the Relief of Insolvent Debtors at Madras.

No. 753/57.

To, The Chief Secretary to

Government.

Fort St. George.

Sir,

As it appears from the accompanying examination of W. S. Jaganadasawmy Naidoo and W. S. Oothundaramasawmy Naidoo Insolvent Debtors taken before the Honorable Sir Christopher Rawlinson, Chief Justice, on Tuesday last, that there is a sum of Company's Rupees Ten thousand or there abouts now in the hands of the Collector of Chingleput being the accumulation which has accrued from the Village of Ootoocandoo in his Collectorate since the death in 1842 of the elder brother of these Insolvents and it appearing that the said Village of Ootoocandoo was granted to Dr. Sawmy Naick the father of these Insolvents by the Government on Shrotrium tenure for three generations and that on his death in 1841 his Eldest Son W. S. Seethara-=ramasawmy Naidoo took possession of it and enjoyed it upto the time of his death in 1842 and since that time the Village has been under Circar Management the Collector having taken possession of it on behalf of Venkataramanjooloo Naidoo

Naidoo the adopted son of the said W. S. Seethara-=masawmy Naidoo—

I beg to state that in 1843 these two Insolvents who are the deceased Dr. Sawmy Naick's only Surviving sons, availed themselves of the benefit of the Insolvent Act and were discharged, the one W. S. Jaganadasawmy Naidoo in respect of debts to the amount of Rupees 83,974 5- 11. and the other W. S. Oothundaramasawmy Naidoo in respect of debts to the amount of Rupees 78,224 - 11 - 11 - The Elder Brother W. S. Jaganada-=sawmy Naidoo stated in his Schedule that he was entitled to a half share in this Village and they both assigned over whatever interest they had or might have therein to their assignee for the benefit of their respective creditors, since such their discharge it appears from the accompanying examinations and documents that these Insolvents in 1849 Petitioned the Honorable the Board of Directors claiming each a life interest in the said Village of Ootoocandoo and the surplus accruing therefrom since 1842 and praying that the same might be given over to them. the prayer of which Petition has it appears been granted and the Village

Village and all or some portion of the accumulations are I am informed about to be paid over to them.

Under these circumstances it is that it becomes my duty as Official Assignee of the Court for the Relief of Insolvent Debtors at Madras and as such assignee of the abovementioned Insolvents for and on behalf of the creditors named in their respective Schedules to submit for the consideration of the Right Honorable the Governor in Council that the said sum of Rupees Ten thousand being the accumulations since 1842, passed under their respective assignments to their Assignee for the benefit of their numerous creditors and that the same is now payable not to these Insolvent but to me as their assignee, and therefore it is my duty humbly to request that the same may be ordered to be paid to me and not to the said Insolvents. It is in respect of the accumulations only that I apply, the Village itself being a service grant or bounty of Government may possibly not be assignable.

Extract from the Minutes of Consultation, under date the 22nd December, 1851.

List of Statements of Exctra Charges incurred in Fusly 1260. submitted with the remarks of the Board of Revenue 24th November 1851.

The Right Honorable the Governor

Governor in Council sanctions the Sadeyward and Extra Charges incurred in Fusly 1260 in the Districts of Coimbatore, Madura and Chingleput, amounting to Rupees (21313-8-3) Twenty one thousand three hundred and thirteen, Annas eight and Pice three.-

2- The only item calling for remark in the Statements now sanctioned is the payments made in Coimbatore for the destruction of venomous snakes- In Fusly 1259 a sum of Rupees 333-2 was disbursed on this account, and in Fusly 1260 Rupees 1140 being the amount of rewards at one anna each for 7040 snakes killed throughout the Talooks.

Rewards paid for killing snakes in Madura
Fusly 1259. Rs 27-12
" 1260 " 11-11-6.

The Governor in Council considers this expenditure to be very large and beyond what was contemplated by the orders of Government 14th June 1847 para 3, which he observes were issued with reference to a charge of 20 Rupees incurred in Tanjore and which authorized Collectors to disburse similar small sums at such localities as might be generally infested with venomous snakes- He apprehends that sufficient attention is not paid to restrict the issue of the rewards to

those cases in which the reptiles destroyed are really of a venomous character- He therefore directs that the Collector may be instructed to limit his disbursements to such instances only, and that he be informed that the Government will not admit for the future so large a charge as that now sanctioned-

From the Secretary to Government - Resolving to take the subjects adverted to in the Board's Proceedings of 25th September 1851 into final consideration on receipt of the reply from the Commissioner for Circars to the reference made to him on the 29th May 1851, and intimating that the Government are prepared to sanction the employment of any temporary Establishment of surveyors whenever it is necessary in consequence of any resolute denial on the part of the Ryots to afford information to the revenue or judicial authorities regarding the contents and boundaries of any Estates.-

With the above Proceedings the Board of Revenue submit a letter from the Collector of Canara bringing to notice the difficulty experienced in carrying out the decrees of the Courts for the Sub Division of Estates and the passive opposition offered by the Ryots to any attempt on the part of the Revenue Officers to ascertain the boundaries of their Estates or to check the encroachments made upon the Government waste lands; they advert to the proposal made in their Proceedings of 8th May last that "a small Survey Establishment should be attached to the Collector's Office to aid him in the examination

Para 1

and

and measurement of Estates when necessary and for carrying out the orders of the Civil Courts for the transfer and Sub Division of lands, and state, that pending the Settlement of the larger question of the Canara Survey they will be prepared to recommend such temporary Establishment as the Collector may require, on the occurrence of any special case of contumacy which may in his opinion render it necessary to have immediate recourse to the plan referred to in the 15th para of his letter.

2. In their Registers letter of 15th October 1851 the Court of Sudr Udalut recommend at the instance of the Collector of Canara and zillah Judge of Mangalore, the entertainment of a Survey Establishment, paid from the Registration fees to be attached to the Civil Court and eventually to the Courts of the District Moonsiffs for the purpose of surveying and drawing plans of Estates which may come under litigation, or which may have to be sold or subdivided under Judicial proceß. This scheme would supersede the expedient suggested by Mr. Maltby in para 15 of his letter to the Board of 23d June 1851, so far at least as relates to cases wherein the Collector is called upon by the Court to interfere.

3. It appears to Government to be very desirable

desirable under the present circumstances of the Canara District, that an Establishment should be maintained, in that Province qualified to make surveys and draw Maps both for revenue and judicial purposes. As regards the latter it seems to be perfectly within the competency of the local Courts at present to order such surveys and plans and to charge the expence in the costs of the Suit on account of which they may have been made. Moreover an Establishment for this object merely need be but on a limited scale. In ordinary cases the Plaintiff in a Suit for an Estate, or for part of one, should be required to lay before the Court a plan showing the extent and precise boundaries of the lands sued for which, if assented to by the opposite party, should at once be adopted with the proviso afterwards noticed that there is no collusion. It is only when the Plaintiffs Plan is unintelligible or alleged by the Defendant to be fictitious or erroneous that the services of a regular Surveyor will be wanted.

4. The Government do not think that the Registration fees can, as suggested by the

To Sudr 4th Sepbr 1850.

the Collector be applied in support of the proposed Establishment.- The revenue derived from this source, it is presumed, is now carried to the public account and it's appropriation to the object in question would be tantamount to a grant for the same. But as already stated the expence of the Establishment so far as it is employed in aiding in the execution of decrees of Court may equitably be charged against the parties. These decrees it would seem are at present executed thro' or with the assistance of the Collector; the Establishment might therefore be placed under that Officer and as it would then be employed for revenue as well as judicial purposes this would seem a valid reason why a part at least of it's cost should be borne by Government. If not however made responsible to the Court, it will be necessary for the Collector to keep a vigilant check over it, to prevent extortion being practised upon the land owners whose Estates may adjoin those which have to be surveyed. It will also be necessary to guard against the collusion of parties who might be induced to misstate the area and boundaries of their properties and defraud the neighbouring land holders. This would however be avoided as in the case of mortgaged property

property by notice to the adjoining proprietors and time given them to appear.-

5. The Right Honorable the Governor in Council resolves to take the subjects adverted to in the above Proceedings of the Board of Revenue and letters from the Sudr Udalut into final consideration with the general question of the Survey and revision of the Revenue system in Canara, submitted with the Board's previous proceedings of 8th May last, on receipt of the reply from the Commissioner in the Northern Circars to the reference made to him under date 29th May 1851. Copy of the Board's present proceedings, of the letter from the Sudr Udalut, and of their accompaniments will be forwarded to Mr. Elliot and he will be requested to give his early attention to the subject.-

6. Meanwhile the Government will be prepared to sanction the entertainment of any temporary Establishment which may be recommended by the Board under the circumstances indicated in para 3 of their Proceedings Viz.t. where the contumacy of the Ryots and their resolute denial of all information to the revenue or judicial authorities regarding the contents and

boundaries

boundaries of Estates may render necessary a survey of those properties and even of the entire Village in which they are situated.-

7. The attention of Government has been drawn to a short manual of surveying prepared by the late Captain Best which it is understood has been translated into Tamil. The work appears likely to be useful and the Board of Public Works will be pleased to circulate Copies of it wherever it may be distributed with advantage.

Submitting for the sanction of Government a Bill for the expence incurred.-

Sir,

1. I am directed by the Judges of the Court of Sudder Udalut to submit for the consideration and orders of Government the annexed Copies of a Correspondence

correspondence between the Collector of Canara and the Civil Judge of Mangalore in which the difficulties experienced by the Revenue and Judicial Authorities in consequence of the absence of any record shewing the boundaries of the private Estates into which the District is sub-divided are pointed out, and it is suggested that in every case of the transfer of land by Court process a Map of the property be made at the espence of the parties, and in order that a body of Surveyors Competent to prepare accurate plans may be raised up it is recommended that a Survey Establishment be attached to the Civil Court Consisting of a Surveyor on a Salary of Rupees (100) one hundred, and 12 paid pupils at Rupees (7) Seven per Mensem, and eventually an Ameen to each District Moonsiff's Court on a Salary of Rupees (20) twenty per Mensem.-

2. There are, I am instructed to state, 13 District Moonsiffs in the District of Canara Mr. Maltby's Suggestion will therefore be attended with an expenditure of Rupees (5328) Five thousand three hundred and twenty eight as shewn in the Margin. Whilst the net receipts from the

the fees paid upon the Registration of Deeds, the source to which he looks for meeting this charge have been on the average of 4 years 3,625 Rupees per annum. The Judges however consider that the Ameens may be placed in 3 classes on salaries of 10- 15 and 20 Rupees, and that it will not be necessary to retain more than 4 paid pupils after the District Moonsiffs have been supplied with Surveyors. They therefore propose to limit the Establishment to that noted in the Margin, which tho' Rupees (275) two hundred and seventy five in excess of the average annual receipts is Rupees (205) two hundred and five below the amount credited to Government in 1849/50 from the source above adverted to.

To, The Register to the Sudr Udalut.
Fort St. George.

Sir,

1. I have the honor to submit for the consideration of the Judges of the Sudr Udalut copy of a communication from the Collector of Mr. F. N. Maltby proposing

posing a plan for obtaining a regular survey of all Estates which are subjects of litigation in the Courts. I concur most fully in the views of Mr. Maltby, and am of opinion that the adoption of the measure proposed by him would be productive of most important benefits.-

2. In this Zillah almost all the lands being the private property of the land-holders and the district of Canara being subdivided into upwards of 50,000 Estates, litigation regarding landed property and the transfer of Estates from one person to another in execution of decrees is extremely common.- By a reference to the accounts I find that 446 suits connected with land were decided in 1849 and the amount at issue was Rupees 111365; that 57 Estates were sold by public auction in execution of decrees and fetched Rupees 23751-4-u and that application was made to the Revenue Authorities for the survey of 308 Estates; 39 other Estates were delivered over directly by the Courts without a reference being made to the Revenue Authorities.-

3. Nothing can be more unsatisfactory than the evidence upon which in the absence of a regular plan the Courts have at present to decide in cases in which disputed boundaries form the subject matter of litigation. The plans furnished by the parties are prepared by a common.

Common Court Ameen, are incorrect and con=
=fused to a degree, and I have often been
much perplexed in attempting to reconcile
the plan with the evidence or to get some
satisfactory information from the plan
itself.-

4. When visiting Ceylon a few years ago,
I was present on one occasion in the Court of the District
Judge of Galle. The suit under trial had reference to
landed property and I found a scientific survey plan
of the Estate laid before the Judge. I could not help
contrasting it with the imperfect native sketches
on which I had been obliged to base my decisions
in this Court.-

5 The object and effect of Mr. Maltby's plan
would be to introduce scientific surveying into
the Country. This is just one of these great improve=
=ments so much required in India. Not only would
it's introduction in the Courts be of immediate use
in the decision of cases and in affording Statistical
information, but it would lead to it's gradual ex=
=tension throughout the country. We might then look
forward with confidence to a time when a regular
surveyed plan of an Estate would accompany a
deed of Sale or mortgage.-

In

6. In order to carry out the Governor General's
views as to Education the Assistant Judge, Subordinate
Judge and myself, issued a proclamation three years ago
notifying that we would not in future appoint any
one to an office in the Judicial branch of the service
who had not a competent Knowledge of the English language
and that Lads who should produce a certificate of having
passed thro' the prescribed course of education at the
different schools should have their names registered
in the Court and should be appointed according to
their merit as vacancies occurred.

7. The measure is likely to produce the most e=
beneficial effects and there is the prospect of a number of
thoroughly well educated young men being hereafter
available for different offices.-

8. To such the profession of a Land Surveyor
would be exactly suited. They would be well qualified
for receiving the technical instruction required, it
would afford them a comfortable livelihood and
would be a liberal profession such as young men of
cultivated minds would like to engage in.-

9. Mr. Maltby has not only shewn the benefit
that would attend the introduction of scientific surveys
and proposed a plan for educating young men, but has
also pointed out certain funds which he considers might
with propriety be devoted to this object. I entirely
approve also of this part of the scheme. The fees paid
for

for the Registry of deeds under the provisions of Act XIX of 1843 used formerly to be paid to the Register, usually the Registers of the late Zillah Courts.- Government appears therefore to have no further object in levying such fees than to defray the necessary expences and in no object could the surplus which now accrues in this Court be so well appropriated, in my opinion, as in carrying out the plan proposed by Mr. Maltby.-

Findlay Anderson Esqre
Civil Judge.
Mangalore.

Sir,

1 I have the honor to address you on a subject which has lately been prominently brought before me in consequence of a call from the Court to supply the Court with a correct return of the produce of an Estate which has become liable to division by process of Court.-

2. It is now fifteen Months since the call was made, but the accounts of the Estate are laid before me in a shape which renders it impossible for me to submit them to the Court as a correct Schedule of the Estate to enable the Court to award a certain share of

of the Estate, or to enable us to assess a fair proportion of the Government demand upon the several shares after the division is made.-

3. For this purpose I find that an actual survey of the estate is indispensable and as I happen to have in the Office a person capable of making such a survey and his time will be well employed in doing so I have directed him to proceed to the spot and to prepare a Map to be submitted to me. But the estate is a large one paying upwards of 300 Roons to the Government and it will be obvious to you that with the present Establishment at my command it will be impossible for me except in very rare instances to take the measure I have now done.-

4. But it appears to me that if it were made a rule that in every case in which land is delivered from one party to another by process of Court, a careful survey of the land should be made and the boundaries be accurately defined and exhibited in a Map constructed on Scientific principles a vast benefit would be conferred upon the litigants and several very important objects be gained.-

5. You are aware that in this District one of the most fertile sources of confusion in the Revenue Department has been the absence of any record

record showing the extent of the several Estates and I do not think that you will disagree with me if I say that the same want of precision pervades in a remarkable degree the proceedings of the Court- in fact it takes it's rise in the same original uncertainty. When the Court awards an Estate they have as little idea of what they are awarding as the Collector has when he collects the assessment of one.- But it does appear to me to be very desirable that in the processes of the Court a system of greater regularity should be introduced and that the boundaries of all estates should really be defined.-

6. The Circular Order of the Sudr Udalut No. 110 directs that in all cases in which the Courts contemplate the sale of land they shall communicate with the Collector in order that he may protect the interests of the Government, but the Collector is left very much in the dark, especially if the estate is to be subdivided as to what the Court really believes to be the ground which they are awarding. The whole case in fact is left as vague as if it were our object to encourage litigation in one Department and fraud in the other.-

7. A very important step would be gained in my opinion if it were directed that in every case of transfer of land by process of Court /not only of sale/ it

it were required that a Map should be made, and I think that this might fairly be done at the expense of the litigants, even now the constant calls upon this Office to furnish estimates of produce has increased the work of the Office to a serious extent; but this I should not regret, if in place of a set of vague and fraudulent estimates it were gradually supplying a fund of useful statistical information.

8. It will be for you to determine whether in the event of your agreeing with me in the several your own authority will be sufficient to carry them out. But as they may involve some expense a reference to higher authority will probably be necessary.-

9. It appears to me however that the expense would not be serious in the first instance and that it will eventually almost cease, and I think that there is a fund which the Government would consider available for this valuable purpose.-

10. I would suggest that a small Survey Establishment be attached to the Court. The Head of the Establishment ought to be a person of scientific knowledge and fully capable of instructing a body of young native draughtsmen. I have good authority for stating that intelligent native youths can very easily be instructed. If the Surveyor were appointed on a salary of Rupees 100 per Month with 12 paid pupils

pupils/draughtsmen and measurers/on 7 Rupees a Month each, and as many unpaid pupils as he could instruct, he would have a useful body of Assistants and if it were determined to attach to every Moonsiff's Court a Survey Ameen on a fixed Salary of 20 Rupees a Month and say 4 annas on every Acre of land surveyed by them, the Volunteers would rise to paid pupils and from paid pupils to Survey Ameens. This I believe would prove sufficient encouragement to form a capable body of Surveyors.-

11. You will readily believe that I offer these as mere suggestions. The fund I have hinted at as one appropriate to the purpose is the surplus of Registring fees. The Government have conferred a great blessing on the people by rendering the Registering of documents more compulsory than it was before and thus checking litigation, and the Statement in the Margin will show how great the result has been. I do not however suppose that Government contemplated this as a source of Revenue but I find that the following Sums have been carried to the credit of Government, being the Surplus

Surplus after defraying the expenses of the Office.- It appears to me that this would be most appropriately applied to the maintenance of an Establishment for an object so closely allied to that of the Registering Office.

12. I have not dwelt upon the Collateral advantages of the measure I propose.- They will be obvious to those who know how eagerly a Revenue Officer in this District seeks for any information throwing light upon the intricate questions which come before him, and I find that in last year application was made by the Court to the Collector for

Sir

I have the honor to acknowledge the receipt of your Circular letter of the 31st July last calling for Statements shewing the number and extent of sales of property on account of arrears of Land Revenue under individual Settlement, and of the property of renters, from Fusly 1235 to Fusly 1260.

years prior to Fusly 1256 is not forthcoming. During the period referred to the Estates were for some time under the Management of the Zemindars and when under the immediate Superintendence of the Officers of Government no accounts of the sort seem to have been kept- The state of the old records in the Talookes is such as to render it hopeless to attempt to prepare from them Statements which would be entitled to any degree of credit.-

3. With such facility afforded of evading the duty the Collector considers that the Frontier Revenue of his District is not likely to improve.-

Abkarry 4. In Abkarry the Decrease of Rupees 6570-7-0 is in consequence of lower offers for the rent, especially in Adonie where it was influenced by the loss sustained by the former renter of that Talook.-

Small Farms 5.- The small Increase of Rupees 70.6- in the Small Farms requires no remark. The Government Plantations are becoming gradually more productive though

though the increase under this head was much reduced by a deficiency in other rents.-

Maturpha. 6. In Maturpha the Increase of

Enc: No. 4. Rupees 335-6-. arises from the following variations in the items of demand which compose that head.

| | Increase. | Decrease. |
|---|---|---|
| Veesabady or Tax on Merchants Rupees | 2,010-14-4 | 2,608-3-4 |

C.O. Book page 488 Circular 15th. March 1849 the Board's orders.-

Stamps 8. The large Increase of Rupees 30,586-8-. under the head of Stamps is chiefly caused by bringing to account the recovery of the amount embezzled during a series of years by Ram Chetty the late Stamp or Darogah and Vender, the actual sum credited on account of sales exhibited

of the late system of fraud having been checked. The orders of Government regarding the remuneration of the Stamp Vendors were communicated to the Collector under date 10th. November.

Gross Collection. 9. The Gross Collections, Current, Extra and arrear, under all heads of Extra Revenue amounted to Rupees 6,40,063-.-2 within the Fusly, and Rupees 3,6782-.-. up to date of Report, leaving a Balance of Rupees .-

Balance. 2,444-.-. outstanding under the following heads.

Charges. 10. The net Revenue realized within the

Net Revenue. Fusly, exclusive of Charges amounting to Rupees 5,549-1-9, was Rs. 6,34,513-14-5 being Rupees 17,225-3-2 above that of the preceding Year.-

Arrears. 11. Of the Arrears on account of previous years outstanding at the close of Fusly 1250 amounting to Rupees 415-11-5, reduced by subsequent Collections to Rupees 379-6-9, the Board support the Collector's recommendation for writing off the irrecoverable portion of Maturpha amounting to Rs. 263-6-11 stated to be due by 122 deceased, deserted and impoverished Ryots-

Ordered that a Copy of the foregoing Extract with the annexed Comparative Statement of the Collections Charges and Net Revenue be submitted to Government and a transcript of the same be forwarded to the Collector of Bellary.

2. The Season was on the whole pretty favorable. The early rains of July and August suitable for the earlier Crops — however generally failed. But abundant rain fell in September and October seasonable for the Kongary or later Dry Crops in the Black Lands and was also highly beneficial to the Moongary or early crops of the lighter soils which had been sown. The late Crops in the Black Lands however suffered from the continuance of the

rains

Fort St. George 8th January 1852.

rains which prevented the sowing operations at the best time and there was considerable apprehension that there would have been great losses in the Cholum Crops. but the seasonable strong Eastwinds in December and January revivi=ed them. And it is supposed there was a return of produce of about 9/16th or 10/16th from these later Crops as well as from the earlier Crops which also did not yield a full crop. The Wet Crops were good and the cotton crop

crop was also good this year and that staple obtaining a ready market at good prices enable the ryots to pay their Kists with punctua=lity. There was also a greater breadth of Land Cultivated with Cotton than in the preceding years as follows.

of Cholera breaking out there, was settled at Hospett a convenient Town in the adjoining Taloork and Kodeconda (a station very convenient for the settlement of that Talook) in consequence of as reported by Mr. Daniell, the small Pox prevailing in the former Talook. In my last report on the settlement of Fusly 1259 I stated the inconveniences arising from making the settlement in each Talook. But the Board in their Proceedings on that report (received since the close of the present Summaloondy having disallowed of my arrangement for a Modification of the Government orders on the subject I shall as directed make a point of settling every Talook within its own limits except when special reasons such as sickness, or when other peculiar circumstances may exist to render it desirable to deviate from the rule, which will be duly reported.

Dated 12th June 1851.

The settlement was made in detail as usual by myself in 11 Talooks assisted

assisted by my Assistant Mr. C. R. Pelly. This Gentleman was appointed to act as Head Assistant for 2 Months during the settlement and it is with much gratification I can bear testimony to the valuable assistance I received from him. He settled the Talook of Raidroog himself and with but little superintendence on my part he also conducted the settlement of 2 more Talooks and otherwise assisted me in distributing the Puttahs of other Talooks. The Sub Collector Mr. Daniell made the Jummalundy of the five Talooks which compose his charge and has submitted the accompanying satisfactory reports upon his Proceedings during the year which will I trust be approved of by the Board. The Head Assistant Mr. Arbuthnott was appointed to act in the Subordinate Court of Bellary, at the commencement of the Jummalundy. This and his subsequent sickness deprived me of his services during the most important time of the year and he only settled the Talook of Humply and assisted me in one other Talook.

The

Fort St. George 8th January 1857

The increase of actual cultivation in the Black land and decrease in the red soils is accounted for by the reason already noticed which was favorable for the sowing of the later black land Crops and unfavorable for the earlier crops sown in the lighter soils. There will be observed a considerable increase of Cultivation under Tanks amounting to 2352 acres, the Assessment on which is 13,668 Rupees - but as this increase for the most part was on the Cultivation of the later Crop of lands which this year yielded only one Crop the increase of Revenue has been Counterbalanced by a decrease of Fusly Issy or Assessment of the 2d Crop which was obtained last year of 12,762 Rupees making the net increase of Assessment only 906 Rupees - The increase of Cultivation under Nalahs is small only 335 Acres and not met by a corresponding increase of Revenue being the net result of Changes in all the Talooks - The falling off in well cultivation of 997 acres and Assessment 7,992 Rupees is attributed to the submersion of some Wells within the beds of Tanks cultivated last year and to the relinquishment of this cultivation by Ryots not having means to prosecute it. The decrease is for the most part in the Talooks which comprize the Sub Collectors charge - The foregoing comparison between the cultivation of the last and present year is made upon the lands actually paying revenue, after the deduction of Caboolate waste in the Puttahs - But the

Fort St. George 8th January 1852 -

the Board seem to require some remarks also on a comparison between the Caboolate or Dittum which will be seen in Statement No. 4 (Col. 12) The Decrease Rupees 5,1711 is attributable to the Tahsildars themselves striking out of the Caboolate, lands which having been in waste several years there seemed no probability of their being sown - but which had hitherto as usual been retained in the Puttah and deducted at the Summabundy as Caboolate Bunjer As a general rule, my orders are that land which has been left unsown for 3 years should not be retained in the Puttah but be deducted at the Caboolate by the Tahsildar himself after due enquiry, for it is not land that could fairly be called part of the Ryots Caboolate or land he wished to retain - There is much difficulty in Bellary on this point but I am satisfied that the principle adopted by me is as a general rule correct and proper -

9 - The remission on the gross Settlement and the net demands as compared with last year are exhibited in the following Abstract -

The net demand for the year under review was 22,43,162 Rupees in the preceding year the Demand was 22,52,335 Rupees. The Decrease was therefore 9,173 Rupees below the fusly 1259 or 0-7-0 per cent But the revenue of the year, fusly 1259 was large being 3-4-0 per Cent above the preceding year 1258 fusly. This Decrease is the result of a gross increase (166953 Rupees) and a gross decrease (Rupees 176,126) as will be seen in Statement No 2 to which I beg more particularly to refer.

The remainder Rupees 14,190 is the difference of Remissions granted on Lands sown in both years - which are explained in the Statement and seem to require no further explanation in this place - The sum remitted after the close of the Jummabundy was in consequence of the destructive storm on the 5th & 6th May it amounted to 10,009 Rupees and will be found more particularly noticed in para 16 of this Report.

Statement No. 9 contains the usual information on Regud Cowle expired lands. There were 6254 acres of Land the Cowle of which expired in the year under report of this 3787 Acres Rupees

" Col 131. 6423 were fully reclaimed; and 1467 acres Rupees 2561 not fully reclaimed

" Col 1270 129 To fully clear these last named lands, measures, as far as practicable, are being taken - I have here to explain with reference to the Boards observation in para 8 of their Proceedings that the heading and entries in Columns 2 to 18 of the Statement sent last year are correct - The Black Land held under permanent Cowle at the commencement of Fasly 1259 included the land brought to account in that year and properly so, as it was under the Plough at the commencement of the year, the entry in the Statement is the same as has been heretofore entered - And so with respect to Col 16 the Average Amount of Collection on each plough is what has always been entered and is in accordance with the Form sent

See Proc: Board of Revenue dated 18th March 1841 & Col 4 of the Enclosure A.

sent by the Board in their Proceedings dated 18th March 1841 - The writing the word "Cultivation" was a bare mistake - In the Pinduce account that heading is correct I have therefore retained that heading in the account and made an entry to shew the average quantity of land under each plough which will perhaps be sufficient it is 40 Acres per plough.

14 - In the Statement No. 6 is entered the usual information regarding the Gonchy or Partnership Cultivation the assessment on which amounts to Rupees 3,69,638 and is some what less than last year - The Demand on this Kind of occupation was 2,72,032 Rupees and bears a portion of 10 3/4 per Cent to the Totab demand of the land Revenue The decrease is chiefly in the Bungami or temporary Gonchy -

Stat. No. 5.

The Gonchy is of two Kinds Rayem Gonchy or Permanent partnership and Bungamy partnership dissolvable at pleasure - Where the Rayem

Rayem Gonchy is (as is generally the case) a partnership in profitable lands which a body of ryots have at some period brought under cultivation at their joint cost it is a desirable mode of cultivation - But where it is (as is sometime the case) a cultivation imposed upon a body of Ryots of high assessed or unprofitable land which could not otherwise be retained in cultivation according to the Custom obtaining in some places - I think it a very undesirable mode of cultivation and one which should be abandoned as much as possible - But it is the Custom especially in some heavy assessed Well lands to resort to this mode of obtaining the revenue which would otherwise be lost - The remedy that should be adopted to obtain a willing consent of the Ryot is to reduce the assessment - but the Board have refused to allow of this being done and the old and objectionable practice continued -

The Bungamy Gonchy is generally for lands taken up on Cowle tenure which

which requires much capital for the first expenses. After it is brought under full cultivation the partnership is dissolved and the land generally divided Among the copartners. As the Hungamy Goochy is when a Ryot land is left by the ryot dying and emigrating and is for a time cultivated by other Ryots who are not willing to be permanently saddled with it.

15- The Amount of land actually sown up to the time of making the Jummalundy was 2624243 Rupees the assessable waste was 45022 Rupees and the Vysac Dawle or Estimate for the Wet land not sown at the Jummalundy was 143269 Rupees. The Amount of uncultivated land deducted from the Puttahs at the Jummalundy was 287091 Rupees for the particulars of which I will refer the Board to the Statement. I would merely observe that the Caboolaty and Shamilat deductions have been entered in State-ment No 4 in the order prescribed by the Board in para 7 of their Proceed-ings in my last Jummalundy Report. The

16- The deductions on the actual cultivation Amounts to 75019 which are for the most part the ordinary deductions and being fully shewn in the Statement Cols 164 & 175 seem to call for no further special notice in this place with the exception of the remissions Col 171 made after the Jummalundy which require special notice as ordered by the Board of Revenue in their Proceedings dated the 9th June last. These remis-sions Amounting to 10091 Rs were (with the exception of 82 Rupees) given to Ryots who had suffered from the storm of 5th & 6th May. Many sufferers had by that time paid their Rists in full and to them no remission was of course given. But to those who still owed balances which could not be realiz-ed until the crop was secured it became necessary to grant the indulgence recom-mended by me and authorized by the Board. But the remission granted did not Amount to the sum I had antici-pated. It was found expedient to grant 10009 Rupees only; and the Annexed Memorandum shews in what Talooks and on what account it was given.

The Item 82 Rupees is a remission on account of the Talary Enam of Magalum entered in the Summalundy Demand which by the instructions of Government 17th June last has been retransferred from the Circar to the Enam lands.

17- The net Demand Ryotwar, after all deductions is Rupees 20,61,615.00 shewn in the following graduated Rent roll to this must be added the sum of 2,655 Rupees (Col. 181) for suppressed cultivation subsequently brought to account making the whole Demand of Land Revenue settled Ryotwar for Fusly 1260, Rupees 20,64,270. The Demand on land actually sown including the Twysac Double for the 2d Crop Amounts to Rupees 20,30,038. The Enam land cultivated during the year in Cicar and Enam Villages amounts to 1537227 Rupees: Statement No 11 contains the usual information on the Enam Cultivation, and the annexed Abstract from it shews the Amount cultivated in Cicar Villages in last and present years, it will be perceived there is a decrease in the wet Cultivation owing to the want of water.

The decrease in the Ayacut Rupees 1189 is the result of Resumptions of Enams on failure of heirs resumptions in consequence of the owners being unable to discharge the Quit Rent resumptions of unclaimed Enams. and the results of transfers and exchanges of Land.

19. The taxes on Enam cultivation for the year under report are.

| | Rs. |
|---|---|
| Sodee or Quit rent (including grain fees) | 162,9 |
| Rent for using Circar water | 79,9 |
| Tuffreek or Tax for Cultivating Enam to excess | 6,9 |
| Total | 179,7 |

To which in order to ascertain the true Amount obtained to Government revenue for Enam Cultivation must be added the Amount of Waste Land assessed on Potails and Ryots leaving their Ashpanum or usual cultivation only partially sown Rupees 19188 making the whole tax on Enam Cultivation 199067 Rupees. The Cultivation of Enams is of much assistance to owners Ryots in paying their rents for the Circar Lands, and were it not for that assistance they could not in many instances meet the demand for high assessed land. They pay almost what they please for the Enam Land and Enam Lands to a great extent are unable to cultivate

cultivate their Lands themselves. The Cultivation of Enam in those districts, where it is large causes much difficulty to the Revenue Officers in making the settlements with the ryots for Circar cultivation.

20. The whole demand on account of Land Revenue for the fusly year was 22,43,162 Rupees of which 21,85,710 was collected within the fusly and 44,704 has since been collected leaving a balance on the 31st October of 12748 Rupees about half of which balance will it is expected be collected and the remainder is considered at present as irrecoverable.

| | 43057 |
| To be collected | 66 |
| | 43302 |
| Balance to be remitted | 4926 |
| | 48228 |

21. At the close of fusly 1259 I reported a balance outstanding on account of that year of 48228 Rupees of which I anticipated Rupees 5171 would not be collected. But a portion of this last mentioned sum as well as the greater part of the recoverable Balance has been since collected. The irrecoverable balance as ascertained is Rupees 4926, for permission to write off this sum application was made to the Board in my letter of 28th October last.

22. I have the honor to annex the usual abstract of the whole Revenue of the District derived from land and other sources for the fusly year under report Amounting to 28,97,612 Rupees exhibiting an increase above last year of 15089 Rupees I have already submitted my report on the Extra branches of Revenue.

23- The Actual collections within the year both the current and arrears of Ordinary and Extraordinary Revenue in all branches during the fusly as compared with the last year were as follows-

| Items | Fusly 1259 | Fusly 1260 | Comparison Increase | Comparison Decrease | |
|---|---|---|---|---|---|
| Ordinary Receipts — Land and Extra Revenue | 28,46,439 | 28,66,426 | 19,987 | " | |

| Total Receipts | 29,22,144 | 29,50,134 | 27,990 | " | |

The increase of Collections of Ordinary receipts is partly on account of a large Stamp Revenue this year, also from larger Collection for suppressed Cultivation and resumed Enam Lands carried to the Sevoy Jummah since the Jummalundy- The increase under extraordinary receipts is chiefly refunds of Collectors salary for adjustment of accounts.

24- The Statement of Sevoy Jummah required by the Board of Revenue is herewith sent and I beg to annex the following abstract of the same- Statement No. 16.

Fort St. George 8th January 1852.

It has hitherto been the Custom for the Collector himself to dispose of with reference to the Board of Revenue, balances on account of the Sewoy Summah. But it appears to be the intentions of the Board that these balances should be regularly reported and receive their Sanction for remission. I have therefore the honor to request sanction for writing off the sum of (667-15-6) Six hundred and Sixty Seven Rupees fifteen Annas and Six Pies which is shown to be irrecoverable for the reasons stated. The Board think it desirable that in future the Sewoy Summah Collections on account of Current and arrear Revenue should be distinguished in the Monthly Demand Collection and Balance Statement. I would however beg permission to point out that the Sewoy Summah consists of so many items the adjustment of which in each Month will be attended with difficulty — — — — — — — — that with the Board's leave I propose to settle the Demand

See Board's Proceedings 12th June 1851.

Fort St. George 8th January 1852.

Demand of this Item of Revenue once every year during the time the Talook accounts are audited and to shew in the Monthly Statement the Demand Collection and Balance only on account of arrears and the Collection only on account of Current Revenue. The Demand at the end of the year will then exhibit only those items which are properly items of Demand. all others improperly entered will be struck out of the account in my Office and for such balances as are irrecoverable if the Board desire its application for remission will be made as in the present instance. This course I trust will meet with the Board's approval.

The

Fort St. George 8th January 1852

The above abstract shews a net increase of Charges of 86496 Rupees. The principal items of increase are Collectors Salary requiring no explanation 48616 Rupees and repairs of Tanks and watercourses, the Charges for which were increased by the damages done by the storm in May. The increase of Sadenward Charges 417 is owing partly to increase in the expenditure of Stationary and partly to the higher price of Oil. the increase on account of Government Trees is owing to New Topes planted. The items of decrease require no explanation except the last Pensions Vizt which is owing partly to lapse of Pensions and partly to sums due not being drawn

26. With reference to the Minutes of Consultation under date the 11th January 1845 I have the honor to subjoin a Statement of Advances and recoveries on account of Tuccavee

There

29- There remains only to draw the Boards attention to Statement No. 19 which contains the Census of the Population for the District taken during the year fusly 1260 in obedience to the Boards orders noted in the Margin and drawn up on the Form prescribed by the Board But I did not content myself with a return of the population taken merely in that shape but directed the same information in detail to be entered in the Census as Mr. Roberts the late Principal Collector procured for his Return of the Population taken in fusly 1242, and I think the Board will be pleased to have a similar Statement to the one sent by Mr. Robertson in Fusly 1242- and I beg therefore to submit the accompanying Statement No. 20 - The Population as compared with the last Census

Circular Order of the Bd. of Revenue dated 7th Feby 1850 Do. 25th Do.

taken in the fusly year 1260 has increased by 102896 and it now Amounts to 12,29,599 souls and averages 94 to each Square Mile, 4½ to each House and 4 10/16 to each family- I am not disposed to attribute this increase entirely to a real increase of the Population in the period of 10 years comprised between the last Census in fusly 1250 and that now taken- But I believe it shews the actual increase during the period of 18 years between the year fusly 1242 and the present year fusly 1260 - In the Census of fusly 1250 there was an actual decrease of Population below fusly 1242 without any apparent cause for such decrease- And there is reason to believe that the Census was not accurately taken during that year - As strict orders were given for taking the return in the present year and the Form prescribed by Mr. Robertson was again resorted to I think the present return may be depended on as pretty accurate and the increase shown a real increase above fusly 1242 rather than above 1250 fusly - The annexed is an Abstract of the Population Return - The Census does not include the Soldiers and Sepoys and Regimental followers -

" 13 Statement of Rent roll of Government lands
" 14 according to the Boards form of 2d July 1849.

The

2 The Settlement of the Talooks of this Division was commenced at the beginning of December, and completed in the early part of April 1851. and with the exception of Codecondah Talook, which was settled at Pennacondah the Settlement of the five Talooks in accordance with the views of Government conveyed in the Board's Proceedings of the 23d. November 1849 was completed within the limits of each Talook - But small portions to a great extent at the Cutcherie station of the Codecondah Talook, and the assembling of the Ryots at that place would they not only have been attended with difficulty but also with the danger of disseminating the disease throughout the Villages -

3 The year under review was less favorable for Dry cultivation than the preceding Fasly. During the early part of the season, and until the end of July very little rain had fallen and only a small extent of land had been cultivated - In august and September the rains were very heavy and continuous and a considerable extent of

was then brought under cultivation but vegetation during these two Months was very rapid, and owing to the frequent rains and moist State of the Soil the Ryots were unable to use their Bullocks in clearing their cultivation which therefore became over-grown with weeds and Grass, and the yield was unfavorable -

4 In consequence of the failure of rain during the Months of May, June and July only a few Tanks received a sufficient supply of water in time, to enable any great extent of wet land to be cultivated during the season of Cartie but during the heavy rains in September many Tanks in the three Talooks of Pennacondah Kodecondah and Madugsecrah were filled and the supply flowing into some of the large Tanks was for many days so great, that except for the fortunate occurrence of the rain having been unaccompanied with wind many reservoirs would probably have been much damaged -

5 The Anantapoor and Thurmaverum Talooks it will be seen by the above Statement were less favoured, and therefore in these Talooks there was a dificiency of cultivation which however was more than covered by the increase in Pennacondah Kodecondah and Madugserrah Talooks but in addition to the Ryots of the Anantapoor and Thurmaverum Talooks having been able from a dificiency of supply to cultivate only a portion of their wet lands a considerable quantity of their Vyaak produce which had been stored, as well as a great quantity which remained in their fields, was destroyed by the storm on the 5th and 6th of May — In Pennacondah and Kodecondah Talooks the ryots also lost a considerable quantity of produce from the same cause, but the destruction of produce and property of all kinds was more severe in the former than in the latter Talooks —

6 The particulars regarding the Tanks are subjoined and it will be observed that the cultivation of the fasly under review exceeds that of 1247, and approximates to that of 1253 both of which were very favorable seasons —

7 Cholera. I regret to report it prevailed more or less in five Talooks of the Sub Division from July until November — The number of persons attacked with the disease amounted to 1246 of whom only 488 recovered, the proportion of deaths being about 6 to 10. Subjoined is a statement shewing the casualties and the number of persons attacked by the disease in each Talook —

The greatest portion of the larger description
cattle entered in the above Statement are cows
chiefly of value for breeding and young bullo
which had not arrived at an age to be
brought from the Jungle and trained
cows of the description above alluded
are allowed always to remain in the
Jungle and the greater loss in the Dis
mum Salork is therefore accounted
by the grazing ground in the
Salork being
This most disastrous loss has
spread great distress amongst
the cultivating ryots and among
some Inaturpha Ryots and
much time it is feared must
elapse before so great a number
of Cattle can be replaced.

10 The prices of Grain fell
below the average of the last ten yea
and in consequence of the fall in
Rice the staple produce of my Division
being greater than in other Kinds of grain
difficulty was experienced by some Ryo
in meeting the Circar Kists. The subjo
=ed Statement exhibits the price of
grain.

Fort St. George 8th January 1852.

Although the failure of rain in the early part of this season, and subsequent excessive rain caused a deficiency of Rupees 10,366 in Dry Cultivation, and a further diminution of Rupees 1988 was caused by lands under Nullahs and Bowries having been flooded, and also having been left Waste by flight of Tenants. There was an increase of Assessments with loss amounting to Rupees 16,901 which if deducted leaves a net decrease of only Rupees 4,453.—

12 From the subjoined Statement it will be observed that there is a decrease of Rupees 929 in the Gross Assessment of the Taluq under review. But there was an increase of Rupees 5,848. derived from a decrease of Cabooleat Waste which being deducted diminishes the decrease

Fort St. George 8th January 1852

decrease is Rupees 7,440. The increase of remissions amounts to Rupees 4688 of which the sum of Rupees 3983. in accordance with the orders of the Board of Revenue was remitted from the Bariz of the Taluq, on account of the damage done by the storm on the 5th & 6th of May; and remaining portion is for the usual remissions attendant on an increase of Wet Cultivation. From the increase of remissions and decrease of Gross Settlement, an increase of Rupees 1,103 saved from suppressed Cultivation brought to account with other minor items, being deducted leaves the decrease 6,031 or 1 Per cent.

13 The amount of increase and decrease of Cultivation is exhibited in Columns 17 and 18 of the Comparative Statement No. 2. The increased Cultivation arose from different causes

Ryots who held no Puttahs in the Fusley undertook Cultivation to the extent Rupees 9875. Old ryots increased their cultivation to the amount of Rupees 38,868 sometimes last year waste in consequence of a more abundant supply in some of the Tanks this year brought under cultivation, and some new lands were taken in exchange for old. An increase of Cultivation to the amount of Rupees 24,595 took place on lands not sown in the preceding, and to the amount of Rupees 1,511 on lands cultivated in both years. Difference in the rates of Peishcush remissions. Variance in Collection on shrotriem and Coole tenements. Losses incurred during the Fusly with savings from sundry small sources are items to be considered in reference to this increase —

Fort St. George 8th January 1852.

Of the demand on Land the produce of which had been destroyed, the greater portion had been collected previous to the storm, and of the remainder it was found necessary to remit only Rupees 3983. but the loss sustained by Ryots by the destruction of produce &c amounts to only one Fifteenth of that experienced by destruction of Cattle, Houses and other Kinds of property — To enable those Ryots who have suffered, to purchase Cattle and rebuild their houses Taccavee will be given as far as practicable, but this cannot be done to an extent to afford effectual aid to all sufferers and some further measure of indulgence may perhaps yet be found requisite. But in addition to the loss experienced by Ryots by injury to produce and property of other kinds a vast number of Tanks and other public works of irrigation have been damaged, for the repair of which in my Division alone, Government will probably find it necessary to sanction an outlay of not less than 180,000 Rupees. To avoid unnecessary loss of Revenue and as a measure of relief to the Villages to which these Works belong, it will also probably be found desirable that

that the repairs should be commenced without delay, and carried on as speedily as possible, in which case the expenditure of large sums on numerous works scattered throughout the Taluks where the greatest loss has been experienced will be the means of giving employment, and affording relief to many sufferers.

The decrease of Goonchee Cultivation to the amount of Rupees 2940 and Puttahs 14 below last year may be attributed to the submersion of land in the beds of Tanks and to the lands under certain Tanks having been thrown waste for want of water.

29 By the statement No. 11 it will be observed that the total Cultivation of Enam lands both in Circar and Enam Villages amounts to Rupees 197292. The Enam cultivation under the Tanks in Pongondah Kodecondah and Cadungeerah Talooks exceeds that of the previous year by Rupees 7441 and under the Tanks in Anantapoor and Dharmaverum there is a decrease amounting to Rupees 8248, hence the Net decrease in the cultivation of the Enam lands amounts

Sir,

Bt. No. 3076.

From the Collector of Cuddapah — Stating that he does not believe that the present Petitioner Venkatasoobiah's case is one which under the Board's instructions to which the Secretary's letter refers it would be their wish that he should view with Leniency

Para 1. I have had the honor to receive your letter of the 17th of November.

2 The Petition which immediately gave rise to the Board's present instructions was one from Venkatasoobiah, brother of Soobiah who was dismissed from his Office as Curnum of Goobagoondum Jumbuldinny in Coilgoontlah for aiding the insurgent Nursimha Reddy.

3 In your letter of the 15th of August the case of the other Curnums of this Village is referred to, and the Board state that they will not insist upon their restoration to Office if on enquiry there should be good ground to believe that they were guilty of the acts for which they were dismissed.

4 In replying to that letter I & this

this day, I have declined to recommend their restoration to Office on the ground that there is reason to believe that they collected money in aid of Nursinha reddy and forwarded it to the insurgents, and as Petitioner's brother was curnum of the same Village, was implicated in the same acts, and was dismissed for the same cause. I do not believe that the present Petitioner's case is one which under the Board's instructions to which your letter refers, it would be their wish that I should view with lineney

Sir,

BR No. 3077
From the Collector
of Cuddapah

I have had the honor to receive your letter of the 15th of August.

2 Since I addressed the Board on the 30th of July, the widow Nundamah has died leaving no heir, and her share of the Curnum will revert to Government.

3. As regards Chetumbaram, the Petitioner in Nos 1216 and 1980 of 1851, an enquiry in the Talook at the settlement just concluded, led me to believe that he was active in assisting the late Narsimma reddy in his outbreak, by collecting money from various parties and forwarding it for the use of the insurgents.

4. Although judicial proof of the fact failed before the Criminal Court, I am unwilling to recommend that he should be again placed in any Office of trust.

(33)

Sir,

3d No. 3097
From the Collector of Cuddapah — } P. 1.

In the Board's Endorsement on Petition No. 2231 of 1851. I am directed to call for an early report on Petitioner's case, with reference to certain allegations set forth in a previous Petition No. 1284 of the same year.

Reporting upon the accompanying Petitions Nos 1231. 1284 and 2614 of 1851.

*Herein enclosed 2.

Petitioner was a Carkoon of the Hauaily division of the Summalwady Talook, and was desmissed from the office to which he now prays for restoration under the following circumstances.

3.

At the close of the settlement for Fusly 1259, certain ryots represented to the Collector that there was a considerable amount of concealed cultivation in the Villages of Dhodiem and Cumbaldinna in the division of which Petitioner was the Carkoon.

4.

The Carkoon of another division of the same Talook was directed to

to examine the lands and on the Proceedings being received at the Cutcherry the examining Carkoon and his accounts were examined by the late Acting Collector, and the following result was obtained.

Dhodiem.

| Fusuljasty | 245 2 7 |
| | 344 6.10 |
| Dhodiem — Total | 589 9 5 |

5.

The Carkoon who examined the lands affirmed that previous to his examination he was informed by the Villagers that

that a remission of one third had for some years been allowed instead of one fourth on lands irrigated from a spring and that the annual difference amounted to what is stated above, and the Ryots nominated to assist in the enquiry also stated that the land had been watered from a spring.

A Statement was made by several Ryots of Cumbaldinnay corroborative of the fact that a second, and even a third crop had been cultivated on lands upon which no fusuljasty had been assessed, and the Missul Reddies admitted the fact, excusing themselves from blame by shewing that they had but lately been appointed to office.

6. Petitioner's defence was that he had examined the lands in Dhodiem from Fusly 1255 to Fusly 1258, and that in that period the land in question was not watered from a spring - that he had also examined the cultivation in Cumbaldinnay in Fuslies 1257 and 1258, when no second crop was raised on the lands now charged with a Fasuljasty, and on these grounds he submitted that he was not to be held accountable for errors in his return for Fusly 1259 when he had not made any

examination.

The Acting Collector considered that this deference was inadmissible as an excuse for either fraud, or negligence, and that in either case Petitioner had shewn himself unworthy of further trust as a Carkoon - He was accordingly dismissed from Office in February of the present year together with the Curnams of both Villages, the decision in whose case was approved by the Board on review, in their Proceedings of the 28th August 1857.

In his appeal to the Board, the Petitioner has urged his former defence, and adds that the lands in Dhodiem having been examined by the Tahsildar in Fusly 1254, and those in Cumbaldinnay by a Goomastah in Fusly 1255, without the facts now elicited having been discovered, it cannot be maintained as has been asserted by the examining Carkoon and those nominated to assist him, that the frauds now charged have been carried on for a series of years also that as the Acting Collector took the word of the examining Carkoon as to the Ryots of the two Villages having

Fort St. George 8th January 1852.

having admitted the facts to be as he stated them and did not examine the Ryots themselves the decision of the case rests upon the single word of this one witness, which Petitioner urges is insufficient for his conviction.

9. About the concealment in Fusly 1259 there appears to be no question, it is not denied by the Petitioner and the whole amount charged has been recovered from the Ryots. An examination of the Ryots who cultivated the land, as to whether they had carried on a similar cultivation in former years might possibly have settled the point, but it is hardly probable that they would have made an admission which would have laid them open to a demand for the whole arrears

10. In the present case I do not think the petitioner can claim from the Board an order for his restoration to office, as at all events he is not able to deny that by his carelessness, if not by dishonesty, the Government might have been subjected to a loss of Rupees 589: but if the Board be pleased to leave his case for my consideration I shall not object to consider that his dismissal has already subjected him to loss to re-employ him on a fitting opportunity.

cultivated part of the Village, at the present time are its Puttahdars. It might however be otherwise The Puttahdars in the ordinary course of things, might have been Soodras, or any other caste people nevertheless, the Brahmins in question would still have been entitled to a one fifth share of the revenue derived from such portions of the area of the Village as were cultivated; the fact of their having, as Puttahdars, fallen into arrear with the Government for what is due under the permanent assessment on the fields for which they hold a Puttah, having no concern whatever with their position as persons, who by right of inheritance, have succeeded to the enjoyment of the of the "Punchama Bifsa" allowance. If for the balance now outstanding against them a few or several of the fields comprised in their present Puttah, should pass into the hands of other occupants, they would, in fact, then be placed in no worse position than the greater portion of the Trishwaykumdars of the District, who, in few instances, are the actual cultivators or holders of the Soil from which the Trishwaykum allowance is periodically drawn. They have received, since the assumption of the country a certain quota. in the present case a fifth of the annual realizations

realizations from the Village, and are entitled to nothing more. Their interest in the Village is wholly independent of and uncommented with the right to hold and cultivate its lands which, to my mind, ought to be treated in all respects as other ammany holdings. It is not clearly known how it happens that the lands are in their hands under a single Puttah, and I submit that the point is of no importance, since the Government assessment has not been paid by those who ought to have paid it.

3 Your Board further enquire whether for reasons assigned, it will not be better to put up the whole Village in one lot. The Village I beg to state, has not been settled and assessed as a whole; but like every other ammany Village in this District, comprises various fields each bearing an established fixed Teerwah. The Pretriumdars in question have therefore a right to hold only such of these fields as may be specified and included in their Puttah. The fields that are so included, are being cultivated either by the Pretriumdars themselves or by their under cultivators. Therefore for the present

arrear,

arrear, the cultivated portion could be sold and no more - I doubt whether a tract so extensive as the entire holding of the Settrumdars, would find a purchaser, for the possession of a title such as he would acquire, would involve no particular advantage, whilst, under the practice of the District, he would lose his right in any part of his purchase that might per chance remain waste and receive remission

Proceedings 1st May 1847 Para 3 & 8th May 1848

Thus, on reference to the system observed in Salem; in justice to the defaulter, and with advertence to the orders of your Board frequently communicated, that only such part of a holding shall be brought to sale, as will ensure the realization of the outstanding arrear, I submit that it is advisable in the present instance also, to sell only those parts of the Bramins putcut land as will suffice to meet the balance due by them. It is further to be borne in mind that by arranging, as heir been done, that the fields selected for sale be conveniently situated for future cultivation, an opportunity is affordeds to the present actual cultivaters of buying what, it is due to be presumed they have a fixed interest in, and by the purchase of which they hereafter become occupants in direct communication with the

D.J.T.

with the Officers of Government, instead of holding, as hitherto, under the persons whose chief and remote interest in the Village is their enjoyment of the Purchama Hifsa grant. It might also be urged by the Puttahdars that a deviation from the general rule of recovering a revenue arrear by the sale in lots of separate fields, had been detrimental to their interests by contracting the limits of probable competition for their lands.

Salem District. Collector's Cutcherry. 8th December 1851

/Signed/ H.D. Phillips Collector

B. No. 40. Proceedings

Having certain instructions relative to the fields proposed to be sold in the Village of Jagatalao and observing that it will be for the Collector to suggest whether the whole Village should be put up for sale in one lot or portions only forming convenient Holdings in separate lots.

39.40

Thereon, 1. The Board observe that the Purchama Hifsa tenure is similar to that of Shrotriem and of grants generally on which a jodee is payable - the Holder is responsible for the Beriz, and on his failing to discharge that amount the grant ceases to have effect. In the present case the holders having fallen in arrear, the Village is liable to resumption, but it seems probable that if the character of the tenure is pointed out to the parties, they will adjust their quarrel and discharge what is due.

The

The Collector is therefore requested to adopt this course: and in the event of their failing after this warning, to pay up their arrears, the Board will bee prepared to recommend the resumption of the Village.

2 The rights of the Holders as Punchama Hifsadars, and those of the Ryots are quite distinct as the Collector justly observes. In the present case the grantees are the Puttahdars (how the Collector cannot explain) and their rights as such will be forfeited next if the assessment of Government on the land is not discharged.

3 The Board enquired whether the Village could not be put up in one lot, as Mr Phillips had reported that it was held by the Shrotriemdars themselves under a single Putta - for it is their wish to prevent minute Subdivisions of Landed Property when such Subdivisions are not necessary as the lands are enjoyed under a single Puttah, and the Puttahdars cannot with any shew of reason require that the lands should be broken up and sold in lots there appears to be no necessity in the present instance

instance for Subdivision - The entire Holding is liable for the arrear, but sometimes it is desirable that so much of it only should be sold, as may be conveniently Separated, and form a distinct Holding, and as may be sufficient to cover the arrears

In the case of the Village in question, if after the forfeiture of the Punchama Hifsa tenure, the holders are defaulters as Puttahdars it will be for the Collector to suggest, with reference to the foregoing remarks, whether the whole of the Village should be put up for sale in one lot, or portions only forming convenient Holdings in Separate lots

The Government observe that their orders of 9th May 1848. Para 18 declaring "the transfer by sale or otherwise of certain Enams to be unobjectionable so long as the transfer carried with it the obligation of service to be rendered" applied only to the particular classes of rent free lands then under reference Viz. Agraharums and similar grants conferred in Endowments of religious or charitable institutions. Those orders had no reference to Mocafsahs, which if they could be regarded as Service Enams would belong to the classes falling under the provisions of Regulation V. 1831. and therefore exempt from the Jurisdiction of the ordinary Civil Tribunals. It seems clear however that these grants can no longer be deemed Service Enams at all, the duties for which they were primarily bestowed having

having many years since ceased to be either rendered or required. They have now become mere personal grants entitled to consideration so long as they may continue in the original family but inalienable from it, and should be reported for orders on lapses occurring among their holders.

system of fixing the amount to be adopted within the limits of the Cantonment.

Bd. No. 64.

From the Collector of Rajahmundry

Sir,

1. I have the honor to acknowledge the receipt of the Board's Circular letter dated 10th January 1850 forwarding Copy of Rules for the Cultivation and Settlement of land revenue, and requesting that a Copy of them may be returned with my remarks.

2. I beg to forward herewith a Copy of the rules with my remarks entered in half Margin.

Collector.

No. 1.

Rules for the Settlement of the Revenue from the Land

Dittum or engagement of the Ryots.

The Rabooliat or Dittum shews the engagements of

Challenges are allowed here in order to rectify the inequality of

of the Ryots for the year. It differs from the Dittum of the preceding year only, as land from various causes may be newly taken up, or relinquished. Many Holdings continue the same from year to year.

2. The Dittum shall be formed at the commencement of the season for cultivation and shall be closed as early as practicable. An abstract of the Dittum, prepared Villagewar, will be forwarded by the Tahsildar to the Collector every 15 days, the Coolwar or individual Chittah being retained in the Talook Cutcherry.

3. The Tahsildar will

2. This Dittum is made in February and March for Main land ... which require to be dry ... with ... crop bears. ... Zemindars make the ... Summer of one ... and the Dittum ... of the ... existing ... lines.

will be held responsible for the preparation of the Dittum Accounts. His personal attendance will be given as far as practicable, and he will depute the principal Officers under him to such Villages as he cannot personally examine.

orders have been issued already.

Occupation and Relinquishment of Land.

4. Occupants of Land are at liberty to enlarge or contract their holdings in both cases by entire Fields.

5. Where a field is large, subdivision will be permitted, if the separate portions will form convenient Holdings, but not otherwise. In cases of relinquishment a Rajeenamah to that effect will be required, without this document, the party will not be relieved from liability for

for the rent-

6- Land, when relin-
=quished, shall be in
proportions of what is
usually termed good
and bad Land, so that
the Field or Fields
given up may form an
eligible holding for
another occupant- But
a deteriorated Field
or Garden or a Field
altogether unprofitable,
may be given up
without restriction-

7- A Separate
number or Field is
the Minimum extent
allowed for a holding.
If the Field is of
such extent as may
readily admit of sub
division, or though small,
if the separated portions
will form convenient
Holdings, as Gardens for
instance, sub division may
be made but the premises
consent of the Collector is
necessary in every case-

8- A Field may be
taken up by two or more
persons jointly, but division
of the Field will not be
allowed afterwards, unless
sub division can be con-
=veniently effected, as above
required-

Boundaries of Fields and remeasure-ment of Fields when Fraud is suspected-

9- The extent and Boundaries of Fields have been either determined by Survey or are duly recorded at length in the Village accounts- The Remeasurement of a Field will not therefore be allowed except with the consent of the Collector- If from suspicion of Fraud or on other sufficient ground it is determin-
=ed to test the recorded measurement, increase and decrease res-
=pectively will be adjusted

9. The extent and boundaries of the various fields have not been determined here in an accurate way. It is therefore the custom in pursuance of the Challenging system to make no difference in the assessment of a field which is larger or smaller than it appears to be in the accounts, because the first has already been adjusted by the ryots themselves. Measurements are only made of

adjusted according to local
usage in favor of or
against the occupant as
the case may be-

10. It is the duty of
the Village Officers and
Subordinate Revenue
Officers in charge of a
Subdivision to see that
the Boundaries of
Fields are preserved on
affidavit to that effect
signed by the Potail
and Curnums and
Counter signed by the
Subordinate Revenue
Officer, in verification
of the truths of its
contents, shall be
appended to the Adangal
accounts in each year.

11. Petitions Trans
fers of Land engage:
ments, as an occupant
entering land in the name of
his

his servant, Dependant
relative or other, shall not
relieve the bonâ fide
Holder from liability to
pay the assessment of
such land.-

12- Transfer of land
by sale, Gift or Mortgage
shall be duly recorded in
the Village Register-
Transferees become
responsible for the
assessment of the land
thus conveyed-

13- Land transferred
should be in entire
Fields and shall
consist of proportions
of good and bad according
to the construction of
those terms in Para 6
above.

14- Land left Culti:
=vated in consequence of
the neglect or absence of
the owner may be
taken up for the time
being by any other person
but

but the right of the original
Holders to reoccupy the land
within a given period &c
according to the usages of
the District shall not be
superseded thereby - As the
temporary occupation of
land as above described is
intended to provide in the
best way circumstances &c
will admit for the &c
Revenue of the year the
owner will not be exonerated
from such balance as may
have accrued in consequence
of his neglect or absence -

Assessment - 15. Land in the &c
Revenue accounts is &c
termed Dry. Wet, and &c
Garden, specific rates &c
of Assessment fixed &c
by Survey or otherwise
obtain for each &c
description. Dry &c
applies to Land &c

DG

on which Products are &c
grown by means of the &c
falling rains alone. Both
Wet and Garden land &c
are irrigated by artificial
expedients as Wells Tanks
and River Channels -

16. Irrigation is &c
provided either by the &c
Government or the Ryot -
If by the latter, due &c
allowance is made for the
expenses incurred, consisting
of original outlay, and &c
other charges, according to
the nature of the work -

17. The assessment
is fixed for the most &c
part with reference to the
productive power of the
land and not with &c
reference to the description
of Product grown &c
Irrigated land bears a &c
higher assessment than land
dependant

dependant on the falling of rains alone - In some places the particular product regulates the assessment - this rule, where it prevails, will continue till superseded by the principle which fixes the assessment on the soil, without reference to the article grown - With this exception, occupants of land are at liberty to grow whatever products they please without restriction, provided the regulated assessment is paid - Thus occupants of Dry land are not restricted to the ordinary dry grains only if the moisture obtained by the periodical rains will admit

admit of their growing other products on the said land, and holders of irrigated land in like manner may apply the water at their Command for the raising of not only Paddy but of Cocoanuts, Tobacco, Chillies, and other articles -

18 - Lands irrigated by Tanks and Channels are classed as one Crop and two Crops as the case may be - The assessment for the 2d. Crop in two Crop lands is usually 1/2 of that fixed for the 1st. Crop - If both Crops are grown, 1/2 of the assessment will be levied. if one crop only is raised the demand will be limited to 2/3d. of the assessment fixed for both Crops -

Im

19. In single Crop lands if a second Crop is raised, the assessment of such Crop will be entered in the accounts as Fuzul Jastee - On the other hand, the assessment of the 2d. Crop in 2 Crop lands when such 2d. Crop is not grown, will be entered as Fuzul Commen-

20. Some irrigated lands are assessed with a consolidated rent without distinction of one and two Crops - This rule prevails where the certainty of water will allow - In such cases, the consolidated amount will be levied without reference to the number or nature of

of the Crops raised -

21. The tax for irrigated land is usually limited to the entire assessment for two Crops - All additional produce as a third Crop of whatever kind may be enjoyed without further imposts, provided the same is cut before the ensuing season for cultivation and provided the land has sufficient repose before the Crop-ping of the next year -

22. An additional demand is not usually made on account of additional Crops raised on Dry lands dependant on the falling rains alone - Where it is otherwise, the practice will not be disturbed -

Land

Additional assessment when leviable.

23. Land will be liable to an additional Demand under the following circumstances.-

24- Dry land converted into wet by means of irrigation provided by Government will be liable to the assessment fixed for irrigated land of a similar quality in the same or neighbouring Village.-

25- The same rule applies to Garden land converted into wet under irrigation provided by Government.

26. When a 2nd Crop of whatever kind is grown upon Dry land with Government water, an extra cess will be imposed for the occasion according to the usage of the District in addition to the

the Dry assessment, and such extra rate will be entered in the accounts either as Rupees or as Faszal Jasstee according as one or the other term is in use.-

27- Water cannot be deverted from the land to which it is ordinarily applied without the permission of the Collector.-

28- A Ryot is not permitted to give up the Cultivation of the 1st Crop in two Crop land and Cultivate the 2nd under the impression that a portion only of the assessment will be imposed.- Fuzul Commee as defined in Para 19 will be allowed for special reasons only, as failure of water.-

29. In seasons of drought when the means

of

of irrigation fail or in any particular case in which there is an abso= =lute deficiency of water, Ryots may apply for permission to grow= =Dry products on wet lands. The assessment of adjoining Poonjah= =lands in the same= =Village will be levied in such cases, and the difference between that rate and the ordinary= =assessment of the land will be entered in the accounts as Teerwah Commee.—

Pasture Lands. 30. Lands usually ap= =propriated for Pasture may be occupied for= =that purpose at the assessment fixed for the same. Land entered for Cultivation in the

accounts

accounts, and occupied for pasture, will be charge= =able with full assess= =ment.

31. In some Districts a portion of the entire= =assessment of a Put-but is remitted for grass.

32. The Dettivum, as has been already explained, shows the engagements of the occupants of Land for the year. The Settlement on the other hand shows the Demand with the abatements allowed with reference to Season—

Remission. 33 Abate= =ment will be allowed—

First. For wet lands left uncultivated in conse= =quence of the failing= =rains and of the means of irrigation having failed In such cases the entire assessment of the= =land will be remitted. The same indulgence will

will be accorded to
Dry land uncultivated
and to land ploughed
but not sown inconse-
-quence of a failure of
rain. Such remissions are
entered in the accounts
as Cabooliaty or Dettum
Bungur, but no remis-
-sion will be granted
if land is left unculti-
-vated in consequence of
neglect when means
were at hand.

Secondly. For wet
crops which have entire-
-ly perished from drought
or inundation where loss-
-es are sustained from
these causes such portion
of the assessment will
be deducted as may ap-
-pear proper under the
circumstances of the case
with reference to the
outturn of the whole
cultivation belonging
to the party claiming
remis-

-sion and to the
advantages arising from
the prices of the year.
a crop will be consider-
-ed to have perished
if it does not come
into ear.

No claim for
remission on account of
loss of crops will be ad-
-mitted if it has not
been verified by the
Tahsildar or by one
of his subordinates
under special orders
from him.

Thirdly. Destruction
for Fallow (Padoocawl)
for a limited period ac-
-cording to the usage of
each District will be
allowed, and the party
will be at liberty to
retain the land in
his Patta but for such
period free of assess-
-ment.

Remission.

34- Remission will not be allowed for failure of Dry crops nor when ain land has been left waste for Cunsa or Zemindary Land-

35- Remission will not be allowed for Garden land left waste, nor for failure of Garden crops-

36- Omission on the part of an occupant to cultivate the land Wet, Dry, or Garden comprised within his Holding or any portion thereof, when means are available will not be admitted as a plea for remission-

37- As a general rule, Remission will not be granted under any circumstance for parts of a Field left uncultivated. Exceptions will

will be allowed for the present to meet local usage in this respect but the general rule should be enforced as far as practicable-

38- The appropriment of land used as seed beds. (Natungul) will be remitted when a crop is not raised, if sanctioned by the usage of the District but not otherwise.

Dasabundum Remissions- 39 Dasabundum Remissions as now sanctioned will be allowed as usual. If the irrigation of Dasabundum lands is neglect; the local Officers will report the same to the Collector-

Teasgaree- 40- Remission to certain castes denominated Teasgaree, Vundra, &c will be granted according to custom occupation of land under fictitious

fictitious arrangements
in order to obtain a re-
duction under this
Head will not be al-
lowed. Land jointly
held by the privileged
class and others will
be entitled to Remission
to the extent only as
may belong to the former.

Wells and other sources of irrigation constructed with private means

41. The general question of Well cultivation is under consideration and rules will be so fixed hereafter. Mean-while the present prac-tice will not be dis-turbed.

Waste Lands culti-vated on Cowle

42 Waste lands taken up for cultivation shall be liable to the following rules.

Land 5 years un-waste and under shall not be entitled to re-

favorable terms.

Land upwards of 5 years waste, re-shall be entitled to remission according to local usage.

43. Cowle will not be allowed to Fallow of the description re-noticed in Clause 3rd Para 33.

44. In special cases as clearing the land of Nutt as in Bellary and Cuddapah, spe-cial terms will be accorded according to the usage of the District.

45 Land will not be given on Cowle where the party can-not satisfy the local authorities that he has the means of fulfilling his engage-ment. Nor will an occupant of land be allowed to give up or

contract

contract his Holding in order to cultivate waste land.

46. The lowle rates will be levied whether the land is cultivated or not.

47. Waste land unassessed will be assessed with reference to the rates for land of similar quality in the vicinity.

48. Land may be occupied for planting Topes on the terms specified in the printed rules framed for that purpose.

Back yards. 49. The Back yards of Ryots will be exempt from assessment according to local usage.

Enams. 50. Enams will be continued as usual, but Enams, on which crops may be raised by means of Circar water, will be liable to a specific demand for the water.

Enams

51. Enams abandoned by their owners and Mauiems belonging to religious and charitable institutions which are gone to decay will be resumed.

52. Enams on which a Jodee or quitrent is payable will be resumed if the Government Demand is not punctually discharged.

Rewards for information regarding concealed cultivation.

53. Information in regard to concealed cultivation if proved, will be duly rewarded. If given before or at the Jummabundy, the informant shall receive a reward not exceeding 50 per cent of the amount embezzled or defrauded, if given after the Jummabundy the reward shall not

not exceed 30 per Cent of the said amount. The sanction of the Board will be necessary in each case before payment is made.

Return of Cultivation. 54. The Return of the cultivation shall be shown in Form No 2 (printed) this Statement will be forwarded to the Tahsildar in the middle and end of each month signed by the Patail, Carnums and Subordinate Revenue Officers of the Turka or Sub division. The Shasildar will submit an Abstract of the same to the Collector within the 10th of the following month.

Adungul Accounts and Jummabundy Chittah. 55. As soon as the Village Officers will prepare the adungul accounts. These after verification by the Shasildar and the Officers under him, will form the Materials for the Jummabundy Chittah. The Survey Accounts and other standard records will be used when necessary for purposes of verification.

56. The Jummabundy Chittah shall show the particulars of the land held by each Ryot with the assessment thereon, and will be drawn up according to the Form supplied to the Board of Revenue. The signature of each Ryot will be attached opposite to the particulars which have reference to him.

57. It is desirable that every item of Demand should be included in the Jummabundy Chittah, a Separate Statement called Sevoy Jummah will be allowed for such items only as cannot be brought into the Jummabundy Chittah.

Sir,

In submitting for the information of the Board of Revenue a Copy of a letter dated 25th Instant received from the Special Assistant Collector of Masulipatam accompanied by a Warrant in which he requests me to seize certain Company's Paper stated to belong to the Head Sheristadar of that District but held by a relation of his in Nellore I have the honor to state that the Cattle on being called upon has surrendered the Bonds without the intervention of the Warrant, and they are now deposited in my Treasury; but although they are possibly the bona fide property of Ramanoojarow there is nothing on the face of the Papers to show that such is the case or that there has been

been a collusive transfer, in as much as they never appear to have been held in his name, the Bonds bearing the endorsement of a different person, one Majetty Baupunnah.-

2. S. Venkata Rungarow also denies that they belong to the Head Sheristadar.-

3. Under these circumstances I shall feel obliged by your being so good as to obtain the opinion of the Board as to whether I should be legally justified in forwarding the Bonds in question to Mr Bird or in at all detaining them in my custody.-

knowing that the 5 Company's Bonds of the 5 pr Cts loan described in the Margin standing in the name of Soonderaghery Venkatarangaya nephew of the suspended Head Sheristadar of this District are in reality the property of the latter and that they have been collusively transferred to the present holders in order to avert their attachment under my Warrant of the 25th September last. As the Bonds will be collusively transferred to other hands and so escape attachment if measures be not immediately taken to secure them, I have the honor in handing you copy of the Warrant of attachment to request that you will be good enough to give it effect on the premises of S. Venkata Rungarow now in Nellore, and in case the Bonds are not forthcoming, that you will be good enough to call on him to state what he has done with them to enable me to seize them under the provisions of Section VII Regulation IX of 1822.- does not state that in the present state of the inquiry in this District any delay in giving effect to the Warrant will certainly result in the loss of the Bonds which you will receive value in the aggregate Rupees The Bonds were blank endorsed by the holder

holder Majetty Bapannah and given to the suspended Head Sheristadar who states that he filled up the blank with the names of his Nephew abovementioned and his Niece C. of Salt during the last 10 Fus lies in the charges of every description during the same period in the Nellore District.—

November last, forwarding an Extract from a Despatch from the Honorable Court of Dr bearing date 30th July last, on the subject of reducing the customs duty at present leviable on import Salt.—

2 A Statement is now sub-mitted exhibiting the sales during the last 10 Fuslies, and the charges of every description incurred during the same period. The gross receipts for these 10 Fuslies or 6780 Gs sold amounts to Rupees 553,809 from which deducting the charges the net profit derived by Government amounts to Rupees 462,744 or nearly Rupees 68-3-2 Gauce. The aggregate charges on the 6,786½ Gauces sold are Rupees 91,059-11-6 the cost per Gauce is Rupees 13-6-8.—

3. To enter free competition with the native manufactured article foreign Salt must be produced and landed on our Coast at the average cost above indicated Viz.t Rupees 13-6-8. unless this were effected I do not suppose that the contemplated reduction of the existing duty to the loss of the profit derived by Government from the Monopoly Salt, could affect the Salt Trade

B. dt No. 25.

From the Coll.r of Bellary - Reporting with reference to Para 13 of the Extract from the Minutes of Consultation of the 5th December 1848 accompanied by the Board's Proceedings of 18th January 1849, upon the extent of the lands cultivated with Cotton in the Bellary District for Fuoly 1260.

With reference to Para 13 of the Extract from the Minutes of Consultation of the 5th December 1848 accompanied by the Board's Proceedings under date the 18th January 1849 I have the honor to report upon the extent of the lands cultivated with Cotton in this District for Fuoly 1260-

2- I have herewith transmitted for the Board's consideration a Taluq Rawar Statement marked No. 1 of the Country Cotton cultivated in this District in Fuoly 1260 prepared according to the Form which accompanied the Board's letter dated the 25th July 1850- a brief Statement is also hereunder given of the Cotton Cultivated

Fort St. George 12th January 1852

cultivated in this District during Fusly 1260 and the 2 preceding Fusles

| Class | Acres of Land Cultivated in Fusly 1258 | Do. in 1259 | Do. in 1260 | Comparison of Fusly 1259 and 1260 Increase | Decrease |
|---|---|---|---|---|---|
| Circar Land | 1,65,094 | 1,35,086 | 1,40,075 | 4,989 | " |

The Season was favorable for the cultivation of cotton and good prices prevailed, to which causes the increase is attributable.

3- The ryots have been accustomed to gather the Cotton clean and the orders of the Board contained in their Circular letter dated the 14th April 1851 have been made generally known, but no particular instance has come to my notice of the cotton of this District when packed for sale is frequently adulterated

Fort St. George 12th January 1852-

adulterated, i.e mixed with that of an inferior quality or with raw seeded Cotton for the purpose of fraudulent deterioration - But parties employed in the purchase of Cotton in this District have been put on their guard against such malpractices, the injurious effects which such frauds must have upon the demand for their produce have been pointed out to the ryots - and I have personally impressed this on the ryots of this Poovinkudgully Taluk from whence I now write -

5. The people being unacquainted with the use of the Gins and not understanding how to remedy any defect no benefit arose last year from the use of them generally. To remedy this evil I requested in my letter to you of the 18th October 1851 that sanction of Government might be obtained for the employment of some experienced Carpenters to be present while the Gins were at work. I have not yet received the Board's orders on this request but as there is no time to be lost I have applied to the Collector of Dharwar to send me a suitable person for the ensuing season. It is of the utmost importance to the success of these machines that there should not be a failure again this year. In the Talook of Hoonshudgaly I have just seen a Cotton Merchants who procured

The

7. The Cotton produce of the Fusly 1259 I had brought to the Koozoor from the several Talooks where it had been used and cleaned it with the Dharwar Gins, the Cotton was sold and the ryots who raised it received the proceeds. The Seed I again sent to the Talooks where it was sown by the Ryots in Fusly 1260. Endeavours are made for the improvement of the Cultivation of this Cotton but the ryots generally do not seem to appreciate it. It does not produce in the ordinary Black Lands a better return than the indigenous Kind Common to the District however I perceive a disposition on the part of the ryots in the Western Talooks from which I am now writing to cultivate it more extensively. But this I attribute to the Demands now made for the American Cotton by the Bombay Merchants whose Agents it seems are making advances to the ryots to procure this Cotton. If this

continues there is no doubt but that the success will be greater than unless it should eventually turn out that the situation of the District is decidedly unfavorable to the Plant.

8. In the Hoovinhudgally Talook above where I have just finished the Jummabundy of the present Fusly 1261 there have been sown no less than one thousand seven hundred acres. last year there were 54 acres (see Statement) the crops are pretty good. This Talook borders on the Dharwar Country. It is my intention to confine my endeavours more particularly to the Western Talooks and as success becomes more evidently there, the plant will no doubt be cultivated elsewhere.

Sir,

Bd. No. 19
From the Collector of Cuddapah
Reporting upon petitions No. 237 of 1849 and 671 of 1850

Para 1 I have the honor to report upon petitions No. 237 of 1849 and 671 of 1850.

2 Petitioners claim a half share in the Curnee Kum enam of the three Villages of Cottoor, Puttoor, and Ravoolapully in the Chennoor Talook as follows..

| | Rs | Enam a | P |
|---|---|---|---|
| Cottoor | 679 | 13 | 3 |
| Puttoor | 124 | 15 | 11½ |
| Ravoolapully | 100 | 12 | 7½ |
| Total | 905 | 9 | 10. |

Of which one third share is undisputed, and the remaining two thirds now in question are held by defendants..

3. By the Statement of the complainants it appears that the original head of the family to which the petitioners and those against whom they bring their claims belong, was Jungamiah, who at the time when he had no sons, married his eldest daughter Goorooummah to one Goorooappah, making

making over to him at the time his third share in the Curnekam Enam of the three Villages named above, on condition that if subsequently he had sons born to him half of the Enam was to be returned to him. Jungamiah eventually had two sons, and Paupummah the daughter of the younger son, was married to Soobiah, the son of Goorouappah and Gooramah and her sons Chelamanah, Ramanappah, and Ramanah lived together with Annama raze their mother's brother. Annamaraze had no children, but in 1750 adopted one Soorappah, having three years previously or in 1747 given a document to Chelamanah his nephew, admitting that he and his branch of the family were under the original Settlement made by Jungamiah entitled to half the Enam and claiming that the other half should descend to his adopted son Soorappah; this document is denied by the defendants in the present case. Soorappah died in 1799 leaving five sons one of whom Pedda Sheyshoo having

having quarrelled with Vesuvasuroodoo the son of Chelamanah, the families lived separately. In the Pymaish accounts the Enam is entered as follows.

Cottoor — Shashappah and others in some numbers and Curnum Enam in others.

Puttoor — Shashagherry and others for some numbers, Nagaraze for others.

Ramoolapully — Curnum Shashappah.

and in the Enamaty accounts of Fusly 1220.

Cottoor — Sashappah.

Puttoor — Sungarajoo Chensoo and Byranoodoo.

Ramoolapully — Sheyshoo and Goorroomoorthy.

all being members of the defendants branch of the family, and a note is made that Soobanah and his brother Vengum-buttoo the sons of Vesuvasuroodoo, of the complainants branch of the family were both present at the time of the Survey of the Village of Cottoor.

In Fusly 1212 Soobanah the eldest son of Vesuvasuroodoo preferred a complaint against Pedda Seshoo the eldest son of Soorappah the adopted son of Annamaraze

Annamaraze, that he had made un-
authorized collections in the Village
of Cottoor, and on the 25th of September
of that year Major Munro issued
an order dismissing Pedda Sheyshoo
from office, and nominating Soobiah
to the Curnum's duty: Soobiah having
again complained that the emoluments
of the Curnee Kum were held in de-
posit instead of being paid to him
and also that Chelamanah the younger
brother of the dismissed Curnum Pedda
Sheyshoo, was performing the duties, Major
Munro directed that the Enam and fees
should be paid to Soobanah, and entered
his name in the Vuttoo Puttah given to the
Village for that Fusly. Pedda Sheyshoo's
youngest brother Chenchoo, then complain-
ed that although he lived separately he
had been deprived of his share of the
Enam when his brother was dismissed
and Major Munro directed that it should
be restored to him, if it were found that
he was divided from his brother, and had
taken no part in the extra Collections
for which his brother had been removed.

The

5. The rival claims of the two
branches of the family having again
been brought forward in Fusly 1212 it was
ordered that the question should be settled
by a Punchayet, and their Priest, Sunka-
racharloo was nominated by the Tah-
sildar as the arbitrator. The decision
then made was that the complainants'
branch of the family should enjoy
half of the Enam in the Village of Puttoor,
two thirds in that of Ravoolapulley,
and in Cottoor so much dry land as
would require two and a half toums of
seed, and so much wet land as would
require one toom of seed. Complainants
now produce a document purporting to
be the original decision of the priest
Sunkaracharloo, with his Seal and
Signature and also another document
said to be an agreement to abide by the
decision given by Pedda Sheyshoo of the
Defendants' branch of the family. The
defendants in the present dispute deny
the validity of both of these papers, and
also that of the document said to have been
formerly

formerly given by Annamaraze admitting that half the enam belonged to the complainants family and claiming that the other half should descend to his adopted son Soorappah, and they produce a counter document purporting to be a rajeenamah of all claims on the enam, which they state was executed by the complainants family at the time the question was enquired into by the present Sunkarachariar; on finding themselves unable to prove the authenticity of the document which they said had been executed by Annamaraze. This rajeenamah the complainants declare was extorted from them by Sunkarachariar, who was corrupted by the opposite party but fearful of complaints being made against him, subsequently gave to them the complainants, the two documents which as stated above they now produce, and the testimony of twenty eight witnesses examined at the time by the Tahsildar is adduced to prove that the rajeenamah was not fairly obtained.

6. A complaint was made to the Collector Mr Chaplain in Fusly 1218 of the corrupt conduct of the priest Sunkarachariar, when

when an order was issued to the Tahsildar to investigate the matter but the result is not to be found.

7. In Fusly 1226 Vengumbattoo, the second Son of Visuasmarooroo, made a complaint before the Head Assistant Mr McDonald against Chelamanah and Chenchoo which resulted in their removal from the Curnums Office, and his own appointment as their Successor, on a fixed Salary of two pagodas a Month to be taken from the Curnee Kum Enam, and in Fusly 1228 another order confirming the last was issued, directing that as notwithstanding his dismissal it was understood that Chelamanah still wrote the accounts of the Village of Cottoor and enjoyed the enam and customary fees, the balance of remuneration after deducting the two pagodas payable to Vengumbattoo should be collected from Chelamanah.

8. Chenchoo it appears was also removed from the office of Carnum in the Village of Puttoor on a charge of fraud in the Maramut accounts in Fusly 1228, and was succeeded by Wobelum the nephew of Visuasmarooroo and elder brother of the present complainant S. Nursiah. There is

is no order from the Huzzoor Cutcherry on record upon this point, but two takeeds from the Tahsildar to the Villagers directing that Wobalum should be put in possession of the Enam are produced, and it is known that he actually enjoyed it for some years.

9. The case between the two branches of the family was occasionally revived in Fuslies 1235 and 1237, but no decision was given and in Fasly 1238 Mr. Dalzell then Principal Collector ordered that a punchayet should examine and settle the dispute. In Fasly 1239 Vengumbuttoo and Wobulum addressed Mr. Freese the Additional Sub Collector in support of their claim, but it was rejected on the ground that their names were not in the Pymaish, enamaty, or tarmary accounts, and a similar decision was subsequently given on a similar claim, by Mr. Moorehead, who added that as the transfer of service enams was illegal under Regulation VII of 1831, the defendants should remain in undisturbed enjoyment of the enam.

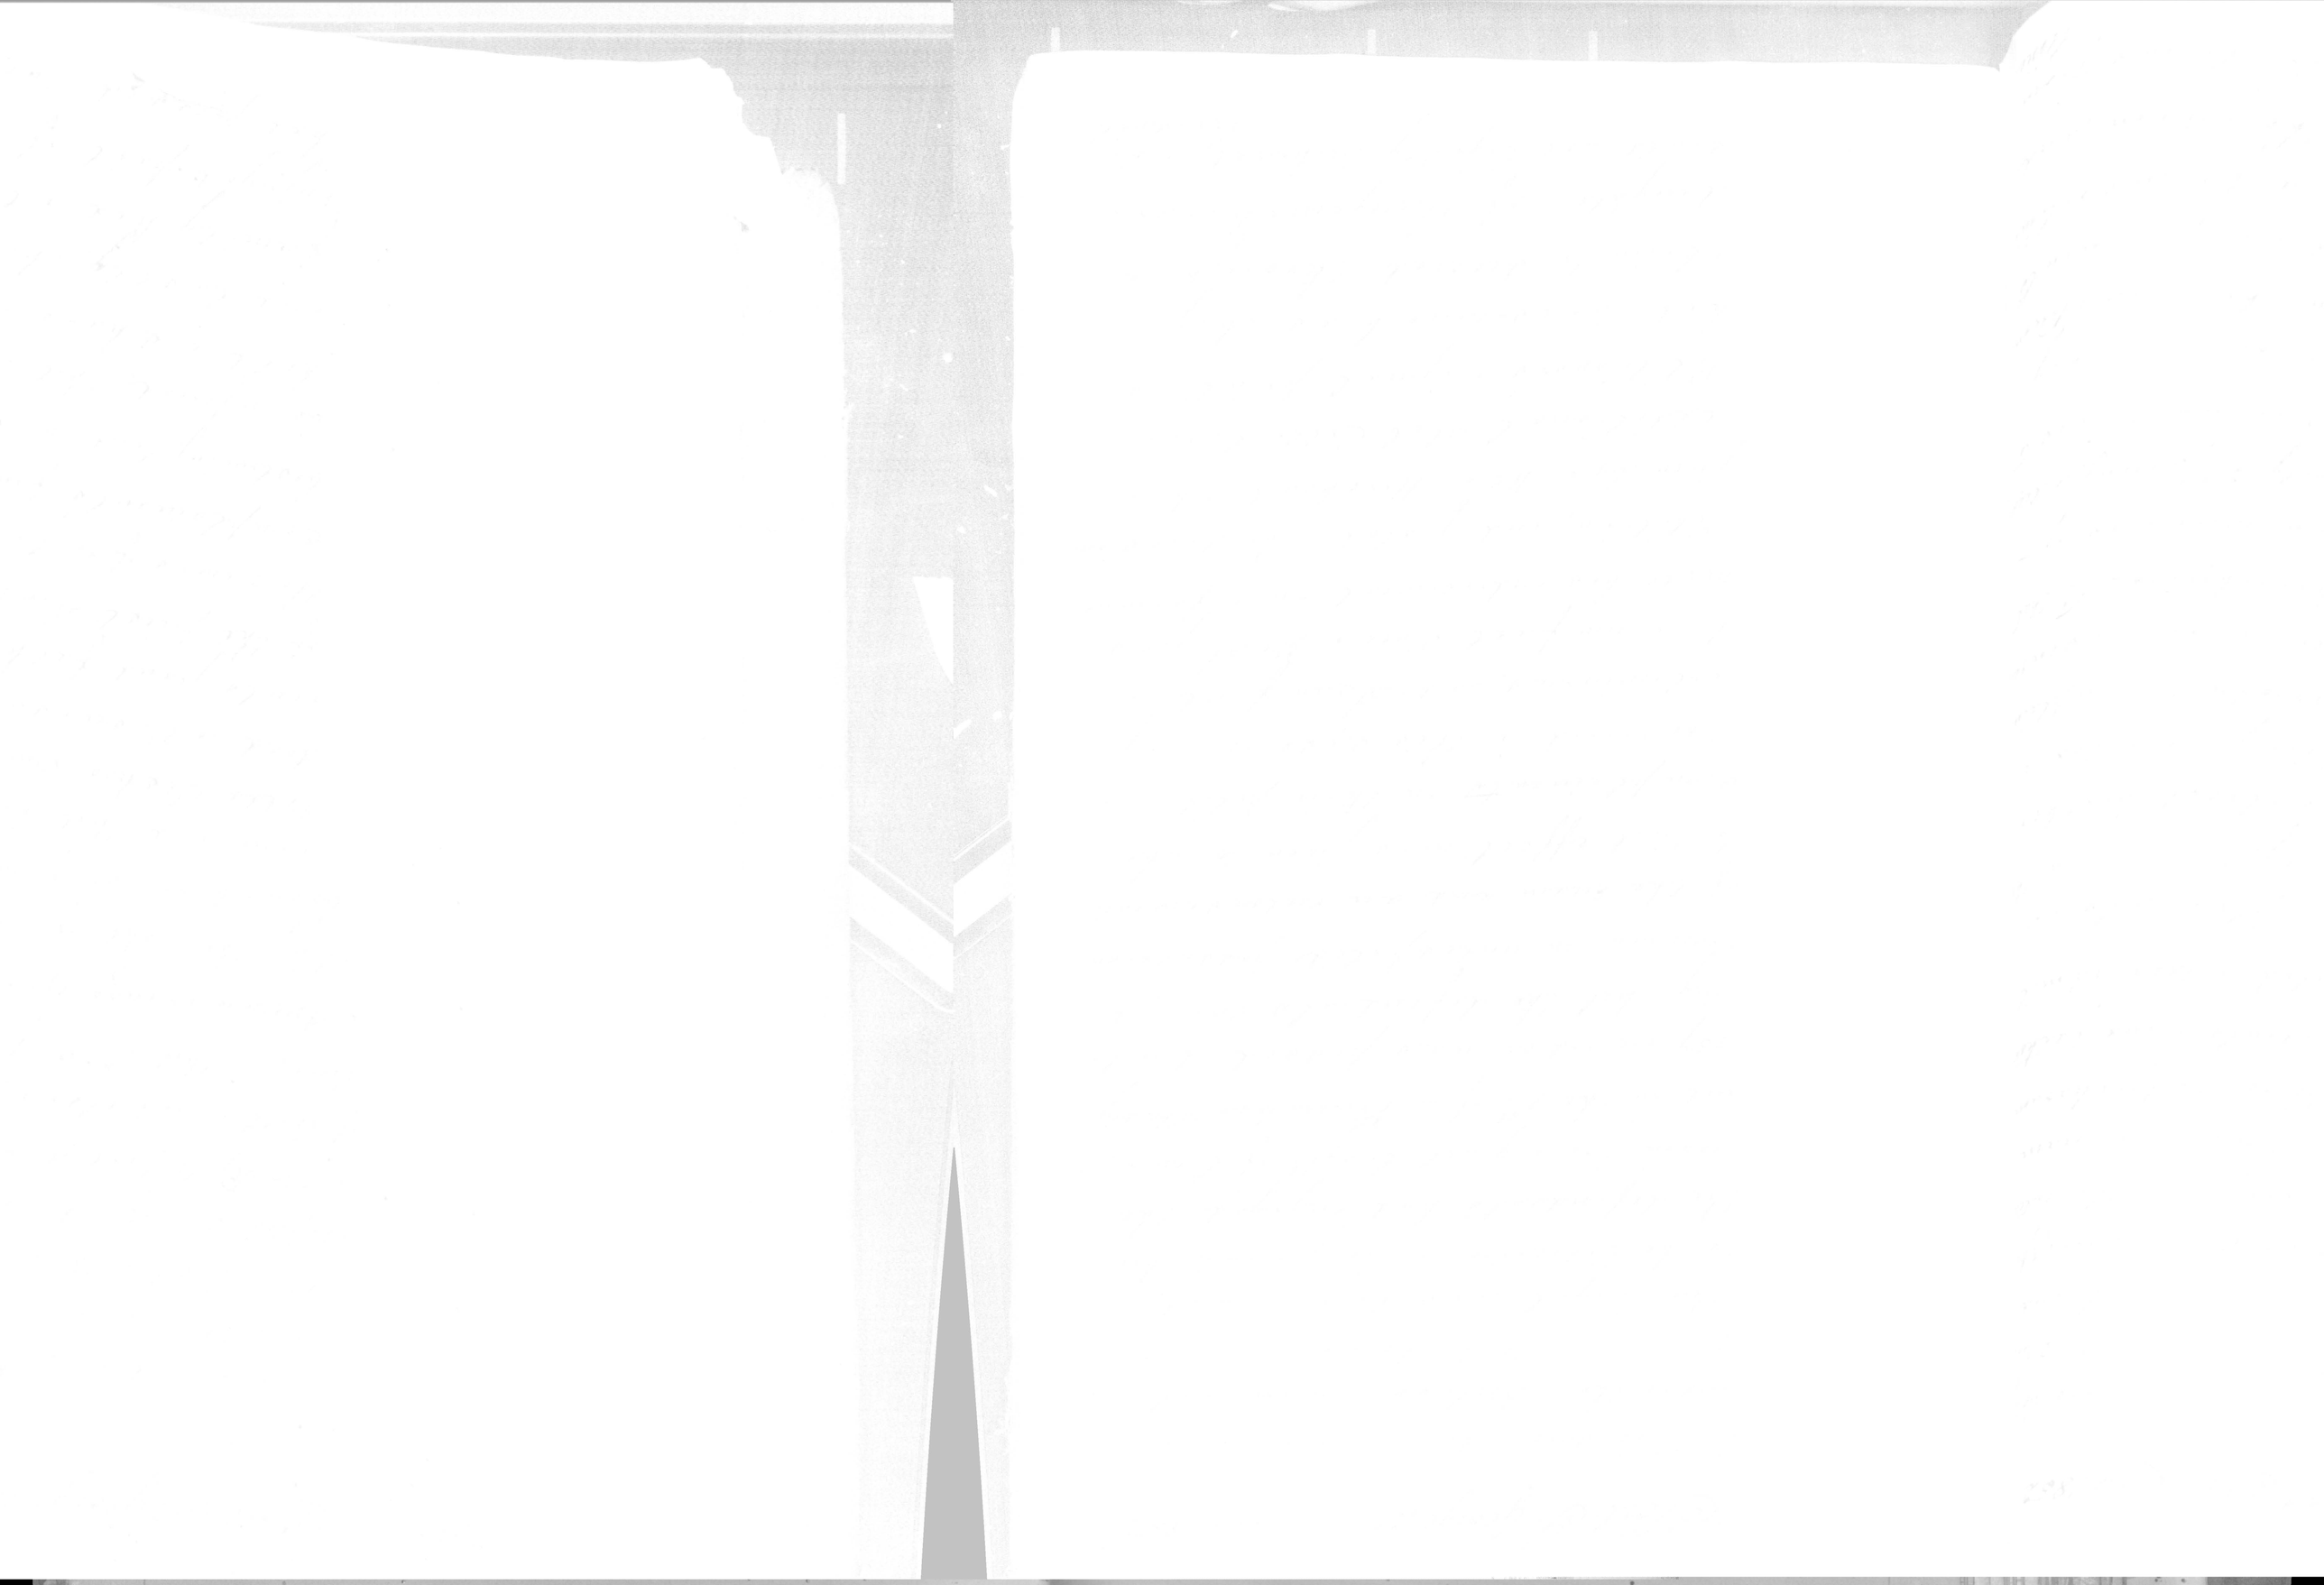

10. The same parties Vengumbuttoo and Wobulum then addressed the Board in petition No. 703 of 1836, which was sent to the Collector for enquiry but no report appears to have

have been made. A second petition No. 1869 of 1843 subsequently received from Mr. Inglis an Endorsement dated the 19th of September 1844, and finally a third petition No. 486 of 1845 having been presented the Board directed the Acting Collector to have the question at issue settled by a Punchayet.

11. The Punchayet being appointed decided on the following grounds that the enam in the three Villages should be equally divided between the two branches of the family 1st that the names of Soobanah the uncle and Vengumbuttoo the Father of the 2d Complainant are entered in the Pymaish Chittah of the Village of Cottoor not as enamdars but as having been present at the time of survey; 2d that 2d Complainants uncle Soobanah was nominated to the Office of Curnum of Cottoor and enjoyed its enam and fees in Fuslies 1212—13 and 14, his name being also entered in the Puttah for Fasly 1213,— 3d that in Fasly 1228 1st Complainants elder brother — Wobulum was appointed Curnum of Puttoor his retention of the Office

with

transmit the claim, and even this point they can only assert and cannot prove. Some members of their family have at different times and for comparatively short periods performed the Curnum's duty, but were employed probably as Gomastahs for a temporary purpose, and their tenure of office was not such as to give them a permanent claim upon its claim. The name of no member of the petitioners' branch of the family is entered in the curnum's list in the Pymaish or cumaty accounts,

and I am unable to see any ground for holding an opinion contrary to those already recorded by Messrs Inglis, Morehead, Freese and Cochrane.-

Respecting the Settlement of the Extra Sources of Revenue for Fusly 1260

Para 1.

Sir,

I have the honor to transmit the annual Statements of the Extra Sources of Revenue of this District for Fusly 1260 and beg to refer the Board of Revenue to the subjoined abstract, from which it will be perceived that there is a decrease of Rupees 54,220-1-0 in the Salt Revenue whilst there is a small increase in each of the other sources with the exception of those of Sea Customs and Abkarry. The net result however as compared with the preceding Fusly is a decrease of Rupees 53571-as 0-2 or 12-4-1 per cent.

2- The great decrease in the Revenue Viz. Rupees 54,220-1-5 derived from Sales of Salt at the Depots of this District is to be ascribed to the unusually increased Sales of Salt at the Madras Cotaurs for the consumption during the Fusly under review.

3- The whole extent of Sales effected at the Pans under my control during the last Fusly compared with those of the preceding one and the total sales in the depots of the adjoining Districts are exhibited in the accompanying Statement in which it will be observed that there is a decrease of Rupees 7,237-12-1 in the Salt transactions of the Pans of this District situated in the immediate vicinity of Madras, in which decrease

Fort St. George 12th January 1852.

is included the decrease which occurred at the Pans of Vellore, and which has arisen consequent on the whole of the Salt manufactured there being under the instructions of the Board of Revenue, supplied to the Madras Cotaurs. The decrease in the Pans above noticed will however be found to have been more than counterbalanced by the increase in the sale of Salt at the Madras Cotaurs amounting in value to Rupees 92,544-4-10. It will also be observed that there is an increase of Rupees 26,111-3-6 in the sales at Soonambutt and Chayoor and Rupees 12,739-8-" in the adjoining Pums of South Arcot, but with reference to the increase in the former, it does not seem to be more than commensurate with the importance of the Pans or with the Sales effected in former fuslies as Marginally noted. The decrease of Rupees 5,093-8-10 in the Pans of Swonnapagoontah is more than counterbalanced by increased transactions at the adjacent depôt of Poongolum in the District of North Arcot. The entire transactions of the year, together with the results of the Madras Cotaurs and the Pans in the adjoining Districts appear on the whole very satisfactory, the total sales exceeding those of the preceding year by Rupees [illegible]

separate letter on the subject for the information of the Board of Revenue should circumstances appear to render it necessary.

8. Under the Head of Sundry Small Farms and Licenses there is a small increase of Rupees 9-5-8 as compared with the preceding fusly. On looking into the details of the annexed Statement, it will be perceived that there are considerable increases under the items of Chunam Shells and Country Soap nut Amounting respectively to Rupees 159-8-0 and Rupees 363, which have arisen from unusual Competition in the Revenues derived under the heads of Tank Fishery fishing in Salt Rivers &c. Sheyroot, and Soorely Sheekas having been much affected by the unfavorable nature of the season, large decreases will be observed under these heads. The remaining items call for no particular remarks.

12. The Statement B exhibits the arrears of Renemue from fusly 1258 to 1259 under the same heads amounting at the close of Fusly 1260 to Rupees 80-5-0 of these Rupees 91-1-3 have been collected leaving a balance of Rupees 713-4-2 due for Fusly 1259. of which Rupees 582-4-11 is irrecoverable as entered in Statement No 4. The sanction of the Board is therefore requested to the same being written off to Profit and loss. The remainder amounting to Rupees 15-3 will probably be realized in a few days.

Fort St. George 12th January 1851.

13. In reference to the Circular letter of the Board dated 27th January 1845, I have the honor further to state that there are no Sugar Manufactories in this District, Jaggery however is manufactured to some of the Villages bordering on the Northern Division of Arcot for the purpose of being clarified and converted into Sugar at the Factories in that District.

Re No. 3035.

From the Asst. Collr of North Arcot.

Sir,

Reporting that Mr. Bourdillon gave out for cultivation certain highly assessed lands on the understanding that in the event of the water proving insufficient only for one crop he will

In the Talooks of this District lying south of the Palaur, irrigated land is assessed without reference to the number of crops it may produce and the Consolidated Rent.

will allow a deduction of 3/8 p. of the Consoli= dated Teerwah and requests to know how far the Board are prepared to extend the indulgence to lands simi= larly situated.

Rent is in many cases too high for a single crop to be re= munerative - The Consequence is that when water fails at the first Crop season, the land is often flung entirely out of cultivation even tho the after supply be good and loss thereby accrues to Government -

S. Chadeesparay Sorapandy Veerinjeepoor.

2. With a view to remedy this evil in three Villages of the Vellore Taluk in which it was more than usually conspicuous, Mr Bourdillon in Fusly 1259, selected certain highly assessed lands which had lain waste from 10 to 20 years and undertook to give them out for cultivation on the understanding that in the event of the supply of water proving

proving sufficient only for one Crop, the Ryots who engaged were to be allowed a deduction of 3/8 of the Teerwah. —

3. Finding that the land had been Cultivated on that assurance I was unwilling to interfere with the ar= rangement and therefore settled the Summa of Fasly 1260. in accordance with it, and the rains having partially failed, remitted from the aggregate Teerwah (Rs 632-10-3) of the lands taken up in all three Villages, (Rs as p) a Sum of 237-2-10 —

4. But I now doubt the propriety of having done so without first making a reference to the Board, for it is clear that the indulgence cannot end with these three Villages but must if the Rule be once broken gradually become of general application - and therefore in applying for instructions as to whether in making the Jummabundy of this Fasly I am to continue the arrangement I beg leave at the same time to enquire how far the Board are prepared to extend their sanction to its intro= duction generally in regards to lands similarly

Proceedings thereon.—

(39.40)

The Board of Revenue do not consider themselves authorized so far to interfere with the assessment of the Nunjah lands in the Sub Division appertaining to North Arcot as to assent without further information to the plan adopted by Mr. Bourdillon being carried out generally as Mr. Ward seems to anticipate.—

2. With regard to the lands referred to, they would wish the remission that has been guaranteed to be given this Fasly but before giving any further instructions on the subject they desire the Acting Collector will refer to his Records to ascertain if such alteration of assessment was made with reference to any Communication from the Board of Revenue He will also state the extent of the land specified as entitled to the deduction in each of the 3 Villages named, as well as the rate of teerwah imposed according to the Pymash &c.

Fort St. George 12th January 1852.

3. In the adjoining District of South Arcot much of the high rated Nunjah land bears a consolidated teerwah as land that may be considered to yield two crops in ordinary seasons. When there is a failure in the supply of water, and only one crop raised 1/8 of the consolidated teerwa is remitted.—

4. Should this be applicable to the land in question, or to any others, the Board consider that the principle should be extended to North Arcot and on this point they will await the report of the Acting Collector.—

5. The Board also desire to know whether or not Fusul Jasty is levied in the Sub Division Palooks and Vellore for lower assessed Nunjah land when a 2d Crop is raised.—

No. 157.

Fort St. George.

Sir

Adverting to your Boards' Proceedings dated the 14th instant observing

Fort St. George 12th January 1852.

Monthly Return of Persons charged with offences under Regulation IX of 1822 for the Month of October 1851.

observing that Column 9 of the Return Marginally Noted had not been filled up, and returning it with a view to the omission being supplied by the insertion therein of the period of imprisonment adjudged in commutation of the non payment of certain fines imposed under Regulation IX of 1822.—

2. I have the honor to state for the Board's consideration, that, under the circumstances explained in my letter of the 5th instant, the commuted period of imprisonment has generally been overlooked in the periodical reports of this District; but that the change rendered necessary by the instructions contained in the Board's proceedings dated the 13th October last will hereafter be made. Those instructions the Board will observe, could not have affected the two cases disposed of by the Acting Sub Collector on the 11th October, in which moreover, the fines adjudged to be paid have been duly realized.—

3. As regards the cases which I myself settled, it will be perceived that some few only were closed after the

Fort St. George 12th January 1852.

receipt in my Cutcherry of the above mentioned instructions. But in these also, I beg to add, the fines imposed have been collected and brought to account.—

4. For these reasons, it has appeared to me doubtful whether your Board would still desire me to re-open proceedings against the accused parties for the mere purpose of formally recording that if the individuals convicted do not pay fines which they have paid, they shall be liable to a certain period of imprisonment. I therefore venture on resubmitting the Return in its original form.—

From the Collector of Salem. ---

Reporting on Petition No. 2583 of 1851 addressed to the Board by one Senga Ummal Curnum of Mundalavady Tripatoor Talook. — States that through the intrigues of the Catcherry servants she obtained no redress from the Collector respecting the usurpation of her Inerafy and her Puttoocattoo land by her Goomastah, and praying for justice. —

Sir,

I have the honor to transmit enclosed the Petition addressed to your Board by the person marginally noted, which has been forwarded to me for disposal, and in order that your Board may be made aware of the character of Senga Ummal's communications of which I have received many, I beg also to submit a translation of it. —

2. This woman is a person who has given me since I have been in the District, so much trouble that I lately intimated to her that I would hold no manner of communication with her personally or in writing and that if she had any thing to say or any cases which to make, she must make it through a Vakeel.

No. 2583 of 1851.

empowered to act on her behalf. —

3. She is clearly of unsound intellect. Though rational enough in regard to ordinary matters, her conversation is wild and incoherent when she touches on the subject of certain fancied grievances. I met her at Tripatoor in November December 1850, and not being then acquainted with her peculiarities, allowed her one morning to waste a great deal of my time by attempting to unravel a series of complaints of kinds which she would insist on making by the road side. In despair of understanding them, I directed her to write her case out, which she did but it was equally unintelligible in that form. From time to time she has addressed me by Lapaul, but her addresses have afforded me no tangible grievance. I once requested the Assistant Collector Mr. Hinderskey to cite her to his presence and see what he could effect, but the depositions recorded before that Gentleman gave me no opening for the grant of redress or the institution of enquiries. Having received

Fort St. George 12th January 1852.

received from her further arrees by post, I resolved on one more trial and had her brought before me at Office, but though I was engaged for two hours nearly in striving to Comprehend what she required, she proved herself so lighty and unmanageable that I felt myself in duty bound not to permit her to occupy my time so uselessly & therefore told her that she must send her Vakeel to me or endare her grievances - To this effect also I have given her an official endorsement, in which my reasons for so acting are shown. This Endorsement she has withheld, although she admits to the order which "from poverty" she says she cannot obey. —

4. Under these circumstances, it may perhaps seem desirable to your Board to ignore her Petitions or require her to present my Endorsement, for, as now re = = presented, it will be observed that any disposal of them by this office, is impracticable. —

I have the honor to shew that Mr. Lockhart the late Collector who was a very just and impartial Gentleman collected and bestowed upon me the 3 years Peervah due to me realized upon my Maniem land & Mr. Dykes too is a just and good character - A better Gentleman than he cannot be procured - It may be said that he resembles Mr. Gley = present as Tripatore Talook is not under the super = = vision of that Gentleman and as he is made the Superintendent of some other Talooks the poor Ryots of the former are reduced to distressed circumstances - Under his Management the Talook Authorities at Tripattoor behaved themselves very correctly through fear they

upon, at present I am unjustly
deprived of all my possessions and
impoverished to such a degree as to render
me quite destitute of even a handfull
of rice, moreover on the decease of
my

my father=in=law caused by the death of his two sons, one of them was my husband, he delivered the accounts belonging to the Mundalavandy Village in charge of one Seraimundy Cooppen Shashiah one Pichaupundithen forcibly got posession of my house, and returned to me the accounts in the care of the said Shashiah. While I was put up in my Mothers house Mr Gleig, and Searamulrow sent for me and made the Entry of the aforesaid Villages in my name.

5 Under these intriguing circumstances I preferred two Complaints to the Assistant Collector while at Vaumbady who taking no notice of them I presented three other petitions to the Collector imploring for redress who handed them over to the Assistant Collector ordering him to make necessary enquiries he accordingly enquired into my case and as for me I had given him proper answers when examined into Moorsky Seethalranyen told me that

Fort St. George 12th January 1852

that the Gentleman would justly dispose of my case. Moreover on my requesting the Collector to procure me the Teerwah for the Space of 7 years which is due to me at the rate of Rupees 5-8-- per year he noted down the same. In another instance while I allowed my land to be cultivated by an under Cultivator for five Pagodahs for 3 years Pauperreddy by the assistance of the Talsildar threatened the said Cultivator and extorted from him three Pagodahs at one Pagodah per year, by which the Ryet left the land waste the Collector then ordered the three Pagodahs which Pauperreddy forced from the Ryet and the land yielding the said assessment of one Pagodah per year to be restored to me and as the order was not attended to I again petitioned the Collector.

6 During the administration of Mr Orr when the Talsildar and the Assistant Collector came to Vaumbady to sell all the unclaimed property that was then accumulated - I went to visit the

Fort St George 12th January 1852

the Assistant Collector at this time the Tahsildar exerted his influence with Seethrampatty and interrupted me and one Seevaramyen also told me that Seetharamyen tore up my three petitions.

7 The Assistant Collector proceeding to Madra Seetharamyen having received a bribe of 10 Pagodas from the Tahsildar proceeded to Ascot where by successful combination with Vathrajee Row and others wholly upset my claim, Vathrajee Row had not only injured me during the time he held the appointment of Moonshy but also has continued to ruin me in conjunction with Ramasawmy Iyer and VenKapyer. Vathrajee Row takes so much interest in this case on account of his relationship to the Tahsildar. as the Tahsildar is not discharged from his situation he is continuing to oppress the subjects as poor as myself.

This Tahsildar who had been employed at

Fort St George 12th January 1852

at the Huggoor on a Salary of 6 Pagodas and afterwards appointed as Acting Tahsildar of Wonalore came to be confirmed in the present footing on the Grant of a pension to Sama Row the predecessor who was suspected of corruption.

8 Poolloor Kistna Row, Sama Row and Rama Row understand every particular connected with me, innumerable are the instances of corruption of which the Tahsildar is culpable through enmity he wrote something against me to the Collector and procured orders there from to the effect that I should elect an attorney to speak for me while I am sound and able enough to transact every thing myself. there is no necessity of my acting as aforesaid. From the time he was made Tahsildar he has been bent upon doing me some injury or other. The Tahsildar having received the indorsement which Kistna Row and Sama Row had made on my petition through Pauper Reddy delivered it to the said Reddy and whenever I ask for the same they absolutely

absolutely reject mine.

9 Whenever the Tahsildar comes to Vanembady he halts in the house of my Goomastah Ramiyer who allows his wife to be Kept by the Tahsildar and his Mother by his younger brother.

10 On Complaining that the Tamarin Trees on the sides of the road were given in contract and that the produce from the same was solely enjoyed by the Tahsildar having procured bribes to the Huzzoor authorities from Pampa Reddy and he himself received a large amount has left the case by itself without making necessary enquiries.

11 By my Goomastah giving the aforesaid accounts my Villages has been under confiscation from the death of the late Reddy.

Moreover being ordered by the

the Collector to attend at his Cutcherry at Ossoor when I went there a Peon of the Cutcherry pushed me down and annoyed me very much as such I request that you will order him to be dismissed from service. If I want to go to the house of Ramasawmy Iyer the Moonsiby I am afraid to do so because he had already told me that if I would come to his house he would order me to be pushed out by my neck. I will come to Madras to attend upon your Board. Venkatachillaien frightens me by saying to me that the Curnum has been registered in the name of my Goomastah and the Village also is to be entered in his name.

From the Asst Collr
of Tanjore ---

With reference to the Board's Extract December 11th 1851 on the Statement of Extra Tent allowance drawn by the Collector of Tanjore and his subordinates for Fusly 1260, I have the honor to state that the period (58 days) for which Mr Bishop drew Tent allowance at Vellenvi is within the

Trivady

the extent admitted in the Board's Extract of 19th January 1843 and 28th May 1840. The necessity for the Collector's lengthened residence at this place is clearly shown by the Collector Sir. H. Montgomery in his letter of the 22nd August 1840 in which he states "The Taluk of Trivady is the "largest and most important in the "district. In it is a great portion of "the works of irrigation of the chief "magnitude, and it is with the exception "of one small village entirely under the "new assessment. The annual Jum- "maburdy makes it necessary that "the Collector should be in it for some "weeks in the year and the due Super- "vision of these works and of the "large rivers which pass through it "makes it very desirable that he should "pass more time there than elsewhere."

As the same explanation applies to the Extra Tent allowance drawn at this place by Mr Morris, further remarks is unnecessary.

The Sub Collector of Tanjore is not furnished with a Cutcherry at his Head quarter

B[d] No 3109.

From the Coll[r] of Trichinopoly }

Acknowledging the receipt of Board's letter of the 18th Instant on the subject of the 2 petitions presented by Vurda Iyengar claiming arrears of Salary and Salemts explanations.

Sir.

I have had the honor of receiving your letter of the 18th Instant on the subject of the two Petitions presented by Vurtha Iyengar claiming arrears of Salary due while employed as Sarvacarry Maramut Gomastah in Lonand Talook during the year 1848.

2 I regret the error I committed in my Endorsement on Petition No 1208 of 1851. in stating that Petitioner claimed payment of Salary at 14 Rs monthly instead of at 7 which I now observe by a second reading of that paper he does.

3. I have reperused all orders and correspondence relative to this mans nomination and beg to state the case for your Board's information.

At the commencement of 1848 Vurtha Iyengar was nominated as one of

Fort St. George 12th January 1852.

of the additional Goomastahs for the preparation of the Jummabundy accounts and directed to proceed to Canara - on the 11th April of that year the Tahsildar of that Talook made a requisition to the Collector for a Goomastah to prepare the Maramut account in consequence of the regular incumbent appoo Rao being under suspension. Mr. William Elliot the then acting Collector declined to nominate any person expressly, but directed Petitioner to do the duty on his additional Goomastah's salary, which was Rupees 7 per mensem during the Jummabundy. Petitioner did so perform the duty up to the 15th June 1848 when the additional Establishment for the annual Settlement accounts were withdrawn. His Salary up to that period was duly paid to him.

5.

On the 1st November following the Tahsildar again referred to the Collector for assistance in the Maramut account Department, and Mr. Onslow employed the Petitioner

Fort St. George 12th January 1852.

Petitioner on a salary of Rupees 7 monthly to be paid out of appoo Row's stipend then undisbursed, reporting the arrangement for the approval of your Board.

Letter 1st Dec. 1848.

6

The Board in reply Extract from Proceedings dated 21st December 1848, withheld their sanction and Petitioner was accordingly discontinued, receiving all dues up to the 25th January on the Cavery Bridge

enquiry being finally adjudicated appoo Row was restored to the service and placed in a less responsible situation his arrears of Salary were not paid him, and they do not appear to have been either drawn or held in deposit.

The Petitioner sets

up a claim for sixteen months Salary at Rupees 7 total Rupees 112-"-", on what data this is based I am at a loss

less to understand. he has received every fraction he is entitled to have, and has no just claim on the Government for service rendered. The man is a hanger on of the Talook, a Volunteer of many years standing, and if he continued to write up the Maramut accounts after Mr Andrews to Reed of the 26th December 1848 he must look elsewhere for remuneration than the Government.
