at Purpose 54. b. 8 leaving it to his opponent Narrain Sonnyagee to show he be considered self aggrieved by this decision, to seek redress in the Civil Courts by a suit against the Petitioner, which the Courts under Section III Regulation IV of 1831 are hereby authorized to admit.

To the President and Members of the Board of Revenue.

Sir,

I have the honor to transmit herewith, for the consideration of the Board of Revenue, a Petition from Narrain Sonnyagee of Cuddalore, praying to be allowed to sue the Collector of Cuddalore in the Civil Courts to recover the sum of Pagodas 54. 6. 8 levied from him by the Collector of Cuddalore on account of Land Revenue.

2. The Petitioner states that he was the Renter of the Cuddalore Choultry Choultry Lands for Fasly 1259, and that he was compelled by the Collector to pay the Revenue of those lands for that year, although he had relinquished the Renter-ship in consequence of the Choultry Lands having been resumed by Government.

3. The Petitioner has already petitioned the Board of Revenue on this subject, and the Board have rejected his petition, on the ground that the Collector's proceedings were correct.

4. The Petitioner now prays that he may be allowed to sue the Collector in the Civil Courts, to recover the amount levied from him.

5. I am directed to request that the Board will favor this Government with their opinion on the Petitioner's request.

I have the honor to be,
Sir,
Your most obedient Servant,
(Signed) J. Pycroft
Secretary to Government.

Ordered that copy of the foregoing Extract from the Minutes of Consultation of the Board's Proceedings to which this is a correspondence related be transmitted to the Collector of Cuddalore for his information and guidance in the disposal of the Petition therein noticed.

The Board will report to Government the balances of Dust Rent outstanding against each Village to the close of the last Fasly and the course which should be pursued in respect to those arrears.

2. In para 6 of their letter the Board propose in reference to para 20 of the Collectors letter of 9th May 1851 to instruct that Officer as similar cases of default for the future, to resume the lands or Villages on which the arrears of Dust Rent are due, the circumstances of each case being duly noticed in the ensuing report on the Settlement. The Government do not quite understand whether the resumption is meant to take place immediately on the arrear accruing, or at the close of the Fasly in which it may fall due, or whether, as provided by the Hookoomnamah Section XXXII, the land is to be held under attachment for one year and resumed, on failure to discharge the arrears, at the expiration of that period. /Herewith 4th August 1851. No. 347./

I have the honor to forward herewith by the Collector of Salem and by the Board of Revenue, the Right Honorable the Governor in Council's Proceedings for the remission for fasli

from the commencement of the present Fusly of a portion of the Agraharams of Davaray Samoodrum and Pandamungalum and for their incorporation with the Government lands. The Board will report to Government the balances of Dust Rent outstanding against each Village to the close of the past Fusly and the course which should be pursued in respect to those arrears.

In para 6 of their letter the Board propose in reference to para 20 of the Collector's letter of 9th May 1851 to instruct that Officer in similar cases of default for the future, to resume the lands or Villages on which arrears of Dust Rent are due the circumstances of each case being duly noticed in the ensuing report on the Settlement. The Government do not quite understand whether the resumption is meant to take place immediately on the arrear accruing, or at the close of the Fusly in which it may fall due, or whether, as provided by the Mookoomnamah Section XXXII. the land is to be held under attachment for another year and resumed or forfeited to discharge the arrears, at the expiration of that period. The Governor in Council thinks it would be the preferable course to allow the Ryot the term specified in the Mookoomnamah and

Fort St. George 18th September 1851.

and with this understanding he approves the orders proposed to be addressed to the Collector.

These orders should be made known generally throughout the District that the holders of Enam lands may be fully aware of the consequences to which they will subject themselves by remissness in the discharge of the Government dues.

3. In place of noting the circumstances of each resumption in the reports upon the Settlement of the years in which it has been made, as proposed by the Board, the Government think it would be preferable that the Collector should at the close of every Fusly in which such Enams may have been resumed, submit a special report stating the several cases and grants particulars of each.

Board of Revenue

Sir,

Fort St. George

I have the honor to report upon Petition of 16 of 1850.

2. Petitioner Chokkumbarumma Ayl

is the son of Rama Bhuttoo who held the Enam land particularized below, and who died in 184

leaving Petitioner and his brother in the joint enjoyment of his property and Enam land

The brothers lived together until A.D. 1848 when they agreed to separate, and made a divide of their father's property according to award of a Panchayet selected by themselves

3.

The Panchayet passed a decision September 1848, awarding an equal share in the property and the Enam land of Rama Bhuttoo to his two sons and Petitioner now complains that although he has received his half share of all other property, his brother retains possession of the entire Enam.

4. The following is a list of the lands, which are entered in the Accounts in the names of Devacaradeechatalloo, Sreenursimhaloo

Under the circumstances represented by the Collector, the Board direct that the Enam lands formerly held by the deceased father of Petitioner, be equally divided between himself and his brother the present holder, and be subject to Report upon a lapse.

2. Mr. Forbes will observe that in the 5th para of the Board's Circular order 27th July 1848, authority was granted to continue such Enams to the "next lineal male heirs" of the last incumbent, & that in para 6th of that Circular order 21st December 1849 the term was on reconsideration deemed too exclusive, and the expression "male heirs" only substituted instead.

Sir,

From the Agent at Kurnool

I have the honor to acknowledge Extract from the Proceedings of the Board of Revenue under date 30th June 1857 transmitting the Minutes of Consultation containing the review by Government of the Settlement of the Kurnool District for Fusly 1259, and requesting me to state with reference to Para 7 of these Minutes whether I have any objection to offer to the immediate remission of the balances of Fusly 1269, and what portion, if any, should be excluded from the indulgence as due by wilful defaulters.

Recommending under circumstances stated a remission of the balances of Fusles 1257 1258 and 1259 amounting to Pd. 12308-5-10

14 June 1857

2. I had omitted before submitting my views on the subject to obtain from the Talooks detailed information shewing how far my orders issued during the Settlement for the collection of certain portions of the balance had been enforced. The accounts intended to

12275. Fort St. George 18th September 1857.

to shew all the details required are either defective or inaccurate and instead of waiting for further accounts I will place before the Board the result at which I arrived in enquiring into these balances.

3. At the commencement of the Summabundy the balance for Fusly 1259 amounted to Rupees 18999 11 4 In the 5 Talooks settled by me a very careful enquiry was made into the balance outstanding in the accounts against every Ryot, and I believe that my Assistant pursued the same course in the Talooks settled by him. In some Villages the enquiry was very tedious. To have recommended the whole balance for remission would have saved much trouble and harrassing exertion, but in the first Talook settled by me, I very soon saw grounds for believing that many sums entered as irrecoverable balances had been already collected and misappropriated, in others I found that while there had been no scruples about resorting to the utmost rigidity in collecting the whole amount of their puttah from the most impoverished Ryots, substantial Reddies and Communs had been unduly favored, and a recommendation for remission made when there ought to have been no balance

Recommending under circumstances stated a remission of the balances of Fasly 1257 1258 and 1259 amounting to Rupees 22308-3-10

2. I had previously before submitting my views on the subject to obtain from the Talooks detailed information shewing how far my orders issued during the Settlement for the collection of certain portions of the balance had been enforced. The accounts intended to

12275. Fort St. George 18th September 1857.

to show all the details required are either defective or inaccurate and instead of wasting for further accounts I will place before the Board the result at which I arrived in enquiring into these balances.

3. At the commencement of the Summabundy the balance for Fasly 1259 amounted to Rupees 18999-11-4 In the 5 Talooks settled by me a very careful enquiry was made into the balance outstanding in the accounts against every Ryot, and I believe that my Aforestand pursued the same course in the 3 Talooks settled by him. In some Villages the enquiry was very tedious. To have recommended the whole balance for remission would have saved much trouble and harrassing exertion, but in the first Talooke settled by me, I very soon saw grounds for believing that many sums entered as irrecoverable balances had been already collected and misappropriated, in others I found that while there had been no scruples about resorting to the utmost rigidity in collecting the whole amount of their portion from the most impoverished Ryots, substantial Reddies and Communs had been unduly favored, and a recommendation for remission made when there ought to have been no balance

balance, and I therefore felt it necessary to do what I could to show the Amildars that their simple asser-tion that an arrear was irrecoverable would not pass unscrutinized. In other cases I found that hostility on the part of the Village Officers or other objec-tionable causes had induced the Amildars to enter as easily recoverable balances which further enquiry clearly proved to be due from Ryots whose extreme poverty would have rendered it an act of cruelty to endeavour to enforce the collection.

4. The result of the enquiry was as follows

Of the balance for 1259 of Rupees			18999 — 11
The sum deemed on enquiry as irrecoverable was			14116 — 2 — 2
Leaving for collection			4883 — 9 — 2
Of the sum thus left for collection there were due from Reddies and Curnums wilful defaulters whose circumstances did not appear to me to justify my recommending the balance for remission			1538 — 9
From Reddies and Curnums upon the holdings of Ryots where the balance appeared to have arisen entirely from fraud misappropriation and other misconduct on their part			1430 — 11 — —
From Ryots to whom a remission of the full amount uncollected from them appeared uncalled for			1914 — 13 — 5
			4883 — 9 — 2

Of this sum Rupees 2,221 14 8 had been collect-ed before the close of the Fusly leaving 2,661-10 9: for future collection—

5. The accounts which I have called for will show me the details of the sum uncollected and on receiving them I shall be able to judge whether the liberal views exp-ressed by the Government and the Board of Revenue in regard to the balance of Fusly 1259 justify me in recommending a larger remission than Rupees 14,116 — 2 — 2 which as I have above declared I consider to be irrecoverable—

6. I also enquired fully into the balances for Fusslies 1257 and 1258 and the annexed Statement shows the result—

Fusly	Balance			Regarded as irrecoverable and recommended for remission			Collection ordered		
	Rs	a	p	Rs	a	p	Rs	a	p

Sir,

Para 1. In reviewing the Land Revenue Settlement of Kurnool for Fusly 1259 the Government in reference to the apprehensions expressed by the Agent that the effect of the disastrous season would long be severely felt by the Ryots especially in the Chagulmurry Talook and with the object of preventing if possible the public demand of Fusly 1259 being pressed with undue stringency directed that the whole of the balance of Fusly 1259 especially of Chagulmurry, except what might be due by wilful defaulters, should "at once" be remitted unless the Agent should, in the opinion of the Board, show sufficient ground against such a course. They likewise directed that the balances of previous years should be enquired into and reported for final adjustment.

2. I am therefore directed by the Board of Revenue to submit, for the consideration and orders of the Right Honorable the Governor in Council, the accompanying letter from the Agent at Kurnool dated 5th August 1851, from

from which it will be seen that during the last settlement he had issued orders for the collection of certain portions of the balance for Fusly 1259 and had intended to have ascertained from the Talook authorities how far they had enforced those orders, but as the accounts rendered to him were either defective or inaccurate he deemed it needless to wait for fresh Accounts which might perhaps justify him in proposing a larger remission than he now does. He however submits the result of the enquiry which he has already instituted, and points out that in the first Talook settled by him he discovered that irrecoverable balances had been substituted for sums already collected and misappropriated, that in some instances there had been no scruples in rigidly enforcing payment from the most impoverished Ryots of the full amount of their Puttahs, while in others substantial Reddies and Communs had been unduly favored, and, in some instances, hostility or other objectionable causes on their part had induced the Amildars to mark down as recoverable balances, sums due by Ryots of such extreme poverty as would have rendered it an act of cruelty to enforce their collection.

B. C. No. 2151. Sir,

From the Aj. Coll. of North Arcot } Para 1 I have the honor to forward to the Board, with a request that they will transmit the same to Government, copy of a letter addressed to me by my Head Assistant Magistrate Mr. Sullivan giving cover to a Petition signed by about 500 of the most influential and respectable Inhabitants of Vellore and it's suburbs in which they pray that the Provisions of Act XXVI of 1850 may be put in force in their Town and in it's suburbs.-

2 The above Petition having come before me in my capacity of Magistrate the more regular course perhaps would have been for me to have submitted it direct to Government but as Para I of their Circular order of the 19th August 1850 seems to point out the Board as the proper channel of Communication regarding matters having relation to the above act, I

B. d. No. 2152.

From the Collector of North Arcot-

Sir.

Paral. Shumshoodeen &c. Sepoy in the 12th Regiment N. I. appeared before me in June last and claimed as his Enam in right of descent from the Original Grantee a piece of Nunjah land of the Extent of 1-2 as situated in the Village of Pumbooveelum Talook Sholinghur and assessed at 3-1/2 Pags as

Requesting the Orders of the Board to cancel the resumption of a certain Enam in the Village of Pumbooveelum in Sholinghur Talook and to make over the Enam land to Shumshoodeen for the reasons stated.

From the accounts it appears.

2- that the land in question was formerly Enam, but that in October 1847 it was resumed in default of Claimants and incorporated into the Circar lands, and that since that time it has been held on puttah and Cultivated by one Rumpacar Ramasawmy.-

3. The Original Grantee as shewn by the Enam accounts of the district was Sheik Woojain Sheik Woojain left two Sons Bada Saib and Shaik Ally alias Hoosman Saib- Neither of whom appear to have inherited his Enam, for on his demise I find from a Summud of the Nawaub Abdool Wahab Khan dated

dated 5th Sufferuddy 216 Fasly 1800 Fizeree (the Original of which is herewith forwarded together with a translation) that its enjoyment passed to his wife Ulleimah Beebee, and that she was succeeded in it by Moideen Saib the only Son of Shaik Ally or Hoosman Saheb the younger brother, who on the assumption of the Country got the Enam registered in his name. Moideen Saheb died without issue on the 10th June 1845. He left a widow but she made no claim to the Enam, and retired soon after to her Mothers house. For two years the land lay uncultivated and in the third it was resumed by the Sircar as above stated. It appears however that the Eldest Son of the Original Grantee, Bada Saheb, had also a Son named Mustan Saheb who enlisted in the army and was heard of no more in his Native Village. This Mustan Saheb died about five Months ago and his Son Shumshoodeen is the party who now claims the

Enam.

Enam-

4. From the enquiry held in the case it is clear that Petitioner Shumshoodeen is entitled to the Enam as being lineally descended from the Original Grantee and that at the time of Registration it ought to have been entered in the name of his father or at any rate in that of his father and Uncle (Moideen Saheb) conjointly while the absence on service both of himself and his father sufficiently accounts for no claim having been preferred on Moideen Saheb's death and such being the case- I have the honor to request that I may be permitted to cancel the resumption of the Enam and make over the land to Petitioner-

5. To make the matter more clear- I have appended a Genealogical table which will

relationship of Shumishwodeen
to the Original Grantee.

Proceedings thereon. Resolved that the letter above recorded together with its enclosures be submitted for the consideration and orders of the Right Honorable the Governor-in-Council.

Submitting letter from the Acting Collector of North Arcot requesting permission to cancel the order for resuming an Enam in the Sumboocolum Village enjoyed by the late Moideen Sahib and recommending that it be continued as a special case to Shumshoodeen for his life

2. The land in question consists of 1-2 ac. of Nunjah land in the Sumboocolum Village of the Sholinger Taluk assessed at Pagodas 3-1/2, and was formerly an Enam last in the enjoyment of Moideen Sahib 1st Cousin of Mustan Sahib, the late father (now deceased) of the present applicant Shumshoodeen. Moideen Sahib having died in 1845 without any issue, and the Enam having been fallow 2 years it was resumed in 1847 in default of claimants.

3. Mustan Sahib (the 1st Cousin of the last holder) died 5 Months ago, and his son Shumshoodeen now claims the Enam and the Collector recommends that, as he can trace

trace a lineal descent to the original Grantee (his Grand father being the elder son of the original Grantee) the order for resumption may be cancelled and Shumshoodeen put in possession of the land on its former tenure.

4. The father of the claimant would seem to have had a better right than the last holder to this Enam, but the Board do not find that the Purwannah produced conveys hereditary right.

5. Under all the circumstances of the case however the Board think that as a special instance the Enam might be continued to Shumshoodeen for his life, as the absence of himself and his father in the Army sufficiently accounts for their claims not having been recognized previously in preference to the collateral branch of the family which became extinct on the death of the last holder.

Sir.

With reference to Para 7 of the Court of Wards Proceedings of 28th April 1851. on the Report of the Capistalum Estate for Fusly 1259 requiring information why the Estate should in the first instance bear the charge of carriage of Paddy supplied to His Highness while the Treaty (Article 15) binds the Rajah to bear it himself, I have the honor to state that this expense though apparently so entered is not really borne in the first instance by the Estate, the price of the Grain and carriage being at once considered as a payment of the Six Lac Fhisto and the transaction is finally adjusted and carried to the proper heads when the Government accounts with the Rajah are closed.

From the foregoing communication it would appear that the hire for the conveyance of Paddy supplied to this Highness the Rajah of Tanjore is not borne in the first instance by the Cabsitatum property and if so, the Board are unable to understand why this item should appear in the accounts under the head of Charges. "The Price of the Grain and Carriage" it is stated "are at once considered as a payment of the Cabsitatum". This however is not borne out by the account of the Estate, the items "Government Hire" and "Cart Hire" appearing separately under the Head of Charges.

2. It would appear also that the expenditure on account of Carriage is not regularly credited afterwards thus the Disbursements in Fuslies 1257 and 1258 were Rupees 1490 and 1253 but the credits were Rupees 1229 and 1255 respectively.

The allowance entered in Columns 8 of this Statement were disbursed by the Collector upon authority of an old order from the Board dated 26th August 1824 fixing 2 Years as the period within which such arrears might be disbursed without previous sanction, and the Audit Office has therefore taken objection to the charges in his accounts.-

2. The Board recommend that Sanction be granted for the actual disbursement of the several Gronnaks for the periods specified in Columns 7 & 8 amounting to Rupees 465-2-2/ Four hundred and sixty five, annas two & pice two, and for the payment of Rupees 1772-14-4/ one thousand seven hundred and seventy two, annas fourteen and pice four, for feeding Brahmins in Fasslies 1254 and 1255 in the Ramaswarum Anna Chuttrum. They likewise recommend that Sanction be granted for the continuance of the allowances specified in Column 4.-

3. The Gronnah allowances have been compared and found to agree with the entries in Mr. F. Cockburn's List of

of 5th June 1815, and with Mr. Bird's List of Pensions & and Charitable Allowances Enclosure 2 of Letter dated 4th December 1848 dispatched to Government 29th January 1849; and the Chuttrum allowance as therein corresponds with that entered opposite the

B. No. 2227.

From the Collector of Trichinopoly

Submits report on the Settlement of the Land Revenue of the Trichinopoly Collectorate for Fusly 1260. A.D. 1850/51.

Sir,

I have the honor to submit my report on the settlement of the Land Revenue of this Collectorate for the past Fusly 1260, A.D. 1850-51. and to transmit the following Accounts connected therewith.

1 Abstract of Settlement.
2 Ditto Taloo kwar Settlement.
3 Comparative Statement Taloo kwar of Fusly 1259-60.
4 Price Current of Grains.
5 Statement of withered Crops.
6 Sugar Cane Cultivation.
7 Register of Cowl Lands.
8 Statement of the numbers of Ryots according to their payments on Dur jawar Beriz.
9 Ditto of Demand Collection and Balance of Fusly 1260.
10 Ditto of Ditto of arrears.
11 Statement of General Comparative of Land and extra Sources of Revenue.

Statement

Fort St George 18th September 1857.

12. Statement of the Extent and Assessment of waste included in the Settlement.

13. Two Registers of lands occupied by the public Servants.

14. Statement of Population for the year 1857.

15. Statement of Sewoy Jumah or extra Revenue.

Season. 2. Taking generally, the season of Fusly 1260 / A.D. 1850-51, may be pronounced as an average one. The early rain during the months of July and August and part of September though partial were sufficient for the dry grain cultivation. The north east monsoon set in at the end of October but was light, and the usual supply of rain was not received either for maturing the dry grain or the wet crops dependent on Tanks.

Much distress was felt in the southern portion of the Province, that is, those Villages situated in the Elloopoor Marghanam of the Conaud Talook. The freshes in the rivers Cauvery and Coleroon were most heavy and abundant. These rivers had an unusual high flood in the end of July 1850, causing great anxiety and fears lest breaches should occur. But I am happy in being able to state that no breach of any moment took

Fort St George 18th September 1857.

took place either on the Cauvery banks or along the Great Wyacondan Canal. The North banks of the Coleroon however suffered in several places and the South embankment of the great Vennoullay Canal in Caulgoody Talook gave way at a few points yet no damage of a serious nature was sustained.

It is right to bring to notice the very heavy rains that were received throughout the District late in the Fusly under report, that is, the first ten days of May last - too late to be of any essential utility to the agriculturist but a blessing and comfort to man and beast reducing the heat of the atmosphere for the one, and giving water and pasture for the other.

3. Cholera prevailed during a part of January and February in many portions of the Collectorate though not in a virulent form, with this exception, the Province was healthy throughout the Fusly year.

Prices. 4. The agricultural results of nearly all the Provinces comprised in the Southern Division of this Presidency were most favorable and the harvests good. Puchinopoly

like its neighbours had a good return. These combinations brought about a further depreciation of prices and afforded no opening for a market where to dispose of the products raised by the Ryots and farmers. Sumbah fell in price compared with Fusly 1259 at a rate of 12 1/8 per cent, being quoted at Rupees 70-2-5 per Garce while Caur was 20 1/2 per cent below, and averaged Rupees 52-1-4 per Garce. The Marginal Memorandum shews the rates of the past and present years.

Statement Ref.

Grain.	Fusly 1259. Rs	a	P	Fusly 1260. Rs	a	P	Per centage per Garce.
Sumbah per Garce	79	13	4	70	2	5	12 1/8
Caur per Garce	65	8	4	52	1	4	20 1/2

The ryots of this District certainly are much depressed by the lowness of prices and want of a ready market and constant demand for their Rice grain raised. The reduction of this Garrison at Trichenopoly itself by one Regiment of Cavalry and one of Native Infantry has doubtless been a great blow and the further contemplated reduction of one half of Her Majesty's Regiment by a removal to the Neilgherries will indeed be felt by all the community at large, whether Agricultural or Mercantile.

A large quantity of last

years (1259) grain is still on hand unsold, and I am fully aware from personal enquiry amongst the people that they have been severely tried in making their dues good to Government.

Distribution of Puttahs.

5. On the 13th of March I assumed charge of the District from Mr. Maltby. I found that the annual settlement had been commenced the month previous at Moosery, where a portion of the puttahs of that Talook were distributed by Mr. Maltby, and the remainder by Mr. Smith the Acting Head Assistant. This gentleman also completed the settlement of Vittoocutty, and subsequently in May the Talook of Valiconda pooram. His own particular charge being these two Talooks. The remaining other five were settled by myself and the Puttahs distributed in my presence, commencing the middle of April and completing about the 20th of June. The subjoined shews the several places where the puttahs were given out to the assembled ryots.

10. Of the total demand for the year on account of Land Revenue Rupees Statement No. 9 14,20,091-1-11 the Collections within the Fusly or up to the 11th July 1851 were Rupees 14,03,943-7-11 leaving a balance of Rupees 16,147-10-0 × Rs a p 8,327-2-3 This sum was reduced by the Collections up to the end of August to Rupees 7,820-7-9 the present outstanding balance which I confidently expect will be realized in the course of the next three or four months. This arrear is for the most part due by Ryots in reduced and indigent circumstances who have suffered much both from scanty produce and the low prices obtained for grain in the market. I should not like to see them pressed for the demand against their holdings.

11. The outstanding arrears on account of former Fusles are exhibited in the Margin and amount to Rupees 31033.15.5. On this subject I have already submitted my report to your Board by letter under date the

13. The cultivation of Sugar cane is carried on to a considerable extent, Cawnies 1442.

Fort St. George 18th September 1851

1442 were under this Crop. In Caulgoody Torriore and Oodianpollium talooks the soil is the best suited for Sugar. In the two former the greatest extent of land was cultivated namely 669 Cawnies in the first and 353 Cawnies in the second. I saw a good deal of mauritius cane still continued in the Caulgoody Talook. Jaggery and coarse Raw Sugars are chiefly manufactured.

14. The Population and census of the District has been prepared according to the form which was received with the Board's Circular letters under date the 7th January and 25th February 1850 and is herewith transmitted.

Statement No. 14.

Your Board will observe that the Hindoo population is in the proportion of five to one greater than that of the Mahomedan

Fort St. George 18th September 1851

Mahomedan- The population of the Province appears to have increased at the ratio of 12 per Cent, the numbers being for Fusly

1259 / 1849-50 6,34,112 for 1260 / 1850/51 7,09,196 souls.

15. I regret much that this Department has been unable to carry out your Board's directions for discontinuing Statement No. 2 and substituting the new forms Nos 3 and 4 as used in the Madura Collectorate - The causes, as stated by Mr Mallby at Para 24 of his report on Fusly 1259, militate still against the preparations of these Statements and it must continue to do so until the survey contemplated is carried out, and the assessment fixed on the soil throughout, and not on the description of product grown.

From the Collector of Madura. Forwarding an Appeal Petition of Syed Esmail Rowten Shroff of the Mangalum Village in Maylore Taloot together with the original proceedings. (Recd 24th Sept. 1851.)

Under clause first section VII Regulation VIII of 1828, I have the honor to forward an appeal Petition presented by Syed Esmal Rowten Cooly Shroff of the Village of Mangalum in the Taloot of Maylore against a Decision passed by me on the 5th May last under Regulation IX of 1822 convicting him of the embezzlement of Rs. 151-5-4 out of the Village Collections of Fusly 1259 and sentencing him to pay double that sum or to be imprisoned for the space of one year.

2. The period of Appeal has somewhat passed, but as the Appellant forwarded his Petition to the Board in the first place by mistake I hope they will be disposed to admit it, particularly as the mode of appealing is not stated at the foot of the Original Decision, as is done in Original Appeals passed by

Bd No. 2128

Sir,

From the Collector of Madura. — Forwarding an Appeal Petition of Syed Esmail Rowten Shroff of the Mungalum Village in Maylore Talook together with the original proceedings. — Rect 23d Septr 1851.

Under clause first Section VI Regulation VIII of 1828, I have the honor to forward an appeal Petition presented by Syed Esmal Rowten Cooly Shroff of the Village of Mungalum in the Talook of Maylore against a Decision passed by me on the 5th May last under Regulation IX of 1822 convicting him of the embezzlement of 151-5-4 out of the Village Collections of Fusly 1259 and sentencing him to pay double that sum or to be imprisoned for the space of one year.

2. The period of Appeal has somewhat passed, but as the Appellant forwarded his Petition to the Board in the first place by mistake I hope they will be disposed to admit it, particularly as the mode of appealing is not stated at the foot of the Original Decision, as is done in Original Appeals passed by

Fort St. George 18th September 1851.-

by Judges, and should be the case also, I think, in respect to Decisions under Regulation IX of 1822.-

3. I have also the honor to forward the Original Proceedings both in the case under Appeal and also in another in which the Appellant prosecuted the Monigar and Curnum of his Village and which is so closely connected with the former that it's merits cannot be appriciated if they are not considered together.-

4. It is an admitted fact, that 150 Rupees Collected on account of Government in the Village of Mangalum have been made away with. It is also admitted that they came into the hands of the Appellant, but he states that having delivered that sum out of the Collections of the Fifth Kist to the Manigar and Curnum for the purpose of bribeing the Zilladar, he recovered it for himself from the Collections of the 8th Kist, or as he afterwards varied his story, from the subsequent Kists.-

5. I first put the Manigar and Carnum on their trial for having misappropiated this 150 Rupees out of the 5th Kist and acquitted them for reasons which are detailed in the Decision.-

6. afterwards the appellant was tried and

Fort St. George 18th September 1851.-

said convicted on grounds stated in another Division.-

7. The Appeal Petition appears to me to require a few remarks only.-

He pleads that he is not subject to trial under Regulation IX of 1822, but as a shroff concerned in the Collection of money, there can be no doubt of his liability.-

He complains that his deposition was not written as it was given, I can assure the Board that immense trouble was taken to collect his meaning and record it in his own words. but he gave his depositions in a most dishonest manner, uttering his words with such rapidity between his teeth as sometimes baffled all attempts to catch them, and when at length a sentence could be made out, and the Roysom was engaged in writing it, interrupting him and altering the statement if from my countenance, which he intently watched, he fancied the impression unfavorable. As an additional security I made the Head Sheristadar sit in the room and I am sure the Appellant was fairly treated.-

He further complains that he is detained in the Cutwall's Choultry. I believe that until his

Appeal.

12417. Fort St. George 18th September 1851.-

Appeal is decided in his favor he should not be allowed to go at large and his present place of Custody subjects him to as little hardship as any that could possibly be selected.-

8. The only other allegation which appears to me worthy of notice is one to the effect that his complaint against the Manigar Curnum and Villadar of having levied a Cess has not been investigated. On this point I beg to state that at the close of his trial I sent a Tamil Memorandum to the Acting Head Assistant Collector who had taken charge of the Taluk requesting him to examine the Ryots when Collected at the Summa-bundy to ascertain whether was any ground for further proceedings. As I have not since heard from that Gentleman I presume that he found none. at any rate the two cases are perfectly distinct. It may be perfectly true that the Officers to whom he alludes levied a Cess and yet that the Appellant embezzled a sum which he admits he received and did not pay with the other Collections into the Taluk. I am even inclined to think it probable that the Manigar and Curnum have been guilty of some mal-versation, which has emboldened the appellant to adopt the daring course he has pursued.-

Para 1. With reference to the orders of the Board and Government marked upon the

† No. 8 of 1851. enclosed Petition from the Uncle of the Minor Zemindar of Manarcottah I have the honor to state that with the exception of the Minor's Mother the other relations are desirous that the allowance of 6 Rupees per Mensem should be continued to the Zemindar's Niece notwithstanding her being married, and that the Husband of the said Niece declares that the marriage was entered into by him with the understanding that the allowance would continue and that his independent resources are not sufficient for the support of a family.-

2. The present average income of the Manarcottah

12420 Fort St. George 18th September 1851.

Manarcottah property may be stated in round Numbers to be 9,000 Rupees and the average Charges if due attention be paid to Maraimut very little less than 8000, leaving something more than 1,000 Rupees yearly net profit, which however should become greater by improvement of the Estate. The present debt including Interest owing to private Creditors of the late Zemindar comes to about 6,500 Rupees and as this will be more than cleared off with proper management before the Zemindar attains his Majority I am disposed to enter into the feeling expressed by Government and to recommend compliance with the Petitioner's request in behalf of his Niece.-

Bd. No. 2153.

From the Collector of Coimbatore.-

Sir,

1. I beg the Board's opinion and orders on a case now before me and liable to recur frequently on the Hills as they become more and more frequented.-

2. Mr. Hillier a heresiarch and another gay and Mr. Clandins an Assistant Surveyor sent for each 2 Dozens of Cheap Brandy from Calicut. The Hill abt Karry Renter who pays a large sum (Rupees 16,800) for his Contract complains loudly of this practice; he stopped the liquor coming into Ootacamund and delivered it over to the Officer Commanding Major Wright. It had a permit, though a suspicious one being in another name. This I have duly referred to the Collector of Calicut for enquiry.-

3. The point is, can such parties buy liquor and have it sent to the Hills as they please instead of purchasing of the contractor, they say of course, "it is for their own use" tho' it is not likely

12422 Fort St. George 18th September 1851.-

likely they can afford, or do use so much, the contractor affirms it is for clandestine sale and demands its confiscation. The provisions of Regulation I of 1820 Section XI, XIII Clses are not very clear on this point, and I would request the Board's opinion for my guidance as to what clases such permits should be confined to, and what quantity they may have up; to prove clandestine sale is very difficult to check it, seems desirable and but due to the Renter.-

The Board are of opinion that Section XII Regulation I of 1820. does not apply to persons such as Mr. Hillier and Mr. Clandins.-

Secretary to the Board of Revenue,
Fort St. George.

Sir,

I have the honor to request the sanction of

of the Board for the purchase of 1000 Garces of Bombay salt for sale at the Colays of Buntwal and Cassergode.-

2. The Board are aware that it has long been customary to furnish Bombay salt to the traders from above the Ghauts resorting to Buntwal, this article being greatly preferred by them to the produce of this district.-

3. The quantity is required to meet the expected demands of the ensuing season at Buntwal and Cassergode.-

4. The price paid last year for the supply of Bombay Salt was Rupees 19-12-0 and Rupees 18-12-0 per Garce.-

5. The present contract was put to auction in small lots as noted in the Margin. The price of last year was unusually low, but in Comparison with the average of former seasons, the present agreement is an advantageous one,

once tho' the present average price slightly exceeds the average of the last 5 years. This rise in price is to be attributed Chiefly to the effect of some recent measures of the Bombay Government which have proved adverse to the interests of the merchants, and partly perhaps to measures of my own to secure a better quality of Salt.-

6. Of the total amount of the purchase price Rupees 22055, I request that Sanction may be obtained for paying that advance to the contractors of Rupees 7,351.-

B. No. 2081.

From the Superintendent of Stamps.

Forwarding with reference to Extract from the Proceedings of the Board dated 28th April last, samples of French and Portuguese Paper and for certain reasons stating that he did not feel justified in directing the Collector of Canara to forward the supply of the Portuguese paper direct from Bombay without the authority of the Board and requesting the orders of the Board on the subject, also stating that if the French Papers can at once be adopted a considerable saving would be effected on the charges of his Department.

Sir

With reference to the Extract from the Proceedings of the Board dated 28th April last, I have the honor to state that the Collector of Canara was requested on the 30th May following to procure and forward to this Office Two hundred Reams of the Portuguese paper, Mr. Maltby in his letter of the 4th July last states that with the view of procuring the supply of the Portuguese paper at the lowest rate it was expedient to issue an advertisement inviting the supply required, but having assembled the several dealers of the Town he did not succeed in meeting with a lower offer than [illegible] Rupees per Ream, and that the offer of [illegible] Rupees appearing too high to be accepted, he has addressed a House of Agency at Bombay to ascertain whether the required supply could be procured there at more favorable terms.

2. Pending the reference made to Bombay I thought it proper to forward a Sample of some very

very superior French paper procurable in the Market here priced at Rupees 7 8 per Rm to the Collectors of Canara and Malabar for their opinion as to its durability and whether may not be used for Stamps on the Western Coast. The Collector of Canara on reporting the sample forwarded by this Department states that the paper is of very superior quality but that the surface is so firm that writing can be effaced by a sponge and ink writing be substituted, which is not the case nearly the same degree with Portuguese paper as the enclosed specimens marked A and B shew. The Collector of Malabar however in reporting on the samples, states that the paper is very superior and well adapted for the purpose required and that it was tried for a few days in a Box swarming with Cockroaches and was not at all touched, whilst a sheet of Country paper which was placed near it was much eaten through.

A French Paper
B Portuguese Paper.

3. With reference to what has been stated by Mr. Maltby I beg to say that I have tried a sheet of the sample of the French paper by writing on it with Country Ink and afterwards endeavored to efface the writing with a sponge, but found

that the writing could not be removed without soiling the paper greatly and making it apparent that such an attempt had been made so that any writing that might be substituted in a case where this is attempted would at once be detected. This I think may be clearly seen from the accompanying samples marked C and A, Sample A is that which was tried by the Collector of Canara.

4. I have since received a further communication from the Collector of Canara dated 8th Instant forwarding for my approval five of the samples of the Portuguese paper marked II D received from Messrs. Ewart Latham and Co. of Bombay, of these the Collector states that samples No. 1. and 4. appear to be the best, the price of each muster of paper is given on the samples and that on learning my wishes on the subject, the paper he thinks may be transmitted direct from Bombay to Madras.

5. Considering that the expences of the transmission of the paper from Bombay, and the Commission of the agents on the purchase, which they would likely charge, would unnecessarily increase the charges in this Department, I did not feel justified in directing the Collector of Canara

Canara to forward the supply direct from Bombay without the authority of the Board and therefore requests the orders of the Board on the subject.—

6. I beg also to be informed whether it would not be more advisable, as the sample of paper forwarded by this Department appears to be well adapted in point of its durability for stamps on the Western Coast, as reported by Mr. Conolly, and would be cheaper in the aggregate to purchase two hundred Reams of it for the present for use, as the Portuguese paper cannot be forwarded from Bombay immediately nor until an opportunity and the season allows.

7. I beg to add that if the French paper can at once be adopted a considerable saving would be effected in the charges in this Department, as the paper is sufficiently large to allow of two stampt papers being obtained from one sheet, the outturn of one Ream being 960 Rolls which is not the case with the Portuguese paper, the outturn of one Ream will only give 430 Rolls, in consequence of the paper not being sufficiently large to allow of two stampt papers being made from one sheet, and again the transmission and other expences attending

it would further add to the charges of this department.

To the Chief Secretary to Government

Sir,

With reference to the correspondence noted in the margin, I am directed by the Board of Revenue to submit for the orders of the Right Honorable the Governor in Council the accompanying letter from the Superintendent of Stamps from which it will be seen that Messrs. Ewart Latham and Co. of Bombay are prepared to supply Portuguese Paper of the requisite quality for the use of the Canara and Malabar Districts samples of which are now submitted.—

a few samples of a French paper obtained in the Madras marked which have been tested by the Collectors of Canara and Malabar, and pronounced to be capable of resisting the climate of the Western Coast and the ravages of insects.

3. The Portuguese paper to be supplied from Bombay is said to yield only 430 Rolls as the outturn of one ream, while that submitted by Mr. Bruce gives more than double that number per ream. In addition to this advantage the French Paper is free from the expences arising from transmission from Bombay and Agents Commission attendant on the purchase of the Portuguese paper.

4. In consequence of these circumstances the Board would beg leave to support the recommendation of the Superintendent of Stamps that he should be permitted to supply the Collectors of Canara and Malabar with stamped paper of the quality of that now forwarded by him for use in those districts.

Canara to forward the supply direct from Bombay without the authority of the Board and therefore requests the orders of the Board on the subject.—

6. I beg also to be informed whether it would not be more advisable, as the sample of paper forwarded by this Department appears to be well adapted in point of its durability for stamps on the Western Coast, as reported by Mr. Conolly, and would be cheaper in the aggregate to purchase two hundred Reams of it for the present, for use, as the Portuguese paper cannot be forwarded from Bombay immediately, nor until an opportunity and the season allows.—

7. I beg to add that if the French paper can at once be adopted a considerable saving would be effected in the charges in this Department, as the paper is sufficiently large to allow of two stampt papers being obtained from one sheet, the outturn of one Ream being 960 Rolls which is not the case with the Portuguese paper, the outturn of one Ream will only give 430 Rolls, in consequence of the paper not being sufficiently large to allow of two stampt papers being made from one sheet, and again the transmission and other expences attending
