Para 1 Under the circumstances represented by the Collector of Malabar in his letter of the 13th Ultimo the Government resolves immediately to transmit copy of that Officer's letter to the Bombay Government, and to request that the exportation of Salt from Bombay to the Ports of the Malabar District may continue to be made on the terms hitherto in force, pending the consideration of the whole question submitted with Mr. Chief Secretary Male's letter of the 29th July last. The Board will instruct Mr. Conolly to report to Bombay the quantity which he will require for the year, that the Consignments to his District may be limited accordingly. This will supersede the necessity of procuring Salt from Tinnevelly, which it is concluded has been suggested by the Board only as an expedient in the event of there being reason to apprehend that the supply from Bombay will be cut off.

2 The further matters treated in the Board's letter will be considered and orders communicated upon them hereafter.

Desiring that measures be taken for retaining the ablest European Pleader whose services can be procured to cope with the advocate engaged by the Salem Mootahdar in a suit now pending in the Sudr Court.—

No. 1147

Extract from the Minutes of Consultation in the Revenue Department under date the 17th November 1851.

Read the following letter from the Secretary to the Board of Revenue.

/Here enter 14th November 1851 No. 494/

The Right Honorable the Governor in Council has given his careful attention to all that has been stated by the Board of Revenue in their letter above recorded.— and he is of opinion that if it be right to contest the claims of the Salem Mootahdar upon the grounds which have been taken it is clearly incumbent on Government to provide that their cause be not prejudiced for want of fitting advocacy. It is evident that the Government Vakeel is not qualified to cope with the advocate of the opposite party in oral argument. The Government do not concur with the Board as to the limited application of Clause VII Section XXXVII Regulation XIV 1816 which it appears to them includes under the general

general terms "authorized pleaders" all parties Europeans no less than Natives who are allowed to practice in the Civil Courts as well as Barristers who are admitted as pleaders under Act I of 1846. They therefore request that under the provisions of that Clause the Board will take immediate measures for retaining the ablest European Pleader, Barrister, or other whose services they can procure and will furnish him with all the assistance and information requisite for the conduct of the Suit. The Government fear that there can hardly be time for any person not already familiar with the case to prepare himself for arguing on it by the 20 Instant. It will therefore be proper that the pleader to be newly entertained, should at once apply to the Court for an extension of the time, in reference both to his own peculiar position and to the intricate and important questions at issue in the cause.

The Government agree with the Board /Para 13/ that the question of arrears should be left entirely

entirely to the Court.

Reporting on the subject of the compensation due to certain Shrotrimdars in lieu of their lands lost under River Channels.

Sir,

I have the honor to acknowledge receipt of Extract from the Proceedings of the Board of Revenue dated 11th July last on the subject of the compensation due to certain Shrotrimdars in lieu of their lands lost under River Channels.

2 In the 1st Para. the Board notice a discrepancy between my report and the Statement which accompanied it, and call for explanation. The extent of wet land rendered unfit for cultivation as

as such in the Sujjaporam case is 15—3—11 a G a
but of the only 13—29—11 a G a is available for
Dry cultivation as stated in the Report and
the difference acres 2—13—12 is useless being
situated along the channel bank on one side
and therefore exposed to and cut up by the
water that finds its way into the channel -
This explanation was inadvertently omitted
in the Statements and hence the discrepancy
noticed. The extent of land therefore available
for raising dry grains being 13—29—11 a G a, the
Poonjah Yeerwah entered in the Statement
Viz. Rupees 20 9 7 appears to be correct.

3 Neither the Shrotriemdars of
Simmiapollem nor those of the other
two Villages are willing to compound for
a specific sum in lieu of their lands.
They consider that a reduction of the
Jodie will be more to their advantage
in the longrun than the payment of
a fixed sum as suggested by the Board.

4 In my letter of the 7th May
last I recommended the remainder of
the balances outstanding as
against the three Shrotriemdars
on account of Fuslies 1258 and
1259 amounting as in

Sujjaporam.	Rs	a	P
Fusly 1258	171	4	2
Do 1259	171	4	2
	342	8	4

Cheroovella & Cundrega	Rupees	annas	Pie
Fusly 1258	58	14	9
Do 1259	58	4	9
	117	13	6
Simmiapallem			
Fusly 1258	52	2	9
Do 1259	52	2	9
	104	5	6
+ Total	564	11	4
For 1260 Fusly			
Sujjaporam	171	4	2
Cheroovella Cundrega	58	14	9
Simmiapollem	52	2	9
	282	5	8
	564	11	4
⊗	847	1	11

in the aggregate to
+ Rupees 564—11—4 To
this should now be
added the similar
balance on account
of the past Fusly 1260
and the total sum to
be struck off from the
accounts thus amounts
⊗ to Rupees 847—1—4
The reduced Jodie will
come into force from the
current Fusly 1261.

I have the honor to report on Petition No 2444 of 1850, from certain Rahomedan Fakeers, the holders of certain shares in the Surva Enam Village of Pudgoopand in

in this District.—

7 The Enam referred to comprises an area of 323 Gottos or Acres 107 15, and is situated in the Nellore Taluk It appears from a copy of the Original Summud under the Cauzee's Seal and signature and an Enaygenamah which have been found on the records that the Enam is a rent free charity grant conferred in perpetuity by the Mahomedan Government on one Goodum Shaw- Since his death it has been enjoyed by three generations without however, a special renewal at each lapse, and in consequence of family disputes the Enam has been divided from time to time into small allotments and at present it is held in no less than 72 Shares— The appended genealogical tree will show the number of descendants of the original grantee now living who participate in the Enam—

8 The Petitioners are the holders of 3/64 of these shares which comprise 163—a 114—2 3/4 It appears that this extent of land was mortgaged by Petitioners to M Ramy Reddy who advanced to them a loan of Rupees 2873—6— under a Bond dated the

the 12th June 1825 It was therein stipulated that the mortgagee should keep possession of the lands until he should have been reimbursed from their proceeds in the amount of the Principal with Interest at 10% per annum This condition the Petitioners now urge has been more than fulfilled, in as much as the mortgagee has had the enjoyment of the usufruct for the last 26 years, and they seek restoration of their lands. The mortgagee, on the other side, submits that besides the loan admitted by the Petitioners he has advanced to them several other sums on different occasions on the security of the same Enam shares, and claims Rs 18,039-14-3 as thereby amount still due to him some of the Books produced by him in support of his claim are of a suspicious character, and are such as can scarcely stand the test of a judicial investigation at the same time he is doubtless entitled to more than the Petitioners are willing to allow—

9 The case therefore is to be decided is of a Civil nature involving an enquiry into the genuineness of

15196 Fort St. George 20th November 1851

of several documents purporting to have been executed posterior to the date of the original Bond and on which the creditor posts his title to a further enjoyment and as Petitioners are willing to establish their case in the Civil Court. I see no objection to their being furnished with the Endorsement prescribed by clause 1st Section II Regulation IV of 1831.

Sir

I have the honor to report upon Petitions Nos. 2543 of 1850 and 256-276-1046 and 1317 of 1851.-

2. All of these petitions have been presented to the Board by the former Servants of the tomb of Meer Rajah alliKhan who have been at various times dismissed by Meer Moorad alliKhan the son of the late Meer Mohomed alliKhan, Jaghiredar of Goorrumcondah, and Durmakurtah of the tomb in question for whom, in his absence at Mysore, Meer Moorad alliKhan acted as Goomastah.-

3. There is no question as to the fact of the dismissal of these persons nor much as to the frivolous nature of the grounds on which they were dismissed. Meer Morad alliKhan admits the fact, and either justifies it on the ground that the parties had gone to Madras to petition the Board against him, without his

his leave, or states in general terms that their retention in service was detrimental to the interests of the tomb. The latter is all that he adduces in support of the dismissal of Moorad Beg whose mother presents petitions 2543 of 1850 and 1317 of 1851 and who having been appointed Head Darogah to the tomb when a minor in succession to his father, and having never yet entered on the duties of his Office, can hardly have had any opportunity as yet of making himself obnoxious to the Durmakurtah.-

4. The question for settlement at present is, what power is vested in the Durmakurtah regarding the dismissal and appointment of Servants to the tomb, and whether this power is to be exercised under any and what control.-

5. Meer Moorad alliKhan has submitted three petitions formerly addressed to the Board by Servants of the tomb dismissed by his father, Nos. 477 and 664 of 1845 and one without number, but bearing a note of having been received by the Board on the 10th of June in the same year. The former of these is endorsed to the effect that the charge of

of the Mosque or tomb in question being vested with the Nabob Meer Mahomed Alikhan the Board can pass no orders on the subject, and the Endorsement on the other petitions refers to the above, as a final disposal of the question.-

6. The Board having thus on a former precisely similar occasion determined that with the Durmakurtahrest full and uncontrolled power and authority over all the affairs and servants of the tomb it is unnecessary to trouble the Board with the merits of each individual case.-

that of her puttah lands.-

1131- 3. Petitioner's husband was Curnum of Cherlapilly and died leaving a widow and a young son, the son was nominated Curnum, and the widow directed to produce a Goomastah for the performance of the duties of the Office. This not having been done at the time of the settlement of Fusly 1258 the Collector called her to the Cutcherry and personally directed her to nominate some person to do the Curnum's duty- the widow appears still to have omitted to nominate, although in a Government Village, to the Curnee Kum of which the son succeeded on the death of Mungummah's husband, the usual nomination of a Goomastah was made. The Jaghiredar subsequently reporting to the Collector that the Office was still open, in August Fusly 1259 an order was sent dismissing the Curnum and confirming the Jaghiredar's nomination of Balajeeroa, with one Sooba rao, as his Goomastah.-

1132. 4. Mungummah held under puttah 49 — 21 — 1/2 acres counted as of land, in which were four substantial wells, the assessment on this land for Fusly 1258 was Rupees 64-7-4 and for Fusly 1259 Rupees 81-10-2. total

Rs.

Rupees 146-1-6. The Jaghiredar forfeited the Crops because the Assessment was not paid, the grain was sold, and Rupees 132-9-1- were realized: and on account of the small balance of Rupees 13-7-8 a razeenamah of her whole land was taken from Mungummah by the Jaghiredar:-

5. Petitioner adduces evidence to shew that the non-payment of her rent arose solely from her crops being attached and kept from her, and her witnesses assert that Balajeerao, who obtained her son's Curnee=kum was the party who prevented her taking possession of her grain, who placed Pariahs as a watch over her, and who finally took her Razeenamah. Mungummah is a Brahmin woman, and can sign her name she was placed under Pariahs, and her razeenamah bears only her mark.-

6. The Collector is of opinion that great injustice has been done to Petitioner and recommends that the Curneekum be restored to her son and she allowed to nominate a Gomastah and that her lands be restored to her on condition that she shall make good by proper instalments

any balance standing against them at the time the Razeenamah was forcibly taken from her.-

Ordering the restoration of the Petitioner mot. 1131 & 1132 of 1851 her Curneekum and Puttah lands requesting him to call upon Meer Moorad ali to restore other Inams to their Officers if they appear on due enquiry to have been dismissed on frivolous charges and calling for a report as to under what authority the above individual succeeded to the Management of the Institution as he is believed not to be the eldest son of his father.-

In Cons. 20th November 1851.

To, The Collector of Cuddapah.

Sir,

In reply to your letter of the 1st instant reporting on Petitions 1131 and 1132/1851 I am desired to state that the Board entirely agree with you as to the unjust and oppressive manner in which Petitioner has been treated by Meer Moorad Alia Khan and they are of opinion that the Petitioner should, as suggested by you, be restored to her Kur=neekum and Puttah lands.-

2. The Board have also had under their consideration your letter of 28th August 1851 reporting on the Petitions of certain of the subordinate servants attached to the Tomb and Mosque at Goorumcondah which were, with the Villages assigned to them placed under the charge of the late Meer Mahomed

Fort St. George 20th November 1851.-

Mahomed Ali Khan under the full persua-
=sion that his high character and respectability
were a sufficient guarantee for their being
administered with due regard to the rights
and interests of the Subordinate Servants of
the Tomb as well of the ryots of the Villages.-
3. It would appear however that
the management of it's affairs was wholly
or to a great extent made over by him
to his son Meer Moorad Ali, and the
Board regret to observe that the conduct
of this person has been characterised by
proceedings as harsh and arbitrary towards
those under his immediate control as towards
the Petitioner Mangummah Moorad Ali
Beg whose family it is believed have held
the Office of Darogah since the country
came under the Company's Government, e
and other Servants have been dismis-
=sed upon the most frivolous grounds
and their proceeding to lay their case e
before the Board has been assigned as a
justification of the measure. It
was not the wish of the Board to in-
=terfere more than could be avoided in
the management of Mahomed Ali
Khan

Khan, but they did not anticipate that
the subordinate servants would be dismis-
=sed without adequate cause, nor can they
permit Meer Moorad Ali to visit the
presenting petitions to them with punish-
=ment at all. No Act having yet been
passed for the protection of such parties
it becomes the duty of the Board to inter-
=pose in their behalf.-

4. I am now therefore directed
to request that you will communicate
to Meer Moorad Ali the unfavorable senti-
=ments with which the Board have viewed
his conduct and that you will inform
him that any repetition of the same will
compel them to suggest some other measure
for the management of the Villages and
institution in question. You will also be
pleased to make some further enquiry into
the cause for which each of the servants
was dismissed, and should your impression
of the frivolous nature of the
Charges against any of them be
confirmed, you are requested
to call upon Meer Moorad
Ali to restore them to the Offices
they before held.-

Sir,

From the Collector in charge of the Special Agents.

Office with the Board's Proceedings of the 28th Idem, and desiring me to state the result of the further reference which I was directed to make to the authorities at Pondicherry on the subject of the transfer of the French Pettah at Masulipatam.

2. On the receipt of the above instructions my predecessor addressed His Excellency the Governor of Pondicherry, who replied that he had opened a direct communication with the Madras Government on the subject and was awaiting the result. No further steps were therefore taken in the Special Agents' Department, until under instructions from Government I again brought the evils of the arrack farm in the French Pettah to the Notice of the authorities at Pondicherry and offered certain propositions for its suppression. These terms were not acceded to, but as the Governor of Pondicherry stated that his non-acceptance of them arose from his inability to treat without instructions from the home authorities, I was directed † to intimate that the

the Madras Government would waive discussion of the question for a short time to allow of a reference being made to the Minister in France.

3. The Governor of Pondicherry subsequently informed me that he had received authority to treat for the exchange of the French Pettah for an equivalent portion of British Territory and Inconsequence addressed the Government describing the terms upon which the proposal to treat was made, and requesting instructions for my guidance. As the previous correspondence had passed direct between the Government and the Special Agent's Office, it appeared to me proper again to address the Chief Secretary on this occasion, but in case it should be intended that the necessary instructions should reach me through the Board of Revenue, I beg to forward a copy of my letter for the Board's information.

dated 19th October 1847 No 1152, Communicated through the Board of Revenue, the Collector in charge of the special agents Department was instructed to Negotiate for the transfer of the French Pettah but it seems to me doubtful whether this is sufficient authority for me to

to enter now without fresh and more explicit instructions into the details of a treaty for an exchange of territory to accomplish the intended purpose. I have therefore limited myself to obtaining from Monsieur Montbrun for the information of Government the terms upon which he is empowered to treat and request to be informed whether I am authorized to enter into a negotiation with that Gentleman.

3. The principal terms upon which Monsieur Montbrun states that he is empowered to negotiate for exchanging the French Pettah for an equivalent portion of British territory are as follows.

1st That the value of the French Pettah is to be taken at Rupees 5125 per annum, the amount of the present arrack renter's contract, which was given for 3 years at that rate from August 1850.

2d That indemnity is to be given to the renter by the British Government for the cessation of his contract.

3d That the British territory to be given in exchange is to consist of Villages in the neighbourhood of Pondicherry yielding

yielding a Net revenue of Rupees 5125 per Annum. their value being calculated on an average of their revenue for the last 3 or 5 years.

4th That the treaty is not to be considered final until ratified by the two Governments, and is then to have retrospective effect from the 1st October of the present year.

4 The Government are aware that the French Pettah consists of a small piece of ground which is only valuable to the French authorities from its position having enabled them to establish an arrack farm in the centre of the Masulipatam Contonment - according to information furnished to this Office by the Collector of Masulipatam under date the 6th December 1847 the area of the Pettah is less than 52 Cawnies and it contains 5 dwelling Houses which are usually let by their proprietors to English Officers - No rent of any Kind is paid by the owners of these houses to Government and the only revenue which the place yields arises from the contract for selling liquor within its limits. This revenue necessarily causes a corresponding loss in the amount of the Military Abkarry farm in

in the adjacent Cantonment and the Pettah is described as injuring the discipline of the Troops and the good order of the neighbourhood by its being a refuge for dissolute characters of all description.

Fort St. George.

Sir,

Under the provisions of Clause I Section XI Regulation VIII of 1828 I have the honor to forward to the Board an original Petition with translation presented by the Curnum of Vodiour in the Manargoody Talook appealing against a decision passed by me under Regulation IX of 1822. I also transmit a Copy of my decree and the original record in the case.

The Curnum and Puttah Munigar of the Village were convicted by me of fraudulent concealment in the cultivation accounts. Information of the fraud was given me at the Huzzoor Settlement and on the Village lands being formally examined the concealment was brought to light. My decision rests on the sworn testimony of the Tomasidar and an attendant peon, which is supported by the contradictory and weak defence offered by the parties implicated. I would here observe that the Curnum who comes forward to appeal, is the dependent of the principal landowner in the Village, a connection of Defendant, whose relations hold almost all the lands in the Village. The 1st Defendant was also convicted of concealing cultivation

cultivation in his other Village of Pootoor, and in my letter to the Board dated 10th June last I commented on the Tahsildar's conduct in unduly favouring him with Naramut contracts and neglecting to make an examination of the cultivation in consequence of which I was obliged to form the settlement upon the unchecked accounts of the Village servants whose position as landholders makes it their interest to defraud the Government.

3- The arguments adduced in the appeal Petition call for little observation as the reasons upon which my decision was founded are detailed in my decree and it is unnecessary to refute the appellants allegation that persons in Government employ are incapacitated as Witnesses. The Appellants Statement that the examination or Asmaish of the lands was made in the absence of the Village Officers and Ryots is proved to be false by the papers in the case and by the Appellants remark in Para 6 of his appeal that it was by the Asmaishdars measurements that he was able to correct his preceding accounts to the extent of Rs. 58-7-7- As the 1st Defendant and his relations are the principal landowners of the Village, and the Curnum is their dependent, it is not to be supposed that they would give their aid to bring the concealments to

to light, but they were invited to attend and were actually present especially the Curnum during almost all the Asmaish- When they were absent it was of their own choice and free will. -

4- The Appellant further states that the Petitions of the Village Officers and Ryots were not listened to by me, but on this point it is sufficient to observe that the Curnums and Puttah Nowigars Statements were formally recorded and that as my investigation was conducted at Shaitia tope in the vicinity of the Village, the parties interested had every facility for bringing representations to my notice. -

5- With respect to the Amount of the concealment brought to light, it will be observed that the Sum of Rupees 280-5-5 referred to in Column 2 of the appeal Petition is not the entire Amount as therein alleged, but the Berij of some Nunjah land which formed the principal item in the fraud- The entire concealment amounted to Rupees 360-10-2, which sum was recoverable under the Hon Rummamah rules, but from a wish to avoid any appearance of harshness I remitted Rupees 58-5-4 on account of uncultivated pieces of fields (Shamilat Bunjur) and some Teerwah (put) land on which houses had been built without sanction- Although this indulgence was shewn, it was not less the

6. In conclusion I beg to remark that the fine imposed on the Appellant has been collected and is now in deposit. It was erroneously entered in the Monthly Return for August as having been carried to account.

South Arcot Collr's Cutcherry, Cuddalore 5th November 1851.

I have signed E. Maltby Collector.

Translation of an Appeal Petition to the Board.

I. Cullianaramien Curnum of Oodiour in Mummargvody Talook in the District of South Arcot beg respectfully to appeal under Clause I Section VII Regulation VII of 1828 from a decision passed by the Collector under date 29th August 1851 with which I am dissatisfied.

The Decision being totally opposed to Claise I Section III Regulation IX of 1822 it cannot be valid for the following reasons.

1st. Arvonachellum who was deputed for the Chuttpavany examination of the Village did not conduct his proceedings according to the practice of the District, in the presence of the Monigar, Curnum, Ryots, and Witnesses. the Regulation above quoted does not authorize an examination without the Monigar, Curnum,

Witnesses

Fort St. George 20th November 1851.

Witnesses &c., and the accounts having been thus made out contrary to the Regulations and the practice of the District, the Board will be satisfied on a consideration of the circumstances hereunder set forth that the Collector did not act legally in approving of those Accounts and classing the offence under the fourth description mentioned in Section II of the above Regulation as is specified in the decision. No Witnesses were examined on both sides as required by Clause I Section III of the above enactment. In the sentence however Arvonachellum and a Peon who accompanied him during the measurement are stated to be witnesses, both these parties are the servants of the Circar the prosecutor, they are themselves the parties who alleged that there was Chespawany and how can they turn Witnesses? If another man had pointed out the Chespawany, the Collector might have had some ground for making use of them as Witnesses. The Peon who followed the measurement cannot know the particulars of Cawries, Numbers, Turms &c., that he is ignorant of accounts may be gathered from a perusal of his depositions. Moreover a Circar Servant cannot be taken as Witnesses. In cases of enmity borne to Village

Servants.

servants by the Tahsildar, Head Sheris-
tadar or Collector for some reason or other,
a servant of Government may be deputed
and accounts made out according to his
pleasure including waste lands &c.a,
and no Regulations authorize conviction
through the evidence of Public servants
themselves and without the necessity
of other evidence on behalf of both the
parties & regardless of Complaints that
may be preferred on the subject by the
Ryots who are to be made responsible
for making good the fraud and by the
Munigar and Curnum that are to suffer
by the same. That no enquiry of the
sort was instituted and that the con-
viction is therefore irregular will be
clear to the Board on a perusal of the
papers herein enclosed and the Deposi-
tions and Complaints given before the
Collector, your Board will perceive the
validity of my objections and the impro-
priety of the Collectors decision when they
take into consideration the numerous
orders of the Board and Government &c.a
from 1825 requiring that cases of this
description should be treated as criminal
trials, that the absence of full proof of guilt
should not warrant conviction under the
Regulations, that the Criminal Judges ad-
judge acquittals on the same principle
and that a similar uncertainty attach-
-ing to this case it ought to be at
once-

once dismissed-

2- Out of the sum of Rupees 360-10-2
given by Arnachelliah as the fraud,
Rupees 280-5-5 is taken in the decision
as the actual Shrpaw any when a portion
is rejected as unworthy of credit is not
the whole liable to the same suspicion?
and how can a suspicion be taken as es-
establishing the Charge.

3- The Statement in Para 5 of the sen-
tence is not correct- It is therein observed
that there are contradictions in the com-
plaints given by me and the Munigar in
the Taboot and Boogoor, some lands being
at one time stated to be waste and at another
Nattangal- and the Monegar did not
give any such conflicting Statements as the
Board will see from my Petitions to the Col-
lector dated 26.th July and 12.th August 1851, my
depositions before the Tahsildar and at the
Boogoor the Munigars depositions at the
Taboot and the Boogoor (6 Documents in all)-

4- Arnachellier the Azmaishdar
did not carry on the measurement through-
-out in my presence, nor did he give me
any explanation regarding it- There
was present neither the Munigar nor
the ryots- He made out his own ac-
-count just as he liked and I was furnished
with the Aloogoo alone, and on my inspecting

the

the lands with reference to the Olooyo and in the presence of the Villagers, I discovered that out of the lands assumed by him to be cultivated some were Nathungal seed beds and others waste and that in some cases the measurements were incorrect. As Nathungal lands are not brought under assessment at the Jummabundy the ryots have considered them as waste and given Kaitwar accounts accordingly at the Koozoot and Tatoor and they were treated indiscriminately in the Petitions. Even if they have stated as alleged, that is no reason for charging Teerwaste on Nathungal. Is it not proper to consider that as waste which is exempt from Teerwaste.

5. The observation in the sentence that the omission in the Monthly accounts of lands said to be Nathungal renders it undeserving of credit is groundless. No orders were given for entering Nathungal lands as such in the Monthly accounts, if so the order might have been referred to in the decision, and when the Board peruse an order received in August last directing that all Nathungal lands be entered in the Monthly accounts from Fusly 1261 it will be seen that the Collectors remarks on this head is incorrect. It is further remarked in the sentence that the Cymaish servants stated that there were stubbles found on the land which it is added is satisfactory

evidence

evidence of cultivation. The Village consisting of 1100 Cawnies Turaipady, has 200 Cawnies of Kunjahs bearing an assessment of 2000 Rupees. Is the Statement that all those lands had stubbles sufficient proof that they were really so, and how can the Peon who followed the measuring rods without writing the accounts speak to particulars numbers individuals &c. He did not give those particulars in his examination. If he had been examined in a Court of Justice it would have been necessary that he should give details so as to establish the charge preferred beyond doubt. Even in that case he would be subjected to a cross examination and your Board will perceive that the Peon did not furnish details of Turum &c. which were given only by Arnachelliar and that a solitary Witness is not sufficient for the purpose.

6. It is further stated that Jand the Mooniagar have admitted Rupees and odd, but it was not a fraud wilfully perpetrated; the accounts having been written by inspecting the fields after cultivation and the Odungul Examination done in the Month of Fye when the fields bore full crops according to orders received on the subject, it was not convenient to measure them with rods and so the fields were entered on rough estimates, some omissions of parts of fields (Kaittoondoo) and defects in measurement were consequently occasioned

to

to the above extent, the present measurement having been done at a time when the fields were quite bare the Amount has been easily discovered. Altho the items only related to parts of fields and excess of measurement they have been admitted as properly chargeable with Teerwah under the Hoobunnaam ah rules. It will also appear that so inconsiderable an Amount as 50 Rupees cannot be ascribed to fraud when the large Bariz of the Village is taken into consideration.

7. In the Village of Pottoor attached to this Talook where a similar Arepawany investigation was effected by the Tahsildar, Goomastah, Royesum, and Peons all ten in number the Accounts prepared shewed also the objections advanced by the Curnum and bore the signature of that Officer as well as those of the Goomastah and the Royesum; The Tahsildar also forwarded to the Hoozoor with his seal certain stalks of Paddy supposed to have been discovered in particular fields, the Royesgar and the Goomastah admitted when examined on oath the truth of the Tahsildar's accounts and the facts of the stubbles having been discovered, but the Moniagar and Curnum objecting that waste lands were included, the Collector sent the Nail Sheristadar who having inspected the fields with the assistance of Arbitrators, Rupees 215-11-0 of the Tahsildar's account was disallowed.

8. In the Village of Poorthungoody of the said Talook a similar enquiry had conducted by Royesem Ramakistinien deputed by the Collector, and that Officer having reported the existence of fraud to the Amount of 150 Rupees the Curnum and Ryots represented that waste Land were included, on

On this the Tahsildar himself went over to the Village and having discovered that a few waste lands were entered, he sent the Assistant Jarobriejs Rungasawmy Pillay for the inspection of the remainder, that Officer having also reported further cases of improper inclusion of waste, Ramakistien above named was again sent with injunctions to prepare his accounts with fairness to the Ryots and he has accordingly furnished a revised report in which 50 Rupees out of the former accounts has been deducted; out of the 3 Villages in which objections have thus been raised two have undergone re-examination by the Hoozoor and Talook Officials and the objections have been allowed; in the case of this Village, no further examination was granted notwithstanding representations made at the Hoozoor and Talook; if the request of the ryots and myself had been complied with it would have been discovered that waste and Nathangal were improperly entered.

9. In the case of Parathoor where, on information received of Chepawang Namaseroya

Namaseweya Pillay the Horzoor Sumprethee made an Uzamaish with the informer Curnum Monigar and the ryots he called in Arbitrators in cases of disputes and thas found out the truth: in disputes of importance he had recourse to the Tahsildar in conjunction with whom he decided them. On perusal of the records connected with the Chepawany enquiries of the above three Villages Viz.t Poothoor, Poorthangoody, and Parathoor, it will be seen that in those cases some attention at least was paid to the Regulations and Customs and that nothing of the sort was done in my instance.-

10 It is well known practice in cases of examinations of cultivation Summabundy and adungal to conduct them in the presence of the Curnam Monigar, and the land holders whose signatures are accordingly taken to the Accounts; but in this case the Etzmaishdar paid no attention to this practice and prepared the accounts according to his pleasure; and notwithstanding numerous representations of myself and the ryots on the subject to the Collector that authority has passed a sentence in which he has disallowed a portion of the amount given by the Etzmaishdar: a reference to my complaint and

and the depositions at the Talooks and Horzoor will shew that the decision is not consonant to justice: and that the matter therefore requires to be disposed of under Clause II Section VI Regulation VII of 1828.-

11. In Fuslies 1238 and 39 during Mr Cunliffe's administration of the District, this very Village as well as Yaidmer, Poolianthangal, Reddyoor, & Co.a were examined for Chepawany by Goomastah Peishcar and others with 4 respectable ryots as witnesses whose remarks were also inserted in the accounts forwarded to the Horzoor and proceedings were duly examined by the Sub Collector; a reference there to will satisfy the Board of the utter irregularity of the Proceedings in this instance.-

12 In Fusly 1242 Rupees 200 of fraud were alleged to have been discovered in the Village of Madapooram and orders sent from the Horzoor for the recovery of that sum; but on a Petition from the Ryots representing that the accounts did not bear their signature, the Board refused their sanction for the realization of the amount a reference to the records will establish the fact to your Board.-

The

13 The lands declared in the decision to have been concealed are up to this time kept uncultivated or wa-tered to admit of the truth being discover-ed on further examination: that the ryots have represented this circumstance to the Collector will be clear to the Board from the Petitions herein enclosed. With a view to be prepared for the con-tingency of a Commission that may possibly be appointed according to Clause III Section VI Regulation VII of 1828 and Section XV Regulation IX of 1822, the Ryots have allowed the Lands to remain uncul-tivated. and if an examination of the sort was made through a Commission the irregu-larities practiced will become obvious to the Board and Government.—

14. The fact of my having been fined 50 Rupees and dismissed the Service on a charge of Chepawany evidently shews that I was considered in the light of a Criminal by the Collector and

and it was surely necessary therefore that in a Criminal Charge of this sort evi-dences on both sides consisting of Pub-lic Servants and those unconnected with the service should be taken in the same way as in the case of a conviction of Robbery. In matters of Criminal Charges for robbery and other offences the Magis-trates and Judges invariably take evi-dence on both sides and pass sentences accordingly and are never guided by an exparte account; and your Board will perceive that no consideration what-ever was given to my case and that I have been subjected to an unjust punishment

15. In the Collectors decision Rupees 280-5-5 is stated as the amount of fraud while in the Takeed directing the recovery of Chepawany Rupees 302 and odd is mentioned. A copy of the List of the proposed collections sent to the Village is herein enclosed for reference and it is impossible to ascertain which of these is true. The Collectors remarks regarding certain

15238 Fort St George 20th November 1851

certain Maramut transactions are irrelevent to the matter at issue and I therefore refrain from offering any explanation on that head.

I therefore pray that the Board will be pleased to peruse the documents herein enclosed as per list as well as the depositions &c on the Collectors records and issue orders for the refund of the fine and my restoration to office under Clause II Section V Regulation VII of 1828.-

Sircar Versus I Mooroogo Pillay Puttah Manegar
II Kaleyana Ramien Carnam

The Defendants who are public Officers in the Village of Wodiyoor in the Munnargoody Talook are charged with giving false and fraudulent accounts of the cultivation in that Village in Fusly 1260. the charge thus constitutes the 4th description of offence detailed in section 2 Regulation IX of 1822.-

Information of the concealed Cultivation was given to the Collector at the Kooyoor Settlement and seemed the more to be relied upon as the adangal Beriz of this Village for the Fusly in question was considerably below the amount of previous favorable years and the principal land owners belong to the family to whom the Tahsildar shewed undue favor

favor in the destribution of the Maramut Coolies

The Collector therefore deputed the Talook Sarbnevis Sroonachella Syen to etzmaish the Village when concealed cultivation to the extent of Rupees 360-0-0 was brought to light. The principal portion of these lands are held by the 1st Defendant and his relations, and the chief item of the Chapparvany consists of a tract of Cawr 21-3½ of Nunjah fields assessed at Rupees 280-5-5.

In their defence, the Defendants acknowledge that some items were omitted from the Adungal to the extent of Rupees 53-4-7 but contents the cultivation of this Nunjah tract alleging that a portion of it was waste and a portion used as Natangal or seed beds for paddy cultivation. If however this was true there would have been no stubble in the fields, a fact which is satisfactorily established by the testimony of the etzmashdar and the peon Coopanda Naicken, and which proves that the lands must have been cultivated.

The Statement of the Defendants is moreover unentitled to credit for the following reasons. In the urzees which they have addressed to the Talookdar and

and Collector since the etzmaish, their representations are self contradictory, particular fields being entered as Natangal at one time and as waste at another. It is also to be observed that the Village accounts have been kept in a loose and irregular manner strongly indicative of fraud. The fields now asserted by the Defendants to have been used Natangal are not entered in the Monthly cultivation accounts at all and the Curnams excuse that it was not usual to do so cannot be admitted, although the assessment is remitted on fields used as Natangal or seed beds, their details should be shown in the Monthly cultivation accounts where all lands sown or prepared for Cultivation by ploughing are to be entered. The Collector further observes that the Curnam has omitted to keep a periodical field account of the lands reaped, by which neglect another check against fraud is wanting.

It being proved that the Defendants prepared false Adungal accounts the 2d Defendant is sentenced to a fine of Rupees 50. Commutable, if unpaid to

to 6 Months imprisonment under Clause 4 Sec
5 Regulation IX of 1822. as the 1st Defen

2. The investigation into the case of bribery of which the Petitioner was suspected does not appear to have been made formally, as it was evident that there was not evidence sufficient for his and others conviction before the Criminal Court, where actual eye witnesses to the payment or such other proof is required as is rarely found to exist. —

3. It is unnecessary to go into the long details of facts that convinced Mr. Bishop of the Petitioner Gopaulyengars' guilt as whatever doubt of the same might otherwise have existed are fully

fully dispelled by his admission to Mr. Bishop that money to a considerable amount was paid him for his interference in a matter at issue - he confessed the receipt "of a large bag but that the contents were "uncounted by him as he returned it to the "giver the very same Evening of the day "on which he received it".—

4. Mr. Bishop's rough Memorandum continues it may be correct that he may have made repayment of a part or all "after conviction was pretty certain, "and such report was afloat but to suppose "that Gopaulyengar repaid his bag of "money the same day he received it appears "absurd - This man told the Head Assistant "Magistrate that he repaid the money "at Vadarnium about one Months after "its receipt by him".—

From the Collr of Trichinopoly—

Sir,

I have the honor to report for the information of the Board of Revenue that a Piece of Gold was found buried by a Ryot of Wodiarpalliam in October 1849. and he having endeavoured to evade the rules prescribed by Regulation XI of 1832. The Principal Sader Ameen decreed his right and title forfeited under Section VIII of the said Regulation.—

The Gold was sent to the Collector last January and sold for Rupees 71-11-, which sum is now in deposit in my Treasury. I have the honor to solicit sanction for Confiscating the said Amount to Government and carrying it to account as provided by the last part of Section VIII of Regulation XI of 1832, more than six Months having already elapsed.—

letter of explanation from Mr. Fisher with reference to Minutes of Consultation of the 4th. Instant.—

2. On approaching the district I had written to Mr. Fisher requesting him to send the Catcherry to meet me at Seerandi, and I stated that I should take the opportunity of being there to transact some business which would delay my arrival at Mangalore, when I should give the necessary receipt for the treasury.—

It would have been better

3. had I explained this to the Board of Revenue on my taking charge, but I had not the previous records with me, and I therefore merely reported my taking charge, intending on the transmission of the receipt to explain the cause of its delay.—

To
H. V. Conolly Esqre
Collector of Malabar

Sir,

With reference to your letter Dated 23d Instant No. 145. I have the honor to report, that it is not in my power to state how far the frontier between Cochin and South Malabar in my Division is still unsettled. Certainly in parts it is not admitted and mutually acquiesced in on both sides.—

2. For example, the Vetaly Padom in the Vadakancherry Amshom is within the boundary assigned by our Maps and is claimed by our Ryots.— It has been, however, in the occupancy of the Cochin Circar several years and attached to the Nemmary Prawithy— It at one time, I believe, paid Revenue as attached to Temel Poram Taluk of Malabar— Again the dispute relative to

Kannancer Potal Amshom Pudakode Deshom.—

Fort St. George 20th November 1851.—

relative to Palikode Padom waste land, for which Coale was eventually granted to the Ryot who litigated the case, on the ground that it belonged to Cochin Circar, and that he held the Dewans' Purwanah for the same; shews at least a willingness on the part of Cochin to advance within the line which we claim and which is assigned by the Maps as the frontier. The frontier is in this part drawn by the stone platform on the Bharadha Kunlin and along the natural water shed of the Country.—

Vide my letter dated 29th September 1848 No. 1.—

3. Other temporary advances have been made into the Agamala Mills and have been repelled by the authorities of this District— I therefore stated in para 13 of my letter No. 287. that I fear the boundary is still in parts unsettled.—

Dated 8th Instt. last.—

4. Of all their claims the Cochin Circar assumes a rough sketch in the shape of a Map of the boundary which they possess as the ground— This Map was evidently drawn before the Survey of the Country had been made as a ground work for such a plan and it is very vague. The Map bears no signature or authentication— I gather from the

Fort St. George 20th November 1851.—

the mention of such a map in the old records that it must be that prepared by Captain Arthur prior to 1814. then Engineer in Cochin territories, of which Mr. Commissioner Clephan remarks in in his Report dated 15th July 1814. Para 70. that on personal inspection he had found it in parts "very inaccurate. Captain Arthur "indeed mentions that he did not actually "survey it and that this together with a great part of the Eastern and Southern boundary "was laid down from Native informations "and descriptive documents supplied by "the Cochin Government".—

5. The Map also bears a Memo= =randum likewise unauthenticated alleging that it is that of the frontier settled by the Commissioner in 1815. It is needless to add that these Commissioners did not settle the South= frontier of South Malabar but only of the Nat Deshoms and examining withal and stating their opinion of three disputes in the forests then pending.—

6. It were well to institute a Comparison between this sketch and our maps. The result would shew where the frontier may be considered as unsettled.—

Sir,

With reference to your letter of the 9th December 1850 on the subject of the Hill Tract of land in Plakote and Pillaputty in dispute with the Cochin Circar it has been observed that the Map which accompanied Mr. Robinson's report of the 8th November 1850 is not clearly illustrative of the Line claimed by the Cochin Circar, adverted to in para 3 of his report, as no line of Yellow appears within the disputed Tract colored green in that Map.

It appears that the portion of the Curnee Kum Enam referred to in the above letter was purchased by the original Vendor Ramachendra Puntulu upwards of 160 years ago. What degree of relationship existed

15276 Fort St. George 24th November 1851.

existed between Rama Rau the last direct descendant of that family, and Vencut Row Uncle of the Petitioner M. Streenevasa Rau does not clearly appear, but it is stated by the Collector in his letter of the 14th July 1851. Para 7 that "if his claims to the land were to be "decided on the same grounds as would "a similar claim to any other property "it must be admitted that he has esta- "blished his right." Under these circumstances and looking to the great length of time that this land has been held and enjoyed as private property, the Government would be reluctant now to interfere with it, and they therefore desire that it may be made over to the Petitioner.

The Right Honorable the
1 Governor in Council has had under his consideration the correspondence relating to the compilaint preferred by Mr. David Lees respecting the obstruction occasioned to the cultivation of American cotton in the Tinnevelly District from the Proceedings of the Clayroot Farmers. The recognition of a right to dig for Clayroot in any given extent of land appears to the Government to be incompatible with the cultivation of american or indeed of any other description of cotton in such land. Notwithstanding the immediate sacrifice of revenue which may be caused, they therefore direct that the present Clayroot Farm be cancelled and that the conditions under which the Farm is to be given for the future, should be so restricted

restricted, as to debar the renter from entering on any land which now is, or may from time to time be taken up for cultivation, whether of Cotton or of any other produce. The Board of Revenue will be pleased to instruct the Collector of Tinnevelly accordingly. The Government will however report the whole correspondence for the consideration of the Honorable the Court of Directors at an early date.

Court's Despatch 15th July 1851 P.S.

2. With respect to the point propounded in para 9 of the Board's letter the Government apprehend that it would not be advisable, until at least the pleasure of the Honorable Court upon the general question be known to interfere with the cultivator, in respect to the appropriation of any Chayroot that may be produced in his land.

The demand on account

of the Extra sources of Revenue in the District of Salem for Fusly 1260, amounted to Rupees 1,91,579. being Rupees 12,54. above that of Fusly 1259. The collections within the year amounted to Rupees 189,578, and the balance of Rupees 2,001. outstanding at its close was reduced by subsequent collections to Rupees 1221.

2 The chief fluctuations appear under the head of Moturpha and Stamps, in the former a decrease of Rupees 1,359 occurred entirely under the head of Loomtax, owing to the relinquishment of the cloth Looms principally by indigent weavers and in consequence of a rise in the price of Cotton; in the latter an increase of Rupees 2,572 ascribed to the operation of act XVII of 1848.

3 The gross collections of the year Rupees 1,97,282. exceeded those of Fusly 1259 in Rupees 7,082 Deducting charges, Rupees 13,589. in which there was an increase of Rs. 1183. under the head of Stamps owing to a larger amount of refunds on account of Suits withdrawn the net revenue Rupees 1,83,693 was above that of the previous year in Rupees 5,899.

Agreeably

to the recommendation of the Board of Revenue, the Right Honorable the Governor in Council grants authority for writing off in the accounts of the Salem District, the balances of former Fuslies under the heads of Small Farms and Moturpha reported to be irrecoverable amounting to Rupees (197-1-9.) one hundred and Ninety seven, anna one, and Pice nine, Viz.

Affording further information on the compensation due to certain Shrotriemdars for lands taken up by river channels

(Here Enter No. 98.)

1. Resolved that the letters above recorded be submitted for the information of Government.

2. The Value of the lands in this Village occupied by the river channel was first estimated at 171-4-2. but the Collector reduced the amount to 130-11-1. which he recommends may be permanently deducted from the Jodi which would then stand at 382-8-1.

3 There has been an annual balance in the Shrotriem to the amount of the first estimate (171-4-2) for Fuslies 1258-1259. and 1260 making a total of 513-12-6. which the Collector recommends may be written off

4. In this Village the reduction of Jodi is proposed at 58-11-9. annually and the balance for 3 years to be remitted equalling the sum of 176-12-3.

5 The compensation here is reckoned at 3-9-9 yearly but land rated at 52-2-9. appears to have been left waste pending the Settlement of the question thus making the balance for 3 years to be written off 156-8-3.

6 The Board recommend that the Quit Rent in each village be reduced as proposed and the balance remitted, the total amount to be relinquished being 847 Rupees. The Quit Rent for the future will stand thus viz.

Mr

Tax on Butchers. 5 Mr Parris the late Sub Collector stated in a communication dated 22d July 1850 that he had under the instructions of the late Collector Mr Smith exempted the Butchers of the Cusbah station of Ongole from this Tax from Fusly 1259 and recommended that the balances of former fusles Rupees 216 due from fusly 1256 to 1258 inclusive should be written off.

6 From the records in my office, it appears that the Butchers at the Cusbah station of Ongole paid a considerable annual tax during the Nabob's Government, that in Fusly 1211 the first year of the present Government a sum of 31 Pagodas and 1dd was assessed, of which Pagodas 18 and 1dd were collected, and the remainder left out standing and that in the succeeding year the then Collector Mr Travers exempted them from the tax, but there is nothing to shew on what grounds. From this period, no demand appears to have been made upon them till fusly 1240, when

when the then Sub Collector Mr Bruce on a review and adjustment of the Moturpha Revenue throughout the Division reimposed the tax but the assessment was allowed to remain outstanding pending final instructions These Butchers dispute their liability to pay the tax on the plea that they have never paid it and that they supply meat to Travellers and Military Detachments passing through the station. The late Principal Collector Mr Stonhouse in his Report dated 19th December 1858 Para 29. expressed his opinion that as the Butchers evidently derive advantage from selling meat to Travellers that ought to be considered as a reason for taxing and not for exempting them from paying the Moturpha and that it seemed just that all butchers in whatever Village they might be, should be made liable to the tax, Mr Pringle the Collector in a Telegoo Memorandum dated 13th October 1846 suggested that the tax should be made

made payable regularly from Fusly 1257. and altho Messrs Purvis Pringle and Stonhouse were of opinion that the tax should be thus imposed. yet the point not having been finally disposed of the demand charged on them up to Fusly 1251 was not enforced, when the late Collector Mr Smith on a reference from the then Sub Collector Mr Purvis gave his opinion in a Memo. dated 13th March 1849 that the Butchers should be exempted from the tax as a measure desirable to encourage the residence of the class of people at Ongole both for the convenience of the Inhabitants and of Travellers and Mr Purvis accordingly exempted them in Fusly 1259. The Village of Chirala the only one in which the Butchers used to pay the Tax assessed on them, was transferred to the Guntoor Collectorate in Fusly 1256. The Butchers in the Town of Nellore and other large stations have never been heretofore assessed: as under the above circumstances it seems advisable that

that the tax should be excluded from the demand till such time as the general question of the propriety or otherwise of imposing it generally be disposed of. I trust that the Board will approve of the exemption made by the late Sub Collector under orders from the late Collector and will sanction the writing off of the arrears.

Tax on Furnaces belonging to Village Shroffs

The Village Shroffs of Ravvoor and ChanKeerlerla in the Buddaypoody Talook were assessed with Furnace tax the former at one Rupee and the latter at 8 annas pr year but the amount has not been paid since Fusly 1256 and the Sub Collector finding that they enjoyed no maniem as Village Shroffs and that it is the practice not to collect the tax from many individuals holding the Situation of Shroff, relieved them from the tax from Fusly 1259 under orders from the late Collector and recommended that the arrears due by them should be written off. Sanction is therefore requested for

for writing off Rupees 4-8- being the balance due from Fusly 1256 to 1258 inclusive.

Tax on Cornaties who have Shops near the Choultry of Vennalacunty Soultrow

8- This Choultry is situated on the high northern Road between Ramapatam and Singareycondah. From a Memo of the late Sub Collector it appears that the Cornaties residing in the vicinity of the Choultry were originally induced to take up their residence there in consequence of the difficulty experienced by travellers in procuring supplies, that they are in indigent circumstances and he recommended therefore that they should be exempted from the tax Mr. Pringle a former Acting Sub Collector was of the same opinion as expressed in his Tologo Memo dated 13th October 1846 according to Mr. Smiths instructions, Mr Purvis the late Sub Collector excluded the tax assessed on the Cornaties from the demand from Fusly 1259 Under this explanation I trust that the above arrangement will meet with the approbation of the Board and beg to

to recommend that the balance of Rupees 3-12-. due by the parties be struck off the accounts.

Tax on Boatmen of Ravoor and Ramapatam

9. From a reference to the Records and a Memo of the late Sub Collector it appears that these parties up to Fusly 1212 paid Rupees 98-11-2 annually. From Fusly 1213 to Fusly 1228 they paid Rupees 40-15-1 in the latter Fusly Mr. Fraser the then Collector in consideration of their supplying fish to Regiments on the march and to Travellers exempted them from the tax. In Fusly 1240 the sums of Rupees 14 and 28 were assessed, the former on the Ravoor and the latter on the Ramapatam boatmen since which time the amount has been annually included in the demand but the collection has been suspended pending the final orders of the Board. Persons following the same pursuit in other Villages along the coast pay the tax and these parties do not furnish fish without payment and their income

from

from the exportation of firewood from the Port of Ramnapatam has considerably increased. In accordance with an opinion expressed by the late Collector Mr. Smith to fix an equitable sum to be paid by them, Mr Purvis after due enquiry and with reference to the amount paid by others under similar circumstances in other parts of the District, conceded the sum of Rupees 12 assessed on them in Fusly 1240 to be a fair amount and collected the same for Fusslies 1259 and 1260 carrying the same to the credit of Sundry small Farms and Licences but as it would be a hardship now to enforce the demand for fusslies prior to 1259. I beg to recommend that the arrears due by them may be written off.

Tax on Looms of Paria Weavers at Ramnapatam

10 These parties perform the Vetty duties of Ramnapatam and on that ground claim to be allowed to work as many looms as they please tax free. The Village being

being situated in the high road, their duties are onerous and owing to the small extent of land under cultivation the fees in grain payable by the cultivating ryots are trifling. They have a maniem of a quarter of a Gorstoo but it is often unproductive in consequence of the season. In accordance with the opinion of the late Collector Mr. Smith, and in reference to a like indulgence granted in many Villages to servants of a similar class Mr Purvis allowed three individuals to have 5 Looms free of tax and 5 more were assessed at the rate of 1 Rupee each per annum. The tax from Fusly 1259 was regulated accordingly and he recommended that the balance outstanding against them should be permitted. Sanction is therefore requested for writing off this amount.

Loss on the trade of Treasurimantoo

11 The balance outstanding against the individuals of this class is as follows Viz.

Rate

	Rate per year	Balance outstanding from Fusly 1250 to 1258 inclusive
Cottapatam	17 14 .	53 10 .
Panderty	3 . .	9 . .
Ramiapatam	2 . .	6 . .
	22 14 .	68 10 .

16. The late Sub Collector reported that of the individuals assessed with the Tax amounting to Rupees 17-14-- at Cottapatam, there was in Fusly 1259 only one individual assessed with an annual payment of 6 annas capable of paying, that the other persons of this class had left Cottapatam some time ago and were resident at Madras; that the balance due by these parties up to Fusly 1258 had been classed as irrecoverable and that no assessment save the 6 annas above noted had been imposed for Fusly 1259. He also stated that the party on whom the amount

of 3 Rupees was assessed at Panderty having been reduced to poverty and absconded; the balance due for former years was irrecoverable, and that no tax had therefore been imposed for Fusly 1259. The individual on whom the amount of 2 Rupees pr annum was assessed at Ramiapatam being able to pay it he has done so for Fusles 1259 and 1260, but as it will not be practicable to collect the arrears of former years the sanction is requested for writing off Rupees 6 viz.

The Revenue from sales of

Salt is entered at Rs 1,60732 and the sales for Inland

Consumption at 2,36,400 Rupees being Rs 40,164 less

than the Collections under the same head in Fusly 1259.

2. This decrease is attributed to the

resort of some traders to the Guntoor pans in

which there is stated to be a large Increase

and to the return of others to the Cotaurs they

usually frequented in North Arcot. The decrease

is also partly ascribed to the increased Consumption

tion of Earth salt in the ceded Districts.

3 The Inland sales would appear to

have fallen off for some years and the

Consumption of Earth Salt as remarked in

the Board's Proceedings on Fusly 1268 is usually

increased during an unfavorable season.

In Vendloor 20 In Goorroonareddy polliem 12 In Reyumpaud

Extent not known

This village is situated in the Venkatagherry Zemindary-

Sir,

I have the honor to report on the Petition No. 814 of 1850 from one Iyanarooshettee claiming the continuance of certain Maniems

2 It appears that during the Mahomedan Government one Vanilla Vengumshettee acquired Maniems in the three Villages noted in the margin on account of the Poorsheturno service besides a Bhatanartee

Batamurtee or subsistence Enam in Ramacrishna-poorum Aggraharam - After his death his four sons A B C and D (vide annexed genealogical Tree) divided the Maniems in the manner indicated in the margin apparently long before the Company's assumption and lived apart. The Enam in Vendloor is to this day in the enjoyment of A's descendants that in Goorroonareddy pollicm was held last by B's son who having died without issue one half of it has been taken possession of by A's family and the other moiety by Petitioner. The 12 Gortoos of Poorsheturno Enam and 13 of Bhatamurtty Maniems inherited jointly by C and D are those to which Petitioners Complaint refers - They appear in the Enam Registers of Fusly 1212 the former in the name of Petitioners and Venkamah and the latter in that of Petitioner alone, notwithstanding which they have been enjoyed in equal shares of 12½ Gortoos each. L died in 1826 and left her portion to her daughters son Venkumshettee. This person enjoyed it till 1834 in which year he died and soon afterwards the right to the lapsed share was disputed both by Petitioner and by two half brothers of the deceased holder - The parties appear then to have been referred to the Civil Court by the late O.&P.

× A got the Maniems in Vendloor
B Do. 20 G. in Goorroonareddy pollicm
C & D 12 G. of Poorsheturno = Returns Maniems in Mynumpaud
C & D 13 G. of Bhatamurtee in Ramacrishnapoorum equal shares of 12½ G. each.

late Principal Collector Mr. Stonehouse but the case has since remained undecided and the claimants on both sides now re-assert their right.

3 It appears that the two half brothers (O & P) of the late incumbent have no title to the lapsed share - The Bhaturuty Inamium appearing in the accounts solely in the name of Petitioner, the other party would seem to have been participating in it merely by sufferance and now that the half share has lapsed, it appears to me that it should revert to Petitioner the registered grantee still living - The moiety (6 Gortoos) of the Poorakeitum Inamium however should I think be resumed and incorporated with the dry lands in as much as there are already 6 Gortoos of Inamiums for that office in Mynumpaud in the possession of Petitioner and he has besides the enjoyment of a further extent of 10 Gortoos for similar service in Goorooparedy pollam

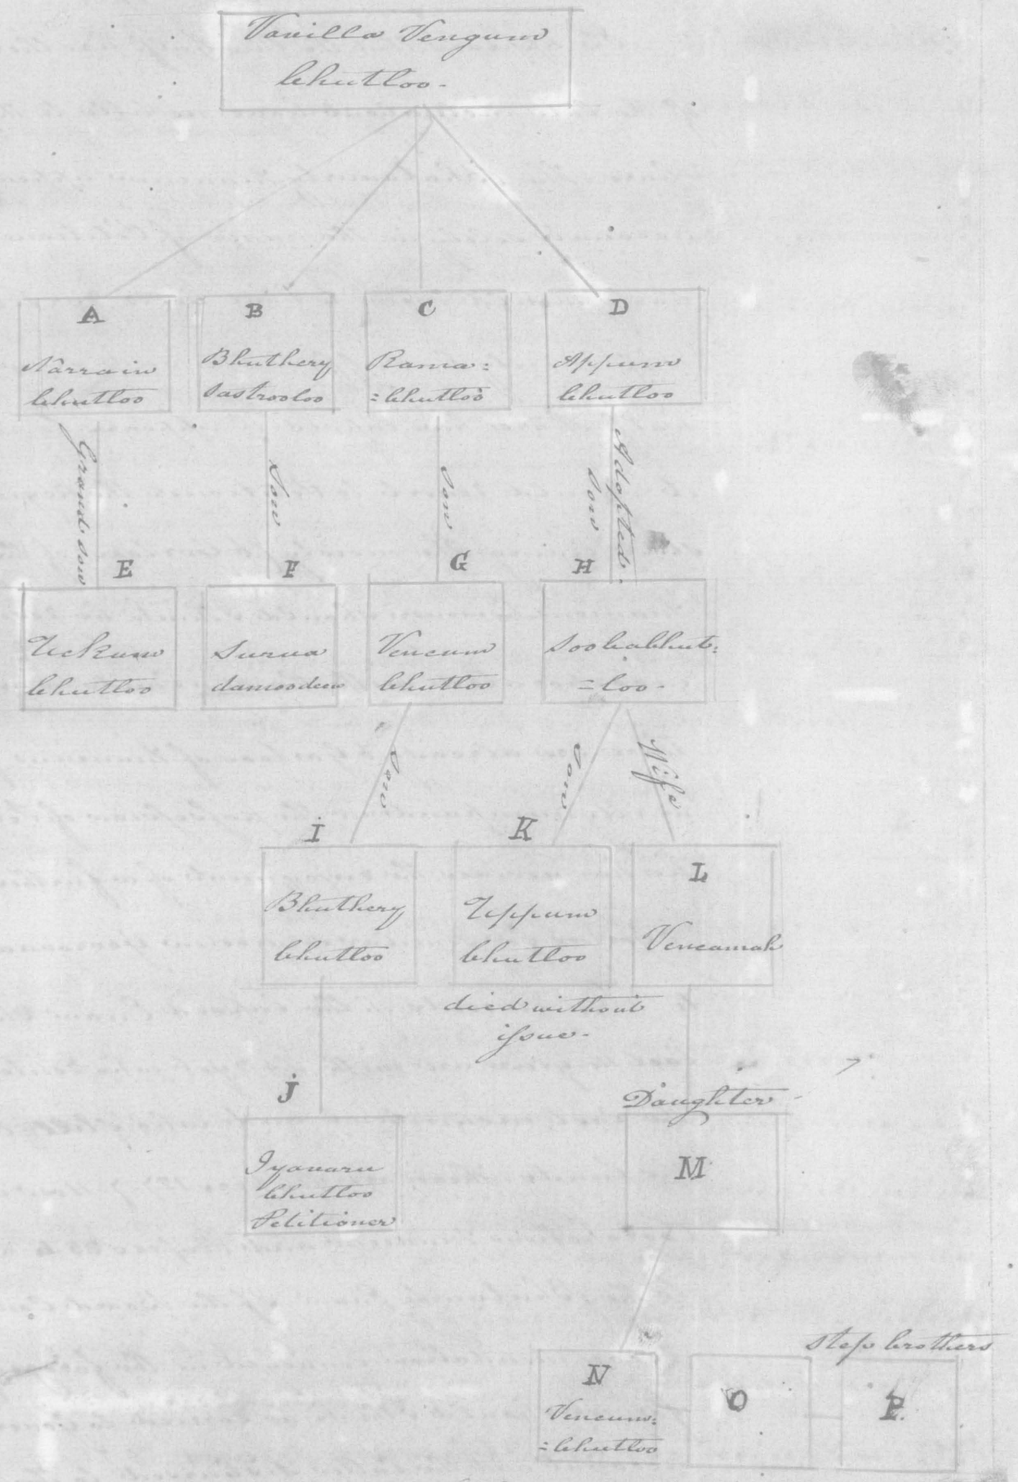

4 The proceeds of the lapsed Enam shares for the last 6 1/2 years are with the right to be rented them from the last incumbent and who still cultivates the lands - There are Rupees 127-7-11 now accumulated Poorakeitum Inamium and Rupees 35-4-11 appertaining to the Bhaturuty Enam - If the Board concur in the recommendation conveyed in the foregoing para the former should, I think, be carried to Government's account and the latter disbursed to the Petitioner.

To The Collector of Nellore

With reference to your letter under date 1st November 1851 reporting on the case of Petitioner in Rs. 844/1850 the Board are of opinion that the 6½ Goortoos of Bhutmurty Enam Bungh entered in the Enam Register of Jimsly 1212 in the name of Petitioners naner having been enjoyed by him but having been possessed by Venemmah and her Graindaon both deceased lapsed to Government on the deaths of these individuals but that their share in the Poorohit Enams which is a service grant should now devolve upon Petitioner. You will therefore credit accordingly the proceeds of these Enams in deposit -

2 The Board regret that your reply to this Petition and also to Rs. 214/1850 had been so long delayed and request a more speedy disposal in future of references made to you -

The Honble the Court of Directors of the United Company of Merchants of England trading to the East Indies.

1. The Charges of Collection on the Sea Customs within this Small Mean of Presidency are hereto fore very large being this year 32 per Rupees or 53-4-" per Cent, Evening only for Revenue, 2,8 per Rupees, and Receive no Profit of the Revenue increasing, but on the contrary cost forward to it's diminishing further. For as noticed in my last to short goods to avoid the duty take a route which evades our Chowkeys. Illegally ascertained this by observing and taking an account of Merchandize passing a single village that Bordering the Southern Mahratta Country at a distance only 8 Miles beyond the extreme Chowkee Ramnahvaguit from this to the Nizam's Dominions and this having into the Company's Country belonging to the Bombay Presidency they evading this short Circuit the duty which would otherwise have been levied here and the goods for the most part would then keep into the Nizam's Country so ascertain with some degree of accuracy what quantity of goods by this means evaded the frontier duty Actioned a Monthly for one Month to take an account of the Sea Customs Receipts during the Ferry at Cossimbuzar above Noticed and the Annexed is an Abstract of the account he Receive for 30 days from 5th March to 4th April last.-

Consequence

The

The Board will observe that within the space of one Month goods to the Value of Rupees 12,726 passed this single station and escaped payment of duty leviable to the amount of 4,177 Rupees I do not therefore think that with this facility of escaping the duty the frontier Revenue is likely to improve. But I am aware that the entire abolition of the chowkies is under the consideration of the Home Government.

5- Independent of the Military Ab Karry Farm in the Bellary Military Cantonment the Settlement on the whole District for the Fusly under report amounts to Rupees 3,08,965 which is below last year by Rupees 6,570. The settlement of Ab Karry was made as usual by giving the Farm to the highest Bidders and the cause of Decrease in the offers was fully explained in my letter to the Board of Revenue dated 13th June 1850.

8. The Veesabady Estimate for each of the 5 years from Fusly 1260 to 1264 as sanctioned by Government is Rupees 111,000, the actual Settlement for Fusly 1260 amounts to Rupees 110,213 which is short of the Estimate by Rupees 787. The cause of this is attributable to death, emigration and poverty, ascertained during the Settlement.-

+ Vide Minutes of Consultation under date the 3d December 850.-

The Maximum of the Veesabady Tax per individual is——— 291-10-8

The Minimum——— " - 11-8.

The average is Rupees 11-3-0 per each Merchant. It is believed this tax falls heavier on the Merchants of the Ceded Districts than similar Assessments on those in other Districts.-

9. The Baghyr Veesabady Settlement for Fusly 1260 was conducted in accordance with the Board's Circular Orders of the

the 15th March 1849 in the Hoozoor Principal and Sub Collector's Cutcheries during the Summabundy, and in compliance with the instructions contained in Para 8 of the Board's Proceedings under date the 17th February, passed on my last year's Report, the details of the Moturpha shall receive as far as practicable the personal attention of the European authorities.-

The item of increase Rupees 5883 is solely attributed to the whole amount of account Gualiar being regularly brought to account which was not the case under the Management of the late Darogah.-

The reason why the rate of 13.

Commission on the sale of Stamps is not being disbursed within the Court is in consequence of the Commission stated at Rupees 4-7-" instead of 5%

duly for a short period. It will be proper here to remind the Board that the question of remunerating the Vendors by Commission or fixed Salaries was referred to the Judges by us not yet settled. The Judges has been called before the Board in my letter of 21st June and 29th July last, at present they are remunerated by a per Centage on the Collections by them.-

Bd. No. 2712.

Sir,

Shows the Collector of Bellary - - - - - Forwarding Copy of a letter from Dr. Eyre who in consequence of there being no local Superintendent of Vaccination has been temporarily put in charge of that Department requesting that he may be confirmed in the same and remunerated for the Extra duties that thus devolved upon.

I have the honor to enclose copy of a letter to my address from Surgeon Eyre Garrison Surgeon of Bellary which I request may be laid before the Board, whose orders on the subject referred to I hope to be favored with.

It will be seen that in consequence of the removal of Assistant Surgeon Rogers from this Collectorate there was no Medical Officer to undertake the duties of the Vaccination Department which has been hitherto superintended by the Medical Officer attached to the Collectorate. But this appointment has lately been done away with, and it was necessary that some Medical officer at Bellary should undertake the duties of superintending the Vaccination Department and Dr. Eyre was directed by the Superintending Surgeon Dr. Scott to perform this duty.

See Memorandum dated 16th June 1851.

The Extra duties required of Dr. Eyre if properly performed (and I am happy in hearing testimony to that Gentleman's assertions since

since he has taken charge of the Department) are by no means light - the Collector cannot with his innumerable other duties give that attention to the Department of Vaccination which it requires and I therefore request that Dr. Eyre may be confirmed in the office of Local Superintendent of Vaccination, and I beg also to support his reasonable request that he may receive some remuneration for his Extra duties - He has pointed out Trichinopoly where the Garrison Surgeon receives allowances larger than his own by 35 Rupees for duties similar to his own with the additional duty of Superintendent of Vaccination, and for this additional duty now to be performed by Dr. Eyre it might be proper to allow that Gentleman also 35 Rupees per month -

I would not propose that the allowance should always be given to the Garrison Surgeon but to such Medical Officer in the Station as might under all circumstances be thought most competent to perform the duties with efficiency and who should be selected by the Superintending Surgeon or the Collector as

under the sanction of Government -

To H. Pelly Esqre
Collector of Bellary

Sir,

I have the honor to state that on the removal of Assistant Surgeon C. Rogers from Medical Charge of the Collectorate and Local Superintendence of Vaccination, I was called on to perform these duties I have discharged them up to this time If it be the intention of Government that I should continue to do so may I beg that you will take the necessary steps to have the appointment confirmed and at the same time submit with due respect my claim to some remuneration for the extra duty imposed upon me as Superintendent of Vaccination a very important one -

The Garrison Surgeon at Trichinopoly draws 100 Rupees per Mensem under the head of Ziccah allowance which includes attendance on the Jail Superintendent of Vaccination and the Medical duties of the Southern

Sir,

In reply to your letter
of

of 29th September Conveying the instructions of the Board to report whether an experiment of introducing Half bred Merino Sheep for improving the breed would be allowed with success I have the honor to state that I think the experiment might prove successful I would not however express any decided opinion on the Subject.

It is calculated that in this District there are 6½ lacs of Sheep 100 Rams and 400 Ewes would not be too many to distribute over the District should the measure prove successful but 20 Rams and 100 Ewes is all I would recommend at first being sent so as not to incur too large an expence should they fail.

To W. H. Bayley Esqre

Bd No 2841.

From the Collector of Cuddapah - Reporting upon

Sir,

Para 1

Fort St. George

I have the honor to report upon

upon the State of the Public Records of this District -

upon the state of the public records in this province -

2 When Cuddapah and Bellary were united under Colonel Munro's Collectorate the ceded Districts comprised thirty seven Talooks and when the two provinces were separated in July 1817 thirteen Talooks were allotted to Cuddapah, which in the following year were increased to seventeen - The Sub Collector's establishment at Cumbum was made the Collectors establishment at Cuddapah, and the records were brought from the former to the latter place, some Goomastahs being sent also to Anuntapoor to select and bring away such of the records as belonged to this District.

English records.

The separation of the two districts was never however as far as the records are concerned completely effected, and although some papers have from time to time been received from Bellary some have never been received, and their absence cannot be accounted for - The english records from 1801 to 1807 are incomplete, and no more satisfactory cause is assigned than the probability that Colonel Munro did not always place the Correspondence on the record of the division to

division to which it belonged but on that of the division in which he was at the time he received it. It is also asserted in the office that there being no record Keeper during Mr. Casamajor's Collectorate he was in the habit of taking to his residence such Correspondence Books as he required for reference, that some were never returned, that from some many letters were taken and from others letters were torn out, and being returned loose were afterwards mislaid or lost.

3 The English record Keepers was 1st first appointed in 1840 when for the first time an examination of the records was held. It was then found that the books containing letters from other Collectors from 1805 to 1807 were wanting that no Copies of Correspondence with the Board of Revenue from 1807 to 1809 were to be found or any of the miscellaneous Correspondence from the 24th of October 1826 to December 1827 nor from the 11th of May 1828 to the 3d of January 1831. The whole of the Correspondence with the Military Department for the year 1823 was also found to be wanting as well as Copies of all accounts sent to the accountant General for Fasulies 1218-19-21-22. and 23

The

4 The letters from the Board have since the appointment of the present record Keeper in 1846 been indexed from 1801 to 1820 and the work is still proceeding its progress is however slow in Consequence of there being no one to attend to it but the record Keeper, whose attention is continually distracted to look for papers required for the business of the office.

5 The following is a Statement of the present Contents of the English record room.

The

Huzzoor Cutcherry

6 The native record room adjoins the Treasury and was formerly the Sheristadars Cutcherry it was appropriated to the Records when the present Court house was built, and the Cutchery was moved into the building until then occupied by the Judge. The records are kept in duftars on wooden Shelves, and at Co present the following is the number of duftars in each department –

	Number of duftars.
Hoozoor Cutcherry	10823
Treasury	1073
Muramut	378
Moonshies	1448
Pymash accounts recopied	72
Magistrate	1102
Sayer	2540
	17036.

7 A Mootsuddee on 35 Rupees a month was entertained from the Commencement of the British Rule, to have Charge of the Records and in 1836 at the Collectors recommendation the Situation was divided into two, on Salaries of Rupees 20 and 15 respectively. the former Salary was subsequently raised to 30 Rupees and at present Co there is one native Record Co Keeper

keeper on 30 Rupees one Gomastah on 15 Rupees and another Gomastah drawing pay as a Daloyet on 7 Rupees.

8 In 1848 the Collector applied to the Board for permission to sell a large quantity of useless records such as old Sayer accounts and Coollamary rajeenamahs, and from the proceeds to entertain an establishment of Six Goomastahs for one year to assist in the arrangement of the records but the Board preferred that the value of the old paper should be credited to Government and that the establishment should be sanctioned and paid in the ordinary way about 1000 Maunds of useless records it was calculated might be disposed of and 500 Maunds were actually made over to the Jail to be reconverted into paper, which has been in Consequence supplied to the Office at half the usual price.

9 The additional establishment was employed for one year from January 1850 and in that time arranged Talookwar and Finly upwards 4492 duftars Connected with the Sheristadars, the Treasury, the Muramut the Moonshies, and the Magistrate Departments, and regular lists of the Contents of each duftar were prepared. There still remain upwards of

of good dufters which it is very desirable should be similarly arranged and classed.

Sub Collectors Office. 10 The present sub Division was first formed in 1833 but no record Keeper was attached to the office the native records have been kept in dufters without arrangement or classification and many are represented as in great measure destroyed by white ants and Worms.

Talook records. 11 There is not a single Talook Cutcherry in Cuddapah built with Chunam and the roofs of all of them are terraced with mud the records are kept in the Cutcherry in all the Talooks exceepting Jummulmudgoo and Muddenpully where a separate room is appropriated to them.

12 The records are all tied up in dufters which are placed in bamboo baskets covered with leather, and are generally so very bulky that it is with a difficulty that space is found to contain them without the occupation of more room than is consistent with the Convenience of the establishment - With the exception of those

those in the Talooks of Muddenpully and Doonoor the records are represented as in a very Confused state much injured by wet falling through the mud roofs of the Cutcherries and more by white ants with which mud building always abound - The Sadermaad allowed to Tahsildars is insufficient to admit of their keeping the record Baskets and dufter Cloths in repair, and the time of the very few Talooks servants is so constantly occupied in the Current business that they can afford no time to the arrangement of the records a duty for which there is no one specially appointed.

13 The Tahsildars of the Talooks named below have reported that the following quantities of old records are quite useless and may with advantage be destroyed.

	Maunds.
Cumbum	37
Doopaud	25½
Budvail	57½
Jummulmudgoo	40
Doonoor	76
Koilcoontla	115

Sidhout	46
Cheenoor	50
Canalapoor	115
Goorrumcondah	77
Muddenpully	30
Poolemendlah	43
Royachoty	28
Total	1037 3/4

and these are supposed to include all the old Sayer Records and such Papers Connected with other Departments as have become useless from damp, or the inroads of white ants.

14 When an extra establishment was employed in the Ceded Districts for the purpose of Recopying the Tymauk and Tarmary accounts, it was discontinued in Cuddapah on the Completion of the work but in Bellary it was I believe retained for some time and employed in arranging the Records. Public business is certainly very much delayed in Cuddapah from

from the time that is necessary to trace in the present Confused Records, the papers which are immediately wanted. To put the records into proper order would require in the Collectors Cutcherry alone an establishment of 10 Goomastahs for not less than two years for the Sub Collectors Office two Goomastahs for the same period, and the appointment of a permanent Record Keeper, an assistant to the English record Keeper is also very greatly needed for the preparation of an index to the Records it is not necessary to point out to the Board how much valuable time would be saved if every letter required for reference could at once be found from an index, without the necessity at present

Bds No. 2481.

From the Collector of Shinglepute

Requests instructions from the Board of Revenue in regard to the disposal of the complaint made by the Civil Engineer Northern Division on the subject of the non admission of his Christian Writers into Choultrums.

Sir,

Para 1. I have the honor to lay before the Board Copies of a letter addressed to me by the Civil Engineer of the 4th Division and its enclosure complaining of the non admission of his Native Christian Writers into the Choultrums constructed for the accommodation of Travellers and for which Endowments of land have been granted by Government.

2. As it appears to be the first complaint of the kind that has been brought to the notice of the local authorities, I feel some hesitation in disposing of the matter without the instructions from the Board of Revenue.

3. The earliest order from the Board requiring Founders of Choultries to provide accommodation for all Classes of the Native community without exception is dated the 25th May 1848. As this order is not I imagine intended

intended to have a restroxpective effect, there is evidently no means of enforcing the admission into the Choultries built prior to the above date of either Native Christians or any class of people other than those for whose accommodation the Choultries were originally erected.-

4. In regard to the Choultries constructed subsequent to the above order, I beg to observe that it has hitherto been considered that the intent of that order was sufficiently met, if the Choultries afforded separate accommodation for Bramins Sudras, or Caste people, Pariahs or non-Caste people inclusive of East Indians and Mooxulmen, the Native Christians as a body of people distinct from the rest do not appear to have attracted the notice of the Authorities.

5. It would appear highly offensive to the feelings of the Hindoos to admit Native Christians in the same part of the building which is intended for their accommodation as such as

Converts

Converts to Christianity are considered by them to have lost their Caste, and as the founders of the Choultries are mostly Hindoos, it is proper their feelings should be respected.- I am informed that Natives even after becoming Christians preserve their feelings of Caste prejudices amongst themselves to such extent as renders them unwilling to associate with Pariahs, and avail themselves of the accommodation provided for that class.- They therefore have hitherto been driven to the necessity of taking shelter on the Street Pyals of the Choultries.-

6. Under the above circumstances I am induced to solicit the instructions of the Board as to the expendiency of issuing Circular instructions requiring Individuals who propose to found Choultries in the expectation of obtaining Grants of land from Government, to provide separate accommodation to Native Christians, as

well

well as to the other Classes of the Native Community, and likewise of requiring those who have already constructed Choultries since the 25th. May 1848, and obtained Endowments from Government, to do the same-

Sir,

Having had a good deal of trouble at various times from the difficulties made by the Brahmins at Chuttrums to the admittance of my department Writers to those portions of the Chuttrums set apart for Sudras on the plea of their being Christians, I have the honor to request that the Board of Revenue will be pleased to issue such Circular order upon the subject as they may see fit to prevent this constant petty persecution of a respectable Class of Public servants whose fault in the Eyes of these Brahmins is that they are Christians, as their being Christians does not appear to me to invalidate their right to such accommodation as the Government have thought fit by Grants of lands to provide

Proceedings thereon - 1. The Board observe that it has been already ruled by Government, that all Choultries erected by private individuals to which endowments have been or may be granted by the State, should provide accommodation for all classes of the community.-

Observing that all Choultries to which Endowments have been or may be granted by the State, should provide accommodation to all classes, and that Endowments obtained professing to be for Chuttrums affording accommodation to all classes, but in point of fact intended for Hindoos only, are resumable under the Orders of 25th May 1848.

2. The principle of the foregoing orders being for the general interests and convenience of the people, the Board hope that the Collector will endeavour, by conciliatory means, to give it further extension as far as practicable.

3. The Circular proposed by Mr. Cochrane is not necessary, it will suffice if, when applications are made for Endowments, the condition upon which

which the Government will alone comply with them, be intimated to the parties concerned.-

4. The orders of 25th May 1848 are however clear and positive on this subject and all Endowments obtained since that date professing to be for Chuttrums affording accommodation to all classes of the community, but in point of fact intended for Hindoos only, are liable to resumption, unless accommodation for all other classes be provided within a reasonable time-

Para 1. I have the honor to report the following circumstances connected with the Shrotriem Village of Nulloor in the Nayer Taluck paying an annual

Shrotriem of Village of Nullore may be attached and incorporated with the Government lands.

Annual Peishcush to Government of Rupees 78-8-2, half share of which is I conceive at present held on invalid title, while it should have escheated to Government on the demise of the Party late in possession-

2. An anonymous Petition having been received on the 25th March 1850, stating that one Ramasawmy Raz had on the demise of Lutchme Vencummah his Aunt, assumed irregular possession of the 1/2 share which had reverted to her on the death of Basavaraz, her late husband, a separation of Family Interest having taken place, the matter was referred to the Tahsildar for enquiry, and from the Reports it appears that the said Lutchme Vencummah died in March 1849 while on a pilgrimage to Ramaswerum, and that her Nephew the said Ramasawmy Raz has since been in the enjoyment of her share of the Shrotriem by virtue of two documents dated

dated 11th April 1827 and 13th June 1847, alleged to have been executed by the deceased in favor of Veeraragava Raz his Father, and of himself, transferring her share after her demise to this Branch of the Family-

3. On referring to Mr. Maclean's report to the Board of Revenue dated 3d November 1835 affording detailed information connected with this Shrotriem, it appears+ that Basavaraz the husband of Lutchme Vencummah though younger Brother to the present Incumbents Father was adopted by the Uncle of the latter the elder branch of the Family, and that the Shrotriem in question was in 1814 registered in the name of the said Basavaraz and further that+ on a dispute then arising between Basavaraz and his two Brothers Veeraraghavaraz, and Vencatapatyraz, for a division of their Property, Veeraragava Raz was put in possession of 1/4 share of the Shrotriem at the instance of his

his Suit, by a decree of the Court in case O.S. No. 45 of 1819. It is evident therefore that on the division of Property 1/2 share of the Shrotriem fell to Basavaraz as the adopted son of Adevy Vencatapaty Raz, and 1/4 share to each of the Brothers as the sons also of Adevy Vencatapaty Raz's younger Brother named also Basavaraz, the division having been effected in reference to these two Branches of the original Grantee.

Para 4.

4. It will be perceived likewise that Vencatapaty's share of 1/4 was obtained in posession of by his Elder Brother Veerarayavaraz Raz, the Father of the present Incumbent and that under any circumstances Veerarayavaraz was not entitled to more than 1/2 share admitting that the transfer of his younger Brother's share of 1/4 was not irregular, a point in which however I entertain doubts.-

Paras 6 and 9.

5. On the demise of Basavaraz in 1824 without issue, the Shrotriem is shewn to have been entered according to agreement among

among themselves in the names of his Widow Lutchme Vencummah and Veerarayavaraz, and on the demise of the latter on the 15th September 1834. it was registered in the name of the said Lutchme Vencummah, and the 4 Sons+ of the late Veerarayavaraz Raz.-

Lutchmy Raz.-

Vencatapaty Raz.-

6. Under the above circumstances in reference to the division of Family Property, and in consideration of Grants of this nature not being transferable by Sale, gift or otherwise, I would beg to recommend that Lutchme Vencummah's share of 1/2 be attached and incorporated with the Government lands. Adverting to the opinion already expressed in respect to the irregular transfer of the 1/4 share of Vencatapaty Raz in the name of Veerarayavaraz the late Father of the present Incumbent, I request to be favored with the Board's Instructions in the matter as to the propriety either of allowing him to retain posession during his natural life in consideration of the long period of his enjoyment or of

attaching the same at once. I may add that we all endeavour to obtain from the present Incumbent Ramasawmy Raz a perusal of the Purwanah and other Documents under which he lays claim to possession have proved unsuccessful, from which circumstance it is to be inferred that the Property has been mortgaged.-

No. 137

To, W. H. Bayley Esqre.
Secretary to the Board of Revenue,
Fort St. George -

Sir,

I Adverting to your Board's proceedings dated 1st September last, authorizing the sale at Daramporry on the 27th ultimo of certain Mootahs brought under attachment for arrears of Jaishenoh, I have the honor to report that of the sixteen (16) Mootahs entered in the advertisement which accompanied my Communication of the previous 26th August, ten (10) were redeemed prior to the date fixed for their sale.

2 The proprietors of three of the six other Estates on which the arrears had not been liquidated up to the 27th ultimo, discharged their liabilities in full when the proceedings of the day were about to Commence. There thus remained three Mootahs against which it became my duty to enforce the penalty of Sale prescribed

prescribed by Regulation XXVIII of 1802. Their particulars and the names of the parties who became their purchasers are entered in the under written Statement-

Prov 26th Sept. 1849
C&R 11th Oct. 1821

3. Referring to the orders of your Board and the Government in regard to the purchase of Mootahs on account of the State, I felt myself justified in bidding for the Pennagram estate to the extent of Rupees 8,170-- -- at which sum it was Knocked down- The previous bid was of Rupees 8,160 -- -- and had been made by the Mootahdar of Coonarammangalum in

in the Talook of Darampoory in which also Pennagrum is situated-

4. The average Baizy of the Pennagrum Mootah for the last three years has been in excess of its permanent paishcush by Rupees 1106 and it is understood that the

*Rupees 1,255 *demand for the last fusly 1260 is somewhat higher than that sum- The area of the Estate comprises much land of good quality which is now uncultivated and there seems reason for belief that the full Remunerative powers of the Mootah have not been properly ascertained by the late proprietor Venkatraw Chitty, owing to his having undertaken an important Contract under the Commissariat Officer in Charge of the Pennant Depôt at Muddukary in the Coimbatore Talook, by which he has been prevented from personally attending to the affairs of his Mootah, which, in Consequence, fell into the hands and management of a Goomashta- The latter as I understand was unable to neutra=lize or effectually counteract the local influence

influence of a Resident Mahomedan Mootah-
dar who had been Venkatrama Chetty's
predecessor in possession of the Estate,
which under these Circumstances the Chetty
Resolved to Relinquish even at a small
loss, as the sum at which he bought the
Mootah in 1845 was Rupees 11,100-0-0

6 Should your Board approve the
Step taken, I request you will be pleased
to obtain the sanction of Government for
disbursing to the late proprietor, the
Amount of purchase money from which
will be deducted the arrear of Peishcush
due; Viz. Rupees 1,879-0-7.

Rupees 9,170.

7 I also solicit authority to Cs.
make over to their respective purchasers
the two Mootahs marginally noted, and
pay to the Esc. Mootahdars such sums
as are surplus after deducting from the sale
proceeds of the Estates the amount of Peishcush
outstanding against them.

Comparative Jobs-

Bazoolully

7 In regard to the Bazoolully Cs.
Mootah, it seems proper I should mention
that objection is raised by the late Cs.
owner

owner to its sale, under the following Cir-
-cumstances. When at the hour fixed in
the advertisement, I had taken my seat
in an open Verandah with a wide pandal
attached at the Government Bungalow
at Darampoory, always used as a Cutcherry,
and a large crowd had assembled, neither
the late Bazoolully Mootahdar nor any

Sayd Areef
Colla Khan.

one representing him was present, and
my proceedings Commenced by disposing
of the three Mootahs first on the list of
Sale. The usual steps were then adopted
in respect of Bazoolully but even then
no one came forward on behalf of the
Mootahdar, and it was finally knocked
down to the individual named in the
foregoing Statement, not however, until
I had made on account of Government, with
much deliberation, so many as 17 bids, the
last of which was for Rupees. 10,500-0-0

8 I then went on with the 5th Cs.
Mootahs on the list, Pennagrum and
was receiving bids for it, when Sayed
Areef Colla Khan appeared, bringing
with

with him a portion only of the arrear due on Bazoohully. This he refused for acceptance on the plea that in the morning he had sent some one to tell the Head Serishtadar that he intended to pay up his arrear in full, and therefore that no steps should have been taken in respect of its sale.

9 The Head Serishtadar denied having received any message from the Moota[illegible]dar, and with perfect truth, for the Messenger was soon produced and admitted to me that he had come to the Cutcherry Bungalow some time before the sale began as ordered by his master, but hearing that the Head Serishtadar was seated inside with me, had gone away without more ado.

10 I most certainly should not have recognized any Communication consequent on such a message, which the Head Serishtadar might have permitted himself to make to me as a sufficient reason for delaying the sale of the Bazoohully Mootah for one minute, when its turn on the list had arrived, but

but none was made.

11 The Moottahdar was most urgent in his solicitations that the sale might be annulled and went to the extent of declaring that he had been cheated out of an estate worth 30,000 Rupees, counting the sums which since its purchase in 1845 he had expended in its improvement. I required him to show what had been unfair but could get for reply only that it was notorious he was prepared to discharge the arrear, and that his absence ought to have been considered. His absence he acknowledged, had been consequent on a late breakfast. I then pointed out to him that even admitting that his arrival should have been awaited, he had come now, but without the full amount of Jaishcush due. On this he stated that it was ready in hand and that it should be instantaneously produced. I gave him to understand most distinctly that the time had passed, that I was quite powerless, so far as the announcement of a sale thus

thus publicly and openly conducted was concerned, and would accept nothing from him. Notwithstanding this he went for the money said to be in Complete readiness, was away a rather long time, and returned with certain Coolies bearing several bags which he alleged contained every Rupee due. He earnestly begged I would allow them to be Counted so that by and bye he might not be twitted with having produced only a part of the arrear and passed it off as the whole. I declined to make myself acquainted with the Contents of the bags, least my so doing might be construed by him into an acknowledgment that I declined him to retain a right, which, so far as the Government, he had in my opinion entirely lost. He then earnestly requested I would lay his case before Govt. for

your Board with a recommendation that the sale should not be confirmed. I told him that I should submit a Statement of facts, and by the above narration I have acquitted myself of the promise.-

Dated 21st Oct. 1851.

12. Before the business of the day had begun, two individuals rose and presented an Extract from the proceedings of the subordinate Court of which I beg to forward a transcript, requesting I would accept from them the arrear against Bazoohully and comply with the requisition to which those proceedings had reference. I refused compliance, pointing out that if the judicial authorities at Salem had ought to order, it was competent to them to instruct me accordingly, but that I should not be justified in myself doing what would be tantamount to a recognization of their claim, of which I knew nothing especially when the duty before me was the mere realization of a revenue arrear. The persons in question were, I believe, the two Plaintiffs mentioned in the Sub: Judges proceedings. They did

did not propose to pay immediately
arrear due by the Bazoohally Mootah
or I should have felt bound to accept
payment from them, even in the absence of
the Mootahdar. The latter however, in
the course of his long and earnest remonstrance
against the sale of his Estate, alleged as
one cause of his not having appeared at
time was, his being confident that the
Plaintiffs above adverted to would
under any circumstances, liquidate the
arrear.- It is to be observed that the ac-
-tual purchaser of the Estate is Tiroovengada
Moodelly, the Plaintiff in O.S. 210 of 18

13- My own impression of
has occurred under the circumstances
above stated, is that Syed Areef Ou
Khan had not been able to rea
in Durampoory a loan sufficien
large to relieve the Mootah with
the time fixed for its sale, and
he has resorted to the line of argu
now represented solely to profit by a
case. He bought the Estate, I believe
with borrowed funds, has been in diff
-culties ever since; has mortgaged

one party a moiety, and to another party the
other moiety, and beyond doubt has allowed
persons to acquire an interest in the property
which interest is seriously injured by its transfer
to Tiroovengada Moodelly under the re-
-cent sale.-

14 The individual chiefly
interested in its retention by Syed Areef
Oolla Khan, are certain near relatives of
Goolam Ally Meerim, the old and much
respected District Moonsiff of Kistna-
-ghurry, who, I apprehend advanced in
his relatives names, the money with which
the Mootah was bought by Syed Areef
Oolla Khan his son-in-law.-

15 It will not become me
to offer an opinion whether the facts now
stated are such as will justify your Board
in declining to ratify the sale of Bazoohally
to Tiroovengada Moodelly.- I feel however,
bound to submit that if Syed Areef Oolla
Khan escapes the loss of his Estate, I am
satisfied the risk he has incurred will
have an excellent effect in warning future
defaulters that they should not defer
payment

payment of the Government does until the eleventh hour of the period allowed them for their final liquidation, and I must confess I shall with pleasure learn that I am at liberty to call on Syed Areef Dolla Khan now to make good his engagement.-

3 The Increase of Rupees 33,119 . 3 in the Sales for Home consumption is attributed by the Collector to three causes 1st the discountenance given to the illicit manufacture and sale of Earth Salt 2d the encouragement to retail purchasers afforded by the reductions in the minimum quantity of sale from 40 to 5 Measels and 3d the greater attention bestowed in the preparation of permits, being a partial check to the practice of Traders obtaining permits on Salt ostensibly for Inland consumption but in reality for sale in the surrounding Villages.—

the quantity supplied to the Coimbatore District which may be owing to the Coimbatore District having received a large portion of its supply from Tinnevelly on return bandies which had previously conveyed Cotton to Tutacorin.—

5 The Increase of Rupees 19,462 8 . in the supply to Foreign States occurred principally in the Mercanum pans where the firm and good qualities of the Salt cause them to be resorted to by Traders. The permits were taken out for Mysore, but the Collector suspects that much of the Salt conveyed under them was in reality intended for Salem and Coimbatore. The Collector states that the inland trade in Salt would be greatly promoted by placing the western road from the coast in good repair, it is stated to be in an unsatisfactory state and that the Civil Engineer has been requested to adopt measures for its improvement.—

7 There is a trifling decrease in the sales to the French Government of Rupees 46-1-6.

8 The results now reported appear to the Board to be very encouraging and that great credit is due to Mr. McDonell for his exertions in the Salt Department which has been placed under his immediate charge.

9 The increased sales of the year caused the stock in hand at the end of the Fasly to be low. subsequent manufacture which was greatly impeded by the storm in May and after rains, raised to amount available for the present Fasly to G. 7129-14-0 which it is feared will be short of the quantity required. For this reason the Collector proposes if practicable to provide the requisitions of the French Government from Tanjore, but the Board apprehend that a supply cannot be reckoned upon

with certainty from this District as from the latest accounts received the stock in hand on the 11th July was even lower than in South Arcot.

10 The Board are of opinion that the manufacture of Salt should be conducted on such a scale as to leave at all times a years supply in order to provide against unforeseen contingencies.

Sayer. 11 The Sayer consisting of the Frontier customs shews a Revenue of Rupees 2,678-8-10 chiefly in Exports of Piece Goods owing to the encouragement held out to Manufacturers of fine Cloth within the French limits where the Weavers are not taxed and in Exports of Grain in consequence of decline in prices. The falling off is also attributable to less Imports of Liquor and Spices, the usual fluctuations of Trade. In para 13 the Collector notices the inducement and facilities which exist to smuggling the products of the Company's Territories into Pondicherry for Shipment to the United Kingdom and the Colonies as well as to Foreign ports.

and states that he will bring the subject again before the Board if the means at his command are insufficient to protect the revenue.

Sea Customs 17 In the Sea Customs the increase of Rupees 6,377 6 5 is chiefly in consequence of larger Exports of Indigo and Oil to Europe, and it is satisfactory to observe an increase in the Exports of Sugar to the extent of 1704 Candies and of Rum to the extent of 19,394 Gallons and of there being indication of a more extended Manufacture of these commodities.

Abkarry 13 The Increase of Rupees 13,300 in Abkarry arises from enhanced offers for the Arrack and Toddy farms and the Small Farms Increase of Rupees 630 9 4 in Small Farms as attributed, in like manner, to better offers for the Ferry farms and for Rent of Jungle produce.

Stamps 14 In Stamps the Increase of Rupees 752 1 0 is ascribed to an extended operation of Act XVII of 1850 and the cause of the Increase of Motupha Rupees 990 8 1 in Motupha is chiefly a greater number of Looms established for weaving coarse cloths

Secretary to the
Board of Revenue,
Fort St. George.-

Dte No. 2467
From the Collr. of Trichinopoly
Submitting a Report on the excess of land said to be unlawfully included in the Zemindary of Torriore-

Sir,

Para 1 I have had the honor to receive your Communication of the 1st Ultimo giving cover to a Petition No. 1555 of 1851 addressed by that individual Kistnaengar, lately Native Record Keeper in the Collector's Office of this District to your Board, praying for speedy redress with reference to the subject of his previous numerous Petitions on the excess of land said to be held in possession by the Zemindar of Torriore over and above what he is entitled to according to the Grant made by the Sunnud-i-Milkiet-Istimrar, bearing date the 23d December 1817.-

2. In accordance with the requisition contained in your letter now under acknowledgment I shall endeavour to report to your Board the result of the Survey and Measurement that has been effected of the entire Zemindary and at the same time submit my sentiments in regard to the disposal of this troublesome and long pending case.-

3. I have perused with attention all the conflicting

conflicting opinions and Statements and correspondence that have passed heretofore in this matter together with the native reports submitted to my predecessors and I am free to confess that it is difficult with such papers to come to a right understanding of the actual matter at issue. But I trust that the present survey Measurement which has been undertaken agreeable to the orders conveyed by your Boards Proceedings dated 5th October 1848 and 16th August 1849 will place the subject for ever at rest.-

To Board 5th Nov.r 1849.-
From Do. 12th Do. Do.

4. Your Board are aware that Mr. Maltby solicited and obtained permission for the survey being undertaken and completed by other Officials than those of this District. Accordingly the Collector of Tanjore deputed two persons qualified for the duty named Dhoon Rao and Sobiah, and these individuals were associated in the work with Vencata Rao an old and experienced Tahsildar of the District and with these men a staff of eight Sirkar Curnums and 10 Peons was allotted. A Revenue Surveyor also from the Civil Engineer's Department was deputed.-

The work was commenced in March 1850 and was not brought to a final conclusion before January 1851.-

5. It does not seem to me either necessary or desirable to furnish in this case a number

of Accounts or Statements, I have therefore with my own hand prepared an abstract Statement which I trust will with due explanation afford your Board every information as regards the extent of each Village from the Pymash to the present survey.-

6. In this Statement I have taken four periods; The first in Fusly 1216/1805/6 when the Pymash was made; The second in Fusly 1225/1815/16 when Mr. Lushington made his report to the Board; The third in Fusly 1227/1816/17 when Mr. Lushington made over possession to the Zemindar; And lastly the present Survey in 1850.-

7. Before entering on the explanation of this Statement I must premise that from all I can gather and understand on the subject it is clear to my mind that Mr. Lushington made over the Zemindary not according to the Dowle account of Fusly 1225 but as the Villages were after the Settlement of 1226 in actual extent with all increase incorporated; and I think we may justly conclude that this knowledge of the actual excess tenure assigned must have been in Mr. Lushington's mind when he decided on taking no notice of his Naib Sherestadar Vencata Rao's report dated October 28th 1821 as already so pointedly brought to notice by Mr. Onslow in his letters of the 22nd August

August 1845 and 24th May 1849.

It is right however to apprize your Board that Mr. Lushington's Summud dated 28th December 1817 expressly says to be delivered over according to the Dowle of Fusly 1225.

8. I will now take the Statement that accompanies this letter and explain the causes of increase and decrease in each Village as it stands on the List.-

Keluckavady. This was the first Village on which the present Survey operations were commenced and it was found that the original boundaries and numbers of the fields as laid down according to the Pymash of 1216 could not well be recognized the features of the country being considerably changed by removal of Jungle and forest and the like. The Pymash places the area contents of the Village at 57 Cawnies 12½ Goolies, - while the Dowle accounts of 1225 and 1226 exhibit Cawnies 100 and 103. The present Survey at Cawnies 122, Goolies 66½. In explanation of the primary increase it will be sufficient to state that in the early periods of the British Rule more especially in dense Jungle tracts it was customary whether from convenience or otherwise to incorporate waste lands taken up on cultivation from whatsoever Village with the lands of the Village from whence the Cultivators came provided the

the Village boundaries were contiguous. Thus in this case the people of Keluckavady subsequent to Fusly 1216 and while under the Sirkar Management cultivated land in the Villages of Coonnooputty to the extent of Cawnies 46, Goolies 60 15/16, which was made over in the aggregate to the Zemindar. From the present survey it is shewn that the extent of land within the area was incorrectly laid down at Cawnies 46, Goolies 60 15/16 and should be Cawnies 65, Goolies 54, which Accounts for the present increase of Cawnies 18, Goolies 93/16.-

Sorriore. In this Village there is at present excess of land over that placed in the possession of the Zemindar of Cawnies 294 Goolies 41 14/16, and yet the Dowle of Fusly 1225 falls short of the original Pymash by Cawnies 612 Goolies 81 4/16.

This reduction, was brought about as I have already stated was the practice in the early days of our Rule, namely by an arbitrary transfer of land from one Village to another according as from whence the occupants for the new soil came. Of the 612 Cawnies 81 4/16 Goolies, Cs. 412 Goolies 81 4/16 were transferred to the Village of Govindapooram / now Istimrar / Cawnies 200 to Sooratheer / also Istimrar / The present survey shews an increase of Cawnies 294- 41 14/16 Goolies on the extent of land given in Fusly 1227.

1227 to the Zemindar. This excess however is not ob-
tained from encroachments on fresh land but by a
See Kemp's plan.- inaccuracy in former measurements. The Cushah
Torriore is situated in the midst of the Zemindary and
entirely surrounded by Istimrar Villages and therefore
all possibility of encroachment on Sir Kar land
Keelamboor- is precluded. Here is the cause of the whole enquiry
and misunderstanding. Cawnies 1100 are said to be
wrongfully possessed by the Zemindar to the loss of
Government. I have already explained what was the
Custom in former days on fresh lands taken up
for cultivation by other persons from neighbouring
Villages, and how an arbitrary transfer was made
of such lands to those Villages from whence the new
occupants came, and thus was it here. The extent
of land in Keerambooor according to the Pymash
is Cawnies 2240 Goolies 67 3/10. In Fusly 1225 the
† Cawnies 650- inhabitants of Keerambooor took up an
† extensive Jungle tract in the Puchamally
Hills appertaining to the Village of Poonachee
for Cultivation, and it was entered in the
Dowle of their Village accordingly. The same
thing occurred in the following year Fusly 1226
while still under Sir Kar Management and Cawnies
450 of Jungle was transferred from Poonachee.
Thus making an aggregate of Cawnies 1100 in

Mr

Mr. Lushington made over the whole Village as
it stood according to the Settlement of Fusly
1226 and it has remained ever since in the
hands of the Istemrar Proprietor & Possession
of thirty five years which I am of opinion
ought not to be lightly disturbed. The present
increase of Cawnies 7 24 Goolies 98 5/10 needs ex-
=planation. It is derived thus, Cawnies 53 Goolies
33 5/10 are excess by measurement found at this present
time within the original Area boundaries laid down
in the Pymash. The amount is large and startling
yet such occurrences are not new or without
precedent in all Survey and Pymash measurements
of the early days, more particularly in dense Jungle
regions as these were forty years ago, and your
Board must have frequently observed the careless
manner in which the Survey of the Country generally
was conducted. Not unfrequently in the Jungle
tracts have entries been made by mere guess. The re-
=maining Cawnies 193 Goolies 65 were taken some
years ago from the Istimrar Village of Maraveltoor
and made over to Keerumboor by reason of the
land having been occupied by the Keerambooor Ryots.-
Maraveltoor In this Village there is a deficit of Cawnies 400
C. G.
Pymash 3181-36 4/10 in Fusly 1225 Compared with the Pymash entry
1225-2781-37 4/10 caused by a transfer of Cawnies 200 to the Village
of Govindapooram (now Istimrar) and Cawnies 200
to

Vide Map

to the Sirkar Village of Runganathapooram. It appears by the present Survey that the Pymash area boundaries of Maravuttoor run down into the Sirkar Village of Runganathapooram, and the Measurements should be carried on into those limits.- But there is an excess of land now compared with the Dowle of 1226 amounting to Cawnies 299 Goolies 24 15/16 occasioned in part by the Maravuttoor ryots having encroached their cultivation to the extent of Cawnies 147- Goolies 94 15/16 into Poonachee Hill, in part by excess of measurement within the boundaries of the Village extent. The respective encroachment of the Sirkar and the Istimrar ryots may be sett-off one for the other and thus adjusted.-

Soorathoor

This Village did not exist at the Pymash of 1216 but was formed in Fusly 1223 by Mr. Travers who gave a Cowle for Cawnies 35 a Taking from Torriore Cawnies 200 and from Mootheampolliam /now Sirkar/ Cawnies 150 a further transfer by cultivation of Jungle was made in Fusly 1226 from Mootheampolliam to the extent of Cawnies 5 Goolies 23 7/16 making Cawnies 355 Goolies 23 7/16 but the present Measurement shews a deficiency of Cawnies 267 Goolies 49 13/16 This land it appears was taken possession of and entered in the accounts of the Government Village of Mootheampolliem some

some four years after the Estate came into the possession of the Zemindar and this matter has been frequently brought to notice by the Torriore Proprietor and claim urged for the land but without obtaining any redress.-

Mooroogoor

Here we have a defect in every way- The first decrease originated with the transfer of Cawnies 200 to give an Ayacut to the new Created Village of Govindapooram /now Istimrar/ in Fusly 1225- The second is in the present Measurement of Cawnies 24 Goolies 10/16 caused by Cawnies 14 Goolies 1 having been for years in the enjoyment of the Sirkar Village of Kallingamoodianpully in whose Pymash account it is entered as well as in that of Mooroogoor- a Double entry in fact- The remaining Cawnies 9 Goolies 99 10/16 were transferred many years ago to Torriore Cashab for what particular reason is not known.-

Seeroonuttem

The present Survey exhibits an increase of Cawnies 96 Goolies 30 7/16 This is occasioned by excess of Measurement found within the Pymash area boundaries- The original Pymash decrease in Fusly 1225 of Cawnies 100 was the transfer of that land to form the new Village of Runganathapooram.-

Mathoorapoory-

This Village has no Pymash being a recent creation. It was formed in Fusly

1219

1219 and 1224 to the extent of Cawnies 800.- By taking Cawnies 400 from the Village of Cartoowaycoothemputty in Fusly 1219 and in 1224 Cawnies 200 from Ammaputty and Cawnies 200 from Singalanthapooram.- The present Survey shews a decrease of Cawnies 305 Goolies 54 9/16. This is accounted for in the following Manner. Cawnies 62 Goolies 54 9/16 are errors in former Measurement, Cawnies 13 have been made over to the Istimrar Village of Ammaputty and Cawnies 305 Goolies 54 9/16 taken upon the report of the late Naib Sheristadar Venkata Rao in Fusly 1235 and made over to the Sirkar Village of Cartoo=waycoottumputty on the plea that the original boundaries of the land taken to form this Village of Mathoorapoory only contain Cawnies 170 and not Cawnies 400.-

Theelatampoor — In this Village the present Survey exhibits an increase of Cawnies 573 Goolies 75 1/16. This is reported to be excess by measurement now obtained within the Original Pymash boundaries That is to say the Amount of Cawnies laid down by the former survey was incorrect.-

Venkatashapooram — Here there is a Net deficiency of Cawnies 95.- Goolies 28 8/16.- This was caused in part by inaccuracy of measurement at the Pymash to an

an extent of Cawnies 81 Goolies 34 6/16.- In part by an arbitrary transfer of Cawnies 9 Goolies 74 7/16 to Torriore (Istimrar) Cawnies 4 Goolies 20 to the Istimrar Village of Mooroogoor.-

Govindapooram — This Village did not exist at the Pymash but was created in Fusly 1219 by land taken from Torriore to the extent of Cawnies 412 Goolies 81 4/16.- By land taken in Fusly 1225 from Maraveettoor Cawnies 200 and also from Mooroogoor Cawnies 200 making in all an Ayacut of Cawnies 812. The present Survey Measurement shews an excess of Cawnies 121 Goolies 55 9/16 which is attributable to careless Measuring at the first transfer or probably from no actual Measure=ment at all, the entry made on mere con=jecture.-

Singalanthapooram — Here we have a deficiency of land both at Fusly 1225 and also by the present Survey. The Original decrease after the Pymash of 1216 is caused by the transfer of Cawnies 200 to the Istimrar Village of Madoorapoory. The present deficiency is accounted for by errors in the Original Pymash and loss of Cawnies 465 Goolies 1 13/16 by over Measurement By the transfer of Cawnies 47.- Goolies 15 15/16 More to Madoorapoory as belonging to that Village.- By Cawnies 17 Goolies 68 10/16 encroached upon some years ago by the inhabitants to

inhabitants of the Sirkar Village of Cannanore- Also by a double and erronious entry of Cawnies 109 Goolies 95 13/16 in this and in the Villages of Torriore, Cartooway, Kootturnputty and Kattanoor these last being Sirkar Villages.-

Ammaputty- Here again the first loss after the Pymash is occasioned by the transfer of Cawnies 200 to Madooraporry- The present deficiency of Cawnies 1532 Goolies 11 is by loss in Measurement in Cawnies 931 Goolies 88 1/16- By the transfer to other Villages of 231 Cawnies Goolies 39 11/16 namely Sirkar Mootteampolliem, Veesearpooram and Thoo-=thoor- To the Istimrar Villages of Torriore and Shooraathoor Cawnies 79 Goolies 1 7/16 and lastly by double entry of Cawnies 368 Goolies 95 7/16 making a total of Cawnies 1611 Goolies 24 12/16 But from this must be deducted Cawnies 79 Goolies 13 12/16 which were not given over to Madooraporry thus making a total deficit of Cawnies 1532 - 11 - Goolies.-

9 Having now gone through the thirteen Villages comprising the Zemindary I will state the Total result from which your Board will perceive that there is a deficiency at present of Cawnies 735 Goolies 7 10/16 when com-=pared with the amount said to have been originally made over to the Zemindar in Fusly 1227- There is also a deficit when

when the present result is compared with the Dowle of Fusly 1225, and which amounts to Cawnies 276 Goolies 34 3/16- The several totals of the Periods are as follows.-

	Cawnies	Goolies
By Pymash accounts	19,641	65 10/16
By Dowle Fusly 1225	20,584	76 9/16
By Dowle Fusly 1226	21,043	50
By Present Measurement	20,308	42 6/16

1st September 1851. 10- By your letter now under im-=mediate reply I am requested to state what I would recommend in regard to the disposal of this case- I would submit that the best course to be taken -and one I am sure will cause the least agitation will be to let matters rest as they are- The Dowle of Fusly 1225 ought by every consideration of justice to be taken as the standard of the extent of the Zemmidary, and by that extent the present Measurement shews that there is but a small deficit of land in actual area. And we may be very safe in asserting that this Estate which appears deficient in land now compared with the Dowle of Fusly 1225 or 1226 is in point of emolument and pecuniary return and profit a far more advantageous property than then, Consequently no injustice will be done the Proprietor- I would however suggest

suggest to your Board the desirableness of having the boundaries of the Estate fenced and defined and marked by stones so as to prevent in future all chance of encroachment or cavil-

11. Agreeable to the instructions contained in Para 5 of Proceedings dated 16th August 1849, I beg to forward herewith the Documents bearing Mr. Lushington's signature and remark- His Sub Sheristadar Vencata Rao seems to have laid the papers before him in making his report of October 1831.-

12- Adverting to para 6 of the Board's Proceedings dated 16th August 1849 requiring further information in respect to the account which forms Enclosure No. 13 in Mr. Elliot's letter of the 26th May 1848, I have looked this Statement over carefully and can discover nothing of importance in it- The entries are similar to those now submitted in my Statement and are nothing new. I have conversed with the Sub Sheristadar Chellapah Moodelliar on the subject, and he has informed me that he drew up the account agreeable to an order of Mr. Onslow's dated 21st June 1842, with a view to discover whether the then Head Sheristadar the Runga Rao had transferred any lands to the zemindar by the Statement which was transmitted to the talook with a Summud No. 382 of September 1840.-

13- I beg to return as directed the several Petitions* transmitted to your Board by Ristnien gar at different periods- They do not appear to me worthy of notice or enquiry- The several reports already made by Mr. Onslow have shewn how little prepared this individual is to substantiate his charges against the Public servants of this Collectorate- And on looking upon his whole conduct in this matter it is impossible not to come to conclusions highly unfavorable to his Character- I find that he was not dismissed from Office by Mr. Onslow but merely suspended by an order bearing date 25th July 1845 but taking all things into consideration, I must be permitted to say that I could not willingly re-instate him in employ- I feel so sure that he is a dangerous intriguing personage, and whom it would be impossible to entrust with the Records of the Collectorate, I therefore solicit permission to issue him an order to the effect that his services are no longer required in this Office-

14- By Banghy I beg to forward to the Board the Map drawn by Mr. Assistant Surveyor Kemp of the Zemindary- It is a mere Map and does not afford any elucidation of the disputed boundary-

Sir,

Adverting to Extract from the Proceedings of the Board of Revenue dated the 20th February 1851, I have the honor to forward copies of letter from the Actg. Accountant General and of my reply thereto, on the subject of the system of keeping Tobacco accounts in this District. No. 218

To, E. B. Thomas Esqr.
Collector of
Coimbatore.

Sir,

With reference to your letter of the 8th April last, forwarding a Statement explanatory of the method by which you ascertained the rate at which the value of Tobacco supplied to Malabar, Travancore and Cochin was entered in Columns 11—16— and 21 of

of the Statement G, which accompanied your letter to the Board of Revenue of the 22nd December 1849, I have the honor to make the following observations.-

It appears from the papers and Statements before me that your object in the present correspondence was to represent that under the quarterly average rate introduced in the year 1843 under instructions from this Office to regulate the supplies to Malabar, the Coimbatore Treasury actually disbursed more than was debited to Malabar, and therefore received credit in the Malabar accounts for less than it was entitled to, to avoid which, you advocate the reintroduction of a monthly average rate as it existed previously thereto. It is explained in your letter to the Board of Revenue quoted in the preceding 4th Para. that the value of Tobacco supplied during a period of 7 years, from Fasly 1252 to 1258, or from 1843 to 1849, calculated at the average monthly rate, amounts to Rupees 7,42,695-15-11- whereas, according to the Quarterly rate, since introduced under instructions from this Office, the actual amount charged to Malabar on the quantity thus supplied is only Rupees 6,96,785-4-9 thus exhibiting a difference of Rupees 45,910-11-2 which

you consider to have been lost from the Coimbatore Treasury on the quantity supplied to Malabar during the abovementioned period, adding, in para 24 that, in the case of Tobacco supplied to Travancore and Cochin, the result has been different, though the supplies were calculated upon the same principle observed in the case of supplies to Malabar, amounting during the same period according to the Monthly prime cost rate to Rupees 2,16,634-11-11, while according to the Quarterly average rate the value stands at Rupees 2,28,200-1-8 leaving an excess produced by the adoption of the latter rate of Rupees 11,565-5-10 which if deducted from the deficiency in the supplies to Malabar already adverted to, you remark, will leave a net deficiency of Rupees 34,345-5-5.-

It cannot fail to strike you as being very remarkable that the mere alteration of calculating the rate quarterly, instead of monthly, should have produced so large a deficiency in the value of Tobacco issued to Malabar, while

while, according to your own shewing, an excess has been the result in the case of sup-plies to Travancore and Cochin, though cal-culated upon the same principle. The State-ment submitted with your letter under reply was called for, for the express pur-pose of enabling this Office to ascertain the principle of calculation by which such opposite results were derived, and though even this Statement does not ena-ble it to follow you in your calcula-tions, it is nevertheless sufficiently clear from them and the explanation contained in the Papers which have been transmit-ted, that the deficiency which is made to appear in the supplies to Malabar, and the excess in the supplies to Travancore and Cochin, have both arisen from a miscon-ception of the principle of calculations involved in the system which obtained previous to 1243 in applying that principle to the transactions exhibited in the State-ment. You explain in your present letter that the rates exhibited in the Statement which accompanied your letter of the 18th February

February last were "assumed upon the "actual charges in each month i.e. the pay-"ments of the price of Tobacco, and packing "materials, and the cost of Sibbendy and "repairs so far as they refer to the supplies "in each month, were proportioned on the "quantity furnished, and the amount pro-"duced by such calculation for every "100 Bundles was taken as the average rate." It is clear from the explanation that, whatever charges were incurred in the course of the Month for Sibbendy, repairs, &c. the whole sum was not added to the value of the Tobacco remaining on hand, and purchases made in the Month and the rate ascertain-ed with reference thereto; but, only that portion of these charges applicable to the quantity of Tobacco actually issued to Malabar, Travancore and Cochin, in each Month, or in other words, that the Monthly charges were separately proportioned on the quantity issued to each, and seperate rates ascer-tained for each of the three places to which supplies were issued, instead of adding the whole of the charges incurred in the month to the balance remaining at the end of the previous Month

Fort St George 24th November 1851

month and to the quantity and value of Tobacco purchased in the course of the month, and fixing therefrom one general rate to regulate all supplies in the ensuing Month. It will be thus seen that the System which obtained previous to 1843 is not that according to which the calculations exhibited in the Statements submitted by you were ascertained. In further confirmation of this fact, I would refer to the transactions of the Month of September 1848 exhibited in the one furnished to the Board of Revenue. In Column 11 of that Statement the sum of Company's Rupees 7,706-4-8 is inserted as the prime cost value of 54,999 Bundles of Tobacco supplied to Malabar in the Month in question, and it appears from the heading of that Column that the value has been assigned to that quantity with reference to Column 4, in which Column Rupees 7-13-11 is entered as the rate per 100 bundles against 1,36,975 Bundles, value Rupees 13,358-13-2; but, this rate on the quantity in question does not produce that value, but Rs 10,783-4-3 and the difference Rupees 2,578-8-11 is the amount disbursed on account of Sibbendy, Packing materials and other charges. The rate abovementioned is that at which the Tobacco was received from the Ryots and Manufacturers exclusive of the foregoing charges; but, to ascertain the prime cost rate of the article, to regulate the monthly issues, those charges, as I have already pointed out

Fort St George 24th November 1851

| | | |

Fort St George 24th November 1851

to the Statements received 14---2-24, is entered as the rate for 54,999 bundles issued to Malabar in that Month, amounting in value to Rupees 7,706-4-8, and Rupees 11-15-5-37, as the rate for 20,975 bundles issued to Cochin in the same month, amounting in value to Rupees 2,509-12-8 both different from each other, and different also from the rate which should have regulated the supplies to both in the month in question, and also to Travancore, if there were any issues to that place, but there were none in that Month.

From the foregoing observations it must appear to you quite evident that the rates entered in the Statement under reference are owing to a departure from the calculations upon which the system previous to 1843 is founded, a quarterly average rate though it may produce a small difference in the value, either more or less compared with a Monthly average rate, in the accounts of a particular Month, still the difference will adjust itself in the end and the result will be the same, but as you seem to desire that the old system previous to 1843 of a Monthly average rate should be re-established, and as already stated

DG

Fort St. George 24th November 1851

there could be no difference in the results between a monthly and a Quarterly average rate, the old system previous to 1843 may be accordingly reverted to, but in reverting to that system, it will be necessary for you to be careful that the monthly average rate for regulating the supplies is not ascertained according to the System erroneously assumed in the Statements as the system which obtained previous to 1843, but according to that system, as explained in the foregoing remarks and in the 5th para of Mr Turnbull's letter of the 13th May 1836—

To, Sir Vansittart Stonhouse Bart.
Accountant General
Fort St. George,

Sir,

I have the honor to address you respecting the Papers noted in the Margin having reference to the mode of keeping the Tobacco accounts in the District of Coimbatore—

Rect from this Office 5th April 1852 No 234. Sent Statement & General 10th July 1851 No 215.

Inv.

2. In treating this subject, I propose to advert to the last quarterly accounts ending the 31st July 1851, and as the accounts from that date have been prepared in a manner so that the actual cost has been charged alike to Cochin Travancore and Malabar, if the accounts ending the 31st July last are corrected, no further adjustment will be required.

3. In your letter dated 10th July last you have entered into details as to the mode of adjusting the Tobacco accounts, and with much labour endeavoured to ascertain the cause of this inaccuracy upon the information before you. On examination of the discrepancies, they appear to me to have arisen from causes which were not made known to your Department.

4. If the Tobacco purchased and supplied were confined to the 1st 2nd 3rd and 4th Sorts, an average rate of charge would probably be near enough to the truth, but in addition to this the Government purchase is very large quantity of rejected Tobacco at the rate of from 1 to 7 Rupees per 100 Bundles according to quality; and it is this description of Tobacco that has caused all the correspondence and

and errors in the accounts. This sort of Tobacco is received from numerous parties each parcel received is set aside and from it such number of leaves as are good are extracted and made into packets called "Kuttay" and the Tobacco when so made up is designated "Kolabundy Tobacco" The bundles of Kolabundy Tobacco vary in value according to the number of good leaves in each parcel of rejected Tobacco the value of the whole lot of rejected Tobacco being debited to the leaves picked out of it you will at once perceive the great discrepancy that will arise in the value of these Bundles When a large number of good leaves are picked out of the mass of rejected Tobacco, the price of the Bundles made therefrom may nearly approximate to the ordinary packages purchased, where few, the price of the Bundles will be enhanced considerably beyond the cost of the 1st Sort Tobacco. Hence you will perceive that when such an element as this is introduced into the account any attempt to form an average cost is, and must be, impracticable the following account may illustrate my meaning.

Bundes.

1800 Bundles of rejected Tobacco at 4 Rupees per ⁰/₀ Bundles actually paid to Ryots ——— 72 — —

300 Bundles of Ordinary Bundles denominated Kolebundy for supply to the labor extracted from the above at 13 5 4 being the ascertained average rate per 100 Bundles ——— 40

Difference between the actual cost and the cost at the average rate ———

Nett Actual cost of the 300 Bundles at Rupees 24 ⁰/₀ 100 Bundles

5.

In this case the actual cost of the Bundles is 24 Rupees per 100, and the rate charged when the Tobacco is supplied is Rupees 13 5 4. Hence you will perceive when we have to deal with Kolebundy Tobacco produced from rejected Tobacco, a portion of which may be sent every month to Malabar, "an average rate" will never form an entry in the accounts to support the actual disbursements. The consequence is that in the last quarterly accounts, the value of the Tobacco in store

is stated at Rupees 90,634-13-3 whereas the actual value is 46,965 11 2 and the difference of Rupees 43,669 2 1 requires to be written off the accounts and the actual value of the Tobacco will then be entered at its real value.

10th July 1857. 6. In para 2 of your letter the "excess produced" is stated at 11,565 5 10 and the deficiency at 34,345 5 5 making, in the aggregate, the sum of Rupees 45,910 11 2. These figures are derived from the Statements sent from this Office. In the last quarterly accounts, the deficiency, or as I would rather call it, the value at which the Tobacco stands in our accounts over and above its actual cost, is, as shown in the previous Para, Rupees 43,669 2 1. In order however correctly to adjust the accounts, reference must be made to the circumstance that the sum of Rupees 21,744 13 5 has been charged on investments furnished to Travancore and Cochin beyond the actual cost, which amount has been debited as a charge against the value of the Tobacco supplied to these places in lieu of being credited to "Profits on Tobacco" to which head it clearly appertains. You will thus perceive that the sum of Rupees 21,744 13 5 as also that of 43,669 2 1 making in the

Fort St. George 24th November 1857

the aggregate 65,413 15 6 stands in the accounts of the Malabar District under the head of "Profits on Tobacco," this amount not having been charged on the different investments forwarded to the District of Malabar as it ought to have been, inasmuch as it was actually incurred in the purchase of rejected Tobacco, and paid in cash from this Treasury.

7. It is incumbent upon me further to explain that no Kolebundy Tobacco is sent to Cochin, or Travancore, and as one average charge has been taken for the three Stations of Cochin, Travancore and Malabar and the Kolebundy Tobacco has been included in calculating the general average cost, it has apparently raised the price of the Tobacco sent to the two former places by which means the price entered in the accounts at the average rate having been larger than the actual cost the profits on the Tobacco supplied to Cochin and Travancore have been diminished by the amount credited under the head of cost of Tobacco in lieu of being carried to profits to which it legitimately appertains.

8. I trust that this explanation may prove satisfactory to you and enable you to give me such instructions as may put the past accounts upon a proper footing. As before remarked, the actual cost of Tobacco, to whatever place supplied has been charged in the accounts since the first of August last. Had the information relative to the varying price of the Kolebundy Tobacco been afforded to your Office I apprehend that your Department would not have proposed an average rate of charge being made to ascertain the cost of the Tobacco.

From the Acting Collector of Coimbatore

Sir,

I have the honor to forward an Estimate of Charges required to be incurred for the purchase of 11 Sets of Scales for the use of this Department and of the Joint Magistrate of the Nilgherries, amounting to Company's Rupees 45 for which I request the sanction of the Board to enable me to obtain them from Madras none being procurable at Coimbatore.

2. These Scales are required for weighing money in the Treasury, and for the adjustment of weights in the Tobacco Godown, those that are in use being old and unfit for the purpose. No Scales have hitherto been furnished to the Joint Magistrate of Dolacamund, but Major Wright states that much difficulty has been experienced in his Office in counting Money for want of a Correct Scale.

last. Hill between Coonoor and Ootacamund - The practicability and desirability of the work was strongly pointed out by the Acting Civil Engineer Captain Ouchterlony, and recommended to the consideration of the Board of Revenue in the Department of Public Works by the Collector Mr. Thomas, but at the same time he pointed out that it would interfere with the water course which conducted the water to Mr. Norton's house, a question respecting which was under the consideration of Govern: -ment, and the Board of Revenue in the Department of Public Works under date the 29th September, resolved not to entertain Mr. Lascelles' proposal during the absence of the Civil Engineer. instructions

2 The notice issued from this Department dated 8th May 1849 and circulated by your Department clearly lays down that no new cuts are to be made without the sanction of the Joint Magistrate and the "Manual" Copy of which is in your Office for your information and guidance distinctly states that Government reserves to itself the control over all Springs Reservoirs &c. and directs that "No Streams" be diverted without the special Cognizance and Sanction of the Revenue authorities of the District.

3 - In para 3 of your letter you intimate that you had communicated with Mr. Lascelles "when the work was commenced" but on what ground you permitted him to act in direct contravention of the instructions of Government given for your guidance does not appear. It is however my imperative duty to request that the work shall be put a stop to

to immediately upon the receipt of this. The subject will be referred for the consideration and orders of authority pending the receipt of which no further excavation can be made.

4. This is a matter in which I conceive you and I have no option the orders of Government peremptorily prohibit the diversion of a watercourse and you will therefore in compliance with the instructions of that authority if you such instructions as without fail will prevent Mr. Lascelles continuing the operations in which he is engaged immediately upon the receipt of this communication.

5. I shall be happy to receive and forward to Government any explanation you may desire to offer as to the grounds which induced you to permit this work to be undertaken contrary to the express orders conveyed to you by that authority.

To W. H. Bayley Esqre

Board of Revenue

(53)

Sir,

B. No. 2834.

From the Ag. Coll. of Coimbatore.

I have the honor in continuation of my letter dated 15th Instant No. 116 to forward Copy of a letter from Captain Francis and of my reply thereto, and as I purpose making a report to the Board of Revenue after visiting the spot, refrain from making any further observations than that it appears evident that the present watercourse is proposed to be disconnected and again connected by a pipe.

2. If an iron pipe is insisted on, Captain Francis states his inability to incur the expence, a sufficient reason in my mind to prove that he ought to have consulted with authority and obtained sanction for his proceedings before commencing the work.

3. A question occurs in my mind wholly distinct from the present subject, viz. as to the authority that Captain Francis possesses to open new Roads and cut through Hills either at Coonoor or Ootacamund without communicating with the Revenue Authorities. The subjects which come before the Collector of

of Coimbatore connected with the land and water courses on the Neilgherries are sufficiently complicated and a strong ground if no other existed for demonstrating that Public Officers should be prohibited from breaking ground without having previously ascertained from this Department that no objections exist to the proposed measure. In this instance the work has been undertaken contrary to the express orders of the Board of Revenue and I would respectfully solicit that the Board of Revenue may be pleased to obtain from Government instructions to Captain Francis which may prohibit him in future from taking possession of Government lands whether for the formation of Roads, or other purposes without communicating in the first instance with the Revenue Authorities -

4 - It will afford me cordial satisfaction to assist Captain Francis and to cooperate with him fully in the work in which he is engaged - This I apprehend will be best effected by mutual communication rather than by his adopting measures on his own responsibility without the knowledge or concurrence of the Collector.

To W.E. Underwood Esq.re
Acting Collector and Magistrate
of Coimbatore -

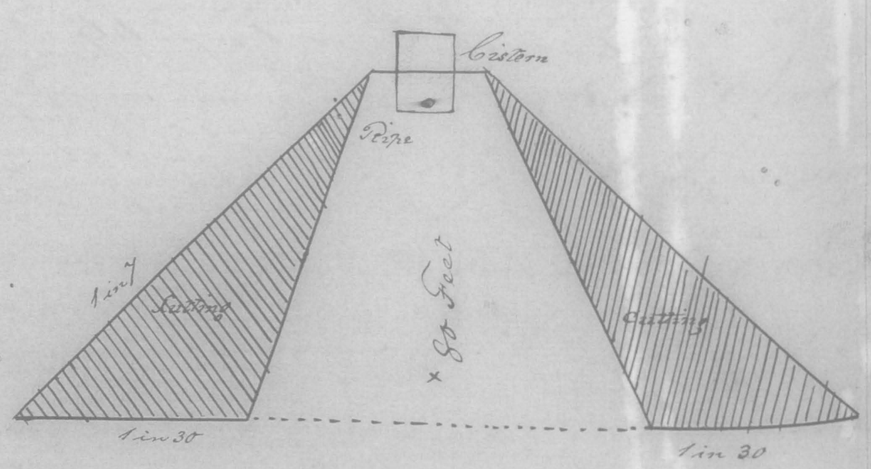

Sir,

I have the honor to acknowledge the receipt of your letter No. 105 of the 11.th Instant and lose no time in answering it -

2 - With reference to the 2.d para of your letter I beg to inform you for the information of the Revenue Board that the watercourse referred to has not been cut through the masonry cisterns and connecting iron pipe convey water to Mr. Norton's houses as they did before -

3 Under the sanction given me for improving the road from Ootacamund towards the Barracks, I have given Mr. Lascelles a contract for making a cut through the saddle over which the watercourse commonly called Norton's runs, and he is now most energetically and ably carrying out the work. I have desired him for the present however to work on both sides and leave the water

water course untouched thus -

4. I had intended, provided Mr. Norton made no objection, to remove his cisterns and iron pipe and replace them by an equally efficient aqueduct carried across the top of the Cut, and I cannot see how the Government question of the distribution of water can be possibly affected by the water being taken through a pipe twice or three times as long as it was before -

5- On the contrary I should think the question which from your account seems to be before the Revenue Board might be simplified if whilst conveying the water across I were to make the channel Capacious enough to hold three or four times the present quantity, there would be no additional expence in doing this, if Mr. Norton would consent to his iron pipe being replaced by a wooden trough

trough, of course an iron pipe twice the diameter of the present one to convey four times the present quantity of water (if Mr. Norton insists on an iron pipe) would cost more Money than I should be authorized to spend without express orders -

6- If Mr. Norton will allow me to replace his water works by others necessary to span the proposed cut I trust the Board of Revenue will not interfere to stop the immense improvement to the Road which will be effected completing the works as it will in no wise affect the water question if I understand it right -

7- As the Revenue Board appear to have merely postponed the consideration of making the cut till the return of Major Cotton to his District, I hope the matter will be referred to him to prevent delay and I shall be happy to afford him every information which he may require on the subject -

Sir,

I am acknowledging the receipt
1- of your letter dated 14th Instant, -

Copy -

Copy of which has been transmitted to the Revenue Board,-

I have the honor to state that I have felt it my duty, however reluctantly to direct that the work in which Mr. Lascelles is engaged may be suspended pending the decision of that+ authority, the more especially as the Board of Revenue have already informed Mr. Lascelles, that they decline to sanction his proposal to make a cut nearly if not entirely, the same as that in which he is engaged.-

2- Having consulted the records of this Office, I cannot find any Authority which permits you to cut Roads or take possession of circar ground for any purpose, without the sanction of the Department. If I am in error and have

+ letter to Joint Magistrate dated 16th November 1851 No. 109.

have overlooked the powers conferred upon you I hope you will set me right and refer me to the correspondence in which it is to be found, as from my recent assumption of Office, I may have overlooked it, and this I trust may plead my excuse. Unless however you possess authority with-which I am not cognizant, it is my duty to inform you that all lands on the Neilgherries, not given out on lease, or otherwise made over to parties for public purposes, or for their individual benefit, are under the control and in the Custody of the Collector of the District.-

3- I have therefore with every respect and deference to intimate that

that on all future occasions, you should communicate with this Department before appropriating any ground on the Neilgherries, whether for the purposes of erecting Barracks thereon, or for making approaches thereto.

4. If on the other hand you consider this to be an unauthorized assumption of power, I beg you will refer the question to authority and upon the receipt of other instructions I shall readily acquiesce therein, and withdraw from my interference with your measures.

Suggesting certain measures respecting a greater distribution of water to the public on the Neilgherry Hills

My dear Mr. Bayley

I will, as I mentioned, put down in writing the substance of some suggestions I made to you on Saturday last respecting the mode of bringing an adequate stream of water across my Hill with a view to a more public supply than the present can possibly furnish and which will now only supply two good houses well

To get the water to go from

from the road which it crosses to the upper part of my grounds, so as to be able from the latter to supply water for my house and garden and for the houses below it - it is absolutely necessary that the level at which it flows from the road (on my houses side of the road) should be at least as high as it is now - and to have any considerable body of water capable of supplying more houses than the present stream can, it is very expedient, if not necessary that this level should be higher at the road - The reason is, that to get to the upper part of my ground, in order to supply my house &c., the water, after winding about thro. the woody ground between the road and my ground, must enter my ground at a level very little below the level of the water at the road.—

Now to accomplish this, as the road itself is lower than this level where the water enters my ground, a syphon had to be carried from one side of the road to the other - dwing below or coming up to the same level at which the water entered the syphon - Before the road

road was lowered, the water crossed the road, at it its crown - just the level at which it leaves the road side to go to my grounds now. Afterwards that level could only be attained by the means of a syphon - This syphon is of cast iron throughout - and the pipe part across the road about 2 inches diameter - Of course the stream is a very scanty one.—

But, scanty as it is, it is with some difficulty brought thro' the windings of the woody and irregular ground between the road and my ground - which I dare say (with windings) is a mile long - for, there being so little fall, the stream creeps slowly, and in some places is almost stagnant - and as it flows in almost parts at the side of a steep declivity - the ground is continually falling away - and if more water was brought, this evil might increase.—

But, as more water cannot be brought thro' the present syphon a new one (and it must be of cast iron, both wells and pipe) must be got - and this is a considerable expence, as I know by putting up the

Fort St. George 24th. November 1851.—

the present and after all, it would be a very incomplete job producing little water comparatively and the clearing of the syphon to say nothing of the repairs of the water way would be a continual trouble, and, if left to the public very imperfectly done.—

Mr. Fast, the Engineer who lowered this road, was well aware of all this and at once saw the remedy and the public benefit of a different mode of bringing the water - He was about to build a narrow arch way aqueduct across the road. starting the water from the road at a much higher level than at present and then carrying it thro' the wood at a considerable fall and into my grounds at a somewhat higher part than at present and so after crossing my grounds instead of merely going into it, as at present, and watering no more ground than my own, at an inconsiderable fall, the body of water, after supplying all my grounds, would flow out at such a level as to reach all those grounds and houses beyond, which are but little below the level where it left my grounds, Mr. Fast, had accordingly prepared a great collection of laterite stones for the arch way,

Fort St. George 24th. November 1851.

way, and was just about to build it when he died - I saw his plan and elevation - The work on that road was afterwards discontinued and accordingly there remained only this method - by a syphon to restore the water as I had it before Government made many attempts - but made a mess of it - and the present I accomplished at my own cost.—

Now I would wish it to be submitted to competent persons whether this method intended by Mr. Fast, is not the only one feasible for the public purposes Government has in view. If it should be adopted, and I imagine the difference in the expence between this, and any method of increasing the body of water by a larger Syphon, if feasible, would not be considerable and Mr. Fast told me it would be about 1500 Rupees, as there would be plenty of water for all, I am sure there would be no difficulty in arranging for the supply, across lands of various proprietors throughout the whole extent of the proposed stream, of the appropriate quantity to each or of settling from time to time what that quantity should be, having reference to the existing or prospective wants of others.—

Order thereon.

Ordered that the following letter be sent in consequence.—

(52-56)

To

The Acting Collector of

Coimbatore.

Sir,

B/. No. 2310.—

To the Ag. Coll.r of Coimbatore.

Requesting him to call upon Captain Francis for a plan of the cutting and of the method in which he proposes to carry the water over the Road, for the information of the Board, and forwarding for his (Collector's) information the Correspondence that took place between Mr. Norton and this Office, on the subject of his water course.—

Para 4.

With reference to your letters of the 15th. and 17th. November 1851 I am directed by the Board of Revenue to inform you, that it was originally intended to defer the consideration of Mr. Norton's water course until Major T. Cotton's return to his duties on the Neilgherries. As it appears however to be uncertain how long that Officer may be detained in Madras, and as the steps already taken by Captain Francis with regard to the road from Coonoor require that the matter should be taken up immediately, the Board request that you will call upon Captain Francis for such a plan of the cutting and of the method in which he proposes to carry the water over the road as being unable, the Board with the Estimate before them (which should be supplied also) to decide as to the propriety of the undertaking and to communicate with Mr. Norton under the instructions conveyed in Extract Minutes Consultation 17th June 1851.

To

Fort St. George 24th. November 1851.—

2

It can hardly be expected that Mr. Norton will be satisfied with wooden troughs proposed in Captain Francis's letter of the 14th. November 1851, but perhaps some plan may be devised for providing a more durable means of taking the water across the cutting with a cut an iron pipe twice the diameter of the present one.—

3.

In connection with this subject the Board desire me to forward for your information the correspondence noted in the Margin which has passed between this Office and Mr. Norton on the subject of his water course, subsequent to the order of Government dated 17th June last.—

Extra Sibbendy for the realization of Land Revenue.									Annually proposed in the Estimate submitted to Board and Sanctioned by Government.	The fixed Establishment attached to the several Talook Cutcherries is generally found insufficient for the prompt and regular realization of the Land Revenue, and an Extra number of Peons has always been mentioned for that purpose. The Estimated Charges is therefore considered to be unavoidably necessary.

Extra Salt Sibbendy.										This Extra Establishment is required as usual for the protection of Salt manufactured in the District for the Government Monopoly as also of the foreign Salt procured for the Monopoly use. — The proposed Charge is Rupees 352 above the actual payments of the previous July, and no more than Rupees 141 & 8. above the sum estimated for that July. This addition will be necessary to protect the additional quantity of 500 Garces sanctioned to be manufactured in excess of the usual quantity in order to keep up a proper supply against any unfavorable season. The manufacture of this quantity was ordered during the previous July but could not be produced, the pans not being completely formed, and hence the whole of the estimated amount was not found necessary to be expended. —

No. 108-

To W. H. Bayley Esqre
Secretary to the Board of Revenue

Sir,

B. of R. No. 2784
From the Collr. of Madras
Encls. 2

With reference to the Board's Proceedings of the 10th November last, I have the honor to submit, accompanied for a Statement shewing the receipts and disbursements for the last 6 years, on account of the Stamping Department, together with a Memorandum of the rates charged for Stamping the different kinds of Weights and Measures - The dates on which measures for the Commissariat and Police were last stamped are those noted in the Margin - It is necessary to observe that the Table of fees given in Statement B was received from the Superintendent of Police's details, on the transfer of the Stamping Department to this Office -

"B"

From Commissr. 30th Augt 1850
From Police 4th March 1851

2. The Standard Weights and Measures, by which this Office tests the accuracy of those in use by the Merchants are those that were received from the Superintendent of Police details, and the process of ascertaining the correctness of the Measures, brought for stamping, is simply by experiment of the actual contents of each, compared with the Standards in the Office -

3. In regard to the Weights and Measures adjusted by the Assay Master in 1847 it is necessary to state, that agreeably to the instructions of Government communicated in the Board's Proceedings of the 19th August 1841, only the new Weights and Measures supplied to this Office, in reference to the Circular of the 2nd May 1842, were used in the "Commissariat and Public Departments" and all "public Accounts" kept therein, and the adjustment of the Assay Master has reference to these alone, but did not extend to the Puddee and Mercal sent to the Board's Office with my letter of the 30th October 1851, which are the same as those in use by the Merchants and tested half yearly by the Standards in my Office received from the Superintendent of Police details -
