The

Season.

3 The season was very favorable the fall of rain being abundant. The crops were generally good though in some few sites they suffered from an over supply of water. The fall of rain at Mangalore was 133 Inches as shown in the Margin.

4 The Rain Guages furnished with the Boards Circular of the 22nd April 1852 having reached only in July of the year under Report the record is incomplete and is not given in detail for the Talooks. The account will be furnished with the next and following Reports agreeably to the orders of the Board.

6 The loss of Cattle from Murrain was unusually small.

Staple article of the District there was a slight improvement. It rose above the price which ruled in the previous year but was still below the average of the previous five years as shewn in the annexed table.

8 The price of paddy it will be seen from this table was below both the price of the previous years and the average price of the five previous years. This is undoubtedly to be attributed to increased production in Dharwar and Mysore. The Settlement of the Land Revenue in Dharwar, the improved conditions of Mysore, and the facility of transport afforded by the new roads to the produce of both Countries are the causes

causes of this fall. This is proved by the steady increase in the exports which has accompanied this decline of price.

9. The fluctuations in the prices of Betelnut, Pepper and Cardamums are shewn in the following table. They continue at a rate highly remunerative.

11. The price of Cocoanuts has fallen and has continued to do so at the same time that the importations have largely increased affording a confirmation of my conjecture offered in a former report that this fall is owing to extensive planting especially in Malabar for many years past the produce of which is now coming into the Market. To the inhabitants of the interior the cheapness of this article of every days consumption

Exports. 12. The staple trade of the District, the Export of rice shows a falling off from the un-usually brisk trade of last years when the Board will remember it showed a rapid rise after a depression of considerable duration But as prices were somewhat higher as has been shown above the general result must have been favorable to the cultivators.-

13 Again the falling off is in the Arabian trade and if the Bengal exports to that country have risen as ours have fallen off it will be a strong confirmation of the opinion which I formerly expressed that the rice of this District and that of Bengal compete for the Arabian Market and that the rice of Bengal will supplant that of this

District when prices here are - other things being equal - higher than those prevailing in Bengal. But the returns of the Bengal trade have not yet reached me.

14 There is a decline in the Sea Exports of Betelnut, Pepper and Candammus - But in regard to these Articles which are largely exported by land and which can be stored for a long period the transactions of a single year as recorded in the Sea Exports only afford no indication either of the Amount produced or the state of the producers.-

15 The present has been the fourth favorable season for the Manufacture of Salt which exceeded that of the past and the average Manufacture of the preceding five years to the extent shown in the Margin.-

16. Generally the season may be said to have been one of average production of fair prices and of very active commerce for although I have shown that there was a decline in the export of rice the produce of this District the export of rice generally including that imported from above

12452 Fort St. George 24th October 1853

above the Ghauts was in excess of the average of the past 5 years and trade generally was particularly brisk.

Settlement. 17 The Land Revenue has continued to advance and is Rupees 3,338 — 14 — 7 above that of last year. The subjoined Statement shews the additions and reductions with the Settlement of each Talook, most of the instalments having been already realized in the 15 years during which the Assessment has continued to rise, the fact of there being a continued though small increase in this Sixteenth year is I think very gratifying, as evincing the continued spread of cultivation.

19. These items seem hardly to call for any remarks. The fluctuation in the Coomery Revenue is owing to the more stringent rules under which this cultivation has been brought. The transfer to Quit Rent arises from the plot of land which paid the tirpling benz shown in the table having been granted by Government to two Gentlemen on the usual Quit rent.

20. The Statement No 16 forwarded with this Report shows the extent of Coomery cultivation and it

will be observed that while the cultivated area has decreased the assessment is higher in proportion to the area than in previous years, being the result of a more regulated system already detailed to the Board.

21. The Coomery cultivation on the private Estates is also less than in the preceding year. In the present year accounts have been received of the cultivation in the Betul talook. Their correctness cannot be depended upon but they enable me to give an approximate Estimate of the Extent of this cultivation throughout the District. This is exhibited in the following Table.

22. I have to regret that numerous subjects calling for my attention have prevented my yet drawing up

up the report on the Coomery lands which I promised in my last annual Report but I shall do so as soon as ever I can obtain leisure to give to the subject that careful consideration which it requires.

Accomplished

23. The Assessment on Huckle or dry cultivation during the present year is Rupees 142 — 4 — 3 less than in the past year. The decrease has chiefly occurred in the Bilghy Talook. Mr. Hall

Para 9. has in his report explained the circumstances under which this falling off has taken place. The annexed Statement shows the particulars of this species of cultivation.

	Total Cultivated.		Exempt from assessment.		Assessed.

24. Mr. Hall appears to think that the assessment of 8 annas pr. acre in the Bilghy Talook is too high. The

Board are aware that the assessment on this species of cultivation varies greatly throughout the District and if it should prove that 8 Annas is too high a rate, I propose to modify it; But I am desirous not to make any alteration until I have visited the Balaghaut and with Mr. Hall carefully considered the whole subject.

25. Mr. Hall has lately brought to my notice the extensive appropriations of land made in the Soudah Talook merely for cutting hay. Under excuse and pretences of various kinds enclosures are made, the scrub or jungle is cleared and the grass of spontaneous growth is cut and stacked and sells at a good price to the bullock owners. The value which this land is acquiring is shown by the fact that the crop in the burying ground and in the public bungalow Compound at Siney is sold at the rate of 3 to 4 Rupees pr. acre. I have taken measures for preventing further unauthorized enclosures giving notice at the same time that the Sub Collector will be prepared to receive offers for

for the right of occupation.

26. This will also form the subject of enquiry by Mr. Hall and myself. The land thus used is known by the name of Bau. It appears to me that to discourage enclosures such as these would be a mistake. At the same time to fix upon them the very low assessment which could now be imposed and allow them to become private property would be to limit in perpetuity the Government demand upon land which is likely to rise rapidly in value with the rapid increase in the cultivation of the interior and commerce of the Coast. I am therefore inclined to the opinion that to give such land on lease for 20 or 30 years will be the best method of securing its improvement by clearances without compromising the right of Government to a higher assessment when the land is brought under crop or has become the site of towns or Villages. I shall lay the subject before the Board more fully hereafter.

27. The extent of Huckle cultivation exempt from assessment has increased from

from 7,098 Acres in Fusly 1260 to 8,291 in the present year, being 779 Acres above that of the past year. These holdings were the subject of the remarks contained in the 8th Para of the Board's Proceedings of the 21st April last. The Huckle lands in the Soopah and Sondah Talooks are of superior quality to those in other parts of the District and it will appear from the + Statement now submitted that they are assessed at + No. 17 from 12 annas to 3 Rupees pr Acre. The Huckle lands exempted under present practice from assessment are these; 1st, Those lands of the Soopah and Sondah talooks and 6 Maganies of Ankola entered in the Survey Accounts of Fusly 1232 as belonging to the Wungs; 2ndly, The lands in the Umara and Soolia Maganies apportioned to the respective Wungs during the Rajah's Government and; 3rdly, The lands adjoining each Wung to the extent of 100 yards as per Mr. Harris' orders in 1232 Fusly. The circumstances under which the exemption have been made were mentioned in my + Gunnabundy Report for Fusly 1260.

Dated 22d Sept. 1853
Nos. 29 to 37

Collections

33 The collections have been made with regularity. Of the total Demand amounting to Rupees 19,17,420-11-11 Rupees 18,00,550-2-1 were realized within the fusly leaving a balance of Rupees 116890-9-10 which has been reduced by subsequent collections to Rupees 4,623-1-6.

34 The balance at the end of the Fusly appears higher than that of the past year from a change of practice in closing the accounts of the Treasury. The Collections to the 11th of July though reaching the Treasury after that date, were up to last year included in the accounts of the Fusly, but this practice has been abolished and the Treasury accounts are now closed precisely on the 11th July in accordance with the

with the Board's Instructions of the 23d August 1852. It will appear that the subsequent collections have reduced the outstanding balance to the usual per centage.

41 The advances for cultivation made in fusly 1262 amount to Rupees 9,849-- of which Rupees 9,491-12-- have been collected within the fusly leaving a balance of Rupees 202-4-- Of this sum Rupees 301-4-- have since been collected leaving Rupees 101---- to be collected hereafter.

42 The following table shows the Revenue derived from all sources. The Tobacco Monopoly was abolished on the 31st December and there is a decrease of Rupees 111577-6-7 under this head. Omitting this item which is not a decrease in the resources of the Country but a diminution of taxation upon the District, the remaining resources of Revenue exhibit a satisfactory increase, to the extent of Rupees 31,870-11-6

It will be remembered that the decrease under the head of Tobacco is not a decrease of Net Revenue, only about half of the Collections on tobacco were net Revenue to Government. The increase under other heads

heads is almost entirely net revenue. But it is too early yet to estimate the actual effect of the abolition of the Tobacco Monopoly on the general revenue of the Province.

47 The decrease in the first items is owing to the Salary of Mr Hall the sub collector for two months of fusly 1260 having fallen in the accounts of the following fusly 1261 which passed the amount of Charges for that fusly - as also to the Salary of Mr Chase one of the Assistant Collectors for three months of the fusly under report not having fallen in the accounts. The decrease in these two accounts has however been reduced to

Fort St George 21st October 1853

to the amount here shown chiefly by an increase of Sibbendy entertained in the newly created Talook of Postoor from January in the preceding fusly and added to the Revenue Establishment on the abolition of the Tobacco Servants.

48 The decrease in the 2d Item — chiefly occurs in the advances of Tuccavy as will be seen by the Statement No 12. The amount actually advanced will not fall short of the payments of the preceding fusly but by the alteration in the practice of bringing to account in the Huzoor Treasury the whole transactions to the end of the fusly, as already stated in para 36 of this report, the whole of the advance for fusly 1262 did not fall within that year.

49 With reference to Para 15 of the Board's Proceedings I beg to state that I have with great difficulty succeeded in entering the Balance under the 5th first Item of Savoy Jumma, in the Statement No 18 accompanying this report.

50 With reference to Para 54 of my

51 I have to request the sanction of the Board to a remission of land Revenue on a plot of ground held under the following circumstances. The ground surrounds the hereditary residence of the Bilghi Rayalu, and since $\frac{1238}{1828}$ the assessment which would be payable upon it, has been remitted in conformity with a memorandum entered by Mr Andrew Huddleston. In $\frac{1254}{1846}$ Mr Parker entered a Memo that the remission should be continued and the subject should be referred to in the Jummabundy report, but it has not hitherto been laid before the Board.

+ Hons — 2 - 9 - 11 Rs — 11 - 15 - 0

The

Fort St George 24th October 1853

The Rayah has lately improved the ground which is found to consist of A 8 - 23 - 12 liable under prevailing rules to an assessment of Hoons 2 - 5 - 10.

52 The Rayah is the descendant of an ancient family enjoying only a small pension of Rupees 120 per month. The land in question is the garden of his house, and I beg to recommend that the respect hitherto shown to his position by exempting it from the supervision of the Revenue Officers may be approved and continued.

53 The subject mentioned by Mr Hall in Para 15 of his last report belonging to one of the heads of Extra Revenue will be noticed in the Report on that subject.

54 I have the honor to annex the Reports of the two Sub Collectors on the divisions under their charge respectively.

Mr Halls A.
Mr Silvers B.

55 Mr Halls Report on the Balaghat is very satisfactory and shows that the prosperity of that division is progressive, I continue to receive from Mr Hall the most ready assistance, and in the regulation of the Forest Department, the distribution of the lands applied for by the cultivators as well as in the correct the

Fort St George 24th October 1853

the roads and the supervision over the Salt trade of the Goa frontier Mr Halls exertions have much promoted the service of Government.

56 Mr Silver is in charge of the three Talooks of Gundapoor - Honore and Ankola in which the work is perhaps heavier than in any other division of the District owing to the increasing wealth of the mercantile classes and the rising value of the land. Such of Mr Silvers work as has come under my notice appears to me to be performed very efficiently and at the same time the improvements which the Government have now placed it in the power of each Officer to promote have been carried out under Mr Silvers orders with much activity - The towns of Sadashigur and Ankola in this division are being opened to the commerce of the Ghats by roads, the construction of which has been much aided by Mr Silvers constant supervision.

57 The Head Assistant Mr Chamier has been in charge of the Southern Talooks, and is undefatigable in the discharge of his duties - He has been much occupied in investigating a system of fraud and

and forgery by which the Mercantile men of Capital have usurped many of the lands of the Ryots, and it is within my Knowledge that by bringing some men of wealth to punishment for frauds long practised with impunity, he has conferred a very great benefit on the community.

58 Mr Hudleston has held charge of the Talooks of Barcoor and Codipy, and the circumstance of Mr Hudlestons Standing being such that I can divest myself of this charge has been a very great advantage to me. But much as I feel the advantage I cannot but regret that the State of the service is such that Mr Hudleston should have responsibility which generally fall on those holding a higher grade in the service for which Mr Hudleston has so fully qualified himself.

59 Mr Chase has been absent during the greater portion of the year on account of his health. He will assume a portion of Mr Channiers charge, which, as including the Capital of the District, is a very heavy one. Mr Chase is a very zealous public servant and a most useful assistant. To him the same remarks applies as to Mr Hudleston.

Boniface

60 Boniface Fernandez is acting Head Shenstadar in the place of Boojengo Row absent on sick leave. Doorapah late Tahsildar of Coondapoor whose name I had occasion to mention with commendation in my last report is acting as Moyel Serishtadar, and by those two Officers the duty of their Department is carried on to my full satisfaction.

61 I beg to add that the accounts of the year having been made up according to the old form before the receipt of the Board's instructions, I have thought it better to transmit them in this form in preference to delaying this report. In the ensuing year the new forms will be adopted.

A

No. 181.

To F. N. Maltby Esqre
Collector of Canara.

Sir,

I have the honor to submit the following report upon the settlement of this Division comprising the Talooks of Soopah, Sondah and Bilghi for the past Fusly 1262.—

2 I settled the Bilghi Talook at Sidlapoor in January, and then proceeded to the Soopah Talook making the Jummabundy at Moondgode, Sambramy and Yellapoor, during February, finishing with the Sondah Talook, and Bunwassy and Sirsy in March.—

3. The result of the land Settlement exclusive of Huckle and Coomry is shown in the following table, In the aggregate it exceeded that of Fusly 1261. by 2,659. Rupees.—

Land Revenue excluding Huckle and Coomry.—

5. You will observe that the demand for new land still continues in this part of the District, and that waste lands are being steadily reoccupied. Our accounts however only partially show the real extent to which such lands are annually brought under Cultivation, for a system prevails among the ryots of clandestinely appropriating all the land they can, whether immemorially waste or lying fallow, without making any application for it. They know that they will not be punished if the appropriation is discovered, and they are almost always prepared, when such a contingency does occur, to claim the land as belonging to their own estate, which for want of proper statistical accounts, it is generally a difficult matter to disprove. Nothing short of a regular survey can effectually rectify matters in this respect.—

6. I had occasion to make rather larger remissions than usual on account of losses by fire, as you will see by the subjoined table, I only did so however after a careful enquiry into the circumstances of each case, & satisfying myself of the necessity of making a reduction in the demand. Although such remissions as in these instances, bear but a trifling proportion to the value of the Computed losses, still a desirable effect is always produced by granting them Remissions on account of losses by fire to ryots.

7. The Settlement on Coomry cultivation was Rupees 2535-11-6 less than that for Fusly 1261. The decrease was chiefly in the Soopah Talook, where in Fusly 1261. there was a considerable increase over the previous Fusly, which I explained as resulting in a great measure from the operation of the rule by which double the usual tax was levied upon unauthorized clearings. I had only occasion to enforce this rule in a few cases when making the Jummabundy for the past Fusly. The following shows the number of acres in the Soopah Talook actually cleared for Coomery in Fuslies 1261 and 1262. by which it appears that there was a great decrease in the latter period.—

No. of acres cleared in Fusly 1261.			Ditto in Fusly 1262.			Decrease		
acres	g	a	A	g	as	A	g	as
4,067	"	10	1,712	39	9½	2,354	1	½

8. Apart also of the decrease in the amount of the Settlement on Coomry is attributable to the tax on productive Jungles (Khan) amounting in the three Talooks to Rs a p 100-6-9 having been transferred, according to the form you supplied, from the head of

Fort St. George 24th October 1853.

9. This transfer makes the Huckle of course appear greater than it otherwise would have been, if no change had been made. In the Bilghi Talook however there is still a falling off in the Huckle cultivation to the amount of 105-12-11. or of 211-2-2½ acres as in Fusly 1261 as compared with 1260. was Rupees Rs a p 209-10-1. The people in Bilghi show an evident determination not to carry on this kind of cultivation while it bears an assessment of half a rupee the acre and I am inclined to come to the conclusion that, with reference to the quality of land, and the low price of grain, the rate is too high for the generality of the Huckle land in this Talook. I think it would be worth while to try the experiment of reducing it to 6 or even 4 annas the acre

14. It exhibits a net falling off of Rs 722-15-3. The chief deficiency occurs under the heads of Tobacco and Sundry Small Farms and was occasioned by the abolition of the Tobacco Monopoly, and by a change in the system of managing the forests by which the greater part of the revenue derived from them, has been brought to account in a different way from usual, and excluded altogether from this Statement.

16- I have endeavoured as much as possible to encourage people to make these clearances but still they are much more backward in doing so than they ought to be- I am in hopes however that as the ordinary cultivation of Coomery becomes more restricted, people will be glad to take up the land by the sides of the thorough fares-

17- The prices obtained for garden produce were very steady and remunerative, but I am sorry to say there was a still further decline in the price of paddy beyond that which occurred in Fusly- 1261-

18- The continued depression in the price obtainable for dry grain tells rather severely upon the condition of the field cultivators and I do not see any likelihood of an improvement taking place. The simple fact, I believe is that the recent assessment in Dharwar has been fixed at such a moderate, that it has caused there such a great extension of cultivation and corresponding increase of produce that the traders are able to import rice into these Talooks and dispose of it cheaper than our people have been in the habit of selling theirs. Our Ryots have been thus compelled to come down also in their prices, and they must of course continue to do so if circumstances require it otherwise their stocks of grain would accumulate in their hands.-

19- In the five Moganies of the Soondah Talook which were surveyed in Fusly 1232, an assessment was imposed upon

upon the rice lands varying from 1 Rupee to 6-8- the acre being an average of 2-7-0 an acre in the whole number assessed. When this assessment was fixed the market price of paddy was 20 Rupees the Canday while it is now only 14-2-0

20- There is another thing also which is unfavorable to our rice producers, it is, that they themselves are obliged to repair the Tanks and channels by which their lands are irrigated.

21- In consequce of this being the rule tanks are every where neglected either from want of funds or unanimity among the people. In many instances they have been allowed to go completely to ruin, and in others to fall so much out of repair, as to be only partially useful as reservoirs of water.

22- No sooner does a tank cease to hold its proper quantum of water than some body is almost sure to convert its

ctores q chains 9540-8-10 assessed at 23564-8-10

its bed into fields and thus raise a serious impediment in the way of its being restored. This I have found to be the case in a great many places.

23- So long as the rains fall plentifully and regularly the people let the Tanks take their chance forgetting how invaluable the water which they might make them capable of preserving would be, in the event of a drought occurring.

24 Under any circumstances, it would conduce much to the good of the people and of the country if these Tanks were kept in a proper state of repair so as to afford a better supply of water than they now generally do at the close of the season, and I think some method should be adopted to secure this object either by Government allowing repairs to be made wholly at the public expense, or else by granting pecuniary aid to the Local subscriptions raised by the ryots for the purpose. In either case the work should be executed by Government Officers.

25- I have been endeavouring to get a correct account of the number and condition of the Tanks and channels in these Talooks drawn up, but have been unable to do so in time to submit with this report. It shall however be sent to you as soon as possible.

26 The arrears outstanding on account of Jusdices 1260 and 1261 amount to 44-9-6 of which I beg to recommend that 2-12-7 may be struck

struck out as irrecoverable. The sum is owing for Fusly 1261 by a Coomery cultivator who disappeared from the Soopah Talooke leaving nothing behind him from which the demand could be satisfied. The remainder will probably be realized.-

27- Since Fusly 1238, no Summabundy has been made upon the garden surrounding the residence of the pensioned Rajah at Bilghi, which stands in our accounts as a Gueny Wurg. The Beriz is Rupees 11-15-3, but I think it might be allowed to enjoy it free of any tax.-

He receives but a small pension of 120 Rupees a month and the land in question formed part of his ancestral property before it was confiscated. It is now the compound and garden of his house. Under these circumstances I venture to suggest that sanction may be obtained for the permanent remission of the Beriz.-

28 The season to which this report refers was a very favorable one, and the harvest consequently abundant. The Cholera visited the frontier villages bordering Dharwar towards the close of the Fusly and altogether carried off 324 persons. The country was unusually free from small pox. The deaths among cattle was also less than in the previous Fusly. The year may be said to have been one of prosperity and advancement.-

Sir,

I have the honor to submit the usual report on the Settlement of the Land Revenue for Fusly 1262, in the Talookes of Cundapoor, Honore and Ankola, forming the division under my charge. The Settlement of Cundapoor, was made by Mr Sutherland, that of Honore and Ankola by myself.-

The annexed Abstract No 2. gives the result of the Settlement exclusive of Coomery and Moturpha, as compared with that of Fusly 1261.-

From

From it you will observe that there is an increase in the Land Revenue of each Talook and that the aggregate amount of the Summabundy exceeds that of the preceding Fusly by Rupees 44,7-13-4.

3 The season was favorable to the cultivation and the crops of rice, the staple produce of these Talooks, good and abundant. The fall of rain in the Candapoor Talook caused some injury to the Garden produce in the Balaghaut Mogany of Hunnore, but in Honore, the Betel crops was larger than in the preceding Fusly. The crop of Pepper was an average one, and in Ankola, there was a considerable increase in the price obtained.-

4. The prices averaged for all kinds of rice, will bear a favorable comparison with those obtained in the preceding Fusly, and the same may be said of the various kinds of dry grain cultivated on the up lands. The quantity of Jaggery manufactured in these Talooks was larger than in the preceding Fusly, and prices a little in

in abundance. It is to be hoped the Ryots will see the advantage of turning their attention more to the cultivation of the Sugar cane, the return it yields, even under the present slovenly system of management is large compared with any other kind of field cultivation. The price obtained for Cocoanuts in all the three Talooks, was a little below that of the previous year. On the whole the Ryots have good reason to be satisfied with the result of the Fusly under review both as regards the state of their crops and the disposal of their produce.-

5. The following table gives the average of prices of Rice, Cocoanuts and Jaggery, obtained during the year under review relatively with those of the preceding Fusly.-

6. The season thus far favorable to the produce of the land was equally favorable to the health of the people and their cattle. Whilst 279 deaths from small pox and Cholera were reported in Fusly 1261 only 80 were reported in the year under review and among the Cattle while 1609 were reported and destroyed by murrain in the former year, only 552 were reported in this Fusly— With these preliminary observations, I now proceed to detail the Settlement of each Talooke in succession.—

Cundapoor.

7 The Settlement of the Talooke was made in my absence by Mr Sutherland, the annexed Statements shew the Summabundy exclusive of Coomery for the Fusly under review compared with that of the preceding Fusly, and the particulars of additions and reductions.—

There is on the whole a small increase of Rupees 42 - - 10 arising in part from additions on those estates, the proprietors of which have entered into engagements to make good the full amount at which they stand assessed by regular instalments and within a fixed period, and in part from increased cultivation in Estates capable of paying something nearer the full assessment.—

8. There is a decrease in the Summabundy in Coomery and Huckle to the amount of Rupees 157 - 3 - 10 as shewn in the Talookas below.—

The revenue derivable from this cultiva-tion must always, from its nature, be liable to fluctuation. Many Ryots in this Talook are not altogether dependant on the produce of their Lands, since they mostly obtain a profi-table employment, by proceeding to the Up-per Country, and working for the proprietors of the Betel Gardens in Soorndah, at the sea-sons, when their own cultivation, does not require their presence.-

Honore.

9- I made the Settlement of this Talook in February and March, the Ryots being assembled at Mooordeswar Honore and Coompta.- There is a net in-crease of Rupees 324-7-5 in the Land revenue exclusive of Coomery over that of the preceding Fusly as shewn below.

There is an increase in the revenue in fourteen out of the sixteen Maganies of the Honore Talook, in two only does the revenue fall below that of the previous year Viz^t in Mavincoorva where there is a trifling deficiency of Rupees 15-5-7 and in Hoo-chilnad, where it falls Rupees 108-4-

In

In all others the additions to the revenue are in excess of the reductions made.

10. The instalments due on the Vyda Estates have been regularly paid, there is a fair increase in the revenues of the Sunky Estates, and the additions, for waste lands brought under cultivation, are larger than the reductions made under that head. Of the reductions, that on account of land abandoned and left waste, is the only one that seems to require particular explanation the rest are very small. The largest reductions for waste have been made in the Hoochilah Magany, a jungly and rather unhealthy tract of country with but comparatively few inhabitants. The land in this Magany is a Circar and the Summabundy made with reference to the extent of ground cultivated as follows. The Settlement is made on the Hofsagee at the rate in one Village of 4 Hoons the Hofsagee in one Village 3½ Hoons the Hofsagee and in the remaining twenty Villages at 3 Hoons per Hofsagee. There is no certain measurement of a Hofsagee, it depends

depends on the quality of the land and varies from 4 to 12 Acres.

11. In this Magany with but few permanent and many temporary cultivators, a considerable extent of land was abandoned in the year under review, owing as it was stated to me at the Summabandy to the crop in the preceding year having been a bad one. There is also difficulty often experienced by land holders in this Magany to get their lands cultivated Labourers having to be brought at a great expence and risk from other parts, and a practice has obtained for persons annually to select for cultivation any portion of an estate they please and such portion is assessed annually. This system as a matter of course must be favorable to fraud on the part of the Shamboques, but at the same time, it is necessary, advantages should be held out, in order to induce cultivation. The remaining reductions for waste were made in different Moganies but in no one of them to any extent that calls for particular notice. The

12 The Mogany of Gairsapah has peculiar advantages with a river com-mencing at the foot of the Ghauts, and navigable to Honore yet these advantages are in some degree counterbalanced by circum-stances owing to situations immediately beneath the Ghauts and the general poor condition of the population compared with those of the coast Moganies. The Idoogunny Mavincoorwa, Kurva and Gairsapa Moganies are in most places washed by the Honore river, and the Lands, on the rivers banks, are every year subject to encroachment during the high tides and freshes in the Monsoon. Five days before the close of the Fusly under review the river rose to a greater height, than has been known for the last twenty seven years and from Gairsapah to the Village of Kodance, eight miles below, caused great destructions of crops. Below Kodance where the river widens considerably the damage was not so great.

13. I first sent the Tafsildar to inspect this district, and I personally visited fifteen Villages in the Gairsapa, Koorwa and Idoogoongee Moganies where the greatest loss had been sustained. In many places not only was the first or Koorting crop completely destroyed, but such a larger deposit of sand and refuse

refuse, left on the lands, that in many places it will be some time before they can again be brought into a condition fit for cultivation. I do not enter into any detail in this report, as the subject is one, which must be considered in the next Summabundy report. I would beg however strongly to recommend that the Summabbundy of this Taluk, should be made by yourself for the current fusly, for as the circumstances of the sufferers by inundation, must then be taken into consideration, it will be well, that the Summahbundy had the benefit of the supervision of the Superior Cutcherry.

14. There was an increase in the Summahbundy on Coomery and Huckle to the extent of Rupees 290—13—2. as shewn below.

Taluk.	Summabundy for Fusly 1261	Ditto for Fusly 1262	Increase	Decrease.
	A As Rs As	A As Rs As	Rs As	Rs As
Honore	1817 10 11	2108 8 1	290 13 2	" "

The increase has been principally in the Chendawer, Mavincoorwa, Kurwa, and Gairsapa Moganies. The present system of assessment

assessment on the acre with double assessment on unauthorized clearings, and the restriction of the permission to fell Coomry, to those classes who make it strictly their means of living, is as good, as can be at present adopted.— I had, as was to be expected, many remonstrances at the Jummahbundy, against the assessment by measurement, the Coomery Marattas of course, finding the old system of assessment on the billhook, much more to their advantage Unauthorized clearings will never be checked, by Police fines for trespass, the object to be kept in view, is to obtain as accurate returns as possible, of all Coomery clearings, and their extent and assess them according as they have been permitted, or not I am inclined to think, there are some clearings in the more inaccessible parts of the hills, that are never brought to account at all and I have called the attention of the Tahsildars to this.

15.— Within the last fortnight I have walked over some Coomry fields bearing excellent rice crops. there are three kinds of rice grown on the Coomry in this part of the District a large red rice, a small red, and a white grain rice, the latter is much prized this however, is not so prolific as the Ragli from which the return is five fold that of a rice crop.—

16. In this Talook a system has for long prevailed which so far as I am aware is peculiar to Honoor, that of exemption from payment of revenue, of Coomry clearings made by the Gowdas, or head men of each community of Coomry Marattas.— In this Talook there were reported at the Jummabandy to be fifty five Gowdas, who for the Fusly under review had cleared 106 acres 36 Goontahs, of Coomry for the privilege, they make return by assisting in the Collection of the Coomry revenue and by other small services to Government Without their aid indeed it would be difficult punctually to realize the Coomry assessment, and after full enquiry, into and consideration of the circumstances, I decided on continuing this privilege to the Gowdas, only strictly limiting the clearing to be made by each Gowda, to three acres, and further, that permission was in every case to be obtained for such clearing under the penalty of double assessment and my proceeding in this matter was approved of by you.—

18. It will be found that the Settlement of Fusly 1262 exceeds that of Fusly 1261 by Rupees 81-4-9. The stipulated instalments on the Vydah estates were punctually enforced, and there is a small increase, under all the other heads of additions. As regards the remissions the sum of Rupees 87-8-" under the head of Property destroyed by fire was granted in cases of extreme hardship, after careful enquiry when I was satisfied that some indulgence was imperatively called for, Of the remissions under the head of waste, none were allowed to proprietors of large, or of several estates who might find it convenient for the time, to leave a portion of their land uncultivated, but these

remissions

remissions as well as those granted under the next head of general poverty were only made in cases where bad land was given up, or land left waste by death of its former occupants, and in some cases of poverty where the Revenue could not be collected, without manifest hardship. In the Bagayet Magany which attracted your notice, when the Settlement was made the previous year by yourself there is only a trifling difference of Rupees 10—3 between the Settlement of fusly 1262, and Fusly 1261.— The circumstances connected with the Board Sifarish estates in Ankola, have been fully noticed by Mr. Blane.

19. A considerable portion of my time in this Talook, was passed in the Sedashigur division, which particularly attracted my notice. It obviously possesses peculiar natural advantages, in the fine river which flows through its centre, supplying water carriage to almost every Village from the Ghauts to the Sea, and the unfailing demand for its produce at Goa in its immediate vicinity. It is a district also which

which will rapidly rise in importance the regulation of the timber trade, the importation of Foreign Salt from Goa at a fixed duty, and particularly the proposed opening out of the Ballaghaut Talook of Soopah, at the head of the navigable portion of the Sedashigur river, will all tend to this. Applications too, are constantly being made for unoccupied land, in the Valley of the river and these will increase, as the trade from the Upper country which is now carried into the foreign state of Goa finds an outlet by improved means of communication to the Valley of the river, and to Shedashigur. The Southern Mauganies of the Talook, will also greatly benefit, by the lines of communication, that have lately been, and are now in progress of construction.

20. The Assessment on Coomery and Ankola exceeds that of the preceding Fusly by Rupees 884—6—2 as shown below.

Ker-

Fort St. George 24th October 1853.

The principal increase has been in the Anikola and Sygumhully Moganies.

21. In making the Coomry Summahbundy of this Talook, 555 acres were assessed at the rate of half a rupee an acre, the same rate as the Huckls for the following reasons, Of this extent of ground, 436 Acres had been cleared and cropped is Coomry, the previous year, and in this year, a Second crop taken off the old clearing this was therefore assessed at the rate of ½ a rupee the acree. Such a crop as this, would not bear a higher assessment, and the same rate prevails in the Ballaghaut Talooks.

22. The remaining 119 Acres assessed at the same rate, were cleared by residents in the Hurreeta Mogaing in the neighbourhood of the great line of Dharwar and Coompta road. The present third Member of the Board of Revenue with a view of attracting residents towards the station of Kutgul on this line, and on account of the assistance rendered to travellers by the people in the vicinity, granted permission to 90 individuals of 8 Villages in the

Hurreeta

Fort St. George 24th October 1853.

Hurreeta Moganyto fell Coomry at the rate of assessment of half of a Rupee the acre, and this rate was adopted here, when the Settlement of the Talook was made the previous year by yourself.

23. These people made an unauthorized clearing of 73 Acres, in which I doubled the assessment making it one Rupee the acre, but should the same parties afterwards fell Coomery without permission, I would impose the enhanced assessment of Rupees 2 an acre.

24. The above Statments refer exclusively to Coomery clearings within the Forests the clear property of Government, and in which permissions are yearly applied for, to fell Coomry, in addition to the above 210¾ acres of Wargdar's Coomry, were rated at ½ Rupee the acre, for the same reasons stated in Para 21 Vizt. that they were old clearings from which a second crop had this year been taken.

25. The extent of Coomry clearing permitted to any one individual, is now restricted to three acres, before the promulgation of your order

on

on this subject, dated 17th April 1852 / Fusly 1261 / some permissions had already been given to fell more than the limited three acres each person for Fusly 1262, but after the order was made known, the extent allowed to each applicant, was limited to three acres.

26. I have now gone through the details of the Land Revenue settlement in the three Talooks under my charge, and in these Statements I have classed the Coomry and Huckle assessment together. There is so little Huckle cultivation in these Talooks, that it hardly requires separate notice, but in order that the extent may be seen I subjoin separate Statements of the Summahbundy on Coomry and Huckle relatively with that in the preceding Fusly.

Of this amount of Rupees 5,48094 — 15a — 4a there was collected within the Fusly and up to the 20th August Rupees 5,42859 — 14 — 10 and the remainder is in process of realization should there be any outstanding balances at the end of the year, they will be duly investigated at the next Summabundy.

29. I annex a Statement of balances in the three Talooks for fusly 1261 amounting to Rupees 133 — 2a — 0p which I beg to recommend may be remitted

Cundapoor	5	84 7 7

The circumstances connected with these balances were duly enquired into at the Summabundy and I here give the particulars.—

In the Cundapoor Talook there is the sum of Rupees 46 — 13a — 2p on three Wurgs in the Ballaghaut Mogany of Hunner whose owners suffered heavy losses by fire subsequent to the Summabundy, both houses and grain stored in

in them having been destroyed, and the remaining Rupees 37 — 10a — 0p is on two Wurges whose holders have from poverty no means of paying the Amount.—

In the Honore Talook the sum of Rupees 4 — 12 — 0 is assessment on Huckle, and the party is unable to pay from poverty.—

In the Ankola Talook the sum of Rupees 25 — 0a — 10p is due on a Garden, the produce of which utterly failed, and after enquiry the collection was ordered to be suspended by you The remainder Rupees. 18 — 13a — 7p is Coomry beriz entered in different Wurges, but where from locality, the cultivation of Coomry is

is prohibited. I therefore recommend that these sums amounting to Rupees 133 — 2 — 0 may be struck out of the accounts as irrecoverable.

30. I am happy to say that neither in my progress through the Taloks, nor while engaged in making the Settlement, were complaints made to me of any grievance of importance, or of a general nature and the steadily increasing revenue affords good evidence of the thriving condition of this division of the Province.

B. No. 2597. From the Collector of Malabar. dated the 14th Instant.

Sir,

I am desired in the Board's Proceedings to give my opinion on the Suggestion contained in the 14th Para of the Residents Letter of 31st May 1853 to the Government.

2. General Cullen thinks that if the parties who smuggle Pepper or their Boats were detained so as to afford time to procure Evidence, there would not be the slightest difficulty to prove that it was smuggled from Travancore. The whole of the Pepper is landed, General Cullen observes, within a space of less than half a Mile along the bank of the river and he cannot see that it would be a hardship to insist on all Pepper, nor indeed all produce thus entering Cochin by backwater being liable to detention unless provided with a Rowannah of some kind from the Travancore and Cochin Authorities.

In the manner explained in my letter to the Board of the 25th July para 6.

The simple and obvious objection to General Cullen's plan is that the Smugglers come by night and give no opportunity to the Cochin Authorities

Authorities to detain them.-

A great part of the half mile of river bank alluded to by the Resident is occupied by private Merchants houses and offices.-

To have a preventive watch in such premises is a question of doubtful expediency.

It would be better I think if that guard boats patrolled up and down the river and prevented the Smugglers from reaching the shore. But the expence of such boats should as it seems to me, fall on the Travancore Govern:=ment whose interests are alone at stake.-

2. Under the Explanation afforded by the Collector, it seems impracticable even if legal to adopt General Cullen's suggestion of detaining all produce entering Cochin by the Backwater unless provided with a Rowanah of some kind from the Travancore and Cochin Authorities.-

3. The Smugglers are said to carry on

on their operations by night and the only way to prevent their contraband Trade is to employ a Preventive Establishment on shore, or in Boats on the Backwater.-

4. It cannot be expected that a force should be maintained by the British Government, or in the British Territories, to protect any Foreign Trade - and the Board think that it is for the Governments of Travancore and Cochin to adopt measures within their own Dominions for the suppression of Smuggling either inwards or outwards. Both Pepper and Tobacco being free articles of trade in the British Territories. The Company's Officers have no legal power of interference. An opinion to this effect was recently expressed by Government in Extract Minutes of Consultation dated 24th September 1853.-

Sir,

With reference to the letter from the Acting Collector of Madras to your address dated the 22d Instant preferred to me requesting me under Section XXXV Act XIX to be furnished with a list shewing how in my opinion as the Officer having adjudicated the cases therein alluded to the sale proceeds of certain Beer confiscated should be distributed—

I

Fort St. George 24th October 1853.—

I must confess that I feel considerable difficulty in Meeting this requisition on the part of the Collector for from the wording of the Section not only the whole sale proceeds of the confiscated liquors but likewise all the fines realized must apparently be distributed to the Informers and Parties who may have apprehended the Offenders or Seized the illicit liquors thus leaving no discretion whatever for the reservation of any portion on account of Government. This I look upon as one of many defects of this Act and liable under certain circumstances to lead to much Mischief.—

Only two of the four Defendants paid their fines in the Cases referred to and the Amount realized was 200 Rupees out of which only a Moiety was distributed to the parties named in the Margin the other was remitted to the Government Treasury with the ordinary fines of the Police.

I may not perhaps have acted according to the strict letter of the Section (XXXV) yet I cannot refrain from observing that I consider the Sums distributed as Amply remunerative to the Parties.—

With reference however to the requisition of the Collector I beg to state that in the four Cases the

I would however beg to remark that I do not look upon either Christiana Brown or Challappen or alias Challen as the Informers in these Cases and as such entitled to the full extent of the reward, for it will be seen from the Minutes of Evidence that these parties were the mere employes of the Duffadar Ramjee and the Constable McNamara.-

To The Chief Secretary to Government.

Sir,

With reference to Extract Minutes of Consultation dated 27th May 1852.

Submitting with the Board's observations, letters from several Collectors reporting on the working of Major Balfour's China Cotton cleaning Machine.-

I am directed by the Board of Revenue to submit for the information of the Right Honorable the Governor in Council the papers noted in the margin being the reports of the several Collectors to whom Major Balfour's China Cotton cleaning Machines were forwarded for trial.

From Bellary	30th September	in Cons.	10th October 53.
From Cuddapah	30th July	in Cons.	11th August 53
From Madura	25th August	in Cons.	1st September 53.
From Tinnevelly	9th	in Cons.	15th August 53.
From Coimbatore	1st	in Cons.	8th August 53.

2. The Collector of Cuddapah represents that he is unable, at present, to furnish his report on the Cotton cleaning Machines as he has not yet been able to see their working. owing, it would appear, to there being no one in the District who can put them in

in order. Mr. Murray has written to Major Balfour for directions, but has not yet received a reply. The Board have also addressed Major Balfour on the subject.

3. The Collectors of the remaining four Districts report unfavorably of the Machines, as the Natives prefer the Common Country Churka, which is more simple in structure less expensive, more effective in working, and cleans a large quantity of Cotton than the above Machine.

4. The Collector of Tinnevelly has furnished two very full reports from Mr. Cuxton, late in Charge of the Gin House at Shevacausey in which the failure of the Machine is attributed to the iron roller continually ceasing to revolve.

5. The Collector of Coimbatore states that he believes Dr. Wight also tried the machine, and was unsuccessful in introducing it.

3. In their Proceedings of 24th February 1853, the Board in impressing upon the Collector of Nellore the necessity of using every precaution to guard against fraud and abuse on the part of applicants for relief, requested him to consider and report, whether the principle pursued at Coimbatore, of giving Cooked food instead of money, could not at a fitting opportunity be introduced in the Institution at Nellore, by which means a larger number of the really destitute can obtain relief. In reporting upon this suggestion, Mr. Elton, it will be seen from his letter of 2d July 1853 states, that he does not consider it expedient to adopt the system above alluded to instead of that in force, as the usefulness of the Lunger Khana would be considerably circumscribed, and would in addition lead to the necessity of providing a separate building, with an Establishment the expense of which would be without any commensurate advantage with the experience of Coimbatore before them the Board do not concur

concur in the views of the Collector and will direct him to consider the subject further.

2. I think that as these documents are required to be taken out for the convenience of our Custom House Officers, it is unfair to compel the Merchants to pay a fee for them, otherwise I should be happy to act upon Mr. Maltby's suggestion.

Sir,

In reply to your letter of the 14th Instant, I have the honor to inform you that manifests in English can be procured at the Sea Custom Ports of this District on the payment of a fee of 8 annas upon each. It is optional with the merchants to take out Canarese or English manifests. If it should be made a rule in your Ports that no other than English manifests will be admitted, the merchants will of course take them out in English, which they now avoid only to save the payment of the fee demanded for their preparation.

Para 1 From the letter from the Revenue Board to Government of 23d September 1839, it would seem that all Vessels proceeding from Ports in the Malabar District, to Ports under the Bombay Presidency are furnished with English Certificates. The above reference would therefore appear to apply only to the Province of Canara.

2 Again from the Board's letter of 20th August 1846, it seems that the English Certificates issued in Malabar and Canara are prepared by writers who are borne on the regular Sea Custom Establishment. The Right Honorable the Governor in Council is disposed to think that at all Ports at which such writers are stationed, Certificates in English should be given free of charge, and that the levy of the present fee should be discontinued both in Malabar and Canara.

3. As regards those ports where there are no Clerks acquainted with English which would seem to be the case only at the Canara Ports, it has occurred to Government that the inconvenience complained of by the Bombay Government might be obviated if at such ports the documents granted to Vessels bound for Bombay Ports were filled up in Mahrattah.

4 The Right Honorable the Governor in Council resolves to forward to Mr Chief Secretary Malet's letter

to the Board of Revenue for report in reference to the foregoing remarks.

Reviewing the Settlement Report of the Tinnevelly District for Fusly 1261.

No. 1165.

Extract from the Minutes of Consultation, in the Revenue Department, under date the 17th October 1853.

Read the following Extract from the Proceedings of the Board of Revenue.-

(Here enter 15th September 1853 No. 422)

Para 1. The season of Fusly 1261 in the Tinnevelly District was on the whole unfavorable throughout. There was some failure of water in the smaller streams, and in the Tanks which derive their supply solely from the local rains, but the freshes in the Tambrapoorny were abundant- The dry Crops yielded well, and Cotton was raised extensively-

2. The settled price for the Woolungoo Villages is somewhat in excess of that of the preceding year- The improvement has compensated for the diminished cultivation under Tanks and minor streams owing to the deficient supply of water above noted.-

3. The settlement was formed in the manner exhibited in the annexed abstract.-

The result is an increase above the cutturn of Fusly 1260 of Rupees 110,634 - proceeding from a rise in prices as regards the Woolungoo Villages, from the extension of the dry cultivation, and from the smaller amount of remissions which

which it was found necessary to grant.-

4. In the Extract Minutes of Consultation 6th August 1852, the Government when reviewing the settlement of Tinnevelly for Fusly 1260, expressed their opinion that the tax on third crop cultivation might be foregone, unless there existed any strong reason for its continuance- From the report of the Collector and the remarks of the Board, it would seem that the charge may be given up without injury, and indeed perhaps with advantage- Under these circumstances, the Government authorize its remission for the future on the proviso however suggested by the Collector, that the third crop be not raised at so late a period of the Fusly as to interfere with the cultivation of the land during the ensuing year.-

5. The improvement in the four experimentally surveyed Villages continues- The total settlement of the year has been Rupees 374 in advance of that of Fusly 1260- the falling off in the Nunjah and Garden cultivation from the deficiency of water having been more than counterbalanced by the increase in the culture

of

of dry lands. It is remarked that the current prices of the year are considerably above the survey rate on which the assessment of these Villages was settled.

6. The total demand on account of land revenue being as above shown Rupees 2,16,827- the collections were.-

Memorandum containing the information &c. respecting the Manufacture of Earth Salt Extracted from a letter of C. Pelly Esqre Acting Collector of Bellary to the Secretary to the Board of Revenue under date the 15th March 1849.-

For the Manufacture of this

this Salt, mounds of Common Earth are formed to a sufficient height about 10 to 20 feet The summit is made hollow / as per Section / in the accompanying sketch / to receive earth impregnated with Salt which is collected in the vicinity and thrown into the hollow part, and water is poured on it — which then runs thro' a narrow drain into a reservoir / See Section 2 / constructed of Masonry below, in the rear of the Hillock. The Contents of this reservoir are then conveyed by Pots and poured into the beds of the Pans / See Section 3 / to the depth of 1½ Inch and left to evaporate in the sun for 6 days, when Earth Salt is produced — The Salt is then scraped up and collected — The class of People called "Woppars" are the Manufacturers of this article and they chiefly follow this occupation — Some of them are Cultivators and Tank Diggers and are of the poorest of the people — The period during which they carry on their Salt operations generally is 6 Months in the year Viz. during the hot season from January to June within this

† herewith Enclosed.

this period, the article is manufactured 5 times a Month or 30 times in the whole season — During the remaining 6 Months they engage themselves in other pursuits — Men and Cattle are both employed at the Salt Hills in a few instances — Manual labour alone performs the work — The Number employed at each Salt Hill varies — one Hill is worked by 8 Persons with 4 Buffaloes another by 4 Persons with an equal Number of Cattle, a third by 6 Persons and 3 Buffaloes and so on; some by 1 Man and 1 Buffaloe while some are managed by manual labour only without the aid of Cattle, the produce depends entirely on the labour bestowed —

Bd. No. 2434

From the Collector of Cuddapah, Dated 4th June.

Requesting to be favored with the Sentiments of the Board of Revenue on the several points referred to for the preparation of the Accounts connected with Settlement report according to the printed forms which accompanied the Board's Circular letter dated the 13th June 1853.

I have the honor to acknowledge the receipt of the Circular letter dated the 13th June 1853 forwarding printed forms for the preparation of the annual accounts for submission with the Jamabundy report, and as some doubts have arisen regarding the preparation of these accounts, I request you will favor me with the Sentiments of the Board on the following points as early as convenient that no delay may occur in the preparation of the Statements required.

2. In form No. 2 underneath the word "number" it is unknown what should here be entered as there is merely the figures 1-2 and 3 but what these are to represent I am not able to ascertain.

3. With regard to Statements No. 1 & 2 doubts have arisen what species of Grain ought to be

be entered in Columns No 3 and 4 as besides Punjah and Poonjah there are various other descriptions of land, Bagayet, Poonasa, Tany beegayet, &c on which different Kinds of Grain are cultivated.

4 What year should be taken for the Commutation price of the different Kinds of Grain. In Columns 5 and 6 only "Paddy" is entered whilst various other Kinds of produce are grown in wet lands. From Column 7 to 10 four different species of dry grain are specified in the headings tho' there are many other Kinds of Grain cultivated on Kooshy or Punja land which it has been usual to enter in the Statement annexed to the annual Settlement report. Is it the wish of the Board that only the grain mentioned in the Columns above referred to should be entered or additional Columns annexed shewing the prices of the different species of Grain hitherto specified in the former annual reports of the Settlement of the District.

5. In Statement No 8 there are two Columns No 10 headed money Settlement and 25 ready money collections. Under these heads doubts have arisen what items are to be entered

entered. Ready money allowance is paid to certain Villages Officers as also for the maintenance of the Pagodas, Tombs and Mosques. Villege servants are also in the enjoyment of fees or manas formerly paid in Kind which has been commuted to ready money and entered as such in the accounts. Are both of the above mentioned items to be entered or only one, if one, which.

6 The 1st item of Statement No 15 is "Revenue from Hill Villages." In this District the revenue derived from the hill Villages is included in the land revenue. Is it the intention of the Board that the revenue derived from these Villages should be deducted from the land revenue and entered separately under the above head.

Collector.

The Collector is informed with reference to para 2 of the foregoing letter that in Form No 2 underneath the word "number" either the names of the Talooks may be entered or the figures alone according to the order in which the Talooks have been numbered in Form No 1.

Columns

2 Columns 3 and 4 of Form No 6 should exhibit the Commutation prices (in Rupees) of Punjah and Poonjah equivalent to a single Madras Ganee - there seems to be no necessity for opening fresh Columns with the view of entering the Commutation prices of various other descriptions of land on which different Kinds of Grains are cultivated.

3 The Board observe that as the Commutation or Farm Prices have not been fixed for Cuddapah the average of the immediately preceding 17 years prices as estimated by Sir T Munro should be adopted.

Vide Col 4 Statement No 11 of the Summary Report for Fasly 1261

4 In form No 8 Col 10 and 25 the ready Money Collections such as Tax on trees &c under the two heads of "Total Ayacut" and "Cultivation in Fasly 1261" respectively should be exhibited, and the Collector is informed that the first item in form No 15 refers to the Cyara Beriz derivable from Villages situated on Hills and which have been actually rented out.

Sir,

Reports on the Extra Sources of Revenue in this District for the Fusly 1262.

I have the honor to report to the Board on the Extra Sources of Revenue in this District for the Fusly 1262, submitting at the same time the usual Abstracts to show the results in detail.—

2 The accompanying Comparative Statement of these branches of Revenue for the Fusslies 1261. 1262 shows an increase in favor of Fusly 1262 in all except the Salt and Sea Customs, but owing to the very great falling off in the Salt Revenue of Fusly 1262 there is a Nett decrease of Rupees 50,582—11—3 in the general result of the year.—

3. In explanation of the marked falling off in the Salt Sales / particulars of which are noted in the Margin / I beg to recall to the Notice of the Board the apprehension I expressed in my report of the 11th October that the Stock on hand would prove insufficient for the Consumption of the Fusly and also the destruction of a large quantity of Salt in process of Manufacture by the Storm of March last, which was reported in my letter of 2d April. Fifty garces of Salt were obtained from Tanjore, under the permission given by the Board for the

the more especial purpose of supplying the town of Cuddalore, but its inferior quantity prevented its ready sale.

4. The principal pans at Meersamun produced large quantities of Salt at each gathering but owing to the length of time required to produce the Salt under the System there pursued, and to the period which elapsed before the pans / which had been inundated by fresh water during the Storm / could be drained and prepared for recommencing the Manufacture, no supply of Salt was obtainable from them before the end of the Fusly the sales for inland Consumption were therefore Closed from February it being necessary to reserve for Home use and for the supply of Pondicherry, the small quantities still in store. In the preceding Fusly the new Salt was ready for use by the 1st May so that a Comparison of the value of Salt sold in each year from the Commencement of May to 11th July / showing a decrease in Fusly 1262 of Rs 28962) will serve to illustrate the results arising from the impediment to the manufacture

manufacture by the march Storm—

5. There is a marked decline in the proceeds of the home sales, not indeed from the average of the last five years but from the Amount realized in Fusly 1261. The average of five years amounts to Rupees 59,309 or Rs. 448 in excess of the year under review. Fusly 1261 was far beyond this average in the amount realized from its Home sales. but it was necessary during the past year to sell the limited Stock on hand in small parcels, to protect the interests of the Community by preventing the entire stock falling into the hands of a few large purchasers, a precaution which partly accounts for the difference between the two fusleis. It also appears that the dealers, foreseeing a scarcity purchased up Salt in the preceding year more extensively than usual, and kept it in store in the expectation of prices rising, but as the sales for home Consumption during the year under review equal the average, and the Salt imported from Tanjore was purchased very slowly, it is satisfactory to reflect that

that no distress was felt in the District for this important Article of Consumption—

6. A Comparative account is annexed to show the proportions in which salt was exported to the different inland districts, the Total decrease in the proceeds of inland sales was Rupees 40,512 and arose as already explained from a deficiency of stock, caused by the failure of the Manufacture—

The Frontier Customs as will be seen from the annexed Memo: have yielded an increased Revenue which is Rupees 14,228 — 1 — 5 in excess of that of the preceding year the imports being nearly the same as, and the exports Rupees 14,444 12 — 5 beyond those of Fusly 1261. The increase is owing principally to the quantity of Indigo passed across the frontier to Pondicherry, the differences in other items of export are unimportant, and dependent on the Common fluctuations of trade.

Annexed is a Statement of exports & imports by Sea. The exports have decreased chiefly at the port of Cuddalore owing to the

the want of tonnage for Indigo which was Consequently passed by land to Pondicherry and Madras for Shipment, and it will be observed that a decrease in the Sea export duty on this article amounting to Rupees 7841 5 9 in Comparison with the previous year is balanced by the additional amount of duty which yielded to the frontier Customs of Rupees 7924 14 9 There is also a decline of Rupees 2915 11 . on the general imports Compared with Fusly 1261. One article alone / the Chuckuee or Betel nut / imported from Malaca gives a decrease of Rupees 2198 11 6 at Porto Novo, Vessels expected from the straits not having arrived as usual last year, owing it was supposed to the Storm in March.

Increase	7000

10. As I have already in my letter to the Board explained the cause which gave rise to the increase in the Abkarry rent of Rupees 7000 it requires no further remark.

11. The export of Sugar from the District factories Amounted to 6 m 16 Candies 5971 2 1, which exceeds the

shipments of Fusly 1261 by Candies 593 m 16 9 19/20. The exports of Rum however are less than last year by 11565 Gallons, large quantities having been Consumed by the Abkarry renters, and in the refinement of Sugar.

excess of the previous year a difference occasioned Chiefly by a rise in the farm of Jungle products, and in that of the Chank Fishery which rose by Competition from Rupees 35 to Rupees 175 in the year under review, It seems however probable that the renter of the Chank Fishery will prove unable to make good the full amount of his Contract, and this farm has since been abolished under the sanction of Government dated the 19th January 1853 No. 70.

Moturpha

Fusly 1262	42967-11-3

13. There is an increase in the amount derived from this tax distributed over all the Talooks / with one exception / and amounting to Rs. 1068 5 . It appears to call for no particular Comment

comment as the Salary Davestanum Moturpha at Chellumbrum has ceased to be collected by the Officers of Government in accordance with the orders communicated in the Boards' Proceedings of 11th April 1853, no deduction appears under this head in the Settlement of Moturpha Collections now forwarded—

	Stamps.
Fusly 1261	18,801 – 6
" 1262	25,262 – 8 – 6
Increase	6,158 – 8 – 6

14 The Stamp Revenue also exhibits an increase of Rupees 6,158 – 8 – 6 having risen from Rupees 18,801 – 6 in Fusly 1261 to Rupees 25,262 – 8 – 6 in Fusly 1262. The increased sale of Stamps is most visible at Cuddalore where the principal Courts are established, as it arises from the larger demand for Stamps for Judicial proceedings under the operation of Act XVIII of 1848. The refunds of Stamp duty under that act amounted during the fusly under review to Rupees 2,818 – 8 – 0—

15. The total demand of all the Exctra branches of Revenue including extra items, is shown by the accompanying statement

Statement A and its enclosure No. 1 in A to Account to Rupees 1,59,265 – 8 – 7 of which sum Rupees 1,33,522 – 11 – 6 were brought to account within the fusly— The remainder or Rupees 25,316 – 6 – 8 has been since realized with the exception of a small balance of Rupees 426 – 6 – 5, in the Moturpha, and small Farms, which is under process of recovery—

16. The Statement B exhibits the arrear of previous years, and it will be observed that after writing off the sum of Rupees 5 – 8 – 8 for which sanction was given by Government on the 19th January last, the outstanding arrear at the close of the fusly under report was limited to a petty sum of Rupees 9 – 7 – 10 due by some Moturpha ryots of this amount Rupees 2 – 8 – 2 have been since realized, and as the remainder Rupees 6 – 15 – 8 is irrecoverable on account of the absence or poverty of the defaulting parties, I request permission to write it off in the accounts—

17— In concluding this report I beg

Fort St. George 27th October 1853.

beg to forward in triplicate the usual printed statement exhibiting the gross Collections Charges and Net Revenue of the different branches of Extra Revenue in the fusly under review

Total Charges	
Fusly 1262 —	71670—7—5
" — 1261 —	52581—11—11
Increase	19088—8—6

A Comparison of the Charges with the preceding Year shows an increase of Rupees 19,088—8—6 but the following remarks will explain that this apparently additional expenditure is in fact chiefly nominal. The greater part of the increase or Rs. 18704—12—9 is observable in the Salt Department, and the principal portion of it or Rupees 11,000 arises from the manner in which the payments have been made to the French Government in the two past fusilies for the Compensation due to the owners of the pans in their territory where the Manufacture of Salt is, by convention, suspended. The fixed Amount of this Compensation is Rupees 11,000 per annum, and as a moiety only of it was drawn within 1261 the charges under this head in the accounts of that fusly is limited to Rupees 7000 while in the present year it amounts to

Salt Charges.

to Rupees 21,000. The remaining increase consists of an additional sum of Rupees 3,002-5-8 paid to the Salt Manufacturers, and of some shipping and other ordinary Charges, the amount of which varies with the quantity of the Salt Manufactured at our pans and sent to Pondicherry for the supply of the French Government. The increase of Charges in the Stamp Department consisting of Rupees 361-2-2 arises from the large Amount of Commission paid to the Stamp Vendors in consequence of a more extensive Sale of stamps, while in the other branches of Extra Revenue, the fluctuations of charge do not appear sufficiently great to call for detailed remark.—

18. The Statement E exhibits the Salt wastage as ascertained on the remeasurement and sale of the heaps in the fusly now reported upon Amounting to Garces 124-74-1 and under the explanatory remarks appended to the Statement, I request that the Board will be pleased to obtain the sanction of Government for writing off the above quantity in the accounts.—

A Apportion of the indemnification due to the French Government for the preceding year, was paid in the year under review, and caused an apparent increase in the Charges to the extent of Rupees 15000 - The remaining increase arose from larger payments to the ryots for the manufacture of Salt -

B The sale of Stamps in the year under review was more extensive and led to this increase in the Stamp Vendors Commission -

Decrease of Receipt

A This decrease is owing to the sales being stopped by the Stock of Salt becoming exhausted -

B This decrease arises from a portion of the Indigo produced in the District having been sent to Madras and Pondicherry for export to Europe instead of being shipped at Cuddalore as heretofore -

Acting Secretary to the

(13)

Bd. No. 2628.

From the Collector of Tanjore.....

Sir,

In the Village of Ponacoolum in the Gundracottah Zemindary there was a thatched choultry which afforded shelter to travellers, on the road between Tanjore and Poodoocottah, it was destroyed in the March storm, and there is at present no shelter, for travellers between Gundracottah and Vustud Choultry, a distance of 14. Miles, running through a very open country.

The mother of the minor Zemindar has expressed her wish that the

Fort St. George 27th October 1853

the choultry should be re-erected at the expense of the estate, and as I am of opinion that it would be a work of great public utility I have the honor to request that I may receive the sanction of the Court of wards for the necessary expenditure.

The original building was only of mud with a thatched roof, and did not probably even with its dependant building, wherein food was distributed, cost more than 300 Rupees but it required an annual expenditure on the roof, it would not I think now be expedient to erect any but a permanent building and I have therefore caused to be prepared an estimate for a new Choultry and for a house for the distribution of food amounting in the aggregate to Rupees 872—4—2, for the expenditure of which sum, from the funds of the

estate

estate, I now request permission.

To the Collector of Tanjore. } Sir,

With reference to your letter dated 30th September 1853, soliciting sanction for the sum of Rupees 822-4-2 from the funds of the Gundracottah Estate, for the re-erection of a Choultry, I am directed by the Court of Wards to request that you will inform them, whether the Choultry in question is connected in any manner with the family of the Zemindar, so as to justify them in sanctioning the expenditure. The proposed outlay appears large and on this point also further information is required.

No. 90.

To, B. Cunliffe Esqr.
Acting Secretary to the
Board of Revenue.
Fort St. George,

(65)

Bd. No. 2823.
From the Collector of Tanjore. } Sir,

I have had the honor to receive your letter of the 6th instant informing me that in the Board's opinion the suit to which my letter of the 19th ultimo referred, is one relative to the occupancy of land between ryot and ryott, without any forcible dispossession having taken place, desiring to know under what Section of Regulation V of 1822 I had decided the case, whether the decision was made known to the Plaintiff with notice of the period within which an appeal to the Civil Court was permitted and suggesting that if I should be of opinion that I was not empowered to adjudicate the question, I should restrict my defence to the suit, to the general authority vested in Collectors to maintain occupants in possession.

The original complaint preferred in this case was by the 5th Defendant, who stated that the Plaintiff had forcibly cut the Crop on certain land which she had cultivated, and occupied for the last three years pending an

enquiry

enquiry into this complaint the grain which had been reaped was placed in deposit with the Village Talliaries, from whom a second complaint was received that it had been forcibly carried away by the Plaintiff. I considered that these complaints brought the case under the Eleventh Section of Regulation V of 1822, and under its provisions therefore I disposed of the case.

There is no provision in the regulation for making known to the party to whose claim the Collector's decision may be adverse, the time within which an appeal to the Civil Court will lie, while it is expressly laid down in the Second clause of the Sixteenth Section, that decisions are not to be set aside for want of form, or for irregularity in their proceedings, but on their merits only.

The decision made in this case was however communicated to the Plaintiff in person by the special Assistant Collector, and Officially notified to the Talook.

Clause I Section XIV permits parties to sue to the Civil Court against the decision of Collectors, but only in the way of appeal, and as in the case in question the Plaintiff sued me as a Defendant, I considered that

that it was a sufficient defence to the Suit to plead the enactment under which my judgement had been passed.

Claims similar to the one at issue are very numerous in Tanjore, and have hitherto I believe always been decided under Regulation V of 1822, but if the Board should not be of opinion that the Collector had jurisdiction in the present instance, I would propose to plead the provisions of act XVIII of 1850 as my defence, as I can bona fide plead that I believed myself to posses the jurisdiction which I exercised.

Proceedings thereon.

Submitting with the Board's observations letters from the Collector of Tanjore forwarding copy and translation of a plaint filed against him and others in O.S. No. 13 of 1853 in the Subordinate Court of Combaconum, with draft of a proposed answer, and requesting permission to file the latter in the Suit Court.

65.66

Resolved that the letters above recorded together with papers to which they refer be submitted for the consideration and orders of the Right Honorable the Governor in Council.

2. This suit has been instituted by Punchanada Moodelly a Meerasidar of Tencovanoor Tenpathy for the recovery of a piece of land Vm. altogether valued at Rupees 146—12— which he represents was required by purchase from the 5th. Defendant.

In

12700 Fort St. George 27th October 1853.

3. In the draft answer which the Collector proposes to file, the fact of this purchase is admitted; but it is alleged in addition that the purchase money had been repaid to the plaintiff and he thereupon executed an agreement in favor of the 5th Defendant declaring that he had no right whatever to the land Vw and that she was at liberty to enjoy it having its Meras registered in her name. This agreement is not only proved by the evidence of the attesting witnesses, but the fact that the 5th Defendant has been enjoying the land Vw in question ever since its restoration by the Plaintiff is borne out by the Statements of the village Officers. On these grounds an order was passed by the Collector under the provisions of Regulation V of 1822 continuing the defendant in possession of the disputed property, and referring the plaintiff for redress to the Civil Court. The draft answer further pleads the law of limitation as laid down in Clause 2 of 1st Section XVI Regulation V of 1822 by which the period of appeal is restricted to 30 days.

4. The Board had at first entertained considerable doubt as to the Competency of the Collector to adjudicate in the present case, which appeared a simple question of occupancy; but the further explanation afforded by Mr. Forbes has satisfied them that the case came under the Provisions of Regulation V of 1822.

5. The Board therefore recommend that he may be authorized to file the proposed Draft answer with the addition shewing the grounds of his jurisdiction, and conduct the defence at the public cost.

any many other parts of the Hills- I am not aware that I was one day unnecessarily there- beside the yearly settlement with the Hill Ryots of all classes, I was engaged in various miscellaneous enquiries and disputes regarding land and water among the European community the preservation of the Forests, the Horticultural Gardens, Mr. Mc Ivor's Farm at Kartary (inspected and made over to him) examination of the "Cut" and Jack Kattala Roads with Captain Francis (to compensate the Burghers &c) all of which engaged my attention, indeed I may truly and conscientiously say that my yearly tour of duty to the Hills is the most troublesome and fully occupied period throughout the whole year. I had no less than 7 water disputes (including major Pandrums) under personal enquiry with numerous applications for land which could not be decided without inspection. I have also, I trust been able during my tour on the Hills to effect some local and permanent improvement

From the Acting Collector of Madras

Reporting on the two points reserved for a separate letter of redemption of Quit rent and the sale of real property. Recommending in respect to the former that the collection of Quitrent within Black Town should be attached to the Assessment Office, urging the expediency of selling the land for the arrears of Quit rent and proposing that certain questions be proposed to the Law Officers of Government on the subject.

To Board 15 Dec & Cy

Sir.

In replying to the remarks of the Board and Government on the Settlement of this Collectorate for 1261 I reserved for a separate letter the two points of redemption of Quit rent and the sale of real property, as being general questions not confined to the transactions of the year. I have now the honor to offer the considerations that occur to me on each of these topics.

2 The redemption of Quit rent would no doubt limit the work of the Collecting Department. But as it could not be compulsory I do not think it would even as contemplated by Government, entirely supercede the necessity for that Department. It is pretty certain that only capitalists could take advantage of the right of redemption, and that the poorer proprietors in collecting from whom the chief difficulty is at present experienced will be unable to avail themselves of it.

The

Fort St George 27th October 1853

3 The following Memorandum shows the relative proportions of Ground rent, Quit rent within, and Quit rent without the walls for Fiscly 1262/1852/53 It

	Demand		Balance at the close of the Fiscly		Per centage
	Bills	Amount	Bills	Amount	
Quit Rent Inside	10134	18568	759	1059	5-11-3
D° Outside	13709	39446	2212	4764	12-1-3
Ground Rent	22510	8041	4981	1536	19-1-7
	46353	66056	7952	7359	" - - -

is thus seen that of 46 thousand Bills nearly one half or 22 thousand are for Ground rent, and 10 thousand for Quit rent within the walls.

4 In any case I apprehend an Establishment would be required for the collection of Ground rent and the collection of Quit rent on the dwelling houses and smaller properties, as also on the arable land will still have to be provided for.

5 There is one Expedient which would

Fort St George 27th October 1853

would both simplify the work and reduce the charge of the Quit rent department. It is to unite the collection of the Quit rent with that of the Municipal assessment as regards the Black Town, and thus dispense with one of the two agencies which at present are nearly parallel in all their operations. The correspondence noted in the margin shows that this arrangement was originally contemplated. It does not clearly appear from these records why it was abandoned. Probably because the saving proposed to be effected by Mr Robertson was not considered such as to render the change worth while. I cannot however but think that a very considerable amount both of charge and labor might be reduced by leaving the Quit rent within the walls to be collected by the Assessment Department, the Quit rent and assessment being levied at the same time, and if this can be done, entered in the same Bill

Bill. The Quitrent & Ground rent within the walls is at present collected by 5 Conocapolies and 7 Peons at an annual charge of Rs 1428 being about 6½ per cent on the sum collected. Retaining for the Ground rent one of the former and two of the latter Servants costing annually Rs 336 most of the remainder might be saved.

6 I cannot form any confident Estimate of the extent to which those proprietors who are able would be willing to redeem the Quit rent. Probably most of them would do so who hold land favorably situated for building but till the experiment is tried, it is not easy to pronounce an opinion.

7 Indeed before the wishes of parties can be ascertained the number of years purchase has to be agreed upon. Less than twenty five years would not even at the present rate of interest secure the due claims of Government, and I doubt whether even this would fairely represent the present value of the Government interest in

Fort St George 27th October 1853

in the land.

8 The question touched upon by the Board, namely the Collector's power to attach and sell the land itself for arrears of revenue, seems to be one of still more importance to the efficient working of this Office. Not only would this process be in almost every case a prompt and effectual means of securing the object in view but it would be one far less liable to abuse and far less oppressive, vexations and opposed to the better feelings of the community than the power, at present possessed of entruding on domestic privacy and removing the doors or furniture and this, as very often happens, from Tenants who are in no way to blame for the default.

9 The law, as at present understood, gives power to this Department to distrain moveable property found on the land or in possession of the owner or occupier wherever found. But this power is evaded in numberless instances by the parties keeping their doors shut, and at the

the same time no sufficient means are available for ascertaining who the owner or fairly liable party is. Lands and houses are perpetually changing hands, without any registry of the transfer being made in this Office, and even without the Knowledge of our Office. But the annual Bills are not altered unless the registry is altered. The warrant of distress is made out against the party named in the Bill, and thus it frequently happens that the warrant is served upon a party not named either in it or the Bill, and the only proof in many cases for the coming is the assertion of the Conoco polies and Peons that he is the party liable. The suit lately filed in the Supreme Court against the Collector and others, affords an apt illustration of the working of the present law. A garden at Tondiarpett is registered in the name of Rungesawmy Naick who appears to have been long defunct. But no transfer of the property has since been registered in this Office. Part of the Quit

To Board 22nd July 1853
From D. 23rd D. D.

Quit rent has from time to time been paid through the Gardener, part by one P. Annasawmy Modelly, while part remained unpaid. As only the Goods and Chattles found on the land could be distrained under the old law, Annasawmy Modelly was secure against further demand. Under the new Law, the Annuldar obtained a warrant against Rungesawmy Naick which was served upon Annasawmy Modelly who now disclaims all right to the land, and the Suit was the consequence. Such was the appearance of the case to a mind conversant with English law and procedure. That on a prima facie view the Company's Solicitor thought it "a mass of irregularity and most unjustifiable," though he afterwards saw that it was a bona fide endeavour to apply the act to the enforcement of the just claim of Government in the only way available.

10 were it clearly understood that the land and buildings thereon may be sold for arrears of Quit rent, the Collector would be relieved of all such difficult

and

and Ryotwarie inquiries. There would be no risk of coming down upon wrong Parties, no annoyance by the entrance of dwelling houses, and no power of oppression on the part of the Officials nor of Evasion on the part of the Defaulter. The present heavy arrears might soon be liquidated, and all land really worth having would be occupied and turned to account. Thus it would be found in this as in many other matters that the law which is most stringent in principle is the most lenient in operation.

11 Concurring therefore most fully in the sentiments recorded by the Board in Para 7 of their Proceedings, I think it of the utmost importance to settle the question whether as the law now stands the land can be sold or not, and if not, to effect the requisite alteration in the Law.

12 In the letter of the advocate General of 5th September 1828 I find this sentence.

"The Government having its rental charged on the property itself, and having power of distress is perfectly secure in its title. Unless the distress can extend to the property as well as to the Goods and chattles found on

on it, this security is very fallacious.

1st Oct. 1819 Para 5 13 In their letter to Government on the new law, the Board say they proposed no alteration in this respect, because it seemed to them that the omission referred to can hardly have been otherwise than intentional, and that it may have proceeded from legal difficulties connected with the tenure of land within the Jurisdiction of the Supreme Court, although they clearly saw and pointed out the disadvantage of exempting land at Madras from a liability, to which it is subject in the Provinces. Indeed such a distinction seems to violate the intention of the act, as declared in the preamble.

14 In the Proceedings now acknowledged the Board seem to imply a doubt whether the land be not at present saleable, and if it be not, I do not see what meaning is to be attached to Section IX of the Act, or how the claim of the East India Company for land Revenue can

12721 Fort St George 27th October 1853

can have a priority over all other claims if a private creditor possesses the means of procuring the sale of the land, and the Company do not. On the whole therefore I beg to recommend that the following questions shall be proposed for the opinion of the Advocate General.

1 Whether under Section IX of Act XII of 1851 the land is saleable for arrears of Quit rent.

2 If it be, by what course of procedure is the sale to be effected.

3 If not, what obstacle exists to the Enactment of a supplementary clause declaring or creating the power of the revenue authorities to sell.

Reporting further on the subject of the Sale of lands for arrears of Quit Rent and requesting orders on the two Cases brought to notice.

In connection with the subject of my letter recommending the sale of land for arrears of Quit Rent, I have the honor to refer the Board to the correspondence noted in the Margin which has just come under my notice.

From these papers it would appear that as communicated in the Board's letter to the Collector dated 7th May 1812 the Company's Law Officer in 1808 decided that under the form of Grant then in use Government had the right of re-entry equivalent to the right of Sale of land for arrears, and further that the Board did in one case authorize the Sale of land for arrears, while in several other cases de- faulters made over their Certificates to the Collector in lieu of the demand against them. The Board disapproved of this pro- cedure and referred the matter to the Com- mittee of enquiry at that time sitting, but I cannot discover the committee's reply on these records.

Fort St. George 27th October 1853.

2- Two applications are now before me on which I request the Board's instructions in connexion with this subject.

3- The first is from one Pardhasara-diah who in the Month of December 1852 applied to purchase a certain spot of land in Kedambora adjacent to his Garden - The Surveyor measured the land and reported that a part of it had formerly been granted to individuals but transferred by them again to Government and it appears that two spots are included among those mentioned by W. Murray in his letter of the 21st Nov. 1825.

4- On the 12th March Parthasara-diah without making any allusion to his former application made another to me applying for a Certificate for the same land on the plea that it had be-longed to his father in law and been made over to him. I find that he drew up this second application in concert with the late Seristadar and the Registeer, who is now under suspension and I consider their conduct very reprehensible in allowing the previous papers to have been kept out of sight. A second measurement was made by the Maistry and the Grant of the Certificate

Fort St. George 27th October 1853.

Certificate was opposed by the Meras-sidars - both these spots are now sent for the Board's inspection - The part coloried yellow in the larger Plan is that for which Certificates were formerly issued, and transferred again to the Collector, and as regards this land I should suppose there will be no difficulty in putting it up again to sale. Of the rest of the lands, there are four spots for which Certificates have been issued, but the Bills against them were cancelled as shown Marginally, and none have since been issued - The holders of these Certifi-cates are not now forthcoming, but if the applicant takes out a Certificate for them he will of course do so at his own risk - There remain some spots for which Certificates seem not to have been hi-therto issued, as may be gathered from an old Tamil plan now sent which was made by one of the Maistries many years ago - The Merasidars on their Coun-ter claim include the grounds which has been surrendered to Government as well as theirs a clear proof that they are not proceeding on the strength of any authentic and defined title and as it does not seem to have ever been inclosed or occupied I think they can have no just right to it.

Bills for the years 1812-1816-1817-1819-1820 and 1821 were cancelled by the Committee of enquiry under the Sanction Con-veyed in the Board's letter dated 11th Dec. 1828
Do: from 1822 to 1830 & Aug. 1835 - Bills from 1831 to 1835 cancelled under Sanction dated 4 Aug. 1835 - Bills for the years 1834 and 1835 Cancel-led in 1842 - From 1836 the land is entered as Waste and no Bills have been issued ever since -

5- The second application is from

one

12725

Fort St. George 27th October 1853.

vre Sho Ralinga Pillay who holds a Certifi-
cate No. 783 for 2 Can Mfs 30s assessed at Rs a P 10-8-5 in
Persavaukum, the Quit Rent upon which
has been outstanding since fusly 1256 and
amounts now to Rs a P 73-10-11.-

6- He has presented two Petitions
in the first requesting that Government
would sell the land for arrears, and return
to him any balance that might remain.
In his Second Urgee he requests to be per-
mitted to relinquish his land to Government.
In these and similar cases it appears to
me that the simplest and fairest way
would be to sell the ground for arrears and to
cancel the balances that might remain should
the full amount not be realized thereby.-

Proceedings thereon.

Submitting a letter from the Acting Collector of Madras reporting on the suggestion of Government in para 3 of Extract Minutes of Consultation 8th July 1853 on the subject of the resumption of the Quit Rent and consequent reduction of the Collecting Establishment and also to the remarks of the Board respecting the sufficiency of the provisions of act XII of 1851, for the due enforcement of the Govern-ment demand.

Ind. Cons. 27th July 1853.

73.75

5 Concopolies
7 Peons.
Cost 1428 Rupees

1. In the above letter the Acting Collector replies to the suggestion of the Government in Para 3, Extract Minutes Consultation 8th July 1853, on the subject of the redemption of the Quit Rent and consequent reduction of the Collecting Establishment and also to the remarks of the Board respecting the sufficiency of the provisions of Act XII of 1851 for the due enforcement of the Government demand.-

2. With respect to the first point the Acting Collector is of opinion that the poorer Class, from whom is experienced the chief difficulty in collecting the demand, would not avail themselves of the option of redemption, and that therefore the Establish-ment would still be requisite, as well for the levy of Quit rent, as for the collection of ground rent, (the latter forming nearly one half of the entire number of Bills) and the demand on smaller properties and on arable land.-

3. He proposes however an expedient by the adoption of which, the present Establish-ment for the Collection of dues within the walls of Black Town might be reduced to 1 Concopoly and 2 Peons and a saving

saving of 1092 Rupees annually effected. He sug-
=gests that instead of two distinct agencies the
assessment and Quit Rent Departments which
at present work side by side of each other the
servants of the former should collect, together
with their own peculiar demand the Quit rent
and ground rent within Black Town.—

Para 5. 4. He quotes certain correspondence
by which it would appear that this arrangement
had been once entertained, and the Board are not
aware of the reasons for its abandonment.—
They observe however that the saving which
would be effected is not very considerable,
while they cannot but apprehend that con-
=fusion both in the accounts of Collection and
in the responsibility of the agents employed
would result from an arrangement by which the
detailed operations of one department would be
entrusted to another which is not under the direct
control of the Government or its Officers.—

5. Mr. Stokes thinks that it
would be difficult to Judge of the extent to
which Proprietors would be willing to purchase
the

the fee simple of their property and supposes
that 25 years purchase would scarcely represent
the Government interest in the land, but as the
experiment is worth a trial, the Board see no
objection to the issue of a Notification setting
forth that Proprietors are at liberty to com-
=pound for the annual rent, by an immediate
payment of thirty years purchase of the same.
The disposition of the public might thus be
ascertained, and such further proceedings
adopted, as experience might dictate.—

6. The other question discussed by
the Acting Collector is the power of the Revenue
authorities to collect the Government dues under
Act XII of 1857. The provisions of this Law
permit the distress and sale of all move-
=able property found on the land, or in the
possession of the owner or occupier, wherever
found, and these powers the Board formerly
remarked afforded "but imperfect means
"of realizing the land Revenue, for if the
"land itself be not answerable for the assessment,

Proceedings 30th May 1853. Para 7.

but

Fort St. George 27th October 1853.

"but only goods and Chattels can be sold, it seems
"clear that the process of enforcing payment from a
"landholder residing out of Madras must be dif=
"ficult and often impracticable, while the pro=
"visions of Section IX would oblige the ba=
"lance against such defaulter to be struck off
"after the lapse of 6 years".—

7. The Acting Collector concurs in these remarks, and explains the manner in which pay=ment is often evaded even on occupied premises, the difficulty of Collection being of course much co increased in the case of houses and gardens co unoccupied.—

8. Mr. Stokes proposes that the co opinion of the Law Officers of Government be co taken as to the power of selling the land itself under the Act and that if the reply be unfavora=ble the necessary steps be taken for the extension of the Law so as to embrace such sale, and in a subsequent letter he has referred to certain co correspondence from which it appears that the co Company's Law Officers in 1808 decided that under the form of grants then in use Government had

Fort St. George 27th October 1853.

had the right of reentry equivalent to the right of sale of land for arrears, and that this right had on one occasion been coercised.—

9. The Board entertain little doubt that under the new Act the land itself is not saleable for arrears, but they think that the reference pro=posed to the Advocate General might still be co made, particularly with reference to the point of how far the new form of Grant has affected the right of Government which was held by co his predecessor to exist.—

10. The proceedings recently taken co against the Collector in the Supreme Court and the difficulties which are shewn by his letter of the 2d. September still to attend the realization of the Government demand on the land give the co Board occasion to regret that a distinct co provision was not introduced into Act XII of 1851 and they are disposed to concur with Mr. Para 10. Stokes that such a provision tho apparently co stringent in principle would in its actual operation have been less harrassing to the people while co

there

there can be no doubt that it would have greatly relieved the embarrassment which is at present experienced by the Collector. Notwithstanding therefore the objection and difficulty which are usually held to exist to a partial alteration of Laws as recently passed they think that the necessities of the case would warrant an application to the Government of India for a short act conferring the powers sought for, should the result of the proposed reference to the Advocate General indicate no other effectual remedy. The necessity for this step has been long felt and so far back as 1835. the Government directed the Board "to communicate with the Advocate General with "a view to the consideration of the question of "the sale of the land itself for arrears of Quit "rent" observing at the same time that "if any "serious difficulties are still considered to "oppose the resort to sale for arrears it is "expedient that they should be removed by "a declaratory enactment which the Advocate

2. As the Proceedings of the 30th May had been replied to, it did not occur to me to retain them on the unanswered list although the requisition made in Para 8 had not been complied with.— This shall however be done.—

3. In like manner the call for my opinion on the subject of cancelling Bills for waste lands contained in Paras 8 and 9 of the Proceedings of the 6th of June was overlooked. The main topic of those proceedings had been disposed of and

my views about waste lands have already been given in my letters noted in the Margin. I fully concur with the Board in thinking a return to the former practice desirable. Indeed it seems that to forego the demand by ceasing to issue Bills for lands once brought under Quit rent on the ground of their not being Cultivated is inconsistent with the principles by which the taxation of lands at Madras is distinguished from that in the provinces.

4. The annual inspection by which the Board directed that this indulgence should be guarded, has been either omitted or carelessly done by the Conicopillays, and has not, there is reason to fear, prevented it from opening the door to abuse.—

Submitting with reference to Contracteli: minutes Consultation 5th November 1850 letters from Certain Collectors with the Board's remarks report: ing upon the present Condition of the English and Native Records in their Cutcherries and in those of their Subordinate Officers.—

In pursuance of these instructions, a Circular was issued on the 25th November 1850, the replies received to which, with the exemption of those from the Northern Circars which will be forwarded to the Commissioner for disposal, the Board have now the honor to submit for the information of Government.—

Nellore — 3. In the 3 Districts, the records both English

English and Native are reported to be generally in good condition but the Collector Complains of a want of arrangement in the Correspondence Department in consequence of which much time and labour are expended in searching for the necessary documents. Measures however are in progress for rectifying these evils. On the representation of the Collector, and in Communication with the Post Master General the Board on the 18th March 1852 Sanctioned the distruction of certain of the Post Office records considered to be useless.—

4. The entire destruction of the records up to Fusly 1254, as proposed, would the Board think be an unwise measure; but they recommend that the Collector be permitted to entertain in the Establishment necessary to examine the Native records for the purpose of retaining important documents and putting aside the rest for eventual disposal. The English Records might be similarly looked into; and a list prepared of those it was thought advisable to preserve.—

Bellary— 5. The English records of the Huzzoor Cutcherry of this District are well

well preserved, but some are reported to have latterly fallen into disorder. The Collector recommends the appointment of another Record Keeper on 35 Rupees but under the explanation offered: and the fact of the records having once been carefully arranged and registered with the present establishment, the Board do not feel justified in supporting the Application. The vernacular records are deposited in the Cutcherries at Bellary and Anuntapoor, with the exception of those which have accumulated since 1839-40; which are all at Bellary but kept partly in the Zillah Jail and partly in the Cutcherry.—

6. The Pymash Teerwa and other Accounts up to Fusly 1248 are at Anuntapoor, and doubtless much inconvenience is experienced in having these important documents at such a distance from the Head Quarters of the Collector. The transfer of these Accounts together with that of the Record Keeper to Bellary would the Board think be very advantageous.—

7. As regards the records of the Talook Cutcherries, the Collector states that they are in a very deranged State,

and.

Fort St. George 27th October 1853.—

and submits a proposition for making boxes and presses &c. for their arrangement and preservation at a cost of Rupees 1,452-12-- which estimate the Board would recommend for sanction, and strong wooden horses are perhaps preferable to presses as the records come more into view, any attack of insects more easily perceived and the papers more thoroughly aired. He also proposes to employ as a peon as opportunity offers a person who can read and write in each of the Taloor Cutcherries, for the purpose of taking care of the records. This measure which involves no additional charge to the State, the Board approve of as likely to prove beneficial and they trust that with new Presses and horses and increased accommodation the Records throughout the District will be placed in an efficient state.—

8. In reference to para 8 of his letter, the Collector was called upon to submit a Statement of the useless records which he proposes to destroy but no answer has yet been received.—

Cuddapah— 9. The records of the Cuddapah District

Fort St. George 27th October 1853.—

District are stated not to be in a satisfactory condition, owing chiefly to a proper division of them not having been made when the Zillah was separated from Bellary. An English Record-Keeper has been employed since 1840 who has partly devoted his attention to their arrangement, but the progress made, has been very slow. A similar statement is made with reference to the Taloor records, with the exception of those in Muddumpully and Doovoor. They are represented to be in a very confused state and to be much injured by wet falling thro' the clay roofs of the Cutcherries, and still more by white ants with which clay buildings always abound. The Tahsildars of these Talooks have reported that there are 1037 3/4 Maunds of useless records including old Sayer Accounts, and such papers connected with other departments, as have become useless from damp or in the inroads of white Ants. The Collector suggests with reference to these, that they might be got rid of by sale as useless paper, and the proceeds applied in making up new boxes for the preservation of the records, which measure the Board think he might

be

Fort St. George 27th October 1853.—

be authorized to carry out, having previously defaced the papers to be sold.—

Kurnool. 10. The state of the records of this District is represented not to be satisfactory, either in regard to their arrangement or preservation. Some of the old Mogulye papers which had been stored 8 or 9 years ago are also reported to have been found on examination to be destroyed by leakage thro' the roof of the record room. The departure of the late Agent from the District prevented his taking any measures for remedying these evils but his successor has been called upon for a further report, which has not yet been received.—

Chingleput. 11 In Chingleput, the records are stated to be in good order. In accordance with the request of the Collector, the Board authorized the sale as waste paper of the old Sayer Accounts and correspondence which were reported to be useless, as also the old revenue and Salt records, with certain exceptions. With the view of preventing an improper use being made of these papers, they were ordered to be

Fort St. George 27th October 1853.

be effaced before being sold. On the 21st April 1853, the Board also recommended for the sanction of Government an Estimate of Rupees 88-12-0 for binding a portion of the English records.—

North Arcot. 12. The Huzzoor English records of this District which were once much out of order, are now in course of arrangement, and considerable progress has been made in the work. The native records are scattered and are in a confused state, but to restore them to order, the Collector has employed 4 Gomastahs paying them from the sums realized by the sale of the useless records whose destruction was sanctioned by the Board. These Gomastahs commenced their work in July 1849, and out of 4,620 duftars had sorted and indexed 2,750 up to the end of 1850. It was expected that the completion of the whole would have been effected in another year. These proceedings are Approved of and recommended for the sanction of Government.—

13. The Talook records of the District are reported to be in bad condition, no place being specially allotted for them in the Tahsildar's Cutcherries, and no person

person being specially charged with their custody. Hence the Collector recommends that Sanction may be granted for his supplying each of the Talooks with two Duftar-stands at a Cost of 12 Rupees each or Rupees 336 for the whole of the 14 Talooks. which proposition appears in the opinion of the Board worthy of adoption.-

South Arcot. Salem. Trichinopoly

14. In the 3 Districts noted in the Margin, the Huzzoor records both in English and Vernacular are stated on the whole to be in good condition, with the exception of the Talook Catcherry papers in Trichinopoly, regarding which the Collector observes that he cannot make a favorable report. The state of the Talook Records in South Arcot has not been communicated nor has the Collector noticed the condition of the old Pymash Account and of the Duftar No. 5 of the Pymash and Khaitwar Accounts of the Trivady Talook. He will now be requested to state what measures he would propose for their restoration. Certain useless documents in South Arcot were authorized to be destroyed agreeably-

In Cons: 7th August 1851.

agreeably to a list forwarded by the Collector with his letter of the 25th July 1851. A similar request was made by the Collector of Salem, but as he has not yet submitted a Statement of the documents he wishes to get rid of, no definite orders have been passed on the subject..

Tanjore.

15. In Tanjore, the Collector reports that great care is bestowed on the preservation of the records both in the Huzzoor and Talook Cutcherries, and consequently that they are, generally speaking, in good order. The survey accounts however are stated to be considerably damaged from constant references being made to them, and to be daily becoming more imperfect. The recopying of these important documents is now in active progress under the sanction of Government of 18th October 1851.-

In Cons 23rd Oct. 1851.

Madura.-

16. In Madura the records English, Hindoovee and Tamil, are in good order with the exception of the Hindoovee papers prior to 1813, and Tamil, prior to 1826, which are reported to be in a consumed state, but for the classification of which extra Goomastahs have been entertained, some old important accounts relative to the settlement of

Fort St. George 27th October 1853.

of the Dindigul division are also wanting. The Collector states that there are 30 Persian Duftars relating to the early period in which business was transacted in that language, and as there is no one on the establishment who understands Persian, he solicits Authority for the temporary employment of a person acquainted with it and Tamil to make a short abstract of the contents of each paper in the latter language. The Board Approve of this suggestion and think that the Collector might be authorized to incur the charge and include it in the Annual Statement of extra establishments. A list of all useless papers which might be dispensed with should be prepared at the same time. The Board also see no objection to his proposal for employing persons qualified to act as Dufterbunds, but any change in pay or Official designation will require the sanction of the Supreme Government. –

Tinnevelly. 17. The English records are reported on the whole to be in good order and preservation with the exception of the defects formerly brought to notice

In Cons: 6th March 1837. by Mr. Eden under date 20th February 1837. but

but the native records are stated to be in considerable disorder tho' in good preservation. For the rearrangement of these, for which the ordinary establishment is quite inadequate, the Collector submits a proposal for the entertainment of a temporary establishment at an expense of Rupees 990, which as being a necessary measure, the Board would support. –

18. The last time the records of the District underwent review was in 1841 when an expenditure of Rupees 1,096-2- was incurred under the Sanction of Government for arranging the documents, and 10 years previously to that an additional establishment was entertained for a similar purpose at a charge of Rupees 2,582-8-3. Under these circumstances the Collector proposes that an annual allowance of 60 Rupees should be granted for the employment of two temporary Gomastahs for 3 Months on 10 Rupees a Month each to sort the documents and place them in proper order, making catalogues at the same

time of the new papers and Cadjans which have become records in the Course of the year. It is observed that each Department delivers over its papers for records unar= =ranged. This the Board think might be avoided and the Department severally directed to make over their Dusters in some regularity at least to the extent of each record being handed in complete and its Enclosures properly assorted and the Board would wish the Collector to order this plan to be pursued. By adopting this course the Board think that the proposed Annual expenditure of Rupees 60 will not be necessary.-

Coimbatore Malabar.

19. In Coimbatore and Malabar, the English and Native records are reported to be in good order, but the Collector of Malabar complains of the want of an Index. With regard to the old records, i.e. those extending from 1792/93 to 1815/16, he also states that they are not in such good order as he could wish, though some of the English documents have been partially recopied

recopied & restitched. The work of Copying the Ancient Jumma Abundy Accounts of the District which was sanctioned by In Cons 14th Aug.t 1848- Government on the 4th August 1848 has progressed very satisfactorily and the Collector promises to report upon them shortly.-

Madras.

20. The records of the Collectors Office in Madras are reported to be (gene= =rally speaking) in good condition. On the Application of Mr. Hudleston, certain old records of the Sayer Department were authorized to be destroyed agreeably to a list furnished by him on the 29th In Cons 25th Oct.r September 1852, and new Bureaus and 1852- Trunks have been provided for the better preservation of the rest. In the Coll.r of Sea Customs Sea Customs Department also, the records of every description are stated to be in good order.-

Canara.

21. The Hoozzoor records of this District prior to 1836 were destroyed during the insurrection of 1837, but those of that year and of subsequent date are complete, and are carefully bound

bound up, and preserved in Shelves. The records of the Sub Collector's Cutcherry are also reported to be in good condition, but those of the Head Assistants are partially injured tho' not rendered useless.-

22. The records of the Talook Cutcherries, are represented to be generally in a less satisfactory state owing to the inadequacy of the record establishments, which have been totally unable to keep pace with the great and rapid increase of business that has occurred within the last few years, and the Collector therefore submits a tabular Statement of the additional Servants which he considers necessary. Mr. Maltby's representation appears to the Board to be well founded. The yearly increase to the already large accumulation of records require in most Districts that additional means should be provided for arranging and

and taking care of them, but the circumstances in Canara make it the more peculiarly urgent there. The people are incessantly litigating about land, and the applications for documents from the Collectors, and Talook Cutcherries are so numerous that it is almost impossible to attend to them. This renders it often necessary to employ Domedwars, or the lowest paid servants to search the records, and it is not unfrequently that they are tampered with by such people. Both the Hoozoor and Mangalore Talook Establishments especially require strengthening.-

23. It will be observed from the enclosure to the Collector's letter that he recommends the appointment of "Record Keepers" in the Talook Cutcherries. Mr. Maltby seems to overlook the fact that the Talook Sheristadar is as the name implies, properly the record Keeper, and tho' these Servants have long been employed more in the Capacity of Deputy Tahsildars, they are still, the heads of

the

the record Department in the Talook's. The Board therefore think that additional Gomastahs to aid them are all that need be granted; and if the Government concur in this opinion they will call upon the Collector to submit a revised tabular statement of the additional strength that may be considered absolutely necessary.

24. The reports thus detailed shew that the Native records, Hoozzoor and Talook, in many Districts require arrangement more or less, the exceptions being noted marginally. The rapid increase of the records, and the want of room for their accommodation appear the main evils to be combated, and with a view to partial remedy the Board would recommend that each Collector should report at the end of the year or of any other period rendering the measure necessary, what records it would be unnecessary to retain. Many of the Police and Revenue investigations which often spread over an extensive record, & of which an abstract is preserved in the respective Diaries might, the Board think, be destroyed as much might be effected by the authorities discouraging as far as possible the tendency to amass records which every Native Cutcherry is so prone to indulge.

25. The construction of new Presses at Bellary at an expense of 1412-12-- -

27. The sale of useless records in Cuddapah & application of the proceeds in the making up of records

28. The entertainment of 4 Goomastahs in North Arcot remunerated from the sale proceeds of the old records and the expenditure of 336 Rupees for 2 Duffer Stands for each Talook.

29. The employment in Madura of a person to examine with Persian & Tamil for abstracting the contents of 30 Bundles of

30 A temporary Establishment in Tinnevelly at an expense of 990 Rupees for the rearrangement of the records.

31. Additional Gomastahs in Canara for preserving the Talook records in proper order, estimate for the same to be here after submitted by the Collector.

From the above it will be observed that the items of "Permanent Peishcush" "Tobacco" and "Sevoy Jummah" above exhibit a falling off.

The Net decrease of Rupees 95,987 under this head consists of a Gross decrease of Rupees 77,052 in 5 Districts and a gross increase of Rupees 1065 in 2 districts. The decrease in 4 of the 5 districts proceeds from the incorporation of certain Estates with the Iyen lands and in Rajahmundry from 6 Lists of the Venkatiah Pollium estate which reverted to Government in Fusly 1261 having been previously included in the demand for that Fusly, while the increase arises from the progressive Annual increase of Rupees 1000 in the Poonganoor Peishcush in Cuddapah, and from the incorporation of the Nateurnum revenue with the Iyen in Tanjore in the Fusly under notice.

There is a Net Increase of Rupees 970 in this item, consisting of a gross increase of Rupees 1002 in 2 + Districts, and a gross decrease of Rupees 32 in one. The increase is attributable to the transfer

Transfer to this head of certain Permanently rented Villages in Ichinglepat and to some Farms in Malabar having realized more favorable rent, while the decrease in Nellore results from the transfer of certain Villages from this head to one year's rent. and Vice Versa.

5. Under this head there is a net excess of Rupees 4,83,735 proceeding from a gross increase of Rupees 7,77,058 in 13 districts, and a gross decline of Rupees 2,93,323 in 8 districts. The increase is owing to the transfer of certain Estates hitherto under "Permanent Peshcush," to increase in the cultivation resulting from the favorable Character of the Season, to a decrease in the remissions, to the incorporation with Iyen of Davastanum and Village and Naut Curnum revenues to the increase of price in Tanjore; to the increase of wet cultivation in Bellary and Cuddapah districts, consequent on the repair and improvement of Tanks Rs. Nullahs &ca which had been injured during the storm in May of Fusly 1261. and lastly to the system of joint rents

rents which is being brought into operation, and the levy of Seerwahjastee on lands irrigated by the Godavery Channels in Rajahmundry. The decrease in 8 districts arises from a falling off in the cultivation in consequence of the unfavorable nature of the Season; from an increase in the Amount of remissions for Shavy &ca and lastly to the loss and distruction of Crops and property, and the damage caused to the Sources of irrigation by the Storm and heavy flood of October 1852, and March 1853.

7. The Net increase of Rupees 344 under this head consists of a gross increase of Rupees 69,444 in 11 districts, and a gross falling off of Rupees 68,870 in 9 districts. The increase is owing to the Ab Parry tenders in some districts having exceeded those of the last year, to the progressive increase in the three years lease; and to an increased consumption

consumption in Madras. The decrease proceeds from lower offers of Ab[t] Rarry rent, and from the mass of the working population in Rajahmundry having left, on the completion of the Godavery Anicut, for the Masulipatam district in order to be employed on the construction of the Kistna Anicut.

8. The net increase of Rupees 2,974 under this branch of Revenue arises from a gross increase of Rupees 10,002 in 11 districts and a gross diminution of Rupees 7,028 in 9 districts. The increase is owing to increased offers of rent; to the transfer to this head of certain items which had hitherto been entered under Land Revenue; to the augmented sales of firewood at Streehurry Cottah in the Chingleput district, and of Ameen Devi Coir in Canara; and lastly to the importation by Cochrane's Canal of a larger quantity of Shells and brushwood into Madras.

9. The decline is attributable to a decrease in the offers for rent,

to the erections of bridges over the Cavery and Bhawany Rivers, which caused a falling off in the Revenue from ferries in Coimbatore; and lastly to the transfer, under the orders of the Board and Government, to the head of Extraordinary, of the Revenue from new Topes in Bellary.

Vide Board's Proceedings 23rd August 1852. From Government 10th September 1852.

Motur pha 10 There has occurred under this item a Net increase of Rupees 11,744 arising from a gross increase of Rupees 15,446 in 16 districts, and a gross decrease of Rupees 3,702 in 3 districts. The increase was caused by a rise in the number of looms, Sheep, certain professions and trades, and in the amount of house tax, while the decrease originated in the usual fluctuations caused by death, absence, change of livelihood, and from the allowance of remission in Cuddapah to Parties who had sustained losses during the late inundation in that district.

of Rupees 104298 in 13 districts and a gross increase of Rupees 21493 in 8 districts. The bulk of the decrease belongs to Tanjore, and is owing to the entry under this head in last years Accounts of certain unclaimed Ayacut Maneams, lapsed Grants and "Surplus Village and Nat Curnum revenue," whereas in the year under notice, the allowances of the deceased Vea Maneandars alone have been carried to this head. The fluctuations in the other districts do not call for remark, being small, and of a temporary Character.

Rajahmundry Rs. 53,534.

21 A great part of this sum, it is stated, will be recovered before the transmission of the Jummabundy report, when the recoverable and irrecoverable balances will be clearly specified.

Masulipatam Rs. 37,503.

22. The bulk of this balance stands against Bunder & Co. Taloo Rs. and measures have been adopted by the Collector for its speedy recovery.

Guntoor Rs. 62068

23 Of this balance, a portion (Rupees 31669) is allowed to lie over on account of Quit rent on Enam lands uncultivated, Shrotriums, on Agraharams under dispute, Mundra or Cowle lands of persons performing the duties of Curnums and on account of Salaries to Village Moonsiffs. The remaining balance

balance is mainly in consequence of the reduced circumstances of the ryots in some Taloo Rs. who have suffered much from successive bad seasons. Of this, however a portion is stated to be shortly recoverable.

Chingleput Rs. 194,624

24 This balance is attributed to the necessity of a relaxation in the Collections, in consequence of the depressed state of the Grain Market, and the heavy losses sustained by the ryots from inundation &c. which totally or partially destroyed their produce, and rendered what was reaped unsaleable.

Nellore Rs. 59,478

25. Of this balance, the recovery of a portion Rs. 25000, the Collector states is doubtful.

North Arcot Rs. 71571

26. The greater portion of this, the Acting Collector says, will be realized by November ensuing.

Tanjore Rs. 3,43,835

27. Mr. Forbes states that of this arrear, the sum of Rs. 61914 will be collected. The greater portion of the remaining balance he has recommended for remission in consequence of the excessive damage and loss created by the hurricane of March and his report is now under consideration.

Salt Rs. 1780.

28. This sum which outstood in Tanjore at the end of August 1853 has since been recovered.

Ab. Carry Rs. 2461.

37 In the Land Revenue there is a net decrease of Rupees 210842 in the Collections of arrears &c resulting from a gross decrease of Rupees 397782 in 11 districts and a gross increase of Rupees 186940 in 10 districts. The decline arises from the arrears to be Collected being of smaller amount this year than in the last.

Current Collections Fusly 1261 34802879 Fusly 1262 34726717

33 The net falling off of Rupees 136162 in the Current Collections under the same head proceeds from a gross decrease of Rupees 599349 in 12 districts, and a gross increase of Rupees 463187 in 9 district.

34 The following are the districts in which there is the greatest falling off—

Ganjam Rs. 21318.

35 The decrease in this district is attributed to the non realization within the Fusly of the Peishcush of certain estates.

Chingleput Rupees 160956

36 The falling off in this district is ascribed to the diminished ryotwary demand and the losses caused by the depressed state of the market. and by inundation as is already

already noticed.—

Nellore Rupees 79484

37 The decrease in this district arises from decreased demand and the loss sustained from heavy rains at the time of harvest.—

North Arcot Rupees 46263

38 The decline in North Arcot proceeds not only from the diminished demand, but also from the remittances of certain Talooks not having been received within the Fasly.—

South Arcot Rupees 34552

39 The falling off in this district is ascribed to the decrease in the Settlement itself.—

Tanjore Rupees 8671

40 The decrease in this district has arisen from the suspension of a portion of the demand on account of the various losses sustained by the Ryots from the Storm of March last.—

Trichinopoly Rupees 59128

41 The diminution in this district arises from the less punctual realization of the Kists owing to the Hurricane of March last as also to the non payment of the Peishcush of Rantopootoor Mootah is within the Fasly.—

Canara Rupees 89845

42 The falling off in this district is ascribed to the system newly introduced under the Board's instructions of bringing to account only such Talook remittances as were actually received into the Hoozoor Treasury within the Fasly.—

Bd. No 2868

From the Collector of South Areot } To B. Cuniffe Esqr Acting Secretary to the Board of Revenue Fort St. George Sir.

Affording the information called for by the Board regarding the rules which prevail in this District for the Regulation of private Wells.

I have the honor to acknowledge your letter of the 22d August last, with its enclosures, and proceed to offer the information called for by the Board regarding the rules which prevail in this District for the Regulations of private Wells.

2 The Hookoommanah contains no rule forbidding the people to sink wells within a fixed distance of public works of irrigation or other private wells – I do not find that any disputes on this point between private individuals have been brought before the District authorities for adjudication, and to protect the Government interests it has been the practice to charge the usual Kuffer, or water tax, in all cases when wells are sunk in Poonjah land so near a Government channel or Reservoir as to be evidently intended to draw their supply from

from that source and thus defraud the revenue

3 It has always been the practice in this District to allow the people the full benefit of their outlay of labour and Capital in sinking wells on private lands, and the extent to which this privilege had been made use of is shown in my Predecessor's letter of the 12th April 1849.- The wells which then existed and shown the Margin but it is proper to observe that many of them are sunk in Nunjah fields to supply a deficient irrigation-

Wells of rough stone		8773
Masonry	Do.	5246
Wells supported by earthenware rings		111
Wells in Rocky or stiff soils without masonry		2,849
Brush wood	Do.	1,100
		18079

4. After giving my best attention to the subject I cannot propose with confidence any rules defining the distance from other wells or public irrigation works within which it should be forbidden to sink new wells- The many descriptions of soil, the varied nature of the irrigation works and the effects of difference of level appear

appear to me to offer at least as much difficulty as is described in Captain Bird Smith's observations on the irrigation of Lombardy, and I conceive that the course to which the authorities have returned there, and which has always been followed in this District, of settling each question as it arises by local enquiry and the opinion of practical men, must be continued .. If however it is considered indispensible to frame rules I would suggest 1st. that no Poonjah land on which wet crops are raised should be exempted from Russer on the plea of its having a private well, if from the level and situation of the land water can flow to it from a Government channel or reservoir, and 2d. that when no such flow of water takes place wells may be sunk at distances of not less than 50 yards from the Government irrigation works.

5 The brush wood wells alluded to in the concluding part of your letter are chiefly made use of in the Sandy tracts of Poonjah land along the coast, where water is

is found near the surface. It has always been the practice of the District to leave them untaxed, and I trust that this arrangement will not be disturbed, as the Government is at no expense for the water thus obtained and the Ryot has to keep the well in continual repair after it is sunk and to incur the labour of raising water from it for his field by a Pecottah.
