No Diary.

Thursday 28th August 1852.

At a Meeting Present.

J. Goldingham Esqre Second Member.

and

J. L. Blane Esqre Third Member.

Walter Elliot Esqre Senior Member.

Absent on duty- as Commissioner Northern Circars.

Minutes of the last Meeting

Read and approved.

Read the following Extract

No 74

Extract from the Minutes of Consultation in the Revenue Department under date the 8th August 1852.

Read the following Extract from the Proceedings of the Board of Revenue

(Here enter 28th June 1852 No 261)

Rec'd 2/8/52

From the Secy to Government

Reviewing the settlement of part of the Tinnevelly district for Fusly 1260 calling for explanation and report on certain points, and requesting the Board in their future reports of the annual land revenue settlement reports to distinguish the actual costs of collections from assignments out of the revenue and other charges upon it.

Extract

The Season of Fusly 1260 in the Tinnevelly District was unfavorable for wet cultivation both as regards the early carr- and the later Peshamum Crops. Hence the extent of land under that species of tillage was less than in the preceding year and in some localities the land which was sown gave but a

a seanty return The dry cultivation was more successful particularly Cotton which is stated to have yielded good produce-

2. Price though kept down at the opening of the Fusly in consequence of the glutted state of the market subsequently recovered and were on the whole higher than in the previous year.-

3. Three Nunjah Pettom and one Poonjah Village were added to the Nunjah Oolungoo Villages, while thirteen which had been given on annual rent in Fusly 1259 had to be taken under Amanie in consequence of dissentions among the holders, and perhaps in some degree of the badness of the Season-

4. The settlement for the Fusly under report is exhibited in the subjoined abstract which shows that altho' the gross demand was some what above that of Fusly 1259 the net result in consequence of the heavy remissions necessitated by the character of the Season is a decrease to the amount of Rupees 81,987-

	Rupees.	Increase (+) Decrease (-) as compared with Fusly 1259

The

5

The greater portion of the remission, two thirds of the whole, was granted in the three Talooks of Nargoonary Pullyoor and Sunkerninarcovil, where the unfavorableness of the Season was most severely felt. The Board of Revenue are satisfied that the indulgence was given after due enquiry and on sufficient grounds.

The demand Collections within the Fusly and afterwards with the balance yet due both in Land Revenue and in that derived from the Extra Sources for the year under report and that which preceded it are as follows.-

	Demand	Collections within the Fusly	Collections subsequent by	Collections Total	Balance on 30th April 1852

5. The greater portion of the remissions, two thirds of the whole, was granted in the three Talooks of Nargoonary Cullyoor and Sunkerninarcovil, where the unfavorableness of the Season was most severely felt. The Board of Revenue are satisfied that the indulgence was given after due enquiry, and sufficient grounds.

6. The demand collections within the Fusly and afterwards with the balance yet due both in land revenue and in that derived from the Extra Sources for the year under report and that which preceded it are as follows.-

	Demand	Collections within the Fusly	Subsequently	Total	Balance on 30th April 1852
Fusly 1259.					
Land Revenue	2433,990	2086564	42186	2128751	5238.
Extra Sources	53,214	53,057	204	53,261	80.
	2,68,034	2,19,325	43390	2,62,716	5,318
Fusly 1260.					Balance on 30th April 1852.
Land Revenue	2052,002	2001124	47,983	2049107	2,294.
Extra Sources	591,202	589,205.	1,919	591,184	19.
	2,643,204	2,590,329	49,902	2,640,841	2,313.

A.

A Comparison of the two Statements gives.

		Fusly 1259.	1260.	Increase or Decrease on Fusly 1260 as compared with 1259.
Demand.	Land Revenue	2,133,990	2,052,002	– 81,988
	Extra Sources	534,044	591,201	+ 57,158
Collections.	Land Revenue	2,128,752	2,049,707	– 79,044
	Extra Sources	533,965	591,185	+ 57,219

showing that the land Revenue demand for Fusly 1260 falls below that of Fusly 1259 in the sum of Rupees 81,988 and the Collections in the sum of Rupees 79044 — whereas the revenue for Fusly 1260 derived from the extra sources exhibits an increase of Rupees 57,158 in the settlement and Rupees 57,219 in the Collections. Taking the Land and Extra sources together, the demand for 1260 shews a decrease of Rupees 24,830 and the Collections Rupees 21825.

In para 3 of the Boards Proceedings the total population is stated to amount to 12,92,216 distributed into

Agricultural	848,571
Non Agricultural	420,645

Referring to the defects which appears to have occurred

Boards Proceedings 12th January 1852 Para 14. Fasly 1261 Oct. 14th February 1852 Para 4.

occurred in the preparation of the population returns for previous years, the Government would wish for a clear explanation of these terms and particularly whether in the agricultural Class are included not only the Ryots, their wives and families, but also the Labourers in their regular or occasional employ and all whose living is derived from the lands.

8. In para 6. the Board state that it is not necessary to make any charge for a fourth Crop which is seldom cultivated and for which land to the extent of 6. 6– 6/8. only was occupied in the year under review On a previous occasion. Proceeding 6th August 1849 they had declined to accede to the recommendation of the Collector that the third Crop cultivation might also be exempted from demand. It would seem that in the year under report only 44 Seed Cottahs with an assessment of 279 Rupees were cultivated with a third Crop, in the year preceding only 365 S. C. assessed at Rupees 1718, while the maximum extent of land so applied in any year would not seem to exceed 69.0. Seed Cottahs or about 1000 Cawnies. Looking to the small quantity thus cultivated and

Boards Proceedings 6th August 1849 Para 12.

and the insignificant revenue derived from it and more especially to the circumstances that such demands have a direct tendency to repress all exertion and enterprize on the part of the active and industrious Ryots, the Governor in Council is of opinion that unless there be any strong reason in favor of making a change in the third Crop as for instance, that it is indispensably necessary to prevent the diversion of water from one or two Crop lands, the demand might well be foregone equally with the Fourth as now directed by the Board and he requests that the Board will reconsider their orders of 8th August 1849

9. The four Villages into which the survey and assessment made in 1843 has been experimentally introduced still continue to exhibit improvement. Their revenue

Fasly 1260		357
1253		5092
		2265
Aggregate revenue of the last seven years		47,119
Revenue of Fasly 1253 Rupees 5092	7	3564
		11475

for Fasly 1260 is in excess of that of Fasly 1253 by Rupees 2265. The total increase in the last seven years has been 11,500, and what is a strong indication of the soundness of the principle on

which the work was carried out, the revenue has been gradually but steadily progressive. It is remarked that under date 8th May 1845 the Government, when the proceedings of the Board 6th February 1845 on the Collector's survey report were laid before them desired that the Collector might be called upon to submit immediately and as briefly as possible his explanation on each important point which had been noticed, and that in forwarding his reply the Board would place before Government their own sentiments on all the points on which decision was required, stating distinctly where they would confirm and where they would alter the Collector's proposals and the reasons for confirming or altering them. It is observed from the return of the Board's arrears for the first quarter of 1851 that the reply of the Collector to the further reference made to him in consequence of the above orders has long since been

received

received and the Governor in Council desires that it may be disposed of without more delay and that the Board in submitting it to Government will state their views in respect to the prosecution of the work explaining under what arrangements it should be carried on and showing any modifications which experience may have proved to be advisable.

10. The charges for Fasly 1260 are stated at Rupees 624952. or 22 13/64 per Cent on the revenue. Of this sum, it appears from Statement No. 16. accompanying the Collector's Report, the land Revenue charges amount to Rupees 5,68088. But in these charges are included not only the expenses of collection and management, but maramut expenditure, assignments of revenue &c. It is desirable that the Board in their future reviews of the annual land revenue settlement reports should in all cases distinguish the actual costs of collection from

Board's Proceedings Para 19.

from assignments out of the revenue and other charges upon it, specifying separately.

The total charges for collecting and administering the land revenue, such as the salary of the Collector and his subordinates pays of the District and Hoozoor Revenue Servants, Jupitahs allowance, tent allowance, Saderwared &c.

2. The Charges for the construction or repairs of works of irrigation.

3. The charges upon the revenue as Mosques and as Pagoda allowances payments in

in lieu of retrenched Officers &c.

4. The Miscellaneous charges, if any, not falling under any of the above classes. The Board shew the proportion borne severally by the 1st, 3d and 4th classes of charges to the gross revenue, and by the 2d class to the revenue derived from irrigated lands, and explain briefly any remarkable fluctuations under any of these heads.-

II. Government notice with pleasure the favorable mention made by the Collector of his subordinates.-

To The President and Members of the Board of Revenue.

2. The draft act is an endeavour to provide against fraudulent and secret transfers of real and moveable property.

3. For this purpose, as regards real estates, it enjoins that no interests of any lands shall be created unless by written instrument of the party creating the same, that all declarations of trust affecting lands shall be proved by some instrument in writing by a competent party, and that every person in the possession, or in the receipt of the rents or profits of any land, shall, in the absence of such written instrument, be taken to be the sole and absolute proprietor of such lands.

Section I.

V.

VI

4. These provisions so materially affect the interests of the members of what is termed an undivided Hindoo family, and also the Board would add the customs of a large portion of the people, the inhabitants of the Western Coast of this Presidency particularly, that the passing of the Draft Act into

Nairs and Moplahs

into Law requires the gravest consideration.

5. Under the first arrangement noticed in the preceding Para it is well known, that the general interests of the family are confided to and controlled by one or more members of it, without written declarations of trust on the part of the remaining portions, but that the personal liabilities of the managers do not affect the interests of the other share-holders the general disposal of the Estate being ruled by the concurrence of each member of the family entitled to participate in it.

6. The general concurrence and mutual confidence have mainly contributed to hold family property together, have protected the weaker from the designs of the more influential members, and prevented the spoliation of hereditary Estates.

7. The proposed act, as the Board understand it, requires the manager of an Estate to act under a written declaration of trust, and in the absence of such

document

document creates him the sole absolute pro=
=prietor of the property entrusted to him.

8. Written declarations of trust are so distasteful to all the parties concerned, that the Board are satisfied that they would be very rarely taken out, and in the event of their being executed as required by the pro=
=posed enactment, it is clear that in the present state of native society the weaker members, women and children, might be easily induced to assign away any thing, and thus place themselves more irretrievably in the power of a designing relative.

9. In the absence of such a document the ostensible holder would be created by the proposed Law the sole and absolute proprietor. It is obvious also that a person of low principle would avail himself of the title which is thus so readily granted by destroying the instru=
=ment which declared the nature of his pos=
=session. In the present state of things such a temptation to fraud does not exist, and if it were attempted

attempted, evidence would be at hand to disprove a claim thus set up, but under the proposed act such evidence would be unavailing as pos=
=session is declared to constitute right.

10. Admitting the evils of the Revenue system as detailed in the opening paras of the Minute accompanying the Draft act, their remedy as proposed would in the opinion of the Board be so liable to abuse, would place in such jeopardy property held in trust or mutual confidence that they are doubtful whether its consequences would not prove manifold more grievous, than the evils which it seeks to remove. The professed object of the proposed enactment is to destroy a system by which society has been held together for so many centuries in order to meet evils inseparable from every condition and to be corrected by an improved moral condition of the people rather than by direct enactment.

11. It is preferable the Board think that an intended purchaser or Mortgagee should

should be left, as at present, to take the pre-
=cautions necessary to give validity to his title,
than that his procedure should be simplified,
by creating under the act the ostensible into
the real proprietor.-

12. As incidentally pointed out
Para 6. by the Acting Collector of Tanjore, the fact of
property descending in the female line
among a numerous class, causes already
sufficient inducement for the temporary
possessor to enrich his immediate descend
=ants at the cost of the family property.-

From the Collector of Cuddapah 9th July 1852. P. 2. 13. It is remarked too that the
Draft act does not provide against the mode
most generally adopted in supporting fraudu-
=lent claims and setting aside judgements,
Viz. by producing deeds ante-dated, and
alleged to have been drawn up in previous
From Collector 28th April 1852. P. 5. years. The Collector of Canara observes also
that Section II should not invalidate the
obligation required by Clause 1. Section III
Regulation V of 1822. by which the property
of a tenant cannot be distrained without puti-
=tahs from the proprietor having been passed or
tendered.-

Enclosure 1 from Collectors of Malabar 17th July 1852. P. 3.

14. The authorities whose letters
are

are under submission look for the prevention of
the evils noticed, rather to a general Registry
of all deeds relating to land, and it is justly
observed by the Collector of Cuddapah that
without Registry the provisions of the proposed
Laws would be inoperative.-

15. The above remarks have equal
reference to the provisions of the act as relating
to moveable property, and the prohibition of
unwritten Wills but the Board will not
advert to these in detail, believing that the act
in its more important features cannot be
made applicable to the present institutions
of native Society, without materially inter-
=fering with customs hitherto respected and
without endangering the interests of individual
share-holders of family property.-

16. They would notice, as they
found occasion to do on a late reference,
the legal, and to general readers, obscure
diction in which the Draft act is composed.
Putting aside the diminished difficulty of
correct translation into the various dialects
of

of this Presidency, they cannot but think, as that simpler language might be advantageously used in an enactment, applying to the ordinary affairs of Hindoo life, and affecting the interests of a peasantry for the most part ignorant and illiterate.—

(For information)

Read Extract pointing out to the Collector of Guntoor, that it was irregular on his part to have made certain payments previous to obtaining sanction, and authorizing the Civil Auditor to admit the sums retrenched in his accounts for Fasly 1257. and the continuance of certain pensions.

16.17

Order thereon.

Ordered to be recorded.

18
B. No. 1955.

Read the following Official Memorandum.

No. 15.

Official Memorandum.

From the Commissioner Northern Circars.

Para 1. Instances having transpired in which irregularities in the management of Treasuries have occurred from the circumstance

circumstance of the Office of Treasury Shroff being held by persons engaged in extensive private mercantile and exchange Transactions, the Commissioner desires to consult the Board whether it appears expedient to restrict persons holding the Office to the exclusive exercise of their public duties.

2. The Collector of Rajahmundry has just reported a misappropriation by the Head Shroff of his Treasury of 800 Rupees remitted thro' him in payment of his Kist by a Mootah: dar and has discovered that the same Shroff has been acting as Agent for several other proprietors, paying in the money as suited his convenience, making advances himself to cover deficiencies, preparing new Irsalnamahs signed by persons calling themselves Vakeels &c. &c. It is also within the knowledge of the Commissioner that the Head Shroff of the General Treasury at Masulipatam is one of the principal Sowcars in the place and is in the habit of discounting bills in the public Treasury which are constantly received and often to a large amount from the Resident of Hydrabad. Up to a recent period moreover remittances of Kists used to be made thro' him by some of the more distant Zemindars out

9556. Fort St. George 26th August 1852.

out of which he had realized a considerable profit by exchanges of the Coins transmitted.-

Vizagapatam Commissioner's Office 7th August 1852.

/ Signed / Walter Elliot.
Commissioner.

B. No. 1739.

Proceedings thereon. 1 The Board are not inclined to think that there is any impropriety in employing as Government Shroffs, men who have private business of their own.

18.19

2. It occurs to them that men who have a character to maintain as to the integrity of their private dealings, may be more trustworthy when employed by Government in business to which from early education and habit they are accustomed than persons who perhaps have to commence their experience in a Government Treasury.

3. In the case now brought to notice, it does not appear that there has been any misappropriation of Government funds, and it is always in the power of the Collector to decline employing any man whether a Shroff by profession or not, regarding whose character there are any doubts.

4. In making these observations the Board wish merely to deal with the General principle. Exceptions may arise, as in the case referred to, and it is to meet any want of honesty of this kind that all Shroffs are required to give security, in proportion to the amount of Money passing through their hands.

Proceedings thereon. / The Settlement of Eight Talooks had been finished before Mr. Forbes joined the District. Three Talooks, Viz^t, Goorumcondah, Maddempully and Roycholy were settled by Mr. Wedderburn the Head Assistant under Mr. Forbes's directions, and the four Talooks

Proceedings Submitting certain letters from the Coll^r of Cuddapah and reviewing the settlement report of that district for Fusly 1260/1850/51

Carried over to II

Fort St. George 26th August 1859.

Talooks of the Sub Division were settled partly by Mr. Heathcoat while acting Sub Collector, and partly by Mr. Widderburn, who succeeded to the charge of that Division on the 25th March 1851.

2 The Rains throughout the year appear to have been timely and sufficient. The Tanks were comparatively well supplied. Of the 3511 Tanks exhibited as having received water more or less, some, the number not specified, are Dushundum, that is kept in repair by their owners. In the Budwail Talook in the Sub Division the number of Tanks which received a full supply of water has decreased during the last 3 years. The cause is not apparent but the Collector will be pleased to ascertain how far it is owing to defects susceptible of remedy. In May a great Storm occurred, which occasioned considerable damage as already reported by Government, in one Village alone, Chowtepully 505 persons perished: 1120 Houses were destroyed, and the loss in cattle

cattle is computed at 2,300 with 5,400 sheep.

3 The Wet Crops suffered from blight and the out turn is not considered to be above 5/8 of a full return. In the red and mixed lands the Dry Crops are not supposed to have yielded much more than 1/2 a full Crop, those in the black Soils still less. Adverting however to the favorable character of the Season and to the low prices which have ruled during the year the Board are not disposed to think that the blight could have been so general as must be inferred from these low Estimates of the entire Harvest of the District. Fever prevailed during the Cooler Months. Cholera also was experienced.

Tabular Statement in para 11

4 The Prices of Paddy and Rice were rather lower than in the preceding Year. Those obtained for the dry Grains were higher. The rates of all kinds, both wet and Dry Cotton and Indigo excepted, were below the average of the last 5 years. The Prices of Cotton and

and Indigo were in excess of last year as well as of the average of 5 years—

5. According to the census taken under the Circular Orders of the Board the Population amounts to 1431921 persons of whom 95681 are Mahomedans and 436 Christians—The number who subsist by agriculture is.—

Hindoos	932797
Mahomedans	39267
Christians	235

Paras 24 & 27.

14. Of the foregoing Demand the sum of Rupees 217.935-10-11 has been realized, which is composed of.

Collections within the Fasly. } 203.842-14-1

D: Subsequently to the end of May 1852. } 13.892-12-10

The outstanding Balances Rupees 14,606: 6. 3 will be adjusted with the Sum: =mabundy of Fasly 1261. 1851/52. It is chiefly owing by Ryots who Suffered in the Storm of may 1851 already noticed, and on account of wells on= which no additional assessment had ever been levied and which the Board in consequence desired should not

B. de Pro: 8th Dec. 1851. be enforced—

15. The outstanding arrears amount to Rupees 5059-7-11 of which Rupees 85-2-5 is Quit rent on account of land occupied by a Bungalow former= =ly the property of the Reverend Mr. Whitford. This Property has passed into other hands, and as that Gentleman has been

=been removed from the Govern= =ment service the Board beg to Con= =cur in the recommendation of the Collector to write off the = amount in question, The remain= =ing Balances will be finally re= =ported on with the Settlement of the Current year—

16. Including the Extra Sources the entire Demand of the year amounted to Rupees 2.02.590— 7: being Rupees 108.875-8-4 above that of the preceding year. The particulars are shown with the = Collections in the following Ab= =stract Statement—

The

17. The second letter recorded at the head of those Proceedings contains the explanation of the Collector on the remarks of the Board on the Settlement for Fasles $\frac{1258}{1848/49}$ and $\frac{1259}{1849/50}$ The discrepancy noticed by the Board between the Statements of the Collector and Sub-Collector in regard to the imposition of Teerwah Jaatee on certain lands under the newly constructed Tank of Rachacondah is satisfactorily explained. But the rule under which this additional demand is made generally in the District is defective & calls for modification. Dry land converted into wet or Garden is taxed at the highest Teerwah Jaatee rate of the Village if that rate is below 3 Pagodas per acre. if above the extra Cess is not less

than 3 Pagodas This rule was introduced in Fasly $\frac{1243}{1833/4}$ by Mr. Lacon the Principal Collector. If the newly converted Land is of the same quality as that, the assessment of which it is intended to apply to it, the rule is unjectionable, but its effect is to render the demand too high or too low, according as the new land is inferior or Superior to the old Land. Its unequal operation was noticed by Mr. Murray the Sub Collector in Para 8 of his report dated 13th December 1849 on the Settlement for Fasly $\frac{1258}{1848/49}$, and that Officer recommended the introduction of a Scale framed with reference to the Capability of the land. The Board are of opinion that the Teerwah Jaatee should not

No 80

To W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George

21

B. No 2026

From the Collector of Cuddapah

Submitting report upon the Extra sources of revenue for Fusly 1261/1851/52 together with its Maratah translation & forwarding accounts connected therewith numbered from one to five as also the Maratah Statements.

Sir,

I have the honor to report upon the extra sources of revenue for Fusly 1261/1851/52 and to forward accounts connected therewith numbered from one to five. In further simplification of the accounts I have now omitted the Statement hitherto marked A-B- all the information it contained is given in another and more convenient form in No 5. and the former account may be therefore very conveniently dispensed with.

2. The following is a General Comparative Statement of the demand under each item of extra revenue for the past and previous Fusles from which the Board will observe that there

Comparison			Collections within the Fusly 1261.	Decrease	Balance	Collections upto 29th August Fusly 1262	Balance	
							127	
						779	388	
					847			
				481	366			

of Palmyra trees arises, as the Board is aware from the sale of these trees to any one requiring them at two Rupees a piece, and the demand for building purposes having been small, the collections have fallen off accordingly.

7.— The duty levied on the red dye wood was above that of the previous year by Rupees 127—11—4.

8.— Of the total demand under this head Amounting to Rupees 11,101—7—4. Rupees 13,254—3—11 were collected within the year, and the balance has by subsequent collections been reduced to Rupees 127—15—4.

9.— Statement No 3 shews the Settlement under the heads of Veesabady and Baguveesabady in Fusly $\frac{1261}{1851/52}$ as Compared with Fusly $\frac{1260}{1850/51}$ giving an increase of Rupees 62—13—6 under the former, and a decrease of Rupees 60—1—3 under the latter the Net increase being Rupees 2—12—3.

10.— Of the total demand Rupees 14,952—12 were

were collected within the year, and at the present date the balance outstanding is Rupees 1134—9—4.—

11.— In the revenue derived from the sale of Stamps there was a decrease of Rupees 366—8— when the collections in Fusly $\frac{1260}{1850/51}$ and $\frac{1261}{1851/52}$ are compared — it is an item with which, except in the prevention of fraud, the Collector has little concern, and its rise or fall depends more upon the business of the Civil Courts than upon any thing else.

12.— The old balances are shewn in the Statement No 5, and amount to Rupees 883—12—11 on these a separate report will shortly be submitted to the Board, with a recommendation of such as may appear to be irrecoverable

13.— In my report for Fusly $\frac{1260}{1850/51}$ I informed the Board that there were 234 Sugar manufactories

manufactories in the District, and explains the nature of the buildings which are still termed manufactories for want only of a word applicable to their real state - In Fusly $\frac{1261}{1851/52}$ only 201 of these buildings were made use of, and there was in consequence a considerable reduction in the quantity of Sugar made.-

11.- The cultivation of the cane was less than in the previous year as shewn below, but not so much as to account for the great diminution of manufacture, which was caused by the low prices which ruled at Madras, and which induced many of the ryots to convert their produce into Jaggery which was very largely consumed in the District

Fusly $\frac{1260}{1850/51}$		Fusly $\frac{1261}{1851/52}$		Increase		Decrease	
Extent of Sugar Cane		Extent of Sugar Cane		Extent of Sugar Cane		Extent of Sugar Cane	
Acres	Cts	Acres	Cts	Acres	Cts	Acres	Cts
5300	50	5025	00			278	3300

12. Certificates were given under Act

Act XV of 1839 for the export of 4,119 Maunds of Sugar each of 25 lb but 154,000 Maunds of this belong properly as explained in my report to Fusly $\frac{1260}{1850/51}$ so that the bonafide export of Fusly 1261 was 287964 Maunds being less than in the previous year by 19808 Maunds

Cuddapah Collector's Office 23d August 1852

[Signed] H Forbes
Collector

Bd No 2025.

From the Agent to the Governor at Kurnool

Forwarding Report on the Land Revenue Settlement of the Kurnool District for Fusly 1268- + No 23 * No 19.

Sir,

I have the honor to report, on the Land Revenue Settlement of the Kurnool District, for Fusly 1268, made by my predecessor Mr Lushington, and to forward the prescribed English, and Mahratta Statements, relating thereto.—

Chagulmurry	1
Nundial	1
Sirwell	1
Pannum	1
Goodoor	1
	5
Dhone	1
Ateoor	1
Mundecoteoor	1
	3

2. The Cummabundy operations were commenced, on the 24th November 1850, and concluded on the 27th June 1851, Five of the 8 Talooks of the District, were settled by Mr Lushington; and the remaining three Talooks, by the Assistant Agent, Lieutenant Russell.—

3. The Stations at which the Settlement of each Talook was made, by those Officers respectively, are entered below.

No 1 Chagalmurry—Chagulmurry and Aulamoor

Villages			590
Hamlets		485	
		105	
		590	

1. The Marginally entry shows the number of Villages and Hamlets, brought under settlement, which was the same as in Fusly 1259 amounting to 590. The town of Kurnool is not included therein.

Season.

5. The rains which fell throughout the season, appear to have been sufficient, and favorable for the Dry crop cultivation, but in some parts of the District they did not fall seasonably, nor were they ample enough for the proper supply of some of the reservoirs. The large Tank at Kundial did not receive the

the supply required for the cultivation of the 1st. crop, until much later in the season than usual, which preventing the lands under it being ploughed up, and sown at the proper time, delayed the reaping of the crops beyond the usual period. The supply itself also was inadequate for rearing a 2d. crop. On the whole however the season may be said to have been very favourable.

Prices. 6. There was a decrease in the price of Paddy, and of the principal grains produced on dry lands, below that obtained last year, but the subjoined Statement will show, that the price of the latter description of produce, was on a par with the average rates of the three preceding years, while that of cotton, some of the pulses, and Oil seeds, was higher. The outturn of the crops having been more abundant than in Fusly 1259, and the prices generally favourable, the Kists were realized with less difficulty.

8. The previously depressed condition of the Chagulmurry Ryots, was noticed by my predecessor in his Report on the last Fusly, and the Board are aware that this Talook was the only one, in which the Ryots did not participate, in the relief afforded, by the remissions granted in consequence of the unfavorable nature of that season. Disheartened by their exclusion from that indulgence, and impoverished by the repeated failures of their Crops, several resident cultivators were led to relinquish the cultivation of their lands, either totally, or in part; and many Pyakarie Ryots from the Cuddapah District were influenced by the same causes, in throwing up the lands, which they had been in the habit of cultivating.

9. The decrease in the Goodeen Talook, is attributable to the emigration of some Ryots, and the abandonment of lands by others, consequent on the losses sustained by the failure of the crops in Fusly 1259. It will be remembered that this Talook suffered more severely from the effects of the seasons referred to, than the rest of the Talooks of the District, and although

x Agents Report &c upon the settlement of 1259 Para 6 & 10.
Boards Proc 1st May 1851 Para 13.

although out of the remissions granted, in consequence of that failure more than one half or Rupees 17,646 x — x was accorded to that Talook, yet it appears that the losses which occurred by the failure of the Poonassa or 1st Crop were not taken into account in regulating those remissions.

10. The increase in the other Talooks amounted to Rupees 4509. 13 — 6, arising from an increase in the cultivation of waste lands, from certain sequestered Enams having been assessed to the Revenue, and from additional assessment on lands converted

		acres	Rupees a p
1259	Land	4,85,263	3,03,086 8 4
1260	—	4,87,619	3,07,596 1 8

11. The marginal entry shows the total of the Villavaree Beriz of 1260, in comparison with 1259. I have added to the Statements usually forwarded to the Board a Maharatta Statement No 17 which shows the particulars of each item of increase, and decrease in the Villavaree in each Talook, an abstract of which is given hereunder —

12. It will be seen that there was an increase of Rupees 11,958-9-7 and a decrease of Rupees 15,950-5- leaving a Net decrease of Rupees 993-6-10

Decrease by deaths emigration and relinquishment of lands by Pyakarees and other Ryots.
Entries 1 2 and 3
Rupees 1523-11-

13. This decrease arising from deaths emigration relinquishment of lands by Pyakarees and other Ryots, as shewn in the Entries 1 to 3 is Acres 1742-35-7 assessed at Rupees 1523-11- The greater portion of this decrease is on account of lands relinquished by Pyakarees Ryots in the Chagul-murry Talook—

Land relinquished by impoverished ryots
Entries 4 and 5
Rupees 10,324-13-4-

14. The decrease from land relinquished by impoverished Ryots entry 4 and 5 is Acres 10077-13-9 or Rupees 10324-13-4- Of this amount lands assessed at Rupees 5,005-3-6 were also relinquished by Ryots of the Chagulmurry Talook, owing to the causes already explained—

Decrease by lands converted
Entry 6. Rs. 1448-3-9.

15. Under the head "Decrease by Lands converted" there is a decrease of Acres 171-13-7½ or Rupees 1448-3-9 of which amount Acres 361-33-12¼ ordinarily assessed at Rupees 826-12-7, became liable to an enhanced rate of assessment, and this amount has consequently been carried to the increase, under its proper head on

16. On the remaining acres 109-19-11¼ the assessment in the preceding Fusly including Tenerwajasties was Rupees 621-7-2. In the present year, the assessment on the lands reverted to the ordinary rates, or Rupees 304----

Inundated Lands
Entry 7. Rs. 32----

17. The decrease under this head is Rupees 32---- the assessment on 4-2 acres of land situated in the bed of the Tank at Vamasamoodram in the Dhone Talook, which having been inundated at the time of Villa-varee, was not included in the engage-ments.

By mistake.
Entry 8. Rs 23-11-

18. The decrease under this head arises from acres 13-39-2 assessed at Rupees 20-11- at Buttaloor and Chika-rajavamala in the Sirvell Talook and acres 9-18-7 assessed at Rs 3---- at Bostepaud in the Dhone Talook, having been injured by the flood waters, and rendered thereby unfit to take up for cultivation.—

By deficiency in extent of Land.
Entry 9. Rs 38-7-6.

19. The decrease in respect to the entry No 9 is the difference between the actual extent of a piece of land situated in the bed of the Atlamoor Tank, Chagulmurry Talook, and that entered in the Pymash accounts. It appears that on a complaint of the deficiency, being

being made to Mr Phillips. the dues

Land No 97

Extent as entered in the Pymash accounts	Acres 105-17-	Rs a p 131-12-6
Actually found	74-26-3¼	93-5-
Deficit	30-30-12½	38-7-6

Commissioner the lands were measured, and the deficit was ordered to be struck off the accounts. The particulars are shown in the Margin.

Jaze levied on one Crop instead of two. Entry 10- Rs 1160-11-11

20- The decrease under this head, is the deduction from the Villaware of the amount levied in the previous year, as additional assessment, on certain wet and Garden lands assessed in the accounts as one Crop land; but which were then cultivated with 2nd Crop.-

Jalocks

The

23. The greatest portion of the reduction was made in the Villages of Mungipa and Chotavengelee in the Chaguleuvary Talook. It appears that in consequence of the extreme poverty, to which the ryots of those Villages had been reduced, by a succession of bad Seasons and by the high rates of assessment on their lands many of the ryots belonging to the former Village and the whole body of the Ryots belonging to the latter deserted to the Cuddapah Districts and the Tahsildar was in consequence unable to make the Villagewarees of those Villages.

24. The Nail Shristadar was deputed to enquire fully into the circumstances of each Village and to adopt such measures as appeared necessary to induce the ryots to return. He had great difficulty in doing so; and it was only at length effected by sanctioning a reduction of the assessment on some of the higher rated lands. The reduction made in the other Talook appears also to have been sanctioned, the remit of the Villagewarees of certain impoverished Villages being made without a greater sacrifice of Revenue.

25. It has been the practice since the assumption of the Country to authorize year by year, the reduction of the assessment on lands which from enquiry were found to be too highly assessed, and a return of the same has I believe been annually submitted to the Board. There is no doubt however that the Curnums of the Villages and the Tahsildars also have from time to time unauthorizedly reduced the assessment of many of the lands as a means of preventing the emigration of impoverished ryots and also of increasing the Revenue by inducing the better circumstanced Ryots to take up more land, and the result I believe has been favorable to the Revenue. My Head Shristadar has been very industrious in the preparation of various accounts and amongst them of a Statement of the lands on which the assessment has been altered since the period of the survey, and should the Board desire to be furnished with the same, when completed, it can be forwarded separately, or with the next years report.

The decrease under the last head in Fussul Jubdil cummy is Rs. 615-15-10. It is known that the system obtains in this District, of levying an additional assessment on particular description of produce, such as the produce of Betel Gardens, Sugar Cane and Tumaric. The decrease under notice arises from lands cultivated with that description of produce in the last year having reverted to the cultivation of the ordinary species of produce in the present.

Assessed Garden Land converted into Dry assessment by the Shanbogue to the date

29.

898 11 8 the amount of assessment of Land converted on 1320 F. 38 2 as per Statement No. 9603 dated 26th August 1852 the Collector is of opinion that the Collectorate will for the ensuing Fusly be entitled to receive the amount shewing the extent of Land assessed in each Circle, the extent cultivated and assessed, and the rate per Cawny

Tallies

Wet assessed.

Circles	Land assessed	Land cultivated	Rate per Cawny
	acres Cawnies	acres Cawnies	Rs as ps
Chagalamarry	249 38 9¾	83 37 10	63 2 . 166 . 15¾
Chinnicole	160 1 13½	109 26 13	58 11 9 50 15 ⅝
Nandeal	163 7 3½	124 19 11	76 14 . 38 27 8½
Pedda Nandeal	349 25 13	122 . 15	70 13 9 222 24 14
Goodoor	94 10 8½	94 10 8½	32 12 . " "
Nandicondair	258 6 15	273 1 14½	157 1 3 448 5 5½
Cheroor	1296 21 14½	519 20 10	439 4 11 777 1 14½
	3071 32 13½	1326 38 2	898 11 8 1744 34 11½

It will be observed from the above that the increase under this head amounting to 1001-9-11 principally occurred in the Shanbogue Circles of Nandeal and Cheroor where the Collectors attention was drawn to this subject. The Circles of Goodoor and Nandicondair were found perfectly complete and those of Chagalamarry and Chinnicole were made out to a close when the Collectors were absent on Circuit. The Circles of Pedda Nandeal and Cheroor are now undergoing a 2nd Cowle one — Lands which are assessed as new Cowle Land will be entered upon the Collectorate Jamabundy as Garden Land.

Fort St George 26th August 1852

Goodlia jastice or Increase of assess-ment. Rs. 742-11-2-

31 This increase arises from an enhanced assessment having been imposed on certain resumed Enam lands which from enquiry appeared to have been too lowly assessed at the period when they were re-sumed also from an enhanced assessment on certain lands held on favourable assessment during the late administration and at the time of survey as forming part of holding including high assessed lands, but which having since been separated from the latter were assessed in this year at a higher rates.—

Tufsel Tubdil Jastee — Rupees 702-7-4

32. In Para 26. I adverted to the custom which obtains in this District of levying additional assessment on particular products. The increase under the head of Tufsel Tubdil Jastee arises from certain lands cultivated in the last year with ordinary garden or wet land produce having been taken up for the culture of Betel, Sugar cane, &c.

Result of the Settlement 33. I now proceed to show the result of the Settlement, and in order to exhibit comparatively the increase and decrease in each Talook, I beg to subjoin the following Statement Vide Statement No. 6.

12

Talook.	Fusly 1269. Rupees A P	Fusly 1260. Rupees A P	Increase. Rupees A P	Decrease. Rupees A P

Total	6,96,492 11 4	7,22,881 9 2	32,153 9 10	4764 12 "
			Net Increase	27,388 13 10

34. In the Chegulamurray Taluk there is a decrease of Rupees 4764-13-4 and an increase in all the other Taluks, of the aggregate amount of 37,183-9-10, leaving a net increase of Rupees 27,388-13-10 over the Settlement of Fusly 1259.

35. Taking into his consideration the depressed condition of the Ryots of the Chegulamurray Taluk and impressed with the necessity of showing indulgent treatment towards them, Mr. Lushington after careful enquiry into the circumstances of each individual, allowed remissions to the extent of Rupees 1,876-13-7 on lands assessed at Rupees 2,947-15-4 which had been left uncultivated. The amount of remissions allowed being larger in proportion to the extent of land left waste than the remissions allowed in the last year on the same account; inasmuch as Villawaree having been also left by reason of Dumjer Rupees 4900-3-7 owing to the causes already stated, account for the decrease. The larger amount of increase is chargeable in the Goodoor Taluk, and that in the Nundicoorcoor Taluk is about one

Assessment on lands left waste in 1259 } 6,261-6-6
Remissions on account of Dumjer } 2017-14-6

Increase in Goodoor — 13103-10-4
— Do — in Nundicoorcoor — 6,666-3-11

one half of the same. The respective amount of remissions granted last year in those Taluks for injured Crops, was in Goodoor 12,545-15-6 and in Nundicoorcoor 4,123-2-1 whereas in the present year remissions of a similar nature were not called for. The cultivation in this year of certain waste lands in the Nundicoorcoor Taluk has also helped to produce the increase in that Taluk. The increase in the other Taluks is attributable to a more favorable season which rendered it unnecessary to grant remissions as in the previous year for injured crops.

36. The subjoined Tabular Statement exhibits comparatively the increase and decrease of Villawaree Deriz of remissions permanent and temporary and of the Net Revenue demand on the present and past Fusslies from which it will be seen that there was a net increase of Rupees 23,147-6-1 in favour of the year under review.

5 Talooks settled by Mr Lushington about one third of the amount left Bunjer was remitted in the

3 Talooks settled by the Assistant Agent Lieutenant Rapsell only Rupees 617-4-9 was allowed

on lands assessed at Rupees 10538-12-11. This last amount of Bunjer is more than one fifth of the Total Bunjer of the 8 Talooks of the District.— I find by a letter on record that the attention of Mr Lushington was drawn to this circumstance previous to his departure from the District, and as the Government in their review of the Land Revenue Settlement of 1259 have commented upon the large extent of Caboolaty Bunjer which was charged in that unfavorable season and have evinced a liberal tendency in regard to the future settlement he requested the Assistant Agent to prepare a Report for the year under review exhibiting the result of his Settlement, and explaining the

Fort-St.George 26th August 1852.

views which influenced him in charging so much and allowing so little remission in order that the Government should have before them an exposition of the principles which actuated the local officer in making the settlement where there are any facts potent in the accounts which if unexplained are likely to call forth comment.—

50 Accompanying is Lieutenant Rapsells' Report which contains the information thus called for.—

51. The remissions granted by Mr. Lushington based on a careful enquiry as to the causes of the lands being left waste and with reference to the means and circumstances of each claimant were remissions generally allowed in consequence of the poverty deaths and desertions of ryots.—

52 The causes which influenced him in including the Bunjer in the settlement are concisely shown in the following statement.— In Para 5 of his Report the Assistant Agent has stated similar reasons for disallowing remissions in the Talooks under his charge.—

			Net Decrease —	758 3 3

There

Fort St. George 26th August 1852.

55. The remission on Sundry Enams was Rupees 244. - 6 being 222 - 1. 6 in excess of the remissions of last year. The remissions were made on account of Fussuljasty Bunjer, the Enams not having been cultivated with a 2d crop owing to the scarcity of water in the Nundial Tank.

56. Including the Teeruvajasty and Fussuljasty there is a decrease of Rupees 221. 14. 5 under the head of Enamity consequent on certain Enams having been left uncultivated and others resumed.

Quit Rent 57. The increase of 1. 10. - is the Quit Rent levied on a plot of ground in the Fort at Kurnool taken up for building purposes by Captain Brooke, of the 5th Regiment N.I.

Collections. 58. The Net demand of the year inclusive of Sodee and Enamity was Rupees 7,22,881 - 9 - 2 of which Rupees 6,95,233 - 10 - 9 were collected within the year leaving a balance at that period of Rupees 27,647 - 14 - 5 a Taloak.

Jgm - 25735. 8. 5
Sodee - 976. 13. 3.
Enamity 1535. 8. 8.
27,647. 14. 5

=mar Statement of the collections made within that period of the balance then outstanding, and the collections since made up to the end of Fusly 1261, is herewith appended.

Taloaks

Fort St. George 28th August 1852.

Balance.

59. It will be observed that the subsequent collections made up to the end of Fusly 1261 reduced the balances to 11,357-7-6, of this sum 7139-4-8 belong to the Talooks under the Assistant Agent in which a very small amount of remissions was granted, and to which circumstance he attributes in Para 9 of the Report, the large outstanding balances in those Talooks at the end of Fusly 1260. By the enquiries made by him during the Settlement of 1261 it appears that of the Balance now outstanding Rupees 5682-15-7 are irrecoverable, and Rupees 1378-9-11 are recoverable.

60. The balances outstanding at the end of Fusly 1261 in the Talooks settled by Mr Lushington amounted to Rupees 4217-8-10. I carefully examined myself into the cause of these balances at the Settlement of 1261 and found that either from the poverty, death or desertion of the defaulters, the sum of Rupees 3249-4-7 was irrecoverable, and that the payment of the sum of Rupees 625-7-1 only should be enforced.

Balances of 1260 Irrecoverable
Agent — 3249-4-7
Assistant Agent } 5682-15-7
8933-4-2

61. I beg to recommend that sanction be given to write off the aggregate amount of the sums irrecoverable, amounting to 8932-4-2.

62. There is an item of Rupees 423-2-4 entered in column 7 of the Statement below which is not included in the balances above adverted to. It is the amount of Enamity Tax, on certain Bhuttuntee and Service Enams, the collection of which has been suspended since the resumption of the Territory, and regarding which the Board have called for a separate report in their proceedings of the 30th July 1849 and which will be furnished so soon as I have completed the enquiry into the subject.

The

Old Balances.

63. The balances of former years outstanding at the commencement of Fasly 1260 amounted in the aggregate to Rupees 43830-5-8 of which the sum of Rupees 15829-14-6 was collected up to the time at which the settlement of each Taloork was commenced in that year, leaving a balance at that period of Rupees 28000-7-2. Mr Lushington subsequently ascertained that the sums recoverable and irrecoverable amounted respectively to Rupees 5692-1-4 and 22308-5-10. The latter amount the Board in their letter of the 21st October 1851 authorized being written off.

64. Previous to the receipt of the Board's sanction the sum of Rupees 176-0-2 considered irrecoverable had been realized, and as the Total amount of remissions sanctioned included the sum of 1312-11-10 due by the parties referred to in Para 62, that amount of remission has been withheld pending the enquiries to be made into their claims to exemption.

65. With reference to the above remissions I beg to state that the indulgence was carefully made known to each Ryot interested at the settlement just concluded.

66. Of the sum entered by Mr Lushington as recoverable Viz 5692-1-4 the sum of Rupees 4581-3-11 had been realized at the period of making the settlement of 1261, leaving a balance of Rupees 1110-13-5. On enquiring into the cause of these balances not being realized, I satisfied myself that from poverty and other causes, the sum of Rupees 866-3-0 was desperate, and I therefore beg that the amount may be written off. The remaining sum of +244-10-5 remains to be realized, and forms the only outstanding balances of Land Revenue for former years to be accounted for.

*Exclusive of the sum of Rupees 1312-11-10 referred to in Para 64.

The

9638 Fort St. George 26th August 1852

9. The extent of land cultivated with sugar cane is in excess by acres 1-36. 4. and the assessment less by Rupees 20.5.3. The latter circumstance is caused by lower assessed land having been taken up for the purpose. The increase is very insignificant and my own impression is that the cause of the cultivation of this product not being more extended is owing to the taxation of the crop and the poverty and want of enterprize of the people. On this subject I have to report more fully to the Board.

Vide Statement No. 9.

Population.

10. The following Table prepared in accordance with the orders of the Board dated 7th February 1850 shows an increase in the adult population of 16,584 souls and of 2,658 head of cattle.

75. For the information of the Board I have also forwarded with the usual Statements, one shewing the number of Wells dug at the Ryots own expense, the land under which are exempted from any additional cess. The extent of lands under those wells is acres 99. 2. 3 the fixed assessment on which is Rupees 431. 1. 3. The amount of Teerwajaster or additional assessment leviable, if the lands were not exempted from additional rate Rupees 29 ... which is engaged by the Ryots.

76 A Statement shewing the landed property possessed by the Revenue servants of the District is forwarded, as shewn in the list which accompanies this Report. Due attention has been given to ensure the enforcement in this District of the rules prohibiting the requisition of landed property by Revenue and Police servants without previous permission.
