B. No. 2428.

From the Collector of Coimbatore

Forwards with reference to the Board's Circular of the 15th November 1852 a Statement exhibiting the deductions made from the Kistbundy of this District together with two lists of Dasabandam Inadeekandu Poraions of the families of Poligars—

Sir

I have the honor to acknowledge the receipt of the Board's Circular of the 15th November 1852 and as therein directed beg to transmit a Statement exhibiting the deductions made from the Kistbundy of this District—

2 The only item of a charitable nature is the payment made to a person of the name of Gyanasena chary, he receives annually Rupees 2p3: 12—11 and the circumstances connected with the grant having been fully explained to the Board in Mr. Wrenghtons letter of the 21st September 1846 any further observation seems unnecessary—

3 The Enamdar was called to my Office and clearly informed that

Fort St. George 17th October 1853.

that the grant will not be continued beyonds his life, in fact no reasonable grounds exist for such continuance.—

4. His age is now 30 years and it appears to me that instead of an annual payment of money it would be better to alienate waste lands to a similar amount subject to resumption and annal assessment on the demise of the holder.—

5 The other item of Rupees 11-12-— is the pay granted to the Mongar of Ootacammund at the time of the first European Settlement it became necessary to entertain a Mongar for the purpose of providing supplies to parties visiting the Hills, and this appointment has since been continued. Under existing circumstances the Services of this Mongar, who is the head of the Tinda Seet, are required, the population and revenue having increased.—

Fort St. George 17th October 1853.

6 I beg leave to forward two lists of Devastanum Inaudeek and of Pensions of the Families of Poligars, the annual payment sanctioned and that proposed to be fixed exclusive of the fractions of a Rupee are exhibited, the difference between the two is not great and should it meet with the approval of Government it would be taken as a Standard to regulate future payments.—

7 Superannuation and other pensions have not been included in this list.—

Coimbatore 3d September 1853.

To The Chief Secretary to Government — Submitting for the orders of Govt. a letter and Statement from the Collector of Coimbatore shewing the payments made in his district by deductions from the Kisthundy Beriz. —

With reference to para 3 of Extract Minutes Consultation dated 15th October 1852 I am directed by the Board of Revenue to submit for the orders of Government the accompanying letter and Statements from the Collector of Coimbatore dated 3d September 1853, shewing the payments made in his District by deductions from the Kisthundy Beriz.

2. The first Statement comprises two grants one of a charitable nature; and the other the pay of the Monigar of Ootacamund. The former Amounting to Rupees 293-12-11 per Annum, is at present enjoyed by an individual of the name of Ganasivachary and has been restricted to the life of the present incumbent by para 11 of the orders of Government above quoted, the Collector proposes to commute this payment into a grant of land of equal value subject to resumption on the extinction of the present life but he has not stated whether Ganaseva Chary is willing to agree to such an arrangement and it seems to the Board hardly necessary, considering that the duration of the grant is already limited. —

3. The pay of the Monigar of Ootacamund Amounting to Rs. 11-12- per Annum was authorized by Mr. Sullivan at the times of the first European Settlement and the office was conferred on the head of the Toda tribe. The object for which the

the grant was made, was for the purpose of providing Supplies to parties visiting the Hills but although the same necessity does not now exist the Collector considers the retention of the Monigar requisite in consequence of the increase that has taken place in the population and Revenue. Under these circumstances the Board would recommend the continuance of the allowance.-

No. 243. 4. The other two Statements forwarded by Mr. Thomas contain lists of the Davastanum Pusdeeks and of Pensions paid to the families of Poligars. The annual amounts sanctioned under these heads, the dates of sanction and the payments proposed to be substituted for them, exclusive of fractions of a rupee are also exhibited with reference to para 16 of the order already quoted.-

5. The Board beg to recommend that these three Statements as now revised may be sanctioned by Government and transmitted to the Audit Office to enable it to audit and admit the Charges that may hereafter appear in the Collector's Accounts under the heads to which they appertain.-

Dated No. 2338. From the Collectors of Canara. Bringing to notice certain points relative to the admission of all salt (inclusive of Goa salt) at a fixed duty with remarks as to their immediate admission or not.-

Sir, I have the honor to acknowledge an Extract from the Proceedings of the Board of Revenue dated the 8th instant, and beg to bring to their notice a few points upon which it will be necessary that I should receive their instructions in the event of the admission of Bombay and other salt into this district at a fixed duty.-

2. I beg to point out that Goa salt has hitherto only been admitted on the land frontier, it is therefore necessary that I should observe that the proposition of the Right Honorable the Governor in Council for admitting all salt (inclusive of Goa Salt) by Sea at a fixed duty of 12 annas the Maund will effect a change which was not contemplated at the time when my letter of the 10th November 1852 was written. When that letter was written I had only to report what were my views as to the arrangements necessary on the admission of Bombay Salt.

3. Bombay Salt can be admitted with

Fort St. George 17th October 1853.

with safety and the effect on our sales of admitting it will be very gradual. The revenue is protected by the Excise Establishment of Bombay as well as by our Sea Customs Establishment. The Salt is easily distinguished from our own, and is only in demand above the Ghauts. The cost will not be so much below the Monopoly price as to induce the Natives who prefer the Salt of Canara to the Bombay Salt to change to the latter.-

4. With Goa Salt it is very different. It is essentially the same as Canara Salt, and it can immediately be introduced at a rate so cheap as to supersede the Monopoly sales. When purchased for the use of the Monopoly it has been delivered by the Contractors at as low a rate as 13½ Rupees per Garce. This includes, of course, freight and a profit so that add 90 Rupees to this, and the selling price may be 103½ Rupees instead of the Monopoly price 120 Rupees.-

5. There can be no doubt therefore that the admission of Goa Salt by Sea will supersede the Monopoly sales to a very great extent and immediately. While admitted on the land frontier it has superseded the sales only as far as Ankola and Slightly

Fort St. George 17th October 1853.-

Slightly affected them as far perhaps as Honore but when admitted by Sea, the effect will be general.

6. If therefore the Government should resolve upon this Measure, I think that the change from a Monopoly to a Excise with regard to the home manufacture must be carried out at the same time; and it has now to be determined whether the admission of Goa Salt and this change shall be postponed for a period, or both be at once carried out.-

7. The Statement above given is a proof that the Consumers will gain greatly by the change, and that the Monopoly System is an expensive one.-

8. I have now to offer some remarks which I wish to submit to the Board whether or not the immediate admission of Goa Salt be resolved on.-

I have carefully examined the legislative Enactments which affect the Salt trade and as far as I can ascertain, the illicit importation of Salt is punishable only in Common with the illicit importation of other goods, by the confiscation of the goods. This appears to me to be the case whether the goods are imported by the land frontier or by Sea. If I have not overlooked any enactment on the subject while the illicit Manufature of Salt is subject to penalties sufficient to secure the Government Revenue, the Laws against illicit importation are almost nugatory.

They

Fort St. George 17th October 1853.

They are very insufficient if the parties are detected in the act of landing the Salt, but these laws are aimed against the Vessel and it's owners; and if the Vessel is not known, and only the contraband importer is discovered, the confiscation of the Salt is the only punishment. As the Cost of the Salt is only about 12 Rupees, and the Saleable value 120, the contraband dist may suffer 9 seizures and not be a loser if the 10th venture is successful.

10. I consider therefore that it is absolutely necessary for the protection of the Government Revenue that the penalties incurred by the illicit Manufacture be extended to the illecit importation of Salt.

11. If Section XVIII Regulation I of 1805 is generally applicable, the law is sufficient, but I believe that this is only aimed at Servants of Government who take part in illicit transactions.

12. I am also desirous of ascertaining whether it is the intention of Government that the duty on Bombay Salt be paid at Bombay and carried to the credit of this Government on proof of the Salt having been imported into this Presidency or whether the Salt should be imported in bond and a period allowed for the payment of the duty.

13. I am inclined to recommend that a System of bonding be adopted equally with reference to the import trade and the home Manufacture when the latter is converted into an excise. That the wholesale trade in Salt should be confined to certain prescribed localities and the storing of Salt beyond a specified quantity be forbidden except in store houses duly registered for the purpose.

B. No. 2165. To the Chief Sec.y to Government.

Sir,

I have the honor by desire of the Board to submit for the orders of Government the enclosed letter from the Collector of Canara dated 27th August 1853.

In Cons: 17th Oct.r 53.

The Board requests instructions more particularly on the first subject discussed by the Collector Viz.t the admission by Sea of Goa Salt under the general permission about to be conceded to all Foreign Salt of right of entry on a fixed duty of 12 Annas the Indian Maund.

2. The Collector points out that Goa Salt may be imported by Sea with a profit of 10 3/4 Rupees the Garce and though 13-8 the Garce is the lowest Sum at which Salt has been delivered in Canara it is fair to assume owing to the great facilities existing in the Goa territory for the production of that article that it's price will not range much higher than the above rate.

4. The Collector is therefore of opinion that this

Fort St. George 17th October 1853.

this importation will inevitably supersede the Government sales and proposes that either the excise system shall be introduced simultaneously with the import of Goa Salt, or that both measures be postponed.-

5. Goa Salt might certainly be excluded from the general concession made to the Salt from other Countries, but the Board are aware that this exception is not desirable if it can be avoided. In the event of Goa Salt imported by Sea being included in the general measure the present duty of Rupees 3 per Maund may be reimposed if the Sales of Monopoly Salt are found materially to fall off, or such a Special duty imposed as would place it on an equality with other foreign Salt. On the other hand the Government may be of opinion that the representation of the Collector is sufficiently strong to justify the exclusion of Goa Salt by Sea altogether for the present.-

6. The other propositions of the Collector are not so pressing but the Board are anxious to receive the sentiments of Government upon this reference that they may be enabled to prepare the Notification directed in Extract Minutes Consultation 2d September 1853.-

From the Collector of Canara—

Submits Copies of correspondence which has passed between himself & Mr. Silver the Additional Sub Collector, and Mr. Lascelles the Civil Judge of Honore and requests instructions on the subject.

Sir,

I have the honor to request that you will lay before the Board of Revenue the annexed letters with the view of their being laid before the Government, with such remarks as the Board may think that the Board will furnish me with such instructions as the case appears to them to require.-

1 From Mr. Silver 27th Augt with Enclosures.
2 To Mr. Lascelles 31st Do.
3 From Do —— 6th Septr.
4 From Mr. Smith with Enclosures 1st Do

2 My first intention, on receiving Mr. Lascelles' letter, was to call upon Mr. Silver to explain whether when addressing me in his letter of the 27th August he was aware that the piece of wood was the same as had formed the subject of previous investigation and of correspondence with Mr. Hall, and if so why he did not state the whole case so as to enable me to judge whether there was any ground for his interference with Mr. Lascelles' affairs- also

also whether the wood was the same as that alluded to by Mr Smith.

3. If this is the case, of which I see no doubt, I consider that Mr Silver has acted very improperly. He should have stated the case fully, as far as it was within his knowledge, and have put it in my power to exercise my judgment as to whether his proceedings thus far had been right, and whether any proceedings on my part were necessary.

4 But on further consideration it appears to me to be due to Mr Lascelles, and to be right, that I should at once lay Mr Lascelles' letter before the Government, and it would be with regret that I should enter upon any further correspondence. It is obvious that whatever might be the result of such an inquiry, it could only make it more necessary for the proper conduct of the public service that Mr Silver and Mr Lascelles should not be at the same station, and if Mr Silver intends to impugn Mr Lascelles' conduct, it is before Mr Lascelles' Superiors and not before me, that he must do so.

5. Mr Silver has already charged Mr Lascelles with misemploying convict labor, and did so in a manner which the Judges of Foujdary Adawlut considered to be most improper in every point of view, and I am so satisfied that the service of Government cannot be

/ See annexed Proceedings / 17th May 1853.

be properly continued under the present arrangement that I deem it better to abstain from any further correspondence.

6. It would be in my power to obviate the necessity of this reference, could I make any arrangement in the District which could promise better results, but this is not the case, Mr Silver has shewn that I cannot expect from him that cordial cooperation which alone could enable me to arrange for his holding the Southern charge of the District. Proof of this is already before the Board, and the records of my Office prove it still more strongly. These I shall lay before the Board, should they desire it.

7. I therefore feel it my duty to recommend that Mr Silver may be placed in some position in which his personal feelings may not impede the discharge of his duties which appear to me, except under these circumstances, to be carried on with great vigour and efficiency.

To, F. N. Maltby Esqr.
Collector of Canara.

Sir,

I have the Honor to acknowledge the receipt of your letter of the 31st ultimo wherein I am called upon to inform you by whom and under whose authority a certain Poons par belonging to me and referred to by the Sub Collector Mr Silver was felled.

2. In reply I cannot refrain from expressing deep regret that at the very time when attempts have been made by me to establish a more satisfactory understanding

Fort St. George 17th October 1853

understanding between the Sub Collector of this District Mr Silver and myself, a renewed effort should have been made on the part of that Officer, in a matter which appears to me most uncalled for, to subject my conduct again to investigation, and force upon you the necessity of calling upon me for an explanation regarding a piece of wood, which explanation he, Mr Silver, had it in his power to have given most fully, from Official correspondence on the records of his Office.

3. It was within Mr Silvers' Official Knowledge at the time he addressed you on the subject of the wood to which you allude to have informed you that it had not been cut by me that it had not been cut in the division over which he Mr Silver has charge, but that it had been cut some time ago in the Neelcoond Ghaut, by permission of the Sub Collector of that division, and therefore his interference, which is the second time he has interfered regarding this wood as shall be shown, was most uncalled for. Mr Silver I beg to state is in possession of Official record, dated not above a Month or 6 weeks ago, which placed him in full possession of all the abovementioned particulars

particulars regarding the wood in question. I must therefore refer you to Mr. Silver for the information you call upon me to furnish-

4. I feel however called upon to explain how the wood in question came into my possession, and also the reason which induced me to go to the expense of bringing it from so great a distance, when I might have been supplied in the customary manner from the neighbouring jungle of Honore, and at about one tenth of the expense - this explanation will throw some light on

5. During the last 9 years I have been in the custom, whenever I required wood, to send a Servant to the Tahsildar to explain the description of wood required, when that authority either gave, or obtained the necessary order. The wood has hitherto always been thus procured, brought down the river, and duly paid for. On very many occasions I have been thus supplied with wood and always to my satisfaction.

6. About 4 Months ago I required two masts for a pleasure boat I made the usual application for two sticks of common Cassaly wood, but I regret to say that every

every obstacle was thrown in my way to prevent my obtaining them and although every endeavour, short of a public correspondence was used to obtain an order for these two sticks, I could not succeed. I mentioned this fact to the Sub-Collector of Sirsy expressing a wish to obtain two spars. I was informed that the very best of the spars in this part of the Country after due inspection, had been condemned as unfit for Government use, and that such as I required could be had, ready cut, in the Sirsy division at the foot of the Neelcoond Ghaut. I immediately obtained this wood, preferring to pay the additional expense, of bringing the same to Honore, to holding an unpleasant correspondence with the Sub Collector of the Honore division an Officer I was anxious if possible to conciliate. But I regret to state that immediately after taking possession and on making the attempt to move this wood from the Neelcoond Ghaut, 4 Deloyets and a Duffadar were despatched from Honore to the spot where the wood had been felled

and

Fort St. George 17th October 1853.

and the necessary written orders issued by Mr Silver to prevent the removal of the wood in question till further orders from him. This act of Mr Silvers, and the peculiar manner in which it was performed which, I shall not observe upon here, did appear to me in every point of view, so very unjustifiable that it would have been necessary to have brought the matter Officially to your attention, had I not been saved this unpleasant duty by its having been immediately intimated Officially by the proper authority to Mr Silver that he had overstepped the bounds of his authority by issuing an order interfering with a matter out of the limits of his jurisdiction. This intimation induced Mr Silver to recall the order issued, and the wood was removed to Honore. I beg to state that the detention of the wood, and the expense occasioned thereby were both causes of much annoyance to me, especially the former, but that it was not my intention to have alluded to the subject, had I not been now called upon to do so by Mr Silvers conduct in having interfered a second time regarding this wood. Mr Silver under the cloak of zeal in the discharge of his duty, on the wood reaching Honore called upon

Fort St. George 17th October 1853.

upon me to state if it had been cut by permission of the Collector. I replied that it had been cut by permission of the revenue authorities. I had reason to hope that this answer would have been satisfactory and that further correspondence would have been deemed unnecessary. I regret to observe that I have been mistaken. I shall nevertheless refrain bringing forward matter connected with the transaction which has been brought to my attention, I shall also refrain from commenting upon Mr Silvers conduct, being persuaded of this that doing so would only lead to what has so frequently been disapproved of by higher authority, Viz., long unprofitable discussion. There is however a correspondence on the records of the Sub Collector Mr Silvers Office to which I now feel called upon to draw your attention; I believe it has escaped your observation, I allude to a correspondence between the said Officer Mr Silver and a Gentleman at Bombay, commenced by Mr Silver with the view, it would appear, of proving incorrect a Statement made by me in my letter to the Register of the Sudr Udalut dated 26th April last, copy of which letter I forwarded to you. I

12085 Fort St. George 17th October 1853.

7. I have not seen this correspondence to which I allude, but having heard of its nature from the Gentleman addressed by Mr. Silver, I consider myself justified in calling your attention to it. For I cannot for a moment suppose that Mr. Silver, after the observations made by the Judges of the Sudr Adalut on the subject alluded to, could be considered justified by you, in again attempting to agitate that affair.

8. I shall conclude by observing what must be perfectly evident, that so long as the public business is conducted in the spirit which at present exists at Honore, it is impossible that the duty can be satisfactorily performed. I hope therefore it will on appear to be your duty to bring the subject to the attention of Government, or to make some change which may remedy the evil.

(No. 4)

To,
Jn. N. Maltby Esqr.
Collector of Canara.
Mangalore.

Sir,

I have the honor to bring to your notice the following case in hopes you will be good enough to make such inquiries as may seem fit, and that the great annoyance and inconvenience I am labouring under may be remedied.

I beg to inform you that several letters to my address have been frequently detained either at the Honore Post Office or with the Talook Authorities for a week or upwards. On a particular occasion I wrote to Mr. Silver the Sub. Assistant Collector in charge of the talook representing the matter and requesting that he would take it into his consideration, to which I received the enclosed reply. dated 16th augt.

From a perusal of the Talook Sappaul regulations, as set forth in the Madras almanac para 6 I was led to believe that I was entitled to expect that my letters would be forwarded to me at Santgoll at least the nearest Tannah, which however Mr. Silver seems to interpret otherwise; as he says the matter rests entirely with myself. On a former occasion Mr. Robinson when in charge of the talook issued an order that my letters were not to be delayed, which order has of course

now

now become a dead letter. Many important letters have thus been delayed which required an immediate answer (both public and private) and my interests consequently much injured.

I regret much to perceive from the manner in which Mr. Silver acts towards myself that I appear to have offended him in some way; but how I am at a loss to guess. I beg to annex a few instances in order to demonstrate what I have alleged.

1st A native, a dependant of one Santapah and one Gunnapiah, employees in Mr. Silvers Cutcherry made a complaint against me for what he styled an act of violence against him, committed four months previously, inasmuch that I had detained a gun of his value 6 Rs. for arrears of rent. Before I heard of the matter, in fact several day's previously, complainants Witnesses were all brought to Honore and as if it were probable I would tamper with them, they were put under surveillance in the Cutwalls Choultry and as it happened that a native friend of mine one Doo: timmul Wadia residing at Korabagh near Honore and whom I had not seen for a month previously happened to be seen in the Tahsildars Cutcherry. application was made by Goomastah Santapah to have him also confined. On Mr. Silver addressing me a letter on the subject I immediately stated the whole case, but in the

the mean time as the "act of violence" complained of had been committed 4 Months previously, and as it was consequently necessary to make some excuse for the delay which had taken place in complaining, an attempt was made to make the Patil of Cochilnaud allow that a complaint had been previously made to him on the subject and the Complainant was allowed to insult the Potail by stating that he was a creature of mine and would not witness against me, and much harsh language was made use of to him in connexion with my name, tending to lower both of us in the opinion of all the spectators, the native in this case would never have complained, since I had not committed any violence towards him, he had given the gun himself to a third party in charge for himself and I had merely directed the third party not to give it up until my claims were settled, a common custom in this district. The native was brought to Honore and egged on by Santapah at whose dictation the arzee was written. Mr. Silver notwithstanding all my explanations ordered me either to give up the gun or defend the case and as I was aware what treatment I was likely to expect and the trouble and expense to which I should be put was not compatible with the value of the article in dispute. I gave up the article receiving a severe reprimand from Mr. Silver.

8

2d A short time after this, four peons arrived at Santgoll and asked the Puffadar to point out to them the "gunn man" as they called him, who was brought to them in Company with this man, one peon from the Santgoll Tannah and the Potail, they commenced a search throughout the Mogany for teak trees which I was alleged to have felled without permission. This gunn man, so called from having made the complaint against me as before mentioned from spiteful motives, pointed out places in the vicinity of my house, where he alleged teak trees to have stood formerly, although he and every one else well knew that there was not or ever was a single teak tree in the village. The peons proceeded all over the Mogany, always making use of my name, offering a reward of 2 Rs to any one who would point out a tree. I had felled, and stating they were sure I must have felled some, as I had a Carpenter at work for a whole year, and made minute inquiries as to what new furniture I had made &c. They did not confine themselves to mere words but beat one individual and threatened to slipper him because he would not say I had felled a teak tree which had been cut for the Santgoll Bungalow years ago. I represented the matter to Mr. Silver who said that the fact of the peons having searched for these trees by his order, was based "on my own imagination" that he had examined the peons who stated that I had threatened them and that they had never even mentioned my name in the Mogany. The man who had been beaten in presence of others was taken to Honore and stated to me most solemnly on his return that he had been afraid to tell what had taken place as the Potail had ordered him not to do so. I again wrote to Mr. Silver stating that I was not of course aware what orders he had

had given as he had forbidden the peons to hold any Communication with me, that with regard to such an order having been given being based on imagination I could judge merely by the acts of his subordinates, that I could prove what I had stated, named my witnesses and prayed to be allowed an inquiry, stating that I would be most happy to appear in person on any day he might find convenient, as the peons had made a counter Statement false in toto which I conceived it to be my duty to disprove. Seeing that I had not spoken an angry word to them and who merely made their Statements to shelter themselves. To this letter I received no reply of any kind. This affair took place about the end of July. I have mentioned the first case to show who was the individual sent for by the peons on their first arrival to point out my supposed delinquincies, and who must have received their instructions at Honore. I told Mr. Silver that I was ready to make oath that I had never on any one occasion felled a single tree without permission, but on the representation of these peons he sent orders to prevent my removing two peon trees which had been granted to me by the Sub Collector and felled and left to dry last year. Though these peons were all aware of the facts of the case for the Potail told them all and pointed out the trees to them, and not only this, but showed them that they were at least 1½ miles beyond the boundary of the Honore Talook and within Sonda. On Mr. Silver's writing to the Sub Collector and the Potail of Cochilnad and Santgoll Puffadar sending a Mazarnamah that the trees were in the Sonda Talook this order was rescinded. I do not for a moment imagine that Mr. Silver was not acting according to his duty had he sent peons for trees supposed to have been felled

Fort St. George 17th October 1853.

felled by me on erroneous information, but as he denies having given such orders I conceive the peons were exceeding their duty in acting as they did and could not have done so without instructions from some one, as they were not men from this district but from beyond Mangalore and their names, Periah, Poordia and two others whose names I have not ascertained, that they could not have borne me any ill will personally.-

3rd. On the 11th July I came to Honore to pay into the Treasury a sum of money, 400 Rupees, lent to me on Tuccavy by Government. The state of the weather and information that the Dhony, holly river, was impassible detaining me, I was obliged to remain in the Public Bungalow longer than I wished or than the Regulations sanctioned on ordinary occasions Mr. Silver ordered me to leave and on the day of my departure, three peons were despatched at different times to see if I had obeyed and as I was unable to leave Honore that day. I was obliged to accept the kind offer of a friend for shelter during the night. At the same time I beg to state that other individuals have been occupying Bungalows in the district and in Honore itself for long periods who were not in the slightest interfered with, Mr. Silver himself among others, and in one case another individual since the 11th July.-

4th. I have for several years been residing on the Coompta Fort hill and had a tent built there under which I used to pitch my tent.- Last year the whole extent of

Fort St. George 17th October 1853

of the top of the hill was pandaled in and the material deposited during the rain in a shed on the spot. A few days ago I received an order through the Coompta Custom House Manager / though I must allow couched by the latter in most respectful terms / to remove the whole at once as the building of the light House was delayed by my property remaining on the spot. As no previous warning had been given me, I was obliged to sacrifice the whole material, not being prepared to remove it during the then state of the weather and no time was allowed me for so doing.-

I beg to adduce these matters to show the manner in which Mr. Silver thinks fit to treat me, nor had I originally intended to mention them at all, but to bear quietly all the annoyances I endured rather than give trouble by bringing them forward, but as in the case of the delay of the letters it is not merely inconvenience to which I am put but positive injury I have been compelled to do so. As a

European

European Settler in Canara I am thankful to say I have hitherto received every support from the authorities, but when in the present case the feelings of the superior towards myself are allowed to become so well known as to be a by-word in the Cutcherry and over the district, I can but expect that the subordinates will also exert their petty authorities as in the case of the peons. Trusting you will be good enough to excuse

Sir,

With reference to your letter of the 15th Instant, I beg to state that as there is no regular talook post from Honore on the Neelcondah road, the conveyance of your letters from the Post Office to your own house at Donghullah, is a matter which rests entirely with yourself and with which the servants of Government have nothing whatever to do.

In order to afford you any convenience

that

that can be shown whenever official papers are sent to Santigad your letters are forwarded along with them, but when there are no papers on the public service to be sent, the Peons cannot be employed solely to carry your private letters, and for their transmission in such cases, it is necessary you should make your own arrangements.

Read letters under date the 22d and 26th april 1853 from the Magistrate of Canara.

Read also letter under date the 26th april 1853 from the Session Judge of Honore

1. The foregoing correspondence has reference to a charge preferred by Mr. Silver the additional Joint Magistrate of Honore against Mr. Lascelles, Session Judge of Honore, to the effect that the labour of the Convicts at that station has been improperly employed by Mr. Lascelles upon his private premises and that the public roads have inconsequence been neglected and permitted to fall

ont of repair, the only specific instance adduced by Mr. Silver in support of the charge preferred by him being the employment of three convicts on the morning of the 10th March last on a "zigzag" path which Mr. Silver states is in Mr. Lascelles's compound.-

2. It appears from Mr. Lascelles's letter of the 26th Ultimo, that Mr. Silver is in error in describing the path way referred to as being on Mr. Lascelles's property and that on the contrary the ground through which it runs is the property of Government.-

3. The Court of Foujdaree Adalut considers Mr. Lascelles's explanation to be perfectly satisfactory and Mr. Silver's Proceedings throughout the matter to have been most uncalled for and very reprehensible in every point of view.-

Ordered that Extract from these Proceedings be forwarded to the Sessions Judge of Honore for his information.-

Ordered also that Extract from these Proceedings be sent to the Magistrate of Canara for communication to the additional Joint Magistrate.-

From the Collector of Canara.

Sir,

I have the honor to forward a letter from Mr. Silver on the subject of mine to your address of the 10th Instant.—

Mr. Silver's letter proves 2. that I was correct in my opinion that the controversy if carried further would involve matter beyond my Jurisdiction, and I think that I acted rightly in at once laying the subject before the Board, informing Mr. Silver that I had done so.—

I will only add with reference 3. to the 21st Para of Mr. Silver's letter that seeing clearly that the matter in discussion had reference to Mr. Lascelles conduct in connexion with Mr. Smith, I considered it right in fairness to all parties to lay the papers before the Board as they came before me.

To, W. H. Bayley Esqre
Secretary to the
Board of Revenue.

Sir,

I yesterday received from Mr. Maltby a

Fort St. George 17th October 1853.

a copy of a letter addressed by him to you under date the 10th September, which calls for an immediate explanation from me, and I am so anxious that I should not suffer in the opinion of the Board a single hour longer than I can lay before them a Statement of facts, supported by official records, that I trust the urgency of the case will plead my excuse in addressing the Board direct. I will send this letter and its accompaniments, through my immediate superiar Mr. Maltby, and my object in addressing you direct is to prevent the necessity of delay in making Copies in the Collector's Office, which would be rendered necessary, if my explanation was expressed in the form of a letter addressed to him. —

2 I very much regret that Mr. Maltby should have forwarded these papers before giving me an opportunity of replying to them, and as such a Course must tend to my prejudice, I am all the more anxious that this letter and its accompaniments should be speedily before the Board. —

3 I will commence with Mr. Smith's letter, taking each case in the order it is mentioned, and I will request the attention of the Board to the

Fort St. George 17th October 1853.

the different periods of time on which the different matters referred to by Mr. Smith occurred as compared with the date of his letter, and the fact of his having been residing in Mr. Lascelles' house for several weeks past, and where he still resides, having also been there at the time he wrote this letter. I can prove this by the circumstance of Mr. Smith having been in Honore at the time I addressed Mr. Maltby on the 27th August, another rather remarkable point is that Mr. Smith's letter is dated 1st September but from the endorsement in Mr. Maltby's hand writing on it does not appear to have reached Mangalore until the 9th while Mr. Lascelles' letter is dated from Circuit at Sircy the 6th September arriving in due Course of post at Mangalore on the 10th the day after Mr. Smith's letter made its appearance —

4. Mr. Smith opens his letter with a general charge of annoyances inflicted by me, to this I reply by simply referring to the official records of the district. I have had none but official intercourse with Mr. Smith. I have no personal acquaintance with him, have hitherto received no offence from him, and such

assertions.

assertions are absurd. Mr. Smith Complains of delay in receiving his letters, the matter is answered in few words. Mr. Smith a private individual has built a house in the Donga halla Jungle, fourteen miles from the post town Honore, on a road on which there is no talook post. Whenever official documents have to be sent in the direction of Mr. Smith's residence his letters as a matter of Convenience to him are sent along with them, and of this Mr. Smith is fully aware, but when there are no such official papers to be sent I informed Mr. Smith that the Government peons Could not be employed solely to act as his private post, and that he must on such occasions make his own arrangements for procuring his letters from Honore.—

5. The next case brought forward by Mr. Smith is one of a grave nature, as it now affects Mr. Smith himself, for in stating it he has been guilty of wilful deliberate perversion of the truth. Appended to this letter are copies of letters marked Nos

Nos. 2 and 4 which detail the manner in which Mr. Smith himself states he detained the gun. The Board will judge from Mr. Smith's own account of his Conduct in this matter.—

6. Mr. Smith states that a dependant of two Public Servants in my Cutcherry preferred a Complaint against him for having four months previously detained a gun "in distraint for rent." Of these two Servants Sontapah who alone is in my Cutcherry, the other Gempiah being in Mr. Hall's Cutcherry, positively denies any instigation of the Complaint. Sontapah also denies having dictated the Arzee. I never myself heard of Such a thing and I have not the slightest reason to suppose he was in any way Concerned in the matter. Mr. Smith asserts that the Complainant stated in his Complaint that the gun had been taken in distraint for rent. There is not one syllable to this effect in the Complaint. The complaint expressly states that Mr. Smith took away the gun to force him, under threat of its detention to consent to give up some land in his possession to one Kristnapah.—

7. Mr. Smith asserts that several days previously to his ever hearing of the matter the

Fort St. George 17th October 1853.

the witnesses were brought to Honore and placed under Surveillance in the Cutwalls Choultry. This is directly false. The petition bears date the 4th June was presented on that date, on the same day the letter marked No. 1 in the appendix was sent to Mr. Smith, was placed in his hands the following day the 5th June, the summons for the witnesses was not issued till the 6th June and did not leave my office until after Mr. Smith was acquainted with the charge preferred against him, and the witnesses appeared at Honore on the 9th June and such false and unscrupulous assertions are laid before the Board before I have even an opportunity allowed me of disproving them by official records. —

8. Mr. Smith states that the Goomastah Santapah applied to have a friend of Mr. Smiths, one Doddatumma waddia who had been seen in the Tahsil=dar's Cutcherry also Confined. I never heard this mans name before to day, and both Tahsildar and Cutwal positively declare that no application was ever made for his Confine=ment.

Fort St. George 17th October 1853.

confinement and that he was never confined at all. Mr. Smith asserts the witnesses were placed under Surveillance in the Cutwalls Choultry and I reply that assertion is false. The witnesses were not kept under Surveillance, were not kept in the Cutwalls Choultry, and were in no way treated differently from other Witnesses. —

9. Mr. Smith asserts an attempt was made to influence the Potail of Coachinad and that harsh language was used to him. It is scarcely necessary for me to say that I made no attempt to influence the Potail and that no harsh language was used. Depositions were not taken from the Witnesses or the Potail as Mr. Smith gave up the gun. The Witnesses and Potail were simply questioned if they knew any thing of the Charge, which the witnesses said they did, and the Potail that he did not. But the Potail of Hoodekie in whose Village the man lived who had Charge of the gun, and the man himself when sent for and questioned declared. The first that he had duly heard of the affair and the second that the gun had been delivered into

Fort St. George 17th October 1853.

into his possession by Mr. Smith himself with directions not to give it up without his orders.—

10. The second instance in Mr. Smith's letter regards enquiries which I considered it proper to make in the forest of the Mogany in which he resides— I have only to state, that no enquiry was ever ordered by me regarding Mr. Smith himself or his proceedings. He at once on hearing the Peons had come to that district jumped to the Conclusion that these enquiries must in some way affect him and acted accordingly— In the appendix to this letter, are Copies of all the letters that have passed on the subject marked respectively Nos. 6–7–8–9 and attested translations of the order given by me to two Delloyets of my Office and an attested translation of the deposition on oath of the man whom Mr. Smith asserted had been struck one blow. No further enquiry on Mr. Smith's letter on this subject after such a deposition appeared to me requisite— The Cause of my making enquiry which I had a perfect right to do was that the Sub Conservator of Forests having

Fort St. George 17th October 1853.

having been at Cochilnad and having observed the great number of people felling wood there, requested me to supply him with a list of all those parties who had permission from me to fell wood, and the result was that a list of names was sent into the Tasildar of parties who had been felling wood without permission, and the investigation is still pending— I, as was my duty, caused Enquiry to be made, if any of the more valuable Sorts of timber had been felled, the enquiry was general and was directed against no one in particular.— The two Delloyts, for two, not four, were sent, were neither desired nor forbidden to hold intercourse with Mr. Smith, his name was not even mentioned, but Mr. Smith seemed anxious to hold intercourse with them—

11. As regards the two Poon trees mentioned in one of the various reports sent in from time to time by the Delloyets, as I was led to believe from the report they were within the Honore Talook they were attached, pending an Enquiry as to how they

Fort St George 17th October 1853.

they had been felled. That attachment was removed immediately on my receiving Mr Smith's letter of explanation and not on other reports as asserted by him. My letter to Mr Smith in the appendix — marked No 7 proves this. —

12. As regards the 3d instance in Mr Smith's letter. The Copy of the letter in the appendix marked No 15 Speaks for itself — on the morning of the day on which Mr Smith left and which was the day after I had written to him I sent a peon to call the man in charge of the Bungalow to enquire if Mr Smith was to leave that day. The answer was "Mr Smith says he intends to go when it pleases himself" — on the evening of the same day, I was in = = formed he had left about noon, and I neither heard nor enquired more about it — For myself the subject of my having been for a few days in the Bungalow at Honore, will be alluded to in another part of this letter — and I never travel without taking a full Suite of

Tents

Fort St George 17th October 1853.

Tents with me. —

13. Of the last instance which Mr Smith adduces "of the manner in which Mr Silver thinks fit to treat him" I never even heard, until I read Mr Smith's letter. I consider however that the Sea Customs manager acted quite correctly but it was not by my orders. —

throughs minutely

every particular of

the assertions made

by Mr. Smith which

Mr. Maltby has

laid before Sup

-rior authority &

Co.

Fort St. George 17th October 1853

can only repeat my regret that Mr. Maltby did not first give me an opportunity of replying to them - Mr. Smith who thus distorts facts, formerly held a Commission in the Madras army, which I believe, he was compelled to leave, under circumstances not creditable to his character, for veracity; and he is now recommended by Mr. Lascelles for a Moonsiffship - I respectfully request that the Board will pronounce on a review of these Circumstances, whether I have not acted strictly according to my duty.

15. I now pass to Mr. Lascelles' letter, which Mr. Maltby has in like manner, laid before the Board, or before Calling for explanation from me. On the 26th August, I heard that a number of prisoners from the Jail, with Mr. Lascelles and Mr. Smith, were engaged in pulling a large tree out of the water. On the following morning, I looked at the tree, satisfied myself that it was a Poon tree,

wrote

12109 For. St. George 17th October 1853.

wrote a short letter to Mr. Lascelles, to enquire if it had been cut under permission of the Revenue authorities, and on Mr. Lascelles' replying in the affirmative, I reported it the same day to Mr. Maltby. These letters are in the appendix marked Nos. 16—17—18. I then considered that my duty terminated. I should have put the same question and proceeded in the same manner regarding any of the reserved trees of this description that I happened to see in any part of my division, or in any one's possession. I did not consider myself authorized to make enquiries at Mr. Lascelles, of his dealings with Mr. Smith, and it was sufficient for me, that Mr. Lascelles stated, the wood was obtained under competent authority. I did not either enter into detail, to Mr. Maltby on the subject of the Poon Trees cut in Mr. Hall's Talooks, as stated by Mr. Smith, not wishing to interfere with his jurisdiction.

12110 For. St. George 17th October 1853.

I considered it was for Mr. Maltby, as I had not given permission to cut the trees, to call for any explanation from others, he might think proper had no official information, that Mr. Smith had made over the Poon trees formerly enquired about, to Mr. Lascelles. Mr. Smith wrote that he was about to remove them, and Mr. Lascelles name was never even mentioned by Mr. Smith; nor was it mentioned in the official communications I received from the Sub Collector Mr. Hall.

16. Mr. Lascelles asserts that immediately after his taking possession, and attempting to remove this wood from the Neelcond Ghat four Deloyots and a duffadar were dispatched by me from Honore to the spot where the wood had been felled, and the necessary written orders issued, to prevent the removal of the wood by Mr. Lascelles, till further orders from me. This is a most disingenuous manner of stating what really occurred;

and

and what more is needed utterly to refute this most unscruplous assertion, than Mr. Smith's letter to me of 1st August, and my reply of the 2d August, and my order of the same date removing the attachment, and leaving the wood at Mr. Smith's disposal. No Deloyds or peons were ever dispatched by me to the Coochel mod Jungles, except the two I sent for general enquiry, by my order of 21st July - and from the 2d August, the date on which the attachment was taken off the Poon trees, claimed by Mr. Smith, I heard no more of them - I never even knew that Mr. Lascelles was bringing a Poon tree to Honore, till it actually arrived here on the 26th August.

17. Mr. Lascelles further asserts, that I was compelled to withdraw my order, attaching the ~~—~~ Poon trees, by its being officially intimated to me by the proper authority, that I had over stepped the bounds of my authority by interfering in a matter, out of

of the limits of my jurisdiction - What more is needed here, to disprove ~~—~~ this equally unscruplous assertion, than the Official correspondence annexed to this letter, which shows that the attachment was removed before I wrote to Mr. Hall, and that I wrote to inform him, it had been so.

18. Mr. Lascelles also states, that difficulties have been thrown in his way for procuring wood - I have never to this day heard one word on the subject, have never had an application from him, for wood, and have never received a report from the Tasildar on the subject. Mr. Lascelles have been engaged for months past, in building with the aid of the Jail prisoners, a large boat, but where the wood came from, I did not consider myself called on to enquire, so long as none of the reserved sorts of timber were brought down to Honore for him - I have now called on the Tasildar to state what applications, have been made to him for wood, by Mr. Lascelles, since January last, for all the wood he has

hitherto

hitherto got, and that is indeed a large quantity, has been obtained without reference to me. The Tasildar states, that in the month of February last, Mr. Lascelles applied to him for two pieces of wood, which he duly procured, and that with this exception, Mr. Lascelles, has neither applied to, nor obtained wood through him, this year.

19. In the concluding Paras of his letter Mr. Lascelles alludes to observations made by the Judges of the Sudr Udalut, on the subject of a report made by me regarding his employing the Government convicts on his own private work, and would insinuate that I have been attempting to reagitate an affair, already decided on by them. In reply to this. I beg to state, that the orders of the Foujdaree Udalut, under date the 17th May, only reached me, about the 1st or 2d June, and that after receiving from Mr. Maltby a Copy of Mr. Lascelles letter of the 26th April

to the Sudr Udalut, I had on the 16th May addressed to the Register to the Court of Foujdaree Udalut, a second letter pointing out, that while Mr. Lascelles asserted, he had never seen the prisoners employed on any private building in Honore, Except the dwelling houses within the Church Compound, there is a house in Honore, now claimed by Mr. Lascelles, and rented by him to the officer Commanding for Rupees 25 a month, upon which every one knows convict labor was employed, and I ascertained that clear and positive evidence could be adduced to this. The same letter pointed out misstatements made by Mr. Lascelles, regarding my having as he had asserted, excluded parties from the Public Bungalow here. But all my correspondence on this subject was before receipt of the orders of the Foujdaree Udalut, not after, as insinuated by Mr. Lascelles. As this subject has already been submitted by

by me to Competent authority, I do not again forward a copy of my letter of the 16th May.

20. Mr. Lascelles states in this letter, that he has been attempting to conciliate me I am at a loss to understand, what this means, for I have always declined his personal acquaintance, since I have been in the district, a period now of nearly five years, and I followed the same course, when I met him away from India.—

21. I have gone through the assertions made by Mr. Smith and Mr. Lascelles, and I trust I have shown

to the satisfaction of the Board, that in all these matters I have acted strictly in accordance with my duty— as Mr. Maltby states his principal reason in forwarding Mr. Lascelles's letter is to show the differences existing between two public officers— I beg to submit to the Board, that the same reasons cannot also apply to Mr. Smith, whose letter Mr. Maltby has also forwarded to the Board.—

22. On the tone in which Mr. Maltby's letter is

12117 Fort St. George 17th October 1853.

is expressed towards me, I make no comment, the Board will judge of it, and I disclaim, in any way whatever having been swayed by private feelings, in these matters, either towards Mr. Lascelles or Mr. Smith: and I appeal to the official correspondence appended to this letter, in support of what I state.

Sir, I have the honor to acknowledge the receipt of your letter of the 4th Instant requesting me to answer a Complaint made before you against me by a man named Manoo; for having as he states forcibly seized a gun, his property, some two months ago.

I beg to inform you that the circumstances though not as affirmed by the Complainant, took place in January last

12119 Fort St. George 17th October 1853.

last, whilst on a Shikar excursion with Ensign Macdonald 27th Regiment Native Infantry at Poddikey. The case is follows. This man or rather his father Dawappa was a tenant of mine and there is an outstanding account between us, on account of a third party, to a small amount, after his leaving my land to settle at Hanwelly near this. His present landlords are Gunpyah Moonshee in the Sub Collector's Cutcherry and Sontaiah an acting Official in Cutcherry and whom I believe to have instigated the present Complaint. Poddikey is distant from Cochinad some three miles and the man Manoo accompanied me (with his gun) and several other Villagers for the purpose of Shikar. I had killed an Elk and as it was necessary to bring it in from the Jungle I directed Manoo to go with 10 others for that purpose. He left his gun at a third party's house and went. as I fancied I had little chance of recovering the amount due from this man. —

I

12120 Fort St. George 17th October 1853.

I directed the person who had charge of the gun, not to return it without my permission and on Manoo's return I informed him in the presence of some 50 others of what I had done and my reasons for so doing. Had he felt himself aggrieved he might immediately have preferred his Complaint to the proper authority but he neither again asked either myself or the person in whose charge the gun was, though I have since repeatedly seen him and spoken to him. So that I trust that you will perceive that Manoo's assertion of my having forcibly taken the gun from him is false. Had he chosen to settle the differance between us, or if he so does now, I will of course immediately order his gun to be restored to him. Not having seen a Copy of Manoo's Complaint I am unable to enter into further particulars but I trust

Fort St. George 17th October 1853

trust this explanation will prove sufficient-

In conclusion whilst regretting the abrupt style of your letter so far different from the Courteous manner in which I have been addressed by former Officers in charge of the Talook, I beg to assure you that this will not induce me to lose sight in my correspondence of that respect which is due to the Office of a Magistrate- The Peon who brought the letter informed me that I was ordered to reply by him; but as I am not in the habit of writing official letters on Sunday, I was unable to comply with your order and which delay you will therefore I trust excuse-

The admission contained in your letter of the 6th Instant shows that you have acted most illegally in ordering the property of any individual to be detained in the custody of a third party as a means of enforcing payment of a debt alledged to be due-

Considering the length of time that has elapsed, I have no objection to this complaint against you being established by your giving up Complainants gun illegally detained by your orders and in that event it must be returned by the man who carries to you this letter, failing this the case will be proceeded with before me in my capacity of Justice of the Peace-

Had I been furnished as is

is I believe usually the case, with a copy of the Complaint against me, I would have been enabled to answer it more fully- In your letter of the 4th Instant, the Complaint against me is stated as "for having forcibly taken away Manoo's gun two Months ago." Even by what I have admitted to you, this has been fully disproved and I have many witnesses who can testify to the same effect- With regard to my having acted most illegally in the matter it is not to be supposed that if I had considered the matter I should have admitted the same to you- I always conceived that Government gave a right to the landlord to destrain the goods of a tenant for non-payment of any rent, even entering his house for that purpose, and obtaining the assistance of the Talook authorities in case of resistance being suspected- Part of the account due as mentioned in my letter of the 6th was of this nature, and the transaction between us in question was more of the nature of landlord and tenant than creditor and debtor- after the decision you have given

Sam

I am afraid there is not much chance of our recovering any sums due for rents from a refractory tenant, and we are placed in such an undesirable position that in the event of it's being ratified by higher authority, I have no wish in future to hold lands on such a precarious tenure- The man who complains in the present instance from the time he has allowed to elapse in making his complaints has outstayed the limit of appeal- Had he not been confident of support he would not I am convinced now have preferred any, but would have quietly settled the matter here and it was his business I conceive first to apply to me before he did so, as I had offered to settle the amount of the claim by a village punchayet- Several years ago his house having been burnt down I assisted him and gave him some of my best lands- From his violent temper no one being willing to give a wife in marriage at his earnest intercession and a great trouble, I got him through

Sir, I have just been informed

informed by the Tahsildar is talked to the Coochilmod Potail that you have given directions that two trees of the kind called Soorhonny my property were to be attached until further orders and that I was to be prevented from removing them. The trees in question are situated on the Sondah Talook and were granted to me by Mr. Hall the Sub Collector of Canara. By that Gentleman's orders immediately after selling them the Duffadar at Neelcond measured the trees and reported on them. Circumstances interfered to prevent me from removing them which it is my intention to do at the first convenient opportunity, and with which, after this explanation, I hope there will be no impediment.

I understand that you have received information that I have felled other trees without due permission and I may at least deduce this from the actions of the Peons who come to search for them. They were particular in their enquiries as to had much furniture I had had made by Carpenter who was in my employ named Halapah

They

Fort St. George 17th October 1853

They also went so far as under the guidance of the man Dasapah, known to be at enmity to myself to illtreat one Surwa an inhabitant of Bassowle gramah by striking him one below and threatening to slipper him if he would not confess to my having felled teak trees in that neighbourhood. Though I fear not the strictest enquiry on this subject it is hard that my Conduct is in any way to be investigated by such Agency or that the poor Ryots should suffer in Consequence. The man Dasapah affirmed to the said peons that there had been some teak trees in the neighbourhood of my house (knowing the same to be maliciously false and that I had also felled a blackwood tree, which he and others had assisted to carry to the waters edge, well knowing that the said tree had been felled many years before my arrival in this neighbourwood, that it had been partly burnt up and was never taken away, that is its remnants from the spot) This individual is also perfectly aware of my having obtained an order for selling the two Soorhonny trees already

Fort St. George 17th October 1853.

already mentioned. That Davapah was instigated to these falsehoods by Malice is well known. I have now only to state in my own justification that in the Construction of my house I have not made use of a single piece of timber of the forbidden kind, nor did Kalapah even make any furniture for me and further I have not since my arrival in this neighbourhood felled a single forbidden tree without due permission obtained.

Sir,

Copy of the 1st paragraph in your letter of yesterdays date, will be sent to Mr Wall, with reference to the two trees therein alluded to, and reported to me to have been felled by one Veerah of Comptah for you, and in the mean time, under your explanation the attachment ordered pending an enquiry is removed. The rest of your letter, with exception of that passage in which you state, a move was struck one blow being based on your own imagination, that an enquiry was ordered

ordered thereupon, particularly regarding you requires no reply.

The Deloyet state, that you repeatedly sent people to Call them to your House and that you threatned them yourself when you meet them in the Forest, that you would write to Mr Maltby and have their bells taken off.

To. J. Silver Esqre.

Sir,

Your letter of the 2d Instant this moment Came to hand, and I would not now trouble you with any further Correspondence on this subject save for the observation in the last para of your letter. With regard to the Statement of your Deloyets I have but to observe that they have given you a false idea of what took place, when they state that I repeatedly called them to my House. The facts of the Case are as follows. Several ryots of Cochilood having last year refused to pay the

Fort St. George 17th October 1853.

the regular sum as "myligy" for Crossing the Donybulla Ferry. I have given directions to the ferry man, on no account to ferry such individuals across without the arrears were duly paid. Amongst the defaulters was Narrullie Davapah. This individual accompanied four peons and the ferryman refused to bring him across. The peons sent me a message to say that he must be crossed on Circar business. I replied that I would not let him be ferried over unless they could produce an order from you to that effect. They then sent again to say that unless he were ferried over they would return to Honore. I answered that if such were the case, if instead of their sending messages one of them would come and show me a Cutcherry to the effect, he would certainly be ferried over. They then said that they had given particular orders on no account to come near my house. I then having heard that they had Come on search of teak trees, answered that Davapah's not being ferried over, should be no hindrance

to

Fort St. George 17th October 1853.

to them, for that I would send people with them if necessary that would show them any part of the jungles. They then sent word that it was easy to have Davapah brought over via Ooppiputtanum. Thus was all that passed on the subject and as only one individual was the messenger, it will be very easy to prove what did actually take place. With regard to my having threatened them when I had met them in the Forest, it is false entirely. I met them close to my house on my return from a Shikar and from a Village where I had been informed that these peons had been very minute in their enquiries as to what trees I had felled what furniture had been made up for me by Kalapa and promising 20 Rupees reward for every tree which the Villagers would point out as having been felled by me. In fact it appears in all their enquiries my name was so mixed up, that it was the general opinion that these peons were sent to make discoveries of teak trees I had been supposed to have felled illegally. I had heard of their Conduct towards Bassowly Surveyor

and

Fort St. George 17th October 1853.

and I asked them first "how many trees they discovered to have been felled?" and afterwards "whether what they had acted as they had towards Sunnan according to orders"? they denied having struck him at all I then said "this is not the place for enquiry but you may depend upon it you will hear of the matter again." They said they knew better than to strike any one; to which I replied "It's lucky if you keep up to that measure or some day you will find your bells in danger," at which the peon Eniah laughed and said he knew how to take care of his bell. I also asked them" if they were authorized to make the enquiries concerning my Furniture which they had done and though their enquiries were made in the presence of the Patail and

This word cannot be distinctly made out

and the Villagers themselves were present they denied having done so. These Villagers names are Curriey Guidda Hanoomuntha, Kroostna Hanoo=munta, Ulsunmunic Hanoomunta and Korgapale. The Chucklebundy peon Shevoo was also present. These statements although they can be proved by competent Witnesses I am ready to confirm on oath. The other Villagers who were with me are Gopoo and Coopoo and Jetty. I have also to inform you that the first person the peons sent for on their arrival at Soutagul was the gun Man as they called it, alluding to the complaint formerly made against me by Davapah after they had crossed the river for the first time, they went to Dava=pah's house and crossed the river again on false information, that I had felled teak trees in my Garden, and that he would point them out. I shall be most happy to attend your Cutcherry at any time you may Appoint to investigate this matter.-

I have of course no Means of Knowing on what errand these peons did really come and am only aware of their actions after their arrival here. I have no doubt they tell their own tale plausibly enough. I am fully aware of the animus with which almost every individual in your Cutcherry is actuated towards myself and the means which are used to embroil me with those in Authority for their own

Fort St. George 17th October 1853.-

own ends, and I am also not ignorant of the circumstances attending the presentation of an Urzee against my appointment as Moonsiff at Coompta. In fact I have more than once been obliged to appeal to Mr. Maltby for protection against them and Mr. Southerland when only a short time in charge of this Taloke informed me that he was fully aware of this spirit against me. I certainly was not prepared to find them supported by their superior, to whom I looked for protection against their intrigues that Providence however which has never yet failed me I can alone trust for help and deliverance from my troubles.-

In regard to the matter of Bylsow Surwur having been ill treated by your Dolays I have to inform you that Surwur on his return from Honore came to my house I asked him why he came to tell a different Story at Honore from what he had before told me in presence of a Witness. He then asked me what was a poor man to do, that on his road to Honore he had met the Coochelna Potail who had begged him not to tell the whole truth, as if

Fort St. George 17th October 1853.

if he did so the peons might be punished or as he espressed himself "their bread might be taken from them" I took the precaution to have several persons present at the time. To a question from me he acknowledged not to have told you the whole truth, but acted on the Potails advice, as it is however, two other individuals Lucknow gow da and Summota were present when he was struck and when he mentioned the matter to me Nargapah was present. Surwur acknowledges that what I represented to you was strictly correct. Surwur made this statement in the presence of Nargapah Bekya Oograney Chenna and Peon Wuzzera. As from what Surwur has deposed before you it would appear as if I had given an exaggerated Statement of the matter, I beg you will consider this letter as a solemn affirmation and that you will order a further examination at which I may myself be present to Answer the Charges of having threatened your deloyets in the execution of their duty and that the truth of their conduct may also be fully enquired into. I will point out all the witnesses and will attend on any date you may name. Surwur's examination on oath would soon elicit the truth which I am most anxious should be done.-

Question. Did the Deloyets, Veerah and Poorsanaik sent to inspect the Jungles on my orders, use any violence towards you?-

Answer. These two men used no violence towards me nor beat me, while we were talking Poorsa Naik said the Dongkolla saib cut a piece of a tree I said no, it was cut for the Sontagul Bungalow. Poorsanaik put his hand against my breast and said who asked you but he did not push me so much occurred.

Question. Did these two Deloyets tell you to speak against Mr. Smith and threaten to beat you if you did not?-

A. They did not do so.-

Q. Did you tell this to Mr. Smith.-

In laying this before the Board, I think it right to mention that Mr. Smith has for some time occupied land in the Honore Talook and on one occasion rented the Deogah Ferry - he has been employed by the Bombay Government for shipping their Cotton and simularly employed, I am informed, by private parties.-

Mr. Smith was favorably mentioned to me as making praise-worthy endeavours to establish himself in business, but

Sir,

I have the honor to ac-
-knowledge the receipt of your letter
of the 12th Instant and to thank you for
your kindness in regard to the orders given
relating

relating to the despatch of my letters.-

With regard to para 3 of that
letter I am afraid I cannot fully have
expressed myself. I should have mentioned
that the place in which the material
alluded to was kept would in no way
have interfered with the work going on,
on the redoubt hill at Coompta - The
shed in question occupied but a small
space of one corner on the flat of the
hill and though immediately on receiving
the order to remove it I made it over to
the Sea Custom House Manager from in-
-ability - to do so myself, I find the shed
is still standing though a month has elapsed.-

I beg here to mention inci-
-dentally that under existing circumstances
it is probable that Mr Silver may entertain
the idea that I have allowed myself to be
influenced by other parties in bringing my
case to your notice - I beg most strenuously
to repudiate any idea of the kind - I acknow-
-ledge that I mentioned the subject inci-
-dentally to Mr Lascelles the Civil Judge at
Honore, who kindly offered me a room
in his house, when ordered out of the Public
Bangalow

Bangalow, but that Gentleman strongly recommended me to bear all patiently and endeavour by so doing to conciliate Mr Silver and it was by his advice that I did not bring the matter forward at the time.- The letter in question as well as the present was entirely written without his knowledge. Mr Silver's personal feelings towards myself have never wanted demonstration and were shewn in other matters, as the records of his office will shew before he went to the Cape and before I had ever met Mr Lascelles.-

I beg to bring to your consideration that I am labouring under every disadvantage in proving my case. All the officials concerned are under Mr Silver's personal authority; but in the first case mentioned in my letter the individuals mentioned as Witnesses as having been placed in the Cutwal's Choultry, can prove the fact. I have no means of knowing what orders are given and can only judge from their execution. The Goomastah Santiah's feelings may be judged from his having told a third party that he would have me dragged into the Cutchery. It is no difficult thing to shew the reason of his enmity to me, as I pointed out to the Revenue authorities, a portion of land which he has been

been renting for years without paying any assessment, in my neighbourhood. With regard to all I stated in that letter, I have by me most of the correspondence on the subject and the examination of which would I venture to hope demonstrate the truth of what I have stated.-

With regard to the feelings of other individuals in the Cutchery towards myself, Mr Sutherland, when in charge of this Talook, expressed to me his knowledge that this feeling did exist and particularly in connexion with a case laid before you regarding a reward for killing a tiger some time ago. I beg most respectfully to disclaim all party feeling. I am aware that in my position, it is not only my duty but my interest to conciliate all in authority as far as in me lies, and that I have done so, I doubt not, all the Gentlemen holding charge of the Talook previous to Mr Silver will bear me out.-

I am

I am unaware of any ill feel-
-ing on my own part towards Mr. Silver and regret
that I should have been compelled to bring the
matter forward at all.-

Sir,

In addressing the Board on the
18th in refutation of certain allegations made
against me, and forwarded by Mr Maltby,
I find I omitted to give the report of the
Daloyets by which I was first informed that
Coon trees had been cut at all, the order to the
Tasildar attaching the trees on this report on
the 27th July, the order of 2d August taking off
the attachment on receipt of Mr Smiths
letter of 1st August and my official report to
the Sub Collector Mr Hall of 22d August. These

papers

papers are appended to this letter, and I trust make the entire case clear and apparent to the Board, so far as I am concerned. Mr. Smith's letter of the 1st August to me, and Mr. Lascelles' letter of 6th September to Mr. Maltby, form a curious contrast, if indeed the trees that are referred to, by both parties, are the same for Mr. Smith speaks of them as "his property," and that "he intended to remove them at the first opportunity," and Mr. Lascelles on the other hand, makes out in the 6th Para of his letter that he got them on applications to the Sub Collector Mr. Hall, and that when he "had taken possession, and was about to remove them," I sent 1 Daloyets and a duffadar to attach them: no other trees were attached by me, than the two attached on the Daloyets report, by my order to the Tasildar of 27th July, and released from attachment on 2d August. When the Daloyets made their report, no one was attempting to move the trees. My duty was a very simple one, when one of the fine sorts of Timber reserved for Government, was brought down to the sea port of Honore I requested informations

regarding

regarding it, from the party for whom it was said to have been brought, and have now been compelled to trouble the Board with this lengthy correspondence to show, I merely did my duty.—

Extract from a report made by Daloyets Veerah and Goorsanaik dated 26th July reached Honore 26th July, read in Coutcherry 27th July.—

This report is a long one, details all the different Jungles the Peons had visited and remains of teakwood and other trees found, and in the middle of the report occurs the following—

"We heard that Poon trees had been cut on the Ghat leading to Neelcoond, and on proceeding there to enquire we found beneath the stone water trough where the honey tree stands, two Poon trees cut, one about 58 feet in length, 5 Cubits in girth near the root, 3 Cubits in girth near the top—the other 56 feet

in length, 6 Cubits in girth near the root, and 3 Cubits in girth near the top. We asked the Potail Govind Bhut and others about these trees and they told us, that Veerab of Coompta had Cut these trees for Mr. Smith, about 9 Months ago."—

The report then goes on to state the other Jungles, the Daloyets had proceeded to visit, and the foregoing is the sole report, that was ever made about these Poon trees.—

Order to the Honor Tahsildar dated 27th July—

It appears from the report of Veerab and others who went to examine the Jungles in the Coochilnad mogany, that in the Jungles of that mogany near the stone water trough, that one Poon tree 58 feet in length, 5 Cubits in girth near the root. another Poon tree 56 feet in length 6 Cubits in girth near the root, were Cut for Mr. Smith by one Veerah, about 9 Months ago—this matter will be enquired into and an order given afterwards. and until that is done, you are to order the Potail

Potail and the district duffadar, to see that the trees are not removed, and— enquire particularly also, if these trees are Poon trees—

Order to the Tahsildar dated 2d August.—

With reference to the order No. 74 ordering 2 Poon trees cut for Mr. Smith by one Veerab of Coompta, not to be removed, Mr. Smith has now written to say, that these trees were cut by permission of Mr. Hall. I will inform Mr. Hall of this and the attachment on these trees is now removed.

Official Memorandum to Mr. Hall dated 2d August. No. 8.

I received a report that one Veerah of Coompta had cut 2 Poon trees for Mr. Smith nine months ago near the stone water trough within the mogany of Coochilnad, until the truth of this should be known I ordered the Honore Tahsildar to attach these

these taxes. but as it now appears, from a letter that Mr. Smith has written to me, that these trees are within Sondah, and cut by your permission I have given an order to the Tasildar to take off the attachment, and I now send an Extract from Mr. Smiths letter, for your information—

Sir,

I have the honor to forward a letter to your address which I have just received from Mr. Silver. With reference to the third para of Mr. Silvers letter I will only remark that on receiving Mr. Lascelles letter I considered that it was my duty to lay it before the Board. I took it for granted that the Statements made in it were correct, but at the same time I felt sure that the Board would not come to any decision without affording Mr. Silver ample opportunity of offering any remarks upon it.—

Forwards a letter to his address from the Additional Sub Collector Mr. J. Silver dated 5th October 1853 on the subject of the question between himself and Mr. Lascelles.

Mr. Silver considers that he has received hard treatment on my part.— On the other hand I consider that Mr. Silver has on several occasions failed in his duty towards me and it appeared that

that he had done so on this occasion - I have a right to expect full and unreserved informa-tion from those acting under me, upon whose re-ports I must proceed and this, unless the State-ments I had received were altogether incorrect, Mr Silver had withheld.

4 I am desirous that the Board should understand that although I com-mented upon Mr Silver's conduct towards myself where I thought he acted wrongly, I was most anxious not to prejudge the mat-ter at issue between Mr Silver and Mr Lascelles but to refer at once to those with whom the decision must rest -

5 Mr Lascelles made cer-tain Statements regarding Mr Silver - which Mr Silver now replies to and his an-swer impeaches the correctness of Mr Lascelles' Statement - This painful correspondence follows upon another of a similar kind, and I have felt throughout that it was a matter beyond my control - I have felt for some time past that the public service was receiv-ing much detriment from the relative position of Mr Lascelles and Mr Silver after the previous charges made by Mr Silver but I should go beyond my duty if I did a more than lay the case as it came before me

me, before those who alone can adopt whatever remedy is called for on a full view of the conduct of each party -

Sir

With reference to Mr Lascelles' letter bearing date "on Circuit at Sirsy 6th September" to the address of Mr Maltby and which has been laid before the Board, and to the 4th 5th & 6th Paras of that letter, in which Mr Lascelles professes to ex-plain, how the Poroon trees came into his profession, on his application to the Sub Collector at Sirsy, I have now the honor to transmit, for the informa-tion of the Board, the following Extract from

from a demi-Official letter I have received from Mr Hall, dated Camp Ameerhully, 1st October, 1853.-

"I observe in a letter the Judge of Honore wrote to the Collector regarding some wood he says you stopped at or near Honore; that he states, that I told him he might have some ready cut Poon spars which he would find at the foot of the Neelkond Ghaut - I have not the slightest recollection of ever having given him such permission, or of having had either conversation, or correspondence with him, about such wood, on or near the Neelcond Ghaut."

2 Mr Lascelles has asserted that he was compelled to apply to Mr Hall for these Poon Trees, by every obstruction

obstruction having been thrown in his way to his obtaining wood in the Honore Talook and I have shewn to the Board, that neither to myself, nor to the Tahsildar, the only legitimate authorities, to whom Mr Lascelles could apply for wood, were such applications made, consequently no obstruction was thrown in his way - Mr Lascelles has likewise asserted, that after he got these Poon trees on application to Mr Hall, four Deloyits and a Duffadar were despatched from Honore to take possession of the wood; and I have shewn to the Board, that I never despatched a single Peon, Deloyet, or Duffadar as so asserted; and Mr Hall's letter

now

puts the concluding proof on this tissue of misrepresentation.-

3- I submit to the Board that it was hard treatment towards me on the part of Mr. Maltby, to forward such a letter, as that of Mr. Lascelles without any enquiry, especially when requesting information from Mr. Lascelles regarding the Poon Tree. I had in no way whatever impugned his conduct but merely discharged my simple duty.-

In his letter of the 10th September 1853 the Collector forwarded copies of correspondence which had taken place between himself and the additional Sub Collector Mr. Silver, as well as Copies of letters from the Civil and Sessions Judge at Honnor and from Mr. Smith, a Settler in that district, complaining of the conduct of Mr. Silver towards them which correspondence Mr. Maltby requested might be submitted to Government or that the Board would furnish him with such instructions as the case appeared to require. He stated at the same time that he felt it his duty to recommend Mr. Silver may be placed in some position in which his personal

Para 7

personal feelings may not impede the dis-
-charge of his duties which appeared to him
(Mr Maltby) except under these circumstances
to be carried on with great vigour and
efficiency.-

To Collector of Canara 6th September 1853 (encl 1 in From Canara 10th September 1853)

The immediate ground of
2- complaint by Mr Lascelles is set forth in
his letter noted in the Margin and has re-
-ference to certain timber which it appears
he had received the permission of Mr
Hall the Sub Collector at Sirsy to cut or
remove and which he considers Mr Silver to
have exercised an unwarrantable interfer-
-ence with for the purpose of annoyance towards
himself.- He also refers to a charge brought
against him by Mr Silver about April last of
improperly employing convicts on his own pre-
-mises, on which it appears from the Extract
now furnished that the Court of Foujdaree
Adalat pronounced an opinion that "Mr Lascelles
explanation was perfectly satisfactory and
that Mr Silvers proceedings throughout the
matter has been most uncalled for and
very reprehensible in every point of view".

Extract Pro: From Sudr Adalat 17th May 1853.

The complaint of Mr
3- Smith comprises a variety of instances in
which he considers that Mr Silver has
made use of his official authority to oppress
or

or cause annoyance to him.-

16th Septr 1853 (encl in F. Canara 19th Septr 1853)

Mr Silver has transmitted to
4- the Board through the Collector a letter in
reply to these charges and on a careful
consideration of this explanation the Board
feel bound to state their opinion that it
is generally satisfactory and that there
is nothing in his official conduct,
relating to the two cases now under
reference which would warrant them in
-sent to another appointment.-
making a direct application to Govern-
-ment for his removal from his pre-

Mr Maltby however alleges
5 a general want of cordial co-operation
with himself which is more fully referred
to in a previous letter dated 12th May 1853.
and it would thus appear that Mr Silver
is on terms of disagreement not only with
his own immediate superior, but with the
Judicial officer presiding over that
part of the district in which his (Mr Silvers)
division is situated.-

The

6. The Board have experienced some difficulty in determining under these circumstances what course it would be proper for them to take. On the one hand they do not see sufficient cause to condemn the conduct of Mr Silver in relation to the complaints immediately under reference. But on the other hand there is the recorded opinion of the Fouzdaree Adalut condimnatory of his proceedings in a previous case and on the whole the Board are so fully sensible of the detriment to the public service which is the usual result where in place of cordiality and unreserved cooperation a spirit of hostility and misunderstanding prevails among the European Officers of a district that they consider they would not be justified in withholding from the Government a knowledge of the state of feeling which appears unfortunately to exist at present in the Canara District. and they have accordingly resolved, in compliance with the request of the Collector to transmit the correspondence referred to at the head of these proceedings for the

information

information and orders of the Right Honorable the Governor in Council.

7. Before closing these proceedings the Board think it necessary with reference to Para 2 of Mr Maltby's letter of the 10th September 1853 to observe that it would have been preferable had he called upon Mr Silver for an explanation before transmitting the complaints made against him to the Board. It is possible that with such explanation as has now been furnished [illegible] he might have seen occasion to withhold the present reference or at all events to modify the hypothetical opinion expressed in Para 3 on the presumption that the complaints against Mr Silver were all well founded.

Para 4 He states that his object was to prevent further correspondence, but as it was impossible for the Board to pronounce an opinion without having first received an explanation of his conduct from Mr Silver, they cannot perceive that any unnecessary correspondence

Bd. No. 2536.

From the Collector of Malabar --- }

Submits his opinion on the subject of certain Government Farms which the Cochin and Travancore Circars are desirous of obtaining by purchase.--

Sir,

I have had the honor to receive the Boards Proceedings under date the 5th Instant on the subject of certain Government Farms which the Cochin and Travancore Circars are desirous of obtaining by purchase.--

Beg to state that I still hold to the opinion expressed in my letter to the Resident of the 3rd July 1852 that as the British Government would derive no advantage from the simple sale or rent of the Farms in question to the Travancore or Cochin Government it is but reasonable that those States should consent to some cession on their part which would be as beneficial to us as the possession of the Farms would be to them. There are many spots as regards Cochin which might be advantageously annexed to our Malabar borders in lieu of those to be relinquished, and there are

are similar spots as regards Travancore as I learn from the Board on the Tinnevelly side.—

3. From want of a Map of the Territories belonging to the Cochin and Travancore Circars, I was unable to prepare the Sketch Map showing the position of the Farms in question in reference to the Circar Territories and Company's
11th July 1853. Districts called for by the Board in their previous communication on the subject. I have now applied for it to the Resident, and when received will forward it to the Board.—

4. With regard to the discrepancy between the number of Farms
1st June 1853. stated in General Cullen's letter to Government and those shewn in the Statement submitted with my letter of 28th July last, I beg to observe that the only way to account for it is to suppose that the term "Farm" was inadvertently used for Gardens," or the number of Enclosures Composing a Farm, for, I find it stated in a Paper† which accompanied the Resident's letter to me dated the 31st March 1850. that the Company's landed property within the District of

† An address from the Peppers Circar to the Dewan of Travancore reporting results of his Inquiry respecting the contraband traffic of Tobacco and Pepper.—

of Sherthaley comprised only twelve "Plots of Gardens".—

The number of Farms within the Travancore limits shown in my statement is Correct, and as regards those in the Cochin Territory. I have only excluded the one Candle Island which was made over to that Circar in 1852.—

In Para 4 of the
5. Proceedings now under reply, the Board remark "it is not explained why Cochin refuses to transfer Tekemangalum".—

In the report referred

× Encl. to my letter to the Board dated 4th June 1852

to in General Cullen's letter† to me of May 2nd 1851. the Dewan says "the opinion of the Cochin Circar in regard "to the transfer to the British Government of Tekemangalom and the "Kaladeshoms remains unaltered. The "Circar is averse to the measure".—

I suppose the Dewan here alludes to the "firm" determination" expressed by the Cochin Raja in 1831. "never to assent to the transfer "of the smallest part of his Country "under any circumstances whatever"

has passed between this Office and the Collector of Malabar, relative to a proposal of General Cullen that certain Government Farms might be sold or their management transferred to the Cochin and Travancore Circars.—

2. It will be seen that Mr. Conolly is opposed to the sale of the Farms alluded to and the Board entirely concur in his objections. If it were proposed to effect an interchange of lands for the convenience of one or both Governments, the request of the two Circars might perhaps be acceded to, but when these positively refuse to transfer any of their own available lands, it cannot reasonably be expected that a proposal for selling to them any portion of the British Territories could be received, particularly as the Farms are averse to the measure, and its advantages are not reciprocal.—

3. The Collector has been unable to prepare the Sketch Map called for by Government but has furnished a list shewing the particulars and Situation of the Government

From the Superintendent of Stamps—

Sir,

Para 1st. I have the honor to ac: knowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated the 29th Ultimo, forwarding for report an extract from the Minutes of Consultation of Government noted in the margin, wherein information is desired in regard to the feasibility of dispensing with the services of a translator in the Stamp Office under some such arrangement as that suggested by the Board in their Proceedings of the 11th December 1857.

2. The arrangement in question which was to the effect that Collectors might be desired not to send any Certificates (on which refunds are granted under the provisions of Act XIII of 1848) to the Stamp Office at the Presidency without proper endorsements, containing all required particulars, was suggested in the Board's proceedings of

of the 6th October 1851, and the necessity which existed for a translator to check those documents was fully set forth in Mr Bruce's letter of the 11th of the same month, wherein it was explained that the services of a trans-lator were considered indispensable, not only because of the frequent errors and omissions found to exist in the Certificates and to obviate the loss of time which would be incurred by having to return them for correction, but also to ensure a more efficient control, and check over the disburse-ments made under the Certificates, the English endorsements on which must be carefully looked into in this Office to see that they correspond with the particulars given in the verna-cular languages, a duty which can only be efficiently discharged by an experienced translator.

3. In forwarding the former appli-cation to the Supreme Government the Right Honorable the Governor in Council observed that it was not desirable to add to the labours of

of the english department in the Provin-cial Cutcherries which there is reason to believe is in the majority of the Districts already over tasked, and it may be — doubted whether it would be safe at all events until the operation of Act XVII of 1848 in respect to the refund of stamp money be more fully developed, to pass Certificates of refund on the mere endorsement of the paying Officer without careful examination of their contents at the Presidency Stamp Office.

20th March 1852 Para 4

The very large increase which has taken place since the Act XVII of 1848 came into operation, both in the number of vouchers to be examined and the amount of refunds made upon them, has been — already pointed out, in the letter of my predecessor submitted to the Board under date the 12th August last: and the annexed memorandum will shew that the amount recovered and cre-dited to Government in consequence of incorrect payments has been much larger in the last Fasly than in any preceding year. It appears to be doubtful whether, with the means at

at present at their disposal, the Collectors could supply the information required to be con=tained in the english endorsement which it has been proposed that they should make on the Certificates and even then the check would not be complete unless the means were available in the Stamp Office for ascertaining the correct=ness of the endorsements which as has been already observed cannot be effectually accomplished without the aid of the two additional translators for which application has been made.

5 I take this opportunity of requesting that, if the Board should have been fit to recommend the addition to the pay of the manager in the Stamp Office advocated by my Predecessor, it may be suggested that the said increase may commence from the date of the application /12th August last/ agreeably to the course followed on the occasion of the increase previously granted, in consideration of his having been already so long discharging the extra duties, and having incurred the increased responsibility entailed by the operation of Act XVII of 1848 and of the delay which must necessarily occur in obtaining the sanction of the Government of India.

Sir,

With reference to Extract Minutes of Consultation dated 24th September 1853 I am directed by the Board of Revenue to submit for the information of the Right Honorable the Governor in Council the accompanying letter from the Superintendent of Stamps, from which it will be observed that the arrangement suggested by the Board in Para 8 of their Proceedings of 11th December 1851 for dispensing with the services of a Tamil Translator, is not considered practicable, owing as Mr Porter states, to its being doubtful whether, with the means at their disposal, the Collectors could supply the information required to be contained in the English Endoraments which it was proposed to make on the Certificates and that even then the check would not be complete unless the means were available in the Stamp Office for ascertaining the

correctness of the Endorsements.

The other tree No. 33 the Undarajee from its prefoliation pinnate leaves belongs to the Neem family (Meliaceæ) The timber of both these trees from the Vizagapatam District and of Vatica Tambugaia? 1 The Board of Revenue submit a proposition for the Establishment of a Civil Dispensary in the Cantonment of Arcot the Expense in maintaining it to (Estimated at 218 Rupees a Month) being defrayed from the Surplus Funds of the two Pungul Khanahs at Arcot and Vellore.—

2. The Governor in Council however

however learns from the letter of Dr Scudder above recorded that he has already formed a Dispensary at Arcot and carries it on private Subscriptions and as he believes it is the means of effecting a large amount of good among the Native population of the Surrounding District there appears to be no necessity for the Establishment of another Hospital at that place.—

3 Moreover believing that the Station of Vellore will increase in importance when the Railway is completed and the traffic takes the line of the rail instead of the Great Western road by Arcot the Governor in Council is of opinion that a Civil Dispensary might with greater advantage be formed there, provided means for its efficient superintendence can be ensured. on this point the Medical Board will report.—

4 The Board of Revenue will ascertain and report whether a public Building is available at Vellore for the purposes of a Dispensary, and if not to what Extent contributions towards the erection of one can be looked for.—

5 Paras 7 and 8 of the Board's letter

will be considered in the Revenue Department.—

Sir,

B.d No. 2583

From the Collector of Masulipatam — I have the honor to acknowledge the receipt of your letter of the 11th inst. forwarding forms for transmission with the Summahbundy Report, and with reference to Para 3, to forward a Memorandum showing those not applicable to this District, together with those requiring modification to make them in any degree suited to the circumstances of this District, in which the System of Village Joint rents has been recently introduced—

2. I am aware that the remarks may appear meagre, but you will at once see that the system of accounts to which many of these Statements alone have reference, is utterly opposed to that which should prevail under a Village Joint rent system if properly introduced and carried out in accordance with its fundamental principles—

Memorandum

12205.

Fort St. George 20th October 1853.

Memorandum

No 1	Statement of the number of Villages in each Talook	Columns 4, 5, 8, 9, 16 and 17 to be omitted, if all Columns not strictly applicable to the present system of Revenue management are to be excluded, and two Columns to be added under the head of joint Rent Villages
6	Prices of Grain	Columns 2, 3, and 4 to be omitted as wholly inapplicable
7	Statement shewing the Ayacut Quinquennial	Columns 5, 7–9, 11 13, 15, 17, 19, and 21 to be omitted, as the Ayacut sist cannot be ascertained in the absence of a Survey Assessment
8	Statement of Enam Cultivation Do	Columns 3, 5, 7–9, 10–11, 13, 15, 17, 19, 20 21, 22 23, 24, 25, 26, and 28, to be omitted for the abovementioned cause
9	Comparative Statement of Dittum	These accounts are inapplicable in as much as the Settlement on Dittum Cultivation or Dittum Bunjer does not prevail under the joint Village rents
10	Do of Cultivation	
11	Statement shewing the particulars of Dittum, Bunjer or waste charged	
12	Comparative Statement of Cultivation and assessment including Fusul Sasly	If the Village joint rents system be carried out in its integrity, it would appear that the whole of this Statement as a Comparison of the assessment is inapplicable Under the existing System little reliance can be placed on the accuracy of the Returns of Extent of Cultivation, and if the Columns from 1 to 25 were filled up the Comparison could scarcely be regarded as in any degree accurate Columns 26 to 47 as well as a part of the heading "including Fusul Sasly" are wholly inapplicable
13	Statement shewing the particulars of gross increase and decrease	Inapplicable

Fort St. George 20th October 1853.

14	Particulars of remission	Inapplicable if the Joint Rent system is to be enforced
15	Statement shewing the Several items added to the Settlement	This Statement might by a little alteration in the heading be made applicable to exhibit the items consisting of Rockadayem and additions made at the Settlement as a set off against remission &c.
16	Abstract of the Settlement on the actual Cultivation after deducting Cabooleat Bunjer	Inapplicable if the joint rent system is to be enforced.
17	Statement of lands held on Coule	Do.
18	Statement of Shaay or crops dried up	Do. under a joint rent system
19	Statement shewing the Cultivation of Sugar cane Cotton and Indigo	At present neither Sugar cane nor Indigo are grown in this District. The same remark in regard to the difficulty of entering the assessment with accuracy given above, applies also to this Statement.
27	General abstract Statement of the whole revenue from the land and from Extra Sources in the District	Columns 4 and 6 are inapplicable to the Joint rent System
28	Statement of the Number of Government plantations and trees therein in the District	There are no regular Government Plantations in this District, but this Statement can exhibit all plantations made hereafter under the new Rules. If requisite, all existing plantations on which any tax is raised can be entered

Resolved

12207. Fort St. George 20th October 1853.

Bd No. 2189.

Resolution thereon — Resolved that copy of the above letter be forwarded to the Commissioner Northern Circars for such orders as may appear necessary — The Board believe that it was intended that Ryotwar details should be exhibited under Joint Rents, it being a main feature of that system that the rights and holdings of each Individual should be defined and maintained With this impression it appears to them that the forms of account, the uniformity of which it is desirable to preserve, except in particular cases where there is an essential difference in the mode of Settlement pursued, will be found to be more generally applicable than supposed by the Collector —

Sir

With reference to your letter two letters noted in the margin, I have the honor to inform you that in conformity with the orders therein contained, I have excluded the Enams held by Pagodas and Dancing Girls from the Statement of the Enams proposed to be given to Village Officers in lieu of those unfit for cultivation I have not thought it advisable to include the Enams held by Calender Bramins and Musicians — The same reasons which exist for excluding Enams held by Pagodas appear to me to apply to these. The Calender Bramins are employed in fixing propitious days, and the time for anniversaries and Ceremonies, and the Nauniems in attendance at Pagodas and at certain domestic ceremonies I have allowed the following 4 description of Enams to remain in the Statement Viz.th those of Barbers, Washerman, and Potmakers who are useful Members of the Village Community, and Neolena doo a class of persons employed in cleaning and otherwise preparing the Village Choultry, where the Moonsiff and Head Ryots hold their Cutcherry, and in affording assistance to the Talook Servants who may visit the Village in procuring supplies.

In reference to the 3d para of your letter
2.
dated the 9th June last, I have the honor to observe that the expression "Wood" entered in the Column of Remarks was intended to convey the meaning that the Enam from not having been cultivated for a series of years were overgrown with jungle.

Mem. Sent this day to Messrs. Allen Brothers & Co. Invoice No. 4417 — Goods as per list enclosed — Amount £512 3 6 — Settled

Memorandum of Agreement made this twelfth day of March in the year of our Lord one thousand eight hundred and twenty-two between Thomas Whitcombe of the parish of Saint Mary-le-Bow in the City of London, Gentleman, and Rebecca his wife, of the one part, and Joseph Ashworth of the parish of Saint Leonard Shoreditch in the County of Middlesex, Cotton Spinner, of the other part.

Witnesseth that the said Thomas Whitcombe doth hereby covenant and agree to and with the said Joseph Ashworth, his executors and administrators, that he the said Thomas Whitcombe shall and will, on or before the twenty-ninth day of September next ensuing the date hereof, well and truly pay or cause to be paid unto the said Joseph Ashworth, his executors or administrators, the full sum of Four Thousand Pounds of lawful money of Great Britain, with interest thereon after the rate of five pounds per centum per annum, from the date hereof until the said principal sum shall be fully paid and satisfied.

And the said Joseph Ashworth doth hereby covenant and agree to and with the said Thomas Whitcombe, his executors and administrators, that he the said Joseph Ashworth shall and will, at the request and costs of the said Thomas Whitcombe, his executors or administrators, but not sooner than the first day of October next, assign and transfer unto the said Thomas Whitcombe, his executors or administrators, all that the messuage or tenement and premises with the appurtenances situate, lying and being in the parish of Saint Leonard Shoreditch aforesaid, in the County of Middlesex, now in the occupation of the said Joseph Ashworth, his undertenants or assigns, for the residue of the term of years therein yet to come and unexpired.

In witness whereof the said parties to these presents have hereunto set their hands and seals the day and year first above written.

Signed, sealed and delivered by the above-named Thomas Whitcombe in the presence of us, Edward Pemberton, Clerk to Messrs. Pemberton & Sons, Solicitors, Lincoln's Inn Fields; Mary Ann Hodgkinson, Servant to the said Thomas Whitcombe.

To the Chief Secretary to Government

Sir,

Para 1. I am directed by the Board of Revenue to submit for the information and orders of the Right Honorable the Governor in Council, the accompanying letter from the Collector of Nellore transmitting Statements of waste lands proposed to be given as Enams to Village officers in exchange for others rendered unfit for cultivation.

Submitting with the Boards recommendation a letter from the Collector of Nellore transmitting Statements of the waste lands proposed to be given as Enams to Village Officers in exchange for others rendered unfit for Cultivation.

2. The immediate cause of this application was a petition presented to the Board by the Curnums of Nyspandoo in the Talook of Nellore, complaining of the Submersion of their service Enams in the bed of the Nyspandoo Tank caused by the formation of a new supplying channel from the Pennar to that reservoir, but the Board would observe that in Extract Minutes Consultation dated 2d. October 1850, Government have directed that in

| | | |

in all cases in which such Enams are found to have become uncultivable from causes beyond the Control of the holders, the Collector should make immediate application for the grant of other lands in exchange".

3. The extent and value of the service lands reported to have become unfit for cultivation in Nellore, are as follows.-

	Gvortos			
Principal Division,	242	13	6	assessment Rs. 2,044 " 1
Sub Division - - -	105	13	12	assessment Rs. 714 1 1
making a total of	348	11	2	with an assessment

of Rupees 2,758 1 2.

x A Gvortos = 3/4 acres nearly.

4. It will be seen from the remarks entered in the statements herewith submitted that the causes which have led to this result are the inundation of the lands, their being impregnated with salt or soda, the encroachments of sand hills, and other obstructions which are either beyond the power of the owners to remove, or would involve an expense disproportionate to the value of the lands.

5. The Board therefore beg to recommend that fresh lands in exchange for the above may be granted to the extent of Gvortos 324 5 " assessed

assessed at Rupees 2764 12 7 as particularized in the Statements which accompanied the Collector's letter.-

B. No. 2601
From the Collector of Chingleput...

Sir,

Para 1. I have the honor to submit the accompanying Statement of Mootahs which were sold by auction on the 28th instant on account of arrears of Peishcush under the Sanction conveyed in Extract from the Proceedings of the Board of Revenue dated the 22d Ultimo.

Forwarding a Statement of Mootahs sold on account of arrears of Peishcush and requesting the sanction of the Board for the several arrangements within proposed and for the disbursement of the purchase Money of three Estates reverted to Government.

2. The estates of Athoor, Vepathoor, and Narasingapooram were purchased on behalf of Government for Rupees 3,500 Rupees 260 and Rupees 200 respectively. The purchase Money of Athoor though Rupees 775 14 11 above the balance outstanding against it, is Rupees 746 12 0 below the permanent Jumma, that of Vepathoor is but little in excess of the arrears due thereon The former possesses an arable area of Cawnies 896 1/4 of Wet and Cawnies 752 3/4 of dry land, and is irrigated by three Tanks besides a channel from the Paular river and two spring channels. The resources of the latter estate consist of 450 7/8 Cs of Cultivable Wet and 100 Cs 7/16 of dry, the Wet lands being watered by two Tanks. The Sources of irrigation of both these estates have been neglected by their proprietors and I feel confident that on their being restored to an efficient state the Mootahs will yield the full amount of their permanent assessment

3. The Estate of Narsingapooram was purchased by Government for a sum much below the outstanding Balance, leaving still a demand against the late Proprietor of Rupees 451 7 0. This individual, it appears has presented two Petitions to the Board of Revenue complaining

of

of losses sustained by him consequent on the inundation of the lands of his Mootah by the Coorum Tank, which petitions have been referred to me for report. The subject is under investigation, and the Petitioner was at the time informed that the Sale could only be averted by the payment of the Peishcush, nearly the whole amount of which the Board will observe remains undischarged.

Even after the sale was concluded. I held out hopes to him of recommending his case for the favorable consideration of the Board, provided he made arrangements for the liquidation of the balance on which he applied for an extension of two months' time for the purpose, a request however, with which I did not feel myself warranted in complying.

4. The Mootah of Nursingapooram consists of Cawnies 154 of arable wet and Cawnies 65 of dry land, irrigated by one Tank, 1 spring channel and 45 Wells. It does not appear on the whole a profitable estate, but its purchase is desirable in view to prevent any opposition which the Mootahdar may think proper to urge to any improvements which it may be desirable at any time to effect to the important reservoir at Coorum, by which a portion of the lands of the said Mootah would be inundated.

5. The estates of Keelmadalumbadoo and Parovoil were purchased by one Culleana Soondara Moodelly for Rupees 3,550 and Rupees 1,550 being Rupees 2,744 3-4 in excess of the balances due against the Estates. These as well as the Mootah of Modarumpadoo were lately held by Teagaroy Moodelly, on whose demise some months ago

ago, they were registered in the name of his widow. Her claims however have been disputed by the present purchaser Culleana Soondara Moodely who is natural father to the deceased, and these disputes form at present the subject of litigation in the Principal Sudr Ameen's Court. This Officer has inconsequence addressed a communication to me requesting that the sale of Madarumpadoo may be postponed the balance against it Viz. Rupees 38-6-5, being received from Culleana Soondara Moodelly and held in deposit, and that the surplus proceeds of the sale of the other two Estates may likewise be held in deposit pending the disposal of the Suits filed in his Court. These requisitions have accordingly been complied with.

6. The balances against the other estates under attachment having been liquidated they have been released.

7. I beg to request that the several arrangements above reported may obtain the sanction of the Board, and that I may be permitted to disburse the purchase money of the three Estates which have reverted to Government. The disposal of the further balances against Nursingapooram, I beg to recommend may be suspended pending the Settlement of the claims advanced by the proprietor.

From the Collr. of Chingleput

Sir,

Para 1. Referring to my letter of the 29th Ultimo I have the honor to forward the accompanying Copy of a letter from Cunniah Chetty in which he offers Rupees 200 in excess of the Sum for which the Mootah of Autoor was purchased on account of Government stating the reasons which prevented his Goomastah from attending at the sale.—

2. I have declined to comply with his request as the sum for which the Mootah was knocked down to Government, is more than sufficient to cover the Balances outstanding against it, and as that now offered falls considerably short of the amount. I was prepared to bid as a favorable purchase on behalf of Government, In the latter case, were it even otherwise, compliance with the request now made it appears to me, would involve a precedent for future cases which might be open to objection.—

Fort St. George 20th October 1853

Nursing a poorum Estate was only Rs. 200, or Rs. 451-7-6 below the balance outstanding against it. It consists of Cawnies 154 of arable Wet and 65 of dry land, and is irrigated by one tank, one spring Channel and 45 wells. The Mootah although not a profitable one was nevertheless considered a desirable purchase in view to prevent any opposition which the Mootahdar may urge to any improvements that it might be necessary to effect to the important reservoir at Coorum, by which a portion of the lands would be inundated.

5. Several petitions as noticed by the Collector have been received at this Office respecting the last named Estate, which are now under investigation by the Collector. As there is a balance still due on account of this Mootah, the subject will again be brought under the notice of Government.

6. The Board recommend that the sale of the Estates purchased on account of Government be confirmed, and that the Collector be authorized to disburse the purchase money, amounting in all to Rupees 3,960/ Three thousand nine hundred and sixty, credit being taken in his accounts for Rs. 3,155-15-1 the arrears outstanding against the late proprietors.

7. On receipt of the orders of Government, the Board will forward the necessary instructions to the Collector for confirming the sale of the remaining two Estates purchased by Palava Cullyana Soondara Moodelly.

8. I am also desired to forward for the information of Government a further letter from the Collector reporting that Cunniah Chetty has offered a sum of Rupees 200 in excess of that paid for the Authoor Mootah, but which Mr. Cochrane has very properly declined to accept.

Bd. No. 2206.

Proceedings thereon — (31.32)

The Board of Revenue direct that the advertisement which accompanies the foregoing letter be published in their Office, the date of sale being altered to Monday the 21st. November 1853. Mr. Cochrane will be pleased to make a correspondening correction in the advertisement published in his District. It is hoped that in most cases the balances will be discharged and thus render unnecessary the extreme measure of Sale.

Read Estimate of Extra charges proposed to be incurred for Fasly 1263.

Bd. No. 2179

Proceedings thereon — (33.34)

Resolved that the foregoing Estimate be returned to the Acting Collector, with a request that he will submit another in lieu excluding from item No 8 the Blue and Scarlet Cloth, Wet Tape and Black and Red Skeins of Silk for the Delagoto Belts, which should be included in the annual Indent for Stationery, as required by the orders of Government published at 1308 of the Official Gazette for 1849.

In the above item it is observed that there is a charge for 110 Tailors hire at 5 Rupees each the No. of Belts to be made is 55, which will therefore be 10 Rupees for stitching each Delagoto Belt; as this charge appears to the Board to be excessive Mr Binning is requested to explain what kind of Belts are proposed to be made, and if they are any thing similar to those worn by the Peons at this Office to whom only 6 pice is allowed for each, a large reduction should

should be made in the charge.

Advertisement.

1 Notice is hereby given that unless the arrears of Revenue for Fusly 1262 which are outstanding against the undermentioned lands under an attachment in the Zillah for Fusly 1262 shall have been liquidated on or before Monday the 21st November 1853 the sale of the lands will commence by auction at the Collector's Cutcherry at Salem or at such other place as may be appointed for that purpose and all purchases made by such authorized agents or Vakeels shall be held to be valid in the same manner as if the purchases had been made by the Principals.

3 But it is requested that such authorized Vakeels shall state at the time of purchase the names of the constituents on behalf of whom such purchases may be made.

4 The intention of the condition being to prevent fraudulent collusion.

Notice is further given that in the event of any purchase being made in a fictitious name, the deposit money made on account of such purchase will be liable to be forfeited to the Government and the lands to be resold.

5. The purchasers of lands will not be put in possession till the sale has been sanctioned by the Board of Revenue but in the meantime 15 per cent of the purchase money will be required to be deposited immediately and security given for the payment of the remainder on the receipt of the Boards' sanction or within one month from the day of sale, in default whereof, the lands will be resold at the risk of the first purchaser

6. In case of the sale not being sanctioned by the Board of Revenue the deposit money will be returned, and the persons depositing it released from all responsibility with regard to the lands.

7. The arrears of Revenue which are outstanding against the abovementioned lands will be received by the Tahsildar in his Talook until the 15th November next, after which date the Proprietors should pay the balance into the Hoozoor Cutcherry.

8. For further particulars enquire at the Office of the Board of Revenue or at the Collectors Cutcherry between 10 and 5 O'Clock, Sundays excepted.

Bd No. 2595
From the Jg Collector of Madura
Solicit permission to post-pone the transmission of certain statements in the new form till Fusly 1263 for reasons given.

Sir,

With reference to the Circular form in your Office of the 13th June last I have the honor to represent that in consequence of the system of classification which obtains in the Principal Division of the District and the late date at which the Circular was received it will be found a work of so much difficulty and delay to furnish the Statements Nos 7. 9. 10, 12, 13, and 16 for Fusly 1262 that I venture to solicit permission to post-pone the transmission of the accounts in the new form till Fusly 1263.

2. Should however the Board consider it desirable that the instructions contained in their Circular should be made applicable to the Fusly which has just closed. I have the honor to crave their indulgence towards any delay which may occur

in

12268 Fort St. George 20th October 1853.

in the transmission of the annual reports.

3- Up to Fusly 1244 it was customary to enter under each head of cultivation the extent of land cultivated with that peculiar species of cultivation without shewing the several charges which had taken place after the survey. Thus land assessed as poonjah at the fysul if cultivated with Kunjah was entered in the accounts as Kunjah and so with the other 3 recognized classes of Totim Vanpyre and Kunjah mail Poonjah.

4- On the introduction of the Bellary forms in 1244 it was found that the Survey Poonjah lands cultivated at that time with Totim Kunjah Kunjah Gardens or Kunjah mail Poonjah should be formed into new classes with separate Agents to the two former of which any new accessions from the fysul Poonjah in subsequent years have been added but when any of the superior or inferior Kinds of Cultivation which form the 2 last mentioned classes happened after 1254 to be produced on the Kunjah lands the increase or decrease was shewn

Fort St. George 20th October 1853.

shewn as Teeruah or Fusle Jastee &c. Cummee.

5. The accounts for Fusly 1262 had been prepared according to this practice before the receipt of the Board's Circular now under reference which reached me while I was making the Settlement. After much consideration it is found impossible from the accounts submitted by the Village Curnums to prepare the new Statements.

6. The new forms appear to require that the Classification fixed at the survey should be invariably and strictly observed the results of annual changes from it being shewn under the heads of Teeruah and Fusle Jastee and Cummee. It will be seen by the Board from what has been above shewn that the adoption of the new forms must involve the preparation of an entirely new set of accounts in each Village and a careful and minute examination and comparison of the Survey accounts with the state of cultivation in Fusly 1262.

7. Another difficulty also arises from the mode of taxing Tyrut Poonjah converted into Kunjah but occupied as Poonjah such land instead of reverting to its original class as Poonjah and being

Fort St. George 20th October 1853.

being taxed with the normal Poonjah rate is still retained in the Kunjah Byaut and pays as Kunjah mail Poonjah nearly half the Kunjah rate.

8. All Survey Poonjah lands also converted in Kunjah since Fy. 1254 and cultivated with Poonjah though classed as Kunjah mail Poonjah when cultivated are classed as Kunjah when left waste.

9. These various changes and alterations in the mode of classifying and classifying lands since the Survey make it very desirable that great care and attention should be paid in preparing the accounts according to the forms now submitted. Mistake and errors arising from a hasty preparation will not only occasion needless trouble and correspondence in future but will go far to counteract the benefits contemplated by their introduction Viz. simplicity and uniformity. Further this is the season of Cultivation and it is feared that the Curnums will hardly be able to prepare the accounts of the past Fusly and those of the cultivation of the present with that correctness regularity and despatch which are necessary

No. 64

B.d No. 2315

From the Collector of Coimbatore.

Requests information on certain points connected with the preparation of the Jamabundy Accounts in the new forms received with the Board's Circulars of the 13th June last.

To W. H. Bayley Esqre
Secretary to the Board of Revenue

Sir,

I have the honor to acknowledge the receipt of the Board's Circular of the 13th June last together with the forms of Jummabundy accounts and to request information on certain points connected therewith.—

2. No. 1. In this Statement the number of Villages of each description is intended to be exhibited with their dependent hamlets. Columns 10 and 11 show those held on Shotrium tenure yea and 18 and 19 the Motumpha Villages in some instances, the Shotrium Villages are Motumpha ones also so far as the Government is concerned, in other words whilst the Shotriumdars collects the Land Revenue, the Government realize the Motumpha Jase, but as there entry under the two different heads will double the number of Villages and be a fictitious one I presume that it is the intention of the Board that they should be entered in Columns 10 and 11 only.

3. In the foot note No. 7 it is remarked that "the entries up to Column 9 should

"should be in accordance with the Survey
"Accounts and in the rest the revisions of assess-
"ment made subsequently to the Survey should be
"shown". By the adoption of this course the
old assessment only would appear in Column 21
and not the revised correct amount that ought
to be exhibited.

4. Adverting to Forms 8 of the
Statement of the Enam cultivation (Quinquennial)
I would solicit the favor of your informing
me whether "Sadee Enams" known lands irrespective
of "Cayem Sadee Villages" are to be inserted
in it in the same manner as the service Enams
or whether they are to be included in the
items indicated in the Margin, in either case
how the amount of Quit rent realized by Govern-
ment should be exhibited also whether Shotrium
Villages are to be shown separately or incorporated
with Jagheer. In the former case a new head re-
quires to be added below the item "Jagheers grain for
services rendered to the Company." I presume that by the
term Zemindars' Enams the Poligats are not meant and that
Columns 10 and 25 are intended to show the items alienated to the
Enamdar

Davadayem
Durmadayem
other Enams

Enamdar in ready money such as tree Tax &c
and the amount recovered by him.

5. No 9 is the form of Comparative
Statement of Dittum for the last and Current year
whether the old Survey assessment is to be inserted
in Columns 3 and 7 of this account or the revised
one requires to be cleared up. I believe that the
revised assessment or rather the amount of
Settlement is to be shown in this as well as in
Statements Nos 10-11-12-13 and that the former
assessment is to be exhibited in Statement No 16
only but I shall be glad to be favored with
the instructions of the Board on this point; the
Garden land is divided into 3 items namely under
"Wells" "Tanks" and "Channels" with the specifica-
tion of one Crop and two Crop Lands; such a
distinction is not observed in this District so far
as respects the Punjah Garden nor is there
any particular localities the rate varying with re-
ference to the productiveness of the Soil not with
reference to locality such as under Tanks &c nor to the
number of Crops. The Gardens will therefore be shown
in one item collectively like "Dry land" and not under 3
separate Marginal Heads as indicated in the form, again Dry
lands

Inam Sadee
excluded with
reference to
No 9.

lands when converted into Punjah Garden comes under the head of Garden and therefore the heading in the body of form. No 9 should I think be altered as pointed out in the Margin. It is different at present and would take up much time and labor to specify the extent of Garden, Punjah and Punjah Garden as it stood at the time of the Survey and that since appropriated to these species of cultivation, the accounts on the records of this Office do not afford information on this point - I would therefore request the Boards permission to exhibit the particulars called for so far as they relate to the year which has just expired, the extent entered in the accounts of 1261 being taken as the Survey Standard, should the Board disapprove of this proposition it should be necessary to defer the preparation of this account until the close of Fusly 1263 and even then the information called for cannot be had without much labour and difficulty

1 Dry land converted into Garden
2 Do. Do. into Punjah
3 Garden converted into Punjah
4 & 5 Dry & Garden converted into Punjah Garden or Orchard land

6 The same remarks apply to form No 10 also.

7 Referring to form No 13 I beg to be permitted to

to add as many items as may be desirable with reference to local causes. In the "particulars of Gross increase" in the form, lands taken up in lieu of those abandoned is shown as a separate item for which a corresponding entry is not found in "Gross decrease", and it cannot, according to the practice hitherto observed be included in the 3 items provided for in the form. By Cowle remissions for waste land, I presume that general remission for lands uncultivated is meant - As the Cowle remission strictly so called cannot be included again in the general remission it having once been deducted and the net Amount only exhibited opposite to the item "waste cultivated".

Lands left waste from death Do. Do. deserted Do. Do. impoverishment

8 In the Cowle Statement No 17 the new Cowle recently sanctioned by the Board in Extract from the Proceedings of the 23d January 1851 as well as that granted for the repair of old and excavation of new Wells will be shown as separate items -

9 The Statement No 21 showing the Kistbundy of the Government Villages will be prepared exclusive of the Abkarry Revenue as such appears to be the wish of the Board, if otherwise the number

of

of instalments 18/ entered in the Form will be increased to 12 as in the Statements hitherto submitted.—

10. In Statement No. 27 the items of "Excise Revenue" and "profits on Tobacco" will be added the same being omitted in the Form without such addition the total Amount thereof in Column 25 would not correspond with the whole out-turn of the year.

11. I beg the early orders of the Board on the subject in the mean-time to save delay I have directed the accounts to be prepared so far as they are found practicable.

12. The extent of Punjah and Gardens is known by the term Bullah and that of the wet land by Cawnie the same term will be made use of in the preparation of accounts according to the new Forms.

13. In the Anjaem Account No. 7 the Form provides for the entry of Lands newly brought under cultivation from Enam and Peramboke but not for the

the insertion of deficiencies arising from lands becoming unfit for Cultivation from various Causes which are excluded from Anjaem, this point requires consideration.—

14. With adverstence to No. 28 it is desirable that I should be informed whether that Statement should show the entire quantity of land appropriated to the Plantation of Topes from the date of the promulgation of the new Rule or only that taken in 1262.

15. No. 1 is headed an Abstract of the Settlement on the actual Cultivation after deducting Cahoolaty Bunjer but it appears to me that such waste as is charged to the Ryot at the time of Jamabundy should be included in it, if it is intended that the sum total thereof should correspond with the Amount of Settlement.

Proceedings thereon.

The Board observe with reference to para 2 of the foregoing letter that the Palapatcha Villages alone should be entered

entered in Columns 18 and 19 and the Shrotriem ones in Columns 10 and 11. As regards form No. 7 the Collector is informed that the entries up to Column 9 should be according to the Survey accounts and that the lands referred to in Para 13 should be shown in a separate Column with the Assessment after Column 17.

2 Form No. 8 was so prepared as to admit of the entry of Service and Jody Enams in the gross under each of the heads noted in the Margin, the Collector is therefore requested to include the Jody Enams under the heads to which they respectively belong. As the Amount of Jody realized in Jody Enams is exhibited in the gross in Statement No. 15 no separate heading seems necessary for it in form No. 8. Mr. Thomas is desired to alter the heading "Saghnies given for Services" &c into "Shrotriems and Saghnies given for services" &c and he is at the same time informed that this Statement should exhibit only the Enam Villages under Circar Management. Columns 10 and 25 are

Service Enams.

as surmised by him intended to shew the items alienated to the Enamdars in ready Money "such as true tasc" &c and the Amount recovered by him.

3 The Assessment in Statements Nos 9 and 13 and 16 should be given as per Survey and altho' garden lands cannot at present be shewn under the heads of "Wells" "Tanks" and "Channels" with the specification of "one and two Crop lands," yet as these particulars are to be gradually furnished it is desirable that these headings should be retained; but the entry may be shewn in the gross. The future Summabundy Accounts should however be made to specify the particulars of the sources of irrigation.

Col: 347

4. The heading on the body of form No. 9 may be altered in the manner suggested by the Collector and as he states that there will be some difficulty in specifying the extent of Garden &c as it stood at the time of the Survey and that since appropriated the extent according to the Accounts of Fusly 1261 may be entered but in future the particulars of the Cultivation

cultivation at the time of the Survey should be given and this it would appear, not difficult to do, if the particulars are once entered in the Jummabundy fieldwar Chittahs.

5. With reference to the remarks of the want of an entry in form No. 13 under the head of gross decrease corresponding to the item "Land taken up in lieu of those abandoned" under the head of gross increase, the Collector is requested to alter the fourth item of the former heading to "Lands abandoned in lieu of those taken up." By "Cowle remissions for waste lands" is meant remissions strictly so called and not the general remission for lands uncultivated.

Improper entry of Tyen Amongst Enam lands.

6. Waste leased to Jumma should be included in Statement No. 16 as in that case only can the entries correspond with the Net Settlement shewn in Statement No. 10. The 2 items of Cowle referred to in para 8 may be specified separately in Statement No. 17; but they should be prepared in accordance with the new forms.

Statement

Statement No. 21

should exhibit the Land Revenue alone without including abkarry & Sea and the item Shrotriem Jody which has hitherto been entered separately in the Kistbundy Account should for the future be included with the Land Revenue in that Statement.

8 As the items mentioned to in Para. 10 have reference to Savoy Jumma and not Sayer they should

should be exhibited in form

No. 23 and the Collector

is authorized to prepare the

Accounts for this Statement in

the manner proposed by him

in para 12.

9. Town No. 28 should

exhibit the extent of land

occupied for the plantation of topes

up to the end of year, that taken up

in this year, and their total.

BP No. 2315

From the Collector of Coimbatore

Sir,

I have the honor to solicit the orders of the Board of Revenue with reference to two propositions from certain Ryots in this District to cultivate Punjah and waste lands with Nunjah by the construction of new Tanks, and the repair of an old one at their own cost.

Recommends for sanction two propositions for Cowle for Cultivating Punjah and waste land with Nunjah by the construction and repair of Tanks at the cost of Ryots.

2 The first proposition is from a ryot in Pulchimampollium in the Pullachey Talook. He has already constructed a small Tank, and converted half a Cawnie of dry land into Nunjah cultivation. He now requests a Cowle of the nature previously sanctioned by the Board, to improve it and cultivate 6 7/16 Cawnies more. The Estimated Cost of the work is Rupees 310-6-. The Nunjah assessment which would become payable is Rupees 37-3-4 at 5-12-6 per Cawnie being the same rate at which lands in the neighbourhood are taxed

taxed. the lands proposed to be appropriated to Nunjah is close to the heavy Jungle of Marchenaikenpolliem on the northside of "Antiar" River. Hitherto there has been no Nunjah Cultivation here except the very small quantity referred to, and it is therefore highly desirable that every encouragement should be afforded to the Ryots who appears competent to undertake the work, the term of Cowle solicited extends over a period of 18 years as shewn in the accompanying Memorandum No 1, which if granted, will leave him a small profit the work is on a small scale, and presents no great difficulty —

3 The 2d proposition is from a Monigar of Chennemalay in the Perindoray Talook, who offers to repair a Tank in that Village and bring under cultivation 15 1/2 Cawnies of land hither to under the head of Punjah and Perumpoke, the assessment thereof would be 85 — 3 a year at 5 — 8 — 2 per Cawny as in its neighbourhood the probable expence required to place the Tank in good order amounts to Rupees 108 — 14 — as indicated in the Margin The Monegar appears

appears substantial and capable of carrying out the work the period of Cowle in this instance also is 18 years Vide Memorandum No 2 This Tank has fallen into decay many years ago and there had been no Nunjah Cultivation under it during the last 50 years — the work is reported to be feasible both by the Tahsildar, as well as others whom I have had an opportunity of enquiring and under these Circumstances I beg leave to recommend that the propositions of the two Ryots above mentioned, be acceded to as tending to encourage the outlay of private capital beneficial both to Ryot and to Government. —

thereon. Upon the works alluded to in the above letter being inspected and approved of by the Civil Engineer, the Board sanction the Cowles proposed for them tho' with reference to the amount of remission, and the estimated expenditure on each undertaking there would appear no pecuniary advantage held out to the Ryot; and on this account the Board will be prepared to sanction more favorable rates if the Collector thinks them necessary. Where the land to be improved has always paid the Dry Assessment it is not necessary that this should be given up for any period as pointed out in Proceedings dated 23d January 1851.

B. No. 2535

From the Acting Collector of Madras — Sir, I have the honor to request that the Board will be pleased to inform me whether they consider the principle laid down in Para 12 of their letter dated 11th February 1803 to be still in force as I cannot find that it has been revoked. I shall not of course act on it in any particular case to which it may seem to apply, without first specially reporting upon it for the Board's orders.

Madras — 3 / Signed H. Stokes

21st September 1853 — Acting Collector

BR No. 2191.

Proceedings thereon. The Board observe that the principle laid down in Para 12 of their letter dated 12th February 1803 was in conformity to the instructions of Government as contained in Mr Hodges's letter of the 15th January 1803 Para 11. They are therefore of opinion that it is still in force, but the Collector will be pleased to report, for orders, any case to which it may seem to apply.

In Coimbatore, Bellary Cuddapah, Tanjore, Chingleput and Guntoor owing to the large outstanding balances which remained uncollected at the end of Fusly 1260, and the realization of which was not effected under the circumstances of the season till the succeeding Fusly had commenced. In Madura owing to the Collection of the balance against the minor zemindar of Shevagunga and adjustment of that against the Cullimun tha Mostah. In Nellore, Trichinopoly and Tinnevelly owing to larger Annuary balances at the commencement of the Fusly, and in North Arcot from a similar cause, and partly to certain Kists due by the zemindars of Calastry and Cavetnuggur, and the entire Peishcush of the Amee Jaghiree for Fusly 1260 having

having been entered in the accounts of Fusly 1261.—

8. The Decrease in the Collections of arrears occurred in the Districts noted in the Margin, and is attributed in all of them to the smaller balances that were outstanding at the beginning of the Fusly against the Ryots, Zemindars and Proprietors of the several Districts.—

In Rajah-mundry from increased Settlement of the Government Estates and partly from some Estates having newly reverted to Government - In Masulipatam and Kurnool owing to the more punctual realization of the revenue and in the latter District partly to the transfer of the items of Orchards and Groves to the above head.—

11. The Decrease occurred in the Districts noted in the Margin, and is attributed in Coimbatore to the remission of the tax on Palm trees and of land revenue owing to badness of season - In Bellary to the injury sustained by the works of irrigation from the floods of the 5th and 6th of May 1851. In Tanjore to the difficulty of Collection on account of indifferent produce and prices - In Salem to the transfer to the Trichinopoly District of the Mootah of Katoopootoor, and the purchase on account of Government of the Mootah of Pennagarum - In Madura to

Recoveries of advances for Cultivation.

16. Under this head there is a decrease of Rupees 20,480—8—7, occurring chiefly in the Districts of Tanjore, Rajahmundry, and South Arcot, and is attributed to a decrease of advances in the first two Districts, and to no advances having been made in the third, the recovered sum of Rupees 133—4 which appears in the statement against South Arcot being an outstanding balance of Fasly 1260.—

Recovery of Charges collection of sequestered Zemindaries.

17. There is an increase of Rupees 5,049—6—7 under this head, occurring chiefly in Chingleput, Rajahmundry and Ganjam, and is owing to a larger Amount of pay having been disbursed to the temporary establishments employed on account of Sequestered Mootahs in Fasly 1261.—

Interest on account of arrears unpaid.

18. Under this head, the increase is Rupees 4,772—13—5 and occurs chiefly in Ganjam in consequence of a large amount of interest having been realized during the Fasly under observation, on the comparatively large amount of balances outstanding against certain Zemindaries and estates up to the end of April 1851.—

Receipts on account of plantations sales of lands, and Batta or gain by exchange.

19. The decrease of Rupees 1,352—9—6 under this head occurs chiefly in Coimbatore,

and

Fort St. George 20th October 1853.

and is attributed principally to the sale of land in the Neilgherries not having occurred to the same extent as in the past Fusly.-

Refunds of Revenue charges.

20. The decrease of Rupees 25,764-4-5 occurred chiefly in the Districts of Coimbatore, Salem, North Arcot, South Arcot, and Trichinopoly in consequence of smaller credits under this head of miscellaneous items.-

Charges.-

21. In the charges on account of Land Revenue in Fusly 1261, there was a net increase of Rupees 5,42,049-5-5 as per subjoined Statement.

Fusly 1260	12,83,965—8—3
Fusly 1261	12,77,350—1—8
Decrease	8,615—6—7

24. The increase occurred in Canara

owing to the appointment of a Special Assistant in the person of Mr. C. F. Chamier from 7th October 1851 and to the Assistant Collector Mr. Hudleston having become entitled to an increase of salary at 175 Rupees per Mensem from the 6th September 1851 In Cuddapah from the salary of the Collector and Assistant Collector for one month in last Fusly having been charged in the present Fusly. In Malabar arising partly from the appointment of Mr. Sandeman as Assistant Collector and partly in consequence of a higher rate of salary allowed to Mr. Collett. In Rajahmundry from the salaries of Messrs. Forbes & Taylor for a part of Fusly 1260 having been charged in Fusly 1261 and also from the increased salary drawn by Mr. R. E. Master. In Masulipatam from the deputation allowances paid to the Head Assistant and Acting Head Assistant Collector and from increased Salary to the Collector. In Guntoor from the Collector having drawn arrears of pay in Fusly 1261 and partly to the Assistant Collectors having become entitled to higher rate of salary. In Ganjam proceeding chiefly from a moiety of salary only having been disbursed to

Captain

Captain J. P. Frye the Assistant Agent consequent on his having been placed in temporary charge of the Orissa Agency Sircar Salem from deputation allowances having been drawn by the Acting Sub Collector and Acting Head Assistant Collector. In Nellore from the Salaries drawn by Messrs Paunefole, Lushington and Morris which do not appear in the accounts of the preceding Fusly and in the North Arcot owing to the deputation allowance payable to the Assistants having been augmented during Fusly 1261.

Decreases. 25. The decrease occurred chiefly in Coimbatore in consequence of the Salary of the Collector having been disbursed at Rupees 2333-8-4 while for 8 Months in the last Fusly it was drawn at 3000 Rupees by the late Principal Collector. In Bellary owing to no Salary having been drawn on account of Messrs. Meller and Tweedie nor any deputation allowances by Mr C. Pelly charges which were made in Fusly 1260. In a Chingleput in consequence of no salary having been drawn by Mr. Theese as was the case in the preceding Fusly.

Fusly. In Vizagapatam from the Salary of the Assistant Collector not having been disbursed to the same esetent as in last year and in Tinnevelly owing to the salary drawn by the Collector during Fusly 1261 not having included arrears as was the case in Fusly 1260 and partly to short payments made to Assistant Collectors.

Fusly 1260	23,38073-7-2
Fusly 1261	23,63538-8-5

26. The increase under this head occurred chiefly in the Districts of Cuddapah and South Arcot in the former owing to 13 Months Salary having been debited in Fusly 1261 and in the latter owing to a similar cause and also to the Sheristadar having become entitled to a higher rate of Salary.

Masulipatam and Ganjam in the former owing to the wages of the servants &c belonging to Nedadavole and other Purganahs recently

Fusly 1261	17,06,014	9	3
Increase	3,95,384	9	9

29 The large excess exhibited in the Marginal Statement under this head occurs principally in Bellary and Rajahmundry. In the former District owing to a large Sum having been laid out on the repair of a great many works of irrigation injured by the floods of the 5th and 6th May 1851 and in the latter from the Great Occasional Works viz the Nagaram Aequeduct the Eastern channel from the Godavery and the Colleiro Channel &c having been performed under Estimates sanctioned by Government.

Fusly 1261	1,57,774	12	11

30 The decrease under this head is the result of ordinary fluctuations in the Amounts of the miscellaneous items of which it is composed and therefore requires no particular explanation. Under

Tent Allowance.			
Fusly 1260	1,04,603	2	1
Fusly 1261	1,44,294	6	4
Increase	9,691	4	3

31 Under the item of Tent allowance the largest increases occur in Rajahmundry from the Extra tent allowance drawn by Mr. Forbes for the period during which he was Post Office Commissioner and partly from the usual causes. In Masulipatam from the Extra allowance drawn by the Collector and his Assistants including the special Assistant in South Arcot from there having been an Additional Assistant to the Collector and the Revenue Officers having remained longer on circuit, and in Kurnool from certain arrears having been disbursed to the Assistant Commissioner Lieutenant Russell under the orders of Government.

40 The increase in this item is owing in Rajahmundry to the purchase of the Valumpolliem Estate on account of Government. In Madura to the adjustment of a part of the balance against the Kullumuntha Mootah. In Masulipatam to the purchase of the Godoor and Gundoogalanoo and Puntapaud Purgunnahs. In Ganjam to the purchase of the Mohary Talook put up to Auction for Arrears of Revenue and the Compensation paid to the Proprietor of the Lutchemeypoor Estate on its transfer, and in Salem to the purchase of the Pennagaram Mootah in the Daramporry Talook as per order of Government dated 23d December 1851.

deleted in the accounts of Fusly 1261 will be found to amount to

to Rupees 5,81,694-4-10 giving a percentage of 15,551 on the gross land Revenue Collections of that Fusly.

45. In Fusly 1260 the proportion was 14,984 per Cent. the increase is the result of the large expenditure on Public Works during Fusly 1261 which expenditure though a proper charge on the land Revenue is not strictly one of "Management."

Ahkarry

46. In the Collections of the Ahkarry Revenue there was a Net increase of Rupees 8,721-15-2 resulting from a gross increase of Rupees 55,829-10-10 and from a gross decrease of Rupees 47,107-11-8. The increase occurred in the Districts noted in the Margin and is attributed in Coimbatore and North Arcot to the Collection in Fusly 1261 of the outstanding balances of the preceding Fusly in Cuddapah to the whole of the rents of the Fusly having been realized during the year and in the remaining Districts from the increase of

51 The trifling increase which appears against the remaining Districts do not call for any particular explanation.

52 A Decrease has occurred in the Districts noted in the Margin. In Canara owing to an unusually large quantity of Coir having been disposed of in Fusly 1260 which was not the case in the year under consideration. In Coimbatore from the loss of ferry rents occasioned by the construction of the Cavery and Bowany bridges. In Tanjore and Guntoor owing to diminished competition in the sale of the rents. In Madura to the tanks not having received a sufficient supply of water and to the adverse nature of the season. In Tinnevelly arising chiefly from a smaller credit on account of tanks and partly to a falling off of the Cheyroot farm and in Kurnool owing to the transfer of the items of Orchards and Groves to the head of Land Revenue.

55 The increase in Coimbatore is attributed to the Collection during the Fusly of the entire Moturpha revenues of the year and partly of the Arrears of the last. In Cuddapah it is owing to similar causes. In Chingleput to an increased amount of Beriz in Guntoor to the Collections being made with greater punctuality. In North Arcot to a large Amount of the arrears of the last fusly having been realized during the present and in Tinnevelly to an increase in the loom tax in consequence of many additional looms having been brought to account in Fusly 1261.

B. No. 2703.

From the Secretary to Government

Reviewing the settlement report of the Madura district for Fusly 1261.

Read the following Extract No. 1132.

Extract from the Minutes of Consultation in the Revenue Department, under date the 11th October, 1853.

Read the following papers.

From the Secretary to the Board of Revenue. (Here enter 16th December 1852 No. 570)

Extract from the Proceedings of the Board of Revenue. (Here enter 4th August 1853 No. 36)

Para. 1.

The Season of Fusly 1260 in the Madura District had been highly favorable, that of Fusly 1261 now reported on was very much the reverse. It opened with good promise, but from July to November there was but little rain, and the early dry cultivation suffered in consequence. Some showers in November proved beneficial

to the latter dry crops as Curagoo, Raghy and Pulse which yielded well, but, the North East Monsoon generally was scanty, and the Vigay the Chief river of the District was insufficiently supplied. Much Nunjah land was therefore left uncultivated, and the crops in the lands which were cultivated failed to a considerable extent.

2. The Season was not healthy either for man or for cattle. The Sub Collector in para 7 of his report speaks in high terms of the exertions of his 2d Dresser Mr. F. Brown among the inhabitants. The sick it is stated "flock to him in large "numbers, and appear to feel great con-"fidence in his Skill. His treatment seems "to be successful even in cases of more than "Ordinary difficulty. His readiness to afford "assistance and his Kind and tender manner "secure him the good will and confidence "of the people, whose prejudices in favor "of native practice appear to be fast on "the decline." The Government consider these remarks to be very much to Mr. Browns' credit and they resolve to furnish

Copy

Copy of this para of Mr. Clarkes report to the Medical Board for their information. They have already, Extract Minutes of Consultation 19th March 1853 No. 309, directed that the Medical Subordinates attached to Revenue Officers should give advice and medicine to the people generally and not simply to the Cutcherry Servants, and that they should be made as extensively useful as possible.

3. Prices were high both as compared with those of the preceding year, and with the commutation rates but the rise it is represented was not sufficient to compensate for the loss by produce in some parts of the District. There appears to be some uncertainty in respect to the exact contents of the grain measure by which the assessment was regulated at the time of the Survey - and the Board have desired the Collector to report further on the subject in a separate communication.

4. The Circar lands have received an accession in consequence

of the purchase on behalf of Government of the Mootah of Callamanthay. The settlement inclusive of this addition, and its variations in comparison with the previous Fusly were the following.

Fusly 1261.

	Including Callamanthay. Rs	Increase or Decrease compared with Fusly 1260. Rs.
Land taken up for Cultivation	12,65,530	+ 17,879
Deduct for land left unsown	149,982	+ 80,789
	1115,547	— 62,918
Remission on land cultivated	140118	+ 34,987
	975,429	— 97,906
Add ready money Collections	47,762	— 2,241
	1023191	— 100148
Deduct Charges of Davastanum and allowances of assumed Zemindaries.	15912	— 1469
	1007279	— 98,678
Peishcush	772,999	— 9,855
	1780279	— 108534

There was a decrease in the Government lands of Rupees 98,678. but if the revenue derived from the newly acquired Mootah be deducted, the decrease on the Circar lands

lands common to both years, will be Rupees 107237- Contrasting the land revenue of the two Fuslies from all sources settled and unsettled there is a difference to the disadvantage of the year reported on, to the extent of Rupees 108534- Nearly two-thirds of this deficit is in the single Talook of Madacolum, but there is also a heavy falling off in Mayloor and Tandicombvo - The only Talook which shows any considerable increase is Veromungalum which it is gratifying to observe continued to improve even in this unpropitious season.

B. de Pro. P. 22
Report P. 9
a. Rs. 70314
b. Rs. 15033
c. Rs. 16836

5. The increase Rupees 8078 in the deductions for land left unsown and in the remissions on cultivated land Rupees 34987 proceed from the same cause, the adversity of the season. The proceedings of the Collector in granting relief to the people appear to have been marked with judgment and moderation. The Board have however pointed out a difference in the principle on which remission was allowed for shavee or

Fort St. George 24th October 1853.

or withered crops in the Collector's and Sub Collector's Talooks and have properly required that the system should be uniform in both Divisions.

6. The Governor in Council approves generally of the remarks of the Board in para 10 of their proceedings regarding lands employed for grazing. But there are some points which seem to require more consideration, and on which the Government would wish the Board to report further, after reference to the Collector. It is stated by Mr. Parker that "land is frequently taken up as if for "cultivation but subsequently used for "grazing." "If the settling Officers" he remarks "were satisfied of the Ryots "ability to pay, such land might fairly "be subjected to the full assessment and "appear in the accounts as waste retained "in the settlement." This is the general rule and practice under Ryotwar Settlements. But in Madura land thus engaged for to be cultivated, but kept by the Ryot in apparent breach of his

engagement

engagement, under grass. the Collector states is generally assessed with the grass tax of 1/4th the proper assessment of the land or somewhat less. It is said that this is allowed from fear of impoverishing the Ryots. The danger is that such deviations from the established system may lead to abuse. The principle of the land tax is that Government is entitled to draw from the land a certain share of what it is capable of producing when cultivated, which has been commuted for a certain money rate. The Ryot is entitled to hold the land so long as he cultivates it, and pays the assessment upon it, or if he prefers not to cultivate it, so long as he pays the assessment. but he is not entitled to hold it without cultivating it unless he pays the assessment. If he is unwilling to cultivate it, and does not agree to pay the assessment, the Government is entitled to provide for the land being cultivated by another Ryot, in order that the State may get its dues. This will be defeated if the Ryot enters into a nominal engagement to cultivate the land

and is permitted to break it, and cultivate just so much as he pleases. If under the circumstances of the season the land might have been cultivated profitably, and the assessment paid from its produce, the question is, whether the demand ought not to be made according to the Kabooliyat, at the proper assessment of the land, and the Ryot be obliged to pay so far as he has the means. The deficiency if he has not the means to pay in full, being written off as an irrecoverable balance.

A further question arises in respect to the cases mentioned by the Sub Collector in Para 49 of his Report. It appears that in many Villages certain of the more wealthy inhabitants who are traders, have got possession of large pieces of land capable of cultivation, which it is their custom to hedge in, and keep in grass for feeding herds of Cattle used by them in their trade, with exception of a very small portion that is uncultivated. There are Ryots ready to cultivate these lands but the traders are so influential, that they are enabled to prevent them. The Board

propose

Fort St. George 24th October 1853

propose to fix a consolidated teerwa for the whole extent of land within these enclosures suited to the circumstances of the case, but on some defined principle, by which they seem to mean, determining an aggregate of assessment on all the fields comprehended in the enclosure at an amount below what they would be chargeable with and which they could pay if they were cultivated. This would in effect be to frame a new settlement on a different principle from that which is observed elsewhere. Under Ordinary circumstances the practice would be to call upon these influential Ryots to surrender the fields which they will not engage to cultivate or to pay for, as cultivated, that they may be cultivated and paid for by other Ryots willing to undertake them. The Right Honorable the Governor in Council would wish to know whether there be any causes which would prevent this course being followed in the cases alluded to. At the same time he would desire that the question should be considered and reported on as

Fort St. George 24th October 1853.

as respects it bearing not only on the land revenue, but on the commerce and carrying trade of the Country and the peculiar circumstances and exigencies of the locality in which these tracts are found. It will be proper to ascertain whether these large pieces of land are required for the trade of the Country to be retained as grazing land and not ploughed. as also whether there are really required by other ryots for arable purposes, whether there is any want of other land in the neighbourhood which could be taken up for cultivation, and whether it is not for the general interest of the province and for the well being of the ryots that this custom of appropriating these pieces of land for grazing purposes be maintained, and that the Government should look for its compensation for loss of present revenue in the benefit such holdings confer upon the ryots, and in their consequent prosperity upon which, in fact, the land revenue depends.

8. The Collections within the Fusly amounted to Rupees 15,26932, and those made subsequently to the end of

May

May Rupees 25,511; in all Rupees 1778443 leaving a balance of Rupees 1835 Viz.t Rupees 1209 on Zemindary and Rupees 625 on Government lands.

9. Under the explanation afforded by the Collector and Sub Collector, and agreeably to the recommendation of the Board of Revenue, the Right Honorable the Governor in Council grants authority for writing off in the accounts of the Madura District the items of current revenue and arrears enumerated in para: 24 of the Board's Proceedings amounting together to Rupees (314—13—3) three hundred and fourteen, Annas thirteen and Pice three.—

10. In Extract Minutes of Consultation 6th September last, the Government noted the great increase in the population of the Madura District according to the censes taken in Fusly 1260 as compared with the previous return of the year 1839 and desired explanation. They remarked that the earlier censes did not include the Zemindaries and similar properties and inquired what was the amount of this population in Madura. In his letter of the

the 22nd November forwarded by the Board on the 16th December, Mr. Parker represents that the Census of 1839 or rather 1837/38 (Fusly 1247) was confined altogether to the Government Talooks and was exclusive of the inhabitants not only of the larger Zemindaries and Minor Polliums but of the Enam and Davastanum Villages. The population of the Six Talooks by the late census is 725609 being 173132 above that (552477) of the same tracts according to the Census of Fusly 1247, an increase which the Collector does not consider extraordinary but of which a part is probably due to the greater care with which the last returns were taken. The population, not before included in the Census, of the Zemindaries, Polliums and Proprietary Villages, is 103182. The Collector is not disposed to consider the population of the entire District 1756791 to be much exaggerated.

11. The Charges of all Kinds 312716 bore to the total Settlement of land revenue the ratio of 17/10 per Cent. Of these the Charges for collecting and administering the revenue were 8/8 p.—

the

the Pagoda and Mosque Allowances and those in lieu of resumed Offices 4%, the miscellaneous charges 3 5/10. The expenditure for the repair of tanks and water courses was 6 7/10 per. Cent on the Nunjah Revenue.

B/ No. 2742.

From the Acting Collector of Guntoor ——

Sir,

I have the honor to submit an account particular of certain charges incurred without Estimate for making brass inkstands &c. for the use of this Cutcherry amounting in the aggregate to Rupees 93-8. These articles were made some time ago under the orders of the Collector and the sum paid for them still stands as an advance for the service of Government in the accounts of the Office. The outlay should not have been incurred until Sanction had been granted, but as this was not applied for and the articles were very necessary I trust Sanction may now be obtained for the disbursement. —

From the Collector of Nellore.

Reports upon the Extra Sources of Revenue for Fusly 1262.—

Sir,

I have the honor to report on the Extra Sources of Revenue for Fusly 1262, and to submit herewith the usual Statements, as also the 5 Statements marked from the letter H to L inclusive, as required by the Revised Salt Rules.

2. The Statement given below exhibits the demand on account of the several Items of Extra Revenue in Fusly 1262 as compared with the preceding Fusly.

Total Rupees	79,527-11-11

4. The Home Sales are below those of the preceding fusly by Rupees 36-9-5. The decrease however being small, appears to call for no Remark, except that they show a considerable increase over fusly 1260.

5. The decrease in the Inland Sales occurred in 3 Divisions, Panderty in particular the large increase in Fusly 1261 in this Division was attributed in the last report to the Salt Heaps which suffered from a Gale of wind and rain, having been sold on Mucta in Entire Heaps, and after immediate Measurement, which drew the attention of an additional number of Merchants usually proceeding

proceeding to the pans of Chinaganjam and Pedaganjam, in the Guntoor District. This mode of sale however was put a stop to under the instructions of the Board. On the Cessation of this exceptional state of things, the Sales in Pauperty would naturally fall to their usual level and it is moreover found by a Correspondence with the Collector of Guntoor, that there has been a very large increase in the neighbouring Cottaurs of Chinaganjam in Guntoor, above mentioned, during the Fusly under review.

11. On the supposition that the decrease in Pauderty is owing to exceptional circumstances, sufficiently accounted for, the general result of the Inland sales appears not unfavorable.

12. The particulars of decrease in the Ship Sales are specified in the Margin. This falling off is attributable to no Salt whatever having been exported to Chittagong and also to the quantity shipped to Calcutta in this year being less than in Fusly 1261 - The Salt exported to Madras having been charged under the orders of the Board with only the costs of Manufacture and Charges has further reduced the Value of the ship sales.

Dated 23d June 1853.

13. The Particulars of decrease in Extra Collections are exhibited in the Margin. The increase arising from the Sale proceeds of Salt stolen, Bunday, and fines being small in the Fusly under report calls for no particular remark. The decrease in the recovery of advances for the manufacture of Salt is owing to part of the amount advanced in Fusly 1261 having been realized within the year, and the remainder only being realized in Fusly 1262 - The decrease in the

a smaller quantity of Salt having been received into store lessening proportionally the amount paid for manufacturers' share. The decrease in the 2d item of Rupees 1450-11-3 is owing to the limited exportation of Salt to Calcutta and Madras, and to the Madras Merchant having borne the shipping charges himself. The increase in the advance for Salt manufacture arises from individual Circumstances of the Manufacturers. The slight increase in the Sadur calls for no particular remark. The decrease in Salt roofsooms is accounted for by the payment made on account of the waterpundal at Dooragarauzepatam in Fusly 1261 not having been made in the Fusly under report, in consequence of the absence of the person who used to keep it. The increase of Rupees 100-15-" in Servants wages is owing to situations not having been

Net increase	334	15	3			

15. The increase of Rupees 334—15—3 under the Head of Extra Charges is particularized in the Margin. The increase in the 1st item is owing to a large quantity of white Salt having been received into store, raising proportionally the charges for hire for conveying it. The increase of Rupees 106—6—2 in the 2d 3d 4th and 5th items is owing to repairs having been made to a greater extent than in the preceding Fusly. The increase in the Value of Stamps is owing to a greater number of Security Deeds on behalf of Public Servants having been executed in the Fusly under report. The charges

Fort St. George 24th October 1853.

Charges of remittance are specified in the Margin. There is a small decrease in the charges for remittance to, and an increase in those for conveying manufacturers' share from the Hoozoor Treasury, which do not appear to call for more particular notice. The decrease in the charges for Mats. Baskets, Gunny bags, and in the hire of weighing, is to be ascribed to the limited quantity of Salt exported. The decrease in the charges for repairs of platforms, Cutcherries &ca is owing to repairs having been made to a less extent than in Fusly 1261.

with Fusly 1261.

18. The decrease of Rupees 173 3 11 arises from there having been no exports of Salt Petre to Pondicherry as in Fusly 1261. The increase in imports is owing to rice and paddy having been imported from Arracan, which was not the case in the preceding Fusly.

19. The charges under this head are shewn in the Margin. The decrease of Rupees 105 10 7 in Servants wages arises partly from some situations having been vacant during the Fusly under review, and partly from fines having been levied. There is a trifling decrease in the Value of Stamps expended in Fusly 1262. The increase in the last item of Rupees 5 - - is indicated by the nature of the charge "repairs of Scales."

For Ft St George 24th October 1853.

28. The sum under the head of recoverable requires no particular remark, further than that orders will be issued for its speedy collection.

29. The sum of 1 Rupee kept under the head of doubtful is so, in consequence of a claim by the Town Cauzee to this amount as fees. The parties objecting to pay both the Cauzee and the Government. This matter will be further enquired into, and a reference if necessary made to the Board.

30. The sum classed as Irrecoverable amounts to Rupees 160–6–1. Of this Rupees 20–2–– has been found to be assessed on Village Servants and others contrary to the custom of the District.

31. Rupees 7–12–– was charged on insufficient grounds, on certain persons, on the supposition that they would make use of a certain description of earth for the fabrication of bangles, which did not turn out to be the case.

32. The Remainder Rupees 132–8–1 is due by Ryots who are dead, or who have left the Village or who are in a state of Poverty.

S

36. The increase of Rupees 546 — — the Sale of Stampt paper arises from the number and amount of Civil Suits filed and the number of Deeds registered in the Court, being greater than in the preceding Fusly. The Increase in the Extra Collections arises from the amount collected on account of Penalty on unstampt Deeds being greater in Fusly 1262, than in Fusly 1261.

The

Fort St. George 21st October 1853.

37. The increase in the Charges under this head Amounting to Rupees 179 — 10 — 3 is owing partly to Commission on the sale of Stamps which varies with the Amount Sold, and partly to the refunds of Stamp duty under Act XVII of 1848, which depends on the number of Suits withdrawn

Acting Secretary to the
Board of Revenue,
Fort St George.

Sir,

I have the honor to acknowledge the receipt of your letter + and to state that I have several young men in the Corps of Ordnance Artificers possessing the requisite qualifications to assist Captain Priestly in the Survey of South Arcot and who understand Surveying fully as well as Artificer Starr did when he left Madras. I am happy to find from the qualification Returns forwarded to me by Captain Priestly that Starr since leaving me has made himself perfectly Master of the mode of surveying adopted in the Revenue Surveys of India.

Proceedings thereon.

Submitting with the Board's observations a letter from the Collector of South Arcot transmitting one from Captain Priestly suggesting the connection of the Revenue Survey with the Trigonometrical Operations of Colonel Lambton and

No.

Resolved that the letters above recorded be submitted for the information and orders of the Right Honorable the Governor in Council.

2. In the enclosure transmitted with the first of the foregoing communications, Captain Priestley proposes to employ Mr. McMahon in laying down a net work of smaller triangles within the larger ones which

and Captain Kator and applying for the services of another Artificer from the Gun Carriage Manufactory: also submitting a letter from Captain Maitland stating that he has several young men qualified to assist Captain Priestly in the South Arcot Survey.

which he himself intends to execute, the end in view being to establish a connection between his present isolated operations by referring them to the points of the Grand Trigonometrical Survey. He states that the performance of this work will not "materially interfere with the attainment of the more urgent objects" of the Survey; and the Collector adds that "it might be considered to make the survey of such higher general value as to compensate for a less rapid progress."

3. The Board having carefully considered the above subject are of opinion that the proposed triangulation will occasion considerable delay, as if it is intended to bear any comparison with the operations of Colonel Lambton or Captain Kator it will have to be executed with the greatest precision, and must therefore necessarily consume much time and labor. It will also withdraw Captain Priestly and Mr. McMahon from the more immediate objects in view Viz. the preparation of the field registers, and the delineation of the village boundaries. as well as the training of a subordinate staff for the surveys

of

of the adjacent Districts: objects which, it is of the utmost importance, should be attained as speedily as possible.

4. In the memorandum on Revenue Surveys, which the Board recently submitted for the consideration of Government the System recommended is that which is technically denominated the Circuit system, viz. surveying the boundaries of each village and leaving the interior detail to be filled in by the agency of qualified subordinates. This system contains the requisite elements for the correction of errors and by intersecting the points of Colonel Lambtons or Captain Kators surveys from the Circuit stations nearest to them, data will be obtained not only for properly connecting and mapping the isolated operations which Captain Priestly alludes to, but for ascertaining how far they admit of comparison with the results of the Trigonometrical Surveys.

26th May 1853.

Vide paras 29 to 34 "Manual of Surveying." Page 323.

5. A Triangulation may probably be required in the hilly parts of the District or where chain measurements cannot be depended upon on account of the unevenness of the ground but

Fort St. George 24th October 1853.

but such operations should be restricted to those tracts only.

6. On these considerations the Board though not insensible of the general advantages of Captain Priestly's proposal think that his operations should, at all events for the present, be strictly confined to the object originally contemplated viz^t. surveying each village, separately checking the field measurements of his subordinates by the areas of the village circuits as calculated by traverse without reference to former trigonometrical operations. Mr. M^c.Mahon and Mr. Claudius might be employed in furtherance of this object in such a way as the Collector and Captain Priestly may think proper.

7. The Board further recommend that the application of the Collector for the service of another Artificer be complied with as the arrangement will not involve any additional expense to Government and they have since learned that the services of Mr. Claudius will not be available so early as they were before led to expect. Major Maitland, it will be observed, reports that there are two or three young men who are qualified for such employment.

8. On the orders of Government being received in reply to this reference, the Board will be prepared to suggest arrangements for the proposed operations in North Arcot and Trichinopoly.

B. No. 2560.

From the Collector of Trichinopoly
Reports on Petition No. 41 of 1853 presented by Manearyien of Manavoosy in the Vittoocutty Talook.

Sir,

1. I do myself the honor to submit my explanation as required by your Board's order dated the 1st Instant on Petition No. 41 of 1853 presented by one Manearyien of Manavoosy in this District to Government, and in which he complains that while his lands have been sold for arrears of revenues the full extent to which he is entitled is not in his possession.

2. This individuals claims have already been disposed of both by the Board and myself as appears from the endorsements which he has now submitted to Government. But I will endeavour to place the matter in a clearer point of view.

3. Petitioner is a Proprietor of land in the Village of Manavoosy in the Talook of Vittoocutty. The village like very

many

Fort St. George 24th October 1853.

is held in Shares conjointly by all the Meerasidars on a joint tenure by the whole community - And it comprises of Kunjay land four hundred and Seventy (470) Cawnies. Of Punjay One thousand Six hundred and fifty (1650) Cawnies which lands are divided into shares held by petitioner and Seventy one other Meerasidars.—

4. Petitioner complains that in a certain Kanjay cuttay, known by the name of "Putcut Cuttay" there is a deficiency of 85 Goolies in his portion of Cawnies 1 and Goolies 10. Now to ascertain the truth of this and to render the man justice, the entire cuttay was measured by the Tahsildar last year, and the result shewed as follows.—

The entire cuttay as per Pymash account of the Village is set down as consisting of Cawnies 34 Goolies 39½ held by four individuals of whom Petitioner is one. According to present measurement there were, Cultivated land Cawnies 14 Goolies 82, waste land Cawnies 15 — 62/16 thus shewing a

Fort St. George 24th October 1853.

a general deficit by measurement of Cawnies 3 Goolies 95/16 and which must be borne by the four Sharers in proportion to their respective holdings.—

5. There is no remedy for this. It is the custom of the Country and each share holder keeps his own whether in excess or deficient of the stated entry of land in the Pymash. "Cuttay Cawnee and Cuttay Jastee" is always adjusted by the Village Community. And so in the present case, if the whole Seventy two Sharers had come forward and adjusted their holdings, Petitioner might have found his deficient 85 Goolies of Kanjay land. But the Meerasidars would not consent to a revision of their lands.—

6. With reference to the Punjay lands of the Village they are held in common to the whole community of Shareholders, and not apportioned off individually.— The community at large rent the Punjay to the Oolcoodies for a certain Money consideration

consideration, and the income thus derived is divided amongst the Meerasidars or share-holders, according to their Cuttays - And the Government demand paid collectively by the Village. Petitioner claims an assignment of income equivalent to 236 Cawnies instead of 80 Cawnies, which he heretofore received - This likewise is a question to be decided by the village community, the Collector cannot put him in possession of the land.-

7- The correspondence noted in the + Margin will put your Board in possession of the circumstances under which Petitioners lands were sold last year for arrears - He was then and previously in possession of all that the Revenue authorities could secure to him and his lands were right-fully attached and sold for arrears due.-

Ordered

Fort St. George 24th October 1853

Ordered that the foregoing letter be submitted with the following address-

No. 483.

To, The Chief Secretary to Government.

(19.20)

Sir,

B. No. 2212.

To the Chief Secretary to Government.

Submitting with the Board's remarks a letter from the Collector of Trichinopoly reporting on the several allegations referred to in Government Petitions Nos. 1141 and 1171 of 1853.

In Cons: 24th Octr 1853.

1. With reference to the Endorsements on Government Petitions Nos. 1141 and 1171 of 1853 dated 9th August 1853 calling for a report on Petitioners allegations, that while his lands have been sold for arrears, the full extent to which he is entitled is not in his possession, I am directed by the Board of Revenue to submit for the information of the Right Honorable the Governor in Council, the accompanying letter from the Collector of Trichinopoly dated 22d September 1853.-

2- From the above it will be seen that although a deficiency is apparent in the Nunjah lands held by Petitioner in a certain Cuttay, as compared with the Pymash Accounts, and the measurement made by the Tahsildar under the order of the Collector, still according to the custom of the Country a general deficit is borne by the sharers in proportion to their respective holdings.

3- The Village in which the Petitioner is a proprietor of land, is held in shares conjointly by

by all the Meerassidars on a joint tenure by the whole community, each share holder keeping his own land according to the Pymash accounts whether in excess or deficient of the stated entry.—

4. Mr. Bird further reports, with reference to Petitioner's claim of an assignment of income equivalent to Cawnies 236 of Poonjah land instead of 80 which he heretofore received that the Poonjah lands of the Village are held in common by the whole community of shareholders and not apportioned individually, who rent them to the Ooloodies for a certain money consideration which is divided amongst the shareholders according to their Cuttays and any question that may arise respecting a deficiency is to be decided by the Village community.—

From the Acting Collr of Madura

Sir,

Para 1. I have the honor to request the

the instructions of the Board of Revenue as to the propriety of opening additional heads in No. 7 of the Forms which accompanied your letter of the 13th June last.—

2. Under the head of additions, no provision is made for lands wholly omitted in the survey accounts nor for increase in measurement not for disputed boundary lands, nor for additions arising from revision of assessment. Under the head of deductions also, additional Columns appear to be needed to shew the decrease from Ayan lands converted into Enam and Cultivated lands converted into Peremboke when used for roads, sites of houses &c.—
