Revenue Department.

No. 462.

Extract from the Minutes of Consultation
Under date the 21st April 1854.—

Read the following letter
from the Secretary to the Board of
Revenue.—

/Rejected 16th March 1854
No. 112/

Para 2. The Right Honorable the
Governor in Council directs that the sale
of the three Gardens in the Dydapet
Talook of the Chingleput District,
referred to in the above letter, be
cancelled. It is observed that by the
terms of the Advertisement the
sale was to be subject to the con-
firmation of the Board of Revenue,
and the Board have given sufficient
reason why that confirmation
should be withheld.—

2. The Governor in Council
agrees with the Revenue Board that
the Collector should have taken
more

more serious notice of the conduct of his servants in connection with the late "Both the Head Sheristadar and the late Taksildar" who framed the Original Estimate seem to have been in fault, but the error of the former consisted in an error in judgment in misapplying a general Order whereas the latter is chargable with misrepresentation which appears to have been wilful. There is thus a great difference between their several degrees of delinquency. The Governor in Council cannot allow either to go unpunished. He directs therefore that the Head Sheristadar be fined and the Taksildar, if still in the public service, fined or suspended. The Board will determine the punishment to be inflicted on both giving heed to the distinction between their respective Offences as above pointed out.—

3. The Governor in Council + No. 494 of 1854. Revenue Resolves to forward to the Revenue Board for disposal a Petition recently

recently presented by C. R. Ramanoojah Modely one of the parties whose Gardens were sold. The Board will ascertain from reference to the Collector what culpability attaches to the other public servants the Durnam, Moonsiff and Tillatar therein complained of and pass such Orders on the conduct of these persons and on the other matters represented in the Petition as may seem called for reporting the same to Government.—

Fort St. George 8th May 1854.

B. No. 1303

No. 460.

From the Secretary to Government — Extract from the Minutes of Consultation Under date the 21st April 1854 —

No. 1064.

Extract from the Proceedings of the Most Noble the Governor General of India in Council in the Financial Department under Date the 24th March 1854.

Read an Extract from the Home Department No. 179 Dated the 21st Ultimo forwarding a Despatch from the Government of Fort St. George No. 148 Dated the 6th idem with Enclosures and a Tabular Statement recommending an increase to the Establishment of the Collector of Tanjore.—

Resolution — The Government of Fort St. George submits an application from the Collector of Tanjore for an increase to the Establishment of his District. There are at present seventy persons borne on his Establishment as Peons drawing the Salaries of Seventy four Peons. but employed as Sawabnavis. Good = masters pay. In addition to these, there are 44 other Peons withdrawn from

Fort St. George 8th May 1854.

from the Talooks to fill Offices in the Collector's Sub Collector's and Assistants Cutcherrees for which the regular Establishment does not provide, and owing to the withdrawal of so great a number of Servants from their proper sphere of duty, the public Service is much impeded. With a view therefore of putting an end to these irregularities the Collector proposes the employment of 70 additional hands on the regular Establishment, at an aggregate Charge of Rupees 266-10-4 per Month and the raising of the pay of the Duffadar from 7 to 10 Rupees per Month, as well as the equalizing of the pay of the Salt Amildar and Head Sawabnavis by fixing the appointments at 85 Rupees each per Month, by which great inconvenience will be prevented and the services of an able and trustworthy Head Sawabnavis secured. With regard to the Maramut Manager, the Collector states that the average Maramut expenditure for the last 10 years is Rupees 1619 12, and that the Salary.

6204 Fort St. George 8th May 1854.—

Salary of the above Officer, who is only a Gomastah, is but Rupees 28 per month, to enable him therefore to secure the services of an efficient, experienced and trust worthy person as the responsibility of the appointment is great, he proposes the Employment of a Manager on 50 Rupees per month.—

From the Secretary to Government.—

Extract from the Minutes of Consultation
Under date the 21st April 1854.

Read the following Extract from the Proceedings of the Board of Revenue.—

/Vereenter 13th March 1854 No. 106/

1. With the above Extract from their Proceedings, the Board of Revenue submit a letter from the Collector of Canara, on the subject of the measures requisite for diffusing a knowledge of surveying among the people of his District, and the Establishment to be entertained for survey operations. The Board recommend that the undermentioned servants be

With reference to a letter from the Collector of Canara respecting the measures requisite for diffusing a knowledge of Surveying among the people of his district and desiring the Board to ascertain from Mr Maltby whether he knows any individual whom he could with confidence select for the Post.—

Fort St. George 8th May 1854.—

be employed at an annual expence of Rupees 6,840 for three years to be specially reported on at the end of each year.—

1 Instructor of Survey at Rupees 100 per Mensem
12 Survey Gomastahs at 25 Rupees each = 300 — Do.
12 Assistant Do. at 10 Rs 120 — Do.
570

2. The duty of the Instructor would be to train up youths for the Survey Gomastahships, as well as to teach all Volunteers both "in and out of the Public service, "who may be desirous of obtaining "a knowledge of Surveying, and he would also be available for "special employment under the "orders of the Collector whenever his ser="vices may be required for the purpose"

The duties upon which "it is proposed to employ the Go="mastahs / who would be attached "to the Talook Cutcherries / are "to survey and map all the Estates "litigated in the Courts - all the "Circar Gunny Estates for which "Moodpattahs or title deeds are sought.

"sought, all lands newly taken up,
"as well as those in which fraud
"has been especially alledged. By
"this means, a better system of
"measurement will be gradually
"introduced and preparation made
"for carrying out a more extensive
"survey of the District should such
"be found necessary."

The Right Honorable the Governor in Council, concurring generally in the views of the Board would be prepared, on the application being furnished in the prescribed form, to recommend to the Government of India that the proposal be acceded to—were it not that it seems to him doubtful whether an "Instructor in surveying" duly qualified for the duty can be procured in Canara, or at any rate at the salary which it is intended to attach to the office. Before therefore taking any further steps he desires that the Board will ascertain from Mr. F. Maltby whether he is acquainted with any individual whom he could with confidence select for the post and who

who would accept it at the proposed salary or if any larger rate of remuneration be necessary what should be its amount. The Governor in Council must remark, that a due discharge of the duties of the Instructor will require no ordinary qualifications and that it would be preferable not to have such an office at all unless it can be efficiently filled.—

Fort St. George 8th May 1854.—

the matter stood. If on the other hand, he is able to exculpate himself the Board will report further to Government with their own opinion on the subject.—

3 It is observed that on the occasion in question a part of the monthly remittance sent from the Cumbum Talook to the Cuddapah Treasury, was sent back to Cumbum for local purposes by the very same peons who had brought it there. The Governor in Council would wish to know whether in such cases as these, arrangements could not be made by Collectors for deducting from the remittance and detaining in the Talook Treasury the sums required to meet duly authorized disbursements as for the payment of the regular Talook Establishments and the like—and the necessity for this double conveyance of Money thus be obviated.—

Extract from the Minutes of Consultation, in the Revenue Department, under date the 24th April, 1854.—

Read the following Extract from the Proceedings of the Board of Revenue (Here enter 6th April 1854 No. 442.)

The Right Honorable the Governor in Council agrees in the views taken by the Revenue Board of the destitution from the Kistbundi reported on by the Collector of North Arcot in his letter of the 3d February last, and in the accompanying Statement he accordingly directs that the revenue of the Villages entered in Column 2 of the Statement being henceforward carried wholly to the credit of Government, the following allowances in money be discontinued from the Treasury, and brought duly under the check of the Audit Office:—

No. 1 A Pension of Rupees 115 8 — per annum will be continued in seven shares of Rupees 16 8 — each, to Appoo Chetty, Coopachary, Sheenevasachary, Rungachary, Pootniachary, each share being reported on a lapse.—

Fort St. George 8th May 1854.

No. 2 A yearly allowance of Rupees 360 being somewhat below the value of the share hitherto enjoyed from Puttiecondah and eleven other Villages in the Palmanair Talook will be continued in equal portions of Rupees 180 each, to Pampa Naicko and Seminah Naicko and to their lineal male heirs. adoption being barred.—

No. 3 On the same terms, and on the further condition that he continues to reside in the Pellium, an allowance of Rupees 900 per Annum will be conferred on Chellakad Naicko Poligar of Colamadava Pully in lieu of the emoluments hitherto derived by him from that and thirty nine other Villages in the Talook of Palmanair:—

No. 4 An allowance of 60 Rs per annum in lieu of the present permission to an equivalent amount in the assessment of the Goodanapully will be continued to Kistnama Naicko for life subject to reconsideration on lapse.—

No. 5 An annual allowance of Rupees 160. will be continued to Venata Chelliah for life, in lieu of the moiety of the Kistbundi heriz of the Savanellore Village:—

No. 6 A yearly deduction of Rupees 175 will

will be made from the Peshcush payable by the Zemindar of Canetinggun in lieu of his half share in the Village of Condapollien.—

The allowances now authorized will have effect from the date of the last receipt of the Emoluments for which they are to be substituted.—

The demand on account of the Extra Sources of Revenue in the District of Malabar for Fasly 1262 amounted to Rupees 962754, and was below the previous year in Rupees 26598, a result which is owing to the abolition of the Tobacco Monopoly. The Collections on account of the Current demand were Rupees 951176, and including Extra items and arrears amounted to Rupees 955914 from which, charges being deducted, the Net revenue, Rupees 813757, was below that of Fasly 1261 in the sum of Rupees 12768.— Excepting Tobacco, there was an increase,

2

increase, as compared with July 1853, in the demand on all the other branches of Revenue, the largest amount appearing in Sea Customs, Rupees 13990, ascribed to augmented Exports to Europe of Coffee, Cocoanut Oil, &c; and to the Import duty levied on Tobacco, Wines and Spirits, Teas, &c.

From the Collector of Guntoor —

Sir,

I have the honor to acknowledge the receipt of your letter of the 25th Ultimo. requiring me to report whether Salt can supply from the stores of this District any quantity of the Salt lately indented for by the Bengal Government; and in reply to state, that the Salt manufacture in this District is, if I may judge from that commonly

*5,00,000.

commonly exported from Nellore, not generally of a sufficiently white Colour to be shipped for Calcutta. There has been but one instance during a number of years of any shipment of Salt having been made, and then the speculation entered into by a private trader, was a failure. The stores at which perhaps Salt suitable for the purpose might be made, (* Ganjam) though the present season is too far advanced, are not very conveniently situated for the exportation of the article by Sea, and a difficulty, would be experienced, and expence incurred in procuring carriage and Boats.—

I have &c
Signed A Purvis
Acting Collector

To W. H Bayley Esquire
Secretary to the Board of Revenue
Fort Saint George.

(31)

Sir

Bd No. 928
From the Collector of Nellore
As requested in Extract from Board's Proceedings dated 3d Instant, furnishing explanation in respect to the several Shrotriem Villages therein alluded to.

Para 1 I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board dated the 3d instant, and in reply, to furnish the following explanation in respect to the several Shrotriem Villages therein alluded to.—

2 In Para 3 the Board require explanation whether the Shrotriem Village of Calichaidee was rented out only in Fusly 1262, and whether the excess on the Beriz for Fusly 1261 also proceeds from the same cause. Beg to state that the Village was managed under annany until Fusly 1262 inclusive, in which latter year Fusly 1262 the proceeds under annany amounted to Rupees 611-11-6, which is also in excess of the Sodee. In Fusly 1263 it was rented out for 4 Years at an annual rent of Rupees 865 or Rupees 318-5-6 above the permanent Sodee of the Village, which will cause the Arrears outstanding against

the

Fort St George 8th May 1854

the Shrotriem within that period. Under those circumstances there can be no doubt that the Shrotriem is capable of producing a considerable surplus. Petitions Nos 2157, 2398 and 2466 of 1853, having reference to this subject, are herewith returned.—

3 In regard to the information required by the Board in Para 4 concerning the Poliparei Shrotriem in Tuvanpully Talook, they to explain that the Village was released from attachment in Fusly and having ever since been in possession the Shrotriemdar, the proceeds of the subsequent to Fusly 1254 were not exhibited in the Statement. The circumstances of the Village having been retained under attachment for a number of years solely owing to disputes among the sharers, and the consideration that Government should not consequence become losers to a greater extent than could be avoided, induced me to recommend that Rupees 400-- /a large amount as there seems any probability of realizing

Should

Fort St George 8th May 1854

should be kept outstanding against the Shrotriem, though the Shrotriemdar has not given his consent to pay portion of the arrears either previously or when called on since the report was sent.—

4 With respect to the information required in Para 3 regarding the Shrotriem of Goondlapolem, they to state, that the Village was given over in Fusly 1258 by Mr Collector Smith to the person to whom it had been rented by the Shrotriemdar, under an engagement, that he should pay the arrears Rupees 378-6-5 due for Fusslies 1245 and 1249 in four years instalments, in addition to the Current Annual Sudee, and the condition not having been fulfilled, the Village was again taken at the close of Fusly 1259 and still remains under attachment. No portion of the arrears was paid during the two years the Village was in possession of the renter, and the Current Sudee also not having been fully liquidated, the moiety of the arrears due for Fusslies 1245 and 1249, which fell due in Fusslies 1258 and

and

and 1259, according to the conditions of the rent and the Entire balance of Sodee for the two last fusles are due by the renter and his security who is his brother. Their property was attached but it was found that there was none available out of which the arrears could be defrayed the personal property was to but a small amount, and this was stated to belong to other persons, while a house of sufficient value to meet the security engagements had been made over by him, together with all his property, to his wives under Hibbenamah Deeds, the genuineness of which was deposed to by Witnesses, which bore date antecedent to the security Bond, and which were declared on a reference made by the late Collector to the Mahomedan Law Officer, to be tenable under the Mahomedan Law provided they were genuine—

5 The Shrotriem of Vezianellur alluded in Para 6, is rented out from fusly 1256 for the full amount of the Sodee, but no offer beyond that has been able to be procured. The Shrotriem having produced no surplus under anything either, there are no means of realizing any portion of the arrears from the land itself. The Shrotriemdars—

have offered to pay up the Jaree balancein 14 years but under the above circumstances do not see how the period can be shortened, or the Fusslee balance recovered at all, I shall be ready however to use my best endeavors to realize the arrears in question, if any mode can be pointed out of doing so.—

6 No durkhasts having been received for renting the Village for Fusly 1263. I have, subsequent to the transmission of my report dated the 29th September last, endeavored to induce the Shrotriemdars to undertake the current payment of the Current Sodee, producing security for the due fulfilment of the same, the disposal of the arrears being subject to the orders of the Board.

7. As regards the Village of Yerrabully alluded to in Para 7, I beg to observe, that the resources of the Shrotriem not being known, the long period during which the amount of arrears will have to be realized, and my having no security as beyond the promise of the Shrotriemdars, which circumstances may prevent their being able to fulfil, have been the causes which induced

induced me to class these arrears as doubtful.

8. The balance outstanding against the Village of Eskapully alluded to also in Para 7, is considered as doubtful on the following grounds-Viz.- part of it being due for a famine year 1832 and 33, which the Shrotriumdars have not agreed to pay, and which I considered might perhaps meet with favorable consideration, the very long period required to realize the remainder Viz. 14 years and the resources of the Shrotriums not being known.

9. In respect to the Villages of Kilsavelaliparah and Peridoo Kilsalavavilatiparah in Nellore Talook, I beg to explain that a reference to Mr. Dighton's account of A. D. 1790. as well as the accounts prepared after the assumption of the District in Fusly 1211, shew that the two Shrotriums are distinct ones, Regarding the statements of the Shrotriumdars that the lands of the Village are under water in the bed of the Tank of Varegonda Village, the Tahsildar of Nellore, in reply to a reference made to him, reported, that as there is no water in the

Varigonda

Varigonda Tank this year owing to the unfavorable nature of the season, it is not practicable to ascertain with correctness the extent of land which is liable to inundation, or that portion which is fit for cultivation, and as it is cultivated land the water mark cannot be traced. This point will have therefore to be examined and ascertained in the course of the ensuing year, should the Tank of the Varigonda Village become full.

10. The balance outstanding against the Shrotrium of Chintalapolem adverted to in Para 9. may, as the Board remark, be eventually recovered from the other Shrotrium, which appears to be profitable-and the necessary measures will be taken to realize it.

11. With respect to the Village of Nagoolavaram alluded to in Para 9, I beg to observe, that the Shrotriumdar having failed to pay the kists for Fusly 1261, upto December 1851, or give any satisfactory explanation for nonpayment, and as the Tahsildar reported, that, he, the Shrotriumdar, was endeavoring to make away with the collections

of

Fort St George 8th May 1854

of the Village, it was attached early in
January 1852. and all the available
proceeds of the Village were recovered on
the part of the Circar. The Shrotriemdar
deposed in the time of my Predecessor that
he cannot pay any portion of the balance
due for Fusly 1261. because he did not
realize any thing from the Village for
that fusly, and that if the remaining
Zuftee balance is also taken off, he will be
punctual in the payment of the current Jodee
Licence forward. Under these circumstances the
Jaree balance of Fusly 1261. is clafsed as
irrecoverable, the whole available proceeds
having been taken profession of. There is
besides a large Zuftee balance outstanding
against the Shrotrium, which, as
observed in the report, has not, on an average
nearly produced the Jodee while under
attachment.

Nellore...
Collectors Office

ums on which there are arrears out-
standing, and which are now reported upon
, are ____ 95-

Of which Shrotriums incorporated
with Government lands ____ 11
Transferred to Guntoor ____ 1
12

Of the remainder 83 / 34 are under attach-
ment, 14 of which are rented, and 69 are in
the possession of the Shrotriemdars.

	Rs	A	P
Recoverable	6,825	6	4
Doubtful	3,011	9	4
Irrecoverable	167,850	5	4
	177,707	5	4

3 The total Balance is 177,707-5-4 clafsed as per Margin.

4 Of the amount entered
as Irrecoverable, the sum belonging
to Iyen Shrotriums is given, at 162,606
and Stulla Curnum Rufsoams at 3,088 or together
165,694, but the Collector states, that this
Sum

P.T.

Fort St George 8th May 1854

sum includes Rupees 1,070-3-9. arising from wrong entries in the accounts spread over many years, upon Wootawar &c Rufoomy being added the arrears to be written off amount to 167,850-5-2.

From Coll.r 24th January 1854 P. 10.

5 As the Collector has since reported that the Balance against the Village of Chintapollium may be recovered from the profits of another Shrotriem in the possession of the same parties, the remission first proposed to the former Village Vizt 628-1-2. is to be deducted from the total arrears, leaving the latter 167,222-4-0 for the writing off of which, amount the sanction of Government is requested.

6 With the exception of the 4 Shrotriems which have been rented, the Board recommend that the 3 now under attachment be offered to the Shrotriemdar on the present Jodee free of all arrear

Fort St George 8th May 1854

that in future every Shrotriem that is attached on failing to pay the early Kists, and remained at the end of the Fusly should the Balance remain unliquidated.

The present system of attaching the Villages for an indefinite period, and conducting their affairs under inefficient amany management should at once be abolished.

B & N 1284

Sir.

From the Collector of Chingleput

The disastrous effects of the present season on the cultivation of the District have notwithstanding the advantage of high prices, been severely felt by the Mottadars and Shrotriemdars as well as by the Ryots, and several of the former have in consequence, applied to me requesting that same indulgence may be shewn towards them in collecting from them their Peishcush. The attachment of their estate in default of the payment of the earlier Kists appears inadvisable in such an adverse season, subjecting the proprietors to additional charges of Sibbandy, while they find it a matter of difficulty to liquidate the Peishcush itself. I have the honor therefore to request the attention of the Board of Revenue, in reference to their Circular dated 10th June 1824, to

Fort St George 8th May 1854

exempt the proprietors from the charge of the interest on the arrears of Peishcush outstanding against them, as well as to postpone the attachment of their estates till the expiration of June, the period for the last Kist, when the estates of such of them as may be considerably in arrears will be brought under sequestration and advertized for sale or redeemed if they are held on favorable rents. I shall in the meanwhile bring to the special notice of the Board any instances in which the proprietors may omit to discharge any portions of the Kists, and may otherwise evince a wanton disregard to the interests of Government by appropriating the proceeds to themselves in view to the loosing up estates eventually. If notwithstanding these precautionary measures the proceeds of the sale of any Mottahs prove inadequate to meet the arrears due, I trust the proper objects of the reversion of the estates in question for sums not exceeding the annual

annual Peishkush will operate as a sufficient consideration for conceding the indulgence now recommended as a general measure.

Chungleput District

Fort St. George—

43

B. No. 647
From the Collector of
Tanjore ——

Sir

I have the honor to reply to your
letter of the 16th Ultimo

The brass, which is the subject of the petition now in question, was imported from Karicab in 1852, and was charged with duty, although not entered in the Schedule sanctioned in May 1851— the Board are aware that I was not in the province at the time, and the Gentleman then in immediate charge of the Customs, Mr Holloway, has subsequently left the district, it is only therefore conjecture on my part when I suggest, that duty was assessed on the brass because the article is liable to an import duty at our ports, and because Copper, Lead, and Tootnagum are entered in the Schedule of May 1851—

The resolution of the 1st of August

Fort St. George 8th May 1854 — cont.

August 1853, referred to in my endorsement on the petition, was connected with the Sea Customs and not with the frontier duties— It was represented to me at Negapatam — that a great hindrance to trade was offered by there being no discrimination made in the collection of duty on old and new brass, that the former could not profitably be imported, and that the manufacturers of brazen wares suffered considerable inconvenience in consequence— On referring to the tariff I found that there was a distinction between old and new copper and that the Customs Act provided that all articles not entered in the tariff might be admitted — at an ad valorem duty, and I considered that old brass, not entered in the tariff, was as different an article from new brass, as old copper, entered in the tariff, was from new copper, and that consequently the first, as an article not entered, might, under the Act, be admitted at an ad valorem duty, and I gave instructions accordingly— Hearing this resolution, petitioner claimed the benefit of it on his brass brought to the frontier in 1852, but I declined to give it retrospective effect—

The duty levied on brass imported

Fort St. George 8th May 1854 —

imported at Nagore and Negapatam, amounts —
to about 1200 Rupees a year, and will certainly
be lost if parties are allowed to bring it across
the frontier without duty, having landed it
at the free port of Karical —

Tanjore, ...
Cordacherry, ...
11th March 1854 —

/ Signed/ H. Forbes
Collector

Bd No 938
Proceedings thereon

(43-44)

Brass being excluded from the
Import Schedule sanctioned in May 1851, the
levy of duty upon that imported by the Petitioner
was irregular, but at this lapse of time the
Board will not direct the refund of the amount

2

As regards the contingency alluded
to by the Collector in the last Para, he will bring
the course of Trade, and should he find it
diverted from the Ports of his District to the
free Port of Karical in a degree which calls
for interference, he will bring the subject
to the notice of the Board —

Ordered that the following Endorse-
ment be passed on Petition No 2544 / 1853

"From the period which has
lapsed from the date of the circumstances
brought to notice in the Petition, the Board
of Revenue decline to interfere." —

Fort St. George 8th May 1854 —

No 26

To

W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George —

Sir,

(45)

Board No 1232
From the Collr of Tanjore —
Requesting permission to Collect the balance due on a Village by the sale of the land by auction —

The Village of Rajahgopalapooram in the Munnargoody talook was entered in the accounts of fusly 1231 as containing 19 — 14 — 75 of irrigated, and 6 — 5 — 74 of Manavary land — the former assessed at the rate of 8 — 5 — 21 the valey, and the latter at 4 — 3 — 6 — There are two Summabundy chittahs of the Village on record for fusly 1232, in one of which the entries correspond with those of fusly 1231, — as far as the total quantity of Nunjah land and its total assessment are concerned, — while in the other, it is noted that the whole of the lands having been over flowed by a breach in the bank of the Penmurry river, and been covered with sand in fusly 1228, and the Meerasdidar's representation — that they had subsequently been unable to cultivate the land as Nunjah, having been found on investigation to be correct, the Teerwah was to be reduced to Six chuckrums the valey, or fifty persent above the ordinary Ponjah tax of the Village, the second of these

chittahs

Fort St. George 8th May 1854 cont

Chittahs is without signature, but an Endorse-
=ment, corresponding with the decrease of
assessment made in it, appears on the first,
and is known to be in the hand writing of
the then Naib Sheristadar - The land ought
from fusly 1232 to have been entered in account
as Poonjah, but either by accident or design, it was kept under the original head
of Nunjah, and in consequence a differ
has arisen, on which I request the orders
of the Board. -

2

How the land was cultivated
from fusly 1233 to 1236 there are no means of
ascertaining, as at that period no particular
accounts of cultivation were kept, but in
the accounts of fusly 1237, the entry of the
land is similar to that for fusly 1231, of
19-14-7½ as irrigated, and 6-5-7½ as
manavary, while the assessment is entered
according to that of one of the chittahs for
fusly 1232, or at an average of six chuckrums
the valey - In the same year the lands were
again inundated in consequence of a breach
in the Peumurry, when the whole of the
land entered as irrigated was struck out
of account, and the manavary only retained

In

Fort St. George 8th May 1854

In Fusly 1238 - 2-3-20 V. M. G. were brought under
Nunjah cultivation from Poonjah and perumpoke
lands, and the total extent of 8-8-9½ V. M. G. continued
to be cultivated up to fusly 1247, when a
small increase was made - In fusly 1248
18-8-9½ V. M. G. are entered in account as having
been under river irrigation, and the extent
was gradually increased until in fusly
1261, it reached 36-15-0 V. M. G. - The anomalous
state of the assessment first attracted
attention in fusly 1256, when it was brought
to the Collectors notice, and a remark is
on record in Sir Henry Montgomerys hand,
to the effect, that the land having been
assessed at only one and a half of Poonjah
rates and subsequently irrigated, it should
be assessed with a Nunjah rate. In fusly
1261 the attention of Mr Grant, who as
Special Assistant Collector, had immediate
charge of Mannargoody, was attracted to
the state of the Village which he visited,
and satisfied himself by examination that
the crop produced was on average
not less than 120 cullums the valey - he
addressed the Collector on the subject,
and since that time unavailing attempts
have been made to induce the meerasidar

to

Fort St. George 8th May 1854

to agree to a re-assessment of the land—

3. The demand up to fusly 1241 is at the average of 4lb 6¼ the valey, exactly the same as that against the manavary lands of the same Village, the land is completely irrigated from the Rummy, and upwards of Rupees 1300 have from time to time been expended on work which have improved its productive powers, the average of the surrounding Villages is 95 cullums the valey and considering it would be in no way reasonable to assess Rajahgopaulapooram accordingly, that assessment was put on it in fusly 1261, but has never been paid by the Meerassidar, and there now stands a balance against him of Rupees 718-11-2

4 The Board will observe that the whole difficulty in this case arises from the land, the teerwah on which was reduced in fusly 1242 in consequence of its supposed unfitness to produce a Nunjah crop having been retained under the head of Ponjah instead of having been transferred to that of Ponjah, and that the neglect to make the transfer was certainly an error—

5 The only point which appears to require explanation is the fact of 95 cullums having been fixed as the Summah bundy grain amount in the recent re-assessment, while 65 Cullums

cullums only appear in the accounts of fusly 1231 before the assessment was lowered the Collector appears to have taken into consideration the Maramut performed for the benefit of the Village, the productive powers of the land, together with the assessment borne by neighbouring lands, and to have fixed the demand accordingly.—

6— In the Ejarah Moochilka signed by the Meerassidar in fusly 1232 / and the same terms are agreed to in subsequent Moochilkas / a paragraph is inserted to the following effect, "the grain amount having "been now fixed for the Nunjah lands with "reference to the accounts of former years, it "will give place to some other should those "former accounts be hereafter found incorrect" and according to this agreement the late Collectors proceedings would appear to be perfectly right.—

7 I have therefore the honor to request permission to collect the balance due by the sale of the land by auction, and to submit the Statement usual in such cases.—

Proceedings thereon.—

Under the explanation afforded by the Collector, the Board consider that the land in question is to all intents and purposes Nunjah, and ought to have been so entered in the Accounts, and the demand on the Meerasdar is correct.—

2 Mr Forbes does not state if Meerasdar refuses, or is unable to pay but the Board conclude that the Collector is unable to collect the dues of Government without proceeding to the sale of the land.—

3- Mr Forbes will be good enough to submit an 'Advertisement in the Form' given in the Board's Circular of 10th August 1826, making such alterations in it as may appear necessary.

Bd No 814

From the Collector of Madura - - -

Requesting to be informed in what manner the instructions contained in the Foot Note to new Form No 7, of the Summabundy Statements for shewing the revisions of assessment made subsequent to the survey should be carried out.-

Sir,

With reference to Mr Blake's letter of the 19th September last, I have the honor to request to be informed in what manner the instructions contained in the Foot Note to new Form No 7 of the Summabundy Statements for shewing the revisions of assessment made subsequent to the survey should be carried out.-

For Example.-

2 100 Cawnies of Land have at one time or other since the Survey been converted from Poonjah to Nunjah and Bagayet. Of the 50 Cawnies are so cultivated in the year under review - and 50 Cawnies lie waste - How are the 2 Items respectively to be shewn in column No 7?-

3 In the Statement of one Village, sent as a specimen, all the Fysul Poonjah converted into higher class is shewn distinctly. It has been suggested to me that only such portion as is cultivated otherwise with Poonjah in the year of despatch should be so shewn, but the Statement is 2 years old, and the Foot Note says "revisions of assessment made subsequent to the survey". The

P29

propriety of this course is therefore doubtful - especially as conversion into the Superior Classes is not a mere sowing of a different kind of seed, but work of a more permanent nature; Viz^t, digging a Wall for Gardens and making "Waraposs" or small Tanks and small Channels in case of Nunjah.-

4 With reference to Para 7 of Mr Clarke's letter I have the honor to request that the Board will inform me whether they wish the present practice of the Principal Division in regard to the taxation of Poonjah Varavoo Nunjah again cultivated with Poonjah, whereby it pays Nunjah mail Poonjah or ½ Nunjah Tax to be altered. The difficulty in the matter is occasioned by such Land being generally in one tract with the Fysul Nunjah Land - Should the Poonjah tax only be levied therefore it might happen that a Fysul Nunjah field cultivated with Poonjah should be taxed with ½ Nunjah, and Poonjah Varavoo Nunjah fields adjoining similarly cultivated be taxed as simple Poonjah - In asking this question I beg to refer them to Para 82 of the Draft Rookumnamah forwarded with my letter of the 20th March 1850.-

Madura - - -

B2 N:940

Proceedings thereon.- In reply to Mr. Parker's question regarding the entry of land which at the Survey was Poonjah, but is now Nunjah or Bagayet, the Board wish him to understand, that in Statement No. 7 of the new form of accounts, such lands should be entered as it is classed at the Survey, that is- "Poonjah."

2. Mr. Parker will observe in Statements Nos. 9 and 10 that entries are to be made there of "Dry land converted into Nunjah, or Garden."

3. With reference to para 4 of Mr. Parker's letter, if the Poonjah Wararoo Nunjah has been brought into the accounts as part of the Permanent Nunjah ayacut the present rule, whereby it pays Nunjah and Poonjah tax when cultivated as Poonjah, should be continued. Mr. Parker himself points out the difficulty that would attend any change, as two lands situated together and of equal capabilities would in general have to pay different rates.- The opinion of the Board of course over-rules the para. 83 of the proposed Hookumnamah submitted by Mr. Parker in his letter of 20th March 1850. That Hookumnamah has not been sanctioned.-

Letters: 3d June 1850

4 In like manner para: 82 of the proposed Hookoomnamah has not been sanctioned. The Board are of opinion with reference to the provision contained in that para, that if land, classed as

Fort St. George 8th May 1854.

as Nunjah, is cultivated with Poonjah, want of water, that the Ryot should not be asked if he has raised one or two Crops, nor do they think that a Ryot should be required to pay extra if a Poonjah Crop is got out of Nunjah Land in addition to the ordinary Nunjah Crop. As a general rule, the demands of Government should be limited to the fixed assessment of the land.

5. Adverting further to Para 82 of the Rookonnamah abovementioned, the Board do not understand why a different practice should be allowed to obtain in some villages of the Melcotta Talook. Unless sufficient reason exists for this departure from an uniform practice, they request that it may be discontinued.

To, W. H. Bayley Esqr.
Secretary to the
Board of Revenue
Fort St. George.

Sir,

With reference to the Board's Proceedings of the 30th January last, I have the

B. No. 1760.
From the Coll. of Madura.
To Civil Judge 27th Feb. 1854.
Extract Pro. of the Civil Court 24th March 1854.

Sir,

With reference to my letter of the 17th February 1854, I have the honor to transmit copy of a correspondence with the Civil Judge on the question, whether, as the Erachanaikanoor Zemindary is now in possession of the Renter, to whom it was committed by the deceased Zemindar Chinnumanaik it is incumbent on the Collector, in executing the Precept of the Civil Court in favor of Veerakaummah, to oust the Renter and place Veerakaummal in actual possession.

This question it will be observed the Civil Court has answered in the Negative, I am able therefore to leave matters as they are, pending the instructions of the Board, without acting in disobedience to the Precept of the Court.

(Signed) R. D. Parker.
Collector

No. 1.

No. 173.

To, C. R. Baynes Esqre
Civil Judge of Madura.

Sir, With reference to the Proceedings of the Civil Court under date the 30th January 1854 I have the honor to draw your attention to Paras 24 & 28 of the Acting Collector's letter to the Board of Revenue under date the 6th September 1853, and in stating that the Erachanaikanoor Zemindary is in the possession of Chockalingum Pillay to whom it was rented by the deceased Zemindar to request to be informed, whether

whether, such being the case, I am competent to make over the Zemindary to Veerakammmaul according to the Precept of the Sub. Court of the 24th December 1853.

Madura .....
24th February 1854 } (Signed) R. D. Parker
Collector.

Extract from the Proceedings of the Civil & Sessions Court of Madura, under date the 24th March 1854.

Read motion No. 153 of 1854 presented by Annasastry Vakeel on behalf of Veeracammoo Ummal heiress of Respondent, deceased, in Appeal suit No. 20 of 1838 on the file of the late Court, praying for injunctions to the Collector to put her in possession of the Zemindary of Eraneckanaikmoor according to the Precept of the Subordinate Court.

Read also record of proceedings in the suit

Read also letter under date the 27th February from the Collector, explaining that the Zemindary is now in possession of the Lessee, and enquiring if he be competent to put it in possession of Veerakammmaul according to the Precept of the Subordinate Court.

1. The facts of this case are simply as follows. By the Decree in No. 20 of 1838, the right of succession to the Zemindary was declared to be in Veerakammmaul upon the demise of Chinnummal who was pronounced to have a life interest therein.

Upon the death of Chinnummal the Revenue authorities imagined that the estate ought to have escheated upon the death of the Zemindar, females being, they contended, incompetent to succeed to the estate. Upon the death

of Chinnummal they therefore assumed her to have held upon sufferance and decided upon excluding Veeracammoo ummal from the succession awarded to her by Decree passed in under a mistake as they would contend. Having done this, the next step was to consider whether they would allow a certain lease for years made by the said Chinnummaul to one Chockalingum to run out, or whether they would demur to its validity, it was resolved, to allow the Lessee to remain in possession, and he now has it.

Under these circumstances the Civil Judge is of opinion, that the Collector cannot be called on to put the Petitioner in possession. The Lessee's possession is derived from Chinnummal supposing the Revenue authorities had not interfered, it would have rested with Veeracammoo Ummal either to confirm and adhere to the bargain of her predecessor or commence proceedings for ejecting him, as holder of a worthless lease by a mere tenant for life and this course is now open to her. The Civil Judge considers the decree of 1838 to be sufficiently executed by declaring that the decision of the Government authorities in their own favor as to the title of Veeracammoo Ummal is of no force or effect, and that they must bring an action to upset her apparent title if they deny it. and that the Petitioner Veeracammoo Ummal

must

Fort St. George 8th May 1854.

must take such steps as she may be advised, or think necessary, against the Lessee Chockalingum who is accountable to her and to the Government.-

Ordered that Extract of these Proceedings be furnished to the Collector with reference to his letter of the 27th February.-

Ordered also that copy be sent to the acting Subordinate Judge for his information and guidance.-

B. No. 960.
From the Collector of Tinnevelly
Forwarding 6 Statements shewing the deductions from the Kistbundy Bariz on account of the various Religious charitable and Personal grants in his District with his opinion entered in the proper column of Remarks.-

Sir,

Para 1. With reference to the Board's Circular of 15th November 1852 and to Extract from their Proceedings of the same date, I have the honor to report upon the deductions from the Kistbundy Bariz on account of the various Religious Charitable and Personal Grants in this District, and to forward the six Statements listed in the margin drawn up in the form prescribed by the Board with the several Items duly classified as required, and with my opinion entered in the proper Column.-

1 Statement of Enams for services rendered in Pagodas.-
2 Do. of Do. for reading Poranums &c.
3 Do. of Do. for the subsistence of Brahmins.-
4 Do. of Do. for the Do. of Swamies.-
5 Do. of Do. Yeomiahs.-
6 Do. of Life Grants.-

2 In these Statements the 13 descriptions of Enams paid by deductions from the Kistbundy Bariz and adverted to in a letter from Mr Elton dated the 2d June 1847, and the Lands paying favorable assessment under the orders of Government dated 27th October 1851. and referred to by the Board in their Proceedings addressed to Government under date the 3d June 1852 are omitted. The subjoined is an abstract of the above Statements.-

3 Of the different classes of Enams mentioned in the above abstract the terms of the 1st Item require the holders to perform certain services in the temples, while the duties connected with the 2d Item are performed in Villages.

4 The Services for which these grants were made having been ascertained on reference to the Tahsildars to be still performed by the incumbents at present enjoying them, a search was made into the records and such of the grants as were found entered in the Lushington's list, in the Jummabundy accounts of Fusles 1211 to 1217, and in the registers of Messrs. Cotton, Hudleston & other former Collectors of this District are now entered under the Head of Service; and the others of which no Entries were found in the above Documents, though pronounced to be service Enams from the investigation of the Tahsildars, are now transferred from the head of service and entered under that of personal Grants. A reference to the old Registers shews that some

some of the grants considered by Mr. Cotton to be personal, were by Mr. Hudleston after enquiry and examination of the records, transferred to the head of service, agreeably to the Orders of the Board of Revenue dated 14th February 1822.—

5 With reference to the concluding part of Para 2 of the Board's Circular under reply, I have the honor to state that in this District there are no grants of a Religious nature, the performance of the Services connected with which, depends on previous permission to be granted by the Circar.—

6 The object of the grants in Item No. 2 is, to Educate Children. On the demise of persons enjoying these grants, if none of their heirs should be found qualified to render such service, other competent persons are employed. The grants of this nature amount to Rupees 1527 and bear a proportion of 1/8 to the whole amount of Enams in the District.—

7 The 3d and 4th Items were granted for the personal benefit of the Incumbents

6280 Fort St. George 8th May 1854.

Incumbents without any condi
of service, though some of the pres
holders appear from the Tahsildar's
to perform certain services, but in
absence of any documents in the
records to shew that the said gra
were made for any special servic
they are entered under the he
of 'subsistence'.—

8 The 5th and 6th clases of
which will later be Government
on the demise of the present hold
amount together to Rupees 4
about 9/12ths of the total amount
Enams in the District.—

Bd. No. 949

Proceedings submitting with observations a letter from the Collector of Tinnevelly respecting the payments made by deductions from the Allowance of his District.— dated 15th March 1852.—

Statement No. 1.—

Fort St. George 8th May 1854

No. 189

Resolved that the letter above recorded together with the six Statements which accompanied it be submitted for the consideration and orders of the Right Honorable the Governor in Council, with reference to Para 3 of Extract Minutes Consultation dated 18th October 1852.—

The 1st Statement comprises a list of 117 payments made to various practices for performing religious services in Pagodas. The Collector reports that he has ascertained that these services are still kept up by the incumbents at present in receipt of the allowances. The grants, amounting to a Total of 3500-2-... of which 2813-2 are paid in ready money are recorded in Mr Lushington's Register, the Jummabundy accounts of Fuslies 1211 to 1217, and the Registers of Messrs Cotton, Huddleston and other former Collectors of the District. The Board request the attention of Government to the items for which provision is made by Government as seen in Statement-1 and feel that they can hardly recommend a permanent payment from the Revenue for these purposes.—

The payments entered on

Examined

Statement No 2. in Statement No 2 are much the same as in Statement 1 but apply to Village rather than Temple service such as reciting the Vedas and Puranas, for composing Almanacs, and instructing (9) children; amounting in all to Rupees 1,451-5-- of which Rupees 908-2-- are disbursed in ready money - The Collector states that on the demise of persons enjoying these grants, if their heirs are not qualified to render the prescribed service, other competent persons are employed, so that such services are always maintained. He therefore recommends the continuance of these payments; but for the reasons above stated the Board cannot recommend their continuance beyond the lives of the present holders and they would observe that it is apparent from Mr Bird's letter (Para 4) that it is very probable that what were originally Personal grants have by the intrigues of influential parties been brought gradually to assume the name of "service" grants. Even in the present instance many are pronounced to be "service" Enams from the investigation of the Tahsildars.-

The

Statements 3 & 4 The payments embodied in Statements 3 and 4 are grants for subsistence to Bramins and Sooodras, amounting to Rupees 2,338-14-- and Rupees 32-10-- respectively, Rs 1,836-14-- of the former, and Rupees 19-2-- of the latter being ready money disbursements. The Collector recommends in regard to these payments, that such of them as have been enjoyed from a date previous to the year 1792, be commuted into grants of Land and the others limited to the life of the present holders. The Board however are of opinion that no grants for subsistence should become a permanent tax on the State and they recommend that all the Grants in Statements 1-2- and 3 be paid in each from the Treasury, but limited to the lives of the present holders.--

Statements 5 & 6 The items entered in Statements 5 and 6 are all payments restricted to the lives of the present holders, and amount in the aggregate to Rupees 4,963- as they will lapse to Government on the death of the present recipients, any remarks upon them is unnecessary.--

W.H. Bayley Esqr
Secretary to the
Board of Revenue

(61)

Bc No 641

From the Collector of Coimbatore ... } Sir,

Para 1 Adverting to para 3 of Extract from the Proceedings of the Board of Revenue dated 2nd December 1850, I have the honor to forward two Statements exhibiting the cultivated and waste portions of the different classes of Nunjah land in the Coimbatore and Cotacor Villages.

2 To facilitate reference I annex an abstract thereof below.

Forwards two Statements exhibiting the cultivated and waste portions of the different classes of Nunjah Land for in Ammacolie and Cotacor Villages from Fusly 1255 to 1260.

Fort St George 8th May 1854

Panjah

Fort St. George 8th May 1854

3 Punjah and Garden lands are shewn in the aggregate similar particulars being omitted to avoid lengthening the statements.

4 The Board and Government having deprecated any further discussion with reference to the reduction of dry assessment in the above two Villages, it is not my intention to review the subject. I think however that when lands are left fallow from circumstances over which the occupant could have no control a remission should be granted, and if he is not willing to hold the land because unprofitable, he should be permitted to give it up. such permissions highly desirable and will not be attended with much loss of Revenue. Should the Ryot be unwilling to give up the land of course it will be entered in his Puttah as directed by the Board.

5 The subject treated in para

E.B.C.

Fort St. George 8th May 1854

para 5 of the Board's Proceedings under reply, has since been disposed of and requires no explanation.

Coimbatore, 16th February, 1854.

/Signed/ E. B. Thomas
Collector.

No. 31.

To W. H. Bayley Esqre
Secretary to the
Board of Revenue

63

B. of R. 1286.

Sir,

From the Collector of Coimbatore } Adverting to para 2 of the Extract from the Minutes of Consultation dated 17th August 1852 conveyed in the Board's Proceedings of the 26th Ulto, I have the honor to forward, for the Board's consideration and for submission to Government, copy of a letter from the Joint Magistrate of Ootacamund recommending a Pony allowance of 10 Rupees to Pensioner O'Brien, Superintendent of Sholahs on the Neilgherries. The Serjeant is active and efficient and has done much to preserve the Woods and Forests, and cannot really do his duty without a Pony, which he keeps but it nearly swallows up his whole allowance.

Coimbatore Collectors Office } [Signed] E B Thomas
on Circuit Conover 17th April 1854 } Collector

Enclosure No. 1.

No. 179.

To E. B. Thomas Esqre
Collector of Coimbatore

Sir

I would beg leave to solicit your

6336.

Fort St. George 8th May 1852.

Your recommending Pensioner O'Brien Superintendent of Choultries, for an "Pony allowance" of Rupees 10 per Mensem to enable him to do his important duties still more efficiently. A Pony here can scarcely be maintained upon that allowance, and yet he has hitherto unavoidably kept one out of his present 25 Rupees. I think it very probable that the Office of "Staff Serjeant" having long ago reported that its duties are nominal although a Pony allowance attached to it. Thus a saving will probably accrue, out of which the allowance may be with advantage to the place, spared to the Choultry Superintendent.

Joint Mag.tes Office
Octacamund 12th April 1852

Fort St. George 8th May 1852.

No. 963

Proceedings thereon Resolved that the foregoing letter with its enclosure be submitted for the orders of the Right Honourable the Governor in Council, with reference to Extract Minutes of Consultation dated 17th August 1852.

In Cons 26th Aug.t 1852

2. As it appears that the Salary of Rupees 25 per Mensem allowed to Pensioned Serjeant O'Brien, is sufficient to enable him to do his work efficiently, the Board recommend that a further sum of Rupees 10 per Mensem be granted to him as Pony allowance.

3. The Collector represents that the Serjeant is active and efficient, and has done much to preserve the Woods and Forests

B.d No. 1417

From the Collector of Coimbatore

Sir,

In reply to Extract from

6338

Fort St. George 8th May 1854.

From the Board's Proceedings dated 13th February last, I beg to observe that I do not consider any of the Assistants there need be dealt with in the manner referred to by Government, they have all a good knowledge of the Language of the Province, and evince a real and anxious desire to improve their former acquirements in Telugoo.

2nd I do not think it would be for the good of the public Service to transfer such Assistants from the District where their local knowledge and connections are already considerable and valuable, to a new District where most of their previous Revenue, experience and local interest would be lost, every liability to be moved will prevent their taking much local interest and there is enough Tamil and Telugoo in Coimbatore to practice in both the languages

(69-70)

Order thereon. Ordered to be recorded.—

No. 61.

To

W. H. Bayley Esqr.

Secretary to the

Board of Revenue.

(71)

B. R. 1072.

From the Collector of Madras.

Sir,

I have the honor to acknowledge the receipt of your letter of the 28th Ultimo, intimating that the Board do not consider it necessary to call on Mr. Norton for 5 years' arears of Quit Rent in as much as he has only lately come into possession, and that the settlement of the amount to be charged on his land may be left till a survey of that locality is made. These instructions shall be followed. The Board are, I state for granted, aware that by the Order of the Honorable Court of Directors* the retrospective demand of Quit Rent is not to be made a general rule, [illegible] to

* C. O. P. 334 22 Sept 1846.

occupancy of the actual incumbent.—

2 The Board further ask for some Explanation from the Quit Rent Department why this land has been so long allowed to escape Quit Rent, & to satisfactory explanation can be given. The enclosure of the land in question has taken place long before the present Comicopoly and Amildar came into office. But there seems to from the Commencement to have been a defect in the practice of the Department, in not enforcing an annual Examination of all lands, not regularly paying Quit Rent. The excuse for the omission would, I believe be, that there was no clear Map or register to facilitate such an Examination. There is however no doubt that it might have been made.

3 These remarks apply to the land not included in any Grant.

For

6346 Fort St George 8th May 1854

For I do not think the Land Rent Department responsible for not objecting on its transfer, land held under a free Grant, unless the party so acquiring it applied to have the transfer registered.—

From the Collector of Madras.

To
W. H. Bayley Esqre
Secretary to the
Board of Revenue

Sir,

In reply to the Extract from the Board's Proceedings dated 11th Instant: Para 2, I have the honor to state, that I see no prospect of being able to supply Salt for Chittagong next year in addition to what is required to be kept on hand for Home Consumption. I would therefore suggest that the grant now referred to be cancelled again at the close of the

6347 Fort St George 8th May 1854

next Salt manufacturing Season.—

Order thereon Ordered to be recorded

No. 74.

To
W. H. Bayley Esqre
Secretary to the
Board of Revenue

75
B. No. 1310.
From the Acting Collector of Madras.

Sir,

In reply to your letter of the 20th Instant, I have the honor to state, that 324 Cawnies forming 648 Pans have been actually distributed at Pooloodewauk Rum, exclusive of about 20 Cawnies occupied by the Channel &c. They have been given to the following classes of persons.—

1 Merassidars of Pooloodewauk Rum.
2 Payacaries of Do.
3 Manufacturers of Cuttivauk Rum
4 Do. of Attiput and Emore.

About one half of the Pans, have been given to the above parties, and the rest to others, chiefly Merchants in Madras. The exact details of the distribution have however not yet been reported

Fort St. George 8 May 1854

reported by the Superintendent, No difference has ever been made in the Pans under this Office between Merassidars and others in the rates of Manufacture's shown not as any made now. All are to receive at the rate of 10 Rupees a Gaave.—

2 When this land was formerly worked, 85 Cawnies were converted into Pans, as appears from Mr. Cochrane's letter dated 17th January last, He does not mention the number of Pans, but in the Chingleput District the Pans at Vellore and Poyalore have been of the size of one Cawny each. It is supposed that the same size may have been observed at Poolondevanktum.—

Bd No 1322.

From the Acting Collr
of Madras

Sir,

With reference to the Extract from the Board's Proceedings dated 13 instant I have the honor to express my regret that I

Fort St. George 8th May 1854.

inadvertantly overlooked that part of the Board's remarks on the Summabundy report of 1265 which had not been replied to.—

2 The best explanation I can arrive at, is, that as the sum of 92-12 Pds had been collected by the Comiespilly and the Bills not forthcoming, it is omitted in the Villagewar Statement of demand actually outstanding as given at Para 14. But as the amount still stands as an arrear in the Demand Collection and Balance Statements of this Office until sanction be granted to write it off, it is included in the Amount shewn at Paras 15 and 16.—

I have,

6350 Fort St. George 8 May 1854.

Board to Govt dated 30 January 1840 Minutes of Consultation 7 April 1840 Boards Proceedings 7 May 1840.

3 The Board will observe in the records noted in the margin, that a defalcation to the amount of 95-6-3 Pr A P Pagodas though clearly proved against the same Conicopillay Runga Pillay, was pelinquished on the professional advice of the Advocate General that there was no probability of recovering it by legal proceedings The defalcation of 92-12-7 Pr A P Pagodas seems to have been discovered afterwards, when the Conicopillay had to account for the Bills in his possession

4 As certain Title Deeds deposited by Runga Pillay's securities are still in this Office, I do not think the recovery of the amount so helpless as would appear in Para 22 of Mr Andersons letter, I shall therefore call on Runga Pillay for payment and report the result to the Board.

Madras 25 April 1854 RDL

(Signed) H. Stokes
Acting Collector.

6351 Fort St. George 8th May 1854

B. P. 958 77-78 Proceedings thereon

The Board of Revenue will await the report of the result of the call on Runga Pillay alluded to in the last para of the foregoing letter, before submitting the case for the orders of Government.

To

The Secretary to the

Board of Revenue

(83)

Bd. No. 1854

From the Superintendent of Stamps

Sir,

With reference to an advertisement from this Office dated 20th March last and published in the Office Gazette inviting Tenders for the supply of Papers and Cadjans for the use of this Office, I have the honor to submit for the inspection of the Board four Tenders received by me together with the samples of the Papers and Cadjans proposed to be supplied during the next three years.

The

The rates at which the parties tendered are noted in the margin.

No.	Names	A mark per Ream	B mark per Ream	C mark per Ream	Cadjans per 1000	Total
		Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
1	M. Lutchomanarain	6 4 -	1 14 -	1 12 -	3 8 -	13 6 -
2	P. Verrasawmy	6 - -	2 4 -	2 - -	3 3 -	13 7 -

B.d No. 1152

From Messrs. Shand & Co.

Sir,

We have the honor to hand you the enclosed copy of correspondence that has arisen between the Collector of Sea Customs, and ourselves regarding the return of export duty levied upon certain packages of Old Beer Hogsheads shipped by us for Colombo Ceylon, and we beg that you will favor us by bringing to the notice of the Honorable Board, the claim

claim we have made for the restoration of the duty we have been compelled to pay by the Customs authorities.-

Madras

/Signed/ C. Shand & Co.

No. 1

To,

The Collector of

Sea Customs

Sir,

We have supplied by the Schooner "Royal Victoria" No. 148 for Colombo Ceylon. 250 Old Beer Hogsheads shooked for the convenience of carriage and comprised in 584 packages upon which we have paid an export duty of Rs. 141-5-1.

These packages having already incurred on the import duty and not being the manufacture of the Country, we trust you will consider the present application for a remission of the Export duty we have paid as entitled to consideration

Reply No. 51

To,

Messrs. Shand & Co.

Madras

Gentlemen,

I have the honor to acknowledge the

the receipt of your letter of the 25th Instant, and in reply to state that I am not permitted to draw a distinction between Hogsheads, and Hogsheads shooked

Sea Custom House.
Madras, 28th March, 1854. } / Signed/ W. E. Underwood
Collector of Sea Customs

To,
The Collector of
Sea Customs

Sir,

We have the honor to acknowledge receipt of your communication of the 28th Instant and beg to state in reply that we claimed the exemption from duty upon Hogsheads. The term shooked implies the same package taken to pieces. The entries at the Custom House were ordered for the number of bundles of pieces, it was necessary to state the manner in which the Hogsheads were shipped.

Madras, 6th April, 1854. } / Signed/ W. E. Underwood
Collector of Sea Customs.—

B. No. 936

Order thereon (85-86)

Ordered that a Copy of the foregoing letter be forwarded to the Collector of Sea Customs for report.—

Resolved that the following letters be despatched

No. 954

To,
The Chief Secretary to
Government.

(87)
B. No. 954

To the Chief Secretary to Government. } Sir,

In para 41 of their Despatch dated 1st July 1852 communicated with Extract Minutes Consultation of 7th December 1852, the Honorable Court observed that the rule rendering the personal attendance of all female pensioners, above the age of 60 compulsory, had been some time

C. O. 1st July 1850 Page 531

time in force, and desired to receive a report on its practical operation as with reference to the point whether it interfers with or offends the feelings of the Natives. In pursuance of this instructions I am directed by the Board of Revenue to submit the accompanying reports from the several Collectors on the subject referred to in the foregoing Resolution

2 It will be seen that in Malabar and Canara, there are no female Pensioners in receipt of allowances from the Public Treasury those referred to by the Collector of the latter District being incumbents

incumbents of the late Native Pension Fund.

3. From the reports received from the other Districts, it appears that in respect of Mahomedan Gosha females of respectable caste, the rule bears with peculiar hardship, and that in many instances they have preferred surrendering their allowances to appearing before the European Officers. The Collector of North Arcot states that none of the female yeomiahdars whose yeomiahs were stopped, pending their compliance with the above rule, have since appeared, and he remarks that no motive less powerful than a fear of personal degradation of some kind could have induced so large a number of indigent persons to abandon their livelihood. The Collectors of Trichinopoly and Nellore report that more than one half of the female yeomiahdars in their Districts have given up their pensions by non-appearance, and with reference to the female Poligar pensioners in Cuddapah, the Collector observes, "I believe nothing but starvation would in

induce them to appear before any of the authorities, and it is doubtful whether even this would compel them to do so, their husbands and forefathers being men of rank, they will not submit to what they consider a disgrace to their family. "Government are aware that in most Districts, exemption has been allowed from time to time in individual cases, to female Yemindars of the Mahomedan persuasion and others of high rank and position, so that it may be asserted that the rule is now complied with chiefly by females of inferior caste who are accustomed to appear in public.

4 The Collectors of Tinnevelly and Coimbatore report that in their Districts the observance of the rule does not in any way interfere with the feelings of the natives when carefully and considerately carried out. But a reference to the Statements submitted by them will show that in those

those Districts, there is not a single Mahomedan female in receipt of a Yemiah. Similar remarks may be made in regard to the reports from other Districts where the Yemiahdars are few, compliance with the rule has been exacted from them with more or less hesitation on the part of the local authorities. In Rajahmundry and Guntoor it has been usual to allow exemption to the females connected with the families of the Zemindars, but in doing so, the Collectors have probably exceeded their authority, altho those Officers have not failed to adopt measures calculated to prevent the abuse of that indulgence. In Masulipatam also it would appear that some have been exempted without the permission of Government.

5 The Board entertain no doubt that a strict adherence to the rule under discussion must be offensive to the feelings of females of high birth and respectability both Mahomedan and Hindoo, even when their

their examination is conducted in private houses in the manner stated by the Collector of Ganjam. It should be borne in mind that altho' the requirements of gosha are nominally cease at the advanced period of life, yet in reality, they are not so restricted, but extend to the whole of its duration, and that the system of seclusion observed by females is not founded upon any consideration of age, so much as upon a notion of dignity and rank. On the whole, the Board are of opinion that females who are not accustomed to appear in public (which fact can be easily ascertained by enquiry) should not be required to do so before the public authorities, and that Collectors should have the authority generally of dispensing with their attendance whenever that course may appear expedient, and no suspicision of fraud exists. The Board would therefore recommend that

that clause II of C. O. 1st July 1850, be rescinded, and that all cases to which that order is intended, to apply, be disposed of under the first clause thereof.

No 62

To, Lieutenant Colonel C. H. Browne
Secretary to Government
Military Department

Sir

I have the honor by order
of His Excellency the Commander in Chief
to

to submit the following subject for the con-
-deration and orders of Government. It is
detailed at length, by the Officer Com-
-ing the Southern Division, and correspond-
attached; Copy of which is hereto ann-
-ed, but the gist of it, lies within a very
small compass.-

Permission was granted by
Government in 1841 to hut the detachment
of N. I. at Negapatam, on ground near
Cutcherry.- This ground is the property of
Pago-da- held in trust by certain Natives
who agreed to the arrangement, on an ann-
-al payment of 6 annas per Goontah of 14
Square feet.- In 1851 the Officer comm-
-ing the Station, heedlessly allowed a
Mosque to be built on a part of the
Pagoda land, in opposition to the re-
-monstrances of the Hindoo party.-

Up to the present day, no
rent has ever been paid, and only re-
-cently has any motion been made
to have it paid. The Proprietors of the
Ground, refuse to rent the land on the

the Mosque is built, and demand the removal
of the building- The Collector has reduced
the demand for rent from the former charge,
to 3 3/4 pice per annum per Goontah, and at
this latter rate, the rent due for ground oc-
-cupied by the Sepoys from the beginning
of the transaction to the end of last year,
excluding the Spot occupied by the
Mosque; is Rupees 114-7-1- There is of course
no question, about the right of the Proprietors
to this Rent, but the point on which the or-
-ders of Government are chiefly solicited,
is the removal of the Mussulmans place
of Worship- That it should never have
been built is undeniable, and to the igno-
-rance of his authority on the part of the
Lieutenant commanding Negapatam; the
difficulty is to be traced.-

His Excellency recommends that
should the Mussulmen refuse to accede
to the wishes of the Hindoos, on the case being
stated to the Sepoys through the Officers
Commanding the Division, the question be
referred for decision to the Civil Court.-

Fort St George.

Fort St George 11th May 1854

No 100

To, The Quarter Master General
Sir, of the army

I have the honor to forward the following Statement of matters connected with the piece of Ground now occupied as Lines by the Detachment of native Infy at Negapatam, and to request, that you will lay the same before His Excellency the Commander in Chief, for His Excellency's consideration, and, if thought necessary, eventual submission to Government.

On the 9th August 1841, the Officer Commanding Negapatam, reported that the Detachment at that station, was divided into 2 parties; one being located on the Cutcherry, and the other on Ground a Mile and a half off; and suggested, that should all the men of the Detachment be quartered together, and the arms of the Detachment removed to the Barrackroom at the Cutcherry, the rent paid for hired Barracks in the Town, would be saved; he also suggested, that the additional huts which would have to be erected, might be built upon ground (belonging to the Allaghery Pagoda adjacent

Fort St George 11th May 1854

adjacent to the huts already standing near the Cutcherry. In answer to this communication the Officer Commanding Negapatam was called upon to ascertain whether the Collector of Tanjore, saw any objection to the measure proposed. The Collector of Tanjore stated, that the Manager of the Allaghyen Pagoda, had no objection to additional huts being erected on the ground in question, provided that a rent of 6 annas per annum, were paid upon each Coontah of 12 square feet, so occupied. The Officer Commanding the Division submitted the correspondence to the Quarter Master General of the army, and recommended that the proposed arrangement be sanctioned.

In Minutes of Consultation No 3653, Military Department, dated 21st September 1841; the arrangement for the erection of the huts upon the terms agreed to by the Proprietors of the Pagoda Land, was sanctioned.

The Officer commanding Negapatam reported, on the 21st March 1842, that

Fort St George 11th May 1854

that, in accordance with the resolution of Government, the Lines and Barracks in the town of Negapatam were given up on the 31st Dece 1841, and the whole of the Detachment concentrated at the Cutcherry.-

It appears that no rent has ever been paid for this ground up to the present time, but, on the 10th September 1853 the Officer Commanding Negapatam forwarded a copy of a letter from the Collector of Tanjore (Copy of which, marked A is appended) and requested that the Officer Commanding the Division would endeavour to obtain from the Government, a grant of the land in dispute.-

He also stated, that he believed the object of the Proprietors of the Pagoda Land, was to have the Mosque pulled down; and that this act of deference to their religious prejudices would cause all further dispute on the claim for rent, to be waived

The Officer Commanding Negapatam was then called upon to state whether there was any record in his office of the

Fort St George 11th May 1854

actual extent of Ground originally taken up under the Minutes of Consultation, for the Lines of the Detachment, or of any points connected with the matter, and he, on the 9th November 1853, states that there is no records whatever of the extent of land occupied, that the Mosque is within the limits of the Lines, and is surrounded by a prickly-pear hedge, that the land on which the Lines are situated measures as about- Road front- 125 yards.-

Back, paralled to the road and inclusive of Tank, 141 Yards.

Depth of the Lines 183 yards.

The Tank, which is close to the Lines, is about 210 yards in circumference and is at the back of the Mosque. That the Ground upon which the lines are built abuts upon the Nagore road.-

That the Mosque measures 5 yards by 10.-

That the Mosque compound measures about 45 yards each way.-

The

The Officer Commanding Negapatam likewise states, in the same letter, that the rent as far as he can ascertain had never hitherto been claimed, and would appear to have been merely nominal

Upon receipt of this communication I requested the Collector of Tanjore, to furnish me with any information in his power, regarding the disputed land, and a Copy of his reply /marked B/ is appended. Copy of another letter subsequently received from the Collector, and marked C, is likewise appended; and the Original Tamil Petition received with the last quoted letter is attached to the Copy of the same.-

It appears to me, upon a careful consideration of the whole case, that the Ground upon which the Lines and Mosque have been built is the ground for which the Proprietors of the Allaghyen Pagoda agreed in 1841, to receive rent, and which rent, has never been paid, although claimed subsequent to the erection of the Mosque the matter appears to me to be one entirely of religious intolerance on the part of the proprietors of

of the Pagoda; for, had the rent been an object to them; they would long ago have made their claim heard, and that loudly; their subsequent reduction of their claim for rent from 6 annas per Goontah to 3 3/4 Pice, confirms me still more in this my view of the case, and I therefore believe, that the decision of Government, as to whether this Mahomedan religious building, once suffered to be erected, is to be demolished, will be necessary, as the peculiar nature of the case precludes myself, and probably also the local Civil Authorities, from authoritatively interfering with a matter so intimately mixed up with the religious feelings of both the parties concerned.-

A
No. 511.

To The Officer Commanding
Detachment Negapatam.

Sir, A dispute has been long unsettled regarding the occupancy, rent free, by the Sepoys of the Detachment at Negapatam of a Piece

Fort St. George 11th May 1854.

Piece of land belonging to the Alagaya-
=naden Pagoda in Cundenbady, and as it
is desirable that a final settlement should be
made, I have the honor to address you on the
subject.-

The dispute, as to part of the land,
dates back to 1841 when the Sepoys first-
erected huts upon it, and as to the other part
on which a Mosque was there built, it dates
back to 1851- The representatives of the Pagoda
to which the land belongs, have all along
opposed its occupation rent free, and have claim-
=ed various sums as rent, which it was finally
arranged should be fixed at 4 Pice per Mos-
=sem for each hut erected, but the rent has
never been paid.-

In 1851 some Mosselmans of
the Detachment, built a Mosque on another
piece of the Pagoda land, in opposition to the
remonstrances of the Owners, and in support-
of this act, a document has been produced
of which I enclose a translation. This
purports to be a Deed, confirming the
land to the Mosque, but you will see, that
it is simply a transfer from one Mussulman
to another, that no reference whatever is made
to

Fort St. George 11th May 1854.

to the Owners of the land, that their signa-
=ture is not appended to the document, and
that it is consequently utterly valueless.-

If no amicable arrangement of this
dispute can be effected, it must be brought be-
=fore the Civil Courts where it appears inevi-
=table, that the decision must be in favor of
the Pagoda.-

'B
No. 1.

To,
The Officer Commanding
Southern Division.

Sir,

In reply to your letter dated 22d November, I have the honor to inform you

now that upon a measurement of the land referred to, the whole extent occupied by the Sepoys is 5 Inches — 9 Gts 6¾ or 59 6¾ Goontahs of 12 Square feet, from this 113 Goontahs must be deducted, as being land occupied against the consent of the Proprietors, leaving 483¾ Goontahs, for which, rent is now claimed. Of this 332 Goontahs are built over with huts while 157¾ Goontahs are unoccupied by buildings, but are in use by the Sepoys, as being land within that occupied by their huts. An arrangement has been made with the Proprietors by which they have agreed to limit their demand to 3¾ Pice per year per Goontah: which will amount omitting fractions, to Rupees 9—6—6 per year for the whole land in the occupation of the Sepoys. The claim for rent, dates back as far as October 1841, and with the exception of the 113 Goontahs deducted above, the whole land for which rent is claimed was in the occupation of the Sepoys long before that year and the Proprietors desire to have the rent paid to them at the rate above shewn viz.t.—

Rupees

Fort St. George 11th May 1854.

Rupees 9—6—6 per year from the begining of November 1841 or Rupees 114—1—1 up to the 31st of December 1853.

The rate of payment now agreed upon, is much lower than was originally demanded; and appears just, and fair. The 113 Goontahs mentioned above, as having been taken possession of by the Sepoys against the consent of the Proprietors, is occupied by a small Mosque, which was erected by the Sepoy who occupied the Ground and a Garden adjoining it in 1851. This land the Proprietors refuse to rent.

Referred to the Revenue Department.—

(By Order)
(Signed) C. A. Browne, Lieut. Colo.
Secretary to Government.

(A true Copy)
(Signed) I. D. Sim
Deputy Secretary to Government

From the letter from the Quarter Master General of the 2d Ultimo and its accompaniments refered to the Revenue Department in the above Extract, it appears that in the year 1841 it was arranged that the Sepoys of the detachment of

Fort St. George 11th May 1854.

of Native Infantry quartered at Negapatam should be hutted on a piece of ground belonging to the Ablaghyem Pagoda of that place. The extent of land occupied for the purpose was 483 3/4 goontahs, and the rent agreed on with the Pagoda Manager, 6 annas per Goontah, or Rupees 181 per annum. Rent however has never been paid for any portion of it. It is stated in the letter from the Quarter Master General following that of the Officer Commanding the Southern Division, that only recently has any motion been made to have it paid. The Collector on the contrary states that the representatives of the Pagoda to which the land belongs have all along opposed its occupation rent free, and have claimed various sums as rent, which it was finally arranged should be fixed at 4 pice per mensem for each hut erected, but this rent too has never been paid. In a subsequent letter the reduced rent which the Bramins have agreed to accept is stated at 3 3/4 pice per year per Goontah or omitting fractions Rupees 9-8-6 per annum for the whole quantity Goontahs 483 3/4 occupied at which rate the arrears from the beginning of November 1841 to the 31st December last will amount to Rs 114-7-1.

From Collector 2nd January 1854.

25th August 1853.

From Collector 2nd January 1854.

Fort St. George 11th May 1854.

2. In 1851 some Mussulmans of the Detachment of the 29th Regiment N. I then stationed at Negapatam, with the permission of their Commanding Officer, Lieutenant Foote, built a Mosque on a small piece of land adjoining the hutting ground. The land occupied for the Mosque was 113 Goontahs. It was first taken in 1851, and the Mosques built in opposition to the remonstrances of the owners, who refuse to rent the land, and have lately presented a petition praying that it may be freed from the incumbrance of the building on it.-

3. The Right Honorable the Governor in Council observes that it thus appears that the Mosque in question is of very recent erection, that it was built without any competent authority, and in defiance of the opposition offered by the Proprietors of the ground. It is proposed in Lieutenant Colonel Reed's letter that should the Mussulmans refuse to accede to the wishes of the Hindoos on the case being stated to the Sepoys this the Officer Commanding the Division the question be referred for decision to the Civil Court. The Governor in Council however agrees with the Collector that if such

25th August 1853

such reference be made the decision must inevitably be in favor of the Pagoda, and instead of throwing upon the Trustees the onus of resorting to legal proceedings, he resolves to direct that the Collector will ascertain from them whether they are still averse to the ground being occupied for the Mosque on a fair rent being paid for it by the Sepoys, and if they still refuse to allow its occupation, that he will in communication with the Officer Commanding the Southern Division take measures for removing the Mosque and restoring the land to the Trustees. The Collector will assign to the Sepoys another piece of ground as a site for their mosque if any be available in a suitable locality.

4. No reason appears for the rent of the land 4833/4 Goontahs having so long remained undischarged. The Collector will pay to the Pagoda Managers the arrears at the reduced rate which they have agreed to accept, amounting to the close of the past year to Rupees 114-7-1, and will pay them at the rate of Rupees 9-6-6. per annum regularly for the future.

Lieutenant

5. Lieutenant Foote Commanding the Detachment of the 29th N. I. at Negapatam in 1851 will be called upon thro' the Military Department for any explanation that he may have to furnish of his proceedings for having allowed the ground to be taken and mosque erected without authority, and in opposition to the wishes of the parties owning the land.

B. No. 1531.
From the Ag. Collector of Ganjam - - } Sir,

As requested in your letter of the 6th April last I have the honor to submit the following replies to the queries therein contained, the information is not quite as full as I could wish but as you are anxious to get it early I think it better to send it at once and shall give full particulars hereafter if obtainable -

Query
Ganjam -
Munsoorcotta
Nowjadu
Womereilly -

1st Salt is Manufactured at four Colairs on the large flats at some short distance from the sea where the soil is of a clayey consistency - In Ganjam the Lands are closely hemmed in by cultivated lands.

At Munsoorcotta they run up about into the back yards of the Villagers at Nowjada they are nearly surrounded by sand and Swamps but on one side run up very close to

Fort St. George 11th May 1854

to the fields. At Womereroilly they are much
removed and surrounded by salt water
swamps. The average produce for 10 years
has been 31,7980-5 Bengal Candies per annum.

I cannot give you the exact extent
of the land occupied at each pans, but have
sent orders to have them measured and
will furnish you with the result,
as also the amount of salt made on
given area. The Ganjams, Nowpada and Wo-
-mereroilly pans could be much enlar-
the two former might be doubled I think.
There were formerly pans near Itchapo-
the quantity of salt made there was on
+average Bengal Candies 20,355, these
pans were given up, as the Ryots alle-
were such Confirmed Smugglers, but of
Course the Capability remains. Further
South near Alagaranum between Now-
-pada and Womereroilly there is a
large tract of land, apparently well
adapted

+of 4 years

Fort St. George 11th May 1854

adopted to produce salt and probably in others
parts of the district, in the Zemindaree lands simi-
-lar spots could be found, but not many-

2d The Manufacturers are of the Castes
noted in the Margin; Brahmans, Chetty's
Men of the Telugoo and Mahommedans are never
engaged in the work, they have the same right
to their pans that a Ryot has to his field, and they
are handed down from father to son, and
sometimes sold or made over to others for a Con-
-sideration. Just before the season Commences
agreement is entered into with them to
manufacture whatever quantity may be re-
-quired for the year's Consumption at most
pans they get a small advance, when they
begin work, the rates of Remuneration vary at
different pans, I must say in some with good
reason, the rates are noted in the margin.
The Ryots are paid after the salt is measured
and stored, generally by one of the assistants
Collectors. They forfeit their rights, if they
are

Reddikus.
Oreya Soodra
Pariahs and
also people of
other low Castes.

At Ganjam 6 Rs.
Munsoorcotta. 7 "
Nowpada. 4. "
Womereroilly. 5. "

Fort St. George 11th May 1854

are Convicted of smuggling at Nonpadu
there are a set of men called Jematdars or
men in fact who themselves work but they
they look after the ryots in their Jemat, Su-
perintend the measuring and storing of the
salt &c.a all the Ryots of a Jemat put their
salt in one heap, they share, and share
alike at the other pans, each ryot looks
after his own interest, and is paid for
the salt he actually produces-

In most pans the storing heaping
and thatching is done by the producers
Gairjam Government pay extra for this
the straw for thatching is supplied by
Government-

3d There is no earth salt properly so call-
made in this district as far as I know,
but the sand impregnated with salt is
taken in very large quantities and boiled
down, the salt thus produced is said to
be better for salting fish, than that made by

Fort St. George 11th May 1854

by evaporation- The price is Rs.a 1-4 per
a P
mercal- Last year during the great heat there
was a large quantity of spontaneous salt
taken off the ground near the pans and
stored at Nonmercially, the price given for
it was half the Regular Cost per Garee- The
Crystals being large and well dried, this
salt bears Carriage well, and is much
liked by the Brinjaries-

4th The mode of Manufacture va-
ries at each pan according to the soil and
Custom of the place, the most approved
method is to prepare the small pans by
puddling up the mud, then smoothing and
beating it down and letting it dry and
harden a little, advantage is taken of the
highest spring tides and the bars are if ne-
cessary opened to admit the sea water into
the backwaters, these bars are then filled
with straw and sand &c.a and the water dam-
med up- This water is then let into

large

large Reservoirs where it is allowed to
stand 3 days, it is then drawn off into the
small pans which are filled about 4
inches deep in some pans. Nonjada for
instance, this stands for 5 days, but in
others it is taken off daily. It is then gathered
up in heaps to the sides of the pans, allowed
to drain a little, and then carried to the plat-
form and put on the Ryots heaps, and when
a large quantity is ready, the proper officer
proceeds to measure these private heaps
and takes them into store on account of
Government, the salt is stored in heaps
of 10 Garce, and is thatched with straw.
The size of the Crystal and its hardness
depends much on the nature of the
soil, and the time it is allowed to
stand. The Nonjada Salt is the
best in this district. The salt is stored
on earthen platforms raised several feet
above the level of the surrounding country
but

but in heavy Rains the heaps suffer much
from the water that falls on the platforms,
each heap is thatched and numbered, they are
in lines with about 2 feet between each heap-
The accounts are as follows during the Cropping
season a rough estimate is made of each days
Receipts and sent in to the Collector, when the
Salt is measured it is entered on the account
and a Receipt for it given to the producer-
The storing is inspected from time to time
by one of the European officers, and heaps are
measured at various times during the year,
to check the Goomastahs from entering undue
wastage in their accounts, a daily Report of
the sales is sent up, and the accounts kept in
a book, the leaves of which are numbered,
and each stamped with the Collectors name
to prevent alterations. The parties Requiring
Salt give their money in the first place to
the Shroff, who gives them a Receipt and
order for the proper amount of salt, this

is

Fort St. George 11th May 1854

is taken to the platforms, and the salt there measured out to them -

5th Salt is never sold by weight except for shipment - Government have lately granted permission to parties to export salt to Calcutta as a special favor in hopes of inducing them to import grain, but none has as yet been applied

6th During the Cropping season there are a certain number of peons always on guard at each platform to protect the salt, the peons are watched by additional peons, but the established number is utterly insufficient for the purpose. The Golah peon has special Charge of this, and goes his rounds at night to see that the peons are on the alert - The Gomastah also goes Rounds, and sees that the Golah peon does his duty - In the event of spontaneous salt forming on any of the swamps near the Sea, the Cattle of the neighbouring Villages are

Fort St. George 11th May 1854

are collected and driven backwards and forwards over it, and the salt is thus destroyed, each buyer on leaving the pans is furnished with a pass, containing the amount of salt, how carried, and where going to, with the number of days for which it is to hold good entered on it, without this, salt is liable to seizure -

No 149 of 8 June 1853
No 158 of 16th July Dto

As explained in two letters to the Collector, Copies of which I annex, the Establishment in this District is very inefficient, and miserably paid, at the Huzzoor office there is no Servant specially set apart, as in most districts, to superintend the accounts, there is one Goomastah who has also to look after the stamps and transact accounts - At each pan there is a Goomastah whose pay varies from Rs 20 to Rs 30 - He has the Charge of the Cash Chest, the Manufacture, measuring, keeping, and selling the salt, the whole Responsibility rests on him, tho' generally he is assisted by one of the Huzzoor Servants, during the

Fort St. George 11th May 1854

the time of taking the salt into store. The next is the Curnum who writes the daily accounts of sales &c., his pay is from Rs. 5 to Rs. 7. His business is to receive and examine all the money that is paid in by purchasers. The Golah peon has charge of the platforms and pans and peons appointed to watch them, under him are duffadars and peons according to the size of the pans, these peons have also to escort the Remittances twice a month to the Purroor treasury. The money is usually carried by the Measurers, but if the sum is large it is sent on a bandy. The number of measurers varies according to the extent of the + pans. I send with this a ‡ list of the establishment at each pan with the rate of pay of each grade, and the amount of security required from those in the first grade, which is very heavy, as compared with the pay.

+ These Men are employed to measure the Salt when stored or sold, they also repair damages done to the heaps by rain or storms.

‡ No. 1.

Fort St. George 11th May 1854

8th I am obliged to confess that I believe the extent to which smuggling is carried is very great indeed, tho' every exertion has been made to check it. Large quantities of sand is collected, and boiled to be used in salting fish, this is done by women and Children, and being easily obtained all along the Coast, it is nearly impossible to stop it, but this is the most venial of all smuggling, large quantities of salt are clandestinely brought from the pans at night, by the Ryots, and stored up in pits in their houses, and back yards, this is sold to the Vanjaries and others, and mixed with that sold at the platforms. Two years ago Mr. Fraser discovered a large quantity of salt made near Ithapore, on the site of the old pans, the temptation is very great to smuggle, and when the Cost of the article and its selling price, are Compared, it is not to be wondered at, that it should be very prevalent. Parties frequently use a

Fort St. George 11th May 1854

a good pass to cover smuggled salt, they buy a quantity and get a pass, say for 10 days this is sold in the district or hurried through the sellers then buy from the smugglers a similar quantity and if stopped at once produce the pass. Large quantities are also brought by women in baskets and sold at the small markets, or to the Hamlets in the numerous little villages. In general the parties engaged in this traffic are of the poorer class, who care little for a confinement of 10 or 20 days, or they are persons able and willing to pay for protection. I have invariably obtained the reward of 1/3 the value of smuggled salt for the Captors. I have but seldom effected any large seizure. It is the duty of Police and Revenue Servants to examine parties passing through their station with salt and to stop and Report all cases where the quantity does not agree with the pass but the Kinjaries who are or the great Exporters take the most unfrequented

unfrequented Routes thro' the jungle for the sake of their Cattle and avoid such stations. I am sorry to say that the Talook Servants are very remiss in this duty as they have so many other matters to attend to and do not look on Salt as actually under their Charge.

9. Salt is sold at the Cotaurs to all Comers, the lowest quantity that can be sold is 5 Measels to a purchaser, taking a whole bag a deduction of 5 per Cent to cover wastage is allowed. It is almost impossible to state with any accuracy the amount of salt consumed in this district. The Kinjaries as they go along barter it for grain and straw &c for their Cattle and for rice for themselves In large Villages the Komitties keep salt on hand which they get as required from the pans and many gain a livelihood by buying salt at the pans in small quantities and carrying it for sale to the various markets alone. The salt account shew that in the last ten years the quantity sold for home Consumption was 39,373-15-8 Maunds which yielded

yielded Rupees 39,279-11-2 on deducting Charges
a clear profit of Rs. 37,030-6-3 for external
Consumption the quantity was Bengal Maunds
26452g-28-1 value Rupees 26,1881-8-3 net
profit 24,6,890-1-6 no foreign salt is used
the salt is much impregnated with sand
and some dealers do not hesitate to mise
it with saline earth. Dr. Fraser is making
experiment on this point, the result of which
shall be reported. The quantity of salt Consu-
-med in the house of a Brahmin of mean
good means averages at 2 tolas per day
per head, or about 9 Bengal Seers per
annum - a Coarser or Ryot will Consume
about 1 Country Seer of salt in 50 days or 7
Seers per annum, and this may be taken
as a fair average -

10th Since June 1224 or A.D. 1816 no salt
has been exported by Sea or given to the
French Government, before that, salt was
shipped from the district to Calcutta -

11th Annexed is a memo of the mootage
at

at each farm for the last 5 years. The mootage
depends very much on the nature of the soil
on which the salt is made and if salt
is stored too soon after it has been taken
out of the farms before it has had time
to drain, the waste is large -

No. 3 12th The accompanying table will show
the cost of each garce to Government for ten
years to be 6-6-2. Under the head of Sundries
is entered the various petty expences for
Releasing a number when escamined by a
Government officer, petty Repairs to the heaps
and farms, opening the bars, expences -
incurred in the Repairs, tools and trans-
-mission of Money to the Treasury -

13th It is somewhat different to state
with accuracy at what cost a Ryot could
make salt on his own account. It is a
work that in most places must be done by
a large number of persons acting in union.
The expence of preparing the farms per Acre is
estimated at 2 annas 9 pice per garce
to this must be added the labour for 4

on

or 5 months, this would be about 9 Rupees per man, each man on an average makes 3/2 garce so that he could sell his salt at 3/2 Rupees per garce, and make a trifle of profit, I shall be better able to answer this when I know the quantity of salt produced on a given area -

I annex a statement showing the highest and lowest and average payment to the ryots at the various pans last year - It must not be forgotten that the salt rypt has generally Cultivation besides the other

Names of Cotaurs.	Number of salt manufacturers.	Total average amount of Rents per each Inhabitant.	Payment per each Inhabitant.	Highest amount.	Lowest amount.

* Those two have the largest number of Inhabitants
† Having both the largest number of Inhabitants and the greatest number of Cultivators

Regarding no great attention from March to June - I hope in a short time to be able to furnish the Board with the information

information in which this letter is defective - and also with a letter which Dr. Fraser has under preparation, Mr. Fraser has had much experience having had charge at various times of all the salt pans in this District -

Ganjam District, — — —
Collector's Cutchery — —
Chutterpore 25th April 1854

Signed H. Hoose
Acting Collector

No. 149

To A. P. Anslow Esqre
Collector of Ganjam -

Sir,

I have the honor to acknowledge
Para 1 the receipt of your letter and Extract from
Proceedings of the Commissioner Northern
Division directing me to watch and report
on the operations of a season and the advan-
tage to be derived from an increased price
being paid to the Nonjada salt Ryots
for the manufacture of salt Having
given my best attention to the
subject and having for some
time

time been satisfied that there must be an increased quantity manufactured. I hope I shall not be thought presumptuous in at once replying to the Commissioner's enquiry as it is desirable that the two questions should be settled at the same time—

2d. I beg leave then to state that I consider the present Remuneration insufficient, the Ryots have often told me it was so, and but lately I had an urzee from several of them complaining that they wanted to leave the salt and go to their fields. Their great gains are from stealing for I believe it pays them to make salt at the present Rate only as then there is nothing else to be done and the Consequence is that it is difficult to get them to begin work sufficiently early in the season and to continue it till salt enough is made. I think too it will lead to check smuggling as the Right of manufacturing will be of greater value and so less likely to be risked, but I confess I do not expect this increase will be more than

than a partial check indeed I am at a loss to suggest a remedy for the frauds and Robberies that exist. The temptation is too great to be easily withstood. When an article the manufacture of which costs 3 or 4 Rupees is sold for 120 Rs. there must be great smuggling. There are Remedies which will however in my opinion tend to check the evil Viz. an increased establishment and an increased manufacture of salt. In the first place I beg leave to submit that the payment of 30 Rupees monthly to a man who sells 2 Lacs of Rupees worth of salt is quite insufficient to insure a good and honest man. The responsibility, the exposure to the sun, the constant vigilance required joined to the bad pay and great temptation renders the salt department one generally shunned by the more Respectable servants and I cannot but think that were the pay of Salt Goomastahs put on a footing with Tahsildars and raised to 100-75 and 50 Rs. Government would in the end be gainers. The present establishment of

of pans is also quite insufficient to match the pans during the manufacturing season, you have already had Complaints from the peons of the security of the work. The men are so scattered they cannot assist each other and so the salt dealer escapes or there is ground for this excuse.

3d. I beg leave therefore to suggest that application be made for sanction to employ forty watching Peons and four Duffadars during the Cropping season, this would enable me to establish 4 or 5 stations on the borders of the pans from which patrols could be sent out and assistance be given and plunderers Cut off when Chased out of the pans by the watchers.

4. In the second place the necessity for an increased manufacture is very obvious, we have been enabled to meet the demand at Nowpadah and Womaravilly and this demand appears to me likely not only to be permanent but to increase owing to the

the quiet that prevails in the hills, the market the Kurnjaries are finding for wheat at Co: = Lingapatam and also because no salt is generally the return load taken by the handy men who bring rice &c. to the sea Coast. the more our export trade flourishes the more salt will be required from these pans as men with return bandies will be able to undersell those who take empty bandies to other Cotars, but there is another very strong reason, it is that when the manufac: = ture and sale of new salt are simultane: = ous there must be fraud as it is impossible to distinguish between that produced at the pans and that smuggled, a difficulty that no longer exists if old salt only is sold.

5. The proposal which grounded on these Considerations I now submit is to make a third platform at Nowpadah with pans Capable of producing 500 to 600 Garces of salt. you are aware that there were formerly

of pans is also quite insufficient to watch the pans during the manufacturing season, you have already had Complaints from the pans of the security of the work. The men are so scattered they cannot assist each other and so the salt dealer escapes or there is ground for this excuse.

3d I beg leave therefore to suggest that application be made for sanction to employ forty watching Peons and four Duffadars during the Cropping season, this would enable me to establish 4 or 5 stations on the borders of the pans from which patrols could be sent out and assistance be given and plunderers cut off when Chased out of the pans by the watchers.

4th In the second place the necessity for an increased manufacture is very obvious, we have been enabled to meet the demand at Nowpadah and Womarawilly and this demand appears to me likely not only to be permanent but to increase owing to the

the quiet that prevails in the hills, the market the Guinjaries are finding for wheat at Cuddalore and also because as salt is generally the return load taken by the handy men who bring rice &c. to the sea Coast, the more our export trade flourishes the more salt will be required from these pans as men with return handies will be able to undersell those who take empty handies to other Cotars, but there is another very strong reason, it is that when the manufacture and sale of new salt are simultaneous there must be fraud as it is impossible to distinguish between that produced at the pans and that smuggled, a difficulty that no longer exists if old salt only is sold.

5th The proposal which grounded on these Considerations I now submit is to make a third platform at Nowpadah with pans capable of producing 500 to 600 Garces of salt. You are aware that there were formerly

Fort St. George 11th May 1854

3 platforms one of which was put down when
under Mr. Conway's Charge on account of the
many thefts that took places For the watching
of this platform an increased establishment
will be needed more especially during the
time of making the salt, when an extra
Curaun will be wanted to be present at
the daily deliveries at the third platform,
say for 6 months each year from 1st February
to 31st July. I beg leave also to propose that
there should be one Golah peon to each
platform at 10 Rupees each and I should
like to retain the one at 15 as general
Superintendent as at present. The num-
=ber of guard peons will be the same as
on the other platforms. The total expen-
=diture is shewn in Memos marked one
and two annexed to this letter.

6th Shake this opportunity of Calling
attention to the fact that the Sea Treasury
Guards peons at Nonpadah are paid
only 2/12 whereas those at Monaravilly get 3/12

at this

6433. Fort St. George 11th May 1854

at the there is less smuggling and less riots as
the Chief customers the handy men are not
so disposed to be quarrelsome and trouble-
-some as the Brinjaries are, I would there-
-fore I think be an act of justice to raise
the pay of the Nonpadah men. should
these proposals be approved of by you
it will be desirable to apply for sanc-
-tion at once so that the works may be
began and the platforms prepared as
soon as the next Rains are over.

7. If it is determined to raise the
Rate paid to the manufacturer and to
add a third platform it would be well
to make it a sine qua. now that the Ryots
should alter the large supply Channels
digging them say 6 feet deep and 8 broad
and by keeping them on the outside of the
pans they would form very good fences diffi-
-cult to get over. In taking this proposition
and that for an increased number of peons
into Consideration it must not be forgotten

that

that it is from the sans not from the pfat: form that the Ryots carry off the salt. from the latter it cannot easily be removed without the Cunnivance of the Goomastah.

8. I will only trouble you with one more suggestion viz.t that much greater strictness be used in endeavouring to obtain the Return of Passes issued to prevent there being used a second time to cover smuggled salt, I think it would be a good plan if the passes for salt sent to foreign states were to be delivered up at the frontier or at all events that the number of days for which the pass holds good be limited to the time required to reach the Cotaurs of the Company's territory—

9— I now beg to apologise for the length of this letter for which the importance of putting a stop to the peculations in this Department and of raising the salt Revenue to its full extent will I hope be deemed a sufficient

No. 158

To A. P. Onslow Esq re

Collector of Ganjam-

Sir,

Para 1 I have the honor to acknowledge the Receipt of your letter giving Cover to an Extract from the Proceedings of the Commissioner Nor: Circars Division dated 23d June 1852 and Calling for any Remarks I may have to offer on the storing and the amount of wastage of Salt-

2d In the first place I see no great objection having all the salt stored before the 12th of July, it cannot be done without increasing the pans or Reducing the quantity made- It has been my practice to carry on the manufacture to the last moment, that the weather will permit and Complete the storing one such fine days as offer after the Rains have begun thus last year salt was made at Nowpadah up to the 9th July the storing of which was not Concluded till July 31st. It is to be observed that if salt is not allowed to drain some 4 days

Fort St. George 11th May 1854

days on the pans the wastage is very great-

3 Since I have been in this District all the salt made at the pans under my Charge has been sold within the first year I cannot therefore speak from actual observation of the amount of wastage on the 2d 3d and 4th year but I am satisfied I have seen here and from what I Remember of the Results of Examination at Rajahmundry that the Chief Loss occurs when the salt is stored- The wastage under the old rules can in no way be depended on for the measure were supposed to be struck two fingers above the brim when the salt was taken into store when sold to the Brinjaries they got as a license one finger above the brim, whereas for home Consumption it was struck close as at present, so that a heap measured to Brinjaries ought to have shown much greater wastage than one sold for Retail in the district-

Last

4th Last year on the introduction of the new rules I paid much attention to the subject of storing and had several heaps stored in my presence. these were kept till after the rains and were then remeasured by me. other heaps taken indiscriminately from those stored by the Goomastahs were also measured the result as shown in the Margin gives a per Centage of 4-118-11 for Nompadah and 6-333-11 for Nummaramilly where the salt is not so good. The salt at the Sheeramoolee platform is of a larger and firmer grain that that of the other, pan owing to the difference of the soil and the wastage is less by about 18 Morcals per heap, the wastage for the past year is 4-107-4 per cent at Nompadah and 6-50 at Woomaramilly. The per Centage of the heaps measured by me at Wummaramilly was somewhat large, two of them having suffered much from the weather. This year and next

6 Heaps on Sheeramoolee Platform					2 Pans
4 " Sheeramoolee Go Do	"	4-20-16	on	1	Pan
10 " Nompadah	"	6-22-10	on	2	Pans
		4-26-36			
	on	4	=	4-Years	35 Morcals
3 Heaps at Woomaramilly averaged		6	=	6 Years	wastage
	on	5	=	5 Years	99 Morcals

I fear the wastage will be large until the earth on newly raised platforms has settled down well altho' they have only been raised this year a foot and a half high it is difficult to get so large a surface rammed down thoroughly but in future years I think the average wastage ought not to exceed that recorded above.

5 In the same letter you are good enough to ask for my observations of the expediency of acting up to Rules 3 and 4. Rule 3 is carried out as far as possible, no salt is carried to Government account except by measure but a daily Report is sent in of the quantity produced as Estimated from the number of baskets full brought to the platform without which the officer in charge could not check delay in the manufacture or stop the work when sufficient salt was made. I cannot without some diffidence

diffidence express an opinion in direct opposition to the Framers of those Rules but I must say I think it impossible to carry out Rule 4 at Nowpadah for instance where there are about 400 salt ryots the salt is brought to the Platform of an afternoon and the number of persons required to measure each mans basket full as he came from the pans would be at least quadruple that of the present establishment there would be incalculable loss to Government in receiving salt just taken off the pans and thrown into one heap and it would be a new and fruitful source of speculation and profit for the servants as it would be most difficult to fix any limit to the wastage of the new salt, as salt brought in of a damp day is more full of moisture than that produced on a hot dry day. The loss on the former by

by drainage is now borne by the ryot, who also look after his heap so that there is little danger of any salt being abstracted.

6. The Commissioner in his proceedings dated 23rd June inquires into the cost of Manufacture as far as I can ascertain a Jamatdar and 10 men mill in a month produce 12 Garces or 48 in the season of 4 months, the hire for which at 3 Rs. per Garce is 144 but as nearly a month is taken up in preparing the ground and again in storing the salt the ryots labour must be charged for 6 months this at 2 Rupees a man and 2½ Rupees for a Jamatdar would be 22½ a month or 135 for the season leaving a very small margin for profit when advocating the increase rate of hire for the Nowpadah ryots, I was not aware that those at Ganjam who get 6 Rupees a Garce are not obliged to

Fort St. George 11th May 1854

to keep their own salt, but this is done by Coolies. The Ryots at Nungadah and Womaramilly do it themselves for nothing.

7. Adverting to my letter of 23d June last on the subject I forgot to bring the case of the Shroff to your notice. The man who has to take charge of somewhere about two Lacs of Rupees and to give 2000 Rupees security draws 31/2 Rupees a month pay for less than the interest of his security money, besides which he has to send a Confidential person at his own expense twice a month to Chicacole, 40 Miles, no one can suppose his pay remunerates him for this, it is the perquisites he looks to. If I might be allowed I would beg of you to recommend that his pay should be raised to 7 Rupees with an assistant at 3 Rupees. I fear too that I have put the peons wages at too low a rate and that they should be 3 Rupees

Fort St. George 11th May 1854

a month, not too much for the labour they ought to undergo.—

8. I may in conclusion, I hope, remark that no great reliance can be put on the statement of the amount of Salt for home and foreign consumption for the Bunjaries cannot be prevented from selling their Salt as they go from Village to Village and of course when they are in great numbers they have been of late years they will materially interfere with the Country traders, and the sales for inland consumption will look smaller though the actual consumption is probably greater.—

Chicacole,
Principal Assistant,
Collector's Circuit Office,
Chutterpore,—

/Signed/ W. Knox
Acting Collector.—

Chutterpore, 20th April -
1854.

/Signed/ W. Knox
Acting Collector.

Ordered.

Ordered that the following letter be sent in consequence.—

To

The Acting Collector of Ganjam.—

(10-11)

Bd. No. 966.
To the Actg. Collector of Ganjam—
Sn. Cons. 11th May 1854

Sir,

With reference to your letter dated 25th April 1852, I am directed by the Board of Revenue to request that you will be good Enough to inform them what is to be understood by a Country Seer" alluded to in your reply to query 9- The weight in Tolas if it a weight or the tolas weight of water it can contain if it is a measure should be mentioned.—

2. You will also explain with reference to your reply to Query 12 how Rupees 6-6-2 has been obtained as the average cost per Garce- The Statement No. 3 only shews the average charges for the last 10 years during which period it is observed from reply 9 that the average quantity sold was Maunds 303902- or Garces 202- Taking therefore this quantity with the amount of charges, the average cost would be Rs. 6-12-11. per Garce.

Revenue Bd. Office,
Fort St. George,
11th May 1854

W. H. Bayley Esquire
Secretary to the
Board of Revenue
Fort St. George.

(12)

Bd. No. 1538.
From the Collector of Guntoor.—

Sir,

I have the honor to submit replies to the Queries contained in your Circular of the 15th Ultimo:-

Guntoor District,
Collector's Office,
Baupetlah 5th May 1854.

/Signed/ A. Purvis
Acting Collector

Query 1. The salt in this District is made on the low lands lying near the coast, the soil is a species of light clay impregnated more or less with salt and generally useless for any other purpose- Taking the last ten years the average quantity manufactured has been 3,221-287 or 9,84,610 Maunds, Vide Statement- A- The estimated extent of land occupied by pans, salt water reservoirs &c. at each of the four places of Manufacture in this District, is given in the Margin

	Acres
Chena Ganjam	415.
Pedda Ganjam	165.
Nizampatam	120.
Pairly	60.

The pans differ much in size both at the different places of manufacture and even at the same Cottaus- The most common size perhaps is about 3,000 square yards, but

but the quantity of Salt that can be made in each such pan in a season varies according to the locality, nature of soil &c.a. some of the pans at Chena Ganjam will yield 1,200 Indian Maunds while those at Nizampatam will not produce half the quantity. The quantity obtained moreover varies much with the season, a shower or two in April will throw back the Manufacture for a Month, while a continuance of a Moderate South easterly breeze, the Most favorable for the rapid production of the Salt will greatly increase the outturn. Much depends also on the previous Monsoon, if the rains have been heavy, or late, there is a proportionate delay in getting the pans free from water, and ready to commence working. It is difficult to name with any approach to correctness the extent of land in this Province, on which Salt might be manufactured. There are it is believed but few places near the Coast where it might not be made if required.

2. The pans are looked upon as private property are Mortgaged, bought and sold, and inherited. The condition under which they are held is well understood. The Collector determines the quantity of Salt required each Season, and at what Stores it shall be

made and the quantity is apportioned among the holders of the pans at the two × large stores in this District, the Manufacture is as far as possible carried on in alternate years, no claim to Manufacture Salt annually is considered to exist nor is any right supposed to be invaded or any compensation looked for when, as has been sometimes found necessary in concentrating the operations of the Manufacturers and placing the depots under better control, the pans in a particular locality are no longer used.

× China Ganjam
Pedda Ganjam

The pans are held by persons of all classes, some carry on the Manufacture on their own account, others sublet their pans as it were, giving the party who undertakes the Manufacture, many of whom are also engaged in the Cultivation of land from 4½ to 5½ or 6 Rupees per Garce, taking themselves the difference between the above amount and the sum paid by Government, viz.t. 7 Rupees per Garce of 120 Bengal Maunds.

Query 3 The Manufacture of earth Salt is not allowed in this Province, nor is spontaneous or swamp Salt ever Collected or sold on behalf of Government. The Collection and appropriation of such Salt by individuals

is

is considered as an offence against the salt laws and is punished by fine or imprisonment under Regulation I of 1805, care is taken to destroy as soon as produced all salt of this description.-

4th The land on which salt is intended to be manufactured, is in the first instance prepared either by ploughing or by digging, water is then let in upon it and the ground after being trodden by Cattle is carefully levelled with wooden hoes and left to dry for some days. The pan is then formed, each pan having a path down the Middle and being further divided by small ridges of earth into several compartments a small quantity of water is let into the pans, so prepared, and the ground again troden by men. This process occupies about twenty days. A pond[x] is dug in the vicinity, water strongly impregnated with salt being found near the surface, and the water drawn from it by pacatas into an open reservoir close to the pans. The water is allowed to remain in this reservoir for about a week, when it is let into the pans to the depth of from 3 to 6 inches. In 4 or 5 days an inferior description of salt is produced, at which time another inch of water is

[x] Note
At Nizampatam and Palic water from the Salt backwaters is often used.

is let in, and in another four days good salt begins to be formed. In about 10 days the salt is ready and is drawn from the pans with large wooden hoes or scrapers and left for a few days on the path way already referred to, to allow of the water draining off and the salt drying in some degree.[+] It is then carried in baskets to the platforms where each Pyol's salt is separately heaped. As soon as the first batch of Salt is drawn from the pans water is again let in and under favourable circumstances another crop will be ready for taking out in 10 days or so. The process is repeated till all the Salt required for the Season is made when no more water is allowed to be let into the pans and the Manufacture is put a stop to. Under ordinary circumstances this can be accomplished by the end of May. The Manufacture is commenced as soon as the pans are tolerably free from the water left by the rains. In the vicinity of each set of pans a raised plat form of earth

Storing

is

[+] Note
The labour of forming the pan as above detailed is of course not required each year, once made the ground only requires to be annually smoothed and the small banks raised.

is constructed, sufficiently large to receive all the salt likely to be manufactured in the pans under it, and surrounded by a broad ditch with generally but one entrance. These plat forms are frequently further protected by a hedge of prickly pear. It is upon these plat forms that the Salt is brought, each Ryots salt being separately heaped. It is not measured, but an estimate of the probable quantity is made when the Manufacture is finished and the salt is considered to be sufficiently dry the process of receiving it into store is commenced - when practicable the operation is conducted under the superintendence of a Covenanted Assistant certain Servants of the Land Revenue Depart=ment are summoned from the Talooks from which they can be best spared and with each of these one of the salt servants when practi=cable is associated and the storing proceeds a certain Number of Deloyets and Bonians also deputed to assist and keep order. The

Chena Ganjam	13
Pedda Ganjam	4
Nizampatam	3
Pairly	2

Number of plat forms at each Cottaur is given in the Margin

If there is a good deal of salt to be received as many as six parties are employed at the same time, but not all, of course on the same plat form, each party receives the salt for one heap of 10 Garce of 1,200 Indian Maunds

Maunds - under each party 5 Coolies paid by the Manufacturers each with a mercal are placed, and it is found that each party can with occasional relief of the Mercal Coolies and unless the heat of the weather should be more than usually great, store 3 heaps of 10 Garce, in the day - some extra Measurers as they are called who strike the Mercals when filled, are entertained during the storing, but no other extra ser=vants. These measurers are paid at the rate of from 6 Rupees to 8-10 per Mensem.

The Sales of salt are generally suspended at the large Cottaurs during the progress of the storing. This, as the Depots are so close to each other, and the storing at both does not go on at the same time, can be done without inconvenience to purchasers.

The storing save the charge above referred to for extra Measurers is at the expence of the Manufacturers, they have no difficulty in procuring as much labour as they require, the Manufacture having generally ceased before the storing, commen=ces. The salt heaps are placed in lines on the plat forms and regularly numbered. The quantity of salt received, as the storing of each heap goes on, is entered in a book, the pages of which are stamped and numbered to prevent the abstraction of a leaf or leaves, with the name

of

of the Ryot to whom the salt belongs, and the names of the Servants superintending the proceeding - Directly each heap is complete it is formed into shape, an oblong and thatched with straw - The expence of thatching is borne by Government as each Ryots salt is received into store, an entry, duly signed by the Servants superintending the process, showing the quantity of salt received from him is made in a book, the pages of which are numbered, as above, and which is kept by the Ryot - When the storing is completed the accounts are made up and the Money at the rate of 7 Rupees per Garce sent from the Collectors Treasury for distribution in the presence of the Covenanted Assistant - as each Ryot receives the amount due to him, an entry to that effect is made in his book, and he signs an acquittance roll in the presence of all parties concerned and two witnesses I should mention that at the beginning of the season when the quantity of Salt to be made by each ryot is determined, one Rupee per Garce is advanced to him, which sum is of course recovered when the salt is paid for - This payment is also exhibited in the Ryots book -

Sales

The salt is sold either whole-sale that is by the heap, when a deduction of 6 Rupees per

per Garce is allowed at retail by measure-ment in the same manner as it is received into store. Certain of the Depôt Servants attend daily at the plat form, the salt on which is under sale and supply the retail dealers who have previously paid for the salt at the Salt Cutcherry with the quantity required by them, the amount so paid is entered in a book with the Pages stamped and numbered - This book is taken to the place of sale, and the quantity of salt paid for by each party delivered to him with a pass. Whole-sale purchasers pay for the salt after they have received it -

Query 5. The salt is never sold by weight in this District -

Query 6. Each purchaser of salt is furnished with a pass and any salt under transport not covered by a rowanah is under section XII Regulation I of 1805 liable to Confiscation -

Query 7. In the statement forwarded marked B will be found the information required - There is no Covenanted Servant especially employed in the Salt Depart-ment - The details are generally conducted by one of the covenanted Assistants under the general Superin-tendence and Supervision of the Collector.

During

Query

8. During the season of Manufacture owing to a want of vigilance, and sometimes perhaps to the connivance on the part of the peons whose duty it is to prevent such practices, a small quantity of salt will from time to time be secreted and carried off to be disposed of as opportunity may offer, but the quantity so smuggled is on the whole believed to be but small - no instance of the Establishment of an illicit manufactory have ever been brought to light, such could hardly occur without immediate detection.-

9. The Salt is carried into the Nizams country principally by Bringaries, large parties of which class of people, come as soon as the rains are over, that is about the Month of December, to the Ganjam Stores, Crossing the Kristna by any of the various ferries between Nakoonambadah in the Palnad and Chintapully in the Coorapaud Talook, proceeding through the western Taluks of the District to the stores named, which are at the extreme South. Bullocks also are used by these dealers in the transport of the salt. It is not unusual for the same party to make two trips in the season if they find forage and water likely

to be available, and there is a good demand for the article in the Hydrabad Country - I have no means of knowing to what extent the Salt may be adulterated by those through whose hands it passes before it reaches the consumer, but as I believe it is generally sold by the retail dealers in the Nizams Country by weight, the heavier it is the better for the seller - The trade in the Salt for home consumption that is within the District is carried on by Bringaries and any other who are inclined to earn a livelihood thereby - I have no reason to think that the practice of adulteration obtains to any great extent. The Salt is throughout the District invariably sold by measurement. The average quantity sold for home consumption during the last 10 years is 9600 Imp. Mds which taking the adult population at 357,772 (according to the census of 1851) gives 10 3/4 Seers per head per annum, or taking the whole population (570038) 6 3/4 Seers per head - There is reason however to believe this to be below the truth - There is little doubt a portion of the

the Salt declared at the time of purchase has to be carried to other Districts or beyond the frontier is disposed of within it. The fear-lure of the means of conveyance may often compel the dealers to part with a portion of their stock before reaching their destin-ation. It will be seen from the State-ment marked C that altho in Fasly 1262 the Inland sales were unusually large the Home sales were below the average. The amount of Revenue derived from the sale of Salt for Home, Inland and Foreign consumption is shewn in the Statement just referred to.

10 No Salt is exported by Sea from this District nor is any supplied to the French Government.

Query 11 The average wastage on the stored Salt is exhibited in the Statement sub-mitted marked D.

Query 12 The average cost of the Salt per Garce (120 Salem Measures) to Government taking the last 3 years as given in the Margin.

Paid to manufacturer	7	- - -
Wages to Establishment	2	9 - 10 - 50
Cost of covering salt heaps	-	9 - 8 - 10
Do Repairing Platforms &c	-	2 - 2 - 33
Do Do Cutcherries	-	- - 10 - 1
Salt Roofs &c	-	4 - 5 - 34
Pay of a Boatman Vide No 16 in Statement B	-	- - 4 67
Repairing Vessels	-	- - 4 69
	10	7 - 2 - 34

There can be no doubt the actual cost of making the Salt at present is considerably less than the

price paid for it by Government or the pres-ent would not be, as they now are saleable.

Query 14 The names of the places at which Salt is made in this District and the estimated extent of Ground under cul-tivation are given in the Margin, the outturn and Sale for the last ten years is shewn in Statement A. Chinna Ganjam and Pedda Ganjam are within about 3 miles of each other, and the last hardly as far from the most northern of the Nellore stores. Pairly is about 25 miles north east from Chinna Ganjam and Nizampatam perhaps 8 miles farther east. I have lately recommend-ed that the small store at Pairly should be abolished. The sales are compa-ratively trifling in extent and yet during the season of manufacture more petty pilfering goes on than at all the other Depots together.

Average

Guntoor District Collector's Office Bapatla 5th May 1854. E E ffr [Signed] A. Purvis acting Collector

* The sales in this year were much enhanced in consequence of no Salt being available for sale during apart of the year in the adjoining District of Masulipatam

List

6454 Fort St George 11th May 1854

B. List of Salt Establishment in the Guntoor District as it stood on the 31st March 1854 Fusly 1263.

№	Name of Division	Name of Store	№ in Column of Remarks	Employment	№ of Servants	Salary of each per mensem	Total	Grand Total	Remarks
1	Chinna Ganjam	Chinna Ganjam	1	Tanadar	1	60	60		№1. The Tanadar resides at Chinna Ganjam the larger of the two Depots under his Superintendence, he visits Pedda Ganjam periodically and generally on any occasion when his presence at that place is required. He is responsible both for the cash and salt in store and for the correctness of all the accounts when the quantity of salt to be made for the year is determined by the Collector, he apportions the Total quantity to be made on each Manufacturer according to the number of his pans. It is his duty to watch the progress of the manufacture to take care that no salt of an inferior quality is drawn from the pans, or that a larger quantity of Salt is not made than has been sanctioned and generally to keep all the establishment under his orders to their duty. He also exercises the authority of head of District Police over four Villages in the immediate vicinity of the Depots.
				Peishcar	1	25	25		2. The Peishcar is principally employed in the preparation of the accounts transmitted daily, bi-monthly and monthly to the Collectors Office, in which he is assisted by №3 the Muddutgar. In the absence of the Tanadar the charge of that Officers duties devolves on the Peishcar.
				Muddutgar	1	10	10		4. One or more of these officers attend daily at the Salt platforms and Superintend the measurement and delivery of the Salt to purchasers, keeping detailed accounts of the same. They are also employed in looking after and keeping the accounts connected with the repairs annually required to the platforms. roads and bridges in the vicinity of the Stores. a portion of the time of one of them is taken up in the details of Police duties under the Tanadar. When the salt is received into store they are employed to watch the process and keep the accounts
				Measurers	1	7	7		5. Strike the measure during the time of retail sales and keep the tally.
					1	5	5		6. The duty performed by the Shroffs hardly requires explanation, they are jointly with the Tanadar responsible to the Cutcherry
				Shroffs	1	14	19

12- This officer has immediate charge of the Pedda Ganjam store but is subordinate to the Tanadar of Chinna Ganjam.-

Except the Salt Cutter (No 13) as they are called, who are employed in breaking up the Salt heaps, and in filling the measures at the time of Sale, the duties of the other Servants have been already detailed - at Chinna Ganjam Coolies are employed as occasion requires in breaking up the Salt and filling the measures.

14 The Nizampatam Tanadar exercises also a general Superintendence over the Salt Store - His duties connected with the Salt as well as those of all the other Servants under him are precisely similar as at Ganjam - He is the Sea

Cottapollem, but the duties are not very extended and he has the aid of his subordinates when necessary - He also exercises the powers of Head of District Police in four Villages. Of the 14 Peons at Nizampatam 10 are employed in guarding the platforms, one as a Pyqusty, and the remainder on ordinary duties. There are two Platforms at Paralia on which 4 of the eight Peons are employed, another acts as a Pyqusty and the remaining three are employed in ordinary Cutcherry duties either at Nizampatam or Pairlie as their services may be required.-

15- The Pairly Store is a very small one, but as it is some distance (about 8 miles) from Nizampatam the Goomastah in charge is considered to have a larger degree of responsibility than the officer holding the similar situation at Peddo Ganjam- There is no doubt however that this latter officer ought to get at least 20 Rupees salary- a recommendation to this effect has lately been made to the Commissioner-

16 This Boatman is employed in crossing the Tappals, public Servants &c over a small Salt water channel between the Town of Nizampatam and the Salt platforms and pans-

17- This man supplies water to the Servants and others employed on the Salt platforms during the sales and at the time of Storing-

18 and 19- The duty of these Servants is to examine all accounts received from the Tanadars and to prepare in the Vernacular those required for submission to the controlling authorities-

Order thereon

(12-13)

Fort St. George 11th May 1854.

No. 50

To.

B. Cunliffe Esqre
Sub Secretary to the
Board of Revenue
Fort St. George.—

(14)

Bd. No. 1524.

From the Collector of Nellore.

Sir,

I have the honor to acknowledge the receipt of the Extract from the Proceedings of the Board under date the 25th April 1854 requiring some further explanation relative to the replies furnished to the Board's Queries regarding the manufacture &c. of Salt.—

Submits the further explanation regarding the manufacture &c. of Salt required in the Proceedings of the Board dated 25th April 1854.

Query II.

The Cadeewarm appears to have been fixed at 2 Madras Pagodas equal to Rupees 7-11-2 per Garce by Mr. Travers as recommended in Para 4 of his letter to the Board of 16th December 1805, the Manufacturers agreeing to be answerable for all losses arising from Wastage, and to repair the Pans at their own expense. The Board having however under date 31st July 1826 ordered

Fort St. George 11th May 1854.

ordered the discontinuance of the practice of putting a larger quantity of Salt into the heaps than was actually paid for, and at the same time directed that where such had been usual a proportionate reduction should be made in the price paid for the salt. Mr. Smalley reduced the Manufacturer's share to Rupees 7 -8-1½ as intimated in his reply of the 17th August of the same year, and this is the rate now paid. The rate of Coodeewarum is the same at all the Pans, and those that receive it are considered to have a Meerasy right in the land.—

Query XIII.

The Manufacturers alluded to in this reply stand to the Pan holders in the position of under Renters, Tenants, or Servants according to the Conditions entered into by them with the owners of the Pans. It is not

usual

Fort St. George 11th May 1854.

usual in this District to pay any Compensation to the Merassydars of discontinued Pans.—

statement annexed to the reply to Query 12.

The proportion Rupees 4 — 14 — 5, Salary of Establishment, is got by dividing the average amount of charges on account of Salary of Establishment for the last 6 years, by the average number of Garces sold during the same period, as shown in the margin.—

* Gnl. Regt. Rs 2,63,536 ÷ 5,24,144 = 14-5

The Brown Salt alluded to is merely Salt of a somewhat inferior description, consisting of smaller Crystals that the white; and of a muddy Colour caused either by the nature of the soil, or from dust blowing into the Pans during the time of manufacture.—

The

Fort St. George 11th May 1854.

The Brown salt is what is sold for home and inland consumption at the authorized rate of 120 Rupees per Garce if sold by retail, but at 114 Rupees if in entire heaps. The white salt goes to Chittagong and Calcutta and to all places to which salt is exported by Sea.—

Query 1.

"With reference to the observations made by the Board in the last para; of their Proceedings, I beg to state that further enquiries show that the yield mentioned by me is not too high for the best pans in this District

Statements.

Fort St. George 11 May 1854.

statements have been taken from pan holders, who happened to be in Nellore which fully support the fact that a pan 6 yards by 3 yards is capable of producing 10 Marcals each yield, or 120 Marcals in one season, under favorable circumstances - The usual time necessary for each yield appears however to be more than a week, and to vary from 8 to 20 days, but on the other

other hand the manufacturing season may be protracted beyond 3 months I have also recently visited the Pans at Pestnapatam during the period of Manufacture and seen the salt taken out, and although this alone would not enable me to state precisely how much a given surface of pan, produces, the thickness of the layer of salt therein is strongly confirmatory of their being very productive - From the mention, by the Board, of the produce per acre - there may possibly be some difference in the mode of manufacture here and elsewhere -

Nellore, Collector's Office, 6th May 1854.

Order thereon -

No. 20.

To,

W. H. Bayley Esqre

Secretary to the

Board of Revenue

Fort St. George

16

Bd. No. 1246

From the Collector of Bellary

Sir.

I have the honor to acquaint you for the information of the Board that an annual allowance of Rupees 189-9 ½ was hitherto paid by deductions from the Kist. bundy bering for the support of the Badaserah Dhurga in this District, and subsequently the Board in their Extract of Proceedings of the 3d July conveyed in that of 15th November 1852, have directed that the present money payment should be made from the Treasury, lapses being reported for orders as in all similar grants.

Syed Galib

The Manager of the Dhurgah being entered in the Public service as a Jamadar in the Cavalry under the orders of the Commissioner for the Territory of His Highness the Rajah of Mysore represents that he cannot attend periodically and receive the allowance

allowance, and he requests that as it is granted for the support of the Dhurgah it may be paid to any of his agents at the place where the Dhurgah is situated whom he may nominate to look after the affairs of the Dhurgah.—

I therefore beg to request you will be good enough to obtain the instructions of the Board for my guidance, and to recommend that the request of the Jamadar Syed Galib may be complied with.

Bellary District
Collectors Office
Circuit at Ramandroog
15 April 1854.

Signed C. Pelly
Collector

B.L. No 980.
Proceedings thereon

16-17

As the allowance drawn by Syed Galib is a service Yeomiah, the Board of Revenue do not see any objection to its being paid to the deputy or agent who may be appointed by him to conduct the duties prescribed by the Grant during his absence.

The

The Collector however will take measures to satisfy himself from time to time of the Existence of the above incumbent, in order that when a lapse occurs, it may be duly reported for the orders of Government—

Ordered to be recorded

To

W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George

Sir,

Bl. No. 1851.

From the Collector of Cuddapah

I have the honor to report for the information of the Board of Revenue that I have been necessitated by indisposition to make over the Current duties of this District to the Sub Collector now at Nundyalum, and have requested that Gentleman to Continue the Settlement of the Goorrumcondah Talook. I was taken very unwell on the 1st instant and was treated by my dresser till the evening of the 4th when I found it necessary to return from Rayachoty to Cuddapah and place myself under the care of the Station Surgeon. That Officer has informed me that I shall not be able for at least a week to undertake my duties at Goorrumcondah. I shall however as soon as permitted proceed thence and resume charge.
