Diary

2. April/53 - Received the following letter

No. 22.

To. W.H. Bayley Esqre.
Secretary to the
Board of Revenue
Fort St. George

(1)

B. No. 8241 -

From the Collector of Tuticorin Monopoly Reporting for the information of the Board that the Tuticorin Monopoly District was visited on the night of the 27th Instant with a most violent Hurricane - -

Sir,

I have to report for the information of your Board that this District was visited last night with one of the most violent Hurricanes I have ever witnessed during my residence in India.

2- The wind commenced yesterday Morning the 27th Instant, at Day break in heavy gusts from the North West accompanied with much rain, and continued to increase throughout the day until 8 Oclock P.M. when the gale began in and blew with an undiminished fury accompanied with torrents of rain until 3. Oclock A.M. this Morning when it moderated -

The Hurricane came round to South East from the North West.

3- The whole Country is under water and the destruction of Cocoanut and other trees enormous.

I do not suppose much

grain

grain can be destroyed, for most of the Paddy is off the ground - But the destruction of Sheep and Cattle must be incalculable and the loss of Native dwelling houses very great - as soon as I have authentic information on these points I will report to your Board.

4. The damage sustained in Works of irrigation, Tanks and bridges I shall report in the Department of Public Works.

Trichinopoly District — Vaitatay goodalore Collection Cutcherry 28th March 1853 — } Signed J. Bird. Collector.

B/d N: 671 — Order thereon — (1.2)

N: 132 — Ordered that the foregoing letter be submitted for the information of the Right Honorable the Governor in Council - The further report promised by the Collector will be duly laid before Government on receipt.

Receives the following letter.

N: 37.

(3)

B/d N: Duplicate N: 831 — From N. Bashicarloo Naidoo President to the Patcheappahs Charities —

To

The President and Members of the Board of Revenue Fort St. George.

Gentlemen

I have the honor on behalf of

of the Trustees for the management of the late Patcheappah Mooddelliars Charities to report for the information of your Board that I have been elected and nominated to be their President in the room of C. Streenevajoa Pillay deceased -

I have also the honor to report that we have elected M. Casavoloo Naidoo and C. Parthasarady Naidoo in the rooms of L. Vencatapatty Naidoo and A. Vencatachella Chettiar deceased and resigned, as required by the Decree of the Supreme Court, dated the 6th August 1841 and to request you will be pleased to convey to us your confirmation of the nominations

Madras — 31st March 1853 } Signed N. Bashicarloo President.

Sent the following letter -

(3.4)

To

R. N. Bashicarloo Naidoo.

B/d N: 673 — To N. Bashicarloo Naidoo —

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of 31st March 1853 intimating that you have been elected and nominated by the Trustees for the management of the late Patcheappah Mooddelliars Charities

Districtties to be their President in the room of C. Streenevasa Pillay deceased and reporting for confirmation the election of Mr. Casavalva Naidoo and C. Parthasarady Naidoo as Trustees

In reply the Board desire me to request you will inform them of the number and names of the present Trustees by whom these elections were made and if the entire number of Trustees is short of that fixed by the order of the Board, as they understand it is the case that you will report the cause of the several vacancies not being filled up as they occurred.

Revenue Board Office — Fort St. George, 2d April 1853. — Signed W. H. Bayley, Secretary.

Received the undermentioned Minutes, Indent and Letter.

5

No. 79.

From the Acting Collector of North Arcot. — Indent for printed forms of Bills &c. required for the year 1853.

6

From the Acting Collector of North Arcot — Requesting that the printed forms indented for on the 14th January last, may be forwarded as early as possible.

5-7

Order on the 2 abovementioned Indent and letter — Ordered to be supplied accordingly.

At

At a Meeting Present.

Monday 4th April 1853 — } J. Goldingham Esqre. Second Member and T. L. Blane Esqre. Third Member

Walter Elliot Esqre. Senior Member absent on duty (as Commissioner Northern Circars).

Minutes of the last Meeting read and approved.

8

B. No. 496.

From the Secretary to Government — Dated 15th February 1853 — } Read Extract

(For information) stating the opinion of Government on the points submitted by the Collector of Guntoor through Commissioner Northern Circars, on the applicability of recent rules regarding well Cultivation to lands irrigated in the manner alluded to by them.

Ordered that the following letter be sent:

To the Commissioner Northern Circars.

8-9

Sir,

B. No. 689.

To the Commissioner Northern Circars — The Government having furnished for the information of this Office Extract from Minutes of Consultation dated 15th February 1853 No. 178, together with the letters from yourself and the Collector of Guntoor, on the subject of the recent

In Council 4th April 1853.

recent orders for relieving cultivators from the demand of additional assessment on improvements constructed at their own expense. The Board of Revenue direct me to forward for your information Copies of references which have been made

From the Secy to Government communicating Extract from a General Letter from the Honble the Court of Directors dated 10th November 1852.

Extract from a General Letter from the Honorable the Court of Directors dated 10th November 1852. No. 16.

24. also para 6 of Letter dated 6th September No. 51. 1852.

Outlay of Rupees 12000 for the Management of the Shank Fishery in Tinnevelly together with the entertainment of Rupees 37-4 for Fusly 1259, 1260 respectively sanctioned.

Para 8. We are sorry to observe that while the number of Shanks fished increases their value undergoes a material deterioration, so that the revenue derived from this source in Fusly 1259 was considerably less

Extract from the Minutes of Consultation in the Revenue Department under date the 22d Feby 1853 No. 219.

Paras 2 Paras 8 and 13 will be communicated to the Board of Revenue and para 9 to the Board of Public Works.

Fusly Net Revenue.

1258 — Rs	7872	9	2
1259 — "	3374	10	2
Decrease —	3497	15	4

less than that of the preceding Fusly.

24. Boundary of the Commissariat Cattle Farm in Bellary to be accurately defined lands granted in exchange for Enam lands included within the Farms and certain Pagodas to which there are no legal claims on account of which Service is performed &c. &c.

13 Approved.

25 & 29 also Letter dated 4th August No. 24/1851. Reporting the results of proceedings having in view the supersession of the Mohturfa Tax now levied on the manufacture of Earth Salt in Bellary and therein by a more

14. The licensing System would appear to be incompatible with the habits and condition of the people and would moreover involve

3. A copy of these Paras as will be furnished the Board of Revenue and their particulars

more regular System. The desired alteration was found impracticable and therefore a readjustment periodically of the Mofussil Rates was all the change ordered.

involve extensive measures of excise which would be attended with considerable expense. The object of Government being to restrict as much as possible the Manufacture of earth Salt, the Farming System was clearly out of the question since the objects and interests of the farmer would be diamedrically opposite. The entire abolition of the Manufacture would not only be productive of suffering and hardships to the people and opposed to long Customs, but would probably lead to an increase in Gang and Highway Robberies practices to which the smaller Class of manufacturers even in

particular attention to the observations of this Honorable Court in respect of the Manufacture and consumption of the Earth Salt of the Ceded District. The Board will obtain specimens of the different descriptions of Earth Salt from the Districts of Cuddapah Bellary and Kurnool which they will submit to the Medical Boards with explanation as to the mode in which the manufacture

even now resort. We are however disposed to ascribe much of this lawless character to the existing System of unrestricted manufacture and Sales of Earth Salt in the Ceded Districts. The generality of the working Salt makers are stated not to be paid by fixed wages or even in money for the Salt which they produce which is hawked about in the Villages by their owners who receive coarse grain in exchange. In this state of things it is not surprising that when their food falls short they should resort to dishonest means to obtain subsistence.

15. We think it desirable that the quality of

Manufacture is now conducted. The Medical Board will cause the several varieties of Earth Salt to be tested, and will furnish a report on the points indicated by the Honorable Court in Para 15 of the Despatch. application will also be made to the Bengal Government with the view of ascertaining the System which is referred to in Para 15 as prevailing with the great advantage under that Presidency. The

of the Earth Salt pro-
-duced in the interior
of the Country should
be tested by experi-
-enced Chymists in
order that the ques-
tion on which so
much difference of
opinion continues
to exist as to its
containing substan-
-ces injurious to the
health of the con-
sumers may be
satisfactorily
solved and if it
should be found
to contain delete-
-rious matter it
would be well to
enquire whether
a different mode
of preparation
might not free
the injurious in-
gredients.

16. The real Cause
of the difficulty
which lies in the
way of superseding
the use of Earth
Salt in the Ceded
Districts by that of
Marine

The attention of the Board of Publick Works also will be called to the concluding portion of para 17 bearing reference to the state of the roads to the Ceded Districts.

Marine Salt is obvi-
-ously the comparatively
low price at which the
former can be brought
to market for while
Earth Salt of good
quantity is pur-
-chaseable at Rupees
100 the garce the
same quantity of
Marine Salt and
this probably
largely adulterat-
-ed with Earth
Salt) cannot be
procured for less
than Rupees 220
With reference to
this circumstance
and to the instruc-
tion conveyed to
you in our letter
dated 31st August
/No. 13/ 1852 - we are
anxious that you
should bring the
subject to the notice
of the Government
of Bengal with the
view of ascertaining
whether it would be
practicable to in-
troduce into the
interior districts of
yours

your Presidency a system similar to that which has worked so advantageously both for the interests of the Revenue and the welfare of the "Mohagkurs" in the Salt manufacturing Districts of the Bengal Presidency.

17— Whatever may be ultimately done in this matter we desire that no change which would interfere with the property possessed by the Salt makers in the mounds from which the Earth Salt is extracted may be carried into effect without their receiving full compensation for any loss to which they may be subjected We would call to your notice the opinions

of the local authorities that the importation of the Sea Salt to the Ceded Districts is impracticable to any extent until the public roads are improved.

32— Lease of Lands on liberal terms to Mr. A. M. Groves in the North arcot Distruct for purpose of Cultivation

19 Mr. Groves having displayed much energy and expended much capital in the improvement of this land we approve your proceedings.

33 & 5 Sewoy balances for balances on land cultivated after the close of the Fusly but before the Fusly has expired Year written off in North Arcot. Further information respecting similar balances in South Arcot.

20 Great irregularity seems to have prevailed in the Collection of the revenue on Sewoy Lands and in the mode in which the accounts were kept and there is reason to believe that considerable loss has accrued by Government in consequence. We await your further proceedings.

4 and 50 Settlement of a boundary dispute between the Numbedi of

4 Ordered that paras 19. 20. 26. 29. 31. 33. 39. 39. 42. 44. 50 and 54 be furnished to the Board of Revenue for their information and for communication to the Officers concerned.

of Colingode and the Coimbatore authorities. The disputed tract had been encroached on by the Coimbatore authorities and is to be made over to the Tumbidee on the condition that he will accept it as a full and final settlement of the question. Measures to be adopted for securing to Government the right to fell Timber in the Colingode Teak Forests.

26. Approved.

37 Measures for restoring the deserted Village of Connnepatty on the High road from Madras to Cuddapah on a Code of liberal terms to the settlers and reclamation of Jungle in the Villages of Bulpitty Maumundoor,

29. It appears that Travellers along this portion of the high road which was entirely destitute of anything like a human habitation experienced much inconvenience and the neighbouring Country

country was subject to the depredations of robbers and wild beasts that found shelter in the jungle. Much benefit may therefore be anticipated from the measures here reported which have our entire approval.

53 Disbursement of Rupees 349. 5 on account of expenses incurred in promoting the cultivation of the Mauritius Sugar cane in Coimbatore remission on land required for the Cultivation of this species of cane for cuttings

31. We are glad to learn that the experiment for encouraging this species of cane proceeds on the whole favorably and that additions are made by the Ryots for cuttings.

The

27. Report on the Government plantations in Bellary for Fuslies 1257 and 1258.—

33. The Revenue derived from these plantations in Fusly 1257 exceeded that of the two preceding years by Rupees 404 and Rupees 331 respectively. The revenue returns of Fusly 1258 fully maintained this favorable progress exceeding those of the previous year by Rupees 153, and it is gratifying to observe that this result was accompanied by a decrease in charges amounting to Rupees 176-14-3.—

11. The Estate of the deceased Zemindar of Woottoor nabay to be placed under the management of the Widow on behalf of the Minor Son of the deceased.

34. The Collector having been directed to keep a watchful eye over the interests of the Minor Zemindar we approve this arrangement.—

We

28 19 Furnish information regarding the arrangements in force for preventing the illicit transport of Salt from the Cochin State into Malabar. Government are averse to a preventive Establishment and have directed an application to be made to the Cochin Sircar to fix a price at which Salt might be sold by both Governments, measures to be devised for suppressing the illicit manufacture of Marsh Salt. Monthly Statements of Rowannahs issued in the Maritime districts prepared.—

39. We shall be glad to learn that you have been enabled to mature and carry into effect your views so as to afford an efficient protection to this branch of the revenue.—

These

40 & 41. Jungle lands granted to ryots on liberal terms in view to their clearance Rs. 200 to be devoted to a clearance of the Jungle Nerungeepet.—

42. These Jungles being infested with wild beasts the propriety of the measures here reported is not open to question.—

43. Proposal of the Board for effecting a change in the system of Collecting the Abkarry Revenue by annual settlement of gardens or parts of gardens, instead of the existing mode of allotting trees by number not adopted, Government were of opinion that all that is required is additional checks and a better supervision and that

44 Before coming to any decision on this subject the various Members of your Government appear to have given it a large share of their attention, and we confidently hope that the irregularities which have hitherto marked the administration of the Madras Abkarry system will disappear before a more efficient organization of checks and superintendence.—

Your.

that the system in force should be improved but not changed.—

60 & 62. Extension of the system of levying the grazing tax in Nellore according to a fixed rate to two talooks where it was differently levied. Proposals of the Collector to supersede the fixed tax by a triennial Settlement being considered objectionable was not acceded to.—

50 Your proceedings here reported have our approval.—

35 & 38. Remission of the assessment of certain lands and Gardens in Malabar held by Government as Escheats.—

51. It appears that in some of these lands, Government posses in addition to its paramount rights to revenue the right of the land-lord to rent, though the latter has not

not from some neglect been collected. In authorizing the correction of this oversight we entirely approve your having directed that temper and judgment should be used so as to avoid creating discontent, all the appearance of hardship as well as your having allowed the Collector to exercise a discretion in the matter.—

To the President and Members of the Board of Revenue.

/ True Extract /

Memorandum

On examining the Demand Collection and Balance Statement from 12th July to 31st December 1852 of Fusly 1262 Submitted with the Board's letter of the 3d Instant it has been observed that the Collections of land Revenue in the North arcot District exchibit a falling off as compared with those of the corresponding period of Fusly 1261 of Rupees 2,25,687 Viz. Current 102,579 and arrears 123,107 The Secretary to Government has been directed to request that the Secretary to the Board of Revenue will explain the cause of this large decrease.

He has also been instructed to request that when any considerable decrease such as that now in question may appear in future Statements the causes may be concisely given in a foot note at the bottom of the Statement.

Statement A Col: 11 @ 13

Ordered

Ordered that the following letter be Submitted in reply.

No 135

To The Chief Secretary to Government

Sir,

(21.22)

B. No 697

To the Chief Secy to Government

With reference to your Memorandum dated 24th March 1853 I am directed by the Board of Revenue to State that the decrease of Rupees 123,107 in the Current Collections in the District of North Arcot, as exhibited in the Statement A. forwarded with my letter of 3d idem. arose as explained by the Acting Collector from a decrease of Rupees 30,909 in Permanently Settled from certain Poligars delaying to pay their Kists and Rupees 92,360 in Amanny including rents for one years, Shrotriems Jodigy &c from the remittances from the Talooks not having been received within the close of the Month.

Furnishing the information called for by Government regarding the falling off in the Collections of Land Revenue in the District of North Arcot as compared with those of the corresponding period of Fusly 1261.

Statement A after B. No 817 of 4th Inst.

The decrease under the head of arrears, Viz. Rupees 102,579 arose from the demand on account of arrears, at the commencement of Fusly 1262 being less than that at the beginning of Fusly 1261, thus causing a corresponding decrease in the Collections.

arrears at the commencement of Fusly 1261 Rs 389210
Do at 1262 -- 268583
120,627

The

The instructions contained in para 2 will be duly attended to in the Submission of future Statements.

explanation in respect of the difference between the price realized for certain lands lately sold in Talook Denkencottah and the sum at which its value had been estimated.

Proceedings 2d February 1853

No. 274.

the explanation required by your Board in respect of the difference between the price realized for certain land recently sold for arrears of revenue in Talook Denkencottah and the sum at which its value had been Estimated.

2 Bearing in mind the observations of the Board, communicated to me on the 15th November last, I had entered in the column of remarks of the Statement which shows the result of the sale the brief explanation which will there be found. At the same time, in a Taluk addressed to the local Authorities, I had noticed in terms of disapprobation, the erroneous valuation which his report had caused to be affixed on the lands.

3 It is however, necessary to state that if each of the four numbers which compose the lot to which the Board's attention had been directed had been put up to auction singly the upshot although doubtless in excess of the Shasildars valuation would not have exceeded it to the marked extent now apparent. I am in a position thus to report, because when I first proceeded to sell the land, I put up a single field, small as it was and unimportant as it

it seemed leaving the other three to be disposed of afterwards. My plan of sale was objected to by several of the persons present, including, I apprehend, intending bidders, I however, resolved on ascertaining what the result would be and without closing on the biddings also put up a second field which I similarly treated. It was obvious to me from the slackness of the biddings and the statements made by the Villagers and others acquainted with the localities and the present condition of the four fields that no approximation to their real worth could be arrived at, unless the four were at once offered for competition as a single lot I therefore having thus felt my way resolved on retracing my steps and agreed to meet the desire of the persons assembled at my Cutcherry by letting them compete for the four fields undividedly. The outturn was what the Board have observed.

4 The Thasildar had nevertheless clearly mistaken the actual value of the fields for the sum which he put on them is put at 20 Rupees for the four. It is difficult to furnish a Collector with safe valuation of ground similar to that under remark, which

to

to my knowledge, from information gained at two successive settlements, has been grossly neglected by the parties most interested in its preservation and produce. The latter have been arrayed against each other, for several years past, owing to family dissensions of deep animosity, and although the prospect of the almost complete ruin of the family has gradually been rendered more and more distinct, they have, as it were, forced the land to sale rather than save it by a compromise of their differences.

Whatever then, may have been the

5 original intrinsic worth of the Garden, an immediate outlay was requisite to effect its entire restoration and remove the results of long continued neglect and the total absence of careful culture. I do not think a Thasildar would have been justified in rating its value very high on the possible contingency of several competitors of small capital, coming forward to bid for it. The Village Curnum may have known a little or much of the wishes and plans of some of the Villagers, but I apprehend he would not have been informed of the real intentions of those most desirous of buying the land, as in all probability, the bulk of these would have kept their intentions to themselves

any

6. Any how, the Shaikdars officially recorded Estimate would not have been greatly exceeded, if rather than exercise my discretion for the eventual benefit of the defaulter, I had sold each field by itself.

7 The data on which a Shaikdar frames an Estimate of the Kind in question are, moreover, even on ordinary occasions, of an undefined, rambling character, which seldom or ever supply the information on which a capitalist would care to expend money, unless he had himself as much private Knowledge of the land as the Curnums, Monigar or Ryots may have possessed themselves of. But in such a Talook as that of Dendigul and in a case of default brought about as the one under remark has been, I must confess that I cannot well see how any faithful or precise valuation can be obtained prior to the date of sale.

Sir,

33

B.R. No 2923

From the Collector of South Arcot. Submits Copy of letter received from Collector of Salem and shews reasons why the Saltpetre Swannahs issued from his District should be Collected and returned by the Inland authorities.

I have the honor to lay before the Board Copy of a letter addressed to me by the Collector of Salem, stating that he feels himself unable for reasons therein given to collect and return to me the Salt Petre Swannahs issued in this District according to the practice which has hitherto universally prevailed and is still followed by other Officers.

2- I will not contest that the Sayer Chowkies abolished by Act VI of 1844 may have been principally alluded to in Clause third Section XII Regulation I of 1805 but it appears to me very doubtful whether they were the only ones intended as assumed by Mr Phillips in his construction of the Regulation. The Regulation uses simply the term "Chowkey" and I do not perceive why Police Chowkies or Swannahs are to be excluded when there is no distinct declaration to that effect but grounds exist for a contrary surmise as a succeeding part of the

Fort St. George 4th April 1853.

the same Regulation expressly declares that all Police Officers are to aid in the suppression of illicit dealings in Salt both as respects its illegal manufacture and removal for which purpose they are authorized to call upon importers for their Rowannahs and detain any Salt conveyed without such a protection

3. It is however less from doubts about Mr. Phillips's construction of the Regulations than from the general importance of the subject that I am induced to address the Board - The chief check on the Servants entrusted with the sale of Salt at detached and remote parts consists in the power of contrasting their accounts with the Rowannahs given by them to purchasers and if this guard is removed I shall fear unfavorable consequences to the interests of Government -

4. For the reasons stated by me in the second paragraph I am of opinion that there is no legal difficulty about Officers at Police Chowkies demanding Rowannahs from persons importing Salt and retaining those which have expired if the System should be deemed unobjectionable

Fort St. George 4th April 1853.

unobjectionable in other respects -

Sir,

From the Collector of South Arcot

I have the honor to state that since writing my letter of the 26th Instant on the subject of Salt Rowannahs being returned to the District from which they were issued I find that a correspondence occurred on the same subject in 1844 when the Board gave directions that the Principal Collector of Salem was to continue the former practice Perhaps therefore the Board may see fit to call the attention of the present Collector of Salem to those instructions

B. of N. 2995.

Sir

From the Jr. Collr. of Tanjore — Soliciting instructions regarding the objection raised by the Collector of Salem in obtaining and forwarding Salt Rowannahs

I have the honor to forward copy.

copy of a letter and its enclosure from the Collector of Salem and request that you will obtain the Boards instructions on the subject for my future guidance.

2. You will observe that the Collector of Salem considers himself precluded from collecting and forwarding to this Office the Rowannahs issued for Salt sold at the Pans within this District for sale at the various stations within the range of his Collectorate.

3. The object in issuing Rowannahs will thus be defeated both as a check on the sales at the Pans and on the sales inland by the Merchants who may possess any quantity of Salt without the least chance of discovering in case of illicit transit.

Clause II Section XIV Regulation I 1805 empowers Collectors of Revenue &c. to assist in the suppression of all illicit dealings in Salt, as far as they shall be found to prevail within the limits of their respective jurisdictions and by Clause II all Police Officers are directed on requisition duly made to assist in the seizure of Salt illegally conveyed. Implying I conclude the power of examining the Salt conveyed on the beandies and.

and ascertaining whether the quantity is the same in Amount as that stated in the Rowannah. In the Rowannahs the destination of the Salt is mentioned. So that the Merchant on arriving at his station can without any great trouble hand over his Rowanah to the Curnum or Moonsiff - who in due course can forward it to the Collector reporting at the same time if he see reason to suspect fraud. This plan will not I think offer any impediment to free trade in Salt at the same time that it enables the Collector to obtain possession of the Rowanahs by legal means with a view to forwarding them hereafter.

Extract of a letter addressed to the Board of Revenue under date the 27th September 1852.

19th January 1852. Para 2. The Circular of the Board mar-
-genally noted was not sent to me at the time of its original issue or I should have reported that the free admission of Salt was to a trifling extent perhaps interrupted by a practice which has prevailed in the District of examining at certain of the boundary towns such bandies laden with Salt as might be coming into Salem limits from the direction of Madras South Arcot and Madura.

The

3 The practice seems to have obtained more particularly at Vaniembady whence on one or two occasions I have received complaints of oppression on the part of the Salem Tannadars and Village officers in their search to ascertain whether the quantity of Salt in charge of the Handy men corresponded with that entered in their Rowannahs.

Section XII Regulation I of 1805. 4 The Regulations still in force in regard of Salt provides I am aware for the examination of that article at "Chowkies" and for the final confiscation of it under circumstances Specified - But the Chowkies thus referred to would seem to be the Chowkies formerly established for the enforcement of the inland transit laws which by Act VI of 1844 have been abolished in Inland Districts - None being now in existence in this Collectorate it appears that no means are legally at my disposal for making the examination of Salt contemplated by the Regulation I have therefore ordered the entire cessation of interference with Salt Handies entering the Salem District whether from the East or South and unless otherwise instructed by your Board

Board shall intimate to the Collectors of Singleputt, Madura and South Arcot that for the future I shall not consider myself at liberty to demand and obtain possession of Salt Rowannahs from individuals holding them, for the mere purpose of their transmission, as is now done, to the Offices from which they were issued

From the Collector
of Madura

Sir.

1- With reference to the enclosed Copy of a letter from the Collector of Salem, I have the honor to represent to the Board the uselessness and danger of granting Rowanahs for the conveyance of Salt if they are not surrendered at the place of destination and retransmitted to the Collectors of the Salt Districts. If the Rowanahs are never to be called for to grant them seems a mere waste of time and paper, and if they remain in the hands of the trader they may be used by him over and over again to cover Salt fraudulently obtained.

J.

Fort St. George 4th April 1853.

2. I agree with Mr. Phillips in his construction of Clause third Section XII of 1806 and am ready to admit that as the Law stands at present Collectors with the means now at their command have great difficulty in collecting Salt Rowanahs but I think the urgency of the case should induce some effect to provide a remedy. I would make it penal to the Trader to withhold his Rowanah after arrival at the place indicated in it or the place of Sale / should he sell the Salt on the Road / and I would make it penal also to the Heads of Villages if they suffered the sale of Salt within their limits without previous delivery of the Rowanah.

From the Collector of Madura.

Reporting on the Cultivation of Wheat and forwarding Copy of a report from the Sub Collector.

Sir,

With reference to your letter of the 12th January 1852, I have the honor to report that the Wheat Seed of which the despatch is there announced was distributed for cultivation both in the Principal Division which then comprized only lands on the Plain, and in the Sub Division containing both Hills and Plains.

2. That sown in the Principal Division generally speaking vegetated, but in no instance, which has yet been reported came to maturity.

3. From the accompanying copy of a Report by the Sub Collector it will be seen that the same result may be stated of the Cultivation in the Plains of his Division but that it succeeded very well on the Hills.

4. It should be observed that the Seed reached Madura after the

Cultivation

Fort St. George 4th April 1853.-

cultivation season on the Plains had passed and that though in good order on arrival, much of it became damaged by insects before it was possible to sow it in the Principal Division. I think however that it may be taken as fully proved that the cultivation of Wheat is impracticable in

Ramnad.
Shevagungah.
Madacolum.
Teroomungalum.
Meylaor.
Ramgherry.

and in the Plains of

Nellacotay.
Tadicomboo

but will certainly answer in the Hills and possibly in those parts of Tenkurray Tyempally Nellacotay and Tadicomboo which lie immediately under these Hills.-

5. If a further supply of seed should be supplied I request that endeavour may be made to secure its arrival at Madura early in June.-

6. I refrain from forwarding the specimens of Wheat furnished by Mr. Clarke on account of the Weight but-

Fort St. George 4th April 1853.-

but I would remark that it deserves the character he gives it.-

Madura, 22d February 1853.

(Signed) R. D. Parker
Collector.-

No. 1.

To,
R. D. Parker Esqre
Collector of Madura.

Sir,

With reference to my letter of 16th Ultimo, I have the honor to forward for your inspection and for transmission to Madras, if you deem it proper, Specimens of wheat raised from the Bengal seed forwarded with your letter of 19th January last.-

2. The seed was distributed as widely as possible to the cultivators in the several Villages scattered on the Pulney range of Hills, to some substantial ryots on the plains, and in the Cumbum Valley and to the Renter of the Seroomalai Hills.-

3. The parties were requested to experimentalize with the seed during the sowing seasons of the two Monsoons.-

4. With the exception of the cultivators on the higher ranges of

of

Fort St. George 4th April 1853.-

of the Pulneys and one or two in the Cumbum Valley the rest to whom the seed was sent either did not sow it during the early rains or failed to cultivate it with effect. Fresh orders have been sent to have the seeds still on hand sown, but I fear that the ravages of the weevil, which has made sad havoc with it, will prevent the crops being very abundant ones.-

5. The seed sown in the low Country generally failed in the blade. The Specimens from Dottamapolliem A is very inferior to that of the wheat grown on the Hills in colour, quantity and size though it is somewhat superior to the wheat and barley, hitherto raised on the Hills, Specimens of which B and C are also enclosed.-

6. The wheat grown in the Villages of Poombary, Ettoor and Vilputty is very little, if at all, inferior in quality to the seed wheat furnished from Bengal.-

7. It was raised on the usual garden land of the Villages and was not watered. The land on which

Fort St. George 4th April 1853.-

which it was sown was ploughed in in April and manured and the seed was put in the ground in July and August and received no further care till was cropped in October and November.-

8. The accompanying Table shews the estimated quantity of the produce in the several Villages from which Specimens have been received.-

9. The result of this experiment has proved so successful that I trust the Government may be encouraged to repeat it, and that the Villagers will be found less reluctant in future to avail themselves of the bounty of Government in providing them with seed.-

(Signed) T. Clarke
Sub Collector.-

No. 137.

45

To,

The Chief Secretary to Government.

Sir,

With reference to the papers Noted in the Margin, I am directed by the Board of Revenue to submit for the information of the Right Honorable the Governor in Council, the accompanying letter from the Collector of Madura dated 22d. February 1853, reporting on the result of the Experiments made in his District in cultivating the seed wheat received from Bengal.-

2. The Experiments made in both the Principal and Sub Divisions on the Plains shew that the wheat sown vegetated but did not come to maturity, while that on the Hills in the Sub Division succeeded very well.-

Mr.

B. No. 700.
To the Chief Secy. to Government.-
Submitting with the Board's observations a letter from the Collector of Madura reporting on the result of the experiments made in his district in cultivating the Seed Wheat received from Bengal and requesting another Supply of Wheat for further experiments.

From Government 5th in Cons 10th April 1851.
Do. 4 in Cons 15th July "
Do. 6th in Cons 8th January 1852.

In Cons 14th April 1853.

Fort St. George 4th April 1853.-

3. Mr. Parker reports that though the Seed reached Madura in good order, yet from it's having arrived after the Cultivation season in the Plains had passed, much of it became damaged by insects before it was possible to sow it.-

4. From the Statement annexed to the Sub Collector's letter it will be seen that the out-turn of the produce in the Villages of Poombaray and Vilpulty is satisfactory and Mr. Clarke is of opinion that the trial should be repeated which recommendation although the Collector does not appear to support, he nevertheless states, that if a further quantity should be supplied, endeavours should be made to secure the arrival of the wheat at Madura early in June.-

5. As the Board are desirous that a further Experiment should be made, they desire me to request that a quantity similar to the last supply may be obtained from the Government of India, and instructions given respecting it's despatch at proper time.-

6. I am also instructed to state for the information of Government that the Board, with the view of encouraging the

4th March 1852.
Pro. Cl. 4th March 1852.

Fort St. George 4th April 1853.

the Cultivation of this wheat, authorized the Collector to assure them, that in the event of the Experiment failing they would not be charged with the tax of the land employed to raise the wheat.-

To Salem 4th April 1853.

7. The Collector of Salem has been called upon to report the result of the Experiment made by Mr. Fischer on the Shervaroy Hills, to whom it will be observed a sack of Wheat was made over by the Collector of Madura.

Revenue Board Office, Fort St. George, 4th April, 1853.

Signed / W. H. Bayley. Secretary.

Ordered also that the following letter be sent in Consequence.-

44-46

Bd. No. 727.

To the Collector of Salem.

To, The Collector of Salem.

Sir,

In a letter received from the Collector of Madura under date the 25th Feby. 1853, he informed the Board that a sack of Bengal Wheat was made over to Mr. Fischer, who promised to try the experiment on the Shervaroy Hills and acquaint you with the result. as the Board are now forwarding to Government a report of the experiments made in the District of Madura, I am directed to request that you will call on Mr. Fischer to furnish you with the result of the Experiment instituted by him.-

In Con.l 4th April 1853.

Revenue Board Office, Fort St. George, 4th April, 1853.

Read the following letter.

No. 10.

To, W. H. Bayley Esqre. Secretary to the Board of Revenue Fort St. George

47

Bd. No. 256

From the Collr. of Tinnevelly forwarding the report called for in Board's Proceedings 12th Decr. 1850 on the Subject of indemnification on account of Moturpha being included in the Assets of the Ettiapooram Zemindary and furnishing similar information as regards other Zemindaries in the District.

Sir,

It is much to be regretted that in consequence of several of the Old English records of this District having been mislaid the Collectors from 1820 have been left to form an erroneous opinion which they have more than once signified to the Board of Revenue that the Moturpha revenue was not taken into Account in reckoning the Assets of the Tinnevelly Poligars when the permanent Settlement was made.-

To Bd. 29th Augt. 1820 Extra Revenue Report for fasly 1236 dated 1st October 1827 paras 6 to 9.-

2 After Seeking in vain for satisfactory data among the Native records of my own Office and in papers procured from the Madura District to Enable me to furnish the report called for in Extract from the Proceedings of the Board of Revenue dated 19th December 1850, regarding the reiterated claim brought forward by the Zemindar of Ettiapooram

Fort St. George 4th April 1853.

Ettiapooram for Compensation on account of Moturpha, I was fortunate enough to discover many long lost documents which put it in my power at length to comply with the Board's order just alluded to.—

3. It is now quite clear from the report of the Special Commission dated 5th April 1803 which accompanied the Board's letter to the Collector in Tillah Ramnad dated 20th June following and from Mr. Parish's letter to the Board dated 26th May 1806 Copies of the Enclosures to which I have lately been favoured with from the Board, that the Moturpha revenue did form part of the Assets on which the Amount of Peshcush for each Pollum was fixed. The Exact Amount also of such revenue included in the total Jummah being given by Mr. Parish, who must have had access to the Original Accounts, there is no difficulty in furnishing together with the reply to the order immediately under notice the information which should have been submitted in answer to the call of the Board on 7th August 1820 regarding the Compensation

Fort St. George 4th April 1853.

Compensation claimable on account of Moturpha by all the Poligars in Tinnevelly.

4. I might have proposed for the consideration of the Board and Government whether these Poligars are fairly entitled to the Compensation demanded. Since, as noticed by Mr. Parish in his letter of 26th May 1806, the Peshcush levied on their Several Estates falls short of the proportion of two thirds of the Assets, but having seen an unauthenticated Copy (of which I perceive no reason to question the Accuracy) of a letter from the Secretary to the Board of Revenue to the Chief Secretary to Government dated 6th August 1810 and of the orders of Government thereon dated 7th September following in which the similar claims of Ramnad and Shevagunga are shown to have been allowed and satisfied, and as the latter in particular stood much in the same position with the Tinnevelly Poligars as to the proportion of Assets taken for Peshcush, I presume that the question of granting Compensation has already been decided in favor of the Poligars, and that I have now only to lay before the Board what amount of reduction of Peshcush is due to each and how much has to be paid to them in Arrears.—

This

5 This information will be found in the Accompanying Tabular Statement which has been prepared in accordance with the principles prescribed in para 3 of Mr. Deputy Secretary Chamier's letter of 7th August 1820, and Compiled from the date found in the Enclosures to Mr. Parish's letter of 26th May 1806 and Enclosure A of the Special Commissioners report of 5th April 1803, and the time elapsed since the Poligars were prevented from Collecting Motursha in Fusly 1237 Combined in particular cases with accidental elements arising from remissions having been granted, depriva-tion of a Poligar &ca and trust this State-ment will be found clear and Compre-hensive enough to enable the Board and Government to pass their final orders on the Subject. It shows the reduction of Peshcush for Cottiapooram to be Rupees 21485. 4 6 and the arrears for the 25 years to be Rupees 62132 - - 6 while the total reduction for all the Polliums excluding the deprived one of Chokumpatty is Rupees 8260 3 0 and the total of arrears due Rupees 184664 11 2

A few

6 A few of the Polliums have gone out of the possession of the Original family and some are divided but if the refunds are ordered according to the list now Submitted, the proper distri-tion of the money to the parties en-titled to receive it can be determined afterwards

7 It is no importance to the decision of the question in hand why the Poligars were allowed to collect Motorpha taxes until Fusly 1236 but if an Explanation is required I believe the Boards disapproval of the Collectors interference conveyed in their letter of 20th November 1805 was the cause after which it was allowed to become customary until put a stop to under the circumstances mentioned in the Report on Extra Revenue for Fusly 1236 above referred to in the Margin.

Tinnevelly

B. No. 679.

From the Collector of Canara ——

Sir,

With reference to Paras 8 and 9 of Minutes of Consultation under date the 25th September 1852, and Extract from the Board's Proceedings of the Board of Revenue dated 4th November of the same year, I deem it necessary to report for the information of the Board of Revenue that after endeavouring to adhere as closely as possible to the instructions conveyed in those proceedings, as to the amount of Cash to be left in the hands of the Treasurer, I have found it impracticable to limit this sum strictly to the amount of the Treasurer's security—

Recommending the retention of 50000 Rs in charge of the Treasurer instead of 10000 Rs ordered to be retained by minutes of Consultation of the 16th September 1852—

2. The Treasurer whose salary is one hundred Rupees per mensem gives Security in the Sum of 10000 Rupees, while the ordinary transactions of a single day constantly require the disbursement of a larger sum of Money— The Bombay Accountant

Accountant General's Bills are often of very large amount, and I find that to act strictly according to this rule would require the almost constant attendance of a European Officer in the Treasury—

3. I have therefore found it necessary to specify the sum of 50,000 instead of 10,000 as the limit of the Cash to be kept by the Treasurer, and as business would be seriously impeded by confining the available Cash to a smaller amount I trust that this will be approved by the Board of Revenue—

Collector's Cutcherry Mangalore, —— 2d March 1853 ——

(Signed) F. N. Maltby
Collector

	1184538 3 3	1218352 13 7	60327 8 2	26512 13 10
	Deduct Decrease		26512 13 10	
	Net Increase		33814 10 4	

Salt. 2. The current Collections on account of Salt amounted to Rupees 319524 13-9 or Rupees 20119-6-2 below the preceding year.-

3. In the Inland Sales there was a net falling off to the extent of 11813 I Mds. while in those for Home consumption

consumption there was an increase of 1 Mds. 325. The decrease in the former occurred chiefly in the Exports to Coimbatore, and Mr. Conolly is of opinion that this falling off is not altogether real, as a good deal of the Salt purchased at the Inland Gollahs of Attapalom and registered for Home consumption found its way into that District surreptitiously. He mentions one instance of detection, and promises his best endeavours in Checking these frauds.-

4. The decrease of Rupees 20119-6-2 in the Collections above noticed arose partly from the reduction in the sale price of Salt at the Coast & Inland depots adjoining the Cochin Territory and partly from the Contraband traffic which was going on up to the 1st April 1852, the date of the Assimilation of the price of the Article. It is satisfactory to observe that owing to the reduced price, the sales at these Inland depots have surpassed those of the previous year, up to same period, by 1 Mds. 6399-

The

5. The sales of Salt during the fusly shew a decrease of 170 Garce below the previous year, and in the quantity purchased there was likewise a short fall to the extent of 191 Garce as compared with Fusly 1260 tho' from the high price paid for the Salt, the charges of purchase exceeded those of 1260 by 6000 Rupees—

Tobacco 6. The receipts on account of Tobacco were Rupees 56,962—11—6 or Rupees 49,763—"—3 in excess of Fusly 1260 attributed partly to the goodness of the Tobacco supplied from Coimbatore, and partly to the vigorous measures adopted for the suppression of the illegal traffic in the article—

Sayer Sea Customs & Abkarry 7. The fluctuations in the several branches of Revenue noted in the margin, call for no remark—

Small Farms Stamps 8. The increase of Rupees 1,569-2-8 in small Farms & Rupees 5,282-7-" in Stamps arose respectively from the Excess price produced by the Cardamon Farm, and the operation of Act XVII of 1848—

Motiurpha 9. The demand on account of Motiurpha was Rs. 111502—11—7 or Rs. 1,426-9-5 below that of the previous year, and

and is ascribed to the discontinuance of the demand of the tax on houses not exceeding half a Gold Fanam, and the Annual remissions on account of Shops professional implements &c. &c.—

To Govt. 23d April 1852 in Cons 6th May " 10. Of the balance of Rs. 2391—3—5 outstanding at the beginning of Fusly 1261 the sum of Rs. 1035—13—3 was Collected within the fusly, and Rs. 176—"—5 were written off leaving a balance of Rs. 1179—5—9 to be still realized. From the last named amount, Rs. 320—13—1 are deemed irrecoverable, and the Board recommend that the Collector may be authorized to write off the same in his accounts.—

Balance Rs. Abkarry 3141—11—4; Sundry small Farms & Licenses 1365—6—5; Motiurpha 438—5—7 11. Of the total demand Rs. 1213,407-6-3 were collected within the fusly leaving a balance of Rupees 4945—7—4 to be recovered hereafter—

12. The charges for the year were Rupees 57,119—3—3 above that of Fusly 1260 and arose from the enhanced price paid & a much larger quantity having been sent up to the Inlanders Gollahs, as well as to Excess quantity of Tobacco purchased for the Monopoly, and the increased price charged for the Article—

Salt
Fusly 1260 Rupees 23—15—6 Ft. Garce
Fusly 1261 " 27—14—7 " "

Tobacco
Fusly 1260 " 29—15—" per Candy
Fusly 1261 " 36—2—7 " "

13. The whole of the Collections including Current Extra & arrears Amounted to Rs. 1211,612-13—5, from which the Charges Viz. Rs. 27,092-3—4 being deducted there remained a Net Revenue of Rs. 94,520—10—1 or Rs. 28188—6—" below that of Fusly 1260

Ordered that a Copy of the foregoing Extract with the annexed Comparative statement of the Collections, charges and Net Revenue be submitted to Government and transcript of the same be furnished to the Collector of Malabar for his information and guidance

Fusly

Bd. No. 772
From the Collector of
Malabar ——
No. 1418 Dated 7th March 1853.

Sir,

I have the honor to submit for the information of the Board copy of a communication with its accompaniment from the Secretary to Government Bombay, my letter to which he refers having been forwarded to you with my letter of the 10th Ultimo No. 21.

Calicut ——
16th March 1853

/ Signed / H. V. Conolly
Collector

Encr. No. 1
No. 1418.

To H. V. Conolly Esqre
Collector of Malabar

Sir

With reference to your letter No. 196, dated 3d Ultimo, I have been directed to forward, herewith, Copy of a report made thereon by the Acting Collector of Salt Revenue, Bombay No. 138, dated 22d Ultimo, and to inform you that the Right Honorable the Governor in Council fully concurs in your objection to using different sized measures

measures and that it is preferable to grant a greater allowance for wastage.

2 His Lordship in Council has directed the Collector of Salt Revenue to allow as far as 10 per cent.

Bombay Castle
7th March 1853

/ Signed / H. E. Goldsmid
Secretary to Govt.

No. 138.
Territorial Department
Revenue.

No. 2371–28
December 1852.

1 The Collector of Malabar, it would appear, originally required 2000 Garce of Salt or Indian Maunds 24,0000—

2 Up to the present date Indian Maunds 184730 have been exported from Bombay to the Collector of Malabar, and I conclude, therefore, that Mr. Conolly will be able to supply himself with such quantity of Salt as may be required without any assistance from Government.

3 I have sold all of the Salt belonging to the Government Pans because, as a very fair price was offered for it, and as a moiety of the proceeds belongs to the Salt makers, I did not consider that I should be acting fairly towards them if I postponed the sale merely on the chance of Mr. Conolly

wishing

wishing to purchase any portion of the Salt-

There is a large quantity of Salt belonging to private individuals at Salsette and Coringa, and therefore should Mr. Conolly still require any, it might be purchased from those places—

5 With reference to para 2d & 3d of the letter under reply I would respectfully beg to urge that if Mr. Conollys experiences any difficulties in procuring Salt, it is for him to ascertain the cause of those difficulties every facility is given by this Department to shippers of Salt, and if therefore at any time, shippers are unwilling to send Salt to Malabar; it may I think, be fairly assumed that either a sufficiently high price is not given by Mr. Conolly, or there are some difficulties unconnected with this port for instance say bad anchorage on the Malabar Coast difficulty in obtaining

obtaining small boats to land the Salt- delay in the weighment of the Salt and receiving it at the Government depôts or delay in the payment for the Salt &c &c &c—

6 I see no objection to the suggestion conveyed in the closing paras of Mr. Conollys letter, Viz.t to measure the Salt in Indian Maund measures of 2924 Cubic inches, and then in settling the accounts with the exporters to allow wastage to the extent of 10 per cent or there abouts at the discretion of the Collector of Salt Revenue—

Resolved

Fort St. George 4th April 1853.

Resolved that the following letter be despatched.
No. 133

58

B. No. 709.
To the Chief Secretary to Government.

To, The Chief Secretary to Government.

Sir,

I am directed by the Board of Revenue to submit for the information of the Right Honorable the Governor in Council the accompanying General Statement prepared in the usual form from the monthly accounts, shewing the Collections of Ordinary Revenue from 12th July 1852 to 31st January 1853 of Fusly 1262 compared with the Collections in the same period of Fusly 1261.

A

Abstract B. shews a net Decrease of Rupees 3,17,032-12-7 resulting from a net Decrease of Rupees 3,57,066-13-5 in the Collections of Land Revenue and a net Increase of Rupees 40034-10-10 in the Collections from Extra Sources of Revenue.

2.

Decrease in the Collection of arrears ---- 243,987-1-4
Dc in the Collections of Current ---- 113079-12-1
3,57,066-13-5

3

Abstract C. shews the Increase and Decrease in the Collections of Land Revenue and the Revenue from Extra Sources in the several Districts.

4.

The Board regret that these Statements should appear so long in arrear. The Demand Collection and Balance Statements of January should arrive at the Boards Office by the 25th of the following month whereas many have arrived on the 7th and 12th and even 15th of March.

5.

The Board have endeavoured without effect to obtain a more regular transmission.

Revenue Board Office,
Fort St. George, 4th April, 1853.

Foot Note to Statement

In Rajahmundry no explanation is given in the Statement of the cause of the large decrease in the Collections of Land Revenue. The Collector has been called upon for explanation.

In North Arcot the decrease is in the Collections of Current and arrears. The former is attributable to non-receipt of the remittances from the Talooks upto the end of the Month under notice and the cultivation being less than in last year whilst the decrease in the latter arises from the demand on that account being less.

In Cuddapah the decrease chiefly occurred in the collections of arrears which is owing to the small amount of arrears outstanding at the commencement of the fasly.

In Chingleput the decrease has occurred consequent on the limited demand for Salt owing to the difficulties experienced by the Merchants in proceeding to the pans from the heavy fall of rains.

(Signed) W. A. Bayley
Secretary.

Diary

Received the following letter—

No. 26
To W. H. Bayley Esquire
Secretary to the
Board of Revenue,
Fort St. George.

1
Bd. No. 878
From the Collector & R. Trichinopoly
Soliciting Board's permission to levy single crop tax for this year on all the Topes and Do Gardens assessed with high Peer-wah called Vami Jegre under the circumstances Reported.—

Sir,

Your Board must be aware that I am at the present time in the midst of the Annual Settlement of this District for Fusly 1262 and it is of great importance for me to obtain your Board's sentiments and orders on the following point.—

2 I have already reported the awful visitation we have experienced here by the hurricane of the night of the 27th ultimo, as well as the prospect of losses sustained thereby.—

Almost the entire Plantain topes and Betel gardens of the Country have been destroyed throughout the District. In most the ryots have not reaped any benefit, the plantations being young. In some a little

little fruit and produce has been gathered. But now all are laid low—

3. The cry for remission is both earnest and lutions and as your Board are aware this description of product is assessed at a high rate under the term of Vanpyre, I would beg most earnestly to solicit permission for levying only the single crop tax for this year on all these Topes and gardens found to be destroyed.—

From Rs. 14 to 22

4 I make this application in anticipation of my promised report on the damage and injuries of the late Hurricane and I hope your Board will favor me with a speedy reply, in order that I may allay the anxieties of the Ryots growing Betel and Plantains.

I have &c.

Tuticorin Collector's Office 1st April 1853.

(Signed) I. Bird. Collector.

Bd. No. 694 Proceedings thereon—

(1-2)

The Board of Revenue have no hesitation in granting to the Collector authority to levy only the lower rate of teerva on all topes and gardens seriously injured in the late Hurricane and where such Topes and Gardens are proved to the Collector's

Collector's satisfaction to have been destroyed, the Teeruah should be remitted altogether

---

Read the following letter.—

No. 25

To, W. H. Bayley Esquire
Secretary to the
Board of Revenue,
Fort St. George.

(3)

Bd. No. 887

From the Collector of South Arcot

Reporting that the District was visited by a storm which has proved disastrous to the shipping and Cultivating interests and also that it has impeded the Manufacture of Salt.—

Sir, I have the honor to report that this District was visited by a severe Storm on the 27th and 28th Ultimo which has occasioned much injury both by Sea and Land.—

2 The storm began from the North East quarter, and as the wind veered during its progress to the South East this Coast became a lee shore, and is strewed with the wrecks of European and Country Vessels which were unable from the violence of the gale to get to Sea, on this subject I have made a detailed report to the Marine Authorities.

3. By land the force of the Storm was most felt in the Southern Talooks although

although it extended throughout the district &c and it was attended with heavy rain which brought unusually high floods in all the rivers. The Ryots have consequently sustained much loss in the destruction of fruit Trees and Cattle and in injuries to their dwelling houses and grain heaps.—

4 The interests of Government will suffer much from the Storm in the Marine and Salt Departments. In the former the principal damage yet reported to me is the fall of 3 Arches of the Vellaur Anicut Bridge on the night of the 29th Ultimo. When the flood in that river subsides extensive injury must be anticipated to all the irrigation works as the fresh was of unusual height and force and carried an inundation close up to Chellumbrum town. In the Coleroon also a considerable fresh came down which has injured the Maramut works in progress and destroyed a considerable quantity of raw bricks and Chunam. Under these circumstances it is to be regretted that in consequence of Captain Smyth's illness, and his not having an Assistant, there is no Engineer Officer on the spot connected with the 5th Division. The

5. The Gaddelum and Pennaur rivers also came down in unusually high floods, and the general communication is so much impeded that three days Cappals are now due from Madras.—

6. Under the above circumstances the Board will be prepared to hear that the Salt Manufacture is totally interrupted and that some time must elapse before it can be recommenced. As the Stock of Salt in the District had become exhausted, every exertion was being made to obtain an early supply and considerable progress had been made in the Manufacture when this Storm flooded the pans with fresh water. A similar impediment occurred last year and defeated the endeavours which were made to carry out the orders of Government and of Manufacture a stock equal to the consumption of the District for two years.—

Letter to Board 11th October 1852 para 7.

7 As the Stock on hand is limited to 138 Garees and the pans cannot now be worked for Six Weeks, I have requested the Collector of Tanjore to inform me if he can send me a supply by Sea and I shall address

address the Board again after receiving his reply.

(4)

Bd. No. 868

From the Collector of Tanjore,

Sir,

I regret to have to report to the Board that the Storm of the 27th and 28th Ultimo caused very serious damage to property in this District. The crops had been almost entirely reaped, but in many instances the grain had been left on the threshing floors in the fields and has been carried away in the flood. The loss of Cocoanut, Mango, Tamarind and other fruit Trees has been great and the people have also suffered much in the destruction of their houses. The Government property in this Town has not escaped, the Servants have

been obliged temporarily to vacate the Cutcherry, and the upper story of the building has been entirely blown down.

From the Collector of Bellary

Submitting an application from C. R. Pelly Esqre applying for an extension of leave under Medical Certificate for four Months.

To
C. R. Pelly Esquire
Collector of Bellary.

Sir,

I have the honor to request you will have the goodness to forward my application for an extension of leave of absence on Medical Certificate for a period of four Months under Section V VII of the rules for sick leave.—

I have also the honor to forward herewith in Duplicate the Medical

Fort St. George 1st April 1853.

Medical Certificate on which I ground this application signed and Countersigned as directed in Section V and to request you will have the kindness to send the same to the Medical Board.

Neewera Ellia, Ceylon, 15th March 1853.

(Signed) Chas R. Pelly.

No. 1

Medical Certificate

Charles Raymond Pelly Esqr Assistant to the Magistrate and Collector of Bellary having applied to me for a Certificate on which to ground an application for leave of absence. I do hereby certify from personal observation that he is suffering from the effects of inflammation of the Liver and repeated attacks of severe Bilious fever contracted in India together with great derangement of the function of the Stomach and Liver also an irregular constipated state of the Bowels, the Symptoms of which are occasional attacks of fever characterized by heat of Skin, quick pulse, foul tongue, constipated Bowels, intense headache &c. &c. &c. followed by great debility and prostration of strength, appetite capracious, digestion impaired and Bowels sluggish.

Fort St. George 1st April 1853.

This Officer has been under my care for several weeks during which time he has had a dangerous attack of Bilious fever and was some days in a very critical state the prominent Symptoms in the attack were intense heat of Skin, obstinate headache, rapid pulse, dirty yellow brown tongue, constipated loaded condition of the Bowels. Since this attack his general health is very imperfectly restored and the return to India at the expiration of his present leave, under these circumstances will in my opinion be attended with considerable risk and in consequence I consider an extension of the leave already granted necessary for the benefit of his health, and that he should be permitted to be absent from his duty for a further space of 4 Months to reside at the Sanatareium at Neewera Ellia

Neewera Ellia — Ceylon March 17th 1853. (Signed) H. Mark. Webb M.B. London Army Medical Staff.

Approved
Signed Andrew Ferguson M.D.
Depy Inspector General.

Forwarded by the Collector of Bellary to the Board of Revenue.

The Collector begs to recommend that Mr C R Pelly's application for extension of leave may be complied with. The Medical certificate is enclosed as it does not appear to the Collector that it should be sent to the Medical Board see Section V 2nd of para 1 of the absentee Rules.

Fort St. George 7th April 1853.

Read the following Extract.

Revenue Department.

(14)

Bd. No. 767

No. 309.

From the Secretary to Government.

Extract from the Minutes of Consultation, Under date the 19th March, 1853.—

Reviewing the Settlement Report of Cuddapah District for Fusly 1261 and Sanctioning the writing off in the Accounts certain irrecoverable balances.—

Read the following Extract from the Proceedings of the Board of Revenue.—

/Here enter 17th February 1853 No. 311/

Para 1.

The season of Fusly 1261 in the Cuddapah District is represented as having been upon the whole favorable. The Cotton and other dry Crops yielded good returns and though the produce of the wet lands was scanty in some Villages these were exceptions to the general state of the District.—

The year was not unhealthy

2. Fever and ague occurred but not to an unusual extent, and cholera broke out in some Talooks but was not very destructive. There was however a considerable mortality from small Pox in the Sub Division. The Board notice with deserved approbation the exertions made by Mr. Forbes to promote and diffuse the practice of Vaccination and they add the expression of their opinion that the system adopted by him of requiring a Vaccinator

Fort St. George 7th April 1853.

Vaccinator to accompany his Cutcherry during the Immunabundy tour is one which might be generally followed with advantage. In this the Government quite agree, but they think that a Vaccinator might very properly accompany both the Collector and Sub Collector not only during the annual Settlement but on any other occasions on which they may make tours of any duration in their several charges, and that every means should be taken to impress the Ryots with the utility of the operation and to make it popular among them. An Apothecary or Dresser is also now attached to every Collectorate and Sub Collectorate and it should be understood that their services are not to be confined to the Collector or Sub Collector and his establishment, but should especially when the Cutcherry is on Circuit, be made available for the relief of all classes of the Natives within their reach, by which means much suffering and misery might be removed or alleviated. The sick should be invited to come to them and advice be freely given and medicine dispensed.

Cotton

Fort St. George 7th April 1853.

3 Cotton this somewhat lower than in Fusly 1260 commanded a much better price than in any other of the preceding 10 years. The prices of all the other kinds of produce were below the average of the last five years and for the most part also below the rates of Fusly 1260.—

The Settlement was thus formed.

4

	Rupees.	Increase or Decrease compared with Fusly 1254.
Dittum	2,93,340	— 12,968
Deductions on lands left waste in whole numbers	34,311	+ 24,389
Remaining	2,59,029	— 37,357
Established remissions and other deductions	6,80,369	— 7,374
Remain		
Land Sown 1,83,713		
Waste brought to account 5,904		
	1,89,617	— 29,983
Concealed Cultivation	717	+ 2,362
Enamity Jodi &c.	1,63,925	— 4,320
Peishcush	77,198	+ 1,000
Total	21,38,600	+ 30,941

Ex. Min. of Cons: 23rd September 1852. Para 47 Report P. 12. 13

The result is a net decrease of Rupees 30941 below the outturn of Fusly 1260 which however was a very favorable year. The decrease has occurred mainly in the wet lands and under the head

Fort St. George 7th April 1853.

head of Teeroa Jasty and has arisen from the injury done to the tanks, Channels, and in some cases, to the land itself by the storms of May 1851, and in part as regards the Teeroa Jasty to the remissions granted on certain basket wells.

5. The Cabooleat Kunger is larger than in the preceding year. It is observed the remarks of Government in Parah Extract Minutes of Consultation 28th September 1852 were not recorded until after the close of the year under report.

6. There was an increase in the Indigo and Cotton Cultivation and a falling off in that of Sugar Cane as compared with the preceding season. The Board remark that taking the Cultivation of the year under review these descriptions of crops bore in a assessment a proportion to the whole cultivation of the District, of Indigo 4 per Cent, Cotton 3. 11 and Sugar Cane 1–3–2. From the table given in Para 25 of Mr Forbes report it is perceived that the extent of land Cultivated with Indigo bore to the whole breadth of the Land

Para 10

Fort St. George 7th April 1853.

land under tillage in Fusly 1261, Sircar and Enam, the rate of 1–15 per Cent and that with Cotton 5–2 per Cent.–

7 The Assessment on the Sircar land Cultivated in the year under review bore to the assessment on the entire Sircar Ayacut or Cultivable area the proportion of 57½ per Cent. In the Enam lands including the Poonganoor Zemmindary the per Centage was 76–1–6.

8. The Collections were.

	Within the Fusly	Subsequent to 25th Septr 1852	Balance
Current	2,12,4,511	23,198	10,391
Arrears	14,816	884	16,802

9 The charges of all kinds Rs 34,6,626 bore to the Collections of land revenue the rates of 15–2–6 per Cent. If the calculations be made as the Board justly remark, it should have been upon the revenue realized under all heads, the proportions will fall to 13–14. The charges however include Pagodas and Mosque allowances

allowances, and compensations in lieu of presumed lands, Offices and privileges Rupees 9,348 which are charges on the revenue. Deducting these the remainder or the charges of Collection and administration Rupees 2,52,778 bears to the entire revenues of the year Rupees 24,98,578 the rate of 10 per Cent.

There is a considerable increase under the head of Maramut rendered necessary by the storms of May 1851.

10 The Right Honorable the Governor in Council grants authority for writing off in the accounts of the Cuddapah District the arrears of land revenue of former year reported to be irrecoverable, amounting to Rupees (16,195-95) Sixteen thousand one hundred and ninety five, Annas. Nine and Pice five.

Board's Rc. para 12

11 The demand on account of the land and Extra Sources of revenue for the two years fusly 1260 and 1261 was.—

	Fusly 1260.	Fusly 1261.	Increase or Decrease of Fusly 1261 Compared with Fusly 1260
Land Revenue —	21,89,541	21,58,600	+ 30,941
Extra Revenue	3,13,049	3,16,784	+ 3,736
	25,02,590	24,75,384	27,205

the

the Settlement under all heads for the latter Fusly falling below that of Fusly 1260 in the sum of Rupees 27,205.

From the Secy. to Government

Communicating the opinion of Government on the Extracts from the Proceedings of the Court of Fouj-daree Udalut relative to the differences that have arisen between the Sessions Judge and the Magistrate of Coimbatore regarding convict labour and some other points.

Fort St. George 7th April 1853.

N. 167.

Extract from the Minutes of Consultation in the Judicial Department Under date the 22d March 1853.

Read the following Papers.

From the Acting Register of the Foujdaree Udaulut / Here enter 4th Feb. 1853 N. 15 /

+ + +

In this letter, the Foujdaree Udalut give their opinion on the questions submitted by the Collector of Coimbatore in the letter laid before the Board of Revenue with an Extract from their Proceedings dated the 6th December last.

Para 1

These questions are 1st whether the Town of Coimbatore is to be considered to be under the charge of the Collector of the District, or to be under the charge of the Sessions Judge. 2d whether the latter Officer is at liberty to work convicts in the Town entirely independent of the Collector or whether the concurrence of the Collector is necessary for the execution of all Public works carried on in the Town 3d what portion of the Prisoners in the Jail the Collector may fairly ask the Sessions Judge to place at his disposal for public works. 4th whether the Sessions Judge after having placed a certain number

number of Convicts at the Collectors disposal can afterwards interfere in the details of the work they are employed on by the removal of a portion of the Convicts or in any other way or whether such work should not be left to the direction and responsibility of the Collector."

3 In reply to the two first of the above queries, the Judges of the Foujdaree Udalut have given their opinion that the charge of the Town for all municipal purposes must be held to be vested in the Magistrate but that the profession of this authority by that Officer cannot be deemed to preclude the Officer in charge of the Jail from working the prisoners upon the roads in the Town or on any other public works upon which their employment may not be objected to, in accordance with the terms of their sentences which he is bound to carry out, and though the Magistrate is of course entitled to state his objections to any works upon which the prisoners may be employed or to suggest others to which their labour may be beneficially directed, the Judges consider that in the absence of any such objections or suggestions on the part of the Magistrate the Sessions Judge is bound to find work for the prisoners within the

town or in its immediate neighbourhood and that for this purpose the concurrence of the Collector and Magistrate is clearly not required.

4 The Government agree with the Judges that the charge of the Town for all municipal purposes must be held to be vested in the Magistrate. This is clearly the intention of Act XXI of 1841 referred to by the Board of Revenue. The opinion expressed in the latter part of the Extract above quoted seems however to require being taken with some qualification. The Sessions Judge is indeed bound to find work for the prisoners within the Town or its immediate neighbourhood but it will not follow that for this purpose the concurrence of the Collector and Magistrate is not required. It seems to Government that it is required and this is indeed implied by the very terms in which the Judges express their opinion for they say it is in the absence of objections or suggestions on the part of the Magistrate that the Sessions Judge is of himself to find work for the prisoners in the town. The absence of objections or suggestion amounts to concurrence. But the rule should be laid down clearly. It should be declared that the Magistrate being vested with the

charge

charge of the town for all municipal purposes is the officer to direct to what purposes the labor of the Convicts whom the Judge, the officer in charge of the Gaol is desirous to employ in and about the town should be applied. It would be quite inconsistent to allow the Judge to devise plans of his own for the improvement of the Town not in harmony with those of the officer in charge of it, and to carry them into execution whether the Magistrate concur or not. The Judge indeed is required by law to work the convicts in his Gaol, according to their sentences on the public roads or other public works. but this does not give him power to deal with the roads or other works as he pleases Unquestionably the Collector as the executive representative of Government is in that capacity vested Ex Officio with the charge of the public works, including the roads of the District and where the Judge employs the convicts on public roads without the express consent of the Collector, it must be on a tacit understanding that the Collector consents to his working them in this manner at his discretion, that his consent is to be presumed where no objection is made.

On

5 On the two last questions submitted for their consideration the Judges observe that it does not seem expedient to lay down any fixed rule as to the proportion of Convicts the Magistrate is entitled to have placed at his disposal for the execution of such works as he may consider requisite. In the opinion of the Judges of the Sonjdaree Adalut it must be left to the discretion of the Sessions Judge to comply with the requisitions made to him by the Magistrate for convict labor, it being open to the latter officer to appeal to the Higher Court in the event of his application being unduly disregarded by the Sessions Judge, but they consider that when a Gang of prisoners may have been, at the requisition of the Magistrate, detailed for any particular work, they should not under ordinary circumstances be removed from it until it is completed, and that in such cases the Magistrate's views in regard to the execution of the work should be duly attended to, but that the direction of all details must be left to the Officer in charge of the Gaol. it being open to the Magistrate to offer such suggestions as he may think requisite to ensure the proper performance of the work." In these views

the

the Government concur.

6 Lastly the Judges remark that "adverting to the relative position of the Sessions Judge and Magistrate as respects the matter under notice, it is impossible to lay down any definite rules which shall prevent the two authorities from clashing unless both of them be determined to co-operate cordially for the advancement of the public interests and to waive any unimportant differences of opinion which may exist between them in regard to the comparative utility of their respective projects."

7 The Right Honorable the Governor in Council entirely subscribes to the Justice of this remark. He has perused with much regret the Contracts from the proceedings of the Court of Foujdaree Udalut transmitted with their Acting Register's present letter and recorded on the subject of the differences which have arisen between the Sessions Judge and Magistrate. The Judges have reversed the sentence passed by the Magistrate condemning the Shenistadar of the Zillah Court and his brother for the Offence of Calumny and have disapproved of his acquittal of the Jemadar on the charge

charge of having defrauded the prisoners under his control of a part of their food, they have also reversed a Sentence passed by the Judge on the same Jemadar.

8 As far as an opinion can be formed without a view of the record on the cases it appears to Government that the Sentences passed upon the Shenistadar his brother and the Jemadar were properly reversed and that the Magistrate's acquittal of the Jemadar was disapproved for good reasons and they are constrained to say that the proceedings of the Magistrate appear to have been very blameable and deserving of severe animadversion.

9 The Foujdaree Udalut have recorded their opinion that the tenor of the communication addressed by the Sessions Judge to the Magistrate in conveying to the latter Officer the orders of the Higher Court was extremely objectionable, and was by no means calculated to produce that cordial cooperation on the part of both Officers which it was the desire of the Court of Foujdaree Udalut to receive. The communication which is thus commented on is not before Government and they have therefore no

Pro. 6th Nov. 1852 Para 3.

Proceedings of Forj: Udt. 13th Novr 1852 Para 19.

no knowledge of the particular points which have elicited the disapproval of the Forjdaree Udalut. It would seem however, that the Judge departed from the prescribed mode of communication in regard to the cases pending before the Magistrate making them the subject of correspondence by letter in place of addressing to the Magistrate by Precept the orders which were required under the circumstances and that the lengthened controversy which has occurred between the two Officers is in a great measure to be attributed to this irregularity. The observation of the Forjdaree Udalut on this head should be carefully attended to by the Sessions Judge for the future—

10 The matters at issue between the Judge and the Magistrate have been disposed of authoritatively by the Forjdaree Udalut in the exercise of their controlling power, and the papers have been submitted for the information not the orders of Government. The Right Honorable the Governor in Council will therefore content himself with recording the above remarks and with the expression of his hope that Mr Thomas and Mr Rousell forgetful of all previous differences will assert themselves in a spirit of

of conciliation and good feeling to cooperate for the public service, but he must at the same time, add that should these unhappy disagreements again occur, the conduct of the party or parties in fault will be severely noticed, and such arrangements made as will prevent these differences from obstructing further the public service.

11 The Governor in Council would wish for the opinion of the Forjdaree Udalut as to whether on consideration of the evidence they have had before them relative to the behaviour of the Pensioner, they deem it a fitting, that he should be continued longer in public employment.

Bd. No. 874.
From the Actg. Collector of Guntoor. - 31.

Stating with reference to the Extract from the Proceedings of the Board of Revenue dated 20th January last that he is of opinion that considerable advantage would result from the Management of the Salt Revenue in each Coast District being placed under the sole charge of an Officer of experience.

Sir,

I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue under date the 20th January last.

2. Adverting to the question raised by the Honorable the Court of Directors in Para 12. of their letter of the 31st August 1852, Extracts from which accompanied the proceedings referred to, I am of opinion that considerable advantage would result from the Management of the Salt in each Coast District being placed under the sole charge of an Officer of experience. To this however the great additional expence would, I fear, be an unsurmountable objection, and I do not consider any greater degree of efficiency in the Management of the branch of revenue under consideration would be attained if the extent of charge placed under each Superintending Officer is much larger than is now under the Collector of each District.

It

Fort St. George 7th April 1853.

3. It would, I think, be a good arrangement to place the large Salt Stores at Chena and Peda Ganjam in this District and those of the Pauduty Division in Nellore which the Board are aware are close to the Stores mentioned and very distant from the usual place of residence of the Nellore Collector, under an Officer resident on the Spot, who might also exercise a supervision over the two other small Stores in this District, but the charge of the remaining Stores in Nellore should be entrusted to another Officer under whom the Stores in the North Arcot and Chingleput District, which are in the close vicinity of the most Southern Cottars of the first named Province might also be placed.

4. I do not see that any advantage would, as far as this District is concerned, be gained by placing the Salt Carry revenue under the Management of a distinct Officer.

Fort St. George.-

(34)

Bd. No. 799.
From the Agent at Kurnool.

Sir,

Adverting to my letter of the 9th Instant, requesting sanction to disburse to a Yeomialdar, named Syed Mafsoom certain arrears of Yeomiah due to him, I have the honor to request, that the Board may be pleased in forwarding the application to the Government to obtain sanction that the payment of the Yeomiah may in future be made from the Treasury of the Resident of Hyderabad, as has been conceded in the case of 2 other sharers in the same Yeomiah.-

Esct. Mins: of Cons: dated 19th February 1853. No. 202

Syed Azum
Syed Mahomed.

2. When I submitted the Application of Syed Mafsoom for payment of the arrears due to him he had expressed to me no wish to have the payment of his Yeomiah transferred to the Treasury of the Resident of Hyderabad, but, he has now done so, and as he is also in Service in the city of Hyderabad as a Bargheer, I beg to recommend that his request may be complied with.-

Kurnool District,
Government Agent's Office,
On Circuit Nundial,
20th March, 1853.

(Signed) T. Conway.
Agent to the Governor-

Bd. No. 734.

Proceedings thereon.

Submitting letters from the Agent at Kurnool recommending the payment of arrears due to certain Yeomialdars also to transfer the payment of a Yeomiah from Kurnool to the Treasury of the Resident of Hydrabad and recommending the Agents request be complied with.-

33.35

4106 Fort St. George 7th April 1853.-

No. 142.

In the first of the letters above recorded, the Agent reports that arrears to the amount of Rupees 19. 8.- after deducting Rupees 3. 4.- paid for certain Doroos Cere:monies, have accumulated from 1st November 1851 to 31st December 1852 in favour of Syed Mafsoom one of the 5 Sons of the late Ahmed Shah, who enjoyed a Yeomiah of Rupees 97- 8- which, on his death was equally distributed among his Sons as per:sonal Grants for subsistence, agreeably to Extract Minutes Consultation dated 4th March 1850 para 7; and requests sanction for the payment of the same.-

2. As the reason assigned for the non-appearance of the Yeomialdar to draw his allowance at the prescribed periods, viz. his absence at Hyderabad, appears to be satisfactory the Board recommend that sanction be granted for the disbursement of

Fort St. George 7th April 1853.-

of the arrears amounting to Rupees 19-8-0

3. They would also submit for the favorable Consideration of Government, the request preferred by the Yeomiahdar to have the payment of his allowance transferred from Kurnool to the Treasury of the Resident of Hyderabad, as stated in Mr. Conway's letter of the 20th March 1853. The Yeomiahdar being employed in the City as a Bargheer will be unable to obtain leave of absence at the periods prescribed for his appearance, and will thus have to submit repeated applications for arrears. The Board would therefore recommend that if the Resident has no objection to make the payments from his Treasury he may be requested to do so on being furnished with the descriptive rolls and certificates directed by the Yeomiah Rules.

From Govt. 15th Cons. 31st March 1853.

4. The Board observe that a similar arrangement was lately sanctioned as regards the allowances enjoyed by two of the brothers of the present applicant, namely Syed Azeem and Syed Mahomed (Extract Minutes Consultation 15th March 1853.-

(36)

Bd. No. 885.

From the Collector of Chingleput.-

Sir,

In reply to Para 2 of your Circular under date the 12th August 1852, I have the honor to state that there are no restrictions in this District to the free admission of Salt from the pans of the neighbouring Provinces, or to the free traffic in Tobacco wholesale or retail, and that no fees of any description are levied from Cartmen &c. by compelling them to resort to particular enclosures provided for them. It is usual with the village and Talook Authorities to demand parties conveying Consignments of Salt to produce their Rowanahs in the event of their seeing grounds for suspicion, and it is also usual to require such parties to deliver up their Rowanahs on their disposing of the Salt, but these measures are necessarily called for to guard against illicit sales.-

Bd. No. 873.
From the Collector of Trichinopoly.

Sir,

Para 1. In obedience to the requisition contained in Extract from the Proceedings of the Board of Revenue, dated 21st Ultimo, I have the honor to submit a report on the operation of para II of the Rules in respect to the personal appearance of all female pensioners above the age of fifty years.-

2. There can be no question that the Rule is unpalatable to the class of females affected, and that it operates severely in many cases, where the recipients of pensions forego their Stipends rather than subject themselves to the painful exposure of appearing at a Public Office.-

3. The accompanying Statement will shew to your Board that about one half of the Females appear, the others have virtually given up their pensions by non-appearance.

Trichinopoly Collectors Office, 1st April, 1853.

(Signed) J. Bird.
Collector.

B. No. 603
From the Collector of Madura.

Sir,

In my letter of the 2d August 1848, I mentioned that none of Mr. Hurdis' Reports for 1212 are upon my records. In their Reply of 25th September following the Board informed me that neither on their Records could any Report be found calculated to aid me in the researches in which I was then engaged for the purpose of ascertaining whether reduction should be recommended in the Peshcush of Pollams under resumption; but it was not distinctly stated that no Report for Fusly 1212 could be found. If any special Report on the Fysul settlement made in 1212 Fusly or Summabundy Report for that Year is forthcoming, I shall feel much obliged by a Copy.-

B. No 551

From the Collr of Malabar

Requesting instructions as to the payment of the Mali Kanah allowed to the Parpunnaad Rajahs family which has

Sir,

A Mali Kanah of 4,114 Pr 4-8 per annum is allowed to the Parpunnaad Rajahs family. The family for the last fifty years has

has been undrawn since September 1849.

has separated into two Branches each of which has enjoyed a moiety of the MalikKannah.

2 Both branches agreed in 1824 to adopt heirs from another family and under the sanction of Government dated 3d October 1843 five individuals were accordingly introduced into the Parpinaad family.

One of the Branches has entirely died out, and the moiety of MalikKanah formerly enjoyed by its members has lapsed to the adopted heirs.

The Second Branch has dwindled away to one Survivor.

3 And now comes the reason which has led me to trouble the Board with this detail.

A quarrel has arisen between this sole survivor of the 2d Branch and the adopted heirs as to the mode in which the MalikKanah attached to this Branch should be disposed of.

The said Survivor declares that he, as the natural head of the Branch, should have its sole use during his life time after which it should descend to the heirs.

The heirs insist that they should have a share of it now on the ground that at the time of their adoption and at various times afterwards, it was agreed they should have

peculiar advantages in consequence of the benefits which their wealth and pure blood brought into the Parpinaad family.

The first was of use to pay off debts contracted by the old family.

The second to wipe out the stain which the Parpinaad family had incurred in consequence of its predecessors having been subjected by Tippoo to forcible circumcision.

4 There is no doubt that the old family did benefit, according to native ideas, in the second point, as well as in the first, and it may be unreasonable that the surviving Rajah of the 2d branch of that House should hesitate to fulfil the private agreements which bind him and the adopted heirs together.

5 But it seems doubtful to me whether the Government can interfere and whether the Rajah, may not insist on having the sole use of what has been so long appropriated to the branch of which he is the only natural representative now alive.

6 It is necessary to obtain orders on this point, inasmuch as pending the quarrels between the Rajahs, which I have tried in vain to accommodate the MalikKanah has been

Fort St George 7th April 1853.

been undrawn since September 1849.

thereon. Mr Connolly will be good enough to inform the Board of the names of the Branches and parties referred to in paras 1 and 2.

2 The orders of Government quoted by Mr Connolly had reference to a claim set up by an adopted Member (name not known) of the "Pyonjerry" Colote in opposition to the 3 nephews of the deceased Curry Coory head of the Poothee Colote The Board do not therefore perceive how such individuals were introduced into the Family. It is also required to know if the adopted heirs, who insist on having a share of the Mali Khana attached to the 2d Branch have had any share of it hitherto.

Diary

8th April Received the following letter

No. 49

To W. H. Bayley Esquire
Secretary to the
Board of Revenue

1
Bd. No. 916
From the Asst. Collector
of Madras

Sir,

The Extract of the Board's Proceedings dated 29th reached me on the 30th Ultimo when I wrote as directed to the Collectors of Chingleput and Nellore. From the former I have today received information that 200 Garce of Salt the quantity mentioned by me can be supplied from Poongalum by the Canal and I have ordered boats to be sent for it by the Boat Contractor immediately. This supply will I think allow us to sell without limitation for Madras consumption, and in a short time when the new Salt is yielded from our own pans to resume Inland Sales.

2 But considering the advanced period of the present season and the prospect of Manufacture from the Madras Pans, as detailed in the accompanying Extract from a report from the Superintendent, I despair of being able to provide for the requirements of Madras without largely importing from other Districts. It is to be remembered

remembered that there is no place so suitable as Madras, for a depôt of Salt large enough to supply return load for the vast quantity of Carts that bring Goods into Madras. It is true that the total consumption of Salt may still be regulated by the population whether the purchasers get it from the place of Manufacture, or from Madras. But adverting to the pressure of the Monopoly prices, it seems to be the duty of Government to facilitate the Salt Trade as far as can reasonably be done.—

3

I would therefore suggest that I be authorized to contract for the conveyance by Sea to Madras of as much Salt up to say Two thousand Garces as can be spared from other Maritime Districts and to have it stored, if possible under Cover, as near the Custom House as may be.- I have instituted enquiries on this point and will report the result

Madras, 7th April, 1853.

(Signed) H. Stokes
Acting Collector.

No. 1

Extract from Report of Superintendent of Salt, dated 31st March, 1853.

Para 10 On the morning of the 31st March heavy and incessant rain fell until 12 o'Clock, and the Coum. Bar

Bar at Government house Madras not having been opened till late in the evening, the floods from the Ennore Lake overflowing the banks of the Canal and covering most of the best pans at Attiput at one P.M. I set out from "Cuttivaukum" for "Ennore" and visited the remaining Division called "Thoodapa Kootchy Moolay" as well as the 2nd large Division of Attiput called "Nullandy" which I continued to inspect till evening; but as there was no footing for myself in most parts, I was obliged to get the Peons to measure the depth of water &c. in the pans, while I sat in the Boat.

11 The water in Mr. Roberts Calvayer at "Thoodapah Kootchy Moolay" was mixed and brackish. there were only 2½ Inches of Salt water in the Pans which are on a high level, the Pans in the North of that Calvaye had 4 Inches of Salt water and some further to the North, on a lower level, had 6 Inches of Salt Water. In the middle of this Division in some of the high Pans there was no water whatever especially in the Pans to the Northernmost. The River had slightly overflowed in two places.-

12 In the entrance to the Nallandy Calvaye 500 yards on each side had been flooded by the River so as to leave only a few indistinct marks of the Pans on the South of the Calvaye the Pans

weir

were under three Inches to 6 Inches of brackish water and the beds in the Pans were destroyed near the Vellore side, the Pans were under one foot of water in consequence of the bund of the old Channel which conveys the surplus water from the Attiput Rice fields having given way and swept across into the Pans. In the new Pans of "Nullandy" the quantity of Salt water differed from 1 to 4 Inches.

13 I did not proceed to "Naikal Thittoo" of the Cuttivauk Pans as the rush of water was so very great up to the evening of the 31st and was 4 feet deep over the Pans. But the other 2 Islands being on a high level had only 5 or 6 Inches of water.

14. From the Peishcar and Ameens Tamil Tabular Reports[+] accompanying this, it will be seen that the Salt which might have been manufactured at the Pans and may be said to have been lost by the Rains is estimated as follows.

[+] Enclosures 1 and 2

To the Collector of Madras — 1

To
The Collector of
Madras.

Sir

In reply to your letter of the 7th April 1853. I am desired by the Board of Revenue to inform you that they fully concur in the sentiments expressed in para 2 of your letter. They consider it of vital importance that the Sales at Madras should never be impeded by a deficient supply and in an emergent case like the present where the weather has been so very unusual, and the Salt in the Pans destroyed, they authorize you to provide Salt to meet all demands at Madras by procuring it from more distant places some expense must be incurred, but the Monopoly price will yet leave a considerable profit to Government.—

Sd. Fort St. George 11th April 1853

2 The Board would suggest your proposing to the Collector of Chingleput to reopen the Covelong pans immediately so that Salt may be ready for dispatch from that place before the quantity at once to be sent for is sold off.—

You

Fort St. George 11 April 1853.

3- You will however exercise your own judgement and inform the Board what steps you have taken

4- The Board are perfectly satisfied that the deficiency of Salt in Madras on this occasion has been caused by circumstances quite beyond the control of the Revenue Authorities.-

Extract from the Minutes of Consultation,
Under date the 24th March, 1853.

Read the following letter from the Secretary to the Board of Revenue

(Here enter 3d March 1853. No. 491)

Para 1. Under the Circumstances represented, the Right Honorable the Governor in Council grants authority for the resumption of the Shotrium Villages of Vadaoudombandy, Pondavankum and Cadapankum in the District of Chingleput, and for the remission of the balances due by the Proprietors of the first two Villages, amounting respectively to Rupees (33-15-2) Thirty three, Annas fifteen and Pice two, and Rupees (131-4-4) One hundred and thirty one, Annas four and pice four.

With

Fort St. George 11 April 1853.

With respect to Cadapaukum it would seem that the Shrotriendars purposing to throw up the Village at the end of the Fusly have appropriated its whole proceeds, and have absconded leaving the entire Peishcush of the year unpaid. They seem to deserve no consideration, and the Governor in Council thinks that the Law should be enforced against them to its full extent both as regards their person and property, and whether the latter be in Chingleput or in any other District. For the present therefore the balance against their Shotriem will not be written off.—

To

T. Pycroft Esqre

Secretary to Government

Fort St. George

Sir,

Subjoined I have the honor to transmit Copy of a letter received two or three days ago from Mr. Edgeworth Commissioner of Mooltan requesting to be supplied annually with a quantity of Cotton Seed for distribution in that district —

2 For the current year he can be supplied with any quantity, there being a considerable Stock on hand, but as I believe it is the intention of Government altogether to discontinue experimental operations I purpose writing to that effect and informing him that beyond the present season we shall not be able to meet his wishes —

With a view to complying with the requisition for the present season I have directed Mr. Rabel the Office writer now at Madras to return to Coimbatore as Speedily as he can and dispatch two Candies of Seed with

Fort St. George

Sir,

Adverting to my letter of the 4th. Instant, I have the honor to request that the Collector of Coimbatore may be instructed to disburse whatever charges may be incurred in forwarding the Cotton seed from Coimbatore to the Commissioner of Mooltan and also for the screwing and shipping expenses of 34 Bundles of Government Cotton that are now waiting tonnage at Cochin in the godowns of the Agent of

B. Sapoorjee Esquire. —

Madras —
8th. March 1853

/Signed/ Robt. Wight
Supt. Cotton Experiments

/True Copies/
/Signed/ T. Pycroft
Secy. to Govt.

Para 1. Resolved that the foregoing letters be forwarded to the Collector of Coimbatore with

Fort St. George 11th. April 1853.

with instructions to defray the charges which may be necessary for the transmission of the seed applied for by the Commissioner of Mooltan, and also for the Cotton awaiting Shipment at Cochin. —.

2. It is observed that under date 19th. June 1851 Dr. Wight reported the Sale of all the property connected with the Experimental Cotton farm in Coimbatore except the Office furniture and some Cotton Seed and on the 7th. August following reported that he had discharged the whole of his Establishment except one writer since that date, Dr. Wight has been making purchases of Cotton for transmission to the Honorable the Court of Directors and further Supplies of Cotton Seed have been received from Home. The Government have not however been informed by Dr. Wight before his departure of the quantity of Cotton Seed which he had still on hand, nor whether he had made any arrangements for its distribution. Neither are they aware, whether besides the Cotton awaiting Shipment at Cochin, there are further consignments to be made to the United Kingdom. They resolve to call upon the Collectors of Coimbatore and Tinnevelly to state what quantity of Cotton

Courts Dispatch 7th. Jan. 1852 787 bags of New Orleans Cotton Seed sent out by the "Brazilian"

Cotton Seed they have in charge, and how they would propose to dispose of it, as also whether they have any Cotton purchased by Dr. Wight or expect to receive any under engagements made by that gentleman.—

3 The Government under dates the 8th July and 7th August 1852, have forwarded to the Honorable Court Dr. Wights general report on his operations and his supplementary remarks— Pending the Courts reply, no fresh purchases of Cotton will be made, but the Collectors of Combatore and Tinnevelly will fulfil any engagements for the purchase of Cotton which may have been already made by Dr. Wight with the ryots and others. They will also furnish Seed to parties who may apply for it, purchasing it if necessary from the Ryots— The Collector of Combatore will inform the Commissioner and Superintendent of Moolton that such supply as he may require will be sent to him annually from Combatore so long as the seed is procurable in that District. It does not appear to Government that the writer hitherto retained by Dr. Wight can longer be required, and if not, Mr. Thomas will

will at once discharge him, submitting his claim to a gratuity should he seem entitled to any. He will also dispose of Dr. Wights Office furniture or such part of it as may not still be wanted.—

4. The Collector of Tinnevelly will report the condition and prospects of the Cotton Cultivation which is being carried on in his District at the public expense, and give his opinion whether it be desirable to continue operations and if so under what arrangements— and if not, at what time the concern may be properly closed.—

No. 41

To

W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George.

(19)

B. R. No. 918.

From the Collector of Ganjam.

Sir,

Para 1. I have the honor to acknowledge the receipt of the Extract from the proceedings of the Board under date the 20th January 1853 communicating Extract from the Honorable Courts despatch of the 31st August 1852 No. 13.

Stating with reference to the Extract from the Proceedings of the Board under date 20th January 1853 his opinion differing on certain Explanations respecting the Establishment of Depots and the Appointment of Officers of the description therein mentioned to Conduct the Management of the Salt and Abkarry Departments in the District of Ganjam.

2. In regard to para 12 of the despatch I beg to state that after giving the subject my best consideration I do not think that any advantage would result from the appointment of Officers of the description therein mentioned to conduct the Management of the Salt and Abkarry departments in the District of Ganjam.—

3. The Abkarry revenue is rented and I am not prepared to say that a better system can at present be introduced.—

4. The Salt from the Sale of which Revenue is derived is manufactured at places very distant from each other, the distances between the extreme Cotars

Fort St. George 11th April 1853.

Cotars or places of Manufacture being upwards of a hundred Miles. It would obviously be impracticable for one Officer to superintend efficiently all the Cotaurs under these circumstances.- and to appoint one to each Cotaur would probably be Considered too expensive.-

5. But I feel Constrained to take this opportunity of stating my opinion that a Superior description of Management to that now allowed is urgently demanded.-

6 The pay of the Establishment and the amount of revenue derived from each Cotaur are as given below.-

Salt

A Shroff is allowed in Nowpadah those who perform those duties in the other Colaurs hold the appointment of Peons.

Fort St. George 11th. April 1853.

7. I submit that the Salaries of the Goomastahs who superintends the Colaurs and of some of his subordinates are wholly inadequate. The temptations in this department and the facility of cheating are so great that it is notorious that the Officers employed in it are corrupt beyond those of any other - and while the management of this branch of revenue is a source of unremitting anxiety to the Collector it is rarely that that Officer can satisfy himself that his exertions have been successful -

8. If it were possible to Concentrate the Manufacture of Salt by establishing one large Colaur the Services of an assistant Collector of the Uncovenanted Class would be of great advantage. But I conceive that such an arrangement is hardly practicable The persons who are employed in the Manufacture have been accustomed to depend upon the Employment as a means of livelihood and at the abolished Colaurs it would be extremely difficult to prevent illicit Manufacture. It is indeed on a long line of sea Coast unprotected by any Establishment, sufficiently difficult to prevent the practice now - and to reduce the

the number of Colaurs would tend to increase the difficulty. An active Salt-Gomastah so will under present circumstances be on the alert to prevent illicit manufacture but the sales of salt at his Colaurs should be diminished and if he were to be better paid than he is at present he would be more vigilant. No one uncovenanted Superintendent would supply the place of a number of an inferior class.

9. Moreover if the present number of Colaurs were to be abolished depôts must be Established in their stead. so that concentration would not I conceive be productive of any advantage. and it is only in the event of concentration being practicable that an uncovenanted Assistant would be available.

10. In regard to the question of Salt depôts I beg to state my opinion as that the measure may be introduced into the District of Ganjam with great advantage. The wild tracts of Khondistan are supplied with salt by the Bimpanies on their transit to Nagpore &c. and by the agency of Oriya dealers who transmit the article from their stores in the low Country

Country and sell it at exorbitant rates. The establishment of Government depôts would not only enable the inhabitants of these wild tracts to purchase it at a reasonable rate. and so as a natural Consequence cause a Considerable increase of Consumption but would subserve, in some measure, the purpose of Civilizing the Khonds by the intercourse which would be created between them and the Officers of Government.

11. I would propose them as an experimental measure to form a depôt at Colabah in Goomsur and at Chocapand and Boragudda belonging to the Maliahs. at each of the two latter places there is a police Establishment the beneficial result of which are already beginning to develope themselves. Market which are beginning to be numerously attended, having been established at two of these places.

12. The quantity of salt ordinarily consumed in Goomsur according to the accounts is about 25,600 Maunds. and about 5,000 Maunds are annually sold for Consumption in Baad and Goomsur. Sambalpore. There is great

great reason to suspect that the Consumption is not confined to the above quantity the additional quantity being of Course as procured illicitly.

13. I would then send to the Depôt at

Colada Maunds ——— 27,000
Chocapaud ——— 13,500
Doornagudda ——— 13,500
Total ... 54,000

The price of this at the Cotaurs would amount to Rupees 54,000. The Cost of transporting it to the depôts would be at 1 — 2 — 2 57/100 per Maund Rupees 7,478 and to this must be added a small Establishment at each place as per Margin.

Designations.	Stations.	Amount of Salt	Peons.		Measuring Coolies.		Total.		Expence per Annum.
		m.	Rs.	As.	Rs.	As.	Rs.	As.	Rs.
1	Colada	1	2	6	1	5	25		330
2	Chickpand	1	2	6	1	5	25		330
3	Doornagudda	1	2	6	1	5	25		330
	Total	3	6	10	3	15	84		1005

Expence for building a store room at each of the above places as per Margin Rupees 150

Rupees 1158

14. The total Cost of 54,000 Maunds of Salt exclusive of a trifling charge for buildings in which to store it would thus be.-

Regulated price	Rs. 54,000
Cost of transport	7470
Establishment	1,008
Wastage at 3 per Cent 1620 Maunds at Re. 1-4 per Mn.	2,025
Total	64,511

J.

15 I propose to sell the Salt at a maduvana of 4 annas per Maund on the regulated price.- The proceeds of 54,000 Maunds would at this rate be Rupees 67,500 or Rupees 2,989 in excess of the amount of Costs which would suffice to Cover risks and Contingencies and as the ordinary price of Salt in the tracts in question is about Rupees 1-12- a Considerable benefit will be Conferred on the people.-

Bd. No. 774.

From the Acting Collector in charge of Nellore.

To. No. 39. W. H. Bayley Esqre
Secretary to the
Board of Revenue,
Fort St. George.

Sir,

I have the honor to solicit information as to whether the Sub Collector of a District having his own fixed Station and residence at a distance from that of the Collector, but being required, for the convenience of Government to temporarily discharge the duties of the latter, and consequently provide himself for the while with an Establishment (whether house or tents) at the Principal Noozeed Station, would in the opinion of the Board be entitled to Extra Tent allowance, or rather Compensation, for the same, or not. I do not bring in receipt of additional emolument for the additional charge imposed, the above being my own case-

No. 79.

To, W. H. Bayley Esqr.
Secretary to the
Board of Revenue.
Fort St. George.

27

B. No. 242.

From the Collector of Bellary — Submitting his Report on the Settlement of Land Revenue for Fusly 1261 A.D. 1851/52

1. Sir,

I have the honor to Submit my Report on the Settlement of Land Revenue of the Bellary Division of the Ceded Districts for Fusly 1261 and to A.D. 1851/52 forward the undermentioned Statements.-

No. 1. Summa and Kistbundy of Fusly 1261.-

2. Comparison between the Settlement of Fusly 1260 and that of 1261.

3 Abstract of the Collections of Land Revenue since Fusly 1210 Compared with the Settlement for the present Fusly 1261.

4 Abstract Comparative Statement of the Cultivation and Net Settlement for Fusly 1261 according to the Board's Form of the 27th January 1823.-

5 General Revenue Statement for Fusly 1261.-

6 Statement of Gonchee Cultivation for Fusly 1261 Compared with Fusly 1260.-

7 Register of Land held on Kayem Cowle.-

8 Register of Land held on chalgy Cowle.-

9 Statement of Cowle granted in reference to the 4th para of the Proceedings of the Board of Revenue dated 17th July 1851 to Ryots whose

Fort St. George 11th April 1853.

whose Lands had been injured by the freshes
of Rivers and breaching of Tanks, Nullahs, &c.
in the Storm of the 5th and 6th May 1851.

10 Statement of Kuppen Cowle prepared
with reference to the Board's Form marked A
dated 18th March 1841.-

11. Comparative Statement of Cowle
Lands for Fusly 1264.

12. Comparative Statement of Enam
Cultivation for Fusly 1264

13. Statement of Enam Agaram Cul-
-tivated and uncultivated.-

14. General Abstract Comparative State-
-ment of the whole Revenue from the Land and
from the Extra sources for Fusly 1264.-

15. Rent Roll or Statement shewing the
Land Rent of District for Fusly 1264, arranged
on a scale prepared as directed by the Board
in their Proceedings of 21st January 1847.-

16. Statement of Trees in the Circar Plantations

17. Statement of Sevvy Summah for July
1264 prepared according to the Board's Forms
furnished on the 8th October 1849.-

18. Statement of Land occupied by Sugar
Cane Cultivation for Fusly 1264 prepared
according to the Board's Form furnished
with their Circular Letter under date the
13th June 1850.-

19. Statement particularizing the different
kinds of Land occupied by Government Native
Servants in the Revenue Department prepared
in

Fort St. George 11th April 1853.

in the Form which accompanied the Board's
Circular of the 28th August 1849.

20. Anay Nerrickrumah or Statement of prices
of grain prepared in accordance with the
Board's Circular of the 29th April 1852.-

2. The Season was on the whole
generally favorable for the year 1264 Fusly under
report, but less so than the preceding year.-
The destructive Storm that occurred in the
latter part of Fusly 1260 on the 5th and 6th of
May 1851, and to which I alluded in my last
Summahbundy Report did very Considera-
-able damage to many works of irrigation,
it also destroyed much land on the banks
of Rivers, and Caused Considerable losses to
Ryots in Houses, Grain, Cattle and other
property- neither was it serviceable to the
early dry Cultivation, the Seasonable rains
expected in June having failed Rains however
fell seasonably in the Months of July
August, September, and October, which
were beneficial chiefly to the Black
lands which were Cultivated more
extensively in this year while there is a
decrease in the Cultivation of the lighter soils

See Para 6 of
Letter dated
22nd November 1852.

The

Cotton Cultivation.	Fasly 1260. Cultivt.	Assessmt.	Fasly 1261. Cultivt.	Assessmt.	Comparison. Increase. Cultivt.	Assessmt.	Decrease. Cultivt.	Assessmt.
Circar Land	1,19,975	1,97,043	1,45,132	2,11,312	25,157	14,269	"	"
Enam Land	1,14,554	1,91,136	1,06,964	1,87,581	3,570	17,445	"	"
Total	2,34,529	3,88,179	2,52,116	3,98,893	8,587	41,714	"	"

The Crops generally were pretty good. Cotton was sown to a greater extent by acres 8,587 in this year above the last.—

3. Some of the Cotton Gins got from Dharwar were turned to advantage by wealthy Ryots under the superintendance of a Dharwar Carpenter, who attended upon them during the Season of Cleaning the Cotton. I have no expectation that these excellent Machines will become of general use, but under proper management they will answer admirably in the hands of a few of the wealthier men. The Ryots who used them calculated the advantage at about 5 per Cent saving in labour, and 15 per Cent in enhanced value of the Cotton cleaned by them.—

4. The Wet lands were not cultivated to the same extent as last year. This is attributed to so many Tanks and Watercourses having been damaged by the Storm, and to the Malak lands being covered with sand by the heavy freshes but not only to those causes but also to a less supply of water having been

been received in those Tanks that were not breached, and in those that though breached had been repaired. Some of the Tank Cultivation was Carried on by temporary Nullahs Cut in the beds, and by Wells, and by the exertions made to Counteract the damage done by the Storm, a much less Loss of Revenue than might have been Anticipated has been sustained.—

5. The usual Statement shewing the number of Tanks, the Cultivation under them and the supply of water they received is here-under annexed.—

Number.

Fort St. George 11th April 1853.

Sir,

I have the honor to transmit herewith a Return of the Civil Establishment of the Board of Revenue, and of the Subordinate Establishments of the Districts of Malabar and Canara, for the month of March 1853, and to request that the usual Sanction may be granted to the Monthly Charges for the Establishments required by the Honorable Court's Orders of the 5th August 1852 and 5th May 1853 and for the necessary Expenses without waiting for the usual Sanction required by the Honorable Court's Orders of the 5th August 1852 and 5th May 1853 and for the necessary Expenses without waiting for the usual Sanction of the Government to the Establishments, which it would have been necessary to have proceeded with in the absence of all orders, the Estimates of which did not yet exist for the Year 1853-54.

The Board's Proceedings of the 3d June 1853 Consequences, Mr. Secretary Taylor's Minute dated 2d June 1853 Consultation on the Report of the Commissioner in the Northern Circars, and the Collector of Malabar's Letter dated 30th April 1853 are herewith submitted.

The Power granted under the Proviso in the Regulation VII of 1827 to the Board of Revenue to sanction Establishments in anticipation of the Orders of the Court of Directors, has been exercised by the Board in a very few instances, and only when the Establishments were very inadequate to the work to be performed, & when the Delay would have been productive of great Inconvenience to the Public Service. The Salaries of the Establishments are generally on the Scale of Pay now sanctioned by the Court of Directors, but the Board have not considered themselves at liberty to carry out any other Increase of a large Amount than has been allowed by the Court of Directors, without Reference to them.

The Board have also submitted the Accounts of the Revenue which have been received from the several Collectorates, and of the Supply of Water from the Pandian Reservoir (the Result of Experiments which have been ordered to be made) for the Month of March.

4165

Fort St. George 11th April 1853.

Sir,

I have the honor to transmit herewith a Return of the Civil Establishment of the Board of Revenue, and of the Subordinate Establishments of the Districts of Malabar and Canara, for the month of March 1853, and to request that the usual Sanction may be granted to the Monthly Charges for the Establishments

Fort St. George 11th. April 1853.

It will be seen that Revenue to the amount of 397,035 Rupees was risked or if last years Revenue is taken 377,953 Rupees. This with the exception of 64,910 Rupees has been saved, and less than this amount would have been lost had the Tanks received as fair a supply as they did last year. I would venture here to state my opinion that had I not been released from the restrictive shackles of the Rules of the Maramut Department, it would have been quite impossible for me to have had repaired between June and October any thing like so many works as have been repaired, or to have secured so much revenue as has been saved to the State doubtless also much suffering to the

Fort St. George 11th. April 1853

people has been averted. It may here be proper for the Board's inspection to show a little more in detail the work that has been done. The 3 following Statements will exhibit the state of the repairs rendered necessary by the Storm.

The Taloork of Sadiputty lying as it does so immediately close to the Head Quarters of the Sub Division I found it a convenient arrangement for the sake of the Ryots to transfer the charge of it to the Sub Collector and in lieu of that of Taloork. I took the Madagasseral Taloork into the Principal Division. Mr Daniell has submitted a very full report of his proceedings which shews the attention he has given to his duties in a season which required much energy to repair the losses sustained by the Storm. My Head assistant the Honorable D. Arbuthnot was I regret to say compelled by very severe sickness which nearly proved fatal to leave the District at the commencement of the Settlement. His duties I entrusted to Mr. C.R. Pelly the acting Head assistant. This Gentleman conducted the Settlement of the three Taloorks very satisfactorily and I have much gratification in adding that I received most effectual assistance from him in many other respects during the year, he being the only

Fort St George 11th April 1853

only assistant in the District. I much regret that he now has been removed for a season on account of ill health.

The Cultivation for 12 the year as entered in the Caboolati or as in other Districts called more properly the Dittum after striking out the lands not properly included in it contained 21,88,235 acres, bearing an assessment of 3058,495 Rupees, as compared with the preceding years Caboolati it was as follows

The difference exhibited in the Dry lands is small. In the irrigated lands the decrease of 4955 acres and an assessment of 38417 Rupees is owing to Farms being left unoccupied under Tanks not supplied with water, and under Tanks not repaired, and by the exclusion of Lands rendered uncultivable by the floods the average assessment of the land retained and relinquished is shewn as directed by the Board.

13 The Board in the 6th 7th 8th paras of their Proceedings have made some observations respecting the orders given by me to Tahsildars to strike out of the Ryotwar Cabooleats lands that had long been waste; the Board observe that the circumstance should have been brought to their notice and their sanction obtained first, I would beg to explain that this subject has been before the Board on a former occasion and my order was merely a revival of one of the same kind given by my Predecessor Mr. Mellor and approved of by the Board, but it is an order that has been carried out but to a very small extent as the Board will see. I refer to the reports noticed in the + margin and the Board's Proceedings thereon. The Board also remark "that in allowing the deductions alluded to, it should have been stated whether "the instructions contained in Rule 2 of the Hon. Rominiamah "which requires that the portion given up should "in every respect be such as another Ryot may "occupy with advantage, were strictly attended to, "otherwise favorably assessed land will be "retained and Appanum or land bearing a high assessment

+ To the Board dated 1st Oct. 1841
To do 1st Sept. 1842
From do 12th May "
From do 7th Febr. 1843

"assessment, for the regular cultivation of which "such favorably assessed lands were given will be "relinquished". I would state, in explanation that the lands given up are such as have been long waste, and for the most part unfit for cultivation, and that no other ryot would take them as part of a farm even if other more favorable land as respects assessment, position or produce, were relinquished with them. The Board will be pleased to observe that in the statement given in their + Proceedings the decrease in the quantity of land is very small and the difference in the rates as noticed in the average assessment of land relinquished, exceeding that of land retained may be explained by the fact of some of those heavier assessed lands originally contained in the Puttah becoming unproductive and which it was found useless to retain having been deducted.

+ Dated 13th Sept. 1852 Para 8.

14 The Government have in their + Minutes of consultation expressed their opinion on the impolicy of including in the ryots agreements lands that he has no reasonable prospect of cultivating, and as this important subject will receive my closer attention at the Summabundy settlement for Fusly 1262, I will defer a fuller report on it to a future day.

+ Dated 23rd Octr 1852.

15 But the "Cabooleat gives but a very inadequate idea of the Summabundy gross Settlement which as compared with Fusly 1260 is exhibited in the following abstract from the Statement No 4.

Fort St George 11th April 1853

It will be seen from this Statement that after making very considerable deductions from the Cabooleats in the Ryotwar Puttah for waste, which either ought not to have been included at all or could not be paid for, the actual result of the Gross Settlement is 18,85,338 acres assessed at 27,01,958 Rupees and is below the previous years Settlement by 40,739 acres assessed at 81,177 Rupees. There was an increase only in the Black lands, the decrease in the other lands has already been accounted for Vizt.

By

Fort St George 11th April 1853

By the less favorable season for the cultivation of the early Dry crops and by the deficiency of water and injury done to the works of Irrigation. I now pass on to notice the Settlement of the year under report as compared with Fasly 1250 the preceding year.

16 The following abstract shews the whole remission and net Demand as thus compared.

24 The Statements N° 7-8-9 submitted with this report will shew the lands under cowle in fusly 1261. The Gross assessment of lands now under cowle according to those Statements is Rupees 41232 of this. Rupees 12523 is the assessment of lands that were cultivated in last year for which special cowle was granted in this year in conformity with the Boards orders of the 17th July 1851 in consequence of these lands having been much injured by the freshes in the storm of the 5th & 6th may 1851 the remaining sum, Viz^t Rupees 26709 is the assessment of lands that are under cowles granted in conformity with the usual cowlenamah furnished in fusly 1216. The following is an abstract prepared from Statements N° 7 and 8 of the usual cowles

See Statement N° 9

" N° 7-8-

Five

Fort St. George 11th April 1853.—

In Statement No. 9 will

25

be found the Register of the Special Cowles granted on account of Payamalee. The terms of the Cowles granted vary from 1 to 3 years according to the state to which the land had been reduced by the heavy freshes, and the difficulty and labour the ryots had to encounter to restore it to a cultivable condition. The whole of the land injured could not be restored in the year, and there remains still some, which it is believed may yet be brought again under cultivation by the assistance of the Cowle. The annexed shews the periods for which the Cowle has been granted with the amount of Cost &c.a.—

103 & 104	Fully Reclaimed	1375	2442
Partially reclaimed.	In the occupation of the Cowle holders	507	850
Partial Lands.	In the occupation of other Ryots	34	22
	Total	541	872

In

Fort St. George 11th April 1853.

27. In the Statement No. 6 is entered the usual information regarding the Gonchee or partnership cultivation. An Abstract of the Gonchee cultivation of this year compared with last year is herewith annexed.—

Fuslies	Gonchee Ryots	Gonchee Pattahs	Assessment	Demand
1260	19207	4846	369638	222302
1261	18446	4700	361590	212350
Increase	"	"	"	"
Decrease	761	146	8048	9952

28. The orders of the Board in the 15th para of their Proceedings on my last Report will receive my best attention more especially with reference to the later orders of Government forwarded with Proceedings of the Board of Revenue under date the 25th November last, and a Report on the heavy assessed lands will be hereafter furnished.—

29. The total demand of Land Revenue as per Column 175 of Statement No. 5 is Rupees 200,1284 and the demand on account of Gonchee occupation bears a proportion of

of 10 10/16 Pr. Cent to the same. The decrease in the Gooshee Cultivation is owing to the destruction of Tanks &c.

30. The Gross assessment of the Lands occupied as entered in the Caboolatee, the remissions thereon, and the Demand is as follows.—

Statt. No. 5 Col. 107

	Assessment of all lands entered in the Puttah	30,584 95
" 125	Lands sown	25,692 57
" 126	Vasooli Bunjer or waste assessed	4,932 4
	Estimated for 2d. Crop	2,61,858 1
" 127	Total Demand Perrin	112,777
		27,31,358

Statt. No. 5 Col. 134 Under the head of Caboolatee Bunjer Rs. 2,98,997 Do of Shamilutz Bunjer 32,140 Rs. 31,140

Remains Rupees 32,7,137 being the sum remitted for Caboolatee Bunjer &c. at the Summabundy.

31. The Amount of remissions granted on the Summabundy Demand for this year is Rupees 7,31,929. The particulars of which will be found in the Statement from Column 140 to Column 164. They are all the usual remissions and require no particular notice. The necessity of retaining some of the Deductions in the accounts has been questioned by the Right Honorable the Governor in Council

Council and a separate Report on the subject will be hereafter submitted by me. The sum of 7,692. Rupees granted for loss of Crop was given to Ryots who could only cultivate one Crop on two Crop highly assessed lands in consequence of injuries sustained by the floods Rupees 3,083 and the rest 4,609 Rupees was an abatement where crops had been lost from failure of water to bring them to maturity. A sum of 4,461 Rupees is also an abatement to Ryots who cultivated their irrigated lands with dry crops owing to the same Viz. the destruction of the Reservoirs &c.

32. The net demand Ryotwar for the year as settled at the Summabundy was Rupees 1,99,629 to which is to be added the sum of 1,655 on account of suppressed Cultivation, making the total Net demand Ryotwary Rupees 2,01,284. The following is what is termed the Rent Roll of the District showing the graduated scale of the average amount assessed on the ryots.—

Enam Lands in Circar Villages
Lands granted for the performance of the duties of the Villages
Other duties

The

Fort St. George 11th April 1853.

The increase amounting to Rupees 473 in the Ayacut is attributable to Salary Sodee Enams having been restored to the Enamdars of Mogan-lum in accordance with the orders of Government of 17th June 1851. the transfer was not made in last year Statement as the amount was closed before receipt of the orders. The decrease to the extent of Rupees 852 is owing to the resumption of Bhatavartee & Enam lands in fadure of heirs, under the instructions of Government received from time to time on the several lapses being reported.—

36. The taxes on Enam Cultivation for the year under report as compared with that of last year, are shewn in the following abstract.—

	Fusly 1260	Fusly 1261	Increase	Decrease
Iyen Sodee or Quit Rent	145485	141933	"	3552
Marah Kurtanah Sodee or the Sodee payable on Fees received by Village Servants	19464	18942	"	522
	164949	160875	"	4074
Neersarghee Rent for water	7995	7665	"	330
Enam Sufferech. Tax on Cultivation Enam to excess	6935	6458	"	477
Total	179879	174998	"	4881

To which in order to ascertain the exact amount derivable by Government on account of Enam Cultivation must be added the amount Viz^t 20337 Rupees.

Fort St. George 11th April 1853.

Rupees of waste before noticed, assessed on Potails and Ryots who have their appanam or usual cultivation only partially sown making the whole tax on Enam cultivation Rs. 19,335.—

37. The whole demand on account of Land Revenue for Fusly 1261 was Rupees 21,75,112 of which Rupees 21,44,039 was collected within the fusly, and Rupees 23,288 within October following total Rupees 21,67,327 leaving a balance of Rupees 7,785 of which balance Rupees 1128 will it is expected, be collected, and the remainder Rupees 6,657 is considered at present as irrecoverable but this will be enquired into and hereafter reported.—

38. In conformity to the instructions contained in the 3d para of the Board's Circular of the 11th March 1852. directing that the balance of Land Revenue of the preceding fusly be reported upon in the Summabandy report of each year, they to annex on account of that of fusly 1260 Amount of balance outstanding at the close of fusly 1260 was Rupees 57,451 — 13 — " of which Rupees 50,918-12-7 has already been collected as follows.—

In fusly 1261	50,715 — 14 — "
Up to October in fusly 1262	202 — 14 — 7
	50,918 — 12 — 7

and of the remaining sum Rupees 286-14-8 is irrecoverable, & Rupees 6,246-1-9. has been ascertained by enquiries made at the time of Summabandy of fusly 1261. to be irrecoverable for the reasons stated below.—

Fort St. George 11th April 1853

Division

Dated 20th October 1852.

There is a decrease of Rupees 11,274 in the whole Revenue of this year as compared with that of last year, the causes of which as regards the Land Revenue have been given in this report, and my report on the Extra Sources of Revenue explains the causes of decrease in the other branches.

No The actual collections within the year both Current and arrears of ordinary and Extraordinary Revenue of all branches during the fusly as compared with last year were as follows.

	Fusly 1260.	Fusly 1261.	Increase.	Decrease.
Ordinary Receipts				
Land and Extra Revenue	28,66,426	28,33,020	"	33,406
Sewoy Jummah on Extra Collections	16,982	19,739	2,757	"
	28,83,408	28,52,759	"	30,649
Extraordinary Receipts				
Recoveries of advances for Cultivation & Maramut & Sundry other receipts	66,726	57,693	"	9,033
Total Receipts	29,50,134	29,10,452	"	39,682

Fort St. George 11th April 1853

The decrease in the Collections noticed is owing to a diminished Demand on account of the Receipts Ordinary and Extraordinary.

No I beg to annex an abstract of Statement No. 17 herewith sent of Sewoy Jummah prepared in accordance with the instructions contained in the Board's Circular of the 8th October 1849.

This

See Extract Minutes Consultation dated 25th October 1852 para 11.

This Statement has now been arranged so as to exhibit the charges in the manner desired by the Government. It will be seen that the Revenue charges for fusly 1261 amount to Rupees 5,03,083 and exceed those of Fusly 1260 to the extent of Rupees 63,393. There was it will however be observed a large decrease in the charges in the items of Collectors and Assistants salaries amounting to Rs. 48,953 arising from adjustments made last year and from the withdrawal of one Assistant from the District this year. There was a decrease also of 14,789 Rupees in allowances of a Religious and Charitable nature owing to lapses and in a few other items. The increase is almost entirely confined to the sums of Rupees 11,507 and Rupees 6,517 in excess of last year as disbursed for maramut expenses occasioned chiefly by the necessity for repairing works destroyed by the Storms. The proportion of charges to the Revenue was 17-11-0 As at present. The charges for maramut and the percentage may be further classed as follows.

Fort St. George 11th April 1853

43.

In the 20th para of their Proceedings on my last Summahbundy report the Board have directed that the entries of Tuccavi in the reports should correspond with those in the Monthly Demand Collection and Balance Sheets. I beg to explain that in the Demand Collections and Balance sheets are usually entered the sums advanced in the current and the preceding year, whereas in the annual settlement Reports the advances of that year alone for which the report is made is entered and explained; and consequently there will be a discrepancy between the settlement in the report, which is according to the Talookwar accounts, and the Demand Collections and Balance sheets. I wrote largely on this subject in the 36th para of my Summahbundy Report for fusly 1259. However I have in compliance with the Board's orders subjoined a Statement of Tuccavi to correspond with the Monthly Demands Collection and Balance Sheets.

Dated 13th September 1852.

Fusly 1260

Amount collected during the Fusly.

Balance of last Fusly

Total.

Balance of last Fusly after adjusting the amount in Col. 8.

Amount remaining to be collected on the last instalment becomes due.

Details of Col 12 -

Balance as per account rendered during last year's collection.

Advances made to Ryots who suffered by the failure of the Storm of the 5th and 6th May 1857.

Usual advances on account of Tuccavi

Col 5 of the foregoing Statement exhibits the amount of the Tuccavi advances for one year: the amount thereof advanced to Ryots is shown in Col 8, the balance remaining at the close of the year after deducting the refunds and Collections received from the sums advanced to Ryots is shewn in Col 9, the amount of balance after subsequent Collections having been made is shewn in Col 12 and the remaining columns of the Statement will be found to tally with the Monthly Demand Collection and Balance sheets. Of the amount exhibited in Col 12 as comparatively small sum amounting to Rupees 64 is on account of time expired instalments and is expected to be collected immediately, and the remainder amounting to Rupees 5496, as per Col 14 will be collected according as the instalments become due.

64 The Tuccavi of one year as will be seen in the above Statement is the sum advanced in that year and the year preceding to be available for the cultivating season: the amount advanced in the former of the two years is entered in the Statement No 1 of the Demand Collection and Balance of each month in which the advance is made under the head of Demand, and the whole sum advanced in that year and so entered in the

the monthly Demand Collection and Balance Sheets is after the close of the year again entered in the Demand for the succeeding fusly - although this practice has prevailed for a long time it would appear desirable to abolish it. I therefore purpose with the Board's permission to discontinue the practice of entering, in the Monthly Demand Collection and Balance Sheets the sums advanced in one year on account of the following, and to have the amount so advanced entered in the Statement of Demand Collection & Balance for the year on account of which such advance is made, which will prevent confusion.

65. The Collection of wheat in Enam and Circar lands in Fusly 1261 in this District is here entered in conformity with the orders of Government of 24th August 1849. There has, it will be perceived, been a small decrease in this Collection.

48. In justice to that old and faithful servant of Government I will not allow this Report to be closed without expressing to the Board my high sense of the fidelity with which Neelacunta Row

Fort St. George 11th April 1853.

Neelacunta Row my Head Sheristadar continues to devote his best energies to the duties of his Department, striving not only in his own person to maintain the character he holds for honesty and integrity, but also to enforce upon others by his advice and example the necessity of practicing these virtues, if they wish to rise to eminence and maintain the high character once borne by eminent Sheristadars; advice, which I trust will not be lost upon my other Sheristadars who are new in the office, but who have in their respective duties, I am happy to say given me satisfaction - I regret that during the year while engaged in the settlement, I lost by death the services of Soobarow a valuable Sheristadar who had served the Government for a period of 46 years.—

Bellary District Collrs Office in Circuit at Gandegamoor 1st November 1852

E. E. Jr.

Signed C. Pelly. Collector

J. F. R.

Fort St. George 11th April 1853.

To

C. Pelly Esqre

Collector of

Bellary

Sir,

1 I have the honor to submit my report on the Settlement of land revenue of the five Talooks of the Sub Division for Fusly 1261. together with the usual Statements Viz.—

No. 1. Summa & Kistbundy of Fusly 1261.

2 Comparison between the Settlements of Fuslies 1260 and 1261.

3 Abstract of actual Collections since fusly 1210 Compared with the Settlement of Fusly 1261.

4 Abstract Comparative Statement of the Collection and Net Settlement for Fusly 1260 according to the Board's form of 27th January 1823.

5. General Revenue Statement for Fusly 1261.

6 Statement of Goonchee Cultivation for Fusly 1261.

7 Register of Koyem Cowle.

8 Dr. of Chadite or Progressive Cowle for Fusly 1261

9 Register of lands damaged during the Storm in May 1851 and granted for Cowle as per Board's order dated 17th July Fusly 1261

10 None.

Comparative

11 Comparative Statement of Cowle lands for Fuslies 1260 & 1261.

12. Comparative Statement of Enam Cultivation for Fuslies 1260 & 1261.

13 } None.
14 }

15 Statement of Rent Roll of Government lands according to the Board's form of 21st January 1847.—

16 }
17 } None.
18 }

19 Statement prepared according to Boards Order dated 28th August 1849 Shewing the lands newly held this year by public servants in the Sub Devision.—

2. At the end of October the Talook of Tandputty was transferred to my Charge, in lieu of the Talook of Maduckurah taken by you into your Division, and I therefore commenced the Summabundy of the former Talook on the 21st November, but on my arrival at Tandputty I found a considerable extent of land waste in consequence of some of the Nullahs which had been destroyed by the Storm in the preceding May not having been repaired and likewise in consequence of a considerable extent of

of land which had been damaged by the flood & covered with sand not having been cleared. I therefore then settled only 58 Villages of that Talook, and postponed until after the Vysac Season had closed the settlement of the remaining sixteen Villages. The Nullah lands of which were all waste from the causes above stated, and the Cultivation of which in a great measure therefore depended upon the progress which might be made in repairing the Nullahs and clearing the lands. Of the remaining Talooks of my division each was settled within its own limits and the Summabundy inclusive of the 16 Villages abovementioned was completed on the 10th of April.—

3. The Season for dry Crops was less favorable than in the preceding year. On the 5th May a Severe Storm occurred and an unprecedented quantity of rain fell during the time it lasted, but this fall of rain was too early in the Season to forward the Sowing of the early Dry Crops, and Subsequently until the month of July there was no fall of rain. In July, August and September some rain fell

fell although to a less extent than in the former year, and as far as practicable land was sown with later Dry Crops. In some instances these Crops at an early Stage were destroyed by insects, but these lands were again sown, and on the whole the yield was of an average nature, but owing to the failure of rain from the early part of May until July a less extent of land was Cultivated with early Dry crops than in the preceding year.—

4 In the Wet Cultivation under Tanks there was a decrease owing to the number of reservoirs which had been breached and otherwise damaged in the Anantapoor, Pengondah and Shurmavarum Talooks during the Storm in May of the preceding year. Of these reservoirs Some were repaired by the month of September and October, others were partially

repaired, and as far as practicable, Cultivation was carried on under the remaining Tanks by means of temporary embankments Nullahs &ca but the partial supply received Subsequent to the month of September in those Tanks which had been fully and partly repaired, prevented as much land being brought under Cultivation as otherwise might have been the Case. Under those Tanks which received a Supply and were not breached during the Storm, an increase of Cultivation took place, and Subjoined is a Statement Shewing the Supply received in such Reservoirs.—

Talooks.

The

4345

Fort St. George 11th April 1853.

Sir,

The number of Tanks breached or otherwise damaged within the Division is independent of the works of irrigation damaged in the Division is independent of the works of irrigation enumerated in 32. The Boards' orders for the repair of those works & the Cost of which cannot be ascertained for a period nearly as the Cost of which cannot be ascertained for a period nearly as the 24th June 1851 and the works were and received on the 24th June 1851 and the works were immediately put in progress with the duck nearest as were at many distant. But in consequence of these Tanks having been a comparatively small demand for the labour of Cattle and those Tanks Included in my Division for Earth and Stone Works and in my Division for Earth and Stone Works and in my Division for Earth and Stone Works and

Fort St. George

Fort St. George 11th April 1853.

7

It will be observed from the above Statement that the Tanks Completed within Fusly 1261 nearly equalled in number those which Still remained in progress but the latter it will also be observed from the Revenue collected from them in the Fusly under review (notwithstanding their previously damaged State) are chiefly Large Tanks, and had a greater supply of water been received the efforts made to forward the repairs of all the works, sufficiently to admit of Cultivation being Carried on, would have been followed by the realization of a larger amount of Revenue.

8.

A Statement is Subjoined in which is exhibited the particulars of those Tanks which from unavoidable causes, were not commenced during the Season, and the Cultivation under which was carried on by means of temporary embankments &c. The Revenue realized under these Tanks by temporary means slightly exceeded the revenue of the preceding year.

Fort St. George 11th April 1853.

9. Another Statement is subjoined exhibiting the details of the Tanks which had to be repaired under occasional Estimate and which therefore requiring the Sanction of Government could not be commenced in time to forward Cultivation under them to a greater extent than has taken place.-

Taloks	No. of Tanks	Estimate Rs.	Cultivation Fusly 1260 Acres	Cultivation Fusly 1260 Assessment	Cultivation Fusly 1261 Acres	Cultivation Fusly 1261 Assessment	Comparison Increase	Comparison Decrease

	25	50,050	908	8,006	275	2,292	4	5,714	
Total	26	111,436	2,261	23,382	639	3,634	"	19,748	

Fort St. George 11th April 1853.

The decrease exhibited in the above Statement arose in consequence of its having been impossible to cultivate more land under these Tanks from the reasons above stated. To avert as far as practicable the heavy loss of revenue amounting to Rupees 14,034 which has ensued under the Singanamalah Tanks, and which forms 3/4 the decrease shewn above, workmen were collected, and the work was put in progress before the Commencement of the Fusly but when the large amount of the Estimate came to the notice of Government orders were issued to stop the work, until the Sanction of the Supreme Government could be obtained. The cessation of this work was of less assistance in forwarding other works in consequence of most of the earth workmen who were neighbouring Villagers having refused to transfer their labour to other Tanks.—

10. There has been a decrease in the beds of some of the large Tanks in which in years of Scarcity of water a considerable extent of land is usually Cultivated and I subjoin a Statement shewing the usual Cultivation in these Tanks on such occasions, contracted with the year under review. This decrease is owing to the Tanks not having been in a State to retain water, and also in consequence of the lands having been much cut up and the Soil washed away by the flood, but when the Tanks are repaired these lands will again become in a fit State to Cultivate.—

Taloks.

Fort St. George 11th April 1853.

J.G.B.

But

Fort St. George 11th April 1853.

But the repairs of the Tanks entered in the last list could not have been undertaken at an earlier date without prejudice to other works, and by means of Temporary em=bankments the Cultivation has been carried on with only a Small decrease.—

13. The Total amount of decrease under all the Tanks of the Sub Division therefore amounts to Rupees 20758 of which I have before observed, the loss of revenue under the Singamanullah Tank forms the largest portion, and the next large Item is the decrease under the Anantapoor Tanks, but this is to be attributed to a deficiency of Supply rather than to any other cause. The remaining decrease of Rs. 5673 in the Cultivation under the damaged Tanks in Pengondah & Dharma=varam Talooks is owing to the repairs of some of the Tanks not having been completed and to others that had been repaired having received a deficient Supply. The increase of Rupees 9680 arose from the increase of Cultivation under those Tanks which had not been damaged. The following detailed Statement exhibits the Amounts of Cultivation under all the Tanks in the Sub Division and it is perhaps unnecessary here to enter the Demand.—

Fort St. George 11th April 1853.

15. In consequence of the Number of Tanks under repair in the Anantapoor Talook. The Talook Servants even with such assistance as I was able to give from my Cutcherry had more work than they could properly attend to, and owing to this cause and the difficulty of procuring work people the repairs to the Nullahs could not be completed within the season, and therefore there was a decrease under the damaged Nullahs.—

16. The decrease under the Nullahs of Pandoorty in Pengondah Talook arose in consequence of the Vanamuggrahm Tank under which the damaged Nullahs are situated having been breached and the supply therefore to a great extent cut off sanction is required to repair the Tank.—

17. I have before observed that in the Landpatry Talook there is very little Tank Cultivation, but that the Nullah Cultivation is more extensive than in any of the other Talooks of my Division and in accordance with the Board's order instructions were issued to the Tahsildar to proceed with the

Fort St. George 11th April 1853.

the repairs of the Chitravaty and Penna Rivers Channel which had been damaged, but when I commenced the Jummabundy of this Talook about one month after it had been transferred to my Charge it came to my knowledge that only a few of the Nullahs had been completed during 1st Crop Season that the lands under some Nullahs were waste in consequence of the repairs not having been sufficiently advanced, and in other instances in consequence of the lands not having been cleared from land. I therefore found it expedient to postpone the Settlement of the Villages in which such Nullahs and lands are situated until the close of the 2d Crop Season, and adopted measures to forward as far as practicable the repairs of the Nullahs, and likewise issued orders to the Talook authorities to inspect and grant Cowles for the damaged lands. The following Statement exhibits the particulars.—

18

A great portion of the decrease under the 1st & 8 Nullahs entered in the above Statement is owing to neither of the Channels in yellanoor having been Completed during Season of Cartie, and there was not Sufficient time to complete the repairs of either Channel during the Season of Vysack. The Tank which was also usually of assistance in the Cultivation of Some of the lands under these Nullahs had likewise been damaged and rendered useless for the time.—

The lands under the Nullahs in Chittacoy annundah Aurvadoo and other Villages were also injured by the flood, and not having been cleared from Sand in the early part of the Season there was not sufficient time to clear these lands during the Season of Vysack and they were therefore waste.—

19.

The decrease under the next ten Nullahs entered in the above Statement was in consequence of the repairs of the Nullahs not having been in a State to

Fort St. George 11th April 1853.

to admit of the lands being Cultivated during Cartick, and its having been impossible to complete the repairs of all the Nullahs and to clear the lands under them during Vysack.—

20 The next item entered in the above Statement is the Goddoomarry Channel the Estimate for the repair of which was framed by the Civil Engineer Department, but the Level of the Channels is too high, and the Head too low, and as water will not therefore flow into the Channel the lands under the Nullah were wasteand unless the bed of the River should be raised at some future period by accumulation of Sand near its Head the Nullah will not hereafter be of use.—

21 The decrease under the Singavarum Nullah is owing to no Estimate for the repair of this Nullah having been framed during the Season in consequence of the Chitravaty River having been too full to admit of a proper examination of the work being made, and after the Estimate was framed it was not acted upon in consequence of

Fort St. George 11th April 1853.

of impediments which seemed to render a change in the Estimate advisable. The Estimate for clearing out the other Channel in Tarrooevaram fully included in the last item was framed in time, but the Talook authorities were not informed until the Season had expired whether the work was to be done under occasional or Emergent, and therefore the lands under this Channel were also uncultivated.—

22. Besides the Tanks & Nullahs damaged by the Storm many Coontahs constructed to afford the Supply in Bowries and Nullahs, and to prevent lands dependant on them being destroyed by Jungle Streams, have also been breached. To avert loss in the Cultivation under these Nullahs and wells, and also to prevent the lands under them being further damaged by the water flowing through the breaches of the Coontahs, Same were repaired in the year under review and to those Coontahs which could not be repaired during the Season temporary repairs were made, By these means the loss of Revenue has been Small, but the particulars of all the damaged Coontahs are exhibited in the subjoined Statement.—

Copy of a Letter from the Collector of Cuddapah, dated 23 April 1853, with the Statement annexed.

Sir,

I have the honor to forward herewith a Statement of the Contahs which were damaged by the Storm of June last year, and which were repaired by Ryots at their own expence, and cultivated in the Fasly 1260 and 1261.

2. The Statement exhibits the Contahs which were repaired and cultivated in the Fasly 1260, and the Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261.

3. The Contahs which were repaired and cultivated in the Fasly 1260 are 56 in number, and the Assessment on the Lands cultivated under them is Rupees 4990 and the Acres 1987.

4. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 53 in number, and the Assessment on the Lands cultivated under them is Rupees 4859 and the Acres 1987.

5. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

6. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

7. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

8. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

9. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

10. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

11. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

12. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

13. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

14. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

15. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

16. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

17. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

18. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

19. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

20. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

21. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

22. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

23. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

24. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

25. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

26. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

27. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

28. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

29. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

30. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

31. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

32. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

33. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

34. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

35. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

36. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

37. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

38. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

39. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

40. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

41. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

42. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

43. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

44. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

45. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

46. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

47. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

48. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

49. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

50. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

51. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

52. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

53. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

54. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

55. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

56. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

57. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

58. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

59. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

60. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

61. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

62. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

63. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

64. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

65. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

66. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

67. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

68. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

69. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

70. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

71. The Contahs which were repaired in the Fasly 1260 and not cultivated in the Fasly 1261 are 3 in number, and the Assessment on the Lands which were not cultivated under them is Rupees 131 and the Acres 58.

72. The Contahs which were repaired and cultivated in the Fasly 1261 are 7 in number, and the Assessment on the Lands cultivated under them is Rupees 282 and the Acres 141.

73. The Contahs which were repaired in the Fasly 1260 and cultivated in the Fasly 1261 are 50 in number, and the Assessment on the Lands cultivated under them is Rupees 4577 and the Acres 1846.

Fort St. George 11th April 1853.

By the foregoing Statement it will be observed that the decrease under the damaged heads is greater in Anantapoor Taluk than other Talooks - This is partly owing to Some wells not having been repaired and partly to the Ryots from other causes having been unable to cultivate, but the Increase under those wells which were not injured, more than counterbalances this decrease. —

24. Cholera prevailed only in three or four Villages of Pengondah, Rodecondah and Dharmavarum Taloks from July until November. The number of deaths amounted to 48 and the number of persons attacked with the disease amounted to 82. The proportion of the deaths being a little more or than half. —

Taluks	No. of Villages	Patients	Casualties
Pengondah	1		
Rodecondah	1	1	1
Dharmavarum	2	32	23

Fro

Fort St. George 11th April 1833

From the above Statement it will be observed that there is decrease of Rupees 1859 arising from land relinquished by Ryots in the year under review, and Rupees 24586 in the lands under breached Tanks as well as in Rupees 2080 in the Items of suspressed Cultivation detected by Harroons, and taxes on Enams. From the Total amount of this decrease Rupees 28525, if the Saving of Rupees 7645 in the Items of remissions and ready money allowances is deducted, there remains a Net decrease of Rupees 20880 or a percentage of Rupees 3-5 "-

32- The detail of the Gross increase and Gross decrease in 77 and 102 Columns of the Comparative Statement No 2 is as follows-

Increase Ryotwar as per Column 77	67683
Decrease Ryotwar as per Column 102	88563
Net Decrease	20880

33- The Items Composing the Increase Ryotwar amounting to Rupees 67683 are specified below-

1st Item Increase of Cultivation in Column 82 — 47140

The details thereof-

By New Ryots who had no Puttahs in last year as per Column 60	15401
By Old Ryots as per Column 61	31739
	47140

Fort St. George 11th April 1833

The cause of this increase is attributed to the increased supply of water received in the Tanks which were not breached, to the increased Cultivation carried on in the beds of Tanks which could not be repaired to the Cultivation in beds of Tanks which had received a deficient supply of water, and to the occupation of New lands in exchange for Old which had been given up in the year under review-

2d Item Increase of Rent Rupees	19242

Details thereof-

From Cultivation of lands which were not down last year	15577
From lands Cultivated in last and present year	3665

Viz:-

From the reduction of 1/4 Remission made in the year under review instead of 1/3 Remission given in last year and from the Savings of deductions on Shotriem Villages in which the Cultivation fell short of last year.	790
Savings from Chadatee and from Cowle expired Lands	71
Savings from the remissions given in last year for loss of Crops during the Storms of May 1851 and from other Causes	2834
	3665
	19242
	66382

Item

Fort St. George 11th April 1853

3d Item Savings from the Items of
Collections on Enam lands Viz.t
From levying full tax on persons paying
Jodee who last year paid only a portion — 121
From Neersaghu on dry land converted into Wet — 958.
From Enam Saffaie — 174
1253.
Savings from decrease of ready Money
allowances — 48
1,683

34 Details of the Increase of Ryots from Column 54 to Column 59 of the Statement N.o 2.

N.o Ryots

Ryots who gave up their lands last year for want of water but are now Cultivating — 387
From Ryots who gave up their lands from other Causes but have again Cultivated this year — 88
By Separation of partners and by holding separate individual Puttahs and by Ryots who were under tenants last year — 339
By Ryots who deserted last year and by new Comers from different Villages — 10
By Payacary Ryots residing in other Villages — 338
1,163

35 Decrease Ryotwar as per Column 102 Rupees 88,563 Viz.t

1st Item decrease of Cultivation — 41,269

Viz.t

Amount given up by Ryots who held no Puttahs in the year under review as per Column 84 — 18,567
Amount given up by Ryots who have relinquished only a part of their Lands as per Column 85 — 22,702
41,269

2d Item of Decrease Rupees 44,340, is composed of the following Items.

From

Fort St. George 11th April 1853.

From deductions made on Tarh lands left waste in the year under review. owing to an insufficiency of water from Nullah and Bowry lands left uncultivated by poverty and from Dry land given up in Consequence of the failure of early rains ——— 39578

From remissions given in the year under review. to Lands Cultivated in both last and present year ——— 4822

Viz.t

From 3 Remissions given in the year under review instead of 4 in last year ——— 107

From lands Damaged by the floods during the Storm in May 1851 and from having granted Cowle in accordance with the Boards Order dated 17th July 1851 ——— 2729

From the Increased deductions made in this year on Shrotriem Villages in proportion to the Cultivation and from temporary remissions given to the Village Servants or Cuttaboodies in consequence of their Enam lands having been waste from unavoidable Causes ——— 179

From Increase of deductions in Temporary remissions ——— 1807

Viz.t

From the Deductions of remissions as given to poor Ryots ——— 13

From

Fort St. George 11th April 1853.

From the remissions given on two Crop lands which yielded only one crop and from remissions given on some Nullah lands in Tandpatty Talook in Consequence of their having been left waste during 1st Crop Season owing to the repairs not having been Completed ——— 1040

From remissions made for Crops withered in Consequence of insufficiency of water and for loss of produce ——— 754

Viz.t

For Crops withered — 193

For loss of produce — 561

754

1807

4822

44340

85609

3d Item Decrease in the Items of Collections on Enams Amounts to Rupees 2954 and proceeds from the following Causes

From Temporary remissions given to Village Servants in Consequence of their Enam lands having been left waste for want of Water and in Consequence of poverty ——— 2049

From the Decrease in Neersarghee ——— 463

Viz.t

From Dry land Converted into Wet having laid waste for want of water ——— 419

From land paying Nerr Nullah having been thrown waste ——— 34

Fasly waste ——— 10

463

Fort St. George 11th April 1853.

From Decrease of Enam Tuffeerick in Consequence of decrease in Enam Cultivation and in Consequence of Saddling a waste in lieu of Enam Tuffeerick ——— 419

2931

From Increase of ready Money allowances ——— 23

2954

88563

36. The following Statement exhibits the Increase and Decrease of Ryots.

	Fusly 1260	Fusly 1261	Comparison Increase	Comparison Decrease
Merasidar	3776	3689	"	87
Ryots	16766	16543	"	221
Total	20542	20234	"	308
Payacary Ryots of other Villages	3548	3372	"	176
Grand Totals	24090	23606	"	484

The Cause of Decrease is owing to the lands under some of the Breached Tanks having been waste, and the particulars of the changes that have taken place amongst Ryots as entered in the Statement No. 5 are as follow.

Ryots who held Puttahs in their names for Fusly 1260 ——— 24090

Deduct

Decrease from poverty ——— 887

Do. from other Causes ——— 760

1647

Viz.t

To Poor Ryots ——— 535

To Ryots whose lands taxed with two crop Assessment but yielded only one Crop ——— 1428

For Crops withered owing to insufficiency of water and for losses of Crops ascertained after due enquiry ——— 1213

Viz.t

3176

Peek Sookee or Crops withered ——— 315

Loss of Crops ——— 898

1213

8926

39 The details of the Total Ryotwar assessment amounting to Rupees 5,82,561 in Column 176 of the Statement No.5 are specified as Follows Viz.t

Land

Fort St. George 11th April 1853.

Land Sown up to the time of Jummabundy in Column 180 ——— 543194

Asaan Bunjur as per Column 183 ——— 8055

Vysack Dowle or Estimate of 2d. Crop in Column 184 ——— 29312

380361

The amount entered in Column 238 is the assessment of land Cul. tivated in last and Present year Rupees ——— 874246

Of which land transferred from one to another Ryots as per Col. umn 256 amounts to Rupees ——— 4363

Remaining Rupees ——— 869883

The remainder being the Assessment of land Cultivated by Ryots who Cultivated last year

The Vassoly of the land Cultivated by Ryots in last and present year is as follows.

Vassoly of last year in Column 259 ——— 538579

Do. of present year in Column ——— 523421

Net Decrease ——— 15158

Which latter sum is the Decrease of Cultivation Compared with the last Fasly including the remissions granted for loss of Crops.

The Statement No.6 gives all details regarding the Goonkee

40. Cultivation

The Vasooli in Column 27 of that Statement is Rs. 64,913. This sum has also been entered in Column 178 of that Statement No.5 and bears a percentage of Rupees 11-2-4 on the amount entered in Column 176 of the same Statement. The increase of Goonkee Cultivation to the amount of Rupees 4,581 and Puttahs 25th May) be attributed to the increased Cul. tivation in the beds of some damaged Tanks and the increased supply of water received in some Tanks which were not breached.-

The following is an Abstract of the Rent

41. Roll prepared according to the Board's Circular order By this abstract it will be observed that the average rent of land held by each Ryot who holds Separate Puttahs amounts to Rupees 22-4-

Lands guttered or Lands washed away

Irrigated

Fort St. George 11th April 1853.

Independant of the Lands for which Cowle was granted in the year under Review there are several damaged Lands liable to Cowle in all the Taluks of Sub Division except in Hodeconda Taluk, but Lands of the above description are more numerous in Anantapoor and Tandpetry than in other Taluks The damaged Lands have been divided into two Classes in the first of which are included those Lands added to Cabooliate up to Fasly 1260. Of these Lands the following Statement exhibits the particulars of the Lands which have been rendered unfit for Cultivation in consequence of the Soil having been washed away by Rivers and Streams and for which deduction has therefore been made from the Pattahs and also those Lands granted for Cowle as well as those for which Cowle has to be granted.-

Added to Cabooliate

Taluks	Total assessment of Land damaged	Of which Deduction was made in Fasly 1262 for Land unfit for Cultivation	Remaining Land	Of which Cultivation in Fasly 1264 Paying full Rent	Amount of Cowle	Total	Remaining to be given in Cowle

Fort St. George 11th April 1853.

45 The Comparative Statement No. 11 exhibits the Land of which the Cowl has expired, and the Land newly taken up in the year under review including those Lands which were damaged by the Storm in May 1851.

46. By the Statement No. 12 it will be observed that the Total Cultivation of Enam Lands in Ryot and Enam Villages amounts to Rupees 2,05,178 being a decrease Rupees 3126 7 bearing a percentage of Rupees 13-1-11 below last year. The decrease is owing to Enam Lands under breached Tanks and damaged Nullahs having been left uncultivated. The following Abstract exhibits the Enam Cultivation in Circar Villages in the present Fusly Compared with that of last Fusly

Items			Cultivation of Enam in Circar Villages in Fusly 1260	Cultivation of Enam in Circar Villages in Fusly 1261	Comparison Increase	Comparison Decrease
Description of Enam Assessments	Dry		82,023	76,227	"	5796
	Irrigated		146,725	121743	"	24982
			228,748	197970	"	30778
Detail of the above Enam Description	Sirva Enam		174,135	151,208	"	22927
	Jody Enam		54,613	46762	"	7851
			228,748	197970	"	30778

		Not Cultivating Circar Lands	4486	3216	"	1270

Fort St. George 11th April 1853.

The particulars of Collections made by Circar on these Enams are stated below.-

Jody or Dait Rent	18672
Enam Neersarghee	2495
Enam Tuffrick	391
Amount of Bunjer Saddled on Reddies who neglected to Cultivate their appanum Lands and on Ryots who Cultivated Enam Lands leaving the Circar Land Waste	3185
	24743

47. The following Statement shews the Net Demand of last and present Fusly 1261 the Amount Collected within the Fusly as well as the Subsequent Collections up to the end of September of each Fusly

Fusly	Total Demand	Collection within Fusly	Balance	Percentage		Subsequent Collection	Net Balance
1260	624,909	605068	19841	3	3	16778	3063
1261	604029	392584	11445	1	14	7310	4135

Of the Net Balance of Fusly 1260 Amounting to Rupees 3063 a Sum of Rupees 2776 appears to be irrecoverable and I therefore request you will in accordance with the Statement already Submitted recommend the Amount to

Fort St. George 11th April 1853.

to be written off. From the Net balance of Fusly 1261 Amounting to Rs 4135 entered in the above State-ment a Sum of Rupees 3118 appears to be irrecoverable

48 A Statement shewing the Com-parison of Land and Extra Revenue of last and present Fusly 1261 is Subjoined.—

Extra Revenue

Fort St. George 11th April 1853.

The Causes of the Decrease in the Land Revenue have been mentioned in some of the foregoing Columns, but it perhaps is necessary here briefly to mention the Causes which led to the Decrease.—

1st. In Anantapoor Talook there was a decrease under the Singanamallah Muddegoobbah Aulmoor, Camarpully and some other Tanks which had to be repaired under Occasional Estimates and therefore the Sanction of Government was required before the repairs Could be Commenced. There was also a decrease under some Tanks which had been repaired and Subsequently had received only a deficient Supply as well as a Small decrease arising from poverty of Ryots.—

2d. In Hodecondah and Dharmavarum Talooks there is only Small Decreases.

3d. In Tandputry Talook the decrease amounts to Rupees 8,132 and arises principally from the Repairs of Nullahs not having been Com-pleted during the Season, from the Lands having been Covered with Sand by Flood, and from Some Minor Causes already Mentioned.

It is unnecessary for me to enter into de-tails regarding the decrease in Abkarry which you will have already brought to the notice of the Board of Revenue at the time of your disposal

Fort St. George 11th April 1853.

disposal of the Abkarry Reits.

The decrease in the Sundry Small Farms and Licences is to be attributed to a decrease of produce in the Sopes from an unfavorable Season and from some of the Trees having been destroyed by the Storm in May 1851.

The decrease in the Motturpha is owing to the discretionary remissions given to the Sufferers in Consequence of losses occasioned by the Storm.

49. The Statement No. 19 prepared according to Board's Order dated 28th August 1849 gives particulars regarding the Lands newly held this Year by public Servants in the Sub Division and Lands previously held by persons who have this year entered the public Service. The land newly acquired this year Amounts to 17 Acres of Kushkee.—

50 On former occasions I have thought it due to my Shristadar to bring to your notice the experience and ability evinced by him in the performance of his duties and I beg now to bear testimony to the same qualifications having been exhibited in the Taluk under review and owing to the disastrous effects of the Storm his duties have not only been more responsible, but also more arduous. The Amildars establishments in Some of my Taluks have not been adequate to the preparation of the additional accounts the performance of their other duties, and at the Same time

Fort St. George 11th April 1853.

time is bestow that degree of Superintendance generally as requisite when large bodies of work people have to be Collected and many works Carried on at the same time; and the additional work in my Office with an Establishment inadequate for the occasion has rendered it impracticable for me to depute responsible Servants from my Office to measure and report upon works as I should otherwise have done, but the zeal exhibited by my Shristadar and his experience and judgment in regard to works of irrigation have been the means of expediting the dispatch of business, and I may also add of forwarding the progress of the repairs to public works and of the Construction of Some temporary works under which Cultivation has been Carried on.—

Sic

the difference of remissions granted in the
two years on lands, actually sown because
the land this year was cultivated by wells
" 88 instead of other sources of irrigation Rupees
542, or because bowles were granted to enable
the Ryots to restore the lands destroyed by the
" 89 floods and freshes of the storm Rupees [50457
or because it was necessary to make re-
missions where only one crop could be
raised on heavy assessed land usually
cultivated with 2 crops in consequence
" 90 of the works of irrigation not being repaired
2,445 Rupees or for actual losses of crops
" 91-92 3756 Rupees] or for other similar causes
[724 Rupees].

19 The decrease in the Cumm cultivation
Statt No 26 96. 97-98. of Jodee Vm was 8861 arising from less cul-
tivation of Cumm.

20 The decrease of Ready money
" 101 allowances was 540 Rupees and the whole de-
crease of Land Revenue was Rupees 2,18,532.

21 The number of Cultivating Ryots
in this year shows a small decrease according to
Statement No 2 it will be found as follows.

" 59 Actual increase of Ryots ..... 1,028.
" 83 Actual decrease of Do 1,554
Net decrease ... 526

Statement No 5 Col 224 to 237.

The following Extract from the General Revenue Statement No 5 gives the usual account of the Ryots.

Number of Ryots who held individual Puttahs in last year 91,557

Deductions in the present year. Number of Ryots who have thrown up all their lands ..... 1,319.

Owing by deaths 235
" Emigration 731
Owing by Poverty 1125
" Paya Karies ..... 967.
For want of water 1491
1,549

Decrease on account of Salary Cumms in Magalum of the Hoonimbadagaly Talook having been restored to their owners 5
1,554

Ryots who still hold individual Puttahs — 87,003

Number of Ryots who retain their last years holdings 62,488
" who have exchanged lands 21,86
" who have increased their farms this year 9973
" who have thrown up part of their holdings 12,056
87,003

Add new puttah holders this year 1,028

17 The nett demand for fasly 1260 was Rupees 22,23,162, in the year under review the demand was Rupees 21,75,112 the decrease was therefore Rupees 68,050 or 3 Rupees Per Cent being the result of a Gross decrease as will be seen in Col 102 of Statement N° 2 of Rupees 2,18,832 and of a Gross increase as shewn in Col 77 Rupees 150,782.

First The increase Ryotwary is shewn from Col 60 to 70 in the Statement. It consists

Statt N° 2 Col 62 of an increase of Cultivation 99,823 Rupees by new occupants or by Ryotts increasing their Farms and of an Increase of Rent

" 69 on lands held in both the last and present year Rupees 26,601 but which in last year received a remission as not

" 63 being down / Rupees 37,427 / or for which through down in both years the remissions

" 68 granted in last were not necessary in the present year / Rupees 9,174 / principally remissions for loss of crops last year. The increase on

" 71-72-73 account of Cumm cultivation was 3981 Rupees being the usual taxes of Lodie Rent for water and Jiffreek in excess of last year inconsequence of greater cultivation in some parts. There was as in the Circar lands a real decrease

" 74-76 in the Cumm cultivation. These items with a

small increase / Rupees 357 / arising from ready money allowances not granted make the gross increase of land Revenue 150782 Rupees.

" 95 18 The Gross decrease Ryotwar Viz^t 209,131 Rupees consists.

" 86 First of a decrease of Cultivation Rupees 104,916 of which the following account which will be seen in the Statement N° 5 gives the causes. Lands relinquished for want of means Viz^t

General Revenue Statement N° 5 Col. 222 to 239.

	Ryotti	
By deaths	235	638.
