Contract from the Minutes of Consultation Under dated 20th October 1852.

Read the following Contracts from the Proceedings of the Board of Revenue.

Here enter 13th October 1851 & 13th Septr 1852 No. 136 & 359.

Para 1. It appears from the Reports

Fort St George 1st November 1852

and communicating instructions for their guidance.

Reports above recorded that of 28 private Chuttrums in the District of Coimbatore 14 are in good order and of public benefit and that the Endowments amounting in the aggregate to Rupees 2,159-13-11 are in the enjoyment of the Proprietors, this arrangement need not therefore be disturbed.

2. Of the remaining 14 Chuttrums, the one at Terocombelioor is represented to have been recently repaired and the Board of Revenue see no reason why the Endowment Rupees 108 per Annum should not be made over to the owner of the building. The Government concur in this view but they do not approve the Board's recommendation that the remaining 13 Chuttrums should be placed as public buildings under the Department Public Works with a view to steps being taken for the immediate repairs of such as may be requisite for public convenience and for employing a permanent Establishment in each for its future care on monthly payments from the Treasury: such a course would, it appears to them tend to

to repress public spirit on the part of the natives by teaching them to depend upon Government for that which they should do themselves. The Governor in Council therefore directs that the Enams of the Choultries in question be offered to any parties who will undertake to repair them and maintain them on a proper footing, and that if none come forward, the Endowments be resumed and the Choultries abandoned. It will however be open to the Board to advise Government that exceptions may be made in favor of any Choultries that may be situated in a wild or scantily inhabited tract of Country, where private individuals cannot be induced to settle, and where accommodation for native travellers is urgently required.

3 With respect to the proposal in Para 5 of the Board's Extract the Government will be prepared to consider the Board's recommendation for the construction of new Chuttrums on the Hafsamoor and other lines of Road if intended to be built in such localities as

as those above described but any arrangements of this nature must be reported to Government before they are carried out and the expence be clearly stated.

To the President and Members of the Board of Revenue.

Ordered also that Copy of the above-mentioned papers be furnished to the Department of Public Works and the Collector be requested to submit any proposition he may have to make regarding the construction of Chuttrums at Hafsamoor &c to the Board in that Department.

reimburse the cost, paid him by the Ryot, of the piece of ground obtained from the Ryotwar and that it be either given back to them or incorporated with the Circar waste lands.

Para 14

1852 transmitted with the first of the communications above recorded, the Collector of Coimbatore reports that the Boundaries of the Jackatalla cantonment as "now fixed are clear and sufficiently "defined in one or two spots where Captain "Cuchterlony's map had quitted Rocks "Nullahs and natural obvious marks "to draw a straighter and more regular "looking line. Colonel Reid and himself "on inspection agreed with the concurrence of superior authority, to keep to "natural marks and Boundaries "wherever possible, wherever such do not "exist the pillars proposed by His "Excellency the Commander in Chief "will be distinct and unerring marks."

The above extract from the Board's Proceedings and Mr Thomas's letter of the 30th June which accompanied it will be communicated to the Military Department in reference to the Extract from the Minutes of Consultation in that Department of

of the 2d June last.

2. In his letter of the 28th July forwarded by the Board with their Proceedings of the 10th August, the Collector in reply to the Extract from Minutes of Consultation 22d June last, explains the condition of the land purchased by Captain Reilly, at the time when he acquired it and the nature of his title to it. Looking to all the circumstances under which Captain Reilly became possessed of the ground, the Right Honorable the Governor in Council is not prepared to admit the validity of his title to it or to reimbursement for the purchase money and other expenses incurred on account of it. He therefore desires that the sum of 85 Rupees paid by the late Acting Collector to Captain Reilly be recovered from that Officer and recredited in the public accounts.

3. The other papers recorded at the head of this Extract relate to the question whether the piece of land

land above referred to shall form part of the Cantonment, and if not, in what other manner it shall be appropriated: that is, whether restored to the Bunghers or retained as Government waste. The Governor in Council desires that the land thus improperly bought from the Bunghers of Captain Reilly be rigidly excluded from the cantonment limits, and will leave it to the Collector either to restore it to the Bunghers on the same tenure they before held it, or to incorporate it with the Circar waste lands.

4 The Government notices with high approval the tone of

of Mr Thomas' letters to the Quarter Master General in assertion of the rights of the Bunghers - and the warm interest which he has evinced in the cause of those parties, who must naturally look up to him as their Official Protector

B. P. No. 2639

From the Collector of Ganjam

Reports regarding the allowances on account of Hindoo and Mohamedan festivals in the Ganjam District and forwarding a statement of them requesting further instructions

In acknowledging the receipt of your Circular of the 23d ultimo I regret to state that it has been customary in the District of Ganjam to pay the allowances enumerated in the accompanying Statement on account of certain Hindoo and Mohamedan ceremonies the items from Column 5 to Col. 15 inclusive will be forthwith discontinued regarding the others I stand in need of further instructions—

2 The items entered in Column 3 are allowances in lieu of resumed lands—Those in Column 4 are paid without reference to the resumption of lands or privileges—and obviously fall within the category of payments which should

should be abolished under the orders
communicated in the Circular under
reply and as it cannot be doubted
that although ostensibly granted for
the performance of ceremonies, they
have been partially appropriated to the
support of the recipients I beg to
recommend that half the amount in
each instance be continued during the
life of the present recipients-

3 The items in Column 3 are
as has been stated above allowances
in lieu of resumed lands. It would be
a mere splitting of hairs to attempt
to draw any distinction between them
and such items as those of which the
abolition has been peremptorily ordered
as regards their tendency to give the
recipients and people of the Country
the impression that Government places
confidence in the efficacy of the worship
and ceremonies they are intended to
support and no argument is requisite
to

to shew that the objectionable interference
is as much continued by paying them
as by paying the other allowances. I
cannot therefore under the stringent
orders just received do otherwise
than bring the fact to notice-

From the Collector of Nellore -- } Sir, Para 1 --

In acknowledging receipt of your letter dated 31st May last on the subject of granting licenses for the sale of Foreign Spirits I have the honor to request that you will be so good as to furnish me with a form of licenses to be issued --

2. It does not seem improbable that the unrestricted sale of Europe Spirits and fermented liquors may interfere with the Abkiarry Rents - Nevertheless as the want of a licensed Shop is felt by the Community and chiefly by European Travellers passing thro' this place, I propose allowing the opening of one Shop for the present as an experiment, and as the License is to hold good only for the Fasly it can be renewed or withheld altogether at

12354 Fort St. George 1st November 1852.

at the end of that term, as the experience gained in the interim of the working of the Shop may dictate as suggested by the Board, the privelege of selling foreign Spirits and Liquors manufactured to the Westward of the Cape has been reserved in the Abkiarry Cowles granted for the Current Fasly -

From the Collector of Nellore

Sir

I have the honor to acknowledge receipt of your Circular dated 24th March 1851. and also the Letters noted in the Margin having reference to the introduction of the Standard weights and Measures in this District.—

2. The points on which the Board desire information are stated to be the extent to which these Standard weights and Measures are in use here, and the means of encouraging their more extensive adoption.—

3. In reply I beg to state that the weights in general use in this District corresponding with the standards, it was only necessary to test them by the latter, and those used in the Bazars within the Town of Nellore have accordingly been tested and Stamped since December last. I apprehend there will be no difficulty in

12356 Fort St. George 1st November 1852.

in doing the same as respect those in the other Cusbah Stations of the District, if the Board be of opinion that it should be done.—

4. On the occasion of testing the weights used in the Nellore Town as above stated, a Proclamation was issued calling upon the Merchants to have their weights compared with the standard, and they readily responded to the call. They have evinced no reluctance to the adoption of the Standard Measures also, but on the contrary acquiesce in the proposal and so far as I am aware there is no reason to suppose that those of their profession in the other parts of the District will not follow their example.— There can be no question as to the expediency of having one uniform Standard of Measurement for the various Measures of Capacity now in use, besides being a source of inconvenience to the Community, render any comparison of the Talook Price lists one with another almost an impossibility, whilst the returns themselves as documents intended for purposes of check are for the same reason Comparatively worthless. The accompanying Statement prepared in

in the form appended to the Board's Circular under reply exhibits the different Measures in use in the principal Stations of the different Talooks and their contents as ascertained in the manner pointed out. The mode suggested by the Board Viz.th the distribution of Standard measures at a cheap price appears to me best calculated to secure their general adoption.--

the banks of the River and within its influence. Much of this land will consequently have to be re-sown out of season and therefore with less prospect of a remunerative return. The Roads and Bridges about Nellore have been destroyed more or less, and all communications cut off between one part of the town and another during the time the River was at its height. Many Houses in different parts of the District are understood to have been washed away wholly or in part, and much private property consisting principally of grain and Cattle destroyed. The reports as yet received from the Talooks being imperfect, the exact extent of the damage is not known, but when full information is received, the subject will again, if necessary, be brought to the notice of the Board.

Proposing that a sum of Rupees 100 be lodged in the Talook Treasuries to provide for expendi-ture in cases wherein a prior refer-ence to the Hoozoor would be attended with incon-venience-

Sir, } I have the honor to acknow-ledge the receipt of Extract from the Proceedings of the Board of Revenue dated the 30th ultimo transmitting Ex-tract from the Minutes of Consultation under date the 13th Instant and requiring me to submit for the Board's sanction a Statement of the sums to be lodged in the Talook Cutcherries to provide for expenditure in cases where a prior reference to the Hoozoor would be attended with inconvenience to the public service.-

2. As explained in my com-munication of the 3d ultimo, no disbursements are

are made from the Talook Treasuries except under orders issued under the Seal and signature of the Collector for specific Sums, and there are always collections in the Talook Treasuries available for such purposes between the dates of the Monthly remittances.

3. When serious consequences to Tanks and other sources of irrigation are apprehended on the occurrence of gales or excessive rains, the Tahsildars are authorized to expend on emergency without reference to the Hoozoor, Sums not exceeding 30 Rupees on each work of the nature-Such expenditure does not however appear on any occasion to have exceed-ed Rupees 100 in a Talook. A small monthly Sum of Rupees 10 will also be re-quired to be placed at the Tahsildar's disposal on account of Batta to Prisoners &c. under investigation. I beg under these circumstances to recommend that a sum of Rupees 100 may be lodged in each Talook Treasury to be expended by the Tahsildars without reference to the Hoozoor on occasions of emergency which those Officers will be required to shew have actually existed.

Sir,

At yercaud on the Shemaroy Hills, two small plots of land have been taken up, the one for the purposes of a protestant Church and burial ground; the other for similar use by the Roman Catholic members of the Hill Community.

That on which, without any aid from Government, the Protestant Church has been built, was granted to the Subscribers to the proposed erection, by the Agent of Mr S. Neave, who, the Board are aware, held a large extent of land on the Shemaroys, of which the spot in question formed a part. It has since been deducted from the area on which Mr Neave had paid assessment, and should be charged to

No assessment has been levied on the area in question since it was thus appropriated, though the sum due has periodically appeared in the accounts..

Salt 4. It will be seen from the above Statement that the revenues derived from Salt during the past Fusly fall short of those of the preceding year by Rupees 19,253-4-9 and of the average of past 5 years by Rupees 17,000-13-6.-

5 This falling off is confined to the North of the District. In the South there has been a very satisfactory increase.-

6. The subjoined Statement will exhibit the sales and the Collections, distinguished between the Inland trade and home consumption. The quantity imported from Goa under the order of Government dated the 10th December 1849 is also shewn.-

It will be observed from the above, that the imports from Goa have increased during the year under review. The duty levied on these is Rupees 3,381 in excess of that of the preceding year but this increase is quite insufficient to account for the larger falling off in the sale of the Northern Cottes.

The

9 The decrease in the Cottes of Guersapah, Sopinpuntra, Coompta, Nagenbyle and Ankola when taken in conjunction amounts to Rupees 33945. This is reduced to Rupees 30564 by deducting Rupees 3381 being the excess of duty levied during the year under review on imports from Goa, but there is this large falling off still to be accounted for.

10 The low price of Grain throughout the Mysore Country and the slackness of the Cotton trade may account for some portion of this decline, and it is probable that a good deal of smuggling is practiced across the Goa frontier, but I have reason to believe that the principal cause of this falling off in the sales is the improved communication between the Southern Mahratta Country and the Coast of the Concan. I do not feel confident of the correctness of this surmise, because I should have expected that the imports from Goa would be influenced at the same time with our

our sales, but it will be satisfactory if it should appear that what is an apparent decline is merely a transfer of revenue from one district to another.-

11 The decrease in the Cottay of Bajoy amounting to Rupees 2068 is compensated by the increase of revenue in the adjoining Cotties of Mahalacal and Halady to which the traders appear to have proceeded on account of a ready market obtained for their goods. The inconsiderable decline in the other Tannahs calls for no explanation.

Moolky

12 In the year under report no Bombay Salt was stored in this Cotty and the traders seem to have resorted to Buntwal.-

Caspergode in Bekal

13- The increase in the Casper-gode Tannah by Rupees 3367 is a satisfactory proof of the trade encouraged by the new junction road.-

Hutgal

14 The sale of Salt has been suspended at Oopenpuntna and commenced at Hutgal since February last under the instructions of the Board dated the 13th February 1851 the site is convinient and

and well arranged but the present season is unfavorable for exhibiting its advantages.-

19 The collections of each of the Chowkies on the Goa frontier where duty is levied are given in the margin. The decrease in the Tinnay Chowky is owing to the insurrection prevailing in the Goa territories.

Sea Customs

21 The Collections under this head exhibit an increase of Rupees 15,868-4-5 in comparison with the past year and are Rupees 17,607-4-5 below the average of former years as shewn in the margin. The latter decline is entirely the effect of act V of 1848 by which the trade between British ports in India are made free and the duty on exports on foreign bottoms reduced. The

Tobacco Charges

38. The Charges under the Tobacco monopoly are above those of the previous fusly by Rupees 75836-3-11. It will be seen from the marginal Statement that the excess is chiefly in the Item of purchase. The increase is owing to a part of tobacco contracted for in fusly 1260, and the whole quantity contracted for in fusly 1261 having been supplied in the latter fusly.

No 116.

47

To W. H. Bayley Esqre
Secretary to the
Board of Revenue.

Bd. No 2394.

From the Collector of Madras — — — } Sir,

1. I have the honor to state for the information of the Board that since the year 1819, applications for the issue of Grants and Certificates were from time to time made to this Office and fees and old Title deeds deposited with reference to these applications, but that no Certificates were issued in consequence of the non appearance of the parties who applied for them. The fees deposited in this manner amount from 1819 to 1851. to Rupees 5922. 12 - 11 —

2. Deeming it advisable to adopt some definite measures in reference to the above sum, I would take the liberty to suggest that I should be permitted to publish in small portions periodically in the Fort St. George Gazette a List of the names of those persons who have made deposits of fees and Title deeds with a Notice that should no claimant be forthcoming within six Months, the Money deposited will be carried to the credit of Government.

3. A List of the applicants for the last Six years, which it is proposed to send in the first instance to the Gazette, is herewith forwarded for the Board's information —

Madras, ———

Distillery at the enhanced price of Rupees 12 per Candy being Rupees 3 above the rate contracted for.—

per candy for 1500 Candies was accepted on that date.—

2 The Security tendered by Loobaroy Grammy was the Certificate of a House and Ground belonging to him of the value of Rupees 1000.—

3 The Contractor continued punctually to fulfil the conditions of his engagement until the middle of last month and has supplied the Office with 400. Candies of Jaggery.—

4. About this time however he addressed a Petition to me declaring his inability to supply the remainder of the Jaggery according to his contract in consequence of the rise of the price of that article in the District of Tinnevelly.—

5. Although I was aware that the demand for Jaggery had greatly been enhanced by the large purchase made by Messrs. Arbuthnot and Co. and other Sugar Manufacturers, I notwithstanding deputed the Abkarry Superintendent to report on the Petition of the Contractor and the result was that only about 150 Candies of Jaggery were procurable at the Madras Market and that only at Rupees 12 1/2 and 12 3/4 per Candy.—

6. I subsequently made enquiries at Messrs. Arbuthnot & Co. and from Mr. Kenrick the Abkarry Renter in Chingleput, and I found that

Fort St. George 1th November 1852

that the prices paid by them very lately was Rs.
13 and 14 the Candy.—

7. From further enquiry I was
induced to believe that as this was not season for
bringing down Jaggery from Tinnevelly, the
Government would have been compelled to give as
much as 15 or 16 Rs. the Candy for the remaining
quantity required for the consumption of the Distillery
if the Contract was thrown up by the present Contractor
and the same put up to public sale.—

8. Under these circumstances and con-
=sidering that the failure of the Contractor to fulfil
the conditions of his Bond has arisen from causes
beyond his control, I would beg to recommend that
his request to supply the remainder of the Jaggery
at 12 Rupees per Candy may receive the sanction
of the Board.—

Proceedings thereon.—

(49-50)

The fact of the price of
Jaggery having risen since the contract for its
supply was made, does not appear to the Board
of Revenue sufficient ground for making
a remission to the extent required,
Viz. 3 + 1,100 or 3,300 Rupees.— Had the Contractor
purchased the Jaggery at the proper time,
or made arrangements for its delivery to

Fort St. George 1th November 1852.

to him some Months ago he might
have avoided loss, whereas he appears
to have delayed Month after Month,
till meanwhile the price has risen
upwards of 30 per Cent.— It is evident
that either the Contractor or the
Government must bear the loss and
the very object of making the Contract
was to avoid risk on the part of
Government.— The Board therefore
must direct the fulfilment of
Soobaroy Gramny's engagement.—

2. The Collector will be
good enough to explain how it happens
that

that when 1,500 Candies are required for the annual supply of the Distillery, it has been possible to continue the work with only 400 Candies supplied since the date of Contract one year ago.—

Sir,

1. With reference to para 3 of Extract Minutes of Consultation dated 6th June 1843, I am directed by the Board of Revenue to submit for the orders of the Right Honorable the Governor in Council the accompanying Statements Nos 1 and 2 of Actual Charges incurred in Fusly 1261 on account of Extra Establishments, and of the Estimated disbursements on the same Account for Fusly 1262.—

2. The Statements from the Districts noted in the Margin have not yet been received at this Office, and the one from Chingleput has been returned to the Collector for further information, on their receipt the Board will again address Government, meanwhile they recommend that sanction be granted for the actual Disbursements of Fusly 1261 exhibited in the Statement No 1 amounting to Rupees 29,889-3-9 and for the Estimated Charges for Fusly 1262 entered in Statement No 2 amounting to Rupees. 31,631—

The decrease in Salt is owing to the Employment of a less number of Peons than was Estimated.

The decrease is chiefly owing to the lamps not having been lighted during Moonlight Nights, and to no charge having been incurred on account of Extra Charges, as provided for in the Estimate.

This decrease arises from the full quantity of Salt intended not having been Manufactured.

No. 213.

To

Sir H. C. Montgomery Bart

Chief Secretary to Government.

Sir,

I have the honor to acknowledge the receipt of Extract from the Minutes of Consultation in the Revenue Department

Fort St. George 4th November 1852.

Provincial Treasuries should run when the Collector is absent from the Huzzoor Station

Department under date the 16th April last No 336. calling for my opinion on certain points noticed in Paras 3 to 7 of a letter from the Board of Revenue to Government, under date the 18th March last.

2. The points referred to by the Board of Revenue are three—

1st The method of account to be adopted in the Huzzoor Treasuries consequent on the Orders of Government for the entire discontinuance of a separate Deposit Fund and the direction that no public money should be charged in the Accounts till it be actually and bonafide disbursed.

2. The date from which the sight of Accountant General's Bills on the Provincial Treasuries should run when the Collector is absent from the Huzzoor Station that is whether it should be from the date of presentation at the Huzzoor Cutcherry or of acceptance by the Collector.

The 3d point is the amount of Cash which should be left in charge of the Cash Keeper to meet current expenses.

One

Fort St. George 4th November 1852.

3 On the 1st point I may remark that from the reports of the Collectors it would appear that no distinct Gyhut Fund like that of Cuddapah exists in any district excepting Canara and this will of course be discontinued under the present orders of Government. There is no necessity for such a Fund in any District. In other Districts the pay of the Huzzoor Servants which may from the absence of the parties be left undisbursed remains in the hands of the Cashkeeper till the absent Servant appears to receive it and in some Districts, the pay of the Talook Establishments is charged in the Huzzoor Treasury account and remains in the Cash-keeper's charge till the Peons who come up with remittances from the Talooks can convey it there. But these Sums rarely remain with the Cashkeeper more than a very few days, and cannot be viewed in the light of a Gyhut Fund but even these practices should be discontinued.

4. There seems to be a great diversity of system in this respect in the several Districts, there must be a

Head

75

Head of Deposit in the Treasury Chitta,
but there can be no necessity for the cash stand-
ing under that head being kept separate and
distinct from the other cash. In North Arcot such
sums only as are actually disbursed, (with one trifling
exception that of the salary of any Huzzoor Servant
who may happen to be absent when the pay of the
Establishment is issued,) in each day are entered
in the Treasury Chitta as paid, and the Collector
gives the mode of entry which is adopted, where
as must often happen it is found inconvenient, or im-
possible, to pay the full amount of the order at once.
This mode of entry in such cases seems a very
proper one, and might be adopted generally, and
it accords with the general rule which should be
observed, and which seems to be already followed
in the Ganjam District, namely to enter in
the daily Chitta the sums actually paid away
on the day on which payment is made,
and till payment is made all sums even
though the Cashkeeper may be in possession

of the Collector's order to pay, remains on the
Chitta as an integral portion of the Cash in
the Treasury.

5. The practice in most Districts seems to
be to debit to Ayen the full Amount of the Collector's
order, and to credit the undisbursed portion to the
head of deposite, such portion still appearing as part
of the Cash balance in the Treasury. This mode though
not incorrect, is not, in my opinion, so good a one as that
followed in North Arcot, under which the portion only of the
order actually paid appears as a debit in the Treasury Chitta.

6. It is obvious that in those Districts
in which the pay of the Talook Establishments is sent
from the Huzzoor Treasury by the return Peons who
bring the Talook remittances, there can be no necessity
for debiting the amount in the Huzzoor accounts till
it is actually delivered over to the Peons who are to
convey it to the Talooks. The practice therefore, which
prevails in some Districts of debiting it at once, in the
Huzzoor accounts, and leaving the Money
in the Cashkeeper, till the Peons from

the

the Talooks come for it, is quite uncalled for, and should be discontinued.

7. I observe that in Malabar, Canara and Chingleput, a different practice obtains to that followed in other Districts. In those 3 Districts the Talook Establishments and sumnor required by the Tahsildars for other disbursements are paid from the money in the Talook Treasury upon a written order of the Collector for which the Tahsildar receives credit to him his remittance is received at the Huzzoor Treasury. In all other Districts the pay of the Talook Establishment and other sums required for Talook disbursements are sent from the Huzzoor Treasury.

8. I think it very desirable that there should be an uniform system of account established in all Districts, and that a Form of Huzzoor Treasury Chitta and also of a Talook Chitta should be prepared for general adoption, which might be done by this Office, in communication, if necessary, with the

Tahsildar

Tahsildar of the Board of Revenue; but to effect this it would be necessary to have a copy of the present Huzzoor Treasury Chitta and of a Talook Chitta for any one Month from each district, but in the meantime the form of entry adopted in North Arcot which I have already noticed might with advantage be extended to all other Districts.

9. In Bellary, for instance the mode of keeping the Talook accounts differs from that in other Districts. The Tahsildars in Bellary instead of having but one Chitta for receipts and disbursements, as is done in other Districts, keep one Chitta for receipts another for disbursements and a third called the Sheth Chitta, exhibiting only the daily balances after deducting the disbursements from the receipts a system of accounts which is obviously objectionable, and in Malabar for instance it would seem the Tahsildars keep a separate Chitta for each branch of Revenue.

10. I think therefore that if one Form of Chitta were prepared for Huzzoor, and also one for the Talook Treasuries, with the explanatory instructions as

as to the mode of entry for items of receipt and charge under their proper Heads of account, it would ensure uniformity of practice and accuracy and carry out more effectually the views and orders of Government.

11 In cases where the pay of a Huzzoor servant (and they must be very rare) cannot be paid to him by reason of his absence on duty or for other cause, Collectors might obviate the necessity of the undisbursed pay being left in the hands of the Cashkeeper by requiring absentees to forward to the Cash Keeper on or before the day of payment their receipts for their salary through a friend or relative to whom they may authorize the Cash Keeper to pay the amount.

12. On the 2d. point which regards the date from which the sight of Accountant General's Bills should run when the Collector is absent from the Huzzoor station, I fully concur with the Board of Revenue in the opinion that the rule of reckoning it from the date of

Guntoor
Bellary
Cuddapah
Nellore
Ganjam
Vizagapatam
Masulipatam
Rajahmundry

of presentation should be adopted in all Districts. In those noted in the margin, this is now the practice. The Collector of North Arcot has omitted to explain what the practice is in his District in this respect. The Districts in which a different practice obtains are Guntoor, Bellary and Cuddapah, Nellore and Ganjam (but in Ganjam it arises from its having been the custom for Bill-holders not to present their Bills at the Cutcherry whenever the Collector is absent from the Huzzoor Station.

13. The Collector of Bellary states that for a short time he adopted for the convenience of the Bill-holders the practice of allowing the sight of the Bill to reckon from the date of presentation at his Cutcherry when he was absent from the Huzzoor station, but that he found the practice to be objectionable as parties sometimes unknown to the Cash-keeper might be imposed upon by a rogue presenting himself as the party at least it gave an opening to such fraud, and he therefore discontinued the practice and now payment is only made to the party who takes the Bill himself to the Treasury for payment, who must also bring or send to the

the Collector by his agent the Bill for his acceptance.—

14. This practice it seems to me must be attended with very great and unnecessary inconvenience to Bill holders and a sufficient answer to the Collector's objections may be found in the fact that it is the general practice in other Districts to allow the Bills to be presented at the Huzzoor Cutcherry when the Collector is absent, and for the sight of the Bill to reckon from the date of such presentation, and I am not aware that the practice has ever led to any evil consequences, but independently of this, I think there is no solidity in these objection raised, for it must be manifest that it matters very little who presents a Bill for acceptance. The mere circumstance of the Cash Keeper not knowing the presenter, or even the holder of a Bill, can hardly be deemed a sufficient reason of putting him to the inconvenience of losing some days sight of his Bill. When the Bill is

presented

presented for payment, the Cash Keeper should, of course, satisfy himself of the identity of the party in whose favor the Bill has been drawn, or of his endorsement should he have transferred it to another payee, and in cases where he did not personally know the party, it would be his duty to satisfy himself on these points before he paid the Bill, but this can only be necessary at the time of payment not at the time of acceptance. I agree therefore with the Board of Revenue, that it should be made a general rule that Accountant General Bills may be presented at the Huzzoor Cutcherry to the Collector's Assistant who may be left at the Huzzoor Station in charge of the Treasury when the Collector is absent, and that the sight of the Bill should be calculated from the date of such presentation.—

15. The remaining point referred to by the Board of Revenue is the amount of cash which should be left in charge of the Huzzoor Treasury

Cash Keeper

Fort St. George 6th November 1852

cash-keepers. This seems to be regulated upon a principle altogether erroneous. The practice in every District, with one or two exceptions, is to give into the charge of the cash-keeper a sum estimated to be sufficient for the disbursements of a whole month, and it would appear also that in some Districts the remittances received from the Talooks remain in the cash-keeper's charge till the period of the Monthly examination of the Treasury comes round. Under these practices, the sums left at times in the charge of the cash-keeper are erroneous, and by many fold exceed the amount of the security which he gives. It seems to me to be a clear and safe principle that the amount ordinarily to be kept in the cash-keeper's charge should bear some if not an exact proportion to the amount of the security which he gives, and I am not aware that any better general rule than this could be adopted.

16. I am satisfied that the main cause of such very large sums being now left in the sole charge of the cash-keepers is the very common, but objectionable

Fort St. George 6th November 1852.

objectionable practice of no assistant being left in charge of the Treasury when the Collector is absent from the Huzzoor Station. If on those occasions an assistant were left in charge of the Treasury, (and one would suppose that at the Cuddapah Station of the District such an arrangement would be called for even for Magisterial purposes) the necessity for such large sums being left with Cash keepers could not arise. The Assistant being on the spot and having had the Keys of the Treasury consigned to his charge by the Collector would, when the Cash-keeper was in want of money, give out the requisite sum from the Cash in the Collector's custody, and in the same way take from the Cash keeper any surplus not required for immediate payments above the amount to be ordinarily kept by him, but if the estimated disbursements for a whole month are at once to be made over to the Cash keeper as seems to be almost the universal practice the Cash in his charge must be very much larger than

than with prudence it should be, for though the Treasury servants may not embezzle any portion of the public money, they may, if acting in combination, make use of it in the Bazar for purposes of personal accommodation, or of profit, taking care to replace it before the period of the monthly examination of the Treasury comes round.-

17. The Commissioner at Kurnool says that the amount left with the Cash-keeper is fixed with reference to the expected demands on the Treasury until the period when the remittances arrive from the Talooks which occur about the 20th of the month, and from that time till the Treasury is again examined the amount of Cash remaining in the Cash keeper's charge fluctuates with the amount of the remittances, under this system the Commissioner explains that at the examination of the Treasury at the commencement of the month a sum of Rupees 50,000 is usually left with the Cash keeper being the estimated disbursements till the remittances from the Talooks are received which are usually from

from the 20th to the end of the month.-

18. In Singlepet it seems that the whole of the Cash in the Huzzoor Treasury is left with the Cash-keeper but in this District the Tahsildars, at least some of them, forward their remittances direct to the General Treasury at the Presidency, but still the Cash balance in the Huzzoor Treasury is considerably beyond what it is proper to have in the Cash Keepers' charge as may be seen in the Marginal Statement which exhibits the Cash balance at the end of each month for one year 1851.-

19. In Salem the practice before the present Collector was appointed seems to have been not to retain any portion of the public Cash in the Collector's charge, and although there is even now no specific rule as to the precise sum which shall remain with the Cash-keeper for current Disbursements still the amount left in his charge is stated to be some times as high as two lacks of Rupees.-

In

20- In North Arcot the sum left with the Cash-keeper to meet the Current Demands is stated to vary from one to one & and a half lacks of Rupees and occasionally from one cause or another to be as much as four or five lacks.-

21- In South Arcot the sum left in the Cash-Keepers' charge varies according to the anticipated demand on the Treasury and some-times amounts to one lack of Rupees as independantly of the numerous Bills drawn by the Accountant General, periodical payments of considerable sums have to be & made to the French Government- But I do not understand why the Cash to pay these & Accountant General Bills or to make these periodical payments to the French Government should remain a single day with the Cash Keeper, for the proper course is for the & Collector on the day of actual payment to give out to the Cash-keeper the requisite sum from the Cash in his (the Collectors') own Custody-

22- In Tanjore the practice is to deliver

deliver over to the Cash-keeper at the monthly & examination of the Treasury such an amount as is estimated to be sufficient for the expenses of the month which averages about 2½ lacks of Rupees.-

23- So also in Tinnevelly the cash left with the Cash-keeper is regulated by the amount of the estimated payments in the month till the & nexct periodical examination of the Treasury, & and this varies from below half a lack to above one lack of Rupees.-

24- In Coimbatore it is stated that the amount retained in charge of the Cash-keeper does not exceed 50,000 Rupees during the & months in which the land Revenue collections are received but that in other months Viz^t. & from July to October it amounts to as much as a lack of Rupees. The Collector himself seems to consider that the amount left with the Cash-keeper is large compared with the & exctent of his responsibility; but he explains that the practice is rendered necessary by the frequent Drafts on his Treasury and the necessity

necessity of making monthly remittances to the Neilgherries on account of the pay of Civil & and Military Officers which alone amounts to about 30,000 or 40,000 Rupees besides various ordinary Demands for Bills &ca.

25. The causes however mentioned by the Collector do not render it necessary that those sums should be left in the Cash-keepers charge. The proper course is for the Collector or his Assistant to give out on the day of its despatch from the Cash in his charge, the sum required to effect the remittance to the Neilgherries, and pay such other demands sent in for payment which the Cash already in the Cash keepers hands may be insufficient to meet. I believe the practice at all Bombay Establishments and even at the General Treasury at the Presidency is to give out daily to the Cash keeper a sum fully sufficient to cover the ordinary demand for the day and although this rule could not without great inconvenience be allowed in a Collectors' Treasury, the principle of it should not be lost sight of and because

because it cannot be carried out strictly without inconvenience, there is no reason why the other extreme should be resorted to of making over to the Cash-keeper a sum sufficient to meet the estimated disbursements for a whole month.

26. In Malabar the portions of the Treasury under the immediate charge of the Cash-keeper varies according to circumstances from 50,000 to 60,000 Rupees exclusive of Copper Coins to the value of upwards of 80,000 Rupees. In fact on the date of the Collectors' Report the Cash-keeper had in his own charge within 40,000 Rupees of what the Collector had in his custody, the Cash with the Cash keeper inclusive of the value of Copper Coins was Rupees 145915 while the amount with the Collector was Rupees 182120. Why so large a sum as 80,000 Rupees worth of Copper Coins should be left with the Cash-keeper the Collector has not explained.

27. In Canara the Cash-keeper is not allowed to retain in his charge more than 50,000 Rupees and when the Cash is materially in

excess

excess of this sum, and is not required for imme-
diate payments the excess is at once transferred
to the Collector's own custody.-

28. In Bellary the amount left with the Cash keeper is about one months estimated Disbursements and it is the same whether the Collector be present at or absent from the Huzzoor Station - A sum sufficient for this purpose is left out at the monthly examination of the Treasury and the remainder kept under the Collector's locks and Seal and if the expected receipts from the Talooks are insuf-
ficient to meet the coming disbursements an Assistant is sent to give out from the Cash in the Collectors charge whatever sum is required -

29. In Ganjam there are two Treasuries one at Chatterpoor the Hoozzoor Station of the Collector, the other at Chicacole the Station of the Civil and Sessions Court - The amount left in charge of the Cash keepers of these Treasuries seems unnecessarily large. At Chicacole it varies from 30,000 to 70,000 Rupees

Rupees and at Chatterpoor from 40,000 to 90,000 Rupees. As Accountant Generals' Bills are drawn on the Chicacole Treasury and from the large amount left with the Cash-keeper where the disbursements must be limited to few items beyond the pay of the Establishments of the Zillah and Subordinate Courts which is issued at a known and stated period of the month, I am inclined to think that the whole of the Cash in the Chicacole Treasury is left with the Cash keeper and that no portion of it is in the exclusive custody of the Assistant in charge of the Treasury there -

30. In Masulipatam the whole sum remaining in the Revenue Treasury is left with the Cash-keeper and it is believed is transferred monthly to the General Treasury there, of which the Collector has charge as well as of the Revenue Treasury the practice however in this respect is not stated still the cash balance in the Revenue Treasury is

is much larger than should properly be left in the Cash-keepers charge as will be seen by the marginal Statement which exhibits it at the end of each month in the year 1851. The interference of the Collector in respect to the Cash in the Revenue Treasury is confined to the custody of the Keys of the Cash Chest during the night. They are sent to him it seems or in his absence to his Assistant every evening and are returned in the morning to the Cash-keeper, this practice would be unobjectionable if the Cash balance were daily examined at the close of the day by the Collector or his Assistant, but it is certain that this is not done, and the practice of allowing the Cash-keeper to lock up the Cash Chest and then to divest himself of further responsibility by the simple delivery of the Keys to the Collector seems to me objectionable in-as-much as it divides the responsibility between the Collector and the Cash-keeper in a way which imposes

upon the former no responsibility whatever for the Cash, but simply for the safe custody of the Keys of the Cash Chest for the night.—

It seems moreover that when neither the Collector or an Assistant is present at the Huzzoor Station the Cash-keeper sends the Keys to the Judge, who returns them to him the next morning, the system pursued at this Treasury seems to me very objectionable.—

31. As regards the General Treasury at Masulipatam, it would appear, that a large sum sometimes exceeding four or five lacks of Rupees, is exposed in shelves in bags for want a sufficient number of Chests to contain the whole of the money in the Treasury. The Collector states, that he has indented for more Chests, and when these are supplied the whole of this Cash will be taken into his own charge, and as his letter was written a year ago it is to be hoped that he has by this time been provided with the required number of Chests, and the

Cash

Cash placed under his own lock and seal, if not it should be done without further delay, and so large an amount not left in the Cash-keepers charge and in the state of insecurity in which it must necessarily be if kept in bags, and on shelves.

32- In Guntoor it has not been the practice to keep any portion of the Cash in the Treasury in the Collector's charge - This has arisen probably from its being customary in this District as soon as the remittances from the Talooks are received to send such amount as is not required for current disbursements to the General Treasury at Masulipatam, but in the months from July to October both inclusive, no such remittances are sent and in those months the Cash left in the Cash-keepers charge is in excess of what he ought properly to retain -

October	33,766	26,594	38,421

33- In conclusion I beg to state it as my opinion that the system of giving over to the Cash-keepers Treasury for a whole month as is done in

in most Districts is unsafe, and objectionable on every account except that of saving the Collector and his assistants a little trouble, and that it should be discontinued and that the General rule which should regulate the amount of Cash to be left in the Cash Keepers charge should be the amount of the Security he gives - When Accountant General's Bill of large amount or other large payments have to be met the requisite amount should be made over at the time of payment to the Cash Keeper from the Cash in the Collectors Charge, and this may be done in the Collectors absence by the assistant who may be left in charge of the Kuzzee or Treasury and the same course should be pursued when the receipts into the Treasury swell the amount of Cash in the Cash Keepers hands beyond that which it may be determined he is ordinarily to retain, the surplus being taken by the Collector into his own charge

Para 1. In the foregoing letter the Accountant General has furnished a very able and satisfactory report on the questions referred for his opinion in Extract Minutes of Consultation 16th. April last.

2. On the first point it is stated that no distinct fund like the Pay but of Establishments exists in any Dist. but except in Canara which will under recent orders of Government be discontinued. That in some Dists. the portion of the pay of the Kuzzeree servants which may be left unclaimed from the absence of the parties remains in the hands of the Collector till the absentee returns to claim it, and in others the salary of the Talook Establishments is charged in the Kuzzeree Treasury accounts, and remains with the Cash Keeper till the Peons who come with remittances from the Talooks can convey it there. These sums rarely remain in charge of the Cash Keeper beyond a very few days and cannot be viewed in the light of a Zyghut fund, but even these practices should be discontinued. In this view the Government concur.

3. The Accountant General states that there must be a Head of Deposit in the Treasury Chitta though there is no necessity for the Cash standing under it being separated from the other Cash on hand. In North Arcot the sums actually disbursed are alone entered in the Treasury Chitta as paid, and the Collector gives the mode of entry adopted when the full amount of an order cannot be at once disbursed. That mode of entry is approved by the Accountant General and recommend for general adoption.

Note

Without trifling exception that of the salary of any Kuzzeree servant who may happen to be absent when the pay of the establishment is issued. It does not appear to Government why this should be made an exception.

The

The practice in some other districts is to debit to ain the full amount of the Collector's order, and to credit the undisbursed portion to the Head of Deposit, this portion still appearing as part of the Cash balance in the Treasury. This though not incorrect is in the opinion of the Accountant General not so good as the practice followed in North Arcot where the portion only of the order actually paid appears as a debit in the Treasury Chitta. The practice which prevails in some Districts, where the pay of the Talook Establishments is sent from the Huzzoor Treasury by the returning peons who bring the Talook remittances, of debiting the amount of the Collector's Order for the payment of the Talook Establishment in the Huzzoor accounts before it has been actually made over to the peons who are to convey it to the Talooks, is objectionable and should as suggested by the Accountant General be discontinued.

4. The practice in Bellary and Masulipatam of keeping separate Chittahs for receipts, disbursements and balance,

and

and for each branch of Revenue should likewise be discontinued. The Government agree with the Accountant General that there should be a uniform system of account established in all Districts and they desire that Officers will as proposed in para 3 draw up in communication with the Board of Revenue a Form of Huzzoor Treasury Chitta and Talook Chitta which with explanatory instructions as to the mode of entry for items of receipts and charge under their proper heads of account, should be issued for general adoption and that in the mean-while the form of the entry adopted in North Arcot be extended to all other Districts.

5. The proposition in para 11 to allow Huzzoor servants absent on duty to grant receipts for their salary through a friend or relative duly authorized appears to be of doubtful expediency and to be unnecessary if the principal adopted in North Arcot be fully followed, and if on a head of deposit be provided in the new Treasury Chitta.

On

6.

On the second point forming the subject of paras 12 to 14 of the Accountant General's report, the Government observe that the period for the acceptance of the Accountant General's Drafts ought clearly to be that of their presentation at the Collector's Huzzoor Cutcherry and they cannot understand how such a question should have become a matter of doubt. The accountant General, concurs with the Board of Revenue that the rule of reckoning the period that a Bill has to run from the date on which it was presented at the Huzzoor Station should be adopted in all Districts and the Government think that in the absence of the Collector, the Assistant in charge of the Treasury or in the unavoidable absence of both, the Cash Keeper should note the date of presentation on the Bill from which date its sight will be calculated. The reasons adduced by the Collector of Bellary for a Contrary practice are shewn by the Accountant General to be unsound.

2d. The date from which the sight of Account Generals Bills in the Provincial Treasuries should run when the Collector is absent from the Huzzoor Station

Looking

7.

Looking to all that has been stated by the Accountant General in respect of the practice in different Districts as to the sums placed under the exclusive Control of the Cash Keeper for Current expences, the Government entirely agree with Sir C. Stokhouse that the clear and safe principle is that "the amount ordinarily to be left in the "Cash Keeper's charge should bear some, if "not an exact proportion to the amount "of security which he gives and that no "better general rule than this could "be adopted". The principle of Control advocated by the Accountant General is that the Treasury should be under the charge of a resident European Officer that when the Collector is absent from the Huzzoor Station, his Assistant should be left in charge, and having had the Keys of the Treasury consigned to him should when the Cash Keeper may be in want of money, give out in person the requisite sums from the Cash in the Collector's Custody and in the same way take from the Cash Keeper any surplus not required for immediate payments above

3 The amount of Cash which should be left in charge of the Huzzoor Treasury Cash Keeper.

Para 15 & 33.

Para 15.

above the amount to be ordinarily kept by him. The practice of leaving large sums of money for long periods in the hands of the Cash Keeper which seems to prevail in many Districts is open to serious objection and as suggested by the Accountant General should be at once discontinued.

8. The above will be the fixed rule to be departed from only under circumstances of necessity. The Governor in Council however is aware that in- stances may occur in which the Collector may be called on duty to a distance from the Huzzoor and where there may be no Assistant available for the charge of the Treasury or none of Suf- ficient experience to fit him for the trust. In these cases such amount of Cash must be left in charge of the Cash Keeper as will suffice to meet the required disbursements, until the Col- lector can return to the Huzzoor or an Assistant can take charge of the Treasury. It will however be for the Collector to take care that these occasions shall occur as rarely as possible, and whenever a Col- lector may be obliged thus to leave the

the treasury in charge of the Cash Keeper he will report the Circumstance to the Board of Revenue, explaining the Cause and stating the amount of money in which he may have left in his Cash Keepers hands.-

9. The Governor in Council resolves to furnish the Board of Revenue with a Copy of the Accountant Generals letter and of the above resolutions, and to desire that they be strictly at- tended to in future.-

To. T. Pycroft Esqre.
Secretary to the Government of Fort St. George

Sir,

I have been directed to acknowledge the receipt of your letter No. 143 dated the 11th February last, and of its accompaniments and to state for the information of the Right Honorable the Governor of Fort St. George in Council that under the ascertained circumstances of the case of Byramjee Shett adverted to in the 13th Para of Mr. Maltby's letter to the Madras Board of Revenue No. 1 of 7th January last and in the 3d Para of the Revenue Board's letter to the Government of Fort St. George, as illustrative of the hardship entailed by the rule requiring contractors to bear sea risks, instructions have been issued to the Collector

Collector of Salt excise at the Presidency to forego the excise in this case.

2d. It is, I have been desired, to observe neither the intention nor the practice of this Government to withhold remission of excise in well authenticated cases of wreck or loss such as that represented by Mr. Maltby appears to have been.

3. If the contractor for the supply of the Province of Canara cannot stand the loss entailed by the operation of the new Rule (which does not apply to clearly established Wrecks or Stranding of Vessels) it would in the opinion of his Lordship in Council, be better to raise the Contract price, so as to obviate such loss than to relieve Contractors from their risks which private exporters are made to bear.

4. The Right Honorable the Governor in Council has learnt that it is a common complaint among Merchants that much more Salt is lost and destroyed between the landing of the Cargo and its receipt into the Government Warehouses on your coast, than during its transport. This is ascertained to a great measure to its being left exposed for weeks before it is housed complaints are

are also made of the manner in which the Salt is pressed down and measured.

5 I have also been directed to represent that the new rule has been attended by a great reduction of the price of Salt at the Bombay Pans and that the contractors enjoy the full benefit of this reduction which if they were ignorant of the introduction of the new arrangement, they could not have calculated on when they entered into their contracts.

6. The following Statement shews the price of Salt for the 6 Months from July to December 1850 and for the same Months in 1851.

1850		1851	
Rupees per Raja.		Rupees per Raja	
July	96	July	40 to 64
August	100 to 120	August	36 - 80

October	96-120	October	48 - 80
November	96-120	November	48 - 72
December	96-120	December	56 - 64

The average obtained per Raja in the last half

To.

F. Pycroft Esqre
Secretary to the
Government of
Fort St. George.

Sir

The Right Honorable the Governor in Council having made the necessary enquiries has now directed me to acknowledge the receipt of your letter No. 297 dated the 2d April last, with accompaniments on the subject of the proposed change in the mode of levying excise duty on Salt exported from Bombay to the Ports of Malabar and Canara, and to inform you that the prepayment of duty has not been enjoined by this Government and that the Madras authorities are therefore in error

on

on this point.

2 I have also been directed to state that the refusal to allow remissions beyond a certain percentage for alleged wastage at sea occasioned last season a temporary stoppage of exports, but merely temporary, firmness on the part of the Officiating Collector soon put down what was evidently a combination. The accompanying Statements* will shew that the exportations from Bombay have not decreased.

* Marked A. B.

3 The Traders informed Mr. Rose the Officiating Collector that their main cause for complaint as regarded wastage was in consequence of what occurred not at sea, but on the Madras Coast after the Salt was landed before it was allowed to be put under cover, the detention being great.

4 His Lordship in Council is still in favor of prepayment, but if the Government of Madras continue to be averse to it this Government will be prepared to continue with the aid of an act of which Draft is now under consideration the present System under such stringent

rules

12507

Fort St.te George 4.th November 1852

rules as will prevent abuses and confusion of the description which hereto hitherto attended its working.

5. But His Lordship in Council has also desired me to observe that it is evident that no concession on the part of this Government to the views of the Madras Revenue Board will enable them to preserve their important Salt Trade if as his Lordship has learnt whilst Importers of Bombay Salt are forced to sell it to the Officers of your Government Importers of Goa Salt are allowed to sell it to whomsoever they please paying only the twelve Annas duty.

6. As the subject is one of considerable importance to the Bombay Trade the favor of a very early reply is requested with explanation as to the reasons for the Bombay Importers being less favorably treated than the Goa Importers should this Government have been correctly informed that such is the case.

2 In the Second of the letters recorded at the head of this Extract, the Chief Secretary to the Bombay Government in reply to the communication from this Government of the 2d April last, states that the Governor in Council at Bombay is still in favor of the prepayment of excise duty on Salt exported thence to the Ports on the Western Coast but that the Government of Madras still continue averse to it; the Bombay Government will be prepared to continue with the aid of an Act of which Draft is now under consideration, the present System under such stringent rules as will prevent abuses and confusion of the description which have hitherto attended its working. It is remarked however

Para 5 however that no concession on the part of the Bombay Government to the views of the Madras Revenue Board, will enable them to preserve their important Salt Trade if as His Lordship has learnt whilst Importers of Bombay Salt are forced to sell it to the Officers of the Madras Government, Importers of Goa Salt are allowed to sell it to whomsoever they please paying only the twelve Annas duty and an early reply is requested on the subject of explanation of the reasons for the Bombay Importers being less favorably treated than the Goa Importers should the Bombay Government have been correctly informed that such is the case.

3 The Right Honorable the Governor in Council resolves to communicate copies of both the above letters to the Board of Revenue in reference to their communications noted in the Margin. The explanation afforded in Mr. Chief Secretary Malets first letter that it is neither the intention nor the practice of the Bombay Government to withhold remission of excise in well authenticated cases of wreck or loss will be communicated

rates previously charged on the frontier of Upper Canara. The introduction of Goa Salt into Canara has in some degree affected the home manufacture but the Sale of the Bombay Salt has not been prejudiced thereby as the Goa and Bombay Salt find markets in different parts of the District, and among different Classes of Customers. The Goa Salt on payment of the frontier duty is sold by the importer without restriction while the Bombay Salt is received from the Contractors on account of Government and Sold by Government at a fixed rate - 1 Rupee per Indian Maund at their stores. The Government have however under their consideration the proposal of the Collector of Canara for allowing the importation of Bombay Salt into his District as an article of private trade on payment of a fixed duty of twelve Annas per Indian Maund to be collected either in Canara or in Bombay under arrangements hereafter to be determined - but they can come to no decision on the proposition till they have before

before them the information called for in Extract Minutes of Consultation 30th August last N. 8411 regarding the effect which the measure may have on the home manufacture and the improvement of which that System of manufacture is susceptible.

No. 14 of 1852.

Our Governor in Council.
at Fort St. George.

Para 1- With your Letters in this Department of the 25th May (No. 24) and 9th June (No. 29) 1852, you have submitted your recent proceedings relative to the Tobacco Monopoly in Malabar and Canara, and have solicited our authority to abolish altogether that source of Revenue from the close of the Current year.

2. This discussion took it's rise in a Resolution of your Government dated the 10th September 1845 by which the Board of Revenue were directed to call on the Collectors of those districts to report on the practicability of a modification of the Monopoly which, while it should secure

a

a considerable revenue, should yet divest the tax of some of its most injurious attributes and if a beneficial modification should appear to be impracticable, then on the possibility of finding some available substitute.-

3. On this resolution being communicated to us, we observed as follows. "We notice with very great satisfaction that the question of abolishing "the Tobacco Monopoly in these Provinces has received your serious attention. The enormous evils attendant on "that mode of realizing a revenue are fully "and forcibly exhibited in your Minutes "of Consultation of the 10th September 1845. They "have in fact never been denied; and the only "ground for retaining the Monopoly is the inconvenience of dispensing with a source "of revenue producing annually about five "and a half lacs of Rupees. The Board "of Revenue have been directed to consider "the subject with the view of their suggesting some less objectionable substitute; but "whatever be the result of this reference, whether

Despatch dated 31st December (No. 29) 1847 para 4

"whether or not it be found practicable "to find some equivalent source of "Revenue, We are resolved that a tax "which presses with such unequal weight "on the inhabitants of those Provinces, "to whom Tobacco is almost a necessary "of life and which leads to the demoralization of the people engaged in the "contraband trade, and of the Public "servants who connive at it, should "no longer be suffered to remain as a "part of our fiscal system unless it "can be placed on an unobjectionable "footing."-

4. In their Proceedings of the 22d June 1848, the Board of Revenue have given a history of the Tobacco Monopoly in Malabar and Canara from the time of its first establishment in 1807 and after discussing at length the various plans which have been suggested for remodelling the existing system or for supplying the loss of Revenue which would follow its abolition by other modes of local taxation, they refer to the paragraph of our Despatch already quoted and conclude in the following Words:- That

Fort St. George 4th November 1852.

"That no modification of the Monopoly
"would avail to free it from the more seri-
=ous evils attendant upon it, the Board
"think is incontestable. Their views in
"regard to the substitutes which have been
"proposed for it have been expressed in
"the preceding paragraphs. It is with
"much relactance that they are induced
"to advise the surrender without an equivalent
"of so considerable a source of revenue as the
"Monopoly, and they must be understood as
"doing so only because after much and
"anxious reflection on the subject,
"they have been led to the conclusion
"that between such surrender and the
"retention of the present system with
"all its evils, there is no middle course."

5. You have recorded your acquiescence in the conclusions arrived at by the Board of Revenue, stating that you "entertain the most decided conviction that there is no effectual remedy short of total abolition, and the expunging of so objectionable a source of revenue from the system of Indian Finance."

6. The net Revenue derived from

Fort St. George 4th November 1852.

from the Monopoly on the average of the
Malabar Rs. 4,13307 ten years ending with Fusly 1256 is
Canara 1,91,037
6,04,344 about Six lacs of Rupees, but this amount is
gradually diminishing, owing to the increas-
=ed activity of the smugglers, who defy
or evade the utmost efforts of the
Police.

7. The perusal of the papers now before us has strengthened the impressions under which the instruc-
=tions contained in our Despatch of the 31st December 1847 were addressed to you. It is obvious that, even if the monopoly were defensible on other grounds so long as the profit derived by Government from the sale of the Tobacco at an enhanced rate is sufficiently high to render it valuable as a source of revenue, an irresistible temptation will be held out to those disposed to engage in the contraband trade, and a large body of people will continue to exist whose habitual

Fort St. George 4th November 1852.-

habitual occupation is that of defying the laws enacted for the protection of the revenue, and who, as experience has amply demonstrated, are always ready to embark in enterprises against the peace and good order of the Country.-

8. We are satisfied from the observations of the Board of Revenue that the amount of Revenue that could be raised in any other form of local taxation would be too inconsiderable to make it worth while to run the risk of exciting the discontent of the people, and of encountering their almost inevitable opposition. The revision of the Veesabady and Moturpha taxes throughout the Presidency on which you are now engaged,

may.

Fort St. George 4th November 1852.-

may possibly lead to some increase of revenue; but this question is altogether unconnected with that now under discussion and must be decided entirely on its own merits. It can however scarcely be doubted that the relief which these Provinces will receive from the withdrawal of so heavy a burden, in addition to the large remissions of taxation under the modification of the Customs laws in 1844. will be exhibited in the greater productiveness and more punctual realization of the remaining branches of revenue.-

9. With these views, it only remains for us to confirm the orders which have already been communicated

12527 Fort St. George 4th November 1852.

communicated to you, and to authorize the abolition of the Tobacco Monopoly in Malabar and Canara and of the regulations affecting it's cultivation in Coimbatore with the least practicable delay.

Sir

In reply to the Extract from the Proceedings of the Board of Revenue dated 27th Ultimo, I have the honor to State that due enquiry was made, but the Ryots had already expended much of the advances made to them and were unwilling to refund them. Arrangements were therefore made as requested by the Ryots for receiving their Crop of Tobacco: to have left it in their hands would also have encouraged extensive smuggling for the remaining Months of the Monopoly, detrimental to sales in Malabar, and demoralizing to the People of both Districts. it therefore seemed advisable to take the Ryots Crop which is now being done, and all in Store in January 1853, will be sold by auction as directed by the Board.

Reporting on the Subject of a Petition from Sr Mottoe Velor Chettiar in regard to his proposal for landing and selling Jaffna Tobacco in Canara on the expected abolition of the Government Monopoly on that article.-

With reference to Extract from the Proceedings of the Board of Revenue dated 27th September 1852, enclosing as Extract from Minutes of Consultation under date the 10th September 1852 on the application of Sr Mottoe Velor Chettiar of Jaffna, for permission to import and to land Ceylon Tobacco after the abolition of the Monopoly, I have the honor to state that I conclude that when the Monopoly ceases, all tobacco imported from any place not within the Company's territories will be admissible at a fixed duty of 5 per Cent on the Tariff valuation, and all tobacco

tobacco imported from the Company's territories will be free of duty.-

2. I do not think that it is desirable that the question of bonding Tobacco should be Considered apart from that of bonding any other goods.- But as the sudden change from the Monopoly to free trade may tend to derange the Market, I shall be glad with the permission of Government, to allow the applicant the use of one of the Government Colays at Mangalore for 3 Months, and I recommend that he be informed that the duty will be repaid on all the tobacco re-exported within that time.-

3. This will encourage the applicant to try the Market, and it will be a further precaution against any local Monopolies between the 1st of January and the Coming in of the next.-

Sir,

With reference to the papers noted in the Margin I am directed by the Board of Revenue to submit for the consideration and orders of the Right Honorable the Governor in Council the accompanying Correspondence with the Collectors of Coimbatore, Malabar and Canara, reporting the Measures which appear to them to be necessary on closing the Tobacco Monopoly at the end of the current Calendar Year.

2. The Collector of Coimbatore proposed to secure all the present new Crop of Tobacco in his District by which was understood the Crop which had recently been gathered by early warehousing it in the Government Godowns

Fort St. George 4th November 1852

Godowns, chiefly with the view of re-
-covering advances to the extent of Rs
Rupees 44495- " - " made to the Tobacco
growing Ryots, as usual. He enclosed
Copy of a letter from Mr. W.E. Underwood
lately Acting Collector of the District
who had been called upon by the Board
to submit his views, as to certain de-
-fects he had observed in the Manage-
-ment of the Monopoly in Coimbatore.

3. The Board agree with Mr. Thomas, that the abolition of the Tobacco Monopoly having been decided upon, it is now unnecessary to offer any remark on Mr. Underwoods letter which chiefly treats of the defects in the Management of the Tobacco Monop-
-oly in Coimbatore and of the Modifi-
-cations necessary to remedy them.

4. With respect to the advance of Rupees 44495 it was deemed necessary to inform the Collector that he should propose to the Ryots, who received the advance, that they should refund the same, and retain their Crop, as the Board believed there was a sufficient Stock

Stock on hand in Malabar. In ca-
-lling upon that Officer to ascertain
and report whether the Ryots would
Consent to such a measure, it was
at the same time stated that if th-
-ere should be any difficulty in re-
-covering the advances, and the Govern-
-ment should thus be compelled to
take the crop, the whole of the Stock
on hand should be sold off during
the 1st week in January 1853.-

5. In his letter of the 6th Oc-
October 1852 Mr. Thomas represents that
the Ryots have already expended much
of the advances made to them, and are
unwilling to repay the same, and that
he has therefore arranged for the re-
-ceipt of the Crop, and will sell the
whole by public Auction, as directed
by the Board.-

6. The Collector of Canara
proposes that he may be authorized to
sell at public Auction, on the 1st January
1853, one half of all the Tobacco which
may then be remaining in the several
Depôts, and to dispose of the remaining
half-

half in such quantities, and at such intervals, extending to the end of the Month as may then seem advisable; while the Collector of Malabar proposes the sale of all that may be remaining in his Depôts, at public Auction in the first week of January 1853, fixing the prime cost and charges as an upset price.

7. The Board will leave the mode and time of disposing of the Stock on hand to the discretion of the Collectors but they are at the same time of opinion that the Tobacco will fetch a better price if disposed of as soon after the opening of the trade as possible, and before there has been time to introduce other tobacco into the district. They consider that it is not the intention of the Collector of Malabar to buy in the Stock on hand in his District if it does not fetch the prime Cost and charges at the Auction for he will Certainly not be able to obtain a larger price by keeping it back, and it should therefore be disposed of for what it will fetch.

8. These arrangements being

Carried

Carried out the discharge of Establishments and removal of any restriction on Cultivation will necessarily follow. On the publication of an act (Draft of which is appended in accordance with the desire of Government) all interference on the part of the State in the growth and sale of Tobacco will cease, a form of Proclamation notifying the abolition is also submitted for the approval of Government.

9. In Connection with the subject of the abolition of the Tobacco Monopoly the Board desire me to acknowledge the receipt of Extract Minutes of Consultation 10th. September 1852 forwarding Copy of a Petition from Mr Mottoe Veloe Chettiar, Merchant at Jaffna, praying to be informed whether on its abolition, he may be permitted to land and sell Tobacco after the 1st. January 1853 on the Malabar Coast, on payment of duty, - enquiring what the Tariff and duty will be, - and whether Tobacco can be bonded, for reshipment without paying duty, and at what ports.

The

IV.

The Collectors of Malabar and Canara having been referred to on the subject, I am desired to submit the replies of those Officers. The Collector of Malabar states that the same Merchant addressed him on the subject, and was informed that on the abolition of the Monopoly the Trade in Tobacco would become quite free and that the Commodity would be subject to an Import duty of 5 per Cent advalorem, the rate established by the Notification published 3d November 1848. Mr. Conolly is not aware of the necessity for any specific Rules, as the Trade will be placed on the same footing as other articles of Commerce.

From the Collector of Malabar 9th October in Con 4th November 1852.

From d. of Canara 11th October in Con 4th November "

V.

The Collector of Canara points out that while the above Import duty would be leviable when the Monopoly ceases on all Tobacco brought from any place not within the Company's Territories still the Imports from the Company's Territories would be free. As an encouragement to the Petitioner to buy the Market at a Season in which it is likely

likely to be deranged by the Suddern change from Monopoly to Free Trade, Mr. Maltby recommends that the Petitioner may be allowed the use of one of the Government Colays at Mangalore for 3 Months, and that he be informed that duty will be refunded on all Tobacco re-exported within that time.

With reference to para 2 of

VI.

Mr. Maltby's letter of the 11th October 1852 the Board see no necessity for offering to bond Tobacco at Mangalore. The plan could not conveniently be carried out at other outports neither are the Board aware that Mangalore is a warehousing Port under act XXV of 1836.

Bd. No. 2623

From the Collector of Vizagapatam. } Enclosing Statement

Sir,

With reference to your letter

Fort St. George 4th November 1852.

Statement shewing the Security taken and in progress from the different public Servants of his District

letter of the 6th of May last, I have the honor to state that measures are in progress for receiving Securities from the Public Servants of the Classes therein particularized, a Comparative Statement exhibiting the amount of Security ordered to be taken, and that already given, is herewith submitted. I have directed the Tahsildars who have not heretofore been required to give Security to procure Sureties.-

2. According to the Scale in your letter a Security to the amount of Rupees 1,000 is required to be taken from the Sall Shroffs. The wages of these Servants amount to between 2½ Rupees 3 and Rupees 7 each per Mensem. Unless they pay something to persons becoming Security and this is regulated by a Scale, no one will come forward as Surety for them.- Out of the small pay received by the Shroffs, they cannot afford to pay for Security to the amount of Rupees 1000.-

3. As the Sall Collections are remitted to the Head every fifteen days

Fort St. George 4th November 1852.

days, and as the Tanadars are also held responsible for the amount of Collections, I would propose that the Amount of the Security required from the Sall Shroffs in this District may be reduced to Rupees 500. If this is not done, it will not be practicable to get Shroffs at all unless an increased pay.-

Vizagapatam, Collector's Office, 14th October, 1852.

3. For more detailed information I would refer the Board to the accompanying Statements A B C D and E, the first shewing the sum now due out of the balance owing at the close of fusly 1258. the second giving a view fusly war. of the irrecoverable balances. the third and fourth affording for fusly 1259. and 1260. respectively the same information as is contained in the first for the previous year, and the last being an abstract of the whole. Regarding these Statements it is only necessary further to remark that when a sum is owing by one individual for more than one fusly he is individually entered only in the first, which will account for some of the columns opened for the entry of the number of defaulters being blank.

4. No distinction is made between the years previous and subsequent to fusly 1258 because upto fusly 1257 inclusive. all the accounts of the total demand collection and balance of the Servoy jummah were prepared at the settlement of each Talook, the sums

Fort St. George. 4th November 1852

sums collected were alone entered in the accounts sent to the Board - in their letter of the 12th of July 1849 however it was ordered that the details of the various items collected, and the balance should be annually submitted with the Jumabundy report, and this was accordingly done on reporting on the Settlement of Fusly 1259.

5- I propose now briefly to explain each item of balance considered irrecoverable -

Prior to Fusly 1254 it was the practice in the Single talook of Canalapoor to credit to the Fusly in which it was collected the revenue on the Vysankum crop cultivated in the previous year, but there was no reason for continuing in one talook a practice which obtained no where else, the Collector, in that year directed that the collections on the Vysankum cultivation of Fusly 1253. should be carried to account as Sewy Jummah, under the head of Tenkyjasty, and that in Fusly 1254 the cartekum as

revenue should be entered as ain collections, and the Vysankum as the expected collections under the head of Fusuljastee - as however part of the land which it was anticipated would be cultivated was left waste the ryots who had paid the whole assessment on it, claimed a remission of the assessment on their Vysankum cultivation of Fusly 1253. which had been entered under Tanakyjasty, and the Collector considering it right to forbear the demand a balance appears accordingly in the Sewy Jummah account -

Column 9 Statement E

7- A further sum of Rupees 489-1-10 was entered in account as due by ryots, chiefly those of Lattapully in whose Villages an extent of land assessed at that sum was on complaint of concealment entered as having been cultivated the crop however did not come to maturity, and the condition of the ryots prevented the enforcement of the demand -

8- The remaining sum of Rupees 840-2-0 is due under the same head of tanakyjasty by certain ryots who have died or who have left the district,

and

and by others from whom the sums entered against them have not been collected for various causes as mentioned in Columns 7-8-10-12-13-14-18-20 and 22-

Statement E.

9- Of the total sum entered as balance under this head, Rupees 105-9-7 were collected in Fusly 1254-6-7 and 8. on account of resumed Enams, but were carried to account to the credit of certain ryots whose circumstances had rendered them unable to pay the assessment on their puttah lands, to that of some who had died, and some who had left their Village; from them the balance is really due, and its collection is now hopeless- A further sum of Rupees 172-9-3 has been erroneously entered in Accounts as due in Fusly 1254 on a Dasavundum Enam which was resumed owing to its being left unrepaired by the dasavundars the entry should not have been made until Fusly 1255 as the resumption was not made until quite the end of the Fusly 1254- Under the same head Rupees 108-10-11 are owing by persons who although not

Secretary to the Board of Revenue

Fort St. George

B. No. 2057.

From the Collector of Cuddapah

Submitting a list of advances to be made to the Huzzoor Talook cutcherries as required in an Extract from the proceedings of the Board of Revenue dated 30th Ultimo requesting their sanction for the same.

Sir,

Para 1 I have had the honor to receive an Extract from the Board's proceedings dated the 30th Ultimo requiring me to submit for their sanction a Statement of the sums that should be lodged in each Talook Cutcherry as an advance to provide for expenditure in cases where a prior reference to the Huzzoor would be attended with inconvenience to the public Service.

2 The chief inconvenience experienced in Cuddapah in consequence of the withdrawal of advances from the Talook Rs has been in the payment of the Troops and the Sub Collector at Cumbum because, although the Government was pleased subsequently to allow that such payments should be made from the Collections, in some months these are not sufficiently large to satisfy the Paymasters bills, the Money for the Troops has therefore been necessarily sent from the treasury and complaints of the delay in the receipt of their pay have lately been made by the Sepoys. The bills drawn for the troops average 2,100 Rupees a month but as they are sometimes higher than this and particularly when the guard is changed and it is necessary to give some part of their pay to the relieving guard as well as to the guard relieved I should wish that the advance in this account at Cumbum should be Rs 3,000 -

The

3 The Sub Collector formerly was allowed an advance of Rupees 1000 in his own cutcherry for such current expences as rewards for Killing wilde beasts the carriage of his records on circuit and his own salary besides a separate sum of Rupees 100 for the expenses of the branch Jail- this latter sum with Rupees 100 for the Current expenses of his office I propose should be now allowed as an advance to the Sub Collector and that a sum equal to his salary and allowances should form part of the advance in the Tahsildars cutcherry- It is not probable that the whole of this latter sum would ever be required but as the acting Sub Collector in reply to a reference I made to him declines to name any sum as that which he is likely to require should be paid to him each month at Cumbum, to avoid the inconvenience I have lately experienced in sending his salary by peons I have no alternative but to hold in advance the total sum he may draw each month if he pleases.

4 For the current expences of my own office when on circuit I request to be allowed to take from the treasury an advance of Rupees 200.

5 For the other talooks the sums required are various depending upon their size their position the state of their police and the frequency with which travellers pass through them Bearers posted in Cuddapah have frequently to travel 30 Miles to their post and it is not to be expected that they can leave their villages without some aid in money- peons posted going to distant talooks or to other Zillahs in pursuit of robbers require an advance of pay as do also those who are sent to the Criminal Court with prisoners or to the treasury with the Monthly remittance the Sundewards expenses have also to be met- For these purposes I request the Boards sanction for the advances inserted in the accompanying list of the Talooks in which are also entered the sums required to above

Bd's No. 2479

From the acting Collr of North Arcot

Sir,

In conformity with the instructions conveyed in Para 3 of Extract from the minutes of Consultation dated the 6th April last communicated in Extract from Proceedings of the Board of Revenue dated the 22d Idem, the suspended service yeomahdars in this District who acted as Vakeels, and certified the existence of female Yeomiahdars above 80 years of age have been informed that their allowances are suspended until such time as they can satisfactorily establish the existence of the females in question.—

Requests under the circumstances stated to be informed whether the existence of the female Yeomahdars whose allowances have been stopped for non appearance for Muster can be established by the evidence of Witnesses worthy of credit.

2 In consequence of this notice the suspended Yeomiahdars have represented that it is not in their power to compel the personal attendance of the females for whom they certified but that they are able to call witnesses whose evidence would establish existence of as many of the females as

as are still alive and that this mode of enquiry has been permitted in other Districts.—

3 In respect to this statement I have the honor to request the Board will inform me whether such evidence, if the Witnesses appear to be worthy of credit will be deemed sufficient. From the Collector of Salem.....

Reporting upon the settlement of the Extra Sources of Revenue of the Salem District for Fusly 1261.

Sir,

Para 1. I have the honor to report on the Settlement of the Extra Sources of Revenue of this District for Fusly 1261, and to submit the prescribed Statement.—

Abkarry.

2. The Revenue derived from the Abkarry Farms has yielded an amount of Rupees — 9,510—"—" in excess of the demand for the preceding fusly, owing to the expiration with the past year, of the lease issued in fusly 1258, and to the consequent greater competition elicited by the proposition for renting them as a whole, for a further period of three years, Viz.t Fusilies 1261—62 and 63.—

Fusly 1260	86,500—"—"	
" 1261.	96,010—"—"	
Difference —	9,510—"—"	

From

Sundry Small Farms and Licences

3. From the five items of Revenue comprized in the Sundry Small Farms, a sum of Rupees 1130. 6—8 has been drawn, in excess of the settlement of the past year as will be observed on perusal of the subjoined Statement.

The

Bamboo Contract. 4. The Bamboo Contract has been diminished by Rupees 45, owing to the absence of offers for it in Talook Nameul consequent, it is believed, on its having proved unprofitable in the late Fusly.

Difference	45 " "

Tamarind Contract 5. A net Increase to the extent of Rupees 815 " " is observable in the Tamarind tree Rent, when compared with that of the previous fusly. This is caused it would seem, by the Tamarind crop having been considerable in Talooks Kistnagherry and Tripatoor, and by the consequent higher offers made for the contract in those two divisions. In the former the Increase was Rupees 490 " ", in the latter Rupees 325 " ", total Rupees 821 " " whilst a Decrease of Rupees 6 " " occurred in the rents of Talook Semkerry droog.

6. In the item of Ferries, a clear Decrease of Rupees 271 — " — " may be attributed to the construction of the new Bridge over the river Cawvery at Comarapolliam in Talook Seukagherry, an event which has materially tended to diminished the profits of the Contractor: as well as to the smaller offers made for the contracts in Talooks Trichengode and Paramuttey. The respective Decrease in these three divisions, is Rupees 281 — 4 — " 17 — " — " and 31 — 8 — " forming a total of Rupees 329 — 12 — " An Increase of Rupees 58 — 12 — " was obtained on the offers made in the other Talooks.

Giddegavul Honey & Wax

7. The Increase perceptible under this head, is created by the fact that the figure at which the Giddegavul contract of Talook Denkanacottah was given, exceeded that of the previous year by Rupees 317 — 2 — 8; also by aggregate increase of Rupees 131 — 14 — " in the offers received in

in the other divisions. On the offers made and accepted in the entire District, a gross Increase of Rupees 479 — " — 8. occurred against the small falling off by Rupees 1 — " — " in Talook Tengaracottah, the result being a net increase of Rupees 478 — " — 8.

Fisheries.

8. For the Fisheries of the years, there was yielded a gross Decrease of Rupees 528 — 2 — 8. against a gross Increase of Rupees 681 — 8 — 8; the result thus being a net Increase in the item of Rupees 153 — 6 — ". The cause would seem to be that certain Tanks which were empty in the past fusly, were not so in the current one, also because there was a greater number of competitors for the Fishery of certain Tanks.

14 The balance of Rupees 117—— which is observable against Abkarry was brought to account in the month of October 1852. The amount outstanding under Sundry small Farms and Licences will be recovered within the close of November. Of the balances of Rupees 405—1—7 due under Motupha about Rupees 300 will be collected before the expiration of November, thus leaving a small arrear which is believed to be desperate in consequence of the demise, the desertion, or the poverty of the parties by whom it is due. The precise sum which may be ascertained during the approaching settlement to be hopless of recovery will be duly reported, in view to authority being obtained for its remission.—

16. The circumstance of the Abkarry Kists having been realized with more punctually than in the last year has created a decrease under that head. The case being otherwise with respect to sundry small Farms and Licences, the item of Inter est on those accounts has risen. The sums due for Motupha having been more extensively discharged with the close of the fusly, has led to a decrease in that item. The income derived from Stamps has undergone augmentation in consequence of the larger amount of penalties received this year from the Court.—

There

18. There appears a balance of Rupees 58-11-5 due on account of the Sundry Small Farms and Licences of fusly 1260, of which sum Rupees 27-14-1 will shortly be recovered. For the difference of Rupees 30-13-4 the Ferry Contractor in Talook Senkagherry has applied for remission, stating and with good cause I consider, that the Construction of the new Bridge across the Cauvery largely affected his profits. This amount is regarded as hopeless of recovery. The sum entered under Moturpha is Rupees 154-1-9, from which deducting Rupees 14-10-4 Collected and brought to account in September, there remains a net balance of Rupees 139-7-5 of which Rupees 53-13-11 will be realized, the Remainder Rupees 85-9-6, which appertains to fusly 1260, is deemed impossible of recovery, in Consequence of its being due by deceased, absconded and impoverished ryots in the manner shown marginally.

Deceased - 3-10-2
Deserted - 18-5-7.
Indigent - 63-11-9.
Total. 85-9-6.

19. Under these circumstances I beg to solicit permission to write off from my accounts, an aggregate of Rupees 116-6-10, or the total of the above mentioned two sums, Rupees 30-13-4 and 85-9-6.—

Para 1.

Sir,

In acknowledging your Circular letter of the 23d ultimo I have the honor to state that the principal portion of the allowances now paid in this District on account of the Hindoo and Mahomedan Ceremonies therein detailed are not direct payments from Government but are included in the Sums which were granted in lieu of resumed Manium lands to Future Religious Institutions and are now made over to the Durmakurtahs or Trustees.

2 The few exceptions are I. A Small annual Sum of Rs. 8-12-- granted by the Sunkarapooram Jaghiredar as a Vyasa Poonjah allowance and continued under the orders of Government dated 1st March 1831. II. Five Yeomiahs paid for the performance of the Moharrum Festivals in Villapooram and Chellumbrum and III are allowance of Rs. 7 paid at Cuddalore for the same purpose in continuance of the Custom followed for many years by the Chiefs in Council at Fort St. David. I have to be deemed proper to discontinue those payments I beg to recommend that their abolition may take place after the decease of the present incumbents unless long enjoyment makes them unprepared for the sudden cessation of their allowances.

Forwarding a supplementary Statement of charges incurred under estimate in Fusly 1258 comprising the item of Salt charges No. 48 of the retrenchment from Fusly 1257 to 1259 and requesting that the sanction of Government may be obtained.

Sir.

With reference to the 2d para of the Boards Proceedings dated 6th Instant, I have the honor to forward a supplementary Statement of Charges incurred under Estimate in Fusly 1258 comprising the Item of Salt Charges No. 43 of the Retrenchment from Fusly 1257 to 1259, and request you will be pleased to obtain the Sanction of Government at your earliest convenience.

With regard to the other item alluded to, it appears that its entry in any account was erroneous as remarked by the Board, the Salt not having been received into store this placed on the Platform, there is therefore no necessity for Sanction being obtained for the 363 Measures entered as wastage.

The Civil Auditor will be informed on this point with reference to No. 37.

B.d. No. 2490
From the Collector of Tinnevelly. } Para 1. With reference to Extract from the Proceedings of the Board of Revenue dated 18th September forwarding copy of papers on the subject of a proposed reduction of import duty on foreign Salt to one annas 12 per Maund, and calling for a report whether such reduction on Imports from Ceylon will be attended with any risk to the Salt Revenue of this District, and whether there are any other objections to extending to Ceylon the same privilege as is proposed upon Salt Import from Europe I have the honor to state that from the best information I am able to collect on the spot, I understand that the

the prime cost at which Salt could be imported into this District from Ceylon after the proposed reduction of duty would be.

Selling price of Government Salt in Ceylon per Maund	Rs A P.	8

being annas 2 price 4 or nearly 15 per cent below our Monopoly price whence it appears inevitable that a large trade would spring up and that unless the Monopoly price were lowered Ceylon would very soon supply all the salt required in this District.

2. With respect to smuggling I do not think it would be carried on in Salt to any great extent without detection in this District as the places on the coast to which handy roads lead from the interior are all within view of some Talook salt or Sea Customs Establishment.

B.d No. 2490
From the Collector of Tinnevelly. } Para 1. With reference to Extract from the Proceedings of the Board of Revenue dated 18th September forwarding copy of papers on the subject of a proposed reduction of import duty on foreign Salt to annas 12 per Maund, and calling for a report whether such reduction on Imports from Ceylon will be attended with any risk to the Salt Revenue of this District, and whether there are any other objections to extending to Ceylon the same privilege as is proposed upon Salt Import from Europe I have the honor to state that from the best information I am able to collect on the spot, I understand that the

the prime cost at which Salt could be imported into this District from Ceylon after the proposed reduction of duty would be.

Selling price of Government Salt in Ceylon per Maund	Rs A P.	8

being annas 2 price 4 or nearly 15 per cent below our Monopoly price whence it appears inevitable that a large trade would spring up and that unless the Monopoly price were lowered Ceylon would very soon supply all the salt required in this District.

2. With respect to smuggling I do not think it would be carried on in Salt to any great extent without detection in this District as the places on the coast to which handy roads lead from the interior are all within view of some Talook salt or Sea Customs Establishment.

B. d. No. 2656.

From the Collector of Coimbatore — } Sir,

Para 1 Adverting to the Extract from the Proceedings of the Board of Revenue dated the 30th Ultimo, I have the honor to forward a Memorandum shewing the sums required to be placed at the disposal of the several Tahsildars in this District for Public purposes, amounting to Company's Rupees 1,000 regulated upon due consideration of the urgent local demands of each Talook.—

2. The above sum comprises Rupees 372 now deposited in the Talooks marginally indicated* under Orders of Government dated 17th March 1843, for defraying the charges of posting arrangements in advance and the rest is required for the payment of the Carriage hire of Monthly Remittance to the Huzoor Treasury, for the refund of stamp duty

duty under Act XVII of 1848, and for the payment of the stipend of Military Pensioners in charge of Public Bungalows.—

3.

The above payments by the Tahsildars, will be repaid in every Month. Account Particulars of the amount of deposits will be furnished monthly by the Tahsildars, and due care will be taken that Funds placed at their disposal are not appropriated to any other purpose—

4.

The existing measures for the refund of Stamp duty, cause delay and confusion; and the proposed measure, will be the means of obtaining it.
