Sir,

Para 1. I have the honor to report upon the Settlement for Fasly 1262 of the 4 Taloo Ks. Viz: Shermadavy, Brumma-dasem, Shen Kernmarcovil, and Streevil-ly-pottoor, forming the Sub Collectorate of Tinnevelly, and to forward the accounts numbered from 1st to 22d prepared according to the forms received with the Circular letter dated 13th June last from the Board of Revenue.

2 Table No 1 shews the number and description of the Villages in this Division as they stood at the close of the Fusly under report. The discrepancies in the Statements of Fusslies 1261 and 1262 have been caused by the addition of the Village of Malianeelum formerly belonging to the Travancore Gavernment to the Shermadavy Taloork, and by one of the Cho-Kumpully Villages in the Shen Kennarcavil Taloork, which was rented for one year in the last Fusly having been this year brought under dumany.

3 The Statement No 2 has been prepared in accordance with the form received from the Board of Revenue. The Merchants wholesale prices of Grain are entered in this form on an average of the current selling price of 12 Months in each Taloork. The Marginal Statement excludes a comparative view of the Carr, and Peshanum Summaliah = lundy prices of Fusslies 1261 and 1262. The favorable close of the season and consequent abundance of Grain caused the decrease shewn in the Account of Fusly 1262.

4. The rains which fell in the Sub Division in Fusly 1262, were seasonable for Poonjah cultivation, and there was in consequence a great extension of dry cultivation as compared with the former year. The increase of Chains 4,457 7/32 Rupees 12,816-3-2- under this head, is attributable to other circumstances besides the favo=rableness of the season. One of the Chor= Kumpulty Villages, which was rented for one year in the last Fusly, was this year brought under Cumany, and the Village of Mailiancolum, as mentioned in Para 2, was in the Fusly under report = added to the Shermady Taloork.

5 — The cultivation under this head fell short of that of the preceding Fusly by ₹ 63-14-2½ in the Shermadavy and Streevilly pootloor Talooks. But in the Talooks of Bpummadavum and Shenkerminarcovil, there was under this head an increase of ₹ 38-11-3¾, causing a Net decrease of ₹ 25-2-6½, and Rupees 172-8-10 respectively, in cultivation and revenue. The causes of the

Fort St George 3d April 1854

the decrease in the Talooks of Shermadavy and Streevilly pootloor, was the preference, which the ryots gave to extending their wet and Dry cultivations rather than culti-vating Garden produce under Wells. The falling off in the revenue amount-ing to Rupees 162-14-11, notwith-standing, an increase in cultiva-tion in the Shenkerminarcovil Ta-look, is owing to certain highly taxed produce having been left, and more lightly assessed produce having been more, cultivated in this than in the preceding year.

The Cocoanut and other trees which are planted in wet lands are irigated by Channels &c. and are assessed with Punjah teerwah according to the extent of land on which they stand, without reference to their description. There is only one Garden formed in this Fusly under this head as shewn in the foregoing Statement No 6.

8 Durkasts to cultivate waste

Lands were given by certain parties, who
entered into Moochilkahs to pay the
teerwah on their Durkast lands,
whether they cultivated them or not.
and certain other persons, who were
desirous of having their tanks repaired
at Government expense, executed Moochil-
kas, agreeing to cultivate so much ad-
ditional land, and to pay teerwah, whether
such land was, or was not, cultivated.
An assessment of Rupees 2606 4 10 was
therefore charged upon such lands as were
left waste, as shewn in the foregoing
Statement. This amount has been included
in the total revenue under the Head of
Sunjah and Poonjah respectively.—

10

The only remission granted in this year was for S.C. 15-15-6 5/8, which being high land, suffered from drought and short produce in the Shevelly pootroo and Shenkernaroovil Talooks.—

The remission in Fusly 1262 on the 2d item, shews a decrease of Rupees 247-3-8 as compared with the last year, notwithstanding S.C. 74-3-5 5/8 yielding a revenue of Rupees 688-11-6 were newly taken on Cowle in this year and were exempted from assessment for the 1st year. The decrease is owing to the progressive increase of Cowle teernah on certain lands, some of which enjoyed exemption and the others paid a low tax in last year according to the terms of the Cowlenamahs.—

The increase in the remissions granted on the 3d 6th 7th 8th 9th & 10th items, is attributable to the increased extent of cultivation in the present year, with reference to which the remission is made.—

The decrease in the 4th item, in which payment is partly made in grain, was owing to a falling off in the harvest.

There is a decrease in the 5th item caused

Fort St George 3d April 1854.

caused partly by the Enams having been resumed by Government on the death of the Inamiendars, and partly by a decrease in the Jarrucks.

Fort St. George 3d April 1854.

11 There is a decrease in the 1st item, as the offers received thereon were lower than before.—

The decrease in the 3d item is attributed to a decrease in the cultivation of Enam lands and particularly to a falling off in the Kerruck.—

The increase in the 3d 4th and 5th items has been caused by extended cultivation notwithstanding a decrease in the Kerruck.—

The increase in the 6th item is owing to the addition of Malaneelum Village transferred from the Travancore Government.—

The increase in the 7th item is ascribable to an increase in cultivation

The decrease in the 8th item has resulted from the cultivation of low taxed produce, Pisacavel lands, in the present year.—

The decrease in the 9th item is owing to one of the Chockumpatty Villages, which was rented for one year, having been this year brought under Amany.—

The increase in the 10th item is

Fort St. George 3d April 1854.

is owing to the almost total absence of drought and short produce in the Fasly under report.—

There is an increase in the 11th and 12th items under the heads of Topes and Sandbanks, amounting to Rupees 15 4 12 and Rupees 343 15 8, respectively, caused chiefly by the addition of Malaneelum Village transferred from the Travancore Government, and by one of the Chockumpatty villages, which was rented for one year in the last Fasly, having been brought under revenue.—

The increase in the 14th item is owing to advantageous offers received this year for renting Coray or reed

The increase in the 15th item of Rupees 7 10 2 is attributable to an increase in the cultivation of Nanjem lands.—

There was a balance of Rupees 5056 7 2 at the close of the Fasly under Report, as will be seen from Statement No. 13 of this Amount Rupees 2115 8 3 were due on waste lands charged with Teerwah as before explained, the payment of which was at first objected to by the parties by whom it was due. The sum of Rupees 4,509 6 " has been since collected and carried to account, but there was still a balance outstanding on the 30th June 1853, of Rupees 547 1 2. Of this Sum of Rupees 60-7-4 have been collected and

For Ft St George 3d April 1854.

and carried to the Head of Deposits, pending an Adawl dispute and a sum of Rupees 220 10 1 has not been collected, as it is in dispute between the Government and certain Zemindars. Of the remainder, Rupees 255 13 11, are the Teerwah due on land included in the Mooshilkahs executed by parties to increase the cultivation, if their Tanks were repaired at Government expense, and this sum is now disputed by them on the ground that the extent of waste land is found to be less than what was entered in their Mooshelkahs. The remaining sum of Rupees 10 1 10 is due by certain Defaulters, for the collection of which the necessary orders have been issued.

From the Collector of Coimbatore

Sir,

With reference to Extract from the Procedings of the Board of Revenue dated the 20th February 1854, and to the correspondence noted in the Margin, I beg to inform the Board that I have appointed 3 probationary pupils at 5 Rupees, and 2 prons at 3 Rupees each. It is my intention to place 1 pupil and 1 peon each under 2 of my assistants, and the other under the maramut Superintendent to work at the Suttimungalum Bridge; the largest work now going on in the District, as well as to learn the process of measurement &c and to be transferred to other work as soon as capable of it.—

Fort St. George -

Sir,

Para 1. I have the honor to acknowledge your letter of the 11th Instant, requesting that I will submit my sentiments on the Subject of the introduction of a System of excise upon the manufacture of Salt in lieu of the present Monopoly.-

2 As I have had occasion to dwell at some length on this Subject in previous communications, I believe it will be Sufficient if I state concisely that I am of opinion, that it is impracticable to render the manufacture of Salt absolutely free to all persons under Excise Regulations; but that a System of modified excise, by granting licenses to manufacture Salt at Stated localities, might with great advantage be substituted for the present System.-

3. The Substitution will be attended with

with difficulties, but not of an insuperable nature. If accomplished, it will enable this district to compete on equal terms with Bombay and Goa from which places a large quantity of excised Salt is now imported -

4 It is highly desirable that the change should be accompanied by a considerable reduction of the duty, and this, I am sure, would prove only a temporary Sacrifice of revenue. If Salt were reduced in price it would be used to a very great extent in curing fish which are now cured with Salt mud only, and the inland consumption would greatly increase.-

5 I have already pointed out that a legislative enactment is called for - for the protection of the revenue, the only penalty for Smuggling Salt being the confiscation, of the Salt, and this is clearly inadequate.-

6 I beg to retransmit to the Board a map of the Salt trade which accompanied a previous report and which may perhaps facilitate the Commissioners investigations.-

7 I request that this may be returned when no longer required.-

Sir,

Para 1. In reply to your letter of the 25 instant I have the honor to state that as the season is particularly favorable and four out of our five Pans are in full operation and a few of the new Pans at Pooloodewa have begun to yield, so that we have already about 1700 Garces of new Salt ready, I think we might supply 100,000 Indian Maunds for the Bengal Government Indent, in addition to an equal quantity for private trade, and that it can be ready in the course of the next month at the Egmore Depot.-

2 The Salt can be put free on board at Rupees 25 per 100 Indian Maunds.-

3. The Orders of Government dated 30th January last referred to in Para 3 have been this day only received in this Office. I understand it to be the intention of the Board that Salt to private Traders for Exportation is still to be charged at 15 Rupees per 100 Indian Maunds.-

Extract from the Minutes of Consultation in the Revenue Department under date the 14th March 1854.

Reviewing the report on the Extra Sources of Revenue of the District of Bellary for Fusly 1262, granting authority for writing off the irrecoverable balances

Read the following Extract from the Proceedings of the Board of Revenue.

/ Here enter 13th February 1854. N[o] 60 /

The Settlement of the Extra

balances of Moturpha revenue for Fusly 1261, relieving the cultivators of land the further cess on their flocks and stating that the whole subject of Moturpha has been submitted to the Honble Court for their orders.

Extra Sources of Revenue of the District of Bellary for Fusly 1262, amounted to Rupees 6,03,088 falling short of that of the previous year in Rupees 3139; the fluctuations in the different branches arise from ordinary causes, and call for no remark;

2 The collections of current revenue within the year, amounted to Rupees 5,91,859, and the balance of Rupees 8,229 outstanding at its close, was reduced, by October, to Rupees 1289. Including extra items and arrears, the gross collections amounted to Rupees 6,10,543, from which the charges being deducted, the net Revenue Rupees 6,03,736 exhibited, in comparison with Fusly 1261, a deficit of Rupees 37,128. a result which appears from the Statement appended to the Board's Proceedings to be owing to the smaller collection made under the head of arrears

3 The Right Honorable the Governor in Council grants authority for writing off in the accounts of the Bellary Collectorate, the balance of Moturpha Revenue of Fusly 1261 reported by the Collector

Collectors to be irrecoverable, amounting to Rupees 395-11 / Three hundred and Ninety five and Annas Eleven.

1. In Paras 6 & 11 of their Proceedings, the Board of Revenue consider the Collector's report on the unequal rates at which the tax on Sheep is levied in this Collectorate. It varies, they state, even in the same talooks, and is at one rate only in the two Divisions of Gooty and Raidroog. Of 42,89 persons paying the Sheep tax, 3268 are Shepherds by profession, and 1221 are Landholders, who pay 20,190 Rupees in Land Revenue, and 5017 Rupees as Sheep Tax, which, the Collector observes, is an Extra charge of 25 per Cent upon their means of subsistence. The Governor in Council fully agrees with the Collector on the policy of relieving the Cultivators of Land from the additional cess levied on account of their flocks of sheep, and grants authority for the measure being carried out at once. It is trusted that the immediate loss of revenue will eventually be, in part at least, made up by increased cultivations.

With

5 With regard to the further proposal of the Collector, and the Board for equalizing the rates to be borne by those who are still to remain subject to the tax, the Right Honorable the Governor in Council thinks, that as the whole subject of Moturpha has been laid before the Supreme Government, for submission to the Honorable the Court of Directors, it is not advisable, pending the result of the Court's deliberations on the general question, to make any partial modifications of this character.

No. 2

To

Sir. Henry Montgomery Bart:
Chief Secretary to Government
Madras

Sir,

In pursuance of the enquiry which I have been commissioned by the Supreme Government to make, as to the practicability of carrying into effect any system under which the manufacture and sale of salt in India shall be absolutely free, subject only to such excise, or other duties, as may now or from time to time, be levied on such salt so manufactured, I have the honor to request, that you will be so good as to procure for me, with the least possible delay from the proper Official source, a Memorandum, describing in full and complete detail, the system under which the Revenue derived from salt in the Presidency of Madras is managed, and the laws by which it is regulated, its practical operation, whether effective or to what degree defective, and the

Fort St. George 6th April 1854.

the changes which might be made in it with advantage.—

2. As this Memorandum must constitute one of the ground works for enabling me to arrive at a decision as to the practicability and best method of substituting a system of Salt excise in the Presidency of Madras for the system under which the Salt Revenue of that Presidency is now managed, it is very necessary that it should embrace the fullest information down to the latest period.

3. I may give the following outline of what is required, leaving it to the authority on whom it may devolve to prepare the Memorandum, to supply any points connected with or independent of those indicated, which may have been omitted, and to weave the whole into the memorandum in such order, and in such detail, as will give the best connected and most complete view of the whole subject.

1. The districts in which Salt is manufactured, the nature of the country in, and adjoining to, which the manufacture is carried on in each, the produce of each District.

2. The Rights of any parties in connection with

with the manufacture.—

3. The manufacturers who they generally are, and the arrangements and terms upon which they carry on the manufacture.—

4. The process of production - the places and mode of storage and the method of keeping an account of the produce, so as to secure the whole being brought to account, and accounted for.

5. The mode of sale - Sale prices.—

6. The mode of protecting the Revenue.—

7. The entire Agency covenanted and uncovenanted and all Establishments, Ministerial, manufacturing and preventive employed in each District, with a description of the duties of each class of Officer.—

8. The extent of smuggling and the modes in which it is principally carried on, with the grounds for believing it to be great or small.—

9 The mode in which and the persons through whom, the internal consumption is supplied - the quantity of salt indigenous and foreign consumed internally, and the amount of revenue derived from each kind, the purity or impurity of the salt supplied by the dealers for internal consumption

consumption, and the price to the consumer. The estimated consumption of salt per head per Annum.—

10. The mode in which, the persons through whom, and the arrangements under which, exportations by sea are carried on - the places to which the exportations are made, the quantity Exported, and the amount of Revenue derived from the exportations to each place.—

11 The places from which salt is imported by sea, the quantity imported, and the amount of revenue derived from the imports from each place.

12 The gross revenue, the charges, and net revenue of the salt produce of each district.

1 I should wish also to be particularly informed whether the question of introducing a system of free manufacture and excise in the Madras Presidency, has at any time come under consideration, and if so, with what result, and what were considered as the great objections or obstacles to the measure.

2 If it was considered that there would be great expense and difficulty in effectually protecting the Revenue, I should wish to be particularly informed why; and in what respect, the expense and difficulty would be greater under

Fort St. George 6th April 1854

under a system of free Manufacture than under the Monopoly System.

6 If there are any main questions connected with the Madras system which have come, or are now, under discussion, I should wish them to be noted.

7. I should also wish the papers on such subjects, and any relating to the introduction of a system of excise, to be collected together and listed, and shortly summarized in each case — and generally, any preparation made which may help to facilitate reference to records concerning the Salt system.

8 I hope to be at Madras on or about the 12th proximo, and should be glad to find the memorandum and papers in readiness on my arrival.

9. It will be convenient if the Memorandum is prepared on half Margin

From the Acting Collector of Guntoor submitting with reference to the Board's letter of the 11th Instant, his sentiments on the proposition to substitute a system of excise on the Manufacture of salt for the present Monopoly -

Sir

I have the honor to acknowledge the receipt of your letter of the 11th Instant, calling on me to submit my sentiments on the proposition to substitute a system of Excise on the manufacture of Salt for the present Monopoly. -

2

I am decidedly averse to any such change, feeling sure, that if any thing approaching to the amount of Revenue at present obtained under the Monopoly is to be realized under the proposed system, no advantage whatever will accrue to the great body of the people, who would probably have to pay for salt of an inferior quality, very nearly, if not quite as high a price as they now do for the Salt from the Government stores. In the realization of the Salt revenue under the existing system there is little opportunity for exaction

1986

Fort St. George 6th April 1854 -

exaction. The price at the stores is fixed and well known to all, and once paid for the purchaser is free from further demands. The utter impossibility of checking the extortions on the one hand, and the connivance at fraud on the other, of the horde of excise Men, it will be necessary to entertain, appears to me of itself, a conclusive reason against the adoption of the system proposed. The probability too of the supply, under such a system, at times falling short of the demand for an article, the trade in which is liable to so many contingencies, and which fluctuates so much with the season, forms in my opinion another strong reason for adhering to the system which at present obtains.

The Board are aware that

3

the Ryots, who are engaged in the Salt Manufacture in this Province, are as well off as those who follow other pursuits, and many are also employed in the cultivation of land, the Salt being manufactured at a season when their agricultural labours are suspended. Permission to make salt is eagerly contended for, and the pans are generally saleable. -

Reporting on the Petition No. 60 of 1853 presented by Buctavachella Rajah claiming a share in the management of the Maray Vca & Shotriems & Villages.

Sir,

I have the honor to submit the following report on the accompanying Petition presented to Government by Buctavachella Rajah and Seetaramo Rajah the proprietors of a third share of the Civil Shrotriems of Maray Vca & Villages and bearing the endorsement of the Government and the Board of Revenue, dated the 6th and 22d December 1853 respectively.—

2 I beg to state that I am of opinion that the Civil Judge has taken a correct view of the case, the Shrotriems having been granted in lieu of resumed Offices and privileges, the question of the right to their management as well as to share in them must be considered to fall under the provisions of Regulation IV of 1831.—

I

3 I do not see the necessity of granting authority to the Petitioners to seek redress in the Civil Courts. The right to the management of the Shotriems which forms the subject of their complaint was long ago decided in this Office to be vested in their opponent Veeraragavah Rajah who represented the elder branch of the family. This decission is in accordance with the long established usage of the Country and the instructions which the orders of the Board and Government have conveyed in matters of this nature. The Petitioners are permitted to examine into the correctness of the accounts, to be present in all the transactions carried on by the Head Member of the family connected with the management of the Villages, and in fact to adopt any measure that may be deemed necessary towards the prevention of fraud in the management which, if established is taken due notice of by the Revenue authorities. To allow Petitioners to have a share in the management might lead to endless disputes

disputes between the several parties concerned, and throw the affairs of the Village into confusion - both to the prejudice of the interests of the Ryots, of the Government, as well as of the Shrotriemdars, causes, which must render a compliance with the Petitioners request inexpedient.-

4 The Petitioners opponent has since demised leaving a Nephew who is a minor - on this subject a separate report will be submitted.-

Decree of the Civil Court

This Suit was instituted by the Plaintiffs against their Nephew, the 1st Defendant and ten others to establish their right to participate in the management conjointly with 1st Defendant of the Shrotriem Villages of Moray, Pollecotta, Vellanoor and Immumbaukum belonging to the family, of the produce of which Villages the Plaintiffs are entitled to two Sixths under the decree of the Court of Sudder Udalut in Appeal Suit No. 7 of 1815, while the 1st Defendant holds the remaining four Sixths, the registry the whole being in his name. Plaintiffs also sought to recover Rupees 16-4-5 value of produce alleged to have been carried off by the Defendants.

The

The 1st 2d and 9th Defendants filed answer jointly in which the 1st Defendant represented that from time immemorial, the management of the Villages has always been vested in the head of the family which position he now holds as the representative of the elder branch of the family, and that the younger branches received maintenance from the head of the family, that the decree of the Sudder Udalut awarded to the Plaintiffs a certain share of the produce, but did not give to them any right of interference in the management, while the Revenue authorities had decided that 1st Defendant was alone to manage the property, and that therefore the Plaintiffs were only entitled to attend and receive their share of the produce, but not to use any active interference, and that the charge of embezzlement was quite unfounded.-

The 2d and 9th Defendants denied the truth of the plaint and complained that they had been unjustly made parties to a Suit in

Resolved that the letter above recorded be submitted for the information of the Right Honorable the Governor in Council with reference to the order dated 5th December 1853 on the foregoing Petition.

The Board were directed to report whether the sanction of Government was necessary to enable the Petitioner to seek redress in the Civil Courts, and if so, whether such authority should be granted to them.

It appears from the letter recorded at the head of these Proceedings, that the right to the management of the Cavil Shrotrium of Moray and three other villages, which forms the subject of complaint in the foregoing Petition, was long ago declared to be vested in Veera Ragava Rajah, the representative of the elder branch of the family to which the Petitioners belong; that the latter are permitted to examine the accounts, and to be present at all

all transactions connected with the management of the Shro= trium, and further, that it is open to them to bring any case of fraud or mismanagement to the notice of the Revenue authorities. Under these circum= stances, it does not appear expe= dient, in the opinion of the Board, either to allow the Petitioners to exercise a joint Control over the affairs of the Shrotrium, or to permit them to resort to the Civil Court for the purpose of obtaining the same.—

Sir,

In accordance with the orders of the Board of Revenue as conveyed in your circular letter of the 15th November 1852, I have the honor to enclose a Statement in the Form prescribed of allowances paid in this District by deductions from the Kistbundy Settlement — The allowances included in this Statement are all of a personal nature.

2 The Board direct that, pending the decision of Government on the Statements called for, the allowances should be stopped from the commencement of Fusly 1262 - On my resuming charge of the District in December 1853 the Poligars of Colamasanapully (No 3 in the Statement) Complained that his income for Fusly 1262 had not been paid, and that he was put to much inconvenience in Consequence

Funding

Fort St. George 6th April 1854

finding on enquiry that the allowances had been stopped in that case as well as in No 2 I caused them to be paid for July 1862, being of opinion that it was not the Board's intention in giving the order that they should remain unpaid for so long a time - From some oversight the order to stop payment had not been sent in the case of Measanellore and the other cases included in this Statement had not been regarded as coming within the scope of the Board's orders -

3

Besides the cases now reported there are four Villages in this District in which certain persons enjoy a remission of one fourth of the amount of their Puttahs - These cases also had not been regarded as falling within the present orders but Special remissions of the character specified are clearly deductions from the Kistbundy heriz and they are not more trivial in amount than a large proportion of the yeomiahs. In order to report upon

Fort St. George 6th April 1854

upon these cases information was required as to the amount of the remission for a number of years: I have called for such information, and will submit the result in another Statement as soon as possible. -

After the British assumption of the country these Villages continued to be held up to July 1214 Subject to the payment of a Pishcush of 100 Rupees, In 1215 they were resumed and one fifth of the berij was allotted to the holders for their maintenance which they have since continued to enjoy - The orders of the Collector directing this arrangement are forthcoming on the records of the collectors Office, but there is nothing to show that it had received the Sanction of higher Authority - But though the precise Settlement made appears thus to have emanated from the Collectors pleasure only yet there seems no doubt that had the case been brought before the Government either that or some similar provision would have been made for the Poligars on the resumption of their Pollems. Poligars paid a Peishcush of 800 Rupees annually up to Fusly 1214 - In 1215 the Villages were resumed and one fifth of the Beriz was allotted in their stead.

In this case as in that of Pullicondah this arrangement appears to have been made of the Collectors sole authority but for the reasons already stated in that case, the Collector is of opinion that an equivalent allowance ought still to be continued. The Collections of the forty Villages during the ten years ending with Fusly 1261 averages Rs. 906 - 15 - 10 and the Collector begs to recommend that the Villages being wholly resumed an hereditary allowance of 900 Rupees yearly commencing with Fusly 1263 should be granted to the present Poligar Chellapah Naidoo and his descendants. This person still maintains a number of followers and his aid has uniformly been found very serviceable in maintaining security of person and property in the very wild tract over which his Villages are scattered and in the neighbouring Ghauts.

Enclosure No. 4 original Purwanah

Resolved

Fort St. George 6th April 1854

Bd. Rc. 746.

No. 142

Proceedings thereon -

Submitting a letter from the Collector of North Arcot & recommending the continuance of a Money pension in lieu of the allowances of Mirasy deductions from the Kistbundy being in that district.

Resolved that the letter above recorded together with its enclosures be submitted for the consideration and orders of the Right Honorable the Governor in Council with Reference to Extract Minutes Consultation dated 15th October 1852 -

Cases Nos 10 & 11 1/2 in 9 shares of 11 1/2 Rupees each.

(36.37)

2 In the first of the cases reported in the Statement there exists no document in proof of the allowance, which is at present enjoyed by seven shareholders belonging to the family of the original grantee. The grant appears to have subsisted for a considerable period, certainly from the assumption of the country by the British Government - under these Circumstances, the Board would Recommend its being continued to the present holders, subject to Report at the death of each in respect of the further extension of his share -

No. 7.
Rs. 362-3-6

3 In this case, eight documents are forthcoming, but none of them declare the grant to be hereditary - The allowance consists of one fifth of the Berij of 12 Villages in the Palmaneir Talook, and is at present enjoyed in equal shares by two individuals named

Fort St George 6th April 1854

named Pauper Naidoo and Timmah Naidoo
as the Stratrium appears to have been
originally Conferred for Valuable assist
=ance rendered in times of disturbance, and
is supported by a document dated so far
back as 1777 A.D. the Board Recommend
that an allowance of Rupees 360 being a
trifle less than the average of the receipts
of the 10 years ending with July 1261 be
permanently Continued in two shares of
180 Rupees each in the names of Pauper Naidoo
and Timmah Naidoo the respective heads of
the two surviving Branches of the original
grantees family-

4 This grant appears from
the documents, by which it is supported, to
be merely a Cavil allowance, and Com:

Collector recommends, that the Villages

it is stated that the Poligar's aid has uniformly

To W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George

38
Bd. No. 890

Sir,

From the Collector of Tanjore - - - I have the honor to request that the Board will sanction the sale, by public auction, of the lands entered in the accompanying statement, on which arrears of Revenue have accumulated-

The Circumstances under which I recommend the measure in each case are as follows-

Moradavengacary in Nannilam

In fusly 1258 the village was rented by the whole of the Meerasidars, and the terms of the Rent were Complied with by all of them until fusly 1261, when one

Fort St. George 6th April 1854

one man alone out of the forty one Meerasidars owning the village, refused to cut his Crop, on the pretence that the Rent had, in his absence, been agreed to by his agent without his knowledge, the Crop was reaped by the Circar Servants, and the produce having been sold, the balance entered against the village remains to be collected.

The Board will Remark that no objection was made by the defaulter from fusly 1258 up to fusly 1260, nor was any made in fusly 1262, unless as before the year for which the balance is due, be Conformed to the terms of the Rent. his present objection is quite untenable, and I have no doubt that the balance will be paid immediately the Board's sanction to the sale is received.

Purjaveroil in Kavalore

The balance in this Village has accrued solely from a family dispute between two brothers. In fusly 1259 they failed properly to cultivate their lands, and they did not cut their Crop in fusly 1260, they Cultivated their lands in Common, Reaped their Crop, paid half the

Fort St. George 6th April 1854

the april Riot, and then deserted. In fusly 1261 they divided their landed property, and one of them, Atchagaliga Moodelliar, cultivated his share, reaped his Crop, and duly paid his Kist, as he also did in fusly 1262. The other brothers Chatumbranada Moodelliar paid his Kist in fusly 1262, receiving remission for waste and unproductive land, but in fusly 1261, he not only failed to reap his crop, but wilfully injured it. both brothers have in each year enjoyed the poonjah Crops. The fact that the productive lands were able to pay the demand on them in fusly 1262, which was a most favorable one, is sufficient to prove that the family disputes of the brothers have alone occasioned the balances which now stand against them, and as I am not of opinion that these can form any ground for indulgence I recommend the sale of the land.

Naidalore in Pauparapuram

There are forty five and a half Valies of land in this village owned by twenty nine Meerasidars. Twenty eight of them have regularly cultivated their lands and paid the Government demand, while

Fort St. George 6th April 1854

while one only, named Kistnasawmy Naick, holding eight Valies, and thirteen mawes, has fallen in arrears. In fusly 1260 he refused to cut his Crop, although it was more than 70 per cent of the standard in fusly 1261, after neglecting the Cultivation, he left the Crop unreaped, and in fusly 1262, he neglected to Cultivate altogether.

Rajahmellore Reelpudjein Tritrapoondy

The uncle of the Meerasidars, in whose name this land is entered, having purchased some lands, Continued to have the more productive portion only entered in his own name, and that less valuable in the name of his Nephew Soobaroyah, his object which for a time was successful, being that the latter portion should be annually thrown up for a diminution of the Crop on account of short produce, while he derived a large profit from the former. This fraud having been discovered in fusly 1259, Remissions on Soobaroyah's land was withheld, and in fuslies 1259-1260-1261 and 1262 it has been left uncultivated. The circumstances of the Case were fully explained on the 28th of June 1853 in the endorsement on Soobaroyah's petition to the Board.

Frauds similar to this have of late been not unfrequently attempted, and it is very desirable that whenever they are discovered, the rules of the district should be strictly acted upon.

I have the honor to comply
with the orders contained in the Board's
endorsement, on petition Number 2605
+ returned. of 1853.

Petitioner held a perma-
-nent appointment as Head Amee
of Capistalum, when, on occasion of some
temporary vacancies caused by the
suspension of a Tahsildar, some of the
appointments were inadvertently made
permanent- on the termination of the
Tahsildar's suspension the incumbents
of the several acting appointments could
not therefore resume their own Offices,
and under an erroneous impression that
petitioner held only an acting Office,
he was removed to make way for an
individual, who, in the arrangements
referred to, had lost his permanent
situation.

I am informed that Mr.
Bishop admitted that petitioner's
removal

Fort St George 6th April 1854

removal was the result of an oversight, and that it was his intention to have re-employed him.

This intention I propose to fulfil.

From the Collr of Tanjore

Sir,

I have the honor to reply to your letter of the 25th Ultimo,

Having

Fort St George 6th April 1854

Having been led, last year, to believe it probable that in consequence of the storm in the month of March, the supply of salt at the Presidency would be less regular than usual, I caused a large quantity of spontaneous salt to be stored at Vedarniem to be available for the wants of Madras. Of this quantity 300 garce, or 36,000 Indian maunds, are now available for export to Bengal, and can be put on ship board with all expences paid at 25 rupees per 100 maunds, and besides providing for the two years consumption which the Board's late orders have directed shall always be kept on hand. 100 Garce or 12,000 Indian maunds, can be now shipped at Keelacarry a little South of Tinnulvaseal. Unless the season should be peculiarly unfavorable, from 300 to 500 garce may be stored at Vedarniem in July and August, and the whole be exported to Bengal. It is in July that the high winds and tides force the sea over the extensive swamps at Vedarniem, and the reflux of the water being prevented at particular places, salt is produced by evaporation. Heavy rain at the

Fort St George 6th April 1854

the period referred to of course destroys the Salt, and it is impossible to speak with confidence of the result of the operations, but unless I am directed to the contrary, I shall give orders that as much Salt may be stored as the season will render possible, and I shall report the result to the Board. If the operations should be successful, it will be necessary that shipping be taken up in Madura and Tinnevelly, as in the height of the South west monsoon, country craft cannot beat down to Vadarnieiw.

Altogether, Tanjore can immediately supply 48,000 Indian maunds of Salt, with the probability of a further supply in august and September, of from 36,000 to 60,000 maunds.

Sir.

I have the honor to return Petition

Fort St George 6th April 1854

No 191 of 1853, with copy of a report thereon by the Sub Collector. I concur in his opinion that there are no peculiar circumstances in the case of the Petitioner to induce the Board to grant him the privilege of a reduction withheld from other owners of Topes. On the contrary, as he held his Tope on a lower assessment for some time by a fraud, special indulgence in his case is much to be deprecated.

Mr Clarke's opinion in favor of a general reduction of the Tax on old Topes, is in accordance with a recommendation which I had the honor to submit on the 13th Instant in replying to a Circular from the Board, but I do not quite understand his reasoning. The tax on each Tree levied in old Topes is no more a tax on improvement than the Garden tax on lands under old wells, and it cannot check the Plantation of new Topes. Since special indulgence have been granted to promote this object - and the correctness of his remark that the reduction of the tax on old Topes would not be found detrimental

detrimental to the Revenue, can, it seems to me, be only admitted on a very comprehensive view of the question. Certainly the Public Revenue will suffer in the first instance, and the measure will not promote the planting of new Topes, for that is already provided for, what it will do, is to encourage the care and maintenance of old Topes, and by increasing the income of the owners, indirectly lead to increase of cultivation and planting, just as any lightening of the burdens of the agricultural Class has a tendency to do.

To R. D. Parker Esqre
Collector of Madura.

Sir.

In reply to your letter of the 28t September last, which accompanied the Board Petition No 191 of 1853 I have the honor to inform you that the Topes referred to in the Petition have never been devoted to Charitable purposes, but have, from the time of

of the Settlement, been entered in the names of the Petitioner, his ancestors or brothers. The Petitioner was formerly the Curnum of the Village in which the Topes are situated, and had omitted to bring to account many of the fruit bearing trees - this fraud appears to have been detected in Fusly 1258, when the tax for the trees was raised from Rupees 2-13-9. to Rupees 18-7-3. On this, Petitioner threw up the Topes which have since been annually rented for the sums specified below. In Fusly 1259, for Rupees 4/4 to Nariamuttoo pundarum & Moorooga pundarum and others, and in Fuslies from 1260-62 for Rupees 7-2-, respectively, to Moorooga pundarum and Shanaroo Kattan. This year 14/2 Rs have been offered for them. The tax for the trees amounts to Rupees 13-6-2, and that for the land to Rupees 3-13-11.

There appears to me to be no peculiar circumstances in the case of the Petitioner to call for a reduction in the tax complained of, or for granting him a privilege withheld from all the other holders of

of Topes planted before the promulgation of the new Tope Rules. If however the indulgence prayed for could be granted on the ground of the objectionable nature of a tax on improvements made at the cost and labor of the cultivator, I conceive so liberal a measure, which I would strongly recommend, would not in the end be found detrimental to the revenue.

Bd No 975 Sir,
From the Collector of Madura. } I have the honor to transmit a table containing the information required by your Circular of the 25th April 1853. regarding Weights and Measures observed in this District.

Their great variety, referrible to no law, can only be accounted for by the composition of the District, consisting of the 2 great Zemindaries of Shevagunga and Ramnad, almost independent under the Native Government, other Minor Zemindaries in Madura proper, and Dindigul. The latter however, though obtained from the Prince of Mysore, belonged previously to 1740 to the Kingdom of Madura and might have been expected therefore to resemble it in Customs.

Sir,

With reference to your Official Memo of the 1st Instant, requiring me to find Security to the Amount of Rupees 2,000 for my acts, I beg leave to state, I have no property of my own, either real personal to tender as Security. The income from my situation has been, and is, barely sufficient to support me and family, and has not therefore enabled me to make up any property, I beg therefore that you will be pleased to take this circumstance into your consideration, as well as the fact of my having served the Government from the time I was attached to the Toll Office from the year 1837 with great integrity and fidelity as the records of the office will shew and exempt me from the requirement of Security for my acts, particularly, as the Shroff at the Toll Office, who is more immediately in charge of the Money and carries the remittances daily to the Hoozoor, has furnished Security to the extent of 500 Pagodas. Should however it be impossible

B. of R. No. 603

From the Superintendent of Stamps . . . . . }

Forwarding a General Statement of Stamped Papers and Cadjans sold in Madras and in the Provinces during Fusly 1262 accompanied by eleven explanatory Statements as also a comparative Statement marked A and observes that there has been an Increase in the gross Revenue of Rupees 11,387-7-4.

Sir,

I have the honor to forward for the information of the Board and Government a General Statement of the Stamp Papers and Cadjans sold in Madras and in the provinces during Fusly 1262, or from 12th July 1852 to 11th July 1853 accompanied by eleven explanatory Statements.

1

2 By Statements Nos. 1 and 2 the Board will observe that the gross Revenue derived from the sale of Stamps &c. during the Fusly under review amounted to Rupees 557,783-14-8.

3 Statement No. 3 exhibits the charges against the Stamp Department amounting to Rupees 50,258-8-9.

4 And to this sum must be added the amount of Stamp duty refunded to parties by order of the Court of Sudr Adalut and the Stamp duty refunded under the operation of Act No. XVII of 1848, also the value of certain Stamps stolen by a Goomastah in the Collectorate of North Arcot and the amount refunded by the agent to the Governor of Fort St. George in Kurnool being the amount of penalty erroneously over credited in his accounts amounting in all as exhibited in Statement No. 1. to Rupees 46,533-4-7.

These

5 These sums being deducted from the Grofs amount of Rupees 5,57,783-14-8 there remains a net Revenue of Rupees 4,60,992-1-11.-

6- This on a comparison with the Net Revenue of the preceding Fusly exhibits a Decrease of Rupees 15,724-9-2. This decrease is attributable entirely to the recoveries of the embezzlement in the Bellary District amounting to Rupees 24,703-12-- being included in the total amount of the Revenue for Fusly 1261. On a reference to the Comparative Statement marked A herewith forwarded the Board will observe that there has been an increase in the grofs Revenue derived from the sale of Stamps &c in Fusly 1262 amounting to Rupees 11,387-7-4 above that of the preceding Fusly.-

Net Revenue Dr-

for Fusly 1261 Rs	4,76,716-11-1
for Fusly 1262	4,60,992-1-11
Rupees	15,724-9-2

7 The mode in which the Papers and Cadjans received by this Office have been disposed of during the Fusly and the balance remaining at its termination are shewn in Statement Nos 4 and 5.-

8 Statement Nos 6 and 7 exhibits at one view the actual receipts and issues of the Papers and Cadjans received by this Office during the Fusly and the balance remaining on hand at its close.-

9 The Board will perceive that the excefs of Papers and Cadjans reported to have been found in the stock of Collections and in a consignment as particularized in Statement No 8 amounts to Rolls 3 to the value of Rupees 6-4-- which has been carried as usual to my debit and Irequest that the sanction of Government may be obtained for

for my taking credit for the deficiency of paper in a consignment as shewn in the same Statement Viz. Roll 1 to the value of Rupees 4-----

10- Statement No 9 exhibits the quantity of Stamp Papers and Cadjans returned damaged in consignments, Viz. Rolls 10,908 to the value of Rupees 13,127-12-- of these Rolls 10850 to the value of Rupees 13,100-4-- have already been carried to profit and loss under sanction of Government dated the 7th June last, and for the balance Viz. Rolls 58 to the value of Rs 27-12-- I have now to request the Board will obtain the sanction of Government for my carrying the value to profit and loss and for destroying the same.-

11 Statement No 10 exhibits the quantity and value of the Stamp paper and Cadjans returned to this Office because there was no demand for such (either from the paper itself being too old for use, or from the value of the paper being too high to meet any sale) - It consists of Rolls 834 valued at Rupees 12,004-7-6 of these 510 Rolls to the value of Rupees 3040---- are fit for re-issue. This quantity has accordingly been added to the Office stock. The balance Viz. Rolls 324 to the value of Rupees 8,964-7-6 being unserviceable I request the Board will obtain the sanction of Government for my destroying them and for my carrying the value to Profit and Loss.-

12 Statement No 11 exhibits the description and value of the Papers and Cadjans disposed of by the several Collectors during Fusly 1262, and does not appear to call for further remarks.-

From the Sub
Treasurer.

Offering explanation regarding the difference shewn in the quantity of Papers stamped at the Treasury during July 1262 as entitled in the Statement furnished when compared with that submitted by the Superintendent of Stamps and also in respect to the error in the grand total of Papers and Badjans stamped.

Sir,

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated 13th Instant, requesting explanation regarding a difference observable in the quantity of Papers stamped in the General Treasury during July 1262, as exhibited in the Statement furnished by this Office when compared with that submitted by the Superintendent of Stamps, and also noticing an error in the grand Total of Papers and Badjans stamped.—

I beg to state that the entry in the 2d Column of "Europe Decree Paper at 8 annas" in the Statement furnished from this office, is incorrect. The total 388074 is correct, but in carrying out the sums of the monthly totals, 5300 has, by a clerical error, been posted instead of 5800, which latter sum appears in the rough monthly accounts and is correct, if the difference 300 be added to the amount it will make the total above 2d referred to, and it will also be found that the quantity under this head is 50 in excess of that exhibited in the Memorandum appended to your Extract given by the Superintendent of Stamps.—

The

Fort St. George 6th April 1854.

The quantity of Country Paper at 16 Rupees received for the purpose of being Stamped from 12th July 1852 to 11th July 1853, was 3170, of which 3070 were returned within that period, leaving a difference of 100 to be accounted for by the Treasury. It would appear from the figures in the margin, that there has been an omission by the Superintendent of Stamps of 2700 Papers, which quantity if so added to 376169 observed by the Board to be the total of this Statement, would make the entry thereon 378869

With the information above given in reference to the errors in the grand Total of the Statement, I beg leave to subjoin a Memorandum of a difference of 9205 Stamped Papers for which the Treasury is accountable.

B. No. 743

To the Chief Secretary to Government—

Submitting letter from the Superintendent of Stamps and Sub Treasurer regarding the quantity and value of Stamp paper and Cadjans in July 1262, and the number sold during that July, and recommending that orders be given to the Superintendent for one roll of paper of the value of Rupees to be refunded in a Government, and that certain items be written off to Profit and Loss.

Sir, I am directed by the Board of Revenue to submit for the information of the Right Honorable the Governor in Council, the accompanying letter from the Superintendant of Stamps dated 14th February 1854, forwarding one General and Eleven other explanatory statements of Stamps and Cadjans sold by Collectors during July 1262, or from 12th July 1852 to 11th July 1853.—

2 The sale of Stamps &c. for the year amounted to Rupees 553783. 14—8 from which the charges and refunds, Viz Rupees 96791—12—9 being deducted, there remained a net revenue of Rupees 460992 1—11 or Rupees 15724—9—2 below that of July 1261.—

July 1261. 476716 11 1
July 1262. 460992 1 11
15724 9 2

3 The decrease is attributed to the recoveries of the embezzlement in the District of Bellary amounting to Rupees 24703 12 0 being included in the total amount of the revenue for July 1261, and a reference to Statement A. it will shew that the actual sales of July 1262 as compared with those of July 1261, shew an increase of Rupees

5087 Fort St. George 6th April 1854.

Rupees 11387-7-4 in favor of the former year.

4 The Board recommend that credit may be given to the Superintendent for one roll of paper of the value of Rs 4 found deficient in a consignment, and that sanction be granted for writing off the following items to Profit and Loss, and for destroying the papers and Cadjans.—

58 rolls stampt paper returned damaged Rs 27-12-0

324 " stampt papers & Cadjans unserviceable 89-6-4

5 I am also directed to submit the correspondence noted in the margin shewing the quantity and value of stampt papers & Cadjans stamped at the office of the Superintendent of stamps and counterstamped at the general Treasury.—

From Supt. Stamps 18th March 1854 Inclo. 6th April 1854.

6 In the statements forwarded from the two offices, it will be observed that there is a difference of 9205 rolls, arising from the Treasury office having included this quantity in the statement of July 1262, as the requisitions for the stamp from the stamp office, were dated 7th and 11th July 1853, while the latter office from having received the Stamps into store on the 12 July 1853, or the 1st day of July 1263, did not enter them in the accounts for July 1262.

No. 598 of 1854

With reference to their Circular Order's noted marginally, I am desired by the Board of Revenue to submit for the orders of the Right Honorable the Governor in Council the accompanying Petition from Rasana Row, soliciting to be furnished with a Copy of Mr. Conway's report regarding his brother Streenevasa Row late Tahsildar of Nundicoodcoor with a view of his submitting it to the Poujdaree Udalut in compliance with their order as given in the enclosed Extract from Proceedings dated 20th March 1854 —

dated 17th Octr.
in Cons. 10th Novr.

2.

It will be observed that the Court do not themselves make a requisition for the Document, in which case it would have been supplied, and the Board think it would be the more convenient course in cases of this kind if the Court sent for

for the Document required for their own perusal, in order to see if it in any way affected the point at issue. Otherwise it will be sufficient for any individual to assert to the Court that a document in this Office is necessary to complete his case, and he can then obtain any correspondence he require whether it really is connected with his Suit or not.

The above remarks do not

Reviewing the report on the Extra Sources of Revenue in the Chingleput District for Fusly 1262 and granting authority for writing off the arrears of Revenue for past years

Fort St. George 10th April 1854.

Extra Sources of Revenue in the Chingleput District for Fusly 1262, amounted to Rupees 4,55,771-and was Rupees 48,824- above that of the preceding year - With the exception of a falling off of Rupees 1843 in the receipts from stamps, the revenues from the remaining items of the extra sources were in advance of Fusly 1261. In salt particularly the sales realized Rupees 3,10,808, or Rupees 47,044 above those of the previous year, attributed principally to the increased quantity disposed of for inland consumption, consequent on a partial failure of the supply at Mercanum, in South Arcot, and at Madras. The quantity of salt in store at the close of the Fusly as shewn in para 4, was Indian Imunds 1,72,267 or about 5 months supply. The Board have required Collectors, to keep in store for the future, a quantity equal to a year's consumption, in conformity with the orders of Government 20th December 1851 para 5. It is however observed, that by more recent orders,

	Increase:
Salt	Rupees 47,044
Abkarry	1,440
small Farms	771
Moturpha	412

Extract

For Ft. St. George 10th April 1854.

Extract Minutes of Consultation, ultimo para 2, it has been required, that a stock equal to two years' consumption shall always be kept on hand in the Depôt.

2.

The fluctuations in the other branches, are sufficiently explained, and call for no particular notice.

3.

Of the above demand Rupees 421,644 were collected within the Fusly, and Rupees 29,406 subsequently, leaving a balance on the 31st December last of Rupees 4,721, outstanding under the heads of small Farms, Abkarry[b], and Moturpha[c]. The Board have remarked, that the Collections within the Fusly were far below the demand, and very slow, compared with other Districts, and have properly desired the Collector "to adopt such measures as will lead to a more punctual realization of the several branches of Revenues."

Including

a. Rs 1942
b. —"— 1883.
c. —"— 895.

For Ft. St. George 10th April 1854.

4. Including extra items and arrears, the gross collections amounted to Rupees 470,193 from which the charges Rupees 64,707 being deducted, the net revenue Rupees 405,486 was Rupees 54,610 above that of Fusly 1261.

5. The Right Honorable the Governor in Council grants authority for writing off in the accounts of the Chingleput District, the arrears of revenue for past years outstanding under the heads of small Farms[a], and Moturpha[b], represented to be irrecoverable, amounting to Rupees /406–15–2/ Four Hundred and Six, Annas fifteen and Pice two.

B.R. No. 1099

From the Collector of Masulipatam

Reporting on the quantity of salt available for the supply of the Bengal Government.

Sir,

Fort St. George

I have the honor letter of the 25th Ultimo, to state that of the Salt 60th. produced spontaneously and manufactured in fasly 1262, I have now on hand about 350000 Maunds as shewn in the Margin, the Estimate for the Current season is 336000, and I hope that we may be able to obtain the full quantity entered in the Estimate.

Manufactured.	Spontaneous	Total
Pondicherry	10,259 — 19125	29,384
Tanjore	57,851 — 18,10	75,961
Tinnevelly	154,110 — 193,097	347,207

2 At this advanced period of the season I do not anticipate that the demand for Home and foreign Inland Consumption will exceed 75000 Maunds or at the utmost 100,000, the future production

5115 Fort St. George 10th April 1854

production is of Course uncertain, but the season at present is promising and I think that irrespective of all contingencies I may safely at once offer 50,000 Maunds.

3 The Board will observe that the great quantity is at the Pow: draw Depôt, and by an Estimate recently made the Cost of Conveying a Garee of salt by Carts to the Bar: is at Masulipatam thence Conveying it on Boats to the shipping will be 9-8-0 The Cost of the Manufactured salt was Rupees 4-0-7 per Garee, and the Cost of Collecting the Spon: taneous, which is much the best in quality, is only 15-11-0 per Garee of 120 Maunds; the total outlay per Garee when the salt is put on board will therefore be very materially below the sum of 25 Rupees per 100 Indian Maunds. Judging from the past it does not appear probable that much salt will be applied for by private Traders.

4 At present Masulipatam is the only Shipping Port, but before the

Fort St. George 10th April 1854.

the receipt of the Board's letter, I had caused some enquiries to be made in relation to the practicability of hereafter sending salt on board Vessels in the Bay by Boats direct from the salt water supplying Channels without any Cartage being required. The Channels must be deepened and other arrangements be made, which it is I think unadvisable to attempt in the present season, but the subject will not be lost sight of.

5 Should we obtain in the present season the full quantity estimated, a further quantity of either 50,000 or 100,000 Maunds will be available after the sale of the Current season has been stored.

Bd No. 1122.

From the Collr of Nellore ..... } Sir.

In submitting the report on the Nellore Sungerkhana States his views, on a further considera=tion of the subject regarding giving cooked food in=stead of money, as directed by the Board & Government in the correspondence communicated with the Board's Proceed=ings of 24th November 1853.

In submitting my report on the Nellore Sungerkhana for the past year I take the opportunity of stating my views on a further consideration of the subject regarding giving cooked food, instead of money, as direct=ed by the Board and Government, in the cor=respondence communicated with Extract from the Proceedings of the Board of Revenue dated 24th November 1853. Further experience convinces me that it is impracticable to sub=stitute cooked food for money hire, with=out altering the very basis on which the charity exists. There is properly speaking no such thing as a Sungerkhanah in this District, but a certain allowance continued from the time of the Nabob's Government, under which the Lame, blind, destitute &c of the Dis=trict receive small pensions, residing at their

Fort St. George 10th April 1854.

their several Talooks, villages, and Hou
These persons are of different castes, and
some of them are so disabled by bodily in
firmity, that either literally they could
not, or at any rate not without the gre
est difficulty be brought to Nellor
at all.—

2.

Mr. Forbes, the Assistant
Collector, having been requested to have
up before him the persons receiving Lu
ger at Nellore, with a view to ascert
whether they were fit objects for the same, rep
orts as follows.—

"I have the honor to inform you
that I have had all the Lungerdars both on the
Daily and Monthly Lists sent up with a view
to ascertain the respective claims of each to
Lunger, whether from deformity blindness &c or
from destitute circumstances, and the follow
ing I find to be the result."

Daily

	Daily List.		Monthly List		Total.	
	Male	Female	Male	Female	Male	Female
Blind	4	5	10	6	14	11
Dumb	1	1	1	"	2	1
Deformed	"	"	4	2	4	2
Lepers	"	"	1	"	1	"
Lame	3	2	5	2	8	4
Diseased	"	1	"	"	"	1
Old age with no means of subsistence	"	1	4	14	4	21
Under 14 Years of age without means of subsistence	1	"	5	5	6	5
Others in destitute circumstances	"	11	1	18	1	29
Total	9	27	31	47	40	74

Mrs

Mr. Forbes recommended 4 persons out of these being struck off, which has accordingly been done, and adds "with reference to the order recently issued by Government expressing their opinion that the giving of money should be discontinued, and that in future food should be distributed instead. I may be permitted to point out that as in both the Daily and monthly Lists are comprised Men and Women of all Castes, Brahmins of the different creeds. Mussulmans Sudras and Pariahs, and as they are forbidden by the laws of Caste to eat what is not prepared by their own sect, the new system will be open to a most serious objection, which will in a great measure frustrate the object of the charity. Many persons whose names are at present on the List, receiving monthly or daily Lunger in money, and having no means of subsistence independent of it, will now be compelled to give up receiving this allowance, with the

alternative

alternative of breaking their Caste."

3. The chief reason given by the Board for the proposed alteration is, that a larger number of the really destitute can by this means obtain relief. It must however be borne in mind that the persons on the Lunger List alone appear in the accounts, and that their families, though supported from the same source, are not included. were these all entered, it would very much reduce the cost per head, and probably bring it lower than is could be done under the proposed change of system, after providing for cost of Cooks and Establishment. for instance 97 persons are entered in the daily and monthly Lunger Lists at Nellore for February last as having received relief, but 99 persons are on enquiry stated to be depending on them, which reduces the cost per head by half.

4. In conclusion I would observe that this charity being the bounty of Government, it remains with the Board and Government to prescribe the mode in which it is to be given. On being furnished with distinct orders, they shall be strictly carried out, but under the circumstances

above

Fort St. George 10th April 1854.

above detailed I cannot but anticipate that so entire a change, if suddenly introduced, will involve very great distress, and should it finally be determined on, I would recommend that it be done prospectively, no fresh persons being placed on the List till the new System is introduced, and when a sufficient number have died off, a new institution of the nature of a regular Lungerkhana (which the present is not) to be substituted and confined to the destitute of the Town of Nellore itself, or such others of the same description as may choose to come and reside there. I still think this will much circumscribe the usefulness of the Charity but it seems the best and perhaps the only feasible way of carrying out the views of the Board without producing considerable distress.

5. A List of the Lungerdars and an account of the amount disbursed during the past year, is herewith forwarded and

Fort St. George 10th April 1854.

and I request that the sanction of Government may be obtained for the amount expended. The grant allotted for their support is 245 Rupees a month, or Rupees 2,940 per annum, of which the actual expenditure during the year under report amounted to Rupees 2,812–10–8.

submit a Rough Estimate of the extent of land sown with these grains. This statement is now under preparation, but it cannot be completed till the settlement is concluded, which will be yet some months. My statement also will be for fusly 1263, and will, I fear, not be of use, for the statement which seems to have been obtained from other Districts for fusly 1262. I mention this that the preparation of the statement for 1262 may not be deferred pending the receipt of my statement which applies not to that year, and which cannot be prepared for that period.

From the Agent to the Governor at Kurnool.

Offering an explanation as to the reasons of having omitted to enter in the D.C.B. statements the cause of the decrease in the current Collections of Land Revenue and stating the reasons for the said decrease.—

× of 21st May 1849 C.O. Book page 493

With reference to the Board's Proceeding under date the 9th March 1854, I have the honor to state, that the omission to enter in the Demand Collection and Balance statements for the months of January 1854 any explanation of the cause of the decrease in the current Collections of Land Revenue, was owing to the rule quoted in your letter never having been in practice in this province, and to there being no head in the Statements, under which, to make such entry.—

Decrease

	Rs a P
Chagulmurry	3429-9--

Bhone	13,875-9--
Goodoor	22,883-7-8
Atmacoor	6176-4-11

The decrease was Rupees 54,850-12-4 which was owing to the failure of the crops occasioned by the advense character of the season. The principal decrease, it will be observed, by the marginal entry occurred in the Goodoor and Bhone Talooks, which in my letter of the 28th December 1853, I reported had suffered to a great extent from the failure of the periodical rains.—

B No. 589

From the Collector of Chingleput

Forwarding for the orders of the Board of Revenue the claims advanced by one Fatheroonissa Begum to the registry in her name of the Jaghire Village of Mofuskhan Pettah in the Nayer Taluk.

Sir,

Para 1 I have the honor to solicit the institutions of the Board of Revenue in the following case relative to a claim advanced by the Party interested in the Jaghire Village of Mofuskhan Pettah situated in the Taluk of Nayer, incidence of the demise, in December 1852, of Kuroomissa Begum the late member by whom the accompanying Petition to the Board, forwarded to this office, has been presented in support of her claim.

2. The Land comprised in this village was originally purchased by the Nabob Mahomed Mofuskhan Bahadur Shahamut Jung (elder Brother of the late Wallajah) who there built a Mosque and founded the Village in question, and was named after him, Viz Mofuskhan Pettah. The Village has been held on Rent free tenure, and its present, as entered in the Register Book of the Office, amount to Rupees 883 1 0

Mofuskhan

Fort St George 10th April 1854.

3 Mofuskhan, on his demise, made over the Jaghire to one of his Daughters Inuddoo Begum, in whose favor a Sunnud was issued by the Board of Revenue under date the 28th February 1784. The said Inuddoo Begum and her Daughter Beebee Sahiba held the Jaghire in succession, and the latter transfered it to Mahomed Haferooden Khan, a great Grandson of Mofuskhan by another female branch of the Family, under a Hibbunbenama which was duly registered in the Court of Sudr Adalut.

4 The above Mahomed Haferooden Khan married his cousin Kareemoonissa Begum grand daughter of Mofuskhan, on whom he bestowed the village in question under a Deed which has likewise been registered in the Sudder Court. The name of this last incumbent was entered in the Register Book of this Office and her demise has given rise to the disputes now reported on. About 2 years prior to her demise she addressed an Urzee to his Highness the Nabob of the Carnatic, soliciting him to assume the management of the Jaghire and Inaugurated, and to grant her

her a sum of Money to enable her to proceed on a Pilgrimage to Mecca. His Highness issued an order for the disbursement to her of Rupees 7,000 as the value of her Inaam & the Cooleawarum right of the Village, and it was therein recorded that the management would be assumed on her departure to Mecca.

+ E

5 + A deed of transfer was then accordingly executed by Kareem oonissa Begum disposing of the Inaam of the Village for the consideration of the above amount, which she therein acknowledges to have received, and making over the management of the Village to the Nabob. Circumstances which are not clearly explained induced Kareem Oonissa Begum to post pone her Pilgrimage, and she died at Madras on the 3rd December 1852, on which his Highness the Nabob assumed possession of the Jaghire, a Course of proceeding against which Fakroonissa Begum the 2d Daughter of the deceased has protested, & advancing her claims to the Jaghire in behalf of herself and her elder sister Kyroonissa Begum. Her Vakeel has likewise asserted that the Urzee and Deed of Transfer said to have been executed by Kareem oonissa Begum have been fabricated by the subordinates of his Highness the Nabob without his knowledge, and has produced

produced two letters alleged to have been written to Fakroonissa Begum by the Amildar of the Village bringing to the notice of the Petitioner the impropriety of the intended transfer. The Amildar however does not acknowledge the validity of the Letters in question, while the elder Daughter as well as a Sister of the deceased / Petitioner's Aunt / have acquiesced in the validity of the Documents, and consented to his Highness assuming the management of the Jaghire.—

6 In reference to the allegations on the part of Petitioner's Vakeel regarding the fabrication of the Documents referred to, I deemed it necessary to place myself in communication with the Government Agent at Chepauk, who, in reply, forwarded to me

+ F a communication from the Dewan of his Highness confirmatory of the authenticity of the Documents, in which, he stated, that one Rookmoodeen had been appointed to superintend the management of the affairs of the Jaghire.—

The Vakeel on behalf of his Highness the Nabob has pleaded that the Village has not been alienated by any of the former Nabobs to particular individuals for their support under grants, but that it constitutes the reserved Property of his Highness on which a Mosque & having been built by the brother of the then Nabob Wallajah, its proceeds were allowed to be appropriated for the support of the said

said Mosque, and in support of this argument he has referred to the tenor of the documents presented by the deceased, as well as to Extract of accounts from the records of his highness, translates of which likewise accompany. These documents do not appear authenticated as true Copies.

Another question, and one which appears mainly involved in the present reference, is whether the Village in dispute falls under the exception referred to in Extract from the Minutes of Consultation under date 23d December 1851. The circumstance of its having been transferred by gift, as the documents shew, from one member of the family to another though confined to one branch of the family, would tend to the inference that it has been enjoyed as a personal grant, while the terms of the summud which declare that it has been granted for the support of a Mosque, and the fact of there being a Sunnud, would lead to a different conclusion, viz. that the grant is strictly a Service enam, the transfer of which by sale or otherwise, though declared unobjectionable so long as it carried with it the obligation of service to be rendered, it has not been clearly defined whether such transfer on these terms is to be unrestricted, or permitted only in cases in which there are no heirs to succeed, or in other words, whether it can be recognized in favor of other parties, not withstanding that there are Heirs to succeed, the right of transfer superseding in fact legal claims to succession.

Translation of a Persian Petition from Kareem Ulnessa Begum addressed to His Highness the Nawab

dated

dated the 1st Rubiul Awell Hijree 1267
or 2d April 1851.-

After due respect I. Kareemoonissa
Begum an old widow and grand daughter
of the late Shahamut Jung beg leave to state
that I have had in my possession in virtue
of hereditary right and of a Deed of Gift
as my own property, the Village of Mafooz-
pett purchased for money by the late
Nabob Mahomed Mafooz Khan Bahadoor,
Shamut Jung and likewise had the manage-
ment of the affairs of the Mosque, as well as
of the rights of the Circar - As I have now
obtained leave to proceed to, and visit the
Holy Temple of Mecca / May God increase
its honor and grandeur / I do hereby perma-
nently transfer to the Circar / for His Highness /
the whole of my own Private and Public rights
as well as the right of management of the
Mosque together with all the Vouchers, and
documents connected with the aforesaid Village
and His Highness will be pleased to appoint
a fit person to conduct the Affairs of the
Mosque - As I cannat recommend any
of my Children for that duty, as no one
of

of them is able to perform it with fidelity -
Moreover I apprehend that they will ruin
the property; as well as the affairs thereof. -
Thanks to God that the said Village, and
the Mosque, which I had hitherto in my
own possession free from any Claim or Claims
has been put in Charge of the Circar / or of
His Highness. / I am sanguine that, in Con-
sideration of the due performance of the duties
& the rights of the Circar by me, His Highness
will be graciously pleased to grant me a reward
to enable me to go and visit the Holy Temple. -

Particulars of Mofuskhan Pettah.—

In Fusly 1172 Nabob Shahamut Jung purchased 8,600 grounds of lands / measured by a rod of 18 feet long / for 6½ Star Pagodas from the Villagers of Ponnary Purganah attached to the Cusbah of Nayer and formed it into a Village in his name. The Proceeds of the Village were entered in separate accounts, and the above Cusbah Vydalumbadoo Chinna Moollavoyel, Moodeyoor these Villages were from Fusly 1172 up to 1173 Fusly, in the posession of the said Nabob during the administration of Vullee Mahomed Khan.— In Fusly 1174, the above said Villages were attached by the Circar and in Fusly 1176 Putchappa Moodelly Goomastah of Sarungadur Mustazir rented out the said Cusbah to Seroovengada Moodelly, during the period it was under his management. The said Moodely amalgamated the produce of the above Pettah with that of Cusbah Nayer and rented the Village from Fusly 1176 to 1179 in which the Pettah was included therefore the Produce of the Pettah should be separately received by the Circar.—

No. 565 of 1854.

This case came before the Board in consequence of the Petition presented by Taherooniſsa Begum objecting to the transfer made by her late Mother of the above village to the Nabob of the Carnatic. She has however since presented another Petition withdrawing her claim and acknowledging the validity of the transfer. So far therefore as the Proprietary or Meraſsy right to the Village is concerned, the Board think that there can be no objection to the Nabob's retaining it, the Coodewarum having been purchased by the late Nabob Mofuzkhan.—

2. As respects the Inailwarum or Sirkar share, the explanation afforded by the Collector is not quite clear. It does not appear how the Village is entered in the Survey accounts, whether as belonging to the Mosque or as a Village retained by the Nabob. Though from the remarks in para 6. the latter would appear to be the case, the Collector is requested to afford further explanation on this point.—

From the Summuds forwarded with this case, it appears that these Enams were conferred at first for the subsistence of the Original grantees only. They have since undergone several alienations, the last of which occurred in 1836 or within the period, which, under the orders of Government, (22d July 1853), gives to the heir of the holder of an alienated Enam a claim to

to its continuance. Under these circumstances the Board do not consider that the heirs of Meer Fuzl ally have any right to succeed to the Enamm now lapsed, but advert-ing to the circumstance of a large amount of Purchase Money having been paid for their acquisition, the Board recommend that they may be continued in the name of the widow, Ruhat Banee for life, for the support of the deceased's family.—

Sir,

With reference to the Extract Minutes of Consultation of the 6th February 1854, circulated with an Extract from the Proceedings of the Board of Revenue of the 20th idem, I have the honor to forward a copy of a letter from my Head

5161 Fort St. George 10th April 1854.—

Head Assistant, Mr. Sullivan, professing his readiness to undertake the supervision of such an Establishment for teaching Surveying as is there described. Mr. Sullivan is well qualified for the work in question, and as I have the honor to request sanction to entertain a similar Establishment to that sanctioned for Rajahmundry, to be placed under his orders.—

3 The list of instruments given by Mr. Sullivan appears to me to be too moderate a scale, and I think, that if the whole proposed number of learners is entertained, the stock of instruments will be found inconveniently small, especially if by and by, a party of the apprentices should be employed on detached duty. I would therefore beg to suggest that the number of compasses should be increased to three, and of chains and rulers of four.—

Extract Minutes of Consultation under date the 6th February 1854, I have the honor to submit for your consideration, and, should you think fit, for communication to Government, that I shall be most humbly to undertake the Superintendence of an Establishment similar to that sanctioned under Mr. Taylor in Rajahmundry.

† Vide Circular letter from Bd. of Revenue No. 600 22d December 1853.

2. It appears to me that the instruments supplied to Mr. Taylor would hardly be sufficient, and should Government sanction a similar establishment being entertained in North Arcot, I would suggest that the instruments should consist of

1 Prismatic Compass.
2 Chains
3 Parallel Rulers (large)
4 Small cases of Drawing Instruments.

3 In conclusion I may add that I have sufficient knowledge of the rudiments and practical part of Surveying to enable me to instruct the pupils, and that I feel confident in a year that I shall be able to furnish a report to the Government with Specimens of plans &c. which will prove satisfactory.

An excise duty of 12 Annas per Indian Maund appears to be levied there, but I am not aware whether it is collected at the time of manufacture or of sale, and I am also unacquainted with the rules in force to prevent frauds, and the strength of the excise establishment and its Cost, in comparison with the revenue realized.

B. No. 899.

From the Collector of Coimbatore,

Dated 11th March 1854 Rec'd 4th April & ans. by reply.

Sir,

I beg to forward for the Board's consideration a letter of Colonel Babington's, of some experience on the Hills and entitled to weight from the interest he has taken in them. Concurring in the great desirability of planting on the Hills. I would beg to request sanction of Government for 1000 Rupees for that purpose. A small sum of 500 Rupees was granted at my request in 1849, and expended in useful planting, so far as it would go. I three times planted (in 2,000 Holes) round the Ootacamund Lake, young "Anstralian Acacia," the quickest growing

For St. George 10th April 1854.-

growing trees on the Hills there are not at this moment above 150 left, the rest being destroyed, by frost, Cattle, and fire, (set to the grass by Cow Keepers) ; a further effort is desirable, tho' the Jungle Trees of the Neilgherries are usually very slow in growth.-

Sir,

My observations during my Tour of Office on the Hills, now expiring, on the very important point of their being better covered with Trees, in order to preserving and improving the Sanatarium's climate, especially now a Regiment is almost located on them, with all its Families and Followers, and that great Public expenses are being incurred, for new Ghats, Roads, Buildings, all tending to crowd the Hills with Population and Buildings and further to denude them

them of wood; a point you are aware I secerted myself upon when I first came; and of your own long and active interest in which, I am fully aware, impel me to address to you my most urgent suggestion, that you be good enough to take steps to move the Government to Sanction some measure, (which could involve almost no expense, Comparatively with all else that is now in progress to improve and take advantage of the Hills in all other respects as a Sanatarium), for bringing from the Subjacent Woods and Country Common hardy Jungle Young Trees, and causing them to be planted to the utmost possible extent, all over the Hills, within the limits where Lord Elphinstone first forbid wood cutting as detrimental to them.

A professional and practical Botanist is now in the Pay of Government on the Hills, so is a Pensioner whose duty it already is to ride all over them protecting the few Trees now remaining from spoliation. Licutenant Michael is employed in, and well acquainted with, the Forests below, and the several Collectors could forward the

Fort St. George 10th April 1854.

The object Mr. Mc. Ivor suggesting the common and easily available Trees, most likely to thrive here; and Pensioner O'Brien planting and conserving them - you have amply tried the extension of Australian Trees here - and have found it impossible to clothe the Hills with them, to any extent - from their early delicacy, their being stolen, and their shape which is not adopted to affecting climate by means of foliage, as are Commoner Forest Trees.

My principal observation, suggesting my venturing most strongly to urge as above, is, that the still existing and decaying "Sholahs," every where on the Hills, have evidently died, and are visibly dying away without any commensurate reproduction; Mr. Mc. Ivor maintains that existing Trees on the Hills are mostly accidental, and not indigenous. (their seeds having been blown up, or carried up by Birds) - in which I think there is considerable truth; and if it be so, the more I have now taken the liberty, from the interest I feel in the Hills (as I well know

know you do) very urgently to suggest, is only adopting the one used and suggested by nature; to extend what her efforts partially effect; - and the present time, of so much other public work and expenditure going on to improve the Hills as a Sanatarium, appears to me an appropriate one for also carrying out a measure, involving very little expense, for which the agents are already in pay - and which is unquestionably a grand element in the professed public objects of a Sanatarium, now all over British India in course of practical extension to European Troops, - and the climates whereof are greatly dependent on moderate clothing with Forest Trees.

The clearing of Underwood from the existing clumps of Trees here, by Pensioner O'Brien, (the sale of the Underwood paying for the operation) may be said to be a course, already in progress, initiatory to the further planting of young Jungle Trees (or their cuttings) now recommended.-

As it appears from the concluding part of the foregoing letter that of all the "Australian Acacias" planted round the Ootacamund Lake, there are not more than 150 left at present, the Board of Revenue are of opinion that they would not be justified in recommending the expenditure of the further sum of Rupees 1,000 now solicited, without due arrangements being made for preserving the young trees- and they request that the Collector will state what measures he would suggest for this end.

Submitting a letter from the Collector of Malabar reporting on the Exctra Sources of Revenue of his District for fusly 1262-

(Here enter No. 8)

The annexed Abstract exchibits the demand for the year and shews a decrease of Rupees 2,65,598-5-11- as compared with the preceding fusly arising from the abolition of the Tobacco Monopoly-

	Fusly 1261.	Fusly 1262-	Increase	Decrease
Salt	3,19,524 13 9	3,20,806 14	1,282 3

	12,18,352 13 7	9,52,754 8 7	25,560 2 9	29,158 7 9
		Deduct Increase	25,560 2 9	
		Net Decrease	2,65,598 5	

Salt- 2- The Current Collection on account of Salt amounted to Rupees 3,20,806-14- or Rupees 1282-0-3 in excess of Fusly 1261- In the Home sales there was an increase of Indian Maunds 8,788, while in those for Inland

3-

Inland consumption there was a falling off to the extent of Indian Maunds 1,575- The decrease under the latter is attributed to diminished exports for Mysore, owing to the early and heavy rain of 1853, which prevented the Brinjaries from coming down for their usual Monsoon supply.-

4- The sales at the Depôts where the price was reduced to assimilate it with the Cochin Depôts shew an increase, with the exception of Chowghat of Indian Maunds 14,173, as compared with the past year at Chowghat there was a decrease of Indian Maunds 1396, consequent upon the supply shewing run short, and the state of the weather not admitting of its being replenished.-

5- The sales of Salt for the year amounted to Indian Maunds 333,120, or an increase of Indian Maunds 7,272. Owing to some difficulty experienced in obtaining the usual supply from Bombay last year it was necessary to pay higher rates, the average being Rupees 32-7-10 or Rupees 4-9-3 per Garce above fusly. 1261-

Tobacco Frontier duty

6- The receipts on account of Tobacco were Rupees 27,794-3-3 and for Frontier Duty Rs. 16-8-7-

Sea Customs

7- In Sea Customs there was an increase of Rupees 13,990-4-7 and is ascribed to augmented exports to Europe of Coffee, Cocoanut Oil, &c., and to the import duty levied on Tobacco, Wines, and Spirits, Teas &c.-

Abkarry Small Farms Stamps

8- Under these several branches of Revenue there was

was an increase of Rupees 4,357-11-4 Rupees 2,558-6-10 and Rupees 3071-9-6 respectively and call for no remark.-

Moturpha

9- The increase under Moturpha was originally Rupees 4,274-8-9, but from the necessity which existed of remitting the tax on houses, Shops, &c., in a decayed state, as well as on those proved to be held by persons in indigent circumstances it was reduced to Rupees 296-7-7-

10- Of the balance of Rupees 881-14-2 outstanding at the close of the fusly, on account of former years Rupees 669-3-10 are stated to be recoverable, and the remainder Rupees 212-10-4 being deemed irrecoverable the Board recommend may be written off the accounts of the District-

11- Of the total demand Rupees 9,511,76-12-11 were collected within the fusly and Rupees 1147-12-2 subsequently leaving a balance of Rupees 430-0-5 to be realized hereafter.

12- The whole of the Collections including Current Exctra and arrears within the fusly, amounted to Rupees 9,55,914-11-1, from which the charges Viz.t Rupees 136,162-13-4 being deducted there remained a Net Revenue of Rupees 8,19,751-13-9 or Rupees 1,24,768-12-4 below that of Fusly 1261-

13- This being the only Exctra Revenue report for fusly 1262 remaining undisposed of (the one from Kurnool not having been yet received) separate Proceedings have been prepared upon it in the usual manner, but from Fusly 1263 the whole of the reports will be submitted to Government in accordance with their orders dated 11th March 1853.-

Ordered that a Copy of the foregoing Exctract, with the annexed Comparative Statement of the Collections, Charges, and Net Revenue, be submitted to Government, and transcript of the same be furnished to the Collector of Malabar.-

Sir,

I am directed by the Board of Revenue to submit for the orders of the Right Honorable Governor in Council, the correspondence noted in the margin, with the Collector of Seacustoms, respecting a refund of duty levied on a piece of Presentation Plate, the property of H. M. 43d Regiment.

2 The Plate, which it appears has been in use in the Regiment, was from being sent to the London and American Exhibitions, not brought down with the other Plate of the Mess, but was forwarded on to Madras by the Screw Steamer "Calcutta." On applying to clear it from

from the Custom House, this circumstance was not brought to notice, and duty was consequently charged on it.

3 A the Commanding Officer represents that he was not aware of the forms of the Custom House owing to his recent arrival in India, the Board recommend that sanction be granted for the refund of duty amounting to Rupees (100) one hundred.

4 With reference to the subject alluded to in paras 5 and 6 of Mr. Underwood's letter of 13th March 1854, I am desired to add, that under the orders of the Honorable Court to the Bengal Government dated 9th April 1851, duty should be levied on all Wines and Liquors for the Mess, whether brought out with the Regiment or subsequently imported. The Board therefore request that the necessary instructions be issued to the proper authorities, so that the practice at present of passing everything that accompanies the Regiment, without communication with the Custom Department may be discontinued.—
