No. 24.

To,

H. D. Phillips Esqr.

Collector of Salem.

Sir,

Para 1. I have the honor to forward the undermentioned Accounts, prepared in the usual form, explanatory of the Settlement of Land Revenue, for Fusly 1260, of the four Talooks, which form the Sub Division.—

1. Namcul.
2. Paramutty.
3. Trichengode.
4. Senkerrydroog.

No. 1. Revenue from Estates.

" 2. Statement of Government Lands.

" 3. Statement Comparative, of the Revenue of the present, and past year.

" 4. Detailed Statement of Cultivation, with explanation of Causes of increase, and Decrease.

" 5. Statement of waste Land, included in the Settlement.

" 6. Abstract Statement of Land, held on Ryotwar.

" 7. Statement of the average prices of Grain.

Settlement. 2. The Ryots were assembled, in the Namcul Talook, at the Cutcherry station. In Paramutty, at Vayloor on the banks of the Cavary; and at the Cutcherry. In Trichengode, at the Cutcherry station. In Senkerrydroog, at the Cutcherry station; and at Comarapollium, on the banks of the Cavary.—

The

Season- 3. The season, generally, was more favorable than the preceding one- But in the months of May and June, when the Cultivation of the Dry and Dry Garden Crops commences, the periodical rains were partial and irregular, and the supply of water to the wells, being insufficient, a decrease occurred in the Cultivation of the Dry Garden lands- The same cause occasioned the relinquishment of Dry lands in those months, by indigent ryots- The more plentiful and seasonable supply of rain, which fell in the subsequent months, was favorable for Nunjah or wet Cultivation, and also encouraged an extension of Dry land Cultivation, which more than counterbalanced, the deficiency, by relinquishment, of the same description of land, as above noticed- The lands irrigated by the Cavary Channels had a full supply of water.

Prices of Grain. 4. The subjoined Abstract shows the prices of Cumboo and Cholum in the present year, which it is known are the principal products of the Division. Contrasted with the prices of the past season a considerable decline in the selling prices, will be observed.-

32. The sum of Rupees 203-4-5-
is carried under the head of "Towcoof," according
to the orders given by me at the Settlement.-
The principal Items of which it is com:
=posed, are on account of assessment
properly leviable on certain Podogal
Land; portions of which it was discovered
had been encroached on, by neighbouring
Pattadars; but the encroachments having
been ascertained not to be of recent occurrence,
and

and apparently occasioned by the boundaries
not being clearly defined, and the general
circumstances of the parties rendering it
inexpedient to enforce payment of the full
assessment on the spots, so encroached on, the
assessment on such portions as were actually
cultivated was levied, and the remainder
ordered to be carried under the head of
Towcoof. There are also Items on account
"Mifsal Teerwah," the rates having been
objected to at the Settlement, and the
objections admitted, after further enquiry
instituted subsequent to the issue of the
Puttahs. There is also Rupees 4-1-11- on
account of the assessment on certain
Jodigy lands appropriated for the use
of the Moganoor Channel.-

Sir,

Bd Rp. 2532-
From the Coll.r
of South Arcot

In returning the Board's Petition Rp. 11490 of 1851 and its enclosures, I have the honor to offer the following explanation Regarding the claims advanced by the Petitioner Hurry Doss to some Duttah Inamiem land and the endorsement given by me under date 24th March last, on a Petition presented to me on the Subject.

2 Upon the demise of the Carilgar of Wodiarpollieim in July Fusly 1245 A.D. 1835. the Resumption of the Cavelly inconies was brought under discussion, and when the Resumption was decided on Government directed that

Min.r of Cons.
31st Jany 1842

the Duttah Inamiems granted by the Pollegar were to be Respected in the following manner. The Inamiem lands themselves were all Resumed but in the case of grants to private individuals

individuals an equivalent money pension was assigned during the lives of the parties while in respect to lands alienated to Poligars a money payment equivalent to their value for 5 years was allotted in Compensation.

3. In Consequence however of the present Petitioner having preferred no claim in this Office his name does not appear in the Statement of Dustaks Inamiems which was forwarded to the Board by the Principal Collector. To account for his silence the Claimant now states that he addressed the Board in 1837 and produces his Petition (Re 1837) which was referred by mistake to the Collector of Trichinopoly and bears that Office endorsement to the effect that he could find orders upon the subject as the land in question situated in the Great District. To explain the subsequent silence during the 13 years which have since elapsed, the Petitioner alleges that he was absent on a pilgrimage to Benares

4. The Petitioner adduces a Sanad to 6 Cawnies of Nunjah land bearing an endorsement of Rupees 26-4 which he states

were granted to him by the deceased Poligar in 1830 or only 5 years previous to his death for the support of a Byragy Muttam Charity. But on his bringing forward his claim in March last, it appeared to me that he produced no sufficient documentary proof in its support, and as there was no long possession to plead in his favor and the claim was made so many years after the resumption of the Dustak Inamiems I felt unable to take any steps in his behalf. I now enclose for the Board's information a translate of the only document produced by the Petitioner, which is the copy of an order said to have been issued by one Ramasaumy Iyer directing the Cauil Superintendent of Vadachary to make over to the Petitioner's Cawnies of Inamiem land. This Ramasaumy Iyer appears to have been the Poligars Agent or Servant, but the Petitioner has no grant under the Poligars Signature and it will be observed that the paper which he produces does not state for what purpose the Inamiem was given. Under these Circumstances I felt precluded

claim is preferred by the Petitioners Palamalay Pillay and Moorooga Pillay. In this District those Curnums are deemed Meerassidars who were registered as holders of the office in Fusly 1217 when the Survey was made and it was in accordance with this usage that my predecessor gave the appointment to Manickum Pillay in right of his father Palamalay Pillay the Meerassidar as registered in the Cumlient in the accounts for fusly 1217.

2 It does not appear that the Petitioners are related to the Meerassidars or that their family enjoyed the office previous to fusly 1225 when their Uncle Nagalinga Pillay was appointed upon Palamalay Pillay being Removed for fraud.

Sir,

To the Chief Secy. to Govt. Submitting with reference to Extract Minutes Consultation dated 29th July 1851 a letter from the Collector of South Arcot furnishing the information required relative to the dismissed Curnum Palamalay Pillay and the Memorialists Palamalay Pillay and Moorooga Pillay.

Sec. Cons. 6th Nov. 1851.

I am directed by the Board of Revenue to acknowledge the receipt of the Extract from the Minutes of Consultation dated 29th July 1851 requesting them to state whether the dismissed Curnum Palamalay Pillay had any Meerassee title to the office, and whether the Memorialists Palamalay Pillay and Moorooga Pillay have any, also if the dismissed Curnum Palamalay Pillay was not a Meerassedar to explain the reasons for which the Memorialists were removed in favor of his son, Manickum Pillay.

2 In reply I am directed to submit herewith the accompanying letter from the Collector of South Arcot dated 18th October 1851. in which he states that in his District those Curnums are deemed Meerassidars who were rejected as holders

holders of the office in July 1217 when the Survey was made and that it was in accordance with this usage that the late Collector gave the appointment to Thanikaum Pillay in right of his father Palanalay Pillay the registered incumbent of July 1217.

3

It would also seem that the Memorialists are not related to the Merassidar, and that their family did not enjoy the office previous to July 1225 when their Uncle Nagalinga Pillay was appointed upon Palanala Pillay being removed for fraud.

No. 352 of 1826.

Translation of a decree passed by the Civil Court in 1826.

Plaintiff. Vers. Defendant.

Ramoo Ammal wife of Rungiengar living in Vadooga polliem Village in the Combaconum Taluk. — 1 J. Cotton Esqr. 2d Pl. Coll. of Tanjore. 2 A. Sinclair Sub Collector of Tanjore 3 Soobramaneachary living in Maddarjoonam in the Coombaconam Taluk. —

According to the Statement of Plaintiff in her Plaint her husband's forefathers were formerly performing worship in a Hanooman Pagoda in the Village of Vadooga polliem where the Meerasdars had granted to that institution 3 Maws of Poonjah land and a Cocoanut Tope, and had settled on them an allowance of 3/4 Measure of rice as a remuneration for their services in the Pagoda and for the preparation of accounts of the receipts and charges on account thereof. But when the Country fell for 3 years (from 1774 to 1776.) under the control of the Nabob, the 3d Defendant's father Ramachary aided by Rama Row the Nabob's Dewan (who was

Fort St. George 6th November 1851.

was of same caste with him) violently usurped possession of her predecessor's rights, and on the accession of Toolojamaharajah got a sicca Sunnud of Rozeinamein in his name under pretence of making Poojah in the said Pagoda. But being detected in some of his misdeeds, he fled away taking that document with him, when her father-in-law reported this circumstance and other of the said Ramachary's frauds, (for depriving him of his rights at a time when the whole district was thrown into confusion by the invasion of Hyder) and got himself replaced in the enjoyment of his rights. Subsequently some of the Meerasdars having resumed the Poonjah land they had originally granted in endowment of the said Pagoda her father-in-law complained of it in 1810 to the Civil Judge and a compromise was made by which the land was restored to the institution. Sometime afterwards the Meerasdars began to disturb him again in the enjoyment of the land, so he complained to the then Sudder ameen (Venkatachella Pilly) but as he died whilst the case was under enquiry a Rajeenamah was concluded between his son (Plaintiff's husband) and the Meerasdars by which they paid him a sum of 10 Chuckrums being the amount sued for. — When

Fort St. George 6th November 1851.

When all the Devastanum lands were taken under Circar Management the Maws of Poonjah and the Tope belonging to this Pagoda were also included in the Circar Accounts and the husband of Plaintiff appointed his uncle Venkatachella Iyengar to officiate in the Pagoda in his stead investing him with full power to receive whatever sum the Circar should give for the service, as well as the settled allowance of 3/4 Measure of rice from the Meerassdars. He also authorized him to draw up for the inspection of the Circar Accounts of the receipts and charges on account of the Pagoda. On her husband's death the Plaintiff allowed this Venkatachella Iyengar to continue in the agency to which her husband had appointed him. - Subsequently she heard that the 3d Defendant's father had been receiving from Government (on the Authority of a Sicca Sunnud) an allowance of 18 Chuckrums yearly on pretence of performing worship in the Pagoda in question, but before she could complain of this to the Circar he (3d Defendant's father) learning her intention presented a Petition to the first Defendant who without making any enquiry into the matter issued

Fort St. George 6th November 1851.

(Vencapiah) to transfer the Pagoda to his charge. - But before this order was carried into effect, she sent her agent the said Venkatachella Iyengar to the Tahsildar with all her documents. In obedience to this officer's instructions she sent those documents to the 1st Defendant who on inspection of them ordered the Tahsildar to inform him of the last 20 years proceedings regarding the Pagoda which the Tahsildar having done, the 2d Defendant sent orders for the restoration of the Pagoda to her. But ere these orders could be executed, the 3d Defendant in conjunction with some influencial persons fraudulently prevailed on the 2d Defendant to reverse his first order. She has consequently come to Court for the recovery of the Pagoda and the right of performing worship therein (worth 14 Rupees per Annum). -

The second Defendant answers that the 3d Defendant's father performed worship in the Pagoda under dispute during the time the Country was in the hands of the Nabob. Tooloozamdarajah his successor gave him a Sicca Sunnud of Rozemauniem for the continuance of his services, which Maniem he has ever since received. - The Plaintiff's assertions that other rights were

were unjustly seized by the 3d. Defendant are entirely false and unsupported by any document whatever such as any Sicca summud entitling her to the Poojah in the Pagoda or any decree passed in her favor by the Courts in which she states her father in law complained on account of the resumption of the Pagoda land by the Meerasdars and disturbing him in possession thereof. the 2d. Defendant's (Mr. Sinclair's) first orders in her favor were issued merely with the view to put a stop to the frequent quarrels between the parties-But on inspection of the documents produced by the 3d. Defendant, Justice was so evidently on his side, that nothing remained for him (2d. Defendant) but to make over the Pagoda and all its property to the 3d. Defendant under Regulation VII of 1817- The grounds on which Plaintiff bases her pretensions are no more than her husband's having been appointed by the 3d. Defendant as a Deputy to act in his stead for a period of 6 or 7 years when he was sick at Tanjore, where he went to get his eyes cured-

The 3d. Defendant answers supporting the 2d. Defendant and further adds that it is not known when the Pagoda was founded, but no

† referring 3d. Defendant to the Civil Court tho' his right was apparent.-

no worship was performed in it until Conary Row a Devastanum Muddhest under the Nabob, having consecrated it, appointed his father to make Poojah in it at the same time endowing it with an annual allowance of 100 Collums. of Paddy from the produce of Anacoody and the lands belonging to Mahalingaswmy's Pagoda at Muddarjoonum- and a Monthly one of 3 Chuckrums out of the sum appropriated for the charity choultry at Darasoorapettah. Besides this the Meerasdars of Vadoogapoliem granted to the Pagoda an extent of 60 Goolies of Poonjah in Kula and Maila Nundavanum and made it a general rule that a Chuckrum should be paid to the Pagoda at every marriage performed in it. These several kinds of Revenue were discontinued by Toolajarajah, who in their stead settled an allowance of 3 Chuckrums per Mensem which he subsequently reduced to 1½-

The 3d. Defendant's father having Petitioned for a Sicca summud in common with some other Bramins who were receiving Maniems from the Rajah for different services was furnished with one in his name

Specifying

specifying the Sum he was to draw from Circar for the performance of worship in the said Pagoda.-

The reply supports the Plaint and the Rejoinder the answer.-

The Court having attentively considered the Statements of the Plaintiff and the 2d. and 3d. Defendants in support of their respective causes have come to the following decision. The Plaintiff having no document to prove her alleged right the witnesses named by her were closely examined but contradicted each the other. As the Sicca sunnud was given to the 3d. Defendant's father by Toolazamaharajah and was recognized by the Plaintiff as such, and as the 3d. Defendant and his father have long enjoyed the Maniem as attested by the 2d. Defendant, this is sufficient proof of his right to perform worship in the Pagoda in question, and hence the Court deem it unnecessary to examine the witnesses named by the 3d. Defendant and pronounce a decree that the Pagoda with all its property should be made over to him in confirmation of the order issued by the 2d. Defendant under

Translation of a Tamil order issued to Soob=bah Pillay, Tahsildar of Combaconum, dated 7th April 1826.-

It appears from the Arzee April 27th 1824 addressed by Vencapiah the late Tahsildar respecting an investigation as to a Complaint (presented by Soobramania Achary and Vencatachellatta Iyengar) as to the right to perform the Poojah of Hanoomar Covil in Vadoogapoliem attached to Peroovadamaroodoor, that Soobramania Achary had an undisputed right to the same. But an order was issued on the 22d May that the claimant should seek redress by a Civil suit and that the other party in possession of the said Covil should continue the Poojah as before unmolested. But the said Soobramania Achary has in support of his claim produced an original Sicca Summud from the Duftar Department of His Highness the

the Rajah and by the tenor of this grant it is clear that the Roz Manieum has been granted to Ramachary the father of Soobra=maniachary, for the purpose of performing the Poojah of the said Hanoomar Covil, moreover he (Soobramaniachary) has received the Roz Manniem amount for long previous to Fusly 1232, on the authority of a certificate given in his name although the said Vencatachellatta Iyengar deposes that he has long been per=forming the Poojah according to the instructions of the inhabitants of the Village, and that he knows nothing about Soobbra=mania chary's receiving the Poojah Rozamaneem allowance on the authority of a grant to this effect. After all it must be supposed that the said Vencatachellatta Iyengar had been deputed by Soobrama=niachary the original proprietor to carry on the Poojah of the said Hanoomar Covil in his absence, and it is therefore ordered that Soobramania Achary should be put in possession of the right of performing the Poojah of the Pagoda in dispute, and that Vencata=chellatta Iyengar be strictly prohibited from.

Bd. Nº 2485.

From the Collector of Tinnevelly — Forwarding Extract of a Memorandum from Lieutenant J. Michael and reporting that he has been necessitated to keep under Annaury the Hill produce of the Animalle forest of the Current years.

Sir,

I beg to report to the Board that under the peculiar circumstances of the case and with reference to Lieutenant Michael's Memorandum enclosed and as the only practicable means of raising the degraded Condition of the Hill Tribes of Haders and Mudsers, and rescuing them from a state of bondage and oppression, I have this year kept under Annaury the Hill produce of the Animalle Forests; this measure being also rendered necessary by the Contractor having failed to give security the three months have already elapsed of the Fasly.

2. I have been long partially aware of the depressed and pitiable condition of these people and have made various endeavors to ameliorate it but so long as the Hill Rent (for wild Hill produce) Continues these people will be unavoidably oppressed

† Honey, Wax, Cardamoms, Ginger, Coral Stone, Gum &c.

oppressed and in a state of actual though not nominal slavery-

3. The Contractor and a few agents who buy up the produce gathered wild in the Forests by these people defraud and illtreat them greatly, they give as payment only just what they please in a little grain, salt, cloths and such absolute necessaries in barter for these products, there is no fair competition, no adequate remuneration to the Natives- All cultivation by these Hill people is discouraged and in fact forbidden by their Masters, lest the Natives and Inclosers should become independent and have less leisure and inclination to collect the wild products accessible to them only and which it is but fair that they should have the benefit of-

4. By taking the produce on behalf of Government, the Control and dominion of the Contractors will be checked, a fair price secured to the Hill people, and a larger quantity of Hill produce I expect, will be brought in, but even if there should be a slight loss to Government it is not to be considered in comparison with the release of these wretched tribes from the thraldom and oppression by which they are now held

held in bondage. I should have felt quite justified in asking Government to give up for such an object the whole Rent but I think the Annuity will both prevent that loss and also facilitate the amelioration of these people by offering them at once a fair and sure Market, which they would not have at first the spirit and intelligence to be able to find for themselves-

5. Their state is truly miserable to themselves, and degrading to the Government under whom it exists, they live in the rudest Bamboo Huts, scarcely clothed, without grain of their own or Cultivation of any sort, feeding partly on wild roots, perfect Slaves, both in mind, appearance and reality. Lieutenant Michael's occasional residence among them and frequent intercourse in the Forests has brought these facts more prominently forward and offers a most desirable and indeed the only probable opportunity for their improvement. It is almost the only European intercourse and sympathy they have had and much credit is due to Lieutenant Michael for the benevolent interest he has taken in them, and the confidence he has inspired them with, the Revenue authorities

either

either European or Native, have very seldom visited these generick and inaccessible forests, the poor Hill people themselves never leave their Hills for or appear at a Cutcherry, the Native officials never go near them.

6. It is also necessary that these people should be emancipated from their present bondage to the Hill Contractors, on account of the aid now required of them in the Teak Forests in which Lieutenant Michael has found them both able and willing, but hindered by the Contractors, who engross their whole services in collecting the wild produce. The system of Contract is prejudicial also by giving the right and entry of the Hills to one party only and greatly facilitates and encourages Tobacco Smuggling which I have reason to think is carried on very extensively over the Aprinalli Hills both to Cochin and Travancore; the late occupation of the forests by Government has checked it somewhat the abolition of the Contract will do so still more. I shall duly report to the Board the result of the present arrangement, both as to its effect in

Fort St. George 6th November 1851.

in ameliorating the Hill tribes and in a pecuniary point of view to Government tho' the latter I am sure will be considered secondary compared with the former important object.

No. 1

Extract from Notes by Lieutenant Michael from the Annimally Forests.

The only persons who are employed in the Collection of this produce are the Haders and Mulsers. The former being those who live in the Hilly parts of the Jungles and the latter those of the lower Country. These people are virtually placed under the complete Control of the Hill Contractor who barters with them in rice, salt, coarse cloths, &c. in exchange for which he gets, Cardamoms Ginger, Honey, Wax, Rosin &c. &c. I have been placed in more immediate Contact with the Haders than the Mulsers, since my employment in the Forests, and have been enabled to judge from my own observation and the Complaints frequently made to me by them of the abject state of slavery into which

which they are sold by this System - They are made to Collect the various valuable produce at different seasons which they are obliged to give up to the Contractor who in exchange gives them some small quantity of Rice - On this and roots &c. their wives and Children manage to Collect during their absence (often for 10 days or a fortnight at a time) they manage to subsist and then work on willingly enough but often (Sometimes by the poor creatures) they do not even get the miserable pittance they are promised when they bring in the fruits of their labour, but are again driven forth on a fresh excursion obliged to live on roots &c. till they have Collected a fresh load when they return in the hope that they may be remunerated in some way. Pay they never get, I believe, there is a sort of nominal rate of barter but as what with the caprice of the Contractor and the roguery of his † Paddy Chettie (or middleman) the poor Natives get no sort of justice done them - From their own account, which I have every reason to believe, they are forced to collect the Bill produce by all sorts

† Name for a Native Village (signed) C. S. C.

sorts of cruelty and ill treatment, and to my knowledge they are some times driven to desperation - they desert and refuse to work. when an expedition is sent to bring them back - they are hunted down and it is easy to guess the sort of treatment they experience when found - I have often wished to employ both Natives and Malvers on various works at which they are peculiarly expert Viz. Clearing Jungle, building Forest Huts &c. but tho' they are most willing to come to me they dare not without the leave of the Contractor who invariably has replied to me on my asking him "that he can make much more out of them by sending them for Bill produce" but on some occasions after stipulating that the pay I give, was to be paid into his hands and not to the workmen, some of them were sent to work - but were so starved when at work that they invariably deserted till at last I was obliged to stop employing them. They all Complain most bitterly to me of their ill treatment, but seem to think there is no hope for them - as they are under the impression that all they undergo is sanctioned by the Government, which idea of course the people

people over them, do all they can to Confirm-
=dual was abolished and the Haders allowed
to sell the produce to any one willing to
buy it, competition would arise, better prices
would be given and the Haders being willing
labourers, instead of forced would, they assure
me, collect three times the amount of Cardo-
=moms, Wax &c. that they now do. This might
for the present involve some loss to Govern-
=ment but it is my firm belief that in
a very short time, the Hill people becoming
more civilized from their intercourse
with the low country villagers (from whom
they are now carefully kept apart) would
begin to Cultivate and clear the Jungle
and the good done to the Country by the
opening out of these boundless Jungles,
would eventually repay the Government
for the small loss it at present might
sustain, however selling this wide is it
not monstrous that a Government like ours
should for the sake of a few Rupees a year
Consent to sell a race of unfortunate
beings into a slavery more wretched than

ever existed in the West Indies or that of
the "Churmahs" of Malabar. The other of
the two Courses alluded to is this, let
Government fix some rate of barter less
exorbitant than that now demanded by
the Contractors and appoint some person
to receive the Hill produce from the
Haders, paying them fairly in rice, or
Cloths &c. for all they bring in. This
produce if sold to Merchants for the
benefit of Government, allowing for
speculation and the increased rates paid
would doubtless cover by far the greater
part, if not all, of the loss sustained
by not selling the right of Collection
and then the same end would be
gained Viz. that of emancipating the
"Haders" and "Mulsers" from the slavery
they are now in and releasing them
from the prohibition they tell me the
Contractors have put upon them, against
Cultivating land. The reason they, the
Contractors, give for this prohibition
is that they would then become inde-
=pendent, and refuse to Collect Hill
mild

could produce for the Contractors at the low rates which now gives them so a large a profit, but that would not hold good were the Traders fairly dealt with, for they would have plenty of time to spare from their cultivating labours to make their usual excur-sion in search of honey, wax &c, besides-

The principal productions are Cardamoms, Ginger, Honey, Wax, Saffron, Gums, Dammer, Rosin, Frankincense, Nuttifal, Soap nut, Deer horns, Ivory &c. They have a sort of fixed rate of Barter for these and all their nominal accounts are kept in "panams" equal to a 1/4 of a Rupee - This of course lays the poor Traders open to be cheated just as the "Paddy chetties" or middle men like for they never know the bazar rates of the low country at Ammimalli or elsewhere for instance, at present they give a Trader 4 measures of rice for one "panam" whereas at Ammimalli 9 are given -

For one measure of Cardamoms they

" "

they give 1 "panam" or 4 measures of rice (really worth under 2 annas) and at Ammalli a measure of Cardamoms is worth about 12 annas - This may be taken as a fair specimen of the rates the Contractor gives, for as Cardamoms are the most valuable production, they are naturally anxious to get the Traders to bring in as much as possible.

For wax they give a "panam" for about 5 lbs. The Traders number I believe about 200 souls and of these about 70 or 80 are working men -

They are anxious to cultivate in the Hills but are forbidden by the Contractors, some years ago they did clear a patch of ground secretly and got a crop of "Raggee" but the Contractors on hearing of it had the Crop destroyed. One old man showed me a small hidden patch of "Raggee" a few days ago, but in Consequence of his having to sow it in an out of the way spot, it had been nearly all eaten by Bisons

and

and other wild animals. He said however that if they had leave to cultiviate they would clear a large piece and fence it in."

Bd's No. 2540

From the Collr of Coimbatore

Sir,

I request the Board's orders on a point in which the Hookumnamah lays down no Rule / See para 40 / and the practice of the District varies in different places.

Requests the Board's orders on a practice prevailing in the District of taxing both the Palmira Trees and the land in which they are situated.

2, In some instances "Palmira Trees" are taxed as well as the land (on which they stand) which cannot, of course in such a case, produce much. I conclude the Board could not intend or wish this double taxation of land and trees on the same spot, and I would therefore propose to remit the trees wherever the land already pays the full tax of its grade.

ONJ 14843

2 The double Puttah, and charge seems unfair, presses hard on the Ryots and discourages greatly the rearing of Palmiras, which are very scarce in this District, and often difficult to be had for public buildings and other purposes

Roofing all Native Huts Sadjans for watching &c.

purposes. The removal of the double tax would lead to their planting and productive and to the benefit of the District in every way.

3 I should have hardly thought it necessary to trouble the Board on the subject, had not there been some few instances, where the double tax is still levied through the practice of other parts of the District and an equitable assessment is against it. The enclosed Copies of two Tarkeeds, one in the Collectors the other in Sub Collectors Division will show what the practice of the District has usually been. Indeed it would seem a just rule to be generally applied to all Trees that either Land or Trees should alone be singly taxed where the land is cultivated it alone should pay, where the land is waste the Trees should pay but never both. The Trees as I have said above are scarce in Coimbatore and greatly need encouragement.

Translation of a Tarkeed issued by I Sullivan Esqre. Collector of Coimbatore to Soobba Row Acting Tahsildar of Con-giem Talook.

It being my desire that Topes should be planted in every suitable land lying waste in each Village of your Talook, you are hereby directed to give strict orders to the Monigars Curnums, and Tottys of the whole Village of your Talook to plant 1-2- or 3000 Trees on waste lands in each Village with reference to the productive power of the soil and to take care of them from being injured by Cows &c. When Ryots or others are furnished with 1 or 2 Palmira Trees to build houses as per order of the Huzzoor you are to induce them to plant 10 Palmira nuts for each Tree cut. In case of any difficulty to get Palmira nuts in your Talook for the plantation of the Tope or Garden, you should report the same to the Hoogoor,

cw

on which order will be sent to the Tahsil-dars in whose Talooks they may be found to supply them to you. This being the proper season for the plantation of the Palmira Nuts, you are to carry out this order immediately many nuts may be planted on Circar waste lands and the Trees will grow on any description of Soil. There is not a single Tree in some Villages, where no difficulty will be found in the planting of the Nuts nor have Ryots more trouble in the undertaking than one days labour they need only dig holes and plant the Nuts, to which effect you will give the necessary orders the Trees will spontaneously grow if the Nuts be planted previous to wet season until the Nuts grow and the rains fall, you are to direct them to moisten them with water once in 4 days. Thus you should use your best endeavours to plant the Trees on 1 or 2 different fields in each Village.

From the Sec. to Government-

Directing the payment of Arrears of a lapsed Yeomiah to certain parties in the District of Bellary and intimating that the Government will await the

Extract from the Minutes of Consultation, under date 28th October, 1851.-

(From Board 28th August 1851.)

It appears from the remarks of the Collector of Bellary on this case, that the Yeomiah is a charitable allowance and

was granted in lieu of a Sayer duty on grain which the original grantee had the privilege of levying at the Village of Sydapett prior to the cession of the Country to the British Government. The allowance though sanctioned and registered in the name of Syed Ahmud whose death is now reported, was enjoyed in equal shares by himself and two others, an arrangement which has subsisted for the last 37 years and was noticed in Mr. Chaplin's Registered L. of 1814. The Governor in Council concurs therefore in opinion with the Board of Revenue, that the surviving incumbents are entitled to consideration on the ground of long enjoyment, and he accordingly directs that their respective shares be registered and continued for life in the names of Syed Ahmud alias Oomurdarauz, and Syed Cassim, in arrear from the 1st June 1849, the date of Syed Ahmud's demise.

family, it is observed, have already had the enjoyment of the allowance for a considerable period, besides a share of Rupees 227 in the Moturpha Beriz of Sydapet upon which a separate report is proposed to be made by the Collector. The Government will await the receipt of that report before passing final orders on the case of Pacha Beebee.-

No. 1084.

From the Sec. to Government - sanctioning with modifications the arrangements recommended by the Board for remunerating the stamp Vendors of the Bellary District.-

Extract from the Minutes of Consultation in the Revenue Department, under date the 1st November, 1851.-

Read the following letter from the Secretary to the Board of Revenue

Here enter 29th September 1851 No. 4171

Para 1. The Right Honorable the Governor in Council has had under his consideration the proposition laid before him by the Board of Revenue for remunerating the Stamp Venders of the Bellary District.-

The

2 The Collector proposes to have

1 Stamp Darogah at Bellary on Rupees -- 35-- -- --
1 Vender ---- at ---- Do. ---- -- ---- 15-- -- --
7 Venders at Moonsiffs Courts at 7 Rupees 49-- -- --
Per Mensem - - - 99-- -- --
Per Annum - - - 1188-- -- --

Average Commission to 14 Tahsildars and Sheristadars in the Talooks at 3 per Cent on Sales ---- 10 ---- -- ---- --

Total charge per Annum 1198 ---- -- ---- --

which is above the present charge by Rupees 167-- 8-- 11- and gives a centage of 5 3/16 on the annual Stamp revenue.-

3. Referring to this increase in the per centage the Superintendent of Stamps recommends, with the view of reducing it, the employment of a person on the Establishment of the District Moonsiffs Court instead of a separate Vender, paying him by a small commission in addition to the Salary of his other Office. The Board of Revenue however referring to the success which has attended the measure in Trichinopoly recommend that the District Moonsiffs of the Bellary Zillah should be similarly nominated

Stamp

Stamp Venders on an allowance of 3 per Cent on the sales.-

4. The Governor in Council doubts the propriety of nominating e Moonsiffs Venders in their own Courts, and thinks that the Judge of the Court should have no connection whatever with the sale of Stamps. He is of opinion that the arrangement for the Moonsiff's Court at Brammadasem in Tinnevelly should be followed by making the Head or one of the Goomastahs on the establishment of the Bellary Moonsiffs Courts a Vender of Stamps with a Commission of 3 per Cent on the sales in addition to his salary.-

5. The Governor in Council is of opinion that attention should also be given to the suggestion of the Superintendent of Stamps and that the fixed allowance to the Dairogah and Vender at Bellary should be so regulated that the entire payment of the Stamp Establishment should not form a larger charge on that source of revenue than 5 per Cent.-

6. Subject to these modifications the Governor in Council sanctions the arrangements recommended by the

Board of Revenue and desires they may be carried out accordingly.-

Sir,

Bc No 2332. The sanction of Govern-
From the Collector of Chingleput. } Para 1. -ment dated 25th April communicated with the Board's Proceedings of the 5th May last for the transfer of the Vullacottah Estate to the Mootahdar who had attained his majority having been received so late in the year as the 8th May, it was deemed necessary to bring the affairs of the Mootah for Fusly 1260 to a close under Circar management; I have now the honor to report upon the result of the management of the Estate, and to submit the usual Statements required by your Courts order dated the 20th January 1848.

Reporting upon the result of the Management of the Estate of Vullacottah for Fusly 1260 and requesting sanction for writing off the balance of Rs 945-12-3 which remained during the period the Estate was held under Circar Management.

A to D.

2 The Court are well aware that the Season of the Fusly under report was nearly as unfavorable as that of the preceding year, consequently this report does not exhibit any considerable improvement of revenue as concerns this Mootah.

3 From the Statement A here-with forwarded it will be observed that although is

is a small decrease of Cawnies 28 annas 6 5/8 in the total extent of Net cultivation compared with that of the preceding year, there is an increase in the demand of Rupees 357-1-4 which is attributable to a slight rise in the price of Grain, and more particularly to an increase in the quantity of produce averaging to more than 1/4th per Cawney, which arose from a timely fall of rain just before the harvest season, which proved greatly beneficial to the standing Crops.-

4 The outturn of the dry cultivation also shews an increase of Rupees 99-4-3 owing to a seasonable supply of rain, which enabled a larger quantity of land to be taken under cultivation, and under the head of ready Money Collections there is observable a trifling increase of Rupees 4-12-10. The net result of the year under review has been an increase of Rupees 461-2-5 above the demand of the past year, but a decrease of Rupees 701-7-11 below the permanent Beriz of the Mootah.-

5 In the Statement B which exhibits the demand collection and balance of the Mootah, is shewn a balance of Rupees 7-11-6 on account of Fusly 1257. This is the amount noticed

Dated 19th Septr 1850. noticed in Para 5 of my Predecessor's report on the State of this Mootah for Fusly 1259. as being held in deposit pending a boundary dispute between the Zemindary Village of Summanbut and the Circar Village of Punnoorottee. The amount having since been ascertained to appertain to Punnoorottee, has been carried to the Credit of Government and has therefore to be written off the accounts of the Mootah.-

6 The Balance of Rs 11-9-9 entered in the same Statement on account of Fusly 1259 being due by impoverished and absconded Ryots is also recommended for remission.-

7 Of the balance of Rupees 141-14-0 due for Fusly 1260. the Zemindar has agreed to realize and pay to Government a sum of Rupees 126-2-9. The remainder Rs 15-11-3 is on account of the amount of loss sustained consequent on the late Gale in the Malevaram produce heaped for sale and this is likewise recommended to be written off the accounts of the Mootah.-

8 The balance of Peishcash outstanding against this Estate had been adjusted up to the close of Fusly 1259. under the sanction conveyed in Extract from the Minutes of

of Consultation dated 25th April 1851 for the remission of Rupees 6,813-6-2. of this sum however Rupees 6719-1-1 as shewn in Statement C has alone been remitted, the difference having subsequently been realized from the Ryots.-

9. In the Fasly under review the actual collections amounted as per Statement B to Rupees 1579-3-7. from which deducting Rupees 228-9-1. being the charges of Establishment &c as marginally noted the remainder Rupees 1350-10-6 has been carried to the credit of the Fasly leaving a balance of Rupees 1071-15-. against the Mootah-dar for recovery.-

*Statement C

10 Of this sum the Mootahdar has engaged to realize and pay to Government Rupees 126-2-9 as mentioned in Para 9. In regard to the remaining Rupees 945-12-3 I beg to observe that after the receipt at this Office of your Courts Proceedings dated 21st October 1850 recommending for the sanction of Government the transfer of this Mootah, it would appear my Predecessor issued an order on the 2nd November requiring the young Zemindar to transact the affairs of the Estate conjointly with the Manager pending the orders of Government. Subsequently the sanction of Government for the transfer having been

*7th June 1851 been communicated in Extract from the Minutes of Consultation dated 25th April 1851, the Estate was made over to the Zemindar so far as concerned its Revenue Management for ensuing Fusly 1261, the settlement of matters connected with the cultivation of the previous Fusly having then been concluded.-

11 Under these circumstances it would press with severity against the Zemindar to make him liable to a balance which accrued during the Circar Management of the Estate on the score of his having been allowed a share in that Management during a portion of the Fusly; and adverting to his extremely embarrassed circumstances I beg to recommend that the balance Viz^t Rs. 945-12-3 which the Court will perceive has arisen from the very unfavorable nature of the season be written off to the head of profit and loss.-

Proceedings thereon.

Relative to the Management of the Estate of Vullacottah in the District of Chingleput for Fusly 1260 recently authorized to be transferred over to its Proprietor.

In Cont. 5th May 1851.

It would appear that on receipt of the Proceedings of the Court of Wards under date 21st October 1850, recommending that the Vullacottah Estate might be made over to its Proprietor who had attained his majority, Mr. Freese issued an order requiring the Proprietor to transact the affairs of his Estate conjointly with the Manager, and the sanction of Government to the transfer, under date 25th April 1851, having reached the Collector so late in the Fusly its sole Management was not made over until the 7th June 1851.

Para 10

2 The Collector's Report shews the result of the Settlement for the entire Fusly 1260.—

3. The season was nearly as unfavorable as the last and there was therefore a falling off in the extent of wet cultivation of 28 Cs. 6 as. 5/3. but owing to a slight rise in the prices of Grain, and a timely fall of rain just before the harvest, there was an increase in the Total Demand above that of the preceding year in the following proportions.—

The Settlement of the year however fell short of the Peishcush by Rupees 701—7—11—4.

B & P7.

The Collections within the Fusly were Rupees 1426—14—3, and those subsequently realized were Rupees 152—5—4, or in the aggregate Rupees 1579—3—7, leaving a balance of Rupees 141—14—". Out of which the Proprietor agrees to realize Rupees 126—2—9, and the remainder Rupees 15—11—3 is irrecoverable, being loss sustained in consequence of the late gale in the Mailvarum produce heaped for sale.—

5. Of Balances outstanding on account of previous years, the sum of Rupees 7—11—6 due for Fusly 1257. previously held in deposit on account of a boundary dispute between the Zemindary Village of Jannabut and the Government Village of Punnoorottee, having been found to appertain to the latter Village, was credited to Government and will require

to be written off in the accounts of the Estate, and Rupees 11-9-9 on account of Fusly 1259 is due by impoverished and absconded Ryots.

6. The Court of Wards concur in the Collector's suggestion for writing off the three sums abovementioned amounting to Rupees 35-"-6.

Ex 15-11-3
" 7-11-6
" 11-9-9

Statement D & P9

7. The usual charges of sibbendy, Maramut and Maintenance of the Proprietor amounted to Rupees 228-9-1 and the Net Collections, Rupees 1,350-10-6, were applied in part payment of the Peshcush of the Fusly, of which Rupees 1,071-15-" is yet due. Deducting from the last amount the sum of Rupees 126-2-9 which the Proprietor has promised to recover and pay to Government, there will yet remain a balance of Peshcush due by him of Rupees 945-12-3, and this sum for reasons which the Court considers good the Collector recommends may be written off.

P10

P11.

The Balances of former years, Rupees 6,813-6-2 were struck off under sanction dated 25th April 1851 but Rupees 94-5-1 had already been realized, the remainder Rupees 6,719-1-1 only was written off under that sanction.

P8.

8. If the sum of Rupees 945-12-3. adverted to in the foregoing para be remitted, the total amount of Peshcush written off will be Rupees 7,664-13-4.

Ordered that a Copy of the foregoing Extract be submitted to Government, and a transcript of the same be furnished to the Collector of Chingleput.

Soliciting the Board's sanction for the sale of certain lands &c. attached for arrears of Revenue and forwarding the usual Notices and Statements illustrative thereof.—

Sir,

Para 1. I have the honor to solicit the Board's sanction for the sale of certain lands &c. attached for arrears of Revenue, the particulars of which are given in the accompanying Statement.—

2. The Defaulters Monigar Vencata Soobien, his brother Vencataroyer and the others / Members of an undivided family / have paid but a trifling portion of the Teerwah of their Ayacut, and / the two first / have appropriated to themselves money Collected from the Ryots on behalf

of

of the Sircar.

3. They are besides habitual defaulters not so much on account of any inability to pay as from obstinacy and carelessness, and it is this which has induced me to recommend the sale, for they will I have little doubt satisfy the greater portion of their arrears rather than allow the lands actually to go to auction.

4. The notices prescribed by the Regulations are herewith forwarded and I have fixed

fixed upon the 31st December next as the day of sale in Order to allow sufficient time for preparatory arrangements.

From the Asst.t Collector of North Arcot,....

Sir,

I have the honor to submit copy of a letter received from Mr. Sullivan my Head Asistant, seeking information on the subject of Medical aid for himself and Family and requesting that the necessary instructions may be issued from and thro' the proper authorities to the Medical Man to whose attendance they may consider him entitled as a Civil servant on duty and by order at Vellore.

under

Under the peculiar circumstances in which he is placed Mr. Sullivan's request appears to me to be reasonable, I have therefore the honor to forward it to the Board for their consideration and transmission to the proper authorities.

No.r 1.

To S. N. Ward Esq.r
Acting Collector of
North Arcot.

Sir,

You are doubtless aware that early in 1848 I was sent here by the then Acting Magistrate Mr. Lovell under Regulation IX of 1818 Section 2 for the more effectual maintenance of the public peace in this large and populous town, that I have since resided here and that the Government have in the interim intimated their instructions that there should always, if practicable, be a resident European Magistrate stationed here.

2. As this is the case, I have the honor now to request that I may be informed by Competent authority to whom

I.

Fort St. George 10th November 1851.

I am entitled to apply for Medical aid for myself and family while residing on duty at Vellore, and whether I am entitled to such attendance for myself and family on the same terms as Medical attendance has been granted by Government to Civil Servants and their families residing at the Sudr station of the Zillah.

3. It is perhaps scarcely necessary to mention that this station is too far (22 Miles) from the Sudr station of the Zillah to admit of my availing myself of the attendance of the Zillah surgeon, and that there is no regular Garrison Surgeon here as at Trichinopoly and some other Military stations.

4. Medical attendance to the Jail and Police establishments under my charge since I have resided here has been and is afforded by the senior Medical Officer with a Regiment in Garrison, for which he draws Thelieve head Money; recent circumstances make me somewhat apprehensive that there is a disposition to make the right of myself and family to medical attendance from the same quarter matter of question; this in the event of illness would place me in very trying position and probably lead to much and lengthened correspondence, it is to avoid this and because the circumstances of my position here are peculiar that I am induced to make the present application and to request that the necessary instructions may be issued from, and through the proper authorities to the Medical Man to whose attendance they may consider me entitled as a Civil Servant on duty and by order at this station.

Bd. No. 2723

From the Actg. Collector of North Arcot.- Para 1.

Reporting upon the Extra Sources of Revenue for Fusly 1260 and submits the usual Statements.

Sir,

I have the honor to submit the usual Statements of the Extra Sources of Revenue in the Northern Division of Arcot for Fusly 1260 Viz.- Printed Statements in Triplicate.-

Statements A. and B.

Statements Nos. 1 & 2 with corresponding Statements in Hindoovee.-

Statements from Nos. 3 to 7 or from H. to L drawn out in the forms which accompanied the Salt Rules of 23d. December 1850.-

Statement No. 8. a list of the Sugar Manufactories in the District in Fusly 1260.-

Statement No. 9 showing the details of the Moturpha Revenue prepared according to the form which accompanied the Board's letter of 15th March 1849.-

2. The following abstract of Statement No. 1 shows the Revenue from all Extra Sources for Fusly 1260 compared with that of Fusly 1259.-

The whole quantity of Salt Manufactured in Fusly 1260 was heaped for the Fusly.-

Salt. 4. The Decrease in the sale of Salt merely nominal. There is in fact an increase of 2,074-8 Rs. as tho' it does not appear in the report, because this year the Amount sold between the 20th June & the 11th July has been excluded from the Collections in consequence of it's not having reached the Hoozoor Treasury within the Fusly, whereas in Fusly 1259 Such was not the Case.-

Sank & Fisheries.- 7. This head shews an Increase of Rs. 263-12-as. 11-fs., Rupees 152-14-9 of which are owing to the Villages of the Auvelcondah Jaghire having in the year under review been settled Ryotwar instead of having been rented out, Sank fisheres included, as they were in Fusly 1259.-

Tolls on Boats. 8. The increase under this head Rupees 241-6-6, is owing to a portion only of of the year's Rent appearing as the Beriz for Fusly 1259 in consequence of the three years lease (from Fusly 1259 to Fusly 1261) concluded in January 1850 not having come into operation till after a considerable portion of the Fusly year had expired whereas in Fusly 1260 the full amount of the Rent (Rupees 567) is entered as the Beriz.-

Stones used for grinding sandal wood.- 9. There is a decrease under this head of Rupees 110 From Fusly 1249 to Fusly 1255 the rent was 20 and (one) 21 Rupees for a Fusly 1256 it was 60 Rupees- In Fusly 1257 it rose to 150 Rupees and in Fusles 1258 & 59 to Rupees 210- In the year under review, owing to want of Competition it has declinied to 100 Rupees.-

Stamps.- 10. The increase of Rupees 5,308-10-as. 6-fs. which appears under this head is owing partly to the number of suits filed in the Courts of the District Moonsiffs having been greater in the Fusly under review than in Fusly 1259 and partly to several high priced Stamps having been this year sold on account of suits filed in the Civil and Sudr Adalut Courts.-

Stamps actualy sold.-

12. Of the Increase (Rupees 809-15-9) Rupees 237-2- 8 are owing to the Village of the Mannicadoo Collenn and shall be collected by Kapiah which were rented out in July 1250 having been settled Rupees in 1260. The remainder 532-12-½ arises from ordinary Casual. The Decrease under the Heads of Rents of Warehouses for Grain, Oil Presses &c. is to be attributed to the Merchandize of Pulney being differed by the removal of the Regiment which used to be stationed there.-

I am Custom's 13. There were no Collections under this Head during the Fasly Year having to the Traffic of Public (the only Seaport in the District) having declined and partly the Operation of Act XI of 1844.-

15. The balance (5,000 Rs.) remaining under the Head "Abkarry" is one that cannot be realized. It is the Amount of Remission to which the Renter is entitled by agreement on account of the removal of the Cavalry Regiment from Ranepet and I therefore beg leave to request that sanction may be given me for writing it off.—

16 Of the balance under the Head "Motorpha" also there is a sum of Rupees 64-0-9- which cannot be collected for reasons which have been detailed in the 18th Para of the Report on the Exstra Sources of Revenue of this District for Fusly 1259.— It is due on account of a Tax imposed on certain Washermen and Shepherds of the Aumoor Division of the Salghur Taloo K. under peculiar circumstances which have been

been fully explained on former occasions. In Para 12 of their Proceedings of the 14th October 1850 the Board observe in reference to this subject that they "are not prepared to "recommend further indulgence unless it "should appear that the parties are required "to pay Motorpha separately". The parties in question pay no separate Motorpha and therefore the Tax should be levied but the only method of doing so which seems to me to afford a reasonable prospect of realizing it, Viz.t the apportioning the Amount derivable from the Tax among the different individuals now liable to the Puttahdars and holding each man immediately responsible to Government for the share assigned him I scarcely feel at liberty to adopt, conceiving that such a course might be considered as militating against the spirit (if not the letter) of Para 5 of the Minutes of Consultation under date

Fort St. George 10th November 1851.—

date 19th November 1850 and of the Circular Order of the Board of Revenue dated 28th November 1850.—

As regards the remainder of the Balance under this head the necessary arrangements have been made for its Collection and a considerable portion of it is already in train of recovery.—

16. The arrears of Fusly 1259 at the close of Fusly 1260 were Rupees 68-4-9 of these Rupees 64-4-9 are due on account of the Tax mentioned in the preceding Paragraph (that on the Aumoor Washermen and Shepherds) and are outstanding for the reason particularized in the Report therein alluded to— 3 Rupees which appear against a Goldsmith of the Congoondy Samastaun have been proved on enquiry to have been an over tax— and the remaining One Rupee is irrecoverable, the party against whom it is outstanding being utterly destitute of the means of paying it.— I beg therefore that I may be allowed to write off the following Items on account of the arrears of Fusly 1259.—

Tax on certain Washermen and shepherds— 64—4—9

Excess Tax levied on a Goldsmith— 3—0—0

Tax irrecoverable on account of the poverty of the Individual by whom it is due — 1—0—0

68—4—9

There

Fort St. George 10th November 1851.

17. There is another Item also which should be written off the accounts of this District and for writing off which I must solicit sanction— It is a sum of 64-8-4 entered in excess in the Demand of Sevoy Jummah— Before the order (see Boards Proceedings of 28th February 1850 and Para 4 of Extract of Minutes of Consultation dated 22d February 1850) for the abolition of the Tax on Village Smiths and Shops formerly levied in the Congoondy Pollium reached the District a portion of the Tax amounting to Rupees 45-10-0 had already been collected— This sum the Police Ameen was instructed to carry to account— Accordingly it was remitted to the Moozoor Treasury and entered in the "Collections" of Sevoy Jummah— But in stating the "Demand" instead of confining it to the sum so collected the Police Ameen included in it the whole— Beriz of the Fusly which would have been due had the Tax not been abolished Viz. Rs. 110-2-10 and so raised it to Rs. 64-8-4 above what it ought to have been.—

Bd. No. 2568
From the Collector of Madura

Sir,

I have the honor to request sanction for refund of Rupees 3-12 being fine levied for Stray Cattle on the Sentence of the Head of Police of Thenkurray which has been reversed by the Joint Magistrate on appeal.

2 The necessity for this application has arisen from the Head of Police having erroneously supposed that the general order for all fines being kept in deposit for one month was not applicable to fines levied on Stray Cattle, I have circulated another order correcting the mistake.

Enclosure No 5 to Collectors report

The sales for Home consumption were Rupees 2,90,900—13—9 being Rupees 9,650—8 above the average of the past ten Fuslies and the Inland sales amounted to Rupees 60,071—13—7 being Rupees 45,541—15—1 above those of Fusly 1259, previous to which the Inland sales appear to have been included under the Head of Home Consumption" The increase was occasioned

D° N° 3 by larger exportations to Madura and Coimbatore on return bandies which had previously conveyed large quantities of Cotton to Tutacorin for shipment—

3. The manufacture of Salt was

D° N° 2. greater by Maunds 7,15,38—12—0 than that of the previous

D° N° 4. Fusly and involved an excess in the charge but left a Net Revenue of Rupees 3,11,078—11—5 or Rupees 3,11,83—11—11 above Fusly 1259—

4. Under the head of Sayer there is an increase of Rupees 2,678—11—9 owing to larger Imports of Cut Betel

Export of Piece Goods to Travancore The attention of the Collector is called to the requisition contained in the Boards Proceedings of the 25th November 1850, for exhibiting the Imports from Inland Customs distinct from the exports which has not been done in Enclosure 7 to the present report—

5. In Sea Customs there is an increase of Rupees 10,45—14—4 from larger Imports of cut Betel Nut and European Cotton Thread from Columbo—

6. The small increase in Abkarry of Rupees 116—0—0 requires no remarks—

7. In Moturpha there is decrease of Rs. 1191—0—6 from a deficiency in the number of Looms arising from the poverty of certain Weavers who relinquished their Trade—

8 The small Farms and Licenses, which are composed of the 3 items of Chayroot, Chanks, and Fish Rents, yielded Rs. 15,465—0 above that of the preceding year in consequence, Chiefly of having brought to account in Fusly 1260 the sale proceeds of the Chanks fished in the preceding Fusly and partly by better offers obtained for the Fish rents of certain Tanks in the Streevelly pootoor Talook which received early and abundant supplies of Water—

9. The Cause of the increase of Rs. 2,060—12—0 in Stamps is not assigned by the Collector but it is probably owing to the operation of Act XVIII of 1848—

10. The Gross Collections, Current, Extra, and Arrears from all Branches of Extra Revenue amounted to Rupees 59,2075—11—9 Deducting Charges Rs. 58,864—2—9 the Net Revenue realized within the Fusly was Rupees 5,33,211—9—0 or Rupees 21,744—2—0 above that of the previous year—

Ordered that a Copy of the foregoing Extract with the annexed Comparative Statement of the Collections Charges and Net Revenue be submitted to Government and a transcript of the same be furnished to the Collector of Tinnevelly—

admission of Bombay and Arabian Salt on a duty of 12 Annas per Indian Maund, and desiring me to furnish my sentiments on the plan, and its applicability to this District—

2.

The only point which has any relation to the state of things in Malabar, which derives all its supply of Salt from Bombay refers to the question of admitting Bombay [or Arabian] Salt on a fixed duty of 90 Rupees per Garce, and allowing it to be sold, like all other free imports, at the pleasure of the private traders.

That the Government would be no losers to say the least, by a plan which enabled them to dispense with all their Salt Establishment is a matter of little question. The average price paid for a Garce of Salt is Rupees 31—6—4, and the expence in storing and selling it is Rupees 3—4—. more leaving a profit on its sale of Rupees 85—5—8 per Garce.

Charges of Superintendence and sale upon the quantity of Salt actually sold in each of the last three Fuslies—

Whether the private consumer would benefit by the change of system is a matter of considerable question

I

I doubt whether for a long time he would get his Salt as cheap or as good as he does now.

Competition would bring things into a healthy state at last, but it might be longer ere that occurred. There are but few great Capitalists in Malabar. Few to enter into so extensive a trade as the Salt trade is. If the plan be introduced I would try it first at one or two ports and only extend it when experience had shewn we could with safety

the plan proposed by the Collector of Canara, relative to the admission into certain ports of his District, of Bombay and Arabian Salt on an Import duty of 12 annas the Indian Maund

2.

Mr Conolly supposes that there will be no loss to Government by the adoption of this plan, but doubt whether the consumer will under it procure as cheap and good a commodity as he does now & recommend that the arrangement, if thought desirable, be gradually introduced—

3.

The Board see no objection to the importation of Salt from whatever place being thus permitted experimentally more especially as the arrangement meets the views of the Honorable Court as expressed in Paras 15 & 16 of their General letter dated 30th July 1851, but looking to the fact of Malabar having been dependent as yet upon Bombay for its Salt, and in this respect differing from Canara which has its home manufacture to a considerable extent, and also importations from Goa, they would repeat the suggestion lately offered, that

the Bombay Government be requested to permit the export of Salt as heretofore upon an almost nominal charge, or at least to leave it optional with parties to receive the Salt on the present terms, or the proposed rate of 12 annas the Indian Maund—

4.

From Collr 3o Septr 1851 Para 10

For the successful operation of the proposed measure, Mr Maltby is of opinion that the Merchants should be allowed to bond the Salt for a certain period in any of the Government Store houses which may be available for that purpose, on payment of a trifling rent and entirely at their own risk— Without a permission to this effect, the Board apprehend that Capital will not be readily invested in the Trade to be newly opened—

The last date on which any of the Weights and Measures belonging to my Office were adjusted by the Assay Master was on the 9th of February 1847 the Standard Paddee and Measure in use in my Office are those received from the Superintendent of Police details on the 12th February 1812 on which date the charge of the Stamping Department was transferred from the Superintendent of Police details to the Office of the Collector of Madras.

3.

In answer to the remarks made by the Board as to some error having taken place in the report contained in the enclosure to my letter concerning the Weights of the Rice and Grain I beg to state that I have again gone through a series of experiments the results of which have confirmed the previous experiments as stated in my former letter. The differ-

The Board of Revenue request the Collector will be so good as to forward a Statement shewing the receipts and disbursements for the last 5 years on account of the Stamping Department of his Office, with a Memorandum of the rates charged for Stamping different kinds of weights and Measures+.-

+ As also the dates on which Measures for the Commissariat and Police were last Stamped.-

2. They desire also to know by what process the Department tests the accuracy of the Measures Stamped, whether by measurement of Superficies or actual contents, and it should be stated what standard is used for that purpose.

3. The Weights and Measures are said to have been adjusted by the Assay Master in 1847. It should be explained whether the Puddee and Mercal sent to the Board's Office, were those which the Assay Master adjusted, and whether they are the same as those received from the Police in 1812.-

B. No. 2671.

From the Secy. to Government } Extract from the Minutes of Consultation dated 30th October 1851.

(From B. dd. 28th July.)

Para 1.— Under the circumstances represented in the first 2 Cases submitted for Orders in the report of the Acting Collector of North Arcot for the 1st Quarter of 1851, the Right Honorable the Governor in Council resolves, Agreeably to the recommendation of the Board of Revenue to direct that—

Walapundel 5 Cawnies of Nunjah, Value Rs. 66—2. and 2½ Cawnies of Nunjah value Rs. 34—1—6— } the Enam be continued in the Names of the parties entered in Column VIII of the Statement;

but

but as the documents produced in support of them show that they were originally conferred for the subsistence of the Grantees, it should be distinctly intimated to the parties that these Enams will not be continued beyond their lives and that the share of each incumbent will be resumed on his death.—

2. As regards the 3d. case, it is explained that 6 annies 4-7 of the Poonjah portion of the Enam was purchased by Subadar Syed Peer in February 1846 for the sum of Rupees 1500, and that the remaining 6 annies are in the possession of Munsookram Lalah the great grandson of the Original grantee. The Governor in Council directs that, as recommended by the Board of Revenue these portions be continued to the present holders, and that on the death of Syed Peer, the case be again reported for orders as lately prescribed in regard to the purchaser of the Kunjah portion of the Enam. The Enam in the enjoyment of Munsookram Lalah will be continued only for his life, unless the Board should

From the Sect. to Government } Extract from the Minutes of Consultation dated 30th October 1851.

(From Bd. 6th Oct.)

Para 1. In the case reported upon in the Statement now laid before Government both the Collector of Salem and the Board of Revenue recommend the renewal of the lapsed half share of the Yeomiah and the resumption of such portion, one sixth of the Bhuttavartie Enam, as was enjoyed by the late Saraswaty Josee—

Rs. 62—8—8
Deduct Jodegy — 20—5—11
Remainder Rs. 42—2—6

2. Under the circumstances represented in respect of the Yeomiah allowance, the Right Honorable the

the Governor in Council concurs in the proposal to continue to Cooppummah, the Mother of the late incumbent, for her life, the sum of Rs. 17-8- per Annum, which will accordingly be paid to her, with arrears from the 18th February 1850 the date of lapse. The share held by the deceased in the Butwarte Enam, will be resumed as recommended by the Board.

From the Collr. of Rajahmundry

Sir,

I have the honor to acknowledge the receipt of your letter of the 12th June last forwarding a Copy of paras 22, 23 and 24 of an Extract from Minutes of Consultation dated 22d May 1851, and to inform you that I have already reported for the information of the Board in my letter of the 27th August last paras 2 and 9 that the debited yet undisbursed portions of

of the Salaries of the Talook Establishments, and that the unchrossed portions of the remittances in sealed bags from the Talooks are kept in deposit in my Treasury and are not subject to the Monthly Examinations. These are the only instances in which the instructions of Government Contained in paras 22 and 23 have not been fully carried out, In regard to the former of these exceptions the Tahasildars were then ordered to send for the Salaries of their establishments before the expiration of the Month, and in regard to the latter the practice was then abolished. The bags have been opened and examined by the Examining office—

2 The observations of Government contained in para 24 upon the nature of a Head Sheristadars duties and the responsibilities of his office have been Communicated to my Sheristadar, and the further instructions Contained in the same para relative to the Examination of the Treasury Accounts by the Serishta department previous to the examination of the Treasury shall be

From the Collr. of Rajahmundry } Sir,

With reference to the Board's Proceedings of the 12th June last, requiring me to state my opinion on the proposition for a legislative enactment prohibiting inoculation, I have the honor to report that the practice of inoculation is unknown in this district, and that there can be no objection to the enforcement of the proposed enactment on the subject.

2. In my opinion an act compelling every person to be vaccinated ought to be passed. If the benefits which the liberality of Government proffers to the people are not accepted, and if the Maintenance of a large and costly vaccination establishment be found ineffectual under the existing system it should be remembered that the Government has a direct interest in saving the lives which are annually forfeited through the apathy of

of the people and an absolute right to compel parents to resort to the means provided for rescuing their helpless children from the ravages of small pox.

Bd. No. 2745

From the Collector of Chingleput

With reference to Extract from the Proceedings of the Board of Revenue dated 12th June last, Communicating Extract from the Minutes of Consultation under date 27th May, and requiring me to submit my opinion on the proposition of a Legislative Enactment prohibiting Inoculation in India, I have the honor to state that from all I have been able to ascertain, the practice of Inoculation does not prevail in this Presidency - The Introduction of the measure as proposed, though it would consequently prove

prove a dead letter as concerns this part of India, nevertheless involves a matter of most serious consideration in a general point of view in as much as it is well understood that in instances in which Small Pox is Communicated by Inoculation the resulting disease is rendered much milder by this operation, and guards the Individual against a Spontaneous attack The expediency of the proposition as concerns localities where the system of Inoculation is practised must mainly rest on existing circumstances in reference to the introduction of Vaccination being so universal, and the means of its system being placed in so good a footing as to render all Parties accessible to the advantages and blessings attendant thereon.- The practice of Inoculation has very deservedly been abandoned in other Countries, where the introduction of Vaccination has been general, and the points which appear deserving of Consideration are whether such is the case in this Country and, whether the prejudice against Vaccination have been entirely or equally overcome as in this Presidency - In respect to the means to be employed for still further improving the existing

existing system of Public Vaccination in coopera-
tion with the Medical Department the
great desideratum towards the accomplish-
ment of so desirable an object is chiefly
attainable in the careful supply of fresh
Vaccine matter - a matter of most essential
importance in reference to extended experience
which has I believe satisfactorily proved
that its efficacy is much impaired by re-
peated introduction into the human systems.
As far as I have been able to learn from personal
communication with the Vaccinators employed
in this neighbourhood, and from information
obtained from other quarters, it would ap-
pear that this class of Servants employed
by Government are not from time to time
supplied with fresh vaccine matter, but
re-vaccinate from subjects who have undergone
the operation. It appears to me under any
Circumstances as regards the Correctness or
otherwise of my information, that this doubtless
is a subject of paramount importance requiring
the opinion of Medical Officers most Competent to
afford the same, when it is Considered that
vaccination is the only preventive to the ravages of

of one of the most terrible scourges to which
the human race is subject, and that much
misery and loss of life are attendant
on any mismanagement connected with
the use of ineffective vaccine matter in a
Country in which the disease of small
Pox is epedemic. -

Fort St. George

Sir,

I have the honor to return the two enclosed Petitions Nos. 1238 and 1867 of 1851 with the following explanation, as it seems to me advisable that the Board should be acquainted with the Circumstances under which they have originated and Communicate to the Petitioners such orders as the Case may be deemed to require.

24

Bd. No. 2581

From the Collector of South Arcot. } 1

Returns the enclosed Petitions Nos. 1238 and 1867 of 1851 with explanation.

2. The Petitioners are inhabitants of the Chellumbrum Taloork, and the main purport of their Petitions is to remonstrate against the Dittum which has just been introduced into the Jummabundy of that Talook. Orders for introducing the Dittum had been received before I joined the District, and indeed before I had formed any opinion of offering any remarks upon the system. I therefore confine myself to noticing the Case of the Petitioners in order that the Board may judge of the measures adopted by me herein accordance with the instructions which they have originated and Communicated to the Petitioners such orders as the Case may be deemed to require.

3. They therefore to observe that the Petitioners were connected with an attempt to obstruct the progress of the Jummabundy in the Chellumbrum Talook by clamour and tumult, and that the three instances which they quote of waste lands

I. & D.

being included in the settlement were in the case of individuals who had contumaciously refused to sign the Dittum or enter into any engagement regarding the lands which they intended to cultivate. The standard of the preceding years Puttah was therefore taken as the extent of their liability in accordance with the instructions of the Board dated the 5th August 1850, but as it was not my wish to introduce the new system with any resemblance of harshness I remitted the Poonjah waste altogether and collected only 1/2 Teerwah on the Nunjah waste as a lesson to the people that while perfect freedom of cultivation will be allowed they must make known to the authorities the lands which they wish to occupy or resign.

4 I enclose for the Board's information a Statement shewing the Puttahs of the three individuals in question and will only observe, 1st that the wet lands in the Chellumbrum Talook ought not to be left waste as Government furnishes ample means of irrigation, and 2dly that two of the three individuals while neglecting their own Puttah lands took up new fields, thus shewing that they had the necessary means for carrying on cultivation and were acting improperly exclusive of their contumacious refusal to sign the Dittum.

Salt

2 The sales of Salt comprising both Home and Inland consumption are the largest which have been realized for several years - the increase over Fusly 1259 amounted to Rupees 29,640-6-7 and is attributed to the improved circumstances of the agricultural population, both in Tanjore and the inland Collectorates, and to the late arrangements effected in Pondicherry, restricting the Sale of earth Salt to the residents of that territory. The new road lately constructed between Adrampatam and Trichinopoly, and other improvements in the communications have also aided in increasing the Salt Sales by affording facilities for the transport of grain to the coast - whence the return bandies take back Salt at very moderate rates of hire. The Acting Collector anticipates greater results from the construction of this road, so soon as the bridges &c. have been built.

Sayer

3 The increase under this head amounting to Rupees 1,915-11-9 arose from the increased exports of grain to Karikal.

The

Sea Customs

4 The decrease of Rupees 1198-14-10 in Imports chiefly under the heads of Iron, Lead, Copper and Piece Goods, has been in a great measure caused by the loss of four Vessels laden with sundry goods for Nagore- this diminution has however been more than met by increased exports (Rupees 8138—3—11) owing to large Shipments of Rice to Colombo and Mauritius, and Tobacco to the eastern Islands- the net increase in the Sea Customs revenue amounted to Rupees 6939-5-1.-

Abkarry

5. The demand in this branch of Revenue was Rupees 113520 or Rupees 6625 over that of the previous Fusly and is consequent on increased competition for the rent.

Moturpha and Sundry small Farms and Licenses.

6 The increase under these heads amounting respectively to Rupees 1251-13-6 and Rupees 56-2-4, calls for no remark.

Stamps.

7 The sale of stamps for the Fusly amounted to Rupees 69240-4-0 or Rupees 13686-4-0 above that of Fusly 1259.

and is attributed by the Acting Collector to increased litigiousness in the District- The Board believe that the operation of Act XVIII of 1848 must have also tended to increase the Stamp revenue.

8. The total demand for the Fusly amounted to Rupees 99,1567-10-9, of which Rupees 95,3726-2-7 were collected within the year, and the balance Viz^t Rupees 3,841-8-2, with the exception of Rupees 1-10-3, has been subsequently realized.

9. The whole of the collections including current, Extra and arrears within the Fusly amounted to Rupees 98,1837-6-3, from which the charges, Viz^t Rupees 1,4242-7-10, being deducted, there remained a net revenue of Rupees 90,7594-14-5 or Rupees 50,363-11-3 above that of Fusly 1259.

Ordered that a copy of the foregoing Extract with the annexed comparative Statement of the Collections Charges and Net Revenue be submitted to Government, and a transcript of the same be furnished to the Acting Collector of Tanjore.-

to be placed under the management of the Collector in whose hands it has subsequently remained, and the amount, of about Rupees 25,544 has accumulated to the credit of the deceased mortgagee's /Pertaub Sing/ as heir, a Minor. No reports or accounts of management appear to have been made either to Government or the Board of Revenue.—

3 Much litigation respecting the owner-ship of the Mosque &c. took place, eventually, one C. S. Syud Shaw sued Kaderally Shah /the Respondent in A. S. No. 8/48 before the Sudr/ for the mosque and property under O. S. No. 2/45 Combaconum File when the Judge by Precept† directed the Collector to hold the mosque property under attachment, but as this was already under the Collectors' management by order of Government this produced no change. This suit was dismissed and the Plaintiff appealed, but the original decision was confirmed. After the issue of several Sudr Extracts &c. this Court has very lately,

† 29th March 1845

lately called upon me to remit to them the accumulated amount of a certain allowance that the late Pertaub Sing agreed in 1847 to pay to Kaderallishah the Respondent. A. S. 8/48. My detailed reasons for objecting so to do ere being communicated that they would not be misappropriated /Vide Regulation VII of 1817/ will be seen in the enclosed Copy of a letter to the Civil Judge, but as these objections have been overruled, I have deemed it right to Comply with the orders received.—

No. 1 dated 23d. Sept. 1851.

4. Ascertaining correctly the position in which I am placed with regard to these Mortgaged Enam Villages, whether as Agent under Regulation VII 1817, or Manager under Regulation V 1804, or Curator under the orders of Government, is obsolutely requisite for my future guidance; especially, as I think it probable that the Sudr may call on upon me to pay over the accumulated proceeds of the property, which demand has been once made and now appears to be only in abeyance.— The

Sir,

With reference to the Sudr Extract on O.S. No. 8 of 1848 noted in the Margin I have the honor to request that you will be so good as to submit the following reference to the Sudr Court. -

2. The 3 Maniem Villages held on mortgage by the late Perlaup Sing were placed under the Management of the Collector by Orders of Government / August 9th 1842 / as communicated thro' the Board of Revenue. The object in so doing was to take care that the said land should be well managed whereby the interests of the Mortgagee would be fairly cared for, which measures no less effectually

secured the interests of the mosque. Tho' not so expressly mentioned by Government it is clear that this management was considered as under Regulation VIII of 1817.

It is to be observed that O.S. 2/45 was brought against this Respondent / then Defendant / for the right to this Mosque &c. that Suit was dismissed: the Plaintiff appealed and the original Defendant / Respondent / gained the appeal Decree, the claim of Plaintiff 2/45 was therefore negatived and the Defendant / Respondent / is consequently placed in the same position as he was before O.S. No. 2/45 was instituted, but he claims to be put in the position he would have been in had he sued as Plaintiff for the Mosque and made Government and the mortgagee / Perlaup Sing / Defendants and had gained a decree in his favor and this too when in his answer in O.S. 2/45 he had denied that the said suit was Cognizable by the Courts under IV of 1831. -

3. The Court of Sudr Adalut have decided in appeal S. No. 8 of 1848 that the right of succession to the Mosque and its property is vested in the Respondent but as neither Government or Perlaup Sing were no parties to the said suit the decision does not appear to me to authorize the Court to confer on the respondent the control and management of the Maniem Villages and their proceeds in-as-much as these were ere the institution of the said suit and still are held under the Collector's Management under Regulation VIII of 1817.

4. In fact it appears to me that as the general superintendence of the endowment is vested in the Board of Revenue by II, VII, 1817 the Sudr Courts decree in favor of

Fort St. George 13th. November 1851.

of the Respondent only places him in a con-
dition to apply for his claims to me as the
Board's agent / under VII of 1817 / for the
superintendence of the endowment, and that
the Courts have no jurisdiction as to the
Management of the Villages and their pro-
ceeds, except the Respondent being dissatisfi-
ed with my and the Board of Revenue's award,
appeal therefrom under XIV. VII. 1817 by
a regular suit.—

5. It would also observe that
the proceeds of the Inamum lands are not
the Respondent's private property and can
only be appropriated for the service for which
they were originally granted by the State.
Hence ere receiving any portion of the same he
is bound to prove to the satisfaction of the
Board of Revenue (Regulation VII of 1817)
that he has duly performed the Sraspue
services for the period that he claims arrears
and also that no portion of the said Revenue
will be appropriated Contrary to the
intentions of the donors (Government) to
the personal use of the Respondent—

said sums must be unconditionally remitted

time be allowed me for referring to and
obtaining the Revenue Board's sanction for
so doing, or for instructions how I am to
proceed. At present I find myself in a
position of some difficulty, 1st. the Sudr
Court require me as Acting Collector to
remit certain sums of money though as
neither I or Government were parties to the
suit, I doubt their jurisdiction - 2dly. The
Board of Revenue and Government may
hold me responsible under VII of 1817 to prevent
the said endowment &c. being converted to
the private use of the Respondent whilst
3dly. Perhaps Singi's heir / the Minor / might
hold me responsible for paying over
any of the proceeds of the money) co
standing in the Treasury in his name
on the grounds that as neither his Father,
himself a Minor, or Government as the
Curator of the mortgaged Estate were
parties in the said Suit, the demand
was not one that the Sudr was in
a position to have enforced, had compliance
been refused.—

No. 2.

Extract from the Proceedings of the Sudr Udalut under date the 6th October 1851.

Read again Miscellaneous Petitions presented on the 10th April and 28th August 1851, by J. Ouchterlony, Esqr. Vakeel on behalf of Khader Ali Shah Respondent in appeal Suit No. 8 of 1848 on the file of the Sudr Udalut.—

Read also return dated 25th September made by the Civil Judge of Combaconum to the Precept of the Sudr Udalut under date the 4th September 1851, directing that Officer to obtain from the Collector of Tanjore the Sum set apart for the Mosque under the Mortgage Deed executed in 1816, which was ordered to be paid to the above Respondent and to remit the same to the Sudr Udalut.—

1 With the above Return the Civil Judge submits for the Consideration and orders of the Court of Sudr Udalut a Copy of a Communication from the Acting Collector of Tanjore dated the 23d. Ultimo in which that officer, after stating certain legal objections which in his opinion exist

15010

Fort St. George 13th November 1851

exist to the execution of the Courts Order directing the transfer of the Mosque Villages to the above Respondent, and the remittance to the Sudr Udalut of the certain Monies awarded to that individual, requests that in the event of the Court over-ruling his objections, a Sufficient time may be allowed him to make a reference to the Board of Revenue for their orders on the subject.—

2. The Court of Sudr Udalut have given the objections urged by the Acting Collector in the foregoing communication their careful consideration and they are of opinion that Mr. Goodwyn has failed to shew one single good or legal ground for the opposition which he has seen fit to raise to the execution of the order in question.—

3. The Court observe that Mr. Goodwyn's objections are entirely based on the assumption that the Management of the Villages in question was vested by Government in the hands of the Collector under the Provisions of Regulation

Regulation VII of 1817: this assumption however the Court remark is not borne out by any proof, and is in their opinion directly opposed to the real facts of the Case.-

4. Entertaining this view of the case the Court of Sudr Udalut cannot recognize the propriety of the Acting Collector's request for further delay and they direct that peremptory instructions be issued requiring his immediate compliance with the Court's previous Orders.-

Ordered that Extract from these Proceedings be forwarded to the Civil Judge of Combaconum by Precept returnable within Ten days from and after its receipt.-

Proceedings thereon.

Submitting letter from the Acting Collector of Tanjore requesting instructions regarding the payment of allowances out of proceeds of land under Circar management and desiring to know the sentiments of Government on the subject.—

Fort St. George 13th November 1851.

Resolved that the foregoing letter together with its enclosures be submitted for the consideration and orders of the Right Honorable the Governor in Council with reference to the papers noted in the Margin.

Extract Minutes of Consultation 30th September 1842
with accompaniments, in Cons 3d October, 1842.

The three Manuims or Villages of Dulocpollium, Valatoor and Chuckrapully, in the Pattana Gunn Taluk, formerly belonging to certain Mahomedan religious Institutions were held on mortgage by the late Pretaubsing of Madharjanum and Hindersley, when Conducting the duties of Resident at Tanjore in 1842 finding that they were inefficiently managed, recommended with the Consent of Pretaubsing that they should be managed by the Collector of the Province on his (Pretaubsing's) account. The Government accordingly instructed the Board of Revenue (30th September 1842) "to place them under annamy management on behalf of Pratab Sing" which was done, and as they have since continued, though no Report on them has ever been made to the Board, or was it asked for in

on the ground (it is presumed) that it was an arrangement in the Political Department.—

Mr. Goodwyn now brings to the notice of the Board that the surplus proceeds having amounted to about 25,500 Rupees (credited to Pretaub Sing's Son a minor) he has been called on by an order of Court to pay therefrom a sum of money due by Pretaub Sing to one Khader Abishale a person connected with the Mosque to which the Maunium really belongs and who had established his claim to this money in a Civil action against a third party.—

3. Mr. Goodwyn objected on the ground that he as Collector held the property in management under Regulation VII of 1817 and that Khader Ali shah could only apply to him as the agent of the Revenue Board and by no authority of a Court of Law. The Court of Sudr Adawlet were referred to, and they were of opinion that the Collector did not hold under Regulation VII of 1817 and that he must make over the money. It has been paid, but Mr. Goodwyn is desirous of ascertaining correctly the position in which he stands whether as the agent of the Board under Regulation VII of 1817 or Curator under the orders

orders of Government. He is apprehensive that if he pays away money by order of Court, he may be held responsible by the heir of — Pretaub Sing.—

4. The Board cannot agree with Mr. Goodwyn that he has charge of the prop= perty under Regulation VII of 1817— He certainly does not manage it for the benefit of the — Mosque and indeed the fact of its being a Mort= gage of a Mosque does not seem to have been at all a question with Government, and no doubt the same orders would have been passed had it been a mortgage of some private individual.

5. To the Collector of Tanjore the ordinary duties of the Resident have now been transferred and the Board conceive that as his control extends to all the members of the Rajah's family, he holds the land in trust for the Minor under special order of Government. Before however finally reply= ing to him, the Board would desire to be made acquainted with the sentiments of Government.

From the Collr. of Tinnevelly — 22d April last I have the honor to state for the information of the Board of Revenue that the subject of remuneration to Coolies for road work having been discussed between the Civil Engineer and myself it has been determined to raise the allowance in future for Earth and gravel work on roads one third in the Northern parts of the District where labour is scarce and one quarter elsewhere, and to add one Anna to the rate hitherto allowed per cubical yard for broken stone, making it 6 annas which with the system already introduced of frequent payment to the Coolies themselves by the European Officers whenever they are in execution change of works, it is hoped will render it more easy to obtain workmen. It is however not to be expected that complaints will altogether cease because Vellalers and other better classes will not work on the roads in Company with Pullers and Pariahs and certain of the latter classes who have embraced

No. 104.

To W. H. Bayley Esqre.
Secretary to the
Board of Revenue

35

B. of No. 2743.
From the Collr of
Madras

Sir,

Para 1. I have the honor to transmit herewith for Submission to the Board of Revenue the Statements A to H in Tamil and English of the Settlement and Collection of the Land Revenue of the Madras Collectorate for Fusly 1260.

Submitting the annual Report on the Land Revenue of this Collectorate for Fusly 1260 with the usual Statements.

The Board are aware that the whole extent of Lands.

2. Lands of this Collectorate are held by private individuals in some cases under Grants and Certificates and in others merely from long occupancy and prescriptive right. The following Statement exhibits the amount of Revenue derived from each of these heads.

	Rs	a	p
Lands — held under Grants and Certificates	54,840	10	4
Lands not held under Grants and Certificates	2,248	10	"
Total	57,089	4	4

3 This sum includes the amount of Revenue derived on account of Quit Rent on Houses, and Gardens occupied and unoccupied

uinoccupied and that realized from Lands under cultivation. The proportion that these bear to each other, may be seen from the following entries.

	Quit Rent Demand
Quit Rent on Houses and Gardens Rupees	43,431-3-3.
Land taken up for cultivation	13,706-2-5
	57,137-5-8.

4 The Quit Rent Demand for the year under report was as given above Rupees 43,431-3-3. being Rupees 219-14-" in excess of the preceding year.

Fusly 1260 — 43,431-3-3.
1259 — 43,211-5-3.
Increase — 219-14-"

This sum is composed of the Quit Rent on Houses under occupation, which is Rupees 41,468-12-" and on Houses, that are uninhabited, Rupees 1962-7-3. It will be seen from Statement B that the largest amount of Quit Rent is realized from buildings and lands situated within the Walls of Black Town where the assessment is levied both on the value of the ground and the nature of the building raised on it, which is not the case with the tax imposed on lands outside the Town itself.

Quit Rent Collections.

Demand	43,431-3-3.
Collection	39,513-1-7.
Balance	3,918-1-8.

5 The Collections that were made on account the Quit Rent Demand amounted to Rupees 39,513-1-7. thus leaving a Balance of Rupees 3,918-1-8. for future adjustment.

adjustment. Of the sum that has thus been left uncollected it will be seen by the Board that only Rupees 2,345-15-9. appertain to the demand on Houses and Gardens under occupation, while the remainder Rupees 1572-"-" is due on Houses that are uninhabited. The causes for the occurrence of these balances every year have repeatedly been explained in my previous reports, so that they do not appear to call for notice at present.

Demand on Lands under cultivation.

6 The extent of cultivation in the year under report was Cawnies 2,150 being somewhat less than in the preceding year. It will be seen from Statement D that cultivation was most extended in the Villages noted in the margin, which is owing in a great measure to the lands in these localities being dependent for their irrigation, not on the nature of the season, but on Tanks, Wells and Water Courses.

6 & 9-497	
St Thome	827-15-"
Sondiarpet	640-"-"

7 The whole demand on Gardens and paddy fields cultivated and uncultivated amounted to Rupees 13,706-2-5. which is nearly equal to the Settlement of the preceding Fusly while the Collections made within the year was no more than Rupees 9,404-15-10. leaving

Demand	13,706-2-5-
Collection	9,404-13-10-
Balance	4,301-4-7-

leaving a balance of Rs 4,301-4-7- to be hereafter accounted for. This balance under each of the heads of cultivated and uncultivated lands is as follows

Cultivated ——— Rupees 1949-1-4

Uncultivated ——— Rupees 2352-3-3

Of the former it will be observed from State-ment **D** that the sum of Rupees 1262-2-8- is due on Lands irrigated by Yarries, the larger portion occurring in the Village of St Thome and Perambore, while Rupees 505-5-11 and Rupees 181-9-8- are outstanding on lands watered by Tanks and Wells and by the usual periodical rains.

Ground Rent— 8.

The other items of Land Revenue requiring notice is Ground rent which in the year under report amounted to Rupees 8589-3-1- being Rupees 301-15-11 less than in the preceding Fusly. The collections amounted to Rupees 7,200-1-3- leaving a balance under this head of Rupees 1389-1-10-

Fusly 1259	8,287-4-1-	
1260	8,589-3-1-	
	301-15-11	

9

From the foregoing Statements it will be seen that of the whole demand Rs 65906-8-9 the sum of Rupees 50,328-11-8- were realized within the fusly leaving at its termination a balance of Rupees 9,608-8-1- which will be collected hereafter

10

It will have been observed however that nearly one half of this amount being due on Unoccupied Houses and Uncultivated Lands can be realized only gradually whenever the same come under occupation or cultivation, but as regards the sum outstanding on account of the demand on occupied Houses and cultivated lands the case is different and the only circumstance that operates against the punctual realization of the whole demand is the want of power in this Office to enforce the collection when the defaulting parties contumaciously withhold the rent.

Occupied Houses	2,345-15-9-
Cultivated	1949-1-4-
Total Balance	4,295-1-1-

11.

The collection of arrears made in the year under report amounted to Rupees 4,315-15-3- which compared with those effected in the past fusly is less by Rupees 710-13-9- The particulars relating to these Arrears will appear from the entries noted marginally.

Houses and Gardens.

occupied	2,336-13-4
Do unoccupied	649-3-11
Paddy fields	702-7-11
Ground rent	627-7-11

12.

From the above it will be observed that the aggregate collections on account of current Revenue and outstanding Arrears are Rupees 60,643-15-11 while those of the preceding fusly amounted to Rupees 61,570-9-1- being Rupees 926-9-2-

13 The following Abstract of Statements will shew in one view the various Sources from which the Land Revenue of Fuslies 1259 and 1260 were collected, and the result of the Collection on each head.

Sources of Revenue	Fusly 1259. Rupees	A	P	Fusly 1260. Rs	A	P

	61,570	9	1	60,643	15	11
Decrease	60,643	15	1			
	926	9	2			

14 Deducting the Collections as shewn above from the demand both Current and arrears, the balance outstanding at the close of the Fusly is Rupees 31,755-11-9-

Fort St. George 13th November 1851

15. As I intend shortly to Submit a detailed report on these balances it is unnecessary to notice them further in this place.

16. From the entries in Statement E it will be observed that the Collections as per Summary Statements amount to ____ 60,643-15-11-

Extraordinary Collections ____ 4,476-9-10

Total ____ 65,120-9-9-

Charges ____ 17,105-8-11

Net Revenue ____ 48,015-"-10

Net Revenue of Fusly 1259 ____ 48,807-12-8

Decrease ____ 792-11-10-

thus shewing a decrease in the Net results of the year under consideration compared with those of Fusly 1259 of Rupees 792-11-10-

17. The Annexed Abstract Statement will shew the whole of the Revenues of this Collectorate for the year under report, compared with those of the past year.

The decline in the Abkarry Revenues will I trust be satisfactorily accounted for in my report on the Extra Sources of this Collectorate, shortly to be submitted.

B. R. 2688.

From Messrs ... } Ballard & Brice }

To, The Secretary to the Board of Revenue, Fort St. George.

Sir

We are desirous of having permission to sell Foreign Spirits in Coimbatore, and have applied to the Collector for a license, which he has not granted, giving as his reasons, 1st that it cannot be done without the consent of the Abkarry Contractor, and 2d that it would not probably be desired by Government.

We have informed the Collector that we wish for a wholesale licence, and that if it is requisite, we will arrange with the Abkarry Contractor, should his Monopoly extend to other than country Spirits Toddy &c. &c., which we believe is not the case.

Under these circumstances we beg to apply to the Revenue Board for a licence for the wholesale disposal of Foreign Spirits in Coimbatore, and we request the favor of your laying this letter before the Board, with this views.

If any fee is leviable, we shall very glad ly pay it, as we do not expect, nor ask to be placed in this respect, upon a more favorable footing than parties at the presidency, where we believe a fee is levied annually, and upon payment whereof, a licence is granted to all applicants.

Order thereon.

Ordered that copy of the foregoing letter be forwarded to the Collector of Coimbatore, for report.

Resolved that the following letter be despatched together with the Papers therein alluded to.

No. 496

To,
The Chief Secretary to
Government.

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of Extract Minutes of Consultation 27th May 1851, with five copies of the report, received from the Government of India, of the Committee for enquiring into the means for preventing the extention of small pox in India, in which the Board are directed to submit, with their own views, the opinions of the Collectors in the Madras Presidency on the proposition for a Legislative Enactment prohibiting Inoculation in India, a practice which the Government believe to be less prevalent in the Madras Tritories, in which Vaccination is not opposed by prejudices similar to those found to exist in Bengal and North Western Provinces.

2. In reply I am directed to submit the accompanying letters from several Collectors in answer to a reference made to them, the replies of the Collectors of Vizagapatam, Rajamundry

Bellary, Chingleput, and Madras have not yet reached this Office, the Board deem it unnecessary to delay the present report any longer.

3. In the 10 Districts of Masulipatam, Guntoor, Nellore, Kurnool, Salem, North and South Arcot, Tinnevelly, Coimbatore, and Malabar, there is reason to believe that the practice of Inoculation is unknown, and the Collectors of these Districts are favorable to a legislative Enactment as proposed.

4. Inoculation is also unknown in the Trichinopoly District and the benefits of the Vaccine system well understood and appreciated there, the Collector can therefore see no objection to the proposed Enactment but brings to notice that the four Native Vaccinators are insufficient for the demands of the District, one being confined to the Town of Trichinopoly and its Suburbs, and the three others having eight Talooks, one of which, Arrealore, has not been visited for upwards of one year. We therefore requests the services of another Vaccinator so that there may be one for every Two Talooks.

5. The Collector of Madura states that Inoculation does not prevail in his District, but considers that it should be effectually prohibited as, so long as it is permitted, its application must in some degree keep the disease in existence and so far nullify the beneficial effects of Vaccination.

6. Mr. Forbes, the Collector of Cuddapah has

has furnished to this Office copy of his communication to Government in which he observes that Inoculation does not seem to exist in Southern India, and he contrasts the small number of Vaccinators in Cuddapah in respect to its large population, 2/3d. of whom are without the hope of benefitting by Vaccination with the results in the District of Rajahmundry which he has recently quitted. Assuming that the evils of Inoculation do not exist in the Madras Presidency Mr. Forbes do not think that legislative interference is called for but that all that is needed to spread, farther and wider, the benefits of Vaccination.

7. The Board however observe that Inoculation does prevail, altho' only to a partial extent, in the Districts of Ganjam, Tanjore and Canara.

8. In Ganjam it is confined to that portion of the district where the Oriah language is spoken altho' Vaccination has also been practised there having been introduced by Mr. Peter Cherry in 1804. An impression however prevailed in Ganjam as well as in part of Vizagapatam, that the Vaccine virus was extremely difficult of development and therefore not easily obtained but the Collector notices some instances of recent success from matter procured in the town of Ganjam and states that there is no objection urged to Vaccination by the more intelligent class

who, it is stated prefer it, while the lower classes are ignorant of the difference between Vaccination and Inoculation, and in that part of the District where the latter prevails, give preference to the Peekadars or Inoculators rather than to paid Government Vaccinators. The Peekadars, to the number of thirty have however agreed to abandon their old practice and to adopt Vaccination, and Mr. Onslow observes that there is thus the ground work for introducing private practitioners and in enclosing translation of a project which emanated from servants of his Cutcherry, he proposes to encourage private Vaccinators in the vicinity of his residence, and to place them under the supervision of the Zillah Surgeon and Dresser. The Board observe that the suggestion to grant Certificates of qualification to private Practitioners generally, is not immediately connected with the present question - but are of opinion that it is worthy of consideration. Mr. Onslow is also in favor of prohibiting Inoculation by a legal Enactment.

9. In Tanjore Inoculation has not been carried on to a great extent, but the Collector's attention was recently called to its existence in the Taluk of Puttucottah. Mr. Bishop also points out that applicants for Vaccination are ignorant of the difference and he is of opinion that Inoculators should be held liable to punishment by fine and imprisonment, as the surest mode of eradicating the practice.

The

10. The Collector of Canara observes that Inoculation was practised by the Government Vaccinators and by ignorant Villagers with very disastrous and lamentable consequences as came to his knowledge in 1840, that he interfered as Magistrate to put it down, and that the measures then adopted, though disallowed by the Sudiary Adawlut, have produced the desired effect and that with one exception the reports received by him from his subordinate European Officers shew that Inoculation no longer exists and that Vaccination is extending. All this is believed, on the experience of one of the German Missionaries who have settled in the District, that some of the higher castes will not take the Vaccine matter from all persons indiscriminately, while the people generally are careless of being vaccinated except when small pox is prevalent. In reference to the proposed Enactment for the prohibition of Inoculation Mr. Thackeray considers that it should empower local Magistrates to declare it penal rather to have it so at all times.-

11. Under the representations of the several Collectors it appears to the Board that there can be no objection as far as regards this Residency to the proposed Enactment prohibiting Inoculation and they consider that very beneficial results may be anticipated in the practice of Vaccination under the operation of an Act rendering penal

so pernicious a practice as Inoculation from small pox.-

To The Chief Secretary to Government.

Bd. Rs. 2233.

To the Chief Secy to Government — Bringing to notice that Mr. Fisher's Vakeel has filed his Answer to the Collector of Salem's Special Appeal Petition and that the Sudr Court have named the 20th Instant for hearing the case — with Board's observations.

Sir,

With reference to Extract Minutes Consultation 4th July 1851, I am directed by the Board of Revenue to bring to the notice of Government that the Vakeel of Mr. Fischer having filed his Answer to the Collector's Special Appeal Petition, the Court of Sudder Adawlut have named the 20th instant for hearing the points they have admitted for consideration orally discussed.

2. The Vakeel for Mr. Fischer is Mr. Ouchterlony a gentleman of talent, and of experience in Revenue questions, well acquainted with the details of the present case, and able to argue from general principles as well as from legal treatises. On the other hand the interests of Government are to be defended by a Native (Ghoolam Mowstaza the Government Vakeel) who though experienced in drawing out written pleadings from arguments furnished to him by others is quite incompetent the Board consider to meet Mr. Ouchterlony in oral discussion. The Board have therefore deemed it their duty to inform Government of this fact in order that they may receive their instructions

instructions as to the propriety of obtaining the services of a European Pleader.

3. Under clause 7th Sec. XXXVII. Regulation XIV. of 1816. The Board are authorized in particular circumstances to employ an additional Pleader, but they doubt if this could have referred to European Pleaders.

4. It has never yet been necessary to resort to this measure, and it is only of late that the Sudder Court have introduced the system of Oral pleadings on Appeal, a system which absolutely requires that some steps should be taken on the part of Government to secure their interests from being sacrificed by being placed in the hands of a Native unaccustomed to enter into argument with an educated Englishman.

5. In the present instance the Board would hardly have ventured to trouble the Government on the matter had not they perceived it to be the wish of the Right Honorable the Governor in Council to urge to the utmost the right claimed by the Collector, a right more on the part of the Public, than of any value to Government. It will be remembered that the Board in their Proceedings of 20th May 1850 stated that they considered the judgment of the Civil Court to be correct, but the Government (25th June 1850) ruled that sufficient

grounds

grounds existed for an Appeal, and the Board acknowledge the force of the arguments adduced by Government in point of equity, though they still have some hesitation as to whether they can effectually be urged on Special Appeal, especially as the Sudder have refused to enter into the question of merits, and whether it would be worth while to go to the expense of employing an European Pleader.

6. The Board perhaps may be permitted to state the points that are to form the subject of discussion.

7. The Special Appeal of the Collector is based entirely on the arguments set forth in Extract Minutes Consultation 25th June 1850, adding thereto those of Mr. Walthy in paras 7 & 8 of his letter to the Board of 2nd May 1850 forwarded to Government 20th May 1850.

In Cons 20th May 1850.

8. The Sudder Court have refused to admit the 1st and most important part of the Appeal, Viz^t that which went to shew that the Judge had not properly considered the real question at issue and that it was not contended that the takdars had no right to the waste, but it was contended they had no right to Perumbokes, whether it was capable of cultivation or not and that as the disputed Perumbokes (in 2 out of the 3 spots) never had been cultivated since the formation of the Neutah though the land all round it had there was

additional

additional evidence in priorie to shew that it must have been reserved for some especial purpose -

9- This strong ground the Court will not permit to be argued, and there remains only to dispute the Mootadars right on the statute of limitations a plea which it is presumed the Government would hardly have purged had there not been a Public right invaded -

10- The Government however are placed in a defensive position by Mr. Fischer's Special appeal in which he demurs to the Civil Judge having decreed him no arrears for the two Aputo decided in his favour, and 2dly inasmuch as he maintains that the land on the Glacis (on which the Public Bungalow is built) was given against him merely on the Precedent of a Decree of the Sudder Court, a proceeding which he asserts is illegal, and that he can produce a Decree where land on the same Glacis was given to him by the Provincial Court on Appeal from the lower Court which also had decided in his favor he strenuously denies that there is any thing in the Public Accounts to shew that this Glacis was reserved for Government or the Public in any way, and that therefore Government have as much as recognized his right where they agree with

From Chief Secy to Bd of Revenue 5th Dec. 1824 in Cons 9 Dec. 1824 -

with the opinion given by the Board of Revenue (8th November 1824) that "beds of Tanks and Ground within the Walls of Forts" are clearly the right of the Mootadar -

11- The Board believe that on the grounds noticed by Government, a claim might well have been argued (to all three Aputo litigated, but it may be difficult to satisfy the Sudder now that they have definitively ruled the two Aputo to be the Mootahdars property that the third should not be his seeing they are all classed as "Perumboke" and no Special reservation made in the Mootah Accounts.

12- This question will evidently reopen the whole subject on which the Sudder founded their Decree in Special Appeal 37 of 1837, all the papers connected with which have been published in the form of a Pamphlet, enclosed in this letter -

13- The Government will therefore see that there is a large field for discussion, independent of the question of arrears which the Board would propose may at once be left entirely to the Court as the Government have never appreciently wished to refuse arrears for 3 years (from the time of the 1st Demand) for land adjudged to be the property of the opposing party. The yielding of this point will also strengthen the argument in favor of Government

15087 Fort St. George — November 1851.

Government occupation for the term fixed in the statute of Limitations Clause 1st Sec XVIII Regulation II of 1802. The Judges having themselves mutually given an opinion adverse to Government as to the two spots the Board are not very sanguine even with the aid of an European Vakeel, that Mr. Fischer's claim to the Glacis will be successfully resisted. The Judges certainly in their Decree of S. A. Suit 37 of 1847 have decided this land to belong to Government, but they seem now to desire a re-consideration of that case, and Mr. Fischer adroitly urges the Provincial Court Decree in his favour / B. 6 of the Paper / which was not appealed against.

14- Moreover the Board do not know of any professional Gentleman sufficiently acquainted with the details and terms so often referred to in the Proceedings, as to be able to handle the subject fluently and meet the many Indian technicalities that must occur in the oral pleadings, and which Mr Cuthbertson is well capable of bringing forward.

15- It may be doubted whether the question was not safely be left to the Judges of the Judges, but still the Board have thought it necessary that Government should be made fully acquainted with the course the Proceedings have taken in order they may be furnished with such instructions as may be deemed proper.

The Governor in Council thinks it desirable to bring this point to the notice of the Board for their consideration before deciding upon the kind of paper to be employed for Stamps on the Western Coast.

2 The Government further remark that although a ream of French will furnish twice as many rolls as one of Portuguese Paper the price of the latter is but half that of the former so that the difference in expence between the two would not seem to be great. Moreover the mere question of expence is a subordinate consideration in deciding upon the kind of material to be employed for stamp paper.

From the Collector of Bellary ... Furnishes the information respecting the condition of the Records, English and Native, in his Cutcherry and in those of his subordinate officers called for by the Board in an Extract from their Proceedings dated 21st November last; states that that an English Record Keeper on 35 Rupees per Month is required. Submits an Estimate for stands &c required for the Record in the talook cutcherries

Sir,

I have the honor to furnish the information called for in the Extract from the Minutes of consultation under date the 5th November 1850, forwarded by the Board of Revenue with Extract from their proceedings dated 25th November last, respecting the condition of the records, English and Natives, in my Cutcherry and in those of my subordinate officers.

2. The whole of the English records of my Cutcherry are secured in Almiras, Presses or Horses, shelves and boxes, in bundles in the record room, which adjoins the English office room, they were formerly carefully arranged and registered, but a portion have been subsequently disordered, they are now being rearranged, but the

Cutcherries amounting to Rupees 1412-12-a.

the arduous duties of the English writers scarcely permit of their attending to this work without impeding their own proper duties, and to make the record Office of the English Department efficient. there should be a separate person employed on a salary of 35 Rupees for the express purpose of looking after and Ranging these records in regular order, which I accordingly beg leave to recommend.

3.

The records of the vernacular department of my Cutcherry are kept in two different places, those consisting of Cymaish, Sarrumjamy and other accounts collected within the period comprised between the commencement of the British Government and Fusly 1248 are, as reported in the 2nd and 3rd paragraphs of the late Principal Collector Mr Robertson's letter to the Board of Revenue dated 5th December 1837, secured in Presses in a terraced building situated within the Compound of the new sub Collectors Boozoor and Talook Cutcherry at Anantapoor and left in charge of the Head record Keeper, who

has a Goomastah and 2 peons attached to him, so that the records there are well cared for, whenever any records are required for reference they are called for by written orders from the Collector to the Record Keeper who communicates direct with the Collector. a list is kept of each duftar containing the records deposited there, and a table of Contents of each Press, which is numbered is affixed to it. The distance of the record Room 60 Miles from Head Quarters, is however a great in-convenience, and the whole should be transferred to Bellary.

4.

The whole of the Native records collected from the year in which the Boozoor Cutcherry was removed from Anantapoor to Bellary Viz^t Fusly 1249 A.D. 1839-40 are deposited in three different places, some in a room adjoining that in which the Cutcherry is held, some in the Cutcherry room itself and some in the wards of the Jail at Bellary, they are placed under the charge of the second record Keeper who has a Goomastah of the Boozoor Cutcherry and a peon permanently attached to him, he is also allowed the assistance of other Boozoor Goomastahs yearly on the return of the Cutcherry from

from its tour of Jummabundy to arrange and tie the different accounts then collected in separate bundles, to number and docket them and to prepare lists of the same. This record Keeper's duty is to accompany the Hoozoor Cutcherry on its tours of Jummabundy and to collect the accumulating records, for which he is thence forward held responsible, the different accounts that are required daily for use and reference are, for the time being, under the charge of the public servants in the various departments who are answerable for them till they are arranged registered and transferred to the record Keeper, which is generally done after the expiration of each Fusly, on whom the responsibility falls from that time.

5.

The Native records at present at Bellary are tied in 3823 dusters or bundles of which 1963 are kept in Presses as follow

Presses	Dusters.	
5	1260	Records of Mookhtiar & Revenue Depart
1	200	Do Do & Do in the Hoozoor Do
1	268	Do Maramut Department
1	235	Do Magisterial Do
8	1963.	

The remaining are as follows

300 Dusters containing records of the Revenue Department placed on the floor.
320 Do Do of the Do in boxes.
200 Do Do of the treasury Departt in Do
300 Do Do of the Magisterial Do in Do
230 Do Do of the Maramut Do
of which 130 are kept on the floor and 100 in boxes.
230.
510 Do Do of the Sayer Do placed on partition walls and floors.

To Secure these from destruction now is a difficult task in consequence of there not being room enough in the Cutcherry to keep the whole of these records properly; but when the new addition to the Hoozoor Cutcherry is completed there will be more space, but for the present every precaution is taken to preserve them as far as possible, a Couple of Cats have been kept and found very useful.

6. More presses are required for the bundles of records that are now kept on floors and for those accumulating; but I purpose to indent for what may be necessary hereafter.

7. The records of the Assistant Collectors are not kept separately, but included with those of the Collector. The

records

records of the Vernacular Department of the Sub Collector's Cutcherry whose Head quarters are at Anantapoor are kept there where there is ample space; the same practice that prevails with the Collector of transferring accounts that are no longer required to the charge of the Head record Keeper, is observed by the Sub Collector. I make no mention of the English records of the Sub Collector's Department, as the Board must be aware that there is not such a quantity as needs to be reported on.

8. The records of the Talook Cutcherries are in a very deranged state. I issued orders to the several Tahsildars to have the records of their respective Cutcherries put in regular order, which has only partially been effected, as the Goomastahs of these Cutcherries have not time to spare. But I shall endeavour to get the records into some order with the means at my disposal, and when they are arranged I propose to destroy useless papers and have the rest secured properly, there being nothing now in which to secure these records they are left in heaps on the floors of the Cutcherries; so that Presses and boxes, and

suitable rooms, will be required for their future security, a statement of the Estimated cost for Presses &c. is herewith enclosed, which provides for

	Rs	A.	P.
46 Presses for the 17 talooks	800	—	—
225 Boxes Do	189	—	12
325 Coarse cloths for tying bundles for Do	322	—	—
Strings Gum &c.	101	—	—
	1412	—	12

and if the Board approve I will apply for special sanction for these.

It is my intention as opportunity offers, to employ as a peon a man that can read and write in each of the Talooks on 3½ Rupees a Month, to take care of the records, which will not cause any Extra Expense to Government.

It will be seen from the above report that the Hoozor Native records from having a proper Establishment are in a very satisfactory state except those at Bellary for which as yet room is required.

That the English Records for want of proper Establishment are not in so satisfactory a state and that the Talook Records from long neglect, want of proper places, and stands and from not having any fixed person to look after them are in the worst condition.

From the Collector of Cuddapah } Sir,

Requesting the Boards permission to pay at Cumbum from the collections the Paymasters Drafts in favor of the officer commanding and such portion of the salary of the Sub Collector as it may be his wish to receive on the spot.—

Para 1. I have had the honor to receive the Board's Circular letter of the 27th of October prohibiting the payment from the Talook treasuries of any sum however trifling for the payment of which I may not have received some special authority, and I have to request the Board's permission to pay at Cumbum from the Collections the Paymasters Drafts in favor of the officer commanding and such portion of the Salary of the Sub Collector as it may be his wish to receive on the spot.—

I receive two or three drafts in favor

The Board are aware that Cumbum

There are very few peons at the disposal of the Collector of Cuddapah the talook Establishments are most fully occupied and my own Deloyets are no more in number than are attached to some Sub Collectorates, so that when I have supplied the assistants, and those Officers of the Cutcherry to whom it is usual to grant an escort, there are only nineteen remaining for all the duties of the Office.

B.d No. 2719
From the Collector of Cuddapah
Reporting upon the subject of Petition No. 1914 of 1851 presented to the Board of Revenue by the Headman of Carnum Mecrafsadar of Malabar in his District.

Sir,

I have the honor to furnish the report called for in the Board's endorsement on petition No. 1914 of 1851.-

2. Petitioner was Carnum of the Village of Maralla where a Murdered body was found in an adjoining Well at the latter end of last year, and the whole circumstances of the case are narrated in the Collector's letter to the Board of the 21th co. of last November. Petitioner was dismissed in common with the other Village Officers of his own and two other Villages, for not affording aid and assistance in the discovery of the Murderer and under some suspicision that there existed peculiar reasons for their inertness.- At the time of their dismissal it was the Magistrate's opinion that Chinnegadoo was the Murdered Man, and that he had been Murdered at the instigation of a wealthy Man in the e- neighbourhood, whose daughter lived with him illicitly, and whose wealth had e- prevented the crime being traced to him.

This

Fort St. George 17th November 1851.-

This Chinnegadoo subsequently appeared, and up to the present time no clue whatever has been found as to who was Murdered, or who perpetrated the crime; they only fact positively known being, that a body was found in the Well tied hands and feet in a Cumbly. I have no objection to urge against Petitioner's re-employment, if such should be the pleasure of the Board, since I am not of opinion that the fact of the body of a stranger being found in a Well outside a Village, of necessity implicates the Village Officers in a Knowledge of the crime and of the Criminal.-

B. No. 2758
From the Collector of Cuddapah.
Reporting with reference to the Board's Circular letter of the 24th of March last on the standard weights and Measures in his District.-

Sir,

I have the honor to reply to the Board's Circular of the 24th of March last.-

2. On the receipt of the order of the Government for the introduction of new weights and Measures as published in the Gazette of the 20th October 1846, the following Standard weights and Measures were obtained from Madras.-

Mercal.	Maund.
Half Mercal.	Quarter Maund.
Quarter Mercal.	Viss.
Puddee.	Half Viss.
Half Puddee.	Seer.
Quarter Puddee.	Half Seer.
Ollock.	Quarter Seer.
Half Ollock.	Polam.
Quarter Ollock.	Tolah.

3. From these, with the exception of the Mercal and Maund, which were omitted in consequence of their size and weight, a Complete Set was made for each Talook, and having received the cirkar Stamp, were sent in November 1847, and February 1848 to the Tahsildars with instructions for their general introduction

introduction.- A proclamation was issued calling upon all Merchants and traders to procure weights and Measures according to these standards and to have them Authenticated with the Government Stamp, leave being given to the Smaller traders to have their Measures made in wood, or bamboo.-

4. The Tahsildars have reported that these standard weights and Measures are now in very general use, and that although Accounts are kept according to the old system, and Merchants in contracting with the Ryots purchase their grain by the Pootee, it is always given by the standard Measure, the Muster allowed to the pootee being according to local usage.

5. The Cost of making up these standards appears never yet to have been submitted for the Board's sanction, I have therefore the honor to enclose an account amounting to Rupees 116- - - - and to request permission to adjust the sum in account.-

In sending this account to the Board it is necessary that I should explain that the Collector contracted with a Merchant at Muddenpully to have all the Measures made at Madras, engaging to defray the expense of their conveyance to Cuddapah and to

to allow a profit of one Anna in the rupee to remunerate him for his trouble; when the Measures arrived they were in a slight degree wanting in accuracy and one rupee was spent in adjusting them with the standard.-

6. I enclose a statement to shew the difference between the old Measures of the Province, and the standards now introduced prepared by the Head Assistant Collector in the mode prescribed by the Board.-

7. The following is a table of Measures which have been generally in use in Cuddapah, but the capacities of all have differed in different talooks, and even in different Villages of the same talook- The Measures from the Chitty to the Moonta have only had actual existence, the remaining Measures being used as terms in account only, Measurements being generally made by the Moonta, and accounts generally kept in Toomoo and Pootee.-

Table of Measure.

2 Chitty Make	1 Adda
2 Addas - - - "	1 Sola
2 Solas - - - - "	1 Tava
2 Tavas - - - "	1 Moonta
4 Moontas - - "	1 Coonchum
2 Coonchums "	1 Irasa
3 Coonchums "	1 Mooresa
2 Irasas - - "	1 toom
5 Tooms - - - "	1 Yathoom
2 Yathooms "	1 Punthoom
2 Punthooms "	1 Pootee.-

The seer has also been used as

a Measure, but it varies so considerably in size that no place can be given to it in the above table - in some Villages six Seers have been given to one Moontah, in others seven, and in others any intermideate number between Seven and Sixteen, excepting eleven, thirteen and fifteen. -

9. The old weights were more simple and included only the following. -

1/8	Seer	
1/4	Ditto	
1/2	Ditto	
2 1/2	Seer Make	1/2 Vis
5	Seers	1 Ditto
2	Vis	1 Duddiem
4	Duddiems	1 Maund.

the Maund not being represented in fact but used only in account. The seer has also been used as a weight, and has varied in different Villages as much as twenty per Cent being considered equal to the weights of twenty rupees in some places and twenty four in others. -

To,
The Collector of

Sir,

Bd. No. 2242.
To the Collector of Cuddapah.
Requesting some further information on the standard Weights and Measures in use in his District.-

I am directed by the Board in reference to your letter of 8th November 1851 to observe that there is an important point left unnoticed, and that is what is meant by the Price per Garce, in the Grain Price List of your District.-

2. There is nothing in your report to shew whether what is called a Garce is really the correct representative of 400 Madras Mercals of 800 cubic inches each. It should have been stated to each Taloot, how many Moontahs or Puddies of that Taloot were assumed by the Tahsildar to be a Garce, also whether the calculation is made on heaped or Strucked Moontahs.

3. The Board further observe that Columns 6 and 7 of the statement enclosed in your letter afford no correct information. A Moontah, Mercal, Ollock, &c. is a measure of Capacity not of weight and cannot properly be said to be so many ounces or lbs. difficient.- However, as it is stated that most of the Vessels are

+ If the Vessels are of Metal they might be soldered as the test capacity by the weight of water is the most accurate

not water tight the Board would wish you to try the weight of the same kind of grain as those by which the Statement was framed, or the Standard Measures mentioned in Para 2. of your letter. This will enable them in some degree to estimate the difference.-

4- Again where the measures were tested with water it is stated they are so many fluid ounces in excess. The Board would wish to be informed of what number of fluid ounces are they in excess.- If for instance the Muddenpelly Puddy is 4½ fl. oz in excess of ⅛th Mercal, how many fluid ounces is a Mercal supposed to contain.- The weight of the water in Tolas was what was required by the Board in those cases where water can be used.- You will also be good enough to state what kind of rice or grain was used in the experiments.- Even here it would be better to give the deficiency in Tolas weight.-

5- With respect to the Memorandum of Charges enclosed by you it should be included in your next Statement of actual Charges incurred without Estimate.-

Bd. Vol. 2650 — From the Coll. of Salem — Explaining why certain fines imposed in Magisterial Cases for the refund of which Sanction of Government was recently solicited were omitted to be Kept in deposit in Accordance with the Circular Order Fouzdary Udalut 13th March 1849.

Sir,

I have the honor to reply to your communication dated 13th Instant requesting information why the orders of the Fouzdary Udalut contained in their Circular order of 13th March 1849 Para 4 directing that fines should not be carried to the Credit of Government, until the Calendars shall have been reviewed by the Sessions Court, were not attended to in the matter of the refund for which I solicited sanction on the 27th Ultimo.

2. The refund in question consists of two items, 15 and 2 Rupees. 17 Rupees— The larger sum was realized in a Case decided by the Joint Magistrate during the 1st Quarter of 1851, the Calender of which, when received by the Sessions Court, elicited a requisition that the original record which had remained in my office pending.

pending the investigation of an Appeal made to myself might be submitted. This was accordingly done and on the following 4th August the Sessions

18th Idem — Court ordered the fine (15 Rupees) to be restored to the party amerced. At the time of sending up the record of the Case in question to the Sessions Court there appears to have occurred a misapprehension in my Magisterial Cutcherry where it was thought that the proceedings held on the Magisterial Calendars were final and that no further objection existed to bringing into the Ayen account such fines as previously had remained in deposit according to the Fouzdary Udalut Circular referring to the order quoted by your Board, and when signing the Jabeed to the Treasurer, I find that I did not go back into the matter sufficiently to ascertain whether the sum total then lieing brought to the Credit of Government, was inclusive, or exclusive of the 15 Rupees which should have been still kept in my deposit Chest until the Sessions Judges final instructions had been signified.

3. The smaller fine 2 Rupees did not elicit any remark in the above mentioned Proceedings of

of the Sessions Court dated 11th June last, although it was connected with the Magisterial reports for the 1st Quarter of the year, When these reports reached the Foujdary Udalut and were there reviewed on the 27th August last, it was deemed necessary to direct the refund of the sum in question. This sum as the Calendar had passed through the Sessions Court had previously been carried to the Credit of Government.

Bd No 2529

From the Collr of Madura

Sir,

Para 1.

Reporting on the Hill Devastanom Villages with reference to the Board's Proceedings under date the 22d October 1846.

From Para 21 of the Report of the Sub Collector for Fusly 1253, the Board will find that Mr Elliot allowed 5 per cent on the Cultivation of the Hill Villages for the support of the Devastanoms subject to their final Sanction, and that in Para 20 of the Board's Proceedings under date the 22d October 1846 they stated that the information regarding the Devastanoms &c was too meagre to enable them to form any opinion of the mode of dealing

Fort St George 17th November 1851

dealing with them. The constant changes in the Sub Collector's prevented any of them submitting a report on the subject till Mr Cochrane the late Acting Sub Collector whose information not appearing to me altogether Satisfactory I have allowed the subject to lie over till now, that I have had an opportunity of making a tour of the Villages myself in company with the Sub Collector Mr Clarke.

2 I have ascertained that there is no documentary evidence whatever in the Villages to support the Cranns alleged to have been enjoyed by the Devastanoms prior to the introduction of the Amany Settlement. From the period at which they first came under the British Government till then the Hill Villages were rented first to men on the Plains and afterwards to a class of people called Manadies of whose settlement with the Ryots we can discover no record. From oral enquiry which we made at every Village it seemed that the Manadies generally distributed the amount of

of the Rent among the other Ryots according to their reputed ability enjoying their own Cultivation rent free in remuneration for their trouble and responsibility; and that over and above their proportions of the Rent, the Ryots paid a Cess to support the Pagodas. In some Villages a small portion of land also was assigned to the Pagodas which was cultivated by the Ryots each giving an equal quota of labour.

3 The alleged exctent of the Revenue of the Pagodas from these Sources is shewn in the accompanying Statement No 1. In explanation of the great number of Devastanams it is to be remarked that it includes small images under trees and under mud huts. In Pombarag alone did we observe a masonry Pagoda which also was of moderate dimensions.

4. As the contributions to the Devastanams of money and grain made by the Ryots under the Rents were in addition to their payment for the Sircar it is evident that so far, the Devastanams were supported by

by themselves, and any assignment of land made by them without the sanction of Government, must, I think, be viewed in the same light, for the total sum to be paid for the Village being settled without calculation of fields and without consideration of Devastanams, it amounted to the same thing whether the Ryots paid money and produce for the support of the latter in addition to their proportion of the Village Rent, or assigned a portion of land for that purpose. Had the land not been so set apart, it would have been enjoyed by the Villagers without enhancement of rent to the Sircar and consequently its assignment was a gift out of their own resources.

5 Such being the case I do not perceive that it is incumbent on the Government with reference to what is past to allow any deduction from the yearly Village Settlement for the support of the Devastanams. Neither can I recommend such a measure on the ground of the inability of the Ryots under the Amany system to bear the expense themselves; for their teerwa is light they are generally well off and have, there is reason to believe really borne the whole expense of the Devastanams

Devastanoms since the commencement of the Ryotwar settlement; for it has appeared on enquiry into the affairs of some Villages that the Natamgars have retained to themselves the deduction of 5 per Cent fixed by Mr Elliot.

It is for the Board, however to consider whether with reference to the circumstance of there being no Devastanum Crams as in the low country on the one hand and to the purpose of the endowments and to the Principle of non-interference with Devastanoms affairs on the other, any allowance should now be granted. If the Board should determine on the grant, the rates fixed by Mr Elliot at 3 per cent on the Settlement of Fusly 1253, and exhibited in Statement No II seem to me to be fair enough. As the escpences will always be the same I would make the amount permanent as hitherto and not variable with the settlement of each year.

7. From Statement No. III it will be perceived that of Rupees 2326-10 deducted from the Settlement since Fusly 1253 Rupees 1753-- 7 have been collected from the Ryots in consequence of the sanction of the Board being

being withheld and remain in deposite in the Talook Treasury. If Mr Elliots fixed allowance be confirmed it will be necessary to pay this to the Ryots. If on the other hand it be determined to leave the Devastanums to the support of the Ryots themselves. I would recommend that this sum be carried to the credit of Government as Sevoy Jummah and that the Balance which would then outstand against the Ryots be remitted. Advertence having been formerly made to the Sornadayem as a means of support to the Devastanums. I have the honor to enclose an account No 4 exhibiting its amount. It has hitherto been collected by Government and should I think, continue to be so.

From the clear explanation afforded by Mr. Parker it is evident that the Devastanums on the Hills were supported by the people themselves and that the 5 per Cent. now allowed by Mr. Elliot the then Sub Collector was not warranted.

2. Under these circumstances the Board desire that such payments may be discontinued, and the people left to provide for their own Devastanums as before.

Bd No 2789.

From the Coll. of Madura

Sir,

Para 1. In reply to your circular letter of the 24th March 1851, I have the honor to report as follows.

Reporting upon the adoption of the Weights and measures therein mentioned.

2. With the view of introducing the Government Standard Measures, I caused, in January 1849, Counterparts of the whole 1/2 1/4 1/8 1/16 and 1/32 measures to be made up at Madura for all the Public Chuttrums of the Principal Division at the expense of the Funds of those Establishments, and desired the Talsildars to encourage the Merchants and Inhabitants in general, to have Measures made according to the Standard which had thus been multiplied. In some places where there were no Chuttrums the price was advanced by some of the principal Merchants. In the Sub Division, orders of a similar nature were circulated by the Sub Collector.

The

1514 Fort St. George 17th November 1851

3 The success which attended this measure is exhibited in the accompanying Statement.

4 The Government standard Puddee, is now the measure in most general use in the District, and it is unnecessary therefore for me to submit a Statement in the Form adverted to in Para 8.

5 The Mercal is very little used, but when so, it is heaped, and contains 6 of the Standard measures, Puddees heaped.

6. The means adopted in this District of extending the use of the standard measures, might be adopted with equal success in any other Districts where there are Chuttrums, and would involve no expense to the State. Where there are none it would be sufficient, I think, to supply each District with some 20 or 30 Standards of various Capacities with instructions to distribute them among the Cusbahs and large trading Towns, and to invite the Merchants and Shopkeepers to have others made like them. If the Government will incur the expense of having measures and Weights made up for sale at

15142 Fort St. George 17th November 1851

at less than the cost price, this plan will of course be more efficacious still.

I should add that although the Garce entered in the Commissariat Lists filled up in this District has contained 3,200 Puddees of the Standard size, the Puddees or measures have been heaped according to the practice of the District, and it will be necessary therefore to make a proportionate allowance in price in future Returns.

From the Collector of Coimbatore, Para 1

Forwards a Statement of land appropriated for Topes in the District in Fusly 1260 under the Rules promulgated by the Board.

Sir,

I have the honor to forward a Statement of land taken up for the formation of Topes in this District in Fusly 1260 under the Rules promulgated by the Board.

2 The extent occupied this year is nearly treble the quantity exhibited in the accounts of 1259- which, as far as can be judged from present circumstances, would prove that the terms allowed by the Board are sufficiently liberal.

3 I annex a Memorandum shewing the extent and assessment of Tope lands in the year under review.

Note

4. With the Rules now in operation, and the amount sanctioned by Government from the Devastanum and Chuttrum Funds, I hope the object of forming Topes in the District will be partially attained, in the course of a few years. The practice, however, prevailing, under which land as well as the Trees growing thereon, are some times taxed, is an obstacle to the end in view. I have requested the Board's permission, in a separate letter, to remit this double tax, where it exists. The loss to

Government will be trifling; the encouragement to planting great.

Abstract.

no friends or relations to take care of them.

3. The Lungurkhana was visited daily by one or other of the Members of the day, occasionally inspected and superintended by myself, and every care was taken to carry out the benevolent intentions of Government to the utmost possible extent the Building is in efficient order, and the inmates are not only fed daily, but most of them housed at night no food being ever allowed to be carried away, or eaten raw, or eaten off the Premises, excepting those only coming, who are in actual distress the institution having been established only a few Months ago, the people now brought upon it, are not so many as they would probably be in the course of a year or two more.

4. The grain issued is Cholum, which being the one commonly used in the District by the poor, is suitable for the institution.

5. No peculiar disease has visited the Lungurkhanah neither did any casualty occur since its institution in October last.

6. I beg leave to forward Statements No. 1 and 2. explanatory of the receipts and disbursements. the aggregate Revenue derivable from lands which formed the late Enam for "Cripples" in Errode, and the proceeds of which, were ordered to be applied to the Lungurkhanah, was Rupees 1,046—3—5. which was recovered in full and with the addition of a sum realized by the sale of Cholum Husk, amounted to Rupees 1051—12—2. the expences do not exceed 281—1—7 inclusive of the cost of Establishment or 9¾ pice P.o head, leaving a balance of 770—10—7, available for future disbursements.

7. The Lungurkhanah has proved a very beneficial Institution. all people, of whatever caste, desirous of availing themselves of the accommodation afforded by it are at liberty so to do, and are, on sufficient grounds and due examination admitted and provided for. In any season of distress or scarcity, the advantage of the Charity would be incalculable.

upon him to state the cause of the difference between the amount of payment sanctioned on account of Salt Compensation Certificate No. 23 and that made to the holders of Nos. 47 & 48 and also to shew how the Original holder of No. 23 professed ½ Alum more than the present holders of Nos. 47 & 48.

of Revenue to acknowledge the receipt of your letter dated 4th November 1837 requesting sanction for the registry of a Salt compensation Certificate No. 48, in the name of T. Ringanumaroo Chetty and for the payment of the allowance thereon Rupees 40-2 - retrenched in your accounts for July 1258.

2. In reply I am instructed to request that you will be good enough to explain the cause of the difference between the amount of payment originally sanctioned on account of Certificate No. 23, and that subsequently made to the holders of Nos. 47 and 48.

In Cons 20th October 1837.

3. In your letter of 11th October 1837 it is stated that a Certificate No. 23 was issued on the 14th April 1817 to Gnanapia Moodelly, No. 7 in Mr Ellis's Register dated 1st April 1813 whose allowance according to that list is Star Pagodas 28-29-60 equivalent to Rupees 100-5 - - At his death in 1828 this Certificate was cancelled and two fresh ones were issued one No. 47 for 2 pans or Rupees 80-4 - in favor of his Grandson Sedambara Moodelly and another

From Coll. 11th Sept. in Cons 18th October 1846.

another No. 48 for one pan or Rupees 40-2 to his Nephew Mootoo Comara Pa Moodelly.

4. The former of these was in 1846 again sold to Soobaroya Chetty and received the sanction of Government under date 31st October 1846, the other Certificate No. 48 passed through several hands, and sanction is now requested for its registry in the name of the individual mentioned in para 1.

In Cons 31st Dec. 1846.

5. The amount therefore paid annually on account of Certificates No. 47 and 48 is Rupees 120-6 - or Rupees 20-1 - in excess of that sanctioned by Government under date 13th July 1813.

6. There is also a difference in the No. of Alwis, specified in the Memorandum received with your letter of 11th September 1846, compared with Mr Ellis's register of 1813. In the former 3 are entered against Gnanapia Moodelly's name whilst in the latter or standard list, the No. is 2½.

+ Salt Pans

7. As the Board cannot trace how this additional ½ alum came into the possession of Gnanapia Moodelly the Original proprietor you

Sir,

B. No. 2507. From the Civil Engineer 4th Division. Remarking on the experiment in the cultivation of American Cotton in Tanjore.

During a recent tour in Tanjore I made a point of enquiring into the result of the experiment in the cultivation of American Cotton carried on since last year with seed supplied from the upper Annamalai plantation. Although the seed was widely distributed by Mr. Bishop I found that only in the Manargoody Talook had the plant been fairly and properly cultivated, and I saw that the Native Officers and Merassidars generally were very indifferent to the success of the trial. Yet it was evident that the Cotton when irrigated did not fail from any fault in the soil or climate, for I observed patches of it growing luxuriantly, especially in the puddoogays, and yielding ample produce which no one would take the trouble to collect. Thus no fair judgment can be formed from the recent attempt to disseminate

Fort St. George. 17th November 1857.

disseminate American cotton in Tanjore generally -

2- Rungiah Nauck, Tahsildar of Manargoody, has however taken the greatest interest in this matter and his efforts have been attended with as much success as might be reasonably looked for - No Mirrasidar would undertake the plantation of a field of american cotton, depending only on that crop for payment of the rent and reimbursement of his expences, and the Tahsildar's plan therefore was to induce several cultivators to sow a little of the seed in the midst of other crops, generally in Cholum, which they raise by irrigation from wells - Unfortunately however the Month in which that crop is sown (January) is very unsuitable for the cotton which grows up during a season of almost complete drought and must therefore depend entirely on irrigation, while the picking falls in May and June when showers are always expected and the produce is injured - Unless therefore some inducement is held out to the Cultivators to sow this Cotton in September and October

Fort St. George. 17th November 1857.

October no good result can be expected as the season hitherto followed enhances the expences and curtails the profits of the cultivation -

3- A considerable quantity of indigenious cotton is cultivated throughout Tanjore and used in domestic manufactures in almost every large Village - Even in the Eastern Talooks such as Nyaverum, Parellum and others cotton fields are seen to flourish in the poonjah lands and this cotton is perennial - In the dry lands of Manargoody, Tiruady, and part of Puttoocottah almost every Village has its cotton fields enclosed by strong fences and attended to with the care which denotes the Value set on the produce - In some places the plant grows remarkably well running from 5 to 8 feet high, but the crop is scanty, and depends entirely on the rains - A long drought will reduce the plants to the condition of dry sticks, a fall of rain will again cause them to throw out a profusion of shoots covered with blossom - If sufficient moisture remains in the soil to ripen the pods a crop is secured; but if, as too frequently happens, the heavy thunderstorm is followed by a protracted drought the flowers fall or the pods wither and fail - It is therefore

Fort St George. 17th November 1857.

therefore quite evident that the climate is not favorable to the growth of even the common cotton unless supported by artificial irrigation and still less will the superior American plant thrive without such nourishment.

4- It is however absolutely impossible to convince the people that cotton will pay if grown on Punjah land, and after many efforts I have abandoned the attempt. The dreaded taxation is sure, the means of payment are uncertain and even the richer Merassedars will not give the matter a fair trial. Even on Poonjah land the people often suspect that an increased tax will surely follow the cultivation of the new cotton as I learnt from very good authority, and this fear I have not a doubt is one great cause of the neglect it has met with. In one case a Missionary having urged some people of his congregation to sow the cotton, they positively refused to do so unless they had the signature of the European Revenue Officers to a document protecting them from increased taxation for its Culture, which not being given they would not attempt it.

The

Fort St George. 17th November 1857.

5- The only chance of saving the cotton Cultivation is to allow the crop to be watered without extra tax, provided Government works of irrigation are not employed for the purpose. Let Tanjore have the privilege long enjoyed by Cuddapah of unrestricted well Cultivation and I feel sure that in a few years the produce of Cotton will be greatly extended, and this not only without loss to Government but to the great and permanent advantage of the revenue.

The argument against extending the Cuddapah system to other Districts is that if new wells are dug and only poonjah tax levied on lands watered by them, the lands under the old Government wells which are very highly taxed will be abandoned and the revenue will suffer, but this objection does not apply to Tanjore where the Punjah tax generally is moderate enough, and there are no Government wells. Merassidars will not throw up their rice fields for which they have paid a high price to cultivate cotton under wells, nor is there dry land enough to allow of such a measure. But whenever dry lands

are

are available for Cotton, it would assuredly be grown in preference to the inferior grain, if only a remunerative produce could be so confidently looked for.

7. Although the professed principle of an assessment is that it shall be levied on the land according to its quality and not on the produce, yet eventually the tax does depend on the crop. Suppose a ryot undertakes to cultivate a tract of poor dry soil on which the assessment in that state is one Rupee per acre. He may grow Cumbo Cotton or Indigo or Cholam or other articles dependent solely on the rains and which can yield no good return even in favourable seasons and will not bear to be sent to a market moderately distant. From the want of rain he may reap a crop just sufficient to exclude him from the benefit of remission but not enough to pay his expences. Let him go to the trouble of digging a well, and by its aid let him begin to grow irrigated Cotton or any valuable crop and at once his land becomes liable to Soornadayem tax which often amounts to 7 Rupees an acre. Surely this rule must operate to discourage private works of which the effect

effect would be to secure the public Revenue.

8. It only requires to consider the wide extent of land available for this crop which now yields no profit whatever to Government to justify the endeavour to confer so great a boon blessing on the country as its introduction would prove. In the Manargoody Talook there are 1500 Vayles or 9000 acres of waste land belonging to Government, the assessment of which for dry crops would be about one Rupee per acre. Supposing permission were given to cultivate the land by wells at this rate, the Government would gain 9000 Rupees annually. Say that 5000 acres of Cotton produce 200 lbs per acre, the return to the ryots would be 1,000,000 lbs or at 2 annas per lbs 125000 Rupees, an income which would do much to support the revenue on the Punjah lands. In Puttocottah there are 20000 acres of waste Government land, half of which under Cotton would greatly enrich that Talook so favored in many respects, and yet so poor.

9. In Tinnevelly they hope to raise American Cotton on the low plains near the Coast without irrigation, and in some seasons they may succeed while in others when the Monsoon is scanty failure is certain. I have tried Cotton in similar soil at Negapatam and found

Fort St George. 17th November 1851.

found that it could not bear the long period of drought which occurs during the flowering and ripening season. But with abundance of water only a few feet below the surface of the ground the facility for well irrigation is very great, and it's employment would add incalculably to the cotton produce all along this coast.

10. I have assumed above that the produce of irrigated cotton will amount to 200 lbs per Acre and I know by actual experience that this is a fair and moderate average. In Tinnevelly the produce of Pooyah cotton is about 53 lbs per acre and I lately observed in a Revenue Survey report on the Bunkapoor Talook by Captain Wingate that the produce in that part of Dharwar is only 50 lbs. In America the yield is about 300 lbs per acre, and the difference is quite enough to justify those anticipations of the decline of the cotton trade which appears to exist in Bombay. At 2 annas per lb the ryot only receives Rs 0-4 as after all the expences of picking cleaning and packing; but I imagine that the price in the cotton districts ranges much lower and that the cultivators are in the most depressed Condition.

To the Collector of Cuddapah.

To,
The Collector of
Cuddapah.

Sir,

The Board have frequently received Petitions similar to the enclosed No. 1988 of 1851 complaining of the Meerassy Office having been lost to the entire family upon the alleged participation of the members in the disturbance of Narsimha Reddy.

2. Circumstances may have rendered necessary the adoption of this course in some cases, but where it is otherwise the Board are of opinion that entire exclusion from Office and it's advantages of all the members of the Family is a harsh measure, and they would wish you to modify the orders passed in such cases when claims are brought before you.
