case, left in the records of my depart-
=ment by my Predecessor Assistant Surgeon
Scott, who has returned to Europe, as
well as from conversations I had
with this Medical Officer previous to
his quitting the Station, that Mr. Cochrane
was then suffering under pyrexial
symptoms of an urgent nature simi-
=lating Remittent Fever and which
attacked him while on Circuit in his
District, wholly incapacitating him
from the performance of his duty and
rendering his removal from this station
on the above date, Viz.t from the 25th

The Right Honorable the Governor in Council confirms the sale of the land reported in the foregoing Proceedings.

2. He would however take this opportunity of remarking that as land at Madras is valuable, and is daily becoming more so, great caution should be observed in its disposal. He therefore requests that in submitting any future applications for purchase, the Collector will report distinctly the object for which the ground is required whether the use to which it will be put will be productive of any public inconvenience whether the land is likely to be useful for any public purposes, and whether therefore it would be desirable that the Government

Government should retain it for their own service, and not allow it to pass into private hands —

No. N.-2623
From the Coll.r of Bellary—

Sir,

I have the honor to bring to your notice the following Extract from the Minutes of Consultation dated the 2d of November 1852—

The Right Honorable the Governor in Council is pleased, on the recommendation of the Civil Board to accede to the application of Mr. Brooke to extend from the period of 3 years within which it is open for Junior Civil servants to obtain the Honorary Reward time / 14 Months / of his absence at the Cape of Good Hope and sea on Medical Certificate—

2.

I have availed myself of the indulgence granted by the above Extract and for several Months back have been solicit permission from Government to come down to Madras under section 19. Title II. of the Rules of the College of Fort St. George, to offer myself as a Candidate for the Honorary Reward—

3.

As the allotted time allowed me for becoming qualified for the Honorary Reward has nearly expired, I hope Government will allow me leave of absence, under Section 9 Title II. of the College Rules to commence on the 20th of October 1853

4.

I beg to bring to your notice that I have applied to the College Board for permission to offer myself as a Candidate for the Honorary Reward under Section 19 Title II. of the Rules of the College of Fort St. George—

Bellary—
27th Sept.r 1853 } (Signed) J. Brooke

The Collector begs to recommend that Mr. Brookes application for leave be complied with to enable him to undergo the examinations for the Honorary Reward within the period limited—

No. 238.

To W. H. Bayley Esqre
Secretary to the
Board of Revenue.
Fort St. George.

20

Sir,

Bd. No. 2365.

From the Collector of Cuddapah— affording explanation on certain points called for in the extract from the proceedings of the Board of Revenue dated the 17th February 1853 regarding the annual Settlement of Fasly 1261—

Para 1. With reference to Paras 7 and 15 of the extract from the proceedings of the Board of Revenue dated the 17th of February last conveying their remarks upon the annual Settlement report of Fasly 1261 requiring explanation on certain points therein referred to, I have the honor to forward the explanations called for—

In para 7 it is remarked that

2. there are discrepancies on three different points as shewn in their marginal figured Statements; the first Rupees 6—3, the 2d Rupees 18—6—7 and lastly Rupees 28 or rather Rupees 27—13—4. With regard to the first item certain enamdars liable to pay Jody in two of the Jodighy Villages belonging to the Shaitwar Taloork died without issue their Enams were resumed and incorporated with circar lands consequently

Fort St. George 3. October 1853

consequently a decrease of Jodigy to the amount of Rupees 3-8-11 in Bakarapooram and Rupees 2-7-4 in Velagacherla and Mungamamba pooram total Rupees 6-1-3 has arisen in under the head Koyem Jody, as observed by the Board.-

3- With respect to the second item Rupees 18-6-7 in which occurred in three Villages, it is to be remarked that the amount of collections after deducting remissions in the resumed lands in the aforementioned two Villages is Rupees 12-8-7 as shewn in the margin, which being added to another item of Rupees 11-14-3 amount collected on Enam lands in the Village of Jillalamadaka Agraharam consequent on the demise of a Sunna Enamdar without issue, makes a total of Rupees 24-6-10. Of this sum the amount of Jodigy payable by the two individuals abovementioned being deducted, leaves a balance of Rupees 18-6-7, the amount remarked on by the Board.-

Bhattara pooram	6-6-3
Velacherla Illum-ganam-bapoo-ram	6-2-4
Total Rs.	12-8-7

4- The third item Rupees 3 for Fusly 1260 and Rupees 28 for Fusly 1261 are accounted

Fort St. George 3. October 1853.

accounted for in the following manner.- The Sunna Enamdars in the Agraharam Villages of Cumpasamoodrum and Jilla Lamadaka having died without heirs, their enam was attached and included in that of the Circar, the Amount of Assessment due thereon after deducting the usual remissions Viz.t A.s 10-6 in the former village and Rupees 2-12-4 in the latter making a total of Rupees 3-6-6 were included in the demand- hence the increase in these two Villages during Fusly 1260.- This sum being added to Rupees 24-6-10 alluded to in the former para shews an increase of Rupees 27-13-4 for the succeeding Fusly 1261.

5- Adverting to para 15 wherein the Board state what they consider to be the definition of Poyacaries and further request to be informed why the number of Jody pattahs is so much smaller and disproportionate to the number of Byoto- I have the honor to offer the following explanation.-

6- From the marginal figured Statement it appears that two Poyacaries are from the Gillah of Madura and three from the Dharwar who the Board consider ought

Fort St. George 3d. October 1853.

ought not to appear in this Statement, under the supposition that they have left those districts and have become resident in that of Cuddapah. It may here be remarked that the definition afforded by the Board is precisely what is understood to be the meaning of the word Poyparcary in this District and the parties objected to from Madura and Dharwar come under the definition above referred to as the puttahs are in their names although cultivated and the tax paid by their Relatives or Agents whilst they themselves are inhabitants of the above named Zillahs and seldom or never visit the districts in which the putta lands are situated.

7- With regard to the Jodighy puttahs the Board remark upon the great disparity between the number of Ryots amounting to 13022 and the number of Puttahs 1229 or less than 10 per Cent. In this district the number 1229 represents the number of Villages in which Jodighy is collected whilst 13022 represents the number of persons who pay it, and for each Village one Puttah is granted although

Fort St. George 3d. October 1853.

although the names of all the individuals who pay Jodighy are included in that puttah for instance in the Village of Pauta Cuddapah one puttah is issued for the Jody but in it is included the names of the Reddy, Parnum, Pouroheitum, Cuttoiady, Pot maker, Carpenter, Smith &c. in short all those who are liable to Jody, payable on their enam lands, and this causes a great disproportion between the number of Puttahs and the number of individuals on whom Jodighy is charged amounting to nearly 10 per cent, as shown in the Remembrance of the Board of Revenue.

Cuddapah Collector's Office 2d. September 1853. B. of R. 2083 Proceedings thereon 20.21

Signed H. Murray Collector.

Any fluctuations in the Mogans or Accounts and Summary Statements should be briefly explained in the Settlement Report.

2 The Puttadars alluded to in Para 6 should be entered as ryots, as they carry on cultivation by means of their own resident Agents. The term Poyacaree applies to an individual

B. N. 2096

Circular To all Collectors except Sea Customs Copy to Comm.rs N. Circular

Resolved that the following Circular be despatched.

Sir,

Circular

By a circular order dated 14th April 1853 the Collectors were called upon to report whether it had been the practice in their Districts for the Collector occasionally to make the Summabundy Settlement of the Talooks in the Sub Collectors or Head Assistants' Divisions, and from the Returns now received it is seen that in the great majority of Districts no such practice prevails. In some indeed there is reason to believe that the Sub Division has never even been visited by the Collector since the former office was created.

2. It seems obviously desirable that the Collector who exercises a general supervision over the Sub Collectorate, should not remain without a personal knowledge of that part of his District, although its affairs are administered under the immediate control of his Senior Subordinate Officer, while many advantages might be expected from the affairs of the Sub Collectorate coming occasionally under the scrutiny of the Collector with his larger Cutcherry and more experienced Shenistadar.

3. I am directed therefore to request that it may be considered a standing rule that the Summabundy Settlement of the talooks comprizing the Sub Division of your District shall be made by the Collector at least once

Fort St. George 3d. October 1853

once in every five years, on which occasion the settlement of an equal number of Talooks in the Collector's Division should be entrusted to the Sub Collectors.

4. The same rule is to be considered applicable to those Districts where it has been customary to continue the same talooks under the direct management of the Head Assistant Collectors.

Para 1. The Right Honorable the Governor in Council perceives no objection to the four Villages in the vicinity of Mahé. Viz. Palaur, Pandaguel, Chambana and Chalicaud, and the net revenue of those Villages together with the three detached points or posts of Fort George and the great and little Calaye being made over to the French Government on the understanding that the transfer as regards the three above named points is confined to the points themselves and does not extend to any of the adjacent territory. Mr. Maltby will ascertain from His Excellency Admiral Vervinane whether he is prepared to accept the four Villages, and the three points as above limited, and if so, will instruct the Collector

Collector of Malabar to make them over to any Agent whom the French Government may empower to take charge of them.

2. On the lands being transferred the Collector of South Arcot in charge of the Special Agents' Department will report thro' the Board of Revenue to Government the total amount payable to the French authorities on account of the revenue of the four Villages calculated to the date of transfer, when sanction will be given for the disbursement.

No. 1065.

Extract from the Minutes of Consultation, Under date the 20th September, 1853.

The Right Honorable the Governor in Council proceeds to pass orders upon a Despatch, in this Department from the Honorable the Court of Directors, dated 20th July 1853, No. 3.

1. A Copy of this Despatch will be forwarded to the Board of Revenue for the purpose

purpose of being communicated to the Collectors of Tinnevelly and Coimbatore for their information and guidance.

2. The Government observe that the instructions of the Honorable Court have already been anticipated by the orders of the 9th April and 29th June last directing that pending the reply of that authority to Dr. Wight's general report no fresh purchases of Cotton should be made, and that the experimental farms for the culture of that article heretofore maintained in the Tinnevelly and Coimbatore Districts should be brought to a close. The orders for discontinuing the purchase of Cotton will now be confirmed and no further purchases will be made for Shipment to England.

Revenue Department.

No. 3 of 1853.

Our Governor in Council at Fort St. George.

Paral. We entirely approve your having declined to entertain the proposal of Dr. Wight that all the Cotton grown by the Ryots in Tinnevelly from american seed should be purchased at

Letter dated 5th June No. 26. 1852
Do. 8th July No. 35
Do. 7th Augt. 30 "

at a fixed rate by the Government. There are now it appears individuals connected with Manchester settled in the distrut and if the price at which the ryots can afford to sell the Cotton is greater than it suits the purpose of those parties to give, it is hopeless to attempt to force the cultivation by factitious encouragement on the part of Government.

2. She Statement of Dr. Wight that since the relinquishment of the Government Farms in Coimbatore the ryots have taken to the culture of American Cotton on their own account to an extent considerably greater than during their existence would seem to imply that the time had arrived when the interference of Government could properly be withdrawn, all that is now wanted, you observe is a purchaser on the spot ready to give a fair remunerating price to the ryot for his Cotton and in your opinion this object can only be attained by affording full scope to private enterprize and by abstaining from all intervention on the part of Government.

3. In our despatch of the 4th July

(No. 11)

(No. 11) 1848. we directed that the purchases of American Cotton on the part of Government should not at that time be discontinued observing however "We are satisfied that "no satisfactory and permanent extension of the "Cultivation of American Cotton will be attained "until the persons most interested in its production shall take the matter into their own hands "by locating in the districts, competent agents "empowered to purchase from the Cultivators "such Cotton as may be produced of a description "suited to the wants of the Manufacturers in "this Country."

4. We are of opinion that a sufficient period has elapsed since the date of these instructions for the course of proceeding indicated in them to be adopted and that, if the inducements to engage in the purchase of Indian grown american Cotton for use in this Country are still insufficient, a further preseverance in our efforts to force the cultivation by means apart from the ordinary operations of Commerce can lead to no beneficial result,

we,

we accordingly think that we may properly withdraw from the market as purchasers of American Cotton and we hereby convey to you our authority for gradually relinquishing all direct interference in the cultivation of Cotton, of that description in the hope that it has now reached a point where it may be safely left to private enterprize.—

/Here enter 1st September/53 No. 399

The Board of Revenue submit a letter from the Collector of Malabar furnishing explanation relative to the smuggling carried on between the Territories of the Travancore and Cochin States, and the British Port and town of Cochin.—

The

2. The smuggling is of two kinds. Travancore produce especially pepper which is a Government monopoly in the Sircars is illicitly brought to Cochin and thence exported by Sea. On the other hand Tobacco is stored in large quantities in the Town of Cochin, and as opportunity offers is run into the Cochin and Travancore country to the injury of the revenue derived from the monopoly of the article which is still maintained in both States.—

3. With respect to the contraband trade in pepper it appears from the report of the Collector that he is using his best endeavors to check the traffic but it is perfectly evident from the local features of the place and from the circumstances under which the smuggling is conducted, that such efforts can be but very partially successfully.—

4. In regard to the alleged introduction of Tobacco from Cochin into the Two Sircars it does not appear to the Right Honorable the Governor in Council in what manner the

Collector

Collector can interpose. Since the repeal of Regulation VII 1811 and the abolition of the Tobacco monopoly in the provinces subject to the Government of Fort St. George the trade in that article in British Cochin as elsewhere has become perfectly free as that of grain, or any other commodity. The import and export / on payment of Sea Customs duty if made by Sea / storing, sale transport; and disposal in any way whatsoever of Tobacco is liable to no let or hinderance. The Collector does indeed refer to the large capture of Tobacco made apparently by his servants as it was on the point of being smuggled into the Cochin state from British Cochin but the Government do not understand on what authority this was done. It seems plain to them that whatever measures are to be taken for the repression of this trade must be taken by the Cochin and Travancore Governments themselves within their own Territories, and that the Company's Officers have no

legal power to interfere in the matter.

Ordered that the Extract from the Proceedings of the Board of Revenue, the report of the Collector of Malabar and the above remarks be communicated thro' the Political Department to the Resident of Travancore and Cochin in reference to his letter of 11th May last.

The

Fort St. George 6th October 1853.

The weights used by the Goldsmiths are red seeds called Goongilos and Tolas.

Note
+ These 3 weights are nominal in the accounts only The actual weights used are the Goongilos & the Tola & the Seer

8 Goongilos — + 1 — Massa
12 Massa — 1 — Tola or Rupees
24 Tolas — 1 — Seer
40 Seers — + 1 — Maund
20 Maunds — + 1 — Candy.

As these weights are universally the same throughout the District I have had those at Bellary weighed and they correspond with the above account i.e. 96 Goongilos equal a Rupee weight, and 24 Tolas the Goldsmiths Seer.—

There is no further information to be given respecting the Measures than that given in my letters of 26th November 1851 and 9th December 1852.— But I beg to submit as requested a short Table of the Principal Measures Extracted from the Statement already sent and referred to above.—

To

W. H. Bayley Esqre.

Secretary to the

Board of Revenue

Fort St. George.

24

B. of R. 2646.

Sir,

From the Collector of Bellary — 1 — I have the honor to acknowledge receipt of the Board's Circular of the 13th June last together with 28 Forms for the preparation of the Annual accounts for submission with the Summer Shundy report commencing with those for fusly 1262, and with reference to the 3d Para of the Circular directing me to address the Board in the event of any of the Forms not being applicable to my District, or of any of them requiring Modifications to suit the circumstances of the District, to request the orders of the Board on the following points.

Suggests with reference to the Board's Circular letter of 13th June last accompanied with 28 Forms of Jamabundy accounts certain improvements to be made in these forms

Statement No. 2 — In the Form No. 1 there is no Column providing for the fixed Jodi Villages and Sirna Enams or Jaghire Villages of this District, I request to know whether I am to have additional Cols for these Items or to leave them

inserted in some of the existing Cols if the latter in which —

Statement No. 2 — 3 — At the foot of the Form No. 2 in the particulars of the Grand Total of Col 17 the term Ryots embraces five Cultivating Classes but one of the five is entered as Non cultivating labourers. I think the circumflex is merely a misprint and should embrace only the 4 first heads —

Cultivating Classes: Ryots — Single, Joint, Under Tenants, Labourers — Non Cultivating

No. 7 — 4 — In the Form No. 7 there are Cols to shew the increase of Ayacut brought under Cultivation since the Survey but there is no Col: to shew the decrease. That has also taken place by Circar lands granted in exchange for Enam taken by the Circar from the Enamdars for various purposes. I request therefore to be informed if fresh Cols for this may be inserted without which the Total Ayacut cannot be exhibited in the Statement.

No. 8 — 5 — I understand that the Meyarah and Vuthanah fees that exist in this District, are to be entered in the 10 and 25 Cols of Form No. 8 but if those are not meant I request to be informed what

what items those Cols are intended to contain.—

No. 10 6 In the Form No. 10 under net Revenue provision is made only to shew the Cultivation and waste brought to account To these I request permission to add the item of Vyaact Bowle on account of Second Crop and the item of Suppressed Cultivation brought to account in the Kisthundy.—

No. 11 7 In the Form No. 11 there are Cols for Land and Assessment but none for the Amount of Demand the last mentioned item being one of importance it appears expedient that it should be inserted in the Statement. and with reference to the note appended to the Statement. as fresh heads have to be opened for the entry of the other items, Viz. Apanum Dumgar Ahsandumgar and Sookandumgar which I purpose to open as desired.—

No. 12 8 In the Form No. 12 there is Col for adding Sedee or Quit Rent & to the remaining net Settlement, but the ought to be Cols for the additions of suppressed Cultivation &

after the Summabundy and for deductions on account of Charges for Collections from the Ryots as also for the amount of net demand and I request permission to open fresh heads for these items according to the practice of this District.—

No. 13 9 The detailed accounts of Fusly 1262 being already closed this Statement according to the Board's Form cannot be prepared this year; the usual Comparative Statement No. 2 will therefore be submitted but the Board's form may be adopted when preparing the accounts for Fusly 1263. but it will be necessary to make a few additions to the Board's form I beg to enclose a form of Statement drawn up according to the Boards' Form with these additions and I have shown in Red Ink the Extra work to be done The preparation of this Statement by entering the extent of Land for all the items will increase considerably the labour of the Office. But it can be done if the Board deem it desirable. Hitherto the assessment only has been entered because it was thought the Extra labour was not compensated by

by the additional information to be obtained.—

No. 14 10 I conclude that the particulars of remissions entered in Form No. 14 are those alluded to in the Comparative Statement of Cultivation in Form No. 10 as the remissions to be deducted at the Settlement, but some of the items are not applicable to this District while others not in the list exist; I request therefore to be instructed, whether only the items peculiar to this District as enumerated below are to be entered in the Statement or whether those in the Form also the inapplicable to be included and left blank and whether the terms used in this District and the Classification are to be followed.

Bd. No. 2104 Proceedings

Read again Return from the Acting Collector of North Arcot dated 21st and entered in Consultation 26th September 1853 of Village Officers suspended or dismissed under the provisions of Regulation VII of 1831 for the month of August last in this District — thereon —

The Board observe that the above Return shews an unusually large number of dismissals during the Month —

In Cases 2 and 5 the individuals have held Office, the former for 32 years, and the latter for 38 years, and the Board think that for the Offences with which they were charged, they might have been suspended for one or two years instead of being dismissed from employment. The Acting Collector is therefore requested to Reconsider the decision passed against them —

Cundasawmy Jemadely in Case No. 2

Case No. 3.

3. The Cause assigned for the dismissal of Aroonachella Moodelly is that he was suspected of making certain excessive Collections from some Ryots in the previous fusleee, as however it is stated that the charge was not proved against him, the Board are of opinion that he should not have been dismissed upon mere suspicion

suspicion, but suspended for a certain period

Case No. 9. 4. The Acting Collector is requested to afford further explanation respecting this case, as the grounds upon which Cooppiah was dismissed from Office, by the Head Assistant Collector are not clear.—

Suit No. 13 of 1853

Answer of the first defendant.

The Plaintiff in his plaint enlarges on the impropriety of the Collectors having passed an order allowing the 5th Defendant to continue in possession of the lands &c. she held in Tencavanoor tenpandy and which he represents that he was enjoying by right of purchase—

The Plaintiff certainly purchased the land &c. in question from the 5th Defendant, a deed of sale being executed to him, but the purchase Money having been repaid to him, he returned the sale deed to the 5th Defendant, and also executed to her an agreement declaring that he had no right whatever to the land &c. that she was at liberty to enjoy it, and that its meras might be registered in her name. The fact of this agreement was not only established by the evidence of the attesting witnesses, but the fact that the 5th defendant has been enjoying the land &c. in question ever since its restoration by Plaintiff, was proved by the Village Officers. On these grounds an order was passed according to

Fort St. George 6th October 1853.

to the provisions of Regulation V of 1822, that the 5th defendant should continue to enjoy the land &c. as heretofore, and that the plaintiff if he had any claim should make it in the Civil Court—

From this decision the Plaintiff if dissatisfied should have appealed to the Court within 30 days, according to Clause 1 Section XVII Regulation V of 1822.

As Plaintiff has sued the Collector as defendant contrary to the provisions of the above quoted Regulation the Court is requested to dismiss the Suit with payment of all costs by Plaintiff

A suit for Rupees 116—12 including the value of some Malgoozary land and the profits thereof, due by the 5th defendant.—

On the 7th of Kartiky in the year Parabhava (or the 20th of November 1846) the 5th defendant sold to me and my brothers (Veily 8 Marcus and 42¾ goolies of her own Malagazary land, including Nunjah and Poonjah a house with the ground it occupied and manacuts &c., in the said Village for a sum of 900 Rupees, executing a deed of sale in my name. I being the head of the family, and he having received the money, the Meraasy of the land was registered

registered in my name. I with my undivided brothers have since made the Cultivation, reaped the harvest of the land, and sold its produce through my own tirunts, enjoying the Annual profit of the Nunjah land to the Amount of 35 Rupees with that of poonjah &c., and annually paying the Government tax from my own pocket punctually according to the Kistbundy. I also reaped the poonjah produce previous to December in July 1262 and the Kumba Crop of Nunjah that was ripe for harvest in February 1853, Amounting to 10 Cullums. as some of the land included in the above deed of sale was under dispute. I sued for it in the Courts of the Mannargoody Moonsiff and the Amaneedar Sudder Ameen in Nos 307 of 1848 and 12 of 1850 respectively, and the Courts having passed decrees establishing my right to it, it was made over to my possession. In corroboration of my right to cultivate the land purchased by me, the Sagoobody Proochilika and other Circar documents have been made in my name, with my Signature and in proof of my having paid the Circar demand, the receipts and

Fort St. George 6th. October 1853.

and cutchals Vcs. have been given me, and the 3d. and 4th. defendants have sent their monthly kundul Coorroopoo accounts to the Talook with the entry of my name—

2nd. When I was thus in undisturbed profession of the property purchased by me as by the deed of sale mentioned above, the Huzoor accepted a petition given by the 5th. defendant in December 1852, stating in opposition to documentary evidence that she had redeemed the land from me on repaying the 900 Rs. she had received that she had been from 1849 enjoying it, and praying that the Sagoobady Moorhelika for fusly 1969 should be made in her name—

3rd. Upon this I presented a petition to the Huzoor stating that the complaint of the 5th. defendant was false that she never got back the profession of the land she sold to me; it being exclusively mine and my brothers, that I had documents in support of my right to the property and that the fact of her having in August and September 1852 complained in the Revenue department that the value of the land had not been paid to her, and in the Magistrate

Fort St. George 6th. October 1853.

department, that I unjustly and forcibly cultivated it, discredited her statement that she redeemed the land, on repaying the money she had received from me and prayed that her claim might be dismissed—

4. The circumstances were however inquired into by the 2nd. defendant and although my profession was fully proved by documents and witnesses, while the 5th. defendant's assertion as to her profession was not duly supported by either, the land without paying attention to facts, prevented me from enjoying the Nunjah produce from February in fusly 1262, upon the fraudulent reports made by the 3d. and 4th. defendants and having through partiality towards the 5th. defendant concealed the contradictions in her petitions, wrote an Argee to the Special Assistant Collector in her favor without mentioning his having deprived me of my possession—

5 The said Officer considered that it was third fear of her kinsmen that the 5th. defendant transferred her lands to me by a deed of sale, and that she having redeemed it in 1849 had been enjoying it the the Meraasy was in my name and accordingly

he

Fort St. George 6th October 1853

he issued an order on the 21st of April last that the 5th Defendant should enjoy the land and referring me to the Civil Court. Upon this I appealed to the 1st Defendant who passed an order on the 21st of June confirming the the decision of the Special Assistant 6th.

The alleged fear of kinsmen is an useless argument and not true. The 5th defendants Statement that she redeemed the land by paying money is false and the deed produced in support of it forged. The Case itself is one not coming within the province of the 1st Defendant. If the Statement of the 5th defendant that she transferred her land to me through fear of her kinsmen, be true, what is the reason for my enjoying it? When I was enjoying the land on the same documentary right upon which the 1st and 5th defendants have undeniably acknowledged my having enjoyed it till 1848, the 1st Defendant had no ground to displace me in the absence of any document with my attestation either in the Huzoor or in the Talook relinquishing my right to the land, and when the 5th defendant had no document given by the 1st Defendant authorizing her to enjoy it and no Circar document

exhibited

Fort St. George 6th October 1853.

exhibited her name together with mine, as would be the case under the general order if she had any right to the land. The order given by the 1st defendant contrary to Circar documents, that as the 5th defendant has been enjoying the land, she should continue to enjoy it is one which he is not competent to make. Besides this the 5th defendants saying, that she paid money being a matter not falling within the 1st defendants province since his considering a document said to be therewith connected in support of her right cannot hold good.

How can the 1st defendant disallow my right supported by Courts decrees, Circar documents, and the evidence given by witnesses merely by the words of the witnesses procured by the 5th defendant and prevent me from enjoying my property as usual. The witnesses on the side of the 5th defendant and the 3rd and 4th defendants have been ill disposed towards me. The latter two in contradiction to the documents given me by them have given false evidence that receipts have been granted to the 5th defendant.

The Statement of the 3rd and 4th Defendants (the Curnum and Potail) to the effect that the 5th defendant has been

enjoying

Fort St. George 6th October 1853

enjoying the land from 1849 is entirely upset by the following circumstances. In September 1851 the 3d Defendant deposed before the Mahomedan Suder Ameens Court in Suit No. 42 of that year that the land &c in question had been sold to me and that the tamarind trees standing in the manaeut No. 349 included in the deed of sale had been in my posseſsion for 7 years and the 5th Defendant plainly acknowledged that the whole property as per the deed was mine and also that I was in possession. When pronouncing the Courts decree in my favor under date the 13th September 1851, the 3d and 4th defendants gave in Yufti account stating the boundary on 4 sides and that the house mentioned in the deed was mine. The Costs of the Suit I received on the 30th of June 1853 when the Collector sent for the cultivator of the land in question they gave due evidence that I cultivated it.

9. The 5th defendant in her petition to the Huzoor prayed that Sagoolady Moochelika as a document supporting her posseſsion of nunjah and Poonjah lands should be made in her name, while in her previous

plaint

Fort St. George 6th October 1853.

plaint No. 1220 of 1852 of the Munsarguddy Moonsiffs Court, she only wanted the merassy registered in her name, from which it would appear that her assertion as to possession on her part is false. Before the said suit is disposed off, how can the 1st defendant who had learned the circumstance of the 5th defendants having instituted it in the Civil Court in order to get the merassy registered in her name, bestow any right upon her when she had no right to the land and other property. 2. The 1st Defendants order conferring any right upon her cannot hold good, and his having deprived me of my possession supported by public documents of the Court and the Collectorate, is from reasons mentioned above a thing which the 1st Defendant is not competent to do. The 1st four defendants being therefore answerable to me for my land, and the remaining income of it for fusly 1262 which the 2nd 3rd and 4th defendants prevented me from taking posseſsion of, I have included them in this suit as well as the 5th defendant.—

To the Collector of Tanjore.

Sir,

The Suit alluded to in your letter of the 19th September appears to the Board to be one relative to the occupancy of land between ryot and ryot, without any forcible dispossession having taken place.—

2. In your defence you state that the case was decided under the provisions of Regulation V of 1822, I am desired to request that you will inform the Board under what Section of that Regulations you acted, and whether this decision was made known at the time to the Plaintiff, with notice of the period within which an appeal to the Civil Court was permitted.—

3. Should you on reconsideration of the subject, be of opinion that you were not empowered to adjudicate questions of occupancy under Regulation V of 1822, it would perhaps be advisable that you should restrict your defence to the general authority vested in the Collector to maintain occupants of land in possession pending the issue of a regular Suit to be filed by the adverse party.—

From the Collr of Canara—

Applying leave of absence under Section XI (amended) of the absentee rules.—

I have the honor to request that the Board of Revenue will be pleased to forward to Government with their recommendation my application for leave of absence for one month under Section XI (amended) of the absentee Regulations.—

2 I have further to make my request to the Right Honorable the Governor in Council that he will be pleased under the circumstances which I am about to mention to accede to a request which on a former occasion he did not see fit to grant. It is that I may be allowed to leave the Treasury under the charge of the Head Assistant & Collector, the Sub Collector Mr Hall assuming charge of the District.—

3 I have all along intended to

to proceed this season to the North of the District to make the settlement of a portion of the Balaghaut. On leaving Mangalore the Head Assistant takes charge of the Treasury and remains in charge till my return. My wish is to take leave for a month to proceed inland to a short distance from the coast sending the Cutcherry on to Mr Hall who will be in charge, and joining it at the expiration of my leave in the Balaghaut.—

4 If this is permitted, I can avail myself of my leave, but otherwise after proceeding to Shimmoga or wherever inland Station affords the best change of air for my family, I must return to Mangalore and again march to the Balaghat at the same time Mr Hall must come from Sirsi to Mangalore a distance of 160 miles, to return at the expiration of my leave, and another officer must proceed to assume Mr Halls duty.—

5 If the request which I make is contrary to the usual routine, I trust that the peculiar position and shape of this district will be taken into consideration, for under this permission alone can I avail myself of the months leave to which I am entitled under the

rules,

rules, without a degree of inconvenience to others and interruption of business which I shall be reluctant to cause.—

6 By the permission which I solicit no further responsibility is thrown upon the Head Assistant than necessarily devolves upon him whenever I leave Mangalore and the charge of the Treasury devolves upon him.—

Reporting on Messrs Parry and Co.s claim to be relieved from the payment of Ground Rent demanded by this Office on account of certain Coals heaped on the Beach

Sir,

I have the honor to acknowledge the receipt of the Contract from the Board's Proceedings dated 1st Instant, calling for information on certain points connected with Messrs Parry and Co.s claim for remission of Ground Rent on the Coals belonging to the General Steam Screw Ship Company, as shewn in the correspondence transmitted with the Contract.—

2 In reference to the first point, it does not appear that it has ever been usual to demand Ground Rent on Coal or other Goods which merely occupy the Beach in transit between the Shipping and the Stores. It is usual to levy Ground Rent on the Timber which is lodged on the beach, as also on property received from wrecks. The whole question seems to hinge on this point, namely whether the Coals in question are to be considered as Stored on the Government Lands, or merely passing over it as other Goods.—

Or

3. On the Second point it is reported by the collecting Servants, that the Steam screw Ship Company's Coals, are not always deposited on the same spot. The Ground Rent Conservancy makes a Monthly inspection, and charges for the land he then finds to be under occupation.—

4. The liability of the Peninsular and Oriental Steam Company to Ground Rent for the land occupied by their Coals was decided in the affirmative after the long correspondence noted in the Margin. It seems however that they have long been in the habit of keeping their Coals on the same spot, and that their Agent did not claim exemption on the plea of mere temporary occupancy as urged by Messrs. Parry & Co.

5. All things considered, I think it would be desirable that Government should not exact Ground Rent under the circumstances represented in the present Case. So long as Messrs. Parry & Co. do not engross the beach in any way that may be prejudicial to the interests of the rest of the Community.

6. I take this opportunity to explain that the bills noted in the margin are still outstanding against the Agent of the Peninsular and Oriental Company.—

7. From the 18th January they have been regularly paid.—Mr Franck considers that the orders of Government dated 17th July 1852, only require payment from the expiration of the five Months indulgence then allowed to him. If the Board concur in this view, I beg authority for cancelling the antecedent demand amounting to 9 Rs 62-6-5.—

On the understanding that the coal belonging to the G.S.S.N. Company merely occupies the Beach for short periods, in transit between the Shipping and the Stores, the Board are of opinion that no Ground Rent should be charged.—It would appear that Coals are allowed to lie an unnecessarily long time upon the Beach or occupy it in a manner prejudicial to the interests of the public generally, the Agents should be called upon to expedite their removal.—

2. Government having allowed Mr Franck 6 Months time to remove the Coal belonging to the Peninsular and Oriental Steam Company, Ground Rent should only be charged from the expiration of that period.—The Acting Collector will enter the previous demand among his outstanding balances, and obtain sanction for its remission in the usual course quoting the correspondence which has passed on the subject.—

Bd. No. 2514

From the Secy. to Government } Extract from the Minutes of Consultation dated 9th September 1853.—
/ From Bd. 15th Augt 1853 /

The Right Honorable the Governor in Council cannot accede to the recommendation of the Board of Revenue, and Acting Collector for continuing to Meer Ghoolam Ali half the Jeemah enjoyed by his late mother Ruffyah Beebee for which he can discern no good grounds and which would be tantamount to keeping that party in idleness for life. Meer Ghoolam Ali

Abi is stated to be 26 years of age and therefore perfectly able to provide for himself. The Government direct that the Acting Collector will allow him 3½ Rupees per mensem for the next six months, and inform him that within that period he must find the means of earning his own livelihood, as on its expiration this allowance will wholly cease, and he will be left to his own resources.—

Sir.

In answer to your communication, N. 539, dated the 17th May last, I have been directed by the Right Honorable the Governor in Council to intimate that there are no rules in the Collectorates of this Presidency, for regulating the distance from Government Works of irrigation, at which private Works, Wells, &c. are allowed to be constructed.

2. Nor do any Rules exist in the Province of Sindh; but in Upper Sindh, ancient usage prohibits the construction of any work, except a Well, within ten feet of a Government Canal.—

3 The late Rajahs of Sattara do not appear to have framed any rules on this subject, but it appears to have been the recognized right, both of Government and private individuals, to prevent the construction of new works of irrigation, so near to those already completed

by themselves, as would injure such works or diminish their usefulness

From the Sec. to Government } Extract from the Minutes of Consultation Revenue Department under date the 1st October 1853

Conveying the objections of Government for not cancelling the permission certificate for certain lands issued in the names of Reverend Messrs Mault & Gunn in the Guntoor district.

Read the following Extract from the Proceedings of the Board of Revenue.

/ Here enter 15th September 1853. (6)

The Right Honorable the Governor in Council observes that the permission Certificate for the land referred to in the above extract was authorized to be issued in the names of the Reverend Messrs Mault and Gunn. It would seem however from the latter part of the Acting Collector's letter that one of the Gentlemen in whose names the Certificate was granted was the Reverend Mr Granning. Whether this individual

individual and the Reverend Mr Gunn are the same person does not appear, or if not, why the certificate was made out in the name of the former instead of the latter. If however one of the parties in whose name the certificate does run, whosever he may be, will make a written application for its being cancelled, the Government under the circumstances will not object to this being done but without the direct consent of at least one of the grantees or some one duly empowered to act for him the Certificate cannot be annulled.

B^d. N^o 2658.

From the Collector of Nellore

Submitting the annual report on the Lungerkhana of this District for 1852.

Sir,

Agreeably to the requisition contained in your letter of the 12th ultimo I have the honor to submit the Annual Report on the Lungerkanah in this District for the year 1852. Never having been before in Charge of a District where any such Institution existed I was not aware that such a report was required, nor was it brought to my notice till the receipt of your letter above referred to.—

2. As stated in my Predecessors report under date 13th May 1852 the grant allotted for the support of the Institution is 246 Rupees a month or Rupees 2940 per annum, of which the actual expenditure during the year under report amounted to Rs. 2821-8- as shown in the accompanying Statement. With very few exceptions, the allowance in each individual case is the same as in the previous year, and the number of recepients also is nearly the same as it then was In the few cases of individuals to whom relief is extended, as vacancies occur, strict enquiries are previously made regarding their circumstances and it is confined to the destitute and helpless to whom such an Institution is a real blessing.

3. Since the date of the last report the persons receiving aid from this Institution residing here / for the benefit is not entirely confined to the Town of Nellore / have been inspected by the Assistant Collector Mr. Morris and the result has not showed the existence of any fraud or irregularity.—

To

The Collector

Sir,

I am directed by the Board of Revenue to forward the following letter from the Honorable Company's Consul at Mocha, and to request that you will cause the necessary enquiries to be made, and report to the Board your opinion regarding the claim preferred by the Petitioners mentioned in the Consul's letter.

2. The Board do not consider that they are competent to grant the allowance applied for, but they are willing to recommend it to the favorable consideration of Government, if you should be of opinion that the circumstances of the case are such as to warrant the grant of a pension.

3. The Board request that you will return the Consul's letter with your report.

I am Sir,

Your most obedient Servant,

For Secretary.

B. No. 2433.
From the Coll.r of Magistrate of Bellary.

Forwarding Copies of correspondence between the Session Judge and himself respecting the Tahsildar of Cumply in his Capacity of Head of Police and suggesting should the Board think that the Tahsildar is deserving of punishment in the instances of remissness within mentioned either his suspension from his Office for few Months, or his being reduced to his former appointment of Talook Shanistadar.

Sir,

I have the honor to enclose Copies of the following correspondence between the Session Judge and myself respecting the Tahsildar of Cumply (Shevaramapah) in his capacity of Head of Police.-

Extract Proceedings Sessions Court 10th August 1853.-
Reply of Magistrate 13th August 1853.-
Extract Proceedings Sessions Court 20th August 1853.-
Reply of Magistrate 26th August 1853.-
Extract Proceedings Sessions Court 27th August 1853.-

2. The Sessions Court it will be seen consider this Tahsildar as utterly unfit for the highly responsible office of Head of Police.-

3. Though I do not go so far as the Session Judge in thinking the instance to which allusion is made quite justifys so severe a censure, yet I perceive much carelessness on the part of the Tahsildar

4. In my letter to the Board under date the 30th June 1853 I was under the necessity of recommending this Man for severe punishment for-

for his police misconduct.-

5. In my letter to the Board in the Maramut Department of this date I have been compelled to notice as deserving of punishment the misconduct of the Tahsildar in his duty with the Civil Engineer.-

6. Shevaramapah has been a Tahsildar only 13 Months- and except in the instances alluded to above I have had no reason to be displeased with to him. The instances of remissness noted by the Session Judge are not perhaps greater than many other Heads of Police are chargeable with. But taking this, in connection with his other misconduct referred to, I would take the liberty of submitting to the Board whether his conduct is not deserving of more severe notice, than by the fine of 30 Rupees already imposed. Should the Board think so it might be proper either to suspend him for a few Months or to order him to be returned to his former appointment of Talooke Sheristadar, from which he has been lately promoted.-

No 1.

Extract from the Proceedings of the Sessions Court of Bellary under date the 10th August 1853.

Read reports of the Sentences passed by the Mooftee Sudr Ameen in Cases Nos 142 and 143 of 1853 on the Criminal file together with the record of the Proceeding held therein-

Read also the letter from the Sub:-ordinate Judge of Bellary of the 5th August.-

The Prisoner was taken charged with Cattle Stealing and escaping from Custody but the Head of Police of Cumply (Sevaramap) enquired into the former charge and forwarded the Prisoner to the Criminal Court on that charge alone, without any enquiry whatever being made into the one of escaping from Custody, notwithstanding that the Police Ameen of Ramandroog only a subordinate Police Officer, who first tried the cases in question, had formed two distinct cases for the said two Charges. Further the charge in the case of Cattle Stealing has been framed by the Head of Police in a very informal and loose manner.-

"On the 10th March 1853 the three Prosecu-

tent.

sent their Cattle, 100 in number, to graze with their respective boys to the Jungle of Gorumtta-hullah to the West of the Village, and while they were grazing in one and the same place the following goats were stolen.

The above Goats were stolen; and a Complaint was made to the Police Ameen of Ramanamalla against the Prisoner as having sold 40 of the said Goats to the 1st Witness.- When the said Ameen sent for the Prisoner he escaped on the road and was recaptured. The charge is "theft of Goats" and the property is not forthcoming".-

2. At the time that the said Head of Police was Peishcar of Canacul, the Court had occasion to remark in it's Sentence of Case No. 7 of 1848 dated the 8th March 1848 that that Officer had in that case "betrayed ignorance of his duties"- Again- when he was Peishcar of Oravakunda the Court in it's letter to the Court of Foujdaree Udalut under date the 6th July 1850 remarked upon

upon the several serious irregularities displayed by him in Case No. 23 of 1850. The Court of Foujdaree Udalut in their Proceedings of the 7th August 1850, held on the said Case No. 23. directed that the Magistrate should point out clearly to the said Peishcar, the irregularities adverted to by this Court and on all these occasions the Magistrate was ordered to take such steps as would prevent recurrence of such irregularities.-

3. It is 5 years since the Court first noticed the irregularity of the Officer in question, and he has since been appointed to the Office of the Head of District Police, and yet the irregularity of procedure exhibited to him in the present instance is such as one who has the least experience of Police duties would never be guilty of.- The Court is therefore led to conclude that his Knowledge of Police Functions as a Head of Police is very limited and that he has not at all improved notwithstanding the admonition Administered to him.-

4. The Magistrate's attention is now drawn to the conduct of that Officer, in order that he may see the

utter

utter unfitness of this person for the highly responsible Office of Head of Police.-

Ordered that Extract from these Proceedings be sent to the Magistrate of Bellary for his information and guidance by Precept returnable within X days from and after it's receipt.

Received 11th August 1853.-

In

Fort St. George 10th October 1853.-

In obedience to the foregoing Precept drawing the attention of the Magistrate to the Conduct of the Head of Police of Cumply (Shevaramapah) in Order that the Magistrate may see the utter unfitness of this person for the highly responsible Office of Head of Police in-as-much as notwithstanding former admonitions that his conduct has met with from the Sessions Court in two previous Instances he has not at all improved as is manifest from the irregularity of procedure exhibited by him in Cases Nos. 142 and 43 of 1853 in the Criminal File. In this case it is stated "the Prisoner was taken charged with Cattle Stealing and escaping from Custody: but the Head of Police enquired into the former charge and forwarded the Prisoner to the Criminal Court on that charge alone without any enquiry whatever being made into the one of escaping from Custody - notwithstanding that the Police Ameen of Ramandroog who first tried the Case in question had formed two distinct cases for the said two Charges".-

The Magistrate has the honor to forwarded an Urzee from the Head of Police

Fort St. George 10th October 1853.

Police dated 27th July from which the Court will observe that the Tahsildar did not forward the Prisoner to the Court on the first charge without any enquiry whatever into the charge for escaping from Custody. But that he did investigate that charge also but thought the Prisoner should not be committed on it on the ground that the prisoner did not escape from a properly constituted Guard (the persons in whose Custody he was when he escaped were a Washerman and ryot.) The Tahsildar erred undoubtedly in not committing the prisoner in the charge of "Escape from Custody". But the Magistrate would explain that the omission to prefer the charge did not arise from neglect to enquire into it and would beg to know whether the Court with this Explanation on that part of the Tahsildar's Conduct would think it necessary at all to modify the expression of its opinion of the Tahsildar's fitness for his situation

Extract

Fort St. George 10th October 1853.

Extract from the Proceedings of the Sessions Court of Bellary under date the 20th August 1853.

Read Return made by the Magistrate to this Court's precept of the 10th Instant.

Read also Return of the Subordinate Criminal Judge to the precept of this Court under date the 17th as well as the record of the Proceedings connected with cases Nos 142 and 143 on the Criminal file for 1853.

1. The Magistrate with his foregoing Return, submits an Explanation from the Head of Police of Cumply and requests to be informed whether after perusal thereof the Court may think it necessary at all to modify "the expression of its opinion of the Tahsildar's fitness for his situation".

+ which is herewith returned.

2. The explanation of the Head of Police far from being satisfactory has convinced the Court still further of this Officer's utter unfitness for his responsible duties; for according to the Magistrate's Return the Head of Police considered that the prisoner should not be committed on the charge of "Escape from custody" as he had not absconded "from a properly constituted guard" whereas the records shew that the individuals from whose custody the prisoner

escaped

escaped were a Dhoby and a Kundachar (Village watcher) and according to the Circular Order of the Foujdaree Adalut of the 10th April 1844. No. 156 "all prisoners in the charge of Village watchers &c are declared to be under legal custody".

3. Further it appears from the Magistrate's Return that the Head of Police did investigate that charge (escape from custody) also, but the Court has to observe that the records do not shew that he had made any enquiry whatever into the same or that he had interrogated the prisoner in regard to it.-

Ordered that Extract from these Proceedings be forwarded to the Magistrate of Bellary for his information.-

To. The Sessions Judge
of Bellary.

Sir,

I have the honor with reference to Extract proceedings Sessions Court of 20th Instant to request you will inform me on which information

information before the Court the persons from whom the prisoner made his Escape are stated to be a Dhobey and Kundachar (Village watcher) as from the report of the Aumeen of Police and Tahsildar of Kumply there is no mention of a Kundachar. The point does not affect the question much-but it is desirable to have it cleared up as I shall have to report the Tahsildar's conduct for the orders of the Board of Revenue.-

In the 3d para it appears that the "Sessions Court has to observe that the records do not shew that he (the Tahsildar) had made any enquiry whatever into the charge" of escape by me, did make an enquiry-but of course there was no necessity for the record of the case before the Court to show this as the Tahsildar never committed the person on this charge.-

Extract from the Proceedings of the Sessions Court of Bellary under date the 27th August, 1853.

Read letter from the Magistrate of Bellary dated the 26th August 1853 regarding the irregularity of procedure exhibited by the Head of Police of Kumply in cases Nos. 142 and 143. on the Criminal file for 1853.-

1. From the depositions given by one

Fort St. George 10th October 1853.-

one of the individuals, from whose custody the prisoner effected his escape, both before the Head of Police of Kumply and the Mooftee Sudr Ameen in the said No. 142, it is quite clear that he is a Kundachar (or Village Servant).

2. It is therefore resolved that the Originals of the said two depositions be forwarded to the Magistrate of Bellary for his information with a request that the same be returned to this Court when no longer required..

Ordered that Extract from these Proceedings be forwarded to the Magistrate of Bellary for his information..

Proceedings thereon.-

The Board do not consider that the Case referred to in the above correspondence proves the Head of Police of Kumple to be "utterly unfit" as the Sessions Judge observes for the duties of his Office. They will leave it to the Collector to notice Sivaramapah's remissness in either of the two modes suggested in the last Para, as may appear to him better suited to meet the Case..

Sir

With reference to the Extract from

reference to the Board's Proceedings of the 14 June 1852 that the China Cotton cleaning Machine prepared by Major Balfour has not come into general use for the reasons stated.

from the Minutes of Consultation under date the 27th May 1852, communicated in the Extract from the Proceedings of the Board of Revenue dated 14 June 1852, directing two sets of the China Cotton cleaning machine prepared by Major Balfour to be forwarded to me and requesting that a trial be made in this District of the efficiency of the same and the result reported to Government at the end of a year, and the letter of the Secretary to the Board dated 25th July 1853 calling for the above information, I have the honor to state that immediately on receipt at the end of last year of the Machines together with a printed Copy of Major Balfour's Memorandum and a Memorandum explaining the way of working the Machine. At the time of Summabundy Settlement for July 1852 caused the Machine to be shown to the ryots and other and the manner of working it explained to them and sent orders to the Talook regarding the same.

I caused four cotton gins such as the two sent here to be made up at the rate of 4 Rupees each and made them over to some people of the principal Cotton Villages. But the Machine does not seem yet to take. For the ryots of other villages have not made up any of the Machines themselves in consequence partly of its being difficult to make them up in the Villages, not made application for them owing probably to their being too expensive and the advantage of them over their own not sufficiently established. The cotton cleaning Machines that are commonly used in this District are procurable at four annas each and are worked with ease by both men and women. The China Gin is new to them and it must be left to time to see whether the people will approve of them. Encouragement will still be given to the people to give them a fair trial.

From the Collector of Chingleput
Reporting on the memorial of Erasappa Moodely claiming on behalf of the Cholaveram Pagoda the restoration of the Cholaveram Shrotriem &c resumed for arrears of Peishcush.—

Sir,

Para 1 I have the honor to submit the following remarks on the accompanying Memorial addressed to the Honorable the Court of Directors by Erasappa Moodely, Burmakhurtah of the Cholaveram Pagoda with the Nazer's Talook, transmitted for my report with the Board's Proceedings of the 3d. February last.—

2 The Shotriem of Cholaveram was granted under a Purvanah of the British Government to memorialists Grand father and his Heirs for the support of the said Pagoda, of which the memorialist is now Trustee. In consequence of large Balances outstanding against this and other Shrotriem Villages a notification was issued in 1834 allowing the several proprietors a period of 8 months for the liquidation of arrears by Instalments,

× Dated 4 Dec. 1793

× To Board 27 Sept. 1834. From D. 6 November. To D. 24 Dec. D. From D. 5 January 1835

in

in default of which it was declared the Villages would be forfeited to Government— The Memorialist having failed to liquidate the arrears within the prescribed period the Shotriem was resumed and the Balances outstanding against it amounting to Rupees 1769 — 2 — 1 were remitted. This course was in accordance with the Principle laid down in the order of Government* "that every Shotriemby the condition of its tenure is liable to reemuption and forfeiture on failure of payment of the rent" and it has not been usual to make any relaxation of the above Rule in favor of Shotriems as granted for particular services or for the support of Pagodas.

3 The Memorialist urges as a point deserving of consideration that the Balances accrued during the period of his Minority. The Village it must however be observed was not then under the management of the Court of Wards but was left under that of the Brother of the Shotriendar, deceased, agreeably to the terms of his Will— The former was Memorialists adoptive and the latter his natural Father.

* Dated 4th December 1827.

4 Although Section II. Regulation X of 1831 prohibits in such instances the sale during minority of Estates for Balances which may have accrued during that period, it does not preclude the adoption of the necessary measures for the recovery of such Balances on the Minor becoming of age. It does not appear that the authorities did further than give effect to the will of the deceased Shotriendar nor do the Records shew that the Manager retained possession of the Villages after the period on which the Memorialist attained his majority. [illegible]

5. On the resumption of the Shotriem the Board of Revenue at the recommendation of the Collector† sanctioned the annual Payment of a Sum not exceeding Rupees 300 for the support of the Pagodas, this Sum though in excess of the average net Proceeds of the Village during a period of 12 years, was regulated in reference to the actual expenditure incurred in maintaining the Pagoda during the preceding three years. Under the efficient management of Government and the operation of the field assessment the resources of the Village

Village have since considerably improved. It yielded in July 1760 (an unfavorable year) Rs. 1348 5 As. 10 P. and in July 1261 one of the most favorable years Rs. 2131 9 10 inclusive of the Peishcush and charges. The claims of the Memorialists to the increased Revenue are under any circumstances inadmissible.

6 From the correspondence which transpired on the occasion of granting this Shotriem it is to be inferred that it was not under contemplation to secure the Sayer a considerable surplus. Mr Darwall in his letter dated 28th September 1793 it will be observed recommended a reduction in the rent in consideration of the grant having been solicited for religious purposes. but the Board of Revenue† decided that the full amount of Rent should be levied on the Village being a free gift over to the Grantee, which full Rent however was in the then imperfect knowledge of the resources of the country and the deteriorated state of the Village fixed at the low sum of 100 Pagodas.

To The Chief Secretary to Government

Sir,

I am directed by the Board of Revenue with reference to the order of Government dated 28 January 1853 on the Memorial of Erasapah Moodelly alleged Shrotriemdar of the village of Cholavarum, to submit the accompanying report from the Collector of Chingleput relative to the circumstances complained of in the Memorial to the Honorable Court.

It will be observed from the facts of the case as detailed by the Collector that the resumption of the village in 1824 took place in consequence of outstanding balances against it for the payment of which by instalments no endeavours were made by the memorialist, though a notice of 8 months had been given him, and that the resumption was in strict accordance with the principle laid down by Government on 6th December 1827 that "every Shrotriem by the condition of its tenure is liable to resumption and forfeiture on failure of payment of the rent."

3 With reference to the remarks of the Collector on the applicability of Regulation X of 1831 to this case, the Board observe that the Estate never was sold for arrears of Revenue but presumed for failure of the conditions under which all Shrotriem tenures are held, and as the Shotrium was granted for the support of a Pagoda for the maintenance of which a ready money allowance, sufficient in the opinion of the Collector, has since been paid for a period of 19 years, the Board can see no necessity for now restoring the Village in its improved condition. As regards the personal claims and interest of the petitioner in the grant the Board further observe that there is much doubt as to the validity of his claim as heir to the original grantee in as much as it was stated by the Collector Mr. McLean in 1834 that he was an only son and his adoption into another family therefore invalid.—

From Chingleput 27 September in Ltr. 15 October 1834

From the Actg Coll.r of North Arcot

Affords the information required by the Board in an Extract from the Proceedings dated 12th January 1852 respecting the division of the Assessment on the highest assessed lands in 3 Villages in Vellore Talook and the Collection of Fuzuljanty in Vellore and the 4 Talooks of the sale Division for lower assessed lands.

Sir,

With reference to an Extract from the Proceedings of the Board of Revenue dated the 12th January 1852, in which the Board with reference to Mr. Ward's letter dated 11th December 1851 desiring to be informed whether the division of the Assessment on the highest assessed lands in the 3 Villages noted in the Margin in the Vellore Talook, was made by Mr. Bourdillon with the Board's sanction, whether Fusuljanty is levied in Vellore and the 4 Talooks of the Sub Division for lower assessed lands when the 2nd Crop is raised; and to have a Statement submitted to them exhibiting for each of the 3 Villages the extent of land entitled to deduction, and the Pymash rates on such lands; I have the honor to transmit a Statement shewing the quantity of land in each Village

on

on which an offer was made to the Ryots to divide the assessment when they should grow only one crop, with its Survey rate of assessment, and the quantity of the same land brought under Cultivation in each Fusly, from 1259 when the change was introduced to the present Fusly—

2. In respect to the two questions whether the Assessment was divided with the Board's Sanction, and whether Fuzul Jasty is levied in the Talooks in question, I have the honor to state that Fuzul Jasty is not levied in those Talooks, and that Sanction was not obtained for dividing the assessment. I presume that Mr. Bourdillon had it in view to apply to the Board on this subject, when he was appointed to other duty.—

3. It will be remarked by the Board that the division of the assessment has not led to such an increase of Cultivation as was expected. This is owing in part perhaps to the people wanting full information as to the Board's ultimate intentions, but it is also probable that some of the land is over assessed, so as to make the proportionate

proportionate assessment payable for one Crop an excessive one—

4. In regard to the cultivation in 1262, subsequent to the receipt of the Board's last orders on the subject, I beg to explain that a small quantity has been cultivated as one Crop during the present year, and has been charged in the accounts with the single assessment, as the Cultivators were not warned in sufficient time that they would be liable to the full assessment.—

Proceedings thereon Submitting with reference to Extract Minutes Consultation 7th December 1850, letters from the Acting Collector of North Arcot, with the Boards remarks, respecting the system of assessment under which the best lands in certain Talooks are left waste-

24

No. 469.

The Government in Extract Minutes Consultation 7th December 1850 called the attention of the Board to certain Statements made by them in their letter* recommending an annicut across the Cheyoor in N. Arcot, as to the best lands in that vicinity being left waste because the assessment was too high to admit of profit from a single Crop of paddy and a 2nd crop could very rarely be reckoned on. The Government add that this evil is not confined to one locality of the District, and observe that the Collector affirms the result to be an exhaustion of the resources of the Ryot—

2. The subject was noticed by the Honorable Court of Directors in their General Letter of 19th November 1851† They observe quoting the Collector's letter that the assessment does not vary as one or two Crops may be cultivated, but is laid on in a single unvarying sum which is paid whether or not there is water for a 2nd Crop and they desire that the practice which they suppose may exist in other Districts also should be corrected.

They

† Transmitted to the Board by Govt. in Extract Minutes Cons: 26th January in Cons: 12th Feby. 1852.

"They also observe that "it is obvious that "if the rate of assessment has been fixed "on the assumption that water will be supplied from public Sources sufficient for the "cultivation of two crops within the year, while "in ordinary seasons water sufficient only "for one crop is available, the exaction of "the full rate at all times must tend greatly "to discourage the Ryot from undertaking "the cultivation of lands so circumstanced"—

3 The Government in transmitting Copy of the above letter call upon the Board to state what steps have been taken with reference to their previous letter of 7th December 1850—

4 Mr. Brett the Acting Collector in his letter of 15th April 1853 has shewn clearly the exact state of the Case and explained the nature of the assessment in the part of the District referred to, namely the 4 talooks of the Sub Division— Before stating how far their opinion coincide with that of Mr. Brett, the Board would wish to make a few preliminary remarks—

In Cons: 12th May 1853.

5. With regard to the influctuating Double crop assessment to which the Honorable Court advert, it exists in

the

the neighbouring District of South Arcot of which District the Talooks in question once formed a part. In South Arcot the directions of the Court have been anticipated

for Government have decided† that where there is an insufficiency of water for a 2nd crop, one third of the consolidated Peishcush is to be remitted. These Orders will be attended to in the Revision now in progress the other Talooks were settled on a different principle.—

6. The Honorable Court's remarks will be borne in mind in revising the assessment in North Arcot which appears absolutely necessary and indeed in any Revision of assessment, it will now become a question whether it will not be preferable instead of making Remissions where a 2nd Crop has not been raised on Double Crop land to assess all wet land as one Crop and levy a Fussul jasty wherever water has been used for a 2nd Crop.—

7. The subject was brought before the Board† in the case of 3 Villages in the Vellore Talook where with a view to bring neglected land of a high assessment into cultivation, the Collector notified that a remission would be made in

the event of there not being enough to water for a 2nd Crop the Board have not objected to this change so far as regards these three Villages but they have not considered it desirable to extend the rule till it can be done generally based on a correct Survey of the lands.

† 1 Arcot 2 Wandiwash 3 Trivatoor 4 Poloor 5 Vellore The 4 first are the Sub Collectors charge.-

8. The 5† Talooks of North Arcot South of the Palaur were originally a portion of the Southern Division of Arcot. In Fusly 1213 (1803-04 AD) they were brought under a rough kind of Survey assessment during the Collectorate of Mr. Garrow. In Fusly 1218 (AD 1808) in the time of Mr. Ravenshaw Talooks Settlement introduced by Mr. Ravenshaw into most of his District had not reached these 5 Talooks, their assessment accounts at the present day are not in a satisfactory state owing in some degree to their having been altered and falsified during the Decennial Lease (Fusly 1220 - 1230).

9. This state of things was first brought to the notice of the Board as far back as 1822 by the then Sub Collector† Mr. Chamier who reported as follows.

"Before the transfer of these Talooks from the "Southern to the Northern Division of Arcot the lands were "partly measured, classed and assessed but a Survey conducted as this

† Enclosure in a letter from Mr. Cooke the Collector to the Board of Revenue 30th April in Cons. 9th May 1822.

"this was is liable to many objections and has led to
"much inconvenience".

"The Sircar lands then under cultivation only were
"Surveyed. the Enams and Bungs were left untouched
"the measurement was made in exclusive lots includ
=ing Watercourses, Nullahs, Hillocks, Ridges, Roads,
"Ravines, &c. and not by fields. The Rayets therefore
"complain that a greater quantity of land is entered
"in the accounts than is actually cultivated; this
"was of no consequence during the leases because the
"whole lands of the Village were made over in the
"aggregate to the Renters and the Teerwah was not
"fixed on the fields separately; but in an individual
"Settlement it is necessary that the Rayets should not
"be called upon to pay for more than is actually
"occupied by each; they affirm also that each Cawny
"held by the heads of the Village and their relations
"would on measurement be found to contain 1/4 or 1/2
"more than is entered in their Nullahs and that
"a proportionate deficiency would be found in the
"extent of land occupied by the poorer classes of
"cultivators".

"The lands were classed and assessed
"according to their productive powers and each

Village

"Village was stated in the accounts to contain so many
"Cawnies of land of the 1st class so many of the 2nd
"and so on; but as the particular field in each class
"were not defined by particular marks and were not
"numbered it has become extremely difficult to ascertain
"the identical lands entered in the original Accounts as
"belonging to the 1st 2nd 3rd or 4th Classes respectively, and
"the Cumums and Renters during the triennial and decen=
"=nial leases have availed themselves of the opportunity
"thus afforded by changing the classes".-

"Accordingly where the greater part of the
"lands of the 1st class in a Village is left as it some=
"=times happens uncultivated and an enquiry is made
"into the cause it turns out that the Cumums and renters
"have entered the good land formerly classed as the 1st
"sort into one of the lower Classes and have entered into
"place inferior land properly belonging to a lower class
"and unable to pay the Teerwah assessed on lands of the
"1st Class".-

"If the lands were correctly measured classed
"and assessed it would in all probability appear
"that the Teerwah Originally assessed on each
"class was not too high and that but little if any
"reduction in the Survey rates except perhaps in the 1st class

lands

"lands of a few Villages only would be necessary. In
"many Villages the rentens during the leases have made
"their Collections from the Rayets according to the
"full Survey assessment and no balance has remained
"against the Villages."

"Another objection to the former Survey is
"that in some Villages the measurement was made by
"the Curnums and Gramatams and the turns fixed
"by them, while in others the measurement was made
"by Pymaishcans and the Turns fixed by Punchayets
"of Gramatans - Surveys conducted in the former of
"these ways are liable to many objections, they are
"never finally acquiesced in and their accuracy is
"disputed whenever the Rayets wish to complain
"of the Settlement when the lands have been correctly
"measured marked, numbered and assessed, the
"discovery of concealed cultivation or falsification
"of the slopes and other abuses is a matter of
"comparative ease and facility. That these abuses
"have been carried on to a considerable extent the
"accompanying Statement / marked A / will clearly
"show grounds of this description are daily complained
"of, but are not proved without tedious enquiries in
"Consequence of the defective state of the accounts

"as above described - A regular Survey is therefore
"indispensably necessary for the Security of the revenue
"alone; but if it was merely for the purpose of
"preventing litigation in the Courts it would on this
"account alone be highly desirable; boundary disputes
"and affrays respecting the occupation of land will
"in a great measure be prevented, and much time
"and trouble saved to the Courts and Collectors by
"a good Survey and an equal and moderate assessment."

10 The mode in which the assessment
was framed in these Talooks when they formed
part of the Southern Division of Arcot is described
in a letter† from Mr Ogilvie the Collector to the
Board.

† dated 25th May in Cons 10th June 1839. pages 7 & 8 - 12-13-14-15.

"The Turnu Assessment formed in the Talooks
"South of Palaur in Fusly 1213 appears to have
"been hastily and irregularly made - The method pursued
"was as follows. - The demand on each Village was
"settled by commuting into money at the Dowle
"rate the Government share of the crop on an
"average of the 10 previous years, persons
"were then sent to the Village who obtained
information

"information from the Manigars and Cummums as to
"the relative productiveness of the various Mullums"
or divisions of lands in it and according to the
Statements of the Villagers the class and rent of
the land were fixed, the land was not measured
by Circar Officers, nor was the produce or productive
powers of the several Mullums ascertained by them.
The Mullawaray Accounts describing the situation and
designation of each piece of land were not prepared
by the Circar Servants; but by the Cummums as they
and the Ryots might think proper, no Copies of
them were lodged in the Hoozoor or Talook Records
and those prepared by the Cummums have all been
either purposely or accidentally destroyed - The assess-
ment too such as it was extended only to the land
then under cultivation not to the waste or to Enam
or Manniew land. -

In many Villages it is clear from inspecting the rates
of Assessment that some of the lands were assessed for two Crops
and others for only one; but though it is not difficult to shew
some lands which are certainly one crop and others which are
as surely two Crop land, still in the absence of the Original
Accounts there can be no sure guide in the general to point
out what lands now pay the rent of two crops and what of one
only

only. In another portion of his letter Mr Ogilvie gives
an account of the progress of the Revised Assessment.

The History of its Commencement and abandon-
-ment is as follows. On the 10th April 1822 the Sub
Collector Mr Chamier addressed the Principal Collector
Mr Cooke forwarding proposals for the Survey of
the four† Talooks of the subdivision - Copy of this
letter was sent to the Board of Revenue on the
30th of the same Month with Mr Cooke's recommenda-
-tion that these four Talooks as well as Vellore
(likewise South of the Palar and the only unsurveyed
Talook of the Principal Division) should be regularly
Surveyed. The sanction of Government to the proposal
was granted on the 17th May 1822 -

The Survey was commenced accordingly in Fusly
1233 and in that year Mr Cooke settled 3 Villages in
Vellore Talook at the Pymash rates and they still
continue to be adhered to in those three Villages
although the Meerasdars have objected to them as
heavier than the old rates and have Petitioned the
Board on the subject. In Fusly 1234 and 1235
the prosecution of the Survey was in a great degree

× From Coll'r 3d in Cons 22d Sept'r 1842 & enclosures

the then Collector Mr Goldingham drew forth from him and his Sub Collector Mr Bourdillon a corroboration of the fact of great inequality of assessment and abandonment of the higher rated lands.

The Board in replying to these Reports

× 31st Oct'r 1842

14 agree that "a revision of the Settlement of the 5 Southern Talooks with a view to the reduction of the tax on the high teerwah land and the correction of the land measurement is absolutely called for" and "they hope to be able at an early period to furnish the Collector with final instructions for resuming the work but their issue is necessarily delayed for the present because the best mode of making Surveys in general is now under discussion and the decision of that question may affect the directions to be given regarding this Survey."

× From Coll'r 5th in Cons 15th Jany 1843.

15. The subject was again pressed on the Board by Mr Goldingham the Collector in 1843 at the time when the Bookummanah of the District was before the Board for revision several inconsistencies and inconveniences in the method of assessment were pointed out especially those connected with Double Crop wet land and he afterwards took occasion to offer some further remarks in reporting

× From Coll'r 15th Jany in Cons 8th February 1845

on

on a Petition from the inhabitants of one of the Southern Talooks complaining of the Assessment.

16. In 1847 Petitions were again sent in to the Board on the same subject but they were referred to the Acting Collector to whom instructions had been given to the effect that the Petitions would be taken into consideration when the general question as regards the Assessment of the whole District is finally disposed of.

Proceedings 9th Decr 1847.

17 The Board as at present constituted are prepared to give instructions as to both Survey and Assessment as soon as an efficient Establishment is sanctioned and qualified persons obtained. A Survey and revision of Assessment has now been Commenced in South Arcot on a plan likely to ensure real uniformity and correctness and the Board would propose that as soon as Captain Priestley's endeavours at instruction and the assistance lately granted by Government renders his Establishment strong enough, a branch may be deputed to North Arcot to commence the Survey of the Southern Talooks.

18- Without a correct Survey a correct Field Assessment is hardly attainable

The

19. The Government will perceive that the anomalies and apparent hardships existing in the Southern Talooks of North Arcot arise entirely from irregularities in the original Survey Assessment (so called) and that they cannot be remedied without an entire remodelling —

20. The Board do not think it expedient to withdraw the obligation imposed on the cultivators of double crop land till they can at the same time modify the rules with regard to single crop land for whilst on the one hand Comparisons are drawn with the neighbouring Districts which bear hard on the Talooks in question yet on the other the fact that the single crop land (by far exceeding the Double Crop) is more favorably assessed has been too much kept out of mind: Mr Bruff in his last letter does not lose sight of this and observes at the same time that other causes besides those chiefly adverted to by Mr Boundillon (viz. the levy of a 2nd Crop tax whether raised or not) may operate to throw the highest assessed lands out of cultivation as for instance an assessment higher than the real quality of the land will bear

15th Apl in Cons 12th May 53 + para 8

even

even when there is water sufficient for a 2nd Crop. He also adverts to the probability of cultivation being drawn off from the Double Crop lands not because of too high a rate or because of the 2d Crop rate but because the single Crop lands are too favorably assessed (with reference to their being permitted to raise 2 Crops though only assessed for one) in proportion.

21. He also points out that though the per centage of waste in the highly assessed lands appears very great yet it is to be borne in mind that the quantity of highly assessed land is very small in comparison with the other and the giving up of a few fields shews far greater in a per centage Statement.

+ Para 6. 22. He also shews + that the 4 Talooks of the Sub Collectors charge which have been the subject of so much discussion have not declined in Revenue since the question was mooted in Fasly 1247 (1837)

23 While therefore the Board admit that the assessment is so irregular and indeterminate as to necessitate a thorough revision they doubt if on the whole there has been such loss to the Ryots by the 2nd Crop Rules as the Government and Court of Directors may have

supposed - Most of the highly assessed lands it is true are left uncultivated but they bear a small proportion to the whole Ayacut, whilst on the other hand there is no doubt that much land paying only single crop rates must undergo a new assessment be made liable for Fasul jasty when water is taken from the Cinear Reservoir for a second crop, and with regard to the higher classed lands the Board do not over look the distinction between land never taken up and that taken and given up again as a loosing concern. The term "left waste" is too apt to imply that burdens have been laid on industrious cultivators till they have been compelled to give up their farms.

Ordered that a Copy of the foregoing Contract be submitted to Government.

Bd No. 2122 Further Proceedings. 23-25

The Acting Collector here replies to the queries contained in Board's Proceeding 12th July 1852 and reports that the alteration in the assessment of 2 Crop land which only is raised in 3 Villages of the Vellore Talook was made by Mr Boundillon without

Fort St. George 10th October 1853

without previous Communication with the Board though it would appear that he was about to apply for sanction when he was called away from the District.—

2— A Statement of the cultivation for Fusly 1259 and 1262 in the lands to which Mr. Bourdillon's modification applies is submitted, by which it is seen that but little advantage has been taken of the measure proposed.

3. The Board have no objection to allow a trial of Mr. Bourdillon's experiment in the 3 Villages in question but to extend the indulgence as a general measure to the 5 Talooks appears undesirable till the revision of the Assessment generally is entered on. On this subject the Board have addressed Government in connection with Mr. Britts letter of 15th April 1853.

3. From the above it will be seen that the home consumption exhibits a decrease of Rs. 21046-9-4 and the inland consumption of Rs. 27228, in the export of Salt by Sea there was an increase of Rupees 630, and in the export to Karical a slight decrease of 26 Rupees. The causes which have operated to produce this decrease have been the following. Owing to to the unprecedented Sales in Fusly 1261, the Salt remaining on hand in December last at the pans of Sendelly and Adrampatam in the South, was reduced to a very low ebb, at the former pans there were but four garce on hand, and although this was in great measure anticipated, and it had been intended to supply the deficiency by increased and early manufacture, the intention was frustrated by the frequent falls of rain. The Salt Sales were further affected by the heavy rains which fell from October to January extending into an unusually late period and retarding the growth of fresh vegetables with which Salt is largely consumed but the chief falling off in the Sales must be attributed to the

heavy storm of March in which the entire fruit Crop over the whole province was destroyed. It is the universal practice for the inhabitants of Tanjore to prepare large stores of fruit pickled with Salt in the fruit season for consumption at an after period and as this year there has been no fruit at all, the practice has of necessity been suspended. In a population of Sixteen hundred thousand persons, the Board will readily see how such a sudden change of habit must have acted on the sale of an article extensively consumed. The storm also affected the sales in another and not less effectual way by rendering the roads impassable for some considerable time and the merchants being unable to wait for an article of daily demand would naturally resort to the pans of other districts where the storm did not extend. Further there is reason to believe that the very large sales of Fusly 1261 were irregularly brought on by the Salt Officers of the Southern pans paying a rate per garce to all merchants purchasing at their stores, in the expectation that as an inevitable consequence the diction of the following year would be proportionally increased and having effected their object in this and ceased to offer any extra inducement to

to merchants to frequent their ports the trade has again fallen into its natural channels. The marginal Statements shew that the sales in Fusly 1262 were only 18919 Rupees below the average of the last five years, and that this decrease has been almost entirely in the consumption of the District most seriously affected by the storm.

The Sea Custom collections exhibit a decrease of Rupees 5081-7-6 as compared with the previous Fusly chiefly to be ascribed to a decrease in the export of rice -

The

Fort St. George 10th October 1853.

7- The produce of the year was not only diminished in quantity but seriously deteriorated in quality, by the storm of last March, and these facts having become known to the authorities in Ceylon they took measures to procure a supply of grain from other places than the ports in Tanjore, as is seen in the Statements which have been lately received from the Board of the imports in to the Island during the last three years.

8- The loss also in the Storm of 17 ships besides Dhonies, belonging to the principal ports of the district contributed in no small degree to the diminished export of rice - The increase of Rupees 2965-10-11 from the Collections on the export of rice from the French territory is however to some set off to the decrease in the Sea Custom Collections -

A.B. Harry

P.
1261 – 122080–
1262 – 100830
Decrease 21250

10. The A.B. Harry rents were for fusly 1262 considerably lower than in the preceding year, but as the circumstances influencing the bidding, have been already laid before the Board in the Collectors letter of the 9th of June 1852 it is unnecessary that I should repeat them.

Motursha

1261 – 44773 – 6 – 11
1262 – 44949 – – 4
Increase 175 – 9 – 5

11. Under the head of Motursha there appears a small increase of Rupees 175 – 9 – 5 arising from an increase in the number of houses and of looms.

Fish rents

1261 – 22043 – 14 – 8
1262 – 24221 – 2 – –
Increase 177 – 3 – 4

12. The fish rents shew a small increase of Rupees 177 – 3 – 4 and the Nagarent a decrease of Rupees 180 – – – the former calls for no particular explanation, and the latter arose from the renter of fusly 1261 having been a loser in accepting the rent on terms much higher than were obtained in fusly 1260.

Nagaroot

1261 – 480
1262 – – 300
Decrease 180

Stamps

1261 – 64183 – 4 – –
1262 – 63223 – 8 – –
Decrease 959 – 12 – –

13. The decrease of Rupees 959 – 12 – – in the sale of stamps arose from the temporary check which the disasters of the storm gave to all the proceedings of the people and to the necessity which it subsequently laid upon them to give all their time and attention to remedying the losses they had suffered.

H.

The

Fort St. George 10th October 1853.

14. The whole demand for the year was Rupees 941440 – 13 – 2, of which Rupees 903964 – 12 – 3, were collected within the fusly, leaving at its close a balance of Rupees 37476 – – – 11; of this latter sum Rupees 36397 – 6 – 7 have been since collected, and the balance unrealized on the 1st of September, was Rupees 1078 – 10 – 4 – The greater part of this is however only nominal, as Rupees 780 due on that date by the French Government for salt supplied to Karical, has been since received, as has also Rupees 80 due by a renter in Tritrapoondy, and Rupees 218 – 10 – 4 only is a bonâ fide balance. This is owing by the fish renter of Trivady, for its Collections from whom, measures have been already adopted.

Bd. No. 2682
From the Collector
of Tanjore —

Sir.

I have the honor to reply to your Circular letter of the 8th of November 1852.

From 1847 to 1852, both inclusive, there were only six Suits brought in the Adawlut Courts of this District against any public servant. Of these, one was removed from the file without trial, one was defended by the Collector at his own cost, and being decided in his favor the costs were allowed to him by Government

15th Sept. 1849.

person with leisure willing to undertake the Office of Vender for the remuneration proposed-

3. At Parmagoody and Manama: during the Seats of District Courts the sale of Stamps is much larger - The venders employed at such places receive the whole Commission and considering the distance they are located from the Cusbah Stations of European Officers and the responsibilities imposed on them I question whether it would be advisable to reduce the scale of the remuneration they already receive which tho' large is not excessive, the average per mensem being for Paramagoody 14. 6. 8 and Mana-Madura 12. 6. --

4. The Stamp Darogah whose receipts are very large might be required to furnish in due form in English and Maratta the necessary accounts but I conceive that these would not only be kept with greater regularity and clearness and furnished with greater despatch by persons unconnected with the Darogah receiving their salary directly from the Treasury but there would be greater security against frauds and falsification of accounts which the leisure enjoyed by the persons proposed to be entertained would enable them fully to examine and scrutinize. -

Madura, Theroopavanum, 14th September, 1853.

11861 Fort St. George 10th October 1853.

Ordered that the foregoing letter and the previous correspondence on the subject, be submitted with the following address.

No. 462

To the Chief Secretary to Government.

(35-36)

To the Chief Secretary to Government

Submitting with the Board's recommendation correspondence respecting the Employment of an English Writer and Goomastah out of the Commission of 5 per Cent received by the Stamp Darogah in the District of Madura, and the continuance of the present Scale of remuneration received by the two Stamp Vendors of Paramagoody and Shevagunga.

Sir,

I am directed by the Board of Revenue to submit for the orders of the Right Honorable the Governor in Council, the correspondence noted in the margin, respecting the employment of an English Writer and a Tamil Goomastah, out of the Commission of 5% received by the Stamp Darogah, in the District of Madura.

From Madura 17th July in Cons. 31st March 1853,
To Sub-ot Stamps 31st March 1853.
From " " 11th June in Cons: 7th July "
To Madura 7th July "
From " 14th September in Cons: 10th October "

2. At present, it appears, that in the preparation of English accounts of Stamps, and translations of the same from Tamil into Mahratta, some of the other Servants of the Cutcherry are withdrawn from their proper business, thereby causing a delay in the general business of the Office.

3. On referring Mr Parker's proposition

11862 Fort St. George 10th October 1853.

proposition for the opinion of the Superintendent of Stamps, that Officer suggested with the view of doing away with the necessity of employing Extra hands, that the same course be adopted in Madura as is observed in other Districts; Viz.t, of appointing to each Taloot a Vender, who should receive a Commission of 3% on the sales of Stamps effected through them, the remaining 2% being drawn by the Darogah, who would in addition receive the full Commission of 5% on all sales effected by himself at the Sudder Station."

4. At present although Stamp Venders are employed in the several Taloots, they do not, with the exception of three, receive any remuneration, the whole amount of Commission on the sales wherever effected, being drawn by the Darogah at the Hoozoor.

5. It will however be seen from the Acting Collector's letter, that owing to the sales in all the Taloots, save those of Paramagoody and Shevagunga, being very small, as more fully shewn in the Table accompanying, it would be very difficult to find competent and trustworthy persons

persons, with leisure, willing to undertake the Office of Vender for the mere Commission of 3%.

6. As it appears necessary to the Board that two separate individuals should be engaged for the work connected with the sale of Stamps, so as not to interfere with the efficiency of the Collectors' Establishment, they beg to recommend that sanction be granted for the entertainment of an English Writer, and a Tamil Goomastah, on a Salary of Rupees 15 and Rupees 10½ per mensem, respectively payable from the Commission derived by the Stamp Darogah, whose remuneration, even after deducting the above, will still be amply sufficient.

7 They also recommend that the scale of remuneration, Viz. 5% already received by the two Stamp Venders of Paramagoody and Shenagungah, which gives an average income of Rupees 14. 6. 8 and Rupees 12-6-, per mensem, be allowed to remain as at present.

The Acting Collector of Madras has sought information of the Board whether the Grant No. 684 of 1801 exempting from Quit Rent certain land in the name of A. Venkatachella Moodelly was held unconditionally and in perpetuity:-

In Cons: 19th October 1801

The Grant is entered No. 27 in the Letter from Sawny Nairn of the 21st September 1801, and the recommendation of the Board is to the effect that quit rent should be charged and Government intimated their intention of directing the issue of Grant in accordance apprehently with the suggestions of the Board. The Grant having however been prepared excempting the land from rent, I am desired by the Board to request information if any

on Petition No. 684 of 1853 State that in consequence of the Petitioner having failed to discover the property stolen in a certain case of theft from a dwelling he was dismissed from Office, as the plan of holding the Heads of Villages responsible for robberies committed within the limits of their charge had been found to be productive of the best effects.—

2 The Board have always understood that this measure was applicable only to cases of gang robbery or other aggravated Crimes which from the numbers generally engaged in them can scarcely occur without the Cognizance of the Head of the Village.—

3 The Board cannot learn from your Endorsement whether the Crime in question was one of Simple theft from a dwelling committed under circumstances of Secrecy or one openly perpetrated by several individuals. If the former the Board request that you will reconsider your decision as in their opinion the general plan alluded to by you would act with undue severity if applied to cases of theft, particularly if it should entail dismissal not only for failure to discover the perpetrators of the Crime but failure to recover the Stolen property also.—

2. The only fluctuation of importance occurred under the head of Stamps in which there was an increase of Rupees 4409 arising from the operation of Act XVIII of 1848 and greater litigation during the year.—

3. The charges for the year, Rupees 2,854 were Rupees 279 above those of Fusly 1261. owing to a larger amount of Commission having been paid to the Stamp venders and to the increased refunds of Stamp revenue. Deducting these from the Collec=tions Current and arrears which a=mounted to Rupees 60,937 there remained a net revenue of Rupees 58,082 or Rupees 4233 above that of the preceding fusly.—

Sir,

With reference to the Extract from Minutes of Consultation and accompanying Papers noted in the Margin, I have the honor to submit it as my opinion that the Superintendent of Police was unquestionably right in stating that he had no power under Act XIX of 1852 to review any Judgment of any one of his Deputies in respect of any Seizure made under such act, and heard and determined before such Deputy, whose power to hear, determine and Judge, is as correctly observed by the Superintendent of Police, precisely the same as that of the Superintendent himself.

Extract Mc. Cons. dated 17th Sept. 1853
Copy of a letter from B. Cunliffe Esq. 1st — " — " — and other letters &c.

Fort St. George 13th October 1853.

2. I cannot but concur with some of the remarks of Mr. Clarke "the Deputy Superintendent of Police as to the severity with which that construction of Section XVI which he deprecates might if rigorously followed up, operate in particular cases; but this consideration I conceive to belong more properly to the legislature than to myself when called upon to construe the act, to a Superintendent or Deputy of Police when called upon to put it in force.—

3. I conceive the intention of the Legislature to have been, as expressed that "all such liquors" i.e. Spirituous or fermented, as shall be found in the possession of any offender against this act shall be "seized and confiscated.—

4. I conceive this portion of the act to be imperative, the word is not "may" but "shall" I cannot at all concur with the Deputy Superintendent of Police that it is evident from the whole tenor of the act that the adjudicating Officer is left to the exercise of his own Judgement according to the evidence &c. &c. as to what is, and what is not, liable to

"to confiscation" as I read the act, the only matter on this head left to the Judgment of the adjudicating Officer is, 1st.ly Is the party charged "an Offender against this act" 2 ndly If so, then were the liquors in question found in his posession "? If the adjudicating Officer is satisfied in the affirmative as to those two points I conceive that the act leaves him no discretion but to seize and Confiscate "all" such liquors.—

5. I conceive the view taken by the legislature to have been some-what to this effect, that when a party in posession of a Store of various liquors capable of being the objects of illegal traffic is detected in such illegal traffic in respect of one of those various liquors, he thereby becomes a general Offender against the act, and that such an enactment was deemed reasonable on the ground that though, from fear of detection, the illegal traffic would probably be confined to one Customer at a time yet that a trader in liquors clearly proved to have no scruples about selling one liquor

liquor illegally, would hardly be more scrupulous on opportunity offering, about any other liquor on his premises.—

6. I cannot conclude without expressing my entire concurrence in the remarks of the Superintendent of Police as to the perplexity that arises when attempting to Construe or to practically apply this abkarry act XIX of 1852.

Replies to an Extract from the Proceedings of the Board of Revenue dated 10th March 1853 on the subject of Hushmut Jung Bahadoor Memorial.

an Extract from the Proceedings of the Board of Revenue dated 10th March 1853. forwarding an original Memorial from Hushmut Jung Bahadoor with an order of Government thereon, and requesting the Collector to submit a concise report upon the Memorialist's case.

2 This same person in the year 1825 petitioned for the restoration of a garden in this District, which he alleged belonged to his father Noorodeen Mahomed Khan. The claim was enquired into by Mr Bishop the then Collector, who finding the topes alluded to, to be in the occupation of one Seetaramoodoo, and that this latter was willing to give it up, informed Petitioner by an Endorsement in 1825 that he might take possession of it on condition of being liable to pay the Government assessment thereon.

Upon

Upon this he assumed possession of it in 1826 thro a Vakeel but shortly after represented that the whole garden he petitioned for was not put into his possession but only a part of it - ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ ~ And it is this claim he has been now setting forth in the Memorial to the Honorable Court -

3 The Garden alluded to by the Memorialist appears to be a Tope that was planted by Moorooddeen in July 1814 when Foujdar of Nellore in the Pottapolem Village in the Nellore Talook which Tope he made over to the charge of one T. Permaul, who was required to take care of it -

4 In July 1218 the Tope was incorporated with Nowlur a Village then in formation and the Assist of 8 Pagodas which was assessed on it during the time of the Mahommadan Government was continued to be collected from Permaul - This individual dying in July 1228, the Tope passed into the hands of his son in law Seetaramadoo who continued to hold it upon the same terms till he relinquished it in 1245 as above described -

At

About 16 acres

5 At the time Moorooddeen gave over the Tope to Permaul the land on which it stood measured Goontahs 5 $\frac{29}{32}$ - In July 1235, when the Village of Nowlur was brought under Survey it measured 11 Acres and 9 $\frac{63}{64}$ Coontahs - In 1245 on the occasion of its being given up to the Memorialist, it measured only 10 acres and 37 $\frac{53}{64}$ coontahs As regards this difference it may be observed that as the Trees on the outside of the Tope were gradually removed all that portion became precluded in the neighbouring holding and thus the extent of the Tope in 1245 was smaller by 4 acres than what it was originally -

6 The Tope, such as it then was, was not made over to the Memorialist by Mr Bishop, because he possessed a superior right of property but because the party occupying it was willing to give it up - With regard to the portion he has since claimed, the land is unquestionably Government property, and the party who now occupies it has been in possession for a great length of time - Finding the case thus, I called on Petitioner's Vakeel some time back to point out the land comprised in the Garden alluded to and amounting as he stated to 10 Goontahs and to produce any Deeds he might have in support of his claim - This he has not done but has stated that he

he wrote to the Memorialist Hushmut Jung as directed, and received no reply, and that he has now been informed that Hushmut Jung is dead.

(13.14)

Sir,

B. No 2140 To the Chief Secy to Government } I am directed by the Board of Revenue with reference to the order of Government as per margin, to submit the accompanying letter from the Collector of Nellore reporting on the petition presented by Hushmut Jung Bahadoor for transmission to the Honorable Court —

Submitting with the Board's observations a letter from the Collector of Nellore reporting on the Petition presented by Hushmut Jung Bahadoor for transmission to the Honorable Court —

Dated 5th Sept. Rec'd in Secy's Office 19th January 1853 — 13th October 1853 Con. 13th March 1854

2 The facts of the Memorialists case are these. Nooroodeen Mahomed Khan his father, while Sheristadar of Nellore planted a tope in the Pottapolliem Village, in Fasly 1184 paying an assessment of 8 Pagodas for the land. This he subsequently made over to the charge of one T. Peramal to be taken care of, it remained in his possession till 1818 when owing to his death which occurred in that year it passed into the hands of his son in law Seeta Ramoo from whom, on a complaint preferred by Hushmut Bahadoor the (memorialist

a D 1974. 178

in 1845 it was transferred to the possession of the latter.

3 At the time Nooroodeen gave over the tope to Peramal its extent is stated to have been 5 29/32 Coorlees or about 18½ acres. In 1825 when the land was surveyed, it measured about 14½ acres, but on the occasion of its being given up to the Memorialist in 1845 it contained barely 13 acres. It is to recover the portion of land thus appearing to be lost that the Memorialist has petitioned.

4 In regard to this difference the Collector explains that as the trees on the outside of the tope were gradually removed, the land became absorbed in the neighbouring holdings. The portion pointed out by the Petitioner as having belonged to his tope is stated unquestionably to be Government property, and to have been in the possession of the present holder for a long time. The Petitioners Vakeel was called upon to produce any deeds he might have in support of his claim but this has not been done.

From former correspondence on the subject it is seen that the Tope was assessed in 1801 while in the possession of Peramal and that it was made over in 1845 not as a matter of right but on the occupant Seeta Ramoo agreeing to relinquish it to the Petitioner, who during the interval of 44 years had adduced no claim to it.

From Collr of Nellore in letter dated 30th March 1846.

5

6 The area at the date of relinquishment

relinquishment continues at the present time, and under these circumstances the Board think that Petitioner has no ground of complaint.

7. From the concluding para of the Collector's report it would appear that the Memorialist is now dead.

Submits explanation called for in the Board's Proceedings dated 25th August last in regard to the Sale of certain Tobacco in the ex Kolalaloik by public Auction.-

Sir,

With reference to the Extract from the Proceedings of the Board of Revenue dated the 25th Ultimo, I have the honor to state that the proclamation merely stated that the Tobacco would be sold by public Auction but the Board will see that it was clearly made known that the offers were to be confirmed by the Huzoor, and that the purchaser's agreements to pay the full price was taken in writing. He purchased it with the risk of profit and loss, and had no right to repudiate it and confuse the accounts because prices fell, and I think that to allow of this would be a bad precedent.-

What do you say regarding taking the tobacco and paying its value? - I offered to purchase the tobacco in hopes of being able to get it in a day or two afterwards; but as it has not been delivered to me up to this time and as, since the 15th Instant, good tobacco has been pro:

3. Was any period specified in the Dar:

4 If so, how is it that you say that as the period fixed has expired, you do not require the Tobacco? - I say so, as it was declared that the order of the Collector would be received in a day or two which led me to hope that I would get the tobacco in a short time.

Was

yes

5 Was it not mentioned that a report would be made regarding the offer made by you and that as soon as it has been accepted the tobacco would be given to you?

Yes, it was mentioned.

6 If so no order has been as yet received to that effect. An order however has been received to my Petition requesting permission for putting up the tobacco to auction, on the strength of which order, I accepted your offer on my own responsibility. Therefore you ought to pay the amount for the tobacco agreeably to your offer.-

I do not now wish to take the tobacco at the rate I have offered. If the tobacco will be given to me at the rate at which it is now sold at Honore Viz.t Rupees 7/2 I have no objection to take it and pay the Amount.-

What day on say to this?

No. 3.

Translation of an Order issued to the Tahsildar of Arnkola by the Acting Additional Sub Collector dated 18th January 1853.

Your Petition No. 653 has been perused. you have reported that out of the 15 Candies of Tobacco at Tuddery consisting of 105 bales. Syed Babsher has bid for 10 bales and Haggady Govinda Shanbogue for 95 bales at somewhat more than Rupees 19 per bale; and that subsequently Govinda Shanbogue said that the Tobacco should be given to him for a lower price as some time has elapsed since he had made the bid; whose deposition to that effect you have forwarded. Order has however been passed in this case agreeably to the Yadast from the Hoozoor which confirmed the Offers. As more than 10 Rupees a Candy was bid at the auction you might have confirmed the bid and collected the money. If you had entertained any doubts as to putting the whole of the Tobacco up to an Auction you might have given the bidder at least a moiety of the Tobacco and received from him the price. In consequence of your not having

11900

having done so, these disputes have arisen. This is owing to your want of attention. It is not proper that the bidders after having made offers for the Tobacco and put their Signatures to the Auction list and made no objections then should make objections now after having heard of the arrival of Tobacco from different quarters. They should pay for the Tobacco agreeably to their bid and take it. You are to inform Heggady Govinda Shanbogue and also the other persons, should he also start objections, that if they will not do so but raise vain objections they will lose their credit and respect, and that the Tobacco will be put up again to Auction at their risk - and make the Tobacco over to them, and receive from them the Amount and forward a report to me on the Subject.-

and he was fully aware that the sale was subject to the confirmation of the Collector.

5. Under these circumstances it became necessary to resell the Tobacco, which was accordingly done in the presence of the first purchaser. 6. As this individual was aware of the terms of the sale, the Board are of opinion that he was bound to make good his contract and failing this, that he is answerable for the loss that has accrued to Government, and would therefore recommend that the Collector may be authorized to file the complaint and conduct the prosecution at the public expense.

Sir,

From the Collector of Malabar.

Submits further information as desired in the Boards Proceedings dated 9th Inst. and the orders of Government thereon of the 23d July last relative to the Parpanad of Malabamah.

With reference to the Extract from the Proceedings of the Board of Revenue dated 9th June and the orders of Government thereon of the 23d July last, I have the honor to state that the Manlikkanah allowed to the Parpanad family appears from the earliest records. Vide Enclosure 1 to Major Macleods report dated 18th June 1802. and Mr. Rice Bards letter to the Board of the 9th May 1803 to have been apportioned to two branches in the proportion of Rupees 2057-2-0 per annum to each.

2. The Statement forwarded with the letter from Mr. Rice Bards just alluded to shews by the Credit-side that "one-half of the one-fifth of the net Revenue of the Parpanad District for the years 976-977 1800/1 1801/2 and 978 1802/3 amounted to "Pagodas 587-31-50 per annum" - which is equivalent to Rupees 2057-2-0.

The

Ft. St. George 13th October 1853.

3. The arrears alluded to in the 5th para of Mr. Vaughans letter to the Board of the 27th September 1819. were connected with this account of Mr. Richards - From the date of that account up to the time of Mr. Vaughans writing or from the year 1793 Sept. 18 to 1803 Sept. 9 to 1819 June 13 a period of 15 years and 9 months arrears it will be seen had accumulated to the amount of Rs. 32397 - 1 - 7 which is at the rate of Pagodas 887 - 31 - 5½ or Rupees 2057 - 2 - 4 per Annum

The rate given in Mr. Vaughans letter - Viz. Pagodas 293 - 3½ - 68 or Rupees 1028 - 2 - 10 per annum instead of Pagodas 887 - 31 - 5½ or Rupees 2057 - 2 - 4 is evidently a mistake -

4. The Board will observe that Mr. Richards in the 3d para of his letter of the 9th May 1803 - above referred to remarks - "It is also "stated in the same Mal. Branch "Statement under the head of the "Parpenad family - that they "the Parpenad Rajahs only "get one tenth of the Collec- "tions of that Country, the other tenth

5. This reserved one tenth or one half of the Parpenad Malabarnah formed the subject of a long correspond- ence with the Board of Revenue as per Margin to which I would beg attention - It will be evident on a perusal of the whole that the remark in the 3d para of Mr. Vaughans letter of the 27th September 1819 that "one branch of the "family thus situated with "respect to having lost his rank in "society has not and still continues "to receive a moiety of the Maulkarnah "claimed, if not with the sanction "at all events with the knowledge "of your Board and Government" had reference to the one half of the Parpenad.

family.

2. The observations recorded by Mr. Conolly in the three first paras of his letter clearly show that the Amount of the Malabanah was Rupees 2057. 2-4 to each of the two branches of the Parpenaad family, and that the rate mentioned in Mr. Vaughan's letter of the 27th September 1819 Viz. Rupees 1028 - 2 - 10 per Annum is a mistake, as will be at once seen by comparing the Amount of arrears mentioned in that letter Viz. Rupees 32397. 1. 7 with the periods of their accumulation which was 15 years and 9 Months.

Inform 7th Oct. 1819.

3. The Boards are unable to state from the correspondence on this subject on their records thereof at date when the Malabanah was first sanctioned, but it will be seen from Mr. Richards letter to them dated 9th May 1803 that "the Malabanah to the Rajahs of Malabar and "Sundry Nayr Chieftains was confirmed "to them by a regular series of written "deeds from our first charge of the Province "up to the end of the quinquennial leases "which expired in 974 M.S. or 1800 A.D. from "which period these allowances were con- "tinued to the Rajahs &c. and indeed con- "sidered as their right".

From the Acting Collector of Madras — Sir

In the Advocate Generals letter of the 9th September 1820 he observed that the new Conveyances should be granted once as settling the respective rights of Parties and of Government, but that when that was once done it would be mischievous and hazardous to make regrants subsequently, and much more so to issue Certificates or Warranties by way of accrediting private Sales. I find however that it has by no means been of late the practice to restrict the issue of Certificates to the cases contemplated by the advocate General, where a Certificate of the new form had not been previously issued. Indeed in the majority of cases that came before me it seems that the sole object of the parties is to confirm their title whether their land be held under a grant in the old form or under one in the new. I therefore propose hereafter with the Boards approval to revert to the practice recommended by Mr Norton and when a Certificate in the new form is produced to register its transfer after

after the usual notice, instead of issuing a fresh certificate.—

The Board of Revenue concur with the Acting Collector as to the impropriety of granting fresh Certificates in cases where certificates in the new forms have already been issued. Where transfers of such Certificates have been made it will suffice to register such transfers after the prescribed notice, and Certify the fact of such registry upon the Certificates themselves.—

I have the honor with reference to the accompanying Copy of the correspondence noted in the margin to ask the advice of the Board as to the steps to be adopted to discourage the employment of attorneys by parties applying to this Office for Certificates.—

Requesting the Board's orders on the application of attorneys to appear on behalf of parties who apply to take out or of those who dispute their right to take out Certificates in this Department.—

2 To my mind the impression conveyed by the advocate General's letter dated 9th September 1853 is

is that unless the title of an applicant for a Certificate is abundantly clear without assistance of a professional attorney, the Certificate ought to be withheld, and it seems that as parties have got into the way of resorting to this Office to procure a sort of decision upon points which ought either to be settled in a competent Court or by agreement.—

3 In the case referred to by Mr. Crampton one Naraina Swamy Naik gave the property to his daughter Saravammal for her life portion. Saravammall died as well as her husband and her brother Soondra Naik professes to have sold it to Soobroy Moodely who applies for a certificate. He is opposed by Appaya Naik and his brothers, as the brothers of the husband of the late Saravammall and their right to the property is supported by the Mother of the deceased on the ground that they have performed the funeral ceremonies of their brother and his wife. In a case so complicated as this it appears inadvisable to give the Certificate until they have come to some agreement.—

The Board are of opinion that the Collectors decision in the case referred to in the foregoing letter was correct and that he is justified in refusing to grant Certificates unless the title of an applicant is abundantly clear. In all complicated cases requiring the presence of professional assistance the safest course will be to refer the parties to the decision of a Competent Court.

2 The Petitioner Runga Chary having attended the Board's office at their requisition, a preliminary Statement was taken from him in which he represented in general terms the charges he had already made in his first Petition to the Government. He requested that the Naib Sheristadar might be suspended from Office, and the Village accounts Seized, but the Board were of opinion that such extreme measures could not with any justice or propriety be resorted to against a high public servant on the bare assertion of improper conduct by an individual. They accordingly addressed the

accompanying instructions to the Collector directing him to proceed into the Talook and make a personal investigation of the matter, taking care that the party accused should bear no part in the investigation. They also requested Mr Cockburn's personal attendance at their Office, when necessity for a strict and impartial investigation was duly impressed on him. and they have reason to believe that he is now occupied in the enquiry on the Spot. His report when received will be duly submitted to the Government.

3 The Petitions Nos 1617 and 1779 for

from other parties who respecting the allegations of Runga Chary, state in addition that the Naib Sheristadar had purchased a bond of for 10,000 Rupees in the name of his son, and had lately given a car valued at 8000 Rupees to the Pagoda at Conjeveram.

4 Runga Chary himself was questioned by the Board on the first point but he distinctly stated that he had mentioned it on hearsay of the truth of which he could give no proof or any information likely to lead to proof.

5 A reference will now be made to the Accountant General's Office for information if any bond had been lately purchased or any interest drawn by the Naib Sheristadar upon any Government Paper whatsoever.

6 The presentation of the Car to the Pagoda would appear to be a new charge against the Sheristadar but the Collector will now be directed to investigate this matter also and to include the result of his enquiry in the general report to be forwarded by him.

Petitions from certain Proprietors of Betel Gardens at Parambore } —"— 17 —"

Para 1 In the papers above recorded Major Pears submits his observations on the letters from the Agent and Chief Railway Engineer forwarding a Plan and Section of that portion of the line of Railway situated within the limits of Madras for the guidance of the authorities in obtaining possession of the land required.

2. The direction of the line

is considered by the consulting Engineer to be in every respect unobjectionable and little private property of value is interfered with. The Government are glad to learn that there has not yet appeared any disposition on the part of the Proprietors to object to giving up the ground provided fair compensation is allowed them.

3 As regards the ground required between Elmes Battery and Royapooram for the terminal Station it is observed that the agent of the P and O. S. Navigation Company was allowed to construct the sheds for storing the coal belonging to that Company under the stipulation of removing them at any time the Government may require. The Chief Engineer will accordingly be instructed with reference to the Correspondence noted in the margin to call upon the agent of the above Company to resign the coal sheds at

at a fair valuation, and to Select some other site for their erection. He will also place himself in communication with the Military Board, and Chief Magistrate and Superintendent of Police and arrange for clearing away a portion of the Fishermens huts and other buildings included within the Space required, on the understanding that due compensation will be immediately awarded to the owners.

4 The Committee for the Management of the affairs of the Choultry will be required in communication with the Consulting Engineer to arrange for making over to the Officers of the Railway Company at a fair valuation that portion of the Lepper Hospital and the manager Choultry which is required for the purposes of the Railway.

5 With respect to the land which it is proposed the line of Railway along the North Esplanade of Black Town shall occupy. it is observed that the Military Board and Chief Engineer were requested in Extract Minutes of Consultation 19th April last

No 7 more than 2 months ago to report their opinions on the propriety of making the land over to the Railway Company, stating any substantial objections that might occur to them to its being so occupied, they were also desired to state to whom the land belongs and in whose possession it now is. No reply having been received to this reference the Government have only now to direct the Military Board and Chief Engineer to take immediate measures for the transfer to the Company of the land appertaining to the Esplanade or belonging to Government under their control which may be needed for the construction of the line.

6 Until an Act is passed giving the same authority for taking immediate possession of land required for the Railway within the limits of the town and Suburbs of Madras which is given by Act XX of 1852 with respect to land without those limits, nothing can be done but by negotiation with the parties interested. The Governor in Council resolves in the mean time to appoint the Collector of Madras to conduct the negotiations

negotiations which may be necessary in order to obtain possession of the lands required, and authorizes him to settle with the parties interested agreeably to Section V of the said Act when they are willing to accept the compensation which he thinks equitable. The Petitions received from the Proprietors of certain Betel Gardens at Perambore will accordingly be forwarded to the Collector of Madras with instructions to afford the Railway Officers every aid and facility in obtaining possession of the land required on the intended line, and to adjust claims to Compensation that may be preferred by the owners and occupiers of the land. He will also assure the Petitioners and the other inhabitants on the line that all damage that may be done to their property by the Officers of the Company in the execution of their duty will be allowed for in awarding Compensation for the land that may be taken up. and he will endeavour by his personal influence in direct Communication with them to dispose them

them to give a Cheerful consent to the proceedings in prosecution of this important project which may affect their private property and interest. The Collector will put himself in communication with the consulting Engineer whenever there may be occasion for his aid and advice in arranging for the occupation of the land and settling disputes concerning it.

7 It is very desirable that Compensation and purchase money for land taken should be paid to the owners as speedily as possible after the terms have been settled and it is also very necessary that all payments should be made to the parties by the Collector himself who will therefore be so good as to submit his Bills for Compensation direct to Government as they may be ready in order that early authority may be given for their discharge and that final settlement with those who readily assent to the terms proffered may not be delayed by the objection of others requiring investigation. The Collector will advise with the Honorable Company's Solicitor as to the terms in which the

consent

consent of the parties to accept the Compensation proffered to them should be exceptfsed, perhaps they should be required to execute a bill of sale in some Cases ie when the title is quite clear and the parties are certainly competent to sell.

8 The Government agree with Major Pears that in obtaining sufficient land for a double line of Railway including the ground required to supply soil for embarkments &c the whole should be taken as a permanent arrangement and on the completion of the Railway such portion of the latter space as may no longer be required may be disposed of as may be then thought fit, instead of negotiating for the retransfer of the land to the owners.

9 Under the opinion expressed in Para 9 of Major Pears remarks the Government approve of Cochrane Canal being crossed by a high & permanent Bridge which however should be adopted for a double line of Railway as already suggested by them

them in para 9 of the Contract minutes of Consultation 12th January 1852 No 35.

applied for by Ponnum-bala Moodelly & praying Endorsement on certain petitions.

1852 on the general question as to the modifications which may be made in the forms of Certificates issued for lands at Madras and on the special question in respect to the issue of a Certificate for certain lands which has been applied for by Ponnumbala Moodelly.

Note drawn up by the late Advocate Genl in 1828 in communication with the Board of Revenue.

2 The Board consider that the clause in the present forms A and B which provides for the recovery of the Quit rent by distraint may be omitted as the terms of the recent act XII 1851 for securing the land revenue of Madras render such condition unnecessary. They also think that these instruments need not be sealed with the East India Company's seal and that it will suffice if the seal of the Collector of Madras be affixed to them for the future. They have submitted an altered Certificate of the forms B to show the modifications that they propose similar alterations will have to be made in form A.

3 The Right Honorable the Governor in Council agrees with the Board

Fort St George 17th October 1853

Board that Act XII 1851 renders needless any stipulations in the Certificates in respect to distraint It may not be necessary to Expunge this point from the printed forms now in hand but when fresh forms have to be struck off. the passage which has been scored out by the Board in their Enclosure B may be omitted. The Government of Fort St George think with the Board that the present practice of causing the East India Company's Seal to be affixed in the Government Office to the Certificates is unnecessary and that the application by the Collector of Madras of his own official Seal will answer every purpose. On this last point however they resolve, as suggested by the Acting Collector to consult the Advocate General, Mr Smyth, will be requested to state whether he sees any objection to the Collectors seal being used in lieu of that of the East India Company.

4 In respect to the certificate for which application has been made by Ponnumbala Moodelly the Board submit their opinion that the Certificate may be issued observing that

11935

Fort St George 17th October 1853

that the parties from whom their individual claims are stated to have been in possession of the premises for 20 years and that his opponent has taken no steps in a competent Court to substantiate his right in the interval. It would however seem that before the Collector there has been a continued opposition to the issue of the Certificate since 1843 which is one half the period of 20 years. It is remarked too that the bill of sale said to have been executed by Chinna Sawmy Chetty the party in whose name the present Certificate stands to D. Iyah Moodelly appears not to be forthcoming. On the whole the Government do not consider from the information now before them that it would be safe to authorize the issue of the Certificate applied for. The Acting Collector will make intimation accordingly to the several parties concerned.

2. The Acting Collector does not think that any advantage is likely to result from a repetition of the experiment, which failed in 1846, but he sees no objection to a notification being issued, intimating that all licensed Arrack Venders and Retail Dealers in Wine may be supplied with Rum for retail sale on applications to his Office, and on payment of the prescribed Excise duty on the quantity required. Remarks.

11-

No 1 The Acting Deputy Sheristadar's pay is entered in this Account under the sanction conveyed in an Extract from the Minutes of Consultation dated 19th January 1853 the increase is owing to his pay being estimated for the whole period of the year whereas it was paid for a portion only of the period of actual charge.-

No 2 and 3. This increase is owing to the Wages of two Moochies and 2 Mashaljees required to be employed with the Cutcherries of 2 Assistant Collectors during the period they are likely to be on Circuit away from the Collector's Establishment being estimated whereas the pay of one additional Moochie and 1 Mashaljee only was disbursed for 3 months during the period of actual charge.-

No 4. These servants are required to assist the fixed Establishment in preparing and examining the Accounts during the Summahlundy Settlement.-

No 5. This item is for the wages of Mahassooldars employed to watch the grazing tracts till the rent of the same is settled.-

No 6 In lieu of allowances to Curnums from the Collections in certain Villages during the Zemindar's management a Monthly Salary of Rupees 3 each is paid to certain persons actually performing the duties.-

No 7. This Bramin has long been employed to supply water to the servants during the sale of Salt at Chinna Ganjam.-

No 8. These Men are employed for conveying the Tappal over the Mogadarummah and Moottadera two salt Creeks between Nizampatam and Bauptla.-
The increase is owing to the pay of the Boatman employed over the Mogadarummah salt Creek being estimated for 12 Months at 12 annas per Month instead of 8 annas- a remission of 3-2-- hitherto granted in his Moturpha tax being disallowed.-

No 9 and 10 No remarks.-

B. No. 2714 Sir,

From the Collector of Bellary. Submitting a report upon the various Religious & Charitable Grants of this District paid by deductions from the Kistbundy Beriz either of the Land or of the Extra Sources of Revenue called for in the Board's Proceedings of 15th November 1852 and recommending that they be contended as hitherto.-

1. I have the honor to acknowledge the receipt of your Circular letter of 15th November last and to report as directed "upon the various Religious, charitable "and Personal grants of this District "paid by deductions from the Kistbundy "Beriz either of the Land or of the "Extra Sources of Revenue".-

2. Properly speaking there remains only two payments of the nature referred to which are made from the Kistbundy Beriz and these are from the Land Revenue. The nature of these two Deductions are shewn in the Statement herewith sent drawn up in the Form ordered by the Board for the Board's order.- The

3 The Total amount of Deductions from the Kistbundy Beriz of the Land Revenue as it stood in July 1261. was Rupees 1895-15-3 as shewn in Col. 152 to 159 of the Revenue Statement No. 4 transmitted with my Demandbundy accounts (See Margin) The two first items of deduction to Pagodas and Mosques have already been reported on and disposed of by the Board & are still under their consideration. The 3d item 87-8-0 is a sum paid to 3 Villages under the Mysore Government for the use of water from 3 Tanks in that Territory and is of old Standing. The next item Rupees 1371-6-10 is strictly for services performed for Village duties, with the exception of 25 Rupees paid to a Ryot for having founded a Village, and which is specially noticed in the accompanying Statement for the Board's orders. The next item Rupees 116 has been already disposed of. The last item 8-7-4 is specially noticed in the Statement. These are all the deductions made from the Kistbundy Beriz of

of the Lands Revenue and all respecting which the Board I imagine, require a report - I apprehend the Board do not require any report on those remissions on the Cultivation classed as Established Remissions and are deductions from the Gross Settlement and not from the Fisthundy Beriz -

4- Strictly speaking in like manner there are no deductions made from the Fisthundy Beriz in the Extra Sources of Revenue what remissions are made are from the Gross Settlement and the Fisthundy is fixed after those deducted - It may be proper however to inform the Board of the Nature of the Deductions made from the Extra Sources of Revenue as they no where appear in the accounts sent to the Board. They are trifling an account of them is sent -

5- The first I shall notice are the Remissions in the Veesabady allowed to certain privileged Merchants who enjoyed immunities from taxation, wholly or in part previous to the Company's Government in the Ceded Districts - There are

are 12 such persons the Amount they are exempt from is 124 Rupees These Chettiers enjoy the exemption from the Veesabady Cess as a privilege and distinction conferred upon them by former Governments and for rendering assistance to the Circar in levying the assessment - They have enjoyed the privilege for more than half a Century during the Company's Government - The exemption was confirmed by Colonel Munro the first Principal Collector of the Ceded Districts who was desirous that the inhabitants of the District should still be permitted to enjoy their privileges and distinctions to which they were so much attached - The Veesabady assessment is assessed at a certain Amount on each Talook - This is divided among all the Merchants including the Chettiers alluded to and from the total Amount a deduction is made of the remissions allowed to the privileged persons. The remainder forms the Fisthundy Beriz The annexed shews the Amount of assessment and the deductions for the Chettiers in each Talook -

Statement of Collectors

2 It would be superfluous to enter into any lengthened detail of the results Consequent on the excessive fall of rain experienced in the Months of October, November and December of the past Year. The freshes of the Paular, Cortillar and Aranee Rivers during the above period were unusually heavy; and these Causes occasioned vast injury to the Tanks and other Reservoirs, of which no less than 321 were breached. The Consequent damage sustained in the destruction of Crops situated under these and other Reservoirs the surplus water of which inundated the lands for days, and the injury otherwise occasioned to Produce already reaped and stacked in the vicinity of Rivers, Paneu Channels Modoogoos and Backwaters which overflowed their banks was indeed considerable.

3 The above Circumstances added to the depreciation of grain in the Market induced me to recommend a remission of a fixed per centage on the Berij of each Ryot as the most feasible and expedient plan of

Letter dated 5 March 1853

evil which appeared so general. At the same time proposed to remit, in accordance with the rules in force, the Teeroa of lands the Produce on which had been entirely destroyed by inundation, and to recommend such Cases of partial failures of Crops arising from similar Causes in which Ryots appeared particularly deserving of Indulgence. The first part of my recommendation did not meet the approval of the Board of Revenue, who however directed me to abstain from the rigide enforcement of the latter Rules, adding that for such Ryots as in my judgement needed indulgence the amount uncollected should be reported for remission.

Dated 21st March 1853

4 Shortly after the receipt of this Communication from the Board the District was again visited by an unseasonable and superabundant fall of rain which averaged during the last 4 or 5 days in March to 5/4 Inches; this attended as it was with very heavy freshes in the Paular and other Rivers for several days, did perhaps greater injury than the preceding rains.

These

8 In proposing any measure for relief in respect to the actual losses so generally sustained by Ryots, I was aware of the difficulty and dissatisfaction which any attempt to make a distinction between those who were in better and those in more indigent circumstances, would give rise to, and as the progress of the settlement did not admit of a further reference being made on the subject, I consider-ed that the tenor of the order Conveyed in the Concluding part of the Board's Communication might well be made applicable to Cases of the nature now reported on, in which indulgence was really needed. and I accordingly caused Estimates of the losses to be made where the failure of produce was very Considerable, holding out hopes to the Ryots that although it was impracticable to make at the time any deduction in their Puttahs for losses of the nature, a recommendation for permission would be made in behalf of such proportion of them and to

to such extent as in reference to their individual losses appeared on due enquiry expedient and reasonable as a measure of relief on special grounds. That the examination of produce was confined-ed solely to Cases in which severe losses were sustained the accompanying statement will shew, the Commuted value of the Rail warum share of the Produce falling in the Majority of Instances below Fifteen per cent of the assessment. It must also be remarked that in this Commutation the Survey rate has been adopted which is far more favorable than Could be realized at a period when the fall in prices was so great. The Comparison must be still more unfavorable to the Ryots when it is considered that the grain was in a greater or less degree in a damaged state.—

9 I was particularly anxious to obtain the orders of the Board on the subject of this communication as soon after the Jummabundy as the necessary accounts could be prepared for submission to them, the more so as the progress of Collections was in full operation, but my being unavoidably

unavoidably obliged to absent myself on leave has Regret prevented me from transmitting this report as early as I should or otherwise have done.—

10 The Talookwar statement which accompanies exhibits the details of the losses of which estimates were formed in the first instances and classed according to the rates of per centage they bear to the Beriz of the Ryots individually, the assessment of the Lands on which the Crops have failed as well as the amount of other remissions granted to the same Individuals, by far the greater portion of which I may remark has been allowed on Lands which were not sown under various heads.+ An abstract also accompanies shewing the gross Beriz of each Talook, the remissions granted thereon, the remaining settled Beriz in comparison with that of the preceding year and the further amount proposed to be foregone.

+ Fusjeal Commissioned Bunjur Seroot or ploughed wet land not sown Poddy dry ploughed dry land not sown Rs. — As. —

11 It will be perceived that I have disallowed all claims the amount of which fell below 10 per cent of the Beriz of each Ryot, which has reduced the aggregate amount for the District from Rupees 32105 — to Rupees 28,840 — 2. — The

12 The Abstract statement will further shew that in all instances in which Indulgence is proposed to be shewn, such portions of the losses only as are in excess of 10 per Cent of the demand due on the holdings of each Ryot have been entered as recommended for remission, a measure by which Individuals whose losses nearly amount to the prescribed per Centage cannot consider themselves aggrieved as might otherwise be the case if the entire losses above it were remitted to others.—

13 I may observe that although these arrangements are regulated according to the holding of the Ryots severally and not to their Circumstances, the ends to be derived by any enquiry in view to ascertaining information on the latter point are in a great measure attained without affording any opportunity for frauds, which such enquiry from its nature would I fear open a door to, inasmuch as it has the effect of reducing the amount of remissions to Ryots paying a greater demand

Fort St. George 17th October 1853

demand (who may be reasonably considered to be Comparatively in better Circumstances) to a greater extent than allowed to those with smaller holdings. The net amount of the proposed remissions after the above deductions is Rupees 17623 — 10 — 5

I have every reason to believe that this Sum forms but a small portion of the losses actually sustained, and this not only Collectively but individually for it must be remembered that the claims which were disregarded in Consequence of Parties not having preserved their produce for the inspection of Government Servants, if entered in the Statement would have greatly augmented the amount of

Fort St. George 17th October 1853.

of proposed remissions. The matter does not admit of any remedial measures at present though doubtlessly these claims to a great extent would otherwise have proved deserving of consideration. The instructions to the Local authorities to examine the state of the crops partially destroyed were not issued until rather late in the season as it was not previously in contemplation to have recourse to the measure now recommended.

Under the above circumstances and as excessive rains had generally affected the yield of the Lands I beg to recommend that Sanction be accorded for remitting the amount proposed Viz. Rupees 17623-10-8 in the light of an Indulgence which I have already stated the peculiarly adverse nature of the season renders in my opinion urgently called for

Bd. No. 2166

Proceedings thereon, —

Requesting to submit a statement of the Remissions &c. on account of inundations &c. with the next settlement report.

Revd 5 & 8.

14.15

The Collector states that while engaged in the annual Settlement, the Ryots represented to him the heavy losses they had incurred by the inundation of their lands crops destroyed by floods, and grain swept away by the same agency, and that as it was impracticable to grant any remissions on this account at the time, he had caused Estimates of individual losses to be made and promised to refer the case for the favorable consideration of the Board. —

2. The entire Phalanustum is Estimated. At 32,105 Rupees, the rejection of all claims under 10% (3,264 Rupees) reduced the former sum to 28840 and a deduction of 10% upon the Putta Beriz of these recognised losses, ultimately brought the sum recommended for Remission to 17,623 Rupees.

3. The total Remissions at the Summah bundy were 63,786 Rupees those for Paunebooshity (10,313) and Paymaly (12,721) being unusually heavy though perhaps not larger than the circumstances of the season rendered necessary. —

4. These Remissions must have been grounded on much local investigation and the Board see no reason why those now recommended should

should not have been examined at the same period, the necessary reliefs afforded, and full explanations given in the Settlement Report.

5 There being no separate entry of Shavi, it is presumed that short crops under this head, have been included under Phalanusturus.

6 In the absence of information as to the general outturn of the year, the Board find a difficulty in passing orders upon the single feature of it now submitted. They therefore request that the Collector will again bring this matter under their notice in the Settlement Report, discussing as one general subject the remissions granted and proposed, that

that thus having the affairs of the year fully before them, they may be the better able to dispose of the question. He will mean while abstain from enforcing the payment of the sums now proposed to be struck off.

B. No 1-2374.

From the Sub Collr in Charge of North Arcot

Sir,

1. With reference to the Proceedings of the Board of Revenue dated 3d July 1851 conveying the sanction of the Government of India for the grant of land to the Village Officers in certain parts of this District; I have the honor to forward a Statement shewing the land which it is proposed to grant in lieu of certain portions of the land that has been sanctioned and which have not been made over to the Village Officers for the reasons assigned in the remark Columns of the Statement; those reasons being principally that the lands alluded to have been taken up on Pattah by Ryots who have laid out money and improved the same lands and who are consequently unwilling to part with them.

2. The extent of land thus taken up is Cawnies 52 - 3 7/16 bearing an assessment of Rupees 233-3-7. In lieu of this extent it is proposed to grant Cawnies 61 - 8 3/16 bearing the same assessment as entered in the Statement for which it is requested that the Board of Revenue will be pleased to obtain sanction.

3. Of the land for which sanction is now applied for an Extent of Cawnies 45-7 is waste, and Cawnies 15 - 13/16 is cultivated. Of this latter extent the major portion is occupied by the Village Officers themselves, and the ryots who hold the remaining land have agreed by Pegeenamah to give it up.

No. 474.

To,

The Chief Secretary to
Government.

Sir,

In Extract Minutes of Consultation dated 24th June 1851 Government communicated the sanction of the Government of India for the grant of land to the extent of Cawnies 116-5¾ bearing an assessment of Rupees 408-15-11 to the village officers in certain parts of North Arcot in lieu of the money allowances hitherto enjoyed by them. The Sub Collector in charge reports in a letter herewith submitted, that these instructions have not been fully carried out on account of certain difficulties: and solicits that he may be permitted to offer other land in exchange for the portions thus rendered unavailable.

2. The difficulties adverted to consist principally in the refusal of those to

Submitting a letter from the Sub Collector in charge of North Arcot stating that the orders of Government 24th June 1851 sanctioning the grant of certain extent of land to the Village Officers in lieu of the money allowances hitherto enjoyed by them had not been fully carried out on account of certain difficulties and soliciting that he may be permitted to offer other land in exchange for the portions thus rendered unavailable—

to give up the lands, which it was originally intended to allot to some of the Village Officers, and on which it is stated they have laid out money in digging wells and effecting other improvements— In some instances too, the refusal is on the part of the Village officers themselves who object to take up the proffered lands deeming their situation unfavorable for the purposes of cultivation—

3. A Statement of the lands thus circumstanced has been submitted by the Sub Collector, and it will be observed therefrom that their extent is 52¾ Cawnies, bearing an assessment of Rupees 2 8 3—3—7. The fresh lands proposed to be given in exchange comprize 61 8¾/16 Cawnies, bearing the same assessment and are either held on pattah by the Village Officers themselves, or are waste, or the Ryots holding them have agreed by Razeenamah to give them up.

4. The objections referred to above ought to have been ascertained before the original application was made, but as the Board see no objection to the proposal of the Sub Collector in charge, they beg to recommend it for the favorable consideration of Government.

From the Sub Collr. in Charge of North Arcot } Para 1

With reference to Mr. Bayley's letter of the 13th June last, forwarding new forms for the Annual Samabundy Accounts, and desiring that the accounts may in future be prepared according to these forms commencing with fusly 1262, I have the honor to submit certain points for the consideration of the Board

B iii No 2 It cannot be ascertained from this form if the heads "Ryots" and "Puttahs" are to include respectively the individuals who pay the Motorpha Revenue and those Puttahs issued on that account. If they are to be included I believe it would be proper to distinguish this class of persons and Puttahs from the Ryots who pay the Land

Under the explanation afforded requests sanction the preparation of the Summa Bundy accounts in the new form from fusly 1262—

Land Revenue and the puttahs issued for that branch of Revenue—

No. 7. The Columns from 2 to 9 of this Statement are to be filled up in accordance with the Survey Accounts. To do this it is necessary that the Survey Accounts should in the first instance be arranged so as to ascertain which of them are not to be found among the Koorgoor Records and the deficiency must then be supplied from the Talook Records or from the accounts of Curnums. This done, such of the accounts which do not shew the total Ayacut, as is the case with money must be added up head after head and Village after Village. This is a work which it is now too late to undertake for the timely preparation of the account for fusly 1262—

In many parts of the District the land, measured more or less than the extent which the survey accounts profess to shew the excess is generally called "Jareeb Jasty" and the deficiency "Jareeb Kummee". No remission is granted on account of "Jareeb Kummee" but as in case of "Jareeb Jasty" the excess is brought to account, it is advisable

No. 7. The columns from 2 to 9 of this Statement are to be filled up in accordance with the Survey Accounts. To do this it is necessary that the Survey Accounts should in the first instance be arranged so as to ascertain which of them are not to be found among the Kooyoor Records and the deficiency must then be supplied from the Talook Records or from the accounts of Curnums. This done such of the accounts which do not shew the total Ayacut, as is the case with money must be added up head after head and Village after Village. This is a work which it is now too late to undertake for the timely preparation of the account for fusly 1262—

In many parts of the District the land, measured more or less than the extent which the survey accounts profess to shew the excess is generally called "Pareeb Jasty" and the deficiency "Pareeb Kummee". No remission is granted on account of "Pareeb Kummee" but as in case of "Pareeb Jasty" the excess is brought to account, it is advisable that

Fort St. George 17th October 1853

that a Column should be inserted after the 9th Column, to add this "Jared Jastee" to the Totacal Ayacut — It is also necessary to open new Columns to deduct from the assessment entered in the 9th Column the difference between this assessment which is according to the Survey Accounts and the reduced assessment fixed in fusles 1221 and 1222 in some parts of the District — Again other Columns are required to add the Nunjah and totacal respectively and subtract from the Poonjah entered in the Survey accounts, the Poonjah lands converted as Nunjah and Totacal and assessed as such Fusslies 1231 and 1232. The extent of land to be entered under "Deduct waste" should be distinguished into "Layick" and "Nalayick" as particulars of this kind would be a standard to judge of the prosperity of a District —

No. 8.

In the 6th item "Kennidars" it would appear that the Enams granted to the Kennidars are to be entered — To obtain the accounts showing the Enams must be obtained from the Kennidars but from the generally slovenly and insufficient manner

Fort St. George 17th October 1853.

in which the Zemindars keep such accounts, it is very unlikely that they could be induced to comply with the wishes of the Board without a great delay — The word "collected" in Column 20 appears to be a clerical error because Columns 20 to 24 are but the particulars of the total extent of cultivation —

2. Thus the Statement A in No. 2 B in No. 2 and No. 7 require modifications — and the Statements Nos. 7 and 8 cannot be submitted for fusly 1262 without considerably delaying the transmission of the Summary Report — I therefore request the Board of Revenue will favor me with their orders on the observations now offered and will be pleased to sanction the preparation of their accounts from Fusly 1263, instead of from fusly 1262 —

suffice if Enclosure in form No. 2 gives the particulars for Cattle used in cultivation Enclosure in form No. 7 should exhibit simply the Land Revenue ryots and Puttahs.—

2. The Collector is authorized to prepare Statement No. 7 according to the new form from fusly 1263 and also to open an heading for Parcel Tasty after Column 9. In Column 9 the full assessment should be exhibited and the reductions stated to have been made in fusslies 1221 & 1222 shewn with their remissions in Statement No. 14.

3. With reference to the Collector's remark on the subject of Poonjah lands converted into Nunjah and Tolacal the Collector is informed that these items should be entered both under the head of Poonjah in Statement No. 7 with their Survey Poonjah assessment and also under that of "Dry converted into garden and Wet" in the Dittum and Cultivation Statements Nos. 9 and 10.—

4. The heading "Deduct waste" may be particularized in the manner requested by the Collector and he is at the same time informed that the Pymash Chitta of each Village should

should invariably be kept and among the Curzoon records.—

5. By the term Zeamindars Enams is meant those Enams which have in certain districts been granted to the Zemindars for their maintenance in lieu of the Jagheers &ca. formerly granted them which have been brought under attachment. In Column 20 the word "Collected" is a clerical error for Cultivated.—

acknowledge your letter of the 19th Instant and to explain that the delay in sending the Accounts therein alluded to has arisen from the late period at which the Summary was unavoidably made in some Talooks of the Sub Division. The Repair of the Vellaur Annicut led to a pressing demand on the time of the Sub Collector and his Establishment, which was further occupied by enquiries into the losses caused to the ryots by the storm of March last; so that the Settlement could not be compiled within the fusly. It is now in my power to send the Demand Collection and Balance Statement for the fusly ending 11th July last, and the Subsequent one will be forwarded without delay—

acknowledge your letter of the 19th Instant and to explain that the delay in sending the Accounts therein alluded to has arisen from the late period at which the Summary was unavoidably made in some Talooks of the Sub Division. The repair of the Vellaur Annicut led to a pressing demand on the time of the Sub Collector and his Establishment, which was further occupied by enquiries into the losses caused to the ryots by the storm of March last; so that the Settlement could not be compiled within the fusly. P. No. 2002.

From the Collector of South Arcot

Sir

I have the honor to acknowledge Extract from the Board's Proceedings of the 19th Ultimo and to state that in conformity to the instructions therein contained Captain Priestley is proceeding to Survey a small Village on both the methods under discussion and will hereafter report the result.

With reference to the Board's Proceedings dated 19th Ultimo Enclosed Copy of a letter from Captain Priestley suggesting his connecting his Survey with the Trigonometrical operations of Colonel Lambton &c.

2 Captain Priestley has since addressed me a letter of which I enclose a Copy suggesting that he should take advantage of his Assistant Mr Macmahon's experience, to render his Survey more valuable, by connecting it with the Trigonometrical operations of Colonel Lambton and Captain Kater. If Captain Priestley had not thus marked for Mr Macmahon's services under his immediate inspection it was my intention to have proposed his being employed

employed in taking the levels of the lands under the Veeramm Tank and irrigation channels in the Munnargoody and Chellum=brum Talooks, to ascertain what fields are now regularly irrigated although still entered as Poonjah in the Revenue Accounts. This task can however be proceeded with here=after more especially when Mr Claudius joins the District, while Captain Priestley's suggestion ought at once to be acted upon if approved of, and as its advantages would be undoubtedly great and might be considered to make the local Survey of such higher general value as to compensate for a less rapid progress. I submit the subject for the consideration and Orders of the Board.

See Boards Proceedings 4th June 1853 and 1st September 1853.

3. Captain Priestley has found artificer Starr so useful that he has requested me to obtain if possible another Assistant of the same description I request therefore that the Board will be pleased to aide me by applying to the Superin=tendent of the Gun Carriage Manufactory for the Services of another artificer if a qualified person is available.

I.

I should be prepared to assign him an allowance of Rupees 50 per mensem which would be met by a deduction in the number of Karkoons for whose employment Sanction has been given so that the arrangement would entail no extra expense on Government.

Board's Proceedings 18 August and 2nd Sept 1853 Communication 23rd September idem.

4 In reference to Board's Pro=ceedings of 9th December 1853 Para 7 I beg to observe that some Servants from the neigh=bouring Districts might now with advantage be sent here to receive instruction in Surveying. The Monsoon will shortly oblige Captain Priestley to return for a time with his Establish=ment from Pollicemottah to Cuddalore but as the Cuddalore Talook is not included in the Vooloor Settlement and has to be Surveyed advantage will be taken of any fair weather to survey the Villages round the Head Station and when the rain prevents field operations Captain Priestley's leisure can be usefully employed in giving elementary instruction to his pupils.

Encl. No. 1

To The Collector of

Sir South Arcot

Having now been joined by my principal Assistant Mr. McMahon I am induced to address you upon the subject of the more scientific results attained by my Survey, a subject which although it has long since occupied my thoughts, has been more forcibly brought under consideration by the difficulty which seems to attend assigning a Surveyor occupation commensurate with his abilities and experience, and with the high rate of pay which he receives, a rate as you will be aware actually exceeding that which I myself draw. To employ him under my immediate superintendence to control the operations of my native Establishment in their Village measurements &c. would be to assign him a duty which could be adequately discharged at a much less Expense. Hence having obtained the advantage of Mr. McMahon's services and

and ascertaining that his occupation during many years past has consisted in filling in the Geographical details of Series of the Triangulation for the General Atlas of India I am induced to request you to be so good as to submit to the Board of Revenue the propriety of my establishing a connection between my isolated operations in a Series of minor triangles which I would propose to extend over the District in which I am now employed referring them to a Base which could be eliminated from any one of the most convenient Secondary Triangles of Colonel Lambton, or Captain Kater, whose Stations are to be found in this part of the Series. The importance of such a connection the Board will, I am sure admit it is the System adopted in all the Revenue Surveys of Bengal and Bombay also, I am told for while it establishes a principle of uniformity and accuracy in all the operations it admits of the exhibition of Geographical details as always highly acceptable and most valuable

valuable to the Hydrographical Department for a incorporation into the Atlas of India now I am informed undergoing an extensive revision The execution of this portion of my duty would not materially interfere with the attainment of the object more urgently desired by yourself and the Board of Revenue, while I have the advantage of Mr. McMahon's assistance. A Base could be assumed in a convenient locality by the re establishment of the original Points from the engraved chart of Primary and Secondary Triangulation of Southern India, and while I myself extended a series of comparatively greater capacity. Mr. McMahon could be employed in establishing a network of stations subordinate to my own each of which being permanently marked on the face of the Country would constitute fixed points of reference in regard to boundaries and co divisions of the greatest value while they would at the same time furnish stations on which to construct Plane table Sketches or Charts of all the intervening country on the ordinary atlas scale furnishing all the Geographical details so much needed in Maps of districts particularly South areat of which the details are so meagerly exhibited in the present engraved Sheets I have

I have reason to believe that such Materials would be very acceptable to the Surveyor General of India and I trust that it will not be considered unbecoming on my part to bring to the notice of the Board of Revenue the favorable opportunity which is offered for their collection by the circumstances of my position in charge of a Revenue Survey in the Province and by that of my Assistant a Surveyor of 40 years experience in the Department of the grand Trigonometrical Survey.

To, B: Cunliffe Esqre
Secretary to the
Board of Revenue,
Fort St. George-

Sir,

B. No. 2581. From the Acting Collector of Madura Reporting on Petitions Nos. 583 - 1112 and 1578 of 1853 - Referred to Revenue Board

1. With reference to the Endorsement recorded on the Petition No. 583 of 1853 from Venkat Row late Javabnevis in the Collector's Cutcherry in the zillah of Madura to the effect that it would not be proper to reemploy the Petitioner in the Public service in the Madura District,

The Collector's Endorsement dated 20th January 1853 has been misplaced and search is being made.-

I have the honor to report that the Petitioner had for some years cohabited with a Brahmin widow of bad character in Madura. on his Marriage a few days before her murder he withdrew from her but does not seem to have altogether discarded her - The deceased excited to jealousy by the age of the person chosen to be the wife of the Petitioner opened her house to many persons of bad character which so exasperated the Petitioner that he severely beat her. The deceased resented this by abusive language directed towards the Petitioner while on the Marriage procession and by publicly demanding back from him the Money

Fort St. George 17th October 1853.

Money and Jewels she had lent him to perform his nuptials, whether those articles were ever restored does not clearly appear in evidence but in a few days after the woman was found murdered, her head being nearly severed from her body - The state and condition of the house pointed to the deed having been committed by some one conversant with its arrangements and the habits of the murdered woman, suspicion was at once fixed on the Petitioner and two other Brahmins who slept with him that night on his trial. He was immediately arrested by the Police and every exertion made to trace out the perpetrators of the crime.

2- The chain of evidence against the Petitioner was incomplete and did not justify his transmission to the Criminal Court but there were many circumstances elicited in the enquiry which tended to throw the strongest suspicion on him of being if not the actual murderer the chief instigator of the crime - In the room of his Father's house which he occupied was found a bundle belonging to a supposed accomplice a Brahmin, containing clothes and a knife stained with a coloured matter which was pronounced by Mr. Assistant Surgeon Meyer, Professor of Chemistry in the Medical College of Madras, to be blood, a snuff box belonging to the Petitioner was also found

Fort St. George 17th October 1853.

found in the house of the murdered woman. On the night of the murder the Petitioner did not return to his house till a very late hour and his account of his absence was far from satisfactory - The party to whom the bundle above referred to belonged, a very intimate friend of the Petitioner and often employed by him as a Cook, decamped in a most strange hasty and unaccountable manner from the Petitioner's house before the arrival of the Police at a very early hour of the morning succeeding the night on which the murder was committed, and hid himself for many days -

3- These circumstances coupled with the facts that the Petitioner is generally believed to be the instigator of the deed and that suspicion rests on no other person made the Magistrate unwilling to employ him any longer in his Office in this District where so unfavorable an impression, and that not without good Grounds is entertained against him and led to the issue of the order appealed against -

the course in future to be adopted in regard to that part of the Village which may be sold.—

2. This Village which was granted for the support of Samiamoottoo Tavee the brother of the Istemirar zemindar's wife and on his death passed to his son Colunday sawmy Tavee, the present proprietor, is entered in the accounts of Fusly 1211 furnished by the late Istimirar zemindar in 1226 to the Collector, as assessed with an annual quit rent of 42 Pons or Rupees 66—10—4 for 42 Colums of Seed land being at the rate of 10 Myla fanams or 1 Pon per Veryady. This tax though annually entered in the accounts appear never to have been exacted from the Huckdar.—

Memorandum shewing the old land measures in and out of use in his District with their conversions in present measures and forwarding 2 Statements shewing the places where the old measures are continued-

March last, I have the honor to report for their information that the chain for Poonjah, and Seed Cottah for Nunjah, mentioned in the Memorandum which accompanied the above letter, are the correct present land measures of this District except in the 4 esceptionally settled Villages where at the time of Survey both Nunjah and Poonjah lands were measured by Cawnies, and in some Polliputs where the ancient measurements are still in use.-

2. The chain is not subdivided, it is the square of 32 rods of $4\frac{7}{32}$ Carpenters Cubits or $12\frac{7}{16}$ English feet the rod, equal to 158,404 Square feet or Acres 3-64.-

3. The Seed Cottah is subdivided into Mercalls and Paddies as hereunder shewn-

1. Square Role or rod of $3\frac{3}{4}$ Carpenters Cubits or $10\frac{1}{4}$ feet long = $105\frac{1}{16}$ Square ft. or 1/4 Paddy.-

4. Such 1/4 Paddies or $420\frac{1}{4}$ Square feet = 1 Paddy-

8 Paddies or 3362 Square feet = 1 Mercal.

21 Mercals or 70,602 Square feet = 1 Seed Cottah or Acres 1-62-

4. The Cawny is subdivided into Coolies- The square of a Role or rod of 24 feet long or 576 Square feet is equal to a Colee, 100 such Coolies or 57,600 Square feet = 1 Cawny.-

5. The Ryots of this District are well conversant with Seed Cottahs and chains which

do not vary in extent, but are the same in all the Talooks-

6- The Nunjah and Poonjah measurements which were in use before the assumption of the District by the Honorable Company in a few Talooks and in several Polliputs, and some of which still obtain in a few of the latter are mentioned in the annexed Memorandums and their extent shewn in the present measurements of Seed Cottahs and Chains-

7- The accompanying 2 Statements contain the names of the Polliputs and the particulars of the old measurements which still obtain in them.-

8. With reference to para 3 of the letter under reply, I beg to state that there are no measures in this District which can be only known by their being the quantity a certain measure of grain will sow. The Seed Cottah probably was so originally but its area has long been fixed.-

9. This report has been delayed in consequence of the difficulty experienced in obtaining the information contained in the enclosures.-

The Head of Extra Revenue stands at Rs. 16,305 - 8 - 2 as shewn in the Margin.

12.

The net decrease in the Charges of Fusly 1262 below the previous year amounting to Rupees 2,227 - 14 - 9 as shewn in the Margin is owing to a sum of Rupees 2,338 being the Cost of the Construction of the Sea Custom Cutcherry at Tuticorin in 1849 having been adjusted in the accounts of Fusly 1261 and to a decrease in the amount of Extra Charges incurred in Fusly 1262.

24. The decrease in the total demand will be observed from Statement As owing to a falling off in all the Items but Motturpha for reasons explained under their respective Heads in the preceding Paras, which was also the chief cause for the decrease of Rupees 27680-13-5 in the Current Collections. The decrease of Rupees 13,885-4-9 in the Charges is owing chiefly to there being no charges in Fusly 1262 on
