Infd. 31st January 1850.

Read

3383 Fort St. George 4th March 1850.

Read the following letter.

5

From the Collector of Nellore.

To, J. B. Powell Esqr.
Acting Secretary to the
Board of Revenue,
Fort St. George.

Sir,

I have the honor to forward herewith a Statement of Salt now available for exportation to Calcutta on private trade up to 31st January last, and have the honor to inform you that another application has since been received for a further grant of 5,790 Maunds, for which Salt is available. I beg at the same time to bring to the notice of the Board that the stock of the white Salt now in store in the Cottahs of this District does not admit of any further quantity being set apart for exportation to Calcutta until the Salt for the current year is manufactured and received into Stores.

Nellore District
Rustnapatam
Collectors Cutcherry
16th February 1850.

/ Signed / D. White
Collector.

Statement

3384 Fort St. George 4th March 1850

Statement of the quantity of Salt manufactured during the year 1849 at the Pondicherry Salt Works, and of the quantity sent to Calcutta on private trade from the Pondicherry Salt Works during the year 1849/50

	Quantity manufactured during the year 1849	Quantity sent to Calcutta on private trade from the Pondicherry Salt Works during the year 1849/50	Remarks
1 Cuttalady	332 1/2		
2 Goorukuppum	9000		
3 Kuttupalam	2,781 1/2		
	11,781 1/2	4,403 1/2	

A. Moore Collector & Magistrate
Collectorate Cuddalore
15th February 1850

3385 Fort St. George 4th March 1850

Proceedings thereon. As it would appear from the foregoing letter that no Salt is now available in the district of Nellore for exportation to Calcutta on private trade, the Collector will discontinue the transmission of his usual monthly Statement. He will however be pleased to report after the Salt for the Current year has been manufactured, what quantity may be set apart for the Calcutta Trade, for the season 1850/51.

Read the following letter.

From J. B. Rouse Esqre
Acting Secretary to the
Board of Revenue,
Fort St. George.

(7)

From the Asst. Collr of Bellary. Sir, I have the honor to acknowledge the receipt of the 2 Petitions returned noted in the margin and bearing the undersigned of the Board dated 24th January last to the following effect.

Forwarding 2 Petitions received from the Board with certain information.

"Forwarded to the Collector for enquiry and report with reference to the Board's Proceedings of 10th January 1850."

In the said Proceedings of 10th January 1850, the Board have after a careful perusal of the Case of disputed Claims between the Petitioner Rayanna son of Gooroo Row and the opposite party.

Rs 226 1/2 1/2 1/2 9
129

Sixty Jairam adjudged equal shares to each party.

The decision on this case was first made by myself when Sub Collector in 1839; it was appealed from to the Collector whom not having taken the matter up, it again came under my notice as Acting Collector, and as I could not pass a decision on an appeal from my self, the whole proceedings with all the documents of the case, and such explanations were submitted by me to the Board, who set the setting aside that part of my decision, when Sub Collector, respecting the adoption of Goorra Row, and the award of distinct shares to the surviving females) have fully concurred in my views on the other points connected with the case, and passed their final orders upon it.

The Petition now under reference appear to have been before the Board previous to the passing of these orders, and on a perusal of them I see nothing in them materially affecting the case which has not already been fully noticed in the previous report; nor any thing at all that should lead the Board to modify the orders already passed, which will accordingly be carried into effect.

Signed C. Pelly
Acting Collector.

Bellary District,
Collr's Office on Circuit,
Adoni, 11th February 1850.

Order thereon — Ordered that the following endorsement be passed upon Petitions Nos. 2461 of 1849 and 9 of 1850

"Petitioner is referred to the Collector, the Board of Revenue having already passed orders upon the subject of this Petition."

(7-8)

Read the following letter & Statements

To,

T. Pycroft Esqre

Secretary to the

Board of Revenue,

Fort St. George.

(9)

From the Collector of Cuddapah. — Sir,

Forwarding the report on the Extra Sources of Revenue in the District of Cuddapah for Fusly 1258 together with the usual Statements.

I have the honor to forward my report on the Extra Sources of Revenue in the District of Cuddapah for Fusly 1258 together with the usual Statements.

2. The following Statement exhibits the results of the past Compared with the preceding Fusly.

Fusly

3388. Fort St. George. 4th March 1850

Comparison.

	Fusly 1257.	Fusly 1258.	Increase.	Decrease.	Collected within the Fusly.	Balance at the close of the Fusly.	Collected up to the 31st of October 1849.	Balance.	Particulars of the Balance. Recoverable.	Doubtful.
1 Sherry	123862 " "	120982 " "	" "	2880 " "	1188612 "	2120 4 "	2120 4 "	" "	" "	" "

Net Increase	7725 9 5									

Ad
Order
7-8

3. It will be perceived that there has been a net increase in the total demand amounting to Rupees 7,725-9-5 in the Fusly under review compared with the preceding one. There has been an increase under the Head of "Stamps" and 'Moturpha' amounting to Rupees 12,623-14-" and a decrease under the remaining Heads of "Abkarry and Sundry Small farms and Licenses" of Rupees 4,898-4-7.

Abkarry- 4- The following comparative Statement exhibits the Talookwar Settlement of Abkarry Rents during the Fusly under review.-

Fusly.

	Fusly 1257-	Fusly 1258.	Comparison- Increase-	Decrease-
1 Cumbum	9,050 " "	9,250 " "	200 " "	" "

13 Poolevandalah	13,280 " "	14,440 " "	1,160 " "	" "
14 Roychoty	6,020 " "	5,720 " "	" "	300 " "
15. Poonganoor	7,170 " "	6,170 " "	" "	1,000 " "
Total	1,23,802 " "	1,20,982 " "	2,020 " "	4,900 " "
		Net Decrease	2,880 " "	

Fort St. George. 4th March 1850

5- The Demand under this head amounted to Rupees 1,20,982- being Rupees 2,880 less then that of the preceding Fusly- The decrease is observable principally in the Talooks of Goorrumcondah, Muddenpully and Poingaroor and has arisen from the want of competition for the renting of these Talooks owing to the high Offers made in the preceding Fusly-

6. Of the above demand Rupees 1,18,861-12-4 were collected within the Fusly, leaving a balance of Rupees 2,120-4-" which has been since realized-

Sundry Small Farms and Licenses-

7. The following Statement exhibits the Net decrease of Rupees 2,018-4-7 resulting from revenue derivable from Sundry Small Farms and Licenses-

		Fusly 1257-			Fusly 1258-			Comparison- Increase-			Decrease-		
1	Orchards	14,282	5	6	12,482	14	6	"	"	"	1,799	7	"
2	Jalagadoogoo	1,519	4	"	"	"	"	"	"	"	1,519	4	"
3	Dimond Mines	"	"	"	420	"	"	420	"	"	"	"	"
4	Honey rent	805	2	"	1,124	13	"	319	11	"	"	"	"
5	Palmira Trees	145	"	"	641	14	"	496	14	"	"	"	"
6	Red wood	561	"	"	624	13	6	63	13	6	"	"	"
	Total	17,312	11	6	15,294	6	11	1,300	6	5	3,318	11	"
					Net Decrease						2,018	4	7

8. The year is not considered to have been a favorable one in regard to the productions of Tamarinds and

Fort St. George. 4th March 1850

and Mangoes, to which circumstance must be attributed the decrease of rents for Orchards and Topes- The collection under the head of Jalagadoogoo or Rent for the privilages of sifting the ashes of Goldsmiths furnaces having been discontinued from the commencement of the Fusly under review agreeably to the orders contained in a letter received from the Secretary to the Board of Revenue dated 16th March 1848, no entry has been made under this Head- The certain Diamond Mines in the Talook of Coilcoontlah having been rented out in the year under review, while no Offers had been made for any during the preceding four years, the amount of rent agreed for has been entered, showing an increase in the same amount- The increase in the Honey Rent amounting to Rupees 319-11-" owing to increased competition causing higher Offers to be made in a few of the Talooks especially in that of Chitravail- There has been an increase in the amount realized by the sales of Palmira, Redwood &c. of Rupees 496-14-" and 63-13-6 respectively-

9. Of this Demand Rupees 12,171-3-2- were collected within the Fusly, leaving a balance of Rupees 3,123-3-9, of which Rupees 2,946-7-9 have since been realized-

10- The following is a comparative Talookwar Statement shewing the Settlement of each Item under the general Head of Small Farms and Licenses-

: war Statement exchibits the details of Veesabady under the general head of Moturpha.

D.G.

Fort St. George 4th March 1850

12. The demands under these Sources of Revenue amounted to Rupees 150169-15-1 being Rupees 1295-10-4 in excess of that settled in the preceding Fusly.

13. The details of the increase under both Items are as follows.

In Vesabady Rupees - - -271-7-6

In Bagur Vesabady Rupees-1024-2-6

Total Rupees 1295-10-4

14. The increased taxation to which Inerchants have been made liable according to the systems in force for rating this Class of People with reference to the extents of trade they carry on, has caused a proportionate increase under the Head of Vesabady or Tax

Fort St. George 4th March 1850.

Tax on the Profits of Trade. The increase in Bagur Vesabady is owing to the increase in the number of Looms, flocks of Sheep and House Tax in the several Talooks.

15 The subjoined Statement has been prepared according to the Form annexed to the Circular letter Received from the Secretary to the Board of Revenue dated 15th March last, exhibiting the details of the Extraordinary Revenue during the Fusly under review.

Bagur Veesabaly

16. Of the above demand Rupees 14,3101-12-11 were Collected within the Fusly and of the balance of Rs. 7068-2-2 Rs. 64-30-5-9 has been Collected up to 31st October 1849 leaving a balance of Rupees 637-12-5-

Stamps. 17. The amount Collected from the Sale of Stamps in the past Fusly Amounted to Rupees 23740-12-" being Rupees 11328-4-" in excess of that Collected in the preceding Fusly.

18. The increase under this head is partly attributable to the amount of Rupees 3031-8-" embezzled in Fusly 1256 by the late Stamp Vender Runga Row out of the Sale proceeds of Stamps, having this year been realized by distraint of the Defaulters Property and the remaining increase of Rupees 8296-12-" has arisen Consequent on Act No. XVIII of 1848, authorizing the substitution of Stamp duties for institution fees in the Courts of District Moonsiffs having been brought into operation in the Fusly under review.

19. The annexed Statement exhibits the particulars of the old balances outstanding in the District.

Statement

3401

Fort St. George

4th March 1850.

	Balance at the end of Fusly 1257.	Collections in Fusly 1258.	Amount remitted Remaining under sanction of Government Balance. dated 21st July 1849.	Remaining at the close of Fusly 1258.	Amount collected up to the end of October 1849.	Remaining amount of Balance.	Particulars of the Balance. Recoverable.	Doubtful.	Irrecoverable.

20 From the foregoing State-
ment it will be perceived that the
arrears at the close of the Fusly
Amount to Rupees 14.2-11-6 of which
Rupees 27-13-1 have subsequently been
Collected leav-
-ing a balance
of Rupees 111-11-6.
Of this balance
the Recovery of
Rupees 31-12-11
is considered
doubtfull and
the Remainder
Rupees 83-1-6
is irrecouerable
for Reasons
stated in the
Memorandum
Marginally noted,
I therefore beg to

Proceedings.

9-10

Proceedings thereon.

Reporting upon the Management of the Extra Sources of Revenue in the District of Cuddapah in Fusly 1258.

From the entries in the Margin it will be observed, that the Settlement of the year under review exceeds that of the preceding by Rupees 7725—9—5 and is in advance of Fusly 1256 by Rupees 24,643—8—1, being the result of a gross increase of Rupees 12,623—14—4 and a gross decrease of Rupees 4,898—4—7, as shewn in the subjoined Tabular Statement.

Settlement. Fusly	Amount.	Difference
1256	283543. 9. 11	16917 14 8
1257	302461. 8. 7	
1258	310187. 2 "	7725. 9. 5
Total Increase	24643. 8. 1.

2. The fluctuations in those items in which there was a falling off of Revenue are of an ordinary nature and do not appear to call for any detailed notice.

Decrease.	Rs a.p.
Salt Carry	2,880 - -
Sundry small Farms and Licenses	2,028 4 7

3. The chief addition to the Revenue from the Extra Sources for Fusly 1258 was derived from the sale of Stamp Papers, the sum of Rupees 8,296 - 12 - " being attributable to the operation of Act XVII of 1848, while the remainder Rupees 3,031 - 8 was owing to the realization of the amount embezzled by the late Stamp Vendor, as reported by the Collector under date 30th January 1849.

Increase.	Stamps. Rs a.p
Fusly 1257	12,412 - 8 - "
" 1258	23,740 - 12 - "
Increase	11,328 - 4 - "

4. The following Statement exhibits the Motarpha Revenue compared with that of Fusly 1257.

	Fusly 1257	Fusly 1258	Increase	Decrease
	Rs a.p	Rs a.p	Rs a.p	Rs a.p
Seesabady	73,538 12 5	73,810 3 11	271 7 6	" " "
Bagyr Seesabady	75,335 8 8	76,359 11 2	1,024 2 6	" " "
	148,874 5 1	150,169 15 1	1,295 10 "	" " "

5. From the details given in para 15 of the Collector's Report it will be seen that this increase occurs chiefly — Under

under the heads of Looms, flocks of Sheep and House Tax, due consideration having been shown to all persons who were entitled to exemption from these taxes, and is indicative of gradual improvement in the resources of the District.

6. Of the total demand Rupees 3,10,187-2-11 the sum of Rupees 2,97,161-12-1 was realized within the Fusly, en leaving a balance of Rupees 13,025-5-11 which was subsequently reduced by Rupees 12,210-13-6, the remainder en Rupees 814-8-5 being left for future adjustment.

Arrears. 7. With respect to the arrears of Fusly 1257, the Board observe that the Collector considers the sum of Rupees 31-12-11 doubtful, but recommends the remission of Rupees 83-1-6 as irrecoverably due by deceased, absent and insolvent Ryots, and under these circumstances the Board beg to solicit sanction that this sum may be written off.

8. The gross Collections, Current, Extra

and arrears, amounted to Rupees 3,06,745-15-11 being above those of the past fusly by Rupees 1,689-12-4. This excess has been reduced to Rupees 1,246-4-1 in consequence of the charges being greater than those of Fusly 1257 by Rupees 444-8-3, on account of the larger amount of Commission paid to Stamp Vendors.

9. The only information bearing on the growth and manufacture of Sugar is to be found in the concluding para of the Collectors report. The number of manufactories is 141, and the quantity of Sugar exported during the year amounted to 27,300 Maunds. The Collector ought to have informed the Board what is the extent of land planted with Sugar en Cane, and whether any progress has been made in this species of cultivation.

Ordered that a Copy of the foregoing Extract with the annexed Comparative Statement of the Collections, Charges and Net en Revenue be submitted to Government, and a transcript of the same be forwarded to the Collector of Cuddapah.

Proceedings thereon.-

(13-14)

The Board of Revenue observe that an application to cancel Mr. Murray's unexpired portion of leave was unnecessary as by the Notification of Government published in the Fort St. George Gazette of 1847 Page 875 it has been ruled that the resumption of the duties of Office at a date previous to that to which leave of absence extends, virtually cancels the unexpired portion of leave.-

Proceedings thereon. Resolved that the letter above recorded together with it's enclosures be submitted for the orders of the Right Honorable the Governor in Council with reference to the correspondence noted in the Margin.-

To Govt. 16th November 1848.-
To D. 30th D. in Cons. 11th Dec. 1848.
To Govt. 29th January — 1849.
To D. 20th Feb. in Cons. 8th March 1849.

Submitting letter from the Coll. of Chingleput and supporting that Officers suggestion for having a lease in the name of Mrs. Taynton for the Garden at St. Thomas' Mount in her possession, the Claim to which has been withdrawn by His Highness the Nawab of the Carnatic.

2. The claim to the Garden at St. Thomas Mount in the possession of Mrs. Taynton having been Ceded in her favor by His Highness the Nawab of the Carnatic there would now appear to the Board of Revenue to be no objection to the issue of a Lease for the ground in question in the name of Mrs. Taynton.-

3. The Board would therefore recommend that the Lease applied for by the Collector should be granted thro' the Military Department in the same Manner as the leases for the other land in possession of Mrs. Taynton, and that it should expire at the same time as those leases Viz. on the 30th October 1889.-

4. In Conformity with the instructions contained in Extract Minutes of Consultation 30th November 1848 para 2 the Quit rent on the Garden in question, which remained in abeyance for the period during which the land was in dispute between Mrs. Taynton and His Highness the Nawab of the Carnatic will be demanded from that Lady at the rate now proposed by the Collector Viz. Rupees 3-8-0 per Annum.-

From the Sub Collr. in Charge of Salem

I have the honor to submit for the consideration and approval of the Board of Revenue the Draft of an Answer I propose to file in O. S. No. 10 of 1850 instituted against the Sub Collector in the Subordinate Court of Salem by Nullzagounden of Vonjapolliem in the Truchengode Talook

Copy of the Sub Collector's letter with its enclosure and Translation of the Plaint accompanies and I request the necessary sanction for defending the Suit at the Government expence. — may be transmitted as early as possible, as only 15 days are allowed from the 11th Instant to file the Answer. I have applied for a further period of one Month.

Salem District Kacheri, Collector's Cutcherry 12th February 1850

(Signed) F. N. Maltby
Sub-Collector in Charge
F.S.

Fort St. George 4th March 1850.

To. W. C. Lockhart Esqre
Collector of Salem

Sir. I have the honor to forward a translation of a plaint filed against me in the Subordinate Court of Salem and a draft of the Answer which I propose to file and I request you will be so good as to apply for permission to defend the suit at the public expence.

2. I think the nature of the suit is sufficiently explained by the Answer I have prepared, and the views which dictated my decision are also given. I annex translation of the Tahsildars report in order that the case may be fully before you.

3. It appears to me to be very important that the rules of the district should be strictly adhered to. It is by these means alone that we can be safe in showing any indulgence at our

Fort St. George 4th March 1850.

Settlement and although I could have wished that the penalty should fall with less severity the case is one of such decided fraud that I believe the example was absolutely necessary.

Nullanna Gounden son of Paryaconara Gounden of Moonjapolliem Village in the Trichengode Taloo k.

Against

1. Nullana Gounden son of Chinnaconara Gounden
2. Ardanary Pilly Village Curnum
3. F. N. Maltby Esqr. Sub Collr. of Salem

This suit is brought for the recovery of a Poonjah land bearing a teerwah of Rupees 20. 7-1 and annually producing an

Fort St. George 4th. March 1850.

an outturn to the amount of Rupees 50—0 together with 2 wells situated in the same land valued at Rupees 200—0 and to villify the Tolloochit granted to the 1st. by the order of the 3d. Defendant—

The above land is attached to the Koonjanpolliem Village and bounded North by the Cholathar poonjah South by the Coollumputty boundary East by the Chuckaly Kandoo and West by the Kauttoo Kandoo It consists of acres 11—1 and is called "Amboolyencar" poonjah number 42 This land was formerly in the—possession of my grand father Comara valuppa Gounden, who had a puttah in his name, and enjoyed the land for many years, on whose death my father became the proprietor of the land and a puttah was also granted in his name During his days he laid out a sum of 200 Rupees and sunk two wells in the land and improved it

Fort St. George 4th. March 1850.

it. After him the proprietary right descended to me, and I held the land for the last 5 years paying the Circar teerwah regularly and receiving a puttah annually While this was the case there was a total failure of rain in the Village which prevented my—cultivating some of my other lands also. and so I left the above poonjah land waste in fusly 1258 or year "Kheela Ka" but retained it in my own possession and used it as a pasture land for the same fusly thinking that I could—cultivate the land in the following year "Sowmyah," and that I could also pay the teerwah to the Circar if—demanded— When the 3d. Defendant came to the Cutcherry Trichengode in the Month of Mausy year "Kheela Ka" he called me and questioned me why I did not cultivate the above land and I said that I did not do so from the failure of the rain then he informed me that I was to get a remission of teerwah for the

the land for that year. Although it is the Custom of the Country and of the Circar to grant Toolloochits to the Ryots in "Chittary Halavady" the first month at the commencement of the cultivation / quite contrary to this Custom the 2d Defendant on receiving a bribe and thro animosity granted a toolloochit for the land to the 1st Defendant in an unusual season in 7 months after in the Month of Arpasy of the Current year "Sowmyah" On hearing the above circumstances I objected and complained to the Tahsildar of the Talook, who came to the spot and inspected the land and enquired into the validity of my right, and received a Nazur with regard to the expenditure of 200 Rupees in the construction of the wells and reported the case to the 3d Defendant the Gentleman who without in the least taking the Circar Custom

custom and my right into consideration has confirmed the toolloochit granted in the name of the 1st Defendant and sent a takeed to the Tahsildar now 24 days ago directing to put the land into his / 1st Defendants / possession which is accordingly done.

It is the usual custom and rule of the Circar, when the Ryots leave their lands uncultivated for a year for want of rain to grant them a remission of teerwah and to allow the same Ryots to cultivate the lands in the following year and besides this it is also usual that a land be given to another when the former holder relinquishes the same by a Jody Razenamah but there is no reason whatever for a land in which wells are sunk by the Ryots or any other kind of land to be put into the possession of another on any account unless the former holder should relinquish the same by the Jody Razenamahs

I beg the Court will take the above case into consideration and

pass

pass a decree in my favor?

Sub Coll.r

Draft of an answer proposed to be filed in O. S. No. 10 of 1850 of the file of the Subordinate Court of Salem by F. N. Maltby Esq.re 3.d Defendant.-

In answer to this suit the 3rd Defendant states as follows. The Plaintiff has no right whatever to the land in question which is the property of the Government and as such has been given according to the revenue custom of the District to the party who made the first offer for it.-

It is a part of the revenue regulations of the district notorious to all parties that if land is thrown up and the party who held it ceases

to

to pay revenue the land lapses to the Government and is to be given to the first party who offers to cultivate it

Any party holding land is responsible for the rent unless he makes a formal resignation of it so that it may at once be available for other parties This is clearly laid down in the Rookoomnamah. But this rule is sometimes relaxed in consequence of the ignorance of many of the Ryots and during the last few years considerable indulgence has been shown in consequence of the pressure of the seasons and the Revenue which the Ryots ought to pay has been struck off at the Jummabundy under the title of Dittum Bunjur.-

But whether the land is relinquished by Razenamah or whether it is relinquished at the Jummabundy and the revenue is remitted the rule is the same, the land is entered in the accounts of the next year as Podgal or waste and is available for the first party who takes it up.-

So

So well is this rule known that if a Ryot has left his land waste owing to a failure of rain and prays for an indulgent consideration of his case he often begs that he may be allowed to pay pasture assessment/ or one third of the rent/ rather than have the whole remitted in order that the land may not pass from his possession.

It has been said that during late years owing to the pressure of unfavorable seasons much indulgence has been shown and the Dittum Bunjur has been liberally remitted. But to prevent this being abused to prevent parties from taking advantage of the seasons to leave their lands fallow at the same time that they prevent others from cultivating them, it is necessary that as the rule above mentioned should be very strictly enforced. That any party applying for the land should receive it, in fact that the land should be given to the first party who

offers.

offers for it.

If the cultivator is acting honestly and has really only left the land waste owing to a failure of rain and wishes to cultivate it the next year he may himself make the first offer for it at an early period of the season if he does not do so it is to be presumed either that he wishes to relinquish the land or that he is acting collusively.

The Plaintiffs is exactly one in point.

He left the land waste and at the Jummabundy obtained a remission of the revenue and the land therefore became available for any party who offered for it.

Not till a late period in the next season was any offer made for the land. In the month of October an offer was made, the Tahsildar received it and as the accounts showed that the land was available the offer was accepted and a puttah and tolloolut were

given

given to the applicant

It was only after this that the Plaintiff came forward and stated that so far from having relinquished the land he still held possession of it and had used it in the last year and that it was a part of his general holding not even separated from his other land by a hedge.

In this stage the case was referred by the Tahsildar for the orders of the 3d Defendant who had to decide whether he should adhere to the rules of the district, or whether he should show any indulgence to the present plaintiff and cancel the puttah which the Tahsildar had issued in due course to the regular applicant for the land

On considering the whole case the 3d Defendant resolved that it was one in which he ought strictly to adhere to the rules, that if they were abandoned in this case, it would be difficult to

to find one in which they should be enforced. On going carefully through the records the 3d Defendant found that the Plaintiff had been present in person at the Jumma bundy, he was therefore the actor in the fraud. The offer was not made till October, had he not been acting fraudulently he would himself have taken up the land the next year but in the cultivation reports of June, July, August and September, this land is not entered as cultivated.-

The 3d Defendant had also to consider what would have been the result if no offer for the land had been made. The Government had already lost one year's rent, the land was withdrawn fraudulently from the list of those cultivated, and no rent would have been paid nor would the land have been reentered as cultivated till the parties had reason to fear that their fraud would be detected.

It-

It also seemed to him that if the puttah given to this party were cancelled it would seriously deter other parties from coming forward, they would only incur enmity and reap no advantage.

The 3d Defendant therefore resolved that the Puttah issued by the Tahsildar appeared to be regular and legal, and that he the 3d Defendant had no right to cancel it.

The 3d Defendant therefore begs to submit that the Plaintiff has no cause of action against him. He is by his own showing a wrong doer and cannot plead his own wrong as a ground of action.

If the punishment his fraud has met with is over severe, he might apply to the Board of Revenue for an indulgent consideration of his case on the part of the Government which he had endeavoured to defraud, but he had no ground of action in a Court so long as the present

present rules are to be upheld.

Translation of an Arzee addressed to F. A. Maltby Esquire Sub Collector of Salem by Ragavendra Row, Tahsildar of Trichengode Talook, dated 5th November, 1849.

After compliments I beg leave to state that one Nullumnen son of Chinna Comaragounden of Amany Hoonjapollium Village on the 24th October presented a Durkast to cultivate for Fusly 1259 a land attached to the above Village called "Amboolzemeand" Poonjah No. 42 measuring acres 11—.1 and bearing a teerwah of Rupees 20-7-1 which was entered in the putent accounts in the name of one Nullumnen son of Coomara gounden of the same Village till Fusly 1257 and in Fusly 1258 left waste, and also brought one

Ungusspa

Ungusspa Chetty of Trichengode to stand as his security, therefore a toolloochit was given him immediately.

2. On the following day (25th October) the former holder of the land Nullyen alias Nullumma Gounden brought a complaint to me stating that he had left the land waste in July 1258 as he was prevented from cultivating it thro' indisposition and that he had used it for pasturage and some time ago enclosed this and his other lands with one hedge & and that he laid out his own money and sunk two wells for the use of his cattle &c., and when he informed his Village Monigar that some one would apply for the land if left waste he permitted him only to cultivate it and then he fenced the land with new and strong hedge and was intending to sow grain as soon as the fall of rain; and within this interval Chinnacumara Gounden has presented a clurkeast in the name of his son Nullumma gounden and obtained

obtained a toolloochit and requesting to reenter the land in his name.

Upon this, when I have summoned for the parties, the Complainant or former putteutdar of the land Nullumma Gounden 1, the father of the person who obtained the Toolloochit or 1st Defendant Chinnaicumara Gounden 2, Monigar Hally Gounden 3, Ieuxnum Ardanary pilly 4, Joint Ieuxnum Kanda-samy pilly 5, these persons appeared on the 28th. I immediately proceeded with them to the land and called many Ryots of the Village and those of other Villages and inspected the land and the wells situated in the same, and also received a Manzur from them and directed the above five persons to attend at my Cutcherry for enquiry into the case, and they have attended before me on the 1st Instant. The documents & connected with the case received on my exam-ination are herewith sent Viz. 5 depositions, 1 complaint

Complaint, 1 Durkast, 1 Security bond, 1 Mazur and 1 Plan - Total 10.

The opinion I draw from the above documents and by my personal inspection of the land is as follows.

The above land and the complainants two other lands Mundavaly thotta "thar" poonjah No. 1 in No. 40 and Mundavaly fyaul garden No. 3 in No. 40 are enclosed by a strong hedge, therefore other Ryots are unable to graze their Cattle on it and the complainant himself does so - there are two wells in the land each I think is constructed by a cost of 100 Rupees, there are also two trees and one bitter orange tree situated on the South of one of the wells.

It is proved by the Mazurnamah of the Ryots of the adjoining lands and by the depositions given by the Curnum and Monigar and the father of the person who obtained the Pottoohil that the complainant used the land for pasturage in Fusly 1258 as he now does.

Av

3450 Fort St George 4th March 1850

As the Curnum and Monigar failed to report that he had the land in his possession and that he was using it as a pasture land in Fusly 1258 a remission was allowed.

From the time of the settlement till Fusly 1211 the above land was entered in the name of the former holder or complainants grand father, after which time it was entered in the name of his son Perza Comaragounden the complainants father, and by his Razenamah in Fusly 1254 the land was entered in the name of his son the complainant, and a puttah was also issued. The Curnum Ardanary Pilly states that one of the wells in the land situated on the South was sunk by the father of the complainant and it is not known by whom the other on the North was sunk, but the Monigar deposed that both of the wells were sunk by the father of the complainant, however as the land was in the possession of the Complainants ancestors it appears that the wells were also sunk by them.

The.

The well situated on the North slope on one side so as to allow the Cattle to descend into it and drink water, by the assistance of this well it appears that no land has been cultivated for a long time, by the irregation of the other well situated on the South the land was cultivated as a garden paying a poonjah teerwah - On his relinquishing some of his patent lands in fusly 1255 a portion of the above land according to the following measure was cultivated by the assistance of the well -

	Extent.			assessment.			Extra assessment.			Total		
Land converted into Nunjah	"	29	11	1	6	"	2	8	4	3	14	4
	"	25	15	1	3	3	2	13	11	4	1	2
	1	15	10	2	9	3	5	6	3	7	15	6

as the individual did not cultivate the land by irrigation as above shown in the following fusly 1256 a deduction of

teerwah

teerwah was made -

The principal opinion in this case is that the land which was in the possession of the complainants ancestors and descended to him was left waste in fusly 1258, but the Monigar and Cannum failed to report that the land was retained in the complainants possession who used it for pasturage in this fusly also as in the preceding one, thinking that no reduction of teerwah will be made if reported, and also the Monigar has failed to report to the Circar upon a durkast being given for the land in this fusly and to prevent a toolloochit being given, and so a second person had the opportunity of obtaining a Toolloochit on his Durkast but however the land has not been put into his possession

As the Monigar and Cannum failed to report the truth of the case a loss of Rupees 20-7-1 was sustained by the Government in fusly 1258, even in this fusly during the time of the Dittum of the Village they have failed to report the case - when I take this into consideration I think that if a new person had

had not given a Durkast for the land it would not have been known that the land is in the posession of the Complainant, therefore the persons who have caused this loss to the Government Viz.t Monigar Cauly Gounden 1, Cunnum Ardanary Pillay 2, and the joint Cunnum Ramalaswamy pillay 3 should be fined according to your honor's discretion..

The former holder of the land promises to pay the teenah Rupees 207-1 of Fusly 1258 and also to Cultivate that part of the land as Garden and pay a Garden teenah, and the remainder as poonjah – the land is yet kept in his posession there are two wells in the land which worth 200 Rupees.

The person who has received a toolloochit also promises to Cultivate the land if put into his posession.

Therefore your honors instructions are required as to whether the land should be given to the former holder on receiving a Moochilkah and the teenah of Fusly 1258, allowing him to Cultivate a part

part of it as garden and the remainder as Poonjah and the toolloochit granted to the other cancelled, or whether the land should be given into the posession of the person who has received the toolloochit..

The Annual Peiz of the above Poonjapollam and Audzpatty Villages is Rupees 935-7-2 allowance of the Monigar is Rupees 19-11-3 and that of the 2 Cunnums Rupees 19-13-..

(17-18)

Proceedings thereon

The Board of Revenue have carefully considered the grounds upon which the Plaintiff in Suit No.10 of 1850 has brought his Action, as well as the arguments adduced by the Sub Collector in his proposed

proposed defence - They think however under all the circumstances of the case that it would be preferable to compromise with the Plaintiff, and they accordingly direct that the Sub. Collector in charge will ascertain from him whether he is now willing to pay the Peishcush for Fusly 1258 and to continue to hold the disputed land as heretofore - if so, and he is willing to withdrawn his Suit, Mr Maltby will effect the necessary arrangement with him. The Board moreover direct that the Village Officers who failed to enter in the Accounts the actual quantity of land in Plaintiff's occupation in Fusly 1258 may be punished for their neglect of duty in the usual way.

Read the following letter.-

To

J. Pycroft Esqre.

Secretary to the

Board of Revenue

(19)

Sir,

From the Collector of Madras. -

I have now the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated 7th August 1848, transmitting an Extract from the Minutes of Consultation dated 4th of the previous month, No. 837, in which it is observed that the Right Honorable the Governor in Council fully approves of, and concurs in the views recorded by the Board in their Proceedings dated 2d March, and that unless the detailed information therein called for be submitted within a reasonable time, and satisfactory evidence given, in future, of my anxiety and ability to conduct the important functions of my Office with that Zeal and judgment which Government have a right to demand and expect, "it will become the imperious duty of the Government to place some more efficient Officer in my appointment."-

Explaining the cause of the delay in the submission of the Accounts &c called for in the Board's Proceedings dated 2d March 1848 and expressing a hope that the censure passed by Government will be considered by the Right Honorable the Governor in Council to have been undeserved in being informed of the Circumstances of the Case.-

2. The remarks on the Board's Proceedings of 2d March 1848, have originated in

Fort St. George 4th March 1850

in a state of things, which was unavoidable and does not now exist. I submitted my reply thereto on the 11th August 1848. The Statement D. which accompanied it, exhibits the result

Para 46 of the re-examination of 2470 Grounds situated within the Adkarry limits, extending eight miles from the boundary line of the Supreme Court it having commenced on the 3rd April and terminated on the 3rd July. The area of eight miles beyond the limits of the Supreme Court exceeds in superficial extent 200 Square Miles.

3. At the date of the receipt of the Boards' Proceedings, the Cocoanut plantations were not altogether in such a state as to have enabled me to cause an equitable distribution of the Trees liable to be assessed to the Revenue to be made immediately I therefore, postponed the commencement of operations till April 1848. When it is borne in mind that it was requisite to inspect carefully each Tree in the 2470 Gardens referred to above, which are scattered over a wide tract of Country, that the total number of Trees does not fall far short of 130,000 and that

Fort St. George 4th March 1850

that it was incumbent upon the Examiners who acted under the supervision of the Sheristadar and Toddy Amildar, to make a correct classification and entry of those Trees which were to come under the heads of "Kalayen" "Galampaulay" "Loik" and unproductive respectively, with a view to their allotment to 394 Shops - as it was, chiefly, with reference to their reports that final arrangements were to be concluded with the Shop keepers. It will be admitted that the time taken up in the execution of the responsible duties assigned to each class of servants was not more than sufficient and I therefore trust that the Board will be satisfied that there was not any unnecessary delay in the compilation and dispatch of the detailed Accounts and information called for by them.

4. It is not of course for me to say whether it is in my power to give hereafter satisfactory evidence of my anxiety and ability to conduct the important functions of my Office with that zeal and judgment which Government have a right to demand, but if the actual result -

result of my past management, as a whole can be assumed as a fair criterion by which a reasonable hope may be formed of the future, perhaps the circumstance of there being an average Increase of Rupees 196294. 6. 8 per annum in my Collections from the year in which I took charge of the Collectorate, may carry some weight with it to exemplify the alleged fact. I beg leave to append to this Para the necessary particulars.—

Actual Collections for 7 Years before Stock Charge.		Actual Collections for 7 years from the one in which Stock charge
Fasly 1245 Rs.	6,71,304 10 5	Fasly 1252 Rs. 8,78,083 . 7
1246	6,54,235 12 .	1253 8,65,788 9 2
1247	7,03,264 11 11	1254 9,08,186 8 11
1248	6,92,668 14 10	1255 7,95,419 6 5
1249	7,23,849 15 9	1256 8,45,053 9 5
1250	7,22,682 8 7	1257 9,23,858 9 2
1251	7,60,220 6 7	1258 10,86,798 3 .
Total	49,30,927 . 1	Total 63,04,287 14 8
Average	7,04,318 2 3	Average 9,00,612 8 11
		7,04,318 2 3
		Increase 1,96,294 6 8

5 As I observed on a former occasion, "it is only by active superintendence and the most vigilant supervision that the

To Bord 13th March 1845

"the present increased Collections can be kept up.—

6. The success which attended the early part of my management was noticed by the Honorable the Court of Directors in Para 2 of their General letter dated 19th November 1845, No 23, in the following words

"We have observed with great satisfaction that the arrangement contemplated "by us for retaining Mr Nuddlestone in his present "Office is fully justified by the financial "results reported in his letter to the "Board of Revenue Dated 13th March 1845."

7 I lately brought under the consideration of the Board the acts of certain public Servants in other Districts, which it appeared to me were subversive of good order and militated against the Presidency revenue particularly and against the interests of Government generally. The measures which the Board have thought it expedient to adopt in consequence, cannot certainly fail to exercise a salutary influence on those who were affected by them and on others, but whether

whether, in the difficult position in which I was placed by the inquiries it was indispensible I should have entered into, so as to arrive at a satisfactory conclusion, I have manifested any want of "zeal" or judgment, it is for the Board to determine. I may however, be allowed to affirm that I acted throughout under a strong sense of duty.—

8. It is, therefore a source of deep concern to me that Government should have deemed it requisite to pass the severe censure recorded in their resolution of date the 4th July 1848, but which I beg leave respectfully to express a hope the Right Honorable the Governor in Council will be disposed to admit, I have not deserved, on being informed of the circumstances of the case now under review for which purpose I respectfully solicit that the Board will do me the favor to submit my letter of 14th August 1848. No. 55, should they have not done so already.—

Madras
27th October 1849

/Signed/ J. A Hudleston
Collector

Proceedings

Read letter from the Collector of Madras replying to the Board's Proceedings of 2nd March 1848 relative to the Management of the Toddy Revenue of his District

(Here enter No. 55)

Dated 14th Augt. in Cons 11 Decr. 1848.

(19-20)

Proceedings thereon—Sald. Mr. Hudleston in transmitting with the first of the letters above recorded the Accounts called for in the proceedings of this Office under date 21st August 1847 and 2nd March 1848, explains that the same returns, checks, fees and general system of management as now in use had continued unchanged since 1830, that the evasions noticed in the accounts sent to the Board's Office were caused by necessary alterations at the moment of making the settlement, after the last storm, that Pahdaries could not be prepared after the storm, and had been equally stopped after 1830, that the irregularities in the accounts of the settlement after the storm as explained in his letter of 31st December 1846 were occasioned by the remissions made to the different shops having necessarily been regulated by the actual

Submitting further correspondence from the Collector of Madras respecting the management of the Toddy Revenue of his District and conveying the Board's observations on the subject and on the remedial measures which appear called for.—

In Cons 23rd Jany 1850.

actual extent of damage suffered in each particular case; that the proportion of losses in such cases was not left to be ascertained by the subordinate servants of the Office, that circumstances connected with the renewing of the licenses and the still backward state of the trees, prevented the rates being raised so much as they might have been in April to June 1847, that all were raised to 75 p.c. % of the ordinary demand in July. that the plan proposed by the Board of planing deteriorated Shops in a lower class, instead of granting indefinite remissions could not suit the present location of the different classes which are regulated by the population and other circumstances, and he concludes with a detailed statement of the present system of letting the trees, a description of their varieties, and his observations on some of the Petitions presented to the Board.

2. Much of this is a repetition of

of former statements on which the Board of Revenue have already expressed their sentiments, and it is not necessary to follow the Collector thro' all the 49 paras to which his letter extends. What the Board objected to was, the faulty system of managing the abkarry revenue generally, and their opinion is no wise altered by the explanations now offered. Whether the defects are of long standing or of recent origin they are equally objectionable, and the end now to be kept in view is not how they may be justified, but, how they may be remedied. To this object therefore the Board will address themselves merely observing that the points connected with the faulty system of check, noticed by them in their proceedings and which the Collector now meets by a simple denial of their existence were derived from the personal examination of their own Officers, made on the spot and supported by admissions in the written statement now on record of the Collectors Officers including his Head Serishtadar and the Head

Paras 8-9 & 10.

of

of the Alkany Department/detailing the mode of procedure actually followed by them, that the resources to which the Board alluded as exhibited in the account of the temporary Settlement framed after the storm of 1840 were not those made at the moment of settling the remissions.

3. Without therefore pursuing the subject farther or noticing the conflicting statements urged by the Collector on behalf of his own servants, and those of the Deputy Serishtadar of this Office, the Board will See Paras 26 & 32 at once turn to the Collector's observations on the revised measures suggested by them for the improvement of the Alkany management in future.

4. In para 4 of their proceedings of 2nd March 1848 the Board intimated their opinion that instead of granting indefinite remissions for alleged losses, it might have been better simply to reduce the shops to a lower class, rendering it necessary only to ascertain the degree of damage sustained

sustained without resorting to a long and enumerous examination of the trees as now practised. The reasons urged by the Collector against such an expedient, as explained in the 16 and 17 paras of his report are of much weight, the Board however did not contemplate a permanent reduction but simply an indulgence until the gardens had somewhat recovered from the destructive effects of the gale. The object of granting remissions is not to abate the exact amount of loss which any individual can make it appear he has sustained; but, to give such indulgence to the tax payers as may enable them to discharge the public dues without involving themselves in distress and ruin. The proposition above noticed it was thought would enable the Collector to do this without having recourse to the detailed examination now in vogue. Nor, judging from the petitions presented against the mode actually followed, would it have been likely to occasion more discontent.

Para 40 5- Another suggestion offered by

by the Board was that of obliging the Renters to retain possession of the gardens taken up by them at the beginning of the season, either for the whole year or for a period of six Months at the least. Mr. Hudleston has given effect to this proposition so far as to make the leases permanent for three Months. He states however that the following objections presented themselves to the arrangement - 1st. The occurrence of dispute in the owner's family regarding the property in the garden after it had been rented might interfere with the extraction of the Toddy by the Shop keepers. 2nd a want of good faith in the owner of the garden might tempt him after closing with one Shopkeeper to accept a higher offer from another and 3d. The transfer of a garden whilst on lease from one party to another by legal process might disturb the lessee. These difficulties do not appear to the Board to affect the feasibility of the plan. They are contingencies to which all property is liable, and these cannot be greater in Madras than elsewhere. In owning them

them therefore as ordinary exceptions to any general scheme the Board would still urge on the Collector the necessity for conforming as far as practicable to the instructions contained in para 11 of their Proceedings regarding the general arrangement of the Abkarry Department, and Licenses should be withheld from such of the Shopkeepers as apply to change their holdings without clear and satisfactory reasons.

6. It has occurred to the Board that the security of the Revenue and the efficiency of the superintendence would be greatly promoted by discarding to some extent the system of counting trees and estimating each garden or portion of a garden at a fixed amount. The Collector has observed /para 29/ that the same trees in a garden are never all in use at the same time, a certain number being always held "in suspense or in reserve" according as they yield more or less toddy or cease altogether to do so, and that the owners of Gardens have the power of refusing an entrance to the Servants deputed by the Collector for

Quoted from Para 9 of his letter of 11th Decr 1847 in Cons 2d March 1848.

for the purpose of examination/para 39/It cannot be matter of surprise that such persons should object to the frequent intrusion of the Alkaray peons and Syguahto and when to these are add the objections urged against the existing plan on former occasions which are inseperable from the frequent and indefinite employment of a numerous body of low paid functionaries, the advantages of a mode of adjustment like that now suggested are obvious. The Alkaray settlement would then be very similar to the annual Settlement of the Land Revenue in the provinces. The value of each garden would undergo revision at the proper season and the demand fixed on it in a form similar to that marked D accompanying the Collectors Report would remain in force and constitute the standard demand till the following year. The Board however are not prepared to admit that Statement D as now prepared should be the standard of reference on all future occasions tho' it would constitute a useful basis for any arrangement adopted

adopted in conformity with the above suggestions.

7. It may be urged that an annual revision would involve more time and trouble than could be devoted to such a work, and that it could not be completed in time for the annual distribution of Shops. The same objection has been urged against a ryotwar settlement of the Land Revenue, but, in practice it has no existence. The foundation of a careful Survey of all the Gardens once laid, the Collector would only require to ascertain the alterations tending to increase or diminish their value during the season. Mr. Hudleston has stated that the same gardens are held for long periods by the same individuals/para 24/ This shows that their value is not liable to great fluctuation. He also states that the shopkeepers are obligid to make their own arrangements with the proprietors for the lease of the gardens. It is needless to remark how greatly such arrangements would be facilitated by the previous knowledge of the fixed Government demand.

8. At the same time the Board are

of opinion that a strict scrutiny should be made of each Garden at least once in three years which should comprise not merely the number of Trees from which Toddy is to be drawn on account of each shop, but, the total number of Trees, distinguishing those productive and unproductive and those kept in reserve. The Board therefore desire that the Collector will direct his attention to this suggestion for imposing a fixed annual valuation on every garden and division of garden on a general Estimate of its value without reference except at the interval above specified to the exact number of trees. Mr Sudleston must expect to meet with much opposition from his Establishment who will not willingly forego the advantages and opportunities incident to the old practice, but the Board trust he will not allow himself to be deterred by the array of unimportant or futile objections from the attainment of so manifest an advantage. They have already observed that the system of allotting by entire Gardens is in operation.

The

Rev. on Settlement of Exstra Sources for Fasly 1258 Para 6.

9. The second of the letters recorded at the head of these proceedings does not require much remark. The reasons assigned by the Collector for the delay in submitting the detailed accounts furnished with his communication of the 12th August 1848 are satisfactory, and the Board are gratified to observe the improvement in the general outturn of his District during the seven years that it has been under his management. They are also prepared to make every allowance for the difficulties incident to the administration of so complicated a system as that of the Madras Abkarry Revenue and they are conscious that the defects apparent in that system did not originate with the present Head of the Office.

Para 4.

10. Mr Sudlestone's repeated request that his explanation be submitted to Government the Board have resolved to accede though with much reluctance since it has not been such as to lead them to change their views on the chief points noticed in their Proceedings of 2nd March 1848.

Ordered.

Fort St George 4th March 1850.

Ordered that a copy of the foregoing Extract be submitted to Government and a transcript of the same be forwarded to the Collector of Madras for his information and guidance.

To

D.G.

Fort St. George 4th March 1850.

(21)

From the Collector of Madras

Requesting further instructions as to whether the Census of the population of the Madras Collectorate recently called for should not be taken by the Superintendent of Police as was done on a former occasion.

Sir.

1. I have the honor to acknowledge the receipt of the Circular from the Board of Revenue under date the 7th instant desiring that the Census of the population of this Collectorate may be taken once in 5 years in future, commencing with the Current Fusly 1259.

From Board	28th	January 1822
To Do.	18th	February "
From Do.	21st	Do. "
To Do.	5th	March "
From Do.	7th	Do. "
To Do.	26th	Do. "
From Do.	28th	Do. "
To Do.	4th	April "
From Do.	8th	Do. "
To Do.	16th	Do. "
From Do.	25th	May "

2. When a similar requisition was made in 1822, the correspondence noted in the margin, took place. On that occasion, the Census was prepared by the Superintendent of Police, and it will be observed that Government stated, at the time, that it should be taken again, at an early period by the same Officer.

From Govt. 23d May 1823.

3. Under the circumstances I solicit the Board's further instructions on the subject, for it will be seen from the correspondence referred to, that, if the Circular Orders now under acknowledgment are to be

be carried into effect by this Office, it will be requisite to employ an Extra Establishment of Servants the services of Village Officers of the description of those that are required to do the duty in the Provinces not being available within the limits of the Presidency Collectorate.

From the Coll. of Madras } Sir

I have the honor to acknowledge the receipt of an Extract from the Proceedings of

Submitting the required information as to the circumstances under

under which Highness Sheriff Subadar was permitted to act as the Vakeel of Fakhroo Beebee a Yeomiahdar

of the Board of Revenue dated 22d instant and to report that the whole of the Gosha Women customarily receiving their allowances through a Vakeel were required by my Predecessor Mr. Robertson to conform to the Orders contained in Para 4 of the rules for the Yeomiah Department furnished to this Office on the 18th January 1841 when Highness Sherreef Subadar being then a "pensioner" was permitted to act as the Vakeel of Fakhroo Beebee. The original Vakalutnamah dated 10th June 1841 is enclosed herein.

Enclosure No 1

Enclosure No 2

2. Copies of certain Endorsements dated respectively the 20th March, 2d June, 26th July and 6th August 1834 on petitions presented by Fakhroo Beebee are submitted herewith, from which it will be observed that enquiry was made by Mr. Robertson from parties who appeared here from time to time to give evidence in her favor, but his last Endorsement of 19th September 1834, of which a Copy accompanied my letter of 21st Ultimo, as Enclosure No 4 will shew that he was satisfied with the report

report of the Yeomiah Writer respecting her identity and that he authorized accordingly, the arrears due to her at that date to be disbursed.

3. The payment of her allowance for 1½ year, or from 12th January 1833 to 11th July 1834, was suspended pending the enquiry.

Madras

177	June 2.	June 2.	Do.	Requesting to order her arrears of Yeomiah to be paid to her on taking proper evidence -	As the Soobadar, who appeared some time ago, spoke only to his having heard of the existence of Fakhroo Beebee and as the other Witness named by her Syed Hamed refused to attend to give evidence in her case, the Collector cannot authorize the payment of her allowance to be made excepting on producing proper Witnesses such as Yeomiahdars or Pensioners to prove that Fakhroo Beebee is now in existence Madras Cutcherry 2d June 1834 / Signed A. Robertson Collector
185	July 23d	July 26th	Do.	Requesting to pay her Yeomiah allowance into the hands of her Vakeel -	As there is a great difference between the Descriptive Roll furnished by certain individuals who examined the Petitioner and the particulars in her Purwannah respecting her age and height &c. the Collector cannot authorize the payment of her allowance to be made, excepting on her appearing in person at this Office and proving her identity with reference to her Purwannah as has been done by several other Yeomiahdars in similar cases - Madras Cutcherry 26th July 1834 / Signed A. Robertson Collector
188	August 4th	August 4th	Do.	Requesting to order her Yeomiah allowance to be paid in the hands of her Vakeel herein referred to -	As the Soobadar, who appeared some time ago, spoke only to his having heard of the existence of the Petitioner and as there is a great difference between the Descriptive Roll furnished by certain other individuals who examined the Petitioner and the particulars in her Purwannah respecting her age and height &c. the Collector does not consider it necessary to take any further evidence in her case. Madras Cutcherry 6th August 1834 / Signed A. Robertson Collector / True Extract / Signed J. A. Hudleston Collector

It

24-25

Proceedings thereon.

Declining to recommend to Government for the grant of a fresh Purwanah to Fakroo Beebee before the Collector of Madras fully satisfies himself of her identity and explains all the suspicious circumstances in the evidence regarding her existence.

It does not appear under what circumstances the Collector could have recognized the nomination by the alleged Fakhroo Beebee of Subidar Mahomed Sherreef as her Vakeel in 1841.

2 The only recorded evidence of his is in the year 1834, as appears by the 2d Endorsements of Enclosures No. 2. Viz that he heard only of her existence.

3 The Collector must have observed that several individuals furnished Descriptive Rolls of her person — all of which differed greatly from the particulars specified in her Purwanah. Neither does it appear that the Yeomiah Writer spoke it all — positively as to the identity of else she would have made allusion to him in her several petitions to the Collector. Besides this, the fact of Syed Hamed refusing to attends to give evidence in her case appears suspicious. —

4. The circumstances therefore represented

represented in the foregoing letter and its Enclosures serve only to confirm the Board in the opinion that unless the difference in the height of Fakhroo Beebee is satisfactorily accounted for the Collector's recommendation for a fresh Purwannah being granted cannot be supported.

From the Secy to the Board of Revenue Dept. of P. Works

Read the following Extract.

Extract from the Proceedings of the Board of Revenue in the Department of Public Works under date the 25th February 1850. No. 109.

Read the following letter from the Collector of North Arcot.

(Here enter 6th February 1850 No. 298)

Under the opinion expressed in the foregoing letter, the Board of Revenue resolve to recommend to Government that the Police Ameen of Pulicat be required to provide himself with a residence. —

Ordered that Para 2 of the foregoing letter be communicated to the Board of Revenue.

(A true Extract)
(Signed) J. H. Bell
Secretary Board of Revenue Department Public Works.

To The Secretary to the Revenue Board —

Extract.

3480. Fort St. George 4th March 1850.

Extract from a letter from the Collector of North Arcot to the Secretary to the Board of Revenue in the Department of Public Works under date the 6th February 1850.

2. I beg to state in reply that I am aware of no reason why the general rule which obliges public Officers in the Provinces to provide their own residence should be subject to exception in the case of the Police Ameen of Pulicat. With reference to my letter of the 19th January 1850 in the Revenue Department I beg leave however to add that my proposal of 50 Rupees a Month pay as the salary of the Police Ameen and Superintendent of Sea Customs, having been made on the supposition that this accommodation would be continued, I would beg to recommend that if it is withdrawn the Amount should be augmented to 66 Rupees.

(Signed) J. D. Bourdillon
Collector

(True Extract)
(Signed) J. H. Bell
Secy. Board of Revenue

(Signed) H. Stokes
Collector

Ordered

Order thereon.

Ordered to lie over.

(24-25)

Read the following letter.

To, W. H. Bayley Esq.re
Secretary to the Board of Revenue,
Fort S.t George.

(26)

From the Collector of Nellore ——

Requesting further orders on the subject of allowing disbursements to be made from Talook Treasuries.

Sir,

In reference to a letter from the Board of Revenue under date the 17.th October 1844 recommending the discontinuance abonce of the practice of allowing disbursements from Talook Treasuries, I have the honor to bring to the notice of the Board that the then Acting Principal Collector, in circulating the Board's orders, authorized the Thasildar of Ongole to discharge from his Treasury drafts in favor of the Commanding Officer of that place drawn Monthly by the Paymaster ab.t Masulipatam and that the same course has been ever since observed in the payment of these Drafts and also in regard to Accountant General's Bills to be discharged ab.t Ongole.

2. It appears further that the Ongole Thasildar is permitted to obtain from the adjoining Treasury of Pauduriy a Sub Division such amount as may be required

required to meet emergencies when the money in his own Treasury is not sufficient to answer the demand.

Being unwilling to incur the "heavy responsibility" which the Board, in their letter above quoted, declare attaches to a Collector who sanctions such a practice, can I have considered it right to submit the subject for their further orders, and to state that up to this time no evil has been found to result from the course pursued.

I may state that the letter of advice from the Deputy Paymaster notifying that he has drawn a Bill upon me in favor of the Officer Commanding at Ongole, (varying in amount from Rupees 2800—0—0 to Rupees 3,100—0—0) is received about the 17.th of each Month, and that if money is after the receipt thereof, to be in future despatched from Nellore under charge of Peons a considerable delay (say about 5 days) will occur in the Monthly disbursement of pay to the Troops at that station.

Nellore District, Kristnapatam,
Collectors Cutcherry, 23.d February, 1850.

/ Signed / D. White
Collector

Ordered that the following

letter be sent in reply.

To

To

The Collector of

Nellore

(26-27)

To the Collector of Nellore — Sir,

In reply to your letter of the 23rd Ultimo, I am desired by the Board of Revenue to request that you will make a reference on the subject to the Accountant General, as the arrangements connected with payments from Collectors Treasuries out of the usual routine (which is to make all payments at the Treasury) can be sanctioned without his approval.

Revenue Board Office, Fort St. George, 7th March, 1850. — / Signed / W. H. Bayley Secretary

(28)

Read the following Memo:

Official Memorandum.

From the Acting Collector of Bellary — The Acting Collector of Bellary requests the Secretary of the Board of Revenue will be so good as to correct a clerical error in the 8th Para of the letter from the acting Collector dated 22nd February 1850 No. 11 as follows: after the words..

"The amount of cultivation below the Calculate was" ——— Read "39,104 Rupees" instead of 15,564 Rupees.

Bellary District, Collector's Office on Circuit, Woosparahully, 27th February, 1850. — / Signed / C. Pelly Acting Collector

Ordered

Order thereon.

(28-29)

Ordered to be recorded:

the required alteration having been duly made.

Read again letter from the Agent to the Governor of Fort St. George at Kurnool dated 24th October 1849 reporting on the Settlement of the Land Revenue of that District for Fusly 1258 / 1848-49.

In cons. 10th Dec. 1849 2908.

(30)

/ Here enter No. 59 /

Proceedings thereon. 1.

Relative to the settlement of Land Revenue in Kurnool for Fusly 1258

Paras 2 & 7 and Para 37. Statement No. 1.

Increase in Fusly 1258.

Houses ——— 1657

Population — 3,950

Cattle ——— 29,043 of which 26,001 occur in Sheep and Goats.

1,630 in Bullocks

69 Cows

1130 Buffaloes / Female /

41 — Do. — / Male /

The Season was on the whole very good and the outturn of the Crops, with unimportant exceptions, excellent. During the last two Months of the Fusly, Cholera was prevalent and the Cattle, it is stated, suffered from an disease from an early period of the year. The Statistical Returns are however favorable. With the exception of Cotton, Prices were below the rates of the two preceding years, and considerably under those of Fusly 1255-1845-46. Cotton realized Rs 43 — 7 as per Candy, while

while in the three preceding years the rates were Rupees 37-11-4, Rupees 35, and Rupees 35-15-6 respectively.

2. The number of Villages and Hamlets is the same as in Fusly 1257 / 1847-48 being Government Villages ____ 465
D° Hamlets ____ 100 ____ 565.
Jaghire D° life Grants ____ 12.
Village in which the Revenue is alienated ____ 1
Shrotriem Villages ____ 6
D° Hamlets ____ 5 ____ 11
Surva Enam Village ____ 1
590

Two Villages (Para 34) Pasaupula and Soodareddy pillay, were transferred from the Dhone Talook to Nundicootcaur. In future when similar transfers are deemed necessary, the sanction of the Board should be obtained before any changes are made, as pointed out in their Proceedings on the Settlement for Fusly 1257.

3. The engagements (Dittum) for the year under report embrace an area of 464544-22 5/16 acres assessed at Rupees

3505 Fort St. George 7th March 1850.

Rupees 6,49,081-8-9, being 25,747-7/16 acres on assessed at Rupees 26,969-1-1 above the engagements of the preceding year. The increase to a small extent, (Rupees 5,952-10-11) is owing to the discontinuance of the practice followed by some Amildars, in the case of wet lands, of entering in the Dittum the actual cultivation only; the bulk of it arises from the healthy state of the resources. Mr. Phillips is quite correct in requiring that the Dittum shall include all the land generally cultivated. Such portion of it as may be left waste from sufficient cause as deficiency of water is deducted afterwards and appears in the accounts at the Settlement as Cabooliat or Dittum Bunger. The Dittum exhibits the entire resources at the time; contingencies of season are represented under the head of remissions.

Paras. 6 & 28. 4. The Remissions amount to Rupees 6,753-4, being Rupees 5,534-7-7 in excess of the preceding year. The principal item in the gross increase is

is Rupees 6036-4-10. composed of Rupees 26-7-5. Dry land Waste and Rupees 6009-13-5 Wet land Waste. The former is trifling and was rendered necessary by the indigence of the occupants. Absolute failure of the means of irrigation accounts for the latter. The remission of Rupees 18-4-0 on certain Garden land in the Chegulmurry Talook, which, though supplied with Government Wells in good order, would have remained Waste in consequence of the assessment being excessive, as well as the indulgences allowed in the other items enunciated appears proper.

Statement No. 13. 6. The Cabooliaty Burgerow brought to account, Viz^t. Rupees 10,789-0-0. 6. was large and exceeded that of Fusly 1257. 1847-48. by Rupees 2,922-10-9. After personal & enquiry from Ryots best acquainted with the facts, it was found necessary for the interests of the Revenue to enforce this demand

Pard 29 & 32. 6.

The items Sodee and Cumity do not call for remark. When resumptions occur, it is desirable as a general rule that the particulars should be explained.

The

The cultivation of Sugar Cane

Statement No. 7. exceeded that of the preceding year by acres 13-27/40.

Of the whole cultivation consisting of acres 93-4-

7/2. the Mauritius Cane rather exceeds 1/8th.

The Rent roll shews that more

Statement No. 8. than 1/2 of the whole body of the Ryots pay within

No. 12. Rupees 20 and that the Revenue contributed by them is little more than 15 3/4 of the entire Cowle of the District. The particulars are as follows.

	No. of Ryots Assessed			
Ryots paying 1000 and upwards	"	"	"	"
Do. from 750 to 1000	3	2629	1	4

Fl.o

within the Fusly	6,97,946-7-9	
Subsequently	8,083-7-11	
	7,06,029-15-8	

10. The Collections within the Fusly and subsequently to the end of September amounted to Rupees 7,06,029—15-8, leaving an outstanding Balance of Rupees 8,824-5-3. Several causes are assigned for this Balance, as unfavorable state of the grain Markets; ravages of Cholera, loss of Cattle, deficient outturn of the Cotton and Wheat Crops in certain cases and supineness of the Tahsildars & the Chiguluery and Servail Talooks.

11. The Tabular view of the Collections in each Talook contained in para 43 of the Collectors' Report shews the backward state of the Collections in Chagelmurry and Servail. This cause has been removed, and as the Cholera did not appear till near the close of the Fusly and as the Statistical Returns, as noticed at the commencement of these Proceedings are favorable, the amount to be ultimately given up ought not to be large, unless indeed the failure of the rains in the ensuing year (Fasly 1258). 1848-49 has increased the embarrassments of the parties by whom the Balances are due.

For

For the reasons stated by

Paras 45 & 47. 12. the Agent; the Board beg to support his recommendation for writing off the irrecoverable portion of the Balances of Fuslies 1255 and 1256 amounting to Rupees 6,514-14-5.

Fusly 1255: 3,689-4-5
" 1256-2,825-10-
6,514-14-5

13. The total Revenue of the District from Land and Extra Sources was Rupees 8,72,351-5-9, being Rupees 28,092-8-5 above the preceding year. The particulars are as follows.

Sources	Demand of Fusly 1257.			Demand of Fusly 1258.			Increase.			Decrease.

In

14. In conclusion, the Board would make the following remarks on the Statements which accompanied the Agents' Report.

15. The particulars of remission shewn in the Tabular Statement annexed to Para 8 of the Report agree with Statement No. 3 but are not distinctly exhibited in that marked No. 8. This has been noticed on former occasions, and the Agents attention is called to the Board's remarks in their Proceedings on Fuslies 1256 and 1257.

25th. March 1848 Para 10. 4th. June 1849 — 10

16. The items, remission on the Garden in Chagalmurry Rupees 18-4-—, and remission Rupees 30 — 4.. allowed on land belonging to the Curnums of Chinta &c Commadinny, total Rupees 48-8, correspond in Statements Nos. 3 and 8. but in the Statement No. 4 the reduction of Seerwah on Garden land is stated to be Rupees 7. This discrepancy requires explanation..

17. The items Rupees 7225. 1—5. addition to the Seerwah of certain land on which an abatement was not allowed

allowed in Fusly 1257 and Rupees 1221-4-11. reduction on certain land in Fusly 1258, should have been exhibited in Nos. 3 and 8. as well as in No. 4..

18. The whole Dittum Bunjer was Rupees ——— 16929-13-4

Amount brought to account as per Statement No. 13 ——— 10789—2—6

Remainder remitted ——— 6140-12-10

The amount of remission as entered in Columns 106 Statement No. 8 ——— 6036-4-10

Difference ——— 104-8-.

This difference should be explained..

19. Statement No. 13 has been furnished agreeably to the requisition of the Board, but the form of account being defective chiefly as not shewing the full assessment on the entire Cabooliaty Bunjer, Web; Dry and Garden, the assessment entered being the demand on such portions only of the entire Waste as were included in the settlement; they propose to substitute that in use in Salem.-

20. In Statement No. 14 shewing the Sewey Summa, the exact nature of

Fort St. George 7th March 1850.

of the item "Sunky Sastee". Rupees 1,186-8-1 should have been explained.

21. The reason why the proceeds of the "Enams of deceased persons" have been left uncollected should also be explained. The item "Heirless Enams" should be incorporated with the Aiw Lands.

22. In reviewing the Settlement of Hurnoor for Fusly 1257, the Government approve (Para 11) of the alteration made by Mr. Phillips in the Kistbundy of his District by making the first Kist payable in November instead of December, partly on the ground of its being in conformity with that of the Ceded Districts. There is still a want of agreement between the Kistbundy of the two Districts. The January Kist in Bellary it will be seen, is only 20 per % whereas in Hurnoor it is fixed at 30 per %. This appears heavy. The agent will be pleased to consider whether it will not be desirable to assimilate the Kistbundy of his District to that in Bellary.

Hurnoor.

Fort St. George 7th March 1850.

To T. Pycroft Esqre
Secretary to the
Board of Revenue,
Fort St. George.

Sir,

31

From A. Freese Esqre Collector of Chingleput

Para 1

Reporting on the settlements of Extra Sources of Revenue for Fusly 1258 A.D. 1848-49 and submitting the usual statements.

Vide Enclosures A B and C and from Nos 1 to 6 with a printed statement in Triplicate and Bahamatta statements A to C and from Nos 1 to 9.

I have the honor to submit the annual statements of the Extra Sources of Revenue of this District for the past Fusly exhibiting in juxtaposition the results under each separate source in Comparison with the Revenue derived on the preceding year.

	Fusly 1257.	Fusly 1258.	Increase.	Decrease.

Net Decrease				115720 15 2

From

Fort St. George 7th March 1850

2. From the foregoing abstract & statement it will be observed that the nett Collections realized in this District during Fusly 1258 fell short of the results of 1257 by Rupees 1,15,720-15-2 a result to some extent anticipated by me and not difficult I believe to account for.

3. The foregoing Statement shews likewise that under every head excepting salt there was an increase of Revenue in the aggregate amounting to Rupees 9,041-9-10 which being deducted from the decrease in the sales of salt to the extent of Rupees 1,24,762-9-2 leaves the nett decrease as above stated. For the particular causes whence these results arise I beg to refer the Board to the following remarks under each separate head or sources of Revenue.

4. In Paras 4 and 5 of my Report on the Extra Sources of Revenue for Fusly 1257 I pointed out that altho' the total sales during that year were considerably less than those in the preceding one, yet even those sales had been very greatly raised by the advantageous Circumstance of the stock of salt at the Madras Cotaurs and

Fort St. George 7th March 1850

and the pans at Merkanum having been exhausted, whereby the Merchants usually resorting to them had been compelled to resort to our Depôts for that article, as also by the increased sales at Coulong compared with those of Fusly 1256. The general result of the salt operations of this District during the past Fusly compared with Fusly 1257 exhibit, as above stated a decrease of Rupees 1,24,762-9-2. Of which sum Rupees 14,928-9-2 is in the sales for Consumption within the District and Rupees 1,09,834 for inland Consumption, that is beyond the limits of the Jaghire.

5 The subjoined Comparative Table exhibits the increase and decrease of sales for home and inland Consumption during the Faslies under comparison at each of the Pans, and in which I have distinguished those in the immediate vicinity of the Presidency, and likely to be affected to a greater extent by the opening of the Madras Cotaurs to the inland salt Trade from those at a greater distance.

Sent from Madras.

Distant from Madras.

The

Fort St. George 7th March 1850.

6. The net decrease in the sales at the Pans in the vicinity of Madras amounted to Gs. 573 — 216 Mds. valued at Rupees 65,824 - 14 - 11 as per In examining the details of the above as exhibited in the statement, it will be observed that of the decrease 453 - 380 mds. in the sales for inland and 119 - 236 Gs. Mds. for home Consumption. The above decrease whether for inland sale, or for the home Consumption, may be attributed generally to the extended sales at Madras, for as the sales for our home Consumption from include the sales for all the Villages within the District, the more populous towns in the vicinity of Madras and the Villages in the neighbourhood of the high roads now receive their supplies by the return Carts from the Presidency - The decrease in the sales at the Depôts at a greater distance from Madras, and which with the exception of the small decrease of Gs. 6 - 266 Mds. in the sales for home Consumption

at

at Soonnapagoontah on the northern Confines of the District, is entirely in the sales for other Districts and at the Pass of Chunambut and Cheyoor. That there would be some decrease in these Pass as Compared with the preceding year was to be expected from the sales having Recommenced at the neighbouring depôt of Mercanum, but whilst there was a decrease of Gr. 517 280 valued at Rupees 62,124 - in their sales, the Returns furnished to me by the Collector of South Arcot show the sales at Mercanum for 1258 to have exceeded those of 1257 by Gr. 28 - 380 only valued at Rupees 3,471 - some other Causes for this decrease must therefore be looked for, and the statement at. 9 with the observations of the year lead me to believe that although these Depôts are situated at the southern extremity of the District, and at a great distance from the Presidency, the traffic has been affected by the operations at the Madras Cotaurs, added to which, may be

be noticed the almost entire cessation during the past Fasly of the resort of Brinjaries to this part of the Coast, Consequent on the very low prices of grain not offering a prospect of Remuneration for their Labours.

7. In order to show that these suggestions are well grounded, I would first beg to call the attention of the Board to the details given in the Statement at. 9 from which it will be seen that the great decrease in the sales at these pass are in the purchases for exportation to Salem, Mysore, and North Arcot, which districts now receive a great portion of their supplies by the Return Carts from Madras proceeding by the Great western Road - and the same Circumstance is apparent when we examine the accounts of the transactions with those Districts at the Pass in the vicinity of the Presidency. Another Circumstance which supports this view is that the total sales of the Madras Cotaurs, added to those of Chingleput and Mercanum depôts during the past

Fort St. George 7th March 1850

years are on a par with those of the preceding one, the decrease at one place being nearly equal to the increase at another. The transactions are as follows.

	Fusly 1257 Gs	Ins	Fusly 1258 Gs	Ins
Madras	1,416	180	2,338	188
Nerçanum	1,079	110	1,108	90
Chinglepet	2,982	173	1,942	298
Total	5,478	63	5,389	176

8. In referring to the transactions at the different depôts, the Board will no doubt notice the decreased sales at the Vellore and Vayalore Pans; but, it will be sufficient to state that almost the whole of the salt manufactured at these pans was transferred to Madras for sale there.

9. The Statements called for in the 3rd and 4th Paras of Extracts from the Board's Proceedings dated 9th July 1849 are submitted and numbered 7 and 9 respectively, the latter has been already alluded to. In the 2nd Col of the former, the balances

a Vide Enclosures 7 and 9

Fort St. George 7th March 1850

of salt in hand at each Pan at the Commencement of the new Fusly is exhibited. In the Columns of Remarks the details of Charges are also given. It is necessary here to explain that the extent of sales noted in Column 11 of this statement includes the 1508-162 supplied to the Collector of Madras, the receipts from which included in Columns 13 were only Rupees 13575-10-1 being the mere Coodevaram or Manufacturers' Charge. At the same time the expenses of Manufacture of the salt and other Contingent Charges is included in Column 14, thus increasing the apparent percentage of Charge upon receipts, and decreasing the percentage of profit per Garce derived from the Monopoly. It matters little to the accounts of what District the profit from the monopoly is carried - and I merely mention the above facts in elucidation of the accounts, as at the sale prices of salt or 120 per Garce the amounts that should otherwise appear

in

Fort St. George 7th March 1850

in Column 13 for the quantity of Salt dis-
-posed of in Rupees 4,14,138-4-8--

10. The Conservation to the Manaly Shrotriemdar during the Fusly under Review amounted to Rupees 3,381-15-4 being the amount due for 11 Months of Fusly 1258, and the last months of Fusly 1257, the amount due for the last month of 1258 was paid in the Current year, and will appear in the Subse-
-quent accounts. The desire of the Board that the amount of Conse-
-servation should be drawn for regularly as it become due has been Communicated to the Shrotriemdar-

11. Before closing my Remarks on this branch of Revenue, I would propose for the Considerations of the Board, whether the re-
-laxation of that portion of the Salt Rules which prohibits the Sale and issue of Remarahs for a less quantity of Salt than 40 Inercalls

is

Fort St. George 7th March 1850

is not advisable. To Convey that quantity requires a strong Cart and a good pair of Bullocks, the quantity Carried in the Common Carts of the Country seldom exceeds half that Amount, and for this reason and for the Convenience of the people, I would suggest the re-
-rule be abrogated or modified-

12. The Revenue derived under the Head of Sea Customs Amounted during the past Fusly to Rupees 337-2-10 or Rupees 42 1-7 in excess of the preceding years Revenue- Having no Authorized Sea Ports for trade in this Dis-
-trict, and no establishments for the levying of Sea Custom duties, the Revenue derived under this Head is precarious, and as being Chiefly derived from the duties on the Sale proceeds of Stores and ma-
-terials of wrecked Vessels or on goods landed at unauthorized Ports from Vessels that have

sustained

sustained injury, the smaller the
amount of Revenue accruing, the better.
13. The demands on account of
the Albany farm near the same as
in the past Fusly, the privilege of
manufacturing and selling spirits
having been rented for three years
from Fusly 1256 to 1258 both inclu-
sive for Rupees 76,500 per annum.
At the termination of the Fusly
however Rupees 15,881-6-3 were
still outstanding, of which sum
Rupees 7,000 were remitted under the
sanction of Government dated 7th
September 1849 in consequence of
the heavy losses sustained by the
Renters from the gales in October
and November 1848. The balance
in full has since been realized.
14 Under the head of sundry
small Farms and Leases, there
was an increase as compared with
the preceding Fusly of Rupees 234-
8-3 arising chiefly from the increased
sums offered for the privilege of
digging

digging for Chunam shells in certain
localities and from increased sales of
jungle products, such as soapnuts and
Cheyroot obtained from the Sheveroys
: cotah Jungles.
15 There is likewise a net increase
of Rupees 1,426-10-0 in the demands on
account of Motturpha during the past over
the preceding Fusly, arising chiefly from
the discovery of some frauds and a close
scrutiny into the number of looms at
work at Sydapet and other large
weaving Villages. The number of looms
known to have been at work in Fusly
1258 was 6,604 being Rupees 1,378-2 in
excess of those included in the lists
of the preceding year. In many
Items there was a decrease more parti-
cularly in cloths shops and Indigo
factories. Since the abolition of the
land Customs the Weavers who used
formerly to sell the produce of their
labours through the cloth Merchants
who advanced the duties have got into
the habit of disposing of their cloths as
finished without the intervention
of other parties, whilst the state of

3529

Fort St George 7th March 1850.

of the Indigo market in Europe has caused many native factories to cease working.

16 Under the head of Stamps there was an increase in the sales amounting to Rupees 7,338 — 6 — arising from the Act No XVII of 1848 under which in lieu of institution fees the pleadings in Civil Suits in the District Munsiffs Courts are written on Stamped papers.

17 The subjoined Statement exhibits the Demand Collection and Balance of Current Revenue under each Head at the termination of the Fasly, and at the present date. The balance at the former period amounted to Rupees 23,632 — 4 — 7 of this sum Rupees 7,000 due by the late Abkary Renters was remitted, and the remaining balances have been greatly reduced by subsequent Collections. The amount still due is exhibited in the following accounts.

18. Of the amount still due for Fusly 1258 on account of sundry small farms and Licenses, Rupees 304-4-10 on account of Jungle products sold, the price of which will be realized in a few days, and the remaining balance is in course of recovery. The balances on account of the Moturpha are also being realized.

19 A Statement **B** is also submitted of the Demand, Collection and Balance outstanding on account of arrears of Revenue from 1252 to 1257 under the same heads amounting at the close of the Fusly to Rs. 869-9-5.

20. Of this sum sanction for the Remission of Rs. 421-7-8 was received with the Board's Proceedings dated 13th August, but of which 416-7-8 alone were written

Fort St. George 7th March 1850

written off, Rupees 5 having in the interim been realized. Rupees 57-10 as have also been collected out of the sum of Rupees 163-5-3 entered in the last account as probably recoverable leaving a net balance of Rupees 397-15-0, of which Rupees 159-5-2 due on account of the following years is irrecoverable for the reasons exhibited in the State-ment No. 8; and I therefore request permission may be obtained for writing off the amount, Viz. Rupees (159-5-2) one hundred and fifty nine, annas five and pice two. —

Vide Enclosure No. 8.

21. In reference to the Circu-lar letter of the Board dated 27th January 1848, I have the honor further to state that there are no sugar manufactories in this District, but from some of the Villages on the borders of the North arcot District Jaggery has been made and forwarded to the factories therein established for conversion into sugar. —

3552. Fort St. George 7th March 1850

Order thereon

(31-32)

Ordered to be brought forward at a future Meeting.—

Read the following letter—

To T. Pycroft Esqre

Secretary to the
Board of Revenue
Fort St. George

(33)

From J. De Boudillon Esqre
Coll. of North Arcot ....

Submitting further explanation with respect to the Grain Measures of the District as required in the Board's Proceedings of 16th August 1849.—

Sir,

I have the honor to acknowledge an Extract from the Proceedings of the Board of Revenue dated August 16th 1849 asking for some further explanation with reference to the Grain Measures in use in this District.—

2. In reply to the question in the second Para of that Extract I beg to say that no allowance was made in any of the price lists there referred to, for the difference between the local measure and the Madras measure; in terms of which latter the lists were made out. The Statements of prices in the two Summabundy reports mentioned by the Board were drawn up in the usual way; that is they were compiled from the Talook Statements

+ For Fasly 1241 Para 5 and for Fasly 1242 Para 14.

J. F. B.

3553. Fort St. George 7th March 1850

Statments without correction for the difference of Measures—

3. Agreeably to the Board's request I have the honor to enclose a copy of Mr Chamier's proclamation, but I can gain no information as to the period when the standard of 142 Rupees weight specified in this document was fixed—

4 Since the receipt of the paper now under reply some correspondence on the subject of Weights and Measures has been found, which took place in the year 1821. In July of that year the Board called on the Principal Collector by a printed Circular letter for information on the subject and for models of the weights and measures in use, and the Principal Collector wrote for the necessary information to each Talook of the District. The Statements then sent by the Talsildars show the size of the measures in common use in their Talooks, giving the number of Rupees weight of Grain

Talooks.	No. of Rupees weight to the measure
Chittoor	120
Triputty	144
Caverepauk	135
Sholinghur	134
Trivallum	140½
Sautghur	135
Cuddapanuttum	144
Arcot	126
Vellore	141
Trivatoor	136
Poloor	140
Wundivash	127
Sutwaid	132
Pennury	136
Vencatgherry, Cotah	138

Grain they contained. I give these in the margin, and it will be perceived that they varied very considerably, Viz^t from 120 Rupees to 144 Rupees weight, the only Talook in which the Madras measure (of 120 Rupees) obtained being Chittoor. In Mr. Cooke's reply to the Board prepared from these Talook returns, he sets down the measure for the District as 125 Rupees weight, but he does not say on what data he fixed that, as the common standard, nor is it apparent how he deduced it from the information which he had procured from the Talooks.

5. A brass measure with its half quarter, and eighth evidently made as a standard, and with the words "Chittoor Zillah Company measure" half-measure &c^a engraved upon them, have also been found in the Treasury, they have been there for a great Number of Years, and the oldest servants of the Cutcherry cannot recollect when or on what occasion

occasion they were deposited their. I thought at first that these might be counterparts of the models sent to Madras by Mr. Cooke; but their dimensions do not agree with that supposition. For though the contents of the measure filled to the brim and struck, are 125½ Rupees weight of grain, the universal way of measuring grain in these parts is to fill up as much as possible, and filled in that way this measure holds 138 Rupees weight. The people of my Cutcherry also think that these measures are of Madras make, it is possible that the Board may find some trace of them in their records in connection with the correspondence above referred to.

6. The papers above referred to show that in Mr. Cooke's time the measures in common use were smaller than the standard introduced by Mr. Pgilvie in 1838; that they differed materially in different parts of the district

district, and that there was no recog-
nized common standard. They show
also that the standard of 142 Rupees
weight spoken of in Mr. Chamier's
proclamation of 1824 was not in
use in 1821 though he appears to have
issued a notification on the subject in
1820, and this is all the information
that I have been able to obtain. It is
clear that the substitution of a larger for
a smaller grain measure has taken
place in the District without a corres-
ponding correction of Official price
lists. Indeed price lists made out in
terms of the real Madras measure of 120.
Rupees weight of Grain required correction
from the very first, because that measure
never prevailed in this District at all. —
and the cause to which this oversight is
owing and which now makes it very diffi-
cult to trace out the real facts, is that
the measures in use here though differing
materially both, from the true Madras measure,

and

and also among themselves in different parts
of the District, were always called by the
name of the "Madras measure." With reference
to the Remark in the concluding part of
Para 5 of the Proceedings under reply a
revised grain price list may be prepared
for the years subsequent to 1838, because
during this period the standard fixed by
Mr. Ogilvie has been I believe universal in
the District. But it is impossible to say
with precision what the recognized standard
was before 1838, either in the district generally
or in each particular Talook.

North Arcot
Coll.r's Cutcherry
Chittoor
20th October 1849.

(Signed) J. D. Bourdillon
Collector

Ordered that the following
letters be sent in consequence.

34

To the Coll.r of
North Arcot.
Requesting
his further remarks
with reference
to the observa-
tions herein
contained

To The Collector of
North Arcot.

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter dated 20th October 1849, with enclosure in Tamil, submitting further explanation

contained regarding price lists of his District and furnishing the required statements—

explanation in regard to the Grain measures in your District. The Board were desirous of disposing of this communication together with your Report on the settlement for Fusly 1258 (1848/49) but as the question to which it refers still requires elucidation, your attention is called to the following remarks—

In Cons: 16th augt 1849.

2. In explanation of the discrepancy noticed between the Price Lists furnished by yourself and your Sub Collector, you observe in Para 3 of your letter dated 12th July 1849, that the figured Statements in your own report were prepared on what you considered the correct standard of measurement, while those of the Sub-Collector were prepared in the usual way. It will be seen from the entry in the Margin that the discrepancy in question is not altogether accounted for

	Fusly 1257	Fusly 1258
Price as per Report of the Sub Collector	89—13—11—63—1—11	
Deduct 1/5	17—15—5	12—9—9
Corrected Price according to the Report of the Coll:	71—13—7	50—7—3
	77—4—8	51—11—3
Difference	5—7—1	1—4—11

for and that the standard of Rupees 150 weight fixed by Mr. Ogilvie is not probably in force in all parts of the District, the Subdivision included.

3. With the correction as suggested by you, the fall in the Prices of agricultural Produce would appear to be greater in North Arcot than in the adjoining Districts without it, the disproportion is no longer apparent.—

	North Arcot Rs a P	South Arcot Rs A P	Chingleput Rs A P	Madras Rs A P
Fusly 1255	139—4—	114—5—6	133—9—3	130—9—4
" 56	143—8—1	124—1—8	128—1—3	114—1—10
" 57	105—11—7	89—7—7	101—5—8	87—12—10
58 Corrected Price	60—2—11			
Add 1/4	15—"—8			
	75—3—7	63—7—3	72—7—4	67—15—1

The comparison is shewn in the Margin and seems to indicate that the correction, if any be necessary, might still be modified.—

4. Again according to Statement No. 10. which accompanied your report on the Settlement for Fusly 1258 (1848-49) the Market Price of Grain was during that year 35, or 12 per Cent below the commutation rate and in the Current Price Lists for the large

	As A P
Commutation rate	85—14—7
Market rate	55—2—2 or 35—12 per Cent
As per Price Currents	60—2—11—or 30 per cent

large Towns furnished to the Board, the current Price was 30 per Cent below that standard. The difference is so great as to lead to the presumption that the rates as represented in those documents are below the real Prices of the District. This is further confirmed by viewing together the commutation and market rates in North and South arcot and Chingleput.

	Chingleput At 18 Mercals per Pagoda or per Garce		South arcot At 20 Mercals per Pagoda or per Garce		North arcot At 16 Mercals per Pagoda or per Garce	
Commutation rate Rupees	77	12 4	70	..	85	14 7
Bazar price of Fusly 1258 Rs.	72	7 4	63	7 4	60	2 11
at which rate, the quantity of Grain per Pagoda Mercalls	mls 19	mrs 3 ..	22 1/2	..	23	2 ..
Decrease Rupees	5	5 ..	6	8 8	25	1 8
or Rupees	6	13/4	9	5 1/2	30 1/2	

5 In fixing the Tarrum rates of Teerwah, the madras measure was generally adopted as the standard of commutation, the capacity of the local measure / Cullum / being duly considered. Thus in Chittoor, Tripetty & Calloors 40 Madras measures were taken as the equivalent of the Cullum, while in Conjeveram

Conjeveram & the equivalent was fixed at 32 Madras Measures, But the measure in use being piled and not struck a point which you have noticed in Para 5 of your letter Dated 20th. October 1849, renders it probable that the Madras measures assumed at the Survey, contained more than 120 Rupees weight of Dry Grain admitting such to be the case, it will probably be found that the Price Lists as heretofore prepared, are, relatively with the Tarrum Rates, nearly correct.

In Cons. 7th March 1850

6. The Board will be glad to receive any further remarks you may wish to offer in reference to the foregoing observations, and it is requested that you will forward at the same time for examination in this Office, the original Norick namahs furnished from the Talooks and the principal Towns of the District, together with the abstracts prepared from them in the Woozoor for Fusslies 1257 and 1258 and for Fusslies 1256.

3502. Fort St. George 7th March 1850.

1256 and 1258.

Revenue Board Office, Fort St. George, 7th March 1850 } [Signed] W. H. Bayley, Secretary

33-35

To the Coll.r of Chinglaput ..5

To The Collector of Chinglaput.

Sir,

With reference to the Price Lists of Grain forwarded by you to this Office, I am directed by the Board of Revenue to obtain from you at your earliest opportunity replies to the following Queries.—

1. How many Madras measures is the "Garce" of the Price Lists supposed to contain? and are these the old Madras measure of 97 3/4 cubic inches or that fixed by Govern.t at 100 Cubic Inches.

In Fort St. George Gazette 20th October 1840.

2. Is the Garce supposed to be 3200 heaped or struck measures?

3. What was the "Paddy" or measure, by which the commutation price was estimated, and were they heaped or struck?

4 How many "measures" and of what kind are supposed to be contained in a Cullam? that is to say if there are said to be 32 measures to a Cullum, are they the old, or Regulation, measure heaped or struck.?

5 Has the present standard by which the Price Lists of Grain are estimated in your Office been ever changed? If so under what circumstances?

Revenue Bd. Office, Fort St. George, 7th March 1850 ..3 } [Signed] W. H. Bayley, Secretary.

3503 Fort St. George, 7th March 1850

To. T. Pycroft Esqr.

Secretary to the Board of Revenue, Fort St. George.

36

From the Acting Collr. of Tinnevelly — 5 Parat.

Submitting further explanations called for in the Board's Proceedings dated 1st February 1849 regarding the rates of assessment on Topes and Trees in the Tinnevelly District.

Sir, I have the honor to submit the explanations called for in Extract from the Proceedings of the Board of Revenue dated 1st February 1849.

2- Topes are not more lightly assessed in Villages where Nazur Puttum is collected than in others, the average per tree of every kind being in fact rather higher in the whole of such Villages collectively than in others, this tax therefore under the authority contained in the latter part of Para 2 of the above quoted Proceedings will in future be discontinued.

3. For similar reasons and under the authority contained in Para 3 of the same Proceedings Dasacaval. Cutgoottah in Topes will also cease to be demanded.-

4- In reply to the question asked in para 5 how topes are "rented by numbers" I have the honor to explain that the expression was intended

intended to signify whole topes rented out without specification in the agreement of the Numbers and descriptions of trees composing them, and that as topes are so rented in consequence of the Meerasdars and ryots declining to retain them at the rates demandable by the Circar, the revenue is invariably much below the aggregate tax on all the trees at the Circar rates.

5. When topes are kept under Sumany the produce is gathered and sold under the supervision of the Circar Servants for the sole benefit of Government.

6. With reference to the remarks contained in Para 8 of the Board's Proceedings under reply I have the honor to submit a Statement exhibiting Modifications of the present rates of Teerwah upon the several descriptions of taxed trees excepting Palmyras and Cocoanuts (separately noticed below) which I beg to recommend for their approval, and also the rates at which the same are assessed in the neighbouring Districts. Where no

Enclosure No. 1

sums are set down it is to be understood that no tax is leviable in the other Districts, and none proposed to be levied in Tinnevelly, as the case may be. The total decrease according to the proposed rates independent of the remissions referred to in the preceding paras amounts to Rupees 2557-14-2 which I trust the Board will not consider more than they would be justified in recommending, particularly as the new tope rates will often afford no relief to the owners of the present highly taxed trees, but rather increase their disadvantages by the facilities conferred on their neighbours.

7. All the varieties of the genus "Citrus" hitherto taxed in this District, were included in the list of trees proposed to be still charged, as also a few other descriptions of productive trees which are considered valuable enough to bear assessing; but, I have ventured to exclude the Margosa although especially named in the remarks of the Board. I have done so because this tree is not

taxed

† Nos 10 to 19 in Enclosure No. 1

† Para 8.

taxed in any of the neighbouring Districts and because it is not cultivated. The berries yield an oil used by the natives for medicine, but the value of the produce is too inconsiderable for the owners of the trees to be at the trouble of gathering the fruit. This is done by poor Women who make a small subsistence during a part of the year by picking up the fallen berries and selling them.

8. With reference to Para 9 of the Board's Proceedings I have the honor to express my opinion that the principle pointed to by the Board of charging land tax only for future plantations of Cocoanuts will have a very material and probably sufficient effect in promoting the culture of that valuable tree.

9. I am not clear that the same rule is equally applicable in the case of Palmyra trees. Of these there are now nearly 39 lacs in the District taxed as the enclosed Statement shews in a great variety of ways and at several different rates from [†] 5/8 to 1/100 of a fully fanam, each yielding a revenue amounting to about 88000 Rupees.

The

No. 2.

† ie. from — 2 1 / CRs a P. to 7/16 of a Pie.

The rates obtaining in neighbouring Districts are shown in the annexed Statement in the Margin No. 1. It will also be observed from the Table in the Margin No. 2 that the culture of these trees steadily increases when no unavoidable calamity interferes and in fact the numbers would increase much faster were the

3568- Fort St. George, 7th March 1850

the culture not checked by the difficulty of procuring tree = climbers enough to Extract their produce. I am not therefore = prepared to advocate the relin= =quishment of all but land tax for Palmyra plantations. The numbers would no doubt in = that case increase very rapidly but when new trees come to maturity from want of tree = climbers sufficient for all. the present high taxed trees would be certainly abandoned or cut down and only the new lightly assessed plant= =ations. dressed and taken care of. I am inclined to think = it will be sufficient if the Board's Order of 22nd April 1844 remitting

3569- Fort St. George, 7th March 1850

remitting part of the Teerwah on Trees planted on Sand = Drifts, were extended to all = Sandy tracts that are unfit = for other cultivation.

Tinnevelly, 25th January, 1850. } /Signed/ C. J. Bird
Acting Collector

Statement

3570. Fort St. George 7th March 1850

Statement shewing the proposed new rates of Teerwah No. 1. to be levied on the trees in the District of Tinnev

1	2	3	Number of Trees.	Bariz of the Trees in Column 3 as per Settlement of Fasly 1249. Highest rate of Teerwah.			Lowest rate of Teerwah.			as per rates now prevailing in the Tinnevelly Distrikt. 3581 Fort St. George 7th March 1850.—

To J. B. Roupell Esqre.
Acting Secretary to the
Board of Revenue.
Fort St. George.—

40

From the Collector of Canara } Sir,

With reference to the Regulation contained in the Paper of Remarks of the Board on the Settlement of Actual charges incurred under Estimate in the Revenue and Magisterial Departments dated the 30th August last, I have the honor to forward, for the necessary sanction of Government being obtained, two Estimates of Sunderwared Charges to be incurred in the two Departments, formed as directed with reference to the average Expenditure of the past Six years or Fusly 1252 to 1257. due attention being also paid to the actual Expenditure of the year past whenever such measure was considered necessary.—

Forwards for sanction of Government two Estimates of Sunderwared Charges to be incurred in the Revenue and Magisterial Department.—

Estimates		
Revenue		5422 — " — "
Magisterial		920 — " — "
		6342 — " — "
Old Standard		
Revenue	7539 - 6 - 7	
Magisterial	1013 — 10 — 8	8553 — 1 — 3
Decrease below Old Standard		2211 — 1 — 3
Actual expenditure of 1258 —		
Revenue	4973 — 9 — 5	
Magisterial	808 — 14 — 5	5781 — 7 — 10
Increase of Estimate above 1258		560 — 8 — 2

The present Estimates fall short of the old standard amount Sanctioned by Rupees 2211— and of the average expenditure of the past Six years upon which they are now framed by Rupees 124, while they exceed the charge of the past Fusly 1258 by Rupees 560, as shown in the Margine. This increase requires no explanation, as the Estimate has been prepared generally with reference to the average expenditure of the previous six years.—

Order thereon.

(38-39)

Ordered that the Petition received with the foregoing letter be returned to the Acting Collector for further report on the following Points.

1. Which are the specific Buildings referred to?

2- Were they established by private Individuals and when? are they Circar Endowments?

3- Are they intended for any peculiar caste or castes and how have they been hitherto used?

4 Are there separate buildings attached to them where the lower castes can be accommodated.

5- What were the actual orders of the Acting Collector on the subject as on record.

From the Collector of Canara } Sir,

Forwards for sanction of Government two Estimates of Saunderwared Charges to be incurred in the Revenue and Magisterial Department.—

With reference to the regulation contained in the Paper of Remarks of the Board on the Settlement of Actual charges incurred under Estimate in the Revenue and Magisterial Departments dated the 30th August last, I have the honor to forward, for the necessary sanction of Government being obtained, two Estimates of Saunderwared Charges to be incurred in the two Departments, formed as directed with reference to the average Expenditure of the past Six years or Fusly 1252 to 1257. due attention being also paid to the actual expenditure of the year past whenever such measure was considered necessary.—

Estimates		
Revenue		5,422-0-0
Magisterial		920-0-0
		6,342-0-0
Old Standard		
Revenue	7,539-6-7	
Magisterial	1,013-10-8	
		8,553-1-3
Decrease below Old Standard		2,211-1-3
Actual expenditure of 1258—		
Revenue	4,973-9-5	
Magisterial	808-14-5	
		5,781-7-10
Increase of Estimate above 1258		560-8-2

The present Estimates fall short of the old standard amount sanctioned by Rupees 2211- and of the average expenditure of the past six years upon which they are now framed by Rupees 124, while they exceed the charge of the past fusly 1258 by Rupees 560, as shown in the Margin. This increase requires no explanation as the Estimate has been prepared generally with reference to the average expenditure of the previous six years.—

To,
W. H. Bayley Esqre
Secretary to the Board of Revenue.
Fort St. George.

(42)

From the Collector of Madras }

Sir,

I have the honor to bring to the notice of the Board of Revenue that a Certificate No. 30 was issued in the name of Vurdaraja Moodelly under date the 22d July 1819 for an allowance of Rupees 200-9-8- per Annum granted as compensation for the suspressed manufacture of Salt in 5 pans at Eroongoonum, he being the legal representative of Govinda Moodelly, whose name occurs in the entry No. 18 of the Statement which accompanied Mr. Ellis's letter to the Board dated 1st April 1813.-

2. On the 23d Ultimo Vurdaraja Moodelly executed a Bill of Sale in favor of C. Vencaujee Iyer assigning over his right and title to him- The latter has in consequence applied to me

23d February 1850- for the registry of the transfer to him-

3. As an Endorsement on the Certificate in question

23d Do.— confirmatory of the said Bill of sale has been signed in my presence, pursuant to the instructions of Government communicated to me in the Board's Proceedings dated 2d March 1848, I beg leave to request sanction for carrying the proposed arrangement into effect.

Madras 1st March 1850. }

(Signed) J. A. Huddleston.
Collector.

Proceedings thereon.—

(42-43)

Under the circumstances represented in the foregoing letter, the Board of Revenue sanction the Registry of the transfer of the Salt Compensation Certificate for an Annual allowance of Rupees 200-9-8 formerly held by Vurdaraja Moodelly in favor of C. Vencaujee Iyer the present holder.

Stating direction as to the periods from which payment of the higher rates of salary is to commence to be paid to the Collector of Guntoor and Cuddapah.

Acting and Sub Coll'r 2-1-9
Acting and Sub Coll'r 3-5-10

It is observed from their Despatch of the 22d August 1849 No 10 that the Honorable Court having before them the Statement of Mr Cochrane's service in the Cuddapah District, considered him to have completed the required period of five years though during a portion of it he had acted as Collector, and during a further portion he had served as Acting and Sub Collector. The Governor in Council is

Council is therefore of opinion that in the case of Mr Stokes his service as Acting Collector of Guntoor should likewise be reckoned as part of the prescribed period, and that the time of absence on sick leave should also be included and he directs that the grant of the personal allowance authorised by the Honorable Court be considered as taking effect from the 22d April 1848.

2. The increase of salary conferred upon Mr Cochrane will in like manner be held to have commenced from the date on which he completed a service of five years in the Cuddapah District, in which period of service, the time served by him as Acting and Sub Collector and Acting Collector will be included.

3. Ordered that the foregoing Resolution be communicated to the Civil Auditor with reference to para 9 of the Extract from the Minutes of Consultation dated 11th December 1849 No 1192.

in Council observes from the correspondence that has already passed upon the subject that the application of the French Government was limited to the exemption from Frontier duty of certain articles passing into or out of the Pondicherry Territory, and that a recommendation was made and the sanction of the Supreme Government obtained in the terms of the application. It appears from the communication now before Government, that His Excellency the Governor of Pondicherry considers that the orders are applicable to the import or export of similar commodities into or from the Territory of Yanaon, and also it may be presumed the other French settlements on the Coromandel and Malabar Coasts Viz.t Carical and Mahé..

Dy. 15th July 1845 ℔ 7-8
" 9th Dec. - " - 1-2
" 24th Feby 1846 - " 22 23

2. By the resolution of Government dated 21st February 1846, many items of small value were fixed from Frontier duty, but this was only on Export from the Company's into the French Territories, and there is reason to believe that several Articles still remain liable to

to Frontier Customs to the annoyance of the Ryots of both Governments tho' with little advantage to the public Revenue. Before therefore addressing the Government of India on the present further application of the French Government the Governor in Council is desirous that the whole question should be reviewed and he requests the Board of Revenue will call upon the Collectors of Rajahmundry, South Arcot, Tanjore and Malabar to furnish reports upon the nature of the trade carried on between their Districts and the adjacent French Settlements, and to specify those articles of local consumption and petty traffic which it would be proper to exempt from duty import or export, and those goods which should continue subject to it forwarding at the same time an Account of the revenue derived from the several items in each class on an average of the last five fusleis - In submitting these reports to the Board of Revenue will accompany them with such remarks as may seem called for.

3. In the meantime His Excellency the Governor of Pondicherry will be apprized through

through the Political Department, that as his original application was understood only to apply to the Pondicherry Territory, it has now become necessary to obtain more complete information on the subject, and to make a further reference to the Government of India; and that the result will be communicated to him in due course.

4. Ordered that the foregoing resolution be communicated for the information and guidance of the Board of Revenue and that a copy be furnished to the Political Department with reference to our Extract from the Minutes of Consultation in that Department, dated 9th February, 1850 No. 73.

From the Secretary to Govt - Para 6. Upon the information furnished by the late Agent this Yeomiah was included in the List No 3 of Charitable Allowances and sanctioned as a life grant in para 12 of the Minutes of Consultation 12th April 1849 No. 369- The grant is not supported by any Sunnud of the last Nawab, by whom it is stated to have been conferred and appears to have provided chiefly for the subsistence of the late incumbent and for the care of a tomb over

Granting an Authority to the Agent at Kurnool for continuing to Syed Shareef a moiety of the Yeomiah enjoyed by his Father.

over the remains of a Member of the family. adverting however to the large number and indigent condition of the family left by the deceased the Governor in Council will not object on the recommendation of the Agent and the Board to continue as a special case one half of the lapsed allowance or Rupees 146-4-- per Annum in the name of Syed Shareef the eldest son for life, to be paid to him in arrears from the 25th May 1849 the date of his father's demise, but, he and his family should be made most clearly to understand that the payment is limited to his life and that no further indulgence is to be looked for after his death..

Para 7. With regard to the remarks of the Agent and the Board of Revenue upon the subject of this Yeomiah the Government observe that by the instructions contained in Extract of Minutes of Consultation 12th April 1849 Para 12 the whole sum Rupees 97-8-- has been treated as a charitable allowance and ordered to be disbursed to the five sharers in equal proportion, no reservation being made of any

part

part of &c it as set aside for Durgah Service. It appears to the Right Honorable the Governor in Council that it would be inexpedient and afford an inconvenient precedent if the arrangement already ordered be now departed from. The entire Amount Rupees 97½ will therefore be regarded as a personal grant and be distributed in equal shares to the five parties &c entitled to it, the share of each lapsing at his death. It will be the duty of the Agent to see that the yeomiah rules are strictly enforced in the event of any of the sharers not appearing in person to draw his pension within the prescribed period..

By Order

(Signed) T. Pycroft

Secy. to Government.

(15-16)

Resolution thereon — Resolved that the Board's Remarks of 4th Ultimo together with the orders of Government thereon dated 4th Instant be communicated for the information and guidance of the Agent to the Governor at Kurnool with reference to the Statement B which accompanied his letter dated 11th January last.

In Cons 4th Feby 1850.

Extract

Extract from the Minutes of Consultation, under date the 4th March, 1850 No. 230.

(From Pd 4th February)

(17)

From the Secretary to Government.- Para 2. The Durgah maintained by this trifling allowance is represented by the Agent to be regarded with veneration by the respectable Mahomedans of the Town of Kurnool, and the renewal of the grant it is said will be highly appreciated by a large number of that Community. The Agent therefore recommends its continuance which the Government accordingly sanction the annual sum of Rupees (4-1-0) Four and anna one being paid to Alloorad Shah the eldest son of the late holder in arrear from the 16th September 1848 the date of lapse..

Sanctioning the continuance of certain Durgah Pension Yeomiahs in Kurnool.

Entered in the List of Service Yeomiahs No. 2 referred to in Paras 9 to 11 of the Minutes of Cons 12th April 1849 No. 389.

3. Under the circumstances submitted in respect of this grant the Governor in Council does not consider it advisable to restrict its continuance absolutely to the life of the present incumbent as proposed by the Board of Revenue. It will be sufficient to state that on the next lapse occurring the renewal or otherwise of the grant will be considered and determined according to the circumstances

circumstances of the case and on the principle laid down in Para 9 Extract Minutes of Consultation 18th April 1849 No. 369.

4 This Durgah also is said to be held in great veneration by all classes of Musulmans owing to the reputation for extreme sanctity enjoyed by Jangly Padshah during his life time. Besides the Money allowance granted for the annual Dorcas it has an ancient endowment in land consisting of 30 Acres and 20 35/84 Goontas of Enam. Under the circumstances explained the Government agree with the Agent in thinking that it would be an act of doubtful policy to diminish the allowance but he questions the propriety of that Officer's proposal, that the Yeomiah be continued to the Moozavurs of the Durgah for the time being as a service grant, thus giving it the appearance of a grant in perpetuity. On the whole the Government think it would be the preferable course to renew it from the 1st February 1849 the date of lapse in the name of Allaundeen the elder of the two Cousins of the last holder who were associated with him in the Superintendence of the Institution to be held by that party for life on condition of his supporting the widow of the deceased and to be subject to reconsideration on his death.

5. For the reasons stated, this Yeomiah, the renewal of which is not recommended either by the Agent or the Board must be considered to have lapsed to Government on the death of Hoolnum Bhut on the 8 May 1849.

By Order
/Signed/ J. Pycroft

Read the following letter.

To, J. F. Thomas Esqre
Chief Secretary to
Government,
Fort St George.

Sir,

No. 24 d/ 9th February 1850. In continuation of my letter, I have the honor to forward for submission to the Right Honorable the Governor in Council

Dated 14th Do. a Copy of another communication from the Commissariat Officer upon the subject of the ex Military Abkaree at Bellary.

Commissary Generals' Office,
Madras, 18th February, 1850.

/Signed/ A. Tulloch Coll.
Commissary General.

Ordered to be referred to the Revenue Department with reference to Minutes of Consultation 16th February 1850 No. 665.

/Signed/ C. A. Browne Lt Col.
Secretary to Government.

To

To,

Colonel A. Tulloch C.B.

Commissary General of the Army.

Madras.

Sir,

I have the honor, with reference to the Advertisement in the Fort Saint George Gazette, regarding the Abkarry Farm, to acquaint you that applications have been made to me by one or two parties for information as to the terms and conditions of the Contract, having received no reply from Mr. Pelly the Acting Collector to my letter of the 26th January 1850, and a very vague one to my letter of the 7th, Copy of both of which I forwarded for your information, I really am unable to afford the parties so seeking information any certain reply as to whether they will, as hitherto has been guaranteed, enjoy the full liberty and privilege of drawing Toddy from the Government Topes, a question that should, I submit, be finally decided before parties are invited to come forward and bid for the Contract.

2. I have very good reason to believe that Mr.

Mr. Pelly considers that the Topes will be under the Civil Abkarry and contemplates letting them to the Military Abkarry renter if he offers what he Mr. Pelly considers fair terms, or if not he intends having a separate Toddy renter* - I can rely on the authenticity of my information on this point, but under what authority Mr. Pelly contemplates so entire a change in the whole system of Military Abkarry matters I am at a loss to understand.

* within Contonment limits.

3. Your experience on these matters and at this Station in particular renders it superfluous for me to point out the numerous evils likely to result from there being at the same station an Arrack renter under Military, and a Toddy renter under Civil Control, and I may add that Mr. Pelly's interference at all in these matters, when he was only ordered by Government to reduce the Abkarry limits and prevent liquor or toddy being sold any where within five Miles from the nearest point of the station, is quite unnecessary, and totally at variance

with

with the Regulations of Government which vests in you the sole and exclusive control of all Abkarry sales.

* Reg. VII of 1832 Section XLIII

Commissariat Office, C. Dts.
Bellary, 14th February, 1850.

/ Signed / F. Harris
Sub Assistant Commissary General C. Dts.

/ True Copy /
/ Signed / A. Tulloch, Colonel
Commissary General.

To
J. F. Thomas Esqre.
Chief Secretary to Government.

Sir,

I have the honor to submit

28th January 1850. Nothing

2. Nothing can be more proper and sensible than Mr. Kelly's letters† to the Brigadier Commanding and to the Commissariat Officer; they also bear that stamp of courtesy which this Department has always experienced from the service to which he belongs.

3. Mr. Kelly alluding to the general topic I imagine which forms the staple of Lieutenant Harris' letter to me states that "there is much to be said on both sides of the question" and without entering upon the instance which gave rise to the present correspondence I cannot help inclining to the opinion of the Military authorities in the Ceded Districts and to doubt whether the total abolition of the Military Abkaree limits even at Bellary will work well "both with reference to the prevention of the Soldiers obtaining liquor and the detection of smuggling."

(See concluding para of Lieutenant Harris' letter)

In recommending to Government the measure determined upon in Minutes of Consultation, the Revenue Board, I think, may not have had in remembrance that Sir Thomas Munro under whose Government the present system of Military Abkaree originated, and was matured, desired a Circular to be addressed to Collectors and Magistrates in which he "deems it to be of importance that an extensive range should be given to the operation

Extract No. 4675 21st December 1849.

Judicial Department No. 367. 28th August 1821.

Fort St. George 11th March 1850.

operation of the proposed system; and that upon this order a radius of at least 5 Miles has been given to the operation of every Military Abkarree in this Presidency without reference to the amount of actual Police authority held at any station by the Commissariat Officer; this at Masulipatam, Vellore and Trichinopoly is small; at Bellary and Cannanore more extensive.

5. The reasons why Sir Thomas Munro wished the Abkarree limits to be extensive, may be imagined; it is not necessary for me to state them here, but merely to call attention to a fact; and in doing so I cannot help stating my opinion that the present system works well. At Bellary the contention about 3 Villages and Gopalapatam tope has been unfortunate; to make out a case on either side too much importance has been attached to both points. Nothing can be more correct than the conduct of the Abkaree at that station, the General, the Brigadier, the Officers and Surgeons in charge of European Troops were all satisfied that drunkenness was kept down especially among the Europeans whose predilections are difficult to manage, I very respectfully trust therefore that the limits of the Military Abkarree at Bellary may be restored to their former proportions and that all disputes therein may be settled by the Regulations.

Commissary General's Office,
Madras, 9th February, 1850.

/ Signed / A. Tulloch Colonel
Commissary General

D.G.

To

Fort St. George 11th March 1850.

To,

Colonel A. Tulloch C. B.
Commissary General
Madras.

Sir,

I have the honor to submit a correspondence that has passed between Mr. Pelly and the Brigadier Commanding and myself regarding the right of Gopallapah to manufacture Toddy within the Tope fully ceded to him by me according to Major Macleane's letter.-

30th November 5th 10th 18th 21st 26th 29th December 1849. 11th and 26th January 1850.

2. Section XLIV Regulation 7 of 1832 is so clear that no one not especially licensed by the Superintendent of Police shall manufacture Toddy within the Military Limits, that I am really quite at a loss to understand how or on what grounds Mr. Pelly can argue to the contrary. The regulation being thus clear I am fully confident that the view I in common with the Brigadier Commanding have taken of the point will meet with your full concurrence and approbation.-

The

3. The Minutes of consultation forwarded with Deputy Commissary General Colonel Watkins' letter to render however further discussion of that particular point useless for the present, as the order of Govern-ment (if not modified) will place the Toddy Topes in question entirely in Mr. Pelly's power, as they are out-side Military Cantonment limits to which alone does Military Abkary authority now extend.

2d January 1850.

4. Pursuant to the orders re-ceived in the above letter of the Deputy Commissary General I ad-dressed Mr. Pelly and Copies of the correspondence on this point with a list of Queries put by that Gen-tleman to the Abkary Contractor are herewith appended. By the first of these queries and the last you will per-ceive that Mr. Pelly contemplates doing away with the topes altogether or in part and causing the supply to be brought from

a

a distance of 20 Miles, and to exercise control over the management of the Tope.

5. I hardly think it possible Govern-ment can be aware that the new orders have deprived the Military Abkary farm of its hitherto uncontrolled supply of Toddy, a source I may safely say of one third of the Revenue of the Farm.

1st February and 6th April 1822.

6. Preference to your own letters written when in charge of this Depart-ment upon the subject of this Tope leaves me fortunately in no doubt as to your opinion of the absolute necessity of the farm having at its disposal topes fully sufficient to supply the wants of consumers.

7. No advantage can be derived by the transfer to the Civil power, again of the topes which have been used by this Department for the last 30 years, or by subjecting them to such rules as the Collector may see fit from time to time to impose, and I respectfully submit that this Department has proved itself fully equal to the management of the Topes as

compare

compare them now to what they were when given over in 1821 and I am sure that their improved condition will satisfactorily show that they have not suffered from want of care or management, and I have not heard of a single complaint by the Military authorities of the European Soldiers having access to them. this proves also that the measures which were adopted by the various Commissariat Officers have been effective and successful.

8. I trust therefore I may not be thought to arrogate too much to the Department when I say that since the Topes have been under its entire control they have been incalculably increased in value, a full and sufficient supply of Toddy has been secured* and the European Troops kept from them - I submit that Civil authorities could do no more and it is very questionable if they can do as much, a reference to correspondence in the times when

*which was not the case in 1821 the time of its transfer.

when the topes were formerly under Civil control would seem to warrant my supposition that they cannot.

9. Official correspondence will be much and unnecessarily increased or the Commissariat Officer will always have to address the Civil powers when he wishes any thing done with reference to the topes which under the old rule he could do himself, and in the event of a difference of opinion will it not be likely to lead to much unpleasant discussion and ultimate reference to Government

10. The whole responsibility of the well working of the farm rests on the Commissariat Officer. Ought he therefore to be subject to the control of another authority in one of its most important branches of supply.

11. I trust I may not be thought presuming in offering these remarks after Government have been pleased to

to issue their orders, for I do so in the full conviction that Government are not aware that there are hardly any date trees within the Military Cantonment limits, and that their orders respecting the transfer of the abkary beyond those limits to the hands of the Civil power have placed our Topes beyond our control.

12. To prevent the European Soldiers from having access to Liquor appears to have been the chief if not the only aim of Government in the Minutes of Consultation alluded to: Experience has proved that, in as far as regards the topes at any rate, this end has been fully secured since they have been under Military control. there can therefore on these grounds be no reason for their transfer to the Civil power might I therefore request that if in your opinion the Minutes of Consultation

now

now alluded to, have any reference to the topes from which we draw our supply of Toddy - that you will take such steps as you may deem fit to induce Government to reconsider their orders, and for the reasons urged by me to place the Topes as heretofore under our sole control, this might be easily effected by bringing them within Military Cantonment limits, as they / the Topes / contain no Village and this plan would consequently not in any way affect the orders issued by Government -

13. I take this opportunity of stating that if the Topes are permitted to remain in our hands as heretofore / and I apprehend the most serious loss to the revenue of the Farm if they are not / there will not be the slightest difficulty about Gopallapah's Tope, for when once this agitation ceases Gopallapah will be as ready and glad to let the Tope at a moderate rent

as

as the Military Abkary Contractor will be to take it.

14. It is not my wish now to trouble you with any remarks of mine regarding the effect the proposed reduction, or rather total abolition, of the Military Abkary limits will have on the interior economy of the Abkary Farm both with reference to the prevention of the Soldiers obtaining Liquor and the detection of smuggling; but, I may say that I believe the highest Military authorities in the Division are not sanguine as to their working well, and would doubtless address the Commander in Chief to that effect if the matter was laid before them by the Commissariat Officer, and should my doing so meet with your approval I will take the necessary steps, but as the final adjustment of the matter will rest with

with my successor, you will perhaps be pleased to impart to him your views and wishes on the case.

/Signed/ F. Harris
Sub Assistant Commissary General.

Commissariat Office, C.D.
Bellary, 28th. January 1850.

True Copy.
/Signed/ A. Tullock
Commissary General.

To
Brigadier H. Dowker
Commanding Bellary.

Sir,

I have the honor to enclose Copy of a Petition from one Narapah complaining of some Military Police Peons and others having seized his People and some Toddy and a Horse while beyond the limits of the Military Cantonment, beat them and lodged them in the Cutwall's Choultry at Bellary.

Nattacul Rungadoo.

From the Petition it appears that the Complainant has been detained in making use of his own property in a legal way, but I have summoned him to appear before

before me at Raidroog and I request you will be so good as to cause the two men to be released if still in confinement and send the Peons and the three other men belonging to the abkary Contractor Mr. Abraham to me to answer the charge preferred against them as their names are doubtless known at the Cutwalls Choultry and Police Office.

Dundeyahs of the Cutwalls Establishment.

Bellary District Collectors Office on Circuit Nagalapoor 30th November 1849 ...

/Signed/ C. Pelly
Acting Collector

To,

C. Pelly Esqre
Acting Magistrate
Bellary.

Sir,

I have the honor to acknowledge the receipt of your letter of the 30th Ultimo enclosing a Petition from one Narapah and requesting that certain peons may be sent before you to answer charges

charges preferred against them by the above individual trusting that when you are aware of the true facts of the case you will agree with me in thinking that no hardship or cruelty or oppression has been inflicted on the complainant. I refrain from sending the peons now as you are at some distance from the station and they would be many days away, and as there are not nearly enough peons the absence of two even would be severely felt, and would therefore cause much public inconvenience. Should you however after receipt of this still deem it necessary to make enquiry into the matter the Peons shall be forthwith ordered to your Camp.

2. I am informed by the Superintendent of Police that the two men Neelacul and Rungadoo were seized close the north east Calingala of the big tank with 3½ rupees worth of toddy in punchally bags

bags on a tattoo. They were it is believed within even Military Cantonment limits at the time and at any rate some miles within Military abkary limits. The legality of their seizure cannot I presume be questioned as by a reference to Section XLV Regulation VIII of 1832 you will perceive all fermented liquor exceeding one bottle found within the said limits, meaning of course the Military abkary limits under the control of the Commissary General, shall be liable to seizure and confiscation by the Officer in immediate charge of the Police, and by Section XVI of the said act any Native being found in possession of more than one bottle of the said liquor shall be liable to be tried by the Commissariat Officer or Superintendent of Police and subjected to certain punishment as laid down in the II clause of the above Section. Thus these two Natives Nuttacul and Rungadoo having been found

found with very many bottles of liquor in their possession within Military limits were agreeably to the enactment above quoted brought to trial before the Superintendent of Police who however deeming them to be the mere tools of others, was unwilling to inflict any severe punishment on them, but discharged them with a warning not to so offend again, thus at any rate they were most leniently treated by him. The horse or tattoo the animal on which the liquor was being carried was taken care of at the Choultry during the prisoners confinement there and delivered over to them on their release which took place 8 days ago. I am also informed by the Superintendent of Police that the men were kindly treated and when brought before him made no complaints of having received any ill treatment and I beg to submit how unlikely it is that Peons should have wantonly and needlessly

Fort St. George 11th March 1850.

needlessly beaten two resistless men in a public thoroughfare, there was no object to make them confess by so doing, as the prisoners could not deny being found with the toddy - I therefore believe this part of the Complaint may have been inserted in the petition merely to swell the grievances under which the complainant imagines himself labouring, should you however believe it true and it is proved on an investigation, of course the Peons are liable to punishment at your hands for having done so, as to the seizure of the toddy they were merely acting under legal Orders given them; and therefore should those orders prove illegal those that issued them and not the Peons must stand the consequences.

3. The real Culprit in this case I am informed is one Gopaulapah brahmin who has let or sold the right of manufacturing

Fort St. George 11th March 1850.

manufacturing toddy in a Tope lately ceded to him by the Commissariat Department to the Petitioner Narrapah a cuggal Vender of that liquor, which I understand you in your letter to state is making use of his property in a legal way. I beg to refer you to section XLIV Regulation VI of 1832 which expressly lays down that all persons are forbidden to manufacture fermented liquor within Military Cantonment limits, I am therefore of opinion and I do not see how my opinion can well be questioned as the section above alluded to is so plainly and clearly worded, that Gopaulapah cannot let the right of manufacturing or manufacture one single bottle of toddy in his tope within Military Cantonment limits. On the case being brought before the Superintendent of Police that Officer has summoned Gopaulapah and informed him to this effect, telling him at the same time that he was at most perfect liberty to use his own property in any way he liked by selling

selling the cuttings of the trees, renting or farming the land or what not, provided he did not infringe the Military Abkarry regulations which his manufacturing toddy clearly does and which it is therefore my duty to prevent his doing in future. Should you however read the section of the regulation above quoted differently, your idea on the matter will receive every attention and consideration at my hands.

In conclusion, I trust you will treat the question of the petition on its broad merits. That is to say. Can Gopaulapah manufacture or sell the right of manufacturing toddy in his tope within Military limits in violation of Sec. tion XLIV. of Regulation VII of 1832, and can Narrapah contrary to both the provisions of Section XVI and Section XLV of the above Regulation carry the toddy about within Military Abkarry limits without any leave asked or obtained from

D.G.

from the Officer in charge of the Police.

As to the alleged beating of the prisoners. I hope you will not deem it necessary to make any further enquiry into that matter but will agree with me in thinking that in this instance such was not the case, for did I think so, I assure you I would myself cause the most severe example to be made of the Offenders, as no one can have a greater abhorrence of such conduct than I have.

Commandants Office
Bellary
5th December 1849.

Signed H. Dowker Brigr
Commanding Bellary

To
Brigadier H. Dowker
Commanding Bellary

Sir,

I have the honor to acknowledge the receipt of your letter of the 5th Instant, and in reply to state that having had the Complainants before me, I am able to say that there will be no need for the attendance of the Peons as I quite agree with you that there is no ground

ground for believing that the complain-
-ants were ill treated by the Perons.

2 The matter of the Petition and Complaint is a question which I am quite of your opinion, is to be treated on its broad merits, and in reply to the two queries put forth in the 4th para of your letter I would reply 1st. that Gopaulapah the owner of the toddy trees has a perfect right to draw the toddy himself or to rent out his trees to any party duly authorized to sell toddy, nor can any person have any right of control or interference with the owners private property other than to prevent the sale by unlicensed persons of Toddy drawn therefrom. In the Regulation VII of 1832, Toddy is no where specially mentioned. It is not a manufactured Article, but the raw produce of the tree and until it has undergone certain process is not intoxicating and it might be a question

whether

whether the owner of the Tope might not himself dispose of it without a license, but I think the legislature in other parts of the Civil Regulation consider Toddy as a fermented liquor and therefore it may come under the general class mentioned in Sections XLIV of the Regulation quoted.

3 In reply to the 2d. Query according to the strict construction of the Act, Narapah cannot probably be allowed to carry his Toddy one yard through the Military Abkary limits to his own Village, for though an Abkary renter duly licensed by the Collector, he is not specially one licensed by the Officer in immediate charge of the Police under Regulation VII of 1832.

4 Under the construction of the Act the Officer in immediate charge of the Police had, it seems, a case against the parties in whose possession the Toddy was found, but who, it must be observed,

observed, were not smuggling it into the Military limits, but merely convey-ing their property out of and through the boundary they were - I am happy to hear leniently dealt with, but not more so than might have been ex-pected at the hands of the Officer who investigated the charge, and who from a former correspondence between this Office and his predecessor was not, I presume, altogether un-aware of the merits of the case, which appear to have entirely arisen from a misunderstanding between Gopalapah the owner of the Tope and the Military Ab-bary Contractor.

5. I observe, that you term this man Gopalapah the real culprit in this case - I do not think he is deserving of this stigma. His case is simply this. He and Mr. Abraham the present Abbary con-tractor, formerly had some private

private understanding respecting the produce of the Toddy trees belonging to Gopalapah - They appear to have disagreed, and Mr. Abraham refused to pay Gopalapah the rent he demanded for his tope, and more than once attempts were made by the Abbary people violently to take possession of his property - This I trust has been put a stop to - Go-palapah may rent his tope to whom he pleases, and if the Military Abbary renter refuses to pay the owner his fair demands, I think every assistance should be given to Gopalapah to enable him to dispose of his property to persons duly authorized to sell Toddy and Arrack - It would be in my opinion, and I have not the slightest doubt but that you will quite agree with me, be an act of great oppression to take advantage of a technicality of law wantonly to deprive Gopalapah of the value of his property -

property. The remedy there is very simple. The man merely wants the fair value of his Tope. He has sought out another party to rent it from him since Mr. Abraham, and he cannot agree about the terms, and he has a perfect right to seek for the Abkary renter who rents his Tope, a Permit for protecting the carriage of the Toddy beyond the Military Abkary limits; which the Officer in immediate charge of the Police has the power to grant under the provisions of Section XLV Regulation VII of 1832.

6 As this very simple remedy will settle the whole matter I shall direct Gopalapah or the parties drawing the Toddy to apply to the Superintendent of Police for the necessary pass, and I have the honor to request you will be so good as to direct that Officer to grant the requisite Permit.

Gopalapah

7- Gopalapah is willing I believe to let Mr. Abraham or any other person, holding the Abkary Contract from the Commissary General, have the use of this Tope in fair terms, such, for instance as he has now rented it to contractors in the Raidroog Talook 35 Rupees per Month, and I have little doubt but that terms might be made with the owner for renting the Tope permanently for a Series of years to the Commissariat Department, which I think might be a good plan, if reasonable terms were offered. But at all events if the Contractor of the Military Abkary Farm will not come to the terms with him, it is but just that the man should be supported in the exercise of his undoubted rights over his own property. But from all I have heard of the matter, there is reason to believe he has met with much petty persecution, simply because he has refused.

refused to give up his property to Mr. Abraham, on terms which he is not disposed to agree to.

8 Having entered thus fully into the subject, I have only to request you will see Justice done to the owner of the Tope in the manner pointed out in the 5th and 6th Paras of this letter until some other arrangement is made between him and the Military Department.

Bellary District Magistrates Office on Circuit, Raidroog 10th December 1849 } Signed C. Pelly Actg. Magistrate

To

C. Pelly Esqre.
Acting Magistrate
Bellary.

Sir,

I have the honor to acknowledge the receipt of your letter No. 920, of the 10th instant and regret much that I cannot concur in the opinion you have formed regarding the rights of toddy being allowed

allowed to be manufactured within Military Cantonment limits, and also regarding the advisability of such liquor being carried through such limits, with a permit, at the pleasure of the Raidroog renter Karapah.

You state in the second para of the letter now under reply, that Gopalapah has a perfect right to draw the toddy from the trees himself I conclude you do not dispute toddy to be one of the fermented liquors alluded to in regulation VII of 1832, as you say that the Civil Regulations state it to be a fermented liquor, the Military Regulations most certainly so consider it, the sole sale and manufacture of toddy being exclusively guaranteed to the Military Contractor by the terms of the Contract bond. I am at a loss to understand if drawing it from the trees is not manufacturing it, how it is manufactured, as if so drawn after an hour

Fort St. George 11th March 1850.

hour or two without any further pro-
-cess it ferments, and becomes an
intoxicating fermented liquor, all
this you say can be done by Gopa-
lapah or Narapah and that although
the topes is within Military Ab-
-sary limits, yet they do not by so doing
infringe Section XLIV Regulation
VIII of 1832 which says all per-
-sons are forbidden to manufacture
fermented liquor unless specially
licensed by the Officer in immedi-
-ate charge of the police, which
license neither Gopalapah or Na-
-rapah possess.

My grounds of objection to allow-
-ing such manufacture or carrying on
fermented liquor about, are first, that
it is diametrically opposed not only
to the strict reading, but also to the
spirit of Regulation VIII of 1832 and
would afford to European Soldiery
opportunity to procure such liquor,
and secondly that were I to give my
sanction

Fort St. George 11th March 1850.

sanction to such arrangement, I should
not think that I sufficiently supported
the Commissariat Officer in protecting
the interests of the Military Ab-
-sary
renter as far as the law allows.

With reference to my first
objection to which I shall briefly
confine myself, as more immediately
concerning the discipline of the Troops,
the second being a Commissariat
matter which I have nothing to do
with, but regarding which the Com-
-missariat Officer will doubtless
seek and receive the instructions
of the Commissary General. I beg to
state that as far back as 1820
I find the Officer Commanding the
Ceded Districts strongly protested
against the evil consequences of
the very tope now referred to, and the
renter thereof not being under the im-
-mediate controul of the Officer Com-
-manding the Garrison from the man-
-
having easy access to the toddy drawn therefrom
The tope is now certainly under
my

my controul as being within the Ab.Karry limits, but how can I expect that the Superintendent of Police will be able under me efficiently to exercise such controul, if Narapah or any other Civil renter to whom Gopalapah may choose to let the right of drawing toddy in the topes, to, are to be allowed to carry on uncontrolled manufacture of a fermented liquor so detrimental to the health and well being of the Soldiery. Gopalapah could with equal justice let portions of the topes for drawing toddy to half a dozen Civil licensed Venders, who might then be carrying the toddy about the Cantonment in all directions. Thus the fundamental principles of the Ab.Karry Regulations will be violated by my sanctioning at your request, an arrangement which being opposed to Regulations, puts it into the power of the Europeans to obtain and for the owners

of

of the topes to sell, without any chance of prevention, or detection, any quantity of toddy from the topes in question. How are the Police to discover irregularities when they suspect them, for the fact of Narapah's servants being in possession of the toddy, will not tell against them, they shew their permits and no more questions can be asked, the case is different when the tope is worked by Military renter, who is so completely under Military controul, and is so strictly answerable for all abuses of the kind, that it is to his own interest to try and prevent them by every means in his power.

Again, can it be expected that all the toddy manufactured in the topes would find its way out of the Military Ab.Karry limits, and if it does not, is it not an undoubted infringement of the Military Contractors right. I mention this to shew that, independently

of

of my first objection, I could not carry into effect the arrangements you wish, at any rate until the Commissariat Officer informed me that the Commissary General approved of them

I really cannot from any thing I have heard consider Gopalapah to be in any way hardly treated or oppressed, I am informed that when the Commissary General heard that you had decided Gopalapah to be the Enamdar of the tope in question, he issued immediate orders for it to be entirely given up to him without any reservation, care alone being taken that he [Gopalapah] did not infringe the Abkarry rules which he now undoubtedly is attempting to do, it surely can be no great hardship preventing him drawing toddy from trees of which he only, as I am informed, becomes possessed, by the care and preservation and consequent outlay bestowed on the land by the Military Abkarry Department, for whom granted to

to him originally, I am informed that but few trees were on the land, a reference to the Original Assessment of the property, and what Gopalapah taking the trees into consideration considers it now worth, will, I hear, prove this, and I am informed that Mr. Abraham has made an offer of three times the assessed value of the land and will take on himself the expense of guarding, watching and preserving it I merely mention this to shew there not being in my opinion, as far as I have heard, any oppression in the case, and as there are great grounds

grounds for fearing, that a compliance with your wishes will render the illicit sale of toddy to Europeans and Natives of easy accomplishment, I regret I cannot sanction the manufacture and right of transit thro' Military limits, desired by Gopalapah & the regulations clearly gives me the right to prevent it, and I do not in the present case see any cause to warrant or justify, my departing from the strict letter of what is laid down in these Regulations, issued by Government for my guidance.—

Commandant's Office
Bellary
18th December 1849

Signed W. Dowker Brigd
Commanding Bellary

To,

Lt. B.

To, Lieutenant F. Harris
Superintendent of Police
Bellary.

Sir,

I have received a petition from Gopalapah, the owner of certain land situated at Bellary within the Military Abkarry limits, which contains date Trees his property, complaining that you refuse to grant him, or rather one Nettacul, the Abkarry Sub Renter of Purmadavera-hully in the Raidroog Taloote, a Permit to enable him to carry Toddy drawn from the said Trees beyond the Military abkarry limits to his own Farm at the aforesaid Village. The parties had been directed by me to apply to you for the said Permit.

The land and Trees referred to are the property of Gopalapah. He has let property to Nettacul the abkarry sub Renter. There is nothing in the Regulations to prevent his disposing of his property in that manner, and every honest man has a right to claim of the authorities due protection for his property. There is no grounds for imputing to the complainants

complainants the wish to smuggle the raw produce of the Trees or to sell it within the Military Cantonment, the very reverse is the case. They only require to take it out and I cannot understand why they should not be legally protected in a perfectly lawful use of their own property.-

To prevent smuggling the law requires a person seeking to pass property of this nature to obtain a Permit; and within the Military Ab Karry limits the Officer in immediate charge of the Police under the provisions of Regulation VIII of 1832, See Section XLV is the Officer who has power to grant such permit; but I cannot see that the Regulation authorizes him to refuse it except on special and very strong grounds, which from all I have heard or can discover from a late correspondence with the Officer Commanding Bellary relative to this matter, does not exist. The refusal on your part will entail considerable loss to the parties, and I do not think you can

can be justified in subjecting an honest trader to such loss.-

I have therefore the honor to request you will exercise the power vested in you for the purpose, as I conceive, of protecting the rights of individuals and grant a Permit to Nettocal the Sub Renter of the Purmadavarahully Ab Karry Farm to protect him in conveying his Toddy from within the limits of the Military Ab Karry Farm outside to his own Farm.-

See Regulation I of 1820 Sections XI XII.-

I believe that I have power myself to grant the necessary Permit; but, as the exercise of it might interfere with the proper control of the Military authorities within the Cantonment and might lead to a collision of authorities which I am most anxious to avoid, I shall not exercise that right, but leave it to you to protect the complainants in their rights.-

I have the honor to request an early reply to this as it is my intention should you not accede to my request to refer the matter for the orders

3645 Fort St. George 11th March 1850.-

orders of the Board of Revenue and Government.-

Bellary District.....
Collector & Magistrate's Office...
on Circuit, Raidroog.....
21st December 1849.-

(Signed) C. Pelly
Acting Collector
and Magistrate.

To, C. Pelly Esqre
Acting Collector
and Magistrate
of Bellary.

Sir,

I have the honor to acknowledge your letter No. 966 of date the 21st instant received on the 25th containing a request that I would grant a Permit for Toddy to be removed from a Tope the property of Gopalapah. From a late correspondence on this subject between Brigadier Dowker Commanding the Force and yourself, you must be aware that were I to act as requested in the letter now under reply, I should be

D.G.

be guilty of a deliberate disregard to the wishes and I may add direct disobedience to the orders of the Officer commanding abovementioned and I really cannot at your request / even if I agreed with you which I do not / render myself liable to the very serious consequence such a line of conduct would entail on me.

In a former letter of yours to the Brigadier you request that Officer to direct me to issue a Permit thus I conceive acknowledging that, that Officer had a directing power in the matter, and Brigadier Dowker has informed you that he cannot allow the Permit sought for to be granted, even if I differed with that Officer it would be impossible for me to issue such permit and still more so holding as I do opinions in full accordance with his on the matter.-

The Officer in immediate charge of the Police most certainly has the power of granting permits, but it appears to me

to

x Para 6 No 920 dated 10th Decr 1849.-

to be to all intent, a discretionary power, and I am most decidedly of opinion that neither Government or my immediate superior the Commissary General would consider that I made a proper use of that discretionary power, if at the request of the Civil Magistrate I were to issue a permit in direct disobedience to the Officially expressed wishes of the Officer Commanding the station and directly at variance to what I myself conscientiously believe to be a fair and just reading of the law regarding Abkarry matters, as laid down for my guidance in Regulation VIII of 1832-

I consider that I have in this instance independently of the Orders of the Commanding Officer, both special and very strong grounds for a refusal of a Permit first the Toddy for the transit of which through Military limits a permit is sought, is an illicitly manufactured article, as if you admit Toddy to be a fermented liquor the Monopoly of sale of which Government reserves to itself it cannot be

disputed

disputed that its manufacture within Military limits is illegal, Section XLIV of Regulation VIII of 1832 states that very plainly I remark however that you always allude to the liquor as merely the raw produce of date trees I however have always understood that toddy was nothing more or less than the raw produce of date trees, if not why do the legislature in para I. Sec XVII Regulation I. A. D. 1820 speak of drawing toddy from Coca, date, or other Palm trees, such drawing of toddy by Section XLIV Regulation VIII of 1832 can only be effected within Military Abkarry limits by a person specially licensed by me + I therefore cannot allow Gopalapah to do it himself or let the right of doing it to others not specially licensed by me. My second reason for a refusal of the right to manufacture and of transit of toddy through Cantonment is that if a constant manufacture of Toddy in a Tope within

within easy reach of the European Soldiery, and daily right of transit of such liquor through Cantonment is granted, that no adequate assurance will or can be given me by the Civil or Renter that the toddy there manufactured is not either procured by or sold to the European troops. On this point the Officer Commanding the ceded Districts in 1820 writes very strongly and this letter has been apparently deemed of such importance that a Copy of it was sent for record in the Commissariat Office of this station, and it would appear that the suggestions contained in the above letter were concurred in by Government as most certainly from that time to this, no such thing has occurred, as a Tope within Military Abkarry limits being worked by a Civil Renter - nor do I believe that such a thing is allowed or thought of, in any Military Cantonment within the Madras Presidency.-

My third objection is, that to the prejudice of the Military Abkarry contractor when once the manufacture of Toddy is allowed in the Tope Natives of all description will procure Toddy there, and that it will not be in the power of my Police to detect or prevent it that this

this will be done with the connivance of the Civil Renter - I do not wish to say as the man may be very honest, but I am quite certain even if he wishes it that it will be quite impossible for him to prevent smuggling and illicit transactions going on in his Tope when once the manufacture is commenced there -

With reference to the 4th para of your letter I submit that the legislature in vesting in me the power of granting Permits never could have intended that I should use such power to protect the rights of private individuals by assisting them to convey away Toddy illicitly manufactured within Military limits the more especially when such an exercise of the power alluded to would be in direct variance to the wishes of the Officer Commanding the Station - I am willing to grant that if it were legal for any party not licensed by me, to manufacture toddy within Military limits, that it might be a hardship, my not granting such parties a Permit, still even supposing it were legal and I granted the Permit I should consider it necessary to annex some very stringent conditions, to such

permit

permit to prevent the Toddy in its transit thrugh Cantonment, being illicitly taken by, or disposed of to Soldiers or others.—

As regards the 5th para of your letter I cannot agree with you that you have the power of granting a permit for the transit of Spirits or legally manufactured Toddy even through Military Abkarry limits: The Regulation to which you refer me certainly states that your permits will be held valid throughout the territories subject to the Government of Fort Saint George, but this Regulation was framed when there were no such things as Military Abkarry Farms when of course your permits would be valid any where, as all abkarry matters were under Civil authority; the case is now different the Military Abkarry Farms being under the exclusive control of the Commissary General vide Sec XLIII Regulation VII of 1832 and a reference to Sec XLV of the same Regulation will I think convince you that your Permits are not valid within Military limits as it expressly states that, the permit is to be granted by the Officer in immediate charge of the Police, and you will perceive the last clause of the above

Section

Section clearly shows. That a Collector's permit is of no use within Military limits as it points out that they are to be given to the Officer in charge of the Police who shall issue one of his own for the protection of the liquor, which would be unnecessary were the Collectors permit valid within Military limits. Should you still think otherwise, as you are about to refer the matter to the Board of Revenue, to settle the question I would suggest that you refer this point as well.

In conclusion I would beg to state that though at all times most anxous to act in accordance with your wishes as regards public justice to the inhabitants, and most thankful for any of your opinions on such points as you may favor me with, I cannot accede to a request Contrary both to the law, the orders of the Officer Commanding and my own view of what I believe to be the wishes of Government on the point: I would add, I received your letter on the 25th and agreeably to your request for a

speedy

speedy answer would have replied to it on that day, but being X mas day - I answer it on this day the 26th -

Questions on Abkarry to which Mr. Abraham the Abkarry Contractor of Bellary Talook and Garrison, is requested to submit replies.

1 What effect would the prohibition to draw Toddy from all Date Trees within 6 or 7 Miles of the Cantonment limits have on your Abkarry farm either of the Civil or Military Farms? Please to mention how many Topes there are and an approx-
:imation to the number of Trees in them.

None on the Civil. but on the Military farm it would have the effect of depriving it of the whole supply of Toddy and consequently not a drop either fermented or sweet would be procur-
:able in the station. The Bakers would be unable to bake Bread and the Contractors for the supply of Bread to the Troops (who consume a large quantity) would not be able to fulfil their contracts. Many respectable Natives Maho-
:medans especially whose religion

religion prevents their drinking Spirits take fermental Toddy which might be compared to Beer or Wine. and is a liquor not half so intoxicating or injurious in its effects as spirits. The Tope attached to the Military Farm has always been considered as one Tope. The whole being situated in the beds of Nullahs which run one into another. The portion lately made over to Gopala-
:pah, is said to contain 30,000 trees. I think the remainder is about twice as much. of which two thirds are full grown.

2. Where do you obtain your Toddy for the use of the Civil Farm especially for the Villages near i.e. about 10 Miles from Bellary?

From the Topes near Coongode and Imulpen-
:goody in the Bellary Talook and Metree in the Kumple Talook.

Where do you obtain your Toddy for the use of the Civil Farm especially for the Military Farm at Bellary?

From the Tope attached to the Farm of which a portion has been lately transferred to the Enamdar on whose ground it is growing—

4. Do you use Date Toddy at all in the manufacture of arrack?

No.—have tried it, found supply insufficient.

5. How much Toddy is consumed daily or monthly in your Civil Farm of the Talook.—

The Villages are all sub-rented to petty Venders, who keep no regular accounts, being unable to read or write.

6. How much in the Military Farm.?

(This question was not answered)

7. How long do you suppose it takes after the Toddy is drawn from the Trees to render it intoxicating?

From 3 to 8 hours according to the season— but sooner if conveyed to any distance.—

8 What process is necessary to render it an intoxicating liquor?

None, fermentation is sufficient.

9 Is it used in greater quantities before or after fermentation?

After

Is

For

10. Is the Date Toddy used for any other purposes than for drink?

For Baking Bread, for which fresh Toddy is daily required.

11 After the liquor has attained to an intoxicating state, how much under ordinary circumstances does it take to make a man (generally speaking) intoxicated? Please to make a comparision on this point between fermented Toddy and the Common arrack.

According to constitution and habit— One gallon for some men— and as much as five for others— One bottle of pure Arrack will make most men drunk; Toddy in any quantity however is not so injurious as spirits— It is not followed by headaches, or horrors.—

12. What ingredients do you use in the manufacture of arrack?

Jaggery— and Soinacearra Bark.

13 Where do you procure these ingredients.

From the Jungles of Pullicondah and Goondecollah and Jaggree from Rood ligee and Naikaneligee—

Distilled—

14. What process have they to undergo before the intoxicating properties contained in them are developed?

No.

15. Are any of these ingredients capable of producing intoxication?

without the process described?

16. If so what effect would a prohibition to collect or gather the said ingredients from the neighbourhood of Bellary have on either of your Farms?

None - there being no ingredients procurable.

17. Do you manufacture the whole of the arrack used in the Cantonment yourself or are there small stills and how many authorized?

Yes, in a larger Distillery near the Fort Gate under a Garrison Guard - no more is authorized.

18 Do you supply any and what Villages in the Talook Farm from your Distillery at Bellary?

No.

Additional query put by C. Pelly Esquire after the receipt of the above papers -

Query. Could not the wants of Bellary in Toddy both for baking and other purposes or for either be supplied from the Topes of Coongode Mulpungoody and Metree?

A. Not for Baking purposes at all - for which fresh Toddy must be daily procured - and therefore cannot be brought from Topes at any distance from Bellary -

Toddy for the use of Consumers might be brought from the Topes named in the Query - To meet the demand at Bellary, however, the supply of the Villages now dependant on the said Topes must be greatly relinquished - and strong measures adopted for the preservation of the Topes -

From Coongode Toddy is conveyed to almost all the Villages on the south side of the Bellary Talook - also to several Villages in the Talooks of Kempli and Goolum.

Formerly this Tope was very extensive - but from neglect and the encroachments of the Ryots - it is now much reduced in size - and the Trees or Shrubs are so small and stunted that holes have to be dug in the ground to hold the pots receiving the Toddy.

The Topes at Mulpungoody and Metree are both very small and scattered - The former yields very little Toddy - and

Aerial

3661 Fort St. George 11th. March 1850.

Herial (quite in its vicinity) gets a part of its supply from appearently in another Talook.

The chief objection to Coonjode and Metree is the distance (20 miles and more) this will prevent a regular supply of Toddy during the wet months and bring it at all times to Market at such a late hour of the day — and in such a high state of fermentation and acidity as to render it unwholesome and injurious to health.

3662 Fort St. George 11th. March 1850.

To Lieutenant F. Harris
Superintendent of Police
Bellary

Sir,

I have the honor to acknowledge the receipt of your letter of the 26th. Instant.

In order to prevent a misapprehension of the course I pursued in making a formal application to you for a Permit I would state that I did so because on reconsidering the Regulation it appeared to me that you were the proper Officer to apply to; because the Officer Commanding had referred the Petitioner Gopaulapah to you, and because the Brigadier in the 3d. para of his letter to me under date the 18th. idem seemed to point out this as the proper course.

I, of course, was quite aware that you could not take upon yourself in opposition to the Orders of the Commissary Officer to issue such a permit and I was prepared to hear you would not, after what had passed, grant

grant a Permit unless the Brigadier had altered his opinion on the subject as far as related to his immediate duty—

There is much to be said on both sides of the question. One view of the case has been taken by the Brigadier and yourself, and I am constrained to take an opposite view, and it seems to me that preferable course to submit a Statement of the case for the orders of the Board of Revenue not only for my future guidance but for ascertaining the rights of the complaining party which I purpose doing in the course of a few days—

I have already informed Brigadier Dawker that I made the application to you for a Permit and I should feel obliged to you by your explaining the cause of my adopting this course for from your letter under reply it occurs to me that my applying to you after the correspondence with that Officer wears the appearance of soliciting you to perform an

act in disobedence of the Orders of your Superior Officer. But I need hardly disclaim such an intention—

Bellary District,
Coll.r and Magistrates
Office on Circuit, Gooty,
29th. December 1849.

(Signed) C. Pelly
Acting Coll.r and Magistrate

To

C. Pelly Esq.re
Acting Collector of Bellary on Circuit

Sir,

I have the honor to acknowledge the receipt of your letters and to inform you that I think Mr. Abraham the Military Abkarry Contractor has answered your questions fairly and honestly—

29th. Dec.r 1849 and 11th. January 1850.

2. With reference however to question 1 and 19 I beg to state that in my opinion Government never for an instant contemplated in their Minutes of Consultation the slightest interference on the part of the Civil Authorities in the Management of the Toddy topes, from which this Department has for the last 30 Years exclusively drawn its supply of Toddy—

3. Such an interference would seriously affect the Revenue without the slightest

Fort St. George 11th March 1850

slightest prospect of any corresponding benefits to the European Troops, and render it necessary for Toddy to be brought from a long distance. A plan open to many and the most serious objections, and extremely liable to frustrate the sole aim of Government, Viz.t, preventing Europeans from obtaining liquor for it would, as a matter of Course be very easy for the Europeans to obtain any quantity of Toddy they pleased either by force, or for money from those engaged in bringing it into Cantonment.

4 I must therefore beg you will allow the Toddy topes to remain as heretofore as much under the controul of this Department, as you think the reading of the Minutes of Consultation of Government will warrant. A contrary Course will not only I am convinced interfere with the effective working of the Farm but put an almost entire stop to the baking of Bread in which large quantities of Toddy are necessary before the Government Topes were made over to this Department by

Fort St. George 11th March 1850.

by your predecessor Mr. A. D. Campbell in July 1822, the Sum of 6 Rupees daily Rent was paid to the Civil renter to secure a sufficient supply for baking purposes alone, and the slightest irregularity in this supply would now occasion the greatest annoyance to the Commissariat Officer, and most serious distress to the European Troops as regards their Ration of Bread which Government undertakes through this Department to issue to them daily.

5. I am quite certain that as far as regards the European Soldiery any alteration in the Management of the Toddy Tope, can only be for the worse, for, it is impossible that they can be more efficiently kept from them, than they are now. Not a single instance+ having occurred as far as I can learn of a Soldier ever having entered them. It is only therefore a change of Management that I fear as I so strongly urged in my letter regarding Gopalapah being allowed to Manufacture Toddy in his Tope, under his own sole supervision.

There

+ Excepting One in 1839 when a slight disturbance was occasioned by a man of the artillery Horse temporarily stationed here.

6. There is so much correspondence in this Office pointing out so strongly and forcibly the absolute necessity of this Department having these Topes for the supply of Toddy to the Farm that I feel it incumbent on me to request that you will be so good as to let them remain as at present, unless you think the Minutes of Consultation renders it imperative on you to do otherwise—

7. The matter of Gopalapah is of very Minor importance, when all this agitation ceases, the interests of both parties will induce him and the Contractor to come speedily to terms—

The

Para 1 The orders of Government conveyed in Extract from the Minutes of Consultation 19th December 1849 directed that the Military Abkarry Farm at Bellary should, on the expiration of the present contract, be confined to the limits of the Cantonment and that all the control of the Civil Authorities. It was at the same time ordered that the manufacture or sale of liquor within a circuit of five miles around the Cantonment limits should be altogether interdicted

2 In the letters from the Sub Assistant Commissary General at Bellary submitted by Colonel Tulloch with his communications of the 9th and 18th Ultimo it is represented that the Date Topes from which the Military Farm has hitherto been supplied with Toddy are without the Cantonment limits and much inconvenience and loss of revenue in the Military Abkarry Department is anticipated in the event of those Topes being placed under Civil control and it is therefore suggested that

that the orders of Government may be reconsidered and the Topes left as heretofore under the Military Authorities. It would, however, appear that the Acting Collector is prosecuting inquiries and collecting information, in view to making such provision in regard to the Topes, as has been rendered necessary by the arrangement lately ordered by Government. The Right Honorable the Governor in Council directs that Mr. Pelly be desired to submit his views upon this subject at an early date through the Board of Revenue, who in laying his report before Government, should state their own opinion upon the questions contained in it. The Acting Collector should particularly be requested to explain in what manner a regular supply of Toddy will be secured for the use of the Garrison Bakers houses. The exact position and extent of the Topes should also be stated and their distance from the Cantonment limits.

From Actg. Collector to Sub Assistant Commissionary General 11th. January 1850 in letter from Commissary General 9th. February 1850.

The

3

The other questions discussed in the correspondence submitted by the Commissary General relate principally to the position of parties holding Toddy Topes within the Military & Karry limits, and the validity within those limits of permits issued by the Civil Authorities. The Board of Revenue will be pleased to consider the

Fort St. George 11th March 1850.

the points at issue between
the Acting Collector and
Sub Assistant Commi:-
:missary General and
submit their opinion
upon them when forwarding
the report respecting the
Toddy Topes called for in

Secretary to the
Board of Revenue,
Fort St. George-

(20)

From the Acting Collector of Bellary. - - - Sir, Para. 1.

Submitting Copy of a correspondence between the Commissarial Officer at Bellary and himself on the subject of the orders of Government dated 19th December 1849 regarding a partial transfer of the Military Abbiary to the Civil Authorities stating that there is a difference of opinion between that Officer and himself with respect to the interpretation to be given to that order as far as regards the Date Topes beyond the Cantonment and for the supply of Toddy to the Cantonment and requesting that if the Board see reason to object to the view taken by

connected with the orders of Government contained in Minutes of Consultation dated 19th December 1849 communicated to me in the Board's Proceedings of the 3rd January last on the subject of the transfer of part of the Military Abbiary Farm at Bellary to the Civil authorities. I have the honor to enclose Copy of a letter received from Lieutenant Harris the Sub Assistant Commissary General at Bellary dated 20th January and my reply to it to Major Shepherd the Deputy Assistant Commissary General at present the Senior Commissarial Officer at that Station-

2- The Board will observe that there is a difference of opinion in the interpretation of the Orders of Government as respects the Toddy Topes situated beyond the Military Cantonment-

The

by the Acting Collector they will communicate their order with as little delay as possible as the Military rents will cease on the 30th April next within which time measures must be taken to provide for the sale of the Topes-

The Commissariat Officer is of opinion that Government did not contemplate the slightest interference with those Topes on the part of the Civil authorities- But in my opinion the orders of Government directing "that the Military Abkarry farm "be confined to the limits of the "cantonment and that the Abkary "beyond those limits be altogether "under the Civil power" are explicit and imperative as to the course to be adopted by the Civil authorities-

3. These Topes are situated adjoining to the cantonment but outside and contain about 13,097- Date Trees and have always supplied Bellary with Toddy- The revenue derived from them in the Commissariat Department is very considerable, forming, I understand the largest portion of the profits of the Renter who has for several years farmed the Military Abkary for 12,500 Rupees, which revenue

	Produce trees-	young	Total Trees-
6. Circar Topes-	4,218-	45,390-	92,608-
5. Enam Do-	1,787-	21,702-	38,489-
	6,005-	67,092-	131,097-

is

is of course not to be sacrificed- The Toddy is not manufactured into arrack-

4- The subject of these trees was not specially noticed in the former correspondence and it seems to me of little moment whether the Topes are retained in the Military Abkarry Department or transferred to the Civil- The revenue from them will merely be transferred from the one to the other- But the orders of Government seem to have excluded all interference on the part of the Military beyond the limits of the Cantonment Boundary- But should the Board see reason to differ in the opinion formed by me on the subject, I request I may be favored with their orders as soon as possible as the present contract in the Military Department ceases on the 30th April and it will be necessary to make arrangements for putting the Topes up to sale for the ensuing year.

No. 1.

To. C. Pelly Esqre
Acting Collector of Bellary
on Circuit

Sir,

I have the honor to ac-
29th December 1849. knowledge the receipt of your letter,
and to inform you that I think
Mr. Abraham the Military Abkarry
Contractor has answered your questions
fairly and honestly-

2- With reference however to
questions 1 and 19 I beg to state that
in my opinion Government never for
an instant contemplated in their
Minutes of Consultation the slightest
interference on the part of the
Civil authorities in the management
of the Toddy Topes, from which
this Department has for the last
30 years exclusively drawn its supply
of Toddy-

3- Such an interference
would seriously affect the Revenue,
without the slightest prospect of
any corresponding benefits to the
European troops, and render it
necessary for toddy to be brought
from

3074. Fort St. George. 11th March 1850

from a long distance, a plan
open to many and the most
serious objections, and extremely
liable to frustrate the sole aim of
Government Viz. preventing Europeans
from obtaining liquor, for it would
as a matter of course be very easy
for the Europeans to obtain any
quantity of Toddy they pleased
either by force or for money, from
those engaged in bringing it into
Cantonment-

4- I must therefore beg
you will allow the Toddy Topes
to remain as heretofore, as much
under the control of this Depart-
ment as you think the reading
of the Minutes of Consultation of
Government will warrant. A con-
trary course will not only, I am
convinced, interfere with the effective
working of the Farm, but put
an almost entire stop to the baking
of Bread in which large quantities
of toddy are necessary before the
Government Topes were made over
to

Fort St. George, 11th March 1850

to this Department by your pre-
-decessor Mr. A.D. Campbell in
July 1822. the sum of 6 Rupees xx
daily rent was paid to the
Civil renter to secure a suffici-
-ent supply for baking purposes
alone) and the slightest irregu-
-larity in this supply would
now occasion the greatest annoy-
-ance to the Commissariat Officer,
and most serious distress to
the European Troops, as regards
their ration of bread which
Government undertakes through
this Department to issue to
them daily.

5. I am quite certain that
as far as regards the European
Soldiery any alteration in the ma-
-nagement of the Toddy Topes can only
be for the worse, for it is impos-
-sible that they can be more effi-
-ciently kept from them than they

and

Fort St. George, 11th March 1850

are now. Not a single instance
having occurred as far as I can
learn of a Soldier ever having
entered them. It is only therefore
a change of management that
I fear, as I so strongly urged
in my letter regarding Gopaula-
-pah being allowed to manu-
-facture Toddy in his Topes
under his own sole supervision.

6. There is so much
correspondence in this Office
pointing out so strongly
and forcibly the absolute
necessity of this Department
having these Topes for the
supply of Toddy to the Farm
that I feel it incumbent on

No 2

Fort St. George 11th March 1850.-

No. 2.

To,
Major J. Shepherd
Deputy Assistant Commissary General
Ceded District.
Bellary.

Sir,

1. Referring to my letter to Lieutenant T. Harris of 11th Ultimo and to his letter of the 26th of the same Month I have the honor to inform you that I think it expedient that the orders of Government contained in Minutes of Consultation dated 19th December 1849 directing that the Military Ab'Earry Farm be confined to the limits of the Cantonment, that the Ab'Earry beyond those limits be altogether under the Civil Power and that the sale of liquor in any village situated within five miles of the nearest point of the Cantonment be interdicted. Should take effect after the 30th April next, to which time I perceive from Lieutenant Harris's letter that the ab'Earry Sales within the Military Ab'Earry limits as at present existing are guaranteed to the Contractor.-

2. From the 1st of May therefore

J.

I shall be prepared to carry out the orders of Government.

3. In further reply to the said letter of 26th January I have the honor to inform you that it is my opinion that the Orders of Government directing that "all the abkarry beyond the limits of the Cantonment be altogether under the Civil power" make it imperative on me to undertake the management of the Toddy Topes beyond those limits.-

4 I have been collecting information respecting these Topes, and I see no reason to apprehend any injury to the Military Cantonment by the Transfer. Ithink arrangements may be made which will no wise detrimentally affect the Revenue now derived from them to Government, but the contrary, and in making those arrangements no facilities greater than those which now exist need be afforded to European troops to procure liquor.-

5. As regards the European Soldiery Lieutenant Harris has been pleased to observe "that any alteration" in the management of the Toddy Tope can "only be

"be for the worse for it is," he states, "impossible that they can be more efficiently "kept from them than they are now."

It is gratifying to hear that the measures now adopted have proved successful in keeping the Soldiery from the Topes. But why should not the same measures and even others if found necessary be adopted to attain the same end. I propose to adhere to a course similar to the one you find so efficacious and I have the honor to request you will be so good as to furnish me in detail with the Rules now in force effecting the object in view.-

But from the information I have on the subject I am led to believe that Toddy is by no means so much sought after by the Soldier generally as to make him commit a breach of discipline or take much trouble to get it. There may occasionally be an exception. It is arrack that he is most anxious to obtain, and this in a great measure may be one reason why it is so rare an occurrence that a Soldier is found in the Toddy Topes.

Besides

Fort St. George 11th March 1850.

Besides Toddy, compared with arrack, is not nearly so intoxicating or so deleterious a liquor and so detrimental to the health as Mr. Abraham says, it takes from one to five Gallons of Toddy to make a man drunk and has more the quality of Beer than of Spirits. A single bottle of arrack will make most men intoxicated, so that on the whole I am inclined to think that it will not be necessary to put in force any extraordinary powers to keep the men of the European Regiments out of the Toddy Topes. The present measures of allowing them to procure it at the Canteen and the usual exercise of Discipline will I believe obviate all fear on this score. But even admitting that great vigilance is necessary, I do not see why the Civil Authorities are not capable, by co-operating with the Military, to attain the end in view quite as effectually as at present.

I purpose therefore after the 30th April next to take these Topes entirely under my management and to let the privilege of drawing Toddy from them exclusively

Fort St. George 11th March 1850.

exclusively for the Garrison & Town of Bellary only. This I believe to be necessary for the supply of the wants of the Garrison with a comparatively wholesome beverage as well as for the manufacture of bread. To suppress the use of the Topes entirely would not only create great and unnecessary annoyance but be highly detrimental to the revenues of Government, for I am fully aware, that a very large revenue is derived from the use of Toddy quite independent of arrack, and tho' the loss by the new arrangement will be in the Commissariat Department, it will I believe be fully made up in the Civil Ab Karry Farm. The Military Ab Karry arrack Renter might become the renter of the Toddy or Tope, or the 2 Farms could be separated without any inconvenience I conceive; but, there should be a clear understanding on the part of the Civil and Military Departments on the subject, otherwise the Renter would be liable to loss. I therefore request your opinion on the subject. The Toddy Renter of the Tope would of course have to conform to the Military Regulations which being made clearly known to him

him he should in all other respects be left unhampered as at present.-

8.- By the new arrangement you will observe that no arrack or Toddy Shops will be allowed in the Civil Department within 5 Miles of the nearest point of the Cantonment Boundary. If you will feel disposed to offer any suggestions which may lead to the adoption of measures calculated more effectually to prevent smuggling and illicit sale within the intervening space I shall be much obliged by your doing so. That soldiers determined on procuring arrack can ever be prevented from doing so by the new arrangement I have no hope. They are means of prevention as far as they go, but with these arrangements properly carried out I think a well disciplined Corps cannot have great temptations.-

9. I would also be obliged by your opinion as to the minimum rate at which arrack should be sold, because I understand that to obtain it soldiers are willing to pay as high as a Rupee a bottle.-

I

I fear that with so great a premium to raise the present price would have little effect in keeping Natives from resuming many risks in procuring it for the men; but surely the Soldiers have not to any great extent and frequently the means of paying such a price for the liquor.-

10. Another point which seems worthy of consideration is, whether the Rules might not be beneficially introduced prohibiting persons within certain limits having even one bottle of arrack in their possession without giving good reason to show that it was not intended for the Soldiers. It is by single bottles which under the present Regulations cannot be prohibited. Smuggling is effected by and for the Soldiers.-

Extract from the Minutes of Cons. in the Military Department.

(Here enter 9th January 1850 No. 114)

Memorandum from the Commissary General.

(Here enter 29 - " - " -

Para 1 From the Memo: of the Commissary General above recorded, the disposal of the Military ab Karry Farm of the Bellary Cantonment appears, notwithstanding an avowed competition, to depend entirely upon the pleasure of the departmental Officer and the recommendation of irresponsible persons. The Right Honorable the Governor in Council considers this System to be irregular and open to serious objections. He is of opinion that the Farm should be put up to sale by public Auction, at least, one month before the expiration of the present contract. A notification should be published, some time before the Auction as is usual in the case of the Civil Ab Karry, stating the

the day and terms of sale, and the conditions to be observed by the party to whom the Farm may be granted. The sale should be held in the presence of the Brigadier Commanding the Station and the contract given to the highest bidder, provided that his Character be respectable and that the Security which he may tender be good and sufficient, in default of which the Offer of the next in order of the Competitors who may satisfy the Commissary General on these points should be accepted.-

2. It is possible that this course may not, at first, realize an amount of revenue equal to that now obtained, though the acting Collector of Bellary thinks otherwise; but the Governor in Council is satisfied that in principle it is the only fair and correct one, and he cannot understand how any other should have prevailed. Wherever a different System has hitherto been in force, either as regards the Arrack or any other Contracts, the Government desire that the Commissary General will take effectual measures for its discontinuance as soon as

as the present contracts shall have been terminated.-

3. Ordered that the foregoing Resolutions be furnished in continuation of Extract Minutes of Consultation 19th December 1849 No. 1210 for the information and guidance of the Commissary General, and the Board of Revenue; and that a Copy be furnished to the Military Department for communication to the Officers concerned.-

To,

J. B. Roupell Esqre.

Acting Secretary to the Board of Revenue

(27)

From the Collector of Nellore

Sir,

Recommending Rs. 72. 1-5 as a fair compensation for the alleged loss sustained by the Abkarry renter of Sooloorpett during the time he was prevented to sell arrack to the Natives during the halt of a Regiment in that Station.

1. I have the honor to acknowledge receipt of an Extract from the Proceedings of the Board of Revenue dated 18th June 1849, calling for explanation as to the amount of loss which might fairly be said to have been sustained by the Sooloorpett Abkarry Renter, in the 3 days during which his shop was shut, in consequence of the arrival and halting of an European Regiment.

2. Some correspondence between the Board and the late Collector having already taken place on the subject of Petitioner's claim, it will be sufficient for me to confine myself to the particulars regarding which information has been required.

3. The Circar Servants deputed to supply provisions for the Regiment, when questioned regarding the sale, or otherwise of liquor affirm that, the renter was forbidden to sell Arrack to the Europeans only

only, and that no restraint of any kind was put upon the sale thereof to Natives, while the Servants of the renter state that no liquor at all was sold; although it is now impossible to ascertain, which Statement is true, it is nevertheless very probable that the free sale of liquor was in some measure interfered with.

4. The Renter being unable to produce any accounts whatever shewing the particulars of his ordinary receipts and profits, I am in possession of no data on which to found an opinion as to what may be considered an equitable compensation for the loss alleged to have been sustained by the Petitioner, but beg to submit for the consideration of the Board, the following scale of remuneration calculated on the number of Native Camp followers (excluding European Soldiers) and on the consumption of liquor by one fourth of the whole body Viz: by one man in every four. The number of Native Camp followers is

is stated to be 3,160 one fourth, of which is 790 and the estimated quantity of liquor which they would have drank is as follows.—

On the 1st day after the march) at an average of 1/8 Seer or one dram per man or Seers 98 3/4

2/3rds of the above quantity on the 2d day (halting) or 65 3/4

Do — Do on the 3d day halting 65 3/4

Total Wt of Seers in 3 days 230 1/4

which according to the Circar price at Rs 7—5/5 per Seer is Rs 107 7 3

which according to the Circar price at Rs 7—5/5 per Seer is Rupees 107 7 3

Deduct value of ingridients for distilling liquor at 1—3— per Seer as per Petitioners' Statement ..... Rs 17 A 15 P 10

Servants wages as per account furnished by Do with his Arzee 10 10

From the rent Rs 1620 payable to Circar, deducting Rs 810 on account of stations Subrented by him the average rent of the remainder for this station for 3 days is 6 12

35 5 10

Net loss to the renter ..... Rs 72 1 5

The

5. The above sum, I think, may be considered a fair compensation for the alleged loss sustained by the Renter. It does not appear to me that he has established any satisfactory claim for compensation on account of prevention of sales to the Inhabitants.

6. The Board in their proceedings further call for explanation of particulars of any other claims for compensation of a character similar to the foregoing. Translation of a Petition dated 2d. May presented by the Renters of Survapully, Nellore, Sungam Talamuneed and Toomuttulpoor to the late Collector Mr. Smith was forwarded to the Board with his letter dated 28th. May 1849. It will be observed that these Renters did not put forth their claims at the time, they stated, they had sustained the loss but only after an enquiry into the first case had been ordered, and they have produced no accounts to prove their loss. The long time which has elapsed prevents the possibility

possibility of any correct enquiry being made now; but, if it should be considered proper to compensate them, I beg to recommend the scale observed in the foregoing instance.

7. The number of followers which accompanied the Detachment of H. Mts. 84th. Regiment was 80 of whom taking one fourth as demanding liquor the number is 20 persons. The Detachment appears to have halted six days in four stations as per margin.

Goodoor	2
Venkatachellum Chouttry	2
Allore	1
Codavaloor	1
	6

Allowing therefore one dram. per man per day for 20 persons in each station for the 1st. day & 2/3 2ds. the quantity for every 2d. day, they halted in each station 13 seers — 2½ drams which at 7a — 5 3/5p per seer is Rupees ——— 6 — 3 — 3

Deduct.

Value of ingredients at 1a — 3p — per seer ——— 1 — 11 — 7

5 — 2 — 8

8. This sum I consider sufficient remuneration and in the absence of all accounts, and under the circumstances

of

Fort St. George 11th. March 1850.

of the case as much as the renters are entitled to. The Renters state that their loss by prevention of sales to the inhabitants amounted to Rupees 30 — from this deducting Rupees 10 on account of servants wages and adding the aforesaid sum of Rupees 5- 2- 8 a total Net loss remains of Rupees 25— 2- 8 which I recommend may be authorized to be paid to the claimants.

Nellore District,—
Kristnapatam, ...
Collectors Cutcherry,
20th February, 1850.

(Signed) D. White
Collector.

27-28

Proceedings thereon;

Resolved that the letter above recorded together with the previous correspondence on the subject be submitted for the consideration and orders of the Right Honorable the Governor in Council.

Submitting letter from the Collector of Nellore reporting upon the claims to compensation put forth by certain Abkarry renters in his District for losses sustained by them during the Halt of European Regiments and recommendation thereon.

To Nellore 22d January 1849.
From Do— 21st March inclosing 16th April 1849.
Proceedings 16th April 1849.
From Do— 21st May inclosing 18th June 1849.
Proceedings 18th June 1849.

2. In reference to the loss alleged to have been sustained by M. Venkatachellum Arrack renter of Sooloorpett during the 2 days halt of H. M. 4th Regiment or "Kings own" at that station on the 21st 22d & 23d January 1848 it is stated that the Bullock Servants deputed to supply that Regiment with provisions

Fort St. George 11th. March 1850.

provisions affirm that the Renter was forbidden to sell Arrack to Europeans only, and no restraint was placed upon the sale to Natives, but the servants of the renter assert no liquor was sold during that period and the shops entirely closed. The Collector finds it impossible to ascertain which of these statements is true, but inclines to the opinion that the free sale of liquor to Natives was interfered with, and in para 4 he has framed what he considers to be an equitable Estimate of the loss sustained by this Renter.

Adverting to the claim of

3.

Abdool Cawn and others Arrack renters of the five Talooks of Nellore, Surrapully Sungum, Talamunchy, and Toomuttulpoor, for compensation for an alleged loss sustained during the halt of a Detachment of H. M. 84th Regiment for 6 days in December 1847 at 4 different stations within their division, the Collector points out that this claim was not put forth at the time that the loss was stated to have occurred, that the claimants have also not produced

their

Fort St. George 11th March 1850.

their Accounts and that the long time that has elapsed prevents the possibility of any accurate enquiry being made. He however suggests if it be deemed proper to compensate them that the scale suggested by him in para to be applied in this case and he has, in paras 7 & 8, specified the particulars of the loss which he conceives these renters might have sustained.—

4 The compensation proposed by the Collector in both instances falls short of the sums claimed by the respective Renters but appears to the Board to have been fixed as equitably as circumstances permitted, except that they see no reason for the deduction of £. 12— from the 107—7—3 gross value of the arrack (para 1 Collectors letter) since the Renter paid rent for those 3 days as well as the other 363, and they therefore beg to recommend that authority be granted to the Collector to disburse on the above account to M. Vencatalulchmiah Arrack renter of Sorlookpetta Rupees 78—13—5. and to Abook Eawn and his Joint Arrack renters of Nellore Rupees 25—2—8 in full of their respective claims.—

29

From the Actg Collector of Bellary

Reporting in reference to the Board's Proceedings of the 6th August 1849 that the Rajah of Anagoondy is unwilling to undertake the Trust of the Rumpee Pagodas on Terms required and proposing 2. Joint Trustees should be appointed for 5 years to be selected or not by the Sabha after that time and pointing out the inefficiency of the present Sabha and proposing that it be remodelled by selecting other respectable parties to form members of it from among the community generally—

Sir,

The Board having in their Proceedings of the 6th August 1849 expressed their opinion that the Rumpee Pagodas and their endowments should be made over to the charge of the Rajah of Anagoondy who should be required to execute an agreement similar to that entered into by Rungaraaz and who should be at liberty to employ for the immediate management of the institutions any Agent whom he may prefer.—

2. I have the honor to report that on the receipt of these instructions I lost no time in communicating the views of the Board to the Rajah of Anagoondy, but after several references and considerable delay I am informed that the Rajah is unwilling to enter personally into any agreement of the nature referred to— but is willing to nominate an agent to whom the whole

management

management is to be entrusted and who alone shall enter into the requisite agreements.

3. This arrangement will not answer the purpose. The responsibility will fall on the Rajah's agent and not on the Rajah and there will be no security that the affairs of the Pagoda will be properly conducted. The Rajah will in all probability nominate Runga Rauz whose late management has been so much complained of. The community moreover, generally, are I think unwilling to have the Rajah as head of the affairs of this Institution while his uncle Rungarauz has the immediate management.

4. Under these circumstances I have been obliged to seek for some other Trustees; and two persons have been brought to my notice to whom the Trust might be committed without objection. The 1st is the Principal Priest Sankara Bharaty Swamy or as he is generally called Veerapachaswamy of the Sevas religion, whose immediate interest in the

the Pagoda is paramount to any other. This Priest has a Muttum annexed to the Pagoda itself. He is an hereditary Priest of very old standing. He is not resident but has his Ministerial Officers such as Sur Subadar, Muttum Parputtagars &c. constantly residing at the temple, and he will nominate a proper agent for conducting the immediate duties of the Pagoda during his absence. He has also large Enams in various parts of the District amounting to several thousand Rupees besides lands in other parts of the Company's and other Territories. another Person is one Chintapah son of Subadar Sevapah a Jahgeerdar of Rooradaguddah in the Roodleghee Talook of this District situated about 8 miles from Bumpee. This man has a small Estate of about 1000 Rupees per annum and is a man of some influence and otherwise unobjectionable.

5. I propose therefore that these two persons Viz.t Senkarnbharaty Swamy and Chintapah should be nominated as Joint Trustees for the Pagoda and

enter-

enter into the requisite agreements, securities &c.

6. I think that this arrangement should remain undisturbed for a period of 5 years. That the Sabah (to be remodelled) should then have the power of re-electing them or electing other Trustees. This would give more security that the interests of the Community were attended to.

7. The Sabah as at present composed consists of 21 very poor Brahmins sought out from a few Villages in the immediate vicinity of Rumpee. They are quite insufficient and I am decidedly of opinion that the community who are deeply interested in the prosperity of this Pagoda should have a more efficient body to represent them and look after their interests. I would therefore propose that a body of men of different religious persuasions who are all interested in the Pagoda and who have some influence from wealth or character should be allowed to form a Sabha. I would include among them the

i

Rajah

Rajah of Anagoondy and the Rajah of Soondoor if they are willing to be members. The only question is whether the Board would positively exclude all public servants of the Government, whether in the Revenue, Judicial, or Military Departments from forming part of the Sabah, upon which point I request their instructions.

8. I am sure this arrangement would be far more acceptable to the people generally than the present arrangement, which I think was made under erroneous impressions. It has not answered and as the Rajah of Anagoondy now refuses to take upon him the Trust upon the requisite conditions. I think a favourable opportunity offers itself for making a new arrangement on a basis which I hope will render hereafter all interference on the part of Government unnecessary.

9. Should the Board be pleased to concur in opinion that the Institution may be safely entrusted to the two respectable

persons

persons abovementioned I request I may be favoured with their orders accordingly.-

10. I have at the same time to report with reference to the 2d Para of the Board's Proceedings now under reply that Rungaraw and his security have not yet made good the balance of the property of the Pagoda originally confided to him amounting to Rupees 3,033-12-. as reported in my former letter. But I have again called upon him to do so when the Pagoda is transferred to other hands I shall of course peremptorily require the property to be given up.-

Bellary District,
Collector's Office on Circuit
Adonie, 11th Febuary 1850. } Signed/ C. Pelly
Acting Collector

P.S.

I should add that I have not yet consulted the parties proposed for Trustees, but if the arrangement is approved of, I have little doubt but that they will undertake the Trust.

/Signed/ C Pelly
Acting Collector

Ordered

(29-30)

Order thereon, Under the circumstances brought to notice in the above letter, the Board of Revenue request that the Acting Collector will ascertain the wishes of the parties interested in the concerns of the Annupee Pagoda, and if there is no objection on their part that he will cause the 2 individuals mentioned in his letter to be nominated Joint Trustees of the Pagoda, on their entering into the requisite agreements and Securities.-

2. The Board see no objection to the arrangement proposed in paras 6 and 7 of the Collector's letter

should

should it meet the views of those so concerned. with this exception, that the Public Servants of Government must be excluded in accordance with the orders of Government contained in Extract Minutes of Consultation 3d June 1842. forwarded to the Collector of Bellary 13th June 1842.

3. When the transference of the Pagoda is finally settled, the Acting Collector will report the same to the Board of Revenue and measures will then be taken, if necessary, to oblige Runga Rauz to make good the balance of the Pagoda property confided to him.

To J. B. Ronpell Esqre
Acting Secretary to the
Board of Revenue
Fort St. George.

31

From the Collector of North Arcot. Dated 1st

Solicits a declaration of the meaning of Regulation VII of 1831 as to whether or not it extends to permanently Settled Talooks

Sir,

Section III Regulation VII of 1831 transfers the decision of claims to Hereditary Offices in the Revenue and Police departments, and to their emoluments, from the Civil Courts to the Collectors, and Section VII of the same Regulation places these offices under the Collectors, who is empowered to suspend or remove them for sufficient cause. The terms of these enactments are universal, and certainly appear to include districts, or parts of districts, permanently settled, as well as those under a Ryotwar Settlement and Section VIII, which specially excepts from the operation of this Regulation the office of Curnum in settled districts, tends to confirm this view of its universal extent as respects the Offices not so excepted.

2. It has however been the practice in this district to leave the control and nomination

nomination and removal of the Village and other Hereditary Offices above referred to, in the permanently settled parts of the district entirely in the hands of the several Zemindars and Poligars. This state of things is found to interfere very much with the efficient administration of the Police of those parts of the district. In most of the Zemindaries and larger Poliams crime abounds, and I ascribe this in great measure to the inefficiency of the Village Police. The Monigars are continually liable to dismissal or change, and meeras claims are little regarded, the Renter for the time being often made Monigar, they have no inducement to activity in their Police duties, as they consider their emoluments to be all received for those of a Revenue nature. The Talliarries and toties also are equally remiss and very many of them are themselves thieves and robbers.

3. I cannot hope for any material improvement in the Police, or diminution of crime, while things remain on their present footing as regards the control

control of these officials, and it certainly appears to me that the Regulation quoted above does empower me to interfere. as the practice of the district however has hitherto been different, I hesitate to act on my view of the law, till it is confirmed by competant authority, and I now address the Board in order to obtain an authoritative declaration of its meaning; Viz. whether Regulation VI of 1831 does not does not extend to permanently settled Talooks.—

4. Should I find that it does I should not wish to exercise any violent interference with the present possession of Officers in the Zemindaries, or to entertain the claims of parties now out of possession— My first proceeding would be to obtain an accurate Register of the present holders of these offices, and I should consider it necessary to exclude men of known bad character and for the future I should exercise the power of dismissal or suspension for neglect

Fort St. George 11th March 1850

neglect or misconduct in Police duties, and should consider it right to attend to the Zemindar's recommendation of removal or suspension for neglect of Revenue duties, in the same cases in which it would be considered proper in Ryotwar Villages. It would also be my duty under the Regulation to sustain the legitimate rights of Mearasdars, and also to prevent the resumption of the customary endowments of various Offices.—

5. Any interference of this kind would indeed be very

Fort St. George 11th March 1850.

very distasteful to the Proprietors: but I do not think that it would at all compromise their just rights or their legitimate means of managing or collecting their Revenues, while it appears essential to the suppression of crime, that those who have the superintendence of the Police, should have some power over its Subordinate Officers.—

For Ft. St. George 11th March 1850.

4. In the number of Olungo pented Villages an increase is shewn of 167 Villages, resulting from the accession of 20 Villages from Amany and 129 from Board's rent, and the reversion of 2 to the former heads 16 Villages being rented for the full Olungo Berijzand 100 at reduced grain, amounts as sanctioned by the Board in their communication of 29th August 1849.

5. Of the 148 Villages and 1 Garden under Board's rent for Fasly 1257. 129 Villages have been carried to Olungo, 1 Garden to "Olungo pent not affected by prices," and 19 Villages have reverted to Amany there being no Board's rented Villages during the Fasly under review.

6 In the number of Cadamumbum Villages an increase of 4 and 1 Garden is shewn arising from the addition of this Number from Amany and 1 Garden from Board's rent.—

In

8. In the extent of land cultivated during the year under report there is a gross increase of 1,348 Valies though the net increase is reduced to 1,271 in consequence of reduced cultivation in Sitrapoondy and Mummargoody to the extent of 77 Valies from various causes.

In consequence of the favorable nature of the season at its Commencement Ponjey and Bagayet Cultivation has increased to the extent of 345 Valies above that of last year, though the crops subsequently suffered for want of rain.

9 The following Statement regarding the Produce of Ammany Pt. 1 pages exhibits a falling off of 11 7/16 per Cent below that of last year being 6 5/16 per cent in Car grain and 13 1/16 p.c. in Cumbu per annum.

The rains of April and May are said to have done much harm to the land by soaking it thoroughly

thoroughly at a time when it should be dry and cracked to admit the deposit brought down with the early freshes, and further damage was done to the productiveness of the Peshanam crops in particular from the want of showers at a time when the ears were coming out and upper rain much required to fill them well. The Monthly reports shew that scarcely any rain fell after the early part of November, till March by which time all the Crops were cut.—

10 The Marginal Statement shews the prices of the year as Compared with those of 1257 there being a decrease below the Standard of 20/16 per Cto and 16 7/10 below those of last year

year. Owing to the disturbances in Ceylon and the return of Numbers of Labourers from the Coffee estates, together with the importation of arracan rice, the demand from Columbo has been very irregular, and for a time altogether ceased, thus throwing an immense quantity of rice into the Tanjore Market for which no Consumers could be found inland, as most of the neighbouring districts, from the favorable nature of the season were independent of supply from without.

A subsequent demand after the close of the Fasly put the prices up a little, but the profit on the sales fell chiefly to the merchant and not the Ryot he having disposed of

Fort St. George 11th March 1850

of his grain at a time of
when prices were low; but
money urgently required to
meet the Current demands
against him.

11. In the land revenue
Deriz of the Taluq under report
there is a net decrease of Rupees
11,7048 resulting from a gross decrease
by price and other causes
of 17,063 and increase by
extra cultivation &c.
30,015. The proportionate decrease
in the Cash fees is 5178 &
arising from a gross decrease
of 6185 and increase 1007.—

12. The total amount of
remission granted for wasted, destroyed Crops
and short produce is Rupees 47585
and a Talookwar Statement is submitted
according to the direction of the
Board in para 8 of their
Proceedings under date the 21st May.
The total amount remitted though
it is less than that of the previous

Vide appended Statement No 6

† By the lowness of Prices — Rs. 17,904.
By other causes short produce &c — 6,159.
Total — 17,063
Deduct Increase — 30,015.
Net Decrease — 11,7048.

Vide Statement No 7. Appended.

D.S.

June

five years with the exception of 1256 (when both
the prices and the season were more favorable)
may stricke the Board as large, when compared
with the generally favorable nature of the season,
but as a set off against the regular river
supply was the failure in the produce very
generally for want of rain, and the continued
depression of the prices throughout the district,
causes, which compelled the Ryots to seek
for indulgence in many instances,
which under more favorable circumstances
they would not have claimed, or would the
Collector have considered it necessary
to grant remission where the losses were
trifling in comparison with other profits:
Such however has not been the case in the
year under report. All claims for re-
mission have been duly considered and
the indulgence granted where it was
justly deserved.—

13. The low lands of Heevalore
situated on the borders of the large Swamp
have this year been flooded to a consi-
derable extent and the crops either
entirely or partially destroyed, which

Accounts

accounts for the large amount of remission observable in this Talook.-

Measures are under contemplation for the better regulating of the surplus em water from the west, which joins the Her : chendrauuddy, and endangers the low lands in the vicinity for want of water : way. The proposed works promised to answer the end desired though owing to the nature of the levels it will be difficult to ensure an unchecked drainage at all seasons.

14. The revenue derived from all sources for the Fusly under review is Rupees 40,38,782, being 1,90,605 Rupees below that of the preceding Fusly.-

Vide Statement No. 8 appended

15. Collections of land Revenue during the Fusly under report were Rs. 37,34,647 and of the balance 15,538 Rupees have since been realized and the balance left on the 1st. November is Rupees 14,312. of which the whole is realizable with

with the exception of about 5,000 Rupees, and for the recoverable portion the usual measures will be adopted.

Vide Statement No. 9 appended

16. Collections on account of old Balances during the year are Rupees 22,883- Rupees 19,533. being on account of previous Fuslies.-

Do. 17 Tuccavy advances made for the Fusly under report were Rupees 25,350 of which 24,994- were recovered within the Fusly, leaving a balance of 356 Rupees which has since been realized.

In

18. In the foregoing Statement I have exhibited the result of the Settlement made in hitherto Amaany villages at a reduced grain demand and I trust on the whole the Board may consider the arrangement satisfactory. In obtaining the consent of the land holders to abandon the Amaany System objections of all sorts were to be met and answered, and no pains have been spared to arrive at the real condition of the lands in comparison with the grain demand fixed on them, and though perfect accuracy could not be expected, I feel confident that the interests of Government have been fully protected and no unwarranted sacrifice made in the reduction allowed from the original Olungoo Standard, either in the extent of land struck off as unfit for cultivation or in the reduction of an excessive grain demand. By reference to the Statement it will appear that the Beriz fixed for the future on Punjy lands newly Olungoo rented

rented, although 17 3/8 per% below the standard of 1257 is 3 1/2 above the average Beriz realized during the 10 Years from Fusly 1247 to 1256, and 5 5/16 above that of the highest year. Including Poonjah the Beriz now settled tho' 17/8 below the standard of 1257 exhibits an increase of 25/4 above the average of ten years.—

19. In my letter and the Note book which accompanied it to the address of the Board under date the 27th September 1848 the method of arranging the future demand on the Amaany villages was explained as well as circumstances beyond any fixed rule would admit, and alth' the Board did not in all instances concur in the apparent propriety of the reduction made, I have been unable to come to any other terms with the parties who would not listen to an increase on the amount they had with difficulty been persuaded to agree to, and I have consequently left them as originally settled.—

20. The greater number of the Villages are bound by agreement to act up to the rent they have accepted until

Fort St. George 11th March 1850.

until any other settlement may be made, while others could not by any persuasion be made to agree to an unlimited change, and from such agreements have been taken binding them for a certain number of years varying from 1 to 7.

21. Statements Nos. 11- 12- and 13 are submitted shewing the annual collection from fasly 1245 the yearly demand Collection balance from 1232 and the extent of land and bariz of field assessed villages for 16 years from 43 to 58- and the Marginal Statement exhibits an abstract of that statement called for in the Board's Circular of the 2d July 1849 relative to the rent rolls of the land holders, the amount of Rist paid by those rated from

from 1000 and upwards bearing the proportion of 7½ per son the aggregate payment of all the other meerasidars-

22 In the Cadarumbum Villages of Immanagoody Rupees 300-11-9 have been struck off the demand in consequence of the lands assessed at this amount having been for a series of year waste, the originab owners being either dead or deserters, the re-entry of these lands in the Immahbandy answering no purpose whatever, the greater part of them being bona fide without owners and the remainder deserted. Should the absent owners ever return, their claims to resume the lands will be considered but in the mean time they will be rented to any who will undertake the cultivation for a term of years and the meerasidar precluded from all interference should he return during the period of the rent, which has been resorted to in consequence of his desertion only

23. The lands in Tranquebar in

Fort St. George 11th March 1850.

in Fusly 1255 were harvested under cu-
-mmany according to the Danish usage
and in the succeeding Fusly Sir Henry
Montgomery rented the lands on a grain
amount fixed with reference to the
outturn of 1255, the average of the
previous ten years produced, and the
condition of the lands.- In 1257 the
same rates were observed and the
Inferiorsidars have been persuaded to
agree to them for the future, a stand-
-ard price having been fixed with re-
-ference to that of the neighbouring villa-
-ges as shewn marginally.- The
increase of 4 Cash above
the rates of the neighbouring
villages made in the price
fixed for Tranquebar is in con-
-formity with the practice hitherto
observed, the proximity of the
Sea port reducing the charges of
Carriage for export. The annexed

D.D.

Statement

Fort St. George 11th March 1850.

Statement exhibits the comparison of produce on
which the future rent is based shewing an
increase of 13 5/16 per % above the ten years averages
though a large decrease as compared with the
highest and second highest amount of grain
ever produced in the Talook. At first sight
it would seem that the proposed rent is
disproportioned to the productiveness of the
land, but it must be remembered that the
amount of gross produce entered in the second
Column is not the produce of any one year;
but the aggregate highest amounts derived
in different years from the several Villages
and thus lumped together - So that, as a
comparison to guide the estimate of
general annual produce it is little
worth, the total result having been
gathered from the most favored rates of
produce during 10 years - The Column exhibiting
the lowest amount of gross produce calculated
on similar data is also exhibited for example,
as are the rates per Vaily on the neighbouring
Maganums of Paralum Talook, which are
less by 3 and 13 than that fixed for
Tranquebar.
