Fort St. George — February 1851.

Diary.

Received the following letter

No. 18.

To W. H. Bayley, Esqre.
Secretary to the
Board of Revenue
Fort St. George

1.

Bd. No. 458.
From the Collr. of Madras...

Sir,

I have the honor to acknowledge the receipt of your letter under date the 22nd. Instant, and to transmit herewith, as required by the Board, thirty sheets of white Stamped paper of the value of 8 Annas each..

2. It is proper to observe that,—

From Supt. of Stamps 7th April 1835.

to cover the expense for this more costly material, Government have authorized the levy of a fee for it at half an Anna per roll, in addition to the rate stamped upon it, so that the Collector of Madura will have to remit to this Office Rupees 15-15-- instead of Rupees 15-----..

Madras.....
24th " February...

Absent on duty as Commissioner Northern Circars.

Minutes of the last Meeting read and approved.

Read the following Extracts.

4.

Bd. No. 375.
From the Sect. to Government.

Forwarding Copy of a letter from Dr. Wright Supt. of Cotton Farms and directing that Copies of it be furnished to the Collectors of Bellary and Cuddapah who are to report upon the use they have made with the Cotton Dharwar Gins and the results of the working of these Gins in their Districts.

No. 114.

Extract from the Minutes of Consultation Revl. Departt. Under date the 11th. February 1851.

Read the following letter from the Superintendent of Cotton Farms - Coimbatore.

To

T. Pycroft Esqre.
Secretary to Government.
Fort St. George.

Sir,

I have the honor to acknowledge the receipt of Minutes of Consultation No. 1203 under date 17th. December 1850 transmitting copies of correspondence regarding the capabilities of the Dharwar Cotton Gin.

Since

Since their receipt I have recovied one of the Gins and have subjected it to a moderate trial.- It was worked two days 8 hours each day, the result, I regrete to add, has confirmed the doubts expressed in my letter of the 4th. July 1850. So unsatisfactory indeed has this been that I almost hesitate placing it on record, after the high encomiums bestowed on these machines by the Dharwar authorities fearing that they may repudiate my statements as being the onesided testimony of a prejudiced witness resolved to find fault. If however such a thought crosses their minds I can most truly and conscientiously assure them they are in error.

The Gin arrived on the 31st. December and on the 2d. January it was brought into use. On that day the outturn of 8 hours very constant work was 200 lbs. of Kuppas cleaned = On the 3d. only the same quantity was cleaned. On the first day I paid some what less attention to the trial, as three well known and most steady men had been

been selected to make it, men who had for many months back been employed in working our gins and therefore well trained to that kind of work- On the second day I was most assiduous in my attendance, being present with them the greater part of the day, and can speak confidentially of their unremitting assi= =duity which was further stimulated by the knowledge that they are to be paid by contract for the work done not by daily hire..

Under ordinary circumstances I should perhaps have deemed it sufficient to report the circumstances to Mr. Pelly for the information of Messrs. Bell and Blount, but as their correspondence has been forwarded through Government I feel contrained however unwillingly to trouble the Right Honorable the Governor in Council with my remarks, the subject moreover is an important one..

In my letter of the 4th. July 1850 I ventured to express a doubt of the correctness of the report of the capabilities of the Dharwar Gin but still thought it

must

must be very superior to ours and therefore solicited permission to get one to serve as a model by which to improve ours. Permission being granted one was applied for and obtained.-

In the interval a copy of my letter was sent to Mr. Pelly and communicated to Messrs. Bell and Blount both of whom seem to feel, I had almost said, displeased with me for hesitating to receive their report, which they emphatically reiterate, adducing in support of it what seemed to me irrefragable proofs of its correctness. Under these circumstances I waited impatiently for their Gin and actually stopped improvements I was making in our gins, under the conviction that they must still fall greatly short of the Dharwar model, though improved in their working qualities, to the extent of from 40 to 45 per cent over the American model on which they were originally constructed. A 5 Saw gin (to be afterwards mentioned) for example, which under the original American construction cleaned 25 lbs. of Kappas in an hour afterwards

afterwards on the new construction cleaned 30 lbs. in 45 minutes thus gaining 25 per Cent in time and 20 in work done.-

The Gin sent, possibly a very bad one, has not merely confirmed my former scepticism, it has done more- it has convinced me that with a mechanism so faulty it is incapable of sustaining a single week's work and so far from cleaning 520 or 750 lbs a day for a succession of days I question if it is capable of clearing 5,000 lbs altogether without renewal of some parts of its driving machinery and as regards its working capabilities I can only say that in place of 50 or 56 lbs in 45 minutes it barely gave an average of 25 lbs per hour during the 16 hours it was worked here.-

On this subject Mr. Bell writes "Mr. Blount will send you in a day or two four Saw Gins made in the factory of our Experiment on an improved principle Dr. Wight may be sceptical of the capability of these

these little machines, I can only assure him that I saw the first of the kind, now being made for you, tried and it cleaned with two men at the wheel and one feeding 56 lbs of seed cotton in 45 minutes.- A merchant at Hoobli, who bought some of the same description of Gins has written to me that he can clean 28 Maunds of Country Seed cotton and 20 of New Orleans with one of them in a day - the maund being 28 lbs, (that is respectively 784 and 560 lbs per diem) Mr. Blount says "the small gins of 7 Saws (8 inches in diameter) will clean 350 to 400 lbs and the improved gin of 7 Saws, 10 inches diameter, 520 cleaned easily in 8 or 9 hours. The foregoing rates are all for native cotton none of the gins will clean the same weight of American Cotton in a day's work as of native."

In another letter he says "The price of the Gins is 10 Rupees each above those I first sent you which is more than compensated for in the workship and larger Amount of work it can perform - In a days work say 8

or 9 hours each gin will clean 520 lbs of Native Rippas with 3 men - As much as 728 and 520 lbs of Native and American respectively has been cleaned on one in 9 hours."

As regards the construction Mr. Bell writes "The improvement effected in these gins is that the driving which is proportionately far less heavy than that required for the large gins and the brush being propelled by a friction Roller revolves more easily and far more rapidly than when it is turned by a band - There is no question of the superiority of the small 7 Saw gins in every respect Vide."

The above noted trials were made on the 2d and 3d Instant (Thursday and Friday) and on the 5th I was about to renew them but found the machine useless the brush having ceased to act and on closer examination I found that it was already virtually worked out - machine as unless I had had the means of renewing the brush machinery it could not have ginned another pound of cotton.

For

To a person unacquainted with the machine it is not easy to explain how this happened but I trust with the aid of the accompanying diagrams to make this plain. The Diagram No. 1 is a plan of the working mechanism of the Coimbatore Gin: No. 2 that of the Dharwar Gin.

In No. 1 the circle marked S.C. is the end of the Saw cylinder to which motion is conveyed from the driving wheel which moves all the rest. It turns from left to right **B** is the end of the brush shaft which is turned from right to left by means of the band passing round the outer larger rim of the Cylinder pulley and the Pulley marked **P**. The brush must turn in the opposite direction to the Saws to sweep off the Cotton from their teeth and at the same time act as a fanner to propel it into the "Lint-room". To effect this double object it is made to revolve from 4 to 5 times for one revolution of the cylinder hence the small size of its pully. In our Gins the driving wheel is so adjusted that for each of its revolutions the Cylinder

Cylinder revolves about four times and as in average driving it turns about 45 times the Cylinder must revolve about 180 times per minute. This we think ample speed perhaps too high probably 140 would be better as being less likely to injure the cotton.

The mechanism of the Dharwar gin is different the object of which is to get rid of the brush hand and turn the brush by friction on the supposition that that is an improvement. To accomplish that the rim of the cylinder pulley is greatly enlarged so as to touch that of the brush. In the Diagram No. 2 the circle S.C. again represents the Cylinder pully the outer one T.R. represents the large rim and **B** the brush pulley C.L. is a crank lever one end of which is loaded to make the other act on the end of the brush shaft behind the pully as indicated by the dotted lines. The object of this arrangement is to keep the friction Rollers in steady contact and by allowing some play to the brush shaft compensate for any slight inequalities of the surface of the friction Rollers

Rollers. as in our gin the brush revolves about four times for each revolution of the cylinder but the diameter of the Cylinder pulley being much less than ours (in the proportion of 6 to 10) it revolves about 6¼ times for each revolution of the driving wheel giving a speed of about 280 revolutions of the saw per minute.

Regarding the principle of conveying motion to the brush by means of friction Rollers I am not mechanic enough to venture an opinion but as regards the material of which they are composed and the mode of constructing them at least in the one sent here I can have no hesitation in pointedly condemning both. The large friction roller 18 inches in diameter is made of a simple piece of plank and that in ours of apparently unseasoned wood without the precaution of making it of two layers with the grain crossing to obviate lateral shrinking. The consequence is that within a week from its first exposure to the dry atmosphere of Coimbatore it had shrunk so much that the friction rollers only touched at the ends of a few of the

the fibres of the wood while literally they did not approach within 2/10 of an inch of each other and at this time the transverse diameter, that is across the grain of the wood is less by fully 3/8 of an inch than the longitudenal. It is therefore no longer a circles.

The principle as worked out in this gin is open to another grave objection during the two days work the crank lever though often oiled was worn to the depth of ¼ of an inch and the brush shaft to the depth of 1/10 all round at which rate three more such days would have cut through the crank which is 5/8 of an inch broad and half divided the shaft on which it acted. Full sized sketches of both are given in the Diagram. Very careful oiling might to some extent have obviated so much wear but could not materially prevent it the friction being so very great.

Such being the defects of the mechanism employed to carry out the new application of the principle its total failure can scarcely excite Surprize

surprize. When this disabled I removed the whole: and substituted in the place of the friction rollers a driving ma= =chinery removed from one of our Gins and then proceeded to test its ca= capabilities as compared with the new Coimbatore model.

But before doing so I may advert to the fact that Mr. Bell distinctly states that he "saw one of these 7 Saw Gins clean 56 lbs of seed Cotton in 45 Minutes" I cannot venture even to hint a question as to the perfect correctness of a State= =ment so circumstantially made, but, assuming it to be literally correct I trust I may be permitted to observe that I think it says little to the credit of Mr. F.C. Frost the maker to send out from his factory machines bearing so high a character untried and so very defective as I have found the one sent here.

I have just stated that I removed the friction rollers and adapted to the Dharwar Gin the mechanism

J.G.B.

mechanism of one of ours thus so far placing it exactly on a par with our Gin. I then pro= =ceeded to try its capabilities as compared with a five saw gin built about 3 years ago for location in a distant farm. That gin as ori= =ginally constructed on the american model gene= =rally cleaned about 25 lbs in the hour now it is capable of cleaning 30 lbs in 45 minutes when the driving coolies are fresh and work steadily. The Dharwar gin working side by side and most steadily driven required 52 minutes to clean the same quantity. That trial not being considered conclusive owing to some irregularities at first starting from the bands slipping they were allowed to go on working be= tween two & three hours until they had become perfectly steady when each was furnished with 100 lbs of native cotton and a fresh start given the only difference being that the Coolies were changed to make sure that the slower= performance of the morning did not ori= =ginate with any inferiority of the drivers

The 5 Saws cleaned 100 lbs in 168 minutes. The 7 Saws required 189 to com= =plete. theirs being a difference if I have not miscalculated. saw for saw of about 33 per

per cent. This Statement will be held conclusive as to the superior merits of the Coimbatore Gin as a working machine—

One other point remains to be very briefly noticed it relates to the way they respectively finish their work while the experiment was going on it was noticed that the Coimbatore Gin cleaned the seed better than the other after it was over the two parcels of seed were weighed against each other and the difference in favor of ours found to amount to 5 per cent that is the seed of 100 lbs. of Kuppers cleaned by the Coimbatore gin was 5 lbs. lighter than that from the Dharwar Gin owing to the latter having 5 lbs. more cotton attached to them. It thence appears that could the Gin sent here be viewed as an average one ours is in every way superior. It works 50 per cent faster and does its work better

One question in regard to gins still remains to be solved it respects the speed at which they should be

driven but this is an enquiry of great delicacy and many careful experiments will be required for its solution. It must therefore stand over for the present.

Apologising for the length of this letter and trusting that my remarks which are not written in a controversial spirit and simply record facts may have the effect of leading to further improvements of the Cotton Gin—

Coimbatore——
9th January 1851 } /Signed/ Robt. Wight Surgeon

10 Bd. No. 426
From the Secy. to Government
Forwarding copy of a letter from the Secy. to the Govt. of India declining to sanction the continuance of a pension of Rupees 7 per Month to Hattookah Male widow

Read the following Extracts

No. 169

Extract from the Minutes of Consultation under date 18th February 1851.

No. 116

Extract from the Proceedings of the Honorable the President of the Council of India in Council in the Financial Department under date the 17th January 1851.

Read a communication from

of the late Saggunnauth Singoo one of the Members of the Sooradah family in the District of Ganjam

from the Under Secretary to the Government of India in the Home Department No. 333 dated the 3d September 1850 transferring to this Department for consideration and orders a letter in original from the Secretary to the Government of Fort Saint George No. 782 dated the 21st August 1850 with Enclosure from the Agent in Ganjam reporting the death of Suggunnauth Singoo one of the members of the Sooradah Family, who was on the receipt of a Pension of 10 Rupees per Month and recommending that a reduced Pension of 7 Rupees per Month may be continued for life to Kaitookah Mala, the widow of the deceased.

Resolution

The President in Council observes that the Pension to Suggunnauth Singoo was granted on the express condition that it should lapse on his death and he is not prepared to sanction the continuance of any portion thereof to his widow.

His Honor in Council has already had occasion to lay down

down the principle that impoverished circumstances can be held to be no plea for the renewal of a lapsed pension. He earnestly calls on the Government of Fort Saint George to discourage applications of this nature and to hold out no expectation whatever that the State will consent to support the indigent descendants of parties who have enjoyed pensions from the Government and left families without making any provision for their maintenance.

Order.

Ordered that a copy of the foregoing Resolution be forwarded to the Home Department for communication to the Government of Fort St. George and that the original Papers be returned copies being Kept for record in this Office.

Extract from the Proceedings of the Board of Revenue

Do Do (Here enter 28th November 1850 N 2509.)
Do Do Here enter - - - - 511/
Do Do Here enter - - - - 510/

Para 1- The several Extracts from the Proceedings of the Board of Revenue above recorded relate to certain lands and gardens in Malabar held by Government as escheats. In one case, that of the Escheats in the Ernaad and Tenalpooram Talooks, the Government possesses only the mortgage right, and the lands are liable to redemption on the owners establishing their title and repaying the Mortgage Money, in the two other instances, the Government hold the Jenm or absolute proprietary right.-

2. These properties are

1. Certain lands and Gardens in the Manapooram Sub division of the Chowghaut Talook

Talooks, formerly held as escheats by the Dutch and by them transferred to the British Government.—

2. Certain escheated Estates in the Erinaad and Tenalpoorum Talooks.—

3. Certain Gardens and lands which belonged to the Betutnaad Rajah and on his death without heirs in 1792 escheated to the Company.—

3. The lands and Gardens falling under the first of the above heads are situated in seven Umshums or parishes. The Gardens 997 in number, from the date of their cession to the British Government to Fusly 1233 paid the rates of Assessment which had previously obtained, with an additional sum, on account of Jemnabogum or Proprietors share, which however was fixed originally on imperfect data, and remained afterwards unaltered without any reference to the subsequent increase or decrease in the number of trees. In Fusly 1234 the old

From Princ. Coll.r 18th March 1836.
From Princ. Coll.r 10th October P. 10.

old rates of Sircar Assessment were superseded by the new rates or those introduced by Mr. Groome but the Jemna Boguni remained the same. This state of things continued till the year 1836 when the survey and Assessment reviewed by the Board in their above Proceedings was made by the Principal Collector Mr. Clementson. That Officer at the same time surveyed and assessed the rice lands in one of the Umshums. Papaswottem —, extending his operations both to the Government lands and the private lands among which they were interspersed, a Measure rendered necessary by the manner in which the Circar and private lands are intermixed, and the neglect of which had led to the failure of a previous survey made by the sub Collector Mr. Reave in 1831. As respects the Gardens the rates adopted by Mr. Clementson seem to have been put in force by him at once

From Princ. Coll.r 10th Oct.r 1835. P. 12
From Princ. Coll.r 18th March 1836. P. 8.

From Principal Collector 18th March 1836. P. 29.

once The assessment on the rice lands, it would appear, has not yet been carried into effect.-

4. The principles on which the Survey and assessment of both Gardens and lands was conducted are given at length in the Principal Collector's report of 18th March 1836, and in the Board's Proceedings of 28th November last No. 510. In regard to the Gardens, Mr. Clementson seems to have adopted certain consolidated rates for each description of trees, which were to include both the Nigadee/Government revenue/ and Nigadee shistom/Proprietors rent/ and thus supersede the specification of these several items, with that of Koy Kanum or allowances for new plantations, in the Ryot's puttah and the public accounts. As respects the rice lands, in the private holdings included in the survey 60% of the gross available produce was left to the tenant, and the remainder 40% divided between the

the Government and the Proprietor in the ratios of 26% to the former and 14% to the latter; but where the Government were also proprietors, and entitled to both rent and revenue, it was proposed to Consolidate the demand on these heads and to fix it at 1/3d or 33⅓ per Cent of the gross available produce, leaving 66⅔ for the Ryot.

5. The question as to the assessment of these gardens and lands has laid over without notice, except some passing allusions to it in the subsequent settlement reports and reviews from 1836 to the present time, and the Government have therefore had to make remissions on such of the rice lands as are now over-taxed, without being able to reimburse themselves by enhancing their demand on the under assessed lands. Considerable remissions are also annually made upon the gardens, but

Board's Proceds. Para 29.—

but, as it would seem, no inspection has been made of them since 1835. for the purpose of ascertaining the increase to which Government are entitled on account of the trees which have since come into bearing. Under these circumstances, and adverting to the period which has elapsed since Mr. Clementson's operations, and to their limited extent as regards the rice lands, the Board express their opinion that a new survey and Assessment, on the principle followed by the late Principal Collector as local circumstances and usages will permit, should be made of both Government gardens and lands, and that it should be extended to those private holdings which are interspersed with the escheated properties.

6. The Right Honorable the Governor in Council does not gather from

from the Board's Proceedings whether the consolidated rates upon the trees in the Circar gardens which which Mr. Clementson states himself to have introduced in 1835 are still in force, and if so, whether it is proposed to revise them, or whether the operations as regards the gardens are to be confined to an examination of their actual condition, and to ascertaining the number of trees liable to the public demand. He is of opinion that if Mr. Clementson's rates are still acted on they should not be set aside without some strong reason. He also does not clearly understand the grounds upon which it has been proposed to restrict the consolidated demand on those lands of which Government hold the proprietary right to one-third of the available gross produce or 6⅔ per cent below the "Patton" of the private lands, nor what

what is the actual position and rights of the holders of these Govern=ment Lands as alluded to in P. 23 of Mr. Clementson's letter of 18th March 1836, and he would wish this part of the measure to receive further consider=ation. With these remarks he sanctions the proposed survey and assessment and desires that no time be lost in enter=ing upon the work.

7. The escheated estates in the Ernaad and Tenalpoorum Talooks are 156 in number, but are individ=dually of trifling extent, the whole Comprising no more than 1184 Caw=nies of rice lands, 473 Cawnies of uplands and some gardens. These pro=perties were formerly leased out periodically by auction to the highest bidder. This arrangement was found to be objectionable and with a view to obviate it a survey and assessment were made of the whole Estates in the years 1838 and 1839 on principles explained by the Acting Principal Collector, Mr. Underwood, in his settlement report on Fusly 1248, 16th October 1839, Paras.

Paras 11- 12- 13- 14 and the accompanying Statements. The Aggregate assessment Rupees 12670 varied little from the amount (Rs. 12340) of the Quinquennial lease which had expired with Fusly 1248. The Board of Revenue in their
Pro. 9th Nov. 1840. review of Mr. Underwood's report took various objections to the principle on which the Survey had been conducted, and their remarks were answered by the present Collector in a letter bearing date 7th April 1841. The subject was then allowed to drop, but the assessment though not formally sanctioned has nevertheless continued to be acted upon from the time when it was first made to the present. The Board have now recurred to the subject and expressing themselves satisfied with the Collector's explan=ation recommend for reasons given in P. 9. of their Proceedings that the rates be confirmed. The Right Honorable the Governor in Council concurs in the propriety of this measure. He observes that the rates have now been in force

for

for more than ten years that they have given satisfaction to the people and their confirmation is strongly advo=cated by the Collector. The Government therefore approve and sanction these rates, with the proviso that they will be subject to revision hereafter on the introduction of a general survey of the Nunjah lands of Malabar, or even intermediately if circum=stances should render such a measure urgently necessary, but not otherwise.-

8. The last properties to be considered are those which fell into Government on the death without heirs of the Betutnaad Rajah in 1792. In these lands as in those in the Chowgaut Taloot noticed in P.3.-6. the Government hold the full proprietary right, and are there=fore permanently entitled not only to their own revenue or Assessment but to the landlord's share or rent

though

though from some neglect their title to the latter has never been enforced from the date of the escheat to the present time. For the purpose of remedying this omission, a survey of these Estates was undertaken by Mr. Clementson in 1835, and has since been revised by the present Collector on the princi=ples adopted by his predecessor in his survey of the lands in the Chow=gaut Taloot. The number of gardens is 1455, the extent of land, rice and upland, 891¼ Cawnies. The result is an aggregate demand of Rs. 7,804 as 8, or Rupees 1,506-8- above the present Collection, which is thus distributed.

	Gov.t Revenue	Prop.r Share.	Total.
Gardens	2,687½	823-	3,510½
Rice land	3,396½	635½	4,302-
Uplands	214	48-	262-
	6,298-	1,506½	7,804½

Mr. Conolly writing in 1843 stated that several of the principal Ryots had express=ed their wish to accede to this mode of settlement and that it might be carried into effect.

effect without much difficulty. The Board of Revenue having called for some further explanation, now solicit the sanction of Government to this arrangement. As according to the peculiar tenures and usages of the Malabar District, the right of Government to the landlords share in these lands is unquestionable and the value of that share appears to have been calculated at an equitable rate, the Right Honorable the Governor in Council sees no reason why the demand should not be enforced; but, adverting to the length of time that it has been allowed to be dormant, he is of opinion that the measure will require to be introduced with temper and judgement, and that it would be right to abate somewhat

somewhat of the entire demand in cases where its realization in full would be likely to create discontent or bear hardly on the Cultivator. It is not improbable indeed that in some instances it may be proper to forego the claim altogether, and the Governor in Council desires that the Collector may be allowed to exercise a discretion upon this head.-

Bde No. 440.

Proceedings thereon.—Para 1.— The early rains were timely though not copious, but the N. E. Monsoon almost entirely failed, the effects of which were more particularly felt in the Eastern Talooks generally throughout the District, the Crops, both Wet and Dry were below an average.— Notwithstanding the unfavorable nature of the season, there was less mortality from epidemic disease than in the preceding year. There was scarcely a town of any size in which Cholera did not appear but infection seems to have clung chiefly to certain localities between Tripetty and Chittoor. The loss among Cattle was also less than in Fusly 1258 (1848/49). The

1259 — 3,350

Para 5.

Paddy per Garce—

Fusly 1258— Collector 58-9-« Sub Collector 51—11

1259 66-«—« 59—«

2. The Prices of Grain exceeded the rates of the preceding year by about 12½ per Cent in the Collectors Division and 14¼ per cent in that of the Sub Collector. This moderate rise in so unfavorable a year is attributed to the large stock on hand from the plentiful produce of the two preceding seasons.—

3. Compared with the Commutation rates, the prices of the year under review are reported as 21¾ and 32½ below that standard in the two Divisions. This calculation is made on the supposition that the present "Measure" of the District contain 150 Rs. weight of Grain, and that the Measure used at the Survey was 120. The question has been referred to in the Reports of the 2 last Fuslies, but as it is one of rather a complicated and uncertain nature, the Board intend to make it the subject of a separate Communication.—

4. In the land taken up [Dittam] there is a decrease of 17,913 Cawnies bearing an Assessment of Rs. 11,795 8 exclusive of the second Crop. This item added, as

+ Bogajastee or Fullerjastee.

as directed by the Board in their Proceedings on the Settlement for last year, the decrease is Rupees 142738.—

	Cawnies	Rs
Dittum of Fusly 1258	337917	201271
2nd Crop		89481
		290752
Fusly 1259	320004	189313
2nd Crop		55701
		245014
Less		142738

Para 15.

5. The bad prospects of the season are assigned as the cause for the falling off in the extent of land engaged, but this reason is inapplicable if the Dittum includes, as it should do, all the land usually occupied [by] Ryots. The extent of the cultivation will be affected by the season, but not the ordinary holdings of the Ryots. In some Talooks it is seen the Dittum of Fusly 1259/1849/50 exceeds that of Fusly 1258/1248/49 while in others it is less, this variation combined with the reason assigned for the decrease in the Engagement of the year, above noticed, seem to indicate that the Principles of the Dittum

Dittum which is of recent introduction in North Arcot are still imperfectly understood.—

Para 9 @ 13.

6.

Land Cultivated.—

	Cawnies	Assessment
Fusly 1258	30,476	1,80,548
1259	27,005	1,52,489
	3,471	27,059

The extent actually cultivated land ploughed but not sown being excluded, comprises 27,005 Cawnies assessed at Rs. 1,52,489, exclusive of 2nd Crop, being 3,471 Cawnies assessed at Rupees 27,059 less than in the preceding year, the decrease consists of—

	Cawnies.	Assessment.
Dry land	13,150	36,967
Wet	20,148	2,32,054
Garden	173	3037

With trifling exceptions the decrease occurs generally throughout the District and is proportionately greater as respects the Wet lands in those Talooks where the irrigation depends chiefly on the N. E. Monsoon; adding Rs. 24,780 on account of 2nd Crop, the decrease amounts to Rupees 2,96,840.—

Para 13 @ 29.

7.

The deductions on account of Land uncultivated / Dittum Bunjer / as well as the usual remissions on the actual

actual cultivation exceeded, as was to be expected from the character of the season similar items in the preceding Fusly, the former in the sum of Rupees 1,46,664 and the latter by Rupees 14,001. The Dittum Bunjer consists of:—

	Cawnies	Assessment	
* Cawnies	46,107	Rs. 3,45,733	Remitted.
Dry — 18,608	40	" 322	Brought to account.—
Wet — 27,146			
Garden — 353			

The excess in the usual Remissions is chiefly on account of loss of Produce from Drought and non-cultivation of one Crop in two Crop lands. The former amounted to Rs. 19,150 of which Rs. 14,381 occurred in Sutwaid where the irrigation is imperfect. The sum remitted on this account in this Talook is more than 25 per Cent of total assessed of the land sown.—

Shavys Rs.
Fusly 1258 — 316
" 1259 — 19150

8.

In the year under review the small sum of Rs. 553-4-9. was remitted on account of Dry Crops in certain cases of poverty and deficient returns, as a general rule when remission on account of Dry Crops is necessary, the previous sanction of the Board should be obtained. In the present instance the amount is small

small and the indulgence was called for.—

9. The customary indulgence (Teezgary) to Brahmins and Mussulmen, and the remission of 12½ from the Survey rates north of the Palar being contingent on season, were less in the year under report. The same remark applies to other smaller items as Dusuntum.—

10. In the additions to the Settlement the fluctuations in the Ready money Collections / Swarnadayem / and in the Revenue from Topes / Topeadayem / are satisfactorily accounted for, the former from season and the latter arising chiefly from adjustment of accounts, certain items hitherto included under this head being carried to that of Bagayet. A very large falling off occurs in the Villages of the Avalcondah Jagheer lately resumed, which are settled on rents pending the completion of the Survey in progress. The deficiency amounts to Rupees 7729-8-0 and is ascribed to the unfavorable character of the Season. It is however observed on reference to Statement No 7 that 6 Villages in the Satyhur Talook which

Para 30 @ 32.

which were rented in the preceding year for sums from Rupees 240 to Rs. 4,120 and aggregating Rs. 7,190 were rented in the year under report for Rs. 4,200 only, and in Trivalore Talook the Village of Adluttoor was given for Rs. 3070 while in the previous year the rent was Rupees 4,550. These differences should be explained as well as the principles on which the rents were made and at what period of the year they were concluded.—

Para 51 @ 53 Statement No 10.

11. The extent of land cultivated with Sugar Cane was 1,569 Cawnies of Government land and 1,199 Cawnies of Enam. Of the former, there is a Net increase of 84 Cawnies assessed at Rs. 1,979 in the year under report. The cultivation in the different Talooks fluctuates. Thus in Arcot there is an increase of 163 Cawnies, which in Vencatagherry Cotah, above the Ghauts, there is a decrease of 49 Cawnies. The quantity of Sugar exported was 35,742 Mds. which exceeds the export of the preceding year by 16,734 Maunds.—

Para 54. Statt. No 11

12. In the Cultivation of Indigo there is a Net decrease of 2,222 Cawnies assessed

Fort St. George 27th February 1851.

assessed at Rs. 6,840 of which 1,644 Cawnies with an assessment of Rs. 4,840 occur in the Vellore Taluk. The total cultivation for the two years was.—

	Land. Cawnies.	Assessment. Rupees.
Fusly 1258	8,263	25,493.
1259	6041	18,653

13. The Revenue under the Cawvery pauk Tank amounted to Rupees 44234 being Rupees 2,899 less than in the preceding year, attributable to no other cause it is stated, than the deficient supply of water in consequence of the failure of the general rains.—

14. Statement No. 12 exhibits the rent roll of the District- 78162 Puttahs are individual with rents aggregating Rs. 1,15,649 and 12,426 with a total payment of Rs. 2,88,564 are held in partnership. Of the total number 60581 fall within 20 Rs. their aggregate amount not exceeding Rupees 3,86,480.—

15. The particulars of the settlement are exhibited in one view in the following Abstract Statement in comparison with the preceding year.—

Fu

Fort St. George 27th February 1851.

16. The Collections were made with much punctuality, being —

Within the Fusly ——— 1,79,947-9-8-

Do. Subsequently to the end of December 1850 ——— 76,035-11-1.

Total ——— 1,86,983-4-9.

leaving a Balance of Rupees ——— 9,708-4-3.

Composed of

Ryotwar ——— 1,557-9-10-

Zemindary ——— 8,150-10-5-

Para 35. 17. Of the Ryotwar Balance Rupees 202-4-5 appears against Mr. Groves on account of Cowl land held by him; but as an overpayment in an equal sum was made on this account in the previous Fusly, the Collector requests — permission to refund the same with the view of adjusting the Current Balance. The Board — beg to recommend that the necessary refund — may be sanctioned.

From Collector 3d in Cons: 15th July 1850. Boards Proceedings 15th July — 18. The Peshcush of the Cauvinuggur and Calastry Zemindaries, fell in arrear in — consequence of the unfavourable nature of the Season, and the Board permitted under the representation of the Collector, the sums outstanding

Fort St. George 27th February 1851.

outstanding to be liquidated with the first Kists of Fusly 1260. With the exception of the Balance — noticed above the whole has been discharged. The portion also they trust will be speedily realized.

Paras 36 & 41. 19. Under the explanation offorded by the Collector in the Paras noted in the Margin, the Board beg to solicit sanction for writing off the under-mentioned Ryotwar Balances.

Fusly	1254	220-5-5.
	1255	9-15-3.
	1256	41-7-10.
	1257	24-14-6.
	1258	44-10-10.
Total		741-5-10.

20. In a separate letter dated 28th — December 1850 recorded at the head of these Proceedings, a Statement of the balances due by — the Ryots in Dehaut Enam Villages is submitted. These amount to Rupees 510-1-3, of — which Rupees 63-6-9 are due by the Enamdars themselves on lands in their own occupation. This amount if realized would be repayable to the parties according to the terms of the Grant. As the entire sum, Viz^t. Rupees 510-1-3 which is

is due for Fuslies from 1242 to 1254, is irrecoverable, the Board beg to recommend that it may be written off.

Paras 42 @ 50.

21. In addition to the foregoing balances, the Collector solicits permission for writing off certain irrecoverable items which are exhibited under the head of Sevoy Jumma. There are-

M.

Fort St. George 27th February 1851.

24. Mr. Bourdillon speaks approv:
=ingly of his Assistants Messrs. Sullivan and
Blair, and of his Head and Naib Sherista:
=dars. It is important that the Native
Department should be made acquainted with
Para 59. the contents of the Report on the Settlement,
and with this view chiefly the Board
directed that a Marhatta translation of
the report should be forwarded to them.

25. The following remarks are
suggested by the Accounts.

26. The Dittum Bunjer carried to
the Summa was Rupees 322–6–11 as already
observed. This item should have been exhibited
Para 29. in Statement A.

27. Statement C in English has not
been accompanied by a corresponding Account in
Hindoovee. This omission should be supplied in
future. Column 27 of Statement C consists of two
+ Statt. A Col. 1182. items, Viz. Village+ rents for one year Rupees
* Do " Col. 1188. 15,204–"–". Bagayet or fruit trees rented
Rupees 9,188–10–1, total Rupees 24,392–10–1. The
proper Heading for that Column is "Rented
Villages" &c. as it exhibits certain rented items
besides

Fort St. George 27th February 1851.

besides rented Villages. If the Collector has any
doubt as to what items should be included under
Bagayet and Tope severally, he will be pleased to
submit a Statement shewing the different items
and instructions will be issued thereon. There is in
fact little diff:
=erence between Omrah Bagayet and Tope. The last
mentioned term is generally applied to Palmyra
Plantations.

Para 42. 28. A discrepancy occurs in the Col:
=lections of Sewy Summa as shewn in the Margin, which
should be explained.

29. The Peishwah Justice on Poonjah
lands cultivated with Cane under private Wells,
should not be included in the Statement of Cane
Cultivation.

Para 53. 30. The proposition of the Collector
to shew the total only of the Cane Cultivation in
each Talook and Pollam would leave the particulars
as

Read the following letter.

No. 5.

To W. H. Bayley Esqr.
Secretary to the
Board of Revenue,
Fort St. George.

30.

B. No. 261.
From the Collector of North Arcot.

Sir,

Para 1. I have the honor to return the Statements of Charges incurred without Estimate in the Revenue and Magistrial Departments for Fusly 1259, returned with an Extract from the Proceedings of the Board of Revenue under date the 20th Instant, as they are quite correct. Revised accounts particular No. 2 and 6 only are forwarded in lieu of those returned by the Board.

2. With reference to Para 2 of the Extract I beg to inform the Board that Batta was in no case paid to any servant in the Statement for more than ten days after coming to a halt: Where two or more short halts followed each other consecutively, they were entered together in the former accounts

accounts particular; but a reference to the Column of marching days might have corrected the inference thence drawin by the Board. The entries were thus made to shorten in some degree this bulky detail, and I am of opinion that the practice might be continued with advantage adding a few words to the Note at foot, to the effect, that batta has not in any case been paid for more than ten days after a halt.-

North Arcot Collector's Cutcherry Chittoor, 30th January, 1851

No. 15.

To, W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George.

32.

Dated 4th September 1850.

Bringing to notice, specially, circumstances connected with the present condition of the Katoopootoor Mootah and soliciting instructions for its sale by auction on account of an arrear of revenue for which it is under attachment.

1 after No. 466.

From the Collector of Salem. - - - }

Sir,

1. I have the honor to forward copy of a communication to my address from the Sub Collector of the District, reporting the circumstances under which he has found it necessary to attach the Mootah of Katoopootoor, the Peishcush of which is Rupees 1590-7-11.

2- The long existing disagreements between the proprietors of this Estate are hopeless of adjustment; and from the information on record in my Office, it is clear that the object of the Reddy caste Mootadars is to oust the Bramins, who are needy and, I believe, seriously embarrassed by debts of various kinds. That object may temporarily be deferred by aid tendered to the Bramin proprietor at ruinous rates of interest; but the Reddies comparatively are so opulent, that the result aimed at will eventually be unavoidable. The Estate must sooner or later come to sale, and so far as my information goes

Fort St. George. 27th Febuary 1851.

goes, the Reddies, though indirectly, will do their utmost to become it's purchasers. Their means are extensive and the knowledge of the capabilities of the property which they must be supposed to posses. will I apprehend, induce them to overbid all competitors, and at any cost secure the Mootah for themselves. Last year when I put
1st October 1850- the Estate up to action at Darampoory, the amount of arrear due was paid at the Eleventh hour to prevent the sale, but not until I myself told the proprietors that I was prepared to exercise a very wide discretion and would determinedly oppose what I saw reason to believe was a combination to keep down its price. The Head Serishtadar then in attendance at my Cutcherry, thought and stated Rupees 30,000 might with propriety and safely be the highest bid on account of Government; but from what appeared when all the persons interested were before me and the conversation that passed, I took a different view of it's value and should have gone beyond that sum, the more particularly that the Collector of Trichinopoly in a private note had communicated with me on the subject of

Fort St. George. 27th Febuary 1851.

of it's purchase for the Government, and so that a part from it's actual value as an Estate, I considered that it's situation in regard to the irrigation of the Moosery Talook in Trichinopoly, was such that the Government Officers were bound to endeavour to prevent all future losses from neglect of channels &c. by bringing it under Aumany. Mr. E. Maltby's
* From Trichinopoly Dated Febuary 11th 1851- * letter to your Board of a few days ago on the subject of the transfer of this Estate to his jurisdiction, will afford sufficient proof of the difficulties which the Collectors of the Trichinopoly and Salem Districts have to encounter in securing the interests of the state, solely owing to the rancour, selfishness and bad feeling exhibited by the Ryotpoor proprietors -

3. The yearly profit supposed to
Rs. 1,051-11 be derived from the Estate is about 3,000 Rupees which at six or eight years purchase, the periods calculated by native purchasers, I am informed, as a guide for their investment of money in landed property will be 4 2000 or 5,000 Rupees. But to the Soodra Mootadars considering the anxiety they evince to obtain possession of the Estate, it will of course be worth more. It is, indeed, understood that they have

Fort St. George. 27th February 1851.

have already offered 30,000 Rupees to the ex Brahmin proprietors for their half of the pro=perty, and that the offer was declined. If the report be a true one, it seems fair to as=sume that the Mootah is regarded by its present holders as worth 70,000 or 80,000 Rupees, and as half of whatever it may be bought at by the Government will return to the Soodra Mootadars, they will probably bid it up to a lac of Rupees if any compe=tition takes place on the part of the Government Officers.

4. These are circumstances, I sub=mit, which render my position in regard to the purchase of the Mootah on account of Government, a somewhat difficult one, and if the Board feel at liberty to instruct me as to the highest amount which I should bid, in the event of the Estate coming to sale, I shall have much pleasure in carrying their orders into effect.

5. Referring to the known difficulties of induring the proprietors of this Estate to keep the Channels by which much of the water supplied to the Moosery Talook passes to the wet cultivation there, I am of opinion that whether the superintendence of the Mootah rest with the

Fort St. George. 27th February 1851.

the Collector of this or the Trichinopoly District, losses will unavoidably occur, and therefore that I should as an emergent and unusual case be authorized to buy in this Estate even at a lac of Rupees.

6. I have enclosed in this communication an Advertisement, English and Tamil, for the sale of the Mootah for the arrear of Revenue due from November 1850 to the 31st January of the current year; also a Statement in the usual form shewing the profit derivable from the Mootah and the sum at which it seems proper that under an ordinary state of affairs the Mootah may be bought up for Government.

Rs 80000.

Salem District. Shevaroy Hills. Collector's Cutcherry. 20th February, 1851. } Signed / A. D. Phillips Collector.

No. 1.

To. A. D. Phillips Esqre. Collector of Salem.

Sir,

I have the honor to report the attachment on the 29th January last of the Mootah of Flatoopootoor in the Namcul Talook, for an arrear of the current

2976. Fort St. George. 27th February 1857.

Ameen — 14 — —
Nevasinda — 7 — —
5 Peons — 17 8 —
Sandeward — 1 — —
39 8 —

Current-year's Revenue amounting to Rupees 14444 — — and request that the necessary sanction be obtained for entertaining the Establishment marginally noted —

2 — Last-year when this Estate was under attachment, the pay of the Ameen was fixed at Rupees 10 8 —, That sum being however in my opinion too small a recompence for the responsibility and management of an Estate yielding upwards of Rupees 20000 Revenue, I have suggested an increase to 14 Rupees —

3. The present is a proper opportunity of bringing the circumstances of this Mootah to your special notice. It was attained about the same time last year. From various causes the full Public demand was not realized under the management of the Government Officers and the Estate was one of those put up to Public sale in November last, but the owners having tendered payment of the arrears at the last hour the property was restored to them —

4 — The Estate is a valuable and profitable one, and this year has been also a particularly favorable one, but not one Rupee of the Public demand has been paid —

2977. Fort St. George. 27th February 1857.

paid — The arrears are solely owing to quarrels and dissensions existing between the Proprietors, two of whom are Brahmins and two Reddies —

5. The object of the former is to get the Estate brought periodically under the management of the Government Officers, in the hopes that the balances will be paid up by their measures — The latter who are substantial cultivators, are striving to bring it to sale in order that they may indirectly become the sole owners — In the mean time, the works of irrigation are neglected, and the administration of the Revenues is regulated by the caprice of either party, according to the influence they respectively possess over individual Ryots. After attachment it is generally found that the early kists have been collected from the Ryots and that there are no resources from whence to collect the balances, unless recourse is had to attachment and sale of their personal property, which is prohibited by a local rule of the District, the consequence is that the balances remain unadjusted till late

2978- Fort St George, 27th February 1851.

late period of the year, and the time of the Revenue Officer is taken up in hearing and enquiring into frivolous charges against the Aimeen and the rest of the Establishment, and of charges of intrigues and destructive acts of one party committed to injure the interests of the other-

6- There is no hope of the funds of these parties being adjusted, and the only course that I see at all calculated to secure early payment of the kists due and maturing, is to bring the Estate to sale without delay; and I beg to recommend that the circumstances be reported to the Board of Revenue and their sanction obtained for the proposed measure, which is authorized by Section IV Regulation IV of 1830-

2. Persons desirous of becoming purchasers may depute authorized Agents or Vakeels for that purpose, and all purchases made by such authorized Vakeels shall be held to be valid in the same manner as if the purchases had been made by the principals.

3. But it is required that such authorized Vakeels shall state at the time of purchase the names of their Constituents on behalf of whom such purchase may be made.

4. The intention of the condition being to prevent fraudulent collusion, Notice is further given that in the event of any purchase being made in a fictitious name the Deposit money made on account of such purchase will be liable to be forfeited to the Government, and the Estate to be resold.

5. A Summud-I-Milkiant Estimrar or Deed of permanent right, has been lodged at the Cutcherry of the Collector and at the Office of the Board of Revenue describing the obligations to be incurred and the rights to be obtained by purchasers of land under this advertisement. All persons are therefore referred to that instrument for particular explanation.

6. The purchasers of the Estate will not be put in possession till the sale has been Sanctioned by the Board of Revenue but in the mean time 15 per Cent of the purchase money will be required to be deposited immediately, and Security given for the payment of the remander on the receipt of the Boards Sanction, or within one Month from the day of sale, in default whereof the Estate will be resold at the risk of the first purchaser.

Bd. No. 424
To the Collector of Salem
In Con. 27th Feby 1851

Sir,

With reference to your letter of the 20th February 1851, relative to the Mootah of Katiopatoor, I am directed by the Board of Revenue to inform you that they do not consider the Mootah to be of sufficient value to authorize a large sum being expended in its purchase on account of Government. It is however their intention to refer the matter to Government as soon as they receive the reply to their Proceedings of this date wherein you are requested to state your opinion as to the transfer of this Mootah to Tuchinpoly and they wish you to forward this as early as possible.

2. The Advertisement which accompanied your letter will be published in the Board's Office but the date has been altered to April 5th and you will be good enough to make

Fort St. George 27th February 1851

make a corresponding alteration in your notice.

Bd No. 398

Sir,

From the Agt
Coll of South Arcot

With reference to the remarks of the Board in the Statement of Charges incurred without Estimate in Fusly 1258 wherein exception to the charges for storing and covering the Salt heaps is taken as excessive, 5 or 6 Rupees for every heap of 20 Garce being deemed sufficient; and that if there should be any difficulty in regulating the future expenditure on this scale, the disbursements should not be made, except on previous Estimate, and sanction obtained. I have the honor to submit the following circumstances with reference to the correspondence noted in the margin, bearing

Observations
Connected with the Subject of the charge for heaping and covering Salt requesting Sanction for passing the existing rate

To Bd 29 Jany 1829
To Do 10th April
From 13th July - - pp.3
From 19th June 1848 p.3
To 6th July — Do
From 13th Do Do
Board's remarks
28th May 1849

Fort St. George 27th February 1851

bearing on the subject

It seems that the payment of storing and covering the Salt heaps was recommended partly in consideration of the same being allowed in the Chingleput pans and partly in consideration of certain charges introduced in the payment of Coodevaurum rates in the year 1829.

It appears that Mr Davies on the receipt of the Board's order in June 1848 issued orders to effect a reduction in the present rate of hire allowed for storing and covering the Salt heaps, the reply furnished by the Salt Ameen at Aberkamin is to the effect; that the Manufacturers considering the labor of storing, and the expence of covering the heaps would not agree to any reduction; further stating, that in the pans at Chingleput the compensation allowed on this account 1/4 Rupee per Garce or 25 per Cent more liberal than what was allowed to them. My predecessor therefore appears to have continued the payment of 1 Rupee per Garce sanctioned in the year 1829.

The Board further remark on

28th May 1849. on similar charges incurred in Fusly 1257 that they are higher by 9½ Annas per Gauce than allowed at Chingleput; taking this for granted, I considered that there would be no difficulty in persuading the people to agree to the same terms, and I addressed the Collector of Chengleput on the subject with a view of acquiring such information as would enable me to regulate the reduction, his reply is to the effect also, that no alteration has been made in those rates which have existed since 1829 - Under these circumstances I beg for a reconsideration of that portion of the Board's orders which clearly affect the point in question.

Adverting to the Board's remark that 5 or 6 Rupees for every heap of 20 Gauce is ample I beg to state that at this rate the cooly hire on a heap of 10 Gauce would only be entitled to 3 Rupees at most; which under any circumstances appears an insufficient remuneration for the labor of not only conveying the salt from the pans to the platforms but for procuring long grass for covering the heaps, and preserving them from injury

until sold. In the neighbouring pans at Chingleput as the compensation is allowed at the rate of 1½ Rupee per Gauce it is impossible to expect any further or present alteration can be made in the Alurkanum pans having for its end reduction, where only 1 Rupee is allowed for every Gauce.

The disbursement from my Treasury under this head from 12th July last was 1,457 Rupees on account of Salt received in store in further part of Diction for manufacture for the year 1850 I have ordered for the Current year 1851 2100 Gauce to be manufactured in the Alurkanum pans but from the precarious nature of the Manufacture I can hardly hope that so much will be realized, but this is the Estimated requirement and the manufacture price Rupees 3,851 at the rate of One Rupee per Gauce is submitted for Sanction as directed.

South Arcot Coll.s Cutchery, Cuddalore, 13th February 1851. } /Signed/ J. C. Wroughton Ag Collector.

Bd. No. 411.
From the Agt Collr of South Arcot.

Sir,

I have the honor to enclose report from Mr. Banbury on the state of the English records which as far as their preservation and efficiency are concerned is very satisfactory.

The crowded state of the Room has attracted my attention, and I have caused an Estimate to be made for such alterations as will admit of their more suitable accommodation. This Estimate is of trifling amount and will be submitted through the prescribed Channel.

The report on the Hoozoor Native records is at the same time submitted and this is also satisfactory.

The

Fort St. George 27th February 1851

The only point that requires sanction, is for the destruction of some useless old records connected with the Devastanum and Sayer Department viz. and I suggest that they may be destroyed after a careful scrutiny.

As for the state of the Talook records the necessary information is coming in and when all the reports are received due measures will be taken for their future arrangement, safe custody and regular keeping.

South Arcot, Collector's Cutcherry, Cuddalore, 13th February, 1851.

(Signed) J. C. Wroughton
Acting Collector

No. 1

Translation of Urzee from the Sheristadar, Cashkeeper and Head Javabnevis, dated 17th January, 1851.

Having examined the Hindoo and Tamil Records of the Hoozoor Cutcherry according to orders dated 5th December last, we beg to submit the following report. The records have been examined as far as practicable with

Fort St. George 27th February 1851

with reference to the Faists and are found to correspond with them and to be in good condition generally. They are arranged in the manner detailed in the Collectors report on the state of the Records submitted in 1836, and in the same state of preservation as at that time, care being taken to prevent their being injured by white Ants &c. Some Dufters of the years previous to fusly 1223 partly eaten by white ants and rats while others of subsequent dates are not altogether free from the above depets being eaten up somewhat in the edges. Care is however taken to prevent any further injury of the kind, the dufters of the different departments have been sent into the Records down to Fusly 1259. Of these the old Pymash and Khailwar accounts are found in bad condition, being injured by white ants and rats, and the Dufters Nos. 5 of the New Pymash and Khailwar accounts of Tiruandy Taloob have also been similarly damaged. All the rest is in good order. The Dufters of the Moonshee Department of the Subdivision have been sent over to the Records down

Fort St. George 27th February 1851

down to Fusly 1252. The present Record Keeper has had charge since 1849 when he was appointed to the Office. It having been brought to notice that the Dufters of the Treasury Department have had no Faists, Measures have been taken to supply that defect. As the Mass of records is increasing year by year, the present rooms are not sufficiently spacious for their due preservation, there is however a quantity of papers no longer useful - such as those of the Sayer Chowkies abolished and Devastanums made over to Durmakurtahs, the daily Chittas and other accounts of the period of Circar connection are now of no use, and a removal of them is necessary and will afford room for the convenient deposit of the other records. a number of old Cadjan bundles may be removed likewise for the same reason.-

There are two Record Keepers appointed to the Charge of the records with a Dufter Bundy. We understand that the latter Officer being old tho'

Fort St. George 27th February 1851

tho' of long service is not quite equal to the work of taking out and keeping the Dusters from time to time. We are therefore of opinion that his son should be appointed in his place and that another person should also be appointed to the charge of the records, so that they may be duly preserved and taken care of, some of the Duster Cloths being torn we have desired the Record Keeper to get new ones for the same.

3d. No. 388.

From the Acting Collector of South Arcot -----

With reference to Petition No. 285 of 1851 on which I am directed to make full report. I have very little or more to add beyond what was conveyed in my endorsement on the Petition No. 29 which has been forwarded with the Boards endorsement dated 4th Instant and herewith returned.

Reporting further on the subject of the Complaint made by Canagaraya Moodly &c. respecting the Confiscation of certain goods in transitu through the French limits.

The case is a very simple one. Canagaraya Modeliar &c. &c. attempted to force themselves into Pondicherry in evasion of the Customs dues and succeeded in passing two Gates Peons during which they were brought up close to the French limits by a third Sayer Peon. They would not allow

allow their Bandies to be searched for nearly an hour. declaring that they had not any thing in them liable to duty - they were insolent to the Peons. who persisted in doing their duty, and discovered the articles enumerated and confiscated.

There was no ignorance to plead in this matter. Canagaraya Moodelian who appears to have figured as principal in the affair is an old resident of Pondicherry. and has had many dealings with the Custom department.

The very fact of two of the party putting on their heads twenty yards of Long Cloth for Turbans is sufficient evidence itself of the attempt to defraud and of the impertinence with which it was attempted. the noise and clamour with which the Peons were assailed in the execution of

of their duty required punishment for discouragement to them and for the sake of example.

I cannot discover any grounds to mitigate the order for the confiscation of the goods. The exposure and consequent distress thereon to the respectable females sounds well and would naturally attract consideration, but such is not the case and is introduced with the hope of creating sympathy.

B. No. 394

From the Collector of Trichinopoly.

Brings to the notice of the Board the serious diminution of cultivation and revenue occurred in the Villages of Nattum and Poolloor owing to the failure of water for which they are dependent upon the Haut Poolloor in the Salem Collectorate and requests sanction may be obtained to annex Canttoo poolloor to the Trichinopoly District.

Sir,

Para 1. I have the honor to bring to the notice of the Board that a serious diminution of cultivation and revenue has occurred during the present season in the Villages of Nattum and Poolloor in this district from the failure of their supply of water for which they are dependent upon the Haut Poolloor Moollah in the Salem Collectorate.

2. In consequence of the state of these Villages the Civil Engineer accompanied me to inspect them, and we found that owing to disputes between the joint proprietors of the Moollah the irrigation works had been neglected, and that a tract of fine Nunjah land yielding annually a revenue of Rupees 2788 had been thrown out of cultivation in the Trichinopoly Villages. The Civil Engineer has prepared estimates for putting these works in order but the co-operation of

of the Moolahdars is necessary for the purpose, and I have no influence to obtain this or power to take effective measures for securing the irrigation and just rights of the Trichinopoly Villages while that Moolah continues under a separate and distant jurisdiction.

3. The Civil Engineer has therefore addressed me suggesting that sanction should be obtained for the transference of the Kaut Poothoor Moolah to this District, not only for the protection of the 2 Villages which are now suffering so severely but also for the general security of the important wet Villages in the Moosery Talook which are at any time liable to be unfavorably affected by the present division of jurisdiction. I enclose for the Board's information a copy of Captain Lamford's letter together with a sketch of the locality, and agree so entirely in that Officers opinion that I beg to press upon the consideration of the Board the propriety of the immediate transfer of the Kaut Poothoor Moolah to this Collectorate.

4. The sketch now submitted shows the position

position of the Moolah in respect to the Trichinopoly Villages of Poothoor and Nuttam where the heavy loss of revenue has already occurred, and also demonstrates the inconvenient and anomalous manner in which the Moolah runs down in a wedge like shape quite to the bank of the Cauvery, thus interposing between the Trichinopoly Villages and preventing the authorities of this district having a full command of the important river & channels on which the irrigation of the Moosery Talook depends. The inconvenience and risk which are thus occasioned have been long felt, and my predecessor Mr. Onslow when addressing the Board regarding the transference of the Trichinopoly Villages of Oravandoor to Salem on account of disputes about the irrigation suggested the propriety of the arrangement now recommended by me, but as no absolute necessity then existed he did not press the adoption of the measure.

Letter to Board 6th April 1843 Para 10

5. Now however an urgent necessity does exist

exist as the Land owners in this district and the Government have already sustained a heavy and needless loss, and I am perfectly unable under the present divided jurisdiction to prevent its annual recurrence.—
I addressed the Collector of Salem on the subject in July last, and enclose that Officers reply both to show the Board the Circumstances which led to the neglect of the irrigation in the first instance & and the Consequences which arise from a divided jurisdiction.—
although 303 Cawnies of Nunjah land assessed at Rs. 2788 have been thrown out of Cultivation in this district. Mr. Phillips was evidently led by his Tahsildar to suppose that no such Consequence had arisen, and that the Cultivation of this district was not in the danger represented by me.—

* dated 9th Sept. 1850.

The

6 The transfer of the Mosttah to this Collectorate I now propose is founded upon the principle that all Villages and tracts of land dependent on the same irrigation should, if possible, be under the same jurisdiction both for the easier settlement of disputes when they do arise and to prevent the encouragement which is otherwise given to their occurrence.—
It is far from my intention to question the readiness of the Collector of Salem to protect the rights of the Tirchinopoly landowners as much as in his power, but it is obvious that the necessity of appealing to so distant an authority causes an inconvenient delay in cases like the present where despatch is necessary, and it cannot be expected that that Officer who is occupied with the business of his own Extensive Collectorate should always perceive the urgency of appeals made to him on behalf of interests not within

within his immediate knowledge and view.

If the measure which I now propose is sanctioned it will be comparatively easy for the authorities in this district to settle promptly any disputes which may arise, and another object of even greater importance, the prevention of quarrels, is likely to be obtained. The Board are aware that the jealousy and rivalry usually existing between adjoining villages display themselves under a divided jurisdiction in a manner which would not otherwise be ventured on. Thus the Kaut Poottoor Mouttahdar would not have attempted to appropriate the water of the Cauvery river in 1834 had he been subject to the authorities of Trichinopoly, like the other landowners in his neighbourhood, nor would some of his Villagers have dared to act in the manner which has just been reported to me. The enclosed Copy of a report from the Mooseery Tahsildar

See letter from Board to Collector of Trichinopoly 19th June 1834 with its accompanying Correspondence. (The Board's Communication is in Rev. C. 499 — 17-6-34 on the last page of P.C. 947 — 5-6-34 paragraph).

Tahsildar will show the Board that as a temporary expedient a small Channel was cut from the Nuttum Poadoi Voikal to give the Nuttum and Poottoor Villagers some water pending the interruption of the usual supply. This channel passed close to the Kaut Poottoor Mouttah, and the Mouttahdars Villagers have forcibly turned off the water and summoned my Voikal Sibbendy servants before the authorities of the Salem district without my knowledge or sanction. I feel therefore that unless the Mouttah is added to this district I have not the means of duly protecting the rights and interests of the adjoining Trichinopoly Villages.

The Beriz of the Kaut Poottoor Mouttah amounts I understand to about Rs. 10,000 so that the transfer would not make any inconveniently large addition to the Mooseery Taluk, and I am not aware of

If any objection to its annexation to this District.- The Moottahdars would be under the same Government and revenue system, and instructions to the Accountant General would prevent, as in the case of the transfer of Oroovandoor to Salem, any confusion or change in the accounts of the territory in which his Highness the Nawaub of the Carnatic is interested.

It only remains for me to observe that as the Kaut Bottoo Mottah interferes with the river Channels which irrigate a large & portion of the Moosery talook and this district is already small in extent it has seemed to me advisable to propose that that Moottah should be annexed to the Collectorate, instead of any opposite arrangement for the purpose of carrying out the principle of placing & Villages dependent on the same

* See Proceedings of Board of Revenue 4th January 1851 & the annexed Correspondence with Government.—

same irrigation under the same jurisdiction.—

Trichinopoly. Collectors Office. 11th February 1851.

Signed E Maltby Collector

No 1

To E Maltby Esqre Collector of Trichinopoly.—

Sir

In reply to your letter dated 6th July last enclosing Copy of an arzee from the Tasildar of Moosery Talook stating that in Consequence of some disagreement between the Moottahdars the Commbo of the river Channel of Cantoopoolloor in this District appears to have been neglected, I have the honor to state that a report submitted to me by the Tasildar of Nunnel affords some reason for doubting whether your Tasildar has correctly represented that the extent

extent of cultivation referred to is dependent on the surplus water of the Channel in question, I have therefore required from him a more distinct explanation and as the Mootah of Catoopoottoor is at present under attachment & and bad feeling between the two persons mainly interested in the Mootah seems to run so high as to induce them or one of them at least, to throw out of Consideration even their own eventual advantage. I have instructed the Tasildar by every means in his power to apply to the immediate improvement of the Coumboo all such resources as have hitherto been periodically available for the work.

No 2

Translate of an urgee addressed to E Maltby Esqr Magistrate of Trichinopoly by Ekambaram pillay the Head of Police of Moosery Talook, No 16.

Some Nunjah lands of the Villages of Nattam and Poottoor in this Talook bearing an assessment of Rupees 2665 are irrigated by the surplus water of the Kaut Coottoor Voykal and as this supply failed in the present year owing to the discusion of the proprietors of the Cauttopoor in the Salem District a Channel called Aoday voykal was repaired and a Head Sluice constructed at the Authoo Voykal in the Village of Ayalooor in this Talook at an Estimate of Rupees 126-14 -- for the purpose of carrying water to the fields of the above said two Villages - Water had just been introduced into this new Cut - and the Cultivation of the lands for which it was dug was being commenced. -

Across this Voykal which had been dug at the Circar expence Cauder vetty Road Ryot of the Salem District constructed

constructed a dam and Carried off the water to his own garden lands - Ramasawmy Iyen the Coramboo Monegar at that place objected to this proceeding and Caused the dam to be opened by his Coramboo men Upon which the above said Rowten came to the Spot on the 31st January with a gang of 20 persons and not only beat and maltreated the Coramboo men but also abused and attempted to beat the Coramboo Monegar. Having received a report and a mafernamah from the Tattiem Peshkar regarding this outrage I addressed a yaddast to the Head of Police of Namcul requesting him to enquire into the Conduct of the said Rowten and others and to punish them according to their deserts and also to take measures for preventing a dam being again thrown across the Voystal, a Copy of this yaddast I enclose for your information.

The Rowt and other Villagers of Candooveddy who thus laid a dam across the Channel dug at the Circar expence and Carried off the water to their own lands afterwards

afterwards preferred a false Complaint to the Police Officer at Namacul against the Monigar and others in this District and obtained a Summons for their attendance before that authority. The reports received by me on the Subject from the Peshkar and Monigar state that a peon of that district is already come to enforce their attendance.—

It appears to me improper on the part of Head of Police of Namacul to issue Summons for the appearance of the Coramboo Monigar and other Government servants in this District without writing to give me any information.—

The absence of the Coramboo Monegar and other subsendy servants during the dry season and at a time when the Summabundy is about to be Commenced would be inconvenient and detrimental. I therefore beg your honor will be pleased to address a letter to the Joint Magistrate of Salem in order that punishment may be

be inflicted on the parties who have preferred their false Complaint against the Servants of this district and are guilty of having erected a dam across the Channel, carried away the water by force, threatened the Monigar and beaten the Corumboo men. — I have thought it proper to take measures for postponing for the present the attendance of Monigar and other Circar Servants before the Police of Namacul. —

No. 3

To
E. Maltby Esqre
Collector of Trichinopoly

Sir.

1 With reference to our recent inspection of the lands of Pootoor and Nuttum in the Mossery Talook, and our Conversation on the Causes of these two Villages being deprived of the means of irrigation this year

ye[a]r, I have the honor to submit for your Considera-tion the following remarks.

2. The Mootah of Caudpootoor is an isolated portion of the Salem District situated within the Western boundary of Trichinopoly and held by two partners. It Consists of two distinct tracts, one lying westward and the other Eastward of the Currapotenaur, a large Jungle Stream which joins the Cavery about a Mile above the Village of Nuttum. —

3 The western division of the Mootah or Caudpootoor proper, is separated from the Cavery by the Nunjah lands of Iyellore and Seelapillapootoor belonging to Trichinopoly, but the narrow strip on the East bank of the Currapotevaur, called the hamlet of Caudwitty, extends Southward as far as the Cavery itself. —

4 The irrigated land belonging to Caudpootoor depends on the surplus water of the Cavery Channel of Iyellore and Sellapillapootoor which is carried acros[s] the Currapotenaur by an Anicut within the limits of the Mootah

Fort St. George 27th February 1851

Mootah, and the same supply goes afterwards to the Trichinopoly Villages of Nattum and Pootoor, the lands of which are entirely dependant on the state of the works within the boundary of Pootoor.—

5 In Consequence of a dispute between the two Mootadars against and Channel having during the past year been so neglected that the lands have been left dry and an actual loss of revenue sustained to the amount of 3,000 Rupees in Nattum and Pootoor an Estimate will be forwarded to you in the ordinary form for repairing the works of which a proportion should be paid by the Mootahdars who will share the benefit.—

6 The object however of my present Communication is to draw your attention to the great inconvenience arising from a division of

Fort St. George 27th February 1851

of Jurisdiction in a track of land the Cultivation of which is dependent on one common source of irrigation and to suggest that you should, if you see no objection, propose the transfer of the Candpootoor Mootah to the Trichinopoly District on grounds nearly the same as those on which the neighbouring Village of Aiavandoor was a few years back made over to Salem.—

7 It is true that the Mootahdary tenure gives you less power over the territorial arrangements than would be the case in a Ryotwar Village but it would not prevent the Tahsildar of Moosery from taking effectual steps for preserving in good order, works on which so large a revenue depends, and which the want of all authority in the locality they are in it, is to be feared prevents him now from visiting. What ever Mischief might be done at present to those works the only remedy lies in

Fort St. George 27th February 1851

a reference to the Collector of Salem, the delay attending which might of few render it of no avail and perhaps your endeavours to secure the Crops and revenues of the Villages under your authority might be defeated by proceedings in a distant Court of Law as was actually the case some years ago in this Notah, the land of which borders the head of that most important Channel of the Mooseery Jalook the Tottiyum Chinna Voikal.—

8 The accompanying map will fully illustrate my remarks and the advantages of the Change I have suggested

Bd. No. 365
From the Ag. Collr of Tinnevelly

Sir. In reply to your letter of the 30th ultimo I have the honor to inform you that on the 19th September last

Fort St. George 27th February 1851

last I addressed a letter to the resident of Travancore /Copy enclosed/ requesting him to furnish me according to form sent, with certain information required to enable me to make the Report called for by Government relative to the proposed new Boundary line between Tinnevelly and Travancore but not having hither to received any reply to it, I am unable to prepare the Report in question I have however this day written to the Resident requesting his early attention to my letter abovementioned.—

Tinnevelly
Trichendoor.

No 1

Major General W. Cullen
Resident of Travancore &c.
Cochin.

Sir

In acknowledging the receipt of your letter of the 29th July last I have the honor to request you will be good

Fort St. George 27th February 1851

good enough to cause me to be furnished as soon as practicable with an account in the accompanying Form showing the Extent and Beriz of the lands North East of Tencausey which it is proposed should be ceded to the Company by the Travancore Circar, as well as the extent and Beriz of the piece between the two lines marked K. K. K. and L L L in the Copy of the Plan which accompanied the Board's Proceedings of 23d November 1848 for the last 5 years in order to enable me to answer the Board's letter relating to the same subject. The servants of the Travancore Circar who were deputed to Shencottah on this inquiry declined to give the account in question without the orders of the Dewan to whom they said they had written about it, but nothing has yet been heard on the subject although there has been ample time for the necessary orders to have arrived.—

Read the following letters

No. 121.

To, W. H. Bayley Esqre

Secretary to the Board of Revenue.

(48.)

Br. No. 2870.

From the Actg Collr of Coimbatore.

Forwards the Statements of Land Revenue Settlement of the District for Fusly 1259 exhibiting a decrease of Rupees 9575-11-3 caused by the unfavorableness of the season; shows the increase and decrease of Revenue under the various Heads and the Demand Collection & Balance of the different branches of Revenue as well as the amount to be remitted; encloses the Sub Collectors Report and offers observations on the Putcut System.

Sir,

1- I have the honor to transmit the several Accounts of the Land Revenue Settlement of this District for Fusly 1259.

2- These Accounts exhibit a decrease of Rupees 9575-11-3, below the amount of last year, maintaining however, an increase of Rs. 165850-11-6 above the average demand of the past 10 Years.

3- For the state of the season I would refer the Board to the remarks contained in the Statements of Demand Collection and Balance periodically submitted from which it would appear that it was not very favorable in this year, both the Southwest and Northeast Monsoons having been scanty even in the most favorid positions of the District, comprising the Talooks of Pullachey, Chuckraghery, and a portion of Pulladum and Coimbatore the dry Cultivation was not therefore so successful

Fort St. George 27th February 1851-

successful as in 1258/1348/49- the produce in those lands which were cultivated having been less than the Average Outturn-

4- The same cause affected the Gardens watered by Wells. the Cultivation of which was less than what it was in last year- The Tobacco Crops however were good whether as regarded the quantity of produce or its quality a dry Season suiting them-

5- The Kunjah Cultivation suffered likewise the Tanks generally received a scanty supply- the wet lands under the irrigation of the Rivers Vaygai and Amravutty, experienced a scarcity of water only at the termination of the Channels. the repair of the Pallapollium Channel alluded to, in para 6 of the Sub Collectors Report proved beneficial to the Kunjah lands under it-

6- Under these circumstances no considerable falling off in the price of Grain &c. has occurred and it will be observed from the following Statement that in 3 instances there has been an

Fort St. George 27th February 1851-

increase as follows. Paddy 3-1-- Cumboo Rs. A. P. -3-8 and Oil Seeds 17-2-4- per cent-

Description of Grain-	Price per Garce in 1258-	Price per Garce in 1259-	Increase-	Decrease	Per Centage-

Under

Fort St. George 27th February 1851.

9- Under the head of dry-lands paying full rent, is a net decrease of Rupees 111414-2-1- caused chiefly from remissions on waste lands in the occupancy of Ryots in reduced circumstances which were excluded from the Settlement. To charge them in the accounts, will only serve to swell the revenue nominally, without any prospect of realization; thereby involving the necessity of allowing heavy arrears to hang over the Ryots, to be eventually remitted- a practice objectionable and unexpedient. To afford clear information on this point, I annex a Memorandum which will show how this deficiency has occurred-

Fort

10. The various other items composing the increase and decrease are of an ordinary character, and require no particular explanation; the only point to be noticed is with reference to the increase of Rupees 27-12-2- in Statement No. 5- Of this, Rupees 25-6-- are on lands formerly alienated for the pay of Village Officers and now resumed and brought to the credit of Government in consequence of a misunderstanding between them and the Parties occupying the same; other lands of an equivalent value having been granted to the said Officers from Cirkar waste under Orders conveyed in Para 5 of the Board's Proceedings of the 1st June 1843, and Minutes of Consultation of the 29th July following- and the remaining sum of 2-6-2, from the Assessment on land in the Dharapooram Talook originally occupied as a flower Garden, but now included in the Government assets with reference to para 9 of the Board's Proceedings of the 22nd January 1849-.

Garden

11. Garden Lands liable to full rent exhibit a net decrease of Rupees 266-9-6 from the same cause as that shown in Para 4-.

Stat. No. 4 Col. 17.

12. Regarding the transfer of Garden paying full rent to Cowle in Column 16 of Statement No. 6 I would beg to explain that this was done on the absolute justice and necessity of the case as the Summabundy. General Pyots complained that after digging Wells at an expense of 100, 150 and 200 Rupees sinking their Capital and improving their Fields in hopes of the usual promised Cowle, the Curnum or the Tahsildar had entered them at once on full garden tax with a view to their own credit by exhibiting an increase in the Bareez of the Village full enquiry was made in each case and on proof the Ordinary Cowle or some what less given as the case required as it was a clear case of injustice to the Pyot and contrary to the Hoo: Koomamah and falsifying the promises held out to induce improvement by the Pyots own means in a most valuable way it was therefore both necessary and

Rl. 431 of 11.

Fort St. George 27th. February 1851.

and just to restore their confidence and encourage them in such desirable improvement.-

13. It being also found that the Minimum of Kaly a Pullah as entitling to a Cowle, was in many instances prohibitive; water only being found enough for 1/4 Pullah. in such cases. though the Ryot had gone to large expense in the hopes of the Cowle the land if not coming quite up to 1/2 a Pullah was unjustly charged Full Garden tax at once. to the Loss and disappointment of the Ryot in sinking deep, or difficult Wells. this was often the case. The Ryot was therefore allowed Cowle for as much as he can bonâfide water, and. there is no fear but that he will enlarge or deepen his Well. for his own advantage the moment he has the means to do so.-

14 Nunjah lands subject to the demand of full Assessment shew a net decrease of Rs. 108-5-4

On

+ Mad. Dy. Cols. 25

Fort St. George 27th. February 1851.-

15. On reference to statement No. 5. the Board will observe that Enam lands to the amount of Rupees 57 — 13 — 10 have been transferred to the head of Nunjah and beg leave to state that this Enam forms the subject of Correspondence noted in the Margin. Dry lands assessed at Rupees 19 — 15 — 8 was formerly granted for the support of a Devastanum in the Errode Taloob - It was subsequently converted into wet cultivation. subject to a demand of Rupees 129 — 6 — 2 per annum - Of this sum. Rupees 62 — 7 — 11 were paid for the maintenance of the Pagoda. Rupees 18 — credited to Land Revenue in adjustment of Quit rent due to Circar. and the residue 57 — 13 — 10 brought to credit Annually under the head of "Devastanum Surplus Funds." but with reference to the Orders of the Board conveyed in Extract from their Proceedings of the 29th April 1850. Lands equivalent to the amount of Rupees 57 — 13 — 10. were assumed. and the rent given over into the Charge of

of the Manager of that Pagoda and ar-
rangement rendered necessary from
his unwillingness to take possession of
the whole extent and to pay up the
difference of assessment annually to
the Circar.-

16. In Statement No. 6 a
Col. 31 decrease of 46-4 is exhibited, as
having occurred from the transfer of
Government lands into Cnam and
in elucidation of this item I would
observe that the new line of Road
hence via Vellian to Paulghaut sanc-
tioned on the 30th August 1849. was
carried through Cnam lands no
alteration of the line being permitted
by the Superintendant of Roads.
this was attended with loss to
the Cnamdar. who preferred a
Law Suit, and in order to compensate
him for the loss and induce him
to withdraw the Suit. it was ne-
cessary to give him lands of an
equivalent value. and hence the
entry of Rupees 46-4 in the
Statement above referred to

17. In Cowle lands of 6

every-

* Against Cauth. Mauney the executive officer

every description is a deficiency of Rupees
Statt No. 4 Col 57. 2,000-10-9. which is to be ascribed to a
large extent having been charged full rent
and transferred to other heads.-

Statt. No. 4 Col. 63. 18. The increase of Rs. 1,958-10-
in Bagayet "Turn Punjah", arises from
Garden lands cultivated with Punjah
produce and waste having been charged
Punjah rent, and entered under this head
in consequence of entire failure of water
in Wells.-

19. In the item of "Punjah Turn
Statt. No. 4 Col. 71. Punjah" is an increase of Rupees 230-14-4-

20. In consequence of failure of
produce in wet lands, usual remission was
granted to the Amount of Rupees 1144-12-5
and the decrease under this head below
the Amount of past year is Rupees 26,277-
2-6, as explained in the Memorandum
below, it is hardly necessary to add
that from the nature of the season,
lands on which remission was allowed
in Fusly 1258, were not cultivated in
full this year.-

Items

21.

The Settlement of grass lands shows a decrease of Rupees 760-3-2, caused by the death, desertion, and insolvency of the Ryots, and the transfer of lands to full rent..

22.

As respects the sum of Rupees 4-9-11 credited to this head from Enam, it consists of two items, the first of 15 Annas and 3 Pice is on land forming a portion of the flower Garden referred to in para 10 of this Report which having been occupied on Grass tenure, was brought to this head, the 2nd. of Rupees 3-10-8 is on the Enam granted for the support of

Statt. No. 4 Col 101.

Fort St. George 27th. February 1851.

of Devastanum in the Village of Mudkerry, but now resumed under the Board's Orders of the 4th. February 1850 in consequence of its having fallen to decay this land in the present year was not cultivated, but occupied on grass tenure, and has therefore been included in pasture lands..

23.

Lands bearing a demand of 956-10-1 were this year included in Perampoke, the amount of each item, and the causes which induced the adoption of this course are as follows..

Statt. No. 6. Col. 55.

Appropriated for the Construction of dwelling Houses	109	15	5
Do. - for the standing of Cattle	14	2	5
Swept away by freshes	608	4	2
Appropriated to Roads &c.	188	5	9
Do. — to Channels	12	3	6
Inundated by water	18	14	8
Appropriated to the plantation of Topes according to the Board's Circular	4	12	2
	956	10	1

In each of these cases, careful enquiries were made, and the necessity of the measure was satisfactorily ascertained..

The

24.- The advances for cultivation distributed in 1259 are Rupees 4135. of which Rupees 4130. were recovered within the year; and the balance of Rupees 5 was subsequently adjusted.-

25.- A Statement of the cultivation of Cotton in the District is submitted as directed in para 9 of the Board's Proceedings of the 3rd. June 1850.-

26.- Adverting to the Board's Orders the extent of land on which Teerwa Jasty is charged, and the Amount of Assessment, are shown in Statements Nos. 2 and 3- of which, the following Memo: is an Abstract.-

Items.-	Extent of Land.-	Nunjah Assessment.	Deduct Punjah and Garden assessment.-	Net Teerwa Jastee.-

In

27.- In compliance with the Board's instructions contained in their Circular of the 8th. March last, a Statement Numbered 22, is added to the usual Summabundy Accounts to show the extent of waste lands charged to the Ryot in the preliminary Dittum Settlement of the Tahsildars in Fusly 1259- the quantity struck off or on which remission was allowed, and the net quantity laid to the account of the Ryot in the Summabundy Settlement.-

28.- Owing to the indifferent character of the season in 1259, large extent of land was left waste- much of which was saddled on the Ryot by the Tahsildars according to the practice of this District, and with reference to his personal Circumstances and condition, and not that of the land. In some cases, in which the interests of Government were likely especially to suffer a remission was allowed, proportioned to the means of the Ryot; either by

by charging pasturage tax on waste Punjah, or Punjah rate on waste Gardens. The extent of waste entered in the accounts, amounts to the enormous sum of about 60,000 Rupees, or nearly double to what was exhibited in Statement No. 2 of the past Fusly. an Abstract of Statement No. 22 is here annexed. It will probably occur to the Board to remark on this large amount of waste as compared with the smaller sums appearing in former Fusles. I can only reply that the present account has been prepared with care, and is correct, and that it does not appear to have been the custom in late years, either at the Hoozoor, or in the Talooks, to take strict account of the waste all that paid full tax, tho actually waste, was avowedly left out of the "waste" account, and entered among the cultivated lands. as a proof that the present is a correct Estimate of the Putcut waste of the District, I would beg to refer back to Fusilies 1230 to 1234

but paying full tax.

60,548-8-8

1232	75085	1	6
1233	82,483	8	2
1234	68284	13	9

where an almost equally large amount will be found in the accounts. Besides this 60,000 Rupees of waste lands paying full tax, which can only be fallow or be used for grazing, there are at grass tax Rs. 57,852 — A. 2 — P. 4 and Paroovoo pillioovary Rs. 62895 — A. 12 — P. 9 so that it cannot be said that the 60,000 are at all necessary for grazing for the Ryots Cattle, he paying for so much grass land besides, and to make him pay for it during its necessary fallow, is unjust.

over leaf

29. With reference to this large amount of waste, I would observe, with all deference, that I think a moderate Assessment with real, not nominal, freedom of holding, are the two main and essential elements of the progress and welfare of this, or indeed of any province. These two granted, the mode of Assessment or management, matters little, long leases, and security of occupancy, are of course necessary for every Ryots prosperity, and are included in real Ryotwar for, so long as the Government demand is paid, the leasehold is perpetual permanent, and unmolested, though confirmed annually; and where the Assessment is moderate and just, the demand can and will be paid up, regularly; and the Ryot consequently feels himself secure, and will be encouraged to lay out his capital, and improve his Farm, to the advantage of himself and Government.

30. The first point, moderate Assessment Coimbatoor may be said

J.C.B.

on

on the whole (with some exceptions and equalities) to enjoy, but the 2d equally necessary, to its prosperity and sound progress is virtually denied it, and I cannot hesitate to state it as my firm conviction, that the saddling "Putcut system" or forcible holding which has obtained in Coimbatore has mainly operated (while it temporarily screwed out a forced high Rental,) to impoverish the Ryot and repress interprise, investment of Capital, and improvement; this I say after careful consideration, and a return to the District after 18 Years interval, having formerly served in it and seen every portion of it, as Head Assistant, Sub Collector, and in charge of the District, I would earnestly request the Board's Sanction, if not for real freedom of holding according to the avowed principles of Ryotwar, at least for more liberality than has existed hitherto in Coimbatore; as I am confident that it would result eventually in an increase of Revenue, and that of a sounder nature than at present Coimbatore has, as I have said above, a moderate Assessment and a fine Climate; but these

Jor A St George 27th February 1857.

38.

As directed in para 13 of the Board's Proceedings of the 3d June 1856, a detailed account shewing the arrears of Extra Revenue is submitted of which the following is a concise Abstract; these arrears refer to a period of 35 years, and demand particular attention. I hope to be able to ascertain the actual amount recoverable and to report upon the subject in the ensuing Fusly, the balance due for the present Year in the item of Teak and Sandalwood has since been recovered and credited in the Accounts being Rupees 16,978 — 4 — 8 —

	November Carticay	26	"	83	"

4 The season cannot be consi:=dered to have been altogether favorable during this Fasly, the Rains having been partial, as will be seen from the State: =ment No. 1 in the Margin, and Consequently the dry Crops yielded less than they would have in a season of fertility, whilst a portion of the land was left uncultivated.

5 The same cause affected the Garden Cultivation the produce of which

which has been scanty.

6 The Rivers Cauvery and Amberamutty received the usual supply of water, and the Runjah Cultivation under them was of an ordinary character the Restoration of the Pullapolliem Channel at a cost of 2000 Rupees also greatly aided it, and prevented the failure of produce. On the whole the Return from wet lands under the irrigation of River Channels may be Considered favorable, but the lands under tanks suffered greatly from the failure of rain much of the land was left waste, while the Crops in those portions which were Cultivated were less than the average Return.

7 The subjoined Statement No. 2 shows the fluctuation in the price of grain Com:=pared with the prices of 1258 the exportation from the Sub Division in the year under review was very limited hence the lowness of the price.

Under

Fort St. George 27th February 1851

9 Under the head of Poonjah lands paying full rent there is a net decrease of Rupees 1839-12-4 caused by the death desertion and insolvency of the Ryots these lands were however to have been given for the period of one year on the usual terms of Grass Rent and the Amount thereof included in the item 'Fixed Sourmadayem'.

Paramapillomary

10 The Garden lands shew an increase of Rupees 806-3-6 chiefly from the cultivation of waste.

11 Nunjah lands subject to the payment of full demand shew a decrease of Rupees 1204-11-11 This is occasioned by a large portion of land having been left uncultivated under the Tanks in Coimbatore and Chucklagherry and also from the lands situated at the termination of the Channels in the former Taloks having been deducted from the accounts. The necessity of this measure is obvious both for the interests of Government and of the Ryot and the advantages derived therefrom are too clear to be commented upon the Revenue of the Coimbatore Taloks having

Fort St. George 27th February 1851

having been realized in full this year, without the necessity of resorting to extreme measures, whereas in preceding years heavy balances were left to be recovered gradually according to the means of the Ryots or remitted eventually a system which I believe has been deprecated by Government on several occasions the aggregate decrease under this head whether in full rent Cowle, remission &c Amounts to 1517-4-10 the particulars of which are given in the above Statement No 3.

12 In para 6 of Extract from the Proceedings of the Board of Revenue dated the 23d April 1849 they require information regarding certain Nunjah lands in Coimbatore This information having been submitted in Mr Bird's letter of the 21st July 1849 to your address further explanation from me seems unnecessary and I have only to remark that in accordance with the practice which has prevailed for many years past, lands left uncultivated either from want of water, or other sufficient cause, were excluded

excluded from the settlement after full enquiry-

13 Under the head of Coorle it a c.s decrease of Rs. a P. 435-14-7 arising from the transfer of lands of this description to fullrent.

14 There is an increase of Rupees 177-7-8 the item of "Bagayet Turnd Poonjah" or Garden lands assessed with the Poonjah rent which has been caused both by Cultivation of waste, as well as by the Appropriation of Gardens to Poonjah Culture from the failure of water in Wells.

15 In Nunjah turned Poonjah wet lands paying Poonjah demand) a c decrease of Rs. a P. -4-7-5 is observable, This decrease is so small as to require no explanation.

16 The wet lands on which remissions was allowed in last year have either been carried to the head of full rent, or struck off from the accounts this year, which has caused the decrease of Rupees 322-1-1 discernible under this head.

17 Grass lands of every description whether

whether dry, Garden or wet exhibit a decrease of Rupees 228-12-3. This is principally owing to their having been cultivated, and carried to other heads-

18 The Dittum or preliminary arrangements with the Cultivators, made by the Tahsildars) was carefully scrutinized this year, and the increase obtained thereon is given in the Statement No. 4 in the Margin-

19 The principal item of increase is in fixed Sourcadayam or Ready Money Collection, as will be seen from the following account

23 The subjoined Statements No 9 and 10 exhibit the arrears of Maturpsheo and Sooltee Revenue.

Statements

25. The aggregate No of Puttahs (Land and Moturpha) were 55070 in Fusly 1258- In the current year, 59,579 or 4,509- more than the number of last year, and these were distributed by Mr Cunliffe and myself personally in each Talook.

26. Detailed information respecting the esetent of waste land included in the Ryots' Puttahs has been called for from the several Talooks as required by the Board's Circular dated 18th March 1850, which on receipt will be submitted.

27. In para 3 of Extract from Minutes of Consultation No 194 of the 18th May 1849 Government require further information regarding the practice of crediting the difference of land found above the esetent set down in the Survey Accounts- A copy of this Extract appears to have been forwarded to this Office in June 1849- but I find no reply recorded- the information called for having however been already submitted in Mr Bird's communications,* it does not appear that any further report

*dated 28th February 1849.
" 16th October do.
" 20th ditto do.
" 11th October 1848
" 27 June 1849

report is required from me on this Subject.

28. The Register of Lands held by Public Servants in the Sub Division required by the Board of Revenue* is under preparation and will be submitted as soon as ready.

29. I cannot conclude this report without remarking in terms of commendation on the services of my former Sheristadar Soobbarow, by whose exertions the increase now reported upon in the item of Moturpha Revenue has been obtained-

No. 16

To

W. H. Bayley Esqre
Secretary to the Board of Revenue

50.

Bd. No. 318

Sir,

From the Actg Princ.
Coll. of Coimbatore.

I beg to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated the 23d Ultimo and to afford the explanations required by the Board.—

Affording the explanation called for by the Board respecting certain lands to be converted into Punjabon the Pultchery Talook for which a Cowle was proposed by the acting Principal Collector.—

2. I proposed 2 years entirely free, because it is usual in nearly all Cowles that a few years be quite free and in this case also, though classed as Punjah, there is some of the Land which I have seen, with heavy Jungle on it, to be cleared, but as the Board prefer the 18 years Cowle as explained by them, it will of course, be followed.—

3 The Amount of expence incurred was stated, on several personal examination by myself as well as the Civil Engineer I saw the whole of the work which had been done.—

4 That a small quantity of

of the land was originally classed as "Nunjah" is true but it has never been so cultivated having been always either waste or simple Punjah. the classification must have been originally erroneous or at mere surmise, and the omission to mention it in my first letter was an oversight.-

Coimbatore Dy. Coll.r Office
Suttimungalum,
3d May 1851

/Signed/ E. B. Thomas
Asg Prin.l Collector

B.R. 1st 437
Order thereon.

The Board consider the explanation given in the foregoing letter satisfactory, and accordingly direct that the Cowle for 18 years be given on the terms sanctioned by them under date 23d January 1851.-

No. 16.

To W.H. Bayley Esqre.
Secretary to the
Board of Revenue
Fort St. George

61.

Bd. No. 416.

From the Collector of Madras

To Honorable Company's Solicitor 8th February 1851. From Dy. Collr. Dc.

Sir,

I have the honor to transmit herewith for submission to the Board of Revenue, copy of a correspondence with the Honorable Company's Solicitor from which it will be observed that I lately informed some of the Wholsale Dealers in European spirits that I would refuse the issue of the usual passes to them, if they should fail to remit the penalty incurred by them for the sale of liquor by retail.

2. I requested the Honorable Company's Solicitor to state his opinion as to whether, under the circumstances the adoption of the measure alluded to was justifiable.

3. It will be seen that the Advocate General's opinion is in the negatives.

4. I forward herewith the original Bond laid before the Advocate General which stipulates that if the parties who executed it were "at any one time" to "sell or dispose of a less quantity than one Dozen quart bottles" they should pay Pagodas 50 as a penalty.

No. 30.

Instead

5. Instead of proceding against the Offenders, at once, for the recovery of the amount, I merely intimated to them, as the simplest mode of meeting the emergency of the case, that no further passes for the removal of spirits would be granted before payment was actually made.

To Bd. 7th. Novr. 1834.
From Do. 17th. " "
To Do. 22d. January 1835.
From Do. 2d. February "

6. The liability of the wholesale Dealers and their Securities for breaches of their engagement with this Office was admitted by the Advocate General on a former occasion and, at his suggestion it was determined to prosecute the Offenders in the Petty Court, but they absconded before the necessary steps could be taken against them.

7. I submit, for the consideration of the Board, whether it would not be proper to pursue the same course now - at least in one of the instances in which the parties have subjected themselves to the penalty laid down in their Bonds, as the result, I have reason to believe will have a beneficial effect on the revenue.

From Honorable Company's Solicitor 14th. February 1851.

8. As regards the observations in Para 2 of of the Advocate Generals opinion of 14th. Instant, it is sufficient to draw the attention of the Board to the correspondence

From Do. 6th. October
To Do. 8th. Do.
From Do. 4th. Novr.

Sir,

With reference to the correspondence noted in the Margin, I have the honor to bring to your notice that the Clandestine retail sale of European Spirits by Wholesale Dealers and others, has occasioned a serious loss of revenue, and that, to arrest the progress of the evil, I have this day intimated

intimated to such of the parties as have executed Bonds similar to the one herein enclosed that, if they should fail to remit the penalty incurred by them for a breach of the conditions of their engagement, I would refuse the issue of the usual passes for the protection of European Spirits removed from or to their respective places of sale, I request that you will be good enough to favor me with your opinion as to whether under the circumstances, I am not justified in the adoption of the measures alluded to..

Madras ... 8th. February ... 1851 ...

No. 57.

To

J. A. Hudleston Esqre.
Collector of Madras..

Sir,

From Collr. of Madras to Honble Col. Solicitor 8th. February 1851..

I do myself the honor of acknowledging the receipt of your letter to my address noted in the margin, and of annexing for your information a Copy of an opinion given by Mr. the Advocate General, on a case which

I laid before him..

Madras ... 14th. February 1851 ...

/Signed/ Clement Dale
Honble Col. Solicitor

The Original Bond is herewith returned..

The question proposed amounts to this - whether, upon a parties refusal to pay a sum by way of penalty which the Collector may be satisfied has been incurred - or which may have been even adjudicated by course of Law the Collector is at liberty to break his contract with such party or with another for whom such party is a Security, or refuse the former his rights, by not issuing his permit papers as a licensed dealer in Spirits Certainly the Collector has no such authority..

It appears to me that, if the Collector had submitted in due course such a question to be asked of me thro' the proper Channel, Government would not have allowed me to be troubled with it - I observe that I have advised a former Collector, in the matter to which you have called my attention, direct - but perhaps that may have happened

happened in consequence of the Collector having been authoritatively placed in communication with the Law Officers on the subject. Be that as it may, I must request in future that the Collector, when he desires Official advice from me, should address himself to Government.

14th. February 1851 }
