Comm^rs Public Works.

The Public Works Commissioners learn from the Accountant General that the practice of sending up to the Collectors of Treasury all the Collections received in the Talooks, and sending back the sums required for expenditure on Public Works or other Public Services, has obtained in consequence of orders from the Board of Revenue. The Commissioners request that the Board will favor them with a sight of their order to this effect, and they beg also to be favored with the Board's opinion whether the continuance of the practice is necessary and whether it might not be modified to the extent at least of allowing the Talsildar when sending up his monthly remittance, to detain the amount of his probable disbursements during the ensuing month, under the orders of the Collector. Para 1 The Governor in Council observes from the explanations furnished in the Proceedings

one Amount and that the Collector be instructed to establish the identity of all the Pensioners and calling for a report on the present state of the Tungerkhanah at Vellore.—

Proceedings of the Board of Revenue 22d. May 1851 No. 223 that, all the allowances under retrenchment have been continued under the orders of the Board issued more than 20 years ago.— He does not consider it necessary, after so long a period of enjoyment to enter into any review of the particular grounds on which the allowance in each case was renewed by the Board, but in sanctioning the payments made from Fusly 1252 to 1256 and subsequently and the continuance of the allowances to the present incumbents amounting per Statement submitted by the Collector of Cuddapah on the 12th September 1851 to Rupees 2,143 — 4 — 5 per Annum, he desires that on the occurrence of lapses, the circumstances of each family may be reported for the orders of Government in the prescribed form, and no further payment may after any such lapse without their positive sanction.— A copy

† Amount charged from the Fusly 1252 to 1256 Rs. 10,528-12-8

copy of the Collectors' Statement above referred to will be furnished to the Civil Auditor for his information and guidance.

2. It appears from the Collectors remarks on the cases of the two individuals named in the margin that the pensions originally granted and paid to them have since 1843 been reduced by Rupees 8-6 and Rupees 34-8-0 per Annum respectively in consequence of the death of their brothers for whose support these sums had been allowed by them. If, as it would seem, the provision in these cases was made by the Heads of the respective families as a private arrangement among themselves the sums assigned under it should not have been resumed on demise of the parties by whom they were enjoyed, but allowed to revert to the Grantee in whose name the full amount was originally registered. The Board will

3. The Government consider it objectionable that these allowances which are enjoyed by one and the same party should be entered in the accounts in two different names and he therefore directs that they be in future blended and registered in one amount, Viz.t. Rupees 206-8-0 per Annum in the single name of Baratummah, as the Widow of Cossary Chanry.

4. Referring to the length of time which has elapsed since the renewal of all the Pensions borne in the Collectors list in the names of their present recipients, the date of the most recent order being August 1828, the Board will instruct the Collector to be careful to have the identity of all the Pensioners duly established

tained and registered before any
further payment is made to them.

From the manner in which these sums have been accounted for it is evident that the Demand Collection and Balance Sheets, and their Enclosures for the period ending 11th July 1851 do not exhibit the total Beriz of Fusly 1260. These Statements are therefore returned to the Acting Collector whose request to the Acting Collector is requested to revise them by giving the total demand for Fusly 1260 distinguishing the portions received in to the Treasury up to and after the end of that Fusly under the respective heads of "Collections within the Fusly" and "Subsequent Collections"

2. The Board also observe that the balance to the end of Fusly 1260 of the Guntoor Division of the Jaghiry Talook, transferred from Nellore

North Arcot to Chingleput has been retained in the Demand Collection and Balance Sheets of the former District, instead of its being deducted from them - In the Demand Collection Balance Statement from Chingleput for the Months of August 1851, the balance of the transferred Villages has been included. consuming the Grass.

2. Captain Templer informs us that the demand in question formed one of the stipulations entered by Triumbaka Row in his Tender accepted by the Military Board, but that it was not noticed in the Cowle granted him upon it by the Board.

3. His claim as a question of right is inadmissible, but as Captain Templer mentions that Triumbaka Row has been a great loser by the injury done to the Grass by the Village Cattle. I think it might be granted as an indulgence should such be also the opinion of the Board, I beg leave to request that they will sanction my paying over to Triumbaka Row, as an indulgence, the sum of 4 Rupees being half the amount of fines levied on account of Cattle trespassing within the Fort of Arnee from the 7th December 1850 to 30th June 1851.

inoculation in India, I have the honor to state for the information of the Board that judging from what I have heard of the practice in this District I should say that no enactment of the kind mentioned is necessary. Inoculation is here so rare that it can hardly be said to exist, while very little prejudice exists against Vaccination amongst any class of the community. I have further the honor to state in connection with the subject that Rules have been lately framed with a view to the better distribution of the Vaccinators and to secure as far as possible accurate Returns from them.

From the Collr. of Trichinopoly.

Sir,

I do myself the honor to

Fort St. George 3d November 1851.

to submit the information called for by your Circular letter under date the 24th March 1851 with respect to the extent to which the standard Weights and Measures enjoined by Government are in use in this District.

2. On my assuming charge of the Province last March I caused the wishes of Government in the matter to be generally made known and published to all the Merchants and retail Bazar Men of the Country inviting them to take Counterparts of the Standards prescribed.

3. Considerable unwillingness was at first exhibited, but since the past two Months the Standards Madras Measures and Weights have been in general use not only in the Great Bazars of the City, but in the more considerable towns of the interior. Many Weights and Measures have likewise been tested and stamped with the dies some time ago furnished by Government for this purpose. There is however much reluctance still to the general adoption of these new Weights and measures and this must continue to be

3d July 1851.

be so until the Native prejudice is overcome.

4. I do not think it is necessary or expedient to offer for sale as proposed in para 4 of your Circular, Scales, Weights and Measures. As the habit of the use of the new Standards becomes familiar the Native Community will adopt the new order. More especially since the Tahsildars and others in authority in the Talooks have been enjoined to urge the Merchants and Bazarmen to make the new Weights and Measures, and bring the same for testing and stamping at the taluk Cutcherry of Canaud.

5. The Price lists furnished to the Commissariat Department. The Officer Commanding the Division and to your Board are prepared according to the Madras Standard and with great accuracy.

6. The Statement required by para 8 is herewith submitted in the prescribed form. The Measures detailed have been tested before myself in the manner recommended.

Sir,

To the Coll.r of Trichinopoly

Requesting further information respecting the use in his District of the Standard Weights and Measures ordered by Government.

I am directed by the Board of Revenue to request further information from you on the following points connected with your letter of 15th October 1851 -

2 - It is observed from the Enclosure that the Wet Talocks Rice is made to weigh invariably 9 per cent heavier than Horse Gram, whereas in the Dry Talocks it appears invariably to weigh 6¾ Cent more. Can this discrepancy be explained?

3 - The Board would also observe that numerous Experiments in Madras tend to shew that Grain weighs more than Rice, whereas your returns give a directly contrary result.

4 - It was intended that the trials should be made with all the Measures with the same Grain (not less

Fort St. George 3 November 1851.

less than 6 Months old) and with the same Rice (Puteh Arisee) Has this been the case?

5 - The fact of all the different Talocks weighing measures from all the Talocks weighing when filled with water exactly the same to ½ a Tola, is extraordinary - You will be good enough to state if one measure only of each sort was used as representing all the Talocks or if the measures of the different Talocks were actually tested, and where?

6 - The Board are aware that a Cullum is a nominal measure of 12 heaped Measures, and desire to know - how many Cullums (or heaped Measures) are supposed to go to the Garce, mentioned in your authorized Grain Price Lists and whether the same number of Cullums are adopted for the Dry as the Wet Talocks in preparing these Lists.

From the Coll.r of Madura
Enclosing Copy of a Diary order of the Civil Court of Madura refusing to grant an extension of time for making an appeal against the decision of the Subordinate Court in O.S. No. 22 of 1849.

With reference to the correspondence noted in the Margin I have the honor to transmit Copy of a Diary order of the Civil Court of Madura, declining to grant an extension of time to make the appeal against the Decree of the Sub Court in the Contentious Suit in question on the ground of inability I beg however to state that a brief Petition of appeal has subsequently been admitted by the Court vide cause of delay being shown under Clause 4 Section XII Regulation IV of 1802, and that the Petition approved by the Board will be filed as soon as translated

To B. of R. 21st Augt 1851
From Do. 24th Sept.r "

2. My reason for submitting the Diary order is to ascertain whether the Board deem it proper to acquiesce in the ruling of the Court that Sections II & III of Regulation I of 1823 are inapplicable to

14499 Fort St. George 3d November 1851.

to appeals by Public Officers. The letter of the Regulation, certainly, only applies to answers to Plaints, but as delay is requisite whenever a reference is to be made to superior Authority it is reasonable, that extension of time should be granted for appeals, and desirable, that such extension should be secured by Law, and not depend on the will of the Judge.

B. In the present instance, no time whatever was lost by me in submitting the Appeal Petition, nor was there any delay that could be avoided on the part of the Board, yet the necessary sanction could not be conveyed to me within the Month to which the period of appeal formerly 3 Months under Clause 4 Section XII Regulation IV of 1802 has been reduced by Clause 1 Section VIII Regulation VII of 1849, and the translation of a long Appeal Petition necessarily takes some time.

It seems to me impossible

4. that an Appeal Petition in an important case can be prepared with

with due care by a Collector encumbered with other heavy busines so transmitted to the Board of Revenue from a distant Zillah receive proper consideration on the part of that Authority and by Government, be retransmitted to the Collector, translated and submitted to the Court, within the short period of 1 Month, and I would suggest that if it be considered that a right to extension in regard to appeals cannot be maintained under Regulation I of 1823, a Special Enactment may be passed to secure to the Government Officers a privilege which is absolutely necessary to place them on an equal footing with litigants in general.

3. This Decrease is attributable to a large consumption of Tinnevelly Salt brought back by Bandies conveying Cotton and grain from this District and from Coimbatore - From the accompanying correspondence with the Collector of Tinnevelly it will be seen that formerly the Gomastahs at the Tinnevelly Pans refused Salt for Consumption in

in other Districts and that this restriction has recently been very properly done away with. The Salt Revenue of this District has suffered in consequence, and will probably suffer still more, when the Cotton Roads in Tinnevelly and Ramnad are completed; but, as there must be a corresponding increase in the Tinnevelly Revenue Government does not lose while the Carriers of Cotton and Grain & the Consumers of Salt are gainers. It will only be necessary that I should contest any manufacture of Salt. I trust that this explanation will be satisfactory to the Board, and that they will agree with me in thinking the removal of the restriction in Tinnevelly a beneficial measure.—

4. The annexed Statement will show at one view a Comparison of the quantity of Madura Salt Consumed in the different Talooks during Fasslies 1259 and 1268, and of the quantity exported to the neighbouring Districts, as well as the quantity of Tinnevelly Salt consumed in the different Talooks in this District during the Fasly under report.—

16. The Charges for Salt have already been explained - The only other Items requiring remark are the Charges for Sea Customs which exceed those of Fasly 1259 owing to the payment of Rs. 1,080 — 2 — — a p. for the repair of the Cutcherry at Peelakurray - This excess was reduced to Rs. 871 — 14 — 10 by a reduction in the Establishments from September 1850 under the Orders of Government noted in the Margin.

Sir

I will be necessary
I will be obliged to explain to the
Board of Revenue the cause of the large
decrease that shall have taken place
in the Revenue collected in this District
during the Fusly 1260 as compared with
the preceding three years.

I have also to request that the

information of the Board of Revenue.

I am also to request that the
Rates of the Mukkuna Rate

Sir

I am directed by the Board of Revenue to request that you will report for the information of the Board the Quantity of Cotton which has been exported from Tinnevelly during the Fusly 1260 and the Quantity of Grain which has been imported into Tinnevelly by Bandies during the same year.

The Board is desirous to be informed whether the Decrease in the Revenue of the District is to be attributed to the Failure of the Crops or to any other cause.

I am Sir
Your most obedient Servant

at the Tinnevelly Pans against delivery of Salt to bandies coming from the Salt producing District of Madura. and I shall be much obliged by your informing me if such is the case.-

I beg that you will not suppose that I intend to make any complaint of the increase in the Tinnevelly Export or the removal of the prohibition alluded to. On the contrary I view it with great satisfaction though my Salt sales are thereby decreased. It is impossible to apply any terms but those of reprobation to a policy which condemned the cultivators of cotton to lose all profit or hire from their return bandies.-

I am informed by some that the import arises not from the removal of a prohibition at the Tinnevelly Pans but from its being perceived that I will not enforce a rule formerly existing in this District that Madura bandies should not as bring back Tinnevelly Salt. You may rely

rely upon my not renewing such a pernicious order.-

Sir.

I have the honor to forward copy of a Memorandum received from the Acting Head Assistant Collector of this District in answer to an enquiry made by you in the 3rd Para of your letter to me of the 31st Ultimo.-

2. It seems probable that the orders alluded to by the Acting Head Assistant Collector may have removed an impression that Salt should not be sold for inland consumption (that is in contradiction to home consumption) and thus caused the increased export during last year adverted to in your letter.-

In reply to Memorandum
No 725 dated 6th Instant enclosing
a letter from the Collector of Madura,
the Acting Head Assistant Collector
has the honor to state that on the
11th of October 1849 the late Chowkeydar
of the Manjumcolum Salt Pan wrote an
Urgee to this Office asking whether Salt
might be delivered to Bandies com-
-ing from Madura, and an order was
sent in reply dated November 12th
following to the effect that Salt should
be sold to any one wishing to purchase
it though he might come from a dif-
-ferent Collectorate. Previously to that it
was the custom for Salt to be sold for
resale in this Collectorate only, though
there does not appear to have been
any express order on the subject, since
then the same order has been circulated also
to

Village of Chuttrum Poodoocolum is already held under highly favourable tenure and directed that the levy of the Yavany be continued as usual - But as the Village in question has been recently incorporated with Government lands agreeably to the Orders conveyed in the Minutes of Consultation of 7th July last, and pays full assessment to Government; it now stands in the same position as the other Villages in which the demand for Yavany has been relinquished and that for Curruvu and Yarymarahs established instead. I therefore beg to recommend that the Petitioner's request may now be complied with -

Sir,

I have the honor to submit Copy of a Memorandum received from the Sub Collector in whose Division the Paryoor Zemindary is situated explaining the circumstances complained of in the Petition No 1321 of 1850 herewith returned.

Encl. No 1 -

Memorandum -

It is set forth in the Petitions * addressed

* herewith returned -

addressed to the Board of Revenue by the Mother of the minor Zemindar of Paryoor that the Chain which has been hitherto used for measuring the Poonjah lands appertaining to the Cusbah and 28 other Villages attached to her Zemindary, consists of 32 bhagums each measuring 2 yards and $6\frac{21}{160}$ inches and that agreement was formerly entered into with the late Zemindar by the Ryots that the Lands should be measured by such a chain, that this being so, the lands now measured with a chain of 32 bhagums each measuring 2 yards and $8\frac{20}{160}$ inches and that consequently there is a loss incurred by the Zemindar of $1\frac{1}{4}$ bahgums in every chain of 32 bhagums.

The Ryots of the Paryoor Zemindary addressed in the year 1848 a petition to the Board of Revenue complaining of the manner in which their Lands were measured, and requesting that the local authorities might be instructed to direct that a correct measurement should be made. This correct measurement they stated would result from employing as a measure the length of a certain mark cut on the face

of the Mattamala rock- This petition was referred to the Tahsildar of Stree villapoottoor for enquiry who in his reply dated the 7th March 1849, stated that in the ayaut accounts of the Zemmundary it was entered that a chain consisted of 32 bhagums; but it was not mentioned how many yards a bhagum contained, and he added that he had measured the mark in the rock referred to by the Ryots and found it to be 32 bhagums as stated by the Ryots. An order in conformity with a yadast received from the Collector's Office was issued to the Tahsildar directing him to make use of the measurement on the rock in measuring the lands in question-

The allegation contained in the Board Petition under reply that on a certain night in Tusly 1229 the Ryots and others proceeded to the Mottamala rock, and cut thereon the mark in question is disproved by the fact that the late Zemindar never made any complaint on the subject, the Vakeel of the mother of the Minor Zemindar when the case was personally investigated by

by the Sub Collector alleged that the mark had been cut without the Zemindar's permission, but he could not explain the Zemindar's silence on the subject-

The petitioner further states that in the ayaut account of the Village of Vellore in the Paiyoor Zemmundary it is written that the chain to be used in measuring the lands of that Village should be 50 bhagums in length and that nevertheless those lands have been now measured by a chain comprising 32 bhagums- When the Tahsildar investigated this subject the Ryots maintained that the measurement mentioned in the Ayaut account was a chain of 50 thopul or naval bhagums, which would be equal to 70 kay or hand bhagums, and that the lands were formerly measured by the thopul or naval bhagums as would be proved by reference to a former Razeenamah, orders and decree of Court.

The Tahsildar on enquiry found that the ayaut accounts stated that there was no mention either of the kay bhagum or the thopul bhagum but only that the

The thopul or naval bhagum is the length of a rope of which the ends are held in each hand with the arms extended to their farthest extent and which is supposed to fall in the centre to the navel of the person. The kay bhagum is the length of the arm from the shoulder to the end of the fingers.

14535- Fort St. George, 3rd November 1857.

In the Court decree produced by the Ryots and in former orders on the subject no mention is made of the lengths of the bhagums nor is the term hay bhagum or thopool bhagum made use of. The statement of the Ryots was confirmed by the Nº Curnums, Natamigar and others, and the Tahsildar found on measuring some Poonjah land of which the asayamaul had been preserved, i.e. which was in the same state as when the ayacut accounts were framed, that if measured by the thopool bhagum it exactly corresponded with the ayacut account. It appears, moreover, from the Cultivation and Jummabundy accounts of the Zemindary that a chain is always held to consist of 70 bhagums, and 70 hay bhagums as before mentioned, correspond with 60 thopool bhagums, and 60 is the number of bhagums which a Chain should comprise according to the ayacut account.

Statements connected with the Extra Revenue Settlement of the District for Fasly 1260 exhibiting an increase of Rupees 29485-4-6 particularizing the increase and decrease under each head, as well as the Demand, Collection and Balance and recommends that the irrecoverable arrears of Rupees 8 3 8 may be written off in the Accounts.

Sir,

I have the honor to forward the Statements connected with the Extra Revenue settlement of this District for Fasly 1260.

2 A Sum of Rupees 15 13 5. the sale proceeds of Sayer smuggled goods, set aside last year for the distribution of reward to the Parties who discovered the same was carried to the credit of Government in the present Fasly which will explain the cause of the increase under the head of Sayer - independent of this item there have been no receipts or charges of that character.

3 The rent of the Abkarry Farms amounts to Rupees 80551. or 7195 above the demand of the preceding Fasly produced by contested biddings. the whole revenue was recovered within the past month.

Bd No 2073

From the Coll of Canara

To F. N. Maltby Esqre Collector of Canara.

Sir, It was my intention on your return to the district to apply for one month's leave of absence under provisions of Section XI of the absentee Rules to proceed to Vellore and Madras on private affairs. In the mean time however I have been appointed acting

Sub

Sub Judge of Mangalore from the date of Mr Lascelles's departure from Honore.

Though Mr Lascelles's movements are at present uncertain, there is considerable probability that they will be such as would admit of my obtaining the leave I require, and being again in Mangalore before he can leave the coast. Under these circumstances alone, I wish to avail myself of it if granted, and have therefore the honor to request that you will have the goodness to forward to the Board of Revenue my application for one month's leave of absence / for the purpose, and under the Section mentioned above / with your favorable recommendation.

As any difficulty that may arise with regard to my obtaining leave, will probably have reference to the acting appointment to which I have been lately gazetted, may I request the favor of your forwarding a copy of this letter to the Judge of the Sudder Adawlut.

Sir.

With reference to the Board's Proceedings under date the 27th. January last requiring me to report on the condition of those estates of incapacitated Proprietors which are not under the management of the Court of Wards. I have the honor to state that Saravilly Suvaram is the only estate so situated. Villella Mruthum jarow who died in [illegible] Government an annual Peishcush of Rs. 300-3-11. on account of that Village. His Son. Jana Kiram Mruthunjaya row Bhara, being a minor Lakshmanarasamma, his mother and guardian, was permitted to have the estate under her own management. The sanction of Government under date the 1st July 1848. communicated with their orders by the Court of Wards on the 13th idem, was granted with this proviso, that whenever they might deem it necessary they should take it under their control.

This estate contains thirty

Candies of land. The ryots have withdrawn from it, but it is cultivated by those of the neighbourhood on a bond from the Guardian. The land lies low and it is flooded every year by the Godavery.

During the first five it was under the late Zemindar, and during the three last under his widow. An increase in the Collections has occurred under her management, but according to the practice prevailing among Zemmindars the Shist had

has been kept up as high as possible, and the balances of former years are held over the ryots heads. The balance now amounts to Rupees 780-4-0 of which Rupees 590-2-0 are irrecoverable owing to the death, or flight, or poverty of the ryots who owe it. The Guardian reports the remainder, Viz.t Rupees 190-2-0 to be recoverable during this current fusly.

To save the estate from being

The minor is seven years of age.

Remarks thereon.

Under the circumstances represented by the acting Collector, the Board of Revenue support that Officer's recommendation for renewing the service yeomiah of Rupees 132-12-" per annum in the name of Mahomed Davood the son of the present Yeomiahdar, Mohomed Abdoollah, who is incapacitated for

Proceedings thereon.

As the subject of the Collector's letter of 19th October 1850, entered in the above list, will be disposed of in communication with the Commission appointed for enquiring into the Department of accounts, it seems unnecessary to retain that paper any longer as an arrear against the Board. Mr. Ward will therefore be so good as to omit it in his future arrear Lists.

27

B. No. 2078.

From the Collector of Salem

Sir. I have had the honor to receive

Fort St. George 6th November 1851.

receive the Extract from your Board's proceedings disposing of my communication relative to Messrs. Cockburn and Sinclair's objections to the Puttahs issued to them in Fusly 1259 for their Coffee plantations on the Shevaroys, and am concerned to find myself under the necessity of again troubling the Board in this matter.

2. It is observed in para 2 of these proceedings that if an Isteyar to the effect shown in the preceding para, "was proclaimed, it appears to the Board that Messrs. Cockburn and Sinclair, and all Settlers, must have been aware of the reservation; and if it appears in their original Durkhast it is of no importance whether any Moochilka was obtained from them or not, annually, as the Government have deemed the signature of each Ryot to the Village Schedule to be sufficient for securing the interests of the State."

3. It becomes my duty to mention that no Durkhasts whatever have ever been received from such of the settlers as hold lands which they have obtained direct from Malleealies, I have already represented that Mechelkauze have not been taken from

Fort St. George 6th November 1851.

from parties cultivating on the Shevaroys, and I regret that para 3 of my letter dated 16th Ultimo should not distinctly have shown that Durkhasts had not been accepted from the old settlers in possession of lands prior to the Hills coming under Amany.

4. The point, however, is of some importance, I submit, in connection with the opinion of your Board above quoted; and I, therefore, with due deference, beg to bring it to notice.

I have &c.

(Signed) A. D. Phillips.
Collector.

Salem District,
Ossoor,
Collector's Cutcherry
26th August, 1851.

The Board in their Proceedings of August 21st 1851, mentioned two reasons for supposing Messrs. Cockburn and Sinclair not unacquainted with their liability to change of assessment in the event of a survey - 1st that an Isteyar had been published to that effect, and 2dly that Durkhast had been given by the Settlers in which the conditions prescribed by the Board were introduced

B. No. 2175.
Proceedings thereon.

Observations of the Board on the objections of Messrs. Cockburn and Sinclair to the Puttahs issued to them in Fusly 1259 and requesting the Collector to afford further explanation on the subject.

27-28

From Collr 20th May 1851. 4th para

From Collector 16th July 1857. para 4. inf. 21st Augt 1857.

introduced either of which circumstances the Board supposed would meet the objection that no Moochilkas had been demanded of the Parties.

2. In the letter now under notice Mr. Phillips explains that no such Durkhasts have been received, and considers the point of some importance.

3. This circumstance alone does not in the opinion of the Board justify the conclusion which they suppose the Collector intends to draw; namely that the conditions above referred to should not be pressed especially as Mr. Phillips has himself informed the Board that there can be no valid objection to the insertion of the clause in the Puttah, to this they would draw his attentions.

From Coll.r 20th May para 13.

4. Again in his letter of 16th July 1857 para 6, whilst he seems to urge the issue of Puttahs "similar in all respects to those granted them before" he states that no changes in the assessment could be resisted with any chance of success.

5. The 2 other objections made by Messrs. Lockburn and Sinclair have been admitted

admitted. That which required them to hold the land at the disposal of Government at the expiration of 21 years seemed unnecessary - The other as to giving up lands for Roads &c. will be provided for shortly by a Legislative Enactment; but this regarding the increase if necessary, of the rate of assessment, on a subsequent survey assessment of the Shevaroys is one that at once affects the rights of Government - This right was distinctly affirmed in the correspondence noted in the Margin. Messrs Lockburn and Sinclair recognize it or they do not - If they do, there can be no reasonable objection to the proposed clause; if they do not, it is time to have the question determined.

From the Off.g Coll.r 23rd Augt 1842. Board's Proceedings 8th Sept.r 1842.

6. For this latter purpose it does not seem absolutely necessary that any change should be made in the form of Puttah. The object of the Board is not to harass the Landholders with uncertain liabilities, but to prevent the rights of Government being set aside or lost sight of. They therefore consider that it will be sufficient if the Collector again gives to Messrs Lockburn and Sinclair and to all others holding land on the Shevaroys, individual and official notice, that the rates now in force are only temporary

as

For Ft. St. George 6th November 1857.

as already declared, that they will be liable to revision and change on the introduction of a regular Revenue system, and that Government will exercise their undoubted right of raising the Teerwa if circumstances require it with reference to the productive power of the soil and other advantages, except in those cases where there may be any express stipulation to the contrary made on behalf of the Government.

7. Should the question ever be tried before a Civil Court this notification will prove that the Board in complying with the wish that the form of Puttah should not be changed have never waived the claim which they consider is the right of Government.

From Coll.r 20th May 1857 paras 9 & 10 — In Cons.s 15th June 1842.

8. The Board observe that Messrs. Cockburn and Sinclair lay much stress on their having obtained land direct from the Mallialies but such a right of transfer cannot be recognized. Mr. Gleig's Report 20th May 1842 clearly shows that no proprietary right was acknowledged by Government and that the assessment was not fixed, but varied with the circumstances of the cultivator. The Collector should be careful therefore not to give cause for such an admission as is now claimed, and the Board would wish to be informed under what circumstances persons could receive puttahs from the Mullialies, as stated in the 12th para of his letter of 20th May 1857.

From Coll.r 15th July 1857. para 11.

9. Neither is it quite clear what Mr. Phillips means when he says "The bulk of the ground held by such settlers "may, however, by reason of its having been procured from the Maliahs "before the Hills came under amany, be liable to the operation of more of "those stipulations, excepting the original one for an eventual change "of teerva" The Board would wish to be informed what original stipulation the Collector refers to.

10. Another remark the Board have to make is that the Puttah transmitted to them in Mr. Phillips' letter of 20th May 1857 does not correspond with their instructions as laid down in their Proceedings of 3rd Nov.r 1849.

11. Mr. Phillips will therefore deliver to Messrs. Cockburn and Sinclair their puttahs in the usual form, and notify officially the rights of Government as explained in para 6 of these Proceedings, and will offer any further explanation to the Board as may be in his powers.

No. 1628.

Sir,

1. I have the honor to report on the Land revenue Settlement of the Salem District for Fusly 1260, and to submit the prescribed accounts in Maratta and English.

Mode of Settlement.

2. The Jummabundy and distribution of Puttahs were made in each Talook at the Stations and by the Officers mentioned in the following table. The Jummabundy of the two divisions ordinarily under charge of the Head Assistant Collector Mr. V. W. Dykes being conducted by myself in consequence of the transfer of that Gentleman to a Judicial office in the Madura District when he was about to commence their Settlement.

Population Houses and Cattle.

6. From the annexed Abstract Your Board will obtain a comparative view of the Census of the present and the past Year.—

Females	447677	585495	137818	"
Total	941944	1195367	253423	"

The increases severally exhibited in it must mainly be attributed to the accounts received from the Subordinate Village Officers having been prepared with more care than usual and a greater degree of accuracy

Consequent-

February 25th 1851. consequent on your Board's Circular instruction
of the date noted Marginally.— A decrease of
930 head in the total number of Buffaloes is
apparently consequent on the prevalence, to an
inconsiderable extent, of a murrain among
that description of Cattle.— On reference to the
Statement No. 23. detailed Statement, your Board will perceive
that the total number of Houses in the entire
District is 3,42,965 and that its Population consists
of 11,95,367 souls, or an average of 3½ persons per
House. During the administration of this Collectorate
by Mr. J. Orr, its census was taken in Fusly 1245
with considerable precisness and attention
but the returns of subsequent years were
prepared on the doubtless inaccurate or loosely
drawn up data received from the Curnums—
According to the returns of Fusly 1245 the
population was 9,05,190 being below that of the
year under review by 29,977. A careful Census
was also made by Colonel Reid of the Pycaul
and Baramahl Talooks, in Fusly 1207. The
result as then ascertained is shown below

Men

	Men	Women	Total
Fusly 1207 excluding the 2 Talooks of the Balaghaut	3,03,282	2,99,970	5,94,252
Fusly 1260 excluding Do	5,34,122	5,16,836	10,54,958
Increase	2,34,840	2,25,866	4,60,706

The area of the whole District is
calculated at 8100 Square Miles, which
assuming the Census Returns now Sub-
-mitted to be accurate, gives 147 souls
for each Square Mile — Adverting also
further to the aggregate Demand of the
District, inclusive of its Extra Sources Viz.
Rupees 19,66,934 — 8 — 7, it is found that the
rate of assessment as bearing on the
number of its adult population is Rupees
3 — " — 6 per head.—

Males 3,90,910

Sources Irrigation. 7. Entered below is a Statement
of the Tanks, wells, Nullahs, and other
Sources of Irrigation which are available in the District.

Fort St. George 6th. November 1851.

In consequence of repairs having been ex-
-ecuted to some of the Tanks and Wells previous-
-ly out of order and useless, it will be observed
that the aggregate of the reservoirs which were
inefficient in the Current Fasly is less by 12
than that shown in the past one. This result
has effected a corresponding increase in the
Total of Tanks and Wells in good order. The
number of Wells newly dug by private indi-
-viduals at their own expense, is 67, of which
11, respectively excavated at an outlay less
than 20 Rupees without the permission of
the Authorities previously obtained, or near Govern-
-ment Sources of irrigation, have not been
allowed the ordinary exemption from in-
-creased Assessment for the Crops grown under
them. The remaining 56 were sunk after
Authority from the proper Revenue Officers
of the District had been solicited and received.
The Lands which they irrigate have in conse-
-quence been held liable only for the Tierwaor-
-ginally imposed on them. The detailed
particulars of this Head are contained in
the Statement noted Marginally.

No. 19.

The

Season.

8. The early prospects of the year were sufficiently fair, owing to the rains which then fell, being timely and favorable. In June and July however, the Munjah and Poonjah Crops in some of the divisions suffered from insufficient moisture, and were partially scorched. In September and October the drooping produce revived under the effect of ample falls of rain and on the whole the Fusly was far more favorable than the preceding one and left but little to desire.

9. Although on a Comparison with the previous Year an increase is apparent in the extent of dry and wet land engaged to be cultivated, yet the partial disappointment felt in some parts of the District in the expected periodical rains led to an unimportant part of the fields taken up being left untilled. Indeed in a few localities in Talooks Oojoor, Denkanacotta, Tengaracotta and Kistnagherry, this deficiency caused a complete failure of the crops but not to any important extent or sufficiently to justify a requisition from my Office for accounts of withered produce.

produce. Generally the outturn of the harvest in the Southern Talooks was very satisfactory, the Poonjah being considered to have yielded 3/4 of an average Crop, the munjah 1/2 to 3/4 — In the Baramahl the outturn seems to have been the reverse of this. — In the two divisions of the Balaghaut the dry lands returned a fair average Crop, whilst that produced on the wet lands is believed to have been half the ordinary yield. On the whole the outturn of the dry crops throughout the District may be taken at 7/8 that of the wet Cultivation at 3/4 of an average harvest.—

Cultivation.

In the Talooks Salem, Kistnagherry, Tripatoor and Raizepoor, the quantity of dry land brought under the plough was less than that cultivated in the previous year, by Acres 3,036- 34- 11- against an increase in the other divisions of Acres 11,655- 34- 13, the net increase being Acres 8,619- " 2- In each of the 14 Talooks the extent of land on which wet crops are grown was in excess of the quantity cultivated in Fusly 1259-

											Net	15,686	11	13	46,008	7	10				

11- The Marginal table shows in detail the aggregate extent of cultivation under all heads, from which has been drawn the land revenue of the fusly under review- The demand of the year, it will be seen, was higher by Rupees 46,008-7-10 than that of the previous year.

12- Agroos increase of Rupees 8,1827-3-" results from lands lying fallow having this year been newly brought under the plough, from some of the fields relinquished having been taken up by new occupants from transfer of cultivation from certain Cowles having

having reached the full teerwa rates, and from the date of certain others having progressed towards a higher Amount. Deducting from the above mentioned Amount, Rupees 73153-3-", the demand on land thrown up by ryots whose means are reduced, of Sulding's struck out of the accounts of the Dummahlundy, in consequence of the death or emigration of the tenants, and of lands in which a transfer of cultivation has occurred, there remains a net increase of Rupees 8674--

Poonjah Bagayet

13- Under the head Poonja Bagayet, a net decrease occurs of Rupees 613-11-6, which is caused by deducting from a gross decrease of Rupees 5,804-4-4 a gross increase of Rupees 5,190-8-10-

Kunjah

14- The gross increase in this description of cultivation is Rupees 54,245-15-3, whilst the gross decrease was Rupees 16,787-6-4. This result was occasioned by lands being relinquished by Ryots, by certain tanks having received a deficient supply of water, and by casual inundation. The net increase is Rupees 37,688-8-11-

Kunjah Bagayet

15- In Kunjah Bagayet there appears a gross increase of Rupees 700-14-6 owing to certain cocoanut and betel nut trees planted on wet land having this year commenced to yield produce, and on that account been charged according to local practice either, double teerwa, or the standard

standard assessment on the wet land of the first class. The fact of certain lands relinquished in the first instance having been subsequently taken up, is another cause of the gross increase, deducting from which a gross decrease of Rupees 441-4-1 the clear increase is Rupees 259-10-5-

16- The detailed particulars of the aggregate of the several increases and decreases above mentioned being exhibited in the Statements marginally noted, it is not necessary to here enter upon any further explanation of them-

Stat. P. 748.

Prices-

17- The general market rate of most of the Grains grown in the District fell below the selling price of the previous year, the exceptions being Buller Wheat Bengal and black gram for which a somewhat more favorable market was obtained- A deficient harvest of Buller a rather general blight from which the black gram suffered and less importations from Mysore of Wheat and Bengal gram are the supposed causes of the enhanced value which these four descriptions of produce are shown to have borne. Salt appears to have been disposed of at a higher figure in consequence of a diminished supply from the coast for inland consumption-

Enam Jodiggy. 22. The small decrease in the Enam Jodiggy is caused by the circumstances stated below.

Acres. 7-5-10
Gross 10-7-1
Jodiggy 11-10-4.

One Gunnaputty Ayen who held a jodiggy Enam in Varoor-ay Putty Taluk Sen Kerry drong Valle to a Jodiggy of Rupees. 0-10-4 died without issue prior to Fusly 1256, since when the amount of Jodiggy due has regularly been included in the Ayen arrears — and periodically written off the accounts. The requisite usual notification having

been this year issued without causing the appearance of any heirs, or eliciting the payment of the Jodiggy balance within the prescribed period the Enam was resumed.—

Acres. 31-35-12
Gross 46-14-3
Jodiggy. 5-13-8.

Similar measures were taken in regard to the dry land Buttwarty Enams of two individuals named Copien and Chinna Raya Ayen situated in the same Taluk, on which since Fusly 1257. a jodiggy balance had periodically accrued consequent on the demise of the Enamdars without any heirs.— Another

Acres. 4-26-9
Gross 4-2-7
Jodiggy. 1-9-6

Enam situated in Doddamunchee Taluk. Dien Brandcotta, was this year relinquished by the Enamdar Venkataya, who from poverty was unable to pay the quitrent.

Acres. 12-27-12
Gross 13-1-7
Jodiggy 2-7-2

A like reason induced one Anuntiah to resign his interest in the Enam which he held in Yalaghurry Taluk Dharumpoory.

Full Gasthee levied on Enams is higher than in last year owing to a greater quantity of Enam having been converted into Nunjee and Bagayet by means of Government water.

Neercoly. 24. The Neercoly or value of the water in Government Villages, which may have been used by Ryots residing in Jaree Mootahs or Polipute, is less than in the preceding Fusly by Rupees. 43-14-8 from the opposite reason

Coule lands 29. The under written Table exhibits in a concise from the particulars in regard to Coule lands which are contained in Statement No. 10- This class of cultivation has been greatly augmented by the taking up in the present year, of a large quantity of waste land, almost the whole of which, being entitled to entire exemption from assessment, a corresponding increase in the amount of settlement has not been created, whilst a number of the Coule holdings of preceding years having become liable to a full assessment the reverse effect has been produced in the demand on account of Coule lands.

Ryotwar Tabled, Ploughs.

30 Ole comparatively favourable character of the cultivating season of the year under review, appeared to have induced individuals to engage in agricultural pursuits who were not previously so employed and has encouraged others to extend their holdings. The circumstance added to the decision of several ryots on entire holdings which has taken place, will explain the addition of the number of cultivating Ryots of Ploughs to the number of cultivating Ryots of Ploughs and pattahs, observable in the statement entered below.

Caboolaty Bunjer.

32. The Statement subjoined exhibits the extent of Caboolaty Bunjer for which it was not deemed expedient to shew indulgence by the remission of the assessment to which it is liable. Compared with the previous year, there is an increase of Rupees 2,357—8—6 under the five heads which the Statement embraces, the nature of which is sufficiently indicated in the Statement itself. Ample enquiries were made at the Settlement in order to ascertain whether under the circumstances of the more favorable season, there were fair grounds for relieving the land left uncultivated from the assessment due on it, and in no case was it imposed where a moderately good excuse could be assigned for a non performance of the cultivation engagement.

38 The Statement entered in the Margin exhibits comparatively the Demand Collection and Balance of the current and past Fusles, from which it will be observed that the per centage of the arrears standing against Jaury Mostahs and Government Villages at

at the close of the fusly under report is respectively Rupees 3-7-4 and 4-1-5 below that of the preceding year-

37. The balances due on Sayry or Mootahs amount, as shown in Column 11 of the foregoing Statment, to Rupees 14,749-2-11- Of this sum it is expected that Rupees 9,826-10-5 will be realized on or before the 27th October, the date fixed for the sale of such Estates as are at present under attachment- The remaining balance is payable on the Minor estates of Cadathoor and Samoodrum in the proportions noted marginally- Although guardians have been appointed by the Zillah Court for the superintendence of the minor proprietors estates, it has been found necessary to take them under attachment for arrears, and they are now managed by an appropriate establishment- The balances against these two estates cannot be adjusted until the minor proprietors attain their majority, which they will shortly do, when the necessary report will be submitted-

38. The amount of arrears due on Government Villages is Rupees 9,950-9-10. being an unimportant per centage of Rupees 12-2 of the total demand for the year on those Villages- Of this balance, a sum of Rupees 2,544-13-8 is due, partly by the Agraharums of Devaroy Samoodrum and Pandamungalum in the Paramitty Talook which have been ordered to be resumed from fusly 1261 and partly by the Jodigy Agraarums of Condalum now under attachment for arrears of kist- Inclusive of this amount which has hereafter to be adjusted, Rupees 6,292-7-8 may be deemed recoverable- The difference Rupees 3,658-2-2 is not possible of realization, being due by deceased, absconded and impoverished ryots- In this respect enquiries will be made at the next Immanabundy-

Sugar Cane Cultivation.

51. The extent of land occupied by Sugar Cane crops in the Government Villages, Jaury Mootahs and Poliputs of the District, is shown in Statement No. 20 It's particulars may conveniently be condensed as follows.

It is to be borne in mind that no extra assessment is levied on the dry land where this crop has been grown, as the water which it requires was derived from private sources of irrigation.

Annual Puttahs. 7th April 1857.

52. I beg here to reply to your Board's Proceedings of the date noted marginally.

53. It is observed "if the land occupied is the same as in the preceding year, a fresh "Puttah is not necessary unless demanded by "the ryot, An entry in the old Puttah "showing that there is no change, is all that "is required, with mention of the remissions, "if any, for the year". The tenor of the puttahs annually issued in this District, seems to me

me clearly to indicate that such puttahs must be regarded as having been executed for only one year, the right of occupancy and possession resting with the puttahdar in an unlimited degree, so long as he duly liquidates the assessment permanently fixed on his holdings; should this view appear to the Board to be correct, puttahs of this class are mentioned in Section XII Regulation XXX of 1802, and with reference to the declaration therein made that they "shall be renewable at the expiration of the fusly" it may, I submit, be doubted whether the legality of the practice now ordered for observance, is not likely to be involved. It does not escape my notice that in Section VIII of the Regulation above quoted, cultivators are stated "to be free to demand" puttahs for the lands they respectively occupy; but this Section, I believe, has applicability only to the state of things which ensued immediately on the completion of the permanent settlement and cannot be held to satisfy any course by which, at the present time, the demand for puttahs by ryots is to be

be optional with themselves; or to modify in any way the distinct provisions of Section XII of that law. Posibly your Board may consider my scruples overstrained and untenable. In this case I would take permission to mention that on former occasions the Government appear to have adopted the opinion that the issue annually of fresh puttahs is the more desirable system.

From Government May 14th 1838 Para. 5
May 13th 1839 Para. 8.

54. Independently of these doubts as to the mode of proceeding which has been approved by your Board, I would with much deference take the liberty of distrusting the real extent of the advantages to the cultivating class which it is manifestly the Board's desire to secure. The proposed entry on a Ryot's puttah to the effect that no change in his holding has occurred, will not relieve him or one of his relatives from the duty of attending to produce his patta, arrange that the Curnum certifies and makes the necessary entry on it and receive it back. For the last step, the Ryots must be present at the Collector's jummabundy camp for

for no less a period than he would have been to receive an entirely new puttah. The difference of time, however, is against the Ryot, who under the old system would not have had to wait on and deliver up to the Curnum the old document. He would have had nothing to do beyond appearing before the Collector to be put in possession of his new puttah, which would have been prepared as a matter of course by the Curnum on extracts from the Village chittah accounts, without any reference whatever to the Ryot's whereabouts. Another point of the former system in favor of the Ryot is that the presentation by him to the Curnum of the old puttah, necessarily affords to the latter one opportunity more for demanding and possibly extorting by some means or other, a small fee or douceur for the task imposed on him.

55. It is obvious also that a document of importance to the Ryot, and of importance yearly increasing in proportion to the number of annual entries made on it, must, under the proposed new system, temporarily remain in the hands

hands of the Curnum who has thus a further opportunity, if corruptly disposed, of making a profitable market of his local position; and that market, is the more certain, as the entries on the original puttah become numerous.

56. Ryots are notoriously careless of documents of which circumstances require that they should themselves be the guardians. Documents in this country, with the best of care, are most difficult of preservation. Puttahs often form the basis of mortgages, and, as security for advances, or in connection with other dealings, are held by the mortgagees. When a ryots putcut lands have undergone no change in the year, it will at times be impracticable, and frequently it will be a matter of difficulty, for him to obtain temporary possession of puttahs so situated, in order to producing them for the proposed entry. If they have been lost or destroyed, the Curnum must be conciliated and induced to draw out new ones. It may be urged that the Ryots need not apply to the Curnum; that he has the Sahsildar

or the Collector from whom to seek redress should be find the Curnums rapacity such as he cannot satisfy or in any degree meet. To this I would reply, that the resort to the higher authorities for justice and orders to the Curnum to perform his duty unavoidably requires a reference to that Curnum and will beyond doubt entail on the appealing cultivator, much loss of time under ordinary circumstances; but particularly so, when a Collector is in the midst of hundreds of assembled Ryotwar settlement to discharge.

57. In this District the preparation of puttahs by the aid of Goomastahs has been found to be impracticable. They are therefore drawn up by the Curnums and checked by the permanent and Rungamy establishment of the Hoozoor Cutcherries, before distribution. No doubt the labor of the Curnams would be materially diminished by the system now intended for adoption, but the less labor will be only in the mere matter of writing out the items of putcut which by

an examination of their cultivation accounts, they must first ascertain have undergone no change. As this labor, then devolved on the Curnums, without a possibility of shifting it to other responsible subordinate revenue officers; and as it is thus distributed over a numerous class of individuals under a Collector's immediate control, who, from their numbers do not feel the weight of their task, I am disposed to believe that the retention of the old plan of fresh annual settlements may be desirable.

Para 12

Balance of Woravundoor Village.

58. In regard to the explanation called for by your Board relative to the items which compose the large demand of Rupees 334–5–7 against the Village Woravundoor for Sevoy Jumma, or extra collections, as shewn in Statement No. 27. I beg to state that the assessment borne by the wet lands of this Village has been fixed on reference to the number of crops which they yield; that Acres 80-29 liable to a Teerwa for two crops, of Rupees 865–11–4, were taken up for cultivation, but that previous to the Jummabundy of

of fusly 1259. only one crop had been reaped on which account no more than Rupees 521–9–10 were included in the settlement of that year, the difference, Rupees 334–5–7 payable for the later crop, being left for realization and inclusion in the accounts under the Head of Sevoy Jummah, to which it has duly been credited.

Vudagiattoor Moottah.

59. It has been out of my power to obtain from the Officer in charge of the Sub Division, the information in respect of the Vudagiattoor Moottah which the Board desire to receive. The late Sub Collector Mr. Conway was, I believe, prepared to report on it about the time of his transfer to the Rumnad Agency. He had not, as I understood, been able earlier to satisfy himself on the bearings of the matter. I have now drawn the attention of the present Acting Sub Collector to the subject and trust that I shall soon be in a position to lay before the Board the necessary Statement of particulars.

Samyachar Goolta

60. In para 36 of his report the late Sub Collector, Mr. Conway, has revised the subject of the propriety of realizing an item of moturpha revenue termed

Fort St. George 6th November 1851.

termed "Samyachar Gootta" and mentions that he has directed the suspension from Collection of the sum of Rupees 26-4-6 due under that head. Independently of it's seeming to be contrary to your Board's wishes now to enter on a discussion as to separate items of Moturpha, the whole subject being under consideration by the higher authorities for eventual general adjustment, I observe that on a former occasion, the same matter was brought forward by Sub Collector Mr. Brett, and that in their proceedings of the marginal date, on the Settlement of the Extra Sources of Revenue for fusly 1256, your Board deferred coming to any decision on the point.
