secretary to Government—

Reporting upon the present limits of the Military Abkarry Farm at Bellary and upon the measures suggested by the Collector for the attainment of the ends proposed by the Officer Commanding in the correspondence forwarded by Government 11th August 1849.

Sir,

1. I am directed by the Board of Revenue to acknowledge the receipt of an Order of Government under date 11th August 1849 No. 760 forwarding for their report certain correspondence connected with the Abkarry of the Bellary Cantonment.

2. From the papers herewith submitted as per Margin, it will be perceived that the subject now referred to the Board, had already been brought under their notice by the Acting Collector, and had engaged their attention

3. The limits of the present Military Abkarry Farm at Bellary comprise the whole Cantonment, consisting of the Fort, the Cooly Bazar, Bruce pettah and

and the newly extended or Mellor Pettah.

and also embrace 11 or 13 Villages beyond the Cantonment. There are however three other Villages not now included in the Military Abkarry, from which it is believed that extra liquor is clandestinely supplied to the soldiery. It is the object of Brigadier Dowker's application that these three Villages should be transferred from the Civil to the Military Farm and should be placed under the authority of the Commanding Officer for all purposes connected with the Abkarry Contract. This measure is objected to by the Acting Collector Mr. Pelly on the grounds, first, that although the total suppression of the sale of liquor at the three Villages in question might in some degree remedy the evils complained of by the Brigadier, their mere transfer from one authority to the other would be attended with little

Fort St. George, 19th November 1849.

little benefit. Secondly, that if, in consequence of such transfer, the means of obtaining liquor by the Soldiers were essentially diminished, the men would simply proceed to other Villages in the neighbourhood and therefore that fully to carry out the object proposed by Colonel Dowker it would be necessary to transfer from the Civil to the Military Farm, all the other Villages equally distant from the Cantonment with those whose transfer is now sought or in other words to place under the Military Authorities for Abbany purposes the whole extent of Country within 8 miles of the Cantonment. In place of this arrangement, Mr Pelly proposes that the Villages now without the Cantonment and included in the Military contract, but in which little or no liquor is at present sold by the Renters, be transferred to the Civil Farm - that the Military Farm be thenceforth confined to the limits of the Cantonment itself and that the sale of liquor be totally suppressed

in all Villages within a certain distance therefrom. The Acting Collector was at first disposed to recommend a distance of 15 miles but has since reduced that distance to 8 miles.

In the objections urged by the Acting Collector to the transfer to the Military Farm of the three Villages applied for by the Brigadier, the Board of Revenue quite concur. The measure seems to them both unnecessary of itself and insufficient for the attainment of the end proposed. With respect to the arrangement suggested by Mr Pelly it is to be observed that from the admission of the Officer Commanding Bellary but very little liquor either Arrack or Toddy is now sold in those 11 or 13 Villages included in the Military Contract which are without the Cantonment. Some of those Villages seem to be situated at a considerable distance from Bellary they are subject to the jurisdiction of the Military Authorities on matters connected with Abbany only, but are in all other respects under the Civil power.

See letter from Brigadier to Acting Collector 25th January 1849 Para 12. "The Villages of Jamakondah, Minchary and Bidsalully are nearer to some parts of the Cantonment than many of the Villages included in the (Military) Abbany Farm." Of the three Villages here named the second Minchary or Sungaveergen Cottah is more than five miles from the nearest point of the Cantonment limits. See Statement in letter from Acting Collector of 29th October 1849.

power. Under such circumstances, the proposition of the Acting Collector, that these Villages be placed altogether under his control and that the sale of liquor be totally interdicted in these and in all other Villages within a reasonable distance from the Cantonment seems to the Board to deserve consideration. By this means the sphere of operation for the Military Abkarry will be contracted and the Establishment thereby enabled to act with a greater effect. A broad line of demarkation will be drawn between the Military and Civil Shops and the evils of a divided authority obviated. With regard to the extent of enceinte round Bellary, within which the sale of liquor should be prohibited, it will be perceived from the Statements enclosed in Mr Pelly's letter of 7th May and 29th October 1849, that supposing the sale to be suppressed in all Villages within about 5 Miles from the Cantonment limits the loss of Revenue to Government would be Rupees 1248.

the Board would suggest that the Military Abkarry Farm of Bellary be confined to the limits of the Cantonment, that the Abkarry beyond those limits be altogether under the Civil power and that the sale of liquor in the five Villages specified in the Margin of the preceding paras and in all others situated within five miles from the limits of the Cantonment be interdicted. The immediate sacrifice of revenue involved in the arrangement might, in the opinion of the Acting Collector, easily be compensated by putting up the Military Contract of Bellary to competition. The Board do not consider it within their province to enter upon the discussion of this suggestion but they think it proper to draw the attention of Government to the remarks of the Acting Collector upon the subject as contained in Para 11 of his letter of

From the Collector of Cuddapah — — — Sir,

Furnishing the several Documents called for in the Extract from the Proceedings of the Board of Revenue, dated 30th July 1849 in the case of fraud committed by Ramachendra Row the suspended Tahsildar of Chennoor Talook in the supply of Bandies to the 19th Regiment N. I.

30th July 1849

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue and to furnish the several Documents therein called for.

2. I beg to explain with reference to the remarks contained in Paras 2 & 3 of the said Extract from the Proceedings of the Board of Revenue that I did not mean to imply that on all occasions in which these frauds now brought to notice may have been practised the total amount levied has been equivalent to the hire of Bandies to the place of destination but that in the particular instance referred to, a sum so collected varying from Rupees 20 to 24 for each Bandy appears to have been, on the average, equivalent to the Hire required to be given.

3. From the investigation held it has been

been clearly established that these sums of Money were collected by the neighbouring Tahsildars and at the rate above specified for the purpose as alleged of enabling the Tahsildar of Chenncor to provide certain Bandies which had not been actually supplied by the former and there seems strong grounds for supposing that Items to the same amount were collected for such remaining Bandies as were not supplied by these Officers and as fell short of the numbes according to the requisition that had been made.

4. In respect to past occasions conclusions cannot now be well arrived at I am however of opinion that there are reasonable grounds for supposing that the grievous evil now under notice is one of long standing, an opinion supported by the allusion made by the Tahsildar in his defence to parties from the neighbouring Taloke having "come and reintroduced the former system" by which expression it is to be understood the system of paying 19 & 20-22 and 24 Rupees from

+ Vide defence of the Tahsildar Page 4 line 17.

funds collected for the purpose per each Bandy engaged in addition to the regular hire a system he states he used his best endeavours to put a stop to, while it appears not improbable that the Standard established by long usage for levying these contributions, had been fixed according to the Hire to the place of destination.—

5 It is not however to be understood that this Item for each Bandy was otherwise made up than by a general collection from all classes throughout the Talooke.

+ Vide Encls. No. 4

6. From the Statements received from the several Tahsildars referred to, it appears that of the 230 Bandies required only 133 were supplied and that the sum of Rupees 1822 was realized in lieu of 85 of the remaining 97 Bandies, being at the rate of Rupees 21-5-" per Bandy. It would also appear from these Statements that of the said number supplied 133 Rupees 1645-8-. were collected and paid to Parties who provided 76 Bandies, while the remaining 57 Bandies were procured without any

such

such remuneration being given as an inducement to Parties to let out their Carts.

7 In my former letter Para 10 I brought to the notice of the Board of Revenue that the information now detailed had been called for from the several Tahsildars, and stated that I was not inclined to think that any dependence could be placed on the correctness of their returns. A perusal of these Statements strengthen the views I had taken In one Taluk / Sidhout / the sum of Rupees 499 has been collected for 26 Bandies out of 30 required. In another Taluk / Dooroor / Rupees 935 — 4 — have been collected for 64 out of 60 Bandies which were supplied, while 2 Bandies appear only to have been procured without any collections having been made for like payment to their owners and the sum of Rupees 232 - 8 - . was levied in lieu of 11 of the remaining Bandies required while in a third Taluk / Chittoor / no less than 37 out of 40 Bandies required are said to have been supplied without

any such remuneration being given to the Parties Rupees 79 - 4 - . appears to have been paid for 4 Bandies while Rupees 122 were remitted in lieu of 6 Bandies making an excess of 9 in the number required. —

8. Setting aside these extreme discrepancies, I cannot imagine that these sums were actually paid for Bandies supplied for it is not to be supposed in the event of any remuneration having as alleged, been made in the Taluks to such who offered their Bandies for the service required, that such would have been otherwise than General as regards all parties concerned. —

9. It appears to me a difficult matter to reconcile the circumstance of Parties feeling disposed to let out their Carts for the mere hire they were entitled to, when the saw their neighbours receiving in addition, as Gratuity, from Rupees 11-10 - . to Rupees 26 — 14 — 5 / as exhibited in the Statement / for each Bandy, and the fact of the former having volunteered their

services

services without additional remuneration would negative the probability of the latter having received any such sums as they are represented to have done—

10. With reference to these returns however, I beg to express my opinion that the number of Bandies actually provided in the Taloks falls greatly short of that exhibited in the Statement, and that the entry in respect to the sums of money collected and distributed to Parties who agreed to supply carriage is a fictitious one; and has been made as a set off in some measure to the large amount that has been collected, by so making it appear that it was actually necessary to remunerate the Proprietors of Bandies in the manner alleged in order to obtain carriage for the Regiment, and with a view also to assist the Tahsildar of Chennoor in the difficulties in which he has got involved. The statements under any circumstances shew that no less than

than Rupees 3468 have been collected in 5 Taloks for the supply of 161 Bandies being at the average of Rupees 21-8- " per Bandy.—

11. It may be urged that there was no necessity for these Tahsildars to have made the concessions even they appear to have done, if they wished to screen their Tahsildar of Chennoor but on this point it is to be observed that they might have felt averse to matters being brought home against themselves under circumstances connected with so general a collection as was made, and therefore adopted what as they considered the safest Course. There can be no doubt whatever but that the contributions were raised to a considerable Amount. The question to be considered is the manner in which the funds so collected would have been appropriated — had circumstances already detailed not led to the detection of what I consider a fraud which has long been practised.—

12. According to the Statement from the Tahsildar of Chennoor which has

has been entered separately it would appear that 18 Bandies were procured free of any payment while Rupees 400 was levied and distributed among the owners of 20 others.—

13. Adverting to the remarks contained in the concluding part of Para 3d of the Proceedings of the Board of Revenue, I am doubtful whether it is intended they should apply to collections or payments made among the Bandymen themselves for the purpose of inducing / as stated in the Commencement of the said Para / other Cartmen to go in their stead or to contributions raised from the Community generally for the purpose alleged as represented in my former and present communications On these points I beg to observe that the latter method has been the one adopted.—

14. The Board of Revenue have observed that these sums are disproportionate to the object for which they are said

said to have been made. In reference to this observation it must be borne in mind that in the first place these sums were never Actually paid or intended to be paid to the owners of Bandies whatever the assertions of the Tahsildars in this matter may be and secondly that the collections were raised in small sums from various Classes who are not aware of the amount collected for the purpose alleged. To form any correct Idea of the contributions raised in the Talooks for the object set forth, would baffle all enquiry.—

15. The Board of Revenue in Para 4 of Extract from their Proceedings have desired that clear explanation be furnished on the point with reference to the object the Tahsildar could have had in raising the Hire of the Hyderabad Bandies and in employing his emissaries with such a view In the 14th Para of my former letter I entered into a few remarks explanatory of the Causes which

in

in my opinion led the Tahsildar to act in the manner mentioned and I regret I should not have been sufficiently explicit in the matter.—

16. It is clearly shewn that certain Parties proceeded a few stages in advance to meet the relieving Regiment and there entered into agreements with the Bandy Maistries by which the rate of hire was enhanced Rupees 4 – 8 – " per Bandy. It is also satisfactorily established that these Parties were the Agents to the Tahsildar and were acting in obedience to his direct instructions while the Tahsildars written order supports this fact. It is also shewn that these arrangements were made subsequently to the contract entered into by Major Osborne in behalf of the Regiment. It appears evident that the Parties / a Curnum and Reddy and / the son of the Dresser / who made the agreements referred to with the Bandy Maistries could have had no object themselves in

Vide encls. No. 4

enhancing the price of the Bandies when no doubt the return Bandies could have been procured without the payment they thus rendered themselves liable to and it appears equally obvious that the supply of the return Bandies to the Regiment was not the object in view when it is considered they were aware that these Bandies had already been engaged. but rather that the arrangement made was with a view to induce the Bandymen not to fulfil their engagements with the Regiment.—

17. Had no sums of money been shewn to have been collected for the alleged purpose of enabling the Tahsildar of Chemnoor to provide Carriage for Troops, these Proceedings would have been unaccountable, but under existing circumstances and under the impression one cannot help forming that it was never intended that the amount should be appropriated in the manner alleged as remuneration to Bandymen employed,

employed, the matter necessarily resolves into this that it was the object of the Tahsildar to supply the District Bandies for otherwise he would have had to refund the Collections that had been remitted to him, or run the risk of the fraudulent transactions being brought to light, by Parties from whom these unauthorized collections had been made complaining when they perceived that the District Bandies had not been employed and that the funds collected from them had not been appropriated in the manner they were led to believe they would be. whereas in the event of the District Bandies being employed, the said Parties from whom contributions had been raised would have resigned themselves as there is reason to suppose they have hitherto done to an act of undue extortion that had been practised towards them and this under the impression that the practice from its long standing had in its real object the

the procuring with facility wheeled Carriage for Troops and that redress in the matter under a system they were led to suppose had been sanctioned was not to be hoped for. The only manner therefore in which the Tahsildar could accomplish the object he had in view was by inducing the Hyderabad Bandymen to break their engagements with the Regiment and this he did by explained. The Tahsildar never intended that the Hyderabad Bandies should be employed and all he looked to was his own interest which would have been gained even at the sacrifice of the amount he had already paid thro his agents to establish confidence in the minds of the Hyderabad Bandymen in respect to the arrangements entered into for paying them the additional Rupees 4 — 8 — per Bandy. It is my conviction that the Tahsildar would have succeeded in this object and appropriated to himself the greater

bulk

bulk of the funds collected for the supply of District Bandies, had Major Osborne not taken the precaution of preventing the Hyderabad Bandies from being conveyed to the Tahsildars Cutcherry a proceeding on his part (though contrary to all precedent) he no doubt, as circumstances have shewn had good grounds for adopting and one which the Tahsildar could not have anticipated.—

18. This remark contained in the latter part of the above Para, the Board of Revenue will perceive is intended to explain the apparent inconsisting noticed by them in Para 4 of their Proceedings.—

19. The only irreconcileable part of the matter appears to me the refusal on the part of the Tahsildar to make over to the 19th Regiment the District Bandies that were available even at the increased rate of Rupees 24 per Bandy. This I can look upon in no other light than as a subterfuge to

J. G. B.

make it appear that he had no particular wish that the District Bandies should be employed, an attempt to deceive Major Osborne which he similarly practised when he called on him, subsequent to the arrangements that he had made for inducing the Hyderabad Bandy men to break their contract with the Regiment, and expressed a hope that he would do all in his power to engage the said Bandies. I have no hesitation in affirming that on had I not been on the spot, District Bandies would have certainly been supplied, and I am happy to think the result was to the Contrary by which means the sums collected from the Inhabitants of the District have I have every reason to believe, been refunded to them, particularly after all that has transpired.—

20. The Tahsildar does not contravert the fact that these contributions were raised in his Taluk tho as he avers without his orders and in respect to

to collections raised in other Talooks he states that parties voluntarily came and paid into the hands of owners of Bandies from 17 to 24 Rupees for each Bandy, a proceeding which is stated to have rendered the supply of Bandies in his Talook a matter of difficulty.—

21 There appears nothing in the defence of the Tahsildar to reconcile the fact of Palavalee Sheyshanah having been engaged in raising these contributions in his own Talook, and of others in enhancing at his orders the rate of hire for the return Bandies— The reasons assigned for the former having entered the field, viz.t for the purpose of assisting the Heads of Villages in the matter out of regard for them" is too preposterous— while from the Statement given by the Talook Sheristadar in respect to the private conferences that took place between the Parties, there can be little doubt but that P Sheyshannah was the employed agent of the Tahsildar in the transaction, and this opinion is supported by the

fact

fact of this person having, as represented by the Tahsildar, presented himself in his Cutcherry and requested that the Ryots of Chinnachowk and Condrapully who had previously executed Documents should be sent for, and a pressing demand be made from them, to which request he (the Tahsildar) acknowledges to have acceded and as it is presumed harassed them beyond measure according to the Tahsildar's own shewing there appears to have been no small degree of oppression used towards Parties for the purpose as alleged of providing Bandies, and I should imagine seeing that large sums of money are shewn to have been collected that the Ryots were the principal sufferers, and this in the matter of extortion of money from them.—

22. Had the contract previously entered into between the Hyderabad Bandymen and Major Osborne not been intentionally interfered with in the manner explained, and for the accomplishment of a particular object, or had the Tahsildar, supposing that he was not aware that such agreements

had

had been previously made, agreed with them
for the hire they only were entitled to, —
and which they had received for their
journey to Cuddapah / though as stated
by Major Osborne they were very anxious
to be employed even at a reduced rate
sooner than return to their Country with
their Bandies empty / and otherwise shewn
that he was anxious to supply Carriage,
instead of throwing every obstacle in the
way to the very last / I might have felt
disposed to have persuaded myself into
the belief that the sums shewn to
have been realised by Collections possibly
were intended for the benefit of the Bandy-
men of this District in the event of
their being employed, however exorbitantly
high the amount said to have been allotted
to them respectively might have appeared
but under existing Circumstances I am
unable to form an opinion different to the
one already expressed. —

23 The merits of the case might
be thus briefly summed up — Either the
contributions shewn to have been raised on

the several Talooks must have been intended
as alleged, as remuneration for Bandymen
employed, or an unwarrantable pretext must
have been used by the Tahsildars for
making the Collections they did — I cannot
bring myself to the former conclusion or
and certainly when it is considered that there
was the full complement of District Bandies
available thus rendering all interference with
the Hyderabad Bandies unnecessary, the —
intrigues that were practised in enhancing
the hire of the latter for no other purpose than
for that explained would neutralize the
Arguments on which such conclusion could
be arrived at. —

24 I shall only further observe that
the trial I have given this Tahsildar in
promoting him from a Sheristadarship to
his present grade has far from met my
expectations and that I should be sorry to
continue him in the responsible Capacity of
a Tahsildar when I have lost all confidence
in him. —

25 In respect to my decision in the
case in which the Board of Revenue have
called

called for, I beg to state that this must depend on the views they take of the reference now under their consideration. The Tahsildar admits that the sum of Rupees 300 was levied for 20 Bandies procured in his Talook, and though he exonerates himself by throwing the whole blame on the Parties who actually made the Collections, it cannot for a moment be supposed that they could have had sufficient influence to have raised these Contributions unless supported by Authority

26 If the Board of Revenue are of opinion that the fraudulent and corrupt motives laid against the Tahsildar have not been established against him, and that the contributions have been voluntarily given and intended for the owners of District Bandies, the matter must of course be dismissed. If however that Board concur in the opinion I have expressed on the merits of the Case, I propose to return the money to the Parties from whom unjustly levied, leaving the

the matter to be settled between the Parties and the Tahsildar in any manner they may think advisable.

27. As the Collections were not made personally by the Tahsildar but by Agents acting under his orders, and as there appeared grounds otherwise sufficient to dismiss him from his present Office, as connected with his insolent behaviour and insubordination, and with his Proceedings in causing the Hire of the Hyderabad Bandies to be enhanced, I considered it would be premature and inexpedient to decide on the Case, while the punishment recommended to be awarded against the principal Party concerned, remained unsanctioned, inasmuch as the decision in respect to the Parties who made the Collections if enforced against them might have appeared in the light of holding out an encouragement to them to implicate the Tahsildar.

28. The cases that have been brought to light are few owing as I have already explained to refunds having been made to

to the Parties and to their strenuous exertions that have been used to suppress further complaint, while one or two Cases have been subsequently got up in the Taloks by Parties being induced to acknowledge that they received 20 Rupees or so for the Bandy they supplied, but which sum they state they were unable to refund as the same had been espended - The artifices however thus made use of are too glaring to desire any remarks.-

29 The influence that has been used in favor of the Tahsildar appears to me surprising - It shews how much we have to contend against in our endeavours to gain the confidence of the people in cases in which Native Officers in authority may have acquired a considerable degree of influence and how essential to the prosperity of the District is the support we expect to derive in our best exertions to protect the Interests of the People by the suppression of frauds and abuses.

Translation of an urzee from Ramachendra Row Tahsildar of Chinnoor Taluk dated 15th February 1849.-

After usual respects.

I am ready in circar duties at Cuddapah up to 15th February 1849.- Fusly 1258. A Takeed No. 146 having been issued - purporting that it is given to understand that on an order being given to collect 100 Bandies both from the Town of Cuddapah and from the Villages for the 19th Regiment N. I which had been ordered to proceed to Hyderabad, the Villagers without supplying Carts have fixed certain tax on each Bandy, collected the same and caused Bandies to be procured and requiring me to make a report in detail as to what amount was collected per Bandy, if any portion of the same was espended, and if so on what account, whether the Inhabitants of other Talooks had entrusted me with money on account of Bandies if so for how many Bandies and what amount had been paid by them - I beg to represent that so soon as the order

order was received for the supply of Bandies for the Regiment, I apprehended that difficulty would be experienced if the Villagers were required to furnish Bandies and with a view to cause certain Carts to be engaged out of the 146 ascertained from the accounts which had been formerly prepared, to belong to Parties residing in Village subject to Pantaram Cuddapah, I sent out Peons to call the owners thereof, but they having been reported to have concealed themselves, I accompanied by the Sheristadar, the /acting/ Police Ameen and a few Peons, instantly proceeded to the Villages where Bandies were procurable, but before our arrival there, the Ryots had concealed the wheels, axle trees wooden frames &c and had themselves absconded - On search being made for the wheels &c of the Bandies in their threshing floors, heaps of manure and in stacks of straw &c, about 30 Bandies were found, which were caused to be dragged by the Malah and Madega People and brought before

before the Cutcherry, but not one of them proved serviceable as the frame of one Bandy had been fixed to the wheels of another and as the axle-trees to some were wanting and owing to the deficiency of cords Bullocks &c to others - The Ryots in their Villages offered resistance to the Peons on one or two having been sent to call them & also attempted to beat them if there was no witness present, and when a number of Peons or Tongsey [illegible] personally went, they absconded on their seeing us approach at a short distance from the Villages and in respect to such who were laid hold of and brought to the Cutcherry, they were all obstinately giving different false versions viz. some pretended that they had no bandies, others that their Bandies had gone to Madras, some urged they were not accustomed to let their Carts for hire, while others said that the seniors of their family, were absent from the Village and that they knew nothing; for these reasons not a single Bandy was to be got - On some Bandymen with their Bandies having been seized in the Town, the Clergyman /sent.

word/

word / that 12 Bandies had been hired by him - Some Merchants whose Bandies were laden with goods having been seized, they threatened to prefer Complaints for loss sustained and some secretly let out their Bandies to others and left the place during the nights - Consequently all endeavours to procure Bandies proved unsuccessful - Exertions were still made, certain Ryots who were habitually accustomed to let out their Bandies for hire brought to the Cutcherry and forcibly compelled to let their Bandies for hire to the Regiment - They on the contrary declared that they would die rather than go along with the Regiment, that the amount of hire paid by the Circar was barely sufficient to cover the expenses for going and returning, the journey would be delayed in consequence of the short stages fixed for the Regiment, and that it would entail upon them considerable trouble and inconvenience to cultivation &c and thus they became obstinate and remained in the

the Cutcherry for 10 or 12 days without consenting and at last being somewhat harassed, they on the mediation of several of the respectable persons agreed to make their appearance before the Regiment when required with 15 Bandies from Chinna Chowk, and 8 from Condiapully, and executed a Document to that effect - They afterwards prayed to be allowed to take their Bandies at that time to enable them to convey the straw from the threshing floor and promised to present themselves when called and having got the Bandy Maistries to stand security for them, they drove away their Bandies to their respective Villages - Subsequently they let out their Bandies for Madras and other places by employing Coolly drivers and remained themselves in their Villages. On the approach of the Regt from Hydrabad to the nearest stage (from the Town of Cuddapah) they used falsehood and declared that their Bandies.

Bandies were absent from the Villages and that they would let them out / to the Regiment / in the event of their returning from Madras. Whilst I was considering what measures should be adopted, not a single Bandy having been procured when a supply of 100 Bandies was ordered, and how I could acquit myself without the disgrace which should inevitably attend not being supplied at the time of movement of the Regiment, the Reddies of the Villages belonging to Sidhout, Chitvail, Proclevendla and Doovvoor came, accompanied by Circar Peons and with money / proceeded to the Villages bordering on Punta Cuddapah enhanced the hire at Rupees 17–20–22, and 24 each independent of the hire paid by the Circar, they made advance to them and arranged matters with them. Consequently all my endeavours to put a stop to such a system and cause the Ryots to engage their Bandies for the Original hire proved unsuccessful and hence not

a single Bandy was procurable at last thinking that I would lose my rank and that Bandies could not be got unless measures be adopted similar to what had been done in other Talooks, I sent for the Heads of the Villages of this Talook and demanded them to supply two Bandies from every large Village and one Bandy from each smaller Village, and two or three Villages / according to size / should make up one Bandy – they took the money along with them and went round the Villages but as the neighbouring talook people had previously made private engagements at Rs. 20–22 and 24 per Bandy, they refused to agree unless a higher amount than the rate above specified was paid them, and they consequently experienced much difficulty either to procure Bandies or to pay the owners of Bandies the amount required. I then sent for the Bandy Maistries Valeeseegiandoo and others, who

who were in custody, and required them to supply Bandies, they replied to this effect, what can we do if demand be now made after all the Bandies have already been engaged, and stated that the /Ryots/ would not consent to the hire paid by the Circar, that the Ryots who had formerly on three or four similar occasions been benefited by the Heads of the Villages would not now agree thro' the same hopes, that the people of other Talooks having come and re-introduced the former System and obtained their Consent by paying them Money, the Bandymen would not agree for your Talook, therefore they /the Maistries/ could do nothing, but that they would point out the Bandies which should be forcibly seized. The Village Officers also not being able to do any thing, obstinately urged that Bandies are not procurable although money would be paid and that they could not help it. Afterwards it

it having been given to understand that Ippurlarsheyshoo and his brother Garoodady were brokers for supplying Bandies, they were sent for and questioned in the matter, when they said that if Bandies were required they would make arrangements to procure them at Rajumpett, Vidoojivi and Palageree in other Talooks as well as this Talook, and that all the Heads of Villages should be made over to them. Upon this with a view to put his assertions to test, I directed the Village Officers to go to him, when the said Broker said that he would cause Bandies to be settled if Rupees 24 and upwards be paid per Bandy and would also require commission. The Village Officers in this Talook being in indigent circumstances and not substantial, they apprehended that they would be ruined if they entered into agreements and that they would be punished

punished by the Circar if certain cess be realized from the ryots on complaints being preferred by them, and considering that one Palavalee Shashaw-ah the Ryot of Woothoor would make a fair settlement of the Bandies without commission all of them went and begged him to do so. The said P. Shashoo, out of regard for the Village Officers, came to the Cutcherry and told that the Ryots of Chinna Chouk and Condiapully who had previously executed Documents in the Cutcherry being professionally Bandy drivers, should be sent for and threatened should be used that they would be severely punished if they did not abide by their agreements contained in the Kararnamah executed by them, and he would cause them to consent. Whereupon I sent for them and made a pressing demand when they admitted the truth of their having given a list and further

stated that as in the meantime their Bandies had been otherwise engaged for Madras and other places for the sake of procuring their livelihood and that they would supply them on their return, but they did not promise that they would supply Bandies without hinderance I have heard P. Sheyshoo say that upon exertions being made by him and others the people of Chinna Chouk agreed to supply 20 Bandies at Rs. 20 per Bandy and that he collected money from the Heads of 13 Villages and paid them out of this sum and caused them to consent, but I have neither seen the money paid to or received by them. On my sending for P. Sheyshoo and asking him what Village Officers caused the supply of the aforementioned 20 Bandies, I have had him say that he caused

them

them to be supplied by the Heads of the undermentioned thirteen Villages.—

1. Umbavarum
2. Yagoovapully
3 Sunkatapully
4 Rundimandalum
5 Soonkesalah
6 Mamillapully
7. Midootoor.
8 Chinna Compully
9. Gootoor
10 Rumpatand
11 Chemoollapully
12. Gandepully
13 Gunganapully.

On requisition being made of the other Village Officers in the Talook, they stated that they were not able to pay so large amount and to cause Bandies to be supplied, and that they would enguire Bandies at a lower rate and make them over Accordingly the Villagers hereunder detailed have themselves made settlements somewhere at a moderate rate and made over 7 Bandies.—

Thus the total No of Bandies supplied by the Heads of Villages those delivered by P. Sheyshoo and those caused to be agreed for by me are 38. Of which 21 Bandies were given to the Regiment and 17 remained / the owners of which / I have permitted to return to their Villages.

The

Fort St. George 19th November 1849.

The heads of the other Villages promised to enquire and supply either themselves or thro' P. Shyshunnah or Chennoor Cumum yellappah Bandies at the rate of one per each Village according to their Conditions and returned to their respective Villages. Subsequently I and the Heads of the Villages having come to understand that there are a considerable number of Bandies which accompany the Regiment and that they may be made available I have not required the Heads of the Villages to supply Bandies nor has any one delivered them Bandies / I have sent for P. shyshoo and Yellapah the Cumum of Chennoor told them that 60 Bandies are deficient to make up the 100 in my Talook and desired them to make enquiries any where. they promised to do so but Yellappah was not to be seen for 4 or 5 days - subsequently I have asked yellappah who presented himself before me on the arrival of the Regiment at

Fort St. George 19th November 1849.

Cuddapah and he told me that all the Heads of the Villages mentioned to him that they were unable to lay out at Rs. 20 and 24 per Bandy, that from enquiry it appears the people of other Talooks have made matters worse by augmenting the rate and that endeavours should be made for / securing / the Bandies which accompany the Regiment as they are return ones and that as he was also required to supply four Bandies for his Village according to the shares fixed which could not be procured unless 80 or 90 Rupees be laid out he had made engagements with the Hydrabad Bandyman to pay at Rs. 4 per Bandy in addition to the hire paid by the Circar and made an advance of Rs. 40 or 50 - but I have not previously directed him to make arrangements for the Bandies accompanying the Regiment, which circumstance will be manifest to you, if the said Cumum be enquired into - I have not collected the

Money

money of even a single Village and expended it. I do not know what the Heads of the Villages settled with Pa-ow-alee shrys hunnah. I have not interfered in money matters. Two days previous to the arrival of the Regiment I had gone to the Adjutant of the 19th Regiment and represented to him that the people of this place required large sums to be paid by the Heads of the Villages in addition to the hire paid by the Circar which would tend to the Committal of frauds in the Villages and that the Bandies which accompany the Regiment should be made available (to their Regiment) without any annoyance to the people he plainly stated that he would do so that he obtained a Document from the Bandy maistries for 270 Bandies and that 50 or 60 Bandies only would be required to be supplied by me and that he would communicate the circumstances to your goodness. On my mentioning this

this in the Cutcherry the other Tahsildars stated that they would supply such No. of Bandies as would fall to their share proportionately to make up the above 60 Bandies but that they would not make over all the Bandies that were ready. Upon this I went to the Cantonment and on asking when the 60 Bandies would be required and telling that he would bring them if permitted the Major Adjutant said that the Bandymen who came from Hyderabad have failed in their engagements to supply their Bandies at Rs. 20 each in consequence of their having been tampered with and promised Rs. 4 in excess of the rate they had agreed for and thus the matter was spoiled that I should take charge of all the Bandies and supply 300 Carts (of Hyderabad) belonging to the Regiment and 60 District Bandies in all 360 that I should not speak to any one until this was settled and they would.

would write to my superior if Bandies were not delivered up immediately They became angry and placed me in confinement until evening without at least giving me an opportunity to make arrangements with the Hyderabad Bandyman and they further directed that the above Hyderabad Bandymen only should be made to consent to engage their Carts, that the whole of them should not be District Bandies but that the deficiency only should be made up by the latter. I then represented to the above Officers that I was alone unable to cause the above Officers that I was alone unable to cause the 300 Bandymen to consent that as the responsibility rests with 6 Taloks I would if permitted to go outside, speak with the Bandy monistries as well as the authorities belonging to other Taloks cause them

them to consent and then make over the Bandies that those who have broken their engagements with the Circar should be punished. that I never sent any one to offer a higher rate and thereby spoil the arrangement that had been made that I do not know whether the Heads of the Villages considered they would be required to pay at Rs. 20 or 24 per Bandy and that if return carts be made available the business will be effected for a trifle. Notwithstanding all my entreaties to the above Officers they have not complied with my request but had written a note to my address purporting that I should immediately deliver up 300 Bandies and that the hire fixed by you for the same shall be paid and the same sent to your goodness Independent of this I am not aware what the Adjutant, who was angry came and informed

informed you. The said note written to my address having been received with your seal at 6. P. M. on the 13th I sent for the Maistries and desired them to engage their Bandies when they with obstinacy said for some time that as they had been that Rs. 20 per Bandy were paid for District Bandies one half of that sum should be given them and afterwards they stated that unless Rupees 1,350 for 300 Bandies at Rupees 4½ per each be immediately sent for and paid them they would not consent to let their Bandies. The Officers made pregnent questions in the presence of the said Maistries to the effect that Bandies should be supplied instantly or otherwise they would write to you saying that I had refused to supply them and were angry and the Maistries were also obstinate seeing this I was discouraged that I would not sustain my character as mention is made in the note addressed

to me by the officers that they would pay such hire as may be fixed by your goodness and the Maistries having requested to pay them at Rs. 1 per gow which is the rate current in Cuddapah I came from thence on the same night unloaded the things of the sepoys from the Bandies distributed 82. Bandies which were empty to the Sepoys at this place and sent out Peons to bring the 60 District Bandies required to be given but without all the Bandies being brought only 43 Bandies being the proportionate No. of 60. Bandies exclusively of those of Poolevendalah and Camalapoor having been forwarded I have delivered them over and represented the circumstance at 1 a. m. to the Adjutant who gave me leave to go home directing me to supply the remainder 17 Bandies the next morning notwithstanding this he had written a note to your goodness that only 40. Bandies have been received at 9 A. M. on the 13th I supplied the residue 17 Bandies which were not distributed until 4. P. M. but I was required to supply the whole No. in as

Hyderabad.

Fort St. George 19th November 1849.

Hyderabad Bandies accordingly I have done so and commenced from 4 P M. to supply the deficiency and up to yesterday's date I have supplied 48 Bandies although I have undergone trouble day and night for 3 or 4 days abstaining from my timely food and was engaged in the supply yet at last I have incurred their displeasure and I do not know what they have intimated you- some persons who are desirous to make me liable to imputations having persuaded the aforementioned persons and also represented to you some circumstances (I know not what) your goodness has had cause to suspect that fraud has been practised but I have not acted in the manner aforesaid with the intent of procuring money nor did the authorities of other Talooks cause bandies to be supplied thro' me although I have performed my duties diligently in orders to get the supplies made to the Regiment without blame yet he who is envious others lot, and also anxious to be benefited with a mind to adopt deceitful measures represent circumstances which may tend to create suspicion- Justice will be had if you will keep a look out without the interference of intermediate persons and which will also be prosperous to the people in general. Under these circumstances I have represented all that has transpired and you will be pleased to peruse the same pardon and pardon me.-

Translation of an Urzee addressed to the Magistrate of Cuddapah by Bhavo Row Sheristadar of Chennoor Talook.-

After usual respects.-

I am ready in Circar duties up to August 1849. Agreeably to the instructions contained in an order dated the 1st instant directing me to explain in detail all the circumstances connected with the fraud alleged against Ramachendra Row the Tahsildar under suspension in collecting Sums of money for his own benefit on the occasion of supplying Bandies for the Regiment I beg to represent that in conformity with the order No. 348 dated + ——— issued during the absence of the said Tahsildar Rama Chendra Row on leave to Tripaty on a pilgrimage directing that I in conjuction with the Police Ameen of the Town should send for the persons who are habitually accustomed to let out Carts for hire, make arrangements with them obtaining Security from them and the [illegible] Bandies, I and the then

then Ameen Ramalay Appa Row sent for the Ryots of Chinna Chowk and Condiapully when the Inhabitants of the former Village were willing to let out 15 Carts for hire, executed an agreement to that effect and also furnished the required security. The Ryots of the latter village also made similar agreements. Whilst we were endeavouring to send for the Ryots of Moortoojapully and Cauzeeput the said Rama Chendra Row in the meantime returned to his duty on the 17th January when nothing was subsequently done for some days regarding the procuring Bandies Peons were then sent for the Ryots of Moortoojapully, Booddiapully and Fakeerpully and of other villages with their Bandies with a view to agreements being obtained from them, but none of them were to be found and they had also concealed their Bandies. Afterwards doubting as to whether the

persons who had already executed agreements would deliver up the Bandies or otherwise, and considering that the agreement obtained was only for a few Bandies he (Ramachendra Row) thought it advisable to send for the Heads of the Villages and to require them to supply Bandies (the number being fixed) according to the size of the village, and he accordingly sent for them, and desired them to supply one Bandy from every small village, and a greater number of Bandies from a large village, and directed that two or three Villages according to size should make up one Bandy and he then made out a Statement on a large Paper specifying the time when the Bandies should be ready and obtained the signatures of the Heads of the Villages thereto. At this interval the Revenue Settlement of this Taloke having been commenced, I attended at the Hoozoor Cutcherry and was engaged in preparing the Jamabundy Accounts. The Tahsildar

used to go to the Hoozoor Cutcherry 2 or 3 P.M. holding his Cutcherry in the Talook Cutcherry during Mornings and thus conducted his business until the Regiment left this Place- During the short time he held his Cutcherry in the Hoozoor Cutcherry he obtained the signatures of the Head of the Villages who presented themselves before him, and 5 or 6 days before the Regiment left (Cuddapah) he made a requisition demand, on account of Bandies, to those who had at first entered into agreement to supply Bandies and to those who have at the time appeared before him from the Village Some of them promised to deliver up Bandies while others took one Palavalee Seyshoo and a Cotapautee Ramiah to a secret place, and conferred with them and then returned with the aforementioned two persons and represented to the Tahsildar that they entrusted the supplying of

of the Bandies to the charge of the said two persons who would procure them- I not only verbally pointed out to Ramachendra Row in the public Cutcherry the impropriety of allowing others to interfere and agree to supply the Bandies, and of granting leave to the Heads of the Villages, and told him that arrange= =ments should be made to cause the Heads of the Villages to be e= present, and to get the Bandies supplied thro them, but also wrote a Note to him on the subject, to which he verbally replied that I had nothing to do with the affair concerning the Bandies and that he was responsible in the matter and that I had no occasion to meddle even with the accounts.-

The detailed list con= =taining the signatures of the Heads of Villages and shewing the

the number of Bandies &ca collected was retained by the Tahasildar with him at the time I came to the Hoozoor Cutcherry for preparing the Jamabundy accounts saying that it was required for procuring the signatures of those Heads of the Villages who were then present.-

I have heard several persons say at the time that Rupees 20 and 22 per Bandy were collected thro' Palavaly Seyshoo and Cota=-pauty Ramiah, and that no fund of money were made to certain Heads of Villages, when yours goodness began to institute an enquiry on the subject of the Bandies. afterwards the Tahasildar having written me a note requiring me to accompany the Regiment to make the necessary supplies, I proceeded along with the Regiment as far as Kazeepett, when the Major having directed me to acquaint him what had transpired respecting the supply

of

of Bandies, I represented to him the circumstances above mentioned.-

The following Papers connected with this case which were in my profession are herewith Sub=-mitted to your goodness.-

1. Detailed list of the Bandies from the villages written by me at the time.-
1. Copy of the notes written to me by the Tahasildar respect=-ing the supply of Bandies
2. Notes from the Tahasildar regarding me to accompany the Regiment.-
1. List prepared by the Tahasil=-dar with his own hand writing res=-pecting the Bandies of the villages of condiapally.-

5. Total five.-

From the circumstance of Rama=-chandra Row having authorized one Palavalee Seyshoo and his dependant Cotapauty Ramiah to superintend in the collection of

of Bandies, and of the said persons (who had not the least concern with the Bandies required to be supplied by the Heads of the Villag having taken from the Heads of the Villages to some secret place and con=ferred with them there, and then returned to the Tahasildar and informed him secretly of the arrangements made and of the Tahsildar having granted leave to the village Officers, I am led to think in the same manner as the people have supposed, that difficulty has been experienced in supplying Bandies to the Regiment in con=sequence of money having been collected by order of the Tahasildar at Rupees 20 and 22 per Bandy. I have represented these circumstances to make it known to your honor that such a nefarious Proceedings would not be allo= to be held in my presence.-

Proceedings thereon.

35-36

In Cons 30th July 1849

The Board of Revenue have given their careful attention to the letter above recorded and to its enclosures, and have again had under their consideration the previous letter from the Collector of the 27th June 1849, upon the same subject. They have experienced much difficulty in arriving at a clear understanding of the question from these reports, but enough is to be gathered from them to show, that contributions were levied from the ryots of Chennoor and other Talooks on the plea of providing remuneration for those bandy men, who consented to accompany the Regiment thro', whether the whole amount so collected, was either applied to the purpose for which it was raised, or refunded to the contributors, or whether any part of it was appropriated by the Talook Officers in Chennoor and elsewhere does not fully appear.

2. The Board further consider that there are strong grounds for suspecting that the Thasildar Ramachendra Row tampered with the Hyderabad Cart Owners with the view apparently of keeping the supply of carriage in his own hands and it is at least sufficiently evident that if he did not actually

actually thwart, he did not in any degree second the arrangement made by the Milita-ry authorities for obtainmy those bandies at the lowest rates- Under all the circum-stances of the case, however and as the s facts are in some degree obscure the Board think that the suspension of the Tahsildar from the month of June last may be re-garded as an adequate punishment and that he may be restored to his Talook with a suitable admonition- A proper pro-portion of his Salary will be paid to the party who officiated for him during his suspension.-

3. The course followed for procuring carri-age upon the march of the 19th N. I. from Cudda-pah in February last, tho undoubtedly open to much abuse, seems to have been that not unfre-quently resorted to on former occasions, and the Board are of opinion that means should be at once adopted for the substitution of a better system. They approve of the intention to that effect intimated by the Collector in the con-cluding Para of his letter of 27th June last, but it is quite competent to him to introduce at his own discretion such improvements

as

as may seem to him to be called for, and it will not be necessary that he should address the Board upon the matter, unless any unexpected dif-ficulties should present themselves.-

4 The Board lastly think it advisa-ble to draw the attention of Mr. Cochrane to the observations which have from time to time been made by Government and by the home authorities relative to the value attached by them to conciseness in official communica-tions- The conduct of the Tahsildars Ramachen-dra Row has formed the subject of two reports, one of 25 and the other of 28 Paras, and the matter is still but imperfectly elucidated- Whereas with due regard to clearness and arrangement all that was required to be told could have been conveyed in one fourth part of the space. The Collector should in his letters endeavour to confine him-self as much as practicable to a simple state-ment of facts concluded in the fewest possible words accompanied by such observations only as naturally arise out of the subject under report and should avoid all sweeping assertions and reasoning of a merely presumptive or hypothetical character.-

The original Record received from the Collector is returned herewith.

Ordered that the following Endorsement be passed upon Petitions Nos 1766 & 2078 of 1849.-

As however the widow of the deceased does not appear to have means of subsistence other than those derived from the produce of the Enam in this Village which was her husbands usual place of residence I recommend that she be allowed to retain possession of it during her life time.

How many, she cannot tell she has been living in this Village for some time past with her brother, one of its Reddies, and has herself cultivated this Enam independently of her husband it would seem It was granted four generations back, it is alleged, to the Shetty Genacharry a reddy who had powers of control over all matters connected with caste rules and caste disputes, and has been in possession of the present holders for 30 or 40 years. The entire Enam is assessed with a Joodhee of 48. Rupees of which the share held in deceased's name pays 14 or 12. Rupees. The deceased had 4 72 acres of dry land Enam in three other Villages. Reports Petition No. 1606 of 849 regarding a

a new Cut for the Tuckolum River Channel.

explanation respecting it with reference to my endorsement of the 31st May 1849.-

2. One of the occasional works of Maramut now in progress in this District, is a new cut from the head, to a point in the course of the River Channel of Tuccolum in Sholinghur Talook, so as materially to shorten and straighten its course. The new cut passes for some distance through the limits of the Petitioner's Shrotriem Village of Eloopatindalum in Conveiring Talook, and he objects to it as being injurious to him.-

3. On the receipt of his first Petition to this effect addressed to myself I examined Lieutenant Foord's report on the project and as there was nothing there to countenance the idea that the new Channel would injure the Petitioner, I dismissed his Petition, I afterwards passed an endorsement to that effect on a former Petition presented by him to the Board No. 1071 of 1849.-

4. On the receipt of the present Petition I thought it would be more satisfactory to

Fort St. George 19th November 1849.

to the Board to have the distinct opinion of the Civil Engineer as to whether or not the new Channel would do Petitioner any injury, and I accordingly requested Captain Collyer to report upon it. I have now the honor to enclose for the Board's information Copy of a letter from Captain Collyer, and of another from Lieutenant Foord to that Officer. It appears clear that the Shrotriemdar's objection is frivolous, and that he will sustain no injury from the new work.—

Sir,

Para 1. I have the honor to acknowledge the receipt of your letter dated 30th August last containing a Copy of a Petition to the Board of Revenue from the Shrotriemdar of Elapatundalum, the above letter only reached me this morning, the 7th September.—

There

Fort St. George 19th November 1849.

There is no cultivation under the tongul which has been cut through, and the repairs alluded to by the Shrotriemdar must have been done many years ago, as the bank is now nearly obliterated, and if the Tongul ever held water it could but have been of small depth and during the rains. the tongul was so evidently to the eye, below the level of the Tank. that I did not consider it worth while to use an instrument, and on pointing this out, the Shrotriemdar said that the tongul was useful for his cattle, but as before observed, this could be only in wet season

Had I received your communication when there I would have given it more attention and shall now direct Mr. Foord to ascertain the value of the complaint which I confess appears to me to be to a certain extent frivolous.

To

Captain G. C. Collyer.

Acting Civil Engineer 4th Division

Sir,

I have the honor to inform you that whole examining the Thuckolum Channel on the 25th of last Month, I enquired into the truth of a complaint made by the Shrotreyendars of Elopathundalum that their Tangul was destroyed by being crossed by the new Channel.

On looking at your letter No 316 to the Collector of North arcot on the subject of this complaint, I find that on the occasion of your visit to the Channel, the Shrotriendars first stated to you that the bank cut through was that of a Tangul for irrigation purposes and afterwards that it retained water for Cattle.

But they stated to me that the bank was that of a Channel for the supply of their Tank to which I then took levels and found that there was a fall in that direction but as the Channel is taken

to

Fort St. George 19th November 1849.

to the rear of the Tank and carried through a hole in the bank no great supply can thus be derived, and I do not think the Tank will be any the worse for the Thuckolum Channel having been cut.

The pith of the Complaint is this, a Channel for the Tank of Thuckolum has been cut through the limits of Elopathundalum and is of course an eyesore to the ryots of the latter Village.

That no real injury has been sustained by the Complainants in this case, is I think evident from the different uses they have assigned to the nearly obliterated bank, first saying it was for irrigation purposes — secondly, for the watering of the Cattle and thirdly for the supply of the Tank —

The enclosures in your letter of the 9th September No 317 are herewith returned.

the number of applications sanctioned up to the close of Fasly 1258. The number, it will be seen is thirteen. and the extent of Land 3 — 13 bearing an assessment of 35 — 11 as per Page as per Cr. as the whole of the proposals are for public topes. I have taken and shall continue to take every means of making the purport of the new rules generally known, and I have no doubt they will be more largely taken advantage of in a few years as people generally become better acquainted with them. Several applications have been received and sanctioned since the close of the past Fasly.

Board of Revenue

From the Collector of South Arcot. } Sir Fort St. George

Requesting permission to receive 10000 Rupees from Deay Moodelliar the interest of which is proposed to be used as a fund for maintaining the poor of Cuddalore.

It will be recollected by the Board that my Nair Seristadar Deay Moodelliar, in 1846. invested in Company paper and under the immediate control of the Collector for the time being a sum of Rupees 4200. with a view to the appropriation of the interest accruing therefrom to the support of a Choultry erected by him at New Town Cuddalore.

I have now much gratification in bringing to their notice for favorable consideration that the Nair Seristadar has requested me to receive a further sum of 10,000 Rupees to be laid out in the 5. per cent loan, the interest of which is to be applied as a fund for maintaining the poor.—

2 I have not the slightest hesitation in supporting this laudable intention on the part of

1896 Fort St. George 19th November 1849.

of my Nair. in as much as it is a known fact that numbers of poor people are continually to be seen at Cuddalore with petitions craving assistance and considering that there is not an Established poor house in this vicinity, the proposed endowment seems to me to be a very desirable source to alleviate the miseries brought on by want of maintenance or other untoward circumstances.—

3 Deay Moodelliar has laid out a large portion of his funds in the construction of a comfortable Bungalow at Pondicherry and a spacious Chuttrum at Cuddalore, he having also made ample provision for their support, and as he is now actuated purely from motives of a Charitable nature, I trust there will be no objection to his request, and that he may be permitted to receive into the Treasury the proposed Bond to draw the interest from time to time and disburse it in the same manner as is done on account of the sum of 4200 Rupees

The desire of the Naib Sheristadar Deag Moodelly to devote so large a sum to charitable purposes seems to the Board to be highly landable — and they therefore beg to submit the Collectors Application for the favorable consideration of Government — on the understanding however that the fund in question is meant to be confined to the relief of really destitute objects and not to be so applied as to encourage mendicancy — With this proviso they beg to recommend that the Collector be authorized to receive from Deag

Deag Moodelly Promissory Notes of the 5 per Cent Loan to the value of — Rupees 10,000 and to hold them in deposit under the provisions of Regulation VII of 1817 the Notes being endorsed in the name of the Collector of the District of South Arcot for the time being and the interest being drawn periodically by that Officer. Should the Government be pleased to accede to this proposal the Collector will be called upon to report the arrangements which he would suggest for carrying out the measure intended — It occurs to the Board that

that if it should consist with the design of Govt Monthly the most useful mode in which the money could be applied would be the establishment of a Lunger kana, such as those at Negapatam and Combaconum to be managed by a Native Committee under the general superintendence of the Collector, who would at the same time provide for those who from age or infirmity are unable to maintain themselves and have no other means

The expense of the Lunger kana at Combaconum for the year 1818 was S. Rupees 765 9 11, the number of parties admitted 1113. the expense of that at Negapatam for the same period was 607 the number admitted 386.

As it is of importance that the Officer paying this pension should satisfy himself of the existence as well as the identity of the Pensioner from time to time the Collector would suggest that the Pension be paid through the Commissioner of Mysore who's position would doubtless afford him every facility of satisfying himself on these particulars. [illegible] the number of the Ferry [illegible] and was continued at eighteen, under the orders which were passed for securing them a provision during their lives had reference to this circumstance. In proceeding however to execute the Board's orders I find that there are altogether thirty six sharers in the Mauniem, and the inadvertence into which my predecessor fell appears to have arisen from it being considered that eighteen belonged to each river although they enjoy the two Mauniem Villages in common as shewn by Mr. Travers's register and make their own arrangements for working the ferries of the two rivers.

3. I therefore send a register of these thirty six individuals, and beg to recommend that under these altered circumstances the large instead of the smaller Village may be continued to

to the thirty six Enamdars during their lives. The names and Bariz* of these two Villages are shown in the Margin and it seems proper to point out that the services of the Ferry men will be apparently required at the Coleroon river for two more years.

They say that in Davarum Zemindary 4 leagues to the west of the Yeloomaday Zemindary, there is a girl aged 13 years named Ristnammal the daughter of Kondy bommy Naig alias Moottoosawmy Naig the Zemindar of that Estate by his 1st wife, that it is one year since she attained her age of puberty, that the Minor being now 17 years old the girl is of a proper age to be married to him, and that the Horoscopes of both agree, and that the Omen is good. The Minor expresses his inclination to marry the Girl in question and states that both his Grand mothers concur in the same opinion, that Konda Bommy Naig alias Moottoosawmy Naig the Zemindar of Davarum

Davarum is willing to give the girl in marriage to him, that the Marriage is arranged to be celebrated on the 12th. Hartigy at Cusbah Davarum where the Bride stops, and that a Grand procession should be made at Yelooraday. These particulars the Minor requests me to inform your honor and to get the Marriage celebrated - He has prepared and given me an Estimate of the expences required for the Marriage to the amount of Rupees 2019-4-- attested by himself which is herewith sent for your honor's inspection - As the necessary preparations should be made for the Marriage, the Minor requests your honor will order the payment of the amount in question, and permit the Celebration of the Marriage, and that the Jewels now in the Hoozzoor Treasury may be ordered to be sent to him as was done at the time of his first Marriage - Having communicated all these particulars for your honor's information, I shall abide by the orders I may receive on the subject -

Para 1. The Right Honorable the Governor in Council has had under his consideration the Proceedings of the Board of Revenue recorded above relative to

Beebee of Cannanore and the conditions on which it might be granted calling for a Statement of the Establishment Employed on the Company's Islands and an Application for the proposed increased charge on account of the Karanies to be employed in assisting the resident Peons in performing their duties— Para 17.

to the condition of the Laccadivee Islands after the Hurricane of April 1847 in connection with the papers which have already passed on the subject as well as the further correspondence now forwarded by the Board on the measures of relief to the sufferers which have been or remain to be taken.—

2. The Group consists of 14 Islands of the names entered in the Margin of Para 17 of the Board's Proceedings of which the first seven belong to the British Government, three being open and uninhabitable reefs, the remaining four inhabited and attached to the District of Canara — The remainder of the Group comprising Seven Islands belongs to the Beebee of Cannanore—

3. The Hurricane broke upon Kalpeny and passed on to Androt both the Beebee's Islands, and reached the Company's Island of Kiltan the last of the Laccadives severally affected by it. The accounts given of the effects

effects of the Hurricane are truly lamentable — especially in the Beebee's Islands where the loss of life and property was great. In Kiltan, the consequences of the Hurricane were less disastrous the loss in the above respects being considerable.

4. The arrangements made by Mr. Robinson for the relief of the suffering inhabitants of these Islands as described in his reports of the 7th and 22d. February 1848 are worthy of the highest approval, and the Governor in Council desires that the thanks of Government may be especially communicated to him, as well as to the different Officers who have aided him in those measures.

5. The measures taken by Mr. Robinson for distributing among the Parties who engaged to cultivate them the waste lands of the Company's Islands which have heretofore been regarded as Government property are considered by the Board of Revenue to be very

very proper. They also support that Officer's recommendation for the appointment of a Karane to each of the four Islands to be permanently stationed, who besides keeping all the accounts &c. is to assist the resident Peon in the performance of his general duties. The result of a further communication on the subject with the Collector, Para 5. the Board observe, is a recommendation that the total annual charge for the Karanies be augmented to Rupees 126, involving after deduction of the sum paid to the present Karani, a net increase of Rupees 99 per annum, and they advise that the higher rates of Salary Rupees 126 suggested by the Collector be adopted, the payment as heretofore being made not in money, but in rice. It is however not clear whether the sum of Rupees 126 is intended to be the total charge on account of all the four Karanies or on account of each.

6. The Governor in Council apprehends that there must be some mistake in

in the 35th para of the Proceedings where the cost of the whole Establishment of the Company's Islands is given at Rupees 500 per Mensem, whilst the revenue is stated in the quotation from Mr. Robinson's report in the 38th para to be only Rupees 8,000 per Annum - He desires to have some explanation on this subject and a Statement shewing the total monthly expense to enable him to judge of the propriety of applying for sanction to the increased charge for the Harannies proposed to be stationed on each Island - The Board will not fail to furnish likewise as desired in para 6 of Extract Minutes of Consultation 12th April 1847 an Application in the prescribed form for the increased charge on account of the Harannies -

7. The Governor in Council concurs in the views expressed in Para 6 of the Board's Proceedings and directs that the deduction in the weight of Coin delivered under the term of Sand Huzzer be at once abolished -

In

8. In regard to the portion of the Group of Islands held by the Beebee of Cannanore which are referred to in the 7th and subsequent paras of the Board's Proceedings, the Governor in Council is of opinion that there are no valid grounds for demanding their cession or restoration to the Government and as this Lady appears to have insurmountable objections to any such arrangements and even protests any further interference with her Islands on the part of the public Officers, the only questions which remain to be considered are whether her application for remission should be acceded to, and if so, to what amount, and on what conditions it should be granted -

9. Some difficulty has been experienced in deciding on the amount of the remission owing to the somewhat conflicting opinions contained in the various reports as to the extent of the Beebee's revenue in prosperous times, as well as her actual recent losses

losses, but the most favorable accounts demonstrate the necessity for liberality, not merely for the present, but for a series of years until her Islands shall have gradually recovered the ravages of the Hurricane of April 1847.-

Para 45 Boards Proceedings.

10. The Beebee prays at present to Government on her professions in the Islands and upon the Coast a Peishcush of Rupees 15,000 of which it appears from Mr. Robinson's Memorandum on her application for remission that 10,005 Rupees appertain to the Islands.- The Governor in Council resolves accordingly to apply to the Government of India for authority to remit one third of this latter amount, or Rupees 3,333 1/3 annually for ten years to commence with the current fusly 1259, on condition that the Beebee will give effect to such reforms in the management of her Islands as the Government shall deem advisable on a further report from the Collector of Malabar.-

In a letter from Collector of Malabar dated 3d Feby 1849- No 3.-

11. The Governor in Council is not prepared to say that the reforms

should be carried to the full extent suggested by the Board of Revenue in the 16th para of their Proceedings under review, but their suggestions may form the basis of Mr. Conolly's communications with the Beebee and he desires that in making these communications the Beebee may be assured that Government have no object at heart beyond the prosperity and good of the Islands and the concomitant increase of her revenues.-

12. The Governor in Council sanctions the expences incurred by the Collectors of Canara and Malabar in affording relief to the inhabitants of the Company's and of the Beebees Islands amounting to Rupees (5,772-11-9) five thousand seven hundred and Seventy two Annas fourteen and Pice Nine- of this amount Rupees 1,369-4-2 being value of supplies furnished to the Canara Islanders, it is expected will be recovered, of the Remainder Rupees 4,403-10-7. the sum of Rupees 2,346-8- is represented to have been disbursed on account of the Beebee's Islands.-

13.- The Governor in Council concurs

concurs with the Board of Revenue, that there is no use in making any claim on the Beebee of Cannanore, for the share of the disbursements incurred on account of the people of her Island. He cannot however by any means subscribe to the opinion offered by the Board that in "the event of the "Islanders still requiring aid beyond the will or "power of the Beebee to furnish, it should be "supplied by Government and arrangements made "for the gradual recovery hereafter of such part of "the charge as it may be deemed proper to be "borne by the Islanders". Even had the Beebee been willing to make over her Islands, the Governor in Council should have considered the smallest amount of advances proposed to be made to the Inhabitants in Coin, to be out of all proportion to their numbers or importance, and whatever interest he may have for their welfare and relief from their impoverished condition, it must not be overlooked that Government are liable to equally urgent calls on their

benevolence

benevolence which in this instance has been exerted (including the proposed remission to the Beebee) to the utmost admissible bounds.-

Ordered that copy of the fore=going Extract from Minutes of Consultation and of the Board's Proceedings dated 2d. August 1849, to which it is a reply be communicated to the Collectors of Malabar and Canara respectively.-

2. Mr. Conolly will be pleased especially to communicate to Mr. Robinson the thanks of Government on account of the arrangements made by him for the relief of the suffering Inhabitants of the Laccadavie Islands.-

3. In reference to Para 5 of the Minutes of Consultation, the Board observe that the sum of Rupees 126 is intended to be the total charge on account of all the four Kuranies in the Company's Islands to be distributed

distributed among them in the proportions in which the amount Rupees 87 proposed in the Statement entered in Para 71 of Mr. Robinson's letter dated 22d February 1848. would have been disbursed.

From Canara 27th March in Cons: 11th May 1848.

4. It is observed that the amount of Rupees per Mensem given in Para 35 of the Board's Proceedings of 2d August 1849 as the cost of the whole establishment of the Company's Islands is that stated by Mr. Robinson in the note upon Para 204 of his report which accompanied Mr. Conolly's letter to Government of 23d June 1848. It is however probable that there must be some clerical error. Mr. Blane will be so good as to furnish explanation upon this point, together with the Statement called for in Para 6 of the Extract Minutes of Consultation, and will submit an application in the prescribed form for the increase to the Pay of the Peons. His attention is also called to Para 7 of the

The Right Honorable

Para 1

the Governor in Council regrets to find that such laxity has prevailed in the Revenue accounts of the District of North Arcot, as is brought to light in the above correspondence.—

When Mr. Lovell the

2

acting Collector first brought the subject before the Board of Revenue in 1847, the demands under the head of "Sevoy Jummah" balances amounted to Rupees 10,547-4-10, extending back to Fasly 1231 [The amount collected up to the end of Fasly 1258 being (Rupees 630-11-11) part of the 23 items under which Mr. Boudillon subsequently arranged these balances only one comes strictly under the head of "Sevoy Jummah", and during 26 years the Board of [illegible] ment had been kept in ignorance of

of any such balances existing at all though the annual revenue Reports of "Demand Collection and Balance" were sent up as usual.—

From Acting Collector to Secy. Board of Revenue 23d October 1849 para 2.—

3 The explanation afforded is "that it was not the practice to enter "the Sewoy Summah in the Demand and "Collection" Accounts but such sums as "were collected under this head were "brought to account in the Monthly Journals "and Quarterly Abstracts furnished to the "Accountant General."

4 The Board of Revenue do not seem to have noticed Mr. Lovell's assertion that the Sheristadar took every means to keep these balances out of view. nor does Mr. Bourdillon give any opinion on the conduct of this individual. His explanation enclosed in Mr. Bourdillon's letter is any thing but satisfactory, and altogether inadmissible as a reason, leading only to the conclusion that he is unfit for the responsible situation he holds. The idea of a portion of the Revenue Demand not

not being included in the periodical Statement furnished to the Board of Revenue is so extraordinary that the Right Honorable the Governor in Council must insist on the Collector being called on to obtain from the Sheristadar an explanation as to how he failed to bring such an omission to the special notice of the several Collectors under whom the Balances accrued and he desires that the Board of Revenue will, in submitting Mr. Bourdillon's report, offer their own opinion as to its result.—

5 The total amount of Sewoy Summah Balance outstanding on the 28th August 1849 was Rs. 39,911—5-11 of which 11,703—3-9 is due from what comes properly under the head of Sewoy Jummah i.e. land cultivated immediately after the close of the Summahundy and before the expiration of the Fusly and the Right Honorable the Governor in Council approves of the restrictions laid down in para 6 of the Board's Proceedings limiting the Sewoy Jumma to the above head and with it proceeds.

proceeds of sale of strays unclaimed property &c.

6 Mr. Bourdillon recommends the writing off to Profit and loss of all Balances of Savoy Jumma up to July 1253 inclusive, amounting to Rupees 38798—10—4 and as the Board support his proposal, which seems to Government also to be reasonable, it is hereby sanctioned.

+ Thirty Eight thousand Seven hundred and Ninety Eight and ten and piece four.—

7 The remaining Balances even though not all ultimately recoverable should be retained for the present.—

8 The item of "Triputty House tax" / No. 18 in Mr. Bourdillon's Enclosure is in fact a New-cawel fee, and without giving any decision on the general question of these fees / now before Government / the Right Honorable the Governor in Council has no objection to its being relinquished in this instance as a Demand against the Poligars of the 3 Villages named in the Collector's letter. The item of "Summadum" No. 19 may be more fitly settled when the general revision of the Motumpha takes place.— The-

The intentions of the Board as to sequestered Chouttry Enams appear to go farther than a section XV of Regulation VII of 1817. permit, but their directions for carrying the different items hitherto erroneously entered as Savoy Summah to their proper heads are approved of—

considering the very liberal allowance granted by Mr. Nisbett to these Officers is fully of opinion that all excess above that should at once be resumed, and the land only given out for cultivation on its full assessment.—

11 The Board of Revenue will be good enough to take measures to have the fact of many of these Demands having been struck off publicly notified in the District, so that there may be no ground for secret and undue exactions under the pretence of "Inam" and the Right Honorable the Governor in Council trusts that under Mr. Bourdillon's administration the discreditable state of the Accounts of "Balances" formerly prevailing will be completely rectified.

From the Acting Secretary to Govt. Disapproving of the mode of Settlement observed in the Majority of the Districts under the Madras Residency and directing that a Circular be issued to Collectors to conduct the Settlement of each Talook at one place within its limits and that certain observations of the Board approved by Government in 1828 be at the same time Circulated.

Read the following Memorandum from the Secretary to the Board of Revenue.

/ Here enter 2d July 1849 No. 281 /

It appears from the State-

Para 1. -ment submitted by the Board of Revenue "of the places where the Summabundy of the several Districts was formed by the Collectors and the Officers subordinate to them" that in Nellore the Talooks of the Collector's Division were settled at one place, that is the Ryots of 4 Talooks were collected together at one place, the Huzzoor Station, while three Talooks of the Sub Collectors Division were settled at one place, and two at another, and that in no Talook was the Collector at more than one place for the purpose of the settlement.-

This system appears

2. from the statement before Government not to be peculiar to Nellore alone, but to prevail also in the Majority of the Districts, the Right Honorable the Governor

Governor in Council is however of opinion that it is objectionable and altogether at variance with the principles of the Ryotwary Settlement, which professes to be a settlement with the Ryots individually, when every Ryot has an opportunity of representing his case to the Collector, if he has any complaint to make, and obtaining redress. In the instances above noticed it is impossible that the Ryots can meet the Collector there; they must send delegates, and the Settlement cannot under these circumstances be a Ryotwar Settlement.-

3 The Governor in Council desires the Board of Revenue will immediately order the practice to be corrected and by a Circular order direct that the settlement of each Talook be conducted at least at one place within its limits, so that the Ryots may be assembled without inconvenience to themselves or their avocations. - The observations of the Board of Revenue upon the objects of the annual Set= =tlement contained in their proceedings under

Para 4

under date the 10th April 1828 approved by Government in the letter to the Board under date the 7th November 1828 might with advantage be circulated at the same time. -

Vide letter from Coll.r of Malabar dated 21st June 1849.

4. The mode of conducting the settlement in Malabar seems particularly objectionable, and the Governor in Council desires that the Board of Revenue will adopt early measures for its correction. -

Para 1. I have the honor to transmit the Eng.h Statements from No.1 to 17 Mahratta Statement from No.1 to 22. - =mahlundy Statements of the Land Re= =venue of this District for Fusly 1258 = A.D. 1848/49

2. The Extra Assistant Mr. Cotton conduct= =ed the settlement of the Nayer and Sydapet Ta= =looks, and the Head Assistant Mr. Phillips that of Carangooly and Chingleput, whilst the settle= =ments in the remaining Six Talooks were conduct= =ed under my own Superintendence.

3. The past season must gene= =rally speaking, be considered as a very favorable one, for although the rains of the South West or petty Monsoon were light and partial in their effects occasioning thereby a decrease in the extent of Poonjah Cultivation, the North East Monsoon

Monsoon, on which the supply of the Tanks, and the Cultivation of the Wet lands yielding about 88 per Cent of the whole land Revenue of the Districts mainly depends, set in early, and re=peated falls of rain at reasonable intervals filled, and again replenished the reservoirs, whereby the wet land Cultivation was carried out even to a greater extent than in the preceding Fasly.-

4- The results of the season thus described whilst very satisfactory, as exhibiting an increase of cultivation in the more valuable lands, and consequent general increase of revenue compared with the returns of the foregoing season, which the Government in their Minutes of Consulta=tion Dated 24.th July 1849 notice as the most favorable in its results for the last 30 years, would have been still more favorable, had not an epidemic raged amongst the cattle in the Poonamallee Talook, and its neighbouring Villages, causing much land that would in other events have been

been cultivated with a second Crop, to be left unsown. The very low rate of Prices no doubt also tended to depress the exertions of the Ryots. for the average wholsale prices of grain in the Towns was 28½ per Cent lower than the average low Prices of 1847.-

5 The Prices at which the great body of the Ryots sold their pro=duce to meet the heavy Rists due from April to July was of course still low=er than the above averages. and may be estimated from 31 to 38 per Cent below the average rate of that long series of Years, upon which the Berij or land rent was fixed at the period of the Survey assess=ment such low Prices naturally are not only discouraging to the Cultivators, but often render it difficult for them to meet the Government dues with regularity, and to this fact chiefly the delay in the relization of the Rists, and the outstanding balances of the

past

past Fasly must be attributed, but this point will be again alluded to hereafter.-

6- The number of Villages under Ryotwar Settlement during the season under review was 1581 or 12 in excess of the preceding Fasly, arising from the reversion to Government of that number of Devastanum Shro= =trium Villages under the arrangement which received the sanction of the Board dated 5th March 1849.-

7. In the Wet land cultiva= =tion in these 1584 Villages, there was an increase of 6740 Cawnies of single Crop land cultivated with a first Crop; and a correspondg ex increase in the Beriz of 28316 Rupees, but there was, from the reasons before assigned, a decrease in the cultivation of these lands with a second Crop of 1795 Cawnies bearing a rent of 5920 Rupees.-

8- In the extent of Cultivation of

of wet land assessed with a two Crop con= =solidated Teervah there is an increase of 9 Cawnies, but attended with this anomaly, that whilst there is a slight increase in the extent of land there has been a decrease of Rupees 182-4-0 in the Beriz, arising from some highly assessed land having been left uncultivated. The extent is not great, and I now allude to the matter, merely to show that it has not escaped notice, and that the particular causes of each case will be ascertained and, if necessary, brought to notice.-

9- In the Poonjah Cultivation there was a decrease of 424 Cawnies bear= =ing an assessment of Rs. 9275-7-4 The extent of Garden Cultivation from Wells was nearly on a par in the two seasons.-

10 The subjoined comparative Ab= =stract Statement gives the above information in a Tabular form together with the Be= =riz derived from each description of land, the result being an increase in the de= =mand for the past over the preceding Fasly of Rupees 16870-12-6 or Rs. 1-13-4 per Cent

the past and preceding Fasslies under
several of the enumerated heads. The
entire number of Shrotriem Vil=

Aumany

Fort St. George 22nd November 1849

Aumany Management in Fusly 1257 A.D. 1847-48 was 13. whilst in Fusly 1258 A.D. 1848-49 they amounted to 26 Villages. Of these 24 Villages were rented to their respective Merasidars. 22 being so rented on a Dowle or estimate of the crops, and 2 on Durkast. 2 Villages were also rented on competition to speculators the Merasidars the Merasidars of them not being willing to undertake the rent.-

15 The subjoined Comparative Statement exhibits the extent of Cultivation and the Revenue realized from these Aumany Settlements. the result being a decrease in the Beriz of the year under review of Rupees 3,493-15-7 as compared with the preceding one the amounts respectively being.-

1257	18,930-3-8
1258	15,436-4-1
Decrease	3,493-15-7

The Beriz of the past year is also Rupees 2,739-14-9 below the Permanent Settlement the Settlements being severally

Rupees

Fort St George 22nd November 1849

Rupees 15,436-4-1 and Rs 18,176-2-10.

16. The very low prices of grain and the decrease of the Poonjah Cultivation from the causes assigned in Paras 4 and 9 may be considered as the main cause of these results; for on examining the details of the above Statement, the Board will observe that in the 22 Villages rented on Dowle or estimate of the Crops, the extent of Nunjah Cultivation and gross produce in the past Fusly exceeded those of Fusly 1257 A.D. 1847/48 by Cs. 198 and 869 Cullums of grain but the value of the Government share of the produce according to the Market rate was only 3-10-4 per Cawny whilst in 1257 A.D. 1847/48 it had been Rs a p 5-4-1

17 In the Nunjah Tarum Poonjah and Poonja lands also the decrease of Cultivation was extensive- for only 303 Cawnies were cultivated out of the 523 that had yielded produce in the preceding Fusly. In the ready co Money

Fort St George 22nd November 1849

Money Collections also which are chiefly derived from dry lands paying a fixed money assessment, determined on them by the former proprietors, there was a great falling off from the diminished Cultivation of those lands. In comparing the Revenue of these Canary Villages with the Permanent Settlement, it must be remembered that the Villages comprizing the Paady Mootah and the Colady Shrotriem are included amongst them. The Revenues of the former never have approached the Permanent Rent, and the latter reverted to Government in a sadly deteriorated state. The reservoirs of the latter Villages have been repaired during the working season of this year, and I hope for better results in future. Rather more than 1000 Rupees had also been collected by the Shrotriumdar of Meenpoor and Arnivoil prior to her death by which sum the Revenue was consequently decreased.-

18 I have now to submit an abstract Statement of the amount of Remissions under the various heads. At a first glance of this Statement it would appear that the net remission of the year exceeded those of the preceding one by the large sum of Rupees 105896. but this is not the real state of the matter, and arises from the attempted introduction of the Putkul system, or entering in the Jamabundy Statements the full amount of the rent of all lands in the Cultivators holding as the demand, although reductions there-from appearing as remissions.-

19 On orders being issued to the Tahsildars to take cultivation agreements from the Meerassidars and Cultivators for the past Fusly, the Meerassidars very generally from the fear of losing their proprietary right to the lands included in their shares of the Village Meeras entered in their Putkuts or Agreements not only the land usually cultivated with the Poodoocal land to be left fallow from having been cultivated in the past season, but in many instances all the waste lands of the Village, and some of the Tahsildars and other native Revenue Officers with the false impression of displaying their

their zeal, increased the evil by inducing the Ryots to agree for lands there was but little or no prospect of their cultivating. These circumstances having appeared at the Jummabundy, and it being clear that the Lands should not have been entered in the Cabooleats, and could not have been cultivated, the rent of them was struck off to the amount of Pdh 109961-13-1. Excluding this Item altogether from the Accounts although there is a slight increase in the amount of remissions given under a few particular Heads, there is a decrease in the total amount in the Settlement of the year under review, amounting to Rupees 4064-15-9.-

20- The general principles on which remissions are granted in this District have been so frequently detailed, that it does not appear necessary for me to state further than that every effort has been made to carry out the instructions in regard to them issued by the Board and Government.-

21. The subjoined Comparative Statement exhibits the Demand, Collection and Balance at the termination of the Fusly and up to the 31st October on each source of Revenue. The Board, on examining this Statement, will observe that there is a decrease of Rupees 103724-0-11 in the total demand. This decrease arises entirely in the Salt Department, and from the sale of that article for Inland consumption being permitted at the Madras Cotaur; under every other head there will be found an increase in the past as compared with the preceding year, and excluding the head of Salt, the demand for the two years will appear as follows.

	Demand
Fusly 1257	12,68,481-3-1
" 1258	12,89,519-6-11
Increase	21,038-3-10

22. The total amount of Collections on account of Land Revenue within the Fusly was Rupees 9,66,708-3-10 leaving a

a balance of 182489-10-9 or 15 7/8 per Cent. The balances were unusually large; but when the Board take into consideration the difficulties attendant on the punctual realization of Revenue, with the price of produce so much below the commutation prices on which the Assessment was based, and also observe that these balances have been reduced by subsequent payments up to the 31st October to Rupees 21710-12-2. They will I feel confident be convinced that no exertion or attention to the subject has been wanting on my part. The greatest portion of these balances will, I anticipate be realized within a Month.

23. I now beg to submit a State-
-ment of the old balances of Land Revenue
outstanding from Fusly 1250 to 1256 in-
-clusive amounting to Rupees 5492--5--2
Of the above sum, Rupees 2843-7-3 are
due by the late Proprietors of the
Moottahs of Mamundoor, Atoor, and
Etchoor and the amount due by each
respectively has been for the follow-
-ing reasons included under the
head of irrecoverable.-

24. The Proprietor of the
Mamundoor Moottah having fal-
-len into arrears, the Estate was sold
and purchased by Government at a
sum considerable less than the arrears
outstanding. Since then the Moot-
-tadar has died leaving no property
that could be attached for the
arrears, and the balance therefore
is entered under the head of irre-
-coverable by reason of death.-
The case of the Zemindar

of

-of Etchoor is precisely similar in
every respect. The Individual by
whom the balances on account of the
Atoor Moottah are due, is in exist-
-ence, but is in very impoverished and
distressed circumstances, his whole
property having been seized and sold
by his creditors at Madras, and as
there is no hope of realizing any por-
-tion of the amount due by him, I
have entered it also in the list of
irrecoverable sums by reason of po-
-verty.

25. Of the Balances of Rup-
-ees 3,898—5—3 A. P. due up to 1255, I
stated in my Jamabundy Report
for Fusly 1257 A.D. 1847/48 that I considered
Rupees 1,284—7—4 A. P. to be recoverable.-
Of this sum, however, Rupees 229-9-4
only have been collected nor will
the Board, I imagine, be surprised
at this when they reflect on the de-
-preciated prices all produce has
realized, and the difficulties
consequently experienced in

collecting

16981

Fort St. George 22d November 18

collecting even the current Rists.
These circumstances, and the strong
impression that any attempt to realize
the remaining balances by rigorous
measures would not only cause great
distress, but probably affect, in a
material degree compared with the
amount collected, the future resources
of the Cultivators, upon whose prosp-
erity the revenue depends, have induced
me to enter the balance
irrecoverable; and to solicit sanction
may be obtained for writing it off.

26.

The balance outstand-
ing for Fusly 1256 amount to Pur
spees 1,593—11—2 of this sum Purspees
1277—4—8 have been ascertained on
enquiring to be irrecoverable; and
therefore I beg to recommend that
that amount also may be written off. Purspees
316—6—6 may possibly be recorded, or at any rate
a portion of it, and therefore not withstanding
the

16982

Fort St. George 22d November 1849

the same reasons might be adduced
in favor of a similar remission,
I have felt some hesitation in re-
commending it.

27.

The total sum I have
recommended to be written off as
absolutely irrecoverable is Pur
spees 5,175—9—11, Rupees five thousand one
hundred, and seventy five, annas nine,
and Piece eleven.

Remarks.

23

This Statement does not exhibit the assessment of the Ayacut lands in consequence of the uncultivated portion of Punjah lands not having been originally classified or assessed, and of the Punjey lands being assessed on the various descriptions of produce raised on them which is liable to change every year. The amount shown in Column 14 of Statement No. 5 for this description of Villages is only the assessment of the cultivated portion and not of the whole of the Ayacut lands.-
