Para 1. In the first of the above letters the Board of Revenue submit a Copy of the Circular which they propose to issue to the several Collectors on the subject of the recent orders of the Honorable the Court of Directors, which grant to the Ryot the full benefit of the improvement made by him at his own expense and they at the same time suggested for consideration certain points connected with the application of the general principle as approved by the Court. In the second letter they forward with their own comments a Communication from the

the Collector of Coimbatore offering remarks upon the measure as it respects his District.

2. The first point discussed by the Board respects the pledge, if any, to be given to the Ryots as to the principle accordingly to which the lands improved by them at their own expence, are to be treated in any future general revision of the assessment. With regard to the guarantee mentioned by Government in Extract Minutes of Consultation 29th July 1852 Viz. that such revision as respects land improved by their holders "will have regard only to the intrinsic quality and profession of the land as compared with other land of similar natural soil and situation, and the demand will not be enhanced in reference to any improvements which may have been effected by the Ryot at his own cost" they express doubts whether "this assurance does not convey a pledge which will have the effect of limiting for ever the assessment on well lands often to the lowest Poonjah rate and thus embarrass the Government when it may undertake a general revision of the assessment at some future

future period." They represent that "it may hereafter be deemed expedient to impose a somewhat higher "rate than at present, this still moderate rate on the "more profitable new well lands such for instance as "that adopted in the Palnaud Viz. the highest Poonjah "rate of the Taluk or Village." In a similar spirit they

Para 4. suggest in their second letter that the orders of the Honorable Court "would be liberally carried out "in Coimbatore with little sacrifice of "immediate revenue by reducing the highest "garden rate, or rates now existing, and by "adopting a rule which would fix the "new garden lands" i.e. those to be newly converted into garden by wells dug by the Ryot at his own expense) "at the highest "Poonjah rate of Rupees 3-4- or not below "the lowest garden rate of Rupees 2-3-10."

3. The Right Honorable the Governor in Council observes that the Honorable the Court of Directors had fully before them the question of limitation upon the extent of concessions to be made to the Ryot for improvements effected

Fort St. George 25th November 1852

effected by his own Capital and labor, and that they have now finally determined by their present orders to give him the most ample inducement to improve by directing this Government to allow to the Ryots throughout the Presidency the full benefit of their own improvements, the lands so improved being subject to no additional assessment on that account so long as the general rates of the District remain unaltered. It appears to the Government to be indispensable that the Ryots should be explicitly informed of the conditions under which they are now invited to expend their labor and Capital, and that there should be no ambiguity on the part of the state nor opening for misunderstanding on the part of their subjects. The suggestion of the Board that the Government might reserve to themselves the liberty of subjecting hereafter the more profitable wild lands

Fort St. George 25th November 1852.

lands to a somewhat higher though still moderate rate of assessment, imposed not in reference to the intrinsic properties of the soil, as part of a general revision of assessments, affecting in an equal degree all lands of similar natural quality and position, but apparently in Consideration of the added value imparted to the land by the Ryot at his own charge, as for example to raise the Teerwah on such lands to the highest Poonjah rate of the Talook or Village, would it seems to Government to go far to defeat the object which the Court have had in view, and as the Board have elsewhere remarked "impede the full operation of the principle of "non-taxation on improvements effected "by means of private outlay." - The Ryots would not fail to regard such a reservation either expressed or implied with distrust as tantamount to a declaration that a somewhat higher rate, the amount of which they

could

Fort St. George 25th November 1852

could not foresee nor calculate upon would sooner or later be exacted from them, and the result would be to check enterprise and paralyze improvements.

4 With regard to Coimbatore the Government also cannot doubt that the mere extension of the term of cowle from 5 to 15 or 20 years as proposed by the Collector or the plan suggested by the Board of fixing the new well lands, whether immediately or after the expiration of the present highest Ponjah or lowest garden rate, would in fact have the effect of the late wise and liberal concession on the part of the Honorable Court and defeat the grand object for which it was recommended to them by this Government, viz. that "of elevating the Ryots to the condition of Land-owners and thereby laying the only sure foundation for the general progress and improvement of the Country." It would also be objectionable and at variance with the Courts orders to have one system in one District and a different one

To Court 1st December 1852

Fort St. George 25th November 1852

one in another. These orders should be carried into in Coimbatore as elsewhere under any due precautions as to the gradual introduction of the system now enjoined, which may be found clearly necessary.

5 Under these considerations the Government are of opinion that the commands of the Court giving the Ryots the full benefit of their own improvements should be carried into complete operation in every District under the Madras Presidency and that in all, the Ryots should receive the most distinct assurance that the tax on lands cultivated by means of wells henceforth to be constructed by them at their own cost will never be enhanced unless on a general revision of the District rates, and that in such revision any modification in the assessment of lands so improved will be irrespective of the increased value conferred upon them by their holders.

Para 2. in the Boards draft circular meets this view and will therefore be adopted.

6. The Government would however explain that it is not intended to interfere with the existing usage in the Ceded Districts under

under which the permission is withheld from private well lands. The orders of the Honorable Court do not seem to contemplate any change on this head- nor does any alteration in this respect appear called for by the circumstances of the Districts-

7. With respect to the second point mooted by the Board on "the restrictions which it may be deemed expedient to impose on the general application of the privilege now about to be conferred," the Government agree with the Board that these should be only such as are absolutely necessary to guard against the indulgence being abused. The Governor in Council regards the boon now bestowed to be of the first importance to the well being of the Country and thinks that the fewer the conditions it is clogged with the better. He believes that such restrictions are for the most part easily

easily evaded by wealthy and influential Ryots, and serve only as means of annoyance and speculation on the part of the native servants towards the more needy cultivators. He believes too that the general body of the Ryots will value and act up to the benefit granted to them in proportion to the simplicity of the rules by which its operation is to be controlled and their consequent power of fully understanding them.-

Acting on this spirit the Board have wisely confined their restrictions to the single rule contained in para 3 of their proposed Circular which is given in the margin. The Government would modify this rule as follows.-

"That if cases should arise when it is manifest that a well dug at a Ryots expense has drawn away water from a previously existing Government work in such instances such well land shall not be wholly

8

"A Well constructed at a Ryots expence will be free from additional assessment if it in any way interfers with or derives water from any existing work kept up at the expence of Government. Where Wells are to be sunk notice should be given to the Collector in order that a correct retirns of these works may be kept on the Public Records."

wholly exempted from assessment but a fair and
equitable extra cess may be imposed.

9. It does not seem to the Government
desirable to require that notice should be given to
the Collector when Wells are to be sunk. It would
merely tend to cause delay and obstruction and
give an opening for exaction to the native servants
as no extra cess will have to be drawn from
the land the need of such report is not apparent.
It will suffice that such wells as may be
sunk in the course of the year
by the Cummum in his village accounts and
reported annually to the Head Zoor for registry
there.

Para 4 10 The Government concur with
the Board that it is unnecessary specially to
repeat in their Circular the rule requiring that
no grant of a Ryots ordinary holding shall be
given up. The rules which regulate the
relinquishment of land by the Ryots belong
more properly to the general Head Cummum rule.

of the District as being part of its revenue system
and are not solely connected with the question
of new well lands.

The Governor in Council also
11th October. Para 5. 11. agrees with the Board in their views regarding the
issue of Taccavi. He believes that it will be found
that when advances of this nature are easily obtained
they have a tendency to make the Ryots
legitimate means in hopes of large profits;
such disbursements should be confined to
special cases when the Collector is personally
assured that they will be of real
advantage.

The mode in which the Board
12. propose to proceed in revising the assessment
of old well lands and the instructions to be
issued by them on that head are approved.

B. No. 2356.

Fort St. George 25th November 1852.

Proceedings thereon-

Forwarding Extract from Minutes of Consultation 29th July and 2d November 1852 stating that the Ryots are to have the full benefit of their own improvements of their lands except when the Wells sunk by them draw away water from previously existing Government works and calling for certain information regarding garden lands and lands abandoned by the Ryots in Salem in consequence of over assessment.

Resolved that copies of the foregoing papers be furnished to all Collectors for their information and guidance and that the following amended Circular be issued-

1. Under the orders of the Honorable Court the Ryots are to have the full benefit of their own improvements, the lands thus improved being subjected to no additional assessment on that account, so long as the general rates of the District remain unaltered, and it is the desire of Government that every rule that may be found opposed to the letter and spirit of those orders may be struck out of the Hookumnamahs-

2. The Ryots should receive the most distinct assurance that the tax on lands cultivated by means of wells henceforth to be constructed by them at their own cost will never be enhanced unless on a general revision of the District rates, and that on such revision any modification in the assessment of lands so improved will be irrespective of the increased value conferred upon them by their holders. It is also to be explained to the Ryots that when the general

rates

rates of a District may be altered, the demand will be regulated with reference to the intrinsic quality and position of the land as compared with other land of similar natural soil and situation, and not with reference to any improvement which may have been effected by the Ryot at his own cost.

3. Whatever may be the limitations at present enforced as to what wells shall be free, the only restriction in future will be the following:-

II. That if cases should arise, where it is manifest that a well dug at a Ryots escpence has drawn away water from a previously existing Government work, in such instance such well land shall not be wholly escempted from assessment but a fair and equitable extra cess may be imposed.

III. When Wells are to be sunk, notice need not be given to the Collector as it will suffice if the Curnum enters the same in his accounts and submits annually a correct return of these works to the Hoozoor for registry there.

4. Adverting to the concessions now made

made, it is the desire of the Honorable Court that the state of the old Garden lands, where the additional cess is heavy, should be enquired into and brought under the consideration of Government. They point however particularly to Gardens deserted on account of the failure of the supply of water, or from the inability of the Ryots to make good the original Teerwa even after abatements which may have been sanctioned. In all cases of this description, it is the desire of the Honorable Court that the demand shall be re-adjusted without delay, by bringing the assessment to a fair equality with the lands subsequently brought under well Cultivation and at the date of the survey recorded as Poonjah. It is not intended to interfere with the existing usage in the Ceded Districts under which the 1/4 remission is withheld from private well land.-

5. The specific information required from the Collectors by the Board to enable them to report upon the state of the old garden lands is as follows:-

II. The present extent and teerwa of land under Well Cultivation distinguishing between

between land originally classed as
Bagayet and that originally classed as
Poonjah, but now paying Teerua jastee
and the amount of that Teerua jastee-

III. The extent and teerua of land under
well cultivation (distinguishing between
Bagayet and Poonjah as before) which
is indubitably too highly assessed, and

IIII. the assessment which the Collector thinks it is desirable to fix-
The extent of land under wells
abandoned on account of too high assess-
=ment, shewing the rates imposed and
those proposed for the future, and the
total difference it would make in the
Teerwah of the whole land thus
abandoned.-

6- Adverting to certain irrigable
land in the District of Salem abandoned in
consequence of over-assessment, the Honorable
Court are pleased to direct that in all marked
cases of excessive assessment steps shall be
taken to afford immediate relief, and the
Board request that any such cases may be
referred to them with such explanations as

may

may enable them to come to a decision- It
will be observed that the Honorable Court refer
to special cases of over-taxation and not to
any general revision of the assessment of a
District.-

Read the following Extract from the Proceedings of the Board of Revenue-

Para 1- The season of Fusly 1260 in
Bellary was on the whole favorable- but better

for

Fort St. George 25th November 1852.

for the late than the early cultivation, for the wet than the dry lands, and of the latter for the black than the red and mixed soils. The rice crops were good as was the Cotton Crop and a greater breadth of land was under Cotton Cultivation than in the year preceding. The storm of the 5th and 6th May did much injury to houses, works of irrigation and Cattle, and was unhappily attended with considerable loss of human life.

2. The large outturn of the rice harvest had the effect of lowering the price of that species of grain below that of the preceding or of any of the previous five years. The prices of dry grain were above those of Fusly 1259, but below the average of the five years 1255 to 1259. Cotton commanded a good price considerably in excess of that of any of the preceding five years.

3. The Settlement was formed as follows:-

	Fusly 1260.	Increase or Decrease compared with Fusly 1259.
Dittum	30,99,625	— 57,10
Deduct Caboolate Burjer or land left unsown from unavoidable causes	2,87,090	— 35,443
Remain gross Settlement	28,12,534	— 16,267
Deductions on Cultivated land	7,50,919	— 7,902
Remain	20,61,615	— 8,365
Add Sale on Enam Cultivation Quit Rent &c.	1,83,258	— 708
	22,44,873	— 9,073
Deduct ready Money allowances	1,711	+ 99
	22,43,162	9172

Fort St. George 25th November 1852

the total shows a falling off as compared with the outturn of Fusly 1259 of Rupees 9,172. but Fusly 1259 was a good year.

4. Of the gross Settlement Rupees 28,12,534 - that of the dry lands was Rupees 14,69,247, that of the wet Rupees 13,43,288. In the former an improvement above the preceding year in the black land Rupees 6,106, was more than counterbalanced by a decrease of Rupees 14,325 in the mixed and red soils. In the irrigated lands the Cultivation was below that of Fusly 1259.

Report Para 8. by Rupees 7,342. the falling off being chiefly Rupees 7,992, in Cultivation under wells which were submerged in consequence of the heavy rains.

5. The Caboolate Dittum or aggregate amount of Assessment on the lands engaged for by the Ryots at the opening of the season is less than that of the year antecedent in the sum of Rupees 57,710. This decrease is attributed by the Collector (Para 8) "to the "Tasildars themselves striking out of the "Caboolate, lands which having been waste "several years there seemed no probability of "their being sown. but which had hitherto as

"usual

"usual been retained in the Puttah and
"deducted at the Summahbundy as Caboolatee
"Bunjor" as a general rule he explains "my
"orders are, that land which has been left
"unsown for 3 years should not be retained
"in the Puttah but be deducted at the Caboo-
"latee by the Tahsildar himself after due
"enquiry, for it is not land that could fairly
"be called part of the Ryots Caboolatee or land
"he wished to retain". The Board, Para 7,
remark that before the above authority
was given to the Tahsildar the matter should
have been reported to them and their sanction
obtained and they proceed to state Para 8. that
"in allowing the deductions alluded to, it should
"have been stated whether the instructions
"contained in Rule 2 of the Hookumnamah which
"requires that the portion given up should in
"every respect be such as another Ryot may
"occupy with advantage were strictly attended to,
"otherwise favorably assessed land will be
"retained and appanum or land bearing a high
"assessment, for the regular Cultivation of which
"such favorably assessed lands were given, will be
relinquished."

relinquished." The Government in their review of the Board's Proceedings on the Cuddapah Settlement have already remarked on the impolicy of including in the Ryots agreements lands that he has no reasonable prospect of cultivating. They will therefore here only refer the Board to the instructions recorded on that occasion which are of general application and are to be enforced not only in Cuddapah but in Bellary and all other Districts, by means of a Circular order which should be at once issued by the Board.

6. The deductions on the cultivated land Rupees 7,50,919 include Rupees 10,091 remitted in favor of the sufferers by the storm of May. The other items are of an ordinary character.

7. Of the deductions on cultivated land Rupees 7,50,919 the bulk or Rupees 6,43,057 is the general remission of 33 and 25 per Cent granted in 1820 and which has been made year by year as a matter of course since. Looking to the length of time which has passed since this remission was authorized and the circumstances under which it was granted the Right Honorable the Governor in Council would wish

wish to be informed whether any object is co gained by retaining in the accounts the olde rates which are merely nominal and whether the time has not arrived when the actual and bona-fide assessment may be recognized as the standard rate and the Dittum &c. Settlement be formed accordingly - The rate of reduction on the wet and dry lands and on the Garden lands respectively effected in 1820, having been uniform in the old rates on any given tract of land might, it is presumed, be at any time calculated, if necessary from the revised or actual rates by adding to the latter one half or one third according to the description of land at present what between Caboolate Bunjer &c. and general remissions the Dittum in the Ceded Districts gives no idea of the true outturn of the year - Thus in the Fusly under report the Dittum[A] was one half more than the net Settlement[B] -

8- In his letter of the 20th January 1852 sent up by the Board with their Proceedings the Collector expresses himself in strong terms on the subject "of imposing continually upon the Ryot waste which after all he cannot possibly pay for and of which much is therefore permitted at

the Summahbundy" but states that a revision of assessment and a reduction of the higher rated lands are necessary preliminaries to unrestricted freedom of cultivation as otherwise, if such freedom be allowed, the heavy assessed land will be abandoned and cause an irrecoverable loss to Government. The Right Honorable the Governor in Council thinks the representations contained in this letter worthy of serious attention, and would wish to know whether the Board agree with the Collector that under the present system such evils must exist as annually saddling the Ryots with unprofitable waste and constant proportionate remissions at the Summahbundy.

Of the entire Settlement

9- Rupees 2185710 were collected within the year and Rupees 50446 since. The balance on the 30th June last was Rupees 7006. There are no arrears of ordinary revenue outstanding for previous Fusslies -

The Right Honorable the

II. From the Abstract Statement which closes the Board's Proceedings it seems that the "ordinary charges" for Fusly 1260, amounted to Rupees 260028 which upon the Gross Collections from all branches of Rupees 2950134 gives a percentage of Rupees 8 13/16. But these gross Collections include recoveries of advances &c. Rupees 66726 which cannot be called revenue and some items which appear among the "miscellaneous charges" are in fact usual charges for collecting and managing the revenue. again the Collector's salary is entered at Rupees 70,881 or Rupees 48,616 more than in Fusly 1259. The cause of this increase is not explained but it probably arises from the disbursement made on this score for preceding year being debited in the accounts to the Fusly under report. the actual salary of the Collector for the year being only Rupees 28000. These adjustments must be made before the charges properly debitable to the year can be determined. The expenditure for the repairs of tanks and water

courses was Rupees 87,534 giving a procentage of 3 7/16 on the gross Collections of Land revenue Rupees 2298859. This however is the revenue drawn from the entire Cultivation of the District wet and dry. whereas the maramut properly forms a charge on the revenue of the irrigated land only. The Pagoda and Mosque allowances and charitable allowances 54931 Rupees are 1/8 on the gross revenue. The total charges of every kind Rupees 484243 including advances for Cultivation Rupees 65987 which can hardly be regarded as a charge, bear to the gross Collections Rupees 2950134, including recoveries Rupees 66726, the proportion of 16 7/16 per Cent. The whole charges exceed those of Fusly 1259 in the sum of Rupees 86496 partly from the large amount charged to Collectors' Salary as already noticed, and partly from the increased expenditure of Maramut rendered necessary by the storm.

=	The wastage at the Carafsah and de Navoh: pettah Cotaurs may be accounted for partly by the crystals being small and by the length of time during which the rains of the South West and North East Monsoons occasion great damps in those parts of the District near the sea more particularly, but this will not account for the whole wastage, part was no doubt occasioned by endeavours to modify the enforcement of the Salt Rules never before fully carried out, as not abruptly to depart from former practice- arrangements are now made which there is every reason to hope will ensure less wastage than heretofore and strict attention to the provisions of the Salt Rules. The same remarks will apply to the other Cotaurs excepting that the crystals are large at them and consequently that there ought so far to have been less instead of greater wastage, but at Conada the platform was out of order.-

Statement

on the ground that the charges preferred by the Tahsildar were not subjected to any fair investigation. The Tahsildar may have had only the interests of the charity in view; but it must be remembered that in former times the native Revenue Officers had frequently a personal interest in interfering with the management of funds appropriated to religious and charitable purposes. To justify the dismissal of Tolasee Doss there should have been some proof of his dishonesty or at least that there was a material difference between his and his Predecessor's system of management. In the absence of such proof I am of opinion that his title, as the rightful successor in 1827 should still be respected.

7. As the Government directed that the Community interested in the institution should be directed to choose some party for the management of the Charity to supply the place of the person who was said to have "absconded" enquiries have been made at Tripetty

Fort St. George 25th November 1852.

Tripetty and other places to which the Byragees resort in this District to ascertain their views. In consequence of this enquiry Seeva Doss Brahmin the Chief Byragee at Tripetty & who has the management of the Tripetty Pagoda, has preferred a claim to have the institution placed under his care. He has produced certain grants relating to the Village and has raised some objections to the qualifications of Tolasee Doss.

8. This claim can only be admitted, provided the usual Course of Succession is set aside by the rejection of Tolasee Doss. If Seeva Dass were substituted for Tolasee Doss, I do not think that this arrangement would afford better security against mismanagement, than the other.

9. The Account submitted with this letter shews that the net balance.

charity in August 1827 on the death of the previous incumbent. He was removed in 1837, on the ground that he had absented himself from his duty. He was re-employed in 1842. and in 1843 was again removed, for alleged neglect. He is now a Candidate for the Office and from 1843 has been trying to obtain a reconsideration of his claims.

3. Mr. Bourdillon in his letter of the 17th December 1850, referred the Board to Certain Correspondence which passed between the Board and the Principal Collector on the subject of the removal in 1837. The Principal Collector in his letter to the Board dated 27th October 1838, explained, that Solasee Doss had been dismissed, because he had wasted the funds and had absented himself from his duty; but in the same letter the Collector proposed to re-instate him provided he would engage to furnish accounts of expenditure in future.

should be required both "to furnish accounts for the past" and "to give Security to insure the due appropriation of the profits of the Village in future".

5. Solasee Dass was appointed in 1827 on the ground of his previous nomination to the Office by his Predecessor. From that Year till 1837 his Conduct was not the Subject of Complaint. In 1837, and again in 1843 the Thasildar of Sholinghur reported that he neglected his duty; but these reports do not appear to have been supported by Complaints from any of the Class who are chiefly interested in the right administration of the charity. The records shew that he was removed on both occasions on the Tahsildar's report alone; and in respect to one of the Causes of Complaint Viz. his refusing to render accounts it was admitted in the Principal Collector's report* to the Board, that it had not been the practice up to 1837 to require accounts.

B. No. 2340

From the Collector of North Arcot dated 1st June 1852.

Submitting an account of the Receipts and disbursements of the Dehat Enam Village of Samadamodrum and recommending a Byragee Jolasee Dofs to the charge of the Village and of the Mutt for the support of which it was granted, and the appropriation of the surplus funds to the repair of the road from Sholingur to Arcot.—

Read a Report from the Secretary to the Board of Revenue dated 23d June 1852 and two Extracts from the Proceedings of the Board of Revenue dated 8th December 1851 and 10th March 1851.

Ordered, That the Village of Samadamodrum be granted in Inam to Jolasee Dofs, a Byragee, on the usual conditions.

Ordered, That the Collector be directed to nominate a Committee to take charge of the surplus funds of the Village and to cause the Road from Sholingur to Arcot to be repaired.

Ordered, That the Collector be directed to report the Names of the Committee nominated by him.

13575 — Fort St. George 25th November 1852.

Board to the discretion of the Collector to reinstate Tolasee Dofs on his giving Security.

3 That Officer points out that Tolasee Dofs was suspended on reports of misconduct made by the Tahsildar but as the charges were not duly investigated or supported by complaints from the classes chiefly interested in the administration of the charity, Mr. Brett considers that in the absence of proof of the dishonesty of Tolasee Dofs, his title, as Successor, to the management in 1827 should still be respected.

4 We also adverts to the claim of Seena Dofs the chief Byragee at Tripatty and Mahunt of the Tripatty Pagoda but does not think that his claim if recognized would afford better security against mismanagement.

5 Under these circumstances and adverting to the length of time that Tolasee Dofs has been suspended from management the Board would not now object to his being reinstated.

6 From the Statement enclosed in the

the Acting Collector's letter the nett proceeds of the Dehat Enam of Somasamoodrum during the period of its management under the Officers of Government from Fusly 1243 to Fusly 1261 inclusive amounted to Rupees 11567-10-2 and deducting therefrom Rupees 4717-8-0 being the expenses of the Byragee Mutt and for its repairs, during the same period there remains a surplus of Rupees 6845-3-3, which having already been carried to account, the Collector proposes may now be devoted to the repairs of the Road from Sholingur to Arcot a distance of 15 Miles, and an important line of communication and which now needs repair.

7 The wants of the Institution having been fairly provided for during the period of its management under Government Officers, the Board, in modification of their previous proposal recommend that the Surplus be appropriated in the repair of the Road adverted to, upon an Estimate being furnished thro' the Department Public Works.

With reference to the Proceedings of the Board of Revenue dated the 30th September last, requiring information respecting the late Collah Singunnah Chetty's Choultry in this District, I have the honor to report that the Choultry in question is situated in Vadamalpett in the Narrainvarum Division, on the high road leading to Cuddapah, and Bellary that it was built in 1811, about two years previous to the Endowment made by Singana Setty that it is now managed by Pocoory Veerappa Chetty a resident of the Pettah, under the orders of V. V. Vonniah Chetty the surviving heir of Singunnah Chetty and a resident of Madras, that the building is at present in want of some trifling repairs and that it is a useful and convenient place of resort affording accommodation for all classes of travellers.

4. In the Copy of instructions furnished by the late Ragava Chetty no provision was made for the ceremonies at Tripatty; but to suit his convenience Ragava Chetty appears to

to have subsequently arranged that the sum to be retained from the monthly allowances for supplying food in the Month of Paratasy for Brahmins, as provided in the paper of instructions above alluded to, as should be expended on those rites; and that at the time it was required, he should remit an equivalent sum to meet the ~~expenses~~ as required outlay in Paratasy. The full amount allowed for this purpose appears to have been regularly paid up to the present time. It would seem that Extra provision is made for the Brahmins in the Month of Paratasy, because the annual festival held at Triputty during that month attracts an unusual number of Travellers of that caste.

List.

Fort St. George 25th November 1852.

September calling on me to report whether Salt imported from Bombay or Ceylon at a reduced duty" will be attended with any risk to the Salt revenue of this District," or whether any other objections exist against the reduction of duty from 3 Rupees to 12 annas per maund on Salt imported.

The present duty upon Foreign Salt is a prohibitive one, and the point to be considered is the price at which the imported Salt can be Sold at the Port of import, as when landed it stands as to sale and transmission into the interior upon precisely the same footing as Salt purchased from our pans, the Sea-ports being as conveniently situated for inland transit as most of the Salt pans.

Salt can be produced naturally and by manufacture in Ceylon to almost any amount the home monopoly price is 2 s 8 d per bushel and that for export 3 pence, which will give very nearly 2 a 4 p per Indian maund or 16 Rs 3 a per Garce.

Taking the prime cost at Rupees 16 3 per

Fort St. George 25th November 1852.

per Garce in Ceylon it would cost on landing Rupees 130 1 10 tho' it is probable that freight would be lowered if a profitable market arose from the trade, as numbers of Vessels which export Grain from Negapatam now return in ballast, and half freight would be preferable to non at all, so that under such circumstances Salt could be imported at a cost to the importer very nearly equal to that at the pans, and might be disposed of for consumption at the Port, for a trifle less than the retail price in the bazaar, but the profit would be so small, that I doubt whether the trade would in any way affect the district sales. tho' the Ceylon Salt is said to be superior to that of our coast and might possibly bear adulteration sufficient to make it complete with ours, but on the whole it seems to me that we need not apprehend any great danger to the Salt revenue of the district from the proposed reduction of duty on the imported article, as the Ceylon Government can hardly sell their Salt at a lower rate than 3 pence the Bushel at which rate it is manufactured.

13599 Fort St. George 25th November 1852

There is no trade between Bombay and Tanjore and I apprehend that the length of voyage and consequent wastage will exclude Bombay Salt from the Sea-ports on this Coast.

If Import be allowed at the lower duty, there will I think be a greater temptation to smuggling than under the old rate, when no one ever thought of bringing Salt at all, but the article is bulky and could only be landed in small quantities, and at great risk of detection, as it could not be taken inland without risk of seizure being uncovered by a row-naik; and should a trade in imported Salt spring up it will be necessary that measures be taken for its protection during transit inland, similar to those observed with our own sales.

Sir,

From the Collector of Trichinopoly. — Offers his opinion regarding the appointment of Deputy Collectors & Deputy Magistrates alluded to in the Board's Proceedings of the 28th Ultimo.

Para 1. I have had the honor to receive Extract from the Proceedings of the Board of Revenue dated 28th Ultimo calling for opinion as to the necessity or otherwise of having the Regulations and Acts in force in Bengal regarding the appointment of Uncovenanted Deputy Magistrates and Uncovenanted Deputy Collectors made applicable to this Presidency—

2. I am of opinion that the — fiscal exigencies of the Madras territory do not require the nomination of the Officials contemplated in the Memorial lately presented to Government by their Servants of the Uncovenanted branch of the Service—

3. The revenue system of Bengal differs materially from that of our Provinces. The Abkarree Revenue Farms are all leased out

out on rent to private individuals in this Presidency and consequently require no direct management or supervision of the Officers of Government, as I believe is the case in Bengal—

Again the Salt Department here is also based on a different footing. We have no great Depot or Chokees for Salt as in the Bengal Presidency. In our Provinces, each Pan of Manufacture has its Store, superintended by a Native Officer who is under the Supervision and control of the Tahsildar of the taluk and of the Collector of the District, or his Head Assistant or other European Subordinate—

The Revenue Officials of this Presidency under our Ryotwar System, appear to me to be already sufficiently numerous for the Public Exigencies, and I do not think require augmentation—

5— On the other hand I would advocate the appointment of Uncovenanted Deputy Magistrates. Much benefit, I think, would accrue to the people at large throughout the Provinces, were the Magistrates hands strengthened by the nomination of Uncovenanted Deputies. An Officer, who could

could be employed as the head of a Detective Force, and be available to guide and assist the Native Police in any part of the District where crime might be most prevalent. Such an Officer would be always ready for detaching on a moment's notice to the scene or place of a Murder or Robbery and could take up an investigation without loss of time, punish at once, or direct a Committal to the Courts or instruct the Native Police how to act on emergencies in the detection of offenders—

6. By such an Officer being constantly available for active duty in any direction, I think much might be done through his means for putting an effectual stop to open Gang and Torch light Robbery, which at present is a great reflection upon our Rule—

7. The Deputy Magistrate should be vested with the powers of our present Joint Magistrates, and like them be subject to the control and Supervision of the Magistrate as regards all Appeals, and all proceedings and sentences. And his having these powers and being

being constantly on the move throughout the Dis=
trict will add much to the vigilance and alert=
=ness both of the Talook and Village Police.

Forwarding a Statement of temporary Establish=ment required for ascertain=ing the Extent of the Collian=covil jungle and Sheva=gungah and defining the limits of the Villages adjoining thereto.

therefore has not been brought with the Zemindar's accounts. Many of the adjoining Villages are Enam which do not come under the direct Supervision of the Zemindary Officers, and as they are numerous and situated in different Talooks the investigation will be of a nature and magnitude beyond the strength of the regular Establishment. It is desirable that enquiry should be made systematically and quickly as the doubts and difficulties occasioned by the present state of things are of constant recurrence.

In November 1848 Plaintiff applied to the Zemindar for 500 Cawnies of Raghy being sold to him for ready Cash. Accordingly the Zemindar issued an order to

Fort St. George 25th November 1852.

to the Pradhany the 2d Defendant on the 29th Idem, directing him to receive the price in advance from the Plaintiff and credit in the Accounts of the Seemay Cutcherry Rupees 80 from the sum of Rupees 656-4-0 the value of 500 Cullums of Raghy at Rupees 1-5-0 per Cullum and to order the remainder to be collected in the Talook, measuring out the grain to the Plaintiff and the 2d Defendant communicated the said order to the Amarawaty Talook and desired it to be attended to, on the 30th Idem. The Ameen of the said Talook after having received from the Plaintiff Rupees 149-11-0 on the 11th January and Rupees 426-9-0 on the 2d February 1849 sent an order to the Marayagar of Aulapuri Maghanum to measure out to the Plaintiff his due quantity of Raghy of that Maghanum. Under this order the Marayagar measured out to the Plaintiff 173 Cullums of that Article for which the latter passed a Receipt, and when the remainder was about to be measured out to him, the Zemindary was taken under the Court of Wards, and the 2d Defendant who was made manager, sent an order to the Ameen of the said Talook on the 11th April of the above year forbidding him to pay even a single measure of grain to any one. Owing to this the remaining quantity

quantity of 325 Cullums of Raghy due to him stood then unpaid to him.

2. The Plaintiff informed the 1st Defendant of the circumstance in August of the said year who promised to give an answer after he has received one from the Ameen to whom he would make a reference about it. But tho' he received the Answer from the Ameen in August and often waited upon and reminded him of the subject yet the 1st Defendant did never give me any answer.

3. On the 27th May of the Current year the Plaintiff submitted an address to the 1st Defendant requesting him for an order to pay to him with interest thereof, the amount of balance after deducting the value of the portion measured out to him of the quantity of Raghy paid for by him from the Amount so paid but the 1st Defendant instead of giving order accordingly ordered the remaining quantity of Raghy to be measured out to him the Plaintiff.

4. The remaining quantity so ordered to be measured out to him being the produce gathered 5 years ago and stacked on the thrashing floor, exposed to the weather has

has been so much decayed that it can fetch but a trifling price. Had it been delivered to the Plaintiff before he could have improved the profit from its sale by laying it out in various speculations and made a considerable gain, but owing to the obstacles thrown by the Defendants the Plaintiff far from getting any profit is likely to incur loss but still contented with receiving the balance after deducting the Amount of price of grain already measured out to him from the amount advanced by him together with interest thereof from the date on which the advance was made, he has brought this suit for that purpose. As Guardians are empowered by the Regulation and the orders of the Court of Wards to institute and answer Suits for and against their Wards, respectively, the 3d Defendant is included in the Defendants.

Translate of an Answer in O. S. No 155 of 1852 on the file of the Sub Court at Madura.

In Para 1st of the Plaint it is stated that in the life of time of the late Zemindar the Plaintiff paid both in the Seemay and the Taluk Cutcherries the value of 500 Cullums of Raghy at 5 — per Cullum at 3 different times; that he / Plaintiff / received 175 Cullums, but that issue of the remaining 325 Cullums due to him was prohibited by the 2d Defendant on the 1st April 1849. On the above date the — Zemindary

Zemindary was taken under the charge of the Court of Wards consequent on the death of the Zemindar and to prevent fraudulent payments being made on pretext of orders from the Zemindar an injunction was issued — against all disbursements and issues of grain without further directions. It will be evident to the Court that this — caution was absolutely necessary especially in so large an Estate and with reference to the loose mode of — administration adopted by Native Proprietors.

2. In the 2d Para of the plaint it is set forth that the Plaintiff submitted an address in August 1849 to the Collector requesting that the remaining quantity of grain might be paid to him, and that reference having been made to the Ameen on the subject has been answered, he was in attendance and had an answer given him. No such an address from the Plaintiff can be found nor are any of the Collector's Establishment aware of his attendance.

The enquiries made of the Ameen were owing to the entries which appeared in the Zemindary accounts. The 4th Defendant believes that owing to the low price of grain for a long period the Plaintiff wilfully neglected to apply for the grain sold to him which would have been

delivered

delivered to him without difficulty so soon as the necessary enquiries had been made to satisfy the Collector of the bona fides nature of the transaction without which enquiries he would not have been justified in admitting it.—

3 Many such investigations involving from the want of methods usual in Zemindary management, much time and labour pressed upon the Collector's attention on the Estate coming under the Court of Wards no time was lost in seeking information. The transaction with the Petitioner was involved in some obscurity. It appeared from the accounts of the Zemindary that he paid 80 Rupees in the Seemay and 150 Rupees in the Talook Cutcherries, and the rest Rupees 350 to Ramanaden Chetty direct in satisfaction of the Zemindar's debt to the Chetty. The account current between that Chetty and the Zemindar being called for and produced the amount in question was not found entered in it and further enquiry therefore was necessary to ascertain whether the charge

in

Fort St. George 25th November 1852.

in the Zemmindary accounts was correct. The Collector being satisfied on this point an order was issued for the delivery of the grain when the Plaintiff applied in May 1852. no previous application from him is forthcoming.

From the above Statement the County, it is hoped, will be satisfied that the failure to obtain the grain was owing to the Plaintiff's own neglect to apply for it.

B^d No. 2629
From the Coll^r of Coimbatore
Forwards for the information of the Board copies of correspondence with the Resident of Travancore and Cochin with reference to the deduction of the price of Tobacco supplied to States & states that the Claim made by the Travancore Circars for the reduction of the price is inadmissable.

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated the 14th Instant, and beg to forward Copy of my previous correspondence with the Resident of Travancore and Cochin as therein directed.

2. The Board will observe that the proposition to receive 800 Candies of Tobacco was voluntary on the part of the Travancore State, and no prospect of any reduction in the price usually paid for it, was held out.

3. The Cochin Government have received no Tobacco upto this period.

4. By the terms remission of the "Frontier duties" made use of in para 2 of the Resident's letter of the 27th August 1852, General Cullen apparently means the difference between former Sayer duty of 29-6-4 per Candy and the 10 per Cent ad valorem prescribed

Fort St. George 25th November 1852.

prescribed by Act No VI of 1844 which the Board proposed and the Government sanctioned being included in the average fixed price of 37-3-0 per Candy of Tobacco the fixed price as well as the addition amounts to 40-8-6-55 which has been considered the Standard price since 1844-5.

The Travancore Circars have received 500 Candies, from the 11th July to the 31st December 1851, and the Cochin 400 Candies in the same period. and with reference to the average supplies of the last 5 years, the quantities furnished Amounts to 330 and 336 respectively. Should the Board adhere to their opinion, that a "monopoly price "ought not to be charged on my Tobaccos which "according to the previous practice would "have been supplied after the date on "which the monopoly may be abolished" it becomes a matter for consideration whether the last years supply, or the average quantity of 5 years, is to be taken as the Standard.

6- I am however of opinion that as the supply of 800 Candies has been received while

Fort St. George 25th November 1852

while the system of Monopoly exists, and as the proposition to receive it was voluntary as will be seen from the Dewan of Travancore's communication of the 24th August 1852, the claim now made for a reduction of price is inadmissable.-

7- The Cochin Government as already remarked, have as yet received no Tobacco, and if they do before the abolition of the Monopoly the usual price will, of course be charged.

From the supplies of the last Fusly there remains still on hand three hundred and odd Candies two hundred namely in the Godown at Coimbatore and the remainder in the different Bank shalls throughout the Country and this will be quite sufficient for the consumption of the Cutcherry till the time fixed for the abolition of the Tobacco Monopoly in the Company's Country. Perhaps after the said abolition there may be some still difficulty at first in procuring the required

To the Chief Secy to Government
Submitting with the Board's recommendation the correspondence with the Coll.r of Coimbatore respecting the price to be charged upon a supply of Tobacco recently furnished to Travancore and to be furnished to Cochin.

Para. 1. I am directed by the Board of Revenue to submit for the orders of the Right Honorable the Governor in Council the accompanying correspondence with the Collector of Coimbatore respecting the Price to be charged upon a supply of Tobacco recently furnished to Travancore.

2. On receipt of the orders of Government regarding the abolition of the Monopoly Mr Thomas requested the Resident of Travancore and Cochin to inform him whether he would require the usual supply of Tobacco for those States for 1262 he was told in reply that both Circars would receive the usual annual supply, viz. 800 Candies for Travancore and 600 for Cochin.

3. The Collector afterwards requested to be informed, whether the whole supply might be delivered at once, and was informed that the Travancore Government were prepared to take the whole quantity, but the Resident at the same time suggested that a remission of the Frontier duties should be allowed.

4. The Travancore authorities have received the whole quantity required for the year or 800 Candies but those of Cochin have as yet taken none.

5. The Government are aware, that previous to the passing of Act VI of 1844, the following were the rates charged upon the Tobacco supplied from Coimbatore for Cochin and Travancore.

Charged for the Tobacco per Candy	37-3-- "
Sayer duty	29-6-4-80

13628.

Fort St. George 25th November 1852.

6. When the Sayer duties were abolished the question was raised as to whether the Frontier duty on the Tobacco supplied to those stated should not be reduced to the rates fixed by the Schedule attached to the New Act. The Government consented to a deduction in the rate of duty, but they at the same time raised the price of the article to such an amount as would save them consequently them levied as follows.

For the Tobacco per Candy	60	8	6-55
Frontier duty of 10% under Sche. Rule B Act XI 1844	6	4	10-25
	66	12	11-80

F. Govt 27th Sept. in Cons 7th Oct. 1847 B. Res. 1st June 1848 F. Govt 22 June in B. Cons 5 July

7- Under date the 7th September 1847 the Government however upon a representation from the Resident authorized the withdrawal of the Frontier duty of 10 per Cent- So that since that period a Charge of Rupees 60-8-6-55 per Candy

Yearly
1258 per Candy 27- 5- 6
1259- " 28-2-6
1260- " 26-14-6
Averages 3 years 27-5-10

has been levied upon all Tobacco supplied for Travancore and Cochin. This Amount it should be observed is a fixed Monopoly price, and has no reference whatever to the prime Cost of the Article; which during the last three years averaged as noted in the Margin.

8- With respect to the present question, the Board are inclined to think that a Monopoly price should not to be charged for any Tobacco which according to the previous practice should have been supplied after the date on which the Monopoly may be abolished- It is shewn that 500 Candies were taken by Travancore up to 31st December last year, the Board are therefore of opinion that Rupees 60-8-6-55 per Candy might fairly be charged upon this quantity- As for the remaining 300 Candies the Government may not object, taking all circumstances into consideration to reduce the charge to the Original fixed price Viz. Rs 37-3 per Candy-

9- Should the Cochin Circar take any Tobacco it is under 400 Candies and at the lower for all in excess might be charged for at the higher rate for any quantity of it.

The answer of the Government Vakeel in behalf of the Collector of Malabar a Defendant in O. S. No 3 of 1852.

1 The Plaintiff The Respat Kaniya thil Nillamanakh Shangaram Embranderyi's claim of right in the land under dispute rest merely on the claim which the Rajah of the Manyatha Cowelagom who is alleged to have made over the same to him may possess and

her title to dispose of it.

2 The land in question is part of a piece of ground which has been in a state of nature for a great number of years past and which in fact has all the appearance of immemorial waste. It was fixed on in 1847 as a convenient encampment ground for troops passing along the coast / there being none other well adapted for the purpose within some miles on each side / and specially used for that purpose by the 5th Regiment N. I. in 1842.

In 1851 the Plaintiff without any orders from, or communication with the Collector chose to take up a portion of this ground and raised a fence round it. This was interdicted by the Parish and Talook Officers and latterly by the Collector himself after a personal visit. The Plaintiff

the plea made by the Defendants that the Ground was required as a halting place for Troops, the Plaintiff urges that Troops never halted in that Spot but on vise occasion in 1847 in its vicinity and he prays for a reimbursement for losses sustained with Costs and for an order to Defendants not to interfere with the Garden land in question.

4. In the Answer proposed by the Collector it is explained that the land has all the appearances of Immemorial Waste and was fixed upon in 1847 as an Encampment for Troops passing along the Coast having specially been used for the purpose in 1842. That Plaintiff had no right to fence in the land but was interdicted at the time by the local Officers and afterwards by the Collector who personally visited the Spot that if Plaintiff advanced any money on the Land to the Ranee he should settle the same with her and she in her turn with the Collector if she can make good her claim to the land. It is therefore urged that the Plaint be dismissed with Costs.

5. The Board deeming the above to be a good and sufficient Defence recommend that Sanction be granted to the Collector to put in the Answer and to conduct the Defence at the Public cost.

Bd. No. 2707.

From the Collector of Madras.

Sir,

I have the honor to state with reference to the Board's Proceedings of the 1st November 1852 that I have directed that Soobaroy Graming should be held responsible for the due fulfilment of his Jaggery Contract.

2. Adverting to Para 2 Ilug to Cs inform the Board that although the Contract of Soobaroy Graming is dated 20th October 1851 the supply of the Jaggery did not Commence till June 1852 as the late Contractor had not furnished the whole of the Jaggery required at the termination of his Contract and that from that period to the 20th September last 380 Candies of Jaggery had been supplied, subsequently in October a further supply has been received of 120 Candies making in all 500 Candies received up to this date.

3 It is usual to receive the

the Jaggery from the Contractors in small quantities in order that the wastage arising from having a large store may not fall on the Government -

Madras, 5th November, 1852. } (Signed) J. A. Hindleston Collector.

B. of R. No. 2542

Proceedings thereon 1. The Board of Revenue do not understand the system which obtains in the Madras Collectorate respecting the Jaggery Contracts. It would appear that the present Contractor engaged in October 1851 to supply 1500 Candies of Jaggery at a given rate that is June following the first portion of the supply was received from him, and that he had in twelve months time supplied but a third of the whole quantity. In the mean-time the price of Jaggery has risen and the Contractor now finds that he is unable to fulfil his Contract without suffering pecuniary loss.

2 The proper course would seem to the Board to be for the Collector just before the Commencement of the

Fasly

13641 Fort St. George 25th November 1852

Fasly to invite Tenders for the supply of the quantity of Jaggery which may be required for the distillery for the entire year, specifying at the same time the quantity annually taken for a few of the preceding years and the periods of supply, to enable the Contractor to estimate the probable extent of the Demand to be made upon him. This would save the Government from paying an extravagant price for the article or the Contractor from running any great risk should any serious fluctuations occur in the Market price, for either one or the other is likely to be the case where engagements for long the-ed prospective periods are entered upon.

3 The Collector will state for what period the 1500 Candies of Jaggery Contracted for in October 1851 was intended, and by what time it is expected that the supply of the remaining 1000 Candies still due by the Contractor will be completed.

From the Collector
of Madras — 3rd

Sir,

I have the honor to acknowledge the receipt of your letter dated 1st November 1852 calling for a report on certain Petitions Relating to Mr. Leonard's application for a certificate for his house and ground and a back Lane -

2. In the enquiry made Consequent on the Board's order Mr. Leonard brought forward in proof of his occupation of the Lane, that he had built Stables occupying a small portion of this Lane and at one period had a few trees of different kinds growing on the ground. The Petitioners contended notwithstanding that they had a right of way through the Lane which right appears to have been confirmed to them by the decision of the Police office and Small Cause Court. They have since the first application built a House having

and

13643 Fort St. George 25th November 1852

no egress except by the Lane and other parties who have purchased land opposite Mr. Leonard's are about to built there and will require the Lane as a passage -

3 Under these circumstances and as the ground is Government property I have deemed it advisable not to disturb the present position of each party in regard to the ground in dispute.

4. I have also withheld the issue of a Certificate to Mr. Leonard for the land on which his House is situated as it has been shown that a suit has been instituted in the Supreme Court / Small Cause side / for the recovery of this property -

2 The Board observe that their permission

permission for the issue of a Cer=

Leonhard's names was Conditional
and that its terms would not
have been satisfied under the further
explanation now afforded by the Collector.

3. The Board think that the
enquiry first instituted and upon
which the Collector recommended
the issue of a Certificate was
very insufficient and that the
Statement that Nos. Leonhard now
occupied the backyard in ques=
=tion was premature, it having
now been shown to be Common

The net decrease of Rupees 2,50,639 under this head consists of a gross decrease of Rupees 267,740 in the Six marginal districts and a gross increase of Rupees 17,101 in #Trichinopoly and +Cuddapah. The decrease in all the Six districts proceeds from the incorporation of certain Estates with the Ayen lands as also from the transfer of Cantapoottoor Mootah to Trichinopoly from Salem. The excess in Cuddapah is the progressive annual increase of Rupees 1,000 in the Poonganoor Peshcush while that in Trichinopoly is the result of the transfer of Cantapoottoor above alluded to.

3. The difference of Rs. 5,848 in this item proceeds from a gross decrease of Rupees 7,112 in Nellore and North Arcot, and a gross increase of Rupees 1264 in Chingleput and Malabar. The decrease in the first of the former two districts, is the result of some of the Villages of Sydapoor Taluk which were rented for 3 years, having been rented for one year

and of others having been transferred to Amany, and that in the second, arises from the reversion of Mamiagantcherry, a Village of Cavery paunk Talook to the Ryotwar settlement in Fusly 1261, owing to the expiration of the 30 years rent in Fusly 1260, as also from the transfer of Paupan Coopum Village to Chingleput district. The excess in Chingleput is owing to the transfer of Paupancoopum from North Arcot, and that in Malabar arises from some of the lands under Amany having been included under this head.—

" There is a net increase of Rupees 97,273 under this item, consisting of a gross excess of Rupees 122575 in 14 districts, and a gross decline of Rupees 25,302 in seven districts. The increase is owing to the transfer to this head of certain Estates which had been under "Permanent Peishcush,"— to increase in the Cultivation resulting from the favourable character of the season, to a decrease in the remissions granted this year,— to the system of joint rents in Rajahmundry and Masulipatam and

and the levy of Teerwah justly on lands irrigated by the Godavery Channels, in the former district,— to the transfer of certain Villages to Chingleput from North Arcot,— to an increase in the dry Cultivation produce, and to the Chokumpatty Villages, which were under Amany in Fusly 1260, having been rented to advantage during the present year in Tinnevelly,— to an increase in the Coonery Cultivation in Canara,— and lastly to the transfer of "Orchards Groves and Grazing tax," items hitherto classed under "Extra Sources," to the head of "Land Revenue" in the Kurnool District. The decrease in the seven districts, is owing to a falling off in the Cultivation resulting from the unfavourable nature of the season, to an increase in the amount of Remissions on account of Shravy &c. to the abolition in Coimbatore of the tax on trees, which had hitherto been levied in addition to the assessment on the land on which they stood, to the transfer of certain Villages from North Arcot to Chingleput.—

5. The Marginal items are those where the Collections form the demand. The Causes of the fluctuations will be noticed when the Collections are remarked upon.

6. The net increase of Rupees 2,454 under this head arises from a gross increase of Rupees 52,076 in 11 Districts and a gross decrease of Rupees 49,622 in 10 districts. The increase proceeds from the Abkarry Renters in some districts having exceeded those of the last year, — from the transfer of Certain Villages to Chingleput from North Arcot, — and from the increase in the offers made by the Toddy Shopkeepers owing to the Suspicious Character of the Season in Madras. The falling off is attributable to decreased offers of abkarry rent, — to the transfer of Certain Villages of North Arcot to Chingleput, — and to the abkarry Revenue of

7. The net decrease of Rupees 4,336 4 under this branch of Revenue proceeds from a gross decrease of Rupees 55,690 in 13 districts, and a gross increase of Rupees 12,325 in 7 districts. The increase proceeds from increased offers of rent from the transfer of Certain Villages to Chingleput from North Arcot, and from the increased Sales of firewood &c. in Shevaroy Collah forest in the former district. While the decrease is the result of a decline in the offers for rent, — of the transfer of some Villages of North Arcot to Chingleput

The Current demand shews a net falling off of Rupees 614 below the past Year, proceeding from a gross decrease of Rupees 12,823 in 7 districts and from a gross increase of Rupees 11,208 in 11 districts. The increase is attributed to a rise in the number of Looms as well as of professions and trades,— and the transfer of some Villages to Chinglepute from North Arcot. districts. In Masulipatam, the falling off is owing to a want of Competition for the rent of Indigo Farm, in Nellore* is trifling and does not call for remark. In North Arcot to the transfer of certain Villages to Chinglepute— in Bellary, to favourable terms having been given to Moturpha Ryots to repair the loss of houses and property they suffered by the Storm of May 51 in Malabar to the modifications made in the levy of this description of tax under orders of Government.— and in Kurnool, to the transfer of the item of "grazing tax" Rupees 1570, to the head of Land Revenue.

9. The demand of this of Rupees 75,455 resulting from a gross increase of Rupees 9,3282 in 13 districts, and a gross decrease of Rupees 17,827 in 8 districts. The bulk of the increase has occurred in Tanjore, in Consequence of having carried to this head Unpaid Monies unclaimed for 10 years as also sums belonging to Grants, the holders of which have died, and the surplus appertaining to Nal and Village Curnums.

The fluctuation in the other districts do not call for remark, being small and of a temporary character.

38 From the foregoing it will be observed that with the exception of Sundry Small Farms and Licences, the Collections under all the other heads shew an increase above Fusly 1260. The decrease in that item is to be attributed to the same cause as the one

assigned for the falling off in the Demands.

Collections on account of arrears

39 In the Land Revenue there is a net increase of Rupees 303,190 in the Collections of Arrears proceeding from a gross increase of Rupees 5,33,330 in 14 Districts and a gross decrease of Rupees 230,140 7 districts. The decline arises from the arrears to be collected being of small amount.

Current Collections

Fusly — Rupees
1260 — 3,77,67,178
1261 — 3,48,62,879

The net increase of Rupees 10,95,701 under this head, consists of a gross increase of Rupees 13,61,259 in 15 districts, and a gross decrease of Rupees 2,65,557 in 6 districts.

Rupees.
1 Madura — 1,45,936
2 Bellary — 11,670
3 Coimbatore — 30,835
4 Trichinopoly — 22,698

The Marginal Districts are those in which there is the greatest falling off.

Madura — Rs 1,45,936

42 The decrease in this district as attributed to a diminished cultivation as also to the prevalence of unfavorable weather, in consequence of the unfavorable nature of the season

in

in Fusly 1261-

Bellary Rs. 1,1670 — 43 — In this district, the decrease proceeds from the same reasons as caused a falling off in the demands.

Coimbatore Rs. 30,735 — 44 — The falling off in this district is also concomitant on the decrease in the demand itself owing to the season being unfavorable.

Trichinopoly Rs. 22,698 — 45 — In this district, the net decrease of Rupees 22,698 proceeds from a gross increase of Rupees 14,212 in the Peshcush in consequence of the transfer of Cantoopootoor Mootah from Salem, and a gross falling off of Rupees 36,910 in Amany Ryotwar Do. owing to a diminution in Cultivation from the Scantiness of the Monsoon, as also to the non realization within the Fusly of the usual Kists of Torriore Talook for one month, in consequence of the distribution of Puttahs at a later period than usual.

Salt
Fusly Rupees
1260 - 47,39,744
1261 - 48,20,413

46 — The current collections of Salt Revenue amount to Rupees 48,20,413 or Rupees 8669 above those of the past year, proceeding from a gross increase of Rs. 374,789 in 8 districts, and a gross decrease of Rs. 288,120 in seven. The excess

excess results principally from increased Sales of Salt. The decrease in the different districts is accounted for as follows.

Madras Rs. 93,184 — 47. The falling off in Madras is attributed to the inland Sales having been discontinued for some time, from the Salt in Store having been damaged by the Storm of may 1851.

Guntoor Rs. 79,131 — 48 — In Guntoor, the decrease is owing partly to the favorable terms, upon which the Lambadies obtained the Salt Swamps in the adjoining district of Nellore, and partly to a want of a brisk demand for that article, in the Nizam's territories.

Masulipatam Rs. 36,372 — 49 — The falling off in Masulipatam is owing to the small quantity of Swamp Salt on hand in the Innogoodroo botaus, as also to the small number of Lumbadies who resorted to the Pondrace botaus for the purchase of Salt, compared with the year preceding.

South arcot Rs. 21,476 — 50 — A portion of this decrease Rupees 7,721 proceeds from the Stock of Salt having been exhausted - The remainder is due by the French Government, has been since

Fort St George 25th November 1852

since recovered. The falling off is further attributable to no applications having been made for shipping Salt to the Eastern ports as in the preceding Fusly.

Malabar Rs 20,119

51 The falling off in this district results partly from a decrease in the sales of salt for Home Consumption and partly from the reduced rate at which that article is sold to the Ootapalam, Palaghaut, Chonghat and Cochin Gollahs, as sanctioned by Government under date the 9th March 1852.

Canara Rs 19,252

52 The Canara decrease is stated to have arisen in the sale of Salt for exportation inland in the Talooks of Honore and Ankola in the North of the district, probably owing to the exportation of Bombay and Goa Salt by routes through the Belgaum collectorate.

North arcot Rs 18,283

53 The falling off in this district proceeds from the transfer of the Poongalum Salt pans to Chingleput.

Sayer
Fusly 1260 - 213,865
" 1261 - 220,680

54 The Current collections of Sayer

Fort St George 25th November 1852

Sayer exhibit a net Increase of Rupees 6814 proceeding from a gross increase of Rupees 19,552 in 4 districts and a gross decrease of Rupees 12,738 in 8.— The decreases being small in the different districts calls for no remark.

Ab Kavy Fusly Rupees.
1260 - 20,61,276
1261 - 20,48,801

55. The Current collections of this branch of Revenue were Rupees 20,48,801 or Rupees 12,474 below those of the past year resulting from a gross decrease of Rupees 62,749 in 10 districts and a gross increase of Rupees 50,274 in 11 districts.

Rupees
1 Bellary - 18,692
2 N. Arcot 11,767
3 Chinglepute 10,201

56 The decrease is considerable in the 3 Marginal districts.—

Bellary Rs 18,692

57. The falling off in this district is attributed to the smallness of the demands proceeding from a less competition in consequence of losses sustained by the contractors.

N. Arcot Rs 11,767

58 The decrease in North Arcot proceeds from certain Pists of Fusly 1261 not having been paid within the year as also from the transfer of certain villages to Chinglepute district.—

59

Fort St. George 25th November 1852.

Shingleput
Rs. 10201.

59. The Shingleput decrease arises from the renters keeping large arrears uncleared on plea of having sustained considerable losses. This plea has not been entertained.

Sundry Small Farms and Licences
Fusly Rupees
1260 - 315915
1261 - 276013

60 Under this head, the Current collections for the year under notice amounted to Rupees 276013 were Rupees 39902 below those of the last year resulting from a gross decrease of Rupees 54281 in 9 districts and a gross increase of Rupees 14379 in 11 districts.

Rs. 21759.

61 In Canara and Tinnevelly the decrease is considerable in the former it is owing to the sale of accumulated Stock of Ameen-Deccan Coir in Fusly 1260, as also to the sales of Fusly 1261 being below an average, and in the latter, it is attributed to a reduction in the Shayroot rent, the sale proceeds of Chanks and the fish revenue under Amany.

Sea Custom
Fusly Rupees.
1260 - 895194
1261 - 933786

63. The Current Collections of Sea Customs amounted to Rupees 933786 and were Rupees 38592 above those of the last year arising from a gross increase of Rupees 48270 in 10 districts, and a gross decrease of Rupees 9676 in 3. The falling off in the several districts being small needs no explanation.

Tobacco
Fusly Rupees
1260 - 809322
1261 - 844909

64. The Tobacco Current Collections were Rupees 844909 or Rupees 35587 above those of the preceding year. They exhibit an increase of Rupees 49880 in Malabar attributed partly to the Tobacco received in the Fusly under notice being of a superior quality and partly to a greater vigilance exercised by the preventive establishment for checking smuggling and a decrease of Rupees 14292 in Canara, consequent on the gradual increase of Smuggling from the absence of the necessary preventive measures.

65. The Current Collections of this Branch of revenue amounted to Rupees 513,011 or Rupees 9011 above those of the last year, proceeding from a gross increase of Rupees 26,845 in 12 districts, and gross decrease of Rupees 17,834 in 9 districts. The decrease in the different districts too inconsiderable to require any remarks.

Sevoy Jummah Fusly Rupees
1260 - 29,483
1261 - 35,175

66. The Sevoy Jummah collections for Fusly 1261 amounted to Rupees 35,175 or Rupees 5692, above those of the previous Fusly, resulting from a gross increase of Rupees 9060 in 12 districts and a gross decrease of Rupees 2,367 in 9 districts. The remarks offered for the fluctuations in the demand under this head hold good for those in the Collections also. It is to be observed however, that there is an increase of Rupees 5,874 in the Tanjore district.

Proceedings.

Calling upon the Collector of Madras to report the circumstances under which he proposes to issue Certificates for certain plots of land in Pudbble Island formerly claimed by Kistnasawmy Chetty and the investigation of whose title to it was deferred until the proposed survey of the St. Thomé Division

To Collector 29th January
From Collector 9th February
in No. 4th March 1852.

It has come to the knowledge of the Board that the usual notices are attached to certain plots of land forming portion of the Sheriff's Bills of sale No. 615 and 616 on Pudbble Islands, pursuant to issuing Certificates for these plots in the name of their present occupants.

2. These Bills of sale were produced by Kistnasawmy chetty in an Enquiry referred to marginally, and his claim to certain land under them was questioned by the Board who stated that in the proposed survey of the St. Thomé Division "the title of Kistnasawmy chetty to the ground he claims can again be investigated."

"On surveying the neighbouring lands "it will be found if any excess of the original "grant be included in the present holding "and if so from whence that excess was obtained

"obtained, for the Board are not satisfied that all "of the land now claimed by Kistnasawmy chetty is that "referred to in the Sheriff's Bills of sale of 1789."

3. The Collector will therefore report the circumstances under which he proposes to issue Certificates for the land in question.

Extract from the Minutes of Consultation in the Revenue Department, under date the 12th November, 1852.-

Read the following letter from the Secretary to the Board of Revenue.

(Here enter 18th October 1852. No. 431)

Para 1 Under the circumstances represented, the Right Honorable the Governor in Council agrees with the Board of Revenue in opinion that the claim preferred by Abdool Cawder to a Yeomiah in Nellore long since discontinued is inadmissible and resolves therefore to pass the following Endorsement on Petition No.

13707 Fort St. George 29th November 1852.-

No. 2291 of 1851.

"The Yeomiah claimed by Petitioner having been discontinued under the orders of the Board of Revenue dated 6th June 1833 in consequence of the abandonment of the required service for a previous period of ten years, Government consider Petitioner's claim to be inadmissible."-

2. With regard to the case of Mahomed Rahamatoollah which is also reported on by the Collector of Nellore it appears that this party has for years continued to draw a Yeomiah fraudulently, and looking to his grade as a Court Reader it cannot be doubted that he was well aware of the nature of the Act which he was committing. Payment of the allowance it would seem has been stopped by the Collector and it will not be renewed.-

Proceedings thereon.- Before submitting the foregoing letter for the orders of Government the Board request the Collector will afford further information with reference to the following remarks.-

(5-6)

In the Column of explanation respecting No. 21. it is stated that the Sum of Rupees 31 for 4 Jumkhanas or Carpets was expended under estimate sanctioned by Government on the 30th November 1848. On referring to this Estimate it is found that the proposed disbursement was for Rupees 393 and it does not appear that any portion of this amount was brought to account in the Statement of actual charges for either Fusly 1259 or Fusly 1260. If therefore any other charge in addition to the present retrenchment was incurred under this Estimate the Collector is requested to include the whole in a supplemental Statement of charges incurred under Estimate and submit the same as early as possible for sanction. otherwise he will be pleased to explain how the Estimated amount has been disposed of.-

In No. 26. the explanation given by the Collector is to the effect that the sum of Rupees 53-10- "on account of

Fort St. George 29th November 1852.-

of Batta to the Curnums of the Kyfalore and Bhoojabalapatam Mostahs for which Sanction is now solicited, was omitted to be included in the Statement of additional Establishment for Fusly 1259. On looking at this Statement it is found that the actual charges for these two Mostahs were Rupees 24-15-9 below the Estimated amount. and Mr. Porter in explaining the cause of the decrease stated that it was "in consequence of the Curnums having had to attend for a short period for the preparation of the Summah: bundy Accounts" whereas from the present remarks the Board would infer that the actual charges were above the Estimate by Rupees 28-70-4 all Mr. Lushington will briefly explain the cause of the difference.-

Sir.

I have the honor to forward

Fort St. George 29th November 1852.-

a Statement Shewing the extent of Cotton cultivation in his district for Fusly 1261.-

forward a Statement prepared in the form received with your letter of the 25th July 1850, Shewing the extent of Cotton Cultivation in this District in the past Fusly as compared with the previous year. It will be seen that there was a decrease of 130a7c - 8½ in the extent of land planted with this crop in the year under report below the extent cultivated with a similar crop in Fusly 1260. A great falling off is observable in the Tinnevelly cottah Taloog, where in the past season a considerable extent of Cotton Cultivation having been destroyed by a Storm which visited this part of the Country on the 7th November 1851 and by the Wet, other crops were planted on the land.

The extent of land on which cotton has been raised in this District during the past four years is shewn in the Margin.-

	Acres	Cents	
Fusly 1258	85099	15	½
" 1259	73984	10	
" 1260	88526	19	
" 1261	87219	11	½

2. The past season was not generally favorable for the crop in under remark. The Storm above referred was accompanied in many parts with

Fort St. George 29th November 1852.-

with heavy rain and seriously damaged the young plants; a failure during the growing season of the breeze from seaward is given as another reason for the diminished outturn which is Estimated at 15868-3 or 3 - 10¼ per acre, while in Fusly 1260 the average pier acre was 4 - 3¼. There was a rise in the price of the article in the year under report to the extent shewn in the Margin.-

Average price per Candy of unclean'd Cotton.

Fusly 1260	14	13	8
1261	15	14	"

3. It appears from the Revenue accounts that 38 Candies of dressed Cotton were exported into the Hyderabad Country during the past season. The quantity stated to have been Exported to other Districts is shewn below, the greater portion of it having been taken into the Rajahmundry and Vizagapatam Districts. There was no Cotton Exported by Sea.-

Bd. No. 2745.

Sir,

From the Collector of Nellore

In reference to the correspondence noted in the margin I have the honor to report on the Petitions presented to the Board by the Ryots of Chinna Cherkoor, Enamadgoo and Lagoontapaud in the Nellore Talook of this District, complaining of the Cussoory assessed upon them at the Jummabundy of Fusly 1261.

Reports on Petitions presented to the Board by the Ryots of Chinna Cherkoor Enamadgoo and Lagoontapaud in the Nellore Talook of this District complaining of the Cussoory assessed upon them at the Jummabundy of Fusly 1261.

No. 1281.

From Bd. 1st July 1852
To Do. 10th Sept. "
Nos. 1281, 1322, 1280 } of 1852
Here with returned

2 The Chinna Cherkoor Ryots state in their Petition that 500 Rupees of land comprised in their Dittum is unfit for Cultivation that this has been annually deducted from the Settlement since Fusly 1257 but that in the last Jummabundy 30 Rupees of Cussoory was imposed upon them for a portion of this land, and that also the full assessment instead of one half has been charged on a second Crop raised on

on certain one Crop land.

3. The Wet Dittum, Cultivation and waste in this Village since Fusly 1257 are exhibited in the Marginal abstract, and it will be perceived that the Cabolaty Bunger or Dittum Waste was never so high as 500 Rupees except in the past Fusly 1261. It is true that in Fusly 1257, it very nearly equalled that amount but it was owing, not to the land being Chavarah or saltish as urged by the Ryots but to the peculiar nature of the season of that Fusly, there having been no water to admit of the early Car Cultivation, and the Tank afterwards receiving a full supply, whereby the lands in its bed were submerged and therefore the Cultivation precluded. In the three following Fuslies 1258. 59, and 60, the excess left waste from the Dittum was only 210, 350 and 470 Rupees respectively, and the assertion therefore of the Petitioners that 500 Rupees of their Dittum is unfit for Cultivation and has been exempted from assessment every year since Fusly 1257 is unsupported by facts. Even admitting it to be true, it will be

	Dittum	Cultte	Waste
	Rs	Rs	Rs
Fusly 57	2178	1784	494
58	2185	1973	212
59	2278	1932	346
60	2367	1898	469
61	2486	1870	616

be seen that the land left waste in Fusly 1261 with the advantage of a good season exceeds the alleged unproductive waste by 116 Rupees and no reason was assigned for this neglect. On the Contrary, the Ryots executed a Karar-namah in March last engaging, in reference to the then advanced state of the season, to bring under the plough 100 Rupees of land out of the remaining waste for that Fusly, but failing altogether in this engagement one half (50 Rupees) of the stipulated amount was imposed, a charge which considering the large proportion of the waste compared with that of former Fuslies, and bearing in mind the marked contrast in the seasons, cannot but, I think, be considered lenient.

4. The second point to which the complaint of the Petitioners relates, proves that there was no want of either the means of irrigation or ability to Cultivate with a considerable amount of their Dittum land lying waste and in spite of a special engagement in writing to Cultivate a portion of it, they diverted the water in the Tank to raising a second Crop on lands on which they had already raised the usual one Crop, and

Gortoos Afst. Rs. 200

and thus rendered themselves liable under the provisions of the Hookoomnamah to the full assessment, instead of the moiety which under other circumstances, would have been the regular charge.

5. The loss complained of in both the cases adverted to Amounts together to Rupees 150 or about 25% in the aggregate on the Dittum waste, but taken individually the proportion falling on each Ryot is so trifling as shown in the accompanying Statement, and is by no means so great as might be imagined.

6 The Complaint of the Enamudar of Petition No. 1372 900 Ryots embraces two points—

1st That they have been assessed for a deficiency of 570 Rupees of land in their holdings.

2dly That they have been charged with a Cusboory of 730 Rupees.

7. In April of last year the Ryots of this Village presented Petitions regarding the deficiency in their Fields, which were thereupon ordered to be measured and the result exhibiting a deficiency of G. 22 – 9 – 3 assessed at Rupees 355 – 2 is quite opposed to some

Cusboory 350 – –
Jyan Second Crop not Recd. 99 – 13 – 10

some accounts which have bee found on the Hoozoor records and which show that the same lands that have now been examined were measured in Fusly 1240 and gave an excess of Rupees 663 – 11 – 11 Further investigation is therefore in progress to trace the cause of so great a difference, and so soon as the exctent of the alleged deficiency is conclusively ascertained, the same will be struck off from the Ryots Dittums as will also the deficit in the holdings of the Lagoontapaud Ryots who have also preferred a similar complaint – The latter also requested to be permitted to relinquish some unproductive lands, which has been allowed.

Petition No. 1280

8. Pending the enquiry into the representations of the Ryots of the two Villages under notice regarding the deficiency in their lands and the relinquishment of their unproductive Fields as above explained, they were called upon to cultivate their lands as usual, but they refused, and persisted in the refusal, neglecting also to clear out their supplying Channels till late in the season, and I had eventually to depute my Head Sheristadar

13723

Fort St. George 29th November 1852

Sheristadar to settle the Dittums which he finished in October. The Ryots then set about the Cultivation, and out of Dittums as per Margin Cultivated but little. In February following the Tahsildar took Kararnamahs from the Petitioners in which the Enamudgoo Ryots engaged to cultivate 409 (Cowles) and the Lagoontapaud Ryots 309 (Cowles) of land in their respective Villages in addition to what they had already brought under the plough but on failing to act up to it, they were on the strength of that writing assessed with the Cuppoory now Complained of. As however the Petitioners were precluded from cultivating this land in consequence of the Vagoor River Channel which irrigates their Villages having become Choked up with sand, and as these two Villages have also suffered much damage from the floods on the 9 and 22d of this Month, I consider it inexpedient to enforce the payment of the Cuppoory and will accordingly suspend its Collection.

B. No. 2359
Order thereon

(9-10)

Ordered that the following Endorsement be passed on Petition No. 1281 of 1852.

"The assertion of Petitioners that the Wet Dittum Waste has not been brought to tax since Fusly 1254 is incorrect. The last year was seasonable, and there was no reason for so large a Dittum waste as 616 Rupees, of which sum Petitioners have been charged only 50 Rupees. The imposition of the full Teerwah on their 2d crop is sanctioned by the Hookoomnamah; as Petitioners are aware, under the circumstances of the case and the levy is approved by the Board."

Ordered also that the following Endorsement be passed on Petitions No. 1280 and 1327 of 1852.

"The Complaint of Petitioners relative to the alleged deficiency of land in comparison with the extent entered in their Puttahs, will be decided by the Collector on the receipt of further information now being sought for. The Board observe that the payment of the Kufsoory referred to has not been enforced."

From the Collector of Nellore ---- Sir

Furnishing as directed further information regarding the injuries done by the late inundations and requesting that 15000 Rupees may be placed at his disposal for distribution among the Sufferers.

To Board 25th Octo. 1852
From Dt. Govt. November 1852
To Dt. 11 Dec.

In reference to the Papers noted in the Margin I have the honor to submit the following further report on the inundations of the Pennar which occurred on the 9th and 22d ultimo.

2 On both these occasions the floods as the Board have already been informed were preceded by heavy and continued rains and rose to an unprecedented height. The Talook of Rapoor sustained the first rush of the torrent after the entrance of the River into this District from Cuddapah by the Gomasselah Pass 21 Villages of this Talook lying more immediately within its influence were inundated occasioning the destruction of 800 Houses with the loss more or less of all the private Property they contained. The freshes occurring in the middle of the night and without any previous warning the distress and alarm occasioned to the Inhabitants

who

who had to fly for safety to the nearest high ground. Tree straw heaps &c. were considerable. The bursting about the same time, of no less than 22 Tanks, which were already full from the heavy Monsoon rains tended not a little to aggravate the evil. The old Cuddapah Road running parallel to the North bank of the River near Davaroy pally the Cusbah Station of Pavoor was at the distance of 225 yards from the River before the floods; but the stream has now so widened its bed that the Road has been completely lost under it, and the North bank formed close to the Village. When the freshes were at their height the water is said to have reached the Talook Cutcherry; and fears were entertained for the Treasury and Records.

3 The next Talook which has suffered is Sungum situated on the bank of the Pennar at its confluence with the Monsoon streams of Berapairoo and Baggairoo. The inundation here was consequently greater and the damage proportionately heavier. The injury extended to 21 Villages so far as has yet been ascertained, 1345 Houses have been washed away; wholly or

or in part with 35 head of Cattle 980 Candies of grain, and 2,800 Rupees worth of other Property the total amount of the loss in money being estimated at 37,000 Rupees. The water getting into the Talook Cutchery in Cusbah Sungum, the Cash Chest was removed to a tile in the Village whither all the Inhabitants had also resorted, and was kept there for 2 days till the waters had subsided.

4 The Nellore Talook was the next in order which suffered from the inundation. From its being almost wholly under River-irrigation, and intersected by the numerous ducts which ramify from the River the damage occasioned is greater than that entailed on any other part of the District. Several Villages were under water for 3 & 4 whole days on the occasion of each flood. 30 out of the 56 Tanks in this Talook were breached. In the Town of Nellore and its suburbs above no less than 344 Houses have been washed away. The total number ascertained to have been lost in the entire Talook is 2929 with 559 heads of Cattle, 3454 Candies of grain and 2400 Rupees of other Property aggregating about Rupees 92,600 in Money Value.

5 The

5 The remaining Talook within the influence of the Pennar is Talamunchy which has also suffered considerable damage— The loss here comprises 1000 Houses, 18 head of Cattle and 3000 Candies of grain being about 50,000 Rupees in all 25 Tanks some of which are considerable reservoirs have been breached—

6 The damage if any done in other parts of the District being supposed to be inconsiderable, demands no notice—

7 The loss of Houses Cattle, and grain detailed in the foregoing Paras. and of which a Villagewar Statement accompanies this Letter forms but a portion of the entire loss occasioned. Occurring as the inundations have done in the midst of the cultivating season a considerable area of cultivation has been entirely swept away; whilst lands which has been ploughed and kept ready for the reception of seed and others usually under cultivation have been so cut up by the floods and covered with deposits of sands that they are at present unfit for tillage—

8 Thus deprived of the fruits of their labours and sitting on the early cultivation of the current

year

year, with their other productive Fields cut up, and destroyed, and rendered unfit for present tillage with the loss of their seed Grain Cattle, and implements of husbandry and with their Houses, grain and almost all their property washed away (which is the case with many ryots) the condition of the cultivators may be easily imagined. It is no wonder that two such extraordinary inundations occurring in quick succession have produced the greatest alarm and despair amongst the people inhabiting Villages bordering on the river and within its influence have in some cases already deserted their Villages. The effect of such a state of things on the Revenue may be serious. Some immediate assistance in alleviation of the distress of the sufferers whether Ryots or others to enable them to resume their usual occupations, and an indulgent consideration at the ensuing Summabundy will I think be a great boon & go far towards effacing the traces of the visitation.—

9 The assistance to be rendered it appears to me should be in the shape of small grants of money proportioned to the ascertained loss

Statement

13747 Fort St. George 29th November 1852.

3 An application has now been made to me for the continuance of this Enam by Dyranada Moodeliar Executor of the late Vaid Sheristadar Deague Moodeliar under the following circumstances. It is pointed out that this land has passed through various hands by purchase besides having been twice publicly sold since 1823 in satisfaction of Court decrees. Deague Moodely therefore thought that it would be available for his intended purpose, and obtaining it from the last purchaser Srinewasarow gavasengar assigned it is an endowment to a useful Chuttrum built by him at a large expense in Cuddalore New Town, near the Guddelum river on the Southern Coast Road. His Executors now pray that the Enam may be continued for the benefit of this institution.

4. Inclosed the records in petition addressed to the Collector by Deague Moodeliar in 1847, mentioning the above circumstances and soliciting that this land might be transferred to his name for the benefit of his new Chuttrum. The Collector Mr Davis gave a favorable endorsement on this petition

13748 Fort St. George 29th November 1852.

petition, but the subject afterwards escaped attention and was not adverted to when the list of Chuttrum endowments was forwarded to the Board. The Chouttry which was built by Deague Moodeliar at a cost of Rupees 10,000 received the favorable notice of Government in the Fort St. George Gazette of 1848 Page 864. It is a most useful building for all classes of travellers and has had no endowment conferred upon it under the Chuttrum rules. The present application is therefore made on strong grounds and in the Enam held in the two farms of Fort St. David and Trivandipoo rum according to the register of the former chiefs in Council have always been treated in the most favorable manner.

leniency. I beg to recommend the case to the favorable consideration of the Board and request permission to continue the Enam transfering it in the accounts to the name of Deague Moodeliar on account of the above large Chuttrum founded by him.

22-23 Proceedings thereon

submitting a letter from the Coll.r of south Arcot and supporting that Officers recommendation to continue the endowment of the Aniavelly choultry now no longer existing for the support of the choultrums built by the late Deague Moodely in new Town Cuddalore.

Para 1. Resolved that the letter above recorded be submitted for the consideration and orders of the Right Honorable the Governor in Council.—

2. It would appear that the Enam lands assessed at Rupees 20–15–1 which formerly was an Endowment of Papa Reddy's Choultry in Aniavelly, and which was ordered by the Board to be resumed in consequence of the decay of that Building, has passed through different hands, and has, since 1823, been twice sold by Decree of Court having last been purchased by the late Gant Shivistadar Deague Moodely who assigned it in endowment of the large Choultrum which he built in New Town Cuddalore.—

3. Deague Moodely would appear to have made a representation to the Collector on the subject in 1847 which escaped attention and was not adverted to in the List of Choultrum Endowment forwarded to the Board.—

4 The present application is at the instance of the Executors of Deague Moodely who pray that the land may be

continued, and the Board concurring in opinion with the Collector that there are strong grounds for complying with that application, support the recommendation made by that Officer for continuing the Enam by transferring it to the name of Deague Moodely as an Endowment to the Choultrum constructed by him.—

collection being made by a Stallut Kat Curnum for the Tahsildar's personal use and under the Tahsildar's Orders. the offence coming under clause 2d Section II, Regulation IX, of 1832.

Complainant Syavayen having deposed to the above effect.—

Twenty Curnums from various

Villages have been examined and fourteen have sworn to the payement each of a Months pay into the hands of Stallut Kat curnum Pichooviers under the impression that he was deputed by the Tahsildar to collect the same, most of the parties have also expressed their belief that at the time of payment the money was intended for the Tahsildar's own use, who assigned the visit of the Collector and his Establishment as the cause of his requiring the money while a few state that their payments were to the best of their belief for the purpose of defraying the expences of his Mariotan's marriage; but all distinctly declares that fear of the consequences of a refusal of the Tahsildar's demand, compelled them, nolens volens, to submit to the loss of their pay. The Statement of several of the Curnums is supported by that of others

who

who happened to have paid at the same time, some declaring that the Tahsildar personally informed them of what they were expected to do, while others only received his commands thro' Pichoovien.

The complainant denies having paid any thing himself but the amount sworn to as having been collected from the 14 Curnums came to rupees ninety and Annas four.

The enquiry has been made prior to any active measures being taken against the accused, that he might not be exposed to the connection of evidence, which suspension from office would encourage. The Curnums have been called upon from various villages without preference, excepting the first five named by the complainant. The second batch summoned consisted of six Curnums, and the Dubash in charge of the Summons went forthwith to the Cutcherry where the Tahsildar was, the result of these evidence of these six Curnums, as might be expected, was a denial on the part of 5 of them, and an admission on that of one, who attempted to shew that he paid his Months pay to the Tahsildar's Karistan out of friendship

Fort St George 29th November 1852.

friendship to the man, tho' subsequently acknowledging that fear of the Tahsildars displeasure was the cause of his submitting to the imposition.

The Tahsildar Tat Iyengar in his defence urges his strict discharge of duty as the cause of a conspiracy got up to ruin him, he declines personally questioning any of the Witnesses and declares himself innocent of the charge.

Pichoovien the Stallut Nat curnum confesses that he acted under the orders of the Tahsildar that he collected 4 Months pay from many Curnums for the Tahsildars own use, and for the marriage of his Karistan, that the money as collected by him was paid over to the Tahsildar and that he, the Tahsildar personally rebuked many of the Curnums who made objection to the stoppage of their pay.

It doesnot come out on the enquiry that the Tahsildar was actually seen receiving the money paid, but it is clearly proved that the payments were made for the Tahsildary and not for the party who was deputed to receive them, and under these circumstances, tho' the evidence might not convict the accused in a criminal prosecution, there is

13755 Fort St. George 29th November 1852.

is in my opinion no moral doubt of the truth of the charge, which might have been further tested by the examination of a larger number of Cumums, but I consider the sworn evidence of the proff sufficient and unanswerably set aside by the defence of the Tahsildar. Tatyengar is therefore sentenced under Section V Regulation IX of 1822 to pay a fine of Rupees 180 and Annas, being twice the amount of money taken.

The second party charged, appears to have acted entirely under the Orders of the Tahsildar who had in the first place procured him the appointment of Cumum and subsequently a few months after of that of Stallet. Mates Cumum, his guilt therefore may be looked on with some consideration with reference to his position, and he is only fined in the sum of 20 Rupees and removed from his situation.

the Choultry endowment No 35 therein referred to forms part of an ancient Grant of 10 Valies of land made by the late Tolaja Rajah to one

Enam Register of 1844, in which Valies 5. M. 12. are stated as Enam to seven persons, and the Valies 4 D 8 mans for the support of a Chuttrum at Ramaiswarum. The extent of this last mentioned portion seems to

Nunjah - 1 - 10

have been enhanced in the survey accounts according to which it is entered (5. - M 8) in the last last submitted.

The Original appropriation of the proceeds of this Grant was intended to apply to a "charity at Ramiseram" but for many years they have been expended on a Chunty at Pattanisem first by one Arlamunda Pillay to whom the Grandson of the Original Grantee transferred the Enam, and subsequently by Govindasamy Pillai and

and Venkatasooba Naik purchasers of the same from the last holder. These parties have been called upon to fulfil the conditions of the Grant; but state that the proceeds are insufficient for the trouble of remitting to Ramaseram, and urge the Number of Choultries there as a reason for the continuance of the Charity at Pappanaseum. The Tahsildar reports that the present holders really apply the Proceeds of the land in charity, and under these circumstances there does not appear any great objection to the proposal being agreed to.

As the Government may wish

or expect me to add my opinion on the matter, I would beg to add that I think it is desirable for both the Committee and Mr. McIver that their several Powers and duties should be more definite and specified than they are at present, and that such a definition of them will tend to a more pleasant and efficient discharge of their respective duties.—

Since the first formation of the

Gardens in 1848, it has always been found difficult to procure a voluntary and honorary Secretary, to take a real and personal interest in the management of the Gardens; when such a Gentleman is found, I think he should have, as Captain Gompertz suggests due authority and support. Mr. McIver's opinion and suggestions as to the working

and

Sir,

I am directed by the Local Executive Committee of the Horticultural Gardens, to submit to you the accompanying letter which I addressed to it shortly after becoming its Secretary, with a view to ascertain from it, for my future guidance, as also to have placed on record, the real nature and extent of my duty and responsibility.

The Committee request the favor (should it seem to you requisite) of your having the kindness to refer it to Government, to have defined with whom properly vests the

the responsibility of the Monies and accounts; as also Mr. McIvor's position in relation to the Committee, whether he be not entirely under its instructions; the Executive Committee being in Communication with the General Committee (composed vide para II rule 3) the subscribers at large and the Government through you; Mr. McIvor affording it all information and advice required and called for, and of course his professional opinions always receiving due weight and consideration.

From the tenor of some late Communications from Mr. McIvor for me to submit to the Committee it is apparent that he is under impression quite opposed to the above view, and disbursements, accounts and all details appear to have been hitherto almost uncontrolledly conducted by him, under this view of his functions.

The Committee cannot imagine this to have been contemplated by the Honorable Court of Directors and Government in fact the late call made by the latter through you, for accounts would indicate the contrary and it appears to it (the Committee) impossible that a Committee and Secretary can act efficiently or be held responsible

To,

The Executive Committee

of the Horticultural Gardens.

Ootacamund.

Gentlemen,

When I acceded to your wishes in becoming Secretary to the Horticultural Gardens at this Station, I was under the impression that I should be in the same position as a Secretary to any other Institution, but things are carried on so differently here, that I desire clearly understand either my own position and responsibility or those of the other parties employed on the Establishment, and I shall feel obliged if you will kindly do me the favor to define them.

2. It appears that the Gardener Mr. Mc Ivor sells the produce of the Gardens, receives the Money realized by it, subscriptions, &c &c he pays all dues, and at the end of the Month hands the Secretary the balance if any with an Abstract balance Sheet (one of which from the late Secretary I hereto append) the Secretary without any means of checking this copies it into the books of "Monthly accounts current" (thereby literally becoming Mr. Mc Ivor's Clerk) and Signs it as "Secretary"

by

Fort St. George 29th November 1852

by which I imagine he renders himself responsible—

It appears to me that Mr. Mc Ivor should have nothing to do with Money transactions, that these all belong entirely to the Secretary who should pay all salaries, charges, &c &c collect all subscriptions and other dues, Sign all bills for things sold by Mr. Mc Ivor, and account of which I think should be entered in a rough day book and Shewn to the Secretary each day for entry into the fair day book, this rough day book could be kept and also all other writing duties of the Entire Establishment could be easily performed by a smart Writer (who would also be bill Collector) on a salary from Seventy Rupees a Month, and thereby enable Mr. Mc Ivor to devote much more of his time to the important objects of the Gardens. However Gentlemen in offering the above suggestion for your consideration, I trust you will not for a moment imagine that I wish to disturb the present arrangements if they are found to answer; but merely wish to ascertain from you the extent of my responsibility before I enter fully on the duties, for it appears to me that the office of Secretary entails the imperative performance and responsibility of the duties at present performed

13769 Fort St. George 29th. November 1852

performed by the Gardener Mr. McIvor in the above enumerated.—

E. B. Thomas Esqre
Collector of Coimbatore

Sir,

I have had the honor to receive your letter with Extract from the Proceedings of the Board of Revenue relative to Extra Tent allowance drawn by me while Officiating Collector Coimbatore.

The Proceedings of the Board do not require explanations from me, and in fact without documents to refer to, I have not the means

Fort St. George 29th November 1852

of affording any.

I informed the Board of my intention to proceed to Ootacamund consequent upon the proceedings of Captain Francis. The correspondence with that Officer, and Mr. Lascelles letter to Government, and my reply thereto, explain the position in which I was placed, and considering that my presence was required at Ootacamund, I remained there.

I beg you will inform the Board I have no desire to press a claim for Tent allowance while residing at Ootacamund, and that I am prepared to refund the amount drawn if in the opinion of the members my duties might have been conducted without visiting the locality or that my continuance on the spot was not indispensable. I was enabled to effect the objects for which I proceeded to Ootacamund, and to restore the communication between it and Coonoor effectually by a new road. I shall however without demur be prepared to pay the Tent allowance into this Treasury, and send you a receipt for the same, upon intimation from you that the Board have any doubt of the propriety of its having been drawn.

Submits his views on the subject of the Standard

Sir,

I have to request the pardon of the Board for having so long delayed to answer their Circular of the 24th March

1851

Standard Weights and Measures enjoined by Government in their Proclamation of the 16th October 1846 and forwards the Statement required by the Board, in the 8th Para of their letter under acknowledgment.

1851, on the subject of the Standard Weights and Measures enjoined by Government in their Proclamation of the 16th October 1816.—

2. The Circular was unfortunately lost sight of for a time, and my attention, when recalled to it, engrossed with emergent matter relating to the Special Commission.—

3. In reference to the first point treated of by the Board, I beg to state that the Standards sent to me, in reference to the Boards Circular of the 2d May 1842, have not been put in requisition as comparisons for testing the Weights & Measures of Native Dealers, and that Counterparts have not been taken for actual use.

4. The intelligent Merchant when spoken to readily admits that inconvenience and irregularity arises from the system under which every division of the district has its own peculiar Weights and Measures, but the admission is of little avail, as it is unattended with any hearty desire to put down the old Mamool which appears to be particularly tenacious on this point in India, as indeed in other Countries.—

5. I do not think that any thing effectual will be done except by an express order of Government that there shall be one weight and measure every where and considering the good that would arise from the order I think it might well be passed

Time should of course be given to prepare

13775 Fort St. George 29th November 1852

prepare for the change and aid afforded by making up weights and measures by Government Officers to be retailed at easy prices.

6 The standard measures have been introduced into the Price Lists of Grain furnished to the Board subsequent to the receipt of the Governments proclamation of the 16th October 1846 and such of the measures as were practicable have been quoted in conversion of the local to the standard measure in the price Currents furnished to the Commissariat Department, but this cannot be done fully owing to the prices of many of the articles enumerated in the price Currents being given at so much per ℔ which it is not practicable to convert into the "Viss" or Pollam without a confusion from fractions.
