Bd No. 1701

From the Acting Collr of North Arcot.- } Sir,

In the Month of October 1851

Submitting for the Boards orders the objections urged by certain Enamdars and to share in the expenditure incurred in repairing the Nabobs Tank at Arcot which Tank irrigates their Lands.

the Civil Engineer framed an Estimate amounting to Rupees 884-11-4, for some repairs which were required to the Nabobs Tank in the Arcot Talook.- as these repairs were urgently required in Consequence of the Tank having been considered dangerous to the bazars in the Village of Eulvah, the Estimated repairs were Carried out without reference to the Enamdars &c in whose Lands the Tank irrigates, and whom by the instructions of the Board in Circular Order dated 21st April 1828, are bound to share in

the expenditure. The required Security was not therefore taken from these Enamdars.-

2. The Nabob of the Nabobs Bagayat Lands a portion of which is irrigated by the said Tank, refuses to share in the expenditure, on the ground that the Circar from the assumption of the Country have derived a rent from the Tank Fish, and that this Revenue should be laid out in the Repair of the Tank. This Refusal is held as an excuse by the other Enamdars for declining to Repay their share of the expense.- I have therefore the honor to address the Board of Revenue with the view of obtaining their orders on this subject and to forward 2 Statements, one showing the proportionate expenditure to be borne by the Circar and the several Enamdars &c in the Repair of the Tank, and the other the Revenue annually derived from the Fish from Fusly 1231 to 1261.—

I may mention, that this is the

3. first time that the Nabobs Tank ever underwent Repairs.—

The Board are of opinion, in the absence of strong reasons, to be hereafter shewn by the Acting Collector to the Contrary, that the Fish rent appertains to the Government alone.

2. The Government interests in the Tank being small, security should have been taken from the Encumbars for the part payment of repairs, before the latter were Commenced.

3. The Government have recognized the principle of Encumbars paying their quota towards the Repairs of tanks by which they are benefitted, and have directed, in the case brought under their notice, that such payments shall be satisfied by easy annual instalments upon the actual Cultivation.

4. The Acting Collector having fixed the amount of such instalments, will require the parties to discharge the same.

From the Collector of South Arcot

Furnishing replies to the queries proposed in Boards Circulars of the 8th November last-

Sir,

I have the honor to make the following reply to the questions in your Circular letter of the 8th Ultimo (8 Nov 1852)

1st Question

The commutation price of this District was fixed at the single rate of 5 Cullums per Pagoda, or Madras Measure 45 Ceded Measure 57 per Rupee for all grains produced on Nunjah as well as on Poonjah lands. This price is equal to Rupees 70 per Garce and is mentioned in the reports and Survey instructions of Mr. Ravenshaw sent to the Board on the dates noted in the Margin

To Board 10th May 1808 Para 9.

To Board 2d May 1816.

It does not appear that the above price was made applicable to the Garden lands, which seem to have been assessed with reference to the value of the particular produce raised on them in preceding years, such as Tobacco, Chillies, Turmeric &c &c

2d Question-

3. The old records connected with the Survey proceedings do not show on what principle one uniform price was adopted for

for all Grains, nor what Grains were selected in calculating that price. But according to a Memorandum enclosed in the report made to the Board by the Principal Collector Mr. Cunliffe on 26th December 1831. Cumboo, Natchany, and Warogoo appear to have been taken for Poonjah, and the different kinds of Paddy for Nunjah land, as being the descriptions of produce most generally raised.

3d Question 4. The commutation rate appears to have been fixed upon information obtained from Merchants and Landholders, and not upon any formal returns of the prices which prevailed in particular Talooks or Towns. In the absence

To Board 8th July 1805 Para 2 & Dis 17th Dec. Para 9. Question 4

of more accurate information on this point I beg to refer to the reports entered in the Margin.

5. According to Mr. Ravenshaw's survey report of 10th May 1808, the Solumtrums Merahs, &c. were first deducted, and then the Assessment was fixed, both for Nunjah and Poonjah lands, on a moiety of the remaining produce, with an addition on account of the resumed Solumtrums. Those latter amounted to about 11 per Cent and raised the proportion of the gross produce on which the present assessment is based to 50 per Cent.

Question 5

6. The records merely show the extent

extent of the dry and wet lands under cultivation at the time the commutation rate was fixed, without exhibiting the description of Grain sown. But as no agricultural changes of importance appear to have since occurred, the information given in Mr. Cunliffe's report of 26th December 1831 and in late cultivation returns may be relied on as showing with fair accuracy the proportions which then prevailed. The result is as follows.

Poonjah Cultivation

4 — 16th — Cumboo
4 — 16th — Varagoo
3 — 16th — Natchany
1 — 16th — Cholum
2 — 16th — Various Minor products, Oil Seeds pulse &c.

Nunjah Cultivation

3 4th Paddy Coarse and fine
1 4th Cumboo and dry grains.

Question 6.

7. It has been already observed that the present Cultivation differs little from preceding times. The principal changes are an increased cultivation of Indigo and the introduction of the ground nut. In the past fasly Indigo was sown on 48119 Cawnies out of the 301439 Cawnies of Poonjah land under cultivation and as it is said to give the Cultivators a triple profit compared with the ordinary dry Grains, it is very valuable in enabling the ryots to bear a heavy assessment. The ground nut was sown last year on 3752 Cawnies

in

in the Villapoorum and Trivady Talooks, and its total cultivation may be taken at 5,000 Cawnies. I anticipate that it will increase hereafter and become a very important product. The Sugar Cultivation amounted only to 1182 Cawnies out of a Punjah Cultivation of 121281 Cawnies and is therefore too small to have any marked effect.

Question 7.

8. The poorer Ryots chiefly cultivate Varagoo, Cumboo, Natcheny or Raghy and pulses on the inferior Poonjah lands. The Statement of annual prices which accompanies this letter shows that the commutation rate is less unfavorable to them than the height of the Poonjah Assessment which is based on a moiety instead of a third portion of the gross produce, and in some instances on two Crops instead of on only one.

Vide instructions in letter from Board of Revenue 18th April 1822 Para 9.

Question 8 Encl. No. 1.

9. The Statement of the prices of the principal grains for 10 years after the commutation rate was fixed and for the last 10 Fusles accompanies this letter. In the absence of positive information regarding the manner in which the commutation rate was calculated, this Statement is prepared from the returns in my Office from the chief Towns upon which the price lists sent to the Board are formed. It is however proper to observe that these prices must be regarded as

Chellumbrum
Cuddalore
Punrutty
Trinamalee
Tindevanum

as considerably higher than those which the ryots receive, and cannot be fairly compared with the commutation rate in fixing which it would be proper to make allowance for some points affecting the producers interests. The present Statement for example shows only the average annual price, while the Markets vary considerably in different months and are specially low at those seasons when the Ryots have to dispose of their grain to discharge their Kists. It appears to me that a deduction of 10 per Cent would not be too large on this account. Again as the Statement is made up of the bazaar rates at the principal Towns, its prices include the cost of conveying the grain to Market which taking the moderate average distance of 20 miles, would be equal to a deduction of price to the extent of 12½ per Cent. As price the principal product of the 2 Southern Talooks is always cheaper there than in the remainder of the District in consequence of extensive production, vicinity to Tanjore, and distance from Markets, I have attached to the Statement a Memo: showing the price of white paddy at Chellumbrum for the last 10 Years.

Question 9.

10. It has been already mentioned that

Fort St. George 21st July 1853

that the assessment on Garden lands was framed on their previous produce and not in reference to those grains on which the commutation price was fixed. The ninth point adverted to in your Circular under reply would therefore only apply in this District to extra products raised on the Nunjah and Poonjah lands, and I have already mentioned the extent to which the cultivation of Indigo, Ground nut and Sugar Cane are cultivated, for the purpose of giving an idea of the degree to which the ryots benefit by those articles—

Having thus answered the points adverted to in your letter, I trust that I may be permitted to abstain on this occasion from expressing an opinion how far relief is required under the present commutation rate, as this point will come under my consideration and report during the general revision of the assessment on which I am about to enter, in accordance with the instructions of Government and the Board. That the assessment is unduly high is sufficiently shown by the fact

Fort St. George 21st July 1853

fact that with a favorable soil and industrious population, the Poonjah cultivation reaches only to 23 per Cent, and the Nunjah to 45 per Cent of the available Nyaut, (omitting Perumpoke) but this result is not attributable wholly nor indeed chiefly to the weight of the commutation price, and it seems advisable to consider its bearing in conjunction with other points affecting the assessment, such as the proportion of the produce taken as the Sircar Share, the assumed rates of production, and the system of taking a second Crop into calculation—

Bd. No. 1652.

From the Collector of South Arcot—

Explaining the cause of the decrease of the Cultivation under the Guddelum Amicut in fusly 1251 also of the discontinuance of the practice of allowing lands left waste for 5 years to be taken upon progressive Cowle.—

Sir,

1. I have the honor to acknowledge Exctract from the Board's Proceedings dated 16th Instant, containing the Board's remarks on the Settlement of this District for Fusly 1261 and proceed to offer explanation on the two points alluded to in Paras 7 and 11.—

2- It ought to have been more clearly shewn in my Settlement Report that when alluding to the Beriz of the Nunjah Cultivation under the Guddelum river as Rupees 24428-15-6 I was confining myself to the lands dependent on its principal amicut at Trivady- This amicut is the third in size and importance which the District contains and as I had previously adverted to the results of the Coleroon and Vellaur amicuts it was my object to offer a brief remark on this one also. The Total Nunjah Cultivation under the

the Guddelum amounted to Rupees 37,399-6-2. and the decrease of Rupees 2,976-2-7 below the preceding year was chiefly occasioned by its earthen dam at Wanamadavy in the Cuddalore Talook having been breached. The state of this work has been brought to the notice of the Civil Engineer.-

3. With respect to the discontinuance of the practice of allowing lands which have been waste for 5 years to be taken up on progressive Coules. I beg to observe that as the system gave rise to many frauds and was not found to increase the Cultivation the Principal Collector Mr. Dent issued a Circular order on 23d July 1845 directing that no such Coules should be given when available Shagal land was lying uncultivated. This order has

has since remained in force though it was not formally incorporated in the amended Hookumnamah afterwards prepared by Mr. Dent when Commissioner, and its effect has been to stop these Coules as the portion of the Tarumwar ayacut lands annually left waste is great, amounting generally to 76 per Cent of the Poonjah and 48 per Cent of the Nunjah.-

4. I find that in the 5 years preceding the issue of Mr. Dent's order (omitting the bad season of Fusly 1242) the remissions on account of these Coules amounted to a considerable sum, and it was ascertained that through the frauds of the Curnums those remissions were often obtained for lands which had no title to such an indulgence, and that Cultivation was

Bd. No. 1767. From the Collector of Trichinopoly— Reports the particulars of the removal from Office of Kistna Rao the late Police Ameen of Triputtore in the Talook of Terriore—

Sir,

1.— In Obedience to the orders conveyed by Extract from the Proceedings of the Board dated the 27th Ultimo, I do myself the honor to report the particulars of the removal from Office of Kistna Rao late Police Ameen of Tripiettiore in the Talook of Torriore—

2 On the 1st of February of the year I received an Official Memorandum from Mr. Gordon My Assistant in charge of the Head Assistants Cutcherry, bringing to my notice that, the Police Ameen of Torriore had made an application, dated 27th January, for four weeks leave of absence to proceed to Cumbaconem on plea of ill health— Mr. Gordon intimated at the same time that, as the Summabundy accounts were under preparation, and the inspection of Cultivation going on, the Public Service would be impeded unless some person was nominated to act—

2d February. 3. A reply was sent by me to the effect

effect that, as it was most incon-
-venient to spare Kistna Rao at this
particular season, the Assistant Collector
had better send for the Ameen to Triche-
-poly, and ascertain the truth of his
plea of illness, and if satisfied thereof
grant him the leave, and to Nominate
the Torriore Cushak Peishcar to act
during his absence.—

4. On that very date, the 2d
February, the Tahsildar reported to my
Office that Kistna Rao had left his
post and proceeded to Cumbaconum on
the 30th January without leave, writing
him an Yadast to the effect that, he
himself and his whole family were
so ill of fever that, he should start
at once for Cumbaconum in
anticipation of the leave he had
applied for.—

5. Upon the receipt of this
report, I requested Mr. Gordon to ascertain
the truth of Kistna Rao's departure, and
if he had so left his division without
permission to remove him at once
from employ.—

6. He was dismissed accordingly
and

and I beg respectfully to submit that
he was justly so removed. The discipline
of the Service must be maintained; And
the very fact of Kistna Rao being able
to make a journey of 65 Miles to
Cumbaconum proves that, he was not
so very ill — and even had he been even
so ill, that would not justify his deser-
-tion of his post.—

Trepattiore is fifteen Miles
from Trichinopoly and he might have
come here for advice, or at all events
waited for orders from his immediate
Superiors.—

7. A Collector's Control over his
Native Subordinates is not now what
it was a few years ago, and unless the
Board's support is freely granted, he
must be, and is, embarrassed in every
step he takes for the maintenance of
discipline and Subordination.—

8. I deem it but right to for-
-ward to your Board a Certificate
which Kistna Rao sent me some time
after he was at Cumbaconum — This
document is dated 14th February and is
therefore

Therefore Sixteen days after his departure from Tripattore.—

This is to certify that Kristna Row, Police ameen of Torriore Talook, has been suffering from fever for many days past, and is very much reduced in strength, I therefore think it absolutely necessary that he should be permitted to be absent from his duties until his recovery and as the whole family had been attacked with fever. It was necessary that he should leave his station immediately.—

Proceedings thereon

(49.50)

The Board of Revenue are of opinion that dismissal of a Public Servant should be resorted to only in extreme cases. In the present instance, they think that suspension for a certain period would have been a sufficient punishment, and direct that Kristna Row be restored to his Office, being considered as having been under suspension from the date of his leaving Tripattore.—

Sir,

I have the honor to submit herewith an application from the Roman Catholic Chaplain, the Reverend J. M. Tipot of Vizagapatam, for a piece of land for a burial ground for the Roman Catholic Soldiers &c.a of the station. The ground is situated a short distance from the Town of Vizagapatam as shewn in the accompanying Plan.—.

2. The ground applied for is part of a low swamp flooded during the rainy season with water which is very brackish, the soil is altogether unfit for cultivation, indeed to make the site answer for a burial place the ground will need to be raised. If any quit rent is to be fixed on it, I should recommend that it may be quite nominal.—

3. I request that you will obtain the sanction of Government for the issue of a grant for the land in question to the Reverend J. M. Tipot.—

Proceedings thereon.

Resolved that the foregoing letter with its enclosures be submitted for the Orders of the Right Honorable the Governor in Council.

2. The Board are of opinion that it would have been more in accordance with the intentions of Government if application had been made for a piece of Ground to be assigned as a public Burial Ground for the Roman Catholics, and that it should not be in the form of a grant given in the Name of any particular individual. Neither does it appear necessary or advisable that any quit rent should be levied on ground assigned for this purpose.

From the Acting Collector of Madras. ——— Sir,

I have the honor to submit for the Orders of the Board, the accompanying Copy of a letter from the Superintendent of Salt with the bill mentioned in it, requesting Sanction for the disbursement of Rupees 95 the Cost of a boat to be used for visiting the Pans.—

2. Shortly after his appointment Mr. Campbell asked me if he might indent for a boat for the above purpose to which, as well as I remember I replied that if he forwarded an estimate I would take it into consideration I cannot approve of his having chosen to purchase the boat in the first instance at the same time, I think it desirable that

that every facility should be given for frequently visiting the Pans, and would beg the Board will be pleased to Sanction the disbursement.—

Sir,

I have the honor to submit a #Bill from Mr. D. D. Rozario for a Boat fitted with a Cabin, a Sail and Mast, to convey me backwards and forwards to the Pans on duty amounting to Rupees 95—0—0 and beg that Sanction may be obtained for the disbursement of that Sum to him.—

#B. N° is enclosed.

2. The Boat was obtained by me in May, upon verbal permission from you in January last, and, altho an Estimate was asked for Mr. Rozario could not furnish me with one until he completed the purchase of the hull of it which is not new, but is he assures me, in good order. With the additions now made the Boat is, I think, likely to be serviceable for some time to come.—

Remarks.

No. 1.

Remarks upon Statement A

In Cuddapah, North Arcot, Masulipatam Ganjam and Bellary the deficiency in the Collections is probably owing to the demand on account of arrears at the beginning of Fusly 1261 being less than that of the corresponding period in the preceding year.

Collections of Arrears of Land Revenue Colm 11.

Collections of Current Land Revenue Colm 12.

2. The decrease in Chingleput is chiefly attributable to the less extent of cultivation from the unfavorableness of the season, to the depressed state of the grain market, and to the inundation of Crops.

Do

3. In Nellore the decrease is owing to the crops being swept away and several Tanks burst by the storm in March. In the cultivation also there was a falling off to the extent of Rupees 9827.

Do

4. In Trichinopoly the decrease is owing to the storm of the 27th March last the centre of which passed over this district, by which a great portion of the productive fruit Trees, Crops on the ground and those already reaped and left on the thrashing floor, were destroyed.

Do

5. The decrease in Rajahmundry appertains equally to the Government Talooks and to the proprietary Estates, the former caused by

by the change of Kisthundy and the latter by an unfavorable season.

Collections of Current Land Revenue Colm 12.

6. The decrease in North Arcot is owing to the falling off in the cultivation and to the remittances from certain Talooks not having been received within the close of the Month under notice, a circumstance not likely again to occur from instructions recently issued respecting it.

Balance on account of arrears of Land Revenue Colm 101.

7. Of the large balance in Masulipatam only the small amount of Rupees 133 was collected, the greater portion [20,61,594] of the remainder appertains to the proprietary Estates, almost all of which have been purchased by Government & a report on the balance will be submitted respecting the balance in Circar Villages the Collector will report specially to the Commissioner for the Northern Circars.

Do

8. In Nellore the balance exists chiefly under the head of Shrotriem Jody 4m the recoverable portion of this will be soon realized.

Do

9. In Guntoor the balance belongs partly to Village Servants fees and Enam Jody Vm the annany balance

is

Balance on account of arrears of Land Revenue Colm 101.

is stated to be owing to successive bad Seasons and to the effects of the storm which visited the district on the 7th November 1851.- a portion of this balance will however, it is stated be brought to account.-

Do

10. Of the balance in Chingleput outstanding against Cummany 8 Villages, Rupees 422 have been subsequently collected and the remainder is in course of recovery.-

Do

11. The Balance in Rajahmundry is due by Government Estates.-

Balance on account of Current Land Revenue Column III.-

12. In Tanjore the balance is composed of 3024 under Peishcush Rupees 6293 under Shrotriem Rupees 602,227 under Village rents and is in course of Collection.-

Do

13 Of the balance in Canara Rupees 1,56,529 have been subsequently collected.-

Do

14. Regarding the balance in Madura a small sum of Rupees 108 was realized and the remainder will be collected.-

Do

15. With reference to the balances in Masulipatam a large portion is due by certain Estates which are under attachment and the remainder will soon be collected from the resources of the Current Fusly.-

The

Balance on account of Current Land Revenue Colm III.

16 The balance in Rajahmundry was subsequently reduced to Rupees 90,533. which is in course of collection.

Do

17. In Tinnevelly the Balance is reduced to Rupees 52,585 and is in course of recovery.-

Do

18. The balance in Ganjam it is stated will be collected hereafter.-

Do

19. Of the balance in Salem Rupees 4804 were subsequently collected and the remainder will be recovered hereafter.-

Do

20 The balance in Nellore is due by certain Zemindars of Mootealapadoo Estates, for the realization of which measures have been adopted.-

Do

21. The balance in Vizagapatam is due by Proprietary Estates which it is observed will be realized as soon as posible.-

Do

22 The balance in Chingleput is in course of recovery.-

Do

23. In Malabar the balances it is stated will be recovered by the end of June next.-

Collections of Salt Revenue Colm 19.

24 The decrease in Masulipatam is owing to the failure in the Manufacture of Salt in consequence of unseasonable falls of rain.-

In

Collections of Salt Revenue Colm. 19

25. In Nellore the decrease is attributable to the Merchants having been prevented from resorting to the Pans owing to sickness among their Cattle and the bad state of the roads occasioned by late floods.-

Do.

26 In South Arcot and Tanjore the decrease is owing, in the former, to the failure of the stock in hand for sale, and in the latter to the effects of the storm.-

Do.

27. In Ganjam the decrease is attributable to the non credit in the accounts of the amount of Collections received from the Nowpadah Cotaurs prior to the end of May 1853.-

Collections of Tobacco Revenue Colm. 43.

28 The decrease in Canara and Malabar is in consequence of the abolition as is of the Tobacco Monopoly.-

Balance on account of arrears of D. R. Colm. 103 to 106.-

29 In Chingleput the balance of arrears is considerable being Rupees 23,298 of which Rupees 22,298 Occurs in Abkarry and regarding which no explanation is given by the Collector.-

Balance of Current Extra Revenue Colm. 112.

30. In Canara the current balance is Rupees 44,204 including 15,648 in Salt 12,038 as in Moturpha and 11703 as in abkarry, some portion of which however appears to have been collected.-

Bd No. 1926.
From the Acting Advr. of Madras } Sir

I have the honor to solicit the advice of the Board how to act with respect to the accompanying Summons directing me to appear before the Judge of the Supreme Court Sitting under Act IX of 1850, on the 8th of August next, to answer in an action for Fort. The cause of action was the entrance of a house by the distraining Officer, and attachment of certain Property for arrears of Quit Rent under a Warrant signed by me, and it is evidently contrary to Section XVII of Act XII of 1851.

2. It may perhaps be proper that the Company's Solicitor should be instructed to appear before the Court, and point out their want of jurisdiction in this Case.

B. No. 1356

To the Honorable Company's Solicitor

I am directed by the Board of Revenue to forward herewith Copy of a letter from the Collector of Madras, and the printed Copy of the Summons served upon him to appear at the Supreme Court, on Small Cause side, on the 1st August 1853.

The Board request that you will, if you see no objection to do so, appear for the Collector, and point out to the Court their want of jurisdiction, under section XVII Act XII of 1857, or that you will advise the Board what is the proper Course to be followed in this case.

Letter from Board of Revenue to Honorable Company's Solicitor dated 23d July 1853.

acknowledging the receipt of your letter to my address noted in the Margin together with it's enclosure and in reply of stating that it will be necessary for me to see a Copy of the Warrant under which the distraining Officer acted, as also to be informed of the Circumstances under which the distraint was made; and particularly what took place on the parties executing or attempting to execute, the warrant; and what part each person took in the transaction, together with the names of all persons who witness the transaction, and can give evidence at the trial. On receiving this information I will instruct the Advocate General (if necessary) to appear on behalf of the Defendants.—

2. In order that no time may be lost I enclose a Warrant of Attorney for the Signatures of the several parties named as Defendants but if any of those Parties are not the Servants of Government, and should not be defended at the public expence, I have to request that the Collector of Madras will be good enough to strike out their names, and have the Warrant of Attorney receipted and Signed. It is necessary that one witness should attest the

Reviewing the report on the subject of Petty Farms existing in this Presidency also the result of the annual Management of the Animally Hills in the Coimbatore district and sanctioning the abolition of the Honey tax in certain districts.—

Read the following Extract.—

No. 808.

Extract from the Minutes of Consultation, in the Revenue Department, under date the 11th July, 1853.

Read the following letters from the Sub Secretary to the Board of Revenue.—

(Here enter 6th and 13th June 1853. Nos. 244 and 256)

1 It appears from the first of the letters above recorded, that in consequence of a Communication from the Collector of Coimbatore, bringing to the notice of the Board of Revenue the oppressions exercised by the Renters of the Animally Forests towards the tribes residing in them the Board approved the arrangement made by the Collector for bringing the Bill produce under Annami, and with the view of ascertaining how far similar abuses prevailed in other Districts issued a Circular calling for information on the subject. The replies received from the local Officers are now submitted for the consideration and orders of Government.

2 From the Reports of the Collectors noted in the Margin, it appears that no oppressions similar to those brought to light in Coimbatore, exist in the Districts under their management; owing in respect to the first five, to the absence of all Hill Contracts; and in Masulipatam, to the produce being free to all classes of the people. In regard to the last six Districts, the Collectors state that although the System of Hill Farming is in practice, no instance of improper treatment has come to their knowledge. Under these Circumstances, the Government agree with the Board, para 13, that no change is at present called for in the System obtaining in these Districts.—

3 In Cuddapah, although the Contract System prevails, no oppressions are reported to exist but the Sub Collector, adverting to the petty sum of Rupees 150 per annum obtained by the lease of the Honey Yca Contract on the Nullah Mullay Hills, recommends that this amount be relinquished; Under the Circumstances represented by that Officer, the Government are pleased to direct that the Honey Yca rents on these Hills be at once abandoned.

"on the same Conditions as were stipu-
-lated with the Chenchoos of Koilgoonda,
and that a small advance of Succary be
made to the Chenchoos as recommended
by Mr. Wedderburn and supported by the
Board.—

4. In Madura, the Revenue derived
from the Honey &c. Farms in Fusly 1261
amounted to Rupees 412-9-8. The Hill
people, it is represented, are much oppres-
sed by the Sub Renters of these products
and owing to the trifling sum obtained
the Government have no hesitation in direct-
-ing that these Rents be at once abolished.—

5. In Malabar likewise the
Jungle tribes are subjected to much op-
-pression. The Government derive a rent
of Rupees 803½ per annum from the Calur-
-gade Numbidi or Petty Rajah on account
of the wild produce to be found in his
Hills. The Numbidi farms out the Rent
to Contractors, and under this System
Condition of the jungle men is repre-
-sented to be very miserable. The Contract
moreover is represented to entail a loss of
Rupees 403½ per annum on the Numbidi,
owing to a decrease in the wild produce
Consequent

FORT St. George 25th July 1853.—

Consequent upon the reclamation of the in
jungle during late years; and the Col.
-lector adds that the ground thus taken
up is so Considerable, that in 10 years at
furthest, the Government will have
an increase of Revenue to an amount
in excess of that now taken from the
Rajah as Hill Tax. Under these Cir-
-cumstances, the Government accede to the
recommendation of the Board, and
sanction the immediate remission of
the tax levied from the Numbidi on
the conditions suggested by them in
para 21.—

Independently of this tax it appears that
jungle rents yielding on an average of the
last ten years Rupees 1,318 per annum are levied
in other parts of Malabar, and the Governor in
Council resolves to submit for the Consideration
of the Government of India the desirable-
-ness of remitting these items likewise
in Common with the amount derived
from the wild produce of the Districts
noted in the margin wherein the abuses
noticed are most prevalent.—

7. The Hill rents in South
Arcot

Fort St. George 25th July 1853.

Arcot yield an uncertain and inconsiderable revenue which has varied from Rupees 120 in Fusly 1243 to Rupees 2300 in Fusly 1251. The average however of the last 20 years is only Rupees 988- the Collector observes that the enquiries which he has recently made confirm the opinions of his predecessors regarding the vexatious nature of these rents and suggests that they be totally abolished. In Tinnevelly, the oppressions exercised towards the Hill people called Arayers are detailed in a letter forwarded by the Collector, from which it appears that these people are prevented from bartering with any but the Contractors, who exact from them 3/5th of their Hill produce as tax, giving for the remainder articles in exchange on which they put their own price. The Contractors likewise use false measures, neglect the people in time of sickness, enter without permission the gardens planted by them, and plunder the produce on the ground that the land is theirs. The average revenue derived from the

Fort St. George 25th July 1853.

the Hill produce in this District during the last 10 years is Rupees 3135-

8. In Coimbatore, the miserable Condition of the Hill tribes, Consequent on the oppressions of the Contractors, is forcibly described by Lieutenant Michael in charge of the Annamally Forests. The people, it appears, were Compelled to collect the Hill produce by every kind of cruelty and ill treatment. That although they are willing to labor in public works they were not permitted to do so, and that when a few of them some years ago cleared a patch of ground secretly and got a Crop of Raggee, the Contractors on learning of it had the Crop destroyed. The average revenue derived from the Hill produce in this District during the last ten years is Rupees 4,016

9. In Canara the Collector states that the Condition of those classes who support themselves in the Jungles is steadily undergoing amelioration, but he mentions certain taxes in the Ballaghaut and the Anikola Talooks which he considers very objectionable and recommends that they may be abolished. These are

10. The vexatious nature of these farms was brought to the notice of the Board by former Collectors, and Mr. Mallby now Mining-ly recommends that they may be discon-tinued.—

10. In the first of the letters recorded at the head of this Extract the Board, Paras 12-13, recommended that the jungle products in the four Districts, South Arcot, Canara, Malabar and Tinnevelly, should be Collected under amanie in place of being farmed out a similar change of system having under their orders been tried experimentally in the annually Hills of the Coimbatore District. In their letter of the 13th June they report that the issue of that experi-ment has not been successful, and they submit their opinion that to give these Jungle tribes the full benefit of the mea-sures Contemplated for their improve-ment, it will be requisite to abandon all

all tax from Hill products in future and as the Consequent sacrifice of revenue is not of importance when taken in Connection with the object of improving the position in life of these semi-barbarous classes, and of inducing them to adopt habits of order and industry, they Sug-gest that all claims on the part of Govern-ment to the Jungle products in the three Districts Coimbatore, South Arcot and Tinnevelly shall be renounced, and that the Collection of them be free to all.—

11 The Right Honorable the Governor in Council is fully convinced of the propriety of relinquishing these ob-jectionable taxes as well as those similarly levied in Malabar and the Honey Farms Hoolbunny and Jungle thund Goottah of Canara and he would at once have direct-ed their immediate discontinuance were it not that they might be Considered to fall within the Category referred to in Para 3 of Mr. Secretary Bushby's letter of 6th November 1847 as taxes not objection-able in principle if their enforcement Can be prevented from being oppressive, and therefore injurious to the general pros-perity." The reports now furnished by the

Bd. No. 1508. From the Collector of Chingleput. } Para.

Forwarding for sanction accounts of the proposed Subdivision of the Teroonsaum Mootah.-

Sir,

I have the honor to submit for the consideration of the Board of Revenue the accompanying Statements[x] relative to the proposed Subdivision of the Mootah of Teroona-num in the Poonamallee Talook comprehending 4 Villages and bearing a permanent assessment of Rupees 1285. 9a 8p.-

[x] No. 1 to 6 with maratta Statements.-

2. The estate in question forms a half share of the Mootah of Vŏyala vellore which is again a portion of the Original[x] Zemindary of Teroomooshee Sub-divided under the sanction of the Board of Revenue dated 4th June 1836. It was purchased by the present proprietor[x] in November 1845, since which period it does not appear to have yielded a profitable re-turn at least to any extent, not being compactly situated and consequently difficult of management.- The proprietor having become involved, he has dis-posed of two of the Villages, Teroonaunum and Teroocoleputtoo[x] to the parties noted marginally and has made over the 3d Palunjoor to his wife for the maintenance of a Choultry erected by her and retain-ed the 4th (Soomatrumbadoo) himself.-

[x] Subdivided under the Board's sanction dated 17th March 1836.-

[x] Podiagherry Venkiah.-

[x] Nootalapaty Bhashiem Naidoo

[x] Arinoyel Vyde yanatha Mudelly.-

Accounts.

Fort St. George 25th July 1853.

3. Accounts of the actual produce of the 4 Villages comprehending the Mootah for a period of 7 years immediately preceding the subdivision or from Fusly 1255 to Fusly 1261 (Fuslies 1259 and 1260 so generally unfavorable not having proved so as regards these Villages) were obtained from the Proprietor and Cummums, and have been carefully examined at this Office, their correctness was further tested by a reference to the accounts of previous years; from these the accompanying Statements have been deduced, and the assessment apportioned to the 4 divisions of the Mootah in reference thereto, is exhibited, in a convenient form in the following abstract in comparison with former Berizes, the area of arable lands having been included within their limits.—

Proceedings thereon:

Conveying the Board's observations on the proposed Sub Division of the Seroomanum Mootah and requesting to reconsider and report further on the subject.

27.28

The Marginal Abstracts exhibit a comparative view of the seven years Average Berij and the Peishcush according to the last Sub division and that now proposed.

	Last Produce	Present Produce	Increase	Decrease
	Rs	Rs	Rs	Rs
Seroomanum	717	757	40	"
Seroocalaputtoo	59	84	25	"
Palunjoor.	392	256	"	137
Soomatherumbadoo	280	228	"	52.
Total	1448	1325	65	189
		Net Decrease		124

	Last Peishcush	Present Peishcush	Increase	Decrease
	Rs	Rs	Rs	Rs
Seroomanum.	636	735	99	"
Seroocalaputtoo	52	81	29	"
Palunjoor.	349	248	"	100.
Soumatherumbadoo	249	221	"	28.
Total	1286	1285	128	128.

2. In the latter the increase in the assets of Seroomanum and Seroocalaputtoo are 40 and 25 Rupees and the increase in the proposed Peishcush 99 and 29 Rupees.

3. The Village of Seroomanum the Collector states does not appear sus-
Para 4 - "ceptible if improvement to any material
"extent in consequence of by far the great-
"est portion of the arable Ayacut being already

"already under cultivation" and that the proposed increase of 99 Rupees in the Peishcush is "consequent on the decline "in the proceeds of some of the other "Villages in the Mootah."

4- This does not appear a valid reason for imposing on one Village that Peishcush which, from the remark, would appear to be derivable justly from another-

5- From the Marginal entries the profit which the future proprietor may expect to derive from the Village is 22 Rupees with but small prospect of an advance on this sum, and though he is stated to have consented to the terms proposed, it is difficult to understand what real inducement is held out for the purchase-

Average Beriz for 7 years 757-6-5 Peishcush Rs 735

6- These remarks are applicable also though in a minor degree to the Village of Veroocolaputtoo in which the estimated profit to the purchaser is entered at 3 Rupees-

7- In Palunjoor which is stated to have been made over to his wife by the proprietor for the maintenance of a Choultry the waste and Poonjah tracts are considerable- The proposed Peishcush has been

increased by 100 Rupees in consequence of the lands being affected by the waters of the Chumbrumbakum Tank-

8- The Village of Sonatheram-badoo the proprietor has retained- Its Peishcush has been lowered from 248 to 221 Rupees in consequence of the Tank being in an inefficient state from no repairs having been made to it-

9- The average produce of the last seven years is 52 Rupees less than that of the previous seven but in two Fusleis (1257 and 1261) the wet cultivation was in excess of the total Ayacut, and above the Nunjah Ayacut in Fusleis 1257. 58. 59 and 1268-

10- If the Peishcush is reduced for the reason alleged, the Mootahdar would derive a benefit from the effects of his own negligence-

11- Should the two first named Villages on their proposed Peishcush be at no distant period brought to sale for arrears the present Subdivision may be found to have relieved the proprietor from those parts of the Mootah which were

with

Fort St. George 25th July 1853.

with reference to the Government de-
=mand unprofitable and to have con-
=tinued the remaining two Villages at an
unduly low rate -

12- The Board would therefore
wish the Collector to reconsider the sub-
=ject in connection with these obser-
=vations and to report further on the subject.

Ordered that the foregoing letter be submitted with the following address-

No. 341.

To.

The Chief Secretary to Government-

Sir.

1. I am directed by the Board of Revenue to forward for the information and orders of the Right Honorable the Governor in Council the accompanying letter from the Acting Collector of North Arcot reporting the decease of Streenevasa Row Saib, Jaghiredar of Arnee-

2- A succinct history of this Jaghire

34

B. No. 1572
To the Chief Secretary to Government ...

Submitting a letter from the Acting Collector of North Arcot reporting the decease of the Jaghiredar of Arnee and recommending that Teroomul Row Saib the eldest son of the deceased be acknowledged as the successor of the late Jaghiredar-

dated 19th June 1853.
inclosed 30th Do.

Jaghire is contained in the Board's letter to Government dated 31st January 1825 when they had occasion to report the death of Trimul Row, father of the late Jaghiredar, and it will be seen from the dispatch therein quoted, that the hereditary right to the Jaghire was declared by the Honorable Court "to have been fully recognized by the stipulations of the treaty of 1762," and under the authority, the Government in their letter of the 25th February 1825, formally acknowledged the title of the late holder, and authorized his succession-

Judl Cons 17th April 1825

3- The Acting Collector represents that Streenevasa Row, the deceased Jaghiredar, has left three sons, the eldest of whom Teroomul Row is 15 years and 6 months old, and is reported to possess very great intelligence and to be competent, from the extent of his education and the opportunities he has had of acquainting himself with business, to manage with the aid of his friends the duties belonging to his station- These friends who are also distant relations are Trimbaka Row, M. Boolajee Row and Madava Row, all of whom were in the confidence of his father and two were employed by

by him in transacting the business of the Sagheire, with which they are therefore well acquainted.

4. Under these circumstances and the opinion expressed in Para 5 of Mr. Bretts letter the Board have not considered it necessary to take the management of the Estate under the Court of Wards, and have therefore approved of the Acting Collector's Proceedings generally in regard to the Minor and directed him to make a simple report of the case to the Civil Court.

Proceedings to Coll.r 30th May 1853.

5. The Board would now recommend that Trimul Row Sahib be acknowledged as the successor of the late Sagheredar and as the right to the Estate has been declared to be hereditary in the family a summud may, they think, be granted to him similar in terms to that conferred upon his father.

6. As the Government have in Extract Minutes Consultation dated 18th April 1848 stated their opinion "that it is desirable to have the Moturpha entirely at the disposal of Government" and directed its resumption in the case of the Cangoondy Estate, the Board think that a similar course should be followed as regards the Moturpha of the Arnee Sagheer; but they are unable to submit any definite proposition as to the extent of reduction which should be allowed on the amount at present payable by the Sagheredar till the receipt of the accounts promised in Para 8 of Mr. Bretts report.

Forwards copies of certain papers having reference to the attachment and sale of certain Villages in the Corvetnaghur Zemindary in execution of the Decree in O.S. No. 34 of 1848 on the file of the Civil Court of Chittoor and requests the Board's intentions on the subject.

Extt Pro. of the Civil Court of Chittoor dated 20th June 1853.
Precept return dated 22d Do.
Extt Pro. of the Civil Court of Chittoor dated 28th June 1853.

I have the honor to transmit Copy of the Proceedings noted in the Margin, and to request that the Board of Revenue will favor me with their instructions on the subject.

2. These proceedings relate to the execution of the decree in Original Suit No. 34 of 1848 on the file of the Civil Court, and to the course I have taken, in conformity with the Civil Courts instructions, to realize the amount of this decree by the attachment and sale of 3 Villages belonging to the Corvetnaghur Zemindary, which are mortgaged to the Plaintiff with such other portion of the Zemindary as may be necessary to meet the entire Demand.

3. On a motion presented to the Civil Court on behalf of the Plaintiff in the above Suit, complaining that the Collector had made no attachment and had taken no steps to secure the produce, the Civil Court called upon me by Precept to state whether any portion of the estate had been actually attached or not.

4. In return to this Precept, I transmitted Copy of Para 5 of the Board's letter dated the 28th September 1818,

1818, in which the Board point out that no such attachment should be made on such occasions till the necessary accounts have been laid before them and received their approval; and submitted my opinion that the Court was not authorized under Section IV Regulation XXVI of 1802 to order the immediate attachment of a Zemindary, or a portion of a Zemindary, with the view of collecting the produce previous to the actual sale.-

5. The Court in its last Proceedings has remarked, that I have shown no valid reason for not having made an attachment; that the course to be pursued by a Collector in such cases is clearly pointed out in Section XX Regulation II of 1803; and that the Courts orders were consonant with the long established practice. The Court has therefore again directed me to execute the previous precepts by the immediate attachment and consequent sale of the mortgaged Villages" &c.-

6. I now suggest for the Board's consideration whether the Civil Court should not be requested to transmit Copy of these Proceedings to the Sudr Adalut for the purpose of obtaining their opinion on the question here raised.-

7 I am of opinion that Collectors, in respect to all their Proceedings, are placed by the provisions of Regulation II of 1803 under strict subordination to the Board of Revenue, that the mode of procedure described in Section XX of this Regulation is liable to any modification that the Board may think fit, for in Section XXI it is clearly indicated that the Collector's arrangement for making a Sub Division may be delayed till it has met with the Board's

Board's Sanction, and that a Court of Judicature when it has occasion to order the execution of a decree under the provisions of Section IV is confined to the issue of general instructions to the Collector of the Zillah for the sale of such portion of an Estate as may be necessary to answer the amount of the decree-

8. The Civil Judge has not expressly required me to divest the Defendant from the management of the property at the time of making the attachment, but it is necessarily inferred from the Proceedings, and the Plaintiff's Petition, that such is his meaning- He seems indeed to think that the last measure always involves the first- I do not argue that no attachment ought to be made previous to the date of sale, but that the Board of Revenue is at liberty to rule, that the proper time for making an attachment has not arrived till the proposed division has met with their sanction- This principle is reasonable on the ground that the Board is the consituted authority to determine what portion of an Estate ought to be brought to sale- When the Civil Courts exercise the powers vested in them under, clause IX Section XII Regulation IV of 1802, or clause II Section IV Regulation II of 1811, and require lands to be held under attachment for the purpose of collecting the rents, the case is reversed, but then the precept addressed to the Collector must "state specially the property to be included in the attachment," In those instances therefore the important preliminary point, as to what ought, or what

what ought not, to be included in an attachment, is settled before the Collector is required to assume the management.-

9. I admit that the Mortgaged Villages in suit No. 61 of 1847 were taken under management before the accounts were submitted to the Board, but at that time I was not acquainted with the Board's Orders of 1818 under which I have since acted; nor had I reason to think on that occasion that the Mortgaged Villages with the intermediate rents would not suffice to cover the amount of the decree.-

10. I must also add that some of the Creditors have recently resorted to proceedings against the young Zemindar, rather with the view of obtaining fresh terms and additional profit for prolonged forbearance, than with the intention of actually realizing their well-secured claims by the sale of the Zemindary or of any portion of it, and that with the first mentioned object they are prepared to follow any course that may cause most embarrassment to their debtor.-

11. I would not make this a ground for denying them any thing that the law may strictly allow, but I am of opinion that neither the Courts, nor the Revenue authorities, ought to aid them in these projects a step further than the law may positively require. If therefore the law allows any option, I continue to recommend that the required amount be levied by means of a sale only.

Extract.

No. 1.

Extract from the Proceedings of the Civil Court of Chittoor under date the 20th June 1853.

Read again Miscellaneous Petition No. 308 of 1853 presented on the 13th June 1853 by the Court Vakeel S. Streenevasiengar on behalf of V. Sadagopala Charry Plaintiff in Original Suit No. 34 of 1848 on the file of the Civil Court, stating that Precepts were issued on the 24th December 1852 and 17th February 1853 to the Acting Collector of North Arcot requiring him to realize the sum of Rupees 17,692-3-2 being the amount of the balance due to the said Plaintiff from the Defendants heirs by the attachment and sale of the Mortgaged Villages, and such further portion of the estate of the Defendant in addition to the Mortgaged Villages as may be necessary to satisfy the above demand, but that Officer has not attached the Mortgaged Villages or any further portion of the estate of the Defendant up to this time in contravention of the provisions contained in Sections V and VI Regulation XXVI of 1802 Petitioner therefore prays that this Court will issue a Precept to the above Officer to execute the aforesaid Precepts of this Court without further delay by attaching the Mortgaged Villages &c. and securing the produce thereof until he shall receive the instructions of the Board of Revenue for the sale of the above Villages &c. or that a Hookumnamah may be issued to the Nazir of this Court directing

directing him to attach the Treasury and other moveable property of the Defendant and sell the same.-

It is not distinctly stated in the communication of the Acting Collector of North Arcot received in reply to the Extract of the proceedings of this Court of the 23d April last whether the mortgaged Villages or other portion of the estate has been actually attached or not, and the Court therefore resolves to call upon the Acting Collector to report upon this circumstance and if no sequestration has yet taken place as stated by Petitioner, to direct that the above Precepts be executed by the immediate attachment of the Mortgaged Villages and such other portion of the Estate of the Defendants as may be deemed necessary, pending the receipt of orders for the sale thereof from the Board of Revenue.

Ordered that Extract from these proceedings be sent to the Acting Collector of North Arcot for his information and guidance by precept returnable in 5 days.-

In return to the annexed Precept which accompanied an Extract from the Proceedings of the Civil Court dated the 20th Instant referring to Miscellaneous Petition No. 308 of 1853 presented on behalf of the Plaintiff in Original Suit No. 34

of

of 1848 in the file of the Civil Court, in which the Petitioner complains that the Acting Collector "has not attached the Mortgaged Villages or any "further portion of the estate of the Defendant up "to this time in constravention of the provisions con- "tained in Sections V and VI Regulation XXV of 1802," and calling upon the Acting Collector to report whether any Villages have been attached, and if no Sequestration has yet taken place, to "proceed to "the immediate attachment of the Mortgaged "Villages, and such other portion of the estate of the "Defendant as may be deemed necessary pending "the receipt of orders for the sale thereof from the "Board of Revenue," the Acting Collector has the honor to request with reference to accompanying Copy of Para 12 of his letter to the Board dated the 15th March last, and Copy of Para 5 of the letter therein referred to dated 28th September 1818 that the Civil Judge will reconsider the present order and will be so good as to state, if he should continue of opinion that any Villages should be at once attached for the purpose of "securing the produce," under what particular clause in the Regulations he considers it competent to the Court to require this course to be followed, that the Acting Collector may apply for further instructions to the Board of Revenue.-

2. The Acting Collector remarks that the Collector of a Zillah, under Section IV Regulation XXVI of 1802, may be called upon to sell such portion

of

of an estate as shall answer the amount of the decree; but he is not aware that this or any other enactment has authorized a Court of Judicature to require the Collector to make a previous attachment for the purpose named by the Petitioners.-

No. 2.

Extract from the Proceedings of the Civil Court of Chittoor under date the 28th June 1853.-

Read again return under date the 22d from the Acting Collector of North Arcot to this Court's Precept of the 20th Instant requesting this Court to reconsider the order passed on the 20th Instant directing the Acting Collector to attach at once certain mortgaged Villages and such other portion of the Carvetenugger Zemindary as may be requisite in execution of the Decree passed in Original Suit No. 34 of 1848 on the file of the Civil Court.

In the Precept issued by this Court on the 24th December last the Acting Collector was called upon to execute the Decree referred to by the attachment and sale of the mortgaged Villages, and in the Proceedings of this Court dated 17th February in reply to his

return

return of the 27th January, he was further directed to attach and sell such portion of the estate of the Defendant in addition to the mortgaged Villages as might be necessary to satisfy the demand. If the Acting Collector had any objections to make to the due enforcement of the above orders by the attachment of the Villages he should have at once brought them to the notice of the Court instead of allowing so long a period to elapse without making any reference on the subject, and the Court fails to discover in the present communication any valid reason for the attachment not having been made in pursuance of its former directions.-

The Course to be pursued by a Collector in such cases is clearly pointed out in Section XX Regulation II. of 1803 & the orders of this Court are entirely consonant therewith, as well as with the long established practice.-

A similar order was issued on the 5th January 1852 for enforcing the Decree of the Court of Sudr Adalut in appeal suit No. 61.

Fort St. George 25th July 1853.

No. 61 of 1847 to which no objection was raised by the present Acting Collector who then attached the mortgaged Villages and remitted the proceeds thereof to this Court.-

It may be observed also that in the letter dated 23d March 1846 from the Board of Revenue copy of which was submitted to the Court by the late Acting Collector this mode of proceedure is clearly marked out.-

The Civil Judge therefore resolves to send a copy of the Decree in the above suit, and to direct the Acting Collector by a Precept returnable in 7 days to execute the Precepts of this Court under dates the 24th December 1852 and 17th February 1853. by the immediate attachment and consequent sale of the mortgaged Villages and such other portion of the Zemindary of the late Defendant as may be requisite to satisfy the demand in pursuance of the directions contained in the above Precepts.-

Para 1. I have the honor to inform the Board that the Civil Court has sent me three additional Precepts dated 15th Instant, requiring me to attach and sell more of the Villages belonging to the Carvettenugger Zemindary for the purpose of collecting the aggregate sum of Rupees 46575-11-" in execution of the Razeenamahs filed in the Suits noted in the margin; and that I have deferred making any attachment pending the receipt of the Board's instructions on the point submitted in my letter dated the 7th Instant, No. 52.

C. S. No. 7 of 1835

2 In these fresh cases it will be necessary with reference to the provisons of Section VII Regulation XXVI of 1802, to prepare further accounts for fusly 1261 if not for Fusly 1262, as it is required under this Section that the three years immediately preceding the "Current year" shall be taken to form the average. The accounts already prepared were for the 3 years from Fusly 1258 to 1260..

Proceedings thereon.

In Cons. 25th July 1853

(35.37)

With reference to the letter from the Acting Collector of North Arcot dated 7th July 1853 the Board observe that it is not expedient to object to the attachment of the Villages in question, in as much as the sale is ordered on the 8th of August 1853, under sanction of the Board conveyed in their Proceedings of 7th July 1853, and the time is now so near that no inconvenience can result from immediate attachment.

2 But as the question of the power of the Court to direct the attachment of lands previous to sale in virtue of a Judicial Decree is reopened by the Precepts alluded to in the Acting Collector's

In Cons 25th July 1853

letter of 22d July 1853, the Board are of opinion that he should request the Civil Court to refer the question to the Court of Sudr Udalut.

3 The Board see no reason to deviate from the rule of procedure laid down in their letter of 28th September 1818 and consider that the terms "in such mode as may be prescribed for recovery of arrears of Revenue" clearly leave it to them to determine after receiving the Report of the Collector prescribed by Section XX of Regulation II of 1803 and Section IV Regulation III of 1830 the period at

which attachment and sale shall take place.

4 Of course it will always be the desire of the Board to meet as far as practicable the wishes of the Civil Court, and in the present instance attachment might not have been objected to, had it not been the Collectors opinion that it was urged by the Zemindars Creditors in order to embarass him, and force him to terms more advantageous to themselves.

5 The Collector will submit to the Board the List of Villages he proposes to sell in execution of the Decree adverted to in his letter of July 22d with all the details required by Section XX Regulation II of 1803.

Sir

Although in my recent address to your Board submitting an appeal from the Head Assistant Collector Mr. Hodgson against the arrangements of my charge - I abstained for reasons stated, from commenting on that Gentlemans several averments and deductions, I believe that I should not be doing justice to my self and the motives

motives by which I am guided in the conduct of my public duties were I to withhold the transcript of a further correspondence which I have now the honor to lay before the Board for their consideration.-

In respect of the slight which Mr. Hodgson has assumed to have been put upon him, by the request that when in the District, he would avail himself of the Post Office Writer for the transcription of any letters he may address to my office. I am able to shew that the practice is not a new one, and accordingly I have addressed to Mr. Hodgson's the letter under date the 14th. Instant of which a copy also accompanies. On receipt of Mr. Hodgson's reply thereto, I shall submit it to the Board. —

of Salem.

Sir,

1 Adverting to your letter of the 30th. Ultimo and with further reference to your previous communication of the 23d. idem.-

2. I have the honor to request you to reconsider

sider your statement that on your arrival in the District, I attached to you three Peons and a Dalayet.-

3. On reading your letter my own recollection of this matter was of an entirely opposite tenor, and on enquiry I am able to shew that three Dalayets whose names are ascertained to be Ismalkhan, Abdool Cauder and Govindoo were then sent to and served under you, from the date of your arrival at my Cutcherry and that a few days afterwards at Adaysoomully two others Mahomed Hoofsain and Sayed Ibrahim by his Buddee Venkatasamy were deputed to attend you. -

4 Adverting to your remark that I have withdrawn to my Cutcherry the Permanent Duffadar of the Head Assistants Office, I beg you will be good enough to explain on what information you have founded this statement and inform me whether you have had any fault to find with Mahomed Hoofsain, the Dalayet deputed to do duty under you as Duffadar I may be in error in my belief that I once informed you that there is no Head Assistant Duffadar on the Salem Establishment.

Sir.

1 Upon a reconsideration of the statement in my letter of the 23d. Ultimo that on my arrival in the District you had attached to me three Peons and a Dalayet.-

2 I have the honor to state in reply to your requesition to that effect under date the 4th. Instant, that I was altogether in error in making such an assertion, for upon a stricter enquiry I find that you sent me in all seven persons of the two descriptions Viz.t one Police Peon as a "Duftur band" and six Dalayets - of the latter one to act as "Duffadar and another "Soobiah "Brahmin, to be my Afsistant Sawabnevees.-

received 10th Instant.

3. I have therefore to regret that I was not more accurate in my previous representation.-

4. Had I informed myself as I confess I should have done of the exact number and actual description of Policemen attached to this Cutcherry, I should not have had the less cause to complain of what appears to me a very insufficient establishment, though possibly in this District it may have been deemed ample for a Head Afsistant, since my

predeceſsors had elected to be silent upon the subject.

5. It may not be irrelevant or ill timed here to explain the grounds of my expreſsing my dissatisfaction at arrangements which undoubtedly it is in your discretion to make, while I do not believe that it is improper for me to expreſs an opinion respecting them.-

6. From my personal knowledge of the Establishment of the Head Afsistant in South Arcot, and information which I am poſsesſsed of regarding the Cutcherrey of that Officer in Madura, I am able to shew that my Establishment is inferior in almost every particular.- I have no English Writer no Maſsaulchee - and leſs than half the number of Policemen even counting the Brahamin who is otherwise employed and would not wear his belt if ordered.-

7 Adverting to your request that I will furnish you with the information upon which I remarked that you had withdrawn to your Cutcherry the Permanant Duffadar of the Head Afsistants office, I do myself the honor of complying therewith by stating that that information was to the effect that so far back as 1834 or the time of Mr. William Elliots being

Fort St. George 25th July 1853

being Head Assistant in this District "Sutwajee Rao" was Duffadar and that on his death "Tippoo Sahib" the present holder of the belt, succeeded him and has ever since been with the succeeding Head Assistant.-

8. This appeared to me a sufficient warrant for calling "Tippoo Sahib" the permanent Duffadar of the Head Assistants Office "though he be not entertained as a Duffadar in the Baraward of the Salem Establishment - I have no fault whatever to find with Mahomed Hoossain the Dafadar put deputed to do duty under me as a Duffadar.-

Bd. No. 1918
From the Collector of Salem

Submits with certain explanations the Head Assistant Collectors communication regarding the exception he took to the employment of some of the local Post Office Writers transcribing his occasional English correspondence

Read 23d June 1853 paragraph 9
18th July 1853.

Sir,

Para 1 Adverting to my letter dated the 15th instant, I have the honor to transmit a copy of a communication from the Head Assistant Collector, Mr. Hodgson relative to the practice which undoubtedly prevailed under his predecessor of taking advantage of the services of the several Post Office Writers in this District for the transcription of the very infrequent English communications that a Head Assistant Collector and Magistrate is called upon to address to the head of the Department.

2 The Head Assistant Collector will be observed, has now changed the ground on which he took exception to my having requested him to get any letters he might write to me transcribed by the Post Office Writers. It was at first disagreeable to him for the reasons shown in his address marginally noted, now it seems to him objectionable; because, in other Districts, affairs

are

Fort St. George 25th July 1853.

are different to what they are in this.—
3
Mr. Hodgson 3beg to explain
has Magisterial charge of four Talooks and
I find that they afford him very ample
occupation; but it is quite obvious that such
a charge does not involve the necessity of
detaching an English writer to serve under
him for the purpose of perhaps transcribing
in a month, what will occupy 3 or 4 hours
thus depriving my own Cutcherry of the aid
which the writers presence with it for the
entire month, would necessarily afford.—
4
There are five Post Office Writers
and four Assistants in the Salem Collectorate
different Stations in the Talooks where
the Head Assistant Collector and Magistrate
duties are likely to call him, one of these is
stationed at Daramporry the ordinary
place of residence of the Salem Head Assistant at some 150 yards from where Mr.
Hodgson resides and holds his Cutcherry;
5
Post Office Writers have little
or nothing to do at outstations. I leave it
then to your Board for consideration whether
I have not properly consulted the
public interests in rendering these Writers
available for the labor of transcription when

Such

Fort St. George 25th July 1853.

Such may if as it seldom should arise in the
Head Assistant Magistrates Cutcherry.—
Referring to paragraph 5 of Mr.
6
Hodgson's letter now submitted I have to observe
that whether that Officer is or is not in
general control over the Post Office Department
has nothing whatever to do with the question
as the Post Office Writers were formally instructed
by me to perform whatever English transcription
the Head Assistant Collector might require to
be done though such formal instructions I am
aware, were scarcely required, as none appear
to have been issued in former times, and it is
unlikely that either of the writers would have
disobeyed the requisition of the Head Assistant.
7
I feel that I have trespassed on
the time of the Board in laying before them
these letters and those submitted on the 14th
instant, but, on reference to the several erroneous, though irrelevant, Statements made by the
Head Assistant, it did not appear to be just
to myself that a possibility should exist of
my proceedings being misunderstood—I have
therefore ventured to put them in a proper
light though satisfied that the points
mooted in them are unconnected with the Board's
consideration of the main point, whether of a

necessity, I must assign to Mr. Hodgson a separate revenue charge.—

Sir,

In reply to your letter of the 14th Instant requesting me to refer to the records of my predecessor Mr. Dykes in order to ascertain whether there are not among them copies of correspondance made by Government Post Office Writers.—

2 I have the honor to acquaint you that my Sawabnevees Seetaputty states that there appear to be some copies such as you describe but that he is not able of his own knowledge to speak of the actual transcribers.

3 I therefore do myself the honor to forward the books of Mr. Dykes correspondence for your inspection and to observe that they present contributions in great variety of penmanship.—

It does not appear to me however that because Mr. Dykes who rose in this District

District may have been satisfied with such a state of things, that therefore his successor having experienced different treatment and being aware of more liberal arrangements in other Districts should be content with an inadequate establishment.—

5 However that may be my position in respect of control over the Post Office Writers is widely different since it appears that for a long time my predecessor was in general charge of the Salem Postal Department, whereas I have nothing whatever to do with it beyond an inspection of its accounts.—

Sir,

1. I have had the honor to receive the Extract from the Proceedings of the Board dated the 7th Instant and in reply to report that there can be no question or doubt whether the Indian Iron and Steel Company have availed themselves of the privilege of cutting fuel in this District from the commencement of their Lease up to the present time writing. The fact is patent to all and my records prove it by the several references made in past years by Mr. Brunton on account of disputes with the Zemindar of Wodiarpollium

Copy

Fort St. George 25th July 1853.

Copy of a letter from Mr Coey containing the information required in Board's Proceedings of 20th June 1853 respecting the extent of Forest land on the Courtallum Hills.

Copy of a letter dated this day from Mr. Coey containing the information required in Extract from Proceedings of the Board of Revenue dated 20th Instant respecting the extent of land on the Courtallum Hills applied for by Messrs. Heale and Coey. The 100 or 150 Chains mentioned in this letter are evidently intended only as an Experiment, and should the experiment give promise of success the same parties and others will of course seek to extend the cultivation of Coffee over every suitable spot on the Hill sides.

2— The Board will observe on referring to the Map that the waters from the Hills above Courtallum begins at a very short distance from the eastern side to flow into Travancore and therefore if forest really promotes rain it behoves us to guard the little space we have with the utmost jealousy. For this reason it has for several years been the custom to prohibit the cutting of firewood

and

Fort St. George 25th July 1853.

and burning of Charcoal in even the Jungle which extends a few hundred yards from the foot of the Hills into the plain between the northernmost and the Southernmost of the Hill streams which will be seen in the Map to unite into one rivulet between Courtallum and Tenkasey.

The Glens down which those Hill streams run are wooded to the top and 100 or 150 Chains bear an insignificant proportion to the extent of forest— If therefore Coffee bushes are believed to cause rain as much or nearly as much as Forest trees there is every reason to accept Messrs. Heale and Coey's application— But if not as in case of the experiment not being profitable we shall only have lost so much Forest and in case of its proving successful strong requisitions will be advanced for permission to extend the plantations. I would not recommend

Bd. No. 1729. From the Collector of Canara. Forwarding accounts shewing the manner in which the Tobacco Monopoly is closed with the result of the sales of the stock on hand.

Sir,

I have the honor to lay before the Board of Revenue the accounts necessary to shew the manner in which the Tobacco Monopoly of this District has been closed and the result of the sales of the stock on hand.

2. The annexed account (No. 1) shews the quantity sold before the Monopoly was abolished and the quantity sold by public auction after the close of the Monopoly.

3. The sales were held at Mangalore in the presence of myself or one of the other European Officers of the District in convenient lots so that the smaller dealers as well as the Merchants might have the opportunity of purchasing. In the subdivisions the

* " 840-" -6-6½

the same course was pursued. The stores at the smaller depôts were sold by the Tahsildars or other responsible Officers deputed for the purpose.-

4. The average price realized was a little below 55 Rupees the Candy and considering the large quantity sold, this price may be considered favorable.-

Rs. 54-12-- a/c per Candy

5. The whole collections on Tobacco [Account No. 2] during the Fusly amount to Rupees 1,65,809-15-8.-

Sales — 1,65,379-7-10
Extra Revenue 9-2-3
Refunds — 421-5-7
Rupees 1,65,809-15-8

6. The costs of the department within the Fusly have amounted to Rupees 9,954-5-3. a/c

7. The cost price of the Tobacco at the rate of the last years investment made in Mysoor by a Mr. Hudleston was Rupees 53-13-10 per Candy, or Rupees 81,914- on the quantity sold this season.

8. The gratuity to dismissed servants recommended in my letter of the 17th January last amounts to Rupees 5,985-

Collections 1,65,809-8-9-
Subsidy 1/60 — 9,954-5-13
Purchase Cost — 81,914-11-7
Gratuity recommended 5,985-0-0
97,854-0-10
Net Profit 67,955-14-10

9- Deducting these three items of disbursement, the net profit on the transactions of this year will still be Rupees 67,955-14-10-

To

10. To close the accounts of the Monopoly I have only to request sanction to write off as wastage the quantity shewn in the annexed account No. 3. Amounting to Candies 13-3-11 inclusive of such as was destroyed by my order as being unfit for sales.-

11. One lot of Tobacco was purchased by a Merchant who afterwards refused to take it and was sold at his risk, and the Merchant is responsible for the difference being Rupees 301-6-6 a/c. This I am taking measures to recover as it is necessary that the rules of the Government sales should not be relaxed, this will be hereafter credited to Government, and does not appear in the above account in which the sum realized at the second sale is shewn.-

12. It may be interesting to the Board to learn that the price of Tobacco in the Bazar is now 3 Rupees per Maund or Rupees 60 per Candy in lieu of 175, the Monopoly price.-

13. The Cultivators of the South of the district are preparing to cultivate the plant with much enterprize.-

Bd No 1674
From the Acting Collr of Madras

Sir,

I have the honor to acknowledge the receipt of the Extract from the Board's Proceedings dated 27th Instant conveying their views on my propositions for regulating the Toll on Cochrane's Canal.

Para 4

2 The Board demur to the Exaction of Toll on Empty Boats. The Board are aware that

Fort St George 25th July 1853.

that I only proposed to levy one toll for each trip, out and home, in order to prevent disputes as to whether a Boat was laden or not. Therefore the hardship anticipated is merely that of paying perhaps, a month earlier, than would otherwise be done. However I have no objection to offer, if the Board think it more desirable to let empty Boats pass free.

Para 5 The Board further wish to fix the toll at 6, instead of 4 annas, and to exempt Passenger, Budgerow and Top boats.

Under the plan proposed by me the Board are aware that passenger boats would be entitled if they paid for Passengers one way, to carry cargo free of payment the other. It may be desirable perhaps to give every facility for the conveyance of the poorer classes of natives, but I see no reason why Budgerows or Top boats should be exempted. Six annas may be a safer rate to begin with. It can be lowered if found too high hereafter.

Submitting correspondence from the Collector of Madras respecting the rates of Toll levied upon Goods conveyed by Cochrane's Canal and requesting that the proposed rules on the above subject be sanctioned experimentally for one year.

I am directed by the Board of Revenue to submit, for the consideration and orders of the Right Honorable the Governor in Council, the accompanying correspondence which has passed between this Office and the Collector of Madras, respecting the rates of toll levied upon goods conveyed by Cochrane's Canal.

To Madras 9th December 1852

To Dr 31st January — " —
From Dr 3d in Cons 27th June
To Dr 27th June — " —
From Dr 28th June in Cons 25th July — " —

To Government 27th September 1845
From Government 12th October in Cons. 12th November 1845

In 1846 the Board submitted to Government a revised Table of tolls which was sanctioned on the 12th October of that year. By this Table the rates were to vary with the nature of articles carried, but in practice it has been found inconvenient and vexatious to unload Boats, and sort their cargoes for the purpose of charging duty. the rates also appear to be excessive and require modifications.—

It should be borne in mind that the Canal was constructed by private enterprize, and lapsed to Government, free of Cost, at the termination of the lease. that since the abolition of the transit

Fort St George 25th July 1853

Note. on this ground the Port and Port Duties were given up by Act VI of 1844.

transit duties goods conveyed upon it, & brought by land, would be relieved of all duties and that the toll is not properly speaking a source of Revenue to the State, but a tax imposed for the purpose of defraying the expences incurred in keeping the Canal in order, or for improving or extending its course and paying an Establishment necessary to be maintained. Taking these circumstances into consideration the Board were of opinion that a uniform and moderately low rate of toll on every Boat whether laden with Merchandize or passengers, regulated simply with reference to the Tonnage, would remedy much of the existing evils. they accordingly entered into a correspondence with the Collector on the subject, and after maturely considering the matter in all its bearings, they have resolved upon submitting the accompanying rules for the approval of Government. They would recommend that these rules be sanctioned experimentally for one year by which time it can be ascertained how far they work satisfactorily or otherwise.—

The present toll averages a little more than 11 annas per Ton, consequently the reduction proposed is nearly one half. Some Boats however which have hitherto paid

proposed free will hereafter pay duty and those paying the higher rates upon their cargoes will be greatly benefited - Taking the estimate of Colonel Cotton, as given in para 4 of the Collector's letter of 3d June last, with the augmentations made by the Board, the loss to Government cannot be great, whilst the benefits to the public will be manifold. The system of compounding payments indeed, if generally resorted to, may cause an immediate falling off but it is supposed that those, the covered boats only, which convey passengers, will adopt this arrangement. - Upon the whole therefore the Board have no hesitation in submitting their proposed rates for the favorable consideration of Government.

Proposed Rules for the levy of Toll in Cochrane's Canal.

1 That each Boat plying upon the Canal be numbered and registered with the owner's name, in a Book to be kept at the Toll Office.

That

2 That the Tonnage of each Boat be ascertained by a rule to be hereafter determined, and entered in the Register.

3 That the No. and Tonnage be painted on a conspicuous part of each Boat, in black figures upon a white ground. -

4. That all Boats arriving at or leaving the Basin, with goods or passengers, shall pay toll at the rate of 6 annas per Ton. No further payments to be levied at intermediate places along the course of the Canal or Backwater, and no detention for Tickets at any such places to be allowed.

5. That as the object of these rules

rules is only to charge toll every time a Boat takes a fresh Cargo or fresh passengers, empty Boats shall be allowed to pass free at all times, but the Collector will take care that this exemption is not abused by Boats unloading before they arrive at the Basin.—

6 That Boat Owners shall be allowed to compound for their Toll by an annual payment of 12 times the fixed rate, or Rupees 4-8- per Ton, to be paid quarterly in advance.—

7 That Boats laden with Salt on account of Government be charged at the usual rates the amount being debited in the Canal accounts against the Salt Department. All other Government Stores and property to pass free.—

From Mr Lascelles Esq re

Forwarding Copies of letters to and from the Collector of Coimbatore respecting Certain Cawnies of ground at the Coonoor Ghaut applied for by him.-

Sir

I have the honor to forward Copies of letters from myself to the Collector of Coimbatore, and from that Official to my address, and as it is evident from the tone of that last mentioned, that I cannot rely on the good offices of that Gentleman in forwarding my views on the subject of it. I trust I may be excused for adopting the unusual course of addressing the Board direct on the Subject.-

2. The Board are aware that in October 1851 I forwarded an application to them for 100 Cawnies of land on the Coonoor Ghaut, 4 Miles from Coonoor. Subsequently at the suggestion contained in the annexed + extract of a letter from the Collector I altered the application for 40 Cawnies, which were made over to me in October 1852. Subsequently wishing to ascertain if I should have any difficulty in procuring more land I addressed the Collector on the subject and received the following (demi Official) reply* in consequence of which I forwarded an Official application for 40 Cawnies more to be held on the same

+ I do not think the Board will grant you so much as 100 Cawnies at once. I suppose you take 40 now and more when you want it next year.

same terms as that already granted, stating at the same time that 3/4ths of the first grant were in a forward state of Cultivation, and that the whole would be cleared within a year of its having been made over to me. I received in reply the letter dated 21st May 1853 (No. 65) and replied to it under date 24th Idem. The Collector's letter to my address of the 22d June so clearly evinces an intention of evading my request that I take the liberty of bringing the circumstances to the particular notice of the Board. As the Collector is of opinion that "the views of Government are to promote enterprise and Speculation" and that "that view would be rather precluded by granting so large a tract as 80 Cawnies of land to one individual" although it is in contemplation to grant Mr. McIver nearly 500 Cawnies on much more favorable terms and in the immediate vicinity. Mr. Stones holds nearly 120 Cawnies (but would be served by allowing it to be held on small puttahs by Natives who will most probably just take up the land for the purpose of selling it again at a high price (as has been repeatedly done already) I have no alternative but to request the Board's favorable consideration of my request, and to represent that if the object of Government is to promote enterprise and Speculation,-

Fort St. George 25th July 1853.-

Speculation, that object will surely be best furthered by granting the land to a European, who diffuses Money, gives employment to numbers of Native work People, and by raising Articles of export contributes in many ways to the wealth and revenue of the Country than in giving a preference to the Native who at best grows but a few Plantains or other unimportant articles, in no way betters the condition of the laboring classes and with the exception of the paltry sum he pays as Quit rent, adds in no way either to the diffusion of money or the increase of the revenue of the Country. I might also be permitted to enquire Why is a preference to be given to any other party? I require the land bona fide for immediate Cultivation not for sale. It is my location there which now brings others into the field and unless it can be proved that my tenancy is injurious to Government interests, or even not so beneficial as that of others, why is the implied promise of the representative of Government to be thus set aside.-

Regarding the extent of the land, It is not necessary to call the attention

Fort St. George 25th July 1853.-

attention of the Board to the liberal grants made on the West side of the Neilgheries to Mr. Hudson-Professor Owen, Mr. Stainbank Mr. M.c Ivor and others, and I therefore hope I am justified in thinking that well aware as the Board must be of the fact that few European Speculations especially the Cultivation of Coffee are lucrative except when carried on a large scale and that 200 Acres is by no means a large Estate, they will afford me that encouragement which every European engaging in "enterprise and speculation" in India deserves.-

I would wish briefly to mention in conclusion that I have spent more than a lac of Rupees within the last 10 years in the Cultivation of land and in what may certainly be termed "enterprize and Speculation" on these Hills right in the Cultivation of Coffee and Manufacture of Silk and it is only within the last two years that such "enterprize" has met with any Success I hope therefore that the Board may see fit to grant my application and as I would gladly assure the Collector and Board any further applications I will at once take land to the extent of 160 Candies

if

if permitted, and will guarantee its entire Cultivation within 3 years.-

Sir,

In reply to your letter of 9th Instant I fear the Board would not accede to any further grant until I can report your present one fully cleared and planted.-

2. As regards a Choultry, there is no possible objection to your erecting one on any spot within your grant and if a Bullock even are induced to halt, the manure will be a great advantage to you. I fear Government would hardly grant an endowment for it the Bullock (½) now usually make only one halt at Burliar and I am doubtful if it would be advisable to offer much inducement to halt again within fewer range or short of Coonoor. such Grants are only given where a

Sir,

In acknowledging the receipt of your letter of the 21st Instant, I have the honor to bring to your notice that my Original application for land was for 100 Cawnies which at your suggestion that I should then take 40. and 40 next year I altered for 40 but should you not now be disposed to forward my application, for an additional grant, to the Board, I must crave your permission to do so myself, stating my reason for so doing viz + the Enormous length of time which always elapses before such applications are granted and that other parties are taking up the land on all sides, whose claims I shall have much difficulty in setting as I have already spent 37 Rupees in setting what appear to me very questionable rights..

+ one year in the last case-

With reference to the 2nd Para of your letter under acknowledgment I have the honor to inform you that I was not aware that there was any sufficient place-

Fort St. George 25th July 1853.-

place of shelter for Natives, the whole way from Coonoor to Matapollium. There is doubtless a shed capable of holding about 20 Natives at Cullar, and half the small bungalow at Burliar is I believe, reserved for Natives under certain conditions, but this last named building is off the road difficult of access. and not adapted for the want of the travellers on the Ghaut, which would seem to require a large roomy substantial building easy of access, and capable of holding not only the natives but their goods, in such cases as they required shelter, and were liable to injury from the weather. As a proof of how much such a building is required I may briefly mention that in the last storm in March 21 bullocks and 19 Dom Keys died at, and within 2 Miles of the place where I propose a public choultry should be erected and 49 loads of goods of different descriptions, rice, jaggery, chilies Salt &c.a were abandoned or sacrificed at a merely nominal price from the damage they had sustained.-

I would beg with all due submission to remark that return of the

Fort St. George 25th July 1853.

the number of Natives & cattle who pass the Ghaut proves that only one seventeenth halt at Burliar, whereas in the Month of April 942 Men, 1653 bullocks halted during the night at the place & within 1/4 of a Mile of it where I suggest a Choultry should be built and 1500 Men 2020 bullocks halted there during the day, the total of these numbers forming about one third of the total traffic on the Ghaut the great disparity between this place and Burliar existing in spite of the inducements offered at the latter place in the shape of a bazaar & &c &c &c

Under these circumstances which are too well known to be doubted, I trust you may see fit to alter the opinion you have formed, and to recommend that a trifling grant should be made for the endowment of the building which I wish to erect, simply to prevent its being utterly a source of expense to me. The manure being utterly valueless to me for some years yet to come.-

Extract of a letter from the Consulting Engineer for Railways dated 30th June No 24 of 1853.

"In my letter of the 16th February last, I suggested that among the first lines to be examined with

with the view to the construction of a Railway would be that from Paulghautcherry to Negapatam, such a line would pass not far from Combaconum, and through, or very near to, the important and populous Towns of Tanjore and Trichinopoly - This line, it will be observed, was laid down upon a sketch which accompanied my report of the 5th March 1851. The connecting link also there shewn between Trichinopoly and Salem, would necessarily follow, not only as affording means of communication between the Tanjore and Trichinopoly Districts, and Bellary and Bangalore, but forming a portion of a great Central line to extend, some day from Travancore to Central India."

Parag.

"The distance from Paulghaut to Nagapatam by the map is about 220 miles. That from a point of junction on such a line (near Caroor) to Salem would be about 80. Thus the entire extent of such a frame work of a system which would furnish means of communication by Railway between the Towns and Districts of Madras, Cuddapah, Bellary Bangalore, Salem, Tanjore, Trichinopoly, Coimbatore, and Malabar would be about 1200 miles."

"Referring to the letter from the Government of India in the Home Department, No 397, dated the 29th April 1853. - The Right

Right Honorable the Governor in Council may deem it inexpedient pending further instructions from Home to appoint more Officers for the Survey of these additional lines. I shall however hope to be in a position within these next two months to proceed with the permission of Government towards the other Coast for the purpose of examining the line through Coimbatore into the District of Malabar upon the Survey of which Mr. Tyrrell will be engaged, and shall take that opportunity of making enquiries as to the amount of traffic and Character of the Country between Paulghaut and the Eastern Coast. My object in submitting the above observations at the present moment is not only to suggest the expediency of having these additional lines surveyed at an early period, but to request that Government may be pleased in the mean while to instruct the Collectors of the Districts through which such lines would pass to cause careful enquiries to be instituted as to the present amount of traffic carried on upon those several lines of road; forwarding to me Monthly Statements thereof according to Forms which I would furnish."

16th November 1850

"Mr. Robinson, in his letter to the Collector of Malabar printed with the first series of Railway reports, suggests that the traffic for

for one whole year might be ascertained at three different points near Paulghaut at an outlay of Rupees 500."

"Should the Government approve of the Suggestion, I would further recommend that the Collectors be warned not to establish these posts of observation close to any populous Towns or sufficiently near to include traffic of a purely local character."

The following would appear to be good places for obtaining satisfactory information upon this subject- a point about midway between Tanjore and Negapatam- another between Tanjore and Trichinopoly- some place on the high road between Caroor and Conghiam- another on the Southern road between Darapooram and Paulghaut- and some convenient place between Trichinopoly and Salem perhaps near Namcul- To give any value to these observations they should be taken with great care, and a sufficient number of trustworthy men employed at each place to admit of the record being made without intermission- I have reason to believe that this precaution is not always taken in such cases and that it is no uncommon thing to find one man appointed to take account of the traffic day and night.

The Right Honorable the Governor in Council resolves to forward an Extract para 3 to 8 of the foregoing letter to the Collectors of the several Districts through which the additional lines proposed to be hereafter surveyed with a view to the construction of a Railway would pass - and to instruct them to cause careful enquiries to be made as to the present amount of traffic carried on upon those lines of road, establishing for this purpose posts of observation at the points indicated in para 8, and to forward to Major Pears Monthly Statements of the same according to a form which he will furnish Collectors, will take especial care that the enquiry is not instituted in the vicinity of any populous Town so as to include traffic of a purely local character, and they will employ on this duty such a number of trustworthy persons at each place, as will ensure accurate information and admit of the record being made without intermission - Any trifling expense which may be indispensably necessary on this account will be incurred by Collectors and submitted for the sanction of Government in quarterly contingent Bills through the Consulting Engineer for Railways -

From the Commissioner Northern Circars.
(Here enter 27th June — No. 66.)

The number of persons charged with Offences under Regulation IX of 1822 during the 2d half of 1852 - Contrasted with the half year immediately preceding is shewn below -

Sent to Criminal Court	"	1	1	"	"	"
Appeals preferred	"	"	"	6	5	11
do Confirmed	"	"	"	24 & subsequently	5	11

Thus

2. Thus the number of persons charged with offences was 306 in all, or 137 in excess of the previous half year - This increase occurred entirely in the Northern Circars, especially in the Districts of Guntoor and Rajahmundry where in no fewer than 127 and 51 persons were respectively brought to trial - There were no cases in Vizagapatam.

3. The Right Honorable the Governor in Council has been much struck not only with the number of persons brought to trial in Rajahmundry and Guntoor, but with the large proportion of cases in which the charges failed of proof - In Rajahmundry of 51 persons accused, 23 or nearly one half were acquitted, in Guntoor and of 127 charged, the acquittals were 64 or more than half. Taking the two Districts together the numbers accused and acquitted were respectively 178 and 87 leading to the inference that one man in every two must have been arraigned on insufficient cause - again looking to the particulars as shown in Statement No. 1 forwarded with the Commissioner's letter it is seen that in Rajahmundry 23 persons of the first class specified in Clause III Section II Regulation IX 1822 that is native Servants of

of the Collectors' public Establishments were accused of whom only two were convicted - Of persons in the same class in Guntoor 40 were charged and 30 or three fourths acquitted - In this latter District ten individuals of the third class - that is parties not on the public establishment - were tried without a conviction in any single case - The particular attention of the Commissioner should be given to the application of the Regulation in these two Districts that it be not resorted to without due necessity and on adequate grounds.

4. In the Districts under the Board of Revenue, the trials were most numerous in Cuddapah 52, and North Arcot 22 - There were no cases in Nellore, Bellary, Trichinopoly, Tinnevelly and Malabar.

5. The trials were chiefly for levying extra cesses from the Ryots, embezzlement, and fraudulent entries in the public accounts. - No offenders were forwarded to

to the Criminal Courts -

There were 11 appeals, in

the whole of which the

was confirmed.

In the foregoing communication the Board of Revenue and the Commissioner for the Northern Circars report upon the balances of Sewoy Jummah outstanding in the Districts under their respective control in conformity with the call made upon them in Extract Minutes of Consultation of the 18th February 1851 No. 172 -

2. The report submitted by the Board relates to 14 Districts the balances of North Arcot and Tinnavelly having been separately considered and disposed of on the dates noted in the Margin. No balances of this description are due in the Districts of Tanjore, Malabar.

Fort St. George 28th July 1853.

Malabar and Madura and the total Sum remaining unadjusted in the remaining Districts is shewn to amount to Rupees 83822-12-8 spread over a great number of years of which Rupees 8599-7-6 are considered recoverable and the remainder Rupees 75223-5-2 irrecoverable.

3 The irrecoverable balances are largest in the 5 Districts named in the Margin, those in the first on the list Salem commence in Fusly 1219 1809 10 of 43 years ago, in 5 others they are of small Amount. According to the circumstances under which these balances have accrued to the length of time during which much of them has been outstanding and to the little prospect which exists of their eventual realization as fully explained by the Board in their detailed review of them the Right Honorable the Governor in Council is pleased to accede to their recommendation and to grant authority for the arrears in question amounting to Rupees.

Rupees 75223-5-2 Seventy five Thousand two hundred and twenty three, Annas five and pice two, being written off to Profit and Loss. The Board will instruct the Collectors of the Districts to which these balances relate publicly to notify the remission now sanctioned in order that the Ryots may not be exposed to any exactions hereafter under color of the demands. The public accounts of the several Collectorates being thus under the Sanction now conveyed disencumbered of these unprofitable entries it is trusted that the Sevoy Summa will hencefoward be realized and any balances that may occur in it be disposed of with the same regularity as the ordinary Revenue.

4 In the balances now remitted is included a large sum on account of Enamatty Tuffseek in the Cuddapah District which the Board in para 19 explain to be an imposte levied by an order of Colonel Munro, 24th August 1801, from all

Fort St. George 28th July 1853-

all Enamdars according to the pro=portion which their Enam might bear to the expenses of the Tank re=pairs after deducting the Jodigy. On complaints being preferred to Colonel Munro regarding the hardship of this tax orders were given for its re=mission, but the Budwail taloob not having been specified in those orders the imposts has continued to be levied though its Collection has on several occasions been suspended in conse=quence of the complaints preferred by the Ryots. Under these circumstances the Board recommend that the Tax should altogether be relinquished both in that Taloob and in any other part of the District where it may be enforced.

5. It is observed that in Extract Minutes of Consultation of the 11th May 1852, the Government concurred in the propriety of requiring the Enamdars holding lands under the Sin=ganamulla Tank in Bellary to contri=bute a fair proportion of the expense of its repair, the payments being made easy to them by small annual instalments on the actual cultivation while

Fort St. George 28th July 1853-

while therefore the Governor in Coun=cil under the circumstances now represented approves and sanctions the abolition of the Enamatty Tuf=feek referred to by the Board which appears to be a partial impost confined to only one Taloob of the Cuddapah District, he desires that it may be understood that its re=linquishment has been allowed on special grounds wholly irrespective of the general question touching the liability of Enamdars to be called upon to contribute to the repair of works of irrigation by which their lands may be benefitted.

6. In the five Districts falling under the Superintendence of the Commissioner of the Northern Cir=cars the state of the accounts relating to the Devoy Dumonah is neither clear nor satisfactory. After much and frequent cor=respondence with the local Officers the Commissioner has been enabled to draw up a State=ment representing as nearly as

possible the true state of the account.—
It appears that the Demand on this
head both arrears and current at the
commencement of Fasly 1260 amounted
to Rupees 39,73,022 that deducting Col.
Sections and Sums remitted within
the year Rupees 52,443 the Balance

8th The large sum appearing in
Masulipatam is composed chiefly of
a Interest on arrears of Peishcush due on
Estates which have reverted to Govern-
ment and of b balances due by the Ryots
of such Estates. Only Rupees 4,015 are
expected to be recovered and the Collector
recommends that the remainder should
be written off at once. The Commissioner
thinks that in the present unsettled
state of the Country it would be better
to defer this measure until the Collector
has had time to bring the accounts into
a state of greater accuracy and the
Government agree with him. The balances
against the Vafsareddy Estates must
under any circumstances remain in the
public books awaiting the issue of
the proceedings now pending in the

9. The Commissioner in circulating his remarks to the Collectors in the Northern Circars has desired that their Statements of Sevoy Jummah for Fusly 1261 may be carefully revised accordingly. The Right Honorable the Governor in Council requests that the Commissioner in submitting the Settlement Reports from the Districts under his superintendence for Fusly 1261 will forward these revised Statements and explain in the case of each District what proportion of the balances may be written off at once as irrecoverable and what must lie over for the present.

From the Secy. to Government Reviewing the Tabular report on the lapsed Enams in the District of Tanjore.

No. 828.

Extract from the Minutes of Consultation Under date the 16th July, 1853.

Tabular report on the lapsed Enams in the District of Tanjore dated 9th May and Submitted with the remarks of the Board of Revenue 20th June 1853.

1. In all the three cases submitted in the above report the Enams were conferred by Sunnud of a date anterior to that prescribed in Section II Regulation XXVI 1802 and were in the family of the Original grantee at the time when that enactment was passed. They are therefore Extract Minutes Consultation 9th May 1848 Para 8, not thenceforward subject to interference or resumption and are exempt from the operation of the rules respecting adoption contained in Extract Minutes Consultation

Fort St. George 28th July 1853.

Consultation 18th September 1851 and 16th March 1846 and they can only remark to Government as other landed property would by escheat on an utter failure of heirs entitled legally to inherit.

2. In the first case there would seem to be some doubt as to the validity of the alleged adoption of Seevalala Butgoosawmy by the late Meenaboye which should be cleared up. If the adoption was of such a nature as would pass to S. Butgoosawmy the property of his adoptive Mother generally it should be recognized as regards the Enams otherwise they must be treated as escheats and lapse to Government. The Collector will make further enquiry on this point and decide accordingly.

there seems no ground for interference. If the adoption was well and duly made the adopted son will inherit otherwise the widow will be entitled as heir to her late husband.

Sir,

Bd. No. 1775.

From the Coll.r & Magistrate of Bellary.

I have the honor to submit for the orders of the Board of Revenue a report of misconduct in the part of two Tahsildars in their capacity of Heads of District Police which seem to me to require more punishment than I am authorized to inflict.

Reports the misconduct of the Tahsildars of Cumply and Gooty in their capacity of Heads of Police. The one for manifesting a want of proper activity in consequence of which a gang of ruffians escaped apprehension; the other for gross dereliction of duty in combining to suppress evidence whereby a Criminal has escaped conviction and recommends that a fine of 30 Rs. be inflicted on the former and a fine of 100 or 130 Rupees on the latter Tahsildar.

Case of Sevaramapah Tahsildar of Kumplee.

2 On the 4th April about Midnight an attack was made by a gang of about 12 persons upon a dwelling inhabited by some of the Civil Engineers people employed on the Darojee Tank repairs. the gang assaulted some of the inmates with sticks. The Tahsildar was at the time occupying a house about 18 yards only distant from the house where the assault was made, but the assistance he rendered was too late to be effectual and no one of the ruffians was seized

seized though 12 are said to have been there. The Com=plainants stated the Villains were in the house for an hour - some say ½ an hour, some less and one of them the Civil Engineers Maistry has not failed to state his belief that the Tahsildar was privy to the assault. A careful enquiry has been made into the matter and the Head Assistant Magistrate was sent by me to the spot. But I can see no grounds for imputing such baseness to the Tahsildar, as being privy to such an act. The time the ruffians were said to have been in the house has been greatly esc=aggerated - But there was no doubt a great noise made and this roused up the Tahsildar and the Paishkar, and the Yelladar (inhabeting neighbouring houses between that occupied by the Tahsildar and the Engineer's people and closer therefore to the latter than where the Tahsil=dar was) and also a Duffadar and four Peons who were all the Peons the Tahsildar had with him, and they were on Guard over Cash amounting to 2,000 or 3,000 Rupees. The Tahsildar seems at first to have thought the noise to have been a drunken affray among the work people, but he went out meeting the Peishkar and Yelladar who at

at the same time were aroused and came out but the Villains had gone off. I cannot however but think that had the Tahsildar shewn greater activity he might have succeeded in apprehending some of the robbers and his not having succeeded in doing so has laid him open to severe reflection, and I am of opinion that this apparent want of zeal manifested on the occasion in question requires for the credit of the Police, special notice by a marked and severe fine and I would recommend that the fine be 30 Rupees.

3. The Civil Engineer Major Henderson has interested himself in this matter and I had intended to have referred it with the many other Charges that Officer has been making against this Tahsildar. But Major Henderson has now requested that the matter may be kept distinct and not mixed up with other acts of alleged misconduct against this Tahsildar complained of by him and I have therefore complied with that request because those Complaints are still pending, and as yet I have not been able to discover any sufficient grounds for punishment except in the matter now reported.

Sevaramapah

Sevaramapah is a new Tahsildar and a man of activity and zeal. But in the present instance is to blame and I think it necessary to mark with severe displeasure this want of zeal and activity as a warning to other Police Officers under similar circumstances.

Casee Row Tahsildar of Goty.

4. The Complaint I have to make against this Tahsildar is of a more serious nature as it involves a dereliction of duty in allowing too easily a rascal to escape punishment by com=promising a theft.

5. On the 24th February last my Summabundy Camp was pitched at Amidial I was myself at another place and did not return un=til the 27th to Amidial. On the 24th about 10 Clock forenoon one of my Peons Lealmeyah snatched a Gold Necklace from the neck of a Child, the Grand Daughter of Roghoonatha Row, Head Goomastah of my Hoozoor Cutcherry; a hue and Cry was im=mediately raised; the thief was pursued; and one of the pursuers a Talary was seized as if he had been the thief, but he immediately exculpated himself and soon after

after Lealmeyah was caught. The Necklace was not found on him - but the Child recognized him. He was taken up by the Tahsildar, who with one or two others took him to the House occupied by the Head Goomastah Raghoonatha Row, the Grand Father of the Child and head of the family - an investigation then took place but what happened is not known positively - but there is little doubt that it was then arranged that the Necklace should be restored by the Prisoner and he released. The Prisoner was therefore sent out with a Couple of Peons on pretence of shewing somebody else, who as the prison=er states he saw running away. The Prisoner was not brought back; Nothing it is asserted being found - short=ly after a Member of the family comes to the Tah=sildar and says the Necklace had been found - that the mother of the Child stated she had taken it off the Child's neck and had been at the well and on her return home / a period of nearly 2 hours having elapsed since the hue and cry took place / she heard of the necklace having been missed - and then said she had it. The Tahsildar took a deposition from the youth Ramrow son of Raghoonatha Row to this effect and released the prisioner; and there let the matter rest and did

died not even report the matter to me.

6.

But my Duffadar on my return on the 27th to Amidial did report the matter to me and I immediately instituted an investigation and had positive proof of the fact of the theft and committed the Prisoner to take his trail before the Criminal Court charged also with other Crimes which subsequently appeared against him.

7.

During my investigation I had to encounter the difficulty opposed to me from the lying testimoney of Raghoonatha Row and the Members of the family who to use the words of the subordinate Criminal Judge "having reconciled matters with the prisoner on the promise that the stolen property should be restored to them did not feel at liberty to reveal to you the circumstances which they had discovered in confidence from the prisioner and therefore concealed the matter by subterfuge and gross lying when examined on the subject of the theft."

8.

And this denial of the theft which was patent to every one but the owner of the property and those who should

should have prosecuted has notwithstanding the other strong evidence led (as a necessary legal consequence) to the acquittal of the Prisoner of the Charge. The case was tried in the subordinate Court by Subordinate Judge Mr. Clarke but in consequence of his absence was disposed of by the Pundit Suder Ameen in charge whose report of the Case is herewith sent. It will be perceived that that Officer is of opinion "that the prisoner may have perpetrated the theft"; but there was wanting the direct testimony of the owner of the property that a theft had been committed. This in consequence of the false evidence they chose to give could not be proved.

9.

Mr. Clark the Subordinate Judge (as will be seen) from his letter of 15th June is much more positive in giveng his opinion. That the theft was committed by the prisoner Laulmeyah (writes Mr. Clarke) "I entertain not the slightest "doubt and I am further of opinion that the Head "of Police of Gooty combined with the said "Raghoonatha Row and suppressed the evidence in "order that the prisoner should not be convicted of the "charge laid against him has been therefore guilty of.

of gross dereliction of duty."

10. Had it not been that my other peons brought the matter to my notice immediately on my return to Amidial I should have heard nothing of the matter for the Tahsildar did not even report what had happened exculpating himself on the ground that there was no case to report.

11. I was anxious to have the opinion of the Court before whom the Case was tried before reporting this gross dereliction of duty on the part of the Tahsildar to the Board But as Mr. Clark quite coincides with me in the opinion I have formed of the Tahsildar's conduct, I have now the honor to submit this act of misconduct for the orders of the Board for such notice and punishment as the Board think sufficient.-

12. A Copy of the letter of the

No. 1 Subordinate Criminal Judge dated 15th June

No. 2 is herewith enclosed together with the report of the case in the subordinate Court by the Pundit Sudr ameen

ameen to which I have attached a List of the Names

No. 3. of the Witnesses.-

13. In awarding punishment to Casee Row it is proper to state that he is one of the oldest Tahsildars in the District having held the Office of Tahsildar for a period of 36 years. He is an active smart man, and I have nothing particularly to bring against him. He on one occasion in 1847 incurred the censure of the Foujdaree Udalut and was removed to a lower Talook but I believe the Magistrate did not coincide in the opinion of the Court and on the other hand he was honored by Government in 1840 with a reward of a Gold Bangle for Meritorious service in his Police Duties. The temporary removal of him from the Talook would be only attended with inconvenience and if the Board should think a severe fine sufficient punishment I would recommend that the fine be heavy not less than 100 Rupees or a Months salary which is 130 Rupees.

No. 296

To C. Pelly Esq[re]
Magistrate of Bellary.

Sir, In compliance with the request contained

Fort St. George 28th July 1853

contained in your letter dated 2d Instant I have the
honor to offer the following remarks regarding the case
of theft in which Woozoor Beon Lalah Meyah
was concerned, and which was disposed of by the
Pundit Sudr Ameen during my absence last month.

2. After a careful consideration of
all the facts of the case in evidence it appears
to me, that the owner of the necklace Ragu-
nath Row and his son Ram Row having
reconciled matters with the Prisoner on the
promise that the stolen property should be
restored to them, did not feel at liberty to
reveal to you the circumstances which they
had discovered in confidence from the
Prisoner and therefore concealed
the matter by subterfuge and grossly
lying when examined on the subject of

Fort St. George 28th July 1853

of the theft that the theft was com-
mitted by the Prisoner Lala Meyah
I entertain not the slightest doubt
and I am further of opinion
that the Head of Police of Gooty
who combined with the said Raganath
Row and suppressed the evidence in order
that the Prisoner should not be convict-
ed of the Charge laid against him has
been therfore guilty of gross dereliction of duty.

years of age in a lane crying that the 12th Witness then asked her the reason of her crying when she told him (13th Witness) that a thief had snached her neck Ornament from her that he 13th Witness was then told by the 12th Witness to go in search of and apprehend the prisoner That the 1st Witness then seized him and brought him before the Head of Police before whom he repeated the same circumstance mentioned above the Head of Police then sent a few Peons to accompany him for the purpose of apprehending the prisoner that he (13 Witness) traced the prisoner and pointed him out to the Peons that accompanied him that they (Peons) apprehended the prisoner and brought him before the Head of Police when the Girl who then saw him identified him as the person who snatched the neck Ornament from her person The 12th Witness in contradiction to this deposes that as she and 13th Witness were proceeding along a lane that they saw a Girl crying and although they frequently questioned her as to the reason of her crying could get no answer from her that she (12th Witness) did not see the prisoner running away—

8 The 8th Witness states that the prisoner mentioned to him that the Head of Police had unjustly accused him of having stolen the Ornament and further adds that the 8th and 9th Witnesses took the prisoner to the house of 15th Witness—

9 The 15th Witness deposes that hearing an uproar caused by the neck Ornament being stolen from the person of his grand-daughter he left the Cutcherry and proceeded to his house— that the prisoner denied the charge before the Head of Police That a short time after this his daughter-in-law (18th Witness) who had gone to a Bourie Returned from thence and told him that she had the neck Ornament with her—

10 The 16th Witness states that he heard a noise and was told that the neck Ornament belonging to his niece had been taken away that he then proceeded to the Cutcherry and there saw the Head of Police instituting an inquiry into the affair That a short time after this his sister in law who had gone to a Bourie returned from thence when he mentioned to her the loss of the Ornament She then told him she had taken it away with her and delivered the same over to him (16th Witness)

11 The 17th Witness states that when he was at the Cutcherry he heard there that the neck Ornament on the person of his daughter had been taken away — that a short time after this he went to his house where he was then told by his wife (18th Witness) that She had the Ornament in her possession — The 18th Witness confirmed the statement regarding her made by the 13th 16th and 17th Witnesses and further adds that on her away to the bourie she removed the neck Ornament from her daughter who was playing outside the house and which she retained in her possession

12 The 19th Witness (Head of Police) states. That he heard it mentioned by some person that the Neck Ornament belonging to the Grand Daughter of 15th Witness had been taken away by some person — that he sent some Peons to seize the thief and they brought the 13th Witness) who said that he was not the thief but could point out the individual — he (19th Witness) then sent some peons to accompanying the 13th Witness and they brought the prisoner who denied the act and said that he saw some one running away — He (19th Witness) then sent some peons (8th & 9th Witnesses) with him to point out the thief — they (8th & 9th Witnesses) returned again with the report that no person was pointed out by the prisoner to him and that although search was made for the Ornament it was no where to be found — that the prisoner was placed under the Custody of the said Peons (8th & 9th Witnesses) when he (19th Witness) went to bathe — that the 16th Witness then came and informed him that the 18th Witness told him that when she was going to the bourie she saw her daughter playing alone outside the house and fearing that some body might take away the

The Court in taking all the above circumstances into consideration after mature consideration is of opinion that there are reasons to think that the prisoner may have perpetrated the theft but that the reasons would only carry weight if it is proved that the theft has been committed before the charge of the crime could be established against the Confidential Servant. The fact of the theft is not fully established against the prisoner altho' there are strong grounds to think that a degree of guilt attaches to the Party yet to punish for more presumed reasons would be unjust. For these reasons the Court is of opinion that there is not sufficient ground to find the prisoner guilty—For these reasons the prisoner is acquitted of this charge.—

Proceedings thereon

The Board of Revenue under the circumstances brought to notice in the foregoing letter sanction the infliction of a fine of Thirty Rupees upon Sevaramapah Tashildar of Kumplee and a fine of 100 Rupees upon Casee Row Tashildar of Gooty

Board of Revenue.—

B. of N. 1803.

From the Collectors of Bellary.—

With reference to Board's Proceedings of 21st April points out the difficulty of obtaining an account of the entire Enam held by all petty Enamdars and requests further instructions for the preparation of the account called for Objects for reasons stated to the standard of limitation within which Enams are to be excluded from all enquiry suggests a money standard in lieu. But thinks it would be better to have a full enquiry into the Rent free lands previous to passing orders for exempting any from enquiry.

× 9th March 1853

Sir,

I have the honor to acknowledge the receipt of Extract Proceedings Board Revenue 21st April last, requesting me to forward a report on the question mooted by Government "whether all Enams entered "in the public Accounts at an extent "below two Cawnies might not hence"forth be wholly exempted from "interference on the part of Government "either in respect of their present "enjoyment or future disposal." The Board further desire to have a Statement exhibiting the proportion of these Enams to the whole Enam Ayacut of the District.—

2. The order has reference not to the Enams as entered merely each Village account but as I understand from the Minutes of Consultation + forwarded

forwarded with the Board's order to the entire Enams posessed by the party.

3. It would be extremely difficult if not almost impossible without a very minute investigation to obtain a correct account of the Entire Enam held by all the petty Enamdars. A great many belong to persons who have a field here and a field there in different Villages and different Talooks - and to find them all out would be a difficult task. No list of Enamdars with the lands posessed by each has ever been made. It could only be done by requiring by proclamation all claimants to come and register their lands. But to prepare an account shewing the relative proportion of these small Enams to the whole Ayacut on the principle of taking an Enam in each Village as a separate Enam is quite feasible and an account might be prepared in the course of a few months. I must therefore request the Board's further orders in respect

respect to the preparation of the statement called for and I request also to be informed whether an Enam which, as entered originally in the accounts, is of an extent greater than the limited amount, but which has subsequently been subdivided among members of the family into shares, each of which respectively would be within the limited amount, is to be exempt from enquiry on that ground, or to be considered as one Enam and subject to investigation.

4. With regard to the question whether all Enams entered in the accounts at an extent below two Cawnies might not be wholly exempted from interference. I beg to state my opinion that I am in favor of the principle that petty Enams generally should not now be interfered with by Government. But I do not think that the standard for limitation is a correct one - or that any great amount of labour will be saved to this

Fort St. George 28th July 1853.

this Department by exempting such Enams from enquiry, which I learn from the Board's Proceedings of 6th June last is the object of the State=ment called for—

5. The standard should rather be regulated by a money valua=tion of the Enam than by the extent in land— Two Cawnies of irrigated land might be valued at about 20 or 30 Rupees perhaps, and there proba=bly are several such small Enams— Two Cawnies of Dry land would not be worth, in innumerable instances, more than one Rupee and even much less— and I think I may safely as=sert there are but very few Enams of such a small extent in the Dry lands of the Ceded Districts— If however a money valuation standard is objected to, there should be a decided difference made between the Extent of Dry and Irrigated lands— The Enams which comes under the present enquiry in the Bellary

Fort St. George 28th July 1853.

Bellary District are for the most part situated in the Dry lands— They are classed as follows—

	Acres	Assessment Pagodas
Dry land Enams	634066	233836
Garden— Do.	4973	8208
Wet— Do.	22891	67468

Jamadary	57500	37776
Kayem Jodgly	16825	5310
Jahageerdar	46563	13918

6. But in place of laying down at present any particular standard within the limits of which no investigation should be held, I would rather at once have a full enquiry made into all the Rent free lands of this District, which are very extensive, and after ascertain=ing the rights of the parties holding them

them to pass orders in each particular case— The present system of enquiry on the death of the holders is an endless work, it is also vexatious and renders the tenure of all Enams very unsatisfactory to the professors— But a full investigation into the matter would once for all settle the question of right permanently— The Government would know what lands were to revert to the State, and all Enamdars would know the exact tenure on which they were to hold their lands in future— whether permanently or whether for a term of years only— For this purpose it would be necessary however to have a Commission to enquire into the subject—

7. The measure now proposed of exempting Enams of a certain limited amount entirely from investigation would not be altogether satisfactory— By it Enams, that should most properly be resumed as most defective in title would be left unmolested

unmolested, where others, having a far better title simply because they exceed the limited amount, which would exclude them from all control, would come under the process of enquiry and resumption—

Proceedings thereon— The Board consider that a
24.28 Statement of the Extent of Enam land held by each Enamdar would be very valuable, but under the difficulties stated by the Collector, they are inclined to believe that the wishes of Government will be sufficiently met by the preparation of a Statement shewing the number of Enams distinguishing Juree from Koodukee under 2 Cawnies and their actual total extent as Compared with the total Enam Ayacut of the District—

2. Enams of more than 2 Cawnies in the Sunnud or Pymash Accounts are not to be considered as less than 2 Cawnies if since subdivided—

3. Mr. Daniell's attention is called to the Board's Circular of 6th June 1853—

4. The other subjects discussed in the Collector's letter will receive the consideration of the Board when reporting to Government—

Sir,

B. 3d Oct. 1770

Messrs. Cockburne Esqre & Co. Para 1 Advertising to Para 9 of Colonel Bell's of Chingleput's Proceedings of the Board of Revenue under date the 30th August last requiring information in relation to the proposed abolition of certain Abwabs levied at the Pollams in the Kurnool District

I am directed by the Board of Revenue to transmit to you the accompanying Memoranda by the Board in reply to Mr Maclean's report dated the 9th June 1838, the Collector then in charge of the District) wherein he has annually recommended the Levy Mr Maclean for abolition through equalization of Assessment continued to be collected since they had been subject to Land Tax for Arrack Farm. The amounts of these taxes are

of these additionally recommended by Mr Maclean for abolition are shewn in the accompanying Memoran- dum. The total Financial result of the Proposals is shewn in the Statement herewith, it will be observed, is a Loss of Revenue to the Sum of Rupees 57022-3-0

convey, on laden Bullocks, Paddy and other articles of trade chiefly from distant parts of the Ootrawad Coast, and Peddapollium Saloots for sale to the shop Keepers at the Towns of Conjeveram, Trivellore &c. They so convey the articles for hire, or as is sometimes the case, they make purchases on their own account and sell the articles to the Bazarmen in question at a trifling profit. In either case however their earnings are but small and barely sufficient for their maintenance and for the feeding of their Cattle. It is also to be observed that the shops where the produce is ultimately sold and the lands on which it is raised are separately liable to tax, and that no tax is levied on draught Bullocks or on Carts on which similar articles are conveyed.- This tax therefore appears both unreasonable and oppressive.-

3 The second in consideration is the tax on fishermen and on their nets.- These are one and the same Item, the tax on nets being levied only at one or two places in the Cavoorgaly Saloot where no separate cess is levied on the fishermen themselves.- The livelihood earned by Parties following this avocation is precarious and scanty, particularly during the rainy seasons.- As a body they are generally in poor circumstances and appear deserving of consideration as regards their future exemption from the Tax.-

4 The last Item of Molturpha which I propose to abolish is the ladder tax where a separate

rent is levied on the Cocoanut and Palmira trees from which Toddy is drawn.- As already explained in my report dated 18th December 1852 the mode of levying this Tax varies in different parts of the District.- In some Saloots where no separate rents are levied on the Palmira trees, the ladder tax levied with reference to the number of trees from which Toddy is drawn seems reasonable; In other Saloots no ladder tax is enforced, the rent being levied on the trees under the Head of sundry small Farms.- In others again a tax on the lands on which Cocoanut trees are planted, and on the Palmira trees as well as a ladder tax on the parties drawing Toddy from both description of trees are enforced.- In the last case, the ladder tax levied from Individuals who derive their livelihood in wages for drawing Toddy and who do not consequently differ from coolies cannot but prove an oppressive exaction.- I propose under these circumstances, to abolish the ladder tax altogether, as an Item of Molturpha Revenue, and to enforce a tax on the Palmira trees alone, throughout the District, at the rates mentioned in my former Report above referred to.- This measure will not be attended with any loss of Revenue and the sum of Rupees 1603-4-- entered in the accompanying Memorandum will be merely a nominal loss of Revenue. while it will be the means of relief to this particular class of people who earn their livelihood by means of their labour.-

Proceedings thereon: Para 1.
(31.32)

The abolition of Items 1-3-4-5-9 & 10 have been already recommended in the Board's Report on Motorpha under date 27th March 1848.—

2 The Poll Tax on Fishermen would appear, with reference to the ready sale afforded by the markets of Madras and out lying Stations, to be as reasonable as the Motorpha or any other occupation and the item No. 10 has fallen off more than 50% from its amount in Fusly 1255.—

3 As the Board understand that the subject of the Motorpha Tax generally is now engaging the attention of Government, and orders may be expected upon it at no distant period, they think it better to defer for the present the submission of the Collector's report.—

Sir,

I have the honor to transmit copy of an Extract from the Proceedings of the Civil Court of Chittoor dated the 8th Instant, informing me that the Court does not consider itself competent to take any Steps towards appointing a Guardian to the Minor Joghiredar of Annee till the Board of Revenue have made a report on

the subject to Government in conformity with the provisions of Section III Regulation V of 1804, and to request the Board will favor me with their instructions on this subject.—

2 In para 6 of the Court's Proceedings, the Court has termed my report an application to the Court to appoint a Guardian—I beg to remark that the report conveys no application—I reported the circumstances of the case to the Court, and informed the Court that the Board of Revenue had declined to act in order that the Civil Judge might proceed under his powers in such way as he might deem proper.—

Extract from the Proceedings of the Civil Court of Chittoor under date the 18th July 1853.—

Read again letter from the Acting Collector of North Arcot under date the 2d June 1853 stating that the Board of Revenue directed him to communicate to the Civil Court, as proposed in the 5th Para of his letter to them of the 19th May 1853, the death of the Jaghiredar of Arnee and the fact of his eldest son not having attained his majority, and transmitting copy of his letter to the Board of Revenue dated 2d May last, reporting the Jaghiredar's demise with copy of Paras 1 to 5 of his letter dated 19th May 1853.—

Read

Fort St George 28th July 1853

Read again return from the Acting Collector of North Arcot under date the 6th Instant to this Court's Precept of the 28th June 1853, stating in reply to this Court's call for further information and for Copies of the remaining Paras of his letter to the Board of Revenue, &c. that the Jaghire of Arnee is continued to Srimut Row Saib the eldest son of the late Jaghiredar, the Jaghire is held as an hereditary possession subject to the annual payment of Rupees 10,900 to the Government, that the gross rental of the Jaghire is estimated at Rupees 90,000 and that he has no information, as to the extent or value of the personal property not of any real property exclusive of the Jaghire, and transmitting Copy of the Board's proceedings dated 30th May 1853 conveying the instructions referred to in para 1 of his letter to the Civil Court dated 6th June with Copies of the list of relatives and Summons granted to the late Jaghiredar, and also stating that he has no Copy on his records of the letter addressed by the late Jaghiredar to Government, that the Board of Revenue have not communicated any orders of the Government in the present case, and that the remaining Paras of his letter dated the 19th May last relate to certain points not relevant to the matter, on which the Acting Collector reports to the Court.—

It

Fort St George 28th July 1853

It appears from this return that the orders of Government in this case of the minor son of the late Jaghiredar of Arnee have not yet been communicated to the Acting Collector. In Section III Regulation V of 1804 it is enacted that in all cases like the present a Report should be made by the Board of Revenue to the Governor in Council to the end that the decision and orders of the Governor in Council may be passed thereon, and until these orders are received, the Court conceives that the Question as to whether the estate shall be taken under the charge of the Court of Wards or not, cannot be considered to have been definitively settled.-

In accordance with the construction of the Court of Sudr Udalut conveyed in their Proceedings of the 30th April last, the Court can only appoint a Guardian to a minor inheriting an estate paying Revenue direct to Government, in cases where it has been decided that it shall not be taken under the charge of the Court of Wards, but as with reference to the foregoing remarks, this point does not appear in the present instance

to

Fort St George 28th July 1853

to have been duly determined; the Civil Judge considers that he is precluded from making any further enquiry, or taking any steps towards appointing a Guardian to the minor son of the late Jaghiredar of Arnee in pursuance of this application, until the decision of Government be known, and communicated to this Court by the Acting Collector

This result is attained exclusive of the Moottah of Hanttoo-poottoor, and if that be taken into the Statement there will be a total increase upon the past Fusly of Rupees 3645-3-3. as here shown.

707-10-9

Under this head there is a decrease of Rupees 707-10-9 resulting chiefly in the rent of Grass in the Ditch of the Fredrickspoly Fort, by the limited sale of Dunbah grass and by a falling off under the items of Hill rent and fisheries.

Motumpilla 5 In the Motumpilla which is comprised for the most part of taxe on Looms and Bazaars, there is an increase of Rupees 180-8-2- and which would appear to call for no especial notice or detail, being of an usual nature.—

Stamps 6 The stamp Revenue exhibits an increase of Rupees 4409-12-" which is attributable to the operation of the Act N° XVII of 1848 under which Stamp Paper is substituted for an institution fee in the Courts of the District Moonsiffs and perhaps to greater litigation during the past

Kauttroopattoor Moottah-
Ale Karry

past twelve months:-

This Source of Coctroi Revenue is, as your Board are aware, incorporated with the Salem Farm, and granted under a lease for three years, on a rent of Rupees 520 per annum, consequently calls for no notice.-

Moturpha

There is a small increase of Rupees 22-9-10 chiefly in the Loom and Bagaar taxe and which calls for no detail.-

8.

Statement No 3.

Of the total Demand on account of Coctroi Sources of Revenue for the year under report Rupees 59,452-1-.. the sum of Rupees 58,112-..-2 has been realized within the Fasly on the 11th Instant, leaving a balance of Rupees 1340-..-10½ and this sum will be collected in a few days.- No old balances are outstanding under any of the Heads of Revenue embraced in this report.-

The Ale Karry demand, on account of the Kauttroopattoor Moottah is realized by the Salem Collectorate; there is a small arrear of Rupees 90 due, which I fully anticipate will be realized in the course of this Month. Probably the sum is already paid up at the Salem Treasury, but there has not been time for me to be apprized and I have to report the entire collection of the Moturpha taxe due from the Estate.-

11

Under the head of Moturpha there is a charge of Rs. 199-11-11 this sum was included in the Peishcush of the Kauttroopattoor Moottah, as on the Peishcush originally fixed, at the Permanent Settlement but this branch of the Revenue having been resumed by Government, the amount in question was subsequently deducted from the Rists of the Estate, and this reduced the Peishcush to Rs. 15,901-7-11. The Permanent Basis of the Moottah being composed of both Iyen, and Moturpha, the total Peishcush Rupees 16,101-3-10 was entered in the accounts and the difference Rs 199-11-11 constituting the Moturpha portion of the Bases exhibited as having been wholly collected and remitted, and then brought under the head of charges.

Read again Petition 1700 of 1852.

Read Petitions 1281 and 1292 of 1853, from certain ryots of Dagoovareddy and chouda agraharum Villages attached to the Calastry Pollems.

Complaining of the oppressive conduct and

Fort St. George 28th July 1853

and exactions of the Poligar and seeking that redress which they allege has been denied them by the Acting Collector.

Ordered that the following Endorsement be passed on Petitions 1281 and 1292 of 1853.—

Petitioners are referred to the Acting Collector's Endorsement 11th June 1853. It is therein correctly decided that puttahs must first pass between complainants and the Zemindar before any enquiry can be instituted into alleged exactions by the latter. If the Zemindar decline to grant puttahs on the application of the ryots, the Revenue authorities can be applied to under Section II Regulation V of 1822 and Section VIII Regulation XXX of 1802.

No. 46.

To B. Cunliffe Esquire
Sub Secretary to the
Board of Revenue,
Fort St. George.

(24)

Bd. No. 1638

From the Acting Colr. of North Arcot

Para 1.

Sir,

With reference to your letter of the 28th April, observing that the Petitioners Buddoo Babee (also called Rookumbeebee) and Mahabeebee, the daughters of Muckdoom beebee, are described in the letter from the Collector to the Board dated 8th October 1842 as having been dependent for their maintenance on their late Mother "on whom a Pension of 40 Rs. was conferred partly in Consideration of the number of individuals looking to her for support" and requesting me, with reference to the Statement made by the Petitioners that by the death of their Mother they are left unprovided for, to take their case into Consideration and submit a recommendation with the view of an allowance being granted them; I have the honor to propose, in Compliance with these instructions, that + 3/4 of the allowance enjoyed by the late Muckdoom Beebee be continued to the present Claimants and to their Brother Emamdeen Khan, the other surviving Child of the deceased.

+ 30 Rupees.

Proposing with reference to the Board's letter dated 28th April 1853 that 3/4 of the allowance enjoyed by the late Muckdoom Beebee be continued to her daughters Buddoo beebee and Mahabeebee and to her son Emamdeen Khan

2. A list of the persons who were said to be dependant on Muckdoom beebee accompanied the Collector's letter of the 8th October 1842 - This list contained the above mentioned Son of Muckdoom

Muckdoom beebee, the present two petitioners with their children, and some other persons dependant previously on Jaffer Ally Khan.

3. Emamdeen Khan, as well as the 2 females, has now applied for assistance. I therefore propose that the allowance above named (30 Rupees) be divided equally among these 3 persons. The other persons to whom I have referred have not appeared to prefer any claim on their part.—

4. In Compliance with the Board's instructions, I think it proper to state that I adhere to the opinion expressed in my Endorsement on Petition No. 584 of 1853, that the present parties have no proper claim upon the Government.— Their mother was related to Jafferally Khan in a direct line, but the Petitioners are not lineally connected with him either as descendants or ascendants. I conceive that this is a sufficient ground for rejecting this claim, as it is not expected of the Head of a family as a general practice, that he should support all the collateral branches from a common ancestor; and it is not reasonable to demand of the Government that they should follow a Course in this respect, which would not be followed by the person to whom their bounty was originally extended.—

5. I do not understand that a pension was conferred on Muckdoom Bibee as

as stated by the Board, "partly in consideration of the number of individuals looking to her for support." The entire pension was granted to Rahitnipah alias Tippoo beebee, "for the support of herself and the grand mother Muckdoom beebee;" but in the dividing of this pension on the marriage of Tippoo beebee, the proportionate share allowed to Muckdoom beebee was determined by a consideration of this kind. The grounds for fixing this share at 40 Rupees are detailed at length in the Collector's letter dated 8th October 1842.—

Vide M.C. 12th March 1839 No. 355.

6. One of the Children of Emamdeen Khan named Abbas Bee has petitioned for a share in the pension; but I have not included her with the other three as a separate provision is proposed for her father. It will however be a question hereafter whether this person and the other descendants of the son and daughters of Muckdoom Beebee, whose names are entered in the list, will not have a claim to a Continued provision in their own names at the death of their parents, if the grounds on which pensions are now proposed for the latter should be admitted.

North Arcot, Collector's Cutcherry, Chittoor, 24th June, 1853.

(Signed) R. A. Brett.
Acting Collector.
