N° 1125

Extract from the Minutes of Consultation Revenue Department, under date the 21st December 1853.

Read the following letter from the Commissioner for the Northern Circars.

/Here enter 5th Dec° 1853 N° 1151

The Right Honorable the Governor in Council entirely approves the proceedings of the Commissioner for the Northern Circars as reported in the above letter. He earnestly hopes that the season both Ganjam and the other Provinces within Mr Elliots range may prove to have been less unfavorable than has been represented. There can be little doubt however that large

large assistance will be required and he is most anxious that every relief should be given to the people which circumstances have rendered necessary. He fully agrees with the Commissioner that it is incumbent on the Collectors and their Assistants to satisfy themselves as far as practicable by personal inspection as to the extent to which the country under their charge may have suffered from the failure in the Northern East Monsoon, that it may be ascertained where relief is really required and that means may be taken to ensure its reaching the objects in want of it.

2. The Commissioner will keep Government informed of the progress of the season and of any measures which may be required in consequence.

From the Sec.y to Government } Read the following Extracts No. 32 Extract from the Minutes of Consultation Revenue Department under date the 6th January 1854.

Stating that succession to certain Enams with mentioned will be regulated by the same laws that govern the inheritance of Malgoozary Lands

Read the following letter from the Secretary to the Board of Revenue- / Here enter 5th Dec.r 1853 No. 566 /

Para 1. "An Extract Minutes of Consultation

Consultation 16th July 1853 para 1 it was laid down that Enams of the description therein alluded to could only revert to Government by escheat as other landed property would on an utter failure of heirs entitled legally to inherit- The Order passed by Government in the next para on one of such Enams; Viz.t that if the adoption that had been set up should prove to be invalid the Enam was to be treated as an escheat, must be taken with the same qualification Viz.t that there were no other persons of Kin to the deceased Enamdar entitled to inherit his property generally-

Lands and that Government would take the former as escheats under the same circumstances as they would take the latter-

It now seems that the adoption

2

alleged in this case is illegal and that according to the opinion of the Pundits of the Court of Sudr Udalut the Sons, grandsons, or other heirs of the divided brother of the Widow's husband are entitled to inherit the property of the latter, in preference to the Widows adopted Son-

It is not clearly stated whether

3

these Sons grandsons &c. have an absolute right to inherit the landed property (am) of their divided Uncle or grand uncle- They are only said to be entitled to inherit in preference to the party claiming by the invalid adoption- If however as is rather to be inferred they have such absolute right that is if any Malgoozary Lands

lands which they divided relative might have had would by the Hindoo law have passed to them rather than fallen into Government as escheats then they will take the Enams also

2. The same principle will be acted upon in all similar cases. Succession to Enams of the kind now under discussion will be regulated by the same laws that govern the inheritance of Malgoozary lands Government will take the former as escheats under the same circumstances as they would take the latter and under those only"

From the Secy. to Government

Publishing a Notification relative to the introduction of Act XXVI of 1850 into the Town of Vellore its Suburbs appointing Commissioners to put it in force, requesting the rules drawn up by them be submitted for the approval of Government and passing Encloseds thereon on certain Petitions.

Extract from the Minutes of Consultation Under date the 10th January 1854.

Read the following letter from the under Secretary to the Government of India -

/Here enter 25th November 1853 No. 999/

The Right Honorable the Governor in Council has already in Extract Minutes of Consultation 25th October last recorded his reasons for believing that a majority of the Inhabitants of Vellore and its suburbs are favorable to the adoption therein of the provisions of Act XXVI of 1850. From the above letter, it appears that the same conclusion has on perusal of the papers submitted to them been arrived at by the Government of India who have given it as their opinion that the Act may be at once introduced under these circumstances the Right Honorable the Governor in Council resolves under Section IV of the Act to publish the subjoined order in the Government Gazette and to direct that it be notified by beat of

of Tom Tom throughout the said Town and Suburbs and that Copies of it be affixed to the Office of the Head Assistant Magistrate, to the Thasildars Cutcherry, the Cutwalls Choultry and to other places of public resort.

2. The Governor in Council further resolves to appoint the following persons to be Commissioners under Section VI for putting the Act in force within the said Town and Suburbs, and to authorize them to prepare Rules for more effectually accomplishing the required object.

The Magistrate for the time being of North Arcot.

The Head Assistant Magistrate resident at Vellore

M. R. R. Vydhiam Sheshiah
Kurashi Ali Sah
Kalie Lalah
V. Seetharam Moodiliar
C. Govinda Moodiliar
Deshai Narrain Chetty
Poul Ramia Chetty
Shroff Comarasawmy Chetty
P. Cundapah Chetty
M. Vyapoorie Chetty

3 The Governor in Council desires that the

the Rules prepared by the Commissioners be submitted for the approval of Government

Ordered that the following Endorsement be passed on Petitions &c. noted in the Margin and that they be forwarded to the Head Assistant Magistrate for delivery to their authors.

B. of R. B.

From the Collector of Rajahmundry

Sir,

With reference to my letter of the 6th Instant I have the honor to state, that being unable to spare my Head Assistant from his ordinary duties to proceed to Kurnapoor for the purpose of adjourning charge of the Sub Division I directed the Sub Collectors Establishment to join him here. The Avozoor Cutcherry being insufficient even for my own Establishment he has been obliged to provide accommodation for the Sub Collector at his own expense and I therefore request that he may be authorized to draw the Extra Tent allowance of Sub Collector during the period he

he may remain here incharge of that office.

No. 24

To,
W.m H. Bayley Esq.re
Secretary to the
Board of Revenue
Fort St. George

Sir,

20

B.d No. 222

From the Magistrate of Masulipatam, Dated 9th Soliciting sanction for the Employment of additional Peons in his District for its protection.

On the 9th Instant I reported to the Government that I had just received a letter from the Head Assistant Magistrate from Bezwadah, reporting to me that he had received a report that on the night of the 5th Instant, a large band of Robbers armed with Match Locks, Swords, Spears, hatchets &c.a had attacked the Talook Cutcherry at Nundegamah, a Village only 6 Miles from the Frontier of the Nizam's Territories, had wounded and overpowered the small guard of Peons, had broken open the Cash Chest and carried off Government Money amounting to Rupees 8637-14-3, together with Rupees 300 belonging to the Tahsildar and the Swords of the Peons. The Talook was under the charge of Mr. Sweedie, who proceeded to the Spot, and has since submitted to me the result of his investigation upto the 11th Instant, on which I have addressed the Court

f.

of Fowzdary Adalut in order to obtaining sanction for the offer of a higher reward for the detection and apprehension of the robbers, than a Magistrate can proclaim of his own authority.—

2. The loss of Government money was at once reported to the Commissioner for the Northern Circars. I now address the Board because I feel that, where a robbery of such a daring character has been carried out with such entire success, a fact which will embolden all other Marauders and lawless characters whether in this District or in the Nizam's Territories beyond our frontier, from which this Band appears to have come; the small Police Establishment of this district is utterly inadequate whether to check the inroads of robbers, or successfully to follow them up, and apprehend them when escaping with their booty. Immediate measures were taken after the receipt of the intelligence of this robbery to place all the Talook Cutcherries where danger might be apprehended, in a State of security by obtaining small Military Guards for 5 of them. Of 3 others, Jaggapett Ellore and Sirwoor there were already small

small Military detachments. The arrangements which I have made for the other Talooks will prevent more than a few hundred Rupees being hereafter in the Cash Chest for more than a day.—

3. Several other serious Gang robberies have taken place, one apparently by the same gang which attacked the Nundegama Talook Cutcherry at Sooram-paud in the Bezwadah Talook on the other side of the range of Hills from which they appeared to have descended. I see no reason to doubt that these Marauders came from the Nizam's Territories, and that we shall soon hear of them and of other gangs again. The entire strength of the Police Establishment in our 4 Talooks which have the Nizam's Territories on their frontier, is shewn in the margin. The actual extent of the Frontier bounded by the Nizam's Territories traced in the map is 195 miles. This does

	Buffaloes	Escorts
*Jaggiapett	2	30
Nundegama	1	24
Sirwoor	2	38
Bezwadah	1	28

*Hykaloor
Pentapaud
Goodewadah
Bezwadah
Nundegamah

does not include the 2 distant Zemin-
-daries of Mooneyal and Lingagery-
which are surrounded by the Nizam's
Territory, the nearest point being 10
Miles from our Frontier. The Police
charge of these Zemindaries is included
in the Jeggiapett Talook.

4 This limited number is alto-
-gether inadequate for the efficient discharge
of Police duties in troublesome times, such
as appear now to be approaching from the
state of scarcity prevailing in the District
beyond our Frontier. Inadequate in my
opinion at any time to form a really ef-
-fective Police it is especially so at pre-
-sent. In every one of these and of other
Talooks from which forced labor has
to be sent for the Bezwadah anicut a
great number of Peons are engaged in
procuring supplies and Coolies.

To Board of Revenue 14th November 1832
From Dr 17th Decr enclosing extract from a letter from Govt dated 7th Decr 1832

5 If the Board will refer
to the correspondence from this District
when the scarcity was commencing in 1832
they will see that 200 additional Police
Peons were allowed at that time, the
Military Detachments in the Frontier
Talooks were both considerably more
numerous, and more strong than at pre-
-sent. There were 8 Military posts in
these 4 Talooks. I trust that there is no
fear of matters now becoming as serious
as they were at that time; but after the les-
-son which we have received in this dis-
-trict, and with the reports prevalent that
-ing attack upon a Talook Treasury,
with Gang Robberies in other parts of the Dis-
large gangs are assembling beyond the
Frontier, we cannot too soon strengthen our
Police. With this view I beg to recommend
that I may receive authority for entertaining
additional Peons to the extent, if requisite, of
150, and 10 Duffadars. Finding the wretched
state of the Talook armouries, I have alrea-
-dy indented upon the Commissary of Ordnance
at Masulipatam for 100 muskets and Fuzils for
distribution

distribution to the Talook Treasuries. My Head Assistant is at Nundigamah. The Special Assistant is in the Sirwoor Talook, and I have now called on both of them to endeavour to raise among the Shikaree population and among the old race of Cuttobady Peons a body of men more fitted to contend with robbers than the miserable set of Peons drawn generally from the Town of Bunder deficient alike in strength and courage and utterly untrained to arms who form the principal portion of the Talook Peons-

6. Sensible of the extreme importance of at once checking these gang robberies and feeling that to effect this, the Police on the Frontier must be materially strengthened, I have on my own responsibility authorized the Head Assistant Magistrate to raise, provided he can at once find, well armed and trustworthy men, as many as he may think necessary not exceeding 15 to 20 in each of the 3 Talooks of Juggiapett, Nundegamah, and Bezwadah, and for the Sirwoor Talook, I have authorized the Special Assistant Magistrate to raise any

any whom he may consider necessary below 40. In the Sirwoor Talook there are numerous Cuttobady Peons who are liable to serve in defence of their own Villages- I consider that men selected from this class for service in their own Talooks should receive 2½ Rupees per month and others who have no Mauniems 5 Rupees per Month- a copy of Paras 3 and 4 of my letter of this date to the Head Assistant Magistrate, is forwarded for the information of the Board, and I trust that they will approve of the step which I have taken and obtain the sanction of Government for the expenditure which may be requisite- should 150 Peons be sanctioned as a temporary measure the Government may rely on my not enrolling more than may be necessary and upon my dispensing with their services as soon as I may consider it safe to do so- One cause of our Police Peons being of such an inferior class, is the inadequacy of the pay to Rupees and I am sure that 5 Rs per month is only barely sufficient to secure men well qualified for Police duties, especially in reference to the present dearness

To the Duffadars I would give Re 6-----

dearness of provisions.

7- I sanscerely hope that we may be able to discover, trace and arrest the leaders of this bold band of Robbers; but to effect this and also to check the further inroads which such a succesful foray is calculated to lead to we cannot too soon strengthen our Police, and I trust the Board will at once submit my proposal with their recommendation for the sanction of Government, and also obtain sanction for the expense which may have been incurred before I can receive the orders of Goovtment.-

8 Should the Board wish for further information about this robbery the apparent route of the Robbers and the difficulties we have to contend with from the character of our present Frontier; I beg to suggest your obtaining from the Court of Fouzdary Adalut the letter addressed by me to the Register yesterday or if requisite copies of Mr Sweedies Report can be forwarded hereafter.-

Masulipatam,
Magistrate's Court
at Vizziaswcram
14th January 1854.

(Signed) T. D. Lushington
Magistrate

Extract

No 1

Extract from a letter from T. D. Lushington Esqre Magistrate of Masulipatam to A. G. Sweedie Esqre Head Assistant Magistrate Masulipatam, dated 14th January 1854.-

Para 3. I have no authority to add a single Peon to the inadequate Establishment of this District, but as I am applying thro' the regular channel for sanction for an increase, and it is to be feared that every successful gang robbery in this District will tend to encourage further outrages of similar character, it appears to me desirable at once to authorize you on my own responsibility to raise from 15 to 20 Peons in each of the Talookes of Suggipett, Nandigamah and Bezwadah, provided you can at once obtain well armed and trustworthy men fit for the office. They should be employed solely in watching the frontier, obtaining intelligence of the gathering of any bands of robbers, promptly following up robbers in the event of any entering the district, be capable of acting either in concert or independently, and a Jamadar or Duffadar should have the control of them under your orders. Similar arrangements should be made in Sirwoor, and I shall forward a copy of this letter to the Special Assistant Magistrate at Nikarwar there.

the Juggiapett frontier is only 4 Miles from that of Tiruvoor across a narrow strip of the Nizam's Territory, running nearly 30 miles in length into this District giving a border between the two points of 70 miles. This intra-sive portion of course renders effective Police supervision far more difficult, and this portion of Territory cannot be too closely watched, and I trust that in communication with the Special Assistant Magistrate you will make arrange-ments best suited to effect this. The range of hills between the Nundegamah and Bezwadah Talooks thro' which the gang of robbers, who attack-ed the Nundegamah Cutcherry would appear to have passed, is an admirable place for robbers to mature their plans and to secret themselves, and the ap-proaches to them should be carefully watched.-

4- I have not present in the Cutcherry here as there ought to be a return of the Cutto-lady Peons of the Talooks Bezwadah, Nunde-gamah and Juggiahpett should you select Cuttoolady Peons possessed of Manieam lands. I consider that Rupees 2½ per month ought to be a fair remuneration for their services when espe-cially called on to do duty. For other classes provided they are well qualified for the duty and sufficiently armed, I propose that 5 Rupees per month should be paid to them.-

Total	648573 11 8	570843 2 1	1765 15 5	79496 9 "
		Decrease Increase	1765 15 5	
		Net Decrease	77730 9 7	

Salt

2. The collections on account of Salt amounted to Rs. 505366-4-5 or Rs. 79484-3-10 below that of Fusly 1261.-

3. The principal decrease was in the Inland sale and Exports by Sea - the decrease in the Inland sales occurred in the 3 divisions noted in the margin particularly in Pauderty where in the preceding year several heaps appearing to have been considerably damaged by the gale.

Pauderty
Doogarazpatam
Fusly

the gale of 6th and 7th November 1851, the salt was sold off in entire heaps after immediate measurement on a reduction of 6 Rs. per Garce, but this proceeding was discontinued by orders from the Board as noticed in their Proceedings for Fusly 1261. The salt merchants having been attracted to this Division by the favorable rates, when these were discontinued, reverted to the Cotaurs in Guntoor which they usually frequented and in which the sales it is stated, have largely increased.

4. In Doogarazpatam the decrease is attributed to some of the merchants who usually resorted to these pans from Bellary Vizg not having done so in Fusly 1262, in Consequence of the heavy rains and inundations of the year, and in Tada the decrease is ascribed to the manufacture having been interrupted by rain, so that the small amount stored was sold off three months before the termination of the Fusly.-

5. The falling off in the Exports by Sea arose from no salt whatever having been exported to Chittagong and from less shipment to Calcutta the salt exported in June last for the supply of Madras, having been charged with only the cost of manufacture and charges, caused a further decrease under this head.-

The

b. The total quantity of salt manufactured during the years was Indian Maunds 4,20,972-24 the Season not having permitted the manufac:=ture of the entire quantity ordered, the amount in store at the end of the fusly was Indian Maunds 7,84,759-11-0-

Sea Customs. 7. In Sea Customs there has been a net decrease of Rupees 12-5-2. arising from an increase of Rs. 160-14-9 in the imports of rice and paddy from Arracan and a decrease of Rs. 173-3-11. on the exports of Salt-petre to Pondicherry.-

Ab Karry. 8. There was an increase of Rs. 637 under this branch of revenue and is attributed to higher offers having been received in this fusly than was the case for the previous one.-

Small farms & Licenses 9. The increase under this head calls for no particular remarks.

Stamps 10. The increase of Rs. 591 in stamps arose from the large number of Suits filed and to a greater number of Deeds registered in the Courts.-

Moturpha 11. Under this head there was an increase of Rs. 556-7-5 above the demand of the preceding fusly and is attributed chiefly to the augmentation on the trading Comaties and on the looms of weavers.-

12. Of the arrears under this head for former fusles Rs. 160-6-1- are stated to be "irrecoverable" and for the reasons given, the Board would recommend the writing off of that sum.-

13 Of the total demand Vizt. Rs. 5,70,843-
2-1 the sum of Rupees 5,68,984-12-9. was collected within the

the fusly leaving a balance of Rs. 1858-5-4. still to be realized.-

14. The Charges amounted to Rs. 69,731-9-6- or Rupees 8,329-2-4 below that of the preced:=ing year- the decrease appears Chiefly under the head of Salt and was caused by a smaller quantity of Salt having been received into Store, lessening proportionately the amount paid for manufacturers' share, and by the limitted exportation of Salt to Calcutta, as well as by the Madras merchant having borne the Shipping Charges himself.

15. The whole of the Collections including Current, Extra and Arrears Amounted to Rupees 5,72,959-5-5. from which the above charges being deducted there remains a net revenue of Rs. 5,03,227-11-11. or Rs. 69,822-6-4 below that of fusly 1261.-

16. The petty details entered in Paras 3 (a) 16 may in future be omitted, or maybe shewn generally in the Statements. Instead of marginal entries of the Collections and Balance of each item in the Series, a general Statement of such at the conclusion of the report, giving reasons for any extraordinary balance, would be preferable.-

Ordered that a Copy of the foregoing Extract with the annexed Comparative State:=ment of the Collections, Charges and Net Revenue be Submitted to Government and a transcript of the same be furnished to the Collector of Nellore.-

No. 3.

To. W. H. Bayley Esqre
Secretary to the Board of Revenue
Fort St. George

(23)

B. No. 142.
From the Collector of Nellore — Forwards for the Sanction of the Board of Revenue Copy of a Memorandum from the Acting Sub Collector soliciting permission to grant remissions on dry Crops during the ensuing Fusly.

Sir,

Para 1. I have the honor to forward Copy of an Official Memorandum from the Acting Sub Collector of this District requesting Sanction for granting remission on Dry Crops during the ensuing settlement.

2. In consequence of the extremely unfavorable nature of the present season, following as it does one in which the Dry Crops sufferred from unseasonable and excessive rains, I beg to recommend that permission may be granted to allow remission in cases of failure of Dry Crops in this District generally, as appears from the Circular Orders to have been done in Cuddapah and Bellary in 1832 & 33, under such restrictions as the Board may see fit, but perhaps the rule of allowing remission only where the Ryots total ascertained loss exceeds 30 per Cent would be a suitable line to draw. To restrict it to cases of total failure, and demand the full assessment where only a few stalks produce any thing, would press too hardly on the Ryots, & both impoverish them and (after taking such produce as there was) leave large outstanding balances.-

In.

Vide C.O. Book Pages 1154 & 1156.

3. : In conducting the settlement of this Taluk (Toommulcherry) some requests have been made to me for remission on Dry Crops, but though they have not as yet generally failed. rain, which still holds off, is greatly required to bring them to full maturity. The circumstances of the Sub Division both from having had less rain to the Northward and from the nature of the cultivation being generally Dry doubtless more urgently require favorable consideration than some of the Southern parts of the District.-

Nellore District Collector's Office, Podalacoor, 17th January 1854.

(Signed) F. B. Elton
Collector.

No. 38.

Memorandum.-

The Acting Sub Collector being about to enter upon the settlement of his Division for the current Fusly and having but too good reason to fear, that, owing to the extreme unfavorableness of the Season, an unusually large amount of "Metta" Cultivation, will have either completely or in great measure dried up pre reaching maturity, or failed altogether has the honor, prior to so doing,

to

Fort St. George 19th January 1854.-

to solicit sanction for discretionary relax-
=ation of the general, and in his Division somewhat stringently observed Rules, forbidding remission in such cases.-

Casual exceptions, in special instances, and on urgent grounds he should have (and has) himself unhesitatingly made, without doubt or reference, at an ordinary Jamabundy - but, where the probability exists, of so extended a necessity for such, as the coming one holds out he considers it expe-
=dient, that he should previously solicit a proportionately extended authority - and would suggest with reference to the general extreme e-
=adness of the Season, and the consequent severe pressure upon the poorer classes of Ryots, that the ins-
=pection or Aymayishee usually made in the case of "Wet" crops only, should as far as practicable, be extended to "Dry" also. the consequent total or partial remission, or its denial, depending upon the several circumstances of each individual's particular case; into which, of course full enquiry would be made. —

The enforcement at the present settlement of the ordinary system of assess-
=ment on "Metta" Cultivation without reference, however to its results &c

Fort St. George 19th January 1854.-

can only, the Acting Sub Collector antici-
=pates, serve to create a large "irrecoverable Demand."-

As it would be important to take the requisite steps for due supervision and Aymaishee, at once, if at all, the Acting Sub Collector solicits the favor of as early instructions as practicable.-

3rd Do M Venkatnamaniah
4th Do B. Hunsapah
5th Do C Ramachendra row

Decree

1 This Suit was instituted to establish a title to a piece of land (part of No. 104) with tamarind trees, and a ruined Well, attached situated in Cusbah Budwail. East of Anchoo labhaneegoondum - West of 1st Defendant's garden and North of the Channel branching from Nangoola tank, consisting of 10 Koontahs which are assessed at 5/8 fanams and valued at Rupees 150.

2. The Plaintiff 1st 2nd 3d 5th 6th 7th and 8th Defendants, appeared through their Vakeels - The Petition of Plaint was filed in Court on the 17th December 1851.

3. The Plaintiff states, that the

the 2nd and 3rd Defendants, in satisfaction of a debt of Rupees 9-3-2 (the amount of Principal costs &c. incurred in Original Suit No. 55 of 1848, which was instituted against 2nd Defendant by Plaintiff in the Mundealumpett Moonsiffs Court,) sold to him the disputed property, as above, on the 5th Anshadha Soodhum of Keelaka (5th July 1848) executing at the time a deed of sale, on plain papers, by which all right, and title thereto, was transferred to the Plaintiff, who improving it, at an outlay of 150 Rupees and planting thereon fruit trees obtained a Puttah for the same in July 1259 after due admeasurement made by a Canoon and paid the Hist to the Village Officials. That actuated by ill will arising out of a dispute touching division of property. the 1st Defendant (Plaintiffs cousin) in league with the Defendants from 2. to 7. preferred complaints to the said land before the 8th Defendant, who believing the false evidence adduced and not investigating fully Plaintiff's right based upon a deed of sale, cancelled his Puttah in July 1260 for which illegal act, he is included amongst the Defendants.

4 The 1st Defendant, denying the truth

truth of the Plaint, avers that he, on the 2nd Serdanara Baholum of Soobhaconil purchased 1½ acres of land forming part of the said No. 104 assessed at 3¾ Fanams for 150 Rupees of 5th Defendant, who executing a Bill of sale on Stampt paper, formally relinquished his right to the land in Fusly 1252 when the Sub Collector granted the Puttah for it to him (1st Defendant) who has enjoyed it for 11 years paying the Kist, and expending on it about 200 Rupees in improvements &c. - That through orders of the Tahsildar, based upon a petition presented by the 1st Defendant, the 4th, 5th, 6th, and 7th Defendants measuring his land, gave him a Memorandum on the 12th June 1843 fixing the boundaries of the same, and deciding that the waste land could not be exempt from assessment since whether has paid it - That during the Settlement of that year, his Cousin, the Plaintiff, taking advantage of his absence through illness, obtained, with the fraudulent aid of the 4th Defendant, a Puttah for Fusly 1259 from the Sub Collector Mr. Munnoy, who subsequently reversed the 1st Defendant's complaint in this matter

to

to the Tahsildar; on the perusal of the proceedings held by whom, the Acting Sub Collector issued an order on the 19th April 1850, cancelling the said Puttah, and threatening the 4th Defendant with punishment for his misconduct which was confirmed on Appeal by the Collector in a communication to the Sub Collector dated 13th September 1851, pointing out that the value and amount of produce of the land ought to have been specified under Section III, Regulation III of 1802, and that according to Circular Order Sudr Adalut 28th January 1830, the Plaintiff ought to have brought a separate Suit for the outlay expended in improvements; and that he has failed to include the Collector as a Defendant, he questions how the 2nd Defendant could sell a part of 1st Defendants Puttah land, or make any alterations on it without the Knowledge and sanction of the latter.

5. The 2nd Defendant in an answer filed on behalf of himself, and the 3d Defendant, his son, acknowledges the truth of the Plaint - The land in question he avers to have been given to him on marriage by his father-in-law

Anchoobhoy

Auchoobhoy who acquired it under the Mogul Dynasty.-

6 The answer of the 5th Defendant supports that of the 1st.-

7 The 6th Defendant in his answer advancing the same pleas as those urged by the 1st and 6th Defendants, adds that on his questioning the 4th Defendant as to the transaction - the latter said that he would cause a deed of relinquishment to be filed, upon which he (6th Defendant) was silent as the land was situate in a Village not under his Superintendence.

8th The 7th Defendant files an answer similar in every respect to that of the 1st Defendant.-

9 The 8th Defendant in his answer justifies the cancelment of the Puttah in question (which was confirmed in appeal by the Collector) on the following grounds.-

1st The 1st Defendant about 8 years ago acquired 1½ Acres of Poramboke No. 104 for the whole of which he paid assessment, although cultivating but a portion - the 2nd Defendant enjoying the produce

produce of 2 tamarind trees which grew on the other portion of the uncultivated land.-

2nd The 2nd Defendant in satisfaction of a Suit instituted in the Mundialumpett Moonsiffs Court against him by the Plaintiff, executed, in conjunction with 3d Defendant, a deed of sale for 10 Koontahs of land (forming part of that for which 1st Defendant held a Puttah) as also for the two tamarind trees in favor of Plaintiff, who without reporting the matter (as was essential) to the Sub Collector Mr. Murray, obtained through the 4th Defendant, a Cummum, in July 1259, a Puttah for these 10 Koontahs; which he ploughed and planted with fruit trees.-

3d On a complaint preferred by the 1st Defendant, an investigation was made by the Sub Collector, when the 2nd Defendant stated that the Plaintiff included, in the deed of sale the 10 Koontahs of land without his privity, he having mentioned that the two tamarind trees alone were in his possession. The 4th Defendant that on his being told by Plaintiff, of his purchase, he, without reporting the matter

to

to his superior; and in the absence of the usual deed of relinquishment, obtained a Puttah for Plaintiff in July 1259. The 5th Defendant that 8 years ago he sold the land, (1½ Acres) of which the disputed 10 Koondahs form a part, to the 1st Defendant for 150 Rupees; and that when objections were raised in July 1259 by him, and his fellow Cummums, the 4th Defendant told them not to interfere in the matter which came under his range of jurisdiction. Further that on a measurement of the land in July 1252 - they gave a Huddoo puttee (boundary memorandum) to the Puttahdar (1st Defendant) shewing that the 10 Koontahs in dispute formed part of his land.

In conclusion he points out that the transfer was illegal in every way, and that the only course to be adopted, was to confer the right to the land on the Puttahdar (1st Defendant) who had never resigned it.

10. The reply to the answers of the 1st, 5th, 6th, & 7th Defendants (filed the 26th March 1852) denying them truth and in part recapitulating the pleas of the Plaint adds, 1st That

1st That the land enjoyed by the 1st Defendant and that in dispute when joined together do not make up 1½ Acres. although a Puttah has always been issued for that quantity since it was first obtained by Lutchmeenurseo father of the 5th Defendant, who when Nijoul Cummum, filled up a ruined Well called "Condappakonaroo" extending over ½ an Acre of ground and planted it with trees.

2nd That Ameen Saib, Mahomed rafeek, Ally Saib and Mahadeen Saib, occupying certain lands between the one thus formed by Lutchmeenurseo, and the portion in dispute - the said Lutchmeenursoo, a few days after, obtaining the Puttah, appropriated the land belonging to Ally Saib, and Mohadeen Saib, which, when purchased by him from the 5th Defendant, the 1st Defendant added to the lands belonging to Ameen Saib and Mahomed Rafeek.

3rd That from this it would appear, that if 1st Defendants' Statement is true, the disputed land is mixed up with Lutchmeenursoo's land although other pieces of land intervene - and a Puttah is issued for lands unconnected with each other -

That

4th That the 1st Defendant enclosed, with a wall, the land he is entitled to, and for which only he pays assessment.

5th That the plea of the 1st Defendant that his right to the land was established by the Sub Collector, is not true; because that Officer, during the Settlement of this year, issued an order No. 645 to the Budwail Tahsildar directing that the Plaintiff's occupancy of the land was not to be disturbed; in as much as the former order which authorized the handing over the land to 1st Defendant had been issued through the negligence of the Jawabnevis.-

6th That the Pudipatti is of no value, having been fraudulently given without the order or sanction of the Sub Collector- and that it was impracticable for the 4th Defendant to alter the Coolvaree accounts, or to obtain a Puttah for land without the privity of the other Cummums, 5th, 6th, and 7th Defendants, who raised no objection.

7th That the tamarind trees were planted on the land in dispute 80 or 90 years ago- since which time they have been in the possession of 2nd Defendant and subsequently of the Plaintiff.- The

The reply to the 8th Defendants

II answer, filed the 26th July 1852 mainly impugning its correctness, points out- I that the acknowledgment of the sale deed made by the 2nd & 3d Defendants in their answer- vitiates the Statements said to have been given by them before the Tahsildar; and which were doubtless fraudulently obtained by the Reddies and Cummums of Budwail who are debtors to the 1st Defendant.-

II That as the land in dispute was not at that time included in any one's Puttah, there was no need of obtaining a deed of relinquishment- that claims for Puttahs are always investigated by the Shenistadars- and that the 5th Defendant, and other Cummums, ought to have reported Plaintiffs conduct, had it been such as is represented, to the Collector.

III That the 1st Defendant would not

not have purchased a piece of land for 150 Rupees without first ascertaining that its extent was correct, nor would he have enclosed a portion only of his purchase

IV That the 8th Defendant, contrary to the Regulations, cancelled an order passed by his predecessor without obtaining sanction from the higher authorities; and, on hearing that the Plaintiff had instituted this Suit, issued an order to the Tahsildar on the 21st February Fusly 1261 directing him to make over the land to Plaintiff as the former order had been inadvertently issued through the negligence of the Javabneviss.

12 The 1st Defendant in his Rejoinder filed the 4th June 1852 denying

denying the Statement contained in the Reply, treats the Plaintiffs' deed of sale as a forgery for these reasons. That the 2d and 3d Defendants had no Puttah for their land and that the 2d Defendants admission in this suit is opposed to his Statement before the Tahsildar. He adds that if Mahomed Saib and others possessed any title to the land, the Puttah would not have been granted in the name of the 5th Defendant, who paid assessment for the full amount of land, whether he cultivated it or no, and that it is not to be believed that the Sub Collector would have reversed his own order which had been confirmed on appeal by the Collector.

13 The 5th Defendants Rejoinder filed the 2d July 1852 denying the correctness of the Reply, urges that he and the other Defendants are not liable for as much as the 8th Defendant has confirmed the first Defendants right.

14 The 6th Defendants Rejoinder filed the 30th June 1852, similarly denies the correctness of the Reply adding that the object of Plaintiff in including him as a Defendant was to exclude him as a witness

The

15 The 7th. Defendant in his Rejoinder filed the 7th. July 1852 denying the substance of the Reply, remarks that it is needless for him to name any witnesses on his behalf..

16 The 8th. Defendant in his Rejoinder filed the 27th. August 1852 repeats his former arguments as opposed to the Statement set forth in the Reply, and denying having issued the order alluded to therein on the 21st. February, Fusly 1261 urges. That the land claimed by Plaintiff by virtue of a deed of sale from 2d. Defendant is "Gramanuthum" (allotted by Government to ryots for building purposes) and not such as 2d. Defendant, who had no Puttah for it, could dispose of. That it is customary for persons who wish for Anyacutto Gramanuthum or Porumpokoo lands to take possession of them after executing a conditional agreement before the Tahsildar during the Velaveri (revenue settlement before him) and these lands being entered in the Velaveri accounts, a Puttah is granted for them - while if any one obtains such lands after the close of the Velaveri settlement, they are entered in the Koolavare

Koolavare accounts and a Puttah is issued during the Summabundee settlement by the Collector. That as the land in dispute was not thus recently obtained, but included in the Puttah of the 5th. Defendant, a rasinamah from him was essential, and the entry of the land in the Coolavaree accounts by the 4th. Defendant as having been recently obtained was fraudulent (the said Defendant having been cognizant of the measurement which took place in Fusly 1262) and the Puttah obtained thereby invalid. Lastly that as Mr. Murray, who granted Plaintiff this Puttah had admitted the 1st. Defendants complaint by referring it to the Tahsildar for investigation, the cancelment of it by the 8th. Defendant was not improper.

17 The 4th. Defendant suffering a default, was pronounced exc-parte

18 Points were recorded on the 24th. December 1852

"Plaintiff to file and prove the Bill of sale dated 5th. July 1848, any Village accounts which will show that the 1st. Defendant has only enjoyed possession of, and paid assessment on a part of his Puttah land, specifying and proving the extent of that part, and the actual amount

amount of assessment paid thereon".-

"To file authenticated Copies of his (Plaintiff's) Petition to the 8th Defendant and of the order No. 645 issued by the latter to the Budwail Tahsildar. The original Puttah granted to the Plaintiff by Mr. Murray for the disputed land for Fusly 1259, and an authenticated Copy of the order of the 8th Defendant directing the cancelment of the said Puttah To prove that since the purchase he has enjoyed possession of the land together with the fruit of the Tamarind trees then existing and of other trees and plants put in by himself. That he improved the land and made repairs to the amount of Rupees 150. That the Puttah was given to him with the privity and consent of the 4th. 5th. 6th. and 7th. Defendants after admeasurement by a Karkoon To prove what was the extent of the land sold to the 1st. Defendant by the 5th. Defendant under the Puttah which he held for 1½ acres establishing at the same time of what portions it originally consisted and that the disputed land was not included therein".-

What

"What was the extent of the encroachment made by the 1st. Defendant subsequent to his purchase and its position with reference to to Plaintiff's land. Lastly to prove the nature of the enmity that induced the 1st. Defendant to complain against him before the 8th. Defendant".

"The 1st. Defendant to file and prove any receipts or Village accounts that will shew that he has since the purchase of the land, paid full assessment upon the whole Puttah for 1½ acre, producing his first and last Puttah, together with the boundary description given to him by the 4th. 5th. 6th. 7th. Defendants and others also authenticated copies of the order of the Tahsildar directing the preparation of the last document of the order of the 8th. Defendant dated 19th April 1850, and of the Collector confirming the same dated the 13th. September 1851."

"To prove that the land sold to him by the 5th. Defendant consisted of 1½ acre including that now claimed by the Plaintiff. That the disputed land was in his (1st. Defendants) possession from the date of purchase

purchase until the time when it was sold by the 2d and 3d Defendants to the Plaintiff. Further that the 2d & 3d Defendants enjoyed the produce of the trees &c thereon, by his permission & specifying during what time."

"2d Defendant to prove that the disputed ground together with the well, was given to him on his marriage by his co father in law (Specifying when and on what conditions) and that he enjoyed possession of the same till 1848- Further, in law, how his father possessed a right to it."

"The 5th Defendant to prove what right he and his late father possessed to the ground, producing his former Puttah &

Proving

proving that he enjoyed the same together with its produce".

"The 8th Defendant to produce and prove the depositions of the 2d, 3d, and 4th Defendants before the Budwail Tahsildar adducing any other proof oral and documentary in support of his authority to cancel the Puttah which had been previously granted to the Plaintiff by Mr. Murray."

The Plaintiff filed 7 exhibits 19 of which the two latter were received through permission granted on Miscella: neous Petition No. 210 of 1853- A (83) The Bill of Sale- B (81) the original Puttah granted to the Plaintiff for the disputed land by Mr. Murray for Fusly 1259- C (93) order No. 645 issued by the 8th Defend: ant to the Budwail Tahsildar D (95) Copy of the 8th Defendants order No. 550, directing the cancelment of the said Puttah- E (97) Copy of the Plaintiffs Petition to 8th Defendant E (28)- Copy of the Kalavarce accounts in 1st De: fendants name for Fusly 1259- G (130)- Copy of the same in Plaintiffs name for the same fusly:-

23 The Plaintiff presented Miscellaneous Petitions Nos 210 and 279 of 1853.

24. The 1st Defendant Miscellaneous Petition No. 255 of 1853..

25 The 8th Defendant Miscellaneous Petitions Nos 26, 158, 338, and 417 of 1852..

26. Of the witnesses examined by

1st 2d 3d ...

by the Plaintiff three deposse to the execu-
-tion of the sale deed A by the 2d and
3d Defendants to Plaintiff and to the
Plaintiff improving the land and plant-
-ing trees. Five depose that Lutchme
-nursoo, obtaining a piece of ground,
filled up the old well in it called "Kon-
-dapah Konaroo," and formed a garden
which afterwards descended to the 5th
Defendant, by whom it was sold to
the 1st Defendant who usurped the adjoin-
-ing lands of four Mussulmen (by whom how-
-ever no objection was ever raised) and
enclosed the whole with a wall. They also
speak of the Plaintiff purchasing from 2d
Defendant a piece of waste land with
two tamarind trees the fruit of which the
2d and 3d witnesses depose, was till that
time enjoyed by the 1st Defendant. Two
depose to the Plaintiff expending money
in improving the disputed land - while
the last witness, the Carkoon, states that
learning from the 4th, 5th, 6th, and 7th
Defendants that some waste land,
pointed out by the Plaintiff, had
been sold to the latter by the 2d
Defendant

Defendant; he in their presence measured
it and reported that it consisted of
80 Koontahs, to the Tahsildar, who a mo
-nth after, gave a Puttah for it to
the Plaintiff. He adds that the 2d De-
-fendant neither had a Puttah nor paid
assessment for it, and that no one can
sell land which is not in their possession.

Of the witnesses examined
by the 1st and 5th Defendants the first,
the Budwail Tahsildar states that
on receipt of an order from the Sub
Collector Mr. Murray to examine into
a complaint preferred by 1st Defend-
-ant purporting that a Puttah for 10
Koontahs, out of his Puttah Land
No. 104, had been given to the Plaintiff
he held an investigation, and forward-
-ed the proceedings to the Sub Collector
He adds that the 4th Defendant, a
Curnum, deposed that he had
given to the Plaintiff 10 Koontahs
out of 1st Defendants land
because it was lying waste, the
parties were relatives, and the
Plaintiff promised that, if
any

any future objection was raised, he would restore it to the Plaintiff, and that he (deponent) being much pressed with business, often leaves to the Sheristadar the examining of the Puttahs, which in such a case ought not to be granted without receiving a Kaikoolee Rasinamah - He recognizes the signatures affixed to documents I, II, III, as his own.

2nd Defendant

The evidence of the remaining witnesses 2, 3, 4, 5, 6 is to the purport that Latchmenarsoo, obtaining some Gramanattum land for which he received a Puttah No. 104 as containing 1½ acres, planted trees and formed a Garden which descended to 5th Defendant who some 10 years ago sold it for 150 Rupees, to 1st Defendant that the latter enclosed with a mall all save a

a portion of waste land on which were two tamarind trees of which latter he always, till the time of Plaintiff's aggression enjoyed the fruit save during two years when he granted it to the 2nd Defendant as a remuneration for watching his garden, which since 8 years has been rented out by 1st Defendant to one Moonian for 16 Rupees a year - Further that the latter individual reporting to the 1st Defendant then at Cuddapah

1st Defendant's 4th Witness

Fort St. George 19th January 1854

Cuddapah, that the Plain-
tiff had fraudulently ob-
taken possession of and
obtained a Puttah for,
his 10 Koontahs of waste
land the 1st Defendant
complained to the Sub Col-
lector, who after due in-
vestigation, cancelled
the Puttah, and dismi-
ssed the summons (4th Defendant

Fort St. George 19th January 1854.

through whom the fraud had been com-
mitted.

28. The witnesses examined by the 8th
Defendant depose to the 2d, 3d & 4th Defend-
ants going Statements before the Tahsil-
dar in an enquiry held by that Officer
into a complaint preferred by the 1st
Defendant against the Plaintiff.

29 On a review of the whole proceed-
ings, oral and documentary it would ap-
pear that the disputed land forms part
of S. No. 104 - the Puttah for which has been
held for some 8 years by the 1st Defend-
ant who purchased it from the 5th
Defendant to whom it devolved from
the original Puttahdar Lutchmee-
nurson. The 1st Defendant enclosed
with a wall only such portion as was
good ground the remaining 10 Koontahs
having been used as a public place of
resort which the Villagers were at the
time of his purposing to enclose it,
unwilling to concede without a strug-
gle on an admeasurement held in
July 1252 they were determined to
be included in 1st Defendants
Puttah which as is frequently
the case is still a little

in excess of the actual land held The Witnesses on both sides allow that 1st Defendant used to enjoy the fruit of the tamarind trees which it is clear from the evidence of 1st Defendants witnesses was granted for 2 years to 2d Defendant as a gratuity for watching the garden - This reconciles the statements of the Plaintiffs witnesses that 2d Defendants enjoyed on certain occasions the said fruit - The 2 3d Defendants before the Tahsildar repudiated the Sale deed which from the interpolation of the 3d Defendants name is a very unsatisfactory document Independant of this they could not sell what they possessed no title to - It is conceded that they had no Puttah for land which was Gramanuttum whereas the 1st Defendant had and without a formal relinquishment on his part the title cannot be invalidated - The 4th Defendant explained the nature of the transaction before the Tahsildar - The fraudulent obtaining of the Puttah was effected during the

Fort St. George 19th January 1854.

No. 4.

To W. H. Bayley Esqre.
Secretary to the
Board of Revenue
Fort St. George.

Sir,

(33)

B.d. N. 148.

From the Collector of Cuddapah

Suggesting that each of the five brothers in the Village of Coppole [illegible] should hold the emolument of one Village for one year and change at the next by turns so that each person would enjoy the emolument of each Village respectively once in the Course of five years.

1. I have the honor to acknowledge the receipt of your letter of the 19th of September last desiring that the Collector will suggest some other arrangement by which a more equitable division of the family Enams may be made in the Villages of Coppole [illegible] without impediment to the duties of the office.

2. The Petitioners have been repeatedly sent for in order to endeavor to arrive at an amicable settlement of their disputes by Punchayet or by any other means they themselves might point out but to the present time they have been reported absent from the Village which has prevented me from having an opportunity of seeing them in person and coming to any arrangement in the matter. In order however to prevent further delay I beg to propose for the consideration of the Board the following plan for the adjustment of

Fort St. George 19th January 1854.-

of the dispute and which is not uncommon amongst Sharers in similar Service Enams.

3. In cases where and three other Villages reserved to the emolument derived from the office of Shroff differs so considerably and it would be very inconvenient to grant Shares of the different emoluments to each of the five brothers in equal proportions in the respective Villages I would beg to suggest that each of the brothers should hold the emolument of one Village for one year and change at the next by turns so that each person would enjoy the emoluments of each Village respectively once in the course of 5 years and thereby one cannot complain that the other received a larger share than himself this I consider to be the most equitable way of coming to a decision on the question and should the Board of Revenue see no objection it may be carried into effect without further delay.-

4. By a mistake the Enam has been entered in my endorsement as Curnee Kum Enam, instead of the Shroff which it really is.-

The

Fort St. George 19th January 1854.-

The Petitions No. 1188 and 1724 of 1853 are herewith returned.-

Bd. No. 3360
From the Collector of Chingleput-3.

Sir,

Adverting to my letter of

of the 2d Instant and Extract from the Proceedings of the Board of Revenue thereon under date the 19th Instant, authorizing the sale of the Yacattoor Moottah, I have the honor to state for their information, that the Principal Sudr Ameen at Chingleput, has in a subsequent communication requested that the attachment of the Estate may be withdrawn, the present proprietor having liquidated the amount claimed in satisfaction of the Decree of the Court referred to.

Chingleput District Collector's Cutchery Pallecarny 23d December 1853.

(Signed) J. H. Cochrane

Order thereon

(35.36)

Ordered to be recorded

To

F. W. K. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George

(37)

Bd No. 83.
From the Collector of Chingleput.

Sir,

I have the honor to submit the following report on the accompanying Petition No 2455 of 1853 bearing Endorsement dated 15th Instant.

2 In May 1852 a sum of 30 Rupees had to be advanced from the Taloork Treasury of Sydapet, to the Petitioner and his party who were employed on the repairs of the Paroombaukum Tank bund. The Shroff making the disbursement delivered to the Petitioner a bag containing Rupees 1,000 in lieu of one of 960 Copper pieces of ½ anna each equivalent to Rupees 30. The Petitioner while carrying it home opened the bag at Vellacherry 3 miles distant from the Cutcherry, when discovering it to contain Rupees he returned and delivered it to the Tahsildar the next morning.

3 Although the Shroff was not guilty of any fraudulent act, his gross neglect, and carelessness in the matter being inexcusable he was dismissed from Office

Office, while the Nagadee Goomastah whose duty it was to satisfy himself of the correctness of the disbursement and to enter the amount in the Chittahs, was degraded to a lower situation..

4 The Honesty displayed by the Petitioner is no doubt praise worthy, but as the existing rules do not authorize the grant of any reward to him, I simply held out to him a promise that he should not want employment whenever he felt disposed to undertake maramut works.

Chingleput District
Collector's Cutcherry
Pallecarney 31st December 1853
} / Signed / J. H. Cochrane
Collector

Bd's No 113
Proceedings thereon
(37.38)

As the conduct of the Petitioner alluded to in the foregoing letter appears to the Board to be deserving of some reward they authorize the disbursement to him of Rupees (50) Fifty, and direct that the amount be included in the annual Statement of actual charges incurred without Estimate, these Proceedings being quoted in support of it..

Ordered that the following Endorsement be passed on Petition No 2455 of 1853.

"Petitioner is referred to the Collector to whom instructions have been forwarded on the subject of his Petition".

(39)

Bd's No 100
From the Collector of Chingleput
Expressing doubts as regards the expediency of taking under Mandgement of the Court of Wards the Minor Estates of Nettrumbaukum..

Sir,

1 I have the honor to reply to Extract from the Proceedings of the Board of Revenue under date the 12th September last, in which my attention is called to Section III Regulation V of 1804 in reference to my letter of the 23d August 1853 and in which I am required to submit a Report upon the Minor Estate of Nettrumbaukum, with my opinion as to the expediency of taking it under the Court of Wards, or of applying to the Zillah Court to appoint a guardian for the Minors Heirs.-

2 In my former communication which had reference more particularly to the Sub division of the Moottah, I stated that this Estate was not within the jurisdiction of the Supreme Court but as the subject of taking the whole Property under the Court of Wards is en

now

now under discussion. I may observe that the greater bulk of the Property left by the deceased is situated within the Jurisdiction of the Supreme Court where he and his Family resided.

3 At the case is one which under the provisions of Section III Regulation V of 1804, and of the Circular Order of the Board of Revenue dated 5th August 1852 falls under the Court of Wards in the first Instance. yet as it would be impossible for this Department to exercise an efficient control over so large a portion of the Property situated within a different Jurisdiction, I submit that it is not desirable to take any portion of the same under their management. The same objections may perhaps be urged in regard to the propriety of the interference of the Zillah Court, points in regard to which I await the Instructions of the Board as I am not aware whether the Executors who

have now charge of the Estate in virtue of the Will of the late Proprietor (Probate of which has been taken out by them in the Supreme Court) are subject to any system of Control on the part of that authority, as applicable to all cases of a similar nature.

I beg to add that the eldest son has since the date of my last communication completed his 18th year and

4 attained his majority as prescribed by the Regulations under the terms of the Will + however, the Executors (two of whom are relatives* of the minor sons) are empowered to retain the management of the several shares of the Property until each of the sons attains the age of 20, an arrangement to which no objections have been raised by the several members of the Family

+ herein enclosed.

* Balasoondra Moodely is the nephew (brother's son) to the paternal Grand father of the minors. Tatoo Moodely is the nephew (sister's son) to the paternal Grand father of the minors.

Family.

5. The omission of this Mootta and the Maray Shrotriem in the State-
=ment furnished with my Predeces-
=sor's letter of the 6th November 1850,
appeared to have arisen under the
erroneous impression that the State-
=ment as will be seen from its
heading, had reference only to
Shrotriyem Estates and the Minor
Proprietor of Maray having lived in
an undivided Family with his
uncle and under his protection,
it was not considered necessary
to include it in the list of minor
Estates, a point on which the Board
have given a different decision on a
General reference from this Office dated
18th October 1852.

Para 2 Board of Revenue 15th November 1852

Chingleput Collector's Pullicarney 31st December 1853 — District Cutchery

/Signed/ J. H. Cochrane
Collector

Bd's No. 122 Proceedings thereon

(39.40)

Under the circumstances stated by the Collector the Court of

of Wards will not take charge of the
minor Estate of Nettrumbaukum,
but the Collector will report the
minority of the Proprietor to the
Civil Court under Section III Regu-
=lation X of 1831 leaving it to act in
the case as it may think proper.

Read the following Letters.

No. 152

To W. H. Bayley Esqre

thereon - The Board observe from the Statement which accompanies the foregoing letter that no condition appears to have been made with Mr. Boyson respecting the land applied for by him being brought in to Cultivation within a given time and to the construction of roads through it whenever required by Government. They therefore request that the Collector will arrange about these matters and Submit a fresh application -

2 - The Board authorize the grant of the other Spots of land on the usual conditions.

Extract

Fort St George 19th January 1854

No 1. Extract from the Retrenchments made from the accounts of the Collector of Salem from 12th July 1851 to 11th July 1852 on account of expenses for Fusly 1261.—
A.D. 1851/52

No	Charges objected to		Remarks of the Civil Auditor	Collector's explanations	Remarks of the Board	Orders of Government
5	Amount charged on account of Batta to Pensioned Sepoys employed in Talookas for the safe custody and escort of treasure in Fusly 1261 - - - - -	966 12 2	Will stand retrenched until the sanction of Government is obtained.	No 5 In the Estimate of charges proposed to be incurred on account of additional Establishment for Fusly 1261 Rupees 4,228-14 were entered as Batta to the Pensioned Sepoys employed in the Talookas for the safe custody and escort of Treasure and this charge was sanctioned by Government on the 30th June 1852. Government however having on the 11th November 1851, sanctioned this Establishment as permanent it was included in the Moyen zabitah of the District, commencing from 1st November 1851. The Civil Auditor having retrenched the amount of Battah paid to them for the three previous months viz July, August, and September 1851, amounting to Rupees 966-12-2 the Sanction of Government is solicited for cancelling the retrenchment. Account particulars accompanies.		
10	Amount paid on account of hire of a Cart for bringing Stationery from Trichinopoly to Salem in Fusly 1261 - - - - -	1 8	Do- Do-	No 10. The short supply of Stationery due on the Indent for the year 1851 was forwarded by the Superintendent of Stationery thro' the Assistant Commissary General at Trichinopoly, who sent it to Salem on a cart. The Civil Auditor having retrenched the charge of Cart hire, the Sanction of Government for the same is requested.		
	Law Charges of the Revenue Department.					
29	Amount paid on that account in Fusly 1261 - - - - -	476 8	Do- Do-	No 29. Of this sum Rupees 449-8- was Sanctioned by Government under date the 19th August 1853 and the sum of Rupees 15-- was paid to the heirs of the late Government Vakeel under the authority of the Board of Revenue dated the 11th March 1852. Sanction is solicited for the differences (Rs 12) being the value of 3 Stamp papers of 4 Rs each for presenting an answer in defence of S.A. S. No 6 of 1851 presented under the sanction of		

Fort St George 19th January 1854

Bd No. 7
From the Collector of Salem ---
Affording further information relative to

I am directed to acquaint you in reply to your letter dated the 25th August last, requesting that the

Fort St George 19th January 1854

to the case laid before the Board in Petition No. 1345 of 1853 by Syed Abdool Cawder and Syed Moideen Said Enamdars of Nunnumpettah in the Tripatoor Talook.—

case laid before the Board in Petition No. 1345 of 1853, might receive further consideration, I have the honor to state that the Petitioners executed part of the repairs required by the Estimate to the extent of Rupees 63-10-- previous to the order passed by Mr. Phillips on the 10th September 1852 for the sequestration of the Dasawandum Enams, and had likewise completed repairs in certain other parts of the tank, which were not included in the estimate alluded to at a cost of Rupees 8-10-6; and that Syed Mohideen Said one of the Petitioners, has engaged to complete the remaining portion of the Estimated repairs amounting to Rupees 12-8-- on his being allowed to do so, that subsequent to the attachment of the Enams in question, the Petitioners in January 1853 addressed an Urzee to Mr. Phillips, stating that they had completed the repairs, for which they enclosed a Mahazar that this Urzee being referred to the Tahsildar, he erroneously reported to the Hoozoor, that the repairs originally estimated for had not been executed; and that upon this report, Mr. Phillips stated to the same effect in his

C. O.
25th January 1854.

his Endorsement dated the 29th July last.-

2 Adverting to the orders noted in the margin in regard to the Dasavandum tenures, it is clear that the Enamdars ought to execute whatever repairs may be required from time to time, without delay, or waiting to be instructed on the subject by the authorities, and that in the present case, the Enamdars neglected to repair their tank from August 1850 when the estimate was prepared, and they were specially called upon to execute the work up to May 1852; but as the greater portion of the work had been executed two months and a half prior to the sequestration of the Dasavandum Lands, I beg to recommend that the Enam may be restored on this occasion from Fusly 1263, on the usual terms.-

3 The three Petitions Nos 1345 2218 and 2348 are herein enclosed.-

Salem Collectors Office. 26th December 1853. (Signed) H. A. Brett Collector

Ofs. or. Bz. No. 119. Proceedings thereon.

(45-46)

The Board sanction the restoration of the Dasavandum Enam to the former Enamdars.-

Ordered

Ordered that the following Endorsement be passed on Petitions Nos 1345, 2218, and 2348, of 1853.-

On a further report by the Collector the Board have sanctioned the restoration of the Dasavandum Enam to the Petitioners, but they are warned that a final resumption of the Enam will be the consequence of the Tank falling again into disrepair.-

Bd's No. 3.

From the Coll.r in charge Special Agents Dept.t of South Arrst - Reports that the Collector of Malabar has transferred to the French Authorities certain Villages and detached points in the neighbourhood of Mahie and requests Sanction for paying the Net Revenue of those Villages to the date of transfer

Sir,

In reference to the orders of Government conveyed in Extract from Minutes of Consultation under date 16th September last I have the honor to state that the Collector of Malabar has reported to me that the four Villages of Chalabora Pandakel Valoor and Chembra and the three detached points of Fort George and the great and little Calaye in the Vicinity of Mahie have been delivered to the French Authorities

2. The enclosed Copy of a Statement furnished to me by Mr. Conolly shows that the Net Revenue realised from the four Villages since 1816/17 to the time of their surrender Amounts to Rupees 97,648-5-9. and as His Excellency the Governor of the French settlements in India has intimated to me that it will be convenient to his Government to receive the amount before the close of the present year I request early authority for paying that Sum from my Treasury.-

3. Mr. Conolly informs me that a small sum due on account of Abkarry for the first four Months of the Current Fusly 1263 is not entered in the above Statement.- As these four Villages are included in the Nullatarak Arrack Contractors lease which will not expire till the close of the Fusly a proposal has been made to the French Authorities to enter into an arrangement for allowing the farm to continue: but under the wish which has been expressed by his Excellency Rear Admiral de Vernineac I have thought it proper not to defer addressing you until this matter is settled, and shall therefore report hereafter what Sum is due to the French Government on this account.

Cuddalore,
26th December 1853.

Bd. No. 111.
To the Chief Secy. to Government.-
Submitting a letter from the Collector in charge of the Special Agent's Department reporting that the Collector of Malabar has made over certain Villages and detached points in the neighbourhood of Mahé to the French Government and recommending that sanction be granted for the disbursement of the Net Revenue of the above Villages to the date of transfer.-

Rd. Cons. 19th January 1854.
Sd. Cons. 19th October 1853.

In Cons. 19th January 1854.

No. 21.

To

The Chief Secretary to Government.

Sir,

With reference to Extract Minutes of Consultation dated 16th September 1853, I am directed by the Board of Revenue to submit for the information and orders of the Right Honorable the Governor in Council, the accompanying letter from the Collector in Charge of the Special Agents's Department dated 26th December 1853, reporting that the Collector of Malabar has made over to the French Government the four Villages of Chalabara, Pandakal, Valoor, and Chembra, and the three detached points of Fort St. George, and the great and little Calaye in the vicinity of Mahé.

2. From the Statement forwarded with Mr. Maltby's letter, it will be seen that the Net Revenue realized from the four Villages since 1816/1817 up to the date of their surrender, is Rupees 97,648-5-9 and as the Government have already in Extract Minutes of Consultation of 12th January 1854, authorized the disbursement of Rupees 83,433-3-3. to the French Authorities the Board now recommend that sanction be granted for the remaining

Fort St. George 19th January 1854.-

remaining sum Viz. Rupees 14,215-2-6.-

3. The above amount is exclusive of a small sum due for the first four months of the Current Fusly 1263, on account of Ab. Kary on the four Villages included in the Nullatarack arrack Contractor's lease, and respecting which sum, the Collector promises to report hereafter.-

No. 152 A.

To,

B. Cunliffe Esqre.

Acting Secretary to the

Board of Revenue.

Fort St. George.

Sir,

58

B. No. 21.

From the Collector of Malabar — 1.

Reporting on the Settlement of the Land Revenue of his District for Fusly 1262.— No. 1 to 19.

I have the honor to transmit herewith Nineteen Statements drawn out according to the new Forms connected with the Land Revenue Settlement of this District for Fusly 1262. A. D. 1852/53.—

Season and its effect upon Cultivation & Produce — 2.

The South West Monsoon commenced about the last Week of May 1852. Although the supply of Rain throughout the year exceeds the average of the preceding five years by 16—85, the fall was not seasonable. The paucity of rain in September and October 1852 proved detrimental to the Cultivation of the 2nd Crop, on the other hand, the unusual heavy rain towards the end of March

		Inches Cents
Fall of Rain in	1847/48 —	134—60
"	1848/49 —	78—45
"	1849/50 —	106—80
"	1850/51 —	118—"
"	1851/52 —	87—17
	Total —	525—2.
	Average —	105—"
	1852/53 —	121—85
	Excess —	16—85

* Note. The fall of Rain from April to March is here given—

March and beginning of April 1853 caused material injury to the extensive Lake Cultivation in the Southern Talooks. Upon the whole however the general out turn was not much below par. it certainly exceeded that of 1261, when there was a deficit of 15 per Cent compared with the result of 1260.—

At Tyanamakal Inacherah &c.

* See Para 3 of the Report dated 22nd November 1852.—

The failure of rain noted in the 2nd para of my last Report had an unfavorable effect on the Cocoanut Trees. There was a falling off in the general produce to the extent of about 20 per Cent below the result of 1261.—

Price and its effect on the resources of the District. — 3.

The deficiency enhanced the Market price of Cocoanuts, the average having been Rupees 14—5—" per 1,000 or 3 1/8 per cent above the whole sale price of 1261.—

+ Rupees 13—14—"—

Towards the end of the late Fusly there was an unusually great exportation of Rice and Paddy to the Travancore and Cochin Rajahs Districts in consequence of the apprehension of a famine. This had the effect of raising the price of Rice from Rs. A. P. 169—2—9. to Rs. A. P. 181—7—2 per Garce or 7 1/11 per Cent above the average rate of 1262, though at the period I speak of it was (particularly at the Southern Talooks) much higher than the last quoted average. Comparing the wholesale prices of 1262 with the average of the last five years the result will be found to be an excess of Rupees 1—14—2 per Cent.—

		Rs. A. P.
Average Market price of Rice in Fusly —	1257 —	189 1 9
	1258 —	187 8 "
	1259 —	179 7 5
	1260 —	165 3 "
	1261 —	169 2 9
		890 6 11
	Average —	178 1 5
	Fusly 1262 —	181 7 2

The

The rates I am now commenting upon are, as stated in the 5th Para of my Report for the last year, the average selling price of the 1st and 2d Sort Rice as it it obtained in the four principal Towns of the District. The result will be found to differ with the wholesale price exhibited in the 8th Column of Statement No. 4, which being for the whole District gives an average of Rupees 75-1-5. per one Garce of Paddy or Rupees 150-2-10 per one of Rice. The same Statement shews that the average commutation price of Paddy is Rupees 76-1-10 per Garce or Rupees 152-3-8 for Rice, the same being Rupees 25-13-9 below the average price of the four principal Marts Marginally indicated.

+ Palghat
Ponany
Calicut and
Tellicherry

The favorable price which the Ryots obtained for Grain and all species of Garden Produce (Pepper included) conduced to the easy realization of the Current Revenue, Rupees 16,23,827-12-3. having been collected within the year out of a demand of Rupees 16,47,866-10-7.-

					Net Increase Rupees		2119 5 9	

4 By the Marginal Abstract the Board will perceive that the result of the Settlement of every branch coming under the Head of Land Revenue is a Net Increase of Rupees 2119-5-9. 5- I shall now notice each branch separately.

Nunjah or Rice Lands
Net Decrease Rs. 1063-14-4-

In the Settlement of this source of Revenue, Rupees 8,071-9-"- was credited to account under the head of Increase as particularized in the Statement No. 8 but the whole of it was absorbed by the unavoidable remissions granted to those who were suffering under the

unavoidable

Fort St. George 19th January 1854.

the pressure of the unfavorable seasons noted in Para 2. In fact, the aggregate amount of remissions exceeded the increase by Rupees 1,063-14-4, the total sum being Rupees 9,135-7-4.

Statement No. 7 shews the nature of these remissions. The greatest portion attaches to Cultivation damaged by inundation, tho a good deal falls on crops injured by want of Seasonable rain.

As regards the first item, it will be seen by a reference to Statement No. 11 that the Talooks to which relief was granted to a large extent than usual were Betutnad Rupees 1,123-15-2 Rootnad Rupees 888-1-7 and Shoughat Rupees 2,554-7-11. In respect to the second item Viz. Heavy or Crops dried up, Rootnad was the Talook which suffered most the remission granted there being Rupees 1,862-11-1.

+ Of this Rs. 2,120 is remission given by the Sub Collector in behalf of the Cultivation dependent upon the Yanamahal Dam.

Poonjah or Dry Land Cultivation Increase Rs. 3,731-4-3.

6. The Poonjah Cultivation of this District, assessed to the Public Revenue is composed of Moddom,[1] Ponum[2] and Ellu[3], and to shew the extent of each Sheg to submit the following brief Abstract for the whole District.—

1 Upland Paddy.
2 Hill Paddy.
3 Oil Seed.

Firstly.

12,42

Fort St. George 19th January 1854.

Firstly 1261.

	Extent of Cultivation	Assessment	Extent in Cawnies	Assessment	Increase	Decrease
	Rs.	A. P.		Rs.	A. P.	
Moddom	25,179 1/16	23,991 8 1	27,862 1/8	26,950 10 5	2,682 11/16	2959 1 10
Ponum	21,884 5/16	19,193 3 1	22,278 5/8	19,529 12 6	394 5/16	336 8 11
Ellu	18,616 1/2	12,457 6 1	19,206 1/8	12,893 1 6	589 5/8	135 9 6
Total	65,680 1/4	55,642 2 9	69,346 7/8	59,373 7 4	3,666 5/8	3,731 4 3

From

From the foregoing it will be seen that all the three Items exchibit increase in the relative proportion of Rupees 2959-1-10 Rupees 336-8-11 and Rupees 435-9-6.-

Bagayet or Gardens Decrease Rupees 810-10-6.

The Settlement of this branch of Revenue was attended with an increase of Rupees 2,570-13-2, of which Rupees 563-11-11 was on account of new Gardens Rupees 328-12-9 on account of old Gardens re-inspected upon the occasion of applications for Remissions for losses sustained in deteriorated Gardens, Rupees 1643-4-8 resumption of Remissions allowed in 1261, and Rupees 35-10-10 on sundry petty accounts- The concessions made during the last Fasly, after due enquiry into each individual Item, amounted to Rupees 3381-7-8, Viz.t on account of the deteriorated state of several Gardens held by Ryots in low circumstances, Rupees 2276-4-8. and on account of Trees destroyed by lightning, encroachment of Sea, Rivers, &c.a in Gardens belonging to poor Ryots Rupees 1104-3-8.-

†Vide Statement No 8.-

Cochin Increase Rs 262-10-4.

8. This excess was obtained on the occasion of renewing the leases under which certain Government Gardens were rented out.-

Current Collection-

9. Out of the Gross Demand amounting to Rupees 16,47,866-10-7, the sum of Rupees 16,23,827-12-3 was collected during the year, leaving at its close a balance of Rupees 24,038-14-4 in which is included the sum of Rupees 15,000-0-0 being the full amount of the Peishcush payable by the Beebee of Cannanore- From the residue viz.t Rupees 9,038-13-5. Rupees 7,483-3-9 has been collected by the end of October last, leaving the small sum of Rupees 1,555-9-8. to be hereafter realized.-

*Rupees 16,23,827-12-3

10. In addition to the Current Collection the sum of Rupees 9,504-4-11 was collected in the course of the year under review on account of arrears of previous years making the total Collection in 1262 on account of Land Revenue alone, Rupees 16,33,332-1-2- This was effected without the necessity of having recourse to any coercive measure, except in two instances, involving a sum of Rupees 86-10-1.-

The

The deficiency of Rupees 9,296-5-11 in the Land Revenue which the above Abstract shews as arisses from the circumstances of the Collection of 1261 being inclusive of two Fusls of the Cananore Beebee's Peshcush whilst nothing on this account has been credited in 1262.

Rs. 10,000.

Gross Collection of Rs. A. P.
Fusly 1261 — 2857241-4-6.
1262 — 2589246-12-3.
Decrease 267994-8-3.

The general result of the year as regards Land and Exctra Revenue combined is a net Decrease of Rupees 267,994-8-3. compared with the Gross Collection of 1261 and the Net Revenue of 1262 after deducting charges amounts to Rupees 219,887-8-1. which is leelow that of 1261 by Rupees 14,2725-11-3.—

Gross Collection of Fusly 1262 — 2589246-12-3
Charges of Rs. 369,359-4-2
Net Revenue — 2191,887-8-1.

Net Revenue
Fusly 1261 — 2334612-8-4
1262 — 2191,887-8-1
Difference 14,2725-11-3

13- The Appendix A prepared on the usual principle shews the particulars of the Land Revenue Charges, which bear the proportion of Rs. A. P. 15-15-10- per Cent to the Collection, but setting aside 3 3/10 th of the escpenditure on account of the Items noted in the Margin as suggested by the Government, the remaining 6 7/10 th gives Rs. A. P. 9-5-— as the per Centage of the Charges for collecting and administering the Land Revenue- The above 3 3/10 ths of the allowances Marginally specified being debited against the Revenue derivable from the exctra sources, (Sayer excepted) the total Charges gives as per Centage of Rs. A. 23-9 upon the total receipts from these branches- With respect to the Sayer Charges, which the Board remarked so much escceeded the Collection, I have only to observe that they consist entirely of the frontier establishment kept up around the French Settlement of Mahe, regarding which I shall as shortly

1 Salary and Commission
2 Tent allowance
3 Deputation allowance
4 Huzzoor and District Establishment
5 Allowance to inemployed Court servants.

Para 9 Minutes of Consultation dated 5th July 1853 No. 743.

Para 19.

shortly address the Board-

Outstanding Balances. 14- By the accompanying Statement No. 16 the Board will percieve that at the commencement of Fusly 1262 the arrears remaining uncollected amounted to Rupees 38,536-4-6. Out of this Rupees 9,304-4-11. was realized to the close of the year and Rupees 940-4-7 written off under sanction of Government, leaving still an outstanding of Rupees 28091-11-— in which is included the sum of Rupees 24,750-1-10 due by the Beebee of Cannanore the realization of which by the process of attachment and sale was postponed under the orders conveyed in the Board's Proceedings bearing date the 4th June 1853. Deducting the latter sum, the Balance is only Rupees 3,341-9-2 which however embraces arrears for seven years prior to 1260 amounting to Rupees 814-4-9 This should have been either collected and brought to account in 1262, or set down as irrecoverable in the accompanying Statement No. 16, but for the reasons mentioned in the Column of remarks of the said Statement the final disposal of them is unavoidably deferred till the Jamabundy of the present year. In the mean time I request the Board will be pleased to obtain the sanction of Government for my writing off the sum of Rupees 227-7-9. proved to be irrecoverable.—

17th September 1852
5th July 1853

Waste Lands.

15. A reference to the Statement No. 10 will shew that during the late Fusly 1256 Cowles were issued for the reclamation of immemorial wastes amounting to 998 Cawnies, which when fully brought into cultivation will yield a revenue of about 2270 Rupees.—

16. In addition to the 998 Cawnies taken up for Rice Cultivation, Cowles were granted for 1172 Cawnies of land fit to be converted into Cocoanut Gardens. I had hoped to have been able to submit with this address the Statement adverted to in the 27th Para of my last years report, but the Returns received from some of the Talooks were so defective, that it became necessary to call for further information. so soon as the Statement in question is completed it will be submitted to the Board. In the mean time I beg to forward an abstract, similar to the one transmitted last year.—

See Appendix B. No. 3.

17. In transmitting the Statement of Rent Roll I beg to observe that it has been prepared on the principle laid down in the 20th Para of the Board's Proceedings dated the 19th June 1852.—

Para 21.

18. In treating upon the subject of Ryotwar Chittas the Board remarked in their Proceedings on last year's Settlement that it would have been more satisfactory

satisfactory had I given the number of Talooks and Villages in which such Chittahs have been already prepared and they desired that this information should be furnished. I accordingly beg to append a figured abstract containing the required information. It is not so satisfactory as could have been wished considering the length of time the task has been undertaken. but I purpose previous to address the Board separately on this subject and in explaining the difficulties we have had to contend with especially in the Southern Talooks to shew the means we have taken of more effectually overcoming them.—

Names of Talooks.	Number of Villages in each Talook.	No. of Villages for which the Chittahs have been prepared in full.	No. of Villages for which the Chittahs have been prepared in part.

19. As the directed by the Board the account of one Amshom or Parish, for which the Ryotwar Chittahs have been prepared is herewith forwarded in Hindwee-

It will be observed that this account comprizes 845 Gardens and 257 Rice Lands in the names of upwards of 125 Ryots. There are Parishes in which these Items far exceed those just quoted—

J

Fort St. George 19th January 1854.-

I shall therefore await the Board's further orders whether or no to submit similar accounts in future years, as the preparation of the same plesturbs the current business of the Cutchery.-

20. A few entries were made in the course of the last year in the Register of landed property acquired by Public servants, an extract from which accompanies.

Vide appendix C.

21. Cholera and small pox continued, I am sorry to say, to prevail in the District in 1262 to a more grievous extent than in the preceding year- The deaths from Cholera amounted to 7,658 from small pox to 2,242.

Vide appendix D

It is satisfactory to have to record that Trade and agriculture are both in a progressive state of improvement-

22- Malabar which until a few years back never exported a Bag of Coffee has during the last Season furnished nearly 17,000 Indian Maunds of this valuable article of commerce (the produce of Wynad and Wallaghat) for exportation to England and other Countries-

The Custom house Books likewise shew a progressive improvement in the exportation of the staples of the District- In 1261 the net increase (after deducting decrease) was 2,63,000 Rupees and in 1262 there was an additional net excess of

See appendix E. Rupees 37,200.-

The

Fort St. George 19th January 1854

Dated 10th Sept. 1853- Appendix F.

23 The late sub Collector before quitting the district sent in a report of the settlement of the four Talooks under his charge. In submitting a transcript thereof to the Board, I have deemed it necessary to answer in full the various allegations and aspersions in which he has thought fit to indulge.-

It will be observed

24 that many of the figures entered in the said report do not correspond with the Statements herewith transmitted, which must have arisen from a misconception of the new Forms.-

J.

1290

Fort St. George 19th January 1854.-

No. 215
1853.

To

H. V. Conolly Esqr.

Collector of Malabar.-

Sir,

I have the honor to submit the Report of the four Talooks forming the Sub Collector's Division recently placed under my charge shewing the result of the Land Revenue Settlement for Fusly 1262.-

2. The North west monsoon commenced early in Eddavom / May, and was very favorable for the Kany or first crop, but a partial failure of the rains in Karkadagom / July / August and Chingom / August / Septr. caused considerable loss on elevated cultivation. The latter rains were favorable for all produce. The Poonja Khall cultivation in the Talook of Chowghaut suffered considerably in consequence of superabundant rain in Minom / April / May and the beginning of Meddom / May / June.-

3. Cholera and Small Pox prevailed throughout the four Talooks in Maay / February / March and Coomblom / March / April, and I regret to say committed

committed great ravages in the Talook of Chowghut.

4. Something almost resembling famine in the Cochin and Travancore Country has, it is said, considerably raised the price of Paddy within our District. It was sold at the rate of Rs. 93-1-0 for 1st. sort and Rs. 65-11-0 for the 2d. sort per Madras Garce.

5. The following abstract Statement shews the Increase and Decrease in the Land Revenue with reference to Statement No. 13.

	Summa for Fusly 1261			Summa for Fusly 1262			Increase			Decrease		
Nunjah	4,15,656	1	9	4,16,091	2	3	435	"	6	"	"	"
Garden	79,276	8	"	78,783	7	2	"	"	"	493	"	10
Poonjah	9,906	14	4	11,476	3	5	1,569	5	1	"	"	"
	5,04,839	8	1	5,06,350	12	10	2,004	5	7	493	"	10
				Net Increase			1,511	4	9			

6 I now proceed to explain the particulars of the Increase and Decrease on account of the Nunjah or wet Price Lands viz.

	Rs.	As.	P.
Gross Increase	3,846	5	8
" Decrease	3,411	5	2
Net Increase	435	"	6

The

The following are the Items composing the Increase Viz.

On account of 148 Waste Lands measuring 251 Cawnies 842 Rolls cultivated	Rupees	242-8-6.
" account of 1095 Lands measuring 544 Cawnies and 20½ Rolls of concealed cultivation discovered by measurement.		1,013-6-8.
" accounts of Poonjah cultivated with Wet 18 Lands measuring 9 Cawnies and 779 Rolls		19-2-10.
" account of Cowle land transferred as land paying full Assessment.		38-13-8.
" account of Assessment on Lands taken on progressive Cowles.		150-10-5
" account of Proprietors dues on Escheated property		167-1-1
" account of lands assessed with reference to produce		63-8-7
" account of reclaimed remissions		2,151-1-11
	Rupees	3,846-5-8

The

Fort St. George 19th January 1854.

7 The following Items compose the decrease Vizt.

On account of lands left waste from desertion of Cultivators Rupees — 29-1-3

" ditto - ditto from poverty — 247-13-11

" of lands taken for enlarging villages and for converting into Cocoanut plantation — 22-15-11

" of Pancebood thy or inundation — 2,970-5-10

" of reclaimable remissions — 16-6-4

" of Cowle remissions for waste lands — 95-1-11

" of lands assessed with reference to produce — 25-7-1

" of Proprietors dues as escheated property. — 4-"-11

Total Rupees — 3,411-5-2

8 On account of Garden lands the Increase amounts to Rupees 231-13-3 and Decrease Rs. 724-14-1. The following Items compose the Increase Vizt.

On account of 158 new Gardens — Rupees 79-9-4

" of a difference between the Ryotwar and the Summabundy accounts — 1-8-3

" of Newly assessed trees — 42-3-8

" of reclaimed remissions — 107-6-1

" of Rice lands converted into Cocoanut Gardens 4-2-7

Rupees — 231-13-3

Fort St. George 19th January 1854.

9. The following are the Items composing the decrease on account of Garden lands Vizt.

Rs. A. P.

On account of reclaimable remissions granted for unproductiveness.. 501-14-3.

" of remissions granted on account of poverty.. 222-15-10.

Rupees 724-14-1.

10. In the dry or upland cultivation there is as shewn below, a net Increase of Rs. 1569-5-11 and this is reported to be the result of increased cultivation and a favorable season..

	Moden..			Ellu..			Moden..			Ellu..

Net Increase —	1,569	5	11									

11 After the conclusion of the Land Revenue settlement..

settlement of Palghat Talook it was casually brought to my notice that the increased and concealed cultivation was very considerable. I accordingly directed my excellent Sheristadar to make a survey in certain parts and the result of this superficial enquiry has terminated in the discovery of 1080 Lands whose assessment brings a present increase of Rs. 990-9-6. I have reason to believe from reports given me by intelligent men that this amount may be very considerably increased on a more regular enquiry, and I am at a loss to comprehend how so many years have been allowed to pass without this being done. I am credibly informed that the circumstances of the case are fully known to the Head and Tail Sheristadars and if they kept it from your notice they have been remiss in their duties and entailed in great loss on the Government. It is curious that whilst the oppressive knife tax with its petty returns has been a subject of continual

Had Mr. Chatfield taken the trouble to refer to his records he would have seen that his present strictures were uncalled for.

Discoveries of concealed cultivation and that to a considerable extent in the Talooks under question, have been not unfrequent.-

In Fuslies 1252-53-54. and 57 my Head Sheristadar discovered lands of this nature to the extent of 2077 Cawnies, which was

was charged with an assessment of Rupees 3951.-12.-6.-

In 1256. my late second Sheristadar — now Dewan Peishkar of Travancore, brought to account lands measuring 494½ Cawnies and — assessible to the amount of Rs. 822.-12-10.-

In 1258 my present second Sheristadar discovered lands to the extent of 167 Cawnies which were assessed at Rupees 461.-14.-5.-

Mr. Robinson in Fusly 1259 brought to light the existence of lands not fully assessed which would bring an additional income to the Government of Rs. 3153-11-3. In addition to which 261 Cawnies of concealed cultivation was discovered by that Gentleman in that and the two following Fuslies which was brought to account at Rupees 573.-13-11.—

See Para 7 of my Report dated 8th November 1850 and Para 16 of Dr. of 22d November 1851.-

One of the advantages anticipated by the charge of the Sub Collector from Tellicherry to Palghat, was that with his larger Cutcherry and a permanent —

Sheristadar

Sheristadar he would be able to investigate more fully and thoroughly all Revenue irregularities than could be expected of the smaller and less influential Cutcherry of a Head Assistant.-

The Sub Collector's Sheristadar an excellent man as Mr. Chatfield truly terms him, has I doubt not been useful in discovering concealed cultivation, but I am by no means satisfied that his zeal has not somewhat exceeded the bounds of discretion.-

This is a matter still under enquiry.-

"Concealed cultivation" means land which has been reclaimed from waste without the knowledge of the Authorities subsequent to the time of the fixed (Tippoo) Survey.- This of course when discovered is fairly liable to be taxed. There is a good deal in the wild and wooded Country on the borders of Coimbatore and Cochin.-

See Mr. Clementson's Report dated 10th October 1835. Para 42 to 46.-

But there is much ground all over Malabar which for one cause or other was purposely unassessed or lightly assessed at the time of the said fixed survey

continual enquiry perplexity and change this natural and correct source of revenue should have been so utterly neglected.- I beg to advise some addition to

survey 80 years ago, and to come down on that without a general new survey would be invidious and opposed to the wishes of the Board and Government as expressed in the Boards Proceedings dated 10th March 1836 Para 28. and Minutes of Consultation dated 22nd April 1837.-

Palghaut, Temelpooram and part of Nedinganad, but the two first Talooks in especial are notoriously lightly assessed. Whether or no the Assessment is so unduly light that it is but fair to the interests of Government that there should be a new general Assessment is a question but till that is determined, the partial survey of individual lands / other than those newly and clandestinely reclaimed / is improper.-

to my establishment from the Huzzoor so as to allow of a more extensive investigation and survey during the present Fusly.-

12. The settlement of the Palghat Talook was concluded and that of Temulpooram Talook nearly so when the Huzzoor Yadast No. 103 dated 7th March last accompanying four lists regarding the new rate of knife-tax, were received. I had not time to introduce the new system in more than 8 or 9 Umshoms of Temulpooram Talook.

Mr. Chatfield appears to have greatly misunderstood this question of the Toddy knives.-

The tax on these knives at Palghat and Temelpoorum was divided into fourteen classes.-

The division gave great scope for intrigue on the part of the Village and Talook Authorities. The 2nd Sheristadar a Teer himself and therefore acquainted with the feelings of the Teers, recommended that in place of fourteen classifications there should be but four.-

The plan which as Mr. Chatfield says had Mr. Robinson's approval was intended chiefly for the good of the people.-

There was no wish to gain a larger revenue from this source of taxation. On the contrary it would be looked on as a cause of congratulation even if there were some decrease of revenue, if the Teers devoted their energies (as they do in many parts of the Country) to pursuits other than those which lead to the increase of intemperance of which there is unhappily

J.R. far

Talook. I must observe that this extensive change appears somewhat arbitrary and hardly based as far as I can see on such equitable or economic grounds as would warrant its unconditional adoption. It has arisen from the recommendation of the 2nd Sheristadar who apparently obtained Mr. Robinson's sanction and concurrence. I have perused Mr. Robinson's report and cannot discover sufficient reasons on which I should presume to recommend so great and as it proves not only distasteful but actually loving change. If the higher rate was too high, it ought of course to be reduced but the circumstances which have occurred to render it more oppressive have of course operated in the same proportion in the lower rate, and to increase the lower standard because it was absolutely necessary to dimenish the higher one seems a most unaccountable manner of escaping a difficulty or regulating a financial demand. Mr. Robinson wishes to restrain boys from holding a knife, but fortunately they have no other means of existence than the very increase of population without a corresponding increase in their resources has of course materially

for too much in Malabar.-

Mr. Chatfield was not directed to introduce the new system. It was left for his own discretion. Any remarks which he had chosen to make upon it would have been listened to with attention.-

Mr. Chatfield does not seem to have studied the subject of the tax on knives in any of its particulars.-

His charges of impolicy and cruelty in making the young son who merely aids his infirm father, pay an additional tax, are grounded in error.-

The

materially incurred the general poverty of this class of people. Their efforts to obtain a livelihood on precarious and decreasing resources is therefore commendable, and calls for assistance rather than restriction. The opposition to the new rates is most determined and cannot be effectually carried out in consequence of its being I think wrong in principle and felt to be egregiously oppressive. I shall not be in the Country at the next Jummabundy Settlement, but would strongly recommend a return to the old System until a more equitable one is proposed by a full enquiry into the Actual circumstances of the Classes who now strongly oppose an increase.-

13. In connection with this subject I must notice what is considered by the people a great hard ship and which appears in much the same light to me. Formerly so long as a family resided in one house, it was thought enough merely to tax one of the Members, but since Fusly 1258 Orders have been issued from the Huzzoor directing every member who may use a knife to be separately and distinctly taxed, altho' there may be no increase whatever of resources, whilst the expenses must of course have naturally increased. When the physical energies of the father wane and his son comes to his Assistance the taxation is doubled just as the means of subsistence diminish by more people having to be supported

from

The son who uses his father's knife pays nothing extra. He only pays extra when he uses a fresh knife, a sure sign that the family have more trees than they had while one was sufficient.

from the original means of supply. If the trees grew and increased even in proportion to the children, there might be some reason for such a system of taxation, but as exactly the reverse is more often the case than otherwise, the peculiar nature of the demand is apparent, and nobody I think but must concur in the reasonableness of the objections. The demand ought, I conceive, to be fixed on the property &c. rather than the person, and the single tax of the father should exempt his sons from the infliction so long as they merely extract what the infirmities of age prevent his doing so effectually.—

14

The Marginal Statement shews the comparative increase of demand and how it exceeds the old one by 200, 100, 75, 50 and 37 per Cent, and is and must be considered a gaecous burthen unless proved to be suitable to the circumstances of the people. The Jumma on this head for Fusly 1201 Amounts to

8 persons — 200 per Cent
150 — Do. — 100 — do.
119 — Do. — 75 — do.
114 — Do. — 50 — do.
34 — Do. — 37 — do.

Rupees	10,550-7-8
Fusly 1202	10,309-1-9
Decrease	51-5-11

Remission granted this year Rupees 899-6-5

15

The Mohturfa Jumma for.

Fusly 1201 Amounts to Rupees	28,092-4-5
" 1202	28,596-9-2
Increase	504-4-9

Gross Increase 1,705-5-11
" Decrease 1,201-1-5
Net Increase 504-4-6

On striking off the half fanam tax in 1201 i.e. 1851/52 was found by Mr. Robenson that there were many houses which had clearly been under assessed and should properly pay the same Amount (one fanam) as was paid by all their neighbours living in similar houses. Mr. Chatfield is altogether wrong in saying that the Majority of the persons subject to this tax are women who work hard for a most uncertain subsistence.—

In this source of Revenue is included the one fanam House tax substitude in lieu of the half fanam tax remitted by Order of the Board. The majority of persons subject to this Item are women who work hard for a most uncertain maintenance.—

The tax on the stones &c. on which Papadom Cakes are made is a general one. It is no harder than similar taxes on trades, and is calculated not to exceed two per Cent of the Net profits.—

Papadum Assessment for Fusly 1202 Rupees 93-2-3

Kalu or Grinding Stones are also included in this an extraordinary tax which has recently spread through the District with a rapidity one could wish only to accompany a less questionable measure. The greatest portion of this tax is paid by Widows and others who have no settled means of support. The tax varies from 1 to 2 fanams each Stone with reference to the presumed circumstances of the owners. The demand for Papadoms is neither great nor constant, and I would beg to recommend the abolition of a tax which seems to have been irregularly imposed and cannot be collected without peculiar hardship to an indigent but industrious class of people.—

I

I cannot dismiss the unsavory Mohturpha tax without recording my belief that its collection in Malabar is more or less accompanied with seems of wrong and oppression. In a course of 20 years service I have never witnessed, and hope never again to witness such irregularities as attracted my attention in Chowghat. Old women and cripples are not exempted from its influence and the local Officers were accused of every kind of oppression in its collection. We are led to hope for its entire abolition before long, and in the interim much care will be requisite to make it as little oppressive as possible in the extensive Talook of Chowghat. The poor of Malabar are, from the nature of the climate, compelled to construct more expensive Houses than in other Districts, and if a waterproof hut is the test of competence, it is such a test as results from necessary wants and not from any indulgence in superfluous luxury.

It is not probable that the local Officers would use "every kind of oppression" to recover the trifle involved in the Mohturpha tax and especially in the case of old women and cripples.

My belief is that Mr. Chatfield was deceived and that the old women and cripples were brought forward to play a part and gain remission for the young and healthy, kept in the black ground.

I have had this "dodge" attempted frequently and especially in Chowghat, where there are many diseased people / The Cochin leg or Elephantiasis is very common there /.

Mr. Chatfield should have made enquiries, and if satisfied that the parties really were what they represented themselves / poor and helpless / have given them relief.

16 It has been proposed by my predecessors to bring the Putter Brahmins under the influence of the Mohturpha by taxing the houses of their Gramams. to this I can see no objection, provided a portion of the Amount, calculated at some 6,000 Rupees per annum or upwards, was taken for enlarging and improving the defective Police. If called upon to pay for protection, the Putters would have a claim to demand what at present they cannot be said to possess.

Mr. Chatfield has apparently much misunderstood the question of the Yenamakul Cultivation.

The Poonja kholl is not, as he thinks, the cultivation in general, but only the Cultivation which goes on in the middle and very deepest part of the lake.

This, owing to the difficulty of getting out the water in sufficient time to raise a crop before the next rains, is always a hazardous and precarious culture. It is in consequence very lightly taxed and remissions are freely given whenever necessary.

But the great mass of the Cultivation which is carried on in the sides and more shallow parts of the lake, is by no means so precarious.

A storm, like that of March last which drowns the whole crop just as it is ripening is an exceptional misfortune.

17. In the Talook of Chowghat there is a Cultivation called the "Poonjah kholl," and is for the most part carried on above the Yenamakul Dam. The Jumma on this head for Fusly 1261

Amounts to Rupees	3,630	13	6
Fusly 1262 — " —	1,725	1	8
Decrease	1,905	11	10

You are aware that this is a precarious Cultivation conducted in the midst of water, and as such, the profit and loss depends upon the comencement of the N. West Monsoon

It

Mr. Chatfield thinks me thrice as bad as Tippoo because I take 3,000 Rupees where he only took 1000!

The Board are aware that up to Fusly 1230 less than 1000 was taken.

In that year the Govern= ment completed the building of a Dam to keep out the Salt water, which has cost some 50,000 Rupees and the additional Cultivation at once rendered easy by its erection, enabled me to fix the larger Assessment now complained of by Mr. Chatfield. The Assessment was determined after a very careful survey conducted principally by my Head Sheristadar and Mr. Platel, two most experienc= ed public Servants.—

It was not settled "on rather hasty enquiry" as Mr. Chatfield would have it. They were employed on the spot for more than four weeks and the result of their labor was only confirmed after the parties principally interested in the matter had come before me

Remission granted in Fusly 1202 - 2190 rs. /
Deduct reclaimed remission ——— 214-4-9
Balance remission ——— 1905-11-10

It appears that consider= able remissions were granted in former years, and as usual, the Cultivators having this year complained of great loss and the increased rate of Assessment introduced about 7 years ago on Sheld Cutcherry at Yenamakul, inspected the Cultivation, made enquiries and granted such remissions as seemed to me absolutely necessary. I very much doubt however whether the remission was at all equivalent to the losses sustained, and personally I was inclined to make it greater until I was informed that the Proprietors had consented to accept the reduction. There were many complaints against the increased rate of Assess= ment which I was told was more than doubled on a rather hasty enquiry by the Head Sheristadar

me and after some talk expressed their concurrence with the proposed rates of taxation.—

That the rates were not consider= ed unfairly burthen-some is sufficiently proved by the fact of large portions of waste having been taken up since on similar rates. This last year almost every reclaimable spot was reclaimed.—

Mr. Chatfield's idea that an annual inspec= tion is better than a fixed Assessment I am unable to assent to and I am sure it would not be generally popular.

Sheristadar. The fixing, or rather the attempt to fix a higher permanent Revenue on what is and must always be a precarious crop, seems to me, as it was complained of, a most unnecessary and injurious proceeding. It checks energy from the dread of an exorbitant demand and opens a wide field for every species of chicanery. There must be an annual inspec= tion in which the Ryot and Assessment Officer are pitted against each other, when the one is threatened by a heavy fixed demand, and the other has to be bribed to recommend its reduction, and, of course varies the reduction in proportion to the Ryots ability or willingness to pay — Yenamakul would, I fancy, be more productive if left to an unfixed Assessment varying in proportion to the labor expended and the Crop produced and then Annually inspected by the most responsible Native Officers with the occasional check of European supervision. On the same water-logged land Tippoo had an Assessment of some 1000 Rs. which has been latterly raised by us to 3000!.—

Of

18 Of the lands for which Pattayams were granted ex-
x Assessment Rupees 78 — + 13 shoulds have been brought to account this year but I regret to say, that from the negligence of the Pattayam holders from poverty or a notion that the lands are barren or soil bad, they had not been brought to account. I have however issued such Orders as seemed necessary, and hope they will have the desired effect.

19 The Collection on account of Land Revenue during the Fusly under report Amounted to Rupees 505908-2-3 Vizt. Rupees 501704-1-5 on account of this Fusly and Rupees 4204-"-10 on account of former Balance — the outstanding Balance on account of the Fusly under report Amounts of Rupees 1172-4-5, which will be recovered without delay.

20 On account of the extra Sources of Revenue the Collection Amounts to Rupees 47040-13-7 Vizt. Rupees 28428-8-9 on account of Mohturpha, Rupees 15715-12-10 of Ratty Chatty, Rupees 2371-8-" of Ferry Farms and Rupees 531 on account of Abkary.

21 Three hundred and twenty three Petitions were presented complaining of the rate of Assessment in the eight Umshoms forming the Hobly of Patamby in the Talook of Nedunganad.

Mr. Chatfield would have acted very wrong had he as he states, given a general remission of 2 per Cent without looking to individual cases, but he has forgotten what he did do. Remissions were given according to supposed individual needs, the amount equalling 2 per Cent on the general demand.

I held Cutcherry at Patamby, & referred to the old records, and after making enquiries found that the Ryots had good cause for Complaint and therefore granted remissions at the rate of two per Cent as shewn below.

Jumma for Fusly 1261	72811	4	7
" 1262	73474	3	7
Increase Rupees	662	1	"
Remissions granted during the Settlement	400	6	5

The

There is no doubt that the Assessment on these 8 Umshoms is heavy on many of the Ryots but Mr. Chatfield's sketch as may be imagined from the fact that he only stopt a few hours at Pattamby ere he arrived, as is shewn by a public record, in the morning and left in the evening, is much overcolored.

Mr. Patel does not allow the accuracy of Mr. Chatfield's recollection of the conversation he had with him on the subject of Pattamby.

A Memorandum of the remissions which have had to be made in the last ten years is annexed.

It is only in unpropitious years it will be seen that large remissions have been given.

But the unpropitious times are certainly more common here than in most parts of Malabar, the crops being more liable to damage by either a superabundance or partial want of rain.

And unquestionably, as I said before, many of the Ryots are more heavily assessed than their neighbours.

There

The Assessment in these Umshoms and I believe in the adjoining Talook is extremely oppressive, and whilst it has ruined the Estates has thoroughly demoralized the people who have become the most litigious and fraudulent in the Country. This state of things has been long known, but I am perfectly unable to account for its long continuance. Surely an examination ought to be made and an Assessment fixed on sounder and more liberal principle than the present. The late Head Sheristedar is reported to have brought this subject prominently to notice, and Mr. Patel who was once mobd by the unfortunate Ryots in their eagerness to make their grievances heard, can speak to the reality of their sufferings; I trust a survey of these Umshoms may be made, as I assured the discontented population that I would use my utmost exertion to make their distresses known, and, if possible, have them alleviated by securing a fair and moderate Assessment.

I

There is a well supported tradition that an extra burthen was imposed by Tippoo's Surveyors on all who did not give a required douceur.—

Mr. Clementson it will be seen in his Summabundy Report for Fusly 1244. para 49 in stating that there were sundry cases of over-assessment in Malabar, especially noted Puttam by as one of them.—

He apparently thought, from what he said in the same report, of taking up this with other cases, but never did so.—

I made myself some enquiry in this matter a considerable time ago, as Mr. Chatfield was aware.— It seemed to me that the only effectual remedy would be a new Survey and a relinquishment on the part of the Government of such taxation as was found to be in excess. But other

I applied for the report on this subject said to have been written by the Head Sheristedar shortly before his death, but received no answer to my application. A survey would be a matter of no great difficulty if proper assistance was rendered from the Huzzoor, or it might be altogether managed by the Huzzoor Establishment with the aid of a European Officer. By this means the Sub Collectors Establishment would be available for enquiry into the concealed and increased cultivation alluded to in a preceding para.—

The superficial style of survey customary to Malabar is all that is necessary or desirable for a scientific admeasurement is not only difficult amongst the irregularities of this Country but from the great variety in productiveness of the soil in almost every field and

other matters of importance,

Sec: Ex: M: Cons: 12th Sept. 1849 the Chemt
" Bd Pro: d/ 28th Nov. 1850.
" Do ——— Do ——— Do Nair, the

Betutnad Rajah and the Chowghat case intervened, and it was desirable to get them off hand first.—

A good deal has been done with regard to the first named matter the second is still employing our best attention and the third is not yet commenced.—

It will be well if after that survey is completed, the experience gained in it be turned towards examining and remedying the state of these Nedugunad Umshoms.— In the mean time remissions must continue to be given as they have been hitherto wherever necessary.— (Signed) A. V. Conolly Collector.—

22. As my last Report from Malabar, I cannot close a long career in the Province without preferring the claims of my excellent Sheristedar for promotion whenever occasion may offer. His integrity is well known, and his exertions and capacity entitle him to every favorable consideration.—

and upon almost every raising ground from the capricious or necessary enlargement or curtailment of Cultivation, in accordance with the seasons or the nature of adjoining lands would be a useless expenditure, and no criterion on which to base an equitable assessment.— In fact, after a scientific survey, we should need a geological enquiry, and after that the simple process of the Country would be requisite before we could frame our Calculation on any thing like a satisfactory basis.—

B No 2

From the Collector of Malabar

Sir,

I have the honor to request you will be good enough to lay before the Board the accompanying copy of an application from some of the European Merchants residing at Calicut I have received a similar Petition from several of the Native Merchants.—

Distance from Calicut 7 Miles

2 The Board are aware that Beypoor is a port subordinate to Calicut. It has the advantage of a fine navigable River through which the produce of the Interior is brought down. The necessity of establishing a subordinate Custom house at that place has long attached attention; but the paucity of the Establishment attached to the Calicut Custom house made us pause.—

As

3 As an experimental measure I would request the Board's authority to employ from the 1st Proximo a Sub Manager on 15 Rupees and three Peons at 4 Rupees each, and enter them in my next Statement of charges to be maintained without Estimate. If the arrangement be found to answer, I will at the end of the present Fasly submit an application to make it permanent.—

Calicut, 19th December 1853. } Signed W. T. Conolly.
Collector

To.
W. T. Conolly Esqr.
Collector of Malabar.

Sir, We beg to bring to your notice that for the want of a Custom House at Beypoor, we experience considerable inconvenience and delay in importing and exporting goods at that Port, as we are under the indispensable necessity of going to Calicut for the purpose of obtaining Permits and other Documents which occupies a whole day. The Vessels are in consequence unavoidably detained and the importers and exporters subjected to needless expence. The Beypoor Port is growing daily in importance from the facility it affords for the landing and shipping of articles, as well as from the safety it

it gives to Vessels of all sorts. The arrivals and departures at that Port exceed in number those at Tanoor and Darlandy as will be evident by a reference to the Calicut Sea Custom House reports. If therefore a Manager with a Goomastah be appointed at Beypoor it would tend not only to remove the great inconvenience here complained of but much benefit the Merchants and prove a great check to Smuggling. Under these circumstances we respectfully request that a Custom House may be established at the said place, for which act of justice, we shall feel ever grateful to you.—

Calicut 3d December 1853. } Signed Jas. Andrews.
W. Kennedy.
Chas. Horne.

This Petition having been brought to me, I beg to say I most fully concur in it and rather than not have a Custom House would willingly pay any extra charge on account of a Manager.—

B. No. 20.

From the Acting Collector of Madras.—

To W. H. Bayley Esqre
Secretary to the
Board of Revenue.

Sir,

I have the honor to forward a Copy of a report from the Superintendent of Salt on the inconveniences arising from the defective state of the Channels which convey Salt water to Pans distant from the Lake, and suggesting certain measures that may be adopted with the view of obviating these irregularities on the Channels of the new Pans at Poordewakum.—

2 I am of opinion that the best plan would be to adopt the practice said by the Superintendent to prevail in Chingleput namely to have the Channels kept in order by the Government Establishment under the Department of Public Works and the outlay recovered from the Poodewarum

Poodewarum, the consent of the Manufacturers to this course being previously obtained.—

Madras.—
28th December 1853.

Signed H. Stokes
Acting Collector

No. 225

To H. Stokes Esqre
Acting Collector of
Madras.

Sir,

Para 1 I have the honor to report that much inconvenience has been felt during the past and previous years, from the bad state of the Calvoys or Channels which Convey Salt water Communication to Pans most distant from the Lake and back-water, and into which the Boats have to enter in order to bring away the Salt when far from the Rivers edge. This has arisen from the unequal and irregular manner in which the Manufacturers have originally performed what each considered to be his share of Channel work or from the neglect and imperfect repair of them respective portions. The

Circar

Circar has no means of enforcing the work from them except in using threats to take their Paus from them or to put a stop to their working them, until their share of the Canal is completed and if these extreme measure is resorted to by the Circar it is at a late period and after every other means have proved ineffectual and it therefore loses by the delay.

2 The Boat Contractor has cause for complaint if the Channels are not wide or deep enough for the Boats to enter, and in that case he will not bring his Boats into them except on new and Full Moon day when the Tides are high. In two instances in the past seasons his Boats have I regret to say received damage.—

3 To obviate such irregularity and inconvenience I suggested to the Manufacturers during the payment recently made by me of their Cooliarum, that they should lay a certain sum by for this purpose and after clubbing their funds together that they should obtain from our Comicopoly and

and Ameen, a List showing the number of feet to be dug & repaired by each holder of Paus nominate three of the chief men to undertake the work, deposit their funds with the latter have them to execute the work by employing themselves & other labourers at it and dividing any surplus after accounts of the work had been deposited with the Ameen. Some of the Manufacturers seem disposed to carry out this suggestion if the Circar would act in concert with them, others decline to join in any scheme or to advance any money for the common good, while others paid their Coolevarium to their Creditors and entered into fresh arrangements with them by borrowing further sums for the expenses of Manufacture of the ensuing season. In para 8 of my letter of the 5th March 1853 No 29 I stated that the Shotriadar of Atteput had been to the expense of digging a large Canal. the

has

has repeatedly applied to me to recover the sums due to him by the Manufacturers or to order them to pay him but in the absence of Documents to show what had been done for each holder many of whom have transferred their Pans to others I found it impossible to interfere at so late a period.—

4 In submitting the accompanying application with enclosures from many of the Chief Manufacturers for your orders I would beg to do so in the desire to obviate any irregularity or inconvenience from newly cutting or repairing the Channels in the new Pans of Poordewanta. and with a view of rendering all those Pans capable of producing a good average supply in the first year 1854. and I would therefore suggest for your consideration that one of the two following Courses be adopted for carrying out the contemplated work.—

Before distributing the Sum that an Estimate be framed shewing the probable expense to be undergone in

Cutting

Cutting Colvoyer or repairing Channels and Exhibiting the proportion of work & sum to be paid by the holder of each Pan and that the Signature of each holder be affixed in token of his acknowledgement of his share of work Then that the distributions & take place and the entire work be undertaken by the Circar advancing money for the purpose and by recovering the same from Coolies in payments to be made during the season as is the practice in the Chinglepet & left in this Department, & 2nd that the holder of each Pan be put in possession only on his paying down his share of work there after Collection of the entire amount that the work be undertaken under the Control of the Circar with the Cooperation of three & more of the chief holders to be nominated by themselves the accounts of disbursements to be signed by them and sent to the Hoozoor through

Department of Public Works but Copy

district the accounts to be kept in the

through this Department.—

Customs.
H. Ricketts & E. Currie. } Esqrs

Sir,

I am directed to acknowledge the receipt of Mr. Under Secretary Young's letter № 141 dated the 20th April last with its enclosures, relative to a proposal for discontinuing the Weekly reports interchanged at present by the Customs Officers in the several Presidencies which were introduced with a view of checking the evasion of Export duty by Vessels professing to clear out for a Port in India, but in reality bound for a Foreign Port.-

2. So long as export duties are levied and an exception is made in favor of the Coasting Trade that exception must, the Board observe, be liable to abuse. The correspondence forwarded with the letter under reply shews that it is in fact abused more or less in most of the Madras Districts especially those

those on the western Side of the Peninsula The Weekly reports which Collectors of Customs were required to interchange by Government Orders of the 30th November 1848 are declared to be ineffectual, and it is proposed by the Madras and Bombay authorities that they should be discontinued without the substitution of any other check: that Government should shut its eyes and quietly permit the continuance and extension of the acknowledged abuse a course which in some quarters must the Board apprehend lead eventually to the almost entire cessation of the payment of Export duties.-

3. The Board cannot think this expedient. It may possibly be proper to abolish export duties altogether, but as long as the law provides for their Collection it cannot be right to wink at a systematic evasion of the law.-

4. The mere numerical returns prescribed by the Government Orders of the 13th June 1851 must it is true be almost if not quite useless; but the detailed reports originally directed to be interchanged by Collectors by Government Orders of the 30th November 1848. if regularly furnished and their contents embodied in suitable registers in the manner described in the Boards letter of the 25th March 1851 must have been effective at least for the discovery of any instances in which the vessel did not proceed to the declared Port. It would seem however that in some of the Madras Districts

Districts, owing to the large number of departures and the weakness of the Establishments the Returns were never even prepared, and the difficulty of working the System effectively or indeed at all in districts so circumstanced is apparently the cause which has led to the recommendation that it should be abandoned.-

5.- Of the Officers subordinate to this Board the Deputy Collector in charge of the Calcutta Custom House states, that "the returns have been found of no use whatever." He refers, the Board conclude to the numerical returns now in use, as the former detail Statements were favorably reported of by the Collector Mr. Bracken The Collector of Balasore also states that the Returns are of "real use for preventing the fraudulent evasion of Export duty" For a place circumstanced as Balasore is they are no doubt unnecessary. The craft belonging to Balasore are, for the most part very small, and though they nominally clear for Calcutta their trade is carried on in a great measure with the Marts and Villages on the Banks of the Hooghly and a large proportion of them never enter at the Calcutta Custom House. But with Chittagong the case is different Vessels from that Port trade with Ceylon the Straits and Arracan: and they have the power of evading the demand of Export duty by entering at the Custom House as destined for Madras. This abuse was noticed in

in the Board's letter of 25th March 1851 as prevailing to a small extent" but on turning to the Statement which accompanied that letter, they observe that it was really more considerable than the expression made use of implies only 2/3ds of the Vessels which cleared out for Madras within the three years from 1848 to 1850 having really proceeded to that Port. The Collector in his letter of the 25th May last was of opinion that if the present check is abandoned some other should be substituted and he concurred in a suggestion of the Port Master Mr. Elson "that the shipper of goods having declared for a Port which exempted him from the payment of duty should be bound to shew on his return by a Certificate of the Collector of Customs at the Port of his discharge that he proceeded to the Port he declared for or to some other port in the same Category, and failing to do this and not satisfactorily accounting for the same the Cargo thus taken free of duty should be subjected to the levy of the same duty as if the Vessel had been cleared for a Port not subject to the Government of the East India Company."

6. The Board were disposed to Concur in the above recommendation but it occurred to them that as there are many places with which a Coasting trade is carried on at which no Customs Authorities are stationed there would be a difficulty in giving effect to

to a rule requiring the production of Certificates from such places and they thought it advisable that a reference should be made to Mr. Elson for any suggestions he might have to offer in reference to this difficulty Mr. Elson's reply to this requisition was not received till the 4th instant which I am desired to observe has been the cause of the delay which has occurred in submitting this report.

7. Mr. Elson observes that at most places to which goods could be conveyed there must be if not a Collector of Customs or Land Revenue at all events a Government Officer of some description by or thro' whom the required Certificate might be granted such, the Board apprehend will ordinarily be the Case. A Shannadar for instance might report to the Magistrate the date of a Sloops arrival and discharge of her Cargo, and a Copy of this report with a brief abstract of it in English attested by the Magistrate would be a sufficient Certificate.

8 The Board are accordingly of opinion that a Rule similar to that proposed by Mr. Elson might unobjectionably be introduced and that such a rule is in fact necessary for the protection of the revenue derived from Export duties. They would lay the responsibility on the vessel and provide for enforcing it by authorizing the withholding of Port clearance until the demand is made good and in the event of any considerable delay, or of the Vessel being laid up they would authorize the attachment and sale of the Vessel in satisfaction of the

the demand: such a Rule would of course require legislative sanction.

Para 1. With reference to the Extract from

Minutes of Consultation 4th June 1852 No. 537 Revenue Department.

from the Minutes of Consultation noted in the Margin, I do myself the honor of reporting for the information of the Right Honorable the Governor in Council, that I immediately put myself in communication with Mr. Saunsey on the subject there referred to Mr. Saunsey forwarded to me 4 Certified Copies of the Leases referred to in his letter to the Board of Revenue, informing me, that they are the only documents Mr. Key has relating to Sir, William Rumbold's Title.—

2. These Copies appearing to me to be authentic, I informed Mr. Saunsey, that I should be prepared to advise Government to grant the Licence if the Reverend Mr. Lobo would consent to execute a defeazance in such Terms as I should require.—

3. Mr. Saunsey subsequently informed me, that Mr. Lobo would execute such a defeazance, and I thereupon prepared Drafts of Four Licences and also Drafts of four defeazances for execution by Mr. Lobo. These I submitted to Mr. Saunsey for his perusal and approval, on behalf of Mr. Lobo he having approved of them, I had had them engrossed.—

4. I herewith submit the engrossments of

of the 4 Licences for the purpose of having the Seal of the Honorable Company affixed thereto.—

5. The defeazances are for the purpose of preventing Mr. Lobo or his representatives from reassigning these Premises "without the Licence of the Governor of Fort St. George "for the time being in Council."—

6 If His Excellency in Council approves of this course Mr. Lobo will execute the defeazances, and Mr. Saunsey will deliver the same to me, in exchange for the Licences, when I will do myself the hono- of forwarding such defeazances to you for deposit in the proper department.—

7. I return the several papers which accompanyed the Extract from the Minutes of Consultation noted above.—

Fort St. George.

Sir,

At the request of Messrs. Armitage Brothers Merchants of this Port and Agents of the Ship Amany, I am directed to transmit to you, for the information of the Right Honorable the Gavernor in Council the annexed copy of a letter and of its Enclosure, received from that Firm notifying that the Master of the said Vessel had run away with her from Colombo Roads during the night of the 2d November last.—

Colonial Secretary's Office, Colombo 31st December 1853. } /Signed/ C. J. MacCarthy

The Honorable

The Colonial Secretary

Sir, We have the honor to enclose copy of a letter from the owner of the "Amany" the

the Captain of which Vessel committed Barratry and ran away with the Ship from the Colombo Roads during the night of the 2d. November.—

You will perceive that he wishes us to write to the authorities at various points which he names but as our letters would have little or no authority there and the Captain has committed a serious crime while within the jurisdiction of the Colonial Government we trust that you will not refuse to take such measures as may lead to his arrest and the detention of the Ship or it may be apprehended a career of piracy will be the result.—

Colombo 7th December 1853. / Signed / Armitage Brothers.

Messrs. Armitage Brothers.

Gentlemen,

I have to acknowledge the receipt of your letters dated the 29th Ultimo and the 3d. and 7th. instant, with enclosed receipts and an order of Rupees /500/ five hundred.

I am exctremely sorry to hear of Captain Perry's dishonest conduct in having run away with the "Amany" at night and I hope and trust by your aid and assistance to be able to apprehend the Captain and Mate before long. I am thankful to

to you for having written to the Collectors of Galle and Madras to apprehend the parties, and secure the Vessel, and you will add to the obligation by writing to the Authorities of Bombay, Cochin, Penang, Singapoor, Rungoon, Moulmain, and acquaint me of the same as soon as done, I am glad you have refused to pay the £10 to the crew of the "Success" as I am confident that no man is bound to pay another for having assisted in robbing him of his own property therefore Captain Perry's order on you or me is of no use whatever. I hope you will lay a charge against the Captain who lent his men and the crew that assisted Captain Perry in running away with the Brig before the authorities there, that the men may be punished for it.—

The "Amany" had 25 Caringa Lascars on board with a Syrang at the time she was forced to leave Colombo by the crew of the "Success" all of whom very justly resisted in leaving the place, I shall feel thankful if you will write to all your Agents to seize the "Amany" in case she is taken to any of their Ports, and I shall gladly pay the post, please let me know if any part of the crew have been left behind as there are

Several

several Vessels at Colombo going to Ceylon and Maldive, please engage a man or two on board on ten or fifteen Rupees per month to ascertain the arrival of the Amany at these Ports and give you the information I lay the whole affair in your hands and trust to your kind exertion for the recovery of my Vessel. —

From the Agent to the Governor at Kurnool

Requesting authority to abolish a Moturpha tax termed Ganapoojah collected alone at Calvogotla in Dhone Talook from certain Enamdars and informing that and objectionable tax termed "Avotee" levied at the Villages of Goodoor has been abolished and soliciting approval for the same.

Sir,

I have the honor to request the authority of the Board to abolish a Moturpha tax termed "Ganapoojah" which is collected alone in the village of Calvogotlah, Dhone Talook, from certain holders of Enams.—

2 The tax appears to have originated from the Curnums of the Village having collected in the Mogulyetime certain fees from the Enamdars in excess of the Enamity tax and the circumstance coming to the Knowledge of the authorities the amount was ordered to be collected and carried to the credit of the Cirkar and the practice has continued to this time.—

3 As the Enamdars are charged the Enamity tax on their lands according to the rates prevailing throughout the District and considering

Fort St George 23d January 1854

considering the circumstances under which the Tax originated I think it is not desirable to perpetuate it and therefore beg to recommend its abolition. The amount annually collected is only Rupees 12–3–0.—

4 I take the same opportunity of informing the Board that I have so taken upon myself to abolish an objectionable Tax termed Avootee levied only in the Village of Goodoor in the Talook of that name.—

5 The tax originated in the Mogul's time and is for the right of measuring all the grain that is produced in or brought into the Village for Sale the profits to the renter of the tax being a per centage on the quantity measured.—

6 The ryots and Merchants of the Village complained in the Month of October that not only was their loss to them in a season like the present in being compelled to give a percentage of their grain for having it measured by a particular individual but it entailed great inconvenience on them in being compelled to have it thus measured before they could effect their sales and purchases, and as a monopoly

* 2½ measures for every 100 measures by merchants 1/2 measures for every 100 measures by Ryots.—

Fort St George 23d January 1854.

of this nature was obviously objectionable and considering the circumstances of the Season I deemed it necessary to afford the relief sought for, and I trust the Board will approve of the measure. The amount collected from the Renter is Rupees 104–4–0 annually.—

B. No. 101.

From the Collector of Chingleput

Reporting on the balances outstanding against Shotriem Villages for Fasly 1262.—

To W. H. Bayley Esqre.
Secretary to the Board of Revenue.
Fort St. George

Sir

I have the honor to state that under instructions from the Board of Revenue conveyed in Extract from the Proceedings under date the 29th August 1853. I issued notifications to the several Shotriendars who were in arrears for Fasly each announcing that their Estates would be resumed in the event of their failing to liquidate the balances outstanding against them within the period of one month therein specified. I beg now to forward a Statement of the balances still due on the several Estates which it will be observed are generally unimportant and I conceive

render a recourse to severe measures necessary.

2 I may however state that in

+ Avalóre one instance + the proprietors did not liquidate the balances until after the expiration of the time allowed their unwillingness to dispose of their produce at the at the low prices which then prevailed and their being otherwise unable to obtain loans of money for the payment of the demand may be assigned as the main causes of their having thus rendered their Shotriem liable to forfeiture according to the strict letter of the order which however I beg to recommend may not be enforced against them in consideration of the unfavorable nature of the past and present seasons.—

Chingleput District,
Collectors Cutcherry,
Pillecarny 31st December 1853.

Proceedings

1367 Fort St George 23 January 1854.

B2 P. 130.

Proceedings thereon. (31.32)

Under the circumstances brought to notice in para 2 of the foregoing letter the Board of Revenue will not press the resumption of the Shotriem of the Village of Avalore Respecting the remaining Estates they concur with the Collector in opinion that it is not necessary to resort to severe measures and they accordingly direct that some further period be allowed for the liquidation of the balances and the result reported to this Office in due course.

No. 173.

To W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St George.

(33)

B2 P. 57.

From the Collector of North Arcot.

Sir,

Para 1 Petition 189 of 1853 is from certain inhabitants of Iyelvandy in the Wundavash Talook who complain that the first class land of their village is so exorbitantly assessed that it is utterly impossible to pay the Assessment and that the land is consequently permanently waste, and they pray that the assessment may be reduced.—

2 On enquiry the allegations of the Petitioners are found to be in the main quite true The Land under the large tank is 59—10 classified as shown below The first class contains Cawnies 11—14 with an assessment of Rs 31—9—9 a Cawney; and the whole of this is permanently waste with the exception of the trifling extent of

Recommends that the assessment of certain lands in the Village of Iyelvandy in the Wundavash Talook may be reduced.—

Herein enclosed

annas
of 9 3/4 in twenty fields which in very small fragments has been charged to the holders of adjoining fields of other classes as having been added to those of fields out of the adjoining 1st class of fields.—

3 Thus this whole class of land the best in the village is entirely useless and unproductive alike to the Government and to the Ryot It seems obviously the part of wisdom therefore to reduce the assessment and the Honorable Court in their Despatch of the 2d June 1853 have prescribed such a course. This village indeed does not stand alone, the like evil exists in very many others. I hope to be able at no distant date to submit a plan for remedying this most pernicious state of things but I do not think that a reason for deferring redress in the present case and I beg to submit the following recommendation.—

4 It will be seen in the table below that there are five classes of Punjah in the village that while the assessment of the 1st class is Rs A P 31-9-9 that of the other four classes ranges from

6 11 7 to 12 14 6 and further that while the whole of the first class lands are waste those of all the other classes are almost entirely cultivated. The land of the First class is certified by the Tahsildar to be good land and well situated for irrigation I propose therefore to lower the assessment from Rs A P 31-9-9 the present rate (though only nominal because never paid) to 4 1/2 Pags or 15 3/4 Rupees being higher but not excessively higher than the present 2d class assessment at this rate I see no reason to doubt that the whole land will be cultivated and as it is unlikely that much or perhaps any of the usually cultivated land will be abandoned the Government will thus gain an addition of 180 Rupees a year in Revenue Even if an equal extent is left waste which is in the least degree improbable, still Government will gain much by the higher assessment of this land and the gain to the Ryot will be greater still It seems scarcely necessary to add that I propose that the reduction should extend to the whole of the 1st class land including that now charged for as above specified.—

Villaporum —— D:— at Vulvanoor
Chailput —— D:— at Chailput
Tpeculloor —— D:— at the Cutcherry
Tpenemallee — D:— at the Cutcherry

3 In my report for the preceding year I had occasion to point out that the result was the most favorable on record and I remarked that I could not expect the height then reached to be maintained without fluctuation, as experience had shown that the high assessment of the District makes the influence of season and price unusually powerful on the extent of cultivation which the people undertake. When compared

		Cs	a	p
Fusly 1261		25,22,927	8	1
" 1262		21,21,369	9	9
Decrease		101,557	14	4

with the unprecedentedly high standard of the previous year, the Settlement of the Fusly under report exhibits a decrease of Rupees 101,557-14-4 in consequence of a diminished cultivation but its result considerably exceeds the average of preceding years as shown in the marginal Statement.

		Cs	a	p

The

Fort St George 23d January 1851.

4 The remarks appended by me to the Demand Collection and Balance Statements from June to October will have shown the Board that the season was not as favorable to agricultural operations as its predecessor. The scantiness of the showers brought by the South West monsoon in the early part of the Fusly impeded the Poonjah and Nunjah cultivation in both of which there was an extensive decline

Nunjah Cultivation upto 11th September or Avany

until October when the copious rain brought by the North West monsoon enabled the ryots to sow a portion of the Nunjah land which the previous drought had obliged them to leave uncultivated. In December and January rain continued to fall with unusual heaviness, and although this was favorable to the Nunjah lands, it injured the Poonjah crops which were then ready for reaping. In March the District was

		Cawnies		Settlement

Nunjah	6,390	15½	70,261	1	5
Garden	31	10	2,16	3	6
	27,060	14	1,02,160	11	3

Fort St George 23d January 1854

was visited by a Storm, as reported in my letter of the 2d April, which caused considerable damage in the Southern Talooks to plantations, fruit trees and such Crops as were then on the ground. The greater part of the harvest had however been previously stored, and the force of the Hurricane was less felt than in the adjoining Districts of Tanjore & Trichinopoly.

5 The freshes in the four principal rivers, the Coleroon, Vellaur, Pennaur and Gudduloor, were ample and steady throughout the season, and enabled the cultivation dependent upon them to be carried on with great success.

6 The state of the public health continued satisfactory throughout the year in comparison with other seasons. Cholera visited some parts of the District but though it showed itself occasionally in a virulent form its attacks were not extensive and other epidemics, such as small pox and fevers, were little

Known

Fort St George 23d January 1854

Known - The Storm of March caused considerable loss among the Sheep and Goats, but otherwise the season proved favorable to the live Stock of the ryots.

7 In considering the results of the season on the industry and interests of the cultivators it may be pronounced that the Kunjah crops were generally rich and full but that the outturn of the Poonjah lands was below the ordinary. Fruit and other Garden produce more especially Plantains and Betel leaf, were likewise scanty, in consequence of the effects of the Storm, and the Indigo crop which is so important an aid to the ryots also suffered in some degree first by the storm, and afterwards by the continued drought which succeeded it.

8 The prices of most descriptions of agricultural produce continued to show a decline, and this circumstance had doubtlessly an influence, as well as the scantiness of the early grains, in contracting the cultivation of the year. My report for 1261 showed that prices then ranged so low as to press upon the ryots resources and in the Fusly now under review a further decline occurred. The accompanying Statement No 6 exhibits the prices of the principal grains in the different

Para 5

Custah

Fort St George 23d January 1854.

Cusbah towns, but it is proper to observe that the prices there entered are the average rates of the entire year, and consequently higher than those which prevailed during the months when the principal portion of the produce is brought into the market to enable the ryots to discharge the heavier Rists. The marginal Statement exhibits the late prices per Garce of the Nunjah and Poonjah grains chiefly grown in this District and as the commutation rate on which the Mohtah assessment was fixed is Rupees 70 for grain of all descriptions, it is evident that in the present state of the market the agricultural interest must be under difficulty and depression. It was fortunate that in the year to which this report refers the remunerating price obtained for Indigo facilitated the collection of the revenue.

10 The result of the Dittum is exhibited in the following comparative Statement and shows that the influences which I have had occasion to notice on previous occasions still continued in force. The dittum engagements entered into by the people fell below those of the preceding year by 32,295 Cawnies, as the unpromising circumstances under which the Season opened naturally caused discouragement, and until the assessment is modified and the Dittum System better understood the people will always be backward in signing engagements. The additional lands subsequently taken up for cultivation on a favorable fall of rain occurring amounted to 74,420 Cawnies being an excess of 5,234 Cawnies over similar lands in the preceding year, and although an equally liberal indulgence was extended to Dittum lands unavoidably left waste the deduction from the Settlement on this account

Deductions for Dittum Bunjer.

To

Fort St. George 23d January 1854.

11 To show more clearly the principles upon which the Settlement was made I subjoin a Comparative Statement of the Cabooleat Bunjer, or land included in the Dittum, but deducted from the Settlement on account of its being left uncultivated It will be observed that out of the total quantity of 16,467 Cawnies 14,300 Cawnies were left fallow in the ordinary course of agriculture. The re-mission for adventitious causes, such as loss of Cattle, sickness or unfavorableness of season was therefore limited to 2167 Cawnies, as assessed at Rupees 9,135-9-3

It is however to be observed that the actual decrease of Cultivation in the above lands was only Rs. 95,803 =4—6 as six resumed Jaghire Villages which were under amany in 1261 were rented out in the late fusly and caused a transfer of Rupees 6357-10-9 from the head of Amany to that of Rented Villages.—

1262	3,70,002	12/4	12,58,077	4	10
Decrease	20,638	4 5/8	31,483	3	4

13. The Poonjah cultivation amounted to Cawnies 3,70,002- and 12 1/4 with an assessment of Rupees 12,58,077-4-10 thus exhibiting a net decrease of 20,638-4 5/8 Cawnies (Caboolut Bunjer included) and Rupees 31,483-3-4. It will be observed from Statement No. 12 that the

Fort St.e George 23d. January 1854.

the Poonjah cultivation was generally short of the preceding fusly but more especially in the western Talooks and this result is entirely attributable to effects of season with the exception of the Superior lands which are left waste in consequence of over assessment, the people are ready to carry on Poonjah Cultivation as far as the season and their means admit, its extent is very considerable in the year under review although not quite equal to the unusually high standard of the Preceding fusly. The Indigo cultivation which in this district may be said to be confined to the Poonjah lands was carried on to an unusual extent under the influence of a favorable Market, and notwithstanding that the Storm in March diminished the produce the cultivation afforded valuable assistance to the ryots.—

1262	12,036	5 7/8	11,90,350	4	7
Increase	6,390	15/2	70,261	4	5

14 cs as year exhibits a decrease of 6,390-15/2 with an assessment of 70,261-4-5 on being compared with the preceding fusly, but the actual decrease consists of Rupees 66,878-15-9 as an apparent diminution of Rupees 3,382-4-8 arises from the Bariz of six resumed Jagheer Villages which were under Amany in 1261 having been

been brought to account under the head of rented Villages in the present fusly. This diminution on the Nunjah cultivation and revenue was caused by comparative unfavorableness of season and the low prices of grain which discouraged the cultivation of the higher turm lands, but it will be observed from the marginal Statement that the Nunjah lands included in the Settlement nevertheless exceed the average of the past six years including the unusually favorable season of 1261—

	Cawnies	Rupees
1256	1,19,864	11,83,287
1257	1,27,746	12,47,181
1258	1,16,397	11,08,581
1259	88,678	8,40,209

Average	1,17,565	11,30,063
1262	1,25,036	11,90,351

15.

In analysing the deficiency of Rupees 66,893-15-9- in the Nunjah berij of the Settlement under review when compared with the preceding fusly, it is found that Rs. 32,114-14-3 occured under the Tanks and minor irrigation works in various parts of the District, and may be attributed to the influence of the season which was marked as already observed, by a deficiency in the early rains. The remaining decrease Rs 34764-4-6 took place

Coleroon anicut	18,316-8-8
Vellaur Do	8,488-14-8
Pennaur river Channels	5131-4-7
Guddilam anicuts and Channels	2827-12-7
	34764-4-6

place in the lands under the great irrigation works where there was no deficiency of water and must therefore be assigned to causes which have been noticed on previous occasions, the effects of low prices acting on an unduly high assessment, and a want of roads to facilitate the conveyance of the produce to the ports and places of consumption.—

16. In the 2 Southern Talooks of Munnargoody and Chellumbrum, which have the benefit of the Coleroon irrigation, the falling off amounted to Rs. 18,316. and the causes which led to this decline are visible not only in a less extensive cultivation, but in an increased neglect of the better and more highly assessed lands. Much of the finest land is never cultivated in consequence of its over-assessment and any fall of price increases the tendency of the Ryots to turn to the inferior soils, and thus avoid the responsibility which they would incur by taking up the higher assessed lands. Thus in the present instance the wet cultivation under the Pennaur Channels is only 53 Cawnies less in extent than that of the preceding fusly, but in consequence of the Ryots having

	Cs.	Rs.

1262 — 1,56,439.
Decrease 5,131

Fort St. George 23d. January 1854.

having changed from the middling to the inferior lands the difference in the settlement Beriz amounts Rupees 5131.—.—. It is not necessary for me to pursue this subject, as a remedy will be applied in the revision of the assessment which Government has sanctioned, and the state of the internal communications has already undergone some ameliorations and will meet with further attention, but it seemed to me proper to advert briefly to the additional proof which this settlement affords of the advantages which may be anticipated from the measures of improvement now in progress. Not only will cultivation be extended but the labour and capital of the Country will be profitably diverted from the inferior to the superior soils.—.

17.

The wet cultivation dependant on the Guddelum river fell off to the extent shown in the margin but the principal decrease arose from a breach taking place in the Wanamadevy earthen anicut which irrigates 3 Villages, an Estimate has been framed for replacing this anicut by one of Masonry, but the cost of such a work is

1261 — 2,657 — 37,399
1262 — 2,491 — 34,571
Decrease 166 — 2,828

Collector to Board's Pr. W. dated 24th January 1853.

Fort St. George 23d. January 1854.

in proportion to the beriz of the lands dependent on it on the possibility of its affecting unfavorably the Trivandapoorum anicut which is situated a few miles lower down the river, have caused the subject still to remain under consideration.—.

18

In the Villages dependent on the Vellaur irrigation the Kunjah cultivation exhibits a decline of Rs. 8,488-14-8 and as the Wallajah, Peroomal and other principal tanks which are supplied by the anicut had no scarcity of water, this result must be attributed to the low price of grain which in conjunction with a high assessment checked agricultural enterprize, as has been shown to have been also the case in the Coleroon Villages of the Manargoody and Chellumbrum Talooks. The cultivation exceeds however the average of recent years and is still so high as to show the extensive degree in which the anicut has benefited the interests of Government and the landholders.

The Board are aware that this anicut was much injured towards the close of this Fusly by the unusual floods which accompanied the Storm of March and the misfortune was increased by the fall of the Bridge constructed

Cultivation under Vellaur anicut	
1256	56,032
1257	47,312

1262 — 54,818
Decrease 8,489

constructed upon it. The damage has been repaired in a manner which it is hoped will prevent any failure of irrigation in the Fusly just commenced, and the measures to be adopted for the permanent repair of the work remain for future consideration and can be undertaken in the approaching dry season.

19 The Totacal or Garden cultivation shows a trivial decrease in the preceding year of Rs. 416-3-6 as noted in the marginal Statement. Its small difference does not call in itself for explanation, but it may be observed that the state of the Totacal cultivation has been always unsatisfactory. After deducting the land now either occupied for houses or on which the wells have failed, the available area exceeds 3,000 Cawnies so that the cultivation is not equal to 50 per Cent. In lands which, from their situation and other advantages ought to be in request, this result must be attributed to over assessment, a fact which the teervah rates sufficiently demonstrate, and the revision of the assessment will place this Cultivation on a more satisfactory footing.—

Fusly 1261 — 25,662-2-11
Fusly 1262 — 25,245-15-5
Decrease — 416-3-6

20 The assessment of all the

waste lands brought into the Settlement amount to Rs. 8,109-10-7 of which Rs. 3,321-1-8. consists of Shamelat Bunjar, or small portions of fields left waste, from which remission was withheld in accordance with the District Hookumnamah rules. The remaining amount was brought into the Settlement on account of lands which had been causelessly and improperly neglected Viz. Rupees 3,036-9-6. for lands taken up on derkhast and which other parties were ready to cultivate, and Rupees 1751-15-5. for Dittam waste. It has been already shown that the Dittam waste (Caboolcat Bunjer) deducted from the Settlement amounted to Rupees 60,738-5-10 and it will therefore be apparent that consideration was given to all fair claims for indulgence on account of lands which the ryots had taken up but were unable to cultivate.

21. The Kusser revenue of the Fusly amounted to Rupees 93,996-12-8 of which Rupees 87,640-10-8 and Rupees 6,356-2-0 were collected respectively on account of rice crops and garden produce raised on Poonjah land, by the aid of water from the circar irrigation works. The Marginal Statement shows that this result falls below the preceding year.

Kusser
Fusly in Rupees 87,640-10-8
Poonjah Rupees 6,356-2-0
Garden in Rupees 93,996-12-8
Decrease Rupees 1-5-0

Coll.r to B.d 25th May 1852
Boards Pro.s 14th June "

year by Rupees 10,009-4-9 but the Board are aware that in that fusly this branches of Revenue was increased by the discovery of an abuse under which the ryots clandestinely raised wet crops on the Poonjah lands by water taken from the irrigation Channels, without the payment of the prescribed Kusser teerwah, thus causing a deficiency in the regular Nunjah cultivation, Previous to Fusly 1261. The Kusser revenue had never exceeded Rupees 69724 so that the result of the present year cannot be looked on as unfavorable.

22. The principal portion of this revenue is derived from the lands newly brought under irrigation in the Manargoody and Chellumbrum talooks by the Cole-roon anicut and in Bowangherry by the Vellaur anicut. The decrease in the present year in these Talooks shown in the marginal Statement and is attributable to the same cause which has affected generally their rice cultivation, the depressed state of the grain market. In the other Talooks the Kusser revenue has fluctuated.

Kusser for Nunjah in Poonjah

Talooks	1262			Decrease		
Munnargoody	10079	7	-	863	11	6
Chellumbrum	25163	6	10	1233	4	3
Bonangherry	10380	7	3	4963	1	10
"	"	"		7065	1	7

fluctuated exhibiting in some an improvement and in others a falling off, the net result being a decrease of Rupees 2,946-3-2 which is owing partly to the ryots having reverted to the cultivation of Poonjah crops on their dry lands and to the abundant rain of the North East Monsoon rendering other irrigation unnecessary.—

23 In the 4th paragraph of his report the Additional Sub Collector alludes to the disputes which arise on the subject of wells sunk near the Circar irrigation works, the ryots exclaiming against the charge for Kusser which the Talook authorities make on the ground that the wells are purposely situated so as to draw their supply from these sources. To remove all doubt and uncertainty Mr. Forbes suggests 30 yards as the distance from irrigation works where the free excavation of wells should be allowed. The subject is one of much difficulty in consequence of the manner in which drainage and percolation are affected by difference of soil and various physical circumstances, and I have recently had occasion to express my opinion upon it in replying to the questions sent by the Board in circulating Captain Bird Smith's papers on Italian irrigation. I shall therefore only observe now that in the rearrangement.

Letter to B.d dated 21st October 1853.

Fort St. George 23d January 1854.—

re-arrangement of the Kusser Rules during the revision of the assessment. I trust that it may be practicable to settle the question in a satisfactory manner and that meanwhile all claims urged at the Jemmabundy by ryots who have sunk wells will be considered in a liberal spirit.—

Ready money items such as tax on trees Mootah per sheusk rented Villages &c.

1262— 91216-6-8
1261— 85329-1-7
Increase 5887-5-1

24. The ready money items included in the Settlement and detailed in Statement 15 amount to Rupees 91,216-6-8 being an increase of Rs. 5887-5-1 over the preceding Fusly. The details appear only to call for explanatory remark in two instances. The increase of Rs. 6357-10-9 under the head of "Rented Villages" arises from six resumed Jaghire Villages which were under Amany in Fusly 1261. being again rented out, and the blank entry under the head of Government plantations and a corresponding increase under that of "Tax of trees, were caused by carrying out the order of Government for transferring the revenues derived from the lands termed Government plantations to the ordinary heads of Land Revenue.

25. The gross demand of the year including Kusser and ready money Collections thus amounts to Rupees. 2,65,887-6-2. and

J.G.B.

Fort St. George 23d January 1854

and after deducting the various items of remission the net settlement becomes 24,21,369-9-9. The deductions made from the Settlement are shewn in the accompanying Statement No. II. and fall below the amount of the preceding year by Rupees 4,724-12-7. In consequence of the decrease in the cultivation and Settlement those charges which always shew a corresponding fluctuation, such as the remission to Brahmins and Madomedans cultivators and the Woolegum or pay of the Village Officers, exhibit a diminution of Rupees 7706-8-7 including a few minor items, but this decrease was partly counterbalanced by some extraordinary remissions to the extent of Rupees 2,769-3-9 granted in compensation for losses caused by the storm in March

25

These losses were principally sustained in the Southern Talooks of Manargoody, Chellumbrum Virdachellum and Bowanyglierry, where the force of the hurricane was greater than in the central and Northern parts of the District.

District, but the Storm, fortunately occurred at a time when the principal Crops had been gathered in. The remissions were chiefly granted for losses in the Garden produce such as Chillies, Tobacco, and Betel vine, but partly also on account of Mango and Tamarind trees and some Cotton and Indigo crops on which the Storm had acted with injurious force.

In Poongulu 185 - 12 1/4
Nunjah 1506 - 137 10
Garden " - 1 -
1712 - 11 -

27 The Sugar cane cultivation of the year consisted of 1712 Cawnies, thus shewing a decline of 253 Cawnies below the preceding Fusly. This decrease occurred in the Calococotchy Taloo & and is attributable to smaller advances having been given by Messrs. Parry & Co. who have a Sugar Factory in that part of the District but now make the principal portion of their Sugar from Palmyra Jaggery. It will be observed that the cane is principally grown on the Nunjah lands and the decrease which took place in its cultivation on this occasion was in land of that description.

28 I regret that the experiment with the new Orleans Cotton Seed upon which

Order of Govt. on the Bd's Rep. of 6th Sept. 1852.

which I was directed to report did not prove successful, though the result cannot be regarded as conclusive against that cultivation. The experiment was made on so small a scale as not to extend to all the various soils, and besides the disadvantage under which it was made from the inexperience of the land owners the season proved unfavorable. In consequence of the early drought the parties to whom the seed was distributed delayed the sowing beyond the time indicated to them, and the heavy rains of the N. E. Monsoon consequent ly either rotted the seed while still in the ground or killed the very young plants. The seed which I sowed in my own garden produced a set of hardy trees which still continue to yield a plentiful pickings, and the experiment also succeeded with some seed which I forwarded to the Committee of agriculture at Pondicherry. The remission of assessment granted in the Settlement under the sanction of Government to ryots who tried this cultivation was limited to the lands upon which other produce was not afterwards raised

and

and its amount Rupees 51-4-9 is included in the Statement N. 14.

29. After deducting various items of remission the Net Settlement amounts to Rupees 22,21,369-9-9 of which Rupees 23,23,976-12-10 were collected within the fusly leaving at its close an outstanding Balance of Rupees 97,392-12-11 which has been reduced by subsequent collections to the small sum of Rupees 2937-5-11 I have pointed out in my preceding reports that the late date at which the final Kist becomes due prevents the last collections being brought to account within the fusly, but it will be observed from the marginal Statement that the balances thus left outstanding at the close of the fusly is realized immediately afterwards without diminishing the resources of the Ryots to meet the demand of the ensuing year. It appears to me that the Kistbundy can be so altered as to remedy this inconvenience without causing great hardship or difficulty to the people, but I

Arrear at close of Fusly			97,392	12 11
Collections in July	61,246	2 10		
August	21,005	15 11		
September	7,523	9 8		
October	4,659	10 7		
			94,455	7 "
			2,937	5 11

I proposes delaying the change until it can form a part of the new Hoo Kummiamals to be published on the completion of the revision of the assessment now in progress

30. The Cultivation of this year, like that of the preceding fusly was carried on without Government aid and it has thus been successfully proved that the Tuccavy advances which it is so desirable to stop, may be totally discontinued in ordinary seasons.

31. It will be observed from Statement N. 24 that the balances of our Land Revenue outstanding for Fusslies previous to 1261 consist of Rupees 9,869-5-4 and that the arrears due for 1261 amounts to Rupees 2,024-2-7-

	Due at commencement of 1262			Collected or remitted by Sanction in 1262			Present arrear		
Old arrear up to 1260	39,455	15	4	29,586	10 "		9,869	5	4
Arrear of 1261	164,287	12	7	162,263	10 "		2,024	2	7
	2,03,743	11	11	191,850	4 "		11,893	7	11

The former sum includes several balances the Settlement of which has been delayed by the property of the defaulters being under Attachment by the Civil Courts and also

Fort St George 23d January 1854.

also an Item of Rupees 815-11-.. which the Board in their Proceedings of 16th June 1853 para 17 omitted to recommend for sanction under an impression that the authority of Government had been previously issued for writing it off. but as these old balances will form the subject of a separate letter I shall abstain from any proposals for their adjustment on this occasion

The Items composing the arrear of of Rupees 2,024-2-7 due for Fusly 1261 are shewn in the Account A enclosure in Statement N° 24 and under the explanation there given I request that the Board will be pleased to obtain sanction for the remission of Rupees 1,445-1-4 as irrecoverable; measures will be taken to realize the remaining arrear of Rupees 579-1-3.

32 The land Sewoy Jumma of the fusly under review amounted to Rupees 13,228-15-11 being a slight decrease of Rupees 246-2-5 below the preceding year. The items which compose this revenue are detailed in Statement N° 33

and

1261- 13,475-2-4
1262- 13,228-15-11
Decrease 246-2-5.

Fort St George 23d January 1854.

and being of a necessarily fluctuating nature appear to require no explanation. Of the demand for the year, or Rs. 13228-15-11 Rs 11,019-.. 6 were collected within the Fusly leaving at its close a balance of Rs. 2209-15-5 which by subsequent collections has been reduced to Rs 543-1-2 In the Statement of this Revenue which accompanies my report, the old arrear is entered at Rs. 9,504-3-3 but the sanction of Government for writing off Rupees 7,304-7-5 has been received since the close of the Fusly and the Balance which therefore now remains for future adjustment is limited to Rs 2,637-..-2. The Sewoy Jumma arrear outstanding for Fusly 1261 amounts to Rs 219-5-8 the details of which are shown in the Account B attached to Statement N° 23. and under the explanation there offered, authority is requested for writing off the irrecoverable portion amounting to Rs. 91-6-3.

It

Fort St George 23d January 1854

Increase in 1260 Rs 5,45,321-9-5
1261 - 1,82,377-"-"

It is not my gratifying office again to point out an increase of Revenue, as a comparison with the preceding year gives a decrease of Rupees 1,51,618-3-4, the causes of which have been explained in this report and the one which I lately forwarded on the Extra Sources of Revenue, But though comparative unfavorableness of season has thus caused a temporary retrogression, I trust that the result of the year will not be deemed unsatisfactory, as the Settlement is considerably above the average and the collections have been made with such regularity that the present outstanding balance is limited to Rupees 3,693-12-11.

32

The Charges of the different branches of revenue are detailed in the accompanying Statement No 3 and give the following comparative result.

Amount

Fort St George 23d January 1854

	Amount of Charge		Per centage of charge	
	Fasly 1261	Fasly 1262	1261	1262
	Rs	Rs	R	Rs.
Collecting and administering the Land Revenue	196,790	210,404	7 3/4	8 3/16
Maramut or Repairs of Tanks &c	45,707	57,025	3 7/8	2 7/8
Pagoda and Mosque allowances &c	128,822	140,525	5 7/8	5 3/16
Extra branches of Revenue	52,537	71,639	10 3/8	15 7/16
Miscellaneous Charges	6,105	8,892	3/16	5/16
Total	429,960	484,482	14 7/8	16 1/4

The increased charge under the head of Land Revenue consists principally of the Salary of the Additional Sub Collector who has been appointed to relieve the Collector of a portion of his ordinary duties during the revision of the assessment. In the Maramut Department there is also an increase, which was occasioned by the necessity of repairing the Vellaur annicut before the Monsoon to secure the irrigation of the Villages dependent on it. The annicut was breached during the heavy

Fort St George 23d January 1854

heavy floods which accompanied the storm of March, and the outlay necessary to close the breach has exceeded Rupees 10,000 The extra branches of Revenue also appear to show an increase of charge, but this is chiefly nominal. The principal increase is in the Salt Department and as explained in my Report on the extra source of Revenue arises from a portion of the compensation due to the French Government for Fasly 1261 having been paid in the present year. The per centage of the charges in the Frontier and Sea Customs exhibit considerable fluctuation and it is therefore proper to observe that the actual charge remains the same as in the preceding year. Its per centage to the revenue has varied because from circumstances already explained the produce of the district is being more extensively conveyed to Pondicherry instead of being shipped from our own Ports and the export duty upon it is therefore levied

	Percentage of charges					
	1261			1262

E & O Vs.

Remarks.

The total Iyacut shewn in Statement No. 1. was taken from a return prepared many years ago, which has since been entered in the annual Summabundy Statement A. It differs from the Iyacut given in Col 5 of this Statement, in consequence of the addition of the resumed Jaghears, and the deduction of some Serva Maniem Villages which have been made over to the Enamdars.

The resumption of the Cavelly Enams in the 2 Southern Talooks causes the difference in the Extent of the Enam lands entered in Column 33 according to the Iyacut of fusly 1236 and that of fusly 1262 as shewn in Statement No. 8.

No money assessment having been fixed in the resumed Jaghier Villages the Columns for the Seerwah are left blank - It has also been necessary to include in the entry of waste the entire lands of some Villages which have been rented out, and the Cultivation in which is therefore unknown - The Columns 39 - 40 - 47 - and 48 have been filled up in the returns of fusly 1262.

(Signed) E. Maltby
Collector.

Statement.

Fort St. George, 23d January 1854.

Extent and Cultivation for fusly 1262 in the District of the Southern Division of Arcot.

276 12¾	2778 6 3	576 ½	3630 " 8	20 11 2	516 ½	3650 11 10	380 8	1886 15 11.	ficiency will be supplied in the next return.
166 14⅛	1438 9 7	270 15⅞	2086 13 7	57 " 1.	270 15⅞	2137 13 8	113 1¼	761 15 "	
4385 13¼	45119 6 4	6868 14½	56384 " 7	380 11 2	6868 14½	56764 11 9	2980 5½	20291 1 1	The Enam accounts only give the Cauneywar ex-
37 13	473 7 1	1233 3½	4601 6 9	" " "	1233 3½	4601 6 9	" "	" " "	tent of the Sudder Lands - The sums entered in the
5320 8 5/8	55010 10 10	10444 15⅞	75528 14 9	871 1 1	10444 15⅞	76399 15 10	4740 1½	29157 1 1.	assessment Columns are therefore calculated on the
" "	" " "	" "	" " "	" " "	" "	" " "	" "	" " "	average rates which prevail in the Cuddalore Talook,
" "	" " "	" "	" " "	" " "	" "	" " "	" "	" " "	and are entered to show approximatively, the amount
" "	" " "	" "	" " "	" " "	" "	" " "	" "	" " "	of Revenue alienated.

No Dasbandum Enams exist in this District.

The sums entered in Columns 10 & 20 consist of tree tax, and commuted sotumtrums to Village Officers in the Cuddalore Talook, and the resumed Jaghire of Shunkarapooram.

Of the total Enam lands entered in Column 8 - 1714 - 13⅛ belong to Jaghire Villages where no money assessment has yet been fixed an average teerwah has therefore been assigned to them in this Statement to show the total alienation.

Fort St. George 23d. January 1854.
