Instructions for the construction of boundary Marks of fields.

Individing fields of red land, you will mark the division by a bank of earth or stones but in black land you will always mark the division by setting up boundary stones, because the Pallu or bank of earth would injure the black land by overrunning it with long rooted Grass.

Instructions for the restoration and preservation of boundary Marks of fields.

Where the boundary stones put down at the Survey have been removed or lost, they are to be replaced in the following manner.

1. If removed from fields still occupied by Kadeem Ryots or their descendants they shall be replaced by the occupant.

2. But if the land be occupied by a new ryot the boundaries shall be restored in one of the two following ways.

Fort St. George 19th October 1843.-

1st. If the Meerasidar of the Village was the renter during the decennial lease and if he or his descendants continue to hold the Meerasy the stones shall be replaced by them.

2nd. If the Village was rented to any other person the Reddy and Curnum shall cause the Village servants to replace the boundary stones this is just because it is thro' their carelessness that the original limits have been lost.

3. In the Mauneum lands the boundaries to be replaced by the Mauneumdars.

4th. In the Circar waste land at the expense of the Circar.

5th. If the foregoing instructions for restoring the boundary stones are in any instance neglected, it will be the duty of the Tahsildar to proceed to one or two Villages and replace the stones and the charge will afterward be collected from the individuals by whom they were required to be replaced and if after such example the other Villagers shall not execute the above direction, they are to understand that the same rule will be

8.

To the Chief Sec.y to Government Reporting on a communication from the Acting Agent to the Governor at Vizagapatam transmitted with the Extract from the Minutes of Consultation dated 12th September last relative to the arrangement proposed to be made for liquidating the pecuniary liabilities of the Vizianagrum Zemindar at Benares.

Mem.d 2 Oct.r 1843

E 1.

I am directed by the Board of Revenue, to acknowledge the receipt of the Extract from the Minutes of Consultation under date 12th Ultimo forwarding for their consideration and report copy of a communication from the Acting Agent to the Governor at Vizagapatam on the subject of the pecuniary liabilities of the Vizianagrum Zemindary at Benares and the arrangements which the Acting Agent proposes to be made for their liquidation.-

2- The extent of the liabilities which the Zemindar has newly contracted at

Paras

at Benares are stated by Mr Smollett to amount in the Gross to about 8 Lacs of Rupees, of this sum 4 Lacs are said to be secured by the Mortgage of Jewels so that the liquidation of 4 Lacs only requires to be considered, it is proposed by Mr Smollett to obtain this sum by a loan from Soorja Narrain Row.

3— In the Board's Proceedings upon the Vizianagrum Estate for Fusly 1251 which they have had the honor of submitting to Government it is seen that at the close of that year there was a surplus of Rupees 1,12,061—7—0 and carrying on the account up to the close of

Para 9 the Current Fusly 1253 which will expire July next Mr Smollett has shewn that after defraying all expences of Peishcush charges of Management and allowance to the Zemindar, there will be a net surplus of at least 2 Lacs of Rupees whilst the remaining amount of the consolidated Bonded Debt due to Soorja Narrain Row will only be 1,80,000 Rupees. Mr Smollett has further shewn

Para 9 that the amount of annual surplus from the estate

estate may be estimated at from 1,50,000 to 2,00,000 of Rupees.

4. Narrain Row is not only willing that the amount of the Estimated surplus at the close of the current Fusly 2 Lacs of Rupees should go to the discharge of the Rajah's more pressing demands at Benares, but also to advance as far as 2 or 3 Lacs more upon the same terms and security as his present consolidated Debt viz. 6 per Cent interest and repayment from the Surplus the account will then stand thus, balance of Narrain Row's Debt Rs 1,80,000 and advances of 4 Lacs to defray Rajah's debts at Benares 4,00,000

5,80,000

Say six Lacs the total amount of the Rajah's liabilities which with a surplus of 1,50,000 or 2 Lacs of Rupees may be liquidated in four or five years at the farthest as regards therefore raising the funds there is no difficulty the only question is whether it is expedient for the Government to continue their interference for the gratification of a caprice of the Zemindar from

from which it is not apparent that any good is to result—

5. The grounds upon which the Government were originally induced to interfere in the Rajah's affairs were to free him from embarrassment it is certain that the desired effect has not been attained for whilst the Collector, by the successful management of his Estate, has been able from the surplus revenue, to reduce the consolidated Debt of Narrain Row to 1,80,000 Rs. the Rajah has been contracting others and as seen very extensive engagements bearing a high interest of 12 per Cent. The only apparent excuse for this which the Board can find in the papers before them is the fact mentioned by Mr. Smollett of the amount which it was originally contemplated to allow the Rajah being reduced from 1,22,000 Rupees per annum to Rs. 72,000, only and they feel disposed to allow this consideration to have its full weight

Para 7

6. But after the ill success that has attended the exertions of the Government—

Government Officers in their previous attempts to diminish the Zemindars difficulties the Board are unable to recommend any alteration in the course already suggested by them—

But should the Most Noble the Governor in Council be desirous of extending further consideration towards him they would propose that a reference should be made to the Supreme Government to ascertain the exact amount of the Rajah's pecuniary difficulties thro' the Public Officers at Benares and that if they are found not to exceed such an amount as would render the further interference of Government inexpedient the Acting Agent to the Governor at Vizagapatam be instructed to carry out the arrangement proposed by him with Soorea Narrain Row.

Paras 1.

The Most Noble the Governor in Council proceeds to the consideration of the letter of the Board of Revenue and its enclosure above recorded communicating in reply to the requisition of Government further information on the question of the abolition of the transit duties and adverting to the subject of the proposed Draft act "for amending the Customs "laws of the Madras Presidency, by reduction "of the duty on Exports and imports to 5 "per Cent."—

2. His Lordship in Council deems it necessary in the first instance in

in order to elucidate the general question involved in the correspondence which has been resumed in reference to the desire of the Supreme Government to ascertain the effect likely to be produced on the revenue of this Government by a Modification of the System under which the trade of Ceylon with the ports of Madras has been carried on. to take a retrospective view of what has passed from the introduction of the first measure for affording a partial relief to the trade of the Country, to the present proposition for the entire abandonment of the inland transit duty, at the least possible sacrifice of Revenue, examining at the same time the various modifications which from time to time have been suggested in reference to communications with the Collector of Sea Customs at the Presidency - and it is satisfactory to His Lordship to be able to submit now to the Government of India a result shewing that the great drawback hitherto imposed on the energies and industry of all classes of the people in the Madras Provinces may be removed at

at a sacrifice of Revenue very much below the amount which was at one time anticipated, and considerably less than was sustained by the abolition of the custom duties in the Bombay Presidency -

3. In their Proceedings of the 22nd May 1837 No 247 the Board of Revenue in recommending a scheme for ensuring a partial relief to the inland trade, by confining the tariff to the principal articles of commerce, made the following Estimate, of the probable loss it would occasion - The average Collections of the Sayer from Fusly 1240 to 1244 inclusive were stated at,

22d May 1837.

para 14.

For the Provinces exclusive of

Madras Rupees — 34,28,930-

Add Madras — 55,913-

or in round numbers 3½ lacs, and recommending that the Sayer Collections should be left in the hands of the officers of Government, and calculating that such Collections upon the articles retained in the Tariff in the Gross would not be more than the Net amount actually received from the Renters under the farming system, the Board estimated the charges of Collection as an addition to the above loss at the sum of Rupees ——— 3,00,000 -

making the total loss about five lacs and a half, or ——— 6,33,255 -

4. The Government of India approved and sanctioned so much of this scheme as limited the Inland Tariff to the principal articles of trade, which has since continued in practice, and it is to be observed that the principle of the other changes which were then contemplated is still advocated, being in the opinion of the Board of Revenue the most suitable to the state of the commerce of Madras —

Letter 21 dated 9 January 1837 Para 48

5. The Board further proposed to remove the inequality in trade in Cotton piece Goods and to put the British and the Country Manufactures, on a fair footing, the former, (the staple trade

trade of the Country) paid an inland duty of 5 per Cent, and an additional duty on importation at Madras of which, on export to the United Kingdom, a drawback was allowed reducing the entire duty to 2½ per Cent - British Cotton manufactures were on the other hand subject to an import duty of 2½ per Cent. —

6. The Board were of opinion that the import duty of 3½ per Cent fixed by the Bengal tariff should be adopted at this Presidency both for the import duty and the inland duty whereby the former would be raised 1 per Cent, and the latter be lowered 1½ per Cent, that there should be no drawbacks but an export duty according to the Bengal tariff which would add 1 per Cent to the sea duty, that Piece Goods intended for export at Madras and so certified should be passed at the Land Custom House without payment of the town duty, which was however to be levied if the Goods were not exported, and also that in calculating the town duty an allowance should be made of 1½ per Cent for the reduction in the inland duty —

inland Customs duty from 5 to 3½ per Cent, a further loss was computed at Rupees 366085- which it was expected would be compensated in some degree by the increase of 1 per Cent in the import duty, and 1½ per Cent in the duty retained on export - This it was calculated would amount to Rupees 65000, making, with the deficiency above stated, a total sacrifice of Rupees 935000, and reducing the revenue derived from Sayer to Rupees 3050503-

8- The Board proposed that

the particular duties on Betel, Tobacco, Goods, and Bang should be continued; that the system of taxing the Betel Gardens at Madras should be sanctioned by an act, and that the Hawlat and special duties in Malabar and Canara should be continued -

9. In December 1838 the

Letter dated 10th December 1838

Board of Revenue submitted to Government the financial results of the foregoing scheme for modifying the system under which the transit duty had been levied to the extent sanctioned by the Government of India, as exhibited in the Gross collections under Amanie in

Para 1.

Fusly

Fort St George 19th October 1843.

Fusly 1247, and with reference to the entire relief from transit duties extended to the Bombay Presidency and the declared sentiments of the Supreme Government the Board further stated that the position of the question as it affected Madras, was so materially altered that a much more ample measure of relief than was originally suggested was required for the District under the Madras Government -

Resolution 30th Octr 1843.

10- The Gross Collections under the partial modification first recommended amounted to Rupees 3444362, and the charges to Rupees 720000 leaving a Net revenue of Rupees 2724000 which compared with the average net revenue of the 5 years from Fusly 1240 to Fusly 1244 inclusive or Rupees 3552463 exhibited a decrease of Revenue arising from the change of System of Rupees 828000 which was assumed as the future probable defalcation -

Para 5.

Para 7

11- The Board pointed out that the modifications they had proposed had in no material degree mitigated the disadvantages

disadvantages inseperable from the continuance of the Custom duties, and that in the realization of a Net Layer Revenue of 27 lacs confined to 36 articles the burthen upon trade was not removed - Under these consideration they suggested the retention of the duty levied on the Frontiers of Native and Foreign European States, and the entire abandonment of the inland Customs.

Para 11

The net Revenue from the Frontier duty was Estimated at 5 lacs, and the net loss of Revenue to the state at 22 lacs —

12- Apprehensive however that the Supreme Government might not be prepared to extend to Madras that full relief which had been granted to Bengal and Bombay at the sacrifice of about 22 lacs, the Board of Revenue proposed another scheme which would afford greater relief than had yet been sanctioned, but which they calculated would still yield to Government a net Revenue of from 17 to 18 lacs of Rupees. The details of their proposition are recapitulated in Para 17 of their Proceedings, and

Para 12.

Para 12 to 17

and are briefly as follows —

The Net Revenue now collected under the limitation of the inland Transit duty to 36 articles, Rupees 2,724,000-

of which it was proposed to retain,

1 Town or Consumption duty levied at Madras on the 36 articles (Average Collections) —— 218,000-

2. Consumption duty on betel and Tobacco at Madras and in the Provinces, excluding — Bang, Ganjah, and Groodaub - - - - - - 741,000-

3 Frontier duty —— 62,000

4 Rawlut and special duties in Malabar and Canara —— 304,000

5 Stamp Rowannahs —— 10,000

1,894,000

Deduct charges —— 200,000

1,694,000

and thus the difference would be the sacrifice of Revenue from the abolition of the inland Transit duty, or —— 1,030,000

which would be again reduced by adding the estimated Collections from a New sea duty according to the Bengal tariff, and thus leave a Revenue of 18 lacs, at a Sacrifice of 9 lacs —

and no further steps appear to have been taken in the general question of relief to the Madras trade by the abolition of the transit duty, until the subject was again revived by the Board of Revenue, and the Collector of Sea Customs upon a consideration of the Draft Act "for amending the Custom Laws of the Madras Presidency by reduction of the general "duty on Export and import to 5 per Cent"—

14- In their Proceedings of the 16th March 1843, the Board of Revenue have explained upon statements furnished by the Collector of Sea Customs that the immediate effect of the proposed enactment would be a loss of Revenue to the amount of Rupees 679,000 and they have enumerated the various existing enactments which would require to be rescinded and modified to bring it into operation- The Board were impressed with the belief that the real sacrifice of Revenue which would result from the abolition of the transit duty had been misapprehended, and they again solicited attention to their previous proposition "which involving a loss of not more than 9 lacs of Rupees,

"provides not only for the abolition of the duties "on internal trade, but obviates the necessity now "contemplated of raising those on external "commerce," while by passing the draft act nearly the same amount of Revenue would be sacrificed for a secondary object, without the attainment of those benefits which they had already so earnestly advocated——

Para 9-30&31

15- It would tend to no advantage to pursue the discussions contained in the Boards' Proceedings, and it will be sufficient to observe that the scheme, detailed in their Proceedings of the 13th December 1838 is again strenuously urged upon the attention of Government, and on further consideration of the subject they propose two other items of taxation which had not been included in their former calculations, and which would reduce the computed loss from 9 to 8 lacs. Viz. a tax to be levied on Foreign grain at out ports, as suggested by the Collector of Sea Customs, and the retention of the duty on Timber in Malabar

Fort St George 19th October 1843-

Malabar and Canara - The addition of these items exhibits the following result --

Loss from the abolition of the transit duty, as above stated :- Rupees 1,30,000-

Expected increase from the adoption of the Bengal tariff ——— 100,000

Grain duty at out ports ——— 100,000

Timber duty in Malabar and Canara ——— 30,000

230,000

Net Loss ——— 800,000

16- On a review of the foregoing communication of the Board of Revenue and of the papers from the Collector of Sea Customs which accompanied it, further and more explicit information appeared to the Government to be necessary in order to place the subject fairly before the Supreme Government - All the correspondence up to this period has been* laid before the Government of India and it remains now to consider the reply submitted by the Board of Revenue to the requisition of this Government -

B. of R. Proceedings dated 24th August 1843-

Fort St George 19th October 1843-

24th August 1843 the Most Noble the Governor in Council observes that the Board of Revenue continue to advocate the scheme of which they have always proposed and upon the same principle -

18- They have however suggested further modifications which on a minute investigation of the subject they have found applicable to their scheme - These arise partly from additions to the estimated revenue to be derived from those items which would be retained, and partly from the introduction of new taxes which it is considered may be fairly imposed, to compensate in part for the sacrifice to be made in the entire abandonment of the Transit duty -

First — The additional amount expected from the assimilation of the Madras and Bengal Sea duties estimated at one lac, is now stated to be — Rupees 171,000.

Second — The Town or consumption duty collected at Madras, estimated at Rupees 2,80,012, or 2,18,000 is now computed at Rupees 2,80,012, or

Shewing an excess of Rupees 62,012-

Additional revenue anticipated by the revised system

System for regulating the Revenue from Betel, Tobacco, Ganjah Bang and Godauk at Madras: & Duty on Spirits.-

19. The result of the foregoing proposition may be calculated as follows-

Estimated Loss from the abolition of the Transit duty as already shewn ——— Rupees 10,30,000

1-Expected increase from the operation of the Bengal tariff ——— 171844.

2-Additional Collections of Madras Town or Consumption duty ——— 62,012.

3. Timber duty in Malabar & Canara — 30,000.

4 Duty on Betel, Tobacco, Ganjah &c. at Madras ——— 100,000.

5 Duty on Grain at out ports ——— 100,000.

6 Duty on spirits ——— 24,000.

Remainder net loss to be sustained by the abandonment of the 5 per Cent transit duty } Rupees 541,944

20. His Lordship in Council deems it unnecessary to examine the effects of the changes so fully entered into by the Board of Revenue and the results they anticipate from the abandonment of the 5 per Cent transit duty - The reasons they have advanced in support of the new taxes appear substantially just.

just, and the suggestion they offer, in the event of the Bengal Schedules being applied to Madras as they propose, is expedient - some further explanation on certain points connected with the question might perhaps be desirable, but His Lordship in Council is of opinion that enough already has been stated to enable the Government of India to decide upon the instructions to be given finally to the Government -

21. It may be proper to recapitulate briefly the propositions comprised in the scheme which the Board of Revenue have recommended. They propose to relinquish entirely that

Para 17. part of the 5 per Cent duty which falls upon home consumption, and to retain -

1st Frontier Duty on Native and Foreign Europe an States -

2d The Duty on Betel, Tobacco, Bang, Ganjah and Godauk in the Provinces and at Madras -

3d The Town and Consumption Duties, with a modification of Regulation III of 1812 at Madras -

5th. The Timber duty in the same Provinces, and in furtherance of the views of Government to render the sacrifice of Revenue compatible with the financial state of the Country, the Board have also proposed to assimilate the Madras sea Custom duties with the Bengal Schedules, with the exception of certain special sea duties on the Western Coast, and to impose a duty on spirits, and a duty on foreign Grain at all the subordinate Ports of the Presidency.—

Reg. II of 1812.

22. In the correspondence which has passed the Board of Revenue and the Collector of Sea Customs have arrived at different conclusions. The Board on a consideration of that Officers suggestions although they fully admit the justice of some of his principles have recorded their reasons for considering the statements he had submitted to be unavailable in the disposal of the question at issue.—

23. The Collector of Sea Customs has laboured under many difficulties from

from the want of means to enter minutely into the various subjects involved in the system of the general inland duties. Nevertheless it is satisfactory to His Lordship in Council to observe that the communications of the Board of Revenue with that officer have been the means of eliciting suggestions which might otherwise have escaped their attention and which are worthy of the consideration of the Supreme Government.

To the Offg Secy. to the Govt. of India 25th January 1843. No 74.

24. His Lordship in Council requested that the passing of the Draft Act for amending the Custom Laws &c might be suspended, and it remains only to remind the Supreme Government, that for the reasons which have been stated this enactment could not be passed into a Law and be brought into operation generally without a large sacrifice of Revenue of nearly seven Lacs of Rupees and without any of those benefits which might otherwise at a less sacrifice be secured to the trade of the Madras Presidency. Its relative position to that of Bengal and Bombay would not again require remark, but His Lordship in Council will observe that

14988 Fort St. George 19th. October 1843.

that the late changes which have taken place in the relations of China and India with the British Government, since the question of removing the burthen of the transit duty from the trade in this Presidency was first discussed, and the important consequences which may be anticipated to the trade of British India, have afforded additional grounds for considering the question not merely as one of expediency, but of absolute necessity.

25. The Most Noble the Governor in Council accordingly resolves to submit the remaining portion of the correspondence on this subject, with the Minute of His Lordship the President for the serious consideration of the Government of India, and with his earnest recommendation that the Transit duty to the extent desired may be immediately abandoned.—

26. His Lordship in Council in conclusion desires to record his high sense of the exertions displayed by the Board of Revenue in the investigation of the question submitted to them, and of the zeal and perseverance with which they have sought the information necessary to support the views they have entertained for ensuring its success.—

Ryotwary.

3. The demand under the final Ryotwary Settlement was Rupees 75.0.735-7 exceeding that of the former Fasly by Rupees 1.89386-11-4. There was a decrease of demand under the head of Kursaul or permanent rent of Rupees 5.250 occasioned by a change on the death of D. Venkatesputty Rauz in the tenure of three Villages which had been held by him Vellumby Peddy pollem one of them was brought under Ryotwary or individual settlement, another Polliem was continued to his wife and daughter in law on a fixed rent, the third Tantalour was also let on Moodut a temporary rent and several small Arumonie Villages being similarly settled as the most convenient method of managing them, occasioned an increase in the demand under this head of Rupees 9.188-

4. The aggregate demand on all accounts as reduced and fixed at the final settlement was Rupees 9,35,746-6-11 being 19267-6-8 above that of the preceding Fasly-

Balance

5. Of the above settled demand

Rupees 8,63,442-8-3 was collected within the fasly leaving a balance outstanding at the end of the year of Rupees 72,303-4-7 of which 59809-15-6 was due on the Ryotwary or individual settlement and much of this remained uncollected up to the date of the Collectors report- On the removal of Mr Sinclair which occurred at a most critical season of the year the duties of the District devolved during the interval until Mr Sinclair arrival on the Principal Assistant Mr Conway whose want of confidence in many of the public servants both in the Zemindary and his own Cutchery induced him to remove some and displace others of them and the assumption of office by new hands and the difficulty of finding good servants in the District in emergency the acting Collector states, occasioned confusion and delay in the realization of the revenue and afforded the Ryots an opportunity of concealing their crops and these evils it required his best exertions to remedy on taking charge of the District. He proceeded

into the Salooks and not without considerable diffficultty succeeded in realizing so much of the revenue as above stated.

Collectors report Para 11.

6 Under the Head of Rents there was a balance at the end of the Fasly of Rs 3235-9-11 but the greater portion of this head since been collected.

7 The balance of Rs 5932-15-6 of Cuttoobady on Enams is principally due in Enams on which the Cuttoobady was re enhanced some years back by Mr Sicese which has led in some instance to the deser = tion and non-cultivation of the Lands by the Proprietors. There was also a balance of Motarpha to the amount of Rupees 3237 -14-8.

Collections Motarpha.

8 Under this head alone there was also a falling off in the Collections of the year - It amounted to Rs 1401-10-1 caused by the reduced condition of the Ryots sub = ject to the tax from bad seasons and diminish trade.

Future Management

13 From the annual settlement Mr Sinclair proceeds to discuss the future management of the Estate and the heavy outstanding Peishcush and Rent balances, which are the subject also of a separate report from him; he dwells on the heavy demand on his time and attention which the charge of so extensive a property imposes. The long Circuits necessary in order to make the

the Ryotwary Settlement occasion much hardship to the numerous persons who have to attend him in his judicial capacity, and he observes that the present Rajah is still in the prime of life and there is no probability of his returning to relieve him of the Management of the property. It has been proposed that the Rajah should be required to relinquish his Zemindary for a sum of money, but Government lately decided that no advantage was likely to be derived from a change of system at present, and directed therefore that the present Government management should be continued. Mr Swinton represents the necessity of diminishing by some means, the present claims on his time and attention as most pressing; and the Zemindar having granted him full powers to pursue any system that may be judged best he proposes to rent out the Villages of Tavanipse of the fourteen

Talooks composing the Estate by the year or on leases for short terms of years, and has already made arrangements for that purpose in anticipation of approval when the particulars and result shall hereafter be duly reported.

14 Under the peculiar circumstances of this Zillah it is essential that the people should have as full and frequent communications with the Collector as possible, to this freedom of communication and the frequent Circuits described by Mr Swinton the Board very much ascribe the beneficial results detailed in para 41 of his Report and they would be very unwilling to disturb or in any way to change a system which has been shown to work so well by substituting Rents for the Ryotwar System. The Board are far from underestimating the arduous and important duties which the agent is called on to perform but they would be prepared to recommend to Government the appointment of additional Assistants in order to preserve the existing system and the efficiency of

European agency rather than by reverting to the Rents hazard the return of all the train of evils so facibly described in Mr. Russells Report of 5th October 1833 which have been so happily put down. The Board need only refer further to the Papers noted in the Margin to show the importance which has for years past been attached to the introduction of a Ryotwar settlement into this District. In 1829 they observed addressing the Collector "you are aware that the Board are very averse to letting the Country on Leases to temporary renters whose only object will be to make the most of their contract by racking the Ryots to the utmost without regard to consequences. Their first desire was to make a settlement directly with the Ryots individually and this is still their wish but considering your representation of the difficulty of effecting such a settlement and of realizing the revenue from the Ryots under existing circumstances, they will not insist upon it for the present, they desire however that some Village may

may now be settled experimentally in this manner, and they expect that you will take measures to collect accounts and to procure all the information which can be obtained with a view to the eventual introduction of the Ryotwar system of management generally." Again in October 1833 Para 6 "The Collector has already been made acquainted with the Boards wish that the settlement shall be as far as practicable Ryotwar. Such appears to have been the usual mode of settlement in the Zemindari Management. Mr. Gardiner in his letter of the 15th March 1829 reported that the annamie Settlement which has hitherto prevailed in most parts of the Country had been Ryotwar in which assamiewar Cowle had been given on Bilmaatu chitto. A Ryotwar settlement would appear therefore to be only a return to the former usage which had been departed from during the Collectors Management and the departure from which had led to such results." and again in the Proceedings of Government 1st November 1833 Para 5 "The Right Honorable

In the foregoing letter the Acting Collector reports the death, on the 30th March last of Meenmunnarouva Vadaunta Swamy Priest of the Mattam of Narasinga Swamy of Aiwalum in the Tanjore Province. The deceased received the revenues of the two Villages of Causancottay and Serovaloor for the support of the Mutteum under his charge. Being a Samiasy and Priest, he has left no family but another individual named Veera Ragava Swamy has according to the rule of the order succeeded him in the office of Priest to which the Acting Collector recommends that the proceeds of the Villages should be paid.

It is not known when and by whom the Enams were oregenally conferred, and there are no documents in support of the grant it is clear however from Mr. Travers Register, Extract from which accompanies Mr. Elliots letter that the endowment is not a recent one and that it was conferred for the support of a religious institution. The death of the Priest of the Establishment appears in no wise to affect the grant, and the Board therefore beg to support Mr. Elliots recommendation

Forwarding letter from the Coll.r of Madura requesting sanction for paying to his Haib Serishtadar Peroomal Row an additional sum of Rs.105 per mensem being the difference between his own pay and that of a Head Sherestadar of the lowest Class from the 19th Jan.y to the 30th July last during the period he discharged the additional duty which devolved on him while the situation of Shenistadar was vacant and submitting the Case for the Orders.—

In the foregoing letter the Collector states that having had reason to be satisfied with the diligence and care with which his Naib Serishtadar Peroomal Row discharged the heavy additional duty which devolved on him, while the Situation of Head Sereshtadar was vacant, he requests that sanction may be obtained for paying to him, out of the undrawn Salary of the Head Serishtadarship, the Sum of 105 Rupees per Month, which is the difference between his own Salary and that of a Head Serishtadar of the lowest Class, from the 19th January, when the late Head Serishtadar died, to the 30th July last when the present Head Serishtadar ceased to do duty in Nellore and commenced to draw pay from Madura, both dates exclusive—

On the 6th March 1846, a similar application to the above was received from the Collector of Nellore, and on the recommendation of the Board, the Government were pleased

under date 24th March 1846, to sanction the payment of 105 Rupees per Mensem to the Naib Serishtadar of that District, being the difference between his Salary and that of the Office

Office of Head Sherishtadar, the duties of which he performed whilst it was vacant, since that date however the Rules for regulating leave of absence and acting allowances to Public Officers not in the covenanted Service of the East India Company have been published, agreeably to which [illegible] Peroomal Row is entitled to one half the Salary of Head Serishtadar during the period he officiated temporarily in that Capacity, as well as to a Moiety of the pay of his substantive Situation—

It does not appear that the orders of the Board, or of the Government, are required for paying a Moiety of the Head Serishtadar's undrawn Salary to the Acting incumbent, as the matter may be adjusted between the Collector and the Civil Auditor under the New Rules but as the question is the first of the kind which has been referred to the Board since the rules came into force, and moreover as the course laid down in those Rules is contrary to the precedent already adverted to, they beg to submit the Case for the consideration and orders of the Most Noble the Governor in Council—

of consultation which accompanied the Board's letter dated the 22d May 1845 in which it is stated that the prevalent practice among Collectors of Continuing without the authority of Government grants of Money or of land revenue to the heirs of deceased Incumbents is open to serious objection and wherein it is directed that as lapses occur each Case be specially reported for the orders of Government through the Board of Revenue I have the honor to state that there are now in this Office a number of Cases of lapses that have since occurred, but as it is doubtful whether all grants, except perhaps those for Village Service, specially declared hereditary in the Regulations, vide Regulation VII of 1831, should be reported, and discontinued pending the orders of Government, on the decease of the incumbents or whether those which have been expressly exempted from interference, vide Board's Proceedings of 6th January 1815 may be continued without report or reference, as has hitherto been the custom, I beg to request

Sir,

From the Asst Coll.r of Coimbatore

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated the 10th June last and also Copy of Minutes of Consultations of the 28th May 1847 No 646 requiring information relative to the Cost of production &c.a of Cotton in this District and to submit the same as follows—

Acknowledges the receipt of Extract from the Proceedings of Board of Revenue dated 10th June last and also Copy of Minutes of Consultation of the 28th May 1847 No 646, and furnishes information relative to the cost of production &c.a of Cotton in the District of Coimbatore as requested.

The price obtained by the Ryot for a Candy of clean Cotton calculated upon the average of the last 5 years amounts to 50 Rupees which bears a proportion of one anna seven pice per lb. It consists of three different kinds Viz.te "Copum Purthee" or annual Country Cotton "Nandum Purthee" or Triennial or indigenous Cotton, and the Bourbon and is of equal value in the estimation of the Ryot who does

does not sell it with reference to particular quality.—

The cost of cultivating a Bullah of land (3 10/10 acres and 3912 sqr feet.) is estimated at Rupees 17-6-4 of which deducting 7-2-4 the sale proceeds of Cotton seed the net charge is given at Rupees 10-4-4 or 8 6/10 pice per lb.—

The Government demand on a Bullah of land amounts to 6-14-4 upon the average or about 58 per Cent of the Cost of production This sum proportioned on a lb of Cotton is 4 13/16 pice. The several items of cost cannot be obtained with any degree of precision.—

The estimated Profits of the Provincial Merchant appears to be 8 annas for 235 lbs of Cotton or Rupees 2-6 per Cent or 6/16 of a pice per lb.—

The estimated Cost of packing and Conveyance of Cotton to Bonmaney is calculated at 2 5/16 pice, and the probable loss by wastage &c. is about 3 per Cent.—

I beg also to forward the accompanying Statement containing detailed information on the

the above points.—

3. The Cotton exported to Bonmaney is always conveyed on Carts and not on Bullocks which are merely employed in bringing it to Coimbatoor. The Western road from Coorchy to Vallair is in a wretched Condition as the distance, however, is not great, it does not offer sufficient difficulty for Cause of Complaint in the transport of the article, and the damage likely to be sustained is not from the badness of the Road but from Rain and other Causes.

From the Collr of Madura

Requesting Sanction for the charges incurred on account of the Pay of the Meerasy Co-in-coply of the Sall Village of Attipatt from the Commencement of Fusly 1252 at Rs 10-8-0 per Mensem with orders as to whether it should be Continued at that rate or at Rs 7 only the Civil Auditor having retrenched the disbursements from the want of such sanction

No 14

Sir

1. I have the honor to bring to the notice of the Board of Revenue that in the audit of the Accounts of this Office for Fusly 1252 the pay of Munnah pillay, the Meerasy Coincoply of the Sall Village of Attipatt, at the Monthly rate of Rupees 10-8 was retrenched in consequence of the order of Government dated 13th July 1843 having fixed it at only Rupees 7 per Mensem. I informed the Civil Auditor in reply that the portions of the Correspondence, to which he had reference to this allowance were furnished to his Office on the 10th July 1822, it being thereby shewn that the Original Recommendation of 14th April 1813 was to the effect that the Coincoply of Attipatt might be allowed to draw Rupees — 10 — 8 per Month.

2. In the audit for Fusly 1253, the Civil Auditor calls for the Special Sanction of Government for the disbursement of 1252 and 1253 under retrenchment as well

as

Fort St George 4th October 1847

as for the continuance of the allowance at the higher rate, as he observes that the Order of 13th July 1813 quoted by me does not distinctly state the total amount of the Conicoply's Salary – I therefore, now submit the case to the Board. –

To Board 1st April 1813 Para 6 &c.
From Dr 29th July P. 3
From Govt to Board 13th July P. 4.

3 The Correspondence noted in the margin will shew that, whilst in the Collector's Statement of 1st April 1813 the Salary proposed for the Conicoply of Attiput was Pogodas 3, the sums entered in Para 6th of his letter of the same date were 2 Pogodas to the Conicoply & the Peons, "as the Taliari," at the these rates were proposed exclusively for the Conicoply and Taliari of each of the four other Villages named in the Statement.

4 As those, however, were the rates specified in the order of Government the Conicoplies and Taliaries of the whole of the Salt Villages were paid accordingly up to the year 1822, when the pay of the Attipat Conicoply alone was raised to the amount recommended at first, Rupees 10-8- per Mensem, and which has since been disbursed at that rate.

Fort St George 4th October 1847.

It does not appear that fresh sanction was obtained for the Increase

5 The individual who filled the situation in question up to 1825 was one Govinda pillay After his death which took place in that year, Munnah Pillay a relation of the deceased incumbent succeeded him Under the circumstances, it rests with the Board to decide whether the present incumbent shall Continue to receive Rupees 10–8–– per Mensem or not, but I solicit that the special sanction of Government may be procured for the actual disbursement from July 1252 at Rupees 10–8–– per Mensem or Rupees 126 per Annum, in order that the charge in my accounts may be admitted by the Audit Office.

Fort St. George 19th October 1843

Honorable the Governor in Council approves generally of the instructions furnished by Mr. Rupell to the Collector and concurred in by the Board on the other points instructed by him, and particularly with respect to the future Management of the Zemindary. With the above opinions before them in which they entirely concur and adverting to the fact of the Ryotwar settlement having been successfully carried out in nearly all the Villages of this Estate for several years past, the Board cannot give their sanction to any Plan which would have the effect of disturbing this system or in any degree of diminishing that full and free communication between the Collector and the Ryots, by frequent visits to the Outcherry which they hold to be essential to the continued well being of the Estate. If the acting Collector has made any arrangements for Renting any portion of the District they direct that these may be annulled.

15 On the subject of the Ryotwar Balances discussed in Paras 35 to 40 Mr. Smalls Letter

Order thereon. Ordered that a copy of the foregoing Extract from the Board's Proceedings be submitted to Government and a transcript of the same be forwarded to the Acting Collector of Vizagapatam for his information and guidance.

Proceedings. The Board proceed to take into consideration the subject of the Annamie and Rented Balances in the Vizianagrum Estate discussed in Paras 35 to 40 of the Acting Collector's Report upon this Estate for Fasly 1251 P.S.D. 15th/42 and in the two separate letters noted in the Margin.

Recording observations on the Annamie balances in the Vizianagrum Estates Recommending that the sum of Rs 11,94,999-1-7 may be written off as irrecoverable.

From Coll.r 10th Feby 1843 in Cons. 4th Mar.
Do. 15th May 1843 in Cons. 22nd June.
Do. 5th July 1843 in Cons. 20th Do.

From Coll.r 15th May 1843 Para 12.

2. The total amount of Balances — Annamie and Rented proposed to be written off is 11,94,999 — 1 — 7. as particularized in the two Statments A, B which accompanied the letter referred to. The Board have not a doubt about the desirableness of this Balance against the Ryots being at once remitted, but the amount is so considerable especially when viewed with reference to the 4 Lacs written off with the sanction of Government

Sir

To the Chief Secy to Government submitting a letter from the Collector of Madras on the Subject of the Salary of the Conicopoly of the Salt Village of Attiput retrenched by the Civil Auditor in the accounts of his District for fasly 1252 and under stated circumstances recommending that sanction be granted to renew the retrenchment & to continue the further pay of the Office of Conicopoly at 10½ Rs per Mensem as originally intended

Para 1.

In Cons 4th Oct 1847 No 2735

I am directed by the Board of Revenue to submit for the orders of the Most Noble the Governor in Council the accompanying letter from the Collector of Madras dated 17th Ultimo on the Subject of the Salary of the Conicopoly of the Salt Village of Attiput, retrenched by the Civil Auditor in the accounts of his District for fasly 1253

From Coll[r] of Madras 1st instant

8th April 1813 para 5 & 7.

To Govt 14th June 1813 para 8

To Govt 13th in Cons 19th July 1813 para 4.

2 From the above letter and from the correspondence noted in the margin it will be observed that when the private manufacture of Salt was suppressed in the year 1812, the Collector of Madras recommended that, on account of the Mera and Mamien formerly enjoyed by the Salt Village Conicopolies and Talliaries, an allowance should be made to the former of two pagodas and to the latter of one and half each per Mensem This remark however had reference only to the Conicopolies and Talliaries of

Fort St George 4th October 1847.

of the Villages of Trivattore, Satangad, Sadayencoopanne and Ennavur, and not to that of Attiput a fact easily ascertained, as the aggregate payments were entered at 228 Pagodas per Annum, and a Statement accompanied the Collectors letter giving the details of those disbursements. A reference to this Statement will shew that whilst the pay of the Conicopolies of the four first named Villages is entered at 2 pagodas per Month that of the Conicopoly of attiput is specified at 3 pagodas—

+ Vide enclosure No 4 in Coll[r] letter 17th in Cons 8th Apl 1813

3. The reply from Government Sanctioning the proposed arrangements is worded as follows— "His Excellency in Council accordingly Sanctions the Amount which you have recommended, namely two pagodas to the Conicopoly and one and half to the Talliary" The whole of the Conicopolies of the Salt Villages were Consequently paid at the uniform rate of 7 Rupees per Month, up to the year 1822, when the Collector apparently without any further reference to higher authority raised the pay of the Attipat Conicopoly to Rupees 10-8 per Mensem, being the amount originally intended for him, and he has since that time been paid at this rate

4 Mr Huddleston now reports that the

12744 Fort St George 4th October 1847.

the Civil Auditor, in his audit of the accounts of the Madras Collectorate for Fusly 1252, has retrenched this allowance, on the plea that the order of Government dated 13th July 1813 quoted in support of the charge does not distinctly specify the amount of the Salary. he therefore requests that the Special Sanction of Government may be obtained for the disbursements made on this account since Fusly 1252 and that he may be instructed at what rate he should make the future payments. —

5 Under the circumstances stated the Board beg to recommend that the necessary Sanction be accordingly granted to enable the Audit Office to remove the retrenchment, and that the future pay of the office of Comicopoly of Attapoot be fixed at the rate of Rupees 10-8-0 per mensem as originally intended

Proceedings thereon.

(82)

In the Petition above recorded the Petitioner claims a remission of 2 Pagodas on account of that portion of his Estate which is occupied by the Cherdie Bungalow. This demand is pronounced by the Collector to be unreasonable as the levy on the spot appropriated amounts to no more than P. F. As. "—" 15 and which sum it is recommended may be deducted.

Under the foregoing circumstances the Collector is requested to make such arrangements with Petitioners either by

purchase or exchange of Land as may seem equitable and report the result to the Board.

revenue of the reverted Mootahs on the Cowles granted by Mr. Cockburn and a reduction of the survey rates with a discretionary reservation

and 18th November 1814 and to the information called for in connection therewith in the last of these papers respecting the circumstances under which Reductions of Revenue were introduced in to that District under the designation of Discretionary Cowles and the amount of present Revenue deriving from Mootahs which had reverted to Government, the Most Noble the Governor in Council observes from the Statements now laid before Government in compliance with that requisition, that of 47672 acres which were under the operation of this peculiar Cowle in Fusly 1210 all have reverted to their proper rates in Fusly 1255 with the exception of 6786 acres which may also soon be expected to lapse.

Fusly 1210 and 1212 acres — 47672
Land held in Fusly 1255 — 6786
Reverted to and subject to full rates — 40886
Viz.
Cultivated — 10199
Waste — 30212

2 It is stated in the letter of the Collector dated 30th December 1846 that these Cowles were introduced in consequence of "inequalities of assessment" and the "assessment being high" and the circumstance that of the large extent which had reverted to their proper rates, no less than two thirds or 30212 acres were waste, would seem to favor that Statement.

3 The Peishcush of the reverted Mootahs amounts in the aggregate to Rupees 1,16,1841 but it is not stated whether this is exclusive

exclusive of the percentage allowed at the time of the Permanent Settlement as Mootahdars profit. In the Revenues of the years which have been brought in Comparison with the Peishcush, the Loom tax, omitted by the Collector probably for special reasons has been included by the Board. It appears from this Comparison that, excepting in Fusly 1251 there was a decrease in every other year since Fusly 1247 ranging from 1 to 12 per cent and averaging in the whole a little more than 4½ per cent. The details shew that excepting in Salem, and in the Baramahal Talooks where the assessment is recognized to be more light and equal the diminution of revenue in some instances ranged so high as 11-16

Ashtoor 16 per cent
Permuttee 16 — " —
Sen Serry-droog 22 — " —
Trichengode 11 — " —

and 22 per cent. In Ashtoor the highest Revenue realized in any of the 18 years with which the Comparison is made has not equalled the Permanent Peishcush. The Collector attributes the decrease to high assessment but the Board regard the "difference between the present Revenue and permanent assessment" in this District generally to seasons and prices, and to the system of Cowles, and as the latter has ceased they observe "that with ordinary "seasons and attention on the part of the local "authorities a decided improvement will be "apparent in future."

4 On Referring to the assessments of the lands brought under Annany Cultivation in Fusly 1765 and which may be regarded as more favorably circumstanced than the unoccupied portion of the District, the assessment of both Dry and Wet cultivation in the Barahmal presents a great disparity in comparison with the southern Talooks, and with these facts before them the Government are unable to deny that high assessment has been much the cause of the falling off noticed in the preceding paragraphs. The causes assigned by the Board Viz. "seasons and pairies" should have affected the whole District in the same ratio wherein it is shewn by them that the Barahmal has maintained its standard while the others have more or less failed. From the Secry to Government communicating observations and orders on the Board's Proceedings relative to the settlement of Land Revenue in the District of Vizagapatam for Fusly 1256.

Extract from the Minutes of Consultation under date the 26th August 1847.

Read the following Extract from the Proceedings of the Board of Revenue.

(Here enter 28th June 1847 No. 31)

Para 1 Mr. Smollett did not join the District of Vizagapatam till the close of the harvest, and states that his share in the settlement of the

Fort St. George 7th October 1847

the land Revenue for fusly 1264 consisted in endeavouring to realize the demand as defined by his predecessor he refers to Mr. Arbuthnot's reports of the season which would appear to have been highly unfavorable and coming immediately after one so adverse as fusly 1254 is considered in a great measure to account for the deficit in the settlement.

2 The total settlement of land Revenue inclusive of Peishcush, Jeroyattee Enams &c. was fixed at Rupees 12,11,763-10-9 exceeding the settlement of fusly 1254 by 13,877-2-7 of this amount the net settlement of the Government Estates was Rupees 1,39,175- deductions having been made from the Pycharry or quantity of land taken up for cultivation at the early part of the season for loss of produce uncultivated[2] grounds and trifling usual[3] items to the extent together of Rupees 97021 These remissions though large are less than the amount granted in the year 1254- The decrease is partly accounted for by the extraordinarily enhanced prices of grain-

1- 43985
2- 52261
3- 774

3 From the Collectors' account of the process of making the Pycharry it would appear to have hitherto been a proceeding attended with no benefit to the Government, and in no way regulating the final settlement- Mr. Smollett justly condemns it

Fort St. George 7th October 1847

it as well as the formation of the actual settlements by means of Estimates of the Crops, this system is stated to be of recent origin and if, as Mr. Smollett asserts, the assessment already determined and each field is capable of being realized in full in ordinary years, the introduction and use of such a system must have seriously affected the interests of Government and the Government fully concur with the Collector and the Board that it should be abandoned without delay. If too the Lists and the fields are not ascertained, and inequalities introduced and mainly caused by the present system can be checked there can be no question that as the Board direct in the 7th Para of their Proceedings the Pycharry and settlement should be made in future on Ryotwar principles and remission restricted as a general rule to years of more than ordinary adversity-

4 The Government observe that a portion of the settlement of the Government Estates was composed of rents, a system which Mr. Smollett has hitherto advocated- It does not appear by the report or the Board's Proceedings what was the nature of these rents nor do the Government understand from the Board's Proceedings whether it is their intention that settlement Ryotwary should

Fort St. George 7th October 1847

should wholly prevail and be in substitution of rents to the Ryots based on joint responsibility or should be confined to such villages only as may not come under that head. The Most Noble the Governor in Council is of opinion that until the accuracy of Mr. Smollett's views with regards to the ability to check the inequalities of Sist he refers to are somewhat tested, it would not be expedient wholly to abandon the joint rent= =ing system though the substitution of a Settle= =ment formed on the principles defined in the 18th Para of the Collectors report must be allowed to be greatly preferable to that which he describes as hitherto in force.

5. His Lordship in Council concurs in the opinions expressed by the Board in the 10th and 11th Paras of their Proceedings on the subject of the balances against the Cranadars of Palconda, but agrees with the Collector that the resumption of the Cuttoobady lands on which balances have accrued during the late successive years of extreme drought, and when extensive remissions have been given for losses in the Ryen land would be a harsh and unpopular measure. The Cuttoobady is stated

Fort St. George 7th October 1847

stated to be in some instances as high as the ordinary land assessment, and whether this is the case, His Lordship in Council would not object to the remis= =sion of a portion of the balances that have already accrued on these lands, leaving them to be dealt with as the Board propose on the re-occurrence of balances in other than seasons of general & extreme adversity.

6. The Most Noble the Gover= =nor in Council notices the attention of the authorities of the District in the realization of the Revenue in the past year. The Settle= =ment as before remarked was Rupees 12,11,768-10-9 or Rupees 13,877-2-7 more than the year preceding. The Collections of Current and arrears within the year it is observed amounted to 12,78,329 or 32,560 in excess in its favor in comparison with Fusly 1254.

7. The circumstances connected with the balances outstanding at the close of the fusly in the Vizianagrum Zemindary are it is observed, to be noticed in a separate communication promised by the Collector. The only other estate under management on account of arrears Peddi= =dagoomdoor the Collector properly proposes to bring to sale unless a satisfactory settlement is

To J. F. Thomas Esqre
Chief Secretary to Govt
Fort St. George

Sir,

I have the honor to acknowledge receipt of Extract from Minutes of Consultation

Fort St. George 7th October 1847

Consultation No. 88 of the 24th of February last referring for my observations a correspondence between the Board of Revenue and Collector of Coimbatore as to the propriety of continuing the Company's Frontier duty of 10 per Cent on Tobacco supplied to the Travancore and Cochin Sircars now that all other Frontier duties have been abolished as per Minutes of Consultation of 5th August 1846-

2 I beg respectfully to observe that as the 10 per Cent in the original value of the Tobacco is acknowledged to be a "Frontier duty" although never collected on the Frontier, but for convenience sake added to the Invoice price in the bill transmitted to these Sircars, I cannot but consider that the Cochin Sircar has a full claim to the withdrawal of the duty on Tobacco as well as on all other articles. No limits or reservations were I believe originally contemplated on either side-

3 Should the Most Noble the Governor in Council permit this view of the case, I would submit whether what is admitted as an act of justice should be clogged with other conditions. I allude

4

to the desire expressed, that provided the duty is relinquished, a corresponding reduction shall be made in the selling price by the two Sirkars-

4 I beg however to add that both the Sircars are quite prepared to make a corresponding reduction, and as Government will receive still larger reduction than that of 10 per Cent had long previously been proposed by the Dewan of Cochin-

5 The Dewan of Cochin however who long ago pointed out to me the claim of the Sirkar to the entire removal of the 10 per Cent Frontier duty on Tobacco, has recently added some remarks on the high rate charged to the Sirkar for Coimbatore Tobacco, exclusive of the 10 per Cent Frontier duty-

He notices that while the Invoice price of Coimbatore Tobacco is only Rupees 37-3 per Candy it is charged to the Cirkar with a duty including the 10 per % of Rupees 29-6-4 8/10 making the total cost Rupees 66-9-4 8/10 per Candy-

Now as Jaffna Tobacco can be and is purchased by the Sirkar at 66 per Candy, the expediency of thus keeping up the price

price of Coimbatore Tobacco and thereby necessarily limiting its consumption may perhaps be questioned-

6 Travancore purchased annually a large quantity of Tinnevelly Tobacco and at about 40 per Candy while Coimbatore Tobacco costs them as above 66 Rupees, but in the one Collectorate it is I believe a Monopoly and in the other a free trade-

Extract from a letter from the Dewan of Cochin to the Resident at Travancore and Cochin No. 267 dated the 5th August 1847-

I take this opportunity to return the original despatch No. 85 dated 24th February last which accompanied your letter No. 156 of the 25th of the following month and to state that the 10 per Cent duty charged on the invoice price of Coimbatore Tobacco therein alluded to is a very trifling charge-

The real duty is Rupees 29-6-4 8/10 which is added to the fixed price of Rupees 37-3-4 per Candy- If therefore the 10 per Cent duty be only abolished the benefit to the Circar will be very small- It is therefore hoped that the Madras Government may be induced

to

Fort St. George 7th October 1847

to allow this Circar to receive its supplies of Coimbatore Tobacco at the same rate paid by the Collector of Malabar for the Tobacco furnished to his District which I believe to be about 40 or 41 Rupees per Candy. I have been desired by His Highness to bring these circumstances to your notice and to request that you will be so good as to submit them to the favorable consideration of the Madras Government.

To J. F. Thomas Esqre.
Chief Secretary to Government

Sir,

On my arrival here I found that the Head Sheristadar Rajaputty Row had just left the place, having obtained from the late agent leave of absence on sick certificate for a period of Six Months-

I have [illegible] the present time, expected to hear something from the Head Sheristadar himself of his intentions on the expiration of his leave, a rumour being current that his plan was to retire from the service if he failed in procuring employment in one of the Districts South of Madras- But no information has reached me. Yesterday however, one of his relatives in the Cutcherry here mentioned to me that Rajaputty Row had quitted Madras for Combaconum and that he would solicit an extension of leave when his present sick certificate closed. Had it been otherwise Rajaputty Row would have resumed his duties early

early in December and at the I propose commencing the land settlement on the 10th November next, I should have managed in his absence with the aid of the Nail Sheristadar-

Under existing circumstances it appears to me advisable that another arrangement should be made, both because Rajaputty Row's health is much shattered and I am impressed with the belief that if he comes back at all it will be only for the purpose of temporarily taking up office and applying for pension and because if the Nail Sheristadar be in attendance for the settlement at my Cutcherry there remains no other servant for the conduct of the Summabundy in the Division under charge of the Assistant Agent-

ORIGINAL DESTROYED

The Nail Sheristadar, although an officer of excellent understanding of good experience in Regular Ryotwar matters and of high character is not of that standing in the public service which would justify my recommendation that he should be appointed to the Head Sheristadarship in supersession of and to the detriment of many much older servants of other Districts- I therefore desire at once to make such a provision for the discharge of the Head Sheristadar's duties as will admit of conformation when Rajaputty Row sends in the resignation of his appointment- For this end I have given my best Consideration to the applications

applications for the office which I have received from several quarters (there being a general belief that Rajahs Row will never return to Kurnool) and I have arrived at the conclusion that I cannot better consult the interests of Government than by proposing for their approval as acting Head Sheristadar Moongamoor Lutchmenurson Puntalou -

I believe the records of Government sufficiently exhibit the publick services of this individual and I therefore will not trouble the Government with a recital of them further than to state that he has been in the employ of Government for 28 or 30 years - commencing in the lowest grade and to that of Sub Division Sheristadar in the Nellore District that he was for some time Head Sheristadar Shelleum in Guntoor and that more recently he was employed by the late Commissioner in Rajahmundry Sir Hugh Montgomery but whose testimony to his superior qualifications as a Revenue Servant was I am given to understand by Mr. Lutchmenurson Puntalou submitted for the information of the Board and Government -

Sir,

I have the Actg Collr of Masulipatam } With reference to the Boards Proceedings of the 30th Ultimo I have the honor to state that in compliance with the instructions therein contained for the confiscation of the arrack belonging to the Military contractor I issued an advertisement for the sale to take place at an early date but on communicating this intention to the Deputy assistant Commissary General at this station I received from him a letter as per accompanying Copy requesting that the sale might be postponed pending a reference made to Madras with which Request I from courtesy complied and have postponed the sale. I have since received a further communication from that officer. Copy of which is herewith forwarded and I now therefore

therefore deem it advisable to request the Boards Orders as to the further postponement of the sale of the arrack and also as to whether I am at liberty to furnish the copies of the papers as requested by the Deputy assistant Commissary General and which it appears to me I cannot do without their sanction. The facts of the case have already been communicated by me to that Officer on a Reference from him on the subject. I should also mention that the Arrack is in the mean time diminishing in quantity from Wastage and probably deteriorating in quality.

Sir,

From the Collr. of Guntoor ----- } Para 1. I have the honor to acknowledge the receipt of the Extract from the Board's Proceedings dated 16th Instant returning for further revision the Statement of the Establishment proposed to be included in the Moyenzabeta of this District for the Villages transferred from Nellore and Masulipatam, submitted with my letter of the 23d August last. The Board sanction the retention of an additional Goomasta for the Peypully Talook but they remark that in re-modelling the establishment transferred from Nellore, I have increased the charge by 12 Annas, and as the Board cannot authorize any additional expense they request I will limit the arrangements to the amount at my disposal.

2. The increase of 12 Annas has been caused in pursuance of the Board's instructions conveyed in your letter of the 16th August Para 2, to place the Peons as respects their pay on the same footing as those already entertained in the Talooks, four Peons having been transferred from Nellore whose aggregate pay amounted to 15-4-0 whereas the Revenue Peons in this District uniformly receive 4 Rupees. To meet the Board's wishes last expressed one Peon will be retained on the pay of 3 Rs. 12 As. 8 P.

To The Chief Secretary to Government.

To the Chief Sec.y to Gov.t

Submitting Correspondence between the Board & the Coll.rs of Nellore Masulipatam and Guntoor relative to the Establish.ts transferred from the two former to the latter district observing that the modifications made in the Estab.ts with the Board's Concurrence involve no additional Charge & recommending that sanction be granted for including in the Guntoor Moyen Jubilee the pay of Estab.ts amounting to Rs. 69-4 per Mensem a corresponding reduction being made in the other districts & that the modifications made under the Board's orders be confirmed.

Sir,

Para.

With reference to Extract from Minutes of Consultation dated 22d June 1847 authorizing the transfer of certain Villages from the Districts of Nellore and Masulipatam to that of Guntoor, I am directed by the Board of Revenue to submit for the orders of the Most Noble the Governor in Council the accompanying Correspondence which has passed between this Office and the Collectors of those Districts, relative to the Establishments transferred with the Villages in question.

From Nellore 13th Aug.t in Cons.n 30th Aug.t
From Masul.m 27th Sept.r in Cons.n 7th Octr.

2.

It will be observed that the pay of the Establishments made over from the Masulipatam, including Saderwared, Amounts to Rupees 38 per Mensem, and of that transferred from Nellore, exclusive of the Batta to a Bungalow Sepoy, which is not an item of Revenue Charge, to Rupees 31-4. making a total of Rupees 69-4. In incorporating these Establishments

Establishments with those of the Guntoor Collectorate, certain modifications have been made, with the concurrence of the Board, but it will be seen that the arrangements have been confined to the amount available, without incurring any additional charge.

3. The Board request that the Government will be pleased to grant the necessary sanction for including in the Guntoor Moyen Zabitah from the commencement of the current Fusly the pay of the Establishments transferred from Masulipatam and Nellore, amounting as above stated to Rupees 69-4 per Month, a corresponding reduction being made in the Moyen Zabitahs of those Districts. They further request that the Modifications made as under their orders may be confirmed.

Sir

From the Collr of Cuddapah. } Para 1. In reply to your letter of the 23rd ultimo forwarding a Petition from the

Returning a Petition from the Tahsildar of [illegible]

of Coilgoontla Taloob reporting the causes which led to his removal also forwarding an Extract of a report to the Chief Secretary to Govt from the late Agent to the Governor in Kurnool on the subject.

late Tahsildar of Koilgoontla, I have the honor to state that there are not any facts now brought forward by him which in my opinion entitles his case to further consideration, the Petition being in its substance at variance to facts as far as concerned the Petitioner in respect to the energy and activity he has given himself credit for having displayed on the occasion.

2. During the whole of the disturbance such appeared to be the universal feeling of hatred on the part of all classes towards this Tahsildan that the cause of the Outbreak was ascribed generally to his corruption, his overbearing conduct and arrogance of temper. In addition to this general demonstration of ill feeling towards the Petitioner at the time so clearly indicative of his unpopularity, the circumstance of Narsimha Reddy having while on the scaffold (when he confessed himself guilty of the crimes for which he was about to suffer) pleaded in extenuation the provocation he had received from the late Tahsildar who (he stated) had degraded him, rendered it highly advisable and necessary that he should not be reinstated in Office, even if his neglect of duty in having hid

himself

himself at the time he ought to have used every exertion towards resisting the attacks of the Insurgents could be overlooked. His having abstracted from the Taloor Treasury his private money three days previous to the Outbreak shews that he must have anticipated an attack on the Taloor Treasury. such being the case although he had made up his mind to abscond and conceal himself at this critical period, the least he could have done would have been to have shewn the same anxiety for the Interest of Government as he did for his own.

3. Satisfied as I am that the cause of the disturbance was in the first Instance to be attributed to the discontent of Narsimha Reddy incited as he was by Gosayee Venkyah, still had the late Talsildar been in the least respected and shewn more judgment, he would have had no difficulty in securing the Person of the Rebel Poligar long before matters arrived at a Crisis, by the assistance of the numerous Cuttoobuddies of other Villages unconnected with the Sagheers of Aoyalwadah and Nossum formerly held by the ancestors of the late Narsimha Reddy. My opinion is that the Corruption of the late Talsildar deprived him of all authority when in difficulties,

difficulties, for when the row occurred, every one instead of wishing to assist him, seemed glad to see him in a dilemma; and his having been made a Captive by the Rebels was a matter of universal rejoicing as far as he was concerned, though no's doubt the events that followed the first burst of the disturbance caused considerable alarm and consternation in the minds of all.

4- I am not aware on what deduceible grounds the Special Commissioner has recorded a favorable opinion towards the Petitioner as he alludes to in the Petition, but I cannot but dissent from the same, and in support of such dissent, beg to forward an Extract from the Report furnished to Government by Mr Scott who having all along acted in Co-operation with me in quelling the outbreak had also a good opportunity of judging what the feelings of the People were towards the late Talsildar.

† Para 37 of Special Commissioner's Report.

5- The Petitioner did apply to me, as he has stated, to be recommended for a Pension. His application however I could not support under Para 4 of the

It is well known that Nursincha Reddy had for a long period been a discontented man and it is probable that sooner or later he would have committed himself, but notwithstanding what is said in Para 37 of the Commissioners' Report in favor of the Talsildan of Koilgoontla I cannot avoid the impression, which was very general at first, that the Reddys' Criminal proceedings were hastened by the Talsildars [illegible] arrangement

management of him, who instead of making allowance for his wounded pride and fallen fortunes threatened to put him in irons and discharge him. When Lieutenant Russell entered Koilgoontla the day after the Talook Treasury was attacked, that was the prevailing opinion and the ill-feeling against the Talsildan Cause, as was said, by his corruption, neglect of Duties and imperious manners was very plainly exhibited, and from what I have since heard of this man's character I have not the smallest doubt that there were ample grounds for the existence of those feelings against him. That he was not more maltreated when Narsincha Reddy had him in his power is to be attributed to his being a Brahmin.

In reply to your letter of the 24th June forwarding an original Petition from Mrs Bird, I have the honor to state, that much injury appears to have been done to the Garden in question during the late storms, and that it could not have yielded a profit to the owner during the last Fasly although it is unusual to grant remissions of Quit Rent for losses or other causes, and the plea in may lead to the presentation of similar petitions, I feel compelled to suggest that one half of the demand on Mrs Bird for Fasly 1256 be remitted as from the enquiries I have caused to be made, it appears that the petitioner is in impoverished circumstances,

Under the circumstances stated, the Board are of opinion that grounds have been shown for a special indulgence in favor of Mrs Bird, but as remissions of quit rents are unusual and if granted in one case would lead to inconvenient applications of a similar nature from others, they would suggest that the Collector should not press for the full collection of the Demand of Fasly 1256 in this particular instance, leaving any arrear that may accrue to be adjusted with the balances written off at the close of the Fasly.-

Submitting explanations of the Course followed in this District on the system of taking securities from the Public Servants -

Sir,

1 In acknowledging the receipt of your letter of the 20th Ultimo. I have the honor to submit my explanation of the course followed in this District on the system of taking security from Public servants, and the other information therein required -

2. By Regulation XXXIII of 1802 as well as by the 4th Para of a letter from the Board, all the Native Public servants attached to the Collectors Establishment who are in any way concerned in the receipts and disbursements of public money were required to give security for the faithful discharge of the duties confided to them; and on rescinding the said Regulation by Regulation IX of 1822, as nothing was said about the personal security referred to in Section II of the above Regulation, altho the subject had been previously discussed, it has not been customary to demand any security whatever from any of the servants, except those attached to the Treasury Department.

† 7th April 1812.

‡ To Board 9th Jany 1846.

No 1 An Abstract Memorandum of Public Servants who customarily give security is enclosed -

The

12807. Fort St. George, 7th October 1817.

3- The cash keeper tendered Ten thousand Rupees in public paper as security for his Office. On account of the other servants collateral securities were taken from respectable ryots, and in a few instances from merchants for the sums exhibited opposite their respective situations in the same list. But I think it proper to state here that the these securities are believed to be trustworthy individuals, it is nevertheless supposed that many of them are not in possession of property to the full extent to which they are respectively liable. Moreover the various sums demanded appear to be excessive, especially in the case of the Shroffs, who cannot commit any abuse of consequence so long as their Superiors maintain due surveillance over them. It is useless to take security for any sum which cannot reasonably be expected to be realized, should any contingency render such a measure necessary; and I am therefore of opinion, the necessity of taking security from servants attached to the Treasury Department being indispensable, that the security required be should be on a more moderate scale. That now in use was evidently regulated solely with

12808. Fort St. George, 7th October 1817.

with reference to responsibility of the several Officers-

4- In general, the security required is given by respectable ryots on account of the public servants employed in their Talooks, solely to procure their friendship and influence in their Village concerns, but without pledging their property, and on this account the tender of security is procured, as I learn, without any terms and conditions to affect in any way the pecuniary interest of the public servants-

5- In conclusion I beg to submit a list of all servants on whose it is customary to call for security shewing their situations, the Amount of their monthly salaries, as well as the reduced amount of the security, I recommend to be taken for the future. I think substantial security to the extent recommended will suffice to guard the public interests- Moreover I propose that it should be left optional with the Collector to accept Collateral security or security on pledge of property because many respectable Merchants &c. are unwilling to pledge their property, as they consider that a disgrace to their credit, and therefore the adoption of the system of obtaining security on pledge of property would cause much difficulty to

all public servants, excepting Talookdars, in procuring trustworthy persons as security for their Offices.

From Board 24th July 1817

As long as the rules of the Treasury Department are duly observed, all the remittable sums will be brought monthly to the Hoozoor Treasury. The competency and the existence of the securities being annually examined during the Collectorate visit on Jannabbunty, there is no fear of frauds exacting to any amount exceeding that of the combined securities tendered by the several servants in each Talook.

Goomastahs 10 " "
Tankums 10 " "
Peyseens 1 " "

Some times the Talook Goomastahs are employed to bring up the Revenue Collections from Villages, but such servants not being empowered to receive any money into their own hands, but strictly directed to cause it to be paid into the hands of the Village Shroffs; no security is taken from them, as they cannot easily embezzle the public Collections with the connivance of the Village servants. However should the Board deem that Securities should be given by this Class of Servants, I think security should be limited to 50 Rupees for Peyseens, and 100 Rupees for Goomastahs &c as any sums beyond these, would, I think, be inexpedient.

Sect. Para 1.

With reference to the Minutes of Consultation under date 21st January 1840 I am directed by the Board of Revenue to submit to you the accompanying Petition No. 261 of 1843 from the Widow and daughters of M. Baganantha Row late Manager of the Board's Office and to request that you will lay the same before the Most Noble the Governor in Council for such consideration as

as the case may seem to merit.—

2. In connexion with this subject I am instructed to forward copy of a correspondence with the Collector of Rajahmundry respecting the condition and Endowments of the Charity Choultry built by the late Malee Bagavanthrow at Rajahmundry.—

3. From the Statements submitted with the Collector's letter it would seem that the value of the Building may be taken at 1,000 Rupees and that of the Utensils of the Choultry at 145, but there is a Mortgage upon the former to the extent of Rs. 504—12—3. and upon the latter to the extent of Rs. 125—7—6. so that to relieve the Establishment from Embarassment would

keep it up. The Board have already in former communications expressed their opinion so strongly in favor of the then late Manager that it is here unnecessary to repeat them, — The Board are strongly disposed to recommend that some Monthly allowance in land or money should be given for the support of this institution but the extent of the land would depend upon the Amount which the Honorable Court may be pleased to accord to the Widow and Young Family of the deceased, and in ignorance of this they are unable to suggest any Specific sum to be given in and of the Charity. —

of your Office. —

Humbly Sheweth,

With due respect and submission we beg to represent that the conduct of M Boyavantarow who was for a long time continued in a responsible situation is well known to your Board not only by the favorable opinions entertained of him by Messrs Russell, M'Donell and Elliot and which are recorded by them but also by the Minute paped by Sir F. Adam the late Governor when he returned to the Presidency from his tour in the Northern Circars. a pension or Jaghire would have been granted to him by the Honorable Company to be enjoyed for three generations if he had been safely retired from his service but to our misfortune he departed this life. However it has been recommended.

recommended to the Home Authorities that a Family Pension may be sanctioned to the respective members of his family in the undermentioned rates, Viz.t Pagodas 10 to his Mother since died, 10 Pagodas to his Widow, and 10 to his two Daughters each 5 Pagodas.—

More than three years have been elapsed since it was recommended to the Home Authorities but yet we obtained no redress. Of the above said Members of the family his Mother Ratnamah has departed this life and we three Members are alive and the distress we suffering for want of subsistence cannot be described.—

We therefore humbly beg that your Board will in consideration of the unfeigned services of late Bagavanta Row be pleased to take such steps as would enable us to obtain the said Pension and to relieve us from our present distress. In doing the act of Justice we as in duty bound.—

From J. V. Monhouse Esq.re Prin.l Coll.r of Nellore —

Sir,

I have the honor to acknowledge the receipt of the Boards' Proceedings dated the 10th July last, annexed to the Minutes of Consultation bearing date the 8th Idem, and to state for the information of the Board, that of the two Widows to whom the Village of cheekavole was ordered to be restored, Hazarut Shaw-beebee the widow of Abdool Cauderkhan Goree has since died. The surviving female is Bundoobee, the Widow of Abdool Casim Khan Goree, alias Atala Sahib. I am led to think that the orders received on the subject, which direct the Village to be given up to the two Widows in joint shares for the period of their natural

natural lives, and to revert to Government at their death, intended that it should remain in the family till the death of both of the Widows occurred. but as the matter is not clear I have thought it right to submit it for further orders. It would, even if practicable, be very inexpedient that one half of the Village should belong to Government, and the other half to the surviving Widow, and therefore if the intention is that she should only hold one half till her own death, it would be preferable to make her a money allowance of the net annual value of the half share. though such an arrangement would not be an acceptable one to her.

To the Chief Secretary to Government.

Sir,

I am directed by the Board of Revenue to forward for the

consideration and orders of the Most Noble the Governor in Council the accompanying letter from the Principal Collector of Nellore, reporting the death of Hazarut Shaw beebee one of the two Widows to whom the Village of Chicavole was restored by the orders of Government under date 8th

In Cons.s 10th July 1843.

July last.

2. The Peiz of the Village is Rupees 2,997—5—7 and the Collector submits for orders whether it should now be continued entire to the survivor Bundoobee the widow of Abdool Cassim khan.

Khan Goree, Alias Atala sahib, to ~
remain in her posseßion till her ~
death, when it will revert to Government
or whether the share of the deceased is now
to be resumed. In the latter event Mr.
Stonhouse suggests, for the reasons assigned,
that the entire Village should be ~
taken under Government Management,
and half of the annual Net Revenue
be paid to the surviving widow Bundoobee,
an arrangement however which, he adds,
would not be acceptable to her. It
will rest with the Most Noble the
the Governor in Council to determine
which course shall be adopted.

From S. V. Stonhouse Esqr. &c.
Principal Collector of Nellore.

With reference to your ~ letters of the 10th & 17th August last, I have the honor to transmit the undermentioned statements as therein called for, Viz.

Transmitting a Statement of the Collections, Charges on account of Transit duties from Fusly 1248 to Fusly 1250 inclusive; a Statement of the Town duty collected in each Chowkey during the same periods; a Statement of Gross receipts from Exports and Imports by sea during the same periods; and a Statement of the average total amount of Town duty collected in each Chowkey, and the Establishments which would still be required for its realization, which has been reduced to the lowest possible scale. States the situations which it will be necessary to retain, and that the adoption of the Bengal Schedule will occasion a serious loss of duty.

No. 1 Statement of Gross collections and charges on account of Transit and Town duties in fusles 1248, 49 & 50.

" 4 Do. shewing the average total amount of Town duty collected in each Chowkey and the establishment which would still be required for its realization.

2. No statement of frontier duty is forwarded, as this is not a frontier district.

3. From statement No. 1. it will be seen that the establishment and other charges for collecting

Collecting Town duties is put down at the annual sum of Rupees 6732 — — This includes the establishment at present actually located in each Town & also the Hoozoor Servants &c. whose employment will still be required on the abolition of the — Transit duties. But the average aggregate of Town duties being only Rupees 11817—15—9 the said amount of charges swallows up more than half the Revenue, the necessity of a reduction of charge is therefore obvious if it can be effected, without impairing the efficiency of the Establishment. Statement No. 4 contains a list of Establishment reduced to the lowest possible scale. It reduces the District Establishment to Rupees 2532 — — and the Hoozoor to Rupees 1500 — — per Annum, making a total of Rupees 4032 — — The Hoozoor establishment has been already reduced by me to the amount of Rupees 672 — — per Annum, and it is now still further reduced, and is on the lowest possible scale. The situation of Rawannah Pinter is — still necessary for the Salt Department in which there is a good share of work as may be seen by the Statement in the Margin. For the large Towns of Nellore Ongole Vencatagherry and Cheeralah 5 Peons are allowed. The number of Cobears and Peons is — likewise considerably reduced as it will eventually become necessary to abolish several Towns now entered for the Collection of Town duties, the receipts being too

Fort St. George 19th October 1843.

the average total Gross Collections to be Rupees 1,55,224 3 a 3 p. The average Charges of Collection of the Transit Duties to be Rupees 9,557 11 3 a 0 p. of the Town Duties to be Rupees 8,613 12 6 and of the Frontier Duties to be Rupees 3,138 14 5

The average total Charges are shewn to be Rupees 22,889 8 3. The Establishments maintained at the Frontier Chowkies for the Collection of the Frontier Duties also collect the general Sayer transit Duties at all the Villages attached to their respective Chowkies, and the general Sayer Duties are also Collected at the Town Duty Chowkies; hence the Charges of collection of these three several Duties cannot in reality be distinguished and the distinct Charges entered in Statement No 1 are more nominal than real.

3. The Frontier Chowkies are five in Number. They are all on the Mysore Frontier which is about 50 Miles in extent and wild, and Jungly in its Character, affording every facility for smuggling. Under the existing Sayer System there is little temptation to smuggle across it because Articles that escaped paying Duty on the Frontier would sooner or later be stopt

at some one of the numerous Inland Chow-kies; but if the inland Chowkies were removed, goods once across the Frontier would be safe, and the Charges necessary for maintaining an efficient frontier line would I apprehend far exceed the Amount of the Frontier Collections.

4. With regard to the Town Duty Chowkies the Establishments maintained at them collect, as noticed above, the general Inland or Transit Duties as well as the Town Duties but the abolition of the former Duties would not in my opinion admit of any reduction being made in the strength of the Town Duty Establishments since it takes as large a number of Peons to guard against the illicit introduction into the Town of one as of many Articles.

5 Statement No. 5 exhibits the Charges incurred on account of the Roozoor Sayer Establishment amounting to Rupees 4440 per Annum. If the Inland Duties were abolished these Charges might I think be reduced one third. I believe the present Roozoor Establishment is weak compared

with that of other Districts yielding an equal Sayer Revenue.

6, Statements Nos. 6 and 7 afford the information required in Para. 3 of your letter under reply. The Duties Collected on Exports and Imports by Sea are very trifling and the Articles of Export not being liable to the Inland Duties the abolition of the inland Duties will make no difference in the Collections on account of the Sea Custom Duties.

7. If the inland Duties are abolished and the Frontier and Town Duties retained I am of opinion that no Net Revenue will be collected on the Frontier on account of the great expense that must be incurred for the maintenance of an efficient preventive line, and that the Net Collections on account of the Town duties will be as at present about Rupees 14,207 - 5 - 5, deducting this from the Total Net Sayer Revenue which amounts to Rupees 132,334 - 4 - there remain Rupees 118,127 - 10 - 7 loss to Government by the introduction of the proposed measure. That this loss would in a short time be more than covered by an improvement in other sources of revenue I entertain no doubt.

To the Collr. of Bellary.

Conveying Orders on his proposal to grant a Cowle for establishing a Market fees at the Village of Bundry in his District.

Sir,

Para 1. I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 25th ultimo.

The Board do not perceive how

2. 50 new Shops and 100 looms can be required for the supply of a Village of 784 inhabitants and in which are already settled merchants and others, paying Vecasuddy and Motorpha to the amount of Rupees 85 annually. They will not however object to your granting a cowle on the condition stated in your letter to such Shopkeepers and handicraftsmen as the wants of the Village & its neighbourhood may seem to demand, but you will be careful to guard against any undue advantage being taken of this indulgence, so as to give dissatisfaction to the Shopkeepers of the neighbouring Villages.—

From

3 From the above Statement it will be observed that there has been a net decrease in the demand amounting to Rupees 22,490-10-11. in the past compared with the preceding Fusly-

Sayer 4 There was a gross decrease under this source in the past compared with the preceding Fusly amounting to Rupees 20774-3-1- Of this however Rupees 3539-7-8 was merely nominal when the Bungonpully Jaghir was attached to this District a fixed sum of Rupees 7000- was credited to it on account of Sayer Revenue, and all collections above that sum were included in the Sayer Revenue of this District.

5 This arrangement was adopted to compensate for the loss of Revenue this District sustained in consequence of the duty on goods passing from the Nizam's Dominions into the Company's Territories being collected on the Bungonpully frontier instead of on that of this District

6 The Bungonpully Jaghir has now been transferred to Kurnool-

7 The above sum of Rupees 3,539-7-8- was the surplus realized in fusly 1251. If this be deducted the actual deficiency will be reduced to Rupees 17234-11-5. and it is so far satisfactory that this does not arise from any decline in the Commercial prosperity of the district but entirely from the unfavorable nature of the season-

8 In my last Report I mentioned that the Indigo crop of fusly 1251- was the largest ever known From a deficiency of rain throughout the year, the Crop in the Fusly under review was a very short one, and there was a falling off in the duty on that article alone amounting to the large sum of Rupees 19064-14-8- which exceeds the whole actual deficiency-

9 Indigo has become a most important article of commerce and the Capital expended on its manufacture is most beneficial to this District especially at a time like the present when every other description of produce bears so low a price-

10 The annexed Abstract Statement which exhibits the Quantity and the value according to our Tariff of the Indigo produced in this District as well as the Duty realized on it during the last 15 years will I doubt not be considered interesting and satisfactory and it shows that the manufacture has been greatly extended during the last few years-

Shew

11 Shere was also a deficiency in the Sayer Revenue arising from a smaller quantity of betel nuts having been imported from the Mysore Territories and from the decline in the Cloth trade of the District, but this was more than covered by the increase of duty realized on Opium, Sugar, and Jaggery and some other articles.

12 The Manufacture of Sugar for the home market has been introduced into the Southern Talooks of this District which appear well suited for the cultivation of the cane.

13 Of the total demand under this head Rupees 192919-6-5 were carried to account within the fusly. The remaining sum of Rupees 14387-2-10 was also collected within the fusly but having been realized subsequently to the date of the last remittance from the Talooks it could not be brought to account till after the commencement of the present Fusly.

Abcary. 14 The demand under this head amounted to Rupees 102971- being

Rupees.

Rupees 3702 less than the demand of the preceding year in which the rents were unusually high.

15 Of the above demand Rupees 99.778 — 15 — 9 were collected within the fusly and the remainning balance of Rupees 3192 — 3 has been realized since its close.

Sundry Small farms & Leases.

16 The following Statement exhibits the particulars of the net decrease of Rupees 1004 — 3 — 4 from this source of Revenue.

17. It will be observed that there would have been a Net increase in the various sources entered under this head but for the discontinuance of Pagoda offerings with which the Government has now no connection. The other items are liable to fluctuation and do not appear to call for further observation.

Malarpha. 18 The demand under this source of Revenue amounted to Rupees 1,39,256 — 11 — 10 being Rupees 885 — 14 — 6 above that of the preceding year.

The details of this increase are as follows.

In Veesabady	Rupees 136 — 9 — 7
In Bagge Veesabady	Dr. 749 — 4 — 11
	885 — 14 — 6

19 Of the above demand Rupees 1,38,417 — 15 — 8 were collected within the fusly and the balance Rupees 868 — 15 — 2 has been realized since its close.

Stamps. 20 The amount of Revenue realized from the sale of Stamps in the past fusly amounted to Rupees 23467 — 12 — being Rx 2103 — 13 — above the Collections of the preceding year.

21. Although there was a Decrease of Rupees 919 — 15 — in the sale of Sayer Rowanahs corresponding with and arising from the same causes as the decrease in the Sayer duties, it was more than counterbalanced by the increase of Rx 3023 — 12 — in the sale of Revenue Stamps required for the purpose of Litigation and for the execution of Deeds &c. which has caused the above Net increase under the general Head of Stamps Revenue.

22. The subjoined Statement exhibits the Particulars of the old balances outstanding in the District.

Sayer.

15093 Fort St. George 19th October 1843.

23. From the above State=ment it will be observed that there are no arrears of Extra Revenue exceept under the head of Maturpha, in which there is a balance at this date of Rupees 250 - 11 - 2.- Of this Rupees 108 - 14 - 11.- may be considered recoverable - the re=maining balance of Rupees 141 - 12 - 3 is disperate, and I beg to recommend that I may be permitted to strike it out of the accounts.-

24. The particulars of this Balance and the circumstances which have rendered it irrecoverable are fully detailed in Statement No. 14.-

From A. Freese Esqre. Collector of Chingleput } Sir, Para 1.

Reporting on the Settlement of Land Revenue for Fusly 1252. A.D. 1842/43 and Submitting the Statements connected with it.

Vide Enclosures from No. 1 to 25 with Maharatta Statements.

1252 / A.D. 1842/43. / 5 books

I have the honor to submit herewith the Summabundy Statements of the land Revenue of this District for Fusly 1252, the Settlement of the whole of the which having been conducted under my own personal superintendence, Mr. Daniell the Head Assistant being temporarily deputed by Government upon other duties.

2. The season of Fusly 1252 / A.D. 1842/43 was far less favorable than that of the preceding year, but still may be considered an average one.

The rains during the South West Monsoon or from July to September when the dry lands and the Poolicad Nunjey lands

lands are usually ploughed and Sown, were scanty, and fell at distant intervals, through which a considerable extent of lands of those descriptions were left uncultivated. Towards the end of October the North East Monsoon having set in with a heavy fall of rain, most of the small Tanks were then filled, but the larger reservoirs not having likewise received a full supply, the Sumbah cultivation on the lands situated on high levels was greatly impeded. From that period no showers fell until the end of December and the first week in January, when heavy and long continued rains having occurred, the Tanks ge: nerally, except in some part of the Northern Talooks, received an Abundant supply. This latter fall though of consi: derable advantage was not unattended with, loss, for although much produce, situated under the smaller and shallow reservoirs, was thereby saved from being totally destroyed by drought, serious injury was sustained in the Navary cultivation, and much Sumbah

Fort St. George 19th October 1863.

Sumbah grain, that was nearly ripe for the sickle, was beaten down by the wind and rain, and sprouted through the long continued damp, whilst other lands situated within the beds of Tanks were with their Crops submerged by the refilling of the reservoirs. These accidents and the losses of Navary produce arising from the gales between the 19th and 23d May, by rendering large re: missions necessary, have materially affected the revenues.

4th. The general result of the season under Ryotwar Settlement has been a decrease as compared with the preceding Fusly to the extent of 13,020 Cawnies in 1st Crop Wet land, and 3,805 Cawnies in 2d Crop, and 14,449 Cawnies of Punjey land, together with 178 Cawnies of Garden, the corresponding decrease of revenue Rs. 122,166—8—7 or 13 5/8 per cent as exhibited in the Annexed State: ment.—

5. The subjoined comparative Statement exhibits the extent of cultivation of each description of land in the respective Talooks, the gross Beriz remissions and Net revenue of Fuslies 1252 and 1251, as also the Permanent Settlement. On referring to Col. 23 of that Statement it will be observed that the percentage of decrease in the Poonamalee Talook exceeds considerably that of the other nine Talooks, and this arises from several Causes namely. the extent of wet land usually cultivated with Sumbah Produce that remained untilled in consequence of the Chembrumbaukum Tank not having been filled during the early part of the Season, and without which those lands cannot be cultivated to advantage; the impediments experienced generally throughout the District from the nature of the Season to the extension of the Navary cultivation, and the very extensive remissions rendered necessary by the serious damage done to the Navary Crops nearly ripe, by the gale of May. The extent of remissions noted in Colm. 16 for the Talooks of

Nayer and Peddapollium has been mainly caused by the loss of Crops destroyed, through a failure in the supply of water. The Board are aware that in this District, and particularly in the two Talooks alluded to there are very many shallow reservoirs containing little more than one or two Months supply of Water, and that in Seasons like the one under review in which no rain falls for several Months the Crops must be destroyed. I note this however in the present place as a general remark, proposing hereafter to notice in detail each item of remission.

Land Revenue under Collectors Agency and Aumany Management

7. The number of Zemindary Villages in Fusly 1251 was 101 assessed with a Peishcush amounting to Rupees 41,940-11-0 Two of these Villages Viz. Maumundoor and Ramencovil, forming separate Mootahs, the aggregate Peishcush of which amounted to Rupees 3,226-8-0 reverted to Government by purchase in Fusly 1252 / A.D. 1842/43, they having been sold on account of arrears. There is also a reduction of Rupees 72.7.6 in the Peishcush of Careamangayanee, a subdivision of the Streepermatoor Mootah, consequent on the re-apportioning the Permanent Beriz on the subdivision of the Mootah under the sanction of Government, owing to the discovery of certain frauds in the accounts prepared for the original Subdivision of the Beriz, on making a Net decrease of Rupees 3298-15-6. There is however an increase of Rupees 2005-3-8 being the addition made for the same reasons and under the same authority, to the Ayacotatoor Division. The number of Villages now under that mode of settlement is 399 and the Net Beriz Rupees 1,13,617-2-2.

Vide Minutes of Consultation dated 2d August 1843.

Under

Under the head of Shrotriums —

8. there is a decrease of one Village with a Jody of Rupees 125-3-4 in consequence of the 1/3rd share of the Village of Kelar having reverted to Government on the demise of the Shotriumdar Terovengada Ummal — The remaining 2/3rds of that Village had also previously lapsed by the demise of the respective holders the total number of Villages therefore now held upon that tenure by individuals is 331. paying a Jody of Rupees 73,916-13-0.

Vide letter to Board dated 27th July 1842.

9. The number of Mucta or Villages held on rents for Fusly 1252 / A.D. 1842/43 remains as in the preceding Year, but there is a trifling increase of Annas 7 2/7 from the Beriz being increased by the Teerwa derived from certain redeemed waste lands in the Villages of Munjuncaraney and Koorumbaukum, and regarding which lease a separate report has been submitted to the Board.

in the number of Villages under Ryotwar settle: ment, the number in the Accounts of Fuslies 1251 and 1252 being 1,570 and 1,571 respectively.

11. Referring to the decrease of Revenue derived from the Villages of Mamun: door and Ramencovil, the reversion of which to Government is noticed in the 7th Para of this report, and which were under Amany Settlements, I would beg to observe that the Merasdars having, in consequence of the na: ture of the Season, and the very low price of grain, declined to submit any reason: able offers to rent them, the produce was cut and thrashed under the Superintendence of the Sircar Servants, and the Mailwarum grain sold at the Current Market price

The proceeds from Mamundoor and Ramencovil Amounted only to Rupees 2,224, 3 x 8 being Rupees 1,002, 4, 4 or 31 per cent below the permanent Beriz, but this revenue is only Rupees 256 - 1 - 1 or 10¼ per Cent below the actual revenue realized from the Mail: warum grain in Fusly 1251.

In Fusly 1252 J.D. 1842/43 the cultivation fell short of the extent sown in the pre: ceding Year by 59 Cawnies of Nunjey and 37 Cawnies of Poonjey arising partly from the nature of the season partly from the effects of the low prices of the past year, and partly from the uncertainty whether the Mootah would be put up to sale and purchased by Government, or whether it would be retained by the Zemindar, and partly from the late period at which it finally reverted to Government. The actual comparison of the re: venue derived by the Mootahdar in Fusly 1251 J.D. 1841/42 and by the Government in Fusly 1252 J.D. 1842/43 is exhibited in the Margin, and shews a decrease of Rupees 207 - 11 - 3, but as compared with the permanent settlement a decrease of Rupees 836 - 2 - 1 - or 28½ per cent.

19. The amount of remission granted in Fusly 1252 / A.D. 1843/43 on account of shamelat Bunjer or portions of fields left waste exceeds that of Fusly 1251 / A.D. 1841/42 by the small sum of Rupees 206-8-1 Every effort has been made to reduce the call for remissions on this account, but accidents or natural causes will invariably render some remission under this head necessary. In the year under review the amount has been increased by the nature of the Season the failure of the petty Monsoon impeding the full cultivation of the dry lands, and the subsequent heavy rain in causing portions of Wet lands to be flooded or covered with water until the season for cultivating them was past.

These remissions which are larger than ordinary were rendered necessary partly through the scanty and deficient produce of the Sumbah

Sumbah Crops raised on lands situated under shallow Tanks, the supply of water having been exhausted in the long interval of dry weather between October and January and those inundated during the latter mentioned Month, and partly through the extensive damage to the Navary Crops caused by the gales in May. The necessity of granting these remissions was rendered the more urgent by the very low price of all agricultural produce during the past and preceding year, but due care was taken in regulating the amount in each instance to take the general produce raised by the individual and his condition into consideration, so that at the same time that distress was averted, the just claims of Government were not needlessly dispensed with.

21. The remissions on account of Navy or Crops totally destroyed through the failure of the means of irrigation was Rupees 6107-7-6 being an increase above the amount of the similar head in Fusly 1251 / A.D. 1841/42 of Rupees 3404---11. This is attributable solely to

to the effects of the season, the deficiency of the early rains, and the failure of water in some of the Tanks in the Nayer, Peddapollium and Sydapet Talooks. The whole of the loss on account of which these remissions were granted occurred prior to the fall of rain in January, and without which they would have necessarily been very much larger. In granting these remissions the repeated orders of Government and the Board to prevent unnecessary sacrifice of revenue were kept in view.

22. The remissions granted on account of Lands held on Cowle for the redemption of waste amounted to Rupees 14436-7-"

being Rupees 7471-10-5. or nearly 1/3 less than in Fusly 1251. — This decrease of F.S. 1841/42

has arisen partly from the periods for which Cowles were granted having expired, and but few new Cowles having been issued, as likewise from a few of those formerly granted having been thrown up, the nature of the season under review rendering the cultivation, even of the Sheigal or annually cultivated lands, a matter of difficulty.—

23. The deficiency of rain during the early part of the cultivating season having caused a considerable extent of Nunjey and Punjey cultivation to fail immediately after the sowing of the grain it became unnecessary to remit the Teerwa of such as could not from individual circumstances be again cultivated, and the remissions on this head or Vittoopaul amounted to Rupees 3,248-2-" or 1,143-4-1- in excess of the remission called for by similar causes in Fusly 1251.—

27. It will be observed that although the land Revenue Beriz of Fy 1252 / A.D. 1842/43 is below the settlement of the 3 preceding years or those immediately following *that in which the Ryotwar field apes-sment was generally introduced it is still higher than the revenue derived in any one of the 16 pre-ceding years or since Fusly 1232 / A.D. 1822/23 and there appears to me no rea-son for supposing that the decrease that has occurred has its origin in other sources than the fluctuating nature of seasons. The very low price of all descrip-tions of produce has naturally affected the profits of the ryot and enhanced the amount of his burdens, but still the evil has been only of a temporary nature, and a nothing but good seasons are wanting to advance the land revenues of this District by more extended cultivation

to a higher standard.—

28 The balance on account of Current Land Revenue at the close of Fusly 1252 / A.D. 1842/43 amounted to Rupees 1,93,895-7-2— or 19 3/5 per Cent which has now been reduced by en subsequent payments up to the 10th Instant to Rupees 30,025-9-4 or 3 7/8 per Cent.—.

29 In my report on the land revenue of Fusly 1251 / A.D. 1841/42 Paras 21-22- and 23. I stated the Balance outstanding at its ter-mination owing to the extraordinary low prices of grain to be 3,93,917-10-8 of which this sum Rupees 371,292-12-6 have since been realized together with the current revenue, and although considerable quantities of grain were stored to meet these demands, the continued low price has rendered the collection of those sums a matter of some anxiety, and have made me sceptical whether the facilities afforded by the delay were as beneficial as I hoped they would have proved. Could perfect dependence have been placed on the cultivator reserving his grain for a better market, and then defraying his

last

last, no doubt he would have derived an advantage, but the plan is too theoritical to meet the habits of the ryots, the great body of the cultivators if not called upon to pay with regularity will dispose of their grain secretly and convert the entire proceeds to private purposes, and I shall therefore endeavour as far as in my power in future to regulate on the collections by the demand.

The grain market since the on beginning of the Current Fusly has undergone some improvement, but the price of Grain is still low.

30. I propose shortly on submitting for the consideration of the Board a Statement of balances of more than one year standing, as the relization of them under all circumstances appears impracticable

impracticable and likely to be attended with injurious effects.

31. Prior to Fusly 1252 A.D. 1842/43 no particular instalments or Kistbundy had been established in the Ryotwar arising I imagine from the late introduction of the Survey assessment in the entire District, but as without its introduction, regularity in the collection is possible, and as no objection seemed to exist on the part of the cultivators I divided the demand into 7 and 8 Kists as undermentioned corresponding as near as practicable with the nature and extent of the different lands and Crops in each Taluk and though they were not so regularly acted upon during the past year as I could have wished, the plan has been introduced and is progressing satisfactorily.

32, The Board in their letter of the 7th September 1843 observed that the number and extent of each field are not specified in the Puttahs given to the ryots and directed that it should be so done infuture I have now however the pleasure to inform them that their orders had been anticipated, and that I had caused those particulars to be inserted in the Puttahs for the past year.

The Cholera I am sorry
