Revenue Department
No. 100

Extract from the Minutes of Consultation under date the 25th January 1854.

Read the following letter from the Acting Secretary to the Board of Revenue.-

/Here enter 22d September 1853, No. 435./

Para 1. In the foregoing communication the Board of Revenue request the attention of Government to one of the rules for the disposal of Enams, submitted by them on the 19th June and approved by Government on the 4th July 1848 or that which respects succession through the female line and under the circumstances explained in paras 2 and 3 intimate that the Board as at present constituted "have no hesitation in admitting that there was not sufficient warrant for considering

succession

"succession transmitted through a fe-
"male to be of doubtful validity and
"still less that it is, according to the
"opinion given by them in the case of
the Meenjore and Adayanvoil Shro-
"triems contrary to the first principles
"of Hindoo Law, and that consequently
"such succession cannot be properly
"considered as an exception to the
"valid title of succession on the part
"of the claimants which it was
Extract Minutes of Consultation 11th May 1848 "ordered by Government should secure
"them from interference".-

Upon a careful consider-
ation of the question and of the
reasons which have been urged
by the Board, the Right Honorable
the Governor in Council concurs in
the opinion expressed by them, and
accordingly resolves to direct in
conformity with their recommend-
ation, that the rule as hitherto
observed be relaxed and that the
circumstances of the legal heir being
a female, or of the succession having
formerly descended through a
lineal female heir shall not

henceforth

Bd No. 401

From the Agent to the Governor at Kurnool furnishing copies of a letter from the Collector of Bellary stated circumstances regarding the character of the present season which will render it necessary to grant remissions on account of the failure of Dry Crops and requesting sanction for the same.-

Sir,

Para 1 The Board are aware of the character of the present season which will render it necessary to grant remissions on account of the failure of Dry Crops and I beg that I may receive early sanction for the same, together with such instructions as the Board may deem necessary to issue on the subject.-

2. In the Months of June and July which is the season for sowing the yellow Jawaree or principal early crop the rains were very Scanty and in consequence not only was there a less extent of land Sown during those Months than at the same period in the preceding year, but the young plants on the lands which had been Sown were at the close of July in a declining and withering State and in many Villages to an extent requiring the lands to be re-Sown.-

3. The drought continued to the 14th August when some heavy Showers fell, which Served to revive the drooping dry Crops and also furnished a Supply of water (but not the required quantity) to most of the principal Tanks of the District. At this period however the Season had passed for Sowing yellow Jawary, and Corra, and other inferior grains were substituted in bringing under Cultivation the lands, which are only.

	1263	78917 - 92357-

Fort St. George 9th February 1854

only adapted for an early crop.-

4. In September the rains almost entirely fail
the Dry crops were again declining, and the supply of
water in the Tanks, was rapidly diminishing. In Oc
tober sufficient rain fell to save the Dry crops ge
nerally in the Southern Talooks of the District, but
in Nundicootcoor and Ateoor the Corna crops were
withering, and in Bhone and Goodoor every description of
Poonaga crop had suffered greatly from the effects of
the Season. In November when the Rubbee or late crop
are sown, some showers of rain fell, and under the
apprehension of an approaching scarcity, great exertions
were made by the Ryots to bring their lands under culti
vation, but owing to the parched State of the ground, below
the surface, and the emaciated condition of the ploughing
cattle, owing to the failure of forage, a considerable
extent of land has been left waste.-

5. The report of the Rubbee crops in Chagulmary
Sirnell, Nundial, and Damem is favourable, and with the
exception of some few Villages in each of those Talooks,
remissions on account of failure will not probably be
required to any great extent, but as more land than usual
has been left waste, owing to causes over which the Ryots
had no control, liberal remission on that account will
be necessary, and remissions also will be required to be
made on account of Wet Crops withered from want of
water, under Tanks which received a deficient
supply.-

Fort St. George 9th February 1854

supply.-

6. In Nundicootcoor and Ateoor the harvest has
been generally good, but in many Villages the Corna crop
have failed, and some remissions will be required on
that account, and also on account of wet Crops dried up
for want of water.-

7. In Bhone and Goodoor the failure of the
harvest has been the greatest. I deputed my Head and
Naib Shanistadars to inspect the Crops in the Villages
in both Talooks, where failures were reported to
have occurred, and considerable remission will be
required to be made in those Talooks, especially
in Goodoor, where the Rubbee Crops according to
the latest Accounts are withering.-

B. No. 445.

From the Collector of Chingleput — Forwarding a List of the different descriptions of Enams in his District distinguishing between those which do and do not fall under Regulation IV of 1831 and Act XII of 1836.-

To W. H. Bayley Esqre

Secretary to the

Board of Revenue.

Sir,

Para 1. Adverting to Extract from the Proceedings of the Board of Revenue under date the 15th August 1853, I have the honor to forward herewith a List of the different descriptions of Enams held in this District.

2. No. I Exhibits Enams allotted to different Village Offices instituted for the security of the Public Revenue and of Private Property as well as for the convenience and welfare of the inhabitants. These are not subject to the jurisdiction of the Civil Courts but fall, I am of opinion, under Regulation VII of 1831. Grama Inams have in some instances, formed the Subject of Suits preferred in the Civil Courts by whom as well as by private individuals they have been sold apart from the Seerwa put lands to which they have originally been annexed; this Proceeding however, I consider opposed to the established rule and usage of the District..

Vide Board's C.O. dated 2d August 1832.

19th March 1832.

2. The Enams in No. II having been granted in lieu of presumed Offices and privileges for services rendered to the State or as a Charitable allowance for the maintenance of the Grantees and their families the Courts of Adalut are prohibited from taking Cognizance of the same by Regulation III of 1831.-

4. The Grants specified in No. III made for the

the support of religious or charitable institutions fall under Regulation VII of 1817 which provides for their due appropriation for the purposes intended under the supervision of the Board of Revenue. The transfer by sale or otherwise of these grants has been declared to be unobjectionable so long as the transfer carried with it the obligation of service to be rendered. Disputes regarding these Enams as well as the Trusteeship of the institutions for the support of which the grants have been made are also Cognizable by the Civil Courts.-

Extract Minutes of Consultation 23d. December 1857.-

5. I am aware of no rules relative to the Rent free lands entered under the fourth Class as they are however transferred and sold at the pleasure of the incumbents, like other landed property regarding them must be considered Cognizable by the Civil Courts.-

Translation

Translation of a Judgement passed by H D Phillips Esqre Collector of Salem on the 7th September 1853 under Regulation IX of 1822.

Plaintiff. Government Versus. Defendants.

1 Vencata Kist-namah, Gomasta appointed for Naraniah, Curnum of Tadaloor agraharam in Ahtoor Taluk.

2 Joint Curnum Ramiasawmy Pillay

One Mootoosawmy Pillay of Veeraganoor Village in Ahtoor Taluk having preferred a complaint to the Huzzoor on the 27th July 1851 to the effect that while the Curnums Salary was allowed at Rupees 1-3-3 1/16 per cent of the Beriz in Tadaloor Village of the aforesaid Taluk from Fusly 1211 (year Doormutty) to Fusly 1241 to 1st Defendant fraudulently entered it in Fusly 1242 at Rupees 1-8-5 5/8 per cent and received Rupees 380 to the use of Government, an order by Endorsement No 27 dated 16th August 1851 was issued to the Tahsildar of that Taluk for enquiry and report.

The Tahsildar having delayed in

in instituting an enquiry and reporting upon it to the Huzzoor, Mr L. C. Innes the late Assistant Collector, sent for the Compliant and the records connected with it, and conducted the enquiry. On an examination of the documents relating the case forwarded by Mr Innes with his Yadast No 133 dated 11th April 1853 the following points are elucited.

A Sum of Rupees 94-9-6 has been deducted, as the Curnum's Salary from the total Beriz exclusive of the Trishwa Kum Share of Tadoor Village for Fusly 1211 or Doormutty year, the per centage calculated upon such a Beriz, is Rupees 1-12-7 31/64 It is not however clear whether such a Subsidy was intended for the whole Village or for the Circar Share only. From Fusly 1211 to Fusly 1221, the Village was under the Mootta-dars Management. Subsequent to this period Vizt in Fusly 1222, when the Village came under amanee, the per centage allowed as the Curnum's Salary amounts to Rupees 1-3-3 5/8 of the Beriz inclusive of the Trishwa Kum Share. From that year to Fusly 1234 the deduction under this head has not been made on one uniform principle. In Fusly 1235 the then Collector ordered that

Fort St George 9th February 185

Translation of a Judgement passed by H D Phillips Esqre Collector of Salem on the 7th September 1853 under Regulation IX of 1822.

Plaintiff — Government — Versus —

Defendants.

1 Vencata Kist-namah, formerly appointed for Naramah, Curnum of Sadahoor agraharum in Ahtoor Talook.

2 Joint Curnum Ramiasawmy Pillay

One Mootoosawmy Pillay of Veeraganoor Village in Ahtoor Talook having preferred a complaint to the Huzzoor on the 27th July 1851 to the effect that while the Curnums Salary was allowed at Rupees 1-3-3 11/16 per cent of the Beriz in Sadanoor Village of the aforesaid Talook from Fusly 1211 (year Doormutty) to Fusly 1241 to 1st Defendant fraudulently entered it in Fusly 1242 at Rupees 1-8-5 5/8 per cent and received Rupees 380 to the loss of Government, an order by Endorsement No 27 dated 16th August 1851 was issued to the Talsildar of that Talook for enquiry and report.

The Talsildar having delegated in

Fort St George 9th February 1854

instituting an enquiry and reporting upon it to the Huzzoor, Mr L. C. Innes the late Assistant Collector, sent for the Complaint and the records connected with it, and conducted the enquiry. On an examination of the documents relating the case forwarded by Mr Innes with his Yadast No 133 dated 11th April 1853 the following points are elucited.

A Sum of Rupees 94-9-6 has been deducted as the Curnum's Salary from the total Beriz exclusive of the Trishwan Rum Share of Sadoor Village for Fusly 1211 or Doormutty year, the per centage calculated upon such a Beriz, is Rupees 1-12-7 31/64 It is not however clear whether such a Subbendy was intended for the whole Village or for the Circar Share only. From Fusly 1211 to Fusly 1221, the Village was under the Mootadari Management. Subsequent to this period Viz in Fusly 1222, when the Village came under arrance, the per centage allowed as the Curnum's Salary amounts to Rupees 1-3-3 5/8 of the Beriz inclusive of the Trishwa Rum Share. From that year to Fusly 1234 the deduction under this head has not been made on one uniform principle. In Fusly 1235 the then Collector ordered that

that throughout the 8 Talooks below the Ghauts the per centage calculated upon the entire beriz and the amount deducted as the Curnums pay in the several Villages for the year Doormutty or Fusly 1211 ought to be the future standard of Salary to that class of Village Officers. The per centage thus calculated amounted for Tadavoy Village to Rupees 1-3-3-5/9 at which rate the allowance was made up to Fusly 1242. In Fusly 1240 the 1st Defendant having commenced to discharge the duties of Curnum as a Goomastah of the individual holding the office, he could not be pronounced to be ignorant of the per centage sanctioned. Notwithstanding which he deducted the Curnums pay out of the Beriz at Rupees 1-8-8/8 per cent in Fusly 1243, and Rupees 1-8-8 7/8 % from Fusly 1244 to Fusly 1261, and thus drew an excess of Rupees 56-..-7 from Fusly 1243 to Fusly 1245 and Rupees 321-5-11 from Fusly 1246 to Fusly 1261. The 2d Defendant having been appointed joint Curnum in Fusly 1246 he becomes liable for half the amount overdrawn from that period, to wit Rupees 160-10-11

In

In the remaining Agraharums of Ahtoor Talook, the Curnums have received their Salaries according to the same principle of per centage as that fixed in Fusly 1235 for Tadoor Agraharums.

The 1st Defendant alleges that it being the prevailing custom to deduct the salaries of Curnums from the beriz according to the rate of per centage given by the Goomastahs annually sent from the Huzoor for preparing the Jemabundy accounts he deducted the Curnum's pay in Fusslies 1243 and 44 in accordance to the rates given by Mudva Row and Honary Row, Huzoor Goomastahs who had been sent for the preparation of the Settlement accounts. that he referred to no documents on the subject and that the former of those Goomastahs died while the latter left the District with the late Collector Mr. Popham.

The 2d Defendant declares that he was appointed joint Curnum in Fusly 1246. that he deducted the Curnum's pay for that year from the Beriz. with reference to the entries made

made in the accounts of fusly 1245 and the Statement made by the Huzoor Gomastah; and that he was ignorant of the principle laid down in Fusly 1235.

In the year Doorumutty or Fusly 1211 although the Curnum's Salary has been deducted from the heriz exclusive of the Trishwan Kum share, yet it is but just to suppose that such a salary has been fixed for the entire Village. Further, although it was difficult to ascertain the principle upon which the per centage was allowed in the year Doorumutty; the 1st Defendant was acquainted with the fact of an examination having been instituted by the authorities and that the rate fixed by them in fusly 1235 was such and that it was afterwards followed upto fusly 1242. Even had the Huzoor Gomastah desired him to deduct a higher rate that that allowed in fusly 1242 the same pursued by the 1st Defendant contrary to the order passed by the proper authorities on the subject is unaccountable. It clearly appears that the 1st Defendant fixed a higher rate by securing the interests of the Huzoor Gomastah and

and that he now urges groundless reasons to evade the charge brought against him. There is no room for believing the allegation of the 2d Defendant, that he was ignorant of the improper course pursued. It is evident that the 1st and 2d Defendants wilfully and with fraudulent intent, occasioned a loss to Government.

Under these circumstances it is adjudged, that the 1st and 2d Defendants shall pay a fine of Rupees 377-6-6- thus overdrawn by them to the loss of Government in the following proportions the 1st Defendant to pay Rupees 216-11-6 and the 2d Defendant Rupees 160-10-11- under provisions of clause first, Section V Regulation IX of 1822 and in default of payment, the provisions of clause 3d of that section be enforced, and that lastly the 1st and 2d Defendants be kept in custody until the judgment be satisfied. It is further decreed that hereafter from fusly 1263 the per centage of Rupees 1-3-3 5/8 laid down in fusly 1235 be observed as the Standard in regard to the payment of the Curnum's Salary.

If the Defendants are dissatisfied with this judgment they are to present an

appeal

appeal to the Board of Revenue within three Calendar Months from this date under provisions of Regulation VII of 1818.

Given this 7th day of September under my signature and seal of my Office.

Proceedings thereon.

27-28.

There can be no doubt of the deliquency of appellants in this case, but as the amount yearly received by them should have been checked by the Huzzoor servants, the Board think that the levy of the amount overdrawn for 3 years will be a sufficient punishment.

No 114.

To

W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St George.

Sir,

Bd No 3311

From the Collector of Trichinopoly } Para 1. In giving enclosure to

Copy.

Copy of a letter to my address from the Civil Engineer 6th Division on the subject of laying down some plans for the occupation of the ground and space now cleared out to some exctent both on the North and South side of the Fort of Trichinopoly by the demolition of the Rampart walls, I do myself the honor to solicit your Boards sanction for having the ground so cleared, put up to public competition and sold in convenient allotments to be held as other Mofussil land within the Fort on free hold tenure. Freehold occupancy having been accorded to the residents of the Fort from time immemorial

I have also the honor to solicit permission may be obtained of Government for placing the proceeds realized by such sale of the ground as a local fund for carrying out improvements within the Fort itself at the discretion of the Collector who should be required to render an account of the disbursements in the same manner as the grass rent Money is now ordered to be accounted for through the Civil Engineer for the Division.

2

3 I take this opportunity of bringing to the Board's notice the sum of money now accruing by the sale of the Fort Stone revetments, amounting in the aggregate to Rupees 2211-10-3 and I would submit that by every consideration of justice this sum ought to be appropriated for the improvement of the Streets and Interior of the Fort, Instead of remaining as at present a deposit in the Treasury.

I solicit your Board's favourable consideration of this also

Trichinopoly
Collector's Office

Enclosure No 702

To

J. Bird Esqre
Collector of Trichinopoly

Sir

As the demolition of the revetments of the Fort Ramparts has been now carried to a very considerable exctient, I have the honor to suggest your consideration of the escpediency of

laying down some plans for the occupation of the ground, and especially it seems desirable to obtain the permission of Government to arrange for its disposal on terms that will render the proceeds available as a local fund for improvements.

2 I need not remind you how urgently such a resource is demanded on Sanitary considerations and how important it is not to lose an opportunity of conferring so great a benefit, on this large Town without entailing any further on the State.

Proceedings thereon.

29. 30.

Before submitting the foregoing letter for the orders of Government the Board of Revenue would call the Collector's attention to the printed papers regarding the improvements to the Town of Madura effected from the proceeds of the sale of the ground & materials of the old Fort, circulated by Government

2141

Fort St. George 9th February 1854

In Cons: 24th July 1857

Government with Extract Minutes of Consultation dated 12th May 1857.

We will state whether in preference to selling all the sites outright a portion at least might not be devoted to erecting commodious and roomy markets and letting the Stalls &c as in Madura where an annual revenue of upwards of 2,300 Rupees is realized, so as to afford a permanent income for the improvement of the Town. We should also be particularly careful in any allotments of the land that he may make, to reserve sufficient space for wide roads or Streets.

2

Mr Bird will observe that the appropriation of the money adverted to in para 3 has been already sanctioned in Department of Public Works, and he will be pleased to report in Department of Public Work, in what way it is proposed to expend the amount.

31.

Bd No. 71.

From the Collector of Madura

Sir,

I have the honor to transmit the Statements specified in the enclosed list shewing the details of the Settlement of Madura District in Fusly 1262. and the Report of the Acting Sub Collector Mr Walhouse on the Jummabundy of his Division. Of the four Talooks composing the Principal Division the Jummabundy of Madacolum, Peromungalum and Thenkurry was made by Mr Clarke the Acting Collector and that of Meyloor by the Head Assistant Collector Mr Hodgson.—

2. The Settlement of the year inclusive of Peishcush amounted to Rupees 19,47,899-10 which exceeds that of Fusly 1261 by Rupees 1,67,620.

Reports on the Settlement of Land Revenue of the District of Madura and Dindigul for Fusly 1262.

Nos 9-10-12-13-14. according to the old Forms under the permission of the Board dated 20th October 1853.
3 Statements for Wills and
3 Do for Grass tax according to the old Forms.—

The remainder according to the Forms furnished on the 13th June 1853.—

Fusly 1260 Rs 13,88,813-13-10
Fusly 1261 " 17,80,279- " -10

1,67,620-9-2- and that of Fusly 1260. previously the highest year on record by Rupees 59086-6-2.

3. This Increase* was the consequence of a Season, very favorable for the Cultivation both of Nunjah and Poonjah. From the commencement of the period of Cultivation in April 1852. to the end of November Rain and River freshes occurred at proper intervals and in moderate quantities. In December the River Vygay received a more than Ordinary supply and filled all the Tanks, and Water courses dependant on it both in Madaedom and in the Zemindaries of Ramnad and Shevagunga. In January there was an excess of rain accompanied by wind which did injury to the standing Crops.—

*(Revenue 8 1,67,620)

4. The Poonjah Crops in general yielded an average outturn, but Cotton, and in Meyloor Pulse also were injured by the January already mentioned.—

5 The Nunjah Produce was generally good both in quantity & quality In Some cases it was injured by the weather. Cholera

6. Cholera and Fever pre=vailed to a considerable extent from January 1853. to the expiration of the Fusly. There was disease also among the cattle. Whenever the Cutcherry Dresser accompa=nies the Collector on Circuit he affords medical assistance to the Sick met with at the halting Stations and Vaccinates Children, if the parents can be prevailed upon to bring them. His aid is very generally sought, but as when at Madura he has charge of the Sepoys lines, I refrain from taking him with me into the Talooks except when engaged in a long Circuit.—

7 From the Marginal Statement exhibiting a Comparison between the prices of Fasly 1262 and those of the Fysul year, there appears a decrease in the former of 9 per Cent in the article of Paddy but a large increase as regards dry grains.

8. In searching for the cause of this it is necessary

necessary to consider the extent of cultivation and amount of Population at the two periods together with the state of the neighbouring Districts.—

9. I subjoin a table exhibiting a Comparative account of Cultivation from which it will be seen that Nunjah has very much increased and in a considerably larger proportion than Poonjah. It is known also that Rice is much more extensively produced than formerly in Tanjore, Trichinopoly and Tinnevelly.— Population also has greatly increased, but from want of a Census at the Fysul, I am unable to shew in what amount. The cultivation of Paddy has kept pace with the Population while that of dry grains though greater than before has not risen proportionately, and a considerable portion of the increase must belong to the article of Cotton, but I have not the means of ascertaining how much. These facts seem sufficient to explain the fall of Price as regards Paddy and Price in dry grain.—

Rammad Zemindary.

Do.

Fort St George 9th February 1854

11. The Board will agree with me in drawing a favorable inference as to the general well being of the Ryots of the District from the circumstance of the cultivation in a year succeeding one of severe drought, rising not only above the previous year, but also beyond the highest year previously on Record. Satisfactory evidence in support of this conclusion is, I think, afforded by the observable increase in the number of Wheelwrights Blacksmiths Forges and Weavers in the Town of Madura. Some Talooks are not so prosperous as others, in particular the Ryots of Meyloor may be termed Comparatively poor, owing to the inferiority of their Sources of Irrigation, but even they it will be remarked, have the power to extend their Cultivation considerably in a favorable Season. The progress of the Cotton growing Talook of Peroomungalum still continue.—

12. I annex a Statement shewing the extent of land engaged the remissions and Net Settlement of the year.—

Fort St. George 9th. February 1854.-

Puttadup or Caboolia

13. There was a Net increase of Rupees 58,770-1-7- in the extent of land agreed for cultivation as compared with the previous year owing to the favorable nature of the Season

14. From the timely and sufficient falls of rain a large proportion of the land engaged was cultivated and there was a corresponding decrease in the remissions granted for Caboolia Bunjer.-

Caboolia Bunjer Remissions		
Fusly 1261	149982-7-7-	
" 62	85318-15-7-	
Decrease	64663-8-	"

15 In the year under review this remission was required only to the small amount of Rupees 58-13-6 in two Villages in the Meyloor Talook whereas 1261 was a Season of drought.-

Item No. 3- Withered Crops.

Fusly 1261	4753-9-	"
" 1262	58-13-6.	
Decrease	4694-11-6-	

Item No. 4. Pance Boadtee

16. This Decrease owing to less land being flooded in the beds of Tanks.-

Decrease below 1261 Rs. 445-13- "

Item No. 5 Payse Malla Increase 106-9-1-

17. This item was included under the Head of Pany Boadtee in the accounts of preceding

Fort St. George 9th. February 1854.-

Fusly, but being separated from it in the modified Forms appears as an Increase. The term Paye Mallee really means "damage to crops by being trodden under foot by" marching troops.-

7 Cowle Remission.

18. The increase under "Cowle remission" was caused by some waste lands having been newly taken up for cultivation in Fusly 1262 both in the Principal and Sub Divisions.-

Fusly 1261		1248-14-8
As per Statement No. 17	1201-15-4	
" Enclosure No. 1 in Do. Do.	42-10-8	
" Enclosure No. 2 in Do. Do.	27-14-1	1656-8-1
Increase	407-9-5	

It will be seen that the two enclosures to the Statement No. 17 are made out in the same Form as in last year as required by the Board's Remarks in the new Form of that Statement.-

Item No. 9 Nattangal Increase 5-15-7

19. Seed Beds were exempted from tax under the sanction of the Board dated the 3d. March 1853.-

Item No. 11- Remission on Cotton grown on last year's Stubbles

20. It was explained in last year's report that if Cotton Stubble is left in the ground it is in strictness liable to teerwah, but to avoid distressing the Ryots I remit the greater portion of the Tax retaining a small amount as a

Fusly 1261	147	8-	8-
" 1262	84	12-	6-
Decrease	62	12-	2-

Jema

Fort St. George 9th February 1854.-

fine for the negligence of the Ryots.-

Item No. 12 Remission of Teerwah on land Cultivated with American Cotton perished

Increase 20-13-8-

Item No. 13. Do. of Do. on Do. Do. with wheat perished

Increase 1-6-6-

Item No. 14 Remission of 1/2 Teerwah on Garden land Cultivated with one Crop.-

Fusly 1261	33.	12.	11
" 1262	8.	2.	..
Decrease	25.	10.	11

21. The latter granted under the sanction of the Board dated 4th March 1852 and the former was found very necessary. altho' I cannot now discover the Board's authority for the same.

The remission under this head was given by the late Collector and is explained in Para 8 of his report.

Item No. 23. Davastanum Remission

23. The report called for in Para 28 of the Board's Proceedings of the 4th August 1853 will be furnished as soon as some necessary information is collected.

Item No. 24. Teerwa Cummee

24. The lands of superior grade in the Fysul Account having been less cultivated with superior products in the Fusly under Report is the Cause of the Decrease under this

Fort St. George 9th February 1854.-

this Item.-

Item No. 25 Difference between the former and present Assessment of Land Cultivated with Sugar Cane.

Fusly 1261	905.	4.	..
" 1262	1087.	9.	3
Increase	182.	5.	3.

25. Under date the 15th September 1851. the Board sanctioned the proposition made in my letter of the 4th July 1851 that the land cultivated with Sugar cane should be charged with Rice tax only such being the case the necessity of this remission as regards Nunjah Adjacent land will not be apparent to them. It is required in consequence of the continuance of the former practice of entering the Cabooliat the Fysul Sugar Cane Teerwa for the land so cultivated at the Fysul, and Teerwa Jastee equal to the difference between the Nunjah and Sugar Cane Tax for land which was Nunjah at the Fysal, the difference between the Sugar Cane and Nunjah Teerwa being afterwards deducted. It seems desirable to dispense with this Cumbrous mode of proceeding, but I must request the Board to defer orders on the subject till I submit a Report regarding Vanpyre in general, a draft of which is already prepared.

26. This increase arises from an

Item No. 26 Pay of Settanaindel and Palanay Hill Village Servants.

an additional Number of Extra Sibbendies being entertained in the Settanaindel &c. Villages assumed from the Ramnad Zemindary in consequence of a more extensive harvest in the year under review. The settlement is formed on a division of the crop.-

Fasly 1261	822.3.8.	
" 1262	846..8	
Increase	23.13..4	

27. The other Items of remission require no remarks.-

Jodee Cham Land Increase 371-1-2.

Jodee of Davasthanam Cham Land Increase 893-3-..

28. These quit Rents fluctuate according to the Extent of Cultivation which exceeded that of last year.-

Topadayem Increase 997-9-10

29. The Revenue under this Head derived from old Topes is composed of Rupees 3,042-2-6 in the Principal and Rupees 1,334-11-9. in the Sub Division entered in the Sub Collector's abstract under the Head of Putcut and Rent. The increase arises from the larger Rents obtained at the yearly auction.-

Pr. Dr. 807-13-2. Sub Dr. 189-12-8.

Fruit Gardens and Palmira Trees. Decrease 178-13-11.

30. Owing to Trees ceasing to bear and some having been blown down there is a decrease under the marginal Head of Rs. 126-13-3 in the Principal

Principal Division and of Rupees 52..8 in that of the Sub Collector..-

Pasture land Increase 1136-9-1.

31. The Taloks in which this Tax exists are under the Sub Collector and the remarks of the Sub Collector on the Increase & the Tax generally will be found in Para 11 of his Report. The greater part of the excess above last year occurred in the Item of Lands within 1/5th of the holding being taken up for grazing at 1/4th the full Tax, not 1/2 as erroneously entered in the Acting Sub Collector's abstract..-

32. Mr. Walhouse expresses disapprobation of the Tax because he considers it difficult to carry out. No. 2 of the Rules submitted by me on the 25th March 1851 which he considers essential to it's justice. Possibly there may be this difficulty and I have reason to suppose that the Rules framed by me and sanctioned by the Minutes of Consultation dated 8th July 1851. have been departed from by the Tahsildars and the Assistant Collectors in charge of the

Fort St. George 9th. February 1854.

the Talook. It was on this account and from the impossibility of the Collector himself managing so distant a Talook that I recommended that it should be placed under the Sub Collector who's Chief Station, Dindigul, is much nearer to it than Madura; but I do not think it would be safe to come to any conclusion on a matter requiring so much a consideration on the undecided opinion of an Officer only in temporary charge. Mr. Clarke I know was recently engaged in a tour in the Tadicumboo and Rangherry Talooks and after obtaining a report from him, I will take the subject fully into consideration with reference to the remarks of the Government in Paras 6. and 7 of their Proceedings of the 11th. October last on the Report on the Jummabundy of 1261.

The

Honey and Bees wax rents.

Para 14.

33. The taxes noted in the margin have been abolished, the former in Fusly 1262 under the sanction of the Board in their Proceedings dated the 2d. August 1852 on the Jummabundy Report of Fusly 1260 and the latter after the termination of the Fusly under review in virtue of the Authority conveyed in their letter of the 25th. July 1853.

34. The other additions require no remark.

35. The following Statement exhibits the Demand Collection and Balance of Current Revenue both for Ayen lands and Zemindaries.

Statement

Fort St. George 9th February 1854.

The Balance of Rupees 33,443-3-8 a/
shewn above has since been reduced to
Rupees 14,212-15-3 the particulars of
which are as follows.-

Balance.

	Rs. a p
Madacolum	179-7-4
Teroomungalum	287-1 "
Maylaar	219-2 "
Tyempully	129-8
	815-3 "
Sittanaindel Vtah 1/4 Villages	397-12-3
	1212-15-3
Shevagungah Zemindary	13000-" -"
	14212-15-3

36. Under the circumstances
stated in Para 18 of the Sub Collectors
Report I recommend that Rupees 31-9-"
due by one Palaney Coodoomben in the
Tyempully Talook may be remitted such
part of the remaining Ayen Balance
as may not be collected before the next
Summabandy will be enquired into
at that time and noticed in the
Report for Fusly 1263.-

The.

37. The Balance against Sheva-
gungah has been realized by the Sub-
Treasurer on Hoondies given by the grain
Contractors and will be adjusted in account
at the period of the next remittance
from Shevagungah—

38 The Land Revenue Balance
outstanding in the Ayen Talooks at the
end of October 1853 on account of Fusties
preceding 1262, amounted to Rupees 629-2 a
2. From this, if there be deducted the Ayen
Balance to be written off under the sanc-
tion of Government dated 11th October 1853
which subtracting Rs. 10-"-9 a p intermediately
collected, is, Rs. 122-10-1, the remainder is, 506-8-1,
particularized and explained below—

Fusties	Recoverable			Doubtful			Irrecoverable

	Anoopanady in Madacolum	6 8 1	It has been ascertained that this was charged for
	Tax on Ditch grounds in Madura	3 13 4	an excess measurement
			This balance is composed of 4 Items viz.ᵗ
			As. 12. P. 4 On land occupied by a Christian church
			" 9 " On Do. by a Tomb
			" 2 8 On Do. by a Native Temple
			2 5 4 On Do. by the Chuttrum of Coolama Maick which the Government in their Proceedings of 21st February 1853 have allowed to be exempt from Tax in future
		3 13 4	
		21 " 10	

I beg leave to recommend the remission of the portion Classed as irrecoverable Amounting to Rupees 21 a 8 - 10 -

Old Balance agt. Zemindaries Guntama Naick = noor Fusly 1237 Rs 548 a 8 - 7 - 9

39. This will be realized at Rupees 500 per Annum as sanctioned by the Board on the 2d September 1850 -

40. From Statement No. 23 it will be seen that of Rupees 1003 9 - 3 the Demand for Sovoy Jummah, the Collections and sanctioned Remissions upto the end of October last amounted to Rupees 936 7 - 12 5 leaving a Balance of Rs. 67 1 - 3 - 10. Out of this for reasons mentioned in the column of Remarks of that Statement, I beg to recommend remission of the amount of 8 as arrears and Rs 57 - 10 - 8 current. With reference to the latter sum however I request instructions whether in future any recommendations should be submitted for remissions of Current Balance. From the Form of Statement and remarks from time to time received I am led to suppose that the Board wish

Sovoy Jummah Statement No. 23.

wish the Current Balance to stand over without remark till the ensuing years Report, leaving it to the Collector to direct the suspension of any demand that he may intend to propose for remission -

Statement No. 25.

41. Of the Amount of 1040 - Rupees advanced in consequence of fire in Fusly 1262 under their sanction of the 8th January 1853, Rupees 346 - 10 - 8 have been realized, and the remainder to be recovered by instalments in Fuslies 1263 and 1264 -

42. I now proceed to shew the Statistics of the Principal Division. Those of the Sub Division are exhibited in the Sub Collectors Report -

Items

Fort St. George 9th February 1854

The following is an explanatory Statement of the increase and decrease shown in the above Abstract—

Item	Talook	Increase	Decrease	Remarks.
Hamlets	Thenkurray	1	0	Omitted in the accounts of previous years
Channels	Teroomungalom	1	0	Ditto
Wells	Madacolom	18	"	Basket wells
	Teroomungalom	253	"	Built with stones and omitted in the accounts of preceding Faslies
	Tenkurray	302	0	187 of these are built with stone, and rest are basket wells; all were omitted in the previous year's account
		573	"	
Ploughs	4 Talooks of the Pt. Division	812½	"	Owing to increase of Cultivation—
Resident Ryots	Madacolum	1761	"	This increase is owing to extended Cultivation and the inclusion of Goonchee Ryots who were improperly omitted in the abstracts of former years—
	Teroomungalom	419	0	
	Meylore	365	"	
	Thenkurray	723	"	
		3268	"	
Non Resident Ryots	Madacolum	471	0	Ditto
	Theroomungalom	335	"	
	Meylore	281	"	
	Thenkurray	267		
		1354	"	

43. I would wish to be informed by the Board whether under the term Ryots are to be included Puttah Holders only or all engaged in Cultivation whether land-holders or labourers—

Rent Roll No. 5.

44. There was an increase in large Puttahs as shewn below—

Rent Roll Abstract.

Rates of Puttahs	Number of Puttahs of Fusly 1261	Fusly 1262	Increase
1	2	3	4
750 to 1000	1	2	1
500 to 750	5	8	3
250 to 500	53	78	25

This increase did not in general arise from real augmentation of holdings but from the superior circumstances of the season as compared with the preceding Fusly

Fusly permitting the usual farms being more fully cultivated both as regards the first and second crops. There were a few instances however of an extension of Farms beyond the usual limits by the cultivation of land hitherto waste—

45. The subjoined Statement exhibits information relative to the effects of the Rules dated the 6th April 1848 on the Plantation of Topes. Owing to the transfer of Thenkurray to the Principal Division in exchange for Ramagherry, an excess of Plantations appears in that Division in the present Report—

Talooks

Particulars

C.P.L.

4 b. It will be seen that by far the greatest number of Topes are planted in Tenkurray, a large Talook which containing at the Fysul a great extent of waste which was very lightly Assessed. It was afterwards much depopulated by fever. On the other hand the soil is good and the means of irrigation owing to its lying immediately under the Mountains superior to that of any other Talook. From the above circumstances there is much waste and the Ryots are wealthy and able to plant. Of the Talooks of the Sub Division, Tandy-comboo, Tyempully and Nellacottah reach to the mountains at the foot of which Topes flourish exceedingly; it is natural therefore that the Ryots should exhibit more readiness in availing themselves of the encouragement to Plantations afforded by the new Rules, than in Talooks less favorably situated for the growth of Trees. Madacolum of the Principal Division is comparatively small in extent and already well furnished with Topes. They have increased

round

round the Town of Madura to a extent which threatens danger to its salubrity. The Taloork also contains a large quantity of valuable Nunjah land which the Ryots cannot afford to divert to other purposes. Teroomungalum Comprises large tracts of Cotton fields which are profitable, but in this Taloork and Mayloor in the Principal Division and Ramagherry in the Sub division a greater number of Topes seem to me desirable and with reference to the Board's remarks in Para 13 of their Proceedings of the 4th August 1853, I will make particular enquiries to ascertain whether additional encouragement or modification of the Rules is requisite to induce the Ryots to plant.-

47 As required by Para 16 of the Board's Proceedings on my Report for Fusly 1259 I annex a Statement of the Cotton Cultivation in the year under Report exhibiting an increase of Cawnies as 1343-1 above Fusly 1261.-

Statement.

	Land	Assessment. 1 Cawnies a	2 Rs. a p

The extent of Cultivation entered in for Fusly 1262 exceeds that given in the Statement in the Margin of the 29th August last by Cawnies 21 or Acres 27 12/16 which was omitted to be mentioned in the latter.

48. From the Seed received from the Board according to their letter of the 12th January 1852. wheat was cultivated in 31 Villages of the Principal Division as shewn below.

Taloks

Fort St. George 9th February 1854.

49. In 3 Villages of the Tenkurray Talook Viz.ts Ootampolaim and Vadaghery on the plain and Tandecoody on the Hills Returns of produce were received to the Amount of 77/8 Puddies. In all other Villages the cultivation entirely failed. I have no hesitation in expressing an opinion that the plains in this District are wholly unsuited to wheat, but that the finer Kinds as well as a course description already grown will eventually succeed on the Hills though it has not done so hitherto as shewn by the Statement in Para 15 of the Acting Sub Collector's Report.

50. Subjoined is a Statement of the cultivation of Sugar Cane in 1262 shewing an increase of 12 - 4¼ Cs.

Fort St. George 9th February 1854

55. It is unnecessary for me to state anything in praise of an Officer's Character for ability, zeal and industry is so well established as that of Mr. Clarke, on whom for 6 months of the year under Report including the period of settlement, the care of the District devolved during my absence on Sick Certificate.

56. It will be observed that the Acting Sub Collector mentions the services of Venkatarow the Sub Division Sheristadar with approbation

57. I regret to submit this Report at so late a period, but the Board are aware that I did not resume Charge of the District till 8th Oct. 1853 and then owing chiefly to the Head Sheristadar having been deputed to make a Settlement of the Minor Zemindary of Shevagungah the Accounts were not ready.

Madura Collector's Office 28th December 1853

/Signed/ R. D. Parker
Collector

Fort St. George 9th February 1854

58. My Head Sheristadar has obtained throughout the District a high character for integrity and application. If his power of dispatch in business were equally great his merit as a Public Servant would deserve the highest commendation.

7. As already mentioned the rains were sufficient to cause an increase in the items of Ponjah and Runjah. The Garden shows a decrease. It will be seen from the annexed statement of Wells and Garden cultivation for 10 years, that up to Fusly 1258 there was a progressive increase as well in the amount of Garden Cultivation as in the number of Wells, since that Fusly however, though wells have but slightly decreased the cultivation has greatly fallen off. It is observable that as shewn marginally, when Bagayet decrease Poonjah expends it may therefore be inferred that in seasons when rain is plentiful, the ryots prefer the less

Fusly	Ponjah tax		Bhagayet tax	
	£	₰	£	₰
1258	152039	11	47633	9
1259	159478	11	43747	12
1260	163214	12	64825	12
1261	165143	13	69996	2

less expensive and laborious Poonjah cultivation to Bahyayet, especially where the same kinds of products are raised. The extent converted into garden by new wells does not compensate for the falling off occasioned by old wells being abandoned or watering less land than formerly. The level nature of the ground also in this Division, particularly in Tyempully, appears to me less favorable for lasting wells, being devoid of that undulating surface, in the hollows of which the best wells are found elsewhere, as in Coimbatore. Hence, as the ground cannot so readily gather and retain the water, it is probably only once in many years that the showers are heavy and prolonged enough to saturate the soil throughly, and keep the wells full for a length of time, they therefore show a tendency to become less and less efficient.

Statement

2283 | Fort St. George 9th February 1854.

Statement of Wells and Garden Cultivation in the Division of Dindigul for fusly 1262.— No. IV.

The

Fort St. George 9th February 1854

8 The items of Remissions call for little remarks being all usual. That of Coulc Rs. shows an increase of Rupees 17-15-11 in consequence of Cawlers falling due and the Remissions of half tasc on Cotton Cultivated in the 2d. years exceeds that granted in last year by Rupees 5-1-8. The item of Rupees 8-2 for Garden Charged with one Crop assessment arises from a Garden in Nellacottah having been submerged by a tank and that of Rupees 12-6-6 for Coulc waste is owing to all the property and Cattle of a Ryot who has since died having been attached by a Court Process. The Remission of Rupees 8-10 on European Cotton seed is said to have been occasioned by the bad quality of the seed or its not having been sown at the proper season —

It

It will be seen that the land cultivated exceeds that cultivated in the preceding fusly by Cawnies 9402 - 13 3/4. It is also more than that cultivated in fusly 1260 by Cawnies 3160 14 3/4 Through the Revenue realized is less, owing to a greater amount of highly assessed land having been then cultivated.

to propose setting apart a portion of the adjoining waste- To this have the people entitled in consideration of the high assessment on their cultivation, (exceeding that in the bord-ering district) and the ancient, right of common-age; but in practice it is neglected, and does not promise to be easily brought into action- It opens ways of annoyance and oppression to the Talook officials and mea-sures of evasion and deception to the ryots. Only on Strict observance and fulfilment of the second Rule can the Grass Tax claim to be considered just, politic and expedi-ent and carrying out that rule seems likely to be always doubtful and difficult.-

12 The tax upon trees shows net increase of Rupees 137-12-- owing to trees having come newly into bearing and Tope rents having increased- The amount remitted on trees growing on cul-tivated and Enam lands is Rupees 391 Eight new Topes, occupying 23-7½ Cawnies land assessed at Rupees 26-8-11 have been formed in Fusly 1262, and applications 11- more are under consideration.-

1262	122 9¾	1089 14 5		160 - 7

The

Fort St George 9th February 1854

The sugar cane cultivation has decreased by only 1-6¾ Cawny though the decrease in assessment is Rupees 160. owing to lower taxed lands having been devoted to it. There has not been rain enough at the season for planting to advance the culture of this product materially, but a progressive increase may in future be confidently expected, as the Board's order of the 15th September 1851 becomes more widely known, and new wells multiply, under which it may be cultivated at Poonjah rates. With regard to the question whether the abovementioned order should be extended so as to include the other products known as Vanpyre, it would seem reasonable that Plantains at least should receive the same concession, inasmuch as they are not more profitable, slower in yielding produce, and far more perishable than canes or jaggery, Betel being a luxury might fairly bear a higher demands.-

Neb 789 11½

In

Fort St George 9th February 1854

In land cultivated with cotton, there has been a act increase of Cawnies 789-11½ which however is confined to the Jaggy Zemindaries the Circar ain lands shewing a decrease of Cawnies 177-6- in the extent given up to this product is compared with the last Fasly, this attributed to the superior quality and fitness of the soil in the Zemindaries, generally speaking- The increase of produce is estimated at 1,967-14¾ Pockets or bales of about 83 lbs each- In the Circar lands Cawnies 122 were cultivated with English seed and Cawnies 38. in the Zemindaries, the produce of which is only 15 9/16 bales; the bad condition

Fort St George 9th February 1854

condition of the seed, whether caused by insects, age or moisture, is evidenced in the smallness of its return, and also from the circumstance that whilst the average produce of one Cawny sown with native seed is 7 3/16 bales, that of a Cawny cultivated with English seed is only 1 2/16.-

15- The cultivation of both wheat and barley on the Hills shews a decrease as compared with the result of Fasly 1261- Of wheat 496½ measures of seed marked J- & F- were sown in which 284½ proved bad and gave no return, the remaining 212 yielded a produce of 761¼ measures- There are no returns for the wheat distributed and sown in the Jaggy Zemindaries, but the crops are reported to have been good.-

Statement

2303

Fort St George 9th February 1854

There is a net decrease in the Settlement of the Hill Village of Rupees 251_12_3. This arises from the Lands having been more correctly measured by the Sub Collector himself in Poombury and Yettoor - hence the Nattam-gars pay, which is a percentage on the cultivation, has been lessened by Rupees 18_15_3._

				Net Increase	1306	21398 11 7		

The rent roll exhibits a total increase of
1,306 puttahs in which 204 are for rates ex-
-ceeding Rupees 20- There is an increase
to 3 Joint puttahs. One puttah for Rupees
in the Ramagiri Talook has failed
water having come into a tank.-

18 No ryots property, real
-personal, has been seized for arrears due
Fasly 1262. Of the balance of Rupees 77-
against the two brothers Palany Coordoomben
and Rama Coordoomben, mentioned in par
77 of last years Report, Rupees 44-13-9 has
been ordered to be remitted by the Board
Para 24 of their Proceedings under date the
4th 1853; but Rupees 42-11-6 having been re
-lized in the interval, the remaining Rs
34-13 have been remitted. For Fasly 1263
there is a balance against the same parties
of Rupees 89-13-5, of which Rupees 30-6-5 due
from Rama Coordoomben will be collected
the remaining Rupees 59-7- are against Pala
Coordoomben, whose real property to the
value of Rupees 27-14- has been pro
attached by the Civil Court and an ap
-cation for the same, been made on behalf of the

His other property not attached by the Court con-
-sisting only of a thatched house and stable va-
-lued at Rupees 13-6- has been sequestered
by me, which as well as the balance Rupees 18-3- as
I recommend should be remitted, as the collection
would leave the puttadar entirely destitute.-

19- The balance remaining
uncollected on the 11th July was Rupees 916-
5-10 in Tadicombu Talook and Rupees
3,832-1-3- in Iyempully, and up to the end
of September Rupees 159-2-3 still remain,
in Iyempully only in which Rupees 13-4-2 are
due by one Nulla Gownden and Rupees 56-7-6-
by Peraya Gownden- The property of these ryots
having been previously attached by the Court
in satisfaction of private demands, an applica-
-tion has been made on the part of the Ci-
-vil for the landed portion.-

Vide Para 81. in Sub Collr's Report for fasly 1261.- 20 The question regarding the assessment of the land of the two brothers which, after having been enjoyed by them for more than 20 years at 4 fanams, had been raised on the Moozoomdar's report to 10 fanams, has not yet been satisfactorily settled, the Sub Col-
-lector not having had an opportunity for a personal inspection.-

21 The subjoined Statements of Demand Collection and Balance, of Sevoy Jumma, and of Land Revenue and Extra Revenue require no special remarks.-

Fort St George 9th February 1854

22 The outstanding balance against the Renters of Ammianaickanoor detailed in Para 82 of the last Report has been liquidated, and the 3 attached Villages have been restored. The unsatisfactory management of the Ayacoody Estate by the Guardian Obala Condama Naick has led to the Zemindary having been taken under Government direction for the remainder of the minority - The Summabundy is now going on and measures being taken to put the affairs of the Estate on a better footing.-

23. The following Statement shews the charges on the Revenue pcn in the Dindigul Division for Fusly 1262.-

33.

Bd No 155
From the Collector of Madura.

Sir.

I have the honor to state that the falling off in the Collections from Salt in October is attributable to heavy rain which fell from the middle to the end of that month exceeding what fell in the corresponding month of the preceding fusly.-

2. I consider that the Roads communicating with the Salt Pans stand in urgent need of Repair, but the weak Establishment of the Civil Engineer will not permit him to send any one to make Estimates and the very small amount of discretionary allowance assigned to this large District wherein the extent of Road is probably greater than that in any other District in the Presidency wholly disables me from expenditure from the source.-

Proceedings thereon.

(35.)

The only point requiring notice in the above report upon the Estates of Incapacitated Proprietors in Coimbatore in Fusly 1261 under private management, is that referred to in para 3 wherein it is proposed that the Poliput of Ootoocooly should be made over to the Poligar who is now 22 years of age, and is competent to manage his property. The Board see no objection to this proposal and authorize its being carried out.

B. No. 285.
From the Collector of Canara, dated 16th January 1854.

Submits for confirmation the sale of a land in satisfaction of the arrears of Revenue.

Sir,

I have the honor to forward the usual Statement of the sale of one of the lots authorized by the Board of Revenue under date the 3d November last to be put up to Auction in satisfaction of the Arrears of Revenue, and request that the sale may be confirmed.

2. The land was put up on the 8th of December last, the date fixed by the Board, but an offer of only Rupees 22 having been received, the sale was not closed till the 11th of that month when a higher bid was made to the amount of Rupees 24-8- and

and the sale closed. This price is as high as can be expected with reference to the condition of the land.

3.

"	1262	5	6	-
		10	12	-
Add Jummabundy	1263	5	6	-
		16	2	-

The amount of the arrears on the land for which it was proposed to be sold was Rupees 10-12-0. The demand for the current Fusly is also now pending upon the Estate.

I therefore request permission of the Board for recovering the whole of the arrears from the present sale proceeds of the land, and paying the surplus to the Defaulter who has, as already reported to the Board, long deserted the land in the event of his claiming it within a notified period.

/Signed/ W. H. Bayley
Secretary

To.

The Collector of North Arcot.

(43.)

B. No. 295
To the Collector of North Arcot

Sir.

The Board of Revenue desire me to bring to your particular notice the accompanying

Petition 12th of 1854

accompanying application from Mr Potter that they should interfere to obtain for him certain waste land in the Village of Arroombakum for which he tendered a Durkhast that was accepted by Mr Benning when acting for you, but which you decline to recognize.

2 The Board perceive that Mr Benning acted rather too hastily in this matter, and that you have rightly interpreted in your letter to Mr Potter of 30th December 1853 the view of the Court of Directors that Meerasidars have a prior title to a Stranger.

3 The Board conclude that Arroombakum is a Meerasee Village to which alone the orders of the Court of Directors apply, but they cannot but see that there are circumstances in this case which make it evident that the sole object of the Meerasidars is to prevent an European having any Cultivation in their Village, and that under the

the Revenue authorities interest themselves, the difficulty that Europeans have on account of the jealousy of the natives of introducing Capital and industry to the benefit of the Country will never be overcome.

4 In the present instance there can be no doubt that the occupation of land by Mr Potter supported by a respectable Firm in Madras, such as Cammiade and Co., and the introduction as the Board have been informed, of a superior method of Sugar Cane Cultivation, is not the speculation of an adventurer, but a bonâ fide attempt to introduce what it is the interest of Government to encourage. Not that the Board would encourage any such scheme by denying the rights of the native inhabitants, but they would assuredly insist on a strict observance of the liabilities which the demand for those rights imposes, on the Meerasidars, and they request that you will take due form enforce the orders of Government in their orders of 24th July 1849.

C.O. Book P. 322 note 3

That

2333

Fort St George 9th February 1854.

+ Copy of this and the Mochilka taken from the Meerasdars should be sent to the Board, the Security required by the order of Government being specified.

That you will take a written Durkhast+ from the Meerasdars of arrycanpum specifying their liability for the teeroo of the land whether cultivated or not and that you will inform the Board next cultivating season whether they have kept their engagement and whether the land is cultivated by them or by people from other Villages. Meanwhile they wrote you to furnish them with a Statement shewing the quantity and teeroo of the different descriptions of land in the Village of arcomba Kunry, shewing what is waste in each, and what is cultivated. You will also be good enough to state what extent has been agreed for at the Dettum for the last 3 years what portion of it has been cultivated.

5 If any land is yet left waste besides that for which Durkast is given Mr Potter will of course be at liberty to apply for it.

(5)

B. No. 423.
From the Secy.
Confirming the arrangement of the Board relative to the re-opening of the Pourtivauk pans, discontinuing those at Cuttivauk and Vichoor their Establishments being transferred to Pourtivauk and making over the Vullore and Voyalur Pans to the Collectorate of Madras.

Read the following Papers.

No. 146.

Extract from the Minutes of Consultation Under date the 2nd February 1854.

Read the following Extract from the Proceedings of the Board of Revenue.

(Here enter 5th January 1854 No. 7)

With the above Extract the Board of Revenue submit Copy of a correspondence with the Collectors of Madras and Chingleput regarding a proposed extension of the Salt manufacture in the vicinity of Madras.

2. The Board observe that "the Madras Depôt is supplied from 6 grounds, chiefly in the neighbourhood of Ennore, 3 of

		Nos of Canes	Outturn of 1853	Average per pan
1 Canrie and ½ a Cauge each	Attiput	885	2810	3/8
	Ennore	451½	1341	3
	Cuttiwak	168½	163	1
	Vullore	368½	767	2/8
	Voyalore	229½	549	2½
	Vichoor	150	36	0/4
		5688		

"of these grounds belong to the Collectorate of Madras, and 3 to Chingleput. They yield altogether about 5,800 garce per annum which is not sufficient to meet the increasing demand at Madras, and it is the object of the Board to make the Madras Entrepot the Grand Central depot and to keep in store such a quantity of Salt as may assure the Traders that they never will be disappointed in finding a full supply at all times. At present" they add "9,000 garce a year will answer the purpose, and it is desirable without loss of time to extend the cultivation."

3. To effect this object, it will be desirable that a considerable tract of ground attached to Poortivakum, South of Ennore formerly laid out with Salt pans, be renewed, and that the pans of Vichoor and Cuttiwakum, whose produce is comparatively small and as respects Vichoor of inferior quality, be abandoned, and their establishment transferred to the new ground at Poortivakum.

If

If these arrangements be carried out the future out-turn will it is computed reach annually 9,000 garce as shown by the Board in para. 5.

4. As a further means towards the end proposed, it will be expedient to transfer the Chingleput pans to Madras. This arrangement has been contemplated before, but has not been carried into effect owing to difficulties which the Board think it now unnecessary to discuss. They observe however that when they proposed the appointment of a Salt Superintendent, they had in view the bringing of the Chingleput pans under his charge, and they add that at present, the independence of the Chingleput Meerasidars of the Madras authority has been the cause of much irregularity.

5. For the reasons assigned in paras 12 and 13, the Board have authorized the Collector of Madras at once to take measures for opening the Poortivankum ground and to abandon the ground at Cuttivankum. They have also desired the Collector of Chingleput to discontinue the ground

at

Fort St. George 13th February 1854.

at Vichoor, the Establishment of which will also be transferred to Poorteanknum and to make over the Mulloor and Voyalore pans to the Acting Collector of Madras, to be placed under charge of Mr. Campbell the Salt Superintendent.-

6. Under the circumstances represented as looking to the advantage which may be expected from bringing the pans under the same authority, and to the desirableness of increasing the stock of Salt at Madras, both on general grounds, and in advertence to the demand which will be created for it in consequence of the new of conveyance afforded by the Madras Rail the Right Honorable the Governor in Council approves and confirms the arrangements authorized by the Board.-

× × ×

Para 1. In the above papers the Court of Sudr and Foujdaree Udalut, the Board of Revenue and Commissioner for the Northern Circars submit their opinions respectively upon the measures proposed by Government for adapting to the circumstances of this Presidency the revised rules now in force in Bengal for the examination of Junior Civil Servants.

2. The Court consider the proposed examination Rules especially as regards the vernacular languages to be judicious, and well adapted for testing the qualifications of the Junior Members

of

of the Service for the duties they are called upon to perform. With regard however to the plan upon which it is proposed to introduce them into this Presidency they represent that "to subject to examination under the "rules men who have already reached the "grade of Head Assistant would place "them in a very disadvantageous position "with reference to those a few years junior to "them in the Service, and in many instances "lead to their supercession, and to the serious "injury of their future prospects." They remark "that "some Head Assistants in this Presi- "dency are men of 13 years' standing. The "Junior on the list is upwards of 8 years. most "of these Gentlemen, it will be found have been in the "habit of transacting their business in one language "usually that of the District in which they have ser- "ved, and since they left College have entirely "abandoned the study of the second language "in which they were then required to pass. The "standard of the College examinations is by "means high, and it has naturally followed "that the second language has been in most "instances forgotten after a few years service "in the Mofussil. Even in the language

This is a mistake the Junior Head Assistant, Mr. W. J. Blair of Cuddapah, is only 5/12 years standing but the Head Assistant next above him Mr. A. D. Hodgson is of more than 8 years service.—

"in which their business has been conducted — "they have for many years had no practice in "reading vernacular papers and though well able "to converse intelligibly and to hear intelligently "all that is addressed to them, they will in most "cases find it a task of no small labor to ac- "quire the requisite facility in reading written "papers in the one language of their every day "use. The rule will bear with excessive hardship "on those Gentlemen who may have been employed "for some years in the Northern Districts where "Tamil is entirely unknown." "While therefore "the existing Senior Head Assistants are strug- "gling with their difficulties and seeking to make "up for their deficiencies it is probable that their "Juniors fresher from College and with the better "facilities that youth gives for attaining a know- "ledge of foreign languages, will pass before "them and under the proposed orders be entitled "to supersede them in any Subordinate Judge- "ships or Sub Collectors that may fall vacant "before the former have passed.—

alluding to N. IV. of the revised Rules for Bengal.

3. Under these considerations the Court recommend "that all present Head Assistants

be

be exempted from examination and that the rules proposed should be declared applicable to all who may not have obtained that grade at the time of their promulgation." This they remark would assimilate the course herewith that followed in Bengal both in regard to the standing to the allowances, and to the Official duties of the parties subjected to examination. They think also that the first of the examinations recently established in Bengal might be dispensed with in this Presidency.

4. The Judges further consider the scheme to be defective in one particular, viz. in the omission to provide any school for training and test of qualification in Civil Law, and suggest the re-establishment of the Registerships, but upon a different footing to that on which they were formerly constituted, so that the Register should be an Assistant to the Judge, not exercising independent powers, or by the adoption of the plan of Professors recommended by the Law Commissioners. Whenever such an arrangement for training the Junior Members of the Service who

who may be destined for the Judicial branch of it, shall have been provided, an examination-test of qualifications, may be appropriately applied previous to their promotion to the Office of Subordinate Judge".

5. Lastly the Court advise that the examinations be invariably held at the station of the Judge who may be a member of the Local Committee to obviate the inconvenience which would be occasioned by the absence of a Judge from his Court station.

6. The Board of Revenue also express their general approval of the Rules but like the Sudr object to their application to men of long standing. They recommend that all who have completed above eight years actual service in India when the Rules are notified be exempt from examination, or that the examination now to be enforced should embrace Civilians of the 5th and 6th Classes only who, the Board state, appear to occupy the same position as to standing and administrative powers as the Civilians in Bengal whose fitness for Office it is found necessary to test.

The

7 The Board add, that the importance of an acquaintance with keeping Revenue accounts should be kept in mind, and with this view, they suggest that a small manual be prepared in the Accountant General's Office, such as that forwarded in 1843 to Mr. Bayley for his guidance when Commissioner in Kurnool after the first assumption of the Territory. It is believed that a manual of this kind has been published at Agra, copies of which would be useful. Some knowledge of the Rudiments of Land surveying might also be required and an acquaintance with the Selections from Official Papers, the printing of which has lately commenced under the auspices of Government. The Board likewise recommend that Government should obtain from Calcutta, copies of some of the papers furnished to the Examinees, as a guide to this Presidency.

8. The Commissioner for the Northern Circars states that "the first language is both examinations" (or he should have more properly said the language to be taken up at the first examination

examination) and the first or principal of the two to be given up at the second or higher standard examination) should be that of the District in which the individual is employed." It may sometimes happen that an Officer recently transferred from a Southern to a Northern Zillah or vice versa may be more perfectly versed in the dialect of the District he has left, than in that of the one he has joined but as the examinations are to be held if required, every six months, and as the important and proposed is to secure efficiency, he is of opinion that a familiar knowledge of the language of the Province in which he is stationed, should be required from every Officer as a sine qua non. With regard to the second language, it will be difficult in many instances for men who (with reference to past usage) have not served in a part of the Country where it is vernacular to appear at the next impending examinations. There are several Assistants for instance in the Circars, who have never been in a Tamil District at all, and it cannot be expected that their College experience has imparted that facility

Assistants who have not passed according to the first standard in Bengallee will not be retained in a Bundobustee Dist: trict more than a year. Assistants in Orissa may pass according to either standard, either in Bengallee or in the cognate Oryee language at their option.

facility in the Tamil dialect to be acquired only from every day intercourse with the people who use it. A similar difficulty has been experienced in Bengal and it has been met by Art. XIV of the revised rules. The same provision may be adopted hereafter as regards the Junior Members of the Service in Madras But for the past some relaxation appears to be necessary in cases such as those specified above, where the temporary removal of the individuals would occasion great inconvenience." Mr. W. Elliot concludes by remarking that the Commissioner for this Division should attend every examination when practicable and when it is necessary to hold them at different places on the same day, should assist at that where his presence is most required to form a Committee.

9. The Right Honorable the Governor in Council has given his earnest attention to the remarks and suggestions of the Judges of the Court of Sudr Adalut, of the Board of Revenue and of the Commissioner Northern Circars, on the important subject submitted to

to them. He cannot however assent to the views of the Sudr and the Board as to the limit to be placed on the application of the rules or agree with them that the examination should be restricted to Junior Civil Servants, below the grade of Head assistants, or under eight years service, or of the fifth and Sixth classes. Such a limitation would in his opinion, detract greatly from the value of the rules for some years to come. Owing to the more rapid promotion in the Junior Branches of the Bengal Civil Service, and to the larger powers bestowed at an early age, the application of the examination rules in that Presidency may not have extended to men of as high standing as will be affected by them at Madras. but the principle on which the rules are founded viz: that large powers, Revenue and Judicial, are not henceforward to be bestowed unless on parties proved to be fully equal to their exercise, will not be satisfied at this Presidency by any narrower application of the system than that laid down in Extract Minutes Consultation 28th October last. At the same time

the

the Governor in Council is fully alive, and is anxious to show every consideration to, circumstances such as those indicated by the Court and the Board which might make the scope to be given to the Rules, bear hardly on any of the Junior Servants. He therefore is still requiring all who have not attained the grade of Head Assistant by the month of June next to present themselves at the examination for the first standard then to be holden, and all Head Assistants and others below the grade of Sub Judge and of Sub Collector (or the cognate Offices of Assistant Judge, Deputy Register to the Sudr and Foujdaree Adalut, Deputy Collector Sea Customs, Sub Secretary Board of Revenue, Deputy Secretary to Government) is similarly to attend the examination for the higher standard at the close of the present year, the Government will be prepared favorably to consider the cases of such old assistants and Head Assistants as may be well reported of altho' they may not come up to the full standard and to treat them in the manner already proposed Extract Minutes Consultation 28th. October last para 17 for Servants

returning

returning from Furlough, viz. to allow them their promotion or to grant them the increased allowance of Pagodas 50 per mensem on condition of their passing the required test within a prescribed period.

10. The remarks of the Commissioner for the Northern Circars relative to the languages for examination are of much weight. It is clearly of paramount importance that an Officer should be familiar with the language of the District in which his business lies, and the recommendation of Mr. W. Elliot, that the chief language to be taken up, that is, the single language of the first standard, and the first of the two tongues for the second, shall invariably be the language of the Province in which the employé is stationed will therefore be adopted and the choice allowed to Examiners under Para 3 of the late Circular will be withdrawn. The rule may without hardship be carried out rigidly as regards young men whose promotion is not near at hand, and who have ample time to qualify themselves. Any other cases such as those of Assistants on the eve of promotion and recently transferred from a

Northern

Northern to a Southern District or vice versa will be regarded as exceptional and disposed of in the manner prescribed at the conclusion of the preceding para- the party being allowed his promotion on condition of his fully qualifying himself in the language of his District within a period to be assigned. It will also be advisable on the principle of the Rule quoted by Mr. Elliot that as far as the requirements of the public service will permit Assistants who have passed their first examination in one of the great Madras dialects- say Tamil, should be transferred to Northern Districts, that they may have the opportunity of qualifying themselves in Telugoo and vice versa. Looking also to the greater difficulty of the languages spoken in the Peninsula above those current in Bengal, the Government think that the standard of the higher examination may, as regards the second language, be considerably relaxed- ability to write the second language need not be demanded, but only a fair colloquial acquaintance with it on the part of the

R.A.L.

Examinee.

Examinee and power to translate correctly an official paper read to him to dictate orders in the language and read Ordinary Urgees- While attaching great importance to the studying of both Telugoo and Tamil, the Government are further sensible that some departure must be allowed from the rule laid down in para 3 of the late Circular in such cases as those noticed by the Commissioner where Assistants now in the Service especially those on the eve of promotion have been uniformly Stationed in a part of the country where opportunities for studying the Vernacular language of the other Division have been wholly wanting- In such cases as these as well as generally in Bellary and Cuddapah where Hindoostanee is spoken by a large proportion of the people as also in Malabar and Canara where it is very useful the parties should be allowed at their option to take up Hindoostanee for their second language- The Board of Revenue and Commissioner Northern Circars will ascertain

ascertain what assistants there are within their respective ranges whose cases should thus be dealt with, and will report for the consideration of Government what latitude as regards the choice of language should be allowed in each case. The Government may here state generally that it is their wish so to introduce the new system as to show the utmost consideration compatible with the attainment of that efficiency which it is the object of these rules to secure. When the parties to be newly subjected to examination may evince an earnest desire to qualify themselves conscientiously for the discharge of their duties, and may show that they have made good use of past opportunities, every allowance will be made for deficiences arising from unavoidable circumstances.

11. The suggestion of the Court of Sudr Udalut for the provision of a School for Judicial training can hardly be acted upon at present. It seems rather fitted to form a part of any arrangements that may be adopted for the reform and better organization of the whole Judicial System. Their proposal to hold the

the examination at the station of the Judge appears to rest on valid grounds.

12. The recommendation of the Board that Junior Servants should be initiated in a Knowledge of Revenue accounts and the means to be taken for the purpose are good. The Accountant General will be requested, in communication with the Board, to draw up for the use of assistants in the Provinces, a Manual, such as the one referred to. Application will also be made to the Government, North Western Provinces for the Manual said to have been prepared at Agra. Besides these, however, Collectors should be required to exercise their assistants in the examination and check of revenue accounts, the native village and Sales accounts, no less than the English accounts kept at the Hoozoor, and should be held responsible that their assistants have the means and opportunity of acquiring this Knowledge. The examination should test their acquaintance with these accounts, as well as of the District Hoo Rummanah, and the past revenue history

history of the Province as contained in the records. It is of great importance to Assistants to be obliged to make themselves conversant with the Village accounts. to know thoroughly what accounts the Curnum ought to keep, and the object and use of every one. It would further serve as a useful training to Junior Assistants if, on first entering on revenue duties, they were placed in special charge of one or more villages, and required to obtain a distinct insight into their whole economy and statistics. The Assistant might have to make to the Collector a Summabundi report of such villages giving a full account of the cultivation and of the circumstances which have caused increase or decrease, comparing the Settlement and the Settlement, and explaining the difference if remissions have been given showing the cause, and stating the principle, on which they were allowed in reference to the Hon Rummanah. Such reports might be laid before the Local

Local Committees under No. XI of the Rules. The Board of Revenue are requested to draw up and forward to Government for approval a Circular Order indicating the subjects as above noticed, which Assistants should be required to study, and making the Heads of Districts responsible that the attention of their Assistants is given to such topics, and that they have the means and opportunities afforded them of becoming conversant with them. They will further require reports from the Collectors of the periods that their Assistants may have passed in the Talooks. and that they may have resided in or near the villages of which they have been in special charge and will bring to the notice of Government any instances on the part of Collectors or their Assistants of neglect, on the one hand to afford means of instruction or on the other to avail themselves of them.

13 On the subject of instructing Junior Civil Servants in Land Surveying, reference has been made to the Honorable Court. Except in Districts where a survey is in progress as at South Arcot, there will be

be difficulty in carrying it out.

14 The suggestion in para 9 of the Board's Proceedings is deserving of adoption. Specimens of the examination papers which the Bengal Revenue Board contemplated setting at the outset of the system and before it had been regularly taken up by Government are already published in pages 8-11 of the printed pamphlet sent with the first letter from Calcutta. Application will now be made to the Government of Bengal for Copies of the late examination papers there given.

15 The examination Rules in use in Bengal forwarded in the letter from the Government of India under date 15th September last have been modified in conformity with the remarks contained in the preceding paras so as to adapt them to the circumstances of this Presidency. arrangements will also be made for the appointment of a Central Examination Committee, and of Divisional Examination Committees in due time for the first examination to be held in the month of

of June next. These proceedings and the previous correspondence that has passed upon the subject will also be reported to the Government of India for their approval in reference to their Officiating Secretary's letter of 19th August last.

Ordered that the above Extract be furnished to the Court of Sudr and Foujdaree Udalut, to the Board of Revenue, and to the Commissioner for the Northern Circars, in reference to their several communications, and that para 12, with that part of para 8 of the Board's Proceedings to which it refers, be furnished to the Accountant General.

Ordered also that paras 9 to 15 of the Extract, together with the revised rules, be printed, and Copies distributed among all the Junior Civil Servants who will be subjected to examination, for their information, in reference to the Circular from the Revenue Department under date the 28th October 1853. No. 1211.

/True Extract/

To The President and Members of the Board of Revenue

/Signed/ J. S. Bycroft
Sec. to Government

Rules

2363 Fort St George 13th February 1854

Enclosure
No 1

Rules for the Examination of Assistants

1 Half yearly Examinations of Assistants - A half yearly examination of Assistants, liable under these Rules to examination, shall be held in the months of June and December of each year, at such central Stations as may be fixed by Government -

2 Two qualifying Standards. At these half yearly examinations, there shall be two Standards of qualification, according to one or other of which the Assistants shall be examined - an Assistant must be examined and found qualified according to the first Standard, before he can be appointed Head Assistant or Acting Head Assistant to a Collector and Magistrate - A Head Assistant or Acting Head Assistant to the Accountant General - or Head assistant or acting Head Assistant to the Register to the Court of Sudr and Foujdaree Udalut or before he will be permitted to draw the increased allowance of 50 Pagodas per mensem after

2364 Fort St George 13th February 1854

after 8 years service - An Assistant who has been found qualified according to the first Standard, must be found qualified according to the second Standard, before he will be considered by Government capable of holding the office of Sub Collector and Joint Magistrate or Subordinate Judge; or Deputy Secretary to Government, Deputy Register Sudr and Foujdaree Udalut, Deputy Collector of Sea Customs, or of acting in any of those capacities.

3 What Assistants are to be examined. All Junior Civil Servants now in the Service below the grades of Sub Collector and Joint Magistrate or Subordinate Judge (and of Assistant Judge, Deputy Secretary to Government, Deputy Register Sudr and Foujdaree Udalut, Deputy Collector of Sea Customs, Sub Secretary Board of Revenue) will be subjected to examination - Those who have already attained the rank of Head Assistant will have to undergo the 2d Standard examination before they can be promoted, Those below that grade will be subjected to both examinations, that by the first and that by the second Standard - Junior Civil Servants shall be subjected to half yearly examination, after they have been six months at their station

station as Assistants - and all Assist-ants who have passed according to the first standard but have not passed according to the second standard, of qualification, and who have been more than two years at their station as Assist-ant shall be subjected to half yearly examination - all other Assistants who have not passed according to the second standard of qualification may be ex-amined at any half yearly examin-ation, with the special permission of the Collector of their District previously obtained - Assistants examined under these Rules will draw the usual travel-ling allowance to and from their res-pective Stations.

4 Central Examination Committee. The Government will constitute a Committee to be called the Central Examination Com-mittee, by whose instructions the local Com-mittee shall be guided, and with whom they shall correspond on all matters con-nected with these half yearly examina-tions. The Central Examination Com-mittee will consist of one Judge of the Sudder Court, who shall be President thereof, and of one Member of the Board of

of Revenue, both nominated by Govern-ment - also the Register of the Sudr Court, the Secretary to the Board of Revenue and such other Members as the Government, from time to time, may appoint - a Secre-tary to the Committee will be nominated by Government.

S Duty of the Central Examination Committee - It shall be the duty of the Central Examination Committee to fix, on every occasion, the half yearly examination days, which shall be the same for every Local Committee Station. It shall be the duty of the same Committee to prepare, before hand, for each examin-ation, sets of questions to be put to the Assistants under examination, a sufficie-ent number of copies of each of which sets shall be forwarded to each Local committee in a sealed packet, not to be opened until the moment of examination. The Central Examination Committee, from time to time, shall lay down such Rules as may appear to them best for the guidance of the Divisional Committees, in order to ensure a fair and uniform method of fixing the degree of attainment upon each point of

examination

examination which the several Assistants examined may reach.

6. Divisional Examination Committee

At the several Stations where the examination is to be held, a Committee, consisting of Public Officers, to be called the Divisional Examination Committee, shall on each occasion be constituted by Government, and the Judge of the Station, if not absent on leave, shall be a Member. The Commissioner for the Northern Circars shall, whenever practicable, attend the Examination, and shall be Ex-officio President of the Divisional Examination Committee.

7 Duty of the Divisional Examination Committees, and Reports of the Examinations. The Examinations shall be conducted by the Divisional Examination Committees, who, after due deliberation in respect of each Assistant examined, will record the result, stating their opinion as to whether the standard of qualification has been attained or not, which result, in case of difference of opinion will be determined by a majority. The record will be forwarded to

R.P.L.

to the Central Examination Committee. The written answers of the Assistants and the other papers written by them either in the Vernaculars or in English, shall be forwarded with the record. The Central Examination Committee after taking all the Reports into consideration and perusing any of the examination papers that it may seem to them proper to peruse, shall report to Government the names of such Assistants as in their opinion have proved their qualifications according to one or other of the Standards in force, noticing especially in the order of their merit, any Assistants, who with reference to the length of their residence in India, may have passed with great distinction.

8. Principal object of the first Standard

The principal object of the first Standard of examination shall be to test the proficiency for practical purposes, of the Assistant in the Vernacular language of his district. For this purpose at least three papers which he has never seen before, taken from official records, very much at hazard and written by different persons in a plain running hand must be read aloud by the Assistant correctly and without great difficulty, and after being read aloud

aloud their contents must be correctly explained by him in English An English judgment or other Official paper to be furnished by the Central Committee must be translated by him into the Vernacular without assistance. The translation must be substantially correct in meaning, and intelligible to a Native tolerably correct in grammar and spelling, and free from any very bad errors of idiom, He must dictate off hand, with some fluency the translation into the Vernacular of an English report or other official paper also to be furnished by the Central Committee whereof the translation will be written down exactly as dictated. The dictated paper must in like manner be intelligible and substantially correct. He must then be tested in conversation with two or three Natives, in such manner and to such extent as shall suffice to satisfy the Committee as to the degree of his power of understanding Natives of different classes, and of making himself understood by them, such conversation or colloquial examination to be confined to the ordinary duties and business of a Court or Cutcherry and not to embrace abstruse

abstruse or peculiar subjects. An Assistant must pass successfully through every step of this branch of the examination in order to qualify according to the first standard.

9. Second Object of the first Standard. The next object of the first standard of qualification shall be, to test the Assistants general acquaintance with the leading principles of the Systems of Revenue Administration and Criminal Justice, and especially with the so much of the Laws and Rules of Procedure as it is necessary for an Officer to know in order to exercise properly the functions of a Head Assistant to a Collector and Magistrate. For this purpose, a set of questions on Revenue, Magisterial and Police subjects shall be furnished by the Central Committee. These questions should be so framed as not to involve points of difficulty or rare occurrence, and to show rather the possession or the want of a general and intelligent acquaintance with the subjects of examination and the fundamental laws applicable thereto, than of a Knowledge of a string of points of detail, and dates of orders, which may be soon learned for the occasion, and are generally as soon forgotten

again

again. These questions must be all answered without book. The Assistant should also be examined generally as to his knowledge of Cutcherry accounts, both the three English accounts kept at the Hoogvor and the Native accounts Talook and Village, of the Hoobunnamah of his District, and its past revenue history as to be learnt from the Records.

10. Third Object of the first Standard.

The next object of the first standard of examination shall be to test the power which the Assistants may have acquired to deal with conflicting arguments and evidence, in actual cases. For this purpose two decided cases, with the final proceeding in each withdrawn, which the Assistant has never before seen, one from the Collectors and one from the Magistrates Office of the nature of cases coming before Head Assistants, shall be given to the Assistant. The papers may be read over to him by a Native Officer, and the explanation of any difficult word or phrase may be asked for and given in the Vernacular, the circumstance being on each case noted. The Assistant may now refer to all his books, and may take

take his notes as the case is read over. At the conclusion of each case, he must write in English a brief but precise description of the case, and a decision upon the questions at issue, with a sufficient statement of the grounds on which it is founded.

11. Fourth Object of the first Standard.

The last object of the first standard of examination shall be to ascertain how the Assistant has been employed and how he has done his duty at his Station. For this purpose the Collector and Magistrate under whom he has been employed shall furnish the Committee with a report upon these points. It shall be the duty of such Officers to make over to their Assistants from time to time cases for report. The Reports shall be written in English on one side of a sheet of paper, and after the case is decided, the Officer who decides it shall note on the other side of the sheet his remarks upon the Report. These Reports, with the notes thereon, shall be submitted to the Divisional Examination Committee. Such Officers shall also require their Assistants to make English Minutes of the cases given to them for decision - which Minutes also shall be submitted to the same Committee

But

Fort St. George 13th February 1854.

But these Reports and Minutes need not be sent up to the Central Examination Committee. The opinion formed of them by the Divisional Committee, however, shall be entered in the record submitted to the Central Committee.

12. Second Standard. The second standard of examination shall be similar in its nature to the first but more difficult in degree. In the Vernacular portion of it, the reading of a common office running hand must be tolerably read. The papers selected as tests shall be of a more difficult description of office papers, the translation, dictation and conversation should be fluent, generally correct, and readily intelligible, and the Assistant should be tested in his power of explaining himself clearly and with sufficient propriety in the Vernacular, in an argument or topic of some difficulty, such as may occur in official business. In this examination it will be necessary for the Assistant to pass in two Vernacular languages. The test here resolved shall be strictly enforced, in respect of the language of the District, where the Assistant is stationed at the time

Fort St. George 13th February 1854.

time of examination. In the second language the examination will be of a less rigorous character. Ability to write the language will not be required, but only a fair colloquial acquaintance with it on the part of the Examinee, and power to translate correctly an official paper read to him, to dictate orders in the language, and read ordinary Urgees. The questions of Law and Practice should be selected from the whole field of the duties of a Magistrate and Collector but they shall be arranged in two classes one class comprehending important and leading points, in answering which no books shall be allowed, and the other class comprehending less general and less common points in answering which assistance of books shall be allowed. No Guides, Digests or Summaries, however, shall be permitted to be used, the Assistant being confined to the original Laws, Circular Orders and Constructions. The object of this class of questions is to test the Assistant's knowledge of where readily to find the Law or practice on the less common points that arise in business. In preparing these questions nice and difficult points should be avoided, the object being not to evoke subtlety

Fort St. George 13th February 1854.

subtlety or ingenuity, but only to ascertain whether the acquisition and capacity of the person examined are adequate to enable him to perform fitly the important functions of an Indian Magistrate and Collector, or not. The trial cases should be selected from those possessing enough of complexity to test the Assistants ability to master all ordinary difficulties and especially to test his power of minute attention to, and just appreciation of evidence.

13. Object of the Second Standard.

It shall be the object to make the Second Standard such that a man who has passed a College examination, being of ordinary understanding and capability, who fairly applies himself with proper deligence to his business, and makes it his daily object to familiarize himself with the languages of the Country, may pass it after two or three years of Mofussil experience.

R.M.K.

Fort St. George 13th February 1854.

Bd. No. 351.

Proceedings thereon.

8. The Board of Revenue resolve to forward to all Collectors a copy of part of para 10 of the above Extract Minutes of Consultation, with a request that they will submit their opinion as to whether any of their Assistants should be dealt with in the manner referred to by Government No. 68.

They also resolve to submit for the approval of Government the following draft of a Circular to all Collectors.

7-9.

Bd. No. 350

Circular.

I am directed by the Board of Revenue, under instructions from Government to intimate to you that you are required to exercise your Assistants in the examination and check of Revenue Accounts, the Native Village and Talook Accounts no less than the English Accounts kept at the Hoozoor, and will be held responsible that they have the means and opportunity of acquiring this knowledge. The examination recently ordered will test their acquaintance with these Accounts,

Fort St. George 13th February 1854.

as well as with the District Book=
=namah and the past revenue history
of the Province as contained in the
records. It is of great importance to
Assistants to be obliged to make them=
selves conversant with the Village
Accounts - to know thoroughly what ac=
=counts the Curnum ought to keep and
the object and use of every one - It would
further serve as a useful training to
Junior Assistants, if on first entering
on revenue duties, they were placed
in Special Charge of one or more Vil=
=lages and required to obtain a distinct
insight into their whole economy
and statistics - You will require
them to make to you a Summary
report of such Villages, giving a full
account of the cultivation and of the circum=
=stances which have caused increase or de=
=crease, comparing the Settlem and the Kist=
=ment, and explaining the difference, if re=
=marks have been given, shewing the cause and

(10.)

B. & K. 320.

No. 60.

Proceedings thereon.

Reviewing the Extra Sources of Revenue of the Bellary District for Fusly 1262, and recommending that Land Puttadars be Exempted from tax and Shepherds be charged at the Uniform rate of 1/8 Rupee per flock of 100 Sheep

The Settlement of the year shews a decrease of Rupees 3139, as exhibited below.

Item.

Fort St.e George 13.th February 1854.

2. The fluctuations during the period compared, arise from ordinary causes and appear to call for no remark.

3. The collections including Extra and Arrears, were 6.19997 Rupees and were realised with great punctuality Rupees 6.10543 were collected within the Fasly and 7.079 up to October leaving at that period a balance of only 1703 Rupees

4. Of the Balance 406-4-8 for fasly 1261 the Sum of Rupees 395-11-, is considered irrecoverable and Sanction is requested for its remission.

5. The charges of the year were Rupees 6.805 leaving a Nett revenue of 6.03736 Rupees. The Collector is correct in supposing that the Circular from this Office of the 27.th June 1853, does not apply to the pasture rents alluded to in Para 6.

6. In Para 11 the Collector brings to notice the particulars of the tax on Sheep, and the unequal rates at which it is collected. It varies even in the same Talook, and is at one rate only in the

Fort St.e George 13.th February 1854.

the Divisions of Gooty and Raidroog.

7- The individuals taxed are 4,489. in number, of which 3,268 are Shepherds by profession, and 1,221 are land holders but charged as professing flocks.

8- The amount paid by them in Land Revenue is 20,190 Rupees and as Sheep tax 3,017, being, as the Collector observes, an Extra charge of 25% upon their means of subsistence and thus discouraging them from holding stock so instrumental in the improvement of their farms.

9- Some land holders escape the tax though liable, as it is imposed on those only who have long paid it.

10. The Collector proposes that land Puttadars shall be exempt from the tax and that Shepherds shall be charged at the uniform rate of 16 Rupees per flock of 400 Sheep.

11- The loss to the Revenue under this arrangement will be 6,317-6 (3,017 on farmers and 300 on Shepherds but

Fort St. George 13th February 1854.

but looking to the arguments in its favour adduced by the Collector, the Board would recommend it for favorable consideration - The Government were pleased in accordance with the suggestions of the Collector and the Board, to lower the rate on Sheep and Goats in Guntoor from 6 to 3-12 per 100, which is something less than the rate now proposed for Bellary -

12. The enumeration of Statements forwarded in Para 1 should in future be omitted -

Ordered that a copy of the foregoing Extract with the annexed Comparative Statement of the Collections Charges and Net Revenue be submitted to Government and a transcript of the same be furnished to the Collector of Bellary -

Sir

From the Collector
of Cuddapah

I have the honor to acknowledge the receipt of your letter under date the 17th November last, forwarding Petition No. 1909. of 1853, from Soobbiah an

EBG.

Fort St. George 13th February 1854

an inhabitant of Budwail attached to the Village of Cuddapah upon which the Board require a report.

2 The subject of the Petition is a Moonsiff in the sub Division and all the items of the Complaint falls within the jurisdiction of the sub Collector whose province it is to enquire into it. On receipt of the Boards letter I forwarded the Petition to that Officer with a Communication requesting that he would report upon the subject which he has accordingly done, Copy of which is herewith enclosed together with the original Petition.

Cuddapah District
Collr's Office on Circuit
at Jummulmudgoo 17th
January 1854

Signed In. Murray
Collr

No. 1
No. 3

To M. Murray Esqre
Collector of Cuddapah

Sir,

In reply to your letter of 8th Ultimo transmitting Copy of a letter from the Secretary to the Board of Revenue in reference to a petition bearing the signature of Soobbiah of Budwail, in which several Charges

+ Venkaburoo

Charges are made against the sub Division Moonshee x one of which is that since his appointment to his present office, he has obtained situations for 8 of his relations in the Talooks of the sub Division, and in Regard to which allegation, a report is more especially required by the Board of Revenue - I have the honor to state that Venkaburoo was appointed to his present Office in 1849, and that his relations and Connections in the Public Service in the Talooks of the sub Division are two in number - the first of these, his Connection (nephew by Marriage) Ragaroo was appointed by you when acting Collector in 1850, as Revenue Goomastah in Cumbum Talook - the second his Cousin Raghavendaroo, was appointed by me as acting Maramut Mostoubby in Budwail Talook, on the Talookdars representing that there was no unemployed person in his Talook capable of undertaking the duty during the absence on sick leave of the incumbent, and requesting me to send a person from the Hoozoor

Raghavendraboo

Raghavendra Roo was the sole applicant for the acting appointment, and was confirmed on the death of the incumbent in the year 1852 -

He has an elder brother in the Principal Division a Carcoon in Chitvail Talook appointed in 1840 -

His late elder brother the Talookdar of Cumbum, who was killed in Narasimhareddy's out breaks, had a brother in law a Goldar in Donoor Talook -

Casiroo, the Head Goomastah of your Sheristadar's Cutcherry 8 years ago, married his son to the Division Moonshee's daughter -

Janikiroo the Goomastah in Budwail Talook is not related to or Connected with the Division Moonshee, nor was he ever dismissed as stated in the Petition - He was formerly Deputy Moonshee of the additional sub Collectors' Cutcherry and when that Office was abolished he lost his situation but had been since temporarily employed in the Revenue Survey of Kurnool and Guntoor under the late Commissioner -

On enquiry into the subject

of

of the Evans left by the late B. Ramalinger it appears that no order was ever issued to resume it, and that with the exception of a part of it, in the Village of Ardanuel, unclaimed by the heirs of the deceased the Sloob is in the enjoyment of the daughters of the deceased. The unclaimed portion has been Collected on behalf of Government. The usual Report will be submitted on its Receipt from the Talook.

On the Receipt of your letter for the purpose of taking a deposition I Summoned the presumed writer of the Petition, who, from the allusion to my decision in the Case of the Cenchuk Budwail Curnum, appeared to be the brother or son of Chentsiah, who was dismissed in that Case, both of whom are called Sooddiah, but the latter denied all Knowledge of the Petition and affirmed that it was not the production of his uncle, I then Caused a proclamation to be made requiring the writer of the Petition, whoever he might be to come forward and state his case, but no one has appeared to own its authorship and from

from the absence of the signature of any family name, the identity of the Petitioner is uncertainable. The Petition is here: with Returned -

BR No 925
From the Collr of Salem
Submitting the report in regard to the teakwah rates prevailing in Vadagherry Ahtoor. as required by the orders of the Board, dated the 13th May 1850.

Sir,

Your Board having in their Proceedings dated the 13th May 1850, required from the Sub Collector of this District, a Special report on the present condition and causes of decay of the Aumany Mootah Vada-gherry Ahtoor, Talook Paramuttay - I have the honor to submit a transcript of a communication on the subject to my address from Mr W. E. Cochrane, Sub Collector.

30th Decr 1851

My attention has several times been given to this matter, but I have found difficulty in satisfying myself that I have correctly appreciated the meaning intended to be conveyed in certain parts of the Sub Collector's report, and my ordinary duties, leaving me but little of the leisure requisite thoroughly to enter upon the question, by reference to the accounts and vernacular papers, a delay has occurred in

Fort St George 13th February 1854

in my Office, for which I beg to solicit the Board's indulgence. Finally it has seemed to me, that it will be more conducive to brevity and the clear exposition of the bearings of the subject, if I abstain from dealing Seriatim with the Sub Collector's report, I therefore take permission to place before the Board, in a succinct form, the particular information that appears to be required.

3 The Mootah Vadagherry Ahtoor consists, including its hamlets, of 21 Villages, as marginally noted. The permanent field assessment which prevails in them was introduced by Captain Macleod in Fusly 1207, and the fixed Bariz of the Estate was in Fusly 1211 settled at Pr 10,500.

	Villages	Hamlets	Total
1 Vadagherry Ahtoor	1	12	13
2 Kottamingalum	1	2	3
3 Coorumbulmabadavi	1	2	3
4 Seeromullycovil	1	1	2
Total	4	17	21

4 On an inspection of the old records, the Mootah appears to have been first placed in possession of a proprietor in Fusly 1212 (AD 1802-3) and to have remained in that position as a Jaeer Estate, up to Fusly 1220, or twenty nine years.

During

Fort St George 13th February 1854

During this period, it was thrice brought to Sale for arrears of revenue, and thereon passed into the hands of the private individuals, who then became its purchasers. On three other occasions, it was transferred by private arrangements to new proprietors, having thus in the above stated period changed ownership at six different intervals.

5 It is not practicable to obtain trustworthy accounts of the revenue yielded by the Estate during the entire period of its management by its own proprietors. The four years, for which alone the Cummums supply Statements wherein a certain degree of confidence may be reposed, are specified in the subjoined abstract, a reference to which, seems to prove that at no time can the Mootah have been a very remunerative one.

The

2398

Fort St George 13th February 1854

No 1

6. The detailed Statement from which the above table is drawn, exhibits the cultivation of the Villages under the heads Poonja, Poonja Bagegut, Kunjee and Kunja Garden. On an examination of it, the Board will perceive that in spite of the extensive reductions of rent below the fasiul rates, which were allowed by the Mootahdars, the result was in one instance attended with a return less than the permanent Bariz of the property, whilst in others, only an unimportant excess was secured.

7. The following Statement exhibits the amount of the annual settlement of the different villages of the Mootah subsequent to its reversion to Cumany. The period embraced on it, is 19 years, or from Fusly 1241 to Fusly 1259 inclusive. In regard to the revenue for Fusly 1241, which yielded only Rupees 79-7-2 less than the settlement of the preceding year, it has to be observed that this result was effected by the continuance, under the Regulations, of the Mootadars Cowles for the first year of the Cumany management of the Estate

Fort St George 13th February 1854

Estate. The Mootadar had allowed a total remission of Rupees 5,184-6-11. on a demand according to the Established rates of assessment of Rupees 16534-7-10, and had granted Cowle for the remaining sum of Rupees 11,050-"-11. This arrangement, as already stated, could be upheld only in Fusly 1241 according to our unbending rule of at once demanding the original Survey amount of field rents when an Estate has come into the hands of the Government. In none of the subsequent Fusleis, does the Baviz show any fair approximation to the Peshcush; and of the four Villages composing the Estate. Vadugheery & Alitoor, of which the lands range over a high level, exhibits a considerable decline in its revenue.

The

2401

Fort St George 13th February 1854

8 The papers which I deem it necessary to place before the Board appear to me not to indicate with obvious clearness that the progressive falling off in the resources of the Estate is solely attributable to the weight of the assessment imposed on its lands. Still the late Sub Collector Mr. F.N. Maltby, was doubtless an excellent authority on a point which he had much studied; and, had he had data before him when forming his opinion, other than those at my own disposal, I should think it sufficient to accept his views without comment. As such however, was not the case, I confess that I feel considerably perplexed as to the true cause and origin of the present condition of the Mootah.

9 The accompanying Statements Numbers 2 and 3 show, in respect of the lands on which fair rent rates have been fixed, the average assessment per acre of those which, in Fusly 1259 were cultivated and waste in the entire Purmutty Talook, as well as that of those in the Mootah under notice, and of these Statements the subjoined table is a brief abstract.

10 In striving to determine the real reason of the deterioration of this Mootah, it is proper to observe the present reduced number of its inhabitants, who, on the aggregate, are less by nearly one half than the population entered in the account taken at the time of the permanent settlement. From this circumstance it may perhaps, be not unjust to infer, that, on reference to the generally poor and inferior description of soil throughout the Estate, the assessment Established by Captain Macleod is comparatively heavy. No tangible proof, however, can be adduced to show that the lands of the Mootah are less productive or less fit for agriculture than those of the Paramutty Division generally Your Board will not fail to notice that on an average, the rent due on the Poonja area of the Mootah, exceeds that of the average drawn from the aggregate rates for that description of land in the entire Talook. The difference however is but trifling, but by probability may be entitled to weight as the cultivation

Statement No 4

generally indicated being very trifling in extent. Again however, it will be seen on an inspection of Statement No 3, that a most insignificant portion of this Nunja has been brought under tillage. For instance, in Pullapallicum, the entire Nunja is waste. The tank under which it lies, consequent on extensive deposits, has risen to a high level, and now retains sufficient water for even a single crop. The Nunja tract in question, consists of 40 fields 9 of which are assessed at rates varying from 3 to 5 Rupees, 28 from 5 to 10 Rupees; and 3 from 10 to 13 Rupees.

11 The marginal entries exhibits the Fasly wan Revenue drawn from Nunja cultivation in nineteen years.

W M

2405

Fort St George 13th February 1854

With few exceptions, the annual Baris has been so trifling under this head, as clearly to indicate the limited extent periodically brought under the plough. Whereas, in a Village like Vadagherry Ahtoor consisting mainly of Poonjah, it would be natural to expect that, wherever Kunja tracts were found, they would be eagerly sought after for cultivation by the Ryots, provided, they were equitably assessed and capable of yielding a fair and profitable return to the cultivator - The contrary being the actual state of things it is difficult to account for the abandonment of the wet lands in any other way than by supposing the Kunja rent is unduly heavy. The Sub Collector is

Para 6

in error when in his communication, he states that the Village Vadagherry Ahtoor does not possess the advantage of either tanks or Channels The accounts which accompany his report show that the reverse is the case, there being Kunjee in one of its dependent Hamlets.

12 Adverting further to the diminished

F.C.S.

Fort St George 13th February 1854.

diminished population of the Mootah; it may perhaps be supposed partly to proceed from the absence of such wet lands as could be cultivated with a fair prospect of a remunerative yield; as well as to the inability of the holders of bagayet land, to repair and retain in good effective order, the wells of their holdings should such have been the position of the inhabitants, who are not now found in the Mootah their departure from it, is sufficiently explained. In this respect, however, I find no Official data.-

Retaining a list. Coorumbeliah: davi. Seervomully cowle

13- It is ascertained that throughout the whole of the Paramutty Division, the assessment originally imposed by Captain Macleod, was indulgently lowered by him to the amount at which it now stands. The three Villages which, with Cusbah Vadagherry Ahtoor, from the Vadagherry Ahtoor Mootah, were not exempted from that reduction, but, received it in the two first, to the extent of Rupees 18-12-0, and in the last named to Rupees 12-8-0 per Cent. Although it is now wholly impracticable to fathom the motives by

which

which Captain Macleod was actuated, or to learn his reasons, it is nevertheless found that the rates first fixed for Vadagherry Ahtoor were in no wise altered, and that they at present exist as first determined on by that Officer.-

14. The records afford no clue to this difference in the treatment of these Villages, and no superiority of soil, as present circumstances indicate, can be ascribed to the Area of Vadagherry Ahtoor. There may, then, perhaps be truth in the account given to the Sub Collector by the eldest inhabitants of the place, that the high assessment now prevailing in Vadagherry Ahtoor and its Hamlets is due to the contumacy of its former Cultivators.

Para 8.

Statement No. 6.

15. I must not omit to state that in the three Villages of the Vadagherry Ahtoor Mootah, to which, in common with the other Villages of the Taluk, the favorable consideration of Captain Macleod was extended, as well as in the latter there are certain lands in each, on the first assessment of which no reduction

reduction was granted; but all endeavours to procure Official data for thus withholding the modified rate, have ended in failure.-

16. The highest and lowest rates prevalent in the four Villages of the Mootah and in those adjoining them, are given in Statement No. 8 which makes it appear that the assessment of the fields of the Cusbah and its Hamlets, is at a higher standard than that now levied in the neighbourhood. The under written table exhibits this point in a clear and brief form.-

	Villages of Vadagherry Ahtoor Mootah.									Adjoining Villages to the Vadagherry Ahtoor Mootah.									
	Vadagherry Ahtoor.		Pottamoo = gulam.		Coorumbel = malavi.		Seeroomi Oy = could.			Amungoor			Yakumbully			Pulasee = sarcunny.		Coonacktoor		Olalooa
Highest rate per Acre	3	87	22	2	13	10	2	9	1	3	3	1	2	13	9	3	1	3	2	10	2	2	12
Lowest Do	0	93	95	0	11	5	0	9	4	0	12	4	0	11	5	0	10	4	0	14	1	0	13	3

As regards the lowest rates of the Cusbah, which are below those in the other Villages it may be remarked that the lands to which the low rate applies

are

are of a very inferior description and of limited
Para 4. extent. The Villages area mostly consisting of
highly rated fields, as already observed.

14. As the bulk of the lands in the
Mootah is Poonjah, we must infer that generally
the Ryots, rich as well as poor, have been in the
habit of raising on them Jowary, Bajra, and
Raggy, and the other usual dry produce. Now
the assessment at the Survey, was determined with reference to the then market value of
those grains; but as the accounts in which their
prices are specified, are not forthcoming for
that particular period, those of the subsequent
Statement No. 7 Fusleis 1208 and 1211 have been taken into comparison
with the rates realized in some of the years of
the Amany management of the Estate and
prove clearly that there has been a fall in the
prices of late years. Thus the Cultivators
already suffering from a high rent, have
latterly been deprived of the remunerative return
formerly afforded by the state of the grain Market.

18. On a reference to Column 4
Statement No. 5 your Board will perceive that the
Average rate per Acre of the Estimated Beriz
originally assumed for the Ousbah, was below
that in the other three Villages of the Mootah.
This circumstance tends, I submit, to shew that
the quality and productive capacity of the soil
in Vadagherry Ahtoor, was originally regarded
as being inferior to those of the other three
Villages.

19. Should your Board on reference
to Statement No. 3, notice, that by comparison, the
average rate per Acre of the land in Vadagherry
Ahtoor, and that of the other Villages of the
Mootah exhibits no very sensible difference, I
must regret that with the information at pre-
sent available, it is out of my power to
assign for the present state of Vadagherry
Ahtoor, any other reasons than the inferential
ones above represented. In the event of
the Board deeming them to be a sufficient

justification

Fort St. George 13th February 1854.

justification of the measure, I would
suggest that a reduction be authorized to
the extent of Rupees 18-12- per Cent on
the original field assessment of the
Village and its Hamlets, to be apply
=plied with reference to the whole of
their lands waste as well as
Cultivated.

20. The accounts received

ver thon was 2, and it was lieto wup to st in the ts of fuelies obtained and those by conflagra. apeomb it dar gave very pedneed b Beriz of a little higher, er than the the annual ly 1241 to 1259, there is a decrease ent in July 1 al beenah the amount Proprietors in the upees 5484-6 deredae in ove. The

The decrease in the Beriz of the other fusles is shown in the margin. While the Mootah was undergoing the Mootadar it appears granted lands on a very reduced rate of Cowle at his own discretion, and still the accounts prove that he did not realize any profit. It is evident that the decrease in the Mootah is caused by the high rate of assessment fixed during the survey. The rate of assessment fixed on Poonjah lands of the four Villages composing this Mootah is given below.—

Fusly	Decrease	Decrease per cent
1254	1251 4 10	23 5 6
1258	3900 4 0	37 2 4
1259	4345 1 8	41 6 2

	High rate per acre	Low rate per acre
Vadagherry Athoor	3 8 7	" 9 3
Collamangalum	3 " 2 "	9 5
Coorumbulmadavy	2 13 10 "	11 5
Seroonellycoil	2 9 1 "	9 4

The lowest rate of assessment was levied on very few lands of inferior quality. The rate of assessment fixed on the lands of this Mootah as compared with that fixed on those of the adjoining villages, is shown in Statements Nos. 2 and 3, and Statement No. 6 shows

shows the Ayacut of the whole Villages in the Talook.—

5. The Pymash accounts of Vadagherry Athoor Mootah show, that when the survey assessment was first grossly fixed by Captain Macleod, a reduction of it at 3/16ths per fanam or at Rupees 18-12-" per Cent, was made on the lands of the 2 Villages of Collamangalum and Coorumbulmadavy, and at 1/8 per fanam or at Rupees 12-8-" per Cent, on the lands of Seroonellycoil village. In making such a reduction Vadagherry & Athoor village alone appears to have been exempted from this benefit. In like manner it appears that reduction of assessment from Rupees 12-8-" to 18-12-" per cent, was made on the lands of the whole number of Villages in the Talook of Paramutty. As the said single village alone was excluded from the bounty shown on the whole number of the villages in the Talook, it is very desirable that a similar reduction of assessment should be granted to it, as recommended by Mr. Maltby in his Settlement & Report of Fusly 1258. Should this be done, it is expected that a great portion of the lands now lying waste in the village would be readily brought under cultivation

by

Dated 19th October 1849-paras 18 to 22.

the "Shulwar accounts of each village were not prepared - Accounts Nos 6 and 11 which are herewith forwarded, will show the particulars of each land and the assessment fixed on it in the above mentioned three villages, and also in a few other villages which adjoin them.

8 The records do not shew any cause regarding the exclusion of the single village of Vadagherry Athoor, from the reduction of assessment made on the lands of all other villages, and there is no reason to conclude that the lands of this village are of a superior description, when reduction of assessment was made on the lands of the adjoining villages, which are of a superior quality to those

x Allymungounden of this Village. The oldest residents

1 Vyapoory Gounden
late Monigar age 75 years.
2 Etty Gounden age 65 years.

+ of the village state, that during the time of the survey, the village was inhabited by a number of wealthy but unprincipled Cultivators of Ryots, who resisted the authority and objected to accede to the rate of tarrah first profitably fixed on their lands, and consequently Captain Macleod was prevented from showing them any kindness, but this statement is not

supported by any records.

9 This village is situated on a high level, and the situation of the lands of the other three villages of the Mootah in question is somewhat better, and the wells sunk in Bagayet and Nunjah lands receive a full supply of water during the monsoon season, which enables the Ryots to cultivate the lands freely, although the produce generally reaped is reckoned to be from 1/2 to 3/4 of the full quantity, which in some degree compensates their labour, but it is known that the Ryots of Vadagherry Athoor village generally reaped a poorer crop, owing to the scanty supply of water they get in their wells.

10 Several lands of the Vadagherry Athoor village are subdivided since the time of the survey, except in measurement is found in several of them, and a great quantity of land was brought under cultivation after the survey, which was taxed according to the rates fixed on the adjoining lands of the village.

I beg

2437 Fort St. George 13th. February 183

I beg to recommend that a reduction of assessment at Rupees 8-12-0 per Cent, may be ma on the whole of the lands of the Vadagheny Ahtoor Village, unde cultivation, including waste, & similar to those of the three other villages attached to this Mootah, and other villages in the Paramutty Talook; when such a re reduction of assessment is made, it w hoped, that most part of the lan gradually thrown waste will be brought under cultivation, and the annual Bariz will rise to th amount of the Permanent Bariz, and prove beneficial to the Ryots who have sustained loss fo a series of years.
