Sir,

I beg leave respectfully to request that you will bring the following circumstances to the notice of the Board of Revenue.-

I purchased the Ship "Princess Helena" whilst she was lying ashore at Pulicat with the intention of bearing her off again.-

After much difficulty and expense, I succeeded in floating her, but unfortunately she came ashore again in a few days afterwards on my endeavouring to bring her into the Madras roads, and she now lies a perfect Wreck off Ennore.-

In consequence of this disaster I have suffered considerable loss and I have now no alternative but

6

to break the vessel up and bring the pieces of Wreck to Madras by Cochrane's canal.-

My object in now addressing the Board is to solicit that they will be pleased to remit the toll usually levied upon goods brought by the canal, in favor of my wrecked property. I have already suffered severe pecuniary loss and unless the indulgence I now solicit is granted to me, I shall be put to a further heavy expense.-

I trust the Board will not consider my request unreasonable as I believe that in all Countries the Timbers of a wrecked vessel are invariably exempt from duty.-

I enclose copy of my letter to the Collector of Land Customs of the 23rd instant and of his reply thereto.-

To,
The Collector of
Land Customs.-

Sir,

I have the honor to request with reference to the Wood and Iron which may be obtained from the wreck "Princess Helena" now lying on the Ennore Bar, that you will after taking into your consideration the following circumstances allow the same to be conveyed to Madras free of the usual toll.-

I beg to state that I bought the Wreck of the Princess Helena for a large sum in the hope of releasing her from the beach where she then lay and of floating and afterwards refitting her for commercial purposes at a great expence and with little or no assistence from the authorities. I contrived to get the Vessel then perfectly sound and sea worthy into deep water and I finally brought her beyond the Pulicat shoal. On bringing her down to Madras it unfortunately happened that she again grounded on the Ennore Bar and there appears no resource but that of breaking her

her up and selling the materials to the best advantage. Thus you will perceive I became a considerable loser in purse and suffering considerably from the disappointment and if the payment of the usual toll should be insisted on, you must be aware that the proceeds of the sale of the materials would scarcely defray the expence attendant upon the breaking up of the wreck.. I may remark that the Vessel has already paid duty to the Custom authorities.-

Under the above circumstances I feel assured that you will consider my request to be worthy your attention, and relying upon your compliance therewith.-

I Signed H. Rhodes

Para 1. The Right Honorable the Governor
in Council has attentively considered
the foregoing Proceedings and the letters
on which they are founded, together with
the previous correspondence on the subject of
regulating

dated 5th Instant from the Superintendent of Stamps proposing the discontinuance of the existing practice of forwarding to his Office for examination Petitions of Plaint filed in Suits adjusted by Razenamah previous to making the Refund of the Stamp duty levied upon those Documents.—

2d. We entirely concur with the Superintendent in regard to the inexpediency of continuing the system alluded to, which, while it tends to overload the public Dâk, causes considerable labor and expense, and is no longer required as a check in making the refunds, the general use of the new Water marked paper received from England being in itself a sufficient protection to the Department provided the Collectors take ordinary care in examining the Water marked papers preparatory to making the refunds.—

3d. With exception to Stamps on Country paper, and Stamps of the old Watermarked paper on which the value of the Stamp is not expressed, and which we agree with the Superintendent in thinking should continue to be sent down for examination as before, we would strongly recommend the abolition of the practice adverted to, and in the event of your Honor's concurrence we would solicit the favor of the

Gentlemen,

I am directed to acknowledge the receipt of your letter No. 599 dated the 13th Instant with it's Enclosure and in reply to state that under the recommendation of your Board His Honor the Deputy Governor of Bengal is pleased to sanction the discontinuance of the existing practice of forwarding to the Office of the Superintendent of Stamps for examination Petitions of Plaint filed in Suits adjusted by Razenamah previous to making the refund of the Stamp Duty levied upon those Documents.—

regulating the manufacture and sale of Earth Salt in the Ceded Districts and Kurnool.

2. The extreme difficulty of dealing with this question has been already acknowledged, and the Governor in Council can discover nothing in the papers now before him calculated to remove that difficulty. Of the two plans proposed for the reform of the existing arrangements, viz. either by licensing or by farming out the manufacture the' the impediments to the introduction of the licensing system, may not be so important as the Board of Revenue conceive, yet the measure seems little suited to the class of persons who would be affected by it. and the change is hardly advisable, if no larger amount of revenue would result from it than is estimated by the Collector of Bellary. The single objection to farming out the manufacture of Earth Salt which has been pointed out by the Collectors both of Bellary and Cuddapah, viz. that of its placing the interests of the Government and the Renter

Renter in direct opposition, appears to be conclusive against that mode of procedure.

3. The Governor in Council also approves that the expedients proposed by the Collector for encouraging the use of Marine Salt, and thereby gradually superseding that of Earth Salt in the Bellary District, are, as observed by the Board of Revenue, "quite impracticable", unless by maintaining Establishments and incurring expenditure which would be far beyond the object ought to be attained, and it is to be feared that the attempt would only afford a further opening to the great frauds which are believed to be annually perpetrated on the Salt Department in all the Coast Districts of the Presidency.

4. Taking into consideration the objections and difficulties above noticed the Government are of opinion with the Board of Revenue, that the practice existing in Bellary of taxing the Manufacture of Earth Salt should continue and that it should be left to the Collector to regulate periodically, using to the rates per acre, as he does not see that he does

Sir,

From the correspondence formed for my information and guidance on the 5th Ultimo, regarding the discontinuance of the existing practice of sending for examination at this Office Stamp Papers in suits adjusted by Razeenamah, previous to a refund of their value, it appears that the orders for carrying this object into effect

†Note Board's letter to Government dated 13th June 1839.- Reply to Dd 19th Dec.-

will be issued to the Judicial Authorities, whereas it seems requisite that such order should be issued to the Revenue Authorities, who by the Board's Circular letter dated 25th June 1833, are bound to forward the Stamp Papers to this Office for examination, and I apprehend that until they receive the necessary instructions for the discontinuance of this practice, the Stamp Papers will continue to be sent to this Office.-

2d. The Monthly Statements prescribed by the 4th para of the Board's Circular letter cited, may also be discontinued since they will not avail in checking the correctness of the refunds; because the Papers on which the refund may be made will no longer be transmitted.-

3d. As it is just possible that refunds might be made more than once on the same stamp Paper, I would beg to suggest as a check to such an abuse, that in each case, the Collectors be directed to Certify to the refund having been made, on the body of the Stamp Paper.-

Abstract.

do so in the view to increase the revenue from Earth Salt, in a way that would unfairly press on the manufacturers, or inconvenience the consumers.

5. The Governor in Council does not consider it expedient for the sake of the small revenue, expected from the proposed imposition of a Saturpha on the manufacturers of Earth Salt in Cuddapah, to subject those parties to any tax; for the present, nor would he make any change in the Kurnool District, where the Manufacture is already taxed, beyond desiring that as in Bellary the rates may be revised in any cases in which they may appear to bear hardly on the Manufacturers.

6. The Government resolve to forward the proceedings of the Board of Revenue with the reports that accompanied them and the previous correspondence on the subject as also this Extract Minutes of Consultation to the Honorable the Court of Directors in reference to the General letter addressed to them under date the 6th March 1851 No 10 paras 26 to 29.

in the year preceding - There was also a small decrease, Rupees 997. in the Garden lands On the whole the net land revenue Settlement of Fusly 1259 in Malabar, was Rupees 4,483 less than in Fusly 1258.

2- The sanatory condition of the Collector's Division is not mentioned, Cholera and Small pox are stated to have raged severely in the Sub Collectorate, and the number of deaths to have been very great.

3- The yield of the rice lands, both first and second crops, was good and compensated for the deficiency which had occurred in the previous year - It was however accompanied with a slight reduction in prices. The prices of the garden produce are not given, but the market is said to have been dull, till about the middle of the trading season, when there was a brisk demand for Oil - The produce of the Areca was much below the average, and the export both of Cocanuts and Kernels fell below that of Fusly 1258, in which however the exportation had been unusually large - The decrease in the export of the raw material was also more than made up by the larger shipments of Cocanut Oil.

The above Settlement includes the sum of Rupees 945 being the amount gained by the resumption of remissions which had been granted many years ago on certain lands in the Temulpooreem Talook, on account of their being exposed to the ravages of Elephants. All notice of these remissions seems gradually to have been omitted from the public Accounts, and the reduced assessment continued to be levied, long after the altered features of the Country had rendered such an indulgence unnecessary. The circumstance was detected by the researches of the Head Assistant Collector Mr. Robinson, and the original assessment re-imposed. There appear to be some other lands in the

The collections of Current land revenue during the year Amounted to Rupees 1621133. and the balance outstanding at its close Rupees 21042 had on the date of the Report 8th November 1850 been reduced to Rupies 11716. nearly the whole of this Rupees 10000 is due by the Rebee of Cannanore and orders were passed upon it by Government Extract Minutes of Consultation 25th February 1851.—

The Right Honorable the Governor in Council grants authority for writing off in the public account Rs. 389-8-6 Three hundred and Eighty Nine and Annas Eight being the irrecoverable balance of land revenue in Malabar for the Fusley 1251—3—4—5—6—7—8. 7. In para 8 of their Proceedings the Board remark upon the small increase in production to Government Beds and Betel brought to account since Fusly 1259 and

the consequent small addition to the revenue, notwithstanding the large No. of young trees planted, and the increase both in population and in the export of produce. The Board's observations on this subject deserve the serious attention of the Collector, and the Government will be glad to receive any explanation which he may be able to afford—

Para 14. 9. The charges on Account of the land revenue are stated by the Collector to bear to the gross Collections the very high proportion of 23 per cent exclusive and 32 % inclusive of Malikana and Pensions. These charges are not shewn either in the report or in the Statements which accompany it and the Government desire to be furnished with early explanation in respect to them—a concise notice of the charges with explanation of any remarkable increase or decrease in the various heads should find a place in every settlement report. On reference to the Statement No. 6 which accompanied the letter of the Accountant General dated 16th April 1851 No. 111 it seems that the charges in Malabar for Fusly 1259 inclusive of Pensions and Charitable allowances were

Circular

Fort St. George 3d. July 1851.

Home Department No. 207 dated the 21st Ultimo forwarding for consideration a Despatch with enclosures from the Government of Fort St. George intimating that the pension of Rupees 3,850 per annum, granted to the Sooranany Family in 1787 in commutation of the Revenues and Russoums formerly possessed by them in the Zemindary of Nizampatam in the District of Guntoor, has been authorized to be continued to S. Vencata Rama Row, the son of the late Zemindar Vencata Narsimha Row, and the next direct representative of the family—

Resolution

The President in Council is pleased to confirm the sanction accorded by the Government of Fort St. George to the issue of the Pension to S. Vencata Rama Row, but looking to the circumstances that formerly gave rise to a continuance of the allowance, when there was no lineal descendant of the family— His Honor in Council resolves that it be held as a general rule that Pensions granted hereditarily shall cease in line the hereditary line fails, and shall not pass to the adopted children of any family—

Order

Ordered that a Copy of the foregoing Resolution be sent to the Home Department

Submitting, correspondence with the Collector of Cuddapah relative to certain items retrenched from the accounts of his Collectorate for Fusslies 1252 to 1256 and recommending that the Civil Auditor be authorized to admit the several charges—

/ Here enter 29th May 1851. No. 923 /

The Right Honorable the Governor in Council observes that the Statement and correspondence submitted with the foregoing Proceedings do not afford sufficient information to enable him to issue the requisite instructions to the Civil Auditor to admit the payments made by the Collector of Cuddapah from Fusly 1252 to

"or in other words of the additional Stamps requi-
-red to give the deed validity:- and accordingly
this construction of the Regulation the penal-
-ties have been levied by the Superintendent
of Stamps up to the present time a period of
13 years.- We submit in the enclosures the or-
-ders of the Board of the time referred to.-

3rd The effecting Collector of
Saran in the case under immediate reference
had levied the penalty of ten times the
duty, and the value of the requisite Stamp
had also been levied from the party ap-
-plying under the provisions of the Regu-
-lation.-

4th The Payments for the pre-
-scribed Stamp are under "Clause second"
Section 1st Regulation X of 1829 expressly
enacted, Viz:- "treble the amount of duty or
treble the difference if on Stamped paper
of inferior denomination" under Clause third
the same terms are used increasing the
rate of five times. There appears to us no
power whatever conveyed in them to take
in addition the value of the requisite
Stamp.- Again under "Clause fourth" the terms
penalty

penalty is used and the Words' shall be entitled
to "have the prescribed Stamps affixed on
"payment of a penalty equal to ten times the
"value" must be considered as even more
strongly fixing and limiting the demand
to the amount, not to the inclusion of
the value of the requisite Stamp in
addition.-

5th Under "Clause fifth" when-
it may be determined to affix the Stamp
on grounds shewn to the satisfaction of
the Board or other controlling authority,
that by refusing so to affix the Stamp,
the party will be subjected to great and
unmerited hardship or injustice, the Regu-
-lation contains the Words "Fine to be taken
"in consideration thereof shall be discre-
-tional but shall not be less than ten
"times the value of the Stamp." We res-
-pectfully submit that the Words citede
"Fine to be taken in consideration thereof"
equally imply that the Board, or control-
-ling Authority must determine the amount
of the fine at their discretion, in a given
amount

to 1856 under the head of "compensation in lieu of resumed lands, Offices and privileges" or for the continuance of the payments in future. He therefore desires that the Board of Revenue will instruct the Collector to prepare and forward with as little delay as possible a Statement exhibiting in a clear and concise manner in regard to those allowances only which are still under retrenchment, the Nos in the Audit and Registers referred to in the Board's Proceedings, the names of the incumbents and the families they belong to, the Amount of annual allowance payable to them in the present currency, the sum total of past payments in each case for which sanction is required the nature of the grant whether hereditary, service or for life and the authority under which it was continued to the present recipient with a note of the correspondence connected with each case.

amount, the minimum being not less than 5 times the value of the Stamp. The power to increase the fine not after the minimum is ordered, to direct a further levy of the value of the requisite Stamp tantamount to an additional duty.-

6th The officiating Collector of Salem however referring to the notification of the 26th April 1843. published in the Government Gazette, cites the words in addition to the value of the Stamp or the "difference of value" as giving such authority and power to the Collector. We have shewn rules of practice in the Department in this respect throughout a very long period and that in our Judgment by the provisions of the present regulation X of 1829 the value of Stamps were levied in addition to the payment of the duty or to the penalty or to the fine, must be refunded to the parties surcharged. We deem the present provisions sufficiently stringent in cases where the requisite Stamps on application are permitted to be affixed and that higher penalties are not expedient. There had been one case previously investigated

of the Notification from the Collector of the S. D. of Cuttack and we would accordingly request that the terms of the Notification of the 26th April 1843 with the correspondence submitted may be taken into consideration of Government in order that the right construction may be promulgated to the several Collectors by a Circular issued thro' our Board or in whatever manner your Honor may deem most proper.-

maintained at it for discontinuing the gratuitous distribution of food: and for the appropriation of the surplus funds.

2. It would appear from the translation forwarded by the Collector of a Cummul found among the old records of this Cutcherry, that the Chuttrum was originally founded and endowed by one Chicka Dauna Rauze Vanear in A.D. 1698/9 for the accommodation, protection and relief of Pelgrims travelling between Conjeveram/Benares/ and Rameswaram through the Topoor Ghaut, then a dangerous and unfrequented tract of Jungle. That an Establishment of the extent noticed in the Margin was attached to it, and that the Villages of Rajapully in the Salem District yielding a revenue of 240 Pagodas per annum was appointed for providing food and water for the Pilgrims and for defraying the expence of the Establishment. There is no other document nor any evidence to be produced in support of that assertion or to whom made does not appear to show that other Villages were subsequently allotted for the support

With reference to the Circular
of the Superintendant of Stamps dated
25th May 1830 I am directed by the
Board of Customs Salt and Opium
to request that you will cause

Fort St George 7th July 1851.--

instruct the Officers subordinate to you in
charge of Stamps that, on every occasion of
transfer, the Officer taking charge is to fur-
-nish in quadruplicate a receipt in the annex-
-ed form.

2. One Copy of this receipt is to be
delivered to the Officer making over charge,
one to be kept in the Office for record, one
forwarded to the Commissioner, and one
to the Superintendent of Stamps.

3. If it should be impracticable,
at the time of delivering over charge, to —
count the unsold stamps in the hands of
the venders, the receipt is nevertheless to
be given in the form as above prescribed
but the responsibility of the Officer de-
-livering on charge will not cease until
such time, not exceeding three months
from the date of transfer, as the Stamps in
the hands of the Venders are counted and —
found correct. If, within that time, any
deficiency should be discovered in those
Stamps, the responsibility of the Officer
who delivered charge will be the same
as if no such receipt had been given.
But if, within that time the —

support of the Chuttrum this from the amount of the allowance Rupees 1750 granted on the assumption of the province, it seems probable that the original endowment made by Chicka Danna Ranga Wania has been afterwards increased by the addition of other lands. Neither does it appear when and under what circumstances the Establishment was augmented to its present complement, or a Police Subsidy maintained at the Ghaut for the protection of travellers.

3 The Collector considers the present large disbursement to be unnecessary under existing circumstances. He observes that from his personal observation of the locality and examination of the Establishment he is satisfied, that no sufficient reason necessarily now exists for the retention of the Chuttrum Subsidy on its present very expensive footing, or for continuing the gratuitous distribution of food to travellers. It is stated that under the existing arrangement this latter object is lost sight of and that supplies will be furnished at all [illegible] for the higher classes of native travellers who can have no need of such assistance. The Collector

and to discontinue the allowance for supplying food.

4 The Governor in Council concurs with the Collector that the necessity which induced the endowment of a Chuttrum on the present footing and the offer of certain advantages to parties to settle themselves at Sopoor, no longer exists. circumstances have greatly altered since the date of the grant & the Ghaut has from time to time been much improved. large clearances of Jungle have been effected on both sides of the road and other parts of the Pass a Bridge has been constructed over the river near the Chuttrum and Sopoor itself from having been formerly unwholesome is now a thriving little Village and the whole Ghaut is as safe for travellers over the Police Subsidy at present maintained there.

5 In preference therefore to the

stamps in the hands of the Venders should not be counted, or if they should be counted and found correct, the receipt will become and be held a full and complete discharge and the Officer who received charge will be made answerable for any deficiency that may afterwards be discovered, whether it occurred during his incumbency or not. When the actual balance in the hands of the Venders is not ascertained at the time of giving and receiving charge a note, as in the accompanying form, may be appended to the receipt.

4 Officers receiving charge of Stamps are required to count the Stamps in the hands of Venders as soon as practicable, taking the precaution, with a view to prevent collusion, to have the entire quantity of stamps in the hands of all the Venders produced simultaneously at the Sudder Station, so that the whole balance may be inspected at once. If on being counted, they are found correct, the same will be certified at the foot of the Monthly account of receipts and issues furnished to the

Superintendent of Stamps; but if any deficiency be found, immediate intimation is to be given to the Officer who delivered charge and the necessary steps taken at the same time to enforce in the first instance the responsibility of the Vender.

5 The above instructions are applicable only to cases where Stamps are in the hands of Venders on Commission sale, and the value of them has not been realized and credited to Government. No account need be taken of Stamps supplied to Venders under clause 5 Section XI Regulation X 1829, of which the value has been paid into the Treasury, less the usual discount.

Secretary to the

Board of Revenue,

Fort St. George.

Sir,

I have had the honor to-

receive the Board's Proceedings of the 27th February reviewing my Summahbundy report for Fusly 1259.- The papers contains nothing that calls for immediate answer, but with a view to the preparation of the Summahbundy accounts of the Current year, I wish to ask the Board for some further explanation of their intentions as to Statement A.-

Para 32.

2.- The Board direct as follows "the particulars of the Cultivation of the preceding "year may be omitted, the particulars of the "Dittum for the year under report under "distinct heads in comparision with the "actual Cultivation under the same heads "will be specified in lieu." I am led to suppose that the Board's intention was to lighten the labor of preparing the Statement, and I therefore beg to inform them that the actual effect will be directly the reverse.- The number of Columns in the Statement will be exactly the same as under the old plan, and the labor of preparing the details of the Dittum to the extent demanded by this Statement, will be much greater than that of merely copying the details of the preceding year's Cultivation.-

Sir,

3. I beg to submit a Statement shewing the amount of the Beriz of the whole District for Fusly 1261 as compared with the average of the last 5 years. The deficiency as compared with the Rents obtained for the present Fusly amounts to Rupees 743. 6. 5 while as regards the results of the 5 preceding Fuslies the deficit is Rupees 1452 7 ... —

3. On the 19th October last I addressed the Board pointing out the excessive labour and time required by the present periodical Statement and offering suggestion for their abbreviation, without diminishing (as it appeared to me) the useful information conveyed by them.- I am uncertain whether the present order of the Board is intended as a notice of that letter, but as already said, it aggravates instead of mitigating the evil complained of.- It appears to me that the minute detail of Cultivation into which Statement A runs, is of little or no use to the Board, and that the form proposed by me in the letter above referred to, will give all that is wanted.- I find it still more difficult to conjecture what can be the practical utility of having before the Board the minute detail now required of all variations between the Dittum and the Settlement, and I hope the Board will see fit to modify the orders.-

Sir,

3

Bd. No. 1543.

From the Collr. of Madras.

Reporting upon the Settlement of the Alkarry Revenues of Madras for Fusly 1261.

With reference to Enclosure from the Proceedings of the Board of Revenue dated 12th May last, I have the honor to report, for the information that the right to vend Arrack by retail in the several licensed Shops within the Alkarry limits of this Collectorate, for Fusly 1261, was put up to public auction. The results as regards the Columbo Arrack Shops, is exhibited

From the Secretary to Government. Directing the Board in communication with Mr. G. Norton to make arrangements for the proper distribution of water in the Neilgherry Hills. Desiring that all repairs to the channel be executed at the public charge and disapproving of the proposition to levy a tax on Carts and Coolies employed in bringing wood from the Circar Forests.

Extract from the Minutes of Consultation, Revenue Department, under date the 17th. June, 1851.

Para 1. Some of the house owners at Ootacamund having complained of an insufficiency of water, and having applied to the Collector to take measures to afford them a better supply, the Collector consulted Captain Ouchterlony, the Engineer by whom the Survey of the Neilgherries was executed, and both being satisfied that there was a sufficiency of water to supply the wants of all, if due arrangements were made for conducting and distributing it so as to prevent waste, a plan was concerted between them for effecting the desired object.-

2. A part of the plan was the enlargement of a channel formed some years ago by Mr. Norton for bringing water from the Dodabet Hill to his property, and the extension of it to carry the surplus water - which after a full supply has been given to Mr. Norton's houses and

grounds now runs to waste in a swamp to other properties beyond Mr. Norton's on the South side of the Lake which divides the station.-

From Mr. Norton 16th. December 1850. Paras 3 and 6.

3.- The Collector having addressed a letter to Mr. Norton to ask whether he would consent to this arrangement, and especially to the main Channel being conducted through his grounds, and having intimated in his letter that he thought Government had a right to carry it into effect at any rate, Mr. Norton answered by denying the right asserted, and declining to consent to the proposed plan, since to consent would be to "concede a right in Government to come upon his private property and deal with it in my manner it might think fit, with a view to the accommodation of any individuals whom Government might deem the public." Further in reference to an observation of the Engineer, that the sanction of Government to Mr. Norton's bringing water to his grounds by the Channel in question could be withdrawn at it's will and pleasure, Mr. Norton takes the "liberty of questioning, as well the legality as the justice

justice of such a step to my injury, for the sanction of Government to my taking the water has no limitation of Government's mere will and pleasure."

4. The Government will not now discuss the question whether they posses the right to carry a Shamel through Mr. Norton's ground without his consent, presuming that he holds under a grant or grants in the old form. Neither will they at present consider their right to the Supervision and control of all the watercourses upon the Hills, and of that which supplies Mr. Norton's property among the number nor will they touch upon the opinions maintained by that Gentleman in his correspondence with the Collector nor advert to the measures to which they may be compelled to have recourse as guardians of the public comfort and convenience, if all more moderate means should fail. Though they entertain a very decided conviction as to their own powers and privileges in the matter at issue, it would be far more agreeable to them not to rest the determination of the question on this basis, but to effect all

that is at present required by amicable arrangement. The last letter from Mr. Norton assures them that this may be accomplished as he has therein declared himself ready in a liberal spirit to enter into any arrangements and discuss the practicability of them for the accommodation of others. The Board of Revenue will therefore place themselves in direct communication with Mr. Norton and treating the question in a conciliatory tone, and in reference to its bearing on the comfort and convenience of the public will endeavour to make due arrangements for carrying out that part of the general plan for the distribution of water in the Cantonment, which contemplates rendering the Shamel that passes into his grounds available for the supply of the gardens beyond it, on the understanding that this will be effected after careful survey and with such precautions as shall ensure the continuance of a full supply of water to his own properties. If, as the Government confidently anticipate, Mr. Norton's objections be removed, the Board will then desire the Collector and Engineer to proceed with the general scheme. the expense Rupees 800 being borne by Government. If on the other hand the efforts of the Board should prove unavailing or any unforeseen obstacles should arise the

subject must again be brought under notice and it will then be for Government to adopt such measures as may seem to be called for, by the circumstances of the case and to be due to their own position and to the just claims of the parties interested.-

5- The Government think that a water rate would not be easy of adjustment, and in-as-much as the payment must be voluntary &c would often be difficult of realization - It would in their opinion be preferable that any repairs &c which may from time to time be required to the Channels, which cannot be considerable, should &c be executed at the public charge - The general &c control over the main channels and distribution of water from them will of course rest with the Collector and his subordinate Officers.-

6- The Government question the &c propriety of the proposed tax on Carts and &c Coolies employed in bringing wood from the Circar Forests - The collection of such an &c impost seems to them to be open to abuse, &c and they do not perceive that it has any &c tendency to check the wasteful felling in the &c forests

2. The correspondence between the Collector of Coimbatore and yourself, as well as the communication of that Officer to the Board has been laid before the Government. In their instructions to the Board the Government, while entertaining a very decided conviction as to their own powers and privileges in the matter at issue, have expressed an unwillingness to enter on any discussion of them at present being desirous rather to effect all that is required by amicable arrangements, resting on the assurance conveyed in your last letter to the Collector. The important object in view they are of opinion may be readily accomplished, and your objections, if any exist, they confidently anticipate will be removed.

It is proposed to make a careful survey of the line of Channel and such precautions will be adopted as shall ensure the continuance of a full supply to your own properties, all surplus will be conveyed by suitable arrangements to properties beyond. The fairness of the proposed measure appears beyond question, as it is only that portion of water, which is over and above the quantity necessary to meet yours wants, that will be made available to others.

of his exertions to ensure the remissions granted in Fasly 1260 reaching the ryot in place of being intercepted by the Native Revenue Servants.

May last under submission the Agent at Kurnool explains one part of his report upon the Settlement of the Province for Fasly 1259 which had been misunderstood by the Board of Revenue. It appears that the deputation of the Nail Sheristadar to the Chagulmurry Talook to assist at the formation of the Villaware or Cultivation engagements occurred at the commencement of the present / Fasly 1260 / not of the past Fasly. It seems too that the omission of the above Officer was confined to that object and that he took no part in realizing the outstanding balances for Fasly 1259.-

2. The Government approve the exertions made by the Agent to ensure the remissions granted in the Current Settlement reaching the ryot in place of being intercepted by unprincipled native revenue servants, as it is observed with regret, seems to have been the case with the remissions allowed in the past year.- It is trusted that Mr. Lushington will succeed in detecting and punishing all the servants who have been concerned in such a cruel

The subdivision of the Paparaputty Mootah in the Salem District in Fusly 1242 as reported in the above Extract appears to be open to

to strong objections and the conduct of the Principal Collector Mr. Orr in having carried it out without the sanction of the Board of Revenue to have been very irregular and improper. Considering however the length of time during which the Mootah has been treated by the Local Authorities as a subdivided property and the changes which have been made in the tenure of some of the subdivisions, the Right Honorable the Governor in Council agrees with the Board of Revenue that, under the circumstances, it would not be desirable to disturb existing arrangements- He therefore approves their proceedings in confirming the Sub division of the Paparatty Mootah according to the Register of 24th December 1832.-

Sir,

In Cons 10th July 1851.

Agreeably to the orders contained in Extract Minutes of Consultation dated 2d July 1851, I am directed by the Board of Revenue to report on the Memorial from Palamalay Pillay and Mooroogapillay Curnums of two Villages in the Taloot of Virdachellum in the South Arcot District.-

2. Previous to 1825, the Curnums Office of these two Villages had been held by a person named Palamalay Pillay who was removed in consequence of certain offences of a revenue nature. From that date to 1844, the situation had been filled up by the Uncle of the Memorialist, on whose demise, they succeeded to the Office under the orders of the Sub Collector, but were displaced subsequently after a lapse of 4 years in favor of the son of the party who originally held the Curnumship previous to 1825.-

3. The Board, when the case came before them, by a Petition from the Memorialists, did not consider it necessary to interfere with the arrangements of the Local authorities, as the party last appointed was the son of the person who was removed in 1825.-

B. No. 1533.
From the Collector of Vizagapatam.

Sir,

I have the honor to submit Copy of the Rules for the Settlement of the Revenue from the Land with a few remarks entered in red ink in the Margin together with a separate paper shewing the application of those rules to the District of Vizagapatam.

Vizagapatam,
Collector's Office,
26th June, 1851.

(Signed) A. Roberton
Collector.

No. 1.

Rules for the Settlement of the Revenue from the Land.

Dittum or Engagements of the Ryots.

The Kaboolliat or Dittum shews the engagements of the Ryots for the year. It differs from the Dittum of the preceding year only as land from various causes may be newly taken up, or relinquished. Many Holdings continue the same from year to year.

Fort St. George 10th July 1851.

2. The Dittum shall be formed at the commencement of the season for cultivation and shall be closed as early as practicable. An abstract of the Dittum, prepared Villagewar, will be forwarded by the Tahsildar to the Collector every 15 days, the Coolwar or individual Chitta being retained in the Talook Cutcherry.

3. The Tahsildar will be held responsible for the preparation of the Dittum Accounts. His personal attendance will be given as far as practicable, and he will depute the principal Officers under him to such Villages as he cannot personally examine.

Occupation and relinquishment of Land.

4. Occupants of Land are liberty to enlarge or contract their holdings in both case by entire Fields.

5. Where a field is large Subdivision will be permitted if the Separated portions will form convenient Holdings, but not otherwise. In cases of relinquishment a Rajeenamah to that effect.

effect will be required, without this document, the party will not be relieved from liability for the rent.-

6. Land, when relinquished, shall be in proportions of what is usually termed good and bad land, so that the Field or Fields given up may form an eligible holding for another occupant. But a deteriorated Field or Garden or a Field altogether unprofitable, may be given up without restriction.

7. A separate number or Field is the Minimum extent allowed for a holding. If the Field is of such extent as may readily admit of subdivision or, though small, if the separated portions will form convenient holdings as Gardens for instance, subdivision may be made but the previous consent of the Collector is necessary in every case.-

8. A Field may be taken up by two or more persons jointly but division of the Field will not be allowed afterwards, unless subdivision can be conveniently effected as above required.-

The

Boundaries of Fields and remeasurement of Fields when fraud is suspected.-

The extent and Boundaries of Fields have been either determined by survey or are duly recorded at length in the Village accounts. The Remeasurement of a Field will not therefore be allowed except with the consent of the Collector. If from suspicion of fraud or on other sufficient ground it is determined to test the recorded measurement increase and decrease respectively will be adjusted according to local usage in favor of or against the occupant as the case may be.-

10. It is the duty of the Village Officers and Subordinate Revenue Officer in Charge of a Sub division to see that the Boundaries of Fields are preserved. An affidavid to that effect signed by the Potail and Curnums and countersigned by the Subordinate Revenue Officer in verification of the truth of its contents shall be appended to the Adangal accounts in each year.-

Transfers of Land.-

Servant, Department, relative or other, shall not relieve the bona fide Holder from liability to pay the Assessment of such land.-

12. Transfer of land by sale, Gift or Mortgage shall be duly recorded in the Village Register. Transferees become responsible for the Assessment of the land thus conveyed.-

13. Land transferred shall be in entire Fields and shall consist of pro=portions of good and bad according to the construction of those terms in Para 6 above.-

14. Land left uncultivated in consequence of the Neglect or absence of the owner may be taken up for the time being by any other person, but the right of the original holder to reoccupy the land within a given period according to the usage of the District shall not be superseded thereby as the temporary occupation of the land as above described is intended to provide in the best way circumstances will admit for the Revenue of the year, the owner will not be exonerated from such balance as may have accrued in consequence of his neglect

or absence.-

Assessment.- 15. Land in the Revenue Accounts is termed Dry, Wet and Garden. Specific rates of Assessment, fixed by Survey or otherwise, obtain for each description.- Dry applies to land on which products are grown by means of the falling rains alone. Both wet and Garden lands are irrigated by artificial expedients as Wells, Tanks and River Channels.-

16. Irrigation is provided either by the Government or the Ryot. If by the latter, due allowance is made for the [illegible] expenses incurred, consisting of original outlay and other charges, according to the nature of the work.-

17. The Assessment is fixed for the most part with reference to the productive power of the land and not with reference to the description of Product grown. Irrigated land bears a higher Assessment than land dependant on the falling rains alone. In some places the particular product regulates the Assess=ment - this rule, where it prevails,

will continue till superseded by the principle which fixes the Assessment on the Soil, without reference to the article grown- With this exception occupants of land are at liberty to grow whatever products they please without restriction provided the regulated Assessment is paid.- Thus, occupants of Dry land are not restricted to the ordinary dry grains only, if the moisture obtained by the periodical rains will admit of their growing other products on the said land, and holders of irrigated land in like manner may apply the water at their command for the raising of not only paddy, but of Cocoanuts, Tobacco, Chillies and any other articles -

18. Lands irrigated by Tanks and Channels are classed as one crop and two Crops as the case may be. The assessment for the 2d Crop in two crop lands is usually 1/2 of that fixed for the 1st crop. If the both crops are grown, 1/2 of the Assessment will be levied- if one Crop only is raised, the demand will be limited to 2/3rds of the assessment fixed for both crops.-

19. In single crop lands, or if

Fort St. George 10th July 1851.-

if a 2d crop is raised, the Assessment of such crop will be entered in the accounts as Fuzul Tastee- On the other hand the Assessment of the 2d crop in 2 crop lands when such 2d crop is not grown, will be entered as Fuzul Commee.-

20. Some irrigated lands are assessed with a consolidated rent without distinction of one and two crops- This rule prevails where the certainty of water will allow- In such cases the consolidated Amount will be levied without reference to the number or nature of the Crops raised.-

21. The tax for irrigated land is usually limited to the entire Assessment for two crops. All additional produce as a third Crop of whatever Kind may be enjoyed without further impost provided the same is cut before the ensuing season for cultivation and provided the land has sufficient repose before the cropping of the next year.-

is not usually made on account of additional crops raised on Dry lands. Where it is otherwise the practice will not be disturbed.-

Additional Assessment when leviable.- 23. Land will be liable to an additional Demand under the following circumstances.-

24. Dry land converted into wet by means of irrigation provided by Government will be liable to the Assessment fixed for irrigated land of a similar quality in the same or neighbouring Village.-

25. The same rules applies to Garden land converted into wet under irrigation provided by Government.-

26 When a 2d Crop of whatever kind is grown on Dry land with a Government water, an extra cess will be imposed for the occasion according to the usage of the District in addition to the Dry Assessment, and such extra rate will be entered in the accounts either as Kuffaer or as Fuzul Jastee according as one or the other term is in use.-

29. Water cannot be diverted from

from the land to which it is ordinarily applied without the permission of the Collector.-

28. A Ryot is not permitted to give up the Cultivation of the 1st Crop in two crop land and cultivate the 2d under the impression that a portion only of the assessment will be imposed. Fuzul commee as defined in Para 19 will be allowed for special reasons only, as failure of water.-

29. In seasons of drought when the means of irrigation fail or in any particular case in which there is an absolute deficiency of water, Ryots may apply for permission to grow Dry products on wet lands. The Assessment of adjoining Poonjah lands in the same Village will be levied in such cases and the difference between that rate and the ordinary Assessment of the land will be entered in the accounts as Feerva Commee.-

Pasture lands. 30. Lands usually appropriated for Pasture may be occupied for that purpose at the assessment fixed for the same. Land entered for cultivation in the accounts and occupied for pasture will be chargeable with full Assessment.-

31. In some Districts a portion of the entire Assessment of a Putcut is remitted for grass.-

32. The Dittum as has been already explained shows the engagements of the occupants of land for the year. The settlement on the other hand shows the Demand with the abatements allowed with reference to season.-

Remissions.

33. Abatements will be allowed-

First.- For wet lands left uncultivated in consequence of the failing rains and of the means of irrigation having failed. In such cases the entire Assessment of the land will be remitted. The same indulgence will be accorded to Dry land uncultivated and to land ploughed, but not sown in consequence of a failure of rain, such remissions are entered in the Accounts as Cahoolaty or Dittum Bunjer, but no remissions will be granted if land is left uncultivated in consequence of neglect when means are at hand.-

Secondly- For wet crops which have entirely perished from drought or inundation. Where losses are sustained from these causes, such

such portion of the Assessment will be deducted as may appear proper under the circumstances of the case with reference to the outturn of the whole cultivation belonging to the party claiming remission and to the advantages arising from the prices of the year. A Crop will be considered to have perished if it does not come into ear.-

No claim for remission on account of loss of crops will be admitted, if it has not been verified by the Tahsildar or by one of his subordinates under special orders from him.-

Thirdly.- Deduction for Fallow (Poodoo Kaul) for a limited period according to the usage of each district will be allowed, and the party will be at liberty to retain the land in his putcut for such period free of Assessment.-

From the Acting Collr. of North Arcot

Sir,

Para 1.

In reply to your letter of the 9th Instant, requiring information on certain points connected with the Treasury Department, I have the honor to inform you, that no such customs as those described in the first and second paras of your letter obtain in this District either at the Hoozoor or in the Talooks, tho the accounts shew that they did so formerly.- At present such sums only (with one trifling exception) as are actually disbursed from the Treasury each day, are entered in the Treasury Book as "paid" and the following

Wells and other Sources of irrigation constructed with private means.

41 The general question of well cultivation is under consideration and rules will be fixed hereafter. Meanwhile the present practice will not be disturbed.

Waste lands Cultivated on Cowle.

42 Waste lands taken up for cultivation shall be liable to the following rules.

Land 5 years waste and under, shall not be entitled to favorable terms.

Land upwards of 5 years waste shall be entitled to remission according to local usage.

43 Cowle will not be allowed for Fallow of the description noticed in Clause 3d Para 33.

44 In special cases as clearing the land of Nutt as in Bellary

45 Land will not be given on Cowle where the party cannot satisfy the local authorities that he has the means of fulfilling his engagement. Nor will an occupant of land be allowed to give up or contract his holding in order to cultivate waste land.

46 The Cowle rates will be levied whether the land is cultivated or not.

47 Waste land may assessed will be assessed with reference to the rates for land of similar quality in its vicinity.

48 Land may be occupied for planting Topes on the terms specified in the printed rules framed for that purpose.

Back Yards 49. The Back yards of Ryots will be exempt from assessment according to local usage.

Enams 50. Enams will be continued as usual, but Enams on which crops may be raised by means of

and so on till the whole is disbursed.-

The exception alluded to is the Salary of any Hoozoor servant who may happen casually to be absent from the Station when the pay is distributed this tho entered in the accounts as "paid" (for as much as it forms part of the General Abstract the whole amount of which is charged at once) is not "actually disbursed" but allowed to lie with the Cash keeper till the return of the party and must therefore for the time being be looked upon as unaccounted for, tho at the end of the month, if still unclaimed, it reappears upon the Book as "Deposit".

2. The only items I can call to

mind which meet the description given to the latter part of the question are Refunds of Maramut Advances received from the Talooks, the pay of absent Servants, Rewards due to informers of concealed Cultivation Hd.ca. Hd.ca., and unclaimed Balance of Net proceeds of Dehant Enam Villages due to the Enamdars, all of which appear as "Deposit" tho struck off the account as "paid".- Such sums form part of the General Cash balance, and are regularly counted at the periodical examination of the Treasury.- They seldom reach any great amount, are not of constant occurrence, and when they do occur remain but a short time on the Books.- I do not see how they can be more conveniently disposed of in the accounts, and apprehend no evil from the continuance of the present system.-

3. In my absence, Accountant General's Bills presented at the Hoozoor if not payable at sight are forwarded to me by the Head Accountant for my acceptance, and when accepted returned to him.- He then prepares an order for payment which he submits to the Head Sheristadar, who after duly attesting it, lays it before me for signature, when signed, it is sent to the Cash-keeper, who pays the amount when due. by the Cash keeper with reference to the letters of advice received from the Accountant General, which I always send to him (the Head Accountant immediately they reach me) and then the same process is gone thro' as has been above described in order that the Cash keeper may have my orders to shew as his authority for the payment. The sum left with the Cash keeper to meet these and other demands varies a lac to a lac and a half. The rule here observed is that supposed in the question. The main bulk of the Cash remains locked up in separate Chests under my seal or that of the Assistant, who counts the Treasury, the keys of which always remain in my possession, and to it the Cash keeper has no access. The rest remains with him and is made use of for disbursements as occasion may require. It occasionally, from one cause or another rises as high as four or five lacs before a portion is transferred to one of the separate Chests, but as I have before observed a lac or a lac and half is the usual sum allowed to lie with the Cash keeper.

From the Collector of Salem.

Bringing to notice the dissatisfaction felt by one Gouindoo Razy Moodelly as shareholder in the abkarry Farm of his District by the sale of Foreign Spirits in the Town of Salem and suggesting that the prevelage of selling such spirits be let out at a yearly rent, on a fee demanded in lieu from parties applying for Licenses.

Sir,

A person of respectability named Gouindoo Razy Moodelly, who has under his own special Management, as part of the Abkarry Farm of this District, in which he is a 1/5th share, has of late appeared greatly dissatisfied with the sale of foreign spirits in the Town of Salem by parties who hold the licenses prescribed by Regulation I of 1820. There are five persons of this class and from circumstances of recent occurrence I have reason to believe that a large quantity of French and other Brandy is sold in and about the Town and on the Shervaroy Hills.—

2. Gouindoo Raz Moodelly at first objected to the sale of brandy by others than himself, but a reference to the terms of the Michilkany seems to have satisfied him that his objections were legally untenable and I have heard no more of them. But referring to the present state of affairs and to the impression

records will be used when necessary for purposes of verification.

50 The Jummabundy Chittah shall show the particulars of the land held by each Ryot with the assessment thereon, and will be drawn up according to the Form supplied by the Board of Revenue. The signature of each Ryot will be attached opposite to the particulars which have reference to him.

51 It is desirable that every item of Demand should be included in the Jummabundy Chittah a separate statement called Sewoy Jummah will be allowed for such items only as cannot be brought into the Jummabundy Chittah.

52 Puttahs shall be prepared and issued to each Ryot the particulars shown

shown in the Jummabundy Chittah shall be entered in the Puttah, with the periods when the Kists are payable.—

The arrears due by the Ryot shall also be entered Fusly war in the Puttah.—

59 Where lands are held jointly by two or more persons, the name of each share shall be specified in the Puttah, but the entire land and its produce shall be held responsible for the rent.—

60 It shall not be necessary to include the names of Sub Tenants in Puttahs. The owner alone in such cases is responsible for the public Demand. The produce and the land will be responsible as provided by Law.

61 Village Officers shall grant receipt to Ryots for payments made by them on account of their Kists, such receipts to be written on the back of the Puttah.

Remarks.

impression which I believe to be rather general, that Cuddah Salem affords a regular and a moderately fair market for foreign spirits, I have the honor to submit for your Board's consideration whether it may not be advisable, as much in justice to the interests of Government as to those of the acknowledged Abkarry farmers, that the privilege of selling foreign spirits be disposed of at a yearly rent, or that an annual fee be demanded from all those who now hold or may hereafter apply for licenses to sell foreign spirits.-

3. On reference to the Abkarry Regulation, I have observed that your Board has authority "to rent out" the privilege of selling foreign spirits by retail when it is not retained under the immediate Management of a Collector, and adverting to this power, it has occurred to me as possible, that a question may be raised by the Abkarry farmer as to whether the unpaid for liberty of disposing of foreign spirits, is not an objectionable concession and one which injuriously touches his profits. There can be no doubt, I apprehend, that the Current sales of cheap, imported brandy must to a certain extent, affect the gains drawn by the Abkarry farmers

Clause first, Section V. Regulation I of 1820.

farmers from the sale of Country Arrack, and if this impression gains ground, sufficient to be worked upon by intending bidders, the approaching sale of the Abkarry of the entire District, will necessarily be below what has hitherto been realized, by the extent of what is calculated to be the loss sustained from the introduction of foreign liquors into Cuddah Salem. I am sensible that the renting out the privilege of selling foreign spirits may be considered to diminish the receipts at the Custom Houses on the Coast, but I submit that its effects there will be imperceptibly small, whereas the rent for the Abkarry of the Collectorate may possibly suffer by decrease of competition under the circumstances explained.-

4. An inspection of the licenses formerly granted proves that no limit has been fixed for their continuance, and two which I have myself given, were drawn out in the same form. I find nothing to show that these licenses were originally "prepared by the Board of Revenue," and no counterpart thereof has been lodged in my Office. Although, then, the omission is doubtless attributable to the authorities here, I apprehend that no legal or valid objection could be raised by the licensee holders to any intimation I may convey that the privilege conceded to them will be with-drawn at the close

14 Not in accordance with usage here, but a ryot having once engaged for the cultivation of any land is held responsible.

Such Articles as Tobacco, Onions and Chillies if produced on artificially irrigated lands do not bring those lands under the head of Garden land, Bagayet but land so cultivated as well as land cultivated with dry crops are all equally assessed as Dry land Here lands producing Mangoes and Tamarinds are classed

Translation of a Petition addressed to the Collector of Salem by Attoor Suttadoo Saib, Salem Gopaula chetty, Dowlatabad Adiappa chetty, and Bangalore Thoppa Moodelly renters of Abkarry of the entire District of Salem.

The persons licensed to sell brandy &c. foreign spirits, in Cusbah Salem, in lieu of selling exactly 3 Bottles, according to the stipulations of their licenses sell illicitly in small quantities so low as one or half a dram. This induces individuals drinking Country spirits to drink brandy, in consequence of which the sale of Country spirits is reduced and great loss is occasioned. As persons drinking brandy are taken inside the house and made to drink there, it is impossible to detect and guard against the illicit sale of brandy in small quantities. Further in the Districts of Bangalore Bellary and Suttoor, licenses are granted to the Abkarry renters for the retail Sale by themselves of brandy and other foreign spirits, and they sell the spirits accordingly. As we have rented for a large amount (the Abkarry) of the entire District from Fusly 1261 to 1263 we request that you will, in view to protect us against loss, be pleased to Annual the licenses obtained by parties for the sale of brandy &c. at Salem, and to grant us license as is the practice in the aforesaid Districts for the retail sale of brandy and other foreign spirits from and above a bottle.

5. The application I had the honor to submit on the 27th November last, was signed by many highly respectable Persons of Bruce=pettah only; I had not then applied to the Cowle Bazar which as it is so entirely a Military Bazar and separated from Bruce=pettah I proposed leaving until I saw the result in the Brucepettah.-

6. But I now beg leave to enclose a similar application from that Division of Bellary Town together with Copy of a letter from the Officer Commanding the Garrison of Bellary giving cover to the same, by which it appears that the people there also wish to put the said Act in force.-

7. The manner in which it will be proposed to raise the funds for carrying out the Act, will be either by recommending the re-establish=ment of Sayer duty within the limits of the

the Town; or by levying a House tax on all houses with certain exception to the poorest class. But the former of these propositions is the one I think preferable. The Sayer realized during the three years previous to its abolition in 1844 was in-

Fusly-	Inland or transit duty-	Town or consumption duty-	Total-

*1249	7,725	9,000	16,725
1250	9,563	10,800	20,363

The Transit duty was levied on 36 Articles; the Town duty on 5 articles; namely, Betel leaves Rs. a P. —14—7 per 10,000 leaves; Tobacco 1 Rupee per Maund of 25 pounds; Ganjah 22—8—" per Maund, Bhang 3—8—" and Goodock 1—8—" per Maund But a modification of the Transit duty only will I think be the plan that the committee of Management will most readily adopt in preference to a Town duty and in preference to levying a tax on Houses; this latter impost would be probably objected to by those especially who already pay the Veesabady and Moturpha Taxes. It is calculated however that a sum of about 5,000 or 6,000 Rupees might be collected by a tax on Houses in the following proportion.—

Collector of Bellary.

Sir,

With reference to your letter 3d March 1857 I have the honor to forward the signature of the leading inhabitants of the Cowle Bazar agreeing to concur in the provisions of Act XXVI of 1850-

It however occurs to me that were the Officer Commanding and the Superintendent of Police made Members of the Commission it would be highly advantageous to the furtherance of the wishes of Government for as although they would not, except as individual members, knowing nothing about the matter, in any way interfere with the necessary imposition of the tax, the chief difficulty still they might in many ways both by their influence and by the assistance of the executive means now at their disposal aid the Commission in any sanatary and other improvements they may wish to carry out. I doubt not should you concur in the advisability of this that you will take steps to have it done and I think with Cordial Co-operation an immense amount of improvement may be effected.-

Resolved that the letter above recorded together with its enclosure be submitted for the consideration and orders of the Right Honorable the Governor in Council with reference to Exctract Minutes of Consultation 17th January 1857-

2- The Town of Bellary comprizes the pettahs of Brucepettah and the Cowlepettah commonly called the Cowle bazar- The Collector states the extent and population of each and the amount they are rated under Veesabady and Moturpha besides the number and description of buildings and explains that as the Cowlebazar is entirely a Military Bazar and separated from Brucepettah he therefore did not suggest that its inhabitants should join in the application from Brucepettah, but, he now encloses a letter from the Brigadier Commanding, giving cover to an application in Tamil from the inhabitants of that

division for the introduction of Act XXVI of 1850.

3- The Collector thinks that the Funds will be raised either by the re-establishment of the Sayer duty in a modified form, which it is observed averaged Rupees 8,187 per annum during the 3 years previous to its abolition in 1844; or by a House tax, which calculated on the scale shewn in the concluding para of his letter, / taking 8 annas as the Maximum and 4 Rupees as the Maximum per annum / is likely to yield between 5 and 6 Thousand Rupees per annum; but the former proposition is in the opinion of the Collector the preferable course and the one likely to be adopted with some modification by the Committee of Management.

From the Collector of Bellary } Sir,

I have the honor to acknowledge the receipt of your Circular letter of the 12th Instant accompanied by Copy of paras 22-23 and 24 of an Extract from the Minutes of Consultation dated 22d Ultimo No 1/5.

2.

I have the honor to report in obedience to the instructions of Government that I have carried out the orders now conveyed to me in para 23 of the said Minutes of Consultation. Indeed before the receipt of these orders I had communicated to my Assistants the previous orders of Government respecting the responsibility that attached to them in examination of the Treasury. They have now been furnished with copies of the orders which accompanied your letter under reply.

3.

I have also communicated to my Head Sheristadar the observations of Government contained in para 24 upon the nature of the duties and responsibilities of this Office and the further instructions in the same para respecting the examination of the Treasury accounts by the Sheristadar Department will be duly observed.

4.

I have also taken Note of the instructions contained in para 3 of your Circular letter under reply that on the occasion of the examination of a Treasury in consequence of a change in the Officers in charge of a District both the Officer receiving and delivering over charge should be present.

thereon. The description given by the Acting Collector of the state of the season does not convey a very clear idea of its general character, although the Board would be led to consider it as on the whole a favorable one. Rain is stated to have fallen from the commencement of the season in June, and to have continued in considerable abundance in most of the talooks during the succeeding four Months. It appears to have been deficient in November but at this late period of the year no more the Board believe than partial showers are usually expected. The result, as affecting the tanks appears from the table given in Para 7 to have been favorable.

To The Collector of
Sir, Tanjore.

I am directed by the Board of
Revenue to acknowledge the receipt of your
letter dated 4th June 1851 containing 7 enclosures
for their consideration and orders, with reference
to their Circular order of 24th June 1850.

2. The Board desire me to point out
to you that this is an unusual mode of proceeding.
You leave them together as well as they can
from a perusal of a lengthened correspondence
what it is you require of them, without any
indication on your part as to the nature of
the case in general or its leading features, and
I am desired therefore to return you the Packet
of correspondence with the request that you will
present the case before them in an abstract
form, and point out distinctly those parts of
the correspondence to which you wish to draw
their particular attention, or on which you especially
require their instructions.

in comparison with Fusly 1258 and a considerable increase in those which are noted as having had from three quarters to one quarter of a full supply is noticed. The Acting Collector observes that of the tanks fully supplied, being 165 in excess of the preceding year, "a few only are large reservoirs" and that there is in consequence a small decrease of Revenue. The decrease in the Revenue of Wet lands does not appear to be in those under tanks but in the Nullah and Well cultivation as shown in Para 27 of his report in the tank cultivation there is a small increase of Rupees 6388 but considering the additional supply of water, and the large increase in Wet Cultivation amounting to Rupees 172,684 which followed under circumstances somewhat similar although it is admitted still more favorable in the neighbouring District of Bellary the Board would have expected more favorable results in the Cuddapah District. The fact urged, viz, that a few only of the tanks filled were large reservoirs, does not appear to account for the

the small increase in tank cultivation is in comparison with Fusly 1258 for the Board concludes that the large reservoirs must in that year have received a proportionately small supply - They also observe that while the increase of wet cultivation under tanks was only as above observed Rupees 6388 in Circar land it was upwards of Rupees 20,000 in Enam land and in the Goorumcondah talook alone while there is a small decrease in the Cultivation of Circar Nunjah land there is an increase in that of Enam of 1949.

Fort St. George

Sir,

I have the honor to acknowledge receipt of Extract from the Proceedings of your Board dated the 12th June 1851 transmitting copy of Extract from Minutes of Consultation of the 27th May last on the subject of a legislative enactment prohibiting the practice of inoculation.

2. During my period of service in the Provinces, I have never heard that inoculation was ever had recourse to by the people, or that there existed any prejudice to permitting vaccination being used by the great body of the inhabitants. On the contrary I believe that the benefit of the vaccine system is well understood and appreciated, and there is within the last few years a considerable improvement in the progress of vaccination. In Bengal the case would appear to be different, and small Pox extending; there can be no objection to the proposed enactment.

3. The ravages of small Pox are very limited in this Presidency and there is not that fear of the disease now, that existed some years

years ago, when it was the custom to carry persons attacked, out of the Village and leave them in the open country either to die or recover.

4. I received your Board's Proceedings while in the District, and I made it my business to enquire whether any prejudice did exist to vaccination, but I found none.

5. I would submit that the number of Native Vaccinators are insufficient for the demands on their time - at all events such is the case with Trichinopoly, where only four Men are allowed - and one of these is exclusively confined to the city and suburbs of Trichinopoly, thus leaving only three Vaccinators for eight Talooks. The consequence is that, since Talooks are consigned to two men and two to another - an appointment manifestly too great for an efficient supervision. The Talookdar of Arnialore reported to me only the other day that his Talook had not been visited for a twelve months by a Vaccinator. I am endeavouring to instil energy into the Vaccinators by passing reports of them wherever attention is required. But it would be a great boon were the Government to allow me another Vaccinator so as to have two Talooks under one Man. The number of houses in this District is reckoned at 124987 and the population at 634112 souls.

Indigo. As compared with Fusly 1258 the decrease in prices varies from 7 to 19 per Cent in the different descriptions of Grain, and is still greater in comparison with the 5 years average given by the Collector. The Board notice that a different mode of preparing the five years average has this year been adopted, the reason of which is not apparent. The Collector has included the prices of the Current year Fusly 1259 in the average which is not the usual or correct course These should have been kept distinct and compared with the average of the 5 years preceding, or from Fusly 1254. to 1258. Had the mode been adopted the decrease in prices during the present year would have been somewhat diminished as, for instance in the first item it would have shewn a decrease of 25 instead of 19.

4. At the Villawary, or preliminary settlement at the commencement of the season, there was an increase of land agreed for to the amount of Rupees 16877 principally in dry land which was

was reduced to Rupees 14,601 by a small decrease in Garden land (Rs. 287) and in land paying Fuzl Jastee (Rupees 1869) The Acting Collector explains, that this latter item of decrease "is attributable "to lands on which two Crops are usually "raised having this year been entered in "the Villawari account as capable of "yielding a single crop only in consequence "of the insufficiency of water in the several "tanks," the Board would wish to receive some further explanation of the practice prevailing in Cuddapah as relates to land yielding two Crops. If as would seem to be the case, it is usual in the case of single Crop land which is ordinarily cultivated with a second crop to anticipate that it will so, and at once to include the Fuzl Jastee in the Agreements they still do not understand how at the commencement of the season the insufficiency of water could be so far foreseen as to render it necessary to deduct the Fuzl Jastee on the lands referred to by the Collector.

This however is on a comparison of the Land sown. If a comparison be made between the actual cultivating of Fusklies 1258 and 1259 inclusive of Shamilal Bunjer the result will correspond with that arrived at further on in the report (Para 35) showing a Net decrease of Rupees 2076. as exhibited in the accompanying Abstract.

6. The remissions under the head of Shamilat Bunjer exceed those granted in Fusly 1258 by Rupees 18,839- Of the total amount allowed this year more than 1/3 (Rupees 13,688) is in the single talook of Goorumcondah. The sum allowed for Shamilat Bunjer in that talook last year was Rupees 830 and considering the circumstance referred to at the end of Para 1 of these proceedings the Board would have been glad to receive some further explanation of the necessity of these remissions. They are attributed generally to deficient means of irrigation, the reduced circumstance of some of the ryots and other reasons which were considered satisfactory.

particulars of these, or of the remission an account of them are to be traced in the Cowle Statements of the year under review.

Para 34.

8. It is gratifying to observe that there has been a diminution in the amount of waste lands which it was found necessary to assess to the Summa as compared with Fusly 1258 in consequence of there being left uncultivated without adequate reason. The demand on this account was in that year Rupees 48,476 and in the year under review Rupees 46,589, during a decrease of Rupees 1887.

9. A Comparative Statement between the Cultivation of Circar and Enam land for the past twenty two years is given in Para 39 of the report. As compared with the extent of each the Enam exhibits a much larger amount of cultivation, but there is no great variation in the comparative extent of either. The increase in Circar cultivation between the first and last years shown in this Statement is

about the same. The highest and lowest years are for both descriptions of land the same, viz, Fuslies 1242 and 1257. The cultivation between these two years varies in the Circar land by 17 per Cent and in the Enam by 24 per Cent. The decrease in the Enam cultivation noticed by the Acting Collector appears to be entirely in Dry and Garden land, the large increase in the Wet cultivation has been already noticed. The Board do not clearly apprehend the explanation given of the net decrease in Enam Cultivation as compared with Fusly 1288, viz, that it is ascribed to a slight decrease in the extent of Circar land cultivated.

10. It is observed that in the Statement of Enam given in Para 39 the Ayacut and cultivation of Punganoor included amongst the Circar talooks, but as that talook is now settled on a fixed Peishcush it would be preferable to separate it from the Iyen talooks and exhibit the particulars relating to it separately as is done.

This omission is noticed also in other Statements, and it is requested that the directions upon this point conveyed in the Circular order of 1st July 1850 para 2 may in future be complied with.

The

The above statement shows that the cultivation of Sugar Cane is carried on to a considerable extent but principally in the Southern talooks of Goorumcondah Muddenpully and Punganoor. There is an increase in the extent of Cultivation of 2.04 acres but a decrease of Rupees 183 in the assessment. This is inclusive both of Circar and Enam, but on referring to the particulars it is observed that

N. 18 there is a large decrease in the cultivation of Circar land and an increase in Enam as shewn in the Statement given in the Margin. 14. Of the Gross Demand on account of Land Revenue, Rupees 20,77,404 there were realized up to the end of the Fusly Rupees 19,91,503 leaving a balance of Rupees 85,900 which has since been collected with the exception of Rupees 6,379 about half of which is considered irrecoverable. The tardiness of the Collections within the Fusly seems sufficiently accounted for by the scantiness of some of the Crops and the depreciation in the price of all Kinds of Grain referred to by the Collector in the 48th Para of his report.—

18. The balances outstanding at the close of Fusly 1258 were due for five Fasslies from 1254 to 1258 both inclusive and amounted to Rupees 1,29,910 of which Rupees 1,23,312 were collected during Fusly 1259 and Rupees 648 subsequently Rupees 2,341 were remitted under the authority of Government and the balance now remaining is Rupees 3,608—11—10 of which Rupees 971—11—5 are considered doubtful of Collection, and Rupees 1,635—5 as quite irrecoverable. This last sum the Board beg to recommend may be written off accordingly with the request of the Collector

3d. inclos 19th Augt. 1850.

Para 50 Para 49.— may be written off the accounts.—

16. Mr. Murray enters into some explanation of the different sums of which the Balance classed as doubtful is composed amongst which Rupees 60 is noted as due by a Mr. Howell on account of Quit rent for the lands attached to a bungalow belonging to him which has since been hired for the purpose of a public Dispensary. Repeated demands have it is stated been made upon him for the balance, but he objects to a charge of Teerwah Dastee and has refused to pay it. The ground of his objection is not stated but the Board are of opinion that it ought to be treated in the same manner as balances due by other parties, and if it be a reasonable and fair demand and in accordance with the practice of the district that it should be enforced by the usual process.—

17. Statement No. 17 which accompanies the report furnishes an account of the Demand Collection and Balance of Sewoy Jumma

The balance under this head on account of Land Revenue, current and arrears was at the termination of the Fusly Rupees 2,883/12-1 but reduced by subsequent Collections up to the end of January 1851 to Rupees 23,139-2-5 A large portion of this balance viz, Rupees 16,007-6-3 consists of claims on Enamdars on account of Jupreek or share in the expense of repairing the tanks. The subject is not referred to by Mr. Murray in his report as Acting Collector but in reporting on the Settlement of the sub division in which the greater part of the balance occurs he has entered on an explanation of these balances. He states that they are principally due in the Budwail Talook, where the Cayem Jooda or fixed Jist rent on the Enam Lands is so high as to leave scarcely any profit on them. The Collection has on this account been suspended by the Sub Collector since Fusly 1231 or for nearly 30 years, but it is not stated whether it was under any distinct authority. He has requested that authority may be obtained for writing off the irrecoverable portion of the balance for

Para 49

his Division amounting to Rs. 13,100-15 and that "in future the Kayem Jodi Enamdars in the Budwail Talook may be exempted from Maraumut Jupreek.". The Board are not prepared to make any distinct recommendation upon this subject without some further explanation particularly with reference to the practice in other parts of the District, but they think that where the Jaree is so high as stated by the Sub Collector or where it nearly approaches the regular assessment of the land the exemption might be reasonably conceded. a separate report on the irrecoverable balances is due from the Collector with reference to the recent orders of Government and he might take that occasion of fully stating his opinion upon that portion of them due on account of Maraumut Jupreek.

in future be distinguished in this account as they are in the Statement No. 17 now forwarded. In this latter Statement a Collection of Rupees 779–15–5 is separately entered at the bottom which is not to be found in the former. The sum is noted in the Hindwi Statement No. 17 as Extra revenue Collections not entered in the Demand Collection Balance Statement but inserted in the account accompanying the Extra Revenue Report & such sums should in future appear also in the Demand Collection Balance Returns.

To, W. H. Bayley Esqre.
Secretary to the Board of Revenue.
Fort St. George.

Sir,

Afforded explanation required in the Extract from the Proceedings of the Board of Revenue as to whether the Cashkeeper and Head Shroff have been formally tried under Regulation IX of 1822 Vide

Para 1. I have the honor to acknowledge the receipt of the Extract from the Proceedings of the Board of Revenue under date the 29th May 1851, annexing copy of the Extract from the Minutes of Consultation under date the 22d Idem, wherein they direct me to state whether the Cashkeeper and Head Shroff have been formally tried under Regulation IX of 1822 and in reply beg to state that the whole of the investigation regarding the deficiency in the Treasury was formally carried on in conformity with

with the Provisions of the above Regulation and the amount of the dificiency on my arrival collected according to Section VI of the same Regulation but the defence has not been finally closed or judgment passed in consequence of the receipt of the Proceedings of the Board of Revenue under date the 3d February 1851 wherein the dismissal of the Cashkeeper and the head Shroff is ordered, which instructions I consider-ed a final termination of the Proceedings the case having been decided by higher authority all further Proceedings in the case were from that time dropped, but should the Board desire that the defence be completed and an award passed according to the Provisions of Section V Regulation IX of 1822. or the case committed for further trial before the Criminal Court in consideration of the extent of the defalcation according to Section XVII of that Enactment or for punishment under Clause 1st Section III Regulation VII of 1811 on account of the improper and seeming unauthorized introduction of other names / or affected signature / apparently amounting to Forgery their instructions will be

2. The Board will no doubt perceive the difficult and unsatisfactory position I was placed in on taking charge of the District particularly of a Treasury in which a defalcation was already found to exist. On my arrival it was discovered that Rupees 19,500 had been reimbursed and replaced in the Treasury and there remained the sum of Rupees 11,500 to be recovered which was accordingly done. I in order to trace out the intricacies and to discover, the exact amount of the deficiency, I have used my best endeavours in doing, which neither harshness nor favor has been shewn to any one. All my Proceedings have been held in open Cutcherry in the presence of the accused and if I have failed to lay the matter clearly and intelligibly before the Board for the information of Government it is much to be regretted, but it is entirely owing to the studied complication and great discrepancies between the two sets of accounts to unravel which no clue can be obtained — and no trustworthy witnesses or documents forthcoming to substantiate probabilities however correct. The complicated nature of those accounts

have put to the test, the ingenuity of the Head and Asst Sheristadars, both men of ability who have been from childhood accustomed to examine and unravel Village and other records of receipts and disbursements. I selected such points as I deemed sufficient to find out in what manner the defalcation had taken place without creating any confusion which could possibly be avoided. Should any further enquiry be necessary I shall be happy if such be practicable to go even deeper into the investigation of the illicit use of the public money, should the Board deem such further scrutiny desirable.

3. With regard to Para 7 of the Proceedings of Consultation. I deeply feel the censure passed upon my Proceedings in not having made known to the Board of Revenue, the temporary exchange I had made with regard to the two Subordinate Sheristadars.

It appears to me that the availing myself of the services of one public servant during a particular enquiry in the place of another was not a fit subject for special report to the Board.

Had such transfer been intended to be permanent the sanction of the Board for the final change would have been solicited in a special communication. The result of the temporary arrangement has been the ready assistance of a Zealous public Servant cooperating with me in lieu of the reluctance and backwardness of those whose interest and safety were directly opposed to any full or perfect examination regarding the falsification of accounts and unauthorized reduction of assessment which have now come to light and is in course of being thoroughly sifted and scrutinized during the Annual Settlement in which I am at present engaged and in which I partly avail myself of the service of one not immediately connected with the Principal Division and I feel confident from what has already transpired with reference to the gross irregularities which have come to light in the Talook of Muddenpully over which the Asst Sheristadar for many years presided as Tahsildar that the Board will, when the matter is laid before them, acquiesce in my opinion that it would have been highly improper for that

Individual to have been entrusted with any portion of the enquiry into the subjects under investigation and connected with that locality & it is but fair towards myself to state that my arrangement respecting the Sheristadars as well as my examinations into those frauds have been attended with results highly beneficial to Government. Notwithstanding the above explanation of the inducements for me to call in temporarily to my aid the Officer not immediately connected with the principal Division not in any way concerned with the irregularities now undergoing Scrutiny. Should the Board be pleased to consider that the Naib Sheristadar should forthwith resume his duties in this Division, Orders to that effect will be immediately issued, but I deem it my duty respectfully to express a strong suspicion that the examinations on hand will be at the least seriously retarded by any speedy return of that Individual.—

Proceedings thereon

(40·41)

The Board observe that their orders conveyed in paras 21 & 22 of their Proceedings dated 3d February 1851 for the dismissal of the Servants referred to were not intended to interrupt the investigation into their conduct then being made by the Acting Collector under Regulation IX of 1822. Mr. Forbes will be pleased to state whether it is practicable under the circumstances of the case to institute Proceedings against the parties in question as required by Government in Para 25 of Extract Minutes of Consultation dated 21st May 1851.—

Dulons 29th May 1851.

2. The Board expect that a full report will be made to them regarding the falsification of accounts and unauthorized reduction of assessment referred to in Para 3 if the case is of such magnitude as to call for their special notice.—

Read letter from Collector of Chingleput dated 22d January 1851 No 17.

Extract Board's Proceedings 27th January 1851

From Collr. 25th February 1851.

Proceedings thereon. In the first of these letters, the Collector reports the result of his investigation into certain irregularities committed by the Tahsildar of the Sydapett Taluk. He is of opinion, that the gravest suspicion Amounting almost to proof

observations respecting certain charges preferred against the Tahsildar and others of the Sydapet Taluk in the District of Chingleput

exists of his having received a bribe of 50 Rs. for obtaining remission for unthered Crops, that the enquiry shewed him to have been guilty of great official remissness and recommends that he be either degraded to the situation of Sheristadar, or suspended for one year or for such period as the Board may see fit.

2 The Collector reports also the dismissal of the Zilladar, Taluk Duffadar and Village Curnum for unauthorized collections and other irregularities, the two former having also mortgaged the property of a ryot without his consent.

From Collr. 15th February

3 The Tahsildar and dismissed Officers appealed against these several decisions.

4 Without following the Collector through the circumstances detailed by him it will be sufficient to state the more important facts of the case, as they appear to the Board, on a review of the documents submitted.

5. The original complaint of Ramasawmy Reddy was not proved, indeed he acknowledged that no crops had been entered as Unthey, and that the latter had not been put down as greater than had really taken place.

6. The enquiry into the alleged bribe received by the Tahsildar originated out of an entry made in two cadjan accounts.

7- The two Cadjans differ in the amount collected and particulars of its disposal the list of individuals contributing is the same in both-

8- It is not known by whom these Cadjans were written, though the Curnum Iya Pillay declares in his deposition that they are in the writing of Runga Chary one of the witnesses to the bribe, but this person is not examined on this most important point-

9- They were seized on the morning of the 2d December by the delegate deputed by the Collector, the owners of the houses in which they were found not being present, and were not delivered to the Collector until 11 A. M. of the 3d; though Tirnomalay from whence they were taken, was only 6 Miles distant from the Huzzoor-

10 The ryots during the enquiry produced 21 receipts amounting to 155 Rupees given

them by the monegar, Tillaldar, Duffadar &c in exchange for payments of Thistoo- Of this sum the Collector credits the Curnum with 24 Rupees and adding to the remainder (134) the sum of 39 Rupees otherwise collected according to the depositions of several Ryots, equals the aggregate mentioned in one of the Cadjans above referred to-

Para 3-

11- He, for this reason, connects these accounts with the receipts, but the Board are unable to concur in this supposition- The respective sums do not agree in detail with those entered in the list of contributors and only 40 Rupees had been collected up to the date of the alleged bribe- nor does the calculation of the Collector appear fair towards the Curnum- The Collector gives him credit for having carried to account but 24 Rupees of the entire sum (158) shown by the receipts, as the smaller sum only is entered in his Tundul on the date of collection- The Tundul however shews that 29 Rs have been entered in the sums and to the parties named in the receipts, though on dates subsequent to these being granted-

12- This is an irregularity certainly but one, it is feared often fallen into by Curnums, and not of that magnitude which should condemn the entries affected by it- The Board therefore think that

that the Curnum should be credited with 53 Rupees instead of 24, which would reduce the collections not brought to account to 1146 Rupees.

13 Under the circumstances the Board cannot attach any credit to the two Cadjan accounts. If genuine they would have been written by some one connected with the Village who could be identified. The particulars entered in them do not agree, they were taken on the morning of one and presented to the Collector only on the morning of the following day thus allowing ample time for the fabrication which may be inferred, the Board are of opinion, from the entire facts connected with them.

14- As they cannot acknowledge the genuineness of the two Cadjans, the question of the bribe founded upon them requires but few remarks. The witness Runga Chary deposes that the money was given to the Tahsildar by Ragava Chary about 8 P. M. of the 3d April in the presence of deponent, Appavoo Naick and the Zilladar Appava Naick confirms this Statement, the others said to have been present deny all knowledge of the transaction.

15- The Collector refers, as confirmatory of the bribe, to certain letters between the Monigar

Anelappa Moodely and his gomastah Ragava Chary and taken from the house of the latter, in two of which allusion is made to the payment of 50 Rupees to the Tahsildar. These letters are dated 11th and 20th of Pungoonee 22d and 31st March and state some Money (50 Rupees) to have been already paid, while the evidence declares the payment of the bribe, of which the Tahsildar is accused to have been made on the date of his visit to the Village for Agmaish, which is proved by the Diary to have been on the 3d April.

16- The signature to these letters is denied by the Monegar but the Collector states it to be similar to those authenticated as his.

17- The two letters were said to be found with 3 others also produced, two of which at least must be looked upon with great suspicion, they are both dated Carteegee 17th November 30 and direct the Gomastah to destroy certain falsified accounts in the Village, as Ramasawmy Reddy had complained to the Board regarding it, and that from the enquiry that would be made he would be much disgraced.

18- In regard to this falsification of Accounts the questions of the Collector in the deposition of Ramasawmy Reddy and this mans own acknowledgment tend to shew that Shavy

was entered in the accounts only to its actual extent, and to the amount for which remission was granted.

19. The bribe therefore is not proved by the evidence, or supported by collateral facts, and the Board must acquit the Tahsildar on this charge.

20. The Board can find nothing to substantiate the cognizance imputed to the Tahsildar of the irregular crediting of collections referred to in this Para. The Cruvalmanah forwarded by the Zilladar on 11th Instly gives the money as collected from Tirnirmalay, and he alone must be responsible for this Act. the participation of his superiors is not in any way exhibited. The same may be said of the Tahsildar's alleged concurrence in the Mortgage. The Duffadar was deputed to the Village for the Collection of the balance, and he and the Zilladar executed the pledging instrument. The Board do not think the connection of the Tahsildar with this transaction at all proved though they concur with the Collector in opinion that his urzee of December 8th was evasive in a great degree, and written with the intention to disguise the truth and screen his subordinates.

Para 19

Para 8

21. The attachments of the property having taken place in September, he should have reported it at once and not have delayed to do so until directed by the Collector.

22. To this extent they think the Tahsildar culpable in the instances brought before them, though the enquiry proves, if the Village of Tirnirmalay may be taken as an example of the rest in his Talook, that great irregularities prevail in the internal management of his charge. The existence of this is discreditable to him, leading to the inference that applications for redress receive little or no attention. He has now been suspended for 6 Months, the Board would be glad therefore under their sentiments above recorded if the Collector should see fit to restore him to Office with an intimation of the Board's displeasure at the state of his talook, and that any future report of his inefficiency will be severely noticed.

Suspended January 6th.

23. The Board approve of the dismissal of the Zilladar, Duffadar and Village Curnum on proof of the Offences for which they stood charged. The excess collections with the modification above made will amount to Rupees 144-12-6 and on this calculation are the recoveries and fines under Regulation IX of 1822 to be based.

24. In conclusion a few remarks are suggested by the disclosures made in this enquiry. It appears that only the two Monigars of Tirnirmalay presented themselves at the Summabundy, that all the

the puttahs were given into the charge of one of them and that they were not distributed to the ryots previous to this investigation, that the property of some was attached without the ryot knowing the demand against him, that the Piots were levied by unauthorized persons, receipts in many instances not given at all and in others written on unstamped Cadjans, that the stamped Thachats, though sent to the Village by the Tahsildar, were not used and that the Tundal of the Curnum was unstamped.

25- It appears that the Thachats in this District are stamped with the Tahsildars seal, and sent to the Village. Hence, as in this case they often do not reach the ryots. a preferable plan is to impress them with the Collectors stamp, to distribute them together with the puttahs at the Summahundy and the Board desire that the Collector will pursue this arrangement in future.

That is the puttah for the current and Thachat for the coming year will be distributed together.

26 They would also draw Mr Cochrane's attention to the probably disordered state of the Village accounts in the District and would enjoin him to provide, so far as practicable for the Tamizhu being written on a stamped Cadjan.

27- It would appear advisable also to impress on the assembled ryots in the Talook

the 2d Instant calling upon me to specify the name of the Tahsildar who was in 1826-27 in charge of the Talook of Peddapolliem in which the Shatriem Village of Maumunjary is situated, I have the honor to state that at that period one Veerabadra Moodeliar held the said Tahsildarship, and that he died shortly after the transaction connected with his report in which he suppressed the intimation of the 1st adoption by the widow Lookummah, of Veerasawmy her husband's cousin—

2. The present Tahsildar of Hagee Ramasawmy Iyer who had charge of the Peddapolliem Talook in 1848 when the other circumstances adverted to in your letter under reply transpired, was called upon to affords any explanation he had to offer of his conduct in the matter. In reply he stated that he had been imposed upon by the parties, and that he did not in any way lend himself to such fraudulent acts as imputed towards him—

3. This explanation though not altogether satisfactory in as much as matters which have subsequently transpired clearly evinces great remissness on his part, in regard to the verification of points of such

material importance, which it was his duty to have ascertained in submitting his report but in the absence of proof directly criminatory of fraudulent motives and at this lapse of period, it was not deemed necessary to allude in my former communication to the explanation given by this Officer of his past conduct—

disbursement, sums of money which are entered as paid in the Treasury Books.

2. It is not the practice in this District to keep in a separate Chest (called the Gylut Chest) under the responsibility of the Cashkeeper any money after it is entered as paid in the Treasury Books, either on account of Pay of the Talook Servants, or advances for Useful Works &c. These charges are debited on the receipt from the Talooks of transfer adjustments account at the close of each Month, orders for their payments out of the Talook collections having been previously issued. In the event of there being no Funds available in the Talook Treasury, the Money is remitted from the Hoogoor Treasury for disbursement and the amount debited at once.

3. No unnecessary delay occurs between the payment of sums, and its entry in the accounts, and there is no money

in the Treasury which is not examined by an European Officer every Month.

4. Under the heads of "Mohadala" about Rupees 247 in the proportions marginally noted are held Monthly in deposit at the Hoogoor Treasury and at the Head Assistant Collectors Office, under the responsibility of the Head Sheristadar, Cash Keeper and Moonshee respectively. These sums are required to defray the Sadarwards and other contingent charges, accounts of their actual expenditure in each Month are furnished to the Cashkeeper at the close of each Month, and such amounts as actually disbursed are again advanced for current expenses for the Month commenced upon, and the amount expended during

during the Month closed is then debited in the Monthly Journals, and accounts particulars transmitted to the Accountant General and Civil Auditor.

5. With the exception of the sums abovementioned, it is not usual in this District to hold in deposit any amount under any circumstances whatever. A Memorandum is kept at the Hoozoor and at the Treasury, shewing the sums so advanced and allowance is made for this amount at the periodical examination of the Treasury.

6. I donot conceive that any objection exists to this arrangement by which the amount held in deposit is limited to that actually required for Monthly disbursement.

7. The Saderwarad charges of the Taloork Cutcherries are trifling, and do not generally exceed Rupees 16 per Mensem. The necessary articles are supplied by Merchants of the place and the Taloork accounts are in like manner adjusted and debited every Month on the necessary order being issued to the Tahsildars, on the Money being remitted to the Talooks, the Memorandum of the having been furnished.

J.H.B.

8. Bills are seldom drawn on my Treasury by the Accountant General owing to the proximity of this District to the Presidency. On the presentation, however, of any such Bills, orders are either issued on the Hoozoor or Taloork Treasuries according to the wishes of the parties in whose favor the Bills are drawn, the payments in reference to the dates on which they become due being calculated and ordered from the date of sight and acceptance.

9. No money is kept in separate Chests to which the Cash keeper has not access. Remittances are from time to time made to the General Treasury as the Collections are received, and such amounts only is retained as considered actually required to meet the anticipated monthly expenditure of charge.

The emolument Vizt 36 Rupees per annum was enjoyed by the deceased	1 Ghoolam Cauder Son aged 8 years 1 Ghoolam Mahomed Son aged 3 years 2	Entirely depending on this yeomiah.	The Talsildar of Arcot reports that Ghoolam Cauder alluded in Column 11 is the proper person to succeed to the yeomiah of his father the late incumbent but being a minor he cannot perform the Services prescribed in the Farist. The duties of the Office have however been duly carried on by Syed Esoof the Son-in-law of the deceased from the day of his death; and the Acting Collector therefore begs to recommend that the yeomiah specified in Column 10 be registered in the name of Ghoolam Cauder from the date of the demise of the last incumbent; and that the services be performed as heretofore by a Naib till Ghoolam Cauder shall have attained his Majority	The Extract of the Farist mentioned in Column 6 is here with sent to gether with a translation.

Sir,

B. No. 1427
From the Coll. of Salem — Reporting the death of the Poligar of Shoolagherry and recommending that the management of the Estate be entrusted during the minority of the heir to his Grand Mother as his natural Guardian

I have the honor to report the death on the 31st ultimo of Veerannah Gounda Poligar of Shoolagherry, a Small Poliput near Ossoor paying a Peishcush of Rupees 5,629-12-9

2. The deceased has left an only Son and a daughter aged respectively five and one years, Nunjanah their Grand Mother the person adverted to in a communication from this District noted marginally, desires permission to superintend the management of the Estate on behalf of the Minor heir whose Mother has demised. As she is understood to be an intelligent Woman and competent to the charge and is believed to have had a fair share in the management of the Poliput during the minority of her own Son, I am aware of no objection to the arrangement.

Should it however appear

3. Should it however appear in the Sequel that advanced in years has so diminished Nunjamah's energies as to render it advisable to apply the provisions of Regulation V of 1804, I shall be prepared to submit to your Board a proposition to that effect - Mean while I beg to suggest that the Poliput be allowed to remain in charge of the minor's natural Guardian

4. The minor and his sister are now residing in the Cuddapah District, in the family of the Poligar of Poonganoor, whose daughter was the late wife of the deceased Poligar, but the Grand Mother represents that she has sent to bring them back.

Letter from the Collector of Salem, dated 21st June 1851, reporting the death of Heerannay Gowda, Poligar of Shoolagherry, and recommending that the management of the Estate be entrusted during minority of the heir, a boy of five years of age to his grand Mother, as his natural Guardian

2. It will be seen that the property pays a Peishcush of Rupees 5,629. 12. 9

3. The Court see no objection to the Poliput being entrusted to the care of the Grand Mother of the Minor, who is represented to be an intelligent woman, and believed to have had a fair share in the management of the Estate during the minority of her own son, and they therefore recommend that the sanction of Government may be granted for making over the Estate to her care, during the minority of the present Poligar.

Read again letter from the Acting Collector of South Arcot dated 28th January 1851, reporting on the Settlement of that District for Fusly 1259/1849/50.-

(Here enter No. 8.)

The Acting Collector of South Arcot has taken no part in the Settlement on which he has reported. It had been brought to a close before his arrival by Mr. Bird, the Acting Collector and his subordinates.-

2. The season of Fusly 1259 / A. D. 1849/50 was unfavorable; the rains, except in November, were scanty throughout the year, affecting both the extent of Cultivation and the quality of the Crops. The freshes in the Coleroon were steady, but the Sources dependant on the local rains as the Pennar, the Vellam and the Guddelem, were only partially supplied. The prices of Grain compared with the rates of the preceding year, shew an improvement.-

4. The engagements for land taken up /Dittum/ extend to Cawnies 4,62,240 assessed at Rupees 24,03,408 inclusive of additional Tax /Kulsee/ imposed for the use of Government water. The result compared with the preceding year is Rupees 2,94,131 against the year under report which added to an increase of Rupees 1,18,318 on account of land left uncultivated make a total decrease of Rupees 4,12,449 in the gross settlement or cultivation composed of.

	Cawnies	Assessment
Dry land	35,482	1,31,929
Garden	106	1,749
Wet	27,718	2,68,372.
Additional impost for the use of Water		10,399.

5. The falling off in the Cultivation of Dry lands was general and appears to be owing entirely to the nature of the season. The same remarks applies to the wet lands, except in the Talooks of Manargoody and Chellumbrum, where the irrigation afforded by the Coleroon was ample. In these Talooks the decrease is

ascribed to "the low price of Grain in Fusly 1258, which had seriously discouraged and impaired the means of the Ryots" and in support of this remark, the Acting Collector submits a Statement R. prepared under the orders of his predecessor Mr. Davis for 284 Villages shewing the Cultivation in the different classes of Villages in Fusly 1256 and Fusly 1259 arranged Taramwar or according to the quality of the soils. The price of Grain during the last 4 years is also specified. It is seen on reference thereto that there is a diminution in the Cultivation below Fusly 1256 (1846/47) in the several classes of Villages enumerated. The per Centage of decrease in each class below Fusly 1256 (1846/47) as well as below the Ayacut is shewn in the Margin, while the result on the whole, not including Kulsee is as follows.

	No. of Villages	Per Centage below the Cultivation of Fusly 1256	Per Centages below the Ayacut.

2d Do.	53	44	59
3d Do.	31	46	56
4th Do.	44	32	49
5th Do.	114	20	40

Mr. Wroughton States in Para 11 of his report that the decrease below Fusly 1256 in the 4th and 5th Classes is 25 & 15 per Cent respectively. This appears to be erroneous.-

b. The Decrease below Fusly 1258 1848/49 in the Cultivation of these two Talooks is not proportionately so large as in some other Talooks, shewing that the presence of water in Mannargoody and Chellumbrum was not without effect and protanto destroying the value of the reason assigned by the local Authorities for the falling off viz^t the inadequate remuneration afforded by the present Price of Grain. The important fact also of there being a considerable increase in the Cultivation under the Vellaur Annicut which like the two Talooks in question draws its supplies of water from the Coleroon, appears to point out that the depressed state of the Cultivation has not in any material degree been owing to the low Prices which the Ryots have obtained for their Produce. for Fusly 1258 (1848/49) serves no purpose and is unnecessary.-

Para 18. 8. The Assessment of the land uncultivated but brought to account under the usual rules was Rupees 6,679-13-0-

Para 19. 9. Under the head of Kusur or additional Tax levied for the use of Government water there is a decrease of Rupees 10,399-4-8, of which no less than 6,222-9-3 occurs in the two Southern Talooks. In explaining the cause of the anomaly of an abundant irrigation with a reduced Cultivation presented by these Talooks the Collector will not omit to notice also the decrease under this head.-

Statement P. 10. The Cane Cultivation is carried on almost exclusively in the Government lands. The extent occupied for this product was 1174 Cawnies, chiefly wet land assessed at Rupees 1226 7 which includes Rupees 348 on account of Jeerae and Fusal Jastee.-

Note During the last 10 years Rupees 782-2-4 only were remitted in Fusly 1251 for Shavy.- entire loss was estimated at Rupees 3842-2-3 but the claims preferred having been adjusted on a combined consideration of the general outturn and profits of the Ryot from whatever source, the sum of Rupees 2,373-9-10 only was finally remitted. One of the items thus brought to account against parties claiming remission was Rupees 178-10-6 being Sums received as Salary by persons holding Village Offices. It has been usual in this District to include the emoluments of Office in reduction of the amount to be struck off. but the Board are of opinion that this source of income should not be brought to account in future in determining the mount of Remission to be given. The headings of Columns 13-16- and 17 of Statement Q are unintelligible and should be more clearly expressed.

Sir

From the Coller of Malabar

No one appearing to contest for the Abkarry and Ferry farms of Calicut, I asked the present holder on what terms he would renew his contract. His proposition will be found in the enclosed paper. He requires the amount now paid 21,000 Rupees to be reduced by 2,500 in case the present system of allowing private licenses is continued, or by 1000 in case these licenses are put a stop to. In other words he thinks the Ferry farm too dear by 1,000 Rupees, the Abkarry farm by 1500 so long as his profits are liable to be affected by the facility for surreptitious sales afforded by the private license system. The abuse as he explains it is not with the license holder in the first instance (tho' it is so he thinks in some cases) but with the parties who buy from him

him. A person who has capital to buy a dozen of Brandy sets up a secret drinking shop and retails his liquor in glass fulls to those who would, if this source of supply were stopped, have recourse to the contractor.

2. Whether this objection of the contractor is altogether justified I cannot say, but I have no doubt there is considerable truth in it, and I doubt whether the Government should suffer so considerable a loss as is threatened, for the purpose of obliging a few private individuals. The license holders in Calicut at present are Messrs Tessier &c., Mr Kennedy Mr Ross, and Messrs Ballard and Beice. The contractor told me privately that he would not object to the first named party retaining their license, but he did object to all the others. I propose therefore to warn them that they will not be granted a renewal till I am favored with the Board's orders.

3. I doubt whether the loss on the ferry tolls be as much as is represented by the contractor, I may make him possibly raise his offer on this account somewhat. But I cannot but recommend that sanction be given me to make the best terms I can arrange with him, seeing that there is no other competitor.

To, H.V. Conolly Esqre
Collector of Malabar.

The arzee of Calinguel Coonky Coroo, Renter of the Ferry farm of Calicut, Coorminaad and Betutnaad, and of the Arrack Farm at Calicut for Fusly 1260.

Altho' the usual proclamation was issued advertising the sale of the Ferry farms of Calicut, Coorminaad and Betutnaad and of the Arrack farm at Calicut for the ensuing Fusly 1261 no one having come forward to bid for the same on the day fixed, which was yesterday, your worship was pleased to call and ask me if I was willing to take up the said Farms on the same terms as I held them last year; I then mentioned to your worship that under the exciting circumstances if any one take the farms now for the amount at which they were sold last year, the renter would be

be subjected to much loss, and that therefore I did not wish to rent them on those conditions, when your worship having ordered me to explain my reasons more fully and to send in a tender for the Farms, offering what I consider to be their proper valuation, I now beg leave to state here under what I have to represent on this subject.

1. There are now, within the limits of the arrack Farm, 3 or 4 persons who hold licenses, of whom one is allowed to distil Spirituous Liquors, and the other 3 to sell their liquors at a cheap rate - This circumstance itself causes loss to the Farmer but the illicit sale of Spirits carried on thro' the means of the License holders adds much to the loss, therefore if these persons are still allowed to hold Licenses, the collections of the arrack Farms would fall short of the amount it was sold for last year by at least 1,500 Rupees.

2. Of the ferry farms in the three Talooks mentioned above, one place near the Calay ferry in Calicut and one ditto at the Chacaw cadaw ferry and 2 or 3 places in Betutnaad, people are allowed the opportunity of crossing without paying the usual Toll, and besides this, several persons and merchandise &c.ya in boats by the new canal, which was lately opened by the Government as being beneficial for the public in general. Hence the collections of the Ferry farm would fall short of the amount they were sold for last year by no less than 1000 Rs.

3 Under the above circumstance, I would

would beg leave to propose, that the amount of loss shewn above Rupees 2,500 be either reduced in the amount for which the farms were sold last year, or if the Licenses granted for the sale of spirituous liquor be cancelled the amount of loss sustained by the ferry farms above be deducted from last years sale. Should either of these pro=posals meet with your approval I hereby en=gage to rent the said farms for one year, Fusly 1261 and therefore send in this my tender.

Under the circumstances stated in the foregoing letter, the Board of Revenue will leave it to the Collector to make such arrangements with Coonjee Cooroo for renting the abkarry and Ferry Farms for Fusly 1261 as may be best for the in=terests of Government, he reporting for the Board's confirmation the nature of such arrangements.

2. If the Collector is of opinion that the private License should be withdrawn, he will be pleased to bring the subject under their con=sideration in sufficient time before the expiration of Fusly 1261, notifying to the parties that he has done so, and making such arrangements for renting out the retail sale of foreign Spirits jointly with the present abkarry Farm as may be necessary.

Measures may also be marked on the bottom by being inverted on an Iron, stake with flat top somewhat larger than the die.—

In applying the large Die whether on brass or Iron, the sledge Hammer must be used, for the small Die the heavy hand hammer will be sufficient.—

The operation will be best performed by a Smith. Hammer man and Bellows Boy, but where there is an arsenal in the vicinity within a moderate distance. I would suggest the weights and measures being sent there to be marked.

For weights or measures of irregular shapes, as used with Bazaar

From the Collr of Madura

Sir,

In reply to your letter of the 19th Instant, I have the honor to state, that I see no insuperable difficulty in submitting the Reports in the prescribed time, though from the circumstance of many of the servants concerned in their preparation

being less efficient from age or want of ability than I could wish I do not find it easy to secure despatch. I take the opportunity of every vacancy to procure the services of more promising men.

The despatch of the Demand Collection and Balance Statement for March was delayed by non-receipt of the Cultivation account from a single Talook and the want of printed Forms. I have issued such orders on the delay as I hope will prevent it in future.

B.d No. 1497.
From the Collector of Nellore ... 1

Sir,

With reference to my letter dated 27th Ultimo I have now the honor to submit for the sanction of the Board the highest proposals which have been received for the Shikarry rents of the Stations noted in the margin and to request that I may be authorized to put the parties in possession from the 12th Instant provided they furnished the requisite security and make the usual deposit:-

Ongole.
Tummanabrole.
Vamepandu.
Calajeevalapand.
Magullur, Gumma-
-varum.
Pundoovarumeda
-pully.
Deresana Tudeka.
Cuttakendypully
Marella.-

2 The offer for the rent of the Ongole Taluk I regret to say is Rupees 300 less than that obtained last Fusly but as I have been informed that the renter experienced considerable loss during the present Fusly and as one has been found to bid higher than Rupees 3,545 for the Station; I am under the necessity of recommending the proposal for the sanction of the Board.-

*Kulapurla.
Sammulapoody.
Turlupand

3 *Proposals have yet to be received from three of the smaller stations of the Sub Division as soon as these have come to hand they shall be forwarded.

on the 4th October 1849 Together with Copy of an order passed thereon, on the 1st inst. It is important that in instructing Mr. Advocate General to appear on the Petition on the 17th instant we should furnish him with Copies of the Documents referred to in the Petition; we observe that Copies of 4 of the Documents are included in the proceedings before the Privy Council as shewn in the printed Case You handed to us: against those we have placed a remark in red Ink to that effect. but we have to solicit that You will request the different authorities referred to in the Petition to furnish plain Copies of such of the remaining documents as are in their Records and that they should be forwarded to us with as little delay as practicable. If any of them are in a native language and they were accompanied by a Translation, it would greatly facilitate our proceedings.—

We observe there are 4 Documents which the Petitioner states are

This grant is included in Mr Swolingtons list of Fasly 1211 under the Head of Brammadayem. The two Original documents produced by the heir of the deceased which are herewith transmitted together with their translation, appear to be mere orders issued by the then authority Mr Botton in his Register of 1814 entered one of these as a Document in support of this grant and set it down as a subsistence Mamoon. A copy of this entry in the Register is herewith forwarded. As this appears from the order Nos above mentioned to be a Mamool grant, the Collector is of opinion that it may be continued under the Rules of 27th July 1848.

Read the following letter from the Secretary to the Board of Revenue (Here enter 9th June 1857 No. 235)

The Right Honorable the

the Governor in Council perceives no occasion for putting in an elaborate answer to the Special Appeal preferred by Mr Fischer, but it would seem to be the regular course to file a concise answer referring to the Special Appeal Petition presented on the part of the Collector, as setting forth the grounds on which the Mootahdar's claim to all the lands at issue is denied. It will be proper also to offer some observations in support of that part of the Decrees of the lower Courts which disallows the demand of arrears of Quit rent. The arguments of the Civil Judge in this head seem to the Government worthy of attention, and it is remarked that the Court of Sudr Adalut have not explained the grounds upon which they consider them untenable.

No. 607.

From the Secy to Government Fort St. George 23d June 1851.

Extract from the Minutes of Consultation, in the Revenue Department, under date the 23d June, 1851.

Read the following Extract from the Proceedings of the Board of Revenue.

Submitting a correspondence with the Collector of Trichinopoly on the subject of certain Enam lands enjoyed by the late Hall Mahomed Gazy Khan, and recommending that the Collector's proposition for registering them in the name of the son of the 2d wife of the deceased as Head of the family may be sanctioned on the same terms as the Enams were held by deceased.

(Here enter 12th May 1851 No. 207)

1.

The Right Honorable the Governor in Council having given his consideration to the Proceedings above recorded and to the correspondence which had passed with the late and former Collectors of Trichinopoly on the subject of the lands and Villages known as Ethar Khan's Enams, concurs with the Board of Revenue as to the correctness of the view taken by Mr Maltby of the nature of the original grant, and he accordingly directs that the Enams consisting of C. 366 — 35 11/16 in value Rupees 825 — 0 — 8 enjoyed by the late Lala Meah alias Hal Mahomed Gazy Khan, be registered in the name of Goolam Mahomed Khan son of the 2d Wife of deceased, as head of the family, and continued to him on the same terms under which they were held by the deceased Viz. on condition of his annually applying two thirds of the receipts to the support and efficient repair of the Institutions, the parties in charge being required to furnish accounts of disbursements from time to time, and to set apart in deposit in the Collector's Treasury annually, a fixed sum for the repairs of the buildings.

No. 1419 Authorizing that certain lands and Villages known as Ethar Khan's Enams in the District of Trichinopoly be registered in the name of Goolam Mahomed Khan son of the 2d Wife of the late Hal. Mahomed Gazy Khan, as head of the family, and continued to him on the same terms under which they were held by the deceased.

3 The Board sent for and examined the very voluminous record in this case and it appeared to them quite clear that land which had been brought under cultivation had not been brought to account.

4 No direct evidence was forthcoming regarding the appropriation of the assessment by the Petitioners, but the Board were satisfied that the Petitioners from their position could not but have been privy to the concealment of cultivation, and on this account they declined to interfere with the decision of the local authorities by which the Petitioners were deprived of their Meerassi offices of Curnum and Puttahmonigar of Tolar a Village situated in the Virdachellum Talook in South Arcot.

End

Fort St. George 7th July 1857.

Endowments has been so fully set forth by the Board, that the Right Honorable the Governor in Council deems it unnecessary to enter into any review of the circumstances brought under his notice, or of the opinions expressed by the Collector and the Board; concurring however generally in the views recorded by the Board, he proceeds to pass orders on the several propositions submitted for his consideration

3. The Government approve of the measures adopted by the Board for the transfer of lands in endowment of the Mosque at Pettah to the Trustee of that Institution - It would seem from the remarks in Statement No 1 that accompanied his letter of 29th January 1857 that the Collector proposes, that the feeding of the poor at this Mosque at an estimated annual expense of Rupees 110-8-8 which is usually managed by the Nellumbalum Tahsildar should be continued. It is however obviously improper that a Government servant should take any part in such

4. The Government also direct that one fourth of the Village of Chuttrapully which has hitherto been allowed to a pagoda at Sauttoor be made over in like manner to its Trustee, as recommended by the Board.

reference to the Board's Proceedings 26th September 1850 that in his examination of Meer Kalunder Buckish, there was no proof of his having known the fraud practised by Zohoroodeen and recommending the restoration of his Pension.

Fort St George 7th July 1851.

Extract from the Minutes of Consultation dated 20th September 1850 which accompanied the Board's Proceedings of the 26th Idem, I have the honor to bring to the Notice of the Board, that I have examined Meer Kalunder Buksh the person directed to attend before me in the order of Government dated 1st April last, which was sent me direct with instructions to communicate upon the subject with the Magistrate by whom the previous enquiry was conducted, and to act in concert with him.

2. After personal communication with Mr Bourdillon on the subject, I have come to the conclusion that there is no actual proof, that Meer Kalunder Buksh was acquainted with the fact of Zaherroodeen having received from the Circar any Money for or on behalf of Ranbiee Begum.—

3. In his deposition, Meer Kullendar Buksh admits that while he was at Chittoor, Zaherroodeen and his wife lived in a house of

Fort St George 7th July 1851.

his, adjoining that in which he himself resided, and the entrance to which was by a Courtyard common to both; but declares that the habits of the two families towards each other were rather those of ceremoney than intimacy; Zahirroodeen not having access to the interior of his house in consequence of his (Kalunder Buksh's) wife being Gosha to him, and he merely paying his daughter (by a Nicka wife) an occasional visit to enquire after her health. He denies that he had any Knowledge of the frauds practised by his daughter and her husband; or that he knew any thing further of their Circumstances than that Zahirroodeen possessed a share in the Enam Village of Valem, a fact which came to his knowledge when (30 years before) he made enquiries on the subject previous to giving him his daughter in Marriage.—

4. Under these circumstances I would beg leave to recommend that the pension of Meer Kullunder Buksh be restored, and he be allowed to return

return to his native Country - Boogly where his pension has been hitherto paid.

From the Collector of Madura - - -

Requesting instructions in 2 Cases wherein Daveestanum Enam land appears to have been misappropriated

Sir,

Under Sections V and IX Regulation VII of 1817 I have the honor to request the instructions of the Board in the following Cases.

1st

The late incumbent of the Curnum Merassee of the Sirrustyoor Daveestanum in the Shevagunga Zemindary Appoo Pillay alias Rolunday Vadayar Pillay mortgaged 4 years ago, the whole emolument of his Office, consisting of 10 Cheys Nunja Surva Maneam, to 2 Individuals, and subsequently died leaving a widow and an adopted son in his minority. During the life time of the deceased the duty of the Office was performed by a Goomastah who received 24 Cullums Paddy worth about 24 Rupees from the mortgagees

thro' the Merassidar. The Daveestanum manager proposes to sequester the Enam, and from its income to provide a Goomastah and the maintenance of the widow and adopted son; considering it doubtful whether the mortgagees will continue the payment to the Goomastah or allow any thing to the family.

2nd In Cusbah Tiroomungalum the chokanada Sawmy Covil possesses 9 Goolies of Poonjah land as Tripany which have been long Cultivated by the same persons, some of whom now propose to enclose a Pettah (Enclosure for care of travellers Bandies) on a portion of it, and offer to pay Poonjah Tax as usual to the Pagoda. The Pagoda Manager, however, objects to the land being used otherwise than for cultivation, and has appealed to me against an order of the Acting Head Assistant Magistrate confirming the right of the tenant to construct the Pettah.

In the first case, the

the mortgage of the Curnum Manium of the Davastanum appears to me to constitute a misappropriation contemplated by the Regulation, and I would recommend it's being sequestered and the income used as proposed by the Manager, if the Board consider they possess power to this extent under the Regulations.

In the 2d Case I consider it dangerous to allow the construction of buildings or an enclosure in the manner contemplated of the Enam land, in-as-much as the effect of such appropriation is to conceal it's real tenure and to lead to it's being considered private property, and if a valuable building is erected the enforcement of the powers of the Board of Revenue under Regulation VII of 1817 becames very difficult. A strong instance of this has occured close to the Town of Madura, where a house has been built on a piece of Mosque land at

a cost of nearly 2,000 and subsequently sold. The tenure of the land has only recently become known owing to a dispute about the Purchase money. This case however will form the subject of a separate communication.

Madura, Paranay, 6th June, 1851. } (Signed) R. D. Parker Collector.

Bd No 1298.
Proceedings thereon. 1. The first point which
(10.41) the Collector has referred for the Board's consideration in the communication above recorded has reference to a Curnum Merassi attached to the Tirknotyoor Davastanum in the Shevagunga Zemindary, the whole of the emoluments of which have been mortgaged by the last incumbent.

2. This being considered a misappropriation of the endowments belonging to a religious institution the Collector is of opinion that the Board should interfere in recovering the Enam for the benefit of the Davastanum, under the provisions of Regulation VII of 1817.

From Govt. 29th April in Cons 5th May
To Collr 5th May

Decrees in appeal Suit.

3.

From the papers noted in the Margin which are now before him Mr. Parker will perceive that the Sudder Adawlut have given it as their opinion that an alienation of the Office of Curnum is repugnant to the intention of Regulation XXIX of 1802 and although a specific course has not been laid down to prevent such alienations, the Board are of opinion that the Mania of the Davastanum should be permitted to act as he proposes, the party aggrieved being left to seek redress from the Courts in the ordinary way.

4.

In regard to the parties who have for a long period been the cultivators of a certain Extent of land belonging to the same Davastanum which they now propose to enclose for the care of travellers bandies, the Collector has not explained the terms on which the land is held by these cultivators, whether it is temporary or of such a permanent nature as to give them a right to appropriate the land for any other purpose than that of Cultivation.

5.

As at present informed the Board concur with the Collector in opinion that the parties in question should be restrained from using the land in the manner they desire, without the consent of the Managers.

Sir,

(42)

B. No. 1333.

From the Collr of Tinnevelly. Submitting an application for reasons shown for the entire remission of Moturpha Sisse on petty Pedlers in his District.

Para 1.

Among the different classes who pay tax to Government under the head of Moturpha there is one that of petty Pedlers who carry wares about for sale in small sacks upon their shoulders upon which the impost bears so heavily and which at the same time is so useful to the lower ranks of the community that I am constrained to submit this application to the Board of Revenue for the entire remission of Moturpha tax in its favor.

2.

These Pedlers are persons of no Capital and subsist by purchasing at Markets trifling quantities of Curry stuffs, betel, tobacco, &c. and carrying them on their shoulders in small sacks to scattered hamlets and secluded places where there are no shops and

and to distant fields and threshing floors
where the poorest of the people who cannot
afford to lay in weekly stocks of provisions
for their Families at Markets to purchase
what they need from them. The business
of the Pedler is thus a very laborious one
and productive of very inconsid-
-able profit at the same time as
above remarked it is of great use to
the poor people and therefore deserving
of all encouragement.

3 The rates at which the tax
is levied is shown in the accompany-
-ing Statement of which the Total will
be found in Column 5 of the one prepared
and submitted to the Board under date
20th August 1849. The reduction of revenue
should the tax be remitted will be
about 1300 Rupees yearly on an aver-
-age, but the actual loss will be less as
the Pedlers will then become liable
to a small tax under Mutrpha on
their Houses like other non-agricul-
-tural persons.

The

† Vide Column 6. of the same.

4 The Board of Revenue were
pleased on 21st May 1818 to grant a
similar request made by the Collector
of Tinnevelly under date 15th April 1818
in favor of a more substantial class
of petty traders than these Pedlers who
carry on their more considerable business
with the aid of pack bullocks and it seems
to me therefore the more right and proper
that the Pedlers who carry their wares
about on their own shoulders should be
relieved from the tax now paid by
them.-

To the Chief Secretary to Government.

Submitting a letter from the Collector of Tinnevelly recommending the remission of the tax now collected from certain petty pedlars in his district and recommending that sanction be granted for the abandonment of the tax in question

Para 1

I am directed by the Board of Revenue to submit for the orders of the Right Honorable the Governor in Council the accompanying communication from the Collector of Tinnevelly recommending the remission of the tax now collected from certain Petty pedlars in his district.

2. The parties in question are subjected to a tax which is brought to account under the head of Moturpha the rates at which the tax is paid being from 3 Cully Fanams = 1.4 to 14 Cully fanams each individual, the total sum annually averaging to Rupees 1,300

From Collector 15th Letter 27th April 1848 Proceedings 7th July 1857. Collector 21st May 1848

3. In the year 1818 a similar application was made to the Board on behalf of a more substantial class of traders which met with favorable consideration however chiefly on the ground that a general tax of 5 per cent was levied on the transit trade of the Country.

The Board think that although this

this ground of objection has been removed the condition of the people on whose behalf the exemption is now solicited is such as to call for some relief.

5. They are represented as possessing no capital subsisting by purchases at market of trifling quantities of curry stuff betel tobacco &c.a and carrying them on their shoulders in small sales to scattered hamlets and secluded places.

6. In consideration therefore of the very inconsiderable profit said to be realized from the trade and the great benefit and convenience to the poor of the country arising from it the Board beg to recommend that the sanction of Government may be granted for the abandonment of the case in question.

7. It will be observed that in the event of the Government being pleased to grant the relief solicited the parties will be liable to a small Moturpha Tax on their Houses like other non-agricultural labourers.

Bd No 11.97.

From the Collector of Madras

To W. H. Bayley Esqre
Secretary to the
Board of Revenue

Sir,

Submitting the necessary information both as regards the extent to which the Standard Weights and Measures are in use at the Presidency and also as to the means of encouraging their more extensive adoption.

I have the honor to acknowledge the receipt of the circular from the Board of Revenue under date the 24th March last and to report that neither the Standard Weights and Measures supplied to this office in reference to the circular of 2d May 1842, nor the counterparts taken for actual use have been put in requisition as comparisons for testing the Weights or Measures of Retail Dealers, for in pursuance of the decision of Government dated 19th January 1837 I have hitherto adhered to the old standard only, the whole sale Merchants having adopted the 56 lb Weight and the Retail Dealers the 1/56 Weight, and

their respective subdivisions.-

Para 3. 2 There being no orders to that effect I did not take any steps to introduce the Standard Weights and Measures generally.- It appeared to me that the question was set at rest by the instructions of Government communicated in the Board's Proceedings of 19th August 1841. that leaving untouched the "Provincial systems among the natives," the new Weights and Measures were to be used only in the Revenue, Commissariat and Public Departments and all public accounts kept therein.

3. Even the Commissariat Department continues to get the old ~~the~~ Weights adjusted in this office. Only on one occasion a few Brass Weights corresponding with the new Standard were sent here for adjustment but the measures correspond all with the Standard measures.-

4 As far as the people are concerned, I am not aware that any inconvenience arises from the present irregularities of Weight and Measure.-

5 Almost the whole of the principal Native Merchants have been consulted, and they are perfectly willing to adopt one uniform system

system if they could only be exempted from the expense which would attend the carrying the proposed change into practical effect.-

Para 4a 6 The best remedy which would seem to meet their own views- is that they the principal Merchants- be furnished with a set of standard Weights at the expense of Government, in exchange for the old Weights now in use at their places of business.-

7. The Viss set used by the Retail Dealers will be duly adjusted without any extra expense to the Circar, beyond the hire of a few additional hands in the stamping Department of this Office, during the first half year in which the change in contemplation will come into operation.

8- The adoption of the measures now in use to the new Standards will, in like manner, involve only an additional expense rendered necessary for their due adjustment.-

Para 5 9 Should the arrangement suggested above be approved of, I shall be prepared to give it effect so as to

the object in view.-

Paras 6 & 7- 10 If the arrangement alluded to is not to be carried out, I shall take measures to get the price lists prepared in conformity to the instructions of the Board.-

Para 8 & 9 Enclosure A 11 The necessary Statement with remarks is submitted herewith. The Mercal measures being one of the most common Measures in daily use at the Presidency, I have selected three of different shapes and dimensions, but which are all alike, and correspond in Cubic contents for the purpose of making the requisite experiments.-

Para 10- 12 The present Statement exhibits the contents of the Mercals tested in my room at the Hoozoor Cutcherry. The Gram (Coollee) used was not less than 6 Months old and the Rice was one of the Sumbah kinds-

13 As the result of the experiments, which were made with the same Mercall, differed, in some degree, one from another, although the greatest precaution was observed, with a view to uniformity, in filling up the
