Walter Elliot Esqre. Senior Member
Absent on duty As Commissioner
Northern Circars.
Minutes of the last
Meeting read and approved.-
Read the following

1

From the Sec'y to Government sanctioning the actual charges for Fusly 1258 and the Estimated Succary and charges for Fusly 1260 in several Districts and communicating order's on the following points connected therewith.-

Extract.-
Extract from the Minutes of Consultation under date the 30th. September 1850. No. 914.-

List of Statements of ordinary Extra charges incurred by Collectors and Magistrates in Fusly 1258, and of estimated Disbursements for Fusly 1260, submitted with the remarks of the Board of Revenue on the 29th August 1850.-

Para 1. The Right Honorable the Governor in Council sanctions the actual charges of Fusly 1258 specified in the foregoing List, amounting to Rupees (1,23,233-15-3) One Lac twenty three thousand

thousand, two hundred and thirty three, annas fifteen and Pice three; and also the Estimated advances for cultivation, and for the manufacture of Salt and purchase &ca of Tobacco for the monopoly, as well as the Extra and Underwared charges proposed to be incurred for Fusly 1260, amounting collectively to Rupees (2,00605-14-4) Two Lacs, six hundred and five and annas fourteen.-

2. It is requested that future Lists of these charges may be so prepared as to exhibit separately and distinctly the total amount under each of the two heads "Actual" and "Estimated" disbursements. In the present List the total of the actual charges is shewn, but not the total of the estimated charges.-

3. It is observed that of the amount of advances now sanctioned, Statement No. 2092. the sum of Rupees 404 is proposed to be disbursed as Tuccavy to certain Ryots of the Trichinopoly District whose houses were destroyed by fire, to enable them to rebuild their huts and

Statement No. 1946.

and carry on their cultivation, and a sum of Rupees 525 is proposed by the Collector of North Arcot to be advanced to the Cowledars of Mammundoor for clearing waste lands. In regard to this latter advance, the Board of Revenue recommend as a special case, the Collector's application that the Cowledars may be allowed to repay a moiety of the amount within June 1853 and the remainder within June 1854 though the term for repayment in this instance is longer than usual, under the circumstances of the case as already brought to his notice, the Governor in Council will not refuse his assent to the proposed arrangement and he accordingly sanctions it.-

From Coll.r to Board of Revenue 4th May /50

4. The Estimates of Extra charges submitted by the Officer in charge of the Hill Tracts of Orissa include several items of a nature which do not admit of an Estimate, and which should properly appear in the "Statement of charges incurred without Estimate" to be furnished after the close of the Fusly. The Board will communicate

Nos. 1973 and 1974

communicate to the Officer in charge of the agency the necessary instructions for preparing his future Statements of estimated and actual charges in the manner and according to the Form prescribed for the Collectorates of this Presidency.-

No 1397 Kurnool. 5.- The Governor in Council observes that the Estimate of Sadder-=ward for the Kurnool District for Fusly 1260 has been framed upon the actual charges of the 3 preceding years, and on this account and looking to the detail in which it has been prepared, he presumes that it is intended to be the Standard for regulating future disbursements under this head. If not it is de-=sirable that a Standard should be framed as in other Districts.-

6.- With reference to the remarks of the Board of Revenue on the Items Nos. 2 and 3 of the

No 1887 Vizagapatam + Statement of Extra charges incurred in the Salt Department in Fusly 1258 in the District of Vizagapatam, requiring all Estimates and Bills for repairs to Salt Pans, Chowkies etc

&c. to be submitted through the De-=partment of Public Works, the Governor in Council would suggest that circular instructions to that effect be issued to the Collectors of those Districts in which the manufacture of salt is carried on which would obviate the necessity of returning their Statements hereafter for correction.-

Statement No 558 Madras. 7. In their remarks on items 6 and 25 of the Statement of charges incurred by the Collector of Madras in Fusly 1258, the Board request the orders of Government whether future adjustments under the two heads referred to should appear in the State-=ments of actual charges sub-=mitted annually for sanction, as they do not form bonâfide cash payments. In regard to the 1st item, viz. "Canal toll on salt imported from the different Pans," although the quantity of salt sent by the Canal and the toll leviable on it should always appear in the Collector's accounts without which the traffic on and revenue

+ "Salt Extra charges" 6 Canal toll on salt imported from the different Pans — Rupees 6,425-8-2.

"Abkarry Extra charges" 25 amount credited to Military Books being the value of Batavia Arrack supplied by the Commissary General Rs. 2,775-0-0

revenue to be credited to the canal would not be correctly exhibited, there does not seem to be any obvious necessity for entering this as an actual charge and obtaining the sanction of Government for it - it being merely an adjustment from one head of revenue to another in the same District. But as respects the second item - "the value of Data = =via Attack supplied by the Com = =missary General and credited to en = =Military Books," the Governor in Council is not prepared to say [illegible] whether special sanction is not ne = =cessary for the charge, without having the opinion of the Civil Auditor on the point - he presumes that as the amount is properly debitable to the Civil Department, it ought to appear in account as a charge under the head of "Aboarry Extra Charges," and receive sanction as usual in the Statements annu = =ally submitted to Government The Civil Auditor will however report whether this course is absolutely necessary

necessary for the purposes of Audit and adjustment of account. -

Read the following Extract

Extract from the Minutes of Consultation Judicial Department under date of 18th October 1850 No. 660.-

The Right Honorable the Governor in Council resolves to transmit to the Board of Revenue the following publication.-

1. Copy of Report on the Revenue Administration of the Lower Provinces for 1848-49.

To the President & Members of the Board of Revenue.

(A true Extract)
(Signed) J. Bycroft
Secretary to Government

Ordered to be recorded.-

Read the following letter.-

To W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George.-

Sir,

From the Collr. of Vizagapatam.- 6

Reporting that he has no suggestions or alterations to offer on the Draft Salt Rules forwarded with the Board's Circular dated 15th April 1850.

With reference to the Board's Circular of the 15th April last, I have the honor to inform you, that I do not consider any alteration necessary in the Rules therewith transmitted excepting that the minimum quantity of Salt to be sold should be one instead of twenty Mercals, which the Board have since had under consideration.-

2. My own experience does not enable me to speak with accuracy of any wastage which may occur in the process of Storing in this District, but I am assured that from the state in which it is when received into store little or none occurs in the course of receiving into store.-

3. The following Statement shews the percentage of wastage at the several Colurs in this District during the last five years

From 1253 to 1257 inclusive.

Colurs

Fort St. George 21st October 1850

4. The issue of Rowanahs unless they are to be returned with some degree of regularity, is of little avail - Over Rowanahs issued to regular dealers within the District some check might be established, by requiring the dealer to deliver up the Rowannah within the prescribed periods to the Head of the Village or principal Public Officer at the place to which salt is to be taken for transmission to the Hoozoor; but much the greater portion of salt sold at the Cotaurs is disposed of for consumption in Jeypoor and the Nagpoor territories, whence we have no means of getting Rowanahs returned.

Fort St. George.

10

From the Collector of Nellore.—

Sir,

Submitting a Statement of the Salt Roopsoons and the pur=poses for which they were grant=ed and re=porting on the State of several Esta=blishments—

An Extract from the Proceedings of the Board of Revenue—as dated 5th October 1850 with its accompani=ments on the subject of Salt Roopsoons in this District was duly received in this Office and orders were issued to the local authorities to make the neces=sary enquiries respecting the several Establishments for which the Roopsoons were granted, but the subject appears to have been lost sight of as no report regarding them has been submitted to the Board—

I have now the honor to submit a Statement shewing the Particulars of the Roopsoons and the purposes for which they were granted. From the Reports received from the local Officers after enquiry on the Spot it appears that the several Establishments

13924 Fort St. George, 21st October 1850.

Establishments are regularly kept up and that the Chaultries and water Pandals are of general utility to travellers, especially during the hot season when there is always a difficulty in procuring water.

In respect of the Byragy Mattums it appears from the information furnished that they are not designed exclusively to accommodate and maintain a religious order of Mendicants and that the travelling Byaragys do occasionally put up in them and in some instances a trifling aid, as a days subsistence, is allowed, they are still used as Choultries for the accommodation of Travellers in general. Under these circumstances therefore I am not prepared to recommend the resumption of the allowances at present allotted to these Mattums.

The largest amount of Rs. 300 paid to any one Establishment is that of the Ramanjatum Byragy at

13925 Fort St. George, 21st October 1850.

Mattums Viz. Rupees 300 a. p. per annum. This was formerly Rupees 692 2 a bit on the demise of the last incumbent and the renewing of the endowment in the name of the present on the 11th September 1837 the amount was reduced as above, any further reduction therefore at present would not I think be advisable. I would therefore suggest that in this as in the other cases the present amount of endowments be continued, and that on the demise of each incumbent each in individual case be taken into consideration and where the endowment may appear to be unnecessarily large, it can be reduced.

Nellore, Collectors Cutcherry, 3rd October, 1850.

Proceedings

Submitting a letter from the Collector of Vellore reporting on certain Salt Provisoomsin his district and on the state of the several Establishments connected therewith with the Boards views on each case-

Fort St. George 21st October 1850.

Therein Resolved that the letter above recorded together with the enclosure be submitted for the consideration and orders of Government with reference to the papers noted in the margen-

To Govt 20th July 1846-
From Dr 31st August-
Inf'ns 5th October 1846-

2 In this letter the Collector encloses a Statement of the compensation now payable in his District in lieu of Salt Provisoomsx in support of Byragee Muttums, Water Pandals and Choultries, having ascertained, as directed in Extract Minutes of Consultation of the 31st August 1846 para 2, thro' his local Officers that the several Establishments are regularly kept up- He states that the Byragee Muttums are not designed exclusively for religious mendicants of that order and are used occasionally by them and in some instances a trifling aid such as a days subsistence is granted but that these Muttums are also used as Choultries for accommodating travellers in

x a kind of Convent or resort of mendicant devotees-

Fort St. George 21st October 1850

in general and the other Choultries and Water Pandals are of general utility-

3 Mr White suggests that the allowances in support of these institutions be continued and that on the death of each incumbent the allowance enjoyed by him be made subject of Special reference and when it may appear to be unnecessarily large that it be reduced.

4 The Board observe that the allowances entered in the Statement now submitted by the Collector correspond with the sums entered in Enclosure A to Mr Collector Smalley's letter of the 4th May 1825 with the exception of No 10 which was reduced from Rupees 672-2-0 per annum on the death of the former holders and continued to Ramanan Dojs the adopted son and successor to the Byragee Muttums at it's present rate Rupees 300-0-0 per annum under the Sanction of Government dated the 11th September 1837-

Inf'ns 9th May 1825

5 On due consideration of the purposes for which the several grants were

Fort St. George, 21st October 1850

were stated to have been made as per Enclosure A. of Mr Smalley's letter and of the entries under the Column in Mr Whites present Statement; the Board of Revenue consider that the allowances may be classed as follows, taking as their guide, excepting No. 46 the grounds for which the allowances were made according to Mr Smalley's Statement-

Nature of each Class-	No.	Name of the Institution or holder-	For what purpose Originally Granted	Amount	Whether to be Continued and for how long-
Class 1st Life Grants	47	Jagoova Vencamah-	For Subsistence-	30 9 a	Recommended that these lapse to Government on the death of the present incumbents Mr Lutchmeanarsoo & Dunda Sahib-
	23	Shaw Saibak-	For Subsistence-	161 1 "	
Class 2d Charitable Grants-	44	Beerangoota Clarowa	For repairing a Tank & thal waading for reserving Water for Salt dealers Cattle-	34 15 "	Recommended to be continued subject to report in the event of the death of C. Ramasawmy the present recipient-
	27	Canoomallah Atchi-mmah Native Doctor-	For giving medical aid and to the poor-	26 8 "	
Class 3d Grants for Byra-ggee Mat-tums-	37	B. Mutturus of Cheeroo Woopula-pand-	For performing ceremonies at the Mutturn-	103 " "	Recommended to be continued subject to report on the death of the present incumbent Sa-vadoo and Vencomandoo-

Read the following letter-

To. W. H. Bayley Esqre.
Secretary to the
Board of Revenue
Fort St. George.

(12)

From the Collector of Bellary. - - - Sir,

Reporting with reference to the Board's Proceedings dated 12th Feby 1848 that pursuing the Commn of Antapoor has completed the erection of two buildings, a Choultry and a Bungalow, according to his proposition and recommends that a Grant of land be made to him for their support-

With reference to the Board's Proceedings of date the 11th February 1848 - approving of the two Plans for the erection of two buildings, a Bungalow for Europeans Travellers and a Choultry for all Classes of Natives in the Village of Antapoor situated at a distance of 16 Miles from Bellary on the Road between Bellary and Hurryhur and Ramandroog, I have the honor to report that Nursinga Row the Commn of that Village has completed the buildings in question according to his proposition.

2. Nursinga Row has considerably enlarged the dimensions of the Choultry and made it commodious for the accommodation of many Travellers of all classes (see the accompanying Plan of the buildings). The Choultry is quite completed and is a good substantial building and the cost has been (Rupees 1,500) Fifteen hundred

13932. Fort St. George. 21st October 1850

hundred Rupees, or according to the measurement and Calculation made by the Circar Authorities (Rs 1,276) one thousand two hundred and Seventy six Rupees-

3. I consider therefore that Nursinga Row has established his claim to a Grant of Land of the value of fifty Rupees for the support of this Choultry which is of the greatest service to Travellers continually frequenting this Route, and I beg therefore to recommend that the following Land be made over to him for the support of the Choultry-

Land Situated at 3 Villages as noted below-

No.	Number and Description	Extent-			Ayen Assessment			Deduct Chowtayee-			Net Value of the Land-

As

13933. Fort St. George, 21st October 1850

4. As respects the Bungalow built by Nursinga Row for the accommodation of Gentlemen I beg leave to observe that it is of great service, scarcely less so than the Choultry. It is situated at a short distance from the Choultry and affords constant accommodation to the gentry resorting to the Ramandroog Hill. The original Estimate for this Bungalow was 400 Rupees. it has cost (Rs 771) Seven hundred and Seventy one Rupees, according to the Circar authorities calculations and (917) Nine hundred and Seventeen Rupees according to the Cummin's Statements. The Plan of the Bungalow is herewith sent. A tiled Verandah has been substituted for a Thatched, originally intended. The Bungalow on the whole is more substantial. No out houses have yet been erected. But the Cummin is willing to do this also if he obtained a grant of land for the support of this Bungalow.

5. It will be necessary to keep a Pensioned Sepoy or other man and a Sweeper at this Bungalow and there are the Costs of Repairs also to be provided for. The granting

13934. Fort St. George, 21st October 1850.

of land for this building does not properly come under the Rules of grants of land for support of Choultries. But I must submit the request of the Cummin for the favorable consideration and for the Special orders of the Board. He requests that he may be allowed Land to the amount of 65 Rupees for the support of this Bungalow as follows-

Number and Description.	Extent.			Assessment			Deduct Chowtayee.			Net Value of the Land.		
	Acres	G	as	Rs	a	P	Rs	a	P	Rs	a	P
At Antapoor-												
Support Rs 88 Dry Land	19	32	u	11	8	4	2	14	1	8	10	3

20 Do.	31	15	u	9	2	1	u	u	u	9	2	1
	80	28	u	23	7	4	u	u	u	23	7	4
	145	14	u	66	3	7	6	3	5	60	u	2

6. Or should the Board decline this he requests that a less amount of Land viz. Rs. a. P. only 87 15 4 for the support of both the Bungalow and Choultry may be granted. But in this case he requests permission to have a portion of Land already under Cultivation in lieu of all Waste Land as follows-

And

7. And should the Board refuse this, he further requests that Government will take the Bungalow off his hands at its valuation as he has incurred great expense in hopes of obtaining the Land solicited. To this, there could be no objection I think after the Bungalow has been inspected and fully reported on by the Civil Engineer, should the Board not approve of either this foregoing requests for Land-

8. As great encouragement is needed in this District to induce parties to erect Choultries which are so much wanted in all parts, (as was pointed out by the Principal Collector Mr. Robertson) I cannot but recommend the good services of this enterprising individual to the most favorable consideration that the Board are able to bestow upon them-

x See letter to Board 30th October 1838.

Bellary. - - -

Signed / C. Pelly
Collector-

Proceedings thereon.

12:13

The Board of Revenue understand from the foregoing letter that the Choultry built by the Village

Village Curnums of Arumbapoor is to be appropriated to all Classes but it is not clear whether such is intended to include Pariahs and Parials nor what portion of the building is to be allotted to each Class-

2. In returning the Plan received with the foregoing communication, they request that the portion to be so allotted may be noted in it and the same re-transmitted by the Collector-

3. The Board would at the same time point out to the Collector that the Government have considered it objectionable to admit Grants of land in Endowment of Choultries selected from different Villages and that such should be chosen as far as may be practicable, from the unoccupied or waste tracts in the vicinity of the building-

From Govt. 25th February in Cons: 8th March 1837-

From the Collector of Chingleput. Submits the annual Statements shewing the Cultivation Demand Collection and Balance of Peishkush with Receipts and disbursements on account of the Estate of the Minor Zemindar of Vellaco Mah for Fusly 1259 A.D. 1849-50 and requests sanction of the Board for transferring the Estate to the Minor zemindar he having attained his Majority.

Sir,

Para 1. I have the honor to forward the Jummabundy Statements shewing the Cultivation, Demand, Collection and Balance of Revenue of the Minor Estate of Vellaco Mah for Fusly 1259, together with the accounts of the demand and adjustments of Peishcush, and of the disbursements on account of the Minor; proposed in the Mode prescribed by the Court of Wards under date the 20th January 1848.—

2 The Court must be well aware of the very unfavorable nature of the past season, and will therefore be prepared to receive accounts of a great decrease in the extent of Cultivation and quantity of grain received in payment of the Revenue.—

3 From the Statement A they will observe that there was a decrease of Rs 85 as 13 3/4 in the Nunjah Cultivation as compared with the foregoing Fusly, the cultivation of those years respectively being as noted in the Margin whilst the gross produce of the Lands cultivated in the Fusly under

From the Collector of Chingleput ... Sir, Para 1. I have the honor to forward the Jummabundy Statements shewing the Cultivation, Demands Collection and Balance of Revenue of the Minor Estate of Pullaco Wah for Fusly 1259, together with the accounts of the demand and adjustments of Peishcush, and of the disbursements on account of the Minor, proposed in the Mode prescribed by the Court of Wards under date the 20th January 1848.

Submits the annual Statements shewing the Cultivation Demand Collection and Balance of Peishkush with Receipts and disbursements on account of the Estate of the Minor Zemindar of Pullaco Wah for Fusly 1259 A.D. 1849-50 and requests Sanction of the Board for transferring the Estate to the Minor Zemindar he having attained his Majority.

2 The Court must be well aware of the very unfavorable nature of the past season, and will therefore be prepared to receive accounts of a great decrease in the extent of Cultivation and quantity of grain received in payment of Revenue.

3 From the Statement A they will observe that there was a decrease of Cs A. 85 13 3/4 in the Nunjah cultivation as compared with the foregoing Fusly, the cultivation of those years respectively being as noted in the Margin whilst the gross produce of the lands cultivated in the Fusly under

Cs A.
Fusly 1258 -- 385 1 1/8
" 1259 -- 299 3 3/8

revenue.

Fort St. George 21st October 1850.

peneiw amounted only to Rs 934 9 6 Gs Gn P
of Paddy, or 991 9 3 Gs Ms P below the
produce of 1258. On a further examination
of these results, it will also be observed,
that the average produce of the wet lands
was 7/15th less per Cawney, than in the preceding
year, attributable to the deficiency of the
means of irrigation, much of the produce that
was reaped being deficient in quantity and
bulk. The gradual rise in the value of
grain has however prevented the decrease
in the peneume being so great as it would
+ Col: 13 the net decrease in the peneume derived from
the wet lands amounted to Rupees 602-10-3 Rs A P
or 35-11-10 per Cent, whilst the decrease Gs Ds
in the Cultivation was 21-11 per Cent.

The same cause affected the
Cultivation of the Punjah lands, the compar-
=ison result being a decrease in the past as Gs as
compared with the preceding Fusly of 14-8.
In the Cash receipts however there is an Rs A P
excess of 2-13-11 arising from the rise in
the price of produce. There are also some
Punjah lands in this Mootah which are
usually assessed with fixed Money
rates - Of which from similar reasons

Fort St. George 21st October 1850.

as
reasons 6/4 24 11 3/8 have remained unattached
causing a corresponding decrease of Rupees
+ Col 19 as P
45: 7: 8 under that head. The general result
is a decrease in the demands of Rupees 646-8-
as compared with Fusly 1258, or Rupees 1162-10
° Col 75 below the Permanent Settlement.
° Col 76
5 Statement B exhibits the Demand
Collection and Balance of Revenue on account
of the Estate since taken under the charge of
the Court of Wards up to the present time.
Of the Balance due for Fusly 1257 Rupees
7 11 6 has been collected, and is in deposit
pending the decission of a boundary dispute
between the Village of Punnoo Potty and a
Zemindary, which will very shortly be
disposed of. The remaining sum due by
impoverished ryots, as also the sum of Rupees
as P
3: 12: 2 due for Fusly 1258 is considered irrecoverable.
Of the balance outstanding for Fusly 1259
Col: 6 Rupees 105 11 0 are stated by the Manager
to be recoverable. Sanction for remitting the

as P
being in total Rupees 10 15 3 should be
requested. The Peishcush on this Estate is
Rupees 7,427-9-6 per annum, whilst the
gross Beriz according to the Settlement
Col: 2: of 1259 was only Rupees 7,259-15-2 from this amount

are

are to be deducted the undermentioned sums

Fixed Establishment. ——— 177 — " — "
Temporary — Ditto ——— 50 — 8 — 4
Maramut Ditto ——— 11 — " — "
Maintenance to the Minor ——— 154 — " — "
Total ——— 392 : 8 : 4

the net result is therefore Rupees 867 — 6 — 10 as below the demand of Government.

The son of the late Zemindar having attained the age of 18 years it becomes my duty now to bring the circumstances of this Mootah particularly to the notice of the Court of Wards and to solicit their instructions regarding it.

The Mootah comprizing 5 Villages assessed with a Permanent Summah of Rupees 2,477-9-5 was purchased by private sale in Fusly 1231 by the late Sadagopachary, the terms of the purchase are not however known. This person died on the 11th September 1810 having executed a Will transfer of which was submitted by me to the Court of Wards on the 25 September 1811. By this Will the due execution of which was acknowledged by all parties interested, the late Zemindar desired that the Estate should

to his son but that the Management until the Minor attained his majority, should be vested in Ragavah Chary the Paternal uncle of the Minor. In consequence of this Will I so registered at the joint request of all parties interested this Estate in the name of the Minor and left the Management in the hands of Ragavah Chary, as desired by the deceased. This arrangement had not been acted on many months when the widow of the deceased who is the step Mother of the Minor Zemindar presented a Petition to the Court of Wards, bringing various charges against Ragavah Chary, and praying that the Estate might be taken out of his hands by the Court and committed to the Management of one of her relatives; and she further claimed the restoration of certain Jewels mortgaged by her at the instigation of Ragavachary to meet the outstanding Kists. After a detailed investigation into the charges brought forward, the result of which was reported to the Court of Wards on the 17th November 1812. the Court dissatisfied with the accounts and explanations furnished by Ragavah Chary and at his having paid to himself out of the proceeds of the Estate Rupees 56 : 14 : 11 As. P. the

the amount of a legacy left by the deceased at a time when arrears of Peishcush were due to Government and the widow was Mortgaging her Jewels to meet the demand desired that he should be removed, and the Estate being taken under the Management of the Court of Wards should be placed under the Charge of a Manager selected by the widow. I had previously expressed to the Court of Wards my opinion that it was not advisable to adopt these measures as the assets of the Estate were barely sufficient to meet the Government demand, and that when the expenses of Maintaining and Educating the Minor, the pay of the Establishment, and the remuneration of the Manager were deducted from the gross receipts, I thought there would be a deficiency. The Court of Wards viewing the matter in a different light decided that the Estate should be taken under Management when Veneda Raganacharry a relative of the widow was nominated at her suggestion as Manager this person died shortly afterwards and was succeeded by his Son Seevoungadacharry who has continued to hold the Office until this time.

From

8. From all the information I can procure and from the accounts of former Collections it appears the Estate was never a profitable one, and that the late Zemindar generally met the demand for the Government Peishcush rather from the profits of trade and private sources than from the current proceeds of the Estate, he having been in the habit of storing the Malewarum grain until it bore a high price in the Market. Since the Estate came under the Court of Wards in two years only or in Faslies 1254 and 1255 has the Settlement exceeded the Government demand but it must be remembered that the Manager has had much to contend with from bad seasons and the very low rates at which all produce has been selling together with the loss sustained thro' the Storms in 1840, and that under a system of Management it was necessary for him to sell the Malewarum grain from time to time without reference to prices. The total amount of Collections since the Estate came under the charge of the

13948 Fort St. George 21st October 1850.

the Court of Wards in 1251 have been
18,108—6—7 whilst the Peishcush for
the same period amounted to Rs. A P
21,404-5-0 or Rupees 3,235-14-11 above
the former. The balance of Peishcush
still due however is Rupees 6,813—6-2
the difference having been absorbed
as follows.—

Rs. 6813—6—2
3577—7—3
3235—14—11

Sibbendy	1,776	7—6
Maramut	563	3—11
Maintenance	1787	11—10
	3577	7—3

The Minor having now attained his majority I have called upon him to state his wishes in regard to the Estate and he has strongly urged upon me to solicit sanction for retaining it for two years longer under management, when he would be better prepared to take charge, but this is an arrangement which under all circumstances I dont conceive it advisable to suggest and I request sanction therefore to place him in immediate possession.— The Zemindary will

13949 Fort St. George 21st October 1850.

I have no doubt, fall into arrears, and cannot long remain in private hands, but as he is desirous not to relinquish the Mootah if possible, it should at once be given over to his charge - It will be necessary at the same time to come to Government for sanction to write off the balances of Peishcush that have accumulated during the minority amounting to Rupees 6,813-6-2. Six thousand, Eight hundred, and thirteen, annas Six and Pie two.—

Proceedings thereon.

Submitting a letter from the Collector of Chingleput relative to the management of the Vallacotta Zemindary for Fusly 1259 and recommending that the Estate be made over to the Zemindar and that the balance accruing since the Estate came under management be written off.

Fort St. George 21st October 1850

The Estate of Vallacottah was taken under management of the Court of Wards under the orders of Government conveyed in Extract Minutes of Consultation 10th May 1842 under the circumstances detailed in the papers noted in the Margin and recapitulated in para 7 of the Collector's present Report.

To Government 4th March 1842	
From — Dr. 29 — Dr.	
In Cons 28th April 1842	
To Government 28th April 1842	
From Dr. 10 — in Cons	
12th May 1842	

2. The season of Fusly 1259 was unfavorable. There was therefore a falling off in the extent of cultivation, chiefly in that of Kunjah, the gross produce of which amounted only to Cannies 934-9-6 of Paddy or Cannies 991-9-3 below Fusly 1258 and the decrease would have been greater but for the gradual Rise in the price of Grain.

3. From the Marginal Statement it will be seen that there was a decrease of Rupees 646-8-0 in Fusly 1259 in the Demand

	Kunjah	Paddy	Total
	Including Money Rents.	Money.	
Fusly 1258 Rs.	1086-11-1	713-4-1	1799-15-2
— 1259 —	1084-10-10	170-15-4	1255-9-2
			646-8-0

13956

Fort St. George 21st October 1850

Demand below that of the preceding year in the following proportion—

Para 4. From Wet lands Rupees —— 607-10-3

—"— Dry lands including Money rented —— 42-4-9

—"— Ready Money Collections —— 1-9-0

The Settlement of the year fell short of the Peishcush by Rupees 1162-10-4

The collections made within the Fusly 1259 were Rupees 987-8-10 and subsequently up to the 10th September 1850 Rupees 107-2-0, leaving a balance of Rupees

Para 5. 110-4-0 of which sum only Rupees 105-4-0 are stated to be recoverable—

It would appear from Statement B. that the irrecoverable balances, with one exception, previous to Fusly 1258, Rupees 50-2-8 were remitted— Of the Net balance of Rupees 9-14-7 in Fusly 1257 the sum of Rupees 7-11-6 has been recovered, but the remainder, Rupees 2-3-1 as also, Rupees 3-12-2 on account of Fusly 1258 and Rupees 5-0-0 on account of Fusly 1259 amounting in the aggregate to Rupees 10-15-9 is stated to be irrecoverable, and

Fort St. George 21st October 1850

and the Court of Wards recommends that it may be remitted—

6. After paying the usual charges of Sibbendy, Maramut, and maintenance of the Minor amounting to Rupees 392-8-4 the remainder Rupees 757-2-10 was carried to the payment of Peishcush—The arrears of which entered in Statement C amount to Rupees 6813-

Para 8.

6-2—It is stated by the Collector that the Estate was never a profitable one, and that the former Zemindar met the demand generally from the profits of trade and private sources, rather than from the proceeds of the Estate, he having been in the habit of storing the Mailwarum grain until he obtained a high price for it in the Market. From Statement D it will also be seen that the Total collections since the Estate came under Management of the Court of Wards in Fusly 1251 amount to Rupees 18168—6—7 whilst the Peishcush as per Statement C to Rupees 21404—5—6.

In

Fort St. George 21st October 1850

In Fusles 1254 and 1256 only has the Settlement exceeded the Government Peishcush, and the Collector states that the reasons which led to such results where the difficulties encountered from bad season the low prices of grain the losses sustained thro' the storms of 1846 and the system of management which rendered it necessary to sell the Mailwarum grain without reference to prices—

Para 8

From the Statement D it

7

is perceived that the Total Collections from the Estate Rupees 18168-6-7 were expended in the following proportions—

Fixed Sibbendy Rupees			1387—7—6
Temporary Do.			339—0—0
Maramut Do.			563—3—11
Maintenance of Minor			1,287—11—10
Government Peishcush			14,590—15—4
			18168—6—7

In the concluding para

Para 9.

8

of the Collectors report it is stated that the Zemindar has now attained his majority and that he requests that the Estate may be retained under the

Fort St. George 21st October 1850.

and the Court of Wards recommend that it may be remitted—

6. After paying the usual charges of Sibbendy, Maramut, and maintenance of the Minor amounting to Rupees 392-8-4 the remainder Rupees 757-2-10 was carried to the payment of Peshcush. The arrears of which entered in Statement C. amount to Rupees 6813-6-2. It is stated by the Collector that the Estate was never a profitable one, and that the former Zemindar met the Government demand generally from the profits of trade and private sources, rather than from the proceeds of the Estate, he having been in the habit of storing the Mailwarum grain until he obtained a high price for it in the Market. From Statement D it will also be seen that the Total collections since the Estate came under Management of the Court of Wards in Fusly 1251 amount to Rupees 18168-6-7 whilst the Peshcush for the same period amounts as per Statement C to Rupees 21404-5-6.

Para 8.

In

Fort St. George 21st October 1850

In Fusilies 1254 and 1256 only has the Settlement exceeded the Government Peshcush, and the Collector states that the reasons which led to such results where the difficulties encountered from bad season the low prices of grain the losses sustained thro' the storms of 1846 and the system of management which rendered it necessary to sell the Mailwarum grain without reference to prices.

Para 8

7. From the Statement D it is perceived that the Total Collections from the Estate Rupees 18168-6-7 were expended in the following proportions—

Fixed Sibbendy Rupees	1387	7 6
Temporary Do. "	339	" "
Maramut Do. "	563	3 11
Maintenance of Minor	1287	11 10
Government Peshcush	14590	15 4
	18168	6 7

Para 9.

8. In the concluding para of the Collectors report it is stated that the Zemindar has now attained his majority and that he requests that the Estate may be retained under the

Fort St. George 21st October 1850

the present Management for two years longer. The Collector however is averse to such an arrangement and considers that the Estate should at once be made over, and as his view appears correct the Court of Wards recommend that sanction for the transfer be granted accordingly.

3. They further support the Collectors' suggestion for writing off the balances of Peishcush that have accumulated since the Estate came under management in Fusly 1251 amounting to Rupees 6,813-6-2.

Ordered that a Copy of the foregoing Proceedings be submitted to Government and a transcript of the same be forwarded to the Collector of Chingleput.

Read the following letters

To W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George

Sir,

I have the honor to acknowledge an Extract from the Proceedings of

18

From the Collector, North Arcot — 3
Replies to the Board's Proceedings of

Fort St. George 21st. October 1850

of the 16th Instant and solicits instructions on certain points connected with the rules for the Lungurkanahs of Arcot and Vellore.

of the Board of Revenue dated 16th Instant, noticing some proposals submitted by me for abolishing or reforming the Lungurkanahs at Vellore and Arcot; but as the orders of the Board are rather indefinite, I write to request more detailed instructions on some points.

2. The Board direct that the rules respecting the qualification of individuals to receive assistance shall be put in force for a time, and their effect reported on. One of these Rules, Viz. the note to Rule 1, is that persons now receiving alms, but disqualified under the new Rules by being born at a distance, shall receive Money to enable them to reach their homes. I beg to be informed whether the Board authorize me to disburse the funds of the Lungurkanah in this way unless parties disqualified under this rule are struck off, the expenses will not be reduced in the degree in which the rules are calculated to reduce them, and the experiment ordered by the Board will therefore afford no means of judging of the funds likely to be set free for other objects

another

Fort St. George 21st October 1850

3 Another rule provides that the recipients of Alms shall be provided with cloths which has not been done hitherto, I beg to know whether I am authorized to incur this expense also. The expressions used by the Board are ambiguous, in the first Para they appear to direct the temporary introduction of those Rules only which refer to the qualifications for the receipt of Alms, but their concluding remarks appear to indicate that all the rules proposed are to be put in force. If however the former was the Board's Meaning, and so rule 3 is excepted from their Sanction Rules 4 5 and 6 are excepted also, and I should wish to know whether it is the Board's intention that none of these should be adopted for the present.

4 With reference to Para 2, I beg to say that it was never my intention that any persons should be deprived of their allowances on the ground of disqualification under these Rules, except after direct investigation by the European officer in charge of the Pungurkanah to which they belonged, and with reference to Para 4, that I do not consider the aid of a committee necessary for this object. Adverting to Para 3, I further beg to state that for the last few years there is no accumulation of the funds, only the amount thereof actual expenditure being carried to the account of the Pungurkanahs every Month.

North Arcot
Collr's Cutcherry
Palmanair 18th Sept 1850

(Signed) J. D. Bourdillon
Collector

In

Fort St. George 21st October 1850

Proceedings thereon. 1. In their Proceedings of the 18th September the Board gave some general instructions upon the proposition contained in Mr Bourdillon's letter of the 9th August last, for reforming the Pungurkhanahs at Vellore and Arcot and by a more economical distribution of the funds for the Establishment of Hospitals and Dispensaries at those places.

2 Although the Board do not altogether concur in the general sentiments expressed by the Collector respecting the evils which he considered to be produced by Charitable institutions of this kind, and the desirableness of abolishing them altogether, yet they were fully satisfied that considerable abuses had grown up in the distribution and arrangement of this particular Charity, (the Vellore Pungurkhanah) and they considered the rules proposed by Mr Bourdillon to be, on the whole, well adapted for effecting a reform.

3. There were some of those rules however, which, in the opinion of

1396 Fort St. George 11th September 1850. Sir Con. 11th September 1850 18-19

Fort St. George 21st. October 1830.

of the Board, would operate rather harshly in their application to the case of particular individuals; but it was considered preferable to leave as much latitude as possible to the Collector in carrying out the measures of reform which he had proposed, and in place therefore of hampering him by detailed instructions on each Rule, they confined themselves to explaining in general terms the principle upon which they would desire to see the reform brought about. The Board now observe that its object in this respect has been misunderstood. The Collector considers the Proceedings of the Board above referred to, to be indefinite and ambiguous, and requests more detailed instructions on some points which will now be given him, by noting each of the Rules which he has proposed to alter.

Rule 1. This rule as to the qualification of persons entitled to relief may very properly be adopted without qualification, in determining all admissions to be made hereafter;

Fort St. George 21st. October 1830.

but with respect to those at present in receipt of relief, many of whom probably have been so for a considerable number of years, it may operate with extreme hardship at once to dismiss them, and it will be preferable to treat each case on its Merits, retaining as pensioners those whose circumstances render them fit objects of charity, and dismissing only those who have the least claims. The Board would prefer to look to a gradual reduction in the number, by lapses, rather than by a sudden withdrawal of all assistance from parties, who have, tho' disqualified under the rules now proposed, been accustomed to trust to this institution for support. Referring to the note appended to this rule, the Board doubt the expediency of absolutely confining the gratuity to be given to parties dismissed, to 2 Rupees. It is manifest that under equal circumstances in other respects, a pensioner, from a long distance such as the

of the Board, would operate rather harshly in their application to the case of a particular individual; but it was considered preferable to leave as much latitude as possible to the Collector in carrying out the measures of a reform which he had proposed, and in place therefore of hampering him by detailed instructions on each Rule, they confined themselves to explaining in general terms the principle upon which they would desire the reform brought about. The Board now observe that its object in this respect has been misunderstood. The Collector considers the Proceedings of the Board above referred to, to be "indefinite and ambiguous", and requests more detailed instructions on some points which will now be given him, by noting each of the Rules, which he has proposed to alter.

Rule 1 This rule as to the qualification of persons entitled to relief may very properly be adopted without qualification, in determining all admissions to be made hereafter

hereafter; but with respect to those at present in receipt of relief, many of whom probably have been so for a considerable number of years, it may operate with extreme hardship at once to dismiss them, and it will be preferable to treat each case on its Merits, retaining as pensioners those whose circumstances render them fit objects of Charity, and dismissing only those who have the least claims. The Board would prefer to look to a gradual reduction in the number, by lapses, rather than by a sudden withdrawal of all assistance from parties, who have, tho' disqualified under the rules now proposed, been accustomed to trust to this institution for support. Referring to the note appended to this rule, the Board doubt the expediency of absolutely confining the gratuity to be given to parties dismissed, to 2 Rupees. It is manifest that under equal circumstances in other respects, a pensioner, from a long distance such as the

the Man referred to in Para 6 as coming from Inggaunt would require a larger Amount of gratuity to enable him to return to his Village than one from a place not much exceeding the distance from Vilkope /10 Miles/ laid down as a qualification. In the former case the Amount of gratuity would be insufficient for the purpose in view, the Collector is therefore authorized to grant such a Modorate gratuity to parties whom he may strike off the list as he may consider necessary. The sums granted on this account however shall in no Month be such as to increase the aggregate expenditure beyond the sanctioned Monthly allowance inclusive of the other regular expenses of the institution.—

Rule 7th.

This rule appears unobjectionable in its general principle but difficulty must frequently be experienced in determining whether the friends of a pauper are able to maintain him, in some cases they may be able to render him partial assistance.

assistance without altogether supporting him and a small assistance to enable them to do so would in the opinion of the Board be a legitimate application of the funds. The leaning in doubtful cases of this kind, should always be towards the side of the applicant for or present recipient of, relief.

Rule 3d.—

The Board would suggest that the allowance of paw rice to be given to adult Males should be 80 Rupees weight or 1 Seer in place of 70 Rupees weight as proposed by the Collector. 60 to women, and others above the age of 12 years and 40 or half a seer to Children below that age. The proposal to give clothing to those who require it is approved, but the Board would desire to ascertain before absolutely sanctioning this part of the rule the probable expenditure from the funds which will be occasioned by this new item of expense. It will obviously depend on the Number of persons retained as recipients of relief

relief and it may probably be ad=
=visable to defer acting on it until
the reduction of the present
number of paupers has been
carried out—

Rule 4

Is approved.

Rules 5 & 6

The daily appearance at the
place of distribution of all recipients
may occasion considerable inconvenience
and trouble, whatever the existing practice
may be it might possibly be found
sufficient to make the distribution once
every two or even in every 3 days. The
Board would wish the Collector to
reconsider the point; but do not desire
the alteration of his proposed rule if
in practice it is likely to be un=
=attended with the inconveniences
anticipated by them.— Amongst the
exemptions from attendance provision
should be made for temporary sickness.
to be shown to the satisfaction of those by
whom the distribution is made.—

Rule 7.

In the enumeration of causes
which will involve the forfeiture of
allowance the Board would recommend
that to the one on account of absence
should be added the qualifying phrase
"without satisfactory cause shown" and
they think that the last cause
enumerated Viz not giving information
of fraud or attempt at fraud might
be omitted. For this and other
less serious mistances of misconduct
the stoppage of allowance for a limited
period might be provided in place of abso=
=lute dismissal to be determined by the
Judgment of the Collector.

Par.a 10 4. Referring to the remarks of
the Collector respecting the propriety or
feasibility of [illegible]
prohibiting recipients of Charity from the
practice of begging, the Board are
of opinion that it would be advisable
absolutely to prohibit it, but to
obviate the objection urged by the
Collector that they require to be

provided

provided with firewood and other small Etcetras. they are inclined to view favourably the plan of adding a small fixed amount in ready money to the daily allowance of raw rice to those who are altogether destitute.— The excuse for begging would thus be done away with and the practise of Mendicity might be forbidden on penalty of dismissal from the Lunger Khanah. That this allowance might sometimes be spent in other than the intended manner can hardly be viewed as a sufficient objection, for it is scarcely possible even in the best devised and well regulated Charity altogether to guard against abuse. The most that can be hoped for is by a vigilant supervision to diminish it as much as possible. The Board would wish to be informed what amount of ready money allowance would be adequate for the provision of the other necessaries referred to for each pauper, and the

the probable aggregate increase of expense with reference to the reduced number when the reduction proposed shall have been carried out—

5. The Board have already expressed their sentiments respecting the Class of persons referred to in

9th August 1850. Para 11 of the Collector's letter and they will only therefore here repeat their wish that the cases of such persons should be treated with very great forbearance and consideration in carrying out the proposed reductions.—

6. In conclusion the Board will observe that the calculation of reductions which may be effected as given in Para 12 of the Collector's letter will no doubt be considerably influenced in its results by the modifications in his rules here proposed and they request therefore that he will again address them on the subject, after the proposed scrutiny into the case of each individual

individual has been effected and the actual reduction consequent thereon which may be practicable has been correctly ascertained.—

Read the following.

To

W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George.

(20)

From the Collector of North arcot — 3 / 1

Returns Petitions Nos. 720 and 722 of 1850 and supports the prayer of Petitioner for a grant of a Mantam for the Choultry erected by his Father at Wallajah Pett.—

Sir,

Petitions 720 & 722 of 1850 are Herewith returned with Plan.

Applications for a grant of Land for the support of a Chultrum for the travellers at Wallajah pett, the former Petitioner being from the son of the individual who erected the building and the latter from certain inhabitants of the town who support his request. The order of the Board on these Petitions is that the parties should first address me and these petitions were accordingly presented to me, and as I think the circumstances deserve to be brought specially to the notice of the Board for their orders

order I do this by letter instead of merely endorsing the petitions.—

2. The Chultrum referred to is a very spacious and substantial one, it was built by Pansy Chitty father of the Petitioner in No. 720 and was commenced as well as I can learn about twenty years ago though it is comparatively but a few years since all the buildings were finally completed. It consists of two separate yards or squares, one of which is wholly appropriated to Brahmins while the other is also used for Brahmins & a few of the most honorable and wealthy Soodras; there is also a double range of buildings being on one side, a stone varandah towards the street & on the other a pow of small Chambers, the former is used for lodging by Soodras generally, and the latter partly for that purpose and partly for cooking. The buildings of one of the two squares are wholly of stone the other is tiled but all are well built.

There

There is also a handsome stone tank containing good water. I am unable to specify the cost with accuracy but it will be clear from the foregoing description that it must have been large, and an estimate of the probable Cost now prepared by the Tahsildar amounts to Rupees 8,985 including the tank. The Chuttrum is in the main street of the large and populous town of Wallajah pett and on the high western road it is therefore most advantageously situated and in point of fact it is much used by travellers.—

3 The building is indeed in most points well worthy of a share in the bounty of Government but there are three formal obstacles. In the first place the application for the grant must not made before the building was erected, nor for long after, but perhaps this objection may not be considered insuperable in the case of an institution of real merit. 2d There

is already an endowed Choultry on the same road and within half a Mile of this—Viz. that of Vydilinga Moodely, which stands just outside of Wallajah pett; that also is a roomy and well built Chuttrum and of great use to travellers. But the rule which prohibits the endowment of a Choultry when there is one already endowed within ten miles on the same road though just in general seems hardly applicable to a place like Wallajah pett & on such a road, because the number of travellers must be much larger than any one Chuttrum could accommodate. Lastly. The Chuttrum does not contain sufficient accommodation for all castes, but the Petitioner states that he is prepared to remove this objection by the erection of a double shed or bungalow for Pariahs and other low castes now excluded. If these obstacles may in the opinion

Note There is also another endowed Chuttrum in Wallajah pett Viz. that of Gandul Ramasamy Chitty but that is a small one and this also quite off the High western road being close to the Gate of the Town and the road to Trichinopoly.

of the Board he thus pronounced
they to support the Prayer of these
Petitions, and if the opinion of the Board
is favorable on this point I will
when favored with their orders make
more minute enquires and submit
more detailed information on
with a view to a Quarrein
being granted.

The Board of Revenue
will be prepared to support the
application of Narrain Chitty for the
usual grant of waste land rent
free in Endowment of the
Choultry at Wallagunagur the
building of which was
begun by her father
and

and completed by himself upon
the understanding that with
the further condition alluded to
in the concluding para of the
foregoing letter the buildings
will be enlarged in a permanent
manner so as to provide for the
accommodation of all classes
of the Community. On the
final completion of the buildings
the Collector will submit a plan
and rough sketch of their position
together with a Memorandum
of their cost.—

Secretary to the
Board of Revenue
Fort St. George.

24

Sir,

From the Collr of North Arcot } Paras.

Reports on the Summah-bundy Settlement for Fusly 1259.

I have the honor to forward the usual Accounts of the Land Revenue of North Arcot District for Fusly 1259. A.D. 1849/50 agreeably to the following list—

A. Summah-bundy Statement.
B. Comparative Statement of Fusles 1258 & 1259.
C. General Comparative Statement of the same two Fusles.
No. 1. A detailed Statement of the Amount of Shawy. remission.
" 2 Abstract of Ditto — Do.
" 3 Statement of land granted on Cowle.
" 4 Detailed Statement of Teerwajaetee and Bogajaetee.
" 5 Abstract of Ditto
" 6 Statement of Boganiety or remission for non-Cultivation of 2d Crop.
" 7 Statement of the Beriz of Revised Villages.
" 8 Statement of Charges.

Statement

Fort St George 21st October 1850

No 9 Statement of the Prices of Grain in each Taloork.

" 10 Statement of Sugar cane Cultivation -

" 11 Comparative Statement of Indigo Cultivation-

" 12 A Classified Statement of the Puttahs of the District.

" 13 Detailed Statement of Sewoy Jamah

" 14 Talookwar Statement of Shawy Remissions

2 The Season of Fusly 1259 was a bad one, chiefly from the almost total failure of the North East Monsoon. The early Poonjah rains of May and June were scanty especially in the former Months, but still they were not worse than those of Fusly 1258. In July and August in the course of which the poonjah Cultivation should be well advanced as well as the Nunjah Carco Cultivation the rains were more favorable in general though deficient in some Talooks, and in September and the beginning of October there was a fair quantity of rain for that time. But the North East Monsoon which usually Commences about the 20th October failed almost entirely as already said, and after the middle of October, there was no rain throughout the District

Fort St George 21st October 1850.

District except a few light falls in the early part of December and again for one day in the beginning of February. The deficiency of Rain appears to have been most felt in the Eastern parts of the District, which are most dependant on the North east Monsoon. In the Sudwaid Taloork the Nunjah Crops failed extensively and the Poonjah likewise to a Considerable extent and not only in that Taloork but generally over the District the produce of Crops even not actually Shawy was below an average

3 The want of water was so great in many places towards the end of the dry season that the Ordinary sources for the Consumption of Men and Cattle dried up, and much inconvenience and difficulty were experienced in consequence. It might have been supposed that this Scarcity of water and the Consequent use of bad and foul water would have shewn its effects in a greater prevalence of epidemic disease But so far as the Taloork Returns are to be relied on this was not the case, the number of reported deaths of Cholera was 1,303 in the fifteen Government Taloorks.

in

Fort St. George 21st October 1859

in the Year under report, against 2,600 in the Year preceding, being only one half.

4. This disorder prevailed most in the Talooks of Chittoor, Vellore, Sautghur, Trivatoor and Poloor, the deaths in those five Talooks being 824, but there was no Considerable town throughout the District in which it did not appear and in some small Villages it was very distinctive. In the Pennaury Talook it seemed to advance gradually along the road from Tripulty to Chittoor, and for a short time in March and April its ravages in that locality were very great. The loss among Cattle also by what are Called Epidemics was less than in Fusly 1258, being only 3,350 against 6,500 in that Year, of the former number 1423 were Cows & Cow Buffaloes and 1,927 were Bullocks and he Buffaloes.

5. The following abstract Statement Compares the Average price of paddy in the Fusslies 1258 and 1259 in my own division and in the Subdivision. The Talook variations are given in Enclosure No. 9. These Statements are prepared on the basis of a measure of 120 Rupees weight

Fort St. George 21st October 1859.

of Grain pending the final Orders of the Board on the Subject.

Stem.	Commutation Price of Paddy per Garce.	Bazar price of Paddy per Garce		Comparison between Columns 2 & 4.		Comparison between Cols 3 & 4.	
		In Fusly 1258.	In Fusly 1259.	Difference	Per-Centage.	Difference.	Per Centage.
1	2	3	4	5	6	7	8
	Rs A B	Rs A B	Rs A B	Rs A B	Rs A B	Rs A B	Rs A B
Collector's Division	84 5 2	58 9 1	66 a 1	18 5 1	21 11 7	7 7 -	12 11 2
Sub Collr's Division	87 8 4	57 11 3	59 a 10	28 7 2	32 8 2	7 5 7	14 3 5

The very moderate rise in the price of Grain may surprise with reference to the very bad Character of the Season. I attribute this Circumstance partly to the general truth that the full effects of a Season on prices whether good or bad are not seen immediately because a considerable portion of its production does not Come into Consumption till the following Year, and partly to the fact that the two Fusslies 1257 and 1258 were years of great production so that the Stock of grain on hand at the beginning of Fusly 1259 was unusually large.

6. The Settlement of Fusly 1259 was Commenced on the 16th January at Pallecondah and was Concluded at Veeracalyherry Cottah on the 5th June. The total number of Puttahs including Mutuphas was 115432 of which 83835 were in my Division and 31597 in the Sub Collector's Division.

The

13983

Fort St George 21st October

The following Statement specifies by Officer and Year when each Talook

Officers.	Talooks Settled.	Place where Village.	Settled Talook.

	Poloor	Poloor —	Poloor
	Wandiwash	Wandiwash —	Wandiwash

The order of Government of the 12th November 1849 stipulates the Settlement of each Talook within itself was not fully acted upon this year but I propose to carry into full effect in the Settlement of the current Fusly. The Pennundy Talook would have been partly Settled at the Cutcherry Pennundy but the want of water was so great at that place, which is an insignificant Town that I could not assemble so many people there added to which the Cholera was very prevalent in the vicinity and would probably have broken out violently in such a concourse.

7. The mode of Settlement adopted in Fusly 1258 and described in my report on that year, Para 4 & 11 was adhered to in Fusly 1259; and it was my endeavour to cause the Ryots as little detention from their homes as possible and to have the explanation to each of the Contents.

13984

Fort St George 21st October 1850.

contents of his puttah deliberately and distinctly made. I do not find, at present, however, that they generally like this mode of proceeding; the evil of being brought from their houses and labours overbalancing in their estimation all the advantages which they can see in it. Neither have they generally intelligence to comprehend the details of the Demand against them, they can only say whether the whole is or is not correct according to what they have been used to pay. The same mode of settlement was introduced in the Year under report, in the Sub Division also.

8. The following statement compares the extent of land taken up at the Dittum and afterwards in Fusly 1258 and 1259; it does not include Bogajasty Items

13985. Fort St.e George 21.st.e October 1850.-

Fort St. George 21st October 1850.

9. The actual Cultivation in each year out of the extent taken up is shewn in the annexed Statement, which includes Stutta Cummy but not land ploughed only and not sown. It will be seen that this Statement exhibits a large decrease of Cultivation in all the three descriptions of land; the total falling off, including that in Bogajastee, amounted to nearly three lacks of Rupees.

derable decrease amounting in the whole to Rs. 37,670, the Taloo[k]s in which it was largest are named in the Margin. Inn Sutwaid although the early rains were so favourable in comparison with the preceding year as to cause the above slight increase in the extent Cultivated, the want of rain afterwards was so great as very much to diminish the produce, and in some instances it was found necessary in the Taloo[k] to allow remission

remissions for Poonjah Shavy.-

11. In Nunjah there was a large decrease in every Taloo[k] of the District except those of Cuddapanuttum and Vencataghirry Cottah which lie above the Ghauts. where there was increase to the amount of 2917 Rupees. These Taloo[k]s from their position depend less on the North East Monsoon than the low Country; they had also been very badly off for rain for the two previous years, and to them Fusly 1259 though not a good year was better than the preceding one. The total falling off in Nunjah amounted to 234,972 Rupees; the Taloo[k]s in which it was largest are shown in the margin. It will be seen that the deficiency is greatest in the two Taloo[k]s of Trivattoor and

The

Fort St. George 21st October 1850.-

15. The first item in the Statement shews the total gross demand according to the dittum and cultivation accounts, being the amount of the Dittum added to the Cultivation without dittum, and Boga-jasty; that being the basis on which the settlement is founded. The amount of the Dittum in Fusly 1259 was less by Rupees 11,7958-1-5 than in the preceding year, as shown in the statement given above in Para 8. So much less land having been taken up in consequence of the bad prospects of the season. But the actual cultivation of the season was so bad, that a much larger extent of land remained uncultivated out of this much diminished dittum than in Fusly 1258. The annexed Statement shows how much of the Dittum Bunjer was brought to account and how much remitted.-

D.C.

The

Fort St. George 21st October 1850

16. The gross Dittum Bunjer amounted to 346,185-7-9. enquiry was made at the Sunnahandy in every case as to the cause of the land being waste, and in the vast majority of instances it was evidently the want of water. Where this was not the case, and the means of irrigation were proved to have been at hand, by the actual cultivation of adjoining land or otherwise, remission was refused, this occurred almost entirely in land watered by River Channels a small extent of poonjah Dittum Bunjer was also brought to account, Viz. 19-15-3 where the Ryot had means of irrigation from his own well, and yet omitted to cultivate. The total Dittum Bunjer brought to account was 322-6-11, and the amount remitted was 345-7-33.

17. The Dittum Bunjer remission being deducted, the remainder is the "Gross Settlement" as defined by the Board. How follow the deductions from this gross amount with one exception, that of short produce

Proceedings April 6th 1850. Para 26

13996

Fort St George 21st October 1850

produce Remission, they are all of the usual and ordinary kinds and I will notice those only which are much larger than usual, or which exhibit much variation from the preceding Year.

18. The Remission for Chickerpooly, Stullacummy and Boganashty exhibit a considerable increase agreeably to the Character of the Season, A greater extent of land having been prepared for sowing in expectation of rain which did not come, a greater number of Stullums having been only partly Cultivated, and a greater extent of two Crop land having been Cultivated with only one Crop, than in Fusly 1258. In all these items the rule for granting remission stated above in the case of Dittum or Bunjer was adhered to, and in the case of Stulla Cummy the waste was brought to account where less than a fourth of the Stullum, according to the Standing Mookumnamah - Under these Rules the result was as follows -

19 In Nantingaul Remission there is a large increase. This is probably in part a Real increase from planting having been more generally resorted to in preference to Sowing in consequence of the short supply of water, but the greater part of it is only apparent, owing to the Circumstance which I noticed last year, Viz^t, that this item had in previous Years been for the most part not entered as a Separate item in the accounts having been only partially so in that year. I anticipate a further increase from the latter cause in next report, as it is clear that the whole of the land thus employed is not entered as such, especially in the Southern Taluks. The total Assessment of the land used as seed beds was 6,087-4-7 of which 38-8-3 was brought to account, because afterwards Cultivated, and the remaining 6,048-8-7 was remitted, being 4,182-9-4 in excess of the similar Remission of Fusly 1258. The same rule as to Remission was followed in the last named.

See Board's Proceedings April 8th 1850. Para 9-

named year, as correctly surmised by the Board.

20 There was a Considerable decrease in the remission on account of Tecazgany, Dusoustum remission, and the general remission of 12½ per Cent. as well as in the small items of Chatoor Bangum and Panchum Wiporah, all these are proportioned to the Cultivation, and were consequently reduced in proportion to the diminished Cultivation of the Year. There was also a diminution in the remission on account of land overflowed in the beds of Tanks, the Tanks having been generally so much worse supplied than in Fusly 1258.

21. There is also a decrease in the Amount of Cowle Remission, there is only one Cowle now Current in the district and the land included in it advanced a stage in the grade of payment according to terms of the Cowle. The special Cowle granted to Mr Groves under the orders of Government noted in the Margin, being

May 3d 1850.

different in its nature from the Common

progressive

Fort St George 21st October 1850.

progressive Cowles, is entered by itself and the difference between the amount of the Cowle and the Current Assessment of the land, appears as a Remission under the head of Teerwah Cammy. The Amount is 301 — a — 1 the remaining 7 — 6 — 1 under that head is the Remission allowed to our Abbas Moodely, agreeably to the Board's order of the 14th August 1843.

23. In the item of Shawny Remission there is a large increase. I have already explained the causes of decrease which led to this result, and I have observed that the eastern parts of the District and especially Eutwah Taloor suffered most, a great deal of the Punjah Cultivation of that Taloor is raised with no irrigation or very little, by means of the falling rains, but the year under report was so disastrous there, that the failure both in this species of Cultivation and in the irrigated lands was very general. In the extent of Cultivation there was very little falling off, but the total failure of the Crop was very extensive, and the produce generally was deficient. The Taloor was settled by my

Fort St George 21st October 1850.

Head Assistant Mr Sullivan, but having passed through a large part of it in November and December 1849, I had then full opportunity of witnessing the great want of water and the consequent perishing condition of the Crops.

23. The total extent of Punjah Shawny as ascertained by inspection, in this Taloor was Rs 16994 — 9 — 3 of which 2613 — 8 — 4 was brought to account, as being within ten per Cent on the Ryots productive Cultivation; in a few Villages where a Considerable extent of land though not Shawny yielded very little, such land was omitted in estimating the Ryots productive Cultivation. the Remission amounted to Rs 14381 — a — 11. It was also found necessary to remit some Poonjah Shawny The total extent ascertained was Rs 1071 — 3 — 6; of which Rs 803 — a 5 — p 3 was brought to Account and Rs 267 — a 14 — p 3 was Remitted. No precise rule was followed with respect to Poonjah Shawny; it was remitted only to those Ryots who from their poverty, or from the bad return of their Crops generally stood most

in

in need of it.

24. In some particular Cases a further indulgence was shown, Viz: in allowing Remission for deficient produce. The total extent of short produce ascertained was 2,277-12-7 in Nunjah, and 96-14-11 in Poonjah in twenty one Villages; of this amount, remission to the extent of Rs 124-3-3 in Nunjah only was allowed to 49 Ryots in eight Villages. In this Case also the Remission was only granted to such Ryots as seemed most to need it and in general only half the assessment of the land was remitted, the short produce entered in the accounts was in truth a little better than actual Shawy all these Remissions were made under instructions from myself, but the application of those instructions and the discrimination between true and false Claims rested with Mr. Sullivan, and I have every reason to be satisfied with the way in which he performed the duty. He was added in the settlement of

D.S.

the Taloork by the Head Serishtadar. The Shawy was inspected by Officers not below the grade of Peishcar, some belonging to the Talook, and some specially deputed from other Talooks.

25. Besides the Sudwaid Talook there was remission for Nunjah Shawy in all the other Talooks except Penumury and Triputty, and for Poonjah Shawy in four Talooks. The greatest Reductions for Nunjah were in Sholinghur, Polloor, Vellore Canveripauk and Wandiwash. In the Sholinghur Talook which adjoins Sudwaid, the Amount of Shawy ascertained was Rs 3041-11-2 and the Amount remitted Rs 2266-8-9 in the other Talooks above named the Remission ranged from Rs 489-12-5 in Polloor to 245-1-4 in Wandiwash. In Poonjah Shawy the largest remissions next to Sudwaid were Rs 132-9-6 in Trivellum, and Rs 130-11-9 in Vellore. In all these Talooks the same rules were followed for Nunjah and Poonjah respectively as I have stated above with respect to the Sudwaid Talooks. Shawy remission in Tobacco was asked for in four Talooks to a small Amount, but

it

Fort St. George 21st. October 1850

it was granted only in Conveyance to the amount of Rs. a. p. 0—8—9 as a special case the Ryot having but a very small puttah, and being very poor. I enclose a short Taloo Kwar Statement / No. 14 / of all the Shanvy Remissions, showing them in a more convenient form than the State-ments / Nos. 1 and 2 / which however are furnished as usual—

26. The Revenue from the Hill Villages in the Vellore and Polore Taloo Rs. exhibit a slight increase, as shown in the following Memorandum—

Taloo Rs.	Fusly 1258.	Fusly 1259.	Increase.	Decrease.

		Net	78 " 6	

Under

Fort St. George 21st. October 1850

Under the head of Soorvadayem

27. there is a large decrease in the several Species of Enam Jodys which varying with the extent of Cultivation are lower than last year, in the proportion as the latter was diminished through the want of rain, there is a decrease in the Damashayee Maniem and Mariah from the same cause. The Cawelly Cundayem, which comprehends a number of Miscellaneous items, exhibits a small increase—

28. The item Tapadayem shows a decrease of Rs. a. p. 5,347—14—5, and that of Bagoyet an increase of 4,622—4—8 this arises chiefly from the transfer of various items from the former to the latter—Up to Fusly 1258 only the larger Mango and other fruit Topes and Palmyra Topes were included in Bagoyet, while all the numerous smaller topes of all kinds were entered under Topadayem, and this division was made without any regular rule or System— This appeared to me objectionable, and there-fore ordered that Topadayem should include only Dutcut Topes, and that all rented topes should be included in the Bagoyet— I am not sure whether this is the proper application of the terms, but some definite

rule

rule was necessary. On the whole it will be seen there is a decrease of 725 Rupees, this is chiefly in Tamarind toppes in the Vellore and Pennuny Talooks.

29. For the sake of Correctness in the accounts I should be glad to know the precise items intended to be included under the term Bagayet, hitherto in this district it has included besides the items as stated above, all land held on grant in Military Cantonments or elsewhere, also the rent of a species of earth called Soultz mun or Fuller's earth used in making glass or bangles, which latter at least appear to be improperly entered here. There appears also to be some confusion as to the meaning of Columns 5, 27–49 and 71 of Statement C. They occur under the general heading "Land Revenue under annual Settlement", the minor heading in the Hindwy Statement is "Rendes Bariz", in the English it is "Village Rents". In this District these Columns comprise not only Village Rents for one year, but also all the items just described as being entered under the term "Bagayet" in

Statement

Statement A. This practice agrees with the Hindwy Heading, but is at variance with the English; I know not which is the proper heading, but I hardly think it can be intended that all these very different items should be so clubbed together, and I should be glad to learn what the Columns are really intended to include.

30. Under the term Villages rented for one year a large falling off will be observed Viz from 23072 to 15,204 Rs being a decrease of 7,868 Rupees. All this decrease occurred in the Villages of the late Avilcondah Jaghier and those of the resumed Pollems of Madamdoor which are now under annual rent. Under the Board's order of the 14th August 1848 those Villages were rented out for Fusly 1258 pending the introduction of a Survey Assessment, and a Survey was undertaken under the sanction of Government noted in the margin.

Minutes Consultation March 27th 1849. in Board's Proceedings April 12th 1849.

31 In my report on Fusly 1258, I stated that the Survey processings were in progress, and I hoped to have been able to report its completion before this, but it has been delayed, the only process now remaining however is the

final

Fort St George 21st October 1850.

final settling of the Assessment, and this will I hope be effected in a few Months, when I shall make a report of the whole to the Board. I the less regret the delay because it would have been impossible to bring the Ryots to an equitable settlement in so bad a year. The Survey being thus unfinished it was necessary to lease out the Villages again in Fusly 1259. and this was accordingly done, but the season being so bad, the Amount of the rents was very considerably below that of Fusly 1258 as already seen.

32 The subjoined Statement gives the particulars of the rents for the two years. It will be seen that there is a very trifling falling off in the Mannundoor Villages, which are situated in the Tripatty Taluk; very nearly the whole deficit being in those of the Avilcondah Jagheer, which are in the more Southern part of the District.

D.G.

Fort St. George 21st October 1850.

35 Of the Amany balance Rupees 2057 - 9 is in the Subsaid Talook and in those parts of it which suffered most from drought, this amount is in course of Collection, and the greater part will be realized within a few Months. Of the remaining balance the sum of Rs. A P 202 - 4 : 5 is against Mr. Groves, but it is only a Nominal balance. The bowle granted to that Gentleman was to have effect from the commencement of Fusly 1258, but previously to its receipt he had paid the sum above specified in excess of bowle Berij 912. Rupees, it is now necessary therefore to credit in liquidation of the balance of Fusly 1259 the amount thus overpaid in Fusly 1258, and to beg that the Board will obtain the sanction of Government for the disbursement necessary to this adjustment. The remainder of the balances are in course of collection. Of the Paishcush balance, Rs. 48,000 is postponed till the 15th December under the Orders of the Board quoted in the Margin; and Rs. A P 195 - 5 - 5 is due by two of the Small Poligars and will be realized shortly.

Chr. July 15th 1850.

36. The balance outstanding for Fusly 1258 at the date of my report on that year was Rs. A P 3,250 - 11 - 6, of this sum Rs. A P 2579 - 5 - 11 has since been collected leaving Rs. A P 677 - 4 - 7 still due according to the annexed Statement.—

	Rs.	A.	P.	Rs.	A.	P.
Recoverable.						
Amount due by wealthy Ryots	4	1	9			
Do. to be recovered by the sale of land ordered by the Board of Revenue	202	8	3			
				206	10	0
Irrecoverable.

Dawnstannum Ditto	26	1	0			
				444	10	10
Amount under Enquiry				25	15	9
Rupees				677	4	7

37. Of the total balance Rs. 206:10:0 Rs. 181:2:9 is recoverable and Rs. 25:15:9 is at present doubtful, being due on some land in the Sutwaid Talook which is in dispute between a Government Village and a Village of the Calastry Zemmindary. It has been found impracticable to adjust the dispute hitherto, but I hope to be able to settle it before long; of the recoverable balance Rs. 4:1:9 is due by wealthy Ryots and will be recovered very shortly; and Rs. 202-8-3 is to be realized by the sale of the land of the defaulters agreeably to the Board's Orders of the 22d August 1850.—

38 Of the balance set down as irrecoverable Rupees 266:1:5 is due by deceased deserted or totally indigent Ryots, Rs. 31:8:3 is the assessment of land entered twice over (viz. in two Villages) in consequence of boundary dispute. The next sum Rs. 104:14:0 is the difference between the Assessment first fixed on certain lands in Vellore Talook and that finally settled, this land was part of the "Bagayet" land referred to in my report on July 1758 Para 33 to 35, the assessment was first determined at the Jummabundy but the holders having complained of that as too high, further enquiry was made, and as their complaint appeared

do

to be well founded a reduction was made. The next item Rs. 3 = 15 = 3 is the Jeerwah of some premises within the Vellore Fort, which have been purchased by Government; seven rupees was remitted on account of this and other land for Fusly 1257; this item was not included in the settlement of Fusly 1259. The sum of Rs. 1 = 9 = 7 is the deficit of the Cultivation herein below the Jody in an abandoned Shotrium, Rs. 10 = 9 = 3 is the Jody of Enam lands which were totally uncultivated in Fusly 1258, and Rs. 26 = 1 = 0 is the "Obvinin" the nature of which has been already explained to the Board, and which was struck off for Fusly 1257. The total of all these sums is Rs. 10 : 10 which amount I beg to request sanction to write off from the accounts.—

To Board April 28th 1848 Proceedings 8th April 1848 No. 19. Govt. Min. Govt. No. 25 May 1850 Para 10.

39 I subjoin a statement of the whole land Revenue balances borne on the accounts for Fusleis antecedent to Fusly 1258.—

The

10. The total of these arears amounts to Rs. 766-2-2 of which Rs. 469-7-2 is recoverable and 296 11 ! irrecoverable. Of the recoverable balance by far the largest part is the amount due by Vyasanny Moodely of Mailveranum in Conneripanke Talook, Viz. Rs. 427-1-2. Agreeably to the Board's Ordersnoted in the Margin, an arrangement has been made with this defaulter for the liquidation of the demand on the 15th July 1851. The remainder Rs. 42-0-0 is the amount embezzled by a Mongar in the Trivattoor Talook, it has only just been finally brought home to him, and the amount will shortly be realized.

Aug. 22nd. 50

Ext. Proc. 9th 15th July 1847
Ext. Proc. 15th Nov. 1847

41 Rs. 217-12-3 Of the irrecoverable balance, is the amount of a remission of which the Board have already signified their approval in the Proceedings noted in the Margin, but which has never been formally sanctioned. Of the rest, Rupees 2-9-3 is due by deceased, " 12-0 by deserted and Rs. 60-10-7 by totally indigent Ryots; 9-15-3 is the demand for July 1255 on the backyard

backyard held at Colavay by the representative of the family of the late Jaghiredar, which has been exempted from demand by Government during the life of the present holder; it appears to have been this very demand which brought the subject under discussion, but it was not formally permitted, and Rs. 15-9-0 is the amount of Jody on Enam land, which was wholly uncultivated. The foregoing sums Amount altogether to 295-11-0 and sanction for writing off this sum is solicited.

Order of Government 15th July 1848 No. 881.

12. Enclosure [13] is a Statement showing the demand Collection and balance of Sivoy Jummah in the form furnished by the Board on the 8th October 1849 & I subjoin an abstract of it.

Balance.

11018

Fort St. George 21st October 1850.

Rud jausty balance due by the Monigars of Ellungam in Wundiwash Talook.		13	8
		24	4 8

Irrecouerable.

One on deserted Cuttoobady Enams of Thapully.		58	7 11
Rud jausty due by the Monigar of Cullapurah in Vellore Talook	8 15 5		
		67	7 5
Total Rupees		91	12 1

45 Of the total balance Rs 91=12=1 two items ammunting to 67=7=5 are irrecouerable, the first of these is the amount 58—7—11 due on certain deserted Cuttoobady Enams, a Monigar of the village was convicted of embezzling the

the amount, and on his failure to pay the fine imposed including the sum embezzled, he has been committed to Jail. It will be better I think to strike off this as a sixty Jumma balance and if the fine is paid, which is now unlikely in the extreme, the whole will be brought to account as fine. The other item 8-15-6 is the assessment of Moniem Maniem in a Village of Vellore Talook, cultivated in excess of the limit fixed with reference to the Beriz. The Revenue of the Village has very much increased since Fasly 1232. on the Beriz of which year the maximum was fixed, in that year it was Rupees 173=2=3 while in Fasly 1258 it was Rupees 300=1=-. It appears therefore unfair to adhere to that limit as the whole of the Maniem is small in comparison with the size of the village; I therefore abstained from putting in force in this Village the Orders of Government of the 30th October 1849, for permanently attaching the excess land, and beg to request sanction for writing off this balance.

46 The following Statement shows the particulars of the Sixty Jummah balances for Faslies prior to Fasly 1258.

Kh. George 21st October 1830.

47 Of the total amount Rs 1109: 3: 5 the sum of 12: 11: 3 for Fasly 1257 is recoverable, and 996: 8: 2 irrecoverable. I will explain the circumstances of the latter. The first item is cultivation made after the settlement amounting in the four fusilies 54-55-56 and 57 to 34: 11: 1 of this amount 11: 7: 7 is due by indigent dead and deserted Ryots 118: 10: 9 is the amount of Bagajaty charged in Fasly 1256 in a village of Santyhur Talook on crops supposed to have been raised by means of wells belonging to other Ryots but permitted afterwards on it being shown that they were really the property of the cultivating Ryots; 77: 2: 6 is the amount brought to account in the same year in a Village of Vellore Talook as having been secretly cultivated, but subsequently permitted on further enquiry as proof of the cultivation was deficient, the remaining Rupees 56: 9: 3 consists of sums improperly levied by the

brought to account as sufficiently explained by the terms of the Statement itself.—

The second item viz. Rs. 292-4-0 is. 48 the House tax or "Illaursoopunno" in Tripatty for Fasly 1257. The origin and nature of this tax were reported on by me on the 15th December 1828; and the arrears up to Fasly 1250. amounting to a large sum were remitted by Government on the 30th October 1829 and the tax itself was abolished at the same time. Two years viz. Fasly 1257 and 1258 intervened between the preparation of the Statement of arrears and the final Orders of Government. The abolition of the tax having been recommended in the letter above quoted, I did not include it in the demand for Fasly 1258. but it had already been so included in that of Fasly 1257, and that arrear has now to be written off.

The arrears under the 49 three remaining heads amount altogether to 357 C. of this sum 20 11 7 is the assessment for Fasly 1256 on the Enam

Govt. St. George 21st. October 1850.

Enam of a Pagoda which was
without service that year, but which
was afterwards repaired and services
recommenced; 24—15—1 is for Fasles
1254 and 1256 on Kud garay land
on which the crops perished; 43—1—7
is the assessment of an Enam while
under attachment after the death
of the late holder and before it
was released to his son &c &c &c
&c &c &c &c &c &c &c &c &c &c &c &c
Rs A P
and 1—5—. is the assessment of
a part of an Enam which was
involved in a boundary dispute &
between this District and Chingleput
the amount having been collected in
in that district on the decision of
the dispute; all these items as well
Rs A P
as 67—7—4 due by poor dead
and deserted Ryots I beg to
recommend for remission.—

There

Govt. St. George 21st. October 1850.

There remain two items
50
Viz. 132—4—8 under the head of Kud
jisty and 65—8—10 under that of unclaimed
Enams. The first is due by Monigars
who object to the fairness of the demand
on the ground that it has never yet
been enforced; in my letter of the
28th August 1848 I fully explained
the nature of the "Kudjisty" demand,
and with reference to my remarks then,
and as the excess Manions have since
been included in the Inam lands I beg
to recommend that this balance
should be remitted. it could not
be collected without attachment &
sale of property. The other
Rs A P
balance of 65—8—10 under the
head of "Unclaimed Enams" is
the difference between the Jurrum
assessment, and the amount
realized under a division of the
crop according to the alleged
previous custom; this land
also has been permanently
remitted, under the same order

Under the orders of Government October 30th 1849.

This.

Fort St. George 21st October 1850.

This Statement

exhibits a total increase in the Assessment of Government lands so cultivated to the amount of Rupees 2,926 8 4. This however is partly fallacious; a good deal of the Cultivation is on Poonjah land irrigated by Pyoto wells, and so entitled to remission: the Board's form does not specially provide for shewing that remission,

D.G.

and.

Fort St. George 21st October 1850.

and the Statement was not prepared so as to show it. It is too late now to correct the mistake, but for the sake of comparison I append a Second Statement showing the Cultivation of both years without the deductions. Next year the Statement shall be properly prepared, Viz. to show the actual demand on the land.—

Total	1,89,978	16	3,59,712	35	1,69,734	19

53. With reference to the form supplied by the Board for the Sugar Cultivation State=ment, I beg to suggest that it may be still further simplified without omitting any use=ful information - It appears unnecessary that the Cultivation on Cauvy lands in Circar Villages should be shown distinct from that on the Government lands or that the Cultivation in Shrotrium, Mokassah, or Survamanium Villages should be separately shown, but these details involve much time and labour - I think it would be found sufficient to give separately the Cultivation in each Talook, and in each Zemindary or Polliem which constitutes a Talook in itself -

54. I annex also a Statement showing the Cultivation of indigo during the two years; and it will be seen that there was a great falling off in Fusly 1259. From the enquiries I have made

made I should judge that a decline in the demand for the article is the chief cause of this decrease; but it is probably owing in part to the Character of the season -

	Fusly 1258.				Fusly 1259.				Decrease.

Remaining	"	"	47132	6	7	"	"	44233	9	6	2898	13	1

The

The falling off is attributable to no other cause=
than the deficient supply of water to the tank in conse=
=quence of the general failure of the rains.

56. In their Circular letter of the 28th August
1849 the Board direct that Collectors shall notify in
their Summabundy report for Fusly 1259 whether a
register has been formed of all landed property held by
the public servants of their Establishments. I have the
honor to inform the Board that this register has
been completed in this District in the form supplied
by them, with the exception of a few individuals
who own small shares in family property at a distance
from where they are themselves employed, and who have
not yet been able to furnish the details required.

57. The rentroll of the District is among the
Enclosures, (No 12.) it is I believe drawn up correctly; it
shows the number of puttahs and not of putteedars,
and gives the joint puttahs separately, as directed
by the Board in their remarks on the Statement
forwarded last year.

58. A material difference appears in
Statement A between the amount of the popula=
=tion and the number of Cattle in Fusly's 1258 and
1259, and I think it proper to explain the cause.
Heretofore it has been customary to take down
these

these accounts as given in by the Curnums without enquiry; and they have usually been given in by those Officers from year to year according to "Maumool" and without much attempt to ascertain the real facts. Wishing to obtain more accuracy I &c enjoined the Village Officers to prepare their &c Statements with more care, and on particular information, and I caused them also to be &c tested by the Talook Officers who made the &c Adungul Azmaish. The result is the &c increase shown below. Even the census of &c Fusly 1259 was not taken with the same minuteness in the detail in which it is being taken for the Current Fusly, under the orders of Government:

Items.		Fusly 1258.	Fusly 1259.	Increase.
	Houses	127,038	155,381	28,343
Population	Males	321,127	421,302	100,175
	Females	313,654	397,544	83,890
	Total	634,781	818,846	184,065
Cattle	Cows	176,274	214,671	38,397
	Bullocks	147,706	201,288	53,582
	She Buffaloes	46,718	64,690	17,972
	He Ditto	32,635	40,568	7,933
	Goats and Sheep	319,776	405,442	85,666

Agreeably

59. Agreeably to the orders of the &c Board conveyed in your Circular letter of &c September 16th 1850 a Mahrattah translation of this report is herewith forwarded. The &c preparation of that document in the Collectors Office instead of in that of the Board of &c course relieves the latter; but it does not &c appear how the signature of a Head Serishtadar can be a better guarantee for its correctness &c than its preparation by the Board's duly &c qualified translator, the Head Serishtadar being in many districts, as in this quite unacquainted with English.

60. In Para 24 of their Proceedings of the 8th April 1850, the Board profess their willingness to consider any suggestions that I may offer, &c having for its object the simplification of the accounts, and my attention was also attracted to this subject by a query from the Post Office &c Commissioner. In preparing my reply to that &c Officer I have carefully gone over all the periodical Statements sent up from my Office not only to the Board but to the other Departments, and have drawn up lists with suggestions for the abolition of some, and the abridgement and &c

simplification

simplification of others. I shall shortly have the honor to submit to the Board the suggestions which occur to me as respects the periodical Statements sent to them, in both the Revenue and the Publick Work Department.

61. I enclose a copy of the report received from my Acting Sub Collector of the Settlement of the four Talooks under his charge. Mr. Goldie, as the Board are aware, has only very lately taken charge of his appointment, and the Settlement was completed by Mr. Binning before his departure from the District. It is to be regretted that the changes in the appointment of Sub Collector in this District during the last few years, have been so many, as such frequent change must interfere with the efficiency of the office. The report does not call for any special remark here, except that I may explain with reference to the concluding Para, that the balances from Fusly 1242 downwards there spoken of are Dehaut Enam balances. The balances of this description had previously escaped my notice, and I have not at hand the necessary information for explaining them in detail. I will do so however in a short time. Their amount throughout the whole district is Rs. A. P. 570–15–3 of which but a very small part, I believe, if any, is recoverable.

62. Of my Head Assistant and Assistant I need say but little in addition to what I said last year. I continue to have the same reason to acknowledge the efficient assistance that I receive from Mr. Sullivan, his charge now comprises the Revenue and Magistrate Departments in the Trimullum and Sautghur Talooks, and the Police of the Town and

Talook

Talook of Vellore at which place he is resident. He has also the immediate charge of the jail at that station. Mr. Blair had only very recently entered on public employment, at the date of my last report, he has now charge of the Police of the four divisions of the Calastry and Canvetnagur Zemindaries, and I have reason to be well satisfied with his discharge of his duties.

63. Having recently had occasion to make a special report on the conduct and character of my Head Sheristadar Sooba Row, it is not necessary that I should add any remarks here, and as respects my Deputy Sheristadar Tolasinga Chitty, I need only observe that I continue to have reason to acknowledge his intelligence and activity, and general knowledge of business.

July 30th 1850.

North Arcot,
Collector's Cutcherry
Chittoor
