District it will be carried into effect from the ensuing Fasly which commences on the 12th July 1850. or if they consider any further modification advisable, I shall be prepared to attend to their instructions.

13. In my letter to the Board of the 4th June 1849 No. 66 I expressed my opinion, that the employment of a Peon and a sweeper, at 5 and 3 Rupees a Months respectively, on the Chettrums on, and below the Hasanoor Ghaut, will be quite sufficien for the maintenance of the Buildings. It now appeares to me on further considera=tion, and enquiry, that the allowance of these Chettrums should be assimilated to others in the District, and I therefore propose that the Tusdeek for them be fixed at 108 Rupees each per annum, but not to commence till the Ghaut be in use and the allowance required.

14. Besides the above, there are 5 bona fide private Chettrums Built and supported by private Individuals.

15. As an instance of how greatly the Chettrums need enquiry and control, I beg to refer to the translations forwarded in my letter of the 28th Instant to the Board of Revenue.

3 From the Secy to Government - Calling for explanation of the balances outstanding in several Districts on account Land Revenue as entered in the Statements of Demand Collection & Balance submitted by the Board.

Extract from the Minutes of Consultation, under date the 16th July 1850:

Read the following letter from the Secretary to the Board of Revenue.

(Here enter 21st June 1850 No. 263)

Para 7 The Right Honorable the Governor in Council observes from Column III of Statement A which accompanied the above letter that the balance of Current Land Revenue is very large in all the Districts under the Commissioner of the Northern Circars except Long Guntoor and especially so in Masulipatam where it amounts.

Fort St. George 25th July 1850.

amounts to Rupees 2,28,688 and in Ganjam Rupees 59,240. The arrears on account of previous Fasulies in Guntoor are also very large being Rupees 5,16,240. of which Rupees 1,08,823 are of more than 15 years standing. The balances on the Districts under the Board is highest in Chingleput Rupees 6,457 Salem 1,03,437 Madura 2,54,630 Tanjore 2,42,360 and Canara 49,3059.

2. The Governor in Council requires to call the attention of the Board and of the Commissioner respectively to the balances above noticed and he would wish to receive some explanation on the subject.

for respecting the outstanding balances of certain Districts on the 30th April 1850.

Chingleput.
Salem.
Madura.
Tanjore.
Canara.

for the information of the Right Honorable the Governor in Council the following explanation respecting the outstanding balances in the Districts noted in the Margin on the 30th April 1850.

To Govt 24th June 1850.

2. The entries in Column III of Statement A referred to in the above Extract do not in every instance represent the balances properly so called of the Current Revenue. In settled Districts the amount of Kist falling due in each month being fixed the demand is of course defined and known, but in the case of lands under Amany the practice is until the Jummabundy is completed to fill up the Columns intended to show the Current Kists with the amount actually collected or as is the case in some few Districts with the Demand of the corresponding period of the previous year. Where the latter course is followed the balance under the head of Amany Pyotwar is in some measure necessarily fictitious and of such

such description are the balances in Tanjore and Canara.

Tanjore 3. The amount outstanding in the former is 2,42,350-9-4 as shewn in the margin and is the difference between the collection up to April and the proportion of the settled demand of July 1258 falling due in that month according to the regulated Kistbundy of the District.

	Total Demand	Kist due	Collection	Balance
Peishcush	3,15,143-10-3	25,131-10-2	560-10-2	
Amany	37,32,953-8-1	2,05,093-6-5	2,10,993-7-3	26,159-15-2
	37,04,097-6-3	2,30,225-2-9	2,11,554-1-5	26,159-15-2
				2,42,350-9-4

Canara

Total demand being the Settlement of July 1258 - 1,85,524-4-5

Amount of Kist due - 169,276-10-2

Collection - 129,216-13-3

Balance 49,059-12-11

4. In Canara likewise the demand entered is 90 per cent of the settlement of July 1258 that being the per centage of the entire Berij falling due in april, crediting the collections actually brought to account Viz.t Rupees 129,216-13-3 the residue Rupees 49,059-2-11 appears as the balance of Current Revenue, last of this more than 1/3 would seem to have been realized subsequently up to the date of the transmission of the return.

Vide remark in Cl.27 of the Statement.

5. In the other Districts enumerated only

by Government the actual collections are entered as the Demand and the Balances notwithstanding occur entirely under the head of Peishcush.

Chingleput 6. The Chingleput balance

	Total Demand	Kist due	Collection	Balance

(Here enter 20th June 1850 No 261)

The Right Honorable the Governor in Council observes from the Statement A received with the above letter that in two Districts the Contingent Charges of 1849 greatly exceeded those of the previous year. In Trichinopoly the charges of 1848 were only Rupees 16-7-9 whereas in 1849 they amounted to Rupees 50-15-10 00 likewise in Coimbatore the charges of 1848 were 15 Rupees and amounted to Rupees 114-12-7 in 1849. He desires that the cause of this excess as well as the increase of expence in the Sub Treasurer's Office may be explained before final sanction is given and calls the attention of the Board of Revenue to the orders of Government on the

Specifying the several modifications which the Government have made in the Draft Act for securing the Land Revenue

Read the following letters from the Secretary to the Board of Revenue.

Here enter 1st October & 20 Dec 1849 (Nos 426 and 549)

Para 1. In the first of these communications the Board

10726 Fort St. George 25th July 1850

Revenue of Madras and calling for information on certain points connected therewith

Board of Revenue recommend the enactment of a law for securing the land revenue of Madras similar to that which had been proposed for Calcutta, and they submit a Draft with the modifications they consider necessary to adopt the law proposed for Calcutta to the Presidency. In the second letter the Board submit the Draft of a section to be added to the said Draft Act to authorize the Collector of Madras to enter upon Lands subject to Assessment for the purpose of measuring them.

2. It appears from the correspondence noted in the Margin that a question arose in 1843 regarding the power possessed by the Collector to recover by distraint the arrears of Government Land Rent on Lands situated within the limits of the Jurisdiction of the Supreme Court. This question having been submitted to the Government of India in view to its being referred for the consideration of

of the Law Commissioners, it was observed by that Government in reply, that the practice which had obtained at Madras was the same as had always prevailed at Calcutta, and that the power to resort to distraint had there as at Madras, merely the sanction of custom but as no actual inconvenience had been experienced at either Presidency in enforcing the payment of the Government dues, there did not seem to be an immediate or urgent necessity for legislating on the subject. It is to be presumed that some occasion has arisen at Calcutta which has proved the necessity of sanctioning the practice by a legislative enactment. This Government has yet had no practical proofs of the necessity of a law, but it is not fitting that the Collector should be left in any doubt of his authority to resort to distraint, and it is not to resort to distraint, and it is not expedient to expose him to the chance of a law suit in the Supreme Court if he does resort to it. The Act proposed for Calcutta it is observed, has just been passed into Law as Act XXIII 1850, and it is much to be desired that a law of the same nature

8th June 1850

nature should be passed for this Residency with the necessary adaptations.-

3 The Right Honorable the Governor in Council now proceeds to make a few remarks upon the Draft submitted by the Board of Revenue as containing the modification of the intended law for Calcutta requisite to adapt it to Madras.

4. In the preamble and section I of the Madras Draft reference is made to the Jurisdiction of the Supreme Court which is avoided in the Calcutta Act- It may be avoided also in that for Madras by adopting the following words "within the limits of the Town of "Madras as defined in Section XII Regulation II of 1802."-

5 Section II of the Board's Draft differs from Section I of the Calcutta act which specifies a single fixed rate of assessment- The Governor in Council thinks that at least the maximum rate should be specified. The usual rate of assessment upon land at Madras is understood to be Rupees 5-4-- per Cawnie, but it is not improbable that

that a higher rate may be charged for some descriptions of land or for land situated in certain localities.- The Board of Revenue will be requested to ascertain and report what rate per Cawnie it will be proper to specify in the act as the maximum rate to be charged on such land within the Madras Collectorate as may not hitherto have been assessed.-

6 It seems to the Governor in Council that the section (III in the Board's Draft) which defines those tenures which are to be considered Lakiraj should follow the first section as is the case in the Calcutta Act and appears the preferable arrangement. The first section declares that all assessable lands shall be assessed and that immediately succeeding indicates what lands are not assessable and therefore exempt from the operation of the first section.-

7. In Section IV of their Draft the Board have substituted the words "grant or Certificate" for the general term Lease employed in the

Fort St. George 25th July 1850

+ Sec. III.

the Calcutta Act. It would under any circumstances be requisite to enlarge the above expression so as to include the "Instruments" the use of which was introduced in 1828; but it appears to the Governor in Council that it would be better to modify the section so as to avoid the specification of the several descriptions of instrument under which the land is held at Madras. -

8. The proposal in the Board's letter of 20th December for conferring upon the Collector authority to enter upon land for the purpose of measuring it when it may be suspected of being in excess of the extent for which assessment has been charged, seems quite proper. It will however be necessary to arm him with the same power in regard to the measurement for purposes of assessment of land upon which an assessment has yet to be fixed. - The same Section may provide for both these objects. - It will also be but just to declare that as parties whose holdings may

Fort St. George 25th July 1850

may be of larger extent than that for which they have been charged should be liable to additional assessment for the excess quantity so those whose holdings are of smaller extent shall be entitled to a reduction. -

9. - In the Calcutta Act as recently passed an addition has been made to Section III. of the original Draft to the effect that the distress and sale of goods seized for arrears of assessment shall be conducted in the manner appointed for regulating distress for small rents in Calcutta under Act VII. of 1847 and that for the purpose of such distress and sale the Collector shall have the powers of a Commissioner of the Court for the recovery of small debts referred to in that Act - The provisions of this Act have been extended to the Madras Presidency by Act IX 1850, and it will therefore be desirable to make a similar addition to the corresponding Section of the Act for securing the Madras land Revenue. -

10 Under these considerations the Government have modified the Draft

10732

Fort St. George 25th July 1850.

Draft Act sent up by the Board and have altered its first Sections so as to meet the views expressed in the preceding Paras, and they resolve, on being furnished with the information called for from the Board of Revenue in Para 5 as to the maximum rate of assessment to be specified in the Act to transmit the revised Draft to Calcutta to be laid before the Legislative Council. It is requested that the information may be supplied by the Board at an early date.—

subject to an appeal to the Board of Revenue, to be made within 6 Months from the Notification by the Collector of the assessment fixed by him. The decision of the Board of Revenue upon such appeal shall be final.—

IV The Collector may order any assessable land, or land already assessed or charged with a rent payable to the East India Company, to be measured for the purpose of determining the amount of assessment to be imposed, or in the case of land already assessed or charged with a rent, for the purpose of ascertaining whether the actual dimensions and the dimensions upon which the amount of assessment, or rent, was calculated, correspond.

V. Whenever upon the measurement of any land under the preceding section it shall be found that the dimensions upon which the amount of assessment or rent was calculated exceed the actual dimensions, a proportionate abatement shall be made for the excess, on the demand of the party entitled to claim it.—

VI On the other hand when the actual dimensions exceed the

Fort St. George 25th July 1850.

dimensions upon which the amount of assessment or rent was calculated, the excess shall be charged at the same rate as the rest of the land, the possession being left undisturbed as Provided that when it shall appear that the excess has been caused by the surreptitious usurpation of ground belonging to another tenure, the act of the Collector in assessing it, shall not prejudice the holder of such other tenure in any effort he may make to recover the ground usurped from it. An appeal shall lie to the Board of Revenue against any extra assessment or additional rent charged by the Collector for excess by measurement under this section, if preferred within six Months from the date of the Collector's order upon such appeal the decision of the Board of Revenue shall be final.—

VII. If any owner of assessed land, or any person holding land subject to a rent payable to the East India Company, shall upon the written demand of the Collector refuse or neglect to

Fort St. George 25th July 1850.

to pay any sum at which the land is assessed or with which it is charged as rent, the Collector may levy the same, by distress and sale of the goods and chattles, wheresoever found, of such owner or lessee, or after written demand upon the tenant or occupier, and his refusal or neglect to pay the sum lawfully demanded, by distress and sale of any Goods and Chattles found upon the land, in the manner appointed for regulating distresses for small rents in Calcutta — by Act VII 1847 extended to Madras by Section 89 Act IX 1850 and, for the purpose of any such distress and sale, the Collector shall have all the powers of a Judge of the Court of small Causes under Section 89 Act IX 1850 aforesaid, and the Collector shall have power to appoint any of his officers to perform the duties of Bailiffs and Appraisers, and of the Chief Clerk of the said Court, as provided by the said Act VII of 1847 and all the provisions of the said Act relating to the Commissioners

for

Fort St. George 25th July 1850.

for the recovery of small debts and their Court shall be deemed to apply to the said Collector and his Office in the execution of this Act.-

VIII. In the case of payment by any tenant or occupier, not holding immediately under the East India Company or the seizure and sale of his property, he may deduct the amount of the payment or levy from the next payment of rent to his landlord.-

IX The claim of the East India Company for Land Revenue or rent has priority over all other claims upon the land or to which property distrained upon the land may be liable.-

X. If the Collector's Claim for arrears of rent is disputed, the process of distraint and sale shall not be stayed, unless the amount claimed be lodged with the Collector.-

XI Arrears of rent or Revenue due to the East India Company are recoverable within six years next after the same are due, or next after

after an acknowledgment of the same in writing has been given by the person by whom the same is payable or his Agent, and not afterwards.-

XII When a claim to hold land Lakiraj, or free of assessment, shall be set up under this Act, the Collector shall enquire into the claim taking such evidence as the claimant may offer, or the public Records supply and shall report his proceedings in the Case for the Consideration of the Board of Revenue. If the Board of Revenue are satisfied of the validity of the claim, they shall make an order accordingly, and such order shall be final. If they are not satisfied of the validity of the Claim, they shall direct the Collector to assess the land leaving the Claimant to contest the Collector's demand in the Civil Courts as herein provided.-

XIII. Any person obstructing or molesting the Collector, or any of his subordinate officers in the execution of their duty shall, on conviction before a Magistrate of the Town of Madras, be liable to a fine

fine not exceeding Five hundred Rupees, and in default of payment to imprisonment in the Common Gaol for a term not exceeding Six Months, or until the fine is sooner paid.-

XIV. The Collector may punish any Contempt Committed in his presence, in open Cutcherry or Office by fine not exceeding Two hundred Rupees, and in default of payment by imprisonment in the Common Gaol for a term not exceeding one month. From every such order of fine or imprisonment an appeal shall lie to the Board of Revenue whose decision shall be final.-

XV. The Collector shall act in the execution of this Act under the usual Control of the Superior Revenue authorities.-

XVI The Ground Rents payable to the East India Company from lands in Madras are Revenue within the meaning of the Act of Parliament 21 George III Chapter 70, and the Supreme Court of Judicature established by Royal Charter at Madras has not any Civil Jurisdiction concerning the said

said Ground Rents, or concerning any thing ordered or done in the assessment or Collection thereof.-

XVII All actions concerning any trespass or injury committed by any Revenue officer acting under Clau of this Act or concerning any Claim in respect of any goods taken by or any monies paid to any Revenue officer under this Act, or concerning any claim of Rent or Revenue on the part of the East India Company under this Act shall be tried and deter=mined in the Civil Courts establish=ed by the East India Company in the Zillah of Chingleput, not with=standing that the cause of action in respect of which such action is brought, arose or the defendant thereon reside, within the limits of the Town of Madras, and every such action shall be brought within six Months after the Cause of action arose and not afterwards.-

XVIII. The words "Collector" and "Board of Re=venue" used in this Act shall be taken to mean any person or persons lawfully appointed to exercise the powers vested in the Collector

and Board of Revenue respectively under this Act.-

and approves of the proposition of the Collector of Trichinopoly for disbursing to her annually for the next four years, one-third of the actual proceeds of the resumed Enam of Cottapatte. The Collector, it is observed does not suggest as supposed by the Board of Revenue, that the future payments of Kureem Sahibah for the above period should be limited to Rupees 31-15-11 per annum, which is less than one-half of the sum paid to her for the preceding year, but that the mode adopted by him of adjusting the one-third share for Fasly 1259 should be followed until the amount can be fixed upon an average of 7 years, as directed by Government.

2 The Civil Auditor will consider this Resolution a sufficient authority for admitting the payments from Fasly 1260 to 1263, on the Collector certifying in support of the charge, the net proceeds of the Enam for each year.—

2 In reply I beg to state that no steps were adopted by my Predecessor in consequence of the orders in question: nor am I disposed to think that any beneficial results would be likely to follow the promulgation of the views of Government on the subject. The native dealers are not slow in finding out

what articles are most in demand and where the best and cheapest are to be had, and I am persuaded that where circumstances admit of the growth of articles adopted for exportation or home consumption with a fair prospect of remuneration there they will be grown and thither merchants will resort, and even European Capital will be attracted. No other stimulus has been required to establish a considerable trade in sugar in this District for which the soil and climate appear to be eminently adapted. A trade in oil seeds has arisen from the same cause, and whatever else the District can produce would, I doubt not, in like manner obtain favour in the Eyes of the Cultivators if only there were a remunerative demand for it. I look upon it as impracticable to induce the Cultivators to turn their attention to the raising of Agricultural produce by the System contemplated in the orders in question. I have made the experiment elsewhere

elsewhere and after having had my hopes raised to believe that some impression has been made I have found that a short relaxation of attention consequent upon my own temporary absence has entirely abolished all the good that had appa-rently been effected. Many things indeed must be combined to give effect to such a System. It may possibly be in a few instances successful in bringing to light latent resources but there are some obstacles which it can never overcome - and such I take it to be those which stand in the way of any prospect of greatly improving the Agricultural products of Ganjam. No System of rewards would have intro-duced the manufacture of Sugar here if the soil and climate had not been suited to the growth of the Cane and the assessment and other circum-stances such as to render it a profitable article, nor could it have achieved the success which has followed this happy Combination of Circumstances.

3 What is wanted here is to stimulate Agricultural Industry is not medals and honorary rewards however

liberally bestowed but attention (in the first place) to the means of transit, for the improvement of which scarcely any efforts have been made and upon this subject representation will be made in the proper place.—

From the Collector of Masulipatam... Submitting opinion on the subject of Salt wastage and Rowanahs and transmitting a specimen of the revised form proposed accompanied with the one now in use.

Sir,

Para 1 I have the honor to acknowledge the receipt of an extract from the Proceedings of the Board of Revenue dated the 15th April last forwarding for consideration, Copy of a proposed set of Salt rules, and desiring my opinion on the subject of Salt wastage and Rowanahs.—

2 It does not occur to me to suggest any material alteration in the rules proposed which appear to be well adapted to secure the interests

interests of Government in every respect.
The only provision contained in them
which would involve a change in
the system heretofore pursued in this
District are touched upon in the 17th
and 18th rules: the first of which provides
for the entire discontinuance of the
Parah, and the latter enacts that not
less than 20 Measals shall be sold to
any one person.

3. The expediency of using the
Parah of 5 Measals as the measure for
receiving and distributing salt in this
District has been so fully discussed
in the Correspondence noted in the
Margin, that it seems hardly necessary
to recapitulate the arguments which
have been adduced in its favor, the
more especially as a reference to the
correspondence has induced the
Board within a very short period
to sanction until further orders
the continuance of the practice of
measuring by the Parah. Should it be
ultimately decided however that the Measal
is to be introduced generally as the standard
measure, I shall be prepared to submit

for sanction the charges on account
of additional measures, and new
measals adverted to in my letter
of the 9th May.

4. Referring to rule 18 by
which 20 Measals is fixed as the
minimum quantity to be sold to
any one person, I beg to state that
it has for a long time past been the
practice to sell one Parah, or 5 Measals
at the heaps for retail sale, and
even for this quantity the pewanah
has generally to be made out in the
name of more than one individual.
It appears to me therefore that to raise
the minimum to 20 Measals would
be only extending the opportunities
of fraud which must necessarily be
afforded on the subdivision amongst
many sharers of the quantity covered
by a single pewanah.

5 The subject of wastage
is one which has caused me much
consideration, and regarding which,
the more I see of the actual manual &
operations of storing and measuring out
salt the more convinced I have
become

become of the extreme difficulty of forming any very accurate calculation of its amount. The actual out-turn from the Parah, or Measure, depends so very much upon the manner in which these measures are filled, that the salt being dashed into the measure with any degree of force, or the measures being raised by any accident or design, an inch or two from the Ground and then suddenly dropped, may cause a difference of not less than three or four per cent. It is thus easy to imagine that in salt received into Store by careful measurement, and subsequently given out in the manner above described, a very large wastage might occur, without any fraud being intended by the parties in Charge. Some check upon wastage of this kind might be effected by providing that each heap should be measured out by the same parties who stored it, but this of course can hardly be practicable in all cases.

6 The usual explanation of wastage given by the salt servants is grounded on the circumstance of its having been found necessary on account of impending rain or other causes to heap the salt before it has become throughly dry, such a proceeding will of course entail much wastage; but it is sometimes almost unavoidable in consequence of the system of manufacturing or collecting Swamp salt, by means of Coolies immediately employed by Government. I believe that in some Districts it is the practice to receive the article from individuals who contract to supply the same at a price settled by competition, by this means none but salt of a proper quality and sufficiently dry to remain for some time in the heap without any material wastage would be received into Store. Should the Board approve of the substitution of this practice for the one at present in force I see no reason why it should not be tried at the expiration of the present season.

7. From the circumstances mentioned above

become of the extreme difficulty of forming any very accurate calculation of its amount. The actual out-turn from the Parah, or Marah, depends so very much upon the manner in which these measures are filled, that the salt being darked into the measure with any degree of force, or the measures being passed by any accident or design, an inch or two from the ground and then suddenly dropped, may cause a difference of not less than three or four per cent. It is then easy to imagine that in salt received into store by careful measurement, and subsequently given out in the manner above described, a very large wastage might occur, without any fraud being intended by the parties in charge. Some check upon wastage of this kind might be effected by providing that each heap should be measured out by the same parties who stored it, but this of course can hardly be practicable in all cases.

The usual explanation of wastage given by the salt servants is grounded on the circumstance of its having been found necessary on account of impending rain or other causes to heap the salt before it has become thoroughly dry which a proceeding will of course entail much wastage; but it is sometimes almost unavoidable in consequence of the system of manufacturing or collecting Swamp salt, by means of Coolies immediately employed by Government. I believe that in some Districts it is the practice to receive the article from individuals who contract to supply the same at a price settled by competition, by this means none but salt of a proper quality and sufficiently dry to remain for some time in the heap without any material wastage need be received into store. Should the Board approve of the substitution of this practice for the one at present in force I see no reason why it should not be tried at the expiration of the present season.

7. From the circumstances

above it will be seen that it is by no means easy to fix definitively the amount of wastage which should not under any circumstances be exceeded, but from all the information I have been able to collect as I have reason to believe that salt stored in large heaps is less liable to wastage in proportion than if stored in small heaps and that salt continues to waste from remaining long in store, I think that the rate of wastage on salt received by contract as above suggested might reasonably be fixed at half a Garce in the 20 Garce heap for the first, and one Garce for the second and each succeeding year.

8. As regards Rowanahs a few additional Columns inserted in the forms now in use, shewing the year of manufacture, the Number of the heap and one or two other particulars, would I think be sufficient to answer every purpose required. A specimen of the revised form

form proposed is herewith submitted.

9. The usual practice is that the number of bullocks, Bandies, &c. entered in those Rowanahs which are issued to cover salt for exportation beyond the Frontier is examined by the Goomastahs at the Frontier stations by whom they are returned after registering to the Hoozoor for examination and comparison with the accounts received from the salt Annecuts. As regards salt intended for consumption in the interior of the District or in the neighbouring ones, the Tahsildars might be required to Examine, on the arrival of the article at its destination, the number of Bullocks and entered in the Rowanahs, and to certify such examination on the back of those documents in returning them to the Collector of the District from which they may have been issued.—

Sir,

From the Collector of Guntoor. } Para 1. I have the honor to acknowledge the receipt of your letter of the 6th instant calling for further information relative to the Charge for batta to Cuttoobadee peons for guarding the Kristna fords in Fusly 1258.

Explaining the Charge for Cuttoobadee Peons for guarding the Kristna fords in Fusly 1258 called for in the Board's letter of the 6th instant and forwarding Copy of a letter addressed to the Resident at Hyderabad.

2. The practice of calling out the Cuttoobadee peons and employing them together with Extra peons to guard the fords leading from the Nizam's Territories, during the time the River continued fordable, appears to have been first resorted to during the prevalence of robbery, consequent on the great famine of 1833, and to have continued every year until my appointment. 3. Not being satisfied of the necessity of this practice, I restricted it in Fusly 1252 to a much smaller limit than previously and in the next 3 years discontinued it entirely. In Fusly 1256 a small charge was incurred under the circumstances noted in your letter. In March 1848 a daring Gang robbery was committed in the House of Mittoo Papereddy, a wealthy Ryot of Rutchamullepad in the Timmercota Talook by a party from the Nizam's Territories, and as it subsequently appeared, in the employ of a Zemindar named Cumbum Rayanah of Kampully- application having been made to the Resident several parties, including the Zemindar himself were committed to the Session Court of Guntoor, and the Tahsildar having urgently represented the probability of further incursions, was authorized until the rise of the River, to employ Cuttoobadies to such extent as might be strictly necessary. Of the charge on this account Rupees 75— 12 —" was paid in Fusly 1258 and is included in the amount now adverted

adverted upon.—

4. In December 1848 the same Tahsildar again reported that the relations of Cumbum Royamnah, who had died in Jail, had levied war against another Zemindar of the family Chinnah, who had assisted in apprehending Royamnah, and that great fears were entertained by the Palnad Ryots, that they would again cross the River and plunder some of the Villages. Before however complying with the Tahsildar's recommendation I ordered him to depute peons to visit the Nizam's Villages referred to, and procure correct information by their own personal inquiries. I also addressed a letter to the Resident of which a copy is enclosed. On the Tahsildar's again reporting that the peons sent by him had confirmed his previous Statement he was allowed by an order dated 1st February 1849 to employ Cuttoobadies as sparingly as possible, and the result was the disbursement of Rupees 190—8—0—

To Resident 5th January 1849.—

5. The payment to Cuttoobadies of batta when employed out of their own Villages, as is the case, when they guard the Kistna, at the rate of 4 Dubs or 1 Anna 3 pice per day has been always customary in this District, and an allusion to the Custom is made in para 4 of my letter to the Board dated 2d October 1847.—

6. Under these circumstances I trust the Board will see no difficulty in passing the Charge.

7. In the Current Fusly the Tahsildars again strongly represented the need of guarding the Fords, but as it did not appear that any special necessity existed compliance with their application was withheld.—

From the Collector of Guntoor. 1.

Stating in reply to Circular of the 30th May that 3 Medals were given for Cotton in this District but the offer of Prizes had led to no improvement which is only looked for thro the instrumentality of Local agents of Merchants with Capital to make advances for exportable produce—

Sir,

I have the honor to acknowledge the receipt of your Circular dated the 30th May communicating para 5 of the Minutes of Consultation dated the 23d April, and calling upon me to report what has been done in this District in consequence of the Board's Circular dated the 28th August 1845, together with my own opinion as to the encouragement of competition in agricultural Industry.—

2. The notifications from time to time issued by the Horticultural Society, were communicated to the Tahsildars for publication in their respective Villages, but up to this day not a single sample appears to have been submitted from this District. On the 11th February 1846, I applied to the Secretary of the Horticultural Society for five Medals to be distributed, one for each of the 5 Talooks noted in the Margin, to the grower of the best Cotton, the only article produced in this District for which a prize was offered. Six Medals were accordingly furnished to me with the Board's letter of the 28th January 1847.—

3- The invitations to compete for Medals were again circulated in that year in Cotton growing Talooks, but received with the gre indifference, no Cultivator coming forward at the appointed time- The Tahsildars were then directed to assemble some Ryots with the Cott by them, and to pronounce upon the best to produc This was done accordingly and a Medal was given to a Ryot of Timmarecottah Talook-

4- In the year 1848 a similar course was adopted, and a Medal given to a Ryot of Coorapad; a while a third was given in 1849 to one of Imaconda for a good specimen of Mexican Cotton grown under well irrigation- In no Case however did competitors volun- tarily come forward-

5- Three Medals are still on hand-

6- As regards this District, I cannot see that the distribution or offer of prizes has had any effect whatever in stimulating improvement-

7- The only process that occurs to me as likely, here at least, to have the effect intended, would be the residence in the District of agents connected with Merchants of Capital, able and willing to furnish advances for the Collection of exportable produce, which could easily be done throug the Agency of the Comatties- The supply at first might be limited, but it would rise with the demand, and improv in quality-

From the Collector of Singlepat — } Sir,

Submits the information called for regarding the system of Village and Talook accounts prevailing in this District.—

Adverting to Extract from the Proceedings of the Board of Revenue under date the 21st March last, I have the honor to submit the following information in regard to the system of Village and Talook accounts prevailing in this District, from which the Board will observe that the checks on the introduction of which into Guntoor so much praise has been bestowed having long existed in this District.—

The net demand against each Ryot for the year and the Kistbundy or instalments are particularized in the Puttah which is issued to him on a Cadjan leaf, with the seal of the Collector at the annual Settlement.—

Each payment made by a Ryot is entered by the Carnum or Notagar of the Village on a Cadjan styled a "Ryeehaut" which is furnished to the Ryot at the commencement of the Fusly, with the seal of the Takseildar, and serves

10779

Fort St. George 25th July 1850.

serves him as his receipt book—the Carnum or Notagar is likewise furnished with a bundle of Cadjan leaves, each leaf bearing a number, and the seal of the Takseildar, in which he writes the Tundal or the accounts of the Village collections made from the Ryots, and the Remittances of the collections to the Talook—A counterpart of this is also kept in the Talook Cutcherry.—

When Remittances are sent to the Talook from the Villages, they are invariably accompanied with an Eroosalnamah or a Cadjan leaf specifying the net amount, and the different descriptions of coins remitted, as also by another leaf, containing abstracts from the Tundal accounts of the individual collections which form the remittance.—

On the receipt of the remittance at the Talook, it is accounted by the Shroff in the presence of the Nugdee Goomastah, and the amount is entered by the former on Chittahs of Cadjan leaves, and by the latter on Chittahs of paper.—The remittance is then deposited in the Treasury box, which the accompanying

Fort St. George 25th July 1850.

accompanying Erroosalnamah and Tundal are secured by the Shroff and Sumjeetty respectively. A receipt is also given for the amount to the Villagers attested by the Talook Shroff, Nuydee Goomastah, Sheristadar, and Tahsildar, if present at the Cusbah, on a Paper which is furnished to each Village for that purpose.-

When orders are received from the Collector to expend money on Maramut work's &c.a the Shroff and the Nuydee Goomastah, on the order of the Tahsildar, disburse the amount debiting it on Chittahs of Cadjan leaf and paper respectively.-

It is the duty of the Tahsildar or Talook Sheristadar daily to examine these Chittahs of receipts and expenditure, and attest them by his signature. Whenever doubts may arise as regards the accuracy of the accounts, their real state can be easily ascertained by a Comparison with the Village Tundal accounts, or with those of the Village.-

These arrangements appear sufficient and do not seem to call for amendment.-

Sir,

Para 1. I have the honor to acknowledge an Extract from the Proceedings of the Board of Revenue dated June 10th 1850 forwarding an Extract from Minutes of Consultation of Government dated 28th May desiring to be informed with reference to a recent application for the renewal of a Yeomiah at Poloor whether a Mosque is still maintained out of the proceeds, and whether the Services are duly performed.-

2. It appears from a report from the Poloor Tahsildar now received that the Mosque is in good repair, and is kept clean and that Services are regularly performed at it, for the Mussulmen Community of the place.- The Services which fall to the share of Khaleem Oollah in virtue of the Yeomiah in question have been performed for some years by his eldest son Gholam Mahomed in consequence of his old age and infirmity. It is in the name

name of this Gholam Mahomed that it is now proposed to register the Yeomiah.-

Sir,

From the Collector of North Arcot Reporting on Petition No. 181 of 1850.

+ Forwarded to Government

Para 1.- The second endorsement of the Board on Petition+ No. 181 of 1850, dated May 8th 1850. directs me to report further on the subject of the Maniem lands claimed by the Petitioner.- It

2. It appears from a report which I have now received from the Sub-Tahsildar that this Petitioner and another named Casavooloo were formerly the Meeras Barbers of Coladum in that Taluk; that in 1828 a quarrel broke out between the Dasayee Chetty and the heads of the Village and that the former then prohibited both the Washermen and the Barbers of the Village from performing their functions in it, which they accordingly refused to do.-

3. The case was then reported to the Sub Collector Mr. Robert Grant, and he sent for the recusants who then declared before him that they would not perform their offices in the Village, and that they would give up their Maniems. Mr. Grant it seems, warned them to reflect before they finally abandoned their Meeras and gave them time for consideration; but they all with the exception of Casavaloo still persisted in the same course, and gave written Razeenamahs, renouncing their Meeras and the Maniems.-

4. Mr. Grant then directed the Tahsildar

Fort St. George 25th July 1850.-

Tahsildar to place the whole of the Barber's Maniem in the possession of Casavoo, and to cause him to do the whole of the duty or get it done, and to cause the Village people to nominate other persons in place of the former Washarmen. This was done accordingly and the people then so employed in both capacities, have continued to hold the offices and emoluments respectively ever since, and it does not appear that Petitioner has any right now to claim what he then voluntarily gave up.-

From the Sub Collector in Charge of Salem. ... } Sir,

Submitting for orders the Proceedings regarding Ramakristniah the late Sahukar of Attoor.

1. I have the honor to acknowledge an Extract from the proceedings of the Board of Revenue under date the 30th April 1850.-

2. With reference to para } it is now my duty to lay before the Board the Proceedings with regard to Ramakristniah late Sahukar of Attoor out of which the Correspondence arose which led me to submit the case of Krishna Row to the Sessions Court. It is now plain that a reference to the Sessions Judge in the present case is an unnecessary as in the last and that the Board of Revenue is the authority before whom these proceedings ought to be laid.-

3. The case which I now lay before the Board is the third in which a Sahukar is accused of making reports intended to mislead

Fort St. George 25th July 1850.

misled. I cannot disguise from the Board that I have received their instructions in the case of Kristna Row with very great regret considering the high and responsible Office held by Sahildars, that it is through them that a Collector is obliged to act in almost every case, that he is dependent upon them for information on every subject. I have always thought it most necessary that they should know that to write a report deliberately intended to mislead and to tamper with the records of their Office will infallibly lead to their dismissal and it is with much uneasiness that I am now obliged to place in a Talook an Officer in whose reports I have not the slightest confidence

4 In the case I now submit the circumstances are of a very serious nature and as I have stated in my letter to Mr. Lock that they prove the Tahsildar in my opinion to be utterly unworthy of trust. Instead

Fort St. George 25th July 1850.

of assisting in the suppression of crime his acts tended to disguise the traces by which the perpetrators of a most extensive system of plunder might have been brought to justice and to convert his Talook into a nest of robbers and receivers.

Proceedings thereon.

Forwarding to the Coll.r of Salem the Proceedings in the case of Rama Kistnah Iyah suspended Tahsildar of Attoor and requesting at my early date his opinion whether he has been adequately punished by his suspension since January 1849 or. that removal from Office is the befitting penalty for his conduct.

In this communication the Sub Collector in Charge submits the case of Rama Kistna Iyah suspended Tahsildar of Razepoor Talook forwarding translates of certain depositions & Copies of certain letters with reference to a report made by the Tahsildar while Head of Police of the Attoor Talook.—

2. The Sub Collector gives no opinion in the matter thus submitted but forwards it as one "in which a Tahsildar is accused of making reports intended to mislead"

3 The Head of Police in September

Fort St. George 25th July 1850.

September 1847 reported to the Joint Magistrate a case of treasure trove, a small parcel of pubies said to have been found under a tree, which was treated as one of unclaimed property and no owner being found was disposed of as such in the usual manner.

4 Subsequently in the beginning of 1849. the Joint Magistrate in connection with some enquiries relative to the presence of large bodies of Coroners in the Aktoor Taluk, and robberies imputed to them was led to suppose that this report of the Head of Police was false, that the rubies supposed to form portion of property lately stolen from a Pagoda at Conjeeveram, had been offered for sale by one Valoyda Pillay, that he had been seized in the act of so doing by the Village Moonsiff and forwarded with a report to the Head of Police who then sent his Duffadar with the former Officer but without any warrant to search the house of the prisoner omitting however to report this latter fact to the Joint Magistrate

Fort St. George 25th July 1850.

5 It is also urged that the Head of Police was at the Cutcherry of Aktoor, when the prisoner first appeared before him and that the report afterwards dispatched from the neighbouring Village of Gungavelly was fabricated. The documents in this case are numerous and as the two principal parties appear to have, from the first, concealed the truth and revealed it only on an examination much subsequent to the Original enquiry the conduct of the Head of Police must be judged as represented generally throughout the entire investigation.

Valoyden Venkataramiah

6 The presence of the Head of Police at the Cutcherry at the period of the parties first appearing before him is confirmed by Mootoolchetty and Hoossain Khan the Taluk Duffadar. From thence also was the order given to search the house of the prisoner, and that such took place without a warrant is established by the witnesses noted in the margin. and is a fact in the opinion

Veerapatharry

of

of the Board, placed beyond doubt

7 If there was nothing suspicious in the Village Moonsiff's report the necessity for the search is not apparent, but having been made without a warrant and not reported to the Joint Magistrate the presumption of the criminal participation of the Head of Police is very strong.

8 He declares in his defence that the report was perused by him which is not disputed at Gungavelly but is silent on the Charge of the parties having been first interrogated by him at Ahtoor.

9 He denies that he directed the search but such denial of a fact satisfactorily established only tends to weaken the merits of his other assertions.

10 Though conviction might not follow upon the trial of the Head of Police in a Criminal Court upon the evidence adduced against him, equally decisive testimony is not requisite in a

review of the general public conduct of such an Official which if found to embrace perversion of authority and forfeit of the confidence of the Magistrate the Board will be prepared to visit with the extreme penalty of dismissal from Office.

11 They resolve therefore more especially with reference to the unfavorable opinion of Ramakistna Iyah recorded by Mr. Maltby to retransmit the proceedings in this case to the present Magistrate with a request that he will favor them at an early date with his opinion together with the grounds of such conclusion whether from the examination of

of these papers with such further information as may be obtainable & and a Consideration of the general character borne by R. Kistna Iyah in his official capacity, this person has been adequately punished by his suspension since January 1849 and should therefore be restored to his former or any subordinate situation or that removal from the Office is the befitting penalty for his conduct.

Proceedings thereon—1. The Board are precluded from submitting to Government Extracts from the Civil Auditor's retrenchments on the Audit of the accounts of Collectors. The rule is that Collectors should first endeavour to meet the objections of the Civil Auditor, and after his receipt of Collectors replies, if any cases of retrenchment may be confirmed on reaudit such only should be made subject of a final reference to the Board for the orders of Government.—

The Board recommend that these Bills may receive the sanction of Government.

Revenue Board Office,
Fort St. George,
25th July, 1850.

(Signed) W. H. Bayley.
Secretary.

Read the following letters.

To

W. H. Bayley Esqre
Secretary to the
Board of Revenue.
Fort St. George.

From the Sub Collector in Charge of Salem.

Submitting for the Board's orders a Statement of land applied for by Doctor Scott for building on the Shewaroy Hills.

Sir,

I have the honor to forward agreeably to the Board's orders of the 1st December 1842 a Statement shewing the extent and particulars of a plot of land applied for by Doctor Scott, Assistant Surgeon of Salem, for building on the Shewaroy Hills. The native inhabitants of the Hills have been made acquainted with the offer made, and they have signified their consent to it's being accepted.

Adverting

2- Adverting to the Board's Proceedings of the 25th March 1850 I beg to state that an application for this land was made by Doctor Scott some time before it was proposed to put up the land to competition, and I therefore beg to recommend that the general rule of competition prescribed in the order of 10th May 1849 be not enforced in the present instance.-

3- The land is a small rocky plot surrounded by land already taken up by other parties, It is not suited for cultivation, but it's central position

position renders it well adapted for the site of a house, and there appears to be no objection to it's being granted for this purpose.-

Salem District,
Opsoot,
Collector's Cutcherry,
4th July, 1850.

/Signed/ T. N. Maltby.
In Charge of Salem.

Statement A

From the Collr of Trichinopoly — 51.

Transmits a revised Statement shewing the Compensation proposed to be given to the Men Cavilgars —

Sir,

In obedience to the orders of Government contained in the extract from Minutes of Consultation under date the 29th May, which accompanied the Board's Proceedings of the 10th ultimo I have the honor to transmit a revised Statement shewing the compensation proposed to be given to the Men Cavilgars of this District for their suppressed Offices.—

This Statement is prepar-
2. -ed in accordance with the instructions contained in para 4 of the Extract from Minutes of Consultation by raising the annual compensation from Rupees 2,259-5-3- the amount entered in the former State-ment to Rupees 2,778-1-5 the annual sum sanctioned by the Government of India, and employing the difference to increase the compensation of those parties "whose receipts have ranged between 6 and 9 Rupees" The following abstract shews the result of the corrected Statement

Statement now submitted in which the rates have been increased within the above range in such proportions as appeared most equitable and convenient.—

Classes of Men Cavilgars	No. of persons in Column 2	Total of former annual Receipts			amount of proposed Compensation			Rate of Compensation
1	2	3			4			5
		Rs.	a	p	Rs	a	p	
Persons whose annual Receipts fell within Rs. 6	212	726	7	9½	725	12	"	100 per Cent.
Do. from 6 to 10 Rs.	90	711	10	.	540	"	"	75 per Cent.
Do. from 10 to 15 Rs.	53	657	5	3	318	"	"	48 per Cent.
Do. from 15 to 16¾	15	239	15	"	90	"	"	38 per Cent.
Do. from 16½ to 92	77	2723	14	11	980	12	"	36 per Cent.
Do. above Rs. 100 including the Shotriemdar of Elongacherry.	5	823	13	6	123	8	"	15 per Cent.
Total	452	5883	2	5½	2778	"	"	

3 The sum to be paid at the above annual rate to the close of the present fusly amounts to Rupees 30,610-8-" and as the fund in Deposit on account of the fees realised since the suppression of the Men Cavilgars offices is Rupees 14905-12-2 there

there will be a deficiency of Rupees 15,734-11-10- to be defrayed from the Government Treasury.—

4. In conformity with the orders of Government all the Men Cavilgars will be called before me and asked if they are willing to receive the Compensation now proposed- the result of this enquiry will be submitted by me hereafter, as some time will be occupied in collecting the Men Cavilgars, several of whom reside in other districts, at present I will only mention my impression that Consideration unconnected with the amount offered seem likely to induce most of the parties to adhere to their former refusal.—

5. The remaining subjects adverted to in the Minutes of Council and the Proceedings of the Board under acknowledgment will receive early attention & and report.—

Trichinopoly 10th July 1850.

/Signed/ C. Maltby.—
Collector.—

Ordered

Fort St. George 25th July 1850.

Ordered that the foregoing letter be submitted with the following address.

To,
The Secretary to
Government,

Sir,

(56-57)

To the Secretary to Government.
Submitting for orders letter from the Collector of Trichinopoly forwarding a revised Statement of the compensation proposed to be given to each of the Men Cavilgars in his District in accordance with the wishes expressed by Government and conveying the Board's observations thereon.
Recd 25 July 1850

With reference to the Extract from the Minutes of Consultation dated 29th May 1850, Paras 3 and 4, I am directed by the Board of Revenue to submit for the consideration and orders of the Right Honorable the Governor in Council, the accompanying letter from the Collector of Trichinopoly, dated 10th July 1850, forwarding a revised Statement of the compensation proposed to be given to each of the men Cavilgars in that District for their suppressed Offices, prepared in accordance with the wishes of Government, expressed in Para 4 of the above orders.

2. The amount of annual compensation is raised from Rupees 2,259-5-3, as proposed in the original Statement; to Rupees 2,778-1-5, the sum sanctioned by the Government of India, the difference being employed in increasing the compensation of those Parties

To Govt 13th Sept 1849

Fort St. George 25th July 1850

whose receipts have ranged between 6 & 92 Rs. as shewn in the Abstract given at Para 2 of the Collector's letter.

3. The arrears that were according to this scale, due to the Cavilgars at the end of Fusly 1259, amount to Rupees 30,640-8-, and the fund in deposit on account of the fees realized since the suppression of their Offices, to Rupees 14,905-12-2, leaving a deficit of Rs 15,734-11-10, to be paid by the State.

4. The Collector states his intention to call the Men Cavilgars before him and to ask them if they are willing to receive the compensation now proposed, the result of which he will report hereafter, but he anticipates that most of the Parties will adhere to their former refusal.

5. He also promises early attention to the other subjects referred to in the Minutes of Council and in the Proceedings of the Board, to which they were a reply.

From the Collr. of Trichinopoly

Replies to the Board's Circular letter of the 30th May on the subject of the distribution of agricultural prizes in the Trichinopoly district.

Sir,

I have the honor to acknowledge your Circular letter of the 13th May accompanied by Extract from Minutes of Consultation under date the 23rd April last and to express my regret that there has been no distribution of agricultural prizes in this district.

2. Three silver Medals were sent by the Board on the 28th October 1847 for presentation to the producers of some Sugar and Silk, but it appears that they were locked up in the Office Stationary chest by the directions of the acting Collector Mr Elliot, and they still remain unpresented. It seems that as some doubt existed regarding the parties for whom they were intended, Mr Elliot left the Distribution to Mr Onslow who had addressed the Board on the 18th June 1846 reporting the result of some experiments in Sugar and Silk

2d.

10851

Fort St George 25th July 1850

that he might be empowered to present honorary rewards to the parties. The subject must however have been overlooked when Mr Onslow returned from his leave and resumed charge of the District.

3. I should have thought it my duty to present the Medals now, if the records showed the persons for whom they were intended; but, Mr Onslow's letter above referred to mentions the names of 7 persons who produced samples of Sugar, and one party which brought forward some Silk, while the medals are only 3 in number. the Board's letter of the 28th October 1847 mentions indeed that the medals were to be presented "to the parties to whom they have been "awarded by the agri Horticultural "society;" but I can find no communication to shew who these parties are.

4. The attempt to stimulate agricultural interprise by honorary rewards has not therefore been tried in this District, and although I am unwilling to offer a discouraging opinion of any such endeavours, I fear from the

Fort St George 25th July 1850

the experience of other places that an active demand and more speedy profits must exist before the production of valuable articles as Sugar and Silk can be successfully attempted by the agricultural classes of this district.

3. While the system of honorary rewards is pursued I would beg to suggest that they would be more valued in some other shape than a medal which has too much the appearance of a badge in the Eyes of the native Community such ornaments as a silver waistband or bangle with a suitable inscription would I believe be received with much gratification and be worn with pride upon the person.

From the Dy Pr Collr of Coimbatore — Sir.

Affording further information called for by the Board with reference to certain Inam Lands in the Udiyur Talook.

1. I have the honor to acknowledge the receipt of your letter of the 24th ultimo, requiring further information respecting certain lands in the Udiyur Talook, applied for by Ryots for cultivation

2. The Urzee of the Tahsildar dated the 30th of April last, was forwarded to the Board merely to show more fully, the necessity for making some immediate arrangements for the clearance of the heavy Jungle close to the Cauvery Poorum Road, and not for their orders, and consequently, I did not deem a particular reference to it necessary had it been otherwise, it would have been submitted to the Department of Public Works; the Tahsildar requiring Rupees 150 to be placed at his disposal for clearing the road, and the subject, therefore, being more immediately connected with that Office than with the Revenue Department.

Sir, With reference to my report dated 9th October 1848 relative to the boundary dispute existing between the Cochin Circar and the Nelekel Edoms atchen's family, I have the honor to submit the result of my further examination and fuller experience.

2 The appended Map shews the nature of the difference, the disputed tract is colored green. The Cochin Government claims the Alipara Tode Nulla as the boundary stream, the Atchen advances his claim to the Venga meera Spur and the Meeton tode Nulla.

3. By the printed Trigonometrical survey Map, this tract is shewn to have been at that time considered in dispute that is the difference though it had been the subject of a careful inquiry.

was then deliberately deemed so weak. To strengthen it nothing new has since transpired. Matters of this description lying over unadjusted lead to all sorts of difficulties and contentions and only tempt aggression and retaliation I regret to find that much wood that was in 1848 ordered not to be removed pending settlement of this matter has been clandestinely floated off. The logs lay it is true to the West of the Nulla and were probably chiefly cut in wholly undisputed land but it is impossible to look effectually after wood so situated nor have the Government any interest at the stake

6 I would propose to let Atty. Komby atchen know that no sort of support will be given, or countenance lent to his claim, and that similar advances across the Alipparra toda will be admitted by us to be aggressions on his part. The Cochin Circar might be advised of this view and warned to defend their own property and take such steps as they may consider requisite

To the Chief Secy to Government

Sir,

Submitting letter from the Collr of Malabar enclosing Copy of one from his Asst. relative to the boundary dispute between the Cochin Circar and Nelliseri Edom Atchens family and conveying the Boards opinion on the subject

I am directed by the Board of Revenue to submit for the information and orders of the Right Honorable the Governor in Council, the accompanying letter from the Collector of Malabar dated 6th July 1850, forwarding copy of one from his Head Assistant relative to the boundary dispute existing between the Cochin Circar and Nelliseri Edom Atchens family.

This dispute was fully investigated and reported upon by Mr Vaughan, under date of 26th April 1816, who decided in favor of the Cochin Government.

From Malabar 7th February 1831 in Cons 8 March.

In 1831 it was again enquired into Mr Sheffield then Collector of Malabar appeared to question the justness of Mr Vaughans decision, but the Board in their proceedings of 18th July 1831 considered his objection to be erroneous, and that it would not be proper to set aside the decision formerly passed without fuller enquiry and more conclusive evidence, in which view the Government concurred.

Ext. Mins Cons. 4 Augt 1831 in Cons 11 Augt.

Mr Robinson takes exactly the same view of the case as Mr Vaughan and proposes that Itty Thomby Atchen should be informed that no sort of support will be given or countenance lent to his claim, and to advise the Cochin Government thereof in order that they may take such steps to defend their own property as they consider requisite, in which he is supported by the Collector.

With a view to bringing this long disputed matter to a close the Board beg to recommend that Mr Conolly be authorized to make the communication suggested by Mr Robinson to the Naire Chief of Cochin Government respectively.

The Crop is also reported to have been more favorable. Due publicity has been given to the recommendations of Government, in Para 12 of the Extract from the Minutes of Consultation of 5th December 1848, as regards the advantage the Ryots would derive by attending to the careful culture picking and cleaning of Cotton. Measures were also taken for ascertaining the additional quantity of land in the chief Cotton growing Talook that might be brought under Cultivation if a remission of Tax were allowed, and the Tahsildar reported that Poonjah Waste land of 10-20-& 30 years standing to the extent of 1167 chains are available, which the Ryots offer

to cultivate on a remission of half Teerwah on lands bearing a superior assessment, and of one fourth on those paying an inferior rate. The Ryots of other Talooks are expected to make similar proposals, but the Collector is of opinion that the remission of Teerwah is not likely alone to cause any material extension of Cultivation, a certain market and remunerating prices are required, and would be sufficient to direct enterprize into this Channel. The experiments with foreign seed appear to have failed, in some places they did not even come up.

5. The extent of Cultivation in this District during Fusly 1258 is as follows. sq. feet 16,64,464 3-82 acres Government land Poonjah and Garden 26731 Bullahs, Nunjah 209 Cawnies assessed at Rupees 122888. and of Enam land 2446 Bullahs assessed at Rupees 792. The produce is estimated at 32200 Candies, of which 9,600 Cs are consumed by the Growers, and 22600 Cs sold in the mark

6. The extent of land on whi Cotton was grower in Kurnool during Fusly 1258, was 86368 acres, of which 3207

acres were Enams. The crop appears to have fallen short of the quantity expected, owing to a blight it is supposed that it reached 25,700 Maunds. The experiments with foreign Seed appear to have failed in a great measure, but the agent wishes to make a further trial, and asks for a fresh supply of Seed.

Madura
Cawnies
Fusly 1257 - 53201
Fusly 1258 - 50840
Decrease - 2,355.

7. In this District there has been a decrease in the extent of land cultivated with cotton as compared with Fusly 1257. It is stated to have been 50,840 cawnies, assessed at Rupees 10,74[illegible] of which 17,482 cawnies are bircar, 2674 cawnies Enam and 30689 cawnies Zemindary Lands. The falling off is attributed to the unfavorable season, the supply of Rain in the chief cotton Divisions having proved insufficient. No experiments were carried on in Foreign cotton during Fusly 1258 on account of Government, but the collector alludes to those made by Mr. Pondclaire and Mr. Finnie, as being unsatisfactory.

Bellary

of which 165,094 acres were bircar, and 105,163 acres Enam lands. The Ryots have been advised to pay more attention to picking and cleaning, and experiments to improve the staple by introducing Foreign Seed have been made, and still are in progress. A copy of a Special Report on this latter subject from the acting collector to Dr. Wight accompanies his letter. The first experiment was unfortunate but a second has been made at Dr. Wights recommendation, the result of which has not yet been reported.

Cuddapah

9 The special Report from this District is confined to its capabilities for the Cultivation of new orleans cotton, but in the annual Settlement Report the extent of land cultivated with cotton during Fusly 1258, is stated to be 87,309 acres, being an increase of 12568 acres compared with the previous Fusly. The success of the Foreign Seed cotton does not appear to have been much greater in this than in other Districts, as it requires more [illegible] ture than the seasons generally [illegible] ent in Cuddapah, can lead to be [illegible] ed. There, however, appears to be

little doubt that this Cotton may be produced to any extent under irrigation but without a ready demand for the produce, and assistance from Capitalists in the shape of advances, the Ryots are not likely to give it a preference over indigenous Cotton—

10. The Statements furnished by the several Collectors, are not uniform, and it has consequently been found impracticable to draw up a General Statement therefrom for Submission with this Report, to prevent a recurrence of which a form of Statement has been circulated to the Collector for adoption in future

Sir

I am directed to acknowledge receipt of your letter dated 8th July 1850 and in reply to state that the printed form returned therein, having been filled up as you remark with reference to the Government Estates, whether under Zumma or rented, and your Jummabundy accounts referring exclusively to the former, there are consequently no means of verifying the return. It would therefore be better to confine it strictly to what is borne on the annual accounts of Cultivation. You will also please to state whether the "Cutty" is of the same extent throughout the District and how many square feet it contains—

From the Coll. of Nellore. Sir,

Reporting on the Petition No. 2361 of 1849 & Relative

Para. 1 In reference to the Board's Endorsement on the accompanying Petition No. 2361 of 1849 requesting me to enquire into, and report on the claim of Petitioners to 4 Villages situated in the Poloor Pollock of the Venkatagherry Zemindary I have the honor to state that on a reference to the Zemindar of Venkatagherry it appears that the Villages in question were about 66 years ago granted to the Petitioners great grand father one Ramasastroolu on Condition of his serving the then Zemindar as a Vakeel.—

2. On the death of Ramasastroolu the Villages were, it appears, resumed by the Zemindar, but subsequently they were granted to his two sons on a similar Condition of service tenure. The Elder of the two enjoyed the Villages and on his death the younger came into possession but in consequence of certain fraudulent practices he was dismissed from his situation as Vakeel and finally deprived of the Villages which had been granted on the Condition of that service. This resumption was made in 1816. The

For 1st St. George 29th July 1850.

3.

The Petitioners have failed to support their claim by the production of the original sunnud or Deed of gift in which the alleged grant of these Villages is specified the grant of these Villages in perpetuity to their grandfather and his heirs. In the absence of any such Documents there is no proof to show either that the Villages were given under a valid title or were illegally resumed by the Zemindar.

4.

The Document A produced by the Petitioners has no reference to the point at issue in the Petition now under report, being merely a copy of a deed of partition entered into between Petitioners and their uncle Ramachendrish, whereby the former put the latter in possession of the Enam Villages of Paurlapully in liquidation of the debts due to their uncle. The other Document D is a deed of Donation purporting to be the Zemindars grant to the Petitioners ancestors of one of the Villages now claimed. This however is a mere translation of the alleged Document and in the absence of the original is not to be relied on.

5.

With reference to 2 of the Villages claimed by the Petitioners Viz: Poody and Paroyavathem it appears that on their resumption by

by the Zemindar in 1816 Mr. Fraser the then Collector filed a suit against the Zemindar in the Northern Provincial Court for their restitution with a view to their being brought under Government on the ground that it was not competent to any but the Government itself to resume Lacarauze Lands. This suit the Court dismissed in 1822 with Costs on the grounds that the Government had not in the case of the Zemindar of Venkatagherry reserved to itself the usual right of resuming Lacarauze lands against this Decision, no appeal seems to have been filed and it consequently became final. The Petitioners silence during the 27 years which have elapsed since the Decree in question was passed would seem to prove that their right to the Villages in question was not capable of substantiation.

To,

Secretary to the Board of Revenue
Fort St. George

From J. D. Bourdillon Esqre
Collr of North Arcot.

Sir,

I have the honor to acknowledge the Proceedings of the Board of Revenue dated 11th Instant, desiring that I will submit an Estimate of the Compensation due to the Shrotriemdar of Eloopatundalum, founded either on personal interrogatory or on the decision of a Panchayet.

2. Agreeably to the Board's wish I will send for the Shrotriemdar to question him though the Board are already aware what he claims. I do not think it a case in which an equitable decision could be looked for from a Panchayet. To enable me to form an estimate of the amount of Compensation to be given, I beg that the Board will be pleased to inform me of the principles on which it is to be computed. I cannot see that the Shrotriemdar has sustained any pecuniary loss or risk of loss by the occupation of the land taken up by the Channel, and the Board have already dismissed his claim on account of the Paungul. There remain only the injury involved in the infraction of his rights of property (for which it is to be observed he himself has made no demands) and I am at a loss, as said in my former letter how to estimate this in money.

(24.25)

To the Collector of North Arcot—

In Cons 29th July 1850.

Sir,

I am directed to acknowledge the receipt of your letter of the 19th Instant requesting information as to the principle on which the Compensation proposed to the Shrotriemdars of Eloopatundalum shall be computed.—

In the opinion of the Board of Revenue this further reference was unnecessary. If on the Shrotriemdar appearing before you, you will personally explain to him the view you take of his claim and call upon him to show the amount of loss he has sustained, it does not appear to the Board that you ought to find any difficulty in coming to a satisfactory conclusion as to what would be a fair amount of Compensation to offer him.—

If the injury be slight which the Board from what has passed on the subject are inclined to believe it is, the Compensation will also be inconsiderable, and the principle for which the Board contend not the less satisfied.

In suggesting the aid of a Panchayet the Board had in view the probability that some kind of precedent might be brought to notice in regard to the amount of purchase or rent which it may be usual for private parties to give to a Shrotriemdar for the occupation of waste lands of a similar description or that in other respects their advice or opinion might tho not binding on you, be serviceable as a guide.—

If the Shrotriemdar does not agree to the amount ultimately fixed he should be left to seek his redress in the Civil Courts.

From the Collector of Madura

Reporting that no records are forthcoming regarding the Grant of Pension to the family of the Jelly putty Poligar.

Sir,

Parl. 1. With reference to the Proceedings of the Board of Revenue of the 13th December last, I have the honor to state that search has been made in vain both in the Madura and Dindigul Records for information in regard to the origin of the Grant of Pension to the family of the Jelly putty Poligar and the terms on which it was made. The Records of that part of the Dindigul District which is now included in Coimbatore were made over to the latter at the time of separation. As the allowances to persons similarly circumstanced to the Jelly putty Poligar were paid by the Court previously to the transfer of the Magisterial authority to the Collector a reference has been made to the Judge; but without success. Possibly the information may be obtained from the Judge of Coimbatore.

The

Fort St. George 29th July 1850.

2.

The only accounts wherein I can find mention of Jellysutty is one entitled an Abstract of the Revenue of the conquered Distts for Fusly 1211 in which the Net Beriz of Jellysutty is entered at Star Pagodas 43—13—5, another, being the account Particulars of the Personal Property of the Rebellious Poligars sold in 1801 and 1802, which includes an Item of 381—2—11¾ as the value of the Property of the Jellysutty Poligar. I conclude therefore that the Poligar and property of this family were confiscated in consequence of its being implicated in the Rebellion of the Veerapatchee and other Poligars and an allowance granted in lieu. The Sub Collector has been able to find no old person at Dindigul who can supply the information required.

Paramaseven Pillay it appears that this low offer is owing to the article not being in request in Bengal.

3. The said Paramaseven Pillay states that if the Shanks are not delivered over to him within 3 Weeks hence he will lose the opportunity of sending them to Bengal and consequently will not require them. I therefore request you will be good enough to favor me with the orders of the Board of Revenue on the subject.

From the Acting Principal Collector of Coimbatore.

Affords the explanations called for by the Board with reference to the manufacture of Salt petre in the District of Coimbatore.

Para 1. I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated 13th Ultimo.

2. On reference to the records it appears that there has been a correspondence some years ago, between the Board of Revenue, and this Office as regards the expediency of imposing a restriction on, or rather the discontinuance of, the manufacture of earth Salt, but no final orders seem to have been passed - at least, I can find none on the records.

3. Adverting to the Board's desire to be informed of the process of manufacturing saltpetre, I beg leave to state that this process is more tedious, than that of making earth

earth salt. Soils containing Salt and Soda are collected and formed into a bed on the top of a Mound erected for the purpose, with a hole in the middle. Water is poured into the bed, which is extracted through the hole into a vessel placed below the mound. This saline is then boiled in flat iron pans. During this process the impurities sink down and the pure water rises, which is again taken into a vessel and reboiled until it forms itself into a thick solution when it is taken, secured in vessels aired left to crystallize. This is mixed with pure water boiled a third time, and again permitted to crystallized, which is considered pure Saltpetre and distinguished by the local designation "3d. boiled Salt".

4.

The impurities above referred to, form the earth salt - but it is inferior in quality, and insignificant in quantity, when contrasted with that manufactured by a different process. Earthsalt is doubtless made in considerable quantities, and sold clandestinely, the discontinuance of which will in no way interfere with the Saltpetre manufacture.

From the Ag Pl Collr of Coimbatore 31st

I have the honor to acknowledge the receipt of the Board's Circular dated the 8th Instant.

2. There are now no Military Cantonments, properly speaking in this District, and I am therefore, perhaps not called upon to offer any observations as to the expediency or otherwise, of a modification of the several Circular orders quoted in your communication.

3. The proposed Cantonments at "Jacktalla," or the Neilgherries, will, I believe, be so formed, if the projected Barracks are constructed, as to prevent the possibility of any interference with private lands; a sufficient extent of Ground, having been secured for Military purposes.

4 I would however, offer it as a general remark, that it is expedient that the limits of Cantonments should in all practicable cases be so defined as to include only those Buildings and Establishments which are of a military character leaving all private lands under the authority of the local Revenue Officers.

From the Collector of Malabar

Sir.

1. According to the rule which has long prevailed in Malabar a Mohturpha tax is levied on the houses of the Community generally, (as explained in my letter to the Board of the 10th July 1843) varying from 2 annas to 30 Rupees.

2. My attention has been particularly attracted of late to the bearing of this tax on the lower orders of inhabitants and I have come to the resolution of soliciting the Government to strike it off from all houses, the demand on which ½ Gold fanam does not exceed 2 annas and 3 pice per house.

3. The relief that would be occasioned by this act of grace would be as follows

	a	p
36 Houses at	2	4 8
31028 Do at	2	3 4 32 9 3
31064 Houses assessed at Rupees	4437	4 3

of 4437 Rupees per annum as would

would benefit 31,000 Individuals the majority of whom are in poor circumstances - The benefit to each of these would not be confined to the mere remission of a small demand. A further gain would be obtained of a freedom from the domiciliary visit of the tax gatherer, a matter of considerable importance, whereas it very frequently happens, the

A grave error as it seems to me was committed when the Village Establishments were formed in 1824/25 in providing that Parishes in which Moplas preponderate, should have a fair proportion of Officials of their own caste - The parties who obtained sunnuds for their appointments in such localities at that time are far too generally Hindus - I strive to repair this error when ever a fair opportunity is afforded me.

payer is a Moplah and the Collector a Hindu - The tax, petty as it seems, is not generally paid except by instalments (according to law, it is only demandable in from eight to ten instalments like land tax) and more than one visit has to be made to the Villages, or I should more properly - say, Cooly houses, to dun him for what is due or to make him appear before the Village authority

The annoyance and labour of

of this process is very great, and its saving would be a great boon to the District Officials.

5. A considerable portion of the valuable time of our own Cutcheries is taken up at the Summabundy in the settlement of this petty claim

6. There is a constant wrangling as to the justice of the demand - Whether the place on which it is imposed really deserves the name of a house; whether the occupant is not in such impoverished circumstances as to be unable to meet the tax &c. whether he has not already paid more than he has been credited with; in such very petty dealings receipts are not always given as they should be; and an enquiry to settle what to the poor payer may be a matter of considerable importance consumes as much time as would suffice for the settlement of something really important in Se..

7. I trust the reasons given will be deemed sufficient to warrant compliance with the request I have made, Viz. for the abolition of the Motupha tax on all houses - the tax on which it
