No. 610.

Read the following letters from the Secretary to the Board of Revenue.—

(Here enter 29th March and 21st April 1853 Nos. 728 & 161)

Para 1 With the above communications the Board of Revenue submit the letters received by them from the Collectors of several Districts in reply to the Circular issued by the Board, in conformity with the orders of Government under date 3d September 1852.—

2 Those orders required that all allowances paid from the public Treasury for the performance of Hindoo and Mahomedan religious ceremonies and festivals should be immediately discontinued. In communicating these instructions for the guidance of the Collectors the Board directed that effect be given to them "in such a manner as not to press with hardship on the present recipients of the allowances who have no other means of maintenance to look to," and intimated that "in such cases they would be prepared to recommend

1729 Fort St. George 23d June 1853.

recommend the continuance of such allowances as life grants for subsistence." The Collectors of South Arcot, Tinnevelly and Salem, have accordingly brought to notice certain instances in their respective Districts wherein such consideration may properly be exercised, and the Board recommend that the allowances in these cases may be continued as life grants.—

3 The Right Honorable the Governor in Council observes that the object of the directions conveyed in Extract Minutes of Consultation 3d September last was to ensure complete compliance with the orders of the Honorable Court for the entire disconnection of the Government from all native religious festivals and ceremonies, but it was not intended that the measure should be carried out in such a manner as to bear hardly on individuals.

For the reasons therefore adduced by the Collectors and supported by the Board the payments noted in the Margin of Para 9 and in Para 14 of their letter of the 29th March last and those entered in Statement A of the letter from the Collector of Salem submitted on the 21st April last, will be continued to the present recipients for their lives. In sanctioning these allowances, it is however distinctly to be understood that they are continued solely on charitable grounds that they are to be freed from all obligation of service that the public authorities are in no way to interfere with the expenditure of the money

nor

one

not take any part in it beyond its mere disbursement and that the allowances are to cease without exception on the demise of the parties to whom they are payable.—

4 The aggregate amount thus sanctioned is for.—

South Arcot	79	14	8
Tinnevelly	231	—	3
Salem	85	15	11
	396	14	11

†Being a allowance of Rupees 14 per Annum paid for reading the new Punjangum before the Hoozoor Native Cutcheny which allowance is to be discontinued.—

5 The Board will desire the Collector of South Arcot to report & direct to the Civil Auditor the names and ages of the individuals to whom the sums Rupees 8—12 and Rupees 7 allended to in Para 11 of their letter are to be paid. The Collector of Tinnevelly will also be requested to report to the Civil auditor the names and ages of the parties who are to share in the two grants of Rupees 37-9-4 and Rupees 37-9-3 respectively.—

Para 15.

6 With regard to the District of Ganjam it appears that allowances for the performance of Native Festivals to the amount of Rupees 308-8 have been discontinued. There are however other payments made to the Pagodas and Mosques entered in Column 2 of the Statement furnished by the Collector

Collector amounting to Rupees 3,501 of which Rupees 2,178½ are in lieu of resumed lands, and Rupees 1,322-12 are paid without reference to the resumption of lands and privileges. The Board have proposed that the payments which compose this last named sum be commuted into life grants for subsistence and in regard to the sums paid in lieu of resumed lands they remark that it is not clear whether these are for the performance of ceremonies in the Pagodas and Mosques enumerated in Column 2 or for the support of the institutions themselves. In the former case the Board would recommend their restriction to the lives of the present receipients, in the latter it appears to them they cannot be disturbed under the instructions communicated in the letter of Government dated 12th June 1841 Para 4.—

7- The Government are of opinion that the point above adverted to Viz.t whether the allowances were granted for the celebration of any specific ceremony or festival or for the maintenance of the institution generally, should be determined as regards the allowances entered in Column 4 of the Statement or those not granted as an equivalent for resumed lands no less than as regards those given in Column 3. He desires that the Board will obtain this information in respect to the various payments

Contained

contained in both of those Columns, as also when these several allowances were confirmed by whom and what Summuds or other documents there are in support of them - similar information should likewise be obtained relative to the payments in Rajahmundry Rupees 248-4-3. It should also be stated whether such of the allowances above adverted to as it might be thought proper to retain, might not be commuted into grants of Enam land.-

/ Here enter 9th May 1853 No. 193/

Para 1. The Right Honorable the Governor in Council observes that the land to which Petition 248 of 1853 has reference was granted free for the use of the Pagoda—it does not therefore appear how it can be made chargeable with quit Rent as proposed by the Acting Collector, so long as it is applied to the purpose for which it was conferred. The interference of that Officer by the appointment of a Durmakurtah as suggested by the Board seems also objectionable. It would appear from Petitioner's Statement that the Pagoda was made over to him, and an assignment of the land executed to him at the same time Viz. in December last, and that he has since provided for the Pagoda service.

2 The land however would seem to be in the occupation of the Mortgagee Mr. Coothum Reddy who declines to relinquish his claim upon it. Under all the circumstances of the case, the Government do not think the matter one

in which they are called upon to interfere.

months of January and February, the District was healthy.

3. The price of Shumbah or the superior description of paddy was 3¾ per cent below that of the preceding year, while the price of Cuar or the coarser grain shows an improvement to the extent of 10 per Cent. Compared with the commutation rates, there is a depreciation of 9⅛ per cent in Shumbah and 13/16 in Cuar. It is however pointed out by the Board that the land affected by these rates or that devoted to the culture of rice (cawnies 80,000) is less than half the entire cultivation of the District and that no prices were fixed at the time of the settlement for dry or Garden produce. The Board have also submitted a letter from Mr. Bird on the general question of the prices of Grain in his District, and their bearing on the assessment together with a Statement showing the prices of paddy from the year 1801 to the present period in comparison with the commutation rates. The subject is one of great importance, but it would be premature to enter upon it at present.

Sir,

In reply to the Board's proceedings of the 21st Ultimo requiring to be informed of the reason why I remained 89 and my acting Head Assistant 125 days at Rajahmundry in Fasly 1261 I

have the honor to state that the prosecution of my late Head Sirishtadar Cumbum Narsingarow and of the Ex-Guardian of the Minor Zemindar of Pithapoor in the Criminal Court demanded my presence at Rajahmundry and that my acting Head Assistant on being relieved from the charge of the Sub: Court in October 1851 remained at Rajahmundry with me in order that he might take temporary charge of the Police under my immediate attention, while my time was devoted to those two difficult and important cases the former of which was under trial 14 months.

Mr. R. E. Master was there for 2. exactly the same number of days that I was but there were 36 days during which I was not at liberty to draw the Extra Tent allowance -

B. of R. 1091
From the Collector of Chingleput .....
Reporting on the Petition addressed to the Supreme Govt. by certain Inhabitants of his District which was referred to the Collector for enquiry.

Sir,

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue under date the 28th February last transmitting Extract of a Memorial addressed to the Supreme Government by certain Ryots of the Chingleput District and requiring me to enquire into and report upon the allegations therein contained.

2 In reply I beg to state that the memorial in question so vague in its general tenor, contains representations which are quite unfounded. In this District the sale of Lands for arrears of Revenue is only had recourse to in instances in which Parties who are able to pay their Kists have withheld them and concealed their moveable Property from dishonest motives and such sales are of rare occurrence. The allegations set forth in the Petition regarding the sale of

contain

contain Lands so far back as Fusly 1249 are not I am inclined to think Correct as none of the Public Servants seem to be aware of the circumstance. Although the point can be accurately ascertained by a reference to the old Records which are not now with my Circuit Cutcherry. I trust the Board will concur with me in Considering it as altogether an unimportant matter when they are made acquainted with the real nature and object of the Petition.

3. The levy of Teerwa Jasty on Dry lands irrigated from river channels constructed and kept in repair by Government and of Fusl-Jasty or additional half Teerwa on wet lands on which a second Crop may be raised by means of the same source, the enforcement of Teerwa on Shamlat Punjey and the Collection of a Double Crop Teerwa on 2 crop lands on which only one crop may have been raised owing to the neglect of the Ryots and not from insufficiency of water are all in accordance with the established Rules of the District and appear necessary for the protection of the Revenue, whilst any injury which may be sustained by the Ryots from the destruction of their

their Crops by inundation or drought is met by due remissions granted under the Rules in force.

4- The representations made in regard to the various descriptions of torture as practised in the collection of revenue are I can safely say without foundation so far as concern this District. In the last case referred to in the Petition, I am given to understand that the Tahsildar placed a Peon to wait at the house of a Ryot who was greatly in arrears, and who evaded all endeavours used to obtain his appearance before the local Officers. This was represented as an interference with an annual ceremony then performed at the Ryots house and made the subject of a Civil action against the Tahsildar which was afterwards amicably settled by that Officer but no fines were inflicted on the Tahsildar as alleged in the Petition. Since my arrival in the District, no cases have come to my notice in which Parties have complained of being in any way tortured or maltreated in the Collection of Revenue, and as there is certainly no disinclination on the part of Ryots to complain, the inference must appear obvious - cases of

abuse

abuse of authority are few in number and are generally of a comparatively trifling character - The great depression of the grain market which has been urged as a cause of complaint in reference to existing prices as compared with the commutation standard cannot but be looked upon a matter of handship as seriously affecting their agricultural interests but this subject is under the consideration of the Higher authorities. Advantage has been taken of this circumstance by certain influential parties who undertake from pecuniary motives to obtain redress for the Ryots and draft out Petitions in which the distressed condition of the agricultural classes consequent on low prices is coloured by false Statements of injustice and alleged acts of cruelty and oppression practised towards them. My impression on this point is supported by the numerous similar Petitions addressed in the same strain to this Office as well as to the Board of Revenue by one Chellappah Moodelly and a few others who seem to have no other means of livelihood than that derived from the

I have the honor to acknowledge Extract from the Proceedings of the Board under date the 28th Ultimo and to state that the account given in its accompanying papers of Thumboomalla Reddy's death is not correct.

2 I find from the records that the event took place as far back as 1842 under the following circumstances. Encouraged by the opposition which had been made in some parts of the District to the Settlement of the land revenue under the Principal Collector Mr. Ashton in the preceding year the

the Reddies of the Tindevanum taluk entered into a confederacy to oppose the new Collector Mr. Hallett and induced the ryots to refuse their Puttahs.-

3 Thumboomullah Reddy was a leading party in this illegal combination and on some of his confederates being punished by the loss of their Village Offices while others abandoned their opposition, committed suicide under a feeling that he had compromised himself. An enquiry was made at the time into the circumstances of his death and shows that he was at perfect liberty and in his own Village when it occurred.-

Dated Para 1

I beg to acknowledge the receipt of your letter of the 26th Ultimo forwarding Estracts from the Proceedings of the Board of Revenue and Minutes of Consultation / No. 238 / of Government under date the 24th of March 1853 and asking information as to whether it would not be agreeable to me to annex a smaller quantity of land to my property than that purchased from the Estate of the late Mr. J. Cannington.

2. In reply I take leave to state that it would afford me pleasure to make a sacrifice for the public benefit, but the only part of the property which could be of use to the public is situated on the North West of

of the Estate and which has by some mistake been omitted in the Map submitted to the Revenue Board as there cannot be the least doubt of its belonging to the property, from its being directly within the fosse or ditch which the former owners caused to be dug round the Estate and also from the fact of a part of the hill which it comprizes having been sold by him to Mr. James and on which a house has been built. The remaining part of the hill I would willingly have given up as I expressed to you Sir on first taking charge of the land - but as I find that more Church accommodation is required in Polacamund and this spot will be the most suitable on which to build a Church I should wish to retain it in order to appropriate it for that purpose. This in truth is the only part that could be taken from the land without destroying the entire value of the property as it would cut off the streams of water which flows through the whole extent of the Estate on the other or eastern side.

3. I would therefore request that the whole of the property as possessed by the former

Owner may be made over to me and for which quit rent has been paid for a long period by him and will continue to be paid by me.

4. I beg to forward to the Board as Copy of a Plan of the Estate as furnished to me at my request on taking possession of the Estate and containing the boundary line made by the afore said fosse or ditch.

Proceedings thereon. The Board of Revenue authorize the Acting Collector of Madras to sell by public Auction, the Beer adjudged to confiscation by the Deputy Superintendent of Police in his Minutes dated 3d June 1853.

The Board share in the Acting Collector's doubts with respect to the correctness of Mr. Clark's decision as regards the Wine and would suggest that the subject be brought under consideration of the Superintendent of Police, as it seems clear from Section XVI Act XIX of 1852 that all liquors found in possession of any offender against the Act should be seized and confiscated.—

Remarks

Remarks upon Statement A.

Collections of arrears of Land Revenue Column 11.

In Tanjore, Madura, North Arcot, Masulipatam and Bellary the deficiency in the Collections is owing to the demand on account of arrears at the beginning of July 1852 being less than that of the corresponding period in the preceding one.

Collections of Current Land Revenue Columns 12.

The decrease in Chingleput is chiefly attributable to the less extent of Cultivation from the unfavorable nature of the season, to the depressed state of the Grain Market, and to the inundation of crops.

Do. In Tanjore the decrease is chiefly attributable to the Crops being swept away by the Cavaleroon and the Major portion of the decrease appertains to the Government Talooks, and the remainder to the proprietary Estates, the former caused by the change of Kistbundy and the latter to a partially unfavorable season.

Do. The decrease in North Arcot is owing to the falling off in the cultivation to the amount of Rupees 25,206 and to the remittances from certain Talooks not having been received within the close of the Month under notice, respecting which explanation has been called for from the Collector.

Do. In Nellore the decrease is chiefly attributable to the Crops being swept away.

Collections of Current Land Revenue — Column 12 (Cont.)

away and several tanks burst by the storm of March. In the Cultivation also there was a falling off to the extent of Rupees 15,962.

Do.

In Trichinopoly the decrease is owing to the Hurricane of the 27th March last; the centre of which passed over this District by which a great portion of the productive fruit trees, crops on the ground as those already reaped and left on the thrashing floor, were destroyed.

Balance on account of arrears of Land Revenue Column 101.

Of the large balance in Masulipatam only the small Amount of Rupees 2,322 was collected the greater portions of the remainder appertains to the proprietary estates, almost all of which have been purchased by Government; and a report on the balance will be submitted. Respecting the balance in Circar Villages the Collector will report specially to the Commissioner for the Northern Circars.

Do.

In Nellore the balance exists chiefly under the head of Shotriems & Jody Vs. the recoverable portion of this will be soon realized.

Do.

In Guntoor the balance belongs partly to Village servants fees and Enam Jody Vs. The Remany balance is stated to be owing to successive bad seasons and to the effects of the storm which visited the District on the

the 7th November 1851. A portion of this balance will however it is stated be brought to account.

Balance on account of Current Land Revenue — Column 111.

In Ganjam the balance is chiefly due by different Estates which will hereafter be collected.

Do.

Vizagapatam Do. Do.

Do.

Of the balance in Rajahmundry Rupees 12,033 have been collected and the remainder is in course of liquidation.

Do.

In Masulipatam the balance accrued partly on permanently settled Estates a portion of which Viz. Rupees 6,165 have been collected and partly on certain estates under attachment.

Do.

In Chingleput the Mostahdary balance is in course of Collection.

Do.

Of the balance in Salem Rupees 8019 have been collected, and the remainder will hereafter be recovered a similar remark applies to the balance in Madura of which Rupees 10590 have been realized.

Do.

In Tanjore the balance is composed of Rupees 2864 under Peishcush Rupees 6576 under Shotriems & Rupees 63,610 under Village rents including fixed grain rented Villages and is in course of Collection.

Do.

The balance in Tinnevelly since reduced to Rupees 22,808 is in course of recovery.

Do.

Of the balance in Canara Rupees 182,219. have

Fort St. George, 23d June 1853.

Balance on account of Current Lands Revenue Column 11 (Contd)

have been subsequently collected.

Collections of Salt Revenue Column 19.

The decrease in Masulipatam is owing to the failure in the manufacture of Salt in consequence of unseasonable falls of rain.

Do.

In Nellore the decrease is attributable to the Merchants having been prevented from resorting to the Pans owing to sickness among their cattle and the bad state of the roads occasioned by late floods.

Do.

In South Arcot-Chingleput and Tanjore the decrease is owing in the two former, to a failure of the stock on hand for sale and in the latter to the effects of the storm.

Collections of Tobacco Revenue Column 43.

The decrease in Canara and Malabar is in consequence of the abolition of the Tobacco Monopoly.

Balance on account of Extra Revenue.

In Chingleput the balance of arrears is considerable being Rupees 23433 of which 22298 occurs in Abkarry and regarding which no explanation is given by the Collector.

In Canara the current Balance is 40153 including 11927 in Abkarry and 13228 in Moturpha some portion of which appears to have been collected.

Bd. No. 1635.

From the Collector of Ganjam. ---

Sir,

I have the honor to submit the report called for in the Board's Circular of the 24th March last on the subject of land measures. —

2. The ancient standard land measure was the quantity of grain it was capable of producing, thus the same extent of land a burnum, a burnum and a half, or two burnums, and the land was considered to be either a burnum, a burnum and a half, or two burnums, without reference to its actual extent, an equivalent land measure was however recognized. It was however in all probability very seldom had recourse to and must have been very difficult to apply. It was too very greatly wanting in precision being

being computed by Ells the standard of which is the length of a man's arm from the hand to the elbow. —

3. The grain measure used to determine the extent of land is somewhat different in the Chicacole or Southern division of the District and the Itchapoor or Northern. —

4. In the Southern Division the "Garce" and "Cutty" are the principal measures. They are divided as follows. —

15 Tolas ——— make ——— 1 Sola.
4 Solas ——— 1 Adda.
4 Addas ——— 1 Toom.
20 Tooms ——— 1 Pottie.
30 Potties ——— 1 Garce
12 Garces ——— 1 Cutty

In the Northern division. —

4 Solas ——— make ——— 1 Adda
4 Addas ——— 1 Toom.
4 Tooms ——— 1 Nawtie.
20 Nawties ——— 1 Burnum.

In the Talook of Goomsur
/ Northern Division. /-

2. Burnums make 1 Mound – but this last measure is of rare occurrence. —

5. Another measure is mentioned in a few old documents in the Northern Division the Cutty which varies from 109 to 120-150 or 160 burnums. It is impossible and would be of no practical utility to attempt to define its extent. —

6. The annexed Statement shews at one view the principal grain measures by which the extent of land was formerly determined, its ancient equivalent but and the equivalent in Coontahs / of 33 feet square / which is now adopted by the Circar in the Amany talooks. In the Zemindaries the Grain measure of Poobacondah, Mohery and Goomsur prevails with the exception of Turlah in which the Garce is used. —

Proceedings thereon.

From the foregoing Return it is observed that the amount proved in evidences to have been received by the Curnums and others, from the ryots was Rupees 17½ and under clause first Section V Regulation IX of 1822, only double this sum can be imposed as fine. The Acting Sub Collector however assuming that the amount collected may be about one half of the Rupees 50, or say Rupees 25 said to be realized in para 3 of the remarks in the Statement, has fined the parties double this latter sum.—

2. The Acting Sub Collector cannot upon mere assumption impose this fine. The Board therefore direct that the Collector will issue instructions for the fine being altered to Rupees 35 the remaining Rupees 15 being remitted.—

Sir,

With reference to Extract from the

Fort St. George 27th June 1853.

the Proceedings of the Board of Revenue dated 20th January 1853 communicating Copies of certain Paras of the Despatch from the Honorable the Court of Directors, dated 31st August 1852, and stating that the Board will be prepared to take into consider-ation any proposition which may be laid before them respecting the Establishment of Depots at impor-tant inland stations, I have the honor to state for the information of the Board that the situation and local circumstances of this District a Maritime one, with a long line of Sea Coast, are not such as to require inland Salt Depots.—

2 I have already in my letter of the 24th Ultimo regarding the expediency of extending to the Madras Presidency certain Acts and Regulations relating to the appointment of Deputy Collectors, recorded my opinion as to the probable advantage of employing an Uncovenanted Deputy Collector in the Salt Depart-ment, such a measure might be advantageous in furnishing the Collectors with trust-worthy local Superintendants but beyond this, I am not of opinion that it would be desirable to withdraw the manage-ment of the Salt Revenue from him to place it under a separate Officer.—

3. The Abkarry being rented requires no separate Officer to superintend it distinct from the Collector and his Assistants.—

B. No 1498

From the Collector of Cuddapah . . .

Sir,

Reporting upon the Petitions Nos 11 and 12 of 1853 as required in the Board's Endorse-ment

	Govt. Order	Board's Order
11 of 1853	7th/13th of 1852	1st of 1853
12 of 1853		1st of 1853

I have the honor to report upon the petitions noted in the Margin presented by Moortyraze of Panta Cuddapah, complain-ing against one Brumhapoony Wobulrao to the effect that, he had in the year 1833, re-ceived his Kyrate enam and Puttah lands in Mortgage for Rupees 210— — — and obtained from him two bonds; but that he paid only a part of the sum and refused to pay the remainder although he had ever since been in posession of the Enam lands Vizt and praying that the same may be redeemed and restored to him.—

The Government in their endorse-ments dated 11th March 1853 required the Board of Revenue to state whether there is any objections to petitioner being referred to the Courts under Regulation IV of 1831, and the Board in an Endorsement dated 4th April last required the acting Collector to afford the information sought for by the Government.

The Petitioner having preferred a

a complaint to the Collector Mr. Forbes in January 1852, on the subject referred to in these petitions, the Tahsildar of Chemnoor was directed to institute an enquiry into the petitioner's case and to make a report. that

Names of Villages	Extent of Land	Amount of Assessment				Referred to in the document marked

Officer accordingly held proceedings and forwarded the same to the Collector from which it appears that Kyrato Inam as detailed in the Margin which had been entered in the Oymash and Inamity accounts in the name of Nursaraze the petitioners father certain puttah lands assessed at Rupees 6-11-4 house &c. had been mortgaged by Petitioner to Wobulrao for the sum of Rupees 240, receeved by him in three instalments and two deeds of mortgage executed to that effect in favor of the latter, that subsequently a deed of sale was executed to the same individual making over to him the Petitioners Kyratee Inam in the Village of Panta Cuddapah and his dwelling. Mr. Forbes on

on a review of the proceedings aforementioned was of opinion that the revenue authority could not interfere and disturb possession of the Inam held by Wobulrao for 17 or 18 years, and referred the Petitioner to the Civil Court for recovering his puttah land, and at the same time directed him to apply to Government in respect to the claim laid by him for the redeeming of his Kyratee Inam.—

Similar complaints having been preferred by the Petitioner to the late Collectors Messrs. Arbuthnot and Cochrane in the years 1842 and 1847 respectively, they had also directed him to seek redress from the Judicial authorities.—

Copies and translation of the mortgage deeds and of the deed of sale are herewith forwarded for the information of the Board of Revenue and transmission to Government.—

Petitions from Moturpha zyds of the Mahomedan caste clamming exemption from House tax, which appears to have been newly imposed upon the Class in July 1259 by Mr. Phillips, the additional revenue realized therefrom amounting to about 396.—

2. In some instances the tax has been imposed on persons of respectability who do not object to the rates at which their houses are assessed which is trifling varying from 8 annas to 1 Rupee, but to the innovation and loss of respectability which they imagine they sustain by being made liable to a tax which persons of the same class and condition residing in the Town of Kurnool are exempt from.—

3. Mahomedans and Brahmins are I believe exempted as a privileged class from this tax in the Districts of Cuddapah and Bellary, and considering that the tax is a newly imposed one in the

From the Coll. of

Requesting instructions regarding the Private wells sunk in Pomjah lands.

Extract from Pro: of Board 16th August 1852.

1 In proceeding to make the requisite preliminary enquiry before submitting plans for modifying the land assessment of this District, in accordance with the orders which have been issued to me, I find that a question arises in respect to the Poonjah lands on which I have the honor

Fort St. George 27th June 1853.

honor to request the instructions of the Board.

2. The Board are aware that in this District the Ryots have been allowed to sink wells at their own cost without any additional assessment being charged, on the principle of allowing improvements to remain untaxed. It consequently happens that Poonjah lands of the same class and quality of soil are not now on an equality, as one field contains a private well which enables garden or Nunjah produce to be raised, while another has not this advantage— and either yields inferior produce or remains uncultivated from the undue weight of its assessment.—

3 I request therefore the instructions of the Board on the following 2 points.—

I In proposing such reduction of assessment as appears necessary on the different classes or taroms of Poonjah land, am I to make the reduction general or exclude those fields which possess private wells.

II If reduction is not to extend to

Fort St. George 27th June 1853.

to declare that Poonjah lands on which an abatement is now allowed are to revert to their former assessment if private wells are hereafter dug in them against which course objections seem to exist, or else an inequality of assessment would soon prevail in lands of the same description, merely because private Wells happened to be sunk in some before the revision of the assessment and in others subsequently to it.—

6.— The question seems one to be disposed of on general principles and I have not therefore delayed this reference until it could be accompanied by detailed accounts of the Wells. In case however the Board should wish to have some information regarding their numbers I beg to refer to the statement which accompanied the Collector's report of 13th April 1849, explaining that a large portion of the private Wells therein entered do not belong to Poonjah fields, but have been sunk in Nunjah or Totacal lands to aid an imperfect irrigation. The immediate sacrifice of revenue would therefore be comparatively small if the private wells on Poonjah lands are treated in a liberal spirit during the revision of the assessments and it appears an object of the highest importance to the interests of Government and the people that a continued and consistent encouragement should be given to them

B.d No. 1320.—

To The Collector of South Arcot conveying the Board's opinion regarding the revision of assessment on Poonjah lands watered by private wells.

In Cons.y 27th June 1853.

To The Collector of
South Arcot

Sir,

1. With reference to your letter of 26th May 1853 requesting the opinion of the Board as to whether in revising the assessment Poonjah fields watered by a well made at private Expence may have their assessment lowered, in those cases where it would be necessary to lower other Poonjah fields without wells but of the same description of soil, situation &c. I am directed to state that after fully considering the question the Board are of opinion that such reduction should not be made on wells already in existence. They are not insensible of the advantages as pointed out by you which would attend such a reduction particularly as regards the simplification of the accounts but it was not contemplated to give retrospective operation to the system now to be introduced and although, as you observe, "the immediate sacrifice of revenue would be comparatively small in South Arcot yet with reference to the

Fort St. George 27th June 1853.-

Extract Minutes Consultation 2d November 1852 Para 4.

the remark of Government that it would be objectionable and at variance with the Honorable Courts' orders to have one system in one district and a different one in another" - it would be necessary if this rule were sanctioned in your district to extend it to all others, and the Board are not satisfied that the aggregate sacrifice of Revenue by this means might not be worthy of consideration, while it seems clear that the reduction cannot be actually required for lands already having the benefit of irrigation from a Well.-

Para 4th Para 3.

2. With regard to the 2d point to which you refer I am directed to state that no reservation as to the former rate of Assessment being reverted to if a well should hereafter be dug on land of which the Assessment may now be lowered can be made consistently with the orders of Government recently passed in relation to this subject.-

Board of Revenue,
Fort St. George.

B.d W.s 1618.

From the Actg. Collector of Tanjore Explaining the causes of the large balances in the Demand Collection Balance Statements remarked by Government.-

Sir,

Para 1. I have had the honor to receive an Extract from the Board's Proceedings dated the 30th Ultimo conveying the remarks of the Government on the large balance exhibited in the Demand Collection Balance Statements for this District.-

2. It was formerly the practice in Tanjore for the remittances from the Talooks to the Treasury to be made on the 20th so that they might be shroffed and carried

carried to account before the close of each month. In consequence however of a representation from the Officer Commanding the Southern Division, of the inconvenience that was experienced from a part of the small guard from each Talook having every month to proceed to Trangueber, it was arranged early in 1851 that instead of the Sepoys leaving the Talooks with the remittances, general escorts should proceed on different lines from Trangueber, taking with them the Talook servants' pay and returning with the remittances thenceforth to be made on the 15th instead of the 20th of each month, the latter alterations having been made on account of the longer time taken by one guard to call for the remittances at two or more Talooks, and from the Military authorities having objected to the Sepoys marching more than Eight miles a day. The Pahsildars have thus been deprived of five days during which they had formerly made their collections, and as being the five last, they are exactly those days in which the largest amount of the List was usually paid in. From this cause have arisen the balances noticed by the Government.-

As

3. As the Merasidars are entitled to the whole month for the payment of each month's Kist, some rich and independent men even now insisting on their right and invariably declining to pay their Kist until the 30th and as I am of opinion that it would facilitate all arrangements both in the Talook Cs and in the Treasury, and be in accordance with the system that prevails in some other districts, it is worthy of consideration whether from the ensuing Fusly the remittances should not be made on the 1st of the Month following that for which the Kist has been collected.-

From the Collector of Coimbatore - 5

Sir,

1. Land being now valuable on these Hills, and private parties frequently dividing and selling portions of their Holdings I am applied to often to measure and define the portion sold and give a Plan of it. This appears a private transaction, and the seller bound to furnish to the buyer, without the aid of Public Servants, all needful information and plans.-

Para 2 of the Board's Proceedings 10th February 1853.

2. I therefore propose, in compliance with the Board's view to refer all such applications back to the parties themselves, or where a measurement and Plan is made to charge a fee of 5 Rupees for a small, 10 for a large property half to go to Government, half to the Surveyor, or whoever does the work. Many parties are willing to pay and request the latter plan and if I get a Surveyor, and the Board's Concurrence, it may be adopted. I beg the Board's orders on the subject as such applications are now becoming numerous.

numerous and some system must be defined.-

B. No. 1330 To the Chief Sec.y to Government. Submitting with the Board's recommendation a letter from the Collector of Coimbatore on the subject of the fee proposed to be charged to private individuals when Plans or Surveys of property are prepared for them thro' the agency of the Public Servants.

1. I am directed by the Board of Revenue to submit for the orders of Government, the accompanying letter from the Collector of Coimbatore on the subject of the fee proposed to be charged to private individuals when plans or surveys of property are prepared for them thro' the agency of the Public Servants.-

2. The Collector states that in consequence of land having now become valuable on the Neilgherry Hills, frequent applications are made to him to define and measure portions transferred from one holder to another. The Board in their Proceedings of the 10th February 1853 directed that Copies of surveys required by private individuals should be executed at their own expense, but as there is a difficulty in procuring

procuring individuals competent to perform the task, the aid of the public Servants is necessarily sought for the purpose.-

The Collector proposes to charge a fee of 5 Rupees for the Survey of a Small, and 10 Rupees for that of a large property and the Board recommend as an experimental measure that the Collector may be authorized to adopt the same in those cases where the Services of a Government Surveyor may be available, the entire fee being carried to the Credit of Government and it being optional with parties to obtain Sketches of properties in any other manner if they so please.-

B.d No. 1447

From the Actg. Collector of Madras .....

Reporting on the proposed Toll to be levied in Cochrane's Cannel and recommending that an uniform rate of 4 annas a ton be fixed on all Boats laden or empty plying on the Canal offering also certain suggestions for the improvements of the Canal communication.

dated 31st Jany

Sir

In reply to the Extract from the Board's Proceedings on the proposed Toll to be levied in Cochrane's Canal, I have the honor to recommend that an uniform rate of Four Annas a Ton be fixed on all boats laden or empty plying on the Canal to be paid only one way at the Basin when first passing whether inwards or outwards the return passage being free.

2. In order to leave the arrangement as

as simple as possible, I would not at present apportion the Toll by the length of the trip - Should any considerable traffic grow up hereafter between places along the line of the Canal and not reaching the Basin one or more additional Toll Offices may be established to tax it. In the meantime I am inclined to retain the Conicopillay at Shadian Coopum to take an account of the Boats that pass tho' no toll is to be demanded nor detention allowed there. A Register will be opened at the Toll Office in which are to be entered for every Boat on its first arrival after the new Registers the No. the name of the Boat, name of the owner, date of Registration and Tonnage. I would suggest that the Department of Public Works should furnish some simple rules for calculating the Tonnage. The No. and Tonnage of the Boat to be both painted and branded on it. I would leave boat owners at liberty to compound for their Toll by an annual payment of 10 times the fixed rate or 2 Rupees 8 Annas a Ton to be paid in advance. On each

payment

payment the Boat-men should receive a pass with the date of payment and description of the Boat as a Voucher to free him on his return trip on which occasion the pass should be delivered back.

3. As near as I can compute in the absence of any actual accounts of the Tonnage the present Toll averages a little more than Eleven Annas per Ton. Consequently the reduction of rate will amount fully on the average to 2/3ds of the present payment. As however Passengers Boats will now pay and as a great increase of Traffic may be expected the loss of Revenue will not be nearly so great in proportion. No check upon the landing of goods is to be exercised by this Department South of the Toll Office but measures must be taken to prevent the unlading of Boats between the Basin and Shadiencoopum.

4. I beg to Copy here a Memo which Colonel Cotton was good enough to give me after examining a return of the Canal traffic for the last three years. "There are about 7,000 Boat

Loads

"loads of goods conveying 6 Tons, and 3000 Boats "of Passengers which pay nothing, averaging perhaps "2 Tons. The total Collection on the goods was "26,000 Rupees last year (exclusive of Salt) Supposing it was determined to reduce the Toll in "the present Transit to 12,000 Rupees trusting to the "increase of traffic to make them up to the present "sum, the total tonnage being 46,000 Tons (including "passenger Boats) the toll would then be 1/4 Rupee "if charged upon all Boats one way, whether loaded "or not. This would make the Toll on the largest "Boats (20 Tons) which now pay about 15 Rupees "5 Rupees. And the charge on the Passenger "Boats averaging 2 Tons. 1/2 Rupee being at the rate "of 3 Pice per head on 16 Passengers."

5. So soon as the new rules are sanctioned every publicity will of course be given to them by insertion in the Gazette in English Tamil and Teloogoo and by distributing Copies through the Collectors of Chingleput and Nellore to the inhabitants of those districts.

J

6- I take this opportunity of mentioning the following suggestions connected with the Canal though not strictly with the Tolls. The first is the importance of taking every available means of keeping up the depth of water in the Canal so that if possible the Boats at all seasons might go up the Cooum as far as the Munroe Bridge - I am informed by the Chief Engineer that this object would be greatly aided by the Construction of a Lock to admit the Water at high tide and retain it at that level. He will of course state his own views in the Department of Public Works and I merely notice the matter here in order to observe that if successful this contrivance would nearly double the value of the Canal.

7. Another point is to prevent the use of Boats of unnecessary width. This should be considered in the Department of Public Works and an Extra toll of perhaps 1/Anna a Ton might be levied on all Boats exceeding the prescribed width.

A third point is that no distinction should hereafter be made in the accounts between boats laden with

with Salt or other goods for Government and those of private individuals. In this I fully concur. —

8. Lastly I would observe on the extreme importance of extending and improving the Canal communication for this very important reason in addition to the many other reasons for it, namely to facilitate the supply of Salt at Madras, on occasions when as on the present season the Manufacture in the pans usually depended upon, may fall short.

/Signed/ H. Stokes
Acting Collector.

Madras, ...
3rd June, 1853.
Bd. No. 1323
Proceedings thereon.
47-48

In the foregoing letter the Acting Collector recommends that a uniform rate of four annas per Ton be fixed on all Boats laden or Empty plying on Cochrane's Canal to be paid only one way at the Basin when first passing whether inwards or outwards and without reference to length of trip, the return passage being free. Boat owners to be at liberty to compound for their toll by an annual payment

payment of 10 times the fixed rate or Rupee 2-8 per Ton to be paid in advance.-

2. Mr Stokes states that as near as he can compute in the absence of any actual accounts of the Tonnage the present toll averages a little more than 11 annas per Ton, Consequently the reduction of rate will amount fully on the average to 2/3ds of the present payment, as however passenger Boats will have to pay if the new rates are adopted and a great increase of Traffic may be expected the loss of revenue will not in his opinion be nearly so great in proportion.

3. The total Collection on goods at the Canal last year was 26,000 Rupees but according to a Calculation of Colonel Cotton the receipts agreeably to the New Schedule would amount to 12,000 Rupees, the loss of Revenue for the present may therefore be estimated at about 14,000 Rupees per Annum.

4. The Board have already expressed an opinion which they still Continue to hold that a uniform rate according to the tonnage would be a great Convenience both to the Government Officers and the public. They are not prepared however to recommend so large a sacrifice of Revenue which might indeed be better appropriated in

in improving and extending the Canal - It is also proposed to tax Empty Boats, but as regards this point the Board wish to be informed whether such payment would not bear hardly on the Staple trade of the Canal as generally the Boat is despatched hence to Sreeharicotta and would not return with freight for a Month or more.

5. The present system of unloading each Boat and sorting the Cargo is undoubtedly vexatious and should be abandoned, the rates also seem to be high and might be modified and with this view the Board are of opinion that a general rate of 6 Annas per ton would be a preferable arrangement to that proposed by.

Fort St. George 27th June 1853

by the Collector - Passengers boats - Budgerows and top boats excluded, which it is believed Convey the poorer classes of Natives might perhaps pass free for the present, till the Canal is extended to Doogaraazepatam when the Passenger Traffic is likely to be very great. On this point however the Board would be glad to receive the opinion of the Collector The above rate would produce about 18,000 Rupees per annum on the Calculation of 4 Annas per ton giving a traffic of 12,000 Rupees.

6 The Acting Collectors suggestions respecting the registry of Boats, their Nos, Tonnage Conveyance of Salt &c are approved. Paras 6-7 and 8 of Mr Stokes' letter will be transferred for Consideration in the D. S. W.

Bd. No. 1687.

From the Collector of South Arcot. 1.

Submitting an application for leave from Sub Assistant Surveyor Mac Mahon.

Sir,

In acknowledging Extract from the &c Proceedings of the Board dated the 4th Instant in which it was notified that the services of Mr. Sub Assistant Surveyor Mac Mahon, had been transferred to this District I have the honor to state that an application was subsequently made to me by Mr. Mac Mahon, through Captain Priestly soliciting me to obtain him 3 months &c leave of absence on the ground of his long service in the Survey department without any such indulgence.—

2. In reply I informed Mr. Mac Mahon that I felt myself unauthorized to forward his application, as he had been specially appointed to this District to aid Captain Priestly in organising a Survey establishment and Captain &c Priestly was already on the spot and ready to commence operations

operations - But Mr. MacMahon has repeated his application representing the present state of his family and expressing a trust that in consideration of his uninterrupted service of many years he may be granted leave at least for a short period.

3. In support of the grounds upon which this request is based Mr. MacMahon has forwarded to me demi-Official letters from the Collector of Coimbatore and the Civil Engineer of the 7th Division and although I feel precluded in the state of the Survey operations from making a recommendation in his favor more especially as he has not yet joined the district it appears to me right under the above circumstances to lay a Copy of his application before the Board in order that the Board may consider whether his claims to the indulgence he seeks outweigh the inconvenience which would arise from granting him 6 Weeks of absence at this season.—

Superintendent Revenue Survey and Assessment Southern Districts.

Sir,

1. I beg leave to acknowledge the receipt of an Official Memorandum from the Collector of South Arcot dated the 14th Instant, by which I feel extremely grieved at the refusal given by that authority to forward my application to the Board of Revenue to obtain for me the leave of absence for 3 months: particularly while I had anticipated this indulgence would be favorably considered towards me, after a period of 45 years service in the Surveyor Generals' Department, during all which time I had been on leave for only 2 months; as well as from the peculiar state of my affairs here, occasioned by my family being at present, at the Western Coast suffering under service illness, whom I am very desirous to meet, and to make the requisite arrangements previous to my quitting.—

2- As my only object in soliciting this indulgence is with a view to see my sick

sick family before joining my station. I respectfully trust that the Board and the Collector will be pleased favorably to consider the unhappy circumstances of my case under which it rests and to grant to me the leave of absence solicited or even to a less period for which I shall feel humbly grateful.

1. With their letters above recorded the Board of Revenue submit the result of the further inquiries instituted by the Acting Collector of Madras into the alleged destruction of Stamp papers in that Office by white ants in 1846 and into the embezzlement of Stamps discovered in December last.-

2. The investigation made by Mr. McRes has not tended to throw much additional light on either of these occurrences- as respects the loss of Stamps in 1846 he has arrived at the conclusion that

there

there is at present no evidence nor apparent posibility of procuring evidence sufficient judicially to convict the Vender of Malversation, or for recovery of the lost property by Civil action and from this opinion the Government though fully alive to the suspicious nature of the transaction see no cause to dissent.-

3. With regard to the recent defalcation little fresh information has transpired. Mr. Stokes considers that the whole loss was the result of fraud and thinks it very desirable to punish the delinquent Stamp Vender under Act XIII of 1830. The Board of Revenue however, though perfectly convinced of the Vender's guilt yet intimate doubts whether he could be prosecuted criminally to a conviction. In these doubts the Right Honorable the Governor in Council reluctantly participates and he consequently perceives no alternative but to direct Mr. Parthasarady Chetty's expulsion and permanent exclusion from the public

Service.-

Service. The notification appended to the Board's letter of 24th January 1853 will therefore be published in the Fort St. George Gazette.-

4. Nothing Mr. Stokes states, has yet been elicited to implicate any of the other servants of the Office as privy to, or participant in the frauds which have been perpetrated. It is however evident that if the Sheristadar Casava Naidoo had maintained that Control over the Stamp Department which he was bound by the standing orders of the Board to exercise over it, in common with all branches of revenue, the fraud recently discovered might probably in part at least, have been prevented, or at all events would have been detected at an earlier date. The Sheristadar pleads that he did not occupy the same position in the Madras Cutcherry as is usually held by a Sheristadar in the Provinces, that he was not required to be present at the periodical examination of stamp papers and

that

that in fact this branch of revenue was not under his Control, but was vested in other hands. His Statement is Confirmed by the Assistant Collector, and believed by the Board though its accuracy is impugned by the Collector Mr. Hudleston. The Right Honorable the Governor in Council observes that Casava Naidoo's representation even if Correct, cannot be admitted as a vindication for his neglect and remissness, Sheristadars must be made to feel their responsibility to Government as well as to the Heads of their Offices, and to understand that they must doe their duty in every particular whether called upon, or whether it appears to be desired by the Collector or not. The Sheristadar on his own shewing evinced much weakness in not attending at the occasional examination of the stamps by the Collector because he supposed that that Officer did not wish it. His

plea of ignorance of the standing orders of the Board cannot be accepted, and is moreover invalidated by his admission that the Circular order of 12th June 1851 was duly communicated to him. Neither the Assistant Collector who first investigated the circumstances of the defalcation, nor the experienced Officer who subsequently took up the enquiry have found any proof whatever of the Sheristadar having been a party to it. The Board of Revenue are satisfied that connivance cannot be traced to him. while the fact of his having joined the Office on his predecessor being conditionally pensioned for the first time only a year and a half before the discovery, the almost Certainty that the embezzlement had been going on long before, and the improbability that a Stranger and an Officer who may be considered to have been on his probation would have been made privy to it must be in support of their view. But although he stands clear from suspicion.

Suspicion of Complicity, Casava Naidoo cannot, as remarked by the Acting Collector be exonerated from neglect of duty in a matter of great importance, and an attentive review of his Conduct in Connection with this transaction, as well as of the defence which he has submitted has led the Government to the conclusion that he is not fit for the high and responsible Office of Sheristadar, that he is unequal to the difficulties in which that position may involve him, that he has not in fact the ability and firmness which so high and important a post demands. The Governor in Council therefore resolves to order his removal from his present appointment in the Cutcherry of the Collector of Madras, leaving his future employment, under the sanction of Government, open to Consideration.-

B. No. 1662.

From the Acting Collr. of Cuddapah

Transmitting the Statement with reference to the offers that have been made for renting the Abkarry of the several Talooks attached to this District for Fusly 1263.

Sir,

Para. 1. I have the honor to submit the accompanying Statement with reference to the offers that have been made for renting the Abkarry of the several Talooks attached to this District for the ensuing Fusly 1263—

2. The amount of proposals made exhibits a Net increase in Comparison with the rents of the current Fusly of Rupees 7,194, the principal items of decrease are in Koilcountla, Sidhaut and Chennoor, but the increase in the other talooks considerably preponderates. The aggregate amount in the offer now made exceeds the total average of the five preceding years by Rupees 5025-9-9-

3. The renters are all persons of Substance and I beg to recommend that their offers may receive the Sanction of the Board of Revenue—

B. No. 1873.

From the Collector of Chingleput - Espressing his opinion in favor of the Establishment of Inland Depôts for the sale of the Salt. Recommends the abolition of the practice of allowing Brokers to intervene between the Govt. Servants and the Purchasers and states that the withdrawal of the Salt and abkarry Departments from the control of the Collector is not likely to be attended with any advantage.-

Sir,

1. I have the honor to reply to Extract from the Proceedings of the Board of Revenue dated 20th January 1853, having reference to an Extract from a Despatch from the Honorable the Court of Directors, therewith transmitted.—

2. I beg to express my decided opinion in favor of the Establishment of Inland Depôts for the sale of Salt. The measure is one urgently called for, and cannot fail to prove a great boon to Consumers in Inland Provinces.—

3. A reference to the Accounts of the sales at Madras with which I was furnished some short time ago, and the accounts of this District, shew that by far the greater portion of Salt transported to Bangalore and to the Mysore Country, is purchased by one Individual, a Merchant named Putteel Gholam Mohedeen. Whatever may be the causes which so operate in his favor, as to enable him to carry on, as it were, a Monopoly in respect to the inland Trade of the Country, it seems desirable that existing state of affairs which cannot but subject inland Consumers to hardship in not being able to

to procure this necessary article of life except at an unreasonably enhanced price, should receive a Check, and this, the arrangement under contemplation will in a great measure, effect.—

4. In connection with the subject of affording every facility to the purchasers of Salt, I beg to remark upon a Practice, which I lately had occasion to notice as prevailing at Madras, Viz:, that of permitting the Intervention of Brokers between the Government Servants and Purchasers. These Brokers appear to exercise a degree of Authority as if vested in them by the Sirkar. The System is obviously prejudicial to Traders and particularly those of limited means as they are made to believe, and as must be presumed, learn from experience, that the interference of these Brokers cannot be dispensed with. It is to be presumed that the latter would not be allowed to carry on gratuitously a Trade peculiar to their calling by which they profit themselves and it is evident that the Profit which they derive, is at the expense of the purchasers. Further Comment is unnecessary, but I would beg strongly to recommend that the system, if still in practice, be discontinued.—

5. Adverting to Para 12 of the Honorable

7956 Fort St. George 30th June 1853

Honorable Court's Despatch, I have the honor to state that I am not inclined to think that any advantages will result from the withdrawal of the Salt and Abkarry Departments from the Control of Collectors but the working of the systems generally having come more immediately under the notice of the Board they will be better prepared to offer an opinion on the subject. The Abkarry Revenue being generally rented, the management of this Branch hardly entails such duties as to require a separate Establishment - while the sale of liquor in violation of the Established Rules is taken due cognizance of by the Police Department. The present arrangement of all sources of Revenue derived from the same District being placed under the same superintendence is, I consider, attended with advantages and economy, and regularity in the accounts is thereby ensured -

B. No. 1378.

To The Collector of Salem.

Requesting further Explanation on certain points respecting the Tabular report of a lapsed Enam submitted on the 7th April 1853.—

In Cons. 30th June 1853.

Ordered that the following letter be sent in consequence.—

To. The Collector of Salem.

Sir,

With reference to the tabular report of a lapsed Enam submitted by you under date 7th April 1853, I am directed to request further explanation on the following points.—

Extract Minutes Consultation 9th May 1848. Para 20 Page 457. Board's Proceedings 19th June 1848. Para 11 Page 416.—

1st. The Board observe that the first case submitted refers to a Share in an Agraharum Enam and with reference to the orders noted in the Margin, they have some doubts whether the share is subject to resumption. The tenure of service referred to in the case of the Canara Agraharum is they observe, of a religious nature, connected with the Pagodas or ceremonies usually kept up in an Agrahrum.—

2ndly In Extract Minutes Consultation 22d August 1848. it was directed

Page 471.

directed that in cases where possession has passed out of the family since the date of Regulation XXXI of 1802 the alienation should not be enquired into except on the occurrence of a lapse—But the Board do not gather clearly from your report that such a lapse has taken place among the persons in actual possession, and even in that case the decision in the case would with reference to the order of Government last quoted in some measure depend on the circumstances of whether the transfer was a bona fide one or not.—

2. With reference to the remaining cases in which however the same family is concerned, it is the intention of the Board to refer the question of succession thro the female line for the further consideration of Government: but in the meantime they wish to point out that in your recommendation in Column 8 you have treated I as having succeeded irregularly thro' his father H although it would seem more correct to have considered him as having derived his title from his Mother

mother C, who altho' a female was regu-
=larly descended from the Original Gran-
=tee. The same remark will ap-
=ply to the case of K the present Claim-
ant whom you consider as having
succeeded to the widow J, but who also
appears to be the daughter of I, and
as such a direct descendant from
the Original Grantee, altho' by one step
in the succession thro' the female
line. The Board would there-
=fore be inclined to treat her
claim as depending on her
relationship to I and J rather
than on the validity of the
deed of Gift said to have
been executed by her
Mother which would
hardly strengthen her
claim to succeed

to

to her father's property.—

From the Acting
Collector of Madura

With reference to the Proceedings of the Court of Wards noted in the margin, relative to the address of the Namakeroya Saver to the Collector of Madura dated 25th February 1853, acknowledging the legality of Pichamma Nachyar's marriage and the legitimacy of her son the present Minor Zemindar of Shevagungah, I have the honor to report for the information and orders of the Court that Namaseroya Saver declines to grant such a document as was proposed by the Guardian, and to forward in original and translated his reply as well as the original of the Guardian's Draft & translation of which has already been submitted by Mr. Parker in his communication of the 7th April last) and the original and translation of the remarks made by the Guardian on the Petition of Namaseroya Saver of the 25th February 1853 above referred to.

2. I am free to confess that I cannot enter into or appreciate the whole force of the objections raised by the Guardian to the original Petition of Ramasevoya Saver. His draft is undoubtedly more stringent clear and precise but it appears to me that the Petition of Ramasevoya Saver sufficiently answers the object intended by it Vizt his withdrawal of the unjust aspersion cast by him on the conduct of the Minor's Mother, and of the imputation on the legitimacy of her children and the declaration of his willingness to render all the reparation in his power to the injured parties by acknowledging the title of the Minor Zemindar.

Translate of an Urzee dated 27th April 1853 from Ramasevoya sawmy Pareya Vodya Saver undivided younger Brother of the late Zemindar of Shevagungah.

To. J. Clarke Esqre Acting Collector of Madura.

I received from the Manager your yadhast to my address requiring me to state my objection to the draft petition of the Guardian of the

the Minor Zemindar given to me at a personal interview.

The Guardian has not only hitherto opposed my living in concert with the Zemindar my Elder Brother, but he still continues to maintain the same objection to my living so with the Minor Zemindar also, as would appear from the draft furnished by him. This document is therefore to be considered of no further advantage than for the attainment of this his object.

In proof that it should be so considered Mr. Parker viewing the Urzee I had already submitted regarding my proposed agreement with the Minor as quite sufficient for the purpose I had in view in coming to a compromise with the Minor submitted the same to the Court of Wards.

I therefore most humbly request that you will be kindly pleased in like manner to signify your approval of the said Urzee and secure me the happiness I pray for, thereby sealing the parental and dutiful feelings of affection which should exist between me and the Minor Zemindar.

No 2

Translate of a Memorandum dated 19th April 1853.

Extract from the Urjee of Narrasayya Taver handed to the Hoogoor under date the 8th February.

In the 1st Para he states that he wrote an Urjee insulting Pitchamma Natchiyar that she is not a lawful wife and that the Minors to whom she gave birth are not entitled to succeed to the Puttom.

He further states that from enquiries made and the Statement of his relatives he is led to acknowledge that

The salient points thereof and the reasons of the guardian for the alterations proposed in his Draft of the 3d March.

As the Petitioner himself admits the unjustifiable-ness of his conduct in insulting the said Natchiyar it is stated in the Draft that it was done at the persuation of others.

The Petitioner far from stating that he became acquainted with the above particulars from enquiries made of his relatives simply acknowledges the fact, this is both improper and liable to be misconstrued that

that the said Pitchamma Natchiyar is a lawful wife, and that the Minors are entitled to the Puttom.

In the above Para he further states that he will not go to law on the subject-

that he has merely yielded according to time and circumstances.

I have therefore thought it right in the Draft to propose that his statement that "Pitchamma "Natchiyar is legally "married and the law "ful wife, and that "the minors are entitled "to the Puttom" was founded on the information gained from his own relatives.

This wording is liable to be twisted and perverted as it is stated in the Urjees formerly addressed by him to the Hoogoor viz that he is entitled to inherit the Zemindary he should now be required distinctly to disclaim this, and to state

state that the Zemindary and its wealth belong of right to the Minor Zemindar exclusively with reference to the law of Primogeniture which obtains in undivisable Zemindaries. It being necessary that the Urgee of the Petitioner should be drawn up in the shape of a Razeenamah, the introduction in the Draft of the above mentioned material points which were found wanting have been supplied.

How can the Petitioner be entitled to the Honors of ex Zemindar while the minor is the Zemindar.

A Monthly allowance of 100 Rupees has been granted to the Minor Zemindar younger

In the 2d Para of the Urgee he states that he is entitled to the honors of ex Zemindar.

In the above Para he adds that a Monthly allowance of 1000 Rupees should be granted him.

younger Brother and his Mother - How can the Petitioner without considering this claim so large a sum as 1000 Rupees

The Petitioner not only separated himself from the family and was at variance with his elder Brother the late Zemindar setting himself up against him but after his death heaped insult on the Minor Zemindar and brought forward unjust claims to his prejudice as he now says he is willing to come to terms with the Minor it is advisable that due provisions should be made for his subsistence after he has duly submitted to him but he cannot be considered as at all entitled to any provision for the past.

In the above Para he adds that for the last 9 years from 1844 to the present moment no provision has been used for his maintenance, and that the Debt of 20,000 Rupees which he owes should be defrayed out of the assets of the Zemindary.

For this reason what

what he has asked for in the 2d Para of his Petition is not alluded to in the Draft which only provides that he should be treated in the manner in which undivided brothers in the Poodoocottah State are usually treated.

In Para 3 he prays that after the Minor Zemindar attains his majority and the Zemindary is restored to him he may be treated in the manner usual with other Zemmindaries and in conformity with the Sasters.

As it is needless to write about things which will concern the Minor Zemindar after he attains maturity and the Zemindary is restored to him these particulars are accordingly omitted in the Draft.

Translate of an Urzee No. 42 dated 19th April 1853 from Coaty Tooseer Guardian of the Minor Zemindar of Shevagungah to T. Clarke Esqre Acting Collector of Madura.

Namasevaya Taver Uncle of the

the Minor Zemindar having represented to the Hoogoor his desire to come to a compromise and abandon the unjust claims hitherto advanced by him and requested payment of an allowance for his subsistence from the effects of the Zemindary and having in his Urzee presented to the Hoogoor in consequence under date the 8th February of the current year failed explicitly to state the particulars required of him, as they ought to be stated in the form of a compromise, but on the contrary having made use of vague terms liable to be misconstrued according to circumstances, I transmitted with my Urzee to the Hoogoor No. 31 dated the 30th March last a Draft of a Petition to be submitted by him.

The above Namasevaya Taver from disinclination to present such an Urzee as I have proposed has, I am given to understand, informed the Hoogoor that the one already submitted by him is sufficient. I therefore beg to enclose herewith a Memo clearly shewing the parts open to remark in the wording of his Urzee and the reasonableness of the corrections suggested in the Draft forwarded by me.

A

A perusal in the original of the Urzee of Ramaswoya Tavee as well as of my Dreaft and of the Memo. either by your honor or the Court of Wards to whom I request you will be pleased to transmit them, will plainly shew the unsuitableness of the terms of his Urzee and the imperative necessity there is for obtaining from him one drawn up in conformity with my Draft.

His refusal to give an Urzee introducing the important alterations suggested in my Draft is in itself sufficient to shew your honor that he still entertains a fraudulent design of bringing an unjust suit at some future period.

In event of his declining to submit an Urzee of the nature shewn above I request that you will be pleased to bring to the notice of the Court of Wards the inexpediency of granting him any allowance from the offsets of the Zemindary.

From the Acting Collector of Madura

Sir.

I have the honor to forward herewith a Statement of Ab Kavvy rent for the ensuing Fusly 1263 exhibiting a Net Increase of 900 Rupees above last year, and to request sanction for making over the Rents to the highest Bidders.

There is a large increase in the Madacolum, Meylore and Tenkurrai Talooks in the Principal Division and also a proportionate increase in the 4 Talooks forming the Sub Division. This increase is attributed to more determined competition and the favorable nature of the season.

No bidders came forward for Ramnad arising probably from the influence of the present Renter a man of wealth whose means enabled him to determine the price of the Rent.

Bd No 1475

From the Collector of Coimbatore } Sir,

1. I beg to forward Copy of a letter of Lieutenant Michael for the Board's favorable consideration, and I would request permission to support it with my earnest recommendation.

Forwards copy of a letter from Lieutenant Michael and recommends that an increase of pay Vizt Rs 100 per month be allowed to that Gentleman.

Dated 21st April 1853

2 I can vouch for the accuracy of Lieutenant Michael's Statements. his employment in the Forest involves not only a life of much personal discomfort and privation, but unavoidable Extra expence in Servants, Supplies, carriage &c.

3 The success of the experiment, lately so fully shown to Government is fairly to be attributed in a great measure to Lieutenant Michael's

Michael's zeal, and indefatigable exertion. the great saving to Government, and the very efficient manner in which Lieutenant Michael has discharged his responsible, and arduous duties plead strongly in his favor and I cannot but think that an increase of 100 Rupees per month would be justly due, and in all respects desirable - Should Lieutenant Michael leave, it would be extremely difficult to fill his place.

To C.B. Thomas Esqre

Sir.

Till the success of the Annamallay Forests work was proved, and the great saving effected annually by its operation was fully shown to Government, I have deferred representing to you, that it is with the greatest difficulty that I can make the Salary I receive as Superintendent of the Forests meet the Extra expenses thereby entailed on me. for this my Extra allowance is Rupees 150 per month it is in reality only 120 Rupees more than if I was with my regiment in charge of a Company and living in Cantonment.

As you are aware, I am very peculiarly situated, located as I am for the greater part of the year, in the jungles about 50 miles from Coimbatore, from whence I have to procure my supplies by bandy. My presence is frequently required, and often suddenly at Coimbatore, Paulghaut, and occasionally at Ponanny - so that in the course of a month, my Travelling expenses are sometimes very considerable

7987 Fort St George 30th June 1853

considerable - added to this, I am obliged, owing to the dread all Natives have of the unhealthiness of the Forests not only to pay my Servants very high wages, but to keep a large number of them in my Service, in order that a portion of them may return to the plains for a time, while the others remain with me in the jungle.

As you are, I know, aware of all these facts, I beg that you will be good enough to lay before the Board of Revenue my request that a recommendation may be made to Government that my Salary be increased.

The pay of the Establishment is taken from my Estimates, and I may be allowed to point out that supposing only 5,000 Cubic feet of Teak to be cut annually, an addition of Rupees 100 a Month to my Salary would merely increase the expense of a Cubic foot by something less than half an anna, while it would render me, in a pecuniary way, far more independent, and efficient in the performance of my duty.

Bd's No. 1659.

From the Collr of Coimbatore

Sir,

Submitting a list of Stations on which new Salt Depôts required to be built in reply to the Board's Proceedings

I have the honor to acknowledge an Extract from the Proceedings of the Board of Revenue dated 20th January 1853, and I beg to submit a list of three Stations at which I think it highly desirable that Salt Depôts should be established.

The.

Proceedings dated 6th January 1853.

No 1.

2.

The first is at the Village of Blaurkerre at the head of the navigation of Chendergherry river in the Betul Talook. The annexed sketch will show the position of the Villages

3.

Since the Jalsoor and Cajsirgode road has been opened, a considerable sale of Salt has taken place at the Cajsirgode Depôt. In the year before last the road was opened and the sales commenced. the value of the Salt sold for the inland trade was Rupees 844; it increased last year to Rupees 4212, and this year there has been an advance of about 1000 Rupees on the sales of last year.

4.

The Depôt will be about 9 miles up the River. The distance is short, but the advantage conferred upon the trade will be very great, as these last 9 Miles are over a hard ridge of laterite, where water and fodder are scarce, and the feet of the cattle suffer severely from the rock.

5.

The second station which I propose is Goorpoor. It is the terminus of the Sonaishwer line in the direction of Mangalore. It will be a very great convenience to the Villagers and the expense will doubtless be covered, though I do not expect it to be a large emporium.

The-

No 2.

6.

The third Station is Koburne. The position of this Village is shown in the annexed Sketch: A great deal of the trade by the Agoombay Ghaut goes to this Village, and the want of a Salt Depôt is much felt. An account carefully Kept for one week shews that more than a thousand Bullocks resorted to it with goods. This, considering that there is no properly made road and no Salt available is a very large trade, and the sales of Salt will most certainly be very considerable.

7.

In recommending the Establishment of these Cotays, I beg to remark that it is very desirable that they should be established wherever the increased receipts will cover the expense, and in these cases I am satisfied that in addition a large profit will accrue to Government. It must be remembered that these Cotays form the nucleus of trading Villages and that to restrict them to a few places is to give to those places a very great advantage over others, and in some instances a Monopoly of the trade. This effect of the System came particularly under my notice in reference to the Road at Cajsergode. The line of the road opened out to that place is chiefly used by small farmers from Amarak and Soolia and from

from above the Ghauts, who bring their own produce on their own Bullocks and take back a supply of Salt and Salt fish. They prize the road as enabling them to escape from the frauds practised by the dealers of Paneamanglore who had previously held a Monopoly of the trade and practised all kinds of Cheating. These small farmers were not able to cope with them, but now a new market is opened, and the trade put on a fairer footing.

8. As long as the Government undertakes the distribution of the Salt, every village where the demand is sufficient to cover the extra expense should have its Coty.

9. Mr Chanier has strongly urged the Establishment of Cotties at Coperangaddy, the Salt being transported on Carts by Government, but in this I cannot concur. I am satisfied that the people themselves can convey the Salt from Buntwal to Coperangaddy on Bullocks more cheaply than the Government can convey it either by water or on Carts, and when this is the case, it would be a mistake for Government to undertake the carriage.

10. The new Cotties at Pane Mangalore are answering their purpose fully more than half the sales take place there, and last Month upwards of three thousand Bullocks took Salt to the Mangeradad

Mangeradad Ghaut by Postoor. When the road direct to Coperangaddy is opened out, the wants of the trade will be fully supplied, and there are too many difficulties in the way of establishing a Coty at Coperangaddy for me to consider it a desirable arrangement.

11. I have prepared estimates in which are included the sums necessary for making Cotties accessible by branch roads connecting them with the principle lines. The estimated Cost of each Coty and road is shewn in the Margin.

Observes that there are two Classes of account which are quite distinct & unconnected with each other, the first is the "balances of Revenue" and the other "unadjusted advances on account of the Public Service" the former is under the control of the Bd. of Revr. & offers some observations regarding the latter.

No. 101

To The President and Members of the Board of Revenue.

Gentlemen,

I have the honor to acknowledge the receipt of your Secretary's letter of the 9th Instant.

The Government would seem to have misced up two classes of account which are quite distinct and unconnected with each other, namely balances of revenue and unadjusted advances on account of the public service. With the first this office has nothing to do; they are and necessarily must be under the exclusive supervision of the Board of Revenue whose province it is to issue on its own judgment such Rules or orders as may appear to be necessary.

In the matter of unadjusted advances on account of the public service I am not aware that any Rules can be framed to meet the object in view. The evil arises from delay on the part of Collectors

Collectors to fulfil the objects for which the advances are made, and the remedy for this can only be found in a rigid supervision by the Department of Public Works to secure the timely execution of those works for which the advances were made and the timely examination and submission of the Bills for sanction. This Office can do no more than call the attention of Collectors as it annually does to such advances as are unadjusted. I would however observe that this is a subject which will necessarily form part of the enquiry of the Committee appointed in 1851 to enquire into the System of the Public Works Department at this Presidency and it seems to me unnecessary to move in the matter till the result of their consideration of the subject is known.
