Total	5,23,021,5,	64,86,73,11,8

Deduct Decrease 10,98,12,,

Net Increase Rupees 12,552,6,8

Salt- 2- The Collections on account of Salt were Rupees 584,850- 8- 3, or Rupees 124,117- 11- 11 in excess of Fusly 1260 and 31,017 Rupees above the average during the last 10 years.-

3- The principal increase was in the Inland Sales, and occurred in all the Divisions with the exception of Parlakimedy, the falling off in which is ascribed to some of the Brinjarries from Hurnoor and Bellary who usually resorted thither, having proceeded to the Spans of Eslapilly, in consequence of an Epidemic among the Cattle at Parlakimedy. The increase in the Pauderty Division was owing to Salt heaps which suffered from the Gale and rains of November last having been sold in entire heaps after immediate measurement and which drew to that Cotaur a number of Merchants who usually frequented the Spans of Sheina Ganjam, and Pedda Ganjam in the Guntoor District.

4- The Board would here state with reference to the increase alluded to above, that the Collector in order to ascertain the real extent of loss which several of the Salt heaps had sustained by the gale of 6th and 7th November 1851, caused the remeasurement of those which

which appeared to be considerably damaged and pending their completion thought it advisable in order to meet the demands of wholesale dealers, to authorize a deviation from the instructions contained in Para 13 of the revised Salt rules, and to allow the heaps to be sold without respect to their number or year of Manufacture. He also permitted the wholesale Merchants to applying for any of the measured heaps to take them at the quantity they were found to contain with the deduction of Rupees 6 per Garee authorized by Para 14 of the Salt Rules in Sales of entire heaps.

5- The Board however on receiving the Collector's report on the arrangements abovementioned immediately directed in order to prevent the Salt Trade being diverted from the other Districts to Nellore that none of the remeasured heaps remaining unsold should be disposed of at the wholesale price, as the discount of Rupees 6 per Garee, authorized by the rules was given for the express purpose of compensating the purchaser for wastage.-

6- The increase in the other Divisions is attributed to the Brinjaries from Hurnool, Sittoor, Chinglepute, Cuddapah & Bellary

To From Collector 7- in Dy Cons 16 January 1852 Proceedings 16th January "

Bellary, having purchased a larger quantity of Salt in Fusly 1261 than in the preceding one.

7. The increase of Rupees 10208 in the Exports by Sea, is stated to be owing to the Exportation of almost the entire quantity of Salt indented for from Chittagong and to the augmented Shipments to Calcutta as compared with the previous year.

8. The total quantity of Salt manufactured during the year was Indian Maunds 6,81,569 or Indian Maunds 12,577 in excess of Fusly 1260. This increase was found necessary as at the close of the latter Fusly, the stocks on hand was insufficient.

Sea Customs. 9. In Sea Customs the receipts for the year exceeded the preceding one by Rupees 174-6-9 arising from an increase in the exports, as no Rice and Paddy had been sent from Arracan.

Salt Farms. 10. The demand under this branch of Revenue was Rupees 29,278-8— or Rupees 873-7-5 below that of Fusly 1260, and was caused by the rents of several Talooks having fallen short of those obtained last fusly, as the renters had

had experienced considerable losses.

Sundry Smalls & Farms & Licences. 11. The decrease of Rupees 48-14-8 in Smalls Farms is attributed to the abolition of the Tax on Tank Fisheries and the increase of Rupees 2,339 in Stamps to the large number of Civil Suits filed.

Stamps.

Motur fish. 12. The falling off of Rupees 154-6-11 under the head of Motur fish is ascribed to no offer having been made for furnaces for smelting Iron in the Wodiagherry Taloork.

13. Of the total demand Fyt Rupees 6,48,573-11-8, the sum of Rupees 6,46,685-8-2 was collected within the fusly, leaving a balance of Rupees 1,888-3-6 to be still realized.

14. The charges for the year amounted to Rupees 78060-11-10, or Rupees 9,287-3-7 above that of the preceding year. The increase appears chiefly under the head of Salt and was caused by a larger quantity having been received into store, by which means the Amount paid for the Manufacturers share was proportionately raised. The

Fort St. George 18th November 1852.

15. The whole of the Collections including Current Extra and Arrears, amounted to Rupees 65,1110— 14—1 from which the above Charges being deducted, there remained a net revenue of Rupees 57,3050—2—3, or Rupees 11,8,348— 10—4, above that of Fusly 1260.

Ordered that a copy of the foregoing Extract with the annexed Comparative Statement of the Collections Charges

Fort St. George 18th November 1852.

Charges and Net revenue be submitted to Government and a transcript of the same be furnished to the Collector of Nellore.

When and by whom granted and the name of the original grantee are not known. The Enam in the Village of Peddasetty pully is entered both in the Pymaish and Enamaty accounts in the name of Purnata Chadany that in Chinna setty pully in the names of Sylambatloo Purnatabatloo or

"Bhatavrettee Enam" or Enam granted as Charity

Ankoomalla Chetumbarum the last holder of the Enam died on the 5th February 1850.

He was the son of Purnatamadhany a distant relative of Sylambatloo and Grand son to Seyshumbatloo in the female line all mentioned in Column 3.

1 Soobbamah aged 40 years widow of the deceased.
Venkat Soobbiah son of Do aged 10 years.
Venkat Soobbumah daughter of Do aged 4 years.
They are said to be tolerably well off.
They also enjoy 1/2 a share of Pouroketum Enam in the Villages of Chandoor and Peddasettepully amounting to Rupees 53. 14. 2.

The proceeds of the Enam in the Villages of Peddasettepully Pottepaund & Mallapaund were enjoyed by the deceased and his younger brother Soobbiah in equal shares & 1/3 share of the Enam in Chinnasettepully was divided equally between them.

Poolwendalah Talooke

Sipallah - - 6 21 7. 11 14 5

In this case also the deceased obtained Succession on the death of her husband who was Grandson of the Original Grantee. It is understood that the Enam was originally Granted as a reward

reward for erecting a Hindoo Temple and deceased made over the Enam to her younger brother who lived with her, in support of which a Deed is produced. The deceased had no issue, and her husband left no near relation and the Board therefore concur in the Collector's recommendation to resume the Enam - as the recognition of the gift to deceased's younger brother would be prejudicial to the Government right to the escheat and would be perpetuating a grant which evidently was originally a charitable subsist-ence to the family only of the Grantee

Total		6,318-6-11
Amount paid to Creditors	3,510-13--	
In deposit for payment to Creditors	2,807-9-11	

the Correspondence noted in the Margin I have the honor to report for the information of the Board of Revenue that the Amount of the Claims of the Creditors of Syed Goolam Mahomed Khan has been fully realized from the Revenue of his Village in the Bangan-pilly Jaghier which was retained under management in Fasly 1257 for the liquidation of these claims, and

I have accordingly restored the Village to the possession of Syed Goolam Mahomed Khan.

2 — The Villamaree of the year of the Village in question having been already completed, I have intimated to Syed Goolam Mahomed Khan that the engagements concluded with the Ryots should be respected by him and

13045 Fort St. George 18th November 1852

and I conclude it is not necessary that I should exercise any further supervision in regard to the management of the Revenue of this Village.

B. No. 2775

From the Collector of Chingleput

Reporting on the Settlement of the Land Revenue of the Chingleput District for Fusly 1261 / 1851-52 and transmitting the prescribed Statements thereunto commented.

Sir.

Para 1.

I have the honor to forward herewith the prescribed Statements, as per accompanying list, connected with the land Revenue Settlement of this District for the past Fusly 1261 / 1851-52 and to submit the following report on the subject.

English Statements from No. 1 to 24.
Marratah Statements from 1 to 20.

2. The Jummabundy of the

Modes and places of Settlement

Talooks of Caurangooly and Chingleput, under the charge of the Head Assistant Collector was conducted by that Officer. The remaining 8 Talooks were settled by myself. The Places at which the Settlement was carried on in the Talooks severally are entered in the margin.

Talooks	Places where settled
Caurangooly	Caurangooly
Cotramalloor	Cotramalloor
Conjeveram	Conjeveram
Chingleput	Terocciachicconum
Maraimungalum	Streeperumatoor
Teroporoor	Covelong
Sydapet	Porel
Poonamallee	Poonamallee
Peddapollium	Teroovellore
Wayer	Cuvoor

The

Season

3 The commencement of the season of the Fusly under review promised fairly as regards agricultural prospects, for although the heavy rains of May 1851 were not experienced without damage being occasioned to many of the Tanks the greater portion of them were so benefitted by abundant supplies as to have enabled the Ryots to commence sooner than usual, the cultivation of the early wet crop. The bringing of dry lands under the plough was however retarded by excess of moisture. The partial rains received during the South West Monsoon in July proved generally beneficial. There was then a sudden cessation of the rains in most parts of the District during the important Months of August, September and October, which injuriously affected the Standing Crops rendering the production deficient in many localities.

4 The North East Monsoon commenced at a somewhat later period than usual ample and plentiful showers fell in November, by which the

the Tanks received fresh supplies which revivified the spirit of agricultural industry, although loss of crops by inundation was to some extent experienced by the sudden replenishment of the Tanks and the freshes of the Aranee and Cortallar Rivers. The Navary grain was every where sown, and the increase in this description of produce has considerably added to the Revenue: the yield of these lands was however affected in some measure by the entire failure of rains in subsequent Months. The season, therefore though not propitious for the culture of dry lands may on the whole be viewed as one of the most favorable on record as regards the Revenue of Government.

Irrigation

5 The foregoing review of the season of the present Fusly as well as of those of preceding years, sufficiently demonstrate the uncertainty to which the wet cultivation of the District, yielding by far the greater portion of Revenue, is subject, dependent as it is in a great measure on periodical rains, which

which though frequently on the whole abundant are not always as seasonable as could be wished. It is superfluous to dwell on the results of such seasons to which the above remark may apply; remedial measures must be looked for in the extension of River and Well irrigation.

River Irrigation 6 The assessment levied on lands under River and channel irrigation in the Ryotwarry Villages amount to Rupees 112,289 - 15 - 7 or nearly 1/8th of the total Revenue derived from irrigated lands, other lands also possess advantages consequent on the means of irrigation so afforded from Tanks supplied by River-channels. In connection with the important subject of securing to this District more certain means of irrigation by diverting the freshes of the Rivers, and thus affording several Reservoirs River supplies, I beg again to express my decided opinion that the project proposed by the Civil Engineer of the Division of constructing an annicut across

+ Nunjah and Poonjah Mail Nunjah under Tank and Well irrigation	731,152	5	4
Do under river & channel irrigation	112,289	15	7
Total	843,442	4	11

across the Pauler cannot fail materially to improve the Reservoirs of the District, and to prove a profitable undertaking in every point of view.

Well Irrigation 7. As regards the extension of Well Irrigation the Hon Rommanah provides as a temporary measure that one half of the additional assessment leviable on dry lands converted into wet or Totacal by means of irrigation from Wells dug by Ryots at their own expence should be remitted. Judging from the few instances in which Ryots have availed themselves of this Rule - it must be inferred generally that the exemption from increased rent to the extent stipulated is not considered a sufficient compensation for the labor and expenditure required to be applied though perhaps the difficulty of finding favorable localities for the construction of Wells on dry lands and the comparatively limited extent of lands of this description in the District, may in some measure act as a bar to improvements of the nature being effected by the industry and

and means of Ryots.

8 It appears however a matter of great importance as concerns the features of this District that some inducement should be held out to Ryots to dig Wells in their Wet lands in view to the mitigation of evil arising from irregularities in the season, especially when Tanks are dependant for their supplies on uncertain sources. As no remission on the assessment of Wet Lands can be held out, I would beg to suggest that the system of making advances as Tuccavy to Ryots which I fear is too open to abuse, should be discontinued or restricted to cases in which Ryots have sustained losses of a serious nature, and that advances be made on proper security to Parties who may propose to dig new Wells (such Works being of a permanent nature) as their Wet or Garden Lands.

Cattle and Population

9 Murrain and other diseases incidental to Cattle prevailed comparatively but to a limited extent and chiefly in the Months of January. There is an increase in the number of Heads of Cattle as marginally shewn. Almost every

	Cows Bullocks and Buffaloes.		
Fusly 1261	318740	"	"
Fusly 1260	315980	"	"
Increase	2760	"	"

every part of the District has been visited with that epedimic disease the cholera which appears to have raged with more virulence in the Talooks of Conjeveram Ootramallore and Nagery than in the others. The census being required to be taken but once in five years, no Returns are prepared during the interval to shew the decrease in the population of the District which must have resulted from so unhealthy a season.

Prices

10 There has been an unusual decline in the prices of grain. In conformity with the Instructions recorded by the Board in Para 3 of their Proceedings on reviewing the Land Revenue Report of Fusly 1260 the accompanying Statement No 23 has been prepared to exhibit the wholesale and retail prices per Garce of Paddy.

11 It will be observed that during the Fusly under notice the average wholesale price of Paddy was Rupees 6-10-" per Garce or 24 3/4 per Cent lower than that which obtained in the preceding year, and 20 3/4 per Cent below the commutation Price assumed

on

Fort St George 18th November 1852

in the formation of the field assessment while during the latter half of the Fusly viz from January to July, the period at which Paddy crops come to maturity and when sales are generally effected by the Ryots to meet the Kistwar Demand, prices have fallen to a still greater extent being 31 3/4 and 30 3/4 per cent below those of the Fusly preceding and of the Survey Commutation respectively.

12

This state of affairs operating so unfavorably to the Interests of the Ryots has been severely felt, and as was naturally to be expected they have experienced great difficulty in the punctual discharge of the Revenue dues.

Villages

13.

The number of Villages comprised in the District in the present Fusly amounts to 2,359 of which such as are under the management of their own proprietors remain as in the preceding Fusly, the addition of two Shrotriems and one Mustah or permanently rented Villages received from North Arcot, having

Fort St George 18th November 1852

having been counterbalanced by the reversion to the State of a similar number of Shrotriem and Curry Zemindary Villages on account of arrears, and other causes under the sanction of Government quoted in the Margin.

The aggregate of Government Villages as 1660 inclusive of an addition of 41 Ryotwary settled Villages comprizing the Goomady poondy Division recently transferred to this District from North Arcot, and the three reverted Shrotriem and Zemindary Villages referred to in the preceding Para, and a 5/6 share of the Shrotriem of Eroombely also resumed by Government on account of balances outstanding against it. Of the Government Villages 1652 are under Ryotwar settlement 7 together with the 5/6 share of the Village of Eroombely have been rented on Double or an Estimate of the Produce, whilst the remaining one Village forming the late Perumbaukum Mootta has been held under

From the description given at the commencement of this Report in reference to the nature of the Season, the Board will be prepared for the increase observable in every Taluk under the head of Nunja Cultivation, while the small increase in Poonjah, notwithstanding the decrease in the extent of land brought under the plough is attributable to a greater portion thereof having been cultivated with wet crops by means of irrigation from the usual Sources. The increase in the Ready Money Collections has resulted from the Fusfusl Tasty and Teerva Tasty levied on a greater extent of single crop wet and Poonja Enams on which a second crop and Paddy respectively was raised by means of water from the Circar Sources. The increase of Rupees 138 15 6 observable under the head of Quit Rent in Taravary Villages in Statement No. II consists of the Rent levied on Grants newly issued in the Cantonment of Poonamallee and St. Thomas Mount as per Accounts furnished by the Register of Government Grants, less a sum of Rupees 3 4 11 being the quit rent payable on a Garden at

at Pulicat which was relinquished by its proprietor as being altogether unproductive—

Settlement of the Ryotwarry Villages transferred from North Arcot.

19. It is necessary to advert to the condition of the 41 Ryotwarry Villages transferred from North Arcot the cultivation and Beriz of which are shewn separately in Statement No. 6, These Villages do not appear to have shared in the favorable results of the Season, exhibiting a decrease of Rupees 105 3 1 and Rupees 322 6 6 in the dry and Wet cultivation respectively, and a small increase of Rupees 17 15 9 in Pottacal & Ready Money Collections— The Villages in question possess no reservoirs of any importance, and as will be observed from the Statement the cultivation chiefly consists of dry and Manavary & Wet lands, for which descriptions the season now reported upon was not favorable; first because the lands at the commencement of the season received too much moisture to render them fit for dry cultivation, and 2ndly because the rains fell at intervals too distant from each other to prove sufficiently beneficial—

The

Settlement of the 75 Villages assessed in Fusly 1258.

20. The Beriz of the 25 Villages in which the Ryotwarry Settlement was introduced in Fusly 1258 amount to Rupees 17865 6 9 exclusive of remissions Rupees 588 10 10 being an increase of Rupees 1376 3 3 or 8½ per Cent above the permanent Settlement, but still below the sum of Rupees 20000 which Mr. Freese anticipated could be realized from them in average years It is however to be observed that the Arable Area of the Villages in question consist principally of dry and Manavary lands for the cultivation of which the season was not favorable for reasons explained in the preceding Para—

Permanent Settlement } 6489 3 6

Settlement of the Amany Villages.

21. The produce and Beriz of the 75 Villages rented on Dowle and of the only one held under Amany besides a few Sundry Enams are exhibited in the following Statement—

The

22. The outturn of these Villages amounts to Rupees 6131—11—11 being Rupees 2323—5—1 short of the Permanent Settlement, the decrease being attributable to the low Prices obtained for the Mauwarium share of the produce with reference to which the Dowle Rent was calculated—

	Rs.		
Permanent Settlement	8,289	— 8	— 9
Add Beriz of Sundry Enams	165	— 8	— 3
	8455	— 1	— 0

Settlement of Tarumbaukum

23. The Village forming the late Tarumbaukum Moottah which was purchased for Rupees 900 on behalf of Government was settled at only Rupees 1665—13—5 or Rupees 1322—7—10 short of the Permanent Jumma, a result which must likewise be attributed to the lower Prices already referred to, and the deteriorated state in which the Moottah reverted to Government. Measures are however being adopted for improving the Sources of Irrigation, and with fair remunerating Prices a better result will doubtlessly be attained—

+ Permanent Jumma 2988.5.8

Settlement of the newly resented Shrotriums

24. The reversion of the two Shrotrium Villages and the 5/6th share of Eroombely was

	Peishcush			Beriz of Fusly 1261		
Puttecaud	218	12	8	231	—	—
Maumunjary	93	7	4	53	15	9
Eroombely 5/6	80	5	5	12	8	—

J. C. S.

was not attended with an increase of Revenue to the State in the present Fusly for although the Beriz of Puttecaud was in excess of its Peishcush the diminution in the proceeds of the other two Villages more than counterbalanced the above increase The Wet lands of Maumunjary being situated in the interior of another Tank their cultivation was impeded at the commencement of the season consequent on the large supply of water in the Tank while at a later period the same result ensued from a failure of water in their Source of Irrigation of the lands in question - The Decrease in Eroombady has arisen from the neglected state of its reservoir which the Shrotriumdars were unable to repair -

Settlement of the Muspadoo Moottah

25. Agreeably to the Instructions of the Board contained in their Proceedings of the 19th November 1849, the proceeds of the two Villages of Muspadoo Moottah are separately shewn. They amount to Rupees 3176 - or Rupees 4 - 10 : 2 below the Permanent Settlement a result which must be considered satisfactory when the depression in the state of the Grain Market which characterized the year under report is taken under consideration -

+ P. 3180 - 10 - 2

Wath

Fort St. George 18th November 1852.

With prices even approximating to the Survey standard it is clear a considerable profit would have been realized, and under this circumstance I beg to recommend that the separate notice required of these Mootta may hereafter be dispensed with.

26. Adverting to the 11th Para of the Boards Proceedings calling my attention to the desirableness of substituting fixed rents for the Sharing System in these Villages - I beg to observe that the prices which now obtain are so unfavorable to the introduction of the fixed assessment that the Ryots would naturally raise objections in the event of the Survey Standard Price being adhered to with the view of preserving uniformity in the Ryotwarry Settlement of the District -

+ Review of the Land Revenue Report of Fasly 1260 not dated.

Dittum

27 - The Dittum or engagements of the year amounts to Rupees 1,11,3301-3-7, from which deducting Rupees 79,312-6-9 the assessment of lands left uncultivated, and of which no portion was brought to account except a small Sum under the head of Hararmamah Burnjur the remaining gross

Fort St. George 18th November 1852 -

gross Settlement of the Ryotwarry Villages is Rupees 1,03,988-12-10. The remissions granted on the above amounting to Rupees 4,2548-3-1 or Rupees 6,9878-13-11 less than those of the preceding year are hereunder detailed -

Fort St. George 18th November 1852.

Remissions

28. These remissions are of the usual character and were granted in accordance with the practice of the District while every consideration has been shewn to the Ryots to such extent as the rules permitted. The fluctuation observable in the amounts of the different remissions are sufficiently accounted for by the character of the Season as contrasted with the preceding one and the increased extent of cultivation.

Shavy

29. The remissions granted on account of failure of Crops exhibits a decrease of Rupees 59,633-12-1 below the past Fusly attributable to the cause above alluded to. The assessment of Wetlands on which Crops failed is Rupees 6,911-11-10. Of this amount Rupees 1,814-12-2 were carried to account in consequence of such failures being within the prescribed per Centage of the assessment due by the Ryots respectively on the same descriptions of lands. The remaining sum of Rupees 5,096-15-8 was

Fort St. George 18th November 1852.

wholly remitted the great distress among the agricultural classes occasioned by low Prices calling for such indulgence.

30. With reference to the remarks of the Board in Para 8 of their Proceedings I beg to state that the remission therein alluded to as having been allowed for Shavy on a portion of a field held by a Ryot was granted in Fusly 1260 as a special case owing to the unfavorable nature of the year. It is to be observed that it sometimes happens that portions of the same field are held under or included in separate Puttas belonging to different parties, and in cases of this nature Shavy remissions on portions of a field may become necessary.

+ Review of the Land Revenue Report of Fusly 1260

31. The increased amount of remissions granted on account of Crops inundated and washed by floods have already been accounted for in the review of the season. The advantages offered by the propitious nature of the season for the cultivation of second Crop on wet lands have reduced the amount of remissions under the head of

Panchoodty Poyamalay Fussul Cummi.

Fussul

Fort St. George 18th November 1852.-

"Fuſul Cumme" to Rupees 10,765- ÷- 6. or leſs than 50 per Cent of those granted in the preceding year.-

Kararnamah Bunjer.

32. In explanation of the Sum of Rupees 62- 14- remitted under the head of Kararnamah Bunjer (as applicable to Meerasdars who have not acted up to their engagements in leaving waste, lands on which they had agreed to cultivate on offers having been made for the same by Poya Karies) an Item which does not occur in the preceding year, I beg to observe that the Instructions recorded by Government on reviewing the land Revenue Report of Fusly 1257 (received after the conclusion of the Gummabundy of Fusly 1258) for enstrictly enforcing the engagements entered into by Meraſsdars for the cultivation of Waste lands for which offers are made by Poya Karries were not carried into effect in Fuslies 1259 & 60. in which years only such portion of the lands engaged for as was actually cultivated was brought to account owing to the extremely unfavorable nature of the Season.-

In

Fort St. George 18th November 1852.-

In the Fusly under review the instructions in question were strictly enforced and the lands engaged for by the Meerasdars under the circumstances mentioned were fully taxed to the Jumma, whether cultivated or not, the Aſseſsment carried to Account on the portion left waste Amounting to Rupees 1,204- 12- 10- In a few instances however impediments having arisen to the cultivation of the lands consequent on inundation and other causes beyond the control of the Cultivators I have deemed it neceſsary to remit the Aſseſsment thereof Amounting to Rupees 62- 14- 0. which appears in the Accounts under the above head of Kararnamah Bunjer. This Subject will be more fully submitted for orders in a Separate Communication.-

Enams.

33. An extent of Cawnies 185. 1¾ aſseſsed at Rupees 389. 10- 7 as shewn in Columns 18 & 19 of Statement No. 4 has been newly granted in the present Fusly as Manniems to the Puttamangars of the Villages lately transferred from

North

Fort St. George 18th November 1852.-

North Arcot under the sanction of the Govern-
-ment of India dated 30th May 1837, en-
Communicated with the Board's Proceed-
-ings of the 3d July following, Cs. 3.3/4 as
assessed at Rs. 1-4-8 as entered in the foot
Note to Cols. 12 and 13 has also been allowed
in exchange for an Enam of a nearly equal
extent enjoyed by the Carpenter of a Village
in the Carangooly Taloog which was rendered
useless by the formation of a Tank bund
over it. There has been no resumption
of Enams in the present Fusly.-

Sugar Cane cultivation.

34. The extent of lands cultivated
with Sugar Cane in the District is
so trifling as hardly to call for
notice in this Report.-

Rent Roll.

35. The Rent Roll of the
District exhibits results corresponding
with the character of the season; there
has been a considerable increase in the
number of Puttahs and in the extent
of holdings, the consequence of Ryots
who temporarily contracted or relinquished
their cultivation owing to the unfavorable

nature

Fort St. George 18th November 1852.-

nature of the past Fusly having renewed
their Agricultural pursuits with increased
energy and industry.-

Cowle Lands.

The

38. The balance of Land Revenue at the end of the Fusly amounted to Rupees 2,62,816-11-9 out of a demand of Rupees 11,90,820-7-9- or 22 per Cent. which was reduced on the 31st October to Rupees 55,900-4-4 or 4 11/16 per Cent. The portion of the balance Rupees 4882-12-6- outstanding against Jaggy Zemindary Estates is due &c.:

Balance	
Madooravoyal	2,101-15-8-
Vellacotta	1417-10-2
Cottoor	1204-2-5-

most entirely on the Mootahs noted in the Margin, the sales of the two former of which have already been reported to the Board, the remaining Estate Cottoor is now under attachment and will hereafter be sold on it's subdivision being completed with reference to the Instructions contained in the Board's Proceedings of the 28th October 1852. The Balance of Rupees 6310-5-5 against Shrotriums will likewise be shortly adjusted on the expiration of the period of notice issued on their several Proprietors.

Ryotwary Balance-

39. In explanation of the Ryotwary portion of the Balance amounting

Fort St. George 18th November 1852.

amounting to Rupees 43877-4-3. I beg again to advert to the evil of low Prices which has not yet ceased to operate pre-judicially to the Interests of the Ryots, and which not unfrequently rendered it necessary for them to dispose of the whole of their produce to meet the Rists. To whatever causes the existing diminution of demand which has apparently pro-duced a glut in the Market and a consequent great fall in price may be considered attributable, when this state of things is not merely con-fined to a portion of the year, but continues for a lengthened period, expediency would dictate that the evil, though regarded as a temporary circumstance, should be met like other untoward accidents, either by granting such remissions as on due enquiry may appear necessary in proportion to the inability of the Ryots to pay their Rists without trenching on their Agricultural Stock or by a general remission which I should consider the preferable plan according to

Fort St. George 18th November 1852.

to an approved scale framed in reference to existing prices as compared with those laid down at the time of survey which forming the basis of the Assessment was considered fair as concerned the just remuneration of the Ryots for their Agricultural Labour and Industry. The present rates of assess-ment cannot be regarded so light as to have enabled the Ryots who mostly live on the produce of the year to provide themselves against losses of so serious a nature, and it will also be observed on referring to the results of the past ten years that though on three several occasions prices have fallen greatly below the Commutation standard, they have never risen consider-ably above it.-

40. I should have therefore been prepared at the time of the Jum-mabandy Settlement to have recommended some general measure of relief as ap-plicable to the circumstances of the year had I not felt some hesitation in consequence of the large amount of Concessions made to the Ryots in the preceding

preceding two years, and had I not been under the hopes of an improvement in the state of the Market.-

41. Repeated and strengent instructions were issued to the Tahsildars and every posible measure was adopted in view to the punctual realization of the Revenue, and I cannot generally consider the above Officers liable to blame. The attachment of moveable property has been resorted to the extent of Rupees 18000, but as the property actually sold for arrears of Revenue does not exceed in value Rs. 100, it will I trust be considered a sufficient proof of my having as much as posible avoided harassing measures in the realization of the Government dues. Aware as I am of the distressed and impoverished state of the Ryots during the past three years, I feel great doubts as to the posibility of realizing a considerable portion of the balances at present outstanding. They will be only enquired into at the ensuing Jummabundy Settlement, and reported on, and in the meanwhile that they may not interfere

interfere with the means of the Ryots to pay the demand of the Current Fusly as it becomes due, instructions have been issued to the Subordinate Officers to credit to the latter Fusly the payments made from the proceeds of the present year, carrying the surplus to the credit of the balances of Fusly 1261.

Old Balance

42. Having already reported in my Communication of the 8th Ultimo on the Subject of the old balances of Land Revenue up to Fusly 1259, in which I recommended the remission of Rs. 2456-11-10. as also of an irrecoverable Sewoy Jumma Balance of Rupees 741-3-7, I beg now to submit the accompanying Statement No. 24 showing the particulars of the Balances of Fusly 1260 which have been enquired into at the last Jumabundy with the exception of Rupees 1,895-11-2 which will be shortly adjusted, the remainder Rupees 2,919-4-3. is now recommended for remission under the different heads noted in the Margin.-

Against the dead.	57-8-9.
Deserted —	113-12-7.
Nadar —	1127-11-9.
Lookesan —	1,613-3-2.

Sewoy Jummah.

43. Statement No. 19 herewith submitted

Fort St. George 18th November 1852.

submitted exhibits the Demand, Collection and Balance of Sevoy Summa. Of the arrears of Rupees 1,859-13-11. outstanding on account of the past Fusties at the close of the present year Rupees 326-10-8. have since been realized, a further sum of Rs. 741-3-7 has already been recommended for remission as referred to in the preceding Para, and the remaining Rs. 790-2-9 (exclusive of Rs. 1-12-11 included in the sum now recommended to be written off) will be recovered in due Course. The Balance of the Fusly under review amounting to Rs. 196-1-3. will likewise be adjusted.

Charges- 44- The Charges of the Fusly which are classed in Statement No. 15 in the manner required in Extract from the Proceedings of the Board of Revenue under date the 26th August last amount to Rs. 3,04,728-14-10. bearing a per centage of 19 to the total Revenue from all sources while those incurred on account of the management and Collection of Land Revenue alone are Rs. 1,56,666-14-10 or 13-11 per Cent of the Revenue under that head. The latter sum however it may be observed includes likewise the Charges of the

Fort St. George 18th November 1852

the Police management of the District which cannot be separated and distinguished from the rest, and is exclusive of the Value of Inams enjoyed by the Village Servants who are employed in the Collection of Revenue.

+ Rs. 58,321-10-8- The cost of repairs performed to Works of Irrigation in the Fusly under review bears the proportion of 6-11-2- per Cent to the revenue derived from irrigated Lands, and exceeds the similar charges of the preceding year by Rupees 21,353-3-11. the increase being attributable to the numerous repairs executed to Reservoirs which had been damaged by the gales of May 1850 and 1851 and by the heavy rains of November 1850 and of which, a smaller number only underwent repairs in the preceding Fusly- The charges upon the Revenue consisting of Mosque and Pagoda allowances, payments in lieu of resumed offices &c amount to Rupees 44,857-11-5- or 3-12-1- per Cent of the Land Revenue.

Chingleput District.

To W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George

Bd No. 2590-

From the Collector of Salem — Reporting his demise on the 4th July last of Rungasamy Chitty sole proprietor of the Nattum Mootah and joint proprietor of half the Anundoor Mootah and stating that the Estate has been registered in the name of Venkatramma Chitty the son of the deceased proprietor.

Annual Bnk. No. 3128 of 2

Sir,

I have the honor to report for the information of your Board the demise on the 4th July last of Rungasamy Chitty, sole proprietor of the Nattum Mootah in Talook Trepatoor of this District, who was also a joint proprietor of half the Anundoor Mootah, the other moiety of which is registered in the names of Moorty Chitty and Mungunnaral.

2 Having caused the attendance before me of Poonathay Ammal and Venkatrama Chitty the wife and son and only heirs of the deceased, I have ascertained the wish of the former that the Estate of her late husband be registered in favor of her son and that in the Capacity of Manager, she herself be appointed to superintend the property during the minority of the Child who is stated, and appears to be now nine years of age. Accordingly in last month I made the Registry in the name of Venkatrama Chitty.

3 As the matter of nominating a Guardian for the registered owners of the half share in the Anundoor Mootah Concerns the judicial

Section XX Regulation V of 1804

judicial authorities, I have duly communicated with the Civil Court at Salem and offered a recommendation in favor of the Mother of Venkatrama Chetty-

4 Respecting the undivided Nattum Estate it remains I believe with your Board to nominate a Manager in behalf of the Minor, I beg therefore to suggest that as Poorna may annul the wife of the deceased Mootadar may be selected for that office. She appears to be an intelligent person and willing to discharge the trust-

Salem Collector's office
Adayson Chetty

Collector-

Bd No. 2295-
Proceedings thereon

(27-28)

The Board sanction the registry of the Nattum Mootah and half share of the Immudoor Mootah held by the deceased Rajaveloo Rungavanny Chetty in the name of his Minor son Venkatrama Chetty-

2 As it does not appear to have been intended to bring the Estate under the management of the Court of Wards the Board approve of the Collector's application to the Civil Court for a Guardian but do not perceive why Mr. Phillips should not in the circumstances proposed under Regn IV of 1805 to nominate a Manager

Bd No. 2670-

From the Collector of Salem - - - -

Reporting upon Petition No. 1737 of 1852 addressed to the Board by one Ramen and Somen Complaining of the levy of certain additional tax from them as Smelters-

I have the honor to reply to your Board's instructions contained in the Endorsement on the petition

No. 1737 of 1852

From Ramen and Somen Inhabitants of Tookyam Polygam subject to Salem Taluk in the Zillah of Salem-

Complaining that in addition to the tax levied from them as Smelters they are also charged for the Stalls at which they sell their iron and praying for the remission of the fresh impost-

Board's Endorsement-

Referred to the Collector for report by Endorsement-

14th September 1852

Marginally noted-

2 The Petitioners have not so far as appears from the Public accounts been made liable to the payment of two taxes as they allege - In July 1261 they were ascertained to have purchased pig iron and to have carried on dealings in that article in Yathapoorum and other Villages - A cess at the rate of one Rupee each was therefore levied from them for a calling wholly distinct from the handicraft tax to which as Smelters they would have been liable-

3 These parties beg to mention have presented to me four Petitions in respect of this matter all of which have been duly endorsed with

with an intimation in clear terms of the grounds on which they were charged with the cess in question-

Proceedings thereon-

(29-30)

Ordered that the following Endorsement be passed on Petition No. 1737 of 1852.

The Board of Revenue learns from the Collector's Report that Petitioners have been charged only the Tasc for selling the Trees. If that for smelting has been collected Petitioners should submit the Puttahs for the same"-

No. 119

(31)

To, W. H. Bayley Esqre.
Secretary to the
Board of Revenue,
Fort St. George-

Sir,

From the Collector of Salem - - - } 1. I have the honor to reply to your Reporting upon Petition No. 1771 of 1852 addressed to the Board by one Pitchoocutty Iyen complaining of the levy of certain additional Assessment upon his land in Fusly 1261-

Board's Proc. 13th Nov. 1852 No. 2671

communication dated the 30th Ultimo calling for information relative to the assertion made by a Petitioner that a Increase in increase of the Pymash rate of his land has been in Fusly 1261 improved upon him he having failed to Letter: to own the fixed Assessment-

2 The land which forms the subject of the Petition in question appears in the accounts of the permanent settlement as "Yerra Sirvo" or

or Land irrigated by the aid of Pucottas on the banks of the Rajamoikal; so long therefore as its cultivation was dependent on that source of supply the Pymash rate of Assessment Convertioned to be levied, and nothing more was legally leviable from the Petitioner. When however, as was the case in Fusly 1261, water was taken by him from the River Channel by means of a cut into which that water actually flowed he was Chargeable according to the practice of the District with the difference of terms between the rate on land watered by artificial means and that on fields irrigated from a running stream without such aid- The sum to be levied from him under such Circumstances, formed matter for consideration by the Sub Collector at the Settlement for Fusly 1261, and as the decision of that officer that the additional Rate should be imposed is beyond doubt in Conformity with a rule well known to prevail in the Southern Talooks of the Collectorate, there seemed to me when the point was before me in appeal, to be no cause for interference- and so long as that rule stands I beg to submit that the decision was a Correct one-

3 In so far as respects the question of whether the Petitioner did or did not use the running water without the aid of a Pucotta

it

Fort St. George 18th November 1852

It seems necessary only to mention that the enquiries usual on such occasions appear to have been made by the Sub Collector at the Dummakhundy and to have established the fact of the Petitioner's denial of such use as being an untruth-

No. 198.

To, W. H. Bayley Esqre.
Secretary to the
Board of Revenue,
Fort St. George.

Sir

With reference to the Endorsement on Petitions Nos. 1364, 1759 and 1850 of 1852 hereunto returned I have the honor to report as follows.

2 A sum of money equal to Rupees 4,100 was on the 28th February last packed in the Huzzoor Treasury in 13 bags and deposited in two chests locked up and delivered to the Head Shroff of Bremadasum Talook (Petitioner in No. 1759 of 1852) and certain Sibbendy Sepoys of that Talook to be taken to the said Bremadasum Talook for Murrahnut expenditure. On the night of the same 28th according to usual custom the bosses were taken to the Nellumbalum Talook Cutcherry and placed under the Sibbundy Guard of that Talook Treasury (Petitioners in Nos. 1364 and 1850 of 1852) and the following day carried on to the Bremadasum Talook. The bosses were not opened there till the 2d March when a bag containing 500 Rupees was found to be missing. An enquiry ensued from which the presumption appeared

36

B No. 2654.

From the Collector of Trinneully.

Reporting on Petitions Nos. 1364. 1759 and 1850 of 1852.

Fort St. George 18th November 1852

appeared strong though insufficient proof to admit of criminal proceedings being adopted against any one could not be procured, that the cloth fastened over the key hole of the padlock of the bosse had been removed and replaced without breaking the seal, and the locks opened with a false key and the bag taken out.

3 This could only have been done by or with the connivance of some of the guard either at the Nellumbalum Cutcherry or attached to the Bremadasum Talook who escorted the Treasure and were over it until the bosses were opened by the Talookdars.

4. The Bremadasum Sepoys endeavoured to throw the suspicion on the Shroffs at the Huzzoor Cutcherry but as the Money was packed in the presence of the Bremadasum Sepoys by the Bremadasum Head Shroff this cannot be admitted

Fort St. George 18th November 1852

admitted - The Sirkundy Havildar of the Nellimu-
halum Talook endeavoured to exonerate himself
and the Sepoys under him by asserting that
the Bremadasum Sepoys also were jointly on
Guard with those of the Nellaminhalum &
Talook when the Chests in question were
placed in the Treasury of the latter Talook
but this was disproved and he afterwards
retracted his statement -

5 Under these Circumstances I conceived
it my duty to remove every Sepay who was
on duty at any time over the boxes during
the time when the bag must have been
stolen pending the discovery of the real offender -

6 In Regard to the Head Shroff of the
Bremadasum Talook (Petitioner in
No. 1759 of 1852) who as before said received
Counted and put the Money in question into
the Chests, I have to remark that he not
only omitted to cover the padlocks of the
Chests with a leather bag or cloth, but also

Fort St. George 18th November 1852

did not as usual apply his seal to the Cloth
fastened over the key hole of the padlock of
the boxes; but employed a sweeper of the
Treasury to do it - He further did not, as was
his duty go with the Money to Bremadasum or
report its arrival on the 29th February to the
Talsildar He had not even presented him-
-self at Office on 2nd March when the Talsildar
having had occasion to make some advance
on account of Inaam it caused the treasure
boxes in question in the absence of the Head
Shroff to be opened and the Money examined
by the Deputy Shroff, such gross neglect of
duty on the part of the Head Shroff seemed
to justify the exaction of responsibility
from him while he has also clearly rendered
himself unworthy of being further trusted -

Finally -

From the Collector of Coimbatore.

Sir,

Para 1. I have the honor to ac-
knowledge the receipt of Extract from the Proceedings
of the Board of Revenue dated the 19th January 1852

Affords the explanation called for by the Board with reference to the Boundary dispute between Coimbatore and Cochin.

2. It appears from a subsequent
communication of the Resident at Travancore a
Copy of which is enclosed, that the disputed tract
referred to in para 6 of Minutes of Consultation of
the 9th January last No. 36, lies west of Aniamalli
cherry on the top of the Aniamalli Hills. If it be given
up Government will undoubtedly lose a very
large amount of most valuable Teak. Captain
Arthur's Survey appears certainly against the Govern-
ment, but on the other hand it is equally under-
undoubtedly certain that the dotted line shows that
a doubtful line existed from the first, that all the Raders
(Hill Natives) living in and near the locality give the occupation
incontestably

"Under these Circumstances the Board by the Collector's proceedings with respect to him

Ordered also that the following Endorsement be passed on Petitioner's 2258 of 1852—

38

"Upon due consideration of the Collector's Report on the subject of this address the Board confirm the removal of the Petitioner

38-39

From the Collector of Tinnevelly— Read Indent on the Superintendent of Stationery for Cloth required for the year 1853—

Bd. No. 2272— Proceedings thereon— Resolved that the foregoing Indent be returned to the Collector with a Request that he will submit the same in duplicate in accordance with the instructions contained in the Circular Order of 24th October 1852—

2 Mr. Bird will also be good enough to prepare the Indent agreeably to the form published at page 407 of the Official Gazette 1841—

incontestably to be immaterial from time immemorial
the low Country people accustomed to get off
Timber and wild produce say the same, & the
Kaders acknowledging fealty to this Govern-
ment still live on the claimed tract. Our Fol-
lowers have always gathered produce there
& rented Sutherly and rewards for Elephants &
other wild Animals have been given from the
District for that locality; these facts are all of
positions taken in 1825 and 1826 with them
reference to the present dispute go far to prove that
the tract in question has always formed a part
of the Annamallie Jungle if Government
eventually decide to yield so valuable a tract
it may be worth while to offer to rent it on the
same terms as from the Numbers of both
Godeys perhaps to propose a fair and equal
partition of it between the two states Copies
of Lieutenant Michael's letter are inclosed
He has explored all parts of the Forest
most fully and thoroughly and his
testimony is clear and valuable
Adverting to the disputed land

alluded to in Minutes of Consultation of the
9th January last No 36 no obstacles have arisen
to interfere with the decision of the late Commissioners
but from the enclosed translated Copies of
Papers which were in the possession of the
Poligar of Poravepalliem, and said to have been
written under the orders of a former Rajah
of Pandyhaut, it would appear that the tract
in dispute is undoubtedly within the
Coimbatore Limits.

I am quite of opinion that
the disputed points should be, as proposed
by Government and the Board, decidedly
set at rest. I am also anxious to meet the
Residents views and sentiments so far
as I possibly can and with all the
deference that is due to them, if I offer
objection to any of them, it is because
all the local and personal enquiries
I have been able to make, lead me to
a different conclusion, and because
though I am aware Maps and former
Surveys seem against the Government,
the local testimony of the Hill people
themselves

Fort St. George 18th. November 1852.

themselves, appears to me in Govern-
ment favour, and I cannot therefore
feel it right, easily to yield up such
a large amount of most valuable
Timber. I speak also on some local
knowledge, having been 3 days
in the Forest and near the localities
alluded to, with Major Cotton in
1849.

No. 8.

To

E. B. Thomas Esqre

Collector of Coimbatore.

Sir,

I have the honor to acknowledge the receipt of your letter of 29th June with its enclosures.

The only information I am able to give you regarding the disputed boundary line of Coimbatore and Cochin is that all the Hadar and people who have been in the habit of frequenting these Jungles, agree in affirming the tracts of Land in question to have been from time immemorial considered as part of Coimbatore and the collection of Hill produce there, the exclusive right of the Annamallay Cherry Rowdars.

In the Government Maps that the boundary line agrees with the Sketch made by the Surveyor, and which I fancy was made with reference to the Government Map you will perceive that a dotted line, implying a doubtful the boundary line runs South from near "Ketoor chairy" to "Noycoond" and running along that high

13236 Fort St. George 18th November 1852

high range of Hills reaches the Shobayaur called at that spot the "Crocombum". This line all the Hadars I have ever met agree in calling the boundary of Coimbatore.

The spot marked in the Government Maps as "Annamallay Chary," cannot be taken as any fixed point for the village, for it is well known that all Hadars are in the habit of shifting the sites of their "Chairy's" or "Puddays," very frequently. They may have been located there when the Surveys for the Grand Trigonometrical Survey were made, but since then, "Annamallay Cherry" has probably been in a hundred different spots.

* Hill Villages

In the event of my being called upon to meet the Officers of the Cochin Sircar deputed to settle this Boundary dispute I must request that the meeting may be ordered before the end of November, for from my experience of these Forests I can safely affirm them to be deadly during the dry season.

I have.

13237

Fort St. George 18th November 1852.

The account I got from Mr. Kohlhoff of the manner in which his party, who went up in February or March, suffered from fever only tends to confirm this conviction.

The timber cut near Annamally-cherry alluded to in the Resident's letter, was, if I mistake not, cut by Cochin Servants, but their proceedings put a stop to by order of the Collector of Coimbatore, till such time as the ownership of the Forest should be determined.

I may as well remark that a claim is, I believe, made to this same piece of Land by the Collingode Kunbidy.

I would suggest that if he does make the claim, his documents in support of it should be required from him, as they may throw some light on the subject.

To
E. B. Thomas Esqre
Collector of Coimbatore.

Sir,

I have the honor to acknowledge the receipt of your letter of the 9th Instant with one from the Resident in Cochin and Trav. vancore, upon which I would beg to remark as follows.

The season at which Mr. Kohlhoff and his party visited the Forests would fully account for the way in which they suffered from fever. These Forests may be inhabited by Europeans and low country Natives with comparative safety only from about the middle of June till the middle of November.

The Sketch made by Surveyor Innes strong agrees precisely with the Government Maps and from my intimate knowledge of these jungles, I can assert that the various localities named are properly laid down; but the point to be determined is whether that line of boundary is the correct one, or the one pointed out by the Hadendoohs in fact are the only people who have

Fort St. George 18th November 1852.

have hitherto had any thing to do with these Jungle boundaries) Viz. the dotted line which runs along the Koycoonar range of hills.

Some of the Haders of Coimbatoor had their Villages at the time of Mr Kohlhoff's visit, and still have them some distance to the eastward of the boundary marked in the Map. The Duffadars and Peons were sent there by order of Mr Walhouse and myself as a temporary measure, on hearing that some Cochin Servants had intended for the purpose of felling Timber in a part of the Forest which the Coimbatoor Conservancy Servants had always considered a part of their charge.

With regards to the Cochin Sircars appeal to "actual and undisturbed possession from time immemorial." This is the very appeal on which Coimbatore must principally found its claims to the Forests in question.

Your records will I fancy prove that the Hill renters have for very many years been in the habit of receiving

Hill

Fort St. George 18th November 1852.

Hill produce; catching Elephants under residing with the Haders in that tract of Forest without molestation from the Cochin Sircar. In the absence of documentary evidence these facts strengthened by the supposition that the dotted line which is marked along the line which all seem to agree in calling the true boundary line was introduced by the surveyors of the Grand Trigonometrical Survey because at the time there existed a doubt on the subject, must be the grounds on which the Coimbatore District can assert claims to the land. For my own part I can admit that when crossing from Cochin to Ammimally thro' the Forest in 1848, a Cochin Hader who accompanied me pointed out the "Coracomber River" which is a continuation of this dotted line, as his boundary, and stated that he could go no further unless I assured him protection from the Ammimaly Haders on whose land we were entering. A part of the Ammimally chairy Haders were then located at Pillay-kulli, a private letter from me to Mr Kohlhoff explained the reason why I did not meet him at

* The same as the "Solayar."

13241 Fort St. George 18th November 1852

at Annimally chuiry. I had no authority to discuss any boundary questions, but I should nevertheless have gone to meet him, even at that unhealthy season, had I not been obliged thro' ill health to go into Coimbatore even before the investigation of the incendiarism in the Timber Stacks was completed. It was for this purpose that Mrs Walhouse and I had gone to Annimalay and it was only on my return to Coimbatore that Mr Kohlhoff's letter asking me if I had instructions to meet him reached me.—

No 10

Translation of a communication to Lieutenant Governor Grounden issued by Kistnen, dated 1st Avany of the following year 1005.—

The contents of your letter have been

13242 Fort St. George 18th November 1852.

been understood. In the matter of the boundary question between this country and the Mysore province, Natcul has been understood before as the boundary of the latter, which it now appears to have been ascertained by Vassodevon Mocasy, and that the boundary of Mysore commences east of Coriar to which fact the authorities of the latter province have agreed. This settlement you will be careful to observe and to bring into force and see that it is acted upon, and that they do not encroach on this part of Coriar. You will also report the result to us. As the ground lies within your limits and the place belongs to you, you will understand Coriar as the boundary line.

To,

The Collector of

Coimbatore

Sir,

I am desired to return the sketch* Map forming one of the Enclosures of your letter under date 25th August 1852 that you may mark off on it precisely what is the claim on the part of your District. Lieuth. Michael gives the limits as running along the top of the Nygoonna range until it reaches the Sholeyaur called there the Orocumbaikey but from thence whither proceeding is not stated.

No. 4

To, E. B. Thomas Esqre
Collector of Coimbatore.

Sir,

I have the honor to acknowledge the receipt of your letter dated 25th instant No. 258, and in reply to it I regret to inform you

you that I am unable to furnish you with the accounts of the Ootacamund Horticultural Garden from the commencement, I believe there are no accounts prior to the 20th November 1847 on which date I find at credit.

Balance from last account Rupees 795. 5. 2. From that date up to the end of June 1852 I beg to annex an account of receipt, expenditure and balance remaining at the credit of the Gardens, this I have extracted from the Book of Monthly accounts Current which is a mere Monthly abstract account, and I am not aware of any other existing record of Cash received and expended. The annexed account comprises the Government allowance, Donations, Subscriptions and sums realized by selling the produce of the Gardens, but it does not include on the credit side the Salary allowed by Government to Mr. McIvor nor is this Salary included in the expenditure on the debit side. I would in conclusion remark that although the funds

in hand were low at the end of June last being only 273 Rupees they have since improved, a great deal of the produce was sold last Month and the funds in hand now amount to about 1200 Rupees.

Ootacamund,
28th October, 1852.

Proceedings thereon

Rec: to Govt: 9th August 1852. Item A from Chief Secretary 2d in Cons: 7th October 1852

Fort St. George 18th November 1852

Resolved that the Letter above recorded together with its Enclosures be submitted for the consideration and orders of the Right Honorable the Governor in Council with reference to the papers noted in the Margin.

Read the following Letter:-

No 97

To W. H. Bayley Esqre
Secretary to the
Board of Revenue,
Fort St. George.

44

Sir,

Dt. No 2694

From the Collector of Canara —

Stating that the additional Servants proposed in the Conservancy Establishment are indispensably necessary.

I have the honor to acknowledge an Extract from the Proceedings of the Board of Revenue dated the 11th instant. annexing for my report the observations recorded in Minutes of Consultation under date the 21st September 1852 on my application for an English and Canarese Writer at a Cost of Rupees 40 to be placed under Mr Paulten.

I beg to state that this assistance will be absolutely necessary for the Establishment which is placed at Mr Paulten's disposal as

as Timber Agent to the Bombay Govern-
ment, is employed exclusively on the
Coast in storing, measuring, and
shipping the Timber. For any portion of
Mr Poulten's duties as Assistant to
the Collector in the Forest Department
which can be transacted at the Coast,
assistance may be occasionally obtain-
ed from this Establishment, but Mr
Poulten's new duties will require con-
stant visits to and residence in other
parts of the Province especially above
the Ghats, at which time it is abso-
lutely necessary that he should have a
small Establishment with him. He
will have to examine the forests of
the whole District, to arrange contracts
for working them, to correspond with my
Office and to keep accounts of his surveys,
a diary &c. The conservancy establish-
ment is already quite unequal to the
duties which devolve upon it, and the
applications which I have lately re-
ceived for the supply of wood for the
Engineer's department and for rail-
way purposes and the investigations
I have made have shown me that
it

it will be greatly to the interest of Govern-
ment that the Forest Department of
this District be so arranged as to
allow of the Government forests being
carefully and steadily worked.
For this purpose the assist-
3. ance I have asked is quite essential
and the expense will be fully com-
pensated.

Bd No 2297 Resolved that the fo-
Proceedings thereon. regoing letter be submitted for the
(44-45) information of the Right Honorable
the Governor in Council, with refer-
ence to Extract Minutes of Consult-
Entered 11th ation dated 21st September 1852.
Novr 1852

Read the following letter.

No 119.

(46) To W. H. Bayley Esqre
Secretary to the
Board of Revenue.

Bd No 2439 Sir,
From the Collector } I have the honor to acknow-
of Madras. } ledge the receipt of your letter dated
Reporting on the sufficiency of the Estimates made 27th September 1852 on the comparison between
the

made by the Salt-Curnums at the Pans and their outturn on actual measurement.

the Estimates of the Curnums at the Salt Pans and their outturn by actual measurement.

2. In reply I have the honor to state for the information of the Board that although a careful comparison between the Estimate sent from Valloor and Voyaloor and the actual measurement of the Salt at the Cotaur is always made by this Office, yet it has never been the practice till very lately and that only in special cases of Extraordinary variances, to point out to the Chingleput authorities the differences that result from this comparison, as the Collector of that District is invariably furnished with a Memorandum, of the actual measurement to enable him to judge of the amount of Cordinarum due to each Manufacturer.

3. In reference to Para 2 of your communication under acknowledgement, I beg to acquaint you that the Estimate of the Curnums at the Pans are made with reference to the scraping in each Pan in a given time each

4 Each Alum or Pan consists of 24 divisions divided alternately into water and salt Beds - There are thus 12 Salt water Beds which are supposed to yield at each scraping 100 Mercalls and as there are generally four scrapings in a Month, the yield of each Pan may be estimated at 1 Garce the month. so that for the six Months of Salt Manufacture each Pan is supposed to yield 6 Garces. —

5. This Estimate must of course depend upon the nature of the Pan the yield of which varies in proportion to the nature of the soil and the care bestowed on its formation. —

6 The data given above however have served the purpose of forming a nearly correct Estimate, in the first instance, and this Estimate receives a further correction when the Salt is put on board the Boats. —

7. The Boats used for the transport of Salt are all of them of known Capacity

13253 Fort St. George 18th November 1852

capasity each Boat has three divisions and each divesion is supposed by long practice to hold a given quantity.—

8. From all these data but above all from experience and a practised eye the Curnums at the Pans are able to estimate very nearly the actual quantity despatched by any particular boat. If there should be any large variance between the Estimate and the actual measurement, and there be no extraordinary cause for wastage during the transport, the difference must be owing either to great carelessness in forming the Estimate or to intentional fraud.—

9. Hence it appears to me that the only material check that can be introduced is to hold the Curnums responsible for the correctness of the Estimate, and to visit them with punishment in case of extraordinary variance for which no adequate explanation can be afforded.—

Madras
