Dispatch

Received the following Letter

To

The President and Members

(1)

Bd's No. 562

of the

Board of Revenue.

From W. H. Bayley Esqr. Gentlemen

Secretary to the Bd. of Rev.

I have the honor to solicit

that the Board of Revenue will be pleased to

obtain for me leave of absence for six Weeks

to comprise the date of my leaving the Office (which

will be on or about the 15th Instant) under Section

XI (commencing) and Section XII of the absentee

Rules to proceed to Europe on private affairs.

Revenue Board Office

Fort St. George;

10th March 1851.

(Signed) W. H. Bayley

Secretary

Endorsement thereon in Consultation through the Chief

Secretary

(2)

recommending the Leave solicited for the favorable

consideration of Government.

At

Fort St. George 10 March 1851

At a Meeting Present.

J. Goldingham Esqre Second Member.

Monday 10th March 1851

and

T. L. Blane Esqre Third Member.

Walter Ellet Esqre Senior Member absent on duty as Commr. Northern Circars

Minutes of the last Meeting read and approved.

3.

Read the following Extract.

Bd. No. 424

From the Secy to Government

Authorizing that certain irrecoverable balances on account of Sayer Summa in the District of Innevelly from 1212 to 1255 fasly written off, and the collector directed to publicly to notify the same throughout the District requesting the Board to submit one General report upon the irrecoverable balances of Sewy Summa in all the collectorates

No. 172.

Extract from the Minutes of Consultation in the Revenue Department under date the 18th February 1851

Read the following Extracts

From the Proceedings of the Board of Revenue:

(Here Enter 2nd January 1851 No 39)

Para 2. The balances outstanding on account of Sewayi Summa in the Tinnevelly District for Fasly 1212 to 1255 and remaining unadjusted at the close of Fasly 1259 are shewn to amount in all to Rupees 42719-3-4- of this sum Rupees 1255-11-4 classed as recoverable and doubtful are proposed to be retained in the Accounts, and the remainder Rupees 41483-7- including disputed items

Fort St. George 10 March 1851

items to the amount of Rupees 1,11,756-12-8- are represented to be wholly irrecoverable, and is accordingly recommended both by the Acting Collector and the Board of Revenue to be written off to Profit and Loss

Referring to the circumstances under

2. which these balances are considered to be incapable of recovery as detailed in the foregoing letters and Statements the Right Honorable the Governor in Council is pleased to accede to the Board's recommendation, and to direct that the arrears in question Rupees (41483-7-) Forty one Thousand four hundred and Eighty three Rupees Seven annas be written off in the Public accounts. The Board will instruct the Acting Collectors to cause the non-recovery of these balances to be publicly notified throughout the Sumravally District that the Ryots may not be exposed to any vexations hereafter on account of the Arrears. Referring to Extract Minutes of Consultation 31st October 1849 Para 12.

He also desires that the Board will submit one general report upon the irrecoverable balances of Sewayi Summa in all the Collectorates under their charge in respect to which orders have not yet been passed by Government. He also requests to furnish the Commissioner for the Northern Circars with the fur-

of the correspondence which has taken place
on the subject of the arrears of Sewayn Summa, and
to request him to submit a report upon such
balances of this description as may be in existence in
the District within his range.

To the President and Members
of the Board of Revenue.

(A true Extract)
(Signed) I. Pycroft
Sect to Government

B[d] N[o] 500

Order thereon.

(4.)

Ordered that Copies of the fore-
going communication and the Board's Proceedings
to which it is a reply, be forwarded to the Acting
Collector of Tinnevelly with reference to his letter
In Cons 23 June 1851. of the 11th December 1850.

Mr Bird will be careful to cause
the remission of the Balances now sanctioned by
Government to be publicly notified throughout
the Tinnevelly District.

B[d] N[o] 510

To all Districts except Tinnevelly, North arcot & Trichinopoly

(3.5.)

Ordered that the following Circular
be sent to the Districts noted in the margin.

Circular.

Sir.

The Government having called
for one general report upon the irrecoverable balances
of Sewayn Summa, I am directed by the Board of Revenue
to request that you will be so good as to submit
at an early date a further statement

of

of the balances outstanding under this head
in your District distinguishing the recoverable
from the irrecoverable with your reasons
for considering the latter incapable of
realization.

From the Sec[y] to Government

N[o] 194

Extract from the Minutes of Consultation
in the Revenue Department under date 25th
February 1851.

Approving of the measures adopted by the Collector of North Arcot respecting the existence of female pensioners in his District passing Endorsement on Petition 2272 of 1850 to the effect that the allegation contained in it are without foundation.

Read the following Extract
from the Proceedings of the Board of Revenue.

(Here enter 3d February 1851 N[o] 55.)

Para 1. The Right Honorable the Governor
in Council approves the measures taken by the Collector
of North Arcot to ascertain the existence of the female
pensioners in his District above the age of fifty
years which he regards as judicious and considerate and
of his having stopped the allowances of the whole
of them on their refusal to appear in person before
him or his Assistant, as also those of all the
parties who last acted as Vakeels for them
or signed their life Certificates. He likewise
approves

of the correspondence which has taken place on the subject of the arrears of Sewayi Jumma, and to request him to submit a report upon such balances of this description as may be in adjusted in the District within his range.

To the President and Members of the Board of Revenue.

B^d N^o 493.

Read the following Extract.

From the Sec^y to Government

Approving of the measures adopted by the Collector of North Arcot respecting the existence of female yeomaldars in his District Ordered on Petition 227 of 1850 to the effect that the allegation contained in it are without foundation.

N^o 194

Extract from the Minutes of Consultation in the Revenue Department under date 25th February 1851.

Read the following Extract from the Proceedings of the Board of Revenue.

(Here enter 3^d February 1851 N^o 55.)

Para 1. The Right Honorable the Governor in Council approves the measures taken by the Collector of North Arcot to ascertain the existence of the female yeomaldars in his District above the age of fifty years which he regards as judicious and considerate and of his having stopped the allowances of the whole of them on their refusal to appear in person before him or his assistant, as also those of all the parties who last acted as Vakeels for them or signed their life Certificates. He likewise approves

approves the remarks upon this head made by the Board in Para 9 of their Proceedings except that he would extend from three to six months the term within which the female Jemmiahdars must establish their identity by personal appearance under penalty of the final forfeiture of their own Jemmiahs and those of the persons who have last acted or certified in their behalf. The Board will instruct the Collector to cause this resolution of Government to be publicly notified throughout his District and to impress upon all persons concerned the consequences to which they will subject themselves if they disregard it.

2. The Governor in Council agrees with Mr Brandilleau in the remarks made in Para 7 as to the persons who have hitherto been allowed to act as Vakeels to female Jemmiahdars or to attest their certificates and he sanctions the modification of the 1st of the Rules of 24th December 1844 suggested by the Collector and concurred in by the Board. This modification will of course apply to all females who draw their Jemmiahs through Vakeels, as well as those under as those above 50 years of age and the Board will be careful that it is carried out in the case of those who have recently been exempted under

3d September 1850 No 327
18th February 1851 No 170

under the orders noted in the margin as well as those who may be admitted to a similar exemption in future.

The explanation furnished in respect to Petition No 3272 of 1850 is considered satisfactory and the Government resolve to pass upon it the following endorsement.

"The Government having received from the Collector of North Arcot a report upon this Petition find the allegations contained in it to be without foundation."

To the President and Members of the Board of Revenue

/ A true Extract /
/ Signed / J. Pycroft
Secretary to Government.

Bd No 517.

Order thereon, Ordered that a copy of the foregoing Extract from Minutes of Consultation and of the Board's Proceedings to which it is in reply be communicated for the information and guidance of the Collector of North Arcot with reference to his letter dated 28th December 1850.

(7.)

In Cons 5th Feby 1851

Ordered also that the following Circular be sent in consequence.

(7-8.)

Bd No 509.

Circular

Ltr from Govt 25th February in Cons 11 March 1851.

Circular.

I am directed by the Board of Revenue to request you that the Right Honorable the Governor in Council has sanctioned the modification of the fourth of

of the yearly Rules circulated from this office under date 18th January 1841 by declaring that in future the yearly or Cuam of the Vakeel or Certifier shall bear the relative proportion of not less than one half to the amount of the yearly or aggregate of yearly, of the parties represented or Certified by them respectively.

2. This modification will apply to all females who draw their yearly allowances through Vakeels, as well as those above 50 years of age.

This para to Madras 9th September 1850. 27th February 1851 to Trichinopoly 27th February 1851

You will be careful that the above order is carried out in the case of those who have recently been exempted under the orders conveyed in the Board's Proceedings noted in the margin.

Revenue Board Office,
Fort St George,
10th March 1851.

(signed) W. H. Bayley
Secretary

Read the following resolution.

No 189.

Extract from the Minutes of Consultation under date the 25th February 1851.

(9)

B. No 504.

From Board 10th February 1851.

From the Secretary to Government. Resolved that the Collector of Trichinopoly be authorized to distribute subject to audit, the arrears of pension due to Syed Peersbah

Peersbah Moodeen Cawdry from 1st August 1848 to 31st December 1850 amounting to Rupees (29?) Two hundred and ninety and to continue the payment of the allowance granted to him under the sanctions of the Government of India 4th October 1845, No 688.

By order
(signed) J. S. Bycroft
Secretary to Government

B. No 485

Order thereon.

(9-10.)

Ordered to be communicated for the information and guidance of the Collector of Trichinopoly with reference to his Statement dated 22nd January 1851.

(11.)

B. No 494

From the Secy to Government

Directing the Acting Principal Collector of Chingleput to report on certain lands sold in the Pooliyaury Hills Confirming that the power of granting land on the Hills is reserved to Government except in certain cases.

Read the following Extract.

No 200

Extract from the Minutes of Consultation in the Revenue Department under date 25th February 1851.

Read the following Extract from the Proceedings of the Board of Revenue.

(Here enter 23rd January 1851 No 35.)

Para 1. The Government do not gather from the above Proceedings of the Board of Revenue whether it is their intention to apply for a lease for the lot of land 37 c 9 g 4 sq 1962 feet sold to Brigadier General Dyce or for one for the whole quantity 62 c 7 g 6 sq 1962 feet advertised by that office as

to have one Lease for the whole land purchased by him or separate Leases for his separate purchases and to dispose of that officer's application in the List of Lands at present occupied and for which Leases are required

Subsn 11th March 1851

2. In reply I am directed to explain that on receipt of Extract Minutes of Consultation 11th October 1850 separate orders dated the 11th November 1850 were sent to the Acting Principal Collector of Combatore to furnish to this office, for the sanction of Government, a List of lands at present occupied on the Neilgherries for which Leases are required. It was however presumed that the land last sold to Brigadier General Dyce was at that time unoccupied, and as the preliminary required by the Manual had been fulfilled, the case was submitted by itself for the approval of Government as directed in para 3 Extract Minutes of Consultation 11th October 1850.

10th March 1851

3. The Board now resolve to ascertain thro the Acting Principal Collector whether it is the wish of Brigadier General Dyce to have one Lease for the whole land purchased by him or separate leases for his separate purchases and to request that Mr Thomas will dispose of that officer's application in the List of lands at present occupied for which Leases are required called for in the Proceedings of the 11th November 1850, mentioned in the last para which has not yet reached this office

Read the following Petition from Bheemareddy an Inhabitant of Reddiwaripallay of Penmoor Talook in North Arcot.

Here enter 20th December 1850

Ordered that the foregoing Petition be forwarded to the Collector and Magistrate of North Arcot.

By a resolution of Government under date the 6th February 1848 Lutchimanapatty Naidoo was declared not worthy of that confidence which must necessarily be placed in the Head Native Servant of any Office under Government and he was accordingly dismissed from the situation he then held under the Deputy Quarter Master General of Her Majesty's Forces.

A person thus dismissed ought not in the opinion of Government to be employed in the Confidential and responsible Post of Tahsildar and the Right Honorable the Governor in Council cannot permit any Head of an Office entirely to neutralize an order emanating from Government by conferring on this man of suspected character, a situation in the Provinces much more important

important and more responsible than that for which he was deemed disqualified and from which he was discharged in 1848.

The Collector and Magistrate of North Arcot will therefore immediately remove Lutchimanapatty Naidoo from the office of Tahsildar.

(Here enter 30th January 1851 N. 22)

Para 1 The Right Honorable the Governor in Council having given his attentive consideration to the circumstances represented by Board of Revenue in the above letter entirely concurs in their opinion that the sale of the

Pagodas

Bagalore Poliput in the Salem District in lots as directed by the Court of Sudr Udalut is inexpedient on general grounds and prejudicial to the interests of Government. He must therefore positively prohibit the sale of the Estate except as an entire one, and he desires that the Collector may be instructed to persist on the sale of the whole property in one lot under Section V. Regulation XXVII 1802 on the ground that otherwise the interests of Government will be compromised, and that in previously agreeing to its sale the Government did so on the understanding that it would be in the form and manner then proposed.

2 The Board will likewise instruct the Collector to purchase the Estate on behalf of Government and to bid for it to the extent of its full and fair value, at all events to an amount somewhat more than sufficient to cover the judgment debts Rupees 22,306-12-8. and the amount due to Government for arrears & Peishcush, charges of Management &c and after deducting the latter sum to pay the remainder into Court.

To the President and Members of the Board of Revenue

Order thereon.

24-5.

Ordered that Copy of the foregoing Extract from Minutes of Consultation and of the Board's letter to which it is a reply be communicated for the information and guidance of the Collector of Salem with reference to their previous letter of 9th January 1851.

Read the following letter

No. 5

26.

B.d No. 562

From the Coll.r of Guntoor

Reporting in reply to the Board's Proceedings of the 25th November last that the Native and English Records are in much confusion as stated by the Commissioner Elliot in his report dated 14th April 1846 but that a large proportion of them are useless which are recommended to be got rid of.

To W. H. Bayley Esqr
Secretary to the
Board of Revenue

Sir.

I have the honor to acknowledge the receipt of the Extract from the Board's Proceedings dated the 25th communicating an Extract from the Minutes of Consultation dated the 5th November 1850 calling for a report upon the present condition of the English and native records

2. The method of arranging and registering the records explained by Mr Harris in his letter to the Board dated 4th November 1836 for same reason which I am not aware of was not subsequently continued. On the 20th January 1842 Mr Goldingham applied for an Extract

Cochin Establishment for the purpose of
re-arranging the Records, the application
having been referred for my opinion &
I stated in my letter dated 14th March 1845
that "except so far as they bear upon the
Enam lands, and the Land Revenue the
native records are of little value" I also
suggested that "some rules should be
laid down, as to what records should be
preserved, and what might be destroyed"
I received no reply to this letter and no further
steps were taken. The Commissioner Mr Elliot
at para 95 of his report dated 14th April
1845 has described the state of the records
up to that time.

In 1849 it became necessary to remove
the records to what was then the Cutcherry,
for the purpose of pulling down the old
record room, and erecting the new Cutcherry
on its site, as this had to be done in a
hurry the drafters were not placed again
in the same order and considerable misarrange-
ment occurred with this exception this
there has been no attempt to rectify
previous disorder things have not got worse
and difficulty is held on found in procuring

from

from the record Keeper any native or
English papers required.

4 The greatest evil of the existing
System appears to be the preservation
of useless papers rendering it
almost a matter of impossibility to
keep in order, and accessible, those
that are really useful. I would therefore
recommend that the whole of the Tellogoo
records, up to the end of Fusly 1254, with
the exception of the accounts bearing upon
the Enams and the assessment, be sold
as waste paper. Of those to be retained
a list should be prepared and submitted
for the approval of the Commissioner
In future I would recommend that all
Statistical and revenue information
should be entered regularly in books,
after which the loose papers, at pre-
sent annually filed, might be
destroyed. I would also recommend
that an examination be made
of the English records, and a
list prepared of those that are
useless. Under the latter I should have

no

no hesitation in classing the correspondence with the Departments of account Viz^t, accountant General Civil Auditor, and Pay Master into the latest period of which the accounts of the District have been audited. The annual accounts of course should be preserved. another suggestion made in my letter of the 14th March 1846, was for the Controlling Officers to print their standing instructions. The Board are already allowing the preparation of a printed collection of their standing orders. If this were also done by the other Departments, a large collection of bulky correspondence might be got rid of.

Proceedings

3690

Fort St. George 10th March 1851.

No. 126.

Read letter from the Agent to the Governor of Fort St. George at Kurnool dated 3d February 1851, reporting on the management of the Extra Sources of Revenue in that District during Fasly 1259.

(28.)

In Cons 3d March 1851.

Bd. No. 642.

Proceedings thereon.

Relative to the Settlement of Extra Sources of Revenue in the District of Kurnool for Fasly 1259 1849-50.

/ Here enter No 7 /

From the following comparative Abstract Statement it will be observed that the demands for Fasly 1259 Amounted to Rupees 1,53,669-5-11 or Rupees 3,837-10-11 below that of the preceding one.

	Fasly 1268			Fasly 1259			Increase			Decrease		
Sayer	67,83	6	10	69,24	8	9	"	"	"	858	13	1
Ab. Karry	86,730	"	"	83,826	"	"	"	"	"	2,904	"	"
Sundry Small Items	5,367	6	"	4,865	1	11	"	"	"	502	4	1
Motarpha	55,728	9	"	66,843	3	3	1,114	10	3	"	"	"
Stamps	2,887	12	"	2,200	8	"	"	"	"	687	12	"
Total	1,57,197	"	10	1,53,669	5	11	1,114	10	3	4,952	5	2
							Deduct Increase			1,114	10	3
							Net Decrease			3,837	10	11

The

Sayer

2. The Demands under this brand amounted to Rupees 5,924-8-9, being Rupees 858-13-1 below those of the previous fusly. The principal items of decrease appear under the head of Cloths, Jaggery, Sugar, Cocoanuts and Indigo.

St Barry

3. The St Barry rents for the year was disposed of for Rupees 83826, or Rupees 2944- below that of Fusly 1258.

4. The late Agent in submitting the offers for Fusly 1259 for the sanction of the Board, observed that the decrease was occasioned by the general disinclination to speculate, owing to the losses supposed to have been sustained by the renters for the previous year, as well as to a feeling of insecurity arising from the prevalence of Cholera.

5. It will be seen that the falling off in the rents of the three Taloks of Dharwar, Goodoor and Kundicotta alone amounted to Rupees 7,238, and arose from Mr Phillips having included a few Villages belonging to them in the Khurnool Farm as their contiguity to it and the Sepoys Lines afforded great

great scope for the illicit importation of liquor sold outside of them at low rates.— This step he was of opinion would not only protect the interests of the renter, but also add to the value of the farm when next put up for sale. There was not however a corresponding increase in the Khurnool farm, owing probably to the causes assigned by Mr Phillips and alluded to in the preceding para.

Sundry Small Farms and Licenses.

6 The Demand on account of this Source was Rupees 4865-1-11 being Rupees 502-4-1 below the last fusly.—

7. The principal item of decrease appears under the head of Diamond Mines the tenders for which it is stated depend upon the speculative spirit abroad, and the reports of the success or otherwise of the previous year's contract.

Miscellaneous

8. The demand under this head amounted to Rupees 56843-3-3, or an excess of Rupees 1114-10-3 over the last year.

9. The increase appears under the heads of Handicrafts, House, Loom, and Miscellaneous taxes the greater portion of the augmentation in the first item arose from the increase in the payment of

Butchers

Sayer

2. The Demand under this he
amounted to Rupees 6,924-3-9, being Rs
848-13-1 below those of the previous fa
The principal items of decrease appear
under the head of Cloths, Jaggery, Sugar
Coconuts, Tea and Indigo.

Mr. Barry

3. The Mr. Barry rents for the yea
was disposed of for Rupees 83826, or
Rupees 2944- below that of Fasly
4. The late Agent in submitting
the offers for Fasly 1259 for the Sunet
of the Board, observed that the decre
was occasioned by the general disinc
-nation to speculate, owing to the los
supposed to have been sustained by the
renters for the previous year, as well as
a feeling of insecurity arising from the
prevalence of Cholera.
5. It will be seen that the
falling off in the rents of the three Tal
of Shorer, Goodoor and Kundiecotta
alone amounted to Rupees 7,238, and i
arose from Mr. Phillips having inclu
-ded a few Villages belonging to them
in the Flurnoor Farm as their con
-guity to it and the Seyoye Lines afforded
great

great scope for the illicit importation of
liquor sold outside of them at low rates.—
This step he was of opinion would not only
protect the interests of the renter, but also
add to the value of the farm when next
put up for sale. There was not however a
corresponding increase in the Flurnoor
farm, owing probably to the causes assigned
by Mr. Phillips and alluded to in the
preceding para.

Sundry Small Farms and Licenses.

6 The Demand on account of this
Source was Rupees 4866-1-11 being Rupees
502-4-1 below the last Fasly.

7. " The principal item of decrease
appears under the head of Diamond
Mines the tenders for which it is stated
depend upon the speculative spirit
abroad, and the reports of the success or
otherwise of the previous year's contract.

Motor Sheds

8. The demand under this head amou
-nted to Rupees 56843-3-3, or an excess of Rupees
1114-10-3 over the last year.

9. The increase appears under the
heads of Handicrafts, House, Loom, and
Miscellaneous taxes the greater portion of
the augmentation in the first item arose
from the increase in the payment of

Butchers

Butchers, in consequence of the removal of all restrictions on the trade in Skins.—
The Board resolve to submit to Govern=
=ment with these Proceedings the corres=
=pondence on this subject to which the
Agent refers. The diminution in Veeva=
=luddy is ascribed partly to the transfer
of Rupees 105-6-11 obtained on Indigo
rents to the Land Revenue and partly to
the death desertion &c. of the former
payers of this tax.—

Stamps. 10.— In Stamps the Collections were
Rupees 2,200-8-11 or Rupees 687-4-11 less
than the previous year, which is ascribed
to the few suits filed during the year.—

Collections 11.— The aggregate demands for the
year, as already shewn was Rupees
158,669-5-11, which is inclusive of Rupees
1,077-14-2 remitted by Government under
date the 26th June 1860 to the defaul=
=ting Abkarry renter for Kundiah
and Kundicotteor this sum—
being deducted the total ac=
=tual demand was Rupees 1,52,581-
7-9- Of this amount Rupees
144,792-3-10 were realized with=
=in the fusly and a further portion

In Cons 1st July 1860.

viz

viz Rupees 7,508-3-5 to the end of Dec=
=ember 1859. thus leaving a balance of
Rupees 281-11-6 outstanding under the
head of Moturpha much of which—
appears against parties deceased or—
absconded.

Balances 12.— Of the balance of Rupees 6,528-
2-6 due at the commencement of
the fusly, Rupees 6,320-8-3 were collect=
=ed, and the Agent intends during the
Summahundy to ascertain whether
any portion of the balance is recover=
=able.—

13.— The total Collections from all
Sources of Extra Revenue, including
Extra and Arrears amounted to Rupees
1,50,940-6-11, from which ~~total~~ charges—
being deducted, there appears a Net Reve=
=nue of Rupees 1,28,649-15-9 or Rupees 6,814-5-8
below that of Fusly 1268.—

Sugar Cane. 14.— Respecting Sugar Cane it will be
seen that in Fusly 1269 there were only
Acres 78-76¼ of land cultivated, while
in Fusly 1268, there were Acres 93-4-7½.
The Agent is of opinion that there must
be something wrong if the Ryots of
Kurnool cannot be induced to grow
enough cane for the supply of the
district.—

Fort St. George 10th March 1861.

district and promises to devote his attention to the subject during his Summabundy tour. There are no Sugar Manufacturers in the District.

Salt 15. Adverting to the operations of the Salt Monopoly, Mr. Lushington observes that were there greater facilities for procuring Sea Salt by improved lines of communication to which he has more fully referred in his Report on Roads, the inhabitants would be greatly

Fort St. George 10th March 1861.

benefitted.—

Ordered that a Copy of the foregoing Extract with the annexed Comparative Statement of the Collections Charges and Net Revenues be submitted to Government and a transcript of the same be forwarded to the Agent at Kurnool for his information and guidance.—

3699 Fort St. George 10th. March 1851.

Read the following letter.

No. 8.

To W. H. Bayley Esqre.
Secretary to the
Board of Revenue
Fort St. George.

29.

B. No. 498. Sir.

From the Agent to the Governor at Vellore — Furnishing certain information regarding the differences found in the various Coins as called for in the Board's letter dated 6th February 1851.

In reply to your letter of the 6th instant, I have the honor to annex a Memorandum exhibiting the nature and extent of the differences between the detailed accounts of the Coins forming the balance in the Treasury on the 30th November 1850, and the actual coins found on examination. The amount was trifling being only to the extent of Rupees 4-2-6, but the Shroff's accounts were written in a very careless and slovenly manner, and without due system and regularity.

The difference is attributable to this carelessness, and to negligence in the examination of the various small bags of Sundry Coins, and on the discovery of it, I issued detailed orders to the Treasurer for the introduction of greater regularity

ew

in the System, and more care in the accounts and threatening all of the department on whom responsibility rests with severe punishment in the event of any similar carelessness being exhibited hereafter.

Hurnool District, Agent's Office, On Circuit, Chagulmurry, 24th February 1851.

(Signed) T. D. Lushington
Agent to the Governor

Memorandum exhibiting the extent to which a difference existed between the Coins found in the Hurnool Treasury on its being examined on 2d December, and the coins composing the balances entered in the detailed accounts of the Treasury and the description of Coins in which such difference was found.

Bd. No. 586.

/ Here enter No. 190 /

Proceedings Relative to the Settlements of the Land Revenue in the District of Chingleput for Fusly 1259.

thereon.--1- The Settlement was conducted chiefly by Mr. Conway the acting Collector. The report is silent as to the places where the Summabundy of the several Talooks was made, this omission should be supplied in future in conformity with the Circular orders of the Board dated 22d November 1849.

Para 3 @ 5

2. The Season was unfavorable. The early rains were light and the N.E. Monsoon on which the District chiefly depends failed. Cholera prevailed, particularly in the Western and Southern Talooks. The Cattle suffered from disease in the early part of the year, the Returns however are on the whole favorable. Prices, though about 5½ per Cent, it is stated above the low rates of the preceding year, were still 15/4 per cent below the standards on which the Survey Assessment was fixed.

A.

Fort St. George 10th March 1851.

A Price List does not accompany the Report, an omission which should be rectified in future, but the rates as extracted from the Monthly Returns submitted to the Board were-

	Fusly 1258 Rate per Garce	Fusly 1259 Rate per Garce
Paddy 1st Sort	72-7-	77-7-9
" 2d Do.	63-4-	70-14-4

The Prices thus given exceed those of the preceding year by more than 9 per Cent.

3. The total number of Villages in the District was 2315, being an increase of one Village, owing to a Hamlet attached to Punnutty having been formed into a separate Village for the convenience of the Accounts.

Para 7- The other changes during the year were the purchase by Government of 5 Mootah Villages (2 having been sold by orders of the Court and 3 for Arrears of Revenue) and the transfer of the Villages of Moenjoor and Arienvoyel to the head of Sholavaram, under the orders of Government dated 11th December 1849.

Stat. No. 6. 4. The Dittum of engagements of land for the year including Second Crops amount

amount to Rupees 9,19,700 or Rupees 1,39,643 less than in the preceding year. Deducting Waste (Caboolety Bunger) which exceeds the Waste of Fusly $\frac{1258}{1848/49}$ by Rupees 7,550 - the actual Cultivation was Rupees 8,17,288, being Rupees 1,32,093 below that of the former year. The decrease is composed of

	Rs
Dry	3254
Wet	117214
Garden	388
2d Crops	11237

6- The Dittum Waste is exhibited as a Remission Rs 21 in the Statement appended to Para 18. As this item is not a Remission but merely that portion of the ordinary holdings which is not cultivated in consequence of adversity of season, the Board in their Circular dated 18th. March 1850 directed that it might be exhibited in the Accounts as a deduction from the Dittum, the remainder being the Gross Settlement or actual cultivation on which the actual remissions are made. These instructions should be attended to in future.

H.R.

The

6. The amount of Dittum Waste charged to the Ryots in Fusly 1258 was Rupees 811-7-8. This item is not shown as it ought to have been in the Accounts of the year under report. It is also desired that the engagements may be exhibited for each Talook in Statement No. 7 as required in Para 14 of the Proceedings of the Board on the Settlement for Fusly $\frac{1258}{1848-49}$

7. The Remissions on the actual cultivation amounted to Rupees 183,530 exceeding those of the preceding year by Rupees 1,6456, arising almost entirely from the indulgence rendered necessary in consequence of the failure of the rains. The amount allowed for loss of Crops alone (Shavy) was Rupees 137,207 the highest on record. In the preceding year, it did not exceed Rupees 141. It appears from the explanation given in Para 19 that claims to remission underwent strict scrutiny. These are adjusted on a consideration of the Prices of the year, as well as of the entire produce of the Ryot. The low standard of the former compared with previous years has

in

in a great degree led to the large, relaxation of the demand noticed above.—

Paddy 1st Sort Rs. a P	Paddy 2nd Sort. Rs.
Fusly 1259 1849/50 77-7-9	70-14-4.

The Prices of Fusly 1255 1845/46 were as high as Rupees 133-9-3 per Garce for Paddy of the 1st Sort and Rupees 1172-5-3 for the second Kind..

8. The other items of deduction from the actual cultivation, as second Crop not cultivated, parts of a field left uncultivated &ca are contingent on Season and do not call for particular notice - They are fully explained in Para 18 of the Report..

Para 9.

9. Among the additions to the Settlement is Rupees 1819-8-8 on account of Second Crops in Enam lands, both Service and private, raised with water provided at the expense of Government. The Collector questions the propriety of this tax, being of opinion that the division of the lands into one and two Crops was not correctly determined at the Survey, he therefore advocates the levy of a Tank Fee /Merah/ in lieu, to meet the charges incurred in the construction and repairs of works of irrigation - His recommendation, it is observed, is confined to Service Enams only - As the relaxation proposed is likely to interfere with the cultivation of second crops in lands bearing the full assessment /Ayen/, the Board are not prepared to support the proposed change..

10. Further explanation should be before the Board to shew why the quit rent Rupees 17-8-.. on certain Gardens in the Poonamalee &ca Cantonments has not hitherto been included in the Accounts. Extracts from these Proceedings will be furnished to the Register of Government Grants, and that Officer will be called upon to supply the necessary information with the dates on which the Grants were issued..

Para 10. Statt No. 6.

11. The increase in the wet Cultivation /Manawary/ dependant on the falling rains alone, and which receives no aid from artificial irrigation, is ascribed by the Collector to the efforts made in the early part of the season to cultivate these lands - The early rains were partial, but appear to have been sufficient, as is borne out by the Monthly reports of the season for the extension of this description of Cultivation..

An

Para 11

12. An Assessment founded on a Survey has been introduced in this year into 25 Villages which have reverted to Government at different periods. The permanent Increase in these Villages is Rupees 16,489 - the Settlement after deducting Rupees 5,122 — on account of failure of Crops amounts to Rupees 12,042 - 3 - 3. A portion of the remission, Viz. Rupees 2,731-7 — is exhibited as Palamishtum or remission for Crops partially destroyed. An indulgence which was found necessary as it was desirable that the Survey rates should be brought into operation. The Collector has no doubt that under ordinary circumstances these Villages will yield Rs. 20,000.

Paras 12 and 13. — 14 @ 16.

13. Of the 5 reverted Villages, 2 Viz Tencarney and Prayancoopum were rented to their respective Meerasidars, on Estimates of the actual produce, and the 2 Villages composing the Mootah of Muppadoo with Cottayoor were settled on a division of the Produce. The out turn was considerably below the permanent Jumma which is ascribed to the unfavorable character of the season, the low

low prices of Grain and the deteriorated state in which these Properties fell into the hands of Government. The results are.

	Settlement of 1259.	Permanent Beriz.
Muppadoo	2,510	3180.
Cottayoor	487	840
Tencarney	267	567
Prayancoopum	132	311.

14. The condition of these Villages calls for particular attention, and the Board request that they may be specially brought under notice in the report on the Settlement as already directed in regard to Mappadoo. In the last mentioned Mootah, it is observed the Collector expects that the Government will be fully compensated for the outlay they have incurred, the decreased Revenue of the year under report is entirely owing to adverse season and low prices.

Ext: Mems: Cons 13th & in Cons 19th Nov. 1849. Para 5.

Muppadoo:	Rs.
Ayacut	3,603
Permanent Jumma	3,180
Fusly 1258 (1848/49.)	3,709
" 1259 (1849/50)	2510

Para 17

15. The sum of Rupees 96. 15. 10 is levied by Government on a Garden in the Shrotriem Village of Meenjoor and Arinvoyel. The Collector proposes that

that the Shrotriem Beriz should be reduced and that the quit rent be incorporated with the Land Revenue Collections. The necessity for this adjustment is not apparent; by its adoption the full Shrotriem Beriz will be lost sight of in the accounts. the Board are not therefore prepared to sanction it.

Para 21. 16. In consequence of the failure of the usual rains, the Board permitted, as a special case, the cultivation of Dry Products on Wet lands. The want of moisture has been a bar to the operation of this indulgence to any great extent, and the assessment of the land thus cultivated was only Rupees 2518-8-5. of which Rupees 1595-11-11 were remitted / Teerwa Cummee /- the remainder or Rupees 922-12-6 was carried to account.

Para 25. 17. The Collector suggests that a fixed remuneration be given to the Curnums in the reverted Villages of Chengaudoo and Cundamungalum, as was done in the Cinchee and Madrantiem Mootahs. A special application should be made for the proposed allowance, with full explanation as to the income enjoyed

enjoyed by these parties when the Villages were under the management of the Mootahdars.

Para 26. 18. The Board concur with the Collector in opinion that the Survey rates of assessment should be applied to the immemorial Waste brought under cultivation in the 58 Villages settled by Mr. Hepburn in substitution of the practice of assessing such lands with reference to the rates borne by adjoining lands.

19. The full assessment of the lands held on Cowl was: ... Rs.

Land taken up before Fusly 1259 — 2450-6-3

Do. Do. in Fusly 1259 — 660-7-7

3110-13-10

The proportion of the assessment payable in the year under report in the first mentioned item was Rupees 1406-14- from which Rupees 617-6-4 being deducted on account of land not cultivated and lost in consequence of drought, the net amount carried to the credit of the Settlement was Rupees 789-7-8.

Statt. No. 9.

20. The extent of Cane cultivation is inconsiderable, scarcely exceeding

Cannies

Cawnies 1—19—7-12/16
2—17—6.

Cawnies 56. It is carried on chiefly in the Pedd[1]apolum and Conjeveram[2] Talooks.

21. The total number of Puttahs are distributed into.

	Number	assessment
Individual Puttahs	21,748	5,38,595
Joint — Do.	3,301	1,13,096
	25,049	6,51,691

the number falling below Rupees 20 was 13,675. with rents aggregating Rupees 98,903.— Statements 5 and 18 agree as the total number of Puttahs. Vizt. 25,049. but in the details they vary, there being a difference of 1992 which are exhibited in Statement 5 as individual Puttahs. and in Statement 18 as held in Partner=ship. The two Statements should cor=respond.

22. The particulars of the Set=tlement as noticed in the foregoing Paras are brought together in one view in the following Abstract Statement.

Fusly

Ariyoor.
Kuckalatoor.
Somaisamoodram
Tawzapoor.

I beg to forward an Extract from the Register of alienated Villages sent to the Board on the 13th. June 1815 showing the object for which the four Villages were granted and other particulars respecting them. The original Sunnuds for

for Arioor and Keekalatoor appear to have been sent to the Board with Mr. Stratton's letter of the 1st March 1803. and none seem to have been produced for Soma-soondrum. The Enamdar of Tawzapoor has now appeared before me and stated that he has the Summd for his Village and will produce it within ten days.— It shall be sent to the Board as soon as it is produced before me.—

3. These Villages being held for services, shares are not likely to lapse. In their case therefore the inconveniences of the present system are less than in the other sixteen Villages being confined to the labour of preparing the separate accounts every year.— I am not aware of any particular objection to the Villages being given up to the Enamdars to be held as Service Shrotriems, if that arrangement is thought preferable to that of money payments.—

From Bd. Octr. 18th 1838.
To Dr. Octr. 27th —
From Dr. Novr. 19th —

4. The correspondence noted in the margin refers to the Byraghy Mutt at Sholinghur. In accordance with the

the sentiments of the Board as expressed in the last letter the Mutt was put in charge of Tolasy Doss in July 1842; on his giving security to manage its affairs faithfully.— But in 1843 the Tahsildar reported that he had never duly administered the charity, and that he had at last absented himself from the Mutt and the Town, without making any provision for distributing the usual alms to Byraghies and that number of Byraghies were thereby much distressed.— Mr. Babington then placed the Mutt under the management of the Tahsildar and so it has remained to the present time.— It does not appear that Tolasy Doss ever gave any accounts of his expenditure on account of the Mutt in Fuslies 1243-1244 and 1245 as required by the Board, nor was the amount stated by Mr. Ogilvie to be in deposit on account of those Fuslies disbursed to him.—

October 27th 1838. Para 4.

In Cons. 28 Nov. 1850.

Read again letter dated 14th November 1850 from the Collector of North Arcot proposing to abolish the Dehat Enams in his District and to assign Yeomials instead also to fix a Jundeek for the Ryotwar Mutt at Sholinghur.

32-4.

Bd. No. 326.

Proceedings thereon.

Submitting letters from the Collector of North Arcot and recommending that sanction be granted for the resumption of the Dehat Enams in that District and money allowances given in lieu thereof.

Here enter No. 139.

Resolved that the letters above recorded be submitted for the information and orders of the Right Honorable the Governor in Council.

2. In reply to a call from Government for a report whether the sums payable in the North Arcot District from the proceeds of Dehat Enams are exhibited in the Accounts and brought under audit like other disbursements

From A. J. Coll. of S. Cons. 21st December 1848.

Proceedings to Govt. W. & Dis.

the Board submitted a letter from the Acting Collr. reporting that the proceeds were brought to account in full, and the sums due to the Enamdars paid out of the Treasury, the disbursements being thereby brought under audit.

From the Collector's letter

3. of

of the 14th November 1850 it would however seem that the charges are not brought under the usual course of audit as the revenue is called precisely as that of Government Villages but the payments are not made to the Enamdars until the charges are deducted and the Accounts closed for each Fusly. The Collector points out that the system involves much labor on his establishment as the Account of each Dehat Enam, shewing the gross receipts, charges and net revenue, must be framed, distinct from another, and the net revenue afterwards divided into shares among the Coproprietors in some instances part of the Enam has lapsed to Government and the rest remains among the Enamdars and he states that this method while productive of no useful result to Government, is absolutely injurious to the Enamdars, for the Accounts are not closed until 3 or 4 Months after the Fusly has expired, and until then no portion of the proceeds is paid. As a beneficial measure he therefore proposes to resume the Dehat Enams and to grant instead ready Money allowances

allowances, and encloses two lists one shewing those which are Free Hereditary, and Life grants (16) and the other those which are held (4) exhibiting in both the shares into which the proceeds are divided, and the number of shares which have lapsed, with the value of the Peishcush intended to be fixed in lieu of each share to be continued for a term of ten years.

(* Of these 12 are Hereditary and 4 Life Grants One Village (Codalum 000 pund) being divided into half Hereditary and 1/2 Life Grant to different parties.

* 1 Keelulatoor
2 Somasamoodram
3 Arrecajoor
4 Tuagapoor.

78th Novr 1850
17th Decr 1850.

4. In reply to a question from the Board, the Collector states that shares are not likely to lapse in the Four services Dehat Enams, and that, in reference to these, the present system is not so much inconvenience. He adds that the administration of the charities at the Pyraghee Mutt at Sholingur has been managed by the Jahsildar since 1843, as Solary Does the person who was previously entrusted with its management never duly undertook its affairs and had absconded.

Several of these Dehat Enams

5.

of the 14th November 1850 it would however seem that the charges are not brought under the usual course of audit as the revenue is called precisely as that of Government Villages but the payments are not made to the Enamdars until the charges are deducted and the Accounts closed for each Fusly. The Collector points out that the system involves much labor on his establishment as the Account of each Dehat Enam, shewing the gross receipts, charges and net Revenue, must be framed, distinct from another, and the net revenue afterwards divided into shares among the Co proprietors in some instances part of the Enam has lapsed to Government and the rest remains among the Enamdars and he states that this method while productive of no useful result to Government, is absolutely injurious to the Enamdars, for the Accounts are not closed until 3 or 4 Months after the Fusly has expired, and until there no portion of the proceeds is paid. As a beneficial measure he therefore proposes to resume the Dehat Enams and to grant instead ready Money allowances,

allowances, and encloses two lists one shewing those which are Free Hereditary, and Life grants (16) and the other those which are held (4) * exhibiting in both the shares into which the proceeds are divided, and the number of shares which have lapsed, with the value of the Mycomiah intended to be fixed in lieu of each share to be continued for term years.

§ Original Summd. in support of Jauzepoor enclosed in Collectors letter 7th February 1850.—

Enams are mentioned in the List which accompanied Mr. Stratton's letter of the 29th December 1801 and copies and translations of documents are forthcoming for them — a few are also mentioned in the List enclosed in that Officer's letter of the 28th February 1803 but with 3 exceptions and the Dehab Enams of Jauzepoor are documents, originals or copies are forthcoming in support of these or any of the remaining 12 Dehab Enams now held by their proprietors. From the letters of Mr. Stratton above quoted and the papers noted in the margin it is observed that all the Dehab Enams were sequestered in 1801, but, shortly after, were ordered to be released, until their titles should be investigated. Mr. Bourdillon in para

To Govt. 4th July 1803 paras 21 & 22.
From Do. 30 Decr. 15th & 18th Augt. 1803. para 11.—

para 2 of his letter states that the investigation never took place, but appears to the Board that the titles must have been investigated previous to the Enams being closed and registered by Mr. Graeme in 1815.—

An Extract from Mr. Graeme's Register No. 5 of Enams prepared in this Office in the order in which the Enams are entered in Mr. Bourdillons two Lists is submitted with these Proceedings and in the last column are noted in red Ink, those instances in which Originals or Copies of translates of documents are forthcoming, and these have, for easy reference, been put up as an enclosure to that Extract.—

It will be seen that the documents which are forthcoming bear out the titles given to the Dehab Enams in Mr. Graeme's Register and that the terms in that Register are precisely the same as those given in Mr. Bourdillons two Lists. In the absence of any documents on occasions of previous lapses of Dehab Enams in North Arcot, the terms given in Mr. Graeme's Register have never been questioned

Fort St. George 10th March 1851.

questioned and the Board do not doubt the validity of the titles specified in it in regard to the twelve Dehat Enams, for which no documents are forthcoming from their records after a careful search.—

7 Under the circumstances stated by the Collector the Board recommend the resumption of the thirteen Dehat Enams held on Hereditary tenure and the grant in commutation of the Annual sum of Rupees 7,203-8-0. They also recommend the resumption of the four Dehat Enams held on Muddundmash for maintenance. These are classed as life Grants and will be discontinued as usual on lapses occurring and the Grant in lieu thereof of the annual sum of Rupees 7,337-4-0 the money allowances in question in both instances to be distributed to the present incumbents named in Column 9 in the proportions specified in Column 13 of Mr. Bourdillon's List No. 1.

8 They further recommend the resumption of the Villages of Heskatulor and Sanzeporr, Dehat Enams held for Oaroos

Fort St. George 10th March 1851.

Oaroos and Sunar Sheruf and the grant in commutation of Rupees 394-0-0 for the former and Rupees 6-36-0-0 for the latter per Annum to be paid to the incumbents named in Column 6 of Mr. Bourdillon's List No. 2 except that in the case of Heskatatoor one only of the two should be registered. Under the provisions contained in para 4 of Extract Minutes of Consultation 11th July 1846, the Board consider both these allowances liable to resumption in the event of lapses occurring, in which the incumbent dying may leave no direct descendants.—

9 The Copies and translation of

of the Enquetnamahs for the coming in support of the two remaining Dehab Evans of Samasamoodrum and Arrayoor show that they are grants for service in Native religious Institutions - Each of these Villages should perhaps therefore be transferred to an individual chosen as representative of the present incumbents, among themselves, and the interference of the Sircar Servants in the management of the Mutt at Sholinger at once withdrawn.

10 10 Should there be any Sum in deposit on account of these two Villages the amount should at

at once be paid over to the party who may be selected in each case, to manage its affairs, and the Collector will state whether there is any sum in deposit on account of the other 18 Villages.

No. 145.

To

W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George

35.

B. of R. No. 3180
From the Collr. of North Arcot

Sir,

Para 1. The correspondence noted in the margin has reference to a subject originally brought to the notice of the Board of Revenue by Mr. Nisbet so long ago as 1827, viz. the expediency of allotting land Enams to the Monigars and Curnums of certain Villages, in lieu of their money allowances. In 1848 the subject seemed to be ready for submission to the Government of India, the detailed information called for the Madras Government in 1843 having been supplied; but it was delayed in consequence of my bringing to the Board's knowledge that there were a number of Villages not included in the former lists, which possessed no remuneration whatever of the Monigars or Curnums.

Forwards Statements of Enams proposed to be granted to the Monigars and Curnums of certain Villages with reference to the Board's Proceedings of the 7th Augt 1848 Omitting the Pennatoor Talook.

- To Board March 26th 1827. Paras 2. 24. and 28.

- From Do. February 19th 1838 Para 17
- To Do. Summalundy report Octr. 19th 1838 Para 28
- From Do. November 28th 1839
- To Do. April 15th 1840
- From Do. October 14th 1841.
- From Do. January 10th 1842.
- From Do. March 9th 1843
- To Do. March 18th 1843
- To Do. April 22nd 1843
- From Do. September 21st 1843
- To Do. March 30th 1844
- From Do. June 6th 1844
- To Do. March 15th 1848
- From Do. June 1st 1848.
- To Do. July 13th 1848
- From Do. August 7th 1848.

The Board were desirous that the whole wants of the District in this respect, should

should be brought at once under the view of Government and they directed me to forward a Statement of the Enams required in the Villages last referred to. I expected to be able to complete this return in a short time, but unexpected difficulties and causes of delay occurred in respect to the Villages of the Pennurry Talook. It is this circumstance that has caused my delay in replying to the Board's Proceedings of the 7th. August 1848, but now that the Board have in view a more general review of the Survey and Assessment of the Pennurry Talook, in which the allotment of Village Service Manieems will properly find a place, it seems to me no longer necessary or proper to defer submitting the accounts of the other Talooks, which have long been ready especially as from causes which I need not now stop to explain, the absence of these Enams in some Villages of Pennurry is not productive of practical inconvenience as it is elsewhere.

Letter from Board June 25th. 1850.

3- I now therefore beg to forward two Statements in the forms respectively of those before sent, for the Villages referred to in Para 6 of my letter of the 13th. July 1848, omitting those of Pennurry.

The number of Villages in the Statements is twenty Nine, in Nineteen Manieems are to be granted for the Manigars, and in Seventeen for the Curnums. I need not detail the rules that have been followed in

in determaining the value of the Manieems to be granted, as they have already been fully explained to the Board. The value of the Manieems proposed to be given is 338—11—0 Pag and of the Curnum Manieems 95-9-9, total 429-5-3. The land assigned to yield this Amount of income is in the form of the Turrum assessment of 75—10¼ Pag of Punjah of which 1—6½ is cultivated and 74—3¾ Pag waste, and 138—14¼ Pag of Poonjah of which 15½ is cultivated and 137—14¾ Pag waste. The Parties have all agreed in writing to be the lands thus proposed to be assigned to them.

4- I have found so much inconvenience from the absence of remuneration to Village Officers, that I am the more anxious that the measures so long in contemplation should now be carried into effect without further delay. I find the unpaid Officers generally inattentive, and especially so when there is any special duty to be done, several of them have lately resigned their Offices, and I have had difficulty in finding persons willing to undertake the duty. Perhaps I should not have succeeded at all, had it not been for the hope of the long expected Manieems being granted before long.

5- With reference to Para 7 of my letter of the 13th July 1848, I beg to add that in eight of the Villages of the Eddaragoontah Pollicm of the Saulghaur Talook the existing Manigars Manieems were found to exceed the value allowed in the scale fixed by Mr. Nisbet. The total excess amounted to 7 40-9-3 Pag annually, and land from those Enams to this amount has been permanently resumed and included in the Government lands, in accordance with the Orders passed by Government respecting the similar Enams in other Talooks. The total extent of land thus resumed is 139-2½ Pag being 128 Cawnies of Poonjah and 10-2½ Pag Punjah. I enclose a detailed Statement. The resumption was made without any opposition on the part of the Enamdars.

Oct. 30- 1849

Signed J. D. Bourdillon Collector

B. No. 569.

Proceedings Submitting a further correspondence with the Collr. of North Arcot on the subject of the Maniem lands to be granted to the Munigars and Curnums of certain Villages in lieu of Money payments to be received by them and recommending the Collrs proposal for the favorable consideration of Government.

From Pt. Collr. 26th. March inforg 5th. April 1849.

In Cons 27th April 1849.

Dr. Dr. Dr. Para 24.

9th. inforg 25th Sept. 1843.

In Cons 11th. April 1844.

In Cons 1st June 1848.

No. 133.

Thereon.- The Board under date 15th. June 1843 in submitting to Government their Proceedings on a letter from the Acting Principal Collector of North Arcot dated 22d. April of the same year, gave a brief sketch of prior proceedings with respect to the emoluments of the Village Functionaries of this District, and requested sanction for the Grant of lands in Enam, valued at Ps. 654-10-8, as commutation for the Money allowances of the Munigars and Curnums of certain Villages, in which it had been reported, neither Maniem and Merah or Merah only, had been set apart for the Fortress Officers, who consequently received the "former rates of payments"

The Government before obtaining the sanction of the Government of India for this Grant, desired further information on the Village Enams of the District generally, and to this call the Acting Collector replied so far as practicable, in his letter of the 30th. March 1844.

With the exception of an intermediate letter from the Acting Collector W. Lovell dated 15th. March 1848 recommending for

for stated reasons, a redistribution of the Amount of Enam proposed above based on the principle of allotting to one Officer two or more Villages the subject was not again referred to the Board before Collectors letter of the 13th July 1848.

In Cons 7th Augt 1848.

4- This Officer was opposed to the proposition of uniting Villages noticed above, and supported his opinion by arguments of which the Board acknowledged the validity. He moreover reported that there were still several Villages without Maniem and others without Maniems or Merah to the Monigars and Curnums, and in which they did not even receive a Money allowance, and on this account were not included in the reply to the requisition from the Board and Government 9th September 1843. These Villages were 121 in number, of which 170 were not included in Mr. Nisbets report, in consequence, it was supposed, of their being situated in 4 Pollums sequestered in 1804 and finally resumed in 1807; three Pollums being formed into the taloek of Pennuury, and the fourth being incorporated with the taloek of Satyhur, and had thus escaped notice in

Proceedings 7th Augt 1848.

In Cons 21st Septr 1848

26th March 1824.

From Coll. 13th July 1848 Para 5.

in the general revision of Village Enams by Mr. Nisbet in Fusly 1233. The remaining 15 Villages were scattered over the District.

One (Nagasamudrum) was added having been omitted in former lists.

5- We mentioned also that as in some Villages the remuneration was found to be inadequate, so in others it was proportionately too large, and it was proposed in the latter instances to reduce the emoluments to the standard adopted by Mr. Nisbet.

6- Upon this communication the Board reserved further reference to Government until they were in receipt of the Collectors proposals with regard to the 121 unremunerated Villages.

7- Such arrangement forms the subject of the letter recorded above.

8- The report had been delayed in consequence of certain occurrences in the Pennuury Taloek, which division the Collector had now determined to exclude from his proposition preferring rather to take up the subject of the Village Enams of this Taloek in connection with the more general review of its survey and assessment,

Para 27th June 1850.

a

Fort St. George 10th. March 1851.

a course which he observes will not be attended with present inconveniences.-

9- Exclusive of this Talook there remained 29 Villages, in 19 of which he proposes that Maniums shall be granted to the Munigars, and in 17 to the Curnums. The former Amount to 333-11-6 the latter to 95-9-9 together 429-5-3.

10- The extent of lands to be relinquished is 75-10 Kunjah and 138-14 Poonjah, and nearly the whole is at present waste. To these terms the parties interested had agreed.

11- We reports the resumption of the excess above the district scale of Enam, found in 8 Villages to the extent of 16-2½ Kunjah and 123 Cs. Poonjah assessed at 740-9-3.

12- The Board would now submit the proposal of the Collector for the favorable consideration of Government, and would solicit approval and sanction of the arrangement forwarded with their Proceedings 18th June 1840.

13- The two plans embrace the relinquishment of lands to the extent entered Marginally and if sanctioned would leave the Penmurry talook excepted, no Village services in this District unremunerated, and would thus be productive of their more efficient discharge.-

Bd No 13331

From the Collector of North Arcot.

37.

Sir,

Para 1. In their Proceedings of the 21st November the Board of Revenue pass orders in the case of concealed Cultivation discovered in Fusly 1259 in the villages of Colarlah and Vencatarpooram in the Penmerry Talook. The Board make some remarks on the accounts before them and finally remand the case for further investigation, on the ground that the azmaish was defective and not to be depended on. The further examination directed by the Board is impossible, because the lands have been since ploughed for the Current Cultivation; but I hope to be able to satisfy the Board, 1st that the objections stated by them to the azmaish and the accounts are for the most part not founded on fact; and 2d that even if they were, they would not invalidate the Conviction of the appellant parties.

2 The following are the Board's objections, which I will first state, and then reply to seriatim.

1 That the azmaish ought to have been made by comparing the fields with both the Tarum and Pymash chittahs; that this should have been done in presence of the Ryots, to whom all differences found should have been pointed out; and that in all these particulars the azmaish

in

Fort St. George 10th. March 1851.

a course which he observes will not be attended with present inconvenience.

9. Exclusive of this Talook there remained 29 Villages, in 19 of which he proposes that Maniums shall be granted to the Monigars, and in 17 to the Curnums. The former Amount to 333-11-6 the latter to 95-9-9. together 429-5-3.

10. The extent of lands to be relinquished is 75-10 Kunjah and 138-14 Poonjah, and nearly the whole is at present waste. To these terms the parties interested had agreed.

11. We reports the resumption of the excess above the district scale of Enam, found in 8 Villages to the extent of 16-2 Kunjah and 123 Ps. Poonjah assessed at 740-9-3.

12. The Board would now submit the proposal of the Collector for the favorable consideration of Government, and would solicit approval and sanction of the arrangement forwarded with their Proceedings 15th June 1848.

13. The two plans embrace the relinquishment of land to the extent entered Marginally and if sanctioned would leave the Pennurry talook excepted, no Village services in this District unremunerated, and would thus be productive of their more efficient discharge.

To,

W. H. Bayley Esqre
Secretary to the Board of Revenue,
Fort St. George.

Bd No 3331

From the Collector of North Arcot.

37.

Sir,

Para 1. In their Proceedings of the 21st November the Board of Revenue pass orders in the case of concealed Cultivation discovered in Fusly 1259 in the villages of Cotarlah and Vencatarpooram in the Penneery Talook. The Board make some remarks on the accounts before them and finally remand the case for further investigation, on the ground that the azmaish was defective and not to be depended on. The further examination directed by the Board is impossible, because the lands have been since ploughed for the Current Cultivation; but I hope to be able to satisfy the Board, 1st that the objections stated by them to the azmaish and the accounts are for the most part not founded on fact; and 2d that even if they were, they would not invalidate the conviction of the appellant parties.

2 The following are the Boards objections, which I will first state, and then reply to seriatim.

1 That the azmaish ought to have been made by comparing the fields with both the Tarum and Pymash chittahs; that this should have been done in presence of the Ryots, to whom all differences found should have been pointed out; and that in all these particulars the azmaish

in

in the present instance was defective.

Para 5 to 7. 2.d The Board point out certain variations between the Pymaish and Tarum Chittahs of Venca-
-taiporum to shew the necessity of such joint com-
-parison.

Para 8. 3.d That of sixteen Ponjah fields in Venca-
Nos 42, 45, 60, 61, 62, 63, 64, and 65 -taiporum, charged as concealed Cultivation, only eight were separately measured; and that the other eight were not measured separately, but two together.

Para 9. 4th That Certain other dry numbers in the
Nos 10, 11, 53, 55, 71, 105, 160, and 161 same village were not separately measured, and that differences appear between their entries in the Pymaish and Tarum Chittahs.

Para 10. 5th That in the wet lands also the land charged as concealed Cultivation was not separately measured, or the boundaries defined.

Para 11 & 17. 6th Some objections are taken to the entries as to Certain Mullums in Vencataiporum, and as to one in Colarlah.

Reply to objections. 3 I am not aware what led the Board to conclude that the Tarum Chittah only and not the Pymaish Chittah was used by the azmaishdar; but such was not the fact. Both the Pymaish Chittah and the Tarum Chittah were used; first the dimensions and boundaries of the land were determined by the Pymaish Chittah and then the extent was verified and the class ascertained, by a reference to the Tarum Chittah. This is proved by the

arzie

No 1 in the Record. arzie to me from the azmaishdar Chenchel Row, dated April 10; as well as by the Statements deposed before me both by him, and by the Curnums and Monigars associated with him as assessors in the inspection, on account of their intelli-
-gence and respectability; it also evidently appears from the references occurring throughout the azmaish Chittah, both to the Pymaish and Tarum Chittahs; and lastly it is decisively proved by the depositions given before me by the accused themselves, who actually make it their chief ground of objection to the azmaish, that it was conducted in comparison with the Pymaish Chittah, instead of with the Tarum Chittah, or with the actual cultivation.

The Record appears to have been little referred to by the Board; I beg to enclose for their perusal Enclosure 1. translated abstracts of such parts of the arzies and depositions as bear on this point.

4 How again as to the presence of the Ryots at the azmaish; it is undoubtedly very desirable that they should be present, but some latitude must be allowed, other-
-wise a necessary azmaish might be utterly prevented by a few Ryots. All that can fairly be required is that the azmaish should be fixed at

at a convenient time for the Ryots to attend, and that due notice should be given to them when it is to take place; but if they or any of them obstinately and contumaciously refuse to attend, it certainly is not required by Justice that the azmaish should be postponed or even abandoned. Now how was it in the present case?

1st. Due notice was certainly given to all the Ryots; it was published by beat of tomtom when the azmaishdar first went to the village, and every morning the Taliary and Tolis were sent with a Peon to call those whose lands were likely to be measured that day; not one therefore could have a pretence to say that he did not know that the azmaish was to be made or when. Again, a number of the Ryots were charged before the Head of Police, immediately the azmaish commenced, with forcibly preventing it, and were warned to abstain from such contumacy; these therefore certainly knew that the azmaish was in progress. Further, the Monigars were present throughout the azmaish, and it was their duty to cause the Ryots to attend daily, and there is no reason to doubt that they performed this duty though unwillingly. But

5. But, 2d. The Ryots were present during the azmaish. Congara Paupiem the chief Ryot (I might say the Ryot) of the village was present throughout. I enclose also a list* of all the Puttadars of the two villages showing their Puttah Beriz, and the amount of concealment proved against them. From this it will be seen that of the total number Viz: 63, concealment was proved against 52 to the aggregate amount of Rupees 822-4-6; and of these latter, 15 against whom the aggregate conviction is Rupees 332-2-9 are actually though incidentally referred to by name in the depositions as having been present, and it is highly probable that the whole of the Puttadars of the village were so. Besides this, the Ryots mentioned in the Margin not themselves Puttadars but the near relatives of Puttadars, are incidentally shown to have been present, by the deposition of Chenchel Row.

* Enclosure 2.

* Congara Paupiem is own brother to Congara Vencatasubbyadoo, joint Prop[rietor] of the lands in his own puttah.

1 Congara Paupiah.
2 Pedoo Naidoo.
3 Congara Naidoo
4 Tiky Palacoo Sareagadoo.

13 Thumdapaty Nallam Naidoo.

6. Thus it appears clear that almost all the Ryots were actually present at the azmaish; and it also appears quite clear from the examinations before me, that the objections made to the measurements by the village officers or the Ryots, were attended

Note. See on this point the abstracts of Depositions in Enclosure 1, or see the original record.

to

to and lands remeasured to satisfy objectors, whose over the first measurement was objected to. It is true the village officers refused to sign the accounts; but how can that invalidate them in the face of other proofs what consideration is likely to induce men under their circumstances to sign faithful accounts, when they know that they are thereby signing their own condemnation Pymaish accounts showing concealment are indeed often signed by the village officers; but in general this is either effected by a compromise or the parties are less intelligent and acquainted with affairs than Congara Paupiem the chief actor in the present instance and are persuaded to sign the accounts against themselves.

Sa enclosure 1.

Answer to objection 2d

7. In Paras 5 and 6 the Board point out some discrepances between the Pymaish and Tarum Chittahs in the dry lands of Vencatapoorum, as though these threw discredit on the Tarum chittah; and in Para 7. they observe that similar discrepances are found in the case of the Punjah lands. I have already explained that the Pymaish chittah was not set aside in the azmaish as the Board have assumed, but that on the contrary it was the

the primary standard of comparison; the present objections therefore, even if true, would have no force, but it is not true in fact, as I will now shew.

8. In the first place not one of the numbers in which a difference of measurement is here pointed out by the Board between the Pymaish and Tarum Chittahs in the Poonjah, or any one of those found on Comparison in my Cutcherry in the Punjah, is included in the Conviction of Concealment except the three Shillums shown in the Margin. But 2d I will explain how these discrepances occur. The Pymaishdar goes over the village, measures every field and every piece of land or water, and enters all in his Chittah, affixing a separate number to each. The Tarumdar follows, and for the most part adheres to the Pymaishdar's divisions, but for sufficient Cause he sometimes departs from it; he adds two fields together, or divides one field into two, where it may appear proper, or where for his purpose (that of classifying the land) it may be expedient; or perhaps he altogether leaves out a channel a road or

Fort St. George 10th March 1851

or a Rock, because his duties do not concern them and these omissions or additions of course make his numbers differ from those of the Pymaish-dar. But, in such cases of difference in number and extent, and this is the important point he gives in his Chittah, not only the new or number and extent assigned to a given piece of land by himself, but also the number extent as entered in the Pymaish chittah. Thus at once both prevents the possibility of mistakes, with ordinary care, either in identifying lands, or in ascertaining their extent or their assessment. I do not altogether approve of this practice, it might be better that the numbers and extent in the Tarum Chittah should exactly agree with those in the Pymaish Chittah; but it was a method very generally followed in the survey and assessment of this District, and it does not involve any practical inconvenience.-

9. I will not trouble the Board with a detailed reply to their remarks, on each Sthallum, because they come for the most part under the foregoing general explanation, and because as none of these Sthallums

Fort St. George 10th March 1851

Sthallums, as already said are included in the Conviction, except to the small extent of 1 3/4 annas of a Cawny, the justice of that would not be invalidated even if the discrepancies were of any real moment, which they are not. I will only observe that the figures in the total of Sa. 181 appear to have been altered at the time, and not subsequently inasmuch as all the figures are correctly entered in the Tarum Chittah without erasure.

Answer to Objection 3. 10.- In Para 8 the Board object that of sixteen whole dry fields charged as concealed cultivation, eight were not compared with the Pymaish and Tarum accounts and their boundaries are not specified; and the other eight were not measured separately, two having been measured together.- Respecting the former eight I can only say that it appears clear from the accounts and proceedings that they were compared with both the Pymaish and Tarum Chittahs. As respects the specification of boundaries, it has never been customary in this District either in adungal azmaish or in cultivation azmaish, to specify in the azmaish chittah the boundaries of each Sthallum on all the four sides. The course followed is to take all the

the measurement as given in the Pymaish Chittah and ascertain whether the boundaries agree with those there laid down; but the only boundary specified in the azmaish Chittah is the field which comes next in the order of numbers, which is stated with its bearing whether East, West &c. This was done in the present case; it appears to be all that is required, and I doubt whether this is not the practice in most districts.

11. Again respecting the other eight stullums, stated not to have been measured separately, the process was as follows – a certain piece of Cultivated land is pointed out to the azmaishdar as No 7; he measures this, and compares the dimensions and extent with those entered in the Pymaish and Tarum Chittahs, and finds that all the measurements are in excess, and that istead of 1-3 [c. a.] the land is 1-7 3/4 [c. a.] He then refers to the Pymaish Chittah to see what are the contiguous fields, or boundaries, and he finds that No 10 containing 3/16 [c.] which is entered in the Curnum's accounts as waste is wholly included in this Cultivation, and that the remaining 2 3/4

2 3/4 annas belongs to field No 11, which contains by the Pymaish Chittah 10 annas, and is which also is entered as waste by the Curnum. He therefore enters No 10 in the azmaish Chittah as wholly cultivated, and 2 3/4 annas as cultivated out of No 11. I have taken No 7 as an instance, because that is a field Para 8. specially instanced by the Board; but the process is the same in the case of all the other fields referred to by the Board. The Board observe that the azmaishdar ought to have had no difficulty in tracing the limits of No 7; he had no difficulty, and he did trace those limits and decided accordingly. The whole process of Examination and Correction both in this and in the other fields was carried on with special reference to the Pymaish Chittah as a guide; and it is difficult to see what other course than that adopted would have been proper.

12. In the same way Cultivated land stated by the Curnum to be No 54 was found on measurement to contain 4 Cawnies, instead of 1-5 [c. a.], the whole dimensions of No 54 according to the Pymaish Chittah.

The

Fort St. George 10th March 1851.

The azmaishdar then entered 1-5 c. a. as No 54 according to the Pymaish measurements and boundaries, and of the excess, entered 1 Cawny as belonging to No 55 (the whole area of which is 1-10½ c. a.) and 1-11 c. a. as belonging to No 53 (the whole extent of which is 2-½ c. a.) The whole of this process I expect was conducted with diligent attention to the Pymaish Chittah; indeed without that how could the azmaishdar determine with such nicety to what fields to assign the excess; and would he not, instead, have allotted it in the lump to some one of the adjoining fields!- In the same way Nos 69, 94 and 156 were found in excess; and the excess was entered as parts of Nos 7, 105, 160 and 161, all of which were entered as waste in the Cumums' accounts-

Answer to objections 4 & 5.

13. The same explanation as given above in reply to objection 3, is applicable to objections 4 & 5 also and I will not weary the Board by going over the details of each individual field quoted- The azmaishdar did not omit as erroneously stated in Para 10 to compare the boundaries of the actual cultivation

Fort St. George 10th March 1851.

Cultivation with those specified in the Survey accounts; on the contrary the Pymaish Chittah was his sole guide in his inspection, and it was only when excess appeared in comparison with that Record, that he brought it to account-

For proof of this latter statement, I beg to refer the Board to the fields noted in the Margin in which though excess was found it was not charged because it was within the boundaries given in the Pymaish Chittah-

Answer to objection 6. 14. The objections on Paras 11 & 12 do not refer

Fort St. George 10th March 1831

refer directly to the azmaishdars accounts, but, I will notice them- In Para 11 the Board express surprize that a field entered as Cultivated in the Curnums' accounts should be found waste by the azmaishdar and hence draw an inference unfavourable to the correctness of the latters' accounts. Why the Curnum should enter a waste field as Cultivated is not clear; it may have been oversight, or it may have been intentional from some motive not apparent. It is evident however that in their arrangements with the Ryots, the Village officers paid no attention to the survey or Tarum accounts but Collected the assessment by some other rule of their own; and a Ryot was not likely to discover whether a piece of land cultivated by him was No. 21 or some other number

Note- See the deposition of Chenchel Row in the Wuctampoorum Cases

15. Again in Para 12 the Board remark that Certain three numbers of wet land Containing each 4 3/4 annas of a Cawny were entered in the Jamabundy as wholly Cultivated which in the azmaish account 3/4 anna of each field is entered as waste. The Latter entry is Correct, the 3/4 anna was waste

Fort St. George 10th March 1831

waiste, but as it was to be brought to account (because less than 1/4 of the field) it appears not to have been deducted in the Village accounts-

16. In Para 14 to 17 the Board remark on some apparent errors in the Case of a single Punjah field in Colarlah- These remarks hardly at all effect the azmaish accounts, but I will nevertheless explain in a few words the discrepances noticed- Enclosure 3 is an exact translation of the entries regarding Punjah No. 13 and 14 of Colarlah in the Pymaish and Tarum Chittahs, and in the azmaishdar accounts; and to this I request the Board's attention for a few minutes- It will be seen that in the original Pymaish the total contents of No 13 are erroneously added up as 74 Coombs. as — 15, instead of 94 Coombs. as — 15, and this error was not detected by the Tarumdar. The azmaishdar himself did not detect the error at first and hence in his field memorandum or Teloogoo chittah the erroneous extent is entered; he afterwards detected

detected it; and entered the Correct extent in the fair Chittah- The reason of the two Nos. fields 13 and 14 being measured together appears to be that the moniagars showed the whole extent as No 13; he found on measuring it and Comparing it with the Pymaish Chittah, that No 14 was included in it too; but still there was an overplus and then perceiving the omission of 3 annas in the Pymaish and Tarum chittahs by an error of Calculation, he entered that as a new field- The Board objet that the subordinate measurements in the Pymash Chittah have been altered; they have been so, but there seems no reason whatever to think that this alteration has been made recently; the ink is evidently old, and no motive appears why any one should make this trifling alteration at the azmaish

17. I have thus answered all the objections raised by the Board to the azmaish accounts; and I will briefly recount the purport of the explanations-

The

Para 3 to 6. 1st. The informalities supposed in the mode of conducting the azmaish, had no existence; the azmaish having been in fact conducted in the very method laid down by the Board as Correct-

Para 7 to 9. 2d. The discrepances noticed by the Board between the Pymash and Tarum Chittahs are utterly immaterial as affecting the correctness of the latter; and if they were ever so fatal to it, the objections would be totally inapplicable here; because the Pymaish Chittah and not the Tarum Chittah was the standard of Comparison, and because none of the fields in which the discrepances exists are included in the conviction of concealed Cultivation except to an extremely minute extent-

Para 10 to 12 3d. The sixteen Ponjah fields referred to by the Board are shown to have been Correctly measured-

Para 13 4th 5th. The measurements of other fields noticed by the Board are explained and shown to have been made according to the

the mode prescribed by the
Board, and

Para 14. to 16. 6th. Some minor objections
not directly affecting the azymuth
are noticed and explained.

18. I much regret that this
letter has extended to such a length
but I thought it due, to myself, to
the Board and to the interests of the
Government, fully to answer the
Board's remarks; I will not now
detain them much longer. The
case is an important one, and
I trust I shall be permitted
to observe that it has not received
from the Board that degree of
attention which it might well
claim. Concealed Cultivation to
the outrageous amount of 822 Rupees
in

in a single year is detected in two small
villages, whose united Jamabundy
Beriz in that same year according
to the village accounts, was only
Rupees 1,144-10-1; and there is full
reason to believe that similar
frauds to a like extent have been
habitually practiced for many years.
The proof is full and direct; and
there seems no room whatever to
doubt the fact of the fraud.
I cannot believe that the evidence
being what it is the Board will
reverse the sentence on the ground
of some trifling supposed inaccura-
cies or informalities in the accounts;
which even if allowed to their full
extent, would affect but a very small
part of the amount of the conviction.

Such

Such a decision would not simply absolve parties guilty of one gross and aggravated fraud on the Government, but would give impunity to all their future frauds; for men will not again readily incur all that the aymaish dars in this case went through from the opposition of the Defendants, with the example before them of the ultimate triumph of the accused in this case. It would also greatly encourage the similar frauds so general in other parts of the Pennerry Taluk and frustrate my endeavours to prevent them.

19. I have the Honour to return herewith both the record of the case and also the Pymaish, Tarum, Malawary, aymaish and other accounts* which have already been before the Board. I also beg to forward the depositions† referred to above as taken by the Head of Polie on the complaint of the aymaish dar that the Ryots forcibly abstracted his proceedings.

DS. N1

No. 1.

Abstracts of the documents obtained during the enquiry in the Hoozor in the cases of concealment of lands in the Cotaurla &c. Villages

In the case of Cotaurla.

No. 14 Uzmaishdar Chonchulrow, Deposes that he examined the lands in Company with the Monegars &c. taking the Pymaish and Tarum Chittah for his guide.-

No. 18 Apejee Tondavaroy pillay Curnum of Chendraghirry Deposes that he and the rest called on the Monegars, the Curnum's Gomastah, and Congara Paupiah to point out the land according to the Pymaish, that they pointed out a Stullum as No. 1 but that when they proceeded to try that and the adjoining lands by the Pymaish accounts they found that the village officers had misinformed them, and that they then therefore found out the proper No. 1 by referring to the boundaries entered in the Pymaish; and that taking that No. as the first they measured, the whole, of the Cultivated and Bunjar lands excluding the ridges, pointed out their respective extents

extents to each ryot, and took an account of all; that C. Paupiah raised some objections at the time; and that the lands so objected to were again measured to satisfy him.-

No 19 Assessor Cooroosamiah, Comadevar states that all the lands were measured according to the Pymaish, that the Monegar, the Curnums and C. Paupiah were desired to put their signatures to the Statement of the said measurement, but that they refused to do so; because, the measurement was made with reference to the Pymash Chittah and not according to the turn Chittah. He states also that on C. Paupiah making some objections respecting some lands at the time of the measurement, those lands were remeasured for his satisfaction.

No 20 Deposition of Assessor Yerra Boyareddy Monigar of Tondavada.-

States that when they measured the lands according to the Pymash, C. Paupiah made some objections which were removed by the remeasurement of such lands.-

No 21 Deposition of Assessor Narrainsawmy, Curnum

Curnum of Gazoolamundiem

States that the whole of the lands were measured according to the Pymash, that the land pointed out by C. Paupiah as No 1, was found to be the wrong Stullum; and that the real No 1 was found out by referring to the Pymash Chittah.

In the Case of Vencatapoorum.-

No 63 Uzmaishdar Chenchulrow Deposes that all the lands were measured according to the Pymash.-

No 64 Monigar Congara Sarumppah.-

No 65 Congra Paupiah.-

No 66 Vencatakistnah Curnum's Gomastah.-

All these objects that the azmaish was not Correct, because the lands were measured according to the Pymaish Chittah instead of according to the Mamool Cultivation of the Ryots.-

No 67 Assessor Tondavarya Pillay Curnum of Chondraghiry.-

No 68 Assessor Togoroo Chungulroydoo Monigar of Agaralah.-

No 69 Assessor Yerra Boya Reddy Monigar of Tondavadah.-

No 70. Assessor Narrainsawmy Curnam of

of Gauzoolmundrgem.-

These Persons Depose that the whole of the lands were measured according to the Pymash; that Congara Ruppiah made various objections, and that such objections were removed by remeasuring the lands.-

Signed/ J. D. Bourdillon
Collector.

No. 1.

Translation of an Extract from an Urzee dated 10th April 1850 No. 1 addressed by the Tripulty Talook Goomastah Chenchel Row, in the Matter of the second Wymaish made in the Village of Vencatapooram, in the Pennury Talook.-

Para 3. Regarding the Statement of the complainant to the effect that the Number, containing about 1-6 of Nunjah land, to the west of the limits of Ramareddy pully; should be ascertained from the accounts; That the same land which is entered as Poymolly in the accounts, is actually in good order and is Cultivated, but that he (the Complainant) is unable to produce evidence to prove the same; I beg to state that

that guided by the Pymash and turn Chittahs, I took the measurement of every Ryats Nunjah land entered in the Jummabundy from No. 29 to No. 52 Canoomuddy, and found it all correct from the South of the Dusbundum land No. 28 to the Canoomuddy No. 52. The Pymash account clearly exhibits the existence of certain No. of land to the east, North, West as well as to the South, of the said Canoomuddy No. 52. The extent of this Canoomuddy field 2 Cr. — 11 annas/ Nunjah bearing an assessment of — 1 — 10 1/4 Rs. as. and although this land was Cultivated about the middle of the present Year, it was entered as Dittum turse in the Jummabundy. When required to point out the situation of this land (No. 52) the Villagers pointed out No. 53, which is on a rise towards the East, and when asked to point out No. 53, they stated that it had been washed into the river Soornamookey. To ascertain the truth or otherwise of this Statement, I took the measurement of the land pointed out as No. 52; and found that according to the Pymash and turn Chittahs, the Nunjah land so pointed out was No. 53 and not No. 52 because it is

Fort St. George 10th March 1851

is particularized in those documents that
No. 53 is situated after No. 52; that it (No 53)
is on the east and south sides of a Coor-
Poolahs land, and on the west side of the
Channel; that it had been waste two years
and was known by the name of Muddee-
-mauoo Stullum, and that it contained
1-9/4 with an assessment of 3 Pag 13/4. This
extent agrees with the present measurement
besides which the channel is on the
east side, and the stumps of a Muddee
-mauoo tree on the land. Hence it appears
from the accounts that the land pointed
out by the defendants was not the right
field, and that they have been in the
habit of entering No. 52 in the accounts
when No. 53 was Cultivated and to Conceal
the latter and to enter the Canoomuddy land
No. 52 - 1-11 situated in the middle of
the Punjah land as fallow when No.
53 remained uncultivated, and Conceal
the former. The Madiastalls have given a
Mahazurnamah (No. 1) to the effect that it
is clear agreeably to the representation of
the Complainant; that in the years when
No. 53, 1-9/4 was Cultivated, it was Concealed by
entering

Fort St. George 10th March 1851

entering it as Poimally pointing out as that No 53 land
not forming a part of the river bed and not included
at all in the Poymash or Tarum Chittahs

(True Extract and Translation)
(Signed) J. D. Bourdillon
Collector.

No. 1

Extract from a Telugoo Wrizer dated 20th April 1850
from Tirputty Talook Gomastah Chenchulrao to the
Collector of North Arcot.-

Para 5 There is certain Punjah land, to the South of
the Punjah land Cultivated with Car in the present
year, attached to the Salawy Calwah puttadah, in which
the Stumps of Cholum and Raggy appear to have been
gathered and burnt. The assessors inspected the land and
gave it as their opinion that it had been Cultivated
with Kar; but Congara Paupiah and Doddapanty Body
came up and not only threatened to Slipper those who
should say that the land had been Cultivated but
made use of other abusive language. Stook Mahazurna-
-mah to this immediately. I called on the Cultivating and neigh-
-bouring Ryots to state truly whether the land in question
had been Cultivated or not, but from fear of the
above said threats they would neither attend to
my repeated calls, nor state the truth, and it is
impossible to get out the fact from them, as they
appear to be acting with one Consent, and in Combina-
-tion with the said Paupiah and Monigar Vencatroyadoo.
The assessors wanted to go away because they were so
disgracefully treated for speaking the truth but
I persuaded them to stay.-

No 518

Proceedings thereon -

37-8.

The Board remanded the fore-going case for further investigation as it appeared to them" that the discrepancies between the Pymash and Taram Chittah had not been duly considered, and that the examination of the Cultivation /Azmaish/ had been made in a loose and irregular Manner. The explanation now afforded in a great degree removes the objections to the character of the Azmaish entertained by the Board; and though the Collector has observed in a previous Communication

In Con 27th June 1850

dated 10th June 1850 that the former Survey was "rude and untrusty" they concur with him in thinking that the recent examination has brought to light a large extent of concealed Cultivation. They resolve accordingly to confirm the sentences passed by the Collector under date 24th May 1850 and direct the following Endorsement on Petitions Nos. 2651, 2652 of 1850, and 219 of 1851.

"The Board have had under full consideration the Proceedings of the Collector in respect to the concealed Cultivation in Chittoor and Vencatapooram confirm the sentence passed by that Officer 24th May 1850."

Secretary to the
Board of Revenue
Fort St. George.

41.

Bd. No. 3057
From the Collr. of Salem
Settlement Report for Fasly 1259. A.D. 1849-50

Sir,

I have the honor to report } 1.
on the Summabundy Settlement of the Salem
District for Fasly 1259. A.D. 1849-50 and
to submit as required by your Board's
standing orders the 95 Statements enumerated
in the Appendix A.

Mode of Settlement

2. Previous to my entering on the duties of my Office of which I assumed charge on the 11th July last, the Settlement operations of the year had been brought to a close by Mr. J. N. Maltby late Sub Collector in charge, and Mr. J. W. Dykes, Assistant Collector.— The Settlement was conducted according to the mode usually observed in this District. The ryots were assembled at the Stations entered in the following table, which also shews by whom the Summabundy of the several Talooks respectively was conducted.—

Talooks.

Talooks.	Place of Settlement.	By what Officer conducted.
Vellore	Vellore	
Salem	Salem, Yuthapoor	
Darampoory	Darampoory	
Raizepoor	Raizepoor	
Womaloor	Womalore, Tharammungalum	
Denkincottah	Denkincottah	Mr. Maltby
Ossoor	Ossoor	
Paramuttey	Vellore, Trichingode	
Namkul	Namkul Thathimungarpettah	
Trichingode	Trichingode Mc. Donald's Choultry	
Sinkerrydroog	Comarapollium	
Kistnagherry	Kistnagherry, Valumpuntty	Mr. Dykes
Tripatoor	Tripatoor	
Mullapaddy	Kistnagherry	
Jengaracottah	Cummanellore.	

Mootahs. 3. There is no variation in the aggregate number of Mootahs that have not undergone division since the period of the permanent Settlement, their number being in the present, as in the past Fasly 29. In the total of those which since then have been subdivided,

subdivided, Viz.th 84 there is an increase of one caused by the separation of the Calimgary estate into those of Calimgary and Cawdaboy, under your Board's sanction.—

8th Jan.y 1849.

Villages. 4 As shewn in the subjoined Statement, there is an increase of one in the total of the Government Amany Villages. The Village newly incorporated with the Amany is that of Calumtharay, and Enamaty Village attached to Moolah Unboorpettah, to reverted to the state on the death of the Enamdar, a provision of 10 Acres of land having been assigned,

12th Dec.r 1848. to his widow, as sanctioned by Government. There is a decrease in the number of Enamaty Villages owing to the transfer of Naikenoor, a Sill Village of that class, to the head of "Jodigy" consequent on the sanction of Government which fixed a Jodigy of 100 Rupees on it when it passed from the late Enamdar to his heirs.—

Population, Houses and Cattle.

5. The following statistical Abstract exhibits in comparison with the aggregates of the preceding Fasly the number of Houses the Population and the quantity of Cattle which appear to be in the District in the present year. The decrease of 101 in the total of Houses is attributed to the circumstance of their former occupants not being in a position to repair and restore them. For the reported increase of 1562 in the Male and the decrease of 1646 in that of the Female population no satisfactory cause can be assigned. A scarcity of pasturage and water, the consequence of deficient rain and the prevalence

The total number of Wells newly sunk is 93, of which 29, consisting of those excavated at the outlay not exceeding 20 Rupees and some which had been constructed without intimation, or permission previously obtained, or in the close vicinity of Canal sources of irrigation, have been assessed with the usual additional revenue. The remaining 64 which were constructed after communication with the revenue authorities, have been exempted from any extra demand. The details of the remission made in this respect are shown in Statement No 19. It is also to be stated that 21 Wells which under want repair have been transferred from the head "In want of repair". to that of "In good order."

Season 8 In regard of the season which appears to have been very unfavorable though its commencement was good, the following particulars may be gathered from the remarks contained in the Demand, Collection and

Fort St. George 10th March 1851.

and Balance Statements of the year.

In the months of April and May there was a supply of rain generally in all the Talooks, a ample enough to enable the ryots to bring their Poonjah lands under the plough and sow Oil, Bajaras and other early crops seed; but except in spots irrigated by River Channels and Wells, the Nunjah cultivation was not commenced. In June, July, August, and September, there was a scanty and partial fall, owing to which the dry land crops suffered greatly from want of moisture. In Talooks favored with occasional showers they came to maturity and were reaped, but the yield was meagre in quantity and bad in quality, besides having been affected by blight. Neither did the cultivation under wells and river chan= nels thrive well. There was a very insufficient fall of rain in all the Talooks in October, estimated to have ranged from a 1/4 to a full "padavoo", by which the Tanks in Talooks Tri= chengode, Trichatore, and Namcul received

Fort St. George 10th March 1851.

received a one or two months supply of water, the Nunjah lands under them being thus brought into cultivation. The quantity which reached the other Talooks was not enough to recover the crops already injured by drought. In November, December and January the periodical rains still held off, and thus the crops on the ground very generally perished. In February some rain from a 1/4 to 2 "padavoo", fell in the Kistnagherry and other Talooks above the Ghaut, which proved of use to the cultivation undertaken for the ensuing July. There was no rain in March. The first crop Nunjah under River Channels and Wells was brought to the sickle; the second crop in certain localities was also reaped, but the produce realized was very scanty. The wet cultivation under Tanks was partial and insufficient, many fields being left waste, whilst others were sown with dry land crops.

9. The relinquishment of a large quantity of Nunjah and Poonjah lands

Fort St. George 10th. March 1851.

lands was thus occasioned, and either entire or partial failures of produce on lands actually brought under the plough was very generally created; those irrigated by the Cauvery River channels and Wells being exceptions. The extent of loss sustained in Poonjah cultivation has not been ascertained; but it may be assumed that generally in the eight Talooks below the Ghauts, the Poonjah and Nunjah lands yielded not more than half produce. From this assumption must be excepted the Nunjah under River Channels on which a moderately good harvest was reaped; in the 4 Talooks of the Baramahl it is considered that they yielded 3/4 produce; and that in the two Talooks of the Balaghat the Poonjah 3/4ths and the Nunjah 2/3ds produce. The average of the rates for the whole District gives for the Poonjah a 1/2 and for the Nunjah a 3/5ths crop.

Cultivation. 10. The subjoined Statement exhibits in a Talookwar from the extent of lands cultivated in the current as compared with the preceding year, from which is apparent a great falling off in both Poonjah and Nunjah attributable to the causes above mentioned.

Comparison

11. In the Marginal Abstract Statement is shown the aggregate extent of the cultivation of the present year under its different heads from which will be observed a net decrease of demands amounting to Rupees 85,747-8-7 in comparison with that of the previous fusly.

12. In Poonjah there is a gross decrease of the Summa Beriz amounting to Rupees 99,060-2-2, occasioned mainly by the voluntary relinquishment of land cultivated in the last fusly, by the exclusion from the Settlement of lands agreed for but not brought under the plough by deceased emigrated and indigent Ryots, for remissions for grounds occupied by houses and other buildings and by roads; for land rendered useless or deteriorated by torrents and inundation, by the transfer of cultivation and by the arrival of others held under Cowle at their full rates of Assessment

Statt 7 8

13. The gross increase under the above head of cultivation was Rupees 57,230-3-8 the result of the newly breaking up of Poodvogal lands and the occupation by other parties

Ayem Poodvogal 38,247-7-7

11. In the Marginal Abstract Statement is shown the aggregate extent of the cultivation of the present year under its different heads from which will be observed a net decrease of demands Amounting to Rupees 85,747-8-7 in comparison with that of the previous fusly.

12. In Poonjah there is a gross decrease of the Summa Beriz amounting to Rupees 99,060-2-2, occasioned mainly by the voluntary relinquishment of land cultivated in the last fusly, by the exclusion from the Settlement of lands agreed for but not brought under the plough by deceased emigrated and indigent Ryots for remissions for grounds occupied by houses and other buildings and by roads; for land rendered useless or deteriorated by torrents and inundation, by the transfer of cultivation and by the annual of others held under Cowle at their full rates of Assessment

Statt 7 & 8

13. The gross increase under the above head of cultivation was Rupees 67,236-3-8 the result of Ayen Poodogal 38,247-7-7 newly breaking Jody Razeena maks lands } 9,618-11-11 up of Poodogal lands and the occupation by other parties

parties of land for which Jody Rageonaiahs had been received, also by the return of fields temporarily cultivated with higher sorts to their original class, and the imposition of full rates on Cowle lands the Net decrease under these circumstances is Rupees 418-3-14-6-

14. The gross decrease in Poonjah Bagayet is Rupees 6,245-11-10 against a gross increase of Rupees 6,111-11-6 arising from the causes above enumerated:-

15. In Nunjah Cultivation there is a gross decrease of Rupees 60249-2-2, created by the surrender of lands under Razeenamahs by deficiency of rain and remissions for lands left waste owing to failure of water in Tanks, by their falling back to their original state of lands converted from Poonjah and Poonjah Bagayet to Nunjah, and inundation of crops. Against the above there is a gross increase of Rupees 16,142-4-4, mainly occasioned by the cultivation of Ayen Poodoogul and relinquished lands, as well as by Cowle lands becoming liable to full Assessment The result is a net decrease of Rupees 44,107-1-10.

16. In Nunjah Bagayet is a gross increase of Rupees 409-7-9 occasioned by Cocoanut and Arecanut trees having begun to bear, on which accounts they were assessed with

with double teerwa of the highest Nunjah teerwa under the respective tanks. Deducting from the above amount a gross decrease of Rupees 92-10-8, occasioned by the relinquishment of deteriorated cocoanut trees and the conversion of Nunjah Bagayet lands into Nunjah, owing to the falling of removal of trees standing on them, there is yielded a net increase of Rupees 316-13-1

Prices of Grain.

17. The results of the season may, to a considerable extent, have been expected to create an enhancement in the price of produce, and that such was the case, will be observed from the under written Table of the prices of Grain, in the Average of all of which there will be observed a rise excepting in that of Cheena and Salts, the former of these having, it is understood, been imported into the District in large quantities from the Mysore territories, and the latter from the Districts of Shingleput, Cuddalore and Madura.

Fort St. George 10th March 1851.

19. The decrease in the first item of the foregoing Statement is produced by a gross increase of Rupees 79899-7-3 against a gross decrease of Rupees 1,65,646-15-10, the particulars of which are shewn below-

	Gross Decrease	
By lands relinquished Jody Ryzeeana &c		92337-8-6
Remissions granted on lands left waste by deceased, deserted and indigent Ryots to		8,90385
Cowle lands becoming liable to full Assessment		8,1785 10
Transfer of lands from one description of Cultivation to another		9006 9 8
Remeasurement of lands		14 5 6
Detection and reduction of Over Assessment	21 12 11	
	1,65,646 15 10	
By waste lands brought under Cultivation	Gross Increase	4,7545 7-3
By the reversion to Government of the Community Villages of Calumpatta		7034
By relinquished lands brought under Cultivation	132453-6	
		60360-4-1
Original Teerwa of Cowle lands raised to full Assessment		6178-5-10
Additional Teerwa on 3/4 Cowle lands raised to full Assessment		1580-8
Do Do on 1/4 1/2 Do		242-5-8
Full Teerwa on Cowle lands transferred to other than the original holders		90 10-5
Progressive Cowle		3773-5-1
Full Teerwa on Monsoon Cowle lands owing to the death of a Sharer		4-14-4
		6914-2
Teerwa Jastee on Poonjah lands converted into Poonjah Totaub Kunjah Varu		7948-11-5
Excess found in the remeasurement of lands		31-6-10
Excess by detection of diminished Assessment		75-4-8
Lands irrigated last by running streams		106-4-3
Teeyary dus allowed when Cultivated by Soodras		4-4-11
		79899-7-3
Net Decrease		86747-8-7

The

Fort St. George 10th March 1851.

20. The following are the particulars of the decrease under the head of "Tax on Trees"

	Gross Decrease	
By entire relinquishment of deteriorated trees and Orchards and diminished Offers for the rent of others		3661-7-9
Remission of tax on trees the lands on which they stand being Newly Cultivated		26-12-4
Do on decayed trees		225-12-7
Do on fallen trees		13-5-1
		3927-5-9
	Gross Increase	
By trees newly bearing fruit and the renting of others on waste lands		1584-4
By increased competetion for the rent of certain gardens		1580-5-11
By restoration to Pymash rated of under Assessed trees		194-9-9
		3309-4
Net Decrease		618-5-9

21. The increase under the head of "Grazing Tax" is as shown below.

	Gross Increase	
For the or additional head of Cattle grazed on pasture lands		412-12-11
From the lower offers for the Ryot a pilvary in Talook Salem	Gross decrease	11-4
Do in Talook Dennekottah		80-4
From Decrease of Cattle paying Grazing Tax		300-11-4
		391-11-4
Net Increase		21-1-11

The

22. The different items composing the net increase under the head of "Enam Jody" are shown hereunder.

	Gross Decrease	
From voluntary relinquishment of Enam Jody Poonjah Acres 27-9-9 teerwa Rupees 18-16-4 belonging to one Venkatara-=-manien of Thaipranoor in the Tengreecottah Talook		3 8 11
Do. of Nunjah Acres 12-16-3 teerwa Rs. 88-13-6 belonging to Thristnien Do. of Thimmapooram in the Kistna-=-gherry Talook		14-11-3
From resumption of Davadayem Enam Jodigy Poonjah Acres 9-26-15, teerwa Rs. 11-11-8, the holders Moothoocumara Goundem of Semmipolium having emigrated and failed to pay the Jodigy for several years		2 8 "
Do. of Nundanianum Enam Jodigy Poonjah Acres 14-4-14. Teerwa Rs. 14-6-10 abandoned by Rungiem of Coundesasumpolliem		2 8 "

Paramulty Talook.

Paramulty Talook.

From resumption of Davadayem on Enam Jodigy Poonjah Acres 15-7-4, teerwa Rupees 38-6-10, held by Moothoo Ummail of Nadanthai		2-8-4 " "
Remission of a portion of Jodigy due on Vadavirity, Enam Poonjah in Trichengode in the Trichengode Talook, a part thereof having been included in the road from Senkerrydroog to Paramulty		1-2-3.
	Gross Increase.	26-14-9
From the assessment of Jodigy on the Enam lands granted to Narsimma Chetty for the choultry erected by him near Magoodum Chavady in Talook Raizepoor, under the sanction of Government dated 1st August 1846.		4 5 8
Do. on Enam lands granted to the Toty of the Enamaty Village Calunthara which lapsed to Government under order dated 4th February 1850.		" 13 "
		5-2 8
	Net Decrease	21-12-1

23. Under the head of "Teerwa Jasthee on Enams" there is a net decrease of Rupees 127-7-10 as follows.—

Teerwa Jasthee on Poonjah Enams converted into Nunjah by use of Circar water		15 " 11 Gross Increase
Remission of Do. on Poonjah Enams not irrigated by Government water this year.		142 8 9 Gross Decrease
		127-7-10 Net Decrease

24. "Neircooly" or the demand created on for water received by neighbouring Villages

or Mootahs, is the next item in the foregoing Statement; it shows a net increase of Rupees 45-13-11, by deducting a gross decrease of Rupees 4-1-2 from a gross increase of Rupees 49-15-1-

Hill Revenue. 25

The total demand of the Hill Revenue in the present year is Rupees 29550-1-3, being Rupees 614-7-10 below the settlement of the past one. A detailed Statement is subjoined for your Boards information.-

* The Jodiyy of 100 Rs. imposed on the Enamaty Village of Adike- = noor is included in this increase.

27. The total demand on the Land for the present Fusly including the Hill Revenue is thus shown to be Rupees 1330.907-4-9, from which the following reductions have been made.-

	Gross Increase
The increase in remission, No. 2, is attributable to the large extent of Kunjah Cowle lands left waste from want of water in tanks.	333 3 11

Gross Increase.

Remission No. 6 was granted on account of Nunjah Sayr under sanction from the Board dated 17th. January 1850, the particulars of which are shown in Statement No. 23. — 80Rs. 6.

The remission No. 7 was granted to Villagetties in the Denkencottah Talook on their Nunjah maniems which though waste from absence of means of irrigation were included in the Summahbundy accounts of that Talook. — 148. 6. 8.

The increase in the Shamilat Dasabundum remission, No. 11 has arisen from the large extent of Dasabundum lands brought under cultivation. — 21. 11. 5.

8919. 11. 6

Gross Decrease

The decrease in No. 3 is attributable to the smaller extent of Tenzgary lands under the plough. — 33 6. 9

No cases of inundation having occurred in the present fusly, there appears no remission under that head. — 60. 11. 1.

The Village Sibbendy being a percentage on the collections shows a decrease. — 39 11 10

The decrease in the Aggraharum Shares is also attributable to the smaller amount of collections — 784 12. 2

Do. the decrease of 1/3. collection of Aggrah Villages granted to Aggraharumdars — 151 12 11

1962. 4 9

Net Increase — 3977 6 9

28. The remaining four items of revenue in Statement A viz "Sodigy in Villages," "Peishcush from Poligars" "Quit rent on Service Jaghires," and the "Permanent Bariz of Saury Mootahs," remain the same as in the preceding year.—

Cowle Lands. 29. The following Tabular Statement shows in a convenient form, the extent of Cowle lands under cultivation in comparison with those of the preceding fusly. The decrease under the head of Progressive Cowle is owing to certain holdings having become liable to the demand of full teerwa, and to a smaller quantity of waste having this year been taken upon Cowle, whilst that in Mr. Cockburn's Moonasib Cowle lands has been partly occasioned by some of them having been assessed with full teerwa on their passing from the occupancy of the original Cowledars, and partly by some being left waste consequent on the demise, desertion, and poverty of the Ryots.—

Particulars.—

3815 Fort St. George 10th March 1858.

3816 Fort St. George 10th March 1858.

Ryots Puttahs & Ploughs. 30 The Nett decrease of 6,337 in the aggregate number of Ryots holding Puttahs which appears in the Margin is the result of a gross decrease of 17,802 set off against a gross increase of 11,465. The former of these results appears to have been occasioned by Puttahdars having thrown up their respective holdings, by deaths, emigration, and by the non inclusion in the Summahbundy accounts of others whose want of means had caused them to leave their lands entirely waste.—The latter result arises from ryots having occupied lands in their own names; from the subdivision of holdings hitherto under joint occupancy, and the assessment of parts of a joint holdings to the heirs of deceased ryots.

	Gross Decrease	Gross Increase
Ploughs	2,442	1,515
Puttahs	14,289	8,284

The decrease in ploughs and puttahs is shown marginally.—

Rent Roll of the District Statt. No. 21. 31. From the undermentioned Abstract of the Rent Roll of the District it will be observed that a large proportion of the Puttahs distributed are for sums which do not exceed 10 Rupees Number

32. The extent of land left uncultivated, but for the demand on which the parties holding it have been declared liable this year, is shown in the subjoined Statement; on comparison with that of the preceding fusly it exhibits a net decrease of Rs. 1,645-12-5, attributable to a large extent of land left waste as having been remitted on consideration of the very unfavorable nature of the season. On examining this Statement and a similar one entered in the preceding year's report, it will be observed that in the latter the sums placed opposite to entries 2 and 3 have been by oversight transferred.-

Demand Collection and Balance

36. The Statement entered in the Margin exhibits comparatively the Demand Collection and Balance of the Current and = past Fusles. - The = balance in the Demand of the present year which was outstanding at its close amounted to = Rupees 4,2256-4-3 against Jaury Mootahs, and = Rupees 82,381-2-2 = against the Government Villages. - of the former amount Rupees 16,721-4-3 were realized by the = close of September and of the remaining ba. = lance Rupees 18,299-2-10 were paid by the Mootah = dar on the 1st October, the day appointed for the sale of their Estates

The

The arrear still outstanding amounts to Rupees 7235-13-2, of which the particulars are below stated:-

Against Mootah Anandoor in Talook Tengreeottah	730-9-1	
Do Mootah Cuddathoor in Do	2188-11-0	
		2919-4-1
Against Mootah Samoodrum in Talook Shenkerry droog	2133-8-4	
Do Mootah Hanumanthapooram in Talook Deramposory	2182-15-11	
		7235-13-2

37 The Shares of the Anandoor and Cuddathoor Mootahs which belong to the Widow of the late Mootahdar Venkatachella Chetty having been placed under the control and Management of the Guardian appointed on her behalf by the Civil Court stringent measures cannot now be adopted for the realization of the unimportant arrear due on those Estates. No Guardian having as yet been selected by the Judicial authorities for the widow and sons of Gopaul Chetty the late Joint Proprietor of the Samoodrum Mootah, it still remains under Management by the Officers of Government, and as it is understood that it is not a profitable estate, there appears no fair prospect of the arrears standing against it being at present liquidated. The balance against

Mootah Hanumanthapooram which is still under attachment by virtue of a precept from the Court will be recovered from the Ryots by whom it is due.-

Balance at the close of the Fasly		32,381-2-2
Collections up to the remittance of September	48122-0-8	
		34,269-1-6
Collected between despatch of remittance and close of Septr	1863-3-6	
		32,398-14-4

38- From the aggregate amount Rs 32,395-14- which appeared as a balance against these Amany Villages at the close of September, the sum of Rupees 19,091-15- may be deemed available for eventual realization- of the difference Rupees 13,303-15- a sum amounting to Rupees 2,699-5-3 has not been realized in consequence of instructions from the Sub Collector late in charge of the District, to suspend its from Collection. This amount is the total of the Kist for June due for Punjah cultivation in the Kistnagherry Talook, less certain small sums which in some instances had been collected prior to the receipt in the Talook of the instructions in question- Those instructions appear to have been most urgently required owing to the extreme difficulty experienced in making the Settlement of the Talook consequent on the very extensive injury sustained by the dry crops, which originally bad in quality and deficient in quantity had been further damaged by the excessive drought of the season- In the absence of the abovementioned concession it seem-

* at 5 per cent

to

to have been satisfactorily shewn that the Jammabandy operations of the Talooks would have been most materially impeded if not rendered altogether impracticable.-

Ossoor	94-5-7
Tripatoor	22-12-3
Darampoory	42-2-8
Raizepoor	351-9-1
Salem	329-14-1
Womalcoor	573-11-3
Senkerry droog	376-0-5
Trechengode	369-6-7
	5550-14-2

39. Another sum of Rs 5550-14-2 also appears in the balance sheet against the Ossoor and other Talooks of the Principal and the Trichengode and Shevakerry droog Talooks of the Subdivision being a portion of the Teerwah leviable on certain Nanjah lands. On some of these a single crop only was raised, whilst on others a Poonjah crop was cultivated. In either instance loss was sustained from failure of water. In consequence of the urgent representations of the Ryots concerned, special enquiry was instituted, from which no doubt remained of the plea for unusual indulgence which had been pressed on the Sub Collectors attention. It was in consequence considered expedient to levy only a Poonjah Mistal Teerwa in the latter and a Peasnaseek in the former instance,

instance, the amount of which varied according to the quantity of the yield and the circumstances of each ryot affected.- The difference between these and the fixed Nanjah Teerwa of the lands, amounting to Rs 14,14-7-2 in the Collectors division and to Rs 4,136-7-6 in the Sub division, was ordered to stand over as a Towakoof balance. The remaining balance of Rupees 5053-11-7 is reported to be due by cultivators who have deserted, absconded, or whose impoverished circumstances forbid the expectation of its being brought to account. The precise extent of the portion believed to be irrecoverable will form a subject for investigation at the ensuing Jummabandy, and will ultimately be recommended for remission.

Old Balances 40- The old Balances remaining unpaid from Fasly 1253 to 1258 are shewn in the subjoined Statement.-

Items

to have been satisfactorily shewn that the Summabandy operations of the Talook would have been most materially impeded if not rendered altogether impracticable.-

Ossoor	94-5-7
Tripatoor	22-12-3
Daramporey	42-2-8

Salem	329-14-1
Womalore	573-11-3
Senkerry droog	376-0-5
Trichengode	369-6-7
	5550-14-2

39. Another sum of Rs 5550-14-2 also appears in the balance sheet against the Ossoor and other Talooks of the Principal and the Trichengode and Shevaroy Talooks of the Subdivision being a portion of the Jeerwah leviable in certain Nanjah lands. On some of these a single crop only was raised, whilst on others a Poonjah crop was cultivated. In either instance loss was sustained from failure of waters. In consequence of the urgent representations of the Ryots concerned, special enquiry was instituted, from which no doubt remained of the plea for unusual indulgence which had been pressed on the Sub Collectors attention. It was in consequence considered expedient to levy only a Poonjah assessment in the latter and a Nanjah assessment in the former

instance, the amount of which varied according to the quantity of the yield and the circumstances of each year affected. The difference between these and the fixed Nanjah Jeerwah of the lands, amounting to Rs 11,14-7-2 in the Collectorate division and to Rs 4,136-7-6 in the Sub division, was ordered to stand over as a Towakhoof balance. The remaining amount. Rupees 5,053-11-7 is reported to be due by cultivators who have deserted, absconded, or whose impoverished circumstances forbid the expectation of its being brought to account. The precise extent of the portion believed to be irrecoverable will form a subject for investigation at the ensuing Summabandy, and will ultimately be recommended for remission.

The old Balances remaining unpaid from Fasly 1253 to 1258 are shewn in the subjoined Statement

Old Balances 40-

J. Stend

Fort St George 10th March 1851

41- The aggregate amount of the arrears due for fasly 1257 and preceding years which stood against Sacary Mootahs at the close of fasly 1259 is thus shown to be Rs 4,425-5-9. Reducing this sum by the amount of Collections made within September Viz:t, Rupees 2-13-5, the Balance is Rs 4,422-8-4 of which the following are the particulars.-

For fasly 1253 against Mootah Arandoor	2,113-9-3
&c of fasles 1256 and 1257 against Mootah Samoodrum	295-15-1
	4,422-8-4

which sum, as before stated, there is no immediate prospect of realizing owing to the peculiar circumstances of the Estates.

42 The arrears against fasly 1258 at the close of the present year stood at Rs 1,628-2-4 but bringing to account the Collections of September a balance of Rs 1,483-10-7 is yielded, which stands against the Minor Mootahs of Samoodrum.-

Rs 144-7-9-

43- The particulars of the old Balances due in many Villages are hereunder shown.-

The arrears up to fasly 1259 outstanding at the close of fasly 1259	20,492-9-10
Collections within September	4-3-3
Remissions to be granted under the sanction of Government dated 4th June 1850	19,633-7-6
	19,637-10-9

Remaining of fasly 1255-

1255 - 14-14-6	of fasly 1255 -	14-14-6
1256 - 30-1-4	1256 -	30-1-4
1257 - 809-15-3	1257 -	198-6-10
854-15-1		243-6-8

Of that amount Rs 243-6-8 are considered recoverable, but the remaining sum Rs 611-8-5 is not thought possible of realization. See the total sum entered in the Margin as due by indigent cultivators

Due by deceased Sacary Rs 2-4-3
Do by the Natives Rs 609-4-2

cultivators is an item of Rs 551-7-11 payable by the ryots of Tevremalanes amo-dram in Salem Paramatty which under the circumstances represented in Paragraph 8 of the Summabundy report made by the late Sub Collr Mr Maltby for fasly 1258 I have deemed it advisable to include in the aggregate amount for which remission is now solicited.-

46 Of the atmeny arrears of Fasly 1258 amounting at its close to Rs 46,262-3-3 a sum of Rs 37,811-7-9 having been collected in fasly 1259, the Balance remaining unpaid at the end of that year is 6,450-11-6

Collections within September 58-6-

Balance 6,392-5-6

* Rs a p
By deceased. 78-6-5
Do absconded. 197-8-2
Do Nadavu 551-0-0
5826-14-7

The recoverable portion of the balance is estimated at Rupees 568-6-14 the irrecoverable at Rs 5,826-14-7 of the latter amount the amount entered against indigent Ryots is composed of an item of Rs 142-9-1 which forms the usual remission to the Ryots of the Village Coolies toray on account of excessive assessment, of another item Rupees 678-12-0 due by the inhabitants of Tevremalanemadam-drum under the circumstances already mentioned in respect of that Village and of a remaining sum of 4,729-10-11 by indigent ryots generally.-

45 Thus at the end of September there was an aggregate atmeny balance of arrears of to Fasly 1257 and arrears of Fasly 1258 amounting to Rs 7,247-14-7 of which Rs 808-13-7 will be realized, there being no hope of recovery Rupees 6,438-7-0 which sum is

do

is due respectively by the deceased, absconded and poor cultivators in the proportions shown marginally. I beg to recommend that the said amount may be remitted from the accounts.

Paid by Mocturahdars on the 1st October to clear such Estates as had been advertised for sale on that day. — 18299 2 10

Balance — 42469 1 1

Explanation in respect to Report of Fusly 1258

15th May 1859

49 I now beg to submit such explanations as seem necessary with reference to your Board's Proceedings in review of the late Collector's Report on the settlement of Fusly 1258.

Para 2. 50 The decrease to the extent of 48 in the number of private wells Tatook Womalore is caused partly by their relinquishment under Ryotwarry and partly by forfeiture of exemption from additional assessment owing to the putcul lands of their proprietors having been left uncultivated. The latter class appears for some years past to have been erroneously included in the account of private wells, although the usual extra assessment had been regularly levied on the fields which they irrigated. The error having been discovered

discovered before the transmission of the report in Fusly 1258, it was rectified.

Para 4 51 The Board's instructions with regard to the distinct exhibition of Dittum waste have been attended to, as will be observed on reference to paragraph 47 of the present report.

Para 5 52 Respecting the discrepancy in the sum shewn as the amount remission of one crop or 2 crop land, I have to state that the remission in question was made in Poraumdoor, a village formerly belonging to Teichipoly District which was annexed to this Collectorate a few years ago. The land on which it occurs has been affected with specific and distinct

distinct terms for its first and second crop; as will be understood on reference to the Statement No. 24 submitted for the current fusly, in which also a similar remission has been made.

Para 10 53. A very trifling sum (Rs. 47 1-2) has been realized on account of the Mottahdary Balance, the difference being due by the Minor Estates of Anundoor and Samoodrum under the circumstances represented in a preceding paragraph.

Para 12. 54. Your Board have correctly inferred the difference 200 acres, in the extent of land under Projects since Cawles to be a clerical error. The correct entry is that given in Statement No. 10 at acres 9639-32-4.

Para 13 55. In respect also of the discrepancy of Rupees 24-8- mentioned in the paragraph, your Board's impression is the correct one. The item was

was at first erroneously included in the Statements under the head of Hill Revenue, the error was subsequently rectified, but through an oversight a corresponding amendment was not made in the report.

Para 16 56. The Statement No. 20 for the present fusly separately exhibits the gross cultivation of Sugar cane in the Circar Mottah and Enam Villages. Its result in an abstract form is given below.

	Extent.	Assessment.	Fasul Instlmts.	Total.
	As g a	Rs a P	Rs a P	Rs a P
In Circar Villages	1089 31 10	8866-0	a a	8866-0
Mottah and Enam	377 2 3	3486-4	a a	3486-4
	1466 33 13	12352-4	a a	12352-4

The absence of Canes in the Janthee in Ponjah lands cultivated with the cane is explained by the fact that the irrigation of the lands thus appropriated happens to be secured by Wells which are the private property of the cultivators.

Para 19. 57. The late changes in the Superintendence

superintendance of the Sub Division of the Collectorate have prevented the preparation of the desired special report on the present condition of the Tadagherry Mottah, but I have recently learnt from Mr Sub Collector Conway that his attention will be given to the subject at an early period.

Para 20 58. Regarding your Board's instructions to render the Puttah a transcript of the settlement Jummabundy Chitta I beg respectfully to state that apprehensions are entertained by experienced and practical members of my Cutcherry, that obedience thereto will entail on the Establishment conducting the Jummabundy details, a very serious addition to their at present extensive labors, and that the change may materially interfere with the convenient progress of the Settlement. The aggregate number of Puttahs distributed at the last Jummabundy was 127707. The Jummabundy Chitta on which they were drawn up, not only exhibits the additions and

and deductions made at the settlement superintended by the European Officers; but also those which were sanctioned at the Dittum by the local Tahsildars, a statement of which extends in many instances to pages of writing. It will however be my duty to endeavour in the first instance to carry the Board's orders into effect, and when by personal observation, I have ascertained what in a few Talooks is the real extent of additional labor involved, I shall be in a position to judge whether any and what increase of Establishment may justifiably be solicited.

No 27 Bds Proc 8th Octr 1849 Seray Jummah

59. The Statement which is now submitted in respect of the demand under the head of Seray Jummah, shows such amounts as were not brought to account in the basis of the present year at the settlement either of the Land Revenue or the extra Sources. The net demand is Rupees 2,483-7-9 of which within the fasly Rupees 1,167-1-2 were realized, a further sum of Rupees 276-11-2 being brought to

to account by the close of September
thus leaving for future realization a
balance of Rupees 1,219 - 11 - 3. An ap-
parent discrepancy may be observed
in the amounts above shewn and those
exhibited in Statements No. 14 of the
Land Revenue and No. 5 of the Extra source
Settlement, in explanation of which it
is to be stated that the latter include
sums collected in the current year on ac-
count of the Sewai Jummah of previous
fusilies, whilst the former sum apper-
tains only to the Fusly under report.

Rs. 2022 - 1 - 11
389 - 2 -
2391 3 - 11

23d September 1849.

The Special report of Sewai Jummah
called for by the Board for past years,
is now under preparation, and will,
I trust be submitted at an early date.

Report of the Sub Collr

60. The report of the Sub Col-
lector on the Jummabundy settle-
ment of the division under that
Officer's separate charge is transmit-
ted. The only part of that com-
munication which appears to
require notice from me is the
proposition

Para 13. proposition in regard to wells
sunk by ryots at their private
cost, without permission pre-
viously obtained from the
proper authorities. The Sub
Collector would not subject
them to the penalty now exacted:
and with all respect for the
instructions issued by the Govern-

Min. of Cons. 7th Augt 1849 Para 10

ment in this subject, I cannot
help feeling with the Sub Col-
lector that greater indulgence
might without inconvenience be
extended to persons who may
construct

Fort St. George 10th March 1851.

construct wells without first receiving authority to do so. The discussion of the subject at the present time would however seem to be unnecessary as the general question is believed to have been reported on to the Honorable Court of Directors, whose final instructions, cannot, it is understood, be long delayed.

Proceedings of the Subdivisions.

61. The circumstance of my having joined the District subsequent to the close of the settlement will I trust explain my omission to record an opinion on
