Sir,

With reference to your letter to our address noted in the Margin we do ourselves

on account of the Suit against the Guardian to the Minor Zemindar of the Shevaganga and that they are preparing the necessary instructions to enable Council to plead before the Sudder Udalut Court Forwarding 2 Vakalutnamahs and requesting that they may be signed by the Guardian and returned to them.—

From Messrs. Dale & Boyson Pleaders of Sudr. Udalut Madras.

Informing that the Government Vakeel had handed to them certain papers &c.

Letter from Secy. to the Court of Wards to Messrs. Dale & Boyson 22nd May 1851

ourselves the honor of reporting that the Government Vakeel has handed to us papers purporting to be copies of the proceedings in the Original Suit No. 2 of 1845 on the file of the Madura Court and in the Appeal Suit No. 7 of 1849 on the file of the Court of Sudr Udalut in which we are preparing the instructions which will be requisite to enable Council to appear and plead before the Court of Sudr Udalut on behalf of the Minor Zemindar, the 1st Respondent, as we consider it highly desirable that in a case of such importance the Zemindar should have the advantage to be derived from the advocacy of Council.—

2. We are not yet sure that Mr. Advocate General will consent to accept a Retainer on behalf of the Zemindar, we however do ourselves the honor of enclosing for the signature of the Guardian 2 Vakeelutnamahs one containing blanks for the name of the Counsel to be retained the other appointing our Mr. Dale as a Pleader for the Respondent and we shall feel much obliged by your having them signed and attested agreeably to Regulation and return to us at your earliest

earliest convenience. The Guardian should authorize us to fill in the name of such Barrister as on its return will accept the retainer - we hope Mr. Advocate General will consent to do so, but if not, we do not entertain any doubt but that Mr. I. B. Norton will accept the retainer. -

3. The Vakalutnamahs should be filed on the 1st Proximo, but we should wish to procure Counsel's acceptance of the Vakalutnamah in his favor at as early a date as practicable. -

Madras, 13th June, 1851. } Signed/ Dale & Boyson

Order thereon. -

(3-4)

Ordered that copy of the foregoing letter together with the Original papers which accompanied it be forwarded to the Collector of Madura who will be so good as to have the Vakalutnamahs prepared by Messrs. Dale and Boyson signed and attested in the prescribed manner and return them as early as practicable. -

2. He will likewise obtain from the Guardian the required authority for filling in the name of such Barrister as may accept the retainer. -

/Here enter 1st April 1857 No 153/

Sir,

The Right Honorable the Governor in Council approves the Rules submitted by the Board of Revenue for regulating the issue of Certificates for Government Lands

Lands in the Provinces required for building purposes and desires that they may be substituted for the Rules hitherto in force. He however directs that in Rule III the word European be changed to British subjects who are the only persons who under Act IV 1837 are allowed to hold lands in India in perpetuity and on the same terms as Natives of the Country - when land may be applied for by a Foreigner, European or American - the case should be reported to Government Specially for their orders that it may be dealt with on its merits.

2. Again it is remarked that the sum payable to Government under the Certificates is in Forms A and B described as being "in lieu and Commutation of the revenue which the Government is entitled to derive from the said Ground". It appears to Government that it would be sufficient to say simply "as the Government Assessment on the said Ground" Adverting also to the change which has taken place in the position of British subjects in India since the passing of the Charter

Act

Fort St. George 16th June 1857.

Act and Act IV 1837 the Government think the expression "Permission Certificates (unless as regards Certificates granted to Foreigners) no longer appropriate and that where the phrase occurs in the present Rules it will be proper to substitute for it the term "Land Certificates"

Para 1. The first of the Extracts from the Proceedings of the Board of Revenue above recorded and the correspondence submitted with it relative to the proposed revision of the Assessment upon Topes and Trees in the Tinnevelly District.

It appears that in 1843 the Collector Mr. E. B. Thomas when replying to a Circular from the Board calling for information on the measures to be adopted for promoting the plantation of Topes observed that "little further encouragement was required in Tinnevelly than a removal of the heavy tax which there and in other places greatly checked so desirable a custom" he represented the undefined and irregular

irregular mode of Assessment which prevailed in his District varying almost in every Village without any ostensible reason beyond the Mamool or usage and finally suggested the reduction of rates on 5 out of the 38 descriptions of Trees then liable to assessment and that the remaining 33 descriptions should be left free. He recurred to the subject in a subsequent communication under date 28th April 1848. The measures which he recommended would however have occasioned the relinquishment of Revenue to the extent of Rupees 11031 per annum and the Board of Revenue unwilling to advocate so large a sacrifice desired that the question might be reconsidered and a revised plan submitted involving a smaller loss of revenue.

To Board 26th Jany. 1850.

2. After considerable discussion on the subject the present Collector proposed a measure of relief of more limited operation than that originally recommended. He excluded the Cocoanut and Palmyra As respects the first he was of opinion that to extend to future plantations of this tree the principle of the Topes Rules which contemplates charging land tax only would sufficiently promote its

to culture. For the Palmyra he stated that no further indulgence was required beyond the extension of the orders of Government of the 19th April 1844 regarding remission of Assessment on Sand Drift to all Sandy Tracts that were unfit for other cultivation. As regards the other 37 descriptions of Trees he suggested that the existing rates on 20 be lowered and that the remaining 17 be altogether exempt from tax. The total loss of revenue thus occasioned calculated according to the Settlement of July 1849 would be Rupees 2557-14-2 Viz. Rupees 1618-11- on those trees whose assessment was to be reduced and Rupees 939-3-2 on those which were hereafter to be wholly free. The Board of Revenue in their Proceedings 25th November 1850 in laying the correspondence before Government supported the Collector's proposal.

3. In their Minutes of Consultation of the 3rd February last the Government called for further information upon the subject. They remarked that on reference to the Statement which accompanied

Mr.

Mr. Bird's letter of 26th January 1850 it appeared that among the descriptions of trees which were to remain liable to tase were some in which the number of trees and the revenue to be yielded were so inconsiderable that they might well be included among the exempted Kinds. The Board were requested to reconsider the list of assessible trees in reference to this remark so as to confine it to such as were common in the District which it was observed might be effected at but a trifling loss of revenue in addition to that already recommended to be relinquished.

4 Again in reference to the Collector's proposal "that the orders of Government 19th April 1844 regarding remission of assessment on sand Drifts should be extended to all Sandy tracts that were unfit for other cultivation it was noticed that those orders permitted the cultivation of the Palmyra on the Sand Drifts in Tinnevelly at "half the usual teerwah" but on a subsequent representation from the Board of

of Revenue that the inducement offered by those orders was "inadequate and not commensurate with the labor attendant on planting and rearing the trees" the Government had been induced to permit by their orders of the 9th May 1848 No. 487 the cultivation of the Palmyra in the localities referred to "free of all demand" with the caution that no ground should be encroached upon under that sanction except what was only useless for all other purposes. The Government desired that it should be clearly ascertained from the Acting Collector whether the remission of the half teerwah authorized by the orders of 19th April 1844 would afford sufficient encouragement for the plantation of Palmyra on the further Sandy tracts to which he had referred or whether the greater indulgence granted under the orders of the 9th May 1848 No. 487 should be allowed.

5. The reply of the Board of Revenue to this reference forms the second of the papers now recorded. From this it appears that the entire remission of assessment authorized by Government 9th May 1848 on

on Palmyrahs planted in Sand Drifts was not carried out by the late Collector, but that 1/8 of the tax was retained for the purpose of continuing the trees in the Village Accounts. It is recommended by the Collector and the Board of Revenue that for the same reason in exclending those orders to all other Sandy tracts that are unfit for cultivation a like modification should be adopted and that the Palmyra trees planted in such localities should be charged with 1/8 Seerwah the remaining 7/8 being remitted. The Government sanction this arrangement. They trust that the revenue to be derived at 1/8 Seerwah on Palmyra trees planted in Sand drifts and other Sandy tracts under the encouragement offered will eventually make up the loss incurred in the reductions on the other descriptions of trees in the District.

6. With respect to the other of the two points referred to them in the Extract Minutes of Consultation 3d. February last Vizt. the reconsideration of the list of assessible trees contained in the Collectors Statement so as to confine it to such of the trees therein

therein specified as were common in the District the Board have not fully met the requisition of Government. They state that "they see no objection to the further exemption of tree tax proposed by the Government" but they have not themselves submitted a revised list. The Right Honorable the Governor in Council however thinks it unnecessary to incur more delay by a second reference and he has therefore carefully gone over Mr. Bird's Statement and has struck out of the list of assessible trees there given, those noted in the Margin the Tariz of which according to the proposed new rates would not in the case of any description of trees exceed Rupees 200 per Annum. The classes of trees thus to be exempted will be 17 at a loss of revenue of Rupees 852-15-10 annually which added to the reductions already

already recommended by the Board and the Collector will make the total loss of revenue upon the whole arrangement amount to Rupees 3,410-14-- The Right Honorable the Governor in Council is of opinion that the measure as thus extended will afford considerable relief to the people and at a small cost and he therefore authorizes its being carried out from the commencement of the approaching fusly.-

7. The Governor in Council also grants authority for extending to all Cocoanut plantations which may hereafter be formed in the District the principle of the Tope Rules or that of charging a land tax according to the description of land occupied.-

8. The two small objectionable items of taxation designated, Kazir Vullum and Dasaee amounting to Rupees 182-3-6 have already been discontinued by the Acting Collector and the Governor in Council sanctions the abolition.

Read the following Extract from the Proceedings of the Board of Revenue (Here enter 8th May 1851 No. 194)

Para 1. At the conclusion of the above Extract it is stated that as Mr. Walter Elliot had taken a principal part in the former Proceedings of the Board regarding Canara, Copy of the Proceedings now under submission with copies of the Minutes which had been recorded would be forwarded to him for his information to enable him if necessary to place, his views also on record. From the Minute of the 3d Member it would further seem that Mr. Elliot had previously proposed a draft upon the subject.

2. The Government are anxious not to add to the present labors of

of the first Member of the Board in his own peculiar province as Commissioner but they would nevertheless be reluctant to enter upon the consideration of a question of such importance as the Canara Survey to which Mr. Elliot seems to have devoted much attention, without having the benefit of his sentiments upon it. It occurs to them that Mr. Elliot might without difficulty throw his draft above referred to, into the shape of a Minute accompanying it with any further remarks which might present themselves to him. The Board will be pleased to forward this Draft to the Commissioner if not already despatched to enable him to give effect to the above suggestion.

Memorandum of the measures

taken to remedy the defects of the Revenue system in Chittagong drawn up for the information of the Madras Government-

In 1764 the lands of the Chittagong District then under cultivation and the cleared land, were measured- It was permitted to proprietors to have the land each held recorded as one Estate, hence, instead of a Chittagong Zemindary consisting of one, several contiguous Villages as in other parts, each estate consists of many patches of land situated in many places sometimes many miles from each other.-

2d. The Ameens who measured the lands bribed by the proprietors under measured, and in the course of years it become notorious that the Zemindars held much more land than was entered as theirs in the Measurement papers, on which the decennial i. e. the perpetual Settlement was founded.-

3d. In 1764, when the measurement took

took place the Estates measured were in many parts mere patches of cultivation in the midst of forest and Jungle. Between the period of the measurement, and the period of the settlement and subsequent to the Settlement the proprietors of the measured Estates cleared the forest in the Neighbourhood of their measured lands, and appropriated the same without having entered into any arrangement for the payment of revenue. On examination of the measurement papers of 1764, they were found to be extremely incomplete, many of them in such a state of decay as to defy the efforts of the most able examiner, many to have been changed forged and interlined and altered to such a degree, as to render them nearly useless.

4th Others, besides the proprietors of the measured Estates, subsequently to the measurement, cleared and appropriated forests and waste lands in all parts without having procured any title and one

Joynarian

Joynarian Ghosal having taken possession of vast tracts of land in all parts of the District under a Summud which he affirmed had been bestowed on him in 1761 by the Chiefs of Chittagong, a lengthened litigation ensued between him and the Government, which ended in 1815 by a decision in the Sudder Court in favor of Government declaring the Summud to be a forgery, and awarding to the Government all the land held only by the said Joynarian Ghosal except the quantity which had been measured as his estate in 1764.

5th It became known also that a quantity of land which on the 14th April 1783 and 1st December 1790 had been declared by the chief in Council at Chittagong liable to assessment had never been assessed and that other lands held under forged and invalid grants might be brought on the rent roll.

6th A System for many years obtained of private changes between different Zemindars, for instance one person having more low land than he desired to keep exchanged

a

a portion for an equal quantity of high land on such exchanged lands Villages were built and tanks dug the whole character of the land was changed. No intimation of these changes was made to the Collector no mention of the changes was inserted in the measurement papers, so that the record of the measurement of 1764, had it been carefully preserved, would not have shown correctly the lands of each Estate as subsequently possessed. Possession then became the proof of right; the inhabitants of the District divided into the two classes of Plaintiffs and Defendants. The Collector never could give possession to auction purchasers of lands sold to them, and never could find the land appertaining to an Estate which came into the immediate possession of Government / communicated to Board 11th November 1833 /

7. Partial attempts to reduce this charge to order were made by means of measurements by Native ameens, and effected they only increased the embarrassment /

8. In 1829 the proposal for a regular professional Survey of the whole District was first brought forward — the Government could not then be persuaded that the Settlement of the difficulties encountered could be thereby accomplished, and it was determined to undertake a field "measurement by Natives of the lands the property of Government — the Nuabad or newly cultivated lands and the rent free lands open to resumption, to call upon the occupants of every distinct tenure to exhibit the title under which they were respectively in possession, and to subject to assessment under the provisions of Regulation 2 of 1819 and 3 of 1828 all lands held rent free of which the revenue appeared to be resumable."

9. In 1833 it was resolved to commence the native field measurement with an Establishment of 48 ameens with Establishment at 28 Rs. per mensem —— 8064

and to appoint a scientific Surveyor to conduct a Village Survey to check the work of the Native Ameens at an expense of per annum ——— 6,072.

10th. It was estimated that one Native Ameen with his Establishment would measure about 7 acres per day during 6 Months of the year, completing the enquiries necessary to ascertain under what tenures and titles the land was held up to the date [1833] measurement of the whole of the lands of the District was not contemplated by the Government.—

11th. Some success having attended these measures in 1835 the establishments were increased, but operations were still confined within the limits adopted in 1829 and 1833.—

12th. In 1836 the operations were extended to the Measurement and Survey of all the lands of the District including the Estates of the perpetual Settlement the lands, the property of Government, the resumed lands the "Poraba lands" "Inam lands" cultivated since the settlement

and the lands of the perpetual Settlement were found to be so intermingled the measurement of the whole was considered indispensable to the adjustment desired.—

13. The Civil Establishment was increased to 21 Deputy Collectors each with measurers under him and the Survey Establishment was suitably strengthened as per margin.—

14th. Though as before stated, the lands held under different Estates were intermingled in such

a manner as almost to defy correct representation, Village boundaries were still known The land of a Villge might belong to many different tenures and no proof of ownership could be derived from the boundary but there were recognized boundaries. The Chittagong Village instead of resembling the mouzah of other parts, in itself a distinct Estate, or forming part of one Estate resembles the Village of England comprizing the land of many Estates of various Classes copy hold free held, land tax redeemed, subject to land tax v^w v^w

15. It was resolved that the professional Survey should show the Village boundaries, distinguished the land cultivated, culturable, and waste, and give the topographical features of the Country on a scale of four inches to a mile, while the native measurement embraced the details of all the tenures of every class comprised in the Village Comparison of the total land held under all the tenures found by the native measurement with the total area shewn by the professional Survey was regarded as a salutary

salutary check on the Native measurers. The professional Survey shewed the area in acres and droons- the Native measurement in droons.-

16. I will not escape observation that this was no check on the area of Estates. Had the whole of the land of one property been measured as belonging to another it could not have been discovered by such comparison of the area of Villages.-

17. The Survey was conducted by an Engineer Officer with assistants under him- The Surveys of the assistants were laid down by Magnetic Meridian of their own Theodolites and in the compilation of the work the Maps were referred to the Meridian of the Surveyors large Theodalite needle- the variation of which he had correctly ascertained.-

18. The areas were calculated by scale and compass.-

19. The interior details were laid down with the Theodolite or Prismatic compass or Circumferentor at the pleasure of the Assistant.-

Memo

Memo on the mode of conducting the Professional Survey on the Revenue operations in Bengal.—

I. The above system however is not according to the regular Professional practice which guides the Survey Department, and it has met with no approval not being based on true scientific principles. The Officer employed in Chittagong not having been subject to any control or higher Professional authority pursued his own course?—

II The Method observed in the Revenue Surveys in India generally and on which the entire North West Provinces — Bihar and a part of Bengal have been completed is as follows.—

III The Scientific operations proceeds monzawar i.e. Village by village, with prepared demarcated boundaries freed from all disputes a head of the Survey by the Revenue Officer who is strictly responsible for the portion of the work

+Note. The brief sketch of the Survey of operations as now carried on I have obtained from Captain H. Thuillier Deputy Surveyor General and is inserted lest it should be supposed that the System of Survey pursued in Chittagong was approved and is followed elsewhere.—

work and on which the progress of the Surveyor entirely depends. The Superintending Surveyor and his several Assistants work angularly from an established true meridian deduced by astronomical observation as the fundamental basis of the Survey, and which meridian is conveyed from Circuit to Circuit by as many Instrument as may be employed. no Magnetic bearings whatever being noticed as many Assistants or Instruments as may be employed, therefore every Village Circuit harmoniously falls into its proper place on the Map being referred to, but one meridian.—

IV All the main and village Circuit or Boundary Survey is performed in this manner. The deduced Azimuths being checked at every 50 or 100 square miles of country traversed by means of fresh astronomical observations.—

V The proof of both angular and linear measurements of every Village is obtained by a calculation of the meridian and perpendicular distances resting on the line and coline of the angles and distance measured.

measured and is similar in process to that which is explained in every work upon traverse surveying. The accuracy of every Circuit is thus fairly established at the time of Survey and the numerical data on which both the proof, the protraction and the area depends, are invariably recorded in full on the back of the Village map and lodged in the Surveyor General's Office as shewn in the accompanying Specimen Plan and Register.

VI. The protraction of the Map is made from the Coordinate distances on the Meridian and perpendicular of each Station from the first in the Series calculated in the Traverse Table, and for which a scale of parts and a pair of compasses alone are required.—

VII The areas are calculated from the same Table by means of "a universal Theorem" as described in "Adams Geographical Essays" "Boileaus Traverse Tables" and are perfectly independent of all methods by scale and compass, which can only be approximate.—

VIII The interior detail surveyed is laid down either angularly by the Plane Table

Theodolite or Circumferentor or by Magnetic Bearings with the Prismatic or Surveying compass, the variation of the needle being carefully referred to the true Azimuth of any of the sides of the surrounding Village Circuit— all Topographical details being sketched in and protracted on the ground by means of a drawing board or Plane Table.—

IX. The Revenue Survey is likewise carefully connected with the great Trigonometrical Survey wherever the latter operation has extended and the results duly compared.—

X. The system will be found fully described in "a Manual on Surveying for India" which is shortly to be published by Messrs. Thacker and Co., Calcutta:—

20th At first the country was surveyed without any Village boundaries having been prepared by the Surveyors— The boundaries were traced after Survey and marked in the Map but this system being found extremely inconvenient was avoided as much

as

as possible.-

21st The native measurement was conducted with a pole 12-3 F. I. in length and the calculations were as follows.-

1 Pole long } i.e. 12-3.
ly } ×
1½ Broad } 6-1½ or 75 Square feet = 1 Kraut

1½ Pole long } 18-4½
ly } or × or 225 Square feet or 3 Krauts
1 Broad } 12-3. = 1 Cowrie.

3 Poles long } 30-9.
ly } or ly or 900 Square feet or 1 Cowrie
2 Broad. } 24-6 = 1 Gunda.

12 Poles long } 147-"
ly } or × or 18007 Square feet or 20 Gundas
10 Broad. } 122-6 = 1 Khanee.

48 Poles long } 588-"
ly } or × or 288120 Square feet or 16 Khanees
40 Broad } 490-" = 1 Doon.

22d The Surveyors' Chains were so marked as to enable them when necessary to check the details of the Native Measurement. The Ameens' Measurements were tested by a Deputy Collector or an Officer of his Establishment.-

23d The undermentioned papers were

were prepared in connection with the Native Measurement.-

1st Chittah or field book. The information recorded in this paper should be very complete. In Chittagong the Chitta long has been and still is considered the title deed of all classes. The Chitta is looked to not only for length and breadth and contents but for a correct description of the tenure or tenures under which each field may be held.- Unless all this information be recorded in this "Chitta" the preparation of the necessary Papers shewing the allotment of all the land of a Village to the different tenures comprised in it becomes impracticable.-

24th Of course it is not necessary to dispose of all questions of title and possession on the ground while the field is actually under measurement.-

25th The claims are noted and it is necessary that all claims should be disposed of before the preparation of the other papers is commenced with. In practice in conducting such operations it

it becomes necessary to regard the field book as no more than the rough Copy. and as no proof whatever of title or possession when either may be contested.

26th When all disputes and claims have been disposed of by the authority vested with jurisdiction to that effect the fair Copy of the "Chitta", should shew the distination of each field as ultimately adjusted.-

27th 2d The "Serij". This paper prepared from the Chitta should shew the land of each occupant whatever his disignation & the land is held by Ryots, of each ryot; if by Talooks, of each Talookdar.-

28th 3d The Jummabundee shews the land, the Jumma or rent, and name of each occupant.-

29th 4th The Mouzawar Sowjie shews the land of each separate Estate in the Village.-

30th And, Estates having, as before mentioned, land in several Villages when these papers had been prepared for the whole district it became necessary to

to prepare another record compiled from all these Sowjees, shewing where the land of each Estate was situated, the extent, proceeds, & ca.-

31st Of the 40,000 Estates which now pay direct to the Collector's Treasury. These papers shew where each acre is situated and by what subordinate holder it is occupied and, as regards all resumed land - land cultivated since the settlement and purchased land in addition to that they shew the assessment imposed on each person under engagements whatever his denomination.-

32d The Ameens or Measurers were vested with no authority to hold any investigation as to possession, but in practice they must have exercised some discretion in not recording as disputed every field for which more than one claimant appeared otherwise in some parts it is little exaggeration to say every square yard must have been entered as disputed. Their Chittahs and Serijes as fast as they were prepared were forwarded to the Deputy Collector within whose circle they

they were employed and it rested with the Deputy Collector subject to appeal to the Collector and the Commissioner to allot the land to the tenure to which it belonged.-

33d. Had the papers in which the measurements of 1,764 were recorded been legible and trust-worthy it would have behoved the Officers engaged in the measurement, to measure off to the Pro-=prietors who held under the perpetual Settlement the lands shewn in these docu=ments, but the papers being for the most part illegible or of questionable authen=ticity it was resolved in 1835 to allow the Proprietors to point out their own lands and to induce them to forward the pro=ceedings; it was agreed that such as would engage to consider the Measure=ment as a final adjustment should be allowed 1/8 more land than they were entitled to by the records of the prepe=tual Settlement, and this allowance was subsequently increased to 3/16 of the Jumma payable to Government in the

the land exceeded 18 Rupees per Doon to 1/4 when the Jumma exceeded 20 Rupees per Doon.-

34th. This measure had great effect in reconciling the Proprietors of the Estates settled in perpetuity to the inqui=sition, and about 3/4 of the whole including nearly all those who owned considerable possessions accepted this surplus as a final adjustment of their interests.-

35th. In a portion of the Dis=trict where the interlacing of property is most intricate a field Survey by professional Officers was undertaken and field Maps prepared on a scale of three chains to an inch, shewing all the different descriptions of tenures in different colours. This plan was abandoned on account of the expense, but it had the good effect of making all the difficulties of the operation intelligible to every body.- One look at the Map shewing in different colours the lands of the perpetual settlement the rent free lands- the resumed lands and the newly

cultivated

cultivated lands all interlaced one with the other, conveyed to the mind a more correct notion of the entanglements which existed than volumes of description.—

36th. On such occasions it is well worth while to incur a very large expenditure in thoroughly sifting and exposing all the difficulties to be found within a small area. For the most part there is great similarity in the tenures by which property is held throughout a District and all difficulties vanish where the intricacies connected with one small spot have been thoroughly fathomed and explained.—

37th. All haste is to be especially avoided. The Settlement of Chittagong occupied a large and very expensive Establishment 10 years. Time and expense would have been saved had more been spent in the first few settlements. All increased impositions should be imposed only when their suitableness has been ascertained by the most pains-taking enquiries. In 1801 after a partial measurement of lands cleared from the

+Rs. a P
2. 4. 6 per acre

forest and cultivated, an Assessment of 16 Rupees per Doon+ was imposed and this Assessment having been paid for many years, it was considered proper to maintain that rate upon the new land measured for the first time in 1835 and 1836, but Subsequently investigations shewed that that rate had been agreed to by the land-holders because they held more land than was shewn in the measurement papers, that it was entirely unsuitable to a great deal of the cleared land which though abundantly fertile was from disadvantages of position and the expense attending cultivation entirely unable to pay so high an Assessment. Accordingly the rate of 10 Rs. was ultimately maintained only where all circumstances were favorable. Reduction was allowed whenever it appeared called for either by poverty of the soil, disadvantage of position, expense attending cultivation or any other circumstance injuriously affecting the Cultivators returns.—

Separate-

38. Separate engagements were taken from 82,694 owners and occupants of land of which 43,350 will pay direct to the Collector's Treasury. All the embarrass=ments which beset the revenue administra=tion have ceased.- The Revenue is paid with punctuality and the people are contented.-

39th. In such an undertaking no endeavours should be separated to secure the Assistance or at all events the careful acquiescence of the people without which difficulties with their aid easily managed become insurmountable. As the develope=ment of increased resources or in other words the imposition of increased assess=ment is generally one of the objects in undertaking Surveys and Settlements, it must at all times be difficult to make such operations acceptable to any class especially as it is next to impossible to prevent the unavoidable offen=siveness of such Scrutinies being greatly enhanced by the conduct of the subordi=nate Officers employed in the measurements but

but much, very much may be done by ac=tive control, patient explanation of mo=tives and ultimate designs and by <u>listening to all objections</u> and not only to those con=considered reasonable by asking rather than ordering in short by never for one Moment whatever the provocation, for getting that success, by which I mean completion of the undertaking to the satisfaction and content of all parties=- without conciliation is impossible.-

40th. Since operations were first com=menced in Chittagong in 1830 we have had much experience in settling Countries where property is interlaced and subdivided, and I believe the plans introduced by Captain H. Shuckbrugh the present Deputy Surveyor General with a few modifications to be thoroughly efficient and suited to meet all difficulties- It is briefly as follows.-

41- A small village may be measured in one Circuit- a large village must be divided off into three, four or more Circuits each containing from 150 to 200 acres.- The

42d. The exterior fields of each of these Circuits are first to be measured and laid down by means of a Surveying Compass. For each field two bearings will be taken, one for the length, the other for the breadth, with occasionally here and there, for large fields a diagonal bearing in addition as a better connecting link and to ensure greater accuracy in the mapping.

43d. Each field extending round the boundary being thus obtained, the Circuit will be made to close within a trifling error and the positions of all such fields will be ascertained with a considerable degree of accuracy as may be seen in Specimen annexed No. 1.-

44th. On the satisfactory closing of the Circuit all the fields in the interior may be taken up by the Chain only without the aid of the compass being kept or compressed within these defined limits, the several

D.J.

fields.

fields fall into their proper places and all excess measurements on the contrary are immediately proved.-

45th. To secure the proper falling in of every field into its proper place and so that a Map may be at any time made from the Khussrah record, every separate measurement must be recorded in the Shitta as lying to the North, South, East or West of the preceding one and as starting from a certain point thus- No. 2 field starts from the North East corner of No. 1 and No. 3 from the South East corner of No. 2. and so on- The corner starting point should be invariably recorded in every instance without this precaution no Map can be protracted from the Shitta papers by scale and compass-

50th Where property is not so much interlaced and subdivided as to make the Measurements of each field or patch neces-
-sary, but the lands in each Village are
held under several Estates the area of each of which it is necessary to ascertain without incurring the great expense of a scientific Survey of Estates, the plan of plotting by scale and compass and ascertaining the Area of each block by triangulation is suitable.

51st Natives of most parts of India are very apt in acquiring knowledge con-
-nected with the measurement of land up to a certain point, and it is astonishing how soon an Officer with diligence and tact may

may instruct them in surveying sufficiently to enable them to do all work connected with interior details. They are not less apt in communicating what they have learned to others. An Officer who will carefully instruct 6 persons and promise to employ such of their friends and connexions as they will bring sufficiently instructed in a few weeks will find himself surrounded with a staff which if carefully handled for a short period will become very efficient and it is by Natives that the details of all Surveys and measurements in Countries with such intricate and Minute tenures as are

are found in Chittagong and Sylhet must be performed.-

Sir,

B. No. 1011
From the Coll.
of Nellore

Recommending that an Enam Village of Paurlapolly be registered in the name of the widow of C. Ramachendriah the late holder.

Rec'd 18th June 1851

In acknowledging the receipt of your letter of the 22d July last forwarding to me for report a Petition on behalf of S. Ramaswamiah adopted son of Ingowal Ramachendriah the deceased Emandar of the Village of Paurlapolly in this District, I have the honor to submit for the information of the Board of Revenue the Record of an enquiry instituted at my request by the Collector of Madras into the fact of the alleged adoption - This having been proved I deemed it necessary to submit for the opinion of the Hindu Law Officers of the Court of Sudr Adalut the question whether the adoption was legal under the circumstances stated and the Vide To the Coll.r of Madras 20th Octr 1850 From Do 15th Nov.r with enclosures To Register Sudr Adalut 25th Nov.r 1850

+ From Do 7th Apl 1851 with Enclosure

+ Lately received shows that in consequence apparently of a difference of opinion between the Pundits of their own Court the Madras Judges made a reference to the Law Officer of the Sudr Dewany Adalut in Bengal, who agreeing

agreeing in opinion with the Junior Pundit of the Madras Sudr Court has declared the adoption illegal - The right of S. Ramaswamiah to succeed to the Enam cannot therefore be recognized and the Village must, as recommended in my letter of the 26th June last, be registered in the name of Vencatalutchmamah widow of the late incumbent - The proceeds of the Village in deposit to the end of last month amount to Rupees 1,060. 11. 9.

Answers given by the Pundits of the Court of
Sudder Udalut.

By the Senior Pundit.

The adopted boy referred to can-
not be considered as (A's) own nephew or
sister's son in-as-much as A and the mother
of the said boy were the offspring of different
mothers.—

The law-book intitled "Dutta Mima-
msa of Sree Rama Pundita," referring to
the text which says "let all classes adopt sons only
"from

"from among cousins, and not otherwise, or a
"daughter's son or a sister's son in time of distress.
"Sudras are to do so at all times," explains the
meaning thereof as follows. "Men of all classes
shall adopt sons from among their cousins only
and not otherwise; "but in time of distress they
"can adopt a daughter's, or a sister's son
"Sudras are competent to do so at all times."
A consideration of these passages convinces me
that the three superior classes, Viz^t. Brahmins
&^ca. can adopt a daughter's son or a sister's
son while in distress.

In the book "Smriti Mookta-
Phalam" otherwise called "Vydenath Deetche-
-teyum," the above text is quoted (in a different
way) Viz^t. "let all classes adopt sons, only
"from among cousins, and not otherwise or a
"daughters' son or a sisters son. As to
"Sudras they are to do so in time of distress.
In commenting upon this text, the author
observes that "all men shall adopt sons
"only from among their cousins, and not other-
"wise or a daughter's son or a sister's son.
"As regards Sudras, they can adopt a
daughters

"daughters son &c." in time of distress." From these passages, it is inferrible, that the adoption of a daughters, or a sisters son is allowed for the three superior classes.—

Certain other law books Viz. Dutta Cowstoobum" &c. however say that for the three superior tribes, "a sisters son is no where (mention=ed as) a son"; but this prohibition, I think, refers not to the boy mentioned in the question, in consequence of his not being the son of A's uterine sister.—

The law book "Mayukum" also warrants the conclusion that the sons of daughters or sisters can be affiliated by Bramins &c.—

But in the law book "Duttaka Mimansa of Nunda Pundita" the author, in "comm:=enting upon the passage of Somaka "a boy "bearing the reflection of a son" means the re:=semblance of a son" and that is the capability "to have sprung from the (adopter) himself "through an appointment (to raise issue on "another's wife, and so forth." and finally argues against the adoption of a sisters son &c. on the ground of their not bearing the resemb:=lance of a son.—

The

The whole of the aforesaid Law books being equally acknowledged and received as authorities of the land, the contradictory pas:=sages therein contained and quoted above, must, I think, be taken to have reference to the diversity of usage established in the different parts of India.—

Among Brahmins of this part of India, there indeed exists the custom of adopting the sons of daughters and sisters.— This Custom, I conclude, is founded upon, and is therefore, valid under the provisions of the law book "Vydenathoyum." "Sree Rama Punditoyum" &c. quoted above.—

Although Law givers give preference to boys of the same Gotrum, still they do not denounce the adoption of a boy of a different Gotrum in supercession of those of the same Gotrum.

Under these circumstances, the adoption mentioned in the question, is valid.

1. The adoption referred to in the question, is not legal, in as much as the Hindoo Law books entitled "Nirnda Punditeyum" "Duttachendriah," "Dutta Conastoobum" &c. &c. generally prohibit the adoption of a sister's son for the three superior classes.-

2. The adoption of a boy of a different Gotrum being authorized by the Hindoo law is perfectly inconsistent with Sastras.

Question to the Senior Pundit of the Court of Sudr Udalut.

Is it not a maxim of Hindoo law that a man cannot adopt one whom he could not legally have begotten- If so upon what grounds, can the adoption of a sister's son be upheld.-

Sudder Udalut, Register's Office, 9th. January, 1851.

/Signed/ G. T. Beauchamp
Register

Answer.

There are various books of Hindoo law, whose principles and Maxims differing as they do from each

each other, must, as usual, be held as referring to the various established usages of the different parts of the Country and of different castes.-

As for example, the commentaries of Jumuta Vahana &c. differ from those of Vynanswara &c. so that the former are held applicable to Gowdas and others the natives of Bengal, and the latter to the natives of this Southern India, according to the usages obtaining among them, in those respects in which the said authorities differ from each other.-

In the present instance my first answer relating to the adoption of a sister's son will have convinced you that that adaption has been upheld with reference to the usage of this part of the Country, which sanctions the inference deducible from the law books. "Vydenath Dutchiteyum"

Dutchiteyum" &c. the Chief authorities prevailing in this Dravida Country, that even the three superior classes, i.e. Bramanahs &c. can adopt a daughter's, or a sister's son. There is no mascim in the said law books "Vydenath Dutchetyum" &c. that a man can adopt one whom he could not legally have begotten. The said Books, on the contrary allow a man to adopt his daughter's or Sister's son who he could not have legally begotten. Hence, it is to be concluded that the said mascim does not apply to the natives of this part of the Country, who conform to the said legal authorities "Vydenath Dutcheteyum" &c. In contradiction, however, to the said "Vydenath Dutcheteyum" &c. the work entitled "Duttamimause" of Nunda Pundita, contains the mascim referred to in the question, Viz. that a man cannot adopt one whom he could not have legally

begotten

begotten but this maxim, opposed as it is to the aforesaid prevailing legal authorities, and to the usage obtaining in this part of India with reference thereto, cannot, in my opinion, be made applicable to this part of the Country.

Under these circumstances the adoption of a Sister's son can be upheld with reference to the books "Vydenath Dutchegeyum" &c. which are sanctioned by the usage of this Country.

Observations of the Junior Pundit of Sudr Adalut.

Having by order of the Register, perused the opinion given by the Senior Pundit of the Court in reference to the question relative to the adoption of a Sister's son

I beg to submit my observations as follows.—

The various Hindu Law Books Viz.t Nunda Punditeyum "Dittaca Chundrica" Vm contain a settled rule against the adoption of a Sister's son Vm among three superior classes, ie, Bramins Vm. This rule is founded on the text "For the three superior tribes, a Sister's son is no where mentioned as a son" But as this text apparently leads to an inference in favor of the adoption of a Sisters or daughter's son among Sudras.— the said Law Books authorize the same referring in support of it to the text "But a daghter's son and a Sister's son are affiliated by Sudras. Furthermore the prohibition of the adoption among the three superior tribes of a daughter's or Sister's son has been strengthened by the text of a Sakalas "Let one of a regenerate tribe destitute of Male issue on that account adopt as a son the offspring of a Sapinda relation particularly, or also next to him, one born in the same general family if such exist not, let him adopt one born in another family except a daughter's son a Sister's son and the son of the Mothers Sister. It is on consideration

consideration of meaning and import of several texts of precisely the same nature that the author "Kandapundita" in commenting upon the passage "the boy bearing the reflection of a son" has laid down a maxim that the man destitute of a son shall adopt the son of a woman whom he could have legally married, or on whom he could have raised issue this special appointment the said author, in conclusion has ruled against the adoption of one who could not have legally been begotten by the adopter himself on account of prohibited connection the aforesaid maxim is so consistent with the law that it has not been negatived by any other author. If such maxim be not therefore accepted or allowed to stand good, then nothing can prevent the adoption among regenerate men, of a Sisters son or a daughters son Vide who are by law, altogether unfit for adoption. If such consequence be tolerated the selection of the Boy for adoption would thus become a mere matter of choice on the part of the adopter. Hence the texts of "Sonnaka" and other sages on the qualifications of the Boy to be adopted would

would become nugatory. Under these circumstances, I am fully of opinion that the prohibition contained in the Law Books "Kundapundityam Duttaca Chandrica Vide" against the adoption by three superior tribes if the son of a Sister Vide applies also to the adoption of the son of a Step Sister.—

2. As regards the Books "Sreeramapundityam" and "Smritimookha phalum otherwise called "Vydenand Deekchitium"—which after referring to and commenting upon a text declare it competent also for Bramins Vide to adopt a Sisters or daughters son, I beg to observe that a reference to the passages contained in the said Books on the subject shows beyond all doubt that the authors of the said works have altered the said text as they pleased and put upon it a construction opposed to all the other legal authorities as will be seen below. In the Book called "Sreeramapundityam" the author referring to the text which says let all classes adopt sons only from among Cousins, and not otherwise or daughters son or a Sisters son in time of distress Sudras are to do so at all times, explains the meaning thereof as follows—

follows. "Men of all classes shall adopt sons from among their cousins only and not otherwise, but in time of distress they can adopt a daughter's or Sisters son. Sudras can do so at all times." From this construction, it clearly follows, that men other than Sudras can effect the said adoption when they have no legitimate sons and that Sudras can do so even when they have sons. In the Book "Srimiti Mookta Phalum" otherwise called "Vydeanatha Deetcheetayem" the author quoting the above text in a different way (Viz.) let all classes adopt sons only from among cousins and not otherwise or a daughters son or Sisters son. As to Sudras they are to do so in time of distress" proceeds to comment upon it as follows. "All men shall adopt sons only from among their cousins and not otherwise or a daughters son or Sisters son." As regards Sudras they can adopt daughters son or Sisters son when they have no legitimate sons. The plain and unavoidable inference from this passage is that the three Superior tribes Brahmins Vaisyas can adopt the son of a Sister or daughter even when they have legitimate sons and that Sudras can do so only

they are destitute of Male issue. Hence it will be obvious that the said authors do not agree, but vary in their interpretation of the text quoted in their respective works as above shown. The interpretation of both of them is diametrically opposed to the doctrine laid down by all the Law givers and commentators to the effect that the man who never begot a son or whose son is dead can only adopt a son. Besides this the said authors took no notice of the notorious text of Sakala and other passages quoted in Para 1 of this report which restrict the adoption of a Sisters son &c. to Sudras prohibiting the same for the three Superior tribes. The opinion enunciated by the author of the work called "Mayukham" on the point is also not reasonable. For these and several other reasons the passages contained in the aforesaid Books regarding the adoption of a Sisters son &c. cannot be considered to be at all consistent with the provisions of the Dhurmasastra. Hence how could any usage alleged to have been founded upon the said passages but which in fact is contrary to every law

law book be considered good or relied on as an authority.—

Under the several authorities herein quoted I still adhere to the opinion that the adoption of a Sister's son cannot at all take place among the three Superior tribes namely Bramins Vaus.

2. This Village which is situated in the Sydapoor Talook consists of wet and dry lands yielding an annual income of about Rupees 477. It was originally granted in A.D. 1792 by Vrucataramana Iyengar to Ingoova Ramasastroolu and descended to his Grand Son Sectaramiah at whose death the Enam was

3. Ramachendriah died in 1848, and the parties who came forward and claimed the property were the two Sons of the late Sectaramiah, the widow of Ramachendriah, and his alleged adopted Son Ingoovah Ramaswamiah being his Nephew, or the son of his step sister.

4. The sons of the late Sectaramiah have it appears relinquished their claim to the Village in question so that the succession to the Enam lies between

5. In reporting on the case in his letter of the 26.th June 1850, the Collector did not touch on the claim of the adopted Son but recommended those of the widow for favorable consideration.

No. 1318 of 1850

6. The Board having received a Petition from Vencata Narain Iyah the natural father of S. Ramaswamiah, on the subject of his Son's title to the Enam Village in question, they forwarded it to the Collector of Nellore and requested him to report on the merits of the case.

Mr. Cons 28.th April 1851.

7. This the Collector has done after some delay, caused by, the enquiries it was necessary to institute regarding first the fact of the adoption itself, and secondly its validity.

8. From the depositions taken before the Collector of Madras it was fully established that S. Ramaswamiah had been received in adoption by the late Ramadorah, and that he was at the time about 6 years old.

9 The validity of the adoption having next to be determined, it will be seen from the papers submitted with the Collector's letter of the 28.th April 1851 that this question was submitted to the Sudr Udalut for the opinion of their Hindoo Law Officers. The point referred was, whether a person could adopt his Sister's son, he and his Sister being the children of different mothers.

10. The Senior Pundit of that Court pronounced an opinion in favor of such an adoption while the Junior was opposed to it. The subject was in consequence of this difference of opinion referred to Calcutta and the Law Officers of the Sudr Dewanny Adaulut delivered his sentiments which were found to coincide with those of the Junior Pundit at Madras.

11. The Board do not consider it within their province to enter upon an argument as to which of the opinions here cited is the correct one, for they consider that the general practice of this part of India is entitled to more consideration in determining questions similar to

to that now before them, than the nice legal interpretations which may be quoted in particular questions of Hindoo Law. It is not surprising that amongst the numerous text Books and Commentaries of the five Schools of the Hindoo Law passages of a contradictory nature should be found, and hence it is that some of the most important points connected with the Law of adoption, such as the time when an adoption should take place, and the ceremonies essential to validity have been left undetermined. From a careful perusal of the legal opinions now before the Board it is quite clear that the question under consideration is one of this nature.—

13. However this may be it is not denied, that there are numerous instances of adoption by a Brahmin of a daughter's or a Sister's Son in these Southern provinces, the usage and practice of the country being in favor of it. On this point Mr. Ellis commenting on the legal opinions regarding the validity of such an adoption

e.g. The case of Kristnarow, late Head Sheristadar of Canara. Vide Govt. 21st December 1848.—

adoption writes to the following effect— "In practice the adoption of a Sister's son by persons of all castes, is not uncommon, the authority above quoted resting as it does, on a single text and that not pointedly prohibitory, cannot be considered sufficient to vitiate such an adoption."

Appendix to Strange's Hindoo Law 77.

13. Under these circumstances, believing as they do that the adoption of Ingoovah Ramaswamiah cannot be held to have become vitiated on the ground of his being the son of the late Ramachandriah's, † step Sister, the Board are of opinion that he possesses a preferable title to succeed to the Enam Village of Parlapully and they accordingly recommend that the sanction of Government may be granted for the registry of the Enam in his name and the payment to him of the Surplus funds in deposit which at the present time amounts to Rupees 1,080—11—9 the widow of the late incumbent receiving from him

was under the necessity of reporting this Officer to the Board for misconduct in his Police duties. On that occasion the Board of Revenue in a letter from the Secretary dated 28th. May 1849. directed punishment, which they pronounced liment of one Months suspension, and impressed upon Sashageree row the necessity of greater circumspection and attention to his duties in future. I fear this caution has been of little avail for in several occasions I have been dissatisfied with the manner in which he performs his duties especially his police business. On one occasion since I reported him to the Board. Viz. in September last, I was compelled to animadvert most stringently on his proceedings against certain parties whom he charged with Sorcery and treated oppressively, but I then contented myself with calling his attention to the orders of the Board before quoted and with solemnly admonishing him that his conduct would inevitably end in his being removed from his Office if he was not more careful. He has always

exhibited

exhibited more than ordinary incapacity in his Police business, which I attributed in a great measure to carelessness, partly to infirmity.

3. The occasion which has compelled me again to resort to the unpleasant task of reporting this Officer to the Board is stated at full in the accompanying letter to my address from the Assistant Magistrate Mr. C R. Pelly I would request the attention of the Board to that letter, as it states the whole matter so fully as to render it unnecessary for me to do more than briefly state the case and comment on it.

4. Six Persons were seized on suspicion of having committed a robbery at Hollalagondy in the House of Vencatrow and Nagavendrow brothers/ the latter a public Servant holding the station of Tillahdar/ on the night of the of April They were seized by the Village Police on the 8th and 9th of April They were sent to the Village Police on these days by the Tahsildar

Tasildar sent a Police Duffadar and peons on the 9th to the Village and went himself on the 10th in the evening or later. He must have known that day at least that the prisoners had confessed - and though some had been 3 days and others 2 days in confinement no step was then taken. The late hour of the day may be admitted as an excuse - But on the next morning, the 11th it was the Tahsildar's bounden duty to have the prisoners brought before him. He says he did not do this, Other parties say Mallador/ the deceased prisoner/ was brought before the Tahsildar - The Tahsildar merely says he heard that Mullador had confessed. At all events it was a most culpable dereliction of duty on the Tahsildar's own admission not having the prisoners brought before him - especially as he knew they had confessed and more especially as one, the deceased had/ as it is reported/ confessed where the stolen property was to be found - On hearing this on the morning of the 11th the Tahsildar orders the Prisoner Mullador/ deceased/ to be sent to a Village /Yellurty/

/ yellurty / about 5 Miles distant for the property. The prisoner is brought back the same evening without the property and again without any investigation before the Tahsildar, remanded to the custody of the Village Police and kept that night again, as were the rest of the Prisoners in the Village, without any deposition having been taken from them. On the next day this Mullador is taken out, allowed to go to a well to wash in charge of the Talaries, while ascending the steps of the well he fell down twice on the steps, and received such injuries as to cause his death a few hours after. The Talaries in charge of him state that he fell accidentally, and before they could recover him he fell a second time. The more probable solution is, that the Prisoner, the deceased Mullador, to avoid further annoyance and oppression, did himself strike his head repeatedly on the steps; perhaps not intending to kill himself but to alarm his oppressors and it is possible that in one of the depositions of the before the Tahsildar this is the account

given by the Talary of the accident, but on being questioned afterwards he corrects himself and says the deceased simply fell

5 The evidence in this case, as it generally happens in cases of a similar nature when the Talook authorities are involved in culpability, is not to be much credited, and I regret much that there is not evidence to substantiate a charge of oppression against the parties whose dealings with this unfortunate man have (as I think there is too much reason to believe) been the immediate cause of his death.

6 Had the Head of Police conducted the investigation in the manner prescribed by repeated orders, this calamity would not have occurred. It seems to me that the Tahsildar connived to say the least at the oppressive proceedings which I have little doubt were the cause of the prisoner's death, for it cannot be credited under the circumstances of the case that the deceased accidentally slipped while ascending steps of a well, and inflicted so severe an injury as to cause his death. But may not the

the Tahsildar's entire neglect of duty in the matter his allowing 6 prisoners to be detained in custody of peons and Village Police for 5 days and under his own eye for part of that time, throw at his door the whole responsibility of having indirectly, through his misconduct, caused by the fall of the prisoner.

7 At all the events after the orders passed on the former occasion referred to, it is my duty to report this case for the Board's orders. I have just had occasion to make some changes among the Tahsildars and have taken the opportunity of transferring Sashageree row to Gudahy Taluk of lower emoluments, for the present, pending the Board's orders for the punishment which in their view of the matter should be inflicted.

8. Sashageree is an old servant and has filled the situation of Tahsildar 17 years. He suffers from bodily infirmities and is not competent to perform his duties with and these infirmities are perhaps the cause

of his frequent remissness in his duties.

Sir,

It is with regret that I feel called on to draw your particular attention to a case which has occurred in Hollalagundy in the Goolem Talook which has resulted in the death of a Prisoner while under the charge of the Police.

2 It appears that on the night of the 7th of April a robbery was committed in the house of one of the Talook Tillaries to the amount of Rupees 224 6-8—. Six persons were arrested by the Tallaries on suspicion one of whom has since died under circumstances such as to cause a suspicion that his death has either resulted from ill treatment or been his own act in consequence of ill treatment received.

3. At the time of the robbery the Peadaly

Reddi was absent at Goollem a distance of about 3 cos and the Tahsildar was at Alloor a distance of about 5 Cos. On the morning of the 8th intelligence of the robbery reached the Reddi he then proceeded to Hollalagondy which place he reached at about 10 P.M. on the night of the same day prior to his arrival the three parties mentioned in the Margin† had been arrested though the above prisoners had prior to the arrival of the Reddi sent word to the Talaries - No steps appear to have been taken to inform the Tahsildar of what had taken place until the following morning viz. the 9th when a letter was written by the Reddi that letter reached the Tahsildar on the 10th when the latter Officer proceeded to Hollalagondy and reached it between 8 and 10 P.M. having previously on the morning of the 9th in consequence of a report he states having reached him of the robbery sent a Duffadar and two Peons to Hollalagondy to enquire.

5. From the Tahsildars Urzee it appears that that Officer on his arrival at Hollalagundy on the night of the 10th merely ordered the Village Authorities to watch themselves to arrest the delinquents but the Statements of the Reddy Bopanna gaud and Duffadar Sevalal leave but little room for doubting that the Head of Police was not only made aware that night of all the circumstances of the case but also of the fact of 6 persons having been arrested and of their having all made a confession of guilt before the Reddy who also in his letter of the 9th informed the Tahsildar that some persons had been apprehended and had confessed.

6. On the morning of the 11th the deceased Malladoo stated to the Talaries that he

the Reddi 3 other parties were arrested on the 9th in consequence of the prisoners who were first arrested having stated that they afforded assistance in the perpetration of the robbery.

5. From the Tahsildars Urzee it appears that that Officer on his arrival at Hollalagundy on the night of the 10th merely ordered the Village Authorities to excert themselves to arrest the delinquents but the Statements of the Reddi Bojoana good and Duffadar Sevalal leave but little room for doubting that the Head of Police was not only made aware that night of all the circumstances of the case but also of the fact of 6 persons having been arrested and of their having all made a confession of guilt before the Reddi who also in his letter of the 9th informed the Tahsildar that some persons had been apprehended and had confessed.

6. On the morning of the 11th the deceased Mallados stated to the Talaries that he

he had given 10 Pagodas of the stolen money to a relation resident at Yellurty, a Village about 1½ Cos distant, this circumstance was reported by the Reddi to the Head of Police who according to his own Statement merely ordered the deceased to be taken to Yellurte it appears however from the Statements of the Reddi and Duffadar Sevalal that the deceased was taken before the Amildar and after confessing in the presence of that Officer was sent to Yellurte which is most probably the case.

7. The deceased was taken to Yellurt on the morning of the 11th and not brought back till the evening of the same day though the Villag was only 4 or 5 Miles distant as the parties to whom he asserted he had given the 10 Pagod denied having even seen him for 6 Months previous. The deceased was on his return again given over to the charge of the Reddi by order of the Head of Police. On the following Morning when ascending the steps of a well to which he had been taken by the Talarees he is stated to have fallen from

forward inflicting a severe wound on his head and before the Talarees who were with him could reach him fallen a second time from the wounds then received as is stated, he died at about 1 P. M. the same day Vizt. 12th.

8. Notwithstanding that the deceased confessed before the Talarees and Village Police so early as the 8th and 9th and there can be but little doubt before the Head of Police himself on the 11th written Statement was taken from him previous to his decease on the 12th though the Tahsildar arrived at the Village on the 10th the Head of Police states that as the illness of the complainant prevented his giving his depositions he did not examine the deceased before sending him to Yellurte a reason I beg to submit inadmissable as the Head of Police must be aware that the receiving of a voluntary confession from a prisoner ought not to be delayed until a detailed account of the particulars of a case can be received from a Complainant.

Though

9- Though after a careful investigation of the case I have been unable to obtain evidence for bringing a charge of Murder against any of the parties in whose custody the deceased was at the time when he met with his death yet that injuries so fatal could have been received in the manner stated appears improbable the more so as two of the parties who were arrested on account of the robbery have stated both before me and the Head of Police that they were in charge of Talarie subjected to ill treatment in order to make them confess. Legal proof of this however is wanting.

10 Though the conduct of the Pat[el] in not at once forwarding the Prisoners to the Head of Police on the 9th instead of merely writing a letter is censurable yet as the Head of Police had left his Post and afterwards went himself to Gullaby on the 10th and took no Statements from the Prisoners all until the 13th when he took those of the other prisoners his remissness appears to me to be

of the highest censure.

Proceedings thereon:-

Observations respecting the cultpable conduct of Sashagherry Ram Tahsildar of Goollam in the District of Bellary and directing for the reasons stated that he be removed to another Talook on less emolument.

28-29

The Board are unable to perceive on what grounds Mr Pelly concludes that the death of the Prisoner is attributable to Sashagherry Row or why it cannot be credited that the deceased accidently slipped while ascending to the steps of a well. There is no evidence of any oppressive proceedings on the part of the Tahsildar which Mr Pelly has little doubt were the cause of the Prisoners death and the probable solution of the circumstances as mentioned at the end of para 4 of the Collectors letter is quite supportable.

That the Tahsildar might & ought to have examined the man earlier is true, but he does not seem to have exhibited such a degree of negligence as

in the case as to require any heavy pu-
nishment. The robbery was committed
on the night of the 7th The prisoners
were seized on the 8th and 9th The
Jahsildar repaired to the spot on the
evening of the 10th On the Morning of
the 11th he sent the deceased prisoner to the
Village where it appears he confessed the
stolen property was and on the next day
when allowed to go to the well to wash
in custody of the Talaries he fell on the
steps and was so injured that he died.

3. The fault of the Jahsildar was
that he did not take a Deposition from the
deceased on the Morning of the 11th before he
sent him to Yellurly or in the evening after
he returned but this cannot be construed into
an offence equivalent to causing the Prisoners
death by ill treatment.

4. In consideration however
of the other circumstances of exception
in para 2 of Mr Pelly's letter in spite of the want

conveyed to him in the Board's letter of
28th May 1849 - they approve of the Jahsildar's
removal to another Talook on less emolument
and should it be shown that he is still unfit
for his Police duties he will be dismissed.

5. The Board have no desire
to force upon the Collector and Magistrate
any Officer in whom he has no confidence
but justice to all parties requires that
grounds for suspension or dismissal should be
clearly made out before they can sanction so
severe a punishment.

Sir,
I have the honor to report
that

the nature of certain objections raised by some of the Coffee Planters on the Sherwaroye to the Conditions of the Puttahs issued for Fuoly 1257 showing how Mr. Cockburn's apprehension of the Board's Orders would seem to have originated and requesting instructions for his guidance.

Mr. S. Cockburn to Mr. S. Lewis

that exception is taken by the parties marginally named to the conditions of the Puttas issued for the past Fuoly (1259) of which without orders and instructions from your Board I am unable to dispose.

2. In view to a clear Statement of the points of exception, I am under the necessity of adverting to former correspondence the intent of which would seem to have been misapprehended in this Office.

3. On the date noted marginally your Board communicated to the late Collector a transcript of an Extract from a General Letter from the Honorable Court of Directors intimating their approval of the rule laid down by the local Government that lands taken up on the Sherwaroye should be granted for a period of only 21 years

October 28th 1844

4. The late Collector subsequently reported that lands were "granted on the Sherwaroye to the Settlers for 21 years" but I am satisfied that I quite comprehend the meaning of the report as none had previously been granted

July 20 46

granted. He also made a suggestion which your Board approved by ordering that in all cases in which parties may take leases of land on the Sherwaroye the stipulations be introduced into their Melchilvaram binding them to pay any rates of taxes which may hereafter be imposed on their lands on the general remission of the Hill Assessment.

Proceedings 30th March 1846

5. On the 4th June following a notification was publicly made that such would be the arrangement for the future. Nevertheless the intended new rule was not acted upon for that Fuoly nor for Fuoly 1256 nor for Fuoly 1257. In Fuoly 1258 however it was brought into effect so far as the warding of the Puttahs of that year went and its operation elicited from the Reverend Mr. Blenkinsop the representation disposed of in your Board's proceedings of the 5th November 1849. It does not appear that any of the other persons concerned in Coffee cultivation on the Sherwaroye objected to their Puttahs for Fuoly 1258. perhaps

closing part of the Boards proceedings on Mr
Blenkinsop's letter above quoted - "The Collector
"will further be pleased to make a similar
"change in all Puttahs which may hereafter
"be granted for land taken up on the Shervaroy
"Hills and in the Counterparts - it has been
understood in this Office that the prescribed
alteration was intended to be made in the
Puttahs of every planter to whom Puttahs
had theretofore been given and under that
impression the Puttahs prepared and distributed
for the past Fusly /1259/ to the Settlers on the
Shervaroys were drawn out according to the
form of which they to forward a translation.

6. The change in the tenor of the
from what it had been up to Fusly 1255 and the
made to a term of 21 years have Jam

caused considerable anxiety and dissatis-
faction among the Hill coffee planters,
but no open objection was made until
Febr 19th-51 the date noted marginally, when Mr R.
Cockburn returned to me the Puttahs
which had been forwarded to him for Fusly
1259, declining to accept them on the
ground that "there are stipulations in
"them regarding my / his / tenure of lands
"up here which were never in my / his /
"puttahs before either when I / he / received
"them from the Malcealees or from the
"former Collectors of Salem after the lands
"came under Summary.

Mr. R. Cockburn thinks
J.
that especially paras 3 and 11 "are unjust
to the old Settlers." I pointed out to Mr Cockburn
February 25th 1851 that the Notifications of a former Principal
Collector, Mr Gleig, of the marginal
September 17th 1842 October 11th — dates, showed clearly that the rates
thereby ordered to be levied on the land
occupied as well by Settlers as by the
native inhabitants of the Hills, were to be
considered but temporary; that para 4 of the Puttah
objected to by him plainly indicates that
there is no intention of resuming lands

and

and that provided the assessment fixed previous to, or to be fixed after, the expiration of the term of 21 years be paid, he was at liberty to occupy the said lands in perpetuity.

8. I also pointed Mr Cockburn's attention to Mr Gleig's Notification that puttahs received from the old renters would be recognised only to the extent of such land as might have been actually cultivated in, or paid assessment for Fusly 1258 — October 11th 1842

9. Mr Cockburn is not satisfied. He argues that the lands he holds were obtained principally from Mulkwahs were cultivated in and paid assessment for Fusly 1251; and again declining to accept the Puttahs appertaining to the Settlement which was last year made on the Hills by Mr Mallby the Sub Collector then in charge of the District has again sent them back to my office — May 2nd 1851

10 Mr Sinclair's objections though not urged to the length of Mr Cockburn's, are of a similar character Vizt that he resumed his lands from Mulkwahs

Mulkwahs, and deprecates a change in the form of Puttah hitherto issued to him.

11 Under these circumstances I beg to submit that if I am correct in my supposition that your Board's instructions of the dates entered in the margin were intended to apply to land newly taken up subsequent to your orders reaching this district and not to lands previously in the occupation of Settlers, it seems necessary I should be now authorized to meet the wish of Messrs Cockburn and Sinclair and that I further be permitted to call in the Puttahs hitherto distributed for Fusly 1259 and reissue them in the Form which obtained up to Fusly 1255, Vizt, the form that now obtains for lands in Amany Villages in the permanently assessed Talooks of my charge; or that I be favored with such further information in respect of the Board's views as may seem best calculated to enable me to meet the objections raised by Messrs Cockburn and Sinclair. — March 30th 1846 / Nov 5th 1849

12 In conclusion I would add that I believe Mr Cockburn has been put forward by persons holding

holding pattahs originally received from the Mullealees in order to the question now raised by him being if possible adjusted by the revenue authorities of the district failing which that it will be carried for adjudication before a judicial tribunal

13 It seems to me that no valid objection can be maintained against the insertion in the Cuttah of mention of the proposed modification of the assessment which land on the Hills is hereafter to bear; and on that point I do not anticipate any difficulty in bringing the planters to terms, but it is, I understand, their belief, that the slightest appearance of a limit to their right of occupancy, is likely to diminish the value of their coffee estates should they be compelled to bring them into market for sale.

Proceedings thereon. There appear to be two objections taken by Messrs R. Cockburn and Sinclair, both Coffee planters on the Shervaroy Hills, to the conditions contained in the Puttahs granted to them for Fusly 1259 for their holdings.

1st That the lands in their holding is to be 21 years only in their occupancy from the date of their obtaining it.

That the assessment now payable is temporary, and liable to alteration when a Survey takes place.

2, In reference to their objections to the 1st point it is observed that on an application from Mr J. Ouchterlony submitted this thus Office for one or two thousand Acres of land on the Shervaroy Hills for planting Coffee, Government were pleased, as an inducement for him to invest Capital thereon to authorize that a lease for each land should be granted to him for 21 years, to

It was evidently this grant and the orders then passed that were approved by the Honorable Court of Directors, but in no Government does it appear that they intended to restrict grants of land taken up for coffee cultivation on the Shevaroy Hills to a lease of 21 years. and it would appear from Mr Phillips letter that fewer no Leases were granted to the Settlers for 21 years

From Govt 8th inclosure 24th Octr 1845

3 It is understood to have been the rule that when land is taken up for coffee planting the Settlers has the benefit of the 5 years rent free, if the land is found to be Unmerchantable Waste that he has to pay 1 Rupee

an acre as laid down in Para 2 of Board's Proceedings 8th September 1842 after the expiration of 1st five years, and that, on his application being complied with, he holds the land not on a lease, but on a simple Puttah which can run on to an unlimited period provided there be no change in his holding.

4 The insertion in the Puttah for Fusly 1259 of the condition "and you shall further hold the land for 21 years from the date of obtaining it," &c &c is therefore viewed by the Planters as a limit to their right of occupancy. and as such likely to deteriorate the value of their Estates.

5 The Collector states that the addition in reference to the limit of 21 years was made in all Puttahs under the orders conveyed to him in Proceedings 5th November 1849 on Mr Blenkinsop's application, but the form of Puttah now forwarded by him does not run in the exact terms in which the Board modified Mr Blenkinsop's lease

Proceedings 12th October 1848.

lease which corresponded with the modifications authorized in Clauses of Messrs Ouchterlony and Fisher's lease.

6. The Board's orders of 5th November 1849, were intended to be applied to Lands on the Shevaroy Hills then in possession of Planters on similar leases of 21 years, which from the late Collector's letter of 19th February 1845 they understood to have been usual. These orders were also intended to be applied to land newly taken up on Puttahs subsequent to these orders reaching the Collector. With the exception therefore of the Leases and Puttahs to which those orders were intended to be applied the Collector will recall the Puttahs in which the objectionable clauses have been introduced, and will furnish fresh ones after the manner of an ordinary Puttah, the term of which continues long as the rent is paid without any limitation of time.

Rubens 31st March 1846.

7. In reference to the 2nd ground on which objection has been taken to the terms of the Puttah of Feby 1849, it is remarked that the

existing instructions relating to the rates of Assessment which should be levied on Lands on the Shevaroy Hills which had first been reverted from Rent to Summary the Board in Para 2. of Proceedings 8th September 1842 directed that especial care should be taken to make known to both classes of occupants original inhabitants or Malialees as well as Settlers, that the rates then allowed were only temporary, and would be liable to revision and change on the introduction of a Survey.

8. The insertion of

Fort St George 15th June 1851

of this provision in the Moo-
dulka under the Board's order
of the 30th March 1846 cannot
therefore be objected to on va-
grounds and no alteration
should be made.

Fort St. George 15th June 1851.

For the remaining 65/8 Shares however, no claimants have come forward. The amounts to which they are entitled have therefore been retained in deposit.

3 The Petitioner on the 2d February 1849. presented an address to the late Collector urging his claim to five out of the above unpaid shares, asserting that he had obtained them from their proprietors Allaghenny Charry and others, by purchase mortgage, or transfer. In a separate address he also claimed 1/2 of the Shares now in the actual enjoyment of certain shareholders whose right thereto is derived from a mortgage by the original Appakarundars.

4 A careful and lengthened enquiry having thereon been instituted, it has been ascertained that no allowance is made to Petitioner or to his alleged interests and rights, and that his name is neither directly nor indirectly referred to in the Register of shareholders and shares which in communication with the then ostensible

ostensible proprietors was prepared in this office in fusly 1231 & the absence of which in the said Register the Petitioner in a deposition recorded before the Shusildar of Arkoor, is wholly unable to explain. The shares indeed to which Petitioner now lays claim on transactions dating some years prior to the preparation of the Register, are entered in that Register as those of the proprietors from whom Petitioner asserts that he derived his rights. It is, however to be observed that those proprietors were not present at the time when the Register was drawn up, and that a note appears in it to the effect that in respect of them, some future enquiry will be made.

5 The Petitioner does not now advance his claims with the support or knowledge, or consent of any of the parties who, he alleges, executed documents in his favor; and of the witnesses, who on reference to those documents are observed

to have attested them, some are dead, some have left the Country, or from various causes are not now to be found. I find also that some years back this same Petitioner was sent up to the Huzzoor Cutcherry by the local Shanildar in order to enquiry being made in respect of his claim to certain shares of which he professes them, as he does now, to possess a correct list, a list which he argues ought to be recognised and acted on by the authorities. His visit to the Huzzoor did not apparently produce a recognition of his then asserted rights, otherwise he would now have no complaint to make. But, as matters went so far at that time, I think it safe to infer that his claim was not admitted and that it must be the same which he now revives. The point however cannot be traced, and notwithstanding my summons issued six weeks ago through the Collector 16th Inst. the Petitioner has failed to appear and clear up the point.

Fort St. George 16th June 1851.

Under these circumstances, I did not feel that I should be justified in recognising so ill supported a claim, and I therefore rejected it under date the 14th October last.

7 I beg to add that in so doing I was not aware that the Petition now under notice, had remained my office and was without a reply. In forming my view of the case it appeared to me further to be desirable that if still in existence, the reputed owners of the 6⅝ shares in question should not be allowed any longer to defer bringing their claims forward for official adjustment. Accordingly I issued a notice requiring them to appear within a period of six months from the above date intimating that in default the shares entered in their names would be resumed.

Since I despatched my communication to your address dated 5th instant on the subject of certain paras in the Gunnamahbundy report of the Agent to the Governor at Kurnool for July 1839, a doubt has occurred to me whether I am quite justified in stating that in a letter to me the Agent bore favorable testimony to the efficiency of the late Shasildar of Serivail, as several letters reached me at the same time respecting the accident which caused the Shasildar's death, and I have not the Agents letter now to refer to I should therefore wish to modify that part of my communication, and have the honor to request you will favor me by obtaining the Board's sanction for its retransmission to me for that purpose—

Proposed Special Appeal Petition to the Sudr Udalut from the Decree of the Civil Court of Madura in Appeal Suit No. 39 of 1850.—

This is an application for the admission of a special appeal on behalf of the Guardian of the Minor Zemindar of Shevagunga against the Judgment passed by the Civil Court of Madura in A. S. No. 39 of 1850, confirming the Decree of the Sub Court of the same zillah in O. S. No. 37 of 1847 which asserted the validity of Cowles by which the Zemindar of Shevagunga in 1831 granted the undermentioned Villages, Viz. 1 Manthoocummoy Oothoo Cummoy. 2 Nettanidel, 3 Manthoocummoy in perpetuity, on a low fixed pent of Rs. 105 3 9 to Soobaramien and Venentaroobien alias Thoraramien the 1st and 2d Defendants in that Suit, and to one Ramasawmien.—

2 The original Suit was brought by the late Zemindar who considered that the Cowles had been obtained from him by imposition with the Connivance of his Servants as the usual previous investigation

investigation was not made and the boundaries were indistinctly defined so that the Defendants have been enabled under colour of the Cowles to encroach upon the Syn lands.—

3 These pleas however have been overruled by the Courts below, and it is not now intended to dwell upon them.— The ground on which your Petitioner makes this application, is that the Cowles which grant land in perpetuity at a lower rate than the full Seerwa are in themselves illegal a point of great importance. While the Seerwa on Kunjah in general in the Shevagunga Zemindary is half the produce taken in Kind, that stipulated by the Cowles is a fixed money rent on the whole lands far below the value of the half produce.

4 The Provision of the Legislature which is relied on for securing to Zemindars liberty to grant Cowles is Regulation XXX of 1802 Section XX The previous sections of that enactment had prescribed that Zemindars should

give Ryots yearly Puttahs for their lands. They might therefore have been construed to preclude them from bestowing lands on such terms as would permit of the erection of Buildings, and encourage Ryots to bring fresh lands into cultivation. To obviate this objection, clause XV was added to authorize Proprietors of land to grant leases for any terms of years or in perpetuity, for the erection of dwelling and other houses, and to grant Puttahs for clearing and bringing waste land into Cultivation. On reference to this Section it will be remarked that whereas the words "in perpetuity" are included in the sentence relating to houses, they are not used in that relating to the Puttahs for the cultivation of waste, and from the form of sentence and mode of punctuation cannot be taken to apply to them.—

5 It has been ruled therefore by the Board of Revenue and by the Government that the Puttahs for clearing waste legalized by the aforesaid

aforesaid Regulation are progressive Cowles permitting a relaxation of the full Tarwa for a time, but stipulate for it eventually, after such a period indulgence as might be supposed sufficient to remunerate and reward the enterprising Cultivator.—

6 To ascertain whether the Construction was in accordance with the Law, Government made a reference to the Judges of the Sudr Adalut which was answered under date 27th April 1831 The opinion thus expressed by the Judges has been considered by the Government and Board of Revenue as Confirmatory of their views and to pronounce forfeited Cowles by Zemindars illegal.—

7 This circumstance having been brought to the notice of your Petitioner soon after the promulgation of the Decree of the Civil Court of Madura, he applied for a Review of Judgment to that Tribunal and at the same time a Caveat to the

† 19th March 1831

letter of the Sudr Adalut to Government as alluded to above.—

8 Under date the 30th April last the Civil Judge declined to apply for leave to review his judgment and in stating his own opinion in favor of the legality of perpetual Cowles, thus explicitly declares that he construes the terms made use of by the Sudr Adalut to Confirm it.— Viz. "He takes the Sudr to have expressed "their opinion that provided the land was "actually waste and the Puttah granted "bonâ fide for the purpose of bringing "it into Cultivation and that no fraud "or Collusion can be shewn that the "terms of the agreement may be such "as the parties shall agree and that "the Cowle may be a lease for ever "on a low Rate."

9 This construction the Petitioner deems to be at variance with the real intention of the Sudr Adalut and he conceives the Civil Judge to have erred from not giving due consideration and weight to Para 3 of the letter in question.

By this

This is as follows "It appears to the Judges that the alienation of valuable waste lands as above described is at variance with the provisions of Section XII Regulation XXV of 1802."

10 Now the description alluded to is contained in the letter of Government dated 12th April 1821, the clear and indubitable object of which was to obtain the opinion of the Judges as to the legality of grants of waste land in perpetuity subject only to the payment of a quit Rent. In using the terms "valuable lands" the Government certainly referred to waste lands capable from goodness of soil and the advantages of being made valuable by Cultivation. and the Petitioner conceives that the Sudr Adalut must have understood the terms "valuable lands" in the sense we have intended that they could not be alienated in perpetuity on any moderate Rent.

11 What follows as regards Pullah in Para 5 of the Judges letter the Petitioner

only to imply that provided an eventual full Seewa was involved in the Puttah they could not undertake to define the exact limits of the preliminary favorable assessment.—

12 Such being the case your Petitioner prays the Honorable Court to admit a Special Appeal for the purpose of Considering and determining this very important question, and that they will declare the Cowles obtained by the Defendants to be null and void.—

3 Streenevasa Row ameen of Jacoporvanum Taluk &c.

4 Arunoogum pillay son of Vellia pillay of Cadumbagoolum in the above Taluk and a Cultivator.

Answer to O.S. No 77 of the subordinate

1 The alleged order in Fusly 1217 / 1807 (Chetumberal Comaroo pillay) authorising Plaintiff's elder brother to enjoy the fish of the channel in question in perpetuity paying a fixed rent of 3 Cully Pons per annum was not in fact so nor is the Plaintiff entitled to claim the rent in perpetuity for reasons shewn below.—

2 It is true that Plaintiff's elder brother and Plaintiff himself held the

the rent in question for many years up to July 1757, but if this circumstance was owing to his having obtained a perpetual Rent from the original Zemindar he would have a Deed to shew in support of his right. In the absence of such a document it is natural to conclude that his previous possession was owing to no more favorable offer having been made to the Zemindar, and the 1st Defendant therefore felt himself bound to follow the general practice of the Zemindary of putting up the Rent to auction. It may be a question whether even if a perpetual Rent Deed by the first Zemindar could be produced by the Plaintiff, it would be binding on the present Zemindar as his representative since the first Zemindar had no right to give any Cowles permanently infeoffing the progressive improvement of the Estate.

3 The Sist Rent of many Aryan Villages in the Company's Salaks have been held for a series of years at the same Rent by the body of Ryots or Individuals, but the mode of collecting

source of Revenue is merely a matter of choice and convenience; it does not confer a right of perpetual enjoyment on the Ryots. If the Court will refer to the Proceedings of the Sudr Udalut under date the 10th July 1816 on the Records of the Civil Court it will perceive that this point was considered, and it may be said, settled in favor of Government in the case of the Village of Arungaponum in the Madaeadum of Salaks. The Ryots and Mahajans of that Village litigated with each other the right to the sist Rent, and the Collector not being a party the suit was necessarily decided in favor of one of them, but when the Collector was applied to, to execute the Decree he asserted the right of Government to obtain the best rent it could and it will be seen as that the Sudr Udalut prescribed, that on presentation of a Miscellaneous Petition by the Collector to this effect execution of Precept should be suspended and the successful litigant told to sue the Collector. This suit was never brought,

Fort St George 15th June 1857.

brought and the Village fishery is now rented from year to year to the highest bidder.

4 With so strong a proof of the payment of the same Amount of Tisk Rent by the same parties from a long period forming no obstacle to another mode of settling this branch of Revenue, it is unnecessary to notice particularly the assertions of the Plaintiff in Para 2 & 3. If true they only prove that he and his brother were suffered to hold the rent in certain years.

5 The Defendants from 2 to 4 acted under the orders of the 1st Defendant.

For the foregoing reasons the 1st Defendant prays that the Court will be pleased to non suit the Plaintiff with Costs of the Suit.

3 The highest offer made by the Individuals named in the accompanying Statement for the Arrack and Toddy rents of the District amounts to Rs 31,100 which is Rupees 6,965 in excess of the sum for which they were sold last year.

4 The Mill rents of Tencanoy, Vadacanoy, Brummadaxum, Nangoonary and Vellayoor were Knocked down for the sums mentioned opposite each in the Statement, making altogether Rupees 3135 or Rupees 180 in excess of the sum for which they were sold for Fusly 1260.

5 I regret to state that no one appeared to make any offer for the Bank rent for the ensuing year.

3372 Rs 6. The proposed Renters having all in addition to a deposit of one Months Rent tendered security for the due performance of the contracts orders have been issued to the Tahsildars to ascertain and report on the competency of their securities.

7 Under these circumstances I have the honor to request the early sanction of the Board for the final acceptance of the proposals now submitted.

Sir, I have the honor to forward the usual Statement of the sale of the alKarry Rents for Fusly 1261 and to request the Sanction of the Board for this arrangement.

2 The amount of increase in favor of 1261 is only Rupees 9 as will be seen from the above Statement.

3 The rental of the Neilgherry Farms has fallen this years from 22601 to 16800 or 25-10-8 pr cent. from the absence of Competition, and it appears that the Renters sustained a serious loss during the past year.

4 The whole of the alKarry Farms with the exception of CheeKraghurry, were disposed of by Mr Thomas previous to that Gentleman's leaving the District, and the sale of the Farms of the CheeKraghurry Talook was conducted by me.

5 The preliminary arrangements with reference to the amount of deposit and securities are in progress and the orders of the Board on these points will be duly attended to.

From the Secretary to Government Directing that the sum of Rupees 9,000 realized from the Sureties of the late defaulter Pam Chetty in the District of Bellary be carried to the credit of Government and declining to allow any Commission on certain embezzled Stamps- According observations respecting the examination of Treasuries &c.a by Head Sheristadar-

Extract from the Minutes of Consultation in the Revenue Department, under date the 12th June, 1851-

Read the following Extracts from the Proceedings of the Board of Revenue-

(Here enter 1st and 9th May 1851 No 789 & 217)

Para 1- In the 1st of the above Extracts the Board of Revenue submit a letter from the Collector of Bellary in which that Officer reports that the whole amount of the Stamp embezzlement- Rupees 24,431-4-11 has been recovered by the sale of the property belonging to the family of the late defaulter Pam Chetty and to his sureties, and requests instructions whether the Commission of 5 per cent allowed to Rupees 1221-12-11 on the deficient Stamps may be considered as forming part of the Estate of the late Darogah and whether that proportion of the deficiency which has been recovered from the Sureties may at once be carried to account-

The Government agree with the Board that there is no objection to the sum Rupees 9000 realized from the sale of the effects of the Sureties being carried immediately to the public credit; but they perceive no reason for allowing Commission on the value of the missing Stamps- such Commission being claimable only upon the proceeds of Stamps sold and not on the value of Stamps embezzled- The entire deficiency Rupees 24431-12-11 will therefore be made good without deduction-

2.

3. From the letters laid before Government by the Board with the second of their communications above recorded it appears that

that Kistnamah Chetty the father of Ran Chetty does not contemplate any further proceedings; but that actions have been instituted against the Collector by the Sureties in the Subordinate Court of the Zillah. It seems too from Mr. Petty's letter of 29th April that it has never been the Custom in Bellary for the Head Sheristadar to exercise any special control over the Stamp revenue. The Stamp accounts have passed only through the Treasury and the English account departments and of late years through the latter department alone. This was most improper, but the Right Honorable the Governor in Council will not now notice it further. He has very recently expressed his opinion on the highly objectionable practice which obtains in some Districts of allowing some one or more branches of the public revenue to be excluded from the scrutiny of the Head Sheristadar and has desired that those Officers be allowed the same access to the accounts of every department of the Cutcherry, as is enjoyed by the Collector himself and that they be warned that their duty involves the control of every source of Government Revenue and that they will be held responsible for neglect to maintain that supervision in any department whatever. He trusts that these orders will be sufficient for the prevention of such irregularities as those which have occurred in the Stamp Department at Bellary-

For performing the services in the Mosque	From 1st August 1834 to the end of April 1849 being 14 Years - 9 Months	636 1 6 Six hundred and thirty six and one Pice six.	Agreeably to the instruction contained in the Extract from the Proceedings of the Board of Revenue under date the 9th January last the acting Collector has the honor to state that from the Proceedings submitted by the Tahsildar of Chennoor as well as from the evidence of the Canjee of the Town of Cuddapah and of certain respectable Mahomedans who were examined on Solemn affirmation by the Head Assistant Collector, it was proved that the Services required by the Mosque in question were not performed until 2 years after the disturbance took place. It has been fully ascertained that the several services appertaining to the Mosque recommenced in August 1834 and the arrears of allowance due to the Servants thereof, are entered in this Statement from the date aforementioned. Mahomed Emam who performed the Service of Peish Emam in the Mosque died in January 1850 and his place was filled up by his nephew Abdool Kadur who held the Office of Moozun and one Abdoolwahee son of the deceased was appointed instead of the said Abdool Kadur and this private arrangement was sanctioned by the late Collector and orders issued to that effect on the 1st April 1850. It also appears that Peish Emam Abdool Kader subsequently died on the 10th February last leaving a son named Abdool Rahman aged 5 or 6 years. Recommended that the allowance amounting to Rs. 636-1-6 due from 1st August 1834 to the end of April 1849 being 14 years and 9 months at Rs 43-2-0 per annum be paid in arrears to Abdoolwahee Moogan and Abdoolrahaman son of the said Abdool Kadar Peish Emam. The delay in the transmission of this Statement has been occasioned partly by the Original date of Sanction of this allowance not forthcoming in the records of this Office. It however appears that the same was originally granted by Sir Thomas Munro with other Mosques in the District 1221 1819 1/9 a detailed list of Pagoda and Mosque allowances was forwarded by the higher authorities which was sanctioned by Government

Proceedings

Requesting further information respecting the arrears claimed by certain servants attached to a Mosque in the Town of Cuddapah

12-13

The allowance of Rupees 43-2-- hereon,

per annum in question has been erroneously called

perwiah - It is portion of a Mosque allowance

attached to the Chowk Mosque, and not to the

Jowmah Mosque as it is termed in the Acting

Collectors endorsement on Petition No. 1,23 of 1850.

2 The Board have arrived at this

conclusion from a re-perusal of that endorsement

and under the explanation afforded in the statement

of arrears now claimed, column 8, coupled with

the name of the former holder Mahomed Emam

as entered therein and in enclosure A to the

Inlosure 18th May 1843. from Mr W. H. Arbuthnot of 6th May 1843 and

to clause 2 of para 4 of that letter.

3 The Board observe that no part

of the arrears now claimed can be admitted

as that portion of the Chowk Mosque allowance

was discontinued in consequence of the

part which its servants were supposed

to have taken in the disturbance on Sunday the

morning which Mr MacDonald the Sub Collector

and Joint Magistrate was murdered, and

From Government to Inlosure 18th September 1843. the Government have expressed their opinion

that no mark of favor whatever should

be shewn in a case in which a British Officer

has been murdered and that they could

not sanction the continuance of an allowance

so justly forfeited -

4 They do not believe that the

Collectorate of the Acting Collector withheld

from him the above facts or he could

never have recommended the payment

of arrears for 14 years, and they request

he will explain fully how this has occurred

with the names of the parties in fault -

5 In reference to para 8 of Mr

Murray's endorsement on Petition 123 of 1850 he

will also explain whether by the order which

was sent to the Tahsildar for the continuance

of the allowance from May 1849 is meant the continu-

ance of Rupees 43-2-- which is now claimed in arrear-

ance and was that portion of the Chowk Mosque allowance

which the Government declined to sanction, if

so he will specify the amount that has been

disbursed contrary to these orders and will

Bd. No. 1351.

From the Agent to the Govt at Hurnool

Sir,

Forwarding a Statement of Offers for the Ak Karry Farms of the Hurnool District for Fusly 1260.

(14)

The time having now arrived for communicating to the Board the result of the Offers made for the Ak Karry Farm for the Hurnool District for the ensuing Fusly, I regret, that, as shown in the accompanying Sale Kwar Statement, the hope entertained by Mr Phillips, that the falling off in Fusly 1260 in this Branch of Revenue would not prove permanent, has not as yet been in any degree realised.

2 The amount last year was 73,315 against 83,820 in the previous year. On putting up the several Sales to competition on the 15th Proscimo and for several subsequent days the aggregate amount of the Offers reached only

Fort St George 19th June 1851.

to Rupees 71,020. In the Dharwar Talook, in which very great difficulty has been experienced in realising the current year's Revenue, and in which there is still a considerable balance, the offer was only Rupees 11,540 against 13,500 Rs the offer was only wished to take it on the condition that he could also secure the Kurnool Town for which his offer fell below those of others, and there is thus at this moment no separate offer for Dharwar.

In the enquiries which I have made into the cause of the falling off of the amount of the offers, and of the almost total absence of competition, I have become convinced that apart from the effects of the very unfavorable season of last year, and which are still felt, (for the outturn of the harvest of Fusly 1260 was of any thing below rather than above the average) there is much truth in the assertion that the young date trees which ought to have been allowed to advance towards maturity without being tapped, so as to be ready to take the place of the decayed and worn out, have been in many

many places drawn upon, too soon, and that thus there is not now in the District so large a quantity of the juice which forms the raw material for the Farmers speculation as formerly. This complaint is very general and a comparison of the sums for which some of the villages are interested with what they yielded formerly proves that the assertion is not without foundation.

4. So long as the Farmer has only a single years interest in the contract, and it is his interest to draw as much toddy as possible from every tree within his range, no pledge in his Moochilikka will suffice to ensure the protection of the young trees.

5 Keeping this in view, and with reference to the extremely unfavorable offers for the different Talooks, I determined to endeavour to obtain an offer for the whole District for 2 or 3 years as formerly suggested for consideration by the Board. an offer has now been made for 3 years @ 7½ for the first year 7½ for the 2d, and 7½ for the 3d year.

6 The security offered is unexceptionable, and should the Board of Revenue see no objection to sanctioning this offer for 3 years

I beg to recommend that it should be accepted. or if it be considered desirable that the offer should only be accepted for one year the parties are ready to assent to that limitation, and I consider that in every way the acceptance of this one tender for the whole District is infinitely preferable to confirming the offers which have been made for the several Talooks separately.

7. Since the offer for the whole District was made, I have again allowed 10 days to elapse in the hope of getting a fair offer for Dhone, but none has been made, and not one of those who have tendered for the other Talooks have yet produced security.

8. The whole District has never yet been taken by a single individual, and as those interested are very anxious to lose no time in making their arrangements for carrying out the details of so extensive a speculation I trust I shall be favored with the views of the Board intimating their approval or disapproval of the offer now submitted at an early date.

From the Collector of Madura ...

Sir,

With reference to my letter of the

Fort St. George 19th June 1857.

the 23d Ultimo, I have the honor to transmit Copy of a letter and Genealogical Tree from the Acting Sub Collector Mr. Levinge relative to the Ayacoody Zemmindary.

2. It will be seen that of 5 Wives the late Zemmindar had male issue only by one an only son Immoody Puttum Janickee Ram Coomara Condama Bommah Nayken aged Nine years and that the youngest Brother of the late Zemmindar Ovada Condama Naike was named by him and is approved of by the Family as Guardian of the Minor to take charge of the Estate and protect the Minor and his family.

3. Under the circumstances of the Zemmindary being small and its Villages for the most part Rented, I see no objection to the arrangement which Mr. Levinge recommends provided the late enquiries of Government relative to the Estates of incapacitated proprietors be not deemed an obstacle.

4. I shall therefore delay proposing any Guardian and Manager under Regulation V of 1804 until the sentiments of the Court on the proposition is communicated to me.

Sir,

I have the honor to forward two Depositions taken from the Brothers of the late Ayacoody Zemmindar also a Family & Genealogical tree shewing the heirs and the age of the present Minor who as well as the widows of the late Zemmindar wish to remain under the protection of Ovala Condama Naike the 3d brother of the late Zemmindar and named by him to be Guardian and as he seems a fit person I recommend that the wishes of the late Zemmindar be complied with. A List of Jewelry valued at Rupees 19644 and of the ready Money in the Zemmindari Treasury amounting to about 36480 Rupees is also sent I have put a seal on the Treasury lock the key is with me also the private seal of the late Zemmindar I request instructions whether I had better not send them for safe keeping to your Treasury. For the present there are 4 Government Peons over the Treasury. As their services can be ill spared some other arrangement for its safe keeping is desirable as soon as possible.

The

2. The Tahsildar has a list of the Jewelry and property in charge of the family for their use A copy of it is herewith sent.

3. The instructions contained in your letter of 26th April have been attended to previous to the receipt of it or of any orders from this Office. Six days after the death of the Zemindar the Guardians remitted the 5th instalment of Rent. The Tahsildar has been directed to disburse 69 Rupees as per Margin from the Collections to pay the Monthly temporary Sibbundy Charges and Saderwarol also 7/4 per Cent for the expences of the Minor and widows of the late Zemindar, Vide Statement A.

4. The servants of the Zemindar whose services are not now required have been discharged since the 16th of April some of them enjoyed certain lands as Manium in lieu of ready Money salary. The revenue on such lands is to be carried to account from the commencement of July 1857.

5. Certain Kallooccottai chitty assert that the late Zemindar was largely indebted to them. This must form a subject for future enquiry.

6. If not objectionable the 3d brother of the Zemindar

Zemindar might be placed in charge of the Estate which is but a small Zemindary and most of the Villages comprizing it are rented by that means the expence of an Ameen and his Establishment could be avoided under the proviso of immediate management through an Ameen should any irregularities be brought to notice.

7. The late Zemindar was manager of the Palany Dawastanam. His brother was not willing to undertake it, I have given a Summud as Durmakurta of the Palany Pagoda to Hoollama Naik the Renter under the Ayagoody Zemindary of the Kettiambady Moottah who is a respectable and substantial Ryot paying 5,000 Rupees a year to Government and the only person capable of carrying on that large Pagodas affairs, which I hope will meet with your approval. It was necessary to appoint a person at once as a large feast is about to take place and also for the safety of the Pagoda property

From Coll.r 21st May in Cons.s 19th June 1857.

20-21

Agreeably to the provisions of Regulation V of 1804 Section III I am directed by the Court of Wards to submit the accompanying Communications from the Collector of Madura reporting the circumstances connected with the Zemindary of Ayacoody whose Proprietor died on the 15th April 1857.

2. The landed Estates left by this individual consists of the Zemindary of Ayacoody and the Mootah of Puttamkudy the former paying a Revenue to Government of Rupees 16,785-2-3 and the latter Rupees 1,978.

3- This property has devolved on the only son of the late Zemindar who is nine years old and the Collector recommends that in compliance with the request of the father the boy may be placed under the care of his youngest brother Dooda Veerdama Nayeck and in consideration of the smallness of the Estate he should be permitted to superintend its affairs for the benefit of the family.

4 The Court of Wards are not aware of any objection to the measure and beg therefore that the sanction of Government be granted for the purpose of carrying out the proped arrangement.

Sir,

B. No. 1304-

From the Collector of Madura.

Reporting on Petition Board's No. 1127 of 1850 herewith returned-

22

1. With reference to the Board's endorsement on Petition No. 1127 of 1850 (herewith returned) calling for a fuller report, I have the honor to state that the accused Soondarassien is Mongar, that is a Natamgar put in by Government of the Village of Lanthacuttay in Pamgherry Taluk and was charged by the Petitioners with having received from them a bribe of 95 Rupees in Fuslies 1258 and 1259 on a promise of relieving them from liability to pay grass tax- another sum of 10 Rupees from Savyi Goundan to secure him possession of certain disputed land at Cummarpollium, 20 Rupees from one Andy Gownden promising to secure him allotment of land for cultivation in Fusly 1258. and 30 Rupees from the whole of Nattamgars promising to relinquish his share of the Natamai. Total 155 Rupees; the case was referred for investigation to the Tahsildar of Pamgherry-

2- In the evidence taken by the Tahsildar there were many contradictions, and it appeared to

to me that the Petitioners who are Natamai Meerasidars, whose ignorance of their duty induced the late Head Assistant Collector to appoint a Monigiers to assist them and share in their income, wishing to get back the Natamai exclusively to themselves, conspired to accuse the Monigar of various cases of bribery and to secure his conviction by appearing as Prosecutors and Witnesses alternately. I therefore dismissed the charge -

3- The accused, however, is no longer Monigar of the Village, having been dismissed by the Acting Head Assistant Magistrate for a different offence -

Sir,

B. No. 1245 -
From the Collector of Coimbatore
Explaining the cause of the non-report of the suspension of the Tahsildar of Settiamungalam and forwarding Copy of Takeed &c. on the subject -

24

1. In reply to the Extract from the Proceedings of the Board of Revenue dated the 5th Instant, I beg to explain that I was aware the Board required due notice of all such suspensions as the one referred to, and the only reason that a separate report was not sent, was because the case being duly noticed and explained in the Return for the Quarter ending 31st March 1851, within 15 days after the suspension, I did not think it necessary to trouble the Board with a mere copy, or repetition of the report, in another letter -

2- The real grounds of Soobbiah's suspension are succintly entered in that report - as they seemed more than enough for the Tahsildar's suspension; I did not think it requisite to amplify them - if I have erred in judgment towards the Tahsildar, it has been in too great leniency, and not making a sufficient example. That such, and not harshness, has been my invariable practice will

will be, I trust, satisfactorily shown to the Board by a reference to the small amount of suspensions or dismissals by me during 7 years in Tinnevelly, and 3 here -

3 As the best mode of explaining to the Board the grounds and reasons on which I acted, I beg to enclose copy of my Tahseeldy and a short Extract from the Court's one of the cases - had I done my duty strictly I should at once have recommended the dismissal of the Tahsildar -

4 I should also beg respectfully to remark that Soobbiah was suspended as head Police for negligence in Police duties, and not in his revenue capacity. There are other cases against him, which if enquired strictly into, must lead to his dismissal from the Public service. a result I should not desire but rather his reformation -

5 The enclosed Original Petition (fully proved to be true, on due enquiry by head Sheristadar and myself) shows another instance of the Tahsildar's partiality and impropriety - appointing his own relation to another's hereditary post. The Petitioner had on his appeal, been duly restored to his right -

The

The Tamil document referred to by the Principal Sudr Ameen in the Criminal case is a covert, but intelligible hint, under the Tahsildar's own hand, "not to go on fully or fairly into the case," and the murder has to this day been undiscovered -

Bringing to notice of the Board the great loss to which the Government are exposed from the increased and systematic smuggling of Tobacco which goes on from Mahé and suggesting measures to prevent the same.

26

1. I have the honor to attract the attention of the Board to the great loss to which the Government are exposed from the increased and systematic smuggling of Tobacco goes on from Mahé by sea.

2. The Moplahs and others of the Sea-board Talooks. Coormenad, Sherwad and Betutnad, in especial, have found out of late that it is easier to obtain their contraband Tobacco from Mahé than from Coimbatore Mysore and without perhaps abandoning the old sources of supply, have certainly concentrated their energies on the new source in answer of which we have not formerly had a person

Both

Fort St. George. 19th June 1857.

Boats laden with large consignments of Tobacco leave Mahé constantly and make their way to various places on the coast, where they have correspondence. The Coast is in many parts wild or inhabited by parties of low station, whose sympathy is with the smugglers and the efforts of the Authorities to stay the contraband trade — under such circumstances are nearly hopeless.

So strong and so successful

2. has been the combination in some places that the Country round has been entirely supplied from illicit source, and the Government Tobacco find no sale at all.

I had lately a long correspond-

3. ence with the Chief of Mahé on this subject. Mr Hayes was very polite, and I believe really did wish to put down what certainly is not a very creditable traffic for the French Nation to patronize. But his good intentions were overruled by orders from Pondicherry on the urgent complaints of the alarmed Contrabandists of Mahé who are many of them men of wealth and influence, and the evil has increased instead of diminishing.

It has struck me in this

4. extremity to suggest to the Board whether any measures could be entertained by the Government

Fort St. George. 19th June 1851.

Government to check the importation of Tobacco into Mahé. The large supplies which form the basis of this smuggling trade, are introduced either from Tinnevelly or Jaffna in Ceylon. Would it not be possible to prevent or at least to throw difficulties as to Tobacco being shipped from these places for Mahé. At present a Port Clearance is given from one or the other with all the freedom. If this is impracticable, I must ask the Government to permit me to entertain a considerable preventive force, an expensive and not very satisfactory remedy.

Bd. No. 1191. Proceedings thereon.— In the last para of the foregoing Extract, Government observed that in three cases of lapsed Khartwurty Enams

recognizing adoption in the cases referred to in District Mundles Cons. 9th Nov. 1850 & submitting a Letter shewing the decision in certain cases of succession to Enams by adoption.

Enams in the District of Cuddapah claims on the part of adopted sons had been recommended, in case No. 733 the party adopted was near of kin to the deceased and entitled in virtue of his relationship independent of adoption and that in his case it was proposed to continue the Enam, while in the two remaining cases Nos. 214 and 729 the adopted son was apparently either not related to the last Enamdar at all, or connected with him only in the female line and it was proposed to continue the Enam for life only.—

The Board were called upon to state their sentiments in regard to the propriety of recognizing adoption in such cases as these two last and to point out the practice in that respect.

It is observed that under the Notification published in the Fort St. George Gazette 16th. March 1846 the Government reserved to itself the right of refusing to recognize claims to adoption, but that by the Board's Circular orders framed with reference to para 1 of Extract Minutes

Note C. Page 403

Jr. Cons 24 July 1848

Minutes of Consultation 4th July 1848 Collectors were not enjoined to report all cases of Enams in which claims to succession on previous transmission was obtained by a valid adoption - These cases were alone to be reported for orders where the enjoyment has passed out of the family of the original Grantee; when possession has been fraudulently or surreptitiously obtained, when succession has been transmitted irregularly, or may be claimed on invalid grounds, as thro' the female line or by a collateral branch, in virtue of an illegal or suspicious adoption, or generally when there be any circumstances affecting the prior transmission of the Enams or the title of the present claimant.

"Enams held for the personal benefit of the holder."

3. In the case of a lapsed Bhuttwurty Enam held without grant coming before the Collector for enquiry in which any of these objections occur it must be submitted for orders and not considered on its own merits but in a case in which there are none of these objections

objections it seems to the Board that under the present rules Collectors may continue the Enam to an adopted son, as heir to the last Enamdar whether or not there be any relationship between them otherwise than by adoption provided the adoption be not illegal nor suspicious. And the Enam are from its nature considered In their opinion an adoption should not be held to be invalid because the party adopted bears no natural affinity nor relationship to the adoptive family and it was not their intention to ground their recommendation in the three cases of Bhuttwurty Enams noticed by Government in proportion to the natural relationship which each adopted son bore to his adoptive father.

Para 4. C.C. 21st Decr 1848 Page 483.

In case No. 214 although the deceased was the son of the individual named in the Pymash yet it was not known who the original grantees were and on this ground

ground the Board are of opinion on the the continuance of the Enam to the adopted son was properly limited to life.—

5. In case No. 229 the deceased was Grandson to one, Cousin to another and Son-in-law to a third party entered in the Pymash accounts. The deceased seems to have acquired a share in the holding of his Grandfather and shares in those of his other 2 relatives besides Enam land which he obtained in gift from one Chensoo buttloo, who was the son of an adopted son of deceased's Grand Uncle his affinity to the 2 and 3d / Collateral and in the female line / and his having acquired Enam land in gift from Chensoo buttloo were not such as in the opinion of the Board, could entitle his adopted son to a continuance of the Enam without limitation.

6. In case No. 233 the Collector might under the existing rules have continued the Enam which have been sanctioned without limitation to

to the adopted son as heir to the last holder as that portion of the Enam was regularly obtained and transmitted but it was incumbent on him to report the case in reference to the remaining portions part of which was resumed and part <u>continued only for life</u> as these had been irregularly obtained and transmitted in deceased's family having been purchased and received in gift.—

Since the Rules circulated to

the several Collectors for disposing of cases of Lapsed Enams up to the date of Extract Minutes of Consultation under reference there have been only a few other cases reported, in which claims to succession have been urged under virtue of adoption, and these are chiefly confined to the reports from Cuddapah. The Board have invariably been guided in their views by the merits of each case and have been unable to lay down any fixed principle.—

8. The Board submit a list which they have prepared shewing concisely the decisions in certain cases of Succession to Enams by adoption, but none of these are parallel with the Nos. 214 and 229 referred to by Government.

Encr. No. 1.

Abstract of reported cases of Lapsed Enams in which claims to succession have been urged under virtue of adoption and the decisions passed thereon during the Years 1849 & 1850.

The deceased received the Enams from the family of the individual named in the Pymash Accounts but was not related to them. He had 40 years professions and his Widow claimed in behalf of her adopted Son was not apparently any relation to deceased.

Pro. to Govt. 25th January 1849 No. 62 Para 7 & 17. From Dy. 16th July in Cons 8th March 1849. Cuddapah Bhutmurty Enam No. 71.

The Board concurred in the Collectors recommendation for the continuance of the Enam to the Widow for life and the Government acceded

Cuddapah Bhutmurty Enam No. 114.

acceded to this recommendation.

The adoption in this case was by the Widow whose husband and sons names were entered in the Pymash Accounts the Collector observing that adoption by a Widow many years after the death of her husband was common in Cuddapah and recognized by the Civil Court. It does not appear whether there was any prior relationship between the Widow and adopted son otherwise than by adoption with the exception of a field which had been previously irregularly transmitted and which was proposed should be resumed. The Board recommended in accordance with the Collectors suggestion that the Enam should be continued to the adopted son, but for life only. The Government complied with this recommendation.

From Cuddapah 31st Oct. 1848 in Con. 25. Jan. 1849 Pro. to Dy. 25th Jan. 1849 Kyfatee Enam No. 49.

The last incumbent was the daughter of the original Grantee and adopted a son who married but predeceased her. The Widow of the adopted son was the claimant on the

the death of the adoptive mother, but the Board declined to accede to her request and ordered the resumption of the Enam.—

Pro. to Govt. 21st. June 1849 Para 1 No. 263 From Dy. 7th in Govt. 16th July 1849 Cuddapah Bhumiwanty Enam No. 91.

The deceased was second Cousin of one and first Cousin once removed of the other individual entered in the Pymash and Enamity Accounts Hee left a Widowed daughter-in-law and an adopted son but the latter does not appear to have been otherwise related to deceased and was adopted without the usual ceremonies— The Board deemed the adoption invalid and therefore recommended the Claims of the daughter in law for life The Government authorized the Continuance of the Enam accordingly

Pro. to Govt. 19th July 1849 No. 318 Para 6 From Dy. 31st Dy. in Govt. 9th August 1849 Cuddapah Bhumiwanty Enam No. 127—

The deceased was the widow of one daughter of another and distantly related to a third party entered in the Pymash Enamity Accounts She left an adopted son, who was a Cousin thrice removed in the male line from her husband besides two daughters in

in law. The adoption having been disputed the Board recommended the continuance of the Enams in equal shares to the daughters in law for life and the Government sanctioned accordingly.

Pro. to Govt. 4th February 1850 No. 77 From Dy. 2d. in Govt. 15th April 1850 Para 3—12—22 Cuddapah Bhumiwanty Enam No. 136.

The deceased was 7th in succession from the party named in the Pymash Accounts/ or as the Collector states 7th Member from— Original Grantee/ and adopted a son who was a very distant relative and of a divided family but failed to prove his adoption satisfactorily. The Board recommended the Continuance of the Enam to the adopted son for life on condition of his affording a provision to the sister of deceased in which the Government concurred.—

Cuddapah Stala Enam No. 164.

The deceased was one of the— parties named in the Survey and Enamity Accounts. and adopted his nephew— /brothers son/ The Board recommended the continuance of the Enam to him without limitation and Government authorized its Continuance accordingly—

In

Fort St. George 23d. June 1851.

Cuddapah Bhurtwurty Enam No. 188.

In this case the Widow adopted a distant relative after the deaths of her husband and of a previous adopted son The claim of the 2d. adopted son was not admitted but in consideration of his poverty the Board recommended and the Government authorized the Continuance to him for life of half share of deceased's Enam—

Extract from the Minutes of Consultation Under date the 7th June 1851.

Read the following letter from the Secretary to the Government of India No. 590

Extract from the Proceedings of the Honorable the President of the Council of India in Council in the Financial Department under date 19th April 1851.

Read a communication from the Home Department No. 530 dated the 24th December last forwarding for consideration and orders a Despatch from the Government of Fort St. George, No. 1137 dated the 3d. idem with enclosure soliciting sanction to the Head Sheristadars in Masulipatam Vizagapatam and Ganjam being placed permanently upon the same footing as Head Sheristadars in all the other Districts under the Presidency of Fort St. George—

Resolution.

The President in Council regrets

regrets that under the stringent Orders of the Honorable the Court of Directors to enforce the utmost economy in every branch of the public service he is unable to sanction an augmentation of the pay of the Head Sheristadars in the Dis=tricts of Masulipatam, Vizagapatam and Ganjam—

His honor in Council is of opinion that the allowances of Head=Sheristadars in unsettled Districts are on a scale that may properly admit of some modification and reduction on the occasion of Vacancies and he has no objection to the whole being re-cast so as to embrace the Cases now under consideration, provided it can be done without occasioning any additional ex=pense to the Government—

In the foregoing Proceedings the

service Dehat Enams in the district of N. Arcot and the grant in lieu of fixed money allowances Directing that as lapses occur they be reported for the orders of Government Directing that the community interested in the Byraghee Mutt, choose some party for its Manag.r of the Village of Somasamoodrum which forms its Endowment with the Surplus funds be made over to him—

the Board of Revenue submit the proposition of the Collector of North Arcot to resume the Dehat Enams in that District and to grant, instead, ready money allowances fixed on an average of the net proceeds of ten years.—

2. A similar arrangement, it is observed was suggested by Government in respect of the Dehat Enams in South Arcot and finally authorized in para 6 of the Extract Minutes of Consultation 10th October 1848, No. 1111—

3. The Right Honorable the Governor in Council considers the proposed mode of adjusting and disbursing the proceeds of the Enams in North Arcot, to be a very desirable measure as relieving the Collector's Establishment from the labor which the present system involves, and securing to the Enamdars themselves the early and punctual payment of their share of the proceeds. He accordingly grants authority for resuming and incorporating with the Circar lands the 7 Dehat Enams specified

To the Collector of Nellore—

Sir,

I am directed by the Board of Revenue to return to you your letter of the 16th. June 1850, for the purpose of being re-written with darker ink, and at the same time to point out to you that they have lately received several Com-munications from your district which were hardly legible from the use of pale ink, you will therefore be so good as to adopt the necessary measures to prevent the recurrence of the inconvenience complained of.—

There are also two other Members of the Original Family Viz. Venkatasoobbiah and Appiah enjoying separate shares of Enam as specified in Column 9. — they also laid claims for the lapsed Enam — As from their holding separate shares of Enam they may be considered to be divided Members of the family and their being very distantly related the 4th and 5th removes their claim to the same cannot be recognised. The Claim of the deceased's Dowhetroodoo or Grandson is equally inadmissible, transmission thro' the female line being considered irregular. From the Jr. Collector of Cuddapah.

Sir,

1. I have the honor to request you will obtain the permission of the Board of Revenue, should I not be relieved before the end of the month to exempt me from examining the Treasury this Month according to usual practice, as I am now at the further end of the District a distance of 70 Miles from the Cusbah Station engaged in the annual settlement. It will require two or three days to March from this to Cuddapah and a like No. to return. As the Jummabundy of this year is late, considerable inconvenience will accrue on account of so many days delay.

2. I would beg to propose that a Committee of Native Servants such as the Cash Keeper, Head Account and

and Shennoor Shanbdar be appointed to examine the Treasury or should this be considered inexpedient the duty might be performed by the Subordinate or Sessions Judge as the Board may think best.

Endorsement on the accompanying Petition

+ With 4 other Petitions Nos. 2219 and 2336 of 1850 Nos. 554 & 1844 of 1851—

No. 1514 of 1850 from Pooranum Kistnama Charryar, in which Petitioner lays claim to the occupancy of the Village of Coorapaukum in the Tripoorroor Talook as the Heir of the late Sole Merasidar thereof. I have the honor to report, for the information of the Board of Revenue, that on referring to Mr. Bernard's Tarapady accounts prepared in 1773 it appears that the Village in question was originally a Vyttiana Agraharam belonging to Vencata charry and Vurda charry (probably brothers) These Parties having left the Village in fusly 1205 or A. D. 1795, it was rented to certain Poyacaries in whose possession it remained till fusly 1210, but in the following fusly or 25th. September 1801, a boundary was granted by the then Collector Mr. Greenway in favor of one Bavany Sunkara Row, the brother of Ganasa Row, the then Sheristadar of this District, placing him and his heirs in enjoyment so long as they continued to Cultivate the lands, or pay

pay the Circar Revenue with punctuality. This individual therefore, and after him, his Brother Ganasa Row's sons, Viz.t Yacambara Row at first alone, and then Shashagherry Row, Runga Row & Mahadava Row jointly enjoyed the Village in succession until fusly 1234 or A. D. 1824, but in the following fusly 1235 or A. D. 13th. August 1825, the three last mentioned individuals sold the whole of the Village to one Calambaukum Sellapathy Rauz for Rupees 780, and jointly executed the usual deed of transfer. Sellapathy Rauz enjoyed the Village until his death which occurred about 3 Years ago when his son Vencatasawmy Rauz succeeded thereto. This last mentioned Individual sold 1/8th. Share of it to one Nagapa Chitty reserving the remainning 7/8th. Share to himself—

2. Whilst the Village was in the posession of the aforesaid Yacambara Row son of Ganasa Row, a Suit appears to have been filed against him in the Zillah of Chingleput in the Year 1804 by one

No. 534 of 1804

one Kistnammah, an alleged heir of the original Meerassidars, for the recovery of the said Village, and subsequently another suit was filed in 1819 in the same Court by one Veroomala Chetty, also an alleged heir of the original Meerassidars during the period it was jointly held by the 3 Brothers Shashagherry Row, Runga Row, and Mahadava Row, on both these occasions the bowle issued by Mr. Greenaway was confirmed the claims of these Plaintiffs having been rejected—

No. 59 of 1819.

3. The Records do not show that Petitioner ever at any time before advanced his claims to the Village in question, neither can his relationship, if he bears any, to the Original Merassidars be ascertained

4 The terms of the Cowle do not appear in any way favorable & therefore do not render the transfer of the Village by sale inadmissible, but under any circumstances such transfer ought

not I conceive to affect present Incumbents—

No. 8.

To W. A. Bayley Esqre.
Secretary to the
Board of Revenue,
Fort St. George.

Bd. No. 280.
From the Ag Collr of South Arcot.
Reporting upon the settlement of South Arcot District for Fusly 1259 / 1849-50 and forwarding the usual Statements.

(25)

Sir,

Para 1. I have the honor to submit the accounts connected with the annual settlement of the Revenue for Fusly 1259 / 1849-50 which, on taking charge, I discovered were over due and had not been forwarded

2. The Statements seem concise explanatory, and so self evidently correct, that I prefer placing on their own merits before the Board, to hazarding any lengthened remarks of my own which can only, at this late period, be obtained from the Maharatta Cutcheny. The high character of the Head Sheristadar Rungacharloo is a sufficient guarantee of his integrity, and I have reason to think that this officer, during the period, and in a season of adversity, has not spared himself, but on the contrary has bestowed unusual care not only in the settlement, but also in the preparation of the vouchers which support it.

3. The season reports forwarded from

*Marked 2

from time to time abstract of which
again submitted, will have prepar
the Board to learn, that, from June to Aug
the falls of rain during the South West
Monsoon were but partial and scanty.
dry crops suffered in quantity of produce
became proportionally limited in extent.
the month of September the rains failed
:tirely, and even in October the supp
was so partial and in-sufficient as to ca
the most serious apprehensions - The
which fortunately fell in the District
commencing with the middle of Novem
tho' late and insufficient, prevented
crops from the utter ruin apprehended
the adversity of season would seem to ha
pressed much more heavily in the N
Western portion of the District, in D
the few showers that fell wanted
prejudice of the Indigo Cultivation.

4 During the year the pri
in the Coleroon were steady, and
supply proved sufficient to the equire
extent, while the Gudalum, Vellaur, a
more especially the Pennar Rivers, ca
under the influence of the previously
:luded to drought. On the whole the
as described and borne out by the fig
Statements, were a most unfavorable
and the cultivating community had
:tend with, a season more adverse to
inter

interests than has occurred for the 7 preceding
fuslies.

5. The consequence of this adversity is,
that the Ryots obtained neither a fair re:
:compence for their labour either in their
wet or dry cultivation - the return to them
is described to have been of a most di:
:minished and unsatisfactory character.
Fortunately no sickness or epidemic, as is
usually the attendant of such a state of things
visited the District at the time; and the
year stands recorded as a healthy one -
the few cases of Cholera in the Town
of Cuddalore did not extend beyond
the Town, and disappeared altogether in
a few days.

6. On inspection of the Note
annexed in the Margin, the Board
will observe that the
average selling price of the
principal Kinds of produce,
as well as the profitable
article Indigo, improved
to a certain degree be:
:yond the preceding
fusly 1258 - the said en:
:enhanced price, has, it is
believed, compensated in

7. I now proceed to commence my rep
on other important points more immediately
bearing on the Settlement:- According to
the nominal Dittum Statement, an abstra

seen that there ha
been a decrease in

cultivation below
of the prior fas

2,94,131- to which
being added a sum

increased deduction on account of Cahoo

favorableness of the season more parti
on Nunjah, whilst the uncommon
price of grain which prevailed in
1258, no doubt operated in some de

to produce the extensive diminution in
the cultivation above noticed.

8. The following remarks are
offered on the cultivation of different
descriptions of land; Viz. Poonjah, Nunjah
and Totacal. The total cultivation
of Poonjah or dry land during the expired

the Board will observe that the above decrease has been general throughout the = looks to a greater or less extent, and t falling off is attributable solely to the failure of seasonable rains - The average = wah of the dry land will be found entered in Column No. 131 in Statement A vary from Rupees 4-7-4 to Rupees 2-7-8 per Cawney -

9. It is worthy of remark in this place, that the Indigo cultivation during year amounted to Cawnies 31,597 as per Statement sent to Board - this the cultivation in this Item is higher than in the past year 1258 by Cawnies 5,907, yet the = tension of this staple was influenced by the season - The price of exported Indigo having about that time greatly improved in Europe Markets encouraged by high prices and altho' the Ryots were eagerly desirous to extend the culture of this article still they were unable to do so from the badness of the season -

Manawary Nunjah land in the 5th Class Villages of the two Southern Taloks of Rupees 8,40,209 - - this in comparison with the extent of the former fasly 1258, shews also a net decrease of Cawnies 27,718. or Rupees 268,371 - Of the decrease of Rupees 14,592 occasioned in the Sagheer portion Rupees 11,214 is only nominal, having arisen from the circumstance of a number of Villages in the Collemally Sagheer Talook, which had been under Amany in fasly 1258, having been rented out in 1259 - The decrease in the Ayen Taloks forms a very considerable portion of the falling off - A reference to the account particular No 2 in A will shew, that the decrease has been general, extending to almost all the Taloks - The falling off, however, was greater in the Taloks of Chaitput, Tindevanum and Villeporum; and solely occasioned by failure of rain -

It will be further seen, that the decrease in the two Southern Taloks was no less than Rupees 35,575 - here

here the want of water cannot be plead
the Colleroon irrigation being ample; an
the cause assigned appears to have been t
low price of grain in Fusly 1258, which h
seriously discouraged and impaired the
means of the Ryots.

11. The continued decrease of
land Revenue in the said Southern Tal
appears to have attracted the attention
the late Acting Collector before the receipt
of the Board's Proceedings of the 15th July
last; he having in consequence, directe
a return shewing the Tarumar cult
:tion of Nanjah in the several classes
the Villages to be prepared carefully fo
fuslies 1258 and 1259, which is herein encl
for the inspection of the Board. This will
prove that the cultivation in Fusly 1259, in 284 Vil
watered by the Coleroon, has fallen short
extent about one half below that of Fusly 125
in the first, second, and third class Vill
and that in the fourth and fifth class
about 25 and 15 per Cent respectively. Ho
it appears that low prices and discourag
therefrom is pleaded, rather than the
favorable season.

12. In reference to the explanati
required in the 4th Para of the Board's
:eedings, I am informed that the excess of

the extent of wet land, not cultivated
out of the quantity engaged for or taken
up, is to be ascribed solely to the
imperfect manner in which the
Dittum account but heretofore been
prepared, and to the Settlement having
always been made on actual cultivation
and not with reference to the Dittum
account; as will be found explained
in the correspondence referred to in Mr.
Bird's letter to the Board 27th March
1850. The decrease in the number of ploughs
and cultivating Ryots in Chellumbrum
and Mannargoody Taloks, recorded by
the Board, has it appears, arisen from
the diminution of wet land cultivation in
these Taloks, affected by low prices.
Regarding the increase in the number
of ploughs and Ryots in Fusly 1258
in Collemoly Talook, I have to add that
it appears so in the accounts, but is merely
nominal occasioned by the circumstance of 12
of out of 27 Villages which were rented out
in Fusly 1257, having reverted to Amany in
Fusly 1258.

From Bt 28th Feby 1842

13. Being quite new to the District,
I am unable to offer any opinion for the pre-
:sent on the effect of para 130 of the Hookoom-
:namah rules of the District, touching the
right of occupancy allowed to the Ryots by the
terms

terms of that rule..

14 Adverting to the 5th Para of the
Boards Proceedings I find by the records, th
on Mr. Davis explaining that all Nunjah
lands in the two Talooks referred to are en
as one crop land, the Government have direct
that it should be shown what lands hav
been cultivated with two crops on the sam
Teeruah thereon - this information has bee
obtained and exhibited in red ink in St
=ment No 5 in A for Fusly 1258 - The
footnote was merely intended to show the
portion of second crop Teeruah that would
leviable on such cultivation, as per sent
=ments of the Board in the event of the le
of that Teeruah being finally resolved on.
This entry however is deemed unnecessa
and shall be omitted in future..

15 Respecting the differences in
average Teeruah noticed in the said Par
I have to state that on examination of th
accounts of land which had borne one
and two crops, the differences in the
average Teeruah have reference to the va
of land cultivated under different Tas
and in different classes of Villages.

16. With respect also to the
Para of the Boards Proceedings requiring
to be distinctly stated in the annua
reports the benefit that has arisen
by

by the construction of the Vellaur Annicut
at a considerable cost of Government,
I beg to state that the cultivation in 64
Villages dependent on this work amounted
to Cawnies 6,034 or Rupees 52,884, including
the amount of Russer derived during Fusly
1259 which will be found to exceed the revenue
of Fushes 1257 and 1258 - In a season like
that of the expired Fusly, it was hopeless
to look for an extension of cultivation, and
sufficiently satisfactory for the present
that all the lands actually cultivated have
been reaped supported by this work without
sustaining injury as in other quarters of
the District -

ascertained to be due by poorer Ryots, cannot be realized speedily, if at all. I consider it proper to state for the information of the Board, that after every exertion had been used towards bringing up the Collection by the close of the year, there remained an arrear at the end of the Fasly of Rupees 1,66,558-5-. Servants from the Hoozoor were deputed, where this arrear was heavy, to assist the Tahsildars, with strict instructions for the immediate Recovery thereof. The Board will observe that a considerable portion was realized before the beginning of September, without interfering in the current years' resources.—.

24. At the beginning of Fasly 1259 there was an arrear of land revenue outstanding on account of former years, Amounting to Rupees 3,96,516-10-7. of which Rs. 3,53,824-3-4 being recovered within the expired year and written off under the head of remission as per sanction of Government, left a balance of Rs. 42,692-7-3- at the close of the Fasly.—.

Poonjaie	495	5	2086	15 1	436	4	1858	5 "					59	1	228	10 1	In consequence of the unfavorableness of the Season the Cultivation of Poonjah and Nunjah lands fell short in these as in almost all other Villages of the District. The decrease in the Settlement is owing chiefly to that circumstance - The contemplated repairs having been executed in the year 1850, it is hoped the Revenue will increase as the season improves.

Fort St. George 23d June 1851.

No. 4.

State of Season.

12th July 1849.

Rain has been very scanty and its want severely felt, especially for raising the dry crops. The freshes in the Coleroon river were steady and sufficient. Weather uncommonly warm. The average selling price of white Paddy is Rupees 63-10-4 per Garce or Rupees 3-4-7 above that of the preceding month, and that of Indigo exhibits a small excess by Rupees 6-4- per Candy.

August 1849.

During the month no rain having fallen as usual, the early dry Crop cultivation is reported to have sustained much injury. The want of water was seriously felt both for the preservation of Crops and extension of Cultivation. The weather uncommonly warm. The average selling price of white Paddy is Rupees 67-2-8 per Garce or Rupees 3-8-4 in excess of that of last Month and that of export Indigo is Rupees 320 - - per Candy or Rupees 6-14- - above that of the preceding month.

September 1849.

During the Month the fall of rain has been extremely partial and in many places an

Fort St. George 23d June 1851.

utter failure which has affected seriously the early dry crops, and fear is entertained for the safety of other dry young crops. Moreover the extension of cultivation was much impeded as will be seen on reference to the annexed cultivation account which exhibits a net decrease of Rupees 1,83,587 - - below that of the last year.

The average selling price of white Paddy during the Month appears to be Rupees 69-5-5 per Garce with a slight increase of Rupees 2-2-9 above that of the preceding Month, and that of export Indigo rose up from Rupees 320 - - to Rupees 355-10- - per candy.

October 1849.

No rain having fallen as usual during the Month, it has seriously affected the extent of cultivation which up to end of Parattasey or 11th October fell short by Rupees 3,33,982. The failure of rain threatens both the dry and wet young crops, and hence much fear is entertained for their safety. The average selling price of Paddy remains

remains stationery as in the preceding month Viz.ts Rupees 69 — 5 — 5. per Garce. that of Indigo exhibits a small increase of Rupees 3 — 12 — " or Rupees 359 — 6 — " per candy.

November 1849.

On the 18th. and 27th. of the Month, some heavy showers of rain fell especially in the eastern part of the District which though not sufficient for the year has in a great measure saved both the wet and dry crops from serious injury to which they were exposed by the previous drought. The freshes in Pennaur and Guddelum and other rivers have been scanty. The cultivation to the end of arpasy or 11th. November fell short by Rupees 340896 — " — " The average selling price of Paddy exhibits a trifling increase of Rupees 1 — 4 — 3 or Rupees 709 8 per Garce, and that of Indigo shows a small increase of Rupees 2 — 8 — " or Rupees 361 — 14 — " per candy.

December 1849.

During the month, slight showers of rain fell in the eastern part of

the District, and the cultivation up to 31st. December fell short by Rupees 378582 — " — " There were no freshes in Pennaur, Guddelum and other rivers. The average price of Paddy exhibits an increase of Rupees 6 — 12 — 10 or Rupees 77 — 6 — 6 per Garce and that of Indigo is Rupees 27 — 8 — " higher than in the preceding Month or Rupees 389 — 6 — " per candy.

January 1850.

During the month, no rain at all having fallen in any part of the District it has effected both the wet and dry crops which are nearly ready for reaping and the failure of rain in this and in the preceding month has been seriously felt in the western part of the District. The average selling price of white Paddy is Rupees 83 — 8 — " per Garce or Rupees 6 — 1 — 6 higher than in last Month and that of Indigo rose from Rupees 389 — 6 — " to Rupees 401 — 14 — " or Rupees 12 — 8 — " in excess.

February 1850.

During the 2nd. week of the Month, showers of rain fell especially in the

the eastern part of the District which proved beneficial for the Indigo and Gingelly Oil seed produce on the ground the weather is unusually hot. Cholera has made its appearance in the town of Cuddalore mildly. The average price of white Paddy is Rupees 83–13–7 per Garce with a trifling increase of Rupees –5–7 above that of the preceding month, that of Indigo is Rupees 401–14– the same as in last month.

March 1850.

During the Month there has been a slight shower of rain in some parts of the District it has preserved the growing crops of Gingelly Oil Seed and Indigo which were suffering from the dryness of the season. The weather is unusually hot. The average selling price of white Paddy is Rupees 82–10–9 per Garce exhibiting a slight fall of Rupees 1–2–10 below that of the preceding month. that of Indigo rose from Rupees 401–14– to 452–8– per candy.

April 1850.

During the month no rain having at

at all fallen in any part of the District much distress was experienced for want of water for the people and cattle especially in the western part of the District the want of rain is much felt for the Indigo crops the weather is unusually hot. the average price of white Paddy was Rupees 82–15–8 per Garce exhibiting only an inconsiderable rise of 5 annas above that of the preceding month that of export Indigo continues to remain as in the Month of March Viz. Rupees 452–8– per Candy.

May 1850.

Some rain fell on the 8th and 24th of the month, but being limited only to certain parts of the District, its scanty was greatly felt. The rain that fell on the latter date caused much injury to the Salt left on the bed at the Markanum Pans. The weather continues unusually hot. A moderate fresh came down the Pennaur and Coleroon rivers, which subsided as fast as it appeared. The average price of White Paddy was Rupees 84–7–3 per Garce or Rupees 1–7– above that of the preceding month that of export.

export Indigo continues the same as in April Viz.t Rupees 452-8-- per candy.

June 1851.

During the Month rain has been partial falling in some parts of the District and entirely failing in others. much distress was experienced in tilling land for the early dry crop cultivation, as well as in preserving such crop as had been already sown- a moderate fresh appeared in the Coleroon river- The weather during the month was unfavorable- The average selling price of white Paddy has increased from Rupees 84-7-3 to 97-3-1 per Garce that of export Indigo exhibits a decrease of Rupees 5-13-8. below that of the preceding month or fell from Rupees 452-8-- to Rupees 446-10-4.-

B. No. 1388-
From the Collector of South Arcot-
(27)

Sir.

1. I have the honor to state -- that in accordance with the notice previously published I received offers for the Abkarry farm of this District for the ensuing fusly 1261 at my Cutcherry on the 10th Instant-

2. The farm was first put up to public competition by Talooks, and the offers obtained in this manner amounted to Rupees 70,600 as shewn in the annexed Statement-

Talook-	Highest offer-	
Tindavanum	4,000	"
Trevanty	6,700	"
Villupooram	10,200	"
Bowangherry	8,000	"
Marmangoody	2,050	"
Chellum Chum	4,800	"
Trinomalee	2,150	"
Vadachellum	2,000	"
Ellavanasore	1,900	"
Trecalloor	2,500	"
Collacoorchy	2,400	"
Chaltput	2,300	"
Cuddalore	21,600	"
Total	70,600	"

3- Offers were then invited for the farm of the entire District, when Mooragapillay, the renter of -- the fusly now closing, made the highest bid, amounting to Rupees 78,000. This -- offer falls below the rent of the current year by Rupees 3,300, but it exceeds the aver- -age of the last 5 fuslies, and is higher than the sum offered for the farm by Talooks -- viz the sum of Rupees 7,400-

Fusly-	amount
1256	73,250
1257	83,730
1258	82,370
1259	68,600
1260	81,300
Average	77,730

Under

8320- Fort St. George, 23d June 1851.

Under these circumstances I -- it is advisable in my opinion to accept Mooragapillay's offer and continue the farm in his hands- I therefore request the authority of the Board for adopting this course on Mooragapillay furnish- -ing the usual security-

Sir,

I have the honor to acknowledge the receipt of your Board's Proceedings dated the 12th June 1851 on the subject of the Abkarry Farms in the Salem Collectorate, more particularly to Mr Phillips proposal to lease out for a term of three years the abkarry of the Katoopootoor Mootah at an annual rental of Rupees 540.

2. To this arrangement of the Mootah being incorporated with

with the Salem Abkarry Farm for a term of 3 years, I can have no possible objection. But I request it may be clearly and distinctly understood that Mr Phillips is alone responsible for the due realization of that portion of the Rental. For it would be impossible for my establishment to go into Salem or elsewhere in search of the Renters should they fall into arrears -

3. The Collector of Salem will of course give this Collectorate credit in his accounts for such as received -
