8277 Fort St. George 13th June 1850.

No Diary.

At a Meeting Present.

Thursday 13th June 1850 } G. D. Drury Esqre Senior Member
} J. Goldingham Esqre Third Member

Walter Elliot Esqre Second Member

. absent on duty as Commissioner Northern Circars.

Minutes of the last Meeting read and approved.-

Read the following Extracts-

(1)

From the Secretary to Government- Containing the observations & orders of Govern[t] on the Board's Proceedings reviewing the Papers which have been passed since 1805 respecting the remuneration to Village Taliars in the Southarcot District and calling for further information with a view to some definite arrangement being established.-

No 509.

Extract from the Minutes of Consultation Under date the 21st May 1850-

Read the following Papers.

Extract from the Proceedings of the Board of Revenue - Fort St. George under date 21st January 1850 No 28/

* * *

Para 1 In the foregoing Proceedings the Board of Revenue review the Correspondence that has passed since 1805 respecting the remuneration assigned to the Village Taliars in the District of South Arcot and solicit

Solicit instructions in regard to the general principles on which the proposed revision of their emoluments should be carried out.-

2. It appears from these papers that the Village watchmen of South Arcot have remained, with the exception of a limited number, very inadequately re-=munerated almost from the earliest possession of the Province by the British Government, that the necessity of an early remedy has been urged from time to time upon the attention of the Board of Revenue but that nothing has been done up to this date.-

3. In 1807 the Government sanc-=tioned the grant of a monthly salary of 2½ Rupees each or Rupees 30 per annum to 362 Taliars who had previously been altogether without remuneration, but no steps were taken towards improving the condition of the other Village Servants of the same class who were in the enjoyment of some emoluments, however inadequate.- The number of Taliars receiving the above salary has since been increased to 394;

para 5 Bd's Pro:-

Statements No. 1 & 2 submitting with the Collector's letter 22d January 1846.-

the amount annually disbursed to them being Rupees 11,820. There are other Taliars, 41 in number, who receive money payments at various rates, some in addition to fees, and some in addition to rent free lands.- The total amount paid in money is Rupees 12,780. the number of recipients being 435. The number given by the Board is 426 or 9 less, an inaccuracy in which they seem to have been led by the heading of Column 8 in Statement No. 1 attached to the Collector's report, as the total of that Column Rupees 12,780 divided by Rupees 30, gives the number 426 represented by the Board.-

4. From the Statements submit-=ted with the Collector's report of the 22d January 1846. it appears that the number of Villages in the District is 3253. Of this number 319 Villages are without Taliars and without any means of remunerating them, and there are 71 Villages to which are attached 53 Taliars, but without any allowances.- Among the rest of the Villages 2863 in number,

para's 32 & 34

Villages
3253
319
2,934
71
2,863

number, there are 2,757 Taliars who are in the enjoyment of some emolument.-

5. Deducting the 394 Taliars distributed among 266 Villages who are severally in the receipt of the Salary of 30 Rupees per annum above mentioned, which is proposed as the Standard of remuneration to which the rest should be brought up, there remain 2,363 Taliars distributed among 2,597 Villages whose allowances require revision supposing it to be necessary to make up the number of Taliars to the number of Villages and taking 30 Rupees per annum as the Standard, the amount will be Rupees 77,910.-

Villages	Taliars
2,863	2,757
266	394
2,597	2,363

2597 × 30 = Rs. 77,910

6. The present provision for the Taliars in these Villages consists of

Manium lands bearing an assessment.-
in account of Rupees - - - 28,440-11-6

Commutation for Sotuntrums or fees as per account of Fusly 1253 Rs. 11,653-3-7.

Total Rupees — 40,093-15-1.

para 32. But the Board of Revenue reckon that 2/5ths of the land is unfit for Cultivation. The remainder assessed at Rupees 17,064 is assumed

assumed to be available, which added to the fees makes up Rupees 28,717. a sum that if equally distributed among the existing Taliars, would give an average of 12 Rupees to each - This sum falls short of the amount required for the adequate remuneration of the Taliars as above stated by Rupees 49,193 per annum.-

Rs. 77,910.
28,717
Rs. 49,193.

7. Further, for the 71 Villages in which 53 Taliars are now employed without any allowance to complete the number of Taliars and to provide for them at the Standard proposed, Rupees 2,130 will be required, making a total of Rupees 51,323 for these two Classes of Villages.-

71 × 30 = 2,130

49,193 × 2,130 = 51,323.

8. There remain the 319 Villages which are all without Taliars and in which there is no allowance whatever for this description of Servants. It is probable that many of those come under the description of "depopulated Villages" for which Taliars are not needed. According to Statement A. enclosed

para 24.

enclosed in the Collectors report, the number of such Villages is 312. But the Board have some doubt whether this is correct, and have called for more exact information. For the present therefore these Villages may be left out of the Calculation

9. While it is proposed to make 30 Rupees per annum, the amount of salary allowed partially by Government in 1807 the standard for the remuneration of the Taliars generally; it is not recommended that this remuration should be given by a direct money payment; but by the assignment to the Taliars of cultivable land assessed at that rate, to be held e free by them on the condition of their performing the requisite services. The Board have not reported upon the effect of the measure first adopted in 1807 and since followed up to some extent, whereby money salaries at an uniform rate have been granted to a certain number of Taliars. The Governor in Council is therefore without the means of judging whether this mode of remuneration has

worked well in practice, and he is desirous of receiving full information upon this point. If it has, looking to the advantages which appear to be incident to this method of remunerating Village Servants, as insuring them a fixed and certain reward for their services, unaffected by vicissitudes of season or other causes, as enabling them to give their time more fully to the discharge of their publice duties, and as affording the Superintending authorities a more prompt and effectual means of punishing neglect and inefficiency, the partial extension of the system seems to the Government to deserve attention. It has occurred to the Governor in Council that a portion of the remuneration to be newly allowed. Say one third or 10 Rupees per annum, might be given in money in all large Villages, or those where the duties of Taliars are particularly heavy. The Board of Revenue will take this suggestion into their consideration, and report their views regarding it, stating in the event of their approving the modification, the extent to which it might be carried

Fort St. George 13th June 1850.-

carried, and the additional money outlay which it would involve.-

10.- The rate of 30 Rupees per annum which the Government agree with the Board is a fair standard, is proposed as the average rate not the actual allowance to each Taliar, which the Board explain will in some measure vary according to the nature and extent of his charge. They propose contrary to the opinion of both the Collectors Mr. Ashton and Mr. Davis, that there shall be a Taliar to every Village, and two or even three in very peculiar cases where the Villages may be of considerable size and revenue. It seems however to the Governor in Council that the allowance of every Taliar should approach near the standard rate as it is so low that it will not be an inordinate remuneration to a Taliar in any case. If the service of one Village will not give a Taliar sufficient employment, the Government perceive no objection to another being added

B. Pro para 22.

Fort St. George 13th June 1850.

to his charge, provided that the Villages are contiguous and other circumstances favor the arrangement; when the service in any Village is unusually heavy instead of increasing the remuneration of the Taliar, it will be better to relieve him by the appointment of an Assistant. The Governor in Council however does not see how one Taliar can be allowed to every Village and two or three to some as the Board propose consistently with their principle of making the whole number of Taliars correspond with the number of Villages in a condition to require the services of that Class of Officers.-

11. The Government agree with the Board that the Taliars who are in the enjoyment of the fixed salary of 30 Rupees per annum should be allowed to retain it instead of receiving a grant of land, But the Board seem to be in error in stating the number to be 426 as.- before observed, the number paid at

B. Pro para 36.

33 Sotuntrums & Salary 8 Maniems & Salary

at this rate without any others allowance is 394, there are 41 besides who receive a money allowances at various rates in addition to Sotuntrums and Maniems 12. The Board propose that all Sotuntrums shall be at once resumed, except where they may equal or exceed the rate of remuneration fixed for the Village, in which case such portion as may amount to that rate will be continued as a fixed money allowance and the excess resumed. It does not appear to the Governor in Council to be advisable to resume either the Sotuntrums or the smaller money allowances, when the amount is less than the standard, any more than where it is equal. If they approach pretty near to the standard say 24 or 25 Rupees there would seem to be no occasion for making any change, where the deficiency is greater, the difference may be made up by a grant of land. The Government would here desire to be informed whether

whether the Sotuntrums have merged in the Assessment or are collected separately from the Ryots and disbursed to the Taliars from the Treasury.-

para 36.- 13. The Board further recommend that all allowances in land or fees above the Standard to be fixed for each Village, shall be resumed. For the reasons stated in para 33 of their Proceedings this measure seems to be necessary to compensate for the additional Charge required to raise to the Standard rate the allowances of the Taliars now inadequately remunerated. The Government would however suggest that the reduction be subject to certain limitations; for example that it should not have effect where the excess is not more than 10 per Cent above the Standard. In carrying the arrangement into effect every consideration should be shewn to existing incumbents and as the Board suggest, advantage should be taken of all opportunities that offer of alleviating the loss to the families upon whom the retrenchment falls.

Fort St. George 13th June 1850.-

falls, as by appointing a Member of the family to a Village where no Taliar is at present entertained, or by employing him in the same Village where more than one Taliar is required.- In some special cases, as where the party has no other means of livelihood, the excess might be allowed to continue for the life of the incumbent.-

14.- To make the arrangement effectual it is necessary that the whole land to be held by the Taliar should be productive, and a Taliar whose present Manium is wholly or partly unfit for Cultivation must be allowed to exchange it for better land. It will however require the careful superintendence of the European Officers to give full effect to this measure, which should not be left wholly to the local Revenue Officers and Heads of Villages. It may deserve consideration whether the

Fort St. George 13th June 1850.

the Taliar to whom land may be newly granted should not be allowed the option of exchanging it within a reasonable time, say three years, for other land of equal value, if so disposed and it is to be clearly understood that the land to be assigned is not to be necessarily waste land unless there be no other available; but Bhayeal may likewise be given, provided the occupant be willing to surrender it for the purpose.

* or land in course of Cultivation

15. It has been already stated (paras 6 and 7) that to bring up the remuneration of the Taliars to the standard proposed in 2597 Villages and to afford remuneration to the Taliars in 71 Villages at present without any allowance, it will be necessary to make assignments to them of lands assessed in the aggregate at Rupees 51,323.

16 It remains to be considered what set off there is against this charge. In para 25 of the Board's Proceedings a

Resumed Cavil income of the Woodeapolliem Poligar Rupees 18,000
Cavil emoluments of other Poligars in Nunnargoody and Chellum Taloks Rupees 8200

a Statement is given of resumed Cavil lands and fees the value of which is assumed by the Collector at Rupees 32,384 per Annum These sources of income are however cut down by the Board to Rupees 18,200 per annum which they take to be the full eventual value of them, on the lapse of certain allowances with which they are at present charged, one of the items they reject altogether viz. allowance to the Woodiarpollium Poligar in lieu of resumed lands and fees in the Vurdachellum Talook, which has lapsed to Government But it seems to be as proper to include this item in the calculation as to reckon, as the Board do, upon the allowances with which the resumed Cavil incomes above mentioned are at present charged, when they shall eventually lapse. The Government think therefore that the sum of Rupees 910 for this item may be added to the

para 32

para 26

T. Pl 910—2.5

above amount making Rupees 19,110—

para 28.

17. Another available resource pointed out in the Cavil income at present enjoyed by Audeyuppah Sooria Nunderry derived from the Villages which constituted the Mangalore or South Arcot portion of the Rungenguddy Jaghire formerly held by the family of Audeyappah— This as well as the other portion of the Jaghire was resumed at the death of the Jaghiredar in 1816 and together with two Villages which had been enjoyed by Audeyapah as Mocassa under the Jaghiredar Those Villages were restored for his life, but no notice was taken of the Cavil fees

para 30

para 38.

It would appear however that the fees were actually Collected by the Government Officers from Fusly 1213 to 1247 and yielded on an average Rupees 2299 per annum— It is said the Collections were held in deposit on account of the refusal of the Poligar to draw it, but it does not appear why the Collection was made by the Government Officers

nor

nor why the Poligar refused to receive the amount Collected—

18. The family which formerly held the Pollium of Mangalore having long ago been ousted, and the tenure of the Jaghiredar of Runjenguddy in which it merged having terminated in 1816, the title of Audeyapaliboonia Pundary to collect the Cavil fees of Mangalore as the representative of the old family, would seem to be altogether groundless, and equally groundless his title to hold the Punnay or Cummatum lands of the family—On this view of the case the Governor in Council would be prepared to accede to the Board's proposition to resume the Cavil fees and the Punnay or Cummatum lands of the Poligar of Mangalore, granting him an allowance of 15 per Cent of the average income thence accruing; but considering his long undisturbed enjoyment and the age at which he has probably arrived, it may perhaps

para 30.

be advisable to allow him to retain the fees and lands for the remainder of his life. The Board will give their opinion on this suggestion. The Government desire also to have further information about the collection of the Cavil fees by the Circar for a time and the grounds of the Poligars refusal to receive them also whether they are still Collected by the Circar Servants, and if so, paid over to the Poligar or kept in deposit or if he now receives the Collections, & when and for what reasons his refusal was withdrawn—

para 32

19. If this income be resumed the Board calculate that it will eventually produce 2,000 Rupees per Annum—

para 31 & 32

20. Further the sum of Rupees 2,000 is expected to accrue eventually from Cutbaddy lands to be resumed as lapses occur. This measure was proposed, it appears, by Mr. Ravenshaw as far back as 1804 but was not acted upon till lately. Now it is said

said to be usual to resume these
mamiems as lapses occur, some in-
=dulgence being shown occasionally
to the families of the last incum-
=bents when their circumstances seem
to require it. The extent of those o
mamiems in 1829 was Cawnies 4050
the full assessment thereon, being Rupees
17,658, but only Cawnies 1080 were cultivated
bearing an assessment of Rupees 5705 o
half of which was payable to Govern
=ment as Quit rent. The Board, it is
observed have called for a State-
=ment of these lands as they now
stand.

21. Supposing all the sources of
income pointed out to be fully available
at the Estimate of the Board as a set
off against the proposed charge, the
aggregate amount would be Rupees
23,110 against Rupees 51323, leaving a
Rupees 28,213 to be provided by the state
gratuitously. It seems to the Governor
in Council that this would be moderate
charge for the great advantage which
might

Rupees 10,000.
8,200.
910.
2,000.
2000.
23,110.

might be expected from rendering the
establishment of Village Watchers efficient.
Exclusive of the obvious propriety and
advantage of this arrangement, there
can be little doubt that whatever may
be the first apparent demand on the
Public Treasury the result will in the
end prove a measure of economy by
the improvement of the country under
some fixed system, for the Governor
in Council cannot divest himself
of the impression that the Talairs
who are believed to serve without
remuneration are paid from some
unauthorized and improper source
which presses on the people.

22. In regard to the other subject
treated of in paras 13 to 15 of the Board's
Proceedings, Viz, the better remuneration
of the Village Moonsiffs in South arcot
the Governor in Council deems it un-
=necessary to record any observations, as
the Board do not for the present advise
any additional provision for this class
of Servants.

The

23. The Right Honorable the Governor in Council cannot close these Proceedings without observing that the present is one of the many instances which have recently fallen under his notice of the evil effects of allowing questions which have once come before Government to be lost sight of and thus postponing to an indefinite period the final consideration of measures no less important to the welfare of the people than to the interests of the state. He therefore earnestly trusts that the Board of Revenue will steadily & perseveringly carry out the intention announced in the Concluding para of their Proceedings, by obliging the Collector to furnish as practicable the information which is still required to enable this Government to apply to the Government of India for sanction to making a complete and definitive arrangement. The Board will name the Talooks in which the Collector is to

to commence his enquiries, and the rotation in which he is to take them, and they will further authorize him to remove any servants of whatever class or description who either throw impediments in his way, or do not afford him the assistance they are bound to render.

(1-2)

Proceedings thereon.

Resolved that Copy of the foregoing Extract from Minutes of Consultation, be communicated to the Acting Collector of South Arcot, with reference to the Board's Proceedings dated 21st January last.

2. In submitting his reply to their Proceedings quoted above, the Acting Collector will notice the several suggestions and observations of Government contained in the Minutes of Consultation now transmitted to him, and he will at the same time furnish the information called for in paras 9 — 12 & 18.

3. Mr. Bird's particular attention

is called to para 23 of the orders of Government, and with reference to the latter part of that para the Board would suggest that the Talook of Trivady be selected to commence his enquiries, unless any particular obstacles should present themselves, in which case he will at once name, for the Approval of the Board, any other Talook which may appear more suited for the purpose—

Read the following Extract from the Minutes of consultation in the Military Department—

No. 1699.

Extract from the Minutes of consultation Dated 7th May 1850.

Read the following letter from the Military Board—

Here enter 27th November 1849.

Para 1. The Right Honorable the Governor in Council in order to obviate all misconception on the question submitted in the foregoing correspondence, is pleased to lay down the following explanatory rules, in substitution of paragraphs 7 & 8. of Minutes of Consultation 18th November 1848. No. 4733—

1st The Superintendent of the Gun Carriage Manufactory is to be furnished by the Military Board with a list of the several descriptions of wood authorized by Government to be used in the manufactory—

2nd It will then be the duty of the Superintendent to indent from time to time for such supplies of each description as may be required the Indents being passed by the Military Board and the supplies being obtained through the Commissary General in direct communication with the Superintendent who is authorized to correspond with all Civil and other Officers on the subject of Timber and to detach qualified persons from the Manufactory for the purpose of ascertaining the best sources of supply or of inspecting Timber proposed to be supplied as

as he may find necessary.

3rd. The Superintendent is required to provide for the careful examination of all wood tendered for the use of the Manufactory and he will be held responsible should he receive any unfit for the purpose.

4th. Whenever it may be deemed advisable by the Military Board, experimental Carriages may be constructed of any new description of wood, in order that if perfectly approved of after thorough trial, the wood may with the sanction of Government be added to the authorized list.

From the Secretary to Government — Containing the observations and orders of Government on the Boards Proceedings relative to the Settlement of Land Revenue in the District of Salem for Fusly 1258.

Extract from the Minutes of Consultation Under Date the 4th June 1850.

Read the following Extract from the Proceedings of the Board of Revenue Relative to the Settlement of Land Revenue in the District of Salem for Fusly 1258.

(Here enter 13th May 1850 No. 2144)

A.D. 1848/49

Para 1. Though not uniform in its effects throughout the Salem District the Season of Fusly 1258 was on the whole favorable, especially for the dry cultivation, and exhibited a decided improvement upon that of the preceding year. The extent of land cultivated in the Etmanie Villages was Acres 714,281-6-10. with a Settlement of Rupees 133,606-9-6 being in excess of the cultivation of Fusly 1257 by 32,611-20-11-

2. The prices of all kinds of agricultural produce were low, the depression being most marked in the dry grains in consequence of the favorable nature of the Season for that description of cultivation. The prices of the Staple dry grains of Cumboo and Cholum are shewn by the Sub Collector to have been below those of the three years 1255-6-7- the first of which was a year of scarcity

Scarcity and to have been also below the average of the preceding ten years Fusly 1245 to 1254.-

3. The population and agricultural stock of the District exhibit an increase. It is observed that the number of the population is stated at 94,2038 that of houses at 2,90,159 giving 3¼ person to a house which seems a low average.-

4. The total Settlement of Land Revenue for Fusly 1258 including grazing tax Enam Jodi and similar items, with Hill Revenue, was Rupees 14,17,969-15-. The deductions were Rupees 1,10,295-15-9 or Rupees 2,083-5-4 above those of Fusly 1257- the increase being chiefly under those heads which would be affected by the extended cultivation of the year: substracting the amount of these deductions and adding Quit Rent on Jodi Villages and services Jaghires Peisheash on Polepats and Mootahs, the total Lands Revenue of Fusly 1258 under all heads stands at Rupees 18,14,231-3-7 being in excess of the Berij of the previous year in the sum of Rupees 39,567-1-5.-

Villages Sillendy 1716.
Ayan Shanum Shanoo 328
2044

5. Of the above demand a balance of Rupees 60,288-1-10 was outstanding at the close of the Fusly but at the end of October it had been reduced to Rupees 14,682-7-3 of which Rupees 2,941-4-9 is due on account of certain Mootahs and the remainder Rupees 11,741-2-6 is a manice balance.-

6. The arrears on account of Fusly 1257 and the four preceding Fusslies at the commencement of that under review amounted to Rupees 25,541-12-9 of which Rupees 4,469-9-6 were due on Mootahdars Tenures and the rest accrued under manice Rupees 19,701-9-4 of the Ryotwar balances are represented by the Collector to be irrecoverable and on the recommendations of the Board of Revenue, the right Honorable the Governor in Council grants authority for striking this sum out of the accounts. The Mootahdarce balance is outstanding on two Estates only and early measures should be taken for its recovery as well as for that of Fusly 1258, the greater part of which is due on the same properties.-

Amount of Samordram-

The

Statement No 12

7. The total Gross Collections of Land Revenue in Fusly 1258. Arrears, Current Extra Revenue and Extraordinary were Rupees 18,49,548-2-. The charges were Rupees 2,62,738-8-6. or Rupees 7,228-9-8 below those of the

Statement No 13. previous year. The net Collections amounted to Rupees 15,86,809-9-6 and surpassed the net outturn of Fusly 1257 by Rupees 31,306-9-5-8.

The wells sunk by the Ryots at their own expense and in such localities as to entitle them to remission of the additional or Fusl Jasty assessment appear from Para 33 of the Collectors report to be 3733 in number. The aggregate cost is Rupees 2,61,354-6-. or on the average Rupees 70 per well. The extent of land cultivated by means of these is 3,892 acres, or little more than one acre to each. The Fusl Jastee remitted in Fusly 1258 was Rupees 11,311-6-6 or nearly 4½ per Cent on the original outlay. It should however be remembered that the mere amount of Extra Jeerwah remitted does not represent the full benefit derived from the ryot from his well. Judging from the number of Wells constructed

constructed in Fusly 1258 under circumstances which gave the parties sinking them no claim to indulgence, it would seem that the people in Salem are fully alive to the advantages derivable from such undertakings. The Government entirely concur with the Sub Collector as to the

Para 16 propriety of encouraging this description of cultivation as a safeguard against seasons of scarcity. It is observed that the extent of Putcut lands held by parties in the enjoyment of remission on wells of their own construction was

Para 34 Acres 44,402-13-1 with a Jeerwah of Rupees 79,939-8-. The assessment on the land cultivated by means of the new wells bearing to that of the original kyput the proportion of somewhat less than one ninth. The Governor in Council desires to call the attention of the Board to the hope expressed in Para 10 of the Minutes of Consultation under date the 7th August 1849 that the proposed rules regarding well land would be

be submitted at an early date.- another year has passed and still the rules have not been submitted- The Board will understand that the Government consider this a subject upon which it is urgently necessary to pass definitive orders.-

Para 46

Paras 48-9

Para 19

Pro. Para 18.

9- In his report the Sub Collector besides referring generally to the pressure of the assessment in his subdivision has particularly noticed its supposed injurious bearing upon the re-verted Agraharam of Tiroomalanama-Samoodrum, the lands under the Edombaucolum Tank and the resum Mootah of Vadagherry- The Board of Revenue propose to issue separate orders on the two first of these ques-tions and have called for a special report upon the condition of the Mootah and the causes of its decay The results exhibited in the State-ment inserted in Para 22 of Mr Malthy's report shew that this

enquiry

enquiry is urgently demanded.-

Read the following letter

To
W. H. Bayley Esqr
Secretary to the
Board of Revenue
Fort St George

Sir,

19

From the Collector of Rajahmundry. — Para 1.

Affording explanation with respect to putting a Circar Stamp on the various weights and measures in reply to the Bd Pro: of the 6th Instant.

With reference to the Board's Proceedings of the 6th instant I have the honor to explain that my object is to obtain the means of putting a Circar Stamp on the various weights and measures which have been manufactured here, according to the Standards lately supplied to me for that purpose. I expected that the Secretary to the Military Board would forward to me some stamp in use at the arsenal, but as the matter has been brought before the Board of Revenue

I beg to observe, that the community are sensible of the advantages derivable from the introduction of just weights and measures, and to suggest that the Board should prescribe a uniform Stamp for marking those which have been tested in the Collectors offices and found to be accurate according to the standard. As this is a measure which will tend to counteract the systematic fraud which prevails in every village in the Country I need say no further in its favor. It is of little consequence what device may be fixed upon for the Stamp provided it be well executed and capable of application to the Iron measures in common use in this District.

2. If the Board think fit to approve of this suggestion and to communicate to me their sanction of a certain impression for a Stamp, an amended Indent shall be forwarded for transmission to the Military Board.

Rajahmundry District,
Bendamoorlunka,
23rd 1850. } (Signed) J. Prendergast
Collector

Ordered.

8318 Fort St George 13th June 1850.

Order thereon

Ordered that the following letter be submitted in consequence.—

(19-20)

To The Chief Secretary to Government

Sir,

In consequence of the introduction of the New weights and measures under the Notification published in the Official Gazette of 1846 Page 969 and of an application from the Collector of Rajahmundry for a Stamp for marking such Weights and measures as are regulated in his Office by the Standards furnished to him for the purpose, it appears to the Board of Revenue advisable that there should be an uniform Stamp for marking all Weights and measures tested in the Collectors offices to counteract fraud in illicit Weights and Measures.

I am directed by the Board of Revenue therefore to request that the Military Board may be authorized to frame a device for the required Stamp and to suggest that their opinion be obtained respecting the metal of which it should be

D.G.

Remarks of the Board. The last incumbent Jeevunnah died so far back as 1842. and it is not stated when he obtained posseision. The claim on behalf of Vencapah who states that he is the son of Sheyshapah described as the original grantee, is by no means clear, and should have been brought forward at the death of Sheyshapah and not in 1846 after Jeevunnah's death. It may be urged that he did not do so then as the land was unprofitable, having been unmultivated up to Fusly 1247 = 1837-38 and since that period has been improved, but the fact of his not having Established his claim then, at the time that Jeevunnah practically took posseision renders his present pretensions inadmissible-

There is also sufficient ground to doubt that Vencapah is as he states the son of the Sheyshapah who was the original grantee, and that the father of this individual (i.e Sashapah) was named Kristnapah-

The other claimants (Jeevunnah's party) produce Village Accounts of 1789 in which this land is entered in the name of Sheyshapah. the son of Narsingapah and state that Sheyshapah had no male issue, but gave his daughter named Chinna Bheemaka in Marriage to Singapah who thus acquired posseision of the Enam and an order from the Talsildar to the Village authorities in 1214 = 1804 names Jeevunnah as the Grandson of the

Vakeel

Note. The original grantee entered in Survey accounts as Vakeel Sheshapah and Vencapah's father is styled "Karoor Shashapah" and in other Documents Potnavees which signifies writer and not Vakeel.

N:1 Blue tourtee Enam Series 41-10-8 assessed at Rs 96-4-a

21-22

8336. Fort St. George. 13th June 1850

"Vakeel Sheyshapah" and having been for so many years recognized as his heir by the Government the Board are not disposed to place any reliance on the Statements of the claimant Vencapah.

They observe that Jeevunnah has left no issue nor near relatives, and that the six parties named in Col: 10 are distant connections and not of the blood of the original grantee.

They are in enjoyment of Cunneehum Enams of the Value of Rupees 245 and for these reasons the Board are of opinion that the Enam may be resumed by the Collector.

The Board consider that under the circumstances represented by the Collector and in default of lineal heirs or near relatives, the Enam of 15-7-12. assessed at Rupees 32-13-0 held by the deceased Ackummah may be resumed.

On the grounds specified by the Collector the Board concur in the opinion that the share of Rupees 443-8 held in this Enam by the deceased Loccumah may be resumed.

This would not appear to partake of the nature of an hereditary grant and the family have a Shrotriem of Rupees 107-7-8 per Annum continued to them. If the Government deem fit to continue a portion of the allowance to Syed Mahomed the son of Abdool Lattif the Board would limit the grant for life to 100 Rupees per Annum

No 2 Bhutwurtee Enam. Acres 16-1-12 assessed Rs 32-13-0

		173-2-8	251-3-3.

The lapse by the death of Hullee Row would appear to have occurred so far back as 1839. If the claims of Eshwarapah are to be admitted they can only be granted in reference to Nos 186 and 170 which it is stated are entered in the Survey Accounts in the name of his father Despondiah Bheema Row, but the Board are not inclined to support his claims as it would appear that all the Enams have been in the uninterrupted enjoyment of Arollapah and his son, the last incumbent Hullee Row, since the Country was ceded to the British and with the exception of the Nos 186 and 170 the lands are entered in their names in the Survey Accounts.

With reference to the claims of the family of Hullee Row it is observed that his eldest daughter Bhayammah has been in undisturbed possession of the Bhuntwurtee Enam of 29-5-8 assessed at Rupees 101-15-11 during the last 35 years. The Board would not therefore disturb possession but the

Grant

Fort St. George. 13th June 1850

Grant being Mootalick her descendants has not necessarily claims on the Bounty of Government as declared in the Circular of the Board dated 31st July 1845.

The 2d Daughter Janeeamah who is dead left a son who claims the Desapondiah Enams Nos 186-170 and 89 consisting of Acres 117-31-0 assessed at Rupees 173-4-3 but as possession has not been proved the Board are of opinion that the claims of Ram Row her son are inadmissible.

The 3d daughter Atalamah claims the Desapondiah Enam No 171 but possession is not shown and it is stated that she resides with her husband in the Nizam's dominions. Under these circumstances the Board recommend the resumption of this land consisting of Acres 39-1-5 assessed at Rupees 56-14-7.

The land Desapondiah Enam No 44 Acres 16-10-0 assessed at Rupees 31-0-5 is held by Teracummah Widow of Ramacharry under a deed of gift from Kullee Row and has been in her possession more than 30 years upon which ground the Board recommend that it be continued to her for life.

The Collector has not explained what

Fort St. George. 13th June 1850

what means of subsistence Rajummah the Widow of Kullerow's son possesses. On the supposition that these are not ample the Board would support the recommendation of the Collector on her behalf and would suggest that the portion Nos 186-170 and 89 consisting of Acres 117-31-0 assessed at Rupees 173-4-3 claimed by the son of Janeeamah the second Daughter, be given to her for life.

Sir,

From the Collector of North Arcot. Paras. Enclosure No 1 which accompanied my letter of the 19th November 1849, contains an Enam belonging to Teroovadoowaraswamy at Jumboogolum in the Sholinger Taluk, and this Inamiem was accordingly included among those ordered by the Board on the 13th December to be resumed.

2- It has lately come out however that this Pagoda has two names, that given above and Jumboonangaswaraswamy

On

8340 Fort St. George 13th June 1850

On information from the Shasildar in September 1849 that worship has been resumed in the temple of the latter name I gave orders that that Enami should be released; but as it was not known that the other name, Tiroovadaswara Swamy indicated the same institution the Inamiem remained included in the list sent to the Board under that name. I have now the honor to request the authority of the Board for releasing that Inamiem from attachment.

From the Collector of Tanjore - - - -

Reporting on his appeal Petition and forwarding Proceedings held in his case.

Sir,

Para. 1. I have the honor to forward the original Proceedings held in the charges against Cabiana Ramiah disposed of under Regulation IX of 1822.

2. Cabiana Ramiah in his appeal Petition ascribes the fabrication of the charges made against him to the enmity of the Ameenah of the Cabia=tahum Estate under management. The Board may remember the exertions made formerly by the family of the deceased Appow Moospen to obtain the management of the Inamis property, and the gross misrepresentation made against myself and the Manager with the view of getting him removed from his charge, a most invidious one, as surrounded by the discontented mem=bers of the family, all anxious to=bring him into risk by any means as

Fort St. George. 13th June 1850

as he had been strict in the discharg
of his duty, and althis they failed in
gaining their ends at that time the
agitation has never ceased and the man
is still thwarted at every turn by vex
-ations and groundless complaints.

3. Caliana Ramiah, as Tah
-sildar of Papanassom, had the gene
-ral Superintendence of the Inoppen Colat
and having taken a decided part in
favor of the Younger widows made use
of his official authority in such a m
manner as to call from the Collector
an order that he should in no way
interfere again in the affairs of the
Moopen unless directed to do so.
Public spirit is at so low an ebb
amongst the people generally that
in nine cases out of 10 some privat
enmity leads to the exposure of s
malpractices and in the present
instance this feeling may have s
helped to bring forward the charg
against Caliana Ramiah, tho it cannot
in any way affect the charges s
themselves.

DG

In

Fort St. George 13th June 1850.

4. In the 10th Para of the appeal objection is made by the Tahsildar to the Ameenah having taken charges against him, a superior Officer. The complain
-ants being cultivators under the orders of the Ameenah and not the Tahsildar, it was natural enough that they should make known their grievances to him, and his reporting the same to the Collector appears to me unobjectionable in every way, particularly as they had addressed me also on the subject, tho I had not taken immediate notice of their complaint.

5. With reference to Paras 11 the steps complained of as taken by the Ameenah appeared on the enquiry to have been absolutely necessary to prevent the witnesses and complainants being tam
-pered with on their way to the Koozoor, as no sooner were the parties collected together by the Deloyets than the emissaries of the Tahsildar were busy endeavouring by persuations and threat to gain them over. Of this fact there was not the smallest doubt, and the greater precautions were necessary to secure the ends of the enquiry.

enquiry being attained

6. In the 13th Para, Caliana Ramiah complains that the investigation having been made in his absence was "most unjust and contrary to order." It is quite true that Caliana Ramiah was not present at the taking down of the depositions, and the cause of his absence was not as he insinuates that false evidence might be brought to bear against him, but that I might by a preliminary examination ascertain whether the charges were true or groundless, a very necessary precaution where Officers in the situation of Caliana Ramiah are liable to false and Malicious charges merely for the purpose of disgracing them in the eyes of the public, which a personal appearance for trial would surely accomplish. But altho' Caliana Ramiah was not present when the parties dictated their evidence, he was confronted with them and their depositions read over to him that he might ask any questions or raise any objections. He has forgotten to mention this fact in his petition.

After the close of the cases appealed against, others of a far more serious nature were under enquiry, the Proceedings held in which in Caliana Ramiah's presence are forwarded, tho' no decision was come to thereon lest on appeal the Members of the Board should object to the entries in the Village accounts as credible evidence.

7. The attempts which had been made by Caliana Ramiah to corrupt the evidence against him made a strict surveillance necessary, but I am quite confident that beyond the inconvenience and disgust at being watched he was made to undergo no grievous hardships. Two Servants appeared to me ample for his attendance and I allowed no more. During the attendance of Caliana Ramiah one letter only was brought to me bearing his address, and it's delivery to him was ordered immediately, if he had expressed any desire to write himself, permission would have been given, and as I saw him constantly during the time he was at the Koorzoor he could easily have preferred his request.

In

Fort St George 13th June 1850.

8. In the 15th Para, Caliana Ramiah complains of the Proceedings not having been made over to him to make his answer upon. It is neither usual or was it necessary in the cases under appeal, as the charges were simple and the evidence short, but in the graver charges against him, he was allowed the papers and accounts to frame his defence on at leisure, and it is pretty evident that in writing his appeal Petition he had all the documents of the other cases also before him, as his memory would hardly have served to record the discrepancies. His application for copy of the decision against him was only made a few days since and long after the appeal was written. Referring to the remarks in paras 24 and 25 the Sentence communicated to the Tahsildar was that he was fined 100 Rupees, and in forwarding the Monthly Statement this amount was adjusted on the 2 Cases, and the Money mentioned in the 2nd case had been proved to have gone into the Tahsildar's house by the hands of his relation, who if he had taken the bribe for himself could have done

Fort St George 13th June 1850.

done so without bringing the people from their Village to Papanasum, he himself being the Ameenah of the complainant's Villages. During the month of January I was absent from the District, and the Tahsildar was present with the Collector's Cutcherry, the Superintendance of the Peons, was latterly all but nominal, which appears very clear from Caliana Ramiah's intimate acquaintance with all that occurred relative to the English correspondence on the subject of his removal, and the call of the Board for explanation of my oversight in not reporting his suspension by a separate letter instead of in the Monthly return. In the 26 Para it is stated that Peons were removed and "Petitioner directed to remain at the Cutcherry" leave was then granted him to attend the Mahamagum feast, and I have never seen him since. In the 47 Para Caliana Ramiah complains of no copy of decision being given him, this is entirely his own fault; had he applied he would have obtained what he required, but it would seem that the copy of

decision

Fort St George 13th June 1850

decission was of little consequence, while he had all the papers of the enquiry at his disposal by the assistance of friends in the Cutcherry.

J. Caliana Ramiah has forwarded copies of testimonals in his favor as an active servant, and in my letter of the 2nd March I have acknowledged this fact, but his corruption is notorious throughout the District from the Youngest Goomastah to the Head Sheristadar, and his appeal Petition bears strong evidence of having been got up by the dismissed Sheristadar of the Subordinate Court, who obtained the alliance of Caliana Ramiah to favor his ends in obtaining the dismissal of the Cabistalum Ameenah and the restoration of the Estate to the widow, whose cause the Ex-Sheristadar warmly advocated, probably with a view to his own future benefit. In conclusion I would remark that if blame attaches to me it is that I too long deferred taking more serious notice of complaints against Caliana Ramiah, hoping that warnings given would have

Fort St George 13th June 1850.

made him more careful. Caliana Ramiah has omitted to mention that he was fined 500 Rupees by the Court for abuse of authority, tho' in this matter of the prosecution he received at my hands all justifiable assistance in support of this authority.

Tanjore, 3d April 1850. } /Signed/ J. F. Bishop

Fort St. George 13th June 1850

Proceedings

(25-26)

thereon.— The appellant, late Tahsildar of Papanasem, was brought to trial under Regulation IX of 1822, on three charges of extortion— The cases were examined by the Collector who has recorded his judgment, finding the Tahsildar guilty by the evidence brought before him, in two instances, once of having exacted 25 Rupees and at another time 20 Rupees, in both cases through the agency of Samynot Iyer, his wife's sister's son, not on the Public Establishment. In appealing to the Board the Tahsil= =dar seems to rest his defence mainly in objecting to the evidence and com= =plaining of his not being present when the depositions were taken.—

2. These objections appear to the Board, who have had all the original papers before them, to be without any foundation, Coleana Ramiah's agents were found tampering with the witnesses in one case, at the very doors of the Cutcherry, and were apprehended and punished by the Magistracy.—

3 The Board of Revenue under the circumstances now stated, confirm the Proceedings

Fort St. George 13th June 1850.—

Proceedings of the Collector. The fine of 50 Rupees imposed on the Tahsildar in the case in which he was convicted of having exacted Rupees 20 being above double the amount he was charged with, by Rupees 10, the Board of Revenue authorize the refund of the difference / Rupees 10 / to the appellant.—

4. The Board observe with reference to their Circular order dated 8th January 1850. that a copy of the judgment in the Petitioner's case should have been furnished to him as directed.—

Ordered that the following Endorsement be passed on Petition No. 583 of 1850.—

"The Board of Revenue having examined the record in this case, are satis= =fied of the guilt of the appellant and have accordingly confirmed the Proceedings of the Collector."

From the Collr of Trichinopoly ----

Sir,

In acknowledging Extract from the Proceedings of the Board of Revenue under date the 29th Ultimo, I have the honor to state

Fort St. George 13th June 1850.—

state that the identity of Badshah Beeb
has been proved and attested by a Zeemindar
the Naib of the Town Canzee and two of his
Neighbours, whose description corresponds
with the descriptive roll kept in this office;
she is stated to be about 60 years of age, and
it is shewn that the services at the Zenana
of Ameer Aol Omarah, the 2d Son of the
Nawab Wallajah, have been performed during
her absence at Madras by Syed Modeen
her husband's grandson by another wife,
and still continue to be performed by the
same party.—

Sir.

From the Collector of Madura — Reporting on the settlement of the Districts of Madura and Dindigul for Fusly 1258.

1. I have the honor to submit my Report on the Settlement of Fusly 1258 with the following Accounts.

No. 1 Statement of Villages population &c.
" 2. Aayacut or Total extent of land.
" 3. Abstract Settlement.
" 4. Abstract of each Taloork.
" 5. Increase and Decrease upon each Item of the Taloork in Comparison with Fusly 1257.

Detail

Fort St George 13th June 1850

No 6 Detail of the gross Increase and Decrease in comparison with Fusly 1257.

" 7 Register of Lands held on Sanctioned Cowle.

" 8. Special Cowle.

" 9. Lands granted to the Sibbendy peons of Ramnad.

" 10 Statement Comparative of Increase and Decrease in the Cowle lands of each Talook.

" 11. Statement of Shaves remission.

" 12. Cultivation of Sugar cane in Dindigul.

" 13. Kistbundy of the Land Revenue.

" 14 Kistbundy of the Settled and unsettled Zemindaries.

" 15. A Statement of the Pulney Hill, Villages population, &c.
B Abstract Statement of the Hill Settlement of each Talook.
C Kistbundy of the Hill Settlement.

Extent

Fort St George 13th June 1850.

No 16. Extent of Enam lands and Cultivation.

" 17. Statement of Land Revenue and Extra Sources in Comparison with Fusly 1257.

" 18 Statement Comparative of Demand Collection and Balance of Land Revenue.

" 19 Statement of the Rent Roll for Fusly 1258.

" 20 Abstract Statement of Fully monthai for Fusly 1258.

" 21 Statement of Sevoy Summah Collections for Fusly 1258.

" 22. D Statement of Gross tax Collected in Ramgherry for Fusly 1258.
E Do in Taudicomboo and Iyempully for Do.

2. The total Revenue of the year amounted to Rs 18,66,206 — a 4 — p 6 exceeding that of Fusly 1257 which was previously the highest on record by Rs 6,927 — a 3 — p "

3. In Fusly 1257 there was an extraordinary quantity of rain and water in the Vigney in April and May and consequently extensive Cultivation of an Extra Crop chiefly in the Madacolum Talook of the Principal Division. In the year under review

review, the supply of moisture in those months being very much less, a corresponding diminution took place in the Extra Crop; but showers fell so as to admit of land being generally ploughed and in some instances sown. From June to end of October the falls were sufficient to induce extensive Cultivation of Nunjah and Poonjah, the supply in the Vighey riner, however, being still deficient. In November and December there was little rain. In January and the subsequent months there were some useful showers. It will be observed from the sub Collector's report that the season was upon the whole very favorable for Cultivation in 3 of his Talooks; but the reverse in Tyempully bordering on Coimbatore. On the whole there was much more rain to the north and West than to the South and East. I am sorry to say that Tiroomungalom was again very ill supplied and the statistical accounts shew that the continuance of bad seasons in this quarter have in some degree affected its

population

population and stock. There was less rain also in Madacolom than in Meyloor.

4. The Nunjah Crops in a few Villages withered, in many more they were defective, and in general but moderate. The Cotton Crop was indifferent and said to be discoloured. The yield from Poonjah lands was considered good. On the whole the season was more favorable to the Government than to the Ryot in-as-much as the distribution of rain was such as to induce large Cultivation; but not to ensure very generally good Crops. The Acting Sub Collector reports that there was a fair average crop on garden lands, especially in those Cultivated with Tobacco.

5. I annex a List of prices which exhibits a considerable falling off compared with the preceding 5 years. The prices of rice however exceeded that of the Fysul year. The prices entered in this List are those of the Town of Madura, adopted as likely to be nearest the general average, but probably some-what above.

6. A little Cholera of a mild form occurred in the Town of Madura, and some fever in places near the Hills; but upon the whole the Season was healthy for man and beast.

7. The preparation of accounts for the Summabundy commenced at the usual time; but owing to information being now required of the cause of each field remaining uncultivated to regulate remissions for waste, which were formerly granted in the gross without particular enquiry, the curnoms, unused to such detail, were late in giving in the Individual Chittahs. As they and the Talook Servants become habituated to the new system, the operation will be more speedily performed. I annex a Statement shewing the mode in which the Puttahs were distributed. Before the preparation of Puttahs the Head

Assistant

Assistant and myself examined complaints and the detail of the Summabundy in our respective Talooks; but I was obliged to leave the distribution of the Puttahs of 13 to Mr Bodgson as they were not prepared before it became necessary for me to proceed to the Shencurray Talook in the Sub Division for the Settlement of a part of that Talook, which devolved on me, owing to the approaching departure of Mr Clarke.

	Talooks	Villages
Collector	Madacolum	188

11 Great care is taken on the part of the European Authorities, both by personal explanation and through the Talook Officers, to induce the Ryots to take up no more land than they have means to cultivate and to warn them of their responsibility for the Teerwah on all engaged and left uncultivated without sufficient cause; and explanatory Statements were taken at the Summabundy of all Puttadapoo or Dittum waste. After making a fair allowance for the circumstances of the season, and paying due regard to the power of the Ryot to pay it was found necessary in justice to the Government to retain on the Settlement Rupees 8,455—13—9 the tax on Puttadapoo waste for the non-cultivation of which the causes assigned were insufficient, the balance remitted being 128,917—..—10

Statement 4 Colm 961.

It will be observed that the difference between Columns 921 and 961 Statement 4 is not 8,455—13—9 but 9682—13—1. Rs as ℗ The excess 1226—15—4 is the amount of

Hooloos

Hooloos Maff and Mr Peters' Moonasib remissions on the uncultivated waste retained on the Settlement of the Sub Division as will be seen by a Comparison as regards the Sub Division of Columns 921, 961 and 998 Statement 4. A larger extent of land was cultivated in proportion to the extent taken up in the Sub than in the Principal Division owing to the favorable state of the season in that portion of the District which not only enjoys more of the South west monsoon, but receives the first drainage of the Pulney mountains. These, moreover, excercise a strong power of attraction over the clouds, so that more rain falls in the Talooks immediately under them than in those lying further off.

12. Mr Knox's remarks in para 14 of his Report appear intended to shew that the Ryots of his Division more generally entered into the specific agreement (as it is commonly called in this District Puttadapoo) for their lands in Fusly 1258 than in Fusly 1257.

The

Fort St. George 13th June 1850

The Board are aware that there was a reluctance at first to enter into this engagement which is wearing off.

Shamelat Bunger Fusly 1257 } 480-2-3
" 1258 — 19-4-5
Decrease — 460-13-10

13. The Decrease in Shamelat Bunger is chiefly owing to the Items included therein for the Sub Division in Fusly 1257 being in Fusly 1258 entered under a fresh Head as Kararnamah Tarsee as explained in para 17 of Acting Sub Collectors report. I would recommend that this Head should be discontinued in future and the Items included in it entered as Caboolcat Bunger. As there is no separate Head for land taken up after the Dittum or by persons refusing to sign the Dittum, it appears

Fort St. George 13th June 1850.—

appears unnecessary to have a separate Head of deduction for such land, and where remission is at all requisite for land for which Ryots have given positive engagements to pay whether cultivated or not (as they do without sufficient forethought to procure enlargement of their Tanks) that too may be probably designated Caboolcat Bunger. Of 19-4-5 granted under this Head in the Principal Division 9-7-5 was a deduction as usual for a part of the permanent Cowle land held by the Sibbendy Peons Vcan of Ramnad and 9-13-0 for the waste portion of a field the Crop on the cultivated portion of which withered.—

Kararnamah 14 Is explained above

Bunger-881-7-1.
Col. Teerva. Cummee 15-
978 Fuspul Cummee

These two Heads were blended together last year and as explained in Para 10 deducted at once from the Dittum.—Consequently the Head of Fuspul Cummee or remission to double Crop land cultivated with a single Crop only is altogether a new one. The increase of Teerva Cummee is proportionate to

Fort St. George 13th June 1850

to the extent of the description of Cultiv=ation to which it is granted.—

Withered Crop 1806-2-11

16. The remission granted for withered Crops in the Fasly under review amounted to Rs. 1406. The indulgence was granted on a combined considera=tion both of produce and price, the value of Crops of other Nunjah lands of the applicant in the same Village being calculated by assuming the quantity of produce per Cawney at the rate adopted at the Survey and converting the same into money at the market price of the day and to the extent to which such value exceeded the assessment of the pro=ducing land, the claim to remission on other land was disallowed. I wished to have included in the calculation the produce of the lands belonging to the applicants in other Villages, but owing to Puttahs being held in other names, & mortgages &c. it was found impossible to do this fairly and without an amount of labour which would seriously impede the Summabundy. No commutation price for Poonjah grain being fixed at the Survey this descrip=tion of produce could not be taken into account. A further limitation

Fort St. George 13th June 1850

was made by denying Remissions where the withered portion fell below 15 per Cent of the Ryots cultivation except in cases where the whole Nunjah of the Ryot perished. It will be seen that the amount not remitted from various causes equalled that remitted, and I believe that no necessary caution was unobserved in the examination of Claims.—

Remission of the lower of the 2 rates on Trees and land where trees and Crops grow on the same field Rs. A. P. 16-8-8-

17. The Board directed in their Proceedings under date the 17th September 1835 that Tree and land taxes should not be taken for the same fields. This Rule had not been completely carried out. In the present year I remitted one of the two taxes wherever instances of their being both levied came under my observation, retaining the higher of the two.—

18. According to the Rules of the District, strictly interpreted, these Crops were subjected to full Peerwa but having satisfactorily ascertained that the Stubble remained but a short time

time perhaps from inadvertence and that the yield must have been so small as to render adherence to the Rule very severe to the Ryot, I allowed a remission as shewn in the Margin.—

14/16 on Cotton grown in last years stubbles } Rs. 241-4-7-
1/2 tax on Cholum Do. Rs. — 4 — 12 — 4 —

19. The other Items of remission do not require remark.—

20 Among the additions it is only necessary to notice the Revenue from Pastures which in the present year amounted to Rs. 11,486 — a. 4 — p. 11 exceeding the amount under the same Head in Fusly 1257 by Rs. 5,480 — a. 9 — p. 2 — as shewn below.—

Statement.

Statements are contained
21
in the packet shewing the detail of
this Collection and in my letter of the
5th December last I afforded an explanation of the principles by which it
was governed — It appears to me that
the people of the Ramgherry Talook
took more grass land than they required
and had the rate by which they were
liable, to full tax for all pasture
above 1/5 of their holding been strictly
enforced many would have been
ruined — At the Summabundy therefore
it was relaxed with a warning for the
future which seems to have had its
due effect — It will be observed that some
of the waste land taken up ostensibly for
cultivation but left waste was assessed
with the grass tax as a failure of rain or
other good cause could not be alleged
as a ground for total remission, and
the Ryots could not bear the full tax.
The circumstances of the collection
of this Item in the Sub Division are
stated in Para 15 of the Acting Sub
Collector's Report, and their particulars
are

Fort St. George 13th June 1850

are exhibited in a separate State=
=ment No. 2 of No. 22.—

22. The following Statement, corresponding with the concluding Columns of Statement 5 exhibits the Increase and Decrease in the Net Settlement of each Taluk which will be found to correspond with my account of the season— In the Principal Crop there was an Increase in Madacolum but a considerably smaller Collection of Puṣal Taste from an Extra Crop, reduced the settlement below that of Fasly 1258. which was raised very high by its unusually extensive Cultivation from reasons explained. On the whole there was a Considerable Decrease in the Principal Division, but a large Increase in the Sub Division— Unless the prosperity of the Dindigul Taluks be checked by the occurrence of epidemic fever to which its topographical peculiarities expose it, I see every reason to hope a further Increase in its Revenue as the supply of moisture

E.B

Fort St. George. 13th June 1850

moisture and the extent of unoccupied waste are great and the apprehension easy, particularly in parts of the Shencotta Taluk waste at the Survey. In the Principal Division an Increase is to be looked for chiefly from the Terroomungalum Taluk which in a favorable season can yield a much larger Revenue than it has done of late years.

Of

25. Of the Balance on Tiroo- Rs a P
-moungalum 77-9-1 has been collected but the propriety of carrying it to account is disputed and under enquiry- Rs a P
The land owing the remaining 7-9 is under sequestration by the Civil Court to which application has been made for payment- The Balance in Meyloor will be eventually rea- -lized- The collections of the amount due in Rangherry is very doubtful, as it is partly in dispute and partly- due by temporary Ryots who have re- -quitted the District-

26- There are rice and grain to cover the arrear against Shevagunga. taken under the Court of Wards, the value of which will be realized at an early period- In explanation of the Boards Proceedings 26th March 1849- Peshcush being collected more slowly than from the Zemindar, I beg to state, that he could borrow money as his bills became due on assignments of the coming crop; a course not competent to the Government servants who are obliged to wait the actual sale

of

Fort St. George. 13th June 1850

of the grain, and moreover the ready money Collections, which under former Assumptions, went some way towards payment of the early Kists, had been appropriated to other purposes before the Estate came under the Court of Wards. If the Vellicoonduru Balance is not quickly paid legal means will be taken for its recovery. The Cullymonthe Moottah has long been under management and the Beriz of the year fell short of the Resh-

29. With reference to the remark of the Board in their Proceedings on the last year's Report, I have endeavoured to bring the accounts, which as explained in my letter of the 2d November 1849, were erroneously prepared in Fusly 1255, in accordance with the Forms supplied by the Board, and I trust that they will be found to agree, with a few exceptions on which I beg to offer the following remarks.

28. Columns 43 and 44 are not in the Forms, but having been required

for

Fort St. George. 13th June 1850

for any private information were inserted by mistake. As they seem liable to no objection and may be useful, the Board will perhaps allow them to stand.

No. 3. 29. In these Statements will be found an entry of 427-14½ Cawr as Mutta of Poonjah converted into two crops Nunjah and cultivated in the year under review. Of the propriety of this entry, which is of usual since 1255, I entertain considerable doubt. It consists of converted Poonjah, which in Fusly 1254, or subsequently, bore a second crop, and which happened to be cultivated with one or two crops in the year under review. If cultivated with one crop only the land received Teerwa Cummee, the ½ Nunjah Teerwa being entered in the Dittum. I can learn no reason for the arbitrary inclusion of converted Poonjah casually cultivated with a second crop in these and future Fusles as permanent double Crop lands, except that as there is a line under that Head for double

crop

Crop land, it was thought necessary in Fusly 1255 to fill it. I have allowed the entry to stand (pending instructions which I have omitted to apply for separately, owing to the point having till very lately escaped my notice) because I do not perceive what the line ought really to contain. Double crop Survey Nunjah land is such as was cultivated with more than one crop in the Survey year, and no additions have been made to the Item since, subsequent fresh cultivation with two crops being assessed temporarily only with Fussel Jastee. Reasoning from this analogy there can be no such thing as double crop Poonjah converted to Nunjah, the term itself implying conversion subsequently to the Fysul year

30. The Board have permitted me to distinguish between Fussul and Teerwa Jastee, I have done so for the present year, but have been unable to separate the Items for

for last year when they were mingled. In the ensuing Fusly, the accounts will afford a clear comparison as regards such of these heads. The correspondence noted in the margin will explain other alterations in the Form of the accounts as far as I have been able to perceive them.

I Board 19th Sept 1849.
From Dr 11th October "
To Dr 27th Nov "
From Dr 3d Dec "

I beg to add a few remarks

31. on the statistical entries of the Principal Division.

The 5 new Tanks in the Rangherry Talook are small (not costing more than 200 Rupees) and were dug at the expence of the Ryots.

Statement 5 Increase in Tanks 5.

Of the 6 additional Channels

33. I should have appeared in the State-

ments of previous years, being now brought to account from more careful enquiry. The remaining one is small and dug by a Ryot at his own expense.

Increase in Channels-6-

In like manner all the

34. additional wells in Tiroomungalum belong to the accounts of former years, and the same remark applies to all but 18 of those in Rangherry. This number

Increase in Wells- Tiroomungalum-265. Rangherry-264-

constitutes

constitutes the real increase under this Head in the Principal Division which is not a Well Country except as regards Rangherry -

35- The small diminution of population in Sivaumengalum is owing I have every reason to think, to emigration to Ceylon - Probably some may have sought employment in Meyloor or the Sub Division where the season was good, and the increase seems very large for one year - Ryots in any other Talook of the Principal Division than Rangherry is owing to the meaning of the term having been misunderstood and the difficulty not being brought to my notice till it was too late to obtain a fresh account -

37- In conformity with the Board orders of the 8th October last, I have the honor to transmit a Demand Collection and Balance Statement of Sevoy Jumma mah up to the end of Fusly 1258. It has been prepared with some difficulty and I am not sure of it's entire correctness -

The

The current Balance on Decisions under IX. of 1822 is partly under commutation by Imprisonment - That under the head of Fines is for the most part due by Village Officers -

38- The Sub Division was in charge of Messrs Clarke, Elliot and Brett in the course of the Fusly under review, all of whom attended assiduously to it's management - Although Mr Knox did not join the District till after the close of Fusly 1258, yet as he has since been appointed to another Province I may be permitted to bring to notice the deligence and ability he exercised in transacting the duties of the Sub Division and making himself acquainted with it's concerns - Of the latter point his report affords satisfactory proofs -

39- I beg to acknowledge also the valuable aid I received from my

8385 Fort St. George. 13th June 1850

my head Assistant Mr. Ratliff and 2nd Assistant Mr. Rodgson -

do- The Head Shernstadar appears to advantage in making the enquiries which devolve on him of the Settlement on which his judgment and patience are remarkable, and although the accounts have been furnished by his Department very slowly the Board will I hope consider this excusable when they remember that a revision of the Forms of account and the

Madura, 11th July 1849.

W. D. Parker
Collector

To,

R. D. Parker Esqre
Collector of Madura.

Sir,

1. I have the honor herewith to submit, along with the usual accounts, the annual Report on the Settlement, on the Collection and Balances and on the general state of the 4 Taloks in this Sub Division for Fusly 1258. The Settlement was made by Messrs Elliot, Brett and Clarke, and in some few Villages by you in July; and should any remarks of mine be deemed uncalled for, or be found wanting in perspicuity, I trust allowance will be made in consideration of the short time I have been in charge of this Office.

	Vils.
Mr. Elliot	94
Mr. Brett	66
Mr. Clarke	83
Mr. Parker	22

Grand Total of Land Revenue	40,696 " 10	20325 13 11	787 16 4	
		20325 13 11		
		19537 11 4		Nett Increase

8003 Fort St. George 13th. June 1850.

There is an increase of Rupees 19537 — 11 — 4 over last year, if we include the Calimonday Villages; without them the increase is Rupees 20,199 — 11 — " and a much larger one Rupees 54853-2-9 is found, if the amount of the present settlement be compared with the average settlement of the last 5 years. The increase in last year may be divided into three heads Viz.t —

Fasly 1258	417,245	1	3
5 Years Average	362,391	14	6
Increased	54853	2	9

Increased cultivation	16,542	5	11
Haboolaty Bunjer	2,256	7	6
Pillovary or Grass tax	1,400	13	8
Total	20,199	11	"

of which an explanation will be given in the body of the Report. —

Statistics and Seasons.

3. Before going into the details of the settlement, I beg leave to offer a few remarks on the Statistics of the Sub Division, and the nature of the Seasons during the Fasly under report, as they affected the general health and Cultivation in the Sub Division, and I am happy to have to state that, from all that I can learn, the past was a Fasly very favorable both for man and beast, the Sub Division having been remarkably free from Fever and Cholera, and from the various contagious diseases to which cattle are subject.

4. The Statistics of the 4 Talooks may be gathered from the following Account.

No 2

Fort St. George 13th June 1850.

No. 2.

Description.		Fasly 1257.	Fasly 1258.	Increase	Decrease

The

Fort St. George 13th June 1850.

Population &c.

The population now numbers 2,07,793 Souls, an increase of 2,654 in one year. There have been 819 new Houses built consequent on this increase but the number of Villages 267 remain the same as in last year. The number of Hamlets is 1080 one new one having been built attached to the Village of Mungamanooth in the Tadikomboo Talook.

Deduct	
Villages uncultivated	2
Total	267

5.

Ryots.

Of the Male population, about one third are Ryots engaged in cultivating the land as is shewn in Statement No. 2. Compared with last year there are 780 more resident Ryots and 222 non-residents; but this, to a certain degree, is a nominal increase only, many persons who held land as joint cultivators having dissolved partnership and taken the Puttahs out in their own names. This was particularly the case in Nellacottah, where, as shewn in the Jummahbundy Statement No. 3. Colum

Column 88, there was a decrease of 302 under the head of "partners in Puttahs". In Tyempully alone there was a decrease in the number of every class of Ryot, Viz. 14 residents, 298 non-residents and 193 partners, the effect of want of rain as noticed in Para. 8.—

Cattle. 6. The cattle and sheep have, as shewn in No. 2 increased largely through the Sub Division, generally, as the season was healthy and there was no want of pasture. Many were also brought into the District from Salem and Coimbatore. The increase is more marked in the two grazing Talooks Tadi-Kumboo and Tyempully, as was to be expected.—

Cols. 60 to 64 Summabundy Statement. Puttahs. 7. A Rent roll of Puttahs agreeably to the Boards Form is sent along with this, but I have added a line at foot to shew more distinctly the number of joint puttahs under each head, as well as the total in each Talook. The Board wish for information regarding two Puttahs, entered by Mr.

Boards Proceedings 30th. July 1849 Para 13

Mr. Clarke as for 2,000 Rupees and 800 Rupees, as the Board suppose the lesser Puttah was enhanced by the more extended holding of the Ryot from Rupees 746—4—1 to Rupees 1,015. This year he has fallen back again to Rupees 670, finding that much of the land on which were Tamarind and other trees, was not profitable. This has been taken up by the Ryots of the neighbouring Villages. Altho' there is a falling off in this one Puttah, yet on going through the 50 largest Puttahs granted this year, I found the result was an increase on thirty four a decrease on fifteen, and on one was the same as the Fasly before.—

Rain. 8. The rains I am informed during April, May and June were but

Fort St. George 13th June 1850.

but scanty — they were enough to enable the Ryots to plough, but not to sow, their Punjah land. The Coda crop was however got into the Burghayet ground In July and August, the three Talooks Tadikomboo Nellacottah and Tenkerry received a plentiful supply of rain, of the greatest use for the Punjah and on Burghayet cultivation. This rain however, did not reach Tyempully

DG

Talook

Fort St. George 13th June 1850.

Talook and there was a consequent failure there of dry crops. During the newt six months, in the 3 Talooks mentioned above, the wet crops were duly sown, and had an abundant share of water, except in two Villages, Vaunamputty and Panaputty in Nellacottah, where there was a scarcity of rain, and the Punjah crops failed. In December and January again there was not rain enough for the Cultivators wants, and, in some Villages of Tadikomboo, the crops withered, and shower had to be granted in them, also in one Village in Tenkaray Talook, February was without any rain at all, but a few showers fell in March —

Irrigation

9. I have now to bring to notice the steady increase in the number of Wells and Tanks to be observed yearly —

N°3

Statement of the artificial Sources of Irrigation

Description	Fusly 1253	Fusly 1257	Fusly 1258	Increase in Fusly 1258	Increase in 6 years
Tanks	398	426	428	2	30
Ponds	834	855	906	51	72
Channels	306	379	382	3	76
Anicuts	184	230	232	2	48
Wells	7438	8838	9315	477	1877

Fort St George 13th June 1850

This I trust arises from land being still a good investment for capital, in spite of the fall in the prices noticed in Para 11. Although the number of new Tanks and Wells dug in this Fusly is not as large as that shewn in Mr Blanks Report, last year, and now noted in the Margin, the various sources of irrigation have increased very largely within the last 5 years as shewn above in No 3. Of the two new Tanks, one is a Kirkar work built on the side of an old and long empty tank at Vinoopatchee in Tyempully Talook. The second is in the same Talook and constructed by one Ball Reddy at a cost of 185 Rupees at Pullyoornutto.

Net increase
Tanks 8
Ponds 15
Channels 8
Aniait 1
Wells 309

Crops

10 Taking a general view of the whole Sub Division, it may be safely estimated that there was a fair average crop on dry lands, and the same on Baghoyet, and three fourths on Wet lands But of all crops grown this year, Tobacco was the most productive remuneration and the Saffron and Sugar cane crops were about the worst.

Price of Grain

11. The price of the various grains

Fort St George 13th June 1850.

was a good deal below those of Fusly 1257; and a comparison with the average prices for the last 5 years, shews a still larger falling off. This gradual depreciation in the value of our great agricultural products, must ere long have a very serious effect on the resources of our Cultivators, if some new markets are not found to absorb the increasing supplies drawn from newly cultivated land; but a lengthened discussion on this subject, tho to me it appears a most important one, would be out of place in this Report. I therefore merely beg to call attention to the facts as shewn in the following Statement.

No 4

8612.

Fort St. George 13th June 1850.

No. 4.

Statement exhibiting the Rates of Grain per Kullum of 60 measures in Fusly 1258 and 1257 and the average for Kullum of 60 measures in Fusly 1258 and compared with Fusly 1257 and of the five years.

Cultivation

12.

Hearing noticed the various causes natural and artificial on which the Cultivation of the District chiefly depends, I now annex a Statement shewing the actual Cultivation in each of the 4 Talooks, for the past Fusly, the total amount of which was Rupees 4,97,440-15-10, the net Increase in Fusly 1258 over 1257 being Rupees 25,352-9-10. The excess of the Cultivation over that of Fusly 1256 amounts to Rupees 41,649-5-7, and is Rupees 52,161-12-11 above Fusly 1255.—

But

Fort St. George 13th June 1850

But though on the total of the 4 Talooks there is this large increase, a decrease is to be observed both in Nunjah and Poonjah in two Talooks. In the Nellacottah Talook the decrease in Nunjah is but small, Rupees 170-6-7 the land cultivated, tho' somewhat less than last year, being above the average. I have already mentioned the deficiency of water in two Villages as the cause. In Iyempully there is a decrease both in Nunjah and Punjah, owing to the failure of the rains. Another cause for this is that in this Talook several Tanks are dependant on the same Channel for their supply, and if this is short, the last Tanks are left dry. Thus the Codamungalom and Papancollam tanks were left dry this year, there being only water enough

enough in the Rajahvoikal Channel, on which five Tanks depend, for the full supply of Vyapoory and Siroomaikeneelum tanks, the third Seenkolum got a little, but was not filled. In Viroopatchee, in the Iyempully Talook, there is a decrease under the head of Poonjah. The land is usually cultivated by non residents, who are said to have been frightened away by the prospect of a bad season, and the stringent rules regarding the Dittam, the former was probably the true cause though it is not to be expected that so radical a change could be made without hurting the prejudices of those interested in keeping up the old system.

The

Fort St. George 13th June 1850.

The rules regarding the taking up of lands for cultivation having been brought fully into action, I have this year shewn the actual amount of land agreed for under each head, not the amount cultivated, which is shewn in account No 5. I have further shewn, under the head of Remissions, the amount of lands agreed for, but remitted on due consideration of the nature of the season, resources of the Ryots &c and I trust you will approve of this arrangement, which appears to me to give a clearer view of the actual Settlement than the form used last year. As regards the remissions, the usual ones were made according to custom, and call for no remark. The others dependent on the seasons &c, will be noticed separately.

Cabrolyet Bunjer.

14 As explained in the last Fusly report by Mr Clarke, there has always been much difficulty in getting the Ryots to cultivate the ground they agree for. In Fusly 1257 very great pains were taken by him to explain to the Ryots that

Fort St. George 13th June 1850.

that they were to cultivate, as far as practicable, the lands they agreed for, and not to take up waste land without permission. The following Account will shew that his exertions have not been in vain. This year, though it was necessary to make some pay and so feel their responsibility, most of the Ryots acted up to their agreements. The amount remitted is less than that of the former Fusly, by Rupees 12453-1-8. Of the lands agreed for, only Cawnies 13280-4¾ were left waste, that is 8-10¼ Per Cent on the amount of Dittam. In Fusly 1257 it amounted to Cawnies 22529-14½ or 16-6 Per Cent, whilst of land not in the Dittam only Cs. 7542-6¾ were cultivated against Cawnies 24690-15¼ in Fusly 1257. I believe that the Ryots in general now understand what is required of them, as there have not been many objections raised by them in making the Dittam for the Current Fusly.

From.

8622

Fort St. George 13th June 1850.

Kurjah Shavy.

15. From the want of rains in January and February some crops withered and died before coming to maturity. Shavee was granted in 16 Villages, Sgt. in Tadikomboo Talook 15 by Mr. Clarke and 1 in Tenkaray when you were there. The various heads under which it was refused, are shewn in the annexed Statement No. 8. There was no attempt made to get remission on Crops not forthcoming or Ghoya Thazir - In conformity with the instructions received from your Office, a further sum of Rupees 198-11-0 was disallowed by Mr. Clarke he having satisfied himself of the Ryots capabilities for paying the same from the produce of their other lands, or that the loss was under 15 per Cent, leaving the total Remission granted Rupees 424-5.

J. L. B.

8623

Fort St. George 13th June 1850.

No. 8

Statement shewing the Remission granted on account of Shavy as well as that disallowed for Fusly 1258.-

Remission granted for Shavy				424	5	.

Sugar Cane — 16

	Rs	a	p
In 1257 Fasly.	1932	15	4
In 1258 Ditto	1879	15	3
Decrease	53	0	1

In land under sugar cane there is a falling off of Rupees 53 ½ — 1 the tax on about 8 Cawnies. The cane had been introduced into two new Villages and the decrease is solely in Tyempully and Caused by the want of water — No further remark seems called for, as I shall leave the subject of the rate on tuo Crop land until I am able to give you the explanation called for in your Letter of the 26th September No. 530-

Kararunnatarsee

17. Kararunnatarsee consists of remissions granted on land taken up after the Dittow of remissions of Annas & unit fractions granted to the poorest Class of Ryots and those granted on lands specially agreed for, but unavoidably left waste. The large quantity of land taken up and the want of rain in some parts of the Sub Division sufficiently account for the mereased remission under this head.—

Shrotriem

18. The Shrotriem on remission of 1/4th granted to Bramin Cultivators has

this year been separated from the Seerush

Jamt Statement No. 5 Col 183.—

Cummy and the amount shewn distinctly.—

In the Villoovary or Grass tax

Grass tax — 19.

Jamt Statement No. 5 Col 216—

there is a very large increase of Rupees 1100— 13 — 8 / owing to the rules that were introduced and partially carried out in the Tadicomboo and Tyempully Talooks — These being situated on the borders of Coimbatore are frequented by Graziers who to avoid the tax payable in that District come into this Division, Orders were therefore given directing a tax of 1/4th the regular assessment on Bunger lands used for grazing over — It however was not carried into effect, the Ryots being very averse to it, and throwing every possible obstacle in the way — The land was afterwards given to persons tendering for it, at lower rates but even this was, it is said, strenously objected to, when Mr. Brett was making the settlement — This is not to be wondered at, the tax would press most heavily on the richer Ryots who

who have large heads of Cattle and the men have from their influence and position; but little difficulty in making their complaints heard but as the tax has been suspended by the Board no more need at present be said on the subject.—

20. The Hill Villages all shew a slight increase with the exception of Veroopatchee in which there is a decrease of Rupees 255—6—11 Owing to the nature of the lands and the Custom of the Cultivators who leave land fallow after taking one or two crops of it, there must be frequent changes in these Villages, Veroopatchee is usually cultivated by persons from the Iyengar pully Talook who did not leave their own Villages having enough to do at home this year trying to make the most of the bad season. There was an increase of Rupees 92—4—9 in the Baghaut Cultivation and a decrease of Rupees 347—11—8 in Punjah which leaves a net decrease of Rupees 255

23. There is a small Balance from Fusly 1257 still outstanding owing to some land viz. 106 Coolees assessed at Rupees 22:7:9 on the Sivoomalay hills having been erroneously entered by a new Villadar in the Accounts of the Heelacottay village when they properly belonged to the Amonacherkenoor Zemindar by whose Renter the Assessment was levied when the mistake was discovered. The proceedings connected with this case have been transmitted to your Office for your instructions.

Sevoy Jammah

24. The Sevoy Jammah Accounts for the last three Fuslies is sent along with this. Under the five heads comprised in this term there has been collected a sum of Rupees 240 6-13-10 leaving on 1st November 1849 an outstanding balance of Rupees 1013-7-4.

Of

Of this however the larger portion will very soon be realized. The small balances for land

Col. 23 taken up after Jummabundy Rupees 3-6-4 will be collected this Month. Orders are given to the Tahsildar of Tyempully to settle the dispute so that the Rupees 14-15-10 in Column 24 of the Sevoy Jamma Account marked A may be recovered at once. Under the next head "Fines under Regulation IX of 1822" there is a balance of Rupees 618-5-6. Of this sum Rupees 500 may be written off as the parties are now in Jail not being able to pay. Another person a Police Avany has just paid up half of his fine viz.t Rupees 50 so that there remains to be collected Rupees 68-5-6 for which the necessary steps shall be taken without delay.

Col. 25. The Tahsildar of Nellacottah reports that the persons whose fine of Rupees 15 is still unpaid for Fusly 1256 are poor and unable to pay them. I am making some further enquiries, the result of which shall be made known to you. The remainder will be collected from the first

crops. In Tenkaray alone is there any demands outstanding against service Maniems. A very strict order has been sent on this subject to the Tahsildar and I much regret that my attention was not called to it at an earlier date when enquiring as to the outstanding Balances in the Sub. Division.

Topes

+ Board's Circular 6th April 1848 Para 4.

25. Agreeably to the wishes of the Board I have annexed a Memorandum of the sites for Topes that were applied for under the new Rules. These are but 6 all in the Tenkaray Talook and all for private purposes. Since the commencement of the present Fusly there have been some applications for lease to plant Topes for charitable purposes which are under consideration.

From the Collector of Madura --- }

Sir,

I have the honor to request that you will refer me to any orders that may have been passed with a view to restrict or control the manufacture of salt-petre. It gives great cover to the sale of Earth Salt to prevent which the pre-sence of a Government Peon seems desirable. I deem it probable that there may be some orders extant requiring the permission of the Collector previous to the manufacture, and the payment by the party of the salary of a Peon to be employed as a check in-as-much as the Salt-Establishment cannot afford to detach Peons for the purpose; but I cannot discover such an order.—

I have the honor to inform you that I left this on Saturday last for Chipcolum for the purpose of making an examination of the Pearl Banks, but in consequence of receiving a letter from the Chunkedar informing me that one of the Buoys in the Channel leading into the harbour had drifted on shore here, and as the Boat I was using required some repairs, I returned to Tuticorin Yesterday evening.

2. It was my intention to have commenced the examination on Monday the 18th Instant but in consequence of strong Winds and Cloudy weather I was prevented from getting to Sea before Tuesday on which day I examined three Banks off Vipar; but I am sorry to say the result proved a Completed failure. Not being satisfied with the first day's examination, I made a stretch further out to the Eastward of the same Banks, and in 12 fathoms Water, one of the Boats picked up an Oyster (forwarded by the Peon) but as the circumstance was not reported to me in time I was unable to reach the spot on account of the light contrary wind and lateness of the day. I shall however endeavour to

No. 3

To, C. J. Bird Esqre
Acting Collector
Tinnevelly.

Sir,

Para 1. I regret to have to inform you that in consequence of the unfavorable weather, and the unsettled state of the Sea for some time past I have been prevented from completing the inspection of the Pearl Banks to the North of Tuticorin, and as I fear that nothing further

further can be effected this Season, I have the honor to transmit to you without further delay my report upon those Banks which have been examined, and at the same time I have to request that the balance of the amount granted for the work may be applied in completing the Inspection, when the weather will permit, and also for examining the ground between Tuticorin and Nulla Tunny Teeroo, but beyond the line of Soundings laid down in Captain Franklin's Chart of the Coast.

2. I left Tuticorin on the 16th. of March and proceeded as far as Chilliecolum the same evening in order that all the Boats and Divers might collect to be in readiness to commence the Inspection over the Banks off that place on the 18th.

3. Sunday 17th. I was joined by the Jady Talaven On the 18th. the wind blowing strong from the N.E. with a high Sea the Boats were unable to get off.

4. On the 19th. the examination commenced over the Banks off Chilliecolum but I regret to have to state that no Oysters were found. The day following one Oyster was found on a Bank to the eastward of those examined the day previous.

5. 21st. The principal Boat requiring some repair I took the opportunity of examining the Banks off Hatasewar Teeroo on my return the

Tuticorin

Fort St. George 13th June 1850.

Tutacorin and on one Bank only two Oysters were found. The Inspection recommenced on the 25th when some small Banks off Vypaur were examined on that day and the following but the result was unsuccessful.—

6. 27th The Jady Talavan Divers and Boatmen being all Roman Catholics and having promised that they should spend the Holidays at home I once more left for Tutacorin and on my way intended to examine a Bank of Vulnamurdoor but was prevented doing so by squally weather and heavy rain which obliged me to run for Harbour.—

7. On the 3d April I again left Tutacorin and anchored at Chipsicolum to wait the Jady Talavan who did not make his appearance before the morning of the 5th when we left for Vambar; Light winds on the following day prevented the Boats reaching the Banks.—

8. Sunday the 7th the Boats remained at anchor. In the evening as I was about to embark the Jady Talavan positively refused to proceed further alleging that stormy weather was approaching and not all the arguments that I would advance to the contrary would induce him to go further, I had therefore no alternative

Fort St. George 13th June 1850.—

alternative but to put up with the disappointment and return to Tutacorin on the following day.—

9. On the 18th I again proceeded to the Pearl Banks and having to pass over those which were inspected on the first day (19th March) I was induced from Captain Crawford's report upon them in 1848 to make a further examination but I am much concerned in saying that it was attended with no better success than on the former occasion.—

10. Some small Banks off Vember were examined on the 19th but the result was the same as on the day previous; early in the morning of the 20th the work was carried on over a Bank about 3 Miles to the N. W. of Nulla Tunny Teevoo on which Oysters were found scattered over the whole extent. Sixty were brought up of various ages under 18 Months but as there was no appearance of any older I considered it advisable not to disturb the Bank further. From the circumstances of no old Oysters having been found on this Bank it appears evident that it must have been recently fished, and I am confirmed in this opinion from having found quantities of Pearl Oyster shells on Nulla Tunny Teevoo as well as upon the Banks.

As

As a further proof that the Pearl Banks are plundered I must here mention that since my return from the inspection a quantity of full grown Pearl Oysters shells were found on the beach at this place and within a short distance from the Shank Godown, they had been placed there only two or three days previous and many appeared to have been taken from the Banks at no great distance of time; from the above it would appear that a fishery can scarcely be expected unless the Banks are properly protected and I would strongly recommend that the one off Nulla Tunny Teevoo be strictly watched, if for one year only, as it would be satisfactory to ascertain as whether the Oysters were on the increase or not, and from its proximity to the Island as well as the mainland there would be no difficulty in guarding it.—

11. Some other small Banks were examined off Anapar Teevoo but no Oysters were found on them.—

12. Monday 22d I stood to the Eastward of Shermoodley Teevoo in expectation of finding new ground but light winds prevented me from getting far enough out to sea.—

Some

13. Some ground about 7 miles from Paumben was inspected on the 24th and the result attended with success. I only allowed 25 Oysters to be taken up, they varied in age from one month to two years but did not appear to be quite so numerous as upon the Bank off Nullatunny Teevoo.

14. On the 26th I examined some rocky ground between Sheramoodley and Nullatunny Teevoo but without success.—

15. On the following day the weather proved very unfavorable and as there was every prospect of it continuing I considered it advisable to return to Tutacorin.—

16. Before concluding I must mention that most of the Banks off Tipaur, Chippicolum, and Vambar, on which no Oysters were found, consisted of small detached pieces of Rock mostly rounded which has evidently been caused by the strong currents driving them to and fro thereby preventing the Oysters from adhering to them, I can therefore hold out very little prospect of a fishery from these Banks in future. Quantities of dead Pearl as well as other varieties of shells of which the Chookum (an enemy to the Oysters) was the most numerous were dredged up from all of these Banks. Live shells of any kind

were

were very rare.

17. The Banks where Oysters were found consisted either of large slabs of rocks or large detached pieces firmly fixed or of sufficient size that the current appeared to have little or no effect upon them.—

18. As no dead Pearl shells were found on the Banks were Paumben and as it is more out of the current them any other on the line of the Coast I am led to believe it is one of recent formation No Chooroom or Rullik (another enemy to the Oysters) were found on this Bank on the one off Nullatunny Teevoo—

19. The current no doubt runs much stronger now than formerly which can only be attributed to the opening of the Paumben Channel and from all appearance is evidently the sole cause of the failure of the Pearl Banks of late years on this Coast as well as on that of Ceylon—

20. The large Bank with some smaller ones to the Eastward of this and a Bank of Trichendoor have not yet been inspected. On the former I am in great expectation of meeting with some success as I have no doubt that the shells found on the beach were taken from that Bank by the Bank Divers or Fishermen—

3 The Small Banks off Vypaur
4 The Banks of Pattanamarudoo & Vember.

Oysters were found. Again unsuccessful. Prevented from examining those Banks owing to squally weather and heavy rain and again from light Winds—

Were examined without success.

The examination was unsuccessful.

An Oyster too young to contain pearls was picked up in 12 fathoms water.—

Found Two Oysters too young to contain pearls and a quantity of Old

The Banks off Vypaur Isevoo

The Rocky ground between Nullatunny Isevoo and Shermadly Eastward of the Banks off Vypaur

Some banks off Tutacorin not laid down in the Chart as Pearl Banks.

Resolved that the letter above recorded together with its enclosures be submitted for the consideration and orders of Government with reference to the papers noted in the margin.—

Fort St. George 13th June 1850.

A Bank eastward of that off Ulleppa-colum-
The Banks off Harsewar Teevoo
A Bank about 3 Miles to the North West of Nullatunny Teevoo

old full grown Pearl shells.

Found one Oyster

Found Two Oysters

Oysters were found scattered over the whole extent and 60 of various ages under 18 months were brought up and it was not considered advisable to disturb the Bank further as there was no appearance of any of a greater age.

Some Banks about 7 Miles from Paumben

The supply did not seem to be equal to that off the Banks of Nullatunny Teevoo and only 25 Oysters were allowed to be taken up and varied in age from 1 month to 2 years—

3. The Board consider that the examination of the Pearl Banks off Putnamurdoo which was put off in consequence of bad weather should be undertaken at a more favorable opportunity, as at this Bank and that at Tyfaur no less than 72 Oysters were picked up in 1848.—

4 They are of opinion that on the representations made in Paras 10. 19. & 20. of Mr Robertson's letter to

Fort St. George 13th June 1850.

to the Collector of the 13th May 1850 de-
serve consideration and would re-
commend that the Estimate of Cost
for guarding the Pearl Bank off Nul-
latunny Teevoo for one year amount-
ing to Rupees (450——) Four hundred
and fifty may receive the sanction of
Government.—

5. The Board request the Acting Collector will furnish them with Copy of the Chart alluded to in Para 3 of Mr Robertsons letter to the Acting Collector of 22d March 1850 and desire that he may be supplied with the Compass applied

Fort St. George 13th June 1850.

applied for in para 4 if it has not already been sent to him.

6. They observed that the large Pearl bank with some smaller ones to the Eastward of Tutacorin and a Pearl Bank off Trichendoor have not been searched, and that there is great expectation of success at the former placed, and they hope to receive a more satisfactory report of these Pearl banks and of that off Putnamurdoo after the examination has been completed.

In

Fort St. George 13th June 1850

7. In forwarding the Master attendants report on these Pearl Banks Mr. Bird will state his own views on such points as seem deserving of consideration, and will mark off the Pearl Banks in the Copy of the Chart now called for, that have been visited and examined by that Officer and will include in it all those which may have been discovered since the Chart was prepared distinguishing those banks which consist of large slabs of rock or pieces of a large size against which the Currents running with force are likely not to disturb the Oysters from those consisting of small detached pieces of rock on which the Currents may have a contrary effect.

15 Deputy Collectors Chum 1850

8663 Fort St. George 13th June 1850.

Order thereon. Ordered to be recorded.

35-36

Read the following letters

To W. H. Bayley Esqre
Secretary to the
Board of Revenue

37

Sir

From the Acg. Pt. Collector of Coimbatore

Para 1. I beg to forward 5 more applications for land on the Neilgherries, with descriptions, to the occupation of which, after due enquiry there appears no objection; the above will be put up to Auction, as directed in the Board's Manual, after a Months due notice, if no Contrary Orders are received from the Board.—

2. With regard to all other old applications on Record, so far as can be discovered, they are relinquished, the notification in the Fort St. George Gazette of the 4th January last with every other local enquiry for principals or agents, has been made in vain, they are therefore struck out, should any of them be renewed, they will be duly attended to.—

Board of Revenue

39

Sir,

From the A. P. C. of Coimbatore

Para 1. I have the honor to acknowledge the receipt of the Board's circular dated the 21st. March last, together with extract from a report of the Collector of Guntoor, of the 17th January 1847.

2 The introduction of the several charges therein suggested, is difficult, if not impracticable, as far as this District is concerned. In Coimbatore, instead of a Book, a Cadjan bearing the stamp of the Collector's signature, is furnished to each Ryot, gratis, for the insertion of the several payments of Kist made by him which

Communicating with reference to the Board's Circular of the 21st March last that any modification on the existing form of Accounts in his District is unnecessary.

effectually checks fraud on the part of the Village Officers. The substitution of a book, as proposed by Mr. Hokes, and the recovery of its value, (8 pice each), seems hardly necessary, inasmuch as it tends to alter the existing system without any apparent additional security, and would probably puzzle the Ryots. Nearly all the Cummums in this District are accustomed to write on Cadjans only, not on Paper, which forms another difficulty to the introduction of the receipt Book.

3. With reference to the Bombay "method of keeping accounts in Books "called Kirdi, each leaf bearing the Collector's seal" I presume that this suggestion refers to the account of Receipts and Disbursements in the Talook - if such is the case, I do not see any gain in introducing this method at present; the Talook accounts here are written on common Paper, and a report of receipts, and the amount on hand, is submitted to my Office once in every ten days. No disbursement is allowed from the Talook Treasury, except in cases of emergency, and under special instructions from Head quarters. Hitherto, this system has worked sufficiently well, and

no

no fraud, or other irregularity has occurred. In fact nothing has transpired to question the correctness of the Talook accounts, and I am therefore of opinion, that this practice should not be altered—

4. As already observed, the Cummums in the District being accustomed to write on Cadjans only, the remittance lists from Villages, which exhibit in detail the payment made by each Ryot, are drawn up on Cadjans these are recorded in the Talook Cutcherry regularly, and in case of any doubt, they are referred to— This is sufficiently provides against fraud, and has, for years past, proved a satisfactory arrangement, and I am not aware of a single instance, in which any irregularity was committed without detection and punishment— a fact which renders any change unnecessary—

5 Adverting to "the desire of the "Board that both the Talook and Village "accounts should be prepared in a set form "and so arranged that any tampering, may "be at once perceived on inspection, and "every precaution taken to secure the "efficiency of the Puttah," I would beg leave to observe, that this object is fully attained by the present forms of accounts in this District

District The extent of the holding of each Ryot, the amount of his rental, whether land Revenue or Moturpha, the annual charges in that holding, and their causes, and even the Nos and names of the several fields comprised in it as well as every other minute particulars connected therewith, are so fully explained, both in the Village and Huzoor accounts, altho the forms are different from each other, that the slightest fraud can at once be detected; and I do not see that further modifications are called for— Any change in the existing form of accounts in this District, appears to me calculated to create confusion, and doubt to the Ryot, without any adequate advantage—

Coimbatore 1st June 1850

Collector of Malabar

Memorandum

In reply to the Collectors Memo. of the 22d Instant, the Sub Collector begs to state that it is the interest of the Abkaree Contractor to increase the sale of

of liquor and diminish the inducement to illicit manufacture by his prices. From the prices mentioned in the margin it will be seen that they are not "adapted to check consumption" but have the advantage of not holding out much inducement for illicit manufactures, altho' there still is a considerable amount of fraud, the result of the temptation offered by troops and camp followers who cross the boundary and pay freely for their favorite liquor

Order thereon

Ordered to lie over
Resolved that the following letter be dispatched
To Chief Secretary to Government

(43)

To the Chief Secretary to Government

Submitting the usual Abstract Statement of the transactions in the Salt Department of the Madras Presidency for Fusly 1258 with the Board's observations

Sir,

With reference to Extract from the Minutes of Consultation dated 20th October 1847 and to the Copy of a Despatch from the Honorable Court dated 25th August of same year, communicated therewith, I am directed to submit the accompanying abstract Statement exhibiting at one view the transactions in the Management of the Salt Revenue of the Madras Presidency for Fusly 1258—

The

Fort St. George 13th June 1850.

Store

The Garce being 120 Indian maunds.—

The quantity of Salt in store in all the manufacturing Districts at the commencement of the Fusly was Garce 35,790-20-6 5/16 and the quantity manufactured in the course thereof, Garce 48,322-11-2 9/16 making a total of Garce 84,012-31-3 14/16

Sale

The Sales effected in the various Districts in Fusly 1258, amount to Garce 44,290-38-2-1 10/16 including wastage (Garce 1720-10-8-5/16) of which the following is an Abstract—

Garce	Mds	Mt	How disposed of
26,732	38	7 5 9/16	For consumption within the Madras Territories
12,197	6	6 3/4	For transport into Native states
365	9	3 2/4	To the French Government.
1,331	10	0 "	For export on requisition from Bengal—
1,944	2	6 3/4	For exports on private account to Do and other Places—
42,570	27	4 1 5/16	
1,720	10	8 5/16	Wastage
44,290	38	2 1 10/16	

Balance—

The quantity of Salt remaining in store at the close of the Fusly was Garce 39751-33-0-7/4—

Fort St. George 13th June 1850.

Gross Revenue and Charges

The Gross Revenue derived from Salt in Fusly 1258 amounted to Rupees 4,57,643-7-4, and the charges of every description, exclusive of recoverable on advances, to Rupees 7,61,280-4-3.

Net Revenue.

The net Revenue derived from this article was Rupees 38,15,157-7-10 which compared with the results of the previous Fusly (40,38,326-14-3) shows a net decrease of Rupees 223,169-6-5.

The Chief decrease occurred in the Districts of Chingleput, Nellore, Canara and Malabar, the causes of which were as regards the two first Districts, the opening of the Madras Cotars for supply of the Inland Traffic, and the decline in the price of Grain, which prevented the Brinjaries resorting to the Coast- whilst in the District of Malabar, the falling off is almost entirely attributable to the increased rate paid by Government for the salt and in Canara chiefly to the fact that in the previous Fusly the Traders laid in larger stocks than usual, the sales of Fusly 1257 being 60,366 Rupees above those of Fusly 1256, as will be found more fully detailed in the Board's proceedings upon the management of the Exctra Sources of Revenue in each District in Fusly 1258.—

* Dated 21st Jany 1850
" 28th Febry "
" 8th April "
" 11th Do "

Prices.

There has been no alteration in the Prices of salt during the past Fusly.—

Read Return of Public servants suspended and dismissed in the District of Salem for the Quarter ending 31st March 1850.

(44)

Proceedings

The only case entered in this Return is that of Revenue Jamadaar of Seeneevassiegan who was suspended for rendering false Returns, but it is not stated whether they were wilfully so rendered, or for what period he was suspended. Some definite period of suspension should invariably be fixed in such cases. If it extends to the quarter ending 30th June Mr. Maltby will supply the omission in that Return.

Sent the following Letters.

(45)

To the Acting Collector of South Arcot.

To the Acting Collector of South Arcot

Sir,

I am directed by the Board of Revenue with reference to your endorsement on Petition 2782 of 1848 from Tasoor Iyenna Ayaur to request that you will state with reference to the claims preferred by Petitioner to a Back yard and Well, what is the nature of the lands mentioned in your endorsement, and report generally on the accompanying Petition from that party,

To the Acting Collector of South Arcot.

To the Acting Collector of South Arcot

No. 780 of 1850

Sir,

With reference to your Endorsement on a Petition from Veroonal Rungacharry of your District on the subject of certain Maniem lands claimed by him, I am directed by the Board of Revenue to point out to you that grants under Regulation VI of 1831, are not considered as Ancestral but self acquired property, and do not fall necessarily under the Hindoo Law of succession.

You will be pleased therefore to examine the documents to which the Petitioner refers and submit your opinion as to whether any claims founded on it, should under all the circumstances be recognized by Government.

Revenue Board Office,
Fort St. George, 13th June, 1850.

To All Collectors except Canara Guntoor Rajahmundry & Sea Customs Madras

Circular

Sir,

Government having deemed it advisable to have the Saderwared Estimates of the several Districts carefully revised with reference to the charges which have occurred since 1834 especially in the Land and Sea Customs Department, I am directed by the Board of Revenue to request that you will submit fresh Estimates prepared accordingly, one for the Revenue and the other for the Magistrates Department in the Forms which accompanied the Board's Circular of the 11th February 1833. The details of Saderwared to be exhibited in Columns 1-2-3 should consist of the average of each article expended during the past three years 1847-48-849 and the Columns 4 & 5 of the Estimate it is hoped will shew a considerable reduction.

2, The causes of increase or

Fort St. George 13th June 1850

or decrease in Columns 6 & 7. should be concisely stated in Column 8. and a Memo should be annexed at the foot of the estimate shewing the total sums which have hitherto regulated the disbursements of Sadarwared and those proposed for Fusly 1260 for future guidance.

Revenue Board Office,
Fort St. George,

Circular to all Collectors and Copy to Commissioner Northern Circars

50

Sir,

Circular.

Statements of the extent of cultivation of Sugar Cane are furnished annually to this Office from several districts, but with a view of securing uniformity and the receipt of returns from all the Provinces, as well as to render the accounts as simple and convenient as possible, the Board of Revenue have directed me to circulate the accompanying forms, and to request that you will submit annually with

Fort St. George 13th June 1850

with your settlement reports, a Statement prepared in conformity with it, in substitution of that which you may have hitherto furnished under special instructions from this Office.

Revenue Board Office,
