I have the honor to transmit the Account Current of Receipts and Disbursements of the Fort Funds for the year 1849 and certain other Statements exhibiting the improvements of the Town from the year 1847 to that period viz.

No 2. Statement of under tunnels built to a length of 1352 yards for drainage of water outside the Town.

No 3 Statement of Street drains constructed.

No 6. Account Current.

2. The Account Current shews a balance on hand of Rupees 366-1-5 at the end of the year the disbursements amounting to Rupees 2,725—6—10 in 1849 include Rupees 1,000 paid towards liquidation of the advance made by Government for the improvement of the town leaving a balance of Rupees 1,452 on that account.

3. It will be seen from Statement No 1, that the filling of the ditch and levelling ramparts has been fully completed. The length of ditch not yet built upon is 1790 yards of which 1655 yards is situated on the west side of the Town where no buildings have been hitherto raised in consequence of the aspect being condemned by the Hindoo Shastrum. Another piece comprising 135 yards is not built upon at the South east corner in consequence of my wish to keep it open from its approximate situation to the Court House.

4. The Town now presents a

a regular and even handsome appearance, and the under drains and cess pools, though subject to great disadvantage owing to the slight fall from the Town to the river, leave little to be complained of on point of cleanliness. The effect of these improvements on the general health has been very favorable as far as the experience of the last 3 years affords the means of juding; for tho' Cholera has entered during that period it has never remained long; and the extent of diseases of other discriptions has been moderate. Situated as the Town is scarcely above the level of the river and within the influence of the draughts from the Pulney and other Hill ranges, I should imagine that under ordinary circumstances it would be unhealthy.

5. In some of my communications I have adverted to a project for appropriating the money taken from the Davestanum Fund to bringing water into the Town from the Vighay by a channel commencing at a high level some distance N.W. of the Town. The Civil Engineer informs me that an estimate for this purpose is in a forward state of preparation. I anticipate great

advantage

advantage from the means which this will afford of occasionally subjecting the under drains to a thorough cleansing.

Sir,

I am desired by His Excellency

of the detachment cannot be dispensed with.

Excellency the Commander in Chief to bring to the notice of Government, the absolute necessity which exists for the erection of a small Hospital for the Detachment of the Madras Infantry stationed at Tanjore; so far back as 1846 it was reported by the Civil Engineer as totally unworthy of repair, and it has now fallen into a state of dilapidation, dangerous to its Occupants.

The Detachment at Tanjore tho' but a small one, of only 56 rank and File, is not lodged in a collected state, and the Brigadier Commanding Southern Division has been endeavouring thro' the Collector of the District, to obtain a better site for them, on which also a new Hospital and place of Arms (for the present one is very defective) might be erected, but it appears the Rajah is unwilling to allot any other Ground for the purpose required - and the old site of the Hospital can be rebuilt on only on the condition that the

lands

Land remains the property of the Palace.

The present places of Arms is near the Northern Gate of the Residency compound and the old Hospital Bungalow about ¼ of a Mile off. the men are mostly located near the place of Arms, but the Collector says there is not a foot of ground in the vicinity available for increasing the number of Huts.

On the whole His Excellency thinks the question of this Detachment being kept on at all might be fairly mooted. as if it does remain, it is clear that Government must be put to the expense of erecting buildings on ground not its own property without after all obtaining any thing like satisfactory accommodation for the party.

It does not appear that the Detachment has any particular duties to perform except the furnishing

of a Talook Guard of 10 Rank and File at Trivady At Tanjore itself it has nine men on duty daily furnishing one sentry at the Gate of the Residency one over the Arms and one over the Powder Magazine

+ Containing Reserve and Practice ammunition of the Party

His Excellency would therefore respectfully suggest that the Collector of the District be called on to say if the Services of the Detachment can be dispensed with, which so far as His Excellency can see it certainly might be.

Sir,

From the Asst Collr of Guntoor

Submitting with reference to the Board's Circular dated 24th March last information as regards the extent to which the Standard weights are in use in his District and as to the means of encouraging their more extensive adoption and forwarding a Statement prepared in the form received.

I have the honor to acknowledge the receipt of the Circular letter from your Office of the 24th March last, calling for information as regards the extent to which the standard weights and measures are in this District, and as to the means of encouraging their more extensive adoption.

In reply to the query contained in the 2d Para of the communication referred to, I beg to state that no counterparts of the Standards transmitted to this office with reference to the Board's Circular of the 2d May 1842 appear to have been taken for use. Neither have they generally been put in requisition for testing the weights and measures of retail dealers in as much as those in general use are of varied weight and capacity and can therefore only when

when occasion arises, be Tested by trying the weight to be proved against Rupees and in case of measures ascertaining the weight in Rupees of the quantity of grain the measure to be tested will contain.

3 It does not appear that any steps have hitherto been taken in this District to bring these standard weights and measures into use, but I have ascertained that there is no general disinclination to their introduction, nor have any reasonable objections been urged against the adoption of them. The advantage of one uniform system over the many different ones which as will be seen from the Statements accompanying now obtain, is very obvious, and I think if a supply were furnished for sale at as low rate as they could be made up, they might by degrees be brought into general use. at all events no endeavour on my part shall be wanting to secure so desirable a result. The matter is indeed in my opinion one of so much importance as to make it a question whether a legislative enactment declaring the use after a certain date of any other weight

weight or measure than the standard, a punishable offence ought not to be passed, I cannot see that such a law would entail any real hardship on any party and the benefit to the great body of the people would be incalculable.

4 I beg leave to submit a Statement drawn up in the form which accompanied the letter under reply showing the denomination and contents of the measure most in use in the principal Town of each Taluk in the District. The contents were tested in my presence and the measurements taken by me and with as great care and as great an approach to accuracy as the means at my disposal would admit, but although the measures selected were the most cylindrical and even that could be obtained, yet many of them were still so misshapen as to make it exceedingly difficult to ascertain correctly their interior dimensions To this must be attributed any discrepancy which I fear may be apparent when the Statement is examined in detail.

5 In the meantime the instructions contained in the 6th Para of the communication now under acknowledgment enjoining a more careful preparation of the lists furnished to the Commissariat will be duly attended to.

Sir.

I have the honor to acknowledge receipt of Petition No 1139 of 1851

From the Collr of Nellore } 1.

Reporting on the Petition No 1139 of 1851 presented by Cader Khan a Pensioned Subadar to relieve him from the responsibility of the security which he had tendered for the Ab-Karry Renter of Nellore &c

referred to me for report from one Cader Khan a Pensioned Subadar of this place. As the circumstances of the case can be better explained by letter than by endorsement I beg leave to do so.

In June last year the

2.

Ab Karry Stations of Nellore, Sungam Talamanchee and Surrapilly were rented for the sum of Rupees 14,700 to one Yedavelly Papiah who was only the nominal Renter the real Renter being one Yeddla Lutchmanah a twelfth of the amount of the rent was deposited by the Renter and for the prescribed additional security of ¼ certain houses belonging to Luchmanah were offered.

Fort St George 24th July 1851

offered: but this the Petitioner at first opposed alleging that he had a lien on the property founded on a mortgage and that it was then the subject of litigation in the Principal Sudr Ameen's Court between himself and the owner. This was on the 5th of July 1850. Shortly afterwards, however, the parties effected a compromise and a Rowjeenamah having been filed the Petitioner came forward of his own accord on the 15th Idem, and tendered the mortgaged houses of Lutchmanah as security under the terms of the Rowjeenamah. an attested Copy of this instrument which was obtained at the time is herewith submitted with translation for the information of the Board. It will be observed from this that among other stipulations it was agreed that the Houses were to be given as Security and that any infraction of the terms under which the Subadar was allowed to exercise a control over the receipts and expenditure of the Farms was not in any way to effect the security but only to leave him

+ To be returned

Fort St George 24th July 1851

him at liberty to apply to the Court for the sale of all the other property of Lutchmanah under mortgage with him. On this understanding and on the latter executing a separate writing consenting to leave the houses still as security in the event of their being redeemed by the discharge of the Subadars dues before the termination of the rent the houses valued at Rs 3,295 were accepted and the renter was put in possession of the Farms. The Subadar executed the usual Security Bond on the prescribed Stamped paper and it was sent to the Court for the purpose of being registered but here he demurred. He sought to withdraw from the obligation he had undertaken and refused to attend the Court to sign the registry on the plea that Lutchmanah had failed in her engagements in respect to his interference in the management of the Farms. This I considered no justification for wishing to annul the security after

Note

of the Farms on the strength thereof. Petitioner's
application was accordingly rejected, the

been formally executed. being deemed imma-
-terial and the Renter was allowed to
remain in professim. He continued for
a time to discharge the Kists regularly
but afterwards fell into arrears. It was
therefore found necessary to attach the
Farms and they were resold as reported
in my letter of the 1st February 1851.
The net loss Rupees 1320-11-11 arising
from this resale had of course to be
recovered from the Renter, but as he
is not professed of property to any
considerable amount, the houses given
as security have been attached in satis-
-faction of what cannot be recovered
from him and the object of the Petitioner
is to prevent their sale.

3 He feels himself exone-
-rated from the responsibility he
at first undertook, because he
afterwards applied to be exempted from
it

it and did not attend to register the
Bond. This exemption could not be
accorded to him, consistently with the safety
of the Revenue after the Farms had been
consigned to the renter and the want of
registry cannot, I presume, affect the
validity of the Deed, the object of the
registration being simply to secure pre-
-ference to the registered over a similar
unregistered deed. In the present instance
there is no such registered instrument
to take precedence, and after the Subadar
declined to get the Board registered, the Govern-
-ment Vakeel was directed to watch that no
transfer of the same property was regis-
-tered in favor of any other. The Subidar's
plea for seeking to be absolved from
the responsibility is, as already stated
that Lutchmanah did not act up
to the terms of the Rajeenamah but
with this the Government have nothing
to do - as indeed it is provided for
by the Parties themselves.

It was therefore found necessary to attach the Farms and they were resold as reported in my letter of the 1st February 1851. The net loss Rupees 1320-11-11 arising from this resale had of course to be recovered from the Renter, but as he is not professsed of property to any considerable amount, the houses given as security have been attached in satisfaction of what cannot be recovered from him and the object of the Petitioner is to prevent their sale.

This exemption could not be accorded to him, consistently with the safety of the Revenue after the Farms had been consigned to the renter and the want of registry cannot, I presume, affect the validity of the Deed, the object of the registration being simply to secure preference to the registered over a similar unregistered deed. B. Rs. 1478.

From the Collr. of Sir,
Bellary ... 1.

Previous to passing of act XVII of 1848 the Stamp Venders of this District were with one Exception the Tahsildars and Taloke Sheristadars. The Office of Stamp Vender for Cusbah Bellary alone was held by a Separate Person and was latterly united in the person of the Stamp Darogah.

2. Consequent on the passing of act XVII of 1848 in order to afford sufficient facility to Suitors to obtain Stamp Paper it became necessary to appoint Venders at all the Courts of the District Moonsiffs which at the request of the Civil Judge I did. But the payment of these Venders by a share of the Commission on sale made by them has not afforded a sufficient remuneration and I had at the commencement

Submitting for the orders a recommendation that the Stamp Darogah and Venders of Bellary may be in future remunerated by fixed salaries in lieu of a commission as heretofore and requesting sanction for the monthly disbursement of 99 Rs for this purpose.

commencement of the present year intended to have brought the subject of remunerating these Venders to the Boards Notice when the defalcation in the Stamp Department came to light. That Matter having been disposed of I think it a fit opportunity now to take into consideration the best mode of regulating the Pay of the whole Department. I have therefore the honor to submit for the orders of the Board of Revenue the following remarks.

3. With respect to the appointment of the Darogah after what has lately occurred it is certain that the person holding that situation should be quite distinct from and disconnected with the Venders. But it is a matter for consideration whether the Darogah should be a person holding some other Government appointment or not: whether his whole time should be given to the charge of the Stamp Department exclusively or whether he might not advantageously perform other duties formerly, previous to the appointment of a separate Darogah in 1842, the Office was held by the Hoozoor Treasurer The high character which generally

generally attaches to this responsible Office was a guarantee that the stamps were in safe hands and the value of his Treasury Situation was further security against fraud. But the duty of the Darogah is heavy and if carefully performed is perhaps as much as one man can properly look after and on this ground it may be preferable to appoint a separate Man holding no other Official appointment and this arrangement I beg to recommend for adoption. The duties of the Darogah besides being very responsible are also heavy and require much attention. He is responsible for all the stamp Paper received from the superintendent of Stamps. He has to keep accounts of their distribution to the numerous Venders, to Examine the Venders' sales, to check their accounts and to superintend the whole Department and now that it is necessary to have Petty Venders at all Mooniffi Courts the Management of the Department is more arduous and is insufficient for one Mans undivided superintendence.

6.— With reference to the Venders I would observe that at Bellary cutchahs there

there has always been a Vender distinct from the Tahsildar to supply the demands of the Civil European Courts. All the other Venders were the Talook Head Officers as before observed until in 1848 when it became necessary to appoint Venders at the Mooniffs Courts to provide ample facilities for carrying on the business of the Courts under the new provisions of Regulation XVII of 1848.—

5. I would still let the Talook Tahsildars and Sheristadar be authorised Venders, but their sales would be but small. It will be quite necessary to retain the Seven Venders at the Mooniffs' Courts and it will be necessary to pay them by Salary—their duties are responsible and they have to provide Security.—

The next question is that of remuneration. I propose that the whole Department (with the Exception of the Tahsildars and Talook Sheristadars who should as heretofore be paid a Commission on their sales) be remunerated by fixed Salaries. The scale of Salaries I propose is as follows

Stamp

Fort St George 24th July 1851

	Rs	a	p
1 Stamps Darogah	35	"	"
1 Bellary Cuslah Vender	15	"	"
7 Venders at Moonsiffs Courts 7 Rupees each	49	"	"
14 Tahsildars or Sheristadars on the Talooks at 3 per Cent actual sales.			

This remuneration is the very lowest I can recommend. It is not so high as I think it should be but I have made it so low (in respect to the Darogah and Bellary Vender) that they should not be agreat increase above the present total charges. But as respects the other Venders it is quite clear, (as will appear from the enclosed Account) that the payment of the Moonsiff Court Venders is at present utterly inadequate; one only receiving on an average more than 7 Rupees and some only obtaining 2.9 " P Months. and if they are not better remunerated they should be discharged, in which case the Court business would be greatly impeded. and as respects the Darogahs Pay after what has occurred in the Stamps Depart-ment it is obvious that the Economical arrangements for Making up that Officers pay out of the Bellary Venders Commission by uniting the two Offices together can never be resorted to again but that the Salary of the Darogahs must be distinct.

7. The whole Commission now deducted

Fort St George 24th July 1851.

deducted from the Gross sales will under the proposed Arrangement be carried to the credit of Government with the exception of that small portion Viz^t 3 per Cent as heretofore on actual sales by the Talook Cutcherry Officials, which however since the Appointment of Venders at the Moonsiffs Courts Amount to a mere trifle about 10 Rupees a year for the whole.-

8. Should the Board approve of this proposition I have the honor to request sanction for the Monthly Disbursements of Rupees 99 for fixed salaries to be debited to Stamps besides the usual Commission on sales by the Talook Authorities.-

Total per Months	99	"	"
per Annum	1188	"	"
Average Commission to Tahsildars	10	"	"
Total Charges	1198	"	"

9. The annexed Abstract will show at one view a Comparison between the present rates and those proposed. The difference is an increase of charge Amounting to Rupees 167-8-11- Per annum. But the increased sales of Stamps will probably in a short time Counterbalance the Extra charges. The proposed charge upon the present rate of sales is about 5-13 per Cent-

Resolved

on the subject of Gybut amount as required in their Circular letter of the 4th June last.

to your Circular letter of the 4th of June last.

2. After the prominent manner in which the state of the Cuddapah treasury has lately been before the Board, it is hardly necessary for me to state that the practice has until lately been to write off in the Treasury books various sums, as soon as the Collectors orders for their payment was received by the Cashkeeper and for him to retain the amount under the head of Gybut, until it was finally paid to the parties for whom it was intended. These sums were not considered as forming part of the treasure accounted for to the Collector, and were not counted at the periodical monthly examination of the Cash

3. On assuming charge of this District, I immediately put a stop to the system - and <u>now no sum whatever</u> is written off in the Cash book, until it is actually and bonâfide paid away, no inconvenience has arisen from the adoption of the plan, and I do not anticipate that any will arise. It may possibly occasion the charge in the accounts

of

of one Fusly, of expenses which belong to another as in the present month, when the pay of some of the Talook Establishments for June, will not appear in the Cash book as paid until after the 12th of July, owing to the difficulty of transmitting the amount at an earlier period, the order of Government will be however a sufficient reply to any objection that may be taken in the audit of the accounts.

4. No such item as the Gybut exists or has existed in any of the Talook treasuries, but I found in practice a system which I considered irregular and objectionable, and to which I immediately put a stop, namely the system of the Tahsildars paying out money to the order of the Sub and Assistant Collectors, and at Cumbum, even cashing the Paymasters draft, in favor of the Officer Commanding on his presenting it, without any order from the Collector, by whom the draft was never seen until after it had been paid - I have now assumed sole and entire authority over every treasury, and no money will for the future be paid without an express order.

5. Bills drawn by the accountant General when presented to the Collector for acceptance

B. No. 14 64-

Proceedings thereon- The parties named in the several cases recorded in the foregoing Return were apparently tried and convicted of the 4th and 5th clafs of offences specified in clause II Section II Regulation IX of 1822 with the exception however of the 3d case in which the parties besides being convicted of conniving at concealed cultivation were also found guilty of embezzlement, a crime of the 3d clafs of the same clause and section. The guilty parties have in each case been fined under clause 4 Section V and in the 3 last cases they have either been dismifsed or suspended from office. but it does not appear that any of the fines have been commuted to imprisonment or that the sums have been paid.-

Fines

Fort St. George 24th July 1851.-

Fines imposed under Clause 4 Section V when not paid should be commuted to imprisonment, the period of confinement in each case being held equivalent to the fine if not paid.-

The Board of Revenue were quite satisfied that the enquiry into the charges against the late Manargoody Tahsildar was conducted in a regular manner- As explained in their Proceedings of 30th June 1851, they reduced that individual to a lower situation instead of dismissing him, because he was an old servant of Government.-

No. 318.

Resolved that the foregoing letter with its enclosure be submitted for the orders of the Right Honorable the Governor in Council with the Board's recommendation that the Civil Auditor be authorized to admit the charges particularized in the above Extract, amounting to Rupees (408-2-2) Four hundred and eight, annas two and pice two.

2. It will be observed that the charges incurred for the purchase of Oil for the Fort Gate at Trangubar was previous to the Board's order of 21st December 1846, entered in the Quarterly Statement of Contingent Charges, but since that date it is included with the Sadermarad of the District.

3. The amount of Coolly hire for collecting spontaneous Salt should have been included with the Statement of actual charges for Fusly 1256, as an estimate on this account was submitted on the 16th November 1846 and received the sanction of Government on the 4th March 1847.

4 The Board also recommend that the Civil Auditor be authorized to admit the charge of Rupees (19-12-1) Nineteen, Annas twelve and pice one alluded to in the letter above recorded, on account of Potail's Salary for Fusly 1256, which appears not to have been included in that Statement when it was submitted for the sanction of Government on the 22d March 1848

Proceedings thereon.

68-69

As the State of Mr. Gordon's health appears to have been so bad as to require his departure from Trichinopoly before his leave had been sanctioned by Government, it will be necessary that his Medical Attendant should introduce a clause to this effect in the Medical Certificate, otherwise retrospective leave will not be sanctioned.

2. If however the original Medical Certificate has already been submitted to the higher Medical Authorities, a Supplementary Certificate may suffice, if it is also prepared in the prescribed form as directed in Section III of the Absentee Rules.

Bd. No. 1467.
From the Collector of Madura

Sir.

With reference to the Board's letter of the 19th October 1815, I have the honor to forward Copy of a decision by the Acting Head Assistant Collector under Regulation IX of 1822 which details the circumstances of a defalcation in the Treasury of the Meyloor Taloork. The amount deficient has been recovered, and I have circulated orders to render the custody of the Public money in the Talooks more strict in future. The conduct of the Tahsildar leads me to suppose that he wished to avoid the necessity to bringing the case forward by allowing the defaulters an opportunity of replacing the money, and I think that a similar wish is the explanation of all that seem extraordinary in the behaviour of other of the Talook servants. The Tahsildar deserves in my opinion to be reduced to a lower paid Talook but this arrangement would be inconvenient.

Decision.

Fort St. George 24th July 1851-

No 1-

Decision

Prosecutor Versus Defendants-

Civil Sar Chinna Iyaloo Chetty
Shroff and
Aruvamoogum Chetty Collah-

1- The 1st Defendant a Shroff in the Talook of Meylore is charged with having embezzled the sum of Rupees 467 in as much as that sum which ought to have been forthcoming was found deficient in the Treasury of Meylore when examined by the Tahsildar on the 26th of March last-

2- 1st and 2d Defendants are charged with the embezzlement of the sum of 77½ Rupees-

3- The Tahsildar reported on 3d April 1851 that a deficiency to the Amount of 544½ Rs had been discovered in the Amount of Money deposited in his Treasury-

4- The Collector and the Acting Head Assistant Collector proceeded to Meylore and made a preliminary examination- After which as the Defendant the Shroff appeared to be the person answerable for and to whom the charge of the money from which the above sum was abstracted or not forthcoming had been entrusted, he was placed upon his trial before the Acting Head Assistant Collector

The

Fort St. George 24th July 1851-

5- The facts of the Case are as follows, but it will be necessary to mention in the first instance that the Treasury contains 3 boxes which will be called No 1-2 and 3 for the sake of distinction. No 1 box is that in which the money when amounting to a large sum is kept No 2 is used to keep Stamped Cadjam leaves in, and in No 3 are placed the daily collections as received from the Villages which when amounting to a sufficient sum are placed in No 1 box.

6- On 1st of March in No 1 box there were 5 bags alleged to contain 500 Rupees each. The Tahsildar assembled on the above date examined these 5 bags by weighing them, it seemed and pronounced their contents to be correct- On 12th as there were 5 bags more said to contain the same amount and which it was necessary to place in No 1 box the Shroff accompanied by the Naga the Goomastah and Duffadar had the box opened and the 5 bags placed in it, but they neither weighed nor counted the money relying upon the word of the Shroff that they contained the special sum Viz 500 Rupees each, 2500 Rupees. In the presence of the above parties the box was locked and secured with Tahsildars and Shroffs seal-

7- On March 13th the Shroff was ordered

Fort St. George 24th July 1851-

ordered by Tahsildar to proceed to Madura to attend at the Assistant Magistrates Cutcherry to answer charge of Assault which had been brought against him, but previous to his departure to deliver over charge of the Treasury to his son- He did so- His son counted the Money in No-3 box but No-1 box was not opened-

8- On March 13th the Gollah or Deputy Shroff who had been in Madura on business returned to Meylore, the next day he received charge of the money in No-3 box and the money which had been collected subsequent to the departure of the Shroff which was found to be carried according to the accounts No-1 box was opened at his request in presence of the Nagathi Goomastah, Duffadar, himself, Shroffs Son and Peons, the seals of his father having previously been pronounced by the Shroffs Sons correct- The 10 bags were weighed one against each other and were found to differ considerably, upon which they were replaced in the Box which was locked and sealed- The seals of the Shroffs Son and Tahsildar being used in the presence of the former- A report was made to the Tahsildar that evening by whose order the box was not touched until 25th the

Fort St. George 24th July 1851.

the date of the Shroff resuming charge-

9- In the mean time the Gollah or Deputy Shroff conducted the Treasury business placing the Money in No-2 instead of No-1 box-

13. He does not admit that he was responsible for the Money in No 1 box since 5 bags of it were weighed and placed in the box in the presence of the Tahsildar on 1st of March and the remaining 5 bags on 12th in the presence of the Wagathis Goomastah after which latter date previous to his departure to Madura the box was not opened. He stated that the 10 bags were weighed by himself and Gollah on the 25th and the contents of them were found correct and the Money tied up again in the bags and placed in the Treasury Cutcherry ready for the Tahsildars inspection previous to which he went home but returned in a short time to the Cutcherry, that when at 8 O'clock the Tahsildar came to Cutcherry, the Gollah gave him 13 Rupees stating that it was the money found to be above the proper contents of the 10 bags. He further stated that in a bag of 1/4 Rupees which on the evening of 25th was in excess of the proper Amount on 26th when examined by the Tahsildar was found deficient. The charges also the Tahsildar with having-

having delayed the examination of the case until all the witnesses had been tutored as to the evidence they were to give.

14- These assertions are not corroborated by any evidences.

15- The Moogoomdar, it is proved did not examine the Treasury on the 12th The 5 bags were placed in No 1 box by the Nagathie Goomastahs and Shroff on that date.

16 The Shroff's son stated that on the 14th when No 1 box was opened he was present but previous to it being locked up again he was ordered by the Nagathie Goomastah to leave the Cutcherry and did not return.

17- This Statement is not corroborated by the evidences of the parties who were present but on the contrary they all without exception depose to the facts as stated above. Taking the above circumstances into consideration the Acting Head Assistant Collector cannot but consider that Shroff is responsible for the deficiency in the Money placed in No 1 box his suspicious conduct at the time of its being weighed and the eagerness to which he exhibited in endeavouring to get over the examination previous to the Tahsildars arrival are circumstances which tend to

Fort St. George 24th July 1851.

to show guilty knowledge. But the Acting Head Assistant Collector cannot at the same time divest himself of the idea that the Gollah was cognigant of the whole matter in as much as he in a measure assisted in the concealment in acting contrary to orders in tying up the bags after they had been weighed by the Shroff. It is most surprising that the Nagathie Goomastahs and Moogoomdar did not interpose their authority to prevent the Money being weighed which certainly was their duty after they had received explicit direction from the Tahsildar to that effect.

18- The Gollah wishes to cast the responsibility of the deficiency in No 3 box on the Shroff stating that the money which he had collected and put by in No 2 box was found correct, whereas immediately the Shroff took charge a deficiency occurred. This certainly is a good argument in his favor and would have cleared him from the imputation of conspiracy had the Collections of the 25th been kept separate and the deficiency of 77/2 Rupees discovered in them only, but this was not the case. They were mixed with the Money in No 3 box which the Gollah himself had collected and therefore it is impossible to determine in which the deficiency occurred.

The Money could not have been taken.

19-

Fort St. George 24th July 1851.

taken out of No 1 Box without the cognizance of the Naga the Goomastah for he appears to have been the person deputed by the Tahsildar in his absence and that of the Neegoomdar (and even when the latter was in Meylore as for instance on the 12th) to be present when the box No 1 was opened, the Shroff being present but never having access to the box in the absence of the Naga the Goomastah.

20- This explanation will satisfactorily show that the Money which was found deficient in No 1 box at the examination of the 26th if taken out of the box must have been abstracted by the Shroff in conjunction with the Naga the Goomastah previously to his being sent to Madura or in interval between the Shroff's departure on the 13th and his resuming charge on the 20th by the Gollah with the Naga the Goomastah's knowledge. That the Money was taken from the box, there is no evidence to shew nor are there any circumstances mentioned which might lead to that inference but yet such might have been the case, and the fact concealed, all parties in the Cutcherry being implicated in the suppression of the fraud The more probable inference however to be drawn, is that the Collections

Fort St. George 24th July 1851.

Collections were not received as written in the daily Sittahs, and that a false account of those Collections was rendered by which means the deficiency occurred. If such really was the case (a supposition which the result of the examination of the 26th tends to confirm) the Naga the Goomastah being the person whose duty it was to receive the Village Mussalnamahs and to see that the amounts stated to have been transmitted corresponded with that actually brought, ought to have been acquainted with any frauds practised in such cases or if ignorant of them was guilty of most culpable neglect of duty.

21- In fixing the above view of the case the Acting Head Assistant Collector sentences the Shroff to pay the sum of 50 Rupees as fine in addition to that of 467 Rupees which is not forthcoming a default of payment of the fine, he is sentenced to six Months imprisonment. The Gollah and Shroff are to make up the 77½ Rupees paying each half of that sum. Under the provisions on clause 4th Section V Regulation IX of 1822.

22- The Tahsildar has displayed great want of precaution throughout the whole matter.

matter. He ought not to have allowed the box No 1 to be opened on 14th except in his own presence and when the circumstance of the difference in the weight of the bags in it was made known to him — he should have ascertained the truth of the Statement by an immediate inspection — or if the order he gave be considered a sufficient precaution he should certainly have been present on 25th when No 1 box was opened and satisfied himself that the Naga the Goomastah of Gollahs report was correct — Had such a course been pursued there would have been no opportunity afforded to the Shroff to charge the Gollah and Naga the Goomastah with tampering with the money during his absence from the Cutcherry on the afternoon of 25th, the long themed examination which has been the consequence would have been unnecessary and the case reduced to the simple question of responsibility.

23. The Tahsildar reported in the year 1848 to the late Head Assistant Collector that he did not place confidence in the Shroff in as much as he was much involved and had been sued in Court for large sums which he

J. J. B.

he had not the means of paying and requested that he might be removed to another Talook — In 1849 the Shroff was charged with having borrowed from a Village Shroff the sum of 15 Rupees which was a portion of the Kist collected in his Village — This case was enquired into by the late Head Assistant Collector and dismissed from insufficiency of proof.

24. These circumstances ought to have made the Tahsildar's supervision strict instead of unwarrantably lax which it appears to have been — thus far the Tahsildar is in fault but the Acting Head Assistant Collector cannot think for a moment that he was cognizant of the deficiency in his Treasury previous to its being brought to his notice on 14th and therefore frees him from the suspicion which his negligence would naturally beget.

The Board of Revenue have attentively perused the decision of the Acting Head Assistant Collector of Madura, in the matter of the defalcation in the Treasury of the Meylore Talook which accompanied the foregoing letter.

2. The Board cannot but strongly condemn the conduct of the Tahsildar of Meylore in this Matter — The circumstance of there being a difference in the

or suspended and a Shroff and a Goomastah be dismissed from the public service.

weight of the bags was first reported to him on the 14th March 1851 nevertheless a formal examination was not made until the 25th idem. This is accounted for by the absence of the Shroff at Madura, but the Tahsildar does not seem to have adopted proper means to secure his immediate return. It appears also unaccountable how this Officer could, after a report had been made to him of there being a probable deficiency in the Treasury, have ordered his subordinates to take out the bags of money and lay them aside for his examination; instead of this he ought himself to have been present when the sealed Box was opened. The consequence was, that his orders were disobeyed. the examination commenced before his arrival, and an opportunity was thus afforded the shroff to replace any sums which might have been deficient. The discovery of the defalcation moreover does not appear to have been reported to the Collector until the 3d April, or 8 days after it had been made.

3 The Board of Revenue cannot pass unnoticed such gross dereliction of duty on the part of an Officer holding so important a post as that of Tahsildar. In consideration however of his having been acquitted of any concern

in

in the tampering with the public money, or of having been in any manner cognizant of it, the Board will leave it to the Collector to remove him to another Talook of lower emolument, or to suspend him for a period not less than 6 Months. They likewise order the suspension or transfer to another Talook of the Nagathi Goomastah. The Shroff and the Gollah will, under the conviction of the Acting Head Assistant Collector be dismissed, if the Collector has not already removed them from the public service.

4 The Board observe that the deficiency has been recovered and that the Collector has adopted measures to render the custody of the public money in the Talooks more secure for the future.

Bs. No. 322.

From the Actg Collr of Tinnevelly submitting form

Sir,

With reference to Extract from Minutes of

for the favorable consideration of the Board a scheme for establishing a Lunger Khana in his District

of Consultation under date 1st March 1850 prefaced to Extract from Proceedings of the Board of Revenue dated 18th Idem, I have the honor to request the Board of Revenue to take into their favorable consideration and to recommend to Government for sanction the following scheme for establishing a Lunger Khana in this District by means of surplus and unappropriated Money belonging to certain Chuttrums and Davastanums.

2. The Board are aware that certain chuttrums founded by Ettaya Khan in this District and called by his name are very richly endowed, and that the expenditure necessary to keep them up does not nearly consume the entire revenues belonging to them.

3. There is at present in deposit belonging to these Chuttrums a sum of Rupees 20989 accumulated down to the end of last fusly. The average collections for the last twenty years have been Rupees 7039 while as shown in a recent report submitted to the Board the ordinary charges should amount to no more than Rupees 5543. The cost of repairs and contingencies has hitherto been under Rupees 700 on an average allowing however that sum there will still be a surplus Revenue which with the present accumulations

× Vide Memorandum

accumulations not being required for the existing institutions, may, it appears to me, be very usefully and appropriately applied to extend the charitable intention of the endowments by the Establishment of a Lungurkhana.

From Do. 29th Dec. 1812. To Do. 15th January 1813.

4. The correspondence noted in the Margin contains the history of Ebarkhan's (commonly called Shadykhan's) Chuttrums, and shows how their Management came into the hands of Government.

5. The Civil Engineer at my request has prepared a plan for the requisite Buildings providing separate accommodations for Brahmins, Soodras and Low caste people for which the estimate amounts to Rupees 6,205. There are however, some objections offered to the plan as it is thought not to separate the cooking places for Bramins sufficiently from those for Soodras, and I cannot therefore submit it for approval until after further communication with the Civil Engineer. But I will take it for granted that a revised plan will not raise the amount of Estimate to more than Rupees 6409.

6. Adopting these figures the Board will observe in the inclosed Statement that after paying

paying for Building there will remain in ready money a sum of Rupees 14,500, which I propose should be invested in the 5 per Cent open Government Loan for the benefit of the Lungurkhana, adding to the 725 Rupees per annum thus secured the average surplus revenues of the Chuttrums amounting to Rupees 796 the annual income derived from the Chuttrums would average 1521. Pds.

To this I would beg leave to

7. add an annual balance of Rupees 288—15—10 which remains unexpended every year out of the sanctioned Davastanum Jusdeek of Rupees 181,368—11—8 fixed for this District by order of Government dated 21st February 1846. This surplus remains in consequence of the regular charges in Nine Pagodas Amounting to a smaller sum than was originally anticipated. If this be allowed the total average income of the Lungurkhana would amount to about Rupees 1810 per annum.

8. The Establishment of Servants proposed for the Lungurkhana is shown in the enclosed Statement & is calculated with sadeerwared charges to Cost Rupees 408 per annum, leaving for the maintenance and clothing of destitute persons of all casts an average sum of Rupees 1400 per annum which at the supposed rate

of

Fort St. George 24th July 1851.

of 20 Rupees a head per annum would allow of 70 such persons being admitted at a time.—

9. There would be some charge at first for utensils &c but these are not set down in the calculation because it is reckoned that the income accruing before the buildings are completed and the full complement of indigent people admitted would more than suffice to cover it.—

10 The most convenient place at which to locate the Lugurkhana I consider to be Hytaw on the North road (No 4) from Tinnevelly a distance about 20 Miles from it. This situation is centrical and being a small place the public institution would not there take away much from the relief afforded in large towns to the needy by private charity. At the same time it is sufficiently near to Tinnevelly to admit of frequent inspection by the Collector and his Assistants, and to allow of sick persons requiring Medical aid to be sent to the Dispensary at Tinnevelly on Country Cots quickly and without much expense.—

Fort St George 24th July 1851.—

11. At one time I had it in contemplation to recommend that a Lunatic Asylum should be founded rather than or in addition to a Lungurkana out of the available funds now proposed to be made use of. For, since the prohibition against forwarding native insane persons to the Asylum at Madras the only place where they can be properly treated and kept under restraint is the Jail Hospital and it will easily be believed that persons of respectability are not willing to consign their relatives who may be suffering from mental disorders to such an Asylum. Besides which, as experience has shown at Tinnevelly the want of suitable accommodation makes it dangerous to the sick prisoners to have mad men shut up in the same ward with them. But as I have since been informed that it is in contemplation by Government to establish a lunatic asylum for the Southern Districts at Trichinopoly, I have thought it better to submit the present scheme for only a Lungurkhana.

Sir,

With reference to para 5 of my letter of the 4th Instant I have the honor to forward a Plan and Estimate, of Rupees 6,202-3-" for the construction of a Lunger-Khanah in this District together with copy of a letter from the Civil Engineer, 6th Division, explanatory of the same

2 It is perhaps not quite regular for me to forward a Plan and Estimate for a Building to your side of the Board of Revenue but as the first question respecting the employment of the surplus chuttrum and other monies proposed to be appropriated for the purpose must be deliberated upon there, I have thought it most convenient that I should do so

to requesting the Board, should they be favorably disposed to the project, to be good enough to ascertain the opinion of the Department of Public Works regarding the suitableness of the Plan and Estimate and to take all requisite steps to bring the whole subject to the kindly consideration of Government.—

No. 69.

To, C. I. Bird Esqre.
Acting Collector of
Tinnevelly.—

Sir,

I have the honor to return the Plan and Estimate for the Lungar-khanah for Brahmins and Soodras, having altered the former, as far as the size

size of the paper would admit of, in accordance with the suggestion contained in your letter No. 154, dated 3d February 1851.

In carrying the work into execution it can be explained to the Maistry that the Yard and Cooking place for the Brahmins are to be placed on the side instead of in rear of the building, the same as those for the Soodras.—

The Estimate as now revised amounts to Rupees 6,202—3—

Extract Mins of Con.n 24th June ps.t in Con.n 7th July 1851.

With reference to the papers noted in the Margin, I am directed by the Board of Revenue to state for the information of the Right Honorable the Governor in Council, that the Board have been in communication with the Collector of Tinnevelly on the subject of the proposed Lungerkhanah for his District - but before submitting their opinions on the Estimates and plans transmitted by that officer, they deem it necessary to ascertain how for the Government may feel disposed to appropriate the Tinnevelly Surplus Chuttrum Fund amounting to Rs. 20,909 for the construction and Endowment of the Lungerkhanah, and whether they will allow the sum of Rupees 3245 proposed to be discontinued for distributing food gratis at the chuttrums to form part of the expences of a Lungerkhanah.

2. The Board are inclined to think that it may be advisable to employ a portion of the Funds in enlarging the present Dispensary in Tinnevelly which Institution might be made to answer some of the purposes of a Lungerkhanah for the infirm and destitute whilst a branch might be, as the Collector proposes at Kytar distant from Tinnevelly 20 Miles

3 On receiving the orders of Government the Board will direct the Collector either to alter his present plan and Estimate, or to transmit fresh ones prepared in accordance with the amount that Government may consider at their disposal.-

Requesting permission to dismiss from the Public service Venkatasobier Tahsildar of Nanguncherry Taluk for certain reason.-

Sir,

I have the honor to request permission of the Board of Revenue to dismiss from the Public service Venkatasobier Tahsildar of Nanguncherry Taluk from 29th May the date on which he last being ceased to perform the duties of his Office.-

2 Enclosed is copy of a decision passed against the above named person and two others under Regulation IX of 1822.-

3 But besides this case Venkatasobier lies under strong suspicion of gross corruption last year when he was Tahsildar of Punjalmal Taluk He then recommended the construction of a small sluice in the Attoor channel for the benefit of the Sookantulle Tank. and afterwards when the Attoor people strenuously resisted the building of the sluice

since but not till after it had been completed recommended its removal Prof could not be obtained but it is strongly suspected that in that matter he received bribes from both parties and it was on this account that he was removed to another Talook.

the Talook servants for favorably dealing with the short Crops and it is established that Rupees 10 were actually paid to the 3d Defendant The fact of money having been paid to the 1st and 2d Defendants on the testimony of one Witness who is however said by several others to have been employed to convey the same.—

Corroborative circumstances in this case are that the Tahsildar went in person to pass the short Crops in the Village of Putha although distinct instructions had been sent to him from the Hoozoor to employ certain other persons on that duty and that notwithstanding his orders were positive to have the short crops reaped and measured he only did so with a small proportion of the whole extent proposed for remission and directed the Ryots to remove the rest taking the outturn to be what had been set down in the Estimate.—

The Defendants deny the charge.

charge and the Tahsildar (1st Defendant) pleads in excuse for contravening his orders that having satisfied himself that the Estimates of the outturn had been made full high he refrained from actually examining the whole extent in order not necessarily to delay the cutting of the grain which had already suffered from remaining too long.—

There is nothing to shew instead in complainants Petition that the Estimation of the Crops left unexamined yielded more than was set down in the Estimates but that the Defendants received money from the Ryots of Putha in consideration of dealing favorably with the crops having claims to remission cannot be doubted. They are therefore convicted and 1st Defendant sentenced to pay a fine of 50 Rupees 2d Defendant who is further convicted on another enquiry of misconduct in under Estimating the produce of short Crops in three other Villages of the same Talook Viz. 2. I believe that I can best support this application by bringing to the recollection of the Board the fact that the dispensary at Mangalore has been the means of conferring very great benefit upon the people who have shown themselves much more prepared than is generally the case to avail themselves of its advantages. This fact was remarked by the Government in their proceedings of the 9th August 1850 / supplement to Fort St. George Gazette August 13th 1850 / at the same time peculiarity in the shape of the district which has rendered the establishment of a second Gillah necessary deprives the inhabitants of North Canara of the benefits which those of the Southern division derive from the Mangalore institution.

3. From the knowledge and skill of an European Officer are already provided the convenience of extending their benefits to the native population is comparatively small. The claims of the inhabitants of North Canara however can only

only weigh the Government in comparison with those of other districts, and it is therefore sufficient for me to annex — the accompanying table of the population of the five Northern talooks and more particularly of the towns of Honore Coomptah Gokurn and Sirsi which would be those most likely to benefit by the institution.

4. At the same time I would beg to observe that the expence likely to attend the Establishment of a Dispensary at Honore may be greatly diminished by appropriating to the purpose a building already the property of the Government a bungalow generally rented by the Officers Commanding. The Government property is not ill adapted to the purpose and is particularly well situated but close to the town. It is in a dilapidated state but the rent now in my hands will enable me to put it in a state of repair which will obviate the necessity of any serious outlay on the part of Government tell the advantages of the institution

institution shall have been fairly ascertioned by some years experience.

5. The Officer lately in Command vacated the building on completing a house of his own, and the Government bungalow will only be rented when there are two Officers on detachment who do not happen to live together so that I think it is unnecessary to prevent this very useful application of the public building on the prospect of the house being occasionally rented.

I have the honor to forward 5 Petitions received from the 5 Northern Talooks which although they form only the Subdivision of the District of Canara strictly speaking belong to the Gillah of Honore and are quite distinct from the Southern part of

of Canara and which is called the Zillah of Mangalore -

2 - These Petitions contain in all 4401 signatures as particularized in the Margin and the Request contained in them is one which I feel it my duty to bring to your special notice in the earnest hope that it will meet with your recommendation and support -

Your own knowledge of the District renders it needless for me to draw attention to the obvious fact that persons residing in this part of Canara cannot avail themselves of the benefits resulting to the residents of the Southern Talooks by the Establishment of a Civil Hospital at Mangalore: The most Northern points of the District are from Mangalore upwards of 200 miles and embrace a considerable portion of upper Ghaut Country as well as contain a population nearly as numerous as the population of the Southern parts, and for whom at the present time there are no means of providing in cases of sickness and severe accidents and this inconvenience within

within my own experience has been very greatly felt on more than one occasion -

4 - The Government have been pleased in other Zillahs to allow the Establishments of Civil Hospitals and as the wants of the people in the Zillah of Honore in this respect are no less urgent than in those where this blessing is already enjoyed I feel confident that the present Petitions only need your recommendation and support to secure a compliance with the boon therein solicited - -

To

Sir.

B. of R. 1452
To the Chief Secy to Government- Submitting a letter from the Collector of Canara relative to the proposed Establishment of a Government Dispensary at Honore and recommending under circumstances stated to Establishment on the same footing as those now existing in other large Towns.

I am directed by the Board of Revenue to submit for the consideration and orders of the Right Honorable the Governor in Council the accompanying letter dated 30th June 1851 from the Collector of Canara on the subject of establishing a Government Dispensary at the Zillah station of Honore in accordance with the prayer of Petitions from 4201 of the inhabitants of the Talooks of Soonda Soopah Bilghi Ankola and Honore which form North Canara supported by the late and present Sub Collectors of that Division as well as by the Zillah Surgeon at Honore-

2- The benefits derived by the people in Lower Canara by the establishment of the Dispensary at Mangalore and for greater desire

evinced

evinced by them, than is generally the case, to avail themselves of its advantages induced the Collector to urge that similar benefits may be put within the reach of the inhabitants of North Canara who cannot derive aid from the Mangalore Dispensary and in order that the application from its inhabitants may have due weight with Government when compared with the claims of other Districts in which such Institutions exist, a Table of the population is submitted by the Collector from which it would appear that there are no less than 301,216 souls in North Canara.

3. The expense of the proposed Dispensary will, it is observed, be greatly diminished by appropriating for the purpose a Bangalow the property of Government which is generally rented by the Officer commanding, but is now vacated by him on completing a House of his own and the Collector points out that it would only be rented in future when

Fort St. George 24th July 1851.—

when Two Officers on detachment duty do not happen to live together.—

4. Mr. Maltby considers it unnecessary to prevent such very useful application of the building as the Dispensary would be on the prospect of its being only occasionally rented and is of opinion that its situation, elevation, and proximity to the Town renders it well adapted for the purpose of a Dispensary and that, with the rent now in his hands which will in some measure enable him to repair the building there will be no necessity for any large outlay until the advantages of the Institution have been fairly ascertained by experience.—

5. Under all the circumstances stated in the Collectors letter and its enclosures the Board recommend that the necessary authority may be obtained by Government for the Establishment of the proposed Dispensary at Honore on the same footing as those now existing

From the Collector of Madras.

Sir,

With reference to the Endorsement on the accompanying petition from Tanappah Gramny and others, I have the honor to report, for the information of the Board of Revenue, that the former number of Toddy shops within the limits of the Cantonment at St. Thomas' Mount was +20— which were of the 3d and 4th Classes besides the two principal shops which were and are still put up by auction every year, & and successful Bidders required to deposit security

Reporting upon a petition relative to six Toddy shops within the Cantonment at St. Thomas' Mount which were recently settled on the same principle as that which applies to the two principal shops there—

To Board 13th July 1848. Para 3.

+Note

No. 1410 of 1851.—

In my Endorsement of 21st Ultimo / Vide Enclosure of the petition now under report / I stated erroneously that the former number of Shops was 26 instead of 20— It was sometimes 26, but the year in which it was reduced to 6, the number was only 20.—.

security in ready money, equal to 10 days revenue. The 20 shops had 2,749 Productive trees allotted to them— The Dowle was Rupees 21—11 11 per diem or Rupees 7,685—14—7 Per annum. The Toddy drawn from the Trees included in the settlement was 229 Gallons, which was probably the full Consumption of the different Villages within the area of 4 Miles round the Cantonment.—

2. At the suggestion of the Commanding Officer, the number of shops has been reduced from 20 to 6. The trees allotted to them amount to 934, and the Dowle is Rupees 7—7—4 per diem or Rupees 2,722—4—8 per annum, the quantity of Toddy drawn from the trees being only 78 Gallons.—

3. If the Consumption was originally 229 Gls it is fair to presume that the reduced quantity of 78 Gls or 1/3d of the former supply, is insufficient to meet the demand and that the difference or at least a great portion of it, is, therefore, introduced clandestinely.—

4. As from the wish expressed by some people of the Caste, it appeared to me that there was every likelihood of an increased amount of revenue being obtained by putting up

up the 6 shops on the same principle as that which applies to the two principal shops at the Mount, I caused the intended sale thereof to be advertised in the usual manner and at Auction, the Dowle of Rupees 13-6-- per diem was offered. The number of trees to be allotted to the shop keeper, at 1 Fanam per 10 Trees, will now be 1779, yielding 148 1/2 Gallons and the annual Dowle Rs. 4,881-14-- 5.

If in any Village within the limits of the Supreme Court the number of shops was under similar circumstances, or otherwise, reduced from 20 to 6 the petitioners might have been justified in asking why any number of shops in the said Village should not be sold by auction also, but the case under review is different, inasmuch as only that system which is already in operation, as regards two of the established shops, will now be extended to the remaining 6 in the same locality, and for good and sufficient reasons.--.

6. My Endorsement of 21st Ultimo on one of the enclosures of petition No. 1410 of 1851 will show that the Machilea

Machilea entered into by the petitioners in common with the other shop keepers, will cease to be in force after the 11th instant.--.

To, D. White Esqre
Collector of Nellore—

Sir

16th June 1851. 1. I have the honor to transmit herewith by order of the Board of Revenue, a copy of the revised Rules for regulating the issue of Certificates for Government lands, in the Provinces required for building purposes which have received the sanction of Government under date the 22d Ultimo to be substituted for the Rules circulated with my letter of the 2d April 1835.—

2. It is only requisite to add that the Registeration fees payable under the old Rules have been discontinued, and that when land may be applied for by a Foreigner European or American the case should be reported to

to Government specially for their orders, that it may be dealt with on its merits.—

Observations respecting the Settlement of the Land Re:=venue of the District of Bellary for Fusly 1259.-

Extract from the Minutes of Consultation in the Revenue Department, under date the 19th July 1851.

Read the following Extract from the Proceedings of the Board of Revenue-

/Here enter 12th June 1851 No. 257/

Para 1. Rain fell plentifully in the Bellary District in Fusly 1259 and led to a con=siderable increase in the Punjah Cultivation, but the season was not equally favorable to the dry lands and particularly the black soils- The heavy rains too from June to September did much injury to the early dry crops and compel=led the Ryots to leave much of their black lands unsown- The late dry crops also

also suffered from the ravages of Locusts. Altogether the Cultivation of Fusly 1259 exceeded that of the previous year in the extent of 34,500 Acres bearing an Assessment of Rupees 114,174-

Increase.	Acres.	Rupees.
Irrigated lands	17,193	165,694.
Mixed and red land	45,305	4,814.
Deduct Decrease	62,498	170,508.
Black land	27,998	56,334.
	34,500	114,174.

This result proceeded from an increase in the irrigated lands and mixed soils and red dry lands, counterbalanced in some degree by a decrease in the black lands.-

2. The District was not free from Cholera but it prevailed to a less extent than in the previous Fusly. Murrain among Cattle was more destructive than in Fusly 1258.-

3. The prices of the chief staple products of the District, except Cotton, fell considerably below the rates of the year preceding as well as below the average of the last 5 Fusslies 1254 to 1258.-

The

4. The net land Revenue demand under all its heads for the Fusly under report amounted to Rupees 22,52,335 and exhibited an improvement upon that of Fusly 1258. of Rupees 70,961- The Settlement was thus formed.-

The

5- The net Settlement included Rupees 26,936 on account of waste lands for which the Ryots and Village Officers were held responsible under the usual rules- The amount varies little from that similarly charged Rupees 26,480 in Fusly 1258-

6- The remissions in other respects of an ordinary character, include the sum of Rupees 20,054 granted for the loss of crops being Rupees 15,149 in excess of that allowed in the previous year- It was given chiefly on account of the black lands in the Adoni and Goollem Talooks and seems to have been no more than was required in consequence of the injury occasioned to the crops by the heavy rains and attacks of insects-

Report Paras 25 to 28.

7- The Enam Ayacut or total esctent of Enam land in Bellary for the fusly under report was 15,64,016 Acres rated at an Assessment of Rupees 20,26,202 (about two fifths of the Assessment of the entire Circar Ayacut 50,50,878) or 780 acres less

less than in Fusly 1258 in consequence of resumptions made in that year. Of this esctent rather more than 3/4ths / 112,2,0,10 / are Surva Enam i-e paying nothing to Government and the remeinder as Jodee Enam or subject to quit rent. Further the quantity held for Village and Police service 8,88,419 Acres, by Reddies, Curnums, Cuttoobadies &c. bears to that enjoyed in endowment of religious institutions as Charitable or pensionary grants 5,91,527 acres, the proportion of somewhat less than 5 to 3- The esctent actually cultivated in

Statt. 12 Col: 3.4.5. Fusly 1259 was 11,23,660 acres the full assessment on which would have been Rupees 15,41,907 the amount really paid was Rupees 1,80,801. or about 12 per% of that sum Viz.t.-

Quit rent including grain fees	165,711.

and

and 40,635 Rupees more up to the 31st October leaving a balance of Rupees 7,593 much of which seems to be irrecoverable.

9. The Right Honorable the Governor in Council sanctions the remission of the irrecoverable balances of Sewaye Jumma Rupees /48-15-3/ Forty Eight Annas Fifteen and Pice three - authority for writing off the unrealizable balances of land revenue for Fusly 1258 being Rupees 5,274-8-4 it is observed was granted in Extract Minutes of Consultation 17th June last.

10. The Governor in Council entirely concurs with the Board of Revenue in the remarks contained in para 16 of their Proceedings. He attaches much importance to the observance of the orders of the 12th November 1849 which require that the Settlement of every Taluk shall be made within its limits - Occasional deviations may be allowed under peculiar circumstances as

that of the Hurponhully Taluk referred to by the Board but except in such special cases which should always be noticed in the Report the rule should be strictly followed.

Bd. No. 209.

From the Collector of Bellary affords explanation.

Sir,

I have the honor to reply to

explanation in reply to the orders of the Board of Revenue contained in Extract of Proceedings under date the 22d July last on the subject of the young Topes.

the orders of the Board of Revenue contained in Extract of Proceedings dated 22d July last, which I have somewhat delayed in order that I might lay before the Board an abstract of a detailed figured Statement I have had prepared to show the state of the young Topes. The Board desire to know whether Mr. Robertson's calculations in respect of the expected return from the young Topes were based on erroneous data, or whether the trees are as yet too young to yield their Maximum produce.—

2. I do not find that Mr. Robertson's calculations were founded on many detailed averages and comparisons at least they resolved themselves into a calculation based on the actual produce of the old Topes in existence which yielded on an average per each fruit Tree including a large proportion of unproductive Trees in them / 3 annas and 4 annas. Mr. Robertson calculated that the Topes would begin to give Fruit, the Tamarinds at 12 years, other Trees at 10 years. He

He calculated the annual Revenue of the Trees that had been planted in Topes by him up to 1240 fusly Viz.t 58,102 Fruit Trees at 13970 Rupees - The cost of these trees was Estimated at 58520 Rupees the charges for 7 years tending - But Mr. Robertson did not suppose that the Trees would produce the full annual revenue which he Estimated at 13,970 Rupees at once immediately after they began to bear fruit which would have repaid the cost in 4 years after they gave fruit or 16 years at most after planting - But he stated that "the whole "expense incurred by Government might be "expected to be recovered within Ten years "after they began to give fruit" This at the farthest would be 22 years growth - The Board will find all this fully stated in the Summabundy Report for fusly 1240.

paras

paras 51 to 54 --

3. I will subjoin in the first place the following comparison between Mr. Robertson's Explanations as reported in fusly 1240 and the actual result of those Topes mentioned in that report, the greater number or about 2/3ds of which have attained the full age of 22 years and the rest 20 years --

	Number of Fruit Trees -	Total Cost -	Total Returns -	Annual Revenue -
Mr. Robertson's Estimate	58,102	58,520	58,520	13,970
Actual results	68,721.	78,264	6,105.	867. Revenue of fusly 1259 -

The Statement speaks for itself -

4. The costs were estimated at 58,520 Rupees - They have been 78,264 Rupees arising from a much longer period being found requisite for watering the Trees - The costs should have been repaid by the produce 'ere this - The produce has yielded including the yield of every

every year between 10 and 22 years / a gross revenue of only 6,105 Rupees, not half of the Estimated revenue of one year and not a tittle of the actual cost which it was Estimated would now be about repaid-

5. From the above Statement of Mr. Robertson's calculations and the actual return I must come to the conclusion that his Estimate was erroneous, and it is not improbable that the error lies in a great measure in giving too short a time for the trees to yield, not their Maximum produce only, but even a fair return, the data was based on the actual returns of old trees; these Trees are probably the remains of many thousands planted by a former Government which having found congenial Soil survived came to full maturity and bore fruit accordingly- It was I should say an error to apply the average produce of these old Topes to the new Topes planted indiscriminately throughout the District in poor soils, for rich and valuable soils were not intrenched upon a very great

great allowance should be made for considerable failures; and it was an error to calculate upon a return of the magnitude stated, within so short a period- I am inclined to believe that a great many Trees will never yield a revenue those which do will not yield the average 3 Annas and 4 Annas till they reach nearly 50 years growth- The soil is not congenial- Mango and Jack Trees have been extensively planted and I have frequently with sorrow very promising young trees attaining even to 20 years growth and then dying off- The enclosed Statement is Statement No. 6. an abstract of a large account I have prepared to elucidate the subject in hand- It is a Salwar Account of Topes planted in each year- It shows the amount expended upon them and the number of Trees distinguishing the quantity bearing fruit from the number which have yet to bear according to examinations made- The small proportion of fruit Trees that have borne fruit even in the Topes longest planted

Fort St. George 28th July 1854.

planted is remarkable. All planted in Mr. Robertson's time, Viz. upto June 1248 ought to be on his calculations to be in bearing. But out of 156,498 trees / fruit trees / only 42,197 trees are in actual bearing. Whilst there are 114,301 not yet yielding fruit. The gross returns from the produce has amounted to 104,56 Rupees. The cost has been 162,635 Rupees.

7. This Statement in a financial point of view is sufficiently discouraging. But still it should not discourage from continuing a work so greatly wanted in a District so barren of Trees as Bellary is. My object in bringing the matter before the Board was as stated in my former letter to shew the absolute necessity of granting more encouragement than the present rules for planting Topes afford to private individuals in order to

Fort St. George 28th July 1854.

to induce them to plant themselves. Government should not relax their efforts at the same time. If only a trifling revenue is derived for many years, no great regret should be expressed. Revenue was not the object in view when the work was originally undertaken. The object was to raise a few trees in a District so utterly barren of them as Bellary is, and every encouragement possible should be given to promote their growth. And I confess after all it will ever be an arduous task to accomplish much whether by private enterprise or at the public expense.

8. In reply to Para 3 of the Board's Proceedings requiring more explicit information as to the item of "remission of Land" in order that the Board may judge how far this may be considered an actual disbursement. I have the honor to send the Statement No. 2 Explanatory of these "Remissions of Land" for each year as the Board require. The Board will understand from

Fort St. George 28th July 1851.

from this Statement that the Remissions are actual disbursements. They were generally allowed as being less expensive than paying monthly wages to the Gardeners.

Bellary.

Bd. No. 1503.

To the Coll.r of Bellary.....

Requesting him to afford further information respecting certain remissions on account of Topes.—

Sir,

With reference to the remissions /64317/ on account of Topes detailed in Para 8 and more particularly in Enclosure 2 of your letter of the 13th January 1851 the Board understand that this expenditure has occurred upto July 1759 upon the Topes planted by Mr. Robertson and that this made remunerative is now disallowed.

2 They further suppose that as these Topes are expected to support themselves from July 1760 all charges on their account will cease from that date.

3. They observe from Enclosure No 1 that 119 Topes had been planted by Mr. Mellor at an expense upto July 1759 of 15370 Rupees, taken it is supposed from the annual grant of 6000 Rupees.

4. Sub as this grant has now ceased they wish to know under what arrangement these Topes now looked after, and

Fort St. George 28th July 1851

and in the event of the Government being pleased to renew the allowance wholly or in part, in what way it is proposed to lay out the amount and whether the expenditure on account of Topes will be confined to the ready Money Grant if such is sanctioned

Sir,

Para 1

In reply to the Extract from the Proceedings of the Board of Revenue dated the 19th Ultimo, I have the honor to state that the Mosque under the name of Soomna and that of Chowk is the same, the former being the proper name of the Mosque while the latter is the name of the Street in which it is situated - the Mosque is commonly known by both names.

Affording explanation in respect to the allowance lately claimed by certain individuals on account of Services performed in the Soomna Musjeed in the Town of Cuddapah.

2 The supposition that I was not aware of the existence of the letter by Mr W. H. Arbuthnot, dated the 6th May 1843, is perfectly correct, that record not being known to me or apparently to any of the public servants, and there is unfortunately no Index to the records by which its existence could be ascertained - The Servants having been appointed since it was written it is therefore difficult for me to fix the blame upon any particular individual

From the late Asst. Collr. of Cuddapah

Affording explanation in respect to the allowance lately claimed by certain individuals on account of Services performed in the Soomna Mosjeed in the Town of Cuddapah

Sir,

Para 1 In reply to the Extract from the Proceedings of the Board of Revenue dated the 19th Ultimo, I have the honor to state that the Mosque under the name of Soomna and that of Chowk is the same, the former being the proper name of the Mosque while the latter is the name of the Street in which it is situated - the Mosque is commonly known by both names.

2 The supposition that I was not aware of the existence of the letter by Mr W. W. Arbuthnot, dated the 6th May 1843, is perfectly correct, that record not being known to me or apparently to any of the public servants, and there is unfortunately no Index to the records by which its existence could be ascertained - The Servants having been appointed since it was written it is therefore difficult for me to fix the blame upon any particular individual

proceedings, an order was issued to the Head Assistant Collector dated 25th January 1851 directing him to obtain the necessary information from the most respectable mahomedan inhabitants of the Town of Cuddapah the result of which examination proved that the services had been regularly performed, and the Statement called for by the Board was accordingly forwarded.

6. In para 3 of the Board's Extract is recorded the opinion of Government that "no mark of favor whatever should be shown in a case in which the British Magistrate has been murdered and that they could not sanction the continuance of an allowance so justly forfeited", but I would respectfully observe that out of the 5 Servants attached to the said Mosque, three of them have continued to draw the allowance appertaining to their respective situations almost since the above lamented outbreak took place, so that the objection appears to refer to the remaining two individuals as however the order of Government as above recorded seems to be explicit the propriety of the whole allowance of Rupees 76. 2 - should be considered instead of limiting the resumption of that portion only which

which is claimed by the petitioners.

7 I would however observe that from Mr Lacon's order dated 19th July 1833 it would appear as though the Government at the time did not propose attaching the allowance in question, nor does any such intention seem to have occurred to the higher authorities until a period of 11 years after the outbreak took place during which time a portion of the allowance as above shewn was drawn by three of the Servants attached to the Mosque.

8 Orders have been issued to stop the further payment of the allowance amounting to Rupees 43-2-0 granted by Mr Cochrane to the Petitioners, and steps can be adopted by the Collector for the recovery, if necessary, of the amount paid from 9th May 1849 to December 1850 amounting in the aggregate to Rupees 71-14-0.

Cuddapah, Collector's Office, 9th July 1851.

Bd's No. 1479
Proceedings
17-18

In Cons: 18th Septr 1843

thereon It does not appear to the Board that the order of Government 4th September 1843 was intended to discontinue the entire allowance to the Mosque in question, but only that portion of it Rupees 43-2-0 which had lapsed from the period of the murder of Mr Mac Donald, and they observe that orders have been issued to stop any further payment of this portion

2. The Board will not press the recovery of the portion erroneously paid from 9th May 1849 to December 1850 amounting to Rupees 71-14-0 unless objection be taken by the Audit Office to the sum surcharged in the Collector's Accounts.

Sir,

Bd's No. 1518-

From the Acting Collector of North Arcot

Submits a revised report of Lapses of Manniems for the Quarter ending 31st March 1851. with certain explanations in reference to the Board's letter of the 29th May 1851.-

With reference to your letter of the 29th ultimo I have the honor to submit a revised Report of Lapses of Manniems in this District for the Quarter ending 31st March 1851, and in reply to the observations of the Board beg leave to explain that in the two first cases the parties entered in Column 8 tho' all of them alive are yet the last Holders - for they are the persons on whose account orders are now solicited, and this will show why Column 10 was not filled up. These cases in fact are not properly speaking Lapses, tho' from the circumstances of their having been allowed to descend to the heirs of the first grantees, and the present holders having applied for registration of their shares, it was found necessary to include them in the Report. If the Enams are to be continued I would recommend that the shares may be registered as they stand in the Return

Return, the parties having so enjoyed them for many years as may be seen by Column 9.-

2. As regards the 3d case in the Report I have the honor to explain that the 1-7 Cawny as. Poonjah land came into possession of Subadar Syed Peer by purchase from the son of Subadar Surwur Khan; that the date of the sale was 14th February 1840 and the purchase Money 1,500 Rupees including the Puttah land; that there is a deed conveying the land to Syed Peer signed by the son of Surwur Khan who got the land in question (of 1-7c 1a) by inheritence from his father who purchased it in two lots on the 8th December 1820 and 25th October 1822 respectively, of Munsoor Ram Lala; and that the reason why no mention of the Circumstance was made in the Tabular Report of 14th October 1850 is that Syed Peer's claim for registry was not brought forward until after that report was framed.-

3. As regards the last lapse noticed I have been under the

necessity of applying for further information and must therefore wait till my next return, in which I beg leave to state it shall be duly included.-

Sir.

Adverting to the Boards Proceedings of the 16th December last and the Minutes of Consultation by which they were accompanied, I have the honor to offer the following explanations regarding the old arrears of Sewoy Jummah outstanding in this Collectorate.-

2. It is proper to premise that all the old Arrears which stood under this head in the Accounts of the District from Fusly 1213 to 1230 were written off under the Sanction of Government dated the 19th July 1831.- In the correspondence which passed on that occasion, the Collector informed the Board that the entries under this head in the Demand, Collection and Balance Statements, shewed the sums actually realized whether on account of the current or preceding Fuslies and not the gross demands. This practice apparently had its origin in the temporary and uncertain nature of this description of Revenue and was followed.-

Reporting further on the outstanding Balances falling under the head of Sevoy Jumma.-

Sir.

Adverting to the Board's Proceedings of the 16th December last and the Minutes of Consultation by which they were accompanied, I have the honor to offer the following explanation regarding the old arrears of Sevoy Jummah outstanding in this Collectorate.-

2. It is proper to premise that all the old Arrears which stood under this head in the Accounts of the District from fusly 1213 to 1230 were written off under the Sanction of Government dated the 19th July 1831.- In the correspondence which passed on that occasion, the Collector informed the Board that the entries under this head in the Demand, Collection and Balance Statement, shewed the sums actually realized whether on account of the current or preceding fusslies and not the gross demand.- This practice apparently had its origin in the temporary and uncertain nature of this description of Revenue and was followed.-

followed until fusly 1258. It was then discontinued under the instructions of the Board and in fusly 1259 the gross demand was duly brought into the Accounts.

3. In illustration of this point I beg to submit a Statement exhibiting the sums actually realized in each year from fusly 1231 to 1258 and distinguishing the items belonging to Sewoy Summa proper from others which were included under the same head. The Collections during these years added to the balance now outstanding form the gross demand for the Period, Viz.t Rupees 26,6208-4 of which no less a sum than Rupees 24,29,65-1-11 has been realized and carried to the public Account.

From fusly 1231 to 49	12,031-5-11	
Do 1250 to 58	11,206-9-6	
	23,237-15-5	

The present total outstanding balance does not therefore exceed 8 3/4 per Cent of the gross demand and as this head of Revenue is always difficult of realization from its comprising many disputed items, which are seldom brought forward before the expiration of the year when the cultivation took place I trust that this explanation will be satisfactory to the Board and Government by shewing so that the District authorities have not neglected this branch of their duty.

5. Having offered this explanation it only remains for me to observe that the unfavorable remarks passed by

Government

Encl.e No.1 in letter 7th Oct.r 1850.

Government appear to have arisen from the Statement which accompanied the Acting Collector's Mr Bird's Report having been understood to exhibit the Collections of a series of years, whereas it comprised the demand Collection and balance of three single fusly 1259. For example the sum of Rupees 3888-14-11 which the Government suppose to form the aggregate collection of 29 years on account of Sewoy Jumma of arrears was collected in that one fusly on account while a further sum of Rupees 6,021-7-2, was realized on account of the gross demand of the year amounting to Rupees 7,766-5-10.

6. In accordance with the orders contained in Para 7 of the Extract from Minutes of Consultation I now submit a Statement shewing the items which compose the arrear of Rupees 12,031-5-11 due up to fusly 1249, and as its recovery appears hopeless, I beg to repeat the application which has been made for sanction to write it off the accounts. The Government has already remarked on the apparent impossibility of realizing this balance, and as it is due for years long past, I trust that the sanction solicited will be granted under the present explanation which shows that the arrear forms an inconsiderable per Centage on a large amount of revenue which has been collected and brought to the public account.

3. In illustration of this point I beg to submit a Statement exhibiting the sums actually realized in each year from fusly 1231 to 1258 and distinguishing the items belonging to Sewoy Summa proper from others which were included under the same head. The Collections during these years added to the balance now outstanding form the gross demand for the period, Viz.

Rupees 2,66,203 — 4 of which no less a sum than Rupees 2,42,965 — 1 — 11 has been realized and carried to the public Account.

The present total outstanding balance does not therefore exceed 8¾ per Cent of the gross demand and as this head of Revenue is always difficult of realization from its comprising many disputed items, which are seldom brought forward before the expiration of the year when the cultivation took place I trust that this explanation will be satisfactory to the Board and Government by shewing so that the District authorities have not neglected this branch of their duty.

Government appear to have arisen from the Statement which accompanied the Acting Collector Mr. Bird's Report having been understood to exhibit the Collections of a series of years, whereas it comprised the demand Collection and balance of three single fusly 1259. For example the sum of Rupees 3888 — 14 — 4 which the Government suppose to form the aggregate collection of 29 years on account of Sivoy Jummah was collected in that one fusly on account of arrears while a further sum of Rupees 6,021 — 7 — 2, was realized on account of the gross demand of the year amounting to Rupees 7766 — 5 — 10 —

thereon. The Collector is requested to state whether it is from specific accounts or whether it is an Estimate merely, that the Demand of Sevvy Summa from Fusly 1231 to 1258 had been entered at Rupees 2,66,203 " 4 " exactly equivalent to the amount of Collections and Balance together for the same period, and what difficulty there is in ascertaining the accurate Demand of each year, when in the Sevvy Summa Statements accompanying the Settlement reports from Fusly 1241 to 1257 the collections have been enumerated, under their various denominations, while the balances have in like manner been particularized in Statement F. accompanying the Settlement Report for Fusly 1258.

2. If the Talook Accounts referred to by the Collector contain the details of Demand Collection and Balance of each year, the Collector is requested to submit a Statement of the same prepared from them.

From South Arcot 7th inst. 31st Oct. 1856 para 3.

3. On comparing Statement No. 1 enclosure to Collector's letter with Statement F. of his Settlement reports the variations noted in the margin occur and it is seen that Fluctuation in Nunjah Cultivation in Poonjah included in Sevvy Summah until Fusly 1237, is not entered in Statement No. 2 or if it is, it does not appear under what it is included. Again the sum of the balances of the two items in the Marginal comparative abstract "Cultivation after the Summabundy" and "concealed cultivation" is considerably in excess of the demand Rupees 589-10-11 which has been entered under one head although it is apparently intended for both. It is not however certain whether these two heads are one and the

the same or why they do not appear in the Statements, enclosures to Summahundy reports for Fusly 1237 and 1238.

4- From para 5 of Mr. Maltby's letter it is observed that Mr. Bird's report and enclosures instead of exhibiting, as is apparent therefrom, the Collection of a series of years merely intended to shew the Demand Collection and Balance of the single Fusly 1259- In that para it is stated that the current gross demands for Fusly 1259 was Rupees 7,764-5-10 the Collections Rupees 6021-7-2 leaving a balance of Rupees 1,742-14-8, but it is remarked from Statement F. accompanying the Settlement Report for that Fusly that the Berij has been detailed under its different items among which is that of Rupees 1097-13-7 under "Fines and forfeitures in revenue matters" that no such item appear in Statement No 2 Enclosure to Mr. Maltby's letter.

5- The Demand Collection and Balance Statements ending 11th July 1850 or Fusly 1257 moreover exhibit the Demand under the head of Sewoy Summa Current and Arrears at Rupees 4,3010-9-6 which differs considerably from the entry in Statement F. and explanation on this point is therefore requested-

Sir

B. of R. 7744

From the Collector of Tanjore - Furnishing information required by Circular of 9th June.

I have the honor to acknowledge the receipt of the Board's Circular dated 9th June 1837 and to state that the only practice here at all similar to that of the "Gypbut Chest" are as follows- The Taluk Servants pay from July to February, and for April and May are entered as paid in the Treasury book in the Month succeeding that for which they are due, and are immediately remitted to the Taluks- But as some of the June pay could not possibly be transmitted to the Taluks within the 11th of July, the end of the Fusly year within which it should be written off the accounts, it is entered in the Ayan Accounts as paid, but is kept in deposit and actually paid in the succeeding Fusly.

2. The same practice for the same reason prevails with such items of Sanctioned Extra Charges, such as for making

new salt Mercals, furniture &c., as are not fully paid- In like manner the March pay is entered in April as if actually paid, but is really kept in deposit; this is done in order to check the accounts of the Official year ending 30th April. The sums thus written off the Ayan Accounts and held in deposit form a part of the total balance of the Treasury and do not remain separate. Great confusion in the accounts and inconvenience would, I think, arise from any alteration in the above practices.-

3 Under instructions from the Accountant General 1st July 1044, the Company. Civil and Sub. Courts deposits are not included with the gross balance of the Treasury, but appear under a separate head in the reports which are submitted to the Accountant General once in 10 days- This deposit is kept in a separate chest.-

4. The surplus of Maramut advances returned from the Taluks to the Huzzoor Treasury, and which, as per letter from the Accountant General dated 13th November 1040 No. 638, are to be refunded in the accounts when the actual Charges of Maramut are

Para 5 and Paper of Instructions Para 4.

sanctioned

sanctioned by Government, the pay of absent Ds servants which is returned from Talooks; and the Devastanum Ayacut Maniums funds &c necessarily required to be put in deposit. None of the above deposit items are kept separately, nor could they, I think, be abolished. There is no money in the Treasury exempted from examination.—

5. No money is disbursed for any public works without having passed thro' the Huzzoor Treasury, and the only sums remaining in deposit in the Talook Treasuries after the Monthly remittances are Huzzoor advances for Marramut &c the salaries of servants and Dvastanum fund payments. The great bulk of these are paid away immediately upon their receipt, but the nature of Marramut works absolutely require certain sums to be kept ready to meet the current expenses.—

6 There are two separate chests in the Talook Treasuries, one for the Cash collected in the Talooks and the other the deposit chest for the sums above alluded to, which are received from the Huzzoor Treasury. Both these are examined by the

the Tahsildar and Moozoomdar every Month, and occasionally, tho' rarely, by the European Officers.—

7. The days sight of an Accountant Genl's bill commences from the date of presentation at the Huzzoor Treasury, where the cash keeper attaches the date and transmits it for the Collector's acceptance.—

8. At each Monthly Examination of the Treasury, such an amount is entrusted to the sole charge of the Cash keeper as is deemed sufficient for the expences of the Month. The amount averages about two and half Lacks of Rupees.—

I have to advert to my letter of the 26th Ultimo No. 46, reporting the result of the sales for the Abkarry Farms of the District for Fusly 1261/1851-52 I regret to have to report that the individual whose bid for the Saulgoody Taloob was accepted, amounting to Rupees 5,750, has failed to make good the first Instalment and to tender the required security.

It has become necessary to invite other offers, and the result has been a reduced tender amounting to Rupees 5,260, which sum is Rupees 490 below

below that offered by this Lutchmana Pillay.

3. I am induced to accept this offer as being a fair rent and equivalent to that obtained in Fusly 1259, when the same person who now offers, was the successful bidder. The sum is likewise much in advance of the average of the past five years namely Rupees 4,997-

* Coomara Pillay

4 Coomara Pillay has deposited the usual fees of 6 per cent Rupees 52-8, and engages to make good the instalments without loss of time. I have taken upon myself to place him in possession of the Farm in anticipation of your Board's orders feeling sure of their approval.

5. Lutchmana Pillay who was the successful competition at the sale on the 26th Ultimo is said to be much embarrassed by his late rent for Fusly 1269. I would therefore solicit forbearance towards him and he be not required to make good the deficit now accruing by the present lower rent.

Bd No. 1662.

From the Collector of Malabar.

Sir,

By the orders of the Board dated 8th October 1846, I was informed that the Civil Auditor has been instructed to admit the "charge on account of Salt Roofrooms entered in "the statement referred to, in the same manner "as other allowances granted in lieu of resumed "lands and privileges" and at the same time desired "to exclude this item in future from "the statements of charges submitted for sanction "thro' the Board."

x Sicca 125 4-

2. The Civil Auditor however has retrenched these Items from my accounts since Fusly 1254 A.D. 1844/45 and states that he is unable to admit this allowance under the orders of the Board of Revenue dated 8th February 1819 which was quoted in support of the disbursement, in consequence of no other authority besides the sanction of Government on my annual charges being forthcoming on my records.—

3. Under these circumstances I have the honor to request you will be good enough to obtain the special sanction of Government for the sum under retrenchment amounting as per accompanying Account Particular to Rupees 237 - 6- as well as for the continuance of the same allowances in the names of the Incumbents therein named.—

Sir,

With reference to an Extract from the Minutes of Consultation of Government dated 28th ultimo and received with an Extract from the Board's Proceedings of the 7th Instant requiring me to "state whether cloth has hitherto been furnished at the "public expense to the Bungalow Peons "of the Malabar District on the "Neilgherry Hill. if not, what is the "necessity for incurring a new charge on

No. 264.—

Extract from the Minutes of Consultation, dated 8th July, 1851.—

Read the following letter from the Resident of Travancore & Cochin.—

Extract from a Letter from the Resident of Travancore and Cochin dated 28th May 1851. No. 9.—

Para 5. I beg again to advert to the extensive smuggling already reported in my letter on Travancore No. 15 of

of the 29th June 1850. Paras 10-11-12, and still carried on through the Company's town and port of Cochin to the great detriment of the Revenue of both these Sirkars. Travancore suffers in two ways by the smuggling of Jaffna Tobacco into the Sirkar territories, and by the smuggling of Pepper and other produce from the Sirkar territory.— The Cochin Sirkar only suffers from the smuggling of Tobacco, they have no Pepper.

In Travancore with it's immense line of 150 Miles of Sea Coast compared with it's Area, and 100 Miles of land frontier, and a broad Back-water Navigation, communicating with innumerable in-land rivers, it is impossible to suppress the smuggling if temptations are held out, and Monopoly produce openly permitted to be purchased by the Native Merchants of Cochin. The smugglers pass along the Backwater at night in boats well manned and armed. A party were recently pursued under the orders of the Dewan of Cochin in the night, but they landed on

on a small Islet called candle Island — attached to the Town of Cochin, and made off leaving their Boat with 55 Bags or 6 Candies of Pepper.—

The Cochin party were not strong enough to capture the smugglers and in the meantime another boat arrived from the Town of Cochin and carried them off. The whole circumstances were reported to the Collector, but the Fiscal made out a plausible story of want of Proof &c. and no satisfactory result therefore was obtained.—

17. In regard to Boundary disputes, I am happy to observe by a Minutes of Consultation No. 862 of 11th September 1850 transmitted through the Board of Revenue to the Collector of Malabar, that a long pending claim of the Cochin Sirkar to certain Forest lands at the S.E. corner of the Nemary District has been acknowledged.—

18. There is still another dispute as to the Cochin line of Boundary on the W. of Wurrakancherry. The Collector claims the Boundary as shewn by the Blue and red line from a little E. of the Shorayaar to a place to the S. called

Fort St. George 31st July 1851.—

called Coomtode at the base of the great Mountains, but this line is exceedingly ill defined and has never been acknowledged, and on the contrary has always been occupied by the Cochin Sirkar; The line claimed by the Cochin Sirkar is a range of Hills called Paniparakhtund which quits the high road a little E. of the Thorayaar, and runs right up to the great Mountains passing a little to the E. of a place called Patrikal tode; this line is a very remarkable and well defined one, and will I hope be agreed to.—

19. On the side of Coimbatore there are two very trifling ones, one at the S.E. angle of the Chittoor District of about a Cawnie or two of land, and another still more trifling one at Valum Tavalum, at the N.E. angle of the same District.—

20. There is a claim however of more importance that has only recently been advanced by the Collector of Combatore, to certain Forest tracts on the top of the Anamalli Hills: The boundary

Forwarding for report Copy of a letter from Mr. J. H. Goldsbell respecting certain lands taken from him in the vicinity of Brunton's House.

No. 725.

Extract from the Minutes of Consultation
Under date the 21st July 1851.

Read the following letter.

Madras 8th July 1851.

To,
The Chief Secretary
to Government
Fort St. George.

Sir,

Having had much land taken from me, in the immediate vicinity of Brunton's House, on the South side of the Adyar, thro' the late Collector of Chingleput and others, I request you will do me the honor to submit the accompanying correspondence marked A, to the Right Honorable the Governor in Council, altho' I feel incompetent to explain clearly, what would be necessary to enable his Honor to comprehend the injury and loss I have sustained.— I regret to say I have no plan of the grounds, but hope it will not appear presumptuous on my part to suggest, as there are so many antagonistic interests to be considered, owing to the many

changes

changes of Proprietors of the lands in the part of late years, and perhaps it would place the present Collector of Chingleput in a most invidious position were he called on to decide, that two Gentlemen be appointed to visit the grounds, and have those restored which have been taken from me for years past, for no other reason that I can see than to serve Major Clerk and to injure me.-

The first letter in the correspondence is from Major Clerk, and dated 15th. June 1839, desiring to exchange some ground with me, and for me to waive my right to land in front of a spot on which he had fixed for building a Bungalow. The second letter is from the Collector, Mr. Frere, dated 27th. July 1839, stating that I was "enclosing certain public lands on the Sea Shore" "On the grounds of having purchased those "lands from the Merasidars"- He was aware of this purchase, and having paid for it, it could not be expected I would resign my right to it- but he, in his Capacity of Collector, as before said, seemed determined to oblige

oblige his friend Major Clerk, and deprived me of the lands, tho' he had granted me Puttahs for them for Fuslies 1251 & 1252, as will be seen by his letter dated 23d. April 1844- It may not be out of place to state here, that Major Clerk also purchased land in the same line with mine, and likely a Yearly Puttah has been granted for the same ever since- and on leaving India, I suppose he sold the said land to Mr. Walter- I may here mention that I am assured that Mr. Burgass was very lately allowed to purchase ground, a portion of which, if not the whole, is precisely in the same line with Major Clerk's and my own- so the hardship of the treatment I have suffered and am suffering as I am still deprived of my right to the lands, is very apparent- South of Mr. Burgass' purchase, Mr. Elliot until lately, was owner of a large tract of land, which I was informed he purchased from the Merasedars of Wooroor and Teroovameewoor, and I believe the boundary thereof

thereof on the Eastside, extends to the Sea.

The 3d. letter is from myself to Major Clerke dated 5th. August 1839, in which I complain that his people had prevented my Gardener from running a small ridge of sand round the lands I had purchased, to which, on the 7th. idem, he replied stating that, if I persisted in making the ridge of sand, that he would prevent my doing so. In this letter he mentions that the Title Deeds of his Gardens are very old and that the "Sea Bank" is stated to be the boundary on the Eastside, yet notwithstanding these Deeds he purchased from the Merasdars, land immediately in front thereof, and between the said Gardens and the Sea, a fact that would go to show that he was satisfied the Merasdars had legal right to sell these lands. However, it turned out that he had and exercised sufficient influence with Mr. Freese to get him to deprive me of lands I had purchased from the same

parties,

parties, and in the same line. My letter to Major Clerke of 7th. August in reply to the foregoing shows that I purchased the lands in question prior to the date on which he made his purchase.

The next letter is from Mr. Cotton dated 17th. August 1839 regarding a purchase I made of nearly 3 Cawnies, and states that I was "enclosing a Tank "which has always been open to the public & "Stopping a public road" I would beg to refer to my reply to this letter, bearing the same date, as it contains the real facts of the Case, Viz. that there never was a public road South of Brunton House to the Beach in the place he states.

The next letter is from Mr. Freese, dated 25th. August 1839, appointing a meeting on the ground, which took place, but nothing more than good Morning passed between Mr. Freese and myself, as he and Mr. Clerke rode off thro' loose sand, and as I had no saddle horse, I put myself in my conveyance and came home.

I

Fort St. George 31st. July 1851

I next wrote to Mr. Freese on the 19th. October 1839, to know if the complaints that were made against me had been withdrawn, and his reply of the 21st. of the same Month informs me that the enclosures I made, a narrow ridge of sand interfered with the path to the Sea side, and passage to the Tank, from which Vessels often send for water, were closed up. Now I have fully 30 Years knowledge of this Tank, and never once saw or heard of any Vessel having taken water from it, and very much doubt if there be any reality in the Statement. I trust the Honorable Mr. Thomas will excuse me for mentioning his name, but he resided many Months in Brunton House, and I think if such a thing had occurred during his occupancy he would have seen a Vessel at Anchor in front of his House and Boats going to and fro, but as the Tank is in the District of Chingleput, Mr. Freese will be able to give the names of the Vessels and the dates on which they took water from the Tank, during the time he was Collector. with regard to what is stated of depriving the Fishermen of the ground, I beg to mention that

Fort St. George 31st. July 1851.

that the boundary of my ground is in a straight line with the East Wall of Brunton Garden, and extends 1440 feet South, and in front of this purchase, I believe there is a clear space of about 70 Yards between it and the Sea, and how it can interfere with Fishermen's rights is wholly beyond my comprehension. The concluding letter in the correspondence is from Mr. Freese, and has already been referred to. In it he informs me the Curnum of Woodoor Coopum surreptitiously obtained a Puttah for the land in my name, a Statement that Mr. Freese alone can explain, at least I know nothing of it. On some of the lands that have been taken from me, Mr. Hooper caused his servants to Cut down 14 Palmyra Trees, as I have been informed solely to afford him a Sea view from his house to the East.

Herewith I beg to send three letters from the late Mr. Dent, and would especially call attention to the one dated 22nd. April 1844 where it says "the difficulty of approach and "getting any conveyance to the Coachhouse is

Fort St. George 31st July 1851-

"is such an obstacle" yea - I humbly beg to state that Major Clerks and his man of Tumbapah, did contrive to get a Bill of Sale, as I understand, from the Headmen of the Village of St. Thome for land which belonged to me, and had been in possession of Colonel Brunton and myself for a period of about 40 years, and thro' which was the road leading to the out offices of Brunton House - this land originally belonged to the Coroon District, and not to St. Thome, but such was sufficient for the Collector to confirm Major Clerks title to it, and thereby deprive me of all access to the outhouses - For a more full explanation of the treatment I have been subjected to and the efforts I made to have my property and rights restored, I beg leave to request you will also submit the accompanying correspondence marked B, which refers more particularly to the land Major Clerks obtained a Grant for, from the Headmen of the Village of St. Thome and the Boundaries of Brunton House Property, which latter tho' I have made many efforts to get the correct

Boundaries

Fort St. George 31st July 1851-

Boundaries pointed out to me, I have never been able to effect -

For some time past, there has been no road to Brunton House, and several years ago, under the assurance of Mr. Elliot, I was led to expect that one was to be carried to the Door, and at his solicitation, subscribed and paid to Mr. A. Maclean, with whom was the subscription Book Rupees 100, but to this hour not a Bandy load of materials has been provided for the Road - Under this assurance, and other causes, I delayed applying to have my rights restored, but on having no longer any hope that the Road is to be completed, the stopping of which has resulted in a loss to me of many thousands of Rupees, I beg the Right Honorable the Governor in Council will be pleased to cause enquiry to be made, and that I be fully indemnified for the loss that has been brought upon me by the Party or Parties stopping the Road for his or their advantage - I despaired, before commencing to be able to explain my complaints & losses, so as to render them intelligible, nor

can this be done satisfactorily I c
conceive, unless by inspecting the
lands and roads in question, and
earnestly beg this may be arranged
as early as may be convenient, as
I understand Mr. Freese is now
here, and also that the road to Brunton
House may be restored so as no fur-

that such consideration be allowed
to me as may seem right for the
great loss I have sustained for so
many years, and on the lands be-

be exempt from all Government
taxes - In conclusion I may men-

from me, was old cultivated land. -

My Dear Sir,

As I am anxious to com-
-mence building my Bangalow, and its posi-
-tion will in some measure depend on your
decision regarding the land, I shall feel
obliged by an early reply to the propositions
which I made to you some few days since.
The bearer of this note is the person who
made the purchase of the Gardens for me,
and can explain to you their limit &c.
and is authorized to make any exchange
with the slip of ground that divides your
property and was purchased by Mr. Cotton.
Of course I shall gladly pay any difference
in the price as also for the frontage if you
will kindly waive your claim to it. Believe
me. -

Sir, A Complaint having been for-

that you were enclosing certain public lands

on the Sea shore adjoining your Property on the Banks of the Adyar River, and intervening between his property and the Sea, and cutting off public approach to the Beach, on the grounds of having purchased those lands from the Merasdars, I have the honor to inform you that I do not consider the Merasdars authorized to sell those lands to you, and request therefore you will put a stop to the enclosing the same pending a reference to the Board of Revenue.

Captain F. Clerk Esqre
My Dear Sir,

I have just had a visit from Brunton House's Gardener complaining that your people have prevented him from proceeding with a small ridge of sand he was running round the ground I lately purchased there, and that they have been filling up the inequalities of your ground with materials taken from mine. These statements I mention but under the conviction that

that they have their origin in some mistake. However, as I believe you are daily on the ground, perhaps you will have the goodness to see that nothing of the kind be persisted in.

W. Waddell Esqre
My Dear Sir,

Some time since I requested you to wave your claim to the frontage in my favor, intending in that event to continue it as waste and thereby prevent all discussion relative to the right of any person or persons to dispose of it. Your having declined to comply with my request, I was under the necessity of addressing the Collector of Chingleput protesting against the enclosure of immemorial waste, and the obstruction of thoroughfare to my prejudice and that of the public, pending the result of this reference I must object to the enclosure, which you propose to make, and, if necessary, shall prevent its proceeding. As the Title Deeds of my Gardens (which are very old) state them to be bounded on the East by the "Sea Bank" which is, and always must be, open to the public.

The

Fort St. George 31st July 1839.

The hedge, and bank on which it stands, now under removal by me, is my own property.-

Under this explanation I feel sure there will be no difference of opinion respecting our private rights or those of the public, which can be most satisfactorily removed by our meeting on the spot, when any arrangements that may appear mutually advantageous to us, and convenient to the public, may be amicably determined.-

August 7th, 1839. /Signed/ F. Clerk

Captain F. Clerk.

My Dear Sir,

So far as my knowledge goes I dissent in toto from the charge you have brought against me of — enclosing other than my own property and your having preferred a complaint against me to the Collector of Chingleput, without giving me previous intimation of your intention to do so, is what I would not have done to you - but this is of no consequence, and I think your threat to prevent my proceeding with the enclosure /if enclosure it can be called/ without the aid of legal

authority

Fort St. George 31st July 1839.

authority, is making more of the matter than necessity seems to require - Previous to the receipt of your letter I had made arrangements for being on the ground early tomorrow morning, - and in the meantime it seems to me that you had better not interfere with my operations, which I believe certain documents in my possession will bear me out in prosecuting.

It further occurs to me from my locality, that I ought to have been the last of all the Proprietors in that quarter to be charged with trespassing on the rights of the Public, especially by you, as you bought the whole of your land under the impression, or rather the certainty, that that I had previously purchased, was not public property, from which circumstance I look upon — your disappointment as more ideal than real.-

Madras, 7th August, 1839. /Signed/ W. Waddell.

W. Waddell Esqre

My Dear Sir,

I think you will be obliged to me for letting you know that persons said to be in your employ have put a fence

up

up between the ground of the ruined Choultry and the corner of the Wall of Brunton's compound thereby enclosing a Tank which has always been open to the public, and stopping a public road.

The latter is most important as when the river is full there is no way between it and your property on the Northern side, to the sea, and as it has always been a public thoroughfare I have no doubt you will give immediate orders for the removal of the fence if as it has been stated to me, it has been put up by your servants.—

Adyar, 17th August, 1839. } I Signed I C. R. Cotton.

C. R. Cotton Esqre

My Dear Sir,

Having dispatched my letters for the H. Wilson, I hasten to reply to yours of this date.

I have directed fence to be put round all the ground I lately purchased adjoining Bruntons, including what is called the Choultry Property, which contains the Tank you allude to. I can speak, of my own knowledge for a very long time past, and I dare say

say I am correct when I aver that there never was a public road to the Beach South of Brunton's. Indeed my only reason for purchasing the choultry property, especially at the extravagant rate I did, was to prevent any building or thoroughfare near Brunton's and I am not very sure that I did not pay for ground that actually belonged to myself, such was my anxiety to secure my object.— When the Bar is open there is always sufficient space between the river and Brunton's for a thoroughfare, and from the changes that have lately taken place there, I think few persons in future will proceed to St Thomé by that way. If it will be any convenience to you, I will readily allow 40 feet for a road on the South side of my ground in front of Captain Clerk's provided he agrees to allow a similar privilege through his Compound, and I believe this will almost be in a direct line with the road from the Mount.—

Sir,

I attended at Brunton House this morning, but I need not tell you that I found no

no Tahsildar there. The encroachments appear very evident, but I refrain from speaking positively, and merely request you to have the goodness to appoint a day, and give me notice of it, and I will again attend with the Grant, and I trust I will not experience a second disappointment.-

Sir,

In reply to your communication of the 9th. instant, I have the honor to inform you that an order was despatched to the Sydapet Tahsildar, as soon as your letter of the 5th. instant, was received, but that only having been on Tuesday, it is most probable the Tahkeed had not reached the Tahsildar in time. If you would send to the Tahsildar, as before suggested naming the time and date on which you wished him to meet you, he would doubtless do so according to the instructions he has received.-

To

The Collector of Chingleput.—

Sir,

I beg to draw your attention to my letter to your address of the 4th March last, which yet remains unanswered, and much regret to say my annoyances, instead of then terminating, have been increased by my neighbour, Captain Clerk, as I am informed, having most unwarrantably cut a Trench in the road, outside of my Garden, thereby shutting out all communication with the outhouses.—

In consequence of this encroachment a Family who on Saturday last, went to reside at Brunton House, could not get their carriage into the Compound, without sending it considerably round. I therefore beg your immediate attention to have this road reopened, and, further, if it rest with you, that I be not subjected to similar unworthy annoyance.

Sir,

I have to acknowledge the receipt of your letter of the 28th instant, in which you incorrectly state that your letter of the 4th March remained still unanswered. I find, on reference to my records that your letter of the 4th March was

was answered in the following day; and your letter of the 9th of the same Month on the 10th and I also received an Official Report from the Tahsildar of Sydapet, stating that he had waited upon you at Brunton's House on the 16th of that month, and pointed out to you that the land claimed by you was not included in your Grant. The disputed ground was purchased by Captain Clerk, and if you have any claim to it I can only refer you to the Civil Court.—

To

The Collector of Chingleput.

Sir,

I have the honor to acknowledge the receipt of your letter of the 30th Ultimo, and to say that, so far as to direct the Tahsildar to attend and point out the ground at Brunton House, you had replied to mine of the 4th and 9th March last, as he did attend, and apparently, so far as I could judge of an unknown language by his actions and seeming interest took much trouble in making enquiries of several persons connected with the ground, but I did not think he appeared satisfied with the

the result, in which opinion I was confirmed by his having some days afterwards, expressed a wish to a confidential writer of mine to see the Grant again, which I sent to him at Saydapet, but as to this minute I have not heard from him, nor have the boundaries of the ground been pointed out to me, which was what I meant when I said that mine of the 11th of March last, "remains yet unanswered". The French I now complain of is entirely a different subject, and dug in a road that is, beyond all power of dispute, my property, which can be, and probably has been, fully explained to you by the Tahsildar, as it was distinctly and minutely pointed out to him when I attended at Brunton House with the title Deeds of the Property.

I therefore, request your immediate interference in this letter, so as to prevent a repetition of the annoyance with which I have lately been visited, and to remove the inconvenience the Family now occupying Brunton House, are subjected to. I may further mention, in regard to the ground claimed by Captain Clerk that it is embraced by my boundaries, for the Grant of my property states that it is bounded on the West

West by the Watercourse and a road, and the road here meant leads to Teroovamewoor but notwithstanding of this definition Captain Clerk wishes to possess himself of Ground between my House and the said road leading to Teroovamewoor.-

Sir,

I have the honor of informing you that being at this moment a loser of 6 Rupees 175. per mensem by the cause that deprives me of the use of my road close to Brunton House, as more particularly explained in my letters to your address of the 28th November and 3d December last, no doubt much increases my regret at not having received an answer to the latter of these communications. However I trust it is one of these cases that only require to be fairly represented to Government to ensure immediate indemnification for the loss I have already sustained or may yet sustain, and in the meantime, beg the honor of an answer to my letter of the 3d December last, and especially above alluded to.-

pointed out, so as to enable me to determine, beyond all doubt, whether the road close to it, and of which I am at present deprived the use, as formerly stated by me, and the loss I am subjected to in consequence, is mine or not.—

Perhaps it may not be out of place for me to state, that the Road in question was always considered and used by Colonel Brunton, the former Proprietor of my Property, as belonging thereto, and by myself—also up to the moment the use of it was taken from me by the trench that has been dug in it.—

May I therefore request your earliest attention to this matter, so as I may have my boundaries defined; and access to my out houses, which, at present, I have not; as this would be much more agreeable to me, than to have recourse to the Civil Courts, altho' at the same time I thank you for your suggestion—I may further add that when I attend at Brunton's House with the Grant, the Sahsildar had then no doubt that the Road in question belongs to me, which induces me

me to think that you are perhaps mis-
taking one Road for another, and
should this be the case, I have no doubt

exhibit the matter in its true position.-

Bd. No. 1500.
From the Collector of Ganjam Reporting on

Sir,

I have the honor to submit the
following

Fort St. George 24th July 1857.

On Weights and Measures.-

following observations in reply to your Circular of the 24th of March upon the subject of weights and Measures.

2. In regard to the first point on which information is desired, I beg to state, that the standards sent to this Office with reference to the Circular of the 2d May 1842 have never been put in requisition.-

3. In regard to the second point.- No means have been adopted to introduce the standards generally. The present irregularities of Weights and Measures cannot be said to be free from inconvenience as affecting the transactions of merchants and dealers and affording facility to petty dealers to defraud their customers; but I cannot undertake to say that there is a disposition to adopt a uniform scale. On the contrary- I am afraid that the inclinations of the persons who might be influential towards the introduction of a system of regularity are in favor of the present irregular system as it affords more ample scope for trickery and cheating.-

4. In regard to the course of proceeding to be adapted with a view to the general introduction of a better system, I

Fort St. George 31st July 1857.

beg to state my opinion that the object will perhaps be best achieved thro' the medium of the Commissariat Department, If it were to be established as a rule, and the rule should be intended to all departments that Weights and Measures were to be recognized but the standards sellers would in the course of time find it convenient to submit to them and the measure would doubtless be greatly facilated by the sale at cheap prices of standard sets of Weights and Measures.-

5. If it should be thought proper to endeavour to overcome the universally prevalent dislike to innovation by the compulsory introduction of uniformity, I would recommend as regards the District of Ganjam the adoption of the standard measure (received with reference to the Board's Circular of 20th October 1846) of the third capacity and its aliquot parts, as approximating to the measure most generally in use, the Toom. None of the measures now in use would answer the purpose for their shape is so various as to render the attainment of uniformity of capacity quite out of the question. They are all much broader at the base than at the mouth bulging out in

in the middle every irregularly and some of them are
proved on the inside, so that no two measures even
in the same bazar are of the same capacity- This
being the case it becomes practically impossible for
the Magistrate to inflict punishment for the use
of fraudulent Weights and Measures, and in this
view there would be no hardship in insisting on
the adoption of a uniform standard- Indeed
there can be no doubt that the hardship consists
in the absence of uniformity by the facility
given to sellers to defraud-

6- The measure then might I think
be introduced by obliging all persons at Cuttack
towns to sell according to the standard which
might be fixed, subject to the penalty annexed
to the use of false Weights and Measures for
using any but the standards; at all events it
might be insisted upon that the measures
which are nominally of the same capacity
should be uniform in shape, so that their
correctness might be tested and the shape of
course should be cylindrical-

7- It is not improbable that a

determined demonstration on the part of
Government to carry out their views would be pro-
ductive of acquiescence and the benefit would
ere long, it is to be hoped, make the measure
really acceptable-

8- The details given in the accom-
panying Statement prepared according to the
form which accompanied your letter were carefully
ascertained by myself as far as the not very
accurate scales which alone I had to make use of
admitted, and in order to shew how far the
admeasurements may be depended upon, I endea-
voured to ascertain the weight of water contained
in the standard mercal above alluded to, and
according to my scales, it is 283 Tolas-

From Mr. Norman Morison, Abkarry Renter, North Arcot.-

Requesting under the circumstances stated that he may be authorized to attach the property of two Sub renters of the Abkarry Farm of the Talook of Pahmoor in the District of Nellore.-

To,

W. H. Bayley Esqre.
Secretary to the Board of Revenue.

Sir,

Madras 8th. Augt. 1847.

I beg leave to state that when I contracted the Abkarry Farm in North Arcot the Pahmoor Talook belonged to this Collectorate, and agreeably to my Cowle, I sub rented that Talook for 1259 Fusly. On the termination of that Fusly the Talook, was transferred to the Nellore Zillah. But as two under-Renters, were in arrears of payment to the amount of Rupees 286-7-- and resided in the said Talook, I applied to the Collector of North Arcot to assist me in recovering the said amount through Collector of Nellore which application was accordingly referred to the latter. Subsequently applications were made to the Collector of Nellore to assist me in attaching the property of the defaulting renters agreeably to Section XX of Regulation XXVIII of 1802. to which the Collector endorsed, that the defaulters should

should be sued in a Civil Court. I beg to submit that such a proceeding will involve me in unnecessary delay and expense, to remedy which the XXVIII Regulation of 1802 was expressly made and provided.

In the preamble to the said Regulation it is said, that "It being necessary to the punctual collection "of the public Revenue that land holders and farmers "of land should have the means of compelling "payment from defaulters without being obliged to "have recourse to the Courts of Judicature and "incurring the expense and delay necessarily "attending a law process, for the recovery of arrears "of rents or revenue &c. the Governor in Council "has for that purpose passed the following rules."

Such being the object of the provisions made for the collection of rents, I beg to observe, that it would be entailing upon me a peculiar hardship to have recourse to a Civil process, I beg therefore you will be pleased to submit my case to the Board and to obtain their order to the Collector of Nellore to assist me in attaching the property of defaulters agreeably to the Regulation referred to.

Bd. No. 1676.

From the Coll. of Salem ... ...

Soliciting for reasons stated, authority for the suspension of Soondralinga Moodelly Tahsildar of Talook Nament, for a period of six months.

No. 97.

To, W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George,

Sir,

Adverting to the disapprobation expressed of late by the Board of Revenue in the Department of Public Works regarding the delays and other objectionable characteristics of the Maramut Department of the Salem District I have the honor to state that I deem it incumbent on me to solicit authority for the suspension from Office for a period of six months, of Soondralinga Moodelly, Tahsildar of Talook Nament.

2. In almost all the Talooks, I have had extreme difficulty in bringing the Tahsildars to understand that to expedite the progress and completion of the public works within their respective limits, is one of the duties to which their particular attention should be directed

Times

Fines have been imposed, stringent orders issued, and all those measures resorted to, which are legitimately available to me of my own authority, but, with two exceptions, I am not sensible that there has been any marked improvement in Maramut affairs in the Talooks.

3. Those of Talook Nament have appeared to me particularly liable to censure; and as the readiest means of relieving your Board from a long descriptive detail of the several works in respect of which I consider the Tahsildar deserving of blame, I beg to enclose a Statement shewing the nature and other particulars of the works sanctioned for the last year, within which they should for the most part have been completed, as also those of works requiring to be undertaken in the present year. A perusal and consideration of that Statement will I am sanguine, satisfy your Board that I do not hastily and without ample

ample cause, seek the adoption of so severe a measure as the Suspension of a Tahsildar from Office for six months. It may possibly save the Tahsildars from ultimate consequences of a more serious kind, and I feel confident will materially assist in rendering the other Tahsildars aware that, gross neglect of duty in the Maramut branch, involving as it does in so material a degree, the pecuniary interests of Government, will be followed by punishment in excess of the mere fine which a Collector may impose.

4. Not to enlarge upon the several acts of omission and proofs of inertness and neglect apparent from the Statement I beg to select two, which I submit justify the infliction of the punishment I have proposed.

5. It has been found necessary to strengthen the bank of the river near the head of the Moganoor Channel, which, as your Board are aware is one of the most important channels of irrigation in the Sub

Division

Division. In connection with this work, it has been resolved also to construct an Anicut across the Veromoony river. For these two undertakings, Estimates were sanctioned amounting on the aggregate to Rupees 748—14—". To the Anicut nothing was done during the past year and although in February of that year orders were sent to commence work, the Tahsildar restricted his operations during the ensuing ten months, to making an advance of 300 Rupees for which no return whatever has, as yet been received beyond bringing to the spot certain rough stones, none of which have been placed in position. In December of this year, the Civil Engineer enlarged the plan of the Anicut by raising it to Rupees 873—"—"; but that modification in no wise diminishes the culpability of the Tahsildar. The work required to the river bank and the ordinary repairs of the season to the Comarapollium channel, involve complaint of a similar kind which is susceptible of no better justification. In the course of the last month the Sub Collector officially brought to my notice that he was fearful the cultivation under

under the channels would be affected injuriously by the small quantity of water which they were receiving, and had accordingly communicated with the Nainar Tahsildar on the subject of the works intended for the improvement and better supply of the Channels, that the Tahsildar in reply had urged that he had requested the Paramutty Tahsildar to procure him some bricklayers, that none had come, but that on the 14th of June he had advanced 30 Rupees to a certain Bricklayer for the preparation of Chunam and the making of bricks..... The Tahsildar has more recently stated to myself in answer to my own call on him for explanation that the Mistry of the Talook is at fault, which I find not to be the case, but that materials for the works will be in readiness by the close of the Current Month, and if no rain falls or freshes come to the Cauvery in the Month of August, that the works will be proceeded with.—

Division. In connection with this work, it has been resolved also to construct an Anicut across the Veroomoony river. For these two undertakings, Estimates were sanctioned amounting on the aggregate to Rupees 748—14—". To the Anicut nothing was done during the past year and although in February of that year orders were sent to commence work, the Tahsildar restricted his operations during the ensuing ten months, to making an advance of 300 Rupees for which no return whatever has, as yet been received beyond bringing to the spot certain rough stones, none of which have been placed in position. In December of this year, the Civil Engineer enlarged the plan of the Anicut by raising it to Rupees 873—"—"; but that modification in no wise diminishes the culpability of the Tahsildar. The work required to the river bank and the ordinary repairs of the season to the Comarapollium channel, involve complaint of a similar kind which is susceptible of no better justification. In the course of the last month the Sub Collector officially brought to my notice that he was fearful the cultivation under

under the channels would be affected injuriously by the small quantity of water which they were receiving, and had accordingly communicated with the Namul Tahsildar on the subject of the works intended for the improvement and better supply of the Channels, that the Tahsildar in reply had urged that he had requested the Paramutty Tahsildar to procure him some bricklayers, that none had come, but that on the 14th of June he had advanced 30 Rupees to a certain Bricklayer for the preparation of Chunam and the making of bricks..... The Tahsildar has more recently stated to myself in answer to my own call on him for explanation that the Maistry of the Palook is at fault, which I find not to be the case, but that materials for the works will be in readiness by the close of the Current Month, and if no rain falls or freshes come to the Cauvery in the Month of August, that the works will be proceeded with.—

From the Collr. of Salem ... Sir,
July 15th 1851.

I adverting to my letter of yesterday's date regarding the proposed suspension of the Thasildar of Namcul I have the honor to explain that although in the Statement of the Thasildars services annexed to that communication Soondralinga Moodelly appears to have served as Thasildar of Namcul only for eight months and some days, yet that he has actually been employed there as Thasildar since January 1850, an arrangement having been made by the Sub Collector late in charge of Salem, which gave to him the appointment of Thasildar in another Talook /Parmutty/, the salary of which he drew whilst officiating in Namcul.

From the Collector of South Arcot ———

Sir,

I have the honor to acknowledge Extract from Proceedings of the Board of Revenue under date 7th April last, with its accompaniments, and proceed to give the information called for regarding the Government plantations in this District.—

Explanation regarding the Government Plantations in his District—

2 On examining the accounts I find that the receipts and disbursements on account of these plantations from the year 1814/15 to 1848/49 correspond with the sums mentioned by the Accountant General in Para 4 of his letter which accompanied the Board's Proceedings. The enclosed Statement No. 1 shows the extent of the lands included in these plantations and the details of the trees which they contain.—

3. It will be observed that these

these gardens do not comes either under the head of plantations intended for profit, such as teak, sandalwood and spice plantations— or of plantations intended for the improvement of the Country but are ordinary gardens— The 2 first on the list were public property and in the hands of the Sircar servants on our assumption of the Carnatic, and the others are situated in the Jaghеer Villages which were resumed and incorporated with the dry lands by order of Government in 1239. At present there are no charges on account of these gardens, it being usual to rent them out, and it seems proper that their receipts should be brought to account under the ordinary heads of Land Revenue, such as gardens, tree tax, &c. and I request authority for adopting this course and discontinuing the head of Plantations in the accounts according to the suggestion of the Accountant General.—

4 I do not find any express order for entering the Collections and charges of these gardens under the head of plantations in the first instance, but the practise appears to have arisen from the printed form of accounts forwarded by the Accountant General in 1814 containing "plantations", among it's headings.—

(30)

Sir,

Br. No. 1661.

From the Asst Magistrate of Tanjore - - - - - } Para 1. With reference to your letter of the 3rd July, I have the honor to submit the following abstract of the Proceedings respecting the Sheally Tahsildars misconduct-

Forwarding abstract of correspondence respecting the Head of Police of Sheally-

2. K. Ramayen is an extensive Meerasdar of Sheally, a somewhat troublesome character, on bad terms with the Tahsildar.-

Vide Sessions Extract April 4th.

3 A person Prosecutor in Criminal case No. 48 went to buy sheep, he bought 3, but some dispute arose about the price of another, he attempted to drive it off, when Ramyen's Servant and others stopped him, recovered the sheep, and there might have been an affray- Whereupon after considerable delay for which most insufficient excuses have been assigned a charge of Highway robbery was trumped up against Kadavasel Ramyen's Servant, but all the facts of the case clearly indicate it to be merely one of petty affray.- The

Vide Para 8 Jt. Magte Memo 25th Apl.

4 The Joint Magistrate hearing of the circumstances spoke to the Tahsildar about it, mentioning his utter disbelief of the robbery, and understood from the Tahsildar that the case should be sent up to him. But instead of thus bringing the matter before an authority who knew the case to be merely a suspicious petty dispute, the Tahsildar determined at all hazards to gratify his feelings of enmity, and committed the case as Highway Robbery, previously having as stated by the Sessions Judge (Para 3 Extract 10th May) "displayed a degree of "irregularity and disregard of standing or-"ders as has never yet come under the "Session Judges notice. The Head of Police "not only received two different Complaints "in which the parties concerned, the time, the "place and the offence charged were precisely "the same, except that one was somewhat more "exaggerated than the other, one of which he "proceeded to dispose of himself by fining "the Prisoner 3 Rupees for assault and "committing the other as a case of "Highway robbery, but also after

"the enquiry in this latter case was "closed, he proceeded to pass sentence "upon the prisoner on three separate "charges of Assault, sentencing him to 9 "days imprisonment in default of paying "the fines imposed upon him, and de-"taining the case of Highway robbery "until the period of imprisonment had "expired, after which it was committed to "Court."

5 The case was committed for trial before the Sessions Court, who by Extract of 7th April 1857. referred the Tahsildars conduct to the Magistracy. The Joint Magistrate reported his opinion by Memorandum of 25th April and the Sessions Judge by Extract of 19th May summed up as to the Tahsildars conduct, whom he considered worthy of dismissal. To these 3 documents par-ticular attention is called.

6 The case was so clear that the Joint Magistrate, Magistrate and Sessions Judge were unanimous in opinion that the Tahsildar has attempted to make the Courts the tool to gratify his

Fort St. George. 31st July 1857.

his private feelings of enmity, but these
three officers differ as to the grade of pu-
nishment. The Joint Magistrate, Mr
Goodwyn, considering that as the Tahsildar's
conduct though most oppressive and ille-
gal had not been tainted by secret
chicanery or fraud, 6 months suspension
would be sufficient. The Magistrate, Mr
Bishop deemed this punishment insuf-
ficient and recommended 12 Months sus-
pension, whilst the Sessions Judge's opi-
nion appears by his Extract to have
been in favor of dismissal.

7. My former opinion as to the
sufficiency of 6 months suspension is not
of course altered by my acting as Magis-
trate, and without the Board consider
that this is insufficient. I request sanction
for suspending Conduel Row Tahsildar
of Sheally for 6 Months.

Extract from the Proceedings of the Sessions Court in the Zillah of Combaconum under date the 7th April 1857.

Read Record of Case No. 15 committed for trial before the Sessions Court.

The Prisoner is charged with Highway

Fort St. George. 31st July 1857.

Highway Robbery in having on the 20th Decem-
-ber last in company with several others
way laid and beaten the Prosecutor and
robbed him of four Sheep and ten Rupees.

2. It appears from the Statement
of the Prosecutor and 1st and 3rd Witnesses
that the former received some Money from
a Gentleman's servant to purchase Sheep,
that he succeeded in buying 3, but that
the owner of the 4th One Ramasawmy pil-
-lay demanded a higher price than he
was disposed to pay, on which they seized
the Sheep and drove it off with the other
3. with the intention, as the Prosecutor
says, of taking it to the Talook Cutcherry
and having the price settled there, and
that while on the road they were attacked
as stated in the charge.

The Original Complaint is
dated 27th December, the depositions taken
from the Complainant are dated 24th and
30th January, though the Prisoner does not
appear to have been apprehended till the
15th of March, while the deposition of the
3rd Witness is dated 3rd February. There is
nothing in the depositions to shew whether

the

Fort St. George, 31st July 1851-

the deponents were confronted with the Prisoner, or whether they identified him as one of the Assailants; nor is it explained why, if the Prisoner was not then in custody, these depositions were taken a Month after the Original Complaint was lodged-

4- The Complainant states that it was about 5 1/2 P. M. when they were attacked, and he names the two persons who beat him, and the one who seized his money, he adds that he received the money for the sheep in the month of January-

5 The 3d Witness says it was one Nalgai after sun set when they were attacked, he however names 7 of their assailants and can identify about 15 more, though shortly afterwards he says the complainant told him that the man who beat him also took his money but it was so dark he could not recognize him-

6- The 2d Witness gives a very different account of the affair, he says that he and the 1st Witness purchased the sheep, that the Complainant and 3d Witness joined them on the road, that some people attacked

Fort St. George 31st July 1851

attacked them in the dark and took away the sheep, but that the Complainant and 3d witness had left them before that-

7- The Joint Magistrate in a letter received while the Session Judge was examining the record states among other observations that this case has been most improperly sent up to Court, and that he believes the charge of robbery to be totally false, and that of assault greatly exaggerated-

8- The real truth of the matter appears to be that Ramasawmy Pillay, upon his sheep being carried off, assembled some of his fellow Villagers and recovered it, and the Session Judge regarding the great improbability of the Complainants account, the discrepancies in the statement of the witnesses and the fact that all the accused persons are Karyagars and other dependants of Codavasel Ramyen, one of the largest landowners in the Shealy Talook, has no difficulty in coming to the same conclusion as the Joint Magistrate and therefore resolves to remand the case to the Sub Judge to be disposed

disposed of as a common assault.-

9- Although the Prisoner is represented to have been apprehended on the 15th of March. he did not leave the Salook till the 27th and the cause of the delay is said to be that the Prisoner was detained in Custody from the 18th to the 26th in default of payment of the fine im-posed upon him for three other petty offences, a reason which the Sessions Judge cannot com-prehend and altogether this case presents so many suspicious features that the Joint Magt-trate is requested thoroughly to sift the matter, and to report his opinion whether there were any grounds whatever for sending it up to the Court as one of Highway-robbery or whether the Tahsildar was influenced in the course he pursued by any misunderstanding between him and the Prisoners master.-

Ordered that Extract from these Proceedings be forwarded to the Acting Sub Judge of Combaconum and to the Magistrate of Tanjore for their information respectively, and record be returned to the Acting Sub Judge.-

Memorandum

No 2

Memorandum on Sessions Courts Extract of April 1st 51.

1. Kadavashell Ramayen is a very extensive Meerasidar in Shealy paying between 5000 and 6000 Rupees Government Tax. his affairs have lately become somewhat embarrassed and a balance of some hundreds of Rupees has been latterly constantly standing against his name- He bears a some-what troublesome character having with his people been fined in five cases between 1845 and 1850- The Tahsildars Argees dated 31st January and March 27th indicates the feelings held by this Officer towards him- It is likewise well known that they are privately on bad terms.-

2. The cases in which Kadavashell Ramayen and his servants have been lately concerned throw much light on this matter.-

3 Kadavashell Ramayen and about 50 of his people were charged with affray and assault on January 18th Complaint dated January 20th and the case Criminal No 16 was sent up to the Sub Court on 28th January-

The

Fort St George 31st July 1851.

The above Meerasidar was released, but some of the Defendants were sentenced to 1 Months imprisonment.-

The mistress of one of Kada-vasheli Ramayen's dependants charged a Peon with having ravished her on March 17th and was sent up to Court for preferring a false charge under Regulation IX 1832 on 31st March. The charge appears to have been correctly dismissed but most incorrectly sent up as deserving punishment for being wilfully false and ma-licious. The case was released by the Court.-

5 His man Soobarayen &ca were charged by deposition before the Tasildar on the 5th February with an affray on the 24th December/ charge filed 17th March/ the Witnesses were examined on the 12th and 18th February and Soobarayen examined 17th March was sen-tenced to 3 Rs fine or 3 days imprisonment on March 18th This complaint was sent for by the Tasildar 1½ Month after the occurrence of the charge. he did not appear voluntarily.

6 Soobarayen &ca were charged by a Mettoo Peons complaint dated 28th De-cember/ filed at Talook on January 13) with affray and abuse on 24th December. The witnesses were

The Cases at Paras 5-6-7 are the 3 petty cases alluded to by the Session Judge in Parag 8.

Concurring thoroughly with the Session Judge's observation on the alleged Highway Robbery. I have only to state that I do not think that there were any grounds for sending it up as such especially as the Tahsildar had been previously verbally informed of my disbelief of the alleged Highway robbery, and he had verbally in-formed me that he should send up the case to my Office. I regret to observe how strongly the Tasildars conduct appears to have been influenced by his personal feelings against Kadavashell Ramayen and

A translation of the explanation offered by the Tasildar to my queries on the above case is enclosed.-

Questions put to the Sheally Tahsildar by Joint Magistrate's order of 16th April 1851

Question. 1 A few days ago when I was speaking to you at Caverypatam about the Vesarip-garen's charge against Codamoorty Soobaroyen for carrying off some money and sheep I told you that the alleged robbery of the money was totally false and that the charge of assault and carrying off the sheep was very suspecious. Whereupon you stated that you should send up the case to my office. Why then have you sent up the case to the Sub: Court?-

Tahsildar's answer

Answer One day in March whilst talking to your honor I reported that Soobaroyen who had beaten and robbed the Hoozoor Vesaripgar and has absconded had been apprehended, your honor asked me what he stated, I replied that he did not confess. You then asked if the case was proved, I replied that I would state after looking at the case, when you replied that the Statement that the money had been carried off was not credible. I replied that the Vesaripgar had brought the

money

money and that the butler had written that the money had been sent. The conversation took place generally on the above subject, but I did not state that I should send up the case nor that it was then uninvestigated. When a higher punishment is requisite it is necessary to apply to your honor, but when I inspected the documents at the Cutcherry I found that although taking the Money was not clearly proved yet it was proved that after dark a mob came with sticks assaulted the parties and carried off the sheep, hence as the accused had to my knowledge shortly before wounded a Brahmin and was as I knew a very bad character it appeared to me to be right to send him up to Court for heavier punishment and I therefore so committed him but not without good grounds.

Question. 2. The above complaint was given on the 27th. December, why was not the complainant at once examined.- Why was neither Summons or warrant issued for the Defendant till the 16th. January?

N. B. The Complaint of Highway Robbery and assault was taken [illegible]

Answer. 2. The Complaint is dated 27th. December but was presented to me on January 6th. and it was filed on that day but as the Complainant went off directly to Mayaveram I did not at once take a deposition but sent for him afterwards and took the deposition. As it was necessary for the peon to learn about the Defendants from the Prosecutor so a summons was only sent after the Prosecutor appeared.

Question 3 The Visarisgar Veeragoo Naick complains that when he and Talook Peon Ramasawmy Naick and 1 or 2 others were driving the sheep from Coolgar, Ramapillay and Soobaroyen &c. assaulted them and carried off the sheep and adding that they also robbed him of Rs 10-

And

And Ramasawmy Naick at the same time complained that the Defendants had beaten him and carried off the Sheep. Now although the complaints of these 2 men were for the same offence as to time and place, yet you have sentenced the Defendant Soobaroyen to pay a fine of 3 Rs or to be imprisoned for 3 days in the Peon's Complaint; thus finally settling the matter. Hence how could you send up Soobaroyen on the Tesarifgar's charge? And why was it not clearly detailed in the Report to Court that Soobaroyen had already been fined 3 Rs for that very offence?.

Answer 3 Although the time of the offence was the same yet as the Peon gave a Complaint of having been beaten and the Tesarifgar gave a Separate Com: =plaint that he had been beaten and robbed of the Money, I therefore fined for the Assault on the Peon, and send up the case of assaulting and robbing the Tesarif =gar (of money and sheep) to Court. The fact of the fine in Peons assault case is entered in the list of the Prisoner's character as

as well as in the Decision list &c.

N.B. The Tesarifgar and Peon charge were precisely the same as to Defendants time, place and offence, the Peon having preferred the complaint for the Tesarifgar.

Question 4 In the Reports to Court the cause of delay in forwarding Soobaroyen to Court is entered as arising from his imprisonment for 9 days in default of paying his 9 Rs fines, in 3 other cases. Is it correct to delay sending a Prisoner to Court for such reasons?

Answer 4 The decision had not been passed in the matter proved against the Prisoner as he was not present. After his apprehension as he had to be sent at once to Court the other petty cases were immediately and without delay decided.

Question 5 You passed a decision on the 18th March sentencing Soobaroyen to pay a fine of 3 Rupees in 2 other cases (besides Ramasawmy Naicken's assault case) If several charges are preferred against the same prisoner, it is ruled in C. O 28th October 1823 that the Tahsildar cannot sentence him to a severer punish= =ment than that within his jurisdiction, so that if he deserves a severe punishment he shall be remit= =ted to the higher tribunals. Hence why did you sen= =tence the Prisoner to pay 9 Rupees fine or be imprisoned for 9 days which is beyond your jurisdiction

Answer 5 The Regulation rules that the

the Heads of Police have power to fine 3 Rs. and no more than 3 Rs has been sentenced and the case that appeared to me to require higher punishment was sent up to Court. The C. O 28th October 1823 applies merely to thefts and not to assaults.

Question 6 The deposition of Appasamy Goorookul was written on the 5th February his witnesses were examined on the 12th & 18th February but his complaint was only filed in the decision Book on March 18th.

Why was not this case entered in the file of the Month when it was preferred?

Answer 6 In the matter of Appasamy Goorookul's complaint the Mettoo Peon had reported the matter and Appasamy Goorookul and the Witnesses were thereupon sent for and examined. If enquiry be made on the report it is usual to file the case and decide after the apprehension of the Defendant. This was practiced in the present instance.

Question 7 The date of Teroomalaspel Mettoo Peon Ramasamy Naickens complaint is December 28th and it is therein stated that the Offence took place on the 24th. It was filed only on January 13th and Witnesses examined on February

February 15th. Why was not the complaint filed directly it was preferred? Why was this delayed till January 13th? Why was the examination of the Witnesses delayed till the 15th February?

Answer 7 I am asked the cause of the delay in the examination from the date entered in the Prosecutor's complaint; but the date of presenting the complaints to me is the date of filing them and hence I can only state the grounds of the delay subsequent to date of filing. The complaint was preferred before me on the 13th January and filed the same day, summons was issued on the 15th but return was made that none of the parties attendance could be procured. A second Summon was issued on February 3d and on the 15th the parties were produced; but there was no other delay.

Question 8 The date of Ramasamy Naickens complaint is December 27th (and the date of Offence therein mentioned as December 26th) but it was only filed on January 3d. Why was it not filed at once. The witnesses were only examined on January 24th why was the examination delayed till that date.

The

a perusal of the above, there seems to exist the strongest suspecion, that the Head of Police in forwarding the case to Court was actuated by other than Public motives, his conduct throughout the examination and disposal of the cases having apparently been guided by personal disagreement with Codavassel Ramiah in consequence of this individual having disputed the authority of the Tahsildar on various occasions.

Enclosure
No. 5.

Extract from the Proceedings of the Sessions Court in the Zillah of Combaconum, under date the 10th May, 1857

Read letter from the Magistrate dated 28th ultimo forwarding Proceedings and Report from the Joint Magistrate with reference to the Proceedings of the Sessions Court under date 7th April, commenting upon the course pursued by Condul Row Head of Police of the Shealy Taluk, in improperly committing to the Criminal Court one

Fort St. George 31st July 1857

one Soobaroyen upon a charge of Highway Robbery.

The Sessions Judge having reasons to believe that the Head of Police had been influenced by personal motives, called upon the Joint Magistrate to investigate the matter in order to ascertain whether the Head of Police had merely fallen into an error of Judgment or whether he had been actuated by any improper bias.

The Magistrate in his letter
2. observes "there seems to exist the strongest "suspicion that the Head of Police, in forwarding "the case to Court, was actuated by other than "public motives" and the Joint Magistrate states that, in his opinion there were not any grounds for committing the case as one of Highway robbery.

3. The Proceedings now received display a degree of irregularity, and disregard of standing orders on the part of the Head of Police, as has never yet come under the Sessions Judge's notice. The head of Police not only received two different complaints in which the Parties concerned, the time, the place, and the offence charged were precisely

precisely the same, except that one was some-
-what more exaggerated than the other, one
of which he proceeded to dispose of himself
by fining the Prisoner 3 Rupees for Assault,
and committing the other as a case of Highway
Robbery, but also after the enquiry in this latter
case was closed, he proceeded to pass Sen-
-tence upon the Prisoner on three separate
charges of Assault, sentencing him to 9 days
imprisonment in default of paying the fines
imposed upon him, and detaining the case of
Highway Robbery until the period of imprison-
-ment had expired, after which it was com-
-mitted to Court.

4 It is unnecessary to notice in
detail the long intervals that elapsed
between the dates of occurrence, the dates
of complaint, the dates of filing the same,
and the dates of examination, they are suffi-
-ciently exhibited in the report of the
Joint Magistrate, but it may be observed
that these serious discrepancies are calculated
to throw strong suspicion upon the nature of
the whole enquiry.

5 For errors of judgment the most
ample allowances are always made, but

in

in the present instance there is not the faintest
excuse for putting in such a plea. The complain-
-ant charged the Prisoner and others with having
robbed him of ten Rupees which he had received
from a Gentleman's servant for the purchase
of some sheep, but the Record shows that he
had on that day expended 3 Rupees out of
this in the purchase of 3 sheep, so that the
charge of having been robbed of ten was
palpably false, but in spite of this, and
notwithstanding there was not a fraction
of proof that any money had been taken,
and although the Policedar's immediate
superior, the Joint Magistrate, had intimated
to him his conviction that the charge was
totally false, he persisted in sending it up
to Court. Moreover the Sessions Judge believes
that when the complainant first of all
reported the occurrence to the Head of Police,
he said nothing about the money, because
there is in the Record a letter dated 30th De-
-cember, to the Head of Police from the Gen-
-tleman's servant above alluded to, in which
the writer intimates that the complainant
had informed him some Meerasedars and

their

their servants had taken away some sheep he was bringing, without making any mention whatever of the robbery of the money, and in that letter it is distinctly stated that the Complainant said he had already brought the circumstances to the Policedar's notice.

6. But the whole conduct of the Head of Police shows he was well aware that the charge of robbery was trumpted up for in his answer to the 2d Question put to him by the Joint Magistrate he explains as his reason for not entering upon the enquiring as soon as the complaint was filed, that the complainant went off to Myaveram. The person against whom this charge was made is described by the Head of Police in his Argees of 28th January and 27th March as a most notorious character, therefore the Sessions Judge can never believe that if the Head of Police supposed the charge to be a true one he would have allowed the complainant to absent himself at his own convenience.

7. The Head of Police had, as before observed already disposed of the charge of Assault and driving off the sheep, and he must have known perfectly well that

that there was no evidence upon which the accused could be convicted of the robbery, and adverting to the evident misunderstanding that exists between the Prisoner's master and the Head of Police, the Sessions Judge is of opinion that the Head of Police under the influence of these immoral feelings deliberately committed the accused upon the serious charge of Highway robbery knowing it to be unfounded, which shows him to be unfit for the situation he fills and the Session Judge will recommend to the Court of Fouzdaree Udalut that he be dismissed from the Public service unless the Magistrate or Joint Magistrate are of opinion that from previous good conduct or any other mitigating circumstances his offence may on this occasion be overlooked.

Ordered that Extract from these Proceedings be forwarded to the Magistrate of Tanjore with precept returnable in ten days.

Memorandum on the Sessions Extract of 10th May 1851.

1 It appears to me that the open and undisguised manner in which the Tahseldar has vented his dislike towards Kadavapsell Ramien and his dependants is so contrary to the usual covert ways in which natives display such feelings as in some degree to palliate his misconduct.

2. He has committed a case Knowing it to be totally false, but he has not suppressed or altered documents to prove it true or got up false proof. in fact the depositions as sent up by him would alone most clearly and indisputably prove the charge to be false.

3. He has punished the Defendant most unjustly and illegally in the three petty cases, but this was done openly in the most direct violation of the law, not secretly under shadow of the law

4 Though informed by me that I discredited the evidence, yet with perverse obstinacy he persisted in committing the case, thereby boldly daring the consequent strict scrutiny and criticism

criticism that such disobedience would necessarily excite.

5 Considering therefore that the Tahsildar's most oppressive conduct has been openly unjust and illegal, but untainted with the far more dangerous and usual adjuncts of secret fraud and chicanery, it appears to me that dismissal would be a more severe punishment than the peculiar nature of the offence requires, and that 6 months suspension and subsequent removal to another Talook would be an adequate punishment.

B2 No 1377
From the Coll. of Trichinopoly

Sir,

Submits a reply to all the queries of the Board regarding the disbursements and deposits in the Treasury at Trichinopoly

Para 1. I have had the honor to receive your Circular under date the 9th Instant and beg to submit the following information in reply to the several queries therein contained.

2 In this Province it has for some years past been an established custom to enter the amount of servants salary as actually "paid" when in fact a portion may still remain in the Treasury undisbursed, from the absence or what not of the functionary to whom the month's pay may be due. This sum is kept separate and entered in an account termed the Gurthee

Gurthee Chittah" and is disbursed as the parties appear, and continues thus open until the 30th of the month, when the amount whatever that may be, is transferred to the Deposit head.

3 With reference to the pay of the Talook Servants and advances for warrant, it is not the practice here to charge the same in the Treasury Books as paid until the sums are actually disbursed and sent to the several Talooks. The orders may be passed, but payment is not entered up until the money is actually sent for, whether Gybut Salary, warrant advances, &c. There is no Gybut Chest in my Treasury.

4 No money is set apart here as "Mookadla" of course there are deposits in this Treasury under the usual contingencies. But these items are always accounted for and forthcoming with the General Treasury items and sums at the periodical examinations.

I beg to subjoin a Statement of the sums now in deposit in my Treasury up to 1st May 1851.

Amount

	Rupees	a	p
Amount of fee due to Arasa Canulgars	9,658	8	"
Village Cumums Pay	1,372	1	2
Cotoomboo Establishments Salary	218	2	8
Deposit made by the Ahkarry Renters	2,731	15	4
Amount remitted by the Civil Court for the arrears of balance which is to be adjusted in this Months	162	10	11
Amount of Deposit in lieu of security	240	"	"
Proceeds of the Cwam Lands under gift	1,456	8	10
Darustamum fund	556	5	1
Value of the sale of fort stones	12,44	14	1
Disputed boundary	31	14	3
Judicial fines	40	"	"
Fines under Regulation IX of 1822	35	"	"
Subscription Money for the Bridge of Coodamoor-ty	32	8	2
Servants Pay	248	7	5
Amount of Value of Durba grass received from the Quarter Master General	33	11	2
Sale of the Avenue trees	45	9	"
Unclaimed property	71	11	"
	19,179	7	4

5. I am of opinion that these Items of

of deposit must remain as such and cannot conveniently be curtailed.

6. I am not aware of any sums being charged in the talookhs as paid when in point of fact they are in deposit. There is seldom much money in the custody of the Tahsildars. That in deposit is generally advances for warrannt and in my present tour through the District I have put your Board's Circular of the 14th November 1850 into practice, and have discovered no abuses, and found but little money. The Kists here are never rendered until the end of the Months.

7. Adverting to para 6 of your Circular I beg to observe that it is usual here on the presentation of Bills of exchange at certain days sight at the Treasury, when the Collector is absent, for the Treasurer to receive the same, and forward them for acceptance to the Circuit Cutcherry, with a report of the day of presentation, and that date is taken as the one of acceptance. With Bills at sight, the same process is observed, but no disbursement is allowed without an Official order.

3 With reference to the pay of the Talook Servants and advances for Warrarnut it is not the practice here to charge the same in the Treasury Books as paid until the sums are actually disbursed and sent to the several Talooks. The orders may be passed, but payment is not entered up until the money is actually sent for, whether Gyhut Salary, Warrarnut advances, &c. There is no Gyhut Chest in my Treasury.

4 No money is set apart here as "Moobadla" of course there are deposits in this Treasury under the usual contingencies. But these items are always accounted for and forthcoming with the General Treasury items and sums at the periodical examinations.

I beg to subjoin a Statement of the sums now in deposit in my Treasury up to 1st May 1851.

5. I am of opinion that these Items of

of deposit must remain as such and cannot conveniently be curtailed.

6. I am not aware of any sums being charged in the talooks as paid when in point of fact they are in deposit. There is seldom much money in the custody of the Tahsildars. That in deposit is generally advances for Warrannut and in my present tour through the District I have put your Board's Circular of the 11th November 1850 into practice, and have discovered no abuses, and found but little money. The Kists here are never rendered until the end of the Month.

7. Adverting to para 6 of your Circular I beg to observe that it is usual here on the presentation of Bills of exchange at certain days sight at the Treasury, when the Collector is absent, for the Treasurer to receive the same, and forward them for acceptance to the Circuit Cutcherry, with a report of the day of presentation, and that date is taken as the one of acceptance. With Bills at sight, the same process is observed, but no disbursement is allowed without an Official order.

1 In reply to the Board's Proceedings of the 14th Instant, I have the honor to observe that the Certificate of the Examination of the Hoogoor Treasury in the month of May was transmitted to the Board on the 23d of that month with the Demand Collection and Balance Statement for the month of April, as usual. -

2 The Certificate which, according to the practice hitherto observed, should have accompanied the Demand Collection and Balance Statement for May was that for June. The absence of myself and Assistant prevented the examination of the Treasury till after the despatch of that Statement. It took place however subsequently within the Month and the Certificate was forwarded to the Board under a separate cover on the 30th June last. -

Bd. No. 1307.

From the Collector of Tinnevelly-

Submitting the information called for respecting the observation made by the Accountant General concerning the Balances against the Head of Government Plantations and forwarding four Statements connected therewith.—

Sir,

Para 1. With reference to Extract from the Proceedings of the Board of Revenue dated 7th April last and to the Minutes of Consultation therein quoted requiring information respecting observation made by the Accountant General concerning the Balances against the Head of "Government Plantations" in the Accounts of this and other Districts, I have the honor to forward two Statements No. 1 and 2, No. 1 showing the amount of Collections and of Charges from 1814/15 on account of the Government Spice Gardens in Tinnevelly corresponding to the end of 1848/49 with the sums mentioned by the Accountant General for that period and continued for the two subsequent years. Statement No. 2 contains the amount of Receipts and disbursements for every year on account of "Government Plantations" with a view not to profit but general improvement.—

2. With regard to the Spice Gardens the Statement No. 1 shows that in ten only out of the last 37 years the receipts have exceeded the Charges and that the fluctuations in the amount of receipts in different

different years is very considerable. From the particulars exhibited of receipts from 1839/40 in Statement No. 3 it will be seen that these fluctuations have arisen in part from differences in the quantities of spices sold and in part from variation in the prices obtained. The differences of quantities are caused both by unequal produce in different years and by the whole of one year's produce not being always disposed of in a single year.—

3. The difference in the Charges in different years arises from the whole sanctioned Establishment (Rupees 1323 per Annum) not being constantly kept up and from fluctuations in extra Charges for carriage of produce &c.a.—

4. Hitherto the Government spice Gardens have proved to be a very unprofitable experiment and I do not myself see the practical utility of their being kept up. But as they are now in a better state than they ever have been in, owing to the care and attention bestowed upon them by the late Collector Mr. C. B. Thomas who understands more about planting than most of us do and by whom they were considerably extended and improved. it may be well to carry on the experiment for a few years longer. It will be seen in Statement No. 3 that although the receipts of 1850/51 were larger than any preceding, excepting 1836/37 which

(which however is between two years of small Collections) we have subsequently brought to account in last month Rupees 1243 for spices and Coffee sold besides which there still remain in store further quantities of the same commodities worth at the rates last obtained Rs 1571—4—4 vide Statement No. 4.—

5. I am desirous if possible of renting out the Government spice Gardens for a series of years but have hitherto failed to prevail upon any one to make an offer to take them. Should the produce however during another season or two prove to be equally remunerating with the last one or two, I think it very probable a tenant may be found and if not it will be proper to take into consideration the expediency of maintaining these Gardens any longer.

6. The subject of Plantations in this District not with a view to profit but to general improvement is a very confined one and takes in the transactions of only three or four years. Statement No. 2 shews the outlay on this account amounting in the 3 last Fusslies to Rupees 1073—5—1. The Charge of Rupees 500 under the 1st Item was incurred under sanction of Government dated 2d February 1846 for planting the Sand drifts as they have been called near the Coast in order to prevent their encroaching upon Cultivable land. The Charges under the last two items amounting in all to Rupees 573. were incurred for the Establishment with permission

of

of Government dated 23d May 1848. of 3 Nursery &
Gardens for trees of all useful kinds to be distributed
among the ryots. One only of these Gardens is still
kept up, the other two having been abandoned under
order of Government dated 25th March 1850.

7- So short a time has elapsed since &
undertakings of the kind in question were first com=
=menced that not much perceptible effect has been &
produced, and on their present scale it is not likely
that they ever will be productive of much effect. A
small belt at the edge of a portion of the Sand hills
has been planted and it is proved that Palmira and
other trees will with great care grow where these have
been put down though very slowly but if trees will
grow at all on more elevated parts of this red Sand
formation I imagine that the outlay to effect the &
object of generally covering it with trees must &
greatly exceed a hundred times the amount already
laid out and I do not think that any loss which the
drifting of the Sand is likely to cause to Government
by spreading over cultivable land in the vicinity of
the Hills would amount to the Cost of stopping its
course in the contemplated manner.

8- The maintenance of Nursery Gardens
for the promotion of the Culture of useful trees &
would be extremely desirable if the ryots could be
prevailed upon to take any interest in or avail &

themselves

themselves of the advantage held out to them, but such
appearing to be the case in a very limited degree &
the cost to Government seems to have been very
much thrown away. The time however to decide
upon this point will not arrive according to the &
resolution of Government dated 25th March 1850 &
until nearly another year shall have elapsed.

9- In conclusion I beg to observe &
that I see no reason for not acting upon the &
Accountant General's suggestion that the balance
against the Government Spice Gardens in this &
District to 1848/49 amounting to Rupees 13,452-2-
should be written off the accounts.

Bd. No. 1758.

From the Collector of Malabar

Sir,

1. With reference to the Board's Circular under date the 12th Ultimo I have the honor to report that I have carried out the orders of Government conveyed in the 23d Para of the Minutes of Consultation dated the 22d May 1857, and communicated to my Head Sheristadar the observations contained in the 24th Para. I have likewise furnished the Sheristah Department with a Malialum translation of the whole of the Minutes of Consultation above adverted to.—

2. It may be proper to add that the Head Sheristadar of this District has always had the same access to, and control over, the Treasury accounts as over the accounts of every other Department.—

40

Bd. No. 1726

From the Chairman of the Chamber of Commerce.

Sir,

The Committee of the Chamber of Commerce understanding that no objection exists to their being made acquainted with late Official reports on the subject of the navigation of the Godavery river, will esteem themselves much favored if the Board of Revenue will sanction their being furnished with copies of all the papers that are connected with a late Survey of that river for the purpose of endeavouring to open up its navigation into the inland Districts, and which they believe has been recently completed. Such information, in a commercial view, will be very valuable as a matter of record.

Chamber of Commerce,
Madras, 22d July, 1857.

(Signed) J. Ouchterlony.

To The Acting Collector of North Arcot.

Sir.

B[d] No 1260

To the A[g] Coll[r] of North Arcot

Requesting him to afford further information respecting his Statement of arrears of Jeumiah dated 2[d] June 1851.

In Com[n] 24 July 1851 & 15 January 1842 Page

With reference to your Statement of Arrears of Jeumiah dated the 2[d] June 1851, I am directed by the Board of Revenue to observe that under the Jeumiah rules the several applicants for arrears must appear in person to draw their allowances, unless they have been specially exempted from doing so, or unless the female is a Gosha Woman within 50 years of age in which event she alone would be exempt. If either of these had been the case the fact should have been mentioned in your Statement of Arrears in accordance with the Board's Standing orders.

Bd. No. 1495

From the Collector of Salem. — Stating that under the circumstances particularized within, it does not appear that Circular Order of 26th December 1831 is applicable to

Forwarding 3rd July 1857.

Sir,

I have the honor to reply to your Board's request for information whether adverting to Circular Orders 26th December 1831 any and what advantages may be expected to accrue to the Amboorpett Estate from the construction of the Road through it and on account of which I have recommended a remission of the full assessment—

to the case of remission recommended to be allowed on account of lands taken up in Amboorpett for a road to avoid a detour.—

2 The ground for which the reduction of assessment has been suggested by me is not ground embraced in a line of road newly drawn through a Mootah devoid of communications It is contiguous to and passes along the side of the Village Amboorpett the land newly taken up for the purpose of a road having been taken up in order to avoid a detour and shorten the distance, as I understood, by 145 yards The several fields through which the new line passes are in the occupancy of Ryots paying teeruh to the Mootahdar who on being applied to in the time of my predecessor, on the subject stated that so far as he himself was concerned no objections would be raised, provided the actual cultivators agreed to give up what was wanted; but that he should expect to have made good whatever remission the Cultivators become entitled to, at his hands for the portions of their holdings rendered unproductive. Under these circumstances the arrangement contemplated in your Board's Circular of December 1831, does not I submit, appear applicable.—

3 The amount of Rupees 39-1 entered in the first para of my letter disposed of
